WILL HAVE TO FIND ANOTHER PLACE

Trade Commissioner Called Back to Canada — Waterways Commissioners Named

Ottawa, Ont., Nov. 26.—The Department of Trade and Commerce has recalled J. B. Jackson, Trade Commissioner at Leeds, England. Jackson will be remembered as the protégé of Sir Richard Cartwright, who figured in the South Oxford election trial in the dying days of the Liberal government of Ontario. In an effort to unseat Donald Sutherland, then M. P. P., and now M. P., Jackson offered money to induce people to commit perjury, his conduct being severely condemned by Judge Street. He was rewarded with a position worth \$3,000 a year. Sir Richard Cartwright's last act in the House of Commons was his singularly cynical defence of Jackson.

It is probable that the Christmas holidays of Parliament will begin on December 7. This will enable the Ontario members to take part in the concluding phase of the Ontario elections.

The official announcement is made tonight of the personnel of the new Canadian section of the International Waterways Commission. As already announced, they are T. Chase Casgrain, K. C., of Montreal; C. A. McGrath, ex-M. P. of Lethbridge, and H. A. Powell, K. C., of St. John. This is a very strong commission. Mr. Casgrain is one of the most eminent jurists of Quebec and a man of high character and attainments. Mr. McGrath, during his period of service in the House, made a deep impression alike on the House and the country as a singularly able man, with a fresh and original outlook, and much strength of character. Mr. H. A. Powell has a high standing at the bar of New York, and has a wide knowledge of the industrial life of his province. The appointment is in line with the choice of Major Leonard to be chairman of the Transcontinental commission.

MAN SERIOUSLY WOUNDED FOR A JOCLAR REMARK

Halifax, N. S., Nov. 26.—Samuel Jollymore shot William J. Downey in front of a roadside hotel a few miles from Halifax this afternoon and the victim of the affair may die. Downey made some jocular remark to Jollymore and then proceeded to put a robe over his horse. While doing this Jollymore picked up a gun he had been carrying, aimed at Downey, and blew the side of his face off with the discharge. Then he made for the woods. He was captured at 9 o'clock tonight and brought to the city. It is likely that Downey will recover but his wound is very serious.

A JUDGE'S MISTAKE CAUSES NEW TRIAL

Halifax, N. S., Nov. 26.—Late last summer Harry Wilson of Digby was tried by Judge Meagher and a jury on a charge of the murder of his brother. He was convicted and sentenced to be hanged on Nov. 15. It came out from the evidence that Wilson was intoxicated when he committed the deed and it was agreed that therefore he did not know what he was doing. The judge did not direct the jury on manslaughter, confining himself to the charge of murder, but he granted a crown case reserved and afterwards the court postponed the date of execution for one month to give time for argument. The full bench yesterday gave judgment unanimously ordering a new trial on the ground that the charge to the jury by Judge Meagher was erroneous because of failure to direct the jury on the subject of manslaughter and to submit any questions.

CAUSES NEW TRIAL BANKER MORSE IS REMOVED TO HOSPITAL

Atlanta, Ga., Nov. 26.—Charles W. Morse, the New York banker, today exchanged his bare cell at the Federal prison for a more commodious ward in the Army Hospital at Fort McPherson. The change was ordered by Attorney-General Wickensham, who recently made a special visit to Atlanta to investigate the condition of Mr. Morse. The transfer was made about 8 o'clock this morning, Morse making the trip of several miles in an ambulance, accompanied by Major Baker, chief surgeon at the fort. He stood the trip very well, but it was stated at the fort that his physical condition did not permit of an examination today. The banker convict is expected to go through this ordeal tomorrow. According to a statement given out by Warden Moyer at the penitentiary, Morse is suffering from kidney trouble.

REBELS ATTACK CITY OF NANKING

Bombarded It for Several Hours—Imperial Sortie Repulsed With Heavy Loss.

Nanking, Nov. 27.—1 a. m.—After more than half a century of silence, the hills overlooking the walled city of Nanking, the ancient capital of China, swarm with rebellious forces eager for its occupation and determined to take the stronghold where the Manchus are making their last stand south of the Yangtze.

From the Tiger Hill forts for several hours Sunday morning big guns spoke repeatedly, while further up, along the north-eastern range from the top of Purple Mountain overlooking the Ming Tombs, for a fifteen-mile semi-circle westward to the Yangtze smaller forts scattered shells into every section of the city. So far as is known the casualty list is not large. General Wong, second in command of the defenders, is among those killed.

During the earlier part of the day the Imperialists attempted a sortie against the attacking forces, with a view of recapturing their positions and guns, but were driven back inside the walls with considerable losses. The Tiger Hill batteries, meanwhile, were pouring shells into Lion Hill. They succeeded in silencing the batteries there, which, it is suspected, were of little value.

The object of the first seizure of Tiger Hill was shown by the early appearance of four cruisers, and later in the day of other warships. In the evening a dozen torpedo boat destroyers and cruisers were lying menacingly near the city. These are well armed and well supplied with ammunition. Doubtless they will quickly reduce the lower section and drive the defenders to the south.

The Viceroy of Nanking and Tartar General, in fear of General Chang, the Imperialist commander, have taken refuge in the Japanese consulate, in which only the consul remains. He is the sole official representative of foreign interests now in Nanking. The consulate is well guarded by marines.

Sunday's attack can only be considered a slight forecast of bigger things to follow, because the main body of the revolutionaries is steadily investing every side and bringing the big guns to position on every eminence. The plans of the attacking force are not revealed. The revolutionaries may not attempt to rush the city, but may prefer to bombard steadily and await its surrender. But if breaches are made in the walls of the city and the rebels enter, it is believed that General Chang and the loyal troops will make a desperate stand.

Tokio, Nov. 26.—A statement issued by the Foreign Office says that the Japanese troops at Peking and Tien-Tsin will be reinforced immediately. Such reinforcement is limited to one battalion of infantry and machine guns, not to exceed the Japanese strength in these cities prior to the reduction in 1908.

Hong Kong, Nov. 26.—The West river is warming with pirates and traffic to Wu-Chow, in Kwang-Si province, is seriously imperilled. The steamship companies are greatly alarmed and are considering the suspension of their services, but are continuing for the present with armed crews. Great indignation has been aroused by the attack by pirates on the British steamship Shinou a few days ago, when Chief Officer Nichilson was murdered, and the people are becoming clamorous for intervention of some kind to put down the lawlessness. In 1906, owing to piratical outrages, guards were placed on all the steamers, and other precautions were taken, but latterly because of over-confidence that the British flag was immune from attack these precautions were relaxed. The rifles have become rusty and their possessors are without ammunition. One steamer carries a cannon, but no shells.

Canton is said to be practically in the hands of brigands. Grave troubles are feared. General Lung is almost powerless to maintain order, and contemplates flight. Some anxiety is felt by the foreigners.

CLERGYMAN SEIZED WITH SUDDEN ILLNESS

St. John, N. B., Nov. 26.—Rev. Dr. W. E. McIntyre, the treasurer of the Maritime Baptist Foreign Mission Board and secretary of Home Mission Board of the New Brunswick Baptist Association, was taken seriously ill at Chipman today, where he had gone in connection with anniversary services of the church there. He was stricken while on the platform by the return of an illness suffered some time ago, and was carried to the home of Senator King. His recovery is doubtful.

VIOLENT RIOTING IN LISBON ON SUNDAY

Lisbon, Nov. 26.—Violent rioting occurred here this afternoon, several persons being killed. The outbreak was the result of a meeting of protest against the expulsion of two Chinese doctors. The mounted Republican Guards swept the Praça do Commercio with drawn sabres. The mob fired revolvers. On the Praça do Dom Pedro a bomb exploded, injuring many. Troops are now guarding the government buildings.

AMERICAN HORSES FOR NEW SOUTH WALES

Sydney, N. S. W., Nov. 26.—Irvine H. Wheatcroft, owner of the St. James stud, Lexington, Ky., who is transferring his horses to Sydney because of the anti-betting legislation in the United States, arrived today on the steamer Kish. Mr. Wheatcroft's stud comprises 159 thoroughbreds, which are expected to arrive on Wednesday.

ITALIANS ATTACK TURKISH POSITION

Tripoli, Nov. 26.—An important movement is now in progress with the object of driving the Arabs out of the oasis and extending the Italian front. It began at daybreak. The action opened with an attack of Fort Mesri by the Sixth Brigade, from Boumeliana, on the west front.

After several hours' fighting, the Italians succeeded in dislodging the Arabs, and General Frugones, commander of the Italian forces, ordered the Third Division on the east front to advance toward Henni. Part of the Sixth Brigade joined the men of the Third, taking up a position, so as to protect the division from an attack from the direction of Ainza, and prevent a junction of the Arabs and Turks.

At the time of filing this message the Italian extreme right was hotly engaged against the Turkish regulars. The new front, if the movement is successful, will extend from Mesri to Henni. As soon as the Italians are established, reinforcements will be rushed up to positions strongly entrenched by the engineers.

The Italian advance, it is announced, was a complete success at every point. The fighting, which lasted all day, terminated at nightfall by the Turks retiring from all their positions.

Derna, Tripoli, Nov. 26.—An Italian reconnaissance on the plateau outside the city yesterday resulted in an encounter with the Turks in force. The fighting lasted all day, both sides retiring on their positions. The Italian casualty list numbered twelve killed and thirty-eight wounded.

Santa Claus Gets Stuck in a Snowdrift

POOR Santa Claus has come to grief. His latest message tells about his getting caught in a storm and being upset in a snowdrift. But Santa doesn't mind. He's a jolly old soul and he takes his troubles like a philosopher. Here's his message:—

En Route, Nov. 25th, 1911.

The Paquet Co., Limited, Quebec, P.Q.

It has been snowing steadily for the last two days, and to-day the snow was so heavy that my little reindeer pack got stuck completely. I had a bad spill, but I hope to find some way out of my difficulty. I will tell you to-morrow how I manage it.

Santa Claus

How is he going to get out of this? Who can guess? We are awaiting his next message with the greatest anxiety for he says he will tell us how he got out.

ITALIANS ATTACK TURKISH POSITION

With a View of Extending Their Front—After Hard Fight Arabs Dislodged.

Tripoli, Nov. 26.—An important movement is now in progress with the object of driving the Arabs out of the oasis and extending the Italian front. It began at daybreak. The action opened with an attack of Fort Mesri by the Sixth Brigade, from Boumeliana, on the west front.

After several hours' fighting, the Italians succeeded in dislodging the Arabs, and General Frugones, commander of the Italian forces, ordered the Third Division on the east front to advance toward Henni. Part of the Sixth Brigade joined the men of the Third, taking up a position, so as to protect the division from an attack from the direction of Ainza, and prevent a junction of the Arabs and Turks.

At the time of filing this message the Italian extreme right was hotly engaged against the Turkish regulars. The new front, if the movement is successful, will extend from Mesri to Henni. As soon as the Italians are established, reinforcements will be rushed up to positions strongly entrenched by the engineers.

The Italian advance, it is announced, was a complete success at every point. The fighting, which lasted all day, terminated at nightfall by the Turks retiring from all their positions.

Derna, Tripoli, Nov. 26.—An Italian reconnaissance on the plateau outside the city yesterday resulted in an encounter with the Turks in force. The fighting lasted all day, both sides retiring on their positions. The Italian casualty list numbered twelve killed and thirty-eight wounded.

