ANGLO-CANADIAN TRADE ADVANCES

British Board of Trade Figures for October Published.

INCREASES AND DECREASES

In Most Cases Large Increases are Shown—Exports to Canada Make a Good Showing.

(Special by Cable from the Special Correspondent of the Montreal Star in London.)

LONDON, November 7.—Anglo Canadian trade continues to advance. The Board of Trade returns for the ten months ending October 31 show the following increases in British imports from Canada: Cattle, £28,000; bacon, £250,000; hams, £120,000, butter, £218,000; cheese, £312,000; wheat, £841,000; wheat flour, £238,000; sawn wood, £307,000; horses, £10,000.

The decreases are: Sheep and lambs, £3,000; eggs, £50,000; oats, £179,000; peas, £127,000; maize, £438,000; hewn wood, £37,000. The imports of canned salmon totalled £142,000; canned lobster, £154,000.

The exports to Canada increased as follows: Salt, £5,000; wool, £4,000; cotton piece goods, £149,000; jute piece goods, £22,000; linen piece goods, £5,000; silk, £6,000; woollen tissues, £98,000, worsted tissues, £72,000; carpets, £8,000; cutlery, £11,000; hardware, £7,000; pig iron, £91,000; bar iron, £46,000; railroad iron, £107,000; sheets and boiler plates, £47,000; galvanized sheets, £74,000; tin plates, £60,000; cast wrought iron, £45,000; unwrought steel, £221,000; unwrought tin, £8,000; haberdashery, £75,000. The decreases were: Spirits, £1,000; cement, £21,000; earthenware, £6,000. The exports of apparel and slops, waterproofed, totalled £24,000, and not waterproofed £248,000.

WINDERMERE.

THE BRITISH INCREASES.

LONDON, Nov. 7. — The October statement of the Board of Trade shows increases of $12,514,500 in imports and $5,831,000 in exports.

CHRISTIAN SCIENTISTS PLEAD NOT GUILTY.

Intend to Fight Proceedings Instituted at White Plains.

WHITE PLAINS, N. Y., November 7.—"Not guilty" was the plea of Mr. and Mrs. John Quimby, Christian Scientists, and John Carroll Lathrop, a so-called "healer," when they were called to answer to the charge of manslaughter in the second degree, in connection with the death of little Esther Quimby, before Judge Platt, in the Westchester County Court yesterday.

They were represented by Samuel M. Gardenhire, a lawyer, of New York, who entered objections. This is taken as an indication that the Scientists intend to make a fight against their prosecution in Westchester county. The accused were accompanied to court by their sureties, John C. Rockewell, a grocer, of Mount Vernon; Charles M. Hartmann, and Mrs. Joanna Williamson, who are on their respective bonds for $2000 each. Mr. Lathrop, before pleading, said to the reporters:

"We shall stand by our principle, we believe we are right, and have done nothing illegal. I don't know what more I can say that would be interesting to the public."

"Have you heard from Mrs. Eddy expressing her views about your case?" Mr. Lathrop was asked.

"Really I cannot tell you that. I do not know, however, what her views are."

District Attorney Young then turned to the three prisoners arraigned before the Court, and, looking at Mrs. Quimby, said:

"You have been indicted for manslaughter in the second degree for being responsible for the death of Esther Quimby, on October 20. How do you plead?"

The mother of the child, who was attired in deep mourning, said, with a quiver of her lower lip: "Not guilty." Her husband and Mr. Lathrop made the same response.

It is said that Mary Baker G. Eddy, "Mother of the Christian Science Church," is taking a great interest in the Westchester proceedings, and has engaged a firm of lawyers to look after the interest of the Church. It is also reported that a fund of $10,000 has been raised for its mutual protection and legal services.

IRISH APPEAL FOR MONEY.

It Will be Used to Drive Mr. Balfour From Power.

(Special to the Montreal Star.)

BOSTON, Mass., November 7.—An appeal to the Irish people of America, asking for money for a new fund to "destroy Balfour politically," has been issued here by the National Committee of the United Irish League. It says: "The English minister in the plenitude of his power and the cruelty of his arrogance, has put an insult, unparalleled even in the annals of Anglo-Irish relations, upon Ireland. He must be hurled from political power as Parnell alternately hurled both Lord Salisbury and Mr. Gladstone. Mr. Balfour has gone much further in official brutality than any of his predecessors in refusing to give to Ireland even one day during the present parliamentary session for the discussion of exclusively Irish affairs. This privilege was never denied to other parts of the alleged United Kingdom. We can destroy Balfour politically, if we unite against the English ruling classes as they have united against Ireland."

Eagle Strangled by Bicycle.

(Special to the Montreal Star.)

PITTSFIELD, November 7.—The narrow escape of Annie Cassidy, a young and pretty school teacher of Sheffield, from serious injury, if not death, in an attack made upon her by a large eagle, has created a great sensation among the residents of this part of the state.

Miss Cassidy was riding on her bicycle through the mountains near here, when she heard the swish of wings, and an enormous eagle swooped down upon her, driving his talons into the tire of the rear wheel. The girl was thrown from the machine, but the eagle, in its struggles to free itself caught its neck and head in the chain of the bicycle, and was strangled to death.

TRADE MARKED SUSPENDERS GUARANTEED

WILL STOP MARCH OF DOUKHOBORS

Mounted Police Will Intercept Them at Portage la Prairie.

WILL ARRIVE ABOUT SUNDAY

It is Expected There Will be Trouble as They are Becoming More Violent.

(Special to the Montreal Star.)

WINNIPEG, Man., November 7.—The mad march of the Doukhobor fanatics, in search of the Messiah, will be wound up at Portage la Prairie, 60 miles west of this city. A despatch today says that a large detachment of the North West Mounted Police has arrived at Portage la Prairie, and, assisted by two squadrons of Canadian Mounted Rifles, will seize the Russians, force them into cars and send them back to their villages.

The Doukhobors will arrive at Portage about Sunday. Serious trouble is anticipated, as the foreigners are becoming crazier every day, and they will no doubt be hard to handle. The number on the march is now about 600.

The main body of Doukhobor crusaders, about 500 strong, passed through Strathcona yesterday afternoon eastward bound. They halted on the street and informing the inhabitants that they were going to convert the world, asked for food and shelter, "for Jesus." Some stated their homes were all right, and after a while they would return to them. They appeared to be very firm in their determination. On their arrival at Newdale 153 miles from Winnipeg, the Doukhobors camped for the night.

MR. SPEERS' VIEWS.

WINNIPEG, Man., November 7.—C. W. Speers, colonization agent, who has been in charge of the Government arrangement for the care of the women and children of the Doukhobors, has arrived in the city, to meet Frank Pedley, who has also reached the city from Ottawa. Mr. Speers looks for a near approach of a collapse of the religious mania that has taken hold of the Doukhobors. Sixteen of the pilgrims, he says, joined the women on their way home, and for a time it appeared as if the whole party would turn about and go back to their homes.

HAVE BEEN TROUBLED SAME WAY BEFORE.

The present is not the first instance of the Doukhobors being seized with mania similar to that which now influences them. A history of the sect relates similar instances in connection with them while in Russia. On one occasion a discharged Russian non-commissioned officer obtained so great an ascendency over the Doukhobors that they accepted him as a prophet and blindly submitted themselves to his dictates. He led them to believe in the doctrine of the transmigration of souls and other Oriental notions. He declared also: 'The true believers are the Doukhobors. Jesus is constantly amongst them and his soul animates one of them. Thus Sylvan Koleskinof (a leader of the sect) was a true Jesus, but now, I am he, I am the true Jesus Christ your lord, therefore fall down and worship me.' This statement was believed by the Doukhobors and they accordingly fell down and worshipped him. After the death of this leader a secret tribunal was formed to govern the community. This tribunal despatched all those who were supposed to be guilty of disputing its authority. In this way about 400 individuals unaccountably disappeared. The Russian Government was informed of this, and an inquiry was commenced in 1834 and concluded in 1839. A great number of dead bodies were found, some of which were mutilated, while the appearance of others plainly indicated that they had been buried alive. In consequence of these discoveries, Emperor Nicholas in 1841 ordered that the Doukhobors belonging to the colony on the right bank of Molochna should be sent into the Trans-Caucasian provinces and there divided into separate settlements and placed in strict surveillance.

THE BOSTON MYSTERY.

Police are Trying to Place Responsibility for Crimes.

BOSTON, November 7. — Prompted by finding the watches of Agnes McPhee and Clara A. Morton, who have been fatally assaulted recently in this vicinity, in a pawnshop here, the police are pressing with all their energy to place the responsibility for the crimes. The State police, having brought about the arrest of Alan G. Mason, of Boston, are accumulating evidence to supplement that upon which Mason was held last Wednesday, on the charge of having murdered Miss Morton. At the same time the Boston police are seeking evidence to show whether one person could have been guilty of both crimes, and wish to explain several mysterious phases of the case. Thus far it appears that one watch was pawned by a negro, while the other was sold by a white man. To find these men the entire police force of the city has been at work in watches for 48 hours. Meanwhile it has been learned that a negro employed by the Mason family has gone away from the city and the police cannot ascertain where he is. It was a negro who pawned the Morton watch.

On the other clew the pawnbroker who held the McPhee watch went to Cambridge to have a look at Mason, for he declares that the man who pawned the watch was a white man.

THE CABINET VACANCY.

Will be Some Days Yet Before Announcement is Made.

(Special to the Montreal Star.)

OTTAWA, November 7.—No announcement was made last evening of the successor to Hon. J. I. Tarte, and the Premier is credited with having stated that it may be some days yet ere an announcement is made. The delay is giving rise to much criticism here, and it is reported that the task of filling the Cabinet vacancy is by no means an easy one. There is no desire on the part of several of the ministers to antagonize Mr. Tarte, according to rumour, and the question of filling the vacancy without so doing increases the difficulty of the task very considerably. What will Mr. Tarte's attitude be if Mr. Raymond Prefontaine is taken into the Cabinet, and what will be the position of Mr. Prefontaine and his friends if his claims are ignored? are questions asked here by many politicians. This aspect of the affair is credited here with causing the delay in making the appointment.

LOCOMOTIVE WORKS WILL COME HERE

Big Kingston Concern to Locate at Longue Pointe.

LAND BOUGHT FOR $80,000

Labour Restrictions Hampered Company in the Limestone City.

There is every probability that the Kingston Locomotive Works will be removed to Longue Pointe within the near future. The Dixon farm, there, containing 250 arpents, more or less, has been purchased for $80,000, and many of the capitalists for whom the land has been secured are all interested in the western concern. They are Messrs. R. B. Brophy, president of the Kingston company; J. Heney, the well known contractor, who was a partner of the late Hugh Ryan in building several sections of the Sault Ste. Marie canal, W. Harty, ex-Minister of Public Works in the Ontario Government, M. Connolly, the well known contractor, of Quebec, and J. T. Davis.

Messrs Brophy and Heney made the purchase personally from Mr. Wm. Dixon; there were no real estate middlemen in the deal, and everything was conducted quietly and sub-rosa. In fact, the only person in the city who seems to know anything about the transaction is the ex-Minister of Public Works.

The intention of the capitalists is to manufacture largely for export, as well as for home consumption. The area of land purchased runs from the river three-quarters of a mile back to the line of the Montreal Terminal Railway. It is bounded by the Robert Hampson property on one side, and by that of the Rodier estate on the other. The municipality of Longue Pointe has, it is understood, granted exemption from taxation for ten years, and work will be commenced so soon as the preliminary details are arranged. Mr. Brophy, who is president of the Kingston company, was formerly one of the ablest engineers in the Public Works Department during Mr. Tarte's regime, and it is understood he will take a prominent executive part in the new works.

The Kingston Locomotive Works have not been a success, it is affirmed, by a gentleman well posted in the matter, simply because they have had labour troubles to contend with. The labour market there is exceedingly restricted and the mechanics imported from England knowing this, took advantage to cause the company all the trouble they could. This has hampered the company so much that the directors finally decided to move the enterprise to Montreal and re-organize under a new company. The Kingston concern, like every other locomotive erecting shop on the continent, has had a surfeit of orders and had conditions been favourable they would have had a remarkably prosperous time for the last two years.

Railroad motive power men all look for a continued shortage of locomotives for some time to come and the fact that the Canadian Pacific and several of the Vanderbilt roads have sent large orders to Glasgow, being unable to have them filled here, illustrates the condition of the market.

The import duty on locomotives to the United States is over 45 per cent., still, it is estimated that within the last six months old country builders have received American orders aggregating over 1,200 engines.

The new works here will employ a large number of hands, just how many it is not known, but the capacity of the works will be tripled and this will probably mean at least 1500 hands.

THIBAULT NOT GUILTY— OTHER CASES WHICH WERE TRIED TO-DAY.

It took a jury just eight minutes to-day to come to a conclusion that Zerphin Thibault was not guilty of the theft of a canoe and furnishings from the boat house of Mr. C.H. Wray, at St. Rose. He had the things in his possession, but he said that he found them in the water and there was no proof to the contrary. His brother, Joseph Ludger Thibault, who was charged with receiving stolen goods, was acquitted by the same jury without hearing any evidence, the Crown agreeing to the verdict.

Albert Trempe appeared before Mr. Justice Hall and asked leave to change his plea of not guilty to one of guilty. He was the companion of Hennessy, found guilty yesterday of highway robbery.

Josephine Mini, alias Beaudry, also changed her plea of not guilty to one of guilty. She robbed a Syrian of a sum of money.

The court was then adjourned until Monday next when it is likely that the Johnson C. P. R. conspiracy case will be heard.

Prof. Barnard's Lecture To-night.

The first lecture in the series for the winter of 1902-1903 will be given at the High School this (Friday) evening, at 8.15 o'clock, when Prof. E. E. Barnard, of the Yerke Observatory, Chicago University, will deliver an illustrated lecture upon the Nebulae and the Nebular Hypothesis. Prof. Barnard will be remembered with great pleasure as having delivered a most noteworthy lecture upon Photographic Revelations in Astronomy in 1899, and it is by special request of many of those who heard him at that time that he is again brought before a Montreal audience. In the preparation of his lecture, Prof. Barnard has made use of the very latest discoveries, and the illustrations represent the most recent of his photographic work as applied to astronomical purposes.

"SUICIDE" THE VERDICT RENDERED BY JURY.

"Suicide" was the verdict rendered by the Coroner to-day in the case of W. H. Murphy, of Lachine, who swallowed the dose of Paris green yesterday. After hearing two or three witnesses the Coroner decided that it would not be necessary to summon a jury as the evidence showed that the deceased had been carrying the poison around in his pocket for some time and had remarked to a friend that he would be dead in less than 24 hours. The Coroner issued a burial certificate to the effect that the man had taken his own life.

HOME RULE PARTY AND CONSERVATIVES

Mr. M. J. F. Quinn Looks in That Direction for Relief for Ireland.

THE COLONIAL SECRETARY

Returned Advocate Thinks That England Sees in Chamberlain Her Really Big Figure.

"Home Rule, when it is given to Ireland, will be given most likely by the Conservative party of Great Britain. If the Irish party could only convert one or two leading Englishmen as they converted Gladstone, the key of the situation would then be in their hands."

Such was the opinion expressed by Mr. M. J. F. Quinn, K. C., yesterday, with respect to the Home Rule movement. Mr. Quinn has but recently returned from a visit to the British Isles and Ireland.

MR. M. J. F. QUINN.

"All admit," said he, "that Lord Rosebery possesses ability of a high order, but confidence appears to be lacking in the minds of almost everyone spoken to regarding his ability to draw together the warring elements of the British Liberal party.

"There are three names at Westminster that attract greater attention than any trio of Imperial statesmen," Mr. Quinn said, referring to Balfour, Chamberlain and John Redmond, "and England's big man is the Colonial Secretary."

Mr. Quinn heard more eulogium of Premier Balfour during his stay in the British metropolis than he expected. The successor of Lord Salisbury, he says, has grown a great deal in public estimation since he was called upon by His Majesty to lead the Government of Great Britain.

Mr. Quinn had also talked with solicitors in London, and all were a unit in testifying to the remarkable ability, the gentlemanly bearing and the brilliant capacity for leadership possessed by John Redmond.

THE EDUCATION BILL.

Speaking of the education bill Mr. Quinn said there did not appear to be any doubt whatever as to the Government's ability to carry through that measure, and when questioned as to the attitude of his British co-religionists, he replied that Cardinal Vaughan's letter to Mr. Redmond indicated that they favored the bill.

Mr. Quinn returns to Canada feeling, as he always has, that in no country in the world are the rights of his co-religionists safeguarded as under the British constitutional system.

Before returning to Montreal Mr. Quinn visited France and Belgium. In the latter country he had the pleasure of meeting the Rev. Father Strubbe, formerly parish priest of St. Ann's church in this city.

SWALLOWED FATAL DOSE OF PARIS GREEN.

W. H. Murphy, 58 years of age, an electrician of Lachine, died last evening as the result of swallowing a large dose of Paris green yesterday afternoon in the hotel of Napoleon Lalonde, at 58 Chaboillez square. He died at 6.30 o'clock. Murphy was conscious until death, but made no statement, nor did he offer any explanation for his act. He arrived at Lalonde's Hotel Wednesday afternoon, and was later joined by two fellow workmen. Murphy said that he and a son were going to Shawinigan Falls to work in the power house there. After dinner yesterday he was in the company of his friends, Joseph Touche, of St. Anne de Bellevue, and Edouard Lalonde, of Ile Perrot. He left them for a moment, and when he returned it was seen that he was ill, and the traces of the Paris green told the story. A doctor was called and he administered emetics, but without avail. Abbe Bedard, of Notre Dame, was sent for. At first the man refused the priest's ministrations, but when he learned that death was impending he consented to receive the last rites of the Church. The body was removed to the morgue. Murphy's widow lives at Lachine, and his two sons are at work in Montreal.

SUBURBAN NOTES.

Mrs. G. T. Currie, of Point St. Charles, has left on a visit to Battle Creek, Mich.

In the Annex of St. Matthew's Presbyterian Church, Point St. Charles, took place yesterday afternoon the annual meeting of the Point St. Charles branch of the W. C. T. U. Mrs. Melvin, president, was in the chair, and submitted the report of the work done during the past year. Reports were also presented by the treasurer and secretary. Short addresses were given by Mr. S. J. Carter, president of the Dominion Alliance; Rev. D. Winter, Rev. W. R. Harvey, Rev. E. A. Mackenzie.

At the meeting of the Woman's Missionary Society of Centenary Methodist Church, Point St. Charles, on Tuesday afternoon the visitors from the other branches in the city included Mrs. Melvin Taylor, Mountain street Methodist Church; Mrs. W. R. Harvey, Point St. Charles Congregational Church; Mrs. Sharpe and Mrs. McHattie, St. Matthew's Presbyterian Church; Mrs. W. S. Stone, Point St. Charles Baptist Church, and Miss Hinchcliffe, of the Bible Society. Rev. D. Winter, pastor of the church, attended, and in addition to a musical programme an interesting address was given by Miss Hinchcliffe of work in the poorer districts of the city.

The Corinthian's Passengers.

The list of first cabin passengers sailing by R. M. S. Corinthian, Captain J. W. Nunan, from Montreal and Quebec, November 8th, 1902, to Liverpool, is as follows:

Mr. Cecil H. Arden, Liverpool, Eng.; Mr. W. K. Balfour, Winnipeg, Man.; Rev. E. Bans, London, Eng.; Miss Blane, Toronto, Ont.; Miss Campbell, Toronto, Ont.; Mr. J. H. H. Cockburn, Halifax, N. S.; Miss Fetherstonhaugh, Montreal, Que.; Mr. H. H. Gilbert, Halifax, N. S.; Mrs. M. B. Jackson, Winnipeg, Man.; Dr. Menzies, Mrs. Menzies, Toronto, Ont.; Mr. Mockler, Mrs. Mockler, Vancouver, B. C.; Mr. Rademacher, Vancouver, B. C.; Judge Ross, Ottawa, Ont.; Mrs. Rumball, Calgary, N. W. T.; Miss Stewart, Montreal, Que.; Mrs. Stewart, Miss Stewart, Winnipeg, Man.; Lieut. McD. Suter, London, Eng.; Miss Twaddle, Toronto, Ont.; Mr. William Whitmore, Miss Lucy Jane Whitmore, New York, N. Y.; Mr. G. Worth, Mrs. Worth, Miss Worth, Toronto, Ont.

Child Burned—Doctor Injured.

The six year old daughter of Mr. Joseph Diotte, of 623 St. Catherine street, was seriously burned yesterday afternoon, and Dr. L. P. Roux of 1988 St. Catherine street, who had been called to attend the child, fell through an open trap to the cellar and fractured three of his ribs. The doctor was taken to his home, and Dr. Delorme, Sherbrooke street, was called to attend the unfortunate physician. The little girl was playing with matches near a gas jet and an explosion occurred, setting fire to the child's clothes and burning her face.

Street Car Ventilation.

To the Editor of the Montreal Star:

Sir,—I had occasion to go to Maisonneuve to-day on the Notre Dame street line of the Montreal Street Railway. Thanks to your recent agitation for the ventilation of the cars, the trip was a delightful one; formerly it was as much as one's life was worth to get into a Notre Dame street car.

Yours truly,
JOHN PATTERSON.

(Montreal, Thursday.)

Bishop's Students at Theatre.

Yesterday afternoon the students of Bishop's College attended the Theatre Francais in a body. They greatly enjoyed the performance, and themselves furnished an enjoyable programme of songs between the acts. Baskets of flowers were presented to the leading ladies of the company.

Loyola College Entertainment.

One of the most enjoyable and successful entertainments yet held under the auspices of Loyola College, took place in Karn Hall last evening, in connection with the distribution of prizes won at the annual field day. One of the most interesting features was that it introduced to a Montreal audience Miss Marguerite Dunn, a talented elocutionist, of Toronto. A schoolmate of Miss Marguerite Anglin, Miss Dunn has, during the last couple of years, in different western cities, shown that she was one of the leading Canadian elocutionists before the public to-day. Her selections last evening included "Leah, the Forsaken," and "How Salvator Won." Miss Dunn received a double encore, and on each appearance was presented with a large bouquet of flowers. The programme also included selections by Miss Marie Terroux, Mr. J. B. Dubois, Master Eddie McDonagh, and Master Corbett Whitton. After the distribution of prizes, Hon. Dr. J. J. Guerin delivered a lively address on the advantages of physical training in conjunction with the development of the mind and heart.

Mr. Frank McKenna, president of the College Athletic Association, presided, and delivered the opening address. The officers in charge of the entertainment were Frank McKenna, Harry Monk, John P. Walsh, William Kaine, and James Clarke.

Ranking the Players.

BOSTON, Mass., November 7.—The ranking committee of 1902, Messrs. Richard Stevens, B. C. Wright and L. E. Mahan, having submitted their reports to the executive committee of the United States Lawn Tennis Association, the following ranking of American lawn tennis players has been adopted for the year 1902.

