

EVE OF THE WEDDING OF PRINCESS VICTORIA

Madrid Aglow With Fireworks
and Electrical Illuminations

THE MARRIAGE CONTRACT

The Spanish Press Presents Alfonso With a
Gold Chain to Sign It—Receptions at
the Embassies

Madrid, May 30.—All Spain is rejoicing on the eve of the wedding of King Alfonso and Princess Victoria and the capital has not seen such scenes of tumultuous hilarity during the present generation. To-night the whole city is aglow with fireworks and electrical illuminations, while the streets are thronged with dense masses of people. All the central points from Puerto Del Sol to the Pardo are literally packed. As the decorations and illuminations take on their most lurid hues, it is a motley throng with touches almost barbaric. Swarthy Moors wrapped in flowing robes and with red turbans on their heads, Asturian dancers performing their native jota, Gypsies from Cordova and Seville, Salamanca herders in red velvet and tinsel gold, with many representatives of Spain's clergy and hordes of blind beggars singing the melancholy music of old Spain. At the corners handa play for street dancers. The municipality has given free rein to the popular rejoicings. The schools and public institutions have been closed and the whole population has given itself up to celebrating the King's marriage. The chief events of to-day were the King's reception to the foreign envoys and the signing of the wedding contract. The latter ceremony took place at the Pardo Palace in the presence of Premier Moret and the other Cabinet Ministers with the solemnity befitting a great state ceremonial affecting the future succession to the throne. The witnesses for Princess Victoria were Sir Maurice Bunsen, the British Ambassador at Madrid; Polo Y. Bernabe, the Spanish Ambassador at London, who was the Spanish Minister to Washington when the war between Spain and the United States broke out; Lord Hugh Cecil, Marquis de Viana, an intimate friend of King Alfonso, and Marquis de Villalobar. The witnesses for the King were Premier Moret, Senor Maura, former President of the Council; Gen. Azcaraga, former Premier; Gen. Montero Rios, former Premier; the Duke of Sotomayor, chief of the royal police; the Marquis de La Mina, chief of the royal hunt; Gen. Pacheco, chief of the Royal Household; and the Marquis de Boria, Intendant-General. These representing the statements, the royal household, the army and the nobility. The marriage contract appears in Article 2 of the Official Gazette. Article 2 gives the bride an annual income of \$80,000 and in the event of the King's death \$50,000. In Article 3, Princess Victoria renounces all right of succession to the British throne. Other articles relate to the marriage. Proceeding the signatures of the contract the Spanish Journalists presented to King Alfonso a golden ring with which to sign the document. The King laughingly accepted the gift, declaring that he always had intended the Spanish press against criticism. Many receptions were held to-night, among them those at the British embassy to the Prince of Wales, at the Italian embassy to the Duke of Genoa, at the German embassy to Prince Albrecht of Prussia, at the French embassy to Gen. Dahlstein, and at the American legation to Special Envoy Whittemore. This latter reception was attended by many prominent personages in diplomatic and court circles.

A CANADIAN SUICIDES

Duluth, Minn., May 30.—C. W. Young, of Summerland, B.C., committed suicide yesterday by shooting. It is thought that despondency resulting from business troubles led to the tragedy. He was 50 years old and was for ten years cashier of the Rat Portage Lumber Company at Kenora, Ontario. Last February he resigned because of bad health and engaged in the real estate business here. It is said that \$5,000 would have covered his obligations.

SOFT COAL MINERS

Kansas City, May 30.—The soft coal miners of Kansas, Arkansas and the Indian territory, Arkansas and the day agreed to accept the proposition submitted yesterday by the Southwestern Coal Operators' Association. The agreement must now be ratified by a referendum vote by the miners, but it is believed to-day's action will result in reopening the mines in the States named by June 10th. The Missouri miners representing district No. 23 still stood out for the 1903 scale verbatim, which means a higher proportionate rate for machine mining than that offered by the operators. The conference was resumed later in the hopes of persuading Missouri to come into the agreement.

UNCEASING ATTACK

Planned on Russian Ministry
by Constitutional Democratic
Organization.

St. Petersburg, May 30.—A campaign of unceasing attacks on the ministry by means of a daily bombardment of interpellations on the inexhaustible subject of bureaucratic abuses, was mapped out by the Constitutional Democratic Central Committee to-day and discussed in detail at a meeting of the members of that party to-night, which seems likely to continue into the morning. The members of the conference were aroused from a dry discussion of tactics by news of the condemnation to death of Warsaw terrorists for the attempted murder of a policeman and the trial by court martial of 36 more political prisoners at Riga, who are in jeopardy of the fate of the eight who were executed there May 29th. This precipitated another characteristic outburst of fury against the Government and probably will be made the subject of a pressing interpellation to-morrow. The Government, however, is taking its time to answer even the most pressing interpellations. Minister of the Interior Stolypin having announced to-day that he would respond to questions addressed to him only after the return of the officials who have been sent to investigate the conditions on which the attacks were based. It seems altogether certain now that the Goremeykin Ministry will remain in power until the passage of an agrarian bill by Parliament renders conflict unavoidable. It is known that Premier Goremeykin placed his resignation in the hands of the Emperor in case the latter desired to act on the address of the lower house of parliament in reply to the speech from the throne, but the Emperor declined to accept the resignation, stating that the cabinet was carrying out the policy which he desired.

UPRISING IN CHINESE PROVINCE.

Shanghai, May 30.—A serious rising assisted by secret societies is in progress at Yingshan in the province of Kiangsi. The people are seeking refuge in the cities. The British gunboat Snipe, from Nanchang, will proceed to-morrow to the scene of disorder. The governor of the province is sending troops. No missionaries are involved.

SANITARY INSPECTION OF MEAT PLAN

Chicago, May 30.—Instead of opposing Government inspection and sanitary regulation of meat packing plants, as contemplated by the Beveridge bill, Chicago meat packers declare that they will welcome such legislation, although it is contended that the larger houses are now sanitary. Official statements were made to-day by Armour & Co., Nelson Morris & Co., Swift & Co., and the National Packing Co., declaring that these concerns were in favor of any inspection or regulation that would add improvement to the meat packing industry.

RUSSIAN REFORMS.

St. Petersburg, May 30.—There was no session of Parliament to-day, but the various committees held meetings and there was also an important session of the central committee of the Constitutional Democrats to discuss the general situation. The papers are filled with accounts of the doings of a band of reactionists, dubbed the star chamber, consisting of General Mossoloff, the Minister of the Court, as General Trepoif's representative, various noblemen, court officials, officers of the guard and members of the upper house of parliament. Interior Minister Stolypin's project for the reform of local administration is nearing completion. The principal features are the liberation of the Zemstvos and municipalities from the influence of the central government, the extension of a species of self-government to the villages and communes, and the complete abolition of the petty local government officials.

THE GUATEMALAN REVOLUTION.

Tapachula, Mexico, May 6.—Reports received here to-day from Salvador state that Guatemalans and their sympathizers throughout the republic are excited over the situation in Guatemala. The revolutionist General Toledo proposes to invade the central part of Guatemala with a considerable force and announces that he will give battle to the army of President Cabrera at the gates of the capital. This announcement has aroused enthusiasm. President Cabrera's statement that the revolution has been crushed in its infancy is ridiculed by Guatemalans, who state that the revolution has only just begun. In upper Guatemala enthusiasm for General Barillas is reported to be growing daily. No news has been received from Gen. Pineda, who has marched into the province of Peten, where, it confidently is asserted, the Indians are sure to join him. No confirmation has been received of the reported assault on Ocosingo, but this may be accounted for by the interruption of telegraphic communication and the condition of the roads. Reports from Guatemala city say Cabrera is preparing for flight and that he continually is in fear of assassination.

MICHAEL DAVITT PASSES AWAY

Irish Leader Died Last Night
in Dublin

DUE TO BLOOD POISONING

Mrs. Davitt, Prostrated by Illness in Same
Hospital, Not Yet Informed of
His Death.

Dublin, May 30.—A notable career closed to-night when, after a long and painful illness, Michael Davitt, died peacefully and painlessly at 12 o'clock in the presence of his eldest son, Michael, and his two daughters, who had devotedly attended him through his illness, and of many of his most intimate friends, including John Dillon. Shortly before his death, Father Hatton had been with him. Mrs. Davitt had been in constant attendance on her husband until a few days ago, when she herself was taken ill. She has not yet been informed of her husband's death. It is stated that Mr. Davitt left a written message. The greatest sympathy has been displayed by all classes of society during Mr. Davitt's illness. To-day the hospital was besieged by anxious inquirers. John E. Redmond, leader of the Irish party in Parliament, was a frequent inquirer by telephone from the House of Commons and gave up his proposed continental trip over the Whitehead holidays in consequence of the condition of his friend, the father of the Irish Land League. After a rally last night Mr. Davitt was able to speak to those at his bedside, but soon showed that he was losing ground. Among the last callers at the hospital to-night was Lord Hamilton on behalf of Earl of Aberdeen, Lord Lieutenant of Ireland, and the Countess of Aberdeen. Mr. Davitt retired from the representation of South Mayo in Parliament in 1899, but to the last took a keen interest in the politics of his country. Death was due to blood poisoning, which followed two operations for necrosis of the jaw bone, and spread so rapidly that efforts to stay its course were unavailing. Mr. Davitt's illness began with an insidious attack of toothache to which he paid no attention until John Dillon urged him to have recourse to medical advice. For some time there were hopes of his recovery, but the state of his health, which was undermined by exertions at the recent general elections, greatly hindered his progress.

Michael Davitt, who was a brilliant journalist and writer, was born on March 25th, 1846, being a son of the late Martin Davitt, of Straide, County Mayo, and Seranton, U.S. Michael Davitt began work in a Lancashire cotton mill in 1866, but lost his arm in some machinery in 1867. He was subsequently employed as a newsboy, printers' devil, and assistant letter carrier. He joined the Fenian Brotherhood in 1865, was arrested and tried in London for treason-felony in 1870, and sentenced to fifteen years penal servitude, being released on ticket-of-leave in 1877. With the late Charles Stewart Parnell and others he founded the Irish Land League in 1879. He was arrested on the charge of making a seditious speech the same year, but the prosecution was dropped, and he went to the United States to organize the Auxiliary Land League organization in 1880. He was again arrested shortly after his return in 1881 and sent back to penal servitude, but released on May 6, 1882. He was arrested in 1883 and tried under a law of King Edward II. for seditious speech and imprisoned for three months. He was included in the "Parnellism and Crime" allegations and spoke for five days in defence of the Land League before the Times Parnell Commission. He was first elected to Parliament for the County of Meath when a prisoner in Portland Prison, in 1882, but disqualified by special vote of the House of Commons for non-payment of sentence for treason-felony. He unsuccessfully contested Waterford City in 1891, but elected M.P. for North Meath in 1892, but was unseated on a petition. He was returned unopposed for North Meath the same year, but resigned in 1893 owing to bankruptcy proceedings arising out of the North Meath election petition. He was returned unopposed for East Kerry and South Mayo in 1895, while in Australia, but resigned in 1899. He had travelled extensively in the United States, Canada, Australasia, Egypt, Palestine, France, Italy, Switzerland and South Africa during the recent war. Among some of his publications were "Leaves From a Prison Diary," 1884; "Defence of the Land League," 1891; "Life and Progress in Australia," 1898; "The Boer Fight for Freedom," 1902.

TWO AMERICAN CROOKS.

London, May 30.—At the Old Bailey to-day Harry Samuel Simmons and Franklin Everhart, Americans, charged with conspiring to obtain large sums of money by fraud, were found guilty. Simmons was sentenced to two years' imprisonment at hard labor and Everhart to eighteen months hard labor. Simmons and Everhart were charged with forging shares and certificates in connection with Alaska, Oklahoma, Cripple Creek and Manitoba mining companies. Simmons said he was from Illinois and Everhart from Pennsylvania.

