AKE UP CANADA

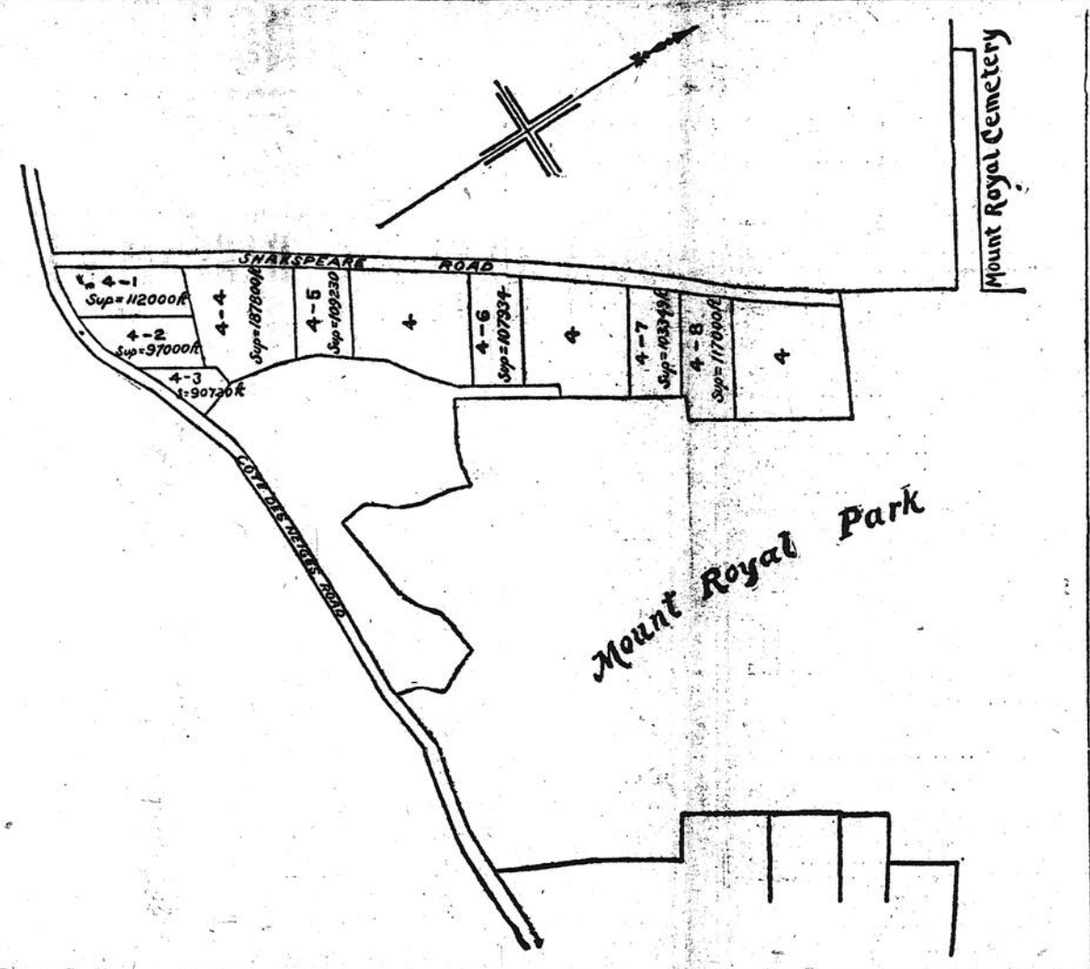
Forty-six Million Dollars' Worth of Exports Handled by Other Ports Through Lack of Dominion Facilities.

MR. JAMES OBORNE, GENERAL SUPERINTENDENT OF THE ATLANTIC DIVISION OF THE C.P.R., ON THE NEEDS OF ST. JOHN AS A WINTER PORT.

The various governments of the Dominion have not been slack to provide transportation facilities as development has proceeded, but there has been a singular indifference to the problem of the export trade—an indifference which may be illustrated by the fact that there are forty-six million dollars' worth of exports which are handled at foreign ports—a business which the Dominion should do, and which it could do, if the Dominion Government were as fully alive to the needs of the situation as it should be, in the estimation of business men. Sir William Van Horne has often said that the government had provided a great hopper into which the products of the country were dumped, but it had done little or nothing to ensure that these products should leave the hopper.

Mr. James Oborne, general superintendent of the C.P.R., at St. John, N.B., has large views on this subject of the export trade of the Dominion, which is greatly crippled for lack of those facilities which the government, he contends, should provide. For instance, as Mr. Oborne, who is in town, pointed out today, take the case of St. John. The people and the C.P.R. had demonstrated that this was the winter port of Canada. To set forth this fact the city had spent over a million dollars. The company had also spent a great deal of money in the way of development. Having taken the initial steps, he thought it remained for the government to step in and carry forward the work, not for the needs of to-day, but for the needs of many years to come. Development was proceeding at a rapid pace in Canada. Any plan of development based on national lines, should contemplate the future as any plan which the C. P. R. touched, always did. That is to say, the C.P.R. always obtained a finished plan, although it might not realize the finished plan at once. So it was with St. John. There had been a certain amount of development done at private expense, but the possibilities were too great for private enterprise to finish. The difference in distance between Portland and St. John had to be considered when one thought of private outlay in the connection. Owing to the longer distance of St. John, and the difficulties under which transportation companies labored, it was manifestly a case for the help of the Dominion Government. The Hon. Mr. Tarte was clearly of this opinion, and he stated that he was prepared to spend liberally in making St. John the great winter port of Canada, if the people of the whole country would only support him. Mr. Oborne had a plan of extension in his mind, which included double story freight sheds—the imports below and the exports above, which would make it easy to transfer the cargo to the vessel, which would be lying close by.

That was in fancy, for the present, but the government was seized of the importance of the question, which had become an acute one, in view of the fact that, at present, owing to our slackness we were really building up foreign interests. He did not think the Americans were in the habit of building up Canada, unless, indeed, they came to reside in it, and he did not see why Canada should be particularly anxious to build up the United States, as she was undoubtedly doing, through the non-use of the opportunities which were within her reach. That forty million dollars' worth of products which found their way to foreign ports, could be handled by our own people at our own ports, if only proper facilities were provided. The question was urgent. He trusted that something would be done. He believed the Hon. Mr. Tarte had the right idea of the question, which presses for solution. The great thing was to arouse public opinion on the subject. If private enterprise put its hand to the business there would have to be such shipping charges as would frighten trade away, and, of course, competition would be out of the question, when you had free ports opposed to you. No; the government should come forward with a well-defined plan of assistance and extension, to meet the growing needs of the export trade, a trade which was increasing by leaps and bounds.



SHAKESPEARE ROAD PROPERTY—SITUATION OF THE SUGGESTED SITE FOR THE CIVIC HOSPITAL.

The accompanying plan explains better than any written description could, the situation and extent of the city's property on the Shakespeare Road, which is again being brought to notice as a possible, and in fact suitable, site for the proposed Civic Contagious Diseases Hospital. It was the intention to make Shakespeare Road the limit of the Mount Royal Park property, and to buy out all the lots on the south-east side to make an even boundary. This has never been done, some of the proprietors, including the Bank of British North America, the Baron de Longueuil, Mrs. Dorwin Gault, the Hon. Thomas Ryan and Mr. James Burns, demanding a higher price for their lots than the city was willing to pay. According to the city charter of 1872, as soon as any of this property was purchased by the city it became incorporated in the territory of the city, even though it might not be contiguous.

The blocks of land of which the areas are given in the accompanying plan, belong to the city, are part of Mount Royal Park, and legally within the city limits, although the city has been paying taxes on them to the municipality of Cote des Neiges. The other properties bearing simply the numeral '4' belong to the estates mentioned above. It is the lots marked '4-4,' '4-5,' which it is proposed to use as a site for the Civic Hospital. The property on the other side of Shakespeare Road from these lots is Cote des Neiges Cemetery.

ATTACKING DEPARTMENT

SUGGESTIONS OF FAVORITISM AND IRREGULARITIES IN THE APPOINTING OF FOREMEN FOREMEN BY THE PRESENT ROAD COMMITTEE.

An attack on the present administration of the Road Department is on the tapis at the City Hall and promises to attain considerable proportions. The preliminary skirmishing has opened with a motion presented to Council by Aldermen Martineau and Ouimet, asking for certain information. The motion as presented and passed read as follows:—

Moved by Ald. Martineau, seconded by Ald. Ouimet:

That the Road Committee be instructed to prepare for this Council a statement showing—

The names, addresses and occupation of the foremen who have been temporarily appointed by the Road Department since April 1.

On what work each of them has been employed, or is now employed.

Have they passed an examination either before the committee or before the City Surveyor, and if so, is such examination mentioned in the minutes of the committee?

Who suggested or recomended the appointment of each of these foremen.

Among these foremen, are there any who, previous to 1902, had worked for the city, and, if so, when, in what capacity, and how long have they so worked?

The intention of the question is evidently to show by the answer that there has been favoritism in the filling of positions in the department, that incompetent men have been selected, and that they have been appointed irregularly and in violation of the rules of the Council.

ST. JAMES STREET SEWER

CONTRACT FOR THIS YEAR'S SECTION OF THE WORK LET YESTERDAY.

The Road Committee at its meeting yesterday let the contract for this year's section of the new relieving sewer on St. James street to Mr. Dineen, the lowest tenderer, at $27.98 pr lineal foot and $3.59 per cubic yard of rock excavation. The work will be begun at Mountain street, and it is expected that the money available will carry the new sewer to Richmond street, or near it.

Ald. Gallery again brought up the proquestion of the importance of the proposed subway under the C. P. R. tracks on St. Denis street. He remarked that the serious accident to Ald. Payette's father showed the importance of this work. Moreover, the ocacsional blocking, by shunting, of the present level crossing caused irregularity on the St. Denis, St. Lawrence and Amherst street car lines, whose car sheds are situated north of the C. P. R. tracks.

It was decided to hold another conference with the C. P. R. and the Montreal Street Railway authorities about the matter.

THE GLORIOUS FOURTH

HUNDRED AND TWENTY-SIXTH ANNIVERSARY.

New York, July 4.—Tammany Hall today celebrated the one hundred and twenty-sixth anniversary of American independence. The programme differed little from that of the Fourth of July celebrations held at the wigwam in former years. W. Bourke Cockran, who recently returned to the Tammany fold, delivered the principal oration, and the other long talk was made by Supreme Court Justice O'Gorman.

THE PRESIDENT AT PITTSBURG.

Pittsburg, Pa., July 4.—Half a million persons greeted President Roosevelt in Pittsburg to-day. They came not only from Pittsburg and Allegheny, but from the scores of small towns within a hundred miles of the city. It was the President's first visit to Pittsburg, and his welcome was enthusiastic. The sun shone brightly, and the temperature was not too high.

President Roosevelt reached the city at 8.45 o'clock, and a President's salute of 21 guns was fired in his honor. He was escorted to his carriage, and almost immediately started for Schenley Park, accompanied by a military escort of 3,000 men. Flags and bunting fluttered everywhere along the course of the parade. When the head of the military escort reached a position opposite the speakers' stand it was halted and stood in company front, with arms at present. As the President and those in carriages passed in review the music was fairly drowned by the cheering of the multitudes of 200,000 people in the stand and occupying vantage points on the amphitheatre-like hillside which rose in front. Following the bands, the united German societies of Allegheny, standing at one side of the stand, and made up of 600 voices, broke into singing the 'Star-spangled Banner.' At the close of the song an invocation was pronounced by the Rev. John H. Prugh. The Declaration of Independence was read, and then followed the oration of the day by the President. After the exercises, the President was tendered a luncheon and reception at the residence of Mr. H. C. Frick on Homewood avenue.

Chicago, July 4.—Three persons were killed and two others painfully wounded last night while making preparations for celebrating the fourth of July, and a sixth had his hand shattered by a giant fire-cracker. The dead are: Robert Kuhn, thirteen years of age, killed by accidental discharge of revolver; Frank Maher, teamster, aged twenty-three years, killed by accidental discharge of a revolver; Alexander McCotter, seventy years od, killed by falling from roof of building while arranging decorations.

GAYNOR AND GREENE

ANOTHER INTERESTING TURN IN THE CASE.

Quebec, July 4.—The celebrated Gaynor-Greene case was up again to-day before Judge Caron for his judgment on the three motions made before him on Saturday last to amend the returns of Mr. Vallee, governor of the Montreal jail, and Sheriff Langelier, of Quebec, and on behalf of the prisoners for the issue of a writ of certiorari commanding Judge Lafontaine to send the record of all proceedings held before him to Quebec without delay, to be passed upon by the higher court as to their validity. All the Quebec and Montreal counsel engaged in the case, as well as the prisoners, were present, besides the usual crowd of the curious, in the expectation of further exciting developments. His Honor on taking his seat proceeded to business at once. With a few prefatory remarks, to the effect that he could not pass upon the merits without first having all the proceedings of the lower court before him, he declared that he held the motions to amend the returns en delibere until he had before him the record of the case before the Montreal extradition magistrate, for the production of which he ordered the writ of certiorari applied for to issue, returnable without delay, which is practically the result so confidently predicted by the 'Soleil' the other day. Mr. Macmaster, K.C., objected that the certiorari would not have the effect of producing all the essential documents which were not yet in the record, but after some argument the judge adhered to his decision and remanded until Friday next the prisoners, who, together with their counsel, were all smiles.

TRAIN HANDS HELD UP

HIGHWAYMEN WERE, HOWEVER, FRIGHTENED OFF BY THE PASSENGERS.

Joliet, Ill., July 4.—Four bold and desperate highwaymen last night held up train No. 51, one of the fastest on the Rock Island road. The train was moving at the rate of forty miles an hour when two masked men climbed over the tender and, levelling revolvers at the engineer and fireman, ordered them to stop. The engineer put on the air-brakes. The men then ordered him to dismount, and made him walk to the express car as a decoy. He was ordered to ask the messenger to open the door. When the messenger appeared the burglars began shooting, and threatened to blow up the car with dynamite unless he gave up the valuables in his possession. The assistant messenger, Kane, drew a pistol and was shot through the right groin. One of the highwaymen then ordered the engineer to put out the headlight and uncouple the engine. This last effort was unsuccessful. The messenger, at the point of a pistol, was made to carry a bag containing jewellery over to a fence, where it was leisurely examined.

Oliver M. Olson, the news-agent, and Charles C. Wentzler, a reporter for a Salt Lake paper, went forward to see what the trouble was, and both were ordered to go back. By this time passengers began piling out of the coaches to learn the cause of the shooting. This frightened the highwaymen, who fled.

CANADIAN MOUNTED RIFLES

THOSE REMAINING IN SOUTH AFRICA SOON TO START FOR HOME.

Ottawa, July 4.—The Militia Department received a cable this morning which shows that the third, fourth, fifth and sixth Canadian Mounted Rifles are coming home at once, as well as the field hospital and the Second Canadian Mounted Rifles, Lieut.-Col. Evans commanding. The cable says that further payments to dependents here are to cease.

THE REV. DR. WILSON

MISSIONARY ALLIANCE LEADER TO VISIT MONTREAL.

Kingston, Ont., July 4.—Dr. Henry Wilson, of the Christian Missionary Alliance, left here at noon for Montreal to stay a few days with his daughter, Mrs. F. S. Wonham, who is now at Dorval. He is busy with his work and only stopped in Kingston for a day to see his friends who still remain and to look upon the graves of those gathered to rest. It is eighteen years since Dr. Wilson left St. George's Cathedral and yet he does not look a day older. He was told this. 'I feel younger, too,' said he. 'I have not used medicine for nineteen years, and I am not a Christian Scientist, either. There is a great secret in my being able to keep so well. I wish all my friends could know it. God has given me great strength to enable me to do the work to which he has called me.' Japan and Jamaica are asking the doctor to visit them in the interests of the great mission work.

NATIONAL COUNCIL

FIRST PUBLIC SESSION HELD THIS MORNING.

St. John, N. B., July 4.—The financial and executive committees held meetings yesterday afternoon preparatory to to-day's first public session of the National Council of Women. At five o'clock a tea at the Golf Club brought together a large number of delegates who were most hospitably received by some of St. John's fairest matrons and maidens making them forget the drizzling rain which tried to ruin the afternoon. The drive out was through enchanting scenery up hill and down hill behind the sturdy horses which the the rule here. The evening was devoetd to a reception by the Mayor of St. John, who, with Mrs. White made the large number of strangers feel quite at home. After supper impromptu dancing was indulged in, the midnight hour seemg the last guest depart, still in the all pervading rain.

This morning dawned brilliantly, bright as any council woman could wish. The day's session opened with silent prayer, after which an address of sympathy with the King was adopted. Mrs. J. V. Ellis, president of the St. John local council, read an address of welcome, alluding to the services of Lady Taylor as Lady Aberdeen's successor. Mrs. Hughes, of Toronto, replied very happily. Mrs. Thompson then read the president's address outlining the work which lay before the council, the principal questions being the financial one, which, on account of the lapse of Lady Aberdeen's fund, is a crucial one, and the change advocated by the Montreal local council of changing the annual meetings to biennial or triennial sessions.

After the roll had bene read by Miss Teresa Wilson, corresponding secretary, Mrs. Boomer, of London, read a message from Lady Aberdeen, desiring that every morning a breast bouquet of flowers be given each delegate in her name. Beautiful roses were handed round to all. A letter was also read by Mrs. Thomson from Her Ladyship opposing teh change from annual to biennial or triennial meetings.

Miss Wilson read a message of greeting from the National Council of Holland.

Mrs. Marion B. Baxter, of Vancouver, read fraternal greetings of the world's organization of the Maccabees, a newly-affiliated organization, the ninth in size in the world of its kind, the eight larger ones being men's societies, whilst the Maccabees is a purely feminine system.

Miss Wilson read the corresponding secretary's report.

Reports from provincial vice-presidents were read in the following order: Ontario, Mrs. Boomer, adoption moved by Lady Taylor, and seconded by Mrs. Macintosh; New Brunswick, Lady Tilley, adoption moved by Mrs. Macnaughton, Montreal Local Council; Victoria and Vancouver, Mrs. Baxter; Nova Scotia, Mrs. Dennis; Prince Edward Island, Mrs. Anderson.

Reports of standing committees were next in order. Domestic science, Mrs. Hoodless; custodial care of women of feeble intellect, Mrs. Willoughby Cummings. The meeting then adjourned for lunch.

AMNESTY PROCLAIMED.

Manilla, July 4.—President Roosevelt's amnesty proclamation was read at noon to-day in English and Spanish from a flag-draped stand on the Luneta, after a parade of 6,000 Americans and Filipinos.

AN OTTAWA RUMOR.

Ottawa, July 4.—It is reported that Mr. Thomas Macfarlane, Dominion analyst, is to be superannuated and that he will be succeeded by Mr. A. McGill, the present assistant analyst.

A WESTERN MAN-HUNT.

Authorities After an Escaped Oregon Desperado.

FIVE THOUSAND DOLLARS REWARD ON HIS HEAD.

Seattle, Wash., July 4.—Advices received from Olympia state that an escaped Oregon convict named Tracy has stolen a gasoline launch at South Bay and started up the Sound. The launch is the largest of the kind on Puget Sound, and has 300 gallons of gasoline, or enough for a 1,000 mile run. Before starting Tracy said he intended firing a few shots at the penitentiary on McNeil Island. He said that he had David Merrill, his companion. Three men have been shot. Two men were seen lying in the ditch, probably dead. He probably fatally wounded Deputy Sheriff Raymond, of Everett; L. B. Senit, a reporter for the Seattle 'Times,' and Deputy Sheriff Jack Williams, of Seattle, who was wounded three times, who fired three shots at Tracy, who was in the open. In his hopeless flight for safety, with no consideration for human life, Tracy has covered probably sixty miles. He was first encountered by a Seattle posse near Bothell at 3.30 o'clock in the afternoon. Evidently the convict caught sight of his pursuers before they saw him. He had taken a commanding position in a clump of firs and opened fire before he was discovered. He fired five shots in all. Raymond was instantly killed by one of the rifle balls. Another struck the raised rifle held by Williams, splitting it in four parts and entered the deputy's breast. He will live, it is believed. Governor McBride, of this state, who is in the city with Adjutant-General Drain, of the state militia, is taking the keenest interest in the case. He has offered a reward of $2,500. This, with other rewards offered by the relatives of the victims of Tracy's rifle, brings a total of $5,600. The governor, in addition to offering the reward, has ordered Adjutant-General Drain to send two troops of the state militia, is taking the keenest members of which are scouting all the northern suburban territory of Seattle.