Singles—Owe 3—6 of 15, W. A. Larned and M. D. Whitman. Owe 2—6 of 15, B. C. Wright. Scratch, H. Ward, W. J. Clothier, L. E. Ware. Receive 2—6 of 15, R. D. Little, H. H. Hackett, C. Hobart, Kreigh Collins. Receive 3—6 of 15, R. Stevens. Receive 4—6 of 15, S. C. Millet, L. H. Waidner, J. C. Davidson, J. P. Paret. Receive 5—6 of 15, H. F. Allen, E. Leonard, I. C. Wright, L. E. Mahon, R. G. Hunt, R. C. Seaver. Receive 15, A.S. Pier, H. H. Whitman, F. G. Anderson, J. C. Neeley, R. Bishop, E. R. Patterson, W. C. Grant, A. C. McMaster. Receive 15 and 2—6, H. R. Avery.

Doubles—Scratch, Wreen brothers, Ward and Davis, Collins and Waidner, Whitman and Ware.

At Dourdan Henri Fournier, driving an automobile, covered a kilometre (.621 of a mile) in 29 1-5 seconds, and a mile in 47 1-5 seconds, thus breaking the record held by W. K. Vanderbilt, jr. Fournier's time was made in spite of muddy roads.

Mr. Percy Gomery, of the Sovereign Bank of Canada, has been chosen to represent the Orton Club, of Toronto, in the cross-country 5-mile championship in that city on Saturday next. Teams composed of six men each from Buffalo, Guelph, Peterborough, Hamilton, Galt, and three or more from Toronto, are entered. This is decidedly the event of the year in the running line. Mr. Gomery will leave this evening for the Queen City.

In the boxing contest scheduled for 20 rounds, between Benny Yanger, of Chicago, and Tony Moran, of New York, before the West End Club, of St. Louis, Mo., Yanger knocked Moran out in the third round with a solar plexus blow. Each man weighed in at 125 pounds. From the beginning it was apparent that Yanger had the advantage.

In the second round Yanger landed a left upper-cut on the jaw, which put Moran to the mat, and nine was counted on him. Moran endeavoured to retrieve himself, but a blow on the head landed him and the gong saved him.

In the third round Yanger landed a blow on the solar plexus and Moran was counted out.

HOCKEY.

PITTSBURG MARKET FOR HOCKEY PLAYERS

Claims Made That Montreal Champions Will All Go There.

LEVIES MADE ON OTTAWA ALSO

A Montreal Hockey Club Committee Man Talks About These Astounding Statements.

(Special to the Montreal Star.)

PITTSBURG, Pa., November 7.—The Victoria hockey team, which was admitted into the Western Pennsylvania League last Sunday, will be composed of players from Winnipeg and other places in Canada. Manager Sixsmith has already signed his brother, the two Stewarts, Harry Westwick and Duval. It is expected the Montreal seven, champions of Canada, will, almost to a man, come to Pittsburg to represent the Bankers in the local league. Liffeton seems to have broken off negotiations with the Bankers, and efforts are being made to get him on the Victoria team, and an effort is also being made by Victoria to get J. Gardner, another Montreal star.

The bringing on of these Canadian cracks mean that there would be few of last year's players on this season's Bankers' team. It was announced yesterday that the old players who will be retained are Howard, Campbell and Richardson. The P. A. C. team will have to fill two vacancies as Lambe and Shields have not been re-engaged. Keystone has only Bish, Hern and Morrison in line, so there are yet several opportunities for Canadians.

President Harry Shaw, of the Montreal Hockey Club, is out of the city. Mr. Dewitt, the secretary of the club, is as much in the dark about the proposed and talked-of moves of the Montreal players as any one.

Mr. Andrew McKerrow, one of the committee, when shown the above despatch, said:

"I can hardly believe it. I only personally know of one player who has been actually negotiating about going to Pittsburg. He has made no bones about it."

"Are you prepared to deny this report referring to the members of the Montreal team?"

"No, I am not."

Stirling Hockey Club Meet.

The annual meeting of the Stirling Hockey Club was held Wednesday and was well attended, Mr. J. Thurston Smith occupying the chair. The reports of the secretary and the treasurer were most satisfactory, especially the latter, for it showed the largest balance on the right side for any year since the organization of the club. The club will put two teams in the field again this season, the first playing in the Junior League and the second in the Metropolitan League. As usual they will have a large number of players to pick from. Eleven applications for membership were received last night.

The election of officers resulted as follows: Hon. Pres., M. S. Foley; Hon. Vice-Pres., G. R. Kearley; Pres., J. Thurston Smith; Vice-Pres., T. Tattersal; Secretary, H. Lamplough; Treasurer, A. E. McCuaig; Committee, F. Foley, F. Roberts and H. C. DeWitt.

The following honourary members were elected: Rev. F. Charters, Dr. J. D. Cameron and R. R. Boon.

The Union Club Meets.

The annual meeting of the Union A.A.A. Hockey Club was held last evening in their club rooms, St. Antoine street, west, in which the following officers were elected: President, Mr. Geo. Brown; vice-president, Mr. Thos. Brady; sec.-treas., Mr. Robt. Curtin, 683 St. Antoine street. Committee, Messrs. D. Brown, C. Sheriff, F. Lawrence. Those wishing to join will please send their application to the secretary treasurer.

A special meeting of the Ontario Hockey Club, champions of the Metropolitan Hockey League, will be held this evening and it is expected that an agreement will be reached whereby an amalgamation will be effected between the Ontario and Red Star Hockey Clubs.

If this agreement can be brought about, the Ontario Club will seek admission into the Canadian Junior Hockey League. The meeting will be held in Gareau Hall, corner of St. Catherine and Maisonneuve street, at 8 p. m. sharp.

FOOTBALL

TO-MORROW'S TWO FOOTBALL MATCHES

On the M. A. A. A. Grounds and on the McGill Campus.

BRITS AND MONTREAL PLAY

McGill Defends its Position in Regard to the Home and Home Matches With the Rough Riders.

Eddie Gleason will referee to-morrow's football match between Britannias and Montreal.

Both teams are through with their practice, and both teams are fit for a good fight.

The rivalry which exists between the two clubs as to the question of superiority will, no doubt, result in a rattling exhibition.

Both teams will be pretty much the same, although it is feared that Phil. McKenzie may not be able to come out, as he has been troubled with a cold.

Otherwise the Brits team will be the same as that which played in Brockville.

The Montreal team will be as follows:

Back—Dr. Geo. R. Johnson.

Half backs—James P. Craig, Hedley Suckling and Percy Molson.

Quarter—W. McMaster.

Scrim.—P. K. MacKedie, P. Roberts and A. J. McMillan.

Wings—N. C. Ogilvie, W. Meigs, Mac. Yuile, T. G. Reid, H. Niven, Geo. Burton and W. P. O'Brien.

Spare—H. D. Browne, Hannaford and Burland.

M'GILL'S POSITION IN THEIR MATCH WITH ROUGH RIDERS

They Need Practice for Their Match With Queen's—To-morrow's Game.

"Certain articles criticizing McGill for arranging a match with the Rough Riders having caused so much unfavourable comment in college football circles, a few remarks from McGill's point of view might be in order," says Mr. Reford, the efficient manager of the McGill team. "McGill's chances are very good to win the Intercollegiate championship this year, but they found that without this series of home matches with Ottawa they would have gone up against Queen's University with a team which had been practically idle for three weks, and with nothing to stimulate them to turn out for regular practice and they would not have been in condition for the hard match which they expect to have next Saturday, judging from the tie they played them in Kingston."

Because Ottawa City played a questionable game of football some years ago, reason the McGill people, is no reason why they should be forever barred from playing in Montreal again. At any rate McGill thinks it is more sportsmanlike to play and give them a chance to show what kind of football they are now playing, and they doubt if a team of such men as are criticizing them would have had the nerve to go up and hold down the Rough Riders on their own grounds as McGill did last Saturday.

The McGill team found last Saturday's game no rougher than their games in the Intercollegiate series, and it imight be noted that no men were ruled off for scrapping or foul play, which could not be said of all the Q. R. F. U. games.

McGill's team for to-morrow will be: Back, Patch; halves, Molson, Richards, Hamilton; quarter, Meindl; scrim, Benedict, O'Brien, McPhee; forwards, Wright, Walthrous, Molson, Nagle (Captain), Martin, Mohr, Graham or Boulter; spares, Savage, Grey, Cameron, Taylor, McDonald.

Shillington who has helped Captain Nagle so much in steading the team this season, will not be playing to-morrow, having been slightly injured by a low tackle last Saturday. His place will be taken by Mohr, who has been out of the game since the Toronto 'Varsity match.

McGILL FOOTBALL NOTES.

In George Wright, a Maritime Province boy, McGill has the liveliest inside wing in the country. He only weighs 170, but——

Captain Nagle seems to prove the exception to the rule that a man can't look after his team and play football. His tackling, strong running and scoring powers have placed McGill where she is this season. He is an old Ottawa College player, and learned the game from Father Fallon and Tom Clancy.

Ned Martin, in spite of the fact that he has only one arm, is one of the surest tacklers and catchers on the team. He won his colours at Upper Canada in cricket and hockey as well.

Stormy O'Brien, Referees Dalton and McGiverin say, is the neatest centre scrimmage they have seen. He has not once had the ball taken from him by an official this year.

McGill hopes to bring one championship home to Montreal this fall. The probabilities are that Queen's will be defeated in Toronto on Saturday, and McGill feel confident that they can whitewash them here on November 15th, which would give them the championship.

The trophy in the Intercollegiate Union is a large silver cup, or punch-bowl, donated by Dr. H. B. Yates, of McGill. It has been won by Toronto 'Varsity seasons 1898, 1899 and 1901, and by Queen's in 1900, so that it is up to McGill now.

At the annual meeting, December, 1898, the Intercollegiate Union withdrew from membership in the Canadian Union, so that the winners do not play off with the winners of the Quebec and Ontario unions for the Dominion championship.

Morrison's Troubles.

The protest of the London Club against Bert Morrison, who played in the Toronto game against London last Saturday, was taken up by the Ontario Rugby Football Union. Messrs. W. R. Meredith, C. H. Christie, and Gordon Crawford were present, representing the London Club, while the Toronto Club was represented by Messrs. James A. Macfadden and Frank Coffee. The London Club alleged that Morrison was an amateur under suspension by the O. H. A., when he played in this match; also that he received money directly or indirectly for playing hockey last year in Pittsburg, and competed with and against Peel and Hearn, who have been professionalized by the O. H. A.

W. R. Meredith stated that it was a known fact that Morrison had played hockey in Pittsburg with Peel and Hearn, who, it was alleged, received money for their services. A declaration was produced by the London representatives purporting to be signed by Harry Peel, but which was not sworn to before a commissioner, and the signature was in lead pencil. The executive decided that the declaration was of no value as evidence on account of not being properly executed.

James A. Macfadden stated that Morrison was not under suspension by the O. H. A., but had only been suspended for that season in which he played for Tilbury. A declaration was also filed from Morrison, denying the charges of professionalism arising out of his sojourn in Pittsburg. Mr. Coffe and Mr. Christie also spoke on the subject.

The executive unanimously decided that there was sufficient suspicion of professionalism to suspend Morrison pending his making a satisfactory declaration, stating that he did not receive money, and that he did not play with or against Peel or Hearn in Pittsburg, or did not play with or against any person, knowing such person to be receiving money for his services as a hockey player. The London-Toronto game stands until this declaration is made or refused to be made, and the matter will be further considered at a meeting of the executive to be held next Wednesday night.

Kicks.

Junior Independent League.

The match between Fairmount and Union will be played on the Montreal Baseball Grounds, Saturday, at 3 p. m., instead of Union Grounds, as scheduled.

The Rough Riders' forward line averages 201 pounds in weight, and McGill 182.

The annual meeting of the Canadian Intercollegiate Rugby Football Union will be held on November 14, in Montreal, and the annual dinner on the following evening.

GOLF

PREMIER BALFOUR ON NEW GOLF BALL.

Thinks Links May Have to be Lengthened in Future.

(Special to the Montreal Star.)

LONDON, November 7.—Prime Minister Balfour, who is a noted amateur golf player, writing of the American golf ball controversy, admits that those who fear an improvement in balls will necessitate a modification of the length of British courses, have much justification, but he condemns the suggestion to standardize golf implements.

LADY CHAMPION HONOURED

An Address Presented to Miss Thomson at St. John.

ST. JOHN, November 7.—The recent victory of Miss Mabel G. Thomson, of this city, when she won the ladies' golf championship of Canada, on the Toronto links, was recognized by the ladies of the local golf club yesterday afternoon, a reception being tendered the new champion at the home of Mrs. John Thomson, president of the Ladies' Branch. An address of congratulation was presented to Miss Thomson.

Metropolitan Golf Club.

There will be a handicap competition on Saturday, the 8th instant, over Fletcher's Field, and two sets of prizes will be offered. First, for players from scratch to 10 handicap, and second, for players with handicap over ten strokes. Medal play.

ATHLETICS

ATHLETIC UNION IS IN A BAD FIX

Newly Elected President and Secretary Useless.

MR. RUTTER GOES TO ENGLAND

Mr. Heron, Secretary, Refuses to Act, Affairs Will Probably be Administered From Here.

There is a fine mix-up in the affairs of the Canadian Amateur Athletic Union just now.

The Union at present has neither president nor secretary.

Mr. A. F. Rutter, the newly elected president, who is also president of the Senior Lacrosse Union, has gone to England on business and since his departure comes the news that Mr. Heron through press of business will be utterly unable to accept the position of secretary to which he was elected, and which in the past he has filled with so much success.

The result of all this will be that the affairs of the Union will have to be managed from Montreal again, for the vice-president is here, and there is no one in view just now to take up the arduous duties of secretary, and no one who is sufficiently posted to jump into the breach, but Mr. E. H. Brown, the secretary of the M. A. A. A.

MR. BROWN IN THE BREACH.

Mr. Brown knows more about the workings of the Union than anyone, and his knowledge of the arduous part of the secretary's work is such, that he was one of the men greatly in favour of the appointment of a permanent secretary.

It is probable, however, that in view of the serious condition of things, he may be prevailed upon to act pro-tem till something definite can be done.

A feature of the meeting was the presentation of the president's prize to Mr. T. Cunningham, P. A. A. A., for the highest three strings on outside alleys, by Mr. R. A. R. Weir. As Mr. Weir has again been elected president of the league, he generously offered another medal for the best three strings on outside alleys.

BASEBALL

ROCHESTER WANTS CAMPAU.

An Agent of the Club Asks Him to Manage the Team.

DETROIT, November 7.—J. B. Nash, business manager of the Rochester Baseball Club, of the Eastern League, has been in town for the purpose of signing Charles Campau, of this city, to manage the Rochester Club, of the Eastern League. Last season, minus the services of Buckenberger, the Rochester team, which has always made a good record, played away down in the column, and the owners have determined to get back to the old standard next season. Mr. Campau has not as yet given a decided answer. The Binghamton Club, which Mr. Campau managed last season, is anxious to retain him, but will probably not stand in the way of his advancement. Though not signed with that club, Campau wishes to give it an opportunity to consent to his doing business with other people before he accepts Mr. Nash's offer.

The choice of the berth lay between Campau and Jimmy Casey. Rochester made an offer to the ex-Detroiter when it was learned that he would not be with the Detroiters in 1903, but was a little too late, Casey having signed with Chicago. He was wanted to manage and play third base. Casey broke into the National from the Eastern, catching for Toronto, and was a great favourite on that circuit. When this dicker fell through, the management, which had tried to arrange terms with Campau at the close of the New York State League season, but was unsuccessful, decided to go after him again.

Strong inducements are offered to the Detroit citizen. The berth is an excellent one in the pecuniary sense, and is a stepping stone to the bigger leagues. Campau is rated in New York State as one of the most able of minor league baseball leaders.

The Nondescript Players.

The Nondescript Players, an amateur theatrical organization, opens its season to-morrow night in St. Stephen's Hall, Lachine, by giving the three-act comedy, "The Balloon." The following ladies and gentlemen will take part: Mr. and Mrs. Colsen, Mr. and Mrs. W. Magor, Miss Carr, Miss Knight, Mr. Hooper, Mr. Wilfred Barnes, Mr. S. H. Ward, jr. and Mr. Clarence Dumaresq.

THE TURF

LAST KNIGHT CAME FIRST

A One to Four Favourite Beaten by Ten to One Horse.

CROKER BUYS FINE HORSE

Sale of Well Known Kentucky Horses —Who the Winners of the Lexington Meeting Were.

NEW YORK, November 7.—Last Knight, backed down from 10 to 1 to 6 to 1, won the Stonybrooke stakes at Aqueduct yesterday, beating the 1 to 4 favourite. Last Knight rushed to the front in the first quarter, and, holding his lead to the finish, won the first quarter, ridden out by three lengths from the favourite, Andy Williams. Dr. Riddle, the only other starter, was beaten eight lengths. Bell's Commoner in the second race equalled the track record of one mile and seventy yards, covering the distance in 1.45 flat. Goldsby, played down from 30's to 10 to 1, won the last race by a head from the favourite, Atilla. The weather was cloudy and the track fair. Summary:

First race, three-year-olds, selling, 7 furlongs—Lady Sterling, 100, Rice, 5 to 1 and 8 to 5, won; Potente, 105, Shea, 6 to 1 and 2 to 1, second; Demurrer, 113, Knight, 15 to 1 and 6 to 1, third. Time, 1.27 2-5. Brunswick, Ascension, Clorita, The Huguenot, Ben Howard, Miss Buttermilk, Morokanta and Anak also ran.

Second race, for three-year-olds and upwards, handicap, 1 mile and 70 yards — Bell's Commoner, 110, Knight, 9 to 5 and 7 to 10, won; Harry New, 106, Martin, 10 to 1 and 3 to 1, second; Huntressa, 100, Redfern, 5 to 2 and 4 to 5, third. Time, 1.45. Articulate, Hermencia and Par Excellence also ran.

Third race, for two-year-olds, selling, 6 furlongs—Dark Planet, 108, Lyne, 6 to 1 and 6 to 1, won; Watkins, Overton, 103, McIntyre, 6 to 1 and 3 to 1, second; Ponca, 108, Shaw, 12 to 1 and 5 to 1, third. Racing Notes From England.

At the second October meeting at Newmarket, untrammelled by the usual etiquette associated with his movements, His Majesty moved about and enjoyed the proceedings like an ordinary gentlemen, and among those honoured with an interview was Mr. Emil Adam, the famous racehorse painter. Mr. Adam has just returned from Paris, where he has had a busy season depicting the portraits of sundry of the French cracks.

His Majesty's colours have never yet been victorious in the Middle Park Plate, Persimmon and Diamond Jubilee having both been beaten for it by horses that they afterwards defeated.

The Hon. Cecil Howard has resigned his appointment as manager to Prince Soltykoff, and Samuel Loates, who held a retainer to ride for the Russian nobleman, has dissolved his connection with the Kremlin House establishment.

W. Lane, the leading rider, is likely to surpass the record of 853 mounts in a season made by F. Allsopp in 1896. He has ridden 718 races so far, and has nearly five weeks of the season still to run. The figures are:

	Mounts.	Lost.	Won.
W. Lane	718	569	149
D. Maher	431	330	101
W. Halsey	583	489	94
J. H. Martin	477	406	71
T. Dixon	288	221	67
F. Hardy	497	430	67
M. Cannon	347	288	59
G. McCall	487	434	53
K. Cannon	344	293	51
J. E. Watts	429	383	46
H. Randall	286	244	42
W. Griggs	340	300	40
W. Bray	304	265	39
T. L. Miller	266	229	37
J. Childs	344	309	35
H. Aylin	268	234	34
C. Trigg	149	118	31
J. Dalton	190	161	29
J. McCall	223	197	26
H. Wilkins	94	75	19
C. Yarnell	221	202	19
H. Lewis	126	108	18
B. Dillon	125	108	17
M. Aylin	154	137	17
C. Jenkins	156	139	17
S. Loates	210	193	17
H. Jones	122	106	16

A backer of jockeys' mounts putting £1 on every ride would have won £10 by following T. Dixon and £23 with C. Trigg, but with every other rider the system would have been a loser from £28 on "Danny" Maher to £156 on G. McCall.

Hoofbeats.

At the St. Louis Horse Show the pony Kreuger, owned by D. H. Sands, of Mendon, Mich., broke the world's hurdle record, held by himself, by jumping 5 feet 9 inches.

The sale of boxes for the eighteenth annual exhibition of the National Horse Show Association, to be held in Madison Square Garden, New York, November 17 to 22, inclusive, took place in the garden. The total amount realized was $35,000. This sum exceeds by $10,000 that realized last year, and the highest price paid for a box, the sum of $850, was larger than in any previous year.

The entries to the Horse Show are practically the same as last year, with 766 horses entered.

The number of exhibitors is larger, and many newcomers will be found among them.

Richard Croker, of New York, has bought one of the best racehorses in France. His new purchase is the horse Rodrigue II., for which he has paid 85,000 francs, about $17,000.

The Trantor-Kenny Company's sale of trotting horses ended with the sales of fifty-five horses for $10,350, an average of $188. During the three days' sale 180 horses have been disposed of for an average of $206, they bringing a total of $37,185; unusually brisk and keen bidding for choice stock.

A pathetic incident marked the sale in the offering of the old mare Sugar, by Lumps, consigned by the once famous trotting horseman, Z. E. Simmons, who raced the immortal George Wilkes. A plug horse dealer bought her for $5, the smallest figure ever paid for a standard bred trotter with a record in a public sale in Kentucky's best sales.

The winners at Lexington were: Hudson & Gatcomb, $9,775; George Wooden, Boston, $10,000; Ed. Geers, $4,800; Walnut Hill Farm, $4,700; A. McDonald, $3,425; Douglas Thomas, $3,000; F. Cares, $2,650; J. Malcolm Forbes, $2,500; Millard Sanders, $2,000; W. Foote, $1,750; Charles Marvin, $1,750; E. E. Smathers, $1,550; Hall Farm, $4,700; A. McDonald, $3,425; W. W. Milan, $1,300; Ben Walker, $1,250; W. Dickerman, $1,100; Myron McHenry, $1,000; F. Keyes, $1,250; Ben Kenney, $1,050; W. Gorstine, $900; C. Lyons, $900.

CRICKET

THE LATE MR. DIPPEL.

Cricketers Pay Tribute to President's Memory.

A meeting of the Montreal and District Amateur Cricket League was held at the Carslake Hotel, with Mr. J. W. Wilkinson, vice-president, in the chair.

Mr. Wilkinson made a few feeling remarks on the sudden death of the league president, and it was resolved "That the secretary convey to the relatives of Mr. Dippel the sincere sympathies of the League in the bereavement they have sustained in Mr. Dippel's sudden and untimely death, and to express the very high appreciation in which Mr. Dippel was held by all the members of the Cricket League of Montreal, for his active interest in cricket since the inception of the league, and for the able and courteous manner in which he discharged the duties of president during the past two years."

It was unanimously resolved that the league dinner be postponed from November 14 to January 16, and out of respect to Mr. Dippel the meeting adjourned without transacting further business.

Special Notice.

A Fast Mare.

Margaret W. is a pacing mare, who has recently developed phenomenal speed, and is now in Louisville. She is by Gazette, 2.07 1-4, and her owner, Mr. J. B. Wathen, writing to Montreal about her, says that in a field of fourteen horses, after being left behind at the start to a bad break, finished the last half in 1.04, well up in the bunch. This was the first race she had ever been worked in company. She had never done better than 2.14 before starting in Lexington, and there went in 2.08 1-2. J. B. Wathen adds that the mare has done even better than he expected.

