Why There is Need for Reform in Protestant Female Jail.

Grounds on Which Supporters of the Movement Base Their Call for Immediate Action.

NO CLASSIFICATION OF THE PRISONERS

Hardened Offenders and Young Girls Are Confined Together—The Lack of Room for Exercise and of Sufficient Work to Keep Prisoners Busy.

Away in the East End, near the city limits, far removed from well trodden paths, and standing where it cannot offend the delicate sensibilities of respectable society, is the female gaol. To reach it you take the St. Catherine cars to Fullum Street, and go four blocks north, picking a precarious path through the debris and around the gaps in the sidewalk until a blank stone wall enclosing a blank stone building appears on the left of the road. A lodge, with its wicket-gate, breaks the monotony of the barrier. Here you rap with a ponderous iron knocker, present your credentials, and, if they are correctly made out—they are great sticklers for correctness at the female gaol—you are admitted within the grounds. There is one other entrance, but it is not for the general public. Every little while an ominous-looking black waggon enters through it carrying a burden of wretchedness and sin to be guarded, and, if possible, purified within a specified space of time.

The gaol proper is divided into two portions, one under charge of nuns, where Catholic prisoners are cared for, and the other, a provincial institution, under a matron, for the Protestants. Both occupy the one building, the separation being by strong stone partitions which wall off part of the north wing from the rest of the structure. All the privileges of the grounds, the right to work in the gardens, and to take outdoor exercise, are rigidly reserved for the Catholic prisoners, the Province simply renting a portion of the building proper for the confinement of unfortunate women of other faiths.

REFORM AGITATIONS IN PAST FEW YEARS.

Several times in the past few years there has been a wave of less cosmopolite agitation for a reform in the Protestant female gaol. It has been alleged on the authority of fairly well-informed individuals that the existing conditions not only hampered the work of reform, but were actually deleterious to the morals of those prisoners who had only taken the first steps in a criminal career and were by no means beyond the hope of being reclaimed. At a meeting of the Council of Women recently, Mrs. Mercer, who as the gaol visitor is in a position to speak with authority on the subject, urged the need of the immediate reform of certain crying grievances. It was high time, said Mrs. Mercer, that the consciences of the Protestant people were aroused to the condition of the affairs at the gaol. The Catholic gaol is owned by the nuns, to whom the Government pays 85 per month per head for all prisoners they receive. They have good accommodation, fresh air, and exercise, and for employment take in laundry work, and in summer work in the garden. The Protestant female gaol, on the other hand, is possessed of two flats for working purposes, and heat, the Government refusing to supply it. There is no fresh air and no possibility of obtaining exercise. A woman in prison has never went outside its doors. Mrs. Mercer described female [illegible] as at present conducted as "a farce." At [illegible] there are [illegible] employed [illegible] and most [illegible] with the vilest and worst of the sex. Any girl who comes [illegible] imprisonment must associate with [illegible] women."

With the purpose of [illegible] the conditions [illegible] outsider, a representative of the Herald called upon Superintendent [illegible] secured the necessary permission to visit the gaol and inspect the arrangements for the care of the prisoners. Kindness was granted [illegible] the Protestant [illegible] the best evidence [illegible] that the [illegible] which can be [illegible].

[illegible] there is another small room [illegible] by iron scroll work, where [illegible] regime the prisoners were [illegible] the friends as visiting days. At present this is used partly as an [illegible] and partly as a storeroom, and when visitors are admitted they are allowed to converse with those [illegible] ested face to face, [illegible] by an impassible barrier [illegible] one of the innumerable [illegible] In consideration which [illegible] everywhere through the [illegible] but it is the first and [illegible] those that follow.

WHERE PRISONERS LIVE AND WORK.

There are only three cells in the institution, and they are set aside for the different purpose of punishment. The prisoners sleep in dormitories on the second floor which are spotlessly clean and as fresh and wholesome as could be desired anywhere. The largest contains fourteen beds, has two large windows and except that there are no rugs on the floor, and no pictures on the walls, would do credit to a working girls' home. The ceilings are high and the floors have the well-washed appearance of those of an old farm house. Opening from the main dormitory are five other smaller rooms with four or five beds in each, giving in all accommodation for thirty inmates. Every bed has its neat blue counterpane and its snow-white pillow. At the end of the passage from which the dormitories open is the chapel where services are held twice on Sunday and twice during the week. The refectory, the kitchen and the work-room, all situated on the first flat, are like the rest of the institution, immaculate, well ventilated and wholesome.

Discipline is evidently strict, but no more irksome than absolutely necessary. The women rise early and leave the dormitories not to return to them again until bed time. From the time breakfast is furnished until four o'clock in the afternoon the day is devoted to work and the prisoners spend it in the big room next the kitchen set apart for this purpose. From four o'clock until bed time is set aside for reading and recreation; books and magazines are supplied by several charitable institutions and are always in demand.

Unlike many other institutions there is no rule of silence and the prisoners are allowed to talk freely at their work and during the recreation period provided they are not boisterous and do not indulge in profane language. There is rarely manifested a disposition to take advantage of this leniency and the punishment cells which await offenders are rarely put into requisition. These cells, by the way, are particularly interesting, because of the intelligence with which they are occupied. There are three of them, very high, ten feet long and four or five broad, facing a side corridor. At the occasion of the writer's visit two of them were peacefully occupied as a storage place for vegetables and the third was evidently inconsolate and vacant. Only about once in two months is it necessary to resort to punishment; at all, which simply relates volumes for the efficacy of the system now in operation at the institution. Insubordination, quarrelling, and the use of bad language, three common faults in most reformatories, are here practically unknown.

GROUNDS ON WHICH REFORM IS URGED.

The plea for a reform of the jail has three distinct counts, the close confinement, the lack of sufficient work and the necessity for classifying the inmates. Before entering upon a discussion of any of them, it will be well to call to mind that the space occupied by the jail does not amount to more than half of one wing, and that apart from the grounds surrounding the building as at the disposal of the officials. The contention that there is no room to [illegible] exercise is, therefore, [illegible] There are [illegible] of the institution [illegible] and [illegible] dormitories. Incidentally one widow [illegible] valiant [illegible] claiming the privilege [illegible] to be dispelled. On three times [illegible] just seven years have there been [illegible] the jail under [illegible] At present the [illegible]

SUNNY TENNESSEE WAS STORM SWEPT

Over Half a Hundred Persons Were Killed

AND A HUNDRED INJURED.

Several Towns Were Badly Wrecked, and a Number of Marvellous Escapes Are Reported.

Nashville, Tenn., Nov. 21.—Tennessee was swept last night by the most destructive storm ever known in the state. More than fifty persons were killed and a hundred more injured while the damage to house, timber and other property will reach large figures.

The storm entered the state from northern Mississippi and swept across in a northerly direction. Great damage is reported from the counties bordering on the Mississippi, and further on Columbia, in Maury county is the heaviest sufferer. Lavergne, Nolanville and Gallatin also felt the wind's force, the storm finally losing its force against the Cumberland Mountain range. Columbia's casualties number 25 dead and 50 injured. The list so far as known is as follows:

Dead—Misses Florence and Evelyn Farell, Capt. and Mrs. A. F. Aydelott, Guy Aydelott, Paul Aydelott, James Cherry, Miss Lizzie Forsythe, Mrs. Tom Carroll, Miss H. J. Viles (all white); —. Winfield, wife and child, Tom Hackney, Joe Scott, Glass Brown, Peter Adams, —. Fryerson, cook at the Carrolls; five unknown negroes in the Emergency Hospital.

The injured—Clayton Tucker, badly bruised and in a dangerous condition; Josie Reed, fatally hurt; Belle Cooper, Mrs. Jones, Muggie Reed, Minnie Reed, Lulu Bostick, Mr. Sarah Russell, Susie Lovell (all are white. They have bruises and scalp wounds); Will Hickman (colored), broken thigh; Bob Sewell (colored), seriously hurt in the back; Jim Johnson, Dan Sewell, Will Brown, John Fryer, Lucius Walk, Philipson, Bill Hickson (all colored, injured badly, bruised, and scalp wounds).

The houses of Captain Aydelott, the Farrells, and other large residences, were demolished.

AT OTHER POINTS.

The number of houses destroyed in the Nolansville neighborhood is 16. There were two fatalities, Miss Annie Hampton, aged 25; Mrs. Fanny Bramlett, aged 65.

Those injured are—J. B. Hampton, aged 70; Miss Lulu Hampton, aged 23; Mrs. Melinda Jennett, aged 70; Aubrey Hampton, internally hurt; Thomas Hampton, badly cut and bruised; Emma Hampton, arm broken; Mrs. P. G. Verier, collar bone broken; Ernest Stephens, internal injuries; Leslie Stephens, slight bruises on the head; Allen Flynn, internal injuries; Miss Flynn, badly bruised. All of the 16 houses were totally destroyed. Mr. Hampton had $400 in money, and this was blown away, and only a part recovered.

At Lavergne, 16 miles south of here on the Nashville, Chattanooga and St. Louis road, the velocity of the wind was marvellous and from best reports lasted about 20 seconds. In this short time about 35 dwellings were turned into kindling wood. The loss of life is small compared with the miraculous escapes made. The victims of the tornado are Geo. Robertson and his six-months-old child.

IN MISSISSIPPI.

Arkabucla, Tate County, Miss., Nov. 21.—Yesterday forenoon a tornado descended upon this little town and as a result of its fearful intensity ten persons were killed outright and twenty were injured. The dead are:

Jack Kellum, aged 30 years; Wm. Kellum, aged 12 years; Nicholas Blake, aged 24 years; Mrs. McKay, four children of Mrs. McKay; unknown negro; negro infant. Several were injured.

72-MILE BREEZE IN NEW YORK.

New York, Nov. 21.—A wind storm, accompanied by a slashing fall of rain, struck New York and vicinity this afternoon. The wind came from the north-west, and blew for five minutes at a 72-mile clip. The rain was driven in hissing sheets through the streets. The velocity of the wind was so great that several persons going across City Hall Park were blown from their feet. The big flag on the Postal Telegraph building was whipped away from the staff, and went sailing like a great feather on the wind. At Park Place and Broadway, in front of several clothing stores, show cases were overturned, and the goods scattered to the winds. A large roll top desk, which had just been taken from a truck, was hurled up against a big case, and both were demolished. Then the storm ceased as suddenly as it had come, and the city was treated to a most magnificent rainbow.

OCEANIC NARROWLY AVOIDS COLLISION.

New York, Nov. 21.—Although storm-tossed and delayed by adverse winds and rough seas, the big White Star liner Oceanic arrived this evening but a few hours behind her regular time of arrival.

At 5.30 this morning the vessel was approaching the coast at a moderate speed, when Captain Cameron, who was on the bridge, made out the red sidelight of a large steamship nearing him. The oncoming vessel was approaching him at an angle, and when he blew twice she sheared around so that he could see her starboard light. There was shouting and more whistling, and the captain of the Oceanic checked his vessel and swung her stern around, at the same time the other vessel passed uncomfortably close astern, barely avoiding a collision with the Oceanic. The outgoing vessel is supposed to be the Trave.

TELEGRAPH WIRES DOWN.

Cleveland, Nov. 21.—During the last 24 hours the telegraph service between Cleveland, Chicago, Buffalo and Columbus has been badly crippled as the result of the fierce wind storm which swept over the Great Lakes and over the northern part of Ohio. The wind knocked down telegraph wires between Buffalo and Chicago, and Cleveland and Columbus, and an army of linemen have been sent out from this city to repair the damage.

TWO KILLED IN OTTAWA.

Ottawa, Nov. 21.—(Special.)—A severe wind and rain storm broke over the city about 3 o'clock this afternoon and raged with great fury, doing considerable damage, and interrupting telegraph communication with Toronto, except a limited service by way of Montreal.

One very sad accident resulted from the storm. Two men named David Moodie and William Prudhomme, were working in a temporary blacksmith shop erected against an old stone wall in the burnt district at the Chaudiere, when the high wind blew down the wall, which fell on the blacksmith shop, and the two men were crushed to death. An inquest was opened to-night and adjourned.

CYCLONE AT TORONTO.

Toronto, Nov. 21.—The storm which has been raging here all day, developed cyclonic proportions at 10.30 a.m., and again at noon. The wind blew 40 miles at 10.30, and the noon outbreak was accompanied by thunder and lightning. Many awnings were torn down and signs carried away, but no serious damage is reported. The thunderstorm swept past to the east.

A COLD WAVE COMING.

Vancouver, Nov. 22. — Another snowstorm is sweeping over British Columbia. Intense cold is reported from many towns. At Donald it is 30 below zero, and at Lagan the thermometer registers 37 below. The Fraser River is frozen over, an unprecedented condition so early in the season, and river navigation is at a standstill. The storm also prevails in the Gulf of Georgia, and practically no ships are moving to or from Vancouver.

The Marriage Problem

"How to be happy though married," has been entirely solved to the satisfaction of hundreds of thousands of women. There can be no happiness without health. The general health of woman is dependent on the local health of the delicate womanly organs. When there are debilitating drains, or inflammation, ulceration or female weakness, happiness in marriage is practically impossible. A host of happy wives testify that the secret of happiness in marriage is found in the use of Dr. Pierce's Favorite Prescription. It dries the drains, heals ulceration and inflammation and cures female weakness. It makes weak women strong, sick women well.

Mrs. Anna Willy, (Michigan House), Northville, Spink Co., S. Dak., writes: "I am enjoying good health, thanks to your kind advice and valuable remedies. I suffered very much with female weakness and other ailments for more than two years, when I wrote to you for advice. After carefully following your advice and taking six bottles each of Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' I am now a well and happy women."

Women are invited to consult Dr. Pierce by letter, free. Correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

WICKED SOLICITORS.

Is the Law Strong Enough to Cope With the Evil in England?

London, Nov. 22.—In the Lord Chief Justice's court two solicitors were yesterday struck off the rolls for professional misconduct on the application of the Incorporated Law Society.

The most scandalous case was that of James Crofts Ingram, 67 Lincoln's Inn Fields. A report from the Law Society mentioned several instances in which Ingram's firm had, while in an insolvent condition, received large sums of money from clients on deposit at interest.

On the firm's affairs going into bankruptcy Ingram's partner committed suicide. The statement showed a deficiency of £329,523. The trustee expressed the opinion in his report that the firm had been insolvent for twenty-five or thirty years.

The story told by the Law Society's report, said Lord Alvestone, was a lamentable one. Here was a firm held in great repute for many years brought down by conduct which when disclosed amounted to nothing but a tissue of lies and misrepresentations.

There had not only been professional misconduct, but grossly fraudulent and dishonorable conduct.

His lordship was thankful to believe that the number of such cases was comparatively small, yet the misery and ruin which these wicked transactions brought about was no small evil.

