## WOODCRAFT IS NEW HOBBY OF BOYS BRIGADE

Numerous Requests That This Hobby be Included in Activities Has Been Made by Members

Woodcraft is to be an added activity of the First Westmount Company of the Boys Brigade following numerous requests for this hobby from the members, it was announced this week. Woodcraft groups will meet Tuesday evenings and an extensive program has been arranged.

Captain Richardson enrolled John Howey into the Company and presented him with a membership card at the regular meeting Friday evening. The Gilbert Noall was awarded his membership badge at the same time.

Lieut. Sutherland has been making rapid progress with the instruction of non-commissioned officers and will complete the full course enabling them to sit for their proficiency certificate in the spring. This class has been going since October and is becoming more efficient each week as more responsibility is being given the boys.

Lance Corporal Bill Dryden has been given the task of instructing new trumpeters and buglers who anticipate being admitted into the band. It is necessary to increase the band strength, especially the bugle and trumpet section, due to the recent drum addition. The First Company is looking forward to the Battalion competition when it will challenge the Brigade bands for a Battalion Mace.

Bible Class this week will continue the course commenced on the life of David, and Lance Corporal Harold Fairhead will take charge of the hymns while Warrant Officer Robert Beal will lead the singing. Corporal Robert Morrow is to read the lesson.

## CHANGES MADE IN BUS, CAR STOP SIGNS ON SHERBROOKE

In order to speed up service and provide the greatest convenience to the majority of residents, the Montreal Tramways Company is making a number of changes in the location, and a reduction in the number of bus and street car stop signs along Sherbrooke street in Westmount.

The street car stop on Sherbrooke at Prince Albert and the one at Sherbrooke and Kensington affecting trams travelling in both directions, have been abolished. The white pole at the east side of Redfern where east-bound cars formerly stopped has been removed to the west side of Redfern.

Signs indicating intersections where buses will take on and let off passengers are to be placed at a standard distance of 60 feet back from the crossings, where they step with the exception of Victoria avenue. The signs will show only that the crossing ahead is a bus stop and passengers should wait at the intersection for the bus and not at the sign. Traffic is forbidden to park from the bus sign to the crossing ahead.

When the changes are made west-bound buses will stop on Sherbrooke street from Greene to Claremont avenues as follows: Greene, Grove Park, Argyle, Metcalfe, Strathcona, Lansdowne, Grosvenor, Victoria — at the west side of the intersection, and Claremont.

East-bound: Claremont, Victoria — stopping slightly ahead of the crossing, Roslyn, Arlington, Mount Stephen, Metcalfe, Redfern, Clarke and Greene avenue.

All changes in the positions of the signs are being made under authorization of the Montreal Tramways Commission and only after careful study carried out over a lengthy period.

## GERMAN BOMBER SHOT DOWN IN FRANCE

British and French Air Forces on the Western Front, working in close co-operation, are carrying out a magnificent work. In this photograph the fuselage of a big German plane is seen being towed through the streets of a French town, a trophy which will afford much valuable information to the Allies.

## Westmount Firm Marks Fiftieth Anniversary

John Smithers, Shoe Merchant, Opened Store on Jan. 10, 1890 — Has Occupied Site on St. Catherine Street Over 48 Years — Has Many Memories of West End of Montreal Half-Century Ago

A firm that was in operation in Westmount when automobiles were still a thing of the future and horses were relied on almost entirely for transportation purposes celebrated its fiftieth anniversary yesterday and its proprietor, John Smithers, received countless congratulations from the many persons he has served during the past half-century as well as a formal letter of felicitations from the City Council.

The John Smithers Shoe Store has carried on business at its present location on St. Catherine street just west of Greene avenue for over forty-eight years. For the year and a half preceding that it was located around the corner on Greene avenue.

The store is the oldest firm doing business in Westmount today and probably the oldest even as far west as Westminster avenue.

Is Optimistic

At the conclusion of 50 years in business during which time he has weathered four depressions, Mr. Smithers looks to the future with optimism. When interviewed yesterday he said he was confident of good times ahead but advised business leaders to adopt a conservative attitude until things were more settled.

Although busy greeting friends and attending to customers Mr. Smithers was able yesterday to pause for a moment and recall briefly the Westmount he knew 50 years ago, then the village of Cote St. Antoine but which later that same year received its charter as the Town of Cote St. Antoine.

When he first set up business on January 10, 1890, the area extending west from the westerly terminus of a horse-drawn tram line at Atwater avenue, consisted mostly of scattered farms, with here and there the odd private dwelling or row of wooden houses. The main streets at that time, at the best little more than cart paths, were what is now known as St. Catherine street, Cote St. Antoine road and Greene avenue.

The row of houses extending east on St. Catherine from the Westmount Athletic Grounds which as the M.A.A.A. was a wooden structure, had then been erected. There were also a few brick dwellings which stand to this day.

An important business in those days was the operation of livery stables. Among others, there was one located on Greene avenue above Western. One, in particular, that did a fine business was situated at the rear of the garage

## CARS DAMAGED IN COLLISION

Fenders and mudguards on both vehicles were damaged when a car driven by Mrs. O. E. Armstrong, 25 Renfrew avenue, going north on Mount Pleasant was involved in a collision with one driven by R. C. Carsley, 552 Roslyn avenue, who was proceeding east on Montrose at the intersection of the two streets at 4 o'clock last Thursday afternoon.

According to the police report Mrs. Armstrong stated that she was unable to stop in time to avoid the collision. The left front bumper on her machine was damaged as was the rear mudguard on the car driven by Carsley.

## MACHINE-GUN TRAINING BASE TO BE ESTABLISHED AT ATHLETIC GROUNDS

Will be Under Command of Major D. Stuart Forbes of McGill University — J. A. DeLaLanne Adjutant — Three Rivers Regiment (Tank) Now Barracked At Grounds

Although no official announcement regarding the matter could be obtained from Military District No. 4 yesterday it is now fairly common knowledge in military circles that the Westmount Athletic Grounds, which has been used as a training base for the Royal Montreal Regiment, is shortly to be established as a machine-gun training centre.

