VOL. LXXVI—No. 40

ROCK ISLAND, (STANSTEAD) P. Q., THURSDAY, OCTOBER 6, 1921.

WHOLE No. 3948

## LIQUOR VENDORS ADOPT "BLACK HAND" TACTICS

During the past few months a number of patriotic citizens, operating as the S. and R. I. Enforcement League, have been making a serious effort to uphold the Canada Temperance Act, which was falling into disrepute owing to an apathetic state of public opinion. What is everybody's business is nobody's business. "Why don't they do something?" was on all lips. The word, "you," you, you, was passed around, while vendors grew bolder and bolder, until the limit was reached and the crash came, with the result that several jail sentences have been secured. On the early morning of Sept. 13, Officer F. P. Clark was successful in frustrating an effort to get away with more than a thousand dollars' worth of booze and beer which had been seized and stored in the municipal building. At that time arrangements were being made for a sort of "gentleman's agreement" to avoid jail sentences for offenders. In entering the temperance work the men had been actuated by a desire to help others, and it was not in their hearts to persecute their enemies; all they sought was the suppression of a degrading traffic. But while relenting regarding imprisonment of offenders, they did insist upon confiscation of drink

*Mr. Clark*  
*this is only a notice, for your own good, we had a meeting and we decide to shoot you on the street it will be before long, I'll shoot you in the back, so I am sorry but I got to do it*

### WHO KNOWS THE HANDWRITING?

seized. Then, in the face of negotiations pending, and in violation of all codes of honor, one of the parties, through agents, attempted to steal back that which had been lost, and to cap the climax the threat printed herewith was mailed to Officer Clark the day after the attempted theft. This act constituted a double crime as

the use of the mails for the transmission of such a threat, is criminal. After this the League very naturally assumed a different attitude. The characteristic thing about the threat is that the officer is not to be faced but shot in the back! For their present trouble the "booze" vendors have no one to blame but themselves.

### TOWN TOPICS

The attendance at the union services at the Border Theatre Sunday was large and the service excellent. Rev. E. L. Rice preached a strong sermon on the text Ezekiel 22:20: "And I sought for a man among them, etc." The services are to be held one Sunday evening each month during the winter. A large number of non-churchgoers were present. The projecting of hymns on the screen resulted in quite general singing.

Mr. and Mrs. Solon E. Gray, Mr. and Mrs. C. R. Counter, Mrs. O. M. Carpenter and Mr. and Mrs. C. E. Bennett of Derby Line attended the funeral of the late William Nelson at West Charleston Tuesday. Rev. W. C. Johnson conducted the service which was held at the Congregational Church. Burial in the village cemetery. There was a very large attendance, as Mr. Nelson came to the village when a young man and had many friends.

J. B. Goodhue, Rock Island, Que., and Derby Line, Vt., writes all forms of insurance both in Canada and Vermont. Mr. Goodhue also sells both railway and steamship tickets from any and every point on the lines of The Canadian Pacific Railway. He also issues steamship tickets for passage by the luxurious steamships owned and operated by The Cunard, The Anchor and The Anchor-Donaldson Lines. Mr. Goodhue is also the local agent for The Royal Mail Steam Packet Company between Canada, the West Indies and British Guiana. When planning any trip in any direction, make it a point to consult J. B. Goodhue.

Burnham George has moved from the H. E. Foster house on South Main street to the Dr. Waldron block. Foundry hill is fast becoming the Broadway of the town.

Customs Collector H. A. Rice of Derby Line is attending U. S. Court at Rutland.

The Ladies Guild of Christ Church will meet with Mrs. E. N. Sawyer at her home Tuesday, Oct. 11, at 2:30 p.m.

The R. C. parish at Rock Island has purchased the residential property of Wright H. Hovey and that of the late Mr. and Mrs. H. M. Hovey. The price paid was \$14,500. The Wright Hovey house will be used as a presbytery, while the H. M. Hovey house will be moved back to make room for the proposed new church.

Mrs. Nettie Wyman of Fitch Bay, Que., spent last week with her cousin, Mrs. H. R. Johnson, "Prospect Park."

Rev. Arthur E. and Mrs. Teale, Mrs. Swanson, Miss Gladys Swanson and Mr. Covey, all of Waterville, spent Sunday at Mr. and Mrs. H. R. Johnson's.

Kenneth Clare and Maurice Fregeau spent the week-end at Portland, Me., the guests of Mr. and Mrs. R. M. Smith.

Miss Patti W. Foster is remaining at her summer home at Derby into October.

Mr. and Mrs. Thomas Lang returned to New York City Friday evening.

Mr. O. S. Clarke returned from New York and Boston Sunday.

### TOWN TOPICS

To Let—Tenement on Railroad St. Apply Mrs. D. Neveu, Sr.

For Sale—Lady's Russian Rat Coat. P. O. Box 237, Rock Island.

For Rent—I have a garage for rent near Butterfield works. S. B. Telford.

Found—Bunch of keys. J. Allard, Rock Island.

The grading is being completed about the new Vermont plant of Butterfield & Co. and the whole area presents a fine appearance.

Vincent Davis, who was in the cost department at the Butterfield office and was laid off, has taken a milling job. That is the right kind of stuff. If a man can't have a white collar job, why not don overalls? Either job is largely what a man makes it.

Mrs. Grace Ward and Mrs. Florence Weir of Ottawa were recent guests of relatives and friends at the boundary, motoring to the White Mountains at the week-end.

Mr. George Watt of Montreal is in town for the Booth-Johnston wedding which takes place today.

Yesterday C. M. Stearns photographed the College, Music and Business students on the steps of the College.

Miss Alice Therrien has returned from a month's vacation.

Engineer James B. Porter and assistant of Burlington, commenced Monday on a survey of the contemplated route for the pipe from Holland Pond to the reservoir at Derby Line.

Mr. Justice and Mrs. Hutchinson, who have been staying at the Derby Line hotel, have gone to the Corona Hotel, Montreal, for the winter.

Mr. and Mrs. H. A. Cullins went to Boston Monday.

The present collector of customs at Newport, Charles Bailey, is retiring from the service. It is understood that Carroll Davis was offered the position but declined it, and a man from the St. Albans office will succeed the retiring collector at Newport.

Mr. Harold F. Gilmore, second son of the late Mr. and Mrs. James A. Gilmore, and Miss Ermingarde Boright, daughter of Mr. and Mrs. John Boright of Dade City, Florida, were married Tuesday morning at 8 o'clock at the R. C. Church, Rock Island, Rev. Father Rhéaume officiating. Mr. Rudolph Ethier of Montreal was best man, and Miss Edith Gilmore was bridesmaid. Mr. and Mrs. Gilmore are motoring in southern New England. Upon their return to Rock Island they will occupy the Gilmore homestead. The bride has for several years been on the staff of the Canadian Bank of Commerce at Beebe.

Mr. and Mrs. H. B. Corliss of Beecher Falls were in town Sunday, en route to Charleston, N. H., and Rutland, Vt., traveling by motor.

Thomas Wells returned to Montreal the first of the week to continue his studies at McGill College. His place at "Kittamaug" is taken by Chester Cowles.

D. W. Davis was named as executor of the will of the late Judge Frank E. Alfred of Newport.

### TOWN TOPICS

Ticehurst Brothers are making good progress with their new garage. They are installing a 100-h.p. high pressure steam boiler for heating the building throughout and will also heat their apartment adjoining. The eight flats are being wired for electric stoves. Each flat will have a garden in the rear and playgrounds will be provided for the children of tenants.

Russell Moulton, who was a guest at the parental home last month, has returned to Saskatoon, Sask. On the way west he visited his brother Harold and Mr. Scott Flanders in Hamilton. Russell crossed Lake Superior by steamer, and was much pleased with the water trip.

Writing from Fulda, Sask., under date of Sept. 27, William Rollins of Graniteville, who went West on the harvesters' excursion, reported rain every day for two weeks with no sign of abatement. No threshing had then been done for two weeks. He had lost the ends of two fingers in a separator, but was apparently not discouraged.

A. M. Sanborn of Fairfax returned recently from Springfield, Massachusetts, where he had been visiting relatives and taking in the Eastern States Exhibition. The showing of stock there was particularly good, something like 11,000 head of thoroughbred cattle being on exhibition. Much of the younger stock was sold at auction at good prices.

F. A. Putney is operating his cement mixer on the new Bryant garage which is being erected by Byron Curtis.

H. A. Rice, who has been in charge of the U. S. customs port at Derby Line since June, 1920, has received his order of transfer to Beecher Falls as deputy in charge. Mr. Rice will go to his new port in a few days, and H. D. Corliss, who is now at Beecher Falls, will return to Derby Line. This is a promotion for Mr. Rice, as the salary is more at the "Falls." He, however, regrets leaving Derby Line, as he likes the people here and has a comfortable home. When he came here he sold his property at Albany, and purchased the residence of the late Albert F. Gilmore on Valentine Avenue.

Edward Audinwood got a settlement of his fire loss on his house Saturday. Mr. Bliss, an adjuster, from New Haven, Conn., was in town for the purpose.

B. F. Butterfield is grading the grounds about his residence.

Miss Ruth Moulton, who was a guest of her uncle, Mr. Henry Moulton of Derby, during the summer vacation, has returned to Middlebury College for the final year.

Eugene Perkins recently brought in a hill of Green Mountain potatoes with nine beauties weighing 94 pounds.

On Monday a wild strawberry plant, with one ripe berry, reached the Journal from Mr. J. W. Webb, Jr., who had picked it while walking in the fields, Sunday, Oct. 2.

Town clerk George O. Burton of Derby was in town Friday.

### TOWN TOPICS

The annual business meeting of the Woman's Society of the Universalist Church was held on Wednesday, Sept. 23, in the vestry of the church. Mrs. (Rev.) E. L. Conklin was elected president of the society, with Mrs. H. A. Nelson, president of the Ladies Aid, and Mrs. Laurence H. Laythe, president of the Jolly Juniors. Reports of the different societies were read, and it was found that, together with the Clara Barton Guild, \$631.94 had been earned during the past year. Plans for the ensuing year were discussed and it was voted to hold the Christmas Sale on December 8th. After the meeting supper was served to about 65.

Mr. and Mrs. H. N. Rickard and Mr. and Mrs. G. T. Ames returned from Montreal and Quebec Sunday.

Col. H. S. Haskell is spending a few days with friends in St. Johnsbury.

Miss Rose Horne, daughter of the late Mrs. Sarah Horne of Way's Mills, left last week for Manchester, N.H., where she will enter a hospital, to take a course as nurse-in-training.

Mr. and Mrs. Porter F. Hunt and sons, Mitchell and Paul, motored to Waterloo for the week-end.

Mrs. J. A. Hunt went to Johnson and Cambridge, Vermont, Tuesday, for two weeks' visit with relatives and friends.

Mr. and Mrs. B. R. Bowen from Hatley have moved to Rock Island and taken a tenement on Railroad street.

Mr. and Mrs. Edwin Durose of Westfield were in town Sunday.

John Heath is moving to his new house on Phelps Avenue this week.

A meeting of the Ladies Aid will be held at the Congregational Church, Thursday afternoon, October 13, at 2 o'clock. Come prepared to work.

Manager Hartley is painting the exterior of the Border Theatre. The body is Chrome Yellow, with rich dark olive green trimming. Henry is certainly a pace-maker in enterprise.

George T. Ames is drawing lumber to the two lots recently purchased from the "Lee Farm" subdivision.

Gilman Dorman has made some excellent improvements about his residence.

Fred R. Moulton is doing state highway work between Derby and Newport.

At the Congregational Church on Friday evening, Miss Effie Jamieson of Toronto, Ontario, will speak on Missionary work. Miss Jamieson comes under the auspices of the Junior and Senior Ladies Aid Society. Her message will be of deepest interest and she is an excellent speaker. Both men and women are invited.

G. W. D. Reid of West Charleston was in town the middle of the week showing a Marion reciprocating vacuum water pump. The Water Company is trying one of them on the stream coming from the Parsons springs, and now discharging into a tank on Railroad street.

### H. E. SANBORN PROMOTED

Becomes Supervisor of Tracks on B. & A. Boston to Worcester.

The Springfield Republican of recent date contains the following and announcement concerning an old Stanstead boy.

"Hugh E. Sanborn of Cottage St., West Springfield, for 31 years a well-known resident of that town and for 30 years an employer of the Boston & Albany railroad for which he has been assistant supervisor of bridges and buildings, leaves for Boston tomorrow to assume the duties of his new position as supervisor of tracks from Boston to Worcester. He will make his home in Boston. Mr. Sanborn is a member of Esoteric lodge of Odd Fellows."

Mr. Sanborn is a son of our old friend, A. M. Sanborn of Fairfax, and was born on Overhill Farm, east of this place. He attended Stanstead College and went to Massachusetts 31 years ago.

### GRANITEVILLE

Don't forget the chicken pie supper Oct. 14.

Mr. and Mrs. Eugene Romprey of Plymouth, N. H., are visiting the latter's sister, Mrs. Arthur Bullock.

Mrs. Ezra Rediker and children visited her sister, Mrs. Seldon George, at Derby, Vt., on Saturday.

Miss Bessie McKay, a former teacher of this place spent the week-end with Miss Ruth Brown.

Miss Tillie Guerin is visiting at the home of her brother, Mr. A. L. Guerin. Mr. and Mrs. W. C. Duncan celebrated their twenty-fifth anniversary on Friday evening.

Mr. J. L. Converse and family of Derby Line visited at G. E. Morrison's Sunday.

## International Water Company

### WARNING

On account of the present dry season, the use of water for sprinkling streets and lawns, or washing automobiles, wagons, etc., is strictly forbidden. It is "up to" everybody to economize in the use of water if a famine is to be avoided.

BY ORDER OF THE DIRECTORS.

### STANSTEAD COLLEGE NOTES

On Thursday afternoon, Sept. 29, the ladies of the College were "At Home" in the parlors to their friends in the Three Villages. It was a beautiful day and the autumn foliage used in decorating looked gay in the sunlight and added to the newly decorated parlors the touch of color needed to complete the effect. There were between forty and fifty visitors and many of the ladies inspected the girls' rooms and all expressed themselves pleased with the arrangement and the general appearance of the college.

At Thursday evening song service, Mr. E. C. Irvine threw out some very valuable hints on college conduct.

