WEDDING.—Mr. W. F. Duncan and Miss Sarah Jarrett were married Wednesday evening by Rev. Mr. Brainerd. The bride was the recipient of some very handsome presents, among them being a set from the groom's fellow employees on the Quebec Central Railway. We wish the happy couple much happiness.

HOSE STOLEN.—A man called at Mr. John Harkness' livery stable last Saturday and engaged a team to drive out on the Magog road a few miles. Not returning enquired was made and he was traced to Georgetown, Deputy Hugh Constable Moe was sent in pursuit but has not as yet caught the thief; the animal was a small bay mare. A reward is offered for recovery of horse and arrest of thief.

LACROSSE.—The match at Montreal last Saturday between the first twelve of the Montreal Juniors and the Sherbrooke Club is reported by the press of that city to have been one of the best games seen there for some time, the teams playing the game the best they knew how and no foul occurring at all during the progress. Although both sides felt that they did their best and were well treated by their opponents when they hope to play another game with here this season. We have received an excellent report of the match from a gentleman present but unable to give it space.

REVENUE FOR SALE.—In another column will be found an advertisement of Mr. Wm. Long's who is offering to sell out his large manufacturing business including machinery, stock, etc., a chance that some enterprising man will not do look to. Mr. Long also offers to sell his saw mill, and from a brief visit to the same it appears to us to be an exceptionally advantageous property for a practical man or one with some capital to look at. Its advantages are fully set forth in the advertisement, and do but justice to the same. Our space will not permit a more lengthy notice this week, but an inspection of the mill will convince any one that it is all that is claimed for it. Mr. Long is also offering his furniture at a low rate. See his advertisements.

Choral Society.
An effort is being made, we understand, to form a choral society in Sherbrooke, to be under the direction of Mr. Reed, organist of St. Peter's Church, but unaccompanied. A public meeting will probably be called to discuss the project early in September and we hope it will take practical shape and thereby assist in the cultivation of an increased taste for music. The society would very likely give one or more concerts during the winter. Mr. Reed is quite competent to conduct such a society and we trust the matter will be successfully carried out, and that the Reed may be induced to become a permanent resident among us.

Have you seen the scrubbing brushes they give for 9c at the 9c store.

The Provincial Matches.

As we anticipated the 53rd Batt. team are being heard from. Every one of the team has taken individual prizes, some among the first, and the team have secured first place in the military match first series in skirmishing where there were six teams entered.

St. Andrew's S. S. Picnic.
The Annual Basket Picnic of St. Andrew's Presbyterian Sunday School takes place to-morrow (Saturday) at Lacan's Bay, Lake Massawippi. The excursion train will leave Sherbrooke at 12. A limited number of excursionists can go by the train leaving the Passumpsic freight shed at 1:15. This train starts from the old Round House. But all who can go at 12 should do so, as accommodation for the 1:15 train is very limited. Return fares for adults 50 cts. Children under and over are to be carried free. Pupils on the roll of St. Andrew's School should procure their tickets through Mr. Cattanach, or the officers of the School, in order to get the special reduced rate to them. Returning the train will leave Lacan's Bay at 7 sharp, getting to Sherbrooke about 8.

The excursion train will stop at Eustis, near Capleton, for passengers. Return tickets from Eustis 30 cts. Any who may desire to join the excursion may do so. The place chosen is a very beautiful one and the run out is very enjoyable.

A Chapter of Accidents.
On Sunday morning, the 3rd inst., a man named William Blackstock aged about 52, a tailor by trade, from Worcester Eng., was found dead on a work bench in his shop at Lake Megantic, but in consequence of the non-delivery of a letter to the coroner and the wires not being in working order, no message respecting it was received by the coroner, and the body was interred. We understand, however, that he will proceed at once to have the body exhumed and to hold a formal inquest.

On Monday or Tuesday last another man was found dead in a field at Lake Megantic. No particulars have reached us, but the coroner has proceeded thither to enquire into this matter as well as the preceding.