COTTON FOR JAPAN.

Tokio, May 30.—The members of the House of Representatives who have been visiting Korea to study the cotton prospects have brought back a hopeful report. They think that at a moderate estimate the crop ought to be worth \$10,000,000 annually. Japan now imports yearly from India and elsewhere \$56,000,000 worth of cotton which will probably be largely replaced by Korean cotton should the estimate be correct.

WARSHIP ON ROCKS

British Navy May Lose One
of its Best Battle-
ships.

London, May 31.—It is feared the British navy will lose one of its best vessels, the first-class battleship Montagu, which struck on the rocks at Lundy Island on Wednesday and, according to latest reports received at Devonport at midnight, is not likely to be refloated. Naval experts are of opinion that to attempt to refloat the Montagu under present conditions will mean her disappearance in thirty fathoms of water, as she is fixed precariously on a ledge and in danger of overturning. If possible an attempt will be made to patch up the vessel before any attempt is undertaken to float her off.

Little yet is known as to what happened when the vessel struck. All the members of the crew were saved, but several of the men had limbs broken or were otherwise injured. It is reported that something in the nature of a panic occurred when the Montagu struck.

ANGLO-CUBAN TREATY.

Havana, May 30.—The Senate to-night ratified the Anglo-Cuban treaty of commerce, navigation and industry as amended by the Foreign Relations Committee, May 23rd. The vote was 11 to 4.

A CANADIAN SPEAKER.

Cleveland, May 30.—Nearly one hundred members of the American Surgical Association attended the initial session of the annual meeting of the organization here to-day. Among those who read papers was Dr. Geo. E. Armstrong, Montreal.

AN ACTRESS DEAD.

New York, May 30.—Mrs. Robert Edson, wife of Robert Edson, an actor, and known to the stage as Ellen Berg, died to-night at the French Hospital, after having undergone an operation. Mrs. Edson had not been in good health for some time and had not acted for two seasons.

BUILDING OPERATIONS IN FRISCO.

San Francisco, May 30.—Building operations in the ruined portions of the city have received a decided set back owing to the dilatory tactics of the underwriters. To-day the men engaged on the Crocker, Shreve, Mutual Savings Bank and on the St. Francis hotel in these operations were given notice that all work must cease because of lack of funds.

BRIDGE DYNAMITED.

Madison, Maine, May 30.—To save the town from flames, dynamite was used to-day to destroy the Madison end of the covered wood bridge of the Somerset railroad between this town and Anson which caught fire from a spark from a passing locomotive. The bridge which was 600 feet long spanned the Kennebec river.

MURDERED HIS WIFE.

Buffalo, May 31.—Early this morning (Thursday) Mrs. John Campbell was killed in the Barnes Hotel, a theatrical boarding house, on Pearl street, this city. Her husband is under arrest charged with murdering her. They had quarrelled and the man, it is alleged, shipped a knife into the woman's neck back of the ear as she lay in bed. She died in two minutes. Campbell waited for patrolmen, who were called to arrest him. The woman owned the boarding house.

THE VESUVIUS VOLCANO.

Naples, May 30.—The discharge of sand and cinders from the Vesuvius volcano continues to increase. In the last few days several inches have fallen from the top of the mountain. Prof. Matteucci, director of the Royal Observatory, believes that the falling of the crater on Tuesday was not due to a telluric phenomenon, but to the rain, which, falling on heated volcanic rocks, caused them to crack and become detached from the lip of the crater.

THE STRUGGLE IN RUSSIA.

St. Petersburg, May 30.—Despite the interpellation to the Emperor adopted by the lower house yesterday regarding the provocative black hundred telegrams, the Official Messenger to-day published several columns against extending amnesty to "traitors," but asking for the pardon of those who participated in the anti-Jewish outrages and generally protesting that the lower house does not represent the real voice of the Russian people. This, taken in connection with the execution of the eight revolutionists at Riga while the interpellation on the subject was pending, is interpreted as being a studied effort on the part of the Government to ignore the demands of parliament. The manner in which the policy of the Government seems to shift from day to day could not be better illustrated than by the sudden decision to prosecute the leaders of the recent meeting of social revolutionists at which a revolutionary resolution was adopted. For a fortnight the organs of the social revolutionists have been allowed to print reports of meetings, but now the publication has been stopped and Governor-General Douhassoff of Moscow and other governor-generals have issued proclamations in the Emperor's name warning the inhabitants that revolutionary activity will be suppressed at all costs. The partisans of autonomy for the border provinces in the lower house of parliament sixty in number have organized a league and have pledged themselves to support a programme calling for the territorial integrity of Russia and the decentralization of authority and the self-government of the border states in accordance with the needs and wishes of the local populations.

Wonders of a Modern Factory

The Perfect Food Is Made In Absolute Cleanliness.

A visit to the greatest modern food factory is a revelation to anyone not familiar with the development of machinery in recent years. Such a visit verifies the claims of the manufacturers of Malta-Vita, that this perfect whole-wheat food is cooked, steamed, mixed, baked and packed in absolute cleanliness.

"Purity" is the watchword of this wonderful establishment. From the time the wheat is received in the factory until the finished product is shipped out to all parts of the world, Malta-Vita is not soiled by human hands. Machinery, clean, shining machinery conveys the wheat through all the long process, even to the packing and sealing of the air-tight, germ-proof, dirt-proof packages.

After the wheat has been thoroughly cooked and steamed it is mixed with pure barley malt extract and each grain of the malted wheat is rolled into a water-like flake. Then it goes to the great ovens where, under intense heat, it is baked crisp and brown—Malta-Vita, the most delicious, the most healthful food in the world.

Malta-Vita is always ready to eat. No cooking. No inconvenience. And you never tasted anything quite so good. All grocers, now 10 cents.

Good blood, good health; bad blood, bad health; there you have it. Why not help nature just a little and change the bad to the good? Bad blood to good blood; poor blood to rich blood! Ask your doctor how this applies to Ayer's Sarsaparilla, and how it applies to you! Could anything be more fair?

We have no secrets! We publish the formula of all our medicines! Lowell, Mass.

The Quebec Chronicle

QUEBEC, MAY 31, 1906.

CORRUPTION.

Some little time ago we published a communication from a correspondent in which the writer denounced the prevailing corruption of the day, and sharply criticized what he conceived to be the attitude of the churches on the subject. Since then we have received several letters relating to the same matter, and more or less endorsing the views of our first correspondent, but as the names of the writers were not confided to us we were not able to publish their letters. The circumstance, however, goes to show what indeed there is plenty of evidence of elsewhere, that there is an uneasy feeling at work in the public mind which, if it continues and gathers strength, may eventually bring about the public redemption.

Corruption is of three kinds, social, commercial and political, and with all respect to our correspondents, it is with the first of these only that the Churches have anything to do; certainly the less they meddle with politics the better, and in that field we have sufficient monitors in the press. It is easy to understand that in the pursuit of pleasure there are pitfalls into which its votaries may easily fall unwittingly, and the voice of the Church may well be upraised in warning, and, if need be, in reprobation, but the principles of common honesty and justice, which should govern commercial life, and which to a very great extent did govern it in the days of former generations, are no newly discovered codes of morality to need calling to remembrance continually, and the man who deviates from them does so deliberately and of intention, knowing that he does a wrong thing which he cannot justify, and can only excuse by the plea that others are as bad as himself. He needs no Church to tell him this, and whatever corruption, greed, and dishonesty exist in the commercial world can only be removed by working from within. The remedy is in its own hands.

Much the same thing may be said about corruption in the political world where the code of morality has always been more lax than it has hitherto been in the business world, if it is not so, as we believe it is, at the present moment. No amount of sermons, however eloquent will avail to remedy it, because men already know that it is in the highest degree reprehensible and injurious to the common weal, as is shown by such letters as we have received, and by the comments we see daily appearing in the public press. What, for instance, could be plainer or more forcible than the following from the Toronto News, a paper whose Editor some time ago wrote a highly laudatory biography of Sir Wilfrid Laurier, whom, together with his Cabinet, he now declares to be "a candidate for the penitentiary?"

PLAIN SPEAKING.

"Scarcely ten years have elapsed, and yet there is an indication that the ethical viceroy on the Liberals of those days is becoming badly chipped. The session of 1906 has brought the North Atlantic Trading Company scandal, the building of an expensive wharf in a hay field at D'Issraeli, the provisioning of the steamers Arctic and Montcalm, the discrediting of the Insurance Department, the ineptitude of the Government engineers on the Peterborough lift lock, and the extravagant prices awarded to that gentle-souled patriot, Mr. Merwin, who 'refuses to answer' in the Public Accounts Committee.

"Last year we had the appointments of Bullyea and Forget as Lieutenant-Governors of the Western Provinces, the calling of Mr. Walter Scott to the Premiership of Saskatchewan as a reward for his treachery to his constituents on the Autonomy Bill, the establishment of the Rutherford and Scott Governments as protectorates under the Laurier crown. Then came the gerrymandering of the Western Provinces, and then the elections, with the barefaced frauds of Prince Albert, directed by officials of the Federal Department of the Interior, who are not yet in jail.

"If it was a just and reasonable contention in 1896 that Ministers must be responsible for irregularities in their Departments—and it was—we contend that it is just as reasonable now. If Mr. Haggart suffered for the exposure of methods in building the Tay Canal and the Montreal Bridge, Mr. Hyman should suffer for the D'Issraeli wharf. If Sir Hector Langevin suffered—whether guilty or not—for the robbery of the Treasury in the building of the Louise Basin cross-wall at Quebec, Mr. Sifton and Mr. Oliver should suffer for the improvident North Atlantic Company contract. In like manner, the minister is responsible for the 'grafting' in connection with that floating distillery, the steamer Arctic, and that palatial travelling caravan-serai, the icebreaker Montcalm. The 'did not know' excuse is in no sense adequate. At least this is what the Liberals declared from every stump in Canada from 1891 to 1896. If it was true then it is true now.

"We have no love for the discredited Conservative leaders of 1896, nor no malice against the discredited Liberal leaders of the present day. But we have a belief, we think it laudable, though perhaps old-fashioned, that a man who steals or permits stealing from the public chest is a candidate for penitentiary. Moreover, we have another old-fashioned idea, that a solemn promise is as binding on a Government as on an individual. The Laurier Government promised honest and economical administration. It has permitted instead 'graft' and reckless extravagance."

WHAT WILL THE PEOPLE DO?

Is not this plain enough, and strong, or in its pitiless enumeration of detail, chapter and verse, than any moral generalities which might be heard from the pulpit? Are not these things known and believed in spite of the specious explanations and the frantic denials of the Government organs? The News is not the only paper that says such things; there are many others, Liberal Independents throughout the Dominion that are saying them, and saying them continually, and there are many men like our anonymous correspondent. "A Liberal of twenty-five years, who are writing denunciatory letters to the press, and what does it all come to? What has it always come to? Whenever there is an election to be held, these very papers will be among the first to support the Government candidate, and these very correspondents will cast their votes in his favor, honestly, no doubt, and believing that they are supporting the best man, while forgetting that at the same time they are helping to keep in power the Government they have denounced.

The Toronto Globe said some time ago that the overthrow of the Ross Government in Ontario proceeded from within, and was the work of Liberals who could no longer endure its persistent and glaring corruption. If that be true, as it no doubt was to a great extent, there are hopes that when the opportunity occurs, the same treatment will be meted out to the far more corrupt government at Ottawa; a government, moreover, which has neglected to keep its promises, even to its friends, except when it has been compelled to do so, but which allows its friends to help themselves out of the public purse and grow rich on it, and which stands in the way of all efforts to bring them to an account, and is thereby, as the Toronto News says, "a candidate for the penitentiary." If corruption and graft in political circles is displeasing to the electorate we need no sermons to acquaint it with the fact, or to tell it why it should be so. The remedy is with the voters themselves, and if they are pure and honest it will be applied; not otherwise.