It seemed worthy of the consideration of the great profession from which the respondent must now be driven whether the law in this respect should not be strengthened.

The name of the other solicitor removed from the rolls was given as Charles William Inman, St. Martin's House, 29 Ludgate Hill. He had misappropriated £570 of a client's money.

MANUFACTURING SEDITION.

Sir Alfred Milner Preaches Firmness and Patience in Cape Colony.

Capetown, Nov. 22.—Speaking at Claremont at a meeting of the Guild of Loyal Women, Sir Alfred Milner said the manufacture of sedition in Cape Colony was proceeding as merrily as before. A powerful bellows was always being blown to fan the flame of race hatred and play upon the passionate prejudice of a section of the self out despite all the efforts of the belhappy past. The fire was going to burn itself out depite all the efforts of the bellows blowers, but in the meantime it was going to cause a lot of havoc.

"There must be no compromise with sedition mongers. There had been too much toying with treason in the past, but they must never lose patience and never cease to make allowance for those who had been misled. Hard words broke no bones, or else he would not have a whole bone in his body.

"South Africa to-day was passing through a crisis of extraordinary severity and great duration. To the suffering of regular warfare there had succeeded a purposeless resistance, involving all, and more than all, the horrors of war without any of its dignity.

"It was difficult to appreciate the methods of men who were urging their fellow-countrymen in a hopeless struggle, kept up by deceit, and leading to nothing but destruction."—Reuter.

FORTRESS, NOT A COLONY.

New Regime for Overcrowded Gibraltar Begun by Mr. Chamberlain.

Gibraltar, Nov. 22.—In virtue of an extension of the alien order published to-day the Governor can order any undesirable person to quit Gibraltar.

Owing to overcrowding and the exceptional position of "the Rock" as a fortress and naval station, it is further provided that after to day "natives of Gibraltar" will comprise only those whose fathers were born here.

These regulations are a result of Mr. Chamberlain's recent visit here, and they are expected to result in making this place what it ought long ago to have been considered—more a fortress than a colony.

Gibraltar, instead of being treated as a colony for the benefit of the 19,000 inhabitants collected from various parts of the globe, will now be administered as a great place of arms, coaling station, and dockyard.

PACIFIC CARRYING TRADE.

Vancouver, Nov. 22.—The lumbermen and mill-owners of British Columbia will probably petition both the Dominion and Provincial Governments for a ship tonnage bonus to regain for Canadian vessels the carrying trade lost to American ships.

DR. COLBY TO LECTURE.—On Thursday, December 6, Dr. C. W. Colby will lecture before the members of the Art Association, Phillips Square, upon "Court Life of the Italian Renaissance."

DUKE OF YORK IS TO VISIT CANADA

News of His Projected Tour of the Colonies Gladly Received in Montreal.

The news cabled from London yesterday that the Duke and Duchess of York intended to visit Canada on the completion of their tour of the Australian colonies, was eagerly read and widely discussed in Montreal yesterday.

Several times in the last few years a somewhat similar rumor has been circulated, but the projected visit never materialized, although it has been known that the plan was one very dear to the heart of His Royal Highness and one which would be put into operation as soon as a favorable opportunity presented itself.

Australia will be the first of the colonies to be visited, the Duke and Duchess sailing for the South Sea continent in about two weeks. It was at first proposed that the new Royal yacht should be used for carrying the party, but the accidents she has met with are said to have rendered it advisable not to risk so long a voyage in an untrustworthy vessel. It will be remembered that when the yacht was launched she turned turtle and that since that time there has been almost constant trouble with her engines and machinery. It is therefore probable that a Cunard liner will be chartered for the occasion and that the Royal party will make this tour of the colonies with greater comfort and safety.

There has been so far no official intimation of the length of time that will be devoted to each colony. It is known, however, that every member of the Australian Federation is in expectation of exceeding the others in the warmth and heartiness of the welcome they will extend to their future sovereign. All receptions and demonstrations will, of course, depend upon the arrangements made by the Duke, but it is safe to say that when the party leaves Australia it will be with memories of a hundred magnificent outburts of enthusiasm.

The visit to Canada will probably closely follow that to Australia, and it is known that the Duke of York expects to visit and thoroughly familiarize himself with every province of the Dominion. Shipping men, when questioned on the subject yesterday, were of the opinion that the steamer which conveyed the party to Canada would probably come no further up the river than Quebec, and that the formal welcome would take place there. It is yet too early to speculate as to the form the demonstrations will take, but several local organizations are already making preliminary arrangements, and there is no doubt that by the time the Royal party reaches Canada the Dominion will be prepared to demonstrate its loyalty in a manner which will become historic.

LONDON MAIL'S ELECTION NEWS.

The Montreal Correspondent Sends an Interesting Cable for English Readers.

The London Mail's Montreal correspondent evidently has views. Some of these he sent to his paper on election night. His cable read:—

"The Canadian elections took place today, and the Conservative Opposition, under Sir Charles Tupper, made a determined attack on the outgoing Liberal party under Sir Wilfrid Laurier. As in Great Britain, Imperialism is the main issue. If Sir Wilfrid Laurier has been defeated at the polls he may attribute it to four causes. (1) The Government's hesitation and delay in sending a contingent to aid Her Majesty's forces in South Africa. (2) The attitude of one of his Ministers (Mr. Tarte) in relation thereto and his subsequent speeches in Paris. (3) The scandals in regard to the administration of the Yukon; and (4) The non-fulfilment of pledges—in regard to tariff, economy, etc.—made when in Opposition. These constituted the chief grounds of attack by the Opposition. The first two were the ones which told, however. The great thing in its favor has been one with which Governments have little to do, yet which always militates in the Government's favor, and that is that the country is prosperous. The Conservatives have made an active campaign in favor of inter-Imperial preferential trade as opposed to what they called the "jug-handled" variety of the present Government. The results have not yet been received, but the general impression at Montreal is that the Government has sustained a decreased majority. Mr. Tarte claims a majority of sixty, which is palpably absurd. The headquarters claim forty. The organization of the Conservatives is, however, remarkable, and widespread confidence is felt. Their Dominion organizer, Mr. Henry Dalby, claims a majority of 17 to 25. A feature of the campaign is the change of view respecting Quebec. The Conservatives claim 30 out of 65 seats, and the Liberals concede 23, whereas a month ago they conceded less than 10. If the Conservatives carry 25 seats at Quebec they will win.

GREAT FIND OF MSS.

Russian Discoveries at Mukden May Solve an Interesting Problem.

St. Petersburg, November 22.—The Russians, on occupying Mukden, the capital of Manchuria, secured—in other words, "looted"—a large quantity of very valuable Oriental MSS., which are being sent to St. Petersburg in order to be submitted to a minute examination at the hands of the authorities of the Imperial Library.

Among these MSS. there should be, according to the view of Russian experts, many MSS. of Greek and Russian classics, which were plundered and carried away by the Mongols in their wars of devastation in Europe in the thirteenth century.

Some European scholars have combatted this theory, which was put forward some years ago, but in any case the question is likely to be definitely settled at no distant date.

The Mongols first became known and feared in Europe by the conquests of Jenghiz and his house in the thirteenth century. The Huns were the first wave of Mongols to burst over Europe. They even broke into Italy. Before the middle of the thirteenth century the Mongols had conquered all Russia and Poland and all Eastern Europe. Liegnitz, the battle which left Europe helpless before the Mongols, was fought in 1241.

Sure Regulators.—Mandrake and Dandelion are known to exert a powerful influence on the liver and kidneys, restoring them to healthful action, inducing a regular flow of the secretions and imparting to the organs complete power to perform their functions. These valuable ingredients enter into the composition of Parmelee's Vegetable Pills, and serve to render them the agreeable and salutary medicine they are. There are few pills so effective as they in their action.

JOHN MURPHY & CO.

Week End Bargains!

Every once in a while someone sends us a letter or a postal card asking that Priestly's Silk Warp Henriettas or some other specified article be made a Week End Bargain right away. Usually we can't do it.

Our Week End Bargains are not "MADE TO ORDER" by marking the values away up and cutting regular prices down just a few cents.

The kind of Week End Bargains we offer are born, not made, they are the result of a condition or an opportunity. One of these things has to happen before a Week End Special can come into existence.

FIRST—We must buy more goods than we can sell in the regular way.

SECOND—We must find somewhere in the market, a small lot of something seasonable and desirable, which we can get very CHEAP and don't want to put into a regular stock.

THIRD—We must want to close out what remains of some line of goods altogether and make quick work of it.

Any One of These Contingencies will Produce a Week End Special

Which will be so substantial a money-saver as to be worth coming for.

RAILWAY NEWS

DEPARTURE OF THE EXECUTIVE.

Sir Charles Rivers Wilson, president of the Grand Trunk, and Mr. Joseph Price, vice-president, started this morning on an inspection trip over the Central Vermont Railway, preparatory to their departure for England. They were accompanied by Mr. E. H. Fitzhugh, vice-president and general manager of the Central Vermont. It is probable that at New York the executive chiefs will be joined by Mr. Charles Hays, general manager; Mr. Charles Percy, treasurer; Mr. F. H. McGuigan, general superintendent of motive power, who are at present in Detroit. As announced in yesterday's Herald, Sir Charles and Mr. Price will sail from New York by the White Star steamer Oceanic on Wednesday next.

HOTEL FRONTENAC ENLARGEMENT

Mr. T. G. Shaughnessy, president of the Canadian Pacific Railway, returned yesterday afternoon from Quebec, where the question of the enlargement of the Chateau Frontenac engaged his attention. The new wing which is to be added to the building and the other improvements will, it is estimated, involve an expenditure of about $200,000.

SUBSTANTIAL RAILWAY BUILDING.

The Canadian Pacific Railway Company have done a sensational piece of railway construction on Red Mountain, just below Le Roi dump, and parallel with the Spokane Falls and Great Northern Railway. Instead of locating and laying a trial line and letting it out by contract after the grades had been obtained, the company's engineering staff took the matter in hand, and the locating, surveying and grading all went on at the same time. This hastening of the work was due to the fact that the Great Northern had already surveyed the identical line on which the Canadian Pacific is now pushing forward the work. The company's purpose was to secure the shipments of the big second dump of the Le Roi mine and the supplying of wood, coal and timber to the Black Bear boiler houses where steam sufficient to drive machinery of 2,000 horse power is generated. Such was the activity of the engineering staff that the line was almost completed before the Great Northern officials knew that the work was being done.

G. T. R. WINTER FAST SERVICE.

A circular has just been issued by the passenger department of the Grand Trunk Railway Company with reference to the winter port steamship service by way of Portland, Maine, and Halifax, N.S. Passengers embarking at Portland for points west of Montreal are advised to time themselves to reach this city not later than to connect with train No. 4 at 8.30 p.m. on the day before the steamer sails from Portland. Passengers embarking at Halifax from points west of Montreal should time themselves to reach this city not later than by train No. 4, due here at 6 p.m., on the Friday previous to the sailing date of the steamer from Halifax. Passengers sailing via steamship Parisian, December 7, should reach Montreal not later than by train No. 4, 6 p.m., December 6. Passengers sailing via steamship Tunisian, December 14, should reach Montreal at 6 p.m. Thursday, December 13. Passengers from east and south of Montreal, not passing through this city, should connect with the I.C.R. train, which leaves Bonaventure station Friday noon to connect with the steamer sailing Saturday, or with the same train leaving Montreal Thursday to connect with the steamers sailing December 7 and 14.

REFUSED GOVERNMENT POSITION.

Mr. Frank Sargent, who is well-known among Canadian railway men as chief of the Brotherhood of Locomotive Firemen, has just refused the position of chief of the Government Bureau of Engraving and Printing. He prefers to remain as heretofore head of the labor organization.

NEW G. T. R. LOCOMOTIVES.

Two more of the new series of mogul locomotives will be turned out on Saturday from the Grand Trunk workshops at Point St. Charles, and it is expected that the eleven engines which yet remain to complete the order placed during the summer, will be finished before the end of the year. This with the contract now being filled in the United States, will give the company fifty new engines to start the year with.

FILIPINOS AND ENGLAND.

United States May Ask England to Suppress Junta at Hong Kong.

Washington, Nov. 22.—A friendly exchange of views has taken place between England and the United States with regard to the Philippine Junta, or Committee, at Hong Kong. The British Government may be asked to suppress this body, which is supposed to be carrying on work inimical to American interests in the Philippines, and if such a request is made it is more than likely the British Government will accede to it.

Some time ago it was represented to England that Philippine agents at Hong Kong were exporting arms for the insurgents from that place, and the British authorities there were very promptly instructed to stop any such traffic immediately it came under their notice.

These facts indicate a very satisfactory state of relations between Great Britain and the United States.

A FAMILY TRAGEDY.

New York, Nov. 22.—Thomas Farley, a tinsmith, and his wife, were found dead in their rooms in a tenement house yesterday. Both had been shot through the temple. There is every reason to believe that the man murdered his wife and then killed himself. Farley was 35 years old, and his wife about three years younger. The shooting was done some time between 10.30 o'clock last Sunday morning and noon yesterday, when the bodies were found. The janitress of the tenement went to the landlord yesterday and told him she feared something had happened to the Farleys, as she had not seen them since Sunday morning. She said Mrs. Farley came down to her flat at 10.30 that morning. Her face was cut and bruised and both eyes were blackened.

"My husband is after giving me an awful beating," she said to the janitress, "can I stay here till he gets over his rage?"

Permission was granted to her, and after a little while she went back upstairs.

No cause is known for the double tragedy.

GOOD ROADS ASSOCIATION.

Chicago, Nov. 22.—The convention of the National Good Roads Association here yesterday completed a permanent organization. The present name will be retained and the headquarters will be here. Among the honorary vice-presidents are Andrew Patullo and A. W. Campbell, representing Canada.

COURT INSISTS ON GENERAL CHARGE

Refuses to Have Specific Allegations Made Against

M'GILLIS AND M'CULLOUGH.

The Cold Storage Case Opens in the Queen's Bench, and Inspector Stewart Gives Evidence.

After the formal opening of the Court of Queen's Bench this morning Justice Hall said he would grant Mr. Quinn's motion to exclude all witnesses but the one actually giving evidence before the Court, also that the witnesses should not communicate to each other any of the evidence or read any of the reports printed in the newspapers.

The Court was fairly full at a few minutes past ten. The chairs round the counsellors' tables were all filled. McCullough walked slowly up and down the space at the back of the box for the accused. McGillis stood in a corner at the front. He looks nervous and rather careworn. Mr. Quinn at once asked Justice Hall to allow the accused men to sit down. They were very weak, and to stand all day would be a big strain. Chairs were brought and they sat.

