## Serpent Jewellery

One of the most popular fancies of this season's fashions in jewellery is in the form of a Serpent, this style of jewellery is, at present, very much worn in both Paris and London.

In anticipation of the demands of our customers we have imported a complete line of jewellery in this pattern.

- Serpent Bracelets from...\$2. to \$50.
- Serpent Necklets from.....\$6 to \$10.
- Serpent Chains from.....\$12. to \$60.
- Serpent Rings from.....\$1.50 to \$100.
- Serpent Brooches.....\$1.50

The bracelets are made in both Silver and Gold in very effective colorings, the workmanship is a marvel of mechanical skill, the bracelets slinging to the wrist in a way that is quite natural

We have also Fine Gold Braid Bracelets in Hollow Oval Patterns, Plain Bands with an adjustable Slide, also Buckle and Strap designs. Some of our Braid Bracelets are ornamented with Oriental Pearls, Turquois, Diamonds, Rubies, Sapphires or Emeralds, other styles are in a rich Roman Gold finish without and settings.

## The Quebec Chronicle

QUEBEC, JUNE 8, 1907.

### WHAT MAKES THE DIFFERENCE.

Although when Sir Wilfrid Laurier attended the late Intercolonial or Imperial Conference there was a general consensus of opinion among the journalists of the old country as to his admirable makeup and the stylish appearance of his outer man, and there is no doubt that if politeness had permitted London would have inquired with one voice "Who's your tailor?" there does not seem to have been the same unanimous verdict with respect to the inner man of the elegant Premier of the Dominion, and there was some slightly unfavorable criticism of his sayings and doings at the conference, notably in respect to his attitude towards the British navy and his conception of the duty of the Dominion in regard to it. Thus the Glasgow Herald said:

"According to the London correspondent of the Paris Temps, Sir Wilfrid Laurier holds that Canada has relieved the mother country of the task of defending the Canadian coasts by refusing to contribute to the cost of war-like preparations, as she is wholly in favor of peace. Surely this remark, by the Premier of the Dominion, always providing that it has been made, is a somewhat enigmatic one. It will not tend, at all events, towards an increase of confidence, on the part of the Imperialists at home, in the policy of the present Canadian ministry."

And the London Globe:

"To Australia and New Zealand the fleet is everything; it is much more to Canada than Canada will allow, and what was least pleasing in both the discussions of army and navy defence was the uninterested silence of Sir Wilfrid Laurier, who can never quite shake off a temperamental feeling that wars have ceased over the earth, and the mouth of the cockatrice's den is a safe basking ground."

There is a great deal of truth in these remarks, but the sneer of the Globe at Sir Wilfrid Laurier's temperamental feeling, and his sense of security at the mouth of the cockatrice den, though well-founded so far as Sir Wilfrid's declarations go, (which indeed is not very far) is calculated to do him an injustice. The Premier is not such an innocent either at Home or Abroad, as many judging him by the speeches he makes might take him to be, and he has a very vivid conception of the possibility of wars, and an equally vivid appreciation of the drawbacks of the cockatrice hole as a playground, but all depends on where the wars may be expected to break out, and the locality selected by the cockatrice for its habitat. So long as the possible trouble is outside the Dominion, and the cockatrice is not in evidence at Ottawa or Quebec, Mr. Carnegie himself could not entertain more optimistic views concerning the actual presence of the millennium amongst the nations, or Mr. Stead be a more militant opponent of "militarism," but let there be rumors of wars at Ottawa, as for instance when Mr. Tarte took the bit between his teeth and Messrs. Fisher and Fielding shouted "Whoa!" in vain, or the cockatrice begins to hatch out at Quebec, as it has been doing recently and giving the Gouin Government no end of trouble, then even Sir Frederick Borden when he has been fortified by a good club supper could not be more alive to the necessity for prompt and effective military measures, or Hon. Mr. Emeryson more ebullient in hastening to the rescue of those exposed to the violence of the cockatrice. Sir Wilfrid has had a great and intimate acquaintance with the cockatrice. "Of these," says the Toronto Mail, "there has been a large and interesting variety. One brought about the resignation of Premier Parent, for whom a place was found at Ottawa by Sir Wilfrid Laurier. Another led to the defection of Messrs. Bourassa and Lavergne, who could not stand the grafting at the Federal Capital. A third fractures Quebec Liberalism once again, and gives us the l'Epine case, and its story of the political "rake off." Accordingly we find it stated the other day in the Montreal Gazette: "Sir Wilfrid Laurier has cancelled several of his European engagements and will return to Canada a full month earlier than he expected. This news reached Montreal in a letter written by the Canadian Prime Minister to a personal friend in this city. It is held that this decision was reached by Sir Wilfrid at the earnest solicitation of both Quebec and Ottawa. The situation has become so unsatisfactory both in Federal and local politics."

It is other people's trouble that Sir Wilfrid views with philosophic equanimity, not his own.

A modern weapon in the battle for health.—If disease has taken your citadel of health, the stomach, and is torturing you with indigestion, dyspepsia and nervous prostration, South American Nerfine is the weapon to drive the enemy from his stronghold "at the point of the bayonet," trench by trench, but swift and sure, it always wins.— Sold by L. E. Martel.

### PROVEN AND NOT-PROVEN.

The Prevost-Asselin case may be divided into two sections, first what the defence proved beyond all possibility of doubt, and secondly what it left the jury and the public some room for doubt on. In the first class may be included the inefficient management of the department over which Hon. J. Prevost presided, and the reception by officials of emoluments from the Government, and, at the same time from persons or companies doing business with the department. These two things may be regarded as having been clearly and fully established, partly by the evidence of witnesses, the correctness of whose testimony it was not attempted to impugn, and partly by the confession of the Minister himself that out of nearly three thousand permits issued by the department only one solitary instance had come under his personal cognizance. There is no room for quibble or evasion about this; it is an established fact that one department, at least, of the Government has been inefficiently administered, and in a manner detrimental to the public interests, and it is very strange that the provincial Premier should have said, as he is reported to have said in Montreal, that he had not decided on his course of conduct under the circumstances, and would have to go through the voluminous report of all the proceedings at the trial before he could make up his mind. There is no need to go through the whole case to be satisfied as to the mismanagement of the department, and unless the Premier has good grounds for suspecting a similar mismanagement in other departments also his hesitation is unaccountable.

The other part of the accusations brought by Mr. Asselin is that on which, owing to the conflicting nature of the evidence, the jury may reasonably be supposed to have some doubt. It is so clearly and succinctly stated by the Toronto Mail and Empire, that, though we have no doubt our readers are thoroughly conversant with it, we have no hesitation in reproducing it here. Our conferees say: "The chief accusation had reference to the conditions under which land grants are made. The Quebec Government, it appears, interested Belgian capitalists in the north of Quebec, and a Belgian baron named l'Epine came over to look after the enterprise. This baron negotiated for 200,000 acres of land on the line of the Grand Trunk Pacific. His story is that when he came to discuss the terms the Government, through one of its members, wanted \$1 an acre, 70 cents per acre to go to the public treasury and 30 cents per acre to pass to the caisse electoral, or campaign fund. The conditions were debated for some time, and finally a lump sum was proposed for the campaign fund, \$60,000 in all. The Belgian syndicate balked at the amount, and the transaction did not go through. The members of the Quebec Government deny the baron's veracity. It is charged against the baron that at one time he said he did not believe in future punishment, and it is claimed that for this reason his oath cannot be accepted. But the baron declares that he is orthodox, and quite in harmony with all the doctrines set forth by the church of which he is a member in good standing. The evidence corroborating the baron includes a letter in which he tells of the proposed contributions to the caisse electoral. These contributions, he says, he agreed to because he understood that the making of such subscriptions to the campaign fund was the custom of the country. The jury is apparently not convinced that the baron's statement is untrue.

Thus there were two charges made, one of maladministration, and of graft, one of which, as we have said was fully established, and the establishment of the other commended itself to the minds of one-half of the jury, yet, if Mr. Gouin is correctly reported, he hesitates to take action on the one, and cannot say whether the Government will take further steps to relieve itself of the burden of the doubt on the other, or will sit down quietly under the imputation. And this again is strange, and justifies the criticism of the Montreal Gazette. Quebec Liberals seem to have decided to consider the division of the jury in the Asselin case the end of all the charges made before and during the trial. They may understand the province, but to others it looks as if they were taking great risks. A stronger party than that of Mr. Gouin was thrown out and down once by the people of Quebec when they had made up their minds that it was corrupt and had no defence.

Hon. Mr. Gouin should be clear-sighted enough to understand that the Prevost-Asselin case is not the personal one that it first appeared to be; it ceased to be that when the Government took it into its own hands and constituted itself the prosecutor, and became a political one then, not when the Charneau letter was introduced, for this latter merely implicated another member of the Cabinet by name, whereas the Cabinet as a whole had been implicated by the Government intervention. Although the jury

disagreed there was evidence enough elicited to place the Government itself on its trial before the country, and Mr. Gouin should be the first man to recognize the fact.

### PRESS OPINIONS.

The JUDGE WHO sat on the Asselin case rendered a most important verdict without the help of the jury. "I want to say that nothing has been proven against Hon. Adelard Turgeon. In as far as acts of personal corruption are concerned, he has come out of this trial intact and unscathed," observed Judge Boase.—Montreal Herald.

The Herald is welcome to all the consolation it can derive from this discriminating certificate of character. If Mr. Turgeon doesn't want to have it appear that Baron l'Epine made him look like thirty cents he will take steps to have the question settled in the courts. It would be history repeating itself should the demand for thirty cents for an election fund prove the undoing of a Provincial Government.—Ottawa Citizen.

A TRADE AGREEMENT.—The labor union forces of Great Britain do not seem to have been turned in the wrong direction through the remarkable ascendancy of the movement in the last general elections. When the trade disputes act became law it restored to union labor the privileges that the Taff Vale decision had taken away. It would be history repeating itself should the demand for thirty cents for an election fund prove the undoing of a Provincial Government.—Ottawa Citizen.

Several of the strongest unions have shown their desire to maintain peace with the employers. In the engineering trades, roughly speaking, what we in Canada would call the metal working trades, the employers' federation and the various unions have recently concluded a provisional agreement. The agreement provides for the "open shop" principle, and gives the employer the privilege of paying wages according to individual capacity, so long as no union man is required to work for less than the union scale. Employers may hire whom they please and exercise the right of discharge without interference. But they bind themselves not to discriminate against union men as such and not even to inquire as a workman applying for a job whether he is a member of a union or not.

There are clauses regulating overtime and piece work, and clauses dealing with the methods of settling differences and avoiding warfare. The employers must receive deputations of workmen to discuss grievances, and

trade union officials may negotiate with employers as individuals or as members of the employers' federation. Either party may submit a question to a local conference representing both sides, and from such a body an appeal may be taken to a conference of the central authorities of the employers' and men's unions. But during all such negotiations and efforts at a settlement of the pending issue there must be no strike or lockout, no interruption of production. The engineering trades are, of course, of immense importance in the British industrial scheme and any agreement which would be accepted in respect of these trades would be doubtless adopted in respect of the other important trades. It is easy to see that if such an agreement is carried to the point of practice for a term of years, an incalculable measure of good will will be vouchsafed to both masters and men. The agreement is said to have been the result of earnest and protracted discussion by representatives of both parties to the question, and is believed to have gone already a long way to the solution of a vexed industrial problem. It is interesting to observe the provision that pending negotiations between the parties on any question no strike or lockout, no interruption of production. Here is extended to the engineering trade in Great Britain the principle of the operation of which under the Lemieux act in Canada is restricted to public utilities. The working of this experiment in Great Britain therefore cannot fail to be of value to the Canadian law-makers, by whom we may be sure the Lemieux bill will be from time to time improved. In the meantime, the British workman seems to be in an admirable temper, not at all carried away by his electoral successes nor by his newfound ascendancy in the councils of the Government.—Ottawa Journal.

