McGill University Museum Given Possession of Colorful Figure in Mining Industry a Century Ago.

Montreal, July 6.—(P)—Seven documents referring to mining activity in Eastern Canada almost a century ago have been presented to McGill University's Redpath Museum by descendants of "Captain" Richard Oatey, once a colorful figure in prospecting in the section.

Along with the documents were a box of specimens; a set of weights and gold scales used by Oatey, who derived his courtesy title through superintending mines; two leather pouches with Indian ornamentation and made near Georgian Bay; and seven zoological reports by Sir William Logan, knighted in 1856 in recognition of his work as director.

Bitter Fighting In Full Swing On Manchoukuan-Mongolian Boundary

Moscow, July 6.—(P)—Heavy fighting was reported officially today to have been in progress for three days along the border between Japanese Manchoukuan and Russian-protected Outer Mongolia, with airplanes, tanks, artillery and infantry in action.

A communique issued by headquarters of the Mongolian-Soviet armies said about eight hundred Japanese-Manchoukuan and one hundred Mongolian-Soviet troops had been killed in the fighting, from early Monday through Wednesday. Japanese-Manchoukuan forces were said to have been repulsed in a counter-attack after invading Mongolian territory south of Lake Bor. That district on the northeastern Mongolian frontier has been the scene of sporadic border warfare since May 11.

(Soviet and Japanese accounts of the fighting have conflicted, each side reporting victories for its own forces. Foreigners arriving in Shanghai from Manchoukuan gave the first independent confirmation of heavy engagements on the disputed frontier. They said hospitals in Harbin were "filled to overflowing" with wounded Japanese. Japanese sources in Shanghai admitted Japan had suffered heavy casualties, but said the clashes had shown Japan's superiority to Russia. They added that

Albert Forster (right, standing in car beside man saluting), Nazi leader in Danzig, told his followers at a rally in the Free City of Danzig, that "this (Danzig) German population will stand together as one man in brazen faith to the Fuehrer and Germany." POSSE SEEKING FOURTH MEMBER OF THEFT RING

Bruce County Farmers Co-operate with Police in Surrounding Swamp Believed to Be Hiding Car Thief.

Walkerton, Ont., July 6.—(P)—Bruce County farmers stood guard today over a vast expanse of swamp awaiting the appearance of the last member of a gang of four alleged automobile thieves still unaccounted for.

Fifty farmers, aroused early yesterday by a wild police chase down a country road, surrounded the swamp and watched for a man said by Provincial Police to be Stephen Stetz, eighteen, brother of one of the three arrested men.

Earl Hopper, twenty-one, and Joe Stetz, nineteen, were captured by farmers yesterday after "sliding" a pair of police bullets and swimming the Saugren River. Jack Stuart, twenty, was arrested in the wreckage of one of the two cars allegedly stolen by the quartette in Toronto and Riverton, a village twenty miles west of here near Lake Huron.

Brought to the county jail here, the three were charged with breaking and entering and theft of an automobile. Two other warrants charging them with theft of Toronto cars were sworn out in Toronto.

TIENTSIN FEELING SHORTAGE OF MILK

Tientsin, July 6.—(P)—A milk and ice shortage continued today in blockaded French and British concessions here but otherwise food supplies were adequate.

In a step to bolster its tottering "federal dollar," the Japanese-sponsored provisional government at Peiping today announced exchange control measures beginning July 17 on all exports from North China.

GOODNESS GRACIOUS!

He said, at the Association convention here today, that new suits for daytime wear would be of the three-button drape type with wide, square shoulders, tapered hips and pleated trousers.

PROPHECY FULFILLED

St. Francois de Sales, Que., July 6.—(P)—Aime Lachapelle, twenty-year-old farm-hand in this Terrebonne County village fifteen miles north of Montreal, was drowned yesterday in the Jesus River shortly after jointly telling two of his employer's sons that such a thing might happen.

The boys who accompanied Lachapelle, one six and the other eight, were unable to help the farmhand when he got in difficulty in the water.

SOUTH AFRICAN GERMAN GROUP WORRIES NAZIS

Nazi Agents Find Mysterious "German Scarlet Pimpernel" in Reality Three Former Army Officers.

Johannesburg, South Africa, July 6.—(P)—Southwest African Nazi agents, seeking the identity of a mysterious "Ulrich von Hutten," known as the "German Scarlet Pimpernel," have discovered he is three other fellows.

Having sworn to capture the elusive Pimpernel and having failed through months of effort, the Nazis were unhappy to learn that "von Hutten" actually was Lieutenant Schultz, Lieutenant Steins and Carl Walter, all Arans and all organizers of an anti-Nazi front in the mandated territory.

Together the three publish and circulate "Freiheitsbriefe," an anti-Nazi pamphlet, shipping 2,000 copies at a time, always from different towns. For months they called themselves "von Hutten" then dropped their disguise because Nazi agents were demanding innocent victims.

"We volunteered in 1918 against the Russian Red army, against Polish insurgents in Upper Silesia, and today we volunteer against Hitlerian National Bolshevism," they have declared.

Death Toll In Kentucky Mountain Floods Likely To Exceed Hundred Mark

Continued Heavy Rains Throughout Eastern Kentucky Hampered Rescue Workers Searching for Bodies of Dead in Flash Flood—Thirty-Two Bodies Already Recovered with Hundred Unaccounted for.

Morehead, Ky., July 6.—(P)—Heavy rains throughout eastern Kentucky hampered rescue workers today as they sloshed through silt and debris in a weary search for the bodies of victims of a mountain flood that left scores of persons dead.

Thirty-two bodies have been recovered here and at Hackson. Nearly one hundred persons still are missing and feared drowned by the wall of water which swept down the Licking and Kentucky river valleys early yesterday morning, following a cloudburst.

Sheriff Walter Deaton, of Breathitt county, said sixty-nine persons were missing at Keck, and estimated the death toll would be "not less than seventy and probably more." Seven bodies already have been recovered in the county. Deaton estimated Breathitt's property loss at \$1,000,000.

W. E. Crutcher, postmaster of Morehead, said the bodies of twenty-five of the reported thirty-eight victims in Rowan county had been recovered.

Red Cross and other officials fear the death toll may mount to one hundred, basing their views on the fact that many communities along the small creeks have not reported and won't until washed-out bridges are constructed or poor communications by wire are restored.

