

## DRASTIC MEASURES MUST BE ADOPTED TO SOLVE THE UNEMPLOYMENT PROBLEM

### Premier Baldwin Deals With Great Question In Great Britain—Proposes To Put Tax On Manufactured Goods And Give Preference To Dominions.

Manchester, Eng., Nov. 2.—Prime Minister Baldwin in his speech here tonight described that drastic measure were required to solve Great Britain's problem of widespread unemployment.

He had never been a doctrinaire economist and he regarded the economic system as one of expediency rather than principle, but he added "the period of observation is past. I find myself here with my mind made up that if we are to attack the problem of unemployment we must have recourse to radical and drastic measures."

He also developed his protectionist policy somewhat further. He said he proposed to put a tax on manufactured goods with special regard to those imports which caused the greatest amount of unemployment, to give substantial preference to the dominions but not to tax meat. What he argued he declared was that the Government was dealing with an absolutely new post-war problem for which nothing before the war served as any guide.

Living in Camouflaged Peace.

"We are living in a camouflaged peace, and no war in our history has had such economic reactions as the late war," said the Premier.

"Nobody is able to predict when stability will return to Europe therefore Great Britain must rely upon itself and look to its own future. We shall never make other nations lower their tariff by waiting."

Declaring that the exportation of cotton spinning machinery to the Far East had put a weapon of competition into the hands of cheap labor, Mr. Baldwin said:—

"As long as I have the responsibility of government I shall never be satisfied until we have so developed our Empire that we shall be absolutely independent of America with regard to cotton growing."

Preference Throughout Empire.

The Premier said he believed the Empire could grow sugar and tobacco not only to satisfy its own needs but to cheapen them to the rest of the world and thus ease the burden of Great Britain's shoulders. Declaring his ideal was one great Empire with free trade within its borders and every part regarding itself as one nation, Mr. Baldwin added:—

"We can reach that ideal by binding the Empire together economically. By establishing preference throughout the Empire you are doing nothing against the principles of free trade, but are making trade freer over a greater area."

"What the United States achieved the Commonwealth of British nations with superior resources can achieve."

Generally alluding to the intended means for developing agriculture and providing by improved methods for insurance against unemployment, the Premier said:—

"It is an integral part of my policy to devote a portion of the new revenue to pushing ahead in development as it has never been done before."

The Premier closed with a statement heralding not distant elections saying: "I have told you the methods by which I propose to meet the problems of the day. Let others say how they would set out to achieve the end we all have in view and then let the country decide."

## SOCIALIST PARTY RECALLS ITS THREE MINISTERS

### Stresemann Government Seriously Weakened By Withdrawal Of Members Of Cabinet.

## DICTATORIAL AUTHORITY.

### Chancellor Will Have To Assume New Powers To Enact Special Legislation.

Berlin, Nov. 2.—Chancellor Stresemann's moribund four party coalition cabinet which the doctory Chancellor resurrected from the last parliamentary crisis, lost one of its chief props tonight when the United Socialists at a party caucus voted to recall their three ministers from the cabinet.

The defection of the Socialists from the government with which they never were in complete accord from the moment they were coaxed back into it a month ago, followed two days of waiting for the Chancellor's reply to their ultimatum embodying a series of demands which obviously had been forced upon the party's moderated minority by the clamorous left wing.

Carried By Big Majority.

The vote of the Socialists to withdraw from the coalition was carried by a big majority. They are represented in the cabinet by Wilhelm Sollmann, Minister of the Interior; Gustav Radbruch, Minister of Justice, and Robert Schmidt, Minister of Reconstruction.

Dr. Stresemann has been indisposed for the last two days, but is suspected of having given the program of the radicals mature thought in the quiet of his private chambers and when the party's emissaries called this afternoon he readily informed them that their ultimatum was ill-timed, ill-considered and wholly unfeasible in the present situation, and that it behooved their party, as an integral component part of the coalition, to hold back with such procedure while the nation was passing through a grave internal crisis which was further augmented by complicated foreign relations.

Brought Swift Rejoinder.

The Chancellor's reply brought a swift rejoinder from the Socialists tonight when in party caucus and after brief debate they voted in favor of recalling their ministers and withdrawing from the cabinet.

The dissolution of the Reichstag by the installation of a dictatorial government, or the continuation in office of Chancellor Stresemann at the head of a "rump" cabinet, comprising the bourgeois parties are eventualities suggested by the retirement of the Socialists from the present coalition.

There were no indications tonight that the entire cabinet would resign. The Chancellor will be apprised by the bourgeois parties tomorrow of their attitude on the question of entering a minority cabinet.

With the disappearance of the Socialists from the coalition government, which voted the emergency powers bill, this bill automatically ceases to be operative, although the Chancellor, in the event he continues in office will be in a position to equip himself with dictatorial authority in connection with the enactment of economic and social legislation through presidential mandate in accordance with paragraph 48 of the Federal constitution.

## LAST APPEAL TO UNITED STATES BY LLOYD GEORGE

### Former British Premier Calls Upon The Republic To Do Its Duty.

## FAREWELL ADDRESS.

### Unless It Responds Civilization Is Doomed To Most Terrible Catastrophe.

New York, Nov. 2.—The United States was called upon to-night by Rt. Hon. David Lloyd George in his farewell address in the New York Metropolitan Opera House, to perform, along with the British Empire, its full duty to the world.

"You responded to Europe's need in 1917," he declared, but the work is only half done and if not completed civilization is doomed within this great generation to a catastrophe such as the world has never seen."

Speaking with lofty eloquence to a brilliant audience, the former British Premier discussed conditions in Europe, declaring to those who say "keep clear of the wreckage," yes, but there are millions underneath. Follow through and keep your eye on the ball," pleaded the little Welshman in acclaiming the Hughes proposal for an International Commission to solve Europe's reparations tangle.

Adopting the golfers' vernacular the war-torn Premier warned of bunkers and hazards ahead, but expressed in solemn words his faith in the step taken by the United States to bring order out of chaos abroad.

All Vengeance Is Unbalanced.

Before sailing for home tomorrow on the Majestic after touring Canada and the United States, Mr. Lloyd George urged the United States not to be harsh on Europe and added:—

"All vengeance is unbalanced. Every vindictive man or woman is partly insane."

Who he asked, smashed Germany and Austria? who created their impotence to carry out treaties? All he said solemnly were responsible for victory and all had their responsibility for what followed. Only two countries, the United States and the British Empire he declared could establish justice in the world.

France, he said, was committed to holding the wolf by the ear, even though the wolf later should turn and rend her.

"What is the real problem in Europe today, I will tell you. In spite of the war, because Europe has been left so much to herself, she still believes in force; why?

Europe Believes In Force.

France says justice never gave Alsace-Lorraine back. We had to lose one million of our young men, you in the British Empire had to lose 900,000 of your young men. Force gave it back to us. Poland says 'force came at the end of 150 years and unlocked the door of our nationality."

"The Russian peasant says to-day: 'We never saw the light of liberty until the Revolution came with his powder and blew our prison walls down."

"What does Germany say? Germany says: 'We trusted to justice we trusted to treaty. We are broken; we are shattered! Why we are shattered. We have no force.' That is why Europe believes in force. That is why Europe believes in violence. What is the remedy? Give Europe the conviction that right is superior to force. Who is to do it? 'There have been times in the history of the world where two or three nations that for the time being have been the trustees of civilization, one after another they have failed—and new nations sprang up to take their place. The Commission of trusteeship for civilization does not come from kings; it does not come from rulers or princes; it does not come from Senates and Parliaments nor Councils. It comes from the will of God."

Commission Not Fulfilled.

"That Commission—that Commission is yours and ours today. You responded to the invisible message in 1917 and we already had done so; but the Commission is not fulfilled. The work is only half done. If it is not discharged fully—fully—civilization is doomed within this generation to such a catastrophe such as the world has never seen. But if you here, this mighty people, if our people throughout the British Empire, resolutely, firmly, courageously, without flinching carry out that Commission then I have no fear but that humanity will climb to higher altitudes of nobility, of security, of happiness, than any it has ever yet known."

Organized Hostile Demonstration.

Eight persons were arrested near the Metropolitan Opera House, where Lloyd George, war-time Premier of Great Britain was speaking to-night, when Irish republican agitators attempted to hold a mass meeting on the street. Patrolmen's caps were knocked from their heads by placards the agitators were carrying.

Police fought a hand-to-hand battle with a large group that gathered on 40th street near Broadway. Many carried signs bearing the picture of Eamon de Valera, while others were inscribed with phrases uncomplimentary to the British visitor.

Mounted Police Charged Crowd.

The area about the Metropolitan Opera House was guarded by 350 patrolmen and 150 detectives. Before Mr. Lloyd George arrived the crowds that pressed about to catch a glimpse of him were so great that a traffic jam resulted.

Mounted police finally charged the crowd that surged about the bluecoats.

## AIX-LA-CHAPELLE AGAIN IN HANDS OF GOVERNMENT

### Separatist Factions Are Driven Out Of City By Forces Of The Reich.

## SEVERAL KILLED.

### Severe Fighting Between Loyalists And Partisans Of The New Republic.

Aix-la-Chapelle, Nov. 2.—Aix-la-Chapelle again is in the hands of the authorities of the Reich Government and the Separatist factions have been driven out of the town.

The eviction of the Separatists came this afternoon, following fighting which began early in the morning in an endeavor to capture the Rathaus, inside which a strong defence was put up by loyalists composed of police, firemen and city officials. The loyalists finally surrendered, but later the Separatists were ejected and forced by the Belgians to leave the city.

Several Persons Killed.

Several persons were killed in the fighting, exactly how many has not yet been established, and a score wounded. The attack began between five and six o'clock this morning.

Followers of Joseph Matthes had drawn a cordon about the Rathaus area and cleared the streets and nearby buildings of all persons, however, inoffensive they seemed. A delegation of the Separatists then went to the Rathaus to try and negotiate the surrender of the one hundred loyalists inside. The garrison, however, refused to give in, and the Matthesites opened an attack.

## ESKIMOS MUST PAY PENALTY FOR MURDERS

### Clemency Cannot Be Extended To Two Convicted Men Held On Herschell Island.

## WILL BE HANGED.

### Commutation Of Death Sentence Would Have No Beneficial Effect Says Cabinet.

Ottawa, Nov. 2.—(By Can. Press.)—After considering petitions asking for the postponement of the execution of the death sentence in the case of the two Eskimos at Herschell Island, the Cabinet today reaffirmed its decision not to interfere with the due course of the law. The hanging is set to take place on Herschell Island on December 7.

In commenting on the decision of the Council of the Department of Justice expressed the view that a number of representations had been addressed to the government by persons evidently misled by erroneous reports of the facts.

"The evidence taken at the trial," it was stated by the Department, "leaves no room for doubt as to the guilt of the prisoners and investigation has shown that they were properly and fairly tried by a jury of representative men thoroughly acquainted with the ways and customs of the Eskimo. The confessions of the accused were corroborated by native witnesses and clearly establishes that the motives for the commission of the crimes were totally different from those generally ascribed."

Most Cowardly Murders.

"Alkomiak, the prisoner around whom special interest has centered is the Eskimo who in a most deliberate and cowardly manner murdered three men, first a native Eskimo then six months later an officer of the Mounted Police and finally an employee of the Hudson Bay company."

"The belief that the Eskimos know nothing of our law," the Departmental statement continues, "is absolutely unfounded. In this it may be recalled that only a few years ago two other Eskimos were convicted for murdering two priests the death sentences were commuted but the clemency does not appear to have had any beneficial effect; the number of murders now committed by the Eskimos is surprising and in the opinion of those

## OFFER OF CREDIT TO DOMINIONS AND COLONIES

### Legislation Will Be Introduced At The Coming Session Of British Parliament.

## FORESTRY CONFERENCE.

### Resolution To Urge Governments To Favorably Consider Recommendations.

London, Nov. 2.—(By Geo. Hambleton)—The British Government intends to bring down legislation at the coming session of Parliament to make effective its offer of credit for development work in the Dominions and Crown colonies. This was intimated at the Economic Conference this afternoon when a committee report on the scheme was adopted. Some additional details were given. The credit is to be in the form of a loan toward interest charges on money raised for capital expenditure on such undertakings as power, light, water drainage and so forth whether publicly or privately controlled. Assistance would be in respect of expenditure on orders placed in Great Britain and in anticipation of work which otherwise would not be undertaken for some years.

Three-Quarters of the Interest.

The maximum loan will be three-quarters of the interest charges for a period of five years and during this period the loan itself bears no interest. In order to qualify a scheme must be accepted by the Imperial Government within the next three years.

Priority will be given schemes involving the earliest placing of orders.

The credit scheme had the approval of the committee which considered it and this afternoon it received warm commendation generally. The objection has been raised to it and the provision requiring orders to be placed in Great Britain may act as a detriment.

During the subsequent proceedings Hon. George P. Graham pressed the case of Canadian lumbermen. These lumbermen, he said, were anxious for a wider marketing and he urged that this fact be given earnest consideration.

Forestry Conference.

The Conference had under discussion a resolution which was adopted urging the various Governments of the Empire to give favorable consideration to the resolutions passed by the Empire Forestry Conference held in Canada in July last. These among other things urged the Governments of the Empire to adopt a definite forestry policy so that the timber needs of the Empire should be supplied from within the Empire. On behalf of Canada it was pointed out that only in certain provinces were the natural resources under the jurisdiction of the Federal Government, but the recommendations would be submitted to the competent authorities.

The Conference adopted a revised scheme of dominion contributions to the Imperial Institute. Canada's share will be £2,000 per annum which is a considerable saving from the previous figure.

Both the Imperial and Economic Conferences plan to close on Friday next.

By Appointment  
A Special Offering of  
**Fall Overcoats**  
**\$15.95**

A swagger raglan style in an English all wool material of attractive fawn coloring.

Don't judge them by the price which would hardly cover the cost of the tailoring. This small lot represents the balance of an undelivered order which we were able to purchase from the manufacturer at a nominal sum.

You will have to see them to appreciate the wonderful value they represent.

Offered for To-Day Only  
Because we know they will all be picked up before the day is out.

## WHAT EVERY WOMAN KNOWS

Dear Reader,

Is the untruth, today at any rate, of the popular delusion that women do not read the morning newspaper. Whatever may have been the fact in past years, the modern housekeeper is just as regular in her practice of digesting the news before beginning the day's work as is the modern business man. So much is this so that, very frequently, two copies of the paper are bought; one for monsieur to take to office, factory or store, and another for the special benefit of madame.

Comparisons are neither good sportsmanship nor good business and we have no desire to depreciate the home appeal of the afternoon press. In view of the prejudice just referred to, however, it is fair to point out that the housekeeper peruses her morning paper immediately before doing her morning shopping and that the various bargains and special offerings of merchandise announced therein are therefore fresh in her mind.

Such importance do we attach to the patronage of the woman reader that we have appointed a young lady who is thoroughly conversant with conditions in the Ancient Capital, as Social Editor. She will devote herself exclusively to reporting all local activities and general news that are of interest to women. In addition, we publish feminine features, daily dress-making, home cooking and housekeeping hints that are of practical utility; while a daily reminder of "what's on today" is intended to be of service to the busy woman.

Just a word regarding our social and personal column: we are trying to make this as worth while as possible without causing offence or embarrassment to anyone—this in response to the frequent criticism that Quebec newspapers are behind those of Montreal in this particular kind of news. Strangely enough it is sometimes the very ladies who are disposed to be critical who are the most reluctant to have mention made of their social activities. If anyone said "don't write a word about my tea" or "what right have you to put my name in your paper?" the task of the Social Editor would become not only a disagreeable but an impossible one.

We know that the Chronicle has no warmer friends than among the women of this city but there are, of course, some who do not realize what we are trying to do to give them their share of the paper. If you have a friend in this position, suggest to her that she give it a trial at least, and you will not only please her but confer a deeply appreciated favor upon

THE QUEBEC CHRONICLE.

## NEW COMPANY TO CONTROL ARENA

A company of local sportsmen, who, for the present, do not wish to have their names divulged, have taken over the Arena for this coming season, and have secured the services of Mr. L. A. Gaudin, who has been connected with the large rink for some years, as manager.

## BOWLING RESULTS.

The Cass "B" bowling games played last evening resulted as follows:

1. Gaudin, 2. Fontaine, 1. Chabreau, 3. Victoria, 9. H. de C., 5. Graciosa, 9.

WAS KILLED AFTER ONE NARROW ESCAPE

Montreal, Nov. 2.—After escaping injury from a street car in front of which she had stepped and which was only prevented from striking her by the motorman jamming on his brakes, Minnie Rigeron, 23, of this city, stepped in front of an automobile and was hurled to the ground, sustaining a fractured skull to which she succumbed at the Western Hospital to-night.

Our Portrait is of Mr. E. F. WHEELER, of 22, Regent Street, Balby, Doncaster, England, who writes:—'About two years ago I had a nasty wound break out in my big toe. I had it attended to for about three months, but during that time it had spread to all the toes, with the result that I had to undergo an operation, but with no avail. Then, after another operation, as it did not get any better, I thought I would give your 'Clarke's Blood Mixture' a trial. After taking the first three bottles I could walk better, and now after having nine bottles the wound has quite healed, and I am pleased to say I have not seen any sign of it breaking out since.'

Clarke's Blood Mixture. 'Everybody's Blood Purifier.'

Quality Plus. When you buy King Cole Tea you expect quality. But you also look for something more—for a certain taste that is pleasant to you, and that will be repeated in every cup you make. The quality is produced in Nature's Garden; but the taste is the outcome of expert blending which gives King Cole its characteristic rich flavor—the flavor you like. Is it not worth much to have your cup of tea always—as you like it? 'You'll Like the Flavor.'

TO DISCUSS QUESTION OF ULSTER BOUNDARY. Sir James Craig, Premier of Ulster Will Confer With Baldwin.

Belfast, Nov. 2.—The Ulster Premier, Sir James Craig, is going to London tonight in response to an invitation from Premier Baldwin for a discussion of the question of the boundary between Northern and Southern Ireland, their conversation to be a preliminary to a conference planned for the new year.

According to the Belfast Telegraph the conference, if it materializes, will be along the lines of the meeting of Sir James and Michael Collins in January, 1920, and will not be in the nature of a settlement through the boundary commission provided for under the treaty setting up the Free State.

