IMMEDIATE BALLOT WILL BE TAKEN ON MINIMUM WAGE BILL.

Mine Workers in Various District Will Cast Their Vote For or Against — Men are Asked if They Will Return to Work Pending Settlement of Minimum Rate of Wages.

London, March 27.—(Special)—At a full meeting of the Miners' Federation this morning it was decided to take an immediate ballot among the men as to whether or not they desire to accept the Government's minimum wage and return to work.

The miners' delegates will return to their respective districts at the earliest moment, so that no time shall be lost in funding result of ballot.

The text of the ballot paper is as follows: "Are you in favor of resuming work pending settlement of minimum rates of wages on various grades by district boards to be appointed under coal mines minimum wage act?" More moderate members tried to get the Federation to insert a recommendation on the ballot paper, but it was decided to leave the men a free hand.

BARE MAJORITY TO VOTE.

A bare majority of votes will be sufficient for the acceptance or rejection of the proposition.

William Edward Harvey, Miners' member of House of Commons, who represents sentiments of most of the leaders of men in Federation area, says that he intends to tell 40,000 miners of Derbyshire the "wage bill has become law of land so that there can be no question of accepting its provisions or otherwise. They must be told the best of."

BILL PASSED HOUSE OF COMMONS.

London, March 27.—A fateful day in the history of British trade struggles came to a close early this morning when the passage through Parliament by a large majority of the bill establishing in legislation the principle of a minimum wage in the country's most important industry.

The Minimum Wage Bill passed its third reading in the House of Commons by a vote of 213 to 48, amid a scene of great excitement. The House of Lords reassembled at 2.50 o'clock to receive the bill, and on motion of Lord Herschell it passed its first reading.

Premier Asquith on leaving the House of Commons was loudly cheered by all the members.

After a strike lasting nearly a

month, and involving the whole coal country in untold distress, the miners have thus secured recognition of the principle which they set out to obtain. But they are still dissatisfied because the bill does not specify the amount of the minimum wage. Thus there is no prospect of any immediate settlement of the strike. The miners' leaders declare their determination to keep up the strike until they have secured guarantees of a minimum wage of five shillings for men, or until the district boards, as provided by the bill, arrange acceptable terms.

MINERS' NEW DEMANDS.

The Government's persistent efforts to secure an outside settlement collapsed in a most dramatic manner. Premier Asquith had the greatest difficulty in getting the owners and the men to meet yesterday, and it was only finally on the earnest persuasion of Sir Edward Grey, the foreign secretary, that the owners consented to confer with the men's representatives. The meeting lasted but a few minutes. The representatives of the Scotch miners put forward a demand for a minimum of five shillings nine pence for men and three shillings for boys, whereupon the owners, protesting that they were always being faced by fresh demands, angrily broke up the conference and quitted the room, leaving Premier Asquith, Secretary Grey and Chancellor Lloyd George thunderstruck and crestfallen at the unexpected turn of events.

It was under emotion, the result of disappointment at this scene, that the Prime Minister went immediately to the House of Commons to announce the failure of the conference in a speech which evoked the sympathy of the whole House.

What will be the next steps in the struggle it is impossible to foretell. By Thursday the Minimum Wage Bill will have received the royal assent and become law. In the meantime the Miners' Federation and Labor party will hold meetings to decide upon their future course. It is reported that the Government intends to constitute a National Wages Board, with an independent chairman, to endeavor to secure resumption of work on a five and two shillings basis.

RAILWAY BYE-LAW WAS DISCUSSED.

Granby Board of Trade Dealt With That of Montreal and Southern Counties Ry.

MATTER WAS REFERRED BACK TO CITY COUNCIL AND WILL THEN GO TO PEOPLE.

Granby, March 27.—(Special)—A very largely attended meeting of the Board of Trade was held here, last night, for the purpose of discussing the proposed Montreal and Southern Counties Electric Railway by-law. Dr. C. P. Verdun, vice-president, occupied the chair. Mr. W. P. Paul, of the Montreal and Southern Counties Railway, was present at the meeting.

With the prospect of two electric roads being built to Granby, the members did not want to grant any privileges to one that would in any way deter the other from building. The by-law prepared by Mr. Paul for the Council, and later referred by the Council to the Board of Trade, was discussed at great length. Finally on a motion by Mr. J. Bruce Payne the Board of Trade referred the by-law back to the Council, asking that it be referred to the people after they had made the amendments they thought necessary.

An amendment was moved to the effect that no steps be taken until the C.P.R. had placed their proposition before the Council. The amendment was lost.

The meeting broke up at a late hour without further business being transacted.

EXPENDITURE OF OVER NINETEEN MILLION.

Supplementary Estimates Were Laid Before House of Commons.

SUBSIDY TO EACH PROVINCE FOR THE ENCOURAGEMENT OF AGRICULTURE.

Ottawa, March 27.—The supplementary estimates for the fiscal year were laid on the table by Hon. W. T. White, minister of finance, last night, amounting in all to \$19,610,039.80. Of this amount \$13,072,562.89 is chargeable to consolidated fund and \$6,537, 12.91 is chargeable to capital account.

One of the most interesting of the new items is the half million dollars subsidies to the provinces of Canada for the encouragement of agriculture and a million dollars as subsidies for the improvement of highways. These amounts have been carefully divided amongst the several provinces according to population. The subsidy for agriculture is divided as follows: Ontario, \$175,733.32; Quebec, \$139,482.40; Nova Scotia, \$34,288.45; New Brunswick, \$24,509.93; Prince Edward Island, \$6,529.85; British Columbia, \$27,334.76; Manitoba, \$31,730.05; Saskatchewan \$34,296.29; Alberta, \$26,084.95.

One million dollars for highways is divided as follows: Ontario, \$351,466.64; Quebec, \$278,964.80; Alberta, \$52,189.90; British Columbia, \$54,669.52; Manitoba, \$63,460.10; New Brunswick, \$49,019.86; Nova Scotia, \$68,576.90; Prince Edward Island, \$13,059.70; Saskatchewan, \$68,592.58.

The only item mentioned for the Eastern Townships is: Georgeville—Repairs and renewals to wharf, revote, \$1,200.

ITALIANS SUFFER LOSS.

Report Says That Turkish Army Achieved a Great Victory.

LOSSES OF ITALIANS PLACED AT 27 OFFICERS AND 3,500 KILLED AND WOUNDED.

London, March 27.—(Special)—The Turkish army in Tripoli has just achieved a great victory over the Italian army, whose losses were 27 officers and 3,500 men killed and wounded, according to a report of the Turkish commander at Benghazi, received here to-day from a special correspondent at Turkish headquarters.

The location of the battle is not given in the report, which says that the entire camp equipment of the Italians fell into the hands of the Turkish troops.

GAS EXPLOSION KILLS EIGHTY-TWO.

Only Eleven Men Escaped out of a Virginia Coal Mine.

FAMILIES OF DEAD MEN FIND THEMSELVES IN VERY SORE STRAITS.

Welch, W. Va., March 27.—Eighty-two men were killed yesterday by a gas explosion in the Jed Coal and Coke Company mine at Jed, W. Va., a half dozen miles from here. Only eleven men escaped alive and one of these died within an hour after being brought to the surface.

Last night 33 bodies had been located and the rescuers hoped to have them out shortly. Exploring parties covered all of the mine by 3 o'clock this morning, and expected to have all the bodies out by noon.

When the explosion took place probably only the eleven men working at the foot of the shaft had a chance for their lives. They made their way up the cages which were not damaged. Though some of the blades of the fans were shattered, they continued to operate with the fortunate result that enough air was present to admit searching parties immediately.

The usual scenes of horror and grief which attend mine disasters were lacking here yesterday. No families of the miners crowded about the mouth of the shaft. Women have kept within their homes overcome with grief and distraction.

The mine was inspected last Friday and pronounced safe. Preliminary investigations have not divulged the cause of the explosion. Some local mine men are inclined to regard it as a physical phenomenon. Barometers in this vicinity have been showing unusually low readings for the last week without the usual atmospheric changes.

The families of the dead men find themselves in sore straits. Work has been very slack at the mine. Outside aid will be asked.

WORKMAN GETS MILLIONS.

Fort William, Ont., March 27.—To be raised from the estate of a working man to that of a millionaire is the experience of John Dancy, a rivetter at the Port Arthur dry dock. Dancy's uncle in Chicago died a few days ago, leaving a fortune of \$2,500,000, to which Dancy has been notified he is the sole heir.

THE WEATHER LOCAL FORECAST.

Westerly winds, fair and milder. Thursday mild.

RIVER SPREE BROKE THROUGH TUNNEL.

Eighty Workmen Barely Escaped With Their Lives.

DAMAGE AMOUNTS TO SEVERAL MILLION AND WORK ON SUBWAY IS SUSPENDED.

Berlin, March 27.—(Special)—Eighty workmen barely escaped with their lives this morning, when the River Spree broke through the tunnel now being bored under the river for the extension of the Berlin subway to the northeast of Berlin.

The entire downtown section of the subway was flooded, and damage to the extent of several millions was done. Downtown traffic will be interrupted probably for months, and the completion of the extension has been indefinitely deferred.

KILLED BY AN AVALANCHE.

Ten of Party of Skiers Lost Their Lives on Mountain Summit.