Many of the students and teachers attended the "movies" on Friday evening and very much enjoyed the picture, "The Love Flower," by Griffith.

On Saturday afternoon, a friendly game of association football was played with the town team which resulted in a victory for the visitors by a score of 2 to 1.

A number of new students arrived on Saturday. Mrs. Cairns and Mrs. Wilkinson of Montreal accompanied two of them and remained for a short visit.

The number of boarders registered up to date is below last year. The real cause is very evident, there being a depression in trade and a very unsettled condition among the laboring classes. All boarding schools in Canada are suffering from this cause this year.

The teachers and students attended in a body the meeting in the Border Theatre, Sunday evening. A vocal solo was effectively rendered by Mr. Cecil Rhoades. The speaker, Rev. E. LeRoy Rice, chose as his text, Ezek. 22: 30; "I looked for a man to build up the wall and fill up the gap and I found none." From this text Mr. Rice preached a sermon that has been seldom equaled and never surpassed in this community. Such sermons, we believe, should be printed that the public at large might read—especially when the application to the community as well as to other communities is so striking. There was a good attendance.

Mr. and Mrs. McFadyen spent the week-end at Magog, where Mr. McFadyen assisted Rev. Mr. Boyd in his rally day services.

Miss Kathleen Derby, Miss Hazel Edwards and Mr. R. Merry spent Sunday under the parental roof.

Rev. Mr. Russell gave a helpful talk to the boys on Monday evening at their regular S. C. A. meeting. Mr. Lundy was unanimously elected secretary of the society. The name of the society was changed from Y. M. C. A. to B. S. C. A. A similar step was taken by the ladies on Tuesday evening, when they changed the society name from Y. W. C. A. to G. S. C. A.

### BEEBE ACADEMY NOTES

Cora Sim, one of our 1920 Grade X pupils is attending Bishop's College, where she has been awarded the Narcissa Farrand scholarship. Congratulations Cora! It will be remembered that this young lady won the Bank of Commerce medal here, when she passed with an average of over 89 p.c.

Marion Matthews is attending Queen's University.

Georgia Packard is teaching the school at Apple Grove.

Parents who wish their children to come up to the higher standard required at Quebec for promotion to a higher grade should arrange for them to have at least two or three hours for quiet study. Pupils also should be punctual and regular in their attendance in order to do their best work.

English, which includes four examinations, grammar, literature spelling and composition gives a chance for a failure in four subjects now, while formerly the four formed one compulsory subject. It is better all should understand this and work up to the required standard.

### Universalist Church Notes.

Rev. E. L. Conklin, minister. 10.45 a.m., morning worship, 12.00 a.m., Sunday school. Subject for next Sunday "Well Done."

### NOW UNLOADING

Car of B. C. Shingles. Have sold several carloads from same mill this season, all of which have given satisfaction. Selling strictly lay-clears at \$1.50; all-clears, practically 100 per cent perfect, \$6.50 M. Our best advertisements are on roofs in both Stanstead and Orleans Counties; consult your neighbor who has laid these shingles.

Also plenty of Spruce Clapboards and New Brunswick Cedar Shingles.

Vermonters—Remember, there is no duty and we will allow you a premium of 10 per cent on your money.

Three Villages Building Association ROCK ISLAND, QUE.

### DERBY ACADEMY NOTES

The weekly C. E. meeting was held Thursday evening, with Mildred Norway '22 and Carolyn Hall '24 as leaders. The topic was "Service." Each person present had an original idea about service which was read. These ideas were very good. There were two musical numbers. Altogether it proved to be a very helpful and interesting meeting. There were forty-eight present.

Doris Wheeler of Holland has entered the third year class.

Group pictures of the whole school and of the individual classes were taken Thursday afternoon.

There seems to be an epidemic of "bobbed hair" among the students. We hope it will not be necessary to close the school.

Wenonah Davison '23, who was operated on for appendicitis last week, is getting along very well and hopes to be out of the hospital in another week.

George Cowles '18 is business manager of the Middlebury Campus this year. He is also treasurer of the Y. M. C. A.

Nearly thirty boys went with Mr. Stone Friday morning to Mt. Mansfield. We hope to have a good report of their trip next week.

The boys of the Outing Club met around a camp-fire on Hunt Field last Tuesday evening.

On Thursday of this week a clinic will be held in the M. E. Church to remove adenoids and defective tonsils of the school children of Derby. The operating is to be done by a throat specialist who will have with him skilled assistants.

Miss Sutherland is teaching in Massena, N.Y., this year. Mrs. Ide is in Lyndon Institute.

### BEEBE

Mrs. J. E. Lary of Exeter, N.H., is visiting Miss Marcia Magoon.

Mrs. Charles Gage is visiting her sister, Mrs. George Hoyt, Orleans, Vt. Judson Lorimer, wife and daughter Madeline are visiting in Danville, Que.

The Methodist Church is receiving a new coat of paint, the work being done by Morris Longway.

Rev. J. F. Longland preached at South Barnston on Sunday afternoon to a large audience.

Mrs. Sweet (née Bertha Tyler) and husband of Springfield, Mass., are visiting her parents, Mr. and Mrs. John Tyler.

The forty-fourth session of the International Advent Christian Conference will be held with the A. C. Church, Beebe, Que., commencing Wednesday, Oct. 5, and will hold over the following Sunday. A large attendance is hoped for. Able speakers are expected from Massachusetts, Maine, New Hampshire, Vermont and Canada.

Ozro Cass, S. B. Worthen and Charles E. Haselton were business visitors in Newport City on Saturday.

We are pleased to welcome Mr. and Mrs. Alton Paul from New York City who are locating in our village.

A large number attended the local dance in the town hall on Saturday evening, and report a good time.

### ENTERTAINMENT

The dates of the People's Entertainment Course are: Oct. 21, Suwanee River Quartette; Nov. 8, Thompson Blood, humorist and impersonator; Dec. 2, Aborn Opera Co., presenting the opera Faust; Dec. 9, Howard Edie, lecturer; Jan. 27, White's Concert Party.

## LIVE STOCK FACTS

### CAMPAIGN FOR BETTER SIRE

Department of Agriculture Is Aiding Movement by Issuing Number of Publications.

(Prepared by the United States Department of Agriculture.)

In response to many requests for information to be used in starting better-sires movements in various localities, the bureau of animal industry, United States Department of Agriculture, has prepared a list of available publications and other material in the department. It has also furnished data useful to persons interested in legislation for restricting the use of mongrel sires.

Except when the open range is involved, however, or there is need to control inferior sires from running at large, specialists of the bureau prefer a continuance of educational work to legislation. They place emphasis on the fact that the work, although in-

A Purebred Sire.

volving certain records and blanks, is strictly educational. To aid in conducting educational campaigns, the department has issued a number of circulars, posters and newspaper articles, as well as much mimeographed material. A booklet entitled "Better Sires—Better Stock," explaining the movement, can be obtained by addressing the United States Department of Agriculture, Washington, D. C. Other material on this subject is:

Yearbook Separate 816, Harnessing Heredity to Improve the Nation's Live Stock.

Department Bulletin 905, Principles of Live Stock Breeding (semiscientific). Price, 15 cents.

Farmers' Bulletin 1167, Essentials of Animal Breeding.

Enrollment Blank for Better Sires—Better Stock Crusade (on which live stock owners agree to use good purebred sires).

Specific Facts and Figures on Benefits Following Use of Better Sires. County Live Stock Survey Blank.

Poster, Which Way Is Your Live Stock Going?

Poster, Purebred Sires and Herd Improvement.

Several sets of 72 lantern slides each have also been prepared by the department and a motion picture is now in the making.

### MILK HELPS YOUNG ANIMALS

Skim Milk and Other Creamery By-Products Are Useful Feeds for Pigs and Calves.

While whole milk is nature's balanced food and is valuable for young animals, skim milk and other creamery by-products, such as buttermilk and whey, are also useful feeds, say specialists of the United States Department of Agriculture. Skim milk is fed to young pigs in the proportion of about three pounds to one of concentrates, such as cornmeal or shorts. Buttermilk, which has not been diluted too much with water, has nearly the same feeding value as skim milk. It is a better food for swine than for calves because it is apt to cause digestive disturbances when fed to the latter, unless considerable care is used. Whey is used almost exclusively in feeding swine. It is about two-thirds as valuable as skim milk as a food. Accordingly from ten to twelve pounds of whey are equivalent to one pound of grain. Sweet skim milk, when supplemented with other feed such as corn meal or wheat shorts, is very good for young calves. If beef calves are to be fed skim milk, they should be fed in practically the same manner as dairy calves.

### HIGHER PRICES FOR HORSES

Farmers Are Advised to Breed More Heavy Draft Animals Wanted for City Hauling.

Heavy draft horses are in greater demand and commanding higher prices than at any time in the last 20 years, according to the proprietor of a Boston trucking concern which maintains 100 horses and 28 auto trucks. In a letter received at University farm he says: "For the short haul the horse has no competitor. We buy at any time and have paid as high as \$600 each, but are not getting as good horses as we would like to use. We believe the peak stage of motortruck sales and use has been reached. Farmers should be encouraged to breed better horses."

### RED CROSS APPEAL FOR PEACE

In virtue of a higher law and duty, and of principles above the level of human passions, the helping hand of the Red Cross was stretched forth to all victims throughout the ordeal of the Great War.

Today, the Red Cross owes it to itself and to all its many workers to proclaim as an ideal and a practical intention, a struggle against the horrors of war, an attempt by world-wide help and unselfishness definitely to abolish war.

The mere continuation of Red Cross activity in time of peace will no longer suffice. It is the wish of the Red Cross to work in the interest of peace.

Therefore, the Red Cross calls upon all whole-hearted citizens, irrespective of nationality, religious belief, profession, or social rank, to join, as far as lies in their power in a systematic campaign against that spirit of war, which is a constant menace to the world's peace.

During five years, millions of men were killed or mutilated. Today, thousands of ex-soldiers or prisoners at last set free bear indelible marks of bodily and mental suffering. All of them believed that the generations to come would reap the fruits of the great ordeal in a new international life, which would be more brotherly, franker and more full.

Instead, disorder and uncertainty, distrust and greed, hatred and the threat of fresh quarrels are re-appearing throughout the world. The spirit of war, unconquered, reigns supreme. Its sinister influence is evident. It inspires lines of policy and press campaigns, which lead public opinion astray and embitters the economic competition among nations.

During the terrible years of the recent war, superhuman efforts were required of the different nations. In order to inspire such sacrifices, a supreme reward was promised—namely the annihilation of this same spirit of war, which is a peril as old as the world and a constant menace to mankind.

Thus generations yet unborn would have been delivered from the scourge at the price of the suffering which the war entailed. This hope sustained nations and armies.

Have they hoped in vain? Have millions of human lives and the wealth of nations been sacrificed in vain?

Faced with these questions, the Red Cross recognized a duty.

At the suggestion of Senator Cirilo chairman of the Italian Red Cross, the tenth International Red Cross Conference, which met at Geneva on April 1, 1921, voted the following resolution: "The International Committee of the Red Cross and the League of the Red Cross Societies shall address an appeal to all nations, exhorting them to combat the spirit of war, which dominates the world."

These two organizations call therefore on nations and individuals to fight with all means in their power this maleficent spirit. May statesmen, writers, school and university, capital and labor remember that it is their duty, in the interest of mankind, to help peace to conquer the earth. Above all, children should be brought up in this fundamental belief.

It is essential that the human mind should once more be open to the broad lines of an internationalism, which, while allowing the citizen to love his town and the patriot his country, teaches all men to respect the existence and the rights of their fellows, by bringing into the daily life the individual light of a justice, which is to be in all the world for all the time.

This true internationalism cannot be attained without the active and intimate cooperation of governments, parliaments, voluntary organizations, the press, the clergy, and above all, national Red Cross Societies. To the union of these forces must be added a supreme factor: the power of individual conviction. Every man, as far as lies in his power, must contribute to make peace permanent in the world.

The individual must no longer see the world in the light of his own selfishness, anger, fear, and human passion, but in a spirit of concord and mutual aid.

Thus only can a better future be prepared.

Faithful to the ideal which inspired its founders, and which it has ever served, the Red Cross hereby declares before the whole world, that its work does not end with war. The Red Cross appeals to the heart of all mankind, that each individual may find in himself the needful strength and determination to make and keep universal peace.

FOR THE JOINT COUNCIL.

The President, Gustave Ador; President of the International Committee of the Red Cross, Claude H. A. Hill, Acting Director General, League of Red Cross Societies, Geneva, Switzerland.

Jud Tunkins.

Jud Tunkins says the old-time statesman who sat down and wrote out his speeches with a pen wouldn't stand any chances whatever in these days of handshaking.

### BALDWIN'S MILLS

Mr. W. K. Baldwin, M. P., spent a few days in Montreal last week.

A bee was held last Friday and Saturday to shingle one side of the Baptist Church, and the work was completed.

Miss Kathleen Belknap is visiting her parents during a short vacation. Mr. and Mrs. C. Bradley Sanders, and Mr. and Mrs. David Deering continued their automobile trip to New York after a week's stay at Mrs. Mitchell's camp.

Hiram Belknap has been suffering for two months' with an abscess on his jaw, and last Friday Dr. Trenholme and Mr. and Mrs. W. G. Belknap motored with him to Sherbrooke Hospital for an X-ray examination. He is under Dr. Trenholme's care, and is now improving.

Mr. and Mrs. H. L. Baldwin were week-end guests of Mr. and Mrs. John May, Coaticook.

Mr. and Mrs. Ora Ferrin and Mr. and Mrs. Charles Heck of Topeka, Kansas, were recent guests of Mr. and Mrs. W. K. Baldwin.

Mr. and Mrs. Fred Markwell visited her parents, Mr. and Mrs. L. Drew, at East Angus on Saturday, returning on Monday.

Meedames A. O. Lyons and M. H. Martin called on Mr. and Mrs. Ed. Stearns in Holland one day last week.

Mr. and Mrs. H. F. Baldwin were guests of Mr. and Mrs. P. A. Baldwin, Judd's Mills, on Friday last.

Miss Annie Markwell has been visiting Mrs. A. Leonard at Coaticook.

Meers. H. F. Baldwin, Remi Oumet and Aime Favreau from this place attended the political meeting held at Sherbrooke recently.