Shortly after eight o'clock in the evening Tracy was discovered in the home of Mrs.. R. H. Van Horn, at the south-west corner of Woodland Park. The news was conveyed to Fremont by a butcher's boy, who gave the intelligence just as Sheriff Cudihee drove into the suburb. The house was quickly surrounded, but Tracy deliberately fought his way through the guards, killing policeman E. E. Breese and mortally wounding Neil Rawley, a guard, and disappeared into the brush towards Ravenna Park. Sheriff Cudihee twice had a bead upon the desperado, but was unable to fire for the reason that the fugitive had taken the precaution to walk between two impressed men, whose lives would have been imperilled had the sheriff fired.

As soon as the last skirmish was over, and the body of the dead policeman, together with Rawley, who was found to be wounded in the right side, could be removed from the road, and later placed in an ambulance, Sheriff Cudihee, summoned all the assistance available and began strategic movements in order to surround the fleeing fugitive. Tracy went in an easterly direction towards Ravenna, and, once well within the shadow of the underbrush and timber which skirts Woodland Park, would be safe from observation.

Boise, Idaho, July 4.—At Napa a man has been arrested whom the police believe to be David Merrill, the convict who escaped from the Oregon Penitentiary with Tracy.

BULGARIAN BRIGANDS

LARGE BODY CAPTURED BY TURKISH TROOPS.

Constantinople, July 4.—A detachment of Turkish troops recently surrounded a band of Bulgarian brigands in the Vilayet of Monastir. Thirty Bulgarians were killed. The remainder were made prisoners. Brigandage is spreading alarmingly in Monastir.

Turco-Bulgarian complications are threatened on account of the forcible removal of the flag and coat-of-arms from the Bulgarian agency at Serres, Roumelia. Bulgaria has demanded satisfaction within three days.

SCHLEY AND SANTIAGO.

New Orleans, La., July 4.—In the State Legislature the Smith bill has passed the Senate and gone to the Governor. It bars all histories in the Louisiana public schools that do not give complete credit to Admiral W. S. Schley for the victory of Santiago.

HENLEY REGATTA.

Henley, England, July 4.—Nelson, third Trinity's stroke, dislocated his shoulder this morning. The accident alters the aspect of the contest for the Grand Challenge Cup. The Canadians are now the favorites.

CITY BUILDING REGULATIONS

AN IMPORTANT NEW BOOK BEING COMPILED BY THE BUILDING INSPECTOR.

Alcide Chausse, inspector of buildings, is busily engaged in compiling a handbook of the building code and by-laws, which will be of great value to the many who are engaged in the building industries and kindred interest in the area of Montreal. A synopsis of the contents will give a partial idea of its usefulness, as it will contain:—The building laws and ordinances, plumbing and sanitary laws, rules and regulations, drainage, and sewerage laws of Montreal; engineers' rules and regulations, and steam boiler inspection laws and ordiances; building and electric glossary of technical terms, and electrical rules and information. A list of the municipal officers and their office hours. Many tables of daily use and application in the trades. The work will contain about 350 pages, printed in English and French. It is proposed to have the publication ready for distribution to the trade in about six weeks' time, and the work will have a large circulation among all interested in the trades.

FRIDAY AFTERNOON, JULY 4.

TO HOLD TENT MEETINGS

SUMMER CONFERENCE FOR CHRISTIAN WORKERS AT KNOWLTON.

The world has heard of the conventions at Keswick, England, where many gather during the holiday season for the purposes of deepening their spiritual life and enjoying healthful recreation. Along somewhat related lines, in the village of Knowlton, on the shores of Brome Lake, the Brome County Sunday-school Association is trying to start a work, which it is hoped, may result in much good, especially to those interested in Sunday-schools.

Knowlton is in the Quebec highlands, being seven hundred feet above sea level and is attracting a good deal of attention as a pleasure and health resort. Pleasure and spiritual profit are alike aimed at in this new enterprise. It will take the form of a summer school, with lectures and addresses from men of prominence in the Christian world and specialists in Sunday-school work.

The dates of this conference are from August 11 to 20, and its objects are the instruction and development of Sunday-school teachers, and the deepening of spiritual life among all Christians.

The Knowlton Distributing Home, which is only a few minutes' walk from the heart of the village, has been placed at the disposal of the Association. This large building stands on an elevation commanding a view of the lake and the island, and the mountains of Brome and Shefford.

Each day devotional exercises are to be conducted at 7.30 a.m. Recreation till 11 a.m. Lectures from 11 a.m. till noon, from 3 to 4.30 p.m., and from 8 to 9.30 in the evening. There will be ample opportunity for all kinds of recreation. Bolton Springs are twelve miles distant through the famous Bolton Pass. The Pettes Memorial Free Public Library is in the village of Knowlton. The meetings will be held in a large tent.

Arrangements have been made for the accommodation of upwards of thirty ladies in the spotlessly clean dormitories of the Knowlton Home. Board will be provided in a plain way in the same house for those attending the lectures, at $3.50 per week, or 75 cents per single day, etc., Gentlemen will find comfortable sleeping accommodation in tents at a small charge. Good camp grounds are near at hand for parties or families desiring to pitch their own tents; only coal oil stoves to be used. Good accommodation can be secured in the village for families at usual summer boarding-house rates. Stable room is provided for horses.

The following speakers have been secured: The Rev. G. O. Troop, of St. Martin's Church, Montreal; the Rev. E. I. Rexford, of Montreal, member of the International Sunday-school Lesson Committee; the Rev. J. M. Orrock, of Boston; the Rev. E. W. Halpenny, of Montreal, general secretary of the Sunday-school Union, of the Province of Quebec, and others.

There will be daily Bible readings and addresses for the deepening of spiritual life.

Lectures will be delivered on the following and other topics: 'Child nature and training methods,' 'Modern methods in Sunday-school work,' 'Use of the black-board,' etc., etc.

Arrangements are being made to make the musical service an attractive feature.

Inasmuch as the expenses in connection with such a movement are necessarily heavy, those interested are invited to share in the work by sending in subscriptions to the president, the Rev. Edgar T. Capel, The Rectory, Sutton, Que.

It is hoped that the Sunday-schools in the province will appoint delegates to attend this Conference, and send the names at once to Miss Cora M. Buck, the secretary, East Farnham, Que. All other persons contemplating attending the Conference are requested to write at once to the secretary, who can give any further information desired. Families desiring accommodation in the village should write to the Rev. E. M. Taylor, Knowlton, Que., at once, stating particulars.

Knowlton is readily accessible from all points by northern division C. P. R. and also by stage from Foster.

STE. CUNEGONDE COUNCIL.

BAKERS' PETITION TO ABOLISH THE THREE-POUND LOAF.

Mayor Montbriand presided at the last meeting of the Council of Ste. Cunegonde and the following councillors were present: Messrs. Fabien, Cypihot, Emond, Lippé, Hamelin, Ethier and Hénault.

A letter was received from the Rev. F. E. Ecrément, curé of Ste. Cunegonde, complaining of certain parties unknown, who, for some time past, had been injuring property belonging to the Convent of Ste. Angele. The chief of police was instructed to arrest the offenders and have them punished.

A number of taxpayers having examined the roll now deposited at the clerk's office, complain of overvaluation by the assessors and ask for reductions. Dr. Contois, who is among the complainants, says the assessors' valuation of the rental of the business premises occupied by him is much in excess of the actual rent paid under the lease.

The Montreal Rolling Mills also complained of an error in the valuation of their property.

A petion from a number of bakers asking that a resolution be passed fixing the weight of bread sold in Ste. Cunegonde, gave rise to some discussion. The changes asked for by the petitioners are practically the same as were carried out in Montreal recently, namely: That only one, two, and four-pound loaves be manufactured. The council decided to grant the request of the bakers and the secretary was instructed to draw up a by-law accordingly, to be submitted at the next meeting.

It was also decided to refer to the Fire Committee a communication received from the Dominion Wadding Company, asking for certain improvements in the system of protection against fire.

The bill of costs in the St. James street sewer case, sent in by the city of Montreal was not accepted, but was returned to the attorneys of the corporation, as the case goes to appeal.

THE 'JOURNAL' ON DOMINION DAY.

The French morning paper, the 'Journal,' says of Dominion Day:

'Unfortunately we do not celebrate this day with all the eclat and enthusiasm it deserves, for it is our national feast, and we are a people of six millions. On this day all Canadians, from the Atlantic to the Pacific, should fraternize, so as to affirm with energy our existence as a nation. English, French, Irish, Scotch, all Canadians living upon the soil chosen by our ancestors, or chosen by ourselves, it is our duty to set aside all sentiments of race and to live united and work together for the development of our common country. If our country has not upheld nor given full force to its development, if, enjoying the same resources and climate as the United States, it has not as yet attained the degree of prosperity seen in the great republic, it is in part for the following reasons:

'There is here a certain element which too frequently turns its regards to the Mother Country, and neglects, through an unreasonable sentimentalism, the well-known interests of Canada. On the one hand, imperialism clearly defied by the tariff or exceptional preference, and on the other the silly desire to imitate all that is Parisian, are the direct consequences of the first defect. We probably discount too much our country's past, while we do not endeavor to smooth away the difficulties which are likely to retard our progress.

'It cannot be denied, the great obstacles which have delayed our progress are questions of race and religion. They have been numerous since 1867.'

The 'Journal' goes on to cite the New Brunswick school question, the North-West rebellion, the Manitoba school question, imperialism and several others, and says:—

'Now that the most burning of these questions are dead, would it not be better to pass the sponge on old enmities, and work, all together, for the greater development of Canada? If it should happen that we again have reason to complain of the trespassing of a certain element upon the rights of another, let us make our complaints quietly and with calmness. It is not by irritating those against whom we have grievances that we will predispose them in our favor. Let us appeal to their reason, and not forget that there is under our flag that spirit of justice that will cause the triumph of right and equity.'

A RECORD YEAR.

PROVINCIAL LANDS, FORESTS AND FISHERIES RECEIPTS THE LARGEST YET.

Quebec, July 4.—It is understood that the receipts of the Quebec Department of Lands, Forests and Fisheries during the past fiscal year, ended on July 1, have amounted to $1,300,000, which is the highest figure yet attained in the department's history. It includes, however, the proceeds of the two sales of crown timber limits held in May and June.

LOYAL MONTREAL LODGE.

In the autumn, Loyal Montreal Lodge, No. 3115, I.O.O.F., M.U., will celebrate its sixtieth anniversary. At the half-yearly meeting last night a committee was appointed to deal in a preliminary way, with certain suggestions that had bene made for its observance.

P. P. G. M. R. Hamilton presided at the meeting. The secretary's report showed the membership to be 313, a substantial increase in net membership during the term. At the half-yearly meeting it is usual to elect a number of the officers and committees. Those chosen last evening were: Financial secretary, P. P. G. M. Hardisty; treasurer, P. P. G. M. A. Starke, sr.; physician, J. J. Ross, M.D.; chaplain, Bro. A. G. Tyke; trustees, P. G. Gordonsmith, P. G. J. T. Bolt, Bro. J. W. Hall; auditors, P. G. J. H. Hamilton, P. G. W. J. Stewart, P. G. F. G. T. W. Fryer; social committee, N. G. R. Farrell, V. G. W. G. Hughes, P. G. W. J. Stewart, Bro. Austin, Bro. Walsh, Bro. E. Hughes and Bro. Restoll.

INTERESTING WOMEN

SHE SUPERINTENDS EXCAVATIONS.

Some time ago George C. Smith, a contractor residing in St. Louis, entered into an agreement with the World's Fair managers to dig a channel for an artificial river to run through the exhibition grounds, and to do other work of a like nature. Business engagements called him elsewhere before the work had made much progress, but his contracts have been assumed by his wife, and will be fulfilled to the letter. The stream, now a tortuous creek in Forest Park known as the River des Peres, has to be straightened for a distance in order to prevent the overflow of water which will come through the channelway through the site. Mr. Smith secured this contract some time ago, and after finishing a great deal of excavating at different points on the site, has been pushing the task until it is nearly completed. There is now not sufficient work to warrant him in centring all his forces here. He has just closed a $75,000 contract in Arkansas, where he will construct a railway bridge across the White River, and he will find it necessary to spend the greater part of his time there. Mrs. Smith will remain in St. Louis and finish her husband's work.

'The work we are doing here now,' said Mrs. Smith the other day, 'is a mere trifle compared with what I hope to do a little later. I fully expect to get the contract for the excavating for the liberal arts building, which will involve the handling of about 100,000 cubic yards of earth. That is a piece of work large enough to be interesting, and also to be worth getting. I have been a student of such work for twenty-five years, and am perfectly willing to pit my judgment and experience against any of the contractors with whom I may have to compete. I shall maintain here the camp which Mr. Smith has established, and if he finds it necessary to his work in Arkansas to reduce his force here, I shall gradually restore the number of workmen and teams to their present number. In all probability I shall establish a larger camp than we have had heretofore. I suppose I may have to get the contract in my husband's name, as the exhibition officials may be afraid of intrusting so large a task to a woman. But they will never know the difference when I get my forces to work. I shall have a good horse, so that I can keep an eye on the progress of the work from day to day. I have some excellent foremen, but there is nothing like seeing every step of the work for yourself. Then you have nobody to blame if things go wrong.'

Mrs. Smith is a comparatively young woman, but has been intimately acquainted with camp life and the construction of railways from her childhood. Since her marriage she has been a constant assistant to her husband, in addition to rearing a good-sized family. She declares that the sound of the first scraper in the spring is more stirring to her than the strains of a brass band, and that if she were not involved in some large contract at such a time she would be miserable. Mr. Smith says he has no hesitancy in turning his interests over to his wife, his only doubt being that he may not be able to conduct his work in Arkansas so successfully without her. —'Anaconda Standard.'

LACE-MAKING BY INDIANS.

Miss Sibyl Carter, of the Diocese of Minnesota, has just been making a tour of Canada in the interests of her lace industry for Indian women. The women of the Church of England hold their diocesan missionary convention at this time of year. Miss Carter has addressed several of these gatherigs, and has awakened much interest in what she calls an 'industry for mothers.' Indian mothers, Miss Carter says, have been heretofore almost entirely neglected by the government and the churches. The inevitable consequence has been that, after the children have been educated at great expense, they succumb to the home environment, and lose the smattering of civilization which they have acquired. This has been the despair of the Indian educator, and Miss Carter is said to be the first to think of the simple expedient of making the homes decent places for the children when they come back. Indian women are intelligent, she says, and very teachable, when one has won their confidence, and lacemaking has proved a potent means of general education. The women know they cannot sell their lace unless it is absolutely clean, and it is easy to make them understand that to have clean lace they must have clean homes.—Boston 'Woman's Journal.'

ART GALLERY CATALOGUE.

The Art Gallery is to have a new catalogue; not because 'the old order (of the pictures) changeth,' but because the old one is out of print. The new catalogue will contain biographical notes of the artists whose paintings are hung there.

MIDSUMMER WEDDINGS.

STEWART—COOPER.

The marriage of Mr. Henry Arthur Stewart, of the West Indies' agency of the Manufacturers' Life Assurance Company, to Miss Ethel Maud Cooper, eldest daughter of Mr. and Mrs. W. E. Cooper, was celebrated at seven o'clock last evening in Chalmers Church, the Rev. G. Colborne Heine officiating. The church was decorated with palms and flowers. The bride, who was given away by her father, was charmingly gowned in white duchesse satin, trimmed with chiffon, and a bertha of heavy silk applique, white tulle veil, with a coronet of orange blossoms, and carried a shower bouquet of white roses. Her ornaments were a gold locket and chain, the gift of the groom, and a gold bracelet, presented by Mr. MacCormack, of Kingston, Ont. The bridesmaids were Miss Mabel and Miss Irene Cooper, sisters of the bride, who wore white Swiss muslin, trimmed with satin, and white picture hats. Their bouquets were of pink sweet peas. They also wore pearl crescent brooches, gifts of the groom.

Mr. George E. Winter acted as best man, and Messrs. Barry, Watson, Findlay Lockhart, and Ernest Saunderson, as ushers.

During the ceremony the choir sang two appropriate hymns. Later a reception was held at the residence of the bride's parents, Mance street. The bride's mother received in a gown of voile, ashes of roses, handsomely trimmed with white moire silk and applique, black tulle hat, trimmed with sequins and pink roses. The decorations of the house were carnations, wild roses, palms and plants.

Mr. and Mrs. H. A. Stewart left for Malone, New York, and the Adirondacks, the bride travelling in a tailor-made costume of cocoa-colored Venetian cloth trimmed with white moire and string colored applique, white silk blouse and white chiffon hat, with feathers. ALLISON—CUMMINS.

Dr. Allison, president of Mount Allison University, New Brunswick, was married yesterday to Miss Ellen Elizabeth Cummins, formerly of Souris, P. E. I., and recently of Chicago. The marriage took place quietly at seven o'clock last evening at the home of the Rev. J. A. Gordon, pastor of the First Baptist Church, Montreal, by whom the ceremony was performed. The bride, who is a cousin of Mrs. Gordon, wore a handsome travelling suit of blue cloth with white silk blouse. The wedding dinner was served at the Windsor Hotel, where Dr. and Mrs. Allison are staying at present. They will leave by the SS. 'Parisian' for a tour on the Continent.

KIRKWOOD—PARKINSON.

The Methodist Church at Rawdon was the scene of a happy event on Wednesday, June 25, when Miss Hattie Maud Parkinson, second daughter of Mr. Jas. Parkinson, was united in marriage to Mr. James A. Kirkwood, the Rev. R. R. Eagleson, pastor of the church, officiating. The church was artistically decorated with wild roses, ferns and marguerites. The bride was charmingly attired in white, and the bridesmaid, Miss Mabel Parkinson, sister of the bride, also wore white. Mr. George Kirkwood, of Montreal, brother of the groom, acted as best man. After the ceremony the guests to the number of about fifty attended a reception at the home of the bride's parents, where an elaborate supper was served. The presents were numerous and beautiful. Mr. and Mrs. Kirkwood have taken up their residence in Rawdon.

KINGSTON WEDDINGS.

Kingston, Ont, July 4.—Two weddings occurred on Wednesday night, Mr. Jas. Laturney marrying Miss M. A. Hamilton, daughter of the late Mr. Charles Hamilton, of Blenheim, Ont. The service was held in St. James's Church. The bride was handsomely gowned.

In the Salvation Army barracks Major Turner, of Montreal, conducted the ceremony uniting Miss Jennie Rutherford, of Kingston, and Mr. Andrew Aylesworth, of Odessa.

THE FIRE ZONE

IMPROVING THE FIRE PROTECTION IN THE CENTRE OF THE CITY—NO. 3 STATION IMPROVEMENTS.

Ald. Walsh, who is taking so much interest in the question of the improvement of the fire protection system in the congested or fire zone in the centre of the city, this morning remarked that he thought the underwriters ought to be well satisfied with what the fire committee is doing to remedy the defects. At yesterday's meeting, besides letting the contracts for two new big fire engines and taking preliminary steps towards securing a supply of new hose, the committee let the contract for a $3,000 addition to No. 3 Station on Wellington street, destined to accommodate one of the new engines. Another $2,000 contract increasing the accommodation at the same station had just been completed, and so had a contract improving the accommodation at No. 1. The new contract at the Wellington street station was let to Mr. Latour, the lowest tenderer.

