## GERMAN LINES DISRUPTED BY SOVIET DRIVE

Eleven Hitlerite Counter-Attacks Repulsed with Heavy Losses—Russians Advance 16 Miles in 24 Hours.

By JUDSON O'QUINN  
Associated Press Staff Writer  
London, Nov. 6.—(AP)—Soviet forces swarmed down from the North into the Northern and Western suburbs of Kiev to outflank that historic cathedral city and surround it on three sides in a major new Russian drive that broke through two German defence lines, Moscow announced today.

Entrenched for more than a month on a Dnieper River island a few hundred yards from the Eastern cliffs of Kiev, the Russians suddenly pounced down on the city from their bridgehead in the North and in a 16-mile advance in 24 hours broke the German defence lines one after the other.

A number of strongly fortified settlements fell to the victorious Russians as large German forces fled, a midnight communique supplement said.

The Russians captured Prjorka, three miles North of Kiev, and then smashed into Svyatoshin, four miles to the West, cutting first the railway to Korosten, 82 miles to the Northwest, then the road to Zhitomir, 80 miles to the West.

"Large enemy forces were routed."

## COAL WALKOUT PARLEY TODAY

By JACK WILLIAMS  
Canadian Press Staff Writer  
Ottawa, Nov. 6.—(AP)—Hope for immediate settlement of the strike of 8,600 Alberta and British Columbia coal miners today rested on a conference between Labor Minister Mitchell and a miners' delegation.

Robert Livett, District 18 President of the United Mine Workers of America, said he expected to be able to make "an important statement" after today's conference.

Mr. Mitchell called off a meeting scheduled for last night with the explanation that the Cabinet still had the matter under consideration. The Cabinet met for more than four hours yesterday afternoon at a special session and planned another meeting for this morning.

The Minister did not see the mine delegation yesterday. While he was conferring with his Cabinet colleagues, the union officials went to the Confederation Building, where the Minister's offices are located, and conferred with Deputy Labor Minister Arthur MacNamara and M. M. Maclean, Director of the department's Industrial Relations branch.

The striking miners are seeking, among other things, a general increase of \$2 a day.

During the afternoon the union representatives received a reply from Calgary to the proposal advanced at last night's conference with the Minister. Mr. Mitchell was also informed of the contents of the message from Calgary but they were not made public.

Mr. Livett had made train reservations to leave for the West. He cancelled them when last night's meeting was postponed. The three other members of the delegation, John Stukalski, District Vice-President, Donald McDonald and Michael Sussnar, Board members, had originally planned to leave Ottawa by air last night, but when they were unable to obtain priorities they delayed their departure until today.

## Post-War Reconstruction Given Deep Study By E. T. Trade Boards As Fall Meet Hears James Report

Granby, Nov. 6.—With foremost consideration given to the problems of post-war reconstruction in the Eastern Townships, highlighted by an announcement of an annual grant of \$1,500 to further the work of the E.T. Settlement Society, one of the largest and most representative fall meetings of the Eastern Townships Associated Boards of Trade and the Eastern Townships Settlement Society was held here yesterday, presided over by Mayor P. Horace Boivin.

President of the E.T. Associated Boards of Trade, and George W. Murphy, President of the E.T. Settlement Society.

Discussion centred around the various resolutions presented at this session, seeking to rehabilitate the farming areas, as well as alleviate the immediate post-war conditions in the more urban districts, where industry and trade would be confronted with acute problems of readjustment to the immediate necessity of a new way of living.

Opening the session, Mayor Boivin extended a cordial welcome to the City of Granby, which in deference to his position as President of the E.T. Associated Boards of Trade, acted as hosts to the assembly yesterday.

"Telling of the consideration of the executive committee to make the fall meeting strictly one in which the post-war needs of the Townships would be discussed, Mayor Boivin then turned the meeting over for resolutions which had been prepared for presentation.

J. A. Ste. Marie, of Lennoxville, then proposed that the meeting seek subsidy payments from the Government for the farmers who sell many of their products. This arose from a question by J. N. White, of Coaticook, relative to the use of coupons for such purchases, which was explained by Capt. Giroux, Provincial Director of Rationing, who said that coupon methods of obtaining rationed food items had been found necessary in order to insure equitable distribution of such necessities to those who could afford to buy them, as well as those who could not. The motion was adopted.

Mr. Ste. Marie followed this proposal by another which suggested that the E.T. Associated Boards of Trade demand that the Government forbid the cutting of maple trees, which formed a remunerative source of revenue for the farmers, and whose continued growth was necessary for the consumers, today.

It was proposed by L. N. Audet, of Sherbrooke, and seconded by Clayton Ball, of Granby, that some means be taken to study the necessity of keeping farmers on the farms, suggesting that they be given encouragement to build needed improvements, as well as being encouraged by finding better markets for their farm products.

Granby, Nov. 6.—Discussing post-war reconstruction in Canada, under the theme of "Preparing for Canada's Tomorrow," Dr. E. Cyril James, Principal and Vice-Chancellor of McGill University, Montreal, and Chairman of the National Advisory Committee of Reconstruction, told a united meeting of the Canadian Manufacturers Association, Eastern Townships Associated Boards of Trade and the Eastern Townships Settlement Society here last evening that "The Canada that will face the world after the last gun has fallen silent will be an entirely different country from that in which we are now living."

"Private enterprise," said Dr. James, "has a direct and primary influence on reconstruction," as he outlined the various measures necessary for a complete rehabilitation of this vast Dominion in immediate post-war days.

Discussing income, Dr. James said that in the last depression the national income was 2.8 billion dollars, while in 1939 it rose to 3.9 billion dollars, but that this year the staggering total of 8.4 billion dollars will be received in Canada's national income," which presents a figure never before dreamed about. Today we are spending more on the war effort alone than the total income figure of 1939," he stated, "and this ties in with the fact that 750,000 of our best men and women are in the armed services."

"There is a greater war effort in Canada today than in any other nation with the possible exception of Great Britain," said Dr. James. "The impact of the war on Canada has resulted in a vast expansion of our agricultural output of bacon, eggs and dairy products, plus a continued high production of wheat to meet the former demand."

"Competing with this," he said, "is an expansion of many types of industry in both basic as well as secondary lines, which results in an increased supply of skilled labor, now producing materials of war and munitions. Today five out of eight, over 14 years of age, are at work or in the armed services."

War work has resulted in a reduced output of many types of goods which will create a substantial backlog of demand at the end of the war, he informed his audience. Increased national income and general employment is making possible an accumulation of funds for post-war spending, he said.

In telling of the post-war needs of this country, Dr. James said that "the existence of greater productive capacity, a backlog of demand and accumulated buying power will be of national aid in the carrying out of our reconstruction policy after the war."

