## PARLIAMENT.

### Mr. Laurier Explains the Situation of the Joint Commission.

Differences Regarding the Alaskan Boundary Were Such That They Could Only Be Settled by Arbitration.

Ottawa, May 30.—The House met at 3.30 o'clock yesterday.

Several questions were asked and answered.

Mr. Prior asked the Prime Minister whether his attention had been called to the Washington despatch in the press concerning the High Joint Commission, and whether or not that despatch was true.

Sir Wilfrid Laurier replied: "Of course, I like everybody else, have noticed the series of articles and correspondence that have appeared in the American press. I believe I am not saying too much when I state that there is an evident attempt on the part of somebody to create the impression that Canada has taken a very unfair position in regard to the settlement of the Alaskan boundary. It has been suggested in some quarters that the authorities in Washington must in some degree be responsible for such a statement appearing so frequently, so repeatedly, in the American press. I am quite sure that the American authorities in Washington are free from blame in this matter. I am sure they cannot in any way have authorized or sanctioned any such expressions of opinion as are appearing in the press, for the very simple reason that the American authorities know perfectly well in what condition the question stands at the present time. I have only to repeat that the position to-day, on the 29th of May, is exactly what it was when the commission adjourned in the month of February last. There has been no change, and so far as this Government is concerned, there will be no change. I hope that before we separate we shall be able to lay before Parliament the exact condition of things that is to say the statement of the views maintained before the commission and of the point on which we disagreed. While I cannot say what was the position maintained by Canada upon this question, still I say, without revealing any secret, that it is well known by everybody who has given any attention to the study of the question of the boundary, that the boundary is defined by the treaty between Great Britain and Russia in 1825. According to our construction of the treaty, according to the construction that has been maintained all along, the boundary line should follow the crest of the mountains nearest to the coast, passing over bays and inlets which are territorial waters.

The contention maintained by the American authorities all along, is that the boundary line should be placed so as to place in American territory the strip of territory which is given to Russia by the treaty of 1825 beyond and above all head waters. That was the contention, I may say, which was maintained all along by both parties, and it may be assumed without doing violence to any understanding that this was the position maintained by the British commissioner. The contentions of both parties were so far apart that I shall not surprise anyone if I state that it was difficult to come to an understanding. Nor shall I surprise any one if I state that we endeavored on both sides, both American commissioners and Canadian commissioners, to reach a settlement by a fair compromise. After we had negotiated on this basis for a long time, we came to the conclusion that even a compromise could not be reached upon that question, and having reached that conclusion it was not possible by this commission to effect a settlement of this question by giving and taking; or by reconciling either party to the views of the other, we came to the conclusion that the only thing to be done was to have the question referred to arbitration. This is the set statement of the case that I have to make at this moment. I hope I have made it sufficiently clear to have it understood by everybody in this House.

## BURGLARS AT WINDSOR MILLS.

Windsor Mills, May 29.—Burglars have made their appearance in this town. A gentleman who occupied a sleeping room in a private family, on the second storey, retired on Friday night, placing his coat containing his pocket book with some money and some valuable papers, near the head of his bed. In the morning he found his clothes in an adjoining room, the pockets rifled. The burglars at first put up some boards on an outbuilding, but could not succeed in getting up that way. They then went to the lower storey and effected an entrance through a window in the sitting room. They then went upstairs where the man slept.

## CAPITALS VS. SHERBROOKE.

The lacrosse team were out for practice last evening, preparing for the opening of the lacrosse season in Sherbrooke, which takes place Saturday, when the Sherbrookes and Capitals will meet. Although the boys got some very hard knocks at Quebec, they will be in good condition again by Saturday. A Sherbrooke team has not yet suffered defeat on the new grounds, and there is no intention on the part of any to allow the good record to be broken on Saturday.

## KILLED AT COOKSHIRE.

### Carter Shot While Unloading Goods.

A Loaded Gun Was Among Them and in Drawing It From the Cart It Exploded.

Cookshire, May 30.—(Special)—George Veilleux, carter, of Cookshire, met with a fatal accident yesterday afternoon. While unloading from his cart some goods belonging to J. H. Burton, who was moving into the Farnsworth House, he drew out a gun which was in a case among the goods. He took hold of it by the muzzle and in pulling it off the cart it exploded, the charge striking Mr. Veilleux in the bowels. He lived but two hours. It seems the gun, a muzzle loader has not been in use for a year. It is another case of "did not know it was loaded."

