TWO MEXICAN TOWNS DESTROYED

Fearful Results of the Earthquake Which Swept the Republic.

TIDAL WAVE ADDS HORROR

Towns Now Face Famine as Result of Catastrophe—Tottering Buildings Disposed of with Dynamite

Mexico City, Aug. 1.—Details arriving from Guerrero indicate that the recent series of earthquakes in that State and along the Pacific Coast were the worst experienced in many years. It is now certain that Acapulco and Chilpancingo were destroyed. What buildings the earthquakes of Friday failed to raze, were levelled or rendered uninhabitable by the stronger shocks of yesterday. In addition to the ruin caused by the earthquake, Acapulco, swept by a tidal wave, now faces a famine. All the markets were destroyed Saturday, and the country people are afraid to bring more produce into town. The people are camping in the public squares suffering hunger and exposure to tropical rains.

The few buildings that remained standing are being razed with dynamite as they are little more than tottering walls that are constantly falling as new shocks come.

In Mexico City the shock of yesterday was heavier than any yet experienced. Many tourists are leaving for the United States.

BERLIN'S REPLY TO MR. HALDANE

Berlin, July 31.—Nearly two and one-half millions of trained, disciplined sharpshooters have been added to the defensive forces of the German Empire this week by the Imperial Chancellor, Dr. Bethmann-Hollweg. The Chancellor has taken this far-reaching step by giving permission by decree to 2,402,644 members of 27,676 veterans societies to practice rifle shooting on the military rifle ranges throughout the country with army rifles at an annual charge of 87 cents a piece. Cartridges will be supplied to the shooters at 62 cents a hundred. Heretofore all requests made by the veterans societies in this direction have been refused.

EARTHQUAKE IN MEXICO.

Mexico City, July 31.—Mexico City was again severely shaken by an earthquake to-day. A shock more severe than any yet experienced rocked the city for one minute and 40 seconds at 12:43 p.m. No great damage was done, though innumerable public and other buildings were cracked. The national palace suffered considerably. Reports from Governor Damiana Flores, of the State of Guerrero, declare that in Acapulco, the largest and strongest buildings were razed by the force of yesterday's tremors and that there has been property loss throughout that section. At Acapulco the custom house with its warehouse, the military barracks and a number of other prominent buildings were absolutely destroyed, while the municipal palace suffered serious damage.

RUSSIA ACTIVE IN THE GREAT EAST.

Peking, July 31.—M. Korostovetz, the Russian Minister at Peking, gave out to-day a statement to the effect that Russia does not recognize the principle contained in the notes of Great Britain, Germany, America and Austria, making objection to the Russo-Chinese preliminary and other agreements for the administration of the Manchurian railway zone. The Minister declares that the treaty powers have been ignored. Russia suddenly reopened the Harbin and the Manchurian railway zone questions on July 27th by the re-imposition of taxes. As a protest against this action all shops in the district, both Russian and Chinese were closed. They were reopened, however, two days later without paying the taxes. Official reports from Harbin to-day say that the railway company intends to enforce the taxes. The Russian Consulate at Harbin has ordered the maritime customs precincts on the Sungari river at Harbin removed from their positions before the property of the railway company. Russia's sudden activity is believed here to indicate that St. Petersburg has sanctioned a comprehensive eastern policy under the precipitation of the ministry of finance.

THE WRONG LADY.

(Cleveland Plain Dealer.)

There were three at the little table in the cafe, a lady and two men. Suddenly the electric lights went out and the lady, quickly and noiselessly, drew back.

An instant later there was the smack of a compound kiss. As the electric lights went up each man was seen to be smiling complacently.

"I thought I heard a kiss," said the lady, "but nobody kissed me."

Then the men suddenly glared at each other, and flushed and looked painfully sheepish.

20,000 BUILDINGS SWEEP BY FIRE

Osaka, One of Japan's Most Important Cities, Laid Waste

THOUSANDS ARE HOMELESS

Starvation Stares Them in the Face—Conflagration Lasted 25 Hours—Loss Will Reach a Million.

Osaka, Japan, August 1.—Confusion still prevails here as a result of Saturday's disastrous fire. Thousands of persons are homeless and hunger is staring many of them in the face. A system of relief has been organized by the municipalities, but it is inadequate. Outside cities and towns are assisting. The number of casualties has not yet been determined, but hundreds of injured persons are crowding the hospitals.

The latest estimates are that 20,000 buildings were destroyed, including banks, the stock exchange, the museum, Government edifices and factories. Losses are given roughly at several million yen. It is feared that consequently some of the insurance companies will fail.

The conflagration lasted more than 25 hours. The streets of the city are very narrow, and the houses, mostly of wood construction, under a strong breeze, therefore, the flames were easy prey for the flames. The firemen fought valiantly against the odds of lack of water and wind, and many of them fell unconscious. The belongings of the people who were able to save anything from their burning homes are piled in great heaps along the railroad tracks from Osaka to Kobe, where they were removed early Saturday morning. The fire broke out. All day Saturday and far into the night the main populace assisted firemen and troops in quenching the conflagration. An area of over four miles square, containing some of the city's handsomest structures, including the Buddhist temple, the largest in the world, was burned over before the fire was controlled. The stock exchange, one of the most important of this country, was entirely destroyed. This loss, it is believed, will tend to dislocate the business of Osaka, which, with its manufacturing concerns, is one of the chief commercial cities of Japan. The Emperor is deeply concerned over this disaster.

DAILY MAIL EMPIRE CUP CONTEST

8th Royal Rifles of Quebec Made Good Showing Among 764 Teams.

The completed returns of the above contest are just to hand. The cup was won by the Bathurst Civilian Rifle Club, New South Wales, Australia, with a score of 808 an average of 101 per man.

There were 764 teams entered from all parts of the Empire, and of these 195 teams scored 700 points or better. The 8th Royal Rifles team were in one hundred and tenth place, and the R.C.G.A. were 130th, with scores of 729 and 722 respectively.

The truly world wide extent of the match is shown by the entry list; this shows 179 teams from Great Britain, 67 from Australia, 133 from Canada, 60 from South Africa, 52 from India, 5 from Burma, 1 from Ceylon, 10 from British West Indies, 3 from British West Africa, 2 from British Guiana, 1 from North Borneo, 3 from Federated Malay States, 2 from Straits Settlements, 11 from Fiji, as well as from Malta, Gibraltar, Egypt, and Soudan. Truly it was an Imperial contest which united in friendly contest the widely separated "brotherhood of the rifle."

FOUR TRAMPS INJURED.

As announced by the Chronicle on Saturday morning, there was an accident to the Ocean Limited at Laurier Station, Lotbiniere County, on Friday evening. Fuller details state that four men who were beating their way West were badly injured in the smash-up and are now at Hotel Dieu Hospital, to which they were taken after the accident. One of them has a broken leg, while the other three are more or less seriously bruised. The four men arrived from England by the steamer Hero and disembarked at North Sydney, where they took the train for Quebec. Arriving at Levis they endeavored to secure a free passage to Montreal with the painful results above recounted. When approaching Laurier station, two cars ran off the track and upset, and in one of these the four men were.

REVOLT IS STILL RAMPANT

Desperate Combats Yet Continue at Barcelona. It is Said.

SITUATION IS ALARMING

Killed and Wounded in Recent Fighting Placed at 3,000—Trouble Not Yet Over.

Paris, Aug. 1.—Although official Spain minimizes the Catalanian insurrection and insists that the revolt has been crushed, a far different story emanates from the frontier. Refugees and travellers declare that the revolt is still rampant and that desperate combats continue at Barcelona, where fifty revolutionaries are reported to have been wounded in a conflict which occurred as late as Saturday night.

Information concerning the actual situation in Barcelona and the rest of the province is rarer to-night than ever before. Although some of the news from the frontier is from revolutionary sources, and therefore open to suspicion, more reliable intelligence leads to the belief that although Barcelona is calmer, the insurrectionists have taken to the suburbs and the outlying country where they are sowing the seeds of revolt and inflaming the populace to maintain the struggle to the bitter end.

Barcelona province is in the hands of prowling bands of workmen, heavily armed, who occupy the railroads and highways to prevent communication and who refuse entrance to new comers. Cassan De La Dajva is in the hands of the revolutionaries, and at Palamós, where the monastery was fired upon, the situation is described as alarming and the lives of foreigners endangered.