## FASHIONS AND FRILLS

—FOR—  
**FEMINE FANCIES**

(BY "BEATRICE")

The fashion sheets for June do not  
show anything decidedly new. The  
jumper in some form or other is very  
popular, and the short sleeves are still  
much in vogue.

A very pretty jumper dress is devel-  
oped in green silk gingham, with  
bands of white material. The gimpes  
worn with it is made of all-over em-  
broidery. The skirt is plain pleated,  
and the jumper is made surplus style,  
with bands of white stitched around  
the large armholes down the shoulder-  
s and around the fronts.

Another very pretty costume is devel-  
oped in liberty satin, and all-over  
lace. The skirt is pleated and made  
with a train. The blouse has three  
small tucks on each shoulder, and  
three tucks below each side of the  
square yoke.

The yoke and sleeves are made of  
all-over lace, and insertion is around  
the yoke and the armholes. A deep  
crush belt is worn with this dress.

When all women try to follow one  
style in dress or dress accessories than  
come the most trying appearances that  
fashions can produce. No two per-  
sons are enough alike to adopt the  
same styles from head to foot. No  
two faces are alike and no two per-  
sons have the same shaped heads nor  
the same coloring of hair. If a wo-  
man would be smartly attired at all  
times let her study her individual por-  
son and adopt only such of the friv-  
olous furnishings of dress as are best  
suited to her particular type.

The matter of arranging and decorating  
the coiffure is a characteristic feature  
of the well-groomed woman. The  
shape of the comb she wears should be  
in accordance with the shape of her  
face and the arrangement of her hair.  
A long visage usually requires low  
hair-dressing and broad ornaments,  
while a round or oval face is most be-  
comingly framed with a fluffy high  
coiffure and high combs or pins, or  
both.

At present, styles of hairdressing  
are quite moderate compared to those  
of a year ago. The pompadour has  
assumed a more modest proportion, and  
a great improvement over the fixed wave  
of recent vogue. Loose twists of coils  
that ripple into little soft curls and  
puffs are the order of the day both for  
high and low arrangements of the  
hair. Ornaments are shown in a variety  
of stunning shapes and decora-  
tions. Perhaps the newest of the  
simpler combs are in a composition  
that so nearly resembles real tortoise-  
shell that it is difficult to detect the  
counterfeit. These are found in high  
back effects ornamented with huge  
spikes or halls highly polished. While  
the vogue for hair ornaments is al-  
ways responsible for a host of un-  
sightly and unbecoming shapes, the  
present styles are more generally be-  
coming than usual. One should en-  
deavor to have her comb match as  
nearly as possible the shade of her  
hair. In view of this, shopkeepers and  
hairdressing establishments have pro-  
vided a large variety of different or-  
naments to suit every shade of hair.  
Long lace draperies are used in  
very beautifully and sumptuously  
furnished rooms, but they carry no  
starch and do not quite touch the  
floor. The room must be large to  
admit of the successful use of such  
curtains.

Curtains bought by the yard and  
simply finished with a hem reaching  
to the lower edge of the window  
frame represent a small expenditure  
and are just as effective as those  
which come in pairs ready to hang.

Nets, plain, figured, striped and  
cross-barred are suitable for living  
room, dining room and parlor, while  
dainty swisses and madras are for  
the bedrooms.

There are any number of pretty  
door hangings which one may also  
purchase by the yard, so artistic in  
design and colorings as to make them  
favorites many times over the more  
expensive and pretentious velours and  
like hangings.

The coarse colored nets and madras,  
priced as low as 50 cents the yard,  
make delightful draperies for both  
winter and summer. Even these inex-  
pensive denims are surprisingly effec-  
tive when bordered with cretonne or  
artificially stenciled. Stenciled drap-  
eries, by the way, are quite the rage.

In one house where the dining room  
is furnished in mission and the walls  
are covered with Dutch blue cartridge  
paper, bordered with Dutch windmills  
and Dutch kiddies, the windows are  
hung with curtains of unbleached mus-  
lin of the best quality, stenciled in  
three shades of blue. The effect is  
charming, especially when the round  
table is set with delft blue china on a  
satin cloth of half bleached damask.  
The floor of this room is stained to  
the tone of the furniture and centered  
with a blue and white matting rug.

Here are some Hints on wedding  
etiquette:—  
At a church wedding, the groom  
with his best man generally awaits  
the bride at the altar. On entering  
the church, the ushers come first, two  
abreast, the bridesmaids next, and  
finally, the bride, leaning on the arm  
of her father or some male relative.

On leaving the church, the bride and  
groom go first, the flower girl or  
matron or maid of honor next, then  
the bridesmaids in double file as be-  
fore or with the ushers. The best  
man goes out with the maid of honor.  
The father or male relative joins the  
mother and other relatives in leaving  
the church.

At a home wedding, the bride and  
groom may enter the parlor together,  
preceded by the ushers and brides-  
maids, or the groom may enter with  
the minister and the bride with her  
father or male relative.

Guests invited to the reception go  
in leisurely fashion from church to  
residence, giving the bridal party time  
to arrange its ranks for the arrivals.  
Guests pay their respects first to  
the bride and groom, congratulating the  
man and wishing the woman much  
happiness. Then, if other members of  
the bridal party are in line, they  
must be greeted, and it is only, or-

egg, a tablespoonful of sherry or  
brandy; mix again; then add, gradu-  
ally, a cupful of milk, and lastly, fold  
in the white of the egg, beaten stiff.  
The turning of the new home is of  
much importance and concern to the  
householder. Whether it be the tiniest  
apartment or the most spacious house,  
the interest is equally the same.

Perhaps a few suggestions on this  
subject may prove helpful to the girl  
who is furnishing her own home this  
summer.

Too great importance cannot be at-  
tached to the small furnishings. It is  
the small things which give a house  
its individuality and tone. How often  
these small things are overlooked.  
Many a time a home fails of arti-  
stic effect simply because the hang-  
ings are not in keeping with the color  
and character of the furniture, or the  
floor coverings clash with the wall  
papers. These and many other im-  
portant small details are what make  
or mar a home. The most successful  
house is that in which harmony is the  
key-note—harmony of design as  
well as color.

The style of furniture decided upon,  
the wall and floor coverings should be  
selected to harmonize perfectly with  
it. Harmonious effects cost no more  
than discordant ones, so why not  
have the home artistic, pleasing and  
restful to the eye?

Many women make the mistake of  
neglecting the details of best furnishing  
because of limited means. We all  
have entered houses where the first  
glance revealed the all too apparent  
absence of window hangings, for the  
lack of which the whole scheme of  
things was spoiled.

Rather an absence of some article  
of furniture or even floor coverings,  
for stained and oiled floors are seen  
in the best houses, than window drap-  
eries. One little cottage into which  
the bride recently traveled for an  
afternoon cup of tea and a pleasant  
hour with its happy little hostess, was  
almost a failure simply because the  
window curtains had been omitted.

The little lady explained rather apologetically  
that after furnishing her  
home she couldn't quite afford the  
kind of curtains she wanted, so de-  
layed buying any. Had she expended  
a little less in some other direction  
and hung her windows with some  
dainty and inexpensive net or madras  
the effect would have been artistic and  
she would have been saved her rather  
embarrassing confession. The prettiest  
room with uncurtained windows  
presents a certain bareness. Sunlight  
is commendable wherever and when-  
ever possible, but too much of it  
makes any room without curtains  
glary. Sift it through soft white or  
creamy draperies and the effect is  
beautiful; it softens every line and  
every color, and casts a spell of har-  
mony over all.

The simpler the drapery the more  
artistic. The old style lace curtain,  
stiffly starched and laying several  
inches on the floor is a thing of the  
past. Long lace draperies are used  
in very beautifully and sumptuously  
furnished rooms, but they carry no  
starch and do not quite touch the  
floor. The room must be large to  
admit of the successful use of such  
curtains.

When a member of the family be-  
comes suddenly ill there is usually  
found to be few or none of the little  
things which go so far toward making  
an invalid comfortable in a house.  
Very few are prepared with the best  
side table, the small hemmed tray-  
cloths, the numberless little things  
that are at once found to be neces-  
sary. Every housekeeper should have  
these things ready at hand, to be put  
in use at short notice.

The first essential is the table for  
the tray. There are lapboards fitted  
with short legs to be had at a reason-  
able price, but perhaps the best of  
the tray holders is the white enameled  
iron table, standing on a support,  
which consists of a long arm, which  
reaches under the bed, to give a solid  
base, and an upright which may be  
heightened or shortened at will, so  
that the table top fits down snugly  
over the lap.

Many small covers are needed for  
the tray itself. These may be bought  
quite cheaply, or may be made from  
a tablecloth which has been better  
days. Enough must be provided so  
that each meal may have its fresh  
cloth, but as they are simply hemmed  
around the edge to about an inch in  
depth, they are easy to make and  
laundry nicely.

Some of the suitable invalid trays  
are, however, very tempting. This  
one illustrated was made of strong  
light wood with handles, all enameled  
with cream-white, and set with  
cream-white dishes, edged with gilt.  
The tray held a pretty low teapot,  
a tiny cream pitcher and sugar bowl,  
a little coffee pot, a covered dish, an  
egg cup, and an attractively shaped  
cup and saucer; besides this there is  
a broth set with a good-sized covered  
bowl and a toast rack.

As to the invalid's food, there are  
certainly staple dishes which it is well  
to know just how to make. Of these  
one of the simplest is:—  
Beef Tea.—Chop fine half a pound  
of raw, lean beef, cover with one  
pint of cold water and let stand in  
an earthen dish in a cool place for  
some hours. Cook over the fire, stir-  
ring constantly, until vapor begins to  
rise, then remove from the fire. Strain  
through a cheesecloth, pressing the  
liquid from the meat. Season with  
salt.

Poached Eggs.—Add a few grains of  
salt to the white of an egg, beat until  
dry, and turn into a buttered glass or  
a china bowl; form a nest on the top  
for the yolk. Set the glass on a  
trivet, in a covered dish of lukewarm  
water, and let cook until the egg is  
set and firm in the glass. Do not  
let the water boil around the glass.

Egg Nog.—Beat the yolk of an  
egg; add one or two tablespoonfuls  
of sugar, and, when mixed with the

# Fruit-a-tives

"FRUIT-A-TIVES" differ  
from any other remedy in the world.

They cure, absolutely, Stomach, Liver, Kidney,  
Bowel and Skin Troubles.

Because none of the usual remedies have given you relief, is no reason why you  
should not give "Fruit-a-tives" a good, honest trial.