ONLY SURVIVOR OF PARTY WAS WOMAN DISCOVERED BY WOOD CUTTERS.

Vienna, March 27.—(Special)—A party of eleven skiers were overwhelmed by an avalanche near the summit of Schneeberg, near Vienna, yesterday afternoon, and ten persons were killed. Two wood cutters coming down the mountains heard groans from beneath the snow. They dug hastily and discovered a woman, who informed them of the avalanche.

After much work they recovered the corpse of the leader of the party, Dr. Hacker. Then they conveyed the woman, Fraulein Blanca Tagleicht, who is the sole survivor of the tragedy, to an hotel.

This morning several detachments of soldiers on skis proceeded to the spot, and nine bodies, including that of one woman, have now been recovered.

It is remarkable that the faces of all the victims wear happy expressions, which seems to indicate that death was instantaneous.

CHINESE PIRATES ATTACK AMERICANS.

One was Killed and Two Others Were Injured.

WERE ASLEEP IN THEIR BOAT WHEN ATTACKED IN EARLY MORNING.

Peking, March 27.—Further news has reached here of the attack made upon three Americans by Chinese pirates near Wu-Shan, province of Sze Chen on March 23. Bert Hicks, of Oshkosh, Wis., was killed and Philip Hoffman, of Ohio, and A. H. Sheldon, of California, were wounded. The American legation yesterday received a despatch that Hoffman and Sheldon are recovering.

A Hankow despatch says that the three Americans, who were on an exploring expedition on the Yang Tse River, were asleep in their boat when seven pirates armed with swords attacked them at 3 o'clock in the morning. After the Americans were cut down, the pirates sprinkled kerosene about and set the boat on fire in an attempt to burn the bodies of their victims.

TAFT CLAIMS 83 DELEGATES.

Workers Say That Roosevelt Will Not Have More Than Seven.

SUPPORTERS OF EX-PRESIDENT SAY NEW YORK PRIMARIES WERE A FARCE.

New York, March 27.—Yesterday's state wide Republican National Convention at Chicago resulted in the election of organization candidates in practically every district where there was a contest, according to unofficial returns, fairly complete in many instances, at hand at a late hour last night. Claims that at least 83 of the 90 delegates will be for Taft and not more than 7 for Roosevelt, were made by State Chairman William Barnes, Jr., and John W. Hutchinson, director of the Eastern Branch of the National Taft Bureau. Chairman Charles H. Duell, of the Roosevelt City Committee, declared that the primaries, characterized by "a complete breakdown of the election machinery," had been a farce. He asserted that an effort would be made by the Roosevelt committee to secure "a real primary in this city with a full expression of Republican opinion."

DIED AT HUNDRED AND FOUR.

Brookville, Ont., March 27.—The death occurred here yesterday of Mary Gordon, relict of the late Christopher Larocque, Brookville's oldest resident. Deceased was born at the Glen, near Williamstown, county of Glengarry, on July 10, 1808, and was, therefore, in her 104th year. Up till three months ago Mrs. Larocque was in excellent health and retained

CASE TAKEN EN DELIBERE.

Hearing Concluded in Case of Demers vs. Mayor Hebert.

SHOULD COURT DISQUALIFY MR. HEBERT IT HAS POWER TO DECLARE MR. DENAULT ELECTED.

Hearing in the case of Abel Demers vs. Mayor Hebert was continued in the Superior Court yesterday afternoon before Mr. Justice Globen. A lengthy legal argument took place on the question of whether or not Mr. Hebert could qualify for Mayor on a property valued at \$10,000, and owned jointly by himself and Mr. Thomas Fortier.

Mr. Belanger, attorney for the plaintiff, took the ground that the property belonged to the registered firm of Hebert & Fortier, and not to Mr. Hebert and Mr. Fortier jointly. In order that Mr. Hebert have the right to qualify on the property, he contended that the part he owned should be stipulated on the valuation roll. According to his interpretation of the law, a partnership such as that between Messrs. Hebert and Fortier would qualify them as electors, but neither one as candidate for the Mayoralty.

Mr. Justice Globensky questioned Mr. Belanger very closely in this connection, pointing out that the law did not state that such partnership qualified either member "only" for electoral purposes. This point and several others were argued by the learned Judge and the attorney for the plaintiff for over an hour.

Mr. Belanger argued that the property was the property of the company of Hebert and Fortier, not of F. H. Hebert and Thomas Fortier. At the request of the Court an extract from the valuation roll was entered under the names of F. H. Hebert and Thomas Fortier.

After quoting from several judgments rendered in similar cases, Mr. Belanger closed his case, first stating that the Court had the privilege of declaring Mr. Denaunt elected if it were proven that Mr. Hebert did not have the proper qualifications when he was nominated.

PLEA OF DEFENCE.

In summing up the case for the defence, Mr. Panneton was very brief. He read an extract from the agreement of partnership entered into by Mr. Hebert and Mr. Fortier in 1906, when they began business. By this agreement they were authorized to carry on business as general grocers, flour, feed and grain dealers. Mr. Panneton pointed out to the Court that according to the terms of the agreement the company could not buy real estate, and contended that the property in question was bought and paid for by F. H. Hebert and Thomas Fortier, and that the title was made out in their names.

The attorney for defendant then quoted from various judgments rendered, showing that in similar cases to the one before the Court men had qualified. In the present case property valued at ten thousand dollars was owned by F. H. Hebert and Thomas Fortier, entered on the valuation roll under their names, and the deed made out to them. The property was not entered as being owned by Hebert and Fortier.

In view of the above mentioned facts Mr. Panneton saw no reason why Mr. Hebert was not qualified to fill the position of Mayor of the City of Sherbrooke.

The case was taken en delibere.

PRESBYTERY MET HERE YESTERDAY.

Accepted Resignation of Rev. J. O. Brunton, Danville.

MOVEMENT ON FOOT TO UNITE PRESBYTERIAN AND CONGREGATIONAL CHURCHES AT DANVILLE.

A pro re nata meeting of the Presbytery of Quebec was held here yesterday afternoon, for the purpose of dealing with the resignation of Rev. J. N. Brunton, Danville. Those present were Rev. P. D. Muir, Windsor Mills; Rev. J. C. Nicholson, Sherbrooke; Rev. Donald Nicholson, Soreville; Rev. J. R. Macleod, Scotstown, and Rev. J. N. Brunton, Danville. Messrs. Brown and McCallum, laymen, were also present, representing Mr. Brunton's congregation at Danville.

The resignation of Rev. Mr. Brunton was accepted, after a great deal of discussion. The reason for his resignation is that a movement is now under way to unite the congregations of the Presbyterian and Congregational Churches of Danville. The Presbytery has already approved of this union, and has accepted the proposed basis. All that now remains is to have the Congregational Union approve of it.

RAILWAY LAND GRANTS DISCUSSED.

Government Might Consider Idea of Sharing in Earnings of Companies.

LEADER OF OPPOSITION AND ARMAND LAVERGNE ATTACK GOVERNMENT.

Quebec, March 27.—Another debate resulted last night at the session of the House of Assembly on the railway subsidies, in which the leading members of the House took part. Mr. Teller, leader of the Opposition, made it clear that he was for the subsidizing of all genuine railway companies, and secondly that he considered that the railway land grants should be made subject to being deemed by the Government when considered desirable.

Premier Gouin expressed a new vote last evening when he stated the Government might consider the idea that the Government should have a share of the earnings of the companies subsidized.

Mr. Armand Lavergne attacked the Government, saying these subsidies were a bid for winning the elections. The Premier, after discussing the need of more railways in Quebec, said the present Government was not depending on railway subsidies for another victory at the polls. The Premier defended the land grants for the James Bay route on the ground that the federal grant was not sufficient. During the afternoon another mo-

Deaths Reported. JOSEPH FLEURY, ROCK ISLAND. Rock Island, March 27. (Special) - Mr. Joseph Fleury passed away on Monday evening at his home near Beche, Vt., following a week's ill- ness of pneumonia. He leaves a wife and one son and daughter, Mr. L. Fleury and Mrs. Ed. Caron of Beche; also a brother, Mr. Louis Fleury. Mr. Fleury has been one of the most familiar figures on the streets here, for a good many years engaged in the business of buying and selling horses. The funeral was held Wednes- day morning at the Roman Catholic Church.

DR. MAGUIRE, DUNHAM. Dunham, March 27. (Special) - There passed away here on Sunday at the age of about forty years, Dr. H. E. Maguire, a prominent citizen. Dr. Maguire was stricken with pneu- monia, from which he never rallied. He was never robust in health, yet he experienced few really serious ill- nesses, being nearly always able to attend to his practice, which was very good. He was a veterinary of skill, and a quiet sensible gentleman who had hosts of friends. His widow has the sincere sympathy of every- one. Five young children are left fatherless, and the entire circumstan- ces attending the death are sad in the extreme.

MRS. J. B. CHAMPAIGN, MILLING- TON. Millington, March 27. (Special) - Mrs. J. B. Champaign of this place died early Monday morning after a short illness. Mrs. Champaign was having reached the ripe old age of 93 years, seven months and eight days. She leaves to mourn her loss a husband and seven living children, three boys and four girls, namely, Mrs. Fred Cote, Messrs. Frank, Louis and Leon Bruneau, all of this town; Mrs. M. Allen, Raymond, N.H.; Mrs. De Varney, Shirley, Mass.; and another daughter in the West, be- sides a host of grand-children and other relatives. The funeral was held at the Roman Catholic Church, East- man, to-day (Wednesday).