NEW VERSION OF THE JAMESON RAID

It Was an American Movement, Not an English One Oom Paul's Double Dealing

Boston, Mass., Nov. 26.—Released by lapse of time from an oath not to talk on South African affairs or reveal any of the "inside" of events leading up to the Boer war for three years, John Hays Hammond, the American mining engineer and multi-millionaire, who was conspicuous in that war, broke his silence for the first time last night at a dinner of the Clover Club. Mr. Hammond said the Jameson raid was the result of the activities of a reform association formed at Johannesburg and consisting largely of Americans. "I want, especially," said Mr. Hammond, "to correct a misunderstanding. It has been said that we were acting under the British flag. That is false. Much sympathy has been wasted on 'Oom' Paul Kruger. He was opposed to progress, believed the world was flat and that the devil had a tail. His impostures were such as no man of the Anglo-Saxon race would have tolerated. The Americans voted to take up arms against him. There was a spy in our camp and for his benefit we voted that if we were commanded we would, upon the first orders to fire, shoot down our commanding officers. As a result no Americans were made to enlist. The reform movement against Kruger was not an English movement. Jameson came into the fight against our wishes, and against the wishes of the British High Commissioner. I sent word to him to go back and when he persisted the only thing to do was to bluff Kruger into believing we had more arms than we really had. We did so and Kruger sent over an official branch to Johannesburg. They agreed to all but two things, and that was no contract should be accepted with a Catholic or a Jew. This we flatly refused. Kruger played false with the reform committee after the Jameson raid, broke all his promises and after he had secured the arms in Johannesburg through Sir Hercules Robinson, he arrested the entire committee. He gave the men to understand that if they pleaded guilty they would be let off with a fine. Indeed, they were sentenced to be hanged within 24

Banquet to Hon. L. P. Pelletier Postmaster General

The banquet offered to Hon. Mr. Pelletier by his friends of the city and district of Quebec will take place at the Chateau Frontenac, Quebec, on the 9th December, 1911, at 7.30 p. m.

Admission cards may be obtained from the secretary of the Banquet, Mr. Charles Smith, advocate, 125 St. Peter Street, Quebec. Price of tickets \$5.00.

As the number of guests will be limited those desirous of being present should secure their tickets immediately.

MURDER AT RESERVE IN CAPE BRETON

Halifax, N. S., Nov. 26.—Lewis McLarren of Prince Edward Island was instantly killed at Reserve, C. B., this afternoon by Dominic Baptisto, an Italian miner. The men had been drinking and McLarren struck Baptisto, who left the room, coming back in a few minutes with a revolver. He fired two shots at McLarren, both entering the head. McLarren fell dead at his feet. The Italian escaped into the woods near the colliery but will likely soon be captured. McLarren was 24 years of age and unmarried. An inquest will be held tomorrow.

STEAMERS AT HALIFAX

Halifax, N. S., Nov. 26.—The Allan Liner Scotian arrived from Glasgow this morning after a rough voyage and proceeded to Boston. She had 385 passengers, 125 of whom went on to Boston. The Canada of the White Star-Dominion Line, also arrived today from Liverpool with 328 passengers, of whom 130 landed here bound for the west. The Canada proceeded to Portland.

GOING HOME FOR CHRISTMAS

Winnipeg, Man., Nov. 26.—The east bound train of the Canadian Pacific Railway tonight went in two sections, the first bearing about 300 passengers, second class, and the second with about 200 first class, all bound for Europe, for the Christmas holidays. The greater number will go to their homes in Germany, Austria and Russia.

MONDAY, NOVEMBER 27, 1911.

SHIFTING THE FINANCIAL CENTRE.

The action of the directors of the Union Bank in requesting the shareholders to allow the removal of the headquarters of that institution from this city to Winnipeg, together with the remarkable development in the West of the business of other banking institutions, has led the Winnipeg Tribune to ask, When will Winnipeg become the financial centre of the Dominion?

So rapidly have the different banks extended their connections throughout the Western Provinces during the past few years that it will come as a surprise to most people to learn that, whereas seven years ago there were 255 branches west of Fort William, as against 740 east of that point, there are today 941 branches in the West, as compared with 1,424 in the East. The increase in the number west of the lake city during this period has been 686, as against 684 east of it.

At the opening of the year 1905, there was not one bank in the Dominion of Canada whose western branches exceeded in number those in the east. In fact, with the exception of two, every concern showed an enormous preponderance of eastern extension. In the case only of the Union and British North American banks did western branches approach in number those of the east, the former having 365 in the east and 55 in the west, while the latter had 17 of its 38 branches west of Fort William.

The intervening years have effected a wonderful change in the banking activities of the Dominion. Of the 21 chartered banks doing business in Canada, five now have the majority of their branches in the West. These are: Bank of British North America, with 34 eastern branches and 48 western; Bank of Commerce, east 91, west 155; Bank of Hamilton, east 58, west 79; Northern Crown Bank, east 27, west 77; Union Bank, east 87, west 159.

To these five will soon be added those of the Imperial and Merchants banks, whose western branches are rapidly forging ahead and will, with a continuation of development in the same direction, quickly overhaul those in the east.

These figures seem to indicate that the time must come when the banking interests of the prairie provinces will, so far outweigh those of the remainder of the Dominion as to necessitate the transfer of the centre of control westward. The past seven years have seen an increase of almost 270 per cent. in the number of western branches, against one of less than 100 per cent. in the east. Though it is, perhaps, scarcely likely that the rate of increase will continue as high as has been the case in recent years, it is apparent that the financial pivot of the Dominion must eventually be found in the West.

THE SUFFRAGETTES.

The athletic band of devoted women, whose recent performances at Westminster have earned them notoriety, did not struggle altogether in vain. The suffragettes have again shocked the British public, have sent cold shivers down the backs of unresponsive ministers, generally established a perfectly clear title to the endearing epithets of Rudyard Kipling, and wrought various kinds of havoc by all of which The Cause may, or may not, be advanced. But they have failed to make any impression on the majesty of the British law as, in spite of their sex, social position and heroic belaboring of English "bobbies," many of the fair offenders have been sentenced to prison. No lurking sentiment of gallantry in the heart of the judge stayed the sentences.

The militant suffragettes aspire to the crown of martyrdom and the imprisoned ladies are no doubt looking forward serenely to the next time. But less ambitious females will have to content themselves with their time-honored privilege of breaking hearts, leaving policemen's noses to the tender mercies of their wives, and scrupulously refraining from emphasizing their feelings at the expense of the neighboring windows.

SHOP EARLY FOR CHRISTMAS.

The crusade for unselfish Christmas shopping is now well under way, and not only have many newspapers urged buyers to do their shopping early, but societies in various cities have taken the matter up, and are appealing to those who would really invoke the true Christmas spirit to buy betimes, so as to do away with much of the customary rush and hurry just prior to the great day, and also to make the work of tired clerks less wearisome and harassing.

THE LAST ACT.

The death of Beattie in the electric chair was the last act of a strange and painful tragedy, and one that has elicited an extraordinary degree of interest. In this celebrated case, at least, the American law has been sufficiently expeditious to meet the demands of just and public sentiment. Scarcely more than four months have elapsed since Beattie executed his fiendish purpose by brutally murdering the young wife of whom he had tired. But the law, though swift, was unerring. No one who read the evidence in the famous trial could have entertained the slightest doubt that Beattie was the guilty man, and judgment that doomed him to death was rendered by an exceptionally intelligent and conscientious jury.

INTERVENTION IN CHINA.

Whatever is to be the outcome of the present warfare and unrest in China, one thing seems to be becoming daily clearer, and that is that, sooner or later, a duty will devolve upon other nations in the world to intervene in the cause of peace. The rights or wrongs of this or that party in China are so involved that it would scarcely be possible to make them clear to the western mind in all their national, racial, religious and political ramifications.

What we can understand, however, is that after long suffering and patience, the true Chinese have revolted against their Manchu conquerors, and have developed a formidable revolution, which seems likely to sweep away the throne altogether and make the Celestial Empire a thing of the past. Step by step the Imperial cause has lost ground, and city after city has fallen into the hands of the rebels.

Already funds are running low, and there is talk of a foreign loan. But before a loan can be made—and China is so potentially rich that there can be little doubt about the security—there must be some responsible officials to guarantee its repayment. At

once rises the question which nation it shall be, since any interference, whether financial or political, by any one power is sure to be regarded with a jealous eye by other nations having an interest in China.

How far Japan has been responsible for the present outbreak it is impossible to conjecture, though it seems certain, considering her large immigration to China since the Russo-Japanese war, that she has had some hand in it. Were it not that she has shown her own ambitions in the Far East pretty clearly by her annexation of Korea and her grabbing of a large slice of Southern Manchuria, the office of mediator in China might perhaps fall upon her. But, under the circumstances, neither America, England, Germany or France would be likely to allow Japanese interference. In the meantime, however, there has been great destruction of property in the various provinces, and a steady check to foreign enterprises, railway building, mining, manufacturing and what not. This condition of chaos cannot go on indefinitely, and the only question is, How long it will be before some outside nation ventures to take a hand.

OUTLOOK BRIGHT FOR SPANISH RIVER PULP.

Big Mills in Operation are Showing Splendid Results—6000 Square Miles of Territory.

One of the greatest natural resources of Ontario is the great pulpwood area in the northern section of the province and it is not surprising that Canadians are beginning to realize the lucrative field for investments to be found in the manufacture of pulpwood products.

When interviewed last night, G. P. Grant of Toronto told of the progress of one of the Dominion's greatest pulp industries known as the Spanish River Pulp and Paper Mills, of which company he is a director.

A pulp mill is now nearing completion situated at Espanola, Ont., and Mr. G. P. Grant stated last night that improvements were now under way which would involve the expenditure of one million dollars.

A paper mill is now nearing completion which when finished will have a capacity of 100 tons of news paper per day, and provision has been made so that this capacity can be doubled when the ever-increasing demand for the company's product warrants such a step.

The output of the company's pulp mill is also steadily increasing to such an extent that it is feared that in the future the present facilities will be found inadequate, and Mr. Grant said that the general manager is preparing plans for the extension of the present plant. This mill has a capacity of 140 tons (dry) pulp per day, the quality of which is the very finest.

Mr. Grant believed that his company had the finest pulp wood limits in Canada, amounting to some 6000 square miles. The territory, he said, was easily workable by means of the numerous rivers and streams which ran through it. The cost of operations was, he said, reduced to a minimum, owing to the company owning its electric power plant, which produced some eleven thousand horsepower. Added to this, the company owns its employees' dwelling houses, the general store, the water supply and the sewer system.

Quite naturally, Mr. Grant was optimistic over the great possibilities of the company. He believed that in the future great progress would be made since the demand for the products of the industry necessitating a much larger output.

AWARDED GOLD MEDAL.

Moncton, N. B., Nov. 25.—The Intercolonial Railway has been awarded a gold medal by the board of directors of the Canadian National Exhibition for the fine display made by the railway at Toronto last September when the famous summer train the Ocean Limited was splendidly featured in an illuminated motion picture which attracted great attention. Word to this effect was received from Ottawa Friday and the government railway was warmly congratulated on its fine showing.

ROBLIN IS SATISFIED ABOUT MANITOBA.

Winnipeg, Man., Nov. 25.—Premier Roblin returned today from the east, where he has conferred with Premier Borden regarding the extension of the Manitoba boundary. He said that the provincial government had got all they wanted—the placing of Manitoba on a basis of absolute equality with the sister provinces of Saskatchewan and Alberta. The question of natural resources, he said, would come up later on, it being Premier Borden's policy that when the other two provinces are being given consideration on their applications for their natural resources, Manitoba shall be considered on exactly the same footing. That was certainly as much as his government could expect, added the Premier. He had nothing to say on the report from Toronto that Ontario was to get access to a port on Hudson Bay by a friendly arrangement with Manitoba.

Fashion Craft Stores

178 St. John, 128 St. Joseph Sts.

Dr. Grenfell, of Labrador, has suggested that the Dominion should secure herds of reindeer and get into the breeding of those animals for transportation purposes in the northern regions. In this connection, it is interesting to note the statement in a United States Government report that the total number of reindeer in Arctic Alaska is now nearly 23,000. This is a remarkable showing, when it is remembered how short a time has elapsed since the United States Government established the first herds in that territory. Not only is the reindeer of enormous value for transportation services, but the natives are beginning to obtain a handsome revenue from their traffic in reindeer products, besides using the skins for clothing and the meat, which is said to be as good as the best beef, for food.

"Mince pie," said a learned doctor, "is an easily assimilable polysaccharid carbohydrate of highly caloric efficiency." This makes it nearly as mysterious as boarding house hash.

HOUSE TO LET.

That desirable family residence No. 5 Ste. Genevieve Avenue (opposite to The Governor's Garden and in close proximity to The Dufferin Terrace)—with stables and Coach-house attached.