Deceased was universally liked, always accommodating and good-humored. He will be missed very much by those in the habit of employing him.

Dr. Pelletier was summoned to hold an inquest.

Dr. Pelletier returned this morning from Cookshire, where he held an inquest into the death of George Veilleux.

The jury rendered the following verdict: "We, the jury, are unanimously of the opinion that the said George Veilleux came to his death on May 29th while unloading furniture, when a gun which he had among the furniture was discharged and killed him and that his death was purely accidental and no blame was attached to any one."

Mr. John Mackie and Dr. Dewar were the only witnesses examined. Their evidence was in accordance with the above facts.

#### CORRESPONDENCE.

##### Electric Car Fares.

We have seen in the RECORD an advertisement which will be a cause of pleasure for the charitable people of Sherbrooke and Lennoxville, viz that the Sherbrooke Street Railway Co. will give during four and a half days, being Kermess time, half fare rates between Sherbrooke and Lennoxville.

We remember that in two circumstances, we have asked for a similar favor, which was refused on the ground that it would create a precedent.

We admit, that the ladies and managers of other charitable organizations, although very respectable, are not what we call toy people, but nevertheless, we are, perhaps, the most paying class for the electric cars of Sherbrooke. A matter which should deserve a certain consideration on the part of the Company.

Now that the precedent is established, we hope that the same kind of treatment will be extended to all other organizations as well.

## TOUSIGNANT INQUEST.

### Jury Finds That the Scaffolding Was Unsafe.

The Foreman of the Work Testifies That the Men Were Instructed to Make it Safe.

Coroner Pelletier held an inquest yesterday into the death of Z. Tousignant, whose body was found in the St. Francis river yesterday, and who fell from the Wolfe street bridge and was drowned on May 10th.

After examining several witnesses the jury returned a verdict, finding that deceased came to his death on May 10, by falling into the Magog river, while working under the Wolfe street bridge, and that the scaffolding was not sufficiently wide and was dangerous, and that the foreman should have seen that the said scaffolding were wider.

Charles W. Bryant was called as witness. He testified that he was in charge of the work on the bridge of which Mr. G. G. Bryant had the contract to put in braces and bolts for the purpose of strengthening the bridge. Z. Tousignant, E. St. Cyr and Pierre Charest were working under his orders, at the bridge. They commenced work on the morning of the day preceding the accident. Witness told the men to go ahead to fix the scaffolds to suit themselves and if there were not enough planks they would get more. He told them to take their time and make the scaffolds safe. Witness was at the north end of the bridge when the accident occurred. He didn't see deceased when he started to fall, but saw him before he struck the water. Witness was of opinion that the scaffolds were safe, and he was not afraid to go on them after the accident. He thought the men put a few more planks on the scaffolds before finishing the work. It was a dangerous place for one not accustomed to working high, but for one used to working in such places there should be no danger. Witness had asked deceased in the morning if he was accustomed to working high. He said that he was. The contractor told witness at the start to take all necessary time in doing the job, as it was not a place to hurry.

Esdaio St. Cyr and Pierre Charest, fellow workmen of deceased, were among the witnesses examined. These witnesses gave the particulars of the accident. They were carrying some pieces of wood, to be used in repairing the bridge, when Tousignant lost his footing and fell. After he struck the water he was seen to make an effort to swim. They further testified regarding the condition of the staging.

The police officers gave the particulars in connection with the removal of the body from the river to the Morgue.

#### SHOT H-M FOR A HIGHWAYMAN.

A Young Man Thought He Was Held up and Used His Revolver Fatally.

Allentown, Pa., May 30.—As a culmination of frequent hold-ups on a lonely bridge over the Lehigh River at Whitehall, eight miles north of this city, James Howard, a boilermaker, of Scranton, Pa., was shot dead Saturday night by Preston Everett, aged 15 years, of Whitehall. Howard was employed in the erection of boilers in a new cement plant at Whitehall, and Saturday he and a half dozen friends took a half day off for a picnic. On their way home between 11 and 12 o'clock Saturday night they met Everett with a team. Everett alleges that the party tried to hold him up and that Howard had hold of the horses' bridle when he drew his revolver and fired. The bullet entered Howard's left breast and he died five minutes later from a wound in the lung.

