GERMAN COMMUNIST UPRISINGS VERY SERIOUS Canada's Future Coal Supply Is Discussed In Commons

COMMUNIST UPRISINGS TAKE PLACE THROUGHOUT GERMANY --- LARGE SECTIONS OF THE INDUSTRIAL REGIONS ACTUALLY IN HANDS OF INSURGENTS

Uprisings Occurred Yesterday With the Seizure of the City Administration and the Shipyards at Hamburg—Severe Fighting Between Communists and the Police, in Which Many Were Killed and Wounded—Communists Calling Upon Workers to Fight Behind Barricades, and the People Are Fortifying Their Homes—Latest Advances State that Fighting at Hamburg Is Continuing.

(Associated Press Despatch)

LONDON, March 24.—Communist disorders in Central Germany are increasing and large sections of industrial regions are actually in the hands of the insurgents, says an Exchange Telegraph Company despatch from Amsterdam, which quotes telephonic advices from Berlin during the night. Reports from Saxony state that more buildings have been damaged by dynamite in various towns, and that at Mansfeld, prisons have been opened and their inmates liberated. Complete anarchy is declared to reign at Hettstadt, where all banks have been raided, and from which the populace is fleeing in a panic.

A Copenhagen despatch to the Exchange Telegraph Company quotes Hamburg advices to the Berlingske Tidende to the effect that 1,400 Communists yesterday occupied the Blohm and Voss shipyards, in Hamburg, where they were surrounded by security police.

It is said that reports from Hamburg at midnight stated that the Communists everywhere were calling upon workers to fight behind barricades, and the people were fortifying their homes.

An account of the troubles at Hamburg the Berlin correspondent of the Central News says that more than fifty Communists and police are reported to have been killed in the fighting last night at Heilingenfeld, in the Altona section of Hamburg.

The message adds that fighting is continuing in Hamburg, where the police were defeated at Tinwarder, in the Free Harbor territory, after a fierce battle.

MANY PERSONS KILLED AND WOUNDED IN THE FIGHTING
AT HAMBURG—POLICE OFFICERS OPENED FIRE ON MOB

(Associated Press Despatch)

HAMBURG, March 24.—Fifteen civilians and one police officer were killed and six persons were wounded in riots here late yesterday afternoon. The mob attempted to break the police cordon about the Vulkan shipyards and to disarm the police. The police ordered the crowd to disperse, and when this order was ignored, the officers opened fire and threw hand grenades into the mob. The Blohm and Voss Ship Yards about which there was considerable fighting yesterday, has been closed by the management.

Communist leaders tried to hold a mass demonstration in Heilingenfeld Field, in the Altona section of the city, but were unable to obtain possession of the field, as the police had erected a barbed wire entanglement around it and had stationed armoured cars at the strategic points. The crowd, foiled in its attempt to hold a meeting, stormed the armoured cars. Street car service was virtually suspended during the riot.

The communist Volks Zeitung of this city has called up on the workers to arm themselves.

Reports of serious rioting at Eisleben, Prussia, Saxony, have been received here. Communist were attacked and security police, forcing them to retire. The police headquarters were also attacked, and it is said several persons were killed and wounded. Shops at Eisleben are declared to have been looted by mobs.

PUBLIC BUILDINGS AND BANKS WERE DESTROYED

(Associated Press Despatch)

BERLIN, Mch., 24.—Great property damage and the loss of upwards of a score of lives marked Communist disorders in various cities and towns in Prussian Saxony and in Hamburg yesterday. The trouble in Prussian Saxony seemed to centre about the Mansfeld district, an it appeared that the Communist movement focussed their attention on banks and public buildings, many of these edifices being badly shattered or completely wrecked by high explosives.

Stories of violence, robbery and virtual anarchy continued to arrive last night from this region. Town halls at Plauen and Redewisch were damaged, and persons being injured at Freiberg.

The County Court building in Dresden was badly damaged by an explosion and three persons were injured. A similar attempt against the town hall at Auerbach was frustrated by the police capturing a man carrying a bag of dynamite.

A party of armed men, riding in a motor lorry, attacked two savings banks in Mansfeld yesterday morning and succeeded in securing about two hundred thousand marks from the institution.

The savings bank at Heilbra was also robbed during the day, and strikers in that town compelled the Heilbra Anzeiger to suspend publication.

A large crowd surrounded the police barracks at Hettstadt and demanded the surrender of arms stored there. A deputation entered the building with the police, but the result of these parleys has not been reported.

CANADA SHOULD TAKE WARNING FROM RUSSIA

Major-General Burstall Appeared to Entertain Fear that Bolshevism Was Seeking Opportunity in Canada.

(Associated Press Despatch)

CALGARY, Alta., March 24.—"A distinct duty reposes on those who are chief stockholders in this country, to support the militia, as it is their interests and their honor which is protected by the maintenance of such a force," declared Major General Sir Henry Burstall, inspector general of Canadian forces, at a luncheon given in his honor here yesterday.

Major General Burstall appeared to entertain the fear that Bolshevism was seeking an opportunity to rear its head in Canada.

"We should take warning from Russia," he said, "and have the militia prepared to deal with any trouble endangering the existence of the state, if it became too acute for local police to handle."

Sir Henry defined Bolshevism as the rule of two or three men, aided by men who "have no stake in the country." Even an attempt at Bolshevism would warrant the existence of the militia, he declared.

PUT QUIETUS ON NOW FAMOUS BEER CLAUSE

Another Amendment Will Be Offered to the British Columbia Liquor Bill Shortly.

(Associated Press Despatch.)

VICTORIA, B.C., March 24.—By a vote of 32 to 12, the Legislature yesterday afternoon put the quietus on the now famous beer clause when, in addition to refusing to accept the McKenzie amendment, designed to raise the limit for non-intoxicating liquors from one per cent. alcohol by weight to two per cent., it dealt near beers its death by adopting an amendment proposed by M. B. Jackson, to the effect that no one other than a Government vendor, shall sell or deal in any liquid known or described as beer, near beer, or by any name whatever commonly used to describe such or brewed liquors.

As a result of a two-hour discussion on the moderation bill, the measure was gotten through with and the committee rose reporting the bill complete with amendments. That does not mean that the beer problem has been eliminated. The next move on the part of those who seek to have been sold in clubs, hotels etc., will be an amendment presented when the bill comes up for approval on report. Then, it is said, a move will be made to insert a clause permitting beer of a standard strength to be sold, one to three per cent. by weight or about eight per cent. proof spirits.

TREATY TERMS TO BE APPLIED TO FULL LIMIT

France Expects to Receive New German Proposition in Connection with Reparations.

(Associated Press Despatch.)
PARIS, March 24.—Premier Briand yesterday informed the Senate committee on finances and foreign affairs that he expected new German proposition in connection with reparations, particularly concerning industrial participation by Germany in reconstruction in the devastated regions.

With reference to the question of the payment of twenty billion gold marks before May 1, and more especially the payment of one billion, due yesterday, M. Briand declared that if the Germans did not pay, the Treaty of Versailles would be applied to the full limit.

Paragraph eighteen, annex two, of the Treaty covered such failure to pay.

CZECHO-SLOVAK TROOPS CAUSE APPREHENSION

Unsatisfactory Result of Chancellor's Mission Causes Rumor.

(Associated Press Despatch)

VIENNA, March 24.—Rumors that Czecho-Slovak troops have been concentrated on the Austrian frontier have caused a panicky feeling here, in view of the internal political conditions in the Austrian Republic. This feeling persists in spite of the fact that reports regarding the gatherings of Czecho troops have been partially denied by news paper articles. It is asserted in certain circles that the military activity of Czecho-Slovak is due to the marked recrudescence of the movement for fusion with Germany since the unsatisfactory result of Chancellor Mayer's London mission has become known.

The greater German party is known to be planning an interpellation in the National Assembly after Easter, and it is expected will take the form of passage of necessary legislation for an immediate referendum and a resolution notifying the League of Nations that Austria is compelled to work out her own salvation through Germany.

Twenty-Four Are Killed And Many Wounded In The Ambuscades In Ireland Yesterday

Ambuscades Yesterday Are Regarded as in Reprisal for the Recent Executions of Convicted Sinn Feiners—No Big Outbreak Is Expected.

(Associated Press Despatch)

DUBLIN, March 24.—Twenty-four persons were killed and nearly thirty wounded in ambuscades reported yesterday. They are regarded as in reprisal for recent executions of convicted Sinn Feiners. No big outbreak is expected.

Sir Wilfred Peck was among the killed during the fight yesterday morning between a party of lancers and a force of Sinn Feiners between Stokestown and Longford. He was a captain of the Royal 1st Devon Yeomanry, and was born October 9, 1884. He received the D.S.O. decoration for exploits during the war.