LIMELIGHT LECTURE.

There was a large attendance at the North Baptist Mission last evening, when Mr. W. P. Reekie, B.A., gave his illustrated lecture on scenes in the Holy Land. Mr. Reekie commenced with views of his former home in Manitoba, and student life at McMaster University, Toronto, and proceeded to give the audience glimpses of his trip to Liverpool, the Continent, Egypt, and finally a large number of interesting scenes in Palestine. A collection was taken up in aid of mission work in Bolivia, where Mr. Reekie will go soon as a missionary.

PRESENTATION TO MR. HAGUE.

At the weekly meeting of the directors of the Merchants Bank held to-day, Mr. H. Montagu Allan, on behalf of himself and co-directors, presented Mr. George Hague with a piece of silver, with an address, testifying to the high esteem in which the former general manager had been held during his twenty-five years of service with the bank.

THE ANNUAL LOAN.

The tenders for the civic annual loan—$238,000 of four percent debentures—will be opened by the Finance Committee this afternoon. Several tenders had been received up to noon and considerable competition, and a handsome premium were confidently expected.

SHIPPING NEWS.

July 4.

INDIANA MAY BE FLOATED.

The SS. Indiana still lies on the rocks at Mingan Islands, north of Anticosti, and the latest telegrams give hope that she will be floated either to-day or early to-morrow. Mr. George Brew, marine superintendent, telegraphed yesterday to Messrs. Furness, Withy & Co., that there is still water in the hold, but that it is quite under control of the six pumps now at work. The weather continues fine and the work is progressing more satisfactorily, and more quickly than was at first thought possible.

SS. MILWAUKEE SAILS.

The Elder-Dempster line SS. Milwaukee, Captain F. J. Symons, sailed to-day for London with general cargo and cattle.

WILL LOAD AT RIVER DU LOUP.

The SS. Motka, Captain J. Kirston, finished discharging her cargo this morning, and sailed at noon for River du Loup, to load timber and deals for Cork, consigned by Messrs. McLean, Kennedy & Co.

SS. TORR HEAD SAILS.

The Head line SS. Torr Head, Captain M. R. Thompson, sailed at daybreak to-day with general cargo for Belfast. The vessel will call at Quebec on her way down the river to complete her cargo. She has also some passengers for the homeward voyage.

THE KILDERHOUSE DAMAGED.

The schooner Kilderhouse was towed into Midland yesterday by the SS. Algonquin, the former having been very much injured in a collison with the Algonquin last evening. The Kilderhouse left Midland after discharging a cargo of coal for Gore Bay, where she was to load ties. The Algonquin struck the Kilderhouse stem on, and carried away all her forward rigging, and severely injured the boat. It was thought the Kilderhouse would sink immediately, and the crew made ready to get off, but later it was found they could keep her afloat with the pumps and syphon, and they worked her in this way and kept her afloat. After the collison the Algonquin came alongside and took the Kilderhouse in tow at 3.30 a.m., and towed her into Midland, arriving at noon yesterday. The damage to the Kilderhouse will amount to about $3,000.

SAILOR HAD SMALLPOX.

The SS. Douro, from Quebec, arrived at Sydney, C.B., yesterday afternoon, with a case of smallpox on board. The patient has been isolated, and the steamer sent to quarantine.

LAKE ERIE DUE TO-MORROW.

The Elder-Dempster Beaver line SS. Lake Erie is making her first trip to Canada. She passed Father Point inwards at 6.35 last evening with 28 cabin, 47 intermediate and 660 steerage passengers. She is due to reach Montreal early to-morrow morning.

Following is the list of her saloon passengers:—Miss Gifford, Mrs. Chapman, Miss Parlains, Marjorie Parlains, Raleigh Parlains, Miss Orr, Miss Carr, Miss Maggie McGregor, Miss May McGregor, the Rev. Mr. McLellan, Deputy Surgeon-General and Mrs. Oliver, Drs. Stickney, Adams; Mrs. Forster, Miss Plame, Mr. and Mrs. Fournier, Messrs. McGuffie, Hooper, Banks, MacKay, Smith, Tennent, Beyngolfern, Bjdinarson, Mrs. Bering and child.

July 4.

SS. HURONA ARRIVES.

The Thomson line SS. Hurona, Captain J. Dorward, arrived yesterday evening, from Middelsborough, with a general cargo. The vessel passed through the Belle Isle Straits.

CARGO OF PITCH PINE.

The SS. Atbara, Captain Madel, which sailed from Mobile on June 19, arrived yesterday afternoon at 5 o'clock with a cargo of pitch pine, and tied up at Hochelaga. Messrs. McLean, Kennedy & Co., are the agents. The pitch pine is consigned to Mr. E. H. Lemay, of this city.

TROUBLE AT QUEBEC.

The SS. Iberian, which arrived at Quebec yesterday to load, has about one thousand tons of western cargo on board, but no attempt was made to discharge it yesterday. It is stated that the unloading of this steamer will begin this afternoon, the work to be done by the crew and unorganized labor, and great interest is taken in the result, as certain parties declare that the ship laborers will interfer while others state that they will not. The 'L'Evenement' last night said that trouble is expected, and that the Iberian will probably have to go to Montreal. In the meantime, other stamers such as the Manchester Engineer and Anatolia, are being loaded in the basin by ship laborers.

R.M.S. TUNISIAN SAILS.

The Allan line R.M.S. Tunisian, Captain Vipond, sailed yesterday afternoon from Liverpool for the St. Lawrence with 175 cabin passengers, 225 intermediate and 490 steerage. She also brings 575 Canadian troops.

THE CANARA ABANDONED.

Captain Mercovick, of the Austrian SS. Dorothea, which has arrived in West Bay, reports that in latitude 43.5, longitude 61.58 he passed the schr. Canara abandoned, with her masts gone, and on fire aft. The vessel was burning slowly, and was very dangerous to navigation.

The Canara hails from Windsor, and is owned by Messrs. Robert and John H. Thomson, of St. John, N.B. Her registered tonnage was 1,549 tons, and was built in St. John in 1884.

LARGE COAL SHIPMENTS.

The Dominion Coal Company's officials predict a banner season this year. Last year their fleet of steamers brought into Montreal 800,000 tons of coal, but this season they are hopeful of going over the million mark. This is in a great measure due to the fact that the steamers are larger and there has been an increase in the coal towers.

R.M.S. PARISIAN DECORATED.

The Allan line R.M.S. Parisian, Captain Wallace, sails to-morrow morning at nine o'clock with a good list of passengers and a full general cargo. In honor of the United States national holiday the Parisian was made conspicuous this morning by being the only vessel in port to be prettily dressed in rainbow fashion.

A RICH CARGO FOR BELFAST.

The Head line SS. Torr Head is taking a large and valuable cargo to Belfast, comprising 42,000 bushels of corn, 33,000 bush. of rye, 9,500 bushels of oats, 100 tons of oilcake, 100 tons of hay, 4,400 sacks of flour, one car of lard and bacon, two cars of staves, 14 cases of coffins, 500 boxes of cheese, and 350 standards of deals. Messrs. McLean, Kennedy & Co., Corn Exchange building, are the agent.

CREW IS ON STRIKE.

Detroit, Mich., July 4.—A special to the 'Free Press' from Petosky, Mich., says: 'The SS. Northland, plying between Chicago and Buffalo, is tied up at at Mackinac Island by a strike among the crew. It is claimed that they have not been paid, and last night they refused to allow the boat to proceed.'

LARGE SHIP ROBBERIES.

Quebec, July 4.—The investigation into the robbery of hawsers from the Leyland steamer is tending to develop the fact that during the last two years the stealing of all kinds of stores from these vessels has been carried on upon a gigantic scale and that others are implicated besides those actually under arrest.

SS. OCEAN DAMAGED.

Coming through the Cornwall canal yesterday the Ocean struck bottom and injured her hull. She reached Kingston and had the break patched so that she could proceed westward to-day. The general cargo from Montreal to Toronto is badly damaged.

SS. DORA ARRIVES.

The SS. Dora, Captain Goulding, arrived in port this morning from Cardiff, and moored at Hochelaga, where she will load a cargo of deals for the United Kingdom. She left Quebec early last evening and, owing to the fine weather she was enabled to steam all night.

IMPACTED EAR-WAX.

('Youth's Companion.')

The normal secretion in the orifice of the ear is the product of glands situated in the outer half of the canal only. This secretion—the cerumen, or ear-wax—is slowly poured from the gland ducts as a thin, yellowish liquid. As it quickly loses a large amount of its watery element by evaporation and becomes admixed with dust, it forms a thin layer, wax-like in color and consistency, which normally covers only the outer portion of the canal—that in which the glands are situated.

This layer of material probably has its chief function in common with the few small hairs in the same location, in protecting the vibratory membrane—the drum—from the contact of dust.

It is interesting to observe that the exit of this layer of wax is accomplished by nature chiefly with the aid of the motion communicated to the ear canal by the movements of the jaw in chewing and talking, a motion readily felt by touching the orifice with the finger-tip during these processes. The constant increase of the secretion is, therefore, provided with a corresponding loss which takes place almost as imperceptibly as the constant loss of the superficial layer of the skin from the surface of the body.

This explanation serves to make clear why the use of ear-spoons, pins or hairpins is unnecessary. The use of such objects is not only superfluous, but it is often the cause of the very condition which those who use them would prevent.

Even too vigorous washing with a twisted cloth or sponge, for example, may result in pushing the wax back into the canal until a mass sufficient to block the entire opening is accumulated.

The first intimation of the presence of impacted wax is often the sudden occurrence of a considerable degree of deafness. This is most likely to happen on a damp day or just after, or during a bath. A slight amount of moisture causes the mass to swell so that the narrow chink previously existing between the mass and the canal is closed. If it is not now removed, the mass may shrink and the hearing power be temporarily restored, only to be lost again when conditions arise causing an increase in the size of the mass.

Firm, gentle syringing with warm water from a piston ear-syringe is usually regarded as the safest and best method of removing the mass, the handling of which had better be entrusted to a physician or trained nurse, if possible.

KILLED IN A STREET QUARREL.

Cambridge, Mass., July 4.—Henry F. Kane, formerly a soldier in the Philippines, was murdered on the street this morning, as the outcome of a quarrel with an unknown man. Kane and companions were going in one direction and two unknown men met them. The first inkling that Kane's friends had of trouble was when one of the unknowns said: 'Why did he hit me?'

Then, according to witnesses, he fired at Kane. This bullet went wide and then the stranger fired a second time, the bullet penetrating Kane's heart. He died in the ambulance. The police have hopes of finding the murderer.

The Daily Witness.

FRIDAY, JULY 4, 1902.

The Liberal majority in Ontario has been reduced to one by the decision in the Lennox case, and, as the 'Globe' with a brave show of cheerfulness admits, 'one is not many.' The Conservatives are naturally jubilant and go so far as to count on North Renfrew at the coming election. This is a stretch of hopefulness, however, as the late Mr. Munro was returned as a supporter of the government by a majority of nearly five hundred. The Conservatives also point to the fact that they have a majority in the province so far as the counting of heads goes, and while this does not put them in power, it does go to show that Mr. Ross's majority of one may soon become a minority. It also goes to show that if Mr. Whitney and his lieutenants were stronger men, or if they had had anything of a policy at the last election, that the verdict would have been reversed. The province was not enthusiastic for the Liberal party on account of its shuffling and its paltering with bribery, but Mr. Whitney had nothing but a shuffling policy to offer as an alternative. How far he gained by his uncompromising attitude in opposition to prohibition it is difficult to say. Some individual Conservatives were well-known temperance men and got the temperance vote. Nevertheless, it is safe to assume that the liquor vote went largely for the Conservatives and that this will happen again. Apart from the referendum, Mr. Ross's policy seems to be included in the motto, 'Build up New Ontario.' The progress of that section has done much to vindicate those who believed in it and consequently to weaken those who criticised a daring policy of progress. But New Ontario will not be allowed to obscure all other questions for long, and the first debate on party lines will be interesting. Indeed, we may be very sure, whatever else may or may not come to pass, that politics will add to the interest and gaiety of life in Ontario for some time to come. There is nothing serious to be apprehended as it is on the whole only a case of 'ins' and 'outs.'

A proclamation was issued by President Roosevelt in Washington and Manilla to-day declaring peace and granting amnesty to all political prisoners in the Philippines, including Aguinaldo and other native leaders This act of clemency is, no doubt, intended to assure the Filipinos that there is no desire on the part of the government of the United States to pursue a harsh policy towards them if they will agree to accept the situation and abandon their attitude of resistance to its authority. Having practically condoned the ruthless military methods adopted for the suppression of armed resistance, and thus shown the natives that it can strike with an iron hand heavier and more crushing than Spain could ever wield, the United States now shows it can be generous and free-handed. There are those acquainted with the islands who deplore this policy. They say that American authority in the islands extends so far as the military arm compels it to be respected, and no further. Some of the testimony given before the Senate committee takes the ground that there is an ethnical difference between the Filipinos and the Americans which neither severity nor generosity can overcome. This is the attitude nearly always held by those Europeans and Americans who live on the confines of Asiatic populations. Military severity, these people say, has only deepened that difference into racial hatred on the part of the natives, and present generosity is more likely to create an impression of American weakness and vacillation than to win consent to subjugation. In the United States the proclamation is sneered at as a political move planned with a view to placating the people at home on the Philippine question, as much as it is an experiment in the hope of winning the Filipinos to a more favorable opinion of United States rule. There is no doubt that the course taken is morally the right one. The Filipinos were never rebels nor insurgents, nor anything but patriots, defending their country against an invader, who, so far as they were concerned, had no sort of claim to it. The gratifying events that have followed the conclusion of peace in South Africa have apparently impressed the United States Government with a desire to show, if possible, a somewhat similar state of affairs in the Philippines. It is sincerely to be hoped that the proclamation of amnesty will have the intended effect, but it is evident that the Americans have a much more difficult and complicated task on their hands than that which has fallen to the British. An experiment is to be made, however, to govern the islands by civil power, and the military governor has been relieved from his duties.

Like everybody else who takes any interest in the matter, the United States Government has become tired of the everlasting revolutionary wars in Venezuela and Colombia. But now that the Panama route for the Isthmian canal has been decided upon that tired feeling may give way to an active policy for the restoration of peace at least within reasonable range of the great work about to be recommenced. This is held to be the more necessary since President Zelaya, of Nicaragua, has sent coal and munitions of war to General Herrera, the leader of the Colombian revolutionists on the Isthmus, an action which is likely to result in war between Colombia and Nicaragua. All the governments of the Central American republics, except that of Colombia, are Liberal, and in active sympathy with the revolutionists in Colombia, while the government of that republic is equally active in its sympathy for the revolutionists in Venezuela. Where all the money comes from that enables the bankrupt government of Colombia to hold its ground against internal and external enemies, and at the same time promote civil war in Venezuela, is a mystery. It is said that the Clericals, whose great privileges are at stake, supply the sinews of war from their vast accumulations. The triumph of the Liberals would mean the suppression of the religious orders throughout the republics concerned, as was long ago done in Mexico. Hence the uncompromising obstinacy of the struggle. Little reliance is to be placed in the reports sent abroad of great successes won by either party. The truth seems to be that the forces in opposition to each other are about equally divided, and the war being carried on by commands widely separated, each fighting on its own account, renders a victory or defeat on one side or the other of no particular consequence in deciding the general issue of the conflict. In order to preserve peace on the Isthmus, the United States has had to establish a strong military police control. Conditions have become so vexatious that it is thought the policy of non-interference in the affairs of the turbulent republics may have to be changed for one of activity in favor of peace. But Washington statesmen may well hesitate before stirring up the nests of hornets in South and Central America. However the hornets may quarrel among themselves they will all be at one in resenting interference by the United States in their affairs. Indeed, however excellent the intentions of this step-aunt meddling might be, they would be sure to rouse all Spanish America in opposition to what would be construed as an encroachment with a view to dominance. The Panama canal's being on the firing line between the parties at war complicates the situation. The United States will be accorded the right to police and protect the canal. How to do this without interfering between these parties is the ticklish problem before her.

THE FINANCIAL SITUATION.

Business on the local Stock Exchange, although dull just now, shows record-breaking figures for the half-year concluded on Monday. Some sixteen hundred thousand shares of stocks of a par value approaching a hundred million dollars were sold, and some five million dollars worth of bonds changed hands. Each division of business, such as 'transportation,' 'industrials,' and 'banks,' shows an increase, except 'mining,' which is only about a sixth as large as for the first six months of 1900, and a little more than half as large as for the corresponding period of 1901. It is barely possible that some of the present mining stocks may regain some degree of favor, but they have been much discredited by past bad management and mining in Canada must take on the methods of South Africa before any great success can come. The great mineral wealth of New Ontario, for instance, is unquestionable, but it will never be developed properly until it is mined and milled on a large scale. One of the most famous mines in New Ontario, the Golden Star, at Mine Centre, never had more than ten milling stamps, if we remember rightly, and ten and five stamps have been the rule. Thirty, fifty and a hundred stamps are required, and everything else in proportion, to save the gold economically, and some day such comprehensive methods will be adopted. All that is wanted is sufficient capital, brains and a moderate degree of honesty. Sales of the industrial stocks for the first half of the year exceeded six hundred thousand, sales of bank shares numbered nearly six thousand, and transportation in the neighborhood of four hundred and fifty thousand. The past half year will ever be memorable for the astonishing appreciation of Dominion Steel, Dominion Coal, Nova Scotia Steel and Canadian Pacific, and the excitement and variety of surmises connected therewith. The highest price of Canadian Pacific so far this year has been 142½ and the lowest 110, compared with 100 high and 85½ low for the year 1900. There was no Dominion Steel or Nova Scotia Steel then, but Dominion Coal preferred ranged between 109 and 118, compared with a range of 115½ and 118 so far this year; while Dominion Coal common ranged from 36½ to 46 in 1900 and from 54 to 148 this year. Gold mines are more than ever three a penny. In 1900 War Eagle sold as high as $2.75, after having sold up to $3.88 in 1899, and it now sells at between 10 and 14 cents; in 1899 Payne sold as high as $4.20, in 1900 at $1.37 and now it is offered at 20 cents; the high price for Republic was $1.42 in 1899 and $1.16 in 1900 and now it can hardly be said to go at 10 cents; Montreal-London sold as high as 96 cents in 1899 and 36 cents in 1900, and now everybody concerned prefers not to mention it. The moral of Montreal-London is that it made a few brokers wealthy and a lot of other people poorer, and, no doubt, wiser for the time being. Virtue stock was also a rocket in 1900, soaring to $1.21, and now it is a stick at 10 cents. There is more tragedy included in these figures than in many volumes of blank verse. The high price of Canadian Pacific was 62 7-8 in 1896, 99½ in 1899, 100 in 1900 and 142½ this year. Toronto Street and Twin City also show considerable appreciation.

So far, although the season has been so cold and wet and slight frosts have occurred, the grain crops in Manitoba and the North-West generally do not appear to have suffered; indeed, it is reported that they never looked in better condition for the time of year. At the same time, the comparatively fine weather of the past few days is hailed with delight, and it is recognized that continued sunshine is necessary to make the harvest a bumper one. In Quebec everything is backward owing to the excessive rain, and that is generally the case in Ontario, while in the United States the damage to the wheat crop by rain is estimated at 7,000,000 bushels already, and the injury to corn is also expected to be great. If there is any great shortage in the United States in both wheat and corn, and the harvest in our own North-West proves only moderately good, our farmers will do well because of enhanced prices. A greater area of land is rapidly being brought under cultivation, as is to be seen in the land sales of the Canadian Pacific Railway alone. The sales for June this year, for instance, were 257,644 acres, and sold for $945,786, or an average price of $3.67 an acre, while in June last year the sales were only 50,168 acres, for $161,352, or $3.21 an acre. The sales, therefore, have increased 413 percent, and the average prices some 14 percent The great increase in local Stock Exchange business is shown this week in the statement of the Montreal Clearing House. The figures are $16,405,442, compared with $15,184,764 for the corresponding period of 1901, $12,663,083 for 1900, and $13,066,003 for the corresponding week of 1899.

