Kingsey Falls Mill Re-opens

New Group Buys Out Old Plant

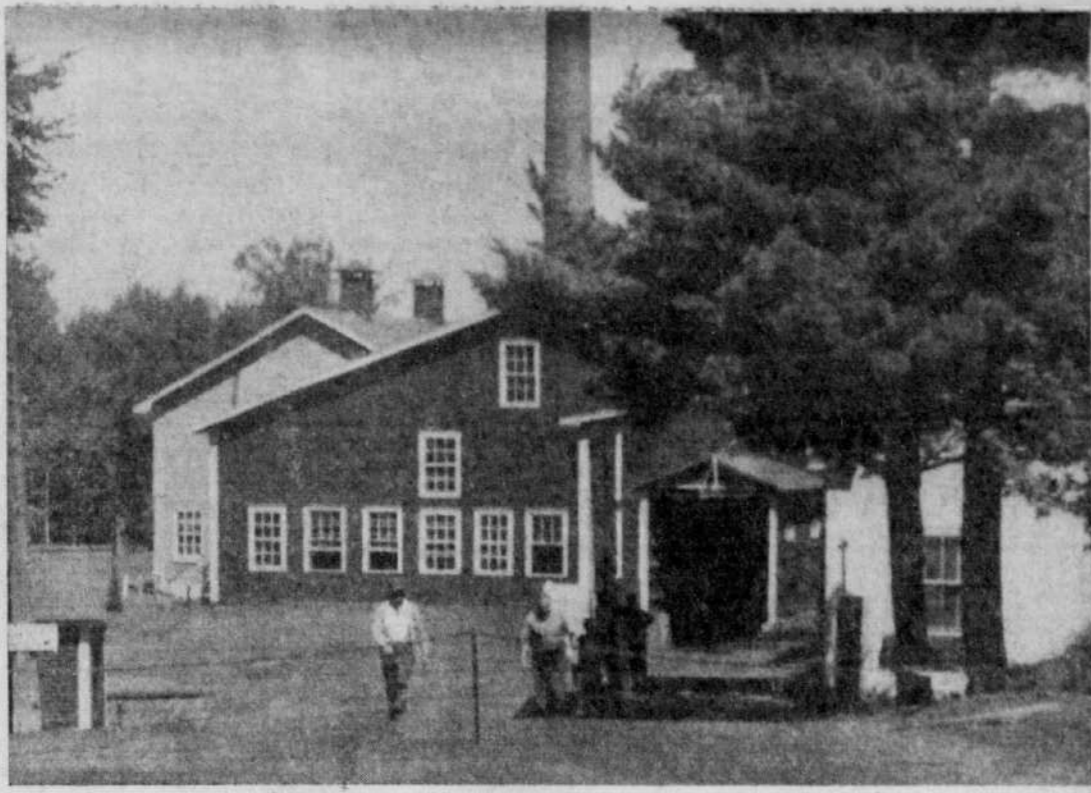

KINGSEY FALLS (Special)—Six months ago this Drummond County village was threatened with becoming a ghost town following the decision of the owners of the Stirling Paper Company Limited to close their plant and move the equipment to Toronto.

Today the people of the village of 500 are rejoicing. Several Canadian and American investors, under the name of Kingsey Falls Paper Inc., have purchased the buildings and property from the Stirling Paper Company and are contemplating manufacturing fine-grade paper, it was learned.

Mechanics and engineers will be working round-the-clock replacing some of the old machinery with up-to-date modern equipment. Twelve men have been hired to date. Work has already started.

The management expects to start production around Nov. 1. Sixty of the former employees of the Stirling Paper Company will be placed on the pay roll.

Within two years the potential pay roll will be 200, when the new firm expects to enlarge the present mill, it was learned.

Opens In Washington

Top-Level Canada-US Conference On Trade Give-Aways Scheduled

OTTAWA—High-level ministerial talks between Canada and the United States, projected last month when State Secretary Dulles had informal discussions here with Prime Minister Diefenbaker have been arranged to open in Washington, Oct. 7.

The Prime Minister is not expected to attend because he will be in Montreal to receive an honorary doctorate from McGill University. But he is to be in Washington later that month when he accompanies the Queen as senior adviser and would then have chance to discuss any outstanding matters with President Eisenhower.

The talks, involving the finance, foreign, agriculture and trade ministers of both countries arise from criticism by the prime minister of U.S. trade policies, especially its wheat-give-away program, which Mr. Diefenbaker described as a "fire sale."

TALKS NOT NEW

The Washington talks will mark the revival of a joint ministerial committee established by the two countries in 1953 for the private settlement of developing problems before they lead to public recrimination.

Canadian ministers likely to attend are Finance Minister Donald Fleming, Agriculture Minister Gordon Churchill and Justice Minister David Fulton, who deputizes occasionally for Mr. Diefenbaker in the Prime Minister's second role as external affairs minister.

U. S. representatives likely will be Mr. Dulles, Commerce Secretary Weeks, Treasury Secretary Anderson and Agriculture Secretary Benson.

Diamond Raid

CAPE TOWN, Sierra Leone—(Reuters)—Diamonds worth \$20,000 were stolen by unlawful diamond miners who stormed the biggest diamond plant in this British West African colony last weekend.

Early Canadian Eskimos Camped Within 500 Miles Of North Pole

OTTAWA—A Defence Research Board expedition has discovered evidence that early Canadian Eskimos penetrated the frigid Arctic to within less than 500 miles of the North Pole.

The expedition, headed by Dr. Geoffrey Hattersley-Smith, glaciologist with DRB's geophysics section, found remains of Eskimo habitation some 20 miles north of Hazen Lake near the tip of Ellesmere Island. The lake is about 1,500 miles north of Churchill, Man.

Known as Operation Hazen, the expedition spent 3½ months this summer studying a 3,500-foot ice cap north of the lake. Further glaciology and weather studies will be made this winter by a four-man team now at camp on the shore of the lake and by a larger team next summer.

Dr. Hattersley-Smith said in an interview that a ring of stones used by Eskimos to weigh down a tent made of skins and whale bones was found near the glacier at an elevation of 2,000 feet.

"The stones are the most north-

Detectives Smell Out This Thief

JOHANNESBURG—(Reuters)—Detectives with a keen sense of smell have arrested a man for the theft of more than \$1,000 worth of perfume, and recovered most of the stolen goods.

Called to a perfume factory after a robbery, they searched the area till they found a garbage can into which perfumed face powder had been thrown.

Sniffing delicately, they were able to detect a trace of perfume in the air. In one direction it grew stronger.

From there on it was easy—their sniffs led them to a room stacked with perfume.

Absentee Jailed

OSTRAVA, Czechoslovakia—(Reuters)—A Slovak miner, Jaroslav Neumeczek, has received a four-month jail sentence for absenteeism in a campaign against a wave of malingering said to be sweeping Czechoslovakia.

Effective Labor Laws Aim Of PCs — Starr

OTTAWA (CP)—Federal labor legislation is being reviewed with an eye on more effective application, Labor Minister Michael Starr said Thursday.

The new minister, in his first Labor Day message to the public, said this applies particularly to the labor code that regulates industrial relations for some 400,000 workers under federal jurisdiction.

Mr. Starr also said that the new Progressive Conservative government intends to see that organized labor is adequately represented on government boards dealing with matters of direct interest to labor.

Dealing with prospective legislation and programs of his department, Mr. Starr said: "Nothing which has proven of benefit to Canada will be disturbed. However, the legislation and the programs of the department are being reviewed."

"An example of this is the review of the Industrial Relations and Disputes Investigation Act (the labor code) now being arranged by my department, so as to make it more effective in its application to industries within federal jurisdiction."

Mr. Starr also said some programs of his department will be intensified, and new ones will undoubtedly be introduced.

He added: "Such problems as the difficulty of people past 40 getting employment, rehabilitation and employment of the disabled, discrimination in employment because of race, color or creed and unemployment resulting from cold weather have concerned me for some years now."

Canada Offers Open Sky

OTTAWA—Prime Minister Diefenbaker has expressed the hope Russia will have second thoughts about her rejection of a Western disarmament proposal that would have opened East-West skies for inspection purposes.

Mr. Diefenbaker, who as government leader and Canada's external affairs minister made two statements on the matter Thursday, said he regrets Russia has "seen fit to disallow" the proposals. He hopes the U. S. S. R. will revise its attitude.

Included in the proposals was an offer by Canada to open the skies over the whole of her territory if Russia would do the same in the interests of disarmament and world peace.

The proposals were made jointly in London by the United Kingdom, the United States, France and Canada. Western members of the United Nations disarmament subcommittee, which includes Russia.

Canada's aerial inspection offer, her major contribution to the disarmament scheme, gave Russia alternatives.

ALL OF CANADA

The first included every bit of Canada's territory, all the continental U. S., including Alaska and the Aleutian islands, and all the Soviet Union. Mr. Diefenbaker's statement was the first disclosure that Canada's willingness to share in the plan extended so far.

Earlier reports had her offer limited to opening up the Arctic areas.

The second alternative, should the Russians reject the first, was to open up the Arctic areas of Canada, the U. S., Denmark, Greenland, Norway and the Soviet Union.

Quebec Asks Jobless Aid

QUEBEC—Alderman Joseph Cossette appealed for federal government help Thursday to ease a serious unemployment situation here.

He said there are about 6,500 persons out of work—almost 2,000 more than at the corresponding time last year.

"Many unemployed persons have been unable to pay rent for five or six months and they will have to face famine if they remain without work for several more months."

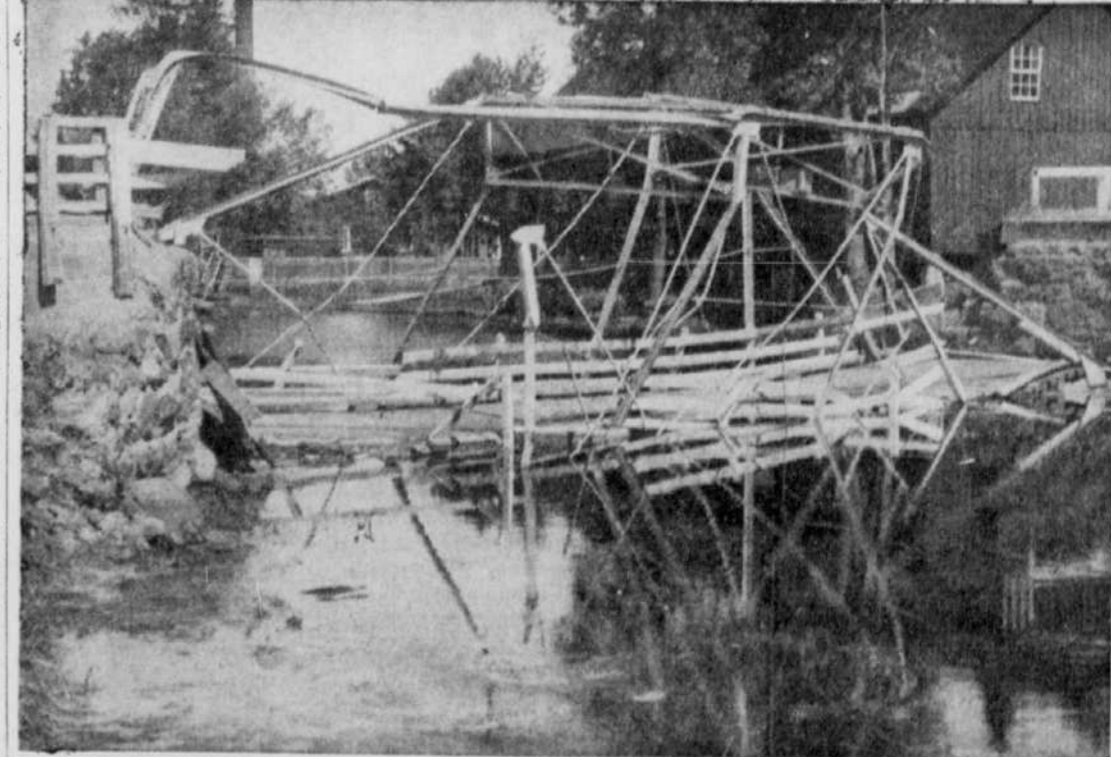

Alderman Gaston Flibotte blamed the influx of immigrants for the situation.

"If there now are 163,000 unemployed persons in Canada it is because too many immigrants came in last year and took the jobs of our workers."