### CASSVILLE

Mrs. F. W. Carr, who was seriously injured in the automobile accident Sept. 28, had recovered sufficiently to be moved to her home in Newport on Sunday, accompanied by her sister, Mrs. Mabon, and Nurse Myers of Sherbrooke, who has been caring for her at the home of Mr. Charles Carter.

Mr. and Mrs. Dean Lowell and little son Earl of Holland were week-end guests at the home of her brother, Mr. Jasper Rudd, and Mrs. Rudd. Mrs. Lowell (née Aza Rudd) will remain a few days longer.

Mr. and Mrs. Ned Lyford and son George of Newport were guests at the Lyford homestead the first of the week.

Rev. E. C. Russell and Mr. A. H. Tiffin of Stanstead visited the school at North Stanstead last week.

### VERMONT ITEMS

The cases of automobile stealing in the state are increasing fast.

Stephen Smith of Craftsbury celebrated his ninety-eighth birthday, September 23.

Judge Frank Worden of West Halifax died September 27 at 90 years of age. Mr. Worden served as judge in Windom county for nearly 30 years.

Eugene Cote of Brattleboro claims to be the youngest great-grandfather in New England, as he is 57 years of age. Mr. Cote is the youngest great-grandfather in New England.

At the annual meeting of the Vermont Society of Engineers at St. Johnsbury last week 24 applications for membership were received, bringing the membership up to 200.

The Sabine field at Norwich University will be dedicated October 3. Dr. G. K. Sabine of Brookline, Mass., gave the money for the field. This is the athletic field that Fred R. Moulton graded the past summer, moving 27,000 yards of dirt at a cost of 23 cents a yard.

The Hotel Association of Vermont is offering prizes to students for descriptions of Vermont towns written by the students. The first prize is \$30, the second \$25, third \$20, fourth \$15, fifth and sixth \$5 each. Style and charm of story, English and spelling are the points to be judged.

Ex-Highway Commissioner Stoddard B. Bates of Derby, is known from Canaan to Vernon as "Pay-as-you-go Bates." Angels could do no more in material things. A man that can keep his home, farm, village, town, county and state out of debt, in such matters as he controls in these borrowing, bond issuing days is worthy of his stipend.

Derby Line and the neighboring villages are not the only localities suffering from the drought. The three electric generating plants on the Clyde river are almost at a standstill the water being by far the lowest it has ever been known to be. The local supply of electric current should show us how fortunate we are to be linked up with a source of supply that is always ample.

Marshfield has just had a community Sunday which was most successful. One of the addresses of the day was by Rev. John C. Prince, pastor of the Congregational Church at Waterbury, and his subject was a novel one for Sunday: "A bigger and better town." A man who spent the day there and attended all the services said it was a great talk, and although he wasn't much of a churchman, he would like to see all Sundays of the community kind. He thought the "world would get somewhere."

### VERMONT ITEMS

The Congregational Church of Weathersfield celebrated its one hundredth anniversary recently.

There will be a re-union of the 1920-21 legislature at the state fair at White River Junction this week.

B. W. Wilcox of the Gilman Store, Newport, has purchased the Mrs. Mary Lorimer property on Prospect street.

Ex-Gov. Samuel E. Pingree of Hartford was the honor guest at a recent meeting of civil war heroes in Boston.

Harry E. Parker has just passed his fortieth milestone as editor and publisher of the United Opinion at Bradford.

William W. Blodgett of Blodgett & Burgess, Newport, has purchased the interest of his late partner Henry Burgess.

Merritt D. Chittenden of Burlington has been elected state superintendent of high schools by the state board of education.

Orleans has built three new residences this season. Derby Line built twelve in 1920 and is completing two new ones this year.

Gilpin, Hunt & Co. with their fifteen employees recently took their annual outing together by climbing Jay Peak, 4,000 feet above sea level.

The Island Pond Electric Co. are treating the interior of their six-foot steel pent stock at their power plant at West Charleston with a preparation to prevent rust.

The annual fair of Memphremagog Grange, Newport, was held on Wednesday, Sept. 23. This is becoming a good custom of the granges and should be cultivated.

The total forest fire loss in Vermont will not exceed \$10,000 this season. The state forestry service has been most vigilant. It is a lonesome, uncomfortable job at the best.

Publishing of the automobile accidents in the state each week and giving the important features of each and the names of occupants, owners and operators is a step forward.

John H. Borland, who was with Miss Mildred Hanan in New York City where she was fatally shot by Mrs. Grace Lawes recently, is the son of Mr. and Mrs. James T. Borland of St. Johnsbury.

William Nelson of West Charleston, who has been in Brightlook hospital, St. Johnsbury, convalescing from an operation for appendicitis, suffered a relapse Tuesday, September 26, and died Saturday.

The Methodist Church and Woman's Literary Club for library purposes receives from the estate of the late J. N. Webster \$7,968.92 each. This gift will probably ultimately result in the erection of a library building.

The town of Corinth was without a physician. One went there to locate and is unable to secure a tenement for love or money and possibly cannot remain. The housing problem seems to have reached the villages and rural hamlets.

M. Bernstein, the proprietor of the string of Bradford Clothes Shops, there being one at Barton and at Newport, died recently at his home in New York City. Mr. Bernstein leaves a son trained to handle the large business he leaves.

Mr. and Mrs. Ora Ferrin of Topeka, Kansas, are visiting Mr. Ferrin's mother, Mrs. Ellen A. Ferrin and a sister, Mrs. J. E. Young, of Brownington. Mr. Ferrin is a cousin of Judge E. A. Ferrin of Holland and was born in West Charleston.

Services have been held every Sunday afternoon at Camp Winape, Seymour Lake, and the 125 boys joined heartily in the service. Dean Clarence W. Dunham of Gordon Cottage has been a frequent preacher, and has been asked to take full charge next summer.

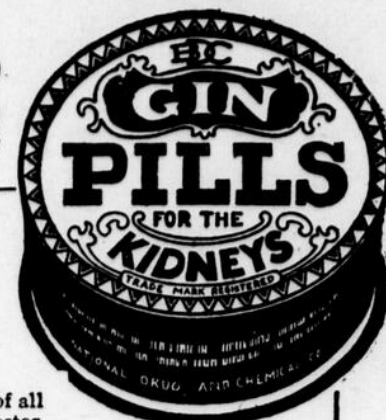

The Methodist, Baptist and Congregational Churches of the state have united in a campaign to fill the pews of their houses of worship. A simultaneous "everybody canvass" will soon be on. The shibboleth seems to be, let everybody attend the church of their choice.

Sixty-seven per cent of the people of Massachusetts have savings bank accounts, and 33 per cent of those in Vermont are savings depositors. Vermonters have a goal to attain in this particular and it is a problem for the savings banks and trust companies to act an important part by a campaign of thrift advertising.

Lieut. Walter Cleveland of Coventry uses his father's farm as a landing field for his new Curtis biplane, and has been giving the neighbors a taste of what "Darius Green" failed in. Mr. Cleveland gave him a ride recently. He says: "Eliminate all foolishness with a machine and it is by far the safest mode of travel. Planes will soon be very common."

Sixteen farmers have been called before the court of Orleans County by State's Attorney Farman to tell where they got the water with which to adulterate their milk. The complainants were insistent on knowing the source of supply. That may be one of the causes of the present drought. The whole county must be interested in the final outcome of these cases.

ALMOST  
20 YEARS OLD  
and still the best!

Since 1903—when Gin Pills were first offered to the people of Canada—we have received letters from thousands of grateful users.

Gin Pills are now famous throughout the Dominion and abroad as the most efficacious preventative of all kidney diseases, and as the finest restorative for deranged kidneys.

## \$10,000,000 AID FOR VETERANS

Red Cross Provides Friendly  
Service of Many Kinds to  
Army of Disabled.

BULK OF WORK BY CHAPTERS

2,397 of These Are Helping Ex-  
Service Men Obtain Bene-  
fits U. S. Provides.

One field of Red Cross service alone, that of assisting disabled veterans of the World War, entails expenditures \$4,000,000 greater than the aggregate receipts of the Annual Roll Call of 1920, the American Red Cross announces in a statement urging a wide-spread increase in membership at the Annual Roll Call, November 11 to 24. At the present time National Headquarters and the nation-wide chain of Chapters of the Red Cross is spending approximately \$10,000,000 annually for the relief of disabled ex-service men and their families, while the aggregate receipts from last year's Roll Call were approximately \$6,000,000.

It is in the 2,289 of the 3,600 Red Cross Chapters which still are helping solve the veteran's problem of adjusting himself to a normal civilian status that the greater part of the cost of this service is borne. Of the total sum spent for veterans' relief last year, National Headquarters expended a total of more than \$2,600,000, while the remaining disbursement of approximately \$7,000,000 represents the contribution of Chapters in this country-wide effort to assist the Government in providing the aid sorely needed by these men and their families.

### An Ever Expanding Problem

That the problem of the disabled service man is ever-expanding and probably will not reach the peak before 1925, is the assertion of well-informed Government officials and that 2,397 Red Cross Chapters regard it as their most important work is evidence that the expansion is in nowise confined to a particular section but is, on the contrary, nation-wide. At the end of the fiscal year, June 30, 1921, there were 28,300 disabled service men in the 1,892 United States Public Health Service, Contract and Government Hospitals and Soldiers Homes, and that number is increasing at a rate of 1,000 a month.

Thousands of these men receiving medical treatment, compensation and vocational training from the Government today, started their efforts to obtain them through the Red Cross Chapter. The Chapter, acting as the disabled man's agent in claims against the Government, informs the man as to the procedure necessary to gain for him that which is provided him by Federal statute. His applications for compensation, medical treatment and training are properly filed with the aid of the Red Cross assistance.

### Many Forms of Assistance

If there is delay before the man's claim is acted upon, the Red Cross Chapter lends the man money to meet the imperative needs of himself and his dependents.

Most vital to the man's gaining full benefit from the Government's care is keeping his mind free from worry about his home. Keeping the veteran's family from hardship of every kind and informing him of its welfare is another province of the Chapter. Free from fear on this score, the man's recovery and advancement usually is rapid.

Every month during the last year, the American Red Cross has given service of one kind or another to an average of 129,215 former service men and their families. An indication of the extent of the faith reposed in the Red Cross Chapter is to be found in the fact that there were 356,544 requests for friendly aid in the solution of personal problems.

### 448 Workers in Hospitals

While the man prior to entering Government care deals largely with the Chapter, afterward he comes into contact with the service provided by National Headquarters. There are 448 Red Cross workers in the United States Public Health Service and contract hospitals and other institutions in which these men are being cared for, whose duty it is to provide for his recreation, help him with his compensation claims, keep him in touch with his family; in short, meeting his every need outside of that provided by the Government. While these are a few of the responsibilities of the National Organization, they are by no means all. Among other Red Cross accomplishments for the year are:

It handled 70,732 allotment and allowance claims.

It delivered through its Chapter organization 63,655 allotment checks to veterans who had moved from the addresses furnished to the Bureau of War Risk Insurance.

It provided a special fund of \$10,000 for medical assistance to men under vocational training.

It made 32,495 loans totaling \$450,000 to men taking vocational training, of which 85 per cent has been repaid.

## Liquor Commission

Exceptions in favor of

Hospitals, Physicians, Surgeons, Surgeon-Dentists  
Veterinary-Surgeons, Druggists.

THE Quebec Liquor Law which limits the quantity of alcohol or spirits that can be sold by the Commission and delivered in one of its establishments, or shipped in the province to one bottle makes exception in favor of:--

**Hospitals:** Any person in charge of an Hospital recognized as such by the Commission, has the right to administer to his patients alcoholic liquors and to charge for the cost thereof. (Article 31, Clause 1).

**Physicians, Surgeons, Dental-Surgeons, Veterinary-Surgeons,** can purchase alcohol in larger quantities than one bottle, in pursuance of Article 45, Clause 1, which reads as follows:--

"No provision of this act shall prevent any person practising medicine, surgery or obstetrics in the Province, registered as such under the Quebec Medical Act, or licensed as such by the Montreal Homeopathic Association.

Or any person licensed as a dental surgeon, and registered as such in the Province;

Or any person practising the profession of veterinary surgeon, and registered as such under the Veterinary Surgeons' Act of the Province of Quebec,--from purchasing alcohol in quantities larger than one bottle and using the same for purposes of solution or sterilization in his own practice, or in any preparation for external application administered by himself, or from purchasing brandy, such as defined in the British Pharmacopoeia, or rum, for use in compounding his medicines, -- provided, however, that no such person may sell any such alcohol or spirits except when used by him for the purposes above mentioned.

**Druggists** benefit by the exception provided by Article 45, Clause 2, of the law, which reads as follows:

"No provision of this act shall prevent any person entered as a licentiate in pharmacy in accordance with the Quebec Pharmacy Act, and keeping a drug store:

a. from purchasing alcoholic liquor in quantities larger than one bottle, for use in medicinal, official or pharmaceutical preparations,--provided, however, that no such person may sell such alcoholic liquor except when used by him for such purposes; or

b. from purchasing ethyl alcohol rectified at ninety per cent., mentioned in the British Pharmacopoeia, in quantities larger than one bottle, and selling the same for obstetrical or antiseptic purposes only, in quantities not exceeding two ounces, upon prescription of a physician authorized to practise medicine in this Province, or upon the simple certificate of the latter if the sale be made to him personally; provided, however, that such sale shall take place only at such hours and upon such days during which the Commission cannot sell.

The law stipulates, Art. 45, Clause 3, that "Every such person must purchase such alcoholic liquor directly from the Commission. The latter may, at its discretion, refuse to sell the quantity applied for."

### Quebec Liquor Commission

This advertisement is not being published to advance the sale of any alcoholic liquor, but to acquaint the people with this new law and secure their co-operation in its successful enactment.

**NOTE:** The Commission desires to inform the public that all of its employees carry the necessary means of identification. Any person presenting himself without this official identification may be considered as an impostor.

The next advertisement will deal with the PROHIBITION OF THE SALE OF ALCOHOLIC LIQUOR.

## RED CROSS WORKING FOR HEALTHIER U. S.

Thousands Aided by Instruction  
in Care of the Sick, Food Se-  
lection and First Aid.

