- CHIEF JUSTICE TAFT
- IDEAL AMERICAN
- GREAT CAREER
- U.S. IN HAITI
- SAVAGE PEOPLE
- COMMERCIAL WISDOM
- INEVITABLE MONEY

By Brodie Saylor

WILLIAM HOWARD TAFT, in many ways the greatest citizen the United States has ever produced, is dead. His passing will be mourned by people in all parts of the world; he was held in high esteem wherever he was known. A man of strong character, high ideals, attractive personality, and democratic ideas he enjoyed a degree of popularity among all classes of people attained by few men of equal rank. He was called the ideal American.

OUTSIDE HIS own country, Canada will mourn his loss most. For many years past, he has spent his summers in this country, maintaining a vacation home at Murray Bay, on the lower St. Lawrence. He will be missed not least by the children of the summer colony, to all of whom he was the closest of friends.

MR. TAFT'S CAREER was one of great honour and achievement. He was the only man to hold the two highest positions in the government of his country—President, and Chief Justice of the Supreme Court. He was as big of heart and mind as of body, disdaining petty jealousies and prejudices, and always impatient of the limitations of party politics. He was a tireless worker for the public good, and distinguished himself in countless ways in the service, not only of his own country, but of all humanity.

PRESIDENT HOOVER'S committee investigating the situation in Haiti announces that their plan for a provisional government in Haiti has met with the presidential approval.

It will be interesting to learn just what the plan is and how well it works. The Americans, in regard to Haiti, are in the position that whether they stay in or get out, the consequences are liable to be unpleasant.

Haiti is a nation of blacks, almost entirely illiterate, and highly superstitious. The great mass of the population is held in terror of witch-doctors and other leaders of the cult called Voodooism, a hideous form of savage serpent worship.

After Haiti became a republic, it was asserted that no President could hope to hold his office unless he shared his rule with the Voodoo. Two who made the attempt saw their governments fall in bloodshed. The history of that country has been one of continual political chaos, bloodshed, terror.

Recently, the infant of a foreign visitor to Haiti was stolen from his carriage, presumably for sacrifice. The child was recovered, but in a state of ill health due to drugs which had been given it. Two years ago an attempt was made to abduct an American child in Havana, Cuba. The kidnapers were arrested and they confessed that the advice of a Haitian witch-doctor was that a sickness with which one of them was afflicted could only be cured by the blood of a white child—and this had led to the attempted abduction.

THE AMERICANS entered Haiti to protect the rights of the whites resident there, and with the consent of the educated blacks and mulattoes. Passing of a few drastic laws, and introduction of a system of education have done much to weaken Voodoo's sway. The rites still exist however; the fire is dampened, but still smouldering, ready to burst forth upon the least provocation.

Withdrawal now, will mean a revolution, it is said; to stay will mean the constantly growing dislike of the majority, with a possible bloody climax.

THE TROUBLE is that American intervention has been half-hearted, just sufficient to maintain a semblance of law and order. There has been too much consideration for the rights of the majority, especially when those rights mean the right

WOMEN'S CLUB HELD ANNUAL BRIDGE FRIDAY

Successful Gathering Yesterday At Windsor Hotel

Members and friends of the Outremont and Northend Women's Club congregated yesterday at the Windsor Hotel where they held their annual bridge.

Among the table holders included: Mrs. John Phillips, Mrs. W. Whitrod, Mrs. E. T. Sampson, Mrs. E. Biefer, Mrs. Frank Allen, Mrs. F. E. O. Shea, Mrs. T. Mulcair, Mrs. E. Devaney, Mrs. E. Gouldthorpe, Mrs. D. E. Bradley, Mrs. J. Hess, Mrs. B. H. Swift, Mrs. C. Wheatley, Mrs. A. E. Shute, Mrs. I. Rodrigue, Mrs. T. Roberts, Mrs. J. H. Pallen, Mrs. A. McK. Weir, Mrs. G. L. Martin, Mrs. R. Mann, Mrs. F. Funnell, Mrs. T. Noall, Mrs. L. A. Hutchison, Mrs. E. Johnson, Mrs. W. J. Lambert, Mrs. J. E. Scott, Mrs. J. L. Brown, Mrs. H. C. Banning, Mrs. M. T. Wiltshire, Mrs. James Mock, Mrs. F. E. Fox.

Mrs. A. M. Wentworth, Mrs. H. L. Cook, Mrs. R. A. Hooper, Mrs. A. Parkinson, Mrs. E. A. Kearns, Mrs. A. Burgess, Mrs. Norman Weir, Mrs. W. Baldwin, Mrs. H. W. Glazebrook, Mrs. H. B. Watts, Mrs. H. North, Mrs. J. F. Kearns, Mrs. W. G. Hopper, Mrs. Geo. Hart, Mrs. G. Wellings, Mrs. A. N. Beer, Mrs. T. N. Rowling, Mrs. H. MacMillan, Mrs. E. Chipchase, Mrs. H. Grier, Mrs. N. MacLean, Mrs. Harold Gibson, Mrs. T. Jones, Mrs. William Hart, Mrs. F. Cartledge, Mrs. A. Dempster, Mrs. E. Rutherford, Mrs. P. Pinder, Mrs. W. Bowden, Miss A. Sims, Mrs. E. A. Fryer, Mrs. J. J. Bunn, Mrs. R. T. Morton, Mrs. J. Henderson, Mrs. T. Pugh, Mrs. J. M. Dever, Mrs. P. J. Jordan, Mrs. G. W. Deshaw, Mrs. William Box, Mrs. G. S. Cameron, Mrs. M. J. Conway, Mrs. H. McIntyre, Mrs. W. Holland, Mrs. F. O. Farey, Mrs. J. D. MacVicar, Mrs. F. B. Thomas, Mrs. J. Ward, Mrs. W. A. Thompson, Mrs. N. Esdon, Mrs. M. Evans, Mrs. A. C. Livermore, Mrs. J. C. Allen, Mrs. A. Richards, and Mrs. R. N. Balsillie.

Y.W.H.A. Will Hold Musical Concert

The ladies' A and B Badminton tournament, which was held at the North Branch Y.M.C.A. has been concluded. The winners of the tournament are Mrs. C. Sharpe, and Mrs. Packard, while the runners up are Mrs. Rough and Mrs. Thompson.

to pillage, murder, and terrorize un molested.

WILLIAM FEATHER, in his interesting little magazine writes: "In 'The Making of a Stockbroker' the hero, Jack Wing, says of his senior partners: 'Both Mr. Bronson and Mr. Barnes were hard workers themselves and permitted no soldiering; but that did not prevent them from being considerate. This enabled them to develop at once a profitable business and a highly efficient organization. They knew just how far work would go, and what brains and character could do, and how to reward these. It is all a part of the business of being successful. To make money isn't enough in business. To make money comfortably, pleasantly, without bitter aftertastes, and by giving value, in goods and service, to make money inevitably, is the highest form of commercial wisdom.'

"THE LAST two sentences express a thought that must surely come to the mind of every first-class man. Where is the wisdom of piling up a fortune if one acquires an equally large pile of hates and regrets?"

"I like the phrase 'to make money inevitably' because that is exactly what the men of high faith and high ideals are doing. They are thinking their obligation to customers, and ing first of their self-respect, of their community, and because their aim is not restricted to the dollar sign, they often find when they count their gains that they have accumulated more than all the rest."