Mountaineers, their wives, children and children's children went to bed Tuesday night—as they have done for generations—unmindful of the impending treachery of streams that ran past their doors, merrily trickling at times.

About midnight the rain came in torrents. A few hours later walls of water estimated by some to reach twenty feet in height moved down upon the sleeping communities.

Armed deputies and state police cast a watchful eye on the area because Mayor Edward Kelly of Flemingsburg, twenty-six miles to the north, after a trip to Morehead said "some footing already has been going on."

This town's population is 2,500 but it is swelled during the winter months by students at State Teachers' College.

Townpeople who survived the raging waters, wearily shoveled the mud from their homes and business houses. Their new troubles obliterated the memory of the fire Saturday which destroyed the leading hotel at a loss of \$75,000.

College buildings of the Mountain Bible (Methodist) Institute were carried away including a dormitory housing twenty-five boys and girls in Breathitt County. Nine students are missing. These teachers battled the waters for two and a half miles before being rescued.

Japanese Planes Renew Raids In War-Time Chinese Capital

Safety Programme Instituted in Recent Weeks by Chungking Authorities Causes Drastic Reduction in Death Toll When Four Waves of Japanese Bombers Drop Eighty Incendiary Bombs on City.

Chungking, July 6.—(P)—The populace of this Chinese capital sweltered in dugouts for two hours early today as four successive waves of Japanese bombers dropped eighty demolition and incendiary bombs.

Three large fires were started. Fifty persons were killed or injured. Two bombs hitting the French Catholic mission caused apparently the only damage to foreign property. Embassies and consulates were untouched.

Casualties and damage were small because of a safety programme which has included criss-crossing Chungking with broad fire lanes, reduction of the civil population through emigration, and construction of solid rock shelter caves.

The raid was the first in twenty-five days. Fleecy clouds screened the bombers except immediately above the city, where they were fired at but apparently untouched by Chinese anti-aircraft guns.

BRITISH SHIP OFFICER HELD
Hankow, July 6.—(P)—British Consul received reports today that the Clifford Winterbottom, Chief Officer of the British steamship Changsha, was held by Japanese authorities who accused him of "insulting behavior" toward Japanese.

British officials had sought unsuccessfully to locate him after he disappeared from the ship here July 4. Japanese quarters in Shanghai said they had no information about Winterbottom's arrest but added three other British members of the Changsha's crew had unlawfully entered offices of a Japanese-controlled newspaper in Hankow in an attempt to force it to alter its anti-British tone.

FINED FOR ADMITTING CHILDREN

Montreal, July 6.—(P)—Three theatre managers were fined a total of \$322.50 yesterday when convicted of permitting children under sixteen years of age to enter their theatres. The accused were Charles Berrie, George Carpentretes and George Heller.

Under provincial law, children under sixteen are not allowed admittance to the theatre.

SIMPLE REASON

Bethel, O., July 6.—(P)—A birthday cake graced the table at the modest home of "Country Doctor" William Thompson today—but there wasn't room for all the candles. It was Dr. Thompson's 104th anniversary. The physician refused to give a prescription for longevity. "It's only because I haven't died," he commented.

Herridge Charged With Slandering Public Men By Conservative Chief

Ottawa, July 6.—(P)—Political clashes of a year ago flashed back into the minds of Conservative party stalwarts today as a result of a sharp attack by Conservative Leader R. J. Manion on Hon. W. D. Herridge, leader of the New Democracy Movement here last night.

In the same building and just two days less than a year after Mr. Herridge broke with the party, Dr. Manion made his first retort to Mr. Herridge's criticism of both the Liberal and Conservative parties on the ground that they are tied to reactionary financial interests.

"I brand him not only as a common slanderer of public men in general but as a spreader of falsehood, knowing it to be false," declared Dr. Manion.

In stating that the Liberal and Conservative parties had betrayed Canada by taking money from reactionary interests Mr. Herridge was slandering his own brother-in-law, Rt. Hon. R. B. Bennett. It was Mr. Bennett who appointed Mr. Herridge to the Privy Council and Minister at Washington, in which post he drew more than \$121,000 pay and allowances.

"I had many differences of opinion with Mr. Bennett, but I do not believe he ever betrayed Canada," said Dr. Manion.

A year ago Mr. Herridge told the national Conservative convention: "You have lost a great leader, God help you."

Washington, July 6.—(P)—Wide-spread dissension appeared today in the United States Senate over continuing the present session for a showdown on the Government's proposal to permit arms sales to warring nations.

Senators who oppose repeal of the arms embargo, although it debates would be extended through August if the administration presses for final action.

Labrecque's drowning was the second to occur in the district yesterday. The other was death of young Richard Letendre, of Sherbrooke, who lost his life in the Magog river yesterday afternoon.

ULVERTON PLAN TO BE STUDIED BY GOVERNMENT

Plan to Develop Site as Relief Project Advanced by Delegation from Sherbrooke and Canada Paper Company.

As a direct result of the visit of the Sherbrooke delegation to Quebec, Provincial authorities will study practicability of erection of a power plant at Ulverton, Mayor Marcus Armitage announced today.

Suggestion advanced and discussed yesterday was that the Ulverton site be developed as a relief project with the Windsor Mills firm and Sherbrooke contracting to purchase the power. Arguments used in favor of the scheme, Mayor Armitage said, were that work would be given many of the unemployed and that the lumber industry in the Eastern Townships would benefit from a cheaper power rate for the Canada Paper Company's mills.

Looming large in the discussions was the report on Ulverton prepared last winter by A. B. Normandin, engineer for the Quebec Streams Commission. Reports from authoritative sources indicate that final decision of the Government as regards accepting the Canada Paper-Sherbrooke proposal may depend largely on Mr. Normandin's findings.

NORTH HATLEY BOYS HURT BY FIRECRACKER

Injured July 4 when a giant firecracker exploded in his hand as he picked it from the highway where it had been thrown by a passing motorist, Dolor Ladouceur, eight years old, of North Hatley, is today a patient in the St. Vincent de Paul Hospital. His injuries, although serious, are not likely to result in

death, hospital authorities stated. With his brother, Jeanclair Ladouceur, six years of age, the lad was playing in North Hatley near the Connaught Inn when the cannon cracker was tossed from the car. The two boys ran to where the firecracker landed and Dolor picked it up.