How the American Red Cross guides thousands of persons to health is shown in a summary of the society's activities in the health field based upon the annual report for the last fiscal year. Through its Nursing Service, its Home Hygiene and Care of the Sick courses, nutrition classes, First Aid classes, Life-Saving classes and Health Centers and in numerous other ways designed to acquaint masses of citizens with proper methods of living, the Red Cross carried its message of health into all parts of the country.

The work of the Red Cross during the war in its traditional field of nursing, furnishing the military and naval establishments of the nation with 19,877 nurses, is well known. And there are today 37,787 nurses registered with the American Red Cross and subject to call in emergency. During the fiscal year, 1,551 Red Cross nurses were accepted for assignment to Government service, 388 by the Army and Navy and 1,163 by the United States Public Health Service.

In addition to the nurses enrolled by the Red Cross for Government service, the Red Cross itself employed a total of 1,348 public health nurses in the United States and Europe. By far the greatest number was employed in the United States, 1,257, while 81 were in foreign service.

Home Hygiene and Care of the Sick classes, giving thorough instruction in the proper care of the sick in instances where the illness is not so serious as to require professional nursing care, during the fiscal year numbered 5,179. A statistical picture of the Red Cross operations in this field follows:

|                                |         |
|--------------------------------|---------|
| New classes formed during year | 5,179   |
| Classes completed during year  | 6,299   |
| New students enrolled          | 101,068 |
| Students completing course     | 78,432  |

What the Red Cross accomplished in giving proper instruction through its Nutrition Service is indicated by the following table:

|                                |       |
|--------------------------------|-------|
| New classes formed during year | 142   |
| Classes completed during year  | 188   |
| New students enrolled          | 2,341 |
| Students completing course     | 2,013 |

In addition to the above, a total of 22,006 children were given instruction in the proper selection and preparation of foods.

Through its 280 Health Centers, the Red Cross reached 90,252 persons. In these Health Centers, 4,015 health lectures were given and 780 health exhibits held.

In the United States last year, 75,432 persons were killed and 3,500,000 injured in industrial accidents. To prevent this enormous waste the Red Cross held 5,100 first aid classes with a total of 104,000 students enrolled.

## RED CROSS RESCUED 600,000 FROM DEATH

Spent \$1,200,000 for Relief of  
Famine Sufferers in China  
Last Year.

To help overcome conditions of acute distress in five famine stricken provinces of Northern China, where millions of persons were affected by an unprecedented shortage of food, the American Red Cross during the last fiscal year spent more than \$1,200,000, \$1,000,000 of which was contributed directly by National Headquarters and the remainder by various groups interested in the welfare of China.

Through the wide relief operations thus made possible it is estimated that more than 600,000 famine sufferers were saved from starvation.

To the end that similar prompt relief measures by the organization may always be possible the Red Cross is asking continued support by the American people by universal renewal of membership at the Annual Red Cross Roll Call, November 11 to 24.

The method of relief employed by the American Red Cross in its operations in China was particularly effective, for in addition to saving hundreds of thousands of lives it provided China with more than 900 miles of permanent roads that are sorely needed to prevent a recurrence of famine. At one time the Red Cross employed 74,000 Chinese workmen, paying them in food for themselves and dependents, this food being brought in from Manchuria and elsewhere.

### NEW GARAGE

We have opened a garage in the Allard Shop top of Foundry Hill where we are prepared to do all kinds of Overhauling and Repairs, Vulcanizing Tires, Casing and Tubes. Batteries repaired and re-charged. Call; you will find us busy in overalls, but we will be glad to see you, and we guarantee satisfaction.

Office at Rock Island, Que. under the act of March 3,  
1879.

### A MISUNDERSTANDING

To the Editor,—The one that wrote Mrs. Burleigh's obituary printed in the JOURNAL of the 22nd inst., was in advance of the probate court. It would be just as well if not better not to advertise to Burleigh or the Hospital anything about Mrs. Burleigh's small estate until it is definitely known whether the will can pass the probate court or not. The same one that wrote the obituary might take it on himself to inquire of Burleigh what he wants done with the things that are his in the old home as no one else knows his address. Burleigh has always had some one around Ayer's Cliff and Boynton for a watchdog to keep him posted; it looks as if he had one in Rock Island.

Mrs. LINCOLN.

Ayer's Cliff, Sept. 30, 1921.

NOTE—The appreciation of Mrs. Burleigh which has called forth the above criticism, was written by the editor of this paper with the most kindly intentions and upon information thought to be from entirely trustworthy sources. Our correspondent seems to have entirely misunderstood our motives and misinterpreted the meaning of the notice.

### MASSAWIPPI

About twenty from this place attended the harvest festival at Hatley, Wednesday evening of last week, which proved a very interesting time, with a most delicious supper including chicken pie and other delectable viands—and the musical program of a high order.

An accident occurred Sunday evening at the junction of the Hatley road and Government road. A car containing six or seven people failed to make the turn, but drove straight ahead, landing in the ditch and wire fence. A broken wheel was the result, but no one was seriously hurt, only one of the gentlemen getting a cut on his face, each side of his eye. The damaged car was taken to a garage and another car from Rock Island called to convey the party homeward.

Mr. and Mrs. O. Raymond have recently entertained at their home Mr. and Mrs. W. E. Davis and daughter of Lyndonville, Vt.; Mr. and Mrs. G. Little of Ayer's Cliff; Mrs. P. Raymond of North Hatley; Mrs. M. G. Merrill of Sherbrooke, and Miss Louise Raymond, their youngest daughter, who is teaching the school at Bromp-  
tonville.

Mrs. E. A. St. Dizier has returned from the Montreal Hospital where she has been for treatment.

Mr. and Mrs. E. A. St. Dizier were in Sherbrooke Sunday to visit their son at the Hospital. It is now expected he will be able to return home this week.

Mr. Holsie Colt and family of Coaticook were here Sunday visiting their relatives.

Mr. and Mrs. B. Kent were at North Hatley the past week to spend the day with Mr. and Mrs. Auger.

Mrs. T. N. St. Dizier accompanied Mrs. H. D. Turcott and Mrs. J. Sampson of North Hatley to Montreal last week, going by motor through Northern Vermont and returning by Granby and Magog. By leaving Montreal at noon Friday, they partly escaped the storm which swept so fiercely over that city.

Mrs. L. Thatcher and son spent the week-end at Sherbrooke, with her mother, Mrs. Cline.

Mr. G. P. Hitchcock and Mr. G. Mosher were at Sherbrooke Sunday.

The French school began Monday, with Miss Colt of Stanstead as teacher. The house lately owned by Mrs. L. Moulton has been purchased for the school, and two rooms have been remodeled. It is said that other improvements are to be made. The yard behind the buildings is to be used as a play ground.

Miss S. Ayer, who was the guest of her sister, Mrs. T. N. St. Dizier, Monday and Tuesday, has returned to Sherbrooke.

Mrs. S. Parker and Mr. and Mrs. M. Robinson of Hatley motored to Fitch Bay on Sunday to visit his mother, Mrs. Remick.

The bridge on the Ayer's Cliff road, is being rebuilt, and by the specifications we judge that when completed it will be a good, substantial structure and a credit to the town.

Centenary Methodist Church

Rev. H. Mick, B.D., Pastor.

10:30 Morning service.

11:45 Sunday school and Bible classes

7:00 Evening service.

"As His custom was, he went into the synagogue on the Sabbath day." Does it matter to you?

Have you ever stopped to think how this country would fare if there were no forests—no wood to supply the thousand and one necessities of domestic life?

## THE FRESH AIR FUND

Contribution at Lake Park Service Much  
Appreciated in Boston.

The many friends of the Montreal Fresh Air Fund and the Boston Floating Hospital will be glad to learn that the generous collection taken at the service held at Lake Park on the last Sunday in July was much appreciated by both institutions. The Montreal Star had a full account of the service and spoke in grateful terms of the continuation of the interest of the people in this work for so many years. The "Transcript" and "The Boston Globe" had similar articles.

In addition to these appreciative press notices, Dr. G. Ellery Read received a letter from Mr. G. Loring Briggs, manager of the Boston Floating Hospital, in which he says: "Each year it is my pleasant duty to acknowledge the thoughtfulness of your community. This year the gift has added interest and significance and value by reason of the very interesting historic statement which you sent me with your check and which, as you know, I have been pleased to make extended references to in our newspaper articles. Perhaps you do not realize quite how valuable this is to us. The publication of such an article invites the interest of similar communities and congregations and is the means of bringing us considerable help."

Referring to the work of the Hospital, Mr. Briggs says: "In the years of our service a large number of young Canadian women have graduated from our hospital, and some of our best physicians have been graduates of McGill University. These young men and women are now giving to their Canadian communities something of what we have given to them, and our feeling of reciprocity is, I am sure, shared by you and those of the congregation."

Mr. Briggs hopes that visitors to Boston will pay the Hospital a visit when it is in operation. He also makes feeling reference to the interest the late General F. G. Butterfield took in the institution.

### FITCH BAY

The annual harvest thanksgiving service was held in St. Matthias Church on Tuesday evening with a very large congregation present. The church looked very pretty with its decorations of flowers, fruit, etc. The special preacher was Rev. E. C. Russell of Stanstead, who preached a most acceptable sermon. The special chant and hymns were sung and the whole service was one of hearty praise and worship, and will long be remembered.

Mrs. H. C. Thoresen of St. Johnsbury, Vt., has been spending a week as the guest of Mr. and Mrs. C. P. Rider.

Rev. C. E. S. Bown and Mr. T. C. Bown were in Montreal a few days this week.

Mrs. Ophelia Peebles, who has spent the past two and a half years in Providence, R. I., arrived here on Tuesday, and is at present with her sister, Mrs. G. A. Gage, at "The Pines." Mrs. Gage and Mrs. Peebles have rented Mrs. B. A. Gardiner's house and will occupy it the coming winter. Mrs. Peebles' many friends are glad to welcome her back.

Mrs. G. A. Harvey, Mrs. F. H. Rider and Mrs. C. M. Wyman are attending the provincial convention of the W.C.T.U. at Waterloo this week.

The Seventh Day Adventist Church, which was recently purchased for a Roman Catholic Church, was consecrated on Sunday morning, when the first service was held. The property of Mrs. H. E. Rickard has also been purchased and will be used as a presbytery.

Mr. and Mrs. H. H. Tryon have been spending a few days at Eagle Point and Adams Island this week.

A most enjoyable dance was held in Merrill's hall, Thursday, Sept. 29. The next will be held on Oct. 13 when the International Orchestra of Rock Island will furnish music.

Mr. and Mrs. B. H. Rider and Mrs. S. P. Williams left by motor on Tuesday for Groton, Mass.

The annual chicken pie supper under the auspices of the Ladies Guild will be served on Wednesday evening, Oct. 12, at the home of Mr. C. P. Rider.

### DUFFERIN AVENUE

Mr. and Mrs. H. H. Smith of Stanstead were guests of Mr. and Mrs. J. A. Peasley at Hillside Farm on Thursday.

Miss Doris Knapp and Miss Iva Granger of North Hatley are spending a few days with friends at North Stanstead, and Dufferin Avenue.

A number from this place attended the funeral of Mr. Selah Pomeroy at Judd's Mills on Wednesday afternoon.

Christ Church, Stanstead.

Rev. Edward Charles Russell, Rector.

(Twenty-third Sunday after Trinity)

Morning prayer 11; preacher, the Rector; subject of sermon, "The Danger and Value of the Movies."

The students of the College will attend this service in a body.

Sunday school 3 p.m.

Confirmation class Wednesday at 7:30 p.m.

All Saints' Church, Beebe.

Evening service 7:30; preacher, the Rev. E. C. Russell. Confirmation class Tuesday at 7:30.

## TOMIFOBIA

Mrs. Otis Sherman of Massachusetts has been the guest of Mrs. P. O'Leary for a few days.

Mr. Henry Benson of Somerville, Mass., is in town for a couple of weeks visiting relatives and calling on old friends.

Mrs. Lunderville, who has been ill for several months, is slightly improved.

Mr. and Mrs. J. M. Reed returned Saturday from Montreal where they have been visiting their daughter, Mrs. Gail Billings, and family for the past ten days.

The meeting of the Ladies Aid held at the home of Mrs. Thomas Manning on Thursday, Sept. 29, proved to be a very pleasant affair, four new members joining the society. One new member joined at the previous meeting.

Rev. R. W. Carr held services in Fairview Hall on Sunday afternoon, as the interior of the Methodist Church is undergoing repairs. Services next Sunday evening at 7:30 at the same place.

Mr. E. Burbank is making extensive repairs to his house which he purchased some time ago.

Mr. Elmer Smith and daughter of Rock Island were guests of Mr. and Mrs. Walter Rever on Sunday.

The friends of Mrs. George Soutiere will be sorry to hear that she is in the Sherbrooke Hospital for treatment, and is in a very serious condition.

Mr. and Mrs. L. T. Reed of Boston were at Fairview Hotel over Sunday. They intend to spend two weeks at Camp Welcome, Lake Memphremagog, and left for that place on Monday.

Mr. Wolfe Libby has bought the Fred Putney lot, and has workmen getting the foundation ready for his house.

Miss McQuat of Macdonald College will be pleased to meet everyone interested in organizing a singing class at the Farmers' Association hall, Monday evening, Oct. 10, at 8 o'clock. Everyone fourteen years and upwards will be welcome. Come and help make the evening a success.

The Women's Institute will meet with Mrs. F. J. Brown, Thursday afternoon, Oct. 13. Answer to roll call by giving a hint on how to keep well through the winter. Visitors are welcome.

The card party recently held at the home of Mrs. A. McKay was very successful. A most enjoyable evening was spent by all. Proceeds about \$19.

### HATLEY

The annual chicken pie supper held at the vestry of the Methodist Church, Sept. 28, was a success in every way. The bountiful supper, which was served to over two hundred people, was followed by an excellent program.

It is not often that the people of Hatley are privileged to enjoy a musical treat such as was furnished them on this occasion by Prof. Stone's Quartette and Orchestra of Coaticook. The large audience was also pleased to welcome as the speaker of the evening, Rev. A. F. Shorten of East Angus, a former pastor. Rev. H. Mick of Stanstead contributed to the pleasure of the occasion by one of his excellent readings. The church was beautifully decorated with autumn leaves, fruit and other reminders of a bountiful harvest.