C.P.R. ENTERS BROADCAST FIELD

Rex Battle

John Goss

Alf Heather

A series of radio broadcasts has been inaugurated by the Canadian Pacific Railway every Friday night from 10 to 11 over CKAC in Montreal and CKGW in Toronto with possibility of extension to other major Canadian cities in the near future. The basis of the programme has been organized under the baton of Rex Battle, whose work as the director of concert orchestras in Montreal and latterly at the Royal York, Toronto, has won him great popularity. A small opera company has been organized for the production of light operas such as have featured the Canadian Pacific Music Festivals at Toronto, Winnipeg, Regina,

Vancouver and Victoria, and these will be given under the direction of Alfred Heather, well-known character actor and impresario. Ballad operas in French produced at the Quebec Festival, together with French-Canadian folk songs, will be produced under the direction of Charles Marchand, popular folksinger. The larger illustration shows a sea-chantey scene from the ballad, "Bound for the Rio Grande," with inset of John Goss, who will star in the radio production. The other insets are of Rex Battle, leader of the orchestra, and Alfred Heather, character actor and producer of the ballad operas to be broadcast.

In and Around Parliament

Written specially for The Examiner by Mr. R. S. White, member of Parliament for Mount Royal Division

Ottawa, March 13.—If the present session of parliament should gain a place in history, it is not unlikely that it will be remembered as the one in which the unusual became the commonplace. Every few days there transpires some event that sends the veterans of the house on a long excursion back into memory in search of a precedent.

The classic instance of this so far has been Premier King's use of the almost forgotten "Motion to Commit" as an effective closure with which to stop the debate on the resolutions of Dr. Peter McGibbon (Cons., Muskoka-Ontario) and W. G. Ernst (Cons., Lunenburg) on the returned soldier issue. The resolutions would have involved a shift of the burden of disproof from the veteran to the Board of Pension Commissioners in pension applications: They were received with non-partizan approval and, had they been allowed to go to a vote, would unquestionably have been adopted and eclipsed the Government's more restricted measure to provide allowances for veterans absolutely unemployable or in want. Premier King's skill as a parliamentarian, however, stood him in excellent stead in protecting his legislation from being superceded.

The most recent occurrence of the unexpected has been the strategy of the Government in amending the want of confidence motion which Mark Senn of Haldimand presented on the score of the Order-in-Council extending tariff concessions to New Zealand. After the debate had shown that the drop on the duty on butter from four to one cent per pound had brought 35,000,000 pounds of butter into the country last year, although only 150,000 pounds had been imported in the year before the present agreement became effective, Hon. Mr. Dunning, Minister of Finance, took the floor on behalf of the Government. Considerable interest centred in his address. It was an open secret in the House that not only the Progressives but the Western Liberals as well were finding the New Zealand trade arrangement most difficult to justify to their constituents who saw only the steady shrinkage in their dairying profits. Members, including the Progressives and Western Liberals themselves, wondered how they were going to escape supporting the opposition's want of confidence amendment.

Hon. Mr. Dunning rather disappointed the opposition by agreeing with them. He justified the Conservative criticism of the New Zealand arrangement by agreeing that it was unsatisfactory, but also disclosed the fact that the government was negotiating a permanent treaty to replace it. He therefore amended Mr. Senn's motion to the effect that the house believed that the New Zealand order-in-council should be replaced by a treaty, executed on equitable terms and ratified by parliament.

It is unusual for the government to amend a want-of-confidence motion instead of facing it. The situation, however, was one that called for strategy rather than stubbornness. The vital consideration of the moment was that the Progressives and Western Liberals should be put into a position to vote without the government suffering. The whole situation emphasized the fact that the session this year is very much in the nature of a game of chess, with the issues as the squares on the board and the government playing upon them with the skill of a Capablanca.

City Council Resolution

The following resolution, expressive of regret on the part of the members of the City Council of Outremont at the untimely passing of Rev. Fr. Donat Richard, was passed immediately. It resolved:—"That the Mayor and City Councillors of the City of Outremont have learned with regret the death of Rev. Father Donat Richard, pastor of the parish of St. Viateur.

The City of Outremont loses in him a devoted priest and one of its best citizens.

They wish to offer to the St. Viateur community their most sincere sympathy on the occasion of the death of one of their most brilliant fathers."

Fair-St. Giles to Hold St. Pat. Concert

In the Assembly Hall of Fairmount-St. Giles Church on Monday evening next, being St. Patrick's Day, a first class Irish concert will be given. A goodly group of artists will render Irish music, both vocal and instrumental; the program also will include many Irish recitations. On Tuesday evening at 8 o'clock the Men's Association will hold their regular meeting; after the usual recreation period, an address on "Ireland" will be given by Rev. J. W. Johnston of St. Lambert, the famous "Kiwian orator". Men of the district are invited to this meeting.

SPECIAL ASSESSORS STUDYING DISTRICT

A special committee of consulting assessors are making a study of Assessment Rolls of the Montreal Metropolitan District. The study is being made with a view to establishing a uniform basis of assessment of the said municipalities. This fact was brought out at the last meeting of the Outremont City Council, and is of considerable interest to the public.

MARCONI COMPANY BUYS SITE IN TOWN OF MOUNT ROYAL WILL ERECT RADIO BUILDING

Announcement Made Yesterday That Work Would Start In Spring — Will Manufacture Radios and Parts in New Plant.

Announcement is made that the Canadian Marconi Company has purchased a site of 125,000 square feet of land in the Town of Mount Royal where work on the erection of a new manufacturing plant is already under way. The success achieved by Marconi radio receivers and Marconi commercial transmitting and receiving equipment in recent years has made the present facilities inadequate to care for the steady and growing demand for all Marconi products.

Plans for the new building were prepared by Ross and MacDonald, Montreal architects, and the construction work is in the hands of the Foundation Company, Limited, which plans to have the new structure completed and ready for occupancy in April.

Anticipating the need for further growth in the future, the plant is being so constructed as to permit still greater expansion as the need arises.

It is stated that this new factory, the future home of Marconi Radio,

will rank with the finest radio manufacturing plants on the continent. The type of equipment to be installed will be the latest known to the radio manufacturing field. In all, 45,000 square feet of manufacturing space will be available and no single detail will be lacking to make possible the efficient production of the latest achievements of Marconi radio engineers.

It is felt that the location of the new plant in the Town of Mount Royal will offer strategic advantages inasmuch as it borders Montreal where the head offices of the Canadian Marconi Company are situated in the Marconi Building. In addition it provides excellent rail shipping facilities at its very door.

No definite announcement has been made concerning the new Marconi models to be introduced during 1930, but it is predicted that they will embrace many desirable features far in advance of anything that has heretofore made its appearance in the Canadian radio field.

MRS. J. SCOTT SPEAKS TO FAIR-ST. GILES W.M.S.

States That Society Should Be Deeply Interested In Temperance

SPLENDID PROGRAM

Mrs. Griffiths Sang Appropriate "What Should He Find Should He Come Just Now"

The regular meeting of the Woman's Missionary Society of Fairmount-St. Giles United Church, was held on Tuesday afternoon in the church parlor. Mrs. I. Thompson presided.

The meeting opened with devotional exercises led by Mrs. M. J. Fenner, Mrs. Latham and Mrs. Curran. Reports of the Presbyterian held in Eskine Church, were given by Mrs. M. C. Callum and Mrs. Geo. Rorke.