Publisher Retires

TORONTO—Harry G. Kimber retired Thursday as president and publisher of The Globe and Mail.

He will be succeeded by Oakley Dalgleish, 47, who moves up from the twin posts of editor-in-chief and assistant publisher to become editor and publisher.

Too Heavy—The 30-ton weight of a truck and its load of gravel was too much for this five-ton limit bridge at Kingsey Falls. Driver Elie Denault, employee of Drummond Marchand of Kingsey Falls, escaped when the bridge gave way, leaving the truck suspended from the left end of the structure.

Effort-Wasting Say Reds

LONDON—(AP)—Russia threatened today to walk out of the United Nations disarmament subcommittee, declaring that further talks would be "effort-wasting."

After five months of negotiation, the bargaining machinery set up by the UN General Assembly to work out a first-stage disarmament agreement appears on the verge of collapse.

The next move appears to be clearly up to Moscow.

The five subcommittee members—the United States, Britain, Russia, France and Canada—have set another meeting here for Tuesday, but it is feared that this 154th meeting of the group could mean the breakup of the London talks and the drafting of a report to the UN assembly admitting failure.

Thursday's Soviet rejection of the comprehensive Western "package plan" for suspending nuclear testing and cutting armed forces came as somewhat of a surprise to many circles. Soviet delegate Valerian Zorin did not even resort to the usual tactic of asking for time to consult Moscow.

STILL HOPEFUL

Just before taking a midnight plane to Washington American delegate Harold E. Stassen still insisted "we are closer together now than we have been for the last 11 years," and refused to give up hope.

'Legalized Polygamy' Seen In U.S.

WASHINGTON—(AP)—A Philadelphia court official said Thursday there is "a gradually swelling tide" of a sort of legalized polygamy in the United States.

Thomas P. Monahan, researcher for the Philadelphia Municipal Court, said in a paper for the convention of the American Sociological Society:

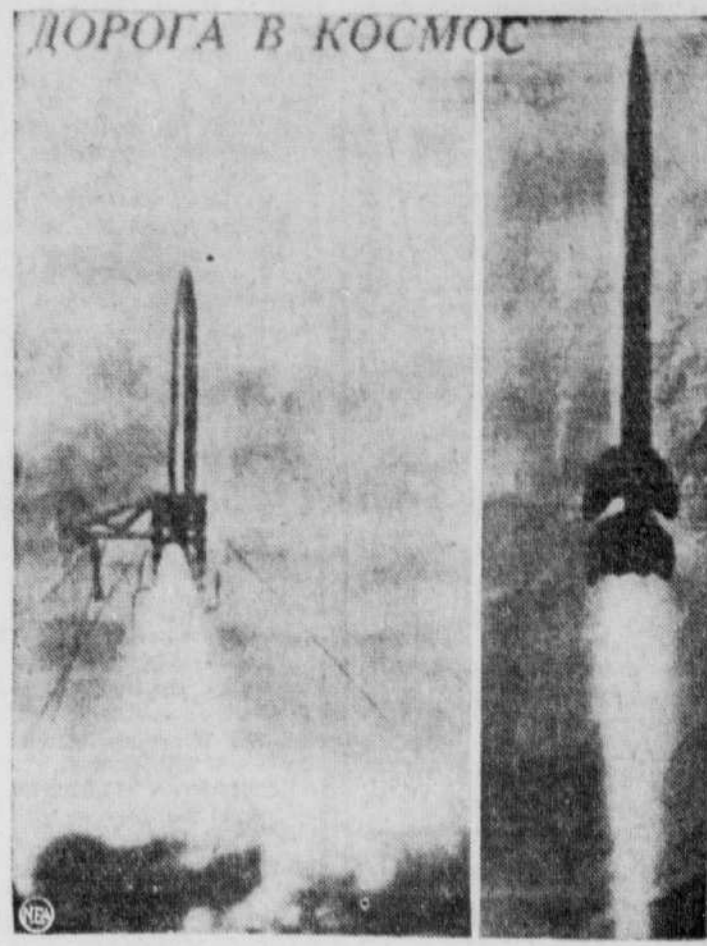

"For a sizable minority of the population, 'sequential polygamy' within the law is an observable practice in the United States, and our divorce rate is being compounded by a repetitiousness of divorce among a divorce-prone population group."

In another paper, Gerhard E. Lenski of the University of Michigan said that the Roman Catholic population in the United States appears to have increased more since 1920 than the church claims.

Lenski estimated that Catholic Church membership increased from about 19,100,000 in 1920 to some 36,200,000 at the end of 1954. The Official Catholic Directory of 1954 listed about 31,650,000 members.

RUSSIAN ROCKETS IN ACTION

US Claims It Has Answer To Russians

WASHINGTON—(AP)—The United States Army believes it has a proven answer to Russia's claimed intercontinental missile—an American missile, ready for production, which could hit key Soviet areas from advance bases.

The army's proposed counter-weapon is the Jupiter, an intermediate-range ballistic missile (IRBM) which soared 1,500 miles over the Atlantic Tuesday in a test flight from Cape Canaveral, Fla. Army Secretary Wilbur Bruker labelled the Jupiter "a spectacular success."

It is understood that only the defence department's secrecy lid on missile developments prevents the army from saying flatly that the Jupiter could be in production within 30 days.

Bruker said in Florida Thursday that the wording of the Soviet announcement last Monday of a successful test of a 5,000-mile missile indicated that the Russians were talking of a "research vehicle."

There have been no known successful U. S. tests of an intercontinental ballistic missile (ICBM.)

U. S. ADVANTAGE
The U. S. has an advantage in land bases—its own plus those in friendly hands around the world. A missile launched from Communist territory would have to travel thousands of miles to reach the U. S. itself.

A darker view of the American place in the missile race was presented Thursday by Senator Henry Jackson (Dem. Wash.) after four hours of closed-door testimony by acting Defence Secretary Donald Quarles and other officials before the congressional atomic energy weapons subcommittee which Jackson heads.

Jackson said all U. S. intermediate and long-range ballistic missiles, except the Jupiter, are behind schedule because of technical problems. He also said the number of both types of missiles proposed for production has been cut by money limitations imposed by the defence department.

\$5,400 Bag Said 'Bungled' Job

WOODSTOCK, Ont.—The possibility that three gunmen who pulled off Canada's first train robbery in 29 years bungled the job, was advanced Thursday as police and post office investigators disclosed the bandits netted only \$5,400 in cash.

Investigators said the three masked armed men who slashed open nine mail bags weren't able to find what they were looking for because it wasn't aboard. A payroll of money being transferred from a Toronto bank to Windsor was said to be the object of the trio's search.

Drug Sale Charges By Gov't

LONDON, Ont.—Charges will be laid against 127 drug stores in Canada for violating the Food and Drug Act by selling certain barbiturates and tranquilizer drugs without a doctor's prescription. Dr. C. A. Morrell of the department of health and welfare said Thursday.

Dr. Morrell said there was no evidence that the stores are trafficking in drugs.

Dr. Morrell and K. C. Hossick, director of the narcotics control division of department of health and welfare, said there is little evidence of a "very serious problem" of narcotic, barbiturate or tranquilizer drug addiction in Canada.

Dr. Morrell told the Canadian Association of Chiefs of Police convention here that "2,300-odd" drug stores were visited by inspectors of his department, who asked for barbiturates or tranquilizer drugs.

Five per cent of the stores sold the drugs to the inspectors. Where a sale was made a second visit was made. On the second visit, 50 per cent of the stores sold the drugs in the first instance, again sold them.

"There will be prosecutions against these stores," he said.

6 Boston Dailies Resume Printing

BOSTON—(AP)—Six Boston daily newspapers resumed publication today for the first time since a strike of 300 mailing room employees forced their suspension last Aug. 9.

The 5,000 employees of the newspapers went back to work Thursday night, after agreement on the salary issue was reached at a meeting Thursday between the publishers and representatives of the Mailers' Union.

Bourque Condemns Suggestion To Expropriate E.T.A.A.

Retention Of ETAA Essential To Survival As Agricultural Show

Provincial Minister of Lands, Forests and Hydraulic Resources, Hon. J. S. Bourque said in a brief public speech at the Sherbrooke Fair yesterday that he would "fight" any move on the part of the city to expropriate the Eastern Townships Agricultural Association.

Mr. Bourque was speaking at the Provincial Day banquet held at the arena yesterday noon for district members of the provincial government and members of the City Council.

He was supported in his remarks by Pierre Labrecque, director of the livestock division of the Provincial Department of Agriculture.

Mr. Bourque said that he thought the ETAA should be kept going, and should be supported, because "it has done, and is still doing a great service for the farmers of the Eastern Townships. If the ETAA was cut off, this fair, the Winter Fair, and many other activities would disappear as agricultural events."

"This," the minister declared, "would be a disaster."

"I will fight to keep the Eastern Townships Agricultural Association going, along with all its related activities."

Mr. Labrecque, in supporting Mr. Bourque's point of view, said "this region of Quebec is one of

the major beef cattle regions in Quebec, and indeed, in all of Canada. One of the main reasons it is such a prominent beef area is the fine work of the ETAA. My department, and the whole of Quebec, would regret very much to see the Association disappear."

Earlier in the banquet, Ald. Everett Nicol, speaking for Mayor Armand Nadeau, said that the city had no desire to run the fair, or any of the other activities carried out by the ETAA. "We are always ready to assist this fine Association in any way that we possibly can," he affirmed.

Other speakers at the banquet included Senator Jacob Nicol, who lauded the work of the ETAA. Col. E. Levesque, fair vice-president, and Fair President Colin Campbell.

Mr. Campbell thanked the Hon. J. S. Bourque for the generous aid he had so often given to the Sherbrooke fair, and the ETAA. Guests seated at the head table included Louis Codere, fair director; Ald. Carrier Fortin, Col. E. Levesque, fair vice-president; Ald. Felix Thibault, H. O. Routhier, assistant city treasurer; Denis Gerin, MLA for Stanstead County; Hon. J. S. Bourque; Colin Campbell; Ald. Everett Nicol, representing the mayor; M. T. Stenson, fair vice-president; Emilien Lafrance, MLA for Richmond-Wolfe; J. A. St. Marie, fair director; Frank Conklin, of Conklin's Midway; Pierre Labrecque, director of livestock, Provincial Department of Agriculture; Wes Nichol, fair director; W. G. MacDougall, honorary vice-president of the fair.

Monoxide Fumes Blamed In Death Of Truck Driver

One person died and two others were injured in separate accidents in the Eastern Townships yesterday.

Found dead at St. Adrien de Ham last night was Joachim Larivee, 35, a father of six children who was discovered by the Mayor of the Municipality, Raymond Gagne, and Achille Gagnon, a lumberjack, who had previously gone to get help after sighting Larivee's truck on a deserted road.

The victim apparently was asphyxiated by fumes from his truck and had been dead for 24 hours.

A verdict of accidental death was returned by Dr. Georges Letendre of Danville. Sgt. Eugene Morin and Det. Guy Dupont investigated for the Provincial Police.

Reported in fair condition this morning at Hotel Dieu Hospital is three-year-old Theophile Chagnon, of Racine, who was struck in front of his home yesterday while crossing the street. He received a fractured left hip, lacerations to the forehead and a probable skull fracture.

In La Providence Hospital, Magog, is Romeo Blanchard, 56, 6403 2nd Ave., Rosemount, who was injured in an accident on the highway near Orford yesterday. Police had not received a full report on the accident this morning.

WATERVILLE —

Recent guests at the home of Mr. and Mrs. Arthur Bell were Mr. and Mrs. Harry Davis and daughter, Doris; Mr. and Mrs. Harold Maskrey and daughter; and Mr. and Mrs. Clifford Goyette and daughter, all of Worcester, Mass. Other visitors at the same home were Mr. and Mrs. Rodolphe St. Laurent of Quebec City, Mr. and Mrs. Hufferges and friends from St. Louis, Missouri; and Mr. and Mrs. Charles McLaughlin and daughters, of Worcester, Mass.

Fine Weather Aided Closing Day Attendance At Sherbrooke Fair

Aided by clear sunny skies, attendance at the closing day of the 72nd annual Sherbrooke Fair soared yesterday well over the 9,000 mark.

Fair officials said that there was 5,400 paid admissions, and at least 4,000 children were admitted free of charge for the special Children's Day program. Last year, closing day attendance was 4,181.