Fresh fruit acts directly on the three great eliminating organs—Bowels, Kidneys  
and Skin. But fruit contains only a minute quantity of the medicinal principles  
and in order to receive any marked benefit from fruit, one would be compelled  
to eat more than could be assimilated by the system.

"Fruit-a-tives" contain all the curative virtues of fruit in a wonderfully  
concentrated form.

In making "Fruit-a-tives," the juices of apples, oranges, figs and prunes are combined—  
and, by a wonderful discovery of a famous physician, a chemical change takes place in the  
juices, by which the medicinal action is many times increased. Then tonics are added, and  
the whole compressed into tablets.

"Fruit-a-tives" contain no Calomel—no Cascara—no Senna—no Morphine—  
no violent purgatives—only fruit juices and tonics.

"Fruit-a-tives" act directly on the Bowels, Kidneys and Skin—strengthening them—and  
arousing them to vigorous action.  
With the Kidneys healthy—the Bowels moving regularly every day—the Liver active—and  
the pores of the skin doing their full share towards ridding the system of waste—there can be  
no disease. "Fruit-a-tives" mean health for every member of the family.

50c. a box—6 boxes for \$2.50. Sent to any address on receipt  
of price if your druggist does not handle them.

FRUIT-A-TIVES LIMITED, OTTAWA, 103

TEL. 427

inary courtesy to seek out the par-  
ents of both bride and groom and pro-  
sent felicitations.

The bride introduces her husband to  
any of her friends whom he may not  
know and he performs a like service  
for his bride.

If a buffet breakfast or lunch is  
served, guests come and go to the  
dining room as at an afternoon tea.  
If a formal breakfast is served, the  
bridal party is seated first and guests  
are grouped at small tables.

Small boxes of wedding cake are  
generally piled upon a convenient  
table in the hall for guests to carry  
away as souvenirs.

Wedding gifts may be sent to the  
bride at any time after invitations  
are received. They must be acknow-  
ledged immediately upon receipt by  
the bride-to-be, in a friendly, personal  
note.

The family pays all the expenses of  
the wedding, including cards, the  
groom paying only for the ring, the  
bride's bouquet, the minister's fee and  
the carriage which takes him and his  
best man to the house or the church,  
and himself and his bride from the  
house to the depot.

Guests at a wedding must call on  
the bride promptly after the latter's  
first day at home is announced. If  
evenings at home are announced, mar-  
ried couples and men are supposed to  
call on the evenings named. Single  
girls can call during the day.

The groom gives souvenir gifts to  
his best man and the ushers, if he so  
desires. The bride performs a  
similar office for her attendants. The  
groom's gift to the bride is generally  
some good piece of jewellery, which is  
the only ornament she wears at her  
wedding.

The glove on the finger which is to  
receive the ring may be split open be-  
fore the ceremony, thus saving con-  
fusion.

The bride may carry a white prayer  
book instead of flowers if she so de-  
sires.

The groom at a day-time wedding  
must wear a frock-coat and grey  
trousers. The plea offered by some  
men that they look better in sack  
suits is to be ignored on this occa-  
sion.

**DUNLOP**

UNDOUBTEDLY this sale will come as a pleasant surprise to every family in Quebec. Partly to celebrate the occasion of the transfer of this business, and partly to make room for contemplated improvements, we have decided to clear the greater portion of our present stocks regardless of cost. This will be a Bargain Carnival, such as you have never before experienced. Saturday we start the ball rolling—and, for the rest of this month you are to be treated to a steady diet of bargain offerings. Every department in the store has something exceptional to offer for Saturday—those who come on the opening day will naturally have first choice. In a single page of this paper we couldn't begin to tell about all the special bargains that will be on sale at opening time on Saturday. Suffice it to say that the store has been closed all day Friday, and our entire force has been busy getting things ready for this sale. We are hiring extra salespeople as fast as they can be secured, and by opening time on Saturday we will be fully prepared to serve the greatest multitude of people ever gathered together in the Ancient Capital. See that you are one of the first to get here. We can promise prompt attention and careful service and we GUARANTEE absolute satisfaction.

Welcome to the First Great Event held under the auspices of The Paquet Company Limited!

## PRINCE FUSHIMI

**His Highness Visited Points of Interest Yesterday—Illuminations Last Night.**

During the afternoon His Imperial Highness was taken in charge by Lieut.-Colonel Wm. Wood, of the 8th R.R., who conducted him to the various historical points of interest in the city, which included a visit to the Citadel. Prince Fushimi appeared greatly interested in all that he saw. His Imperial Highness and party expects to leave for Montreal at 9 o'clock this morning.

### THE ILLUMINATIONS.

The illuminations in honor of the Prince last evening were of a very interesting character. The Chateau especially was brilliant in its illumination. The outlines of the building were marked with electric lights. Over the entrance to the courtyard was the word "Banni" and on the side of the Chateau were also the flags of Japan and Great Britain outlined in electric lights. The Terrace also had strings of electric lights along its entire length. The Chronicle office, the Chien d'Or Cafe and Messrs. Holt, Remondet & Co. also contributed their share to the general illumination, and their decorations were greatly admired by the large crowds of people who assembled during the evening.

### WE ARE IN IT.

If you want to have a nice Jacket well made, Mrs. Kelly will give you satisfaction.

**FAGUY LEPINAY & FRERE,**  
PROVINCIAL CABINET.

A meeting of the Provincial Cabinet was held at the Parliament Buildings yesterday morning at ten o'clock, all of the Ministers but Hon. Messrs. Allard and Provost being present.

### DOMINION LINE.

Steamer Ottawa is due here this afternoon and will moor at the Breakwater for mails and passengers. As the tide will not suit to cross Crane Island Flat before midnight to-night, the Ottawa will only sail at 10 p.m.

### DO NOT FORGET TO READ

The ad of "FAGUY LEPINAY" there is a plan for you.

**FAGUY LEPINAY & FRERE,**

**CHALMER'S CHURCH.**  
To-morrow the Rev. F. J. Day will preach at both the morning and evening services. Soloists, morning: Messrs. Claxton and Priestley. Evening: Mrs. T. P. Ross and Mr. J. A. Priestley. All are welcome.

### ONE FOR YOU GENTLEMEN.

Monday will begin the sale of \$1.00 suits, fit guaranteed, value \$8.00 to \$10.00, special \$6.75.

**FAGUY LEPINAY & FRERE,**

### ACCIDENT TO CAVALRYMAN.

During the reception to Prince Fushimi yesterday morning a trooper named Murray, of the Q.O.C.H. escort, was kicked by a horse. He was taken into the office of Dr. Thibaudeau, in Sous-le-Fort street, and his injuries attended to. They were not of a serious nature.

### Drink Beauport Lager; it is the best.

### BUILDING OPERATIONS.

The following permits were issued at the City Hall this week—W. Blais, repairs to property on St. Helene street, cost \$1,100; Belanger & Freres, contractors; L. Larose, proprietor and contractor, brick building, cost \$3,000; A. Lippe, proprietor, building on Colomb street, cost \$1,000; C. A. Vezina, contractors, building on Dalhousie street, cost \$2,000; P. G. Bussieres, proprietor.

### CHINESE VASES.

Messrs. ALF. TANGUY & CIE, commission merchants and grain, flour and provision brokers, have received directly from CHINA 25 pairs of vases in CHINESE PORCELAIN of great value and elaborate work, which they are offering for sale to lovers of fine arts. These articles may be seen at their office, No. 18 St. James street, Lower Town, and a visit is solicited.

### EMBROIDERY SALE.

On Friday and Saturday of this week will take place, at our store, corner of St. Joseph and Crown Sts., the largest embroidery sale ever heard of in Quebec. 12,900 yards of fine embroidery coming from the failure of a large whitewear manufactory were bought at half price and must GO QUICK. See them!

### THE QUEBEC SYNJCATL.

### SUCCESSFUL STUDENTS.

The following second year medical students of Laval University have been successful in the final examination:—J. Fremont, Conrad Goggin, J. Emile Fortier, H. Sirois, A. Bonenfant, J. Emile Fortin, Conrad Ringuet, A. Marceux, A. Larochelle, T. Gosselin and L. Corrivau.

### BEATIFICATION PROCEEDINGS.

On Friday next, June 14th, proceedings looking to the beatification of the Rev. Father Pampalon, C.S.S.R., will be instituted at the Basilica in this city. Rev. Father Lemieux, Provincial of the order, will preside. The witnesses have been convoked to meet in the St. Edward Chapel of the Cathedral at 9 o'clock. The Rev. Father Alfred Pampalon, who died in the odor of sanctity at Ste. Anne de Beaupre, was the son of the late Antoine Pampalon, contractor, who built the Church of Ste. Anne de Beaupre, and the first part of the Hospice St. Joseph de la Delivrance in Levis. He was a brother of Rev. Father P. Pampalon, cure of Cap Rouge, and Mr. Arthur Pampalon, stone cutter, Montreal.

## DEATH OF MR. STEPHEN CONNOLLY.

There passed away yesterday in the person of Mr. Stephen Connolly one of the oldest members of the lumber trade in this city. The deceased, who had reached the age of 74 years and 11 months, was for a long time a lumber merchant at St. Colomba de Silley, carrying on an extensive business that gave him a wide employment to a large number of men. Some few years ago he retired from business and came to this city, where he had since resided up to the time of his death. In his youth Mr. Connolly had travelled a great deal and was one of the many who went to Australia during the excitement in that country caused by the discovery of gold. He used to relate as a remarkable incident the accidental meeting of some thirty-five Quebecers one evening in a hotel in Melbourne in the early "fifties." Mr. Connolly was possessed of a kindly and generous disposition, which gained him many friends by whom the news of his death will be received with the deepest sorrow. To his bereaved widow and family much sympathy will be extended in their sad affliction. Deceased was the father of Mr. Martin Connolly, agent of the R. & O. Navigation Company in this city.

### RECORDER'S COURT.

Eight prisoners charged with drunkenness, appeared before the Recorder yesterday. They were disposed of as follows:—Four were fined \$5 and costs each, three \$2 and costs each, and one was discharged.

### ST. ANDREW'S CHURCH.

In St. Andrew's Church to-morrow the services will be conducted by the Rev. Dr. Carmichael, one of the delegates to the General Assembly, now being held in Montreal. Dr. Carmichael is Superintendent of Missions, being the successor to the late Dr. Robertson.

### AUDITORIUM.

"A Royal Slave," which comes to the Auditorium Monday and Tuesday for two nights with a Tuesday matinee only, is to be one of the real events of the theatrical season in this city. Of all the romantic dramas seen last season, few were as well received as Gordon & Bennett's beautiful production of the Southland. It is not only unusual in dramatic construction, but is magnificent in its scenic investiture, every piece of scenery used in the production being carried by the company.

### A GREAT BIG HIT.

A new musical composition of the popular type, for piano, entitled "Nippono," an intermezzo march two step, has just been issued and received at A. Lavigne's music and piano warehouse, 68 St. John street. This new musical production is a very characteristic one, full of life and of an energetic rhythm, of very moderate difficulty, yet very brilliant and catchy. The title page is magnificently illustrated in color. It is sure to become as popular as "Hawathia," "Sorella," "Floating Along," in a short time, and the fair pianists who want to secure the newest thing out will have only to send 35c. to the publisher, A. Lavigne, and they will receive a copy by return mail. "Nippono" will be all the rage during the coming season.