The Electric fixtures—two large mirrors and two Mantle mirrors in the Drawing Room, and one Mantle mirror in the Dining Room, will be included in the Lease.

The house is in perfect order; has all modern conveniences and will be rented to a suitable tenant for a term of years.

Immediate possession can be given if required.

Christmas Presents FOR DISTANT FRIENDS

Customers who have friends living in distant lands we particularly request to make an early selection of Christmas Gifts.

We have Commissioners in the United States, in England, France, Germany, Holland, Austria and Switzerland, and our Commissioners will attend to the delivery of Christmas parcels.

To illustrate the advantage of this method, we deliver, free of duty and freight, the following lines of goods from the factories in the United States—Fountain Pens, Watches, Jewellery, Clocks, Cut Glass Ware, Solid Silver and Electro Plated Wares.

England supplies such a large part of our stock that customers may select in our store hundreds of useful and popular English articles for presentation. The articles selected will be duplicated at the factory in England and delivered to any post office address in England, Ireland, Scotland or Wales.

We offer a few suggestions—English hall-marked Cigarette Cases, Cigarette Holders, Card Cases, Purses, Bridge Boxes, Match Boxes, Pencils, Pocket Knives, Pocket Flasks, Vest Button Sets, Brooches, Scarf Pins, Pendants, Necklets.

Christmas Presents intended for friends in Europe should be ordered this week to insure delivery by the 25th December.

Latest Sporting News

Varsity Again Rugby Champions

Won for the Third Time in Succession the Chief Honor of Dominion.

Toronto, Nov. 25.—Toronto Varsity made football history Saturday afternoon when the blue and white triumphed over the Argonauts by a score of 14 to 7. The collegians there performed the great feat of winning three successive Canadian championships, a record which stands alone in the history of Canadian rugby.

and any team lacking condition would have been slaughtered in the last 10 minutes. It was a remarkably clean game, not a player being ruled off or even warned, and only one man was forced to retire, Sinclair being hurt at the start of the third quarter when following up his own kick off, he fell on the ball just as Ramsay kicked at it, Sinclair receiving the kick.

Allan Ramsay was the individual star of the Varsity team, his line bucking, end runs and running back punts being noteworthy. He was a hard man to bring down, and only after large gains through the Argo open field was he nailed. A cut necessitated his playing the last half with one eye bandaged. No player has shown so much improvement this season as Ramsay, the erratic style of last year having totally disappeared.

SNOWSHOE MEETING WAS POSTPONED.

Owing to the fact that the notices had by error been sent out too late, the annual meeting of the Canadian Snowshoe Union, which was to have been held in Quebec on Saturday, did not take place, but was postponed until Saturday next.

AL KUBIAK WAS KNOCKED OUT.

Pittsburg, Pa., Nov. 25.—Al Kubiak, the Polish giant, from Michigan, was knocked out in the fifth round of a six round bout here to-night by Geo. Cotton, of Pittsburg, a well known negro heavyweight. The punch that put Kubiak out of commission was apparently a lucky one, as up to the time of its sudden delivery Kubiak had all the best of Cotton.

A CANADIAN BREAKS AMERICAN WALKING RECORD

New York, Nov. 26.—While the band was ripping out the "Maple Leaf For Ever" last night in the 23rd Regiment Armory, Brooklyn, George Goulding, the crack Toronto walker, was shattering American records in the three-mile walk. Though not well equipped for a cracking performance, he wore ordinary rubber-soled shoes, the Canadian showed wonderful speed and succeeded in out-covering the three miles in 20 min. 59.1-5 seconds. This beat the outdoor mark of 21 minutes 9 3/4 seconds made by Frank Murray at the Manhattan Athletic Club in 1883.

INDOOR BASEBALL SEASON PROMISING

Military Men Expect to Have a Fine Season of Winter Sport.

The military indoor baseball league members are looking forward to an exciting season's sport. The different clubs will be very strong, and there should be some spirited contests.

The 8th R.R. team, the present holders of the cup, will have a desperate charge at the Drill Hall to-night at seven o'clock. This practice is to take the place of the regular Tuesday practice as the hall is engaged for that night. All players and prospective players are requested to be on hand sharp on the hour.

The team have been practicing hard of late, but the committee would like to see some of the old time players up to coach some of the new men. Amongst the new material making good this year are Jimmie Kelly and Eddie Kirkwood, who are all batting the ball at a four hundred clip.

HARVARD AND YALE DREW

Neither Team Scored a Point - Navy Beat the Army - Other Results.

Cambridge, Mass., Nov. 25.—So poor was the defence and so neglectful were both teams of their opportunities that Harvard and Yale walked out of the Stadium this afternoon amid perfect silence without having scored a point against each other in the 32nd annual football contest. Yale's opportunity to score came in the first three minutes of play when a Harvard fumble gave the ball to the Blue team on Harvard's 17-yard line. After rushing the ball ten yards further, Captain Howe attempted a field goal but the pass was so poor that Harvard easily recovered the pigskin. Only once again, and that at the beginning of the third period, did Yale get within 30 yards of the Harvard goal and again Captain Howe failed in his attempt at a field goal.

Philadelphia, Pa., Nov. 25.—Fighting as though their country's honor rested upon the outcome, the Navy met the Army on the football battlefield here this afternoon and when the strife was over victory perched upon the blue and gold banner of the midshipmen from Annapolis. Three to nothing was the score and the figures about represented the playing ability of the teams. Neither good luck nor an error contributed to the result. The Navy's three points were made by the good right foot of Captain "Jack" Dalton of Broken Bow, Neb., who sent the slippery ball through between the upright posts for a goal from placement on the Army's 30-yard line.

Lincoln, Neb., Nov. 25.—Nebraska played Michigan to a six to six score this afternoon in the hardest contest ever witnessed on Nebraska field.

R. M. C. WON DOUBLE VICTORY.

Montreal, Nov. 25.—The Royal Military College, Kingston, scored a double victory over the Montreal Amateur Athletic Association this afternoon, when the cadets' first and second football teams defeated the "winged wheel" intermediate and junior fourteen's respectively, in semi-final games for the Canadian championship titles. The local juniors were beaten by a single point in the second period of the ten minutes overtime, 17 to 16. The local intermediates were altogether outclassed, however, and the final score stood 26 to 5 against them. The playing conditions were about as bad as possible, the ground being frozen hard and in many places coated with ice.

MAKING READY FOR THE SEASON

Players of the Quebec Hockey Team Are Doing Road Running.

The Quebec Hockey Club are leaving nothing undone to have the players in fine shape for the opening of the season, and the men already here are undergoing road training, and any evening they may be seen travelling over the country roads adjoining the city at a rapid gait. Ice is expected by midweek, when the men will settle down to real hockey work.

There was a meeting of the Quebec Hockey Club on Saturday evening when arrangements were made for the annual meeting which is to be held this Monday evening. The incorporation of the club and other matters were discussed and decided upon.

INTER-PROVINCIAL HOCKEY LEAGUE

Shamrocks and Brockvilles Have Secured Franchises in the Association.

Montreal, Nov. 26.—Shamrocks and Brockville have new franchises in the Inter-Provincial Amateur Hockey Association. Both clubs will have teams in the Central section, and with another term in the St. Lawrence section. St. Patrick's, who were let in last week, and the possibility of an Ottawa section composed of New Edinburghs, a couple of other Ottawa sevens, and Vankleek Hill, prospects in the I.A.H.A. are distinctly rosy for the coming season.

The adjourned meeting of Nov. 10 was continued at the Windsor yesterday, when the changes were made. The sections will therefore be constituted as follows this season: St. Lawrence Section—Sherbrooke, Grand Mere, Three Rivers, Westmount, and St. Patrick. Central Section—Montreal, Victoria, Shamrocks, Brockville and New Edinburgh.

There is a possibility that the last named club will be in an Ottawa section composed of New Edinburghs, two other Ottawa sevens and Vankleek Hill. Whether the proposed section will be formed will be left to the Central section to decide.

A motion for a revision of the rules was left to a committee consisting of A. A. Andrews, of Westmount; Jack Davidson, of the M.A.A.A., and Mr. Brown, of Grand Mere.

The question of joining the A.A.U. of C. was brought up by Westmount and Grand Mere. The meeting obviously not being unanimous in favor of the proposed change, the motion was not put to the meeting. The Central section have not decided on a date for the arranging of the schedule for the season, but it will probably be some day this week, when a settlement regarding the proposed Ottawa section has been arrived at. The St. Lawrence section will draw up their schedule on the ninth of December.

GOOD CONTESTS AT JAMESTOWN.

Jamestown, Va., Nov. 25.—The feature event to-day, the Lynnhaven handicap for two-year-olds, was won by an outsider, Flamma, defeating Isidora, the first choice, by over a length. Isidora forced all the early running, but stopped after tiring in the final quarter. The features were all on the large side and furnished good contests.

POPULAR YOUNG ATHLETE LEAVING.

A popular young athlete in the person of Mr. R. Baker, son of Ald. R. Baker, of the town of Montcalm, is leaving the city to take up a lucrative position at Drummondville. Mr. Baker, jr., played goals for the St. George hockey team last season when it won the junior championship, and his absence from the city will be much felt by his many friends in the Ancient Capital.

AMERICAN LABOR CONVENTION ADJOURNS

Atlanta, Ga., Nov. 25.—After selecting Rochester, N. Y., as the place for holding the annual convention of 1912, re-electing for next year all its chiefs and adopting without amendment the reports of several committees, the thirty-first annual convention of the American Federation of Labor, which convened here two weeks ago, adjourned today. Rochester was chosen as the place for the next convention over Seattle, Washington and Richmond, Va., Rochester receiving 8028 votes, Seattle 5554 and Richmond 2210. No fight developed on the re-election of President Samuel Gompers, and all of the old officers were re-elected without opposition.

AN INDIAN PRINCE BADLY INJURED

Cambridge, Mass., Nov. 25.—Jaisuit Gaekwar of Baroda, India, elder son of the Gaekwar of Baroda, was seriously injured while en route to the Harvard-Yale football game today. He was alighting from an electric car in Harvard Square and missed his footing, landing on his face. He was taken to the Stillman Infirmary where he lay for hours unconscious. Physicians who examined him found bad concussion of the brain. He recovered consciousness a few hours later and is on a fair way to recovery.

An Innovation in Oil Heaters

The Perfection Smokeless Oil Heater, with its drums enameled in turquoise, is an ornament to any room, whether in the country or city home.

No home is quite complete without a Perfection Oil Heater. It is a necessity in the fall and spring, when it is too warm to start the regular heating apparatus, and too cool to be without heat. In the midst of winter it is often convenient as an auxiliary heater, as there are always some cold corners in a house.

The enameled heater always presents a nice appearance, as the enamel will not tarnish or burn off. It is not an "enamel paint," but it is the same as the enamel of your cooking utensils.

The Perfection is the most reliable and convenient portable heating device you can find. An automatically-locking flame spreader prevents turning the wick high enough to smoke.

Dealers everywhere. Ask your dealer to show you the Perfection Heater enameled; or write for descriptive circular to any agency of The Imperial Oil Company, Limited.

Not a Question of Choice

But of necessity. You are in need of a really good laundry and that's the reason you need us. There's nothing in the city to compare with our work.

We do it Right. Try us.

The Imperial Laundry Telephone 95. 54 St. Valier St.

IN AND ABOUT TOWN

TRINITY CHURCH ANNIVERSARY

Special Services Held Yesterday—Learned and Impressive Discourses.

Yesterday being the eighty-sixth anniversary of the opening of Trinity Church, three special services were held during the day, the preacher on each occasion being Rev. W. H. Griffith-Thomas, M. A., D. D., late principal of Wycliffe Hall, Oxford. At the morning service there was a large congregation present, including some of the grandchildren and great-grandchildren of the late Hon. Jonathan Sewell, who built the church in 1824. The clergymen present were the Rev. Dr. Griffith-Thomas, Rev. A. R. Beverley, M. A., rector of the church, and Rev. I. M. Thompson, a former rector.