J. P. Cook, Q.C., and T. C. Casgrain, Q.C., represent the Crown; H. C. St. Pierre, Q.C., and E. B. Devlin, Q.C., defend McGillis; M. J. F. Quinn, Q.C., F. S. Maclennan, Q.C., and J. G. H. Bergeron, Q.C., defend McCullough.

The jury, six English and six French, is composed as follows: — John Metcalf, Louis Lepine, Joseph Dubuc, F. Kearns, Charles Gauthier, James Brown, Moise Audette, George Smith, George Stump, Laurent Morin, Thos. Oakes and James Schultz.

The evidence is being given in English. It is exhaustive, and as each question and answer, each document read, each explanation of the systems that governed the transaction between the Merchants' Bank of Halifax and the other parties concerned in the case, has to be translated into French for the enlightenment of the French jurors, the trial will last many days.

MR. STEWART'S EVIDENCE.

Mr. D. M. Stewart, Merchants Bank of Halifax inspector, was the first witness called. Answering Mr. Cook, he said he had been inspector since May, 1899. He knew the accused men—Chisholm, McGillis and McCullough. The bank discounted Croil & McCullough's notes. He explained to the jury the use of warehouse receipts. It was one of the regular transactions of the bank to lend money on the security of goods, and these goods were borrowed upon in the form of a warehouse receipt issued by the company in whose warehouse the goods were stored. A large business of this kind was done by all banks. A blank form of receipt was identified as the usual form. Mr. Stewart identified the signatures of McCullough and McGillis. He stated that the cheese was usually worth about 15 per cent. more than was loaned on it. All the rights to that cheese went to the bank with the receipt, without which no one could get possession of the goods. Exhibits C11 to C17 inclusive were recognized by the witness as bills of exchange discounted by Croil & McCullough. He explained the system of duplicating bills. Two exactly similar were forwarded by different mails. If one was lost the other was good. This referred to the sending of bills to Campbell, Shearer & Co., London. A statement was produced marked A1, showing alleged differences between the number of boxes of cheese on the receipts and on the stubs in the receipt books. Counsel for the defence objected to this statement and asked for the stubs themselves. Mr. Stewart was ordered to read this exhibit over. Roughly, it shows a difference of 20,000 boxes between the receipts and the stubs.

A LEGAL ARGUMENT.

The last half hour of the morning session was taken up by a triangular argument between the counsellors.

Mr. Quinn asked that the specific charge against McCullough should be written out and given to his counsel. He claimed that evidence was being given which should not be allowed to weigh against McCullough. It might concern McGillis, but it had no connection with his client. Mr. St. Pierre asked for particulars of the charge against McGillis. Mr. Cook verbally stated the general charge. Mr. Quinn objected, and asked for the charge against McCullough to be given separately. Justice Hall said the general charge against the two accused would be furnished to counsel, but not any specific charge against either McCullough or McGillis. Regarding the hearing of evidence that might not have connection with McCullough, it was impossible to exclude it. When the time for addressing the jury came, it would be for the counsel to point out what had or had not to do with his case. Mr. Quinn said he reserved the right to object to evidence, as the case proceeded, that should not be put in against McCullough.

HIS LEG WAS CUT OFF.

Howick, Nov. 22.—(Special.)—Mr. Frank Dunning, who acts in the capacity of Grand Trunk agent at Bryson's, sustained a serious and painful accident this forenoon. In attempting to board a local freight train he missed his footing and fell under the caboose, his right leg being cut off below the knee. He was taken in to Montreal General Hospital this afternoon.

KNOCKED OUT FIRE ALARM SYSTEM

(See Also Page 11.)

The fire alarm system was last night completely demoralized. The wind at an early hour had attained a remarkable velocity, and at 6.40 in the evening the work of destruction commenced. One after another the various lines of communication with the central depot at the City Hall were cut off, with the result that at 2.30 a.m. not a single alarm could be sounded. When this condition of affairs was brought to the attention of Chief Benoit—as it was immediately—he ordered his men in the various stations to patrol their districts in search of fire. This they did throughout the remainder of the night. The chief says he is afraid to contemplate the awful havoc that might have been engendered had a fire got any headway with the wind blowing at the rate of seventy-two miles an hour.

EFFECT ON THE RAILWAYS.

While the storm had a considerable effect on the trains both of the Grand Trunk and Canadian Pacific Companies, there was no general disorganization of traffic. The headlights of many of the locomotives were smashed and the cab of the engine of an express train was blown off, but both engineer and fireman escaped without injury. The window panes of some of the coaches were shattered, but the breaking glass seems to have injured nobody as far as report. Both last night and this morning local trains were delayed somewhat.

The C.P.R. Halifax express, due here at 8.30 a.m., did not arrive until a quarter to one o'clock; and in connection with the trip a curious incident was reported by the officials. With the exception of the delay caused to the train, the incident can hardly be put to the credit of the storm. The train brought up from Halifax the Numidian's passengers, and amongst them was an Austrian family—father, mother and four children. The father and mother left the train at Farnham for the purpose of making some purchases, and when they returned to the station they found the train gone with their four children. The wires were set in motion, and the immigration department were apprised of the facts. Inspector Alphonse Regimbault was at the station when the train arrived and took possession of the four little travellers, the eldest of whom was apparently about 8 years, and the youngest six months. Mr. Regimbault at once saw to the little ones being fed and otherwise cared for, and they seemed in no way distressed at the absence of their parents, who are expected to arrive here about 9 o'clock to-night.

Kingston, Ont., Nov. 22.—(Special.)—The wind blew furiously last night, and fences, trees, sheds, smoke stacks, and all things within the sweep of the gale were levelled. A house on York Street was overturned, and a large smokestack in More's elevator was knocked down. So far no great disasters are reported.

THE YAMASKA RISING.

St. Hyacinthe, Nov. 22.—(Special.)—The Yamaska River has risen over five feet since yesterday, and the inhabitants along the river bank have had to remove their household goods. At the time of wiring this morning the water has slightly subsided, but is still extremely high. There is, however, no apprehension of further damage.

CANADA ATLANTIC SUFFERS.

Coteau Landing, Nov. 22.—(Special.)—A big storm has raged here since yesterday afternoon and has done considerable damage to property. The light house of the Canada Atlantic Railway has been blown down, and the piers of the elevated railway have also been demolished, causing heavy damages. At nine o'clock last night the velocity of the wind was so great that it upset the carriage of the returning officer for the provincial election, who was on his way to establish polling sub-divisions. He escaped uninjured, but unfortunately upset in the ditch, which was full of water, and got a soaking.

SIR WILFRID'S MOVEMENTS.

Ottawa, Nov. 22.—(Special.)—Sir Wilfrid Laurier will return to Ottawa to-morrow. A meeting of the Cabinet has been called for the afternoon.

INFECTIOUS CASES NOT REPORTED

Dr. Laberge, medical health officer, is inclined to believe that cases of infectious disease are not reported to the department as promptly as they mighth be. This surmise is, he thinks, particularly valid as regards the authorities of the several hospitals, and he has consequently issued a private circular calling upon those interested to report with the greatest possible despatch any cases of infectious disease that may come under their notice. He trusts that this notification will have the effect of stemming a constantly growing evil—the desire to conserve from publicity the existence of contagious disease.

DEATH OF MR. W. H. RYLAND.

Registrar of Montreal, West Division, Passes Away from Heart Disease in His 65th Year.

Many will have read with regret the announcement of the death of Mr. Warwick Hastings Ryland, Registrar of Montreal, West Division, which occurred yesterday. Mr. Ryland was in his sixty-fifth year, and had been ailing for the last two years. He suffered from heart trouble and other complications. He ceased attending his office a week ago last Monday.

The deceased gentleman came of an old English family, his grandfather having come to Canada as secretary of Colonial Council. Mr. G. H. Ryland, deceased's father, was Registrar of Montreal West for many years and was succeeded at his death, about fifteen years ago, by his son, who had previously been acting as deputy registrar. One of deceased's brothers, Captain Ryland, was lost in the steamer City of Boston some years ago, and another lives in Quebec. A sister, Mrs. Lowe, also survives. The late Mr. Warwick Ryland married a daughter of the late Senator Kaulbach, who died some years ago. He leaves no children. Deceased was a fine specimen of the old-fashioned English gentleman, a keen sportsman, a man of very strong opinions on many questions, but of a most courteous and amiable disposition.

THEATRE FRANCAIS MUST BE REPAIRED AT ONCE

City Building Inspector Chausse is out of the city, but his assistant, immediately after the catastrophe which occurred at the Theatre Francais yesterday afternoon, notified Mr. Daniel Ford, the proprietor of the ruined building, that the walls still remaining would have to be secured against further damage within forty-eight hours, in accordance with the provisions of the by-law governing such matters.

DR. RODDICK'S MAJORITY REDUCED

The recount of the ballots in St. Antoine Division commenced this morning behind closed doors. At noon it was learned that ten polls had been examined, with the result that Dr. Roddick's majority had been reduced by five, with decision suspended in the case of five other ballots. The proceedings will probably last all day to-day and to-morrow.

WHO IS THIS OLD MAN?

While on their way to work this morning some employes of the Montreal Warehouse came upon the body of a man lying at the corner of Colborne and Wellington streets. The coroner was notified and immediately had the body removed to the morgue. The body is that of a man about 60 years of age, is dressed in a navy blue shirt and black suit, and has all his clothes initialled "C." The remains are awaiting identification at the morgue.

MR. J. A. SHEFFIELD DENIES.

Something like a sensation was caused in Montreal railway circles this morning by the report, for which an Ottawa paper is responsible, that Mr. James A. Sheffield, for many years superintendent of the dining and sleeping car service of the Canadian Pacific Railway, and supervisor of the company's hotel, is about to sever his connection with the company and to accept a position on one of the United States railways in which Sir William Van Horne is interested.

President Shaughnessy, when shown the statement to-day, said he had heard nothing whatever of such a change having either taken place or being in contemplation.

Mr. Sheffield, when questioned on the subject, declared emphatically that there was no truth whatever in the report.

The report, circulated by the same authority, that Mr. Hayter Reed, the manager of the Chateau Frontenac at Quebec, has been given the supervision of all the C.P.R. Company's hotels, turns out to be equally devoid of foundation.

ARCHIE GAMPBELL FOR MAISONNEUVE

If Mayor Prefontaine has anything to say about it—and no one can doubt that he has a good deal to say—Mr. Archie Campbell, ex-M.P. for Kent, Ont., will be the next member for Maisonneuve in this Province.

When The Herald's representative wended his way into the Chief Magistrate's office this morning, the Mayor was as usual ensconced in his high-backed chair, and upon his face there was that benignant smile that is so characteristic. From general matters the conversation soon drifted to the Mayor's intention as to the two constituencies—Terrebonne and Maisonneuve—in which he was elected early this month. A number of rumors in connection therewith were mentioned.

"No," observed His Worship, with a declamatory gesture, which immediately swept them all aside, "but there is a rumor—and one which may have some foundation in fact—that I am going to sit for Terrebonne and assist in the election of Archie Campbell in Maisonneuve just to show the people in Ontario that their compatriots in Quebec are not one whit less liberal than they."

"But are you going to resign Maisonneuve in Mr. Campbell's favor?" pursued the reporter.

"Well," rejoined Mr. Prefontaine, "if it rests with me I shall certainly do so. But nothing can be done until Parliament meets. Then, if my former constituents are agreeable, I shall be pleased to drop out of Maisonneuve to make room for Mr. Campbell."

The Mayor spent yesterday in Terrebonne renewing acquaintances with the people of the Conservative constituency in which he recently achieved so signal a victory.

Mr. Archie Campbell has been a Parliamentarian since 1891, when he was returned for Kent County, Ontario, by a majority of 849 over his Conservative opponent. At the general election in 1896 he was again returned at the head of the poll. When the House was dissolved this fall, Mr. Campbell, having moved to Toronto Junction, where his milling interests are concentrated, decided to stand in the Liberal interest in West York—the constituency which had been represented continuously by Clarke Wallace for over twenty years. At the general election of 1896 Mr. Wallace's majority was 4,068, with a Conservative and Patron in Opposition; this time it was reduced to 900. In his canvass Mr. Campbell was met with all the arguments of bigotry and race hate which could be used in an essentially Orange constituency, and, having stood for liberality of thought and equal rights for all races and creeds, it would, as the Mayor now points out, be an exceedingly fine compliment if he were elected in a French and Catholic constituency.

SOME ELOQUENT FIGURES.

During the Provincial election campaign of 1891-2, which followed the dismissal of the Mercier administration, the Hon. Mr. de Boucherville and his colleagues, one of whom was the Hon. Mr. Flynn, now leader of the Opposition, undertook to, if sustained by the people, restore an equilibrium between receipts and expenditures, without imposing taxes. In the first session which followed the general election of March 8, 1892, new taxes were imposed, and during the period of Conservative rule, between 1892 and 1897, the proceeds of these new taxes amounted to $2,262,452, an average of about $450,000 per annum. With this increase of revenue, Mr. Hall, the Treasurer of the day, professed to be able to balance the receipts and expenses, without incurring further indebtedness. The Opposition, led by the late Mr. Marchand, criticized the action of the Government with some severity, and it was pointed out that, even if taxation had been necessary, which Mr. Marchand emphatically denied, the new taxes were inequitable, discriminating unjustly against the citizens of Montreal and Quebec, and forming a most unwholesome restriction upon trade in the Province.

However, all might have been well—or at least less ill—if Mr. Hall, in his earnest desire to keep faith with the electors, had found sufficient sympathy among his colleagues; but the virtues which he inculcated with temporary success proved no permanent bulwark against the seductions of office. The first year closed with a deficit of $14,828, the proceeds of the new taxes during the same period amounting to $493,591. This was a near approach to the goal of equilibrium, and would have inspired a truly patriotic administration to fresh efforts; but it had not this effect upon Messrs. Flynn, Pelletier and Nantel, who may be set down as composing the extravagant element in the de Boucherville administration. Six months of thrifty administration proved as much as they could stand. The first step on the road to extravagance was taken when Mr. de Boucherville retired from the head of the Government and was replaced by the well-meaning, but unpractical and lamentably weak Mr. Taillon. The second year closed with a deficit of $230,202, although the new taxes had netted $518,406. The history of Mr. Hall's retirement and the subsequent withdrawal of Mr. Taillon himself and the last remaining sincere advocate of economy, Mr. Casgrain, has been repeatedly told. The following figures are eloquent:—

Years.	Expenses.	Receipts.	Deficits.
1892-93....	$ 4,492,106.21	$ 4,467,378.21	$ 14,828.00
1893-94....	4,550,629.50	4,320,427.22	230,202.28
1894-95....	4,506,633.31	4,343,971.65	162,661.66
1895-96....	4,515,268.52	4,359,594.91	55,673.31
1896-97....	4,907,281.71	3,923,238.70	984,043.01
	$22,871,919.25	$21,414,510.99	$1,457,408.56

During the same years the proceeds of the taxes were:—

1892-93	$ 493,591.75
1893-94	518,406.11
1894-95	487,398.45
1895-96	444,856.02
1896-97	318,290.22
Total for the five years	$2,262,452.55
Yearly average	452,490.51

The figures under the present Liberal regime have been:—

	Expenses.	Receipts.	Deficits.	Surpluses
1897-98....	$4,415,370	$4,236,015	$179,355	.....
1898-99....	4,199,700	4,249,589	.....	$49,889
1899-1900..	4,403,524	4,421,716	.....	18,202

TERMINAL FACILITIES AT MONTREAL.