Nassau, Bahamas, Nov. 6.—(AP)—The questions of Attorney General Eric Hallinan had laid bare Alfred de Marigny's private life today before the Bahamas Supreme Court jury which is trying him for the murder of Sir Harry Oakes, his wealthy father-in-law.

The husband of Oakes' eldest daughter, Nancy, managed to hurry with some thrushes of his own, while every spectator who could squeeze into the tiny courtroom listened to the heated exchanges.

Outside the courthouse police halted the sale of soap boxes offered at two shillings (50 cents) apiece for use as seats inside, and officers held back a crowd. Chief Justice Oscar Bedford Daly barred camp chairs from the courtroom, and permitted

London.—Seven hundred United States heavy bombers attacked German industrial targets at Gelsenkirchen and railway yards at Muenster yesterday, United States Army Air Force Headquarters announced early today.

## Eisenhower Is Confident Germany's Complete Defeat Will Be Achieved

Allied Headquarters, Algiers, Nov. 6.—(AP)—Gen. Dwight D. Eisenhower assured American military and civil forces in this theatre last night that Germany's utter defeat—even if not yet definitely in sight—is certain.

In a message marking the anniversary of the North African landings on November 8, 1942, the Allied Commander-in-Chief in the North Africa theatre added confidently.

"Victory will likewise be ours in the far-off Pacific where Allied forces are already on the offensive."

Declaring that "we are on the mainland of Europe, carrying the battle daily closer to the vitals of the enemy," Eisenhower said:

"More Americans and more of our Allies will continue to follow steadily into the fight. All of us will work together as one. With the gallant and powerful Russian Army pounding the European enemy on the East, and with growing forces seeking out and penetrating the weak spots of his defences from all other directions, his utter defeat—even if not yet definitely in sight—is certain."

In his message—a similar one was sent to British Mediterranean forces—the General emphasized that "the heart of America supports our every endeavor," saying that "reports of sporadic troubles on the home front are occasioned by the ill-considered actions of relatively few individuals."

## SLAVS REPORT NEW SUCCESSES IN MONTENEGRO

Tito's Partisans Fight Fiercely in Wooded Region Near Adriatic Coast Just North of Albanian Border.

London, Nov. 6.—(AP)—New successes in Montenegro by Yugoslav Partisan fighters under Gen. Joseph Broz (Tito) were claimed today, while across the country in the mountainous Bulgarian frontier other patriotic guerilla forces were reported waging an increasingly furious battle against Axis garrisons.

The centre of Balkan resistance continued to be the rugged, densely wooded region near the Adriatic coast just north of Albania, where Tito's army of liberation reported its size was constantly being swelled by volunteers.

A communique from the secret Free Yugoslav radio station said the partisans had seized Biocce, a Nazi stronghold seven miles Northwest of Podgorica near the border of Montenegro and Albania, and that others of Tito's fighters have defeated the Germans in a skirmish near Kolacin and Matecevo.

The Partisans also claimed to have captured the town of Topola in Eastern Bosnia, to have killed 50 Germans in an attack on a motorized column on the Croat-Bosnian border, and to have cut the rail line between Split and Siny in Dalmatia.

The seriousness with which Germany regards the situation in the Balkans and the Eastern Mediterranean, where Axis supply routes and communications lines are threatened, was made apparent again by the Nazis' attempt to regain the Dodecanese Island of Leros by sea-borne landings.

Dispatches from Bodrum on the Turkish coast last night said the Allies had repulsed the attempted invasion, killing 100 and taking seven prisoners.

## RING OF DESTRUCTION AROUND ROME

Stockholm, Nov. 6.—(AP)—The Rome correspondent of the Stockholm newspaper Tidningen, who just returned to Sweden, said today that Allied bombings have left a ring of destruction around Rome, virtually isolating the city.

The correspondent, Gunnar Kamlein, said however, that the interior of the city was untouched by the Allied bombs.

## OTTAWA PARLEY MAY ASK CODE FOR WORKERS

Ottawa, Nov. 6.—(AP)—Dominion Ministers who will confer with Provincial Representatives at a labor conference here next week are expected to discuss enactment of a labor relations code as recommended in a resolution approved by the National Liberal Federation, it was learned today.

After asking that the rights of labor—including the right to bargain collectively—be maintained after the war by such measures as are available to the Dominion Parliament under the constitution, the resolution added that "definite means should be considered now to make this possible."

The resolution was one of 14 "general" resolutions passed at the Federation meetings here September 27 and 28, when Liberals from coast to coast frankly discussed labor and other questions with Cabinet members.

The resolutions were issued to the press today by Gray Tuzo, Liberal Member of Parliament for the British Columbia riding of Cariboo and Honorary Secretary of the Federation.

The Labor resolution stated that the contribution of labor to the war effort demand increasing recognition and declared the Liberal Federation would support vigorous measures to make a labor-management partnership effective through labor-management councils and the participation, wherever appropriate, of representatives of labor on wartime boards and other government agencies.

Associated with the resolution on labor was another dealing with national unity, which said the Federation recognized that effective post-war reconstruction would depend on getting whose destruction is useless for our purpose."

Reuters quoted the Nazi radio as adding that the famous Virgule road

## ALLIES WITHIN SEVENTY-FIVE MILES OF ROME

British 8th Army Slashes on Toward Enemy's Main Supply Lifeline to Tringio River Sector on Adriatic.

By NOLAND NORGAARD  
Associated Press Staff Writer  
Allied Headquarters, Algiers, Nov. 6.—(AP)—Halfway to Rome from its bloody Salerno beachhead, the Anglo-American 8th Army streamed through shattered German defences to the flooded mouth of the Garigliano River on the Tyrrhenian Sea today, while the hard-driving British 8th Army slashed on toward the enemy's main supply lifeline to the Tringio River sector on the Adriatic.

The two armies together overran more than a score of towns and villages in their advances, it was announced at headquarters.

In the advance to the Garigliano River through flatland flooded by the retreating Germans, the British left wing of the 8th Army mopped up numerous villages.

Hope was reviewed that Allied forces would fight their way into Rome, now only 75 miles away, by Christmas or New Year's. The second half of the drive is expected to be fully as tough as the first but the Allies are imbued with confidence.

American troops were fighting on the heights overlooking Venafro, a central anchor of the Nazis' collapsed Massico Ridge line, and the city's fall was believed imminent. All along the 6th Army front German troops were falling back under continuous, heavy pressure toward their next stand along the Aurunci Mountain Range.

(D. N. B. Germany agency, said Nazi troops had evacuated Venafro). It appeared that Nazi evacuation of Venafro was likely because the Germans are in position to be caught there as only one medium road to

## Enlistment Of Men Over 38 Years Of Age Is Discontinued By Army

Compulsory Call-Up of Men Past Their 38th Birthday and Up to 40, Previously Authorized, to Be Stopped.

By FRANK FLAHERTY  
Canadian Press Staff Writer  
Ottawa, Nov. 6.—(AP)—Canada's young man's army whose newest Divisional Commander is only thirty-nine years old, yesterday announced it has turned its back on new recruits who have passed their 38th birthday.

