

## RURAL SCHOOL PROBLEM DISCUSSED

Serious Questions Confronts Educational Bodies To-Day. President of Teachers Association Deals With Many Vital Issues. Of Great Importance That Youth of Country Should be Properly Educated. Multiplicity of Text Books, Teaching of Agriculture, Uniform Course of Study Touched Upon

The Art Hall was crowded with delegates at the opening of this morning's session of the Teachers' Convention. The experiment of holding the Convention in Sherbrooke has proved very successful and has been the means of securing a large attendance of rural teachers, which Montreal could not attract, 100 out of 115 rural teachers were present.

### RESOLUTION COMMITTEE.

The first business was the appointment of a Resolution Committee consisting of Mr. Lockhart, Mr. Bain, and Miss Gale.

Mr. Robert gave another lesson in French, Superior School, Elementary School and Kindergarten School questions were dealt with at the Art Hall, High School and Central. This was one of the features of the morning's proceedings.

### AFTERNOON SESSION.

The Art Hall was crowded at two o'clock when the afternoon session was opened. Over two hundred delegates had registered and there was a large attendance of interested visitors.

### NOMINATIONS.

After the routine business had been transacted, nominations for officers and executive committee were received as follows:

President—Mr. McBurney.  
Vice-President—Inspector Parker.  
Miss Ada James, Prof. J.A. Dale, M.A., Mr. Adams, Miss Gale, Miss Lawless.

Recording Secretary—Mr. T. I. Pollock, B.A.

Corresponding Secretary—Miss Gale.

Treasurer—Mrs. Irwin.

Curator of Library—Mr. Watson Bain, M.A.

Rep. of Protestant Committee—Mr. E. M. Campbell, Miss Lawless Miss Gale.

Pension Commissioners—Mr. Cockfield, Mr. Hopkins.

Executive Committee—Miss Kruse, Mr. Moore, Mr. Silver, Miss Brittain, Miss Gillespie, Miss Mary Allen, Miss Robins, Mr. W. A. Kneeland, Mr. Chaik, Mr. Messenger, Mr. Lockhart, Miss A. Norris, Mr. Crutchfield, Mr. Dixon, Inspector R. H. Bacon, Miss Griggs, Miss Hendry, Miss Duffett, Miss Nunn, Miss Winn, Miss B. Grant, Mr. Adams.

The ballot boxes were kept open until one o'clock to-day and the scrutineers will report to-morrow (Saturday).

### PHYSICAL INSTRUCTION IN SCHOOLS.

The following resolution was moved by Professor Dale: "That this Convention desires to express its appreciation of the action of the Government of the Province in accepting the conditions of the Strathcona Trust whereby the teaching of physical exercises and the care of the body will be extended and improved in our schools and further to express its hope that the government will make provision so that the teachers who are expected to give this instruction may receive adequate training in special classes such as that given last July in Lacerte."

In supporting his motion Prof. Dale said that the Government of the Province had decided that physical instruction should be part of the regular curriculum of every school and they desired to strengthen their hands so that they may undertake as far as possible to give teachers already teaching such instruction as would enable them to take charge of this new work.

Mr. McBurney seconded and the motion was unanimously carried.

### LESSONS IN FRENCH.

Mr. Robert, supervisor of French in Protestant Schools in Montreal, gave the first of a series of lessons to pupils who had not previously studied French. Before giving the lesson, he stated that the question when to begin French was an important one that had not yet been satisfactorily answered. On account of its difficulty some advised beginning as late as possible, but he thought that common sense would suggest a special preparation before commencing it properly. Before erecting a building, materials were collected and tools were sharpened, and they would do well to follow that course. The materials were the sounds and the tools were the ears and speech organs. The pupil was not merely objective; they agreed that the muscles of the body should be harmoniously developed and they made a place rightly for physical instruction in the schools. They recognized that the hand and the eye should also be trained and manual training was given in the schools. The same amount of training was given to the voice in singing. The special inheritance of man

was articulate speech and should receive special attention. Great emphasis was laid on the fact that it was not enough to give names at all under any other conditions, and teachers who always insisted on getting clear speech and complete answers were always successful. The work on the sounds which should be the preliminary in the French class appeared in a special way to children of eight or nine years; it presented certain features of racial gymnastics which were fascinating and called for the quick observation of small children—a kind of work in which children excelled. The exact production of a particular sound constituted a special achievement of which children were rightly proud. These lessons were sharper than old ones and young speech organs were more flexible than old ones. Speech habits in children were not very firmly established and new ones were easily formed by those of eight or nine years and had a fine chance of becoming permanently established.

### A CLASS OF ABOUT TWELVE CHILDREN

was then arranged on the platform and Mr. Robert, by short French sentences, illustrated with motions or his hands, was successful in getting the children singly and collectively to "stand up," "sit down," "come here," "point to the wall, the floor, the window," etc. He explained the difference in the short "a" sound in the French and English languages, and on the whole the pupils formed a comprehensive and intelligent idea of what was required.

### SCHOOLROOM DECORATIONS.

The members of convention afterwards adjourned to Wesley Hall where Mr. Ortiz gave a very interesting lecture on "Schoolroom Decorations," illustrated by lantern slides of copies of the works of several great masters, with which he suggested the school walls might be covered to advantage. The hall was full and the talk was much appreciated.

### VISIT TO LENNOXVILLE UNIVERSITY.

About three hundred delegates and friends availed themselves of the kind invitation of Rev. Dr. Parrook, Principal and Vice-Chancellor of the University of Bishop's College, to visit the College and School. Six street cars and one car of the "Scout" conveyed them to their destination, where they were received by Mrs. Parrook who entertained them to tea in the common room. They were afterwards shown through the building by Dr. Parrook, Canon Ainslie, Prof. Vial and other members of the faculty and students. The fine library, lecture room and chapel were greatly admired and many stayed to Evening Session.

### THE ART HALL WAS AGAIN CROWDED

in the evening. Inspector Parker presided and amongst those present on the platform were His Worship, the Mayor, Hon. Boucher de la Bruere, Supt. of Public Instruction, Prof. Dale and Rev. G. E. Read. Apologies for inability to attend were received from Dr. Peterson and Alderman Jenckes.

### PRESIDENT'S ADDRESS ON "EDUCATIONAL PROBLEMS."

Inspector Parker commenced by saying that those Conventions afforded an opportunity for a profitable exchange of ideas, a comparison of methods in discussing school problems, a renewal of acquaintances and a sharing of enthusiasms. This year a new departure had been made in holding the Convention outside Montreal, and Sherbrooke, the metropolis of the Eastern Townships, was a happy choice as it gave the rural teachers an opportunity of attending.

Every teacher should take back to the schoolroom from that gathering something new and return to work with a higher ideal of teaching and a nobler resolve to be of real service to the pupils and the community.

### THE INADEQUATE SUPPLY OF QUALIFIED TEACHERS.

The securing of qualified teachers for the rural elementary schools was a serious problem. It was of vital importance that the youth of the country should be properly educated. The reports of inspectors of elementary schools for the past year showed that in 320 elementary schools in the Eastern Townships in 1912 there were 144 unqualified teachers and 36 with a Grade II. Academy permit. In some other parts of the Province the situation was no better. The solution was to increase the salaries of teachers so as to induce young men and women to enter the profession,

## SULZER IS FOUND GUILTY

Judgment Has Effect of Removing N. Y. Governor From Office

FINAL VOTE WAS 39 TO 18—FOUND GUILTY ON THREE ARTICLES OF IMPEACHMENT.

Albany, N.Y., Oct. 17.—The High Court of Impeachment found Governor William Sulzer guilty. This removes him from office.

Final vote 39 to 18, Sulzer losing by only two votes.

The vote came after an executive session in which a tentative agreement was reached to convict the Governor on Articles 1, 2 and 4.

His conviction on any one of these articles was sufficient basis for his removal. The articles in question were:

Article 1—The charge that the Governor made a false campaign statement to the Secretary of State.

Article 2—The charge that the Governor committed perjury in making the statement.

Article 4—The charge that the Governor advised Duncan W. Peck to swear falsely before the Fawcett committee.

WORLD LIKE MUZZLE REMOVED.

Albany, N.Y., Oct. 17.—"The muzzle of my friends, I would like to be unmuzzled myself, but Judge Herrick won't remove it until to-day."

This was the only statement which came from Governor Sulzer last night. Samuel Bell Thomas, one of Sulzer's "kitchen cabinet" delivered the message to newspapermen during the night after he and other members of the "cabinet" had taken dinner with the Governor.