The opinion in semi-official circles here concerning Spain's internal situation is pessimistic and the belief is expressed that the trouble is not yet over. Official Madrid announces that Barcelona is tranquil, but qualifies this statement with the words, "This is especially so in the centre of the city."

From Melilla comes the news of another Spanish convoy being ambushed and several of its officers being wounded before the troops succeeded in extricating themselves from the attack of the tribesmen.

Rumors are afloat that a general strike will be launched to-morrow at Madrid, and that a strike is being organized in the Biscayan region, all persons subject to military duty are forbidden to leave Spain under penalty, and elaborate measures have been adopted to forestall a possible outbreak in the other provinces of the country.

Official denial is given to the report that the temper of the Madrid garrison is hostile. Another official statement says that the number of victims of the fighting at Barcelona is unknown, but frontier reports, one of them of alleged authoritative inspiration, declare that the killed or wounded will aggregate 3,000 and that the number of insurrectionists summarily shot was between 40 and 120.

Forecast of Weather.

Toronto, Aug. 1.—S. 8 p.m.—Fine warm weather has prevailed to-day throughout Canada, particularly so in the Prairie Provinces, where maximum temperatures of over 80 have been generally recorded.

Minimum and Maximum Temperatures. Dawson, 38-62; Atlin, 44-58; Victoria, 52-68; Vancouver, 51-64; Edmonton, 52-76; Battleford, 56-86; Prince Albert, 60-82; Calgary, 46-80; Moose Jaw, 55-84; Qu'Appelle, 52-80; Winnipeg, 54-86; Port Arthur, 52-80; Parry Sound, 52-80; London, 60-83; Toronto, 61-75; Ottawa, 52-74; Montreal, 56-74; Quebec, 48-76; Halifax, 52-78.

Forecasts.

Lower Lakes and Georgian Bay.—Moderate to fresh winds, mostly easterly; fine and warm; local thunderstorms in southwestern counties.

Ottawa Valley, Upper and Lower St. Lawrence.—Moderate variable winds; fine and warm.

Gulf.—Moderate northwesterly and northerly winds; fine; much the same temperature.

Maritime Provinces.—Moderate northerly to easterly winds; fine and warm.

Lake Superior.—Moderate to fresh winds, mostly easterly; fair and warm.

Manitoba and Saskatchewan.—Fair and very warm.

Alberta.—Mostly fair, stationary or a little lower temperature.

QUEBEC WON EXHIBITION GAME.

Quebec defeated St. Patrick's, 7 to 6, in an exhibition baseball game on the Q. A. A. grounds yesterday morning. Although only a practice game, there was plenty of excitement. Quebec put out the strongest team they have got together this season, while on the other hand, St. Patrick's were short several of their regulars. Bridgford, who was on the slab for the Saints, started badly, Quebec getting four in the first and one in the second innings, including a home run by Jack McDonald. After that he was invincible and with perfect support would have been an easy winner. St. Pat's, seemed weak with the stick but their base-running showed improvement.

Occasionally a man is so absent-minded that he pays his gas bill the day before it is due.

Men's Fancy Shirts

FOR Monday you may have your choice of the value of the immense Special Pure case of fancy shirts, all sizes in the lot from 14 to 16, already reduced to 59c and 75c, at the one price, only.....39c

Splendid quality Bath Towels, sizes 17x37 inches, cream with red border and fringe, a limited quantity to be sold on Monday at our Special Price, each.....**71c**

THE GOVERNMENTAL CRISIS IN SPAIN

Situation Greatly Improved All Over the Country—Government's Strong Hand Carrying the War into Africa

Madrid, July 31.—The Government's silence as to the situation at Barcelona is still unbroken and no statement is vouchsafed giving any adequate idea of bloody incidents attending the uprising of the revolution. To-night's summary of the situation shows that the conditions at Barcelona are greatly improved and the belief is prevalent here that by to-morrow all will be over. No information as to the number of revolutionaries court-martialed and sentenced has reached Madrid. Already the work of clearing away the evidences of the revolution at Barcelona has begun, and the various industries will, according to these reports, resume operations at once. Throughout Catalonia the situation is decidedly calmer, and reports from other parts of the country brings news of similar improvement of conditions.

At Melilla the Moors are actively preparing for a new attack on the Spanish, but General Marina has been instructed that as soon as the air army is concentrated to assume the offensive, march out of Melilla and strike a decisive blow. The work of reinforcing Melilla is occupying the war department. Scores of young men, sons of the most prominent families, have reported to the department officials and offered their services in organizing a regiment similar to the American rough riders in the Cuban campaign.

The Government has adopted the most rigorous precautions against the general strike at Madrid which the workmen's organizations threaten to inaugurate on Monday. Many Republicans and Socialist sympathizers have been arrested because of their suspicious attitudes and thrown into prison. The Government has refused to receive a petition for the release of these persons. Several Republican deputies declare that they will hold meetings of protest against the Government's action.

Accord to the newspaper El Mundo steps have been taken to organize a volunteer cavalry body similar to the famous American rough riders in the Spanish-American war, to fight the Moors at Melilla. The officers and soldiers will bear all the expense of the equipment, transportation and sustenance of the organization throughout the Moroccan campaign. The movement has met with enthusiasm among the leading families, whose sons are clamoring to participate.

We wonder if the Lord loves a cheerful giver as much as the cheerful giver loves himself.

The Quebec Chronicle

QUEBEC AUGUST 2, 1909.

A DRY DOCK AT QUEBEC.

If we may judge by ministerial professions Canada will enter heartily into any scheme of Imperial maritime defence, that may be agreed upon at the conference now taking place in London. There are some that propose that the Dominion shall build and support a navy of her own to be at the service of the Empire in cases of emergency—a real, and not a toy navy such as we have to build sooner or later, if we intend to take our place amongst the nations of the world. The sincerity of these professions may be easily tested, and the Toronto News gives an additional reason, based upon them, why the Government should undertake the duty of building a dry dock at Quebec. Our conferees say:—"Owing to changes in marine construction and the growing importance of the St. Lawrence route, it is found that the dry dock at Levis is not adequate to the requirements. Many vessels ascend the St. Lawrence which could not be accommodated in this dock, and often the cargo boats are delayed because the dock is in use. The Government has admitted that docking facilities must be increased, and Mr. Pugsley, when in Quebec the other day, said that a new dock would be constructed."

"Mr. Brodeur in Montreal, spoke more guardedly, but it was plain that he favored Quebec. This has created some feeling in Montreal, and the old rivalry between the two cities has awakened. Some of the shipping men would prefer to see the dock built in Montreal in spite of the fact that the majority of accidents which make docking a necessity occur in the Lower St. Lawrence."

"In view also of the fact that none of the larger British warships ever go to Montreal it would seem wise to put the dock where it would do most good, and where it would be available to the biggest vessels. That is at Quebec. If Canada is to have a navy, Quebec would be its centre during the summer months. What docking facilities are necessary should be provided there."

It will be observed that our conferees make two points here, the one local and commercial, and the other Imperial. In the first place, he says, what we have always argued, that the majority of the accidents which necessitate a recourse to the dry-dock occur below Quebec and not above it. No one disputes the necessity of a dry dock at Montreal, but that is of a purely local nature, and is required for the benefit of the lake trade; a dry dock at Quebec is wanted for the St. Lawrence route, and is of general importance. The one should, and we believe will be, constructed by private enterprise, assisted by judicious government aid; the other should be a national undertaking, without which the dry dock at Montreal would be of comparatively no use to the river highway."

But, if Canada is to have a navy of her own, as she eventually must have, the argument in favor of the construction by the government of a national dry dock at Quebec, becomes, as The News points out, stronger and more forcible than ever. Whatever may be the merits of the ship channel between Quebec and Montreal for commercial purposes, the fact remains that none of the larger warships that have ever come to Quebec will take the chances of its ascent. "If," says The News, "Canada is to have a navy, Quebec would be its centre during the summer months, and what docking facilities are necessary should be provided there." We think the soundness of the argument will meet with general acceptance, and the logical conclusion is that a dry-dock at Quebec is a national necessity and should be constructed by the government and not by local and private enterprise."

WHAT DOES IT MEAN?

The interesting statement is made, on the authority of measurements by scientists, that the American college athlete of to-day is a much larger man than his father was, and is constantly growing. The average height of the Yale athlete to-day is an inch and a half more than it was five years ago; he is 22 pounds heavier, with three inches more chest development and 42 cubic inches more lung capacity; the average height of the Yale athlete is now 5 feet, 9.9 inches and their weight exactly 170.5 pounds. An examination of Harvard athletes Prof. Sargent found that they were an inch taller and from four to five pounds heavier than were the students of 30 years ago.