Under a new order the enlistment of men between that age and 45, except in special circumstances, will be discontinued. At the same time, it was learned, the compulsory call-up of men past their 38th birthday and up to 40, previously authorized, will be stopped.

The order says acceptance of volunteers for active service "will be restricted to those who have passed their 18th but not their 38th birthday, and who measure up to a physical standard defined as 'pullems 22222222'."

An army spokesman said medical officers declined to express that rating in terms of the more generally used "A," "B," and "C" categories but that it came obviously "below 'A.'"

The new order is understood to be based on the Army's changing requirements for men and on recent experience with the recruitment of older men following extension of the compulsory call-up of single men to the age of 40.

From the start of the war the top

# Brig, Penhale, Native Of Sherbrooke, Has Received Appointment Overseas

London, Nov. 6.—(C.P. Cable)—Brig. M. H. S. Penhale, of Ottawa, who commanded the 3rd Infantry Brigade in the Sicilian campaign, has been appointed a Brigadier, General Staff, at Canadian Military Headquarters, London, it was announced last night. Brig. Penhale succeeds Brig. N. E. Rodger, of Fredericton, who assumes command of an infantry brigade.

Commanders of two of the three Canadian infantry brigades in Sicily were announced after the campaign. The 1st Brigade was commanded by Brig. Harold Graham, D.S.O., of Trenton, Ont. Brig. Chris Vokes, of Winnipeg and Ottawa, whose appointment as an acting major-

ment and internal prosperity is paramount, he said. "Some 750,000 persons are in armed services, and 1,000,000 in war industry, and in the immediate post-war days, we must prepare for the placing of between a million and a half million and a half persons in new jobs."

If Canada is to prosper most of these jobs must be found in industry, trade and agriculture, Dr. James stated. This brings up the importance of private enterprise, which is the keynote of our post-war planning, and is as fundamental as the other freedoms in the Atlantic Charter.

Experience suggests that we shall also need a comprehensive programme of public investment to supplement the employment opportunities offered by industry, he said, and this will be important especially after the initial post-war boom.

In the problem of Canada's economic relations, Dr. James said that no prosperous solution of Canada's problems can be found in terms of ample opportunities for foreign trade, but that the special problem of rehabilitation of distressed areas during the transition period will occupy the important spot. "Some will be able to pay for what they get, and other countries will need gifts, thus rehabilitation will in effect be the sequel of lease-lend aid."

In discussing the wider problem of international economic relations during subsequent years, he inferred that there will be a vital need for an international monetary machinery, plus a need for lower tariffs and a reduction of other obstacles to trade, while Canada's role of exporter of capital to other countries will reach a new high.

The health of our population is one of the most important assets we have and this must be considered above all else, he concluded, as he mentioned educational needs and immigration problems which will require much detailed study in years to come.

Each and every one of us has a direct responsibility as a citizen, public servant or business man, to give careful thought to the planning of our part in the solving of our reconstruction problems. If we recognize these responsibilities, I am confident, Dr. James said, that Canada's Tomorrow will be fair, not because of greater opportunity but because of greater vision and determination to use the opportunities available, and this will demand the continued effort of all our days if we are to approach the ideals we envisage.

Introduced by W. H. Miner, of Granby, the speaker was thanked by George Murphy, of Sherbrooke. The banquet was held under the auspices of the Granby Branch of the C.M.A., with the E. T. Boards of Trade and E. T. Settlement Society delegates as guests. Walter Wilkins, of Farnham, President of the Granby Branch, C.M.A. presided.

Those seated at the head table included: J. F. Grady, Chairman, Drummondville, C.M.A.; J. C. White, Secretary, Quebec Division, C.M.A.; Carl Bullock, M.L.A., Sherbrooke; W. A. Aviation in the townships next came into the discussions, with a proposal by Leonard Short, of Granby Aviation Ltd., seconded by George Svery, also of Granby, that a committee to study aviation requirements in this district be named at the meeting. The session appointed the following members: Leonard Short, Granby; G. H. Carr, of Sherbrooke; Paul Stark of Coaticook; George Ewing, of Richmond; and Walter Wilkins, of Farnham. This committee will work in conjunction with the Aeronautical Institute of Canada, of which C. R. Patterson, of Toronto, is President, which is seeking to increase the number of landing fields, perfect transport needs and methods, and an increase in aerial routes.

Private enterprise occupied the limelight of the afternoon session, and was fully discussed as being one of foremost consideration to post-war planning. C. E. Savage, of Granby, seconded by N. White of Coaticook, proposed the resolution that free enterprise should be encouraged by the abolition of certain unnecessary restrictions, trade barriers and taxes which were now more than doubled. This was unanimously approved.

Several other important resolutions were placed before the meeting, including family bonusing, which has been much discussed in the House of Commons, and which was broached by J. H. Leclerc, M.P., of Sherbrooke, continued improvement of the Mount Orford National Park, proposed by Leon Desautels, and seconded by L. N. Audet, both of Sherbrooke, complete rehabilitation of farm and urban areas in post-war years, for which a committee will be named, and the conservation of fish in streams and lakes of the Townships, particularly in view of drawing tourists, which proposal was made by J. E. Isabelle, of Granby.

The meeting also heard a suggestion that the Government be approached with the proposal that a six-lane highway be constructed immediately after the war from Montreal to Sherbrooke, to improve communications between Montreal and the Townships.

George W. Murphy, President of the Eastern Townships Settlement Society, in his welcoming address, announced that the Provincial Government, through Premier Godbout, had accorded an annual grant of \$1,500 to the Society, to further the work of securing settlers in this section of the province. "This grant," Mr. Murphy said, "will be a boon to our post-war planning, and will materially assist the general improvement of the Eastern Townships."

Settlement Society work in the Eastern Townships has always been of great import, and through many intercessions on behalf of the group, the Government has made the decision to aid this most necessary work. On motion of D. J. Salls, of Sherbrooke, the meeting moved a vote of thanks and appreciation to the Government for enabling them to carry on their work and the interest manifest in all their undertakings.

Previous to the afternoon session the delegates met at Granby City Hall for a tour of various industrial establishments, and city improvements, which was conducted by Mayor Rivin. At the conclusion of the tour, the guests visited the new Industrial Room in the city hall where they saw a complete display of all products manufactured in the City of Granby, where there are 43 industries now at work.

At noon, the City of Granby were hosts to the visiting Townships representatives at a luncheon held at the Granby Hotel.

A mutually-satisfactory rearrangement of financial and constitutional relationships between the Dominion and the Provinces.

"We will support every effort to bring about such reforms as may be necessary to enable the Dominion and each and every province to function effectively in its own sphere, having sole regard to the welfare of the Canadian people," it said.

