Medical Referee: D. C. Macallum, Esq., M.D.
Inspectors: F. A. Ball, C.W.; James Spier, C.E.

FIRE DEPARTMENT.
During the past 16 years the Fire business of this Branch of the Company has steadily increased, until it now stands in the front rank of Insurance Companies. The Company is represented in all the cities, towns and villages throughout the land, by active business men, whose efforts have secured for it a large share of first-class custom in their several localities. In the administration of this business and in the settlement of claims, the Directors have endeavoured to act with liberality and promptitude, and in all doubtful questions (saving fraud), have given the benefit of the doubt to the assured, so that no delay might occur in arriving at the amount of a loss or in settling it when ascertained.

LIFE DEPARTMENT.
The Directors would call attention to the moderate rates at which they are prepared to grant Life Policies and Annuities, and respectfully solicit a comparison of their terms with other first-class English Companies.

Persons assuring under Table No. 2, with Guaranteed Bonus, (a form of assurance peculiar to this Company), should they reach a certain specified age, may leave to their heirs, in addition to the original sum assured, all Premiums paid during their lifetime, (including a certain amount of interest), the whole not exceeding an amount double the sum originally assured.

No extra charge for military service in defence of the Country.

All Claims are payable *thirty days* after admission of same.

The Company's Life Tables and Prospectus, will be gladly furnished by the Company's Agents throughout Canada, and also by

G. F. C. SMITH,
Resident Secretary, Canada Branch.

## SPECIAL TELEGRAMS.

### THE FENIAN TRIALS AT TORONTO.

*SLEVEN SENTENCED TO BE HUNG.*

[Special Telegram to the "Herald"]

TORONTO, Nov. 6.

John Sleven was to day placed in the dock. He is very deaf, and in consequence was accommodated with a seat within the enclosure kept for members of the Bar.

Mr. Hardison opened the case for the Crown.

John Metcalfe, the first witness called, was sworn—I am now employed at the old jail. I know the prisoner. He made a statement to me, telling me that he belonged to New York; that he was a gilder by trade, a Roman Catholic by religion; that he came from Honeyeye to Buffalo; that on Thursday, 31st May, he came over from Buffalo to Fort Erie; that he was arrested on Saturday between the hours of 10 and 12 o'clock, in a barn; that a man of the name of John Hughes crossed over with him, and that a man he did not know paid their passage over. He said he formerly belonged to the American army.

John Stockwell, sworn—On Saturday morning, about 4 o'clock, I saw the prisoner alone in front of my house. He carried a rifle with a bayonet on. I asked him where he had been, and he said he had been out all night, and that he had been with the Fenians, but that he had left them on the town line.

Joseph Newbiggin also testified to the same effect, saving he saw prisoner armed with rifle and bayonet.

William Miller and Lieut. Schofield corroborated the evidence of the former witnesses.

For the defence, John Hughes was called—I know the prisoner, we were working together at Honeyeye until the 23rd of May, when finding we could get no work we went to Buffalo, Sleven said they could give him no work for the present. We afterwards were walking in the street when a man, whose name I since learnt was Simon who keeps a tavern, met us and asked us if we wanted work to which I said yes. He then said he wanted some men to go over and work in Canada on the Erie and Ontario Railroad. Afterwards a gentleman gave us an order to go over to Fort Erie on the ferry boat. We went over and saw the foreman who told us we could go to work in the morning, I then asked him where we would get board and he sent a man up with us to Smith's tavern. After having several drinks we went to bed. At that time there was no talk about any one coming to Fort Erie. I got up about five o'clock in the morning for the purpose of going to work, and while waiting for breakfast a lot of men came in and eat up everything in the place. When I went to go out a man with a gun and bayonet stopped me and soon after more came up. They then kept us prisoners about an hour.

James Andrews sworn—I reside in Buffalo. I work at Taylor and Corney's, in that city. I have known the prisoner for some years as a respectable man, and a good workman. He came to me on the 31st of May to obtain work. I asked him if he was a Fenian at the time, and he said no; I am a Scotchman by birth, and have resided for 15 years in the States.

Jane Smith sworn—I am wife of J. Smith, who keeps a tavern at Fort Erie. On the evening of the 31st the prisoner and Hughes came to their house, had supper, and went to bed. Next morning the Fenians arrived and surrounded the house. They had breakfast. Heard Sleven and Hughes say they were not Fenians that they came over to work on the Road.

Mr. McKenzie, in a long and able speech, addressed the Jury on the behalf of the prisoner.

Hon. J. H. Cameron replied for the Crown.

The Jury then retired, bringing in a verdict, after a short absence, of guilty.

The prisoner was then sentenced to be hung on the 13th of December.

OTTAWA, NOV. 7.

The Council met this evening. Present the Hons. Messrs. Blair, McDonald, Cartier and Campbell. Another meeting will be held tomorrow forenoon, afterwards Hons. Messrs. Cartier and McDonald will leave for their respective homes to prepare for England. Messrs. Belleau and Chapais did not arrive here yesterday as stated. Hons. Messrs. Campbell and Blair will remain here for some time.