This array of figures sounds like something creditable to the colleges. But it must be plain that the boys in college to-day got their growth or most of it before entering. The statements quoted here are the result of average measurements, including freshmen, of course. The entering class must have grown in high school days, and all the classes must have a better start than their fathers got in the years preceding college. This would seem to indicate something to the advantage of home conditions—better nourishment, perhaps, or more out-of-door life, or possibly a wider range of social and industrial ranks contributing to the college population.

FALSE ALARMS FOR HELP

Two cases of drowning were reported in yesterday's Citizen in each of which the person might have been saved had the calls for help been responded to. One was in Ottawa and the other in Montreal, and in each case people were near enough to have effected a rescue, but were deterred from answering the calls because false alarms have become so common that they thought it was a hoax. A certain class of boys, and even young men, consider it amusing to cry for help, and when people hurry to their assistance, they "give them the laugh." There must be a law covering such cases and an effort should be made to enforce it. Policemen in plain clothes should be detailed to look out for persons who give these false alarms, and such an example should be made of them that thoughtless youths will realize the danger of the practice. If there is no clause in the criminal code under which they can be reached the department of justice should see that the necessary amendment is made at the next session of parliament. Every season a number of drowning accidents, which might be averted, are due to the reluctance of people to respond to cries for help because they have been so frequently fooled by mischievous persons raising false alarms. The practice seems to be more prevalent than usual this year, and it is high time it was stopped.—Ottawa Citizen.

IMPERIAL COMMUNICATION.

It is remarked by Sir Edward Sassoon that a reduction in cable rates between Great Britain and India has already doubled the number of words sent, while not materially reducing the revenue. Sir Edward says that a reduction of all cable rates within the Empire would have results similar to those recorded by the service between Great Britain and India. He argues for the establishment of a complete state-owned cable service within the Empire.

Great Britain, Canada, New Zealand and Australia have already committed themselves to the general principle in the establishment of the Pacific cable service. One of the good things at the recent Imperial Press Conference in London was the announcement that the Pacific Cable Board had decided to cut in two the prices on press messages. The conference declared itself in favor of a state-owned system of electric communication across the Atlantic between Britain and Canada. The necessary adjunct would be a state controlled service from ocean to ocean in Canada. At a meeting in London in December last there was adopted a resolution approving the proposition of a low-priced telegraphic service within the Empire. The Duke of Argyll went so far as to suggest that after the more active business hours of the day, there should be a provision for the despatch of messages at reduced rates. There is with the thinking men of the Empire a strong desire for the realization of a complete plan of inter-Imperial telegraphic connection, state-owned.

On this point, Sir Edward Sassoon says:—"The benefit accruing from an adequate national system of cables can hardly be exaggerated. The boon of cheap and accessible cables means reinforcing our defensive forces, by lessening sources of friction and misunderstanding, and more important still, the solid linking together in material and sentimental bonds of the Mother Country with her kindred beyond the seas." And further: "In our islands no great permanent addition to the population and the economic wealth of the country can be contemplated. We are sending away some of the best of our raw material, some of the most vigorous and robust of our manhood every year. Make it worth their while, by offering them every possible encouragement, to direct their steps to our own possessions. Let us divert, as far as may be, this stream of emigration into our own channels. I strongly maintain that where, and if, private interests clash and conflict with public interest, public interest must prevail. Let no one dare to set limits to the concessions which the state has to make."

stantly growing. The average height of the Yale athlete to-day is an inch and a half more than it was five years ago; he is 22 pounds heavier, with three inches more chest development and 42 cubic inches more lung capacity; the average height of the Yale athlete is now 5 feet, 9.9 inches and their weight exactly 170.5 pounds. An examination of Harvard athletes Prof. Sargent found that they were an inch taller and from four to five pounds heavier than were the students of 30 years ago.

This array of figures sounds like something creditable to the colleges. But it must be plain that the boys in college to-day got their growth or most of it before entering. The statements quoted here are the result of average measurements, including freshmen, of course. The entering class must have grown in high school days, and all the classes must have a better start than their fathers got in the years preceding college. This would seem to indicate something to the advantage of home conditions—better nourishment, perhaps, or more out-of-door life, or possibly a wider range of social and industrial ranks contributing to the college population.

power to confer by the use of its credit, compatible with commercial considerations."

Sir Edward urges the calling of a conference of the postal authorities of all the Imperial Dominions for the purpose of promoting recognition of the necessity for the establishment of a system of state-owned telegraphs within the Empire. The Imperial Press Conference, the Associated Chambers of Commerce of Great Britain have espoused this cause. It involves of course the nationalization of at least one trunk line in Canada and the present Government of the Dominion does not appear to be any too keen on that. But the movement will persist. To say that the establishment of cheap and practically instantaneous electric communication within the Empire and between all its parts would be of great value to all the British peoples is to state the obvious, and there should be no doubt that eventually this highly practical Imperial ambition will be realized.—Ottawa Journal.

M.P.P. HURT IN BALL GAME

Cobalt, Ont., July 30.—Playing for Haileybury against New Liskeard in a fat men's baseball contest yesterday at Haileybury, R. T. Shillington, M.P.P., while running to first base in the opening innings, twisted both ankles and was carried to the bench, where he remained for the rest of the game with his two feet in a tin of water. After the game he was taken to his home in Argenti and it was then found that a bone in his left ankle had been broken, while the right ankle was badly sprained. He will be confined to his home as a result of the injuries for some time to come.

Gold On The Chest
Had Suffered For Weeks—Used
Fourteen Different Remedies—
Without Effect.

No stronger proof of the wonderful merit of Nerviline could be produced than the letter of Miss Lucy Mosher, who for years has been a well-known resident of Windsor, N.S.

"I want to add my unsolicited testimonial to the efficacy of your wonderful 'Nerviline,' a real liniment. 'Nerviline.' I consider it the best remedy for a cold, sore throat, wheezing, tightness in the chest, etc., and can state that for years our home has never been without Nerviline. I had a dreadful attack of cold, that settled on my chest, that fourteen different remedies couldn't break up. I rubbed on Nerviline three times a day, used Nerviline as a gargle, and was completely restored. I have induced dozens of my friends to use Nerviline, and they are all delighted with its wonderful power over pain and sickness."

"You are at liberty to publish this signed letter, which I hope will show the way to health to many that need to use Nerviline."

(Signed) "LUCY MOSHER."
All sorts of aches, pains and sufferings—internal and external—yield to Nerviline. Accept no substitute; 25c. per bottle, or five for \$1.00. All dealers, or The Catarthzone Company, Kingston, Ont.

MURDERED IN SLEEP

London, July 30.—Two young people, Christopher Hill and his wife Laura, who married in West Hartlepool ten months ago, when barely come of age, lie dead there. Their death is a tragedy which has horrified the district. The man is the son of one-time prominent Hartlepool tradespeople. His marriage was not a happy one, and in their few months of wedded life, after many quarrels, the couple separated. The wife returned to her parents, Mr. and Mrs. James, and the husband went into lodgings. He asked his wife to take him back again, but she refused. Hill waited near the James' house until his father-in-law had gone to work, and then climbed in through a back window, after obtaining an axe from an outhouse. Without alarming the occupants, Hill took a razor from a bedside drawer and went up to the bedroom where his wife was sleeping with her ten-year-old brother. Hill evidently cut his wife's throat whilst she was asleep, completely severing the arteries on the left side. She died without waking. The man bent and kissed her. But the child awoke, and, horrified by what he saw, screamed "Mother!" Mrs. James rushed from the adjoining room to see what was wrong. At the bedroom door she was confronted by Hill. He threatened her with an axe till she retreated, and then he fled. The search for Hill was kept up all day. In the evening his blood-stained jacket and cap were discovered on the bank of the Tees about three miles away, and shortly afterwards his body was found in the river.

HE GOT THE TEACHER.

A man called at the grammar school in a large city to see one of the teachers and, uncertain just which was the room he wanted, noted the bell buttons in the main corridor. He pressed one of them. His surprise was great when soon after the sound of the gong children and teachers fled forth from the various rooms in an orderly line, and with no excitement or crowding. The visitor had pressed the button which called for the fire alarm drill practice.