The resolutions supported a full war effort and necessary wartime restrictions, with the recommendation that policies be kept under scrutiny to eliminate restrictions no longer required.

Co-operation with the United Nations to implement principles of Atlantic Charter was endorsed. The Federation said it believed Canada could make a major contribution to the establishment of a secure peace and should have adequate representation in other countries and in agencies of international co-operation in war and peace.

A social security resolution recommended the age at which old-age pensions were payable be reduced, that the maximum income allowed pensioners be raised and that no claim for pensions paid be made on the estates of the deceased pensioners when the net value was less than \$2,000.

Government consideration of a contributory superannuation scheme for all Canadians was recommended. Also suggested was consideration of the maximum income allowed a contributor to a healthy nation.

Extensions of existing arrangements for the re-establishment of men and women in the forces should be made as needed, with the government assuming responsibility for the care of them and their dependents until suitable opportunities for re-establishment had been offered them.

"In the post-war period Government should establish the conditions in which private enterprises will operate in the public interest and without exploitation," it continued.

"The Federation affirmed its faith in 'fair and reasonable competition' and its opposition to restrictive agreements destroying competition and creating artificial monopolies.

For the post-war period, the Federation also urged governmental action to assist in improvement and modernization of transportation facilities, to develop a Canadian merchant marine, to strengthen national broadcasting, develop the northland and revive and encourage tourist traffic.

# Numerous Kinds Of Vegetables Offered On Lansdowne Market

All kinds of vegetables were offered for sale on the local market yesterday and prices were for the most part about the same as they have been for the past few weeks. Cucumbers were a little scarce since their season has been over for some time and the few that are now being offered are of the imported variety. Carrots, beets, cabbages and cauliflowerers are still quite plentiful and prices are reasonable. Most of these vegetables are home grown and will be on sale at the market for a few weeks still. After that time the new vegetables from the hot houses and from the Southern states will be coming in and prices will be high.

Fruit of all kinds, with the exception of apples, was scarce and those that had any stock were taking advantage of the shortage to get top prices. The shipments of oranges expected have not as yet arrived and only grapefruit, lemons and grapes were being sold at most places. Grapes were selling at 15 cents per pound while lemons jumped another 5 cents per dozen and were bringing 45 cents a dozen. Grapefruit which are the large size, imported from California, were still bringing 15 cents each.

The shortage of eggs in this area is becoming more and more acute, and each week the dealers sell what they have in short time. One man said that he did not appear on the market until 2 o'clock yesterday afternoon and that in the three-quarters of an hour that he had any eggs to sell he got rid of one hundred and twenty dozen. This he said, was his whole week's supply with the exception of a few dozen that he had left at home for his customers.

Eggs are said to be quite plentiful in Ontario and the province is ready to export them, but dealers in Sherbrooke said that there was a charge of 6 cents per dozen for the express. The Wartime Prices and Trade Board have refused to raise the price of eggs to meet this additional cost and dealers say that they are not going to bring in these eggs if they have to pay the additional 6 cents. The way the situation stands in this district at present there will be no eggs until some time in December so that most of the wholesale dealers will be flat for another month. There is a chance, however, that those who are in need of eggs will be able to get them at farms throughout the country and this will help relieve the shortage to a certain extent.

The eggs that are now being sold are all grade A-pullets and are selling at 83 cents per dozen. A few peewees were also on sale and went for 48 cents per dozen.

The new Army order on age limits became public only a few hours after announcement of promotion of Brig. Christopher Vokes, 33, of Kingston, Ont., to rank of Major-General and to command a Division, presumably the 1st Division in Italy. At the same time it was announced the veteran 40-year-old Maj.-Gen. Guy Simonds who led the 1st through Sicily and up from the toe of Italy has been shifted to command an armoured division.

The enlistment age announcement, it was said here, will not affect the status of older men in the army already. Those who are required for the duties they are performing will remain. Those who by reason of age or physical condition can, with advantage, be replaced by younger and fitter men will be discharged to civilian life.

The exceptions to the new rule are men between 38 and 45 who are required in the army because of special trade or other qualifications and are considered physically fit for the special duties for which they may be enlisted; and youths between 17 and 18 who have completed grade VIII in school, pass the army intelligence test with a score of 140 or better, and are potential trades trainees.

Those possessing extensive experience as an administrative and commanding officer, Brig. Penhale first was appointed Brigadier, General Staff—Senior General Staff appointment at C.M.H.Q.—in February, 1942. Four months later he was appointed Brigadier, General Staff, at headquarters of the Canadian army overseas.

A native of Sherbrooke, Que., Brig. Penhale was a General Staff Officer at Headquarters here at the outbreak of war, was at C.M.H.Q. in London from November, 1939, to October, 1940, and later commanded Petawawa, Ont., camp before returning to London in February, 1942.

Washington, Nov. 6.—(AP)—Responsible diplomatic sources reported today that Russia and Czechoslovakia have completed negotiations for a 20-year defensive alliance against Germany and that the Czech President Eduard Benes will go to Moscow to sign the treaty.

This report said the alliance carries with it a provision for other countries bordering on Russia or Czechoslovakia joining in later.

This clause was described as intended primarily to open the door for a three-way agreement including Poland. But eventually, it was said that Austria, Hungary and Rumania may be invited to join.

the rear is still open.

The main highway Northeast was blocked as a result of the capture of Isernia yesterday by British and Canadian mountain fighters. These troops have pushed on North from the inland communication centre to threaten a main lateral highway extending from the Apennines to Vasto on the Adriatic and passing eight miles North of Isernia.

In the course of the line, American units of the 5th Army crossed the Upper Volturno in front of Venafro and captured all high ground dominating the Upper Valley. Other forces occupied San Caputo, three miles South of Isernia, and Carpinone, six miles East of Isernia.

San Salvo, near the Mouth of the Trigno, was taken yesterday by the 8th Army after days of savage fighting in which numerous Nazi tank-led counter-attacks were repulsed. The final charge that carried the heavily-defended town was aided by two British destroyers that stood off and blasted the Nazis from their entrenchments.

The German High Command broadcast from Berlin that an Allied force had attempted to make a landing from the sea in the Pescara area, 40 miles up the Adriatic coast from the 8th Army's present position and well North of Rome. There was no Allied confirmation of such a leap-frog tactic.

Marshall has been selected to direct an invasion of Europe by British and American troops based in the British Isles.) Mr. Roosevelt also said the Moscow conference undoubtedly would lead to other meetings on closer coordination of military operations and supplies. He is still hopeful, he said, of a meeting with Premier Stalin and Prime Minister Churchill, but had nothing new on that.

### CURBING THE STAR CHAMBER

Perhaps one of the strongest blows yet struck for the preservation of the ideals of democracy and justice for which the British Empire has long been famous was the declaration of Attorney General Blackwell, of Ontario, that if there are any more gasoline stations to be padlocked in that Province, the Dominion Oil Controller will have to hire his own police to do the job—unless the distributors have been tried and convicted after an open trial by a due process of the law. This is the exact meaning of the instructions given by the Ontario official to the Provincial Police of that Province that they are not to padlock any place, unless directed to do so by a court of law.