TAKES OVER EXPRESS BUSINESS ON Q. C. R.

The Dominion Express Company has taken over the express business on the Quebec Central Railway, formerly looked after by the American Express Company. This is the first change as a result of the purchase of the Q.C.R. by the C.P.R.

The office of the American Express Company in the Skinner block, Dufferin avenue, has been closed down. A new office has been opened at the Union Station.

PAVING AND DOUBLE-TRACKING WELLINGTON STREET.

A general meeting of the Board of Trade will be held next week for the purpose of discussing the double-tracking and paving of Wellington street. An effort will be made to have as many business men attend as possible in order that the matter may be thoroughly discussed.

The date of the meeting has not yet been decided upon, but will be announced later.

THE VOTERS' LISTS.

Although several attempts have been made to satisfactorily settle the question of revising the voters' lists, little progress has yet been made.

On Saturday afternoon a meeting of representatives from both parties was held, but no settlement was reached. It was finally decided that each party would submit a list of the names they thought entitled to be placed on the lists and the matter would be taken up at a later meeting.

NEW INDUSTRIAL PROSPECTS.

The Council of the Board of Trade met last evening to consider a number of matters. A Boston manufacturer was present to discuss the question of establishing a branch industry in Sherbrooke. His company is not quite ready to go ahead with the work, but expect to in a few months. The Sherbrooke is looked upon by the board of directors as a most favorable location.

Several other industrial propositions of importance are pending.

B. C. S. GYMNASIUM COMPETITION.

The annual gymnastic competition of Bishop's College School will take place on Thursday morning, the 28th of March at 10.30 a.m. and be continued on Saturday morning, the 30th, at the same hour.

The function will take place in the school gymnasium and will be one of the most interesting of the many athletic events of the year. Anybody interested in gymnastics or wishing to see the contest is cordially invited to attend.

FINANCES IN GOOD SHAPE.

A special meeting of the Board of Directors of the Y.M.C.A. was held last night for the purpose of discussing the financial standing of the institution. Never before in the history of the Association has the financial condition been as satisfactory as at the present time.

There are several collections to be made before the financial year closes, and steps were taken at last night's meeting to have these amounts collected.

VICTIM OF FATAL ACCIDENT.

A very sad funeral took place yesterday afternoon from the home of Mr. Frank Patton, Alexander street, to St. Peter's Church, when the mortal remains of the late Nathan Arbery, of Glen Iver, were taken to their last long home.

Rev. Canon Shreve said prayers at the house and conducted the service at the church, assisted by the Rev. Vere E. Hobart, and the choir sang the hymns, "Nearer, My God, to Thee," and "Jesus, Lover of My Soul," so appropriate to the burial office.

The body was borne from the church to the music of the funeral march, and the long procession, in which were many relatives and friends from Glen Iver, Rock Forest and Sherbrooke, proceeded to Elmwood Cemetery, where the interment was made, the service at the grave being read by the Rev. Mr. Hobart. The principal mourners were Messrs. Arthur Arbery, father of deceased; Nathan Gawtry, grandfather; Arthur Arbery, jr., and William Arbery, brother; Miss Esmeralda Arbery, sister; James and John Gawtry, uncles.

The bearers, all personal friends of him who had been so suddenly taken from life, were Frank Patton, James McManus, James Delaney, George McMillan, John McMillan and William Beckwith.

The beautiful flowers on the casket were the gifts of sorrowing friends.

The death of the late Nathan Arbery, who was only 26 years of age, was a terrible blow to his family, occurring, as it did, with shocking suddenness. Last fall the young man went to Three Rivers and secured a place with the Union Bag & Paper Company. While attempting to adjust a belt operating a machine which he was attending, he slipped and was drawn in, several revolutions being made before the machinery could be stopped and the unfortunate man released. His injuries were so severe that from the first there was no hope of recovery, but he lingered for several days, and passed away with his family around him.

The late Nathan Arbery was well-known and had many friends in Glen Iver, his home, and throughout the Township of Orford.

W. A. OF ST. PETER'S CHURCH.

The regular meeting of the W.A. of St. Peter's Church was held yesterday afternoon in the Parish Hall, Mrs. J. Mackinnon, acting president, presiding.

The monthly report was submitted by the treasurer, Miss Towse, the house-to-house collection amounting

preliminary arrangements for the building of the large addition to their plant. Rock, cement and other materials are being hauled to the spot where the building is to be erected, and as soon as the warm weather sets in the work of construction will be rushed ahead as quickly as possible.

to \$10.75, with a donation from Mrs. Morris of \$8.00.

Letters of appreciation of sympathy from Mrs. Edgell, Mrs. Worthington, and Mrs. C. G. Hobson were read, also a business letter from Miss Pope, Diocesan Secretary, Quebec, reminding the Sherbrooke W.A. that the annual meeting must be held on or before April 15th, and the financial report sent in before the 30th of that month.

It was moved by Mrs. Jones, seconded by Mrs. Rawson, that said meeting be called for the 9th of April, for the reading of reports and the election of officers.

A letter was read from Mrs. Robertson, corresponding secretary, Quebec Diocesan W.A., in regard to the Triennial Thank Offering Fund.

The president especially appealed to the members of the Auxiliary and showed very practically and simply, that if every member of the W.A. paid one cent a week it would produce a total of \$64,969, and by the payment of the infinitesimal sum of one cent a month, \$14,992 would be realized, the latter sum over and above the amount of the Thank Offering Fund of last year (\$12,000).

A pleasant feature of the meeting was the presentation by the president of the little silver W. A. crosses to Beatrice Coleman and Rose Cotton, for their three years' faithful service as collectors.

A short but interesting paper on the Donkshobos was read by Miss Twose, and Mrs. Bowen spoke of the gatherings for Mission Study, which have been held at her house, and extended a cordial invitation to any or all to join them.

FIFTEENTH COUNT.

The fifteenth count of the votes in the Library Voting Contest shows no change in the position of the leaders. Those sending in votes should be careful to see that they are properly marked. PROVISION MARKET.

MAPLE PRODUCTS SLOW. Montreal, March 27.—The demand for maple product is very slow and the market is dull with no change in prices to note.

PRICE OF HOGS INCREASE. Montreal, March 27.—A feature of the trade continues to be the strong upward tendency of prices for live hogs, they having scored a further advance to-day of 15c to 20c per 100 lbs., making a net rise since this day week of 50 to 75c, with prospects of them going still higher in the near future owing to the limited supplies coming forward.

The price of food is increasing. Poultry raising is one of the most profitable branches of agriculture, when you use a

up prices for dressed hogs 25c per 100 lbs., with sales of abattoir fresh-killed in a jobbing way at \$11.50 to \$11.75 per 100 lbs. There is also a stronger feeling in the market for hams and bacon and the indications are that prices will be advanced in the near future.

ACTIVE EGG TRADE. Montreal, March 27.—An active trade continues to be done, and as supplies coming forward are ample to fill requirements prices rule steady. We quote prices as follows: Canadian new laid, round lots, 25c to 26c. Canadian new laid, single cases, 90 to 27c.

HONEY MARKET QUIET. Montreal, March 27.—Business in honey continues quiet, the demand being only for small lots to fill actual wants at steady prices. We quote: Clover, white honey, 10 1/2 to 11 1/2. Dark grades, .07 to .08. White, extracted, .08 to .10. Wheat, .07 1/2 to .08.

POTATOES IN DEMAND. Montreal, March 27.—A steady feeling prevails in the market for potatoes under a good demand. Green Mountains, in car lots, are selling at \$1.70 to \$1.75 per bag of 90 lbs.; English potatoes at \$1.55 to \$1.60, and other varieties at \$1.40 to \$1.45.

DAILY STOCK LETTER. (Furnished by F. B. McCurdy & Co.) New York Market. American stock in London irregular. No agreement has yet been reached in British coal strike. Copper sold at 15 1/2c, this is the highest price reached in nearly five years. Business outlook in Southwest improving.

CHEESE MARKET FIRM. Montreal, March 27.—A firm feeling prevails in the cheese market, but the volume of business doing is small and principally of a jobbing nature. The Liverpool public cable on Saturday quoted finest Canadian white and colored cheese 6d higher at 75s 6d; and to-day it comes 6d lower at 73s. We quote: First western at 15 1/2c; lower grades at 14 1/2c to 15c, and foddies at 14c to 14 1/2c.

THE NEW DAIRY STATIONS. The contract has been let for the erection of the new building for the dairy station at Finch, Ont. It is to be a combined cheese factory and creamery, with provision for experimental work. The cheese factory will be equipped with a cool curing room, facilities for pasteurizing, and a buttermilk department will be equipped for winter work, with all the latest improvements.

EASTERN TOWNSHIPS IMMIGRATION.

Comment of a Quebec Newspaper. THIS TERRITORY JUSTIFIED IN DEMAND FOR GREATER PUBLICITY ABROAD. The Quebec Chronicle has the following: In the development of one of the richest and most important districts of the Province of Quebec, as well as in the upbuilding of the old province of Canada, and even of the Dominion itself in the early days of Confederation, the men of the Eastern Townships played an important part. Both directly and indirectly they contributed largely to the public treasury, while to the public life of the country they furnished some of its most notable figures.