Japan was reported as being 98 per cent literate being the largest percentage of literate people in any country in the world. A resolution passed at the Presbyterial was to the effect that the Government be requested to ban all liquor advertising on public buildings and highways. Mrs. John Scott was the speaker for the afternoon and told why the Woman's Missionary Society should be deeply interested in Temperance. She asked what attitude should a W.M.S. member take in regard to this question? And answered as follows:

A W.M.S. member should be a total abstainer, firstly for her own sake and secondly on the grounds given by St. Paul viz: as an example to others.

(b)—Because she should keep other people to stand against it.

(c)—For the sake of her family.

(d)—Because of the effect it has on missions, the same boat which carries out missionaries to elevate the people, in a great many instances, also carries liquor to debauch them.

(e)—She ought to fight liquor in her own interests. Many cases were cited to show of deaths because of reckless drunken drivers.

Mrs. J. R. Dobson moved a vote of thanks to the speaker, Mrs. Griffiths sang very beautifully "What should He find should He come just now". Mrs. Roy Bissell resigned from the position of corresponding secretary and Mrs. Biggar was appointed to fill the position.

Arrangements were made for a St. Patrick's Tea to be held on Tuesday afternoon, March 18th, in the Assembly Hall. The Tea room will be in charge of Mrs. Milton Yale, the home-cooking table in charge of Mrs. H. S. Shearer. The program will be

ALD. J. ETHIER HAS RELAPSE

Word has been received that Ald. Joseph Ethier, of Outremont, has had a relapse of an illness from which he was suffering. Ald. Ethier was successfully operated on at the Mayo brothers hospital at Rochester, Minnesota, after which he went to the Hotel Windermere, Santa Monica, California, to recuperate.

North Branch Y.M.C.A. Ladies' Badminton

On March 16th, a musical and dramatic concert will be held at the Y.W.H.A. in Outremont. The concert will be under the direction of Miss Mary Potashner, Miss Shapiro and Saul Delovitch.

Among the attractions will be a piano solo by Miss Shapiro, a mandolin duet by Miss Mary Potashner and Saul Delovitch, A choir, under the leadership of Mrs. Shapiro, will render several selections, and a one act drama by the Y.W.H.A. Juniors gives promise of considerable interest.

THE RHYMING OPTIMIST

O watching you by day by night
I've learnt to love you so.
Or Lake! a child of many moods
You're every mood I know

I've seen you joyous! smiling!
Your bright eyes sapphire blue!
Your rippling bosom lovely
With every sunset hue!

I've seen you crossly scowling!
I've heard your angry moan!
I've felt your far-toss'd teardrops
By wayward breezes blown!

When flaring storm-clouds grumble
You fearsome clutch the Hills!
You nestle close in terror
When Northwind loudly shrills!

Carress'd at eve by moonlight,
I've seen you slumbering lie;
While breezes hymn thee softly,
A lonesome lullaby.

O Lake, a child of many moods,
Tho' every mood I know;
Within my heart by day, by night,
I'll always love you so!

in charge of Mrs. A. B. Rilance. The following artists have been secured for the afternoon, Soprano soloist, Mrs. Griffiths, Mezzo-soprano, Miss Dorothy Flower, Pianist, Miss Muriel Amos and Violinist, Miss Irene Burrell. The treasurer reported a balance of \$46.41 for the month of February.

MONTREAL, MARCH 15, 1930

St. Patrick's Day

On Monday, next, all the good Irishmen of Montreal will celebrate St. Patrick's Day. The parade, of course, will be held Sunday, preceding the holiday. Alderman O'Connell will again, most likely, lead the procession, and hundreds will follow. St. Augustine's Church of N.D.G. will take an active part in the proceedings.

St. Patrick was born in 387 A.D., his birthplace is not known although it is believed that he was born in either Scotland or Wales. Some state that France is the land of his birth, and others say that he was born in England.

Regardless of his "foreign" birth, he is the patron saint of "Erin Isle," and he is the subject of many legends connected with the Irish nation, being credited among other things with driving the snakes out of Ireland. He was carried to Ireland by pirates in the year 405 A.D. While in captivity in Ireland he formed the idea of evangelizing it. After six years he escaped to Gaul and in 432 he was consecrated and came back to convert the people, who already had some foundation of christianity.

He worked hard and after many years his labors were crowned with success.

Joe Mercure Has Sense of Humour

Joseph Mercure, eminent alderman for Delorimier Ward, and pretender for the throne at present graced by the manly anatomy of Camillien Houde, broadcast his election platform last week. Whether Joe was in earnest or merely trying to be funny has not been definitely ascertained, but his manifesto bears all the earmarks of a fine sense of humour on the part of its author. In fact, one is strongly led to believe that Joe has some Irish in his ancestry somewhere.

Joe says he is possessed of a strong inclination toward fair play, and in earnest of his claim, he says that he will retire in favour of an English candidate on the following conditions:

If Mayor Hogg, of Westmount, retires in favour of a Frenchman.

If Lord Atholstan immediately starts an editorial campaign toward having French taught in the other provinces of Canada.

If Lord Atholstan will facilitate his (Mercure's) election in St. George's Ward (of all places).

That an English Mayor, if and when elected, retire at the end of one term.

Joe advanced several other conditions along the same lines. Joe's big-hearted generosity will no doubt make a strong appeal to a certain class of the electorate, but it won't raise any hearty cheering in the west end of the city.

The consensus of opinion seems to be that Joe either was talking with his tongue in his cheek, or that he had just returned from a visit to Berthierville.

The Week's Sunday School Lesson

Specially Prepared for the Examiner by the Press Pulpit

Lesson for March 16, 1930

PARABLES OF THE KINGDOM
Matthew 13:31-33, 44-52.

Golden Text—"The kingdom of God is not eating and drinking, but righteousness and peace and joy in the Holy Spirit."—Romans 14:17.

Again we must look back to where we first tried to understand something of the amazing future that Jesus talked about and which He called the Kingdom of God or the Kingdom of Heaven. We can think of it now as a personal. Every person who has a genuine experience of Christ has that kingdom within himself. He is a subject of God's. He recognizes the dominion of God in the earth and in his own heart. We may keep on thinking of the Kingdom as an ideal in connection with the social order when love shall be the moving motive for all mankind and selfishness as remote as cannibalism. But it is something more. The Kingdom of God is a state in the individual consciousness. And so it is both things at once. Little wonder that there has been some confusion about it. The Kingdom is both present and future. In one aspect it is outward and a world-wide ideal. In another aspect it is inward, a spiritual conception having its basis in the recognition of God's rule in the individual life.

We must now look at four or five separate parables which reveal to us different angles of the Kingdom.

The parable of the mustard seed teaches us the fact that the kingdom does not burst on a full grown, but that it begins very small and grows amazingly. The mustard seed was their smallest seed, but it grew into quite a tree. In the individual a few words sometimes set in motion a development that changes a man's whole life, but it is a gradual growth. In the social sense we can see how small the kingdom was at the outset. First, one man, Jesus, committed to the ideal. Then we have a little group of a dozen; later one hundred and twenty-

ty. In three hundred years Christianity became a public power and began to affect society at large. In 1900 years it has grown to immense proportions, not only in numbers and power, but also in the changes that it has made. And the work has only begun. From what small beginnings this tree of life has grown!