THE HOME PHYSICIAN

Some Hints to Keep People Well.

Ninety-nine per cent. of the ordinary sicknesses are caused by the bowels, the kidneys or the skin.

As you know, these organs are the great purifiers of the human system. They filter impurities from the blood and pass them from the body. If the kidneys, bowels or skin weaken or get tired out or fail to do their regular work—then the blood becomes laden with impurities and poisoned. If it is the fault of the kidneys; then the skin is overworked in its efforts to throw off the excess of urea or waste matter. The glands become inflamed and enlarged—pimples break out—and there may be a rash or eczema of the skin. If it is the fault of the skin, then the kidneys are strained by overwork and there is constant pain in the back, dizziness, neuralgia, headaches and rheumatism. If it be the fault of the bowels, the blood is poisoned, the skin and kidneys weakened, the stomach upset—and, of course, there is Constipation and Bilelessness.

How easy it is, then, to be free of all these troubles! "Fruit-a-tives" is not merely a remedy for any one of these troubles but a cure for all. "Fruit-a-tives" acts on the skin, the liver, and the kidneys. "Fruit-a-tives" keeps all these great organs well and strong, and thus insures the blood being always pure and rich. With "Fruit-a-tives" in the house to take at the first sign of not feeling well, you need not have a day's sickness. 50c. a box, 6 for \$2.50, or trial box 25c. At dealers, or from Fruit-a-tives Limited, Ottawa.

ANNUAL MATCHES

8TH ROYAL RIFLES

Splendid Weather and High Scoring
at the Ranges on
Saturday.

The 8th R. R. Rifle Association, as usual, this year had the best of luck in regard to weather conditions for its annual matches, which took place on Saturday afternoon.

The scores were of a very high standard, in fact much higher than last year. Lieutenant A. Hay won the Walker Prize of \$25, with the high score of 99 points. This match was won last year with 94 points.

The team prize was won by No. 1 Company by seven points over No. 4 their old adversaries. All the companies of the 8th were well represented and managed to secure each their portion of the prize and money, No. 5 Company especially, in the Walker match, with ten men shooting, seven of them secured prizes. During the day Colonel Wm. Macpherson and Colonel Wm. Wood visited the ranges, and were highly pleased with everything, especially with the manner in which the matches were run, there not being a hitch of any kind during the day.

Sergeant W. Pugh, as range officer, and his men from the Citadel, gave great satisfaction as register keepers.

Mr. T. Houghton made a most efficient secretary and there was no delay at any time in posting the result of the matches. Taking the meet on the whole, it was a most satisfactory one in every respect, and the captain, secretary and executive committee of the association are deserving of great praise for the success of the shoot.

The Disappearing Figure match was the cause of much excitement, and many of the enemy were killed. The following are the scores of the various matches and the amounts won:—

WALKER MATCH.

1st Class.

1.—\$25, Lieut. Hay..... 99

2.—\$5, Cpl. S. Murphy..... 97

Christie's Biscuits—How their quality is guarded—

The Butter Tester Says:

"I'm a CRANK about butter. I've got to be."

"I realize thoroughly that Quality has built up this big business, and made 'Christie' a household word from ocean to ocean—"

"You would be surprised if you knew what butter—good butter, according to all ordinary standards—we reject. Most of it ninety-nine people out of a hundred would taste and accept as excellent table quality."

"It's not a matter of price with us. We pay a little better than the best market price, and the butter must be in accordance."

"We have a high standard for butter, the same as for all other raw materials. Anything that doesn't measure right up to that standard is rejected."

"The basis of the delicious goodness which you enjoy in Christie's Biscuits is the unvarying goodness of the raw materials that go into them."

"When I see how our orders for butter

IN AND ABOUT TOWN

FIRST VICTIM OF THE HEAT

Sudden Death of a Water-Works
Laborer at Levis Who Had
Weak Heart.

Coroner Jolicoeur was notified on
Saturday of the sudden death of a
man named Cyrille Lemieux, 60 years
of age, a resident of Levis, and will
hold an inquest upon the body to-
day.

Lemieux, who was a laborer, em-
ployed by Mr. Charest, on the ac-
queduct work in St. Antoine de
Bienville, had put in a hard day's
work in the trenches under the terrific
heat, and returned to his home in St.
Joseph de Levis for his supper. He
sat down to table, but was suddenly
seized with weakness and fell from
his chair. Medical aid was at once
summoned, and Dr. Sirois, of Leuzon,
was quickly on the spot, but he found
that life had departed.

Lemieux, who had a weak heart,
had seemingly succumbed to an at-
tack of heart failure, superinduced by
the heat and his hard work in the
trenches.

The deceased was fifty years of age
and a bachelor.

Drink Beauport Lager. It is
the best.

MONTH'S AMBULANCE RUNS.

The firemen at the Central Station
were kept pretty busy during the
month of July with the ambulance, no
less than 41 calls having been answer-
ed.

CONTINUATION OF THE SUMMER SALE.

Great attraction during the sale at
Simons & Migroy, considering the ex-
cellent quality of the goods and the
very low prices they are offering. See
their new advertisement containing
more particulars.

SATURDAY AND MONDAY.

We will sell the balance of our white
lawn blouses at half price.

MARCEAU & CO.,
155 St. Joseph Street.

STE. ANNE DE BEAUPRE.

Yesterday was one of the record
days at Ste. Anne de Beaulieu, no less
than 5,500 pilgrims arriving at the
shrine between 4 and 7 o'clock yester-
day morning. The pilgrims came from
Montreal, Sorel and this city. This
evening 1,200 pilgrims are expected at
Ste. Anne, from Troy and Albany,
N.Y.

INVESTIGATION ON DROWNING.

An investigation was opened at the
Marine Department in this city on
Saturday in connection with the
drowning of the young man Martin,
of Levis, who met his death by falling
from the Canadian Government steam-
er Christine, off the coast of Labra-
dor. Capt. May and a number of wit-
nesses were heard.

FIRE IN CONFECTIONERY SHOP.

An alarm from box 34, about ten
o'clock yesterday morning, brought a
section of the fire brigade to the cor-
ners of Deligny and St. Oliver streets,
where a fire had been discovered in
the confectionery store of Fortunat
Roussel. The fire had started under-
neath the boiler, but the firemen quick-
ly got the blaze under control, and
stopped what might have been a seri-
ous fire had it not been promptly
tackled.

LAKE EDWARD SANITARIUM.

The Treasurer of the Ladies' Branch
Lake Edward Sanitarium, acknow-
ledges with thanks the following con-
tributions received towards the fur-
nishing of the institution:—The Lake
Beauport branch of the Ministering
Children's League, 4 pairs bed socks,
2 Nightingales, 1 hot water bottle
cover; Mrs. J. R. Kane, 3 water car-
riers, 3 pairs salad forks and spoons;
two well-wishers, Riviere-du-Loup, 85;
"Conscience money," \$1; proceeds of
an entertainment given by a few
small children; 42 cents. Total, \$6.42.
Amount previously acknowledged, \$3-
626.84. Total amount received to
date, \$3,633.26.

MISS VICTORIA CARTIER AT THE ORGAN OF THE BASILICA.

Miss Victoria Cartier, Officier d'Aca-
demie de Paris, and one of the most
capable organists of the present time,
played a few selections of sacred mu-
sic during the High Mass at the
Basilica yesterday morning, when Mr.
Gustave Gagnon, the organist of the
church, surrendered his stool to the
lady, who is here visiting relatives
before her departure for Europe. After
the divine service, Miss Cartier grati-
fied a very comprehensive and sym-
pathetic audience with a number of
pieces of varied character. It is to be
hoped that Quebec lovers of music will
have the opportunity of hearing the
distinguished artist in a recital during
the coming season.

LAID AT REST.

The funeral of the late Hon. Edouard
Remillard, Registrar of the Province
of Quebec, took place on Saturday
morning from his late residence to the
Basilica and thence to Belmont Cem-
etery. The cortege of mourners was a
lengthy one and comprised many of
Quebec's most prominent citizens and
Government officials. At the Basilica
the requiem mass was celebrated by
Mgr. Mathieu, assisted by deacon and
sub-deacon, while Bishop Roy officiated
at the Libera. The chief mourners
were the four sons of deceased, Rev.
Gustave Remillard, Rev. Jules Remil-
lard and Messrs. Jos. A. and Arthur
Remillard. At the conclusion of the
service the remains were conveyed to
Belmont Cemetery, where the inter-
ment took place. The flags on the
Court House and Institut Canadien
were flying at half-mast out of re-
spect to the memory of the deceased.