PRESS OPINIONS.

RATS IN THE GRANARY.—"Wherever there is a granary there are rats. No human provision can avoid their presence and only the keenest watchfulness can prevent their depredations. The present Dominion Government is not exempt from the annoyance and the danger. Every year the greedy horde increases and greater effort is necessary to foil their attempts. And in spite of all vigilance some are bound to be successful. It is impossible to guard every cranny all the time. But it is possible to inflict severe punishment when evil-doing has been discovered.

"In the light of the charges brought by the Opposition during the present session, inspired by political hatred though they may be, he is no true friend of the Government and no true patriot who contents himself with shrieking denunciations of the 'murderers' and wholesale denial of their charges. The charges may be wholly false; it is certain that some of them have no foundation outside of party spite. But in the interests of the Government and of the country they should be investigated and any whom the taint may touch, no matter how high they may be, should receive their just reward.

"It is useless to deny that this North American Trading Company deal and that sumptuous trip of the steamer Arctic, for instance, are calculated to arouse popular suspicion. On their face it seems impossible that somebody in each case has not imposed upon the Government to his great profit. Sir Wilfrid, then, whom no man is more zealous for purity in his administration, recognizes this, and has ordered searching inquiries. But there are Liberals of lesser note and of lower motives who profess to see no ground for investigation and no possibility of any misconduct on the part of Government officials. These are enemies alike to their party and the Dominion."—St. John Sun.

SIDE-LIGHTS ON RAILWAY RATES.—At a recent meeting of the Committee on Agriculture at Ottawa, Mr. Gordon, M.P., gave evidence as to railway rates which in one respect was a tribute to the usefulness of the Railway Commission, and in another suggested a direction in which the Commission might act. The rates on live stock and grain from points in Ontario to the seaboard have been materially reduced, the reductions averaging from \$3 to \$10.50 per car. The reductions have already had the effect of increasing the returns which the Ontario farmer gets for his products. Before the reductions were made Chicago prices for wheat, oats,

and live stock invariably ruled higher than those in Ontario. Now the reverse is the case. At the present time live hogs are fully 75 cents per hundred higher in Ontario than in Chicago.

This part of Mr. Gordon's evidence was most satisfactory. The other feature of transportation with which he dealt, however, leaves something to be desired. He pointed out the discrepancy between the rates on east-bound and west-bound produce. The rate on wheat from Calgary to St. John, N.B., Montreal, or Portland, is 46 1/2 cents per hundred pounds. But the rate to Calgary on beans from the counties of Kent, Essex, Elgin, and Lambton, where it is as important a crop to the farmer as wheat is to the Northwest farmer, is 89 cents a hundredweight. It is, of course, prohibitive, especially as the rate from Tacoma or San Francisco is 54 cents. This is all the more inexplicable because it would be thought that to equalize the bulk of east-bound and west-bound traffic rates on the latter would be put at a figure that would tend to encourage it. Instead of that the rate is prohibitive, and cars go back empty that might be earning something hauling beans and promoting interprovincial trade. The same conditions prevail with regard to barley and malt. Under existing conditions the farmer in Manitoba cannot grow barley and ship to the coast, nor can the Ontario farmer ship his barley to the west. The railways, Mr. Gordon said, when these facts are pointed out to them, plead that the duty on soft coal adds enormously to the cost of railway operation, and materially prevents them from lowering their rates.—Toronto Globe.

The Goderich Signal, a Government organ, admits that the expenditures made by the Laurier Government upon the St. Joseph Harbor are money wasted. It appears that a speculator induced Sir Wilfrid Laurier to build a wharf and to lay the foundations for an artificial harbor at this place. The entire harbor system has since been washed away. The Signal says: "The harbor is useless commercially, and the Government has nothing to gain politically by expending money there, for the people of the vicinity simply laugh at the idea of making a harbor at St. Joseph."

Correspondence

To the Editor of the Chronicle:

Sir,—I wish to make a suggestion through your columns to the City Council to take into consideration the embellishment of the Governor's Garden, Des Carrières street, where the monument to Generals Wolf and Montcalm is erected. The four streets surrounding the Garden should be widened and the coupling taken away altogether, allowing asphalt to be around the Garden with a circular wall similar to the Parliament grounds in front of the main entrance as accommodation will be required. The pavement ought to be similar to what is in front of the Frontenac luggage room on this street leading to the Terrace, it being grooved carries the water away in rainy weather. This ought to be attended to without delay. The pavement ought to run back to the front of the monument as it will help great results and will not be a costly affair and the stone could be utilized to extend the Terrace to the Parliament Park, which has to come sooner or later.

CITIZEN.

The Fatality Of Indigestion
WHICH ALMOST INVARIABLY
ARISES FROM LIVER AND
KIDNEY DISORDERS.
Dr. Chase's
Kidney-Liver Pills.

From insurance records it has been found that about 35 per cent of the deaths of policyholders was attributed to diseases of the digestive system. To persons who have been accustomed to think lightly of indigestion, biliousness and liver derangements this statement will be rather startling, but it cannot be refuted.

To a large extent the liver controls the digestive system by supplying the bile to insure the prompt passage of the food along the intestines, where the difficult part of digestion takes place.

Because of their immediate and direct influence on the liver, Dr. Chase's Kidney-Liver Pills insure a good flow of bile, and by so doing positively overcome constipation and intestinal indigestion.

Wind on the stomach, rising of sour taste in the mouth, smothering sensations in the chest, pains about the heart, headaches and dizziness, drowsiness and discomfort after meals and sluggish action of the liver, kidneys and bowels are the symptoms of this serious and dangerous form of indigestion.

Mr. W. B. Manson, Mansonville, Quebec, writes:—"I have used Dr. Chase's Kidney-Liver Pills for indigestion and liver and kidney troubles and been greatly benefited. They are the best medicines for such ailments that I have ever used. We keep them in the house for immediate use in case of emergency."

Mr. Xavier Morin, Baie des Bacons, Que., writes:—"I cannot tell you in a letter what great good I have obtained from using Dr. Chase's Kidney-Liver Pills. For five years I suffered from backache, kidney and liver disorders and headache. I was almost driven to despair with pain and suffering."

"I have great confidence in Dr. Chase's Kidney-Liver Pills since they have proven so effective in my case and desire to recommend them to others."

Dr. Chase's Kidney-Liver Pills will promptly overcome these symptoms. One pill a dose, 25 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

THE CHARGE OF THE BRIGHT BRIGADE.

Half a league, half a league,
Half a league onward,
Down into old St. Roch's
Rode the six hundred.
What though it blew a gale,
With faces keen and pale,
To Paquet's Bargain Sale
Rode the six hundred.

Bargains to right of them,
Bargains to left of them,
Bargains surrounding them,
All the crowd wondered.
None stopped to reason why,
Knowing how time does fly,
They had come down to buy.
Brilliant six hundred!

In that excitement tense,
Each earned a recompense,
Some dollars saved—some cents,
N'er a one blundered.
Clerks came at beck and call,
Quickly to wait on all,
Whether short, stout or tall,
In that six hundred.

And when the day was o'er,
And when that looked the door,
With purchases galore
Homeward they wandered.
Some walked and some did ride,
Every one full of pride,
Paquet had satisfied
All the six hundred!

How About a Nobby Handbag.

This is an absolute necessity to the busy shopper. Did you ever notice, in a crowded car or on the street, how a woman's character may be read in the handbag she carries? Well notice next time—you'll see the bright, vivacious woman, everyone likes to meet, always a trim, fresh-looking handbag, while the sour-faced uninteresting one with the pug nose and frackles invariably needs a new one. No excuse when such values as these are in evidence. How about yours?

5 dozen Ladies' Handbags of solid leather, colors brown or black, small coin purse inside, regular price \$1.50, Challenge Sale Price, only..... 89c.

25 dozen—Ladies' Handbags of fine imitation leather, nickel mountings, regular price 20c. each, Challenge Sale Price, only..... 10c.

Artificial Flowers.

You may choose from our immense assortment of Flowers for Hat Trimmings, including the best grades of imported Flowers in all the delicate shades so popular this season. This assortment is the largest and finest in Quebec and the prices range from 30c. to \$5.00. Your choice during the Challenge Sale at a discount of..... 25 p.c.

Ladies' Extra Special Silk Waists.

DAINTY Japanese Silk Waists in all the newest and most desirable styles—some open down the front—some back-opening—all this season's newest creations, made in our own workrooms by experts in the art of waist-making. These waists are carefully finished in every detail, and represent the best value obtainable at the prices we are asking you—prices which cannot be matched anywhere, for equal quality. As this supply is limited, we would suggest that you come as early as possible, and avoid the possibility of missing this opportunity.

Ladies' Waists of fine quality white Japanese Silk, tucked back, front made with wide graduated tucks, box pleat, elaborately trimmed with silk embroidery, new sleeves with deep, fitted cuffs, Challenge Sale Price, only..... \$2.35

Ladies' Jap Silk Waists, heavy quality, side opening, tucked back, front of allover pin tucks, panel effect of fine insertion edged with Valenciennes lace, new sleeves, deep tucked cuffs, trimmed with lace and insertion, Challenge Sale Price, only..... \$4.25

Men's Fancy Shirts.

Men's Fancy Soft-bodied Shirts, great variety of neat patterns, old sizes left from our regular 50c. line, which have proven so popular this year. Extra value at the regular price 50c., Challenge Sale Price each..... 34c

Ladies' Waists of fine quality white Japanese Silk, back opening, front made with graduated tucks, new sleeves with deep cuffs, yoke, collar and cuffs trimmed with fine Valenciennes insertion, Challenge Sale Price, only..... \$1.90

Ladies' Waists of fine quality white Japanese Silk, back opening, front tucked, yoke effect front and back, made with rows of fine Valenciennes insertion, new full elbow sleeves, cuff and collar trimmed with Valenciennes lace, Challenge Sale Price, only..... \$3.50

Boys' Suspenders.

Boys' fine elastic web Suspenders, well made and very strong, mohair or leather ends, as preferred. This is your opportunity to get the boy an extra pair for his Sunday pants, well worth 15c. a pair, Challenge Sale Price, only..... 8c.

And Don't Forget the Basement.

Economy rules with a free hand in this department. Every way you turn you will find something of indisputable usefulness at the most absurdly low prices. For example, look at these:—

Wooden Potato Mashers, "the cook's standby," regular price 12c. Special..... 8c.

Household Ammonia, do you need some? Regular price 10c. a bottle, Special..... 5c.

Dainty Glass Dishes, suitable for ice-cream, regular price 7c. Special..... 4c.

White Ironstone Platters, good size, regular price 20c. each, Special..... 15c.

Babbitt's "1776" Soap Powder, indispensable in every home, regular price 5c. a pkg., Special..... 3c.

Special Snaps in Men's Soft Hats.

We have secured a special lot of Men's Soft Hats at a very attractive price and will include these in the Great Challenge Sale, while they last. These are all of fine quality, the color is oxford grey and the sizes are from 6 1/2 to 6 3/4 only. The facings are of best quality and the sweats are of fine Russia leather. The regular price of these hats was \$1.25. You may have your choice of only 3 dozen at the Challenge Sale Price..... 49c.

New Straw Hats, Boater Shape.

5 dozen Men's Straw Hats in the new and popular Boater shape, fancy bands, good quality, a genuine bargain at our regular price which was 25c. each. The season has hardly commenced, and yet you are offered your choice of these fashionable straws at less than half the regular prices. Challenge Sale Price, while they last, only..... 10c.