Everett drove home at a gallop, and it was not until this afternoon that it was learned that he did the shooting. Upon the verdict of the coroner's jury he was committed to jail. Howard's friends say that Everett ran into the party with his team, and that in trying to save himself from injury, Howard grabbed the bridle, when he was shot.

## PHILIPPINE WAR.

### Natives Disregard a Flag of Truce.

They Are Showing More Aggressive Activity Daily.

Manila, May 29.—Captain Tilley, of the Signal Corps, with a detachment made up of other members of the corps, landed at Escalante, on the Island of Negros, to pick up and repair the cable.

The natives had a white flag flying over the cable house when the party landed. The latter, however, were no sooner on shore that they were fired upon by the natives.

They at once took to the water, and a number of them were picked up by a boat, but Captain Tilley and two native men of the party are missing. General Smith, with a detachment of troops, has started on board a gunboat to investigate the affair.

The transports Senator and Ohio arrived today.

Manila, May 29.—The approach of the wet season finds the insurrection seemingly taking a new lease of life. All along the American lines the rebels are showing more aggressive activity, in their guerilla style, than at any time since the fall of Malolos. They keep the United States troops in the trenches, sleeping in their clothing, and constantly on the alert against dashes upon outposts, and they make life warm for the American garrisons in the towns.

The hands of General Luna and General Mascardo, which retreated toward Tarilo when they feared they would be caught between General MacArthur and General Lawton, has returned in force to their old trenches around San Fernando, where there are daily collisions. Opposite American lines on the south, protecting Manila, all the way around to San Pedro Macati, the Filipinos have three rows of trenches most of the distance.

Reports from prisoners indicate that the insurgents construe the peace negotiations to mean that the Americans have had enough of fighting. The Filipinos are also encouraged by the belief that the Americans are preparing for an interval of inactivity during the wet season.

A MORNING BLAZE. Stables of East Sherbrooke House Damaged.

The Flames Were Promptly Extinguished. Preventing Serious Loss.

At about 7.30 o'clock this morning fire broke out in the stables of the East Sherbrooke House. There were quantities of hay, straw and other inflammable material about, and in a very few minutes this portion of the building was in flames.

The brigade responded promptly to the alarm which was sent in and after about three-quarters of an hour the flames were drowned out.

The fire did not reach the hotel proper but was confined to the stables and to the brick building on Bridge street, which belongs to the same property. The stables were quite badly damaged, the roof being burned through and practically destroyed.

The upper portion of the adjoining building was occupied by Louis Couture, photographer. He had time to remove his instruments, but the fixtures of his studio and the rooms in this portion of the building were damaged to a considerable extent by smoke and water.

The lower part of this building was occupied by Geo. Rouillard, barber. His loss will be very slight and only that occasioned by water penetrating the floor from above.

The fire was extinguished very promptly, considering the nature of the place in which it was located and the hold it had secured when discovered.

The loss will not be very heavy. Mr. Couture, photographer, carried no insurance, but \$25 will probably cover his loss.

The principal damage is to the stables. This is partly covered by insurance.

The buildings are owned by Mr. Oliver Desruisseaux, of Sand Hill, with Mr. Jos. House as proprietor of the hotel.

The fire caught in the stables but the origin is not known.

The stables were insured for \$500, in companies represented by J. D. Kennedy.

BOYCOTTED AT RICHMOND. ITALIANS WHO CAME TO REPLACE THE STRIKERS ARE NOT VERY CORDIALLY WELCOMED.

They Continue Work. However, Under the Protection of Six Policemen.

Richmond, May 30.—(Special.)—A gang of Italians were brought here on Saturday evening last by the G.T.R. Co. to fill the place of the trackmen who are all on strike. They went to work on Sunday morning under the escort of six burly policemen, and still continue. Considerable talk is going round, and it is feared that there may yet be trouble of a serious nature.

At present time the Italians are not able to purchase a loaf of bread in town, owing to a system of boycott which the storekeepers have adopted.

PREPARING FOR A HARD MATCH. Ottawa sports evidently have a keen appreciation of Sherbrooke's skill in the lacrosse arena, as the following paragraph clipped from the Ottawa Journal would indicate:

"The Capitals will play the Sherbrookes in Sherbrooke next Saturday, and will open the championship series at home on June 10 in a game with the Shamrocks. Both will be hard matches, and the Capitals will need to put in some hard work next week and the week following."