The depot, it is believed, will be under the command of Major D. Stuart Forbes, of McGill University. J. A. DeLaLanne, president of the Westmount Rotary Club, has been given leave of absence from his duties there following his appointment as adjutant of the base.

It was learned unofficially this week that soldiers from machine-gun units in eastern sections of Canada will be given partial training there as replacements for the Canadian machine-gun units now serving overseas. They will form part of the First Division.

It was not definitely indicated yesterday when the grounds would actually be established for this purpose but original plans were that training would commence around the middle of next week.

It was also not disclosed whether the members of the R.M.R. who were not sent over with the First Division would be placed under the command of the newly-appointed officers or would remain separated.

At the present time the Three Rivers Regiment (Tank) C.A.S.F. is barracked in one of the huts constructed on the grounds for military purposes but expects to be transferred to Three Rivers once suitable accommodation for the unit is completed there.

Announcement of the plans for the training centres now explains why units of the 2nd Division, such as the 1st Battalion of the Black Watch (Royal Highland Regiment) of Canada did not occupy the Westmount premises after the departure of the R.M.R., but were moved elsewhere—in the case of the Black Watch, in Toronto.

Major D. Stuart Forbes, who, it is understood, will take command of the training centre, is at present athletics manager of McGill University, and a well known Montreal soldier and sportsman. He has been on the corps reserve of officers of the McGill Contingent, C.O.T.C., for several years, and served in the last war. It is understood he will be given the rank of lieutenant-colonel when he undertakes his new duties.

The Westmount training centre will supply a flow of officers and men to the machine-gun units of the C.A.S.F.

## TRUCK DAMAGED WHEN STRUCK WHILE PARKED

Vehicle Which Backed Into Truck Left Scene Immediately After Accident

A truck left parked opposite 4545 Sherbrooke street while its driver delivered a parcel was damaged when a second truck, the name of whose operator is not known, backed into it at 11 o'clock Friday morning.

The driver of the parked machine, William Lapointe, 5660 Waverly street, told police that when he returned from delivering the goods he noticed that his machine was damaged and was told by a woman that another truck had struck it.

The woman, he said, refused to give her name and did not get the license number of the vehicle, which left the spot immediately.

Westmount police drove around the area in a patrol car in an effort to locate the woman or the truck but were unsuccessful.

The truck was the property of Joy Dry Cleaners. Its left front mudguard was badly damaged.

## CAR AND TAXI IN COLLISION

MEMBERS OF BOARD NAMED

E. P. Flintoft, K.C., and A. Sydney Brunet, K.C., were elected by acclamation to the Westmount Protestant School Board when nominations closed at 2 p.m. on Monday, and they were the only persons nominated.

Had more than two nominations been received at headquarters of the Westmount Protestant School Commissioners in Argyle Junior High School between 12 noon and 2 p.m. on Monday elections would have been held one week hence.

The driver of the car told police that the accident occurred when the taxi, which he was about to pass, attempted to make a "U" turn without any warning from its chauffeur. Both machines were proceeding north on Clarke.

Mudguards on both vehicles were dented.

## Strong Appeal for Rights Of Women Made in Speech

"If there is one New Year's message I should like to pass on to the women of Canada it is, 'women be firm'; insist upon your rights. Persist in your efforts for the vote, and when you get it, use it as you have used your other privileges, and show to the world at large that your discretion and judgment are of infinite value to your country," declared Mrs. Harold Mills, president of the Westmount Women's Club in a radio address on Monday.

"Women, how is it, can you tell me, that we modern mothers, wives and sisters, are not considered equal to men in planning for the betterment of our country and the good of our families?" asked Mrs. Mills. "At heart we are staunch supporters of righteousness; and we, the masses, do not seek payment in dollars and cents for our social welfare work."

"If the pioneer women were worthy enough to shoulder both the responsibility and arms, why are we, without wider education and knowledge of world affairs, listed among the children, the imbeciles, and the illiterate? Our hearts beat as warmly for our Empire as did the courageous heart of Jeanne Mance. We, the great majority of the women of the Province of Quebec, are more keenly mindful of the value of our Christian heritage, than are the masses of the opposite sex."

"Why, oh why, cannot those parliamentarians in Quebec realize the tremendous wastage that goes on in this Province, when the voice of our women is silent, when it should resound throughout the land, with their longing to be of mutual benefit to both men and women, and to build up a Province equal to none."

The Westmount Examiner Published Every Thursday Serving the City of Westmount, Garden Suburb of Canada's Metropolis THE EXAMINER PUBLISHING COMPANY Head Office: 2191 Hampton Ave. Walnut 2772

WESTMOUNT, THURSDAY, JANUARY 11, 1940

SANE FINANCING Canada's forthcoming war loan can readily be expected to match the pattern of financial policy that will be universally recognized as sound, and one that reflects the benefits of experience from the last great war.

Recognizing the pitfalls of her experience in the last war, Canada, on this occasion, is facing the problem of war financing in forthright manner. Canada's financial machinery has enabled her to set a course at the outset of the new world war that would have been virtually impossible in 1914; it will enable the Canadian people to avoid many of the demoralizing consequences of war, and post-war readjustments, such as befell Canada and many other countries in the last great conflict.

This war is to be paid for, in so far as possible, as it is fought, rather than to hazard a repetition of inflationary price movements spiralling to an inevitable and expensive day of reckoning. For the past 20 years, Canada and other countries have been paying the price of inadequate machinery, lack of precedent and foresight in financing the last war. Canada now has a broad and comprehensive taxation system and the financial machinery required for exercising the control that is necessary to carry out a policy that will finance the heavy expenditures involved under wartime conditions without giving rise to unfortunate maladjustments and their inevitable aftermath.