Nobby Neckwear.

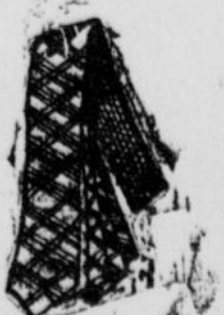

Men's Silk Ties in the popular Derby shape, all in fancy patterns, large assortment to choose from, regular price 25c. each, Challenge Sale Price, only..... 16c.

Men's Pure Linen Handkerchiefs.

Who ever saw a pure linen handkerchief for 7c. before? Did you? Well that's what we are going to offer you this week. These are 20 x 20 inches, guaranteed absolutely pure linen. Our regular price was a matchless value at 15c. each. You may have these at the Challenge Sale Price, while they last, only..... 7c.

Ladies' Tan and Brown Kid Gloves.

20 dozen—Ladies' Kid Gloves, colors tan and brown only, almost all sizes, very fine quality, 2 dome fasteners, price 75c. each, Challenge Sale Price, oversewn seams, gusset fingers, regular only..... 48c.

COOK'S CIRCULAR NOTES. Offer a safe and convenient means for carrying money. They are CASHED all over the world.

F. S. STOCKING, 32 ST. LOUIS STREET, Gen'l. R.R. and S.S. Agent

FOR SALE—A NEW SET OF THE Encyclopedia Britannica, Times Edition, can be seen at Chronicle Office, will be sold at a very great sacrifice.

FOR SALE—FIRST CLASS MODERN self-contained houses, on Park Avenue, stone and brick. All modern conveniences. Also first-class building lots. Apply to Mr. Walter Sharpe, St. Louis Road.

FOR SALE OR TO LET.

FOR SALE OR TO LET—THE UPPER portion of a very comfortable house, No. 31 Bridge street, containing 11 large rooms, bath, gallery, and large yard, etc. Apply to No. 49 St. Louis street.

FOR SALE OR TO LET.—THAT magnificent residence formerly occupied by Mr. O. E. Talbot, is offered for sale or to rent during the summer season. All modern improvements, 12 rooms, bath room, furnace, etc. For information, apply to Joseph Lamontagne, St. Michel, Bellechasse.

AN EXCEPTIONAL OPPORTUNITY. A unique property for sale. The magnificent property, known as the Pensionnat de Notre Dame du Bon Conseil, at St. Thomas de Montmagny, on which the works of repairs and enlargement have been finished for some time, is now offered for sale. These works had been undertaken for the installation of a branch of the Convent of Notre Dame du Bon Conseil at Chicoutimi. Mr. Charles Vezina, contractor, 117-121 Bridge street, Quebec, has through certain circumstances acquired the property, and would be disposed to sell it. It is without contradiction one of the finest establishments in the district. A pretty chapel connected with it which is a veritable gem has been built there. The establishment is provided with all the modern improvements, baths, hot and cold water everywhere, as well as electric lighting and warm water heating. A part containing a hall and drawing rooms has been specially divided off for the use of the director of the establishment and the other part contains class and study rooms and dormitories, and can accommodate between 40 and 50 boarders. The property is situated about a mile from Montmagny station. A spacious group of two apartments by day belongs to it and a superb wood in an elevated and most healthy situation. It is a unique opportunity for a pensionnat, a religious community, a hospital, a sanatorium, or a deaf and dumb institution, etc. Apply to Mr. Charles Vezina, 117-121 Bridge street, Quebec.

NOTICE

Is hereby given that the Pier at the mouth of Cap Rouge River is submerged as well as the other deep water Pier that was there up to last winter at the end of the long wharf. The position of the pier at the mouth of the Cap Rouge River is as heretofore shown by a flat buoy by day and a white light by night, and the position of the deep water Pier recently taken at the end of the Long Wharf is in a straight line with the said flat buoy and about 600 feet to the west.

Cap Rouge Wharf and Pier Co., N. FLOOD, Manager.

WILL BE A RECORD

The Virginian Passed Fame Point Early This Morning ---Due Tonight.

The Allan R.M.S. Virginian, Captain Vipond, passed Fame Point at one o'clock this morning, and is due in port at ten o'clock to-night.

ALLAN LINE.

Steamer Sicilian, Captain Fairfull, arrived from Montreal yesterday afternoon, and after embarking Quebec passengers, proceeded for Glasgow.

R.M.S. Ionian, Captain Nunan, will leave the Allan wharf at six o'clock this afternoon for Liverpool, with passengers and general cargo.

DONALDSON LINE.

Steamer Athenia, Captain McNeill, from Montreal and Quebec, arrived at Glasgow on the 25th instant.

Steamer Marina, Captain Taylor, sailed from Glasgow on the 26th instant for Quebec and Montreal.

GASPE LINE.

Steamer Gaspeien, Captain Bouchar, arrived from Montreal yesterday morning, and moored at the Champlain market wharf. Having taken on board Quebec passengers and cargo, she left for Gaspé and way ports yesterday afternoon.

QUEBEC TRANSPORT LINE. Steamer Puritan, Captain Steidelman, from Swansea, via Sydney, C. B., passed Fame Point at 12:45 p.m. yesterday, and is due in port this morning.

IN-DISTRESS.

St. John, N.B., May 30—Schooner W. N. Zwickler, Ennawau, from Barbados for Quebec, with molasses, put into Lunenburg, N.S., Monday in distress, with loss of sails and part of cargo shifted during a recent storm. She also landed a sick man.

SCHOONER WRECKED.

Funcha, Island of Madeira, May 30—The British steamer St. Oswald, arrived here to-day and landed the crew of the abandoned British schooner Canadian, Captain Connelly, from Cadiz, May 16th, for St. John's, Nfld.

TWENTY-TWO LIVES LOST.

Concepcion, Chile, May 30—The British ship Lismore, Captain Cowell, from Melbourne, April 21st, for Corral, has been wrecked at Santa Maria. Twenty-two of the crew were drowned, including all the officers, except the first mate, who with three members of the crew landed at Llico.

SCHOONER WRECKED.

Charlottetown, May 30—The schooner Thetis was totally wrecked off Louisbourg Light, the hull breaking up. Capt. Cain, his son William and Joseph Lauri, all of Summerside, were drowned. George Hurray was alone saved. The Thetis was 98 tons, owned by Capt. Joseph Read & Co., Summerside. She left Hawkesbury a week ago with produce for the Dominion Coal Co.

STEAMER WRECKED.

Albany, Channel Islands, May 30—Many lives are reported lost in a wreck of the steamship Heros, which went ashore on one of the Channel Islands to-day. The loss of the steamship was a total wreck. Captain Nystrom and crew, besides several passengers, attempted to get to land in boats. These were capsized and few, if any, escaped drowning. The Heros cleared from Ergastira, Greece, for Liverpool, England, May 1. (The Heros, Captain Nystrom, was well-known in the St. Lawrence trade, having been a regular visitor to this port for some years.—Ed. M. C.)

ACCIDENT TO STEAMER MONTREAL.

Just after the R. & O. Navigation Co.'s steamer Montreal left Three Rivers yesterday morning, an accident occurred to her steam steering gear, whereby it became disabled. As the pilot did not like to proceed through the Richelieu steering by hand power, it was decided to return to Three Rivers and forward the passengers to Quebec by train. After all the passengers were landed the Montreal left for Sorel, steered by hand, to have her steam steering gear put in order. She will resume her place on the route to-day. No boat of the line left here for Montreal yesterday afternoon.

FISHERMEN MISSING.

Sydney, N.S., May 30—Late yesterday afternoon the Gloucester fishing schooner Olga arrived at North Sydney with her ensign floating dismally at half mast in token of the loss of eight of her crew, nearly half of her entire complement of men. The vessel was fishing about 12 miles off Cape North on Saturday, all her dories, containing twelve men, being out. In a short time an impenetrable fog rolled in and separated the men from the schooner. Search was immediately instituted for the missing men and about an hour afterwards one dory with four men was found. For two days search for the other eight men

was kept up, but without avail and the captain giving the men up as lost proceeded to North Sydney. The names of the missing men are:—Arthur Winch, Port Westward, N.S.; Robt. Beck, Newfoundland; Harry Hobbs, John, ston, Gildard and Amos Ware, Lunenburg; George Rose, Newfoundland, all unmarried, and two others whose names are not known.

LARGE ICEBERG.

New York, May 30—In mid-ocean Sunday the officers of the Hamburg American liner Kaiserin Auguste Victoria, which left New York last Thursday, for Hamburg, sighted a immense iceberg. The exact location of the monster berg was latitude 40 degrees, and 51 minutes, north, and longitude 49 degrees and 40 minutes, west. This information—Captain Kopff, of the Kaiserin Auguste Victoria, sent by wireless telegraph to the North German Lloyd steamer Kron Prinz Wilhelm, on her way to New York from Bremen, and asked Captain Richter, of that vessel to notify all outgoing steamers of the position of the dangerous berg. Capt. Richter communicated the news through the Siasconnet, Mass., wireless station last evening.

NOTES.

Steamer Roman, Captain Roberts, sailed from Antwerp on the 27th instant for Quebec.

Steamer Carrigan Head, Captain Orr, from Quebec, arrived at Dublin on the 28th instant.

Steamer Bellona, Captain Roth, from Quebec, arrived at Leth yesterday.

Steamer Iona, Captain Cummings, sailed from Shields for Quebec and Montreal on the 26th instant.

It is said that the steamer Bavarian, ashore on Wye Rock, near St. Thomas, will be sold by auction for the benefit of the underwriters, in a few days.

Steamer Lord Iveagh, Captain Minister, arrived from Montreal yesterday afternoon, and proceeded for Cardiff.

Steamer Glenarm Head, Captain Eyles, left port yesterday morning for Belfast.

Steamer Mystic, Captain Abbott, arrived from Montreal yesterday and proceeded for Sydney.

Tug Florence left for the Saguenay yesterday afternoon, with two barges in tow.

Schr. Helen Shafner, Captain De Costa, now on passage from Porto Rico, has 366 puncheons, 43 tierces and 72 barrels of molasses for this port.

Steamer Cataract, from Erie, Pa., with coal for Quebec, passed Port Colborne on Tuesday evening.

When Seven Men Die

You know at least one of them had Consumption. At first it was only catarrh—but it was neglected. When "Catarrh" cures so quickly it's foolish to suffer—it's a shame to keep on smothering and hawking. Catarrh goes direct to the cause of the disease—that's why it's so dead certain to cure. It stops the cough, prevents that disgusting discharge, clears phlegm out of the throat in five minutes. Very pleasant, and safe too; get Catarrh from your druggist to-day.

STOVES! STOVES!

GRAND OPENING OF A NEW STORE

—BY—
M. EUSEBE PICARD,

Founder and Manufacturer of the Steel Stove
L'ECONOME No. 35 ST. JOSEPH STREET.

SATISFACTION AND ECONOMY

The new establishment of Mr. Picard, Quebec's well known founder, is open at No. 35 St. Joseph Street, where the public are invited to examine a considerable assortment of Stoves, L'ECONOME (Steel) GLENWOOD (Cast Iron) PENN ESTHER, PLAIN, also REFRIGERATORS, NICKELED KITCHEN UTENSILS. The steel Stove L'ECONOME is the most perfect and most modern one. It gives satisfaction to the housekeeper as the cooking of all food cannot be surpassed, economises the fuel and as the embers are shaken from the ashes in the stove, no dust spreads through the house. We have also a special Steel Stove for firewood.

A Visit is Solicited.

IN AND ABOUT TOWN

ELOQUENT SPEAKER WALK WAS ON FIRE

Rev. A. N. Marshall, of Australia, Addresses Y.M.C.A. Anniversary.

