## MANY SCENES OF ROYAL SPLENDOR

Mark Preparation for Marriage of Spanish King

## INFLUX OF NOTABILITIES

Streets Present a Scene of Lurid Color and Animation—Festivities at the Palace.

Madrid, May 29.—The preparations for the marriage of King Alfonso and Princess Victoria (as Princess Ena of Battenberg is designated by the Spaniards), are fast approaching culmination with the arrival of foreign princes and envoys, the influx of vast throngs and the final adornment of streets and buildings. The train of the Prince of Wales and the Archduke Francis Ferdinand of Austria arrived at 2.20 o'clock, followed by the trains of Prince Albert of Prussia, the Grand Duke Vladimir of Russia, Crown Prince Constantine of Greece, Prince Albert Leopold of Belgium, Prince Eugene of Sweden and many others. The arrival of the visitors was marked by scenes of royal splendor. Later there was another pageant as all the Princes and Princesses with their retinues proceeded to the Pardo Palace, where King Alfonso and Princess Victoria received throughout the rest of the day.

The Pardo Palace was the center of festivities to-night. King Alfonso and his guests witnessed a performance at the Pardo theatre, one quaint feature of which was a tableau of an old Spanish marriage, suggestive of the nuptials which are to take place on Thursday. The streets to-night present a spectacle of lurid color and intense activity. Railway trains are bringing in thousands of foreigners and provincial Spaniards. The streets along the route of the wedding cortege are ablaze with color from red and end with floral arches, sunbursts of British and Spanish flags and garlands.

## NEGLECTED MARKET

Canadians Have a Chance to Sell Barley to England.

Ottawa, May 29.—The Department of Trade and Commerce received a report to-day from Mr. P. B. McNamara, Canadian agent at Manchester, England, calling attention to the neglect of the English barley market by Canadian growers. He says that there were imported into Great Britain last year 45,000,000 bushels, valued at \$6,017,200. The principal countries exporting barley to Great Britain are Russia, Turkey, Roumania and the United States. The price of California malted barley in the British market at the present time is 63 cents a bushel.

## HIS LORDSHIP COMING OUT.

London, May 28.—An Ottawa cable states that Lord Strathcona is going to Ottawa to give evidence before Parliamentary Committees. Lord Strathcona, in reply to the question of his going, replied that he had nothing whatever to say about it.

## MADE WORLD'S RECORD.

London, May 29.—Last Wednesday in Arran Bay, Admiral Prince Louis of Battenberg's flagship, "The Drake," made a world's record in shooting with six-inch guns. Gunner Sparrow in eleven rounds made 11 hits, Corporal Ward and Bombardier Nixon made the same score, and Sergeant Reed, in eleven rounds, made ten hits.

## THE ROSS RIFLE.

Toronto, May 29.—Staff Sergeant George Mortimer, of Ottawa, formerly of the Grenadiers, is at the Palmes House.

Mr. Mortimer, acting for the Dominion Rifle Association, is going through the country distributing the Ross rifles to the Canadian team that goes to Bieleys this year.

He has finished his distribution in Hamilton, Ottawa and Toronto, and leaves to-night for Quebec, and from there to Montreal. As time is limited, the rifles will be shipped straight to Bieleys for the use of the men from British Columbia and one west.

The Ross rifle, as the new rifle is known, is being exclusively manufactured by the Dominion Government, and is the authorized weapon of the country. The rifle, after having been demonstrated by Mr. Mortimer, has proven to be an excellent rifle for service use. Staff Sergeant Bayhurst, G.M. of Hamilton, completed a score of a possible, at 600 yards. Sergeant Malet Huggins also made excellent shots. Toronto's four are now practicing daily for the Bieleys competition. Staff Sergeant Creighton, musketry instructor Q.O.R., Toronto, has also made splendid scores with the new arm.

## GUATEMALA REVOLT

Country Said to be Ripe for Overthrow of Cabrera.

Mexico City, May 29.—General Castello, commanding one detachment of Guatemalan revolutionists, undertaking the city of Ocosingo, was forced to retire before a superior force. He is now reported to have taken a new base and will be reinforced to-night by several hundred good fighting men from the Empire City. Gen. Barrillas is in the mountains making his way to Quetzaltenango. Barrillas has with him a fine body of picked men and is reported to be steadily recruiting his force. No news has been received from Salvador, but the invading force should by this time be well advanced into Guatemala. Resident Guatemalans here state that the whole country is ripe for the overthrow of Cabrera. The season of rains has set in and the roads are bad in Guatemala. Telephonic communication is difficult owing to the cutting of the wires on the Guatemalan side.

Messengers on horse back will be dispatched from Ocosingo, where Major Castello has his forces and from the flying columns of Gen. Barrillas, who is pushing on to Quetzaltenango, a city of 40,000 inhabitants. This city is likely to be occupied by Gen. Barrillas Wednesday or Thursday. The revolution is said to be the most widely spread of any in the history of Guatemala. Foreign planters have been waiting for months for Gen. Barrillas to act. Practically all foreign interests and many of the better class frequent support the revolution. Frequent abuses of power is charged to the Government. Gen. Barrillas and General Castello and two aides left the city by strategy May 11th. They bought their tickets to El Paso over the Mexican Central. They boarded the night train, but left it a few miles out and returned here, where they boarded a Pullman car stocked with provisions and carrying their saddles and special luggage. In this car they went over the Vera Cruz and Tehuantepec railroads to Tonla, on the Pacific coast, there switching to the new Pan-American Railway, which now approaches the Guatemalan boundary. Their start towards the United States outwitted the Guatemalan representatives here.

## WRESTLING CHAMPIONSHIP.

Springfield, Mass., May 29.—James Barnes, of Springfield, defeated Ed. Atherton here to-night in a wrestling match for the middle weight championship of America. Barnes took the first fall in 17 minutes, Atherton the second in seven minutes and Barnes the third in 18 minutes.

## SENATOR BURTON'S CASE.

Washington, May 29.—Senator Burton has made known to members of the committee on privileges and elections his attitude since the recent Supreme Court decision in which his conviction was affirmed by the higher court. He says in a letter that he will not put the Senate in the position of having one of its members in jail and will resign as the mandate of the court to the court below is issued and enforced. Since the receipt of communication Senator Burton has been informed that members of the committee as well as members of Senators outside of the committee insist upon action at once and that the committee will likely vote on his case before the expiration of the present session.

## COTTON COMPANIES' REPORT.

Montreal, May 29.—At eleven o'clock yesterday morning the annual meeting of the Dominion Cotton Company was held, and an hour later that of the Merchants' Cotton Company, at both of which meetings Mr. David Yuille presided. These two companies were recently absorbed by the Dominion Textile Company, and it is understood that under the new regime the condition of these companies has been materially improved. A minority of the old shareholders of these companies still refuse to accept the transfer and hold their original shares.

According to the reports of the meeting held yesterday, dividends have been declared at the rate of two and a half per cent. on the Dominion Cotton Company's stock, and three and a half per cent. on the Merchants' Cotton Company's stock. It was also stated that the Dominion "dividends" are becoming fewer in number, and that there are now only two or three estates comprised in the minority. In the Merchants' Company there are only six estates yet to come in.

The statement was made by Mr. Yuille, president of the Dominion Textile Company, yesterday, that twelve months ago, when the combination was first taken in hand, the four mills were behind nearly seven hundred thousand dollars, but at the present time not only has this been wiped out, but a substantial surplus will be shown.

The annual meeting of the Dominion Textile Company will be held on Thursday next.

The directors elected at the meeting yesterday morning were: Mr. David Yuille, president; Hon. L. J. Forger, first vice-president; Mr. C. E. Gordon, second vice-president; the Hon. Robert Mackay, Mr. H. S. Holt, Mr. J. P. Black, Mr. D. Williamson.

## PILGRIMS' DINNER

Bishop Potter Entertained in London Last Night.

London, May 29.—Gen. Lord Roberts presided to-night at the Pilgrims' dinner in honor of the Right Rev. Henry Codman Potter, Protestant Episcopal Bishop of New York. There were 160 guests, including the Archbishop of Canterbury, Lord Strathcona, Admiral Sir Wm. Kennedy, David J. Hill, United States Minister to The Hague, Andrew Carnegie, Sir Christopher Furness, Alfred Sutro, Don. M. Dickinson, David Bisham, G. M. Cassatt, H. C. Lewis, Sir Thos. Lipton, Victor F. Lawson, Lord Roberts and John Wanamaker. The Archbishop of Canterbury, toasting the guest of the evening, paid a high compliment to Bishop Potter's activity for the benefit of those among whom he lived. It was such gatherings as these, the Archbishop said, that the oneness of the British and American nations was cemented.

Bishop Potter, in replying, described his recent tour of the East and complimented Great Britain on the valuable work the nation had done in Egypt. He said he did not know where it would be any comfort to his hearers to know that the American eagle was going about the streets of Cairo with its tail between its legs. Bishop Potter added that the thing which had made Great Britain great was not force, menace or diplomacy, but justice. He believed the future destiny of the human race was in the hands of Anglo-Saxon civilization and that it was time for them to strike the note that would give the key to draw out the melody of future happiness.

Letters of greeting were read from Earl Grey, Governor-General of Canada, the Earl of Aberdeen, Lord Lieutenant of Ireland, and from Ambassadors Reid, Lord Roberts, in toasting King Edward and President Roosevelt, said they were the two rulers of English speaking peoples upon whom the maintenance of the world's peace mainly depended. Lord Brassey offered the toast to "The Visiting Pilgrims" to which Dr. Hill responded.

## WRIT FOR LABOR MEN

Canada Foundry Co. Seeks to Protect Their Workmen.

Toronto, May 29.—The Canada Foundry has issued a writ for an injunction to restrain striking ironworkers at Port Arthur from interfering with their employes, preventing or persuading others from entering their employ, and to restrain them from boycotting those firms and dealers with whom the Canada Foundry Company does business.

The writ is directed against J. R. Macsear, Wm. Higgins, D. McGinnis, Albert Bullock, Wesley Macdonald and Wm. Duncan. Each is sued individually, and also as officers of Local Union 63, of the International Iron Workers.

The list of acts from which the company wishes to restrain them is an unusually long one.

The court is asked to restrain them from "molesting, using violence, intimidating, injuring property, persistently following employes, besetting, watching, dissuading, preventing from making contracts, disturbing, inducing to leave employ, threatening, boycotting, colluding, counselling, advising, and requesting."

## AN EIGHT HOUR BILL.

Washington, May 29.—The House committee on labor to-day authorized a favorable report on the eight hour bill. The bill provides that 8 hours shall constitute a day's work in the manufacture of any supplies for the Government or in any work done for the Government by contract. Every such contract shall stipulate a penalty for each violation of \$5 for each laborer or mechanic, for each and every calendar day in which he shall labor more than eight hours. Nothing in the act shall apply to transportation by land or water, nor shall the provisions and stipulations in the act provided for affect so much of a contract as to be performed by way of transportation or for such material as may usually be bought in the open market.

## COLLAPSE OF TANK

Caused Panic and Injury Among Crowd in Dry Goods Store.

New York, May 29.—By the collapse of a tank on the roof of Adams & Company's dry goods store, in Sixth Avenue, followed by a panic among customers and clerks, nearly a score of persons, mostly women, were more or less seriously injured this afternoon. The store was crowded with customers when the tank, owing to the giving way of supports, toppled over on a dome skylight, covering the central court, precipitating ten thousand gallons of water and a shower of broken glass on the main floor. A number of clerks and customers were out by fragments of glass and other debris and a panic ensued in which hundreds of women made frenzied efforts to reach the street. Many were knocked down and trampled on and scores had their clothing torn and lost their pocket-books, hats and parasols. Firemen and ambulances were quickly on hand and the injuries of about a dozen persons were dressed by the surgeons.

## THOUSANDS TAKEN

From Mutual Life Co. by Means of Fake Bills.