[By Telegraph.]

### GENERAL PRESS DESPATCHES.

The N. Y. Herald's Washington special says it is stated on good authority that Secretary Stanton never has been requested to resign, but will continue in charge of the War Department. The report that he and the President have had a misunderstanding in relation to the new appointments in the regular army is totally untrue. The President has fully concurred in Mr. Stanton's action in regard to them. At the Cabinet meeting, to-day all the members were present, including Mr. Seward. It is understood the Mexican question was fully discussed.

The Post's money article says: Money active but easy at 5 to 6 per cent. Stocks dull. Governments firm. Railroad shares irregular. Early in the session there was a perturbed and feverish feeling, which, towards the close, gave place to an activity, which caused some improvement. After the regular board quotations were: N Y C 120⅛; Erie 82½; Hud 123; Reading 116¼; M S 92⅛; Ill C 125; Pitts 92½; N W 57⅛; N W pref'd 79½; Tol 120; R I 110¼; F Wayne 109¼

Oswego, Nov. 7—The North-Western Elevator was destroyed by fire last night. There was in it 150,000 bushels of grain, insured for $220,000. The Elevator was valued at $150,000.

Philadelphia, Nov. 7—Returns from Delaware show the Democrats majority in that State at 1000.

Boston, Nov. 7.—The steamship China sailed this morning, taking 122 passengers for Liverpool.

New York, Nov. 7.—Charles Halpine alias Miles O'Reilly is elected Register by over 19,000.

Hudson, N.Y., Nov. 7.—Ketcham is elected to Congress in the 12th district by 18,000.

Putnam County elects Radford (Dem.) member for Congress.

Newark, N.J., Nov. 7.—Hill, Republican, is elected to Congress.

New York, Nov. 7.—The following additional foreign news was received by the Java:—

Trieste, Oct. 27.—The condition of the health of the Empress Charlotte, of Mexico, remains unchanged.

Alexandria, Oct. 25.—News from Greek sources states that a great battle took place in Candia on the 17th inst. between the Cretans, numbering 20,000 and the combined Turkish and Egyptian troops, numbering 30,000. The latter are said to have been repulsed and Ishmael Pasha wounded.

The American Elections.—Tuesday was the great field day of American politics. Eleven States held elections, which determined the character of their representation in Congress as well as in the Legislatures of their own States. In most of these States the result was hardly doubtful, even before the election; but in New York, the corrupt populations of the great cities having always been democratic, it has been rarely possible to beat the various interests which are there arrayed and banded together. Nevertheless, it appears that in spite of the majority of more than 40,000 polled for the democratic party in New York and Brooklyn cities, the rural districts have been powerful enough to place Mr. Fenton again in the chair of Governor of the State. In other respects the election was not decisive, as opinion in the several electoral divisions was not likely to be greatly changed, and any alteration in one was likely to be pretty fairly balanced by alterations elsewhere in an opposite direction. There seems, however, in the whole State to have been a considerable augmentation of strength to the republican party. That party has also carried the New England and great North Western States with an overwhelming preponderance of force, which must make it utterly impossible for Mr. President Johnson's policy to be successful, in opposition to the Republican or Congressional party.

Another Mission.—The *Minerve* learns from "a certain source," that the Hon. Mr. Chauveau has obtained from the Government a leave of absence of six months, and that he is about to depart soon for Europe. "Mr. Chauveau," it adds, "is "charged to study the organization of the "different systems of instruction, with a "view to the perfection of ours as soon as "possible. Such a mission is adapted per-"fectly, without doubt, to the literary "tastes of our hon. Superintendent of public instruction. We hope that it will result profitably to our system of Education. In the absence of Mr. Chauveau, "Mr. Giard will perform the functions of "the Chief of the Department."

Chloroform in the Slaughter House—We mentioned a few days ago the solicitude of the Society for the Prevention of Cruelty to Animals of New York on behalf of the ill-used turtles. They found on application to Professor Agassiz that turtles undoubtedly had feeling, and that if they had their own choice they would be quite averse to being turned on their backs and holes bored through their fins. The society having settled that important and interesting question, have now directed their attention to slaughter-houses, and want to know whether a butcher might not administer chloroform to a bullock before knocking it on the head, or to a pig before cutting its throat. Professor Draper, the chemist to whom they applied, says he is not able to state what the effects of chloroform, administered immediately before death, might be upon the flesh of animals killed under such circumstances, but he suggests that the most important consideration in such cases is how the killing may be done quickest. Had the reply of the Professor been favourable, we might next have heard of the application of anæsthetics to the oyster before the unhappy esculent is subjected to the rude and fatal shock occasioned by the forcible opening of the shell.

The Quebec Sufferers.—At a recent meeting of the Relief Committee in Quebec, the Mayor acknowledged the receipt of three telegraphic despatches, per the Atlantic Cable, from England, impowering him to draw upon Baring Brothers, and Glynn, Mills, Currie & Co., for £500 stg., each, and upon Baring Bros., for £1500 stg., additional, an instalment of the fund now being raised for the relief of the Quebec sufferers, and for £1000 stg., for the same object upon Messrs. Haywood & Co., of Manchester.