Secretary-Treasurer of the fair, E. J. Lamontagne, said that total attendance for the six days of the fair was 57,600, up 2,800 from last year's cumulative figure of 54,800.

Grandstand attendance for George Hamid's final two per-

formances of "Havana Holiday" last night was 1500, down from last year's closing night total of 1579.

For the children, it was a glorious closing day. At Kiddieland Conklin's Midway, they thronged to the many rides, overflowing into the midway. Children's prices were in effect all day.

Some 600 children yesterday afternoon crowded the grandstand to watch the calf club and horse parades, and several acts from the grandstand show.

On the grounds, interest yesterday centred about the maple products exhibit. Judges and fair officials say that this year, maple products exhibited at the

Sherbrooke Fair represented one of the best maple displays in the province, and probably in the Dominion.

Yesterday was Provincial Day at the Sherbrooke Fair. Invited guests included Hon. J. S. Bourque, Minister of Lands, Forests and Hydraulic Resources; Senator Jacob Nicol, representing the Legislative Council; Emilien Lafrance, MLA for Richmond-Wolfe; and Denis Gerin, MLA for Stanstead, representing the Legislative Assembly; and Everett Nicol, city alderman, representing the city. They, and other provincial and municipal officials were the guests of honor at a banquet tendered by the ETAA in the arena yesterday.

The final drawing for \$1,000 in cash last night was won by Armand Tetreault of Rock Forest.

In the horse and calf club parade held in front of the grandstand yesterday afternoon, the Conklin Trophy for the best display in the parade was won by Roger Fortier of St. Jean Baptiste, exhibiting Belgians. Fortier also won the ribbon for the best display of the Belgian breed. Other best display ribbons went to Rosario Bernier, Windsor Mills, Percherons; and Winston Duffy, South Durham, Clydesdales.

In the cattle parade held in the arena yesterday afternoon, the Conklin Trophy for the best display of cattle was won by George Gladu of Sutton, exhibiting Holsteins. Mr. Gladu also won the ribbon for the best display of the Holstein breed in the parade. The ribbon for the display of Canadian cattle went to O. A. Fowler of Kingsbury; for Jerseys, to Mrs. A. R. Virgin, North Hatley; for Ayrshires, to Doug Johnston, Stanstead; and for Guernseys, to P. M. Fox, of Foster.

In Canadian cattle judging completed yesterday in the arena, O. A. Fowler of Kingsbury swept nearly the whole class. He won both the male and female grand championships, and had the male junior champion, the male senior champion, the female reserve senior champion, the female junior champion, and the female reserve grand champion.

The reserve male grand championship went to H. P. Biron of Notre Dame du Bon Conseil, who also took the male senior reserve championship.

Jean Paul Verpaest of Ayer's Cliff won the male reserve junior championship, and the female reserve junior championship.

In Ayrshire judging completed yesterday, the female grand and senior championships were won by Roger Beaudry of Granby, Tom Ride and Sons, Massawippi took the reserve grand and reserve senior championships, while Robert Johnston of Stanstead took the junior championship. The reserve junior championship went to Yvan Gaudreau of La Patrie.

The St. John Ambulance post on the fairgrounds reported a busy closing day yesterday. Up until 5 p.m., a total of 11 cases were handled by the station. None of them was serious.

Bromptonville Ordered To Reduce Power Plant Value

Declaring that the capital value of power produced by a hydraulic installation could not be considered as taxable for municipal purposes, Judge Philippe Marchand has ordered the Town of Bromptonville to reduce the overall valuation of the power dam in that municipality owned by the City of Sherbrooke from \$491,914 to \$131,714.

The property owned by the City of Sherbrooke as listed on the Bromptonville valuation roll comprises three items: Land, \$11,711; power, \$368,868; buildings, \$21,334.

The power item was sub-divided into: Wooden crib, \$75,000; stone walls, \$14,868; piling, \$6,000; flashboards, \$3,000 and hydraulic power, \$270,000.

In its appeal, the City demanded that the power valuation be reduced from \$368,868 to \$98,868, as the hydraulic power was not taxable.

In the notes accompanying his judgment, Judge Marchand said the case was unique in that it was based on municipal matters and not from commercial or other points-of-view.

He quoted article 485 of the Cities and Towns Act which said that "It is the duty of the valuers to make, each year, at times and in the manner ordered by the council, the valuation of taxable property of the municipality, according to its real value."

Article 488 of the same act, which specifies what are taxable properties, reads as follows:

"Taxable immovables in the municipality consist of the lands, the buildings and plants which are erected thereon, and all improvements made to them, as well as the machinery and accessories which are immovable by

destination or which might be if they belong to the proprietor of the undertaking."

The City maintained that the item hydraulic power, which represented the capital value of the power developed at the site, was not subject to municipal taxation and that it be stricken from the valuation roll of the Town of Bromptonville, a view which was upheld by the judge.

The City was represented by Armand Rousseau, Q.C.

Farm Building Is Destroyed At Moe's River

MOE'S RIVER — (Special) — A fire of undetermined origin destroyed a barn, livestock and equipment belonging to Reginald Hughes early yesterday afternoon.

At the time of the outbreak the premises were vacant and neighbors pitched in to fight the blaze which started about 1:30 yesterday afternoon.

Destroyed in the fire were 14 calves, one bull, two pigs, baled hay and straw and some grain, along with implements stored in the barn and tool shed.

The house and garage were not affected by the fire. Loss was partly covered by insurance.

U. N. Record Defended At Scotstown Rally

SCOTSTOWN — Continuing his speaking campaign for the Sept. 18 provincial by-election, Claude Gosselin, of East Angus, Union Nationale candidate, and his supporters addressed an enthusiastic rally in the Town Hall here last evening, at which the provincial and county issues at stake in the campaign were discussed at length.

The candidate himself spoke only briefly, limiting himself to a personal appeal to the voters for their support and asking the electors "to correct the mistake" they had made in the last provincial general elections when they returned a Liberal member, Dr. Fabien Gagnon, whose death last June created the vacancy.

In appealing for the support by the English-speaking residents of the county for the Union Nationale candidate, Mac Stearns, of Lake Megantic, Progressive Conservative candidate for Compton-Frontenac in the last federal election, deplored the raising of the race cry in the present campaign and in the federal campaign earlier this summer.

"But we are not here to discuss federal policies," he said. "We might have another chance to do that in the near future. "What we must consider in the present campaign is what the Government of Premier Duplessis has done and can do for the Province of Quebec and the County of Frontenac.

"I believe that no man has done

more for this Province than has Maurice Duplessis," Mr. Stearns continued, "and I believe that by returning a Union Nationale member, who can work in co-operation with Eloi Guillemette, member for Frontenac, much can be done for the mutual benefit of the two counties.

"Speaking for the English Protestant minority, I can say that never have we received better treatment than we have under the present Government."

Answering Liberal charges that there had been a movement from the farms to the cities under the Union Nationale, Eloi Guillemette declared this could not be regarded as a catastrophe.

Farming methods had improved and each farmer was able to provide for the needs of a larger number of city dwellers. Quebec still produces surplus of agricultural products and the industrial development of the province would provide a great, stable market at home, rather than leave the farmers dependent upon uncertain exports.

The accomplishments of the Union Nationale in the field of farm loans, drainage, rural electrification, maintenance of municipal roads, education and health were referred to by Armand Russell, MPP for Shefford.

The Happy Holiday Driver

Motorists who concentrate on making their Labor Day weekend pleasant stand a fair chance of coming through it alive, according to R. B. Baillie, Commissioner of Motor Vehicles for the Province of Manitoba and chairman of the Canadian Highway Safety Conference's Committee on motor vehicle administration.

The happy, well-adjusted driver is usually a safe driver, he observes, but being happy does not mean being slap-happy. The driver who gets his cheer from the bottle or who gets kicks from showing off has only a shallow appreciation of happiness.

The motorist who welcomes a holiday outing as a pleasant relaxation takes pains to make it enjoyable. He never makes the mistake of starting the trip while he is tired, nor does he allow

himself to become overtired during it.

The happy driver has learned to avoid monotony. When even faintly dulled by boredom he knows that a pause for relaxation and a cup of coffee will restore his good nature and keep him alert.

When this happy driver is the father of a family, he protects the children from the dangers of falling out by keeping the car doors locked.

Never does he lose his temper. Knowing that he himself can make mistakes, he refrains from bawling out other drivers.

Nor does he let himself become impatient. In a moment of impatience the ill-adjusted driver has been known to swing out of line and accelerate himself to death on the wrong side of the road.

Republicans On The Wane

Democrats in the United States are jubilantly looking forward to major gains in the mid-term Congressional elections next year following their upset victory in Wisconsin this week. Chances are that the Democrats, who already control both the Senate and the House of Representatives, will pick up even more seats.

The Wisconsin victory, in a by-election to fill the late Senator Joseph McCarthy's seat, was an upset for two reasons. The state has not elected a Democratic Senator since 1932. The Republican candidate, former governor Walter J. Kohler, was a popular and respected Eisenhower Republican who had twice defeated the Democratic candidate, William Proxmire, in elections for the governorship.

Republicans blame dissension within their party for the defeat. But it goes deeper than that.

The Republicans are a divided party largely because they have no strong leader to keep them together. President Eisenhower, who won re-election to the White House despite a Congressional victory for the Democrats, is not a professional politician.

That is one reason for his personal popularity, but it is also one reason why his party is leaderless.

Under the two-term limit imposed by a jealous Congress largely because of the late Franklin Delano Roosevelt's four straight presidential victories, President Eisenhower cannot run again. The top men in the Republican party, Nixon, Knowland, Knight and others, are therefore scrambling for the nomination in 1960.

The President's authority is being undermined by his own lieutenants. Unable to wield political power like a club, Eisenhower is lacking in the sharp political understanding that is necessary to persuade his fellow Republicans to work with him.

Eisenhower says that he is disappointed greatly in the record of the Congress in 1957. Much of his program has been shelved, watered down or beaten. The people seem to be disappointed too, but their disappointment is directed at Republican leadership as a whole. Wisconsin's vote is an indication of what this may mean for party fortunes.

Noise

Rome has become aroused over its street noises. The act of an hotel owner, his accustomed bearing described as "polite, calm and peaceful," has brought realization of what noise can mean. This ordinarily peaceful man shot two youths recently, killing one and wounding the other, when they refused to stop testing a motorcycle outside the hotel one night. They were roaring up and down at full speed with the exhaust open and it was not for the first time.

Rome's newspapers have in consequence demanded an all-out war on noise-makers, particularly "the savages of the road." They speak of trolley buses, street cars, trucks and motor scooters roaring over the roads and braking with nerve-shattering grinds. A little self-discipline and the noise, the papers urge, would be greatly reduced.

Rome's noise situation may be bad

but dwellers in millions of homes in Canada and the United States have their share of night clamor much of which is unnecessary. And it does not require a testy individual to conclude that "there should be a law" against cars without mufflers and noisy trucks.

Sleep tests have proved the potency of noise in breaking rest. It is more difficult to gauge in daytime waking effect on nervous persons in particular and the population in general. But this is probably greater than is usually recognized.

When half the hospital cases in the United States and Canada are in the mental column, as is true today, the time has come when there should be serious study of the effects of noise. Limitation of nerve-racking sounds might help prevent a great deal of mental trouble. Experts and law-makers can help. So, too, can the general public.

Press Comment

COUNTING THE DAYS

(Ottawa Journal)
It's just a matter of days now — week after next the schools will emerge from their Summer hibernation and some millions of young Canadians will return to their classrooms. There is a tradition that boys and girls dislike school and approach with dread and trepidation the renewal of their studies. We suspect that is no more than a legend. Everybody likes a holiday but 10 solid weeks of vacation is a good deal for the ordinary active youngster.

Hosts of teenage boys spend the long vacation acquiring their first knowledge of business, running errands for a business office, (remember the chap who was office boy for an attorney's firm and polished the handles of the big front door so diligently that he came to be ruler of the Queen's Nave?) delivering parcels for the corner store, juggling with bottles and cartons in the supermarkets, carrying newspapers, and it is good for them. They begin to learn that money they earn has a special significance — and that money

does not grow on trees. They learn to work in harness and to accommodate themselves to office routine and discipline. Unfortunately there are few such opportunities for their sisters, and come mid-August and the girls begin to find the beach an old story or Grandfather's farm losing its novelty.

The schools today are pleasant places, the hours are not too burdensome, they have an attractive social life of their own, and we think most students will return to them with eagerness. As for the youngsters registering for the first time they are entering upon the great adventure of life and they will be happy about it.