A Clear, Beautiful Skin

There are millions of tiny openings or pores in the skin and these must be kept open and clean if the beauty of the skin is to be maintained.

For Colds, Influenza and as a Preventive. Take Bromo Quinine Tablets. The First and Original Cold and Grip Tablet. The box bears this signature E. W. Brown. Made in Canada.

ASK FOR A NEW COVERED WHARF

La Tuque Council Asking Government For Needed Improvement.

La Tuque, Nov. 3.—(Special Correspondence)—The following resolution was passed at the recent session of the Town Council:

Resolved by Aldermen F. X. Lamontagne, seconded by Ald. Frank Gauthier, that it be resolved that, whereas the Town of La Tuque, essentially commercial and industrial, possessing a population of 6,000 souls, is situated on the banks of the River St. Maurice, partly on the eastern and partly on the western bank and not connected by a bridge, and,

Whereas the River St. Maurice is navigable from La Tuque to Piles, i.e. a distance of about 70 miles, along which are to be found several small villages and groups of colonists, also several important depots of various pulp and paper companies, such as the Wayagamack, the Laurentide, the St. Maurice Lumber Co., the St. Maurice Paper Co., and the Belgo, who all possess fine limits, and,

Whereas all the villages, colonies and companies depots, above-mentioned, get their provisions at La Tuque, and that the transportation of merchandise and other effects is made as much by the steamer "Jean Croto" which carries put a tri-weekly service between Piles and La Tuque, as by barge.

And, whereas, a large number of tourists travel by the above named route, and,

Whereas the banks of the river St. Maurice are impracticable opposite La Tuque, with the result that loading of goods on the Jean Croto or barges or the unloading of goods being received, is effected only with great difficulty, besides which they often remain on the banks exposed to the mercy of the weather, and,

Whereas the construction of a covered wharf at La Tuque, on the East bank of the St. Maurice, has been a necessity for a long time, and is absolutely necessary to remedy the above mentioned inconveniences,

That for all the reasons and considerations above mentioned, this Council requests the Federal Government to construct immediately a covered wharf at La Tuque, on the East bank of the St. Maurice River.

And that a copy of this resolution be sent to our representative Mr. Simon Deslives, with the request that he bring our resolution to the attention of the proper authorities in order to obtain the desired results.

Hallowe'en Dance. Only a fair number of dancers were in attendance at the Hallowe'en Dance held at the Community Club on Wednesday last, but those who braved the elements to attend were well rewarded for their fortitude.

The hall was wonderfully decorated with green, yellow and white lights, hung in festoons from the ceiling, by colored paper lanterns and "pumpkins" black cats, and the whole scenic effect was beautiful. The Gillard Orchestra upheld their reputation by playing very snappy music, which kept the dancers lively and in good humor.

The feature of the evening was a Cinderella dance, which caused much amusement, and created a deal of good humored banter.

While the attendance was not up to the usual mark, which was disappointing, those present had a wonderful time, and danced their fill up to midnight when they wended their ways, weary but contented.

Duchaine-Belanger. On Tuesday morning at St. Zepherin's Church, the marriage was celebrated of Mr. Edward Belanger and Miss Maria Duchaine, both of La Tuque.

Rev. Abbe Caron of La Tuque officiated at the service, at which a large number of friends of the happy couple were present.

The bride was escorted to the altar by her father Mr. Nazaire Duchaine and the groom was attended by his father Mr. R. Belanger.

After the service, breakfast was served at the residence of the bride's parents. The bridal pair left La Tuque the same morning for their honeymoon, which will be spent at Lyster, Que., and other points. The happy pair were the recipients of many beautiful presents.

Popularity Contest. The popularity contest which started a few days ago is gradually but insistently increasing in interest. The work being done by the candidates, and their helpers, is helping considerably to create a desire between them to prove themselves the most popular.

Each of the candidates has made a big bid for the votes of the populace by holding parties and meetings of various sorts. Miss Yvonne Jato, at the residence of the Quebec Club at Columbus Hall on Sunday last, which was an unanimous success.

Miss Maria Bouchard, who was the winner of the Ladies' first prize raffled her prize and the winner raffled it, and it was thereafter raffled several times. Several cakes were also raffled. The Loken Orchestra executed several interesting pieces during the course of the evening and towards 10 p.m. refreshments were served to those present.

Miss Margaret Page has engaged the K.C.'s hall for the 4th. Novem-

VITAL LECTURE AT CITY HALL

On Subject Of Avoidance, Arrestation And Cure Of Social Diseases.

Dr. Poutrier of Strasbourg University delivered an instructive lecture at the Town Hall last night on the subject of Social Diseases. The speaker was introduced by Dr. Arthur Vallee of Laval University.

In the course of a short speech, Dr. Vallee dwelt upon the material harm caused to a nation by the diseases. Not only were the infected incapacitated but generations yet to be were tainted with the scourge. He introduced the speaker of the evening as one well qualified to advise and instruct upon the delicate subject.

Dr. Poutrier referred briefly to the social evils of the disease. He recalled that when he had first visited America he was appalled at the inefficient measures taken to combat the most insidious plague known. Clinics for the treatment of the complaint were almost unknown and in both the United States and Canada a policy of drift seemed to have been adopted. There seemed to be at the time a fairly general idea that the ravage of the disease was the measure of those suffering from it. Such an idea was erroneous for the ravage that could be caused by the disease was practically limitless.

The effects were felt in the third and fourth generation and the effects were oftentimes more terrible than the disease itself. In America and Canada, today opinion had changed. The full seriousness of those complaints was more generally recognized and the organization adopted to combat the disease was second to none in the world. The system of clinics providing free blood tests and treatment, was excellent he considered. Until the day came when there would be no need for treatment; when avoidance and preventive measures were all sufficient, then the system of free clinics was indispensable. The speaker dwelt in detail with the symptoms and stages of the disease. In concise, everyday language he explained lucidly to the audience methods of circumvention. His lecture throughout was a gospel of hope for suffering humanity. It needed but little imagination to construe the address as a challenge to the plague of the ages. There was no concealment as to the devastation wrought by the plague for concealment would have been futile and in direct opposition to the speakers purpose. The underlying theme of the lecture was undoubtedly the importance of knowledge. "Knowledge—power to avoid; power to avert; power to cure."

At times the speaker appeared almost brutal in the treatment of the subject but ever there came the counsel of hope. Greater advances had been made in the study of this cycle of diseases, he affirmed, than in any other. In the tertiary stage the cure was not definite—in the very nature of things it could not be—but Salvarian was a definite arresting agent. Almost as important as a cure in his opinion was the Wasserman blood test. By means of the blood test it was possible to ascertain whether those who had sur-

fered from a disease were entirely free from the virus.

The lecture was illustrated throughout with lantern slides that considerably helped the speaker elucidate certain technical points. It was obvious by the sustained applause at the end of the lecture that Dr. Poutrier had succeeded in impressing upon the audience the vital importance of the subject.

Two horses and ten cows perished in fire.

St. Joseph de la Beauce, Nov. 2.—A serious fire destroyed the barn of Mr. Valere Gilbert, a farmer living on the bank of the river. Two horses and ten cows perished in the flames and a considerable amount of grain and straw was destroyed. The damage is partially covered by insurance.

Mr. Ancina Tardif progressing favorably.

Mr. A. Tardif and Mr. H. Martineau were involved in a motor accident on Wednesday at Ste. Anne de la Perade. Mr. Tardif, an advocate of this city, who was severely injured, is reported to be progressing favorably.

Miss Mary Banville, has returned from Pleasantville, where she spent a couple of weeks of the guest of her sister.

Dr. Lucien Ringuette has returned from a business visit to Montreal.

Mr. Antonio Bellefemille, Assistant Town Clerk who has been confined in a hospital by illness for a few days, is back in his office.

A euchar is being held at the Cercle Paroissial on Sunday next, in aid of the Firemen's Benevolent Fund.

Miss Nellie Waites was the guest of honor at a most enjoyable birthday party given by Mrs. Griffiths on Tuesday night. The rooms were tastefully decorated with black and white and colored papers. The evening started off with an "All join in singing" which was followed up by games and dancing. During the course of the evening Miss Alberta Griffiths dressed as a witch and Miss Muriel Griffiths as a black cat, passed around a rainbow ball from which each guest pulled a fortune, the reading of which made much fun.

On the stroke of midnight, Mr. A. Griffiths made up as a ghost, appeared on the scene, his groans and shrieks were uncanny, but he played the part very well. Refreshments were then served and the guests departed, each feeling that he had had a really good time.

The guests were Mr. and Mrs. S. Waites, Mrs. S. Hooper, Mr. and Mrs. M. Plummer, Mr. and Mrs. E. A. White, Mrs. Franchard of Montreal, Mr. and Mrs. A. C. Carter, Misses Clarice Barraclough, L. Steele, C. Buckland, N. Waites, Messrs. Percy Cash, Norman Barraclough, Steen, Gillard, C. D. Goodwin and Claude Haughton.

New Street Cars Have Reached City.

The ten new cars which were recently purchased by the Quebec Power Co. are soon to be put in operation here. They are all of the one-man-two-men type which have met with great favor in the United States. Mr. E. Tanguay, Managing Director of the Company, says that two cars manufactured at Ottawa will be here on the 13th of this month and two cars are expected to arrive each week until the ten ordered have been delivered. All the street cars operating within the city limits will be painted red with a cream colored border by next spring.

THE ARMISTICE COMMEMORATION

Arrangements Almost Completed For The Observance To Be Held November 10.

According to the reports submitted last evening at a meeting held in the Army and Navy Veterans' Quarters on the Cove Fields, the arrangements for the commemoration of Armistice Day on November 10th are nearly complete, and the event promises to be a great success, providing weather conditions are favorable.

The meeting was presided over by Lieut.-Colonel J. S. O'Meara. Among organizations, etc., represented were the St. George's Society, by Mr. Paul G. Owen; The A.C.J.C., by Mr. R. J. Blanchet; the Schools under the Jurisdiction of the Protestant Board of School Commissioners, by Mr. M. G. Walker. Military District No. 5 was represented by Major G. R. Bouchard, D.A.A., Q.M.G.

A number of other societies have intimated their willingness to participate in the commemoration, and will be advised in due course to indicate the number of their membership that will attend and also to name two representatives to act as markers, who should be on the Esplanade not later than 9.30 o'clock on Saturday morning, November 10th, so that their respective organizations may take up without any difficulty the positions allotted to them. Each of these organizations will be asked to publish in the newspapers the names of the particular members assigned the duty of markers. The school children, as was the case last year will be assigned positions on the slope leading up to the wall on the Esplanade.

The Royal 22nd Regiment together with its Band will be present on the occasion, as will also other units of the Garrison. The Fire Brigade, Police Force, Cadets and at least eight hundred of school children.

All societies are requested to have their wreaths ready so that they may be placed on the Cenotaph at the proper time during the ceremony.

Former Constables Given Three Years.

Jobin and Mathieu Received Stiff Sentence For Theft And Complicity.

The two ex-constables, A. Jobin and Joseph Mathieu, who were arrested a week ago on a charge of complicity in a number of robberies which were perpetrated over a long period while they were on the local force, pleaded guilty last Saturday before Judge Lachance in the Court of Sessions. They were sentenced yesterday to three years in the penitentiary.

Mathieu had been on the police force for nearly two years and Jobin had been a member for a short while only.

As soon as evidence was in the hands of the police implicating them, they were dismissed from the force and further effort on the part of the detective department brought about their arrest and conviction.

Fire in Old House.

An alarm rung in from Box 34 shortly before 11 o'clock yesterday morning caused between three and four hundred dollars damage in an old house at the corner of Latourcelle street. The men from No. 2 station responded to the alarm, and were given about twenty minutes work in subduing the flames.

Caisse Populaire For St. Adrien De Ham.

Saint-Adrien de Ham, Nov. 2.—A local bank is to be inaugurated on November 25. It is understood that Abbe Napoleon Favreau, an indefatigable worker of the Sherbrooke diocese will preside over the institution.

FOREST RANGERS WATCHING LUMBER

All Danger For Forest Fires Over For Season, Declared Mr. Piche.

All of the forest rangers who patrolled the forests during the summer months, in order to take precautions against forest fires, and fight them when they broke up, are now protecting the interests of the forestry department, according to Mr. Gustave Piche, Chief Forester.

He stated that there were fifty more men who had been hired and who were on the job, and that all of the lumber camps in the Province would be visited about twice a month during the course of lumbering operations.

As there are over three thousand camps in the Province, it would be impossible for a man to be stationed in each camp, but the forest rangers will visit the various camps and see how much wood is being cut also that only the proper trees are being felled, etc.

A very active season in the lumber camps of the Province is expected by Mr. Piche, and one of the biggest cuts for a number of years should be the outcome.

Thus, now that all danger of forest fires is over, the patrols have been withdrawn, and the rangers have turned their attention to other work.

Entertainment In Aid of Stadacona Chapter I.O.D.E. Held At "The Highlands."

Sillery, Nov. 2.—(Special Correspondence)—The bridge and tea held at the residence of Mrs. J. T. Ross, "The Highlands", St. Louis Road, on Tuesday in aid of the Stadacona Chapter I. O. D. E., was well attended, over a hundred people coming out from the city in spite of the heavy rain storm. The rooms were decorated with yellow chrysanthemums and the display of the same flowers of every color in the conservatory won the admiration of all the guests. A candy table presided over by Mrs. A. E. Doucet was a centre of attraction and her wares were soon sold out.

A most enjoyable afternoon was realized. Those who had tables were Mrs. Vesey Boswell, Mrs. E. G. Meredith, Mrs. George Thompson, Mrs. W. H. Wiggs, Mrs. Massey, Mrs. A. R. F. Hubbard, Miss Marjory Ross, Mrs. W. Reid, Madame Tessier, Mrs. Harcourt Smith, Mrs. J. A. Scott, Miss Young, Miss Colough, Mrs. Wm. Home, Mrs. Frank Ross, Madame Jules Garneau, Mrs. Porter, Miss Anderson, Mrs. E. L. Sewell, Mrs. H. H. Sharples, Miss Norris, Mrs. Boulton, and Mrs. J. McLamont. Among others present were Lady Turner, Mrs. Arthur Cannon, Mrs. Frank Power, Mrs. Alfred Dobell, Miss M. E. Shaw, Mrs. Apollide, Miss B. Pope, Mrs. W. Delany, Mrs. Goodday, Miss G. Home, Miss Helen Home, Miss Pops, Miss Kerr and many others.

The cabmen at the car terminus had reason to rejoice in the inclement weather for they did a brisk business carrying the guests from and to the cars.

Miss Elizabeth Kerr of Toronto is the guest of Miss Marjory Ross, several entertainments have been given in her honor both in the city and country.

The sale in aid of St. Michael's W. A. which was to be held on Saturday has been postponed until a later date.

Preparations are being made for the sale of poppies in Sillery next Friday and Saturday.

A hard frost has at last finished off even the most hardy inhabitants of the gardens and the country looks as if it were already for the winter.

A number of pine grobeaks have made their appearance, so we may expect to see snow before long.

Minister Denies Farms Are Decreasing.

Hon. J. E. Caron stoutly denies a recent statement that farming in the Province of Quebec has decreased within the last ten years, and on the contrary declares that agriculture in this Province has wonderful progress continuously since 1911, and gives as his opinion that the apparent decrease in the number of farmers is due mainly to farmers having taken over other farms.

Economics In Berlin.

Berlin, Nov. 2.—Police officials here have fixed the price of a riding on a Berlin street car as equal to the amount one pays to have his shoes shined. On Oct. 1 this was \$400,000 marks.

FINISHING WORK ON ROAD REPAIRS

Gravelling Is To Be Continued On Principal Road Out Of St. Malachie.

St. Malachie, Nov. 2.—(Special Correspondence)—Mr. Oswald Henderson who is working the forestry department of Price Bros. at Chicoutimi is spending a fortnight with his mother Mrs. Walter Henderson of St. Malachie station.

Mrs. Stuart Sturhin, Cartier Ave., Quebec, who has been visiting her mother Mrs. Edward Henderson, Hemison has returned home.

Mrs. Archie Smith and son Master Ernest Smith who had been visiting in Quebec, returned home on Tuesday evening.

The work of gravelling the grades from St. Malachie Village to Hemison is being continued and there is to be a Council meeting on Monday Nov. 5 to make further arrangements to continue this good work throughout the parish.

Most of the cheese factories are closing down for the season as the farmers want to make their winter's supply of butter.

Mr. and Mrs. Andrew Hodgson, Frapton, motored to Hemison Church for service on "All Saints Day" and spent the afternoon with Mrs. Edward Henderson.

Mrs. Andrew Bradley who was very seriously ill is recovering most favorably.

Bridge and Tea At Sillery.

Entertainment In Aid of Stadacona Chapter I.O.D.E. Held At "The Highlands."

Sillery, Nov. 2.—(Special Correspondence)—The bridge and tea held at the residence of Mrs. J. T. Ross, "The Highlands", St. Louis Road, on Tuesday in aid of the Stadacona Chapter I. O. D. E., was well attended, over a hundred people coming out from the city in spite of the heavy rain storm. Caron stoutly denies a recent statement that farming in the Province of Quebec has decreased within the last ten years, and on the contrary declares that agriculture in this Province has wonderful progress continuously since 1911, and gives as his opinion that the apparent decrease in the number of farmers is due mainly to farmers having taken over other farms.

Economics In Berlin.

Berlin, Nov. 2.—Police officials here have fixed the price of a riding on a Berlin street car as equal to the amount one pays to have his shoes shined. On Oct. 1 this was \$400,000 marks.

WILL ESTABLISH A NEW PLANT

Hosiery Company Are Installing Plant In Drummondville For Softening Water.

Drummondville, Nov. 2.—(Special Messrs Layna and Bowler, Memphis, Tennessee, was in town over last week-end, looking into the water question at Drummondville and putting himself into shape for the legal battle between his Company and the municipality which, it is now understood, will be called in November, Mr. Eugene Lafleur, K. C., of Montreal is engaged by the Company in this matter.

The Butterfly Hosiery Co. are installing a plant which will cost over five thousand dollars for the purification and softening of the water used by them in their various dyes. Since all river water is in the mains they have had much difficulty in producing the quality and fastness of colors they require. And many hundreds of dollars have been lost to them and great vexation of spirit suffered because of the inferior water supplied.