Prayers were read by the Rector and Rev. Mr. Thompson, Rev. Dr. Griffith-Thomas reading the scripture lessons. A very efficient choir, under the direction of Miss Handley, organist, rendered the musical portions of the service in a most acceptable manner, the congregation joining heartily in the singing of the hymns.

At the conclusion of morning prayer, the Rev. Dr. Griffith-Thomas ascended the pulpit and taking for his text the XIX. chapter of St. Matthew, verse 22, "When the young man heard that saying he went away sorrowful"—delivered a most instructive and eloquent discourse. As he described the young man of wealth and so many good points of character, who approached the Saviour and inquired, "What must I do to be saved?" he held the congregation spellbound, and the sermon throughout was followed with the most rapt attention. The lessons he drew from the text were clear, concise and impressive.

In the Sunday School.

At three o'clock in the afternoon a special service was held for the Sunday School pupils. There was a numerous attendance of the children and their teachers. After prayer and the singing of hymns, addresses were delivered by Rev. Dr. Griffith-Thomas and Rev. I. M. Thompson, both giving helpful advice to the young people, as well as their elders.

Evening Service.

The evening service, Trinity Church was packed to the doors. As in the morning, the service was most cheerful and bright. Rev. Mr. Beverley read the prayers, Rev. Dr. Griffith-Thomas taking the lessons and preached another eloquent sermon, taking for his text the words, "He went his way rejoicing." The reverend gentleman's remarks had evidently left a deep impression his hearers.

At the Y. M. C. A.

In the afternoon at 4.15 o'clock the Rev. Dr. Griffith-Thomas addressed the men's meeting at Y. M. C. A. Hall, and this evening will speak at the banquet in connection with the Laymen's Missionary Movement in the basement of Trinity Church.

BAND AT THE CITADEL

The R. C. G. A. Band will give a concert at the Citadel at 3 o'clock on Wednesday afternoon next, to which the public are cordially invited, tea being served in the officers' mess. The following programme will be executed:

O Canada. God Save the King
Chs. O'Neill, Bandsmaster R. C. G. A.

INCORPORATION OF INSURANCE COMPANY

The last issue of the Quebec Official Gazette contains the announcement of the following company:

Public notice is hereby given that, under the Quebec Companies Act, letters patent have been issued by the Lieutenant-Governor of the province of Quebec, bearing date the fifteenth day of November, 1911, incorporating Messrs. W. Molson Macpherson, merchant, Dame Maria S. Macpherson, wife separate as to property of the said W. Molson Macpherson, George B. Ramsey, manager, Louis Arthur Reinhardt, insurance agent, and Robert D. Greig, accountant, all of the city of Quebec, for the following purposes:

To carry on at Quebec the business of insurance agents, fire, life, marine, accident, or any other branch of the same, under the name of "The Macpherson Company, Limited," with a total capital of one thousand dollars (\$1000.00), divided into forty (40) shares of twenty-five dollars (\$25.00) each.

The principal place of business of the corporation will be at Quebec.

JOE MARKS HAS ARRIVED

New Player for the Quebec Hockey Team Arrived Here Last Night.

Joe Marks, who is to figure on the Quebec team during the coming season, has arrived, and is a guest at the Victoria Hotel.

Marks is looked upon by the Quebec executive as a valuable man, and his appearance on the local team is expected to strengthen it up in great shape.

BIG FIRE AT D'ISRAELI

Twelve Houses Reported to Have Been Destroyed at That Place Yesterday.

News was received in town last evening to the effect that a serious conflagration had occurred yesterday at d'Israeli, on the Quebec Central Railway, and that twelve houses had been destroyed.

CORONER WILL HOLD TWO INQUESTS

Dr. Jolicoeur, District Coroner, will hold two inquests this morning one upon the body of the little girl, Turcotte, at Mastai, and the other upon the body of the boy, Fortin, at St. Joachim.

BOY KILLED IN A RUNAWAY ACCIDENT

Coroner Jolicoeur received news yesterday of a fatal accident at St. Lambert, where a young boy named Morin was killed in a runaway accident. Dr. Jolicoeur will hold an inquest.

FANCY STRAW WORK.

An immense lot of fancy baskets, laundry baskets, doll carriages, cradles, whisk holders, glove boxes. Come and visit our basement, it is exceptionally fine.

FAGUY, LEPINAY & FRERE.

NEW BANK BUILDING PURCHASED IN ST. ROCH

The Banque d'Hochelega has purchased, it is understood, the property on the corner of Desfosses and Crown streets, and intends to erect a fine edifice for its St. Roch branch. The building is expected to be remodelled and ready for occupancy by April 1 next.

CELEBRATION OF THE FEAST OF STE. CECILE

The annual celebration of the festival of Ste. Cecile, the patroness of music, took place yesterday at the Church of St. Jean Baptiste, when an imposing musical programme was rendered by the Union Musicale. Solos were rendered by Mlles. Emma Godbout and Fiset and Dr. Jinchereau.

LAVAL LAW STUDENTS ELECTED OFFICERS

The election of officers among the law students of Laval University came to close on Saturday morning with the following results:

President—E. Cote.
Vice-President—W. Beaudry, D. Levesque.

Secretary—C. N. Dorion.

E. R. Warren was unanimously elected treasurer, and L. Gagne as standard-bearer.

YOUNG LAD KILLED BY ELECTRIC CAR

While driving a spirited horse, a young lad, son of Gaudiose Fortin, a farmer, was killed by an electric car on the Q. R. L. H. & P. Co. between Beauce and St. Joachim. The unfortunate lad, with a brother, was driving a spirited young horse, which became frightened at the approaching car and dashed through a gate and across the track, coming into collision with the car. Both the boy and the horse were killed.

SUDDEN DEATH OF WOMAN IN LORETTE

Madame Bourret of Lorette, while returning from the city, where she had been denvering washing, was found dead in her vehicle. It was her custom to come to town once a week to deliver the washing which she had taken from her many customers. She appeared to be in excellent health while in town, but her friends, finding that she had not returned on Friday night, became anxious and set out to search for her, when the horse was found making its way to the house with the dead body of the woman in the vehicle.

CHILDREN'S SLEIGHS.

We have received the finest lot of children's carriages and sleighs. A visit is solicited as your only trouble will be to select from a very large assortment.

FAGUY, LEPINAY & FRERE.

WILL OPPOSE LICENSE RENEWAL

Secretary Roberts, of the Dominion Alliance, Will Take a Hand.

Mr. J. H. Roberts, secretary of the Dominion Alliance, has been in this city for the last few days, and intends, it is stated, objecting to the renewal of certain restaurant licenses in this city. There are at present 100 hotel and restaurant licenses granted in this city, and according to an amendment to the license law, adopted during last session, every holder of a restaurant license has got to provide meals if required for at least ten persons at the same time. Mr. Roberts has discovered that very few of the restaurant keepers observe the law, and intends opposing the renewal of licenses to certain parties when their applications come up before the commissioners this week. The commissioners are Hon. C. Langelier, Mr. Aime Talbot and Mr. Roger LaRue.

SALE OF INSOLVENT ESTATE

The assets of the insolvent estate of J. W. Gaudette, druggist of St. Ann de Beauce were sold on Friday last at the office of the curators, Messrs. LaRue & Trudel, when Mr. Geo. Morel of this city purchased the assets at 45 cents on the dollar.

BIG BILL AT THE AUDITORIUM

The bill at the Auditorium this week promises to be of first quality. The feature act is the Four Musical Cates. Hart and Hayes, Irene First, dancing and singing comedienne, are also on the bill, while the moving pictures will be amongst the best ever witnessed here. The Auditorium will without doubt have one of the biggest week's business in its history with this bill.

FINED FOR DAMAGING A RAILWAY STATION

Two young men named Tremblay and Giguere have been fined \$1 each and costs in the Police Court for causing damage to the Q. R. L. H. & P. Co. station at Chateau Richer. As a number of young men in the Montmorency division seem to take pleasure in occasionally breaking into the stations of that division, it is to be hoped that this condemnation will serve as a notice, and the police magistrate will in future act more severely with such delinquents.

OFFICIAL APPOINTMENTS

His Honor the Lieutenant-Governor has been pleased, by order in council, dated the eighteenth of November, 1911, to appoint Mr. Antonio Couillard, advocate, of the city of Quebec, a magistrate for the district of Gaspere. His Honor the Lieutenant-Governor has been pleased, by order in council, dated the eighth of November, 1911, to appoint Messrs. J. A. Hutchison, physician of the city of Westmount, Persillier Lachapelle, physician, of the city of Montreal and Henry Beland, physician of Saint Joseph de Beauce, members of the board of health of the province of Quebec.

RESERVED SEATS FOR THE SYMPHONY CONCERT

This morning, at 9.30 o'clock, at the Auditorium ticket office, the sale of reserved seats for the first Symphony Concert will be open to the public. The same popular prices as heretofore prevail, that is, \$1.00 for the lower part of the house, 75 cents and 50 cents for balcony seats and 35 cents in the family circle. There promises to be a very large and fashionable audience at the opening concert.

DOLLS.

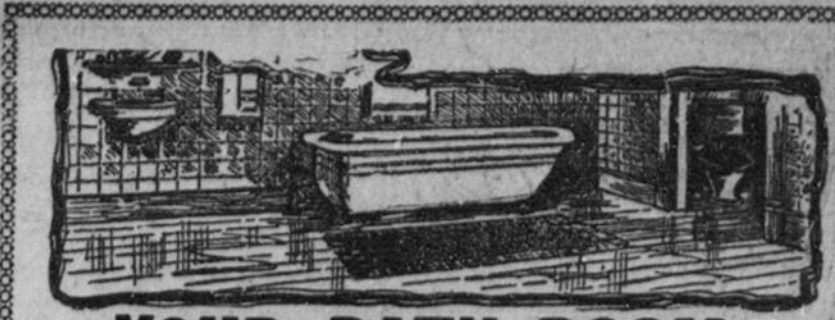

Are you planning for Christmas? Make a point of visiting the Y. M. C. A. Hall next Saturday, where there will be a sale of beautifully dressed dolls, dainty doll costumes and other requisites for the doll's home. Also home-made bread, cakes and candies done up in fancy boxes. The sale commences at half-past nine in the morning and will continue throughout the afternoon. Don't forget it. It will be worth while.

A SCENE AT THE THEATRE ROYAL, MONTREAL.

A military gentleman in box with friends. Enters (on the stage) lady who takes a seat at dinner table and waits; after short time, gentleman friend also enters and, addressing lady, says: "Good evening, Mandy, for whom do you wait?" Lady—"I am waiting for a friend from Quebec, whom I dine with." Gent—"No use, he is always very late, as the dear Dook knows."

LAI D AT REST.

The funeral of the late Mr. James A. Kane took place from his last residence, St. Joachim street, to St. Patrick's Church, Saturday morning, drew together a large number of relatives and friends. Rev. Father John A. Kane, C. S. S. R., of Northeast, Pennsylvania, brother of the deceased, officiated at the requiem mass and was assisted by Rev. Fathers Lawlor and Healey, as deacon and sub-deacon. A full choir was in attendance, and during the service solos were feelingly rendered by the Misses Nora and Mary McManamy, Messrs. J. Shields and R. Timmons. After the solemn services at the church, the remains of the deceased were conveyed to St. Patrick's Cemetery, where the interment took place. The chief mourners were deceased's father, Mr. D. Kane; two sons, John and James Kane, brothers, Messrs. Thomas, Daniel and Rev. Father Kane; brothers-in-law, Messrs. J. Noonan and William Mulroney.

YOUR BATH ROOM

Should look just as well as your Parlor or Sitting Room. Yours can and will if you only place one of our new Varnished Tile or Wax Papers on it. YUAN SHI KAI CHANGED ATTITUDE

It is Understood That He is Again Supporting the Manchu Dynasty.

Paris, Nov. 26.—The Peking correspondent of the Temps says that Yuan Shi Kai has again changed his attitude and has ordered a resumption of hostilities at Hankow, to which place reinforcements have been sent. It is understood that he is again strongly supporting the dynasty, imposing certain conditions. The change is attributed to the rally in Shan-Tung, and it is probable, says the correspondent, that Yuan believes that he can more easily obtain the financial support he wants by breaking with the rebels.