ON HAND SIGNALS

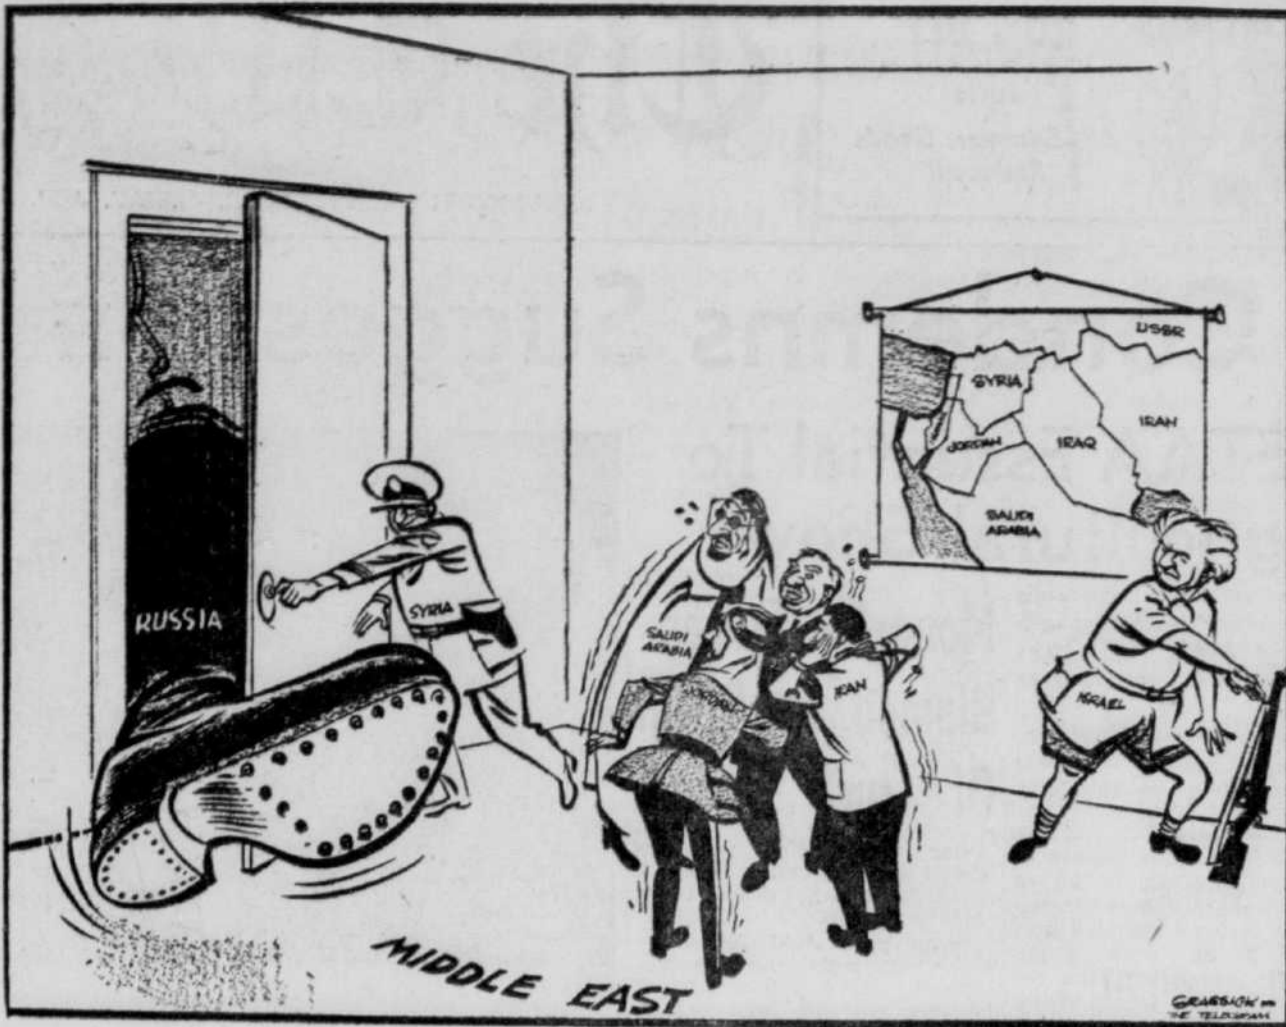

(Brandon Daily Sun)
The modern desire to avoid physical exertion and substitute labor-saving devices as much as possible sometimes backfires, and this might well be the case with blinking turn indicators on modern cars. At least, that is the opinion of Jackson G. Flowers, director

of public safety for Miami, who says that an eight-month survey has indicated that these indicators are the cause of thousands of accidents. He says that many blinkers cannot be seen in daylight, particularly in bright sunlight or if they are dirty. This is a particularly hazardous condition in the case of a car coming in the opposite direction and about to make a turn.

"Our replacement of the old hand signals with blinker lights may have injected a dangerous and so far unrecognized menace into our traffic picture," Mr. Flowers said. This traffic safety expert has raised a question that motorists should think about. Perhaps, the safest method of signalling turns in daylight is by the old hand method, saving the blinkers for inclement weather and hours of darkness says the Edmonton Journal.

Adenauer Vs. Ollenhauer

Germany Votes For Men, Not Issues

By LEON DENNEN
BONN, Germany — West Germans will vote Sept. 15, free — for the second time since Hitler seized power in 1933 — from pressure of dictatorship or foreign occupation rules.

The Bundestag elections will thus mark another step in the democratic development of the Bonn Federal Republic.

Moscow recognized the historic importance of the occasion by dispatching Nikita Khrushchev and Anastas Mikoyan to warn Bonn's citizens that Chancellor Konrad Adenauer's re-election would further impede Germany's reunification.

But even the Russians' threats of a nuclear war made little impression on the anti-Communist West German man-in-the-street and still less on the politicians of the two major parties. The leading Christian Democratic party and the opposition Social Democrats consider any Soviet support as an electoral kiss of death.

With the West German rump state still riding the wave of prosperity, it is primarily personalities — 81-year-old Adenauer versus 56-year-old Socialist chief Erich Ollenhauer — rather than domestic or foreign issues that will decide

the outcome of the general elections. This goes even for German unity. The politicians regard re-unification a "burning issue." But the ordinary West German, in the midst of his unprecedented economic well-being, contemplates it with a cool detachment.

Twelve years after Hitler's defeat, West Germany has emerged from the abyss of war destruction to assume a dominant if not the dominant place in non-Communist Europe.

There is a striking difference between the despairing nation I saw in 1945 and the busy and bustling Germans who will go to the polls in September.

Never in their checkered history have Germans been more prosperous than they are today. The Ruhr industries and commerce are booming. Taxes have been cut and industrial insurance improved. Adenauer's new pension scheme has reduced the fear of inflation for the aged. Wages have risen and low-cost housing continues to break new records.

With these gains — seen against a background of industrial expansion — the slogan of no economic and social ex-

ADENAUER NO EXPERIMENTS

periments should work in favor of the ruling Christian Democrats. Its effectiveness can be judged by the fact that the opposition Social Democrats have been forced to echo it.

The difference between the Christian Democrats and Social Democrats on key issues of domestic and foreign policy have become very small indeed. There is only one exception: Ollenhauer would agree to Germany's withdrawal from NATO as the price for a U.S.-Soviet agreement on German unity.

In the last elections, held in Sept. 1953, Ollenhauer opposed German entry into NATO. However, he told me, today the Socialists would consider Bonn's withdrawal from NATO only if conditions for German reunification were agreed on by the Western powers and Russia.

Thus, if the Russians considered Ollenhauer's Socialists somewhat of an asset when they were strongly against NATO they have since changed their mind.

With Gomulka in power in Poland and growing unrest in the satellites, the Kremlin fears the dangerous attraction which an anti-Communist Social Democratic regime in Bonn would exert on the restive people behind the Iron Curtain.

On Sept. 15, the average German voter will therefore vote for or against Chancellor Adenauer and not on issues of foreign and domestic policy which he does not understand well and about which he cares little.

JAPANESE QUAKE

Yokohama, principal port of Japan was almost completely destroyed by an earthquake in 1923.

Logrolling, a term applied to the practice of some members of Congress of trading votes for each other's favorite bills, comes from the pioneers' custom of helping one another cut down trees and rolling up the logs for building. The congressional practice is often criticized because some bills pass which serve only a small number of people.

The youth, in addition to being fined, has lost his driver's licence for six months. It hardly seems sufficient.

CRYSTAL BALL PLAY SUCCEEDS

South's jump to three hearts was quite an overbid but I have seen lots worse game contracts brought home successfully.

West opened the four of spades and East played the eight. South won with the jack and led a low heart to dummy's king.

At this point East became clairvoyant. He played the three of hearts just as if he had no problem in the world.

A second heart was now led from dummy and East played the nine. No one can blame South for going wrong right here. East could have a perfectly sound opening bid without the ace of hearts so South played the ten from his own hand. West made his jack and East's three aces were left to set the contract.

If East had played his ace of hearts on the king, South would have made his contract. He would have been unable to get to dummy to finesse against the jack and willy-nilly would have had to lay down the queen, whereupon the jack would have fallen.

I called East's play clairvoyant because he had no way of knowing that South was going to play the trump right back. For all East could tell South might have needed that entry to dummy for a club or diamond lead and East's duck might have cost him the game instead of saving it for him.

I do want to give East one great credit. He did not double four hearts with his three aces and king. If he had done so I am sure that South would have played East for all three aces and wrapped up his contract.

THE BALD-HEADED MAN
(Calgary Herald)
—We would miss the bald-headed man if he vanished. The smooth and stately dome reflecting our curious glances seemed the aloof and gleaming repository of a vast erudition. It stood for the tidy mind in the tidy case, the shiny symbol of wisdom and dignity and respectability and hard cash.

And on occasion, if imagination led in that direction, the cold fact of baldness might even appear as attractively sinister. It was the mark of the powerful somebody as opposed to the nonentities who boast abundant skull foliage. There is a deal to be said for a fine head of hair but if the bald-headed man does disappear, his shining example will be missed.

Federal Aid For Wheat Surpluses

OTTAWA—Huge amounts of federal cash may roll out to hard-pressed Prairie farmers this fall if Parliament agrees to a Progressive Conservative government proposal to provide producers with cash advances for farm-stored wheat.

Prime Minister Diefenbaker announced after a cabinet meeting Thursday he will press ahead with his election promise to grant farmers advance payments on the grain they find difficult to sell. He said he will bring his cash advances proposal before Parliament soon after it opens Oct. 14.

Meanwhile, he renewed the old system of government-guaranteed loans with farm-stored grain as security, holding the interest rate at five per cent despite the general rise in rates in the last few years.

Emphasizing that Canada has a mountainous wheat surplus to be disposed of as quickly as possible, Mr. Diefenbaker said he realizes that provision of bank loans does not meet all the problems of the Prairie economy. But he was proclaiming the bank loans legislation as a "stop-gap measure" to help farmers get their hands on some needed money until "Parliament can act."

organ, Pravda, meanwhile declares:

"The work of many years of the UN disarmament commission and its subcommittee, whom the general assembly had charged with the task of working out an international agreement on the most urgent and vital problem of the age has so far proved fruitless and failed to produce any positive results."

"The work of the subcommittee actually amounts to effort-wasting."

The Pravda editorial, broadcast by Moscow radio, indicates that the Russians will demand a new bargaining setup.

OTHER COUNTRIES
"Apart from the Soviet Union," says Pravda, "the subcommittee is composed of countries whose ruling circles are not concerned with disarmament."

"These four countries — the U.S.A., Britain, France and Canada — play a leading part in the aggressive North Atlantic bloc. At the same time entire continents — Asia, Africa and Latin America — are not represented."

The Communists — both the Russians and Red China — were quick to pin the blame on the U.S. for the failure of the talks, obviously in a bid for world opinion.

Civil Rights Bill Clears Congress

WASHINGTON.—(AP)—The first civil rights bill to pass the United States Congress in more than 80 years went to President Eisenhower today.

The Senate completed congressional action on the compromise measure late Thursday night after 39 hours of continuous session, passing it by an overwhelming vote of 60 to 15.

The end of the months-long battle over civil rights came two hours after Senator J. Strom Thurmond (Dem. S.C.) ended a record-setting filibuster against the bill. Thurmond held the floor for 24 hours and 19 minutes.