What Vichy Celestins Does.

Celestins' Vichy Water increases the appetite, ensures a prompt and easy digestion, more complete assimilation, more free and copious urine, improvement of the nutrition and a general feeling of physical comfort. Vichy Celestins is absolutely the only water capable of producing those beneficial effects. But beware of imitations; so called Vichy in syphons or at the fountain is not Vichy. The genuine is sold in bottles only and every bottle has the word Celestins printed on the label, capsule and cork, moreover a tricolour stripe bearing the name of the agents, Boivin, Wilson and Co., Montreal, is placed around the neck of the bottle. None genuine without that tricolour stripe.

CHORAL UNION SCORES SUCCESS

New Organization Sang For First Time in Christ Church Cathedral

ARCHBISHOP BOND'S ADDRESS

His Lordship Eloquently Emphasized True Function of Music in Worship.

The first annual festival of the Montreal Diocesan Choral Union took place last evening in Christ Church Cathedral, a large congregation being present. The chorus was composed of three hundred voices and was recruited from the choirs of thirteen churches.

This large chorus sang under the leadership of the organist of the Cathedral, Mr. John B. Norton, and showed evidence of careful training. The quality of tone was excellent, the parts were well balanced and the volume adequate. The attack was sharp and accurate, for a body of singers so scattered. The inaugural effort of the organization was a thorough success.

The vested choirs present were from Christ Church Cathedral, St. Georges's, St. James, Grace, Advent, St. Stephen (Lachine), and All Saints churches. Those non-vested were from St. Stephen, St. Thomas, St. Luke's, St. Jude's, Granby and St. Lambert. The vested portion of the chorus included eight boy voices.

His Grace Archbishop Bond preached the sermon; Rev. J. Dennis, Chambly, and Rev. Canon Longhurst sang the service, Very Rev. Dean Evans read the first lesson, 2 Chron. VII., 1-12, and Ven. Archdeacon Norton, the second, Revelations V.

THE CLERGY IN ATTENDANCE.

Other members of the clergy in attendance were: Archdeacon Kerr, Rev. Canon Chambers, Rev. Canon Evans, Rev. F. A. Pratt, Rev. G. Johnson, Rev. R. Taylor, Rev. J. Dennis, Rev. E. McManus, Rev. J. Flanigan, Rev. N. A. F. Bourne, Rev. Principal Hackett and Rev. A. W. Buckland.

Mr. P. J. Illsley was the solo organist, and Mr. C. S. Fosbery was accompanist for the chorus.

THE ARCHBISHOP'S DISCOURSE.

His Grace the Archbishop preached from the fifteenth verse in the fourteenth chapter of St. Paul's Epistle to the Corinthians, containing these significant words: "I will sing with the spirit, and I will sing with the understanding also."

"The keynote of our present theme is union," observed His Grace. "The object aim and object of our present association is the study and practice of church music.

"The great ultimate purpose is the praise and glory of God in the House of God. And chord music—the harmony of sweet sounds, the concert of voice and instrument is amongst the very best means for worshipping.

"For the success of a choral union the minds of the members must be attuned to the subject without being narrowed to sameness of taste; there must be harmony; there must be that principle which gives to each different sound its due place. There must be that power which makes all fall together in beautiful harmony, which strengthens and enriches the subject by the manifold gifts of God.

"In such a choral union there will be no clashing sentiments indulged; no place for envy or self-assertion, the voice of harsh carping, unkind criticism, will not be heard. There will be patient, wise, helpful, thought, with those who naturally lead and there will be modest, trustful obedience with those who, in doing their best, are content to take subordinate parts in the production of good music.

FOR GENERAL IMPROVEMENT.

"The choral union is not so much planned for exhibition as for general improvement. It is mainly intended to benefit the less favoured churches and congregations who are unable to avail themselves of the services of trained and skilful musicians.

"In preparing the music selected for each festival the members receive instruction from the conductor or his deputies, and at the festival have an opportunity of singing with the more highly trained chorus.

In concluding, His Grace said:

"Beloved, be careful in the conduct and management of this choral union. See to it that each member cultivates the spirit of Christian courtesy and good will. See to it that acting and reacting on one another may keep pace with the promotion of musical skill."

Irish Murderers Set at Liberty.

Lord Dudley, the new Irish Viceroy, has ordered the release of Martin, Pittock, and Thomas Joyce, life prisoners in Maryborough gaol in connection with what was known in Ireland twenty years ago as the "Maamtrasna massacre." Their release is regarded as the outcome of the tearful appeal of the female relatives of the prisoners to Lord and Lady Dudley during their recent motor-car tour through Connaught. The Maamtrasna murders constitute the most gruesome chapter in the history of Irish agrarian crime. Arising out of a dispute about a farm, a whole family named Joyce, male and female, were butchered at night in their lonely cabin at Maamtrasna, in the wilds of Connemara. What made the affair the more ghastly was the fact that the murderers were relatives of the victims. Of the men executed for the crime one was Myles Joyce. His death was tragic. He was standing on the trap-door of the gallows with the noose round his neck addressing those present in Irish—the only language he knew—and vehemently protesting his innocence, when the bolt was drawn. Through some blunder the rope got entangled in the unhappy man's arm, and the executioner had to set the matter right as best he could by lowering himself through the trap-door. A painful sensation was caused throughout the kingdom when this fact was published. It proved to be the last occasion on which reporters were admitted to executions in Ireland.

DOMINION MEDICAL REGISTRATION ACT DISCUSSED BY LANCET

The Canadian Lancet, in its last number, points out in criticizing the action of the Board of Governors of the College of Physicians and Surgeons of the Province of Quebec in reference to Dr. Riddick's Dominion Registration Act:

The article concludes as follows:

"The Medical Board of Quebec seem to be opposed to any curtailment of its privileges or acquired rights, or of anything that would compromise its autonomy or relieve it of a part of its control over medical studies. But we might say that the profession of Quebec would be represented on the Dominion Medical Board. We would also say that the other provinces are just as anxious to maintain a high standard of medical education as is Quebec. On this score the profession in Quebec would have no cause for complaint. The other provinces would relinquish as much as Quebec, but Quebec would be an equal gainer with them by the change.

"If, however, the Province of Quebec decides to continue its opposition to the Dominion Registration Bill, and the Dominion Parliament declines to so amend the bill as to make it operative as soon as five or more of the provinces approve of its terms, then it might be so amended that such provinces as do approve of the bill could form a common registration board, leaving it open to the province or provinces at first objecting to come in later. In this way a common standard could be established for nearly all of the provinces, and, no doubt, in course of time for all. Let us have a national profession."

McGill Undergraduates' Debate.

The McGill Undergraduates' Literary Society will hold a debate on Saturday evening when the following subjects will be discussed: "Resolved, that the attempted secession of the Southern States was not justifiable." The speakers in the affirmative will be Messrs W. P. Ogilvie, Law '04; D. Ross, Arts '05; and A. W. Cameron, Arts '05. Messrs. Geo. Irving, B. A., Arts '02, J. Omer, Arts '05; and T. Cotton, Arts '05, will speak for the negative. Mr. S. P. Leacocke, M. A., will be the critic, and Mr. W. H. Dawson will open the evening with a reading.

Praise Service in Olivet Church.

On Sunday evening next there will be a service of praise in the Olivet Baptist Church, Osborne street, when the Rev. J. L. Gilmour will preach, referring specially to the importance of music in church work, and giving the history of some of the well known hymns, with the particular thought designed by their authors.

At this service the choir will sing special anthems, including Mendelssohn's "Hear My Prayer," and Sullivan's "Evensong." The hymns forming the basis of the discourse will be sung during the service. Strangers are cordially welcomed.

A Pure, Wholesome and Well Matured Spirit.

Especially suitable to those who do not like strong whisky.

Being light and easily assimilable, it is highly recommended by physicians, to persons of sedentary habits, weak digestion, bilious temperament or troubled with disease of the urinary organs or bladder.

Mixed with Soda it makes a very refreshing and invigorating beverage.

A Mother To Mothers.

"I am the mother of five children," writes Mrs. S. E. Rose, of Big Otter, West Va., "and have been as high as eight days in the doctor's hands, and never less than two days with any child until the last. Then I had used two bottles of Dr. Pierce's Favorite Prescription and was only two hours in the hands of the doctor."

Dr. Pierce's Favorite Prescription is a woman's medicine. It cures diseases of the womanly organs. It is a wonderful medicine for mothers, making the baby's advent practically painless and giving abundant strength to nurse and nourish the child.

THE PUPPET CROWN
By HAROLD MacGRATH
THE GREAT ROMANTIC NOVEL

CHAPTER XII.—Continued.

"O, Monsieur," she said lightly, "you soldiers are such forward lovers! You have not even asked me if I love you." He made a move to regain her hands. "No, no!" darting behind the chair. "You must not take my hands, you do not realize how strong you are. I am not sure that my heart responds to yours."

"Tell me, what must I do?" leaning across the chair.

"You must have patience. A woman must be wooed her own way, or not at all. What a whirlwind you are!"

"I would to heaven," with a gesture indicative of despair, "that you had kept me behind bars and closed doors." He dropped his hands from the chair and sought the window, leaning his arms against the central frame.

Madame had fully recovered her composure. She saw her way to the end.

"It is true," she said, "that I do not love you, but it is also true that I am not indifferent to you. What proof have I that you really love me? None, save your declaration, and that is not sufficient for a woman such as I am. Shall I place my life in your hands, for better or for worse, simply because you say you love me?"

"My love does not reason, Madame."

She passed over this stroke. "I do not know you; it is not less than natural for me to doubt you. What proof have I that your declaration of love is not a scheme to while away your captivity at my expense? My heart is not one to be taken by storm. There is only one road to my affections; it is narrow. Other men have made love to me, but they have hesitated to enter upon this self-same road."

"Love that demands conditions? I have asked none."

Madame blushed. "A man offers love; a woman confers it."

"And what is this narrow road called which leads to your affections? Is your heart a citadel?"

"It is called sacrifice. Those who dwell in my heart, which you call a citadel, enter by that road."

"Sacrifice?" Fervour lighted his face again. "Do you wish my fortune? It is yours. My life? It is yours. Do you wish me to lead the army of the duchess into Bleiberg? It shall be done. Sacrifice? I have sacrificed the best years of youth for nothing; my life has been made up of sacrifices."

"Monsieur, if I promised to listen to you hereafter, if I promised a heart that has never known the love of man, if I promised lips that have never known the lips of any man save my father—" She moved away from the chair, within an arm's length of him. "If I promised all these without reservation, would you aid me to give back to the duchess her own?"

Instantly her arms were pinioned to her sides, and he had drawn her so close that she could feel his heart beat against her own.

"Have no fear," he said. The voice was unfamiliar to her ears. "I shall not kiss you. Let me look into your eyes, Madame, your eyes, and read the lie which is written there. My fortune and my life are not enough. Keep your love, Madame; I have no wish to purchase it. What! if I surrender my honour it is agreed that you surrender yours? A love such as mine requires a wife. You would have me break my word to the dead and to the living, and you expect me to believe in your promises! Laugh!" He pushed her from him, and resumed his stand by the window.

The hate of a thousand ancestors surged into her heart, and she would have liked to kill him. He had dared. He had dared to speak to her as no other man living or dead had dared. And he lived. All that was tigerish in her soul rose to the surface, only the thought of the glittering goal stayed the outburst. She had yet one weapon. A minute went by, still another; silence. A hand was laid tremblingly on his arm.

"Forgive me! I was wrong. Love me, love me if you must. Keep your honour; love me without conditions. I—" She stumbled into the chair, covered her eyes and fell to weeping.

Fitzgerald, dumbfounded and dismayed, looked down at the beautiful head. He could fight angry words, tempests of wrath—but tears, a woman's tears, the tears of the woman he loved!

"Madame," he said gently, "do you love me?"

No answer.

"Madame, for God's sake, do not weep! Do you love me? If you love me—if you love me—"

She sprang to her feet. Once again she experienced that shiver, again her conscience stirred.

"I do not know," she said. "But this I may say, your honour, which you hold above the price of a woman's love, will be the cause of bloodshed. Mothers and wives and sisters will execrate your name, brave men will be sacrificed needlessly. What are the Osians to you? They are strangers. You will do for them, and uselessly, what you refuse to do for the woman you profess to love. I abhor bloodshed. Your honour is the offspring of pride and egotism. Can you not see the inevitable? War will be declared. You can not help Leopold; but you can save him the degradation of being expelled from his throne by force of arms. The army of the duchess is true to its humblest sword. Can you say that for the army of the king? Would you witness the devastation of a beautiful city, by flame and sword?

"Monsieur, Austria is with us, and she will abide with us whichever way we move. Austria, Monsieur, which is Leopold's sponsor. And this Leopold, is he a man to sit upon a throne? Is he a king in any sense of the word? Would a king submit to such ignominy as he submits to without striking a blow? Would he permit his ministers to override him? Would he permit his army to murmur, his agents to plunder, his people to laugh at him, if he possessed one kingly attribute? No, no! If you were king, would you allow these things? No! You would silence all murmurs, you would disgorge your agents, you would throttle those who dared to laugh.

"Put yourself in the duchess's place. All these beautiful lands are hers by right of succession; is she wrong to desire them? What does she wish to accomplish? She wishes to join the kingdom and the duchy and make a great kingdom, as it formerly was. Do you know why Leopold was seated upon the throne?

"Some day the confederation will decide to divide all these lands into tidbits, and there will be no one to oppose them. Madame the duchess wishes to be strong enough to prevent it. And you, Monsieur, are the grain of sand which stops all this, you and your pride. Not even a woman's love—There, I have said it!—not even a woman's love—will move your sense of justice. Go! leave me. Since my love is nothing, since the sacrifice I make is useless, go; you are free!" The tears which came into her eyes this time were genuine; tears of chagrin, vexation, and of a third sensation which still remained a mystery to her.

To him, as she spoke, with her wonderful eyes flashing, a rich colour suffusing her cheeks and throat and temples, the dim candle light breaking against the ruddy hair; honour or pride, whichever it was, was well worth the losing. He was a man; it is only the Pope who is said to be infallible. His honour could not save the king. All she had said was true. If he held to his word there would be war and bloodshed.

On the other hand, if he surrendered, less harm would befall the king, and the loss of his honour—was it honour? would be well recompensed for the remainder of his days by the love of this woman. His long years of loneliness came back, he wavered. He glanced first at her, then at the door: one represented all that was desirable in the world, the other more loneliness, coupled with unutterable regret. Still he wavered, and finally he fell.

"Madame, will you be my wife?"

"Yes." And it seemed to her that the word came to her lips by no volition of hers. As she had grown red but a moment gone, she now grew correspondingly pale, and her limbs shook. She had irrevocably committed herself. "No, no!" as she saw him start forward with outstretched arms, "not my lips till I am your wife! Not my lips; only my hands!"

He covered them with kisses.

"Hush!" as she stepped back.

It was time. Maurice and the countess entered the room. Maurice glanced from Madame to Fitzgerald and back to Madame; he frowned. The Englishman, who had never before had cause to dissemble, caught up his pipe and fumbled it. This act merely discovered his embarrassment to the keen eyes of his friend. He had forgotten all about Maurice. What would he say? Maurice was something like a conscience to him, and his heart grew troubled.

"Madame" Maurice whispered to the countess, "I have lost all faith in you; you have kept me too long under the stars."

"Confidences?" said Madame, with a swift inquiring glance at the countess.

"O, no," said Maurice. "I simply complained that Madame the countess had kept me too long under the stars. But here is Colonel Mollendort, freshly returned from Brunnstadt to inform you that the army is fully prepared for any emergency. Is not that true, Colonel?" as he beheld that individual standing in the doorway.

"Yes; but how the deuce—your pardon, ladies!—did you find that out?" demanded the Colonel.

"I guessed it," was the answer. "But there will be no need of an army now. Come, John, the Colonel, who is no relative of the king's minister of police, has not the trick of concealing his impatience. He has something important to say to Madame, and we are in the way. Come along, Aeneas, follow your faithful Achates, Thalia has a rehearsal."

Fitzgerald thrust his pipe into a pocket. "Good night, Madame," he said diffidently; "and you, countess."

"Good night, Colonel," sang out Maurice over his shoulder, and together the pair climbed the stairs.

Fitzgerald was at a loss how to begin, for something told him that Maurice would demand an explanation, though the affair was none of his concern. He filled his pipe, fired it and tramped about the room. Sometimes he picked up the end of a window curtain and felt of it; sometimes he posed before one of the landscape oils.

"You have something on your mind," said Maurice, pulling off his hussar jacket and kicking it across the room.

"Madame has promised to be my wife."

"And the conditions?" curtly.

Fitzgerald pondered over the other's lack of surprise. "What would you do if you loved a woman and she promised to be your wife?"

"I'd marry her," sitting down at the table.

"What would you do in my place, and Madame had promised to marry you?" puffing quickly.

"I'd marry her," answered Maurice, banging his fist on the table, "even if all the kings and queens of Europe rose up against me. I would marry her, if I had to bind her hands and feet and carry her to the altar and force the priest at the point of a pistol, which, in all probability, is what you will have to do."

"I love her," sullenly.

"Do you know who she is?"

"No."

"Would it make any difference?"

"No. Who is she?"

"She is a woman without conscience; she is a woman who, to gain her miserable ends, will stop neither at falsehood, deceit nor bloodshed. Do you want me to tell you more? She is—"

"Maurice, tell me nothing which will cause me to regret your friendship. I love her; she has promised to be my wife."

"She will ruin you."

"She has already done that," laconically.

"Do you mean to tell me—"

"Yes! For the promise of her love I am dishonoured. For the privilege of kissing her lips I have sold my honour. To call her mine, I would go through hell. Man! do you know what it is to be lonely, to starve in God forsaken lands, to dream of women, to long for them?"

"And the poor paralytic king?"

"What is he to me?"

"And your father?"

"What are my dead father's wishes? Maurice, I am mad!"

"You are a very sick man," Maurice replied crossly. "What's to become of all these vows—"

"You are wasting your breath! Do you remember what Rochefoucauld said of Madame de Longueville? 'To win her heart, to delight her beautiful eyes, I have taken up arms against the king. I would have done the same against the gods.' Is she not worth it all?" with a gesture of his arms which sent the live coals of his pipe comet-like across the intervening space. "Is she not worth it all?"

"Who? Madame de Longueville" I thought she was dead these two hundred years!"

THE CABINET VACANCY.

If proof were wanting that the Government has been weakened by recent events, it would be found in its vacillating conduct with regard to the appointment of Mr. Tarte's successor. It is nearly three weeks since the Minister of Public Works surrendered his portfolio. Sir Wilfrid might then have given the portfolio to a Chinaman and all sections of his party would have applauded the sagacious statemanship which dictated the selection. Every day that has passed since then has added to the difficulties and complications of the situation. The partizans of this candidate and of that have worked themselves into a frenzy of excitement, and to-day it is impossible for the Premier to appoint any man to the vacant position without giving mortal offence to a large number of disappointed supporters. The longer the choice is postponed the worse the trouble gets. In another week every pettifogging ward heeler in this province who has identified himself with the party will feel that he has about as good a claim upon the vacant portfolio as any of the men whose names have been mentioned. The Premier should grasp his nettle and appoint the man he himself wants. In a multitude of counsellors there is too much wisdom for the present situation.

ST. JAMES STREET.

The Montreal Business Men's League, assisted by a number of business men whose offices are on St. James street, has taken the trouble to get up a numerously and influentially signed petition to the Mayor and aldermen asking that St. James street be cleaned and repaired. The names of practically all the principal real estate owners and of the heads of the chief business establishments on the street are to be found attached to the petition. A similar petition was presented the other day from the owners and tenants on St. Paul street.

It seems strange that it should be necessary for private citizens to go to all this trouble in order to get the principal business street in the city put into fairly decent condition. It will be still more strange if the Council does not take prompt action in the direction suggested by the petitioners.

SAVE THE CHILDREN FROM THE STREETS.

The Parks and Ferries Committee of the City Council has promised to consider the request of a delegation of ladies that playgrounds for children be established throughout the city.

More than the little folks—and their friends, the ladies—will hope that the Committee will consider it favourably. As things are, the streets are necessarily the playgrounds for a very great number of children. They cannot—except on rare occasions—go to the large open spaces in and near the city, such as Fletcher's Field, for the shorter play-times that come to them after school or work. So they must take their amusement in the streets.

No place could well be worse. Dangers drive at them from every corner—especially at the younger children. Disease lurks in the poisoned dust they constantly breath, kicked up from the filthy roadway by passing horses or their own vigorous play. Sunshine is apt to be almost as scarce an article as pure air; and both are requisites for a children's playground.

Then they are a nuisance on the streets. They frighten horses, charge into pedestrians, throw their balls through windows, and generally interfere with the proper uses of the public thoroughfares. No one wants them there; and they do not want to be there. It is bad for them, physically, mentally and morally; and it is bad for the community.

The cure is to provide them with proper playgrounds in convenient places and of sufficient area. It will pay all round. The saving in store and house windows alone will be considerable. Business will get on the better for it. Fewer runaway accidents, with their danger to life and limb and their damages to vehicles and contents, will occur. Fewer accidents to children on the streets will be chronicled.

As for the little folk themselves, they will have an immensely better time of it, grow up healthier and more contented, escape many dangers both to mind and body, and give us a far more useful generation with the next turning of the cycle of life.

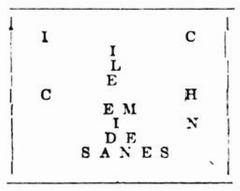
By all means, let us be civilized enough to rescue the children from the streets.

SIDE BY SIDE.

Several London papers, in noting the "American invasion" of Canada, express the fear that the movement will result in the creation of sentiment, adverse to British institutions. We in Canada who know what "British institutions" mean, when united to the home rule of an autonomous government, do not share that fear. We are willing to allow the new-comers to make comparisons, test results, and abide by them. Thousands—hundreds of thousands—of Canada's sons have crossed the border into the United States, and the fame of our principles of good government is not unknown in the republic through these agents. That they have become American citizens argues less for our prosperity than for our system of government.

Now that the times have changed, and the tide is setting towards our country; now that we can offer unlimited prospects in a material sense, as well as the safeguards called for by the most exacting seeker after civic freedom, little concern need be felt over any American influx of population. We gave the American miners British law, tempered and strengthened by Canadian interpretation and administration in the Klondike, to their entire satisfaction. We shall give the over-border settlers in the Canadian North-West an example of justice and faith-keeping in respect to the Indian wards of the nation, which will stand favourable comparison with the American system, which they already know. And as their mission is not of conquest, but for the pursuit of the peaceful arts of agriculture and commerce, we shall also be enabled to show the new-comers that in Canada all the basic elements of the best type of civilization are deeply rooted in our soil, and that the glorious superstructure bids fair to become one worthy of their effort and aid in the adorning.