New York, May 29.—The Tribune will say to-morrow: "The special grand jury in its investigation of the Mutual Life Insurance Company's affairs obtained evidence yesterday that many thousands of dollars were taken annually for 20 years from the treasury of the company by means of fake bills purporting to be for printing and supplies for the company furnished through the firm of George McKibben & Son, book-binders, No. 25 Park street. Part of the evidence was furnished by George McKibben, head of the firm, who was a witness in the afternoon. It was said about the criminal court's building yesterday afternoon that the unearthing of such proofs of fraud probably would result in indictments against former officials of the Mutual, who had guilty knowledge of the frauds."

The entire amount of money taken from the Mutual's treasury in such fashion, it is believed, amounted to more than \$1,000,000. An official of the Mutual said yesterday that since the change in administration, a saving of \$100,000 a year to the company in the expense of the company's office building at 32 Nassau street had been provided for by ordinary methods of economy. A saving of \$15,000 a year in the cost of coal burned in the building's steam plant was obtained merely by changing the size of coal.

## DEVLIN NOT TO RESIGN.

London, May 29.—Jos. Devlin, Irish Nationalist member of Parliament, for the West Division of Belfast, to-night declared that he knew nothing about the rumor published in Ottawa that he would resign his seat in the House of Commons in order to enter the Laurier cabinet.

## ARBITRATION CONFERENCE.

Lake Mohonk, N.Y., May 29.—Three hundred diplomats, jurists, members of Congress, editors, educators, clergymen, lawyers and business men arrived here to-night by invitation of 'A. K. Smiley to attend the twelfth annual Lake Mohonk conference on international arbitration, which begins a three days' session to-morrow.

## CASTRO AGAIN ACTIVE.

New York, May 29.—Carlos B. Figueredo, Consul General of Venezuela, in this city, to-day received the following cablegram from Willemstad, Island of Curacao: "There is an extraordinary acclamation of the people in favor of Castro." This seems to indicate that Castro will follow up the promise made May 22nd, at a national celebration at Victoria, province of Aragua, when he said: "When all citizens of the republic think and request as do the noble people of Aragua I shall gladly return to the federal capital."

## BEEF TRUST REVELATIONS.

London, May 30.—The revelations regarding the beef packing industry in the United States have caused a sensation here. Questions will be raised in the House of Commons to-day with a view to ascertaining how far it is in the Government's power to protect the British public. The London newspapers this morning praise President Roosevelt for his courage in probing the matter. Inquiries at Liverpool in the American Provision Exchange yesterday elicited the view that the local supervision was too keen to permit of bad goods reaching British importers.

## COLLAPSE OF VESUVIUS' CRATER.

Naples, May 29.—Another portion of the main crater of Mount Vesuvius fell to-day, causing a thick black column of smoke to arise to a height of several hundred feet, eclipsing the sun and spreading ashes and cinders over Torre Annunziata and surrounding villages. The incident caused considerable alarm, especially because it was accompanied with several loud detonations, and many peasants evacuated their houses. Prof. Matteucci, director of the Royal Observatory, who had returned to his post, ordered the workmen who were clearing the roads to stop operations. The professor telegraphed to Naples that he believes nothing serious will happen, even if the phenomenon should be repeated.

## We Tell

We have nothing to conceal! No secrets to hide! We publish the formulas of all our medicines. You will find these in Ayer's Almanac for 1906. If you do not have a copy we will gladly send you one. Then show the formulas to your doctor. If he does not approve, then do not buy; if he approves, then buy, and keep these standard family medicines on hand.

## The Quebec Chronicle

QUEBEC, MAY 30, 1906.

## MONTREAL THE HUB AND ITS HUBBUB

The Montreal Gazette has effectually extinguished both Quebec and Halifax. "They are very nice, people, eminently respectable, and all that, but perfectly impossible, my dear!" says the great Society Lady of Montreal. "Halifax is a day's ride from Montreal, New York is twelve hours distant. Provide equal accommodation on each route, and New York will secure more than its share, just as it has always done. The short ocean trip has merely a theoretical value, and that is not a sure foundation for such an expensive undertaking as a fast steamship service." "As a matter of fact, the experience of railway and steamship men has been that the passenger wants to get on the steamship as soon as possible after leaving home, and to stay on it until he is as near as possible to his destination." We do not dispute the first part of the "matter of fact," as to the eagerness to get on board, but we are very doubtful of the last part, as to the reluctance to leave the vessel, except in long sea voyages during which the passenger has had time to become as it were acclimated, or we might rather say assimilated to nautical conditions, otherwise (and we fancy the experience of the ship's stewards and stewardesses, which are much more to be relied on than those of railway and shipping men in this case, will bear us out,) the eagerness of the passenger to get on board at the earliest possible moment is a languid sentiment compared with his passionate desire to leave it when the vessel once gets out into the open sea, and in a short voyage the period is all too brief to overcome the impressions of the first day or two, and to induce any overpowering desire to linger longer. As a matter of fact, the shorter the ocean voyage the greater desire to get on shore.

"Halifax is a day's ride from Montreal; New York is twelve hours distant"; ergo, everybody that crosses the ocean will go to New York. We have been brought up to hold as an essential portion of our creed that Boston, the city of baked beans, was the Hub of the Universe—apparently this is an erroneous belief, and it is Montreal not Boston that is the Hub, and the centre of gravitation. Why should people be especially anxious to go to Montreal, so anxious that they count every minute lost time till they get to it? Surely there are other pebbles on the beach quite as pretty. The Montrealeers have too good an opinion of themselves—"see Naples and then die," is the somewhat extravagant boast of the Neapolitans, but the Montrealeers have improved on it; "see Montreal, and then you'll never want to go to heaven."

Yet Montreal is generous, as she can well afford to be. "There is no denying the fact that Halifax is in point of distance the ideal port of Canada. But, like Quebec, it is badly located—Quebec and Halifax have magnificent harbors, but the natural disadvantages render them of but slight value to the country." Here is riches! A city whose only communication with the ocean is an artificial waterway which requires constant dredging and deepening to allow even the smaller vessels of the day to navigate it with tolerable safety talking about the "bad location" of Halifax and Quebec; a harbor which at times has not twenty seven feet of water in it, talking of the "natural disadvantages" of other ports, and advancing these as a

BOILS ALL OVER HIS  
FACE AND NECK

BURDOCK BLOOD BITTERS  
DID FOR HIM  
WHAT FOUR DOCTORS  
FAILED TO DO

KREWEATIN, ONT., July 25th, 1906.  
Messrs. THE T. MURPHY CO., LTD.,  
TORONTO, ONT.

DEAR SIR:—I am writing to let you know what Burdock Blood Bitters has done for me. I am a young man, twenty years old, and a year ago last March I began to feel dull and sick, and was greatly troubled with boils coming out on my face and neck, mostly on the left side. I would not consider it of one that I would have, perhaps, two or three more appear.

I had four doctors trying to cure me but they had very little success. They would stop them for a month or six weeks and then they would be as bad as ever again.

Most every patent medicine, advertised to cure boils, I could get hold of, I tried, but still without success. At last one day, last spring, someone happened to say, "why not try taking Burdock Blood Bitters for the blood?" I was willing to try anything and immediately sent for a bottle, but at the time was doubtful if it would be of any use. However, I used that bottle and while I was taking it I began to feel better, although I still kept having a few boils but not nearly such bad ones. I did not miss any work, whatsoever, I used to miss sometimes a week out of every month. I kept on taking the medicine until I had taken six bottles, and needless to say, I was not sorry I did so when I tell you I have not had a boil appear for the past three months. Every body was surprised when they heard that Burdock Blood Bitters had done for me what four doctors failed to do. If any sufferers are afflicted with boils, I would strongly advise them to use B.B.B. It makes you feel like a new man. I always keep a bottle in the house, now, as I think it is a medicine that should be in every household.

Yours truly,  
HENRY A. SMITH.

reason why they should despair of acquiring passenger traffic which may go to New York, but will not, and cannot go to Montreal.

As for freight, there is no good end to be gained by indulging in petty rivalry about it, and attempting to secure it all by degrading other ports. There ought to be ample sufficient for every port, if we can only prevent its diversion to those in the United States. It would be more both to the common and to the individual interest to join our united efforts to the attainment of this end. It is true, as the Gazette says, that Sir Thomas Dhaughnessy told the people of Quebec at the banquet tendered him last Saturday evening, the shipowner cannot afford to pay the cost of hauling his cargo 170 miles to Quebec by rail when he can carry it himself for a pittance at that charge. Nor is there any more possibility of freight being carried from Depot Harbor or some other Georgian Bay port to Quebec, as some Ontario newspapers have within the last few days ventured to predict. But that was merely Sir Thomas Dhaughnessy's opinion, worthy of respect indeed, coming from such a practical business man, but not borne out by the facts. It is well known that for a long time the Grand Trunk has been in the habit of carrying freight past Montreal to Portland and Boston; that in our own district it has been carrying lumber and pulpwood to the same ports from Megantic and elsewhere when Quebec was the nearest shipping point; that it has even been attempted to acquire freight from other sources near Quebec. The Quebec Central, in its annual report to its shareholders which we had occasion to notice last week, speaks of the accumulations of lumber and pulpwood at its stations in this Province which it proposes to carry to New York, and not to Quebec. If Sir Thomas Dhaughnessy's statement be absolutely correct, if it be true, as the Montreal Gazette says, that freight will not stick to the rail when it can secure adequate water carriage, how are these facts, which are notorious, to be accounted for?

## THE GLOBE AND MR. PRESTON.

So long as the Toronto Globe thought that the Government was in no imminent danger, and that the grafting at which it has, to say the least of it, winked could be successfully covered up, it stood upon the high moral platform and delivered lectures on the wickedness of corruption and the advantages of righteous dealing which were very edifying, and gave hopes that the organ had experienced a conversion of sin leading to repentance; but directly there is even a remote prospect of the truth leaking out about the North Atlantic Trading Co. it reverts to its old tactics, protests against the investigation being further proceeded with and besmirches the public men whom it regards as the principal actors in the stirring up of the unsavory mess. According to it Mr. George Foster and Mr. Bennett are highly improper persons who "have no reputations to lose," and are attacking Messrs. Sifton and Preston who have reputations to lose. Granting, for a moment the truth of this statement, we are unable to see its force, or to conceive why it should be held to debar the two former gentlemen from attacking the two latter, for if those need not dread the loss of reputation because they have none, these would be infinitely benefited by the loss of the reputation that they have.

Mr. Preston's testimony has not, so far, rebounded to his credit, and it has certainly placed the Government that employs him in a very disagreeable position. According to it he has been deliberately and persistently working against the Government's policy of encouraging only the immigration of those given to agricultural pursuits, and has been doing it at first officially, being, as he claims ignorant of the Governmental policy, but afterwards he continued to do so "unofficially," that is to say, through the medium of the North Atlantic Company, which, so far as appears, is composed of his relations and friends together with a certain Leopold, alias Lazarus, who ought by this time to be qualified to change his alias into Dives. Now it is needless to say that the theoretical Governmental policy is the correct one, that the mechanic and artisan, if they come here at all, should come on their own motion, and without Government solicitation or assistance, but the practical Government policy as carried out, whether officially or unofficially, by its paid agent Mr. Preston has been just the reverse, and it has been paying, what we may reasonably call Mr. Preston's company, in view of its constitution, \$5 a head for seeking out and bringing over men to compete with Canadian skilled labor. If the Government was not aware of this, it ought to have been, and it is much to its discredit that it is using every means in its power through its majorities in the two parliamentary committees to prevent investigation, and as it appears now, exposure. We do not fancy that even the Toronto

Globe will undertake to excuse or condone the action of Mr. Preston, and if it believes that the Government was in no wise a consenting party it should be grateful to the gentlemen whom it has been reviling for opening the eyes of the people at Ottawa. If, however, it does not believe this, but is privately of the opinion that the Government is as deep in the mire, then its conduct becomes intelligible.