In other words, insofar as the Ontario Government is concerned, the owner of a gas station, or for that matter any other business, must be tried in court before any penalty can be imposed for contravention of Dominion legislation. At the same time, the Provincial Police were instructed to give every co-operation to the Oil Controller to run down any infraction of the law, but no longer may the Oil Controller, or any other controller—nor his officials padlock a man's premises on his own say-so.

During his statement, Attorney General Blackwell declared:

"It is recognized that the matter of oil control is emergent, but it is not recognized that the emergency is such as to justify conviction and imposition of penalties without evidence taken in open court, tested in the usual way by the right of cross-examination, and the facts then determined in the usual judicial way by a magistrate or judge.

Successful law enforcement in the analysis depends on public support both for law and the methods of its enforcement, and the Attorney General of Ontario feels very strongly that the method of enforcing the regulations of the Office of Oil Controller on evidence received and acceptable by the Oil Control Office is not acceptable to the public."

Perhaps certain charges as to the lack of co-operation, as to sabotaging the war effort, and other similar complaints may be launched against the Ontario Attorney-General, but in the analysis all that Mr. Blackwell has done is to give accused access to the courts. In other words, he is seeking to preserve the very principles for which the Canadian people, in common with the United Nations, are fighting—the right of a man to face his accusers and to justify his actions. Admittedly a guilty man should be punished, but his guilt must be proved by a fair process of the law, or the very purpose for which the war is being fought will be lost.

This is a basic principle of British justice and except in the most exceptional of circumstances, the ideal cannot be altered.

### RUSSIA'S WINTER ALLY

Out of Northern Russia a new ally—Winter, the Giant of the Steppes—is moving its mighty weight Southward to the aid of the Russian armies which are battling to close the great Dnieper-bend trap on Hitler's retreating forces, this boon developing as the Soviets arrive at the expansive lower reaches of the Dnieper opposite Kherson. Winter soon will freeze the Dnieper and the fields of mud which the autumn rains have created. It will expedite the movement of troops and engines of war. The fierce cold and snows, which smashed Napoleon at one blow, have had two goes at Hitler, but this promises fair to be the third and last.

The mouth of the Dnieper-bend trap, which opens Westward towards Germany and temporary safety, is between the strategic rail centre of Krivoi Rog on the North and the estuary of the river at the Black sea. That gate is about ninety miles wide. This ninety-mile stretch affords the only escape for the large German forces which remain inside the trap. Many troops have been moved through the opening but undoubtedly the total number of Germans still in the trap runs to scores of thousands.

Latest reports from Moscow claim 2,700,000 Nazi casualties during the four months offensive, and of these 900,000 are killed. However, despite the terrible losses they have suffered, and still are

bound to have, they may be able to fall back to fresh positions for another stand.

This is where winter enters the picture as already snows are reported in the North and the frosts are tightening the mud. By mid-December—say six weeks from now—even the Dnieper will be frozen in the Kiev region. Christmas will see ice at Kremenchug, and within the first few days of January—two months hence—the great river will be frozen clear down to Kherson. With the freezing, the Russian armies will be able to unleash fresh striking-power and speed. And six or eight weeks do not allow much time for the harassed German armies to pull themselves out of the trap and retire to new positions.

Right now the Nazis are up to their necks in evacuating troops from the trap. This means they must hold the gateway open between Krivoi Rog and Nikolayev on the Bug river, not far from the mouth of the Dnieper. That is a bloody job and may be largely wasted, for while all this is going on in the extreme South we might well keep a weather eye on sectors farther North. Fresh trouble seems boiling up for the Germans in the Kiev sector. And North on the Smolensk front, the invaders face the danger of a further offensive which might cut through their line and hew a road clear into the Baltic states and East Prussia.

Hitler might have a traditional White Christmas in Russia, but he does not seem headed for a merry Yuletide.

### GERMAN MORALE

One of the greatest questions facing Allied planners today is the exact state of the morale of the German people, as it is largely upon the strength of this morale that the success or failure of the present campaign against the Reich depends. The latest report on this condition is that received by the Berne Switzerland weekly, Die Nation, which claims that conditions inside Germany are "much worse than twenty-five years ago" and says the cumulative effect of Allied air raids is having a vital effect on German morale.

Eight million bombed-out or evacuated citizens, approximately one-tenth of the population, comprise the core of defeatism and discouragement which Heinrich Himmler's Gestapo is striving to combat, while every bombardment increases the number by thousands or tens of thousands.

The article says that mistrust within the German nation has increased to such an extent that "It is now reported that certain sections of the population must give up their radio sets. Since the formation of the Free German Committee in Moscow the Moscow radio has gained the interest of the German people. But this does not necessarily mean that the German people sympathize with Communism. Even the bombed-out persons prefer an Anglo-Saxon victory if the enemies must win."

As to rumors of serious differences between the leading military officials and Hitler, Die Nation says it may be assumed that the Fuehrer's position must be firmer than ever before, since the military has the greatest interest in letting Hitler's complete responsibility be apparent to the nation as to the whole world.

### A DEAN OF LEARNING

In the death of Sir Robert Falconer of Toronto, Canada has lost a man who was admittedly one of its leaders in the field of learning—a leading educationist and a distinguished student of international affairs, religion and classics.

For twenty-five years, from 1907 to 1932, he served as President of the University of Toronto and since his retirement he kept in close touch with educational matters, serving in many advisory capacities. A native of Prince Edward Island, he was educated in the West Indies, where his father held a clerical post with the Presbyterian Church, later attending European universities before entering the Ministry of his father's Church. In 1892 he joined the staff of Pine Hill College, Halifax, and became its principal in 1903.

His abilities as a lecturer and a writer on a wide range of topics brought him international fame and the Dominion has suffered a distinct loss in his passing.

### PRESS COMMENTS

#### WOULD FINE NON-VOTER

Ottawa-Journal.

Recently it was announced that in the Ontario general election this summer only 52 per cent of the qualified voters went to the polls—little more than half of the electors. We fight in this war for freedom and free institutions, offering almost all of the best we have in blood and money—and half of us won't walk around the block to cast our votes, though votes are the guarantors of our freedom.

In Australia they have had compulsory voting since 1929. The result is clear, decisive and desirable. Prior to 1929 Australia was as bad as this country in the matter of dishonor to the franchise. The last Federal voting in Australia under the old condition of Nineteen Christmas boxes were sent to soldiers overseas, it was reported at the regular monthly meeting of the Catholic Women's League, held in St. Patrick's Church Hall under the presidency of Mrs. R. A. Winslade.