Pickwickians will remember the stone whose inscription after long bothering the Pickwick Club, was deciphered as "Bil Stumps, his mark." A Paris correspondent of the Daily News thinks he has discovered the source where Dickens got the idea of that famous puzzle for his antiquaries. In a letter to Forster he alludes to Mercier's "Tableau de Paris," in which it is recorded that when certain houses were pulled down at Belleville, a stone was found with this inscription:



The Paris Academy of Inscriptions and Belles Lettres strove vainly to decipher the heiroglyphics. Their meaning was made clear by the Beadle of Montmartre as "Ici le chemin des anes" or Here is the donkey path. It was a notice to quarrymen who were accustomed to employ donkeys in transporting stone.

One good thing about Mr. Chamberlain's visit to South Africa, is that we are now apt to get the truth about Sir Gordon Sprigg's position. The cables continue to represent him as a spineless limpet clinging to office, though he must endure the tyranny of the Bond in order to do so. But the cables seem to have been bitterly prejudiced against him from the first. In fact, the men at the Cape Town end of the cable were openly for the suspension of the Constitution, and have never appeared to see any hope for the Government which attempted the delicate and difficult task of rendering this drastic step unnecessary. Mr. Chamberlain, on the contrary, was against the suspension of the Constitution, and sent Sir Gordon out to endeavour to rule constitutionally. Now he will visit the scene and learn by personal observation whether or not that was a mistake. He provided for a reversal of this policy, in case it proved impracticable, when he decided upon it; and he will be the very best judge whether the safety of the Empire calls for any interference with free government. The Empire would be reluctant to see it done; but it would be still more reluctant to see all the fruits of the war dissipated by a mistaken tolerance. "Joe" should either detach Sir Gordon from office, or call down the cable correspondents.

A false quantity in Latin quotation, when Parliament Men of old were addicted to the habit, was said to be more fatal to a member than almost anything short of not paying his bets. English M.P.'s of the present are not so fond of airing their literature, possibly because they fear being snapped up on the spot. It was remarked in London, the morning after the recent Lord Mayor's Dinner to Ministers of State, that Mr. Chamberlain's beautiful tribute to the steadfastness and sincerity of Mr. Balfour had been most unhappy in one respect. It concluded with the lines:

"Statesman, yet friend to truth, in soul sincere,
In action faithful and in honour clear,
Who broke no promise, served no private end,
Who gained no title, and who lost no friend."

These form, it appears, part of the Westminster Abbey epitaph on Secretary Craggs, of whom "The Deanery Guide" says:

"Had Craggs lived until the inquiry into the South Sea Bubble was concluded this panegyric could hardly have been written, for the Secretary of State and his father were down in the company's subscription lists for the fictitious sum of £330,000."

One is reminded of old Mrs. Farebrother in Middlemarch. After she had talked against an obnoxious person it was pointed out to her that the scandal she had directed against him really referred to another individual. No matter, it might be true of him in some other case, she retorted triumphantly. Mr. Chamberlain might well plead, if it were worth while, that the lines which were false for Craggs were true for Balfour.

Real Huot, a South African hero, is missing and his friends at Shawinigan, Que., are anxious about him.

THE PASSING HOUR.

DOESN'T HE, THOUGH!
(London World.)

MR. TARTE'S RESIGNATION.

("Mr. Tarte declares that he retires without bitterness towards any one."—Reuter's telegram.)

Patient Mr. Tarte,
Though he suffered smartly,
Takes it in good part—
Does not answer tartly.

If the Pacific cable is an "all-red-line," Marconi's wireless and atmospheric line may surely be considered as all-blue.

Mr. Goldwin Smith thinks that Sir Wilfrid took the only possible course in London. He agreed with him on the Tarte matter, too. Sir Wilfrid had better look-out.

While Lord Minto is in Montreal, and Parliament is not sitting, Ottawa will have to get up a fire if it wishes to see its name in the papers.

SHOCKING IGNORANCE.

Walter—I guess Mrs. Smiff don't know much, ma.
Mother—Why, my boy?
Walter—Why, she asked me how to spell cat.

Ross is said to be counting his majority as three now. He must be depending upon "the machine" to see to it that these unseated Conservative candidates do not get back again.

There will be a lot of sympathy with the police officer who thought it would be a shame to destroy the good liquor he had seized. It would take a Carrie Nation to carry out that policy.

Mrs. Carrie Nation has been in a railway wreck. It probably came natural to her to take down the company's axe from the end of the car and cut her way out.

So it seems that England has not noticed that the "preference" prefers. Mr. Fielding should have found out how Germany likes it.

William S. Devery delivered himself of a few pungent puffs on David B. Hill on election day. Said the redoubtable William: "Say, Sport,"—he tore off the fag-end of his cigar with his teeth and shook off the results with a wag of his head that reminded one of the action of a huge dog getting rid of the wet when he leaps from the water to the land,—"Hill's been the biggest hoodoo for Coler durin' the whole campaign. The man that built the loop-the-loop couldn't have got it more crooked if he studied that man David B. Hill. I tell you, sport, it ain't for Hill to call other people names. He's 'a dead one, anyhow, an' the Democratic party won't wear no widdy's weeds for him, I'm thinkin'.

"He's too short in the legs, anyway, to stan' up an' fight. Hill's the Eyetalian of politics. He's always diggin' the trench for the sewer pipes, an' those are the only kind of pipes he knows how ter use, an' that ain't no fancy dream, neither.

"No, sport, I ain't no Hill man."

Giles—Many a man's thirst for liquor is due to his poverty.
Miles—How's that?
Giles—If wealthy he wouldn't allow himself to have a thirst."

A QUARTER FOR HENRY.

Mrs. Henrietta whispers in her husband's henpecked ear;
"Here's a quarter for you Henry, it will be a-plenty, dear."

When poor Henry tries to argue: "Fifty cents, my dear, to-day."
Henrietta points her finger: "Henry, not a word, I say!"

And the people say: "He's awful! All he thinks of in this life
Is his money—money—money! How I'd hate to be his wife!"
—Indianapolis Sun.

Phrenologist—This large bump indicates that you are eccentric.
The Victim—Wrong, professor. It indicates that my wife is strenuous.

Sir Vere—Oh, how you do chaff—you never take me seriously.
Bashful Belle—You never asked me.

Alice—What makes you think your new photographs are so horrid?
Gladys—All the girls ask for one, but the men don't.

"Do you know," said the long-haired passenger, "that paper money is a great carrier of disease germs?"
"I do," replied the sporty-looking youth in the seat ahead. "That's why I burn it as fast as I get it."

"Why did you throw stones at poor kitty?"
"'Cause I wanted to hit her. Whatdjer s'pose I did it fer?"

Mrs. Sweetbird—I hear that you are studying art. Do you find it interesting?
Mrs. Wellington—Delightfully so. I've found a perfectly splendid book on the subject. It tells just what pictures one ought to admire and why.

Kitty—Fred Sweester asked me last night to marry him. The idea! He hardly knows me!
Imogene—That might have been the reason, dear.

"I notice I am very like the moon,"
Thoughtfully murmured Man-Afraid-of-Water;
"For, when I have been full, I very soon
Find that I am reduced to my last quarter."

IN THE BARBER'S SHOP.

Man in the Chair—Why in time didn't you tell me my coat was afire?
Operator—Customers are so particular nowadays, sir; they don't like to have any advice or suggestions made to them.

When a locomotive goes off on a toot the engineer is generally carried home in a cab.

Little Willie—What's a philosopher, pa?
Pa—A philosopher, my son, is a man who can point out a dozen reasons why other people should be content with their lot.

Bingo—I'm going to bring my wife round to call on you to-night.
Winterby—That's right; but do me a favour, old man. Don't let her wear her new sealskin cloak. I don't want my wife to see it just now.
Bingo (grimly)—Why, that's what we are coming for.

Helen—Why is it novels always have a good ending?
Sue—Well, the one I read yesterday didn't have a good ending.
Helen—It didn't?
Sue—No; mamma threw it in the fire.

MRS. HALL LACKED SUFFICIENT FOOD

Jury Holds Miss Gobeille Criminally Responsible for Another Death.

THE MEDICAL EVIDENCE

Physicians Found Sanitarium Patient Very Emaciated — Evidently Poorly Nourished.

"That Mrs. R. G. Hall died at Montreal on Wednesday, November 5, 1902, from not receiving proper and sufficient nourishment.

"We find that Robert George Brown is to be excused, he having acted in good faith, but we hold criminally responsible for his death Miss Virginia Gobeille, who undertook to treat and did treat the deceased."

The above verdict was returned at the inquest held yesterday afternoon into the death of Mrs. R. G. Hall, who died on Wednesday in the sanitarium kept by Miss Virginia Gobeille, at 1742 St. Hubert street.

The inquest was held at the morgue and great interest was manifested in the proceedings. Coroner McMahon presided.

Miss Virginia Gobeille and the Brown family were defended by Messrs. Martin and Archibald, of the law firm of Martin, Archibald & Mann.

Dr. C. E. Dugas and Dr. D. D. MacTaggart made the autopsy. In their report it was stated that the internal organs of the deceased were in a fairly healthy condition. The general emaciation of the body showed a lack of nutrition.

Dr. MacTaggart, when put on the stand, swore that in his opinion death was due to lack of nourishment. He did not know of any reason why solid foods should not have been given to the deceased. He had attended Mrs. Hall in the early part of July for a woman's ailment. He advised her to go to the General Hospital. She went to the hospital and was placed in the women's disease ward under the care of Dr. D. H. Cameron. After she left the General Hospital he had been called to Prince Arthur street to treat her and on that occasion he had advised her daughter to have her sent to some asylum, as she was in need of a complete rest. A few evenings ago he had been called by Mr. Brown to go to the sanitarium in St. Hubert street to see Mrs. Hall. He then found her in a very much emaciated condition and exceedingly weak.

ADVISED MILK AND LIME WATER.

He advised milk and lime water. Mr. Brown had requested him to go and see her again in the morning, but on his arrival at the place he found the woman dead.

On being cross-examined by the Coroner, he admitted that the deceased had lost considerable flesh in the General Hospital, and the reason she left the hospital was because she positively refused to undergo an operation, but he did not consider her ailment of a nature that it might have caused death. She was of a very nervous temperament when he saw her the evening before she died; she appeared to recognize him, but she did not say anything.

Alexander N. Shewan, of 117 Prince Arthur street, Principal of the Lansdowne School, declared under oath that the deceased had been his housekeeper and had left his place to go to the General Hospital and when she left the General Hospital she had gone back to his home. From August up to the end of September she was quite ill and did very little work in the house. She had declared to him that an operation would kill her. It was at his house that Mrs. Hall became insane.

Robert George Brown, of 123 Bleury street, brother of the deceased, was then put on the stand. Before giving his evidence he was warned by the Coroner that he did not know what the outcome of the inquest would be and he need not testify unless he so desired.

Mr. Brown left the Court room and after a consultation with his legal advisers, returned and said that he was ready to make a statement. He then said he was the brother of the deceased, whose maiden name was Mary Ann Brown. His sister had left the Montreal General Hospital for the reason that she would not undergo a surgical operation. She was of the opinion that it would kill her. When she left the hospital he had advised her to continue treatment with Dr. MacTaggart. When his sister lost her reason she thought she had killed Mr. Shewan's boy and that she was going to be arrested and tried for the crime. It was then a question of taking the deceased to the Asylum or to Miss Gobeille's Sanitarium mission, in St. Hubert street. He had heard of wonderful cures that had been accomplished by Miss Gobeille, so decided to take his sister there on trial. On examination, Miss Gobeille had pronounced his sister a very bad case and only consented to a trial provided one of the family would remain with her nearly all the time. He had been at the sanitarium as often as two and three times a day. On the morning after her arrival, she was given prune water, but she took very little of it. Afterwards, she fell in a faint and it took Miss Gobeille about two hours to revive her with massage treatment.

VERGE OF NERVOUS INSANITY.

Before going to Miss Gobeille's his sister was on the verge of nervous insanity. While in the institution, he had often asked her if there was anything he could get for her to eat, and her reply was generally that it was no use, that she could not keep anything on her stomach. When Miss Virginia Gobeille was brought in, the Coroner again warned her, and her legal adviser requested her to make no statement whatever. She then withdrew from the room.

The jury being composed entirely of French-Canadians, the Coroner summed up the evidence at great length in the French language only. Among other things, he said that the Brown family had acted in good faith, but he charged very strongly against Miss Gobeille. The jury were locked up for about twenty minutes, when they brought in the verdict above quoted.

WILL NOT TREAT PATIENTS.

Miss Arendt, who is Miss Gobeille's associate in the business, was at the inquest, and the meeting of the women was very affectionate. To a representative of the Star, Miss Arendt stated that there is at the present time a mute woman at the sanitarium. Her condition is not serious, but in the absence of Miss Gobeille she has no intention whatever of taking any risks, and is not going to treat any patients. It appears the mute has neither home nor friends, and she dreads the thought of going to gaol for protection. Miss Arendt will request the authorities to-day to find a place for her.

Present Condition of the Jews.

"Thousands of Jews in New York or hundreds of Jews in Montreal never attend any religious service. Religion looses its power upon them and atheism, infidelism, anarchism is spreading amongst them."

This was the statement made by Rev. J. T. Trebitsch, Jewish Missionary, in a lecture delivered in Westmount Methodist Church, on Wednesday evening. "The present condition of the Jews," was the subject of the lecture. The Secretary of State of the United States, Hon. John Hay, had once more, said the speaker, called the attention of the civilized world to the condition of the Roumanian Jews. The various nations of the globe are various embodied principles, incarnated ideas. And wonderful enough, all those nations, having played their part on the stage of the world's history—pass away. To this eternal rule, there is only one exception, the history of the Jews. Their history is a living one, has flesh and blood, is a real act and fact of a living God.

Mr. Trebitsch spoke at length about the Zionistic movement and said that it will never solve the Jewish problem. The only solution is when the Jews accept Christ as the true Messiah and Saviour. Then a new era will dawn, when it will be realized fully and gloriously that the Jews are witnesses for God.

TRAFFIC INCREASE ON SOO CANALS.

Mr. Johnson, Dominion Statistician, Furnishes the Results.

OTTAWA, November 7.—An analysis of the traffic of the Soo canals, prepared by Mr. Geo. Johnson, Dominion statistician, shows that the total freight carried by the two Soo canals, Canadian and United States, during the month of October last, was 4,618,291 tons. This is 443,746 tons more than were carried in October, 1901, and 1,428,998 tons more than the quantity carried in October, 1900.

Of the total 4,618,291 tons carried by the two canals, the Canadian "Soo" carried 604,713 tons, which exceeds the freight carried in October, 1901, by 250,330, and that in October, 1900, by 261,781 tons.

The total east-bound freight carried by the two "Soos" in October last was 4,028,084 tons, of which the Canadian canals share was 525,015, or 13.03 per cent., against 3,518,200 tons, or 7.80 per cent. in October, 1901, and against 2,675,894 tons, or 9.77 per cent. in October, 1900.

The total west-bound freight carried by the two "Soos" in October last was 590,208 tons, of which 79,698 tons were carried by the Canadian Soo, or 13.50 per cent., against 77,839 out of a total of 656,345 tons, or 11.86 per cent. in October, 1901, and against 81,403 out of a total of 513,399 tons, or 15.85 per cent. in October, 1900.

The registered tonnage of vessels using the Canadian "Soo" during October last was 617,749 tons, an increase of 325,833 tons, compared with October, 1901, and of 237,737 tons compared with October, 1900.

The number of passages made through the Canadian canal in October last was 620, an increase of 37, compared with October, 1901, and 162, compared with October, 1900.

Taking the seven months of the present and two previous seasons, the total freight carried east and west by the two canals was 1902, 30,931,216 tons; 1901, 24,543,610 tons, and 1900, 23,030,766 tons. Thus, 1902 shows a gain of 6,387,606 tons, compared with 1901, and of 7,840,450 tons, compared with 1900.

The total freight carried by the Canadian "Soo" in the seven months of the three years is: 1902, 3,979,280 tons; 1901, 2,514,145 tons; 1900, 1,844,426 tons; gain, 1902 over 1901, 1,438,147 tons, gain, 1902 over 1900, 2,134,864 tons.

Compared with the United States "Soo" and Canadian, together for the seven months, the Canadian canal carried 12.86 per cent. of the total freight in 1902; 10.24 per cent. in 1901, and 7.99 per cent. in 1900.

The registered tonnage of vessels going through the Canadian canal in the seven months of each year is 1902, 3,923,499 tons; 1901, 2,122,569 tons; 1900, 2,008,191 tons, showing a gain of 1,800,960 tons in 1902 over 1901, and of 1,915,308 tons over 1900. The per cent. of Canadian tonnage to total of the two canals for the seven months is: 1902, 14.14 per cent.; 1901, 9.95 per cent.; 1900, 9.90 per cent.

THE U. S. AND NEWFOUNDLAND.

Some Changes Will Probably be Made in Present Form.

WASHINGTON, November 7.—Secretary Hay and Sir Michael Herbert have again taken up the Bond treaty providing for limited reciprocity between the United States and Newfoundland. The convention was reduced to form before the Newfoundland premier left Washington a short time ago, but since then it has been the object of careful study here and in London, and it is believed at Ottawa as well, and some changes may be required.

The Danish minister, Mr. Brun, called at the State Department and with Secretary Hay signed an additional article to the reciprocity treaty relative to the Danish West Indian Island of St. Croix, extending for one year, from November 19, the period of time allowed for the ratification of the document.

Proposed English Coal Combine.

BIRMINGHAM, November 7.—The latest version of the syndicating of the collieries of the United Kingdom represents the scheme as formulating a combination similar to the German coal ring, with the view to regulating prices and wages and resisting the encroachment of American trusts. It will be a pooling arrangement, under which, in the event of part of the collieries closing owing to strikes or over production the owners will be compensated from a national reserve fund. It is expected that as the movement is aiming to keep the trade in British hands the miners will co-operate.

Canadian Home Missions.

TORONTO, Ont., November 7.—A joint meeting was held yesterday of the commissioners appointed at the Methodist General Conference in Winnipeg and the Presbyterian General Assembly in Toronto, to arrange co-operation in the home mission fields. The opinion of the meeting showed the greatest unanimity as to the desirability of co-operating, and the two general secretaries, Drs. Sutherland and McLaren, were instructed to communicate with the Home Missions superintendents, and the meeting then adjourned.

President Norton's Denial.

TOLEDO, November 7.—President Norton, of the Clover Leaf, when shown a despatch from Montreal, which stated that the Detroit and Toledo and Shore line had been acquired jointly by the Grand Trunk and Clover Leaf, denied positively that the Clover Leaf had any connection with the deal. It is understood here, however, that certain interests allied with the Clover Leaf have joined with the Grand Trunk in the deal.

Long Strike in Spain.

MADRID, November 7.—The strike of the weavers at Mataro, an industrial centre of Catalonia, is becoming very serious. The men have been out now for thirty-two weeks. Their funds are exhausted, and they have appealed to the public for subscriptions to help them out. They say starvation is staring them in the face. The masters remain stubborn, and refuse to yield to the demands of the strikers.

Captain Coleman Again Arrested.

VICTORIA, B. C., November 7.—Captain Coleman, of San Francisco, who was arrested here, charged with kidnapping his daughter, who was awarded to the mother after divorce, applied for release on habeas corpus yesterday. The application was granted, but Captain Coleman was again arrested on a warrant telegraphed from San Francisco. He will fight extradition. He has been released on $2,000 bail.

SIFTON MURDER TRIAL AT LONDON

Previous Evidence of Missing Witnesses Read to Jury.

SIFTON MADE MONEY OFFERS

Two Brothers Stated Gerald Sifton Had Offered Them One Thousand Dollars.

LONDON, Ont., November 7. — In the absence of the two Morden brothers—James and Martin—who are said to be in Davenport, Iowa, and refused to return to this city to give evidence in the Sifton murder trial, their evidence given at the last trial was read yesterday, under section 687 of the Code.

Mr. J. B. McKillop, Assistant County Crown Attorney, began the evidence of Jas. Morden, who resided on the seventh concession of the township of London, at the time of the murder. Gerald Sifton had approached Morden with an offer of $1,000 to help him "smash the old man's head in," or, failing in this, to choke him and hang the body from a beam in the barn to give the impression of suicide. Morden refused to do this, and Sifton then enquired for witness' brother's address, saying he would get the brother to do it. Morden then told prisoner how to reach Martin Morden, in this city. Witness admitted to Mr. Johnston that he believed prisoner to be a murderer. Witness also thought the old man was going to be killed, but said nothing to either Joseph Sifton or his (witness') sister, not wishing to expose himself with a man who would kill his father.

MARTIN MORDEN'S EVIDENCE.

Martin Morden's evidence was then read. Witness had been approached with an offer of money for his assistance in getting "the old man" out of the way. Gerald Sifton had proposed setting a trap for his father, and, if this did not work, a couple of blows would do it, prisoner had said. Another proposition was to use the contents of a small glass vial, produced by prisoner and containing a light colored crystallized substance. Witness refused absolutely to go, and prisoner then declared he must do it himself, though it was a risky job for one man. Gerald Sifton saw witness the following afternoon and told him the old man had been knocking boards off the barn, and had flew into a rage and fell out, with the axe in his hand, and had fractured his skull. Prisoner had offered the two brothers $1,000 to be divided between them if they would keep quiet about what had happened.

The cross-examination of the two witnesses by Mr. Johnston was then read as given at the last trial.

LOOKING FOR MORDENS.

The first witness examined yesterday afternoon was ex-Policeman Robert Robinson. He identified Gerald Sifton as the man he had accompanied on the night of June 29, in an effort to locate the lodging place of Martin Morden, on Dundas street.

Mrs. Phoebe Whitehead was then called and testified to Gerald Sifton's calling at her home on the night of June 29, and enquiring for James Morden. James was not at home, but Martin was, and a few minutes later Martin went out with Gerald, but returned in a few minutes.

Andrew Gardiner, a neighbour of Joseph Sifton, was next put on the stand. He considered it a very venturesome thing for Joseph Sifton to climb up to knock boards off the barn. He also said it would not be a difficult task for a man to slip from the footing he could get under the prevailing conditions.

GENERAL MILES MAKES REPORT

He Says American Troops are Not Well Sheltered.

WASHINGTON, November 7. The annual report of Lieut.-General Miles, commanding the United States army, is a brief review of the reports that have been submitted to him by other officers. He endorses the recommendation of General Brooke for a re-adjustment of the geographical limits of the different departments with a view of equalizing conditions. General Miles calls attention to the necessity of quarters for troops, saying that while hundreds of thousands of dollars are being spent for quarters for cavelry very little is being used to afford shelter for artillery, which is exposed to severe climates along the coasts. General Miles says:

"I also call attention to the incomplete condition of the fortifications, especially on the Pacific coast, where millions have been expended in engineering and ordnance work, and yet the commands have not been properly supplied with ammunition, electric plants and other appliances essential to the effective use of these fortifications in actual warfare."

English Railway Men Visit Buffalo and Niagara Falls.

BUFFALO, N. Y., November 7. — A party of English railway men arrived in Buffalo last night. They are: H. A. Watson, general superintendent; Mr. Cudworth, chief engineer, and Mr. Raven, superintendent of motive power, of the North-Eastern Railway of England. They are to inspect the American railway systems and the electric plants and power-development work of this country and Canada.

