HE HAD SUFFERED FOR TWENTY YEARS SAYS FRED MARTEL

Spent Fortune in Search for Relief Before He Got Tanlac.

"I don't believe anybody has more cause to be grateful to Tanlac than I have," said Fred Martel, of 951 La-gauchetiere St., Montreal, in relating his experience with the medicine. "For the past twenty years I always had to be very careful what I ate on account of indigestion, and most of the time I had to live on a specially prepared diet. After every meal I felt like I had a weight in my stomach, I bloated with gas until I was in awful distress. About nine years ago I started suffering with rheumatism in my left leg too, and it kept getting worse until last summer I was laid up for three weeks unable to move or stand on it. I spent a small fortune on medicines and treatments, but could get no relief, and was dwindling down to almost nothing. "It was the luckiest day of my life when I started taking Tanlac, for the medicine has rid me entirely of indigestion, and I can now eat just anything I want without my stomach bothering me a particle. The rheumatism has so disappeared I hardly ever notice a sign of it, and I feel altogether like a different person. I think Tanlac is the best medicine on this round earth, and I'm glad to give it my highest endorsement. "Tanlac is sold in Sherbrooke by W. H. Griffith and A. E. DuBerger and leading druggists."

**The Ideal Laxative for Children**  
Mothers, give the little ones Dr. Caldwell's Laxative Syrup Pepsin for constipation. Acts mildly and gently. Formula on the package.

The alert mother, ever anxious to find something better for her children's health, will interest herself in learning what is best to give them when they are constipated, have a headache, cold or fever, are bilious or dyspeptic. It stands to reason that the remedy that might be suitable for you, at your age, might be too drastic for a child.

By all means do what you can to regulate the diet, giving preference to the light, easily digested foods. But when diet fails you will have to help Nature with medicine. It would then be well for you to avoid the harsher cathartics and physics, castor oil, calomel and such, even if disguised in tablets or pills, for they weaken the child and make it irritable.

A better plan is to give half a teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin, which is a combination of simple laxative herbs with pepsin. It acts mildly and gently and does not gripe or weaken. It has the unusual merit of being safe for the tiniest baby yet equally effective for grownups. The formula is plainly on the package, and a sixty-cent bottle is sufficient to last an average family many months.

There is nothing better or safer than Dr. Caldwell's Laxative Syrup Pepsin for stomach, liver and bowel troubles, and as it contains no narcotics or mercurials, mothers can feel safe in giving it to any member of the family needing a constipation medicine. It is syrupy and delightfully pleasant to take. It must meet the taste of the majority, for last year over eight million bottles were bought in drug stores, the largest sale of the kind in the world.

Buy a sixty-cent bottle today with the understanding that if for any reason it does not do exactly as claimed your money will be refunded. Dr. Caldwell's Laxative Syrup Pepsin has been on sale in drug stores for thirty years so you would not be experimenting with anything new.

**Try It FREE**

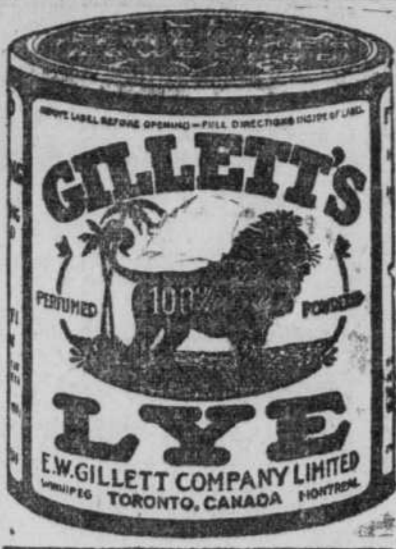

There are heads of families who will want to prove to their own satisfaction that my Laxative Syrup Pepsin is as effective in constipation, as mild and gentle in action, as pleasant-tasting and safe, as I claim. Let such write me for a sample. It will be sent postpaid. Simply say, "Dr. W. B. Caldwell, 19 Front St., Bridgeburg, Ont.; Send a free trial bottle of Dr. Caldwell's Laxative Syrup Pepsin to—" and give your name and address. I will see that the rest is attended to promptly.