Reported Appointment.—It is reported in the *Minerve* that Mr. L. A. Casault, Lieutenant in the 100th Regiment, is named Assistant Adjutant-General in the place of the late Lt.-Col. Suzor.

Earthquake in Fredericton.—A correspondent of the St. John, N.B., *Telegraph* says there were several distinct shocks of earthquake at Fredericton shortly after midnight on the 1st inst.

It will be observed from our telegraphic report that another of the Fenians, John Sleven, has been sentenced to be hanged on the 13th December.

### THE POPE ON FENIANISM AND ANNEXATION TO THE STATES.

It appears that some persons who, one would suppose, had their own business to attend to, and who besides live a great way off, take a vast interest in the affairs of Canada. We find that the Diplomatic Correspondence of the American Government for the year 1865 contains a despatch from Mr. King, the U.S. Minister at Rome, dated 18th Nov. 1865, transmitting to his Government an account of an interview with the Pope, from which the following is an extract:—"His Holiness remarked that a great political agitation disturbed all the continent, and that difficulties were in preparation not only in Italy, but in Germany, in Spain, in France, and in England. Ireland was at present excited, agitated, and menaced by Fenianism. The Fenian movement, he said, to his knowledge, would not only affect the English domination in Ireland, for but Canada, which is famenes exposed frontier, offers an easy prey, and it is there the Fenians will carry the war. It would be better for all parties, added his Holiness, that the United States should take Canada and include it in the American Union, than to permit the Fenians to take possession. It would be better that the thing should be done by a Government regularly constituted than by a revolutionary organization, without responsibility, under no control, and capable of any excess."

### CITY COUNCIL.

A special meeting of the City Council was held last night, Acting-Mayor Ogilvie in the Chair.

PETITIONS RECEIVED.

From the Butcher's at St. Gabriel market, calling attention to its inadequacy and praying for certain improvements.

From proprietors on Beaudry street, complaining that the proprietors in Ontario street have not been assessed for the widening of Beaudry street.

From proprietors in St. Felix street, complaining of part of that street having been closed.

From Widow McQuinlin, for relief from the Road Committee.

From the ladies of the Bon Pasteur, complaining of the assessment laid on them for the widening of Sherbrooke street.

The petitions were referred.

PROTEST.

From Wm. Dow, against tapping the Little River and diverting it into a street drain in William street.

REPORTS.

From the Road and Finance Committee recommending to increase the salary of Mr. Lamontagne by $400, from 1st of October.—Carried.

Councillor Brown called attention to the narrow strip of ground on Jacques Cartier Square, as being unsuitable for being laid off in ornamental grounds.

WEST WARD.

Councillor Isaacson called attention to the fact that the West Ward was unrepresented, and asked what steps were taken to fill up the vacancy.

Alderman Gorrie explained that Mr. Mullen had brought the decision in his case before the Court of Review, and until the case was heard nothing could be done.

REPORTS.

From the Finance and Road Committees recommending an additional appropriation of $5,000 to the Road Committee for unforseen expenses.—Carried.

From the Special Committee on the Drill shed, reporting that all the land required had been acquired at a cost of $40,967, leaving a balance of $20,000 of unexpended bonds for building, which with $10,000 expected from the Government and the sale of old building material estimated at $2,000, will leave a sum still to be voted.

Alderman David opposed the sale of the building material until the sum expected was obtained from Government, and plans and specifications got, as in that part of the town where it was proposed to build, an ordinary shed could not be put.

Ald. Gorrie said that the Committee were anxious to have the necessary authority so as to get the matter settled. Until that was done the property was getting deteriorated.

Alderman Bowie contended that the agreement undoubtedly was that the material was to be sold at once, as soon as the title deeds were received.

The report was ordered to be laid on the table till next meeting.

A motion to adjourn was put and lost.

Alderman moved that, in the opinion of this Council, it is expedient to raise the walls of the reservoir ten feet higher, to increase the supply of water, and that the Water Committee be instructed to enquire into the possibility of the work being done, and to report as to the expense. In considering and reporting upon this matter, he wished that the question as to safety should also be enquired into.

Councillor McGauvran said there might be no question as to the possibility of raising the walls, but there were other more pressing necessities. In the meantime he thought that with scarcely less than a quorum present, it would be advisable for Alderman David to withdraw his motion to-night.

Alderman David agreed to withdraw his motion, which he would bring up at next meeting.

Councillor Brown said that the Water Committee were opposed to the proprosal of Alderman David.

Alderman Contant moved that legal proceedings be adopted against the establishment of a soap and candle manufactory in Jacques Cartier St., until the necessary permission has been obtained from the Committee.

Councillors Masterman and Brown said that the factory had been established forty years, and it was a question for the Attorneys of the Corporation to settle whether it was against the law. If contrary to the law, then that legal proceedings should be taken against it. In this shape it was carried, and the Council adjourned.