Yesterday morning the party was taken through the General Electric Company's plant, and shown the interlocking system at the railway yards. At noon they proceeded to the Falls in a special car, to inspect the power plant, the pneumatic signal station and other places. To-day they go to Lockport and then to Montreal, Schenectady and Boston.

TOLSTOI'S "THE RESURRECTION"

Promises to be Theatrical Event of Paris Season.

PARIS, November 7. — Tolstoi's drama, "The Resurrection," is being rehearsed at the Odeon. It promises to be the theatrical event of the Paris season. It contains striking scenes depicting alternately the life of the Russian aristocracy, life in a Russian prison, and the transportation of convicts to Siberia. The Russian authorities have granted the use in Paris of actual prison dresses from the Moscow gaol. The play has been adapted for the English stage by Michael Morton, and has received the sanction of the Lord Chamberlain.

All-red Line Cable Rates.

OTTAWA, November 7—Sir William Mulock has been notified by the Pacific Cable Board of the tariff for messages via the All Red between points in Canada and all points in Australia or New Zealand, when it shall be opened to the public. Every word of a message will be counted and the charge will be two shillings and fourpence per word. The present rate from Ottawa to Australia is 99 cents per word. The old rate, prior to the recent cut, was $1.50 per word.

Improvements at Ottawa.

OTTAWA, November 7.—Hon. W. S. Fielding, Hon. Clifford Sifton and H. N. Bate, chairman of the Ottawa Improvement Commission, and Engineer Surtees, drove over the works of the commission. The ministers inspected the King Edward avenue and the canal driveway as far as Concession street. They expressed themselves as delighted with what had been done and warmly congratulated Chairman Bate and Mr. Surtees.

MRS. STEPHENSON FOR MOLINEUX

Makes It Appear That Cornish Mailed Poison Package.

IDENTIFICATION NOT POSITIVE

Six Other Witnesses Were Examined Yesterday, But They Were Not Important.

NEW YORK, November 7.—The greatest sensation in the second trial of Roland B. Molineux, charged with the murder of Mrs. Katherine J. Adams, came late yesterday, when Mrs. Hannah Stephenson, the wife of a Brooklyn policeman, was called to the stand by the defence and testified positively that Molineux was not the man who mailed the now famous poison package at the general post-office on the evening of December 23, 1898.

This woman was asked by an interviewer why she had waited so long to bring her story to public notice. She replied:

"I was sick early in the year 1899. I told my family about this incident, but they advised me to keep out of the case. It worried me, however, and I finally induced them to allow me to go to the court-room at the previous trial and see the defendant. I saw at once that Molineux was not the man that had mailed that package, but I got there only in time to hear Mr. Weeks announce that the defence would call no witnesses.

"I then told my experience to Gen. Molineux, and it was referred to the lawyers. They have subpoenaed me to come to court, and I am ready to go upon the stand whenever it shall be so desired."

THOUGHT CORNISH THE MAN.

Yesterday the witness partially identified Harry Cornish, who was asked to stand up in court, as the man whom she saw standing in front of her in the line at the post office, and holding in his hand a package addressed to "Mr. Harry Cornish, Knickerbocker," that was all she saw. Her identification of Cornish was not positive. She said he looked very much like the man, but hesitated before replying affirmatively, when asked if she did not think he was the man. The account given by the witness of her movements on the evening of December 23, and her reasons for not appearing at the first trial were given in detail.

The prosecution on cross-examination brought out the fact that Mrs. Stephenson had suffered from attacks of nervous prostration within the last two years, and had carefully read the details of the former trial. The questions of the Assistant District Attorney tended to show that an effort would be made to show insanity or delusion under hysteria, and that he may attempt to prove an ahbi for Cornish. The witness, under questions by the prosecution, said there were three stamps on the package, and when shown the wrapper with five stamps on it in two rows, said she might have overlooked the lower row.

SEVEN WITNESSES EXAMINED.

After the noon recess yesterday seven witnesses testified that Molineux did not write the poison package address. Louis Jacobson, who works in a New York drug store, testified that he knew Cornish and Mrs. Rogers well, and that he frequently saw them together. He said he had sold bromo-seltzer to Mrs. Rogers. Cornish, in his testimony, swore he had never tasted bromo-seltzer, and Mrs. Rogers said she had never bought any of the stuff.

The Assistant District Attorney, in cross-examining Jacobson, got the witness to admit that he could not remember the names of any others of his customers who drank bromo-seltzer. The defence then called Wm. J. Liell, proprietor of a drug store, near the house where Mrs. Adams died. Cornish testified that when Mrs. Adams became sick he ran to Liell's store, and Liell gave him aromatic spirits of ammonia, Liell corroborated that testimony.

"How did Cornish look?" Mr. Black asked.

"He was very much excited," replied the witness.

Emma Miller testified that she sold the bottle-holder in which the poison was sent after the store lamps were lighted, and Barton Huff, a travelling salesman, said he was in Hartegan's store at the time. He said a man brushed by him, and asked to see a silver bottle-holder, but witness did not see him buy it. He described the man, his description tallying with that of Miss Miller.

MRS. STEPHENSON CALLED.

Mrs. Anna C. Stephenson, of Brooklyn, the eagerly awaited witness, who says she saw the poison package mailed by a man not Molineux, was called late in the afternoon. Men and women stood on their seats to see her, but order was quickly restored in the court room.

Replying to a question as to what she did Friday, December 23, 1898, Mrs. Stephenson said she went to the main Post Office in New York to mail a package, and got in line with other persons. A man in front of her with a package aroused her curiosity, because he seemed very nervous, and she saw the name "Cornish" and the words "Knickerbocker Club" on the package. She said the man left the Post Office, and she did not know where he went after that. The poison package wrapper was shown to the witness, and she said the address looked like the one she saw in the Post Office. Mrs. Stephenson said she attended the coroner's inquest, and saw Molineux. She was sure he was not the man, and told her husband she ought to make known her knowledge. He persuaded her that there was no occasion for her to mix up in the matter. When the trial came off she went to offer her testimony, but was shut off by the decision of the lawyers to offer no defence. Then, after Molineux's conviction she sent word of the evidence, she had to give to General Molineux.

"Is that the man you saw with the package in the post office?" asked Mr. Black as Molineux stood up.

"It is not," said Mrs. Stephenson with added emphasis.

NOT QUITE POSITIVE.

"Do you think you could recognize the man who mailed the package?" asked Mr. Osborne in opening his cross-examination.

"I think I can."

"Do you say Cornish is that man?"

"I say he looks like him."

Cornish stood up at the invitation of the Assistant District Attorney and the witnesses regarded each other steadily.

"Is that the man?" Mr. Osborne said.

"It looks very much like him," Mrs. Stephenson replied.

"But is it?"

"To the best of my recollection, it is."

Mrs. Stephenson said that it was at the first trial that she first recognized Cornish as the man who mailed the package. She testified that there were three stamps on the package and the wrapper was put before her. It had five stamps on it, and witness said she possibly had noticed three of them which were in a straight line at the top and had overlooked the two lower ones.

Replying to questions asked by the Assistant District Attorney, witness said she had been ill with nervous prostration and that she had read all the newspaper stories of the death of Mrs. Adams. Witness was asked to read the wrapper, but said she could not, having left her reading glasses at home. She said she had asked for divine instruction as to what to do in this case, and had prayed.

On redirect examination, she said she prayed every day for divine guidance.

At this point the court adjourned.

MOLINEUX'S PLANS.

"If I have my way, as I rather expect I will," said General E. L. Molineux, when asked if he had made any plans for his son in the event of acquittal. "I shall have my son go to the woods for six months, at least, where he can hunt, camp out, get fresh air, exercise and complete relief from the strain he has been under for so long. This would enable him to recover the strength which his long confinement has taken from him. I think it is safe to say that he will go to the woods, up in the Adirondacks or up in Maine, for a time, and will remain there until he has forgotten as completely as he ever can the distressing misfortunes of the last few years, and has got back his strength. Then very likely he will come back to New York to work and make his home. Of course he may do otherwise—we do not know yet."

Messages by Pacific Cable.

(Special to the Montreal Star.)

OTTAWA, November 7. — Mayor Cook yesterday received a telegram from Premier Barton, Melbourne, Australia.

"Greetings much appreciated."

And from Mayor Hughes, of Sydney, as follows:

"Mayor Hughes reciprocates hearty congratulations on completion of Pacific cable."

Nerve Disorders of Women

Accompanied by Neuralgia, Irritability, Sleeplessness and Depressed Spirits. A Montreal woman cured by using

Dr. Chase's Nerve Food.

The feminine organism requires an enormous quantity of blood not only to sustain the network of nerves which are found in the womanly system, but also to make good the periodical loss which so weakens the body.

Consequently it happens that just as soon as the blood gets weak and watery or is deficient in quantity the nervous system suffers, and in woman the effects are most severely felt in the form of irregularities and weaknesses of the feminine system.

At the beginning of womanhood, at childbirth, during the nursing periods, and at the change of life, calls are made for an extra supply of blood, and as a result nervous disorders are exceedingly common at these times, and the health and happiness of the remainder of life may depend on the care of the system.

Because Dr. Chase's Nerve Food actually forms new blood and creates new nerve force, it is the most effective preparation ever used by women to build up the system and restore vigour and strength to the body.

Mrs. T. C. Joule, 102 St. Felix street, Montreal, Que, and whose husband is a milkman, states:

"For about three years I have been troubled with thin, watery blood, dizziness, headache and a run-down condition of the system generally. I had no appetite, and felt weak and exhausted nearly all the time. I have used three boxes of Dr. Chase's Nerve Food, and can say that, although I have tried a great many medicines, I never got anything that did me so much good as Dr. Chase's Nerve Food. I feel like a different person altogether, and can heartily endorse this medicine because of the wonderful change it has made in me."

MASON ONCE MORE UNDER SUSPICION

Boston Club Man Not Yet Freed From Serious Charge.

WHITE MAN AT PAWN SHOP

Description of Man is Said to Agree With That of Man Suspected.

BOSTON, Mass., November 7.—Thursday's developments in the case of Alan G. Mason, who is under arrest charged with the murder of Miss Clara Morton, at the McLean Asylum, in Waverly, last Saturday night, have been of a startling nature. It has been announced first that the watch of the victim had been found in a Cambridge street pawn shop, where it had been pawned for $4 by a young coloured man, and this discovery at once led to a general search of the city for this man, by the entire police force, but without avail. But later developments were far more sensational. When the pawnbroker's memory had been jogged a little and he had time to think over the matter he remembered that the watch had been brought to his office on last Saturday between the hours of 11 and 11.30, by a white man, and offered in pawn. Owing to the fact that it was after business hours he refused to receive it and after expressing disappointment, the man departed, taking the watch with him.

BROUGHT BY COLOURED MAN.

On Monday morning the same watch was brought in by a coloured man about 21 years of age, of whom the pawnbroker bought it for $4. A burly coloured man, evidently a companion of the other, had been waiting outside the shop while the trade was being made, and as soon as it was completed, he entered, and took the money which the proprietor passed over. Both men then departed.

ANOTHER WATCH PAWNED

Continuing their investigation the officers made another startling discovery which will have an important bearing on the case, to the effect that the watch of Miss Agnes McPhee, of Somerville, another "Jack the Slugger" victim, had been pawned at the same Cambridge street shop, on October 3, the day after her murder, by a white man, whose description tallied exactly with that of the man who brought the Morton watch to the pawnbroker last Saturday night. The description of this man is said to agree to a striking extent with that of the suspect Mason, and the pawnbroker will be given a chance to identify him to-day.

The unexpected developments have been most unfavourable to the prisoner, although his friends still claim that he can fully establish an alibi. Search for the mysterious coloured men is being carried on vigorously and all sections of the city are being closely watched by the police.

RUSSIA AND AFGHANISTAN TRADE.

Government of Former Country Told to Address Future Letters to Authorities in India.

(Special to the Montreal Star.)

LONDON, November 7.—The statement made by an Afghan merchant who has just arrived in Calcutta from Kabul is contained in a despatch to the Times from the former city. The merchant says a letter from the Russian Government, asking for closer commercial relations with Afghanistan, was read by the Ameer in Durbar. Opinions were called for and one nobleman suggested that the bearer of the letter be beaten.

The Ameer caused a reply to be written, if which it was stated he was willing to discuss the matter, but it was impossible to change in a moment the whole tenor of Afghan policy. All future communications must be addressed through the Government of India, according to the precedent set by the late Ameer.

Portuguese Defeat Natives.

LONDON, November 7.—The London agent of Dr. Carl Peters, the German explorer, has received a telegram from East Africa, stating that the powerful native monarch of Makombe has been defeated by the Portuguese, who have taken over the administration of his vast Barue district, south of the Zambesi. This territory, though nominally belonging to the Portuguese, has been practically independent for centuries.

Minnesota Harvesters' Company.

ST. PAUL, Minn., November 7. — The Minnesota Harvester Company has been incorporated here with a capital of $6,000,000. The incorporators are: C. A. Severance, Robert E. Olds and Charles W. Wythes, who with F. B. Kellogg and Alfred T. Eisberg, compose the Board of Directors.

A plan for the solution of the servant girl problem has been adopted at a meeting of the Chicago Housewives Association. According thereto, serving maids may hereafter be obliged to hold diplomas issued by the association in order to secure positions in the homes of members of the organization.

GERMANS DO NOT LIKE CRITICISM.

Think John Bull Should be Good Natured No Matter What Their Attitude is.

(Special to the Montreal Star.)

LONDON, November 7.—Referring to Emperor William's approaching visit to England, the Berlin correspondent of the Times says that certain German journals which chronicle with manifest satisfaction any evidence of friction between Great Britain and France or Russia, speak as if Germany were the only power which must not be criticized by the British press, and as if Germany's policy must never be considered at all in the light of its present and future bearings on the British interests.

These papers, says the correspondent, would apparently like to see England in a spirit of jovial good fellowship and complaisance toward all things German, more characteristic of after dinner conversation than the business portion of the day. If there were any possibility of a realization of this idea, if foreign politics could once more be treated by Englishmen in the easy-going way which facilitated many of Bismarck's plans, this complaisance would not be reciprocated by Germany, where public opinion, like Government, is "tour jours en vedette."

Want New Trial for Rose.

(Special to the Montreal Star.)

OTTAWA, November 7. — The Department of Justice have under consideration the report on the trial of the British Columbian murderer, Rose, who is under sentence of death for the 21st inst. Rose and his victim were both miners, and in company with others were indulging in a debauch when the crime was committed. From British Columbia it is learned that representations will be made by the man's friends asking for a new trial on the ground that the trial judge interfered in th trial proceedings unduly.

Western Flour Mills Consolidate.

SAN FRANCISCO, November 7. — Confirming previous reports the Call says: "A deal is practically accomplished for the amalgamation of all the extensive flouring interests on the Pacific coast. It will take in the large plants of Washington, Oregon, and California, and will call into existence one large corporation with a capital of $20,000,000 and facilities equal to supplying the present and prospectively greater demands of the Pacific coast and of the Orient.

Higgins May Have New Trial.

FREDERICTON, N. B., November 7.—Chief Justice Tuck, in the Supreme Court of New Brunswick yesterday afternoon announced that leave would be given for appeal in the case of Frank Higgins, the boy sentenced to death, for the murder of Willie Doherty at St. John. Higgins' counsel will be heard before the Supreme Court on his application for a new trial on Tuesday next.

Glasgow Municipal Election.

(Special to the Montreal Star.)

GLASGOW, November 7. — This year's municipal election has resulted in the defeat of the party headed by Lord Provost Chisholm. This party is identified with the extension of municipal trading. The election was fought on the issue as to whether the Corporation should extend its competition against private business enterprises.

SEAT ON 'CHANGE BROUGHT $23,500

Mr. J. Try Davies To-day Sold to Mr. W. R. Miller.

UPSET PRICE WAS $20,000

Sale Makes a Record—An Increase of $3,500 Over Last Seat Disposed of.

A seat on the Montreal Stock Exchange, sold at auction during the forenoon session to-day, brought $23,500.

The seat belonged to Mr. J. Try-Davies, who retired on the first of the present month, and was purchased by Mr. W. R. Miller, of Robert Moat & Co., stock brokers. Mr. Robert Lindsay, who was Mr. Davies' partner, acted as the auctioneer.

To-day's price paid constitutes a high record for stock exchange seats. The last of the seats, created some months ago, sold at the upset prices of $20,000 and a few weeks ago a seat was bought at private sale at the same figures so that to-day's sale makes an advance of $3,500 in the value of the seats.

RESERVE PRICE WAS $20,000.

The reserve price placed on the seat was $20,000, and from that level the bidding commenced. Messrs. W. R. Miller and C. Simpson Garland were the only members who were in the contest for the seat and after the first few bids the price was advanced by $100 bids, until Mr. Garland stopped at $23,400 and Mr. Miller going $100 better got the seat. No official record was kept of the bids, but after the opening at the reserve, the first bid made was at $20,500, the second $20,600, and so on for the most part, by hundreds.

TERMINAL COMPANY TO PAY WHOLE COST.

Important Ruling by Railway Committe re Forsythe Street Tunnel.

(Special to the Montreal Star.)

OTTAWA, November 7. — An imposing list of 34 cases awaited the Railway Committee of the Privy Council this morning, but before the court opened it was announced that all the Toronto cases had been postponed. This reduced the list by some seven or eight cases.

The case of the Montreal Terminal Railway Company for an order authorizing the opening up and extending of part of Forsythe street, under the C.P.R. tracks, at the cost and expense of the City of Montreal, came up early. Mr. Lafleur with Hon. R. Dandurand appeared in this case for the company and Hon. Charles Atwater and Mr. Ethier for the city. Hon. R. Dandurand said the parties had agreed to pass along Forsythe street under the tracks of the C. P. R.

Mr. Ethier said the city had no objection to offer. It rested with the C. P. R.

Mr. Creelman, for the C. P. R., said he proposed that the plans be subject to supervision and that the applicants be liable for the cost of maintenance. After some discussion Senator Dandurand said they could not file the plans until an agreement was come to with the city in regard to the width of the street.

He would accept a final order relieving the C. P. R. of any liability to expense. This the Court could not give, but an interim order could be issued. This did not suit Mr. Dandurand, who offered to accept an order for 12 feet width of crossing, the Terminal Company to bear all expenses. This was not opposed by the city and the order was issued.

The second application of the Terminal Railway Company to cross the Montreal Railway Company at St. Andre and Rachel streets, and at Duluth avenue and St. Denis street, stood over.

MR. R. PREFONTAINE GOES TO OTTAWA.

Ex-Mayor Took Luncheon With Premier Laurier To-day.

Mr. Raymond Prefontaine, K.C., M.P., went up to Ottawa to-day, and met the Premier, with whom he took lunch. His friends here say that he will not return to Montreal until he has been sworn in as a member of the Cabinet. Others are of the opinion that if he waits until he comes a Minister he had better take a house in Ottawa and make arrangemnets to remain a few years.

LADY GOLF CHAMPIONS MAY MEET IN CONTEST.

Miss Thompson, Canadian Champion, Said to be Willing.

There is to be a golf match this afternoon at Dixie among lady golf players of the Montreal Club for a prize offered by Mrs. Cains.

A great deal of interest has been caused by the statement that an effort will be made to effect a meeting between Miss Mabel Thompson, of St. John, N.B., lady golf champion of Canada, and Miss Genevieve Hecker, lady champion of the United States. Miss Thompson expresses a willingness to meet Miss Hecker.

Mr. M. Neilson, superintendent of the Street Railway of St. John, N.B., was in the city to-day, a guest at the Queen's.

AN EXPENSIVE TRIP,

But the Air of Old England Failed Him.

The brain is composed of thousands of little cells and these contain a vital substance which is used up during active work and can only be replaced by the right kind of food and drink.

With many people, coffee drinking excites the brain and prevents it from getting the necessary rest, and breaks down and destroys the cells and the soft, gray matter therein, nor does coffee supply the food to replace these cells and this naturally leads to mental exhaustion, and nervous prostration.

"Some two years ago I was laid low with a very severe attack of nervous prostration, and had to resign my position with a large mercantile house of this city," writes a gentleman from Brooklyn.

"The doctors said my complaint was due to over-work, long hours and insufficient exercise, and recommended a trip to Europe. More dead than alive, I followed their advice, and went to England for a short visit, but came back very little improved, and unable to work, sick and disheartened.

On my return my wife and I went to boarding and a gentleman living in the house told me of the beneficial results he had experienced by leaving off coffee and using Postum Food Coffee.

I at once stopped drinking tea or coffee and used Postum, drinking it three times a day, and in a short time found a decided improvement in my condition, and now, I am glad to say, am following my profession again. I do not feel the slightest effects of my old complaint, and I am confident that I owe my present good health to the use of Postum.

We have two children and our little girl, who is now two years of age, has been brought up on Postum and Grape-Nuts, and to-day weighs 40 pounds. Pretty good for a child only two years of age." Name given by Postum Co., Battle Creek, Mich.

MONTREAL HORSE WINS AT BALTIMORE TRACK

"Beau Ideal" Captures the Carrolton Steeplechase Cup.

"KING TOP" IS THERE ALSO

The Two Montreal Horses Have a Good Chance To-morrow—Will be Shipped to Bennings.

The members of the Montreal Hunt, and of the Canadian Hunt ought to feel quite proud over the enterprise of two of their respective members, Messrs Price and Henderson in sending their horses to Baltimore to race on the Pimlico track.

Mr. W. J. Price's ch. 9. Beau Ideal carrying top weight at the Pimlico race track, Baltimore, Md., won the "Carrolton Cup Steeplechase" for qualified hunters. His first start at this meeting was on Tuesday when he was second to a good field.

"King Top," Mr. W. A. Henderson's crack half bred steeplechase, is also at the Pimlico track and both he and Beau Ideal have likely chances to-morrow the closing day, when they will be shipped to Benning's Washington, D. C. Beau Ideal is likely started in the big event, the Hunter's Champion Steeplechase.

Beau Ideal was the horse which threw Mr. E. de B. Strathy, while he was schooling him at Bel Air this autumn, and caused Mr. Strathy to be an invalid for some weeks.

SUCCESSFUL BAZAAR FOR DIET DISPENSARY IN PROGRESS TO-DAY.

The ladies interested in the Diet Dispensary opened a very successful bazaar this afternoon in the parlours of the American Presbyterian Church, and the sale will continue this evening. At the earnest request of some of the Montreal physicians, the committee has decided to open a branch of the dispensary in the east end of the city, and for this additional funds will be needed. At the beginning of each season the committee find it necessary to raise funds to carry on the work of the autumn and winter, and it is in behalf of these good causes that the present sale of work is being held.

The church parlours are prettily arranged for the occasion, and the various booths present a most attractive appearance. The "pantry shelf" has a great many toothsome dainties on sale, including all sorts of cooked food, such as poultry rolls, jellies, and plum puddings. There are also salads for sale here, as well as the various sorts of food that are sent out from the dispensary. Those in charge are Mrs. H. Birks, Miss Macpherson and Miss Isabel Darling.

Mrs. Heney has charge of a fancy work table at which all sorts of pretty things are for sale. Her assistants are Mrs. C. R. Hosmer, Mrs. F. McIndoe, Miss Marion Ross, Miss Isabel Starke and Miss M. Heney.