The parable of the leaven shows something of the process by which this is done. Yeast is to most of us an interesting and curious thing. It too is a growth, and it spreads from particle to particle with the silent ubiquity with which all we call growth proceeds. Moreover, when hid in the meal, it works from the inside, outward. Much of its work remains invisible. One bit of the leavened flour influences the bit immediately adjacent, and it too becomes leavened. In just the same way, the most powerful means of transforming lives is not usually the most dramatic. Eloquent sermons do not affect men so much as eloquent living. It is the person that fructifies so that it becomes fruitful.

The parable of the hid treasure teaches us the enthusiasm and the value that a man gives to the idea of the Kingdom when he finds what it really is. This illustration is no so familiar with us as it was to them. We place our money in banks for safe keeping. We have safety deposit boxes in protected places for valuables of all kinds. There were no such means of protection in those days. Of course there were banks and bankers, but there was also a rapacious Roman tax department and it was not prudent for a man to let the officials know how much he possessed. The result was that some men dressed and appeared as poor men and had at the same time buried treasure, money or jewels buried somewhere in their fields. The hope always was that some day conditions would change. Not infrequently the person included in this meeting or location of the hidden treasure. His hands were sold or rented and some-

How to Make Piquant Dressings For Use With the Winter Salads

The simplest, every-day vegetables may be made into a tasty, appetizing salad by combining with a well-seasoned dressing.

The following piquant dressing recipes have been recommended by readers of the cookery page:

CHEESE SALAD DRESSING
Four tablespoons salad oil, 1 teaspoonful salt, 1-4 teaspoonful pepper, 2 tablespoons vinegar, 1 teaspoonful Worcestershire sauce, scant half-cupful grated Canadian cheese.

Mix the ingredients in the order given; shake thoroughly. Serve on green salads.

OIL DRESSING
Beat together until thoroughly blended 1-2 cupful Mazola, 3 tablespoonfuls lemon juice, 1-3 teaspoonful salt, 1-8 teaspoonful paprika, 1 tablespoonful fruit sugar. This dressing is frequently enjoyed when an olive oil dressing is found to be too heavy and rich.

SOUR CREAM SALAD DRESSING
One teaspoonful mustard, 1 teaspoonful sugar, 1-2 teaspoonful salt, fuls butter, 1 egg, 1-3 cupful hot 1-2 cupful cold milk, 1 1-2 teaspoon-spoon of pepper, 1 tablespoonful flour, vinegar, 1-2 cupful sour cream.

Combine the dry ingredients in the top of the double boiler. Beat the egg, add the milk and stir into the dry ingredients gradually. Cook, stirring constantly, until the mixture coats the spoon—do not let the water boil in the bottom of the double boiler. Add the hot vinegar, blend well and remove from the heat. Cool, and add the sour cream.

QUICK MAYONNAISE DRESSING
One teaspoonful salt, 1 teaspoonful sugar, 2-3 teaspoonful mustard, few grains cayenne, 1 egg, 1 tablespoonful vinegar, 1 1-2 cupfuls salad oil.

Put salt, sugar, mustard and cayenne in mixing bowl, add egg and beat well. Then add vinegar slowly. Beat well and pour on 1-4 cup salad oil in a steady stream, beating between additions until mixture is well blended.

CREAM MAYONNAISE DRESSING
Beat 1-4 cupful cream until almost

stiff and beat in 1-4 to 1-2 cupful mayonnaise dressing.

A FAVORITE SALAD DRESSING
Three-quarters of a cupful mayonnaise or boiled dressing, 2 tablespoonfuls finely chopped green pepper, 2 tablespoonfuls finely chopped canned pimento, 1 hard-cooked egg, 1 tablespoonful Worcestershire sauce, 1-2 teaspoonful salt, 1-4 teaspoonful paprika, 1-2 cup whipping cream.

Mix together the chopped green pepper, pimento and hard-cooked egg cut in very small pieces and the sauce, with seasoning of salt and paprika.

Just before serving add the mayonnaise or boiled dressing; then fold in the cream, which has been beaten until stiff.

Delicious served on plain lettuce, in cabbage salad, or on other green salads.

SPANISH SALAD DRESSING
One teaspoonful sugar, 1-2 teaspoonful mustard, 1-8 teaspoonful paprika, 3 tablespoonful olive oil or salad oil, 1 tablespoonful lemon juice, 1 tablespoonful cold water, 1 tablespoonful tomato catsup.

Beat with a Dover egg-beater just before serving.

stiff and beat in 1-4 to 1-2 cupful mayonnaise dressing.

SPANISH SALAD DRESSING
One teaspoonful sugar, 1-2 teaspoonful mustard, 1-8 teaspoonful paprika, 3 tablespoonful olive oil or salad oil, 1 tablespoonful lemon juice, 1 tablespoonful cold water, 1 tablespoonful tomato catsup.

Beat with a Dover egg-beater just before serving.

SPANISH SALAD DRESSING
One teaspoonful sugar, 1-2 teaspoonful mustard, 1-8 teaspoonful paprika, 3 tablespoonful olive oil or salad oil, 1 tablespoonful lemon juice, 1 tablespoonful cold water, 1 tablespoonful tomato catsup.

Beat with a Dover egg-beater just before serving.

SPANISH SALAD DRESSING
One teaspoonful sugar, 1-2 teaspoonful mustard, 1-8 teaspoonful paprika, 3 tablespoonful olive oil or salad oil, 1 tablespoonful lemon juice, 1 tablespoonful cold water, 1 tablespoonful tomato catsup.

Beat with a Dover egg-beater just before serving.

Appetizing Fish Dishes

SALMON CUSTARDS

Remove the skin and bone from a tin of salmon, and flake or chop the meat in small pieces. Mix with one-half teaspoon salt and a pinch of pepper. Butter a custard cup for each person to be served, and shake over the butter some finely chopped parsley, then fill the moulds loosely with the flaked fish. Make a custard mixture of 2 eggs, and 1 1-2 cups milk, seasoning to taste with salt and pepper. Fill each mould with the mixture, cover with buttered paper, stand mould in a pan of boiling water to come half way up the moulds, and steam or oven poach until set. Turn out carefully and serve piping hot with a piquant sauce.

STEAMED SALMON LOAF
One can salmon, chopped fine, and bones and skin removed, 6 soda biscuits, rolled fine, 3 eggs, 1 cup sweet milk, a small piece of butter, pepper and salt to taste, 1 teaspoon chopped parsley, 1 teaspoon lemon juice.

Method: Mix salmon and cracker crumbs. Beat eggs and add to milk, together with salt and pepper, then add to fish mixture. Slowly add the lemon juice, then the butter—melted—mix well and pour into buttered dish. Steam for two hours. Serve with plain sauce, or with parsley or egg sauce.

FISH A LA NEWBURG
One and one-half level tablespoonfuls each of flour and butter, 1 1-2 cupfuls top milk, 1 1-2 tablespoonfuls chopped green pepper, 1 1-2 tablespoonfuls chopped pimento, 1 tablespoonful grated onion, 1 1-2 cupfuls tuns fish or other fish, 1 egg.

Flake the fish, discarding bones and skin. Melt the butter, add the flour and stir until bubbling. Add the cream and bring to boiling point. Add pepper, pimento, onion and fish, add the egg, slightly beaten, and cook for 3 minutes. Serve in patty cases or on toast.