There was a fairly large attendance at the 36th anniversary meeting of the Y.M.C.A., which was held last evening in the spacious hall of the institution. The meeting was presided over by Mr. R. B. Lindsay, President of the Association, and the opening exercises were conducted by the Rev. I. M. Thompson and the Rev. E. P. Hammond King.

A number of interesting extracts from the last annual report were read by Mr. H. H. Distin, the Secretary, with a view to showing the progress and extent of the work being carried on by the local Association. The chief feature of the evening was an address by the Rev. A. N. Marshall, of Adelaide, Australia, who has been commissioned by the International Committee to visit the various branches of the Y.M.C.A. in Canada. The reverend gentleman, who is one of the leading ministers of the Australian Commonwealth, is an eloquent, forcible and interesting speaker, and his address last evening was an earnest one. He made a direct appeal to the young men, his remarks being listened to with the deepest attention throughout as he propounded, in terms suitable and stirring, what he termed a gospel for the young man.

ACKNOWLEDGMENT.

The Treasurer of the Firemen's Fund thankfully acknowledges the receipt of \$5 from Lieut.-Col. Duchesnay.

ALL PAID UP.

Three prisoners, charged with drunkenness, were before the Recorder yesterday. They were fined \$5 and costs each, which they paid.

NEPTUNE QUICK LUNCH.

Soup, Ham, Tongue, Fried Oysters with Bacon. "Kinderlin's Gin." We receive Oysters daily.

CARELESS RIDING.

Mr. N. Benoit was knocked down by being run into by a bicyclist yesterday morning near the cross wall at the Louise Basin. He complains that the bicycle was not equipped with a bell and that the rider gave him no warning of his approach.

FISHING AT THE LAURENTIDES.

Mayor Garneau is amongst the many Quebec anglers who have been enjoying good sport with the trout during the last few days. Strange as it may appear, the weather along the line of the Lake St. John Railway has been much warmer during the last week than in the city, and since Saturday and Sunday last the fish have been rising freely, especially at the Laurentides.

SLOT MACHINES.

A man who kept a slot machine for cigars in his restaurant in St. Roch's, was before the Police Court yesterday charged with keeping a gaming house. He pleaded guilty and was fined \$50. The machine was seized in a tobacco store in St. Roch's. The proprietor appeared before the Court and pleaded not guilty to the charge of keeping a gaming house. The case was fixed for proof.

JAP-A-LAC.

Jap-A-Lac is durable, easily cleaned, and a great preservative of wood. For sale by Chin Hardware Co., Branch store.

CORONER'S INQUEST.

The District Coroner, Dr. Jolicoeur, held an inquest at Riviere a Pierre yesterday on the body of Joseph Levesque, 28 years of age, of St. Felicien, whose death by drowning has already been reported. A verdict of accidentally drowned was returned. The Coroner has also been notified of the sudden death of a woman at St. Raymond and an inquest will be held.

MILITIA NOTES.

Militia orders announce the nomination of Lieuts. S. J. N. Francoeur to the 9th Regiment, J. G. R. Rochette, L. D. Methot and H. Charland to the 80th of Nicolet. The retirements of Lieuts. Carudel and C. E. Caron, of the 86th of Three Rivers, J. L. Lorne of the 87th of Quebec, and B. Rene of the 80th of Nicolet, are announced. Lieut.-Col. Laurin, R.O., Quebec, has been named commandant of the 20th Brigade of Infantry of Quebec.

PARTNERSHIP FIRMS.

Dame Golde alias Jennie Wittes, of the city of Quebec, wife separated as to property of Nachman alias Nathan Klineberg, of the same place, trader, and by him duly authorized, intends carrying on business alone at Quebec, and elsewhere in the district of Quebec, as trader in dry goods and family supplies, under the firm name of "The Klineberg Company." The "Le Club St. Louis" was incorporated in the Province of Quebec, by letters patent granted on 15th March, 1906. Its principal place of business is in the city of Quebec, Province of Quebec. The above declaration was filed in the Prothonotary's office here, and signed by the President of the said club, Dr. N. A. Duhaime, at Quebec, on the 5th day of April, 1906.

mental machinery all day
"THERE'S A REASON."

Promenade Under the Citadel Wall Was Threatened With Destruction.

The "board walk" under the walls of the Citadel, at the end of Dufferin Terrace, had a narrow escape from destruction by fire yesterday afternoon, that portion of it in the vicinity of the last stairway at the extreme end near the Cove Fields having caught from burning grass, while another portion, some distance this side, was for a time threatened from the same source. The fire was discovered about 3.30 p.m. by Mr. Michael Carrol, who was passing along on his way to the Terrace, and the stairway was then on fire and burning briskly. He at once hurried down to the Terrace and informed Constable Ed. Power, who sent in a telephone call to the Central fire station. A number of men with axes and babcock at once went to the scene. Owing to the isolated situation of the fire and the absence of any hydrants in the vicinity, the work of fighting the fire was somewhat difficult and had the wind been at all high it is very likely that a large portion of the lofty promenade would have been completely destroyed. The firemen at once set to work with their axes and cut away a portion of the stairway, throwing the burning planks over to the cliff, after which a babcock completed the extinction of the blaze. Meanwhile the fire among the grass, which was extending under the woodwork and threatening the other portion of the walk, was beaten out and all danger in that place was thus cut off. The fire among the grass extended in all directions along the face of the cliff, but was subsequently stamped out by a crowd of boys who had gathered to see the fire and who speculatively volunteered their services, which were very effective, though their temerity in approaching the very brink of the steep incline made some of the onlookers shudder. How the fire started in the grass is unknown, and whether it was caused by a careless smoker or was the work of boys no one could tell. The fire must have been burning for some time when discovered, and large volumes of smoke were rising from the burning grass and woodwork. That the blaze was not seen sooner seems somewhat strange, for there were many people on the Cove Fields.

About seven o'clock last evening the firemen were summoned back to the same locality, the fire having again broken out among the grass. 1500 YARDS OF TWEED AT ONE PRICE. The most elegant and select designs of tweeds, worth up to \$3.00 are now going over our counters for \$1.58. You might see them and then buy them.

SYNDICATE OF QUEBEC.

Lafrance & Mullin are showing the smartest London Straw Hats made by Tress & Co. for Bond street connoisseurs.

SEIZURE OF BREAD. Some 84 loaves of bread were seized in St. Malo last night for being under weight.

MEMORIAL DAY.

Yesterday was Memorial Day in the United States and as a result the different stock exchanges were closed.

SPRING NEEDS.

Rubber and cotton hose, all sizes, best quality; garden tools of all descriptions; poultry netting and fencing, two to six feet high; window fly screens, all sizes; lawn mowers, lawn sprinklers, wheelbarrows, etc., etc., to be had at Chinie's.

THE ENGLISH SQUADRON.

A letter from Commandant Marges son, of the warship Good Hope, to the port authorities, announces that the Channel Cruiser Squadron will be unable to reach Quebec before two months owing to the annual naval manoeuvres, which will not close until the end of June. The fleet consequently is not expected here before the end of July.

ARM CRUSHED.

News comes from Isle Verte to the effect that an eight-year-old boy, son of John Irvine, pilot, met with a serious and painful accident there a couple of days ago, having his arm caught in some machinery and so badly crushed that it was found necessary later to amputate it.

BATH ROOM SPECIALTIES.

Shower bath rings and sprays. Soap holders. Toilet paper holders. Nickel towel bars. Glass towel bars. Match holders, toilet. Rubber mats and matting, etc., to be had at Chinie's Branch Store.

FATAL ACCIDENT.

C. A. Bedard, clerk of St. Roch, received a letter yesterday announcing that his brother, P. Z. Bedard, who had been residing for a couple of weeks only in Norfolk, Va., was the victim of a fatal accident on Saturday last. The deceased was employed as cook on a vessel and while passing along the deck, fell down an open hatchway and was almost instantly killed.

CORPUS CHRISTI PROCESSION.

In the various city parishes preparations are already under way for the annual Corpus Christi procession. In some the route of the procession has been announced. In St. Sauveur it will pass through Massine, St. Valde, St. Joseph, Boulevard, Bedard, St. Anne, Tontine, Avenue Taschereau, St. Germain, Dollard and Duquesne streets. Reminiscences will be created in St. Ambrose and St. Germain streets. In St. Malo the procession will pass through the following streets:—Avenue, Bonaire, St. Luc, St. Ignace, Montmagny, St. Bonaventure.

CIVIC COMMITTEES

Met at City Hall Last Evening and Discussed Various Matters.

Ald Fiset presided at the meeting of the Road Committee at the City Hall last evening, those present being Mayor Garneau, and Aldermen Madden, Mulrooney, Lavigne, Galipeau, Messervy, Picard, St. Pierre, Barbeau, and Campbell, members of the Committee, and Aldermen Duquet, Verret, Huard, Mathieu and Shink.

A letter was received from the city legal adviser, the effect that the wing walls of St. John's gate must be repaired by the Federal Government.

As regards the Champlain Monument, City Engineer Baillette stated that last year he had the necessary repairs made to the monument and at the suggestion of Mayor Garneau the City Engineer was instructed to communicate with Judge Chauveau, president of the Monument Committee, regarding the repairs suggested by the latter.

A letter from Messrs. Gignac & Beland, referred back by the Finance Committee, and asking for the lease of a vacant property at the end of Dorchester street, was read as well as a letter from Mr. Gallagher, Superintendent of the Water Works, objecting to the lease as the main water pipe passes through the property. Messrs. Gignac & Beland offered to pay a rental of \$25 yearly for the property.

Aldermen Picard, Messervy, Galipeau and Madden objected to the request being granted as the superintendent of the water works objected to the change.

Mr. Chaloult, advocate, represented Mr. Preteux, who objected to the request, and Mr. Gignac explained his side of the case.

After hearing argument on both sides, Mayor Garneau remarked that the portion required by Messrs. Gignac & Beland, might at any time be required by neighbors for building purposes and as it was part of a street, their request could not be objected to. On motion of Ald. Madden the request was refused.

Several applications were made for electric lights but, as the Chairman remarked, there are too many demands for the money at the disposal of the Committee.

Ald. St. Pierre asked that a lamp be placed at the corners of Queen and Dorchester streets, but the Committee had already decided not to grant the requests for electric lights. Ald. Huard also asked for lights on Octave street and Boulevard Langelier and met with the same result.

Ald. Lavigne asked that St. Oliver street be repaired and in support of his request remarked that the procession on Feil Day this spring was passing through that street. It was decided to make temporary repairs in that street and in other streets through which processions were made.

Regarding the widening of St. Paul street, Mayor Garneau remarked that this street, opposite the C. P. R. property, was widened and had to be put in proper state. The firm of Ludger, Gravel & Co. had offered to lay 200 yards of asphalt as a trial, in any street, and he would suggest that the latter firm be given a trial and if the work was satisfactory be given the asphalt of that portion of Paul street.

Ald. Messervy asked who was responsible for the keeping of sidewalks on the Ramparts, facing the river, as some of them were in very bad order and needed immediate repair. Mayor Garneau replied that the Federal Government were responsible for that part of the city, and the City Engineer was instructed to write the Federal authorities on that subject.

Before adjournment of the Committee Ald. Campbell asked that the repairs to St. Ursule street be attended to as already promised.

WATER WORKS COMMITTEE.

Ald. Lemay, presided at the meeting of this Committee, and the members present were Mayor Garneau, ex-officio, and Aldermen Mathieu, Shink, Huard, Duquet, Campbell, and Mulrooney.

A deputation from the municipality of Notre Dame de Quebec was introduced, the deputation consisting of Mayor Bazin and Councilors Arch. Miller, Brown, Drolet and Mr. L. Taschereau, Secretary-Treasurer.

The deputation asked that the water rates imposed on the municipality for the supply of water from the city, be reduced.