Peking, Nov. 26.—Premier Yuan Shi Kai is practically without a cabinet only the presidents of the minor boards having accepted office. The finance board is without a minister, and the vice-minister left Peking today after informing a personal friend that he did not intend to return. The military activity on the part of Yuan Shi Kai is considered a forlorn hope.

Thirty foreigners, most of them Americans, arrived here to-night from Tai-Yuan-Fu. They were given safe escort both by the rebels and the imperialists.

The diplomatic body, through the dean of the corps, Sir John Jordan, has represented to the Premier the necessity of avoiding disorders in Peking. The ministers believe that the legation guards will be able to prevent a massacre, unless it is thoroughly organized and suddenly precipitated.

By order of the police dragon flags are flying throughout Peking, emblematic of the people's joy, at the formation of a new constitution. The regent to-day, with elaborate ceremonial, took the oath as he promised to do some days ago, swearing adherence before the Emperor's tablets in the ancestral temple to the nineteen constitutional articles. The oath was as follows: "My policy and choice of officials have not been wise; hence the recent troubles. Fearing the fall of the sacred dynasty I accept the advice of the National Assembly. I swear to uphold the nineteen constitutional articles and organize a parliament, excluding the nobles from administrative posts. I and my descendants will adhere to it forever. Your heavenly spirits will see and understand."

Nanking say that the revolutionary forces have suffered enormous losses, but that they pressed irresistibly forward and finally routed the imperialists who fled into the city for shelter. The Nanking batteries then opened and a deafening cannonade was still going on when the despatches left.

STEAMER IN DISTRESS

Halifax, N. S., Nov. 26.—A Marconi-gram to the Marine Department at Halifax this evening stated that the new oil tank steamer Berwindmoor, from Narvik for Philadelphia, was in distress 60 miles south of Sable Island. No further particulars were given.

YANKEE STORY DENIED.

Ottawa, Nov. 25.—Mr. J. Bruce Walker, Commissioner of Western Immigration with headquarters in Winnipeg, was here to-day. He saw the Immigration Department on matters of business and has now returned. He had seen no startling efflux of Canadians across to the other side of the United States border to tell of in spite of reports to this effect which have been appearing in American papers from time to time. One of these reports, in a Chicago, paper stated that Canadian farmers were leaving at the very time that seeding operations were on. No farmer would leave his farm at such an inauspicious time, Mr. Walker said, and thus the story discredited itself.

DEATH OF PROMINENT

CANADIAN BANKER

Montreal, Que., Nov. 26.—Mr. Thomas Fyische, who for some thirty years was one of the most notable figures in Canadian banking circles, died at his home on McTavish street today. Some three years ago Mr. Fyische was stricken with paralysis, since which time he had been confined to his house, a confirmed invalid. Three days ago a second seizure ensued, and from the first it was seen that at his age, 66 years, and weakened condition, recovery was out of the question. He gradually grew weaker until early to-day he breathed his last. The late Mr. Fyische was not only recognized as a sound banker throughout the country, but also took a prominent part in shaping the financial legislation of the Dominion, when, in 1890, as representative of the banking interests of the Maritime Provinces, he was strongly instrumental in framing the Banking Act by Hon. George E. Foster.

THOUGHT IT WAS STONE.

Cleveland Plain Dealer:—"Professor Blinker is getting more absent minded every day." "What's his latest break?" "Why, his oldest daughter is just out of cooking school, you know, and he's been showing his class a cruller she made. He told them it was proof of the fact that the men of the stone age played the game of ring toss."

Late Telegraphic News.

CHARGE AGAINST THE WASHINGTON GOVERNMENT

London, Nov. 27.—A Berlin despatch to the Standard says that the Washington government intervened indirectly in the recent Moroccan crisis, to prevent Germany from obtaining a coaling station at Agadir.

THE INTERNATIONAL LAWN TENNIS TEAMS.

Melbourne, Australia, Nov. 26.—The Australian team for the defence of the Dwight F. Davis international lawn tennis challenge cup was selected. It is composed as follows: Norman E. Brookes, Lycett, A. W. Dunlop and R. W. Heath. The American challengers for the Davis Cup are Wm. A. Larned, M. E. McLoughlin and Beals C. Wright. They arrived at Auckland, N.Z., on November 22, proceeding from there to Wellington and thence by boat to Christchurch, where the challenge round with the Australians will be played beginning Dec. 30.

TROUBLE OVER CENSOR IN THE DRAMATIC WORLD

London, Nov. 27.—The advanced section of the dramatic world represented by George Bernstein and Gravel Barker, is up in arms against the appointment of Charles E. Brookfield as the new censor of plays to assist George A. Redford, the existing censor. Brookfield is the author of the play "Dear Old Charley," which the Daily News this morning describes as "one of the most notoriously suggestive farces of the present day." When Mr. Brookfield's appointment was unofficially announced Saturday night, many refused to believe it, but it was officially confirmed last night, and is denounced by the advanced section as "shameful." On the other hand, the older managers, like Sir Berber Tree, George Edwards and Arthur Bourchier, applaud the appointment.

STEAMER ARRIVALS

Nov. 26, 1911.
SS Adriatic, at New York, from Liverpool.
SS Caledonia, at New York, from Glasgow.

SS Helvetia, at Savannah, Ga., from Montreal.
SS Palanza, at Halifax, from Newport News, for Hamburg.

PERSIA'S APOLOGY IS NOT SATISFACTORY

St. Petersburg, Nov. 26.—It is semi-officially announced that Russia is not satisfied with Persia's apology, inasmuch as the delay compelled Russia to take extraordinary measures. In the meantime, the statement asserts, W. Morgan Shuster, the American Treasurer-General of Persia, has circulated misleading statements, and it is rumored that the Russian government will demand the dismissal of Mr. Shuster.

CONFESSION TO BEHEADING HIS WIFE AND PARAMOUR

Kenosha, Wis., Nov. 26.—Tortured by the mental picture of his headless wife and her paramour whom he slew last night, Pasquale Marchesi, 27 years old, a merchant, today confessed to a priest the double crime heretofore not discovered. He was turned over to the police who are closely guarding him for fear of possible mob violence tonight. According to Marchesi he went home last night and found his wife, Rossaria, and his cousin making love. Without allowing his presence to become known, Marchesi went to a woodshed, procured a hand axe, crept into the house and chopped off the heads of the two lovers. Taking his baby, two months old, from the arms of his slain wife, Marchesi washed the blood from its face, carried it to the home of his brother and said that his wife was ill. He returned to the house, dressed his daughter Josephine, four years old, and took her to his brother's.

INCREASE OF UNITED STATES TRADE THIS YEAR.

Washington, Nov. 26.—The United States trade with foreign countries has grown considerably this year with that of a year ago, according to statistics of the Department of Commerce and Labor issued yesterday. In exports trade for the ten months ending with October increased \$235,000,000 over the period last year, while the imports decreased \$32,000,000 in the same time. A balance of trade in favor of the United States amounting to \$401,500,000 existed on Nov. 1. Canada's exports to this country for October decreased \$1,200,000 from October of last year, and \$6,300,000 for the ten months ending with October. American exports to Canada increased \$6,800,000 for October and \$48,600,000 for the ten months. All the principal countries, except British India, Japan, the Netherlands and Russia, showed decreases in the amount of their products imported into the United States. A total of \$1,264,400,000 worth of imports entered the country for the ten months, while the exports to foreign countries amounted to \$1,665,900,000. The greatest increase in exports was to Canada, Germany was next with an

increase of \$32,000,000 for the ten months; United Kingdom with an increase of \$25,000,000; Netherlands, with an increase of \$19,000,000 and France with an increase of \$14,000,000. Mexico alone of the principal countries showed a decrease.

CLERGYMAN'S DAUGHTER COMMITS SUICIDE

New York, Nov. 26.—Alice Tristram, 38 years old, said to be the daughter of a prominent clergyman in Dublin, Ireland, committed suicide in the golf house of Van Cortland Park today by drinking poison while sitting alone at a table. She came to this country last September and at the Young Women's Christian Association where she stopped, told acquaintances that her father was Canon Tristram of Trinity Church, Dublin, Ireland, and that she was married to a wealthy mineral water manufacturer named Shanks. She decided to resume her maiden name, she said, after her arrival here, although she had a 14-year-old son in school in Ireland. The Dublin city directory contains the name of Rev. John Wm. Tristram, D.D., secretary of the Board of Education, and of J. C. Shanks, Limited, mineral water manufacturers. The woman's principal reason for leaving home, according to her story, was because her father had married a second time and that it was impossible for her to be companionable to her stepmother. Miss Tristram had a sweet and well cultivated voice and had sung here on several occasions at musicals and dinners. She had been unsuccessful, however, in an effort to obtain pupils and it is believed that she was pressed for funds before she took her life.

ELECTRIC SIGNS AS BIRD WARMERS

Sparrows Roost on the Lights and Thus Keep Warm in Cold Weather.

Topeka, Kan., Nov. 23.—Big electric signs on the roofs of Topeka buildings here become the roosts of hundreds of sparrows and other winter birds.

At the corner of Eighth and Kansas avenue is an electric sign with more than three hundred lights in it. A watchman was told the other night that the lights were not burning and he went up to look. He counted more than sixty sparrows and one or two other birds perched on the lights, peacefully sleeping. The troughs making the letters of the sign are just large enough to let sparrows or other small birds slip in, and the birds can perch on the lights and keep warm all night. The lights are of only four or six candle power, and, being exposed to the weather, do not get very warm.

Life.—"After all," observed the thoughtful man, "there's always a lot of difference between expectation and realization." "You bet," answers the man with the chemille whiskers. "For instance, reading a seed catalogue in the spring and looking at your garden in the fall."

ELECTRIC SIGNS AS BIRD WARMERS

Sparrows Roost on the Lights and Thus Keep Warm in Cold Weather.

HENRY BIRKS & SONS, Ltd., MONTREAL.

THE QUESTION OF MIXED MARRIAGES

And the "Ne Temere" Are Discussed by Bishop of Montreal and Canon Kittson.

Montreal, Nov. 26.—The following reply to the recent pronouncements of the Roman Catholic Archbishop of Montreal on the question of mixed marriages and the "Ne Temere" decree has been issued by the Lord Bishop of Montreal:

"His Grace the Roman Archbishop of Montreal has made some remarkable statements concerning the 'Ne Temere' decree and the marriage question. It is not a matter of wonder that we, non-Romans, should misunderstand him—as he complains we do—when we have such conflicting statements put forth. Let us examine some of his statements. His Grace says: 'It (the Ne Temere) has been in force since Easter, 1908, and that in every country in the world.'"

May I draw his attention to the fact that it is not now, and never has been in force in Germany. The "Provida" decree prevails in the German empire, and it says: "We will, nevertheless, and expressly declare, define, and decree as valid mixed marriages already contracted without the Tridentine form in any province or place whatsoever of the German empire." So that Germany is certainly exempt from its operations. His Grace further says: "This is no new thing in the world since it was dealt with at the Council of Trent in 1563."

"It was a new enactment then, and its enforcement is a new thing in Canada now."

"We did not object to it as long as it was lying dormant in the pages of history; nor did we trouble ourselves when the decree was promulgated in Canada, so long as it did not come into active operation. Great Britain and the United States do not trouble themselves about the decree, because they know that the civil law amply protects them. When, however, the ecclesiastical court annuls a marriage, and our civil court sustains its decision, and when its other features are being rigorously enforced, it then becomes a practical matter which deeply concerns every citizen of the Dominion."

"Again, His Grace says 'particularly as it (the Ne Temere) is no new thing for us in the Province of Quebec, where the decree 'Tamesti' of the Council of Trent has been in force since the last days of the colony. And according to this latter decree, as according to the 'Ne Temere,' any marriage to be valid must be celebrated before the cure.' This is extraordinary in view of the statement made in His Grace's pastoral in 1901, in which he says: 'By virtue of the constitutions of the sovereigns pontiffs there are countries, and the Province of Quebec is of the number, where, in spite of the promulgation of the Council of Trent, we are considered as valid, marriages celebrated clandestinely between two parties, one being a Catholic and the other a baptized non-Catholic. The marriage of a Catholic and a baptized Protestant, or vice versa, celebrated before a Protestant minister, although gravely illicit and calling down the censure of the church, is, however, a marriage contracted in a valid manner, even in the eyes of the Church herself. Once consummated, this marriage cannot be broken by any earthly power, death alone rendering liberty to the party surviving.'"