Like other sections of older Canada, the people of the Eastern Townships have borne their full share of the burdens imposed for the development, the railways, the settlement and the upbuilding of the great west. Of communication such as that furnished by the construction of the main line of the Canadian Pacific Railway were essential to the welding together of the distant parts of the Dominion and to the proper state of the Great West on its road of prosperity and wealth. Like the rest of us the people of the Eastern Townships bore this burden without complaint. But it is now pointed out with some show of reason that public moneys are being employed in discriminating against the province of Quebec in general and the Eastern Townships in particular. What the Eastern Townships particularly complain of now is that while their territory is better suited for the settlement of well-to-do English farmers than the prairie lands of the north-west, they are almost totally ignored in the advertising of Canada that has been done by the Departments at Ottawa for some years past, as well as by the leading Canadian railways, which is almost entirely in the interests of immigration into Western Canada.

The people of the Eastern Townships are undoubtedly right. Their section of the country is not known at all, as it deserves to be in the British Isles. While it is perfectly true that brilliant opportunities are offered in the North-west to Englishmen of capital who can afford to embark on a large scale in ranching or in wheat farming by modern machinery, and on a wholesale plan on the fertile prairies, the practical farmer of average means, who desires a home with most of the comforts enjoyed by him in the old land, and all the advantages of a refined civilization, will infinitely prefer the man openings offerings there for the acquisition at a reasonable price of a ready-made home and farm, where he will miss none of the comforts or the luxuries to which he was accustomed on the other side of the ocean, where he will find the conditions of mixed farming to be very similar to those to which he has been accustomed in the British Isles, and where he may bring up and educate his family to reasonable prospects of attaining a much higher rank in the social scale and a much more comfortable position in life than would have been possible for them in their old home. It is only fair, both to the province of Quebec in general, and to the Eastern Townships in particular, as well as to prospective British emigrants themselves, that these latter should be placed in possession of the above facts regarding the advantages of the Eastern Townships, as well as of the Western allurements that are responsible for carrying past our doors to the prairie and Pacific provinces, of many whom it is feared go farther than our province only to fare worse than those who remain.

There is not, and there has no right to be, any jealousy on the part of Quebec, of the progress and prosperity of the western provinces; but in our friendly rivalry in the paths of development and progress we have a right to look for that fair play in the expenditure of public funds for advertising and immigration work, which has been denied us under the late administration. We are proud of the achievements and the prosperity of the Canadian West, and hope for their continuance. But we are at least equally anxious for

the progress of our own province; and for this reason we wish every success to our Eastern Townships friends in their crusade for a proper recognition of their district in the federal advertising in the British Isles, and for a generous system of publicity in general, with a view to making their natural and other advantages known abroad, and to the attraction of population, capital and industry. Quebec would profit largely by the prosperity of the splendid country to the south of the St. Lawrence, included within the limits of its own province.

THE DOMINION DAIRYING SERVICE. New Dairy Stations will be Established for Testing Purposes.

NEW CREAMERY AT BROME WILL BE EQUIPPED WITH LATEST APPARATUS. The cow testing movement will be considerably extended during 1912, according to a bulletin issued by the Department of Agriculture. There is a marked increase in the number of requests for assistance in the organization of associations, and for the blank forms which are supplied to every applicant. Seven new dairy record centres have been started in Eastern Canada, and a supervisor has been appointed for New Brunswick, leaving Mr. Harvey Mitchell free to devote his whole time to Nova Scotia and Prince Edward Island. The dairying industry is showing signs of new life in the Maritime Provinces, especially in Nova Scotia, where the marked success of the Scotsburn Creamery has given a decided impetus to the creamery industry. The Scotsburn Creamery was operated and brought to a successful stage by the Dominion Dairying Service. It is now operated by the shareholders.

A Cow Testing Association, somewhat on the lines of the Danish system, is being started in British Columbia, where the department has a Danish expert employed.

HOME RULE FOR SCOTLAND. BILL IN PARLIAMENT ASKS THAT SCOTCH PARLIAMENT BE FORMED. London, March 27.—Home Rule for Scotland is the object of a bill introduced yesterday by Dr. Chapple. The object of the bill, he stated, would be the establishment of a Scotch Parliament to deal with matters exclusively relating to Scotland, thus relieving the Imperial Parliament of much of the business. The bill proposes to vest executive power in the Crown, administration being carried on by the committee of the Scotch Privy Council, responsible to the Scotch Parliament. The power is to be given to the Scotch Parliament to impose taxes, other than Customs and Excise, and arrangements are made for the adjustment of financial relations between the Scotch Parliament and the Imperial Parliament. The supreme power and control of the Imperial Parliament is expressly reserved.

A TRACK LAYING RECORD. (From the Scientific American.) It is to the American engineer and contractor that the world is indebted for its first lessons in rapid construction of railroads and particularly in rapid track laying. The lesson as taught on our western prairies has led to systematic methods of railroad construction, particularly with a view to time and labor saving. In other countries where extensive lines are being built, thus, we notice that recently a record was made of 61.3 miles of main track and 1,200 feet of siding laid with rails in one day. The work was done under British engineers on the Baro Kana Railway in Northern Nigeria.

A LANGUAGE OF 300 WORDS. In the more inaccessible parts of the Sierra Madre Mountains, in northern Mexico, live a curious people called the Tarahumaras. They dwell in caves, and also in small villages, about 8,000 feet above the sea level. The Tarahumaras are small in body, but possessed of much endurance. Their only food is maize, and they manufacture a drink which retains from the same cereal. Their language is limited to about 300 words, and they cannot count beyond ten. BIG POTATOE CROP IN IRELAND. The potatoe crop in Ireland far 1911 is estimated at 3,694,856 long tons, or 137,941,290 bushels, an increase of 30,730,336 bushels over the previous year. The acreage of the crop was 591,359, as against 592,985 in 1910. The largest results were obtained in the north and west of Ireland, where the ordinary yield was about 280 bushels to the acre. The average for the whole of Ireland, for the ten-year period 1901 to 1910, was 174.46 bushels, so that the yield for 1911 was more than 30 per cent. above the normal crop. (Consul G. E. AID TO OWNERS OF THOROUGHBRED HORSES. POLICY INITIATED BY DEPARTMENT OF AGRICULTURE IS MEETING WITH APPROVAL.

The policy initiated in 1911 by the Department of Agriculture, Ottawa, with reference to the granting of aid, under certain conditions, to the owners of thoroughbred stallions is generally meeting with approval and is accomplishing, in part at least, the objects sought when the policy was undertaken. Amongst other things, owing to the rigid conditions imposed, it is encouraging those maintaining really high-class horses and is serving to organize the system of breeding followed in the different communities where thoroughbred stallions are located. The stimulus given in this manner to the use of thoroughbred blood will, it is believed, lead to an improvement in the light horse stock of the country. Thoroughbred stallions, if really good individuals, may be expected to exert such an influence in the development of Canadian horses for saddle and harness use as is greatly needed and greatly to be desired. The premium placed upon quality, soundness and prepotency, through the grants awarded by the department, is serving to check the use of unsuitable sires and is tending to conserve a type of thoroughbred, the utility of which is beyond question.

While, as perhaps should be stated, it is not the intention of the department to encourage the breeding of thoroughbred horses or to develop a type in light horses approximating closely to that of the thoroughbred, there is no question but that a strong infusion of thoroughbred blood in the light-legged mares of the country will be of inestimable value in improving the quality of the stock gotten from them by stallions of the various light harness breeds. Believing himself to be justified, therefore, in further prosecuting the policy begun last year, the Honorable Martin Burrell, Minister of Agriculture, has authorized the continuation of the grant, to be available for all thoroughbred stallions standing for public service during the season of 1912, which comply with the conditions imposed by the department.

The conditions under which assistance will be given are as follows: (1)—All horses on account of which aid is given by the department must be registered in the Thoroughbred Stud Book of the Canadian National Live Stock Records.

(2)—Horses shall be of good size, quality and conformation, and shall be free from all hereditary unsoundness; these conditions to be ensured by submission annually to a thorough, careful examination either at the hands of the Veterinary Director General or such other members of the veterinary staff of the department, or other persons as the minister may, from time to time, appoint for this purpose.

(3)—Horses so approved shall be duly and properly advertised to stand for service of mares under the ordinary and general conditions usual in the districts in which they are to be kept, at an annual service fee (except in the case of Thoroughbred mares) of not more than \$10.00 to insure, such service fee to become due and payable only when mares prove to be in foal.

Any person, firm or corporation owning or controlling any thoroughbred stallion in regard to which all the conditions above set forth, shall have been fully and properly fulfilled, shall, on production of satisfactory evidence thereof and of the fact that a reasonable number of mares, other than thoroughbred mares, have been served during the season, be entitled to receive at the close of each season the sum of \$250 from the funds of the Live Stock Branch. In the event of a horse dying or becoming incapacitated for service during the season, an approved substitute is to be immediately placed in the same district, the minister may, after due consideration of the circumstances, authorize the payment of the subsidy above mentioned.

The necessary forms will be furnished on application to the Veterinary Director General and Live Stock Commissioner, Department of Agriculture, Ottawa.