Montreal visitors to the harbor of Quebec on the occasion of loading the first ship with western grain brought over the Canada Atlantic and Great Northern Railways were much impressed by the completeness of the terminal arrangements at that port. A modern elevator of large capacity has been erected and equipped with the most modern appliances for receiving, handling and delivering cargoes. A system of conveyors has been provided, so that grain can be delivered to any ship arriving at the dock, whether immediately beside the elevator or at a distance from it. It is something of this nature that must eventually be provided for Montreal. The business of handling grain here has until now been done by floating elevators, the use of which involves a charge upon the route whch is greater than it need be, and is therefore a hindrance to the development of the trade by this route. The floating elevator monopoly has been made possible, and indeed inevitable, by conditions which are not found elsewhere on the American seaboard. At Boston, for example, there are three principal dock locations, each served by one railway system and by that only. A steamer connecting with the Fitchburg railway system, for example, would get all its cargo from that system. A steamer coming to Montreal may get part of its cargo from the Canadian Pacific Railway, part from the Grand Trunk Railway, part from the Canada Atlantic barges connecting with the elevators at Coteau, and part from barges which begin their journey at Kingston or Prescott. It is out of the question for any one of these agencies to provide accommodation which would be used by all, and yet it is precisely such an agency, which will give accommodation to all these feeders, that is required. The strength of the floating elevator monopoly has been in the fact that it answers this purpose better than anything else as yet provided.

The G.T.R. has its elevators, but the ships do not go to them. The grain is loaded into barges and sent to the ship's side. The C.P.R. has its elevators, but the ships do not go there either. The grain is again loaded into barges and sent to the ship's side. The barges coming down the river are also sent to the ship's side. But there is evident waste in all these cases. In the case of the railways there is a sheer loss by loading and unloading barges. In the case of the canal trade there are heavy losses whenever the barges have to wait for the ships, which sometimes are days overdue.

What is required to cut this item of expenditure in two is an elevator, or a system of elevators, if necessary, which will receive grain from both railways and from the barges as well at a small charge, the grain being put into the ships by means of a system of conveyors such as they have provided in Quebec. How to provide these facilities is the problem. An elevator to receive grain from the canals and the railways can hardly be given over to one of the railways or to a company in which any of the conflicting interests might secure control. Discrimination would then become possible, and discrimination ought to be, and indeed must be, avoided. It is suggested by prominent grain dealers in Montreal, and with good show of reason, that the work of providing and operating such a system might with advantage be added to the other duties of the Harbor Trust. Probably this question will be seriously considered by the Corn Exchange and other representative bodies before very long. The principal gain to be expected from such a proceeding would be that the cost of handling freight at the port would be largely reduced. It matters little into whose hands the saving goes, whether that of the exporter or the carrier, as the saving makes it easier for the Montreal route to compete against other routes for the carriage of grain. The advantage would improve this port and all its connections.

THE CHINESE EDICT OF PUNISHMENT.

The Imperial edict ordering the punishment of the officials responsible for the Boxer rising in China shows that the Chinese authorities have at last realized the hopelessness of defying the will of the united Powers, but the concession, reluctantly and grudgingly given, is a very small instalment of what is due. While there was still the possibility of dissension, the advisers of the Emperor and Empress Dowager treated the representations of the Powers with contempt, and had the concert been broken they would have conceded nothing; but after the Anglo-German agreement it was no longer possible to bid the world defiance. The keynote of that agreement was the maintenance of the territorial integrity of China, and the principle of the open door. Once it was demonstrated that these great nations did not aim at despoiling China of any of her possessions, but were determined to insist upon the punishment of the leaders in the recent conspiracy and the establishment of good government in China, the Powers were able to act in harmony. It certainly cannot be said that the punishment meted out to the ringleaders in the atrocities is excessive. Prince Tuan and Prince Chwang should have paid the penalty of their misdeeds with their lives, and several others ought to have been placed beyond the possibility of doing further mischief. Prince Tuan, who is the father of the heir presumptive to the throne, General Tung-fuh-Siang, the commander of the Kansu troops, and the Grand Secretary of State Kang-yi, and Prince Chwang were especially notorious for their hostility towards all civilized people. This quartette of imbecile fanatics exercised a dictatorial influence over the Empress, who was simply a tool in their hands. Official papers are now in the chancelleries of the Powers showing that these persons incited the Boxers to brigandage, pillaging, robbing, and murdering the Christians and the peacable inhabitants who refused to take part in or supply funds for their orgies. These proceedings were carried on in the midst of unparalleled anarchy, the pillagers firing at one another, and the soldiers shooting each other down for the best booty. The Legations themselves only escaped by a combination of favorable circumstances which no human being could have foreseen. "If," says M. Pichon, the French Minister at Pekin, in a remarkably graphic and stirring narrative of the siege, "the diplomatic body had gone, as they intended, to the Tsung-li Yamen on the 20th of June, not one of them would have escaped death." The French, German and American Legations were deserted only just in time to save their inmates from massacre, and an opportune and unexpected discovery of wheat and rice in the abandoned houses saved the besieged from starvation. Kang-yi appears to have escaped the vengeance of the Powers for his share of responsibility for these proceedings, by death from illness; and nothing less than the death penalty is the due of Prince Tuan, Prince Chwang and Tung-fuh-Siang.

RAISING OF SUGAR BEETS.

The Peterborough Examiner, owned by Hon. J. R. Stratton, says:—

"Before very long the Ontario Government will begin the consideration of its programme of legislation for the next session of the Provincial Assembly. One bill which it is certain, even at this early date, will be introduced will be that to permit grants of land to citizens of the province who served in the South African contingents. There is an impression in agricultural circles that legislation of some sort to encourage the growing of sugar beets may find a place among the Government's measures next session. Any aid which the Government could give, would not, it is thought, be applied towards the manufacture, but would rather be in the direction of encouraging the farmers to grow beets suitable for the production of sugar. This might be done by distributing seed to agriculturists or making a small money grant per acre for the raising of beets. Hon. Mr. Dryden has for some time past been seriously considering the question of what can be done to encourage beet raising, but has allowed no inkling of his plans, if he has made up his mind on the subject, to escape."

A NASTY CAMPAIGN.

The Brockville Recorder says: "The Montreal Star conducted a very nasty campaign. From start to finish it banked on the effect of its appeal to the prejudice of one class of the people. It made no appeal to either patriotism or honesty, but day in and day out it attempted to inculcate in the minds of the electors that poison which it hoped would cause them to forget all else in the height of their passion. The Star addressed the English-speaking people, while its French edition, Le Journal, printed in the same office, was made to perform a like duty among the French-Canadians. The result in both cases has been a humiliating rebuff. Will the Star profit by the lesson, and will the electors who were deceived by its vicious stirring up of strife come to themselves on sober reflection?"

FROM ONE POINT OF VIEW

The London 'bus is doomed; as soon as the necessary arrangements can be made the humdrum commercial, trolley will take its place on the streets of the English metropolis. Thus utilitarianism again triumphs over sentiment, and civilization scores another victory over time-honored tradition. The 'bus fought hard as became the sole survivor of old English customs; when menaced by a flank movement down Birmingham way it doggedly held its position, when confronted with rebellion and disaffection at home it sturdily maintained the attitude of scornful contempt sanctioned by the usage of years. "The 'bus," it said, "is, if not a bulwark of England's greatness, at least one of the mainstay's of her commercial life. We defy you to abolish it." A frontal attack in the County Council was the answer, and the 'bus went down to defeat with colors flying and prestige unsullied by a single innovation. How tourists will manage to get along without it, what substitute novelists and raconteurs will find to take its place time alone can tell. The London fog must lose its charm when viewed through the muggy panes of a street car instead of from the roof of an historic vehicle, in fact London fog and 'busses have been so inseparably associated that it would not be surprising if the one followed the other into disuse. London may be the better for the change, but the world at large has suffered an irreparable loss.

* * *

When next any one questions the practical results of missionary work it will be well to refer him to the story of an Alaskan Indian which has just come to light through a report to the Department of Justice at Washington. As first fruits of his conversion this untutored savage confessed to having committed a murder years before, aided the officials in securing proof which would convict him and willingly accepted the sentence of death passed by the court before which he was tried. The incident comes as a pleasing variation from the ordinary story of criminals who, sentenced to death, finally profess conversion, as well as a striking testimony to the power of Christianity, nor does the fact that the attorney general has recommended commutation of sentence diminish the value of its lesson.

The Sultan of Turkey, in the first flush of his rejoicing at the news of President McKinley's re-election, recently cabled a long message of congratulation—collect—and forwarded a choice assortment of figs and Turkish rugs to the White House. While no one has impugned the Sultan's ingenuousness, it is rumored in official circles that the gift would have been more acceptable had it taken the form of an instalment on that $90,000 award which Uncle Sam has long been desirous of collecting, not so much because he needs the money as because the Sublime Porte seems intent on not paying it. Smyrna figs and Turkish rugs are acceptable in any household, and can doubtless be put to good use in the executive mansion, but as substitutes for currency of the realm they have their limitations. This idea of turning away wrath by soft answers and staying official indignation by seasonable offerings is one which the Sultan has applied with distinguished success to the settlement of diplomatic difficulties.

The news that Miss Brandon, a Canadian young woman who has devoted much attention to wheeling, is still second in the six day bicycle race now being conducted in New York, will doubtless be gratifying to devotees of athletics throughout this broad Dominion. To ride a six day bicycle race is a task which many a sturdy sportsman would hesitate to set himself for a variety of reasons. As a test of endurance there are a dozen methods quite as effective, but lacking the gruesomeness, and for shortening life an equal number of more humane expedients. Except among the yellow journals and that portion of the public whose tastes run exclusively to the morbid, there is little demand for exhibitions, the majority of individuals prefering to take their horror through the natural channels of police reports. Still inasmuch as Miss Brandon has gallantly offered herself for the sacrifice the best Canada can do is to cheer her efforts and hope for the best.

POINTS ABOUT PEOPLE.

Thomas Sidney Cooper, R.A., who is now 97 years old, is still an active worker. This year he exhibited four pictures at the Royal Academy.

Mrs. Ayrton, of London, was the only woman delegate present at the sessions of the Electrical Congress recently held in Paris.

After eighteen years of exile Arabi Pacha has lost all desire to return to the land of his birth. He is now living at Colombo, Ceylon.

Brigadier General Bruce Hamilton, now serving in South Africa, has attained high army rank with unusual rapidity. Five years ago he was a captain.

The Prince of Wales has accepted the presidency of the Royal Naval School, Eltham, rendered vacant by the death of the Duke of Saxe-Coburg and Gotha.

Sidney Grundy is one of the most productive of dramatic authors. In one year he has been known to produce five plays. He began to write at 24 and he is now 52.

In what used to be the study of the late Prince Henry of Battenberg, at Balmoral, Queen Victoria has placed her collection of relics of the Jacobites. The room contains many pictures of the Stuart family.

Bjoernstierne-Bjoernson, the well-known writer, has just passed through an extraordinary experience, having slept continuously for forty-eight hours. The long sleep succeeded an attack of nervous prostration.

Professor Baldwin Spencer, of the University of Melbourne, has received twelve months' leave of absence to enable him to pursue his valuable researches into the customs and beliefs of the surviving tribes of blacks in the interior of South Australia.

The Prince of Wales has lately amused himself by collecting pens of famous writers of the Victorian era. He has one that belonged to Tennyson, one of Browning's, of Swinburne's, of Hardy's and fifty or sixty more, including a curious inkstand once the property of Robert Louis Stevenson.

Edmond Rostand is the only dramatist who has done well in Paris during the exposition. "L'Aiglon" and "Cyrano de Bergerac" having kept Sara Bernhardt's theater and the Porte St. Martin filled. His author's rights for the hot month of July were $6,500, and for August $6,000. It is estimated that he has made $400,000 since the first night of "Cyrano."

Max Schoenfeld, a former Philadelphian, but now a resident of Rorschach, Switzerland, has given $10,000 to the National Farm School of Doylestown, Pa., to be used in the purchase of farms, which are to be rented to graduates of the school, thereby giving them an opportunity of practically demonstrating the value of the instruction they have received.

SOME POLITICAL ITEMS.

Liberal Candidates.

Dr. L. J. Lemieux, who has just returned from the county of Gaspe, where his eloquence and energy were effectively directed towards aiding in the triumph of his brother, Mr. Rodolphe Lemieux, has been requested by numerous influential electors of the county to be the Liberal candidate for the Local House. Dr. Lemieux, after due consideration, has accepted, and will return to the county at once. It is not expected that Mr. Flynn, who has represented Gaspe so long, will remain in the field against Dr. Lemieux.

Mr. Moody Lovell, son of Mr. A. H. Moore's victorious opponent in Stanstead, on November 7th, will run in the Liberal interest against the Hon. Michael Hackett. Mr. Lovell gave Mr. Hackett a very hard fight in May, 1897.

Mr. Achille Bergeron, the Liberal candidate in Beauharnois, is a sure winner. It is very doubtful if Mr. Plante, the retiring Conservative member, will oppose him. Mr. Bergeron will be a welcome acquisition to the Quebec Legislature, in which the standard of the members has been rising steadily of late years.

In Sherbrooke.

Sherbrooke, November 22.—(Special.)—It is definitely settled that Mr. L. E. Penniton, the present member, will be the Conservative candidate for Sherbrooke. The choice of the Liberal standard-bearer will be made on Saturday afternoon next, at the City Hall. There are several prominent members of the party spoken of, all of whom are said to be eminently qualified to do honor to the constituency. The most likely candidate, however, will be Dr. Pelletier, who, if he will accept the nomination, will wage a hard fight and capture this seat, for he is regarded as a strong man.

Quebec District Nominees.