"The 'Tamesti' decrees distinctly says that 'clandestine' marriages contracted with the free consent of the parties are true and lawful. But this decree was never promulgated in England, France or Quebec. Since 1741, before the cession of Quebec by France to England and up to the time of the 'Ne Temere' decree, the Benedictine rule prevailed in Canada. Pope Benedict XIV, then decreed that:

"1. The Tridentine rule (i.e., the decree of the Council of Trent) is not to apply at all to Protestants.
2. Consequently it will not apply to the marriage of a Protestant with a Roman Catholic, as in such case it would be interfering with the marriage of a Protestant, the right to which interference the civil power was not prepared to admit."

"3. Therefore, in the interest of the public peace and tranquility, mixed marriages were permitted."

"When the Archbishop says that the Tridentine rule does not affect Protestants he differs from Pope Benedict XIV. The Benedictine rule is the one upon which His Grace's pastoral of 1901 was based."

"Then His Grace said that mixed marriages before a 'Protestant' minister were 'even in the eyes of the church valid'; now he says they are invalid. Surely when a decree declared a 'Protestant's' marriage null and void ad initio, and disturbs the peace and happiness of his home, it does interfere with him. This the Ne Temere certainly accomplishes. This is all the more clearly emphasized by His Grace's circular, number 65, Nov. 1907."

"Tell your parishioners in our name, that we will no longer grant dispensations even though they bring forward the weighty reasons of temporal advantage or mutual affection, even though they threaten to seek the services of a minister of another religion. We would also remind

you that there is excommunication against every Catholic who attempts to be married by a Protestant minister."

The Archbishop says the Roman Church's right to administer the marriage law is secured by treaty and by the constitution. Certainly the treaty of Paris, which gives to his church the free exercise of its worship "as far as the laws of Great Britain permit," does not give such rights. The Quebec Act gave the free exercise of religion to his church "subject to the King's supremacy declared and established by an Act made in the first year of the reign of Queen Elizabeth over all the Dominions and countries which did then or hereafter should belong to the imperial crown of this realm." This act does not give them any such right. At the time of cession and for a long time after, Romanists in England could only legally be married in the Anglican church, so that he cannot get his true rights there. Nor did the law of France before the cession, grant to the Roman church such rights. The decrees of the Council of Trent were not promulgated in France so that these rights are not a part of the ancient laws of France. The Archbishop says that no outcry is made against divorce. He cannot have read the press of our day; if he did, he would know that our clergy, and our synods, have condemned divorce over and over again. He does know that no Anglican clergyman is allowed to officiate at any marriage of a divorced person during the life time of the former partner. His statement is hardly borne out by the facts. This present agitation has arisen chiefly through the action of the Archbishop in annulling the Hebert marriage, which our courts have not happily, now sustained. To permit a woman, who has been faithful to her marriage vow, to be cast off with her innocent child, because she was married by a 'Protestant' minister, duly authorized by the state to perform marriages, is much worse than divorce, which can in Canada only be granted for the cause of adultery. If this woman sinned against her church by her act, one would have thought that the fatherly heart of the Archbishop would have persuaded her to permit him to validate the marriage according to the laws of his church, and not to cast her away as a 'vile woman.' No one neither questions the right of any church to make laws to govern its members, nor its right to discipline them when they violate these laws; but the extreme penalty which any church can exercise is to excommunicate the offender. No church society can be permitted to annul marriages. The Roman Catholic Church has no special privileges by our constitution in Canada. Provincial legislation may have granted such, but not the constitution. Most earnestly would I appeal to His Grace, and to all citizens who believe in the sacredness of marriage, not to force upon us in Canada purely civil marriages, as in the case in Italy. We want equal rights for all in this Dominion; and it is the right of any citizen to say what officer shall officiate at his wedding, and when one who is authorized by the state must uphold the act of the officer who acted under its license. No one can be permitted to touch the civil status of such persons, or their offspring. The church may refuse them Communion, that is her right; but she must not say that the marriage, for ecclesiastical offences, is invalid. Nor must anyone impugn such marriages legally contracted. The state dare not permit any church to do so; if it does, then it undermines the stability of the state and the church."

CANON KITTSO'S REPLY

Ottawa, Ont., Nov. 25.—Rev. Canon Kittson, rector of Christ Church Cathedral, has come out with a strong reply to Archbishop Bruchesi's defence of the "Ne Temere" decree. Himself a former Roman Catholic, who lived for several years in the province of Quebec, his statements have stirred up renewed interest in the question. After reviewing the decree at considerable length, Rev. Mr. Kittson takes up the letter of Mgr. Bruchesi, and, in reply, says, in part: "The claims made by Archbishop Bruchesi and the language used by him in his last pronouncement would have received scant courtesy from the government of England or even from the French authorities. The claims made by the Roman Hierarchy are more far-reaching than is generally known, and the policy of extending the limits of encroachment can be traced from the first years of Canadian history." After pointing out that the "Ne Temere" decree is not as innocent as it is made to appear by Archbishop Bruchesi, Canon Kittson continues: "It is surprising that Archbishop Bruchesi, who possesses a fair and a just interpretation of the law and order of the state, has not added to his list of judges who have given out decisions on the marriage laws of Quebec, the names of Judges Torrance and Archibald, who have given adverse judgments, and whose decisions have not been disputed or challenged by appeals to the higher courts." After quoting a part of Judge Archibald's decision, Canon Kittson says: "If we are to believe history and the records of the Canadian archives, then we must conclude that the guaranteed treaty rights of the Province of Quebec, as understood by the Archbishop are mythical." In conclusion he says: "It would be a sad day for Archbishop Bruchesi if he had to take orders from King Louis and feel the rod of Frontenac. A thorough study of archive reports will clearly define the limits of freedom of worship which the members

"What All the World's a Seeking!"

Article No. 1

THE ANSWER IS EASY,—MONEY! It may sound sordid or even sinister, but whether the search be sordid or sinister or in vain depends upon the seeker. Money itself has no qualities. It is merely the universal medium of exchange, without which we can do—NOTHING.

And since it is the universal necessity, the race for it has also become universal, with the goal seldom to the swift. It is those who have failed in the race that have invented all the latter day doctrines of social inequality, and the injustice of modern economic conditions. And there are very few of these doctrinaires who would not lay their theories a willing sacrifice upon the altar of the Goddess of Fortune, if only she would smile upon them. But despite all the doctrines and all the theories, the practical fact remains insistent, that money is man's chief material necessity.

The practical question these days is how to make money the surest and quickest. The answer here is also easy. The surest and quickest way to make money is through those enterprises that create wealth.

Western civilization will serve as a ready and convincing illustration. The wealth of the two great American nations, Canada and the United States, is enormous,—almost beyond calculation. Yet all of this incalculable wealth has been created in a single century. And at the dawn of the Nineteenth Century, the stake was all there, any part of it ready for the man who had the vision and courage to claim it.

This is but a nation-wide and century-long illustration of what has even to-day a personal application. There is yet an Empire to build, with its cities and railroads and mills and merchant palaces. And there is yet the opportunity for the man who will, to have a part in its building. There is a stake as great as the Eastern Provinces, or the Mississippi Valley, waiting for its claimants. And that Empire which is now in the making is Western Canada.

Here in this new Empire, is the richest soil, the finest timber, the greatest and most varied wealth of minerals, and the most magnificent waterways in all the known world. No one who knows Western Canada doubts but that in the Empire upon which the sun never sets, this is the Land of Opportunity.

The story of the future industrial development of Western Canada can all be told in one word,—Organization. It is a national problem, the Organization of this new land. And never in all the history of Industrial development has that magic Countersign of Twentieth Century progress deeper significance than in its application to Western Canada to-day.

The Industrial Organization of Western Canada includes these elements.

1. The Natural resources of the West.
2. The Capital of the East.
3. Management, in which the whole world will be laid under tribute.

It is because Capital has never had such opportunities, nor the Genius for Organization in such a field, that the Capital and ability of the British

Empire are turning to-day toward this new land of opportunity.

And Capital has a different application in Western Canada. It is not Centralized Capital that is being invited, but the smaller contributions of individuals. For Western Canada is destined to be the Empire of Individualism. And the spirit of individual opportunity breathes in the air of this new land. It is the call of the men of the West to the men of the East: "Come over into Macedonia and Help Us."

What this opportunity means will be well illustrated in a story which will be told in this space during the next five days. It is the story of one of the greatest Industrial Institutions in the West, which is now rapidly rushing to conclusion. It is the story also of an Organization Enterprise that has no parallel in Canada or the United States. Here is the story told without names or details:

A few years ago two young men, Western Scouts of fortune, journeyed by pack horse one hundred and fifty miles from a Western outpost town, in search of—they knew not what—anything that could be conjured into coin. They found a vast deposit of a certain mineral which enters into the manufacture of an almost universally used commodity. They stalked these claims and waited. For another mineral also was needed for this commodity.

A few years later, a pioneer railroad that was pushing its way westward, passed over the very heart of these claims. In approaching this property, the builders of the road made a cut through a little muskeg lake, that was higher than the surrounding country. When the lake was drained, a huge deposit of the second required mineral was revealed. And the two young men, who had now added four others to their Company, staked this claim also. Meanwhile, the little outpost town had grown to a thriving city. Another railway had projected its line westward, and right where these claims lay, this other transcontinental was only one hundred and fifty feet from its older rival.

Then came an Organizer. The whole position was thoroughly investigated. It was determined that this universally used Commodity could be manufactured from these two materials at a profit, due to peculiar local conditions,—of more than two hundred per cent.

on the cost of manufacture. A great Company was formed. The Lieutenant-Governor of a Western Province became its Chairman. The best business men of the community became Directors. More than Four Hundred Thousand Dollars of Capital was subscribed in a city of thirty thousand people. A great manufacturing plant of twelve buildings was commenced. A wealthy capitalist who had retired from business put on his workman's clothes again and took up the organization of a model-workmen's town. One Hundred men are now employed in building this great mill. All of this was done without the co-operation of a single man of great wealth. And now the co-operation of Canadians everywhere is being invited upon these representations:

1. That the shares will advance from \$110 (their present price) to \$150 (much less than their ultimate value) within a year.
2. That the great factory will be in operation in October next and will pay a dividend of more than 25 per cent. to the shareholders of the Company.

This is the first chapter of this Industrial Romance of the New West, for the truth of which the best men of the great Western Province will vouch. There will be five more chapters and they will appear in this space during the five remaining days of this week.

ALLAN HAYNES, Limited, Edmonton, Alberta

of the church of Rome then enjoyed. The question may be put before the reading and thinking public in this form: 'Has the church of Rome ever received power or jurisdiction over the supremacy of the Crown to constitute itself a judge and to summon parties and solemnly decide as to the validity of the marriage between the?'"

A DISAPPOINTING CROP.

They had both been born and lived their respective 20-odd years in the city, but when they set up housekeeping they decided to live in the suburbs. And of course once settled in their little home in the midst of a small yard nothing would do but they must have a garden.

They furnished a lot of amusement for their neighbors, but to them it was all very serious and wonderful and they were almost speechless, with delight over the first radishes. As time went on, however, their ardor cooled. Their lettuce would not head, their onion seeds produced unbelievably tiny onions, their neighbors rabbits ate all the peas.

The bride was telling this tale of

DOCTORS AFRAID TO OPERATE

Could Not Remove Stone From The Bladder, Gin Pills Enabled Him To Pass It.

JOLLETTE, P. Q.

"During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone in The Bladder. He decided on an operation and was assisted by another doctor. They said the calculus was larger than a bean and too hard to crush, and that they could not take it out.

I returned home suffering greatly, and did not know what to do, but was recommended by a friend to try GIN PILLS. I bought a box and found relief from the pain at once. I took a second and third box of GIN PILLS after which I went back to the specialist.