### Dance music every week night in Kent House Parlors.

12,900 YARDS OF EMBROIDERY were gotten from the failure of a manufactory, and, as this is not the season for embroidery sale, we will offer them at such low prices that they will have to GO. On 21st Friday and Saturday at THE QUEBEC SYNDICATE, Corner St. Joseph and Crown Sts. june7x2

### BISHOP'S COLLEGE SCHOOL.

Closing for Scholastic Year Takes Place June 17-19.

Closing exercises and sports in connection with Bishop's College School will take place June 17-19. On the morning of the first day there will be a cricket match, Past vs. Present, and in the afternoon and evening open air dramatic performances, scenes from "A Midsummer Night's Dream," will be given. The annual athletic sports will be held on June 18, morning and afternoon; the old boys' lunch takes place at 1 p.m., and the school dance comes off in the evening. At 11 a.m. on June 19, service will be conducted in the chapel, with an address by the Right Rev. E. M. Parker, D.D., coadjutor bishop of New Hampshire, followed by the distribution of prizes, at noon by Mayor Farwell, of Sherbrooke, after which the school lunch takes place.

### THE LATE MRS. CAROLL.

The funeral of the late Mrs. Stephen Carroll took place yesterday at St. Peter's Church, where the service was conducted by the Rev. Mr. King, Ven. Archdeacon Balfour, reading the lesson. The chief mourners were the deceased's one surviving brother Wm. Fleming, and two grandsons, Stephen and Thomas Davis. The cortege was a very lengthy one including a representation from the Bell Telephone Co. headed by Mr. H. A. Dauphin, Supt., and Mr. Flynn, Inspector. Mr. Thos. Donaghin Sr., and Thos. Donaghin, Jr., and many other prominent citizens. The remains were interred in Mount Hermon Cemetery. The grave being completely covered by the many floral offerings.

# MANY PEOPLE HAVE CATARRH OF KIDNEYS AND DON'T KNOW IT.

**Backache, a Warning Symptom of Kidney Trouble.**

**Per-na Is Invaluable in Such Cases.**

**Prominent Persons Who Have Been Cured.**

Mr. J. Blyler, 1505 Ohio street, Des Moines, Ia., writes: "I wish to state my appreciation of your excellent remedy."  
"I have always enjoyed excellent health, except frequent and painful attacks of bladder trouble, which doctors failed to relieve or cure."  
"Upon recommendation I used Per-na to my utter satisfaction, not having had an attack now for four or five years."—J. Blyler.

**MR. J. BLYLER**  
Catarrh of Kidneys Caused Much Suffering.

**MR. LEOPOLD BRANDL**  
Catarrh of Kidneys Caused Much Suffering.

## Dangerous Kidney Diseases Cured.

WHEN the kidneys become affected by catarrh, either from colds, overwork, or an extension of catarrh from some other organ, they fail to perform their normal functions.

It is the work of the kidneys to excrete from the blood many of the poisons which accumulate in the body.

If the kidneys fail in their work, the poisons accumulate to such an extent as to cause convulsions, which often prove fatal.

Per-na, by relieving the kidneys of their congested and catarrhal conditions, leaves them free to act in a normal manner.

It also strengthens the action of the heart, equalizing the circulation of the blood in all parts of the system.

A remedy that relieves catarrhal derangements of the kidneys should certainly be considered a household remedy. Per-na is such a remedy.

**High Commendation For Per-na.**  
Mr. C. B. Fizer, Mt. Sterling, Ky., writes: "I have suffered with kidney and bladder trouble for ten years past."

"Last March I commenced using your Per-na and continued for three months. I have not used it since, nor have I felt a pain."

"I believe that I am well and I therefore give my highest commendation to the curative qualities of Per-na."

Neglected catarrh of the kidneys is apt to develop into Bright's Disease or diabetes, when a cure is almost an impossibility.

We have on file many testimonials like the ones given here. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements we are receiving every month.

No other physician in the world has received such a volume of enthusiastic letters of thanks as Dr. Hartman for Per-na.

Address Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio, for free medical advice.

All correspondence held strictly confidential.

## SHIPPING NEWS

### THREE THOUSAND Passengers Arrive Here from Europe Yesterday Morning on Two Steamers.

Two steamers from Great Britain, with nearly 3,000 passengers, arrived in the port of Quebec yesterday, within the space of two hours.

The first to put in an appearance was the Allan Tunisian, Captain Braes, from Liverpool, via Merville, with 1,404 passengers in her three classes. She reached Quebec at 6.30 a.m. and after being moored and medically inspected commenced to land her steerage passengers, 1,016 in number. These were conducted to the Immigration Buildings to undergo the immigration inspection, their baggage being landed in the meantime. The newcomers were principally British, and all were in a healthy state. By the afternoon they were entrained and left for the west. Some of her first and second cabin passengers also landed here. The Tunisian made a good passage across the Atlantic. She left Liverpool on Thursday afternoon, and Merville the next day, and had fine weather the greater part of the way. Her daily runs, after leaving Merville, were:—Saturday, 381 knots; Sunday, 283; Monday, 369; Tuesday, 360; Wednesday, 375; Thursday, 299. She ran the distance from Father Point to the Quarantine Station in exactly seven hours. Had she not to stop at the latter point for medical examination she would have covered the distance between Father Point and Quebec in eight and a half hours.

After discharging Quebec cargo she left for Montreal at 11 a.m. The Tunisian was gallily decorated with flags in honor of H. I. H. Prince Fushimi.

The Canadian Pacific Railway Co.'s R.M.S. Empress of Ireland, Lieut. J. V. Foster, R.N.R., commander, with 1,504 passengers, the mails and a general cargo, from Liverpool, reached port at 8.30 a.m. yesterday, and as soon as she was safely moored her steerage passengers landed, the majority of them getting on board the special train which was in waiting to convey them to their destination. This train left here about 10 a.m. It had no sooner moved away than it was replaced by a special for the second cabin; and it was not long before it also had left for the westward. The third-class people were soon afterwards entrained, and by the afternoon had left Quebec.

The Empress of Ireland made a very fast passage from Liverpool to Quebec. She left the former port at 5.30 a.m. on Friday, June 7th, thus covering the distance between the two ports, after deducting difference in time, in exactly six days and twenty hours, and this by the southern Cape Race route. She arrived at Rimouski shortly after eight o'clock on Thursday evening, and was detained there two hours endeavoring to transfer the mails to the tender, but the weather proved too boisterous and she was compelled to abandon the task and carry the mails up to Quebec from Liverpool to Quebec were about 35 knots. The distinguished passengers who came over on the steamer this trip were highly delighted with her and the attention paid to all the passengers. His Excellency, the Governor General, presented the chief steward, Mr. A. W. Gande, with a valuable gold breast pin, bearing His Excellency's crest and monogram, in appreciation of the attention received on the passage. Of course there were the usual concerts and other entertainments during the trip, a handsome sum being raised for nautical charities. A sad event also occurred on the passage. Mrs. J. Marshall, a second cabin passenger from Scotland, died of pneumonia. Her body was brought here for interment. She was accompanied by her daughter whose grief, under the sad circumstances, may well be imagined.

The way the large number of passengers which arrived here yesterday, were handled by the Immigration Customs, steamship and railway officials speaks volumes for Quebec as a port of disembarkation for ocean travellers.

The Empress of Ireland was handsomely decorated with flags in honor of the distinguished passengers she brought from across the sea.

**ALLAN LINE.**  
R.M.S. Virginian, Captain Vipond, arrived from Montreal at 7 p.m. yesterday and moored at the Company's wharf. After embarking Quebec passengers and cargo, she left for Liverpool at midnight. The following Quebecers are among her saloon passengers:—James McConard, Miss E. McConard, Miss C. McConard, E. W. Rutter, and G. Phillips. Speaking of this vessel the Montreal Gazette of yesterday, says:—"The Virginian, of the Allan Line, sails from port this morning for Liverpool, via Sydney, for the mails, with every berth filled. The Virginian has on board the largest number of passengers which has left Montreal this season. Careful records will be kept of the delay caused by the call at Sydney, and the first attempt of the season to make Sydney a mail port is being watched with interest in shipping circles. One thing is certain, the Sydney call will never become a favorite one with captains of the mail ships as the possibilities of fog and consequent delay are very general. It is understood that the new mail tender, the Deerhound, is expected to be ready for service in a short time."

R.M.S. Victorian, Captain Macneil, sailed from Liverpool yesterday afternoon for Quebec and Montreal with passengers, mails and general cargo. She will transfer the mails to the steamer Montclair off Sydney, C.B.

**C. P. R. LINE.**  
R.M.S. Empress of Japan left Hong Kong at 4 p.m. on Thursday, 6th June for Vancouver.

Steamer Mount Temple, Captain Purcell, arrived from Montreal yesterday and proceeded for London and Antwerp.

Steamer Lake Manitoba sailed from Liverpool on the 5th instant for Quebec and Montreal.

Steamer Montclair, Captain Hodder, sailed from Manchester on the 5th instant for Quebec and Montreal.

**DOMINION LINE.**  
Steamer Cornishman sailed from Liverpool for Portland at 7 p.m. on the 5th.

pool for Portland at 7 p.m. on the 5th.

Steamer Kensington sailed from Liverpool for Quebec and Montreal at 3 p.m. on the 6th with 290 second and 1,250 third-class passengers, and a general cargo.

Steamer Ottawa will sail from here this evening for Liverpool on the arrival of the mails from the West.

R.M.S. Dominion, from Liverpool, passed 140 miles southeast of Cape Ray at 9 a.m. yesterday, and is due in port to-morrow.

**DONALDSON LINE.**  
Steamer Kastalia, Captain Black, arrived from Montreal yesterday afternoon, and proceeded for Glasgow.

Steamer Latona, Captain Rollo, from Quebec and Montreal, arrived at London on the 5th instant.

**QUEBEC STEAMSHIP CO.**  
Steamer Trinidad sailed from St. Thomas, W.I., for New York at three o'clock last Thursday afternoon.

Steamer Bernadina arrived at Bermuda from New York at nine o'clock yesterday morning.

**THOMSON LINE.**  
Steamer Escalona, Captain Black, having completed cargo, left port at 2 p.m. yesterday for Aberdeen.

**SIGHTED ICEBERGS.**  
Halifax, N.S., June 7.—Captain Fraser, of the steamer Bonavista, which arrived in port last night, reports that in latitude 46.30, longitude W., 53.50, on June 4, the Bonavista passed and spoke the Norwegian barque Westlana, which was to be reported all well. They also passed four other barques all bound west. Several icebergs were sighted between St. John's and Cape Race, during which a dense fog prevailed, until after the passing of Cape Race.

**NOTES.**  
Tug Virginia left for Sorel yesterday with a number of canal boats, laden with pulpwood in tow.

Steamers Tricolor and Fornabo, from Sydney, for Montreal, with coal, arrived in port yesterday and proceeded.

Steamer Hermes, Captain Simonson, from Sydney, with a cargo of coal, arrived in port yesterday and moored in the Louise Dock.

Steamers Ravn, Fritze and Bayland, from Montreal for Sydney, arrived down yesterday and proceeded.

Steamer Cataract, from Erie, Pa., for Quebec, with coal, passed Port Dalhousie on Thursday.