UTILIZING ONTARIO'S PEAT BOGS. It is announced that the Mines Department of the Canadian Government that the associated manufacturers at Brantford, Ont., have become so convinced that the air-dried peat method employed by the mines branch can be made a commercial success that they have contracted with the Government to continue this work at Alfred, Ont., and will spend over \$50,000 of private capital in trying to improve peat machines. The machine to be used will have a capacity of 60 to 80 tons per day, as compared with the 30 tons the Government turned out.

The Government experimental plant at Alfred exhibited samples of machinery and of peat ready for market, at the Ottawa fair. A thousand tons of peat were made up, which was sold at \$3.35 a ton. The orders came with such a rush that the supply was soon exhausted. The peat was used in parlor grates, in kitchen ranges and in furnaces. It burns to a fine ash, there being practically no residue, and is much cheaper than coal. (From Consul Harry A. Conant, Windsor.)

HEART DISEASE CURED

Kingston Girl Saved by "Fruit-a-lives"

Heart Weakness and Heart Irritation are the common outgrowth of indigestion. Gas is formed in the stomach and this accumulation of gas bulges out the walls of the stomach and presses against the heart. Palpitation, pain over the heart, and sometimes a feeling of smothering and dizziness, all are caused by the stomach and not because of any organic heart disease.

"Fruit-a-lives" will always cure this weak, irritated condition of the heart by curing the stomach.

OF CLERGY ST., KINGSTON, ONT.

"I suffered for some years with a dangerous form of Heart Trouble. My heart beat violently, and I had pain over the heart and down the arms. I also suffered with Constipation and Indigestion. I was treated by physicians and took many remedies, but nothing did me any good. Then I began taking "Fruit-a-lives", and this medicine completely cured me of all the heart trouble, constipation and indigestion, and gave me back my health."

OLD LADY ALMOST CRAZY WITH ECZEMA

A Remarkable and Convincing Statement of the Success of Cuticura Soap and Ointment in the Treatment of the Pain, Itching and Burning of Eczema

"I, the undersigned, cannot give enough praise to the Cuticura Remedies. I had been doctoring for at least a year for eczema on my foot. I had tried doctor after doctor all to no avail. When a young girl I sprained my ankle three different times, paying little or no attention to it, when five years ago a small spot showed upon my left ankle. I was worried and sent for a doctor. He said it was eczema. He drew a small bone from the ankle about the size of a match and about an inch long. The small bone grew to about the size of an apple, and the eczema spread to the leg. The doctor never could heal the hole in the ankle. The whole foot ran water all the time.

"My husband and my sons were up night and day wheeling in the room to and fro in the hope of giving me some relief. I would sit for hours at a time in front of the fireplace hoping for daylight. The pain was so intense I was almost crazy. In fact, I would lose my reason for hours at a time. One day a friend of mine dropped in to see me. No more had she glanced at my foot than she exclaimed, "Mrs. Fitzgerald, why in the world don't you try the Cuticura Remedies?" Being disgusted with the doctor and their medicine, and not being able to sleep at all, I decided to give the Cuticura Soap and Ointment a trial.

"After using them three days the night I slept as sound as a silver dollar for eight long hours. I awoke in the morning with but very little pain in my foot. I was in heaven. After using the Cuticura Remedies for three months I was perfectly restored to health. This is the Cuticura Soap and Ointment. I will be sixty-four years of age my next birthday, hale and hearty as ever. Send Mrs. J. H. Fitzgerald, 2224 Hebert St., St. Louis, Mo., Mar. 7, '11.

QUEBEC LEADS OTHER PROVINCES IN PULPWOOD INDUSTRY.

Messrs. H. R. MacMillan, B.S.A., M.F., Bruce Robertson and W. G. H. Boyd have just issued for the Department of the Interior of Canada a pamphlet on the forest products of Canada for 1910. It is particularly interesting to Quebec in regard to the pulpwood trade. The report says: Quebec is the premier pulpwood province of Canada because of its extensive spruce and balsam fir forests suitable for pulpwood, abundant and cheap water power and plentiful supply of labor. The twenty-five mills in Quebec reported the consumption of 57 per cent. of the total for Canada, or 22,820 cords more than in 1909. Ontario likewise increased the amount consumed in its fifteen pulp mills by 23,200 cords, and used over one-third of the total consumption. The two provinces just named furnished over 92 per cent. of the total quantity of pulp. Nova Scotia consumed nearly 20 per cent. more than last year, while New Brunswick used barely one-fifth as much as in 1909. Thus Nova Scotia surpasses New Brunswick as a pulpwood province. New Brunswick in 1909 contributed 14.2 per cent. of the total; this year it was only 2.2 per cent.; this resulted mainly from the closing of one large plant. The province of British Columbia is still experimenting in pulpwood manufacture, and the negligible amount used in this province is for test purposes only.

Quebec is the one province in which the price of pulpwood was less in 1910 than in 1909, the price falling off 35 cents per cord. The increase in the price of pulpwood throughout Canada is largely due to Ontario, in which province pulpwood was worth \$7.02 per cord, or \$1.30 more than during the previous year. Pulpwood was also more expensive this year in Nova Scotia and New Brunswick. Pulpwood from Nova Scotia, at \$4.59 per cord was cheaper than in any other province.

In Quebec seven-tenths of the wood used was spruce, balsam fir made up 28 per cent., and the remainder consisted of small quantities of hemlock and poplar. Both Quebec and Nova Scotia cut the four species used for pulpwood in Canada. No hemlock was reported from Ontario, in which province 90 per cent. of the consumption was spruce and the remainder was balsam fir. Spruce made up four-fifths of the consumption in Nova Scotia, balsam being used for practically all the balance. New Brunswick used spruce only.

Nearly four-fifths, namely, 78 per cent. of the pulpwood manufactured in Canada in 1910 was manufactured by the mechanical process; the sulphite process produced one-fifth,

and the remainder (2 per cent.) was manufactured by the soda process. Quebec made 63 per cent. of the total mechanical pulp in Canada—more than twice as much as did Ontario. Of sulphite pulp, Ontario produced the most, although Quebec was a close second. The latter province manufactured over three-quarters of the pulp made by the soda process.

Spruce, as in former years, was the chief wood used in each process. Over two-thirds (68.8 per cent.) was used for mechanical pulp; over one-quarter (28.7 per cent.) was made into sulphite pulp, and the remaining 2.5 per cent. was manufactured by the soda process.

The provincial laws affecting the export of pulpwood within the exporting provinces have changed considerably in 1910. In 1909 pulpwood from private lands in Ontario and New Brunswick could be shipped to points outside of Canada. In 1910 the Province of Quebec issued more restrictive regulations, the effect of which was to permit exportation of unmanufactured wood cut only on private lands within the province, and in 1911 New Brunswick passed legislation to the same effect. These regulations, however, did not affect the 1910 export trade, as they came into force later. Authoritative information supplied by the Department of Customs leads to the statement that the total pulpwood export was cut from the various provinces in the following amounts and values: 779,000 cords, worth \$5,090,000, from the timber limits of Quebec; 90,000 cords worth \$647,000, from New Brunswick, and 74,000 cords, worth \$473,000, from Ontario.

It is interesting to note to what extent provincial industry would have been increased if the pulpwood exported to the United States had been converted into woodpulp on the Canadian soil.

The 779,000 cords exported from Quebec would have supplied material for a year to fifty-six pulp mills of the average size operating in Quebec. In Ontario five mills of the average size could have been kept running with the pulp logs exported from this province. The 90,000 cords shipped from the ports of New Brunswick would have produced the most startling results, if the amount had been manufactured into pulp within that province. The amount exported was sufficient to supply with wood twenty-four mills of the average size, with the result that five times the actual number of mills operating would have been far-seeing enough to manufacture their own raw products.

reason. The Canadian Bank of Commerce, marvellous institution that it is, would surely have more business acumen and foresight than to pay a fabulous price for an institution doing business in a section which is not prosperous. If the Canadian Bank of Commerce did not know full well that by gaining an entrance into the Eastern Townships they would reap adequate financial returns they certainly would never have bought out the Eastern Townships Bank. The rapidly increasing volume of business being done by the Eastern Townships Bank showed conclusively that the territory in which they operated was a prosperous one, and that it would be to the advantage of the Canadian Bank of Commerce to gain a foothold in it.

As further evidence that this section of the province is enjoying prosperity take the fact that other banks are opening branches here. The Quebec Bank recently opened an office in Sherbrooke, and during the past week has arranged to open a branch at Rock Island. It has it that the Bank of Montreal will soon open a branch in the same town.

In Sherbrooke the Hochelaga Bank is contemplating building in the near future. This summer will see the Bank of Montreal start work on their proposed new block on Wellington St.

Where great financial institutions flourish there is always prosperity.

NEW RAILWAYS PROPOSED.

To find another indication of the prosperity of the Eastern Townships consider the important railway projects under consideration. Take first the action of the Canadian Pacific Railway in purchasing the Quebec Central. Has it been the policy of this great road to buy up lines running through "dead" sections? Emphatically no. The C.P.R. realized that this railroad operated in the world's greatest asbestos district. They purchased the road because they considered it a good proposition.

CANADA OPPOSES CHICAGO PLAN.

Large Delegation From Dominion Appear Before Washington Officials.

OBJECT TO POWER BEING GIVEN TO INCREASE FLOW THROUGH CHICAGO DRAINAGE CANAL.