## GOVERNOR FELCHER IS THREATENED

Hand of Vengeance Will Fall if Thaw is Extradited

JEROME IS GRANTED ANOTHER DELAY IN WHICH TO FILE HIS PLEA.

Concord, N.H., Oct. 17.—Governor Felcher has received threatening letters in connection with the Harry Thaw case, it became known yesterday, and the police here have been asked to take up an investigation of these.

The message was opened by State Councillor William H. Sawyer, the Governor's private secretary. It read:

"The hand of vengeance will fall upon you if you allow Harry Thaw to be extradited. You would be heeding the mandate of the wealthy but unscrupulous gentlemen who are backing William Travers Jerome."

Councillor Sawyer called up the Governor. "I've a threat letter here," he said, and read it to Mr. Felcher. The Governor immediately directed that the police be given the letter, with the postmark of the envelope, and the name with which it was signed.

"Are you worried?" Governor Felcher was asked yesterday.

"Afraid? Not at all," Mr. Felcher replied. "Threatened men live long, you know."

"What are you going to do about it?"

"Oh, let them send all the letters they want. I've received bushels of mail on the Thaw case. It comes from all over the world."

"Ninety per cent of the letters are favorable to Thaw. The writers seem to feel very strongly that Thaw is being hounded. They urge me to absolutely refuse to order his extradition."

GRANTS EXTENSION.

Governor Felcher said yesterday that he had granted Mr. Jerome a further delay. Under the present rule, Mr. Jerome had to file all his pleas by the twentieth-next Monday.

The Governor said: "That is the only fair course for me to take. I have been liberal with time thus far, and feel it is my duty to give both sides every opportunity to present their cases in the fullest detail."

PARLIAMENT WILL MEET IN JANUARY.

Ottawa, Oct. 17.—The present probabilities are that the session of Parliament will be summoned for January 8 to 15, with chances favoring the former date. Officially, however, there has been no decision.

and to make adequate provision for the training of teachers. They had an efficient Normal School which could only accommodate 165 teachers in training each year, and its capacity required doubling. The establishment of a Normal School in Montreal for the training of teachers for city schools and the modification of the curriculum of the present Normal School to meet the needs of rural schools would help the situation. Statistics showed that a very small percentage of Normal School graduates were found in rural elementary schools. A successful attempt to relieve the situation was made last summer by the establishment of a summer training school at Lacerte, under the direction of Principal McBurney and Inspector R. H. Bacon, and

## REFUTES STORY OF COWARDICE

Capt. Inch of Volturmo Denies Steerage Passengers Stories

SAYS THE CARMANIA DID ITS BEST, AS WELL AS THE OTHER SHIPS.

New York, Oct. 17.—Francis Inch, the boyish-looking Briton who commanded the burned steamer Volturmo, came to port last night, accompanied by 87 survivors, passengers and crew, of his ill-starred vessel. His story of the disaster, in which 136 lives were lost, had preceded him by wireless, but in a cabin of the Kronland, which brought him here, Captain Inch told his tale in simply-phrased and modestly-spoken detail that described more vividly than the wireless could picture the panorama of the Volturmo's last hours and the rescue of more than 500 of those they had on board.

Cowardice there was none on the Volturmo, either among officers or crew, Captain Inch said. There was no rush of seamen which made it necessary for him to warn them back with his revolver. His only weapon he left in a drawer in his cabin, and it burned with the ship. And no one on board drew a revolver. These statements he intends should refute the stories told by steerage passengers who arrived yesterday on the Grosser Kurfurst.

The Volturmo's master, besides defending his own officers and men, said he had no criticism to make of the tactics of any of the boats that stood by. "The Carmania did its best, the same as the others," he said. "There is none but praise for everyone. I didn't expect a boat could live in those seas when the Carmania and the other first few ships came up."

The Carmania, he declared, did not get near, for the Volturmo drifted faster than the crew could row. Later the Carmania sent forth six rafts, but they drifted across the Volturmo's bow and disappeared. More than that the Carmania could not do, said Captain Inch.

## MARCONI IN AUTO ACCIDENT

Was Similar to Previous One Which Cost Wireless Wizard an Eye

CHAUFFEUR DROVE CAR INTO CART BUT NONE OF THE OCCUPANTS WERE INJURED

Bologna, Italy, Oct. 17.—(Special)—William Marconi, the wireless inventor, was in another automobile accident this morning, similar to the one which cost him the loss of an eye some time ago. While motoring with his wife his motor car collided with a cart while turning a corner. The chauffeur turned quickly and caused the machine to run into a horse. The shock broke all the glass in the automobile and scattered it over the occupants, none of whom, however, was injured.

## CONNAUGHT'S ON WAY TO CANADA

Duke and Duchess With Princess Patricia Left London this Forenoon

HIS ROYAL HIGHNESS WILL RESUME HIS DUTIES AS GOVERNOR-GENERAL.

London, Oct. 17.—(Special)—The Duke and Duchess of Connaught accompanied by Princess Patricia, left London to-day for Liverpool, when they will sail to Canada on board the Empress of Britain.

The Duke will resume his duties as Governor-General on his arrival.

Many distinguished personages went to the railway station to see the royal party off.

LAST OF OFFICERS WHO TOOK PART IN CHARGE DEAD.

London, Oct. 17.—(Special)—Sir George Grenville Wombell, the last of the officers who took part in the charge of the Light Brigade at the battle of Balaklava in October 1854 died to-day at the age of 81. He was a Lieutenant in the 17th Lancers during the Crimean War and in the course of the famous charge two horses were killed under him.

WINNIPEG LADIES FOR ULSTER.

Winnipeg, Oct. 17.—After discussing the Ulster situation, the Ladies' Orange Benevolent Association decided to raise a corps of 100 fully equipped nurses to accompany the Winnipeg Orange regiment if it should be called to Ulster.

## A SURGEON'S RESPONSIBILITIES

Action Against Dr. Larose, West Shefford, Dismissed at Sweetsburg

ACTION AROSE OVER TREATMENT OF AN INJURY TO A YOUNG MAN FROM BROME

Sweetsburg, Oct. 17.—(Special)—An interesting case has been decided here by His Lordship, the Honorable Mr. Justice Lynch, which involved the liability of a medical man in the exercise of his profession.

A young man by the name of Tibbits of Brome, having accidentally cut the big toe of his right foot, with an axe, called Dr. Larose of West Shefford to attend to the injury.

The doctor reached the house a couple of hours after the accident, and after having consulted the patient, asked him if he would try to have the severed toe replaced, which was done.

For a few days it looked as if it would succeed in healing and remaining set in, and the toe had to be amputated with gangrene existing. Incisions were made but without avail, and the patient had to be removed to Montreal for an operation and the removal of two small bones of the foot. It took a long time to heal perfectly.

Afterwards suit was brought on behalf of the young man, against Dr. Larose, for over \$500 upon the ground that he ought not to have tried to replace the toe. For the defence it was alleged that the attempt was justified by medical science and was made with the consent of the party.

Several doctors were examined on both sides, and the consensus of opinion was that the treatment was possible, but difficult, and even hardly probable according to some.

The action was dismissed because no certain proof was made that the septic condition was a sure result of the treatment, and no evidence given that the doctor erred in the details or administration of the treatment.

## WINNIPEG MAN LOST \$64,000

Was the Victim of Wire-Tappers Early Last September

F. GONDORF, BELIEVED TO BE UNDER ARREST IN NEW YORK.

New York, October 17.—Frederick Gondorf, the wire-tapper, fell once more into the hands of the police yesterday when he was arrested in the criminal branch of the Supreme Court on an indictment found Wednesday charging him with swindling Duncan Steel Curry, a former controller and resident of Winnipeg, Canada, out of \$64,000. Gondorf, who is already at liberty on \$15,000 bail in a former swindling case, was arraigned before Judge Malone in part one court of General Sessions, and released in a few moments after \$10,000 bail had been furnished for his appearance to plead to the indictment.

Early last September Curry, according to the complaint on which the indictment was found, lost \$64,000 in the swindle, which he says was operated by Gondorf and another man not arrested. The victim made complaint to Deputy-Commissioner Dougherty, and when shown over the Rogues' Gallery, readily picked out Fred Gondorf as the principal in the swindle.

## START SURVEY OF NEW LINE

Effective Steps Towards Construction of St. Francis Valley Railway

ENGINEERS AT WORK ON THE PROPOSED LINE BETWEEN DRUMMONDVILLE AND MELBOURNE.