Quebec, Nov. 22.—(Special.)—Of the 34 counties in the district of Quebec, only three Conservative candidates so far are out, and one of these, Mr. Carbray, who will oppose Mr. John Hearn, the Government candidate in Quebec West, admits that he will run as an Independent. Mr. Boufard, the present member for Montmorency, will seek re-election as also will the Hon. L. P. Pelletier in Dorchester. So far 21 Liberals are in the field. No candidate having yet been chosen in any of the following constituencies: Gaspe, Montmagny, Teminiscouata, Arthabaska, Nicolet, Wolfe, Richmond, Montmorency, Quebec East, and the Magdalen Islands. The Conservatives seem to be entirely disheartened, and will not take the trouble to fight with their usual energy. Mr. Flynn's manifesto regarding the unfairness of the present dissolution is scarcely regarded seriously even by his political friends. It seems to be a dernier resort of an opposition which can find absolutely no fault with the Government's policy and must resort to trivialties in order to secure even the semblance of an excuse to induce the electors to give their support. In the last parliament there were 22 Conservatives and 50 Liberals. Present prospects seem to indicate that when the new House assembles scarcely a corporal's guard will be left. The only danger is that Mr. Parent's majority will be so large as to be unwieldy.

The Chronicle to-night waxes humorous regarding Mr. Flynn's document. It says: "Mr. Flynn considers the dissolution is an attempt to destroy the constitution. It certainly looks like an effort to annihilate the constitutional Opposition."

Lachute Conservatives.

Lachute, Nov. 22.—(Special.)—About one week ago the Conservatives of the County of Argenteuil gave notice that a convention would be held in Olivet Hall, Lachute, yesterday, for the purpose of selecting a candidate. The party heartily responded, about fifteen or eighteen putting in an appearance. The president on sizing up the number came to the conclusion they would save the expense of hall and forthwith they meandered over to the West End Hotel, where the convention was held. A letter was read from Mr. Alexander Prudham, of Grenville, absolutely refusing to accept the nomination. This committee then chose Mr. Matthew Strong, Mayor of Mille Isle, and a committee of two was selected to wait upon him. In case he refuses the next to be interviewed will be Alderman Clearihue, of Montreal.

Mr. Bergeron's Candidature.

At a meeting of the Montreal Reform Club held yesterday the following resolution was passed: That the members of the Montreal Reform Club learn with great pleasure and gratification of the selection of Mr. Achille Bergevin, the associate secretary of the club, as the Government candidate in the County of Beauharnois. His election is confidently looked for as the opening of political career of great usefulness and promise, and a strong guarantee for the continued good government and sound administration of public affairs in the Province.

In Quebec East.

Quebec, Nov. 22.—(Special.)—A large number of the supporters of Mr. George Darveau, Liberal candidate in Quebec East, was held Monday at his central committee room, when the following campaign officers were elected:—President, Mr. Gaspard Rochette; first vice-president, Mr. J. A. Belanger; second vice-president, Mr. Leon Magnan; secretary, Mr. J. P. M. Dechene. Mr. Rochette, in addressing the meeting, asked the electors of Quebec East to support Mr. Darveau, who was a native and resident of St. Rochs, and from his experience in business perfectly understood the requirements of the industrial, commercial and laboring classes.

Mr. Darveau remarked that at a convention of Liberals held on the 11th October last he had accepted the Liberal nomination in Quebec East, and he intended to fight the battle until the end, and that with the aid of his friends he could rely on the result of the election, promising to always have at heart the general interests of the division.

Mr. Jos. Turcotte, advocate, also spoke in favor of Mr. Darveau.

Dr. Demers, of St. Octave de Metis, will be the Liberal candidate in the county of Matane at the forthcoming elections.

Mr. Cooke Chosen.

Three Rivers, Nov. 22.—(Special.)—The rooms of the Club Laurier were filled to overflowing on Monday evening, the object of the meeting being to select a candidate for the present election. The president, N. Guerin, called the meeting to order and invited nominations for candidates. Mr. R. S. Cooke was the unanimous and enthusiastic choice of the meeting. Being sent for, Mr. Cooke thanked the meeting for the honor conferred on him, and promised to uphold the Parent Government and work for the best interests of the city and district. A strong committee will be chosen, and substantial work done, so as to ensure the return of Mr. Cooke.

Huntingdon Candidates.

Huntingdon, Que., Nov. 22.—Liberal delegates of this county met in convention on Tuesday and chose W. H. Walker as their standard-bearer in the forthcoming Provincial election. Robert Ellerton, of Hemmingford, will also run as an Independent.

An Important Convert.

Quebec, Nov. 22.—(Special.)—L'Evenement is perfectly satisfied with the Parent Government, and announces to-night that the paper will not oppose its re-election, trusting that Mr. Parent will be able to do as well for the Province as he has done for the city.

Le Courier du Canada, the Conservative organ of Quebec, edited by the Hon. Thos. Chapais, "Quebec's future Prime Minister," as his friends say, is also likely to give an "independent" support to Mr. Parent. In its last issue it says:

"We shall soon be in a position to announce to our readers whether the Conservative party will make serious opposition to the Parent Government."

La Patrie Was Mistaken.

La Patrie some time ago cited as an instance of Ontario bigotry an extract from the Weekly Planet, of Chatham, Ont., which read as follows:

"The Weekly Planet, of Chatham, Ont., in its issue of October 31, in the fourth column of page six, publishes an article directly against our race. Read the following paragraph:

"You know, of course, that pigs are the only animals that speak French, and if you want to test it, the next time you see a pig, ask it "Parlez-vous Francaise, Monsieur?" and it will surely answer: "Oui, Oui.'"

"This insulting and ill-timed article is over a column long.

"The Weekly Planet is a Tory organ supporting Sir Charles Tupper and Mr. Foster."

It now appears that La Patrie was mistaken in imputing fanatical motives to the article in question. The objectionable passage is extracted from a "plate" story of a "pink pig and white pig," published in the children's column. It appeared in several Liberal papers also the same week.

Mr. Flynn for Compton.

There is a persistent rumor in certain quarters that Mr. Flynn, the leader of the Provincial Opposition, will be the Conservative candidate in the county of Compton. This is usually regarded as a safe Conservative constituency; but the party lost the seat in 1897 through the dissatisfaction of the French-speaking Conservatives at what they regarded as a breach of faith on the part of their English allies, who nominated an English-speaking candidate in contempt of an agreement to have a French candidate for the Quebec House. It is believed that the appearance of Mr. Flynn in the field would heal the breaches. The ex-Prime Minister is not having an easy time in his search for a constituency sufficiently appreciative to be sure of electing him.

Mr. Marchand's Care.

Le Soleil, the Quebec Liberal organ, is publishing some figures, exhibiting in a striking manner the care with which the Provincial Government, during the past three years, has made the regular sources of revenue supply the funds necessary for carrying on the government of the province. No friends of the administration were exempted from the obligation to contribute their share, and thus the revenues were augmented, and at the same time justice was done to the ordinary, uninfluential contributor. Under the Conservative regime, from 1892 to 1897, with the aid of the burdensome taxes imposed during the first year of the De Boucherville administration, the revenue fell from $4,391,770 in 1892-3, to $3,874,803 in 1896-7, a decrease of $516,967 in five years.

Under Liberal rule, and after the abolition of taxes imposed by the Conservatives, the revenue rose from $4,176,139 in 1897-8, to $4,421,716 in 1899-1900, an increase of $245,557. With the taxes of which the Conservatives had the benefit the increase would have been three-quarters of a million.

Revenue for 1899-1900, last year of Liberal administration	$4,421,716
Revenue for 1895-7, last year of Conservative administration ..	3,874,803
Difference in favor of Liberals..	$546,913

A Popular Speaker.

Quebec, November 22.—L'Evenement announces that the Hon. Jules Tessier will be in all probability re-elected by acclamation in Portneuf County "It is not the intention of the Conservatives," says L'Evenement, "to oppose him. Mr. Tessier has presided over the Legislative Assembly for the last three sessions with so much dignity and impartiality that he has made himself very popular on both sides of the House, and many important Conservatives will gladly see him re-elected by acclamation in the county of Portneuf."

The Richelieu.

Sorel, Que., Nov. 22.—(Special.)—The Liberal convention met at the Victoria on Tuesday afternoon to select a candidate for the Legislature. Three candidates were proposed—M. G. Larochelle, Recorder of St. Henry; L. P. P. Cardin, notary, Montreal, and Remi Plante, farmer, St. Marcel. The vote cast were for Larochelle, 28; Cardin, 22; and Plante, 14. Mr. Plante dropped out and a second ballot resulted in forty for Larochelle, and twenty-three for Cardin. Mr. Larochelle was declared the nominee. Mr. Cardin, when seen last night, said he was coming forward any way. The Conservatives will not put up a candidate.

St. Hyacinthe.

St. Hyacinthe, Que., Nov. 22.—(Special.)—The Liberal convention for St. Hyacinthe was held on Tuesday afternoon at the City Hall, and was presided over by His Worship Mayor Richer. The names submitted were, Mr. Jos. Morin, notary; Mr. J. B. Blanchet, Q.C., and Mr. A. Bourgault, advocate. The delegates on the first ballot chose Mr. Jos. Morin, who will make a capital candidate. He is a partner of Hon. Mr. Bernier; has been connected with the party organization for a number of years, and enjoys a well-deserved popularity.

Pontiac Nominations.

Ottawa, November 22.—(Special.)—The Liberal convention in Pontiac county was held yesterday, when Mr. D. Gillies was again nominated after a close contest with Mr. G. F. Hodgins, the vote being 22 to 21. Addresses were delivered by Hon. Thos. Duffy, Mr. W. A. Weir, M.P.P., Mr. Gillies and Mr. Hodgins. The Conservatives will choose a candidate this afternoon, probably Mr. G. Brabazon, defeated in the Federal general election by Mr. Thos. Murray.

In Chateauguay.

The nomination in Chateauguay will be held this week. It is not unlikely that Mr. F. X. Dupuis, advocate, of Montreal, will be chosen, as he is much spoken of for the nomination. Mr. Dupuis came from St. Anisette, which is just on the border of the county, and, from having lived in the English section, speaks the language fluently and is popular with the people of both races.

THE PREMIER'S POPULARITY.

The secret of Sir Wilfrid Laurier's popularity and influence outside of Canada is his national and imperialistic idea, when compared with Sir Charles Tupper's pettifogging parochial No. 6 pamphlet idea. Canada's Premier would see Canada a nation, a strong, united, harmonious whole; not a succession of provinces with diverse interests. This is the sort of statesmanship that appeals to great empires and arouses their sympathy and admiration.—Regina Leader.

"I'm getting along," said Mr. Cumrox. "I'm progressing slowly but surely." "In what?" "Culture. I've been travelling around with Mrs. C. and the girls until I'm getting right refined. But there's one thing I don't think I'll achieve. I don't believe I'll ever be able to go into an antique store and tell the difference between bric-a-brac and junk." — Washington Star.

THE FRENCH PRESS.

Great Day for Quebec.

La Patrie, Montreal, (Lib.) This (Saturday) is a great day for Quebec. The first shipload of grain for Europe is being forwarded from that port. For years Quebec has had an elevator and that elevator has been idle. Thanks to the Great Northern Quebec will henceforth get its share of the traffic of the West.

With all our hearts we applaud the progress in which the city of Champlain at length shares, as all other parts of the country.

The St. Lawrence is the natural route between the vast reservoirs of the West and Europe. Montreal, Quebec, Three Rivers, Sorel, are summoned to a development which would not have been thought of five years ago.

Let us have no petty quarrels. The more the St. Lawrence route is improved, the more traffic will flow thither.

Quebec can have, we believe, at least a month more of navigation than Montreal. It is a precious advantage.

We congratulate our sister city upon the new era upon which she is entering.

We will be permitted to add that the Laurier Cabinet and the present Prime Minister of the Province of Quebec are entitled to some gratitude on the part of the citizens of Quebec.

Getting Philosophical.

Le Courier du Canada, Quebec, (Con.) Why should we be discouraged? There was a time when prospects of success for the Liberal party were not brilliant. After the elections of 1875 and 1881, the Liberals only reckoned fifteen members in the Legislative Assembly. The Conservatives have never sustained such a crushing defeat in a provincial election. It was in 1897 that the Conservatives suffered their greatest losses since Confederation, and yet they succeeded in electing twenty-four of the party's candidates. With this little picked phalanx, directed by the Hon. Mr. Flynn, the Opposition encountered the Marchand Government with admirable courage, and from every Parliamentary contest it came forth with the honors of war, while the Ministerial party always returned from the field with its wings clipped.

The wounds the Liberal party received from the Opposition during the three past sessions were so terrible that it no longer dares to meet its adversaries, that it dissolves Parliament after three years and a half of rule, and that it intends to try to rid itself of the fighters of the Opposition by an unexpected stroke.

The Conservative Leadership.

La Patrie, Montreal, (Lib.) Our English fellow-citizens say that a straw shows which way the wind blows. This being understood, our readers will learn with interest that the famous Mr. Clarke Wallace has gone to join Sir Charles Tupper in British Columbia. A significant fact is that it is at the request of the old baronet himself that Mr. Bergeron's ally went West. It seems that the old leader wants to see how his mantle would look upon the shoulders of the mettlesome Orangeman. This appearance of predilection will probably irritate many of Mr. Wallace's competitors.

The most popular number rendered by the string quartette at the sacred concerts at Her Majesty's Theatre on Sunday last was Mr. DeSeve's own composition, "Angels Lullaby," for muted strings. There have been so many requests to have this number repeated on Sunday next that Mr. DeSeve has consented to do so. The vocalists who will take part are Miss Marie Terroux, soprano; Miss Sadie Dowling, contralto; Mr. Joseph Saucier, baritone, and Mr. Ed. LeBel, tenor.

The interest engendered in the coming of Sardou's drama, "Theodora," at the Academy of Music next week, is beginning to demonstrate itself at the box office of the theatre. The popularity of Mr. Melbourne MacDowell, who will appear as a principal, has served to cause the early demand for seats. The coming production of this play is its first visit to this city.

"A Celebrated Case" has proved a good drawing card at Her Majesty's Theatre this week. It will hold the boards for the balance of the week, excepting to-morrow afternoon and evening, when the company will present, under the auspices of the Ancient Order of Hibernians of America, "The Colleen Bawn." Next week the company will be seen in a revival of Bartley Campbell's "Galley Slave," commencing with a performance on Monday night. In the future the matinee days will be Wednesday, Friday and Saturday.

Various lots of splendid merchandise, that through specially advantageous buying, or because of our own radical reductions in price, crowd every floor of this building. We give but a few brief hints.

Our Big Half-Price Offering of Women's
Costumes, Jackets, Skirts, and Blouses.

A great many people didn't take us at our word when we offered this manufacturer's stock of Costumes, Jackets, Skirts and Blouses at Half price. They came as skeptics—only "to see what they had anyway." Most of them made a purchase, but not one of them left without being thoroughly convinced of the genuineness of our offer.

It's quite simple—you only pay half the price that is marked on the ticket. We'll give a few price details.

JACKETS—Most of them are Beaver Cloth, they are all well and stylishly made. Here are three of the prices: $24.00 for $12.00, $13.00 for $6.50, $9.75 for $4.88.