ATTEMPTED TO RELEASE PRISONERS AT CORK

(Associated Press Despatch)

CORK, March 24.—A party of Sinn Feiners made a carefully planned attempt last night to break into the jail here and release the prisoners there under death sentence.

The attempt failed, however, owing to the extraordinary precautions which had been taken by the authorities.

COMMISSION SENDS NOTE TO GERMAN GOVERNMENT.

(Associated Press Despatch.)
PARIS, March 24.—The Allied Reparations Commission delivered to the German delegation here today a note replying to the German refusal to pay the one billion marks gold on reparations account which the commission had demanded handed over yesterday.

The Germans were asked that the note be transmitted to the German Government in Berlin as quickly as possible.

GREEKS START OFFENSIVE ON NATIONALISTS

British, French and Italian Armies Will Not Participate in Campaign.

(Associated Press Despatch)

ATHENS, March 24.—Greek troops, numbering 120,000 are participating in the Greek offensive against the Turkish Nationalist forces, in Asia Minor, it is reported here. The Turkish Nationalists are believed to have about eighty-thousand effectives in the field, but have smaller supplies upon which to draw.

The most careful preparations were made by the Greeks, in connection with the offensive, which began yesterday, and it is anticipated here that the Greeks will win important positions with their first drive. Apprehension is felt here that the van of the Greek force east of the Smyrna Hinterland will throw the Turks into the arms of the Russian Soviet Government of Moscow.

The objective of the offensive is the Bagdad Railway, although Greek commanders have planned to reach the City of Eski-Shehr.

It is affirmed that British, French and Italian armies in the Near East will not participate in the campaign. General Selah Eddin Bey commander of Turkish forces in Cilicia, has been transferred to the Smyrna front for the purpose of uniting the Turkish defense. For the past two weeks the Greeks have been landing at Smyrna, motor trucks, artillery and munitions, which had been stored at Saloniki.

PARIS, March 24.—Former Premier Clemenceau arrived in Paris yesterday on his return from a hunting trip, to India.

CANADA'S COAL SUPPLY WAS MAIN SUBJECT DISCUSSED IN COMMONS; HOUSE ADJOURNS UNTIL TUESDAY

Dr. Michael Steele (South Perth) Moved for the Appointment of a Special Parliamentary Committee to Enquire Into the Future Coal Supply of Canada.

(Special to The Record)

OTTAWA, ONT., March 24.—A discussion of ways and means where by Canada may insure an adequate supply of coal for the future, featured yesterday's sitting of the House. It was private members' day, and after the preliminaries were disposed of, the House was cleared for a discussion of some of the proposals emanating from other than Government sources.

Dr. Michael Steele, of South Perth, was responsible for the discussion on Canada's fuel supply, when he moved that a special committee of the House be appointed to investigate the situation. He emphasized the gravity of the situation, the tremendous increase in coal prices, and the difficulty in getting a supply for the winter. Future prospects were that Canada would require more, rather than less coal. Every effort should, therefore, be made to conserve the present supply and develop new fuel sources. Electrification of steam railways and the establishment of central heating plants were suggested by Dr. Steele as means for conserving the coal. He also advised the adoption of some system for testing coal in order to see that the consumer got the grade for which he paid.

Major Redman (Calgary), seconding the resolution, emphasized the importance of improving transportation facilities in order to get Alberta coal to the east. It would compete with the Pennsylvania product if brought to Ontario, he stated. From the Maritime Provinces, D. D. McKenzie (North Cape Breton), declared that the supply of coal in Nova Scotia was extremely large and that some means should be found for bringing it up to Ontario. He suggested that ships carrying wheat overseas might get a cargo of coal in Nova Scotia on their return voyage and bring it up to Montreal for distribution in Ontario.

Debate on Dr. Steele's resolution was eventually adjourned, the Prime Minister supporting the appointment of the parliamentary committee proposed.

The fuel situation, Dr. Steele said, was one of the most important to be faced. Coal was a necessity both in the home and in the industries. Canada had immense coal reserves. Seventy-one per cent. of all the coal deposits in the British Empire were within the Dominion. In 1920 Canada had produced 16,623,958 tons of bituminous coal and had exported 2,558,174 tons, leaving 14,065,784 for home consumption. The average cost of production in Canada in 1920 had been \$4.65 per ton. In the same year we had imported 18,742,542 tons from the United States.

Fifty-seven per cent. of the coal consumed in Canada during 1920 was imported. The increase in our coal bill over 1919 was \$140,000,000, this was an enormous burden for the people to carry.

The price of coal per family ranged from \$50 to \$125 per year. This was greater than the taxes imposed by the Federal Government. The price of coal to the manufacturer was reflected in the price charged for every article manufactured in Canada.

The total amount paid with respect to C.E.F. disability pensions for the year ending December 31st, 1920, was \$18,212,506, according to information given General Gribsbach (Edmonton West). The total number of persons pensioned on December 31st, 1920, was 118,140. Of this number, 53,354 were pensioners; 26,913 wives, and 37,873 children.

Canada's contribution to the expenses of the League of Nations is \$25,478 of the total expense, according to an answer given to J. E. Prevost (Terrebonne). This amounts to 523,000 gold francs. There are no other payments.

The Premier announced that the Government had decided to reduce the Civil Service cost of living bonus by twenty-five per cent.

J. Archambault (Chambly-Vercheres), introduced a resolution to reduce the minimum amount which country fair directorates must expend in order to secure a Federal grant from \$3,600 to \$500. The resolution was later withdrawn.

Hon. W. S. Fielding asked when the budget would be brought down, but received no answer.

The House then adjourned until Tuesday afternoon at three o'clock, for the Easter recess. The Senate did not sit.

HE JUST DREADED TO SEE NIGHT COME STATES MALEPORT

Montreal Man Couldn't Sleep and Was in Bad Shape Before He Got Tanlac Feels Fine Now.

"I don't know what it is, but there is something about Tanlac that certainly does the work," said J. T. Maleport, 1178 Dorion Street, Montreal, well known employee of the Harris Abattoir.

"About a year and a half ago I began to lose my appetite and suffer a great deal with my stomach. Even the lightest diet which I lived on for months caused me all sorts of suffering. After meals I had such terrible pains in the pit of my stomach I almost doubled up. I had dreadful nervous the least unusual noise almost drove me wild. I got to where I actually hated to see night come as I couldn't sleep. Frequently I had dizzy spells when everything seemed to be spinning round and round.

"I followed a friend's advice and took Tanlac. Well, sir, it was the best thing I ever did. I have a splendid appetite, meal time does not come often enough for me and I can eat anything I want without suffering the least bit afterwards. My nerves are as steady as a clock and my sleep is sound and restful. I am just like a man made over, and Tanlac is responsible for it."

Tanlac is sold in Sherbrooke by Griffith's Drug Store and by A. E. Duberger and in Lennoxville by W. J. H. McKindsey; under the personal direction of a special Tanlac representative. (Adv.)

AT THE WRONG END. An English schoolmaster asked a new boy his name. "John Thompson," was the blunt reply. "Sir!" shouted the schoolmaster, who was a stickler for politeness. "I want you to put a 'sir' to it." "Sir John Thompson," said the boy, innocently.

NO FEAR NOW OF INDIGESTION

A Host of People Seem to Thrive on What Used to Precede Indigestion Before They Learned of Stuart's Dyspepsia Tablets.

When the stomach becomes sour, with gasiness and heartburn due to indigestion or dyspepsia relief may be had by one or two

Stuart's Dyspepsia Tablets. Simply chew them, no hot water nor any other fillers for a stomach perhaps already too much over-crowded.

These tablets supply to the stomach the alkaline effect which is what relieves the sour acid condition. They also contain pancreatin to help digest the starchy foods such as potatoes, rice, oatmeal, white flour, etc.

Get a 60 cent box of Stuart's Dyspepsia Tablets, have them on hand at all times and thus have no fear of indigestion or dyspepsia.

The fact that these tablets are on sale everywhere in the U.S. and Canada shows how generally recognized they are as an efficient aid when the dyspeptic stomach needs a little help.

This Leaves the Arms Free from Hairy Growths

(Toilet Talks)

A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish even stubborn growths. To remove hairs, make a thick paste with some powdered delatone and water, spread on hairy surface and after about two minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment, be certain you get delatone.

GENERAL NEWS AND PERSONALS FROM MAGOG

War Veterans Plan to Give Entertainment — Other General Newsy Notes.

MAGOG, Que., March 24. — The members of the Epworth League of the Methodist Church held the first sugar social of the season in the Sunday School rooms of the Methodist Church on Tuesday evening of this week. About a hundred of the young people availed themselves of this opportunity to enjoy themselves and partake of the first fruits of the season in the way of farm produce.