BUSINESS RUINED

THE HOME REMEDY COMPANY HAS LEFT MONTREAL.

Through the action of Chief Detective Carpenter and the exposure made in the 'Witness,' the business of another fraudulent concern has been ruined and the manager has taken his departure from Montreal. The business referred to was known as the Home Remedy Company, of which a young man from New York, who gave the name of Samuel Harris, was the manager. The same kind of business under the same auspices was carried on in the United States under the name of the Curoline Company.

Complaints having reached Mr. Carpenter a few weeks ago from victims who had been defrauded by Harris, the latter was requested to call at detective headquarters and explain matters. His explanations were not satisfactory to Mr. Carpenter, and he was told that if he did not at once close his business steps would be taken to stop it. Harris put on a bold front and argued that his business was perfectly straight and legal. The Postmaster-General's Department was put in possession of the facts connected with the case, and an order was promptly issued depriving the Home Remedy Company of the use of the mails. This was the signal for Mr. Harris to settle up his affairs and remove to a new hunting ground. To-day Chief Carpenter announced that Mr. Harris had shut up his office in the Temple Building and left the city, taking away with him about $20,000 (less running expenses), which he had received from his victims, practically all residents of the United States, by the scheme which was fully described in these columns recently.

THE SIGNS OF CULTURE

MR. W. D. MATTHEWS, DIRECTOR OF THE C.P.R., SAW THIS ON HIS RECENT TRIP WEST.

'Where all was raw and crude in years gone by, one saw the happy home in the West; the verandah, the nice flower garden, bespeaking culture and leisure; the well-dressed girls; the piano (often), in the house, and all the aspects which denoted an improvement in material and aesthetic conditions.

Mr. W. D. Matthews, a director of the C. P. R., who accompanied Sir Thomas Shaughnessy on his recent trip West, was in the city to-day, and being spoken to, made the foregoing remarks.

Mr. Matthews said that everything seemed prosperous. The crops promised magnificently. Winnipeg looked like a metropolitan city. It was years since Mr. Matthews had been to the coast, and the improvement he noted was marvellous. Then, a great many people were only settling down. They were content with crude conditions until they bettered their position. Now, the farmer was prosperous, as was shown in his surroundings. The house was fresh and attractive; the verandah was completed; there was a nice flower garden in front. The whole country looked like a country of homes, in which dwelt a happy and thriving people. The immigrants, too, both from Europe and the United States, were pouring in—good immigrants who would add greatly to the development of the country. Altogether, Mr. Matthews came back with enlarged views, and a greater optimism than ever in regard to the possibilities of the Canadian North-West.

COUNT ESTERHAZY

RETIRED BRITISH OFFICER, WHO IS INTERESTED IN CANADA.

Count Paul Esterhazy, a retired British officer, is in the city. He became interested some years ago in the peasantry of Hungary, and obtained a tract of land in Assiniboia, where he established a Hungarian colony, which is doing excellently. Indeed, so prosperous are the four hundred families which compose it that the Count intends to bring out another batch towards the end of the present summer. The Count offered, when the war between England and the Boers broke out, to raise a regiment of Hungarians, and lead them against the enemy—an offer which was not, however, accepted. The Count is a fine, soldierly-looking gentleman, who takes great interest in the British army, in which he saw active service in South Africa some seveteen years ago.

GOING TO CHINA.

The Rev. C. J. L. Bates, who was until recently engaged in pastoral work in Dorchester Street Methodist Church, in Montreal, will leave at an early date to take up missionary work in the province of Sezchuan, in West China. The Rev. Mr. Bates has shown himself to be a young man of much ability and promise, and is well-known and highly esteemed not only in the Montreal District, but also in the Ottawa District, by which he will be supported on the foreign field.

A farewell service to Mr. Bates will be held on Tuesday Evening, July 8, in Dominion Square Methodist Church, under the auspices of the Montreal District Epworth League, and it is expected that this gathering will be largely attended by the Methodist Young People of this city. The Rev. Mr. Bates will deliver an address, and the president of the District League, Mr. J. Penrose Anglin, will also speak. Miss May Wilson, of Ottawa, will sing.

PRISON AIR NOT HEALTHFUL.

Louis Walsh, arrested by Detective McLaughlin and Detective Sloan on suspicion of pocket-picking, was remanded this morning for eight days by Judge Choquet. Walsh, alias Moore, alias Hensen, is the man who was taken into custody last year, but allowed to go, as he was then believed to be dying of consumption. He complained this morning that the atmosphere of the cells was deleterious to his health.

THE CANADIAN NORTHERN STRIKE.

Toronto, July 4.—Mr. Wm. Philips, general eastern agent of the Canadian Northern Railway, has received the following telegram from the general traffic manager at Winnipeg, dated yesterday: 'There were not over a hundred and fifty men out. Of this number at least fifty percent have returned. The worst trouble is dissolving and we expect to be moving business (in Winnipeg) under normal conditions within twenty-four hours.'

KILLED ON THE TRACK

TRAGIC END OF THREE DETECTIVES.

New York, July 4.—Three detectives employed by the Central Railway of New Jersey were killed by a train between Claremont and Jersey City today. Their bodies were found alongside the rails by a track-walker. The men were: Robert Smith, 25 years of age; John Cosgrove, 25 years of age, and William J. Hanson, 27 years of age. Freight cars of the company have been robbed repeatedly of late while on the siding between Jersey City and Claremont and the three detectives had been keeping a sharp lookout for the thieves. It is supposed that the men were struck by the train about three o'clock in the morning.

CASE OF FRED. LEE RICE.

Toronto, July 4.—Mr. T. C. Robinette K.C., has renewed his application to the government at Ottawa for a respite and a new trial for Fred. Lee Rice, the condemned murderer of Constable Boyd He has also communicated with Mr Choate, the United States Ambassador at the Court of St. James, in reference to securing a stay of proceedings, on the ground that Rice is a citizen of the United States.

DESTROYED BY LIGHTNING.

St. Jean, July 4.—The Canadian Northern Railway depot was struck by lightning at two o'clock this morning and the building together with its contents was completely destroyed.

FOR STEALING BLANKETS.

Before Judge Choquet this morning Robert Downie and John Collins, stokers on the SS. 'Lake Ontario,' pleaded guilty to a charge of stealing blankets and napkins from the ship and were condemned to fifteen days' imprisonment.

THE FINE ARTS.

Paolo Lanni and Dominico Cavana, two itinerant musicians, from Italy, were arrested for playing 'piano organs' in the streets without a license and condemned by Recorder Weir to pay $3 fine or go to jail for fifteen days.

TEACHERS' TRAINING SCHOOL.

The summer session of the Macdonald Manual Training School for Teachers has opened at Westmount Academy, with an attendance of forty. At the opening ceremony Mr. W. Chalk, B.A., presided, and addresses were made by Mr. C. Johansson, the instructor; Mr. J. R. Dick, Miss E. Binmore, Principal Bacon, and Messrs. A. Thomas, D. Gayton and E. M. Campbell.

CHALLENGER CHOSEN

'Tecumseh' will be the United States Boat to Meet Defender

COMING SEAWANHAKA CUP RACES WILL PROVE INTERESTING.

National and Toronto Lacrosse Teams are Ready to Play.

RESULT OF M. A. A. A. HANDICAP RACES—BASEBALL GAMES PLAYED YESTERDAY—CRICKET SCORES—C. W. A. MEET.

The 'Tecumseh' has been chosen to challenge for the Seawanhaka cup, on behalf of the Bridgeport Yacht Club. This decision was made at the close of yesterday's races at Bridgeport, the 'Tecumseh' having won 64 points; the 'Massasoit' 61, the 'Crusader' 53, and the 'Seerees' 47. This is calculating on a basis of one point for a finish, and one for each boat beaten in a race.

The 'Tecumseh' was designed and built by Jones & Laborde, at Oshkosh, Wis., for a Bridgeport syndicate. She was sailed by Mr. Jones, of Oshkosh. She is extremely fast in light weather, and is likely to prove a formidable antagonist, especially in windward work. She is one of nine boats from different parts of the United States, which have been racing for the last four days for the honor of being sent to Canada to compete for the cup. The second boat, the 'Massasoit,' was designed by B. B. Crowninshield, of Boston, and two others were sent from the White Bear Club of Minneapolis. The fact that these were among the beaten, speaks well for the qualities of the chosen boat. There was also a fin keel boat, the 'Nutmeg,' (doubtless intended to show 'grater' speed, which was uniformly beaten.

Trial races for the defender will be held at Beaurepaire to-morrow afternoon. The races so far have not given much indication as to which is the best boat, the 'Osma,' the new one; the 'Thorella,' with her new rig, or the 'Senneville,' last year's defender.

The other new yacht now under construction at the Dorval sheds, will be completed and in the water within the next two or three weeks, so that there will still be time enough left before the actual races to give the second boat a fair trial to show her speed.

Local yachtsmen are much pleased over the final selection of the American challenger, as they are now in a position to judge more accurately of her possible work, and in that way form a fair estimate of what they may expect when the challenger comes to Lake St. Louis next month. The selection of the 'Tecumseh' is also gratifying from another point of view, and that is that local yachtsmen consider that a sea coast designed boat is always much more dangerous as a racer from the fact that salt water yachtsmen, as a rule, construct twenty yachts to one designed for inland or fresh water racing, and that in nine cases out of ten the coast craft is the most dangerous.

The sailing committee of the Royal St. Lawrence will have their hands full for the next four weeks selecting the likely defender and crew to meet the American challenger.

The prediction made some time ago that Mr. Duggan would not sail on the defender in the coming races were probably a little premature, as it is learned on the best of authority that there is every probability of Mr. Duggan again being one of the crew. This will be cheering news to Canadians in general, as the experience of Mr. Duggan as a sailor is so well-known.

SEAWANHAKA CUP TRIALS.

Black Rock, Conn., July 4.—In the Seawanhaka trial races yesterday the 'Tecumseh' crossed the starting line first. The 'Crusader' was five seconds behind. The 'Tecumseh' was ahead in rounding the first mark, followed by the 'Crusader' and the 'Massasoit.' The course is a triangular one to-day.

The 'Tecumseh' won the first race. The 'Crusader' was a close second.

The 'Tecumseh' and the 'Massasoit' finished closely in the second race. The former won.

The 'Crusader' won the third race of the day and the last of the series. The 'Frontenac' was second.

The regatta committee announced this afternoon that to-day's races will be the last of the trial series for the selection of the Seawanhaka challenger.

The 'Seeress' won the fourth race finishing at 6.08. The 'Tecumseh' was a good second.

ROYAL ST. LAWRENCE YACHT CLUB RACES.

The Royal St. Lawrence Yacht Club races on Saturday will be held at Beaconsfield. The club launch leaves Dorval at 1 o'clock so that members wishing their boats taken will have to leave on the 12.10 train. The club launch will call at Lakeside, and leave there after the arrival of the 1.30 train.

LACROSSE

BRANTFORD TEAM TO PLAY THE CAPITALS AN EXHIBITION MATCH.

Ottawa, July 4.—The Capitals have arranged to have the Brantford lacrosse club here on Saturday next for an exhibition game. The match is occasioning a lot of interest, owing to Brantford's decided victory over the Tecumsehs, and also to the fact that Messrs. Dade and Henry, of the champion Shamrocks of last year, are on the visiting twelve.

NATIONALS ARE READY

The National lacrosse players put in their final practice at their grounds, Ontario street east, last evening, in preparation for the Toronto twelve, who are coming to Montreal to-morrow to meet the local team in a regular championship schedule match.

The Nationals are rapidly gaining in strength in team play, and they confidently expect to win against the Western opponents.

Word comes from Toronto that the boys there are in no way underestimating the prowess of the National twelve, and are coming down determined to lower the colors of the East End aggregations for a second time this season.

The teams will probably line up as follows:

National.	Position.	Toronto.
L'Heureux	Goal	Farley
J. Valois	Point	Gray
Blanchard	Cover Point	McBride
A. Valois	Defence	Gordon
Roach	Defence	Iler
Marcellin	Defence	Lambe
St. Aubin	Centre	Mara
Lachapelle	Home Field	Pringle
Kearns	Home Field	Querrie
Ward	Home Field	Murray
Masterson	Outside Home	McLaren
Cattarinich	Inside Home	Henderson

ATHLETICS

GOVERNOR TO OPEN INTERNATIONAL GAMES.

Chicago, July 4—Governor Yates, of Illinois, announced yesterday that he will accept the invitation to be present and assist at the opening of the international Olympian games to be held here in 1904.

A detail of state troops will be ordered to Chicago to participate, and the Governor will endeavor to interest the governors of other states.

FLANAGAN HAS DECIDED TO ENTER THE CONTEST.

Mr. John Flanagan, the famous hammer thrower, will enter the National All-Round Championship events, which will be held at the Celtic Park this Friday. He was in training for the contest up to two weeks ago, when he decided that it would injure his ability to continue training. Reports of the remarkable ability of Ed. S. Merrill, were being circulated, and Flanagan evidently had the impression that he stood no chance of winning. After seeing Merrill practice, Flanagan resumed training for the contest.

M.A.A.A. HANDICAP RACES

The regular weekly handicaps held on the M.A.A.A. grounds, Westmount, last evening, resulted as follows:

AQUATICS

TITUS, THE UNITED STATES COMPETITOR FOR HENLEY REPORTED NOT IN FORM.

Henley, England, July 4.—Mr. C. S. Titus, of the Union Boat Club, New York, arrived here on Wednesday afternoon, and is not in the best of condition.

The Canadians, including Scholes, the sculler, arrived here yesterday. Scholes made fast time over the Bourne End course. He is reported to have equalled the record for the Diamond sculls.

A number of crews are arriving here daily. The river and town are gay day and night. It is generally conceded that the race for the Grand Challenge cup lies between the Canadians and Third Trinity.

ARGONAUTS AT HENLEY DOING SOME FAST WORK.

Henley-on-Thames, July 4.—The Argonauts, who are all in fine condition, were out yesterday, and went over half the course in 3.25. The weather is fine and pleasantly warm. Scholes is doing his daily double practice, and is in prime condition.

The Toronto men are now about down to rowing weight, and look healthy and trim. Scholes easily defeated his coach, Messenger, in a spin yesterday, and it is the opinion here that if the Don Club's representative keeps up his present gait he will win. The Argonauts are the recipients of many social attentions, and invitations to dinner parties are numerous.

FOOTBALL

MOUNT ROYAL PLAYERS TO PLAY M. A. A. A.

The following players of the Mount Royal Football Club are requested to be present at the M.A.A.A. grounds at 3 o'clock tomorrow afternoon:—Messrs. E. Denman, J. Hall, G Sifton, W. Pilkington, A. Barham G. Lehman, Wilson J. Turner, C. Turner, E. Stevle, K. Stevie, W. May, R. Fletcher, C. Denman and T. Fletcher.

McGILL CRICKETERS WON

The match played on the campus between Mount Royal and McGill resulted in a very easy victory for the students. The visitors were out for 39 runs. The second innings was declared just too late to get the Mount Royal men out a second time, who made 56 for 8 wickets.

WESTMOUNT TO PLAY MONTREAL.

The following team will represent Westmount vs. Montreal on the Westmount grounds on Saturday:—Arthur Burnett, Ern Relf, Miles Smith, J. Mayer, W. F. Hoad, W. L. Thom, J. Stout, R. M. Davey, T. H. Cox, W. A. Brown, W. H. Jackson.

OXFORD AND CAMBRIDGE MATCH.

London, July 4.—The annual cricket match between Oxford and Cambridge began at Lord's grounds yesterday. The crowd present was smaller than usual. Both elevens were admittedly below university form, and were especially weak in bowling. Oxford won the toss and went to the wicket. At lunch time the score was 111 runs for no wickets down. The Oxford players were all out in their first innings for 206 runs.

At the close of the play the Cambridge cricksters had scored 71 runs for three wickets down, in their first innings.

LAWN TENNIS.

ENGLISH TENNIS TEAM COMING TO AMERICA.

London, July 4—The English lawn tennis team, consisting of the brothers Doherty and Pym, will sail for the United States about July 19, to contest for the American championships.

The English team ageed to the proposed of the Crescent Athletic Club, of Brooklyn, N.Y., to play on the Crescent courts, and suggested Aug. 6 to Aug. 8 next.

NEW FIRE ENGINES

Two Powerful Machines Ordered From the Waterous Co.

THEY ARE TO BE OF TWELVE HUNDRED GALLONS CAPACITY—THE APPOINTMENT OF FIREMEN TO BE TAKEN INTO FIRE COMMITTEE'S HANDS.

There were quite a number of outside aldermen at the meeting of the Fire Committee yesterday as a result of the anticipated battle royal between Ald. Walsh and Chief Benoit. The expected conflict did not take place, there being plenty of other business to attract attention.

The principal business was the consideration of the tenders for the new fire engines. Thanks to the operation of the trust system and to other reasons, there were but two tenders received, one from the Ronald Company, of London, Ont., and the other from the Waterous Engine Company, of Brantford, Ont. The latter company only responded to the request to send an engine to Montreal for a practical test and, so there was practically only one tender to consider. The engine sent here was thoroughly tested by Prof. Durley, of McGill University, and Mr. Frank Redpath, of the Canada Sugar Refinery. The report of the test, a most thorough and instructive one, was submitted to yesterday's meeting. There was a full description of the engine, with details of the dimensions of its parts, and there were also full descriptions of the tests, with tables of results, etc. The experts reported that they found the engine a very satisfactory one. The engine, as a whole, was well-designed and exceptionally well-constructed, and did excellent work. The material used was very good. Certain changes were suggested by the experts which they advised should be asked for in the engines built for the city, for the engine tested is smaller than those the city wants, and they will have to be specially constructed. Among the suggestions was one that the engine should be furnished with an independent injector enabling the engine to supply water to the boiler while the engine itself is not working. The experts also suggested that less nickel plating might be advisable, and recommended that the ornamental casing of the boiler be dispensed with, thus allowing of easier examination of the external surface of the boiler. Certain modifications of the gauges were also suggested, and a schedule of tests to which the engines are to be submitted before acceptance given.

Each of the members had a word of commendation for the report, and it was decided to accept the tender of the Waterous Company for two engines, each with a capacity of 1,200 Imperial gallons, to cost $12,600, delivered in Montreal.

Mr. Cameron, who was present on behalf of the Waterous Company, expressed his readiness to accept all of the suggestions of the experts, and it was decided to embody them in the specifications of the contract.

At the council meeting on Monday next the committee report will be presented. An endeavor will be made to get it through at this meeting, so that the manufacturers can begin work at once. If there is no delay the engines should be in the fire department by Nov. 1.

The new engines, it is promised, will be as good as the big Lafrance. The makers claim either one of them will be able to work the water tower.

The Waterous people have never sold an engine here before, and it is expected that they will surpass themselves in workmanship and construction in anticipation of fresh orders next year, as it is the city's intention to purchase at least two more engines in 1903. The ordering of these two new engines is the first step towards the reinforcement of the fire department in conformity with the request made to the city by the Fire Underwriters' Association.

This important business over, Ald. Walsh asked Chief Benoit how it was that while one fireman named Magnan suspended for an offence against discipline, had been reinstated at his former rate of pay, another man named Porter had had to accept a reduction of pay when reinstated?