COSTUMES—There are some very handsome Costumes in this lot—you see we put the whole lot on sale instead of weeding out the best for a little extra profit—they are all here.
There is one very handsome Costume, worth $19.50, for $9.75, another worth $16.00, for $8.00.

BLOUSES—In Red or Black Cashmere, some plain, some with polka dots, newest styles; worth $3.00 for $1.50, $3.75 for $1.88, $4.50 for $2.25, $4.80 for $2.40.
In French Wool Plaids, $2.25 for $1.13, $3.00 for $1.50, $3.38 for $1.69.
In Black Lustre, worth $2.60 for $1.30.
In Black Sateen, worth $1.32 for 66c, $1.70 for 85c.
In Handsome Silks, worth $4.90 for $2.45, $7.50 for $3.75, $8.00 for $4.00, $9.46 for $4.70.

DRESS SKIRTS—A handsome showing, in Fancy Plaids, worth $4.50 for $2.25, $5.65 for $2.83.

All the above goods deserve a detailed description. They certainly make up an offering the like of which comes but seldom. But to tell all about it would take too much space to print and take you too long to read. The quickest and best way is to come and see.

A DOZEN SECOND FLOOR ITEMS
That Make Dollars Do Double Duty.

In our tour around the second floor yesterday we found these twelve items sticking out like the proverbial sore thumb. Guess you'll see their economy.

MILLINERY TRIMMINGS—A table of Colored and White and Black Wings, Birds, Fancy Quills, etc., worth up to $1.50, for 25c.

QUILLS—Long Curled Quills, all good shades, worth 10c, for 3c.

JET CROWNS—Only twelve of them left, worth up to $1.75. We'll clear the balance out at 25c.

JETTED TRIMMINGS — Wings, Butterflies, Aigrettes, Leaves, etc., all stylish, worth up to $1.50, for 25c each.

WHY NOT A BETTER UNDERSTANDING?

Max O'Rell Scores the French and English Press.

SAYS THEY MAKE TROUBLE.

An Interesting Pronouncement by the Able Frenchman on International Matters.

London, November 22. — Max O'Rell writes in the Daily Mail:—"When you read certain French and English papers, you would imagine that you lived in the Middle Ages, at a time when fighting was thought the only honorable occupation for a man to follow, no matter whether the cause was good or bad, and certainly not on the eve of the twentieth century, and much less still nineteen hundred years after the great message of peace was given to the world, a world the most so-called civilized portion of which are humbugs, who call themselves Christians, and whom the rest of the human race hate and despise, chiefly as hypocrites who, on every day of their lives, act in direct opposition to the principles of the religion they profess to follow. Mohammedans, Buddhists, they will all tell you this.

Now, I know that wars are a boon to newspapers, and that they more than double their circulation; but I modestly hold the opinion that mankind was not created and put into this world for the purpose of increasing the circulation of the dailies.

Men live, in these prosaic times, to have friendly and useful relations with their neighbors, and to do commerce with them. All they want is peace to gather their harvests and manufacture their goods, in order that they may make money to keep their families in comfort and happiness.

THE EXAMPLE OF LAW COURTS.

Men should fight for their honor, for their liberty and independence. All the other questions should be settled by diplomatists and international tribunals. Of course it will come to that, but this is only a digression.

All the difficulties that arise between individuals are settled by courts of law, and no one, in a civilized nation, is allowed to take that law in his hands. If a man robs you, you cannot knock him down unless he is trying to rob you with violence, in which case you act in self-defence and fight for your life.

Now, when a law suit is proceeding, the spectators listen to the debates without being allowed to influence or excite either side and they all bow to the decisions of the courts. But when diplomatists are trying to settle a dispute that has arisen between two nations, trying to convince each other by courteous and peaceful arguments, they have to do so in the centre of a ring of howling journalists, many of them absolutely ignorant of the real cause of the difficulty, who shout at them in the most discordant tones: "At him!" or "he'll fight, he will, he won't!" or again, "Scoundrel, coward!" until some one in the crowd pushes them against each other and practically compels them to fight.

A nation which is in the wrong, and knows it, and would like, if not to actually apologise, at any rate to withdraw from a claim she feels she is not entitled to, dares not do it solely on account of the newspapers, who are ever ready to trumpet into her ears that it is not combatible with a nation's dignity to acknowledge that she is in the wrong, and goes on exciting her until she draws the sword and fights.

BAD IN ENGLAND.

If I occupy your chair, and you come to me politely reminding me that it is your chair, I am occupying, and courteously asking me to let you have it, I will immediately apologise, rise and offer you the chair. But if you tell me: "I say, you have got my chair; get off this moment!" I will probably say to you: "Whom are you talking to?" And although I know I am wrong in occupying your chair, I will not let you have it without giving you a piece of my mind, and if there is a crowd of people around us, accusing me or you of being afraid to fight, the odds are ten to one that we shall fight, and for what? Why, for the occupation of that chair.

Nations have spent millions and millions of money and hundreds of thousands of lives for nothing more than the occupation of a chair, very often one not fit to sit on.

I assure you, my dear English readers, that the French are amiable, peaceful, home-loving, home-abiding creatures, who are quite as good as you. And, dear French readers, let me assure you that the English are a nation of industrious, persevering, hospitable, and charming people. All the intelligent French and English who have travelled know this. All the English people who have resided in France are aware of the truth of the statement, and we are thirty thousand French people living in England ready to vouch for the truth of it, too.

But those people have not the power to make the rest of their compatriots know it. Alone the newspapers can do it.

But, no, they generally prefer in England, never to lose the opportunity of treating their readers to the translation of any Anglophobist production that is published on the boulevards.

WORSE IN FRANCE.

And, in France—well, I must confess it is much worse still. The poor French people are fed on lies—for it is not everybody yin France who reads the "Siecle," the "Figaro," the "Temps," or the "Journal des Debats."

Is this the mission of the Press, the greatest power for good or evil of modern times? Why are not newspapers satisfied with giving news and remaining what they were intended to be—newspapers? Who wants their daily comments? Why do they keep alive international prejudices and animosities when they have it in their power to destroy them? They do not enlighten the intelligent and educated classes who know what to think of their neighbors, and they only disturb, deceive, and excite the ignorant and prejudice the masses.

Would it not rather be the first duty of the newspapers of France and England to teach their readers what the virtues of their neighbors are, to cement, respect and esteem between two races who, in spite of their past, and in spite of often clashing interests, are made to respect, esteem, and even love each other, were it only on account of their contrasts? Would it not behoove them to find the points of attraction and contact possible between two characters, both so noble, true, brave, industrious, intelligent, honest, so ardent in their love of justice and liberty, and in their efforts to further the progress and the happiness of the human race? Would not this be a task likely to make proud of themselves the men who undertook it?

Allons, Messieurs les Journalistes, un bon mouvement! Et, pour l'amour de Dieu, laissez-nous tranquille, nous sommes occupes, nous avons a travailler.

HE HAS TRIED IT.—Mr. John Anderson, Kinloss, writes: "I venture to say few, if any, have received greater benefit from the use of Dr. Thomas' Eclectric Oil, than I have. I have used it regularly for over ten years, and have recommended it to all sufferers I knew of, and they also found it of great virtue in cases of severe bronchitis and incipient consumption."

UNION LABEL MONTREAL No. 176

Meetings To-night.

Central Trades and Labor Council, at 662½ Craig Street.

Canadian Association of Mechanical Engineers, at the Monument National.

Brotherhood of Boiler Makers, No. 134, in Hibernia Hall, 2042 Notre Dame Street.

Stone Cutters' Union, at 1796 St. Catherine Street.

Executive Committee of the Federated Trades Council, at 560 Dorchester Street.

The Coremakers' Union.

The Coremakers' Union held their regular meeting last evening, President R. Lee in the chair. There were sixty members present. Fifteen new members were admitted and ten propositions received. They decided to hold their first annual social on December 4. Tickets will be sold at ten cents. Some excellent local talent has been secured for the occasion to furnish the entertainment. The Iron Moulders have decided to attend in a body, and the affair will doubtless be a success. There are now only fifteen or sixteen core makers in the city not connected with the union, and it is expected that these will be enrolled before the new year. Those who have not joined by that time will be charged an extra initiation fee. The union has decided to institute a sick benefit fund which will necessitate an increase of dues. It was resolved to authorize the municipal committee to act in connection with the Moulders' Union for the purpose of securing the contracts for the pumps for the Montreal Waterworks to city firms. The parliamentary committee were instructed to take steps to provide that Government contracts for castings for the harbor works be manufactured by firms employing union core makers, as well as union moulders, etc. The union congratulated the moulders on their selection of Mr. A. R. Mitchell for business agent, expressing the opinion that the interests of workers in the allied trades would be looked after in a proper manner hereafter. It was resolved to purchase hardware, stoves and other castings from firms which had adopted the Iron Moulders' Union, and to ask their friends to do likewise.

The Iron Moulders.

At last night's meeting of the Iron Moulders' Union, Mr. A. R. Mitchell, the newly-appointed business agent, reported that the Clendenning Company had signed the agreement relative to use of the union label, and had started to use it on the goods turned out by his foundry. This company is the first in Eastern Canada to adopt the Iron Moulders' label. Mr. Mitchell was instructed to communicate with all the labor organizations in Eastern Canada, asking them to patronize firms using the label in preference to others. The executive committee reported that they had begun preparations for the annual concert and ball. The moulders' drawing class devoted its attention to designs for stoves.

New Method of Voting.

Cigarmakers' Union, No. 58, owing to its rapidly increasing membership, has found it necessary to adopt a system of electing officers, somewhat similar to the method adopted by the great international unions to elect their executive officers. A returning officer is appointed who receives nominations and prepares the ballots, which are then distributed among the different shops in the city by men appointed for that purpose. After the ballots are marked the shop officer collects them and returns them to the returning officer. Each shop officer must account for every ballot placed in his hands for distribution among his fellow workmen and women. Severe penalties are provided for violations of the voting rules.

Thanks Montreal Union.

The Mixer and Server, the official journal of the Hotel and Restaurant Employes' International Alliance and Bartenders' International League of America, now issued in magazine form, is very much improved in appearance and typography. In the November number Dan Lorain, press correspondent of the Valleyfield Bartenders' Union, says: "We would like to give credit and our sincere thanks to the officers of Local 245, at Montreal, who were so kind and generous as to come here and assist us in perfecting our organization and installing our officers. Bros. Bourgeois, Lapierre and Charbonneault have rendered great service to us.

Compulsory Arbitration.

At the last meeting of the Metal Workers a resolution favoring compulsory arbitration was adopted. The president remarked that the tendency of the union was contrary to unreasonable demands, and he felt conciliatory methods would usually be to the advantage of workingmen. He believed the majority of labor organizations were always willing to evade violent conflicts which injuriously affected both workers and employers.

A Delegate Censured.

At the last meeting of the Toronto Trades Council, Delegate Charles March was censured for speaking from an old party candidate's platform.

Women Should Act.

Miss Jane Addams, one of the apostles of the social movements, says that if women were aware that they could stop the labor of their children by political action, they would be more earnest in their efforts to secure the suffrage.

Will Try Arbitration.

Jas. M. Lynch, the new president of the International Typographical Union, is in Chicago, conferring with representatives of the American Publishers' Association, with a view of arriving at an agreement whereby differences between employers and employes may be settled by conciliation by arbitration boards.

Plumbers' Social.

All workers employed in the plumbing and steamfitting trades are requested to attend the social in the K. of L., 662½ Craig Street, to-morrow evening. An enjoyable time is anticipated.

Prospects Are Brighter.

The prospects of the shoe workers of Quebec securing a settlement of their grievances seems to be more promising, the men having demonstrated their ability to stand together and prolong the strike indefinitely. The arbitrary attitude adopted by the manufacturers has enlisted public sympathy with the men.

Tailors' Union.

The Independent Tailors' Union met last evening, President Levi in the chair. A letter was read from the editor of the Labor Gazette, thanking the union for furnishing information in regard to rates of wages, paid in the clothing trade. The union is printing circulars for distribution for the purpose of inducing workers in the trade to join the union. Members will be allowed to join the union for 25 cents. This inducement is offered because the union wishes to secure sufficient numbers to improve the conditions in the ready-made clothing trade in Montreal. The Independent Union claims that the United Garment Workers have accomplished nothing so far, and that the union is not conducted in the best interests of workingmen.

A New Society.

Some of the iron moulders at present out of employment have organized a society which they call the Independent Order of Hard but Harmless Loafers.

THE SACRED HEART.

Closing Day of Celebration of the Centenary of the Order Yesterday.

The closing day of the triduum and the reunion of the old pupils of the Convent of the Ladies of the Sacred Heart was held at the St. Alexander Street convent yesterday.

High mass was offered in the morning, celebrated by Mgr. Racicot, assisted by Rev. Father Lamarche as deacon and Rev. Father Pare, S.J., as sub-deacon. Haydn's Mass was sung by a choir composed of the old and the present pupils. The solos were rendered by Mrs. Bourdeau, Miss Villeneuve, Mrs. Finn, Miss Jeanne Frechette, Miss de Lorimier and others, while Miss Lefebvre contributed a delightful violin solo.

After mass lunch was served to the old pupils and Children of Mary of the convent.

In the afternoon, at two o'clock, a meeting was held of all the old pupils and of the Children of Mary of the Convent, and many members of the clergy, as well as His Honor, Lieut.-Governor Jette, who was specially invited for the occasion.

An allegorical dialogue was presented, the personages representing Time, Providence and the Nineteenth Century. Madame L. A. Jette, wife of the Lieut.-Governor, delivered an address dealing with the history of the institution since its foundation.

Mrs. Henry Hamilton, president of the association of old pupils, read an address to Mgr. Racicot, and presented him with a beautiful volume as a souvenir of the occasion.

Benediction of the Blessed Sacrament was celebrated after a sermon by Rev. Canon Archambault.

Amongst the old pupils attending were members of the following religious orders:—Congregation Nuns, Sisters of Providence, Grey Nuns, Little Sisters of the Poor, Religions of Jesus of Mary, Sisters of Ste. Anne, Holy Cross, St. Joseph and Soeurs de la Misericorde. Letters of congratulation were received from former pupils, now members of the Ursulines, Good Shepherd, Carmelites and Precious Blood, who being strictly cloistered could not attend in person.

At Sault aux Recollets, His Lordship Bishop Emard celebrated the mass for the occasion.

A DOCTORS' UNION.

The Practitioners of St. Francis District Will Form a Body for Mutual Protection.

Sherbrooke, Nov. 22.—(Special.)—At a meeting of the St. Francis Medical Association, held the other day, it was decided to form a medical defence union. Copies of the rules will be sent to every medical man in the district, and as soon as all have signified their intention of joining the union, steps will be taken with regard to securing the endorsation of the Canadian Medical Association. Dr. Roddick will be asked to secure Dominion incorporation for the union.