Drapes Are Putting Flares Out

The flare is quite put out over the way drapes are taking the laurels this Spring. In fact it is faced with the realization that its Winter popularity will not be repeated during the coming season. There is an intriguing subtlety about the way drapes have managed to influence the silhouette, moulding the hips and softening the neckline. Of course, the vogue for slinging silks, especially crepe in prints and monotones has undoubtedly been responsible for the debut of the draped frock. A model that illustrates the current affection for the drape is that sketched above. It is of printed crepe with a small floral design in yellow and pink over a navy blue background. The draped feeling is expressed in the collar ending at the left of the waistline, and in the drape on the skirt, which starts at the right and falls softly in folds down the left side.

Woman's Gas Detector Works

Tests of an automatic gas detector, invented by a woman in Paris, to locate gas leaks or warn of the presence of fire damp in mines have proved it to be a success. Experts in France and England say that it infallibly detects the presence of gas in the air. When ever the quantity of gas in the atmosphere is greater than 1.3 per cent the instrument rings a bell and flashes a tiny electric lamp. In France it is being used to detect leaks in household gas lines and fixtures, and to insure that no gas escapes from loose plumbing joints when new meters are installed. The fair inventor says she got the idea after reading reports of the London street gas explosions some months ago.

They used to call the parson slow And he would look askance Before they got a radio Now you should see him dance

It puts life into your veins and the joy of living into your household to keep in touch with the world via radio. It is one thing that is needed in every home. It's a luxury no longer—but a moderate priced necessity.

LENTEN SALADS

By Betty Barclay

Panama Salad
(Serves 4)
4 slices pineapple
2 large oranges
1/2 head lettuce
4 Maraschino cherries
1/4 green pepper

Place slice of pineapple on bed of lettuce. Lay sections of orange on pineapple slice, to form a domed appearance. Cut a rosette of cherry and place on top of fruit sections. Rosette is made by cutting the cherry in six or eight sections leaving it joined at the tip. Two diamond-shaped pieces of green pepper are placed on each side of the salad, near the cherry. Serve with French dressing.

Princess Salad
(Serves 6)
1/2 head lettuce
1 can green asparagus tips
2 fresh tomatoes
2 large oranges
Pimento and mayonnaise

Place one slice of tomato on each salad plate on which has been arranged a bed of lettuce. Pyramid 3 asparagus tips on tomato slice. Top off with mayonnaise and a strip of pimento. Arrange 4 sections of orange around the tomato.

Poinsettia Salad
Peel orange and separate into sections free from membrane. Place Philadelphia cream cheese in the centre of a bed of lettuce. Arrange 5 or 6

orange sections around the cheese to resemble the petals of the poinsettia, putting thin slices of pimento on top of each section. The strips of pimento may be curved to represent a cane and will make a more effective decoration. Serve with mayonnaise in the centre of the cheese and decorate with pieces of green pepper cut in diamond shapes.

Caramel Junket
1 junket tablet
1 pint milk
1-tablespoon cold water
1/4 cup sugar
1/4 cup boiling water
1/2 teaspoon vanilla

Crush junket tablet and dissolve in cold water. Put sugar in a small saucepan and heat, stirring constantly, until melted and golden brown. Add water and dissolve sugar in it. Add milk to caramel syrup and warm until lukewarm—not hot. Remove from stove. Add dissolved tablet and vanilla and turn at once into individual dessert glasses. Let stand in a warm room until firm (about 10 minutes); then chill before serving. Add a topping of marshmallows cut in pieces and mixed with whipped cream.

Fisher Girls Now Bobbed
Gone are the Scotch fisher girls with long dresses and tresses, as pictured by artists. When the modern girls arrived from Aberdeen to prepare for Yarmouth's famous herring pack, they came with bobbed heads, and wearing fur-trimmed coats, silk stockings and fancy shoes. They sang jazz songs as they rode in cabs to their lodgings.

With a certain type of man success shows either in the waistband or the hatband.

CLASS HOCKEY CONTINUES TO HOLD SPOT LIGHT AT STRATHCONA ALL FOUR TEAMS WELL BALANCED

Eighth Grade Grabs Premier Position by Disposing of Ninth Sextette — Tenth Team Takes It On The Chin.

By SYD FELDMAN

The Strathcona Class Hockey League is swinging merrily along with all the four teams entered putting up a close fight for honours. Never in the history of Class Hockey have the teams been so evenly matched as they are this year, the group containing no weak sisters.

In the first game of the season Eighth and Tenth fought to a 3-3 draw. On Friday last Tenth put themselves into first place by disposing of Eleventh by the score of 2-0. On Tuesday, Eighth tied up the race by taking Ninth into camp by the score of 1-0 while Ninth further complicated matters by trimming the strong Tenth year team by a similar score. Should Eleventh defeat Eighth in the next scheduled game the championship will be practically a toss-up, all four teams having an equal opportunity of finishing in the money.

The Tenth-Eleventh game was an exciting pastime, the score being but a slight indication of the trend of the play. In fact, had it not been for the spectacular goal-keeping of Friedman Eleventh would doubtless have scored. Eleventh took the puck at the face-off and made several threatening rushes only to be balked at the defence or have Friedman save seemingly sure goals. Tenth retaliated with some sparkling combination rushes but Lloyd Jack, in the Eleventh nets, was equal to the occasion and pulled off several hair-raising saves. Play was continually in Eleventh territory, but occasionally solo rushes gave Friedman something to worry about. Smith, in particular was effective for Eleventh.

At the beginning of the second period Latt worked his way through the entire opposing team and scored the first goal of the game for Tenth. It was a beautiful play. Eleventh made frantic efforts to even the count but their efforts went for naught. Sparkling rushes were made by both sides but the rival defences were too strong to allow of any scoring. However, about mid-way through the period, Hendleman took a pass from Latt to score another goal. The pass looked distinctly off-side but nothing was done about it.

The goal, legal or otherwise, seemed to arouse Eleventh and they forced the play into Tenth Year territory, Friedman having several anxious moments. Near the end of the encounter play began to get very ragged, probably owing to the poor condition of the ice, and finally ended with Tenth on the long end of 2-0 count. Batson, Latt and Friedman showed up well for Tenth while Smith, Simkevitz and Jack were best for Eleventh.

The line-ups were as follows:—

Tenth	Goal	Eleventh
Friedman	Defence	Jack
Hendleman	Defence	Simkevitz
Allebone	Centre	Miller
Batson	Centre	Glassburg
Latt	Wing	Smith
Claxton	Wing	Hendleman

8th Goes Ahead

Eight gained temporary possession of first place by disposing of Ninth by the score of 1-0. As the score indicates the game was close and exciting, in fact it was not until a minute from the end that Griffiths circled the defence to score the winning goal.

Ninth were greatly handicapped by frequent penalties and when Griffiths scored there were two men adorning the "pen". They also suffered from the lack of substitute strength whereas Eight managed to keep up a killing pace by means of frequent substitutions. Throughout the game Ninth were mainly on the defensive and when their forwards did break away they found an impenetrable barrier in the Eight Year defence and Levitt in the nets.