Bills are coming out announcing that long looked for event, the Pierrot Show, given by the members of the local branch of the G. W. V. A., and in aid of their fund. It will be held on April 4th, and at Wonderland Theatre. Although this building has a commodious seating capacity it is anticipated that it will be taxed to accommodate the turnout that will greet these performers. The G. W. V. A. has already during its short career done considerable for the town and deserves a crowded house.

The Easter services at the Methodist Church will also form the annual vernal services. The Rev. Ivor S. Williams will be the preacher of the day. This year's anniversary will witness a new departure in that the usual Monday evening congregational supper has been cancelled.

The members of the local Protestant Board of School commissioners met recently and considered a number of applications for vacancies on their teaching staff for the next academic year. The present staff has given entire satisfaction and all regret that it has been necessary to secure some new members for the staff. It is especially regretted that Miss Bryant, the principal, feels forced to resign. The School Board, however, received a large number of applications to fill the vacancies and consider themselves especially fortunate in having been able to secure the services of Miss M. O. Vaudry, M.A., now of Lennoxville, as the principal for the coming year. Miss Monroe who has been a member of the staff for the past several years, will remain, a fact that will be much appreciated by the scholars and parents, as she has proved herself a conscientious and industrious instructor. In the primary department, Miss E. Rexford has signed up for the year. Miss Rexford being a Magog girl with several years experience in successful teaching needs no introduction. There yet remain two vacancies to be filled.

the near future as the present indications are for a bumper sugar season, the runs of sap up to the present time having been simply enormous.

Barnston has always prided itself on the absolute honesty of its citizens. Unfortunately it was not a Barnston man who found Mr. McCutcheon's coat on the village hill, otherwise it would have been returned to the owner at once.

The Pekins house, next the town hall and owned by the municipality council, has been sold to Mr. Phil Dupuis and is to be removed by July first.

BROMPTON

Mrs. E. E. Perkins spent a couple of days last week in Windsor with Mrs. N. M. Perkins.

The Young People's Guild of Christ Church met at the home of Mr. and Mrs. E. E. Perkins on Wednesday evening. After the business was transacted, quite a lengthy programme, consisting of songs, dialogues, recitations and jokes was handed to Mr. H. Ward, second vice-president, which was much enjoyed by all present. After singing a hymn, a vote of thanks was extended to the host and hostess for their kindness.

"You Are Working Too Hard, John"

"WELL, I cannot help that. I am trying to figure out how the business is going to pull through and meet the liabilities with prices falling the way they have been lately."

"But, John, if anything happens to the business your health will be more necessary to you than ever, and you cannot afford to take chances of putting such a strain on your nerves. You are looking so worried and nervous, and you do not half sleep."

"What am I to do? You know I have got to keep plugging along and try to see things through."

"One thing you can do is to begin a treatment of Dr. Chase's Nerve Food. You know how well that brought

me around when my nerves gave out and I was so miserable."

Mr. Charles E. How, R. R. No. 5, Aylmer, Ont., writes: "My system became generally run down, and I suffered from dull, heavy headaches. I was nervous, could not sleep at night, and my muscles used to twitch. My appetite became poor. I had indigestion and weak spells. I consulted a doctor, who gave me a tonic, but it did no good. I used other remedies, too, before finally trying Dr. Chase's Nerve Food. I found that this did me more good than anything I had ever taken."

THE TRAGEDY OF VICTORIA PARK.

Citizens who have been in Victoria Park this winter or spring have been shocked as they have noted the extent to which the "trimming out" policy was carried before it was stopped by threatened injunction. Many cords of wood were piled along the road, and the main part of the park is almost denuded of trees. The destruction could not have been much greater had it been given over to general lumbering and wood cutting operations.

The great mistake made seems to have been in sending choppers in to cut all unsound trees. The modern way is to treat and cure or at least preserve a tree that shows signs of decay.

Great damage has been done but the park can still in time be restored to its original sylvan beauty by a policy of construction instead of destruction.

The Parks and Real Estate Committee of the City Council should give serious consideration to the question of Victoria Park.

"DRUMMERS" ON STRIKE.

Down in Massachusetts a drive is being made for lower hotel rates. This is being led by the commercial travellers.

The Worcester, Mass., Telegram, referring to the matter, says:

"Massachusetts has found how difficult it is to get a definite idea for the basis of hotel charges, but the 600,000 thousand travelling salesmen who protest the high prices charged by hotels through the country aren't going to hold any 'investigation.' They aren't going to dig into complicated accounting schedules. They are going to employ direct action in the form of a boycott and let every one from the Supreme Court down to the local department of the hotels they think profiteering, do the worrying."

"The travelling salesman is one of the elements to be considered in hotel keeping. He doesn't frequent the Peacock Alley, he doesn't engage the four-room suite, he doesn't patronize the rookery restaurants—but where those who do frequent, engage and patronize them 'come to the hotel once a year he comes perhaps every week. Where the casual patron will stand the gouge once, and do his grumbling at home, the salesman, who has to be on the road, and who has to patronize the hotel as a part of his business and livelihood runs against the charges continuously. He knows food prices are falling, he knows labor is cheaper, but evidently some hotel men don't. Therefore, to avail himself of the only weapon left—puckish and definite warning to his brethren to beware."

"He knows, moreover, that the best advertisement a hotel can get is from its patrons. He knows that unfavorable comment upon prices will result in those warned steering clear of the hostelry mentioned when arriving in town, and also that they will tell others what they have heard. A hotel depends more perhaps, than most business institutions upon good will. If it loses that—unless it has monopoly of accommodation for travelling public—its balance sheet begins to suffer."

"When the organization says that 'Jesse James was a piker beside some hotel managers,' the hotel managers are going to do a little thinking. Hotels have to have patrons to keep going."

WHERE PROHIBITION HELPS.

In the United States, where prohibition, nominally at least, is in force, it is said that certain branches of business are deriving important advantages from the elimination of the liquor evil. The moving pictures, for instance, as well as other amusements, are receiving much money that would otherwise be paid over the bar.

The Boston Transcript reviews the matter thus:

"The actor who makes prohibition the subject of jests is joking at the expense of his own prosperity, as the situation is seen by a New York man whose business is concerned with the erection of theatres. He tells the New York Evening Post that, in his judgment, the prosperity of amusement enterprises is due in large measure to the diversion to theatrical coffers of money that, in the absence of prohibition, would have gone to the till of the saloon keeper. The opinion is corroborated by that of one of the leading managers of motion picture houses in the metropolis. With reference to the legitimate stage, however, there is disagreement. A manager of prominence declares that the coming of prohibition is not a factor in determining the volume of its patronage."

"But if prohibition has helped the movies it may be that they earlier helped the cause of the prohibitionists. It is stated that the moving pictures were responsible for putting no small number of saloons out of the business in the days before the enactment of the wartime prohibition act and the adoption of the Eighteenth Amendment. At a time when the pictures are being attacked as a corrupting influ-

ence in American life, it is only fair to call attention to this claim that they have been all along an enemy to John Barleycorn.

"Perhaps not the least among the influences which have served to reconcile thousands of Americans to the prohibition regime is the multiplicity of means of amusement which modern life affords. The automobile is extensively used by the violators of the law, but is a reasonable assumption that it is also serving as an aid to prohibition. In providing new means of enjoyment and recreation it turns the attention of many of its users from that kind of relief from the monotony of life which comes through indulgence in intoxicants. It is unfortunately true that there are elements in the community whose performances tend to give the impression that they regard liquor as a necessary adjunct of automobiling, but, after all, they are a small, although a noisy and troublesome, minority of those who ride abroad in motor vehicles. Incidentally it may be said that, if prohibition explains in part the prosperity of the moving picture business, so it also helps to solve the problem of where the money comes from to pay for the millions of automobiles now in use in this country."

Letters to the Editor

SOLDIERS' MEMORIAL.

Dear Sir—I have been much interested in the various letters that have appeared in the Record and other newspapers recently in reference to the erection of memorials to our dead soldiers. While none of them seem to me to be as practicable as the utilization of a massive natural boulder, surrounded by maple trees, nevertheless, as your correspondent, Stanstead Farmer, points out, there are some communities that will demand and will only be satisfied with something more pretentious. Would it not, therefore, be well to hold a sort of competition, preferably amongst returned soldiers, but open to everybody who is interested, calling for plans and approximate estimates of suitable community memorials, such designs and estimates to be the property of the Sherbrooke branch of the Red Cross Society and freely available to the public on application. I feel sure this admirable society, which rendered such devoted service during the war, would be glad to receive any suggestions relative to the erection of soldiers' memorials, and would make the best possible use of them.

INTERESTED.

SOLDIERS' MEMORIALS.
The Central Red Cross for the Townships has sent out a circular to the Red Cross groups in the Townships with regard to soldiers' memorials. This says in part:

"The suggestion has been made by a friend of the Red Cross that an effort should be made in places where, as yet, no memorial to our soldiers has been erected, to commemorate Arbor Day (May 10th) by planting maple trees in the school grounds, or upon any suitable bit of ground where the trees would be allowed to remain in years to come. These trees to be planted, with a suitable ceremony, in memory of soldiers from that locality, who laid down their lives in the great war."