Washington, D.C., March 27.—(Special)—The Dominion of Canada, as represented by delegates from the Provincial Governments of Ontario and Quebec and the commercial, manufacturing and marine organizations of many of the chief cities, appeared in battle array before Secretary of War Stimson to-day to oppose the plan to increase the flow of water through the Chicago Drainage Canal. The official and commercial delegations were reinforced by eminent Canadian counsel.

At the outset of the hearing it became apparent that Canada intends to make a vigorous fight for what she considers her rights. The trouble is all over an application of the Drainage Commission of the district of Chicago for an increase in the amount of water that they shall be allowed to take from Lake Michigan for drainage purposes. At present the amount is 4,000 cubic feet per second. They want this increased to 10,000 cubic feet and the reason alleged is for the purpose of increasing the drainage system. In behalf of the proposal it is argued that the project affects no less than 2,500,000 people included in the drainage district and that it is absolutely necessary to their health and safety to increase the drainage flow, at least until some other satisfactory means is found for disposing of the sewage.

The Canadian objections, which are shared by Michigan and other States bordering on the Great Lakes, are based on the belief that the lowering of the lake levels would seriously affect the shipping interests and sanitation of many cities.

The treaty between the United States and Canada permits the water of the lakes to be used for drainage systems, but it is alleged that although the application is being made under this guise, Chicago's real purpose is to get enough water for power development.

THE EXODUS FROM SPAIN.

The current driving home families to abandon their homes in Spain and establish themselves in South America, particularly in Chile, Argentina and Brazil, seems to have more force than ever this year. The exodus is constant, amounting to a veritable flight and affecting all parts of the country.

Eight thousand Spaniards have landed in Buenos Ayres in a fortnight; immigrants flock incessantly to Brazil, Algeria and Oceania. Thousands embark in the Galician ports, where often hundreds of passengers have to be refused by the steamships and kept waiting for want of accommodation.

Whole villages, with the mayor and municipal council at their heads, abandon their native soil, taking with them their aged relatives and their children, so that the country is deserted in many places. The case of Vera-de-Moncayo is typical.

In less than four years over 300 families have left for South America and about twenty inhabitants are leaving each month at the present time. In the village, once gay and full of animation, only a few aged people are to be seen, who have been unable to make up their minds to leave their native country. The streets, the public square, the school are deserted and the last inhabitants of any village await impatiently their turn to leave a land which can no longer support them.

Other places tell the same story. At Pastiz a number of families are leaving for Chile. The steamer Matias Bayo has just touched at Malaga with 300 families on board from Almeria and Grenada. The Gibraltar 200 more families await this boat for Brazil and a hundred are leaving for Argentina.

The public authorities are awake to the seriousness of this movement, which is robbing Spain of 250,000 of its best inhabitants every year. Commissioners have been appointed to study the causes and find a remedy. One suggestion is to turn the stream of immigration into the interior of Spain, where large tracts of land are idle for want of cultivation.

EXPECTED DEATH FROM DAY TO DAY

Another Case where Life was Saved and Health Restored by Nerviline.

We have all read and heard of the agonies of sciatica, but only those who have been tortured by this dread malady can fully appreciate what it must mean to be cured after years of suffering.

It is because he feels it his solemn duty to tell to the world his faith in Nerviline that Victor P. Hires makes the following declaration: "For three years I was in the Royal Mail service, and in all kinds of weather had to meet the night trains. Dampness, cold and exposure brought on sciatica that affected my left side. Sometimes an attack would come on that made me powerless to work. I was so nearly a complete cripple that I had to give up my job. I was in despair, completely cast down, because the money I had spent on trying to get well was wasted. I was speaking to my chemist one day and he recommended 'Nerviline.' I had this good ointment rubbed on several times a day and got relief. I continued this treatment four months and was cured. I have used all kinds of liniments, and can truthfully say that Nerviline is far stronger, more penetrating and infinitely better than anything else for relieving pain. I urge everyone with lumbago, neuralgia, rheumatism or sciatica to use Nerviline. I know it will cure them."

BRITISH COLUMBIA ELECTIONS TO-MORROW.

Campaign Has Been Lacking in Spirit as Liberals Have no Chance of Victory.

SOCIALISTS ARE INCREASING IN STRENGTH IN PROVINCE AND HAVE COMPLETE TICKET IN FIELD.

Vancouver, B.C., March 27.—(Special)—The electors throughout British Columbia will to-morrow express their political preferences and on their verdict depends the fate of the Conservative Government, which, under the leadership of Premier McBride has been in office since November, 1909. The campaign has been notably lacking in spirit, owing to the prevailing belief that the Liberal opposition has absolutely no chance of victory.

Railway extensions and a policy of exclusion of Orientals, which Premier McBride recently declared himself to favor, form the chief planks of the platform on which he expects to be returned to power. The single tax theory figures prominently in the Liberal platform. Among its planks are those declaring for the abolition of the poll tax, exemption of improvement on all lands paying taxes to the government, raising of exemption of incomes to \$2,000, woman's franchise, workmen's industrial insurance and complete prohibition of Orientals.

The Socialists, who have been steadily increasing their strength in many parts of the Province, hope to return several of their representatives to the Legislature. In Vancouver, where the Socialists polled sixteen hundred votes in the last election, they have placed a complete ticket in the field.

WILL LEAVE TAX ON DOGS.

POTTON TOWNSHIP COUNCIL WILL DEAL WITH QUESTION AT NEXT MEETING.

Highwater, March 27.—(Special)—The Township Council of Potton, at its next meeting propose levying a dog tax and a poll tax.

The Council will deal with three petitions for liquor licenses in the town.

If the law is strictly enforced regarding the dog tax there will no doubt be a reaction of the sheep-raising industry, a branch of live stock raising which is being neglected, largely due to their greatest enemy, the cur dog. No better kind of stock may be reared on the farm than sheep, both as a money maker and weed destroyer.

WEST INDIAN RECIPROcity.

Important and Far-Reaching Conference to be Held at Ottawa.

OBJECT IS TO OBTAIN FREER COMMERCIAL INTERCOURSE WITH DOMINION AND INDIES.

Ottawa, Ont., March 27.—Important and far-reaching results, affecting the commercial and manufacturing interests not only of Canada but of the United States as well, are expected to follow the conference which is to begin to-morrow between representatives of the Canadian and West Indian Governments, looking toward freer commercial intercourse between Canada and the British West Indies. It is the belief here that a small preference given to the West Indies by Canada over the United States would result in a few years in diverting to this country a large part of the American export trade with the islands.

The West Indian colonies represented in the conference are British Guiana and the islands of Trinidad, St. Lucia, St. Vincent, Antigua and Montserrat, Jamaica, the largest and most important of the British possessions in the West Indies, declined to participate in the negotiations, owing, it is said, to fear of impeding her extensive commercial relations with the United States.

GAS, DYSPEPSIA AND INDIGESTION GOES

Makes your Disordered Stomach Feel Fine in Five Minutes

You can eat anything your stomach craves without fear of Indigestion or Dyspepsia, or that your food will ferment or sour on your stomach, if you will take a little Diapiesin occasionally.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in stomach), Bloating, Flatulency, Water Brash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapiesin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Pape's Diapiesin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong Stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and Gas that is in your stomach is going to be carried away without the use of laxatives or any other assistance.

Should you at this moment be suffering from Indigestion or any stomach disorder, you can surely get relief within five minutes.

A HARMLESS WAY TO DARKEN THE HAIR

Simple Remedy Will Bring Back The Natural Color and Beauty

GET A 50 CENT BOTTLE AND STOP FALLING HAIR, ITCHING SCALP AND DANDRUFF.

Who does not know the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Inquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty-cent bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

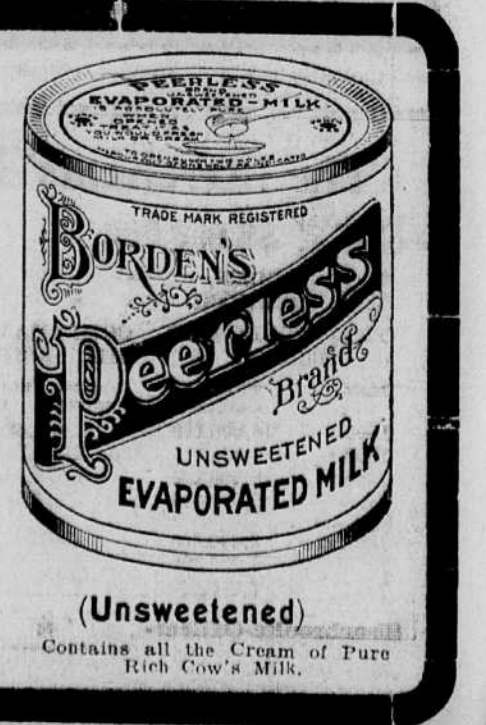

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

General Sgial, federal commander, is reported to have committed suicide. Both General Blamquet and Teliez are reported wounded; other officers were killed and fifty officers taken prisoners to Chihuahua, together with many privates. Orozco, with 164 carloads of rebel soldiers, is reported moving toward Torreon. All federal troops are said to have already retreated to that point.