## MARRIAGES

### MIGNAULT—LEDoux.

An interesting and extremely pretty wedding took place yesterday morning at nine o'clock at St. Michael's Cathedral, when Miss Jeanette, eldest daughter of Dr. J. O. Ledoux, a prominent surgeon and physician of Sherbrooke, was married to Mr. Charles L. Mignault, son of Mr. and Mrs. J. O. C. Mignault, in the midst of a large number of relatives and invited guests. While many spectators, friends of the family, were present. The high altar and sanctuary were decorated with palms, peonies and other flowers, and candles and electric lights formed a brilliant illumination. The ceremony was performed by the Rev. J. A. Hebert, parish priest of Danville, and uncle of the bride. He said mass, and gave the benediction. The bride was accompanied by her father and wore a lovely gown of grey satin, with grey lace tunic trimmed with French flowers, and hat of the same shade to correspond. Her bouquet was of white roses and orchids. Mr. J. O. C. Mignault supported his son. As the bridal party entered the church the Lohengrin wedding music was rendered by the organist, Mr. L. E. Codere, and during the service Mr. Dupuis, of Coaticook, sang Ave Verum; Miss Huard, of Megantic, "Meditations Religieuses," and Mr. Paul Dufault, the famous tenor, an exquisite "Ave Maria," with organ accompaniment. The bride and groom, followed by their friends, left the church while a grand wedding march was played, and an elaborate buffet breakfast was served at the residence of the bride's parents, A'nborn street, to some eighty-five guests. The tables were arranged with roses and lilies of the valley, and the rooms were tastefully adorned with flowers. After the breakfast there was music and singing, Mr. Dufault contributing two songs, accompanied by Mrs. Codere.

Mr. and Mrs. Mignault left by the afternoon train for a wedding trip to Niagara, Toronto, Quebec and Montreal, and on their return will live in Sherbrooke. The bride wore going away a smart costume of navy blue with hat to match, and corsage bouquet of orchids. The wedding gifts were numerous, artistic and valuable, including such a display as is seldom seen of sterling silver, cut glass, rare china and objects d'art.

Among the out-of-town guests were Rev. Abbe Hebert, uncle of the bride, and Mrs. Hebert, Danville, grandmother; Mr. J. DeL. Tache, Ottawa, uncle of the groom; Mr. and Mrs. Dupuis, Coaticook, the Messrs. Huard, Megantic; Mr. Paul Dufault, Ste. Helene de Bagot; Miss Laroche, Messrs. Pelletier and Gilbert, Ste. Rosalie, and others from Lowell, Mass., and Manchester, N.H.

### RICHARDSON—BANGS.

AYER'S CLIFF, June 24.—A very pretty wedding took place on Wednesday evening, June 15th, at seven o'clock, at the residence of Mr. and Mrs. Eli E. Bangs, Pleasant street, Ayer's Cliff, when their only daughter, Cora Aileen, was united in marriage to Mr. Ira Frederick Richardson, son of the late F. E. Richardson and Mrs. Kate Richardson, of Fairfield Farm. The Rev. E. C. Russell, of Stanstead, performed the ceremony, which took place in the drawing room beneath a lovely arch of evergreens and June roses, the background being a bower of roses. The other decorations were forget-me-nots and beautiful peonies from Mr. H. A. Norton's gardens. The bride, who was given away by her father, wore a hand-made gown of white crepe de chene over silk embroidered with crystal beads, and wedding veil with wreath of bridal roses. Her bouquet was of white sweet peas tied with chiffon streamers.

The bridesmaid was Miss Estella Bean, of Sherbrooke, who wore a pink silk gown and large black hat, and carried a bouquet of pink sweet peas. The groom was supported by Mr. Porter Bangs, brother of the bride. Mrs. A. E. Hurd played the wedding march in the ceremony.