The machinery installed by the Town Council for the process of chlorination of the water supply has cost nineteen hundred and eighty dollars, and the infusion of chlorine is not done automatically but by hand it is likely some water contains too much and some too little of this germ killer. It is devoutly wished no human stomach is detrimentally affected.

The recent splash among the bakers here is after all to be of ultimate benefit to the people. A new bakery is in course of erection at St. Cyrille, and Mr. Trahan, of St. Germain de Grantham, has given out contracts for a large up-to-date bakehouse in St. Joseph Village near the Jencks Canadian Cotton Factory and, the contractors are going ahead rapidly. These two new establishments promise to give equal quality with any other and at old prices. As the principals are practical bakers they must be able to make accurate calculations as to all costs of the business.

Mr. Arthur Benoit, Montreal, was visiting relatives and friends in this neighborhood last week, on behalf of his company he lately attended the great exhibition of farm animals, machineries, and varied products in Syracuse, New York state. He demonstrated the value of dairy machineries made in this Province and some of it in Drummondville proved a good effect. Mr. Benoit was particularly pleased at the many prizes won by Canadian horses and cattle at Syracuse.

Mr. T. M. Melrose, St. A. B. Sc., local manager of the R. O. J. Dry Dock Co., at their special plant in Drummondville, was an invited guest to opening of the world's biggest dry dock by His Excellency the Governor-General Lord Byng of Vimy on Monday afternoon at St. John, N. B. Mr. Melrose joined the special train which left Windsor Station, Montreal, at twenty past twelve last Sunday afternoon on this all passengers were guests of the Company until their return to Montreal.

The Misses Ogran of Chicago, Illinois, are visiting their brother Mr. Ogran at his home on Lowering St. and expect to remain three weeks visiting various points of interest in town and district.

Mr. Laurent Turcotte of the passenger Dept., White Star Line, Montreal, was renewing acquaintances and calling on relatives here over the week-end.

The Drummondville Textile Co. have now installed twenty-four motors and two hundred electric lights in the old mated factory. They have put in a new concrete floor and cleaned away the accumulated rubbish of many years, they expect to begin operating their knitting machines within a few days. This is a new industry for the town and the enterprising gentlemen in charge deserve every success.

The Butterfly Hosiery Company who for many months have been on a short time schedule are now running part of their machines five nights per week and all their machinery five full days.

Interested parties were in town a few days back looking about for a suitable building in which to commence the manufacture of bed mattresses. They are already in the business in Montreal.

Mr. Howard J. Flek is training an augmented choir at St. George's Church in special music for the ensuing services at Thanksgiving—Armistice Day.

On Monday afternoon Mr. Moulton of the Drummondville Printing Co. was returning from St. Cyrille in his car accompanied by his mother and two aunts who had been visiting friends in St. Cyrille and, he came into collision with a motor cycle ridden by Mr. Laferte, Jun., nephew of Mr. Hector Laferte, K. C., M.L.A., Quebec, all the occupants

NEW COALING PLANT ERECTED

C. P. R. Is Completing Installation Of Concrete Building At Lake Megantic.

Lake Megantic, Nov. 2.—(Special Correspondence)—Miss Dorothy Boyle left last week for Newport, N. Y., where she will take up private nursing for the winter.

Mr. Donald Edwards, son of Mr. and Mrs. Elin Edwards of Newport, N. Y., and his parents, have arrived at the club house at Lake Macanamac for a two weeks stay. Mr. Donald Edwards is in the N. S. Navy and is on a four week leave of absence from his ship.

Mr. and Mrs. Parry and daughter of Upper Montclair, N. J., made a visit to the club house last week on their way home from Big Island Pon, where they have a private camp.

There are still a number of guests at the club house some of whom will remain into November.

Mrs. Fred Braddeock of Farzham, a former resident of this place, was a visitor in Megantic recently.

We understand that the new reinforced concrete coaling plant of the C. P. R. Coy., that is being erected here, will replace the old wooden coal chutes, and has a capacity of 300 tons of coal, also that the steel rails that were recently laid between Megantic and South Stickey, were 160 lb. rails and not 85 lbs. as we reported before.

After heavy rain thunder and lightning on Tuesday night, Wednesday morning, Oct. 31, opened with the ground covered with a mantle of white snow. The first fall of snow for the season.

The water in Lake Megantic has risen about two feet during the last two weeks. The lowest water in the lake in the early part of October, was about the three feet mark on the register, not so low as it was, by 5 or 6 inches in October last year.

On Tuesday, Oct. 30th at the church of St. Agnes de Megantic, was celebrated the wedding of Miss Adeline Gendreau, daughter of Mr. and Mrs. A. B. Gendreau, collector of customs, to Mr. Henry Rheame, son of Mr. and Mrs. J. D. Rheame, merchant of Ford City. The benediction was given by Rev. Father J. D. Bernier, Priest of Lake Megantic. Miss Adeline Gendreau, was attended by her father, and Mr. Rheame by Mr. D. L. Lippi, notary.

Miss Gendreau was beautiful in a very pretty suit of panet twill grey with French trimming, and a fur of silver fox. Her flowers were American beauty lilies of the valley and orchids. During the ceremony, Miss Helen Huard and Mrs. A. E. Jean sang many beautiful selections and also the ladies choir of St. Agnes Church.

Mrs. A. B. Gendreau received all the friends at a sumptuous breakfast. After which they accompanied the newly married couple to the railway station on their departure for New York and Atlantic City. On their return they will reside at Ford City.

For the trip Mrs. Rheame was a pretty coat of morvella twill with fur trimmings.

Mr. and Mrs. J. B. Durocher, Chevalier de St. Gregory, Miss Florentine Durocher of Coaticook, notary and Mrs. G. A. Normandin of Coaticook and many others were in Megantic for the wedding.

The steamer Woburn closed her season of navigation between Three Lakes, Woburn wharf and Piopolla and Megantic for two daily trips up and down Lake Megantic on Wednesday, Oct. 31st, she may still make an occasional trip up the Lake not more than once a day if freight or occasion offers.

Mr. Jean was returned to his home at St. John, N. B.

The daily mail which has been carried by the steamer to the three places named, during the summer is closed for the winter.

Mr. Chouinard the mail carrier has commenced the carrying of the mail on the winter route, from Woburn Village to Three Lakes and Megantic. This winter we understand the mail will be daily instead of tri-weekly as before.

The daily mail from Piopolla will now be taken on the land route to Spring Hill, via Marsboro by the mail contractor Mr. R. McKay, until the lake opens again next May.

Mr. and Mrs. John Bailey of Megantic are at present visitors at the home of Mr. R. G. McDonald in Milan.

of Mr. Moulton's car were badly shaken up on one of the ladies, whose home is in Toronto received a black eye and a slight cut on the head. Mr. Moulton was on the left side of the road and sounded his bell as he was turning from a side street into the main road for Drummondville but, the motorcycle had tremendous speed was on the wrong side of the road and dashed into Mr. Moulton's car engine smashing it, turning the car into the adjacent ditch and throwing its rider Mr. Laferte into an unconscious state on to the road. Mr. Laferte resided in St. Cyrille where he looks after the sawmill and lumber interests of his father who is a lumber merchant in Montreal.

The Quebec Chronicle

Printed and published by the Quebec Chronicle Printing Company, at the building of the Company, 9 Bunde Street, Quebec, A. G. Penny, Editor-in-Chief; P. J. Egan, Business Manager. QUEBEC, NOVEMBER 3, 1923.

L'ÉVÈNEMENT RÉPONSE.

On Thursday morning the anglophobia of L'Évènement was discussed in these columns and to-day we hasten to put before our readers what that paper has to say in reply.

The first observation is that "we are Canadian anglophobes, if you please, because we have denounced Lloyd George, unmasked Lord Curzon, and taken up the impudence of Sir Ian Hamilton in an altogether extra-Canadian controversy."

Nowhere did we suggest that L'Évènement entertained, or intended to inflame, aversion to Anglo-Canadians, but the fact remains—since the point has been raised—that it is but a step from disliking Englishmen at home to disliking Englishmen in Canada and that the ultimate effects of L'Évènement's policy might easily be to bring it about.

Again, since our confrère admits that the controversy is altogether extra-Canadian, why does he discuss it with so much heat and in a manner that he would vigorously resent if the situation were reversed. We would be the last to deny him whatever benefit or satisfaction he may be able to derive from denouncing Lloyd George, but we cannot permit him to evade the issue, even by such a plausible device. The article against which our protest was made, did not refer to the Lloyd George, but to the English menace. It did not declare that Lord Curzon, but London may argue or attempt blackmail in vain. It did not assert that Sir Ian Hamilton, but England had snatched the lion's share.

But L'Évènement takes higher ground, contending that "it is service to the Crown to criticize the Ministers and the defenders of the Crown who appear to us to be deceived or to be deliberately deceiving the public. Of loyalism, as of patriotism, we may repeat that it is the last refuge of a scoundrel. Above the rancor of Lloyd George, the oil interests of Lord Curzon and even the prestige of the illustrious generalissimo of Gallipoli, we place what we believe to be justice, truth and honor. If it appears to us that, at the present time, sordid interests are conspiring to stifle in certain English personages the memory of plighted faith, we consider that we prove our loyalty to and serve more truly both His Majesty and the British cause, by saying so."

Certainly our contemporary has "the right to his own opinion and the right to express it," but in a mixed community restraint is considerable and also wise. He may be able to persuade himself that last Wednesday's article was of real service to the British cause, but a disinterested outsider would be less readily convinced and we have a very clear idea as to how an opinion similarly expressed by an English language newspaper with regard to French interests would be received in this community.

Attack can be easily seen. But it is not at all certain L'Évènement further asserts that "the motive which inspired our estimable confrère to launch his attack can be easily seen. But it is not at all certain that he will attract to himself the sympathies that he seeks to alienate from us"—an insinuation that is not worthy of an answer. Just what are the "sympathies" referred to we do not know, but under-handedness we leave to others and, in the matter of attempted allusions, the Chronicle has been infinitely more sinned against than sinning of late.

"The Chronicle knows better than anyone," cries our contemporary, "that we do not preach injustice or falsehood and that we do not foment racial hatred; its Editor knows also that we have never missed an occasion of preaching loyalty to the British Crown." Certainly the Chronicle knows and willingly pays tribute to where L'Évènement has stood in the past on this issue. But where it stands today we confess, with sincere regret, our inability to perceive. If its convictions remain unchanged, its gestures do not indicate the fact.

In conclusion, it is right that whatever credit may be due to our contemporary for the excellence of his intentions, should be given him. "We have never pretended to be infallible," he admits, "but when mistakes have been made, they have been in good faith. Far from wishing to mutually embitter the two races who are as the two pillars of the Canadian fatherland; far from wishing to transport to Canada or into this Province the Anglo-French quarrel, we have taken care, on several occasions, to underline the fact that we were taking part in a platonic debate and that we ought not to actively mix ourselves in this dispute which trans-Atlantic interests may cause to degenerate into armed conflict."

There is nothing to be gained by prolonging the incident and we shall not do so. If L'Évènement wishes to represent that his aspersions on England should be taken in a "platonic" or "Pickwickian" sense, that is his affair. But as often as they are renewed, we reserve our right to enter a renewed protest against them on the grounds contained in our previous article.

CANADIAN CHURCHES GAINING.

Nine Canadian church divisions have gone above the 50,000 mark in increased membership, according to the sixth religious census, taken in 1921 and recently made public. The figures for the larger denominations are: Roman Catholics, 3,383,663; Presbyterians, 1,408,812; Anglicans, 1,407,959; Methodists, 1,158,744; Baptists, 421,730; Lutherans, 287,484; Greek Church, 169,822; Jews, 125,190; Mennonites, 58,797. The census report is thus summarized from The Christian Guardian, organ of the Methodist Church of Canada: "Of the larger denominations, the Anglicans have made the largest percentage of gain during the decade, having grown from 14.47 per cent of the population to 16.02 per cent. The Presbyterians also have gained ground, increasing from 15.48 per cent of the population to 16.02 per cent. We are sorry to say that the Methodists have fallen from 14.98 per cent in 1911 to 13.18 per cent in 1921. The Roman Catholics, also, have lost ground, relatively decreasing from 39.31 per cent in 1911 to 38.50 per cent in 1921; while our friends the Baptists have dropped from 5.31 per cent of the total to 4.8 per cent. In twenty years, 1901-1921, the Anglicans have grown from 681,494 to 1,407,959, an increase of 106 per cent; the Presbyterians have increased from 842,431 to 1,408,812, an increase of 67 per cent; the Roman Catholics have increased from 2,229,600 to 3,383,663, or 51 per cent; the Baptists have increased from 318,005 to 421,730, or 32 per cent; the Methodists have increased from 916,886 to 1,158,744, or 26 per cent; while the Lutherans have increased from 92,524 to 287,484, or 210 per cent."

COLONIAL CREDITS.

An important proposal reported to have been made at the Imperial Economic Conference in London by the British Government is that long time credits be provided for the exploitation of the resources of undeveloped colonies and the improvement of their public utilities. This is a well tried method of increasing the home trade while at the same time benefitting the colonies. It has been practiced by Great Britain consistently in the past, but the offer of the present Government indicates that even greater emphasis is to be placed upon it in the immediate future.

The Dominions other than Canada have been large borrowers in the British money market since the war, but the loans that have been raised have been of the ordinary commercial sort. Australia, New Zealand, South Africa and Canada. It is pointed out, however, no difficulty in raising funds from private investors at reasonable rates of interest. But the same is not the case with the less highly developed and well known districts of the Empire. It is on behalf of these that the British Government now proposes to float loans backed by its own credit. The conditions it stipulates are that public and commercial developments in the colonies go forward at accelerated speed, that the commodities used be bought in Great Britain when possible and that the colonial Governments join the British Government in responsibility for the loans.

"It is this type of trade policy," observes the New York Journal of Commerce in generous appreciation, "that has brought the British nation to its present pre-eminent position."

A breeze in the Imperial Conference over Indian status indicates afresh the difficulty of drawing the color line at the right place.

The Delorme case is to come up this month, but may be further remanded. If it could be given a "six month's hoist" most of us would regard it as a good riddance.

The Canadian bill of lading may be adopted as the standard throughout the Empire. When they want a good thing our sister Dominions know where to come for it.

The success of the negotiations on reparations will be seriously jeopardized if Washington refuses to consider the French Premier's suggested restrictions, it is said. And if Washington refuses to consider them, of course it will be all the fault of England and Lloyd George.

A Verse Or Two

CONSOLATION.

The hills will soon be hung with haze, The sunlight faint and fleet, And though I love the autumn days And find them more than sweet, My heart harks to the time of year When apple blossoms blow Pink as cloud flowers when day is near, Silver as drifting snow.

Sometimes when tasks which heap my hand Are done or laid aside, Swift as a bird across the land My thoughts fly far and wide; But ever when the sun dips down, A great rose in the blue, My fancy flits to a far town Where hides a breath of you.

For once you came at twilight time To share with me a joy Eternal as a ceaseless chime Which nothing can destroy; Once when the apple blossom foam When floating down the wind With you I turned my face toward home And left all care behind.

Though I may not go back again To walk the paths of spring, I shall not feel the poignant pain Which once life seemed to bring; The opal of remembrance, Is mine to hold, to keep, To cherish till the time I chance To drift away in sleep.

—Elizabeth Scollard.

Press Comment

WINTER SPORTS.

(Pincher Creek Echo.)

The old game of chess is creating a great deal of interest locally of late, and there is talk of forming a chess club.

A GOOD TIME FOR A CENSUS.

(Camrose Canadian.)

The population is larger now than it ever was before, and the school registers show this to be correct. Would it not be good business to have a census taken this fall, when the schools are all in operation? It could be done easily in a few days if the proper organization was arranged, and would cost nothing.

POETRY IN THE NORTH.

(Peace River Record.)

Every turn of the road or trail brings before the eye new beauties of landscape, valleys of copper and wine colored leaf banks, brown meadows stretching away toward the horizon or the distant timber, or fields which but lately stood waving golden grain heads to the fall breeze. Beside the roadway a carpet of air stirs the fallen leaves which form a breath under the poplars, or blows the silken fur from some weed top in the grass.

EDITORIALS OR BLOTTERS.

(Red Deer News.)

Lately very few papers in the Province, outside of the dailies, have an editorial column of any description. It entails a great deal of time and thought that might otherwise be spent in amassing wealth. In the same time that an editorial might be written, several hundred blotters might be written and distributed telling the recipients that the paper is the best yet. And if an editorial column is necessary to keep equal with rivals, then the scissors and paste pot are much quicker.

WHERE WAS FORT ST. PAUL?

(Vegreville Observer.)

In the list of posts of the Hudson's Bay Company given in the Orders-in-Council attached to the Rupert's Land Act there is mention of one named St. Paul, which was apparently located somewhere between Victoria and Fort Pitt. It is a curious commentary on our lack of historical knowledge, even about places in the immediate neighborhood, that nobody seems to know exactly what was the location of this particular Hudson Bay post. Perhaps some of the old timers can enlighten us.

"FREEZONE"

CORNS lift right off

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Chronicle Files 100 Years Ago

A Total Loss

The Brig. "Royal Oak", Captain Darley, outward bound from Quebec to Hull, was totally lost on the morning of the 15th ultimo off Cape Rozier. She sailed on the 11th, and until the 14th, experienced nothing unfavorable. On that day the wind began to blow strong from the Northeast and by the following morning it had increased to such violence as to compel the ship to lie to. In this situation a heavy sea struck her, which carried away her stanchions, bulwarks, boats and deck load, starting at the same time her deck timbers; this caused the vessel to fill rapidly, and she shortly fell over, but in about ten minutes she righted again, with the loss of the foremast and bowsprit, and three of the crew, the second mate, cook and a boy; the remainder of the crew now used their endeavour to get to the forepart of the vessel and all succeeded except two boys, who were washed overboard by the violence of the waves. Here they remained for some hours, benumbed with cold, exhausted with exertion, in the course of which time two of the seamen died. Towards evening, the rest, five in number, got into the maintop, where they remained, with the exception of the Captain, who returned on deck the same night and was washed overboard until the 19th, when the ship Margaret, Captain Creighton, from Hull, hove in sight, and immediately despatched two of her boats to the wreck, which brought the survivors, who were in a shocking state of debility for want of food, having their hands and feet severely frost bitten. From Captain Creighton they gratefully acknowledged to have received every mark of kindness and attention that humanity can bestow; and by him they were landed at Quebec on Monday last.