It was also decided to accept the Ontario code of ethics.

THE LATE MR. STOCKING.

Quebec, Nov. 22.—(Special.)—A post-mortem examination was held yesterday on the body of the late R. M. Stocking, and it was found that death was caused by cerebral apoplexy. The funeral took place last evening to the Grand Trunk Station, and thence to Canton, N.Y., his old home, where he will be buried.

You need not cough all night and disturb your friends; there is no occasion for you running the risk of contracting inflammation of the lungs or consumption, while you can get Bickle's Anti-Consumptive Syrup. This medicine cures coughs, colds, inflammation of the lungs and all throat and chest troubles. It promotes a free and easy expectoration, which immediately relieves the throat and lungs from viscid phlegm.

NATURAL GAS IN WOODSTOCK.

Woodstock, Ont., Nov. 22.—(Special.)—A natural gas expert from Brantford is here looking for natural gas. He says that he has discovered sufficient natural gas inside the corporation limits to supply this town for many years to come.

FARMER LOST A HAND.

Quebec, Nov. 22.—(Special.)—Mr. Alfred Chalifour, of Beauport, had his right hand almost torn from his arm Tuesday in the cylinder of a threshing machine, and as a result the hand was amputated. Fortunately the machine was stopped in time to prevent a fatal termination to the mishap.

Itching Eczema.

Perfectly Raw From the Knees to the Toes—A Terribly Painful Case, Which Was Thoroughly Cured by Using

Dr. Chase's Ointment

The torture which is caused by the intense itching and burning sensations of eczema makes it one of the most distressing of ailments, while the presence of the raw flesh, which refuses to heal under ordinary treatment, adds to the misery of the sufferer.

The following case is reported as one which illustrates the extraordinary control which Dr. Chase's Ointment has over eczema, both as a prompt relief for the dreadful itching and as an antiseptic healer, which speedily and certainly brings about a thorough cure.

In vain were all sorts of medicines and ointments used and doctors appeared to be helpless before the dreadful ravages which the flaming fires of eczema were making. Here is the way Mrs. Knight describes this interesting case:

Mrs. Knight, 17 Hanover Place, Toronto, states: "My mother, Mrs. Wright, of Norval, suffered for a summer and winter with eczema on her foot. She could neither walk nor sleep, and it became so bad that she was perfectly raw from her toes to her knees. After trying every available remedy with success, and almost hopeless of relief, she began using Dr. Chase's Ointment. She has altogether used eight or nine boxes, with the happy result that she is now completely cured. Anyone wishing further particulars can communicate with Mrs. Wright, Norval, Ont. After such a grand success, is it any wonder that we recommend Dr. Chase's Ointment?"

It is just such tests as this one that have convinced physicians of the truly wonderful power of Dr. Chase's Ointment. If you are a sufferer, with any itching skin disease, or have a sore that will not heal, make a test for yourself. You will certainly become an enthusiastic admirer of Dr. Chase's Ointment, just as is everyone who knows its merits. Besides curing the most severe forms of itching skin diseases, Dr. Chase's Ointment is delightfully healing and soothing in all cases of chafing skin irritation, sore feet, prickly heat, pimples and blackheads. 60 cents a box, all dealers, or Edmanson, Bates & Co., Toronto.

MINARD'S "KING OF PAIN." LINIMENT
Dear Sirs,—I was for seven years a sufferer from Bronchial trouble, and would be so hoarse at times that I could scarcely speak above a whisper. I got no relief from anything until I tried your MINARD'S HONEY BALSAM. Two bottles gave relief and six bottles made a complete cure. I would heartily recommend it to any one suffering from throat or lung trouble.

A HANDSOME PROFIT.

Brantford, Nov. 22.—At the annual meeting of the Farmers' Binder Twine Company a dividend of 90 per cent. was declared. Last year the concern paid 100 per cent.; the year before 60 per cent.; and for five years before that 10 per cent. The officers, in their speeches, claimed that these extraordinary dividends were due to purchases of raw material at the right time, and wise speculations. Mr. Joseph Stratford, the general manager, was voted a handsome bonus.

The officers elected are: — S. Harold, president; Dr. Digby, vice-president; J. Stratford, C. H. Waterous, T. Brooks, L. Leeming, R. Beith, W. Roddick, W. Edmundson, A. H. Vanloon, and J. Mott, directors.

AT THE RUSSELL.

SALMON COMBINE

Which Controlled Prices Last Season Has Collapsed, Not Being Acceptable to the Canners.

Vancouver, Nov. 22.—The salmon combine which last season controlled the output of 48 canneries on the Fraser River, has collapsed through the expiration of their time limit and the refusal of canners to renew the agreement. An attempt has been made to form a trust, capitalized at $8,000,000, for the absorption and entire management of all the canneries, which was a development of the organization of last season, but the proposed trust was not acceptable to the cannery owners, and the plan has fallen through.

Stillwell's Late Suppers Are Comforting These Unpleasant Evenings.

After the theatre or concert nothing is so inclined to make one comfortable and happy as about twenty-five cents' worth from Stillwell's cookery — a great many find fifteen cents' worth a feast. Depends on your appetite.

DEPRECIATED BONDS.

Toronto, November 22.—A curious dispute in connection with the winding up of the Port Arthur, Duluth and Western Railway has arisen. The General Trusts Co., on behalf of the estate of the late John Leys, sued for a balance of $35,000, said to be due from Middleton and Conmee, the contractors for the road. The claim of the defence is that because of the depreciation of the company's bonds no balance is due. In his evidence to-day Mr. Conmee said the bonds which were worth sixty cents on the dollar a few years ago, are now worth only thirty cents. The road is now a portion of the Rainy River system of Mackenzie and Mann.

PURE MILK PROMISED

MILK SUPPLIED UNDER SUPERVISION OF MEDICAL MEN.

The Guaranteed Pure Milk Company Invites Inspection of Their New Dairy—Processes Used.

For a long time the attention of the public, and of the medical profession especially, has been turned to the question of impure milk as a cause of disease. In many cases epidemics of typhoid fever have been directly traceable to bad milk. In such matters customers are more or less at the mercy of the dealers in milk, who may be careless about cleaning cans and bottles, indifferent about the housng, feeding and cleaning of their animals, and in many other ways expose their customers to grave danger.

On January 31 last the Hygienic Committee of the Local Council of Women held a meeting, at which Dr. Adami gave a vigorous address on the high death rate amongst children between the ages of six months and five years. This Dr. Adami referred to as the "Massacre of the innocents." The statements were backed up by statistics for various years, and the speaker went on to say that the high death rate was largely due to bad milk. The majority of housholders were painfully ignorant of the danger lurking in impure milk, and the many illnesses brought about by its use.

In this connection, it is a boon to the city that the Guaranteed Pure Milk Company, dealers in Clarified and Pasteurized Milk and Cream, have opened their new dairy, which is managed on the most modern hygienic principles. The new dairy can boast of absolute cleanliness and purity. Not only is the milk strained and cooled, and freed from all odors, but all utensils are scalded and sterilized, and the most scrupulous care observed. But this supervision is not exercised only after the milk reaches the dairy. It begins with the farms where the cattle are kept, and is carried into each detail.

WHERE MILK COMES FROM.

The president of the company is Mr. T. A. Trenholme, who, for over twenty-eight years, has been identified with the milk business in Montreal. His name and the business he has so ably built up now become identified absolutely with the Guaranteed Pure Milk Company. The vice-president is Mr. J. N. Greenshields, Q.C. All the milk at present used comes from Elmhurst farm, the property of Mr. Trenholme, and Isaleigh Grange at Danville, owned by Mr. Greenshields. At these model farms, where the herds are well tended and fed, the animals are under the supervision of a veterinary surgeon. This is really the reason for calling it "guaranteed" pure milk. The water, food, stabling, etc., of the cows are carefully examined each month, and if found to be in perfect order a certificate is given to the company.

A milk commission was appointed last spring by the Medico-Chirurgical Society of the city, and is practically a committee that has drawn up a set of rules and regulations giving the sanitary and hygienic conditions pertaining to the sale of milk. Dr. McEachran is consulting veterinary surgeon, Dr. Ruttan consulting analyst, and Dr. Wyatt Johnson consulting bacteriologist. The milk must be examined by the analyst and bacteriologist at stated intervals, and provided the reports of these experts are favorable the dairyman is furnished with a certificate by the milk commission, which certificate he is entitled to use as an advertisement. The public may rest assured that—as in the case of the Guaranteed Pure Milk Company — wherever this certificate is used as an advertisement there is positive guarantee that the cattle and the milk have been thoroughly inspected. This commission was practically the result of the doctors banding themselves together for the purpose of protecting the public against the use of impure milk.

The system used by the Guaranteed Pure Milk Company had its birthplace in Germany, and about six years ago reached New York, since which time many dairies managed upon these principles have been opened in the United States, but the present company is the first, and at present the only one, of its kind in the Dominion of Canada.

DESCRIPTION OF THE DAIRY.

The dairy, which was formally opened last night, is a most interesting place to which to pay a visit. The building itself is of red brick, standing a little back from the street, the number being 2685 St. Catherine Street. The office and vestibule are done in hardwood, and well lighted. The front part of the building is divided by glass from the outer room, where the coolign and clarifying processes are attended to. At the side of this outer room is a small room where the bottles are washed, while at the back are cold storage rooms, shipping rooms and a place for cleaning the cans as they are returned. Above is accommodation for the employes, who board on the premises. All the workrooms in the building have cement floors, and the whole place is the picture of freshness and cleanliness.

In the vestibule to the cold storage room, where temperature is 50 degrees, a large receiving vat furnished with ammonia coils for cooling purposes is placed. Into this the milk is poured. It is possible here to reduce the temperature to any degree required, so that milk coming in from the farm can within an hour or so of milking be properly chilled. From that it is poured through pipes into the clarifier, which removes all organic matter together with a large amount of germ life. Thence the milk is poured over a cooling coil, which chills it to a low temperature. Pumped from the clarifier over the cooling coil, the milk flows down in a thin sheet like a miniature fall, thereby aerating the milk and removing all odors.

To be convinced of the advantages of this aeration one needs but to stand over the cooler while in operation and inhale the sickening odor which is emitted. The milk then strikes the cold surface of the cooling drum and passing down a thin sheet is immediately cooled nearly to the temperature of the cooling medium used, and is thus brought to a condition least favorable to the growth of the souring bacteria.

The milk is next put up in bottles which have been thoroughly cleansed and sterilized, and then sealed air-tight with a new pulp cap made of wood pulp which will not affect the milk. The milk is now in an air-tight vessel, where it cannot be contaminated by the dust, flies, hair, and odors of the street. The bottle should be kept well corked, and put on ice, or in cold water, until used. By the use of glass instead of metal as a receptacle, the milk can be kept sweeter much longer than when metal cans are used, on account of the fact that metal is a generator of germs and bacteria of different kinds.

STERILIZING THE BOTTLES.

Very special stress must be laid upon the bottle washing. The utmost care is taken in this department as in all the others. With milk bottled in the usual way there is no guarantee that germ life is killed. About this method there can be no mistake. In a separate room are all the bottles to which an active youth is giving his undivided attention. There are two tanks side by side. Into the first, filled with hot, soapy water, the bottles are plunged. Then one by oen they are fitted upon a revolving brush, which is turning around at a furious rate This, all housewives will agree, is an improvement upon trying to clean the bottle with the dishcloth shoved in. The brush cleans out the bottle, which is next dipped into the tank of rinsing water. Then it is taken out, and with a number of others fitted upside down upon a rack. A spray is turned on like a fountain within each bottle to again rinse it. Then the rack is lifted into an oven, where the temperature is from 225 to 270 degrees, and here the bottles remain for fifteen or twenty minutes.

This is what it means to scald and sterilize the utensils.

The bottling is done at a temperature of 46 degrees. The milk is loaded on trucks, and run into cold storage, where the temperature ranges from 35 degrees.

The cans in which the milk comes from the country are also washed by an improved washing machine. It is so made that they are thoroughly scalded and brushed inside and outside at the same time, so that the cans never have an opportunity to become sour as is so often the case.

PASTEURIZING THE MILK,

which is done at the dairy in the most improved plan, kills all germs, enhancing the keeping qualities of the milk. The pasteurizer used is the outcome of years of experimenting and the expenditure of thousands of dollars.

People with young children and invalids can rest assured that milk from such a dairy as this is absolutely pure. No terrible disease lurks in the liquid given so readily to the little ones. Which is the best? To buy milk from a dealer about whose methods cleanliness and the health of his herd you know nothing, thereby running the risk of bringing illness and death into your family through impure milk, or to buy it from a dealer whose whole establishment and the methods employed are run on the most hygienic lines and under the immediate supervision of the medical men of the city?

An attractive feature is the appearance of the delivery waggons, painted white with the name in gold letters, while the drivers appear in a smart livery. The company certainly deserves the warm support of every thinking person in the community. The public is cordially invited to inspect the premises at all times.

Last night the new dairy was formally opened, when a number of doctors were present, and expressed themselves as thoroughly in sympathy with the system used.

This is a "free country," still a law that compelled people to try Blue Ribbon Ceylon Tea would do a lot of good.

Brief Notes of the News.

UNITED STATES.

The Pennsylvania drought is broken, and collieries that shut down through lack of water are opening again.

Miss Jennie Morrison is on trial at Eldorado, Texas, charged with cutting the throat of Mrs. Castle, wife of her former sweetheart. Jealousy is said to ohave been her motive.

The Rev. C. E. Carrier, director of the Levis College, has been appointed chaplain of the new 6th Regiment of Volunteer Artillery.

Next week the construction of the framework of the new Quebec Academy of Music will be begun. It will be a steel structure and fire-proof.

A man named Hammond, working for the railway contractors at Quebec, placed a dynamite cartridge on a stove and was killed by the explosion.

The barquentine Bahama finished unloading her cargo of pitch pine yesterday at Levis, and the vessel will proceed to sea as soon as possible in ballast.

To-day being the feast of relics, there will be a grand mass at the Seminary Chapel, Quebec, and the relics will be on view for veneration by the faithful for the next eight days.

Among the recent changes in the 8th Quebec Royal Rifles, Lieut. Wells has been appointed in charge of the Maxim gun and Lieut. Holliday is appointed regimental transport officer.

THE MEN'S ANSWER

To the Manufacturers in the Quebec Shoe and Leather Trade Dispute.

Quebec, Nov. 22.—(Special.)—A rumor to the effect that the shoe manufacturers had granted an interview to their men now locked out is denied in toto by Mr. John Ritchie, head of John Ritchie Co., Ltd., one of the largest shoe manufacturing establishments in the city. Mr. Ritchie said to a Herald representative that the different manufacturers were all willing to discuss the situation with their own ex-employes, but that they will have no communication whatever with the unions or with representatives therefrom.