The bridal couple received the congratulations of their relatives and friends, after which the guests, numbering fifty, were seated at small tables, and refreshments were served. FESTIVAL OF ST. JOHN THE BAPTIST.

Today, June 24th, is the festival of St. John the Baptist, the patron saint of Canada. St. John the Baptist was the son of Zacharias and the cousin of the Saviour. From the Bible story he was a man who loved solitude, shunned the haunts of men, and only came in from the desert to announce the advent of the Master, whose humble forerunner he was. John was beheaded by Herod Antipas to please his wife, Herodias. For many centuries it was the custom throughout Europe and in the East to light huge bonfires on St. John's eve, probably a relic of paganism and of the sun worshippers, wisely accepted by the Christian world, and called St. John's fires. Jesus Christ said of John: "He was a burning and a shining light," and in his humility and greatness of soul, John the Baptist was highly honored by Him who was divine, yet human.

The "Revolutionary Government of Canada" Has Ceased to Exist—Had Short Life.

WINNIPEG, June 24.—"The revolutionary government of Canada," has ceased to exist temporarily since Charlie Grabowsky, its secretary, was sentenced yesterday to six months in jail. Joe Kafka, "Premier," is already doing a nine months sentence awarded him last March.

The new "government" was first brought to public notice last February when an aged farmer was held up by Kafka and Grabowsky near Beausejour. Both confronted him with guns and the farmer handed over fifty dollars. The farmer was handed back a five dollar bill and a receipt for the remainder, being told by Kafka and Grabowsky that they were heading a revolutionary government for Canada which was going to equalize all wealth of the nation.

Won the Team Shoot at Montpelier—All Local Men Did Well.

The Sherbrooke Gun Club won the team shoot at Montpelier with the fine score of one hundred and sixteen. Billy Southwood was the hero of the shoot with his twenty-five straight. Jim McCrea and Bob Newton got twenty-four each, Steve Newton twenty-two and Ed. Germain twenty-one.

Bob Newton got third high gun on the sixteen yard targets. High gun in the handicap and high gun in the doubles.

His shooting on the second day was also good, and he was tied with Harry Moulton and Dug Barkley, of Montpelier, for the All-Round Championship, but he did not enter in the shoot-off as only residents of Vermont were eligible. Jim McCrea came in for the second day's shoot and did some very good shooting, getting ninety-three out of the first hundred at the sixteen yard targets and forty-five out of the fifty in the handicap. Billy Southwood, Phelan McCullough and Cliff Goodhue shot very creditably for both days of the shoot. The team trophy will be on exhibition in J. S. Mitchell & Co's window. The Gun Club will practice on Saturday at one thirty. All members are requested to be present early so as to get away in time for the Barton-Sherbrooke baseball game after the shoot.

## RELATIONSHIP BETWEEN FARM AND THE LABOR

Small Farm Does Not Offer Sufficient Room for Labor-Saving Machines.

In the developed agricultural areas of British Columbia the average of values placed on land is considerably higher than it is in any other province. Production costs, other than use of land, are also high, with these two production factors at a high level and with a big local demand for fresh farm produce, the trend of farm acreage has been toward the smaller working unit, two acres or less, the one-man-size farm. The per acre capitalization going higher, managing ability not generally improving, and employed labor efficiency not all that could be desired, are conditions that are having a big influence to convert many of the larger "staple food" producing farms into a greater number of "luxury food" producing farms. Hence we see a big increase in glass house equipment, small fruit plantings, ornamental stocks, poultry ranches, etc., all run on the one-man or family-labor scale. This small farm business will be profitable so long as it does not overtake the local market for luxury food crops, such as flowers, fruits and poultry. The small farm with its more intensive culture, with its higher percentage of human labor, chargeable to each unit of production, is quiet a different undertaking from the large farm where horse power and machinery may be used in a large way as an end

to low cost of production. The small area farm does not offer sufficient room for the operation of the larger saving machines and power, neither will it permit such capital cost. Many products, few machines and much human energy is the requirement for the small farm.