The Future of Quebec

When at Vancouver Mr. Dobell spoke out well for the City of Quebec. He said: "In spite of the difficulties that Quebec had to contend with—and he was sorry to say that in the way of raising investments, and so on, his people were sometimes slow—the city is going ahead, and it would surely become, according to his best judgment, the commercial metropolis of North America, and that bar none. Even taking into consideration Sydney Harbour and that of Sydney in Cape Breton, few harbours in the world could approach Quebec, and the advantages it afforded."

The ladies of St. Patrick's Church, who had charge of the recent Bazaar held in Tara Hall for the benefit of St. Bridget's Home, met yesterday afternoon at the Home and handed in the proceeds of the Bazaar, which amounted to \$3,086.81, being several hundred dollars more than the returns of last year. The Rev. Fathers McCarthy and Woods, C.S.R., were present, and on behalf of St. Patrick's congregation and the inmates of St. Bridget's, thanked the ladies for the great trouble they had taken to make the Bazaar such an unqualified success. The ladies present, accompanied by the Rev. Fathers McCarthy and Woods and the Sisters in charge, then inspected the Institution, and highly enjoyed several musical selections rendered by the orphans. Afterwards all the inmates were treated to a sumptuous supper.

UPSET STOMACH, GAS, INDIGESTION

Chew a few Pleasant Tablets, —Stomach Feels Fine!

So pleasant, so inexpensive, so quick to settle an upset stomach. The moment "Pape's Diapepsin" reaches the stomach all pain and distress from indigestion or a sour, gassy stomach vanishes. Millions know its magic. All druggists recommend this harmless stomach corrector.

HAVE REACHED ACCORD FOR COAL DELIVERY

Krupp Interests And Occupation Authorities Have Made New Agreement

Dusseldorf, Nov. 2.—It is officially announced that a definite accord has been reached between the Krupp interests and the occupation authorities for a resumption of delivery of coal from the Salzer, Nouack Hanover, Hannibal, Helen and Abalin mines. These are six of the most important pits in the Krupp system.

Berlin, Nov. 1.—The negotiations which have been going on between the Ruhr and Rhineland industrialists and the French were up today for discussion by the Cabinet. The Government is said to be in accord with the line of action pursued by the industrialists, who reported the progress of their negotiations in a series of communications to Chancellor Stresemann.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and soothing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains; treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

INCREASED HOLDINGS IN STANDARD BANK STOCK

Directors Of The Bank Now Own Over Five Thousand Shares

Toronto, Nov. 2.—Directors of the Standard Bank of Canada have increased their holdings in the bank's stock and now own over five thousand shares. This statement is made in a circular signed by Wellington Francis, President, and N. L. McLeod, General Manager which accompanies warrants for regular dividend payment today. It is stated that no director has sold or contemplates selling any portion of his holdings.

The letter reads in part:—"As some shareholders during the past few weeks have enquired as to the market price of the Standard Bank of Canada shares, we take this opportunity of advising you that the actual value of our stock is considerably in excess of the present market price. The most unrequited financial affairs, most of which was entirely unwarranted, had a depressing effect on the market price of stocks generally."

The glory of a country is in its homes, which contain the true elements of national vitality.

FAIRY SOAP advertisement with image of a fairy and text: "Whitest Soap in the World", "Made in Canada", "Fairy Soap is the whitest soap in the world, because of the purity of its ingredients. Better ingredients are not used in any other soap, whatever the price."

THE DEAL IS NOT CONCLUDED Quebec Syndicate After St. John Street Property For Departmental Store.

Quebec may and may not have an extra theatre on St. John street. Poupriars are going on, and have been going on for the last couple of weeks between representatives of the Marcus Loew interests, who own a string of theatres in the Dominion, including two in Montreal, and a certain prominent business man who owns a store and property on St. John street, regarding the sale of the property, but according to information received last evening, nothing definite has yet been transacted.

There have been rumors around town that the property had been purchased by the Loew interests, and that the price involved was in the neighborhood of \$150,000, but confirmation of this was not obtainable last evening, the gentleman in question stating merely that poupriars were going on.

Now there is another competitor for the property and site, a syndicate composed of Quebec gentlemen being after the place which if they are successful in buying, they will convert into a large department store.

OBSEQUIES OF MRS. A. J. TEAKLE Striking Tribute Of Respect Paid To Memory Of Deceased Lady.

A striking tribute was paid to the memory of the late Mrs. Albert J. Teakle, by the exceedingly large attendance at her funeral, which took place yesterday afternoon from her late residence 75 Park Avenue to St. Matthew's Church, the cortage including all classes of the community.

At the church the body was received by the clergy and the vested choir. The service was conducted by the Rev. Canon F. G. Scott, assisted by the Rev. Ernest Roy, Rural Dean Kelley, Rev. P. R. Roy, and the Rev. J. R. Prout. The Lord Bishop of Quebec occupied his seat in the sanctuary and took part in the service by reading the Lesson and pronouncing the Benediction. During the service the following hymns were sung: "Abide with Me," "Jesus Lover of My Soul," and "Oh, What the Joy and the Glory must be."

At the conclusion of the service the remains of the deceased lady were conveyed to Mount Hermon Cemetery where interment took place, the Committal Prayers being read by the Rev. Canon Scott.

A further testimony to the great esteem in which the late Mrs. Teakle was held by her numerous friends was shown in the large number of floral tributes which were sent, these requiring four carriages to convey them to the Cemetery.

The chief mourners were: Mr. A. J. Teakle, husband; Messrs. Lennox St. J. and Charles D. Teakle, sons; Messrs. Arthur P., Charles T., and R. H. Doddridge, brothers; Messrs. Harold F. Mills, Montreal; Charles D. Jenkinson, Pointe Claire; Thos. F. Teakle, and Wm. C. Teakle, brothers-in-law; Messrs. Cecil T. Teakle Montreal; Gordon E. Teakle, George Matte, Jack and Cecil Doddridge, nephews; Messrs. Charles Rust, John, Charles and Claude Doddridge and John Brown, cousins.

MINISTERS MEET THE CIVIL SERVICE COMMISSION On Tuesday afternoon, the Hon. M. Caron met the members of the Civil Service Commission and discussed the need for granting full powers to the Commission. The discussion will probably be made the subject of a bill to be introduced next session in the Provincial Parliament. It is understood that only a preliminary report will be made by the Commission to the next parliamentary session; the full report will be deferred until a later date. The increases in salary which were postponed pending the result of the inquiry will in all probability be granted at once and made retrospective to July. The Commission seeks power to grade Civil Servants and the members of the Commission have expressed readiness to make a 10 per cent increase of salary for each grade. To live without loving is not really living.

QUEBECER'S DON'T VISIT LEVIS AND ISLAND Mayor Samson Made Startling Announcement In Montreal Yesterday.

75 Percent Never Seen Levis, And 90 Percent The Island.

The startling statement that probably seventy-five per cent of the residents of this fair city had never crossed the majestic St. Lawrence and visited Levis, and that ninety per cent had never visited the Island of Orleans, was made by His Worship Mayor Samson in Montreal yesterday in an address to the Quebec Tourist Association.

The city's chief magistrate was illustrating that the people did not realize the beauties around them. The Quebec Tourist Association met in the metropolis to get hints on the organization needed to bring tourists to the Province of Quebec, and the speakers included Mayor Mederic Martin, of Montreal, and Alderman F. Crome, of Vancouver.

World Tax Religious Property Many things are to be discussed at to-night's meeting of the Levis City Council, which will be public, contrary to what has been rumored, and will be for the purpose of studying amendments to the city's charter.

Among other amendments, authorization will be asked for a loan to pave the hills of Levis, while the annexation of Blenville to Levis will also be asked for this evening.

A division of the city into wards, as it formerly was, will be another of the subjects to be studied, while the fact, but not the least, will be the seeking of the privilege of taxing certain religious properties, which are at present exempt from taxation.

MRS. JOS. GRENIER WAS LAID AT REST Many Citizens Including A Number Of Provincial Civil Servants Attended.

An immense concourse of relations and friends, including a large delegation of Provincial civil servants, attended the obsequies of the late Mrs. Grenier, wife of Mr. Jos. Grenier, advocate, and Superintendent of the sales branch of the Provincial Colonization Department, which took place on Monday morning from her late residence, 500 St. John street, to St. Jean Baptiste Church.

On arrival at the church the body of the deceased lady was received by Mgr. Laberge. The solemn requiem mass was chanted by the Rev. Abbe Ivanhoe Caron, assisted by a deacon and sub-deacon. During the service low masses were said at side altars by the Rev. Abbes Gagne and Garant. The following clergy occupied seats in the sanctuary: Mgr. Laberge, the Rev. Abbes Larivie, Falardau and Caron.

The musical portion of the mass was feelingly sung by the boys of the Christian Brothers School, assisted by several friends, and the family of the deceased lady. Solos were rendered by Mr. Aurele Leclerc, N.P., Mr. Adelard Morissette and Mr. Romeo Faguy.

Following the service the remains of the late Mrs. Grenier were conveyed to Belmont Cemetery where interment took place. The chief mourners were: Mr. Jos. Grenier, husband; Mr. Joseph Grenier, N.P., Amos, P.Q., son; F. W. Donovan, grandson; Mr. Joseph Levasseur, brother; Dr. J. A. Poliquin and Mr. T. W. Donovan, St. Come, Beauce, brothers-in-law; Messrs. Ernest Boucher and Joseph Boucher, nephews; Messrs. Louis O. Paradis, Irene Goulet, Victor Goulet, Jules Raymond, Charles A. Dionne, Evaristus Michaud, Edmond Frechette and Henri Grenier, cousins. Many offerings of masses, spiritual bouquets and letters of sympathy were received by the family of the late Mrs. Grenier.

RUN OVER BY CAR MAY LOSE LIFE Five Year Old Girl Severely Injured By Falling In Front Of Street Car.

(Special to the Chronicle) Marguerite Desaulniers, aged five years, may die as the result of injuries sustained when she was run over by a street car returning from St. Romuald to Levis yesterday afternoon, in the St. Laurent ward.

The accident happened when the little girl, who was playing with a group of others in the street, fell in front of the car after the motorman, Mr. Jos. Morin, had sounded the bell of his vehicle to warn the children of the approach of his car.

The children continued playing after the motorman had sounded his bell, and suddenly, as the car was about to pass them, the little girl in question fell in front of the car, the wheels of which ran over her.

As he saw the child fall, the motorman immediately applied his brakes, but could not prevent the wheels passing over her body. She received severe injuries about the body and legs, and fear is expressed that she will not survive the accident.

The accident occurred immediately in front of the Compagnie des Machines Merceur shops, and Dr. A. V. Roy was immediately called. He responded instantly and had her transported to the Hotel Dieu de Levis after rendering first aid.

CHATEAU ARRIVALS Mr. and Mrs. J. Nocer, R. H. Leclerc, H. H. Rumsey, W. D. Tait, J. H. Roper, C. B. Hibbard, F. W. Walker, Mr. and Mrs. A. N. Cremer, Montreal; C. W. MacQueen, J. A. Downey, Albert St. Abbott, Toronto; Mrs. A. Babin, Matane, P. Q.; W. Martin, Winnipeg; J. E. Roberge, Lambton; Mr. and Mrs. C. Bourne, Mr. and Mrs. C. F. Apel, New York; J. Simons, San Francisco; E. Baker, M.B.; Christ Church, New Zealand; Mr. and Mrs. C. Hartley, Leeds, Eng.; I. Mitchell, A. A. Mitchell, London, Eng.; Mr. and Mrs. J. H. Warrington, Cornwall, Ont.; Mr. and Mrs. J. Reeves, Boston, Mass.; Mr. and Mrs. H. Buckley, Poughkeepsie, N.Y.

ALL SOULS' DAY OBSERVED THROUGHOUT THE TOWN. All Souls' Day was reverently observed throughout the town and the impressive ceremonies held in the churches were very largely attended. The most impressive sights of the day were to be seen at the Belmont and St. Charles Cemeteries where large crowds congregated to pray for the departed.

At Belmont Cemetery the Chaplain Guards assisted in the ceremony and after firing a salute of three salvos disposed themselves about the graves of members of the order. Ceremonies began at 12.30 and a sermon was preached by Abbe Philibert Cloutier, of the Fleury Monastery, St. Roch. In the course of his sermon Abbe Cloutier emphasized the need of faith in a future life and the necessity of prayer for the departed.

At St. Sauveur Cemetery a sermon was preached by Mr. R. C. Caput, director of work among the young in the St. Sauveur district. The ceremony was attended by the Salaberry Guards. A large attendance congregated at St. Patrick's Church. Altogether it was estimated that 15,000 people visited the cemeteries of the town during the day.

YOUNG BOY VICTIM OF FATAL RIFLE ACCIDENT. Sweetsburg, Que., Nov. 2.—Fourteen-year-old James Fleury, son of Mr. and Mrs. Lucien Fleury, was the victim of a fatal gun accident here. During the absence of his parents, who were visiting their daughter, Mrs. Lepinay, at East Dunham, the boy discovered a 22 caliber rifle and not thinking it was loaded, he and his younger brother commenced playing with the firearm.

The rifle was accidentally discharged while they were playing with it. Mr. Armstrong, in whose house the Fleury family reside, on being informed of the accident by the younger brother, immediately called Dr. Fuller, but the boy passed away without regaining consciousness before the doctor arrived.

SEMI-ANNUAL EXAMS OF ENGINEER STUDENTS The semi-annual examinations of intending future students of civil engineering will be held in Quebec on the 6th, 7th and 8th of the present month. These examinations will be presided over by Mr. A. R. Decary, who will be assisted by Messrs. Frederick B. Brown, Arthur Survever, Alexandre Fraser, A. Mallo, Theo. Lafreniere, and Ernest Brown. Mr. Lafreniere is representing the Montreal Polytechnical School and Mr. Brown McGill University.

CIVIL SERVICE COMMISSION SAT. The Civil Service Commission, which is studying the classification and readjustment of salaries of civil servants, sat at the Parliament buildings yesterday, but it is estimated that a number of meetings will have to be held before the Commission can come to any decision.

BAPTIST CHURCH. (Grande Allee) Rev. F. H. Wentworth, Pastor 11 a.m. Subject: "The Eighth Commandment" 3 p.m. Sunday School. 7 p.m. Subject: "Miracles Of Grace." Strangers Cordially Welcome.

YOUNG BOYS WHO WERE REPORTED GONE, ARE FOUND Disappeared From Quebec On Sunday—Located In St. Marie De Beauce.

ARE JACK IN TOWN Accompanied By Detective Scallen, Who Brought Them Home Last Evening.

The three young boys who disappeared from their homes last Sunday are back in Quebec once more, arriving here last evening from St. Marie de Beauce, where they had wandered their way and where they were turned over to Detective Scallen, who had been informed that the wandering youths were in that section of the country, and who made a trip down there to get them.

They were reported missing on Sunday last, and their parents were frantic as day by day went by with no trace of their beloved children. A rowboat that was reported missing from the waterfront led to the belief that they had endeavored to cross over to the Island of Orleans, and it was feared that they had lost their lives in attempting the crossing, but this fear was discounted by the fact that no floating boat was discovered in the river, nor anything that would lead to the belief that they had perished.

Detective Scallen was appointed to look after the case, as soon as the disappearance reached the ears of the police authorities here, and he covered the whole of the district searching for them, without result, however, until he received a "tip" that the youthful wanderers were in St. Marie de Beauce. Immediately he set forth after them, and located the three yesterday morning, returning with them in the evening, to place them in the arms of their parents one more, thus adding another feather to the cap of the municipal detective force.

The trio, before leaving Quebec, had been living a primitive life on the Gomion Road, where they had erected a tent over a droust that they had dug, and where they lived on food that they obtained. Farmers around the district had seen the boys, and had thought that they were out on a holiday. It was only after they were gone, and the news of them having disappeared having been published that they realized what had happened, and then it was too late to catch them.

CHATEAU ARRIVALS Mr. and Mrs. J. Nocer, R. H. Leclerc, H. H. Rumsey, W. D. Tait, J. H. Roper, C. B. Hibbard, F. W. Walker, Mr. and Mrs. A. N. Cremer, Montreal; C. W. MacQueen, J. A. Downey, Albert St. Abbott, Toronto; Mrs. A. Babin, Matane, P. Q.; W. Martin, Winnipeg; J. E. Roberge, Lambton; Mr. and Mrs. C. Bourne, Mr. and Mrs. C. F. Apel, New York; J. Simons, San Francisco; E. Baker, M.B.; Christ Church, New Zealand; Mr. and Mrs. C. Hartley, Leeds, Eng.; I. Mitchell, A. A. Mitchell, London, Eng.; Mr. and Mrs. J. H. Warrington, Cornwall, Ont.; Mr. and Mrs. J. Reeves, Boston, Mass.; Mr. and Mrs. H. Buckley, Poughkeepsie, N.Y.

AUTOBUSES WILL HAVE SPEEDOMETERS A recent order-in-council which required all motor vehicles to carry speedometers has been revised by a second order-in-council signed by the Hon. L. P. Brodeur, Lieut. Governor substituting the word "Autobuses" instead of "Motor Vehicles".

The action was taken following representations made to the Provincial Treasurer, Hon. Jacob Nicol, claiming that as many manufacturers did not furnish new cars with speedometers, it would entail too heavy an expense on the average car owner.

This latest order-in-council is the first one to be signed by the new Lieutenant-Governor.

THREAT OF SUICIDE WAS FRUSTRATED. Overhearing one of his men state that he intended committing suicide yesterday, the captain of the Essex Manchester Brigade immediately took steps to eliminate any possible chance of letting the man put his threat into effect, having him detained by the other members of the crew while a call was put in for the police. Sergeant Jeffery, of the Harbor Police, responded, taking the man to the Central Station, and afterwards to the Police Court, where the presiding judge ordered the prisoner detained in the Quebec jail pending arrangements being made to send him overseas.

MR. JOSEPH ALLARD HAS PASSED AWAY The many friends of Mr. Joseph Allard, 24 Garneau street, will very much regret to learn of his death which took place yesterday at the Hotel Dieu Hospital after a short illness. The deceased gentleman, who had attained the ripe age of seventy-eight years at the time of his demise, was at one time very well known in business circles, and since giving up business, which he did some years ago, had lived a somewhat retired life.