The commander of the Corsican, the new vessel of the Allan Line, Liverpool-St. Lawrence service has been selected and the choice of the Glasgow head office has fallen upon Captain Pickering, formerly of the Corinthian. Captain Pickering is succeeded by Captain Lindsay, who was formerly in the service of the White Star Line.

PROCLAMATION.

Of His Worship, Mayor J. Geo. Garneau, announcing the celebration of the Third Centenary of the foundation of Quebec by Samuel de Champlain, 1608-1908.

Whereas the 3rd July, 1908, will be the three hundredth anniversary of the landing of Samuel de Champlain and his companions on these shores, at the foot of the rock of Stadacona, now Quebec;

Whereas such date coincides with the foundation of this city, the first French settlement in America and the cradle of the Canada of today.

Whence it is the duty of the citizens of Quebec to commemorate that great historical event and the Government of Canada has resolved to mark that anniversary, one of truly national importance and of interest to the whole country, by public rejoicings to be inaugurated under its auspices and the official portion of which will take place in the city of Quebec in the month of July, 1909.

And I invite all citizens of Quebec to begin at once to prepare for the celebration so as to ensure the success of the jubilee festivities.

As Mayor of the City of Quebec, I appeal to all the inhabitants of Quebec and to their feelings of legitimate pride, to their attachment to the place where they were born or which they have adopted as their home, so that all, vying with one another in zeal, in civic patriotism and in good taste, may strive to embellish, repair and ornament their houses and properties, and thereby give our city a striking and new appearance that will bring out all its picturesque beauty and be worthy of its renown as one of the intellectual and artistic centres of our country and the scene of the greatest and most dramatic events of our history.

In view of the expected throng of visitors, we shall have to exercise large and generous hospitality, and I therefore urge all the citizens of Quebec to take steps in concert so that we may be able to assure all who will come to our celebration that the wisest, most prudent and most complete measures will be adopted to secure for all transport facilities, lodgings, food and a hearty and eager welcome.

In testimony whereof I have signed the present proclamation this first day of June, one thousand nine hundred and seven, the 29th year of the foundation of the city of Quebec by Samuel de Champlain.

J. GEO. GARNEAU, Mayor. (Attest) L.S. H. J. B. CHOUINARD, City Clerk.

CITY OF QUEBEC.

City of Quebec, In the District of Quebec, to wit BY-LAW No. 413.

Concerning the Prolongation of St. Therese street (Drawn up in the French language.)

At a meeting of the City Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the 31st day of May, one thousand nine hundred and seven, the following By-law was read for the first time:

It is ordained and enacted by the Municipal Council of the City of Quebec, and the Council ordains and enacts as follows:

1.—St. Therese street, in St. Valier Ward, of this City, shall be prolonged on its present width, from Bayard street as far as Duquesne street, by employing to that effect a strip of ground already belonging to the City, and forming part of St. Peter's Market.

2.—The cost of the work for making said extension of street, shall be charged against the loan authorized by the Act 7 Edward VII, chap. 62, sec. 1.

PUBLIC NOTICE

IS HEREBY GIVEN that, pursuant to section 30th, of the Act 29 Vict., chap. 57, as amended by section 11 of the Act 31 Vict., chap. 33, and section 8 of the Act 32 Vict., chap. 51, the above By-law will be read a second time and passed on FRIDAY, THE FOURTEENTH DAY OF JUNE INSTANT, (1907).

By order, H. J. B. CHOUINARD, City Clerk.

CITY OF QUEBEC.

City of Quebec, In the District of Quebec, to wit BY-LAW No. 412.

To amend the By-law No. 283, concerning the finances of the City. (Drawn up in French language.)

At a meeting of the City Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the 21st day of May, one thousand nine hundred and seven, the following By-law was read for the first time:

It is ordained and enacted by the Municipal Council of the City of Quebec, and the Council ordains and enacts as follows:

1.—Article 3 of By-law No. 283, passed by this Council on the 1st of March, 1889, as amended by article 13 of By-law No. 329 of the 29th March, 1895, is amended and modified anew, so that the personal tax of seventeen hundred dollars which is enacted therein, as payable by every gas light company, shall henceforth be of twelve

To Get More Strength from Your Food.

WHEN the Bowels are filled with undigested food we may be a great deal worse off than if we were half starved.

Because food that stays too long in the Bowels decays there, just as if it stayed too long in the open air.

Well, when food decays in the Bowels, through delayed and overdue action, what happens?

The millions of little Suction Pumps that line the Bowels and intestines then draw Poison from the decayed Food, instead of the Nourishment they were intended to draw.

This Poison gets into the blood and, in time, spreads all over the body, unless the Cause of Constipation is promptly removed.

That cause of Constipation is Weak, or Lazy Bowel Muscles.

When your Bowel-Muscles grow flabby they need Exercise to strengthen them, not "Physic" to pamper them.

There's only one kind of Artificial Exercise for the Bowel-Muscles. Its name is "CASCARETS," and its price is Ten Cents a box.

So, if you want the same natural action that a six mile walk in the country would give you, (without the weariness) take one Cascaret at a time, with intervals between, till you reach the exact condition you desire.

One Cascaret at a time will properly cleanse a foul Breath, or Coated Tongue.

Don't fail to carry the Vest Pocket Cascaret Box with you constantly.

All Druggists sell them—over ten million boxes a year.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "C.C.C." 741

hundred dollars, from the first of May of the present fiscal year.

PUBLIC NOTICE

IS HEREBY GIVEN that, pursuant to section 30th, of the Act 29 Vict., chap. 57, as amended by section 11 of the Act 31 Vict., chap. 33, and section 8 of the Act 32 Vict., chap. 51, the above By-law will be read a second time and passed on FRIDAY, THE FOURTEENTH DAY OF JUNE INSTANT, (1907).

By order, H. J. B. CHOUINARD, City Clerk.

TO THE CANADIAN NORTH-WEST.

Hundreds and hundreds of people from this province are going to visit that interesting country which, on account of its great development in the course of the last twenty years, has now become known all over the world. In order that our own people may have the opportunity of knowing what this country really is, the Canadian Pacific Ry. Co. have organized for the 18th of June and the 3rd, 17th and 31st of July, excursions to all Western points at very low rates. Every one can benefit by a trip there, especially those wishing to establish themselves on a farm, for a few dollars and good will you can work up in a few years a fine farm in every way fitted to bring in each year a big revenue, on very good conditions, that is, at small expense and same can be paid by small sums periodically. You will never know exactly what the Northwest is until you get there yourself.

FEARED TO PROBE FOWLER CHARGES

Mr. Borden Scores Government for Their Stand

INVESTIGATION BURKED

Obsolete Rule Brought to Stop It—Address to Conservatives of Carleton.

Ottawa, June 7.—All parts of Carleton County were well represented at the annual meeting at Stittsville of the Conservative Association. There without health. Psychine has brought happiness and health to thousands of homes in Canada. If you are in poor health, run down, weak, poor appetite, or have throat, lung or stomach trouble, write to Dr. T. A. Slocum, Limited, Toronto, or better still, go to your nearest druggist and procure a bottle of Psychine. Read what happens it brings to homes, and how one of the greatest calamities that can come to wedded life can be avoided.

"The use of your celebrated remedies Psychine and Oxomulin in my family has been so beneficial that I feel it would be an injustice both to you and the general public were I to withhold my testimony as to their excellence. Two years ago my wife was treated by an eminent Toronto throat specialist for a diseased throat and lungs, and receiving no relief she tried Psychine, and after having used three bottles was fully restored."

"REV. J. J. RICE, '51 Walker Ave. Toronto."

THE FAILURES OF WEDDED LIFE

How They Come About and How They Can be Avoided.

"Half the failures of wedded life are due to man's inability to temper justice with mercy. The other half are due to woman's inability to temper outlay with income." So said one of the world's great men. Is this true? We are disposed to answer, "No." Many of the failures arise from incompatibility of temperament, and, oh, so many from disordered stomach, lungs or liver, or other condition of physical infirmity. No home can attain the highest degree of happiness without health. Psychine has brought happiness and health to thousands of homes in Canada. If you are in poor health, run down, weak, poor appetite, or have throat, lung or stomach trouble, write to Dr. T. A. Slocum, Limited, Toronto, or better still, go to your nearest druggist and procure a bottle of Psychine. Read what happens it brings to homes, and how one of the greatest calamities that can come to wedded life can be avoided.

"The use of your celebrated remedies Psychine and Oxomulin in my family has been so beneficial that I feel it would be an injustice both to you and the general public were I to withhold my testimony as to their excellence. Two years ago my wife was treated by an eminent Toronto throat specialist for a diseased throat and lungs, and receiving no relief she tried Psychine, and after having used three bottles was fully restored."

FRANCE AT THE HAGUE

Paris, June 7.—In the Chamber of Deputies today M. Despres, socialist, interpellated the government relative to the attitude of France at the Hague Peace Conference. He referred to Great Britain as a "precious instrument of peace for the whole world," and declared that immense armaments meant bankruptcy for the countries adopting such a policy. Foreign Minister Pichon, in reply, remarked that the coming conference was a veritable international parliament. France would remain true to herself by playing an unrestricted role of moderation and conciliation, similar to that adopted by M. Bourgeois, the head of the French delegation to the peace conference of 1899. The names and reputations of the French delegates, he added, guaranteed the usual fulfillment of their mission. The chamber unanimously approved the minister's declaration.

ITCH, Mange, Prairie Scratches and every form of contagious Itch on human or animals cured in 30 minutes by Wolford's Sanitary Lotion. It never fails. Sold by L. E. Martel.

RICH MAN WEDS

Pittsburg, June 5.—Cora Dugan, the pretty "hello girl" of the Hotel Newell, and P. J. Minehan, one of Pittsburg's wealthy men, were married this morning and are now on their way East. Minehan is a horseman of wide fame and much wealth, also proprietor of one of the biggest liquor bottling establishments in Allegheny.

Miss Dugan, the article, is 18 years of age and was considered one of Pittsburg's really pretty girls. Minehan has for years boarded at the Hotel Newell where Miss Dugan was telephone operator and it is understood that their courtship lasted less than six months. Minehan did much business through the telephone connected with his operations in the hotel. He liked the apartment, sought the owner and fell in love with her, though he is more than twice her age. The marriage took place at 6 a.m. in the Church of the Epiphany, it being known to only a few that the rich horseman and the poor telephone girl were to marry. Minehan was much chagrined when told that his marriage had been made public, but introduced his beautiful young bride to all friends. Miss Dugan's sister attended her at the church. The bridegroom was so proud of his young wife that he at once hurried her off to show her to his folk, living near Johnstown, Pa. They were scheduled to take a train from Johnstown to-night and they will reach New York to-morrow morning, where part of the honeymoon will be spent. Minehan has bought a palace in the East End for his bride.

Look For Blood Humors

They Crop Out Constantly, Showing The System Needs Purifying.

You're not satisfied with your looks. How can you be with such disfiguring pimples, such rough uneven skin? Blood is full of humors and it's no wonder you look and feel poorly.

You are languid, Appetite is miserable, Sleep is hard to get, Snap and vim are lacking.

High time to improve matters—but what's the proper remedy? Experience proves that Dr. Hamilton's give instant effect. They tone the entire system, fortify the blood and impart a feeling of new life in a few days.