If labor on a farm be kept fully employed and moving at a speed that will give maximum production, some hope may be entertained for profit. With labor not employed to the limit all production will be absorbed in maintenance; there will be little or nothing in either case or produce that can be called profit. The large farm, if well organized as a producing business, offers greater opportunity of ways and means of keeping labor employed to the limit. The size of a farm, to be profitable, must be determined by its location, and the energy and ability of the individual operator. No farm should be so small as not to keep the operator and his family fully employed, using the best of tools and power, during the entire year. No individual should operate a farm of larger size than his managing ability warrants.

A farm business that entails too much labor for one man and yet not enough for two men is out of balance and not likely to be as profitable as it should be. A farm business just large enough to keep one man fully employed, but on which the labor of two or three men is being expended, can not be profitable, since sufficient use of labor can only be secured by adjusting the individual to the farm or the farm business to the individual.

### "POULTRY DAY" AT LENNOXVILLE FARM

With the idea of holding what might be termed a "Poultry Day," the officials of the Lennoxville Experimental Farm are inviting all those who are in any way interested in poultry work, whether in towns or on the farms, to visit the Poultry Division on Saturday afternoon, June 25th. This will give the general public a splendid opportunity to study the methods and experiments being practised there, to discuss problems which may have been a source of worry to many poultry raisers, and to listen to different speakers who are expected to be present. Mr. George Robertson, assistant Dominion Poultry Husbandman, Ottawa, Ont., who is considered one of the best authorities on poultry work in Canada, has promised to address the gathering at 3.30 p.m. The officials of the Farm hope that a large number will avail

## RECENT INVENTIONS OF INTEREST TO EASTERN TOWNSHIPS FARMERS

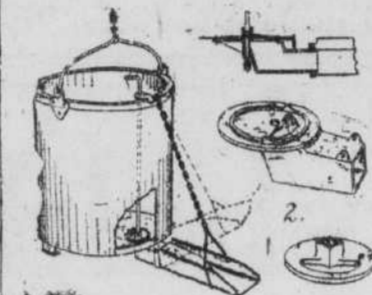

By C. J. Lynde, Macdonald College, Que.)

**TRACTOR**  
This invention applies particularly to tractor used to haul cultivating implements, and it consists of an L-shaped guide attached to the draft plate. This guide tells the operator at all times just how much the rows deviate from the path of the tractor,

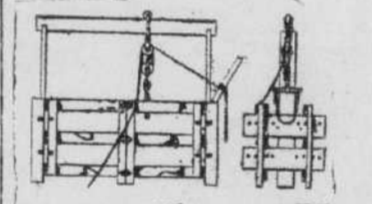

and therefore how much to shift the blades laterally of means of the foot levers.  
(S. L. Allen Co., Moorestown, N. J. U. S. Patent, 1,372,852.)

**SWILL DISTRIBUTOR**  
The swill tank shown here is attached to a carrier and is moved from pen to pen by means of overhead rails. It discharges the swill

through a valve controlled by a handle at the top and through an extension spout which can be raised at will.  
(Louden Machinery Co., Fairfield, Iowa. U. S. Patent, 1,373,521.)

**BREEDING CRATE**  
The object of this invention is to provide a crate in which part of the weight of a heavy boar can be supported. The sow and boar are driven

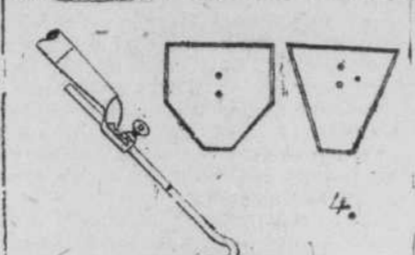

into the crate and the fore part of the boar is supported by the pulley tackle and belt. The crate is adjusted themselves of the opportunity to listen to Mr. Robertson. A cordial invitation is extended to all ladies interested in the work.