MR. JOSEPH ALLARD HAS PASSED AWAY The many friends of Mr. Joseph Allard, 24 Garneau street, will very much regret to learn of his death which took place yesterday at the Hotel Dieu Hospital after a short illness. The deceased gentleman, who had attained the ripe age of seventy-eight years at the time of his demise, was at one time very well known in business circles, and since giving up business, which he did some years ago, had lived a somewhat retired life.

LIEUT. GOVERNOR TO MOVE TODAY Will Assume Residence At Spencer Wood Some Time During The Day.

His Honor the Lieutenant Governor, Hon. L. P. Brodeur, will move into Spencer Wood, with his family, some time today, according to information obtainable last evening.

This evening he will attend the Sixtine Choir concert, while tomorrow morning he will attend Mass in the Seminary chapel.

His Honor spent practically the whole of yesterday in his office at the Parliament Buildings, being there at a quarter past nine o'clock yesterday morning until late in the afternoon, and he accomplished a good deal of work amongst other things signing the Order-in-Council regarding speedometers on motor trucks.

He started right in to work yesterday morning, and is getting settled down, leaving up the deal of work that was ahead of him.

There will be no changes at all in the present staff at Spencer Wood, all of the Aide-de-Camps, and servants remaining, as they were under the reign of Sir Charles. The only familiar face that will be missing is that of Mr. Lannin, who asked to be pensioned shortly before Sir Charles Fitzpatrick's term of office expired.

His Honor has been doing a little sight-seeing in town since Wednesday, and visited most of the places of interest on Thursday. All Saints Day, which was a legal holiday.

\$48,000 CAME IN BY THE MAILS Slowly But Surely Nearing Million Dollar Mark For Taxes At City Hall.

The amount of money paid into the City for municipal taxes is slowly but surely nearing the million dollars mark, and it is anticipated that by the time the books are closed on Monday next, which is the last day on which payment of taxes may be made without interest being charged, the amount paid into the city will have reached seven figures.

The biggest day yet experienced was probably on Wednesday last, when some \$287,000 flowed in. Of course, in this amount, there was nearly two hundred thousand contributed by the C. P. R., but despite that it was a big day, swarms of people flowing in unceasingly until well after five o'clock in the afternoon.

The same condition prevailed yesterday, with the surplus coming over into the Assessment Office, where there were three or four clerks to accommodate them.

Yesterday it is figured an even hundred thousand dollars came in, while in Thursday's mail were cheques totalling an even \$48,000.

ALL SOULS' DAY OBSERVED THROUGHOUT THE TOWN. All Souls' Day was reverently observed throughout the town and the impressive ceremonies held in the churches were very largely attended. The most impressive sights of the day were to be seen at the Belmont and St. Charles Cemeteries where large crowds congregated to pray for the departed.

At Belmont Cemetery the Chaplain Guards assisted in the ceremony and after firing a salute of three salvos disposed themselves about the graves of members of the order. Ceremonies began at 12.30 and a sermon was preached by Abbe Philibert Cloutier, of the Fleury Monastery, St. Roch. In the course of his sermon Abbe Cloutier emphasized the need of faith in a future life and the necessity of prayer for the departed.

At St. Sauveur Cemetery a sermon was preached by Mr. R. C. Caput, director of work among the young in the St. Sauveur district. The ceremony was attended by the Salaberry Guards. A large attendance congregated at St. Patrick's Church. Altogether it was estimated that 15,000 people visited the cemeteries of the town during the day.

YOUNG BOY VICTIM OF FATAL RIFLE ACCIDENT. Sweetsburg, Que., Nov. 2.—Fourteen-year-old James Fleury, son of Mr. and Mrs. Lucien Fleury, was the victim of a fatal gun accident here. During the absence of his parents, who were visiting their daughter, Mrs. Lepinay, at East Dunham, the boy discovered a 22 caliber rifle and not thinking it was loaded, he and his younger brother commenced playing with the firearm.

# SCHOONER RACE IS OFF; RENAULT WON IN THE 15th

## SCHOONER RACE HAS BEEN DECLARED UNFINISHED AS BLUENOSE LEFT FOR HOME

### Capt. Walters Of Canadian Defender Fulfilled Threat Not To Again Race Columbia—Capt. Pine Refuses To Go Over Course Alone—Trophy Remains With Trustees.

Halifax, N.S. Nov. 2.—There will be no international schooner championship for 1923. Believing that their vessel fairly won the two races required to secure the fishermen's trophy, the crew of the Lunenburg Bluenose refused to heed the pleas of Premier E. H. Armstrong, of Nova Scotia, Hon. J. J. Kinley, Mayor John Murphy, of Halifax, and others, that they sail a third and deciding race tomorrow, and this afternoon disappeared off the headlands of Halifax harbor on their way home. Captain Ben Pine of the American challenger, Columbia, did not intend to sail tomorrow alone and win the trophy and prize money through the refusal of the Bluenose crew to recognize their technical disqualification on Thursday, and tomorrow the Columbia will leave for Gloucester.

Bluenose, by her refusal went home without the international trophy which was considered as good as hers as the result of the wonderful sailing qualities which the vessel showed on Monday and Thursday in light winds and fishermen's gales and went home without either the long end of the prize money, three thousand dollars, or the short end, two thousand. Columbia will go home with twenty-five hundred dollars, awarded her by the international committee as expense money. The international trophy will remain in the hands of its trustees until it is won in next year's races off Gloucester.

That such situations as arose last year at Gloucester and again this year at Halifax, may be avoided in the future and that the hitherto rather untractable fishermen may be held under rules and regulations, the International Committee today decided that before future races "a responsible representative of each contending vessel must sign an agreement that the captains and crews of contestants will bind themselves to adhere to and comply with the rules and regulations of the race and accept the decision of the respective committees."

Outside of regrets at the ending of the series and excepting the immediate parties to the controversy, the 1923 international races broke up with unusual good feeling predominant.

Hon. W. W. Lufkin, member of the International Race Committee and personal representative of President Coolidge, in a statement tonight said in part:—

"The owners of the Columbia and Captain Ben Pine all desire to register our feeling that the Nova Scotia officials have moved every stone possible to avoid this unfavorable ending.

"I have had a wonderful contest between two of the finest fishing vessels in the entire world, the most wonderful in the history of this great international sport. We hope to see you all at Gloucester next year and shall endeavor not only to partially repay the people of this splendid city for their wonderful hospitality during the past week but also to provide an international fishermen's race over the result of which there can be absolutely no doubt at the conclusion of the contest."

The International Committee met today and received the report of the Sailing Committee, made public last night, which awarded Thursday's race to the Columbia because the Bluenose passed on the landward side of a navigation buoy. After considering the report the committee issued the following statement:—

"The International Committee met this afternoon and the report of the Sailing Committee on the protest of Captain Pine of the Columbia regarding Thursday's race was received.

"The whole matter was reviewed by the International Committee and the following resolution unanimously adopted.

"Resolved that the ruling arrived at by the International Race Committee at Gloucester last year shall be confirmed, namely:—

"That the conduct of each series of the international race shall be under the control of the sailing committee as regards courses and sailing regulations and that any decisions made by them in connection with any race of the series are final.

"The following resolution was also adopted:—

"That if any international race takes place in the future a responsible representative of each contending vessel must sign an agreement that the captains and crews of contestants will bind themselves to adhere to and comply with the rules and regulations of the race and accept the decision of the respective committees."

"The International Fishermen's Race Committee are firmly of the opinion that in view of happenings in connection with the present series, the most stringent rules and regulations covering these international contests are essential and that the same can only be continued on the understanding that the rules are laid down and mutually agreed to by the International Committee, as observed in every respect.

"It was also decided that as the Bluenose had sailed for Lunenburg and Captain Ben Pine of the Columbia had no desire to sail over the course alone for the mere sake of setting the prize money and trophy that the 1923 series be declared unfinished and the trophy remain in the custody of the trustees and that the sum of twenty-five hundred dollars be handed to Captain Pine towards the expenses incurred in coming to Halifax."

"Before leaving Halifax tonight on the U.S.S. Bushnell, I desire on behalf of the American members of the International Race Committee

## ZEV AND MY OWN TO MEET TODAY

### Three Other Starters Entered In Latonia Stakes—Zev Is Favorite.

Cincinnati, Ohio, Nov. 2.—Racing interest began centering on Kentucky tonight for the running tomorrow of the Latonia stakes which will bring the long awaited brush between Zev, conqueror of Papyrus in the international race, and Admiral Cary T. Grayson's sensational three-year-old, regarded as the greatest rival of Harry F. Sinclair's Kentucky Derby winner.

The race, worth \$50,000 to the winner, will offer opportunity for a settlement of the argument that has been raging for weeks concerning the relative merits of Zev and My Own, but whether the argument will be definitely settled was a question tonight as there will be three other starters to be considered—In Memoriam, Rialto and Taylor Hay.

Kentucky, which knows thoroughbreds, figures on an upset in tomorrow's race with In Memoriam, handsome bay son of McGee and Enchantress, picked to do the upsetting.

That Zev will go to the post a favorite around a price of 3 to 5 with odds of 8 to 5 against on My Own, was the guess of turf experts tonight. The price on In Memoriam, it was figured, probably would be about 6 to 1 with 10 to 1 on Rialto and 20 to 1 on Taylor Hay.

The race was entered at the last minute, presumably to assure a field of four, starters in the event of an eleventh hour withdrawal.

## TWO RUGBY GAMES THIS AFTERNOON

### Q.H.S. Meet C.H.S. And Q.S.A.C. Clash With St. Pats. At Belvedere.

Two Rugby contests are on the card for this afternoon and both will be contested on the Belvedere Grounds. The first match will commence at 1:30 o'clock and will bring together the Quebec High School and Commissioners' High School squads, while the other game will have Q. S. A. C. and St. Patrick's A. A. as the contesting teams.

The Q. S. A. C.-St. Pat's contest will serve as a work-out for the "Swimmers" as the Saints are only breaking into the game and as yet are too inexperienced to give the crack local twelve any kind of a stubborn battle. However, the Saints are out to learn and they are more than delighted that the "Swimmers" consented to give them an opportunity of learning some of the fine points of the game.

The Q. S. A. C. will not be at full strength this afternoon as they have dropped three of their star players in Price, Wiggs and Zinck in order to make matters more even. They will also use a number of substitutes during the game.

The other match between Quebec High School and Commissioners' High School will in all probability be more evenly contested than the Q. S. A. C.-St. Pat's struggle as the school teams have already met and played a 7-all draw.

While the C. H. S. have not played any matches since their drawn game on the Battledore Park against the H. S. Q., they have had regular practices and a grind against the second squad under the able coaching of Mr. R. Cream great improvement has been made and the team will go into their contest tomorrow with a greater knowledge of the finer points of the game.

H. S. Q. have also been practicing hard, and had one test of their strength against the St. Pat's A. A. whom they defeated decisively.

The opposing captains will rely on the same teams as opposed each other in the first encounter, with Turner and Home as the opposing quarter-backs, supported by the lines which have done duty without alteration since the beginning of the season. Line-up:

Q. H. S.	C. H. S.
Flying Wing	
C. Bacal	L. McLaren
Left Outside	
C. Kerr	A. Schwartz
Left Middle	
G. Scott	E. Sauve

A. Stephens	Gillis
N. Lawson	Hobbs
	Ramsay

Referee: L. Devine.

Having completed his term of one year, the Prince of Wales has just relinquished the office of Captain of the Royal and Ancient Club, the premier golf organization in the world.

The University of Missouri is the first of the big schools in the Middle West to take up polo as a college sport.

## RENAULT SCORED TECHNICAL KNOCKOUT OVER JOHNSON IN LAST ROUND OF 15 ROUND GO

### Latter's Seconds Tossed Towel Into Ring After Iowan Had Been Floored The Second Time In Final Session—Canadian Absorbed Lot Of Punishment But Gave Back More.

New York, Nov. 2.—Jack Renault, rugged Canadian heavyweight, battered Floyd Johnson, Iowa battler into defeat tonight in the 15th and last round of a furious spectacular fight in Madison Square Garden.

Renault scored a technical knockout when Johnson's seconds tossed a towel into the ring after the Iowan had gone down twice in the final round under the Canadian's battering attack. But Johnson, though helpless and bleeding from gashes about the head was on his feet when the end came, staggering back by instinct to the fray he had lost only after one of the most courageous ring exhibitions ever witnessed in the historic Garden arena.

Young Stripling, Georgia schoolboy boxer who appears to light-heavyweight honors man substitute for Mike McTigue, holder of the world's 175-pound crown, if the latter is unable to go through with his scheduled match with Gene Tunney, United States champion, at Madison Square Garden, December 10. This was announced tonight when Stripling and Tunney were introduced from the ring before the Johnson-Renault match. Stripling recently fought McTigue to a draw in Columbus, Ga.

It was announced that Renault weighed 186½ and Johnson 198.

Johnson rushed Renault at the start and was the aggressor throughout the first round. He punned the Canadian about the head but took a stiff left jolt to the chin. They set a fast pace in the second round, Renault jarring Johnson with his left but got the worst of the exchanges at close quarters.

Partly off balance, Renault went half way through the ropes from a left to the chin in the third but scrambled back without a count, apparently unhurt. Johnson set loose a flurry of blows but they carried little steam and he took a hard right to the head. Renault brought blood from Johnson's nose in the fourth with a straight left but absorbed considerable punishment about the head.

Renault staggered Johnson in the fifth with a left hook and kept a steady stream of blood flowing from the Iowan's nose as they battled at close range. They mixed at a furious pace in the sixth, Johnson sending Renault to the ropes once with a rushing attack. The Canadian tried hard for a right-hand knockout but was wild.

Johnson held Johnson in momentary distress in the seventh with a terrific attack to the head but the Iowan replied and sent Renault partly through the ropes in a mix-up. Both slugged away at close quarters in the eighth, Renault's blows doing the most damage.

Renault had Johnson groggy in the ninth with a series of ripping uppercuts and hooks but the Iowan came back with a rush each time. Johnson came out of the fray badly damaged, however, his left eye and chin being cut, his nose streaming blood and his right eye discolored.

Renault drove Johnson groggy and bleeding about the ring under a merciless drive in the tenth but the Iowan held on gamely through his efforts to fight back were futile. Johnson rallied spectacularly at the start of the eleventh, driving Renault to the ropes with a slashing attack to the head. The Canadian shot his left and right to the head but took a jolting hook to the jaw in return. Johnson snapped Renault's head back with a right to the twelfth but took a solid right to the chin. They were slugging away furiously at close range at the bell sounded.

A left to the head sent Renault to the ropes in the 13th. Both swung wildly and seemed tired by the pace they had set in the preceding rounds. Renault hit Johnson reeling with a terrific bombardment in the fourteenth, the Iowan staggering to his corner, bleeding badly at the bell. He was cheered to the echo for his game exhibition.

Renault rushed Johnson in the last round, trying hard for a knockout with a right uppercut. Johnson barely able to hold himself up, staggered back from a clinch and fell to the floor as he lost his balance. He climbed to his feet and reeled toward Renault, carrying on only by instinct. Renault rushed in, drove a right to the jaw, and sent Johnson flat on his back. All but out, Johnson somehow managed to gain his feet at the count of nine.

Arms flailing at his side he tottered toward the centre of the ring, but his seconds sent a towel hurtling into the ring before Renault could further punish his helpless opponent.

Bill Johnston, diminutive tennis star who faltered badly in the U. S. national singles championship this year, is not "through." This is the opinion of his greatest rival and conqueror, Bill Tilden. "Johnston was merely overtired," says Tilden. "He wasn't in condition to play his real game in the championship. I expect him to come back stronger than ever next year." Johnston's campaign in England and France last summer undoubtedly took something out of him.

**INVESTIGATION AT ST. MALO; SOLUTION OF A MYSTERY.**

The St. Malo Works Enquiry was continued yesterday in camera. At the commencement of the session Mr. Henry, the Government investigator, decided to bar members of the press. In an interview with the Chronicle Mr. Henry stated that the specific purpose of his visit was to investigate certain complaints made by members of the staff to Col. Talbot. Asked if he had knowledge of the complaints he said he was entirely in the dark and that he relied upon the statements made during the investigation to elucidate the mystery.

The mystery, if ever there was one, has been entirely dissipated by Mr. Pierre Beaulé, President of the Quebec Catholic Workers Federation. The complaints apparently referred to the rate of wages received by certain workers and the exact purpose of the investigator in the matter seems somewhat obscure. Mr. Beaulé affirms that skilled tradesmen are receiving only 90 cents an hour where the unions put the rate at 90 cents. Unskilled laborers are receiving 25 cents an hour whereas laborers outside the factory are receiving 35 cents. The Catholic workers claim too that Sunday should be made an obligatory holiday.

A meeting of the local National Hockey League has been called for Monday evening at the Victoria Hotel. All clubs wishing to play in the League this coming winter are requested to have their application in for this assembly.

Great men are not always great men.

**PURCHASES ALL RIGHTS TO MANUFACTURE DIRIGIBLES**

Akron, Ohio, Nov. 2—All patents and rights to manufacture zeppelin dirigibles have been purchased by the Goodyear Tire and Rubber Co. It was officially announced by this company to-night.

The deal includes the right of manufacture on all engines, machinery and auxiliaries of this type of dirigibles.

Plans completed by the German aerial navigators for the establishment of a 22 1-2 day trans-Atlantic air service will be organized as soon as the manufacture of the great air liners get under way, it was stated. Surveyor also have been made for the establishment of a 1-hour New York to Chicago air service.

Information gathered here from various sources indicate that a corps of experienced zeppelin designers and builders will be brought here from the plants to Frederickshaven where the first zeppelin was built about twenty five years ago.