Unlike strong purgatives, Dr. Hamilton's Pills are exceedingly mild. They are made from concentrated vegetable extracts such as Mandrake and Butterbur, and can be taken by young or old with absolute safety.

"I learnt something very valuable after using Dr. Hamilton's Pills," writes Miss Edie Thomson, of Meriden. "I used to have ugly pimples that much embarrassed me. The tonic and purifying effect of Dr. Hamilton's Pills completely restored me. My health is splendid and my complexion a great credit to this marvelous medicine."

Let your medicine be Dr. Hamilton's Pills. They do cure so thoroughly. Sold by all dealers, 25c. per box, or five boxes for \$1.00. By mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

HAVE YOUR HAT WELL TRIMMED.

The Sauce, that makes an appetite and satisfies it. LEA and PERRINS' SAUCE. The Original and Genuine Worcestershire. Ask any honest grocer for THE BEST SAUCE—he is sure to give you LEA & PERRINS'.

AT BLUE BONNETS

Weather Conditions Yesterday Were Much Improved—Track Muddy.

Blue Bonnets Race Track, Montreal, June 7.—So far as overhead conditions are concerned, there was a vast improvement at Blue Bonnet track for this afternoon's racing events, but the track was heavy from the effects of yesterday's heavy rain. There was little work done this morning, the only horse to exercise being Inspector Purvis, and he was sent through the back stretch going an eighth of a mile in thirteen seconds, which indicates that he likes heavy going. Several of the owners of jumpers asked to have the steeplechase event changed to a two mile race on the flat to-day. It will probably be an innings for mudlarks for the rest of the week as the track can hardly become fast by to-morrow. Summaries:— First race, half mile, two-year-olds, maidens, selling, \$400 added—Black Mask, 102, (McDaniel), 5 to 2, 4 to 5, and 2 to 5, won by half a length; Fare, 97, (J. Murphy), 15 to 1, 6 to 1 and 3 to 1, second; Dredger, 105, (L. Smith), 15 to 1, 6 to 1 and 3 to 1, third; Time, .52. Aristotele, Kitty Smith, May Brennan, Lida B, Lady Irene, Velox, Puff and Inauguration also ran.

Second race, six furlongs, three-year-olds and up, selling, \$400 added—Confessor, 112, (Gaugel), 2 to 1, 4 to 5 and 2 to 5, won by a length and a half; Charlie Thompson, 101, (Goldstein), 20 to 1, 8 to 1, and 4 to 1, second; Blue Cont, 112, (Prier), 8 to 5, 4 to 5 and out, third; Time, 1:18.3. Belle of Jossamine, Al Fowlie, Rust and Auf Wiedersehen also ran.

Third race, steeplechase, about two miles, four years old and up, selling, \$500 added—Bonfire, 143, (McHale), 7 to 1, 2 to 1 and even, won by six lengths; Kobhampton, 153, (T. Rae), 8 to 5 to 5 and out, second; Paprika, 192, (Huppe) 8 to 1, 8 to 5 and out, third; Time, 4:22.3.5. Full of Fun and Butwell also ran.

Fourth race, one mile and a furlong, selling, \$400 added—Ivanhoe, 110, (J. Johnson), 6 to 5, 1 to 2, and out, won by three lengths; Nellie Burns, 103, (Goldstein), 8 to 5, 1 to 2, second; Cursus, 105, (J. Murphy), 4 to 1, 6 to 5 and 1 to 2, third; Time, 2:02.3.5. Kelvin and Holloway also ran.

Fifth race, half mile, two-year-olds, selling, \$400 added—Boll Weevil, 91, (J. Murphy), 7 to 10 and out, won by a length and a half; Fontana, 94, (Gaugel), 20 to 1, 5 to 1 and 2 to 1, second; Soiree, 99, (J. Johnston), 15 to 1, 2 to 1, third; Time, .52.3.5. Abia, Crawford and Eleanor Fay also ran.

Sixth race, seven furlongs, four-year-olds and up, selling, \$400 added—Toscan, 110, (Bullman), 5 to 1, 8 to 5 and 4 to 5 won by a neck; Cocksure, 102, (J. Murphy), 3 to 1, even and 1 to 2, second; St. Noel, 102, (Gaugel), 2 to 1, 4 to 5 and 2 to 5, third; Time, 1:34. Sneer, Daring, Midas and Knight of Hillsboro also ran.

PRESBYTERIAN ASSEMBLY

Montreal, June 7.—At this afternoon's session of the Presbyterian general assembly there was a long discussion on the question of ministers' stipends, there being a general complaint that the stipends of the augmented clergy were insufficient. The feeling of the assembly was in favor of an increase, and a motion was adopted that in view of the increased cost of living there should be an increase at least of \$100 in the stipends and the augmentation committee was instructed to make their estimates for the coming year on that basis. The question of foreign missions was taken up at tonight's session and a very satisfactory report was presented by the foreign commission committee.

FROM THE CAPITAL

Ottawa, Ont., June 7.—The Railway Commission has received a large number of protests from residents of Winnipeg against the route plans of the G. T.P. which were approved by the Cabinet upon the recommendation of the acting minister of Railways and Canals. These will be considered when the commission reaches Winnipeg in July. The Governor-General reached Ottawa this evening at 7.30 by special train from Quebec. Earl Grey's return from Europe was unostentatious as far as his departure, safe that he arrived amid the preliminary preparations to decorate the depot for Prince Fushimi's visit.

AFTER DOCTORS FAILED

Dr. Williams' Pink Pills Cured a Severe Case of Anæmia and Weakness.

Anæmia—poor watery blood—is the cause of most of the misery which afflicts mankind. The housewife especially falls an easy prey to it. The long hours and close confinement necessary in performing her household duties saps her strength. She becomes run down and often suffers extreme misery. Dr. Williams' Pink Pills are the housewife's friend. They make new blood—lots of it—and pure blood banishes all women's ailments. Mrs. E. St. Germain, wife of a well-known farmer of St. John des Milleons, Que., found new strength through Dr. Williams' Pink Pills. She says:—"A year ago I was extremely weak. I could not attend to my work. I suffered from dizzy spells; my head ached; my blood was poor; I had a bad cough and the doctors feared I was going into consumption. I followed their treatment for some time but without relief. I grew discouraged and finally gave it up in despair. I was strongly advised to try Dr. Williams' Pink Pills so I procured six boxes. Before they were all gone I felt relief. The headaches and dizziness became less frequent and I felt a little stronger. I continued the pills for a couple of months at the end of which time I had gained in weight; the pains had left me, my appetite was good and I felt as strong and well as ever I did. I cannot say too much in favor of Dr. Williams' Pink Pills for I certainly owe my good health to them."

The woman in the house, the man in the office, the boy or girl in the school will always find a friend in Dr. Williams' Pink Pills. These pills actually make new, rich red blood and good blood banishes rheumatism, general debility, kidney troubles and those aches and pains caused by overwork or overstudy; good blood builds up the tired, runny nerves and makes pale, thin cheeks rosy and healthy. The pills are sold at 50 cents a box or six boxes for \$2.50 by all medicine dealers or by mail from The Dr. Williams' Medicine Co., Brookville, Ont.

QUEBEC & LAKE ST. JOHN RY.

At the request of patrons of this Railway, on and after Monday, 3rd June, and until the Summer time table goes into effect, the local train will leave St. Raymond for Quebec at 7.05 a.m., Lake St. Joseph at 7.49 a.m., Catherine at 8.57, and Indian Lorette at 8.18, arriving in Quebec at 8.45 a.m.

THE SCOTCH.

"The Scotch," said Secretary Wilson, of the United States Department of Agriculture, "are certainly a witty people. Now, there was a visitor in the little town of Bowdoin who, on looking about, saw no children, but wondered at this and, finally, meeting a wizened old man on the street, inquired: 'How often are children born in this town?'"

"Only once," the man replied, as he proceeded on his way."

If every boy were as good as his mother thinks he is there would be little wickedness in the world.

Church Services.

Holy Trinity, Levis—Services Sunday, June 9th.—Morning, 10.30 a.m. only.

Christ Church, New Liverpool.—Afternoon, 3 p.m.

Chaudiere Junction.—7.30 p.m. Rev. W. G. Faulconer, Rector. Rev. George Findlay will officiate at Chaudiere, 7.30 a.m.

Methodist Church—Services to-morrow 11 a.m. and 7 p.m. The Rev. Melvin Taylor, of Montreal, will preach morning and evening. Everybody welcome.

INGENIOUS MACHINES FOR TIPPING COLLARS

Another Ingenious Laundry Appliance which adds to Man's Comfort.

There is one particular style of collar that will always be popular with well dressed men, the wing point. This collar has always been a difficult style to launder just right. Laundries not equipped with modern appliances used to try to get out these collars, but the result was anything but satisfactory. The tips would not point just right and the wearer would feel as if he was dressed to act the part of a clown in the circus, with one tip of the collar pointing dejectedly to another earth and the other describing an angle as if trying to locate an extinct star. The edge would have a temper like a cross cut saw and the result on the hapless wearer's neck after a day's wear would look as if he had been obliged to resort to an amateur barber college shave. We have recently installed a machine that shapes perfectly all wing point collars and the same are first moistened where the fold comes, then put through this machine, which is heated at the right temperature, and when the collar is pressed in the same result is a beautiful work of art and a joy to the wearer.

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE

Colds, Coughs, Asthma, Bronchitis.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Colds, Consumption, Bronchitis, Asthma. CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery. CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms. CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Menstrual Disorders, etc.

Always ask for "Dr. J. Collis Browne's Chlorodyne" and beware of spurious imitations. Sole Manufacturers, J. T. DAVENPORT, LIMITED, LONDON. Wholesale Agents, LYMAN, BROS. & Co., Ltd., TORONTO.

FAMOUS MORGUE IS ABOLISHED.

Horror Show of Paris Is Closed to Public—New Regulations—Tragic History of Europe's Most Celebrated Death House.

Paris has abolished its gruesome morgue show—that famous feature which has amused or disgusted tens of thousands of visitors each year, which has been considered one of the things no thorough sightseer could afford to miss.

No longer may one view from the sidewalk, as sample wares in store show windows, those grisly, terrible human bodies seated in lifelike positions, but lacking life.

No longer may the curious enter at will to see upon marble slabs those poor-unfortunates who find their way to that clearing house of death by hundreds every year. Only those who can convince the keeper that they are really looking for some relative or friend mysteriously missing will hereafter be permitted to enter.

The new regulations which have just gone into effect were drafted only after it had become determined by the city officials that the former privileges had been grossly abused, and that the old methods sadly failed in their purpose.

Tourists have generally gone to see the morgue, feeling that it was one of the sights not to be consistently missed, and have come away with a feeling of repugnance which will always remain with them.

Justice to the city, however, necessitates the statement that no morbid or lugubrious motive lay behind the former regulations, which have been found so obnoxious. Indeed, the object aimed at was most practical.

Of the large cities in Europe where suicides and murders keep the morgues well filled, Paris is among the most prolific of such horrors. There, between the river, the rope, poison, the firearm and the knife, the number of unknown dead marriages to keep well up to an average of two a day.

And not more than a third of these are ever claimed, so that the expense to the city in providing burials in Potter's field becomes a serious burden. That is why, many years ago, it was determined to devise some plan whereby the identification of the dead might be facilitated.