The chief explained that it was Magnan's first offence; in Porter's it was a second. Such was the custom in the department.

Ald. Walsh thought that Porter had been unfairly dealt with, and moved that he be reinstated at his former rate of pay. The motion carried unanimously.

Ald. Walsh asked the chief for the report of the medical examination of a man named Mortimer, recently taken on the strength of the department. The chief at once produced it, and asked Ald. Walsh if it was satisfactory.

'Well,' replied Ald. Walsh, 'it is satisfactory so far as it goes, but why was this man put on the brigade before being examined by this committee?'

Chief Benoit—'As customary, and according to my powers as defined by the by-law, I appointed him to fill a vacancy on the recommendation of the English members of the committee. Even with this appointment the English Protestants have not their full proportion of men on the brigade.'

Ald. Walsh—'That is not the point. In March we decided here to examine all candidates for the force, just as the Police Committee does. This is in accordance with the rules of council, and I object to this method of disobeying instructions.'

Chief Benoit—'I know that there was talk here about examining the men, but I did not know that the committee had resolved to hold examinations. You have surely held no examinations yet.'

Ald. Robertson (the chairman)—'No, that is so; how is it?'

Ald. Walsh—'Well, Mr. Chairman, you should know that better than I do, and we had now better decide to hold an examination this week or next.'

This was agreed to.

In reply to a question, Chief Benoit explained that Mortimer had been on the brigade before, having been recommended by Ald. Ames. He was a good man, and left with a clean report to try to better himself, and had worked for some time as a carter. He had been unfortunate, his horse died, and he was glad to come back to the department.

Ald. Walsh brought up the question of the hose waggon he wanted placed in No. 1 station, and which Chief Benoit was having finished for No. 6. At his suggestion it was decided to have the waggon painted without any lettering on it. At the request of Ald. Walsh, the supply officer, Mr. Beaulieu, was directed to take measurements of No. 1 station, and report to the committee whether space enough exists there for the new hose waggon, the chief having stated that the station was too small.

Ald. Walsh explained that these matters were small in themselves, but they involved an important principle.

Ald. Walsh remarked that he found it very strange that Montreal had to pay more than Toronto and other cities for the same kind of hose, though it is made in Montreal. He thought the reason was those cities purchased direct from the manufacturers, while Montreal dealt with an agent. He therefore moved that the supply officer be requested to get prices of different kinds of hose and report.

This was agreed to.

THE DOG DAYS.

The official dog-catcher began his arduous duties yesterday. He began quietly and without undue severity, but after due notice and a little more experience he will call out the dog patrol and gather ownerless curs in with a waggon. Persons who own valuable dogs will not neglect to obtain tags much longer with impunity.

SABBATH BREAKING.

About twenty cases taken in the Recorder's Court against offenders against the Sunday-trading by-law, were returnable yesterday. Pleas on behalf of the majority were entered by Messrs. Pelissier and Cardinal, advocates. The plea of the defence will be that the city had only the power to regulate the sale of candies, cigars and temperance drinks on Sunday, and that it could not pass a by-law which prohibited the sale of these articles when not made in connection with each other. In going so far, the by-law, it was contended, was ultra vires. Mr. Recorder Poirier, who was on the bench, heard the argument of the legal gentlemen and took the question en delibere until Monday next.

THE KING'S HEALTH.

Wound Showing Active Signs of Repair.

London, July 4.—The following bulletin was posted at Buckingham Palace at seven p.m.: 'The King passed a quiet day. His condition is satisfactory, and the wound shows more active signs of repair.

'(Signed) 'TREVES, 'LAKING, 'BARLOW.'

MESSAGE FROM MR. CHAMBERLAIN.

Ottawa, July 4.—The following cable was received here by the Acting Governor-General from the Colonial Secretary:

'London, July 2.—Referring to your telegram of June 28, His Majesty the King is reported to be making steady progress in every respect. The wound, the dressing of which has at times caused considerable pain, is now much less troublesome, and is beginning to heal. His Majesty the King's courage and patience have called for the greatest admiration. The Queen has been in constant attendance on the sick room, where the utmost quiet is enforced. His Majesty the King is seeing no correspondence and attending to no matters of state or business. I do not propose to telegraph again unless any important change occurs.

(Signed) 'CHAMBERLAIN.'

CYCLORAMA RAIDED.

THE PROPRIETORS SUMMONED AND EFFECTS SEIZED.

This afternoon Mr. S. H. Carpenter, chief of detectives, Mr. O. Campeau, assistant chief of police, and a staff of detectives raided the premises of the Jerusalem Cyclorama Company, No. 8 St. Charles Borromee street, and seized the books, tickets and other appurtenances to the business. This concern is alleged to be a lottery and the charge of keeping a lottery will be laid against the proprietors. The names of the men supposed to own and manage the concern are Casimir Beaudry and John Darley. Their names and the names of a number of other persons found on the premises were taken by the detectives, but they were allowed to go on promising to appear before the police magistrate to-morrow morning. The concern has been operating quietly but quite extensively in the city for several months past.

MR. HAYS DENIED THE REPORT.

A story current this morning in the clubs and in commercial circles that Mr. C. M. Hays, general manager of the Grand Trunk Railway system, had purchased the fine Sherbrooke street residence of Mrs. Hector Mackenzie, was denied on the authority of that gentleman. The price given was $80,000, but the foundation of it, one of the agents stated, was that inquiry had been made on Mr. Hays's behalf with a view to leasing the property.

IMPERIAL DEFENCE

SUBJECT WILL BE THRESHED OUT TO-DAY AT THE COLONIAL CONFERENCE.

London, July 4.—The subject of Imperial defence will be the topic discussed at the Colonial Conference, which resumed its sittings to-day.

Sir Wilfrid Laurier will probably visit Paris before returning to Canada. He has been invited to a banquet tendered by French politicians and this invitation he may accept.

The 'Temps,' of Paris, predicts the failure of the Imperial conference. It regards as dangerous the experiment of a zollverein, a federation or any permanent council.

CHILD'S BODY FOUND

WORKMEN DISCOVER REMAINS OF NEW-BORN BABE.

The naked body of a newly-born child was found yesterday in a vacant lot on Jeanne d'Arc street, Maisonneuve, by workmen. The body showed several wounds and bruises, and had evidently been dead some days. It was taken to the morgue, where an inquest will be held. Meanwhile the police are searching for the unnatural parents.

PERSONAL.

Miss Lyon, of Ottawa, is the guest of Miss Ethel M. Moore, 80 Tupper street.

Mr. Arthur Murphy, of Black Lake, arrived in the city this morning and is staying at the St. Lawrence Hall.

Mr. D. B. Maclennan, K.C., of Cornwall, was in the city to-day, down on a visit from his summer residence on Stanley Island.

Mr. R. Smith, advocate, of Cornwall, was in the city in the interest of Mrs. Purcell, widow of the late Mr. P. Purcell, M. P. for Glengarry.

The visiting governors to the Montreal General Hospital for next week are Messrs. Randolph Hersey, Hugh Brodie, Alexander Achison and Jonathan Brown.

Mr. Hays, general manager of the Grand Trunk Railway, was busily preparing, this forenoon, for his visit to Europe, and one or two small deputations had to leave without seeing him.

Mr. Norman P. Campbell, of Montreal, whose education commenced at the High School and who afterwards went to Bishop's College School, Lennoxville, this year won the senior science scholarship at Dulwich College, London. This entitles him to a three years' course at that college.

A FATAL RUNAWAY.

St. Johns, Que., July 4.—Mr. Louis Forgue, an old and influential citizen, proprietor of the Canada Hotel, and latterly government contractor, was killed to-day by a runaway horse.

DERRICK HANDLE BROKE ARM.

Onine Sarasin, of 110 Marlborough street, was working at a derrick on the new Bank of Montreal building, when he lost his hold on the handle, which spun around rapidly and struck his arm, breaking it. He is at the General Hospital.

CITY ITEMS.

The Rev. W. A. Gunton, of Peterborough, Ont., will preach in Grace Baptist Church, Westmount, next Sunday.

Mr. J. Burt Sutherland lectured on 'Wanderings in the land of Uncle Sam,' at the Presbyterian Church, Montreal Annex, on Friday evening last.

BASEBALL.

ROYALS DEFEATED.

Worcester, Mass., July 4.—Worcester defeated Montreal at Worcester oval this morning by the score of nine to four, before 3,200 people. The home team won by good hard hitting, which was done for the most part in the second innings. Hastings pitched a fine game for Worcester after the first innings and was elegantly supported. O'Rielly, formerly of the Worcesters, and now a member of the Haverhill, New England, team, played at short for Worcester in place of Eadison, who has suffered a strain in his leg. The score::

	R.	H.	E.
Worcester	9	12	2
Montreal	4	6	6

Batteries—Hastings and Steelman; Mills and Raub. Umpire, Egan.

BUFFALO WON TO-DAY.

Buffalo, N.Y., July 4.—Another record-breaking attendance greeted the Buffalo and Rochester teams this morning at the Olympic Park. Fireworks played a prominent part in the game. Hooker and McFarlan were the opposing pitchers, the former having the better of the argument. Buffalo took the lead in the first and held it to the end. Score:

GENERAL.

CANADA NO MOTTO.

M. W.—Has Canada a motto? If so, what is it? Ans.—There is no motto connected with the Dominion arms or badge.

'HOARD'S' DAIRYMAN.

Campbellford.—Please give the address of the publishers of 'Hoard's Dairyman'? Ans.—Fort Atkinson, Wisconsin.

PENSIONS.

Ontario Subscriber.—In England is the pension of a deceased soldier continued to his widow, or does all payment cease at his death? Ans.—Payment ceases on the death of a pensioner.

PEACE TERMS.

J.W.H., Minnesota.—Please give: 1. The terms offered to General Botha last year, and 2, the peace terms. Ans.—See 'Weekly Witness' of June 19, page 9, for a discussion of the terms offered last February, and 'Weekly Witness' of June 3, page 1, for peace terms.

GEORGE CADBURY.

D.S.—Please inform me whether a short biographical sketch of George Cadbury, such as recently appeared in the 'Witness,' can be had in leaflet form for distribution. Ans.—We hardly think so, but you might write to the 'Ram's Horn,' 110 La Salle ave., Chicago, Ill.

VINEGAR.

H.M.—1. What kind of vinegar is required for pickling cucumbers? 2. Does cider from sweet or sour apples make the best vinegar? Ans.—1. Use good white wine vinegar. 2. Cider from late apples is considered best for vinegar. Whether made from sweet or sour apples is a matter of taste.

MOUNT ROYAL.

G.A.J.—Is Mount Royal an extinct volcano? Ans.—It is of volcanic origin, but the precise geological epoch at which the volcanic agglomerates were formed is not definitely ascertained. Many scientists agree that it is of Post-Devonian age.

WHO IS THE AUTHOR?

H.M.F.—Who is the author of the following lines:

'Dear smiling babe, sweet emblem of
Fair innocence; in whose unclouded eyes
I see the miniature of heaven:
Thou can'at not tell to us the all-
Perplexing problem, what dost thou see
And comprehend; yet when thou shalt
Older grow, and life become
No more a blank, praise God
For those sweet days of pure
Unsullied innocence.'

ADDRESSES.

Miriam.—Can you tell me with what church the following ladies are identified; also where they reside: Mrs. May Wright Sewall; Mrs. Bottome, president of the King's Daughters; 'Pansy'; Clara Barton. Ans.—Mrs. May Wright Sewall resides at 653 North Pennsylvania street, Indianapolis, Indiana; Mrs. Bottome, in New York—the office of the order is 156 Fifth avenue; 'Pansy,' Mrs. Isabella M. Alden, was born in Rochester, N.Y. She is the wife of a clergyman. Clara Barton may be addressed through the Red Cross Society, Washington, D.C. She was born at North Oxford, Mass. We do not know with what churches they are identified.

CANADIAN HOSPITALS.

Forest, Ont.—Please give addresses of hospitals in Toronto, London, St. Thomas, and Sudbury. How are blank forms for application to be obtained? Ans.—InToronto—General Hospital, No. 400 Gerrard street, east; Hospital for Sick Children, corner of College and Elizabeth streets; Western Hospital, 169 College street; Grace Hospital (Homoeopathic), corner College and Huron street. In London—General Hospital. In St. Thomas—Amasa Wood Hospital. In Sudbury—General Hospital, and St. Joseph's (under care of Sisters of St. Joseph). Write to the lady superintendent asking for form of application.

BRAEMAR.

Dresden.—Could you give me any information about two old castles in Braemar, head of Aberdeenshire, Scotland? The one in the village is in ruins, and has been for hundreds of years, so far as I know; the one a mile from the village is still in good repair. Could you tell me about their origin, or who built them? Ans.—The site of the more ancient castle is marked by a bit of wall near the bridge over the Clunie. The castle, it is supposed, belonged to Malcolm Canmore. The one about a mile from the village is where the celebrated Highland games are held annually. Queen Victoria used to drive from her Highland residence at Balmoral, to Braemar to witness the games. Burton's 'History of Scotland' states that the castle was built by the government after the rebellion of 1715.

NATIONAL DEBTS.

A.E.B.—Please compare the debt of the nations now with what it was a hundred years ago. What is the present debt of the leading European nations? Ans.—The world's debt in 1801 amounted to about $3,000,000,000. In 1901 it was in round numbers $31,800,000,000. The national debt of the United Kingdom, March 31, 1901, was £673,608,200 ($3,278,226,573). The common debt of Austria-Hungary is $1,154,791,000, besides which each has its special debt. The whole debt of Germany and the Federated States is $2,573,585,000. Italy's debt in 1901, was $2,576,300,000; Russia's $3,545,-157,100; that of France in 1900, $5,800,631,814; of Turkey, 1901, $489,112,234; of Greece, 1900, $168,548,444; of Spain, 1901, including Cuban debt, $2,115,755,701; of Switzerland, 1899, $15,919,219; of Portugal, $670,221,374; of Norway, $53,211,132; of Sweden, $85,154,320; of Denmark, $55,795,724.

MISS HELEN GOULD.

M.L.—Can you give me the present address of Miss Helen M. Gould? To what denomination does she belong, and for what purposes does she usually give money in charity? Ans.—Miss Gould's summer home is at Irvington-on-the-Hudson, N.Y. She is a Presbyterian. Following is only a partial list of her public gifts for educational and charitable purposes; $250,000 to the University of the city of New York for a library building, and $60,000 subsequently for expenses; two scholarships in the same university endowed with $5,000 each; gift of $100,000 to the St. Louis cyclone sufferers in 1896; gift of $8,000 to Vassar College; $100,000 to the United states Government in 1898 for war purposes; $25,-000 in 1898 for relief of soldiers at Camp Wyckoff, Long Island; Rutgers College, $10,000; Engineering School, University of New York city, $10,000; Mount Holyoke College, $5,000; Naval branch of the Brooklyn Y.M.C.A., $50,000; Woody Crest, a home for crippled children; a Presbyterian Church at Roxbury, N.Y., a memorial to her father; $40,000 to Mount Holyoke College to endow a chair of Biblical literature in memory of Miss Gould's mother.

LITERARY NOTES.

Belle Cote, C.B.—Please explain the following passages:

1. 'Besides what the grim wolf with privy paw,
Daily devours apace, and nothing said.
But that two-handed engine at the door
Stands ready to smite once, and smite no more.'

(Lycidas.)

2. 'After the Tuscan mariners transformed'

(Comus.)

3. 'And hush the waving woods; nor of less faith,
And in this office of his mountain watch,
Likeliest, and nearest to the present aid
Of this occasion.'

(Comus.)

4. 'And the swink'd hedger at his supper sat.'

(Comus.)

5. And every bosky bourn from side to side.'

(Comus.)

6. 'Or whistle from the lodge, or village cock.'

(Comus.)

7. 'Into her thoughts of him time entered not, for it was not.'

(Evangeline.)

Ans.—1. 'The grim wolf with privy paw,' most probably is meant for the Church of Rome, to which in Laud's time there were many private secessions, which alarmed the Puritans. The following lines, in which St. Peter, 'the pilot of the Galilean lake,' ends his powerful denunciation of the 'careless shepherds' have been variously interpreted. 'Engine' is used in the sense of an instrument of destruction, but whether Milton had in mind any particular instrument is not clear. Possibly the 'two-handed engine' is used generally, as the 'sharp two-edged sword' of Rev. i., 16. Dr. Masson thinks it likely Milton referred to the parliament of two houses, which at the time Lycidas was written was the agency in the minds of all Puritans for the reformation of ecclesiastical abuses. At all events, the meaning is that the time for reformation is at hand; 'at the door' of the corrupt church is some powerful avenging agency which with one blow, will smite down the evil. 2. The reference is to the incident told in the Homeric hymn to Bacchus. On his voyage along the Tyrrhenian shore, on his way to Naxos, Bacchus was attacked by pirates who for their act of impiety he 'transformed' into dolphins. 3. 'Faith' is used here for 'fidelity' or 'loyalty,' as it is elsewhere in Milton:

'To undergo
Myself the total crime, or to accuse
My other self, the partner of my life;
Whose failing, while her faith to me remains,
I should conceal.'

('Paradise Lost,' x., 129.)

The attendant spirit, dispatch'd to guard the 'fair offering' of the 'noble Peer' through the wood, takes upon himself the likeness of a swain in the service of the house, who 'with his soft pipe and smooth-dittied song' well knows to 'hush the waving woods'; and in appearing in the office of a mountain watch, he will show not less fidelity, but more truth to his assumed character, and be most adapted to the present need of his young charges. Lawes, who performed in 'Comus' the part of the Spirit, has somewhat similar lines on his brother's musical skill:

'Weep, shepherd swaines!
For him that was the glory of your plaines.
He could allay the murmurs of the wind;
He could appease
The sullen seas,
And calm the fury of the wind.'

4. 'The swink'd hedger,' that is, the hedger fatigued with labor or drudgery.

'Honor, estate, and all this worldes good,
For which men swinck and sweat incessantly.'

(Faerie Queen, II., vii., 8.)

5. 'Bosky bourn'—thicket of underwood growing on the banks and overhanging the burn or stream.

6. The brothers, lost in the depths of the wood, think how cheering it would be to hear any familiar sound, however, humble in its source—the bleating of sheep in the fold, some one whistling from the lodge, the crowing of the village cock. 'The lodge' might be either the forester's cottage, or the small house as a sort of gate house on the demesne. 7. Evangeline thought always of her lover as he was when she last saw him. In her heart and mind time stood still at the point where it separated her from Gabriel; so far as he was concerned in her thoughts, time 'was not.'

LEGAL.

(ONTARIO.)

MOVING LINE FENCE.

Fair Play.—Line fence between A and B needs repairing. A builds new fence for his share, but places it in on his own land about one foot from line, not knowing where line was. Can T move fence on to line? Fence has only been up a short time. Ans.—Yes.

IN CHANCERY.

Reader.—Please tell me the best way to find out if there is a legacy in the Court of Chancery, London, England, for a family in this country? 2. Also if there is one in the Irish Court of Chancery? Ans.—1 and 2. By employing a lawyer.

PREVENTING TITLE BY PRESCRIPTION.

A.M.M., Muskoka.—A man owns a lot on the lake shore, and has a wharf at which the steamboats land. He has a road, with bars across it, leading from his wharf to the Government road, which runs about a quarter of a mile back from the shore. The public use the road and wharf to come and get freight and supplies which come on the steamboats. How can the road and dock be prevented from becoming public property without forbidding any one to use them? Ans.—He should post up a notice to the effect that no use by the public of such premises is to be deemed to give right thereto, by prescription, or in any way prejudice his title thereto.

ASSESSMENT APPEALS.