The candy table is in charge of Mrs. E. L. Pease and Mrs. Newman, assisted by Miss Helen Gibb, Miss Elsie Macfarlane, Miss Jessie Newman, Miss Graham Stewart and Miss Iza Watson.

A table where cushions, frames, and all descriptions of dainty fancy work may be purchased is presided over by Mrs. Kerry, Miss Ames and Miss Alice Sutherland.

The children's table shows a wealth of attractive toys and other things most pleasing to the small person, and there is also a fish pond, where every fisherman gets a prize. Those presiding at this stall are Mrs. Lockhart, Mrs. Magor, Miss Brock, Miss Katie Reford and Miss K. Gordon.

Miss DeWitt, Miss Paterson and Miss Grace Murphy have charge of the table where all sorts of bags can be purchased, from the humble laundry receptacle to the most elaborate silken work bag.

Afternoon tea and other refreshments are dispensed by Mrs. B. Hal Brown, Mrs. G. C. Dunlop, Miss Hillyer, the Misses Hayes, Miss Spenser, Miss Blakemore, Miss Mabel Smith, Miss May Smith, Miss Marguerite Brown, Miss V. Mudge, Miss Mabel Fetherstonhaugh.

An added attraction of the sale will be the music. Miss Grier will play a violin solo and Mr. F. Blair will be the pianist.

MISS GOBEILLE ARRAIGNED ON SECOND CHARGE TO-MORROW MORNING.

Miss Gobeille, the keeper of the sanitarium in which Mr. Bell and Mrs. Hall died, will be arraigned on the second charge tomorrow morning. She has been admitted to bail. There are two bondsmen of $800 each and herself in the same sum.

Mr. Samuel Harris' Funeral.

The funeral of the late Mr. Samuel Harris took place this morning from St. Lambert to the undertaking establishment of Messrs. J. C. Wray & Brother, 290 Mountain street, and thence to the Spanish and Portuguese cemetery, where the interment was made. Religious services were held at the home in St. Lambert and at the graveside, and in both instances were conducted by the Rev. Rabbi de Sola, of the Spanish and Portuguese Synagogue. The funeral was attended by a number of prominent Montrealers as well as by several of the citizens of St. Lambert. Among those present being Messrs. Solomon Davis, Edward Guerin, A. Goldstein, Lewis Hart, Claude Hart, Dr. Lauterman, Dr. Guerin, the Rev Mr. Dart, rector of the Anglican Church at St. Lambert, and other intimate friends of the deceased. The chief mourners were the four sons of the deceased, and a brother from Quebec. There were no pall-bearers. The floral tributes were numerous, and consisted largely of wreaths and pillows.

Death of Mrs. James Singer.

The death took place to-day of Mrs. James Singer, widow of the late James Singer, at the ripe age of 83 years. The deceased was a native of County Down, Ireland, her maiden name being Martha McGinn. She has been ailing for some time past, but her death is due to old age rather than to any specific disease. Death took place at the residence of her son-in-law, Mr. Fred Stanley, of 665 Lagauchetiere street, with whom she has resided for some years.

Liabilities Amount to $12,000.

J. C. Hemond and Michael Lawrey, doing business as J. C. Hemond & Co., has filed his list of assets and liabilities. The liabilities amount to about $12,000. The principal creditors are Alf. Poirier & Cie., Quebec, $2,000; Aug. Leblanc, Montreal, $1283; C. E. Leclerc, N. P., in trust; $1250; Goulet & Garant, Quebec, $1200. There is also considerable indirect liability, the amount of which is not given.

Were Playing Baccarat.

Michael Tannos, a Syrian, was charged before Judge Lafontaine to-day with keeping a gaming house on Bonsecours street. Six Syrians, who were playing baccarat, were arrested and charged with being frequenters of the house. They all pleaded not guilty and were remanded until the fourteenth.

Funeral of Mrs. R. G. Hall.

CITIZENS CRITICIZE STATE OF STREETS

Business Men's League Sends Big Petition to Mayor.

WANTS SOME ACTION TAKEN

"No Money" Was Reply — Few Improvements Will be Made During Present Season.

Four or five members of the Business Men's League waited upon the Mayor at the City Hall to-day and laid before him a largely signed petition praying that the streets of the city, and especially St. James street west, be put in better condition.

In presenting the petition, Mr. Henry Miles said that the condition of St. James street, west of the G. T. R. station, was in such a condition that it was a disgrace to the entire city. The city should certainly do something to put the street in repair without further delay. What the Business Men's League desired was that the corporation should commence a systematic paving and improving of all the streets. No good could come of tinkering with a few streets in isolated wards. The Board of Trade, the Chambre de Commerce and other influential bodies were interesting themselves in the city's affairs and one and all were struck with the great necessity of having better roads.

OTHER STREETS ALSO BAD.

Mr. Chaput and Mr. Evans voiced all that Mr. Miles had said. They pointed out that such was the condition of Commissioners street, and streets leading to the wharves, that the trade of the city was being injured. Carters now could only take half loads down to the wharves. If full loads were carried, vehicles were smashed. This was a deplorable state of affairs.

It was recognized that, in some way or other, the city would have to get more cash to keep the thoroughfares in good condition. The aldermen should seriously consider what steps could be taken to get sufficient money so that all the streets of the city could be put in a condition that would not be a crying disgrace. The deputation had not come to His Worship with the object of finding fault with what the aldermen had done in the past; what was desired was an entirely new programme, on the part of the City Council, with regard to the care of the streets.

CONDITION OF STREETS SCANDALOUS.

The Mayor admitted that the condition of St. James street west was scandalous. The reason a portion of it had not been repaired was due to the fact that the Road Committee had refused to pay contractors a fair price for making repairs. Not only had the Road Committee done this, but it had also to make repairs itself to the street. As for Commissioners street the city was not alone to blame for its condition. The truth was that the Harbour Board refused to cede to the city a portion of the street; hence, the work of repairs was delayed. It should be remembered also that a part of the roadway on Commissioners street was new; this made paving extremely difficult. As the winter was close at hand he feared but that little new paving could be done to any of the streets this year.

CITY HAD NO MONEY.

Mr. Barlow, City Surveyor, said that the great trouble as to the paving of the streets was due to the fact that the city had no money to do work upon them. Recently contractors' guarantees had expired on a number of streets. These had been turned over to the city. Many of them now needed repairs, but the city had not a cent to spend upon them. He was glad to say that next year there would be much more money to spend, it was likely the Road department would be given a large amount for street repairs. If this came to pass the streets next summer would present a much more satisfactory appearance.

There was some discussion as to heavy carts using St. Paul street and tearing up the asphalt which had been put down. The impression was that when Commissioners street was paved the traffic on St. Paul street would grow less. A by-law might be passed limiting traffic on St. Paul street.

COMPOSITION OF DEPUTATION.

The deputation waiting upon the Mayor was composed as follows:

Mr. Henry Miles, president of the Montreal Business Men's League; Mr. Alexander McFee, president of the Montreal Board of Trade; Mr. W. I. Gear, president of the Corn Exchange Association; Mr. D. Masson, president of La Chambre de Commerce; Mr. Charles Chaput, vice-president of the Montreal Business Men's League; Mr. J. C. Holden, treasurer of that body, and Messrs. F. W. Evans and George E Drummond, members of the executive.

PETITION LARGELY SIGNED.

The petition which had been circulated by the Montreal Business Men's League bears the signatures of the principal banks, insurance companies, commercial houses, newspapers and large property owners, and reads as follows:

> To the Mayor and City Council of Montreal:
>
> We, the undersigned citizens, having a deep interest in the welfare and progress of our city, beg to draw the attention of your honourable body to the deplorable condition of St. James street. We regard the condition of the western portion of this street as a detriment to the city as a whole, as well as constituting an unendurable hardship to a large number of taxpayers.
>
> We respectfully submit that certain repairs should be immediately undertaken, and that most necessary permanent work should be arranged for at the earliest possible moment, and hereby petition for your favourable consideration and for prompt action in the premises.

EVIDENCE ALL IN IN MOLINEUX CASE

Detective Farrell First Witness Called by Prosecution in Rebuttal.

ADJOURNMENT TILL MONDAY

Arguments of Counsel Will Then Commence, Followed by Judge's Charge to Jury.

(See also page five.)

(Special to the Montreal Star.)

NEW YORK, November 7.—Molineux's lawyers expect to complete their testimony to-day, endeavouring to put the finishing touch on the alibi which they set out to prove yesterday afternoon. It was announced this morning that the prosecution would call a number of witnesses in rebuttal to offset the testimony of the Molineux witnesses during the closing hours of yesterday's session. The three most important witnesses of the defence, two of whom had been kept in the background until last night, took the stand late yesterday as soon as the last of the handwriting witnesses had testified, and the evidence which they gave put the prosecution on its mettle.

MRS. ANNA C. STEPHENSON.

Mrs. Stephenson's story makes it necessary for the prosecution to call more witnesses now, so that Cornish can prove an alibi. Mrs. Rogers and Cornish may both be called again by the prosecution. Detective Joseph Farrell, of Newark, one of the Jersey witnesses, who refused to testify at the District Attorney's request at the beginning of the trial, was in court yesterday and will likely be called upon to tell where he saw Molineux on the afternoon the bottle holder was purchased. Mrs. Stephenson's husband, who is a Brooklyn policeman, may have to testify also. It is now agreed that the summing up in the case must go over until next week.

Mrs. Anna C. Stephenson, who testified yesterday in the trial of Roland B. Molineux, that to the best of her belief Harry S. Cornish was the man who mailed the poison package resumed the witness stand today. Assistant District Attorney Osborne wanted to know if it was true, as reported, that she did not recognize Cornish until he was pointed out to her in court. She replied that it was not true.

LAST OF DEFENCE WITNESSES.

Prof. Herman G. Vulte, of Columbia University, testified that Molineux was in his company from noon until after sundown on December 23, 1898. It was on the afternoon of that day that the poison package was mailed.

Henry C. Lockwood, a post-office clerk, could not swear exactly when the poison package was placed in the mail. He corroborated Mrs. Stephenson's statement that it was mailed on the Broadway side of the post office.

William M. K. Olcott, of counsel for the defence, testified that on October 30 last he bought cyanide of mercury at a drug store in this city. "I went into the store and bought two chemicals," said Mr. Olcott, "then I asked for some cyanide of mercury. The clerk asked me what I wanted it for. I told him for photographic experiments, and he asked me if I knew it was poison. I said I did, and he gave me a small bottle full."

Mr. Olcott was succeeded on the stand by John Sanders, a clerk in the law office of counsel for the defence. He and two other employes of the same office testified similarly with Mr. Olcott. None of them had much trouble in getting the poison.

H. E. Terry, a reporter, testified in contradiction of Joseph Koch, who identified Molineux as the man who hired the letter-box from him in September, 1898. Witness was asked if Koch went to a newspaper office and offered to identify Molineux as the man who hired the letter-box if witness would pay him $1,000. Witness said he did.

The decree of divorce granted to Mrs. Rogers was admitted in evidence to show that it was granted after the death of Mrs. Adams, and then by consent of the prosecution Mr. Black submitted a table compiled by one of his clerks to show that although the written exhibits are made up of several thousand individual letters, the prosecution has based its conviction that Molineux wrote them all, upon the similarity found in some seventeen letters.

This closed the case for the defence, and Mr. Osborne called Joseph Farrell, the Newark detective, as his first witness in rebuttal.

Farrell, in replying to a question by Mr. Osborne, said that he was sure his testimony at the first trial was correct. At that trial he testified that he met Molineux near a railway station in Newark on the afternoon the bottle-holder was bought. Molineux testified at the present trial that he could not remember meeting Farrell that day. Farrell said to-day that his remark to Molineux at the time was "Hello, Rol.," and that Molineux's reply was "Hello, Joe." On cross-examination witness said it was necessary to go eight or nine blocks out of the way to reach Hartdegan's store in travelling between the railroad station to the factory where Molineux was employed.

WHEREABOUTS OF CORNISH.

Then Mr. Osborne set about upsetting Mrs. Stephenson's identification of Cornish, and substantiating the account Cornish has given of his whereabouts on the afternoon of Friday, December 23, when Mrs. Stephenson said she saw him at the Post Office. John Yokum, the first witness Mr. Osborne called for the purpose, said that he met Cornish about noon, and they lunched together. At about 2.30 they went to the office of James E. Sullivan, secretary of the Amateur Athletic Union, to talk over athletic matters.

Yokum said that he remained in the office until 4.30 o'clock, and that Cornish was there all the time.

He said Cornish did not wear an overcoat. Mrs. Stephenson said that the man she saw had on a brown overcoat. Yokum said that Mr. Sullivan's office was about three hundred feet from the general post office.

James S. Mitchell, the hammer thrower and writer of sporting topics, testified that he was at Sullivan's office that day and saw Cornish there. More than a dozen persons were in the office. Some of them went in and out during the afternoon, but he believed Cornish was there all the time.

After the close of the prosecution's case, which was announced at 12.55 p.m., the trial was adjourned until Monday, when the arguments of counsel will be made.

Supreme Court Cases.

(Special to the Montreal Star.)

OTTAWA, November 7. — In the Supreme Court this morning the appeals in Wilson vs. the Canadian Development Company, and Dunsmuir vs. Lowenberg, Paris and Co., were enlarged till next term. The court then adjourned till to-morrow morning, when Hartley vs. Matson, the last appeal on the Pacific Coast docket, will be heard.

NO BAIL FOR McDOUGALL.

The Amount Has Been Fixed at $30,000.

(Special to the Montreal Star.)

TORONTO, November 7.—No bail has yet been secured for Alfred McDougall, the Ontario Government official now under arrest. The figure—$30,000—is the biggest ever fixed for bail in Ontario.

MONTREAL

ST. ANDREW'S BALL WILL TAKE PLACE

Society Decides to Hold Function on Evening of November 28.

REPORTS READ AT MEETING

Charitable Committee Presented Interesting Record of An Excellent Year's Work.

The lads and lasses of the good city of Montreal will be busy for the next three weeks preparing to step out before the public, at Windsor Hall, on Friday evening, the 28th instant, at St. Andrew's Ball. For a ball is the form in which St. Andrew's Society last evening determined to celebrate the feast of Scotland's patron saint.

St. Andrew's Day falls on Sunday, so the church services will be held on that day. At seven o'clock, Rev. J. Lyall George, the senior chaplain of the society, will preach the annual sermon. It is not yet determined at what church the service will be held, but it will probably be at St. Paul's, as Rev. Dr. Barclay said last night he had no doubt the vestry of St. Paul's would be Scotch enough to throw their doors open to St. Andrew's Society for the celebration of the day.

It had at first been taken for granted that the annual ball would take place on Monday evening, December 1st. Mr. Hugh Mackay, however, and a few of the young men who were present laid down what were considered good and sufficient reasons for holding the ball on Friday evening, November 28th. Mr. Donald Macmaster, K. C., was again appointed chairman of the committee, and Mr. Hugh Mackay secretary. If Mr. Macmaster is unable to attend to the business in hand, Mr. A. F. Riddell will attend to it at least until another chairman is appointed by the executive of the society.

The secretary lost not a minute in getting down to work. He telephoned to the Windsor and later called upon Mr. W. S. Weldon, the manager, who has promised to do his best to make the affair the success which it generally is.

THEIR PRESENCE IN DEMAND.

His Excellency the Earl of Minto, Governor-General, and the Earl of Dundonald, Commander of the Canadian Militia, were notified to-day that their presence on that occasion would be most grateful to every Scotchman and every Scotchwoman in Montreal, and there is not much doubt but what they will be there. Should both attend, the ball will take on the aspect of a full dress military affair.

The braw lads and bonnie lassies who own auld Scotland as the land of their fathers will doubtless turn out in large numbers, and make the annual festival the greatest in the history of these functions here in Montreal. That will be quite an undertaking, but the committee, or at least that portion of it, so far named, has got to work with a vigour which promises success. The executive of St. Andrew's Society will meet this evening or to morrow, to draw up the several committees to carry out the preparations.

The annual meeting of St. Andrew's Society at which the decision was reached, took place at St. Andrew's Home, Aqueduct street. Mr. A. F. Riddell, President of the Society, was in the chair, while Mr. Alex. Robertson was at his post as Secretary, and Mr. F. S. MacLennan, the Treasurer was on hand with his report. Dr. James Stewart, past president; Lt.-Col. A. A. Stevenson, Lt.-Col. Gardner, Rev. Dr. Barclay, Rev. James Patterson, Mr. James Wright, Mr. E. H. Copeland, Mr. David Seath, Mr. David Robertson, Mr. William Seath, Mr. Hugh Mackay, Mr. W. J. Henderson, Mr. W. Stewart, Mr. J. C. Macdiarmid, Mr. F. Topp, Mr. John Fulton, and a number of others were also present.

FUNDS CAREFULLY ADMINISTERED.

The treasurer's report, presented by Mr. F. S. MacLennan, K. C., showed that the funds had been carefully administered during the year. The report was barely satisfactory on the whole, as it shows that the society is going back in its interest charges year after year. It was determined to make a determined effort this year to shake off the debt, and to start with a clean sheet, when the society will be able to carry on its work with much greater efficiency.

The treasurer's statement shows:

Balance on hand Oct. 31st, 1901..	$ 5 43
Ordinary membership fees, 312 members at $4..	1,248.00
Donations..	149.75
Caledonian Society, contribution ..	250.00
Collection, annual sermon..	41 64
Proceeds, St. Andrew's Ball..	191 88
Dividends, Bank shares	738.00
Interest on ordinary acct....	1 90
Interest on Permanent Endowment	57.74
Sundry receipts....	7.01
	$2691.38

The expenditure for the year amounted to $2,655.51, leaving a balance on hand of $36.87. The Treasurer explained, however, that the balance on hand was counterbalanced by a sum of nearly $300 which was due. Of course $100 of that amount was for insurance, which extended over three years, but there was an amount of nearly $200 to be paid besides that, so that the operations of the year had not come out entirely to the good side.

Mr. James Wright, while he was perfectly satisfied with the Treasurer's action, thought the Society should devise some means of living within its means. He pointed out that they were going behind to the extent of nearly $600 a year. That meant disaster. He believed they should face the music, and call upon the Scotchmen of the city to take an interest in St. Andrew's Society and the work it was carrying on. Unless some definite steps are taken at an early date, the finances of the society would soon be in a desperate condition.

LT.-COL. GARDNER OPTIMISTIC.

Lt.-Col. Gardner was more optimistic. He considered the funds in good shape. They were spending more in charity than they received, but they would get what was needed from the charitably disposed.

Lt.-Col. A. A. Stevenson said he believed the best way to settle the matter was to appeal to the Scotchmen of the city, raise $6,000 at once and wipe off the debt. He knew by experience that if you showed a good cause the Scotchmen of this city would respond nobly to the call.

Rev. Dr. Barclay considered that what was even more necessary than wiping out the debt and getting a large membership, was to get the Scotch people of this city interested in St. Andrew's Society and the good work it was doing for the unfortunates of their race.

Mr. James Wright said that would settle the matter. He recalled the words of Lord Strathcona that each Scot in Montreal should have a brick in the building.

MR. A. F. RIDDELL.

If that policy were carried out St. Andrew's Society could improve its work.

The Treasurer's report was adopted.

CHARITABLE COMMITTEE'S REPORT.

Lt.-Col. Gardner then presented the report of the Charitable Committee which has done excellent work during the past year. They had assisted many people, but had gone on the principle that the most profitable help was that which engendered self respect in the recipient. Thus it was that they had tried rather to assist those who were willing to work. A little assistance meted out that way proved an encouragement to many, and helped many a family to get along in comparative comfort without making them feel the sting of being under obligations for charity.

The plan to devote a portion of the premises to a home for old ladies who could pay for their maintenance had been discussed, but nothing had yet been decided. Every Thursday afternoon during the winter the members of the charitable committee had met at the home to receive applicants and enquire into the merits of their cases. Quite a number of ladies took a share in the work, while great assistance had been received from Rev. Dr. Barclay, Rev. J. Lyall George, Rev. James Patterson and Rev. Mr. McMorine, who drew attention to deserving cases, and made many enquiries for them. To Dr. James Stewart and the physicians who had worked with him the thanks of the society were due. Mrs. Cameron, also, was entitled to the thanks of all for her faithful and cheerful work. Col. Gardner gave a long and imposing list of donations in kind received and distributed to the poor.

MOVED A VOTE OF THANKS.

Rev. Dr. Barclay moved a vote of thanks to the chairman and members of the Charitable Committee. He did this not as a mere matter of form, but from his heart. He commended the committee for the kindness which they combined with the efficiency in their work.

Rev. James Patterson, as one who had seen the committee at work, added his tribute to the kindly and charitable way in which the work had been carried out. While displaying business principles in saving money, the members of the committee had saved those whom they helped from the feeling that they had been pauperized. The vote of thanks was unanimously adopted.

Mr. James Wright and Rev. J. Edgar Hill were appointed a committe to draw up resolutions of condolence to the members who had lost members of their families by death, and to the families of members who had died.

The president called upon Rev. Dr. Barclay, who read a draft of an appeal which the society wishes to issue to the Scottish people of Montreal. The doctor starts out by defining clannishness. It may be an objectionable thing at times, but if it takes shape in true charity and in extending a helping hand to every brother Scot it is a thing to be highly commended. There has been ever a warm charity for fellow countrymen. The expression of that feeling the world around has been St. Andrew's Society. St. Andrew's Society in Montreal is far from being a worthy expression of the feelings of such a race in this city. He believed it was due rather to ignorance of conditions or to thoughtlessness rather than to want of feeling. Scotchmen in Montreal were not at all slow in helping other institutions. Their names occupied honourable positions in the lists of donators to all good works. While they are giving to other deserving works, however, their own home institution was not getting the help it deserved. There were a number of kind ladies who spared neither time nor effort to carry on their work among their less fortunate fellow countrymen. He appealed to every Scotchman and woman in Montreal to remember the clannishness which was said to be a characteristic of the race. Let them remember that no Scot should need while there were Scottish hearts and Scottish pockets near by. The society had done good work, but the funds were needed to do more. The debt on the building should be wiped out by the wealthy Scotchmen of the city. The membership should be largely increased. The increased funds would allow the work to be carried on as it should be, and St. Andrew's Society would be a credit to the Scottish population.

THANKED FOR HIS WORK.

A vote of thanks was passed to Dr. Barclay for his work in preparing the appeal, which was considered very fine. A discussion arose as to the best means to place it before the public. Dr. Barclay explained that he wished to put the writing into shape and prepare it for the printer. It was considered that the best way to attract the attention of those they wished to reach was to send the appeal as a circular. At last it was decided to leave the matter to a special committee to be appointed by the executive.

THE ELECTION OF OFFICERS.