It's as difficult for some people to
let go as it is for others to catch
on.

MAY BECOME PICTURE THEATRE

Syndicate Now Being Formed to Take
Over Church on St. John
Street.

For some time past the trustees of
the French Presbyterian Church on St.
John street, have been endeavoring to
dispose of their building, the location
not being all that they could desire.
It is now understood that a syndicate
is being formed to purchase the build-
ing and that most of the capital has
already been subscribed. The price
asked for the building is \$12,000, and
a considerable portion of the sum is
now in hand.

What the intentions of the intending
purchasers of the building is not yet
definitely known, but it is expected
that should they obtain control of the
building the church building will be
reconstructed, and a moving picture
hall established on the site.

The church authorities will remove
their congregation to another site as
soon as the deal is completed, it is
understood.

J. T. HARROWER & CO.

Agents, 64 St. Peter St., P.O. Box 99.
To Our Patrons:—

We would respectfully call their at-
tention to the fact that we have just
completed the reorganization of our
typewriter repairing department and
are now in a position to repair, re-
model or rebuild any standard make
of typewriter. We absolutely guaran-
tee all work we turn out, and we are
confident we can give them complete
satisfaction should they favor us with
their orders.

We would be pleased to call on them
at any time and examine their type-
writers and give them estimates as to
cost of repairs or remodelling, &c.
A post card or a phone message will
have our immediate attention.

We also sell, exchange and rent all
makes of typewriters and are the sell-
ing agents for the celebrated New
Models 10 and 11 "Remington" type-
writers and Wahl adding and sub-
tracting attachment.

Yours very truly,
JAS. T. HARROWER & CO.,
84 St. Peter St.
Quebec, July 31, 1909.

AUGUST A BUSY MONTH.

This should be a busy month for
our lady readers who are looking for
bargains in dresses, suits and skirts,
and the place to secure them is at the
well-known dry goods firm of F.
Simard & Cie., whose new advertise-
ment, in to-day's issue, should be
carefully looked over.

GROSSE ISLE MONUMENT.

Our citizens who intend being pre-
sent at the dedication of the Grosse
Isle Monument should hasten to pur-
chase their tickets, as only a limited
number will be sold for the different
steamers which will be run to the
quarantine station on Sunday, the
15th instant. Full particulars are
given in an advertisement which ap-
pears in another column of this issue.

WHITE SISTERS SAIL FOR AFRICA.

Eight young ladies left by the Allan
steamer Sicilian on Saturday en route
for Africa, where they will devote their
future life to missionary work as mem-
bers of the order of Les Religieuses
Missionnaires Notre Dame d'Afrique
(the White Sisters). Among them is
a young lady of this city, Miss Alice
Gaborry, daughter of Mr. Leon Ga-
borry, who takes with her the best
wishes of all for a successful career in
her heroic and self-denying labor in
the Dark Continent.

BIG PURCHASE OF FARM LAND.

An important transfer of real estate
on St. Foye Road is reported to have
just been concluded, whereby three
large farms west of the Belvidere have
changed hands at the reported price of
\$50,000. The farms in question are
most desirable in every respect, and
there has been much discussion as to
the reason for the transfer. While
there have been many theories as to
the identity of the purchasers, there
seems to be a well-founded opinion
that the purchase has been made on
behalf of a large religious community,
probably the Trappists, who, it is
said, intend to establish a branch of
their order there.

PROPOSED TRIP R.C.G.A. BAND

Hope is Expressed That All Obstacles
to Its Proposed Trip May
be Removed.

Some considerable discussion has
been going on regarding the invitation
to the R.C.G.A. Band for a week's
outing at Murray Bay. This kind in-
vitation was due to the initiative of
Col. B. A. Scott, who has taken some
considerable time and trouble in mak-
ing arrangements for the trip. Nat-
urally, several matters had to be ar-
ranged with the proper authorities to
obtain permission for the men to en-
joy the holiday, among which was the
necessary permission from the city to
allow another band to take over the
duties of the State Band for the Ter-
race and Victoria Park programmes.
This, we believe, was easily arranged,
as their conferees in the hands of the
8th and 9th Regiments as well as
that of the 10th Q.O.C.H. have volun-
teered to discharge these duties for
the week. The public should recog-
nize the services that have been ren-
dered by the State Band in the past,
and the opportunity afforded the men
of enjoying a well earned holiday, and
that holiday without depriving our
citizens of the weekly band concerts
which have been so thoroughly en-
joyed. We sincerely trust all ob-
stacles, if any, to the trip, will be
satisfactorily removed and the men
thoroughly enjoy their well-earned
outing.

8TH MARKSMEN FOR MONTREAL

Some Nineteen Shots will be Entered
in the Province of Quebec
Rifle Matches.

The 8th Royal Rifles will be well
represented at the Province of Quebec
Rifle Association matches at Mon-
treal, which start on the 11th of Aug-
ust. The following are the entries
forwarded for the meeting:—Major W.
H. Davidson, Capt. S. H. Hill, Lt. A.
Hav, Lt. F. S. Coolican, Sgt. C. Mc-
Millan, Sgt. M. J. Quinn, Sgt. C.
Carey, Cpl. S. P. Murphy, Cpl. M.
Slater, Pte. T. Prendergast, Pte. Mc-
Cusker, Pte. R. B. Whyte, Pte. Chas.

TWO INQUESTS AT ISLAND OF ORLEANS

Boy Drowned at St. Jean—Sudden
Death of Old Man at St.
Francois.

Coroner Jolicoeur held two inquests
at the Island of Orleans, on Saturday
last. The first was held at St. Jean,
on the body of Andre Gobeil, 13 years
old, resident of the parish, who was
drowned while bathing there on Fri-
day last. A verdict of "Accidental
drowning" was rendered.

An unknown old man died suddenly
at St. Francois, Island of Orleans, on
Friday last. The deceased was a vet-
eran beggar, who asked for a night's
lodging with one of the farmers of the
parish and died during the night. He
never gave his name, but informed the
farmer that he had spent the past win-
ter at Indian Lorette with three other
old people. A verdict of "Death from
syncope of the heart" was rendered.

COURT OF SESSIONS.

On Saturday last in the Court of
Sessions three men, charged with
loitering in the C.P.R. yards, were
discharged on promising to leave the
city. A man convicted of selling
liquor without license was fined \$50
and costs.

RECORDER'S COURT.

Aldermen Matte and Lavigne pre-
siding in the Recorder's Court on
last Saturday, had five prisoners
charged with drunkenness before them.
Fines ranging from \$1 and costs or
four days' imprisonment to \$5 and
costs or fifteen days were meted out
to the accused.

LEVIS BAND ON TERRACE.

One of the greatest crowds which
has been seen on the Terrace during
the present season was that which
assembled to hear the Levis City
Band, which rendered a choice pro-
gramme of music last evening. The
crowd included a large proportion of
the residents of Levis, who had
crossed the river to hear their popu-
lar and efficient musical organization
perform. Under the direction of
Bandmaster A. Laine, the band ren-
dered a programme which was most
enjoyable in every respect, and the
immense crowd of promenaders pre-
sent testified their appreciation by
long continued applause at the con-
clusion of each number. The Levis
band proved itself to be a well-
balanced and excellent organization,
and Quebec people will be happy to
again hear it.

THE MOORISH SITUATION

Melilla, July 31.—Although the
heavy artillery mounted upon the
forts continue to throw projectiles
against the Moorish stronghold on
Mount Guruga, the situation is com-
paratively quiet. A train transport-
ing engineers, was derailed and at-
tacked by the Moors near Melilla, but
they were repulsed with loss. General
Marina is planning, when reinforce-
ments arrive, to make a grand march
on Zelouan, in the interior. The Moors,
it is declared, were lacking in food
and munitions, and were forced to
desist in their attacks and withdraw
the lead mines to make bullets.

LATEST SPORTING NEWS

TECUMSEH WON FROM NATIONALS

RESULTS AT HENLEY REGATTA

Score was 4 to 3—Caps were Easy
Picking for the Cornwalls.

Montreal, July 31—By the close score of 4 to 3, Tecumseh defeated the Nationals here this afternoon. Fully 3,000 people turned out to see the game, and excitement ran riot all the afternoon. The closeness of the score conducted in no small measure to make the play strenuous, and the penalties were very numerous.