Imagine a store window filled with lifeless people instead of the customary articles placed there to advertise wares!

Such is identically what you could have seen in Paris before this reformed measure went into operation. Technically having no bodies for sale, yet the object of the city in displaying them was to get rid of them.

Parisians are a busy people; also, care-free. Many would not bother to go inside the morgue to inspect the remains, as is done in American cities. So the city went to meet them—placed the corpses in the window so that he who ran might recognize.

Not this alone; a still more unusual step was taken to aid passersby in detecting their deceased friends if they should chance to be in the morgue. Often a deceased person doesn't look at all like he did in life. Why? Because the usual unnatural position robs him of what in life his friends recognized.

If seen as he used to sit in his armchair, or with his arms on the table, or with his head resting in his hand, he would be recognized easily.

So sensational Paris, through its morgue people, took to fixing up the houses of clay in lifelike positions in the great show window facing the street. People hurrying past could not help giving a passing glance, and many and many a time that glance was followed by a startled exclamation, then a definite identification.

As a general thing, however, the corpses were displayed on a slab of black marble, under glass cases. The clothing found on the body was hung nearby, as an aid to identification. Even this gruesome design attracted large numbers of the curious.

The morgue is on the banks of the Seine, at one approach to the bridge St. Louis—quite appropriate, since most of the unidentified dead which feed it come from the river, and a large percentage of them plunge from that self-same bridge.

Directly across from the quaint, but not unartistic, one-story building, is the famous Notre Dame Cathedral, while on the other side of the river, within easy view, is the Hotel de Ville.

Watercraft of every description go up and down past the morgue continually. Every now and then one of them stops to pick up from the water's surface a bedraggled unfortunate; for in France the Seine is the river of suicides.

Reconstructed in 1864, the morgue replaces the original one in the form of a Greek tomb which was first built in virtue of a police diet under the First Republic. However, something of the kind was known long before that, and as far back as the seventeenth century in France it has been customary to place on view the bodies of unidentified dead.

The main part of the morgue is supplemented by two wings, and with slabs of black marble in two lines for the reception of bodies.

A French novelist of the "horrible" school, M. Jules Janin, wrote a book several years ago, in which he pictured the keeper of the morgue as having his residence within those dismal walls, and even depicted the keeper as giving an evening party to his friends in a room adjoining that sepulchral chamber.

According to the statistical tables, more men than women find their way to the Paris morgue.

For instance, of those victims under the age of 25, during a period of years, the number of males was 315 and of females 115.

Between the ages of 25 and 45, of 1,242 occupants, 1,050 were men and 192 women. From 45 to 55 there were 593 men and 58 women.

Out of 1,745 violent deaths reported in a given time, 1,414 were by drowning, 114 by hanging, 98 by firearms, 46 through the fumes of charcoal, 56 through falls from heights, 6 from sharp weapons, 11 by poison, 7 by being crushed beneath vehicles and 4 from alcohol.

About two-thirds of the bodies taken to the morgue are never recognized so that the task of providing burial for them is expensive.

LIFE IN COREA. It is reported that Prince Eunchin will return to Corea before the ceremony of putting up Prince Yung-chin's hair takes place. A fourteen-year-old boy attending one of the city schools is given five cents a day by his father to pay for his lunch at noon, but the other day he asked his father for three months' allowance in a bunch, and

A "Hecla" Furnace

will always keep your home warm and comfortable, and provide in addition a system of ventilation that will always keep the air fresh and pure and free from gas, smoke or dust.

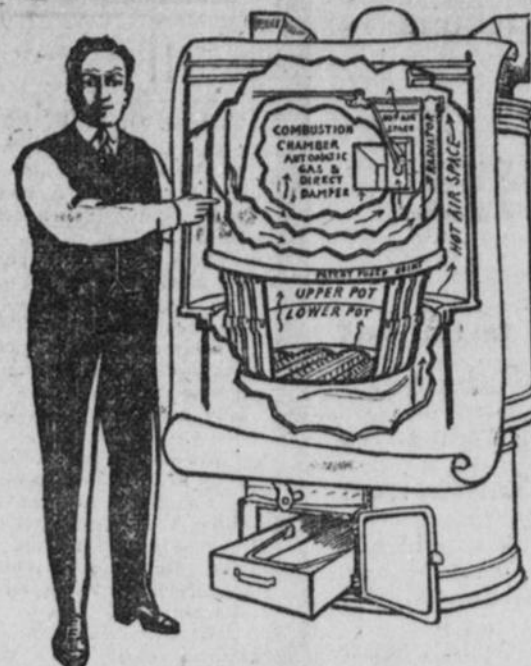

Hecla Fused Joints guarantee this purity of atmosphere, because they are made by fusing the iron and steel of the Hecla together at a white heat in such a way as to make a joint that is absolutely tight for all time. In all other furnaces, this joint is made with bolts and cement, and the difference in the ratio of expansion between iron and steel soon strains the bolts and loosens the cement, leaving openings for the escape of gas and dust. Fused Joints are everlasting.

Sectional Fire Pots.

I make Hecla Fire Pots in sections to prevent cracking in the centre where most fire pots give way. I provide for expansion and contraction in such a way that there is no strain on Hecla Fire Pots. The flanges, cast on Hecla Fire Pots, add 50% to the heating surface.

Triangular Grate Bars

keep the fire clean with less trouble than any other grate bars made; one turn of the crank clears out the ashes, removes clinkers and leaves a bright, clean fire.

If you are building a House

or installing a heating system, you should know why the Hecla is the most sanitary, the most efficient and most economical furnace made. See our nearest agent or write the Clare Furnace Builder for the latest catalogue and a free estimate.

Vice-President of the Temiskaming and Hudson Bay Mining Company and President of the Temiskaming Telephone Co.

BUY

LUCKY BOYS

LARDER LAKE. 6 CENTS PER SHARE.

This will probably be the last opportunity to purchase Larder Lake shares of inside properties at such a low price.

(Par Value, \$1.00, Fully Paid and Non-assessable.)

We recently made a most successful flotation of the wonderful Blue Bell Gold Mines, Limited. We offered to investors half of the capital stock, amounting to 2,500,000 shares, at 10 cents per share. We stated to our clients and investors in general that the shares of Blue Bell were a great purchase, and that the amount offered would be fully subscribed. Our predictions in this respect were fulfilled—the full amount of shares offered have been subscribed for. We have had to return money and turn back many applications. Some of our clients and many investors were very much disappointed at not being able to obtain these shares.

We now offer what we believe to be an investment equally as inviting and one that also is as good an investment and which we believe will prove equally as profitable. The LUCKY BOYS shares at 6 cents per share will come within the reach of many more investors on account of the price and also on account of not so large an amount of money being required to be invested therein in order to obtain some of the shares. We will say with every confidence that the One Million shares of Lucky Boys which we now offer will be largely over-subscribed.

We want to serve every investor the same and advise all who want to make a safe, profitable investment, and one that will make you many times the amount that you invest, to PLACE YOUR RESERVATIONS AT ONCE. We will file all reservations in the order received, whether received by mail, telephone or telegraph, and will hold all such reservations for a sufficient length of time to enable the remittance for same to reach us.

The Lucky Boys claims were staked last summer and were well selected. Gold-bearing quartz is found upon each and every claim. Some of the claims adjoin the famous Reddick claims; others adjoin the well-known Proprietary Gold Fields Company, and others adjoin the wonderful Blue Bell properties. We can advise investors truthfully that there are no better claims in the Larder Lake gold fields than those of the Lucky Boys. We do not believe it is necessary for us to go into as much detail regarding Larder Lake, its possibilities and resources, as we have heretofore done in our advertisements pertaining thereto. All Canada must have heard of Larder Lake—the new Eldorado of northern Ontario—and of its wonderful gold deposits.

Our own expert miners and mining engineers who are now in the field are sending out reports to us almost daily of the great gold finds that are being made and of the wonderful extent of the gold veins and their remarkable widths. Mining men of experience and mining engineers of reputation and standing declare that there is nothing in the world that has ever been known to excel what is found there in the great lodes that lie open and are exposed to the surface, many feet in width and extending for miles.

The gold which is found at Larder Lake is most marvellously and equally distributed throughout the quartz. Of course it is only guess work at this time for anyone to say what quantity of gold will be taken out within the next year or two, but it is safe, from present indications, to count upon many millions. Cobalt is a wonder and has made a number of millionaires in the past three or four years, but the number of millionaires that will be made in Larder Lake gold district within the next year will be many times that which Cobalt has produced. There are many men to-day who have not more than several hundred dollars, or perhaps less, who will possess within the next year as many hundred thousands as they have hundreds of dollars to-day. The production of gold last year exceeded FOUR HUNDRED MILLION DOLLARS. Somebody got this money. Most of it went to the people in ordinary circumstances. By investors placing their money in Larder Lake NOW, they will reap great profits. Many millions will be

returned to those who have the courage and the judgment to invest their money now in Larder Lake. The secret of profitable investment in mining is the careful selection of a brokerage house which will first go to the pains and expense of finding out for an absolute certainty if the proposition they offer is reliable and has merit, and LAW & COMPANY HAVE DONE THIS and our facilities are such as to keep in close touch and know the actual conditions surrounding the properties which we advertise and recommend. We do not claim to have the only gold property in the Larder Lake district, or the only one that has merit. We do not claim that we are the only brokerage firm that is honest and reliable. We do not caution you not to buy other shares or of other brokers. We are not trying to build up our own reputation upon the ruination of others, but by upright, straight-forward business methods.

WE DO CLAIM, however, that we are sincere in what we offer—that we are honest and reliable, and that we have used every method and have obtained reliable information from the Larder Lake district as to its being a substantial gold field. We are satisfied that the Lucky Boys property is a good, safe investment, and one that will prove highly profitable. We know that the gold is on the Lucky Boys property, and we know that it is a very easy and a very simple matter to extract the same—that it is free milling ore, and that all that will be required is to place the machinery upon the properties, and we believe the results therefrom will pay millions of dollars in dividends to stockholders.

6 CENTS PER SHARE

Remember that we have but ONE MILLION shares of the Lucky Boys to offer at 6 cents per share. This is not half the number we offered in Blue Bell, and does not represent a total investment of one-fourth the amount to bring about an over-subscription.

We therefore urge IMMEDIATE ACTION by all those that failed to be in time to secure Blue Bell, and we further advise that investors should have no hesitation whatever; that Lucky Boys is absolutely as good an investment in every way as any Larder Lake mining company, regardless of price, location or results obtained.

The Directors, Officers and Management of the Lucky Boys are among the most successful mining men in Northern Ontario—men whose standing and reputation are beyond reproach—and every investor may feel assured that their interests will be looked after by these gentlemen properly and in a thorough and businesslike manner.

The entire country is waking up to the wonderful opportunities offered in the Larder Lake gold district. The opportunities offered now to make safe and enormously profitable investments will have passed within a very short time. Men representing millions are in the field, looking over properties and purchasing. The opportunity offered now of buying Lucky Boys at six cents per share will undoubtedly be the last chance that investors will have of getting in on the very rock bottom, in the very heart of the wonderful Larder Lake district. It should be remembered that these properties are just as valuable and have just as good showing and with as much gold in sight, and are in every other way as good as the properties of other companies whose shares are selling to-day at \$1.00 and \$1.50 per share. We sincerely believe, and have every reason to make the assertion that Lucky Boys, which can be purchased to-day at six cents, will in a very short time be selling at \$1.00 or more.