Rev. M. Seeley Theftford Mines Appointed Canon

THEFTFORD MINES — Rev. M. H. W. Seeley, rector of St. John the Divine Church here, has been named a Canon of Holy Trinity Cathedral of Quebec by Archbishop Carrington.

The honor was conferred on Canon Seeley in recognition of his long years of service in the diocese, a service which culminated two years ago in the building of St. John's fine new church and parish hall.

The appointment fills a vacancy left when Canon John Comfort of Magog was made Archdeacon of Gaspe, succeeding Archdeacon T. R. Matthews, who has been named rector of St. George's Church at Lennoxville and Archdeacon of the Eastern Townships.

Special Collection Roll For The Year 1957
Re: Rental, Poll, Professional, Business Taxes And Licenses

Public notice is hereby given to all persons, that the Special Collection Roll for Rental, Poll, Professional, Business Taxes and Licenses for the year 1957, made in virtue of By-law No. 819 of the City of Sherbrooke, has been completed and is deposited at the office of the undersigned, at the City Hall, where all persons liable for the payment of the sums therein mentioned are requested to pay the amount within twenty days following the publication of this notice.

Given at Sherbrooke this 28th day of August 1957.
PIERRE BACHAND, C.A.
Treasurer of the City.

New Communications System

INSPECTION — City officials visited the Belvedere street garage yesterday to inspect the two-way radio system linking ten city vehicles to a central dispatching point. Seen above are Charles Langlois, director of services; Leo Lemieux (at the wheel), line department supervisor; Gaston Masse, superintendent of the Gas and Electricity department; Pierre Bachand, the city treasurer, and Ald. Carl Camirand, chairman of the Gas and Electricity committee.

A private mobile two-way radio system which keeps vehicles of the city's Fire Department and Gas and Electricity department in constant communication with a central dispatch point went into use yesterday.

Five of the Fire department's vehicles, including Chief Percy Donahue's car, and five of the repair and maintenance units of the Gas and Electricity department are equipped with two-way radio-telephones linking them to the central dispatching point located in the city's Belvedere street garage. This base station is connected by land lines with the transmitter located at the base of the illuminated cross, high up on a hill along the road to Rock Forest. The system's antenna is mounted on the illuminated cross.

The mobile system was installed and is maintained by the Bell Telephone Company.

From mobile-equipped vehicles, fire-fighters can receive instructions or transmit reports to headquarters from any part of the city. Meanwhile, repair and maintenance units from the Gas & Electricity Department can maintain contact with their headquarters and be dispatched instantly to the scene of an emergency, should such emergency develop.

CHIEF PERCY DONAHUE is shown in his car as he was making a test call over the Bell two-way radio system which went into operation yesterday.

In Memoriam

HASTINGS — In fond and loving memory of my dear sister, Ella E. Hastings who passed away, at Man. sonville, Que. on Aug. 30th, 1955. Her suffering was great, Her sorrow was greater. But now she's at rest. With the Faithful Creator. Ever remembered by, SIS.

BOYCE — In loving memory of a dear husband, Barney, who passed away Aug. 30, 1956. The month of August again is here. To me the saddest of the year, The blow was hard, the shock severe. To part with one I loved so dear, I watched you suffer, heard you sigh. All I could do, was just stand by; I lived in hope, and prayed in vain, For God to make you well again. But he decided we should part, I watched you go with broken heart. No length of time could take away, My thoughts of you from day to day. Always remembered by his wife, RENA BOYCE. Cowansville, Que.

The Facts Behind Filter-tip Cigarettes

Scientists say it is the amount of tar and nicotine in cigarette smoke which has a serious effect on health.

But when you buy a package of filter cigarettes there is no way of telling the degree to which these impurities will be filtered out. Now, the latest laboratory findings, in September Reader's Digest, give you this information about 12 popular Canadian brands.

This article makes exciting—and hopeful—reading. One filter-tip cigarette now offers a 30% improvement in tar filtration... and 40% less nicotine in the smoke! Other improved filters are on the way.

This Reader's Digest article will be talked about from Coast to Coast. Don't miss it!

Also in the September Reader's Digest, 35 other articles of lasting interest... the best from leading magazines, newspapers and books... condensed to save your time. At your newsstand today.

Canadian Women To View Styles For Royal Functions

By The Canadian Press — Canadian women will be ahead of the fashion parade by the time the Queen and Prince Philip arrive at Ottawa in October, according to fashion experts.

Arthur Banks, a London couturier, is flying here with his collection of fall styles—some intended especially for Canadian women attending royal party functions.

His show will include models of woollen suits, tweed ensembles, fine wool afternoon dresses, combination silk and brocade suits and also rayon and silk cocktail dresses.

FORMAL GOWNS

Evening dresses, both short and long, are expected to catch milady's eye for such occasion as a royal reception or ball.

Scottish Yorkshire tweeds will be shown made up in companion weights often in blue allied to black. Several shades of green with grey and winter beige will also be modelled.

The Banks collection will feature his new coat suits in which finger-length coats in winter weight fabrics are worn with matching suits, dresses or contrasting skirts.

Semi-fitting suits have easy relaxed waists or jackets, bloused at the back. A number of classic suits will be modelled.

One is a mid-grey canvas tweed trimmed with dark grey velvet. This is worn with a straight tailored coat in the same

fabric, which features a half-belt inset just below the waistline. The Banks skirts are slim, designed with a back panel stitched to about knee-length. This is to allow easy movement and at the same time hide the slits in the skirt.

GRACEFUL LINES

Short afternoon frocks and evening dresses feature slender lines but an air of grace is given the wearer by a flared panel in the back.

Fabrics for evening wear are fine and sheer. One outfit, which is almost transparent, is made of rayon jersey, romaine chiffon and chiffon wool. Colors in these models are mainly black although mink shades and jade green are also popular.

For day wear, dress woools are featured in a light and fine material so that they can be easily draped. Colors range from pastels to dark sapphire and black.

Mr. Banks is also showing a few short evening dresses, about 14 inches above the ground, which are built over softly-bell-shaped underskirts.

Persian pink and turquoise brocade dress is a typical model, worn under a pink satin coat lined with turquoise.

Fashion Names Resemble College Football Yells

LONDON, September — Hoop-la, Skittle, Chia and Swing might sound like a college football yell or the words of a new Elvis Presley song, but they aren't either. They belong to the world of fashion.

They are the names chosen by some of Britain's top designers for their respective lines this Autumn. And they all add up to what might be described as the 'rear view look'.

As demonstrated at the current London showings, especially in British Woollen suits and dresses by Paterson, Lachasse, Worth and Cavanagh, it is a look that could be immensely flattering. It can hide figure sins that show up in more form-fitting clothes.

But it undeniably does demand good legs! Skirts are very narrow, a trifle shorter and extremely sleek.

The Skittle-line is Worth's name for his peg-top effect. It is achieved by drapery and cut and not, as in the past, by canvas and petticoats. Jackets are cut short at the hip bone and lines flow from shoulder to hem. And the cut is so easy you can move around inside!

Ronald Paterson calls his Chia-line, after a Chinese bronze of the Shang-Yin Dynasty about 1500 B.C. He interprets it strikingly in tiny-check, smooth British Woollens. Too, he has a stunning, shaggy, black and silver mohair three-quarter coat.

Lachasse calls his look the Swing-line. His curve starts at the neck and gathers itself well in below the waist at the back. In fact, many of his bloused backs tuck themselves in under the seat!

Cavanagh literally stopped the show with a fabulous, long-flowing evening coat in black, pure cashmere jersey. Apart from this star feature, he calls his line Hoop-la for its backward curve. His shoulders are wide and bulky without being square. His skirts are again straight and narrow.

One smooth, black, British wool Hoop-la line dress is especially chic with a slim, uncluttered front and an extra swath of material gathered to the back neckline and swooping down in an unbroken curve to be gathered again at the hem.

Fashion

When you pick your vacation spot, find out the clothes needs well in advance. Saves your time and money.

Good beach idea for the girl with a hip problem is the short, white pleated skirt over shorts. It's graceful but concealing.

Nothing prettier on the dance floor than chiffon in pastels or black. Pastels for the young; black for the sophisticated.

If you are five feet or under, best to avoid the large or "garden party" hat in summer. This is a hat that's most becoming to the tall, slim gal.

Homemaking

Many hobbyists enjoy working with wood. Sometimes a knot will fall out of the wood being used. But the piece doesn't have to be scrapped. Dip the knot in shellac and put it back in the hole. The shellac will hold the knot in place and also seal in resin.

Marriages

WILSON - BRAZEL

BIRCHTON — The marriage of Nancy Carolyn Brazel, daughter of Mr. and Mrs. Clifford Brazel, of Eaton, to Mr. Trevor George Wilson, son of Mrs. Ruth Wilson and the late Mr. Walter Wilson of Sawyerville, took place recently in the Birchton United Church, with the Rev. J. A. H. Plowright officiating at the double ring ceremony.

The organ music was played by Miss Gloria Phillips, the soloists, Miss Connie Phillips, cousin of the bride, sang "O Perfect Love", and Mrs. Claris Phillips, aunt of the bride, sang "Till We Meet Again".

The bride, given in marriage by her father, was gowned in a floor-length dress of lace and net over satin, and a lace jacket with pearl-trimmed collar and long sleeves ending with points over the hands, matched the fitted bodice. Her elbow-length veil was held in place by a lace cap and she carried a cascade bouquet of sweetheart roses.

Miss Helen Brazel, as bridesmaid for her sister, wore a floor-length gown of pale blue nylon, with a small hat and mitts to match, and carried a bouquet of sweet peas.

Miss Diane Brazel, as junior bridesmaid for her sister, was attired in a floor-length gown of pale blue nylon, with hat and mitts to match. Her bouquet was also of sweet peas.

Little Miss Sharon Provis was flower girl, wearing a pale yellow organdy dress, trimmed with lace, and matching headband and mitts. She carried a nosegay of pansies and bridal roses.

Mr. Ronald Johnston acted as best man, and the ushers were Mr. Hugh Wilson and Mr. Wayne Alden.

Mrs. Brazel, mother of the bride, wore a navy blue sheer dress with white accessories and a corsage of pink carnations.

The groom's mother, Mrs. Wilson, chose a brown figured crepe dress with brown accessories, and wore a corsage of yellow "mums".

Following a reception at the Birchton Church Hall, Mr. and Mrs. Wilson left for a short honeymoon, the bride travelling in a pale blue dress and white accessories, with which she wore a corsage of sweetheart roses. They will take up residence in Toronto, Ont., where Mr. Wilson is stationed in the RCAF.

Out-of-town guests included friends and relatives from Toronto, Baie Comeau, Valcartier, Oshawa, Ont., Coaticook, Lennoxville, Waterville and Sawyerville.

McLEAN - REYNOLDS

GRANBY — The marriage of Miss Elsie Reynolds, daughter of Mr. and Mrs. Llewellyn Reynolds of Roxton Falls, to Mr. Christopher Joel McLean took place on Saturday, August 24 at three o'clock at St. George's Anglican Church, Archdeacon I. M. Lidstone officiated.

The church was adorned with baskets of pastel colored gladioli, white gladioli and tall white tapers being placed in the chancel and on the altar.

The bride, given in marriage by her father, wore a gown of white satin and net. The fitted satin bodice had long sleeves ending in points over the hands and tiers of embroidered net formed the full floor-length skirt. Her matching headpiece held in place her shoulder-length veil of tulle illusion, and she carried a bouquet of orchids and stephanotis.

Mrs. Evan Fowler of Ottawa, Ont., as matron of honor, was in a ballerina-length dress of yellow net over taffeta with matching sash and veiled headpiece, and she carried a bouquet of yellow and stephanotis.

Engagements

Mr. and Mrs. Dan D. MacLeod, of Scotstown, announce the engagement of their only daughter, Anne Katherine, to Mr. Kelton Alexander MacKenzie, son of Mr. and Mrs. John W. MacKenzie, of Scotstown. The marriage has been arranged to take place on Saturday, September 21, in St. Paul's Presbyterian Church, Scotstown.

Paprika Lemon Carrots

(Use old carrots for this dish) 2½ cups pared, diced carrots, 1 teaspoon minced parsley, A grating of loaf sugar, ½ teaspoon of paprika, 1 tablespoon of butter, juice of ½ lemon.