He told me the calculus was reduced in size, still he could not relieve me of it, although he tried for two and a half hours.

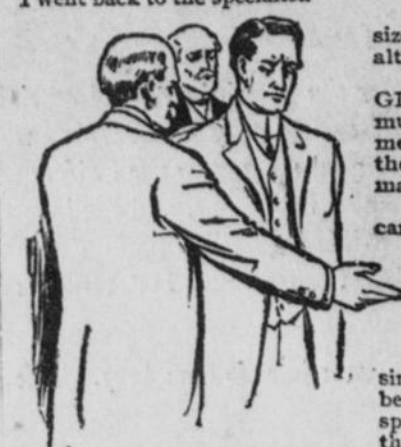

I returned home and continued to take GIN PILLS as they reduced the pain very much, but I did not expect they would relieve me of the stone, but to my great joy, I passed the stone on October 3rd, and am now a well man and very happy.

I am sending the stone to you so that you can see for yourself what a great work GIN PILLS did for me. GIN PILLS are the best medicine in the world and because they did so much for me, I will recommend them to all the rest of my life."

J. ALBERT LEBARRD.

Isn't it wonderful? Just think of these simple pills, that even children can take, being able to perform what the greatest specialists in Canada could not do. Surely, the days of the miracle have not passed away, as long as we have Gin Pills. These wonderful pills dissolve stone in the bladder or kidneys because they are a natural solvent for uric acid, which causes calculus. If GIN PILLS are not sold in your neighborhood, send us 50c. for a box or \$2.50 for 6 boxes. Sample free if you write us mentioning this paper. National Drug and Chemical Co. of Canada Limited, Dept. Q C Toronto.

GIRL PREACHER FROM WALES

Only 18 Years Old, And Has Oratorical Ability.

One of the passengers on board the Baltic, of the White Star Line, which arrived from Southampton the other morning, was a girl of 18 years, from South Wales, with a mission in life. She is Miss Margaret Bevan, and she is a preacher of the Gospel in the Baptist Church. Miss Bevan has come to America for the second time. She was here two years ago, and at that time preached in a number of churches in the larger cities.

Miss Bevan's entrance into the clerical ranks was due to accident. Three years ago she was expected to read a short essay before one of the Welsh brotherhood which met in a billiard room in her little hamlet. Mrs. Bevan was anxious and so was Margaret's father, but with all their anxiety Margaret went to the meeting without the manuscript of her essay.

She was on the platform before she discovered the loss of the precious paper which she was to read. Then, rather than disgrace her mother, who was responsible for her clean new frock, Miss Bevan stood up and began to talk. How she talked can only be imagined when it is understood that the village preacher and all the inhabitants spoke of nothing else for a month, and eventually the news of the little girl's address reached a conclave of Baptist preachers in a distant town.

That was the beginning, and now Miss Bevan has been invited to this country by the Baptists of the United States, and under the direction of the Rev. Dr. J. T. Lloyd, of Youngtown, Ohio, she will make an extended tour.

McGILL COMMITTEE CONGRATULATED BY GOV.-GEN.

Montreal, Nov. 26.—Mr. R. B. Angus, chairman of the organization which raised a million and a half for McGill last week, has received a telegram of congratulation from the Duke of Connaught. His Royal Highness will be in Montreal Dec. 12-16. Both the Duke and Duchess will visit McGill and receive the honorary degree LL.D. The Duchess will be the second woman to receive the honor, the only other honorary graduate being the present Queen, upon whom it was conferred when she visited Montreal as the Duchess of York.

SCHOONER GOES TO BOTTOM.

Vineyard Haven, Mass., Nov. 25.—The Bangor schooner Hannah F. Carleton, Port Reading for Castine, Maine, with coal, foundered at 7.30 o'clock last night one mile and a half northwest of the Handkerchief Shoal lightship. Captain Brown and his crew of four men rowed to the lightship and were landed here today by the revenue cutter Acushnet. The Carleton struck a mass of floating wreckage on Nantucket Shoals during the thick weather yesterday afternoon and was so badly damaged that the pumps were unable to free the hold. The schooner went down within four hours. The Carleton was built at Pembroke, Me., in 1884, and registered 189 tons.

A HEAVY LOSS TO THE CANADIAN PACIFIC RAILWAY

Montreal, Nov. 26.—When on the approach of winter the prospects of the settlement of the western coal strike were not bright, the Canadian Pacific Railway Company, fearing that there might be suffering amongst settlers during the winter, purchased in Pennsylvania and brought in by way of Fort William and Jack Fish, all the coal that could be handled through these ports, and in addition provided for shipments by way of Duluth of 400,000 tons in excess of the company's own requirements, the purpose being to have this coal available for sale at cost to settlers along its lines if a supply could not be secured through railway channels. Now, however, that the strike has been disposed of and the mines are at work, settlers will be able to get their coal through local sources at about half the cost of the Pennsylvania coal, and the company must bear the loss on the coal imported as a safeguard, involving a direct loss to it of over a million dollars. However, the strike might not have been settled, in which event the supply of coal would have been a great boon.

GIRL AT LAKE'S BOTTOM.

Spends Half Hour in Diving Suit Beneath Surface.

Having donned a diver's suit and spent half an hour to-day exploring the depth of Lake Superior, Miss Gladys Jenney, daughter of R. H. Jenny, a lumberman of this city, is entitled to the honor of being the first woman in the Lake Superior country to visit the fishes in their native habitat. Miss Jenney watched with interest divers laying a waterworks intake here, and promptly accepted a challenge to make a submarine excursion on her own account and was lowered 60 feet beneath the surface of the water.

Some time having elapsed, the men above became uneasy and pulled Miss Jenny to the surface, although she had not given the signal to be raised. She objected strenuously to having her submarine expedition interrupted that she was permitted to return and continue her observations.

"It was the most novel experience of my life," said Miss Jenny tonight, "and I shall again dive into the depths of Lake Superior at the first opportunity. I would rather explore the hidden mysteries of the sea than ride in an airship."

CLOSING LETTER

New York, Nov. 25.—The reactionary tendency of the market continued this morning and, in general, stocks declined fractionally in the initial transactions, but the market was very narrow, owing to the many absentees attending the several football games. After the early selling was over the market recovered slightly and displayed but little activity. The leading market operator is reported to have sold stock for the past few days and to be bearish in his feelings, but he may turn quickly to the other side on any evidence of scarcity of stocks. The short interest continues large and stocks low freely at small concessions in interest. A large amount of Lehigh Valley is said to be on the market for sale between 179 and 181 and this may prevent any immediate advance in this stock, but ultimately there would appear to be better things in store for this company. Steel trade conditions were reported good by the most important interest, outside of the United States Steel Corporation, and advances in price for structural steel are said to be contemplated. The Interstate Commerce Commission decision reducing rates in the far north-west affected the Hill stocks adversely but not seriously, also St. Paul, which lost over one point.

The closing prices were somewhat irregular, but changes were largely confined to fractions, the northwestern group of railroads being the greatest sufferers.

The bank statement showing loans decreased \$13,500,000, with a loss in cash of \$6,344,000 and a reserve loss of less than \$1,500,000 was better than anticipated.

Closing New York Curb Quotations

Millfeed—Manitoba bran \$23.50 per ton; shorts \$25 per ton on track Toronto.

Eggs—Selected 40c; fresh 27c to 28c.

MONTREAL STOCK MARKET

Montreal, Nov. 25.—Trading on the local stock market this morning was in extremely light volume and price changes as a rule were narrow, though the general tone of the market was somewhat easier. The only distinctive feature was some selling of Dominion Canners, under which the price broke 63 1/2, as compared with 67 at the close Friday. It recovered fractionally to 63 1/2, with 63 1/2 bid and 64 asked at the close. Montreal Power showed strength, advancing to 182, as compared with 181 at the close Friday, and at the close 182 1/2 was asked. Steel Corporation was quiet and sold fractionally lower at 57 1/2, with that figure bid at 57 1/2 asked at the close. The cement issues were somewhat easier, the common declining to 27 1/2 and the preferred to 88 1/2, recovering to 89. Canadian Pacific sold fractionally higher at 242 and 250 at 135 1/2. Richelieu was steady at 122. Cooke Bros. Common was firm at 40 and the Preferred was stronger, advancing to 85 as compared with 86 1/2 at the close Friday. Crown Reserve sold at 290 with 285 bid and 290 asked.

NEW WATER SUPPLY SCHEME

CITY HALL,
Quebec, November 20, 1911.

PUBLIC NOTICE

Is hereby given that sealed tenders addressed to the City Clerk, City Hall, Quebec, will be received up to noon on the 20th day of December 1911, for the following:

1. 44 and 40 inch diameter cast iron pipes, specials, valves, etc.
2. 44 and 40 inch diameter steel pipes, specials, valves, etc.
3. Loading and transporting from railway depot or wharves, Quebec, of all the pipes, valves, etc.
4. Trenching, filling, laying and jointing of the whole pipe line.
5. The tenderer may also tender for carrying out all the work comprised in Nos. 1, 3 and 4 "en bloc."
6. The tenderer can also tender for carrying out all the work comprised in Nos. 2, 3 and 4 "en bloc."

The pipes, etc., shall be delivered free on cars, or on the wharves, in the city. Earliest time on which delivery can be commenced and completed to be stated in tender, also the time necessary for the completion of the contract.

Specifications and forms of tender can be obtained at the office of the undersigned, City Hall, Quebec, during the hours of nine a.m. and four p.m. on payment of two dollars (\$2), which sum will be refunded on receipt, in proper time, of a "bone fide" tender.

Tenders must be submitted on blank forms attached to the specification, and must be endorsed on the outside, with the name of the portion of the contract tendered for, and must be signed by two responsible parties as sureties for the whole fulfillment of the contract.

The tender will also contain an accepted cheque payable to the City Treasurer for the sum of five per cent (5 p.c.) of the amount of the contract for numbers 1 and 2, and ten per cent (10 p.c.) of contracts Nos. 3 and 4.

The City does not bind itself to accept the lowest or any tender, and the contractor shall pay the Corporation notaries their expenses for drawing up the contract, and a notarial copy thereof for official use.

By order,
T. A. Jardine Forrester,
Consulting Engineer New Water Works.

H. S. THOMSON MANAGER

Commercial News

NEW YORK STOCK MARKET

McDonald & Lesperance, stock brokers, private wire to New York and Montreal, Hochelaga Bank Building, Telephone 1227.

Canadian Press Service.

New York, Nov. 25.—The North-Western Railway stocks were heavy today and those on the Canadian side were strong. A few of the less prominent industrials advanced. The main body of speculative issues was inert, with small and irregular movements.

The Inter-State Commerce Commission's order for lower rates on various freight classifications in the northwest was the only direct new influence on the market. It was used with effect by the bears in attacking the stocks of the railroads concerned, and the North Pacific, Great Northern Preferred, St. Paul and Northern Western were depressed a point or more.

In the Canadian group, Canadian Pacific rose 2 1/2, Wisconsin Central 2 and Minneapolis, St. Paul and Sault Ste Marie a point. The strength of these roads was attributed to the gross earnings of Canadian Pacific, which continues to report increasing business. For the third week of November it shows a gain of \$120,000.

Two of the large railroad systems made their October earnings which were regarded as disappointing. Gross returns were virtually unchanged, but operating expenses rose more than \$100,000. This added expense, combined with a rise of about the same amount in taxes, reduced the operating income by \$222,000. The Southern Railway reported an increase of nearly \$350,000 in gross receipts, although the net showed a gain of less than \$100,000 on account of heavier expenses. The bank statement in some ways was a surprise. A loss in cash in the actual statement of \$6,300,000 was in line with expectations, in view of the week's export movement of gold. Predictions that the comparatively slender surplus reserve would be reduced almost to the vanishing point, however, were not borne out, owing to the fact that loans were reduced \$13,500,000. Net deposits fell off nearly \$17,000,000, and the loss in surplus was less than \$1,500,000.

The bond market was steady. Total

SPANISH RIVER PULP AND PAPER CO.