Drummondville, Que., Oct. 17.—Effective steps toward constructing the St. Francis Valley Railway, formerly known as the L'Avenir and Melbourne, were taken yesterday, when the engineers commenced the survey of the line between Drummondville and Melbourne. The charter of the company was amended at the last session of the legislature extending the line so as to reach the St. Lawrence river, and it is expected that ultimately it will be built to the city of Sorel. Subsidies have been voted by both the provincial and federal governments for the twenty-eight miles between Drummondville and Melbourne, and it is fully expected that the part of the grading on this section of the line will be made this fall. Mr. C. B. Hibbard, the vice-president of the company was in Drummondville Saturday and Sunday and completed arrangements so that the work would go forward without delay.

## 27 KILLED WHEN ZEPPELIN AIRSHIP EXPLODED IN THE AIR

Party Included the Intire Admiralty Trial Board. Was at Height of 900 Feet Over Town of Johannisthal When It Fell to Ground. Those on Board Were Crushed Beneath Burning Vessel. Many Previous Disasters to Same Type of Airship.

Berlin, Oct. 17.—(Special)—The new naval Zeppelin airship "L-11" exploded in the air near Johannisthal to-day and was completely wrecked. All of the crew were killed. Twenty-seven persons were aboard. The party included the entire Admiralty Trial Board, headed by Commander Benisch, conducting the final trials prior to the acceptance of the new craft as part of the new German aerial navy. Of the twenty-seven, only one—a member of the crew—remains alive.

### AT HEIGHT OF 900 FEET.

The airship exploded at 10.15 o'clock this morning while it was over the outskirts of Johannisthal, sailing at a height of about 900 feet. The craft fell on the main highway leading into Johannisthal, its blackened wreck of twisted aluminum framework blocking the road.

The crew was under command of Lieut. Freyer, of the Navy, and Captain Glath, one of Count Zeppelin's dirigible pilots.

The exact cause of the accident is unknown. The dirigible had just left its shed and had traversed barely a quarter of a mile in the direction of Berlin.

### PILLAR OF FLAME.

Spectators suddenly saw a mighty pillar of flames shoot from the middle of the balloon, and the next instant the craft was a mass of flames plunging to earth, burying those aboard beneath its wreckage.

### PREVIOUS DISASTERS.

Following shortly upon the disaster of September 9th last, when a similar

lar craft, just launched for the navy as "C-11," was destroyed in a hurricane with the loss of fifteen men, the news of to-day's catastrophe has caused consternation in aeronautical circles.

WAS 508 FEET LONG.

The "L-11," the latest and largest of the new craft destined for the German navy, was about 500 feet long.

### ZEPPELIN UNFORTUNATE.

The Zeppelin airships have been singularly unfortunate ever since their invention by the aged soldier-count. No fewer than seven of them have been destroyed by fire, explosion or wreck. Zeppelins I, II, and VI, met with disaster in this way, also the Deutschlands I and III, and now the L-1 and L-11, the first airships attached to the German navy, have gone.

### NOTABLE OFFICERS AMONG THE DEAD.

Berlin, Oct. 17.—(Special)—It was impossible for some time to approach the flaming dirigible, beneath which the members of the crew had been crushed and burned.

Naval Constructors Neumann and Pictler and Naval Chief Engineer Busch were among those on board.

Lieut.-Commander Behnisch was a personal friend of the Emperor. He was formerly navigating officer of the Imperial yacht Hohenzollern and later commander of the cruiser Panther.

Lieut. Freyer was formerly the personal adjutant of Prince Adalbert, one of the sons of the Emperor. He served with the Prince on board a torpedo boat, after studying with him at the naval academy.

## THOMAS CASE BEFORE THE COURT

Is Man Who Was Re-Arrested on Charge of Conspiracy

HAD PREVIOUSLY BEEN SENTENCED FOR THREE YEARS ON BURGLARY CHARGE.

The case against William Thomas, charged with conspiring to break into the Grand Trunk freight shed, was up before Judge Mulvena, in the Magistrate's Court, this morning.

Thomas is the young man who was re-arrested after having been liberated on a writ of habeas corpus taken out by Mr. Emile Rioux.

H. R. Fraser, K.C., conducted the case on behalf of the company, while the defendant was represented by Mr. Rioux.

The hearing adjourned at noon until two o'clock this afternoon.

## LAYING TRACK FOR ELECTRIC RAILWAY

Work Has Been Commenced by Company This Week at Granby

RESIDENTS EXPECT SOON TO HAVE DIRECT TROLLEY CONNECTION WITH MONTREAL.

Granby, Oct. 17.—(Special)—An electric railway for Granby will soon be an accomplished fact. The work of laying the track in the town was commenced this week and the work will be rushed to completion.

The South Eastern Railway Company are building the track, which will connect with the line they are now constructing, certain sections of which are already finished, from Montreal, St. Lambert, and other points to Granby.

The residents here expect soon to have direct communication with Montreal by electric cars.

## GREAT BRITAIN TOOK WRONG COURSE

Is Now Urged to Withdraw Moral Support From Huerta Administration

PROVISIONAL PRESIDENT'S ACTION SHOWS PRESIDENT WILSON WAS RIGHT.

London, October 17.—The London morning newspapers publish interesting editorials this morning on the Mexican situation.

The Daily Graphic, confessing that Great Britain has been betrayed into a wrong course and that President Huerta's own action has shown that the United States was right and Great Britain wrong, urges the Government to take immediate steps to withdraw its moral support from the Huerta administration.

The Morning Post thinks that President Wilson's resolve to avoid a policy of intervention will be put to a severe test, and expresses the belief that even if the powers withdraw their recognition General Huerta would still remain defiant.

If there is a Victrola in your home, they will be perfectly contented to stay indoors, when it is cold and wet outside, and listen to the splendid music and stories played by this wonderful instrument.

It solves the cold or rainy day problem of amusing the children and at the same time provides one of the most valuable parts of your children's education—the knowledge of fine music.

And don't forget that it's just as good for the grown-ups as it is for the children.

There is a "His Master's Voice" dealer in your town. Call on him and hear the Victrola to-day—and bring the children. Victrolas cost from \$20 to \$300 and are sold on easy payments (as low as \$1 per week) if desired. Victor records are 90c for 10-inch double-sided. Following the Anniversary Services of Sunday at Chalmers Church a tea was held in the basement of the Church on Monday evening. After the good things were partaken of the entire assembly adjourned to the main auditorium of the Church where they were given a good programme of music by the choir, solos by Miss Miller and Miss Penfold, and addresses by the chairman, Rev. Mr. Sinclair of Kingsbury, who presided on account of the absence and illness of Rev. Wm. Macmillan, Pastor of the local church and by Rev. Messrs. Hepburn, Craik, Dr. Kellock, McLeod and Burnett, as representing the Clergy, while Mr. P. C. Duboyce was called upon to speak for the laity and certainly had a good time upholding his portion of the programme. About one hundred and fifty dollars was realized from this tea.

#### REVIVED

Old-Time Health Eating Grape-Nuts

"I had been sick for 10 years with dyspepsia and a lot of complications," wrote a Western woman.

"An operation was advised, change of climate was suggested, but no one seemed to know just what was the matter. I was in bed three days in the week and got so thin I weighed only 80 lbs. No food seemed to agree with me."

"I told my husband I was going to try some kind of predigested food to see if I could keep from this feeling of continued hunger."

"Grape-Nuts and cream was the food I got and nothing has seemed to satisfy me like it. I never feel hungry, but have a natural appetite. Have had no nervous spells since I began this food, and have taken no medicine."

"I have gained so much strength that I now do all my housework and feel well and strong. My weight has increased 8 lbs. in 8 weeks and I shall always eat Grape-Nuts as it is far pleasanter than taking medicines." Name given by Canadian Postum Co., Windsor, Ont. Read "The Road to Wellville," in pgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## DUNHAM.

The regular meeting of the Wo-  
man's Institute will be held in the  
Town Hall on Tuesday evening, Oc-  
tober 21st. This month's meet-  
ing takes the form of an address and the  
Directors have great pleasure in an-  
nouncing that the Rev. G. H. Forde  
will give an illustrated lecture on the  
"Marvels of Minute Creation." This  
is a most interesting subject and a  
good attendance is hoped for. The  
lecture will commence at 8 p.m.  
Rev. Messrs. H. Plaisted and G. H.  
Forde visited both departments of the  
school on Friday last and gave evi-  
dence of their interest in the work  
of the teachers and scholars. At the  
half hour allotted weekly for singing  
(11.30-12) the prizes given by Miss G.  
Guillet were distributed by the Chair-  
man of the School Board to the pu-  
pils of the Elementary Grades who  
obtained highest marks in the June  
examinations. The successful ones  
were: Grade IV, Earl Covey; Grade  
III, Lucy Gilbert; Grade II, Harry  
Yeats. In accordance with the School  
Code Regulations, the Model Depart-  
ment will have Thursday and Friday  
(October 16th and 17th) as holidays  
to enable the Principal, Miss Lillian  
Plaisted, to attend at Sherbrooke the  
annual convention of the Protes-  
tant Teachers of the Province of  
Quebec. In addition to the various

for 1913.