In recent years, Canada has pursued a moderate policy of expansion in company with the United Kingdom, Sweden and certain other countries. In consequence of that policy, Canada was able to reverse the deflationary trend of the early depression years and to facilitate an expansion in national production and busi-

ness activity that has been more consistent and prolonged than in many other countries. She has also effected a general reconstruction of her debt through refunding loans at lower interest rates and has repatriated, during the last five years, over \$900 millions of Canadian debt held abroad. The net result has been to effect a substantial decrease in the cost of Government debt and to strengthen greatly Canada's credit position.

The new war loan, like probably all loans floated by Canada during this war, will be on a domestic basis. Canadians will provide the principal and receive the interest. The debt will be owed to ourselves in Canadian funds, and will, therefore, not give rise to the difficult exchange problems and real burdens to the country which are inherent in external borrowing. In borrowing within our country, the Government hopes to see some of the real savings of the people converted into war loan bonds. The latest available figures show a total of \$1,734,800,000 of savings accounts held by depositors in chartered banks, the highest figure in the history of the Canadian banking system. These deposits are held in over 4 million accounts, which probably means that one out of about every three people in Canada has a savings account. By converting real savings into war loan bonds, the individual can make a vital contribution to Canada's war effort, and at the same time secure for himself a safe and profitable investment.

This is a democratic war by a democratic country, and the war effort in every phase is organized and conducted on a democratic basis. This shows up clearly in the financial policy of the Government in aiming to prevent shifting of national wealth and income to particular groups or sections of the country, which would be an undesirable feature of other methods of financing the war. In announcing its taxation policy, the Government has pledged itself to the principle of equality of sacrifice on the basis of ability to pay. In its borrowing to supplement taxation, the Government is making every endeavour to follow out this democratic principle, and by a widespread appeal to give every citizen an opportunity to make a voluntary contribution to the success of the war effort by converting his savings into War Loan bonds.

The loan is open to popular public subscription. Clearly the call is strong, because the most emphatic demand is the moral obligation of every citizen to guard jealously the rights of freedom and shoulder his share of the bonds just as thousands of others are shouldering arms.

WESTMOUNT BAPTIST CHURCH On Sunday the sermons in Westmount Baptist Church will be of a most practical and challenging nature. At the morning service Rev. J. A. Johnston will speak of "The Religion That Does People Good." This address is based on Moses' invitation to Raguel. In the evening Mr. Johnston's sermon will carry the title "Men Thought Him a Fool... The Devil's Fool? Nobody's Fool? God's Fool?"

CHRISTIAN SCIENCE SERVICES "Sacrament" is the subject of the lesson-sermon to be read in Churches of Christ, Scientist throughout the world on Sunday January 14.

The golden text is from Leviticus 11:45. "I am the Lord that bringeth you up out of the land of Egypt, to be your God; ye shall therefore be holy, for I am holy." Among the citations which comprise the lesson-sermon is the following from the Bible: "The cup of blessing which we bless, is it not the communion of the blood of Christ? The bread which we break, is it not the communion of the body of Christ?" (I Cor. 10:16).

The lesson-sermon also includes the following passages from the Christian Science textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Are all who eat bread and drink wine in memory of Jesus willing truly to drink his cup, take his cross, and leave all for the Christ-principle? ... His true flesh and blood were his Life; and they truly eat his flesh and drink his blood, who partake of that divine Life." (Pages 33, 25).

With each returning year, higher joys, holier aims, a purer peace and diviner energy, should freshen the fragrance of being.—Mary Baker Eddy.

THE FORUM Conducted by HOWARD S. ROSS, K.C., D.C.L. In Which Subjects of General Interest Are Discussed The opinions expressed in this Forum are not necessarily those of this newspaper and it does not accept responsibility for them.

In view of the proposals for a railway monopoly in Canada, a recent report by the United States Interstate Commerce Commission on an attempt to solve the railway problem of the New-England States by amalgamation is of interest. The Commission stated, "This investigation has demonstrated that the monopoly theory of those controlling the New Haven Railway was unsound and mischievous in its effect. To achieve such monopoly meant the reckless and scandalous expenditure of money; it meant the attempt to control public opinion, and corruption of government; the attempt to pervert the political and economic instincts of the people in insolent defiance of law.

Without being kicked out of a college, or excluded from the pages of the magazines; without having to be called a crank and a dreamer, to say nothing of a Red and a menace to law and order! Many years ago I edited an anthology of the literature of social protest, called "The Cry for Justice." One of the poems I put into it was by Thomas Bailey Aldrich, in which he pictures the ringing of the midnight chimes in St. Petersburg, proclaiming "God Save the Tsar!" The poet imagines the cry being echoed by the political prisoners "in dungeons far beneath," and ends with the lines: Wait till a million scourged men Rise in their awful might, and then— God Save the Tsar!

—Upton Sinclair from his article, "What I Believe" in Common Sense (monthly New York.)

Two years and a half ago I had an opportunity to thresh out these subjects in a conference with President Roosevelt. He assured me that it was his intention, within the following seven weeks, to make a speech "coming out for production for use." What changed his plans I do not know; but whatever it was, I have to call it a tragedy. For he holds our fate in his two hands. Our people accept his leadership, for the most part blindly; and the rest of the world waits to see what he will do with his opportunities.

Commenting on the increase of tenancy now going on at the rate of 40,000 a year for the U.S.A. as a whole Secretary of Agriculture stated: "If this trend is not checked—and checked in the very near future—there is grave doubt whether America's traditional system of family-sized farms can long survive."

The young men of Belgium show what people can stand and be reasonably cheerful. They must spend 12 to 18 months in military training, then enter the army whenever there is mobilization—three in the last 24 months. A soldier gets 3 cents a day and his keep while his wife at home gets \$1.85 a week for household expenses. They get three days' leave each month.