The session got under way with the reading of the minutes of the previous meeting by the Recording Secretary, Mrs. Albert Julien. The Treasurer's report was given by Miss Yvette Campbell, and the correspondence was read by Miss Gertrude Workman. It was made known that Mrs. John Shelley, assisted by Mrs. F. O. Beatty, Mrs. D. Downing, Mrs. John Murphy and Mrs. S. A. Lovelace paid forty-eight visits to hospitals, fifteen visits to sick soldiers, and one visit to the Old Folks' Home.

Mrs. Harriet St. Louis said members had reported at the Red Cross rooms to work on dressings and went regularly to the Blood Clinic. A few sewn garments had been turned in. Nineteen Christmas boxes had been forwarded to soldiers overseas. Mrs. St. Louis read a letter from Mrs. Paul McKenna, Diocesan War Services Convener, quoting the request from the National War Services Convener that all members of the Catholic Women's League of Canada make a spiritual bouquet to be sent to the Chaplains Overseas before Christmas as a gift to the men in the service. The National Convener said "the Gum and Cigarette Fund had been very successful last year and was much appreciated by the Chaplains."

Mrs. Fred Shelley thanked the ladies who had her, acted as joint-conveners for the membership tea, and also the assistants, Mrs. L. E. Codere, responsible for the musical programme, artists, and all who helped to bring about this successful and pleasurable afternoon. Mrs. F.

O. Beatty, Membership Convener, announced the acquisition of five new members due to the above event. Mrs. Henry Veilleux, Liaison Officer of Wartime Prices and Trades Board, summarized the Consumer News, including the welcome information, released some time ago, allowing rationed commodities to be sent to soldiers and civilians Overseas.

Miss Gladys Mullins stated she was gratified with the encouraging number of applicants for the Closed Retreat commencing today, Saturday, at 2 p.m., at the Villa of the Blessed Sacrament, Dufferin Avenue. Miss Mullins added there were still a few reservations available. At 7:30 Sunday evening the Retreat will conclude with a sermon and ceremony proper to the Guard of Honor.

Rev. Father J. F. Coughlan, C.S.S.R., Toronto, widely known to English-speaking Catholics of Sherbrooke, will conduct all the exercises. The President announced that a High Mass for the repose of the souls of deceased soldiers will be sung on Tuesday, October 9, at 7:30 a.m. Prompted by Mrs. Winslade's suggestion, it was agreed that the conveners should resume the former practice of taking charge of the programme at the monthly meetings. Mrs. John Murphy, who headed the Committee for the raffling of War Savings Certificates, made known the splendid amount realized, \$171.19 net. She thanked those who had assisted her, as captains, or in other capacities. Mrs. Murphy also commended the members, and the public, who so generously purchased tickets. Rev. Canon J. C. ## Glorify Yourself

### BRUSH YOUR FACE CLEAN OF OIL AND DEEP-SEATED DIRT

BY ALICIA HART

MISS CAROL: Smooth.

A recent letter from a reader asks, "What can be done for a skin that gets oily within four or five hours after putting on my make-up—and what can be done for blackheads that pop up from nowhere?" She washes her face with soap and water, she says, and also uses a cleansing cream. For unusually oily skins, however, these two steps should be reversed. First, the make-up and surface dirt must be removed with a deep-cleansing cream, and then the skin should be bathed in warm water and a pure castile soap. Incidentally, Georgia Carroll—probably one of the world's most beautiful and famous models of all time, now a featured vocalist with Kay Kyser's orchestra—always uses a soft complexion brush in a circular motion when washing her face. It not only does a better job of cleansing her pores, Georgia advises, but stimulates her skin and gives it a healthy glow. Just remember that blackheads will never "pop up from nowhere" if a pores are kept clean. Once cleaned, a final touch of astringent will help keep them closed to airborne dust.

NOTE ON MORALE.
Ice skates and roller skates used up about 12,500 tons of steel in 1941, enough steel to build the hulls of two heavy cruisers.

WHEN AN ARMY COLUMN ADVANCES into enemy territory, mobile anti-aircraft units move with it. When enemy dive bombers or strafing planes appear, these Bofors guns go into action on the spot. While the infantry scatter and take cover, and blaze away at the enemy planes with rifles and machine guns, the Ack-Acks "shoot the works".

Less than one minute after the first warning, the gun is unlimbered from its tractor, and is hurling two shells a second at the hostile planes. Then, as soon as the danger is over, the gun limbers up again and moves forward with the column. Frequently too, this high velocity gun is called upon to knock out enemy tanks with armor piercing shells.

The artillery tractor which hauls the Bofors anti-aircraft gun over bomb-pocked roads wherever our troops are operating, is just one of more than 50 types of battle vehicles now being built by Ford of Canada's craftsmen. Rugged, sure-footed, and powered by the Ford V-8 engine, it is built to stand up under the toughest service, and to get its gun where it is needed without fail.

It is the duty of every Ford employee to remember that the lives of our boys overseas are dependent on the thoroughness of the handiwork of the men in our shops and on our assembly lines.

Scene from "The Mystery of Marie Roget," which begins tomorrow at the New Premier Theatre.

At The New Premier

The immortal pen of Edgar Allan Poe supplies the story of "The Mystery of Marie Roget," which begins tomorrow at the New Premier Theatre with Maria Montez and Patricia Knowles in the leading roles.

Maria Suspenskyva, John Little, Edward Norris and Lloyd Corrigan are among the well known players who make up the supporting cast. "The Mystery of Marie Roget," one of Poe's most famous works, is a story of murder and intrigue in the gay days of old Paris.

Miss Montez plays the title role of a musical comedy singer who first joins a murder plot and then becomes the victim.

Knowles brings to the screen the character of Dr. Paul Dupin, first of the great medical detectives of fiction. It is Dr. Dupin who pierces a web of official connivance in order to solve a baffling series of murders.

Phil Rosen directed "The Mystery of Marie Roget" from an original screen play by Michel Jacoby, and Paul Malvern was the associate producer.

The other picture is "Days of Old Cheyenne," starring Don "Red" Barry.

At the opening of the picture, Clint Ross (Don "Red" Barry), a young cowboy from Texas, is offered the job of marshal of Cheyenne by Big Bill Harmon (William Haade). He accepts the offer in the belief that Harmon is interested in maintaining law and order in Cheyenne.

Later, however, he learns that the man is the leader of a gang of desperadoes and plans to use him as a "front" for the gang's lawless activities. He immediately goes into action against the desperadoes, determining to bring about their capture and punishment for the many crimes they have committed.

At The Granada

When the elements of writing, production, direction and acting are as judiciously mixed as they have been in the new Warner Bros. film, "The Constant Nymph," the results should be something special in the way of screen entertainment.

The picture, which has its premier at the Granada Theatre today, boasts an impressive array of stars and featured players. The cast leads off brilliantly with Charles Boyer and Joan Fontaine in the starring roles, names that spell romantic magic.