### BARNSTON

table, and collapses for storage.  
(Geo. H. Schultz, Winterset, Iowa. U. S. Patent, 1,373,921.)

**HOE**  
The advantages claimed for this hoe are: first, that the length of the handle can be adjusted to the height of the worker; and second, that the blade moves at such a small angle to the surface of the ground that it need be raised only a short distance

to make an effective stroke.  
(Levi Jarvis, Cedar Rapids, Nebraska. U. S. Patent, 1,374,740.)

**WEEDER**  
The narrow blade of this weeder is sharp on both edges and works equally forward and backward. It cuts the weeds underground and mulches the surface of the soil, and

is especially useful in weeding between rows or in thinning.  
(W. M. Anderson, Seattle, Wash. U. S. Patent, 1,374,051.)

**BUSH FRUITS**  
Northern horticulturists will find a great deal of useful information in Bulletin 94, "Bush Fruits". It has illustrations and can be obtained by

## SUNFLOWERS NOW USED AS SILAGE CROP

Are an Excellent Substitute When Corn Cannot Be Secured.

Much interest is being taken both in Canada and the United States in the value of sunflowers as a silage crop, particularly in districts where corn is not a reliable crop. The claim is made that sunflowers are a harder crop than corn, withstanding both drouth and frost to a greater degree. Insofar as the claims put forth for sunflowers as a food for cattle are virtually of recent origin, experiments and investigation regarding them are practically in an introductory stage. It is interesting to note, however, that an analysis of sunflowers silage fed at an Idaho agricultural experimental station indicated that if compared favorably with corn silage. In Canada also studies of the relative value of sunflowers and corn for silage purposes suggest that in nutrition there is not any great difference, although corn is to be preferred where it can be plentifully and easily grown. Where this is not the case, sunflowers are an excellent substitute.

TECHNICAL SCHOOL SITE. A sort of deadlock seems to have been reached between the Council and the Commission with regard to the Technical School site.

The Commission demands that the Council turn over the \$30,000 provided for in by-law endorsed by the ratepayers for the purchase of the Ball street site.

The Council delays action, and the majority seem to take the position that it is not good business for \$30,000 of public money to be used in this matter, when such sites as that offered by the Fairbanks Company and the Central School authorities are available for far less money.

The Fairbanks site of much larger area would cost about one-half the Ball street site. In the opinion of many it is better located for the purpose, being in the manufacturing district in a section which in a few years is likely to be in the centre of population. Even on the Central School site ten thousand dollars would be saved.

It is true a by-law has been passed specifying the Ball street site, but subsequent to this the Commission secured authority to consider other sites. Why this urgent demand that the site of higher cost be selected, especially considering that a great part of this higher cost is due to buildings on the property which must be demolished and not to the greater value or desirability of the land itself.

What is back of the scene in this matter? Until the curtain is rung up and the public can see the whole show, it is safe to say that public opinion will incline towards the position taken by the Council, which points in the direction of economy, and if accepted would save ten or fifteen thousand dollars of public money.

THE AUTOMOBILE A COMPETITOR. There is no doubt that the coming of the automobile is contributing to the financial difficulties of the railways.

This may be illustrated by the current report which seems to be well founded, that the traffic, passenger, express and freight, over the E. & M. line between Sherbrooke and Stanstead, fell off one-half this spring when the automobile came into general use for the season.

The high freight and express rates are all encouraging this assault of the automobile upon the business of the railways. A cut in freight and general transportation rates would appear to be necessary if business is to be retained. The process of readjustment of costs of operation and charges, therefore, must go on.