In dissenting from a majority judgment of the Board of Railway Commissioners for Canada, by which the C.N.R. is permitted to abandon its Frelighsburg-Farnham subdivision, a distance of 17.9 miles, F. N. Garneau, K.C., Deputy Chief Commissioner of the Board, wrote, "There is no reason why the general principles of law and equity that no one can be compelled to give his property (wealth) for public utility without adequate compensation should not apply in this case. ... A railway employee's position is his wealth, which to acquire and keep, has extracted from him great care, attention, efficiency, personal risks; it is his property, and if he is dispossessed, for public convenience, he is entitled, as any other property owner, to adequate compensation."

BOOK REVIEW BY HOWARD S. ROSS "Colbert and a Century of French Mercantilism" by Charles Woolsey Cole Publishers: Columbia University Press, Morningside Heights, New York. Price: \$10.00; Pages: Vol. I—XII & 582; Vol. II—675. Charles Woolsey Cole, Professor of Economics at Amherst College, has written what is probably the most complete account to date of the mercantilist policies of Colbert, chief minister to Louis XIV of France in the seventeenth century. The volumes make available in English a great amount of material on the economic history of France from 1689 to 1685, with

Strong Appeal for... (Continued from Page One) Elizabeth, Canada's beautiful Queen, did more with her contagious, honest and charming smile than all the Generals, Field Marshalls, great financiers, or philosophers, accomplished in centuries. By a wave of her delicate little hand, and the sunny smile of her bonny Scotch eye, she crumpled all barricades of race hatred, and the Canadian people cried with a loud voice and a full heart: "Vive La Reine." She captured the hearts of Canadians, French, English, Jews and foreigners.

During the Great War, women played no unimportant part. They were the backbone of defence, carrying on where the men left off to enlist. In this war, they play even a greater part. We have women test pilots, women instructors in the air force; women run the farms, women are in every branch of the services; women inspire men to the utmost good.

Civilian Life "In civilian life we have women judges, even Naves taking up law courses, and have a nun a famous judge in New York. Women have been accepted to the Bar everywhere except in Quebec; women have at last been admitted to take Holy Orders. A Canadian woman has designed and tested her own aeroplane, and is flying it. Women, not only in Canada, but in England and the United States, take equal chances with men in the air, as air hostesses, nurses, doctors, pilots. Women are in Congress; women have seats in the Parliament of Canada. Two women, Iva B. Fallis and Corine Wilson, have been elected Senators, and are doing a good job up there at Ottawa. We have women mayors and aldermen. Women are no mean orators.

Heritage The best sellers in recent fiction were written by two Canadian women. Women fit into every public office and generally acquire themselves as well as men. They have mercy in their hearts; their votes cannot be bought. In England, France, Poland and Finland, the heroic deeds of women have equalled, if not overshadowed those of their contemporary men soldiers. Considering all this, Quebec, the Province of all Provinces which should show leadership, remains narrowminded and bigoted by refusing our women their priceless heritage."

particular reference to mercantilism as exemplified in Colbert's policies and actions. Despite the importance of mercantilism in general and French mercantilism in particular there has hitherto been no general work on the subject. This study shows how complicated, contradictory and confusing the mercantilism of a single country was in a single century. "It is perhaps the perfect tribute to Colbert," Dr. Cole says, "that French mercantilism must be considered as more or less embryonic before him, and that for a definition of French mercantilism one can scarce do better than to say: "Mercantilism in France means that group of theories, policies, and practices arising from the traditions of the country and the conditions of the time, and upheld and applied by Jean-Baptiste Colbert during his years in office, 1661-1683, in his effort to secure for the nation and for the king who symbolized it, power, wealth, and prosperity."

It is around this theme and on this basis that "Colbert and a Century of French Mercantilism" has been written to gather and analyze in one place this important phase of world economic history and theory. Contents: Volume I: Foreword; 1. The Prelude; 2. The Rehearsal, 1596-1610; 3. Interlude, 1610-24; 4. Richelieu, 1624-42; 5. Mazarin, 1642-61; 6. Colbert: His Life and His Economic Theories; 7. Colbert and Commerce; 8. The East India Company. Volume II:—9.—Companies and Colonies; 10.—Manufactures: Textiles and Stockings; 11. More Manufactures: Lace, Tapestries, Mirrors, and Other Wares; 12. The Regulation of Industry; 13. Internal Development; 14. Afterthoughts and conclusions. Appendix I: The Demands of the English in the Negotiations for an Anglo-French Commercial Treaty; Appendix II: The Projected Colony of Madagascar; Appendix III: The Manufactures of France, 1692-93. There is an extensive bibliography and a carefully prepared index. In Volume I there is a frontispiece of the "Jean-Baptiste Colbert in the year 1660" and in Volume II a frontispiece of "Louis XIV and Colbert visit the Gobelins, 1667. Detail of a gobelins tapestry (1673-1679) designed by Le Brun. Colbert is at the left. Le Brun at the right of the royal party."

THEATRICAL ATTRACTIONS

Extraordinary Dramatic Triumph For Three Stars

Although the word "glamour" is growing a bit threadbare through constant usage in Hollywood, it will have to do until a better word is coined. Meanwhile, "glamour" is said to describe Universal's "Rio," now playing at the Monkland United Theatre.

story moves to Rio de Janeiro the gayest city in South America, replete with senoritas, senors, gauchos and rumba orchestras. And while Rathbone is eating his heart out in a prison camp, Miss Gurie meets and falls in love with Robert Cummings.

CHARLES LAUGHTON AT THE WESTMOUNT

Charles Laughton returns to the screen in a story of swashbuckling adventure in "Jamaica Inn," now playing at the Westmount United Theatre until Saturday.