Among those from this place who attended the W.C.T.U. rally at Massawippi on Friday, Sept. 30, were: Mrs. E. Hodges, Mrs. O. H. Glidden and Miss Mable Glidden, Mrs. J. F. Woodman, Mrs. H. Emery, Mrs. F. Ayer and Mrs. A. E. Pellerin. A pleasant and profitable time was reported by all.

Mr. and Mrs. Thomas Morrison are guests at the home of their daughter, Mrs. H. B. Whitcomb.

Nurse Young is caring for Mr. Zerach Whitcomb at his home here.

Mrs. Sarah Haines is visiting relatives and friends in this place.

Miss Elsie Gibson has returned to her home in Massawippi after spending the past seven months at the Pellerin homestead.

### SOUTH BARNSTON

Mr. George Bullis of the Stanstead Fur Farm has been on his vacation, visiting in New York.

Mr. Merle Kezar is attending the Way's Mills School.

Mr. Henry Kennison and his brother were visiting their sister, Mrs. Hiram Searles, on Friday.

Mr. and Mrs. W. L. Wood were callers at Mrs. C. B. Kezar's on Saturday.

Miss Hazel Bullis is visiting in Magog and Eastman.

Miss Vera O. Kezar was a guest of Mrs. W. L. Wood over the week-end. Mr. Merle Kezar and Mr. Merrill Searles attended the husking at Mr. John Ashman's, Friday evening.

### IN MEMORIAM

In fondest, tenderest memory of our dear wife, daughter and sister, Mrs. Eric Wilson (née Mildred Kelley), who departed this life at Rock Island on the eleventh day of October, 1918.

A light is from our household gone.

A voice we loved is still.

A place is vacant in our home

Which never can be filled.

Inserted by Husband, Father, Mother, Sisters and Brothers.

### MANSONVILLE

Two of the Perkins children and the little Soles girl are having scarlet fever which is of a mild form.

William R. Oliver, M.L.A., A. C. Johnson, Charles Jones and Mr. Coachier attended the Brome County Liberal convention at Knowlton, Saturday, Oct. 1st.

An auction sale was held at the E. J. Manning farm on Sargent's Bay, the first of the week.

Mr. and Mrs. J. M. Alex started for Florida Thursday, Sept. 30.

In a runaway accident Friday the little son of Johnnie Wheeler got one of his eyes badly injured by being thrown out of the wagon. He was taken to a Montreal hospital. Vernon J. Manson's little son got a knee cut on a hay knife, and Andrew Woodard's son had an arm dislocated by being thrown out of a wagon.

The town hall was packed Thursday evening for the musical entertainment, with Miss Van Dyke as soloist. "Open the Door for the Shepherd" and other solos were pleasingly rendered, while "Finding the Burglar" was charmingly presented by Miss A. Roy, Miss Percy and Miss Myrtle Fullerton.

### MAGOON'S POINT

Mr. Antoine Cournoyer was at Rock Island on Tuesday.

Mr. Antoine Cournoyer was at Tomifobia two days last week.

Mr. Ed. Eryou and Miss Lillie Eryou were at Beebe on business one day last week.

The rain on Sunday gladdened the hearts of many farmers.

Mr. Joseph Little has finished his work for Mr. Antoine Cournoyer, and moved to Fitch Bay on Tuesday.

Mr. C. Mishia entertained two brothers and two half-brothers and a nephew from Franklin, N.H., on Sunday.

Mr. and Mrs. Frank Haselton of Beebe were also guests at the same place.

Mrs. Charles Eryou returned Tuesday from Plymouth, N.H., where she went to attend the funeral of her little niece.

Howard Eryou of Plymouth, N.H., is staying at the home of his parents, Mr. and Mrs. Charles Eryou.

Mr. and Mrs. George Leclaire of Beebe were the guests of Mr. and Mrs. Ed. Eryou on Sunday.

A number from here attended the council meeting at Tomifobia on Monday.

### SLEEP

Can you do it well? Just one or two doses of DR. MILES' NERVINE—\$1.20 will soothe the irritated and over-strained nerves. Guaranteed Safe and Sure. Sold in Rock Island by W. H. Brown

## NORTH HATLEY

The formal opening of North Hatley intermediate school will be held Oct. 12, at 7:30 p. m. The prizes for last year's work will be awarded at that time.

The pupils of the school expect to conduct a field day program on Friday, Oct. 14, beginning at 12 o'clock noon, on the ball grounds. Parents and friends are especially invited.

The school was recently visited by Miss Hitchmough, a teacher from England, who had attended the conference of "British Empire" teachers held at Toronto. Miss Hitchmough spoke in an interesting manner of her travels in Canada and England, and showed the pupils snapshots illustrating her talk. This was much appreciated by the staff and pupils.

Miss B. V. Merrill of Eaton is again teaching the Minton school.

Mrs. A. H. Nance is the teacher of the Bressette Corner school, where she taught the past few terms.

A very interesting and well-attended meeting of the Massawippi Fish and Game Club was held on Wednesday afternoon in Mr. T. V. Reed's office.

U. S. Consul Adams and family have returned to Sherbrooke after spending the summer at the "Shelter."

Mr. L. P. Crafts of White River Junction was calling on relatives here on Thursday.

Mr. and Mrs. Marsden Smith and family have returned to their home in Baltimore, after spending the season in their cottage.

Mr. R. Manson Smith and family have returned to Baltimore after spending the season here.

Mrs. Amos Kezar's condition does not improve, to the regret of her many friends.

A hay barn and contents, belonging to Mr. Vear, on the Eustis road, was destroyed by fire this week.

Mr. Fleming has returned to Jersey City after spending some weeks at the home of Mrs. A. Côté.

Mr. Francis Pelzer and family have returned to Charleston, S. C.

Mrs. Major Miller and Mrs. Walter Miller have returned to Montreal.

Admiral J. N. Hemphill, Mrs. Hemphill and Miss O. J. Hemphill left on Thursday by motor for their home in Washington, D. C.

Mrs. C. J. Hunter left on Thursday evening for New York City.

Miss Alice Adams is spending some time in Boston.

Miss Bertha Furman has returned to New York.

Mr. Chas. H. Biddle has left for Riverton, N. J.

Mrs. H. C. Walthour and family and Mrs. J. W. Buckman have been spending a few days in Philadelphia on their return to Savannah, after spending the season here.

Mrs. R. M. Butler, Jr., has returned to Toronto after spending several weeks at Miss Moy's.

Service at St. Barnabas' Church on Oct. 9 with holy communion at 10:30 a. m.

Service at the Baptist Church commences at 7 o'clock every Sunday evening until further notice.

Chicken pie supper and entertainment at the Baptist Church on Tuesday evening, Oct. 11. Come and bring your friends.

Mrs. D. A. Carr has returned home after spending a few days at Magog. She was accompanied by her brother, Mr. E. W. Seymour, who spent the week-end here.

Mr. A. R. Virgin, manager of the Bank of Commerce, is away on his vacation. Mr. Baldwin is relieving during his vacation.

Miss B. A. Reed of the Merchant Bank of Canada, has been transferred to Sherbrooke. Her place at the local branch is being taken by Mr. Paquette.

Mrs. H. G. Chant has returned after spending several weeks at Shawville owing to the illness of her mother and sister.

Mrs. Presby, aged nearly 86 years, passed peacefully away at the home of her daughter, Mrs. Charles Call, on Monday morning. The funeral service was held at the Universalist Church on Tuesday afternoon, Rev. E. E. Marggraf officiating. Interment in the local cemetery.

The formal opening of the intermediate school will be held Oct. 12, at 7:20 p. m. Parents and friends are invited.

### CARD OF THANKS

Words fail to express my deep sense of appreciation and gratitude, to the neighbors, and friends, for their kindness and sympathy, during the illness and death, of my beloved husband. I wish to extend sincere, and heartfelt thanks to the pastor, for his very comforting discourse, to those who brought flowers, and to the choir. May God graciously shower down His choicest blessings upon those, who in any way, so kindly helped to lighten the sorrow of a great bereavement.

Mrs. H. E. QUINN.

### THE JOURNAL'S FRIENDS

In renewing his subscription, Rev. T. A. Halpenny of Toronto writes: "To have the JOURNAL in our home is like having a little glimpse of the Eastern Townships week by week. We are able to keep in touch with our former associations and the doings of our splendid friends of the Three Villages."

## GEORGEVILLE

The home of Mr. and Mrs. F. A. Rexford was the scene of a very pleasant social event on Tuesday evening, Sept. 27, when Mr. and Mrs. G. A. Boynton were guests of honor at a reception and shower tendered them by their friends and acquaintances of this place and vicinity. The affair was in the nature of a surprise to Mr. and Mrs. Boynton, which perhaps added to the pleasure of the evening. A table filled with miscellaneous gifts was evidence of the good will of their many friends, and after the Rev. Wilson Carr had voiced the good wishes and congratulations of those present, both Mr. and Mrs. Boynton responded fittingly, expressing their thanks and appreciation. The evening passed most enjoyably. Delicious refreshments were served by Mesdames Rexford, Davidson, Packard and Probyn. Among the out-of-town guests were Mr. and Mrs. Wm. Hawley of Newport, Mr. and Mrs. L. Bacheider and two sons and Mr. and Mrs. G. A. Harvey of Apple Grove, Mr. and Mrs. F. H. Rider, Hamilton Rider and Mrs. A. L. Rider of Fitch Bay, Rev. and Mrs. Carr of Fitch Bay, Mrs. E. M. Routledge and Mr. James Routledge of Belmore.

Mrs. W. M. Farman and children of Saskatoon are visiting her parents, Mr. and Mrs. Davidson.

Mr. and Mrs. W. A. Murray, who have spent the summer in England and Scotland, have returned to their home here.

Mr. and Mrs. Herbert Smith and son of East Berkshire, and Mr. and Mrs. Harry Hutchins of Newport visited at the home of their brother, Mr. Henry Hutchins, on Sunday.

Mr. and Mrs. Davidson entertained Mr. and Mrs. Eugene Lawrence, Mrs. C. Rublee, Mrs. Stella Rublee of Enosburg Falls and Mrs. C. S. Copp of Derby Line a couple of days last week.

The annual chicken pie supper will be held in the Methodist Church here on Saturday evening, Oct. 8. Please remember the date and all the good things to eat.

Mr. and Mrs. Alexander have taken possession of their new home which they bought of Geo. Silvester. Mr. Silvester and family have moved into part of the Chamberlain house.

The Misses Mudge have returned to Montreal for the winter.

We are sorry to hear that Mrs. J. H. Holland is quite ill.

Mr. and Mrs. Rexford entertained Mr. Tuff of Montreal, and also Mr. N. Feltus, over the week-end.

### GRIFFIN

The annual business meeting of the United Guild of Griffin and Tomifobia was held on Wednesday, Sept. 28, at the home of Mr. and Mrs. Frank Clark. The reports of the secretary and treasurer showed a very prosperous year. Beginning with a balance of \$115.83, the Guild took in during the year \$249.82 and paid expenses of \$158.19 during the year leaving a balance of \$205.00 on hand. Officers elected for the following year are as follows: President, Mrs. E. A. Embury (re-elected); vice-president, Mrs. E. Wilcox; treasurer, Mrs. L. Comstock (re-elected); secretary, Mrs. Mina G. Brevort-Bullis (re-elected). Work committee, Mrs. P. O'Leary, Mrs. F. Clarke, Mrs. H. Keeley and Mrs. J. C. Howard. Two new members were added to the roll.

Mrs. Mary Soutiere went to the Sherbrooke Hospital Sept. 28 for treatment. Her many friends hope for a speedy recovery.

Mrs. Reace and family (nee Lillian Soutiere) are at present at her parental home here.

Mr. and Mrs. Bernard E. Renihan and son Lawrence, Mrs. John Renihan, Derby Line, Mrs. C. H. Davis, Newport, Mrs. C. P. Davis, Beebe, called on Mrs. S. G. Drew, Tuesday, Sept. 27. Mrs. Drew received many warm congratulations on her birthday.

Mrs. W. Ives of Georgeville called at Mr. S. G. Drew's recently.

The United Guild of Griffin and Tomifobia will meet with Mrs. Leslie Comstock, Friday afternoon, Oct. 14. A cordial invitation is extended to all friends and neighbors. The work committee are preparing work.

Miss Lydia Blais (teacher) and niece, Lena Côté, have taken rooms with Mrs. Mina G. Brevort-Bullis. A few more pupils have been added to the school this week.

Adelbert Colby goes to Newport, N. H., Thursday to remain with his sister, Mrs. Dudley, (née Della Colby) for the winter.

### EAST BOLTON

Condensed on account of late arrival

Mr. and Mrs. W. Patterson have been spending a few days with relatives and friends in Knowlton.

Mr. and Mrs. S. Bacheider of Sherbrooke were guests at the home of Mr. W. H. Patterson on Sunday.

Mrs. Evans passed away on Friday morning and was buried at the East Bolton cemetery on Sunday.

On Sunday at about 2 o'clock, Mr. Marcon's cottage at Bryant's Wharf was broken into, but Mr. Marcon and mother had not yet gone, and the would-be thieves decamped in a hurry, fleeing to their car which had been left a short distance up the road.

## A CLEAN SWEEP

The Electric Vacuum Cleaner makes a clean sweep of every speck of dust and grime in your home. It is like an X-Ray—bringing out the dirt and grime from underneath the thickest rug and carpet.

The Electric Vacuum Cleaner is the only clean way. By pure air suction it absorbs dirt from carpets, rugs and furniture, leaving them spotless as new. It is all done by simply turning the switch. No aching arms or weary back—no turning out of furniture.

At the cost of about two cents an hour, and no effort, your home may get a spring cleaning every week.

## UNDERWEAR

THE cool mornings and evenings are reminders of what is coming. Hadn't you better look over your Underwear and buy now to be ready? Underwear is nearly down to prices prevailing before the war, and the garments are all very much better made. We have a very large stock and an assortment not easily matched in a country town.

### Turnbull's in Union and Single Piece

For Men, Women, Boys, Misses and Children. We carry this full line in Natural Wool, a most desirable weight and price, while the material is practically non-shrinkable.

A full line of Ladies' Silk and Wool Underwear. The silk and wool combination is both durable and most comfortable, while the price is reasonable.