## PRESS OPINIONS.

## WORRYING LORD STRATHCONA.

Lord Strathcona's silence is remarkable. He is the most particular correspondent in London. He goes to as many places as he can, and has always been famous for the promptness and urbanity of his replies to all and sundry. His failure to write the Canadian Society must be due to the presence of his faithful secretary, Griffith, in Ottawa, to answer the charges brought against him by Mr. Preston.

Lord Strathcona is obviously vexed by the disclosures made by Mr. Preston and others about the North Atlantic Trading Company. He has issued some statements, which look something like flat denials of knowledge of what is being done, but which may mean anything or nothing at all. It is very exasperating to have one's name mentioned in connection with such an episode, even though no accusation is made. The Government's case is that the North Atlantic Trading Company was begotten in the undefined interests of immigration, that it is not and has not been a grafting instrument, and that, therefore, nobody is compromised.

Still, the cables which some correspondents have sent from Ottawa are not favorably read in Britain, it seems. Mr. Mooney, an Irish Nationalist, will ask to-day in the House of Commons, whether, in view of the evidence given at Ottawa, the British Government will decline to hold communication with the High Commissioner for Canada. Mr. Mooney's question is an insult to this country, which the Canadians in the House of Commons will, no doubt, avenge when it is put. So far as we know, this is Mr. Mooney's first serious bid for parliamentary eminence. His serious occupation is running a long string of public houses in London—he is the chief barkeeper in Parliament. His question is a reflection upon the good taste of the profession to which he really belongs. It is intolerable in that into which he has unaccountably strayed.

There is a serious side, though, to this outburst of the unparticular Mooney. It is an illustration of the injury that is being inflicted on Canada's name through the miserable impolitics of the Ottawa Governmentalists. They are expert in making muzzles. They are so incompetent in clearing them up that the mud splashes right across the Atlantic and goes spluttering through the corridors of St. Stephen's. What imperialists they are who serve us thus!—Toronto World.

THE TURBINES.—What is the matter with the turbines? We presume that almost nobody doubts that the principle of the turbine is correct. Instead of using the expansion of the steam once, twice or thrice, it uses it continuously from start to finish, and it eliminates practically the whole engine by communicating the power direct to the shaft. The only question for engineers was how to apply the principle effectively. A dozen years ago we were told that reciprocating engines would soon go to the scrap heap. But that time is not yet. After their experience with the Victorian and Virginian turbines, the Messrs. Allan have decided to replace the stranded Bavarian with a ship fitted out with ordinary reciprocating engines. It would be interesting to learn more about the reasons for such a decision. It is said, unofficially, that the Curran and Turbiner the Carmania takes three times as long to stop and reverse as an ordinary steamer of the same size; we hear from time to time about shovelful of broken turbine blades being taken out after each voyage, and the heavy cost of replacing them; it is said to cost more to coal a turbine than an ordinary steamer, and the high speed credited at one time to turbine engines does not seem to have materialized in practice. Illustrated Shipping gives the average speed of the Victorian and Virginian at 17.14 knots, and says that the Carmania has done little if any better.—Montreal Witness.

BEATING THE RECORD.—"Sir Wilfrid Laurier," says the Galt reporter, "has beaten the record this session by defending job after job perpetrated by Liberal grafters and camp followers, to the disgust of the better element of his party. Nothing revealed has been too noxious or ill-smelling for the Premier and scandal after scandal has found him ready to take up the cudgels in behalf of the rippers and bandits who have got into the service and have no regard for the decencies of government. The shocking state of affairs lately revealed has been anything but comforting to the honest Liberals who have been grievously disappointed in the attitude their leader has assumed towards the boot-luggers. It has not been that of a high-minded statesman, but that of an opportunist prepared to justify the deeds, however rank, of men who have served his purpose at Ottawa. Laurier is going the way of Ross."

## THE INVITATION TO THE KING.

London, May 25.—In an editorial the Daily Telegraph this morning favors King Edward's acceptance of the invitation to visit Canada. The Daily Telegraph thinks the British public has not yet awakened to a full appreciation of the extraordinary interest of such an event, which would be likely also to involve a visit to Washington and perhaps New York. The newspaper recognizes that possibly there are state reasons in the way of such a visit, but urges that "Canada is a living link between the American republic and the British Empire, and that if it can be accomplished it would not be merely historic but memorable past all example in the record of royal progress. The alliance of Japan, the

## SUNLIGHT SOAP

is better than other Soaps  
but is best when used in  
the Sunlight way. Follow  
directions.

## SUNLIGHT

## WAY OF WASHING

FIRST.—Dip the article to be washed in a tub of lukewarm water, draw it out on a washboard and rub the soap lightly over it. Be particular not to miss soaping all over. THEN rub it in a tight roll, lay in the tub under the water, and go on the same way until all the pieces have the soap rubbed on, and are soiled up.

Then go away for thirty minutes or half an hour and let the "Sunlight" Soap do its work. RETURN.—After soaking the full time rub the clothes lightly out on a washboard, and the dirt will drop out; turn the garment inside out to get at the seams, but don't use any more soap; don't scald or boil a single piece, and don't wash through two suds. If the water gets too dirty, pour a little out and add fresh. If a streak is hard to wash, rub some more soap on it, and throw the piece back over the board for a few minutes.

LASTLY COMES THE RINSING, which is to be done in lukewarm water, taking special care to get all the dirty suds away, then wring out and hang up to dry.

For Woolens and Flannels proceed as follows:—Shake the articles free from dust. Cut a tablet of SUNLIGHT SOAP into shavings, pour into a gallon of boiling water and whisk into a lather. When just lukewarm, work articles in the lather without rubbing. Squeeze out dirty water without twisting and rinse thoroughly in two relays of lukewarm water. Squeeze out water without twisting and hang in the open air.

The most delicate colors may be safely washed in the "Sunlight" way.

\$5,000 REWARD will be paid to anyone who proves that Sunlight Soap contains any injurious chemicals or any form of adulteration.

5c. Buy it and follow directions. 5c.

LEVER BROTHERS LIMITED, TORONTO

entente with France, the better understanding with Russia followed by a visit to Washington and a meeting with President Roosevelt, which would be a dramatic moment, instinct with significance, sealing the reconciliation of the Anglo-Saxon races for ages to come, would make the years of His Majesty's influence more memorable and beneficent than any equal period of any previous reign."

## NEW FIRM.

Messrs. Charles Edouard Boivin, Joseph Adolphe Grenier, both commission merchants and manufacturers, and Jos. Eugene St. Laurent, manufacturer, all of this city, have entered into partnership as manufacturers of gents' and children's shirts, under the name of "Dominion Shirt Manufacturing Co."

## PALE, WEAK WOMEN

Gain New Health and Strength Through Dr. Williams' Pink Pills.

Anemia is just the doctor's name, for bloodlessness. Dr. Williams' Pink Pills for Pale People actually make new blood. Can any cure be more direct or certain? Blood is bound to cure bloodlessness. Dr. Williams' Pink Pills cure anemia just as food cures hunger. They cure Mrs. Clara Cook, a young English woman who recently came to this country from Portsmouth, England, and is at present residing at Prince's Lodge, Halifax, Co., N.S. She says: "I am an enthusiastic believer in the value of Dr. Williams' Pink Pills as a cure for anemia. I had suffered from the trouble almost from childhood, but a few years ago I developed into a severe type of the trouble. My skin was pale and waxy; my lips seemed bloodless, and my entire system was run down. I suffered from headaches, dizziness and weak spells, and my friends feared that I was going into a decline. I tried tonics and emulsions, but without benefit. Then a friend who had used Dr. Williams' Pink Pills for the same trouble advised me to try them. In a short time they began to help me and in a couple of months I was quite well, the color having returned to my face, my appetite improved and I had gained in weight. I can strongly recommend Dr. Williams' Pink Pills to all anemic girls and women."

The pale anemic person needs only one thing—new blood. Dr. Williams' Pink Pills do only one thing—they make new blood. They won't cure any disease that isn't originally caused by bad blood. But when Dr. Williams' Pink Pills replace bad blood with good blood they strike straight diseases like anemia, leucoderma and backaches, rheumatism, indigestion, neuralgia, St. Vitus' dance, kidney trouble and the secret troubles that every woman knows but none of them like to talk about even to their doctors. Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50 cents a box (six boxes for \$2.50) from the Dr. Williams' Medicine Co., Brookville, Ont.

\$4.25 FOR \$2.50.

We have just received directly from the manufacturers, 125 marine blue and black alpaca dress skirts, which we will offer for sale to-day, Wednesday. Take occasion of this offer. MARCEAU & CIE, 155 St. Joseph street.

#### FOR SALE OR TO LET.

FOR SALE OR TO LET—THE UPPER portion of a very comfortable house, No. 31 Bridge street, containing 11 large rooms, bath, gallery, and large yard, etc. Apply to No. 49 St. Louis street.

FOR SALE OR TO LET.—THAT magnificent residence formerly occupied by Mr. O. E. Talbot, is offered for sale or to rent during the summer season. All modern improvements, 12 rooms, bath room, furnace, etc. For information, apply to Joseph Lamontagne, St. Michel, Bellechasse.

AN EXCEPTIONAL OPPORTUNITY. A unique property for sale. The magnificent property, known as the Pensionnat de Notre Dame du Bon Conseil, at St. Thomas de Montmagny, on which the works of repairs and enlargement have been finished for some time, is now offered for sale. These works had been undertaken for the installation of a branch of the Convent of Notre Dame du Bon Conseil at Chicoutimi. Mr. Charles Vezeina, contractor, 117-121 Bridge street, Quebec, has through certain circumstances acquired the property, and would be disposed to sell it. It is without contradiction one of the finest establishments in the district. A pretty chapel connected with it which is a veritable gem has been built there. The establishment is provided with all the modern improvements, baths, hot and cold water everywhere, as well as electric lighting and warm water heating. A part containing a hall and drawing rooms has been specially divided off for the use of the director of the establishment and the other part contains class and study rooms and dormitories, and can accommodate between 40 and 50 boarders. The property is situated about a mile from Montmagny station. A spacious ground of two arpents by four belongs to it and a superb wood in an elevated and most healthy situation. It is a unique opportunity for a pensionnat, a religious community, a hospital, a sanatorium, or a deaf and dumb institution, etc. Apply to Mr. Charles Vezeina, 117-121 Bridge street, Quebec.

Is hereby given that the Pier at the mouth of Cap Rouge River is submerged as well as the other deep water Pier that was there up to last winter at the end of the long wharf. The position of the pier at the mouth of the Cap Rouge River is as heretofore shown by a flat buoy by day and a white light by night, and the position of the deep water Pier recently taken at the end of the Long Wharf is in a straight line with the said flat buoy and about 600 feet to the west.

### SHIPPING NEWS

#### MAKING A RECORD

Allan R.M.S. Virginian from Liverpool on 24th instant Due Here Tomorrow.

The Allan Royal Mail Steamer Virginian, Captain Vipond, from Liverpool, 24th May, and Moville, 25th, passed Cape Race at 7 p.m. yesterday. If not detained she is due at Quebec about 8.00 p.m. to-morrow (Thursday).

#### ALLAN LINE.

Steamer Pretorian, Captain Outram, having landed passengers and Quebec cargo, left for Montreal at 7.30 a.m. yesterday.

Steamer Sarmatian, Captain Rennie, from Montreal and Quebec, arrived at London on the 26th instant.

DONALDSON LINE. Steamer Parthenia, Captain Stitt, having landed Quebec cargo, left for Montreal last evening.

MANCHESTER LINE. Steamer Manchester Engineer, Captain Beggs, from Chicoutimi, arrived in port yesterday morning, and went into the Louise Basin to complete cargo.

#### THE BREAKWATER.

The work of erecting the shed for the C.P.R. steamers on the extension of the Breakwater commenced yesterday. A large number of men are engaged in the work. The greater part of the building is being brought on the ground in sections, ready to be placed in position. As soon as the floor is laid the superstructure will be run up rapidly. The filling in of the upper part of the extension is rapidly nearing completion.