Mayor Garneau remarked that the municipality benefited considerably from this city, such as the fire brigade, police protection, if required, and moreover, the residents would never have benefited from the electric service if the city had not given it a franchise through the city.

Councillor Miller replied that the municipality of Notre Dame could not be placed on a same footing as St. Sauveur. As regards the electric system, it was originally intended to stop the electric line at de Salaberry street, but it was the municipality which had given the electric company leave to pass on Maple Avenue. Moreover, the city drew a revenue from the municipality without bringing out to any expense as the latter had paid for the laying and repairing of pipes.

Ald. Shink thought that it must be remembered that the fact of supplying water to the municipality deprived the city from a certain quantity of that necessity.

Ald. Duquet was not in favor of increasing the water rate in the municipality until more water could be supplied, but he was against any reduction in the present rates, which are the same as those paid by the citizens, 12 1/2 for water and 3 per cent. for drainage.

Mayor Bazin suggested that a lump sum be charged the municipality.

Mayor Garneau replied that in the interest of the city they could not think of imposing a fixed rate.

Councillor Brown was of opinion that if the city dropped the 3 per cent. on drainage, many more residents of the municipality would take the water from the city, as at present there are only 125 residents who are supplied with the city water.

The delegation then withdrew and the matter was left in abeyance.

Ald. Mulrooney drew the attention of the Committee that there was no water on Champlain Market for carter's horses, and was informed that the ground was still frozen there. In Prince Edward street the ground was

(Continued on Page Ten.)

How Good Food may turn to Poison

DECAY is not digestion. you know, even when it takes place in the stomach.

Food decayed in the body after being eaten is as dangerous to health as food decayed before being eaten. Food nourishes or poisons, just according to how long it remains in the bowels undigested.

Cascarets are the simplest and surest safeguard against Delayed Digestion yet discovered.

Sold in a thin Enamel Box, half as thick as your watch, which fits into the vest pocket or lady's purse as if it grew there.

In this round-edged Enamel box are found six small Candy Tablets.

One of these toothsome tablets works wonders for digestion.

Soon as placed in the mouth it starts the Saliva flowing, which at once gets to work dissolving it.

The Saliva becomes blended with the Candy Cascaret tablet, and from the moment they start going down your throat together they start working together.

Now, what do they work at? Bowel-work, of course.—Digestion.

Some folks think Digestion takes place in the Stomach only.

But that's a great mistake! Most of the Digestion occurs in the thirty feet of Intestines that connect with the Stomach.

Now, these Intestines are 30 feet long, for a purpose.

They are lined with a set of little mouths, that squeeze Digestive Juices into the Food eaten.

The Digestive Juices thus mix with

the food, just as Saliva mixes with Candy Cascaret tablets dissolving and changing that food into nourishment, as it passes along the channel.

The Intestines are also lined with millions of little suction pumps, that draw the Nutrient from Food, as it passes them in going through.

This Nutrient is then carried into the Blood, and spread over the Body as Brain, Bone and Brawn.

But, when the Bowel-Muscles are weak, the Food moves too slowly to stimulate the little Suction Mouths and there is no flow, or too little flow of Digestive Juice, to change the food into nourishment.

Then, the food decays in the Bowels, and in the thirty feet of Intestines.

When this Decay begins the little suction pumps draw Poison from the decayed Food, into the blood, instead of the Nutrition it should have drawn.

Now, Cascarets contain the only combination of drugs that Stimulates these Muscles of the Bowels and Intestines just as a Cold Bath, or open-air Exercise, stimulates a Lazy Man.

Cascarets therefore act like Exercise. They produce the same sort of Natural result that a Six Mile walk in the country would produce, without any injurious Chemical effect.

The Vest Pocket Cascaret Box is sold by all Druggists, at Ten Cents.

Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "CCC."

A sample and the famous booklet "Curse of Constipation," Free for the asking. Address Sterling Remedy Company, Chicago & New York.

LOST IN LONDON

Thousands of Children Kidnapped Every Year by Beggars.

The number of little children missing from London homes must be appalling. In the year 1904 the number of lost persons restored to homes was 18,662, most of them being little children, who had been kidnapped for begging purposes.

A sensational proof of the fact that thousands of children are lost in London was supplied recently. A 3-year-old boy, well dressed, wearing a white fur coat, was found by a policeman and taken to the workhouse, where he became ill and died of acute meningitis, due to any injury to the forehead as the result of a blow or a fall.

A description was circulated, but the child was not claimed, and, after the inquest, the unknown little body was buried by the workhouse authorities.

Since the finding of the child was made public the City Road police station has been besieged by inquirers. Distracted parents, relatives, and friends have come to see the photograph taken after the death of the child, who was, they feared, their own missing boy. In fact, thousands of people have been there to see the photograph, but the child still is unknown.

The question arises. Where is this lost legion of children? That a thousand or even a hundred little ones can be spirited away from their homes and all of them lost absolutely is incomprehensible and to parents a terrifying state of affairs.

PAINTING WITH EARTH.

Where the Different Colors are Derived From.

The cochineal insects furnish a great many fine colors. Among them are the gorgeous carmine, the crimson, scarlet and purple lakes. The cuttlefish gives the sepia. It is the ink fluid in which the fish discharges in order to render the water opaque when attacked.

Indian yellow comes from the camel. Ivory chips produce ivory black and bone black. The exquisite "Russian blue" is made by fusing horses' hoofs and other refuse animal matter with impure potassium carbonate. This color was discovered accidentally.

Various lakes are derived from roots, barks, and gums. Blue-black from the charcoal of the vine stalk. Lampblack is soot from certain resinous substances. Turkey red is made from the madder plant, which grows in Hindoestan.

The yellow sap of a tree in Siam produces gamboge; the natives catch the sap in coconut shells. Raw sienna is the natural earth from the neighborhood of Sienna, Italy. Raw umber is also an earth found near Umbria, and burnt.

Indigo is made from burnt camphor. The Chinese are the only manufacturers of the ink. Mastic is made from the gum of the mastic tree, which grows in the Grecian Archipelago.

Bister is the soot of wood ashes. Chinese white is zinc, and isodine from quicksilver ore.

STORIES OF PLACES.

Pictorial Savages of New Guinea—Witchcraft of Manahiki.

Pictorial savages are among the people and things of which A. E. Pratt writes in "Two Years Among Guinea Cannibals." He says: "For the most

part their bodies were brown, but they were marked with peculiar patches, unevenly distributed. This marking might be due to a disease contracted from a too constant fish diet; but if it were a disease I could not discover that I gave any discount. Against this theory must be the fact, that I observed one man in which the light marking predominated. In fact, he was quite flesh-colored, like a European, and had light hair. These pictorial people were not a class apart from the rest of the Hula villages, but shared their life in every respect."

Louis Becke, in his "Notes from My South Sea Log," tells about the "soul-marer" of Manahiki. This strange contrivance is a delicate network of fine cane about two inches in diameter, with a small central hole. The wife of an aggrieved person makes a snare and suspends it in a prominent place, she and her friends throw fragments of food into the snare to attract flies. If one fly crawls through the central aperture the enemy will die unless his tormentors can be persuaded to make a fly go through in the opposite direction. But this means the payment of a heavy fine.

In a native Chinese paper this order appears:—"All articles of the Chinese papers public contemptuous articles about Chinese officials in order to spoil their reputation, not according to the regulation, hand them to us as evidence for interference with the consuls."

REBELLION IN RUSSIA

Isn't half as interesting to the man with corns as the knowledge that cure is guaranteed with every bottle of Putnam's Corn Extractor. Painless, safe and sold everywhere.

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take.

DOMINION PARLIAMENT DISCUSSES NEWSPAPERS

Mr. Foster Complains of Attacks
by La Presse and Le Canada

SAYS HE WILL TAKE ACTION

Bill to Amend Railway Act Referred to
Special Committee—Mr. Fitzpatrick's
Electric Exportation Bill Dead.

Ottawa, May 29.—Newspaper attacks on members were again the subject of reference in the House of Commons to-day. Mr. Foster was the complainant this time, and indicated that he would take further proceedings to-morrow or on some other early occasion. Mr. Foster has been the subject of a series of attacks in some of the Liberal French papers. These he described as being characterised by ingenuity, brutality and falsehood. He made special reference to certain reports in La Presse, signed "Blaise." In these he is referred to as incessantly throwing gratuitous slanders into the faces of the people of Quebec, because they are Catholics and French-Canadians. He is alleged to refer to the French-Canadians as fools and to their clergy as a collection of hypocrites and fanatics. Mr. Foster was further described as having only one principle, that of self-interest, and of belonging to a school of lying, hypocrisy and slander. This sort of stuff, Mr. Foster said, was spread through the Province of Quebec by means of a medium which goes into thousands of homes where no other paper is found. He further referred to the attacks on the Conservative members of Parliament, because they co-operated with him. Then he said that while La Presse was the worst, it was not far in advance of Le Canada. Le Canada has accused him of exploiting the lands of the West in connection with the Temperance Colonization Company and the Great West Land Company. The first of these was formed and had its existence before Mr. Foster entered Parliament. The Great West Company was his private business, and in which he became interested when he was not a member. Mr. Foster, in concluding, said that Mr. Brodeur and Sir Wilfrid Laurier could stop this sort of thing if they chose to, and intimated that further steps would be taken in the matter.

Mr. Emmerson's bill to amend the Railway Act, was to-day referred to a special committee, consisting of Mr. Emmerson, Sir Fred. Borden, and Messrs. Geddis, Johnston, Ross (Yale-Cariboo), Ingram, Maclean (York), Bureau and Zimmerman, a ter the Minister had proposed the amendments, one to extend the power of the Railway Commission in granting running rights to one railway over another's tracks, and the other in regard to municipalities' control over telephone lines.

Mr. Fitzpatrick's bill to regulate the exportation of electric power again gave occasion for a discussion on the Niagara power question, shared in by Messrs. Cockfield, Hyman, Maclean and German, in Committee of the Whole, which rose without reporting the bill, which is now dead.

The resolution of Mr. Fitzpatrick fixing the pay of penitentiary employees was considered at the evening session. There is a general increase in the pay of the officials under the rank of warden, in most cases at the rate of \$100 a year. The total increase amounts to \$37,550. Provision is also made for a staff for the new Alberta penitentiary at Edmonton. The resolution was adopted and a bill founded thereon was introduced and read a first time.

On the motion to go into supply Mr. Black (Hants) brought up again the matter of the Norwegians sharing in the Canadian coasting trade. He blamed them for the decline of the Maritime Province shipping industry. In reply to his remarks, Mr. Brodeur said that the matter of a bounty had been brought before the Tariff Commission and was now engaging the attention of the Government. He hoped that action would be announced at the next session of Parliament. In the further discussion that followed, views were expressed by Mr. W. F. Maclean in favor of a bounty on ship-building and by others in favor of putting an end to the reciprocity arrangement by which Norwegian ships are allowed to share in the Canadian coasting trade.

In Committee to supply the ocean and river service estimates were again taken up for the fifth time. There was more talk over the amount spent for ice-breaking at Fort William and Port Arthur, and for other services on the Great Lakes. In the course of the proceedings Mr. Taylor referred to two boilers bought by the Government for \$1,950 from Mr. Melville who paid for them only \$1,225. Mr. Taylor denounced this as a case of graft and wanted an investigation.

The item was held over to enable the Minister to get further information.