Mr. Boyer's outstanding performances in such pictures as "Algier," "Mayerling" and "Hold Back the Dawn" are classic examples. As for Miss Fontaine, one need only mention "Rebecca" and "Suspicion," for which she won the Academy Award, to evoke performances of unsurpassed dramatic strength.

This intensely dramatic film offers her an opportunity to play the part a shy, frightened young woman, the kind she has done so well in the aforementioned pictures. This time her problem is centered about her unrequited love for Charles Boyer, a composer who falls in love with and marries Alexis Smith. Joan's portrayal of Texas Sanger should bring her new plaudits.

"The Constant Nymph" should give Charles Boyer's talent as a romantic actor full play. He plays the part of Lewis Dodd, a composer, a man of great complexity, appearing as two different men to the women who love him.

Joan Fontaine is one of a musician's unruly family, raised in a remote Alpine chalet. In her eyes Lewis is a person innocently free of the restrictions of conventions as she is—almost a part of herself—essential to her life. But another woman intervenes. To Florence (Alexis Smith), a glamorous figure in London society, this man is a new emotional experience, dangerously unpredictable. She marries him, attempts to make his genius an ornament for her drawing room, and admits defeat when it is too late.

In Musician's Family worship service. The theme, "The Bible, the Foundation of the New Order," with Mrs. McAulay leading, Psalm XXXIII was read in unison. Members who took part in the responsive reading were Mrs. Cox, Mrs. Sherman and Mrs. Alvin Coates. Scripture readings, "The Vision of the City of God," Micah IV:1-4, "Faith in the City of God," Hebrew, XI:8-10, "Building on Sure Foundation," Luke VI:46-49, "The World Church," Corinthians III:9-11, "The Promise of a New World," Ephesians II:11-22, were given by Mrs. McAulay, followed by sentence prayers by all the members. The hymn, "Oh Holy City Sun of John," was sung. Mrs. Cox read from the study book, "For All of Life," which proved very interesting. A general discussion followed. Mrs. Sherman read about "The Silent Million." Mrs. McAulay gave a splendid report of the Sectional meeting held in Bury. Mrs. Sherman explained about the reading course and gave out leaflets for the same. After singing another hymn, the meeting closed with the Benediction. The hostess served high tea, assisted by Mrs. W. McLeod and Mrs. McMillan.

FIVE MATCHES SCHEDULED IN FIGHT FOR LEAGUE STANDING

Five games are being played over the week-end in the National Hockey League with all six teams of the major loop slated for action. It is very possible that the league leadership will change hands before the week-end is over. Two matches are scheduled for tonight with Toronto playing Boston in the Maple Leaf Gardens and Chicago meeting the Rangers at New York.

Three games are to be played on Sunday night. Chicago comes to Montreal to play the high-flying Canadiens and the league-leading Toronto Maple Leafs travel to New York to tangle with the cellar-dwelling Rangers. In the other Sunday game, Art Ross' Bruins go to Detroit to fight it out with the underdog Red Wings.

At the present time, there are three teams in the N.H.L. who have yet to be beaten—Toronto, Canadiens and Detroit. Maple Leafs and Canadiens are top-dogs just now, each having won two games and tied one. But Detroit is not far behind, having emerged victorious in one game and holding the Maple Leafs to a 5-5 draw in another. But while the Wings are two points behind the league-leaders, they still have a good chance to get on an even footing with the Leafs and Canadiens as Detroit have played one less game than either Happy Day's men or the Habitants.

Boston may also cause an upset, as they have two games in hand over the leaders. Their only game of the season against the Canadiens resulted in a two-all draw. So Boston may also be looked for as a potential league-leader as they have two games to play over the week-end.

One certain prediction may be made on the games over Saturday and Sunday. The league standing will definitely be changed, for the Hawks and the Rangers are scheduled to meet on Saturday. Both these teams have yet to win a game this season, the Rangers having bowed to Toronto twice and once to Detroit. Chicago has been no luckier for they were taken for a ride by both Toronto and Canadiens. The Leafs took them for a 4-1 count last Sunday and the Wings went down before the Canadiens Thursday night by the score of 5-3. Whoever wins the game between the Rangers and Chicago on Saturday night will at least get out of the cellar.

The real rivalry this week-end will be between the Toronto Maple Leafs and the Montreal Canadiens. These two teams have always been keen rivals and have been racing neck and neck for the undisputed leadership of the league this year. Toronto may jump ahead momentarily as they will play two games over the week-end while the Canadiens remain idle Saturday night and only go into action on Sunday night against the Black Hawks. Toronto has a formidable opponent in Saturday's game when they face the Boston Bruins but nevertheless they are expected to take the match. On Sunday night the Leafs will tangle with the lowly Rangers, but no comment is being made on that game because the Rangers are just as likely to topple the mighty Leafs as the next team.

S.H.S. GOES TO STANSTEAD FOR LAST TILT

Sherbrooke High School Juniors travel to Stanstead this morning in what will be the last game of the football season for the S.H.S. squad. The curtain has already fallen for the Senior High School team which has enjoyed a pretty good season. The juniors will be going all out to win the game today for they have won only one game this year when they plastered the B.C.S. lads 22-0 after battling to a scoreless tie in their first game. In the first tilt between the locals and Stanstead, the out-of-town boys won a close 6-3 decision over Sherbrooke but there is no reason why the S.H.S. team can't come out of today's fray with a victory tucked under their belts. The only game left to play in the junior loop is the Stanstead-Bishop's match, which is scheduled to take place some time next week.

CLEVELAND

The Cleveland Women's Institute held its monthly meeting at their hall, with Miss M. Stamp, President, as hostess. Miss Stamp opened the meeting in regular form. The Secretary, Mrs. E. Crook, called the roll. Mrs. Stamp then gave a report on the "Emergency Hints," and read the minutes of the September meeting. Plans were made to entertain three of the local boys in uniform, now home on leave. Four ditty bags were filled ready to be sent to the sailors. A report was given on the card party held at Mrs. Osborne's, when over \$10 were taken in. Mrs. R. Pease, Convener of Welfare and Health, held a "True or False" contest on "Emergency Hints." Mrs. Osborne won the prize given by Mrs. Pease. Mrs. Osborne had silk pieces which she had reserved from a local silk factory in Drummondville. These pieces were donated by the factory to be used in war work or other Institute work for the community. The Treasurer, Mrs. A. Smith, presented her report. It was decided to give \$5 to the Sherbrooke Hospital Fund. Mrs. Fletcher, War Work Convener, read a report on the war work, made and sent in from this Institute. This year 2 seamen's vests, 20 jars of jam, 4 ditty bags, 8 pairs of socks, 6 turtle-neck sweaters, 4 pair pyjamas, 4 pair gloves, 12 pair seamen's socks, 2 children's sleepers, 3 sweaters, 2 quilts for the Red Cross and 16 War Savings Stamps have been bought and used at Institute socials for prizes. Eleven boxes are prepared and are being sent to local boys in the services; and this Institute donated to, and conducted a booth at the Street Fair in Richmond thus bringing in \$56.65 for the Canadian Legion. The above-mentioned chicken-pie supper was given in honor of those in the boys in uniform, home on furlough by the C. W. Institute. Seated at the head table were P.C. Steve Taylor and

Canadian Sport Snapshots

By CHARLES EDWARDS, Canadian Press Staff Writer.