B.W.—1. What would be the expense of an appeal to the judge against a property assessment in a town? 2. What is the modo of proceeding if an appeal to the Court of Revision should fail? Ans.—1. The only costs which the judge might award against the unsuccessful party would be the costs of witnesses and of procuring their attendance, and such costs would be in accordance with the Division Court tariff. Each party would, therefore, have to pay his own lawyer, if any employed; and as there is no legally fixed fee for services in such cases, and the number and mileage of witnesses and time required of them cannot be predicted, it is impossible to estimate the expense of such an appeal. 2. The person appealing must, in person or by his solicitor or agent serve upon the clerk of the municipality (or assessment commissioner, if any there be), within five days after the date limited by the Assessment Act for the closing of the Court of Revision, a written notice of his intention to appeal to the county judge. He would, in the ordinary course, be notified of the time and place of the hearing of the appeal, and should attend thereon with his solicitor and any witnesses whose evidence might be deemed useful, and the attendance of such witnesses would be procurable by service on them of a subpoena issued out of the County Court and payment to them of witness fees and mileage.

MEDICAL.

[Letters for this department should be addressed "Medical Editor 'Witness,' Montreal." Should a subscriber ask any question which is not suitable for publication, a reply will be sent by mail if a stamped addressed envelope and $1, physician's fee, be enclosed with such question.]

URIC ACID.

C.R. a few years ago had sciatic rheumatism, and during the last two years, has been troubled with an excess of uric acid in the blood. Has a scalding sensation on urinating, and passes mucus. Has a miserable feeling, and is troubled with gas on the stomach. Bowels generally are all right. Is troubled with headache. Ans.—Of course, we have no means of knowing what an excess of uric acid in the system exists in your case. If so, dieting is very important. You should take meat only once daily, and then in small amounts. Use milk, butter, eggs, fish, instead. Avoid all rich sauces, condiments, pickles. Do not take much sugar. You should also have a warm bath twice a week to keep the skin active. In addition, you should have moderate outdoor exercise. You will find it advantageous to drink plenty of pure water. Take a glassful before breakfast and another two hours before bedtime. Get some effervescing lithia tablets of five grains. Take two in a tumbler of water with your dinner. You should be careful not to expose yourself to sudden changes of the weather, cold or dampness, and always be warmly clad.

TORONTO STOCK MARKET.

Toronto, July 4.—Price changes in the local share market to-day tended upward with tractions and C.P.R. leaders. Business outside these issues continued on a limited scale. It was decided to-day to hold only morning sessions, with a Saturday holiday during the months of July and August. The movement begun late yesterday in New York, with the firmer tone in C.P.R. in London to-day stimulated renewed speculation in the local market, sales of C.P.R. totalling 5,170 shares, opening ½ higher at 135½; it touched 135¾ and closed at 135½. Friends of the stock are again pointing to increased earnings as a factor, which should cause higher prices.

For the fourth week of June earnings increased $158,000, making an increase of $474,000 for the month and $6,606,000 for the year. Toronto Railway earnings also were the bull argument, stiffening the price of that stock, which opened 1-8 up at 119⅝ for 25 shares, with another 25 share lot changing hands at 119¾. Of Twin City, 970 shares changed hands at 119¾ to 119⅞, the closing price, 119⅞, showing a gain of ¼. Sao Paulo opened ¼ up at 99¾, but eased to 99½. Nova Scotia Steel advanced ½ to 105, with 125 shares changing hands, and Dominion Coal sold unchanged at 135½ for 250 shares. Dominion Steel preferred was firm at 94. General Electric opened ½ lower at 208, with another sale at 208 1-8. Navigation shares were steady, Northern selling at 153½, and Richelieu and Ontario at 11. Lake Superior sold ¾ lower at 29 for 10 shares.

TORONTO MINING EXCHANGE.

Toronto, July 4.—Sales:
North Star—3,000 at 13½, 500 at 13½.
Twin City—100 at 119⅞.
R. & O.—10 at 110.
Saturday session discontinued until further notice.

Money, 2 to 2½ per cent. The rate of discount in the open market for short bills and for three months bills is 2 7-16 percent.

EXCHANGE AND MART

All exchanges in the United States are closed to-day and to-morrow.

Toronto, July 4.—The inland revenue receipts at the port of Toronto for the year ending June 30 were $1,215,580, an increase over the previous year of $72,998.11. The receipts for the month of June this year showed an increase of $22,504 over the corresponding month of last year.

New York, July 4.—The St. Lawrence Power plant at Massena, N.Y., has been sold at Massena under foreclosure proceedings begun by the first mortgage bondholders. The plant was bid in by Mr. Mark T. Cox, of New York, representing the reorganization committee of the first and second mortgage bondholders, for $500,-000. More than $10,000,000 have been expended in the Massena power scheme.

MONTREAL TRADE.

Dun's Bulletin of Saturday, July 5, will say of Montreal trade:

The week has been of a broken holiday character, and presents no strikingly new features, except the one very gratifying fact that not a failure has been noted in the district since last report. Dry goods wholesalers report fall orders as coming in satisfactorily, and collections in this line are said to be very fairly maintained on the whole, despite the weather conditions, which have proved so unfavorable to the retailer; a moderate proportion of customers' paper came due on the 4th, being mostly for domestic cottons, etc., sold at three months from April 1, and some few applications for renewal have been received from western merchants, who report sales materially affected by the wet June. Metals and hardware are hardly so active, and the usual midsummer quiet is becoming more apparent in paints, oils, heavy chemicals, etc. In groceries there is a fair seasonable distribution. The sugar market continues to rule very easy, but Japan and green teas are markedly strong. Leather does not show much activity as yet, but Quebec boot and shoe manufacturers are now said to be getting some good orders from western jobbers, and better enquiry is now looked for from that source, as well as from local manufacturers. Lambskins are advanced this week to 30 cents. The export movement in butter and cheese is well maintained, and very fair prices are being realized to the farmer.

TORONTO CATTLE MARKET.

Toronto, July 4.—Seventy-one carloads in to-day, including 1,613 hogs, 1,718 sheep and lambs, and 63 calves. Export cattle, choice, $6.40 to $6.75; do., medium, $5.40 to $5.00; do., bulls, $5.00 to $5.75; do., cows, $4.50 to $5.50; butchers' cattle, picked lots, $5.00 to $5.89; do., medium mixed, $4.50 to $5.25; do., common, $3.00 to $4.25; feeders, short keep, $5.00 to $5.75; do., medium, at $4.25 to $5.00; stockers, $3.00 to $4.25; milch cows, each, $25.00 to $50.00; calves, $2.00 to $10.00 per head. Hogs, singers, 7c; fats and lights, 6¾c off cars. Trade dead, common butchers half to a cent lower; shippers and butchers, quarter to half a cent lower. Milch cows slow trade. Nothing doing in Buffalo stockers.

CONVERSION OF RENTES.

Paris, July 4.—The Minister of Finance, M. Rouvier, expects to introduce a bill in the Chamber of Deputies providing for the conversion of the three and a half percent rentes into three percents. It is understood that the government undertakes in the bill not to convert either the new or the old three percents for a period not yet determined upon, but believed to be between eight and twelve years. The proposed conversion will effect an annual saving of thirty-five million francs ($7,000,000).

LOCAL STOCKS

MARKET STILL DULL AND INACTIVE.

'Witness' Office,
July 4, 1902.

Notwithstanding that the New York stock exchange is closed to-day and to-morrow there was a trifle more business done on the local stock exchange than was the case yesterday. But even so the total amount of business transacted was very small and insignificant, although the prices were well maintained.

COMMERCIAL.

Montreal Wholesale Prices.

The quiet feeling prevalent on the local wholesale markets during the last few days is somewhat intensified to-day by the holiday in the United States. This is specially evident in the case of provisions. Cheese and butter are both somewhat weaker, consequent on lower prices paid in the country. Other markets are unchanged.

FARMERS' MARKET PRICES, JULY 4.

The farmers generally visit the city before beginning hay-making, and to-day, they came to the market in larger numbers than usual, and as the market gardeners were present in their usual numbers nearly all the availablespace in the vicinity of Bonsecours market and Jacques Cartier square, including Le Royer and St. Claude streets, werecrowded with produce laden vehicles. Oats and buckwheat were more plentiful than usual, yet pretty high prices were asked for them. Old potatoes were not very plentiful, but the new crop is rapidly taking their place; lettuce, radishes and green onions, are offered in enormous quantities, and cabbages, both native and imported, are getting plentiful and lower in price. The basket brigade up in the market halls, had unusually large supplies of butter and eggs; also pork pieces and dead poultry. Strawberries are abundant and cheap; the Montreal berries retail at from 5c to 6c the small box; the berries sold at the railway depot this morning brought from 4½ to 6c for the quart box. The prices of hay are declining, owing to the promising appearance of the new crop. Oats sold at $1.05 to $1.15 the bag; buckwheat, $1.40 to $1.50 do.; old potatoes, $1 to $1.25 the bag; new potatoes, 50c to 80c the basket, or 90c to $1.50 the bushel; turnips, 8c to 13c the bunch; green onions, 8c to 12c do.; carrots, 25c the dozen bunches; radishes, 5c to 8c do.; lettuce, 5c to 25c do.; rhubarb, 10c to 20c do.; spinach, 25c the basket; cucumbers, 40c to 50c the dozen; Montreal cabbages, 55c to 75c the dozen; American cabbages, $1.50 the crate; cauliflowers, 35c to $2.00 the dozen. Pork carcases, 8½c to 8¾c per lb.; porn pieces, 9c to 12c do.; dead turkeys, 10c to 15c do.; geese, 10c do., young ducks, 80c to 90c the pair; live fowls, 80c to $1 do.; spring chickens, 40c to 70c do.; tub butter, 18c to 20c the lb.; print butter, 20c to 25c do.; fresh laid eggs in baskets, 20c to 25c the dozen; oranges, $3.50 the box; lemons, $2 to $2.50 do.; tomatoes and apricots, $1 the crate; cherries, $1 the basket; bananas, $1.25 to $1.75 the bunch. Hay, $7 to $8 per 100 bundles of 15 lbs.; straw, $4 to $6 per 100 bundles of 12 lbs.

CHEESE BOARDS.

Brockville, Ont., July 3.—The offerings were 1,864 white and 2,455 colored, a total of 4,319 boxes, representing the last half of June make. The bidding was slow, opening at 9c. Mr. How got the first call at 9 5-16c, with no takers. Mr. Johnstone offered 9⅜c for white and colored. He was not successful at first, but finally secured two small lots from Tilley and Greenbush, which were the only sales recorded. On the curb 9⅛c ruled, though possibly 1,000 boxes sold at 9 5-16c to 9⅜c. Webster is credited with 1,500; McGregor, 1,500; Earl, 800; Dickey, 700; Johnston, 300; How, 300; Derbyshire, 2,000. Total, 7,100 boxes.

Vankleek Hill, Ont., July 3.—There were 1,419 boxes of cheese boarded here to-day. The sale was very slow, salesmen holding for 9⅜c, but buyers refused to pay more than 9¼c. After several fruitless calls Gibson managed to obtain 371 boxes at 9¼c. Fraser finally bid 9 5-16c, and got 446 boxes. Bennett paid the same price for 431; Welsh got 125 at 9¼c. There were 46 boxes left unsold, and this a salesman refused to sell for less than 9 5-16c, and he afterwards secured that price on the curb.

Barrie, Ont., July 3.—At the meeting of the Barrie cheese board here to-day 500 boxes were offered, and all sold at 9 1-8c to 9 5-16c, the bulk going at 9¼c. Three buyers were in attendance, and the bidding was slow and lifeless. Two hundred and thirty boxes of Fairview creamery were offered but not sold. The officers were all re-elected. R. Graham, president; D. Wood, vice-president; C. E. Lundy, secretary-treasurer; and Messrs. Murray, Campbell, Gunn, Peacock and Bennett, directors. The board adjourned to meet on July 24.

Winchester, Ont., July 3.—At a meeting of the cheese board held here this evening 1,407 boxes were registered; price bid, 9¼c; 793 colord and 53 white were sold. Buyers present: Ault, Keenan, McConnel, Weir and Logan.

Tweed, Ont., July 3.—There were 870 boxes of cheese boarded here to-day. Sales, 600 at 9¼c.

Kingston, July 3—At the Frontenac cheese board to-day 1,547 boxes of colored and 582 boxes of white were boarded. Sales, 1,600 boxes at 9¼c.

BRADSTREET'S TRADE REVIEW.

Trade at Montreal continues moderately active. This is especially true of the demand for all goods for which large orders have been taken. The sorting trade has been rather quiet owing to the unsettled weather in the country. Retailers are disappointed over the manner in which sales have been curtailed during the past few weeks and have not bee nordering to sort stocks as freely as was expected. The unfavorable weather, rain and cool days, has kept down the demand for a good many lines of dry goods which are usually very active in June. The crop outlook continues generally favorable, and with hot, forcing weather this month, the crops should be larger than last year. Country remittances are fair for this time of the year. There is a good demand for money and rates are unchanged.

At Toronto the demand for all sorts of goods in connection with harvest operations has been very heavy and the manufacturers are busy on orders which have to be filled in the near future. In Ontario the grain in most sections appears to have been marketed. It is stated that the grain in the hands of the farmers now is less in quantity than for a number of years. Country remittances are perhaps a little better. The local money market is steady.

At Quebec trade conditions are much about the same as the previous week. Collections are fair. An exceptionally large crop of hay is expected.

In Hamilton the movement in wholesale trade circles continues fairly good, especially in fall goods. The reports from travellers on the conditions of trade in the country are very favorable and indicate a large improvement the coming fall and winter. Prices of staple goods continue firm.

In Winnipeg, as reported for Bradstreet's, there has been rather more activity in wholesale trade. The drier and brighter weather has stimulated the demand, the retailers now being anxious to have good orders booked for the fall. This is owing to the splendid crop conditions and the prospects for an increased trade the coming fall and winter.

At Pacific Coast trade centres, according to Bradstreet's report, trade continues to show some improvement.

ENGLISH STARTLED

THE PROPOSED AMERICANIZATION OF PROVISION TRADE.

New York, July 4.—A special cable to the 'Tribune' from London says:—Excitement was caused in Liverpool yesterday by rumors of the formation of an American combine to control the English provision trade. It transpires that circulars have been issued to the shareholders of Fowler Brothers, Limited, one of the largest wholesale provision concerns in the north of England, inviting them to confirm a agreement for the sale of the compay's business to Gustavus Swift, of Chicago. The dreaded name Morgan does not appear in the transaction, but it is feared, notwithstanding that the purchase is only the first step towards the Americanization of the provision trade of this country.

Fowler Brothers' sale includes, in addition to the company's property, certain interests in other properties belonging to the Stock Yards Warehouse Company, Chicago, to Mr. Anderson Fowler, and to the Packing Company, Kansas, which means the business of George Fowler & Sons, Limited, Liverpool. One of the conditions of the purchase is that the company of Fowler Brothers shall be liquidated and dissolved, and it is proposed that Sir W. B. Forwood, of Liverpool; Mr. Anderson Fowler, of New York, and Mr. J. H. Brown, of Liverpool, directors, shall be appointed liquidators. The purchase price is not stated. Fowler was registered in 1890 to take over the business of Fowler Brothers, Liverpool and New York; Anderson Fowler & Company, also of New York, and the Anglo-American Provision Company, Chicago, with a capital of £175,000.

YUKON TRADE COMMISSIONER.

Toronto, Ont., July 3.—The chances that Canadian merchants and manufacturers may have in participating in the trade of the Yukon are to be pointed out to them by the Canadian Manufacturers' Association, which to-day decided to send a special commissioner to the Yukon district to report upon the trade conditions there, and arrange that as far as possible Canadian firms should be in a position to place their goods on the market. S. M. Wickett, of this city, will be the commissioner, and will leave on July 14. On the 15th he will be at the association's offices in Montreal, to meet manufacturers.

CYCLE COMPANY'S ACTION.

Toronto, July 3.—Another action has been begun by dissatisfied shareholders against the directors of the Canadian Cycle Company. The object is to establish the affirmation that the purchase of the National Cycle and its absorption into the trust was illegal and that the directors of the Canada Cycle Company are personally responsible for the loss that followed the acquisition of the National. Mr. G. W. Bedell, on behalf of himself and all other shareholders, sues Mr. J. W. Flavelle, the Hon. Mr. G. A. Cox, Messrs. A. E. Ames, W. G. Soper, Mrs Susie Massey, Messrs. Chester Massey, and J. H. Housser for the cancellation of the agreement under which the National was taken over, for the return to the Canada Cycle Company's treasury of $289,000, the purchase price of $150,000 paid out for the National Cycle Company's debts and $175,000 in interest on the cycle preferred stock, paid when it had not been earned.

QUESTIONS & ANSWERS.

GENERAL.

FERRETS.

La Veuve.—1. Where could a pair of ferrets be got? 2. I have heard they would exterminate rats. Is this the case? 3. How should the ferrets be taken care of when kept for this purpose? Ans.—They may be obtained through any of the places in the cities where dogs, rabbits, etc., are on sale. 2. Yes. 3. The three great enemies to the health of ferrets are cold, wet, and filth. Care should be taken to keep them comfortable. Their hutches should be light and roomy, with a grating at the bottom to keep the floor dry. There must be a bench in the hutch for the ferret to sleep on. The bed, which may be either hay or oat straw, should be changed at least three times a week, and the hutch cleaned out. They are apt, if not well protected, to have a kind of distemper. Their ordinary food is sweet milk and stale bread, but now and then they must have raw meat. They will not only exterminate rats, but are apt to attack chickens, too, if they get a chance.

WEALTH OF CITIES IN THE UNITED STATES.

Yankee—Please tell me the assessed value of real estate in New York, Chicago and other large cities of the United States. Ans.—The total assessed value of real estate and personal property in the city of New York is $6,600,000,000. Practically real estate in the five boroughs of Greater New York is assessed at about two-thirds of its probable selling value. Inclusive of state, national and municipal property of all property exempt from taxation, New York city represents in tangible real and personal estate $10,000,000,000, and this enormous total quite overshadows all other American cities and many foreign ones as well. Chicago represents $500,000,000 worth of real and personal property; Boston, $1,200,000,000; Philadelphia, $1,000,000,000; St. Louis, $450,000,000; San Francisco, $450,000,000; Buffalo, $250,000,000; Baltimore, $450,000,000; Pittsburg, $350,000,000; Washington, $150,000,000; Cleveland, $250,000,000, and Providence, $200,000,000. The greater wealth of Eastern cities, when compared with the more populous places of more recent growth in the West, is due to the large accumulations of invested capital, much of which finds employment in other places. Peoria, Ill., and New Bedford, Mass., have substantially the same population, but while the assessed value of taxable property in Peoria is less than $10,000,000, in New Bedford it is more than $60,000,000.

MILITARY.

South Dakota.—1. Were the Canadian contingents, when in the field, under the command of the commander-in-chief? 2. If the commander-in-chief gave an order, could they refuse to go wherever sent? 3. What is the nationality of Gen. French? Ans.—1. Yes; in the same sense that all the other regiments were under his command. The commander-in-chief has direction of all the forces in the field. His will is carried out through the officers commanding the different divisions of the army. 2. They could not refuse to obey their commanding officer. 3. He is an Englishman.

TO BANISH BLACK ANTS.

A.W.B., Ottawa, writes: In answer to the enquiry, 'what would banish black ants,' I find that oil of aniseed never fails. I have moved into houses where the pantry shelves were black with them, and after washing the shelves with water in which a little oil of aniseed was mixed, then hanging up rags dipped in the pure oil, the ants disappeared for good. We never saw another in the same house. I always cover sweets, etc., and do not invite them by carelessness.

HOSPITALS.