THE RAILWAYS HAVE A COMPETITOR IN MOTOR TRAFFIC WHICH WILL INCREASE AS YEARS GO BY AND THIS DEVELOPING SITUATION IS ONE THAT WILL HAVE TO BE MET IF THE FULL VOLUME OF BUSINESS IS TO BE RETAINED.

WANT ROAD FROM FRELIGHSBURG TO BERKSHIRE

Representatives of Several Municipalities Discuss Question of Permanent National Highway.

FARNHAM, Que., June 24.—(Special)—A large meeting of the ratepayers of the municipality of the Parish of St. Armand East, Village of Frelighsburg, Village of Stanbridge, East, Parish of Notre Dame de Stanbridge, Parish of Farnham, was held at 10 a.m., in the Town Hall, Farnham, Que., on Saturday, for the purpose of discussing and asking for financial assistance from the Provincial Government, through the Hon. Mr. A. Saurette, M.L.A., the Missisquoi County representative to the Provincial Government, for a permanent National Highway from the boundary line between Frelighsburg, Que., and West Berkshire, Vt., U. S. A., to run along the River Road through St. Armand East, Frelighsburg, Stanbridge East, Notre Dame de Stanbridge, Stanbury, Farnham, Marieville, and on to Montreal, Que.

It was moved by Mayor P. H. Krans, of St. Armand East, and seconded by Mayor Dr. G. F. Downing, of Frelighsburg, that Mr. Harvey Beatty, of Stanbridge East, act as chairman and that Mr. H. U. McCrum act as secretary for the meeting. The Mayor of the Town of Farnham then welcomed the delegates to the Town of Farnham and pledged his assistance in obtaining the proposed highway.

The chairman Mr. Beatty, then addressed the meeting upon the question of good roads and assured the ratepayers the Hon. Mr. A. Saurette would do all in his power to assist them in their effort to obtain permanent highways.

The Hon. Mr. Saurette spoke to the delegates in French and English and promised to do all in his power for them in obtaining this National Highway, and would have Government Engineers from the Department of Roads, Quebec, to go over the proposed route, as well as some other routes which were proposed.

Mr. P. H. Krans, Mayor of the Parish of St. Armand East, then spoke of the necessity of having a permanent National Highway through from the boundary to Montreal as proposed, stating that if this road were put through it would be going practically through the centre of the county and would be the only National Highway in the country, that it would be the shortest route from Boston to Montreal by some twenty-seven or twenty-eight miles, that one good permanent road through the county would take most of the automobile traffic, thereby relieving the dirt roads, which would mean that it would be much easier to keep them in much better repair than is now possible.

"Policyholders Month"

The Canada Life Man

1. He points the way to success for the young man.

2. He stops the busy city man and persuades him to think of the real objects in life.

3. He urges the farmer to protect the home.

4. He pays a Widow's claim and finds the money is sorely needed.

Each year the Canada Life sets aside a Special Month for calling upon Policyholders, where that is possible.

The present month may bring the Canada Life Man to you, but the large number to be seen may make this impossible in your case.

Our Mission

To keep the home together; to afford means to bring up the children and give them a chance in life; to clear off a mortgage or other obligation; to protect personal and business interests generally—that is the great need which it is our mission to fill.

Finding this need all around him, the Canada Life man tries to fit the plan of insurance to the individual need, just as the experienced lawyer is expected to give the best advice to his client or the physician the best course of treatment to his patient. His sympathy and advice are indeed very important factors in his success.

Our Representatives are trained for special service.

For Instance

You may not be fully informed as to what your life insurance will do for your home, or your personal and business interests.

Your Canada Life policies may require to be altered to suit new conditions.

You may wish to arrange to have your life insurance paid as a monthly income, or you may require new policies adjusted to your partnership or business interests.

Group insurance on your employees should perhaps be engaging your attention.

All these subjects are part of the special training with which the Canada Life man is furnished for your benefit.

A Suggestion

Why not, without the slightest obligation, consult our nearest representative, or write to the Home Office of this old, tried Company, which has abundant evidence of success, is experienced in life insurance, pays large dividends to policyholders, and safely and sanely manages the business entrusted to it by the public?