Supported by a lovely Irish newcomer, Maureen O'Hara, and by Leslie Banks, Robert Newton and Emily Williams, Laughton plays the role of Sir Humphrey Pengellan, in the screen adaptation of Daphne duMaurier's novel.

The story has its setting along the coast of Cornwall in England, and tells of the wreckers, land pi-

rates who thrived by luring ships to the rocks and stripping them. Laughton, a debauched aristocrat, is in league with these bandits. In scene of seething excitement, the picture shows how a pair of romantic youngsters unmask Laughton and bring his gang to justice. Alfred Hitchcock directed.

CAN'T RESIST ANIMALS Charlie Ruggles, who shares the starring roles in Paramount's "The Farmer's Daughter," is a lover of all sorts of animals. From a start with two dogs a few years ago his kennels of blue-blooded canines has grown to be the largest in Southern California. But, in addition to the dogs, Charlie also pays the feed bills for an assorted collection of monkeys, cats, makaws, parrots, gold fish and other fauna.

West End Horticultural Society to Hold Meeting

When chilly winds are blowing and the earth is covered with snow and ice, it takes quite a lot of imagination to visualise lovely gardens with flowers blooming gaily and lawns neatly trimmed. But that is what the West End Horticultural Society will be doing on Tuesday evening when they meet at St. Luke's Church Hall, Decarie boulevard, to hold their first lecture of the New Year.

There is no closed season for the successful horticulturist. During the winter plans are laid which culminate in action during early spring to provide the flowers that bloom in the summer and fall.

Facilities of Every "Y" Extended to Enlisted Men

From providing hot showers to arranging for weddings. That has been the range of the work of the YMCA which has served an aggregate number of over half a million enlisted men since the outbreak of war. The wedding ceremonies were arranged by the Quebec YMCA for three men whose brides arrived from outside points. In addition, the facilities of every "Y" in the country has been extended to enlisted men for showers, swims, physical training, social gatherings and entertainments.

Team games have been organized in many "Y's" for the soldiers. Guelph has a volleyball team from the 29th Battery entered in their league and Toronto West End

The Toronto YMCA's has opened a canteen and entertainment centre for the Air Force men in the Jubileum at the Canadian National Exhibition grounds. The Auditorium there, where they stage entertainments almost nightly seats about 2,000 men. On November 29th, His Excellency, the Governor General, Lord Tweedsmuir, opened the new recreation centre for the soldiers stationed at the Exhibition. Police Recover Air Force Wagon

Apparently abandoned by the thieves after it had become involved in an accident, a Royal Canadian Air Force station wagon, which was stolen last Friday night from the corner of Metcalfe avenue and Sherbrooke street, was recovered early Saturday morning at the corner of Manufacturers and Charlevoix streets by Constables Savage and Bedard of the radio patrol of the Montreal Police Department.

The front bumper of the truck was damaged, leading police to believe that it had been involved in an accident.

FINE PRODUCTION BY CHILDREN'S GROUP

Dorothy Davis and Violet Walters, directors of the Children's Theatre are being congratulated on their presentation of "The Youth of Queen Victoria" at Victoria Hall on Saturday. This performance marked their 10th major production and surpassed any of their former productions.

A difficult and pretentious undertaking, the play ran as smoothly as any professional company, and another milestone of the Children's Theatre, today recognized as one of Canada's finest children's organizations.

Fred MacMurray had to play a piano "like someone who had taken four lessons as a boy" for a scene in Paramount's "Remember the Night," and had no trouble at all, as he had, as a boy, taken exactly four lessons.

WILL PRESENT ROYAL BANK MEN'S CHOIR

The Men's Choir of the Royal Bank of Canada will give a concert in aid of the Red Cross in St. James United Church on Wednesday, January 24, at 8:30 P.M. This will be their eleventh annual event in a program of well chosen part songs, most of which will be unaccompanied and range from lighter to deeper vein. For their accompanied numbers, they will sing choruses from Gilbert and Sullivan's "Mikado," a work that is always acceptable to audiences and as may be said, is always "fresh" to listen to on each new occasion.

Hibbert Troop, the Choir's Conductor, and members of the chorus, are all employees of the Royal Bank of Canada, something unique in the annals of musical groups in Canada. It will be recalled that this Choir gave an interesting concert last year and were also successful in winning the Lindsay & Chopin Trophies at the Quebec Musical Competition Festival held in March, 1939. During the program, Mr. Troop and Mr. Motley will play an Organ and Piano Concerto.

Miss Enid Gray, a Soprano of fine repute, comes from Toronto to be the Guest Soloist of the Choir. Miss Gray has appeared in many concerts in Canadian and American Cities and has recently sung with the Toronto Symphony and Mendelssohn Choir. Phillips Motley will be the accompanist at this evening concert.

Mrs. I. Berger To Be Heard In Concert

On Sunday evening, January 14, at 8:30, the Music Appreciation Group of the Young Women's Hebrew Association will commence the second half of its year's activities.

The first artist will be Mrs. Irving Berger, the former Vera Weinfield of Montreal, who will be heard in a piano recital. It will be recalled that Mrs. Berger was one of the most brilliant pupils of W. Hungerford of McGill. Recently Mrs. Berger, who has continued her studies in New York, has appeared frequently in both concert and radio. Mrs. Berger is in Montreal having presented a program over Station CBM.

Included in Mrs. Berger's program will be the Bach Prelude and Fugue in G Minor; the Beethoven Sonata Opus 14, No. 2 in C Major; Rachmaninoff's Prelude in D Major; also compositions by Debussy and Ravel. The concert will take place in the auditorium of the YWHA, and will be open to the public. Mrs. Samuel Hart will preside.