The line-ups were as follows:—

Ninth	Goal	Eight
Norris	Defence	Levitt
Harper	Defence	Kahn
Roseman	Centre	Paul
Annet	Centre	Hayes
Kon	Wing	Roderique
Tarshis	Wing	Griffiths
Cohen	Sub.	Wilmot
Robinson	Sub.	Ridgeway

League Standing Upset

Ninth threw a monkey wrench into the League standing by defeating Tenth by the score of 1-0.

Tenth started off with a rush and evaded the opposing forwards but were halted by the strong defence of Harper and Roseman. Soon after Harper broke away and got in close on Fink but his shot went wild. Batson recovered the puck and raced down the ice but Norris made a nice save. Latt and Claxton also made several threatening rushes but Norris made a nice save. Latt and Claxton also made several threatening rushes but Norris made a nice save. Latt and Claxton also made several threatening rushes but Norris made a nice save.

In the second period Friedman, who had been indisposed, replaced Fink and succeeded in keeping Ninth at bay for the rest of the struggle. In this period Tenth forced the play, Latt and Batson being especially prominent, and came close to scoring on several occasions. Ninth relied strictly on defensive tactics and were successful in holding their opponents to the end, winning a hard-fought battle by the score of 1-0.

The line-ups were as follows:—

Ninth	Goal	Tenth
Norris	Defence	Fink

The Boston Bulldog

"Perk" Galbraith Doesn't Score Many Goals, But He Keeps His Opponents From Getting Any

"Perk" Galbraith

While goal-scorers and point-getters are in demand in the National Hockey League, it does not always follow that others less effective on the attack cannot draw high salaries, and play as regulars. "Perk" Galbraith of the Boston Bruins is an outstanding example. In three years with the Bruins he has scored seventeen goals, and has been credited with fourteen assists. Last season when the Bruins won the National League title and the Stanley Cup, Galbraith scored only two goals, and had one assist, the most unassuming record ever compiled, yet throughout the torrid campaign he was Boston's regular left-winger. Art Ross rates Galbraith highly despite his failure to score. He is a great backchecker, and often breaks up plays in mid-ice that pave the way for Boston goals. Yet his failure to be one of the leading goal-getters is one of the mysteries of the present time. As an amateur in Winnipeg and later at Eveleth, Minn., he had no trouble in denting the twine. He can shoot a puck with exceptional force, and he is smart on the attack. But figures do not lie, and they show that Galbraith is just about the most unfortunate player on the attack that the National League ever possessed. But, on the other hand, he is a typical bulldog for defensive purposes, and possibly the reason he does not score more goals is that he is used in a defensive capacity by the Bruins to block the star right-wingers of the League. It is the boast of manager Ross that Bill Cook of the Rangers

YOUNG WAR VET TURNS TO POLICE FOR EXCITEMENT

Youth Enlisted In World Conflict At 13 Without Mother's Consent

SAW SERVICE AT MARNE

Gained Prominence As Boxer and Football Player, Now Wants to be Patrolman

Allentown, Pa. — That he is America's youngest World War veteran is the claim of Tony Youkonis.

Colorful and exciting has been the fighting career of this 26-year-old giant, who now aspires to a post on the Allentown police force.

Tony was born July 7, 1904, in Michigan. Shortly afterward, his parents moved to Allentown to find employment in the Pennsylvania hard coal fields. Here the youth found he must fight to make his way with other lads — and was very successful.

When he was but thirteen years old, Tony decided to enlist in the United States army. Accordingly, being an unusually large boy, he passed the physical examinations and was told to secure his parents' consent.

His mother would not countenance

one of the great rightwingers in hockey, has scored only a couple of goals in all the seasons Bruins and Rangers have been campaigning, while Galbraith was shadowing him.

Galbraith is a veteran of hockey, though he first played professional hockey in the 1926-27 season with the Boston Bruins in the National Hockey League. He was born at Toronto, Ont., Canada, Dec. 5, 1898. He is 5ft. 11in. in height, weighs about 164 pounds, is a left-hand shot, and plays left wing or defense. His record:

1916-17—Winnipeg Victorias, Manitoba Hockey Association.
1917-18—Army.
1918-19—Army.
1919-20—Winnipeg Monarchs, Winnipeg City League.
1920-21—Eveleth, United States Amateur Hockey Association.
1921-22—Eveleth, United States Amateur Hockey Association.
1922-23—Eveleth, United States Amateur Hockey Association.
1923-24—Eveleth, United States Amateur Hockey Association.
1924-25—Eveleth, United States Amateur Hockey Association.
1925-26—Eveleth, Central Hockey League.
1926-27—Boston Bruins, National Hockey League.
1927-28—Boston Bruins, National Hockey League.
1928-29—Boston Bruins, National Hockey League.
1929-30—Boston Bruins, National Hockey League.

Wanderers Grab Another Victory

Playing without two of their regulars and with no subs, the North Branch Wanderers basketball team defeated Y.M.H.A. 23-12 Tuesday evening last. The Hebrew boys got off to a good start leading 5-1 at the end of the first quarter, but the Wanderers tied the score towards the end of the first half on baskets by Johnson and Staton. In the third quarter the North Branch boys began to play in the style for which they are noted, short passing, and as a result the score at the end of the third quarter was Wanderers 16—Y.M.H.A. 9. In the last quarter the Wanderers completely dominated the play and when the final whistle blew the North Branch boys were ahead by eleven points. Staton, Struthers, and Johnson were high scorers for the winners while Haviland played a good game on the defence with Blackburn Smith was the outstanding man for the losers. This game marked the seventh straight victory for the Wanderers; they have yet to taste defeat. They would welcome challenges from any team of age 15 years and under.

Deported Man Sentenced

Alexander Ferguson, a druggist, who was stated to have been deported from the United States as an undesirable character, pleaded guilty to 13 charges in sheriff court at Aberdeen, Scotland, and admitted four previous convictions for theft and housebreaking. Most of the 13 charges relating to failing to pay for board and lodgings in six cities in Scotland. He was sentenced to six months' imprisonment.

THRU' THE SPORT SIEVE

By Bobby Forster

Pick 'Em From a Hat.

The forty-four game grind of the National Hockey League schedule nears its conclusion, and the Stanley Cup series, for the world's championship, will soon be upon us.

Just what the outcome of the "post season" series will be is hard to foretell, but there will be a grand old squawk from certain directions if things just do not run "true to form".

Picking hockey winners is hardly a science, more so a gamble. Just put them in a hat, shake them around a bit and draw your lucky number. That's a simpler way than over records, applying your higher mathematics, and then still finding that your equations are all the bunk. And at that you are just as apt to be correct. The unexpected is continually happening in sport. In hockey the "dope" gets an unusually rough ride, for the possibilities of chance are much more frequent than in other games.

Two years ago about this time the Montreal Maroons were riding serenely towards a World's championship, and a tidy pile of gold that goes with it. All that stood in their way was a weaker looking New York Ranger team. There was nothing much to it but march through the series, and collect all monetary incidentals that would be the winners' reward.

Well, the Stanley Cup took a long trip southward and still is over the line. Few that saw that series were convinced that the best team won, for Lady Luck had apparently had a big hand in the proceedings.

Survival of the Fittest

This is another year and we find the Boston Bruins ready to take on the Canadian division winner in a best out of five game series, as the first round matches. Bruins have broken practically everything there is to break in the way of records in their mauling march to the top of their division. The showing of the Montreal Maroons, their probable opponents, looks poor in comparison. Yet who can tell, those Bruins may still take an awful tumble.