WILL STAY IN CANADA. The crew of the abandoned Norwegian bark Trio, which was rescued by the Allan steamer Ionian and arrived here last Saturday evening, intend to remain in Canada. They left yesterday afternoon by the Intercolonial Railway for St. John, N.B., where they are engaged to work in a mill belonging to Mr. Nordin, a fellow-countryman.

SCHOONER LOST. Cleveland, Ohio, May 29.—Buffeted by the fierce storm that swept Lake Erie early yesterday, the schooner Mabel Wilson sprang a leak and sank just outside the Cleveland Breakwater. One sailor, whose name has not yet been learned, was drowned. Seven other members of the crew were rescued after a hard fight. The Mabel Wilson arrived off the harbor shortly before daylight, and in response to her signals, a tug went out and tried to bring her inside the harbor, but was unable to handle her because of the heavy sea. The schooner was then anchored in the hope that she might ride the storm, but the waves soon engulfed her. The Mabel Wilson was loaded with ore from Ecanaba and was owned in Detroit.

STORM ON THE LAKES. Cleveland, Ohio, May 29.—Masters of incoming vessels report the storm, which has prevailed since Saturday, of unusual violence. The captain of the steamer Erin, which arrived here yesterday, reported the drowning of his second engineer, Fern Wilson, of Buffalo. Wilson went on deck Saturday night and soon afterwards he was reported missing. No trace of him could be found, and though the steamer turned about and searched in the vicinity, his body was not seen. Wilson disappeared as the steamer was passing Point Abino, which is not far out of Buffalo. The Erin reported that a heavy sea was running all the way up, and that the voyage was an exciting one. The passenger steamers from Buffalo and Detroit weathered the gale last night in safety and arrived here on schedule time yesterday morning.

#### NOTES.

An action has been entered in the Police Court by the Harbor Commission against a Montreal pilot, Mr. Laurent Gaudin, on a charge of running the steamer Virginian through the harbor at too high a rate of speed.

Steamer Orion, Captain Bernier, left port for Toronto yesterday morning.

Steamer A. M. Marshall, Captain Duncanson, from Cleveland, with a cargo of coal, arrived in port yesterday morning and moored at the Quebec & Lake St. John wharf.

Steamers Cape Breton and Finn, from Sydney, with coal, arrived in port yesterday and proceeded for Montreal.

Steamer Glifra, Captain Tvedt, arrived from Montreal yesterday afternoon, and went into Silvery Cove to load.

Steamers Symra and Hektor arrived from Montreal yesterday and proceeded for Sydney.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

Drink Beauport Lager; it is the best.

Are You Often Bilious? Read This And Learn How To Prevent Attacks.

Biliousness is merely a term applied to a condition that exists when the body is over-loaded with bile. The complexion turns yellow, eyes look dull, pimples, itching and eczema break out, headaches are even present. Biliousness has two great causes, constipation and defective liver action.

When Dr. Hamilton's Pills are taken they not only correct the bowels, but act directly on the liver, regulating its bile secretion. Unlike ordinary medicines which purge and give temporary relief, Dr. Hamilton's Pills remove the condition which causes biliousness; thus permanent cures are effected. Dr. Hamilton's Pills do cure biliousness and liver ills under all circumstances.

We prove this by the statement of Mr. Fenwick Laidington, of New Harbor, N.S., who writes: "Three months ago I had an expectation of ever getting free from periodical bilious attacks. They were preceded by dizziness and dreadful headaches. If I stooped over my head I would swim and a nauseous feeling crept into my stomach. Dr. Hamilton's Pills fixed up my liver, drove all the bile out of my blood and made me a well man in a few months. To-day I enjoy a good appetite, easy digestion, and the best of health. Dr. Hamilton's Pills did it all."

Geo. Dr. Hamilton's Pills to-day. Sold by all dealers. 25c per box or five boxes for \$1.00. By mail from W. C. Nelson & Co., Hartford, Conn., U.S.A. and Kingston, Ont.

## PAINS IN MY BACK

Mr. A. W. Switzer, of Toronto, Can., who suffered intensely from inflammation of the kidneys and bladder, cured by Warner's Safe Cure.

A trial bottle of Warner's Safe Cure, the great kidney and bladder cure, sent ABSOLUTELY FREE to every reader of the Chronicle who suffers from kidney, liver, bladder or blood disease.

IT WAS MY KIDNEYS. Thousands of men and women have kidney disease and do not know it until it is too late.

MRS. A. W. SWITZER.

In a letter telling of her remarkable cure, Mrs. Switzer said: "In January, 1904, I was taken down with inflammation of the kidneys and bladder, and was laid up in bed for eight weeks. I had very severe pains across the back and kidneys and in the legs. I also had a terrible burning sensation in the affected parts. The doctor could not aid me. He told me frankly he thought there was no hope and that I could not be cured. He proposed an operation, but I remembered reading of the remarkable cures effected by Warner's Safe Cure, and sent out for a bottle and am now as strong as before I was taken sick. My cure is complete and I fully believe Warner's Safe Cure saved my life. I cannot say too much in its favor, and gladly make this statement, that others may know and be benefited."—MRS. A. W. SWITZER, 12 Wynter avenue, Toronto, Canada.

### Warner's Safe Cure

Does your back ache? Do you have scalding pains? Are you troubled with vital weakness? The answer is "Yes," your kidneys are diseased and your life is in danger. Warner's Safe Cure is the medicine that will help you. Thousands of wonderful cures attest its merit, and thousands of people voluntarily commend its use as the best and sure preventive of all forms of kidney and bladder trouble, female weakness, Bright's disease and all diseased conditions of the liver and blood.

Warner's Pills taken with Warner's Safe Cure move the bowels gently and aid a speedy cure. WARNER'S SAFE CURE is now put up in two sizes, and is sold by all druggists, or direct, at \$1.00 a bottle. Refuse substitutes containing harmful drugs, which injure the system.

TRIAL BOTTLE FREE. To convince every sufferer from diseases of the kidneys, liver, bladder and blood that WARNER'S SAFE CURE will cure them, a trial bottle will be sent, ABSOLUTELY FREE, postpaid, to any one who will write WARNER'S SAFE CURE CO., 4 Lombard St., Toronto, and mention having seen this liberal offer in the Chronicle. The genuineness of this offer is fully guaranteed. Our doctors will also send medical booklet containing descriptions of symptoms and treatment of each disease, and many convincing testimonials free to every one.

## IN AND ABOUT TOWN

### VERDICT, ACCIDENT BOARD OF TRADE

1. Case of Man Drowned at Natural Steps—Another Fatality.  
Council Meeting Yesterday Afternoon Discusses Variety of Topics.

The verdict rendered by the Coroner's jury yesterday in the inquest on the body of Norbert Trudel, one of the victims of the recent quadruple drowning accident at the Natural Steps, Montmorency Falls, was accidentally drowned.

The jury added a rider to the verdict to the effect that the Q. R. & L. & P. Co. might provide better accommodation for the men crossing to their work.

Dr. Jolicoeur, District Coroner, was notified yesterday of another accidental drowning. Joseph Levesque, 35 years old, while coming down on a raft at Black River, Lake St. John district, on Monday, was drowned. The body has not yet been recovered.

### FIREMEN'S FUND.

The Treasurer of the Firemen's Fund gratefully acknowledges the receipt of the sum of \$5 from Mrs. J. L. Wherry.

### IN MONTREAL.

The man named Gingras, who was reported missing, is in Montreal. News was received from him yesterday.

### RAISED A ROW.

The man who started a row in Charlevoix street and resisted the police, was fined \$5 and costs in the Recorder's Court yesterday.

### MR. REED'S ORGAN RECITAL.

The postponed organ recital will be played by Mr. Reed in St. Andrew's Church to-morrow evening when Mrs. A. G. Duncan and Mr. B. S. Woodley will assist as vocalists and an interesting programme will be presented.

### 36 ANNIVERSARY SERVICE OF THE Y. M. C. A. TO-NIGHT.

Rev. A. U. Marshall, one of Australia's leading clergymen, will deliver the Y. M. C. A. Anniversary Service address to-night at 8 o'clock. The public are most cordially invited to hear the celebrated speaker.

### "THEVE IS REST FOR THE WEARY."

Rest your feet and you will rest your body. Eighteen hours comfort in a 24-hour day. F. Simard & Co., Quebec.

### THE LATE CANON WAITT.

The Very Rev. Dean Williams, Rector of the Anglican Cathedral; the Ven. Archdeacon A. J. Balfour, Rev. Canon Scott, Chancellor John Hamilton, Captain Carter and Mr. Robert Campbell left yesterday for Lennoxville, P.Q., to attend the funeral of the late Rev. Canon Waitt, Principal of the University of Bishop's College, who died on Sunday last. The funeral will take place at Lennoxville this afternoon at 2 o'clock and will be attended by ministers and prominent laymen of the Anglican Church from all parts of the province.

2,000 YARDS DRESS GOODS.  
Will be offered at 39 cents valued at 60 cents, to commence to-day (Wednesday).

MARCEAU & CIE.,  
155 St. Joseph street.

### BAND ON THE TERRACE.

The R.C.G.A. band will perform on Dufferin Terrace this (Wednesday) afternoon from 3.30 to 5.30 p.m., weather permitting.

Bandmaster.

### SEE THE DISPLAY

In our show window and judge for yourself, of the wonderful value of Lawn Waist we are giving for 69c. and \$1.24.

### SYNDICATE OF QUEBEC.

### A WELL DESERVED HONOR.

To the readers of the Gazette it will be a welcome piece of news to learn that M. Pierre Georges Roy, of Lévis, editor of the Bulletin des Recherches Historiques, has been decorated by the French Government, having received the distinction by no means common—officier de l'Instruction Publique. The decoration was conferred on M. Roy by the Consul-General of France, on behalf of his Government, before his departure. On M. Roy's right to be thus honored we need not dwell. It has been our pleasure again and again to call attention to the value of the Bulletin des Recherches Historiques, which for so many years he has so ably conducted and which is a treasury of information on certain of the obscure historical questions for many of which the enquirer will seek solution in vain at any other source of knowledge. How much (apart from general supervision), M. P. G. Roy himself has contributed to the Bulletin a glance at any number of the magazine suffices to show. To his work as a genealogist his published monographs on the families of Drumbray de Salaberry, Tache, Juchereau-Duchesnay, Robert de la Morandière—this last curiously related to the birth-time of the Chateau de Ramezay—etc., bear honorable witness.—Montreal Gazette, 26 May.

### A GREAT ATTRACTION.

The Wizard Bros., in their wonderful bar performance at the Rustic Theatre, Kent House grounds, are creating a sensation. They do many startling tricks with a neatness and agility that win for them the greatest applause from the large audiences daily. Performances are given at 3.30 and 8.30 p.m. every day. Free to passengers by the railway.

### A SPLENDID BILL.

Rustic Theatre, Kent House grounds, Well Worth Visiting.

No one should miss paying a visit to the Rustic Theatre, at Kent House grounds, this week. The new programme now on the boards is a very enjoyable one, and large crowds daily are delighted by its novelty and the cleverness of the performers Barlow & Nicholson, the high class sketch artists, give a most amusing entertainment and keep their audiences in roars of laughter during the time they hold the stage. Their sketch is entitled, "A Business Proposition," and it is bright and breezy from start to finish. Then there is Richard Leggat, "the Rising Generation," who is also a talented entertainer and his work is greeted with loud applause. The Wizard Brothers give a horizontal bar performance that is sensational and thrilling. Their wonderful feats on the bars are performed with a neatness and agility that cannot be surpassed, and they must be seen to be fully appreciated.

The handsome grounds at Kent House looks most beautiful at present. The zoo is a source of great interest. The rush of water over the Falls is vast just now and the mighty torrent is a sight well worth seeing. Another pleasant feature of a visit is the nightly dancing parties in the handsome and spacious ball-room of the Kent House. Regular and commodious train service.