The election of officers resulted in the re-election of last year's officers as follows: President, Alexander F. Riddell; first vice president, Charles Cassils; second vice-president, Principal Wm. Peterson, LL. D.; hon. secretary, Alexander Robertson; asst. hon. secretary, David Seath; hon. treasurer, F. S. Maclennan, K. C.; chaplains, Rev. J. Lyall George, M. A., Rev. E. A. Mackenzie, B. D.; physicians, Dr. James Barclay, Dr. E. P. Brown, Dr. W. G. M. Byers, Dr. Kenneth Cameron, Dr. J. M. Eldor, Dr. John G. Gardner, Dr. A. E. Garrow, Dr. Neil D. Gunn, Dr. H. D. Hamilton, Dr. J. A. Henderson, Dr. W. H. P. Hill, Dr. J. A. Hutchison, Dr. Ridley Mackenzie, Dr. Andrew Macphail, Dr. R. Tait McKenzie, Dr. J. A. Munroe, Dr. A. G. Nichols, Dr. A. A. Robertson, Dr. D. A. Shirres, Dr. A. D. Stewart, Dr. W. Grant Stewart, Dr. J. W. Stirling, Dr. R. A. Westley; charitable committee, Lt.-Col. Robert Gardner, chairman; E. H. Copland, David Robertson, J. A. Ogilvy, William Seath, Alexander Robertson; committee of accounts, Rt. Hon. Lord Strathcona and Mount Royal, G. C. M. G., Hon. Robert Mackay, R. B. Angus, Donald Macmaster, K. C., Hugh Paton, James Stewart, M. D.; committee of instalment, J. M. Campbell, W. B. Smith; ladies' committee, Mrs. J. P. Arnold, Mrs. R. B. Angus, Mrs. Wm. Angus, Mrs. C. J. Baird, Mrs. James Barclay, Mrs. Binmore, Mrs. John Boyd, Mrs. Robt. Campbell, Mrs. J. A. Canthe, Mrs. J. M. Campbell, Mrs. W. A. Caldwell, Mrs. E. H. Copland, Lady Galt, Miss Gardner, Mrs. J. N. Greenshields, Mrs. James A. Harte, Mrs. J. Edgar Hill, Mrs. Jas. Johnston, Mrs. A. B. Mackay, Mrs. Robert Mackay, Mrs. D. Macmaster, Mrs. F. S. Maclennan, Mrs. D. McDonald, Mrs. Duncan McIntyre, Mrs. C. McLean, Mrs. Hugh McLennan, Miss Munro, Mrs. J. Clarke Murray, Mrs. A. E. Ogilvie, Mrs. A. W. Ogilvie, Mrs. W. W. Ogilvie, Mrs. J. A. Ogilvy, Mrs. John Ogilvy, Mrs. Hugh Paton, Mrs. R. G. Reid, Mrs. Wm. Reid, Mrs. A. F. Riddell, Mrs. A. Riepert, Mrs. D. Robertson, Mrs. Jas. Ross, Mrs. P. S. Ross, Miss Seath, Mrs. James Stewart, Lady Strathcona, Mrs. James Tasker, Miss Wright.

RECEPTION AT THE HOME.

Mr. William Seath suggested that as the St. Andrew's Ball was to be held on Friday evening, a reception should be held at the home on Monday evening. That would meet the spirit of the by law which said that the day should be celebrated on Monday when it fell on Sunday. At the same time it would allow a lot of people to see something of the home and it might attract them to the Society. He called upon the president, as a young man, to take the matter up and make the reception a success. The suggestion was well taken, and if circumstances allow it, the reception will in all probability take place.

Mr. John Fulton suggested that for seeing the work of the institution the date was rather advanced. There were few immigrants about at that season. Rev. Dr. Barclay quietly remarked that the young men who came to visit the home would probably bring the immigrants along to make the visit interesting.

Lord Minto and Lord Dundonald were unanimously elected honorary members of St. Andrew's Society of Montreal. It was also determined to communicate with them at the earliest possible moment to make sure of their attendance at the annual ball, at Windsor Hall, on November 28th.

ST. HENRI OBJECTS TO HIGH SPEED TRAINS RUNNING THROUGH CITY

At the last meeting of the City Council of St. Henri, Mayor Guay presiding, the City Clerk, Mr. N. Senecal, was instructed to write to the Hon. A. G. Blair, Minister of Railways and Canals, calling attention to the high speed at which rail way trains are run over unprotected crossings through St. Henri.

It appeared from the discussion which took place on the subject that when representations were made to the G.T.R. and the Canada Atlantic these companies replied that permission had been obtained from the Railway Committee of the Privy Council to run their trains through St. Henri at a higher rate of speed than six miles an hour.

This answer did not satisfy the Council and the question was referred to Mr. Louis Coderre, town attorney. Mr. Coderre gave a legal opinion to the effect that trains cannot be run through the city of St. Henri under existing conditions at a rate of speed exceeding six miles an hour. In support of this view, article 259 of the Railway Act as amended by article 8, chap 27, of 55-56 Vic., also article 10 of the Railway Act, are quoted.

A petition, sent in by a very large number of the taxpayers, has been presented, urging the Council to take steps to protect the citizens from the danger to which they are exposed at these crossings.

It was unanimously decided by the Council to act upon the petition, and to lay the complaint of the citizens before the Minister of Railways. The City Clerk was also instructed to ask Mr. Blair to communicate to the Council the reasons which had determined the Railway Committee to authorize the running of trains at a greater speed than six miles an hour over the unprotected crossings.

A letter from Mr. Adolphe Cyr, claiming compensation for injuries to his son resulting from an accident on the G.T.R. track was referred to the town attorney and the Accident Insurance Company.

The Council having been notified by Mr. Schreiber, secretary of the Railway Committee of the Privy Council, that the application of St. Henri for leave to open Gareau street across the G.T.R. tracks would come before the Committee on November 7. Mayor Guay was authorized to appear before the committee in support of the application.

The question having arisen in the case against Messrs. Martin and Lord, bakers, as to whether the Council had the right to prohibit the manufacture of bread within the limits which was to be sold outside the limits, and the matter having been submitted to the town attorney, Mr. Coderre gave it as his opinion, that the bakers have this right, notwithstanding the wording of the clause to the contrary, because that clause must be interpreted as restricted in its application to bread made to be sold within the limits. In any case the charter did not give the Council the power to enact such a clause.

A statement was submitted showing the total expenditure, under the various appropriations for the year, to have been up to the 31st October $151,666.47.

In Aid of the Deaf and Dumb.

On Friday, the 7th November, at 8 o'clock, will take place the annual "Oyster Supper," in aid of the Deaf and Dumb, in the Hall of the Institute, 595 St. Denis street. On the following afternoon, all children are invited at 3 o'clock to a Magic Lantern Show, given by M. Bastien, a devoted friend of the mutes. There will also be music by an orchestra, this following a "Tea." Entrance on Cherrier street.

Guilty of Highway Robbery.

John Hennessy was found guilty of highway robbery in the Court of King's Bench yesterday afternoon. Hennessy testified on his own behalf but the jury did not believe him.

NERVOUS DYSPEPSIA.

A CURE FOR ALL.

Not a Patent Cure-all, Nor a Modern Miracle, But Simply a Rational Cure for Dyspepsia.

In these days of humbuggery and deception, the manufacturers of patent medicines, as a rule, seem to think their medicines will not sell unless they claim that it will cure every disease under the sun. And they never think of leaving out dyspepsia and stomach troubles. They are sure to claim that their nostrum is absolutely certain to cure every dyspeptic and he need look no further.

In the face of these absurd claims it is refreshing to note that the proprietors of Stuart's Dyspepsia Tablets have carefully refrained from making any undue claims for this most excellent remedy for dyspepsia and stomach troubles. They make but one claim for it, and that is, that for indigestion and various stomach troubles Stuart's Dyspepsia Tablets is a radical cure. They go no farther than this and any man or woman suffering from indigestion, chronic or nervous dyspepsia who will give the remedy a trial will find that nothing is claimed for it that the facts will not fully sustain.

It is a modern discovery, composed of harmless vegetable ingredients acceptable to the weakest or most delicate stomach. Its great success in curing stomach troubles is due to the fact that the medical properties are such that it will digest whatever wholesome food is taken into the stomach, no matter whether the stomach is in good working order or not. It rests the overworked organ and replenishes the body, the blood, the nerves, creating a healthy appetite, gives refreshing sleep and the blessings which always accompany a good digestion and proper assimilation of food.

In using Stuart's Dyspepsia Tablets no dieting is required. Simply eat plenty of wholesome food and take these Tablets at each meal, thus assisting and resting the stomach which rapidly regains its proper digestive power, when the Tablets will be no longer required.

Nervous Dyspepsia is simply a condition in which some portion or portions of the nervous system are not properly nourished. Good digestion invigorates the nervous system and every organ in the body.

Stuart's Dyspepsia Tablets are sold by all druggists at 50 cents per package. 260 2eod

BISHOP'S COLLEGE WELCOMED MR. TARTE

Ex-Minister Made Bright Speech at Medical Banquet.

FUNCTION A GREAT SUCCESS

Dr. Drummond Referred to Number of Eminent Physicians Canada Has Produced.

The 32nd annual dinner given last night at the Place Viger Hotel under the auspices of the graduates and undergraduates of the university of Bishop's College was a great success in every way. Among those present were: Mayor Cochrane, Rev. Principal Whitney, Hon. J. I. Tarte, Sir William Hingston, Rev. Prof. Abbott-Smith, Dr. F. W. Campbell, Buller, Reddy, Perrigo, England, Drummond, Jack, Fisk, Lightstone, Dicks, Craig, Reilly, Wilson, Hackett, Hibbert, Richer, Gilday, Gurd, Robertson, Kerlo Campbell, Hayes, Sharpe, Dorion, Mason, Stewart, Rorke, Hall, Burnett, Macdonald, Watson, Wilkinson, Morrison; Messrs. Benrose and Morrison.

MR. TARTE WELL RECEIVED.

When the Hon. J. I. Tarte rose to respond to the toast of "Our Guests," he was given a magnificent reception. The students were in the best of good humour and they immediately desired to know what was the matter with Hon. J. I. Tarte and the unanimous reply was that he was "all right. Oh! yes, you bet."

After the cheering had subsided, the ex minister began by urging the need of more intercourse between the two races, and the duty of preserving their best national characteristics while developing a broad Canadian spirit. In the House of Commons he had supported Dr. Roddick's bill. "At Science should know no barriers of religion, race or language. So we should have a common civic hospital, properly equipped. Let the Roman Catholics have their nurses, if they wished it, but let there be one medical administration.

They must all live together, for the French-Canadians had no intention of quitting, and his greatest obstacle as minister was the absence of confidence of Canadians in Canada.

His colleagues in Parliament, he had no right to speak of his colleagues in the ministry, nearly fainted when he asked millions to develop our great resources. "Yet," he added, "we must equip the country if we wish not to be downed by the great people to the south."

Mr. Tarte continued, "I am a fallen man! Oh, I might resuscitate. I may climb the hill, but now I can only work humbly for my country as a newspaper man. It is the best profession after the medical profession, which is the best of all."

He had said what he thought, and if some one is compromised it would be only the poor French boy who was then addressing them.

On resuming his seat the students again cheered Mr. Tarte, and sang "For He is a Jolly Good Fellow."

MAYOR COCHRANE'S REMARKS.

Mayor Cochrane, in replying to the same toast, said the press were partly responsible for the condition of the Civic Hospital. They were half on one side, half on the other, and he had found in his private correspondence the same division of opinion among medical men, both from Bishop's and McGill. The Shakespeare Road site was now proposed, but he would like to know how a patient could be sent from Point St. Charles round to the back of the mountain on a cold night. He would be the chief sufferer by the choice of the Fletcher's Field site, but he had twice given his casting vote in its favour.

CANADIAN MEDICAL PROFESSION.

Dr. W. H. Drummond, in replying to the toast of "Our Deans and Professors," proposed by Mr. H. Mathews, referred in particular to the number of first rate doctors, such as Dr. Osler and Dr. Wood, who had left Canada for other countries. It rankled in Canadian blood, though he did not blame them, for self-preservation was the first law of nature. He believed the development of Canada would soon put a stop to this and argued the students to eschew secret societies, the bane of many colleges, and to work for the good of the institution and Canada.

Dr. Grant Stewart, in an eloquent speech, proposed "Our Guests," referring to the great events in London last June and July. Some of Bishop's faculty were from McGill, and were glad of her success, and he believed her sons would always help on Bishop's.

Sir William Hingston spoke of the early history of the College and the trials and tribulations the professors in those days had to contend with. He expressed great pleasure at being present as he had always taken a lively interest in the welfare of the College. Dr. Buller also replied to the toast.

Mr. James Franckum was in the chair and gave the King. He then called on Dr. David A. Hart, to propose "Alma Mater." Dr. Hart pointed out that eight of the McGill medical staff had been taken from Bishop's and asked the city to recognize and assist the college.

Rev. Principal Whitney replied, pointing out the delicacy of replying for a lady who would attain her fiftieth year in January.

URGES INTIMATE UNION.

The Principal then urged the intimate union in the medical profession of the scientific and practical sides of life. He pointed out that they belonged to an institution that they—could it be seen—would hand down to future ages the good traditions they were building now.

The hall was decorated with the flags of the medical and dental faculties and the Union Jack. Ratto's orchestra played selections during the evening and the students enlivened the dinner by occasional bursts of songs.

WOULD KEEP ABREAST OF SCIENTIFIC LITERATURE

The McGill authorities are co-operating in an important undertaking by means of which it will be possible for scientific men to keep abreast of the scientific literature of the age. One of the most difficult tasks for the man engaged in research work is to keep informed of the mass of literature that is continually being produced in nearly every civilized country on matters of interest to him. It was, therefore, decided by an international conference of scientific workers, held in London in 1896, to establish an annual international catalogue of scientific literature, to record everything published yearly on scientific work. The Royal Society of England was entrusted with the organization of the central bureau and regional bureau in touch with it, were established in the other countries.

The Canadian publications will be catalogued by the following gentlemen: Pharmacology, experimental pathology and bacteriology, Dr. J. G. Adami; botany, Prof. Penhallow; zoology, Prof. McBride; human anatomy, Prof. Primrose, University of Toronto; physiology, Prof. A. B. MacCallum, University of Toronto. The branches to be included in the catalogue are: Mathematics, mechanics, physics, chemistry, astronomy, meteorology, including terrestrial magnetism; mineralogy, including petrology and crystallography; geology; geography, mathematical and physical, palaeontology, general biology, botany, zoology, human anatomy, physical anthropology, physiology, including experimental psychology, pharmacology and experimental pathology, and bacteriology.

Your Doctor.

We wish you would ask your doctor what he thinks of Vapo-Cresolene. He will say "It's certainly the best way of reaching the throat and lungs, this inhaling method." You see, it brings the medicine right in contact with the weak places. If it's asthma, bronchitis, whooping-cough, croup, or any such trouble, the Cresolene vapor touches every inflamed place. Relief is quick, certain.

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

DR. G. A. CHARLTON IS APPOINTED ROCKEFELLER FELLOW OF PATHOLOGY

Dr. G. A. Charlton, of this city, who graduated from the Faculty of Medicine of McGill University, in 1900, has been appointed Rockefeller Fellow of Pathology in the same faculty, in succession to Dr. W. W. Ford, who resigned the position some months ago to accept a position on the staff of the Rockefeller Institute, Chicago.

DR. G. A. CHARLTON,
Appointed Rockefeller Fellow of Pathology, Medical Faculty, McGill University.

After graduating at McGill, Dr. Charlton spent some months as interne in the Sloan Maternity Hospital, New York. He then became resident physician in the Montreal Civic Hospital. In October, 1901, he was appointed Fellow in Pathology at McGill. Since then he has been working at the pathological laboratories of the Medical Faculty and the Royal Victoria Hospital, under Prof. Adami. He has just established some important results in the alleviation of scarlet fever. It appears that there is a parasite in the system of patients suffering from severe forms of scarlet fever known as the streptococcus. It is not the exciting cause of the disease, and is not present in the light cases, but it seems to lead to a secondary infection when once the disease has been contracted, and to be largely responsible for the high fever, the suppuration of the ear and other dangerous symptoms associated with the complaint.

This organism Dr. Charlton has combatted with a serum prepared under the direction of Dr. Hubbert, of Detroit, the details of the treatment being given in the current number of the Montreal Medical Journal. Its success may be judged of by the fact that of fifteen severe cases most of which would under ordinary treatment have ended fatally, or at least have suffered from lingering and troublesome complications, thirteen made prompt recoveries almost free from complications. Of the two patients that died, one succumbed five hours after admission to the hospital, and the other was carried off by an attack of diphtheria.

The results produced by the serum were the rapid subsidence of the fever, an improved pulse, an absence and a marked amelioration of the suppuration of the ear, and other troubles, and a rapid convalescence. With such a remedy the worst features of the disease seem suppressed.

ALDERMEN AT OTTAWA WILL TO-DAY FIGHT TERMINAL RAILWAY CO.

At the meeting of the Railway Committee of the Privy Council to-day, in Ottawa, a delegation of aldermen from Montreal will bring before the notice of the committee the request of the Terminal Railway Company that the city should be compelled to build a subway under Forsyth street. The aldermanic delegation is composed of His Worship the Mayor, Ald. Ames, Vallieres, Lebeuf, Martineau, Bumbray and Gallery.

It will be the contention of the delegation that the Government has not the authority to interfere and compel the city to build the subway.

The delegation held a meeting at the City Hall yesterday afternoon before leaving for Ottawa, and passed the following resolution:

"That in the opinion of this committee, the relations of the city with the Terminal Railway Company should be governed solely and entirely by the by-law and contract signed by the parties; and if any question should arise regarding the interpretation of said contract, the same should be submitted to and decided by the courts, consequently the deputation is instructed to respectfully decline to recognize the jurisdiction of the Railway Committee, or every demand of the Terminal Railway Company, to place upon the city franchise obligations which are not mentioned in the said contract, and by-law; and the further instruction is given to energetically oppose the application of the Terminal Company, as specified in the notice of the 29th October, 1902; the deputation to this end to be composed of the aldermen and the city attorneys."

The notice, referred to, which was sent to Mayor Cochrane, was to the effect that the application was made to have the city assume all the costs of the work.

ST. CUNEGONDE NOW IN ELECTION THROES

A largely attended meeting of the electors of Ste. Cunegonde was held last night in the College Hall, Vinet street, to hear the addresses of candidates for municipal honours. Among the speakers were Messrs. Joseph Roy and C. P. Fabien, candidates for the mayoralty; Alex. Montbriand, the retiring Mayor; F. X. Dupuis, A. Leduc, Jos. Poupore, N. Emond and O. L. Henault.

The changes brought about by the charter amendments, particularly the bettering of the financial affairs of the town by the conversion of the public debt, and the general election of the Mayor and Council every two years, were the subjects of general congratulation. The election of the Mayor by the vote of tax-payers who are also proprietors, did not, however, meet with general approval, most of the speakers taking the ground that all the tax-payers generally should have a voice in the election of the Chief Magistrate.

At the close of the meeting it was announced that Mr. J. B. Ouellette would not be a candidate for councillor in the North Ward; but that Mr. J. B. Brouillet would come forward in his place.

Preparations for the nomination on Tuesday next are going on actively.

The Late Mr. Samuel Harris.

The case of Samuel Harris, who fell dead at his home, was disposed of last evening by Coroner McMahon as being due to natural causes.

PROF. COX EXPLAINS RECENT DISCOVERY

Demonstrated a New Fact to Audience at McGill Last Evening.

CONDENSATION BY LIQUID AIR

Results May be Very Far Reaching in the Matter of Scientific Research.

"Liquid Air" was the topic of a lecture delivered in the physics building of McGill University by Prof. Cox last night. The lecture had previously been delivered to the students and last night's attendance was therefore confined to members of the faculty and their friends. The room was well filled with an audience that listened attentively to what was said and followed the experiments closely.

The matter of most interest, to the scientific mind at any rate, was the condensation of thorium emanations by means of liquid air. This is a new scientific fact which has been demonstrated by the researches of Prof. Rutherford and Mr. Soddy, of McGill. What may be its practical or scientific value is something which only the future can determine.

GIVING OFF EMANATIONS.

Prof. Rutherford and, lately, Mr. Soddy have been engaged for over two years studying uranium, thorium and radium. These substances have the power of giving off emanations which affect photographic plates, which cause various things to phosphoresce, and which create, as it were, a leak in the air so as to make it a conductor of electricity. These emanations are invisible, but can be detected when passing between the two plates of an electrometer. For the purpose of these researches the electrometer has been reconstructed by Prof. Rutherford so as to make it a hundred times more sensitive than formerly.

MUST HAVE LIQUID AIR.

Last spring the investigators found themselves at a standstill. They had passed the emanations over red-hot lead chromate and boiling nitric acid, but had got no chemical reaction with them whatever. This made the experimenters think that they might be of the same nature as the gases recently discovered in the atmosphere, argon, neon, helium, krypton, which are also extremely reluctant to enter chemical combination. They tried freezing them with frozen carbonic acid gas, but without results. Then they decided that they must have liquid air. An appeal to Sir William Macdonald resulted in the necessary machine being ordered at once and a couple of weeks ago it was set up in the physics building.

CONDENSED IN THE TUBE.

As soon as a supply of liquid air had been procured it was used to cool a tube through which the mysterious emanations were being passed. As soon as the tube through which the emanations passed was cooled to the temperature of liquid air, the electrometer stopped recording the emanations were being condensed in the tube. This went on for some time; then the tube was taken out of the liquid air, and allowed to get warm. When it rose to a certain temperature the galvanometer suddenly recorded a much stronger discharge than any previously obtained; the emanations had boiled in the tube, and come over all at once. These experiments seem to prove that these emanations or corpuscles have some of the characteristics of ordinary gases, but, as Prof. Cox said, they seem to be a new kind of matter, possibly with properties quite different from those of any matter with which mankind is acquainted.

THE VALUE OF THE FACT.

As to the value of the fact thus ascertained, Prof. Cox quoted the reply of Farady, who, on being asked what was the use of the galvanometer, which he was exhibiting in the Royal Institution, replied: "What is the use of a little child?" The galvanometer had been followed by the electric light, the electric railway and many other things. As to whether the new discovery had a like destiny before it he could only say "Who knows?" The only duty of the scientist was to study the facts and draw conclusions, leaving to others the task of extending their usefulness.

The demonstration with regard to the emanations was preceded by a brief history of the attempts to liquify gases, and by a number of experiments illustrating the action of liquid air on various substances.

BASHFUL APPARATUS.

At the close of the lecture a vote of thanks was moved by Dean Johnson and seconded by Senator Drummond. The latter, in felicitating Prof. Cox on the success of the experiments, remarked that he had known apparatus to be bashful, as well as speakers, but happily this had not been the case on the present occasion. Senator Drummond also took occasion to mention the debt of gratitude owing by the public to Sir William Macdonald for the generosity which has rendered such researches possible.

ALD. HEBERT THOUGHT HIS WARD NEGLECTED IN MATTER OF SIDEWALKS

There was a veritable tempest in a teapot at the meeting of the Road Committee yesterday afternoon.

During the day whispers had gone about that Ald. Hebert had a scandal to spring in the Road Department.

After the committee had been sitting for about an hour the sensation was sprung. A charge against the City Surveyor was made to the effect that he was not giving the ward Ald. Hebert represented the share of sidewalks it should get.

He considered this a scandalous state of affairs. The City Surveyor took upon himself to say just where sidewalks should be put down, etc. Surely this constituted a scandal. Where did the aldermen come in when a city surveyor could boss things in this manner? It was time the whole affair was probed to the bottom.