This preliminary round meeting promises to be the real series of the Stanley Cup playdowns, and why should it not be so. Maroons have looked like the pick of the Canadian Section for the greater part of the season, and are a punishing lot of players. So are the Bruins, and out of the wreckage of that series is apt to be assembled a bruised and battered victor. Then to meet the survival of the "under-dogs", Canadiens or Ottawa, Rangers or Chicago, whose matches should be close but hardly as exacting. They seem to the teams that have the real chance, if the Maroons and Bruins go into the ring in one of their hard hitting bouts.

Boston has been ploughing right ahead through all opposition this year, but in the Maroons they have found a stubborn foe. At no time have they shown any marked superiority over the Montreal forces. Chicago is one team that seems to have the Bruins' number, and more than once have taken a fall out of them. The Maroons too seem encounter a Chicago jinx, but apart from that the Hawks don't seem to cut very much ice, and have to give many thanks to their goaler Chuck Gardner for their good showing.

Canadiens now and again flash as the Flying Frenchmen of old, and come through with a potent scoring punch, only to show a miserable decline again.

Getting them in bunches seems to be the Canucks' favorite pastime, but to get a goal when, really needed is sometimes another matter.

A look at Lester Patrick's Rangers at the Forum on Saturday night was enough to inspire pity from the majority of the fans. Even the Cook brothers and fat famed Frankie Boucher looked none too good on that occasion. More than Ching Johnson would have been necessary to make them look like a first class hockey team.

May Prove a Stumbling Block

There has not been much ballyhoo about the Ottawa Senators. There is just a little too much real hockey and Irish blood mixed up in the team from the Capital to count them out just yet. Ottawa has been going in fits and starts this year, sometimes very good, sometimes simply rotten. But take into account that Kilrea-Lamb-Finnigan front rank, as smooth skating a trio of forward as there is in hockey, and possessing scoring punch galore.

Then there is a rough and ready defense, and one of hockey's best parked in the goal-mouth.

There lies the Senator's hopes. The substitute strength falls far below the regulars. This six men team is right there with the goods, and in a "money series" is apt to smite its opponents good and plenty.

The Ottawa crowd deserve a second thought, and are likely to spring a surprise or two, even if they hardly have the reserve to carry them through to the Stanley Cup final.

By all that is right the Boston Bruins should retain the Stanley Cup. Figures point to it, performances point to it, and superior playing strength points to it, yet who can tell. Anything may happen in these new fangled play-offs, which present quite a little money making schedule in themselves.

Might as well pick 'em from the hat.

Marriage Form Urged by Lindsay Banned by Cart

Denver, March 6. — Companionate marriage was severely criticized here Monday in a decision by the Colorado Supreme Court, which characterized it as "nothing more, in effect, than legalized prostitution under the name of marriage."

The opinion, written by Chief Justice Greeley W. Whitford, was brought in the case of Mrs. Charles M. Duncan, who sued for a widow's share in the estate of her late husband, Dr. Charles M. Duncan. Testimony in the case brought out the fact that Dr. Duncan had entered into a contract with his wife whereby they could be separated and divorced, on payment by him of \$100 a year for each year that they had been married. Not quite a year after they were married, they separated, and Mrs. Duncan gave her husband a receipt for \$110, which he paid her in fulfillment of his share of the contract.

"The antenuptial contract," said the court, "was a wicked device to evade the laws applicable to marriage relations, property rights, and is clearly against public decency and policy. The wife, under its terms, was made a base hireling. The man could enjoy her companionship, under its covenant, for a single year, and then discard her. The contract is utterly void. The marriage relation lies at the foundation of our civilization. Marriage promotes public and private morals, and advances the well-being of society and social order. The

sacred character of the marriage relation is indissoluble, except as authorized by legislative will and by solemn judgment of a court."

Mrs. Duncan, who was denied a widow's share in the estate by the Denver County Court, received it by a verdict of the district court, which verdict the Supreme body upheld.

Makes Own Plane; It Flies

England's first home-made airplane has just taken the air. It has been built by S. Buckle, 24, a Brooklands motorcyclist. Buckle bought government scrap and built his machine in his father's yard. It contains parts from four makes of planes and cost him about \$85. Buckle expects to get 50 miles an hour out of it, and hopes to make air tours.