## GRAND TRUNK HOTELS.

"The Fort Garry," Winnipeg's new  
mammoth hotel built by the Grand  
Trunk Railway is rapidly nearing  
completion and it is expected that it  
will be opened on or about December  
1st, next. The power plant of the  
hotel has been started and the work  
of furnishing is being carried on  
night and day.

A feature of this hotel is the Green  
House on the roof 14 stories above  
the ground, which is now growing  
special flowers, which will grace the  
dining room tables at the opening  
of the hotel as well as supply the  
dining rooms regularly with fresh  
cut flowers.

"The Macdonald" at Edmonton,  
another of the chain of Grand Trunk  
hotels is progressing favorably, the  
steel work on the building being up  
to the roof while the stone work is  
up 7 floors and it is anticipated by  
the contractors that the building will  
be roofed in this Fall. It is not  
expected, however, that the hotel will  
be open until the Fall of 1914.

"The Qu'Appelle" at Regina, is  
also under way and the entire space  
to be occupied by this hotel has been  
excavated and the foundation is now  
being put in so that the steel work  
can be commenced this Fall.

"The Prince Rupert" at Prince  
Rupert, B. C., another of the Grand  
Trunk Pacific hotels is also under  
way and the ground is being cleared  
for the construction of what will be  
the finest hotel on the Pacific  
Coast.

The high standard that surrounds  
the "Chateau Laurier" at Ottawa,  
the first of the Grand Trunk chain  
of hotels will be followed throughout  
in the complete chain that is now  
being built across the Continent.

ELEVATOR CAPACITY OF GRAND  
TRUNK PACIFIC RAILWAY.

At the present time there are on  
the Grand Trunk Pacific Railway in  
Manitoba 25 elevators with a capac-  
ity of 757,000 bushels. In Saskatchewan  
there are 178 with a capacity of  
5,350,000 and in Alberta 25 elevators  
with a capacity of 745,000 bushels  
giving a total capacity of 6,177,000  
bushels on the Grand Trunk Pacific  
elevators on the Prairie Provinces of  
6,822,000. In addition the capacity of  
the Grand Trunk Pacific elevator at  
Fort William (conceded to be the  
largest elevator in the world) is 5-  
750,000 bushels making a total capac-  
ity on the Grand Trunk Pacific of  
12,602,000 bushels.

## WEST BOLTON.

Miss Pearl Bacon and Mr. John  
Bacon, of Westmount, are spending  
the Thanksgiving holidays with their  
grandparents, Mr. and Mrs. I. Booth.

A CHILD'S LAXATIVE  
IS "SYRUP OF FIGS"

MADE FROM FRUIT. CAN'T HARM  
TENDER STOMACH, LIVER  
AND BOWELS.

If your little one's tongue is coated,  
it is a sure sign the stomach,  
liver and bowels need a gentle, thor-  
ough cleansing at once. When your  
child is cross, peevish. When your  
child doesn't sleep, eat or act naturally;  
if breath is bad, stomach sour, sys-  
tem full of cold, throat sore, or if  
feverish, give a teaspoonful of "Cal-  
ifornia Syrup of Figs," and in a few  
hours all the clogged-up, constipated  
waste, sour bile and undigested food  
will gently move out of the bowels,  
and you have a well, playful child  
again.

Sick children needn't be coaxed to  
take this harmless "Fruit Laxative."  
Millions of mothers keep it handy be-  
cause they know its action on the  
stomach, liver and bowels is prompt  
and sure. They also know a little  
given to-day saves a sick child to-  
morrow.

Ask your druggist for a 50-cent  
bottle of "California Syrup of Figs,"  
which contains directions for babies,  
children of all ages and for grown-  
ups plainly on the bottle. Beware of  
counterfeits sold here. Get the genuine,  
made by "California Fig Syrup  
Company." Don't be fooled!

No More  
Foot  
Troubles

The weight of your body is carried by  
the arch of the foot.

When the arch of the foot is not  
properly supported—and the muscles that  
support it are not given this required support—the  
foot tire and ache, become feverish and  
cause a strain on the limbs often making  
the whole body tired and sore. It is  
this that gives the necessary support.

The arch of the foot, where the body's  
weight is carried, needs a rest.

Let us fit a pair to your feet; try  
them for ten days, and if not satis-  
factory return to us and we will re-  
fund the price, \$2.00.

Don't jump about in pain when you  
slip on the sidewalk and get a sprain,  
or get hurt in your recreation.  
Rub in Zam-Buk. It causes pain.  
Mr. Clarence D. Black, Legal Depart-  
ment, Transcontinental Railway, Ot-  
tawa, writes: "I have used Zam-Buk  
with very satisfactory results, but I  
did not know its full value until just  
recently when I fell from a street car  
and badly sprained my ankle. I im-  
mediately applied Zam-Buk, and am  
pleased to say that it has proved in-  
valuable to me. The sprain was soon  
cured."

Bear in mind that Zam-Buk is used  
by all the famous football teams, all  
the best trainers, and all the leading  
athletes. Men who are at sport all the  
time—whose living depends upon their  
keeping "fit," find Zam-Buk the best  
way to fitness. They are the best judg-  
es. Mothers! use it when the children  
get hurt!

In addition to its use for sprains,  
stiffness, rheumatism and sciatica, Zam-  
Buk is eminently useful for skin in-  
juries and diseases. Blood-poison, festering  
sores and ulcers, etc., it quickly cures.  
Also cures cuts, burns, scalds, chapped  
hands, cold sores, varicose veins, bad  
leg eczema, ringworm, etc. All drug-  
gists and stores sell at 50c. box or  
post free for price from Zam-Buk Co.,

THE LATE LEANDER F. HUM-  
PHREY.

Dixville, Oct. 15.—(Special)—The  
death occurred on Saturday, October  
11th, 1913, at the home of Mr. and  
Mrs. Fred L. McCoy, Parker Hill, of  
Mr. Leander F. Humphrey, brother  
of Mrs. McCoy, and eldest son of the  
late B. Franklin and Mary Lane Hum-  
phrey. The late Mr. Humphrey was  
born in Barnston on May 7th, 1855,  
but for a number of years resided in  
this vicinity. For some time past  
his home was at Mt. Vernon, N.H.  
One year ago last spring, being in  
poor health, he came here, thinking  
that a change might prove beneficial.  
He spent the greater part of the sum-  
mer in camp at Lake Averill, Vt.,  
and for a time seemed to improve.  
This, however, was not lasting, and  
gradually failed until the end. Dur-  
ing his long and trying illness he  
was tenderly and patiently cared for  
by his sisters, Mrs. Fred McCoy and  
Mrs. Oscar Eggleston. Besides the two  
sisters mentioned, he leaves to mourn  
his loss a widow, two sons and two  
brothers, Messrs. Albert E. and Ed-  
gar Humphrey, of Dixville. The fun-  
eral service was held at the home of  
Mr. and Mrs. McCoy on Monday af-  
ternoon at 2 o'clock and was con-  
ducted by Pastor C. P. England, of  
the Baptist Church, who spoke com-  
forting words from the text, "Thy  
brother shall rise again." The hymns  
rendered by the choir were "Sweet  
By and By," "The Sands of Time are  
Sinking," and "Abide With Me." Mr.  
J. B. Parker acted as manager and  
the bearers were Messrs. Seymour  
McIntyre, F. B. Eggleston, A. J. Mar-  
tin and G. A. Cushing. The inter-  
ment was in the Crooker Cemetery.  
Friends from out of town attending  
the funeral were Messrs. S. B. Hum-  
phrey, Samuel Dawson and Rush  
Dawson, of Coaticook.

#### MEMORIAL TO THE LATE MISS HURD.

Much interest and admiration has  
been excited by the exquisite mem-  
orial of Kathleen Brooks Hurd,  
daughter of the late A. S. Hurd, K.  
C., and Mrs. Hurd, which has just  
been placed by the latter in the cha-  
pel of the Plymouth Congregational  
Church. The position is most appro-  
priate, as the late Miss Hurd was a  
member from her early childhood of  
the church, and Sunday School. The  
three sections of the relief are re-  
productions in plaster of a part of a  
series by Luca Della Robbia, decorat-  
ing the singing gallery in the mag-  
nificent Cathedral at Florence, and  
shows the singing boys and girls, and  
the trumpeters. It is set in an or-  
namental frame work of oak, in a  
delicate gray, and the tablet with the  
inscription has a back ground of  
gold. The setting was made up by  
Castle & Sons, Montreal.