We also have Cotton and Wool Mixed Garments, a full line of Men's Heavy Ribbed and Fleece Lined Garments. The selling prices are: Mixed Cotton and Wool, \$1.25 and \$1.50; Single All Wool, \$1.75 and \$2.00; All Wool Union, \$3.50 to \$4.00; Men's Fleece Lined at \$1.00 single; Men's Fleece Lined at \$2.00 union. Other Union Suits from \$1.75 up.

We also carry Turnbull's, Woolsey's and Penman's Fancy Union Suits up to \$8.00.

### Sweaters

For each member of the family, in all the weaves, grades and colors, Pull-Overs and Coat Shapes. Our stock was never as large. See us if you need a Sweater.

### Hose for Men, Women and Children

Stockings are back to pre-war values, and we have a large assortment from the English hosiery mills. Our Ribbed Hose for Children of school age, in all wool, from 50c. to 75c., are the very best thing in school hose.

We have a novelty in Ladies' English Ribbed Hose, from \$1.00 to \$1.75.

Men's Hose in Heather Mixtures, Brown, and Black. These are beautiful goods. Yeager, Penman and Woolsey Cashmere Hose in White and Black.

Ladies' Silk Hosiery from \$1.25 to \$4.00.

### Big Line Mackinaws For Men and Boys

The manufacturers of these garments make their cloth in their own woolen mill, and they are the last thing in Mackinaws. Don't fail to see us if you need such a garment, the sensible coat.

### Pantaloon

All Wool Medium Weight \$4.00.  
Boys' Corduroy Knickers \$1.75 and \$2.00.  
Boys' All Wool Knickers \$2.00 and \$2.25.

### Clearance Sale

12 Misses' Coats, \$6.50 to \$9.50. Up-to-date Garments, Good Cloths, Good Lines, Good Colors and Good Quality.

### Shoe Department

Men's and Boys' Shoes for the fall and winter.  
Low and High Cut Shoes for Ladies.  
Children's School Shoes.  
Beal Bros. Goods for Boys, \$3.50 to \$5.00.  
Full stock Kaufman's Rubber Boots and Shoes.

### Building Materials

Glass, Putty, Paint, Oil, Varnish, Shellac, Roofing, Carpenters' Tools, Nails, Building Paper, Wall Paper, etc.

The Best Java Coffee in Town

# ROAD BUILDING

## ITALY WANTS BETTER ROADS

Experimental Institute Promoted for Study of Materials for Improved Highways.

The Italian Touring club has recently promoted an experimental institute of roads for the study of materials employed in the construction and maintenance of highways.

The objects of the institute will be to carry on laboratory experiments on the physical and mechanical characteristics of road materials; to help the progress of experimental techniques relative to highway surfacing by reproducing and studying samples of pavements worn by traffic or deteriorated otherwise; to form a collection of material samples suitable for Italian road construction; to collect all descriptive and statistical matter appertaining to Italian roads; to furnish public bodies with useful advice relating to construction and maintenance of roads, and to forward by every other means the development and betterment of road work in Italy.

The institute publishes monthly reports of its proceedings. The institute is financed by annual contributions from the Touring Club of Italy, by an annual subsidy from the ministry of public works and by annuities, gifts and charges for material tests.

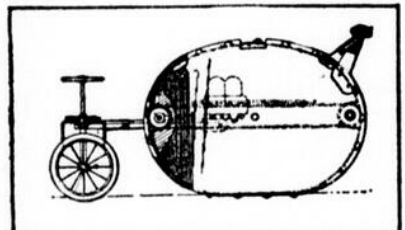

The institute is under the direction of Sig. Italo Vambone, formerly chief engineer of the province of Milan. More detailed information regarding the formation of this institute is given in a recent bulletin of the Permanent International Association of Road Congresses.

## TRACTOR TO IMPROVE ROADS

Contraption Invented by Colorado Man Is Intended for Smoothing and Compacting.

The Scientific American in illustrating and describing a tractor for improving highways, the invention of J. Mosca of Rouse, Colo., says:

"The tractor is for use in soft roads, as for instance in snow or mud, where the tractor is driven by an endless belt traveling about a fixed element and engaging the ground on the

Tractor for Use on Soft Roads.

under side of said element, and having means for preventing slipping of the belt, and wherein front wheels are provided for smoothing and compacting the roadway for the propelling means, and wherein cleaning means is provided for the belt and front wheels."

## HARD ROAD IN NEW ZEALAND

Sum of \$146,000 to Be Spent in Construction of Strip of Concrete Six Miles Long.

Approximately \$146,000 is to be spent by the city of Wellington, New Zealand, in building a concrete road, 25 feet wide, to the suburb of Petone, which is six miles distant.

The new paving will occupy the center of a thoroughfare 100 feet wide which is now macadamized. Only vehicles, such as carts, motorcars and small motorbuses will be allowed on the concrete way. A special vehicle tax in addition to the present one, will be levied by Wellington, the proceeds of which will be devoted solely to the upkeep of this road. This tax applies to all motor-driven cars, and among them are also included motorcycles.

## IMPROVEMENTS ARE TO COME

Establishment of Motortruck Trains Bound to Cause Reconstruction of Surfaces.

With the establishment of motortruck trains operating on a fixed schedule throughout the country improvements are bound to come. Not only will surfaces of the highways be rebuilt, but in many instances routes will be shortened to save time and money.

These improvements should be regarded as vital to the success of every community and as a necessary factor in the prosperous era before us. They represent benefits in which not a few individuals but the community at large will share.

### Teach Highway Engineering.

Schools and colleges throughout the United States are to be enlisted in a national way to teach the coming generation all about highway engineering, automobile transport, traffic regulations and safety.

### Dixie Highway Leads.

Of the 9,630 miles of roads to be constructed throughout the United States through the aid of federal appropriation, the Dixie highway leads the list with 895 miles.

## CHANGE MADE FOR TOURISTS

Pictures in Museum of the Louvre "Standardized" With Idea of Pleasing Americans.

Even that sedate, historic file, the Museum of the Louvre, has not escaped the effects of the "preparation" which all Paris has been undergoing for the reception of the American tourist. It was decided some time ago that the old method of hanging the pictures according to their merits and according to the lighting effect desired was too haphazard and too prone to confuse the visitor who was unfamiliar with the old works, their period and school. Some one suggested "standardization." There was a howl from the French press, which shrank from the thought of touching even a picture cord in the famous gallery, but the thought was advanced that if the coming thousands of American visitors to Paris were to properly enjoy the pictures they should be properly classified according to their period and school. This has been done, and now one passes through the big rooms as one might a department store. Here are works of the early Italian painters, here those of the Italian renaissance, there those of the early Flemish school and there the products of early Spanish genius. The Louvre, of course, is a sacred rite. Now it's a rite simplified, standardized and somewhat stereotyped. Some pictures which require strong light are almost in the dark, and others which would benefit by a somber surrounding suffer a glare. The guide calls this a "systeme American." Despite it the Louvre remains a rare treat.—World Traveler.

## TURK LOSING HOLD IN EUROPE

Vast Empire Once Under the Crescent Has Been Slowly Dwindling Since the Year 1699.

Those who were in hopes that Turkey might take herself, "bag and baggage, out of everything" and have seen a setback to their hopes in the Sevres revision, can cheer up a bit by looking at the map, says the Christian Science Monitor. The chart of the Ottoman empire as it has existed since 1696 presents, indeed, a hopeful sight. The empire slowly and surely has been going back to first things. The crumbling began in 1699, when Transylvania, Slovakia and a chunk of Poland and Hungary were lost. The Banat went in 1717, the Bukovina in 1775, the Taurida and the Crimea in 1783, and the Odessa district in 1792. The next century was even more disastrous for Turkey, who lost Bessarabia in 1812, a part of Serbia in 1817, Georgia and Greece in 1829, Algeria in 1830, Bulgaria in 1876, northern Armenia, Rumania and more of Serbia in 1878, Tunisia and some of Greece in 1881, and Egypt in 1882. Nor has the present century been behind its predecessor. Libya was a great loss in 1912, following the annexation by Austria in 1908 of Bosnia and Herzegovina; 1913 proved particularly unfortunate for the Turks in the Balkans, and last year there slipped from their grasp the Hedjaz, Mesopotamia, Syria, Palestine, the strips along the Persian gulf, Smyrna and some of Armenia. It is a tale of consistent disaster.

### Safety-First Doors.

Nearly every one suffers pangs of anxiety when they see a child leaning far out of a railway carriage window or pressing with its full weight against a door. Soon parents will not need to tell their children to "come away at once!" for an automatic locking device has been designed by a member of the Birmingham Dock staff of the Great Central Railway company.

By this new invention the carriage door automatically locks itself, and cannot be opened when the train is in motion, except by a special key, which will be in charge of the guard. This key will unlock the doors even when they have been strained by intent or accident, and when the train slows down the doors automatically unlock themselves.

The new device is worked from the axle of the carriage and can be applied to single carriages.—Exchange.

### It Was Up to Her.

A woman had just been hurt and carried into the drug store when the girl reporter dashed up. She gathered the particulars from one who had witnessed the accident and then went after details. First came the woman's name. She asked several persons and then a man who had been listening to her questions said irritably, "Oh, you curious women! Why don't you wait until tonight. We can read all about it in the paper then."

"No you can't," she returned hotly, "not unless I find out and write it."—Exchange.

### Made Pathway in Desert.

Wire mesh is stated to have given quite surprising results in the construction of military roads. In Egypt, loose sand was smoothed, then chicken wire was fastened down over it, and the road so consolidated proved to be easily passable for troops and motor transports. The damage was slight, though after the passing of animal-drawn vehicles much repairing was necessary.

### Jud Tunkins.

Jud Tunkins says gentlemen's agreements have worked out so well that maybe in international affairs gentlemen's agreements can some day take the place of wars.

## FROCKS FOR THE GIRL AT SCHOOL

Uniforms and Plain Serge Dresses Play Important Part in the Outfit.

## THREE-PIECE SUIT FAVORITE

Garment Regarded as Most Useful to Any Young Woman Sojourning Away From Home or for Traveling.

It is the schoolgirl who is being catered to just now in fashions, observes an authority on what women should wear. College girls are as interested in French models as are their mothers and their older sisters, but their departure for school takes place before there has been any considerable showing of French clothes in this country and before models have been copied to any great extent, so that special clothes have to be prepared to meet their requirements.

Uniforms and plain serge frocks play a very large part in the outfit of the younger schoolgirl, but the college girl enjoys more latitude in the selection of her outfit. While her costumes should not be elaborate, they may have a little more importance than those of the girl at boarding school.

It would save a great deal of trouble and much readjustment after the arrival at school if fond parents would realize that simplicity is a matter of first consideration in outfitting a schoolgirl.

The three-piece suit is most useful to any young woman sojourning away from home or for traveling. This autumn there will be much to choose from in suits, and the practical will be embodied in all of them, owing to the influence of the plain gray which French women adopted so enthusiastically earlier in the season.

Adhering to gray and leaving all other colors out of consideration gives us an astonishing variety. There are the deep Oxford mixtures, so smart and so practical, and the very pale grays for more dress-up occasions—if a suit ever can be considered a dress-up costume.

Simplicity of outline marks all of the new suits. A French model of very dark gray cloth shows the same material tucked and inserted in bands. It incorporates several ideas in one model. The outline of the suit remains plain, and by omitting the tucked portions and the scalloped bottom a smart suit having a box coat with raglan sleeves and high collar remains.

### New Blouses Have Shorter Lines.

As for blouses to accompany the suit, it would be well to include one or two of the new costume blouses of crepe de chine or dull crepe satin. Beware of those showing too much elaboration.

In their eagerness to meet a sudden demand for blouses created by the rejuvenation of the tailored suit designers have gone far in an en-

Or considerable importance in the college girl's outfit is a topcoat, and there is no reason why this should not be one of the smartest costumes, for copies of the plaid coats which were acknowledged by everyone who visited the French races to be among the smartest things worn there now may be procured in this country.

### Loose Topcoats of Plaid Woolens.

Those with long cape backs or cut in scarf effect, while attractive, are

Suit of Dark Gray Cloth Trimmed With Tucked Bands of the Material; the Straightline Coat Has Raglan Sleeves.

not quite as useful as the real coat variety. While cut on very loose lines, it still gives the comfort of a coat. It meets fashion's requirements by having the long flowing sleeves which are the most up-to-the-minute note.

While a coat of this sort is useful for traveling and many other occasions it does not quite fill the requirements of a rainy day. Every student should take a good tramp each day, rain or shine, so a raincoat is essential.

If a day be unattractive women should not fall in line with it by appearing in old clothes which they would not wear in the bright sunshine.

In this country we walk so little in the rain that there has not been the demand for good-looking rain coats that there is in England, where women consider a smart rain costume of real importance.

But a growing interest in rainy-day coats is constantly developing here. Some of our most exclusive American firms brought over smart models last year in rubberized plaid cloth with small hats to match. They were so expensive, however, that they were practically prohibitive for the woman of average income. Now copies of some of the best models from London and Paris may be had at reasonable prices. Among them are capes suitable for wearing over a suit or heavy coat in the autumn and winter.

Some of the new models in long coats which French designers have been working on so animatedly of late are of rain-proof tweeds and gabardines, although these are not quite as unusual and smart as the silk rain-proof plaids in large, showy patterns on the order of the coats worn at the French races.

There are a number of smart coats of the deep-yoke sort with choker collars that start at a neckline cut out far onto the shoulders.

### Peter Pan Collars Add Touch of Youth

A simple evening dress of the fluff, fuller skirted sort finds its logical place in the young girl's wardrobe, and an evening frock of more tailored outline which is composed entirely of ribbons, as well as a simple dinner dress with somewhat high neck and short sleeves, and the over-shoulder navy blue serge frock, the latter having a collar which is a revival of an old-time favorite—the Peter Pan collar.

Several collars of this type have been noted on recent models. They may be of the material from which the frock is made or composed of rows of real lace. Often on a dark blue or black dress they are of white silk. They give a youthful touch and serve to vary the monotony of a neckline which we have had for some time.

There is a new shade of stockings that will interest many a schoolgirl. It is a very dark gray, almost black, and in certain light shows tints of blue.

What sort of handbag shall be chosen for the schoolgirl is another question that arises, and here there is much from which to select. Thin ones will be very much liked, but better than the thin silk ones are those of leather, having the flatness so much desired, but that are sufficiently commodious to hold as much as the old-time shopping bag. They are elaborated with handsome monograms, which make them smart enough to please the most exacting.