"Also that a large natural rock, or boulder, should be removed to the same spot, to remain in future as a memorial stone. That during the summer part of the surface of the stone should be made smooth and the names of those who were killed should be engraved upon it. (If not possible to do this engraving locally, it is probably that someone could be sent to do this work.)"

"The Sherbrooke branch of the Canadian Red Cross Society will present to groups, which worked in connection with this branch during the war, a framed honor roll bearing the names of the soldiers from each locality who went overseas. In order to do this, each group is requested to send us a list of names (giving also rank and battalion) not only of those who were killed, but of all those who enlisted for service in the great war."

"The memorial stone and the maple trees will be in memory only of those who were killed or died of wounds or of illness due to service. If you have already erected a memorial and put up an honor roll in your locality you will not be specially interested in this plan, but if you have not, we shall be glad to hear from you and assist you in any possible way."

"Should you decide to carry out these suggestions, we would advise you to put the matter before your Red Cross workers, your local clergymen and ministers, teachers and school children, the mayor, the school commissioners and trustees and all those likely to be interested, as soon as possible."

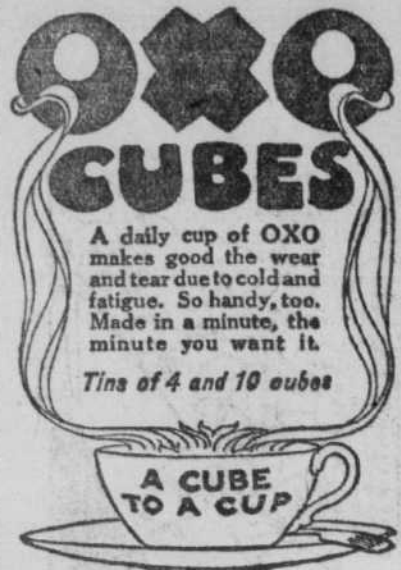

"Hoping that you will undertake this in the same splendid spirit in which you carried on your faithful work during the war, and wishing you every success."

PRESS COMMENT

THAT ANNOYING EXCHANGE RATE.

(Ottawa Journal)
Of no avail is it for Canadians to thrash themselves into a state of frenzy because our dollar will not pass at par in the United States—except at certain New York hotels that have chosen to take a loss for the purpose of encouraging Canadians to patronize them. So long as the balance of trade is against us in the United States, or so long as our balance of trade with Britain is not sufficiently favorable to offset our adverse balance in the United States, so long will there be an annoying exchange rate. To lambaste Uncle Sam as a criminal because he refuses to sell us for more than we can afford to pay for in goods or gold is childish.

The high exchange rate is, indeed, something of a blessing although it

is oftentimes exasperating, for without it Canadian purchasers of United States goods would undoubtedly be much greater than they are, and Canada's debt to Uncle Sam—a debt that most certainly would have to be paid some day—would soon pile up to alarming figures. Temporarily cheaper probably than a high exchange rate would be for Canada to float loans in the United States, but as the resulting lower exchange rate would simply encourage the creation of new trade obligations, the last state would be worse than the first. It is the duty of every individual in Canada to refrain as far as possible from buying United States goods, not because we are unfriendly to the United States, not necessarily, even, because home industries would thereby be encouraged, but because debts that cannot be liquidated spell bankruptcy.

To argue that the Canadian dollar should pass at par in the United States is to argue that the British pound, the French franc, the Italian lire—or even the German mark and the Russian ruble to a lesser extent—should pass at par in the United States. The war debts of these countries to the United States have brought about the depreciation of their currency in the United States, and Canada's debts due to the adverse balance of trade have the same effect.

"THE WORLD WOULD STARVE"

(Quebec Telegraph.)
There is something new for certain fiends in human form to ponder over—those of them who would stir up warlike feelings between Britain and the United States—in the words at the head of this article, words attributed to President Harding's Secretary of the Navy, the Hon. Edwin Denby of Detroit. Speaking to the New York World upon his project for the maintenance of a navy second to none as a means of assuring the peace of the world, and urging that preparation for war is the best prevention of war, he says: "War with any power would be a dreadful calamity. War between the United States and England probably would be the greatest catastrophe that could overwhelm humanity. Between us we control the seas. If we fight, we try, of course, to drive the rival merchants off the oceans. Who then will carry the world's food? Aside from the disaster to our two nations, the world literally would starve."

That would assuredly be the end of war—Nobody would be left to fight.

THOSE DECADENT CHURCHES

(New York Evening Post.)
More than \$3,000,000 has been given to the starving Chinese by the American churches. The church is decadent, we are told, but the first thought of anyone who represents some pressing public need is to enlist the church's strength. "Why Smith Doesn't Attend Church," is an inexhaustible theme for magazine symposia, but men who want to interest Smith in China or Poland do not rest until the churches call a "Save China" or "Help Poland" Sunday. Materialism is supposed to be corroding the fine self-abnegation of an earlier day. But after the church treasurers stand up and show that freedmen's aid societies, children's societies, temperance boards, Bible funds, and a dozen other activities survive and grow, there comes a long list of announcements like that of the \$3,000,000 gift to China.

The Christian denominations, with 42,000,000 members, are the greatest single group of organizations in America. Their membership includes in nearly all communities the most public-spirited and benevolent citizenship. Whatever the perils threatening church strength, the churches still play a notable role in altruistic endeavors.

The churches cannot be left to save China alone. What they have done should be a stimulus to other organizations and to those not church members. Our commercial clubs, our fraternal organizations, our special groups of a hundred kinds, and, above all, our citizens as individuals, should join in raising the fund to a figure that will assure the starving Chinese of rescue.

MOTORS AND GOOD ROADS

(Chicago Tribune)
Good roads mean money in the pocket of every automobile owner. They mean comfort to the body of every automobile rider. Efficiency and economy of operation pay large and certain dividends on every dollar invested in highway improvements. As these improvements are extended even the man who neither drives nor rides on the open highway will take his profit from improved transportation of farm products and more rapid and economical communication in business and industry.

VERY MILD-MANNERED.

(Hamilton Spectator)
Ex-Kaiser Wilhelm, in his book on the war, blames Britain for thwarting all his peaceful efforts, being aided in the nefarious work by France and Russia. Of course, he was long known as being "a mild-mannered" man as ever scuttled ship or cut a throat."

USED LOCAL ANAESTHETIC.
GALT, Ont., March 24.—A patient in the hospital here was operated upon for appendicitis with local anaesthetic administered instead of a general anaesthetic and chatted with the operating surgeon throughout.

MUTINEERS MAY HAVE TO ANSWER DOUBLE CHARGE

Men Brought From Steamer Are Under Suspicion re New York Explosion.

NEW ORLEANS, La., March 24.—The five men landed in irons yesterday from the United States steamer Rushville, which brought them from Rio De Janeiro at the request of the United States consular, still were held behind a screen of secrecy today.

Detained technically at the parish jail on charges of mutiny on the high seas, but said to be suspected of knowledge of the September Wall Street bomb explosion, the men were allowed to have no visitors and were carefully guarded by federal and parish authorities.

Whether the men will be taken to New York for trial in connection with the bomb explosion or will be held for trial on the charges of mutiny, this being the first port of entry, will be decided by the result of the investigation department of justice agents are making into their alleged connection with the New York disaster. As far as could be learned here, the federal agents had not succeeded in linking them with the explosion, but were still working on this angle of the case.

When the operation was completed he asked to see the wound and sat up on the operating table and viewed it. Then he asked for a cigarette. He was smoking it when removed from the operating room. His condition is reported as favorable.

MODEL KITCHEN
NEEDS COMMON
SENSE IDEAS

Labor-saving Devices Are Many
and Well Thought Out.

One of the subjects which is being studied by Women's Institutes, is the modern and conveniently equipped kitchen. Demonstrations and lectures are being given to illustrate labor saving devices in the rural home. The following article in a recent publication deals with this subject, and we pass it on:

One of the first things to remember in saving your energy is that not in every case does a labor-saver save labor. A potato-peeling machine, for instance, might be a boon to the woman who cooks for eight or ten, but should be classed as a waster in the family of two or three. It would take longer to adjust and clean such a contrivance than it would to pare a few vegetables by hand. The same thing may be said of many other inventions that are indispensable for the large tasks, but wasteful for the smaller ones.

False economy has wasted too many good women. Don't allow your purse always to be dictator of your every move. "Make your own flavoring extracts by grating your lemon and orange peel" is a sample of the advice frequently handed to women. Now, every housewife knows what grating anything is hard work, and a thirty-cent bottle of extract lasts a good long time in the average home.