#### HOW SHE STUDIED HER PART.

Nazimova has often been asked why  
it is she plays so many parts like  
Bella Donna. Her answer is always  
the same: "Because they fascinate  
me—because there is always a depth  
to such a woman's character to  
study. Psychological parts hold me  
in their grip like a vise." When Mr.  
Frohman proposed the Fagan adap-  
tation of Robert Hichens' famous no-  
vel, Bella Donna, as a possibility for  
a stellar vehicle, Nazimova was de-  
lighted, and she immediately began  
her study of the character. The novel  
she read through twice—the first time  
to herself, the second aloud to her  
sister. Then she copied 160 pages of  
the book, and those pages she com-  
mitted to memory. It helped her to  
get into the atmosphere. Six weeks  
she spent making a study of the  
book. Then, in order to get still  
more atmosphere and local color, Na-  
zimova read all of Hichens' stories  
in Egypt, and everything else, in  
fact, that she could find. By this  
time Madame was ready to study the  
lines of the play. Realizing that  
"Mrs. Chepstow" loved beautiful  
things, was extravagant in her taste,  
the gowning of the part was her  
next study, for Madame is one of the  
few who thoroughly understands the  
psychology of dress. Every woman's  
dress should mean something—should  
be more or less symbolic—and in her  
dressing woman oftentimes tells more  
about her real self than she thinks.  
In the gowning of Bella Donna, Na-  
zimova has done wonders, for her  
clothes are as much part of the  
character as her mannerisms or her-  
self. They are said to be wonderful  
creations. Charles Frohman pre-  
sents this distinguished Russian act-  
ress with the New York cast, and  
elaborate and artistic production in  
its entirety, at His Majesty's, Tues-  
day evening, Oct. 21st.

FINANCIAL AND  
MARKET NEWS

## DAIRY PRODUCE

COUNTRY BOARDS.  
Woodstock, Ont., Oct. 17.—At the meeting of the Board five factories boarded 1580 boxes of cheese. The

highest bid was 12½c, but no sales were made. One factory offered its make for 13½c, but there were no takers.  
Madoc, Ont., Oct. 17.—There were 670 boxes of cheese boarded. All sold 12½-16c.

BUTTER BUSINESS IS QUIET.  
Montreal, Oct. 17.—Receipts of butter were 214 packages, as compared with 214 for the corresponding date a year ago. The receipts of butter for the week so far have been 2,144 packages as against 1,702 for the

same period last week, and 1,534 for the corresponding period a year ago. There were no new developments in the local market, business being rather quiet, the demand being principally from local buyers for small lots to fill actual wants. We quote prices as follows: Finest creamery, 27½c. with 205 for the same date last to 28c; fine creamery, 27c. to 27½c; second grades, 26½c. to 26c; dairy butter, 22c. to 23c.

## CHEESE MARKET EASY.

Montreal, Oct. 17.—Receipts of cheese were 10,146 boxes, as against 8,537 for the same day last week, and 14,355 for the corresponding date a year ago. The receipts for the week so far have been 23,756 boxes, as compared with 23,017 for the same period last week, and 33,658 for the corresponding period a year ago. The tone of the market continues easy on account of the somewhat limited demand from all sources but there is no further change in prices to note. We quote prices as follows: Finest western colored, 13½c. to 13c; finest western white, 13c. to 13½c; finest eastern colored, 12½c. to 12c; good second, 12c. to 12½c.

## GOOD PRICE FOR MILK.

Fredericton, Oct. 17.—(Special)—Mr. F. A. Ayer is paying \$1.60 for cwt. of milk, and expects to pay more next month.

## COUNTRY PRODUCE.

ACTIVE DEMAND FOR EGGS.  
Montreal, Oct. 17.—Receipts of eggs were 267 cases, as compared with 740 for the corresponding date last year. The demand for eggs continues good and an active trade is doing. The tone of the market is strong, but no actual change in prices has taken place as yet. We quote prices as follows: Strictly fresh eggs 38c. to 40c; selected C. S. eggs, 30c. to 32c; No. 2 candled eggs, 21c. to 28c; No. 2 candled eggs, 21c. to 22c.

## MAPLE PRODUCE QUIET.

Montreal, Oct. 17.—Business in maple produce continues quiet owing to the limited demand, but prices show no important change. We quote prices as follows: Maple syrup, in time, per lb., 9c. to 10c; maple syrup, in wood, per lb., 7c. to 8c; maple sugar, per lb., 9c. to 10c.

## STEADY HONEY TRADE.

Montreal, Oct. 17.—A steady trade is passing in honey, the demand being fair for small lots at unchanged prices. We quote prices as follows: Clover, white honey, 15c. to 16c; dark grades, 13c. to 14c; white extracted 10½c. to 11½c; buckwheat honey, 7½c. to 8½c.

## BEAN MARKET IS QUIET.

Montreal, Oct. 17.—There is no change in beans to note, the market being quiet and steady, with new crop three-lb. pickers offering for shipment from the west at \$1.35 per bushel ex track in car lots.

## FAIR DEMAND FOR POTATOES.

Montreal, Oct. 17.—The demand for potatoes is fairly good, of which supplies are ample to fill all requirements, and prices rule steady, with sales of car lots of Green Mountains at 70c. to 75c. per bag ex track and in a jobbing way at 90c. per bag ex store.

## PROVISION MARKET

PRICE STEADY FOR HOGS.  
Montreal, Oct. 17.—There were no new developments in the live hog situation, prices being about steady owing to the smaller offerings and the good demand for the same from packers, consequently a fairly active trade was done, with sales of selected lots at \$9, and straight lots at \$8.75 per 100 lbs., weighed off cars. On account of the continued mild weather the demand for dressed hogs is only for small lots to fill actual wants, but on the whole a fair trade is passing and prices rule steady with sales of abattoir fresh-killed at \$13 to \$13.50 per 100 lbs.

Washington, Oct. 17.—(Special)—General Huerta plans to assemble the foreign diplomats in Mexico City today or to-morrow, according to the latest State Department advice, and to make a statement on the present situation.

VIOLENT EARTHQUAKE SHOCKS  
San Juan de Sur, Nicaragua, Oct. 17.—(Special)—Violent continuous earthquakes to-day shook the cities of Managua, Massaya and Granada, where the alarmed populations have deserted their houses and are huddled in the public squares and open spaces.

DUKE WILL ARRIVE OCTOBER 24.  
Ottawa, Ont., Oct. 17.—Lieut.-Col. Farquhar, secretary to the Governor General, announces officially that Their Royal Highnesses, the Duke and Duchess of Connaught and Princess Patricia, will arrive at Quebec on the Empress of Britain on or about October 24th.

Since their arrival is an informal one, there will be no official reception, no guard of honor, and no artillery salute either at Quebec or Ottawa.

The president of the choral society at La Bouverie, Belgium, who died recently, left a sum of money to a local publican to provide a barrel of beer at his funeral to enable those at the graveside to drink his health.

The world's smokers are led by the Germans, who import \$22,000,000 worth of tobacco annually. Americans come next with \$19,000,000 worth, and the inhabitants of the United Kingdom follow with \$16,000,000.

## FASHIONS FOR DOGS.

The very newest and most striking sartorial effect for dogs includes a knitted jacket, a gold necklet and a pair of patent leather shoes. Ordinary sweaters have long been fashionable for dogs, and some of the small beasts who suffer very much from the cold have been seen during the last winter with two coverings while out on promenade. The under wrap was a tight-fitting sweater, which extended to quite a distance over the animal's legs. Over this garment was worn the usual blanket coat, which was formerly considered quite sufficient as a wrap.

The fashionable small dog has always its monogrammed handkerchiefs, which are smartly tucked in the pocket of its coat or sweater. Boots to be worn when it is allowed to play in the streets or garden are also not infrequently a feature of its wardrobe. Motor goggles are considered necessary for some dogs, since they are so fond of the motor car and suffer as do human beings from wind and dust when their eyes are unprotected during a long and rapid run.—Birmingham Mercury.

levels of this movement, U.P. again being conspicuously heavy. Before long, however, support from Banking houses was put in all around the room and bears seeing this covered hurriedly. The buying of this character was more than sufficient to take care of commission house liquidation and before long prices rose a point or more in the active list above their early low levels. There has been no attempt to carry the advance further and trading has been extremely dull at higher points and prices remain fractionally above last night's close. There has been no news to affect the market in either direction. Easier conditions prevail in time money market and funds can be obtained for over the year at or near 5 per cent. Sales to noon, 208,000.