As he did so the charge exploded in his hand, tearing off four fingers and a thumb, shredding the side of his face and seriously injuring an eye. His younger brother sustained cuts to one hand.

The boys are sons of Olivier Ladouceur. It is believed that the car from which the firecracker was thrown contained a party of Americans celebrating Independence Day.

Opinion expressed by those in the know is that there is little possibility Quebec will undertake construction of the million-dollar plant especially since Sherbrooke's aldermen have shied from the project which they at first backed with enthusiasm. There is the chance however that the Provincial authorities may consider it worth while to disburse relief funds on the project.

SHERBROOKE, THURSDAY, JULY 6, 1939.

TWILIGHT

Stealthily, night creeps up to my window pane And peeps to see if I my lamp have lit; Then steals away to wander down the lane And clothe the trees and fields, then sit In mournful silence 'bout the Town And watch the street lamps make a cheerful glow For folk who hurry homeward. Down Along the river all is hushed and calm, The stars look down on water still and brown And laugh to see their own reflection there. Night comes and brings the day her crown; And over all a brooding quiet will flow.

AUSTRALIA'S WHEAT PROBLEM

In common with Canada and the other major wheat producing nations of the world, Australia is suffering greatly from general overproduction and low prices received for this commodity. For some time the whole question has been under study by the Australian Agricultural Council, representing the wheat growers and State agricultural departments. As a result of this study, six plans have been evolved, each of which involve heavy Government subsidies for the stabilization of the industry.

The subsidies suggested range from \$3,510,000 to \$13,040,000 a year, according to the level at which it is proposed to stabilize the price. The plans suggested fall into two general categories, the first being proposals for temporary assistance based on the assumption that the world price of wheat will shortly rise, while the second class comprises plans for permanent stabilization on the theory that existing conditions will prevail for some time to come.

At the present time an average price of two shillings eleven pence a bushel is yielded over a normal Australian harvest by means of a flour tax on wheat for home consumption, but now the majority of the wheat-growing states would like to see this increased to three shillings fourpence a bushel, which would mean a subsidy of well over \$13,000,000 being paid to the farmers.

The prevailing sentiment indicates that the Council will decide upon a long-range remedial plan and, under such a plan, it would be practicable to levy an excise tax on wheat whenever the world parity price exceeded an agreed figure to establish a fund to pay growers a bounty when the world parity price is below the stipulated limit.

Like many other schemes, however, the plan looks very nice on paper but has the disadvantage of being introduced when the price is low so that in reality the Government will have to advance substantial sums to allow for its introduction with no guarantee that the scheme will continue after the price exceeds the agreed-upon figure.

MAN IS EVER A HUNTER AND A KILLER

Man is still a hunter. In the days when he was a shaggy brute-man crouched in a smoky cave, he was a hunter because he had to be.

Man was both hunter and hunted in those days. Only because he was the best hunter among all the animal kingdom did he survive.

The necessity for hunting as a means of existence has disappeared in all civilized places. But man is a hunter still. The instinct which led him to trap and kill the great mammoth, the shrill cry of triumph at the kill, lie deep within him still.

Sometimes, in the most unexpected ways, the old instinct rises to the surface and takes possession of even civilized man.

And when the laws and customs of civilized society decree a hunt, when the bare protection of each other's lives demand that a danger be hunted down and eliminated, men join the hunt today with a certain grim pleasure and excitement that reflects a forgotten past.

Recently we gazed upon two pictures which described our point. In one we saw a group of men who had banded together to hunt down and kill deer, simply for the pleasure. Their satisfaction with their quarry, their pride in their weapons was easily evident by the expression on their faces. They had captured the deer which they hunted, and there they were with their prey.

In the other picture there was that same expression of satisfaction. There was another group of men. But there were weapons similar to those shown in the other picture. These men were also hunters. But they hunted a man. He was Ray Olson, desperate killer of two Wisconsin deputy sheriffs. He was hunted down exactly as a lion or a bear is hunted to his death. Olson had done a murder. He had resisted cap-

ture in such a way as to make capture impossible except at imminent risk of death to the pursuers. He was too dangerous to be allowed at large, more dangerous than the gentle deer.

The hunt was on. At its end a man lay dead.

Unconsciously, the hunters assumed for the camera a pose that showed how strongly, when necessity removes restraint, the caveman hunter crops up in the modern man.

This is the primitive soul that sleeps restlessly beneath the surface of every one of us, waiting only the liberation that comes with emergency, danger, or war to call it howling forth.

HITLER BECOMES MODEST

On the authority of nobody less than himself, Adolf Hitler is a very modest man, as his latest edict regarding the use of titles proves. No longer is the Great I Am to be the Leader and Reichchancellor of Germany, but rather he is to be just the Leader, or Der Fuehrer.

Explaining the change in his title, the Fuehrer explains that the words Reichchancellor give him the appearance of an upstart politician who must glory in long titles in the hope of achieving his political aims. Der Fuehrer is none of these, but is rather "The beloved leader of the German people,"—a man to whom all things are possible, and a man to whom titles are very unnecessary.

The simplification of his title does nothing to ease the concern over his actions and policies, however, as Little Adolf still retains for himself the supreme say in the councils of the German nation and reserves for himself the final decision on peace or war and the consequent fate of Europe.

RENEWAL

Now is the time when earth's long sleep is broken And warmth again has given to the root Another promise and another token; The bough recalls, the flower foretells the fruit.

Down by the marsh the golden cowslips glitter, Deep in the meadow sinks the horse's hoof, The lilacs droop with dew, the raindrops spatter In tinkling music on the gray slate roof.

June showers press impudently, thin fingers Through the straight furrows, faithful to the needs Of thirsty growing things. While the rain lingers, Sprout grasses—drink down deeply, garden seeds.

O sweetest of the sweet, the precious morrow Gathered into the heart from this bright air! The brown thrush sings, and the white-throated sparrow, And the fat bees find honey everywhere.