### DEATH OF MRS. BOVIN.

The friends of Mrs. (widow) Louis Boivin, will regret to learn of her death, which occurred yesterday. Deceased was the mother of Mr. Louis Boivin, contracting joiner, and mother-in-law of J. Paquet, of the firm of Z. Paquet, and of Hercule Lapointe, of Montreal.

### BIG TROUT IN TOWN.

Mr. Frank Stocking, Mr. Frank McNaughton and a party of friends met with splendid success a day or two ago in fishing for trout at the outlet of Lake Edward. Three of their catch exceeded three pounds each in weight, and all the fish were taken with the fly. The most successful lure were the brown hackle and a black fly. A number of people were shown specimens of the catch at Mr. Stocking's office yesterday.

### WE OFFER.

A very fine shaded tafetta silk for 48 cents, real value 75c. We solicit your visit.

MARCEAU & CIE.,  
155 St. Joseph street.

### HAVE YOU SEEN THEM?

Do you wish to enjoy life? To have a short respite from the grinding cares of daily life? Take a run down to Kent House and see the many attractions about the grounds. And don't forget the Rustic Theatre. There is an exceptionally good bill on this week. Barlow & Nicholson, in "A Business Proposition"; Richard Leggat, "the Rising Generation"; The Wizard Bros., bar performers. Dancing every week night at Kent House.

### NEPTUNE QUICK LUNCH.

Soup, steak fried potatoes, cold chicken, etc. "Amontillado Sherry." We receive oysters daily.

Y. M. C. A.

Address to Men in the Parlors Last Evening.

A conference for men was held in the parlors of the Y. M. C. A. last evening. There was a good attendance. Mr. Lindsay, president of the association, occupied the chair. The Rev. A. M. Marshall, of Adelaide, Australia, delivered an address on "Young Manhood." The revd. gentleman, who is a powerful and eloquent speaker, for an hour and a quarter held the rapt attention of his audience. His remarks left a deep impression on all who had the pleasure of hearing him. This evening Mr. Marshall will speak at the public anniversary service of the Y. M. C. A. in the Association Hall.

### Health the Prize

Most Sought For

AND TO THOUSANDS OF WEAK SICKLY PEOPLE HEALTH IS RESTORED BY

**Dr. Chase's**

**Nerve Food**

You want to be strong and healthy. Everybody does. Women as well as men.

There was a time when women prided themselves on looking pale and delicate.

That day has passed. To-day robust health is the idea. A well-rounded form, firm flesh and muscles, strength and elasticity of movement and healthful glow to the complexion—these are what all are striving for, and many are attaining their object by the use of Dr. Chase's Nerve Food.

When the blood which is taken into the body fails to supply the required amount of rich, life-sustaining blood external assistance must be sought until the system is fully restored.

Dr. Chase's Nerve Food supplies the very material which goes directly to the formation of blood, pure, health-giving blood.

Mrs. Clement Roberts, Forterville, Gaspé Co., Que., writes: "For quite a while I felt very miserable, was troubled with indigestion and had to eat appetite. I was also very weak and could not attend to any work. The doctor said I was run down but thanks to Dr. Chase's Nerve Food I am now real strong and well again. It is a pleasure to recommend so excellent a medicine."

Mrs. M. O'Brien, L'Assommoir, Que., writes: "For a long time I had the palpitation of the heart so bad that I was unable to do any work. Hearing of Dr. Chase's Nerve Food I decided to try it next after having taken six boxes of this food cure I was completely cured."

Weakness, dizziness, headache, dizzy spells, feeling of fatigue, discouragement and despondency soon disappear before the splendid restorative influence of this great medicine, and for this reason Dr. Chase's Nerve Food has become so popular: 50 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

### A MIDNIGHT BLAZE

Roof of a Building on Champlain Market Place Caught Fire.

About half-past twelve this morning a double alarm from box 45 brought the firemen to a blaze which had declared itself in the four-story building on the Champlain market place occupied on the ground floor as a restaurant by Mr. F. X. Soucy, the upper portion of the building being used as a boarding house. The fire took in the garret and broke through one of the windows in the roof, to which section of the building it was confined, but a considerable amount of damage was done to the roof before it was extinguished, and the lower flats sustained some damage by water. The double alarm from Lower Town at that hour speedily brought quite a crowd of spectators in expectation that a serious conflagration was imminent, but happily this was not the case, and the firemen got through their task after about an hour's hard work.

### MISSING MAN HEARD FROM.

The family of J. B. Gingras, who had been missing since Friday last, have received a letter from him, announcing that he was in Montreal, where he had secured a position.

### MILITARY INSPECTION.

Col. Lessard, of Toronto, Col. Buchanan and Lieut.-Col. Pelletier, of Montreal, will arrive here on Friday to take part in the inspection and review of the troops at St. Joseph de Lévis.

### CHARGED WITH FORGERY.

Isidore Louis Belliard, a Belgian, was yesterday held by the Police Court authorities to answer to a charge of forgery. The man was arrested in company with a Belgian woman named Derancour, charged with breaking the peace as a result of a row which occurred between the two women. The wife claims they threatened her. All three had been living in the Lake St. John district. Belliard disappeared from his home several days ago and upon making inquiries, the wife discovered that an amount of \$50 deposited in the bank at Roberval had been drawn. She charges that her husband forged her name to draw the money. The wife came to this city last week in search of the husband and found him with the other woman.

He finds no weal who flees all woe.

**ENGLISH FOOTBALL NOT ALL VELVET**

Crowd of 103,000 People  
Saw a Recent Game.  
When a Long Shot Lands,  
Book-Makers Have to Pay.

In a match recently played in Hampden Park, Glasgow, between England and Scotland under "soccer" rules the attendance reached the enormous total of 103,000, spectators pouring into the grounds at the rate of 1,600 a minute. Two hundred policemen were on duty, but the vast assembly was as orderly as a Quaker meeting.

In the final match for the English Association Cup, in Sydenham, London, between Everton (Liverpool) and Newcastle United, nearly eighty thousand spectators were present. About sixty thousand went by special trains from the North. Everton won by 1 goal to 0.

As a sidelight on this match it was noted how the Crystal Palace caterers provided for the crowd. They had 70,000 slices of bread, 200,000 pats of butter, 1,250 sandwich loaves of eight pounds each, 1,500 five pound loaves, 10,000 buns, 30,000 slices of cake, 13,000 scones, 3,000 pork pies, 800 gallons of milk, 100 puns of beer, 75 loins of mutton, 12,000 pounds of potatoes, 250 fowls, and last but not least, 100 barrels of beer.

Large as was the crowd, it lacked thirty thousand of the "gate" taken at the final game, in 1901.

**MONTREAL VS. ROCK CITY.**  
The Montreal and Rock City baseball teams will play their first match in the Canadian League on Sunday next, June 3rd, on Rock City grounds, Hare Point. Those who saw the Montrealers in action last Sunday, know that they can do it. The Rock City, however, has a stronger team than ever this season, and the battle will be a hot one.

**SHERING'S ADVICE.**  
Toronto, Ont., May 28.—Will Sherring was asked, "What would be your advice to Canada's young athletes," and replied: "If they intend to win let them go with the determination that brings success in every walk of life. Train faithfully, go to bed early and abstain from all intoxicating liquors. If any young man has athletic ability and he observes these very simple rules, success is assured in every branch of field or track effort."

Champion W. J. Sherring was so well pleased with the arrangements made by the local committee for the handling of the testimonial fund raised for him that he has decided to turn over to the trustees all the money that he gets from other places and have it invested with the local testimonial fund. He has handed to Ald. Eastwood, the treasurer of the fund, about \$1,100, the proceeds of his visit to Toronto, St. Catharines, and Galt. Inclusive of the Government and city grants and the amount which the champion turned over to the treasurer, the fund now amounts to about \$4,700. The total will likely be about \$8,000, as subscriptions are still coming in.

Sherring has received a couple of letters from Greece. One informed him that a large statue of Hermes, a gift from the people of Greece, was at Athens for him. He was asked to notify the writer how he wanted it shipped and what his address in Hamilton was.

**GOLF GOSSIP.**  
Here's a poser for decision by the rules committee: A competitor drove his ball into a tub half filled with water and beneath a pump near a green. This player ingeniously pumped the tub full of water, so that the ball was washed out of the tub and on to the ground, where it could be played with advantage. His opponent admiring and complacent rather than smart, omitted to count the strokes given with the pump handle. But what's the answer?

Knickerbockers for golfers are coming in again. In fact, best-dressed golfers no longer think of wearing long trousers, which, whether the turf be damp, or the rough be filled with bricky "stickers," or the ground be covered with clinging wet casts, are ever an abomination. Abroad no one thinks of golfing without a coat, but that is a matter of climate. Englishmen shed their coats in America quickly enough. But they, almost to a man, wear knickerbockers, and that's a matter of sense and adapting dress to requirements.

**VICTORY OF CAPT. GASTON.**  
At Sheephead Bay, five or six years ago, a horse got the money in a maiden race that had been played down from 300 to 10 to 1 at post time, and it was all done by the money of the piking \$1, \$2 and \$5 bettors, too. The horse's name was Captain Gaston, a Western animal. With their customary scorn of Western horses, the New York bookies had laid the handicap 300-to-1 price against Captain Gaston in costly disregard of the fact that Captain Gaston had run a bang-up second to so good a sprinter in his day as Frank Bell. The bookmakers installed a blurring plug named Knight Templar the favorite in this race at the silly figure of 6 to 5. The big bettors, playing strictly New York form, took that one, but the pikers, especially the thunders of the field, ate up the 300-to-1 on top against Captain Gaston. The infection spread all over the big ring, so that at post time Captain Gaston was chalked at 10 to 1, and few of the layers wanted to take any money even at those odds. Captain Gaston won by only about six lengths, that's all. The people behind the horse cleaned up \$200,000 on the trick in the poolroom throughout the country. There was a lot of talk among the viciously kicking book-makers after the race to the effect that Captain Gaston was a ringer, but that yelp didn't go. Captain Gaston wasn't any ringer, and he was promptly identified by scores of Western horsemen. The horse raced successfully after that in the New Orleans and other tracks.

Poor little old Boney Boy, the over-raced son of his Iron Horse sire, Blitzen, memorable for his career at the Gut, took down a race at Benning in his two-year-old form for Pa. Bradley, with 100 to 1 in the chalk, and a whole lot of hopeful folk rooting him home. A local photographer had distributed four \$10 bills on Boney Boy at the prevailing price, and when the

**CURE SICK HEADACHE.**  
Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also cure all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cure one headache.

And they would be almost priceless to those who suffer from this distressing complaint, but unfortunately their goodness does not extend here, and those who suffer from them will find these little pills valuable in many ways that they will not be willing to do without them. But after all sick headaches are not the only ones that can be cured by Carter's Little Liver Pills.

**ACHE**  
Is the name of so many ills that here is where we make a lot of talk among the viciously kicking book-makers after the race to the effect that Captain Gaston was a ringer, but that yelp didn't go. Captain Gaston wasn't any ringer, and he was promptly identified by scores of Western horsemen. The horse raced successfully after that in the New Orleans and other tracks.

Poor little old Boney Boy, the over-raced son of his Iron Horse sire, Blitzen, memorable for his career at the Gut, took down a race at Benning in his two-year-old form for Pa. Bradley, with 100 to 1 in the chalk, and a whole lot of hopeful folk rooting him home. A local photographer had distributed four \$10 bills on Boney Boy at the prevailing price, and when the

**CARTER'S LITTLE LIVER PILLS.**  
Carter's Little Liver Pills are very small and very easy to take. One or two little pills does the work of a large one and do not give or purge, but by their gentle action please all who use them. In bottles of 25 cents; 50 cents; \$1.00; by druggists everywhere, or sent by mail.

Small Pills for Small Pains.