ABANDONED  
No More Men Can Be  
Brought Out of Pit Burn-  
ing In Wales

TOTAL NUMBER OF VICTIMS IS 436, AN UNPARALLELLED NUMBER FOR ENGLAND.

London, Oct. 17.—(Special)—There is no hope of bringing any more men alive out of the burning pit at Senghenydd, South Wales. As well as can now be estimated, 374 men are still entombed.

This number, with fifty-one bodies brought up, with four deaths supervening after rescue, and with the banksman and another rescuer killed, brings the total of victims to 436, an unparalleled number in this country.

Austrian Authorities Blame Company For Taking Away Military Material

MANAGER OF LEMBERG OFFICE WAS ARRESTED.

Lemberg, Austria, Oct. 17.—(Special)—A general raid of the Canadian Pacific Railway offices was made to-day throughout Galicia by the authorities, who charge that the railway company is aiding and abetting the emigration of men liable to military service.

The manager of the Lemberg office was arrested and a number of documents seized. Austria's sudden crusade against the leave-taking of army material is looked upon as an indication that the Government still believes that war may flare up over the Balkan situation.

GERMAN  
AVIATORS  
KILLED

Berlin, Oct. 17.—(Special)—Captain Haessler, Lieut. Koch and Sergeant Mante, of the German Army aviation corps, on their way from Berlin to points in Bavaria in two aeroplanes, were killed early to-day when the two machines fell to earth. Captain Haessler's aeroplane settled on a tree-top. Captain Haessler was pinned in beneath the motor. The gasoline tank of the aeroplane exploded and he was burned to death. Lieut. Koch and Sergeant Mante fell with their aeroplanes near Wuersburg and both were instantly killed.

SULZER REMOVED FROM OFFICE  
Albany, N. Y., Oct. 17.—(Special)—Governor Sulzer was removed from office to-day by the High Court of Impeachment, by a vote of 43 to 12.

ONLY SURVIVOR OF ZEPPELIN  
WRECK.

Berlin, Oct. 17.—(Special)—Lieut. Baron Von Bleul, of the Queen Augusta Grenadier Guards, was the only survivor of the wreck of the Zeppelin L-11. He was travelling as a guest of the other officers. He is terribly injured, both eyes being burned out. As he was being taken to the hospital he asked that he be shot and put out of his terrible agony.

MARRIED TWICE WITHIN FEW HOURS.

Guelph, Ont., Oct. 17.—A Guelph couple yesterday underwent the most unusual experience of being twice married, first by a Roman Catholic priest and again a few hours later by a Methodist minister.

The two were of different religious beliefs, the woman being a Protestant and the man a Catholic, and the double marriage was due to the demand of the man's relatives for a Catholic ceremony, while the bride's parents urged the necessity of a Protestant ceremony.

There is much local speculation as to the position of the pair under the Ne Temere decree.

## CLAIMS \$10,000 DAMAGES.

Montreal, Oct. 17.—Alleging that the word "anti-religious" used in an article published by L'Action Sociale, a Quebec French newspaper, when expressing its opinion of the ban placed by the church authorities upon Le Pays, of Montreal, constitutes a libel, the company which publishes Le Pays has instructed its counsel, Gonzales Desautels, to claim \$10,000 damages.

## MUTINEERS AGREE TO SAIL.

Montreal, Oct. 17.—The mutiny that started on board the Mount Temple yesterday morning came to a sudden end before Judge Lanctot yesterday afternoon, when Harry Stoeke, Arthur Boldridge and Albert Weatherly, the leaders of the mutineers, said they were willing to go back to the vessel and sail on her if His Honor decided she was seaworthy.

"Executioner to Her Majesty"  
The actual signboard of John Calcraft, the famous public executioner, who during his long term of office carried out the extreme penalty of the law on many notorious murderers, is on view in Mme. Tussaud's Exhibition. The board used to be out side Calcraft's shop. It is framed, and has crudely painted upon it, in large block letters, the following extraordinary inscription: "J. Calcraft, Boot and Shoe Maker. Executioner to Her Majesty." Surmounting the frame is the Royal Coat-of-Arms. Calcraft, who was born in 1800 and died in 1879, was executioner in London from 1825 until 1871.

BEST FOR INDIGESTION, GAS, HEARTBURN AND DYSPESIA—IT'S GREAT!  
When your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.  
Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.  
Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

## STREET RAILWAY AND UPPER TOWN

Business Men Insist on Having Cars Run on King Hill

SERIES OF INTERVIEWS WILL APPEAR ON THIS PAGE DEALING WITH SITUATION.

Merchants and business men on King Street, and in fact in all upper town, are anxiously waiting for the case between the city and Street Railway to come up. For two years past the question as to whether or not the city would compel the Company to run up King St. as the latter agreed in their contract, has been one of great importance to the residents of this part of the city.

A year ago quite a stir was caused when it became known that the City Attorney had been ordered to drop proceedings against the company. "Who ordered you to stop?" was the question asked by the citizens who were leading the fight to have the Street Railway run down King Hill. The City Attorney's reply was that he had been ordered to stop, but he could not recall who it was. Since that time several men "in authority" have been suspected by Upper Town residents as having been instrumental in having the case against the Street Railway dropped.

The Street Railway has refused to run up King Hill on the ground that it was a physical impossibility, and that the Public Utilities Commission would never allow them to do so on account of the danger of a car breaking away and coming down the hill.

The case has been fought out before the Council on several occasions, but nothing has been settled.

On the Upper Town page, next Friday, will be published the proposition made by the Street Railway with a view to overcoming the difficulty. This proposition was not favorably received. Next week a series of interviews with prominent Upper Town business men will be published, dealing with this proposition and the situation in general.

## NEW INDUSTRY UNDER WAY

Plant of Canadian Connecticut Cotton Mills Company

MAIN BUILDING WILL BE 112x224 - MEANS GREAT DEAL FOR SHERBROOKE.

The erection of the large plant of the Canadian Connecticut Cotton Mills Company in West Ward means more growth and expansion for Sherbrooke, and particularly Upper Town. The location of this industry means more work for hundreds of hands, many of whom will be skilled hands brought to Sherbrooke, and will make their homes in this part of the city.

The new plant is now well under way, and in a day or so the tall steel columns will be raised. The main building will be 112 feet wide by 224 feet long, and will be three storeys high. In addition to this there will be a stair tower at the south east end, 11 feet 6 by 41 ft. 4. There will also be a toilet room 24 ft. by 13 ft. 6.

The second building will be 61 x 60 and will also be 3 storeys high. The storehouse, or third building, will be 100 ft. by 100 ft. one storey high. The boiler house will be 41 ft. by 52 ft., one storey high, and will have a chimney six feet high.

The contractors, J. W. Bishop Co., of Worcester, Mass., now have a large number of men at work, and under the direction of Superintendent C. J. McKenna the work is progressing very rapidly.

## LETTERS TO THE EDITOR

OPEN LETTER TO THE PROTESTANT SCHOOL COMMISSIONERS OF THE CITY OF SHERBROOKE.

Dear Sirs,—It is recognized that a new high school is absolutely necessary if the city is to keep up with the requirements of the times or to keep within the law. According to Dr. Parmelee's interpretation of the law as regards ventilation of schoolrooms, the present condition of the school is exceedingly faulty and far below the correct standard. By actual measurements, seven out of the eleven rooms are overcrowded; one is 50 p.c. short, one 40 p.c., one 30 p.c., one 25 p.c., one 20 p.c., two just within a safe margin. This should not be. Then the danger from fire, in spite of the installation of outside fire escapes, is far from satisfactory. The lighting by windows is simply abominable and ruinous to the eyesight of the children and teachers. This I mention advisedly. Moreover, the last two objections cannot be overcome except at a cost too serious to entertain. Ergo, a new school is necessary.

The present site is admirable. None better in the city. Place the new school facing north and south, i.e., running the long side of the site from Queen to London streets well back from Portland Square, fronting to the square, and you will secure for all the rooms the best light possible. Another advantage of thus placing the school must not be overlooked, viz., that by doing so you could build half of the school while using the old schoolhouse for the time being, then by using the new half while tearing down the old school you would not interfere with the sessions of the school at all.