The chairman, in a very disgusted tone, replied that it was the duty of the City Surveyor to put down sidewalks in the districts that needed them most. He had no right to be interfered with by aldermen. The patronage system would be no longer allowed in the department. All the other members of the committee were satisfied with the way the City Surveyor put down sidewalks, and he could not see why Ald. Hebert should complain. He saw no reason whatever to make a complaint against the City Surveyor.

Ald. Hebert talked a little while longer about the City Surveyor, and then the committee proceeded to transact business that was awaiting attention.

Highland Cadets at Theatre.

The Highland Cadets turned out 150 strong last evening, and with a band leading them, marched from Dominion square to Proctor's Theatre, where they enjoyed their first annual theatre party. The pathos of "The Littlest Girl" was just as much appreciated as the humour of the comedy, "The Gray Mare." The theatre was well filled with people, and the decorations were appropriate. The boys thanked Manager Brunelle for his attention.

TUNNEL PLANS READY ANNOUNCES MR. HODGE— WORK WILL PROCEED.

Mr. H. A. Hodge, president of the Quebec Southern Railway, and promoter of the St. Lawrence tunnel scheme, says that the plans are ready to be submitted to the Government.

The tunnel will pass through St. Helen's Island, where there is to be a sub-station. Mr. Hodge says the actual construction of the tunnel will begin ninety days after the plans are approved by the Government, and the construction will absorb $5,000,000 of capital, which, it is claimed, is about half what a bridge would cost. The tunnel will be open to any railway company seeking an entrance to Montreal. The character of the river sub-strata has been found favourable for tunnel excavation, and it is believed the work can be completed within two years. Under its charter, the company was granted six months, expiring on the 15th inst., within which to prepare their plans. These were finished yesterday and will at once be forwarded to Ottawa.

Special Notice.

Napoleon and Josephine.

Beautiful indeed and replete with sentiment are the two crowns worn by Napoleon and Josephine now on exhibit at The S. Carsley Co. Ltd. The Empress's is a simple tiara of regal pearls set in a network of diamonds. In each interstice hangs a pearl shaped diamond vibrating with every movement. Napoleon's is a crown of golden eagles, surmounted by a cross and set with sapphires and rubies.

Free Pianola Recital.

To-morrow at 4 o'clock Pratte, Nordheimer & Glendon will give free Pianola and Orchestrelle Recital in their Recital Hall, 2461 St. Catherine street. An interesting programme has been prepared. Visitors welcome.

ROAD COMMITTEE AND SNOW REMOVAL

Small Sleds Will Again be Used This Winter

ONLY TWO TENDERS SENT IN

No Saving Could be Effected on This Basis—Old System Will Prevail.

The small box sleds will again remove the snow from the streets during the coming winter.

The Road Committee has failed in its much heralded scheme of having the snow removed by contractors. The tenders should have been called in May instead of November.

As stated last night only two tenders were received by the Road Committee yesterday afternoon. These were from T. Charpentier, jr., and L. O. Henault.

Charpentier's tender proposed removing the snow from the streets, where the street cars run, for about the sum of $101,000. As this is a little in excess of what the city has been paying by doing the work itself the city fathers smiled at the offer.

Then, the members of the Road Committee were surprised to learn that Charpentier proposed to use no new method in removing the snow; the same little "dinky" sleighs were to be pressed into service. It had been thought by the aldermen that there would be a perfect deluge of tenders, and that all kinds of modern methods of snow removal would be proposed.

In calling for tenders the city

WHERE THE CAR TRACKS RAN,

had been cut up into a number of sections. Charpentier tendered for 11 sections; which meant about forty miles of streets.

PRICES ASKED ALTERED GREATLY.

His prices, per section, altered according to the grade of sections, mileage, hauls for snow, etc. His tender was as follows:

Sections.	Miles.	Amount per mile.
1	4	$1,700
2	4½	1,850
3	3¼	2,000
4	3 4-5	2,200
5	2½	1,700
6	5	1,900
7	4¾	2,700
8	3 1-5	4,700
9	3 1-5	2,700
10	4½	2,900
11	2¾	3,500

When the City Surveyor figured out the mileage, with the prices demanded, he found the total amount demanded by Charpentier was $101,950.

When the result was made known, Ald. Turner shook his head and ejaculated "That is pretty steep!"

The chairman pointed out that this was a little above the sum the city was now paying for snow removal on the streets where there were car tracks.

Ald. Ricard—"We shall not make anything out of this bargain."

A question was put as to why no tender had been received from the Street Railway Company. The members looked at each other, but no reply was forthcoming.

WILL BE FURTHER CONSIDERED.

"What course shall we now pursue?" asked Ald. Turner.

The chairman explained that it was evident the Road Department would have to remove the snow again this winter, it was too bad, but it could not be helped. It was pointed out that there was no time to call for new tenders.

"No," replied a member, "I should think there is not."

The chairman threw out the comforting information that by and by the Road Committee would again consider a scheme for snow removal. This could be done during the winter months. Some fine schemes could be got ready by the spring.

As for Mr. Charpentier's tender, it was decided it could not be accepted; neither could Mr. Henault's, which asked $2,500 a mile for removing snow from one section only.

The erection of the St. Denis street tunnel is also doomed, for the present anyway. Some time ago the city asked the Canadian Pacific Railway and the Montreal Street Railway how much they would contribute to the cost. Both offered about $10,000 each, which sum represented the amount capitalized, they are now paying for maintenance. At the meeting yesterday a letter was read from the latter company withdrawing its offer. It was the intention of the city to add a third share but now the scheme is abandoned.

British Postage to Canada.

In the House of Commons on October 27 Sir J. Leng (Dundee) asked the Postmaster-General whether letters and newspapers could be posted from Quebec and Montreal to New Orleans and San Francisco at considerably lower rates than to Liverpool and London; and whether he would arrange that the postage between Canada and the United Kingdom should not be higher than between Canada and the United States. Mr. Austen Chamberlain replied: The facts are as stated in the first portion of the hon. member's question. This is owing to a special arrangement made between the Canadian and United States Administrations, over which I have no control, though its effects upon British interests are receiving my attention. The rates between this country and Canada are the lowest which prevail between the United Kingdom and any other portion of His Majesty's dominions.

Fire destroyed the post office building at Gladstone, Man., on Tuesday night, loss about 2000.

AN UNPLEASANT EXPERIENCE.

Has it ever been your unhappy lot to be told by your physician that you must go to a hospital and submit to an operation? If so, you remember with what dread and shrinking you awaited the day when you must endure the knife. The present day surgeon appears to be possessed by a mania for operating, especially in cases of hemorrhoids or piles, and while the greater number of the profession do not recommend this "last resort" unless they honestly believe it necessary, the fact remains that much needless operating is done, and the patient put to much expense and suffering for what? To obtain a possible temporary relief; these words are used advisedly, because in nine cases out of ten the affliction returns and the patient is just where he started from. Oftentimes he could be cured much more simply and easily by the use of such a remedy as the Pyramid Pile Cure, this has come to be recognized as the best remedy on the market for the painful disease named, and the druggists now sell more of it than all other pile remedies combined. The writer personally knows people who were afflicted with the worst form of bleeding and protruding piles and who were permanently cured by the use of Pyramid Pile Cure. In every one of these cases the attending physician had assured the sufferer that only by an operation could he rid himself of the disease; so much for the infallibility of the doctors. This remedy, which is sold by all druggists at the low price of fifty cents, is in suppository form, is applied directly to the parts affected, and performs its work quietly and painlessly. The Pyramid Drug Co., Marshall, Mich., will mail free to any address a book telling all about piles or hemorrhoids, their cause and cure.

A suggestion is offered that if the reader is afflicted, or knows any one who is, this book be sent for, as it will be found invaluable. 241 2 2aw

PULPWOOD MEN WILL SEE PREMIER.

Important Delegation Visits Quebec To-day—Want Stumpage Dues Replaced and Rebate.

(Special to the Montreal Star.)

SHERBROOKE, November 7.—The Province of Quebec Pulpwood Association held an important meeting yesterday, called for the purpose of appointing and instructing a delegation to wait upon Premier Parent, Commissioner of Crown Lands, and lay before him the views of the association regarding the pulpwood business in the province. The meeting with Premier Parent takes place at 4.30 o'clock this afternoon in Quebec.

The president, H. M. Price, of Quebec, presided at yesterday's meeting, and there were present E. W. Tobin, M.P., Brompton Falls; T. A. Cousins and G. C. Poulin, St. Johns; G. P. Nadeau, Stanfold; B. C. Howard, N. N. Walley, F. N. McRea, Sherbrooke; John Champeau, D'Israeli; O. Brouillard, Carmel; O. C. Morrisette, Lake Megantic; E. Legaux, Tring Junction.

After much discussion of the pulp wood question in which the probable effects of an export duty were considered, the following resolution, moved by B. C. Howard, and seconded by O. Brouillard, was unanimously adopted, viz.: That a delegation composed of all the directors of this association wait upon the Commissioner of Crown Lands, the Hon. S. N. Parent, in Quebec, Friday, 7th November, at 4.30 p.m., with a view of having the stumpage dues on pulp wood replaced at $1.90 per cord on all pulp wood cut on crown lands in future, with a rebate of $1.50 upon pulp wood manufactured into pulp in Canada, and to take up any other questions relating to the regulations in regard to sale and manufacture of pulp wood in the province.

The delegation is composed of Messrs. Price, Tobin, McCrea, St. Pierre, Poulin, Nadeau, Howard and G. T. Smith.

Regarding an export duty no resolution was agreed upon. The views of the members, it is understood, differ somewhat regarding this question, though many of them are strongly in favour of such a duty. Some fear that it would give the pulpwood business a bad set back, while others say that in a few years there will be mills enough in the province to exhaust the supply and there will be no need of an export duty on raw material. They consider that a rebate of stumpage dues as mentioned in the resolution above will have a tendency to hasten that time.

The delegation appointed to wait on the managers of the C. P. R. and G. T. R. with reference to the shortage of cars reported at yesterday's meeting that nothing could be done at present to improve the situation in this respect. The companies said they were doing all they could to meet the demand and could not promise any improvement at least before the first of December. There is also a shortage of freight cars on the I. C. R. and Quebec Central Railway, but not to the same extent as on the C. P. R. and G. T. R.

THOSE BOUNDARY MONUMENTS.

Quite Evident That Story of Discovery Was Incorrect.

WASHINGTON, D. C., November 7.—Lieutenant George T. Emmons, U.S.N., (retired), has reported to Secretary Hay the results of his investigation, along the Alaskan boundary, of certain stories which have found frequent repetition in late years to the effect that monuments have been discovered marking the real boundary line between Alaska and the British North-West Territory, at a point many leagues further from the sea than the British have been willing to admit. Lt. Emmons is thoroughly familiar with the country in which the supposed boundary stones exist, and spent much of the past summer in the region. The State department will not make the report public at present.

It is regarded as a fair conjecture that Lieut. Emmons has not found the stones reported to exist, to be boundary monuments, or else that the State department would take steps to bring that fact to the attention of the British Government. Instead of this the report has been referred to Ex-Secretary John W. Foster and Senator Fairbanks, members of the High Joint Commission, which was charged with the settlement of the Alaskan boundary question among other matters.

Discovered Another River.

(Special to the Montreal Star.)

OTTAWA, November 7.—W. McL. Wilson, of the Geological Survey, has returned from the country lying to the south-west of James Bay, where, accompanied by Owen O'Sullivan, he made a survey of a heretofore unsurveyed river lying between the Albany on the south and the Ottawapiskat on the north. This river proved to be a large one, having a course of at least 300 miles. At no great distance from the sea it divides into two branches. A number of lakes were discovered by the explorers.

To End French Duelling.

PARIS, November 7.—M. Lecomte introduced a bill in the Senate yesterday making duelling a misdemeanor, punishable by imprisonment and a fine. The bill provides if death ensues in the counter for the punishment of the surviving duellist, with imprisonment from 15 to 18 years, and a fine from $100 to $1,000.

Brought Smallpox From Ohio.

GALT, Ont., November 7.—Leslie Brown, a young Galt man, came home ill from Jackson, Ohio, recently. His malady has now developed into a case of confluent smallpox. Brown's mother is isolated with him.

THREE JUDGMENTS IN SUPREME COURT.

Appeal Dismissed in Case of Quebec Bridge Company vs. Roy—Case From Yukon.

OTTAWA, November 7.—In the Supreme Court on Thursday, judgment was delivered in three cases.

Quebec Bridge Company vs. Roy.—The action was by the respondent, complaining of being troubled in her possession of her property by a notice served by the company to expropriate a strip of her land, over which the bridge contractor has built a tramway to move materials from his wharf on the river St. Lawrence to the bridge site. The question is whether the expropriation is authorized by statute. In the trial court the action was dismissed and the appeal was from the judgment of the Court of King's Bench reversing the decision of the trial court and maintaining the plaintiff's action. The Supreme Court dismissed the appeal with costs.

Hartley vs. Matson.—Judgment was given on motion to quash the appeal on the ground that it was not a direct appeal from the Yukon Territorial Court, but from an appellate decision of that court as a court of appeal from rulings of the Gold Commissioner, and that in such a case there could be no further appeal to the Supreme Court of Canada. Motion to quash dismissed with costs, the Chief Justice dissenting.

The appeal of the Wellington Colliery Company vs. Booker was heard. The respondent was a miner in the employ of the company, and was injured while returning from work in the Alexandria mine, by a train of coal trucks sent down the tunnel slope of the shaft at a time when the working "shift" took place, through the carelessness and neglect of rules of the man in charge of the tramway, and which ran off the track and struck plaintiff. In his action for damages he obtained judgment on a verdict for $1,424, and the appeal is from the judgment of the Supreme Court of British Columbia affirming the trial court judgment. The company claims that no negligence was proved; that respondent's injuries resulted from his own carelessness; that plaintiff had no right to recover under the Employers' Liability Act, and that in any event, the damages are excessive. Aylesworth, K.C., for appellant; the arguments of counsel for appellant; Barker for respondent. On conclusion of appeal was dismissed with costs.

COLONIAL CONFERENCE.

Reason Given Why Speeches of Premiers Were Not Reported.

LONDON, November 7.—In the House of Commons yesterday, Colonial Secretary Chamberlain, in reply to a question put by Mr. Thomas Lough, member for Arlington West, said the reason for not publishing in the Blue Book report of the Colonial Conference the full report of the speeches of the Colonial Premiers was that objection was taken that it would be a breach of privilege to publish what had been agreed upon to treat as confidential. No further papers, he added, would be published.

LORD MILNER TALKS OF SOUTH AFRICA'S RESOURCES

(Special to the Montreal Star.)

LONDON, November 7.—The Standard publishes the report of an interview with Lord Milner, High Commissioner of South Africa, who is convinced that in their coal and iron deposits and in their agricultural development England's new colonies will find a surer source of wealth than even in the more speculative riches of the gold reefs and diamond fields.

CANADIAN BUILT VESSELS FOR YEAR ENDING JUNE 30.

(Special to the Montreal Star.)

OTTAWA, November 7.—Two hundred and sixty vessels, representing a total tonnage of 28,288, were built in Canada during the fiscal year ending June 30th, an increase of 20 vessels and 6,332 tons, as compared with the previous year. Of this number 89 were steamers and 171 sailing vessels, as against 84 steamers and 156 sailing vessels built in the year preceding. The number of vessels registered was 316, aggregating 34,236 tons. In 1901 327 vessels were registered, aggregating 35,156 tons. Last year 5 steamers and 22 sailing vessels were sold to other countries. The figures indicate that the wooden shipbuilding industry is by no means on the decline. Twenty steamships, aggregating 5,510 tons, were built in Toronto, and in Montreal 8 steamships of 387 tons. Most of the sailing vessels come from shipyards in the Maritime Provinces.

THE FISHERIES QUESTION.

New Brunswick's Attorney General Discusses it in Ottawa.

(Special to the Montreal Star.)

OTTAWA, November 7.—Hon. William Pugsley, Attorney General of New Brunswick, was in the city yesterday, and had interviews with the Minister of Railways, Hon. A. G. Blair, and the Minister of Marine and Fisheries, Hon. James Sutherland. He talked over with the latter the whole question of the fisheries, and expects that a meeting of the adjourned conference will take place shortly at Ottawa. In regard to the proprietory interest in the fisheries within the three-mile limit, Mr. Pugsley told the Minister that while he was satisfied that the provinces were entitled to the same, he would make no objection to the submission of a test case to the Supreme Court. It is, therefore, likely that this point will be decided by a decision from the highest Canadian court. The contention on behalf of the provinces, Mr. Pugsley says, is that the result of the decision of the Judicial Committee of the Privy Council in 1898 was to give to them the right of property in the fisheries as well as the ownership of the foreshores, with the exception of public harbours. The Dominion has the power to make regulations, but the ownership is vested in the provincial governments.

By an agreement just reached the strikers' committee, the plasterers, who have been on strike in New York since October 21, have returned to work at the union wages of $8 a day, pending the settlement of the point in dispute by arbitration.

AN AMERICAN SCHEME.

Proposed to Build Warehouses at Manchester to Handle Cotton.

(Special to the Montreal Star.)

LONDON, November 7.—According to the Manchester Guardian, a syndicate of well-known New York capitalists have made arrangements for the purchase of 80 acres of land on the south bank of the Manchester ship canal, upon which it is proposed to construct wharves and large docks for the accommodation of ocean going steamers and erect warehouses for the storage of cotton and other produce.

This, however, is only part of the scheme. The company owning the dock and warehouse will also furnish mercantile and financial machinery, enabling United States holders of cotton or other produce to sell it directly from the warehouse in Manchester to the English spinners, and making it possible for the spinners in this side to hold cotton in stock until required for consumption, without locking up an equivalent amount of capital. It is intended to establish similar warehouses at Havre, Bremen and one or two other European ports.

New Civil Service Honours.

(Special to the Montreal Star.)

OTTAWA, November 7.—So far there has been no official communication as to the number of Canadian civil servants who will be honoured with the Imperial Service order, but a request has been sent to all the departments asking the head to forward at once a list of all those in the department who have served twenty five years or over.

KORRECT SHAPE BOOT SHOP

"The Style of a 'Dorothy Dodd'"

OVER THE DOOR-MATS

There is one society whose members can be instantly detected, for they wear its badge publicly.

It is the society of the well-shod women who wear "Dorothy Dodd" shoes.

The stylish woman is easily known by her shoes. When the fashion writers talk of "the style of a 'Dorothy Dodd' shoe" they mean that it has the distinction which attaches to the well-dressed woman.

A woman may be on the outer door-mats of society, but if she wears stylish shoes her feet have entered the sacred portals at least. I need not claim that my shoes are stylish; every fashion writer in this country has claimed it for me.

The Daily Star.

EDUCATION IN THE PROVINCE OF QUEBEC.

One of the impressions formed as a result of the Star's recent investigation into the school system of this province was that the spirit underlying our school legislation is unworthy of the country and unworthy of the age. Education for the masses seems to be regarded chiefly as a liability for the provincial treasury, as a cause of expenditure, to be minimised as much as possible. Is it not time for us as a people to enlarge our ideas upon this subject? Should we not rather regard the money spent upon the education of the rising generation as the best possible investment of public money? Other things being anything like equal the most prosperous people will be the best educated people. Germany in recent years has progressed by leaps and bounds, owing almost entirely to the splendid technical industrial and scientific education of the nation. To spend money liberally in educating children is to scatter seed which will bring forth fruit, "some an hundredfold, some sixtyfold, some thirtyfold."

The Province of Quebec is one of the very few countries left which do not recognize the right of every child to a good primary education and what is equally important the right of the state to insist upon every child being properly educated. This matter is too important to be left to the caprice, the prejudice, the exigencies, of parents themselves, many of them imperfectly educated. While the Dominion Immigration Department is scouring the poorest sections of Europe for immigrants too ignorant to succeed in their native country we are intensifying the evil by allowing too many of our own children to grow up in ignorance.

There are thousands of parents in Montreal who can ill afford to pay the school fees exacted from them. There must be many who keep their children at home rather than pay the fees or expose their poverty.

We believe that the time has arrived to make education in this province compulsory and free of cost, as it is in almost every country of similar conditions. The school tax in Montreal is exceptionally low now and any extra expenditure of public money that may be incurred in making the schools free will be saved in other directions. It is better to spend money on schools than on gaols, penitentiaries and pauper institutions of one kind and another.

DOES ADVERTISING PAY?

An interesting letter under this heading will be found on page 8 of this issue of The Star.

Two Children Drowned.

ST. CESAIRE, Que., November 7.—The two little children of Mr. Casmire Perus, of this town, were drowned in the river here on Sunday last. The children were with their mother crossing the river, when all three were thrown into the water. Mrs. Perus was saved by M. Alphonse Brodeur, but all efforts to save the children were ineffectual.

Youths', Young Men's —AND— Men's WINTER OVERCOATS.

Never before have we shown such a large and fine assortment of Overcoats as we have this season. Our sales this Fall in our Clothing Department are far ahead of our most sanguine expectations. Our efforts to place before our customers the highest class goods, well made and good fitting, have been fully appreciated. There is no commodity more extensively advertised to-day than Clothing, and there is nothing the average man knows less about; he buys with a large amount of trustfulness, and the house that deceives him loses his custom.

The Trend of - - **Allan's Store** is Incessantly Upward.

Our Prices are Constantly Beyond Competition.

Quality, of course, considered. Facts! Yes, Facts! Notwithstanding all the new "systems," our sales increase. Think of it. Why, ever since time immemorial men have been "fitted" when buying clothing. We have always sold Clothing that fits.

Generally speaking, Montreal men are well built, able-bodied men; but some advts. would make it appear as if every other man in this vicinity is a freak. We have no trouble in fitting our customers.

Come in and see our stock of Long, Stylish Loose Overcoats, at $12.50 and $15.00.

These are fairly high prices, but see the goods and you'll be convinced of their value.
We have also a full stock of lower prices, from $7.50 up.
Men's and Youths' Reefer Jackets, Tweed and Serge Suits.
Trousers from $1.25 to $5.00 a pair.
We invite inspection. Take a look at our Craig street window this week.

PIANOS & ORGANS. ESTABLISHED 1877.

HEINTZMAN & Co. PIANOS

For twenty-five years we have been selling the famous pianos made by Heintzman & Co. We have had no reason to regret it, for they have made thousands of satisfied customers for us.

The sons and daughters of customers to whom we sold Heintzman & Co. pianos years ago are now buying the same make of pianos for themselves. They know by experience how the Heintzman & Co. pianos wear.

So wonderful are both the touch and tone of these pianos that Albani, Friedheim, Hylsted, Burmeister, Pol Plancon, Plunkett Greene and most of the world's most famous artists use Heintzman & Co. Pianos exclusively.

C. W. Lindsay, 2366 St. Catherine St., are sole agents and carry a very large assortment upon their floors.

RUSSIA DETERMINED TO ACQUIRE MANCHURIA

(Special to the Montreal Star.)

LONDON, November 7—The Times' Odessa correspondent says:

Revelations of the Times' Pekin correspondent regarding Russian progress in Manchuria have enlightened others than Englishmen. They have enlightened Russians. By exposing the futility of the Russian terms for withdrawal from Manchuria the revelations are doing much to convince the people that Russia's policy has throughout been one of undeviating determination to acquire the province outright sooner or later.