TO AN UNDULY-AGITATED PUBLIC. To beat or not to beat; that is the question: Whether 'tis nobler for the boy, to suffer the slings and straps of well-derided flogging; Or to take arms against a staff of teachers, And by opposition grieve them?—To weep,—to howl!—No more,—and, by a weep, to say he ends The handaxe and the thousand natural shocks His flesh is heir to,—'tis a consummation Devoutly to be wished. To whip,—to weep,—To weep! Perchance to howl,—ay, there's the strap; For from that strap of might what weals may come When we have shuffled off our winter mitts Must give us pause. There's the respect That begs do owe their school's superiors: For who would bear the whips and straps of school, The teacher's cuffs, the other fellow's scoffs, The pangs of bruised hand, the back's quick smart, The laugh of chum's delight, the spurns That little girls of the unworthy take, When he himself might his quietus make With a bare confession and frank penitence. To grunt and sweat under a heavy strap! When by a little patience and right-doing HE MAY END 'EM. Telmah.

ROOSEVELT FOR RECIPROCITY.

Chairman of Taft League Calls Attention to His Declared Position.

UP TO TIME OF EX-PRESIDENT'S OWN CANDIDACY HE APPROVED OF CANADIAN POLICY.

New York, March 27.—Notwithstanding the fact that the reciprocity with Canada is dead, and that it is not a party measure, and is no longer an issue of American politics, Mr. Roosevelt is regarded in certain agricultural communities with favor because it is thought that he differed from the President on this all-important question.

It is a fact, nevertheless, that up to the time of Colonel Roosevelt's own candidacy he publicly approved of the President's Canadian policy.

General Edgar B. Champlin, chairman of the executive committee of the Taft League of Massachusetts and manager of the Taft campaign, makes it very plain that Mr. Roosevelt gave the reciprocity measure his unqualified approval. He calls attention to Colonel Roosevelt's speech at Grand Rapids, in which he is quoted as saying, "I feel that it should be one of the cardinal policies of this republic to establish the very closest relations of good will and friendship with the Dominion of Canada."

SCHOOL OF ART PLANNED. Toronto, Ont., March 27.—The establishment of a school of art under provincial control is provided for in a bill introduced by Hon. Dr. R. A. E. Music Taught Free!

HOME INSTRUCTION Special Offer to Readers of The "Record"

In order to advertise and introduce their home study music lessons in every locality the INTERNATIONAL INSTITUTE OF MUSIC OF New York will give free to our readers a complete course of instruction for either Piano, Organ, Violin, Mandolin, Guitar, Cornet, Banjo, 'Cello or Sight Singing. In return they simply ask that you recommend their Institute to your friends after you learn to play.

You may not know one note from another; yet, by their wonderfully simple and thorough method, you can soon learn to play. If you are an advanced player you will receive special instruction.

The lessons are sent weekly. They are so simple and easy that they are recommended to any person or little child who can read English. Photographs and drawings make everything plain. Under the Institute's free tuition offer you will be asked to pay only a very small amount (average 14 cents a week) to cover postage and the necessary sheet music.

No one should overlook this wonderful offer. Tell your friends about it—show this article to them.

The INTERNATIONAL INSTITUTE has successfully taught others and can successfully teach you, even if you know absolutely nothing whatever about music. The lessons make everything clear.

"DEADLY MENACE TO THIS COUNTRY"

Mormonism so Characterized by Toronto Preacher.

DECLARES THEY BELIEVE IN POLYGAMY, BUT DARE NOT PRACTICE IT AGAINST THE LAW.

Toronto, March 26.—"A deadly menace to this country if allowed to carry out their tenets," was the Rev. J. T. Reid's characterization of the Mormon situation in southern Alberta in an address on missionary work in Erskine Presbyterian Church Sunday. Their conception of a dual God—male and female—which he could not explain to a mixed audience, Mr. Reid considered one of the most dangerous doctrines extant. Thanks to the work of the Mounted Police, he did not think that the colony which now numbers 20,000, practised polygamy, but quoted one Mormon with whom he was acquainted who had said: "We most certainly believe in polygamy, but not to practice it against the law. We must work and get men into Parliament to hold the balance of power, and so legislate our beliefs into the laws of the land."

Dr. Reid then sketched the devious paths by which the Mormons were strengthening their position in Alberta. A very large percentage of their girls are being trained as teachers who are bound to spread the tenets of their creed into the minds of their juvenile non-Mormon charges, while in certain South Alberta districts every farm which falls in the market is snapped up by Mormons usually at a price slightly in excess of the market value. This present year, he said, one hundred thousand acres of Alberta land had been bought by the Mormon Church.

MORMONS MOBBED. Turbulent Scenes Follow Farewell Gathering to Girls.

(From a London, Eng., Paper.) Extraordinary scenes were witnessed at Nuneaton in connection with a farewell gathering of local girls who are being sent out to Utah by Mormon missionaries who have for some time been conducting an active campaign in Nuneaton and district. The meeting took place at the assembly rooms of the Gate Hotel where the Mormons have their headquarters. A number of people who had learned what was taking place worked up an opposition and went to the meeting, but were refused a hearing. They then held a meeting in the market-place, where a huge crowd gathered. A resolution was passed to the effect that the meeting was opposed to the Mor-

PRICE OF PROVISIONS ADVANCED ALL ROUND.

Immediate Increase Followed the Verdict in Packers' Case.

TEN CHICAGO PACKERS CHARGED WITH VIOLATING ANTI-TRUST LAW ACQUITTED.

Chicago, March 27.—After the announcement of the verdict in the packers' trial, provisions advanced all around. The rise was 15 cents for pork and bacon, and 7 1/2 to 10 cents for lard. The addition to the cost of packing house products was attributed on 'change to active covering by shorts and to sympathy with the bulge in the price of corn.

PACKERS NOT GUILTY.

Chicago, March 27.—Not guilty was the verdict which the jury returned yesterday in the trial of the ten Chicago packers accused by the Government of violating the criminal sections of the Sherman anti-trust act. The verdict was returned before United States Judge Carpenter, after the jury had deliberated over seven-teen hours.

15,000 OUT OF EMPLOYMENT

SIX MILLS CONSUMED 2,500,000 POUNDS OF COTTON WEEKLY AND PAID OUT \$136,500 IN WAGES.

Lowell, March 27.—The answer of the Lowell cotton manufacturers to the demand of the I.W.W. for a fifteen per cent. increase is a lockout. Six of the seven cotton corporations, using 2,500,000 pounds of cotton a week, closed their mills at noon yesterday and 15,000 people were out of employment. This represents a weekly pay roll of \$136,500.

WILL ENTER PROTEST AGAINST ELECTION.

CONSERVATIVES CLAIM TO HAVE EVIDENCE THAT WILL MEAN UNSEATING OF HON. G. GRAHAM.

Renfrew, March 27.—It is learned here from the most authoritative sources that Hon. Geo. P. Graham's election will be protested.

The Liberal-Conservative Association claims to have in its possession facts backed up by a number of affidavits that will warrant the unseating of Mr. Graham, and have decided upon this move.

The decision of the Association to enter a protest upon the grounds of corruption was made known to Mr. T. A. Low, ex-M.P., Saturday, and he immediately hastened to confer with a member of the Association, who is behind the movement to unseat Mr. Graham.

PREPARING FOR EUCHARISTIC CONGRESS.

CARDINAL BOURNE REPORTS FAVORABLY ON MALTA AS PLACE OF MEETING.

London, March 27.—Preliminary steps for the Eucharistic Congress at Malta next year have already been taken.

Cardinal Bourne, in returning from Rome, after visiting the Island, reported favorably on the proposal to hold the Congress at Malta.

A general committee has been formed under the presidency of the Archbishop of Malta and the vice-presidency of the Archbishop of Gozo.

Sub-committees are being formed to receive the delegates to the Congress, and to organize English and French sections.

Monsignor Ferris presides over the sub-committee which is organizing the English section.

SHUTDOWN DUE NEXT MONDAY.

No Settlement Reached at Cleveland Between Miners and Owners.

POSSIBILITY IS THAT MORE THAN 450,000 MEN WILL QUIT WORK MONDAY.

Cleveland March 27.—Differences between the coal miners and operators over the question of new wage agreements, involving the possibility that more than 450,000 miners will quit work next Monday, when their present wage scales expire, yesterday appeared to be no nearer a settlement. The conference of the miners and operators of the bituminous fields of western Pennsylvania, Ohio, Indiana and Illinois re-convened after adjournment since last Friday, but owing to the non-arrival of some of the delegates a recess was taken until today. The operators issued a statement through J. C. Kohlson of Terre Haute, Ind., their spokesman, saying the mine owners would make no offers other than to extend the present wage agreement for another two years.

The policy committee of the United Mine Workers of America is still here, waiting to recommend to the union what shall be done in both the anthracite and bituminous situations. This committee had decided to suspend any action until the outcome of the bituminous conference is known. John P. White, president of the union, said in case of a disagreement the policy committee could recommend only that the miners strike. The shutting down of the mines next Monday would follow automatically without any action by the union's executive heads, he said.

LAND SALES DEPARTMENT.

NEW BRANCH MAY BE FORMED BY THE QUEBEC GOVERNMENT.

Quebec, March 27.—It is probable that the successor to the late Mr. E. E. Tache, former Deputy Minister of Lands and Forests, will be chosen outside of the Crown Lands Department, and the name of Mr. Geoffrin, member for Vercheres, receives prominent mention in this connection.