If extracts were served at every meal, and in prodigious quantities, then it would be worth while to save every lemon-rind, but I think most housewives will agree with me that this industry might be listed among the non-essentials. It would be just as reasonable to expect business men to soak their old typewriter ribbons to make ink and so save their ten cents per bottle.

It is amazing the number of housekeepers who annually can and preserve dozens of jars of fruit beyond their family needs. How often you hear the remark: "I've put up a hundred cans, but goodness knows we'll never eat half of it; but there was so much going to waste that I just had to do something with it."

Never a thought of the self-power and the lovely summer days gone to waste saving it! Why not gather up the surplus and take it into town and distribute it among friends, or those poorer than yourself?

We still have with us the over-scrupulous woman who refuses to buy anything that she can make at home, under the impression that home-made goods are always superior to ready made. That is true of some things and in some respects, but the world has moved considerably in the past decade, and it will help her such a woman to invest a bit before she makes any wholesale condemnation. We now have a reliable and unadulterated canned goods on the market and many prepared foods, such as mince-meat, pancake flour, bouillon cubes, canned soup and pumpkin, that are distinct time, labor and money savers.

"I've been sending my laundry out this winter," confessed one such woman, "but I feel guilty about it, for I'm fully able to do it, only I do dread it so!" She was fully able to pay for having it done, too; and the mother of three small children, who does all the work of the house, is not, by any means, a candidate for the easy chair. She is physically able to do the washing but not mentally.

Large trays deserve better acquaintance as household helpers. If you have a table or box on the rear porch to receive parcels from the tradesmen, keep a cheap black tray on it, and all the articles may be carried into the house and to their respective shelves at one time. If you have not a wheel tray, another large one may convey all the table linen from ironing board to dining room. Cultivate the tray habit.

Shelves should be abolished in the model kitchen, but if they must be, have one of those two step ladders used by librarians, any handy boy could make one; or there is a folding step-ladder stool, also a chair, on the market that will admirably solve the difficulty of reaching and provide at the same time another wonderful saver—the high stool for use at sink or ironing-board. Another guide post—sit down to work whenever possible. An old piano stool makes a good adjustable seat.

Another little convenience is a long stick with a hook in one end, such as grocers use to get packages off the higher shelves. (I've acquired a number of helpful ideas watching tradesmen). With it you may also reach behind large pieces of furniture, remove the hanging pictures and catch the rolled up window-shade.

Put drawer-pulls or handles on all boxes that have to be pulled out from any place, whether it be the wood box by the fireplace or the storage boxes in the attic, clothes-chests in the bedroom or the fireless cooker in the kitchen. And put smooth running casters on them, too. Another place where casters will help immensely is on the clothes basket. A pair of boards securely fastened to the bottom of the basket by means of staples will be necessary. If the ground under the clothes line is too rough for casters a set of small wheels from a discarded go cart may be substituted.

Another little thing: If keeping the way back of the stove clean is one of your trials, who not boldly paint the space black? The woman who wishes to save herself will never use dull or impaired tools or neglect a step-saving arrangement of her kitchen equipment.

This list of woman-wasters would not be complete were the telephone left out. If you cannot afford to install a double service in your home, by all means have the one instrument attached to a long cord that will reach to the upper floor, or the kitchen, and carry the thing around with you rather than be a walking slave to its summons.

Prominent Cubans Demanding
Imposition of Duty on British
Goods.

(Associated Press Despatch)
LONDON, March 24.—Because the press and public men in Cuba are demanding the imposition of a duty of forty per cent. ad valorem on all British goods as a reprisal for the British fifty per cent. duty on Cuban cigars, R. T. Nugent, director of the Federation of British Industries, strongly urges a reciprocal agreement with Cuba.

In a letter to the president of the Board of Trade, Mr. Nugent mentions that in the first quarter of 1920 British exports to Cuba were 150 per cent. larger than in the corresponding period of 1919, and that recent United States reports stated British cotton goods are getting a big hold in that island.

QUESTIONED RE
FREE PASSAGES
TO DOMINIONS

Colonel Amery Is Also Questioned
Regarding Deserted Wives
of Colonial Soldiers.

(Associated Press Despatch)
LONDON, March 24.—Questioned in the House of Commons regarding the free passages to the Dominions issued by the Overseas Settlement Committee, Col. Amery, Colonial Under-Secretary, reiterated that two free passages were granted without the approval of the representatives of the Dominions.

The Government was aware, the Under-Secretary admitted, that there was unemployment on a considerable scale in the Dominions, and as a result of the attitude of the Dominion representatives, large classes of industrial workers had been refused passages.

Some industrial workers had gone to the Dominions at their own expense and found themselves in difficulties, but the machinery set up by the Government had done its part in discouraging the workers from going hence to the equally congested centres overseas.

Asked concerning the rights to maintenance of the deserted wives of Colonial soldiers, Colonel Amery replied that further legislation on the matter awaited the passing of reciprocal legislation by the Dominions.

Industrial and Agricultural Prospects
Throughout the Eastern Townships

EAST ANGUS.

In East Angus the spirit of optimism is very much in evidence. During the period of depression their was very little of it felt here. On account of the extensive building operations which are being completed by the Brompton Pulp and Paper Company, Limited, all the old employees of the Company were able to carry on as usual.

Besides the Pulp and Paper business which is in full swing. We are adjacent to one of the finest farming countries in the Province of Quebec. A market is operated every Saturday this gives our citizens the opportunity of purchasing direct from the farmer.

General business conditions in East Angus are very bright, and if the future is as kind to us as the past has been, we will have our full share of optimism.

BROMPTONVILLE

With a population in excess of fifteen hundred and situated on the St. Francis River at a distance of six miles from Sherbrooke, the town of Bromptonville is one of the best located in the Eastern Townships.

Bromptonville already possesses two prosperous industries employing about four hundred men; the Brompton Pulp and Paper Company's plant and the Brompton Lumber and Manufacturing plant. Notwithstanding the depression which has occurred both in small and large towns, we have had no letting up on work or any strikes. The shops have not ceased working and today we are going ahead at full blast.

The municipal council in conjunction with the Board of Trade are actually in discussion with several concerns relative to establishing

Bromptonville is bound to push ahead and the citizens fully intend to work hard in this connection.

MRS. MCLEOD APPOINTED TO OFFICE IN PROVINCIAL BRANCH
At the annual meeting of the Quebec branch of the Women's Missionary Society of the Presbyterian Church in Canada, being held in Montreal, Mrs. M. R. McLeod, of this city, was elected first vice-president at yesterday's session.

Mrs. McLeod is a prominent member of the local W. M. S. of St. Andrew's Church, and her faithful service in mission work has often been recognized but in no more fitting way than by the appointment to office in the Quebec branch.

FUNERAL OF LATE MR. POULIN
The funeral took place from his home in East Sherbrooke, to the Parish Church of St. Jean Baptiste, of Mr. Lorenzo Poulin, a large number of friends being in attendance. The service was sung by Rev. Abbe Malouin, assisted by Rev. Abbe Marcotte and Houle, of St. Charles Seminary, and the funeral director was Mr. Arthur Crocheteire. The bearers were Messrs. A. Therrien, A. Bergeron, E. Breton, L. Lambert and C. Petit. Professor O. Carlier presided at the organ, and solos were rendered by Mr. Cartier and Mr. H. Montour.

The principal mourners were Mr.

and Mrs. Philias Poulin, parents of deceased; Henri and Paul Poulin, brothers, with several cousins and other relatives. In addition to the above, he is survived by his mother and three sisters, Mrs. E. Lambert, Misses Claire and Germaine Poulin, who have much sympathy in their loss. Numerous tokens of regret and condolence were received by the family, in the form of masses and spiritual offerings.

BUT NOT "ONE-A-PENNY"
Hot Cross buns appear today in all the bakers' shops, in anticipation of Good Friday, as they have appeared every year through all the centuries since the time of Shakespeare and other great men of the period. Boys, with wide trays strung about their necks, went up and down the streets through Chateaufort, Holborn, Chancery Lane, by Charing Cross and Temple Bar, crying in a musical sing-song, "Hot cross buns, hot cross buns, one a penny, two a penny, hot cross buns." Doubtless the spicy, toothsome cakes, marked with the cross, the symbol of Christianity, found a ready sale, as they do now in the 20th century.

GERMAN MACHINE GUNS AT CITY HALL
The City of Sherbrooke is in receipt of four German machine guns which came to hand yesterday addressed to the Mayor from the War Trophies Commission. Some of these machine guns are 1918 models, considered one of the most efficient ever produced.

The disposal of these machine guns has not yet been decided upon, and pending action by the city council, are being carefully preserved in the "cellar."

HOLY THURSDAY SERVICES.
Pontifical mass was celebrated at St. Michael's Cathedral today, Holy Thursday, as in the other Roman Catholic Churches of the city, commemorating the institution of the Sacrament.