Story Behind British Spy Round-Up in Film

The recent action of Scotland Yard in rounding up over 6,000 men and women as suspected enemy agents was featured on the front pages of every newspaper in America. For despite the many thrilling and daring acts of heroism by soldiers of both sides in the actual fighting, the greatest drama of warfare is to be found in the unseen and virtually unknown espionage and counter-espionage services.

With amazing timeliness, Columbia's sensational "U-Boat 29," which opens Saturday at the York United Theatre, brings to the screen a wartime story of the struggle between German and British agents. Just as the English Secret Service is today maneuvering to foil the machinations of the German Gestapo, the film

graphically depicts the actions of two loyal agents as they work to prevent the torpedoing of a whole squadron of the Royal Navy.

It was only a few days after the outbreak of war that Scotland Yard swung into action. In the same manner in which Valerie Hobson and Sebastian Shaw set a trap for Conrad Veidt in "U-Boat 29," large drag-nets and searches were instituted. Lists of suspects had been compiled months before the war started and so great was the secrecy with which the plans were made, that not one of the suspects managed to escape.

Persons taken into custody fell into three categories: (1) enemy agents; (2) persons suspected of acting as enemy agents; (3) sympathizers likely to assist enemy agents.

BLACK AND WHITE IN VIVID COLOR FILM

Darryl F. Zanuck's production of "Hollywood Cavalcade," the romance of the movies from bathing beauties to world premieres, which stars Alice Faye and Don Ameche, now playing at the Snowdon United Theatre until Saturday, is the first film in the history of motion pictures to combine Technicolor and black and white.

The 20th Century-Fox picture contains one scene which shows a theatre projection room, all in Technicolor, which takes in the theatre screen on which a black and white film is being shown.

It's human drama of today, which promises to bring back your happiest screen memories—such as Mack Sennett bathing beauties, Keystone Cops, custard-pie comedy, Buster Keaton, Ben Turpin, Chester Conklin, Babylonian revivals, world premieres, and Al Jolson singing "Kol Nidre," the song which electrified the world in "The

Jazz Singer," the first talking picture ever made. Featured in support of Alice Faye and Don Ameche are J. Edward Bromberg, Alan Curtis, Stuart Erwin, Jed Prouty, Keaton, Donald Meek, George Givot and Eddie Collins.

FRIENDS RE-UNITED AFTER 20 DECADES Two friends who have been separated for 20 years were re-united for the first time today on the "Geronimo!" set at Paramount.

They are Andy Devine, who portrays Sneezer, the scout, and Chief Thunder Cloud, full-blooded Cheyenne Indian, who is enacting the role of the vicious Geronimo, avenger of the white man's wrong to the redskin late in the nineteenth century.

When the two were boys they played together in Flagstaff, Arizona, birthplace of Devine.

A fire on a verdant tropic island, quickly followed by a raging storm, provide a double Technicolor spectacle in Paramount's "Typhoon," starring Dorothy Lamour and Robert Preston.

Oysters R in Season — As a Delicate Flavor To Offset the Richness of Holiday Viands

After the rich food of the holidays, the delicacy of oysters is welcome. Serve them in bread cases filled with chopped oysters and garnished with whole oysters, all attractively browned in a hot oven and generously brushed with butter.

Oysters are one of Canada's blessings to the hungry. Scientific packaging now makes it possible to get them far inland with all the freshness and flavor of the sea they came from. They are shipped to fish stores and butchers in large tight-sealed containers and then put up by the merchant in smaller fibre containers holding as many oysters as you want for your family. Oysters for serving in the half shell are not, however, as universally distributed.

For an oyster stew that will excite any appetite, try this popular recipe.

**Oyster Stew**  
(For one serving in a large bowl)  
Six blue point oysters, (with liquor), 4 teaspoons butter, salt, celery salt, pepper, paprika, 3/4 cup whole milk, oyster crackers.

**A Well Balanced Menu**  
BREAKFAST: Stewed pears, dry cereal, creamed codfish on toast, coffee, milk.  
LUNCHEON: Spanish omelet, hard rolls, chocolate, cake, stewed apricots, tea, milk.  
DINNER: Tomato and sauerkraut juice, oysters en crustades, stewed buttered celery, brown rice, lettuce and green pepper salad, pineapple Bavarian cream, coffee, milk.

In glass or heavy metal saucepan heat 2 teaspoons butter. Turn in the drained oysters and cook until the edges JUST begin to curl. Season well. Then turn in the liquor drained from oysters and bring just to boil. Then add the whole milk and bring just to boil. In large heated bowl, place 2 teaspoons butter, turn in the oyster stew and dust liberally with paprika. Serve with oyster crackers.

**Oysters in Bread Cases (en Crustade)**  
(Serves 6)  
Four tablespoons butter, 1-3 cup flour, 1 cup milk, 1/2 teaspoon salt, dash of pepper, 1/2 teaspoon Worcestershire sauce, 1 pint blue points, 12 bread cases.

Chop 1/2 pint of the oysters, use the other 1/2 pint whole. Melt butter in saucepan. Add flour and stir to a smooth paste. Add milk gradually and cook until thickened, stirring constantly. Add salt, pepper, Worcestershire sauce, and chopped oysters and mix well. Turn into bread cases. Bake in hot oven (450 deg. F.) for 15 minutes, or until bread is browned. Cook whole oysters under broiler about 2 minutes, then turn and cook 2 minutes longer, or until edges begin to curl. Place 1 oyster on each bread case and garnish with chopped parsley. Makes 12 cases.

For bread cases, cut day-old bread into 1 1/2 inch slices; trim off edges. Cut each slice in halves. Remove centers, cutting halfway down with small sharp knife, 1/4 inch from outer edge. Tear out the center with fork. Spread with softened butter, inside and out.

## TEA TIME TOPICS

A good posture does things for you. It gives you an air of confidence, poise and vibrant health that makes folks notice you. If your body is erect, shoulders square with the world and chin out, you look happy and relaxed. Moreover, people will feel that your philosophy of life and your ability to do your job well are just as good as your posture.