Tecumseh were handicapped by the absence of Charlie Querie from the game. He came down with the team, and coached them from the side, but was unable to play. In practice last Wednesday he got sandwiched in between Ions and Graydon and had his head knee put out of business again. With luck, he hopes to be able to play at home next Saturday against Shamrocks. They had, however, Graydon and Merton again on the line-up.

The game was always inclined to be rough, and the referees had their hands full at all stages. The Tecumsehs had the score 2 to 1 in the first quarter. Nationals got the only tally in the second. It was one and one in the third, while Tecumseh got the deciding tally in the fourth.

Cornwall, July 31—The Capitals and Cornwall met in a N.L.U. championship match here this afternoon, before the smallest attendance of the season, less than 1,000 people being present. The fact that the match had no bearing on the final result had a great deal to do with the poor gate. The Capitals ran an excursion from Ottawa, and about 100 availed themselves of the reduced rate. The Cornwalls were without the services of the veteran, John White, whose nose was broken in the Shamrock match in Montreal a week ago. The Capitals tried out four juniors, A. Trobel, Yentman, Watts and Schultz. Landry and Leveille, the latter of whom was arrested in Ottawa last week for an altercation with Gagnon, of the Nationals, were the spare men for the Capitals. The face occurred at half-past three o'clock.

Half time ended 8 to 1 for Cornwall. The final score was 9 to 4 for Cornwall.

STANDING OF THE N.L.U.
WON. LOST. P.C.
Shamrock 5 1 583
Tecumseh 5 1 583
Montreal 4 2 667
Toronto 5 3 625
Cornwall 3 3 600
National 2 6 250
Capital 0 8 000

WON 24 HOUR AUTO RACE.
Brighton Beach, N.Y., July 31—Geo. H. Robertson, driving a Simplex car, won the 24 hour automobile race at the New Brighton motor-drome to-night. At 10:05 p.m. when the race finished, he had covered 1,091 miles, 56 miles less than the world's 24 hour record of 1,177 miles, which he made over the Old Brighton Beach track precluded any possibility of the record being approached. Robertson won mainly through good judgment and careful driving.

FOULKES CANADIAN CHAMPION.
Montreal, July 31—As a result of the day's play at the tennis championships, Capt. Foulkes is tennis champion of Canada.
Capt. Foulkes and Raby are champions of Canada in the men's doubles. Mrs. Hannam is ladies' champion of Canada and also ladies' handicap champion. Mrs. Hannam and Mr. Greentree are mixed double champions of Canada.

DELORIMER PARK RACES.
Montreal, July 31—The first day's racing at Delorimer Park this afternoon drew a large crowd. Betting was brisk. Results:—
1.10 Pace—Allan won; King Brino, 2nd; Deacon Brino, 3rd.
2nd Race—Doctor Young won.
3rd Race—Sir Walter Rawlins won; Von Lea, 2nd; Big Hand, 3rd.
4th Race—Strategy won; Bobbie, 2nd; Autumn Maid, 3rd.

WM. PRICE MATCH.
Series A, 8th R.R.
The July winners were as follows:
1. Pte. McDonald 60 \$4.00
2. Sgt. Somerville 55 3.00
3. Pte. McDonald 55 2.00
4. Pte. A. Staton 46 1.00
All these men will be moved up to Series B., having won prizes for two months.

WM. Macpherson Green Match.
July Winners.
1. Pte. Parker 56 \$4.00
2. Sgt. T. Moran 54 3.00
3. Sgt. Major Wilkinson 53 2.00
4. Pte. D. Power 49 1.00
Sergt. T. Moran will now have to shoot in the Wm. Price match Series A., having won prizes in the Macpherson for two months.

(National.)
At St. Louis:—
Boston, 10; St. Louis, 4.
At Chicago:—
Chicago, 3; Philadelphia, 0.
Second game—Chicago, 7; Philadelphia, 6.
At Cincinnati:—
Cincinnati, 2; Brooklyn, 3.
Second game—Cincinnati, 3; Brooklyn, 1.

Immense Crowd of people was Present and there were Scenic Exciting Contests.

St. Catharines, Ont., July 31—The last day of the Henley regatta drew a tremendous crowd of spectators. The grand stand and its lawn were packed and the opposite shore was deeply lined wherever there were accommodations. The lines of pleasure boats, canoes, flat-bottomed boats and skiffs, with their brightly arrayed human cargoes, were longer and broader; and, on the whole, the scene was much grayer, than yesterday, and the big electric cars that run from St. Kitts to Port Dalhousie had their work cut out.

There were clouds in the sky, but they were only fugitive, and the sun was hotter and brighter than ever, while the water was calmer.

There were some exciting contests, the result in detail being as follows:—
Intermediate singles, final—J. F. Cosgrove, Argonaut R.C.; 2. N. B. Jacques, Argonaut R.C. Time, 10.28.
Junior fours, 140 lbs., first heat—1. Argonaut R.C., D. R. Kertland, F. Fulton, J. F. Dixon, M. Parsons; 2. Ottawa R.C., P. J. Baskerville, H. D. McCormick, E. B. Viety, Dr. R. H. Ellis; 3. Lachine R.C., B. Crombie, P. Whitehead, C. Fulton, B. Watson, Time, 9.30.

Junior fours, 140 lbs., second heat—1. Don R.C., Toronto, T. Carson, W. Carson, F. Carter, J. Neiler; 2. St. Catharines R.C., J. House, M. Gordon, W. Pickering, R. Adie; 3. Brockville R.C., W. Rowe, C. Price, A. Gillerlaw, F. Walthusen, Time, 9.32.

Junior fours, 140 lbs., final—Dons, 1st; Argos, 2nd. Time, 8.15.

Junior fours, working boats—1. Hamilton B.C., No. 1, J. Maloney, E. Skelly, C. H. Sloan, C. O. Piliem; 2. Hamilton R.C., No. 2, J. W. McAllister, N. Clark, M. Sinclair, A. Athews; 3. St. Catharines R.C., H. Edmondson, F. Hole, E. Read, A. Kerr, Time, 9.41. The record for the course.

Junior eight, final—1. Argonauts R.C., A. C. Thurmer, R. C. Gregory, K. Tye, G. Livingstone, W. H. Green, L. B. Lyall, H. R. Nightingale, A. N. Dudgeley; 2. Ottawa R.C., J. C. McCuaig, L. F. Joffe, R. E. Green, D. J. O'Donoghue, M. J. Kilt, F. M. Snowden, Dr. S. Nagle, F. D. Cox, Time, 7.20.

Senior doubles, final—1. Harlem R.C., New York, F. Fussell, F. S. Sheppard; 2. Don R.C., No. 1, H. Jacob, W. Bowler; 3. Argonaut R.C., S. G. Jackes, E. B. Butler; 4. Don R.C., No. 2, W. Crawford, H. Laing, Time, 7.59.

Intermediate fours, final—1. Ottawa R.C., J. C. McCuaig, F. L. Joffe, M. J. Kilt, T. M. Snowden; 2. Don R.C., Toronto, H. Laing, J. Bowkall, W. Crawford, W. Bowler; 3. Lachine R.C., R. J. Magog, J. Scully, S. Fulton, R. Howard; 4. St. Catharines R.C., A. R. Grace, A. Greenwood, E. Corbett, A. Kirkwood, Time, 7.39.

Senior fours, final—1. Ottawa R.C., E. H. Bulford, B. W. J. Harrison, Eddie Phillips, O. B. Haycock; 2. Detroit B.C., F. E. Wernsdorff, D. B. Duffield, H. Emmons, R. E. Pingree; 3. Argonaut R.C., J. Spence, H. A. E. Kent, W. A. Kent, J. Sprague, Time, 9.52.

Senior singles, final—1. Argonaut R.C., J. F. Cosgrove; 2. Harlem R.C., New York, F. Sheppard; 3. Vesper B.C., Philadelphia, S. C. Gordon; 4. Vancouver, B.C., C. E. Laing, Time, 8.57.

VANCOUVER CAPS TOO STRONG.
Toronto, July 31—The two stalwart Gillis brothers, of the Vancouver police force, copped everything in the way of points at the 27th annual local police amateur athletic meet at Scarborough this afternoon. J. H. Gillis, of Vancouver, won the championship with 20 points, capturing five firsts and two seconds.

J. H. Gillis, his brother, from the Vancouver force, got second, with 10 points; 2 firsts, 1 second, and 2 thirds. M. McCarthy, Toronto, was third, with 9 points, a first and three seconds.