Mgr. Paul Larocque, arrayed in gorgeous robes of ceremony, was attended by Mgr. A. O. Gagnon as assistant priest, also in rich vestments. The deacon and sub-deacon of honor were Mgrs. E. C. Tanguay, of St. Charles Seminary, and the Rev. Charles McGee, of Sutton, and the deacon and sub-deacon were the Rev. Abbes Fontaine and Gauthier, Rev. L. Lemay being master of ceremonies. The holy oils were consecrated, the bishop being assisted by twelve priests, the entire service being of the most inspiring character.

At the Gloria the music of the organ and the chiming of the great bells ceased, only to be heard again at the same time Saturday.

At 4.20 the office of the tenebrae was recited as on the previous day, bemoaning the approach of the day of crucifixion.

SUSTAINED INTEREST IN HOLY WEEK SERVICES.
It is presumed that Christ spent Holy Wednesday in quiet retirement and in loving fellowship with his mother and friends in Bethany. There is no scriptural record of the events of that day. But it was not a waste day, but a preparation day for the strain and trial of the garden and the cross.

Last evening in Wesley hall, therefore, was spent in meditation and study of the theme of "The Power of Silence" as a commemoration of the day of retirement in Christ's last week in the flesh.

Silence is golden, because it indicates the power of self-restraint as illustrated by Jesus, who, when He was reviled, reviled not again.

Silence is golden because it is a sign of a different spiritual atmosphere in the church. The orchestra rendered splendid service last evening.

Tonight the events of Holy Thursday will be reviewed. "Comfort" is the subject of study. A large number of young people will take part.

NORTH STANBRIDGE
Mr. and Mrs. John Gough, from Bedford, spent the week-end at Mr. A. M. Kemp's.

Mr. and Mrs. E. Schoelcraft and children, from Brown Hill, have been visiting her sister, Mrs. C. Durecher.

Messrs. Sidney and Herbert Kemp went to Farnham on Saturday.

Mrs. S. A. Short and children spent the week-end with her mother, Mrs. A. Kemp.

CURLING CLUB HELD ANNUAL BEEF & GREENS

Election of Officers for Next Season—Distribution of Prizes—Stock Disposed of to Provide New Roof.

The annual meeting of the Sherbrooke Curling Club, held at the club house yesterday evening, sounded the death knell of the "Roarin' game" for the season 1920-1921. The past season, though unusually short, has been very successful and as a result of the excellent play at the Quebec Bonspiel, Sherbrooke curlers are now held in the highest esteem at Quebec, Montreal and Ottawa.

One of the more important changes undertaken during the course of the past season, was the substitution of paint for paper in marking the ice, but this has been found to be unsatisfactory and it appears certain that the coming season will again see paper in use.

The impossibility of disassociating an annual meeting from a "Beef and Greens" was plainly evident and this ancient custom appears to be firmly established.

DISTRIBUTION OF PRIZES
President F. A. Briggs' first important task was the distribution of the prizes won during the course of the season. For "nearly winning" the Chateau Cup, the members of the rink, Messrs J. P. Watson, R. McMurray and H. A. Hyndman were awarded nicely designed individual cups and while distributing the prizes, the President took occasion to compliment the players on their excellent showing. S. J. Lefevre the other member is away in Mexico.

The Club cup, (individual cups donated by Messrs. C. G. Thompson and W. G. Cross), was won by L. D. Hyndman's rink which went through the season without a defeat. The team composed of L. Farrell, J. D. Downing, M. F. Thompson and L. D. Hyndman (Skip) received the individual cups and made a few appropriate remarks in a most apologetic manner, but which unfortunately failed to satisfy the members as to the secret of their ability.

The prizes for the "Doubles" were in the nature of two beautiful and most original "stick pins" kindly donated by Col. Spearing. These pins which were greatly admired, were won by Allan P. Blue and Ralph Webster, and while Webster accused Allan Blue of the responsibility, the latter preserved an ominous silence, entirely non-committal.

The report of the Secretary-Treasurer, W. H. Brent, was very satisfactory and showed a considerable improvement over the previous year. The necessity of a new roof instead of continual patching was referred to by Messrs. James MacKinnon and F. A. Briggs who advocated raising the required money to undertake the work.

OFFICERS ELECTED

The election of officers found Mr. F. A. Briggs again nominated as President, but he advised that he could not possibly accept it for the coming season, as he intended doing a little more curling, and felt that the position of President, so strongly supported by Mr. W. H. Brent, required a person of tact and general business ability regardless of his curling attainments. Mr. Willard G. Cross was then unanimously appointed President and opened his session by drinking to the "retiring president" followed by "For he is a jolly

MUCH UNEMPLOYMENT IN TORONTO AT PRESENT

Civil Service Commission Will Employ All Possible Help.

(Associated Press Despatch)
OTTAWA, March 24. — There is so much unemployment in Toronto and vicinity that the G. W. V. A. through Dominion Secretary S. Grant McNeil, recently requested the Civil Service Commission to put into effect the system suggested by the G. W. V. A. in that city, namely, the employing of all possible government help.

William Foran, secretary of the Civil Service Commission, yesterday in a letter to McNeil stated that the G. W. V. A. suggestion had been accepted. All persons in the vicinity of Toronto on the Civil Service Commission's eligible list have been asked to communicate with and register with the Toronto office of the unemployment service of Canada.

"Was the groom nervous?"
"Nervous? He couldn't have trembled more if he'd seen all his creditors lined up outside the church."

MARRIAGES

PETTES-STEVENSON.

WATERLOO, QUE., March 24. — The home of Mr. and Mrs. H. W. Palmer was the scene of a very happy event on Tuesday, March 22nd, when their niece, Miss Matel Jennett Stevenson, became the bride of Mr. Sprague Alexander Pettes, of Champlain, N. Y. Promptly at 12:30 p.m., to the strains of Lohengrin's Wedding March, played by Miss Graves, the bridal party, who were unattended, took their places in the drawing room, when the Rev. P. Pergau, B.A., pastor of the Methodist Church, tied the nuptial knot in the presence of only near relatives of the happy couple. The bride, who was given away by her uncle, Mr. H. W. Palmer, wore white satin and a long bridal veil caught up with a wreath of orange blossoms. She carried a bouquet of cream roses with white streamers. During the signing of the

The Rev. R. W. E. Wright was re-appointed chaplain Mr. and Mrs. James MacKinnon are patron and patroness. The ice committee is again composed of Messrs. N. L. Wiggett, W. R. Moore and J. P. Watson. Strenuous objections were immediately overruled by the President. The match committee is composed of Messrs. C. G. Thompson, R. McMurray and A. P. Blue, while J. B. Beach assumes charge of the membership committee.

STOCK DISPOSED OF

The officers for the 1921-1922 season having been duly elected, Mr. C. G. Thompson took up the matter of the "roof" and it was finally decided to appoint a committee to undertake to dispose of a certain amount of the stock still in the treasury. Hot on the trail, C. G. Thompson immediately sent out a list, and before the meeting closed it was announced that approximately one hundred and twenty-five shares, equivalent to \$1250, had been disposed of. This means that for the coming season the members will have a much improved rink and it is proposed to seal the rafters in addition to putting on a new roof and other improvements.

Executive Held Meeting—Other
General News.

BURY, Que., March 24. —The Methodist Sunday school executive held a meeting at the Parsonage on Monday evening. The report of the treasurer showed the finances to be in a flourishing condition, and that the estimated appropriations made under the budget at the commencement of the year will be all met, with a substantial balance remaining. After discussion it was resolved and carried that the appropriations for missions, connexional funds and the trustee board be each increased \$5, making the budget \$116, divided as follows: School purposes \$50, missions \$25, connexional funds \$20, trustee board \$20.

The prize books from the Banfield fund have come to hand, and will be awarded to the various classes on the first Sunday in June.

It was resolved to have a suitable case made for the silver cup annually competed for by the classes, so that it may occupy a more prominent position in the schoolroom, and so keep before the school a motive for continuous and sustained endeavor.

Other routine business was done and some small accounts passed for payment, the meeting being one of the most helpful and interesting.

Make This A Musical Easter In the True Sense of the Word

MUSIC is an indispensable feature of the Easter festival. With music, the home is made doubly attractive, it unites the family, entertains friends. It is a God-given companion to man in his every mood, and through the wonderful development of recent years, it has been brought within the reach of everyone.

No matter what other Easter gifts you buy or what you refrain from buying, be sure there is music in your home this Easter and see to it that your home is equipped to have music every day in the year.

If your piano is silent because no one can play it, we will exchange it for a player piano, so all can play it. Buy a phonograph, so you may hear the great artists sing in your own home. Always have dance music on tap.

Our terms are extremely moderate. Come in today and we will tell you how you can have a fine instrument in your home on Easter by paying as little as \$10 down.

