A FREE ADVERTISEMENT. A surprising Congress, and how they acted a Whig-Good Resulting from Evil.

Way down settling in a valley at the foot of the blue range of mountains that traverse the eastern portion of the State of Tennessee lives a widow whose misfortune it was to lose her husband during the late unprosperous military places always open to their visits, and hundreds of her name could only be mentioned, would remember the little acts of hospitality extended by her to them; and several escaped prisoners would also remember her home as the one where, sometimes for weeks, they were hidden until they were enabled to enter the lines of the Union army.

COCHRANE'S MARKET REPORT

The following is W.C. Cochrane's weekly review of the Montreal market for Country Produce.

Market steady at about same as last week, except Peas, which are a shade better. Stock on hand to-day, noon, at inspection stores, were 1,067 bbls, and 181 bbls Peas.

There has been no life in the trade this week. No one seems desirous of operating, and what sales there have been were to the local trade. The stock here is very small, and receipts little or nothing by rail.