For this exercise, stand facing the wall at arm's length, feet a few inches apart. Place hands on the wall at shoulder level, keeping your body straight and rigid, lean forward until your chin touches the wall between hands. Return to standing position and repeat ten times. This exercise is an excellent one for straightening desk-curved spines.

Sitting exercises are good for the neck, shoulders and upper back. Sit correctly, bring chin in and touch chest until the neck muscles are tense. Turn to left shoulder, then to right. Repeat five times. In this same position, bend shoulders forward and bring them down, then bend back and down. Then move shoulders in a

dozen times, then repeat the entire exercise from five to ten times. Do it to unknit the knots when you feel tense from working over your typewriter for a long period.

Keeping your fine posture becomes something of a task, however, when you spend a good part of your time sitting behind a desk. Bent necks, stooped shoulders and caved-in chests are common among girls in offices. If you have any of these faults now, correct them immediately as poor posture soon becomes a fixed habit.

Good posture does not mean that you should sit as straight and stiff as a ramrod. Good posture should be easy, graceful and natural to you. Practice sitting, standing and walking correctly and see how much more pep you have. To others you take on an entirely different personality when your posture is right.

Strength and limber the muscles most used to hold your body erect. There is no better exercise for this than the old one of bending up and down to touch your toes. Do it ten times a day to start with, but increase the number until you are doing it fifty times a day. Keep your knees straight, stretch your arms high over your head, pulling your body up to its fullest height. Take a deep breath. Your shoulders should be directly above your hips, your head up so your back neckline is short. Hold your back in as though you were trying to avoid a spanking. Bend forward from your waistline and touch your toes with your fingertips. Repeat as many times as you can.

Hold the same erect posture when you stand or walk. Learn to sit correctly, too. If you do not sit correctly, all your effort in standing is wasted. Sit back full in your chair, shoulders in line with your hips, and feet together, preferably not crossed, on the floor. Think of your spine as a straight line from the centre of your skull to the chair bottom. Tighten these hip muscles that are inclined to spread over your desk chair. Relax, repeat, keep this up until the muscles literally ache. This is a simple exercise that can be practiced a dozen times a day.

Exercises will seem tiring at first, but after a while they will actually invigorate at first, but soon they will become a habit, a healthful habit that will help you maintain good posture. The following exercise will strengthen the muscles of the shoulders and upper back.

Stand with your arms stretched sideways from shoulders. Cross arms in front of chest, then stretch straight to the side from the shoulders. Circle swiftly, half

## DIVIDED SCRUB PAIL

A household implement that looks beautifully efficient is a divided scrubbing pail. One side is for soap suds, the other for clear water, and a tray attached to the bottom takes care of the overflow. There is a holder for the soap and one for the brush. A matching partitioned metal tray comes with this for carrying cleaning supplies.

Facing one of the best college pitchers in the Middle West he hit two doubles and three homers, and each homer came with the bases loaded. He batted in a total of 11 runs."

## Basketball Getting Too Fast Says Cage Expert

Lew Andreas, who has kicked around this basketball game nearly two decades, figures the time is coming when separate sets of rules will be drawn for colleges and high schools to get away from some effects of the modern "horse-race" court sport.

"This modern game with the centre-jump eliminated," the veteran coach of Syracuse University basketball said today, "is like watching a table-tennis match. The ball is always going back and forth with no stop. It's great to watch, but it puts a severe strain on the youngsters. Physicians have told us that."

The result, he added, may be that rules will be changed for younger players, the high schoolers. He pointed out that at recent meetings of educators an up-state physician reported tests showed the high-pressure action in present basketball causes increased blood pressure and strain on the performers.

"So it's altogether likely," Andreas went on, "that the centre-jump will be legislated back into high school ball to slow up the game somewhat and relieve this pressure on the youngsters. It isn't so bad for college players, largely because they're more fully developed. In addition, there is rigid physical examination in most colleges."

"Not only that, but the modern game, with its speed and high scoring, is what attracts the spectators. And where the turnstiles are concerned, that means a lot in any sport."

Lew has been head man of Syracuse basketball 16 years.

The toughest part of coaching for Andreas under the no-centre-jump rules is to get players to concentrate on defensive ability.

"In the old days," he laughed, "coaches used to figure that when they could hold the other fellows down to less than 20 points they had a pretty fair defensive club. Now you're lucky if you can keep the opposition under 50."

"That's because the new game has developed crack-shots who can toss that ball in from 'way out or close up, one-handed or two-handed."

"Why, we get freshmen reporting for basketball now, who want to do nothing else but shoot. They have no idea of defense, and we have a tough time teaching them that no matter how many points they pile 'up, they aren't going to win ball games unless they can stop the other fellows once in a while."

## FIVE LOOPS WILL PLAY ON CITY RINKS; REGULAR GAMES HAVE ALREADY COMMENCED

### Exceptionally Successful Season is Anticipated as Leagues Get Under Way — Three Squads Use Rinks At Westmount Park and Two Operate Staynor Playground — Many Practice Sessions Held

Municipal hockey leagues swung into shape this week with regular loop fixtures already under way, countless practice sessions held, and last minute organization meetings called. Present indications point to the fact that hockey will witness one of its most successful seasons here this year.

Norman Smyth, director of municipal recreation, reported yesterday that five leagues comprising a record number of 24 teams will operate under the supervision of the city.

The Juvenile loop, made up of Red Wings, Wolverines, Comets, Blue Birds, Bulldogs and Royals, commenced regular league fixtures last week and keen competition among the various squads is already noticeable.

The Senior loop, which with the Juvenile and midget leagues play games and hold practices on the rinks at Westmount Park, consists of four teams. Five squads will battle it out for top honors in the Midget loop.