NECESSARY EVILS

(Daily Express, London) This is not a warning that war is coming, for the Daily Express believes that peace will prevail. But it is a warning of the temper of the German people. Now and again the German short-wave stations pour out persistent, vehement and vicious attacks on the British Empire. As long as these attacks continue, the call of the British races, one to another, is: "Beware, Prepare." Some people are saying that armaments are a curse, that they bring nations into conflict. But nations are just as likely to fight when they are lightly armed as when they are encased in heavy armour. And wars were quite as destructive a thousand years ago, when men fought with bows and arrows. They may be more terrible a thousand years hence, when every man may be walking arsenal. The weight of armaments should not distress and harass us. We only feel anxiety because we are behindhand. Things would be very different now if we had equipped ourselves fully in the past. But, each day that our arms increase, the peace made more secure. And armaments have given employment to our people. There was much unemployment for many years. But today the growing strength of the nation means smaller queues at the labor exchanges.

RED CARPET HASH IS TURNED TO CASH

(Kingston Whig-Standard) While the King and Queen were in Canada there was not a great deal of time to observe events that had only an indirect connection with their visit. All attention was focused on the main fact of their presence among their Canadian people. Now that they are back in the United Kingdom, however, the minor incidents, the amusing details, the by-products of the tour that can provide a sympathetic chuckle, are coming to light. It is now reported that the very pleasant city of Woodstock, for example, has been able to make a neat little profit on one of the expenditures which it made for the proper reception of Their Majesties. Most cities seem to have distinctive characteristics very much like the characteristics of individuals or families, and Woodstock is no exception. Woodstock has always given us the impression of being fairly "comfortably off" and living well and contentedly, yet doing so by seeing to it that it gets its share of the very best of everything. Woodstock would buy porterhouse roast, but the remains of it would never go into the garbage can. There would be excellent cold roast beef on Monday and excellent hash on Tuesday.

Woodstock, so the report goes, has just made hash of the fine red carpet brought for the King and Queen to walk upon, and the portions of hash have been sold for more than the entire carpet cost originally, which was \$350. After the King and the Queen and the civic officials and dignitaries walked upon it, the carpet was thoroughly cleaned. It was then cut up into small rugs and sold, each of them was stencilled the information that there was a section of no ordinary carpet. At \$3.50 each, there has been no difficulty in selling the rugs.

MOMENTOUS DECISION IN SCANDINAVIA

(National Review, London) The results of the change in British foreign policy for the past few years while the increase of our naval and air strength has given courage to other nations. A striking instance of this is seen in the Scandinavian answer to Herr Hitler's recent effort to draw Northern Europe into his orbit. On April 28 he announced his readiness to conclude non-aggression pacts with his neighbors, and, during May, negotiations were opened by the German Government with Estonia, Latvia and Finland, Norway, Sweden and Denmark. The answers from the Norwegian, Swedish and Finnish Governments were made public on May 18. They have refused the offer, for they prefer to maintain the principle of neutrality and complete independence. They do not intend to conclude such an agreement as that proposed with any country, they have only just shaken off League commitments and they do not intend to take on any others. Denmark had not on May 18 sent an answer. Her Government's reply was said—by Berlin—to be ready to agree to their request. We have seen what the pressure on Denmark has been. Held at the trade pistol point "your money or your life," Denmark has parted with her life. This decision is bitterly commented on in Sweden, for we cannot be very surprised at it when we reflect upon the dangers run by all Germany's neighbors.

PIONEERS HAD GRIT, TYPE IS RARE TODAY

(Woodstock Sentinel-Review) When descendants of the pioneers of York County were having a ceremony recently to commemorate the accomplishments of the early settlers, one speaker referred to the inspiration he experienced when contemplating the accomplishments of those who came into the Ontario wilderness and managed to exist despite all the obstacles, disadvantages and hardships that were inherent in such an undertaking. He also suggested that in the bush country of Northern Ontario quite a number of families were having a similar experience and were succeeding. It was pointed out that the great majority of Ontario pioneers and their previous experience in farming. Their task must be regarded as all the more astonishing since they had to learn to cut down trees of great size, with primitive tools, how to cultivate land for crops and how to utilize the products of the forest to supply their needs. The things they did with considerable success for they managed to live and to hand over to their descendants a countryside

CANADA'S EXHIBIT AT WORLD'S FAIR

(La Patrie, Montreal) Our Federal tourist industry service and our railways have unfortunately forgotten to stress the fact that our Dominion is bi-lingual, in exhibiting at the New York World's Fair, and by so doing, they have done themselves more harm than anybody else. It is like the story of the animal whose sight was so poor that he was chewing up his own paw without realizing it.

To anyone who knows anything about Canada's tourist industry, and even to those who know practically nothing about it, it has long been a well known fact that one of the main attractions to tourists has been that part of this Dominion is French in mentality, in speech, in custom and in appearance. Americans like to come here on account of this and surely if anybody is to benefit by the tourist industry it is certainly the tourist industry service and our railway companies.

We wonder why they let slip this golden opportunity of playing up one of the main elements of success which the Dominion of Canada possesses today to maintain and improve its tourist trade, growing by leaps and bounds,—both in importance and in value,—year by year. And, more's the pity, it would have cost no more to have drawn this important fact of bi-lingualism to the attention of thousands of prospective tourists from the United States who would have come to Canada precisely to see this "some different" which we actually can and do offer them.

CANADIAN PASSPORTS NOT VALID IN SPAIN

(Le Devoir, Montreal) We have before us a number of passports, naturally issued by the Minister of Foreign Affairs at Ottawa, at the present time and, as usual, they are expected to protect and be of use to the holder in all and any countries in which he travels. Stamped on each passport, however, is a special notice which sets forth that they are "not valid for travel to Spain, the Balearic Islands, the Canary Islands; and towns and territories under Spanish sovereignty in Africa."

ANSWER TO CRANIUM CRACKER

WHAT DO YOU KNOW ABOUT FISHING? Come on folks, we'll put your angling knowledge to the test—and you won't have to move from your easy chair!

In this game, let's suppose each one of our questions is a fish, swimming about in a pool. These fish are of various weights and sizes, depending on how difficult they are to hook. It's possible to end the expedition with 15 pounds of fish—if you answer all questions correctly. But, if you total 10 pounds or better, you're doing O. K.

Let's go after that first one—a little fellow, worth two pounds:

1. From what nation did the brown trout come?

Now for a big baby—a four-pounder:

2. What fly is most often associated with salmon fishing?

Well, if you missed him, you missed him. How about casting for this three-pound fish?