DEATHS REPORTED

MR. RICHARD A. GRIXTON, WATERLOO.

WATERLOO, Que., March 24.—Mr. Richard A. Grixton passed away after a brief illness of pneumonia at the residence of Mr. W. R. Rief on Tuesday afternoon at the advanced age of eighty-nine years. The late Mr. Grixton was born at Bishop's Crossing and he resided there all his lifetime with the exception of the past year, when he came to Waterloo with his daughter, Mrs. Rief. The few acquaintances he formed here esteemed him very highly, but in his native town he was widely known, and his sterling qualities were highly prized. He is survived by one son and three daughters, namely, Mrs. Willis W. Grixton, of Lennoxville; Mrs. Bertha Boisvert and Mrs. Samuel Dale, of Montreal, and Mrs. W. R. Rief, of Waterloo.

His wife predeceased him in June, 1915. A brief service was conducted at the home this morning (Thursday) by the Rev. P. Pergau, of the Methodist Church, and the body was taken to Bishop's Crossing, where the funeral service will take place on Friday morning at 10 o'clock, and interment in the family lot in the cemetery there.

MR. COLL, MASSAWIPPI. MASSAWIPPI, Que., March 24.—After several months of illness, Mr. Joseph Coll passed away at his home Wednesday forenoon at 11:30 a.m. The funeral service will be held Friday at the residence, at 2:30 p.m.

RADICALS HAD UPPER HAND AT QUEEN CITY

Meeting Called to Discuss Unemployment Developed into a Meeting of Radicals.

(Associated Press Despatch) TORONTO, March 24.—A mass meeting called to discuss unemployment in Massey Hall here, developed into a meeting of radicals who made flamboyant speeches and practically sidetracked the announced object of the gathering. The Toronto branch of the G. W. V. A. one of the organizations that promoted the meeting, yesterday decided not to be represented at it.

A number of resolutions purporting to deal with the unemployment situation were declared carried without having been read to the meeting. The speakers were: James Simpson, a well-known Socialist of this city; John MacDonald, who announced that he was a "red" and Harry J. Flynn, Dominion organizer of the G. W. V. A. of United Veterans.

When Mr. Flynn was speaking some suggestions were made from the body of the hall that their troubles could be cured by revolution. To this Mr. Flynn retorted that revolution would get them nothing.

SOMETHING FOR LOYAL PEOPLE TO CONSIDER

Von Bernstorff Makes Sweeping Statement re Hearst Publications.

During the past year the Canadian press in general, the National Council of Women, the I.O.D.E. and other loyal Canadian societies have expressed themselves as strongly opposed to the Hearst publications.

In the Woman's Century, Elizabeth Shortt, a well-known writer, says: "It is of interest to many to note that the anti-British former ambassador at Washington, von Bernstorff, tells of the help he received in his German propaganda from the Hearst publications, and speaks of the 'consistently friendly attitude of the papers of the Hearst Syndicate.'"

"These papers," he says, "with their sharp anti-British tendency, do us more good than papers with an admitted pro-German bias." (Food for thought.)

The writer continues: "Last summer in Western Canada several newspapers refused to accept Hearst advertising, while it is stated that one city's newspapers had published the names of the book stores and news stands who refused to sell the warmaker's publications."

Miss Shortt says that the women of Canada can do their share in helping to eliminate these publications from the home by ceasing to buy the Hearst papers, or having them in their home; by educating others to the same point of view, because of the evil consequences of such literature, and by notifying all news dealers that their patronage will be withdrawn unless these are banned from their collection. This movement is considered by the writer to be more effective than many well-meant resolutions, and would be real and active patriotic service.

In accordance with these views, the local I.O.D.E. chapters have requested their members to take this active service upon themselves as a duty to their country as loyal Daughters of the Empire.

For the benefit of those who have not already secured an authentic list of the publications referred to, the writer of the above broad minded views gives them as follows:

The New York American, New York Evening Journal, Chicago American, Chicago Examiner, Boston American, San Francisco Examiner, Cosmopolitan, Hearst's Magazine, Good Housekeeping, Harper's Bazaar, Motor Magazine, Motor-Boat Magazine, Los Angeles Examiner. (Thirteen in all.)

It is a foregone conclusion that the above list will be a surprise to many, and that giving up what has been a popular reading periodical, will mean a sacrifice to many also, but Canadians have always liked the motto, "For Home and Country."

BAD LUCK IN HIS BETTING. "It means 'In God We Trust,'" replied the office boy confidently in answer to a question over the telephone.

"What does?" inquired the city editor, who caught the remark.

"E Pluribus Unum," answered the boy. "A man said he had a bet up."

"What did he say when you told him that?"

"He said he guessed he'd lost the bet."—Kansas City Star.

NEW YORK, March 24.—Plans for an immediate strike of employees aboard ocean going towboats in protest against wage cuts placed in effect March 1st, were being held in abeyance today by the Marine Engineers Beneficial Association pending approval of its National executive committee.

Apart from the fact that rice is more economical than almost any other food, it is much more nutritious than most foods and few equal it in nutritive value. Page the Silken Scarf—Smartest of Accessories

Both as to chic and comfort it is the most satisfactory sort of a complement to the trot-about frock, the sports suit or outdoor clothes in general.

Photo by Old Masters.

THERE come those times in the affairs of fashions when those things that have been luxuries only suddenly become essentials. Sometimes there is a perfectly logical reason for such a change—again it is incomprehensible, but since we are at present interested in the scarf it is time to say right here and now that one does not have to search very far to find the cause for the reputation that the scarf has won for itself—the reputation of being an indispensable item in the wardrobe of the well-dressed woman. For two reasons—comfort quite as much as chic—the scarf is a mighty handy little accessory to have around. There are so many times—when spring is young—when it is just the very thing to throw about one's throat. For spring

zephyrs are deceiving—they blow warm at first, but after a while one begins to feel the "zip" in their caresses and while a fur piece would be far too heavy for comfort one does realize a distinct need for something—light as it may be—to act as protection against the aggressive breezes and a stiff neck. As might well be expected the scarf is a colorful bit of finery, but never bizarre—unless, of course, the woman who wears it has been bereft at birth of that sixth sense—the sense of dress and has never taken the time nor the trouble to acquire it. Gay tones are used but they are wonderfully blended and the heather shades are particularly favored. For the trotabout frock, the sports costume, and indeed at all times when mademoiselle goes out—whether in a light scarf—be it of silk or wool—is a jaunty complement of her costume.

**His Majesty's
ADVANCE ANNOUNCEMENT**

Preliminary to our showing of what is considered one of the very best productions ever shown on the screen, and with the anticipation of more people than we can possibly handle in the limited time that we are allowed to hold this great Picture, we would call your attention to the following: It will be shown for only TWO DAYS — TOMORROW AND SATURDAY. The times of showing will be on each day at 2.30 in the Afternoon, and two showings in the Evenings, at 7.30 and 9 o'clock. If our patrons will distribute their patronage over the different times of showing, we will be enabled to accommodate almost everybody, otherwise there will be a congestion during both evenings. To avoid this as much as possible, we would, therefore, ask that as many as can possibly make it convenient to take advantage of the Friday afternoon at 2.30, or at 7.30 and 9 o'clock Evening. We know that herds of the youngsters will be there Saturday afternoon and we want to assure them of the greatest treat of their young lives. If you don't know anything about

"DINTY"

With Freddie Face WESLEY BARRY, ask them about it—they'll know—and, for goodness sake, don't let them miss it. Be a great kid yourself for once in a blue moon, and come down, loosen up your laugh muscles, and acknowledge you had a darn good time. We can only get a picture like this once in a great while, and when we succeed, we don't want anybody to say, "Gee, I wished I'd known it was as good" after it has gone.

Marshall Neilan wrote it—and produced it as well.
Wesley Barry played it, and made it a yell.

ENGLISH UNIVERSITIES ASKED TO SEND TEAMS.
(Associated Press Despatch)
CAMBRIDGE, Mass., March 24.—Oxford and Cambridge Universities have been invited to send a combination track team to meet a Harvard-Yale joint team at the Harvard Stadium on June 18. The Harvard Athletic Committee announced last night.

The invitation was sent the English institutions last night, after joint decision of the Harvard and Yale Athletic executives to issue it.

If the Englishmen accept, it will make the fifth time the combination teams have met. In England the Oxford-Cambridge track men won in 1899 and 1911 and the Harvard-Yale aggregation won in 1904. In 1901, the Harvard-Yale team won at New York.

McINNIS STILL HOLDING OUT

(Associated Press Despatch.)
BOSTON, March 24.—Interest in the Red Sox at their Hot Springs training camp lies largely in the hold outs, rather than in their own activities. Sammy Vick has joined the club and Al Waters, catcher, reported to Manager Duffy. Tim Hendryx has signed up. Stuffy McInnis is still holding out. Everett Scott is suffering from hip that may require an operation.