Montreal, Nov. 25.—It is stated that the public offering of Spanish River Pulp and Paper Company's stock will be largely over subscribed. The public have become familiar with the large earnings of pulp and paper companies in Canada and were prepared to subscribe for stock in the Spanish River Pulp and Paper Company as soon as the opportunity was afforded them. The Spanish River Pulp and Paper Company are erecting their mills at a time which permits them to take the fullest possible advantage of the great development taking place in this country. The company undoubtedly should have a great future and this fact is recognized by the public. They are showing it in a tangible way by subscribing to the stock of the company.

**ANNEXATION OF
TOWN OF MONTCALM**

Proposed Bylaw Which Is to
Be Submitted on the Sub-
ject

The question of annexing the town
of Montcalm has not yet been defi-
nitely decided although the special Que-
bec civic committee and the Council
of Montcalmville have held several
interviews to discuss the matter. At
the last meeting of the Quebec City
Council the project as approved by
the special committee was placed on
the table of the Council, and ad-
journed until next meeting, but it is
probable that even the Quebec city
aldermen will raise certain objections
to the proposed by-law. The prin-
cipal clauses of annexation are as fol-
lows:

The town once annexed will be
known as Candiac Ward and will be
represented in the City Council by
three aldermen until the reduction of
the aldermen in each ward of the city
from three to two will take place,
which will also apply to Candiac
Ward.

While undertaking to assume the
usual obligations the annexation by-
law contains a clause which states
that the city does not undertake to
recognize or maintain any perpetual
or exclusive franchise which the town
of Montcalm may have given in the
past.

During a period of ten years the
taxes on buildings will remain un-
changed, and for buildings erected
within five years after annexation the
taxes on such buildings will remain
on the same basis for the remainder
of the ten years.

Farming or pasture land utilized ex-
clusively for such purposes, despite
and ameliorations which may be made
for those ends will continue to be
taxed on the same basis, as it is at
present, for a period of ten years.

With regard to properties divided
into building lots, they will continue
to be taxed as they are at present,
providing that at the time of annexa-
tion one-half of the lots have been
sold bonafide, or within a period of
three years. At the expiration of
this period the portion of those lots
which has not been sold will be val-
uated on the same basis as vacant lots
in the city of Quebec. Properties
that will be divided into building lots
within a period of five years follow-
ing annexation will come under the
present by-law and that from the
date of their division.

Apart from what is already men-
tioned the residents of the new ward
will be obliged to pay taxes, licenses
and assessments actually collected
from the citizens of Quebec, apart
from property assessment and the
water tax.

The water works of the town of
Montcalm, while becoming the prop-
erty of the city of Quebec, will be ex-
clusively for the use of the new ward,
except in the case of fire, and will
be used by the new ward alone as
long as the force is sufficient for the
wants of the ward.

The city of Quebec undertakes to
spend the sum of \$250,000 at least
within a period of five years in the
new ward on permanent works re-
quired and will spend the sum as fol-
lows:—\$100,000 the first year; \$75,000
the second year; \$40,000 the third
year; \$20,000 the fourth year, and \$15-
000 the fifth year.

St. Foye Road as far as Belvedere
and St. Louis Road as far as Belve-
dere, Maple Avenue as well as Belve-
dere street will be paved or macad-
amized, and Bourlamaque street will
be prolonged and terminated, at its
present width, from Cremazie to Ste
Foye Road, all to be completed in
the course of the year 1912. During
the summer and the autumn of 1913,
Park Avenue will be continued and
completed and finished as far as Sher-
brooke street, but the cost of these
works will be comprised in the amount
to be spent annually as outlined in
the foregoing clause. The other
streets will be macadamized as re-
quired.

The streets of the new ward will
be as well lighted as those of any
other ward of the city.

During the first year following an-
nexation a fire alarm system will be
installed, as well as a police station
and a fire station which will be or-
ganized as those of other wards of the
city of Quebec. The cost for which
may be taken from the sum of \$250-
000 already mentioned above.

No shops, manufactories, stores, or
commercial establishments will be
permitted to be established on St.
Louis Road and Ste Foye Road, west
of Maple Avenue, or on Maple Ave-
nue or on Belvedere street. On the
other streets of the new ward the
city of Quebec will not permit the es-
tablishment of manufactories, forges
or workshops.

The appointing of employees for
the new ward will be carried out by
giving the preference to the actual
employees inasmuch as they are cap-
able of fulfilling the duties required
of them.

**THE GIRL WITH THE
AUBURN HAIR**

The phenomenal success of Parisian
Sage has led to many attempts to sub-
stitute and imitate. We therefore ask
you to insist on being supplied with
the genuine Parisian Sage.

Parisian Sage Relieves Itching Scalp.
A single application of Parisian Sage
will relieve itching of the scalp. It
goes quickly to the seat of the trou-
ble and removes the cause.

Parisian Sage can be obtained from
Henry Willis for fifty cents a large
bottle.

Remember Parisian Sage is guaran-
teed to do all that we claim and your
druggist is authorized to refund your
money if it fails. This is why you
must make sure that the girl with the
Auburn Hair is on each package.

**DISASTROUS FIRE
IN ST. ROCH**

Theatre Nationale and Jacques
Cartier Market Hall Were
Badly Wrecked.

For the second time within a cou-
ple of months, a civic building has
been ravished by the flames and a
great amount of damage done. This
time it was the Jacques Cartier Mar-
ket hall, in the upper portion of
which is situated the National The-
atre, a pretty little auditorium in
which during the present season a
French stock company, under the
direction of Paul Marcel, has been
giving a series of comedies and dra-
mas.

In this part of the building shortly
after 11 o'clock yesterday morning fire
was discovered by passers-by, who
promptly sounded the alarm. When
the firemen arrived they found the
flames on fire and the blaze rapidly
ascending to the roof. No time was
lost in getting the water playing upon
the blaze, and the entire brigade was
called out. The fire, however, was a
stubborn one, and it was not until
4 o'clock in the afternoon that the fire-
fighters finished their strenuous
labors. The whole of the roof of the
building was completely wrecked, the
firemen being compelled to tear it to
pieces to get at the flames. The the-
atre below, with its handsome fittings
and scenery, was completely ruined
by the deluge of water with which
the building was flooded. Down be-
low again, on the ground floor, where
are situated butcher stalls, extensive
damage was also done by smoke and
water, and the entire damage will be
very heavy.

The firemen had to fight the blaze
in the teeth of a biting gale and snow-
storm, but did exceptional work in
face of these difficulties. Thousands
of people, on their way home from
morning church, stopped to view the
fire, and the big square alongside the
building, the scene of many a Laurier
political meeting, was packed with an
assemblage bigger perhaps than ever
the veteran political leader ever drew.
Several of the actresses lost all their
costumes, and they were in deep dis-
tress as they watched the efforts of
the firemen in endeavoring to check
the blaze with streams of water, but
which were wreaking irretrievable in-
jury to their splendid garments.

The first alarm was rung in at 11.26
a. m. and the all over at 4.05 p. m.
When the firemen reached the scene
the fire had communicated itself to
the roof, and the situation presented
was a serious one. No time was lost
and before long the whole brigade
was working with a will, and as there
was a bountiful supply of water, their
work bore good results, and the flames
which were creeping along the roof
beneath the tin covering, were finally
checked, but not before the upper part
of the building was a complete wreck.

As already stated, the fire is believed
to have taken in the files at the back
of the stage, but how is unknown,
though it is thought to have been
due to an electric wire. It was stated
yesterday that before the blaze
closed the previous night there was an
impression that a smell of smoke
could be perceived, but the janitor of
the building made a tour of the whole
upper portion and finding everything
all right and no sign of fire, closed up
for the night.

While the fire was at its height
occupied stalls below busied them-
selves in carting away some of their
stock in trade and express sleighs
were actively engaged in removing
carcasses of pigs, quarters of meat,
scales and other such articles. The
provisions in the butchers' quarters
must be utterly ruined by the smoke
and water.

The theatre, which was so badly
wrecked, was managed by M. Marier,
while the artistic director is M. Paul
Marcel, the well-known French actor.
The company had still two weeks
to run, after which they were to
leave on a two months' tour of the
New England states.

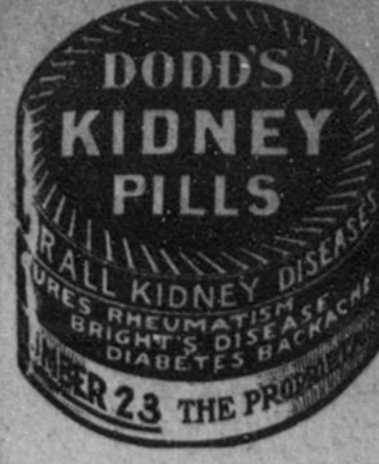

The loss will be very heavy. The
Compagnie Theatrale, who leased the
hall from the city and fitted it up, has
an insurance of \$5000 on the mov-
ables. This company in turn had
leased to the directors of the present
company. The city has an insurance
of \$30,000 on the building as a whole.
Among the heavy losers will be the
Ponton Company of Montreal, which
supplied the costumes for last week's
performance and those for the drama
which was to have been produced this
week. Mlle. Debrain and M. Brulotte,
who owned their own costumes, have
lost everything.

A large squad of policemen kept the
crowds of sightseers away from the
building, thus giving the fire-fighters
every chance to work without hind-
rance. The street cars managed to
keep up the regular service on both
Crown and St. Joseph street with but
little interruption.

There was considerable speculation
yesterday as to what action the city
would take in connection with the
wrecked building, and it was a matter
for question whether it would be re-
built or whether the market would be
transferred to the proposed new mar-
ket at the foot of Crown street.

The theatre which was destroyed
has had a long and varied history,
and many well-known people and
companies have appeared in it.

The company will perform at the
Auditorium on Wednesday evening
for the benefit of the performers who
lost everything in the fire, and will
be assisted by a few singers of the
French Opera Company, now per-
forming in Montreal. On Thursday
and Saturday the company will also
perform at the Auditorium and will
begin a full week's performance on
Monday next when the Princesse
Lorraine will hold the boards during
the week.

**WORKMAN STRUCK
BY SWINGING BLOCK**

While raising the gangway at the
landing stage of the ferry company on
Saturday afternoon, a swinging block
struck one of the workmen in the
chest and inflicted serious injury. He
was conveyed to the hospital.

RECORDER'S COURT.

Aldermen Dinan and Paquet, who
presided in the Recorder's Court on
Saturday had seven prisoners charged
with drunkenness before them. They
were condemned to fines ranging from
\$1 and costs or two days' jail to \$5
and costs or fifteen days' respectively.

XMAS CARDS

This year the demand for Xmas
greeting cards promises to be greater
than ever before. Already a great
many people have secured their sup-
ply. To those who have not already
done so, we would call their attention
to the advertisement of Mr. T. H.
O'Neill, in another column. He ad-
vertises Xmas cards and Xmas post-
als at prices which are certain within
the reach of all. His Canadian Xmas
greeting cards, suitable for sending
abroad, are in great demand at pre-
sent. See advt.

**NO CASCARET USER
EVER HAS HEADACHE**

A 10 cent box will keep your liver,
stomach and bowels clean, pure
and fresh for months.

Sick headache, biliousness, dizzi-
ness, coated tongue, foul taste and
foul breath—always trace them to tor-
pid liver, delayed fermenting food in
the bowels of sour, gassy stomach.

Poisonous matter clogged in the in-
testines, instead of being cast out of
the system is re-absorbed into the
blood. When this poison reaches the
delicate brain tissues it causes con-
gestion and that dull, throbbing, sick-
ening headache.

Salts, cathartic pills, oil and purga-
tive waters force a passageway for a
day or two—yes—but they don't take
the poisons out and have no effect
upon the liver or stomach.

Cascarets immediately cleanse and
regulate the stomach, remove the
sour, indigested and fermenting
food and foul gases, take the excess
bile from the liver and carry out of
the system all the decomposed waste
matter and poisons in the intestines
and bowels.

A Cascaret tonight will surely
straighten you out by morning. They
work while you sleep—a 10-cent box
from your druggist means instant
cleanness and a clear head for
months. Ask any of the millions of
users if they ever have headache.