3. To what "pan-fish" family does the black bass belong?

Now to two small ones, each one worth a half-pound:

4. Who is the "Patron Saint" of anglers? What great book did he write?

Just one left. But it's the one that can make your fishing trip a success. What a prize! He's valued at five pounds!

5. What is the true name of the fish variously known as wall-eyed pike, dore, jack salmon, blue pike, and, erroneously, pickerel?

PICTURESQUE OLD LOUISIANA

HAVE A SMILE

"Are you fond of literature?" asked Mr. Bowdly. "Passionately!" Miss Tubbs replied. "Then you must admire Sir Walter Scott. Is not his 'Lady of the Lake' exquisite in its flowing grace and poetic imagery?" "It is perfectly lovely," she assented, clasping her hands in ecstasy. "And Scott's 'Marmion'!" he went on, "and 'Peveril of the Peak'?" "I just dote on them!" she said. "And Scott's 'Emulsion'?" he said hastily, a faint suspicion drawing upon him. "I think," she said, "that it's the best thing he ever wrote!"

An old colored man got up one night in a revival meeting and said: "Brudders and sisters, you knows an' Ah knows dat Ah ain't been what Ah oughter been. Ah's stole henn-roosts, an' stole haws, an' stole lies an' got drunk, an' slashed folks w' mah razor, an' shot craps, an' assed an' swore, but Ah chink de Lawd dere's one thing Ah ain't neber done: Ah ain't neber lost mah 'ligion."

"There isn't much I don't know about the English language," boasted the long-haired man in the club. "I'll test you," replied a friend. "With an assured air the boaster seized his pencil, but his jaw dropped as he heard the following: 'As Hugh Hughes was hewing a yule log from a yew tree, a man dressed in clothes of a dark hue came up to Hugh and said: 'Have you seen my ewes? If you will wait until I hew this yew tree, I will go with you anywhere in Europe to look for your ewes,' said Hugh Hughes."

"Johnnie," asked a visitor, "what are you going to be when you grow up?"

"I'm going to be an Arctic explorer," answered the small boy. "And now will you please give me a quarter, please?"

"What do you want a quarter for?"

"I want to get five ice creams and find out how much cold it can stand."

McKENNEY'S BRIDGE QUIZ

BY WM. E. MCKENNEY Secretary, American Contract Bridge League

CAREFUL PLAY, PLUS EXPERT DISCARDS PROVES SIMS' SKILL IN SLAM VICTORY

Today's bridge quiz hand was played by P. Hal Sims, who with Waldemar von Zedwitz, won the national masters' pair gold trophy in 1930, the first year it was placed in play. This trophy will be competed for this year at Asbury Park, N.J., at the summer session of the national championships the week beginning July 31. Mr. Sims sat in the North position.

1. If you held Mr. Sims' cards, would you bid one heart or one spade? 2. If East overcalls North's bid with two diamonds, what should South bid? 3. Is North justified in jumping to six hearts?

Solution to Bridge Quiz

1. When holding two touching biddable suits, the longer of the two should be bid first. In this case, the correct bid is one heart. 2. South's hand is strong enough to justify a jump to four hearts. 3. Yes. While it is true that there may be two losing clubs in the hand, South's jump to four hearts has shown some strength on the side. 4. Yes, six hearts can be made by very fine play. The opening diamond is won with the ace, and a heart is played, which picks up the outstanding trumps.

The ace of clubs and the queen of spades are cashed. Declarer returns to his hand with a trump and cashes the ace and king of spades, discarding two clubs from dummy. Then the nine of spades is led, East plays the 10 and is allowed to hold the trick, another club being discarded from dummy. Now, regardless of East's return, the remaining club can be discarded from dummy and declarer will ruff.

What we often don't understand about the first amendment is that there is a green light for the other fellow. It means not only that I say what I think, but that you say what you think.—Judge Florence Allen, U.S. Circuit Court of Appeals.

FRIENDS GAVE FAREWELL FOR FOSTER FAMILY

Fifty Neighbors Gather at Creek United Church for Farewell Party to Mr. and Mrs. Lyle Pearson and Family.

Foster, July 6.—Mr. and Mrs. Lyle Pearson and family, who recently sold their farm here, were bid farewell on Friday evening, June 23, when upwards of fifty friends gathered at the Creek United Church parlors for the occasion. Mr. and Mrs. Pearson and family were invited to the church for a Quarterly Board meeting of which Mr. Pearson is Recording Stewart and much to their surprise on arriving found the party had been arranged for them.

The evening was spent in contests and singing, which lunch was served by the ladies.

Rev. W. H. Thompson, pastor of the church, called on Mr. Pearson to accept a pencil and pen set as a slight token of appreciation for his ever untiring efforts in the church work. Mrs. B. R. Mizener then presented Mrs. Pearson with a leather handbag on behalf of the Women's Association of which Mrs. Pearson was president at the time of her departure.

Mr. B. R. Mizener and Mr. G. C. Whitcher, stewards of the church, both expressed regret at Mr. and Mrs. Pearson's departure. Mr. Stanley Quilliams, president of the Young People's Society, stated the regret of the union in losing Miss Laura Pearson as one of its members.

Mind Your Manners

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1—Should a house-guest whose hostess has only one maid, ask her to press clothes rumpled by packing?
2—How might you accept a telephone dinner invitation?
3—Is it important for a hostess to remember the dishes her friends like especially well?
4—Should a house-guest tip the maid on leaving?

5—Should a hostess expect a guest who is a professional entertainer to "sing for his supper"?
What would you do if—
You have a tea and ask several of your friends to provide music.
Would you—
(a) Let the music be used as a background through the tea?
(b) Make entertainment of the music—and have the room quiet before the musical programme begins?

ANSWERS
1—No.
2—Thank you. I'd love to come. (Ask the time, of course, if the hostess forgets to mention it.)
3—Yes.
4—Yes.
5—No.

Best "What Would You Do" solution—(b) is more gracious to those you asked to provide the music.

THE SIMPLER THE BETTER
For children's parties the simplest sandwiches take on a festive touch when cut into fancy shapes with cookie cutters. Combining white and dark breads to make a ribbon effect is attractive and tasty, too. Plain cookies or graham crackers iced or put together with a plain filling are simpler and easier on young digestions than elaborate cakes. Ice cream in an assortment of individual molds is easy to serve and has lots of eye appeal. Young party appetites don't need lots of fuss, but attractive serving does go a long way toward keeping the youngsters happy and entertained.