### MONTREAL GARRISON ATHLETIC GAMES.

We published yesterday the result of these games, without any details, which we now give. On Monday the weather was by no means favourable, for although the sky overhead was of the clearest blue, the air felt cold and frosty, and the cricket field, owing to the recent rains, was in places nothing but mud and mire. Notwithstanding these drawbacks, the number of people present was considerable, while the Garrison, in particular, were present in force. Shortly after the games had commenced, the stand, through carelessness of construction, gave way, and all its occupants were precipitated to the ground. Wonderful to relate, all escaped serious injury, a few sprains and bruises being the only consequences.

The first of much interest was the 100 yards race (No. 3 on the programme), for which more than half a dozen started, the favourite being Private Hackinly, 25th K O B., who justified expectation by coming in first, closely followed by Pte Paget, 23rd R W F. The heavy nature of the ground was greatly against the men in this as in the other trials of speed of the day.

In the next race, Sergt Daly, K O B, had the good fortune not to fall at the corner, as did his competitors, in consequence of the slushy state of the ground, and owing to this won the race, though apparently inferior in point of speed to his opponents.

In the half mile race, again the heaviness of the ground was against the men. Pte Andrews, 25th K O B, won very cleverly, waiting most judiciously and putting on a spurt at the right moment.

The Officers' flat race, 100 yards, was easily won by the Hon. Major Monyn, 23rd R W F.

At the running wide jump, Pte Hackinly, K O B, again took the first, Pte Dorkin, 13th Hussars, pinning him very closely.

Horseman versus Footman and Single Stick finished Monday's proceedings, the other races being deferred till Tuesday, in consequence of the unfavourable nature of the ground.

The Footman, Private Sanson, K. O. B., who had far the best of it, won easily. His antagonist, the Sergeant Major R. A., lost his temper sadly, we are afraid, for in the last bout, after being fairly run through, he gave Pte Sanson such a rap over his exposed knuckles as must have made the sufferer wish his bayonet had not a button on its point. We have no doubt, however, the prize went far to mollify the bruise. And so ended the games of the first day, in which the 25th K. O. B. were enormously fortunate in having taken away the Lion's share of the prizes, exactly half the first's and two seconds.

The weather was clear and warm on Tuesday, and in every way favourable to the games. The first run, three hundred yards over hurdles, was taken by Private Dorkin, 13th Hussars, who from his performances on this day appears to be a crack runner. The veterans race was won by a 13th Hussar, who was closely pressed by Col Fane, K. O. B. Indeed we believe if that gallant officer had dispensed with the extra weight which he carried in the shape of a tall hat, he might have won the day, without at all detracting from his appearance as a grand runner. For the boys race only two entered, a 23rd and 25th. It was very well contested, but the former and lighter of the two, won by a yard.

But the race of the day, and indeed of the Games, was the quarter mile. In this, Hackinly, 25th K. O. B.'s was the favourite. There was a good deal of betting on the result, and at the start, Hackinly stood at 5 to 4, and after 2 to 1. Private Dorkin of the 13th was his most formidable rival, and justly too, as the sequel showed. About nine started. Hackinly got well away leading by about 4 yards, 2 to 1 being freely offered on him. Toward the east end of the Champ de Mars, he passed inside one of the flags and had to stop and repass it properly. This took away most of his lead, but he was still slightly ahead, till within 20 yards of the winning post, he appeared greatly exhausted and was passed by Dorkin, who rushed in with ease, leading by 3 or 4 yards.—A 23rd man also passed Hackinly, who in this way was only pulled off third, much to the surprise of his backers and the public generally, with whom he had a capital reputation.

The officers race over hurdles was easily won by Mr. Williamson, 23rd R. W. F., who with a liberal allowance of legs and no weight to carry above laughed at his opponents, Capt. Lesllie, 25th K.O.B, coming in second.

At the Cricket ball throwing Mr. Henneage, R.E. was first, throwing 106 yards: Mr. Littleton, R.B., throwing 98 yards. The throwing of the men was on the whole poor.

The Consolation race was won by Pte Casy, 13th Hussars, but as he had been in partnership with the victorious Pte Dorkin in the three legged race and had halved that first, he was accused by the unsuccessful, agitated, and mendacious by Feniamism. The Fenian movement, he said, to his knowledge, would not only affect the English domination in Ireland, for but Canada, which is famenes exposed frontier, offers an easy prey, and it is there the Fenians will carry the war. It would be better for all parties, added his Holiness, that the United States should take Canada and include it in the American Union, than to permit the Fenians to take possession. It would be better that the thing should be done by a Government regularly constituted than by a revolutionary organization, without responsibility, under no control, and capable of any excess."

### CITY COUNCIL.

A special meeting of the City Council was held last night, Acting-Mayor Ogilvie in the Chair.

PETITIONS RECEIVED.

From the Butcher's at St. Gabriel market, calling attention to its inadequacy and praying for certain improvements.