**LACROSSE GOSSIP**

Hoobin in the Game Again—  
Caps Will Strengthen Up.

Henry Hoobin made his first appearance with the Shamrocks, this year, at the practice last night, and the directors of the club were congratulated on the fact that the whole of the senior twelve are now in training for the big match next Saturday, when the Tecumshs meet the champions in a regular league game. The only one absent was O'Reilly. For an hour Tom Moore and Ald. Tom O'Connell put the men through a fast workout. The result was a good showing of the home against the defence, Hoobin, Robinson and Brennans, Hogan and Hennessy, all pressing the attack. Hard work is to be the order of the week as it is admitted that the Shamrocks, it being earlier in the season for them to get into condition, will have to play a July game to win on Saturday. Currie was running in good style, showing the injury to his feet had been overcome. In fact, Ald. O'Connell at the close of the practice expressed his satisfaction with the improvement of the team, but added: "They will have to hustle to keep ahead of the Indians."

A double header is announced for Saturday, as previous to the senior match the intermediate Shamrocks will play the Sherbrooke team.

As the result of the Capitals' showing against Nationals Saturday, the management deems it imperative the home will have to be strengthened considerably if the team is to be a factor in the N. L. U. race. To that end it is probable the Murphy brothers, Paddy and Eddie, will be out for practice this week. Both men are experienced and clever, and it is readily seen an old head or two is needed in the coaching end of the field. The Murphys are willing to turn out and it is now but a matter of coming to terms.

The Torontos are hard at work at Rosedale in preparation for the game with Caps on June 2. There is likely to be a shake-out for this game, the indications pointing to the elimination of a couple of weak spots that evidently did not suit the management on the holiday at Ottawa. It is reported that at least two changes are contemplated on the home and one in the field. It is altogether probable that Hugh Lamb will be seen in a uniform in Saturday's game. Gilmore will also be out, as he is rapidly recovering from his recent illness.

A gentleman who has been following the team closely in their practice work, and who also witnessed the game at Ottawa, says that Manager Jimmy Murphy has a surprise up his sleeve, and that with one change on the defence he will make every team in the N. L. U. go the limit to beat him. "Those two games scheduled with the Tecumshs have been looked upon as already in the possession of Querie's Indians. But if they win them, well, to say the least, the Tecumshs, will be playing lacrosse every minute. With Lamb on the line-up Murphy will have one of the fastest teams that ever represented the Toronto Lacrosse Club."

The gate at the Island on the 24th was \$2,200. This gate has been considered one of the best in 1901, when Shamrocks played Toronto on the oval for the championship.

willing horse, that afterwards won so many races for Bradley, even going successfully over the sticks, came home about five lengths in front of the staggered field, the photographer convulsed the folks watching him by solemnly removing his new derby from his head, placing it on the grass with the greatest imaginable deliberation, and then jumping on it with all his might and main.

**Y.M.C.A. HARRIERS.**

**CITY OF QUEBEC.**

City of Quebec, District of Quebec.

BY-LAW NO. 400.

Concerning the closing at seven o'clock in use on Saturdays, of all bars, in all establishments, (Drawn up in the French Language.) At a meeting of the City Council of the City of Quebec, held at the City Hall, in the said city of Quebec, on the twenty-seventh day of May instant, (1906), in conformity to law and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting are present two-thirds of the members composing the Council of the City of Quebec, that is to say:

His Worship the Mayor and Aldermen: Barbeau, Barry, Bodard, Brunet, Campbell, Dinan, Drouin, Duquet, Fiset, Foley, Fortier, Galipeault, Hall, Hogan, Huard, Lavigne, Lemay, Letourneau, Madden, Mathieu, Messervy, Mulrooney, Picard, St. Pierre, Tanguay, Taschereau, Verret, (29), by order and enact:

It is ordained and enacted by the Municipal Council of the city of Quebec, and the said Council doth hereby by order and enact:

1. Notwithstanding the provisions of the By-Laws No. 198 of the 23rd of March, 1896, and 199 of the 16th of April, 1897, when on streets or public squares of the city, or on ground belonging to private citizens, work is proceeded with of paving in bitume, asphalt, or other substance similar thereto, the laying of which require fire to melt or boil the material required for that purpose, the boilers used and heated for that purpose may be placed on the said streets or public squares.

2. But the said boilers will not be so placed, on the streets or public places, unless if there is not in the vicinity of the said works, another spot suitable where they could be placed.

3. The said boilers shall be so placed that they will interfere as little as possible with the circulation of vehicles and passers-by, and they shall remain only just as long as is necessary for the performance of the work.

4. The fire under the said boilers must be surrounded with a fence of iron or metal as to prevent the flying of sparks, and if such fire is lighted in a public place already paved in asphalt, no fire shall be lit thereon except on a board so prepared that the pavement shall not be deteriorated thereby.

5. Any person intending to undertake a work of pavement shall first obtain a permit from the City Engineer.

6. The said City Engineer is empowered to look after the enforcement of the present By-Law by himself or his subordinates.

7. Such person having obtained from the City Engineer a permit for executing such works, shall be responsible for any damages caused by his or her action in executing such work and shall be liable to the City for damages against any claim for damages in relation with the said works.

8. Any person undertaking such works in the City without having first obtained a permit, or who shall become guilty of any infringement of the present By-Law, shall incur a penalty not exceeding twenty dollars, in default of payment thereof, an imprisonment for a space of time not exceeding fifteen days.

Attested, J. GEO. GARNEAU, Mayor.  
H. J. J. B. CHOUINARD, City Clerk.

**CITY OF QUEBEC.**

City of Quebec, District of Quebec.

BY-LAW.

To fix, determine and impose for the civic year, from the 1st day of May, 1906, to the 1st day of May, 1907, the tax or assessment on immovable property in the City of Quebec, to meet the expenses of the said city, for and during the said year.

(Drawn up in the French Language.) At a meeting of the City Council of the City of Quebec, held at the City Hall, in the said city of Quebec, on the twenty-seventh day of April one thousand nine hundred and six (1906), in conformity to law and in virtue of a By-Law passed by this Council pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present two-thirds of the members composing the Council of the City of Quebec, that is to say:

His Worship the Mayor and Aldermen: Barbeau, Barry, Bodard, Brunet, Campbell, Dinan, Drouin, Duquet, Fiset, Foley, Fortier, Galipeault, Hall, Hogan, Huard, Lavigne, Lemay, Letourneau, Madden, Mathieu, Messervy, Mulrooney, Picard, St. Pierre, Tanguay, Taschereau, Verret, (28).

Be it ordained and enacted by the Council of the City of Quebec, and the said Council doth hereby order and enact as follows to wit:

1. To meet the expense of the requirements of the civic services for the fiscal year one thousand nine hundred and six (1906) to the first day of May one thousand nine hundred and seven (1907) an assignment or tax of seventeen and one-half per cent, of the amount of the annual rent, or of the rental annual value of the property is imposed on the assessed, able immovable property in the said City of Quebec, the said assessment to be levied on vacant lots, at the rate of seventeen and one-half per cent, of the amount of the annual interest on the actual value thereof.

2. The said assessment or tax shall be entered by the assessors of the said city in the assessment books of the said city for the said year and shall be imposed, payable, levied and collected at the same time and in the same manner as the other assessments and taxes already imposed and levied in the said city.

Attested, J. GEO. GARNEAU, Mayor.  
H. J. J. B. CHOUINARD, City Clerk.

BY-LAW.

Concerning the license to be taken by certain commercial travellers, and repealing By-Laws Nos. 379 and 387. (Drawn up in the French Language.) At a meeting of the City Council of the City of Quebec, held at the City Hall, in the said city of Quebec, on the twenty-seventh day of April one thousand nine hundred and six (1906), in conformity to law and in virtue of a By-Law passed by this Council pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting are present two-thirds of the members composing the Council of the City of Quebec, that is to say:

His Worship the Mayor and Aldermen: Barbeau, Barry, Bodard, Brunet, Campbell, Dinan, Drouin, Duquet, Fiset, Foley, Fortier, Galipeault, Hall, Hogan, Huard, Lavigne, Lemay, Letourneau, Madden, Mathieu, Messervy, Mulrooney, Picard, St. Pierre, Tanguay, Taschereau, Verret, (28).

Be it ordained and enacted by the Council of the City of Quebec, and the said Council doth hereby order and enact:

1. No Commercial traveller, being in the City of Quebec, shall take orders, or sell goods in trade or other articles, on sample catalogue or price list, to persons other than merchants in the ordinary course of their business, before having obtained for doing so, a permit or license from the City of Quebec, which license shall be delivered by the City Clerk.

2. To obtain said license, a sum of two hundred dollars shall be paid to the City Treasurer.

3. Any commercial traveller doing said business in the city of Quebec without having obtained said license shall be liable to a fine not exceeding forty dollars, for each offence, and in default of payment of said fine and costs, to an imprisonment for a space of time not exceeding two months.

4. The present By-Law shall be enforced on the first day of May (1906).

5. By-Laws Nos. 379 and 387, passed by this Council on the 5th of December, 1902, and the 24th of July, 1903, are hereby repealed.

Attested, J. GEO. GARNEAU, Mayor.  
H. J. J. B. CHOUINARD, City Clerk.

**CITY OF QUEBEC.**

City of Quebec, District of Quebec.

BY-LAW NO. 398.

Concerning the precautions to be taken against fire in the streets where boilers are used to melt the materials used in the paving of streets in asphalt, bitumen, etc. (Drawn up in the French Language.) At a meeting of the City Council of the City of Quebec, held at the City Hall, in the said city of Quebec, on the twenty-ninth day of April one thousand nine hundred and six (1906) in conformity to law and in virtue of a By-Law passed by the Council pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting are present two-thirds of the members composing the Council of the City of Quebec, that is to say:

His Worship the Mayor and Aldermen: Barbeau, Barry, Bodard, Brunet, Campbell, Dinan, Drouin, Duquet, Fiset, Foley, Fortier, Galipeault, Hall, Hogan, Huard, Lavigne, Lemay, Letourneau, Madden, Mathieu, Messervy, Mulrooney, Picard, St. Pierre, Tanguay, Taschereau, Verret, (29), by order and enact:

It is ordained and enacted by the Municipal Council of the city of Quebec, and the said Council doth hereby by order and enact:

1. Notwithstanding the provisions of the By-Laws No. 198 of the 23rd of March, 1896, and 199 of the 16th of April, 1897, when on streets or public squares of the city, or on ground belonging to private citizens, work is proceeded with of paving in bitume, asphalt, or other substance similar thereto, the laying of which require fire to melt or boil the material required for that purpose, the boilers used and heated for that purpose may be placed on the said streets or public squares.

2. But the said boilers will not be so placed, on the streets or public places, unless if there is not in the vicinity of the said works, another spot suitable where they could be placed.

3. The said boilers shall be so placed that they will interfere as little as possible with the circulation of vehicles and passers-by, and they shall remain only just as long as is necessary for the performance of the work.

## Bowel Troubles of Childhood

It is impossible to exaggerate the value of FRUIT-A-TIVES as a medicine for children. They contain no alcohol—no morphine or cocaine—no dangerous drugs of any kind.

Fruit-a-tives are fruit juices—concentrated and combined with the most valuable tonics and internal antiseptics known to medicine.

Fruit-a-tives are free of calomel, cascara, and the best of violent purgatives that simply act by irritating the bowels. Fruit-a-tives are made from fruit and tonics and are pleasant to take, and so mild in their action that they never gripe or pain.

During the summer, when children are so apt to eat improperly, mothers should have a box of Fruit-a-tives always handy.

At the first sign of Diarrhoea, Indigestion, Headaches, Biliousness, Peevishness, Vomiting—give Fruit-a-tives according to directions. These splendid fruit liver tablets will instantly correct faulty digestion—clean and sweeten the stomach—regulate the bowels, kidneys and skin—and so invigorate and strengthen the whole system, that the little ones can quickly throw off the temporary illness.