CHIFFON SUITABLE FOR AFTERNOON
While silk chiffon is primarily an evening fabric, latest showings at famous French houses indicate that it is increasingly considered by Paris couturiers a formal afternoon fabric as well. Paquin, for instance, combines black chiffon with vertical rows of black Valenciennes in a formal afternoon frock worn over a white silk slip edged with black silk lace. Printed chiffons, especially the smart new wallpaper prints, are also extensively seen at formal daytime affairs.

SUTTON
Miss O'Brien, a former Sutton girl and a sister of Mrs. Clifton Boright was honored by the presentation of a leather desk set and flowers by the graduating staff of the Homeopathic Hospital, of Montreal. Miss O'Brien has been operating room superintendent of the Homeopathic Hospital for twenty years, graduated as nurse on November 20, 1916, and is now retiring. The presentation was made at a buffet supper held at the hospital and the gifts were handed to Miss O'Brien by Miss D. W. Miller, lady superintendent.

FOUR-WAY TIE FOR SECOND IN PROVINCIAL

Sherbrooke Bangs Out 11-8 Victory At Sorel

Hammondmen Slub Brumby and Bertram All Around Lot in Ten-Run, Third-Frame Swing Session—Outlast Sorel Rally to Record Win—Red Sox Stop Three Rivers 7-5—Saints Edge Out Tigers 9-8—Sherbrooke, Quebec, St. Hyacinthe and Three Rivers Deadlocked.

However close the standing has been in the Provincial Baseball League during the past few weeks, it never was as tight compared to the situation the teams are in today.

With Sorel in the lead by a half-game, four of the other six clubs are in a virtual tie for the runner-up spot—Three Rivers, Quebec, St. Hyacinthe and Sherbrooke.

The four-way deadlock was forced by games played last night when Sherbrooke travelled to Sorel for an eleven to eight victory, Granby captured a seven to five triumph at Three Rivers and St. Hyacinthe knocked off the Tigers by nine to eight at Drummondville.

Sherbrooke downed the loop-leading Sorel squad by a ten-run rally in the third frame. They landed on pitcher Brumby, driving him from the box, then continued the assault on relief hurler Bertrand to bat all around the order and then scored.

Sullivan was Sherbrooke's winning hurler as he gave way to Johnson in the fifth. The victory allowed Sherbrooke to gain a full game on Sorel.

St. Hyacinthe also was gaining a full game meanwhile by whipping the cellar-dwelling Tigers. Drummondville took an early lead but the Saints came back strong, pushing across the winning marker with bases loaded in the ninth.

Playing at home Three Rivers did their part towards knocking up the standing by losing to fifth-place Granby Red Sox. The Sox gathered five runs in the fourth and fifth frames and added singles in the third and sixth.

Quebec, unscheduled, gained a half-game by the Sorel and Three Rivers losses and thus climbed into the tie for second.

The linescores: Granby 001 321 000—7 14 3 Three Rivers 101 000 300—5 13 1 Batteries—Swayze, Nist, Larsen and Bird; Leroy, Robinson, McCaffrey and Corrigan.

Drumville 400 000 301—8 11 2 St. H. 003 021 201—9 12 2 Batteries—Bartelli, Sisler, Stark and Casso; Swan, Lecomte and O'Flaherty.

Sherbrooke 10 10 000 000—11 13 1 Sorel 20 2 010 012—8 10 0 Batteries—Sullivan, Johnson, Morris, Drisko and Goebel; Brumby, Bertrand and Galen.

Granby Youth Captures Provincial Golf Title

Donald Doe Records 36-Hole Gross of 158 to Win Junior Golf Championship of Province of Quebec—Jimmy Fowles, of Lennoxville, and Sherm Peabody, of Sherbrooke, Third and Eighth Respectively—Granby Missed Team Title by Two Points.

Defeating Tom Hale, of Montreal Country Club, by a margin of one stroke, Donald Doe, of Granby, gained the junior golf championship of the Province of Quebec yesterday at the Harborough Country Club course.

Doe posted a pair of seventy-nines for a thirty-six-hole total of 158, while Hale had an eighty and a seventy-nine for 159.

Creditable performances were also turned in by other Eastern Townships entrants—Jimmy Fowles, of Lennoxville, Sherm Peabody, of Sherbrooke, and Bruce Doe, Allan Reith and John Bergeron, of Granby.

Fowles ended in a tie for third place with Jim Seenev, of Hampstead and Gaston Oullette, of Riverview, the latter the defending title-holder, with 162. Fowles led the field at the end of the first eighteen holes, shooting a neat seventy-seven to the Ronnie Orpen, of Grovel Hill.

Sherman Peabody, of the Sherbrooke Country Club, placed eighth in the standing, shooting an eighty-three on the first eighteen and an eighty-three on the second. He was tied with W. Richardson, of Grovel Hill, and Jack Keay, Jr., of Hampstead.

Thirteenth place went to Bruce Doe, of Granby, who shot a 165 to tie with R. Montgomery, of Hampstead, while Allan Reith was sixteenth with 169. John Bergeron posted a score of 179.

The finish of the tournament was exciting, as Fowles, Seenev and Oullette, playing together, came in scores of 162. The lead switched soon afterwards to Hale as he finished with 159, but Doe came surging in with a thirty-nine on the final nine holes for 158.

Team championships went to Grovel Hill with a total of 688, while Granby came second with 670, and would have tied the winners but for a put by Bruce Doe that struck an opponent's ball and cost him a two-stroke penalty.

Joe Louis isn't the only guy who can get up off the deck and slug 'em down. Russ Rolandson, of the Crookston (Minn.) club of the Northern League, had his jaw fractured by a fast one hurled by Ralph Hendrix, Eau Claire, Wis., pitcher. Next time Rolandson faced Hendrix all he got was a homer, triple and two doubles.

The New York Yankees beat the Washington Senators six to four to give Atley Donald his tenth straight victory of the season, which just about establishes him as the rockiest pitcher of the year. However, he gave up seven walks and a couple of homers in an unspectacular seven-hit performance which was won for him by the heavy hitting of his mates—including homers by Joe DiMaggio and Joe Gordon.