The question of cost and future taxes must enter into any consideration of this matter. Can it be done without any or not much of an increase of annual charges? Yes, I think so. Your financial statement for the year ending June 30th, 1913, showed a net income of \$26,554.10; your expenditures were, taking out the items for real estate acquired, \$983.92; equipment and furniture, \$1,373.04; all charges to capital account and not real expenses, \$25,176.76, yielding a credit balance of \$1,522.43 for the year's operations. Included in the above expenses is an item for interest of \$1,128.52 on bonds and current debt, equalling a rate of 4.62 p.c. Your bonds are 4 p.c. and amount to \$35,000, while your current debts are \$11,000—total of \$46,000. Add to this a new school costing \$44,000, with equipment, makes \$90,000. Note that a new school was built in Verdun for 500 scholars for \$30,000, so \$44,000 is well over the mark. If you will arrange two rooms in the basement for technical teaching, such as carpentry and iron and tin work, there is no doubt that the provincial government will assist you, and the Protestant committee will also do its share. It is not extravagant to expect that this assistance will amount to \$10,000. Thus you face a debt of \$30,000. Of this \$35,000 is your old debt at 4 p.c. interest. Arrange for the extinguishment of this by a sinking fund of 2 p.c., which will take 29 years to do, but if the amount of 2 p.c. is funded every year this 29 years will be considerably diminished. Issue bonds for \$45,000, the balance you require, at, say 5 p.c., and a sinking fund of 1 p.c., which will extinguish your debt in 37 years.

This calls for the interest charge of \$4,500 per year, being \$2,672 more interest than you paid last year. Deducting the last year's surplus leaves a balance of \$1,150 to provide for. One mill on the dollar as per last year's valuation gives you \$2,860, so that one-half mill would cover this extra charge, but even this can be partly avoided. By spreading your sinking fund over fifty years, as is allowed by the Education act, you

## ROYAL BANK FOR KING ST

Branch May be Opened at Corner of King and Peel Streets

ANOTHER EVIDENCE OF DEVELOPMENT OF UPPER TOWN.

The Royal Bank of Canada, a branch of which has recently been opened on Wellington Street, may soon open another branch in Upper Town, possibly at the corner of Peel and King Streets.

Officials of the bank have been over the ground and, it is understood, are satisfied that the prospects for development in this section of the city are most promising.

This action on the part of the Royal Bank is another sign of the healthy growth of that portion of Sherbrooke lying west of Wellington Street.

## NEW THEATRE NEARING COMPLETION.

The new theatre on King Street is nearing completion, and when in operation will be a source of pleasure to the residents of this section of the city.

Motion pictures and illustrated songs will be the attraction at this Sherbrooke's latest amusement house.

could meet this excess payment without raising the rate of taxation—a proceeding to be shunned if at all possible.

It may be objected that the running expenses would be increased by a new school, which is undoubtedly true, but these increased expenses would be, I think, fully met from two sources, viz., the increased valuation of the city properties and the increased number of fees payable by the increased number of pupils attracted to the school, not only from the city itself, but from the surrounding country places by the superior educational facilities afforded by your new school.

I am addressing this open letter to you, not because I think you are in the least unmindful of your duties for I believe you are fully seized with both the importance and the immediate necessity of doing something, but for the sake of awaking the public to the facts of the case and the better to do this I will reiterate what I wrote in March, 1912: "The ventilation is bad, the lighting is bad, the interior construction forbids easy egress in case of fire, the rooms are too small and too few. There are too many floors above the ground floor; there are no rooms for recreation, for chemical work, for the Sloyd system, for the teachers; no proper accommodation for the children's clothing; no befitting lavatory conveniences. In many respects, the principal and teachers are heavily handicapped."

Faithfully, yours,

## Old Country Knitters

are acknowledged to be the best, all the world over. For this reason we employ them to make "CEETEE" Underclothing.

"CEETEE" Underclothing is knitted on special machines entirely different in every way from ordinary machines.

It is the only Underclothing made on this style of machine in Canada.

All "CEETEE" Underclothing is made from the softest, finest Australian Merino Wool only. The wool is put through a thorough treatment of combings and scourings that removes every particle of foreign matter and leaves every strand as soft and clean as humanly possible.

"CEETEE" Underclothing is so soft that it will not irritate even an infant's skin. All joins are knitted together (not sewn) making each garment practically one piece. It has no rough spots. Every garment is fashioned automatically during the knitting to fit the human form, thus rendering it comfortable, easy to wear, and perfect fitting.

These are the reasons why "CEETEE" Underclothing is in a class by itself, and is Worn by the Best People. Sold by the Best Dealers.

## RURAL SCHOOL PROBLEM DISCUSSED

(Continued from Page 1)

those who took this course were now doing excellent work in rural schools.

MULTIPLICITY OF TEXT BOOKS.

The large list of authorized text books rendered selection very difficult. After each quadrennial revision the various school boards selected their books and on account of the different selections made, a pupil who moved to another municipality was handicapped and put to extra expense. Owing to the number of text books and the frequent changes, book-sellers complained they could not dispose of their old stock and it was sometimes difficult to persuade rural merchants to handle the books. This problem was now being considered, and the next quadrennial revision would, he thought, see its solution, as the committee in charge would recommend the best text book in each subject at a reasonable price. He recommended the amalgamation of the committee on the course of study with the sub-committee on text books and to make this new committee permanent for several years or until after the next quadrennial revision.

UNIFORMITY OF COURSES OF STUDY.

The elementary courses of study for rural, elementary and superior schools should be harmonized. The elementary course in rural schools was designed for a complete course and differed from the course in the elementary departments of superior schools. A large number of pupils from the elementary schools entered the superior school and it was frequently a difficult matter to grade them in view of the fact they were efficient in some subjects and very deficient in others.

SHORT TERM SCHOOLS.

A short term school was an injustice to pupil and teacher. No school should be in operation for less than eight months each year.

SANITATION AND VENTILATION.

Teachers and school boards should seriously consider the problems of sanitation and proper ventilation of schoolrooms. The teacher should report to the board such measures as he considered necessary for the health and comfort of the pupils in accordance with the school law and regulations, and school boards should co-operate by doing everything in their power in matters pertaining to the health of the pupils. Rural schools should have the same medical inspection as city schools.

AGRICULTURAL TEACHING.

It was often said that the little red schoolhouse on the hill taught the farmer's son to be a lawyer or preacher, but not a farmer. If the

WINNER OF SILVER SALVER

Bishop's Crossing, Oct. 17.—(Special)—The silver salver which is given by the Government every year, for the best scores made on the D.R. A. ranges, and which was won this season by Mr. L.A. Hughes, was received this week.

FORMER KNOWLTON MAN KILLED.

Knowlton, Oct. 17.—(Special)—Mrs. Ralston received word on Wednesday that her brother, Mr. Arthur Cleveland of Island Point, N. Y., had been accidentally killed by a train on Tuesday evening. Mrs. Ralston left on Wednesday for Island Point. Mr. Cleveland was formerly of Knowlton, having been station agent here.

SUTTON VILLAGE COUNCIL.

Sutton, Oct. 17.—(Special)—At an adjourned meeting of the Village Council held the present week there were present Mayor Greer and Councillors Dyer, Boright, Sord and Gendron. The work was mostly of a routine nature. Several bills for concrete work, roads and bridges were approved for payment. After a few other minor matters were disposed of the Council adjourned.

PEAT PRODUCTION AT FARNHAM INCREASING.

Farnham, Oct. 17.—(Special)—The peat industry is developing rapidly here. The company has manufactured this season the largest quantity of peat ever produced in one season on the continent of America.

The peat has been prepared by the very latest methods, and the company has succeeded in producing an article of the highest quality. It is claimed to be the only satisfactory substitute for anthracite coal, and as a heat producer, is much superior to either soft coal or wood. At the same time it is much more cleanly to handle than any kind of coal.

Many people are beginning to appreciate the excellent qualities of a peat as a fuel.

farmer's son was taught how to till the land, he would grow up to respect his father's occupation.

Agriculture was a school subject according to the school law of the Province, section 349, but at present in name only. In other countries agricultural education was making rapid progress. A large percentage of our people were interested in agriculture, to make a living, and it was an acknowledged fact that this number would be increased if instruction were given in the schools. In view of the fact that our national welfare depended largely upon agriculture, the subject was becoming more and more a science and these two factors reinforced the pressing demand for better agricultural education in the rural schools.

It was important that properly qualified instructors be obtained until the subject was developed into good pedagogical form. Macdonald College had provided a course whereby teachers trained in agriculture could obtain a teacher's certificate to teach in the public schools.

The consolidated school was the basic institution for teaching the subject, and offered opportunities for specialists to teach the rudiments of agriculture and household economy.

MAYOR HEBERT'S WELCOME.