## SLEEP

Oh! what a wonderful word that is! Can you do it? That is, drop off into a good sound refreshing sleep? If you are unable to, there is something wrong with your nervous system. It is a danger signal. Nervous prostration, melancholia, nervous dyspepsia are only a few of the serious maladies that are liable to develop.

DR. MILES' NERVINE—\$1.20 will soothe the irritated and overstrained nerves. Just one or two doses helps Nature to restore them to their normal functions. Guaranteed Safe and Sure.

Sold in Rock Island by  
W. H. BROWN

Where there is a tendency to constipation, you will find Dr. Miles' Liver Pills effective in keeping the bowels open.

## BEAUTIFUL HOME INSIDE AND OUT

Design for Attractive Exterior  
and Comfortable Interior.

CAN BE BUILT AT LOW COST

Architect's Plans So Drawn That the  
Average Family Will Find the  
Building Laid Out to the  
Best Advantage.

By WILLIAM A. RADFORD.

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

Every person who builds a home strives for two things—exterior beauty and interior comfort, for there is a satisfaction in the former that cannot be measured in dollars, while the latter makes the investment worth while.

Building designs that contain these two features are not difficult to find nowadays, as architects are constantly designing homes that are good to look at and utilize the space the walls inclose to the best advantage. Careful planning, so that there is no waste space in the interior, is what cuts building costs, as every foot saved either in the width or depth of the house reduces materially the total investment.

Whereas several years ago there were few homes built that contained less than seven rooms, with a great majority having more than that number, now the trend is to have fewer rooms, but arranged so that they provide comfortable living quarters for a good-sized family. The old-fashioned parlor and sitting room have been consolidated into one living room; entrance halls have been reduced in size, or eliminated entirely, while small "cubby-hole" rooms are a thing of the past. In other words the frills have been cut out and the space in the home devoted to rooms that are used constantly. This means economy in building costs.

Herewith is shown an exterior view of a house that any prospective home builder may be proud to own. Inside it is compact and comfortable, and provides the rooms necessary for a family of four or five persons.

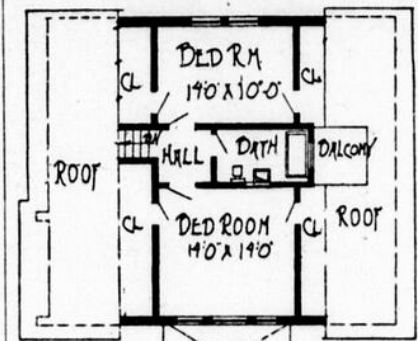

While the exterior of this house is covered with stucco the walls may

every housekeeper likes and finds most convenient.

The stairs lead to a small central hall on the second floor, at one end of which is the bathroom. On either side, at the front and rear of the house, are bedrooms, the front room being large, 14 by 14 feet, and the rear room slightly smaller, 14 by 10 feet. Under the eaves, adjoining each bedroom, are long closets, providing a great amount of space for clothing. The concrete foundation under this house provides smooth walls for a full basement, wherein there is plenty of space for heating plant, fuel storage and food storage rooms, and the laundry, as well as space for the garden and lawn tools.

Considered from the two points first mentioned—exterior beauty and interior comfort—this is an especially attractive home-building design. Prospective home builders will find that, when erected, this house will be distinctive and will provide the members of the average sized family with a convenient and comfortable home.

During the last several months building costs have been coming down, and now have reached what those in

Second Floor Plan.

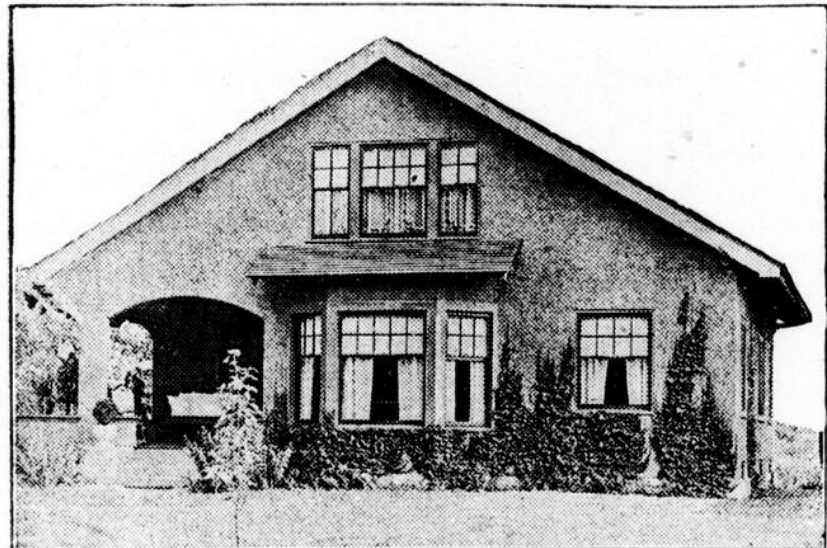

the business say is the bottom for several years to come. What such a home as this will cost may be easily determined by consulting the local lumber and building material dealer, the contractor or an architect. These men are in close touch with prices and can give pretty accurate estimates of the cost of any structure.

### GAME PLENTY IN WASHINGTON

Wild Pigeons Are Numerous and  
Hunters Look Forward to the  
Deer Season.

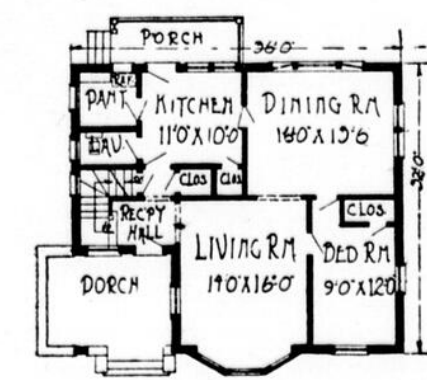

Wild pigeons are reported in great numbers in the oak openings along the Columbia river, Washington, where the birds are feeding on last year's crop of acorns, which are still lying on the ground. Some of the pigeons are attaining immense growth from the nut diet, and a few killed for the pot averaged favorably with grouse.

Wild and domestic hogs made little inroads on the acorns during the winter and spring, and the crop of this summer promises to be an abundant

be either frame, brick or hollow tile. As will be seen by the floor plans, the walls of this house are straight, making for lower construction cost, but the porch set into one corner, the slight bay in the living room, and the long slope of the roof, all tend to give it a handsome appearance.

Inside, there are four rooms on the first floor and two bedrooms and a

First Floor Plan.

bathroom on the second. How these rooms are arranged and the size of each one is shown on the plans. The building itself is 36 feet wide and 32 feet deep. The entrance door from the porch leads into a small reception hall, out of which run the stairs to the second floor. To the right, connected with the reception hall by a double cased opening, is a living room, 14 feet wide and 16 feet deep. At the front on the corner is a bedroom, 9 by 12 feet.

Back of the living room and connected with it by a second cased opening is the dining room, which is larger than usually is found in a home of this size. This room, on the corner, and well lighted and airy, is 16 by 13 feet 6 inches. Adjoining it is the kitchen, 11 by 10 feet, while off the kitchen are convenient nooks, such as pantry, lavatory and closets, that

one. Deer are reported to be living on the nuts and some fat kills are promised hunters this fall. An attempt is being made by one man to utilize the acorns near his farm by feeding them to turkeys. He has several hundred young ones which, when large enough, will be turned into the oaks to fatten. Pigeons arrive in large flocks every morning from islands in the Columbia river, where they nest.

### Comforting.

A Hoosier minister's wife was getting ready to go to the hospital for an operation. Her husband and children had been solicitous of her all day, everything around the house had been very quiet until late that evening, when she heard the seven-year-old twins quarrelling. She asked her husband to see what it was about, and he summoned them into the room to give them a lecture on worrying their mother.

"It was all your fault, daddy," Flora retorted.

Floyd nodded his head and the minister asked what he had done. Imagine the feeling when Floyd replied: "Mr. Long said he didn't see where you would get another wife if mother died, and said you would want Miss E., and Flora said you would want her Sunday school teacher because you called her your helping hand all the time."—Indianapolis News.

Not in His Line.  
"Do you understand the theory of relativity?"

"I haven't tried," replied Senator Sorghum. "I don't see a chance of its coming up for discussion in any political campaign."

### Japan's Large Cities.

As shown by the recent census Japan has 14 cities of more than 100,000 inhabitants. The largest is Tokyo, the capital, with a population of 2,173,162.

## ALWAYS HER OWN

Pathetic Picture of Mother Love  
of the East.

Poverty and Sorrow Nothing Before  
Thought of Claiming Her Little  
Son in Paradise.

I had not seen Fatma Om-Ahmed for six months.

Fatma had been our washerwoman for a few years before her third wedding to Ali, who became Abou-Ahmed after the birth of his male child. She visited us occasionally and entertained us for many pleasant hours with her native tales and small talk. She was, like all her race, a woman with a merry heart, contented with her lot, and happy in the worship of her only son, who fulfilled all the expectations of a poor, working mother.

I met her the other day as I was mounting the flight of stairs leading to the house of a mutual acquaintance. I could hardly recognize the features, once so familiar to me, under the dense borka that covered her face. In the gloom of a covered staircase built some 50 years ago.

She jocularly barred my way with her portly person, and looking at me with a pair of merry, twinkling black eyes, she said, "Good morning. You evidently have forgotten me. I am Fatma Om-Ahmed."

"Good morning, Fatma," I replied, after a long, scrutinizing look. "Surely time and your black borka have altered you much these last few months?"

"And sorrow, too, alas!" she added, with a deep sigh, as she slowly raised her arms to her head and undid her veil.

"You remember my son, Ahmed? My little bright boy?"

"Yes, I do," said I. "How is he getting on? He must be a big boy now!" She clasped her hands together, crushing her borka between them.

"He is dead—dead! It is five months since a tramway car ran over him. My husband is dead, my loved son also. I have nothing to live for."

She paused and sighed, rubbing her palms nervously, while I stared at her in blank surprise.

"But surely," I said, "the company has paid you an ample indemnity—enough to maintain you. It cannot possibly be otherwise. If they have not, I advise you to appeal to the justice of the courts."

Fatma Om-Ahmed forgot her grief, and all of a sudden anger and terror blazed in her eyes. She drew her tall figure to its full height and moved a few paces away from me.

"An indemnity?"

"Why not?" I said, soothingly. "What is wrong in my suggestion? That is justice, and everybody, the highest and the lowest in the land, desires justice!"

"Do you really wish me to sell my son to the infidels? Never! Why, the Christians will claim him in the next world; they will own him by right of purchase; and I shall not be allowed to gaze on his face, nor draw him close to my heart in Paradise."

She drew on her borka and rolled her mazy eyes round her body, saying softly, "Sell my own son, my adored one, to the Christians! Never! I will not commit such a sin against him. Maaleh! 'Tis the will of God which no man can alter and no power can evade. Good morning. May you keep in perfect health."—Alice Shamoun in the Continental Edition of the London Mail.

### Sugar From Corn Stalks.

Investigating the sugar production of corn stalks, P. Vieland, a French chemist, has found that the stem of the maize plant normally contains no sucrose, or cane sugar, and very little dextrose, or grape sugar. If the ears are removed when the grain begins to be milky, however, sugars accumulate in the stem, and in 7 to 34 days after removal of the ears the extractable amounts may reach 7 to 10 per cent of sucrose and 1 to 3 per cent of dextrose. While not more than one-third of the sucrose can be obtained in crystallizable form, this is immaterial in the production of alcohol. It is calculated that 130 gallons of alcohol per acre of maize crop can be produced. The growth of the plants is fairly rapid, and the period between planting and the gathering of the stems would be about 400 days.

### Forestry in the Canal Zone.

The co-operation of the boys of the Canal zone is requested in protecting trees and shrubbery from damage.

A few days ago some children used a hatchet on a lime tree on the prado at Balboa, and nearly killed the tree. Some other children have broken limbs of the wild almond trees on Cruces avenue and yet others have damaged the mango trees near the cable office on the Balboa road.

Every boy in the Canal zone is requested to use his influence in stopping such practices. The trees belong to the boys as much as to any one; and the boys should help to protect their own property.—Panama Canal Record.

### A Twin Grand Piano.

A musical novelty for the concert stage has recently been built in Leipzig—a twin grand piano, said to be the first of its kind ever made. The instrument is like two grand pianos placed end to end and inclosed in one frame, but with a single soundboard. The keyboards are at opposite ends and the players face each other.—From the Outlook.

## ROBBED GRAVE OF OCCUPANT

Apple Tree Had Completely Absorbed  
the Mortal Frame of the Famous  
Roger Williams.

The memory of Roger Williams, founder of Rhode Island, long was venerated. He died in 1683, and for 183 years not even a rough tablet marked the spot wherein his ashes rested. Then a movement was set afoot to locate the grave, and after much research, the place was established.

When the last resting place of Williams was opened it was found that everything had passed into oblivion. The shape of the coffin could be traced by a black line, definitely defining the sides and edges of the wooden covering. There was a bit of rusted material—hinges and nails, a fragment of wood, and a single round knot.

Near the grave stood a venerable apple tree. This tree had sent two of its main roots into the graves of Williams and his wife. The larger root, following his grave, had pushed through the earth until it reached the precise spot occupied by the skull of the dead man. Making a turn about this the root followed the direction of the backbone to the hips. There it separated, sending sub-roots along each leg which, in turn, bent upward about the toes. One of the roots formed a slight crook at the knee. The whole bore a close resemblance to the human form.

Not a particle of human dust was left. Chemistry makes plain that all flesh, and the gelatinous matter giving consistency to the bones, are resolved into carbonic-acid gas, water and air, while the solid lime-dust remains. In this instance, even the phosphate of lime from the bones had vanished, taken up by the tree in its growth, during which it had formed a counterpart of the skeleton of the man whose grave it robbed.