Brooklyn Red Sox topped Philadelphia Athletics by the same score, six to four, with a fourteen-hit attack led by Ted Williams, who also put on a fielding show.

Cincinnati Reds had no trouble turning back St. Louis Cardinals six to two on Bucky Walters' four-hit pitching. The slugger, Reds gave him an early lead which he protected to good effect except for a homer by Don Gutteridge. It was Walters' twelfth victory.

Carl Hubbell pitched three hitless innings in relief to take the sting out of Boston Bees in their opening session which the Giants finally won eleven to seven with a four-run rally in the ninth.

Brooklyn Dodgers pounced on the Phillies for their third in a row, seven to one, to move into fourth place as Pittsburgh Pirates choked off Chicago Cubs ten to one.

VITAL SERIES STARTS TODAY IN SHAG LOOP

Jersey City Giants and Rochester Red Wings, who have been waging a regular bar-room brawl for first place in the International League the last few weeks, open a crucial series at Red Wing Stadium today.

Crucial, that it, if a series could be called that with something over half of the schedule yet to be played.

Each club has won forty-five and lost thirty games so far, but as they weigh in for the big battle Rochester must be favored, holding the home field advantage and secure in the knowledge that is brought about by six victories in nine previous contests.

Rochester made this series more important by swamping Montreal Royals, nine to three, last night to wipe out the half-game which separated the two teams. Jersey City was idle.

The Wings, led by Estel Crabtree, Dusty Cooke and Sam Narrows, who got three hits apiece, pounded their Royal hurlers for fifteen safeties.

While Rochester was taking its twelfth game of the season from Montreal, Buffalo Bisons advanced to within a half game of fourth place by edging out Newark Bears, three to two, in eleven innings.

The Bears were leading two to nothing going into the last half of the ninth but Buffalo tied the score, sending George Barley to the showers. And that set the stage for Ollie Carnegie, who got hold of one and parked it over the left field wall for his seventeenth home-run of the season, breaking up the game.

Syracuse and Baltimore were rained out and Jersey City and Toronto were not scheduled.

Montrealers found out yesterday that a certain amount of golf—good golf—is played in the Eastern Townships, and that they start 'em young out in this section.

Don Doe, of Granby, fired a pair of seventy-nines over the Harborough Country Club course to win the Quebec junior golf championship and the right to play as the Province's representative later this month in the Canadian junior championship.

Jimmy Fowles, member of the noted Lennoxville golfing family, ended in a tie for third place with seventy-seven and an eighty-five, while Sherman Peabody, of the Sherbrooke Country Club, nabbed the eighth spot with an eighty and eighty-three.

Bruce Doe, Allan Reith and John Bergeron, of Granby, also turned in creditable cards.

Roy V. Halpin, sports editor of the Quebec Chronicle-Telegraph, has retired after holding the post for twenty-two years. ATLEY DONALD RECORDS TENTH MOUND VICTORY

At the time Jimmy Dykes was elevated to the management of Chicago White Sox five years ago he approached canny old Connie Mack for advice and reputedly was told just one thing: "Play your hunches, Jimmy."

It was a hunch which caused Dykes to pick up an unimpressive stopwatch pitcher named Edgar Smith last May 1 when Mack gave up on him after he had won seven and lost twenty-seven in the two previous seasons.

The twenty-six-year-old New Jersey left-hander has proved the sagacity of the deal many times and yesterday came up with a two-hit pitching jewel which pacified Cleveland Indians two to one and lifted the White Sox into a tie for fourth place in the American League.

His first appearance in a Chicago uniform was a seven-hit performance against New York Yankees May 8, the only time the White Sox have defeated the World Champions this season. And three of five games he has lost while winning five more attempts to reassert his mastery over the Yankees.

His stint yesterday was the tenth time this season a pitcher has given two or less hits—which put him in some pretty select company. A homer by Eric McNair in the seventh decided the game.

The defeat which dropped the Indians into a tie for fourth at the same time raised the idle Detroit Tigers into third in the American League.

The New York Yankees beat the Washington Senators six to four to give Atley Donald his tenth straight victory of the season, which just about establishes him as the rockiest pitcher of the year. However, he gave up seven walks and a couple of homers in an unspectacular seven-hit performance which was won for him by the heavy hitting of his mates—including homers by Joe DiMaggio and Joe Gordon.

In Sporting Vein

By Allan Bryce.

There can't be very much wrong with a ball club that can step into the lion's den and come away with Leo's beard.

Sherbrooke rolled over to Sorel last evening and knocked off the pace-setters to the tune of eleven-eight to slice a full game off the champions' edge. The Hammondmen are now trailing Sorel by a mere half game.

This is the closest battle for first in the Provincial League has seen for many months. Four teams—Quebec, St. Hyacinthe, Three Rivers and Sorel—are trading on the heels of the Sorel, while the Red Sox of Granby are only three games away in sixth position.

Only a half game separates the four second-place squads from the loop leaders, and the lead is liable to change hands in dizzy succession from now on.

Tonight Sherbrooke ought to be a cinch to pick up a win. So, provided the locals down the Tigers here and Sorel loses in Quebec to Del Bissonnette's tough Athletics, the Hammondmen will be in first place. Three Rivers goes to Granby for the third game on the night's card, and can also take over first by winning if Sorel loses.

All kinds of things can happen, so hold your seats.

Paul Calvert is in line for mound chores, and should be able to record his fifth straight triumph of the season.

The Beavers—God Bless 'Em—came through a Frank Merrille last night to the Boivert crew in a City Softball League fixture.

Trailing twelve-five in the seventh, the Beavers cut loose for seven runs to tie the score, and then went on to win thirteen-twelve in the eighth. Home runs by Norm Mitchell, "June" Mutchler and Bud Mutchler played a big part in the victory, while Armand Filion did a neat job of twirling in the eighth to prevent Boivert from climbing back into contention.

Reports of use of language other than gentlemenly and of too frequent recourse to the charms of John Barleycorn at local baseball games have been circulating of late. If true, they are regrettable. Such conditions are intolerable to many who like to enjoy a game without having to put up with disturbances in the stands every few minutes.

YESTERDAY'S STARS
Ed Smith and Eric McNair, White Sox: Former's two hit pitching subdued Indians, with latter's home run in seventh, breaking tie for two to one victory.