**BURGLARS STOLE RUGS VALUED AT \$18,000**

Montreal, Nov. 2—Burglars last night broke into the store of the Hicks Oriental Rugs Limited, in the west end of this city and stole thirty rugs, valued at \$18,000. The men operated in the early part of the evening when other stores in the vicinity were still open and made away with their plunder in an automobile. The firm is offering a reward of \$1,000 for the recovery of their property.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

**SURPLUS CASH NOT ALLOWED**

Tourists In The Balkan States Only Allowed Carry Enough For Immediate Needs

Athens, Nov. 2—Currency is so distressingly scarce in all the Balkan states, that not a single government will permit a traveler, no matter what his nationality, to carry away with him more than the government concerned thinks he needs to get him to his next stopping place. In most cases this is 1,000 units of whatever the currency may be; anything over this sum is confiscated. This means the owner of the money will never see it again, and the procedure is legal, for the law making it so is down clearly in the statutes of virtually every country of southeastern Europe. The despoiled individual has no recourse. Many naturalized Americans, natives originally of some Balkan country, have come home since the end of the war bringing with them wealth in dollars. Now they are beginning to get enough of the old country, and again turn their faces to the new world. Their dollars meantime have been exchanged into drachmas, or dinars, or lei or lev, and they want to carry away what is left. But the government says no; only 1,000; the rest stays here.

Thereupon the naturalized citizen turns to the nearest American diplomatic representative and claims protection. The situation presents so many difficulties that the American ministers to the Balkan states have met in conference to discuss what best to do. They are warning all citizens, and particularly naturalized, not to come over here with more money than they actually need.

**AUSTRALIAN LABOR MOVEMENT STIRRED BY REPORT OF FRAUD**

Sydney, N.S.W., Nov. 2—A political bombshell crashed into the midst of the Labor movement in this state with the announcement of recommendations of the executive, which have been adopted, as the result of the discovery of the use of alleged crooked ballot boxes in certain elections at the headquarters of the party.

It was found that a number of the boxes had secret panels, enabling manipulation of the ballots. The affair caused a sensation on the eve of the annual conference of the party and a special committee, with A. C. Willis, the new president, as chairman, was appointed to ascertain the facts and make recommendations. Its decisions touched some of the most prominent figures in the party and their expulsion, four without limitation of time, and two others for two years each, has resulted.

Leave unsaid the wrong thing at the tempting moment.

Life, Love and Luxury on the Wheel of Fate

The Glorious Glitter of an Emperor's Court

A magnificent powerful picturization of the "Merry-Go-Round" of life whirling and spinning to the tune of pleasure—a mad whirl of love—life and luxury in the gayest, most fascinating city on the globe. Starring the screen's new sensational beauty

Mary Philbin

and the screen's handsomest lover

Norman Kerry

Supported by a Cast of Rare Brilliance.

The story of a love that outlived the command of an emperor and the fate of nations.

One of the Big Pictures of the Year.

Direct from its Sensational Broadway, New York run.

Admission: Matinee 35c. Evening 50c

**DELEGATION WAITED ON MINISTER OF CUSTOMS**

Vancouver Business Men Requested Establishment of Customs Office At New York

Vancouver, Nov. 2—This afternoon a delegation from the Board of Trade waited on the Hon. Jacques Bureau, Minister of Customs, and laid before him the viewpoint of the business men at this port in their demand for the establishment of a customs office at the port of New York.

The history of this application was reviewed from the time of its inception many years ago. Requests made to former Governments and previous Ministers of Customs were recalled with the data now available on the relative cost of transportation via the Panama Canal and by the all-rail haul from the Atlantic to the Pacific.

True hope is swift and flies with swallow's wings. Kings it makes gods and meaner creatures kings.—Shakespeare.

**NEW EXCURSION RATES FOR POINTS IN WEST**

Special Fares Will Apply Early Next Year In Western Prairies

Montreal, Nov. 2—The Canadian Pacific Railway announces that during December, January and February next, winter excursion fares will be put in force from Manitoba (Winnipeg and West), Saskatchewan and Alberta to Vancouver, Victoria and New Westminster. These will be good to return until 15 April, 1924, and it is expected that a good many prairie dwellers will spend a good part of the intervening months in the enjoyment of the milder coast climate, where all the year-round golf and other outdoor amusements will be in full swing.

Similar arrangements will be in force from December 1 to January 5 on passenger traffic originating in Alberta and Saskatchewan for the following United States points: Cedar Rapids, Iowa, Chicago, Council Bluffs, Des Moines, Dubuque,

Iowa, Fort Dodge, Iowa, Kansas City, Marshalltown, Iowa, Milwaukee, Omaha, St. Louis, Sioux City, Waterloo, Iowa; Watertown, S.D. Return tickets under the arrangements are good three months from date of sale.

The Canadian Pacific also offers a fare of one and one-third for the round trip for passengers from Winnipeg and West, Alberta and Saskatchewan to Ontario, Quebec, New Brunswick, Nova Scotia, and Prince Edward Island and to Portland, Me. The lower fares to the latter point being for overseas passengers only. These will be issued from December to January 5 and are good for return up to three months from date of sale. Westerners intending to spend part of the winter in the old land may avail themselves of the fare and one third for the round trip to St. John and Halifax, and following up on the excellent harvest it is expected that travel in that connection will this year be heavy.

**INDIAN SUMMER NOT FIXED SEASON. DECLARE OFFICIALS**

Washington, Nov. 2—"Indian Summer" is not a definitely fixed season in the calendar, officials of

the Weather Bureau declare, but varies in date and duration and is not, strictly speaking, a season at all but merely a type of mild, calm, hazy weather likely to prevail at any time in the autumn or early winter. The popular belief that "Indian Summer" is a period occurring more or less regularly every autumn is not based on accurate meteorological observations.

The term is applied in this country to a period of mild fall weather following a spell of unseasonably cold weather known as "Squaw Winter." Thoreau, in notes on weather conditions at Concord, Mass., from 1851 to 1860, records the occurrence of "Indian Summer" weather on dates ranging from September 27 to December 13. In different parts of Europe this mild weather is known as "St. Martin's Summer," "St. Luke's Summer," or "St. Michael's Summer."

# Police Hold Line; Busmen Taught Courtesy; Anti-flogging Parade

Well, look who's here! "Steve" Donoghue, champion jockey of England is seen in uniform leaving the church after Lady Evelyn Herbert's wedding. He has ridden for the family many times

Mrs. Frank B. Kellogg, wife of the former senator of Minnesota, will accompany her husband to England on his appointment as American ambassador to the Court of St. James

There are many fishing lakes in the picturesque Caribou district of British Columbia where the waters not only abound in game at this time of the year, but also the shores, and where one can get a thrill of a lifetime

Great credit is given to Captain Angus Walter, skipper of the Canadian trophy holder, Bluenose, in the manner in which he handled his schooner to get first position crossing the line against the American challenger, Columbia

Brefni Beggs, Toronto boy, who won first place among 10,000 competitors in a recent international contest held in New York to pick out the best amateur boy actor, shown with Bertram Forsythe of the Hart House theatre, who trained him

The Prince Regent and the Empress of Japan pay frequent visits to the overcrowded hospitals in the quake and fire ravaged districts of Tokio. Photograph shows the empress visiting one of the few hospitals left standing

A big demonstration was recently held in Dublin against the flogging bill, the Free State executions and the detention of prisoners in jail. Photograph shows a street representation of a prisoner being flogged

After the gale that swept the Atlantic coast had died down, the Harpoon, W. W. Nutting's yacht, lay at the sea wall at Fort Tatten, badly damaged. The masts were entangled with wires

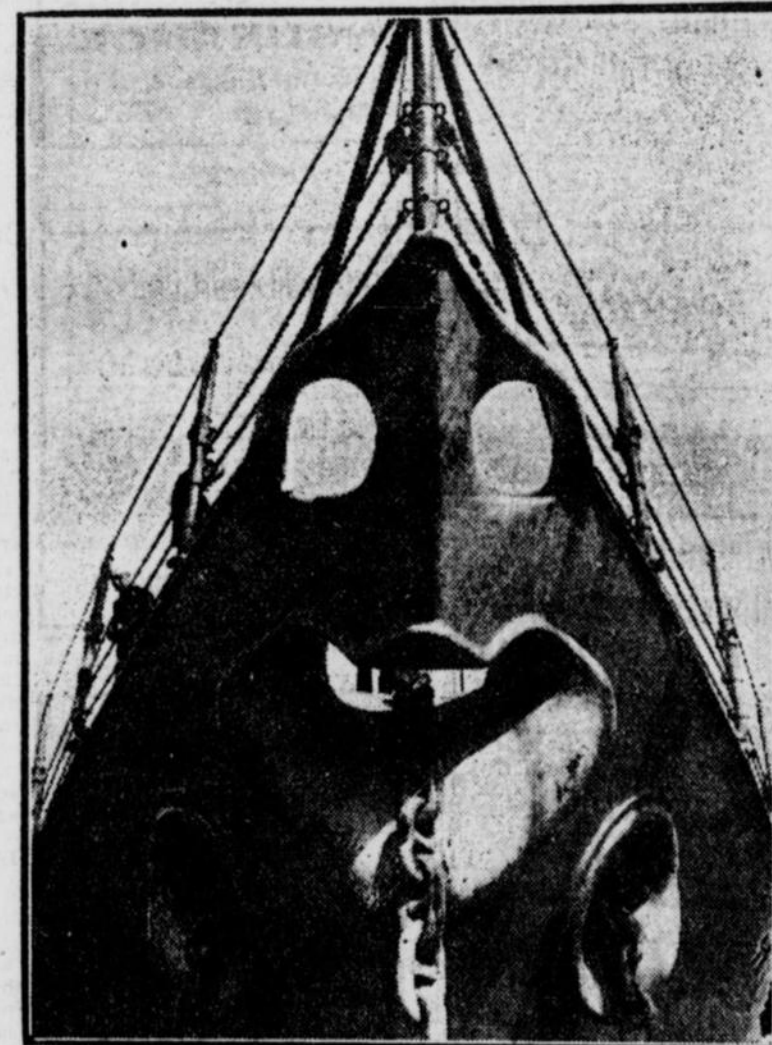

Don Vicente Blasco Ibanez, Spain's most famous author and dramatist, has arrived on this continent on a world tour. The Four Horsemen of the Apocalypse, Blood and Sand, and Enemies of Women will be remembered as some of his works

First actress to sign a contract containing a morality clause is the distinction claimed by Marion Aye, who is appearing in a new movie production

A twill two-piece model of slim and simple lines with cuffs and collar of silk broadcloth makes an effective costume for fall wear. A felt hat completes the outfit

With what look like eyes, the bow of this mammoth battleship vividly resembles a monster of the sea. A view is seen of the U.S.S. Colorado, the latest and most modern of Uncle Sam's navy

William Steinmetz, last year international outdoor title holder and Harry Kaskey, national outdoor champion of the United States, have been selected as part of a skating team which will represent America in the Olympic games

Captain Rheba Crawford, Salvation Army lassie, who created quite a sensation on Broadway recently when her meeting was broken up by the police, is now resting in Florida, preparatory to another campaign

Like an ostrich, the Almiqui, or Agouti, an insect eater of Haiti, hides its head when in danger of being caught. It spends its days in retirement and comes out during the night to feed

It took a policeman to hold the line against a band of German peasants, who are seen anxiously waiting for the farmers to finish the harvest that they may pick up what is left in the fields

Busmen are officially taught politeness at the training school at Chelsea, England. Mr. George Savidge, known as the courtesy lecturer, has taught over 20,000 London bus conductors the value of good manners

### STE. CROIX ACADEMY DESTROYED BY FIRE

Catholic Institution in Montreal Was Prey of Flames Yesterday Afternoon  
Montreal, Nov. 2.—The Ste. Croix Academy, a Catholic school accommodating 539 scholars, located at 730 Debiens court street, Ville Emard, in the west end of this city, was practically destroyed by a fire which broke out late this afternoon and was caused by what is thought to have been a short circuit. Property damage was estimated tonight by H. A. Rippe, Registrar of the Catholic School Commission, of Montreal, at \$75,000, fully covered by insurance. Today being All Saints' Day, the school was not in use.  
The Ste. Croix Academy was built in 1908 at a cost of \$125,000. The scholars are all boys between the ages of 6 and 16.

### CAUSE OF BACKACHES

Every muscle in the body needs a supply of rich, red blood in proportion to the work it does. The muscles of the back are under a heavy strain and have but little rest. When the blood is thin they lack nourishment and rebel. The result is a sensation of pain in these muscles.  
Many people are frightened into believing that backaches are due to kidney trouble but the best medical authorities agree that backache, in fact not more than one backache in a hundred has anything to do with the kidneys. The whole trouble lies to thin or impure blood, and those who are troubled with pains in the back or loins, either frequent or occasional, should look to the condition of the blood. It will be found in most cases that Dr. Williams' Pink Pills by building up the blood and feeding the starved nerves and muscles will banish the pains and make you feel better in every other way. How much better it is to try Dr. Williams' Pink Pills for your blood than to give way to unreasonable alarm about your kidneys. If you really suspect your kidneys any doctor can make a test in ten minutes, that will set your fears at rest, or tell you the worst.  
All dealers in medicine sell Dr. Williams' Pink Pills, or you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### LEAGUE ASKS ALL NATIONS TO RECOGNIZE SCIENTISTS

Geneva, Nov. 2.—That scientists who make discoveries of benefit to humanity should no longer be robbed of the material fruits of their labor, was the declaration of the League of Nations commission on social problems in a report given to the General Assembly of the League recently held at Geneva.  
A resolution was adopted urging all countries to protect the property rights of the servants whose discoveries or inventions have often brought fortunes to promoters but only poverty to scientists.

### TONNAGE BELOW PRE-WAR RECORD

Shipbuilding Decreased in Gt. Britain and Ireland During Last Few Months  
London, Nov. 2.—Shipbuilding in Great Britain and Ireland again shows a decrease for the quarter ended September 30, the tonnage under construction being 1,271,195 tons or 87,000 tons less than in the previous quarter, according to Lloyd's Register of Shipbuilding Returns. Making allowance for work which has been suspended for some time, amounting to 242,000 tons, the tonnage actually under construction is only 1,029,000 tons, the lowest recorded in 14 years. Tonnage launched during the quarter was 66,474 compared with 239,373 in the previous quarter, and work commenced is given as 29 vessels of 111,560 tons against 77 vessels of 241,283 tons in the June quarter.  
Merchant tonnage building abroad is given as 1,108,502 tons, of which Germany and Danzig are building 345,985 tons, United States 99,382, France 142,460, Holland 104,491 and Italy 145,423 tons.  
The total world tonnage actually under construction was 2,052,900 tons at the end of September which is 1,394,000 tons below the highest pre-war record of June, 1913.  
There are 28 steamers and motor vessels with a total tonnage of 178,590 tons being constructed for the carrying of oil in bulk. The continued development of internal combustion engines is shown by the fact that 24 1-4 per cent of the tonnage under construction in the world will be fitted with this system of propulsion.

### MIDDLE-AGED GOLFERS

SCORN DOCTOR'S WARNING  
Cleveland, Nov. 2.—The warning of London physicians that persons 50 years old or more are endangering their lives by playing golf is scoffed at by Cleveland's "Indian Scouts" foursome, believed to be one of the oldest active quartets in the world, who may be seen regularly on the golf links here. Their combined age is 227 years. None of them started playing golf until after the half century mark.  
The foursome is composed of Charles W. Burrows, 74; G. T. McIntosh, 75; J. W. S. Webb, 69, and A. W. Neale, 59. All are prominent business men here and may be seen on the links "every Saturday and a couple or three times a week," as one of them put it.

### When they are "on their game"

When they are "on their game" the foursome play in the low eighties or nineties. They have been playing together for about 12 years.  
"I don't know of any pastime more pleasant, more healthful and more invigorating for a man before the ages of 50 and 80," Mr. Burrows said. "Of course a man who allows his muscles to become soft and flabby from lack of exercise, smoking, overeating and drinking and then goes out on the course and overtaxes his strength is in danger, but moderate golf means health for a man past 50 who keeps himself in condition."  
"Walking around the course by yourself or even with three friends it would be too monotonous. Playing and a couple or three times a week," as one of them put it. When they are "on their game" the foursome play in the low eighties or nineties. They have been playing together for about 12 years.  
"I don't know of any pastime more pleasant, more healthful and more invigorating for a man before the ages of 50 and 80," Mr. Burrows said. "Of course a man who allows his muscles to become soft and flabby from lack of exercise, smoking, overeating and drinking and then goes out on the course and overtaxes his strength is in danger, but moderate golf means health for a man past 50 who keeps himself in condition."  
"Walking around the course by yourself or even with three friends it would be too monotonous. Playing and a couple or three times a week," as one of them put it.

# QUITE PAINLESS

by the use of  
**"ACAINE"**

This process, "Unique in the World," for the extraction of dental nerves, without the slightest pain, in less than 10 minutes, has entirely revolutionized the science of dentistry.  
The marvellous method discovered by Dr. J. N. P. Fournier, of St. Hyacinthe, was adopted by Surgeon-Dentists Houle & La Forest more than two years ago and has been employed for the last two years in our Quebec offices.

With the use of "Acaine" you avoid: 1. ALL SUFFERING: 2. LOSS OF VALUABLE TIME: required for endless treatment, since by this marvellous process we can: 1. EXTRACT DENTAL NERVES and proceed immediately with the filling operations: 2. EXTRACT TEETH, AND THAT, WITHOUT THE SLIGHTEST PAIN.  
After fifteen years trial and test, "Acaine" has always given MOST PERFECT results.

If you are solicitous about your health let us take care of your dental work.

Sets of teeth, bridge work, crowns, etc. made by experts and completed in ONE AND THE SAME DAY.  
ECONOMY OF TIME—ABSENCE OF PAIN—NOT THE SLIGHTEST DANGER. The cost of the extraction of teeth is deducted from the price of the new sets.

### WOMAN'S HEALTH RESTORED

The Claims Lydia E. Pinkham's Vegetable Compound Did It After Everything Else Failed

Milwaukee, Wis.—"I feel that I ought to let you know about my case. I was ailing and could barely do my housework and washing I was so run-down, just from having one child. I took a lot of medicines and had doctors. Then I gave them all up and took Lydia E. Pinkham's Vegetable Compound and I feel wonderful and I do every thing that comes along, and we all take your medicine as a tonic when we don't feel just so. I am thankful for what the Vegetable Compound has done for my health and for my family."

Letters like these testify to the value of the Vegetable Compound. These women speak from the fullness of their hearts. They describe as correctly as they can their conditions: First, those symptoms that affected them most conspicuously; and later the disappearance of those symptoms. They are sincere expressions of gratitude. For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been so praised by women.

