The practice of the Hygienic Medical System is conducted upon the principle that the same natural agencies which are necessary for the preservation of health, will, when properly and scientifically applied, restore the sick to health.

The only condition of cure recognized is obedience to physiological law.

Truly remedial agents are materials and influences which have *normal* relations to the vital organs, and not drugs or poisons, whose relations are *abnormal* and *anti-vital*.

Nature's *Materia Medica* consists of "Air, Light, Temperature, Electricity, Magnetism, Exercise, Rest, Food, Drink, Bathing, Sleep, Clothing, Passional Influences, and Mechanical or Surgical Appliances."

TO SAW MILLOWNERS AND LUMBER MEN.  
**THE BEST SHINGLE MILLS IN THE WORLD!**

PATENTED 1867

PATENTED 1867

**THE DOUBLE CARRIAGE SELF FEEDING MILL,**

Capable of sawing from thirty to forty thousand Shingles per day.

No Saw Mill should be without one.

Great saving in working up waste lumber, ends of logs, &c., &c., which can be cut into first quality shingles at very little expense.

Fifteen per cent of the lumber saved by the thinness of the saw.

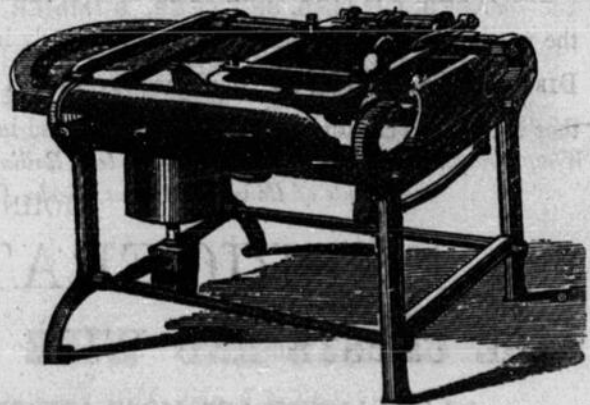

Shingles are sawed with the grain, nearly as smooth as if planed.

The single carriage hand feeding mill is easily managed, does not get out of repair, and makes from fifteen to twenty-five thousand shingles per day.

Our mills are built to secure the perfection of their work, not only when new, but for years to come; several of them are now in use in Ontario and Quebec, and make smoother, better, and more shingles, and give greater satisfaction, than any other machine in the United States or the Dominion.

To satisfy the public of the excellence of our mills we take pleasure in referring to the following gentlemen who have them in use:

- J. Rochester, *Ottawa.*

## P R E F A C E .

---

IN presenting to the Public the MONTREAL DIRECTORY for 1868-69, the Publisher congratulates himself that it will this year be found to have attained such a degree of accuracy as is seldom met with in a work of this description. As he was determined that neither trouble nor expense should stand in the way of his producing a *correct* Directory, he determined, after the names had been taken and put in type, to send out his agents a *second* time, in order to compare the printed *Street lists*, by a house-to-house investigation, thus ensuring, as far as it was possible to do, a thorough and reliable ALPHABETICAL and STREET DIRECTORY. With regard to the MISCELLANEOUS part of the work, it also will be found to be fuller and more complete than in any previous year. To the Officers of Government, of Private Companies and Public Institutions, he is deeply indebted—not only for the useful information they were good enough to supply, but for the kind manner in which it was conveyed.

The Publisher is gratified in being able to state that the relative increase in the number of occupied houses, and consequently in the number of names in the DIRECTORY, exceeds that of any former year, from which it seems fair to adduce that the City is rapidly gaining in population and in material wealth.

JOHN LOVELL, *Publisher.*

St. Nicholas Street,  
MONTREAL, 24th June, 1868.