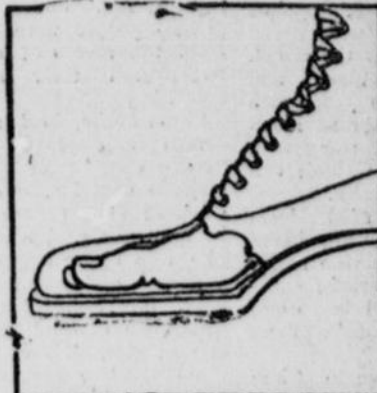

Then the Lighthouse and Coast Service was tackled. One item is \$250,000 for repairs and maintenance of lighthouses and lightships. Mr. Bennett, in connection, brought up the construction of the Magnesian lighthouse. This edifice was not built by contract, Mr. Bennett asserted that in the construction a tug really owned by Mr. Watson, member for Parry Sound, was used and paid for by the department, that the quantities of lumber charged for were not put into the work, that men were paid for work they did not do, and that the rates of pay charged were not those paid. Mr. Bennett wanted a committee to investigate the matter. Mr. Watson, in reply to this, asserted that Mr. Bennett's informant was Mr. Freeman, the defeated candidate, who was seeking revenge. He further affirmed that the work was economically done and that the men on it received only the wages they were entitled to. Mr. Watson later admitted that he was now the owner of the tug, for whose services \$200 was paid, and Mr. Bennett produced an advertisement which had Mr. Watson's name as owner. Mr. Bennett was done in October last. Mr. Bennett was told in reply to this that he should make a charge which the Committee of Privileges and Elections could investigate. In reply to this Mr. Bennett repeated that the pay list had been stuffed and that the certificate that the work was done according to specifications was signed by a Mr. Mc-

Foot-rite Toe Freedom Toes

"That's where the shoe pinches." Where? Everywhere in the ordinary shoe, which is merely a foot straitjacket, but principally in the toes.

The toes in nearly all shoes are not made wide enough, nor high enough, nor long enough, neither are they shaped like the toes. They're simply leather splints, straight and stiff on the bottom, soft, collapsible and round on the top, and tapering V-shaped to the front point of the shoe.

Into this low, stubby, narrow, tapering, squeezing, pinching, toe-deforming splint, man jams his toes either thoughtlessly or with vanity. What happens to those toes? Corns, unions, ingrown nails, twisted toes, and a few other choice pain-producers. Foolish shoe toes cause one half of all foot troubles. Ask your doctor.

The Foot-rite Shoe is a radical reform in shoe toe construction. Their toes are built long, wide and high and are formed precisely like the shape of the foot's fore-part. The toes

which inhabit them never touch the sides, nor the top nor the end except by voluntary muscular action. They touch only the bottom on which they lie flat, and free to move at will in any direction. And the arched roof over them is not made of paste and cloth as in other shoes, which quickly collapses into a shapeless, ugly mass and presses the toes. It's a canopy of pliable sole leather which sustains its arched form stubbornly, relieving the toes from roof pressure and abrasion and maintaining the shoe's box toe handsomeness. If crushed in a crowded street car—no matter—they'll rebound into shape.

Ask the Foot-rite retailer in your town to show you Foot-rite Toe Freedom Toes. His name's below. You'll find his door swinging inward but never outward to find a more welcome store.

Anywhere in America, Canada or Great Britain—\$4.00 and \$5.00. Every pair Good-year Welled.

F. SIMARD & CO., Sole Agents for Quebec.

Arthur, an employee of Mr. Watson. Mr. Arch. Campbell made some remarks, in ridicule of Mr. Bennett, and was reminded that his company sold flour to the Government. Mr. Campbell retorted that he sold it on easy terms. "And on easy inspection," said Mr. Bennett. Then Mr. Campbell said Mr. Bennett made statements about the Campbell Milling Company which he knew were false.

Col. Hughes made enquiries as to the price paid for gasoline by the department, and was told that it was 27 cents a gallon. Mr. Taylor said that the ordinary price was 15 cents to 18 cents a gallon at retail. Mr. Savoie said that gasoline of 76 degrees could not be got for less than 20 to 26 cents a gallon, and after some more talk the item for maintenance of lighthouses, etc., was passed, and at 12.50 the House adjourned.

The Tonic of Health

Must be more than a stimulant—must be a food as well. There is one medicine that is both a food and a tonic,—it aids digestion, promotes assimilation, converts food into nutriment that builds up nerves, blood, brain and bone. That tonic is Ferrozene which contains exactly what a run-down system needs. Ferrozene supplies oxygen to purify the blood, phosphorus to develop the brain, iron to harden the muscles. No wonder it makes such vigorous men and women. You'll eat, sleep, think and feel better by using Ferrozene; try it—now. Fifty cents buys a box of fifty chocolate coated Ferrozene tablets, at all dealers.

AUSTRIA HAS ITS OWN TROUBLES.

Vienna, May 29.—Emperor Francis Joseph, in a letter to Prince Conrad Von Hohenlohe-Schillingfurst, accepts the resignation of the cabinet and asks that the ministers carry on affairs pending the formation of a new cabinet. There is an unconfirmed rumor to-night that the heir presumptive, Archduke Francis Ferdinand, has been recalled from Madrid where he went as the representative of Emperor Francis Joseph at the Spanish royal wedding.

TO OUR CUSTOMERS.

Is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

WILL OF LATE MRS. MACKAY

She Left an Estate Valued at
\$119,565

ESTATE WELL DIVIDED UP

Legacies to a Couple of Residents of
Quebec and Cap
Pouge.

Ottawa, May 30.—The late Mrs. Walter C. Mackay left an estate valued at \$119,565, of which \$18,000 in realty Application for probate was made this morning by the Royal Trust Company. Mrs. Mackay died in Port Limon, Costa Rica, Central America, April 23. The will was drawn in Ottawa, March 7, 1906.

In the will no bequests are made to charity, but two maids are remembered. Bequests are also made to two god-children, while the rest is divided among the husband, father, three brothers and three sisters. The will makes bequests to the following:

Sister, Mary Jane Flood, piano, opal and diamond ring, diamond ring mounted in platinum, cabinet and silver, two bronze lamps, two onyx and bronze ornaments and her dog, Barry.

Brother, James Flood, suit of steel armour, gold watch and chain.

Brother, Walter Stafford Flood, fur chair and two bronze statues.

Sister, Eva Theresa Flood, diamond sunburst, diamond solitaire ring and large cut glass lamp.

Sister, Margaret Louisa Flood, emerald and diamond ring, pearl dagger, turquoise pin, china lamp.

Father, Nicholas Flood, four medals, received at the Jesus Mary Academy and gypsy ring left by her mother.

Husband, Walter C. Mackay, wedding ring and large silver tray.

The balance of the jewellery is to be equally distributed among her sisters. To her sister, Mary Jane Flood, is given her personal clothing, fancy-work, pictures, wedding presents and ornaments not otherwise bequeathed.

The house and lots 8 and 9 Cartier street, are bequeathed to the husband and the remainder to the use of her sister, Mary Jane Flood. The furniture is left to Mr. Mackay for use in his life time and after his death to her sister Mary Jane Flood. Property in Renfrew county is to be sold and divided among husband, father, sisters and brothers share and share alike.

From the proceeds of the residue of the estate, \$20,000 is to be invested, the income to go to her father. After his death the twenty thousand dollars is to be equally divided among brothers and sisters, but the shares to the brothers, James,

Nicholas and Walter Flood are not to be paid over till five years after her death.

The following legacies are also directed to be paid:

Annie Bowman, maid, Ottawa, \$1,000.

Martha Bowman, another maid, \$500.

Almeira Feeney, Quebec, god-child, \$500.

Edmund Girard, Cape Rouge, Quebec, \$500.

Mary Jane Flood, sister, \$20,000; remainder to be divided equally among her other brothers and sisters, the shares to the brothers to be not paid till five years after her death, though they are to receive the income from the money invested in the meantime.

In the event of any legatee contesting the will, the legacy to such legatee shall sink into the residuary estate.

TRAINING FOR DUELS.

Frenchemen Practice on Each Other
With Hollow Bullets.

Parisians have been enabled by the invention of a hollow bullet to "train" for duels under the realistic condition of shooting at and being shot by, a living instead of practicing at an inanimate target, which does not fire back.

Dr. Dairliens is the inventor, and he has opened a club called, "La Societe L'Assaut au Fistolet." Forty of the best "shots" in Paris fired in pairs at one another one morning last week in the Jardin de Paris.

Of 272 shots fired, 202 hits were recorded. Commandant Ferrus and Mr. Winans each made full scores, and in the final round shot each other over the heart. While all wore goggles and some padded blouses and gloves, Mr. Winans shot in his buttoned frock coat. The bullet is harmless, and can be used several times, but the blow on the ball of the thumb of one of the contestants required surgical treatment.

The training is of unique value for a real duel. Men who never missed a "dead" target were quite disconcerted by the raising of their opponent's arm to fire.

A DIMPLE MAKER.

Find a child with dimples
and chubby arms and legs
and you find a healthy child.
Find one with drawn face
and poor, thin body and you
see one that needs Scott's
Emulsion. Your doctor will
no doubt tell you the child is
fat-starved—its food is not
nourishing it.

Nothing helps these thin,
pale children like Scott's
Emulsion. It contains the
very element of fat they need.
It supplies them with a per-
fect and quickly digested
nourishment. Scott's Emul-
sion brings dimples and
rounded limbs.

SCOTT & BOWNE, Toronto, Ont.

A TOWN FLOODED

Third of Population Rendered
Homeless by Rush of
Water.

Pendleton, Ore., May 30.—A third of
the people of Pendleton are either
temporarily homeless or have been
driven to the upper floors of their
houses by the rising waters of the
Umatilla River, which is now a tor-
rent. A wagon bridge over Pendle-
ton has been washed out and the
wrecked span has piled up against the
Oregon Railroad and Navigation Com-
pany's bridge, threatening to over-
throw it or cut a path through the
levee and flood the town. All trains
are tied up. Railroad bridges both
above and below Pendleton are out.
The flood is sweeping through lower
Main and Court streets and all the
business houses are flooded in that
quarter. The rain is falling steadily
and the people of the main part of
Pendleton have moved their families to
the hills.

Walla, Wash., May 30.—Heavy dam-
age is threatened by a flood that is
sweeping through this city and over
the adjoining country. The Walla
Walla Power Company's dam on Walla
Walla River, 15 miles above the city,
went out early to-day, cutting electric
lights and power. Alder street, a
business thoroughfare, is flooded three
feet. Three bridges in the city have
been carried away. Several houses
have floated down with the flood and
it is feared the damages in the coun-
try will be great.

THE RECENT FIRE.
The boarding house in the building
on Champlain Market Square, in which
the fire occurred early yesterday morn-
ing, was conducted by Mr. Louis Fr-
chette, who had no insurance. Mr. J.
B. Letarte also had a lodging on the
first and second floors and suffered
much by smoke and water. He has
insurance of \$1,000. The building be-
longed to Mr. Lemoine, who is now in
Florida.

EVERYTHING IN FISHING TACKLE
All that expert anglers can desire,
imported direct from best English
tackle makers.
Bait and fly rods in bamboo, green-
heart, lancewood and steel.
Silk, linen and cotton lines. Hooks
to gimp and to gut. Casting lines,
in single, double and twisted gut, two
and three yards long. Trolling spoons,
artificial minnows, bass, salmon and
trout flies, fly books, landing nets,
minnow cans, etc. Chic Hardware
Co. See new "ad" on page two.

GRANTS AWARDED.
At the last session of the Provin-
cial Cabinet, Abbe F. X. Ross was
named principal of the Normal School
at Rimouski, and the sum of \$3,000
was granted to aid the Girls' Normal
School in Montreal in accordance with
the request made by the Catholic
Committee of the Council of Public
Instruction at its meeting held on
May 9th last.

The Government has also decided to
make a grant of \$500 to the com-
mittee in charge of the arrangements
for the meeting of the French speak-
ing Doctors of North America, which
is to be held at Three Rivers on June
20th next.

MILITARY FUNERAL.