Simmer diced carrots in salted water until tender but not pulpy. Drain, return to heat, add remaining ingredients, shaking dish now and then so that each piece of the vegetable will be coated with the dressing.

MANNERS MAKE FRIENDS

A Mother complains that when she drives teen-agers to her house, few of them ever stop to offer to help carry in packages and sacks of groceries. She says she doesn't mind being a chauffeur, but she hates to be turned into a bellhop, too.

How about watching such small but important matters of courtesy, teen-agers?

MR. and MRS. TREVOR GEORGE WILSON photographed with their attendants following their wedding which took place at the Birchton United Church. The bride is the former Nancy Carol Brazel, daughter of Mr. and Mrs. Clifford Brazel of Eaton and the groom is the son of Mrs. Ruth Wilson of Sawyerville and the late Mr. Walter Wilson. Standing from left are Mr. Hugh Wilson, usher, Mr. Ronald Johnston, best man; the groom and his bride; Mr. Wayne Alden, usher. low gladioli and mauve "mums."

Miss Diane Munroe of Hillsdale, Ont., acted as bridesmaid and was gowned in a ballerina-length dress of mauve net over taffeta with sash and headpiece of matching velvet. She carried a bouquet of variegated gladioli and "mums."

Miss Sharon Reynolds, sister of the bride, as junior bridesmaid was in green net over taffeta with sash and headpiece in the same shade. She carried flowers similar to those of the matron of honor.

Mr. Derry Lindsay was best man for his cousin, and the ushers were Mr. Paul Flinn of New York, Mr. Brian Reynolds, cousin of the bride, and Mr. Evan Fowler of Ottawa.

The bride's mother, Mrs. L. Reynolds, wore a gown of dark blue with a large navy blue velvet hat and a corsage of American Beauty roses.

Mrs. F. McLean, mother of the groom, was attired in a printed mauve dress and mauve velvet hat, with which she wore a corsage of Oberbayern gladioli.

Following the ceremony, a reception was held in the Granby Hotel where variegated gladioli were used to decorate.

Later Mr. and Mrs. McLean left for a honeymoon in the Eastern States and on their return will reside in Cornwall, Ont.

WINDSOR MILLS

Mr. and Mrs. Walter Greenlay, of Bromptonville, Miss Vivian Sykes, of Windsor Mills, Mrs. John Lowry and Miss Viola Lowry, of Richmond, have returned to their respective homes, after having attended the marriage of Miss Elaine Hayes, to Mr. Donald Chamberlain, which took place in Shawville, on Saturday.

Keep Pleated Skirt Glamorous

Several years ago, most working women and housewives refused to wear pleated skirts because they took so much care.

Today permanently pleated skirts are high fashion among teenagers, mothers and even grandmothers. However, they do get aggy, need adjustments at the waist, and shortening. So experts have suggested ways for home searesses to get the most out of the pleated look.

Skirts no longer need pressing after every wearing and repleating on each trip to the cleaner. Many synthetic skirts need only to be washed — then drip-dried to keep pleats.

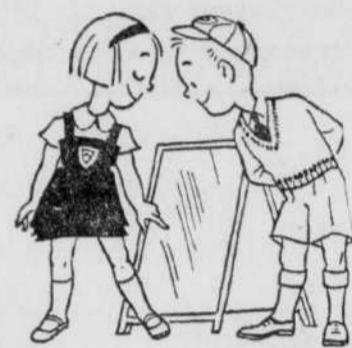

If a pretty pleated skirt looks baggy in the rear, sew each pleat with a small fine stitch on the outside edge. End stitching thirteen inches down from the waistband.

Just in case you've put on a bit of weight or want to let out a pleated skirt for a younger child, open the waistband and take out the skirt. Repleat the pleats so they are shallower at the top and press. Machine-stitch new pleats down and reset them back into the waistband. If the band is too small for the repleat pleats, add material cut from inside the waistband and sew it to the band at the side pleat.

If you've lost weight and have to take in the pleats, follow the procedure above and reset the pleats more deeply to fit the new waist measurement.

There are two ways to shorten a pleated skirt — from the hemline and from the waist. If you

Fitting Shoes

Fitting shoes for children is the most important part of buying shoes. Make a game of it. The foot must be measured for length, width and arch. If a child takes a fancy to a certain shoe that does not fit him properly, don't back him up. It is very difficult for the salesman to persuade the child that the shoes are ill fitting. The salesperson serving you is well qualified to select the correct shoe for the correct occasion. She or he will recommend the best possible fit. Time and patience assures the child of proper fit. Comfort instead of price is the main consideration of parents when having a child fitted for shoes. Manufacturers offer enough widths and sizes to take care of the shoe needs of every normal child.

plan to shorten from the waist, open the waistband and carefully mark the amount you want off all the way around the skirt. Run a stitch on your marking. Cut one-half inch over the mark and sew the skirt back into the waistband.

To shorten from the hemline, mark the new hem, take out the old one and press out its ridge. If the hem is two and one-half inches deep or less, pin it up and machine-stitch it with a blind stitch. If it is deep, cut off the excess or your hemline may droop.

With a little time and energy you can refresh your old pleats for a fashionable new season.

Male Reader Seeks Answers To Questions About Women

"Why is it," asks a man who says he always reads this column during his lunch hour, "that a woman..."

"Will take at least 15 to 20 minutes to lead up to her reason for making a telephone call to another woman? Do women actually consider it bad manners to come right to the point when making a telephone call?"

"Will claim she hasn't a thing to wear when her closet is full of clothes, yet figure her husband ought to be pleased to wear his three-year-old blue suit and tell her how thoughtful she was to get it cleaned and pressed?"

"Never seems to mind having her husband comment on another woman's intelligence—unless the woman also happens to be good looking?"

"Always has to change her clothes before she can leave the house?"

"Hasn't the vaguest idea of what a minute is? When she says, 'I'll only be a minute,' she probably has in mind that she won't be gone longer than an hour."

"Is determined that she and her husband will never be the first to arrive anywhere? Since somebody has to be the first to arrive at any party, why is every woman determined it isn't going to be she and her husband?"

"Gets such a sense of accomplishment about just talking about reducing? It would seem to a mere man that what counts in dieting is the pounds lost. But women seem to get a noble feeling just from letting everyone know they are on a diet."

"Think that marriage gives a woman the right to correct her husband and that when her memory of just how a thing happened doesn't jibe with his, his memory is bound to be at fault?"

Care to try to answer this man's questions, any of you women readers?

Beauty Tips

Those who like to putter in the garden often look as though they have been grubbing in the dirt, which they have. Garden knees that are sore and calloused do little for their owner in shorts or bathing suit. Knee pads of thick rubber will sidestep this hobby hazard.

Nervous habits can put lines around your mouth and nose. They also detract from general poise. Facial expressions to avoid include scowling, grimacing, pressing lips tightly or pulling down the corners of your mouth. These become such a part of you they are hard to spot at first.

MINERAL DISCOVERER

Scheelite, a tungsten-bearing mineral, was named for Swed- en's K. W. Scheele, who first isolated tungsten in 1771.

Gates Of 101st Brome County Fair Opening Tomorrow

FUN FOR ALL ON THE GREEN MIDWAY AT THE BROME FAIR

Big Exhibition Running 4 Days; Entries In All Sections High

BROME VILLAGE — The 101st annual Brome County Fair, one of the biggest and best in the Eastern Townships gets underway here tomorrow. Running until Tuesday, September 3, the Brome County Agricultural Society show this year has more entries in all sections than it has had for some years. Secretary-treasurer George McClay says: "We have a very heavy entry list in all departments. In addition, prize money in nearly all classes has been increased over last year. The exhibitors will really have something to shoot for this year."

The T. Green Midway, already well-known throughout the Eastern Townships, will be in full swing tomorrow, with a wide variety of exciting rides, interesting shows, and many, many fair booths.

On the stage in front of the grandstand, the Gastoni attractions will be featured every afternoon and evening of the fair. The show this year features such star performers as The Great Norman high wire performer extraordinary, acts on the flying trapeze Charlotte Levine and her educated chimpanzees, Luis Moreos, famous acrobat who thrills with his one-finger handstand and many other attractions.

Some excellent harness racing cards have been lined up by fair officials this year. Tots will be run off every afternoon of the fair on the track in front of the grandstand.

JUDGING
Judging begins tomorrow in beef cattle, Jersey, Canadian cattle, and horse departments. These will continue through Sunday. On Monday, judging begins

in poultry, swine and sheep. The Knowlton High School band, one of the foremost bands in the Eastern Townships, will supply music for the fair each day and evening.

One of the feature attractions at the fair this year will be a horse pulling contest on Tuesday. To be held in three classes, the competition is open to anyone, including horses from the United States.

Cattle parades will be held on the track in front of the grandstand on Sunday and Monday. The list of judges is as follows:

Canadian cattle, Arcade Edoin; Guernsey, Charles Styles; Swine, J. A. Lombard; poultry, Luther Crevier; Sheep, W. G. MacDougall; beef, J. D. McKeller; Jerseys, Ralph MacKenzie; Ayrshires, J. D. McKeeg; horses, Albert G. Stewart; ladies' section, Mrs. J. A. Sanborn.

HORTICULTURE
Another eagerly anticipated feature of the fair will be the exhibit of the Brome County Horticultural Society. This is one of the largest, and best horticultural shows anywhere in the Townships, surpassing even the exhibitor at the Sherbrooke Fair.

'Glad' Lady Of Foster Grows Profusion Of Flowers

United Church W. M. S. Meets At Cowansville

COWANSVILLE — The Women's Missionary Society of Emmanuel United Church held its monthly meeting at the home of Mrs. G. B. Cousins, who was assisted by the co-hostess, Mrs. Irene Adams.

There were several visitors present, including Dr. and Mrs. E. H. Gray, of Knowlton. Mrs. Gray gave an interesting report on the annual Presbytery meeting at which Miss Ada Sandell a well known missionary was presented with a gift from the local W. M. S. groups before returning to her chosen field, the Kojie Islands.

Rev. Carl Gustafson showed slides on the work the United Nations is doing in coping with the world wide food and agricultural problems. At the close of the afternoon the hostesses served refreshments which were enjoyed by all present.

The next meeting of the group will be held on Thursday, September 19th, with Mrs. W. D. Smith and Miss Marjorie Burnett entertaining at the Smith home.

General Notes
Mr. and Mrs. Walter Warner of Halifax, N. S., are spending several days at the home of Mr. and Mrs. G. W. King on Albert Street.

Recent guests of Mr. and Mrs. Earl Wright were Mr. and Mrs. Wallace Booth of Boston, Mass., Mr. and Mrs. Gordon Booth of Arlington, Mass., and Mr. and Mrs. H. Lampman of Meriden, Conn.

The Misses Edna and Katherine King are guests at the home of their sister, Mrs. Leslie Coleman in Quebec.

Dr. and Mrs. Robert O'Donoghue and their two children, accompanied by Miss Verna Wilson, have returned home after spending two weeks at Lake George, N. Y.

The Misses Edna and Katherine King recently spent a week at St. Albans Bay.

Mr. and Mrs. Earl Conroy of Windsor, Vt., are guests of their niece, Mrs. F. C. Pettes.

MRS. LIONEL ALLEN SURROUNDED BY GLADS

Mrs. Lionel Allen A Major Winner At Brome County Fair

By GORDON P. ENGLAND
Sutton Correspondent

FOSTER — In more ways than one Mrs. Lionel Allen is a "glad" lady. Any other woman might well be that, too, if her hobby brought her the pleasure and satisfaction which Mrs. Allen provides. For any passing motorist or pedestrian, viewing her flower-

er-garden from the highway, must recognize it as a place of charm and loveliness.

Beautiful flowers grow in profusion there. Marigolds, sweet peas, pansies, petunias, roses — and a host of others! All the best-known annuals, and some rather rare. Most eye-catching of all, though, perhaps, are the glads. Between 200 and 300 varieties, ranging in color from delicate pastel shades of pink and blue to deeper hues of dark red and purple and provocatively glamorous tints of almost every kind imaginable; those stand as gracefully as Easter lilies. Charmed by their bewitching allure, visitors understand why such lovely blooms excite instant admiration at Brome Fair and win many merited prize ribbons.

Before her marriage to Mr. Lionel Allen, a prominent businessman of Granby, the "glad" lady, also of that city, was Miss Gertrude McLean. Even as a child she loved flowers and her family always had a garden. "And, as time went on," she explained, "those flower-gardens gradually became larger. So now we have this one."