From proprietors on Beaudry street, complaining that the proprietors in Ontario street have not been assessed for the widening of Beaudry street.

From proprietors in St. Felix street, complaining of part of that street having been closed.

From Widow McQuinlin, for relief from the Road Committee.

From the ladies of the Bon Pasteur, complaining of the assessment laid on them for the widening of Sherbrooke street.

The petitions were referred.

PROTEST.

From Wm. Dow, against tapping the Little River and diverting it into a street drain in William street.

REPORTS.

From the Road and Finance Committee recommending to increase the salary of Mr. Lamontagne by $400, from 1st of October.—Carried.

Councillor Brown called attention to the narrow strip of ground on Jacques Cartier Square, as being unsuitable for being laid off in ornamental grounds.

WEST WARD.

Councillor Isaacson called attention to the fact that the West Ward was unrepresented, and asked what steps were taken to fill up the vacancy.

Alderman Gorrie explained that Mr. Mullen had brought the decision in his case before the Court of Review, and until the case was heard nothing could be done.

REPORTS.

From the Finance and Road Committees recommending an additional appropriation of $5,000 to the Road Committee for unforseen expenses.—Carried.

From the Special Committee on the Drill shed, reporting that all the land required had been acquired at a cost of $40,967, leaving a balance of $20,000 of unexpended bonds for building, which with $10,000 expected from the Government and the sale of old building material estimated at $2,000, will leave a sum still to be voted.

Alderman David opposed the sale of the building material until the sum expected was obtained from Government, and plans and specifications got, as in that part of the town where it was proposed to build, an ordinary shed could not be put.

Ald. Gorrie said that the Committee were anxious to have the necessary authority so as to get the matter settled. Until that was done the property was getting deteriorated.

Alderman Bowie contended that the agreement undoubtedly was that the material was to be sold at once, as soon as the title deeds were received.

The report was ordered to be laid on the table till next meeting.

A motion to adjourn was put and lost.

Alderman moved that, in the opinion of this Council, it is expedient to raise the walls of the reservoir ten feet higher, to increase the supply of water, and that the Water Committee be instructed to enquire into the possibility of the work being done, and to report as to the expense. In considering and reporting upon this matter, he wished that the question as to safety should also be enquired into.

Councillor McGauvran said there might be no question as to the possibility of raising the walls, but there were other more pressing necessities. In the meantime he thought that with scarcely less than a quorum present, it would be advisable for Alderman David to withdraw his motion to-night.

Alderman David agreed to withdraw his motion, which he would bring up at next meeting.

Councillor Brown said that the Water Committee were opposed to the proprosal of Alderman David.

Alderman Contant moved that legal proceedings be adopted against the establishment of a soap and candle manufactory in Jacques Cartier St., until the necessary permission has been obtained from the Committee.

Councillors Masterman and Brown said that the factory had been established forty years, and it was a question for the Attorneys of the Corporation to settle whether it was against the law. If contrary to the law, then that legal proceedings should be taken against it. In this shape it was carried, and the Council adjourned.

### MONTREAL GARRISON ATHLETIC GAMES.

We published yesterday the result of these games, without any details, which we now give. On Monday the weather was by no means favourable, for although the sky overhead was of the clearest blue, the air felt cold and frosty, and the cricket field, owing to the recent rains, was in places nothing but mud and mire. Notwithstanding these drawbacks, the number of people present was considerable, while the Garrison, in particular, were present in force. Shortly after the games had commenced, the stand, through carelessness of construction, gave way, and all its occupants were precipitated to the ground. Wonderful to relate, all escaped serious injury, a few sprains and bruises being the only consequences.

The first of much interest was the 100 yards race (No. 3 on the programme), for which more than half a dozen started, the favourite being Private Hackinly, 25th K O B., who justified expectation by coming in first, closely followed by Pte Paget, 23rd R W F. The heavy nature of the ground was greatly against the men in this as in the other trials of speed of the day.

In the next race, Sergt Daly, K O B, had the good fortune not to fall at the corner, as did his competitors, in consequence of the slushy state of the ground, and owing to this won the race, though apparently inferior in point of speed to his opponents.

In the half mile race, again the heaviness of the ground was against the men. Pte Andrews, 25th K O B, won very cleverly, waiting most judiciously and putting on a spurt at the right moment.

The Officers' flat race, 100 yards, was easily won by the Hon. Major Monyn, 23rd R W F.

At the running wide jump, Pte Hackinly, K O B, again took the first, Pte Dorkin, 13th Hussars, pinning him very closely.

Horseman versus Footman and Single Stick finished Monday's proceedings, the other races being deferred till Tuesday, in consequence of the unfavourable nature of the ground.

The Footman, Private Sanson, K. O. B., who had far the best of it, won easily. His antagonist, the Sergeant Major R. A., lost his temper sadly, we are afraid, for in the last bout, after being fairly run through, he gave Pte Sanson such a rap over his exposed knuckles as must have made the sufferer wish his bayonet had not a button on its point. We have no doubt, however, the prize went far to mollify the bruise. And so ended the games of the first day, in which the 25th K. O. B. were enormously fortunate in having taken away the Lion's share of the prizes, exactly half the first's and two seconds.