Carl Hubbell and Zeke Bonura, Giants: Hubbell pitched three hitless innings in relief and Bonura led hitting assault with homer and two singles to beat Bees.

Bucky Walters, Reds: Four-hit pitching job gave Cincinnati six to two triumph over Cardinals.

Fred Fitzsimmons, Dodgers: Stopped Philles on six hits.

Ted Williams, Red Sox: Batted in

Beavers In Story Book Triumph Over Boivert

Seventh-Inning Rally and Eighth-Inning Homer Give Beavers 13-12 Win—Paton Doubles Score on Kayser, Winning 10-5—Textile Holds Lead, Besting Lennoxville 12-1 in College Town.

Beavers' emotional victory over Boivert at the Parade Grounds last night highlighted the City Softball League programme that saw Paton knock off Lennoxville twelve-one in the College Town.

Trailing twelve-five in the last inning, the Beavers went to town in a big way to tie the count and send the game into extra innings. In the first of the eighth Bud Mutchler slapped a ball out of the diamond for a home run, and then the Beavers held Boivert scoreless in the last half of the frame to win thirteen-twelve.

Textile remains in the top berth with nine wins and two losses in eleven starts for eighteen points, while Paton is second with eight victories and three defeats for sixteen points. Beavers, Boivert and Kayser are tied for third with eight points, while Lennoxville brings up the rear with a lone triumph in ten games for two points.

Beavers, batting first against Boivert, scored four runs in the first of the third and added one in the fourth before Boivert broke into the scoring column. The last of the fourth, however, saw Boivert go on a six-run spree to take the lead.

Three runs in each of the fifth and sixth stanzas sent Boivert in front twelve-five, but in the first of the seventh the Beavers came back strong. "June" Mutchler and Norm Mitchell, rounded out home runs to aid in the rally.

Bud Mutchler's circuit-clout in the eighth gave Beavers their fourth

two runs with double and two singles to lead attack against Athletics and snared six flies in great fielding show.

Joe Bowman, Pirates: Held Cubs to five hits as Pittsburgh easily downed Cubs.

CONGREGATION AT DANVILLE FETES PASTOR

Reception Held for Trinity United Church Minister and Family Prior to Departure After Fourteen Years' Residence.

Danville, July 6.—Friends and members of Trinity United Church met in the church parlors to bid farewell to Rev. Mr. Long and family. The following appropriate remarks were made by O. M. J. Ingalls, who also presented Rev. Mr. Long with a well filled purse: "Now that the relation between us of pastor and people has come to an end, we, the congregation of Trinity United Church, Danville, wish to express simply and sincerely our appreciation of the service which you have rendered to this church during the fourteen years of your pastorate."

"We recall that only two other terms have succeeded yours in length. You came in 1925 to a church of Congregationalists, Methodists and Presbyterians; you leave us a United Church in which our former differences have practically disappeared and a great part of this happy result is due to your kindly tact, your long pastorate has helped to cement our union. Your sermons from Sunday to Sunday have been a high privilege to us. It is no small achievement to come to the end of fourteen years in the same pulpit with the same freshness of appeal as at the beginning. We hope that we may be able in some measure to practice what you have preached. We have benefited greatly by your conscientious work as pastor. Always a welcome visitor in our homes, you have brought your ready sympathy to the sick and the distressed and exemplified in your own life the comforting presence of the Master. We do not forget, either, your interest in our boys in the Trail Rangers and the Sunday School."

"May we add a word of gratitude to Mr. Long for all she has done in C.G.I.T. and Sunday School for the young people of the Church, as well as for her great assistance in the women's organizations. Her kindness and her gracious hospitality have endeared her to us."

"We do not forget William, whom we shall miss very much in the choir and Sunday School, as well as his cheerful helpfulness. We have watched his development from childhood to young manhood and shall continue to follow his career with interest and affection. We hope that in the charge to which you go, you may find a pleasant home, congenial friends, the love and appreciation of your people and a great opportunity for service, and that God's richest blessing may follow you all every day."

"As a tangible expression of our appreciation we ask you to accept this small gift, which will serve to remind you of Danville days and Danville friends."

Mr. Long replied in his usual kind and appreciative manner, after which refreshments were served and social visit was very much enjoyed.

DISTRESSFUL GAS BLOATING RELIEVED QUICKLY WHEN HE TOOK THE MOSBY'S TONIC!

Mr. Paul Cormier Says: "I Couldn't Sleep on Account of Stomach Gas—Couldn't Eat Meat—Had Sluggish Kidneys and Felt Weak and Worn Out—Now My Stomach and Kidneys Are Relieved—I Sleep Fine—And Mosby's Tonic Did It!"

Widely known people, living throughout Sherbrooke and this general vicinity, are now coming forward daily with grateful statements, publicly praising and endorsing the "new mixture of roots and herbs and other splendid medicinal agents," known as MOSBY'S TONIC, which is now being introduced to crowds of people daily here in Sherbrooke by a Special Mosby's Tonic Representative, known as the MOSBY TONIC Man, at The Chagnon Pharmacy, 11 Wellington street north. For instance, just a few days ago, Mr. Paul Cormier, of 1821 Craig street east, Montreal, made the following sincere statement about Mosby's Tonic. Mr. Cormier was born in Montreal and is a widely known citizen. Read what he says about this new, scientific formula. Find out—for yourself—what MOSBY'S TONIC CAN DO!

Gas Bloating Kept Him Awake At Nights

"About three weeks ago," said Mr. Cormier, "I started taking Mosby's Tonic. Will say that I never saw anything to equal this medicine. It is splendid! So I want to tell you what your medicine did for me, and I want you to publish what I say, for I think all people who suffer as I did should know about Mosby's Tonic, and I want to do my full share to help spread the news about it to them."

"For a solid year I had been subjected to attacks with my stomach, in fact, my stomach was so disordered from gas and bloated accumulations that it made me sick to eat. I was nauseated after meals and my food turned to more gas, and then I would have severe gas pains all through my stomach organs. This suffering kept up all night. I couldn't sleep. Sometimes I would sometimes feel a little sleep, but it was so fitful I would get up in the mornings feeling worse than when I went to bed. I don't know how I got through the day sometimes. I couldn't eat meat of any kind without real suffering afterwards. I also had sluggish kidneys and was subject to headaches. Bowels were very irregular."