### Puts Blame on Sighing Lover.

"Curious" writes to a newspaper asking why ice cream doesn't drop in price now that all its separate ingredients have dropped. The reason, O Curious, is because so many ice cream patrons are young and unmarried, observes Arthur H. Folwell in Leslie's. Millions of gallons of cream are bought each and every evening by young men out with "the girl." What chance is there that they will start a buyers' strike? Buyers' strikes are for pinched and desperate married folk, and have to do with such prosy, unromantic commodities as clothes and canned tomatoes. The crafty makers of ice cream know that all limits are off when a young man and his particular queen of Sheba step into a palace of frosty sweets. The young man's fear of being thought a "tightwad" or a "pill" is the ice cream dealer's best bet that prices won't come down to pre-war levels. Not at least for several whiles. Indeed, the ice cream man is thinking seriously of not dropping them at all, but of making his war prices do for two wars—the last one and the next one.

### Cloth Tester Invented.

When high-priced clothes wear out quickly the buyer must have been "stung," said the bureau of standards in a recent Washington dispatch to the Baltimore American.

The bureau has perfected a device by which the buyer of a suit of clothes can tell accurately the reason why. The new invention, worked out by a minor employee of the bureau, may in the future be manufactured so cheaply that every home can possess one and be used as a sure guide in the purchase of clothing of all grades.

What the device does is to tell beyond all doubt the thread count, fiber strength and thread width and probable "life" of a particular kind of cloth that may be given a test. It also determines the power of resistance to wear of which a piece of cloth may be capable.

### The Ideal Lighting.

According to an illuminating engineer, what is wanted today in home illumination is the sort of good lighting that is found on the shady side of a tree on a sunny afternoon. Substitute for the sun a new 100-watt lamp, for the sky the creamy ceiling of a living room and for the tree an opalescent disc or bowl; from the ceiling you now get a soft radiance which floods the entire room as though it were open to the sky; from the diffusing disc you get a generous addition of light directly beneath, having the quality of filtered sunlight. You have approximated the charming effect of mellow radiance that was apparent under the tree.

### Profitable Exchange.

In the late '90s we were living in a shack on the banks of Cripple creek, a dry stream in Colorado. When the dam burst, a raging torrent swept down and we fled up the side of the mountain for safety. After the water subsided our shack was gone, but in its stead stood a brand-new bungalow, completely furnished! As no claimant ever appeared we thankfully appropriated it.—Chicago Journal.

### A Disconnected Story.

"You had a narrow escape, my friend," said the farmer who had rushed to the scene of the accident.

"So I did," replied the aviator, as he crawled out of the wreckage of his plane and nonchalantly lit a cigarette.

"How did it happen?"

"I don't know. I went into a tail spin and then I saw you."—Birmingham Age-Herald.

## IS RICH DISTRICT

Upper Silesian Cities in the Heart  
of Coal Fields.

So Important That Germany Guarded  
Them With Jealous Care During  
the World War.

"Four cities of Upper Silesia, which are reported to have been seized by Polish insurgents who feared that the bulk of Upper Silesia was to be turned over to Germany, are experiencing real war for the first time since they became cities," says a bulletin issued by the National Geographic society.

The cities are Tarnowitz, Beuthen, Koenigschutte and Kattowitz. Though they are situated practically at the meeting point of pre-war Russia, Germany and Austria-Hungary—a rather precarious position on the outbreak of the World war—so valuable is the mining and industrial district which surrounds them that Germany took care to keep them outside the zone of hostilities.

"The four cities lie within a few miles of each other and in the heart of the coal fields for which the country is famous. None is more than five miles from the old Russian border, now the boundary of Poland; and all are almost equally close to the old Austrian line, now that of Czechoslovakia.

"Of these cities, Beuthen alone is of appreciable age. The others are the direct result of the development of coal mines and metallurgical industries in the vicinity after the middle of the century; and Beuthen itself received a great impetus from mining and industrial development. It is the capital of a district, and has a population of about 68,000. When Silesia was a part of the old kingdom of Bohemia, Beuthen was capital of the duchy of Beuthen. The title, duke of Beuthen, is one of the mediatorial titles among the German nobility.

"Koenigschutte, with nearly 75,000 inhabitants, is the metropolis of the Upper Silesian mining district and may be considered the Silesian Pittsburgh. It lies only three miles south of Beuthen. In Koenigschutte is situated the largest iron works in Silesia. Half the population is said to consist of Poles. "Kattowitz, three miles south of Koenigschutte, is supreme as a coal market. It is perhaps the strongest Polish center among the Upper Silesian cities. Zinc, as well as coal, is mined in the neighborhood. The place was only a village in 1815. Its population is now about 45,000.

"Tarnowitz, a few miles north of Beuthen, is the smallest of the group. Its inhabitants number close to 15,000. In addition to iron works it has other metallurgical factories and lime kilns. It is also a Polish center and its vote in the plebiscite is reported to have been markedly adverse to Germany.

"When the World war broke out the Russians were able to push through the German-Russian frontier in its northern portion, but the line which ran a few miles west of the Silesian coal cities held firmly. Only twice was this rich and important district in danger of passing from German hands; when the Russian offensive against Austria advanced to Cracow, less than 50 miles to the east; and when the Cossacks made a raid into Posen, a short distance to the north, threatening to cut off the Upper Silesian 'wedge.' On both occasions the Germans, realizing that one of their most important centers of munitions manufacture was endangered, drove the attackers back."

### Church for Animals.

One of the good things which have gone to extremes seems to be the "First Church for Animal Rights," which was organized recently in New York, its plan to include regular Sunday services, a school for children in the cult and an "animal Bible," composed of Scripture passages inculcating humanity to animals. The purposes of the new church are announced to be the teachings of the oneness of life and the awakening of humane consciousness; the championship of the rights of animals, these rights being defined as similar to the human rights of life, liberty and the pursuit of happiness; the development of the character of youth through humane education and the attitude toward human organizations and animal societies as their spiritual fountain head.—Baltimore American.

### Harmful Principle of Poison Oak.

It is known that the poisonous principle which makes poison ivy so noxious to susceptible persons is toxicodendrol, a substance that is insoluble in water but soluble in ether and alcohol. So active is it, says the Journal of American Medical association, that 0.005 milligrams applied to the skin will start painful inflammation.

The poisonous principle of poison oak has just been discovered by Dr. J. B. McNair and called by him lobinol. Inflammation is caused by actual contact with the resinous sap of the plant, but this contact may result through the intermediary of such objects as clothes, shoes, croquet balls or even smoke. And it may be transferred by the fingernails or hands from one part of the body to another.

### Not Altogether Immune.

"After all, a farmer's life is a very independent one." "Maybe it is," replied Farmer Corn-tossed, "so far as food and shelter are concerned. But it has got so a farmer has to have his troubles with flat tires and no-count self-starters the same as ordinary people."

## SUFFERING OF YOUNG WOMEN

This Letter Tells How It May  
be Overcome—All Mothers  
Interested.

Toronto, Ont. — "I have suffered since

I was a school girl with pain in my left side and with cramps, growing worse each year until I was all run down. I was so bad at times that I was unfit for work. I tried several doctors and patent medicines, but was only relieved for a short time. Some of the doctors wanted to perform an operation, but my father objected. Finally I learned through my mother of Lydia E. Pinkham's Vegetable Compound, and how thankful I am that I tried it. I am relieved from pain and cramps, and feel as if it has saved my life. You may use my letter to help other women as I am glad to recommend the medicine."—Mrs. H. A. GOODMAN, 14 Rockvale Ave., Toronto.

Those who are troubled as Mrs. Goodman was should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound. Those who need special advice may write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. These letters will be opened, read and answered by a woman and held in strict confidence.

## Home Town Helps

### SLABS PROTECT THE GRASS

Ornamental Garden Walk of Peculiar Design Has Been Found to Serve Purpose Admirably.

An old Dutch method of making ornamental garden walks was to form tessellated patterns by the use of concrete slabs in combination with the grass sod. The owner of extensive grounds at Colorado Springs has used this method for the construction of

The Idea of "Watch Your Step" Has Been Used Literally by a Western Gardener in Laying Out His Walk. Stone Slabs Have Been Placed in the Middle of the Turf.

what he calls a "watch your step" walk. The slabs are placed in the turf so that they correspond to the footsteps of a person walking along the garden path, and it is possible to traverse the whole length of it without stepping on the grass.—Popular Mechanics Magazine.

### SCENERY MARRED BY SIGNS

Public Justified in Taking Strict Measures to Put a Stop to Growing Nuisance.

Everywhere the motorist travels the natural beautiful scenery is marred by glaring signs, not only small boards but immense structures often a hundred feet or more in length and twenty or more feet in height.

Just at a bend in the road where the tourist expects to have a fine view sweeping over a broad valley the scene is completely cut off by a monstrous and offensive structure covered with a glaring advertisement.

At some points both sides of the road will be lined with these unsightly and ugly advertising walls.

In England the disfiguring of fences, buildings and other places with signs is prevented by law on the ground that the good taste of the people is offended and the landscape disfigured.

Some of the worst offenders are manufacturers who are interested in the development of motoring. They have boarded up the roadways along the whole eastern part of the United States, much to the annoyance of motorists and the disfigurement of the landscape.

If the nuisance cannot be stopped any other way, motorists can at least agree not to patronize any concern aiding in detracting from the natural beauty of our country and the pleasure of the public.—New York Sun.

### Writer Waxes Sarcastic.

The trustees of the city of Roseville, Calif., have clearly no eye for art. At first, it may seem as if they were justified in refusing permission to a certain advertising firm to erect billboards within the city limits. But then these were no ordinary billboards—at least, so the advertising firm declared. They were in fact, "beautiful panels, real works of art." Yet the city trustees refused. Worse and worse, the women of Placer county, in which Roseville is situated, have banded themselves together to prevent the erection of any more billboards in Placer county, whether in the form of "beautiful panels" or otherwise. It seems strange, but then some people are notoriously blind to their privileges.—Christian Science Monitor.

### Woman in Civic Affairs.

There is promise of better things for Connecticut in the fact that the League of Women Voters of that state has sent out a questionnaire befitting the slogan, "Know Your Own Town." This should be well worth doing for the information to be obtained, intended for the local communities, and as a basis of future state legislation. But no doubt the most important factor in the activity is, as the workers seem to think, the awakening among women of an interest in civic affairs. The neighborhood is certain to hold interest for anyone, and so is a good starting point.—Christian Science Monitor.

### Seattle Saves Money.

Seattle, Wash., is saving its citizens approximately \$1,000,000 a year by reason of the lower rates it enjoys for electricity through its municipal plant. The retail rate is 6 cents per kilowatt hour, whereas the rate under private ownership was 8½ cents.

### TEMPERANCE ECHOES

On Friday, Sept. 30, there gathered at the town hall, Mississippi, representatives of the four local W. C. T. U. Unions in the town, besides quite a number of other ladies. The president of the Stanstead County W. C. T. U., the county vice-president, the county treasurer and the county auditor were among the number. The occasion was the regular monthly meeting of the Mississippi Union which was made a "special" at this time. The usual devotional exercises and business were carried out as well as a program of music, etc., followed by a five-o'clock tea.

During the afternoon a discussion took place relative to the "new rights" obtained through the Franchise Act. Several points pertaining to the "whys and wherefores" were made clear, it being well understood that the procedure for listing women's names is, exactly the same as for men, in the Federal lists, and also well understood that municipal councils have, in the Province of Quebec, nothing to do with the revision of the lists.

After due deliberation the following resolution was considered:

Whereas—We, the members of the Hatley Township W. C. T. U., assembled, are of the opinion, that the great privilege that has come to us in this good year of 1921, for the first time (the woman's right to vote) should be marked by such advance steps that we can look back to it as the beginning of the end. Therefore, without further delay,

Resolved—That a "Woman's Party" we believe should be formed with a strong prohibitionist at the head, and all the votes of the men, possible to obtain.

Also Resolved—That we believe that the "old parties" are not the ones our good loyal Canadian women should follow, or be led by, but "strike out for themselves" and with the much stronger vote, by actual numbers, endeavor to make the laws of our country more effective along temperance lines.

### TREE SEEDS FOR GREAT BRITAIN

At the request of the Forestry Commission for the British Isles the work of securing tree seed of Pacific Coast species was again undertaken. It was found impossible this year to obtain the seed of Douglas fir as the crop was a complete failure. The Sitka spruce, however, bore heavily, and 600 sacks of cones were collected along Masset inlet on the Queen Charlotte islands in what was the centre of the airplane spruce industry during the war. A temporary kiln and extracting plant were erected at Port Clements and a yield of about 1,000 pounds of seed was obtained. Seven hundred pounds of this seed were shipped to the Forestry Commission and the remainder sold to the Belgian Government.—Annual Report, Director of Forestry, Ottawa.

### MCCONNELL

Mr. Thompson of Fitchburg, Mass., has been a recent guest of his cousin, Mr. G. Chapman.

Mrs. Rose Brown of Ayer's Cliff spent the week-end here with old neighbors and friends.

Mr. and Mrs. J. S. Humphrey and Mr. and Mrs. F. Humphrey of Magog were recent guests at the Parnell home, Glen Brook Farm.

The late Bert Morin whose body was returned to Orleans recently, and who was a victim of the Great War, lived here several years during his boyhood and is well remembered by his old friends. A Manchester paper mentions the return with some others, of the body of First Lieutenant George D. Parnell, second son of Fred O. Parnell of Manchester, N. H., and grandson of the late Thomas Parnell of this place. The bodies were interred with solemn ceremony and full military honors.

### HEATHTON

Miss Blanche Bean is still sick at this writing.

Mr. and Mrs. William Young of Newport, Vt., spent a few days last week with Mrs. Young's mother, Mrs. Mary Dewey.

Mr. Archie Bean was at Beebe on business Monday.

Miss Celia Morin of Rock Island was a guest of her parents on Sunday.

Miss Vera Kezar of East Stanstead was a week-end guest at W. Wood's.

Mr. and Mrs. Wyman Davis spent Sunday at the home of Ernest Davis.

Mr. and Mrs. K. D. Cooper returned home Saturday from Montreal. Mrs. H. Keeler, who accompanied them to the Hospital, also returned. Dr. Chipman prescribed a treatment which can be carried out at her home by her home physician.

### MARLINGTON

Howard Reed is shingling Mr. T. A. Woolls' buildings.

Mrs. Cora Scott of Newport and Mrs. James A. Bacon of Graniteville were calling in this place Saturday.

Mr. and Mrs. E. M. Beerworth and daughter of Beebe Junction were callers at the home of Mr. T. A. Woolls on Sunday.

Miss Doris Reed of Butterfield & Co., Rock Island, was at the home of her father, Mr. R. M. Reed, recently.