The weather was clear and warm on Tuesday, and in every way favourable to the games. The first run, three hundred yards over hurdles, was taken by Private Dorkin, 13th Hussars, who from his performances on this day appears to be a crack runner. The veterans race was won by a 13th Hussar, who was closely pressed by Col Fane, K. O. B. Indeed we believe if that gallant officer had dispensed with the extra weight which he carried in the shape of a tall hat, he might have won the day, without at all detracting from his appearance as a grand runner. For the boys race only two entered, a 23rd and 25th. It was very well contested, but the former and lighter of the two, won by a yard.

But the race of the day, and indeed of the Games, was the quarter mile. In this, Hackinly, 25th K. O. B.'s was the favourite. There was a good deal of betting on the result, and at the start, Hackinly stood at 5 to 4, and after 2 to 1. Private Dorkin of the 13th was his most formidable rival, and justly too, as the sequel showed. About nine started. Hackinly got well away leading by about 4 yards, 2 to 1 being freely offered on him. Toward the east end of the Champ de Mars, he passed inside one of the flags and had to stop and repass it properly. This took away most of his lead, but he was still slightly ahead, till within 20 yards of the winning post, he appeared greatly exhausted and was passed by Dorkin, who rushed in with ease, leading by 3 or 4 yards.—A 23rd man also passed Hackinly, who in this way was only pulled off third, much to the surprise of his backers and the public generally, with whom he had a capital reputation.

The officers race over hurdles was easily won by Mr. Williamson, 23rd R. W. F., who with a liberal allowance of legs and no weight to carry above laughed at his opponents, Capt. Lesllie, 25th K.O.B, coming in second.

At the Cricket ball throwing Mr. Henneage, R.E. was first, throwing 106 yards: Mr. Littleton, R.B., throwing 98 yards. The throwing of the men was on the whole poor.

The Consolation race was won by Pte Casy, 13th Hussars, but as he had been in partnership with the victorious Pte Dorkin in the three legged race and had halved that first, he was accused by the unsuccessful, agitated, and mendacious by Feniamism. The Fenian movement, he said, to his knowledge, would not only affect the English domination in Ireland, for but Canada, which is famenes exposed frontier, offers an easy prey, and it is there the Fenians will carry the war. It would be better for all parties, added his Holiness, that the United States should take Canada and include it in the American Union, than to permit the Fenians to take possession. It would be better that the thing should be done by a Government regularly constituted than by a revolutionary organization, without responsibility, under no control, and capable of any excess."

### CITY ITEMS.

Throwing Stones.—Yesterday, about twelve o'clock, a boy, about twelve years old, was attacked in Berri Street as he was passing between the school and his parent's house. The gang of young rascals who committed the assault were collected in a crowd, some of them smoking pipes nearly as long as themselves, and ready for any mischief. Fortunately the boy had pluck enough and defended himself with an umbrella which he had in his hand, until assistance reached him. The nuisance is becoming absolutely intolerable, and a special squad of policemen in plain clothes would almost require to be detailed to watch this species of annoyance. A little girl passing along the street a few days ago was stoned and the rowdies who were guilty of this conduct immediately went from her to stone a carter. One gentleman who called to mention some outrages of which he had been witness says he can compare these rowdy boys to nothing but cock roacher, for whom traps should be set. It would seem, however, almost absolutely necessary to have some punishment sufficiently deterrent; the good old-fashioned tawse, with the points well burned, applied over the bare skin, would probably warn some of these lads of the dangers of rowdyism.

Songs of Scotland.—Those who have already heard Mr. Kennedy will need no recommendation to avail themselves of the opportunity of again hearing the Songs of Scotland, given with a beauty but seldom to be met with. Those who have not yet heard Mr. Kennedy, we would recommend not to lose the enjoyment which they may rely upon receiving.—Mr. Kennedy will be at Nordheimer's Hall to-night and to-morrow night, when he will give two entertainments previous to leaving for the United States.

The City Markets.—The New Haymarket Square is now approaching completion and the hitherto fetid creek running through the grounds is being rapidly filled up. This will be a vast improvement to that locality. Part of the creek running through in rear of the barracks should also be filled in, and drains made to connect with the William street sewer, otherwise the barracks will become most unhealthy and dangerous to the lives of the soldiers. In the haymarket square there is great need of a constant supply of water for the horses, as well as for the buyers and sellers who resort to the market, and steps, we believe, will be immediately taken to have the want supplied. A good opportunity will be afforded to erect a neat ornamental structure in the centre, giving access to several horses at once without crowding, and with spouts and vessels for drinking purposes. The weigh house, with dwelling, &c., is a tasteful building, well arranged for the purpose for which it is intended. Already, shops are beginning to cluster round the new market, and when all the improvements projected are completed, a considerable increase in the value of property in the neighbourhood will be the result. In St. Gabriel market there is great room for improvement. Its position should make it one of the most important Cattle markets in the city, as it is close to the Grand Trunk Railway and would, generally speaking, be preferred by Upper Canadian dealers arriving with fat cattle. But at present there is no proper shelter, and the open yard in wet weather is very muddy and altogether unfit for keeping animals. Arrangements are to be made for a supply of water. The outlay of a moderate sum of money would give accommodation for two or three years, and care could be taken in the meantime to provide for an extension. Even if, however, the Corporation were not disposed to expend much money on the market, the assurance that it would be allowed to remain there for some years, would encourage proprietors in the neighbourhood to provide suitable and shed room, which they will never think of doing as long as it is uncertain whether it may not be abolished as a cattle market in the course of another year, although no better situation could be found for the purpose than this site.