NO NATIONAL GAMES MONDAY.
New York, July 31—John A. Heydler, acting President of the National League of Baseball Clubs, said to-day that a meeting of the League would be held in St. Louis on Monday after the funeral of the late President, Harry C. Pulliam, at which Mr. Pulliam's successor will be chosen. No National League games will be played on Monday out of respect for the dead president. It is likely the American League's will be cancelled that day also. Mr. Heydler said Mr. Pulliam's body will be taken to Louisville tomorrow.

Chicago, Aug. 1—All games in the American League scheduled for tomorrow will be postponed because of the funeral of Harry C. Pulliam, the late President of the National League, according to announcement made by President B. B. Johnston to-day.

ANOTHER NEW SET OF RECORDS.
Boston, July 31—A new world's record in the hop-step-and-jump was made at the annual field day of the Knights of Columbus at the Locust street grounds to-day by Daniel F. Ahearn, of the Irish-American A. C. of New York, who made the distance of 50 feet 2 7/10 inches. The best previous record was 48 feet 6 inches made by E. B. Bloss, Chicago, in 1893.

Detroit, July 31—At the Grosjean track to-day, Walter Christie, driving a car of his own design, covered a mile in 54 3/5 seconds. This breaks Christie's previous record of 57. New Orleans, La., July 31—Joe McGinnis broke the world's record for throwing the baseball, his best throw being 138 yards, 2 feet and 2 inches. The former record was held by Larry Twitchell at 135 2/3 yards, made in 1888.

Pittsburg, July 31—The All-Jamaica cricket team which is making a tour of the United States and Canada defeated the eleven of the Pittsburg club here to-day by a score of 139 to 124.

SHRUBB DEFEATED TOM LONGBOAT

Little Englishman Cut Out a Fast Pace, and India Grew Sick in the Seventh and Quit.

Toronto, July 31—Four thousand people saw Alf Shrub defeat Tom Longboat to-night in a twelve mile event at Scarborough Beach. The race started at 9.15 p.m. and Shrub took the lead at the crack of the pistol. At the end of the first mile, which was done in 4.37 4-5, Shrub led by fifty yards and steadily increased his lead. At two miles, which the little Englishman covered in 9.44 4-5, he had a third of a lap lead. The time for 3 miles was 14.48 2-5, and for 4 miles 19.10 2-5, which is just seven seconds slower than the world's record. At 5 miles, which were done in 25.43 4-5, Shrub had gained nearly a lap, but at this point the Indian braced up and gained a little ground during the 6th mile. His spurt was only temporary, however, and in the 3rd lap of the seventh mile, Shrub gained a full lap and passed him. Longboat commenced to vomit in the 4th lap of the 7th mile and was forced to quit at 7 1/2 miles, the fast pace being evidently too much for his stomach. The 7th mile time was 37.56 1-5. Shrub finished alone in the fast time of 1.05.25 2-5.

Frank Nebraska, of Buffalo, won a 5 mile preliminary event from Percy Sellen in 26.30 3-5 30. Sellen made all the pace till the last lap of the last mile when Nebraska sprinted and won by twenty yards. It was announced that Alf Shrub and Frank Nebraska had been matched to race ten miles at Scarborough Beach on Tuesday night for a side bet of \$1,000 to \$600.

THETFORD MINES WON EASILY

Had Little Difficulty in Defeating Rock City by a Score of 17 to 0.

Thetford Mines ball team shut out Rock City yesterday afternoon to the tune of 17 to 0. The visitors had little difficulty in disposing of the locals, who were somewhat affected by stage fright in the face of their more experienced opponents. For three innings Rock City played pretty nifty ball and held Thetford to one run, but after that it was all off. The box score tells the story and there is no need to enlarge upon the details. Mr. Geo. E. Cartier umpired the game in his usual impartial and efficient manner. The score:

Thetford Mines.	A.B.R.H.P.O.A.E.
Daigneault, 2b ..	4 3 1 6 2 0
Goderre, 1b ..	7 3 3 9 0 0
Larocque, 3b ..	4 3 0 0 0 2
Meilleur, c ..	5 4 3 11 1 0
McMaster, r.f. ..	5 1 2 0 0 0
Lambert, s ..	5 0 1 0 2 2
Charest, c.f. ..	4 1 0 0 0 0
Poudrier, i.f. ..	3 0 1 1 1 0
Bellerose, p ..	6 1 1 0 4 0
43 17 11 27 10 4	

Rock City.	A.B.R.H.P.O.A.E.
Bretton, 1b ..	3 0 0 5 0 0
Barthe, c.f. ..	4 0 0 1 0 0
Moren, c ..	3 0 2 8 1 0
Leclerc, i.f. ..	3 0 1 4 0 2
Depayre, 2b ..	4 0 0 6 1 2
Gendron, s ..	4 0 1 0 4 2
Paulet, 3b ..	4 0 0 3 0 1
L'Heureux, r.f. ..	3 0 0 0 0 0
Giguere, p ..	4 0 0 0 1 1
32 0 4 27 7 8	

Score by innings:—
Thetford Mines . . . 001503440—17 11 4
Rock City . . . 000000000—0 4 8

Summary:—
Earned runs, Thetford, 9. Two base hits, Goderre, 2; Meilleur. First base on balls, off Bellerose, 1; off Giguere, 10. Struck out, by Bellerose, 10; by Giguere, 6. Double plays, Depayre to Bretton, Bellerose to Daigneault to Goderre. Wild pitches, by Giguere, 2. Passed balls, Meilleur, 2; Morency, 1; hit by pitched ball, Charest, Bretton, Morency, L'Heureux. Time of game, 1 hour 45 mins. Umpire, G. E. Cartier.

Boily and wife, Robertval; J. Talbot, Berthier.

ORIGIN OF THE CHERRY TREE.
As a cultivated fruit the cherry is of Eastern origin. The first garden cherries, as well as the name, have come from an old Greek town on the southern shores of the Black Sea. The name of the colony was Cerasus and the inhabitants cultivated the cherry. In a Greek the cherry became cerasus, in Latin cerasus, in French cerise, in English cherry. Pliny relates that the Roman General Lucullus, conqueror of the great Mithridates, brought the cherry from Cerasus to Rome. A tree laden with fruit is said to have adorned his triumphal procession. In the course of the next 120 years the culture of the cherry had spread far and wide and reached even remote Britain—London Globe.

TO THE DEBTORS OF LOUIS BLOUIN, JR. INSOLVENT.
Notice is hereby given that all debts due by you to the said Louis Blouin, Jr., Quebec, insolvent, were duly sold and transferred by Vital Elzear Paradis, curator, to said insolvent estate, to Messrs. Lapointe and Lapointe, hardware merchants, Quebec, by deed of sale, under private seal, made and passed at Quebec, on the 22nd July, 1909, which deed of sale was deposited in the Prothonotary's Office, District of Quebec, on the 26th July, 1909.

The said debts are payable immediately at the office of Messrs. Lapointe and Lapointe, at the office of their attorneys, Cimon, Sevigny & Parent, No. 81 St. Peter Street, Quebec.

July 31, 1909.

CZAR'S FIRST OFFICIAL VISIT

Arrival of Russian Monarch at Cowes
Looked Upon as Sealing New Triple Alliance.

Cowes, Isle of Wight, Aug. 1.—Despite a drizzling rain, which set in this afternoon, the roadstead and the lawn of the Royal Yacht Squadron presented a brilliant appearance to-day. King Edward and Queen Alexandra and various members of the royal families of Europe spent the day in a round of visits at Osborne house, King Edward's seaside residence.

To-night the Indomitable, the Invincible and the Inflexible—three battleships of the Dreadnought class—sailed to meet the Russian imperial yacht Standart and escort Emperor Nicholas and the Russian imperial family to Cowes. This will be the first official visit of the Russian monarch to Great Britain. The coming of Emperor Nicholas to-morrow is regarded as sealing the triple entente between Russia, France and Great Britain and indicating that the long period of estrangement and suspicion between Great Britain and Russia is now ended.

Officially, the visit will be aloft, although it is expected that the Russian monarch will land privately at Cowes, Tuesday and stay visits. King Edward, Queen Alexandra and the Prince of Wales will sail at 10.45 on the Victoria and Albert to meet the Russian imperial, who will board the King's yacht.

THE CARIBOU AT HOME.