SYMPATHY FOR THE UTLANDERS. President Kruger and Sir Alfred Milner to Meet and Discuss the Questions at Issue.

Johnsbury, May 30.—The British reply to the recent petition of the Utlanders praying for the redress of their grievances is to the effect that the petition is receiving serious consideration. While the Government is unable at the present stage to express an opinion on the points raised it declares its general sympathy for the Utlanders, and says it earnestly desires a speedy and substantial change in their position.

It is expected that the questions at issue will be discussed by President Kruger and Sir Alfred Milner, the governor of the Cape Colony and British high commissioner in South Africa, at their coming meeting at Bloemfontein. The Government regards President Kruger's agreement to meet Sir Alfred as evidence of the Transvaal readiness to satisfy the reasonable aspirations of the Utlanders.

CASIMIR MUST DIE. Ottawa, May 30.—An order-in-Council has been passed directing that the law shall take its course in the case of the Indian Casimir, who is sentenced to be hanged for the shooting of Walter Phillips at Kamloops, B.C. The execution is fixed for June 2.

RUSSIAN RAILROAD LOAN. London, May 30.—The Statist says an attempt is being made in London to raise a Russian railroad loan of £3,000,000 at four per cent., and at an issue price of 99. The paper advises British investors not to furnish Russia with money to "carry on her anti-British policy in China."

SIR JOHN THOMPSON'S HOUSE BURNED. Halifax, N.S., May 30.—The house in this city owned by Sir John Thompson at the time of his death, and where he lived as a young man, was destroyed by fire Saturday afternoon. A bonfire had been lighted in the garden in the forenoon, from which sparks must have been blown unobserved, and lodging in the house burst into flames in the afternoon. The property was purchased from the Thompson estate by W. B. Freeman, Insurance, \$5,000, in Queen.

TREASURER \$3,000 SHORT. Wants to Compromise, and Rate-Payers Back Him Up.

Barrie, Ont., May 30.—The treasurer of the Township of Innisfil, C. Palling, who has been discovered short in his accounts to the extent of \$3,000, offered a settlement of \$1,200 through his solicitor, but the Council refused it. The treasurer submits that the shortage, extending over some 15 years, amounts to no more than his salary, if it had been a fair one, would have been reached, and several hundred ratepayers formally petition the Council to that effect. Palling gets \$400 a year as clerk and treasurer.

AGAINST FORCIBLE ANNEXATION. Great Meeting to be Held in Cincinnati to Protest Against Imperialism.

Cincinnati, May 30.—Cincinnati is preparing for a big non-partisan mass meeting, to oppose the doctrine of forcible annexation. Among the signers are many who hope and believe, even now, that a forcible remonstrance from the metropolis of the President's own State will lead to such a change in the national policy as will not force them to desert their party flag in 1900. They say in part: We believe the good faith and honor of the United States were pledged at the opening of the war with Spain, to extend the blessing of liberty to all conquered dependencies of that nation who were willing to receive them, but we deplore the effort to compel the inhabitants of any territory to accept our dominion by force of arms. We protest against the attempt by degrading this free government into an empire to destroy its moral leadership in the world, and we hope the people will defeat any such design by returning, with loyalty to the "Spirit of '76."

**CABINET MEMBER BEATEN.**

St. John's, N.F., May 30.—In a bye-election just held in the Placentia district, Mr. McGrath, a member of the opposition, defeated Hon. W. J. S. **DUBOIS SEES A VICTORY FOR BRYAN IN 1900.**

Blackfoot, Idh., May 30.—Ex-Senator Dubois, chairman of the executive committee of the National Silver Republican party, in an interview as to the present attitude of the Silver Republicans will meet in national convention at the same time and place as the National Democrats. The persistent statement made by the Republican papers that silver is a dead issue is the expression of their wish, but not of a fact. Those who supported Bryan in 1896 will support him again, unless they have some special reason for not doing so. The issues in 1900 will be the same as in 1896, only intensified and more clearly defined, and the candidates for President will be the same. The union of the Democrats and Silver Republicans will be more complete and harmonious in 1900 than ever before, and everything points to a victory of the reform forces.