Impudent Theft.—A man named Edward Eagan, while removing his furniture to a house in McCord street, was accosted by a young man who volubly offered his services to assist him. The benevolent stranger passed about for some time, and at last, when Mr. Eagan's back was turned, made off with two great coats, in the pocket of one being $21.15. Eagan is a poor man, on whom the loss falls heavily. The thief has not yet been found.

Police Court.—Octave Durette, arrested for stealing clocks, was examined yesterday. On the representation of the detectives that several other cases would be brought forward, he was remanded. Six or seven persons who had lost valuables appeared and identified some of those which Durette had pawned.

Recorder's Court.—The cases, 19 in all, were of the usual description, fines from $1 to $5 being inflicted.

### MONTREAL AND PICTOU COAL COMPANY.

The importance attached by Dr. Dawson, in his letter which we publish to-day, to the beds of coal on the southern bank of the great conglomerate, opposite New Glasgow, now being worked by Mr. Haliburton and others, induced us, on Monday last, to pay the work a visit. We mustered courage to descend into the working pit which is now being sunk. It is 14 feet by 15 feet, and is now 100 feet deep. The proprietors intend working the coal at a depth of 200 feet. The pit has already passed through one band or seam of coal 11 feet in thickness. This was succeeded by excessively hard bands of fireclay and freestone of 21 feet, and the pit is now passing through another seam of coal 9 feet thick, beneath which there is another seam of excellent quality, the thickness of which has not yet been proved. No doubt is entertained that these beds of coal are the equivalents of the main seam. Professor Dawlis, a few years ago, predicted that the main seam would be found, either converted into one solid seam from its parts giving out, or divided into several workable seams by the partings increasing in size. The first idea has been verified in the Campbell seam, and the second at the locality of which we are speaking. On ascending the hill where the works are situated, we were greatly struck with the panoramic view of the extensive valley in which the Pictou Coal Basin is situated. Before us lay the East River, with New Glasgow to the left, and the railway bridge crossing the river, and the Albion Mines Village to the right. In the distance we could see M'Lennan's Mountain forming the southern limit, and Fraser's Mountain the northern boundary of the coal field, enclosing a valley which winds out of sight in the direction of Merigomish. The foreman, however, did not seem to care so much for the picturesque as we did, considering it a much more interesting feature in the landscape that a gradual incline of a few hundred yards would suffice to connect the works either with the Provincial Railway, or with a shipping place on East River. This undoubtedly is an important point. We understand that Mining Engineers in their estimate consider 1½ mile sufficient to put the colliery in working order, with an incline to the Provincial Railway, steam engines, &c. There is a town near to supply lodgings to miners, and also a [illegible] for such works. All these local advantages will save the enormous outlay usually necessary before getting at the "black diamonds."

The company now being organized to work this property is incorporated under the name of the Montreal and Pictou Coal Company, and has our best wishes for its success.

The same seams must cross under the river and town of New Glasgow, following the course of the conglomerate towards Fraser's Mountain, in which direction the Merigomish Coal Company are also exploring for the northern crop of the Albion Mine seams. Should they be successful we shall not fail to pay them a visit. When it is remembered that hitherto these seams have been supposed to be at least 2,400 feet deep near New Glasgow, the importance of finding them in a workable position at our very doors can hardly be over-estimated. Until very recently almost every one regarded the explorations opposite New Glasgow as a very hopeless undertaking; the proprietors, therefore, have done a good service to the public by persevering until they proved their point, and we trust they will be handsomely repaid by the result.

We may state that the coal turned out has the appearance of being a very good quality. Part of the 9 feet seam consists of very hard coal, which, at first sight, persons unacquainted with would pronounce to be nothing else than black rock. It is, in reality, however, similar to coal used for smelting purposes. When lighted it burns with a steady flame, and emits a great heat. We understand that Mr. Haliburton intends having it thoroughly tested in a few days; when we hope to be able to inform our readers as to the result.—*Eastern Chronicle.*

### THE FENIAN TRIALS AT TORONTO.

PENJAMIN PARRY.

The trials of the Fenian prisoners were resumed at Toronto on Monday.

Benjamin Parry was placed in the dock. He is a young fellow—according to himself, fifteen years old, but looks a year or two older—has a light complexion and blue eyes, and an innocent appearance. His mother and other friends were present.