As simple as all that? Well, not quite, perhaps. As it happened, Mr. Allen was a native of Foster; so, with a

100-acre property still in his possession there, the Allens began summering there about 15 years ago. Now, for several years, they have wintered there, too. To beautify the grounds, and to give pleasure to their friends and themselves, they have created their flower-garden.

CONGENIAL NEIGHBORS

Fortunate, too, is Mrs. Allen because the next-door neighbors are her brother, Stuart McLean, and his wife her sister-in-law, who also bow in adoration at the shrine of Flora, the Goddess of Flowers. Mr. McLean, President of Imperial Tobacco before his recent retirement, erected a handsome bungalow within easy speaking distance of the Lionel Allen residence near the gardens. Since coming there to live about 4 years ago, the McLears have taken an active interest in the flower growing. With smoothly co-ordinated team work both families plant bulbs and flower seeds, nurture them with the aid of Mother Nature, and delightedly watch them unfold their promising buds into full blooms.

Since Mr. Allen's numerous duties as a business executive claim much of his attention, he has no opportunity for botanical experimentation and both families buy their bulbs

and plants from three or four of the best nurseries. All the Allens and McLears, however, are members of the Gladiolus Society and in its interest generously donate time, work and flowers to assist in the putting on of flower shows in towns of the Townships and elsewhere. On the morning they were interviewed, Mrs. Allen and Mrs. McLean were found cutting and arranging glads for such an event at St. Hyacinthe.

The McLears, however, do not exhibit at Brome Fair; they leave that always for Mrs. Allen. She has been an exhibitor there for 6 or 7 years with glads and a variety of annuals included among her entries.

Busy though they were on the morning visited, Mrs. Allen and Mrs. McLean graciously paused from labor long enough to tell a bit about their flower-garden and its floral contents.

"But be sure," cautioned the Brome Fair exhibitor, "not to single out our garden as a model of floral perfection. After all, remember, there are lots of lovely flower-gardens here in the Townships. Like many people, we have one just as a hobby. We love flowers, and enjoy growing them."

WATERLOO —

At the opening meeting of St. Luke's W.A. on Thursday, Sept. 5th, the hostesses will be Mrs. Alan McKergow, Mrs. C. G. Hall and Mrs. M. MacIntosh. In addition to an account of her recent trip by Mrs. Charles Slack, there will be a table of articles on sale.

Shadybrook Farm To Compete At Brome

EARL MARCH AND TWO OF SHADYBROOK FARM'S FINE BELGIANS

Montreal Contractor Exhibits Fine Jerseys And Heavy Horses

By GORDON P. ENGLAND
Sutton Correspondent

WEST BROME — Many Montreal men own country estates in Brome County, and Mr. B. A. Ryan can be numbered among those. The country home of this well-known contractor whose Ryan Construction Company erected the new Protestant High School at Sutton, is on Shadybrook Farm, the fine 600-acre property near West Brome. There, with Mrs. Ryan, his married son and daughter, and guest-friends, the native Montrealer, whose parents once lived near Gould, likes to relax from business cares and enjoy rural life.

Away frequently on business, though, Mr. Ryan leaves all of the exhibiting at fairs and horse shows to his farm manager, Earl Marsh, who has ably filled that position almost ever since the city executive purchased the property 16 years ago. Every summer, year by year during that period, Marsh has exhibited horses and cattle of the Ryan stock. And on each such showing, Shadybrook Farm animals have taken away many decorative prize ribbons.

For when B. A. Ryan, a shrewd judge of human character, chose Earl Marsh for his responsible position, he had made no mistake. To

superintend the work on so large a farm takes qualities of skill, judgment and tact, and Mr. Marsh has given sound proof that he possesses a big quota of all of those. So expert at his job has he become, in fact, that he now manages the P. M. Fox farm at Bondville as well as the Ryan one.

Mr. Marsh was born at West Bolton, where he early thoroughly learned the art of good farming. Then, a first class picker himself, he had, shortly before entering Mr. Ryan's employ, married Miss Helen Little of Inverness, a girl endowed with both beauty and brains. With such a wife as a congenial partner-companion and efficient homemaker, plus a new worth while job, young Mr. Marsh felt all set for a worth while career.

Any who know him can vouch for the fact that he has made full use of his golden opportunities. An authority on horses and cattle, he has long been connected with Brome Fair as an exhibitor and in an official capacity, and is now Chairman of the Horse Committee there. With practiced eye he can quickly size up the good or bad points of an animal and can spot a likely winner the moment he sees it.

At Shadybrook Farm, Marsh has a large number of livestock specimens from

aged 7. "Yes," answered Mr. Marsh, speaking of the latter entry. "I have production figures on her. Last year she had an average test of 5.4, and gave 9000 pounds of milk, of which 572 pounds' content was butter fat. She was Junior Champion at Sherbrooke Fair 4 or 5 years ago, but I haven't exhibited her much since until now."

which to select entries. This year, bulls and cows from the splendid 115-head Jersey herd there will be entered in about 15 classes, and there will be competing horses also. Most promising of the Jerseys chosen for exhibition, the farm manager thinks, are Acme Dreamer, a handsome 2-year-old bull, and Broom Bar Anthony Betty, a cow

NICE PIECES OF HORSEFLESH
After discussing merits of the cattle, Earl Marsh drove over to the barns to pose for a photograph with two of the

best Shadybrook exhibits—a mother-and-daughter pair of pretty Belgian mares. These beauties, heavy draft animals of 1900 lbs. each, would be worth going a long distance to see and already have appeared on television. 11 and 5 years of age, they are named Bella-De-Farceur and Starlight De-Farceur. Besides those, Marsh will exhibit a couple of colts.

A quiet, unassuming man, the farm manager liked better to talk about Shadybrook and its exhibits than of himself. But one left with the conviction that he is a master hand at his job.

Go-Go White Sox Put Heat On Yanks But Champs Emerge The Winners

Quarterback Problems Have Argos And Rough Riders Worried; Als To Be Without Wells And Billy Shipp

Quarterback problems face Ottawa Rough Riders and Toronto Argonauts as they prepare for Big Four football activity Labor Day weekend.

The league-leading Rough Riders are expected to be without first string signal caller Hal Ledyard when they meet Montreal Alouettes Saturday. Coach Frank Clair said badly bruised ribs picked up several weeks ago have lowered Ledyard's efficiency and he expects to start understudy Tom Dimitroff.

Tom Dublinski is a big question mark for Argos, who are not counting too heavily on the Duber and his arm being available when they tangle with Hamilton Tiger-Cats Monday afternoon.

The former Detroit Lion chipped a bone in the thumb of his throwing hand in the season opener and missed last week's game against Ottawa.

Import halfback Joel Wells and Canadian back Bill Tonneguess will be missing from the Montreal line-up — both with leg injuries. Wells, a highly rated power runner from Clemson, has yet to see league action.

Tackle Billy Shipp has a back injury which makes him a doubtful starter.

Ottawa, undefeated in two starts, heads the standings with four points. Alouettes and Tiger-Cats are tied for second spot, two points behind. Argos, last of two winless starts, will have import Dave Doane and Canadian Gerry Doucette at quarterback if Dublinski is out.

Jim Trimble is expected to make no major changes in his Hamilton lineup. He said he would stick with six import linemen and six import backfielders with Bernie Faloney calling signals. However, if Dublinski plays, he may lead his pass defence with an extra American back.

Calgary Stampeders Sure To Hold Top Spot In Western Loop But Three Other Clubs Could Share Position

Calgary Stampeders are sure of retaining first place in the Western Interprovincial Football Union after the four-game Labor Day weekend schedule but three of the other four teams have an opportunity to share the top berth with Stampeders.

Coach Otis Douglas' Stampeders, unbeaten in three games, have only one contest, playing host to the winless Saskatchewan Roughriders Saturday night. Edmonton Eskimos, seeking their fourth straight Canadian title, also have only one game, entertaining Winnipeg Blue Bombers in the Alberta capital Monday night.

The Blue Bombers, with one victory in two starts so far, play twice, kicking off the weekend with a game at Winnipeg against British Columbia Lions tonight. The Lions, with one win in three starts, play again Monday, battling Roughriders in Regina.

So it is possible for Edmonton, with two wins in three games so far, to match Calgary's six points

Red Wings Didn't Play But With Help Of Richmond They Are Still Hanging Onto Fourth Spot In Loop

Rochester Red Wings didn't do anything Thursday but they can thank Richmond Virginians for them being firmly ensconced in fourth place in the International Baseball League today. The Vees tripped Havana Sugar Kings twice, knocking the Cubans from the first division and a game behind Rochester.

Havana got only one run in 16 innings, Richmond winning 14-1 in an afternoon game, and then 1-0 in a night affair.

Miami Marlins and Columbus Jets split a doubleheader in the only other games played. Columbus won the opener 3-0, with the Marlins taking the night cap 2-1.

Richmond's John James pitched a two-hit shutout in the night game and batted in the only run

President Giles Changes Scorer's Decision In Cards-Phils Tilt, Gives Jackson Win Instead Muffett

CINCINNATI — (AP) — National League president Warren Giles ruled Thursday that Larry Jackson, and not Billy Muffett, should have been credited with the pitching victory in last Thursday night's 6.5 triumph by St. Louis Cardinals over Philadelphia Phils.

Giles acted in the case after receiving numerous letters from fans in various parts of the country protesting a decision by official scorer Frank Yuetter which gave the victory to Muffett.

Jackson was the starting pitcher and allowed five runs and nine hits before he was knocked out of the box with none out in the sixth. Muffett finished and allowed no runs and three hits in the last four innings.

Yuetter gave the credit for the victory to Muffett on a basis of a section of the rules which allows the scorer to use his judgment as to the most effective relief pitcher in determining the winning pitcher.

The Cards had their 6-5 lead when Jackson was relieved.

Jack Hillman Scores Ace At Waterville Club

Jack Hillman, of Sherbrooke and an employee of the Canadian Ingersoll-Rand (engineering dept.) scored a hole-in-one Wednesday afternoon on the fifth hole of the Waterville golf course. About 130 yards, the shot was witnessed by Mr. Francis Gelinas and Gordon Austin who completed the threesome.

The actual dropping of the ball was witnessed by Ralph Caunter who was standing on the seventh tee and could see the ball land on the green, roll up to the hole and drop in.

Cards Shopping For Outfielder To Give A Lift

CHICAGO — (AP) — Frank Lane, general manager of St. Louis Cardinals, was shopping around the American League Thursday for a hard-hitting outfielder who could give a lift to the lagging Redbirds.

Robinson-Basilio Fight On Again; Conference Debate Ends; Sugar Ray Agrees On New TV-Theater Guarantee

NEW YORK — (AP) — Middle-weight champion Sugar Ray Robinson Thursday won a nine-day battle of the conference tables for a money guarantee for theatre television and agreed once more to defend his crown against Carmen Basilio at Yankee Stadium Sept. 23.

It was a victory all around for the crafty veteran who had called off the battle of champions Aug. 20 because of a dispute with the International Boxing Club. Sugar Ray now will receive a minimum guarantee of \$255,000 from the theatre-TV receipts alone. He also scored when he had Teleprompter Corp. included in the closed circuit deal with Theatre Network Television, Inc.

Basilio also shared in Robinson's holdout win. The welterweight ruler will receive a minimum guarantee of \$110,000 from the theatre-TV against his 20 per cent cut. Robinson collects 45 per cent. If the theatre-TV receipts, in which they share, go over the mark, they could receive more.

Under the terms spelled out at a five-hour conference at the state athletic commission offices, Robinson and Basilio also will get the same percentages of the \$30,000 for radio and of the movie deal with United Artists.

Nat Halpern, president of TNT, made the offer of guarantees. The promoting-IBC then announced it will underwrite the guarantees since the main contract is between the fighters and the IBC.

Halpern said his outfit already has lined up a record number of 165 theatres in 122 cities in the U.S. and Canada for the fight. Halpern said about 500,000 seats are available. The fighters and the IBC get approximately \$1 a seat from the total receipts collected by TNT from the theatres.

In the original offer by TNT no money guarantee was given. Robinson insisted flatly on the financial guarantee.

"I am happy we finally arrived at some decision," said Robinson. "I don't want to disappoint Carmen on Sept. 23. It's been a great strain on me. I've lost weight—I'm down to 150 pounds—and I've had to take sleeping pills."

Sugar Ray said he will head back to his Greenwood Lake, N.Y., training camp, night.