Get a box now—today. 50c. a box or 6 for \$2.50. Sent on receipt of price, if your druggist does not handle them.

FRUIT-A-TIVES  
LIMITED,  
OTTAWA.

## RARE CLOCKS.

One Queen Anne Timepiece to Be Seen in Toronto is 300 Years Old and is Without Hands.

There are some rare old clocks in Toronto. It may interest the public to know that one man in the employ of a big jewelry firm in that city spends three days of every week in visiting private residences, business houses and factories, to wind up the big old clocks that are kept as heirlooms or curiosities in these places, and winding and regulating their old timepieces. He says that the majority of the clocks kept remarkably good time, too, when one takes into consideration the fact that they have recorded the flight of ages for so long.

## QUITE A FAD.

Call it whim or fad or fancy, or what you like, but the fact remains that many of the best and biggest families in Toronto have a penchant for rare old clocks. The latter the clock the better. If it has "dwelt in marble halls" in some age of the old and distant past, they value it so much the more. A family heirloom of this variety is treasured most carefully.

So great has this fancy grown on some of Toronto's families that it is commonly reported that they go travelling on the continent, and buy some old clock that strikes their fancy. It is then brought home and installed in the family residence. The European dealers in curiosities have learned of this, and they play on the ignorance of the buyers.

## OLD CASE, NEW WORKS.

The story goes that a Toronto man went travelling to Europe, and in a French shop he thought he had discovered a very ancient and rare specimen of a timepiece. He bought it for a good figure, and when he got back in Toronto was humiliated when

an expert on clocks informed him that he had been duped. The clock he had bought was a new one through-out—new case, new works, new everything—but it was done in the old style, and after an old design. Well, perhaps it doesn't matter much, and the uninformed may never know the difference between the old and the new, but it must make that man uncomfortable when he looks at the face of that French clock.

In one shop in Toronto at the present time there is an old clock made in the time of the good Queen Anne of England. Three hundred years old and certainly a curiosity. It is made of brass, and weights and pendulum are entirely exposed to view. The clock is not meant to be cased. It hangs on the wall, and the face and works are enclosed partially in a little box-like structure. There is no minute hand travelling around its face. Still, it has two hands, one to indicate the hours, and the other to indicate where to set the alarm. The dial is divided into quarter-hour spaces. It came to the shop of general repairs, and had to be fitted with new weights, and new pendulum, and other parts.

## HAS THREE OR FOUR.

An old gentleman living on Gloucester street has three or four old time pieces in his house, and he knows the history of them all. They have been handed down from generation to generation, and are genuine heirlooms.

Mr. E. F. B. Johnston, the well-known lawyer, when he was in Eu-

## PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. Free at all dealers or EDMANSON, BATES & Co., Toronto.

DR. CHASE'S OINTMENT.

rope some years ago, secured a very old clock of German make, and rather curious design. It has two bells on the top, and it is so arranged that the hour is struck on one bell, while the half-hour is sounded on the other. Many of the quietest old specimens of the clockmaker's art come from France. One seen recently was probably a century old, and was in the rather original globular form. Inside there was a place for a small light, probably of the power of a candle, and on the outside of the clock the hours were marked. The indicator is fixed, so that, as the globe slowly and regularly revolves, it shows the hour of the day on the transparent globe. A clock of this sort is meant more particularly for the sick room, and for the nurse, who has to give food or medicine to the patient at stated intervals, which are measured by hours.

## MADE OF WOOD.

Then, there are many old and quaint timepieces made with brass, and ornamented with tortoise shell. There are clocks made entirely of wood—these are German, and are made in the Black Forest—and it may be interesting to note that oil is never used on these wooden clocks. Black lead is the substitute, and it serves the purpose much better than oil would.

The old grandfathers' clocks that are so universally popular frequently come in for repairs. There are more of them than of almost any other type.

## FOR THE REFORMATORY.

A twelve-year-old lad named Ericot, from St. Sauveur, was yesterday sentenced to three years in the reformatory for stealing money from his grand-mother.

There are quite a number of new styles in municipal reform this spring.

St. John, 19 Dec. 1905

Messrs. BOIVIN, WILSON & CO.,

Montreal,

Dear Sirs,

I was a sufferer

from general weakness which brought on serious heart

trouble. I used VIN ST. MICHEL for four months. Now

I am in good health and my weight has increased

considerably. I recommend VIN ST. MICHEL to all young

women.

Believe me,

Yours respectfully,

MRS. ANGELINA DELAND,

49 St. Charles St.,

St. John, P.Q.

## DOMINION PARLIAMENT PRIVATE MEMBERS' DAY

Resolution for Appointment of  
a Special Insurance Enquiry

### THE INSPECTION OF HAY

Discussion on Mr. Beauparlant's Resolution  
—Mr. Borden's Motion re Crown  
Lands Enquiry.

Ottawa, May 28.—The House of Commons devoted itself to private members' business to-day.

There was a short discussion on Mr. W. F. Maclean's resolution for the appointment of a special committee to enquire into life insurance in all its phases. In the course of the talk complaint was made that the commission which the Government appointed was proceeding at too slow a rate. In reply, Mr. Fielding defended the commission, both as regards personnel and procedure, and believed it was doing its work effectively, and with reasonable speed. Mr. Fielding also defended Mr. Fitzpatrick, the superintendent of insurance, whom he spoke of as an efficient officer, whose work was done in a quiet way, but was, nevertheless, effective. In the further discussion, Mr. Fitzpatrick held that the Royal Commission could do the work required better than a committee of Parliament, as it would go to the head offices of the companies and examine their books, while the companies could hardly be expected to bring their books to Ottawa. Mr. Fitzpatrick spoke of Mr. Shepley as the best man to conduct the enquiry, which he was instructed to make a thorough one into all matters referred to the commission. Mr. Shepley was responsible for making the enquiry effective. He was also responsible for the selection of assistant counsel. Mr. Fitzpatrick mentioned that Mr. Shepley went to Albany to interview those who had taken part in the Armstrong investigation, and added that Mr. Dawson, the actuary who had been engaged for the commission, had declared that the Canadian examination had been more complete than that of the Armstrong commission. There was more talk, during which Mr. Monk upheld a parliamentary committee as the best body for enquiring into matters affecting the course of a Government. In the end the resolution was rejected.

The inspection of hay was the subject of a discussion to-night, brought on by Mr. Beauparlant, of St. Hyacinthe. He moved a resolution declaring that every person who presses hay for trade shall attach to each bale or bundle of hay so pressed, or shall print thereon, a label on which is marked, distinctly and indelibly (a) the initials of the Christian name, the full surname, and the address in full, of such person; (b) the weight of such bale or bundle; (c) an indication of the quality of the hay in one of the following marks, namely: "Choice," for hay of that quality, that is to say, of a specially faultless quality; "No. 1," for hay of a first grade; "No. 2," for hay of a second grade; "No. 3," for hay of a third grade; and that any person who, by himself, or through the agency of another person, violates any of the provisions of this act, shall, for each offence, upon summary conviction, be liable to a fine not exceeding ten dollars, together with the costs of the prosecution, and, in default of payment of such fine and costs, shall be liable to imprisonment with or without hard labor, for a term not exceeding one month, unless such fine and costs are sooner paid. The discussion was shared in by Messrs. Monk, Barr, Wright (Renfrew), Boyer, and Fisher. The latter

## Six Months in "2 in 1."

A Consulting Chemist Makes a  
Novel Experiment. An Unsolicited  
Letter that Explains Itself.

"I write to state that on account of your '2 in 1' Shoe Polish being criticised, and the charge made that it injured leather, I made this test as follows:

I mixed the contents of a box of '2 in 1' Shoe Polish, bought at a retail store from regular stock, with four ounces of water and into this mixture put a kid glove, and left the said glove in the mixture in a bottle from June 15th to December 15th, 1905—a full six months. I then took the glove out, washed it and examined it. The fine leather of the glove was not affected in the least. It was as pliable and soft as when new, and was not altered in condition, nor were the stitches affected in any way. This test, I consider, proves that '2 in 1' does not injure the finest leather.

I hereby state that these facts are correct and true.

J. M. WILLIAMS, Consulting Chemist,  
Hamilton, Dec. 15th, 1905.

was ready to accept the principle of the resolution, but desired that the bill to be founded upon it should be referred to the Committee on Agriculture. After the House had gone into committee of the whole on the resolution, Mr. Brodeur moved to strike out the sections providing for the classification of the qualities of hay and the provision for punishment. Mr. Henderson wanted the provisions to apply only to the export trade. The end was that the bill went to the Committee on Agriculture. The drift of the discussion indicated that there is little likelihood of the measure becoming law this session.

There was further talk on Mr. Sinclair's bill respecting the safety of ships, which has been amended to conform with the British law. The bill stands for further consideration.

On the motion that the House should go into committee of the whole on the bill respecting the Bell Telephone Company, Mr. Lennox, seconded by Mr. Lancaster, moved that the bill should be referred back to the Railway Committee for further consideration. This was rejected. After some talk in committee, progress was reported and the bill stands for further consideration.

Mr. Borden gave notice to-night that in the event of the House being moved into committee of supply tomorrow he will move the following amendment:

That a select committee of nine be appointed for the following purposes:—(a) To inquire into the management, addition and disposal of the Crown lands of Canada (including timber and mineral lands and all other Dominion lands), managed or controlled by the Department of the Interior. (b) To enquire whether there have been any irregular, improper, or unauthorized dealings in transactions in respect thereof, and who have been concerned therein. (c) To enquire into the practical operation of the Dominion Lands Act, and the amendments thereto, and the regulations made by virtue thereof, and whether any abuses have arisen thereunder, and (d) To report to the House upon the matters aforesaid, and whether any amendments are necessary or desirable in the said laws or regulations. That the committee have power to send for persons, papers and records, and to examine witnesses on oath or affirmation; that there be a quorum of the committee.

Mr. Fitzpatrick gives notice of an amendment to his original resolution regarding the salaries of the judges of the Manitoba Court of Appeal. The Chief Justice is to receive \$8,000 and the three puisne judges each \$7,000.

Sir Fred K. Borden gives notice of a resolution declaring that time served in His Majesty's regular forces may be counted for the purpose of any regulations with regard to pay and allowances in the case of non-commissioned officers and men transferred to the permanent force in connection with the taking over of Halifax and Esquimaux.

Mr. Carney will move to amend the Royal Bank Bill that the transfer of the head offices from Halifax to Montreal must be sanctioned by a two-thirds vote of the shareholders present at the annual meeting.

### THE THANKS OF THE PRINCE.

Before leaving Canadian shores the Grand Trunk presented H. R. H. Prince Arthur of Connaught with a handsome full bound Morocco Album containing a collection of views of the Grand Trunk Royal train, both exteriors and interiors and group pictures of the party at Niagara Falls and other points. Before sailing the Prince acknowledged the book and expressed his thanks in the following letter from Captain Wyndham, enquirey to His Royal Highness, to Mr. Chas. M. Hays, Second Vice-President and General Manager:

"Dear Mr. Hays: 'I am desired by Prince Arthur of Connaught to convey to you His Royal Highness's best thanks for the very beautiful collection of photographs you have sent him, and which he will always value as a remembrance of the journey upon your railway. 'His Royal Highness hopes you will express his gratitude to all those who helped to make his journey such a very comfortable one. Prince Arthur wishes me to say that he most fully appreciates the forethought and care which was taken by all your officials, and he much hopes that he may, at some future date, have the opportunity of accepting your kind offer of travelling upon the new extension of your line to the Pacific.'"

