

NEWS TO THE AFFLICTED !!!

CERTIFICATES FROM THE CITIZENS OF MONTREAL TO DR. TUMBLETY.

The following Certificates were sworn before His Worship the Mayor Henry Starnes Esq., on Tuesday, the 8th of December 1857.

MONTREAL, Dec. 7, 1857.
This is to certify that I have been afflicted with Typhus Fever four weeks. Having been reduced to very great feebleness I began to discover the alarming symptoms of death, and my physicians told me that they could do no more for me. I was recommended by some of my friends to send for Dr. Tumblety, I did so, and the effect of his medicines on my worn and diseased system was like magic. I am now enjoying such health as I have not known for years, and I have been at my work at Mr. Brush's Foundry, King Street, Griffintown, this last three weeks.

AUGUST MAESEB.
Nazareth Street, Griffintown.
Sworn before me this 8th day of Dec. 1857,
HENRY STARNES, Mayor.

MONTREAL, Dec. 7th, 1857.
This is to certify that I have been afflicted with Cancer on my lip for upwards of two years, which the Doctors of the City failed to cure, till I applied to Dr. Tumblety, who has cured me of it in six weeks. It is now about one year since I applied to Dr. Reddy, and he told me that it was a slow cancer. Dr. McDonald told me it would have to be cut out, and that it might cause my death, therefore I applied to Dr. Tumblety, who has cured me and saved my life.

ELLEN FAGAN.
Sworn before me, this 8th day of December 1857,
HENRY STARNES, Mayor.

FROM THE MONTREAL HERALD.
In every case of disease the Doctor seems to be triumphant, and the medical faculty must acknowledge the following certificates:—

MONTREAL, Dec. 9th, 1857.

Render unto Caesar the things that are Caesar's!

Dr. Tumblety, I am indebted to you for such a cure as it would be ungenerous to withhold. I feel I am only doing a duty in publicly stating my gratitude for the benefits I have received from the use of your Vegetable Medicine which has given me ease and comfort after long years of grievous suffering.

I have been afflicted with a disease of the Blood called Scrofula, or a species of Leprosy, so called by the Doctors that could not cure me and they were many. My head and face was covered with biles and scales, which every one in St. Ann's Market can testify; and my head was almost splitting with pain. But now, thank God, and Dr. Tumblety's herb medicine, I enjoy refreshing sleep and am quite a new being, being perfectly cured of a fearful disease which failed all the Doctors for upwards of twenty years.

I do not doubt that your medical skill will be appreciated in this city, and I cordially wish you the success you so richly deserve.

THOMAS DAY,
Assistant Clerk of St. Ann's Market.

BAD CASE OF JAUNDICE.

To Dr. Tumblety—Dear Sir,—I have been a great sufferer for two years past with the Jaundice, a great portion of the time confined to bed. I tried four different Doctors, but did not get any better. I live in Ormstown, County Cherokee, and came to this city intending to remain a month or six weeks and give your treatment a trial; but now at one week's end I am so much improved that I am able to return home. I stopped with Mr. Bernard, St. Urban Street, since I came to Montreal, who will testify to the truth of this statement.

FEVER AND AGUE CURED!

I hereby certify that by occupation I am a Superintendent of Public Works. In August, 1855, I took the Fever and Ague which left great nervous and general debility, a weakness in the loins and hips, so much so that my leg would trail when I was walking. After spending not less than \$200 in Doctors, &c., my prejudice gave way and I called on Dr. Tumblety, on the 29th of October, 1857. He at once told me he could cure me.

I have taken one bottle of medicine and a box of Pills, and am happy to say that I am so far restored as to be able to walk with the greatest ease; in fact I am a man with a new life and new hopes.