Yvon Durelle Scores 8th Round TKO Over Tim "Sugar" Jones In Tough Battle, Champ Forced The Limit

MONCTON — (AP) — Tim "Sugar" Jones, 24, of Plainfield, N.J., gave Canadian and British Empire champion Yvon Durelle of Baie Ste. Anne, N.B., one of the toughest fights of his career here Thursday before the fighting fisherman scored an eight-round technical knockout.

The end came at 2:15 with Durelle bleeding freely from both eyes.

Durelle weighed 177 for the scheduled 10-round non-title fight. Jones tipped the scales at 173½. Durelle floored the U.S. scrapper three times. He ramed a left uppercut that buckled Jones and dropped him for a count of nine in the eighth round.

Referee Kid Hart misinterpreted the timer's count and signalled the end. But the count had only reached nine.

After the opposition Durelle tore after his opponent and drilled wicked punches to the body and head. Jones sank to the canvas for an eight count. He had no sooner got up when he hit the deck again, this time for good.

Judge Harry Lempert had Durelle in front four rounds to none, with three even. Jack Broadie had it 3-2-2 while Bob Edgett scored it 4-1-2.

Manager Chris Shaban said Durelle would be ready to go through with his Sept. 25 engagement in Detroit against German light heavyweight Willie Besmanoff.

In a 10-round semi-final courageous Norman Gautreau of Moncton took the Maritime welterweight championship from Keith Paris of New Glasgow with a unanimous decision.

Gautreau weighted 145, Paris 147.

Judge Bob Edgett scored it seven rounds for Gautreau, one for Paris, and two even, while Jack Broady saw it 4-2-3. Harry Lambert had it 5-3-2.

Phillies' Robin Roberts Dropped From Starting List After 10 Years; Holds Outstanding Record For Work

By WHITNEY MARTIN
NEW YORK — (AP) — Robin Roberts' golden arm seems to have turned to lead.

Mayo Smith, manager of Philadelphia Phillies, has announced he has dropped Roberts from the list of starters, marking the first time in nearly 10 years that the big righthander has been relegated to a secondary role.

If this marks the end of his starring role, it is a rap against clean living and hard work. Robin, 29, is a model man in every respect.

There isn't another pitcher now active who even comes near the erstwhile speedballer when it comes to 10 years of heavy duty. In each of six seasons, he pitched more than 300 innings, with a high of 347 in 1953. In each, he won from 20 to 28 games. And these were consecutive seasons. Only three other pitchers now active have pitched as many as 300 innings during a season.

Bob Friend of the Pirates did it last year with 314; Bob Lemon pitched 310 in 1952, and Warren Spahn did it twice, 302 in 1949 and 311 in 1951.

Roberts began to weaken last year when, for the first time in seven years, he dropped below the 20-victory mark. He won 19, but he lost 13 to lead the league in that department. This year his record is 8-18 bringing his lifetime record to 187 victories and 138 defeats.

We doubt if Roberts ever protested about overwork. He's an eager-beaver, ready to accept any challenge and he probably would have fretted himself into a

Regain 6½-Game Lead, Magic Number Is 22 For Stengel Squad; Slaughter Delivers Payoff Blow; Ford Gets Win

The go-go Chicago White Sox are gone. They put the heat on New York's slumping Yankees and the champs got hot, sweeping a three-game series and regaining a 6½-game American League lead with a 2-1 victory Thursday. Enos Slaughter's 11th-inning home run and five innings of one-hit shutout relief by sore-shouldered Whitey Ford did it.

For the sadists, the Yankees' magic number is 22—any combination of New York victories and Chicago defeats totalling 22 gives the Yankees their third consecutive pennant, the eighth in nine years.

The Yankee mop-up job was one of three games scheduled in the majors Thursday, all in the American League. Boston downed Detroit 6-1 and Cleveland regained fifth place from Baltimore by beating the Orioles 13-4.

In the National League, where first-place Milwaukee also has a magic number of 22, the Braves resume play at Cincinnati tonight, with a seven-game lead. Second-place Brooklyn is home to New York Giants. Third-place St. Louis is at Chicago.

Hank Bauer rapped his 16th home run in the third inning for the first Yankee hit and then Slaughter's payoff punch beat Larry Donovan a 15-game winner who went all the way with an eight-hitter.

The Sox scored their run in the third-inning two of their four singles off starter Tom Sturdivant with Earl Torgeson's fly ball.

Ford, the stubby southpaw who had been New York's ace a year ago but who has been sidelined by a persistent shoulder pain, came on in the seventh after Sturdivant was lifted for a pinch-hitter. The only hit off Whitey, who struck out four while giving an 8-4 record, was Larry Dobbs' single in the seventh.

Cyclists Complete Eighth Lap Of St. Laurent Tour

TROIS-RIVIERES, Que. — (AP) — Victor Dompiere of Quebec and Roger Levesque of Montreal Thursday afternoon pedaled the 59-mile distance from Joliette to Trois-Rivieres in two hours, 25 minutes and 53 seconds to win the eighth lap of the St. Laurent tour bicycle race.

Next in order for the lap were Yvon Guillon, Quebec, with 2:37.47; Denis Lefebvre, St. Johns, Que., with 2:51.35 and Montreal's Guy Morin with 2:51.42.

Leader on a cumulative time basis after the eight laps is Montreal's Germain Tougoat. His time for the first 522 miles of the 750-mile course is 26:35.19. He is closely trailed by two other Montrealers — Mario Francescutti, 28 seconds off the pace, and Santo Gervasi, 49 seconds behind.

The ninth lap will start this morning just east of here at Cap-de-la-Madeleine. The racers will cover 87 miles on the run which finishes at Donnacona. The tour ends at Quebec City Saturday.

Gravel's Little Royal And Bennett's Alden Cane Split Main Event

Double Pays \$56.70 While Quinella In Third Tops Card; Nine Races Listed For Saturday And Sunday Nights

Gravel's Little Royal and Bennett's Alden Cane divided the honors in the main class yesterday afternoon at the Sherbrooke Fair. The little chestnut from Acton Vale walked off with the first half of the "DD" Pace while the local gelding capped the second half with a driving finish.

In the first heat the fastest time of the day was registered when they were clocked in 2:12. The second part a full second slower. Perron's Kirk Abbe pulled under the wire in second with Mrs. Menard's Lucky G a close third. In the second half Guy Desrochers moved to the fore with Dave Adam and set a blistering pace for the first half in 1:06 but the second half saw Bennett's Alden Cane pull out front to finish going away.

The double of Corporal Worthy, in the first, and Amedee Beaudoin's Boum Boum Bumpas paid their backers the sum of \$56.70. In the third the quinella was \$37.40 for the team of Pabi's Woodie Rosecroft and Dupont's Clean Up. It was the figure for the day.

In the sixth the pickers rode along with the favorites as Beaudoin's Boum Boum Bumpas and Gravel's Peggy Grattan G finish ahead of the field and the small sum of \$7.00 was collected. In the ninth the price was \$19.00 for the duo of Prince Dillon Brooke and Coombs' Truly Volo.

The top figures for a win investment went to Bennett's Alden Cane in the eighth when \$19.18 was doled out. Perron's Kirk Abbe set the high for both the place and show bets. The price was \$27.50 and \$10.30 which was far ahead of the rest of the playoffs.

The next card to be presented by the Sherbrooke Racing Club will be tomorrow evening at 8.00. On Sunday the races will be the usual time as in the past and that is 8.00.

Jeannine Cote And Guy Durocher Win Eastern Townships Mixed Title Over Victoriaville Duo Last Night

Jeannine Cote and Guy Durocher won the mixed doubles championship over Jeanne Mance Charest and Pierre Lambert of Victoriaville 6-4, 6-1, last night in Eastern Townships tennis tournament play.

The win for Miss Cote completes a clean sweep of major titles for her at this year's tournament. She holds the women's singles title and with Francine Clement won the women's doubles.

The Cote-Durocher victory last night was comparatively easy and throughout they experienced little trouble. Pierre Lambert, no doubt still feeling the effects of

his three hour battle with Durocher the night before, did not play his usual game but nevertheless supported his partner.

Durocher, the holder also of the men's singles, is also working on his grand slam of the tournament. He is teamed with Peter Murray in the doubles and they await the winners of the Boisvert-Charest vs. Royer brothers match. The latter are slightly favored to reach the finals.

The Thetford Mines tennis club will close their season this coming Saturday night and members of the Sherbrooke Association will travel there for a series of matches.

Prediction Of Unlimited Football Imports Draws Mixed Reception; Frank Ivy Of Eskis Against Idea

A country-wide storm has blown up over a forecast that unlimited importation of American football players into Canada — to boost the standard of the Canadian game — is only two years away.

Bill Ross, president of Toronto Argonauts of the Big Four sparked the row in an interview Thursday when he predicted that unlimited importation is less than two years away because fans want "better and better football and they'll demand it pretty soon."

Ross received mild support from James P. McCaffrey, general manager of Ottawa Rough Riders, who said: "I feel the Canadian players are getting too expensive. We can get better United States linemen for less money than we now pay for our Canadians."

But in football camps, both in

the east and west, including Ottawa coach Frank Clair, there was a firm stand against the suggestion.

Club were united in agreeing unlimited importation would cut the incentive for Canadian youngsters aspiring to play big time football.

Frank Ivy, coach of Edmonton Eskimos three-time Grey Cup champions, and Jim Russell, president of Winnipeg Blue Bombers, were against the idea.

And both Jess Fittou, registrar of the Canadian Rugby Union's junior football committee, and Arnie Morrison, president of the Ottawa and District Football League, agreed unlimited importation of American players would not benefit Canadian players.

Canada's nine professional football teams spend an average of more than \$250,000 in salaries every year.

Charlie Cox Thinks His U. S. Golf Team Will Have Trouble In Walker Cup Matches Which Opens Today

MINNEAPOLIS — (AP) — The United States Walker Cup golf team, with everything from tradition to the golf course in its favor, was an overwhelming favorite to whip Britain's top amateurs in the 16th international competition starting today at the rain-softened Minikahda club.

The one man who wouldn't agree with that forecast was Charlie Cox, the lanky Oklahoma redhead who captains the American team.

After four days of preparing the American golfers for the biennial competition, Cox Thursday expressed serious concern about the outcome of the matches.

"The British have been very quiet and when they don't say anything you begin to think they're doing pretty well," Cox said. "You can always hear a complainer, but when you don't hear anything, you begin to wonder."

The Walker Cup match, played every two years since 1922 except for the war period, consists of four foursomes, in which partners play alternate strokes with one ball, on Friday and eight singles matches on Saturday.

The American amateurs have won 14 of 15 previous official matches.

Maintenance Of Hatcheries Is A Must Says Gordon Commission After Special Study Of Conditions

OTTAWA — (AP) — Canada may have 2,500,000 to 3,000,000 sport fishermen by 1980 who will take an annual catch of some 66,000,000 pounds of fish.

This forecast is made in a special study made by the fisheries department and the fisheries research board for the Gordon economic commission, which issued it today.

Fresh-water sport fishermen now numbered some 1,600,000 and there were untold numbers who fished in salt water—25,000 in British Columbia alone.

Provincial forecasts were for a large increase in the number of anglers. The present sport catch of 33,000,000 pounds could be expected to be doubled by 1980 as developing transport made more waters available.

"The significance of the sport fisheries will be found largely in the value of these transportation services and other tourist services that may be provided for the fishermen, rather than in the value of the sport fish they catch."

Therefore, "the maintenance of hatcheries and other effective management activities for the sport fisheries is likely to become increasingly important in Canada."

MOLSON'S remembers the first great public demonstration in Montreal in 1888 to celebrate LABOUR DAY

On Monday, September 3rd, 1888, more than 5,000 workers took part in the huge demonstration organized by the Central Council of Trades and Labour — a body which had developed from the original Association Ville-Marie of 1883. That first public celebration of Labour Day in Montreal attracted a crowd of 25,000 — a remarkable gathering for those days when the city had a population of only 200,000.

MOLSON'S rejoices with the whole community in the nation-wide recognition now accorded LABOUR DAY

The celebration of Labour Day has grown far beyond the original few hours of parades and demonstrations. In 1894, in both Canada and the United States, the first Monday in September was established as a national holiday. Now it brings to almost everyone the benefits of a long week-end of relaxation. It has become a tradition — the last grand out-of-doors holiday of the summer season. May this year's be a happy one for you!