### TO BE USED FOR PEACE PURPOSES

Twenty To Thirty Of Former War Training Camps Are Entirely Remodeled

Chicago, Nov. 2—A diversified story of the peace time fortunes of from 20 to 30 major army training camps in 11 central states, revealing the wholesale collapse of these centers which a few years back teemed with the activity of hundreds of thousands of men—a story not without its humor and pathos—is shown in reports from headquarters of various army corps areas of the mid-west.

While no fewer than eight of these vast war schools have been permitted to lapse wholly from the part they were built to play, others have fallen back merely to their former status as army posts or national guard cantonments and a third, somewhat smaller group, indicate by its present activities that military affairs have not and are not intended to slip back to the level of pre-war days.

Of the 16 camps in Texas, only seven have been definitely closed. Tallaheroe Field has become a vast farm and tenants reap the benefits of water, light, sewer and road systems built by soldiers. Camp Bowie, at Fort Worth, has been given over to home-seekers, and at Camp Logan, near Houston, \$21,417 was realized for material and equipment which originally cost \$1,000,000.

Camp Grant, near Rockford, Ill., built in 1917 to accommodate 45,000 men, has been wholly abandoned, with the exception of a small portion now being used to train Illinois guardsmen. The Great Lakes training station, at Great Lakes, Ill., is today headquarters of the Ninth Naval District and counts 850 officers and 7,500 men. During the war hundreds of thousands of men were located there. Many of the war time buildings have been razed. Chanute Field, near Rantoul, is continuing its activity as an air mechanics' school for the entire country, and Scott Field, near Belleville, is being used today as a balloon school.

Camp Custer, near Battle Creek, Mich., now exists only as a summer

### "DANDERINE"

Grows Thick, Heavy Hair

35-cent Bottle Removes Dandruff, Stops Falling Hair

Girls! A gleamy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalps with dependable "Danderine."

Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating tonic—not sticky or greasy! Any drug-store.

tent camp for national guardsmen, while other war camps in Michigan continue to operate under reduced conditions. Camp Zachary Taylor, Louisville, Ky., which cost \$3,575,000, is now being used as a suburban village, and Camp Knox is serving as an artillery range. Camp Sherman, at Chillicothe, Ohio, is today the site of a veterans' vocational school. Retention of water filtration, sewage disposal and electric sub-station buildings for use in the event of another mobilization are envisaged in present plans which contemplate the dismantling of all other equipment of Camp Funston, Kan. Of the total original cost of this camp, estimated at \$15,000,000, auction sales of materials during the last two years netted about \$750,000.

### GOLD AFFECTS HIGH BUILDINGS

Steel Frames Of Skyscrapers Contract In Winter And Height Is Reduced

New York, Nov. 2—Towering steel structures in New York will be approximately one and a half inches shorter this winter than they were in August. The shrinkage of the skyscrapers will not be noticeable to Gothamites, nor to the residents of other cities where the change already is taking place, but to the structural and technical engineers of steel the fact will be known in figures.

A study made by the building planning service of the National Association of Building Owners and Managers, covering thermal effects upon buildings, made public here, shows that the Woolworth building, the Metropolitan tower and the Equitable building, among New York's highest structures, will have been shortened from one to two tenths to one and a half inches.

The figures were arrived at by calculating the expansion and contraction of steel according to the formula familiar in every physics text-book. The difference in temperature is only .00000677 inches, but when this figure is multiplied by 919 inches in the Woolworth building (not counting the basement and sub-basements) it is shown that each degree change makes a difference of .061 inches in the structure. With the Metropolitan building's 840 inches, each degree change makes a difference of .058 inches and with the 1200 inches in the Equitable building (counting from the sub-basements to the roof) the difference for each degree of change is .0487 inches.

According to the estimate of Clarence T. Coley, operating manager of the Equitable building and former president of the National Association of Building Owners and Managers, the probable limit of temperature change is about 25 degrees.

"Because of the expanding and contracting of the steel in high buildings it is important that the

### IF CONSTIPATED SICK, BILIOUS

Harmless Laxative for the Liver and Bowels

Feel fine! No griping or inconvenience follows a gentle liver and bowel cleansing with "Cascarabs." Sick Headache, Biliousness, Gases, Indigestion (and all such distress gone by morning. For Men, Women and Children—10c boxes, also 25 and 50c sizes, any drug store.

mass of the building be kept as near a uniform temperature as possible, to prevent the steel from contracting and expanding within minimum limits, said Mr. Coley. "The limits are probably 85 degrees on the hottest summer day and 45 degrees on a cold winter's day, where the building is adequately heated."

"Should the buildings be allowed to cool off on Sundays and holidays to a temperature of 40 or 50 degrees it can be seen that the temperature would be much more marked and the bulging off of plaster would be excessive. Generally it can be assumed that the temperature variation in the buildings is about 25 degrees. In a building such as the Equitable which is 600 feet from the roof to the sub-basement, the expansion between 60 and 85 degrees would be 1.2 inches, which variation must be followed by the brick work, plaster, vertice piping, elevator guide rails, etc."

If the buildings should ever be allowed to cool to the freezing point the contraction of the Woolworth building would be 3.2 inches; the Metropolitan building would shorten three inches and the Equitable building would be 2.6 inches shorter than the normal height in mid-summer, the statistics reveal.

### TO VERIFY RECORD

MADE BY LECOINTE

Paris, Nov. 2—The barographs used by Sadi Lecoq, French ace, in his last altitude flight, made yesterday, have been subjected to verification tests in the laboratory of the Arts and Crafts College. The instruments, placed in the vacuum chamber gave a reading of 36,564.88 feet which will be submitted to the Aero Club for official acceptance as a world's record. The former record, also made by the French aviator was 35,175.88 feet.

### TO SUCCEED IN BUSINESS LIFE

Qualities Required By Young Boys And Girls According To Leading Business Men

Chicago, Nov. 2—Honesty, integrity and faithfulness, character, love of employer, ambition, personal neatness and unlimited cooperation, are the chief qualities boys and girls should cultivate in school in order to become successfully fit for the business world, according to expressions of more than a score of Chicago's biggest business men and employers who were questioned on the subject by the Association of Commerce. They almost all said that a high school education is sufficient to the attainment of the highest success, "provided the study in school is applied correctly to the purpose of the future."

Extracts from some of the answers follow: "The fundamental of a successful business life should not be measured in dollars and cents, but in achievement," said J. E. Gorman, president of the Chicago, Rock Island and Pacific railroad. "Honesty, loyalty and ambition may be stated as the basic principles. Personality sometimes goes a long way, but personality without the requisite knowledge does not carry a young man to that height that he would attain by a complete mastery of the subject in hand."

"Cultivate and form the habit of trying to see the best side of your associates and fellow workers; avoid and suppress the habit of knocking and disparaging others; cultivate neatness, tidiness and cheerfulness, courtesy and respect for those in authority," says W. W. K. Sparrow, vice-president, Chicago, Milwaukee and St. Paul railroad.

"Take advantage of each opportunity that presents itself daily in your student associations; hold on to every problem until you get the solution; make the most of the opportunity and you cannot fail to find a measure of success and satisfaction, limited only by the amount of intelligent effort which you put into your work," writes Albert H. Dyon, industrial relations branch, Western Electric Company.

"The gate of opportunity is wide open to every young person who is in real earnest and is in the line of work most interesting to him; executives are in constant search for steady-going young people with ideas and ability to demonstrate their value," Elbert G. Drew, secretary, Illinois Bell Telephone Company.

"High school training should give a discipline in orderly mental habits, in accuracy, dependability and a general attitude of alertness and eagerness to grow. Business is looking for workers with just such qualifications. No amount of schooling can take the place of fundamental character and willingness to work up from the bottom,

### Children Cry for Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Wm. C. Fletcher* Proven directions on each package. Physicians everywhere recommend it.

but when combined these qualifications make it possible for the worthy high school graduate to go far in business," says John G. Shedd, chairman of the board, Marshall Field & Company. "Choose a task that you can put your best efforts into and start without delay; what counts most is the way you go about doing whatever you take up; getting on in business is much like climbing a rope hand over hand," Lucius Teter, president, Chicago Trust Company. "Pay strict attention to those things for which you attend school, learn as much as possible; do not disparage the school with which you are connected. Give the best you have and show loyalty. Seek to develop, besides excellence in studies, something which will train your body and afford you pleasure," Belvin T. Traylor, president, First Trust & Saving Bank.

### KING OF SWEDEN WILL BE PRESENT AT WEDDING

Was Met in London By King George And Other Distinguished Personages

London, Nov. 2—King Gustav of Sweden, accompanied by his second son, Prince William, and his grandson, Prince Gustav, arrived here today for the wedding on Saturday of the Swedish Crown Prince Gustav Adolph, to Lady Louise Mount Batten, cousin of King George. The Royal party was met at the station by King George and his third son, Prince Henry; the Swedish Crown Prince, his fiancée and other distinguished personages. After general greetings, the two Kings departed for Buckingham Palace followed by the Princes and their entourage.

LEGAL NOTICES. Canada, Province of Quebec, District of Quebec. In the Superior Court. No. 4611. ### A CORNER LOT HOME

DESIGNED BY W. W. PURDY

This home, with its tan colored plaster walls, light brown brick trim, and red stained roof, presents a very harmonious color scheme that is very effective.

Entrance is gained from the corner, through a vestibule into a rather narrow hall, which with its wide pedestal opening into the living room, literally makes of this, one grand large room. French doors open into the dining room, where a built-in buffet and china cupboard occupies the entire wall of one side.

The rear entrance is through an entry off of which opens a first floor toilet, which is very convenient where there are children in the house.

The sun room is on the corner, across the hall from the living room.

On the second floor are four large bed rooms, with exceptionally large closets, the front bed room having two.

French doors leads from the rear bed room onto a balcony which is over the first story porch and entry, an ideal place for airing bedding.

Attention is called to the seat on the stair landing, which with high casements over, is very effective from the living room below. A stairway over the main stairs leads to a good attic, where a maid's room could be finished off if desired. The dimensions are 30 x 38 over all.

The finish is white quartered sawed oak, with floors of the same for the first floor. Second story in pine ivory enameled with birch doors, stained mahogany.

With complete basement it is estimated that this home can be built, exclusive of heating and plumbing for from \$9,000 to \$11,000.

# LEADERS REACH NEW HIGH LEVEL---MONTREAL DULL

## BEAR TRADERS CONTINUED TO PUT OUT NEW SHORTS BUT HAD LITTLE SUCCESS

Their Campaign On New York Stock Exchange Was Not A Profitable One Except As Regards Some Issues—Prices Fluctuated Irregularly.

New York, Nov. 2.—Stock prices fluctuated irregularly during the greater part of today's session but a fresh outburst of buying in the later dealings sent most of the leaders to new high levels on the movement. Sales exceeded one million shares for the third consecutive day.

Constructive forces in the stock market found considerable encouragement in a series of favorable trade developments during the day. These included the declaration of a quarterly dividend of \$1.25 each on Manati sugar, payments on which had been suspended since June 1921, the resumption of dividends on Loew's Inc. announcement of the establishment of new high production records for all time in October by the Carnegie Steel Co. and the Chevrolet Motor Co.

Bear traders continued to put out new short lines during the day but met with little success in their campaign for lower prices except in some of the oil, coal and copper company shares.

Texas Company dropped to 34 5/8, another new low for the year. The market displayed its maximum strength in the final hour when Baldwin was pushed up to 133; United States Steel touched 92 7/8 and Studebaker again crossed par.

Baldwin and Steel closed near the top prices of the year. Ralls were in good demand during most of the session with Chesapeake and Ohio again the strong feature, that stock touching 75 1/8. Erie issues were again heavily bought but some of the other hard coalers, notably Lackawanna and Delaware and Hudson lost ground on profit taking.

Operators on the long side of the market continued to pick out new leaders, General Electric being one of the conspicuous strong spots today with a gain of 1 1/4 points. Heavy short covering in the Pan-American issues sent the B. stock soaring 3 1/2 points to 57 while Coaden preferred closed nearly three points higher on the declaration of the regular dividend previously rumored to be in danger.

The threatened refusal of the United States to enter into a reparations conference with the limitations imposed by France, combined with the talk of a general election in England to be fought over fiscal policies, resulted in a break of two cents in demand sterling, which established another new low record for the year at 34.45 3/4, rallying slightly later. Other European rates yielded in sympathy French francs dropping nearly ten points to 8.76 1/4 cents.

Call money opened at 4 3/4 per cent and then advanced to 5. The time money market was dull with brokers bidding 3 3/4 per cent for the shorter maturities and bankers asking five, most of the business being done at the higher figure.

Total stock sales 1,022,000 shares.

Twenty Industrials averaged \$8.91; net gain .50. High 1923, 106.38; low 85.76.

Twenty railroads averaged \$2.66; net loss .05. High 1923, 90.51; low 79.53.

**NEW YORK BONDS**

New York, Nov. 2.—The tone of today's bond market continued good, although a majority of the American Telephone and Telegraph Company and subsidiaries' issues sold lower on announcement of a \$100,000,000 bond issue to be floated next week by the Parent Company.

The demand for secondary railroad mortgages again was the chief feature of the market.

The late afternoon announcement of four dividends of \$1.25 each by the Manati Sugar Common Stock, caused the Manati 7 1/2s to move up a point. After several days of dullness traders directed more attention to the foreign group, several French issues displaying considerable strength and the Belgian 7 1/2s and 8 1/2s, announcing more than a point each. United States Government bonds fell off slightly in less active trading.

Public offering of the \$9,000,000 province of Alberta, Canada, issue of 5 1/2 per cent bonds at par next Monday was announced.

Worry is interest paid on trouble before it becomes due.

**BARRY & McMANAMY**

## Daily Gossip On Leading Stocks

Advices from New York city state that no further developments have been recorded in connection with newspaper prices. American manufacturers, in at least some cases, are going ahead and contracting with publishers for next year's deliveries of standard news at current quotations, and it would appear as if no change in prices is contemplated for 1924.

There is every reason to believe that manufacturers could increase prices a quarter of a cent per pound, and perhaps more, if it is said, without disturbing the market in the least. The demand for newspaper is so voluminous and the need of publishers so pressing that the additional quarter of a cent per pound would be paid without objection, or with very little of it, at any rate. Newspaper publishers are certainly in a prosperous condition today—if they are not they never will be, with the volume of advertising they are printing—and their principal problem is in filling their wants with paper, not what they have to pay for newspaper. However, it is the desire and purpose of manufacturers to keep prices of paper stable, and the probabilities appear that no alteration in newspaper quotations will be made for the new year.

Financial Federation of Charities has reached 39.6 of objective.

Premier Ferguson to make demand on Federal Government that Ontario be given more river power, facing power famine.

France accedes to request that allies nominate members.

Poincare opposes presence of neutrals on committee.

French Premier will reply to British objections to proclamation of Republic in the Rhineland.

Socialists want immediate action against Bavaria.

Mussolini his hard at Wilson, disgusted by "overseas prophet's" disquieting points.

General strike started by 11,000 Pennsylvania coal men.

The Portland Canal News, referring to work on the Indian Mine, says in part: "Possibly one of the most important strikes ever made in the camp is reported from No. 1 tunnel of the Indian Mine, which is now in a distance of 810 feet, opening up a second, and still more important lense of ore at a vertical depth of 260 feet."

It has been known for some time past that investors were steadily buying "Common" to put away in strong boxes. From usually well-informed circles, Financial Services, Limited, learns that the floating supply is now very small, and buyers are compelled to bid the stock up before filling their orders.

On a turnover of 811 shares the stock advanced to 88 1/4 where the yield is 6.59 per cent. If this company can pay their bond interest, preferred and common dividends working at 40 per cent of capacity in lean years, what can they do when the demand becomes more brisk? The question being asked on the "Street" today.

All through the dull period Common gave a very good account of itself and some brokers anticipate that the dividend may be increased in the near future. We are of the opinion, however, that such a step will not be taken for some time to come.

President Wood of American Woolen says:—

"At risk of being accused of leasing too frequent interviews concerning American Woolen but with ideas of maintaining a 3,000 stockholders of company, approximately half of which are common stockholders, with real state of affairs, I can state condition of Company is in every respect highly satisfactory.

"Our sales this half year have been above normal and despite curtailment elsewhere in industry woolen is today operating 83 per cent of capacity which is far above average for this time of year. Entire dividends for common stock have already been earned this year. Company's finances are in splendid condition."

Logan & Bryan wire:—

"President Vanclanin of Baldwin Locomotive says:—October 27th made largest shipment of any month this year, a total of \$10,350,000 against \$8,500,000 in September. November shipments will be fully as great. The year will be in excess of \$100,000,000. Still running 100 per cent capacity. There will be considerable increase first three months of next year. There is large amount of business pending."

In connection with weakness of Texas Company, which sold down to 37 1/2, a new low, Jenks, Wynne & Company have received a wire to the effect that weakness "is accompanied by talk of reduction in dividend or of raising money through issuance of new securities. In last two years Texas Company earned an aggregate of \$5.45 a share and paid out total of \$6 in dividends. Company has been paying \$2 a year on its capital stock, of which there are 6,578,000 shares outstanding, annual dividend thus being \$19,734,000. Current earnings are unsatisfactory in line with other oil companies."

Rumors to the effect that various merger schemes were under consideration and that the old Schumacher MIM might be acquired by purchaser lease was given official confirmation by President of Goldale Mines, Limited, at annual meeting held in Toronto yesterday. Old board of directors was re-elected and various reports were unanimously adopted. J. Y. Murdoch was again appointed President, R. B. Lester, Vice-President and A. R. Britton, Secretary-Treasurer.

**MONTREAL BONDS**

Montreal, Nov. 2.—Trading in listed bonds on the local stock exchange today was less active than yesterday and a firm to steady prevailed. Total sales \$19,700,000.

## NATIONAL BREWERIES SAVED SESSION FROM BEING AN EXCEEDINGLY QUIET ONE

Trend Of Montreal Market Was Much Less Definite Than On Previous Days This Week—Breweries Touched New High Mark—And Led Exchange.

Montreal, Nov. 2.—Trading in listed shares on the local stock exchange today was enlivened by a boiling market in the one-time popular leader, National Breweries which furnished about half the turnover and saved the session from being an exceedingly dull one. Although there were several strong issues together with Breweries the trend was much less definite than on previous days this week.