The question of making a separate branch for the land sales is now under consideration, and it seems likely that this idea will be carried out and a deputy minister put in charge of the new branch.

SUTTON.

Dr. and Mrs. E. O. Dyer were called to New Orleans, leaving here on Tuesday, by the severe illness of Mr. Lloyd Keim, a brother of Mrs. Dyer. They will be away a week or ten days at least.

Mrs. Earl Drew, of Farnam's Corner, and Miss Belle Smith, of Richmond, Vt., were in town on Tuesday.

Mr. Wallace R. Young, of Albany, N.Y., is a guest at Mr. C. E. Morrison's for a few days.

Mr. Marcel Vien is off duty from the C.P.R. staff of foreman, being home on sick leave.

Mrs. Chas. Powers is not much better and is still confined to her bed.

Mr. Jos. Hancock, of the Pinnacle, spent Sunday a guest of his daughter, Mrs. C. A. Morrison.

Mr. and Mrs. C. W. Thibault spent Sunday at Highwater, guests at Mr. Jules Pinset's.

Mrs. C. E. Rousseau spent Sunday with friends at Highwater.

Mr. A. J. Garland shipped to Brompton Falls on Monday 24 maple press rollers for the Paper Company there. These rollers were eight feet long and round as nuts and run up to a diameter of 27 inches. Mr. Garland had much searching to do before he found the number and quality desired.

Mr. James Wilson, of Glen Sutton, was in town on Tuesday.

There has been a big rush for sugar equipments and the local tin shops here have been rushed to their fullest capacity.

Mr. Daniel Brown is one of the earliest sugar-makers, sending out several tins of prime syrup the past week.

COMMONS PASS RURAL MAIL BILL.

Experts Who are Familiar With Districts Will Lay Out Route.

POPULATION IN QUEBEC'S NEW TERRITORY IS GIVEN AS 1,262.

Ottawa, March 27.—Parliament occupied time yesterday in the consideration of several bills. The Hon. L. P. Pelletier saw his bill providing for the establishment of a comprehensive system of rural mail delivery go through. Parliament also voted to enlarge the annual subsidy to Prince Edward Island by \$100,000. The bills extending the boundaries of Quebec and Ontario were given their second reading and put through committee. The discussion on the rural mail delivery scheme was pivoted largely around the clause permitting the postmaster-general to engage local experts to lay out the routes. Opposition speakers claiming that this could be done by the regular post office inspectors. Hon. L. P. Pelletier insisted the bill was in the nature of an experiment and a permanent organization could be perfected after a year's trial. He intimated it was his intention to have registered mail delivered by rural mail carriers, but said it would not be possible to make the money order and postal note service a travelling one.

QUEBEC'S NEW TERRITORY.

On the bill coming up to add Ungava to Quebec the Premier stated that the present population of that territory was 1,262. Amongst these, eight were English, 663 Indians, two Scotch, 543 Esquimaux, and 46 half breed.

Hon. Mr. Pugsley proposed an amendment to protect the Maritime Provinces against loss of representation through the increase of Quebec territory.

Mr. Lemieux said the Government of Quebec would not accept the bill in its present form if the interpretation meant the Quebec of 1867.

Premier Borden said that with the statute confronting the House declaring the boundaries to be so and so the Government could not accept the result of the Pugsley amendment. He promised to consider the amendment, however, and to communicate with Premier Gouin. The bill passed its second reading through committee and now stands for third reading.

VERDICT WAS MANSLAUGHTER

J. BANVILLE SENTENCED TO NINETEEN MONTHS IMPRISONMENT AT RIMOUSKI.

Quebec, March 26.—Nineteen months' imprisonment was the sentence meted out to John Banville yesterday at Rimouski, for the killing of Dudley Causton, manager for Mark Hambois, last summer. The trial, which has been in progress at Rimouski for a couple of days, ended yesterday in a verdict of guilty of manslaughter. The shooting took place during a political demonstration, and Banville was firing off a revolver, when one of the bullets struck Causton, with fatal effect. Neither man had ever seen the other, and the shooting was more in the nature of an accident than of a crime. The incident happened on the last tour of Mark Hambois in America, and Causton had debated considerably with the party as to whether he should disembark at Rimouski or continue on to Quebec on the steamer. He finally decided upon the former course and met his death as a result.

ENGLISH PINS.

In an interesting history of pins just published under the title "Pins and Pinchons," one learns that there was actually no factory in England for the manufacture of pins until 1625. Up to that period supplies all came from abroad. But having established itself the industry has flourished and now the English pin is regarded as the best of the world produces. Another interesting fact gleaned from this book is that the fancy box into which we now put pins can boast of more ancient lineage than the pinchion.

BEAVERS' WORK.

The beavers not only cut down trees for the purpose of making dams, but also use the smaller upper branches as a storage supply of food for winter use. These branches, from two to four inches in diameter, are cut into lengths of two or three feet and then by wonderful engineering ability are carried beneath the water and into the beavers' houses, or the burrows, with which the tank of every beaver's dam is honeycombed. Here they are carefully stored. The green bark is the staple article of food throughout the winter.

The dams are of varying height and length, according to the particular location. I found a dam in Mesa County, Colorado, which was just six feet from bottom to top, and impounded a body of water six feet or more in depth and covering an area of several acres. This dam was perfect in construction. It was composed entirely of willow bushes, as no large timber grows in the vicinity.

SPORTING NEWS

GERALD WIGGETT, A GAME PLAYER.

Under the heading, "Wiggett, one of the pluckiest hockey players ever seen in this city," the Boston Herald makes the following reference to his collision with Heron in Saturday's game: "Gerald Wiggett's return to the B.A.A.-Intercolonial game on Saturday night after his injury was one of the pluckiest exhibitions of gameness ever seen in this city. It is safe to say that there was not a single person in the vast audience who held the slightest hope of Wiggett returning. He was in convulsions when he was removed from the ice, but as soon as he regained consciousness he insisted upon playing the game."

HOCKEY.

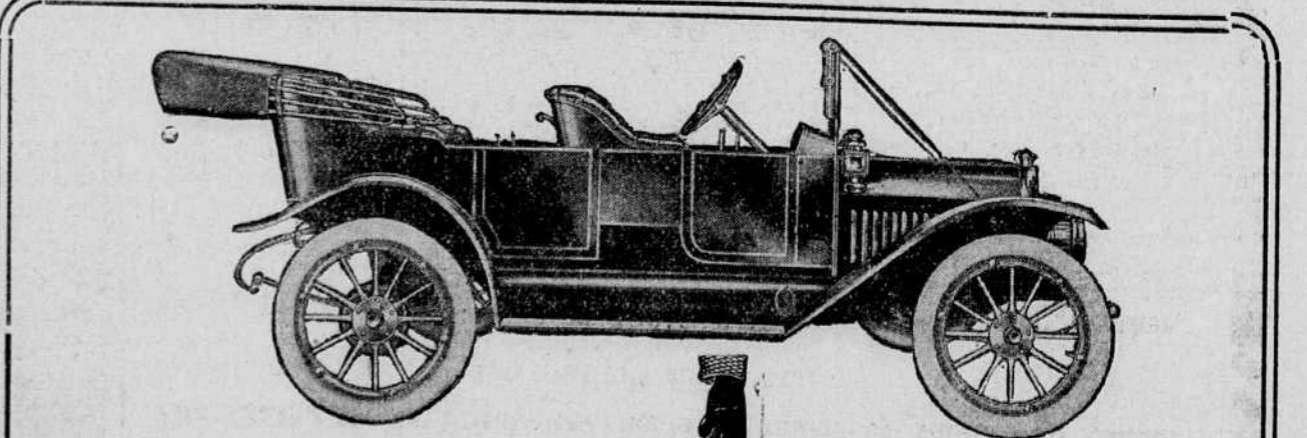

SHAMROCKS 8, CANADIENS 4.

An interesting game of hockey took place at the Minto Rink, Lennoxville, last night between the Shamrocks and the Canadiens, the former winning by a score of 8 to 4. The score at half time was 3 to 3. Bourque played a star game for the Canadiens and Baker and Saunders for the Shamrocks. The teams lined up as follows:

Shamrocks. Canadiens. Thornton goal..... Couture Baker point..... G. Roy Kenally cover Fortin L. Saunders rover..... Bourque P. Redmond centre Lafrancois P. Sorel wing Gingras W. Plamondon r. wing Langis Referee, C. Saunders.

JENCKES JUNIORS VS. WATERVILLE.

Jenckes Juniors and Waterville will cross sticks to-morrow night in probably what will be the last game of the local hockey season, at Minto Rink. Both teams will be at full strength and determined to finish the season with a clean-cut victory. A good game is assured.

Letter No. 2

Lennoxville, Que., Feb 17th, 1912.
G. A. LeBaron Automobile Sales Co., Sherbrooke, Que.
Gentlemen:—
The McLaughlin-Buick touring car, which I purchased from you in the spring of 1911, has been most satisfactory. I drove it seven thousand miles last summer over all kinds of roads, and was never delayed for anything but tire troubles.
My expenses were very light, and I found the car very economical of both oil and gasoline. I consider the Buick by far the best value of any automobile in the market, they are the most reliable.
Thanking you for the trouble you took in showing me how to run the car, I am,
Very truly yours,
E. C. PARKER.