Big Beast is Canada's Most Erratic Animal.

"The caribou or American reindeer (Rangifer caribou)," writes Mr. W. H. Moore in The Educational Review, of St. John, N.B., "which is found in the Maritime Provinces and Newfoundland, is in size midway between the Virginian deer and the moose, and is without a doubt the most erratic in its wanderings of any of our native mammals. Its true habitat is among barrens, somewhat overgrown with black spruce, upon which it feeds most readily a lichen—Usnea barbata—is the main diet of the caribou, whether its long pendulous threads or fronds grow on the spruces of the barrens or on the trees of rocky, elevated positions. This animal also follows the roads made by the lumbermen and crops the lichens which grow on the felled trees.

When disturbed, the caribou often goes away, perhaps not to return for weeks; and when pursued may be expected to do exactly the opposite to what another animal would do. Herd of half a dozen or more have been known to allow a hunter to come up with them, and to stand staring at him in amazement, as one after another of them were shot down. At other times they flee at the slightest warning of the approach of a hunter. The actions of this animal are very uncertain. If, while wandering about, one of them should come across a man's trail in the snow, it will sometimes wheel about and run for perhaps twenty miles without stopping; and, another time, it is quite as likely to follow up his trail.

The color of the caribou, which in summer is a glossy reddish-brown, becoming grayer towards winter, serves to protect it because it much resembles that of the moss-grown bushes among which it stands. The under parts being of a lighter color than the upper, the form of the animal is much broken, and its outline is rendered indistinct to any but an experienced eye.

The female caribou brings forth a single fawn at first birth, and after that two are born at a time. Unlike the cow moose, she is often the possessor of a pair of antlers, which are, however, much smaller and more slender than those of the male. Some hold that the antlers of the female caribou are never dropped. This statement is based on the belief that the antlers not having an enlargement at their base—known as the "burr"—cannot be dropped and again reproduced. The writer, however, believes that the antlers of the female are dropped and grown just the same as those of the male, and that as for the burr, the female has as much in proportion to the size of her antlers as has the male.

The caribou is much more gregarious than the moose or the deer. In favorable localities, as many as fifty of them may be seen at one time scattered over the side of a hill in search of their favorite food, locally known as caribou moss.

The caribou, unlike the moose and the deer, does not "yard" in the winter, but roams over a considerable area. The formation of its feet facilitates its progress through deep snow or over snow covered with a thin crust. The hoofs are very shallow and broad, as are also the dew-claws or secondary hoofs. In traveling where the footing is insecure, the animal squats down until the lower part of the leg rests on the surface of the snow, and with the hoofs and dew-claws spread laterally, a support almost equal to that of a snowshoe, quite a surface is covered, and the speed attained is much greater than if it had to wade or plunge through the snow, as animals that run on the extremities of their hoofs have to do.

The flesh of the caribou is much esteemed as food, and clothing made of its skin, is, it is said, so impervious to cold that with the addition of a blanket of the same material one may bivouac on the snow with safety even in the coldest winter night.

With this animal is a beast of chase merely, but it is well known how useful the same reindeer is to the Laplander, being his cow, sheep, horse in one animal. The milk of the herds is the principal support of the owner and his family, and as a draught animal his speed and endurance render it the most valuable of creatures to men living in high northern latitudes.

The caribou or American reindeer of these provinces and farther north is regarded by some naturalists as only a variety of the European reindeer (Rangifer tarandus). Another variety is the Greenland caribou, a smaller animal, inhabiting the shores of the Arctic Ocean and the woods and barren grounds adjacent.

DAY BY DAY

The weather is great, and also fine. The Thetford miners handled the Rocks quite easily and naturally.

Now, who was that Chronicle man who needed a search-light?

The fish stories are still coming. When by "a la Claire de lune" 2636 are caught, is it time for the Trois Lac finny tribe to seek cover.

Summer comes but once a year, but sometimes it is hard to know it's here. But not just at present.

Liquid refreshments are much cheaper at Trois Lac than they are in Quebec, says the alleged fisherman.

If this keeps up, we'll have to spell it atmos-fire.

SPORTING NOTES

WAS WON BY IRISH VOTE.

Alexandra Park, Eng., July 31.—The Juvenile Selling Plate of 100 sovereigns for two-year-olds, distance five furlongs, was run to-day and won by Irish Vote. Aye-Aye was second, and Washington third. Fifteen horses started.

MAPLE LEAF WON.

The Maple Leaf lacrosse team defeated the National II in a Junior League match on the Q.A.A. grounds yesterday afternoon.

WON GLIDDEN TOUR.

Kansas City, Nev., Aug. 1.—Pierce Arrow car number 9, driven by W. F. Winchester, with a perfect score, won the Glidden trophy in the annual tour of the American Automobile Association, according to official announcement made to-night. Pierce Arrow number 108, driven by J. S. Williams, won the Hoover trophy.

BASEBALL AT LAKE ST. JOSEPH

There was another great game of baseball at Lake St. Joseph on Saturday afternoon, when the C. P. R. team went up against the Lake team, the latter winning by a score of 9 to 5. The game was well-contested, and there were many interesting features. A three-bagger by Davis, of the C.P.R. team, was one of them. The game was umpired by Mr. Mac, of the Bank of Montreal team, while Mr. J. M. Heiser acted as official scorer. The C.P.R. boys were accompanied by Messrs. Jules Hone, Jr., and A. Rawland. The line-up was:—
Lake St. Joseph—Gibson, s.s.; Silve, 3b.; Cosgrove, c.; Stead, p.; Slocomb, 1b.; Gross, 2b.; Jordan, c.f.; Berry, 1b.; Poston, r.f.
C.P.R.—Hamilton, s.s.; Kenny, c.f.; Boisvert, c.; Murphy, 1b.; Davis, 1b.; Walsh, 2b.; Belyea, r.f.; Desbrassy, p.; Bellows, 2b.

MUSIC OF THE TELEGRAPH.

The Bears Think It Is the Buzzing of Bees.

Everyone has put his ear to a telegraph pole to hear the wires hum, and most people have assumed that the wind was entirely responsible for the sound. So it is, in many cases, but often the note is heard when not the slightest movement of the air is perceptible. A recent French investigator tells us that the sound in this case is due to the expansion and contraction of the wires from variations of temperature. As the wires are not perfectly uniform, they rub against the insulators, making a slight noise, which is amplified by the post acting as a sounding-board. Another investigator is sure that the sounds are due to electric waves, but he fails to explain how ordinary telegraph wires should be able to serve as wave detectors and in what way the electric waves are transformed into sound waves. The other theory seems more probable.

Some curious stories are told of this telegraph wire music. In Siberia the bears think that it is the buzzing of bees, and would tear down the poles to look for honey if the constructors did not pile great stones about them to prevent this. In France, on the south side of the forest of Fontainebleau, the telegraph sounds are regarded as presaging rain. This is because the south wind in this region brings rain, and the forest shuts off the north wind. In some districts the noise is popularly supposed to be due to the passage of messages, but it is hardly necessary to say that there is no evidence to support this view.

Aching in the Stomach

Blious Headache, Sluggish Liver, Indigestion and Stomach Disorders.

Dr. Hamilton's Pills Cured.

"From using a cheap remedy recommended by an unscrupulous druggist, my condition was made much worse," writes Miss Minerva E. Michie, daughter of a well known citizen of Portland. "I suffered so terribly with indigestion and biliousness that the very sight of food made me shudder. It was two years ago my health began to fail. At first I had constipation, liver sluggishness and occasional headaches. My appetite was variable—I wanted too many sweets—then I lost all desire to eat and had constant aching in the stomach, attacks of dizziness, pains between the shoulders, stifling feeling after meals and felt I wasn't going to recover."

"The moment I used Dr. Hamilton's Pills I felt better. After I had taken a few pills my chest and back were relieved of pain, and my head felt clear and no longer was full of blood and rushing noises. I kept on using Dr. Hamilton's Pills and slowly but surely my appetite returned and I gradually regained strength, color and spirits. To-day I am as well as ever and attribute my present splendid condition entirely to Dr. Hamilton's Pills."

If you are troubled like Miss Michie was (and most people occasionally are) no medicine will do you so much lasting good as Dr. Hamilton's Pills. Beware of the druggist that asks you to take anything in place of Dr. Hamilton's Pills which alone can help and cure you, 25c. per box, or five boxes for \$1.00 at all dealers or The Catarthozone Company, Kingston, Ont.