Almonte.—Please give addresses of leading United States hospitals where nurses are trained. Ans.—We have frequently answered this question and do so once more: Bellevue Hospital, East 26th street, New York; New York City Hospital, Blackwell's Island; New York Hospital, 15th and 16th streets; Massachusetts General Hospital, Blossom street, Boston; New England Hospital for women and Children, Dimock street, Boston; Boston City Hospital, Harrison avenue; Brooklyn Hospital, De Kalb avenue, Brooklyn; Brooklyn Maternity, Washington avenue; Buffalo General, 109 High street; Harper Hospital, Detroit, Mich.; the City Hospital, Worcester, Mass.; the Maine General Hospital, Portland, Me.; Western Pennsylvania Hospital, Pittsburg, Pa.; Woman's Hospital of Philadelphia, North College avenue and 22nd street; the Pennsylvania Hospital, Philadelphia, and a good many more.

SEND ADDRESS.

If M.O.S., who asked for the poem, beginning:

'Sleep, little baby, sleep!
Not in thy cradle bed,
Nor on thy mother's breast,'

will send her full address, the poem, which has been kindly sent by a reader, will be forwarded. It is too long for publication.

AUTHORS.

Fwrgus.—1. What is the address of G. A. Henty, author of 'To Herat and Cabul,' etc.? 2. Is Florence Marryat, novelist, any relation to Captain Marryat, author of 'Peter Simple'? Ans.—1. 33 Lavender Gardens, Clapham Common, London, Eng. 2. Florence Marryat died in 1899. She was a daughter of Captain Marryat.

WEDDING ANNIVERSARIES.

Betrothed.—Please give a list of wedding anniversaries, that is, what first, second, third, etc., are called. Ans.—The first anniversary is the 'paper wedding'; the fifth, 'wooden'; the tenth, 'tin'; the fifteenth, 'crystal'; the twentieth, 'china'; the twenty-fifth, 'silver'; the fiftieth, 'gold'; and the sixtieth and sometimes the seventy-fifth diamond.

SHOES THAT PINCH.

If your shoes don't feel as comfortable as they should—pinch or squeeze the foot in any way, you can soon have them as easy fitting as you could wish, by the use of FOOT ELM. This may seem wonderful, but just try it, and see if it is not true. FOOT ELM is 25 cents a box of 18 powders. Sold by all druggists, or sent by mail. D. W. STOTT & JURY, Bowmanville, Ont.

WAS BECOMING QUITE NERVOUS

Had Shooting Pains in the Back of the Head and Across the Small of the Back—Fully Restored by

Dr. Chase's Nerve Food

Nervous diseases are slow in coming on and equally slow to disappear. They can only be cured by building up the system and enriching the blood. The case of Mrs. Hillrich, which is related below, is a good illustration of how Dr. Chase's Nerve Food acts on the body. Its cures are thorough and lasting because they are natural.

Mrs. R. Hillrich, 343 Grand Trunk street, Montreal, Que., and whose husband is employed by the Consolidated Repair Company, states:—

'About a year ago I noticed that I was becoming quite nervous. I would often have disagreeable shooting pains in the back of my head which brought on severe attacks of headache, and had for a considerable time suffered almost continuously with pains in the small of my back. Believing my system to be run down I began the use of Dr. Chase's Nerve Food and can see how it has gradually strengthened and invigorated my system until my troubles have entirely disappeared, and to-day I feel strong and well again.'

Dr. Chase's Nerve Food, 50 cents a box, six boxes for $2.50, at all dealers or Edmanson, Bates & Co., Toronto.

MAISONNEUVE SCHOOL

The Protestant Dissentient School of Maisonneuve held its closing exercises last Wednesday evening at 8 o'clock, in the Presbyterian Church, which was crowded with the scholars and their parents and friends of the school. An attractive programme had been prepared by the teachers, Mrs. J. Cooper Murray and Miss Terrill, and the children acquitted themselves in a most creditable manner. The following gentlemen were present on the platform, and assisted in the distribution of the prizes: The Rev. Mr. Mackeracher, the Rev. Mr. Jekyll, the Rev. Mr. Beatt, Principal Arnold, of Roslyn College; Mr. Campbell, Mr. R. T. Mullin and Mr. Robt. Gilbert. Six medals were distributed to successful scholars, besides the ordinary prizes, a full list of which appear below.

The following are the medallists: Barbara Anderson, trustees' silver medal, awarded for general proficiency (primary department, fourth grade); Wylie Gilbert, trustees' silver medal, awarded for general proficiency, (primary department); May Amsden, silver medal for good conduct, presented by R. T. Mullin, advocate, (second grade); Ruth Johnston, silver medal for good conduct, presented by R. T. Mullin, advocate, (primary department); Edith Gilbert, gold medal for application to study (second grade); Bertha Taylor, gold medal for application to study, (primary department). The gold medals, which were beautiful ones, were donated by a friend of the school. The teachers were each presented with a beautiful bouquet of flowers by the pupils.

PRIZE LIST.

Fourth Grade—Barbara Anderson, prize for read., arith., gram., draw., writ., script., French, spelling and composition and conduct; also, special prize for scripture, presented by R. Porteous Arnold.

Lillie Pratt, second gen. prof., reading, comp. and history.

Third Grade—Laura Taylor, first general prof., arith., gram., geog., French, spell., punct.; Florence Brazier, read., draw., comp. and history; Maude Chisholm, writ., script. and daily marks.

Second Grade—Edith Gilbert, prize for first gen. prof., read., arith., gram., geog., comp. and punct.; Millie Taylor, second gen. prof., script. and spell.; Elsie Herd, draw. and writing.

First Grade—Lulu Riddell, first general prof., read., arith., gram., French and punct.; Adele Bardof (equal), first general prof., read., script., French and comp.; Ethel Fraser, second gen. prof., reading, script., geog., and comp.; Edna Staples, gram., draw., writ., spell. and cond., and appl. to study.

PRIMARY DEPARTMENT.

Class A.—Wylie Gilbert, prize for spell. and punct.; Bertha Taylor, gold medal for appl. to study, prize for second gen. prof. and spell.; Virginia Cockburn, reading; Emma Brazier, cond. and punct.; Etta Brazier, arith. and punct.; Edith Bennett, cond.; Mabel Gibbs, cond.; Ruth Johnston, prize for read., writ. and cond.; Hattie Fraser, script.; Nellie Cockburn, writing.

Class B.—Ernest Jouvel, first gen. prof. and arith.; George Harvey, second general prof. and writ.; Fred. Gibbs, read., spell. and cond.; John Harrison, cond.; Ruby Cox, writ. and cond.; Sadie McQuaid, read.; Lucy Bennett, conduct.

Class C.—Percy Amsden, first general prof.; Jimmie Tannahill, read. and script.

ONTARIO ELECTION PROTESTS.

Toronto, July 4.—There will be no such crop of protests as followed the general election of 1898. So far thirteen have been put in. They are:—

Against Liberals—North York, the Hon. E. J. Davis; Stormont, Mr. McCart; South Norfolk, Mr. Charlton; South Wentworth, Mr. Dickenson; Kingston, Pense; East Wellington, the Hon. J. M. Gibson; total, 6.

Against Conservatives—East Toronto, Mr. Pyne; Centre Bruce, Mr. Clarke; West Wellington, Mr. Tucker; West Hamilton, Mr. Hendrie; Glengarry, Mr. McLeod; South Huron, Mr. Eilber; East Hamilton, Mr. Carscallen; total, 7.

The protest against Dr. Pyne drops because no deposit has been made.

The Centre Bruce election protest against the return of Mr. Hugh Clark (Conservative), is to be proceeded with. It was stated a few days ago that the deposit of $1,000, had not been made within the required time, but a search of the records shows that it was made two days after the filing of the petition.

CHOLERA IN BORNEO

APPALLING RAVAGES AMONG NATIVE SOLDIERS.

London, July 4.—A despatch to the 'Daily Express' from Singapore, capital of the Straits Settlements, describes the appalling ravages of cholera among the native soldiers of Sarawak, Island of Borneo, who were sent against the native head hunters in the interior. According to the correspondent, 10,000 men were sent in a hundred long boats up the Batani Lupar river. The first night out the men in the hindmost boats were attacked by cholera. The disease quickly spread to all the boats. The epidemic is ascribed to the troops drinking the foul river water, which is infected with cholera germs. Hundreds of them are lying dead in their boats. Many of the boats were unable to keep pace with the fleet, owing to the crew being stricken, and these were sent adrift. On the night of July 3 there had been three hundred deaths, and fifty boats were sent adrift. Before the commander returned to headquarters, 2,000 men of the expedition were dead. The river banks are strewn with dead and dying soldiers. The cholera is spreading down the river.

The Singapore correspondent of the 'Daily Mail' sends a similar story. The paper declares that the number of troops must be greatly over-stated. Sarawak, which is under the Rajahship of Sir Charles Johnson Brooke, an Englishman, has, according to the 'Statesman's Year Book,' a military force of 250 natives, under an English army officer.

THE PHILIPPINES

PRESIDENT ROOSEVELT FORMALLY DECLARES THAT PEACE HAS BEEN RESTORED.

Washington, July 4.—The President has formally declared the restoration of peace in the Philippine archipelago; he has placed the islands under complete civil control, and has extended general amnesty to the Filipinos, who have been in rebellion. These are the things, marking one of the most important chapters in Philippine history which were accomplished through the issue of three separate orders and proclamations, one by the President over his own signature, extending amnesty; one through Secretary Root, by the President's order, relieving General Chaffee from his duties as military governor, and a third which takes the shape of a general order addressed to the entire army of the United States in which Secretary Root takes occasion to express the President's high appreciation of the work it has accomplished, both in Cuba and in the Philippines.

BETTING ON THE INCREASE

BRITISH HOUSE OF LORDS ISSUES ITS REPORT ON THE SUBJECT.

London, July 4.—The House of Lords Committee on betting has issued its report. It says that betting is increasing especially among the working classes. It is not confined to horse racing, but there is much betting on athletic games. The increase is largely due to the facilities afforded by the press. The report condemns sporting tipsters' advertisements, which it says should be made illegal. It advises that bookmakers be imprisoned without option of a fine when convicted of betting with boys.

TEMPERANCE PICNIC

RAIN INTERFERES WITH THE DOMINION DAY CELEBRATION AT INVERNESS.

Inverness, July 3.—There was keen disappointment for the temperance folk of Megantic county on Dominion Day. Extensive preparations had been made for a grand picnic at Inverness. The Good Templars had the arrangements in hand, and had the beautiful weather prevailing in other sections favored them, the picnic would certainly have been a great success.

Shortly after noon dark, ominous clouds appeared and the picnickers forsook the beautiful grove for the better shelter of the town hall.

'We are fond of cold water, but this is rather too much of it,' were the opening words of Mr. W. H. Lambly, Grand Chief Templar of the I.O.G.T., of Quebec, as he called the meeting to order.

Mr. Lambly, while a patriarch in the cause of temperance, is as energetic and enthusiastic as the youngest member of the order, and he soon made everyone happy by his cheer and heartiness. Mr. Lambly had no doubt about the ultimate triumph of prohibition. 'It's going to come and we are here to help it along,' he declared.

Mr. John McKenzie, of Inverness, was the first speaker, and delivered a stirring speech. He was followed by the Rev. Manly Brundage, of Leeds, whose address was well received.

Mr. J. H. Carson was present, representing the Dominion Alliance. He said that although their pleasure had been somewhat marred by the rain he was glad to see they were so contented and happy. On this, our national birthday, we had much to be thankful for. 'Our King lives, and, we have good reason now to believe his life will be spared.' He suggested that in gratitude and in reverence they sing 'God Save the King.' The audience rose and sang most fervently the National Anthem. Mr. Carson made an earnest appeal for continued activity in the promotion of temperance and for the overthrow of the drink traffic. He was glad of the action of the Revenue Department in refusing a bottlers' license in Scotstown, where a prohibitory by-law was in force, the government having decided that the will of the people shall prevail. He also instanced some of the good work done by the Good Templar order in this province and urged those present to unite with the order.

The Rev. Richard Corrigan, B.A., B.D., Methodist minister of Inverness, expressed his sympathy with and deep interest in the temperance cause. He wished that more could be done locally to save the young people from the evil of drink. While no liquor is sold in Inverness it was sold near enough to them to be a source of danger and evil to many.

Mr. Allan Wark, of New Hampshire, a former resident of the county, gave the closing address. He referred to prohibitory laws of Maine and New Hampshire. If these laws were often violated and the claim, so often made, that prohibition does not prohibit, was true, it did not prove that prohibition was a failure, but simply that the officials whose duty it was to enforce the law had been untrue to their oaths of office. He hoped to see his native country soon free from the liquor curse.

The addresses were interspersed with singing, and altogether a very enjoyable afternoon was spent.

In the evening a concert was given in the hall, in which a large number of the young people took part. The marching and the 'milkmaids' ribbon,' and fan drills were performed in an exceedingly creditable manner. Mrs. (Rev.) R. Corrigan and Mrs. Mooney, who had trained the young people, were complimented upon the success of their effort. Ice cream and cakes were supplied during intermission.

THE AMES-HOLDEN CO.

At the annual meeting of the Ames-Holden Company, of Montreal, Limited, a very satisfactory annual report was submitted to the shareholders. The old Board of Directors were re-elected, viz.: Messrs. J. C. Holden, James Redmond, W. A. Matley, R. C. Holden, H. B. Ames, A. C. Flumerfelt, S. H. C. Miner, A. L. Johnson, Charles Bonnick, A. B. Erskine, W. M. Angus. At a subsequent meeting of the directors, the following officers were appointed: Mr. J. C. Holden, president; Mr. James Redmond, vice-president and general manager; Mr. W. A. Matley, secretary; Mr. R. C. Holden, treasurer.

BIBLE LIGHT

FRIDAY, JULY 4.

HIMSELF MAN. HIMSELF GOD.

It would be a one-sided picture which presents Jesus as God only, and an equally imperfect one which sets Him forth as only a man. He cannot be rightly known only as we see in Him a perfect humanity joined with the glory of the Godhead. His deity comes before His humanity. In the beginning God, 'in the bosom of the Father.' Gen. i., 1, and John i., 1, 18, both refer to Jesus, for all things were made by Him. (John i., 3, 10.) Jesus in His twofold nature can only be known as He reveals Himself to human consciousness. The God became flesh and in flesh manifested the glory of the only begotten God. (John i., 14, 18.) Nathaniel saw Him as Son of God, as King of Israel. Thomas beholds Him and calls Him 'My Lord and my God.' Jesus asks 'Who do men say that the Son of Man is?' The answer is, some man risen from the dead. 'But who say ye that I am?' 'Thou art the Christ, the Son of the living God.' This knowledge Jesus declares to be a revelation from heaven. (Matt. xvi., 13-18.) This great truth the twofold nature of Jesus Christ, Son of Man, Son of God, is the foundation upon which His Church is builded. The man Jesus is no foundation for the Church of God, and Deity alone cannot be the foundation. The Church is sinful humanity restored to innocence by trust in the sacrificial death of Jesus Christ, the God-man. (I. Cor. iii., 11; Eph. ii., 20.)

THE STUDENT AT HOME.

'Miss Gloriana,' said the college athlete in the outing suit, resting on his oars a moment, 'let us co-educate a little in rowing. Leave the tiller, come and sit by me, and take this other oar.'

'But it is not co-education, Mr. McTorkle,' she said, noticing that they were a long distance from the others. 'This is 'segregation.' And she put the boat about.—Chicago 'Tribune.'

HAD A GOOD NIGHT.

Slept Better Than at any Time Since the Operation.

London, July 4.—The bulletin regarding the King's condition posted at Buckingham Palace at ten o'clock this morning, says: 'The King had a good night, and, indeed, slept better than at any time since the operation. The wound now gives less trouble and His Majesty can move in bed with greater ease. His Majesty's appetite has improved.

(Signed), 'TREVES,
'LAKING,
'BARLOW.'

Everything points to a satisfactory, if somewhat prolonged convalescence of the King. It is expected that the bulletins regarding his condition will soon be reduced to one a day. Only small crowds now gather around the bulletin boards at Buckingham Palace, which is an indication that public confidence has been restored. Only one physician now remains at the palace throughout the night. All of His Majesty's physicians are able to attend to the more pressing portion of their private practices. Sir Frederick Treves absented himself from the palace yesterday to attend the wedding of his only daughter to Major Delme Radclive.

GUESTS DEPARTING.

A number of coronation guests left London to-day, including the Crown Prince of Norway and Prince Komatsu of Japan. Both were seen off by gatherings of distinguished persons at the station, where everyone seemed to be in high spirits with regard to the condition of the King.

A striking scene was witnessed yesterday. A big brake loaded with Fijian soldiers drew up in front of the palace. The men were bare legged and bare headed, their frizzy hair was long and dyed; with their white cotton skirts and quaint tunics they presented a strange spectacle even in cosmopolitan London. In front of the palace and to the amazement of the assembled crowd the Fijians solemnly intoned a hymn of intercession in their native tongue, which had been composed for the occasion by one of their number.

With the satisfactory progress of the King a large number of the unofficial coronation functions are being carried out with the greatest brilliancy. The Indian and colonial guests of the country are being feted and entertained on all sides. Sir Henry Irving gave an elaborate reception in their honor on the stage of the Lyceum Theatre last night, after the performance of 'Faust.'

HOMEWARD BOUND

CANADIAN CONTINGENT SETS SAIL.

London, July 4.—The members of the Canadian coronation contingent left London yesterday morning for Liverpool, where they embarked on the Allan liner 'Tunisian' in the afternoon for Montreal. The adjutant-general conveyed to the troops the entire satisfaction of Her Majesty the Queen, the Prince of Wales and the commander-in-chief, Lord Roberts, at the neat appearance and soldierly bearing of the men on all occasions. An account of the review was reported to His Majesty the King, who also desired it to be made known to his faithful colonial troops that in his sick room he read with gratification the expressions from his people to their loyal comrades. The soldiers were accorded an enthusiastic reception at Liverpool, and were entertained at lunch by the Lord Mayor in the Town Hall.

BARRACK LIFE.

(From the Special Correspondent of the 'Witness' with the Contingent.)

In camp at Alexandra Palace, Wood Green, June 21.—At last writing the shores of old England could be seen in the distance, appearing like a yellow streak along the horizon. As we steamed slowly up the well-buoyed channel to Liverpool huge blocks of solid-looking buildings and innumerable smokestacks came into view and then the solid masonry of the docks could be seen. These docks were certainly a revelation to those who had never seen them before. If straightened out they would extend seventy-eight miles, with permanent sheds of brick. It is truly a wonderful sight. The 'Parisian' proceeded to the landing stage, and as she drew near we could see immense crowds waiting for us. Then a great ocean-liner approached and all of a sudden her steam whistle belched forth a welcome in the shape of Toot-a-toot-a-toot! (Cock-a-doodle-do). This, as if by preconcerted arrangement, was taken up by hundreds of tugs, all screeching cock-a-doodle-do, the church bells rang out a welcome, and the people on shore and those on ferry boats crossing to and from Birkenhead, immediately opposite Liverpool, cheered and waved their umbrellas. The troops lined the decks of the 'Parisian' in full dress and it is no disgrace to say that many a strong man's eye was dimmed and he found a lump in his throat as he cheered in response to such a hearty reception. When we reached the landing stage at six p.m., the Lord Mayor of Liverpool came aboard and officially welcomed the Canadians. He informed the colonel that they had arranged a dinner for all on board, to be partaken of before the troops should proceed to London that night. For some reason or other we were not allowed to land, and, as the men were ready to march off, they were told to take off their things, and the vessel proceeded to the Alexandra docks, where she was berthed. No one was allowed ashore, and as the unloading operations were carried on all night there was practically no sleep for the noise of the steam winches. At 7.30 we marched ashore and, headed by the Liverpool police band, proceeded to the Midland Railway station, where we embarked for London. Great crowds lined the streets and much enthusiasm was displayed. We reached the encampment at Alexandra Palace, seven miles north of London, about 4 p.m. The weather in England for the past few months had been beastly and the place where the tents were pitched was like a sea of mud. The men hesitated about plunging into it, but, headed by General Cook, the camp commander, who shouted, 'You had better harden your hearts to it,' they plunged into it, and were finally told off to their tents. The tents used are hut-shaped and each contains ten iron cots with a mattress in three pieces, a pillow, two sheets and three blankets. These cots are very comfortable and the men are quite contented with their quarters. It might be stated that the Alexandra Park is owned by the corporation of the county of Middlesex, and was purchased by that body for the sum of £130,000 two years ago, from a private company, who had failed to make it pay. It is modelled on the same lines as the Crystal Palace and the grounds cover an area two miles square. The arrangements for messing the men are excellent, the meals being served in the palace, and a regiment of Royal Marine Artillery has been detailed to act as waiters. The palace is an immense building of imposing appearance, and contains a music-hall which has one of the finest organs in England, and there are also novelties of all descriptions, including statuary, paintings, wax works, curios, etc., etc. One of the features here is the number of slot machines in operation and the variety of things they are used for. They all require a penny to start them and you can scent your handkerchief, get a package of any kind of candy, have your name printed on a metallic plate or a hundred other different things.