The funeral of the late Sergt. Fran-
cis Letarte, of the 1st Quebec Field
Battery, took place yesterday morn-
ing. The firing party was supplied
by the R.C.R., while the band of the
R.C.G.A. was also in attendance. A
detachment of the Field Battery was
present with a gun carriage drawn by
four horses which carried the coffin
draped with the Union Jack. The
horse of the deceased was led behind
the coffin by a dismounted driver.
Six of the past and present sergeants
of the battery acted as pall-bearers
and among the mourners were Lt.-
Cols. Crawford Lindsay and Beaulan-
ger, former commanding officers; Ma-
jor Ed. Lalonde, present commanding
officer, and Capt. Grenier, 9th Bat-
talion. A little beyond the toll-gate
the firing party fired three volleys
in the air, and the firing party returned
to town. The remainder of the cor-
tege proceeded to Belmont Cemetery
where the interment took place.

ALBERTA WHEAT.

Calgary, May 30.—Alberta's fall
wheat crop is a failure. There has
been no rain since last August, and
the crop is drought-killed, the seed
failing to germinate. Thousands of
acres of land have been plowed up
and the kernels when picked up could
be ground up like dust. Rains fell
last week around Lethbridge and dis-
trict, but came too late. The loss is
heavy as the success of the crop in
the past year induced many to go
into grain growing more extensively.

SALE OF SHIRT WAISTS.

We offer at present a fine job
of White Muslin Shirt Waists,
worth up to \$2.50 for 99 cents.

THEATRE MANAGERS

Waited on the Minister of
Customs in Reference to
Duties.

Ottawa, May 30.—The Canadian
Theatre Managers' Association was
formally organized yesterday morning.
The meeting was held in the board-
room of the Russell Theatre, and Mr.
P. Gorman was moved to the chair
for the opening deliberations. Organi-
zation was decided on and officers
were elected as follows:—President,
A. J. Small, Toronto; First Vice-Pres-
ident, W. A. Edwards, Montreal; Sec-
ond Vice-President, D. P. Bran-
nigan, Kingston; Secretary, John E.
Turton, London; Treasurer, J. W.
Cowan, Toronto; Executive, C. A.
Pyne, Woodstock; P. Gorman, Otta-
wa; R. H. Bradburn, Peterboro; C.
H. Wilson, St. Catharines; A. R.
Louden, Hamilton; F. H. Briscoe, of
Chatham.

The association at 11 o'clock waited
on the Minister of Customs and pre-
sented a memorial urging a reduction
on the import duty on show painting.
The deputation was introduced by
Hon. A. B. Aylesworth and included
Messrs. P. Gorman, R. J. Birdwhistle,
A. Thoburn, Ottawa, and all the vis-
iting delegates. The Minister prom-
ised consideration of the request.

THIALS OF RUSSIAN ADMIRALS.

St. Petersburg, May 30.—The trials
by court martial of Admirals Neboga-
toff, Izgorielf and Smirnof and sub-
ordinate unwounded naval officers for
rurrending to the Japanese in the
battle of the Sea of Japan, will begin
in June. The accused officers are liable
to the death penalty.

PRACTICAL RESULTS.

Ottawa, May 30.—The exhibition
branch has distributed the large num-
ber of bronze and other medals won
by the Canadian Government and Can-
adian exhibitors at the Louisiana ex-
position. In regard to a silver medal
won by asbestos mines in Quebec, Dr.
Reed, of Rosedale, Quebec, has report-
ed a large influx of capital as a result
of the St. Louis advertising. He
says:—"Many capitalists and mining
men have been attracted to the
County of Megantic by the exhibit of
minerals from the province of Quebec
and several million dollars invested in
our mines, particularly the asbestos
mines, which are still to the front,
so the results of the exhibit of min-
erals have proved most advantageous to
the Province of Quebec."

BATTERIES FOR CANADA.

Ottawa, May 30.—In anticipation of
supplying Canadian batteries with the
new British 15-pounder field gun, lim-
bers are now under construction in
Ottawa. It was announced, it will
be remembered, at the last annual
meeting of the Dominion Artillery As-
sociation, that the Canadian Govern-
ment had arranged for a supply of the
new British artillery arm. The guns
and carriages will be procured from
England and the limbers and wagons
will be constructed here. These are
now being made in parts, which will
be assembled as soon as all that are
necessary are finished.

The British Government experts are
now experimenting at Woolwich with
the new gun, with the object of mak-
ing it a thoroughly efficient arm, the
equal or superior of the best now in
existence. It is probable that it will
be some time before complete equip-
ment of the gun will be issued in
Canada.

A SPLENDID BILL.

Rustic Theatre, Kent House Grounds,
Well Worth Visiting.

No one should miss paying a visit to
the Rustic Theatre, at Kent House
grounds, this week. This new pro-
gramme now on the boards is a very
enjoyable one, and large crowds daily
are delighted by its novelty and the
cleverness of the performers Barlow &
Nicholson, the high class sketch ar-
tists, give a most amusing entertain-
ment and keep their audiences in
roars of laughter during the time they
hold the stage. Their sketch is en-
titled, "A Business Proposition," and
it is bright and breezy from start to
finish. Then there is Richard Legrat,
"The Rising Generation," who is also
a talented entertainer and his work
is greeted with loud applause. The
Wizard Brothers give a horizontal bar
performance that is sensational and
thrilling. Their wonderful feats on
the bars are performed with a light-
ness and agility that cannot be sur-
passed, and they must be seen to be
fully appreciated.

The handsome grounds at Kent
House looks most beautiful at present.
The zoo is a source of great interest.
The rush of water over the Falls is
a sight well worth seeing. Another
pleasant feature of a visit is the
rightly dancing penguins in the
handsome and spacious ballroom of
the Kent House. Regular and com-
modious train service.

CIVIC COMMITTEES.

(Continued from Page Five.)

frozen solid at two feet deep, a couple
of days ago.

Ald. Fiset brought up the question
of certain parties getting free water
from the main pipe and asking if Mr.
So-and-So last year had not obtained
his water service free last summer and
was informed that certain parties had
not their water service free. The ques-
tion of water supply at Savard Park
was also brought up by Ald. Fiset
and Mr. Gallagher was instructed to
make a report at the next meeting as
to the quantity of water used and
amount paid for the supply of water
at Savard Park and adjoining build-
ings.

OCEAN ARRIVALS.

May 30, 1906:—
SS. Carmania, at New York, from
Liverpool and Queenstown.
SS. Gera, at New York, from Naples,
SS. Columbia, at London, from Bos-
ton.
SS. Zealand, at Antwerp, from New
York.
SS. Oceanic, at Queenstown, from New
York.
SS. Merion, at Queenstown, from
Philadelphia.
SS. Caronia, at Liverpool, from New
York.

MADE FROM NATIVE ROOTS.

SAFE AND RELIABLE.

That the roots of many native plants,
growing wild in our American forests,
possess remarkable properties for the cure
of human maladies is well known. Even
the uneducated Indian has learned the
curative value of some of these and
taught the early settlers their uses. The
Indian never liked work so he wanted his
square to get well as soon as possible that
he might do the work and let him hunt.
Therefore, he dug "papoose root" for her,
for that was their great remedy for fe-
male troubles. Dr. Pierce uses the
same root—called Blue Cohosh—in his
"Favorite Prescription," skillfully com-
bined with other agents that make it
more effective than any other medicine in
curing all the various weaknesses and
painful derangements peculiar to women.
Many afflicted women have been saved
from the operating table and the sur-
geon's knife by the timely use of Doctor
Pierce's Favorite Prescription. Tender-
ness over the lower pelvic region, with
bearing down pains or distress should not
go unheeded. A course of "Favorite Pre-
scription" will work marvellous cures in
all ailments of the female system, being
a permanent cure if persisted in for a rea-
sonable length of time. The "Favorite
Prescription" is a harmless agent, being
fully prepared from a reliable medicinal
root, without a drop of alcohol in its
make up, whereas all other medicines,
put up for sale through druggists for
curing the female ailments, contain large
quantities of spirituous liquors, which
are very harmful, especially to delicate
women. "Favorite Prescription" con-
tains neither alcohol nor harmful habi-
tually forming drugs. All its ingredients are
printed on each bottle wrapper. It is a
powerful invigorating tonic, imparting to
the health and strength in particular to the
organs distinctly feminine. For weak
and sickly women, who are "worn-out,"
or debilitated, especially for women who
work in store, office or sewing machine,
or bear heavy household burdens, and for
nursing mothers, Dr. Pierce's Favorite
Prescription will prove a priceless benefit
because of its health-restoring and
strength-giving power.
For constipation, the true, scientific
cure is Dr. Pierce's Pleasant Pellets.
Mild, harmless, and sure.

PERSONAL

THE HILL TRUNK FACTORY.
The Hill Manufacturing Company,
one of the victims of the recent St.
Valier street fire, have lost no time
in again getting to work after the
disaster, and the hum of machinery
driven by a brand new twenty horse-
power motor is once more heard in
their factory at the old stand 60-66
St. Valier street. The Company is
an enterprising one and are planning
to considerably increase the output of
their factory in order to supply the
increasing demand for their goods.
All orders promptly attended to.

NADEAU & MARTEL.

Crockery Store, 113 St. Joseph Street
Wish to draw the attention of the
public to the fact that we
have received a very large as-
sortment of very fine china,
out glass and silver ware. All these
goods are the very newest that have
been produced from the best manu-
facturers. All these goods will be sold
at very low prices, as we wish to
draw a big trade in this class of
goods. They are very fine goods for
wedding gifts.
We will begin Friday morning a
cheap sale in dinner sets, toilet sets,
champs and glassware. All these goods
will be sold at a discount of 25 per
cent. We have a very large as-
sortment for you to choose from.
Do not forget the place, 113 St.
Joseph street.

A GREAT ATTRACTION.

The Wizard Bros., in their wonder-
ful bar performance at the Rustic
Theatre, Kent House grounds, are
creating a sensation. They do many
startling tricks with a neatness and
agility that win for them the greatest
applause from the large audiences
daily. Performances are given at
3.30 and 8.30 p.m. every day. Free to
passengers by the railway.

Imported Pattern Hats Reduced 25 Per Cent

WE bring over a great number of beautiful styles from Paris and New
York, at different times during the season, not only to sell, but
to serve as inspirations to our own expert milliners. These hats
are exquisitely trimmed with rich ostrich plumes, beautiful flowers and
ribbons. They have served their purpose as models and now, irrespec-
tive of cost or value, they are offered at
25 PER CENT LESS THAN MARKED PRICE.

BOYS' SUITS AND COATS.

FOR this week only we offer at a reduction on all our stock
of Boys' Spring and Summer Suits and Coats, in all the
latest models made expressly for the season.
COME EARLY AND MAKE YOUR CHOICE AT 25 PER CENT REDUCTION.

WASH GOODS DEPARTMENT.

IN this department we have selected a large lot of Cotton and Silk
Cotton Dress Fabrics in white and color, consisting of
Pique, Voiles, Canvas, Linen Zephyrs, and Mattings,
AT 25 PER CENT LESS THAN ORIGINAL PRICES.

LADIES' COATS.

THE balance of our Ladies' Spring Coats, comprising the latest models
made of fine Broadcloth, Cover Cloth, Cheviot and Fancy mixtures,

OF THE ENTIRE STOCK OF

P. J. COTE,

OPPOSITE PALACE HILL-

DISCOUNTS ARE A PROBLEM.

THERE IS NO

PROBLEM ABOUT OUR PRICES

All our Goods are on sale at actual cost and
many less than cost. All are marked in large plain
figures and by us. We do not leave the price for
the clerks to make. We have made the prices to
close out the entire stock as the Dry Goods Branch
of this business is to be discontinued.

THERE IS NO

Thought of Competition With Us