### FIRE CAUSED MUCH DAMAGE AT ASBESTOS

Barn and House Razed to the Ground by Flames Early Yesterday.

ASBESTOS, June 24.—A disastrous fire took place early yesterday morning, when the house and barn owned by Mr. Jos. Gagnon took fire. The fire first broke out in the barn, and was well under way before it was discovered. The barn was completely destroyed before the hose could be brought into use. Two horses were in the barn and were burned to death. The fire then started on the roof of the house, and, owing to the strong wind and everything being so dry, spread very rapidly, and in a short time the roof fell in. Mr. J. LeRoux, who occupied the upper part of the house, escaped very scantily attired, he losing

everything, including his two horses. Mr. J. Michel, who occupied the lower part, was able to save all his furniture. It is not known yet if anything was insured. This is the first serious fire Asbestos has had for quite a while. Everything was done to save the surrounding buildings. All occupied buildings were saved; but a building nearby that was being erected caught fire and was badly damaged.

### THE GRADUATES HELD BANQUET AT RICHMOND

Much Regret is Felt at the Departure of Principal Scott.

RICHMOND, June 24.—A very enjoyable evening was spent in the college on Tuesday, when the members of grade XI, were entertained by the members of grades IX and X. The girls rest room was very prettily decorated in the college colors and banked with ferns and flowers. Covers were laid for the class, composed of twenty-two members, the commissioners and their wives and the clergy and wives. The luncheon, which was all provided by the girls of grades IX and X, was dainty and reflected on their skill as housekeepers. After the conclusion of supper the different class exercises were read. Hartley Mitchell read the class poem. The prophecy was read by L. Porter, who in a very clever manner took a forward look and saw the different members of the class as they took their places in the world. His paper was frequently applauded as now and again he made a popular hit. Needless to say he found all the members of the class, with two exceptions, happily married and prosperous. Marion Smith read the class will, which was something new. She bequeathed to the departing members such articles as they would find most use for in after years. This was the wittiest paper of the evening and the members of the class enjoyed the clever hits that were made at each other's expense. Jean Peplar read the valedictory. She was the only member of the class who had started in the college and finished. The others had come trooping in one by one. Jean prepared a very well written paper and traced not only the history of the class but of the several teachers, under which they had come from time to time, paying tribute to each. At the conclusion of the exercises,

### ACADEMY HAS FINE CLOSING AT COOKSHIRE

Results Are Given for Grades Five, Six and Seven.

COOKSHIRE, June 24.—The academy and intermediate departments of Cookshire Academy closed with an informal party in the school gymnasium on Friday night. The large room had been suitably trimmed by the pupils with flags, bunting and maple leaves. Music was furnished throughout the evening by members of the junior orchestra and by the Misses Charbonnel, French, Walker and Halls. Refreshments were served in the intermediate room, after which Maurice Pratt, as spokesman for the pupils of the academy, presented a beautiful leather purse to Miss Parker, and Graydon Goff on behalf of the pupils in the intermediate department, gave a fine sterling silver eversharp pencil to Miss Macdonald. All report an enjoyable time. The evening closed with the national anthem.

Miss May Faraday, in the name of grade X, presented Principal Scott with a fitted toilet set and Miss Reed with a sewing basket. Both teachers suitably replied.

Much regret is felt at the departure of Principal Scott, who is taking a school in Montreal. Principal Scott has won the esteem and affection of the scholars, by his manly bearing and sympathetic manner. He entered into all the games and school life, setting always before the boys and girls a high standard of life and character.

Miss Reed is equally as popular among the girls. Miss Reed will return at the opening of school in September.

A reunion of the graduates of St. Francis College, of the past four years, was held in the town hall at the conclusion of the banquet. The Elks' Orchestra provided music for dancing. The young people thoroughly enjoyed themselves, and so ended another school year.