TO KEEP PIRATE SQUAD INTACT UNTIL MIDDLE OF APRIL.

(Associated Press Despatch.)
CLEVELAND, March 24.—Manager Speaker, of the Cleveland Indians, intends to keep his squad intact until the middle of April at least, advises received from the spring training camp state.

WHITE SOX START EXHIBITION GAMES.

(Associated Press Despatch.)
CHICAGO, March 24.—Spring training activities for the White Sox, so far as the camp at Waukegan, Texas, is concerned, close today, according to reports from the camp. Uniforms were dealt out to the first and second squads last night, and tonight the regulars leave for Wichita Falls, for three games. It is reported that releases are expected soon for three pitchers, Jorgensen, the Iowa school teacher, McWhorter and Franks.

BRAVES ROUNDING INTO SHAPE.

(Associated Press Despatch.)
BOSTON, March 24.—The Boston Braves are rounding into shape for the season at their training camp at Galveston. Among the players who

have been showing class, are Powell and Eddie Eayrs, who have been hitting the ball and doing fine work in the outfield in recent exhibition games.

Hoeckel and Holke are playing brilliantly in the infield. Hawk, a new man has been working out in practice and shows ability in the infield. He has not had much chance yet to display his prowess with the bat. Southworth is proving a wonder at bat, but is being given a run for the limelight by Wally Barbare, Walter Holk and Walton Cruise. The latter has been used as pinch hitter in exhibition games lately and has invariably hammered the cover off the ball.

BOXING

WILSON TO MEET GIBBONS

(Associated Press Despatch.)
ST. PAUL, Minn., March 24.—Johnny Wilson, middleweight champion, has agreed to meet Mike Gibbons, of St. Paul, within ninety days, according to a telegram Gibbons said he received yesterday from his Boston representative.

DEMPSEY QUITE PLEASED

(Associated Press Despatch.)
CALGARY, Alta., March 24.—Jack Dempsey, who was here yesterday expressed pleasure at the new arrangement for his fight with Carpenter on a percentage basis, and said it should represent a million and a half dollars. He announced that he absolutely drew the color line and would never fight with a colored man.

FOOTBALL

FOOTBALL LEAGUE MEETING.

It is expected that a general meeting of the League will be held about March 30th, and it is to be hoped that representatives will be here from any outside towns who propose entering teams in the League this season. Any of the outside clubs whose secretary is not yet on the officers list of the League will kindly send along their name and address to the League Secretary, when an official notification of the meeting will be mailed them.

HOCKEY

SECOND GAME OF SERIES TONIGHT.

(Associated Press Despatch.)
VANCOUVER, B. C., March 24.—Except that six man hockey will again be played, the rule for tonight's match between the contestants for the Stanley Cup, will afford some concessions to the local hockey fraternity which has deluged the executives with criticisms of the rules of play following last Monday's game between Vancouver and Ottawa.

The third game, next Monday night, will be played under Pacific Coast Hockey Association rules, seven men a side. For tonight's game, the second of the series some changes will be made over the first game.

They comprise: centre ice area of forty feet; six men in the game at all times; if one player is benched another takes his place. Goal tenders will be barred from shooting the puck to the wings; manoeuvring around centre ice; no forward passing.

The rival executives got together last night and decided to adopt the former method of alternating between eastern and western rules.

For Monday night, Ottawa figures that it has a good seven man team, with Cleghorn and Gerard on the defence, Boucher rover, Darragh right, Nighbor centre and Denenny left, with Benedict in goal.

Ottawa could have remained obdurate, the Vancouver Sun comments, and insisted on six man hockey as agreed, but they appreciated the sentiment of the army of fans and met the suggestion without a whimper. The Ottawa team had a workout under wraps yesterday, and while they did not go through any strenuous drilling, they showed that they are in much better trim than they were on Monday.

Y.M.C.A. NOTES

INTER-INDUSTRIAL BOWLING LEAGUE
Last night a very good game was

pulled off at the "Y" Bowling Alleys when the two leaders in the Inter-Industrial Bowling League met in their trial of strength. After the defeat of the Rand Offices by the Super Heater, Mitchell's team came up confident that they would take all the points. While the scoring was somewhat closer and each of the players made very good scores the margin between failure and success was quite marked. It was noticed by all that the Rand played a specially good game, putting up the record for total points made in the alleys this season in any one game.

Line up and score:—

(Associated Press Despatch)
LONDON, March 24.—A despatch from Helsingfors says the Finnish foreign minister and the Soviet representative are negotiating regarding the fugitives from Kronstadt, concerning which Finland proposes to approach the League of Nations with a view to arranging for the sheltering of part of them in other countries.

SAYS MARRIAGE MUST HAVE ITS DISADVANTAGES

Twice As Many Married Persons Commit Suicide as Do Single Persons.

(Associated Press Despatch)
NEW YORK, March 24.—Marriage must have its disadvantages, in the opinion of Dr. Charles Norris, chief medical examiner, who is his annual report today declared that in the five city boroughs, "for some unexplained reason, nearly twice as many married males and females commit suicide as do single males and females."

Violent deaths are on the decrease, he reported, there being 4,519 in 1920 and 5,200 the year previous. Pleasure automobiles cost 139 deaths and commercial cars 253, while more than half the victims were children of thirteen and under.

J. M. NAULT LTEE, King Street

build a permanent road of stone and gravel in the township of Barnston, commencing about three-quarters of a mile east of Barnston village on the old road to Coaticook, and running to Baldwin's Mill, and as far as the Baptist Church on road leading around the lake and on the east up to the home of Adam Goldie. The distance is about five miles.

This offer is contingent upon all owners of land along said route giving stone, gravel and earth free of charge, and also allowing straightening of road and new alignments when necessary; and promising to remove all wood fences a distance of at least one hundred feet from the highway, which would be the means of causing snow to drift. All culverts to be built of stone and concrete, and well under the surface of the road.

My reason for taking this route to Coaticook is owing to the fact that there is abundance of gravel on the Martin and Morin farms about midway of distance and close to the road. This road would not need to be gravelled on surface over 12 ft. wide, but the ditches should be over 20 feet apart and at least two feet below the surface. This work should not cost over \$25,000 to \$30,000, but I will pay one-third of its costs providing it is for actual work done in a good honest day of ten hours. I shall give as much of my long experience and observation in big construction work as I can free of charge.

I will also pay one-third of the cost of building the same kind of a road from my place to the Stanstead township line, following the so-called Baldwin and Pomroy highway, a distance of about six miles. The cost would be about the same toward Stanstead as toward Coaticook.

To put a stop to the "scare-crow talk" of the high cost of maintaining so-called permanent roads, I will bind myself for ten years or longer to maintain the whole a distance of about twelve miles for the amount of my taxes in the township of Barnston, and when it is taken off my hands, will bind myself that the road will be better than when I took charge. This offer is made with the understanding that the work is commenced as soon as possible and

MEMBERS OF COMMISSION ATTACKED

Several Employees of the Inter-Allied Plebiscite Commission Murdered at Karf.

BERLIN, March 24.—Several employees of the Inter-Allied plebiscite commission in Silesia, have been murdered recently at Karf, and the Governor of Beuthen has ordered that strictest measures to keep the peace be taken. He has forbidden all assemblies of more than four persons, all meetings except those of a religious nature are prohibited, and between eight o'clock in the evening and four o'clock in the morning all parties numbering more than two persons may be fired upon without warning.

Business houses may remain open only between nine and twelve in the morning and two and five in the afternoon. Similar regulations have been issued at Myslowitz.

completed by January, 1924.

In making this offer publicly known, I might say that I have made like offers in the past ten years, but got no results. That I most desire is that my offer be accepted and the work proceeded with as fast as possible, and I will cheerfully reach into my pockets for the \$20,000 more or less, and pay it as the work proceeds.

A few of the great advantages of good roads is the comfort obtained, the aid to beasts of burden, the saving in vehicles and harness, the accomplishing of three times more with the same effort, to say nothing about the happiness and good cheer that they will give.

PROTEST IN REGARD TO THE SEAMEN'S ACT

Effort Will Be Made Shortly to Have the Act Amended.

(Associated Press Despatch)
DETROIT, Mich., March 24.—The Seaman's Act was responsible for the shipping boards inability to dispose of its vessels at anywhere near their worth, unless it is amended to exempt vessels on inland waterways, will put great lakes shipowners completely out of business, Meyer A. Phillips, of the Detroit and Cleveland Navigation Company, declared at a meeting of Lakes Shipping men here yesterday.

At another conference early in April it is planned to bring pressure upon Congress to modify the law. Mr. Phillips also held the seamen's law responsible for the fact that a large number of United States ocean-going vessels have been tied up, declaring they could not hope to compete with vessels of foreign registry.