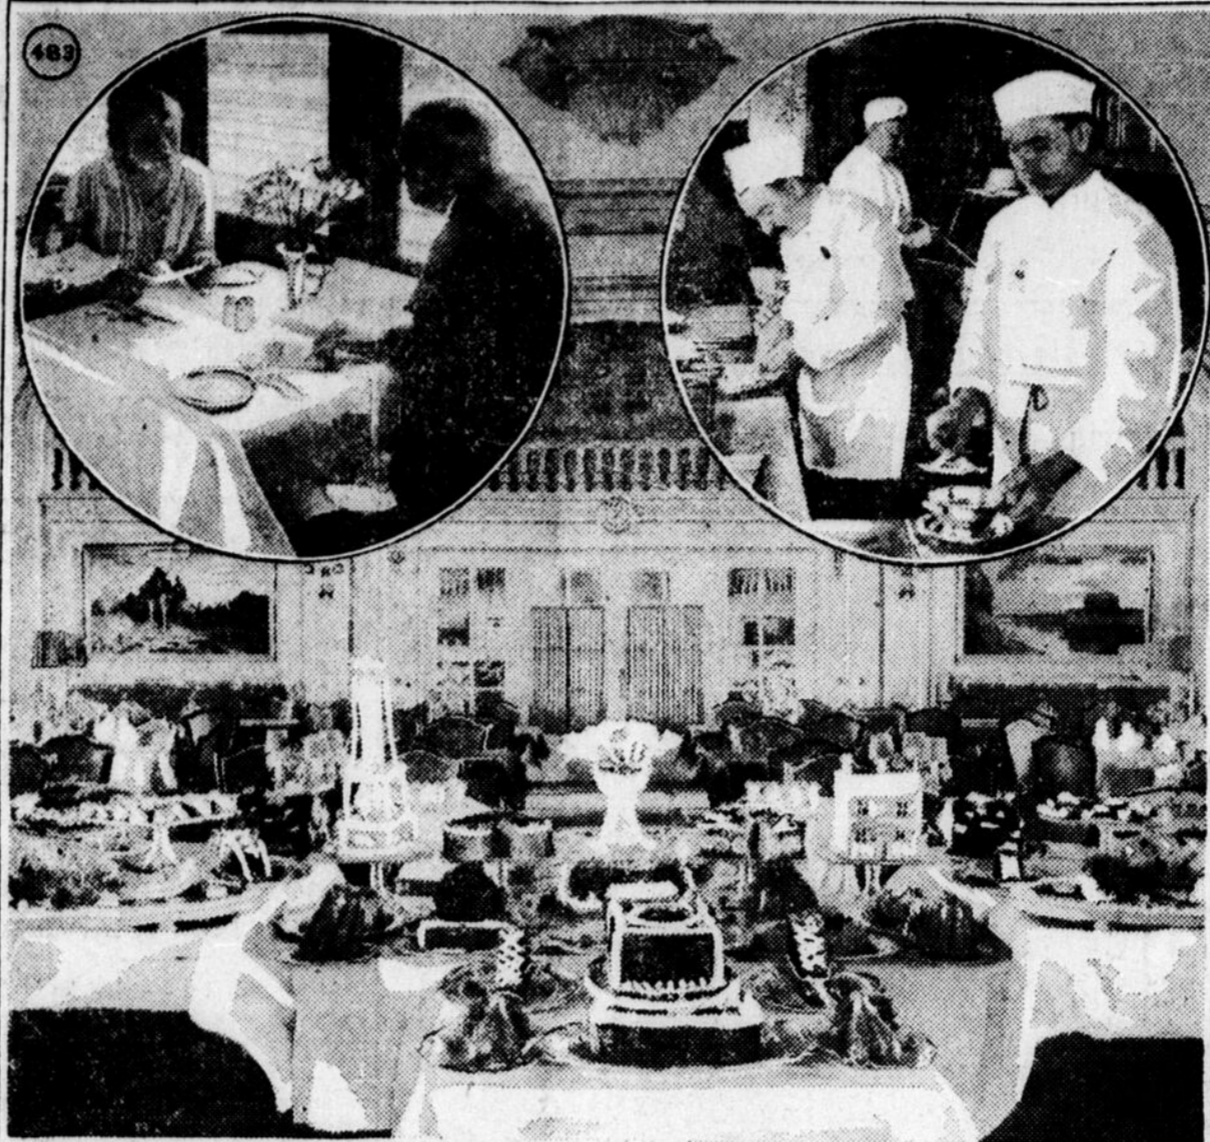

An exchange discusses the question as to why it is so many fall fairs fail and go under. No doubt there are many causes, but surely the chief one is rain.

PROVIDES MILLIONS OF MEALS YEARLY

About 13,500,000 meals a year are served to travelers by the Canadian Pacific, which is the equivalent of saying that it provides 37,000 every day and 259,000 every week of the year. This gigantic total is made up of about 4,200,000 in dining cars and station restaurants; 4,450,000 on Atlantic and Pacific steam-

ships; 1,350,000 on inland and coastal steamers; and 3,500,000 in the company's hotels and bungalow camps. Lay-out shows first-class dining saloon on "Empress of Australia"; lunch for two on typical trans-continental Canadian Pacific flyer; and kitchen on C.P.R. dining car with the men in action behind the guns.

Y.W.H.A. Notes

Y.W.H.A. Fencing Club

Rae Malles was elected President, Sally Padbere, Secretary, and Francis Newman, Treasurer. The Club meets every Thursday evening at the Y. in Room 9, at 9 p.m. Mr. Dave Silverstone is the coach, and is assisted by Mr. Mendelsohn.

Badminton in for Big Tournament

Considering that this is the Y's first season for Badminton, the Tournament is going over big. The following is a list of the doubles and singles entered, to be played in Round Robin Form:

Doubles:—B. Kuschner and R. Bagan; S. Altman and J. Segal; M. Mendell and E. Franklin; A. Goldstein and E. Segal; I. Miller and R. Malles; E. Berling and M. Krasnow; R. Benjamin and F. Black; A. E. Schwisberg and G. Silvensky; P. Beecher and D. Goldberg; B. Bregman and J. Freeman; L. Neamtin and B. Mero-vitz.

Singles:—B. Mero-vitz, J. Segal, A. E. Schwisberg, A. Mendell, B. Kuschner, R. Bagan, F. Black, S. Altman, I. Miller, R. Malles, G. Silvensky, E. Franklin, B. Bregman, J. Freeman, L. Neamtin, P. Beecher, D. Goldberg, and M. Krasnow.

Bowling

The following shows the standing of the teams:—Howlers 26 1-2, A and S. 23 1-2, Billikens 19, and Atlantas 16. The A. and S. and Billikens play

off for semi-finals, and the winner of the two teams, play off for championship with the Howlers.

Basketball

The schedule of the House League Basketball is about three quarters finished, and should terminate by the end of this month. Up to date the Kappa team is still leading by a wide margin, which the other teams are finding hard to beat. They have played six games without any loss. The Alpha team is in second place with two games lost.

City League Basketball

Unfortunately, the Intermediates lost their last League Game to St. Mary's on Feb. 11th, which if they won, meant tie for championship. Since then, they have played St. Mary's an exhibition game on Feb. 18th, and won, with the score of 45-22. On the 24th of Feb. they played the Northern Electric at their gym and won with a score of 27-24. They play the Northerners again on March 13th at the Y. gym.

The Senior Team too, lost their final League game to St. Mary's with a score of 32-19 and therefore lost championship, on Feb. 11th. They staged an exhibition game on the Y. M.H.A. Gym floor, and lost again to St. Mary's with a score of 26-24. This

game was the fastest and best game played this year. Had the whistle blown one minute sooner than the time allotted, the score would have been tied. It was a close game, and at half time, the "Y" girls were ahead with a score of 18-16. The game was ably refereed by Mrs. C. Brennan. On March 11th, our Seniors played the Tryers at the Tryers gym. The Y. Team won with a score of 35-24. Florence Skelcher did not play, and we substituted with two Intermediates as forwards, Sadye Altman and Debra Barsha.

Y.W.H.A. Plan

The Physical Educational Department of the Y.W.H.A. announces a very interesting program which is to extend throughout the entire week of March 31st to April 4th inclusive. Members and friends will hear outstanding speakers on topics relating to Health and Hygiene, on Dancing, Exercise and First Aid. There will also be demonstrations and Exhibitions; and to wind up the series of events for the entire Health Week, there will be two "Extra-special" Basketball Games between the Y.M.H.A. and the Y.W.H.A., and the Staff and Board of Directors.

BOY SCOUT NEWS

44th St. Giles Troop

The basketball house league will start today at Edward VII School. There will be five teams composed of the Troop and the two Six Guy Carlton Rover Patrols. A cup will be presented to the winning Team and crests to each player. The cup will be played for every year.

We still need new members and we ask you to come and visit us on Thursday evening at 7.45 P.M. in the Fairmount-St. Giles Church Hall, and at Edward VII School on Saturday afternoon where we have gym and basketball.

Our Ninth annual Concert will be held in the Fairmount-St. Giles Assembly Hall at the corner Bernard and Stuart Aves. on Thursday evening, April 10th at 8.15 P.M.

The stone age man had his wife at his feet, but the modern man has her at his heels.—Montreal Herald.

A case is reported of two applicants for city relief having got married. There's no lack of optimism in this case.

Y.M.C.A. BOARD MEETS TUESDAY

Prepare for Year Ending on March 31st

As the financial year of the Montreal Y.M.C.A. ends on March 31st, the officers and committees of the several branches are concerned as to the outcome and in these closing weeks are busy checking up their membership rosters and other business affairs. The last regular meeting of the Board of Management of North Branch Y.M.C.A. for this year has been called for 8.15 Tuesday evening. A heavy docket of business awaits the attention of these public spirited laymen.

The sixth in a series of very successful supper meetings for young men will be held at the North Branch Y.M.C.A. on Tuesday evening next. The guest speaker on this occasion will be Mr. Wallace W. Goforth, a recognized authority in the field of economics, who will give an illustrated lecture on the very attractive subject of "The Economic Progress of Quebec". As this will be of great interest and profit to young men beginning business life, the "Y" officials expect that there will be a capacity audience.

The demands for encores come always from the noisiest and least discerning in any audience.

The finding of a strange hairpin in the home led to divorce in Chicago. But what, may we ask, is a hairpin?