A man named Belanger an employe of the Agnes Pulp works was drowned on Monday afternoon by slipping off a raft below the dam, from which he was fishing. The body has not yet been found.

We regret to learn that an accident which occurred to Mr. Charles Penneyer Baxter some two weeks ago has—very unexpectedly—had a fatal result. It appears that Mr. Penneyer, a young man of about 30, son of Mr. John Baxter of Lingville, while at the Pope Mines at Dutton about the time mentioned in the advertisement, was killed by a fall from the manager, Mr. J. L. Wilford, to accompany him in his buggy on some business. This Mr. Wilford agreed to do if he (Baxter) would wait a short while. Two other persons, French Canadian, afterwards came up and in the course of conversation with these about a cane-gum he had, Mr. Wilford took aim at a neighboring blacksmith shop which was partially open and where Mr. Baxter, unknown to Mr. Wilford, had gone to lie down while waiting for the latter. A ball from the gun passed through his lung, fracturing a rib in its passage. Medical aid was promptly obtained and the patient was supposed to be doing well, but he died very suddenly on Sunday last from the rupture of an artery, as appeared by the testimony of Dr. Hopkins, of Cookshire, who made the post mortem examination; the theory being that the man had been so soon, some loose fragment of the fractured rib had cut the artery. Had he remained

quiet for a few weeks longer he would most probably have recovered. The unfortunate deceased repeatedly stated that no blame whatever was attached to Mr. Wilford; and an inquest into the circumstances being held by Cor. Woodward, the Jury returned a verdict in accordance with the facts, exonerating Mr. Wilford from all blame.

France and China.
The Voltaire gives the following account of the French operations in China: Admiral Lespes blockaded Keling on August 5. The Chinese attempted to repel him with a battery of Krupp cannon. The French silenced the battery without casualty. A company then landed and spiked the guns. One man was killed, two wounded. Admiral Lespes remains before Keling so as to prevent the Chinese vessels calling Admiral Courbet stays at Foo-chow to support M. Patenotre's demand. A detached squadron remains off Woo-Lung, 10 miles north of Shanghai.

Admiral Lespes reports that the French are now masters of the port of Keling, the roadstead and the mines. The Chinese Government has sent a protest to the powers against the action of the French Admiral Lespes in bombarding Keling.

France refuses to submit a settlement of the Franco Chinese difficulty to mediation. Pekin advises state that the foreign board has repudiated confidence and will disregard the chronic menace of the French fleet. French prestige can only be recovered by serious operations.

AYER'S Hair Vigor

now a full head of hair growing again, and that my preparation I should have been advised to use."

W. BOWEN, proprietor of the *McArthur* or *Esquimaux*, says: "AYER'S Hair Vigor has cured my hair, and I can no longer ask of it from my own experience. Its preparation is simple, and it is so light and so easy to use, it is so glossy and soft. The Vigor is also more a cure for dandruff. Not within two weeks of my using it, my hair had attained its entire satisfaction."

DR. AUGUS FATHBURN, M.D., of the University of California, writes from *San Francisco*, Feb. 16, 1887: "I have seen the evidence of the change which fleeing from the presence of the hair, and now, and so have been able to maintain appearance of youthfulness—a matter of great importance to all ministers, orators, and in fact every one who lives in society."

C. A. PRESCOTT, writing from *18 Elm Street*, Boston, Mass., April 14, 1882, says: "Two years ago my hair began to fall off. It thinned very rapidly, and I was growing bald. I used Ayer's Hair Vigor, and on the falling stopped and a new growth commenced. It grew remarkably fast, and is now completely covered with short hair. It continued to grow, and is now as good as new. I have used it several times since the Vigor, but now use it occasionally as needed."

There are hundreds of similar testimonials the efficacy of AYER'S HAIR VIGOR. It is but a trial to experience the most effect of its use.