—Since arriving we have been inspected by the Duke of Connaught, and on Tuesday Lord Roberts will be here to review us. Great crowds are attracted to the grounds to see the Colonials, but, of course, the colored troops are the centre of attraction. There are some very queer looking chaps among them, the Fiji Islanders being the most picturesque. They wear a short jacket and knickerbockers, without shoes or stockings. Although their faces are very black they dye their hair red and it stands on end pompadour fashion. They are very timid looking men and huddle together in their tents and peer out at the multitudes in a frightened manner. There are a couple of hundred colored troops altogether coming from England's possessions in all parts of the world.

The crowds of people in London's streets are a marvel. The Bank of England and several large buildings had trial illuminations the other night, and the streets in the neighborhood of the bank were literally jammed with people. Dear knows what it will be like on Coronation night. But the police have great control of traffic and regulate the crowds in a wonderful manner. The Colonials are receiving a good deal of attention in the way of entertainment and a good many places of amusement have invited the men to attend the different performances. On Saturday, June 28, we go to Spithead to attend the naval review.

IRISH-AMERICAN PRISONERS.

London, July 4.—The War Secretary, Mr. Brodrick, informed Mr. Jasper Tully (Nationalist), in the House of Commons yesterday, that he was not aware that a number of Irish-Americans were made prisoners of war, but, he added, their release will proceed on the same lines as other prisoners similarly situated.

SANFORD IN A SERIOUS STATE.

Toronto, July 4.—Mr. John Penman, of Paris, who provided the money which made the saving of the life of Joshua Sanford, the well digger at Branchton, possible, was in the city for a few hours yesterday. He says that the reaction following the excitement of the release of the young man from the well had set in and that he was in a serious condition. Sanford could not bear to be left alone and was frequently under the delusion that he was still undergoing his terrible experience in the well. He will not allow the windows of his room to be closed and obtained rest only when a cloth was placed over his eyes. Mr. Penman was exceedingly anxious lest the ordeal through which Sanford passed might yet result in a mental collapse.

A SERIOUS CHARGE.

Brockville, July 4.—An elderly woman, named Sabra Mattice, from the township of Bastard, was arraigned before Judge McDonald yesterday on a charge of placing poison so that it might easily be partaken of by cattle belonging to a farmer named Alex. Brown. She pleaded not guilty, and was remanded for trial.

INJURIES PROVED FATAL.

Quebec, July 4.—Alex. Cunningham, foreman of the Leyland line, who was accidentally shot at the Cove Fields here on April 14 last, died last evening, in the Jeffrey-Hale Hospital.

KINNALOOSE NOT ABOARD.

Quebec, July 4.—Pursuant to instructions wired from Montreal the outgoing steamship 'Lake Ontario' here yesterday was unsuccessfully searched for the Oka Indian, Joseph Gabriel Kinnaloose, who was suspected of being on board as a passenger or a stowaway.

FOREIGN RELATIONS

Discussion Precipitated in the British House of Commons

SIR CHARLES DILKE'S CRITICISMS AND LORD CRANBORNE'S REPLY.

London, July 4.—When the vote for the Foreign Office came up in the House of Commons yesterday afternoon the government's foreign policy came in for considerable criticism.

Sir Charles Dilke (Advanced Radical) said he wanted to know if there had been any real negotiations with France looking to the settlement of the French shore (Newfoundland) dispute, and he further declared that British recognition of French rights to the Hinterland of Tripoli endanger the traditional friendship of Great Britain and Italy. The new arrangements between France and Italy, he further asserted, had entirely upset the British situation in the Mediterranean and eastern Europe. They had been made in order to put the screws on Great Britain. The feebleness of the government policy in China showed the absence of a presiding mind. Sir Charles also referred to the hostility to Russia involved in the Japanese alliance, and he advanced the idea that a clear definition of the respective interests of Great Britain and Russia could possibly be secured by some sort of an arrangement with the Czar himself. Continuing, Sir Charles asked if there was any secret understanding with Germany regarding her access to the Persian Gulf, and urged the fostering of friendship with France. Sir Charles concluded with moving a reduction of the salary of the Foreign Secretary, Lord Lansdowne.

Mr. Thomas Gibson Bowles (Conservative) seconded the motion. He said he regretted the subserviency of the Foreign Office towards Germany, declaring that she was the disturbing influence in China, and that the Emperor William's telegram to Mr. Kruger was largely responsible for the feeling which produced the Boer war.

Mr. Henry Norman (Liberal) wanted to know if the government realized that Germany had practically secured exclusive rights in the Shantung peninsula, and that Russia had a complete monopoly of the enormously valuable mines of Mongolia.

LORD CRANBORNE'S REPLY.

Lord Cranborne, Under Secretary for the Foreign Office, declared that the great questions affecting Newfoundland were not being allowed to sleep. They were perpetually before the Foreign Office of both countries. The government would be exceedingly glad to settle the Newfoundland question, but it was very difficult because of a complexity of interests over which the British Government had no control. Regarding Russia, Lord Cranborne said it was not the fault of Great Britain that an understanding had not been reached.

The questions of the relations of Great Britain and Italy was very important, continued Lord Cranborne. Great Britain's international friendships were never aggressive, nor intended to be aggressive. Her friendship with Italy belonged to that class. It was based on something stronger than treaties, namely, identity of interests and sympathies. There had been a passing coldness on such subjects as Tripoli and Malta, but Great Britain had given Italy assurances on both, and the soreness was healed. Great Britain had no designs on Tripoli. She was only anxious to maintain the status quo, and intended to adhere to treaty obligations concerning Tripoli as well as other matters.

The agreement with Japan, Lord Cranborne asserted, was founded on mutual interests. Therefore, it had a strong foundation. Regarding the complaint as to the lateness of the treaty, Lord Cranborne said it was not for Great Britain to offer treaties. She granted them, and was delighted to grant this treaty to Japan.

Lord Cranborne further remarked that he did not believe China was likely to be misled by the advances of various powers. She knew it was the true policy of Great Britain to maintain the integrity of China and increase her resources. He was not in the slightest degree afraid, therefore, of the small advantages which it was thought had been gained by other powers. Lord Cranborne quoted the denial of the German Imperial Chancellor, Count von Bülow, that Germany had exclusive rights in Shantung, and claimed, therefore, that the door remained open.

As to a Russian concession in the Pei-ho valley, the government, said Lord Cranborne, was not in a position to say that Russia was not entitled to a concession, but when it came to the question of site and area thereof Great Britain had a good deal to say, and said it with considerable effect.

Referring to the termination of the provisional government of Tientsin, Lord Cranborne said the terms had not been definitely agreed upon. The government would be glad to see their modification, and there was very little doubt that they would be modified.

As to the China indemnity being a gold debt, the government, Lord Cranborne declared, could not recede from its position, but sympathized with China, and some ameliorations might be granted. It was hopeless to expect the total abolition of the likin stations in China, but they confidently hoped to be able by a fiscal arrangement to relieve foreign trade of this enormous burden.

SPEECH OF THE EMPEROR

GERMAN ROMAN CATHOLIC PRESS STILL DISCUSSING IT.

London, July 4.—The German Catholic press says the Berlin correspondent of the 'Times,' is still discussing the Emperor William's speech at Aix-la-Chapelle.

In regard to the disputed passage, in which the Emperor is reported to have said that the Pope told General von Loe that Germany was the only country in Europe where a Catholic could live undisturbed in the free exercise of his faith, General von Loe said at a Catholic meeting at Bonn on Sunday that he had not understood the Pope to say that Germany was 'the only country,' and, moreover, he did not believe that the Emperor said 'the only country' at Aix. But, General von Loe continued, Prussia was as far advanced as other states in regard to religious freedom, and the Vatican recognized that the position of the Catholic Church was better in Prussia than in France.

General von Loe said, however, that the Vatican had a number of desires in regard to the German Catholics, which he (Von Loe) had reported to the Emperor. The friendly relations between His Majesty and the Pope would be an important factor in the settlement of these questions.

The meeting sent a telegram of thanks to the Emperor for his speech at Aix.

The speech referred to in the foregoing was delivered by the Emperor William at Aix-la-Chapelle on June 19. After his arrival at Aix he proceeded at once to the City Hall, accompanied by the Empress and the Crown Prince, and in the course of a somewhat lengthy address, is reported to have said:—

'I look to all, priests and laymen, to help me uphold religion among the people, in order that the German name may preserve its health and strength. This applies equally to the two creeds, Catholic and Protestant.

'It is with pride and joy that I am able to tell you that the Pope said to my special ambassador who went to Rome on the occasion of the Holy Father's jubilee, that he had always kept a high opinion of the piety of the Germans, and especially of that of the German army. The Pope asked my ambassador to tell his Sovereign that the country in Europe where control, order, and discipline still prevailed, with respect for authority and regard for the Church, and where the Church could live, was the German Empire, and for that the Papal See was indebted to the German Emperor.'

The General von Loe, referred to in the despatch from London, was the special ambassador from the Emperor or the Pope.

PRUSSIAN ARMY

NEW ORDER ISSUED REGARDING OFFICERS' MARRIAGES.

Berlin, July 4.—The Emperor William has issued a new order dealing with the marriages of officers in the Prussian army. It provides that where an officer's salary is less than that of a captain, but equal to $1,125, he must have a private income of $375 before permission will be given for him to marry. District officers of the gendarmerie, with a salary of $900 must have a private income of $525. Officers at the disposition of the authorities who do not have an income of $750 must not apply for permission to marry. An applicant must describe the bride-elect's father, and give his profession. He must also state whether she is a spinster, widow or divorced. If she has been divorced the details of the proceedings must be given. The bride-elect must furnish proofs of her income, and an exact account of her origin, education and the reputation she bears.

JUST LIKE MONTREAL

CITY OF TORONTO WILL LEVY A TAX ON CHINESE LAUNDRIES.

Toronto, Ont., July 4.—The Property Committee of the City Council yesterday demanded to impose a tax of $50 cash on all laundries, the admitted object being to drive out the Chinese laundries or at least to prevent their increase. It is stated that since 1898 the Chinese have displaced almost 1,000 white laundry workers in Toronto, and that they now do one-third of the city's washing. There are forty-one 'white' laundries in the city, and it is asserted 175 Chinese laundries with six hundred or seven hundred Chinese employees. The tax will be a flat one, the big steam laundries with large staffs paying the same as the lone white or Chinese laundryman.

THE 'DRIEBUND.'

VIEWS OF THE FRENCH MINISTER OF FOREIGN AFFAIRS.

Paris, July 4.—M. Delcasse, Minister of Foreign Affairs, made a statement in the Chamber of Deputies yesterday, regarding the consequences of the renewal of the triple alliance on the Franco-Italian relations. He said that France's foreign policy had sought to bring about an improvement in international relations principally with Italy. The economic war between the two countries was ended. When the time for the renewal of the triple alliance approached, the government had concerned itself in the matter. It had become convinced that the renewal did not threaten France in any respect. Italy would never lend herself to an aggressive policy against France.

CHOLERA IN MANILLA.

Manilla, July 4.—In Manilla yesterday, 49 fresh cases and 33 deaths from cholera were reported. In the provinces the records show that 199 new cases and 147 deaths have occurred. The health officials are striving to check the spread of the disease, and have asked for larger appropriations.

LOST MASONIC JEWELS.

Kingston, Ont., July 4.—Mr. Abraham Shaw, inspector of customs, reports the loss of his valise, while travelling on the G. T. R. flyer. The contents of the case were valuable—three Masonic jewels and an apron. One of the jewels had a diamond in it valued at $75. Another valued article was a centennial medal of St. John's Lodge, Kingston.

SHIPMENT OF BASS SEIZED.

Kingston, Ont., July 4.—(Special).—Mr. J. H. Brickwood, deputy game and fish warden, on Thursday seized a consignment of about 150 pounds of black bass, which arrived in the city from Battersea parties, consigned to a Detroit gentleman. The fish were distributed among charitable institutions in the city. American fishermen are permitted to take home with them two days' catch only, and all other shipments of bass are illegal. Mr. Brickwood is awaiting instructions from the department before taking further proceedings.

THE VENEZUELAN UPRISING.

Port of Spain, Trinidad, July 4.—B. W. I.—News has reached here that after four days' fighting the town of Barquisimeto in the State of Lara, Venezuela, has been captured by revolutionists, under General Luciano Mendosa.

THE MARQUIS OF HOPETOUN.

Melbourne, July 4.—The Marquis of Hopetoun, who resigned some time ago as governor of the Australian Commonwealth, left here to-day for Sydney. Thence he will go by way of Vancouver to England. He was accorded an enthusiastic farewell.

THE ANCIENT CAPITAL

THE SHIP LABOR DIFFICULTY.

Quebec, July 4.—The Ship Laborers' Society here having taken the stand that it will neither reduce the rate of wages nor submit the question to arbitration, it is feared that there may be trouble. Yesterday forenoon members of the society were completing the loading of the SS. 'Anatolia,' but they refused to work at discharging the Leyland liner 'Iberian' except at their rate of wages, 37½ cents an hour for a day of eight hours, while the company offer 25 cents. It is said that unless the laborers accept this, which they say they positively will not, or the authorities give the shippers adequate protection in the event of their employing other labor, the ship will be sent to Montreal to be loaded.

THE LAW EXAMINATIONS.

An effort was made yesterday to investigate the plot to cheat the Board of Bar Examiners in connection with the pending examinations of candidates for admission to practice, in order to discover the chief culprits, if possible, but, as might be expected, all the students examined pleaded utter ignorance of it, as well as of the Montreal workman, Guertin, who bored the hole through the flooring. They admitted that they had seen him on the train, but they did not know his business. Guertin was fined $1 and costs for damaging public property, which he paid and was then liberated.

NOTES.

Xavier Chabot, aged 68, of Levis, brother of Mr. Julien Chabot, of the Quebec Harbor Commission, was struck yesterday by a Quebec Central train while walking on the track near the Levis station, and almost instantly killed.

An Abenaquis Indian, arrested for being drunk on the streets, was sent by the Recorder to jail for fifteen days, but no effort seems to have been made to discover by whom the liquor was sold to him.

A movement is on foot among the local bakers in favor of day instead of night work.

CHINESE EXCLUDED FROM THE KLONDIKE.

Vancouver, B.C., July 4.—Word comes from Dawson that Chinamen have made an unsuccessful attempt to get into the Klondike. A large number struck White Horse. They were called upon by a vigilance committee and told to go. They refused, and their baggage was thrown on a moving freight train and they were lifted into the train after struggling and wildly protesting against the treatment. At Bennett, United States customs officers hustled them to Skaguay, where they boarded Canadian steamers for British Columbia.

MISSIONARY'S GUN BURST

THE REV. MR. FERRIER TRAVELS EIGHT HUNDRED MILES TO HAVE THE WOUND DRESSED.

Winnipeg, July 4.—Eight hundred miles is a long distance to come to see a doctor, but that is about the number covered by the Rev. R. Ferrier, who has just arrived from York Factory to have a wound dressed. Mr. Ferrier, a McGill graduate, is an Anglican Church missionary among the Indians at York Factory. A few weeks ago, while shooting geese, his gun burst, and the left hand was badly shattered, and it was necessary to come from the shores of Hudson's Bay to Winnipeg for treatment.

KLONDIKE GOLD.

CANADIAN BANKS STILL SHIPPING IT TO SEATTLE FOR ASSAY.

Vancouver, B.C., July 4.—The Canadian steamship 'Princess May' arrived last night from Skaguay with 200 passengers and no gold. She reports that the American steamers are following with big treasure destined for San Francisco and Seattle, and that the Canadian banks are purchasing all the gold through their branches in Dawson and shipping it to Seattle in spite of the Federal Government assay and purchasing offices in Vancouver.

NEW SCHOOL OF MINES.

Halifax, N.S., July 4.—A public meeting in the interests of Dalhousie College was held last night. The university has decided to establish a school of mines. The name of the first professor was announced at the meeting. It is that of Dr. K. E. Woodman, of Harvard, who will have charge of geology and mineralogy. The first steps have been taken to raise a new endowment fund of $200,000.

ONTARIO ELECTIONS

MR. ROSS MAY CALL A FALL SESSION OF THE LEGISLATURE.

Toronto, July 4.—The result, as forecasted last week in the 'Witness,' of the Lennox appeal, going Conservative and North Grey remaining in the meantime Liberal has quickened actively in political circles, heightened the already high hopes of the Conservatives and deepened the gravity of the situation for the government. There is every indication of a practical deadlock when the legislature assembles, to be broken only by another appeal to the people. The outcome of the protest and by-elections is not expected to result in either side securing a working majority. What Conservatives openly state they are longing for is the chance for a general election with the electoral machinery in their hands. They figure that this, and the attendant prestige of being 'on the win' would ensure a safe majority for their administration. Should this occur a number of interesting changes in the personnel of the candidates are talked of. One is that Mr. W. F. Maclean, M.P. for East York, would resign from the Dominion House to contest East York for the Local, as it is considered probable that his personal popularity would overcome the usual Liberal majority given by that riding in elections for the legislature. The present member-elect for East York, Mr. John Richardson, is almost certain to retire from active politics at an early date, and it is generally understood that Mr. Alex. Mills will be tendered the Liberal nomination. Mr. Mills is one of the most prominent Methodist laymen in the Toronto conference. He was nominated as the Independent Liberal prohibitionist candidate in May, but after making a nomination day speech withdrew, explaining that he had received the requisition to stand for the constituency too late to be able to make a serious fight for the seat.

The Liberals will, it is said, change their course in regard to the prohibition question by placing candidates in the field in London and South Wellington whose record will be acceptable to the temperance electors instead of renominating candidates who openly flouted that element like the ex-members Col. Leys and Col. Mntrie.

The government is making an effort to have Mr. Mackie, the Liberal member in the Dominion House for North Renfrew, resign his Federal seat to run in the local Liberal interest for that riding rendered vacant by the death of Mr. Munro. Some of those who know the constituency state that he is the only candidate who could hold North Renfrew in the Liberal column.

Nothing definite can be done regarding the date of the meeting of the legislature until the Hon. Mr. Ross returns from England, but it is said that he is likely to have the legislature summoned this fall, and if a deadlock occurs appeal to the Lieutenant-Governor, Sir Oliver Mowat, for another dissolution. It is argued that while a second appeal to the electorate without meeting the legislature would be unconstitutional, that in case of a session being called and a deadlock then occurring the administration might be then granted a dissolution and again go to the country as the government, if the opposition were unable to satisfy the lieutenant-governor that they had received a mandate from the electors, by being unable to show a majority of the members elected. It is considered, too, that it would if constitutional, and if acceded to by the lieutenant-governor, be in the interests of the Liberal party for this appeal to be made before the referendum vote on Dec. 4.

NEWS IN BRIEF.