Thirty-nine issues appeared on the Board of which seven scored net gains; eight suffered losses; five were unchanged and nineteen came out in broken lots only.

Breweries, beside leading in activity was one of the strong spots being up 1 5/8 points at 55 after touching the new high of 55 1/8. Power was the second in activity advancing a point to 129, ex-dividend. Steel of Canada came third, being up 1 3/8 at 79 1/2.

Dominion Glass was the strong feature with a gain of 3 points at 96 3/4, while Lyall was the weak spot being off 10 1/2 points to a new low of 10.

Total sales 6,423.

## New System of Fat Reduction

Here's a new way for all fat people to laugh together at that old bugaboo—Obesity. The saying that "there is nothing new under the sun" does not now apply to fat people any more. Here is something new for them—a new sensation—a new pleasure, a new and graceful figure, easily, and without any more dieting. Fat people who have heard of the Marmola Prescription, a harmless, non-toxic, and fat-reducing element perfected by one of the foremost physicians. Now from the same high authority, there comes another idea—the idea of condensing these same, pure, harmless ingredients into a pleasant little tablet. Then after eating and at bedtime, they help the stomach to dispose of all the fatty foods converting them into coal, harmless flesh, muscle and energy without dieting or exercise. Marmola Prescription Tablets regulate the entire system—do for you what regular dieting and self-denial can not do, and the fat once routed is gone for good. You can prove all this at a trifling cost. Marmola Prescription Tablets are sold by all drug stores or sent postpaid by the Marmola Company, 4612 Woodward Avenue, Detroit, Mich. One case—sufficient to bring results—is but one dollar.

The man who does not climb slips back.

To the—

## Holder of Victory Bonds

Due November 1st, 1923

Approximately \$100,000,000 will be paid in cash to holders of Victory Bonds due November 1st. The average payment will be close to \$1,000. The payments will be made to about one hundred thousand persons, representing practically every community throughout the Dominion.

If immediately invested the interest will amount in one year to more than \$5,000,000. Canadians will be that much better off by reason of prompt reinvestment. Inasmuch as our national prosperity depends on the thrift of each individual, it is now more than ever vitally important to the Dominion and to the individual that every dollar be kept at work.

For the reinvestment of such funds there is no better security than the new issue of PROVINCE OF ONTARIO TWENTY-FIVE-YEAR 5% BONDS, DUE 15TH OCTOBER, 1948, WHICH MAY BE PURCHASED AT 98 AND INTEREST, YIELDING 5.14%. These bonds may be procured in denominations of \$500 or \$1,000.

Orders may be telegraphed or telephoned at our expense, and securities will be delivered to purchasers free of all delivery charges.

COPY OF NOVEMBER LIST ON REQUEST.

### PREPARING FOR A BUSY YEAR

Members of Stadacona Chapter After Past Activities Ready For New Season.

#### Doll Sale

The Stadacona Chapter L.O.D.E. are preparing for a very busy year's work. They have already contributed to the boxes being sent to the Labrador district for Christmas, and were the organizers of a bridge and tea given at the residence of Mrs. J. T. Ross, last Tuesday. This netted a profit of \$153.00 and \$7.00 in additional donations, making a total of \$162.00. This was a very pleasing result especially as the day was a terrible one, cold and rainy, but evidently no one allowed the weather to interfere with the plans for the day.

Then there is to be the "Doll Sale", which is taking place towards the end of the month. This sale is usually held at the residence of Lady Price, who always most kindly offers her house for this occasion. This year Lady Price being abroad, the Chapter intend holding the affair at the Y.M.C.A.

Each member is requested to dress a doll and there are always a wonderful variety for the children to choose from. The wise person gets to this sale early as the dolls are very quickly disposed of.

#### Royal Wedding

Today Lady Louise Mountbatten will become the Crown Princess of Sweden. The slender bride who worked eighteen months in the Hospital Angels at Nevers, during the world war will be married in the chapel of St. James Palace, in a wonderful gown of silver gauze and orange blossoms. Her wedding dress might well be the envy of all brides to be. The material is silver cloth woven in India and sent to England to be made up by a French dressmaker. It was a gift from the bride's uncle, the Grand Duke of Hesse. The gown is made with a wrap around, sheath skirt, square neck, long tight sleeves, forming a point at her knuckles, slightly low waist and caught at the left side with a true lovers knot of orange blossoms, from which fall streamers of the same flowers, caught with silver thread at the hem.

Her panel shaped court train, a yard and a half wide will fall from her shoulders. The train is also of silver gauze, bordered with gold. The veil is exquisite and will be held in place by a Russian shaped head-dress of orange buds. Her flowers will be lilies of the valley. Driving to the church, she will wear a tall, true crinoline cape, which belonged to her grandmother. The bridesmaids, consisting of Princesses Margaret,

### Fashion's Forecast

Annabel Worthington

CHARMING AFTERNOON DRESS THAT CUTS FROM ONE PIECE

Here's a style that every woman who is her own dressmaker will appreciate. It has style and all the chic you would expect of an imported French frock and it's also very easy to make, so easy, in fact, that you could finish it in an hour or so. A glance at the diagram which shows the dress laid flat before the side seams are taken, will prove to you how very little work is needed to complete it. The pattern can be had in sizes 16 years, 36, 38, 40 and 42 inches bust measure. It takes very little material, too, only 4 yards of 36 or 40-inch goods for the dress in a medium size. Price 15c, stamps or coin (coin preferred). Embroidery pattern is extra.

Satin promises to be one of the most popular fabrics of the season, so is suggested for this pretty model, but a silk crepe, if you preferred, would be lovely, too. In fact, any soft, clingy material is adapted to this style.

You will be pleased with our FALL and WINTER Fashion Magaz, because it points the way in fashions for the coming months, and, of course, you will be able to obtain our material-saving patterns at the regular low price for all styles illustrated, and thus save the price of the book many times over. Illustrated articles on stitches, trimmings and difficult points in home dressmaking included in book. Send 10c for one.

Address all orders to Pattern Department, Quebec Chronicle.

### WOMEN, DIE IT NEW FOR 15c

### Diamond Dyes

Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with "Diamond Dyes" even if you have never dyed before. Drugists have all colors. Directions in each package.

Theodora, Cecilia and Sophia of Greece, daughters of Princess Andrew of Greece and niece of the bride, will wear frocks of apricot hue and carry posies of violets.

Marquis Milfordhaven's pretty children, the Earl of Medina and Lady Tatiana Mountbatten, will act as train bearers. The Earl in a sailor suit and his baby sister in a gown like the grown up maids.

The bridegroom will be married in the uniform of a Swiss General. His brother, Prince Wilhelm, who is to be best man will wear a naval uniform.

The marriage ceremony will be performed by the Archbishop of Canterbury, assisted by the Bishop of London, Dean of the Chapel Royal and the Rev. L. J. Percival.

#### Quebecer as Prize Winner

Last June it was decided by the Community Players of Winnipeg that in order to stimulate and encourage interest in the writing of purely Canadian plays they would offer a prize of \$50.00 for the best original one-act play written by a Canadian—the subject and manner to be unrestricted, the medium either poetry or prose, and consideration to be given in judging to originality of theme, imagination in treatment; literary beauty of composition and the technical skill and craftsmanship in execution. Forty-five plays were received. It was noticeable that Ontario and Quebec were the largest quota.

The judging of the plays has occupied the spare hours of the members of the General Committee of the Community Players ever since the date of the closing of the competition, and it was only after really strenuous labors that the number of the most meritorious was reduced to five. On these five opinions were divided, and the final decision was not made until all were read aloud before the General Committee by an experienced and dramatic reader who did full justice to each play and thus gave the winners an opportunity not only to hear the dialogue spoken aloud, but also to visualize the stage settings, and the movements and positions of the players. After this reading the decision was unanimous and the prize was awarded to "The Lost Day" by T. M. Morrow, La Gabelle, P.Q.

The remaining four of the final five plays were: The Loading, by Raymond Kniser, Blenheim, Ont.; Autumn Blooming, by Fred Jacob, Toronto; Cloistered Love, by Capt H. C. Howard, Knowlton, P.Q.; Judas, by A. E. Johnson, Agricultural College, Winnipeg.

#### A Pretty Thought in Names

Curiosity over the meaning of the name Megan, which is only one of the distinctions of the daughter of Lloyd George, has been expressed frequently since the arrival of the Welsh wizard and his family on this side of the Atlantic. There is a strangeness about the name, the "e" in which is pronounced as in "eggs". A Welsh man in Cleveland, Edward S. Griffiths, personal friend of Lloyd George, solved the question by saying: "Megan" translated means "sweet song." It is a typical Welsh name.

Toronto, Nov. 2—Fifty-four years ago Mrs. John McLaurin went to India as a missionary. With her husband, a Baptist minister, Mrs. McLaurin was a pioneer in establishing the Canadian Baptist Peace Mission, the history of which is shortly to be published in book form by Mrs. McLaurin. On the eve of her departure after furlough, which she spent here, Mrs. McLaurin was presented with a purse of \$500 by members of the Walmir Road Baptist Church.

### HOME-MAKING HELPS.

Motors That Take Drudgery Out of Domestic Labors.

(By WANDA BARTON.)

THE family automobile doesn't possess the only motor worth while, for there are others that are quite as useful, though their activities are confined to the privacy of the home. There is probably not a single woman who has seen the electric motor for running a sewing-machine who does not want one, and who is not willing to scrimp on other things, if necessary, in order to get a motor for her machine. They are handy, convenient, easily understood and care for, and they get work out of an old, worn out machine.

These motors run all makes of sewing-machines. They may also be attached to the churn or other mixers to save hand-power. They are not frightfully expensive, and where there is a great deal of sewing to be done, they are great work savers.

Then there is the new ice-cream freezer motor. This is mounted on a platform, which holds it and the freezer bucket. This motor may be attached to any convenient socket and the cream will be frozen by its rapid revolutions almost "while you wait." The freezer may have a dasher in the pail, it is turned so quickly and almost as smooth and satiny without a water dasher.

There is a new egg-beater on the market, run by water motive-power, in which women are taking quite an interest. It is shaped like a glass preserve-jar and has a long porcelain pipe coming up out of the lid with a funnel sort of arrangement on top. When the eggs are in the jar and it is properly covered, the jar is set under the open cold-water faucet and the rapidly-running water operates the motor within, which beats the eggs quickly and perfectly. Apple sauce and other light mixtures may be beaten with the motor, so it need not be useless just because there are no eggs to be beaten. The motor jar is not expensive.

The various washing-machines have appropriate motor power. Dishwashers are also motor-equipped, so new housekeepers who are going into homes where all these things are installed or about to be installed have a knowledge of motors thrust upon them and must learn all about them to be able to use their new conveniences.

There are some new freless cookers that have many advantages over their own current when the food begins to boil, leaving the steam to do the rest of the work. These are much handier than the old freless cookers.

A motor is also made to attach to a combination bread and cake mixer. This means a great saving of labor and strength and the housewife may, with its aid, busy herself about other things while the mixer hums on. She needs not even watch it work.

A clothes-line with a motor reel is another labor-saver where a line has to be stretched in the yard. It does the work much more quickly than the old method of walking and reeling the line required. This also is in an expensive contrivance, but a motor, strictly speaking, is a mechanical device that is both clever and effective. It wrings the mop absolutely dry by turning a button that starts the thing going, so that it takes all labor out of the operation.

### GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be happy and good-natured. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### IT IS A FACT

That Canadian National Railway System operates 22,663 miles, or over 50 per cent of the total mileage of the Dominion of Canada.

That the Canadian National is the greatest single railway system in the world.

That the Canadian National traverses every province in the Dominion of Canada and serves the Federal Capital and each of the nine Provincial Capitals.

That Canadian National serves every important city and sea-port in the Dominion.

That Canadian National has a network of lines in the Prairie Provinces giving to the prospective settler the choice of lands for grain-growing and cattle-raising.

That Canadian National is the scenic route across Canada. Among the scenic wonders on the Canadian National Line are Mount Robson, the highest peak in the Canadian Rockies (13,969 feet) and Mount Edith Cavell (11,033 feet).

That the Canadian National crosses the Rockies at the lowest altitude of any transcontinental railway and in view of Canada's highest peaks.

Travel "The National Way".

The ease with which corns and warts can be removed by Holloway's Ointment is the strongest recommendation. It seldom fails.

### BRAZIL WILL ERECT STATUE OF POET DIAZ IN MEXICO CITY.

Mexico City, Nov. 2—Brazil will erect a statue of the famous Brazilian poet, Gonvalves Diaz, as a mark of appreciation to the foreign poet, according to a report to the foreign press.

The Brazilian government was prompted to the act by the presentation during the Centennial at Rio of an heroic figure of Cuauhtemoc, the last Aztec emperor, to Brazil by the Mexican government.

### Social and Personal

Miss Willa Price is the guest of Admiral and Lady Seymour, at Admiralty House, Bermuda.

Miss Grace Brown, Mountain street, Montreal, entertained at the tea hour on Wednesday afternoon.

Miss Bernice Skelton, of Hamilton, is going to Montreal next week and will be a guest of Mrs. W. G. R. Holt.

La. Col. and Mrs. H. L. deMartigny of Montreal, arrived in the city Thursday and are registered at the Chateau.

Hon. Judge and Mrs. Alphonse Bernier who spent last week in Montreal returned home by motor, on Thursday.

Mrs. Dorothy Cook, daughter of Mrs. George Cook, of Montreal, is in Toronto for Miss Phyllis Nordheim's wedding and is the guest of Mrs. Phillip Gilbert.

Madame deLery and Miss Genevieve deLery, who spent the summer at the "Manoir," Beauceville, have taken apartments at 25 St. Ursule Street for the winter.

His Excellency the Gov. General has appointed Col. A. E. Dubuc of Montreal, as honorary A.D.C. Col. Dubuc commanded the 22nd. Battalion in France during the world war.

Mrs. John Sheehy leaves next week to visit friends in New York, Providence and Boston. On her way home Mrs. Sheehy will be the guest of her mother Mrs. Fortier, in Montreal.

Sir George and Lady Perley have been in Montreal for a short time, guests at the Hitz-Carlton, where Lady Perley attended the wedding of her niece, Miss Amy Springett to Mr. Theodore Heney.

Miss Kathleen Turner of this city was one of the guests at the coming out dance given by Mr. and Mrs. Percy Cowan for their daughter, Miss Anna Cowan, at the Mount Royal Hotel on Thursday evening.

His Excellency the Governor-General, attended by Major H. Willis O'Connor, A.D.C., and accompanied by Major P. K. Hodgson, O.B.E., returned to Government House from St. John, N.B., Tuesday evening.

Mrs. W. G. McMahon of Winnipeg will entertain at the tea hour in honor of Miss Kathleen McMahon, one of this season's debutantes. Miss McMahon is the daughter of an old Quebecer, her mother being Miss Eva Thom.

Hon. Senator and Mrs. J. M. Wilson of Montreal, who came to Quebec for the swearing in of Lt.-Gov. Hon. L. P. Brodeur, returned to their home in Montreal. While in Quebec Hon. Senator and Mrs. Wilson were guests at the Chateau Frontenac.

Mr. Archibald Fraser of Riviere du Loup, announces the engagement of his daughter, Dorothy, to Mr. de St. Denis Prevost, St. Catharines, (Portneuf), son of the late Col. Prevost, who was Commander of the Quebec Arsenal. The marriage will take place in December.

The marriage will take place shortly at Bedford, Nova Scotia, of Lieut.-Colonel Eric Whidden Macdonald, D.S.O., M.C., F.R.G.S., late Commanding Officer of the 10th Canadian Infantry Battalion, C.B.E., son of Lieutenant Colonel the Rev. John Howard Macdonald, C.B.E., D.D., and Mrs. Macdonald, of Wolfeville, N.S., and Winnifred Victoria, daughter of Mr. and Mrs. Hugh Edward Flick of "Fairbourne," Bedford, N.S.

A very delightful little shower and tea were given in Toronto last week by Mrs. Geoffrey Marani in honor of Miss Marjorie Campbell. Orange candies and orange popples were on the dainty tea table, at which Mrs. Ferdie Marani presided. Among the guests were: Miss Hester Thom, Quebec; Miss Wilhemina Ard, Mrs. F. Marani, Miss Hope Ludwig, Miss Doris Strickland (Hamilton), Miss Margaret King, Mrs. Van Eagan, Miss K. Crowther and Miss Evelyn Trotter.

The marriage of Miss Rachel Roberge, daughter of Mr. and Mrs. Henri Roberge of Theftford Mines, to Capt. Leon Lambert of this city, and son of Mrs. N. Lambert, Saint Antoine de Tilly, took place on Monday, Oct. 29th., at 8.30 a.m. in the church of St. Alphonse at Theftford Mines. Mr. Roberge gave his daughter in marriage and the best man was Col. C. A. Chauveau of Quebec. The bride looked charming in a suit of dark brown, marvellous cloth, trimmed with beaver and French hat of the same shade. Her flowers were roses and lilies-of-the-valley. A delightful reception was held after the ceremony at the residence of Mr. and Mrs. Henri Roberge. On their return from their honeymoon, which is being spent in New York, Capt. and Mrs. Lambert will reside in Quebec.

Mrs. H. F. Hall, 139 Cartier Ave., was another hostess who entertained at tea yesterday, in honor of Miss Marion Ross of Victoria, B.C. Bronze chrysanthemums and autumn leaves were the top table decorations. Mrs. John Sheehy presided. The hostess received in a black canton crepe dress, with black lace faced in almond green and almond green applique trimming at the left side. Those invited were: Mrs. F. E. Gendron, Mrs. Raymond Garneau, Miss Kathleen Hall, the Misses Johnston, Mrs. Allan Powell, Mrs. R. H. Nisbet, Mrs. Norman Brown, Mrs. F. J. Barnbrooke, and the Misses Thomas, Chateauvert, Browne, Wagon, Dagmar and Hedda Falkenberg, Lucie Doucet, Muriel Gallagher, Betsy Sharples, Frances and Marjorie Ross, Marguerite McLimont, Phyllis and Rosemary Burstall, Jean Bancroft, Yvette Lafferty, Sophia Joseph, Laura Thomson, Helen Elliot, Helen and Enid Price, Doris Smith, Eleanor Ross, Helen Home, Kathleen Turner and Miss S. C. MacDermott.

### Women and Asthma.

Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.