Toronto, Nov. 6.—A couple of years ago a youngster making the big jump from junior to major league hockey, if he made it at all would be fitted into a second or third string line for experience. The war changed that and last year 17-year-old Jack Hamilton was called up from Toronto Junior ranks to centre Mel Hill and Bob Davidson after Syl Apps was hurt. This year 20-year-old Gus Bodnar has moved direct from Fort William's Junior Hurricane Rangers to centre Toronto's Number One line with Davidson and Lorne Carr on the wings. Gus showed class in his first appearance but he's not cocky. "This is quite a step, right into the big league," he said. "I think I got a real break when they put me between two smooth wingers like Davidson and Carr. They would make any centre look good."

Any junior fit for N.H.L. play, even in war years, must have a good coaching background to go with his natural ability. Bodnar gives much credit to Gordon Houston, who coached the Fort William juniors with whom Gus played the last three years. Bud Poile, last year with Leafs but now in the army, is another Houston product. Bodnar was

rejected by the army on physical grounds. Incidentally: One of the great pack of hockey stars who won the Allan Cup for Moncton, N.B. in 1933-34, Bert Connolly is back home in Montreal trying out with the amateur Royals and trying for amateur reinstatement. He turned professional with Rangers in 1934 and later toured the British Columbia Basketball Association refused to lift a one-year suspension imposed last spring on the Victoria hoop star, Ritchie Nicol, following a dressing-room fracas. . . . There's hockey power on Bill Cockburn's Winnipeg R.C.A.F. team: Alf Pike, Wally Stanowsky, Bill Juzda, Butch Merchant, Pete Langelle, Joe Krol, Paul Platz, Roy McBride, Bob Luney, Bill Snider, Hal Thompson, Remi Trudel. Six of these fellows are former N.H.L. players. . . . Don Gallinger, 18-year-old Boston Bruins forward, told Dirk Carroll of the Montreal Gazette that he had been offered a baseball contract by Connie Mack of Philadelphia Athletics in the fall but the army had prior claim. Gallinger expects to enlist early next year.

LT. TOMMY HARMON REPORTED MISSING

Lt. Harmon crashed last April in Central America, but found his way through the jungle to safety. He was assigned to the 449th fighter squadron in China. One of the greatest football stars that ever played on the Michigan team, Harmon was credited with having knocked down two zeros and had promised his family another for Christmas.

FOOTBALL IN ONTARIO UNION NEARS FINISH

By The Canadian Press The curtain all but rings down on the scheduled season in the Ontario Rugby Football Union senior series today with three games involving all six teams but on the outcome of two hangs almost as many "ifs" as in a game of draw poker with the deuces wild.

The three question-mark teams are Toronto R.C.A.F. Hurricanes, Hamilton Flying Wildcats and Toronto Balm Beach Hurricanes and Wildcats are tied for first place with seven wins, one tie and one loss each and one game to play. Beaches are three points behind the leaders with six wins and two losses and two games to play. The teams finishing first and second enter the playoffs. Here are a few of the assorted "ifs":

If Hurricanes beat or tie Beaches in their game in Toronto today the airmen will be in the playoffs. If Beaches win they will still need a victory over Toronto Navy in the final scheduled game of the season on Wednesday night in Toronto to make the grade.

If Wildcats beat or tie Navy in their game in Hamilton, the Mountain City team will be in the playoffs. But if the unexpected happens and the Wildcats lose some more "ifs" bob up.

Gerry Wiggett Elected Head Of Local Intermediate Loop

It has been announced that there will definitely be an Intermediate hockey league in the Eastern Townships this season. The circuit to date is to be made up of three teams: The Lord Sherbrooke Training Centre, the Windsor Mills Paper Makers and the Canadian Ingersoll Rand. There is a strong possibility that Richmond Monarchs will also have a team in the league. However, officials of the Richmond club have not decided yet but have promised to give their answer today.

The schedule will begin on the first Sunday of December and the teams are to start practising immediately. While the schedule has not been drawn up as yet, it is expected that either the Rand or Lord Sherbrooke will receive one of the other teams.

With the formation of this league, Sherbrooke hockey fans are assured of a good hockey circuit again this year. The schedule is to be drawn up much in the same manner as last year and the teams are expected to be quite evenly matched. Most of last season's players will be appearing again this year with possibly a few new players to round out the rosters.

Gerry Wiggett has been re-elected President of the loop for the fourth time, while Ernie Taylor will assume his duties as Secretary-Treasurer of the league for the seventh consecutive year. Dr. R. Nadeau was elected First Vice-President of the loop. Credit for the formation of the circuit goes to Lt.-Col. E. J. Nantel and Dallas Grant who spent much time and effort to get the league operating again this year.

NOTRE DAME IS FAVORITE OVER ARMY GRIDDERS

New York, Nov. 6.—(AP)—There has been nothing but dismal statements from the Notre Dame camp all weeks and few words of any kind from West Point, but scalpers are asking as much as \$40 for a pair of \$4.40 tickets to today's Notre Dame-Army football game—and crying because they haven't enough to go around at that price.

All of the 75,000 tickets were sold two weeks ago. One out-of-town visitor who had an extra \$8.60 box seat was holding out for \$30 and stood a chance of being stampeded if his location became known to the thousands of seekers.

Despite the frantic fretting of Frank Leahy, coach of the Notre Dame team, the Irish were rated as 12-14 points better than the cadets.

MT. PLEASANT SKIERS PLAN ACTIVE YEAR

The members of the ski section of the Mount Pleasant Club are already making plans for an active season and it is expected that the same enthusiasm will be shown in this popular winter sport as there was in the tennis club last summer. Many new improvements will have been made for the benefit of the skiers this year and a series of new trails has already been cut. Much new territory will be taken in by these trails and the lighting systems on the hills are also being checked and improved.

It was also announced that the old ski tow up the main hill will be in operation again this year and that a new one has been installed so that the accommodation for the skiers will be better.

A ski patrol equipped with toboggans has been organized and trained by the association and this body will keep a close look-out day and night for any injuries that might occur on the slopes and trails. All the members of this patrol will also be expert skiers and will also have a course in first aid.

This club, which is a member of the Eastern Townships Ski Zone, is also making plans for a series of open meets as well as club competitions for the members and their friends and those wishing to make use of the skiing facilities will be welcomed by the members of the club.