[We have already given the nature of the evidence in this case by telegraph.]

His Lordship charged the jury. He opened by an explanation of the theory on which the trials were conducted. The law was intended to be for the protection of every individual. If there was anything wrong in the law as announced by the judges, it was only necessary to appeal to the Legislature to set it right. The law was intended for the protection of society. The Queen and the Crown were nothing more than the embodiment of society at large. The Queen and the Crown prosecuted criminal offences for the good of all. The object of the Crown was not to gain conviction, but to see the law administered. Courts were to determine the law; juries the facts. The Crown says the man in the dock has committed an offence against society, by being in arms against Her Majesty on the occasion spoken of—by having the intention of levying war against the Queen. Some people, unquestionably, did not take the trouble to think at all; and it is very likely that if the majority of those who came had really viewed their conduct in the light in which the Crown put it, they would not have come at all. If they were told that they were levying war against the Queen, and would infallibly none the people of the Province to an assertion of their rights, very likely they would never have ventured over. But that they did come there was no denying. What, then, was their intention in so coming? The simple principle on which to determine such cases, was to infer what a man thought from what he did. In the case before the Court, though the evidence does not show the boy himself to have directly committed any of the acts charged in the indictment, yet if associated with those who committed them, he was quite as responsible as they were. Having shown that his youth was no excuse, his Lordship went on to say in this country, unfortunately—numbers of young men led disreputable lives. They would not be controlled by their parents—they were quite docile or tractable enough to be governed by those having their interests really at heart. It had not been proved to be the case as far as the prisoner was concerned; but it happened too frequently. As to prisoner's confession, the law did not exclude a man's confession unless it were obtained improperly—through threats, promises, or coercion. Having entered into the merits of the evidence, his Lordship urged that the Jury should consider the evidence dispassionately and reasonably.—He was sorry to see the young man occupy a place in that dock—sorry for his own sake, and, also that of his mother. But they had not to act according to their feelings, but according to their sober judgment. As a matter of feeling he would say let them off—it is better they should all go. But what would be the consequences? The fact was, they would be moral cowards and worse if they refused to pronounce the verdict of their own calm judgment, and say guilty if they felt the prisoner was guilty. At the same time, it was their bounden duty to give the prisoner the benefit of every reasonable doubt.

Mr. McKenzie submitted various objections to his Lordship's charge.

The jury retired at twenty minutes past four, and at twenty minutes to six returned with a verdict of "not guilty."

His Lordship then, addressing the prisoner, said—Benjamin Parry, the jury have found you not guilty of the crime charged against you. You know best what your intentions were in being where you were found. That you were there, there can be no doubt. That you were not going to New York either there can also be no doubt. Now, let this be a lesson to you. If you had been convicted, and the Government in its clemency had commuted your sentence, you would probably be consigned for the largest portion of your life, at least, to the Penitentiary. I have no discretion, and I should have passed the sentence of death upon you. Let it, then, sink deep into your mind. Never mind what other people do, do you right; and a boy is always wise when he reflects for himself. Now, it was at least a distinct thing to represent yourself as belonging to the Fenians, and come at their expense to Buffalo. You placed yourself in a fatal position when you did that. It may be that a feeling of generosity prompted you to come over with them, if they treated you well on the way. Very likely they told you that you would be received with open arms; but what could have led you to come from Cincinnati to deprive our people of their land? If you just turn the thing round, what right have we to go to your people and do the same thing if we could. If you had reflected, you would at once have given way. Poor mother seems to be a very respectable women but you got into very bad company, and you yielded to their solicitation. Now you are at liberty; you can go home with your mother, and let this be a lesson to you.

(By Telegraph.)

### MIDNIGHT DESPATCHES.

*(BY ATLANTIC CABLE.)*

Queenstown, Nov. 7, Noon.—The steamer City of Washington, from New York, touched here to-day on her way to Liverpool.

London, Nov. 7.—Great Britain has withdrawn her Legation from Saxony, thereby recognizing the incorporation of Saxony with the Kingdom of Prussia.

It is said that preparations are quietly in progress in Ireland to meet a possible rising.

St. Petersburg, Nov. 7.—The Czar of Russia has formally recognized the Hospodar.

Vienna, Nov. 7.—It is reported that the Emperor of Austria has resolved to appoint a Hungarian Ministry.

London, Nov. 7.—It is stated that the insurrection in Candia has ended.

Liverpool, Nov. 7, Noon.—The market for cotton is not so firm. Prices have declined ⅛, and the sales to-day are but 10,000 bales; Middling Uplands 15d. The Tallow market is firm. Petroleum heavy.

London, Nov. 7, Noon.—Consols for money opened at 89¾. I. C. 77; Erie 51.

Constantinople, Nov. 7.—An insurrection has broken out in Candia. It was officially stated that three fights had occurred at Gedeada, in which the insurgents lost 112 killed. All the Sphakiot chiefs, thirty in number, have submitted. Akeff Pasha will be Governor of the Island, and a further concession for the