### SPORTING SPANIELS.

"There are four different kinds of dog passing under the name of spaniel—the large water spaniel and the smaller of the same sort. Of 'land spaniels' there are two kinds (also); the one larger than the other, much stronger in the bone, but with curly waves in his hair, and the small yellow pied springing spaniel (used in pheasant and cock shooting), whose hair is rather long, soft and delicately pliable, with ears of the same description, reaching when extended beyond the point of the nose. \* \* \* The two kinds first mentioned are chiefly confined to the purposes of wild fowl shooting in moors, marshes and in the neighborhood of rivers, where ducks, wild geese, teal, coots, moor hens, dabchicks and snipe are to be found, to all of which they are particularly appropriate, not more for their indefatigable industry in finding the game than for their remarkable every obstacle to recover it and bring it to the hand when killed. \* \* \* The large springing spaniel and small cocker, although they vary in size, differ but little in their qualifications, except that the former is rather slower in action, neither catching the scent of the game so suddenly as the latter nor seeming to enjoy it with the same ecstatic enthusiasm when found. The small cocker spaniel has also the advantage of getting through the low, bushy cover with much less difficulty than the larger spaniel and does not seem to tire so soon, whatever may have been the length and labor of the day."

So wrote William Taplin in his work of 1903, "The Sporting Dictionary," but since his day we have added to his list of four spaniels three other kinds, of which there are other off-shoots—that is, for exhibition purposes, for taking a broad view, from the sporting point, we are very little better off to-day than sportsmen were in the times of our great-grandfathers and their ancestors. We have now the Irish water spaniel, the English water spaniel (almost extinct), the Clumber spaniel, the Sussex spaniel, the black and other colored field spaniels, the Springer spaniel and the cocker spaniel, each of which has an interesting history.

The spaniel is perhaps more widely known in other countries than Canada and the United States as an essentially sporting dog, for the favor it has won here is undoubtedly the pointer or the setter. Still the test of blood is in these two North American nations; but, to write generally, our Clumber, field, water and cocker spaniels are kept more for the exhibition ring than the delights of the country.

The Spaniel Club of America is the oldest spaniel club in existence, and, what is more, it is supported by gentlemen of high standing and position. It has given more cups and trophies away at shows than any similar institution, while the cockers owned by some of its members are not to be beaten in the world. That is indeed saying, or, rather, writing, a good deal, but the fact so remains. Irish water spaniels are extremely picturesque, as we know, but of these few are to be found in the east.

Coming to the Clumber spaniel, he has been called the aristocrat of the spaniel family. He is assuredly a handsome fellow, with beautiful manners. Moreover, he has always been associated with the ducal kennels of the old world since in the middle of the eighteenth century he arrived at Clumber. Workop, England, as a gift to the then Duke of Newcastle from the Duke de Noailles.

The French Nobleman made a "present of several" to the English peer, and as Clumber was, the home of the Duke of Newcastle then, as it is today, the heavy, long, low, ponderous and mute spaniel became known in Britain as the Clumber spaniel. And there are Clumbers at Clumber at this moment, while over the way at Welbeck Abbey, the magnificent seat and sporting estate of the Duke of Portland, there is a very large kennel of these excellent spaniels that have to work as hard as the hardest when cover shooting commences. Those spaniels are very little different from those depicted on a canvas painted at the end of the eighteenth century of the Duke of Newcastle, who, as before written, first owned the variety in Albion.

King Edward, undoubtedly the greatest sportsman monarch the world ever saw, has a big working team of Clumber at Sandringham. Some of these are occasionally exhibited. The Duke of Westminster is the proud possessor of a grand lot at Eaton Hall, left to his grace by his sporting uncle, and late duke, and Baron Rothschild is another big owner.

## CABINET SHUFFLING

Some Tips on Coming Cabinet Changes—Brodeur to Go on Bench?

Ottawa, May 29.—United Canada, the independent Catholic weekly, published the following editorial under the caption, "Cabinet Reorganization": "That there will be a general reorganization of the Dominion Cabinet after the present session, no one seriously doubts. The absolute destruction of the old Liberal party in Ontario—one year ago last January—is taken to mean that the people are aroused and that 'solid Quebec' may be more than offset next time by 'solid Ontario,' and other provinces, unless something is done to satisfy the younger elements, who have come to realize that most of the present cabinet only listens to wealthy grafters, many of whom were Tories up to '96, and have since become bosses of the Grit party. Patience ceases to be a virtue. The friends of the Government realize also that Government-owned newspapers have little influence with the people.

"There is scarcely any doubt but that Mr. Fitzpatrick and Mr. Brodeur will go to the Supreme Court Bench, the latter succeeding Judge Girouard, who will retire next month.

"There are certainly four, and probably six, new judges to be named in the Montreal district within a few months, the present judges retiring under the new law. The sitting M.P.'s want to be judges. It is said that Mr. Henri Bourassa, M.P., could have his choice of these if he desired to leave public life, but United Canada learns that he would not, at this stage, accept any office. The names suggested as probable successors of Messrs. Fitzpatrick and Brodeur are Messrs. Bureau, Devlin, Marcell, Lemieux, Gervais, Cloran and others. Since 1896, it apparently has mattered very little who held the Quebec portfolios, but Ontario, Manitoba and New Brunswick have been dissatisfied, and are now more so than ever, notwithstanding an unorganized opposition. In the proposed reorganization it is expected on all sides, as regards Ontario, that Senator R. W. Scott and Senator Sir Richard Cartwright, and probably the Minister of Customs, Mr. Paterson, will retire from the cabinet. Who would succeed them? That is the leading question. Hon. Wm. Hart of Kingston would be the unanimous choice of the English-speaking Catholic element, and he would be equally acceptable to all the other sections, but his enormous business is increasing, and his health is not good. However, the Ontario Liberal leaders will insist, remembering that the death of the Ross Government was materially hastened by the unfortunate selection of a Catholic who misrepresented that element.

"It is expected that many important political changes will be made before the next election."

In its news columns, the same paper says: "Emanuel B. Devlin, M.P., of Aylmer, Que., will probably be the next Solicitor-General in the Dominion cabinet."

THINGS EVERY WOMAN SHOULD KNOW

First, that prevention is better than cure.

That acute pain means inflammation and calls for immediate treatment.

That every woman should have a remedy like Nerville, which has power to subdue inflammation and destroy pain at once.

Just a few drops required for earache, for toothache one application is sufficient. Neuralgia and rheumatism flee as before fire. Lumbago and Sciatica like other muscular pains are cured by a few rubbings.

No liniment so clean, so strong and comforting as Poisson's Nerville; try a 25c. bottle.

MOONEY SETTLED.

London, May 29.—In the House of Commons this afternoon John J. Mooney, Irish Nationalist, called the Government's attention to the Canadian immigration scandal and asked if the charges implicated Lord Strathcona and Mount Royal, the Canadian High Commissioner, and whether the Government proposes to sever relations with the Canadian agency in London until the matter is cleared up.

Walter Runciman, parliamentary secretary to the local government board, replied that Lord Strathcona had informed the Colonial Secretary that the charges did not implicate him in any way, either personally or in his capacity as High Commissioner. The Colonial Secretary, therefore, did not propose to make any representations to Canada on the subject.

ACCIDENT TO A TROOPER.

With a broken collar bone and several bones in his chest crushed, Trooper Turner, of C Squadron, Q.O. C.H., was brought to this city yesterday morning from the St. Joseph de Levis camp grounds by the Levis ambulance and conveyed to Jeffery Hale Hospital. While Trooper Turner is painfully hurt, his injuries are not considered dangerous. The victim of the accident was in camp at St. Joseph with the regiment and met with the accident while preparing to mount his horse for the morning ride, the animal rearing and falling on him. Dr. Delaney was summoned and arrived in short order, telephoning for the ambulance after the unfortunate young man's injuries had been temporarily attended to. Trooper Turner is an employee of the G.T.R. and resides at Hospital. News from the Jeffery Hale Hospital last evening was to the effect that Trooper Turner was progressing favorably.

MICHAEL DAVITT'S STATE.

Dublin, May 29.—Michael Davitt's condition is unchanged. Numerous inquiries have been received concerning him from the United States and other countries. John Dillon arrived from London last night and spent the entire day at the hospital. Mrs. Dillon has been at the hospital with Mrs. Davitt practically the whole time since May 27th, when the latter was taken seriously ill. Mrs. Davitt is now much better. Mr. Davitt's eldest son is in constant attendance at his father's bedside.

All bright housewives say it's best in every way.

## CIVIC MATTERS

Meeting of the Police Committee - Resignation of Sergeant Coulombe.

Ald. Bedard, presided, and those present were Mayor Garneau and Aldermen Hogan, Campbell, Fortier, Verret, Lavigne, Brunet, members of the Committee, and Aldermen Messervy, Huard, Mulroney and Daquet.

A letter was received from Sgt. Coulombe, who was appointed to his present position at the last meeting, resigning from the force, and requesting the Committee to grant him three months' salary as he had been twenty-three years in the service and had a large family.

Applications were received from Messrs. Cleophas Belleau, Emile Martel, J. McAuley, James Connolly, All. Bedford, W. Matthews, M. J. Stapleton, asking for positions on the police force.

Letters were also received from Jos. Ouellette and Jos. Gagnon applying for the position of inspector.

The question of appointing a man to replace Constable Power was then up. Matthews and Connolly were brought in before the Committee, the former is only a resident of this city since one and a half month, while Connolly is a native of this city and speaks French very fluently.

Deputy Chief Walsh explained that Stapleton, one of the applicants, resigned from the force four years ago, but was a very efficient man and one of the best men on the force while in the service.

Mayor Garneau remarked that the choice was apparently between Messrs. Connolly and Stapleton.

Ald. Campbell proposed Mr. Stapleton, seconded by Ald. Lavigne.

Ald. Hogan proposed McAuley, but the Committee were all in favor of Stapleton who secured the position.

Sergeant Coulombe's resignation from the force, was accepted, but no salary was granted him.

In answer to Mayor Garneau, Chief Trudel informed the Committee that Sergt. Auclair, who is a former baker, has up to date seized bread under weight and the same is distributed to charitable institutions. Besides Sergt. Auclair, Constable Beaulieu also served his time as a baker.

Ald. Verret was of opinion that a baker who sold bread under weight should lose his license and Mayor Garneau remarked that in future bakers who sold bread under weight would be summoned before the Recorder's Court.

His Worship asked the Chief if Sergt. Auclair and Constable Beaulieu could report as to hygienic qualities of the bread distributed to the citizens and Chief Trudel replied that as ex-bakers they would probably be in a position to do so but it would require all their time to visit bakeries daily.

Ald. Brunet and Verret complained that certain baking establishments were anything but clean.

Mayor Garneau remarked that if the tables and floors of a bakery were clean, it must be admitted that cleanliness existed in those establishments. He suggested that the Health Committee should have rules laid out as to the way bakeries should be kept and that such rules be distributed to all local bakers.

Alderman Verret brought up the matter of children placing torpedoes on the street and in several cases them to explode thereby frightening women and in some cases.

The police was instructed to get means to abate this nuisance and arrest anyone caught in the act.

Alderman Messervy again drew attention to the throwing of papers on the streets and His Worship the Mayor instructed the Chief of Police to have the by-law in connection with this matter rigorously enforced.

The Police Committee also decided that in future all applicants for positions on the force will have to produce their baptismal certificates and that the by-law existing in this matter must be carried out.

TOOK DEPUTY'S HORSE.

Three boys appeared in the Recorder's Court yesterday on a charge of taking Deputy Chief Walsh's horse and rig and going for a drive without his permission. They took the horse away from where it had been left standing in the street, while the Deputy Chief was absent on business. He caught the trio later, but two jumped from the rig and escaped. One, however, continued the ride with the Deputy to the station. The names of the others were secured and all three were severely reprimanded yesterday by the Recorder.

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption. Poorly fed the body is left standing free to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. Y.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the names of the ingredients on the wrapper of every bottle sold gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it in a class by itself, bearing as it does upon every bottle wrapper The Badge of Honesty, the full list of its ingredients.

The "Golden Medical Discovery" cures weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowels and all catarrhal affections no matter what parts of organs may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Much imitated but never equalled. Sugar-coated and easy to take as candy. One to three a dose.

## F. SIMARD & CIE.

A Week of 25 P.C. Reduction Sale