The Pee Wee league has again been formed at Staynor Playground and is composed of five squads named after N.H.L. teams: Toronto, Rangers, Detroit, Boston, and Canadiens.

A girls' loop is also being formed at Staynor. It consists of four teams.

# WM. ROLLINS LAID TO REST ON THURSDAY

St. Catherine Street Resident Resided in Westmount for Over 15 Years

The funeral of William Edward Rollins, who died in his 75th year, took place last Thursday, January 4th from the Church of the Ascension of Our Lord, Westmount. Mr. Rollins passed away on New Year's Day at the Montreal General Hospital after an illness of several months.

Mr. Rollins, who came to this country from England at an early age, resided in Westmount for more than fifteen years. At the time of his death, he lived at 4412 St. Catherine St. West.

Mr. Rollins was employed by the Grand Trunk Railway for 15 years, before joining the staff of the National Drug Company, now the Laurentian Laboratories, with whom he remained until his retirement four years ago. He was a prominent churchman, having been a member of St. Patrick's Church men's choir for many years. He was also connected with the choir at St. Augustine's Church and also that of the church of the Ascension at one time.

# POEM COMPOSED BY RESIDENT TO HONOR NAVY

J. C. Steel Dedicates Poem To Officers and Men of British Battleships

The following poem, composed by J. C. Steel, 62 Selby street, author and composer of booklets in music, verse song and story, has been dedicated to Rear Admiral Sir Henry Harwood, officers and men of the H.M.S. Exeter, Achilles and Ajax.

The Great Sea Fight Off Uruguay South America Dec. 13, 1939  
A pocket battleship went sailing—  
O'er vast waters—"there"—to seek  
Ships for sinking; never failing  
For her victims all were weak!

Three months roaming, o'er the water—  
Catching all the "bait" she could!  
'Till—one day—a cruiser caught  
er,  
Where a new, near-victim stood!

"Man the guns!" swift came the order!  
Sink this "Tyrant" of the seas!  
History will now record "er"—  
She'll no more do as she please!

A smoke screen round the peaceful freighter  
Hid her from the Tyrant's sight;  
Calling help—two cruisers—later  
Came and joined up in the fight!

For fourteen hours their guns did rattle!  
Hitting! Missing! As they fired!  
Darting in and out to battle!  
'Till the enemy retired!

The cruisers' guns were far out-distanced,  
But the sailors! Oh! were great;  
Their seamanship! courage! resistance!  
Made this day a glorious date!

The enemy, now damaged badly,  
Seeking safety from the storm,  
Limped to harbour—but so sadly,  
Like a tramp, tattered and torn!

The end soon came, for wars' grim ways,  
Sent her again to face the foe!  
"We give you only two more days"  
To be interned—or—you must go!

The time was set; into the river,  
Sailed this proud ship to her doom,  
By our hand (the enemy) never;  
Here she goes now! Bing! Bang!  
Boom!!!

Conclusion  
Just to complete this tragic story,  
The doomed ship's captain went ashore;  
And shot himself—His way to Glory!  
Rest and peace for evermore.

# FINAL TRIBUTE PAID TUESDAY TO MRS. TUCKER

McGill Graduate Was Secretary-Treasurer of St. Lawrence Corporation

Final tribute was paid on Tuesday afternoon at 3 o'clock to Mrs. Leslie Albert Tucker, of 512 Clarke avenue, at the chapel of William Wray, University street. Interment followed in Mount Royal Cemetery. Mrs. Tucker, the former Doreen Ruscoe Smith, died on Sunday at the Ross Memorial Pavilion of the Royal Victoria Hospital following a lengthy illness. She was 30 years of age.

The wife of Leslie Albert Tucker, controller and secretary-treasurer of the St. Lawrence Corporation, Mrs. Tucker graduated from McGill University in physical education in 1930 and was well known here.

A native of Sydney, N.S., she had resided in Newfoundland, Sault Ste. Marie, Toronto and Montreal. She was a holder of a Royal Life Saving Society certificate and took a keen interest in physical education, particularly dancing and swimming.

She entered McGill University in 1927, graduated after a three-year course and was married in 1931.  
She is survived by her father, E. Bernard Smith, of Montreal, by her husband, and by one daughter, Barbara, aged seven.

# ON NEW YORK REST TRIP

Janice Logan, Paramount actress, who currently is in "Dr. Cyclops," Technicolor thrill film, and "Opened by Mistake," is taking her first vacation in more than a year. She recently flew to New York City to rest.

Chief Thunder Cloud, full-blooded Cherokee Indian playing the name role of Paramounts "Geronimo!" received a beaded belt as a token of friendship from the real Geronimo's son, Robert, who lives on a reservation at Mes-calero, N. M.

**LITTLE TREASURE**  
Victor Jory, currently portraying one of the featured roles in Paramount's "Knights of the Range," a Zane Grey story produced by Harry Sherman, was a "gold rush" baby. The actor's father, Edwin Jory, and his mother, were in Alaska, near Dawson City, seeking their fortune, at the time Victor first saw the aurora borealis.

**WHY POOR WHITES**  
South Africa is investigating why there are poor whites.

**HIS OPTION "LIFTED"**  
"Gabby," the little cartoon character who plays the part of the town crier in the Paramount release full-length Technicolor cartoon, "Gulliver's Travels," has scored such a hit with critics that his option has figuratively been taken up. He'll be starred in a series of cartoon short subjects made by Max Fleischer, creator of "Gulliver's Travels."

**VETERAN WORKS**  
Monte Blue, famed as a star of silent pictures, plays the part of a South Sea native in Paramount's "Road to Singapore," with Bing Crosby, Bob Hope and Dorothy Lamour.

**DEATH SCENE IMPRESSES**  
Impressed by Michael Rand's ability in "Women Without Names," to portray a convict on the eve of his execution, Paramount officials gave the young actor a featured role in "Opened by Mistake," in which he is shot to death.