The Mayor said that the City of Sherbrooke was highly honored by being chosen as the seat of the present convention. The proud little "Queen City of the Eastern Townships" was not altogether unworthy of the compliment, situated as it was in the very heart of the Protestant section of this Province—perched on graceful hills overlooking the St. Francis and Margat rivers. Sherbrooke and the Eastern Townships were much interested in the sacred cause of education. The mixed population, he thought, served the ends of education by creating a friendly rivalry among those having charge of the schools, and caused a healthy emulation with the pupils. He congratulated the delegates on the interest they were taking, and trusted the convention would be profitable to themselves and the children under their guidance. The role they were called to play in society was inestimable because the next generation would be to a large extent what they made them. On behalf of the citizens, he extended them a very cordial welcome, which would be renewed at any future time the city was honored by a visit from their learned and distinguished association.

REV. G. ELLERY READ.

On behalf of the School Board, Rev. Mr. Read extended a most cordial welcome. They felt they were highly honored by Sherbrooke having been selected for the deliberations upon the highest interests pertaining to the welfare of the country. The Board of Trade had carried on a great campaign in its publicity work for three or four years and they had laid great stress on the fact that Sherbrooke was the centre of a population of 200,000 and possessed unsurpassable attractions for the development of industry and social life. There was opportunity here to help to develop education, and he thought the time would come when the teachers in the Province, instead of being attracted to Montreal and Westmount after their graduation from Macdonald College, would look towards Sherbrooke as a desirable

\$9,000 FOR LAWRENCEVILLE HOTEL.  
Lawrenceville, Oct. 17.—(Special)—Mr. Brouillette has sold the hotel to Mr. Robin of Eastman. Mr. Robin takes possession immediately. The price paid was around \$9,000.

RUN OVER BY WAGON.

Adamsville, Oct. 17.—(Special)—Mr. David Gravel, of Valcourt while moving a load of furniture was sitting on top of the load when a piece of the furniture fell off, frightening the horses. Mr. Gravel was thrown under the wheels, the wagon passing over his body bruising him badly. He was able later to return to his home in Valcourt by train.

RAILWAY MAN BADLY HURT.

Richford, Oct. 17.—(Special)—Section foreman, Mr. Peck of the Central Vermont Railway fell from his handcar Wednesday afternoon, injuring his spine severely. Strenuous means had to be taken to get his spine back to place, then Mr. Peck's body was encased in a solid plaster casing or cast, which he will have to endure until the spinal column gets healed. It was considered quite a serious injury.

REVISION OF LIST CAUSE OF DISCUSSION.

West Bolton, Oct. 17.—(Special)—At a special session of the Municipal Council the Mayor, the Councillors, and Secretary Treasurer were in attendance, as well as a large number of ratepayers. The revision of the voters' list was taken up, and this caused a lengthy discussion. After careful investigation and consideration several new names were added and only one taken off. Luther Cousens asked for assistance from the Council, for one King, an Englishman without means, who was ill at his house with typhoid fever. He was granted \$1.50 per day to pay the nurse in attendance and board for the same.

35TH. ANNIVERSARY OF RICHFORD PAPER.

Richford, Vt., Oct. 17.—(Special)—Editor Chas. L. Reed of the Richford Journal celebrated the 35th anniversary of his paper on Wednesday by getting out his paper on Wednesday, one day earlier than usual. Many of the editor's friends gathered in the evening which was pleasantly passed with music, singing and discussing many matters. Bountiful refreshments were served. The gathering broke up at midnight. A purse of money was handed Mr. Reed on behalf of those present and others. Mr. Wm. Brown of Sutton, Que., was called upon to make the presentation on behalf of those present. Mr. Reed responded in a feeling and interesting manner. Dr. Scofield and one or two others addressed the gathering. The Journal first appeared on River Street in the Union Block on October 15th., 1878.

It was the policy of their school board to raise the standard of compensation to the teachers for the work they did. Teachers were in the line of a noble succession—an antiquity that antedated the apostolic succession, and they belonged to a class that in the old times had a somewhat sacerdotal character, and, indeed, to-day some of the teachers embodied in their ideals of teaching the highest functions of the true priestly character. They were working for the sake of the child's whole personality and looked upon education as affecting the fulfillment of the personality of the whole individual.

It was said that ministers were bound down by creeds of the past, but this criticism would not apply to men and women who were thoroughly alive to the needs of the day in education, for directly they were convinced that something different was required they would throw off all traditions of the past.

Some time ago a Royal Commission on Education visited different sections of Canada and foreign countries for the purpose of establishing what was needed for the educational system. The report was being considered by the Cabinet, and whatever came of it, that Commission must have originated in the need of looking forward to the future.

Vocational training was very essential; it was necessary that the child should have the power to think for himself and interpret life in relation to everything he did, as well as having the power of verbal acquisition.

In conclusion, Mr. Read believed a great many things might possibly be eliminated from the curricula if the

## CHANGING OF HIGHWAY SHELVED

Road Was to Run From Richmond to Windsor East of G. T. R.

ONE OF THE OWNERS OF PROPERTY AFFECTED MADE A DEMAND FOR \$1,000 ON COUNCIL.

Richmond, Oct. 17.—(Special)—At an adjourned meeting of Cleveland Council, Col. W. R. Stevens presided and Councillors James A. Smille, H. G. Pease, G. E. Boast, Stephen Smith and Louis Tremblay were present. At this meeting it was decided to let the winter road contracts on Thursday, the 23rd inst.

The project of changing the highway so that it would run entirely east of the Grand Trunk Railway the entire distance between here and Windsor Mills was expected to be advanced several stages at this session, but, on the contrary, no progress was made. Mr. Wm. Taylor, behind whose house the road will run, appeared before the Council and made an address, supported by Mr. T. L. Cleary, demanding reimbursement of \$1,000 damages if the highway should run behind instead of in front of Mr. Taylor's buildings.

Mr. Taylor declared that he should insist on this reimbursement to the limit of his powers, and as the Council is not looking for trouble, the whole matter was shelved until the Secretary could take up the matter with Messrs. Mackenzie and Tobin, who own the land to be utilized, and also take up the matter with the Grand Trunk Railway with a view to securing more liberal terms.

## PASSING OF GRANBY PIONEER

Mr. J. H. McCanna First to Introduce Improved Business Methods

WAS KNOWN FOR HIS UPRIGHT CHARACTER AND UNQUESTIONED INTEGRITY.

Granby, Oct. 17.—(Special)—The funeral of the late J. H. McCanna took place on Thursday afternoon. The Rev. Archdeacon Longhurst read the Church of England burial service at his late residence, Main street and the interment was in the family lot in the English cemetery. A large concourse of citizens followed the remains to the grave. Mr. E. E. Gleason conducted the funeral arrangement and the pall-bearers were Messrs. D. K. Cowley, A. Monty, A. Kent and J. G. Fuller.

In the death of Mr. McCanna an old and respected citizen of the place has passed away. The deceased who was 76 years of age, was known far and wide as a person of sterling upright character and unquestioned integrity. He was one of the pioneers of advanced and up-to-date business methods. In company with the late A. C. Savage he carried on a flourishing business in the stand now occupied by Messrs. Savage, Comptois & Co. The firm did general mercantile trade for over 20 years. Mr. McCanna retiring from active business about twenty years ago. They were the pioneers of the cigar manufacturing business since developed into the J. Bruce Payne Ltd., and had their factory in part of the fine block erected by them known as Savage & McCanna's block.

He leaves an adopted daughter, Mrs. Kitty Bray, and a nephew, Mr. Geo. H. Bolvin, M.P., who have the sympathy of the community in their loss.

child had time given to him to prepare for the work of his expected career, and he strongly supported agricultural education and a larger endowment of the schools, and upheld the teaching of manual training and domestic science. Again he welcomed them to Sherbrooke.

SUPERINTENDENT OF PUBLIC INSTRUCTION.

The Hon. Boucher de la Bruère expressed his pleasure at being present. He had several times attended previous conventions, the first one he attended being held in Sherbrooke during the same year that he received

ed his appointment as Superintendent of Education. After referring to the picturesque of Sherbrooke, he said that the first normal schools of the Province were founded in 1857 and had rendered enormous service. If the Government was granting large sums to education, the teachers were contributing their share by their work of conscientious teaching. He gave some interesting figures to show the strides education had made. The education of the child should include religion, discipline and gymnastics; the in some cases, in Germany, teachers' calling required infinite tact, patience and constant devotion to develop to the full the faculties of the pupils. During the evening solos were effectively rendered by Mrs. McKay and Messrs. Stewart and Armitage, and each responded to encores. Mr. Montgomerie was an efficient accompanist and also contributed a pianoforte solo. Gambling debts are recoverable by law in France, Spain, Venezuela and, in some cases, in Germany.