Wire or telephone orders at our expense. Prospectus, with full information, containing application blanks, mailed to any address.

### MATTERS OF INTEREST TO MILITARY MEN

(BY THE "EXAMINING GUARD")

#### THE Q. O. C. H. UNDER CANVAS.

The local cavalry regiment is now undergoing their annual training at St. Joseph, and a visit to their camp would prove of interest to either soldier or civilian.

The gellant 10th have a reputation for smartness, both on and off parade, and they are certainly upholding it this season. Their camp is a model of cleanliness and order, and speaks volumes for the quartermaster, Major Clint, and his able assistant, Reg. Q. M. Sgt. H. E. Scott.

The stables and horse lines are also very neat, the officers, sergeants and men's messes are provided with everything that would tempt the appetite, and taking everything into consideration, the camp is one of the most gratifying and successful yet held by the regiment.

The officers sleep and dine in the old officers mess building, the N.C.O.'s and men sleep in tents, but dine in the huts.

There are fifty-four tents pitched and from four to five men occupy each tent, palliasses of straw have been provided, and each man has a plentiful supply of blankets and, although the weather has been rather cold, the health of the troops has been excellent. The same may be said of the horses. The fact that there has not been a single horse in the sick lines, speaks well for the care bestowed on the animals by the men who have evidently been taught the old cavalry maxim that "the soldier's best friend is his horse."

Mr. Joseph Cloutier is catering for the officers and men's messes, and is doing his work well. He is assisted by a competent staff of waiters, and as a consequence, the men are not required to perform that unpleasant duty known as "mess orderly." The sergeants are being looked after by Mr. Jules Gaildrand and the "backbone" of the regiment have nothing but good words for their caterer. The mess is nicely decorated and the menu includes everything that even a hungry cavalryman might desire.

The corps is about 225 strong and the following is the staff:

#### REGIMENTAL STAFF.

Lieut.-Colonel Ashmead in command.  
Major J. Scott, second in command.  
Major A. J. Bries, adjutant.  
Major E. Clint, quartermaster.  
Capt. J. D. Duchane, vet. officer.  
Capt. F. P. Polliwka, paymaster.  
Capt. W. H. Delany, A.M.C., medical officer.

#### SUBORDINATE STAFF.

Reg. Sergt.-Major W. Bissette.  
Reg. Q. M. Sgt. H. E. Scott.  
Sergt. Trtr. A. Ashmead.  
O. R. Sergt. C. Lynch.  
Paymaster Sergt. E. Fry.  
Signalling Sergt. G. Fraser.  
Band Sergt. J. Morin.

#### "A" SQUADRON.

Major Gilmore, commanding.  
S.S. Major H. Blair.  
S.Q.M. Srgt. J. B. O'Regan.  
Farrier Sergt. P. Turcotte.

#### "B" SQUADRON.

Major A. Dobell, commanding.  
S.S. Major R. Gore.  
S.Q.M. Sergt. H. D. Scott.  
Farrier Sergt. G. E. Little.

#### "C" SQUADRON.

Major H. Atkinson, commanding.  
S.S. Major Geo. Atkinson.  
S.Q.M. Sergt. T. B. O'Neil.

#### ROUTINE.

Reveille, 5 a.m.  
1st parade, 5.30 a.m. to 7 a.m.  
Breakfast, 7.30 a.m.  
2nd parade, 5 p.m. to 7.30 p.m.  
Ten, 11 a.m.

In addition there is feeding, grooming, cleaning saddlery, bedding down, and a dozen and one other things that keeps the horse soldier out of mischief. The members of "A" and "B" Squadrons return to their professional duties in town after breakfast and go back to camp in time to attend the evening parade. "C" Squadron remains in camp and the men are kept busy during the day as reconnaissance work, shooting, stable duties, guards, etc.

The officers and N. C. officers do the instructing. This is as it should be, but we think an instructor from the Royal Canadian Dragoons could be usefully employed in drilling recruits and giving lectures on fitting saddlery, grooming, stable duties, etc., to all ranks.

It is to be hoped the authorities will provide a manege before next drill season, either this or a riding school is urgently required. The open field is not a suitable place to give a young soldier instruction in horsemanship. The camp will break up on Sunday afternoon, when "A" and "B" Squadrons will return to town. "C" Squadron will entrain for River-du-Loop on Monday morning. The quartermaster and his staff will remain until Monday night when everything will be left in good shape for the camp of the rural militia which commences on the 25th inst.

#### PERMANENT CORPS.

Sergt. B. Good, R.C.R., has returned from St. Beni, P.Q., where he has been instructing a cadet corps for the last month. Previous to that he was engaged on similar duty at Lachine, P.Q.

The R.C.R. is doing good work in this connection this season. Sergt. Vaughan is conducting a provisional school at Three Rivers, and is also instructing the cadet corps in that city, while Corp. Smith has been employed at Victoriaville and Nicolet. We understand employment could be found for a number of instructors in this province, but they are not available. This is really too bad, and shows that a system similar to that we advocated in a recent issue of this column should be adopted in the permanent corps.

We contend that every man belonging to these instructor depots should be an instructor, but until some inducements are held out in the way of increased pay for those that obtain the necessary qualifications we cannot expect the permanent corps to successfully carry out the work which it is charged with: the instruction of the Canadian militia and cadet corps.

At the present time there should be an instructor at the headquarters of every squadron, battery and company, assisting the officers to get their commands into shape for the coming camp, but if instructors were applied for, the application would likely be met with the reply: No instructors available, only four are allowed, and they are all employed.

The demand for instructors is greater to-day than ever before. Consequent on the formation of so many new cadet corps, let us hope the authorities will make an endeavor to meet the demand.

#### TOMMY HAS NO PLAY GROUND NOW.

The men of the permanent corps have been forbidden to play games of any kind on the Esplanade.

The R.C.G.A. and R.C.R. have heretofore found this piece of ground very handy as a place where they could play baseball, football, etc., after the afternoon parade. And now if they wish to indulge in a little innocent recreation, they will have to tramp out to the Q.A.A. grounds (which is seldom available) or take to the timbered Plains of Abraham. And all this because some of the citizens objected to the manner in which the men were dressed. No doubt if the football teams, etc., dressed in review order they would be allowed to play on "our Esplanade," but beautiful as a helmet may look, it is not exactly suited to an athletic field. We know both corps we have named are provided with athletic costumes, and if worn, we cannot see any earthly reason why the wearers should not be allowed to indulge in their favorite games on the Esplanade, or any place else, for that matter, where room can be found.

The action of the citizens in this case reminds us of Kipling's lines: "It's Tommy this and Tommy that, and Tommy go away."

But its "thank you," Mr. Atkins, when the band begins to play. We hope this order will be cancelled and that we will again see the wearers of the blue and scarlet sporting themselves on the ground the citizens were only too proud to have the First Canadian Contingent parade on before it sailed for the battlefields of South Africa.

#### TACTICAL EXERCISE.

The Inspector General in his last annual report says:—The sham fight at Erindale proved a success, and went far to illustrate how essential it is that divisions and brigades, from one end of Canada to the other, should be organized, and put through similar tests in issuing orders and carrying them out. Ever one knows that the permanent force and many "city" regiments, are well trained, but their individual training is not sufficient unless their organization, mobilization and efficient handling, as well as that of the rural force, is assured in time of peace, then one might feel that only the signal to begin is needed.

The garrison of Quebec has not had a tactical exercise this year and we will have the fleet here in a few days if you not embrace the opportunity of giving the corps of this garrison, both permanent and volunteer, a rattling good lesson in field work.

There is no doubt the fleet would enter heartily into the scheme and with an efficient staff to draw up and superintend a tactical idea, great benefit would be derived by all ranks. If it is not possible to carry out the work by day then we could have a night attack, the permanent force taking the furthest out positions to which they might move in the afternoon and the Cavalry, Rifle Brigade, O. B., etc., looking after positions in or near the city.

This is certainly a splendid opportunity of finding out just how much we are prepared to defend our city in case of attack, and of giving brigade and battalion commanders practice in issuing orders and attending to their correct execution.

In order to make the operations as realistic as possible, and as an object lesson, garrison orders might be issued to the effect that on a certain signal, say a rocket or gun firing, the corps would assemble in drill-order at the Drill Hall, or other point, as quickly as possible. We would then be able to find out easily how long it would take the garrison to get under arms in case of emergency.

The orders for the operations, (except the hour of commencement) would, of course, be issued to commanders in time to allow them to understand and explain them to their subordinates and make the necessary dispositions before the day or night appointed for the attack. Nothing

# SUNSHINE FURNACE

THE IMPORTANCE OF THE WATER-PAN

is not appreciated by many furnace manufacturers or the general public as much as it should be.

Without the moisture evaporated from the water in the pan, the hot air distributed throughout the house is dry and dusty. Cracks and opens up the furniture—is not fit to breathe into the lungs.

Yet, mind you, some furnace makers place this important water-pan where there is often not enough heat to evaporate the water. Put it out of sight in an awkward position at the side or back, where it cannot readily be filled without being removed—and when filled it would take a juggler to replace it without spilling a big share over himself.

Note the convenient location of the large water-pan of the Sunshine—just above the fuel door. Takes but a moment or two to fill it.

THE AWKWARD COMMON WAY

THE EASY SUNSHINE METHOD

It is placed right in the path of the hot air as it circulates around the dome of the furnace. It is impossible for any heated air to pass out of the registers before extracting its due share of moisture from the water-pan. That means you breathe healthful, clarified air, free from dust and dryness.

For the sake of your furniture, your own health and peace of mind, you should decide on the Sunshine.

If your local dealer does not handle the Sunshine write direct to us for FREE BOOKLET.

PRINCE FUSHIMI'S TOUR THROUGH CANADA.

All arrangements for the tour of General H.I.H. Prince Fushimi through Eastern Canada have been completed by the Grand Trunk Railway System.

The principal stations along the line will be profusely decorated, the Imperial colors—scarlet and white—predominating, and British and Japanese flags in profusion.

An Annotated Time Table, printed on handsome antique paper, enhanced with a series of illustrations in colors, printed by the Prisma Print process.

Another book will be a history of the old Victoria Tubular Bridge, with interesting descriptive information regarding same, as well as a story of the Victoria Jubilee Bridge.

Everything that will tend to make the tour over the Grand Trunk Railway System a pleasant one has been done, and will be carried out in the admirable way for which the Company are noted for doing things.

Year by year they grow harder and incidentally more painful. Why suffer when you can be cured for 25 cents spent on Putnam's Corn Extractor.

IT IS ALWAYS POSSIBLE. To be well dressed if you buy your goods at FAGUY LEPINAY & FRERE.

HUMANITY AND PROGRESS. The British State—that is, the Government of England, Wales and Scotland—now feeds children who have reached school age and are not properly cared for at home.

Women Who Wear Well. It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women.

Eaten Up With Catarrh

It spread so extensively through his system that life was despaired of.

There was a very large crowd of skaters and spectators at the Academy Rollaway last night and every one enjoyed the indoor circus act given by Reckless Recklaw and Miss Fanny Light.