The men seem hopeful that the manufacturers will soon recede from this position. Until they do, no work will be done, as the men are even more determined than the capitalists. The workingmen interested in the leather trade have published an answer to the documents which they have been asked to sign by the manufacturers. A committee has been formed, composed of members of the different branches of the shoe trade at present out of work, and in the name of all these workingmen they refuse to accept the conditions as imposed by the manufacturers.

Among other reasons the workingmen state that they cannot submit to the arbitrary and unjust clause which seeks to force from them their freedom of belonging to associations, to renounce their right to mutual protection. They contend that they have always favored their troubles being settled by arbitration, but object to a board of arbitration as suggested by the manufacturers to be composed solely of members of that association.

In conclusion the committee state that the men are willing to submit their troubles to a board of arbitration composed of parties from both sides, and that they are willing to work at the same wages paid them when the factories were closed down.

THE SIFTON CASE.

No Judge Appeared to Sentence Herbert, Who Is a Crown Witness Against Gerald Sifton.

London, Nov. 22.—(Special.)—Although ten o'clock Saturday morning was the hour set for the opening of the adjourned sitting of the fall Assize Court, no judge appeared, and the Crown authorities received no instructions as to what should be done under the circumstances. The sheriff formally opened the Court shortly before 6 p.m., as required by law, and immediately adjourned it. This adjournment, it will be remembered, was made to avoid for the time being the difficulty of disposing of Walter Herbert's case after his plea of guilty to the charge of murder. Herbert is the Crown's principal witness against Gerald Sifton, who is to be tried in the spring, and the Court is in a quandary what to do, as his sentence will undoubtedly be death.

DYNAMITE STICK EXPLODED.

Quebec, Nov. 21.—(Special.)—A man named Hammond, an Englishman employed as a laborer at the Quebec bridge works, was instantly killed yesterday by the premature explosion of a stick of dynamite which he was holding in his hand.

Department for Women Readers

As Seen by Her

Someone has started the question of what is most interesting to women. That is, to women as a whole. This is rather a big question to answer off hand, and, speaking in general sweeping terms is often misleading. The question covers a very large field, and it is impossible to answer it off hand. The opinion of a very clever woman is that love affairs are the most interesting matters to women. She says: —I should say, from conviction, and from my experience of women of every age and class, that love comes first of all as the favorite theme—that is to say, love, courtship and marriage, and including flirtation, friendship and platonic love (which latter is capable of many interpretations), or everything touching on or relating to the attraction between man and woman, and the relations between the sexes.

Young and old, plain and pretty, married and single, rich and poor, clever and simple, all have an interest in love and lovers, and in the lovers and love affairs of other people as well as their own. Have you not noticed at a sewing meeting, or tea, or small at home, or some equally mild function of the kind, how most of the matrons and maidens prick up their ears when Miss So-and-So and Mr. Somebody's names are coupled together, or that Mrs. Dash is spoken of in the same breath with Mr. Blank? Yes, love is always interesting to women. If we do not find it so we are not in a normal condition.

After that, I must fain put, more in sorrow than in anger, that dress and fashion come second; then scandal, servants, babies, housekeeping, illnesses, and indispositions, amusements, games, fancywork, art, literature and politics, in the order in which I have placed them. Women, of course, must vary very much individually in their tastes, as in everything else, but I am taking the average woman as a guide, and though "man's love is of man's life a thing apart," to the average woman love is indeed her "whole existence."

But this is only one woman's opinion. You or I may, or may not, agree with her.

There may be a difference of opinion as to the order in which the other interests should be placed, but there can be no doubt about the prominence given to love affairs in the mind of the average woman. All the world loves a lover, and the doings of lovers, prospective lovers, and even people who are not lovers but whom kind friends think should be, are of the deepest interest to outsiders, especially women. Go to any tea, or to pay a call, and you'll hear that Miss Smith was out walking with Mr. Jones, or skating with her or sitting in church with her, and immediately everyone wonders if they are engaged. A sensitive girl suffers a great deal of annoyance during the various stages of a love affair through the undisguised interest of her acquaintances, and she must be very quick to parry the half-veiled questions asked. Nobody denies that love is a most interesting question, but perhaps it would be well to disguise the interest sometimes.

As to the other subjects in the list, there may be a difference of opinion. Amongst the interests mentioned, charity and philanthropy, and church work, and missionary work, are not mentioned, and yet in the lives of many women they occupy a prominent place.

The Editor of this Department will be pleased to receive for insertion all matter relating to women's organizations, meetings, personals, etc. Address Editor, Department for Women Readers, Herald Office, Craig Street.

WOMEN'S DOINGS.

W.C.T.U. MEETING.

A most successful parlor meeting of the W.C.T.U. was held yesterday afternoon in the parlors of Centenary Church. Being prayer day important matters were discussed touching on the aid that ought to be accorded young men in their fight against the temptations that are laid across their path. Mrs. Valley gave a Bible reading, while Mrs. Picard gave an address on the good work performed by the French W.C.T.U.

FOR THE WESTERN CHILDREN.

At the annual meeting of the Aberdeen Association this week great stress was laid upon the need of children's literature to send to the Northwest. Very few children's books and papers are amongst those donated for distribution in the prairie country, and the children long for them. It was mentioned in one case that except for some Christmas cards sent by the Aberdeen Association the children got nothing for Christmas. The December box will be sent away early in December. Will all who can, send old children's books and magazines to the rooms over the Bank of Montreal, Notre Dame and Seigneurs Streets.

SOLDIERS' WIVES' LEAGUE.

The annual meeting of the Soldiers' Wives' League takes place to-morrow afternoon at 4.30 in the Windsor. At this meeting full reports of all the work done for the soldiers in South Africa and for the soldiers' families in their absence will be presented; the secretary's report, by Mrs. Minden Cole; the treasurer's, by Mrs. Busteed; and the work done for the Red Cross Society, by a sub-committee, up to the formation of a branch of the Red Cross here, by Mrs. Yates. Lieutenant-Colonel Ibbotson has very kindly consented to preside, and it is expected that there will be a large number of both ladies and gentlemen present. Anyone interested in the work for the soldiers and the disposition of the Patriotic Fund is most cordially invited to be present. The generous manner in which the public has supported this fund entitles them to a full knowledge of the use it is being put to, and this, as far as the district of Montreal is concerned, can be furnished by the league. The officers of the Soldiers' Wives' League are:—Her Excellency the Countess of Minto, patroness; Mrs. Hutton, founder and vice-patroness; Lady Strathcona and Mount Royal, vice-patroness; Mrs. Borden, hon. president; Mrs. O'Grady Haly, president; Mrs. Gordon, wife of Colonel Gordon who is at present in South Africa, is the president of the Montreal branch; but in her absence her place has been filled by Mrs. Mattice.

Smittiers, Mr. and Mrs. Grant Macintosh, the Misses Clay, Miss Macrae, Miss Macdougall, Miss Wonham, Mr. and Mrs. Walter Jamieson, and many others.

On Friday evening there is to be a ball in Ottawa, in aid of St. Luke's Hospital. There Excellencies have promised to be present. The ladies on the reception committee are Mrs. Clifford Sifton, Mrs. Gwynne, Mrs. O'Grady-Haly, Mrs. J. A. Seybold, Mrs. F. W. Avery, Mrs. Colson, Mrs. Cousens, Mme. Deville, Mrs. James Fletcher, Lady Grant, Mrs. Robert Gill, Mrs. C. E. Harriss, Mrs Horwood, Mrs. W. G. Perley, Mrs. R. W. Powell, Mrs. Alex. Simpson. The supper committee is composed of Mrs. L. K. Jones, Mrs. Colson, Mrs. George Burn, treasurer; Mrs. Cunningham Stewart.

The wedding took place on Tuesday in St. Stephen's Chapel of Mr. Horatio Whiteway Nelson, of Philadelphia, eldest son of Mr. John W. Nelson, R.N., of Blackheath, England, and Miss Amey Roberta Fisher, third daughter of the late Mr. John Fisher, of Montreal, the Ven. Archdeacon Evans officiating. The bride, who was given away by her brother-in-law, Mr. John P. Black, looked most attractive in white mousseline de soie, with lace applique, over white taffeta, and veil and orange blossoms. Miss Beatrice Fisher, sister of the bride, was maid of honor and wore a becoming frock of blue taffeta, veiled in white batiste, with cream lace, and black panne velvet picture hat. The little flower girls were Miss Kathleen Black and Miss Irma Assher, in white, with white chiffon poke bonnets and plumes, and carried pink carnations. Mr. Ralph Barnes, of Boston, was best man, and the ushers were Mr. Clare Musson and Mr. Frank Canel (Quebec). A reception was held at the residence of the bride's mother, and later Mr. and Mrs. Whiteway Nelson, left for Philadelphia, via New York.

A very beautiful house wedding took place in New York on Tuesday, at the residence of the bride's father, 17 W. 73rd Street, when Miss Mary Randol, daughter of Mr. James Butterworth Randol, was married to Mr. Charles Carroll, of Baltimore, a member of a well-known family. The ceremony was performed by the Rev. Father Lee, of Washington. The whole house was exquisitely decorated with pink roses, American beauties, and ferns and palms. The bridal couple were married in a bower of flowers where an altar had been placed, done in white. The wedding took place at noon. The bride looked beautiful and stately in a white satin Parisian gown with ruffled lace, and white chiffon. The customary veil and orange blossoms were worn, and her lovely bouquet was of white lilies of the valley and mauve orchids. The gift of the bridegroom, a diamond crescent and star, was worn. The maid of honor was the bride's sister, Miss Betty Randol, and the bridesmaids, Miss Sawers, of Washington; Miss Goorhees, of Rochester; Miss Miriam Perkins, of Washington, and Miss Lee, of Washington. Their dainty gowns were of white gauze with lace boleros. In their hair were poised lace butterflies. The maid of honor carried American beauties, and the bridesmaids pink roses. Mr. and Mrs. Carroll have left for a wedding journey in California, and will live in Baltimore. The bride, her sister and the bridesmaid, Miss Perkins, of Washington, were all members of the wedding party at Mr. and Mrs. Percy Gault's marriage.

Last night the handsome residence of the Hon. Mr. Justice Taschereau, St. Hubert Street, was thrown open, and a large number of guests entertained at an enjoyable ball in honor of the debut of Mlle. Yvonne Taschereau. The spacious drawing-rooms and dining-room were converted into ball rooms, where the dancing was carried on with much spirit and enjoyment. The house was very handsomely decorated with palms and flowers. The orchestra was situated at the lower part of the back drawing-room. Supper was served downstairs. The guests were graciously received by Mme. Taschereau, with the charming young debutante at her side. The hostess wore a beautiful gown of garnet satin, with velvet and real lace, and her jewels were pearls and diamonds. Mlle Yvonne Taschereau wore a most becoming frock of white taffeta silk, with overdress of mousseline de soie. The gown had an accordion plaited frill, and guipure lace was used for trimming. Her bouquet was of white flowers. Mlle Taschereau looked well in Nile green satin, with overdress of point d'esprit, with black chenille trimming, and carried roses. The only married guests invited were Sir Alexander and Lady Lacoste, Mr. and Mrs. Robert Archer, Mr. and Mrs. E. L. Beaubien, Mr. and Mrs. E. Globensky, Dr. and Mrs. de Lotbiniere Harwood, Mr. and Mrs. Landry, Mr. and Mrs. H. Gerin-Lajoie, Mr. and Mrs. L. Lacoste, and Mr. and Mrs. R. Taschereau. The many friends of Mrs. Frank W. Newman will learn with regret that she has been unable to sail for Europe on the 14th of November, as had been arranged, owing to her having been suddenly and very seriously taken ill on her way to New York to join the steamer. She is at present with her cousin, Mrs. Harold Brown, at Yonkers, N.Y., where it is feared she will have to remain for an indefinite period, pending the result of her illness.

Quebec, Nov. 22.—(Special.)—Madame Dechene, wife of the Hon. F. G. M. Dechene, Minister of Agriculture, gave a luncheon yesterday afternoon in honor of Lady Laurier. Among those present were Lady Laurier, Madame F. Langelier, Madame Chauveau, Mme. Parent, Mme. Turgeon, Mme. Robitaille, Mme. Pacaud, Mme. Belard, Mme. Charles Langelier, Mme. Duchesnay, Mme. Marois, Mme. Dumoulin, Mme. Hecker, Mrs. Scott, Mme. Brunette.

MESSRS. BIRKS' NEW STORE.

They Will Open an Establishment in Ottawa Exactly Similar to the One Here.

On the 1st of next May Messrs. Henry Birks & Sons, the noted jewellers of this city, will open a store in Ottawa. Already arrangements have been consummated for the lease of one of the most central sites in the capital. Extensive alterations will be made. The entire lower front is to be taken out, and in its place is to be inserted one similar to those which adorn the finest stores of the class on the continent. It will be a regular New York front: two doors and three oriole windows. The interior is to be handsomely decorated in the richest and most approved fashion, and the fixtures in the present Montreal store are to be duplicated in every particular. This will assure to the people of Ottawa one of the best-appointed stores in Canada—certainly far ahead of anything that exists in that city at the present time. The idea of the firm in opening a store in Ottawa is not to make it in any wise a sideshow to the establishment here; it is designed for the purpose of catering more satisfactorily to the already large trade that the Messrs. Birks have even now created there. At present this is carried on either by mail or through the people taking an occasional run down to Montreal. The new store will aim at carrying—as the parent institution does here—lines which cannot be obtained elsewhere. The Messrs. Birks are probably the only jewellers in Canada who do not deal in plateware or in goods of ten carat. Nothing less than fifteen carat is touched. Their factory is the largest in America, manufacturing exclusively for a single retail store, with the exception of Tiffany in New York. A staff of 170 men is constantly employed. One of the firm's travellers covers eleven different countries in making purchases. So that the people of Ottawa will hereafter have the benefit of all these facilities in equal measure with the populace in Montreal. Fine solid silverware and the best rur of diamonds will be given particular attention. In all respects the same stock will be carried in Ottawa as is carried here.

AN ART ENGAGEMENT.

It will be interesting to musical people and the general public to state, as is now announced throughout the continent, that Messrs. Willis & Co., of 1824 Notre Dame Street, who are having a magnificent building erected for their business on St. Catherine Street, have just concluded an arrangement of great importance for the Newcombe gold medal pianos. It is well known at the high price the Newcombe Co. held their pianos for years there was no dealer ready to push with energy such a high-class instrument. So many dealers prefer to make their money with the least turn-over in the first cost. Willis & Co. have had the courage since the Newcombe Co. carried away to the honor of Canada the gold medal from Paris, of taking up the Newcombe piano with vigor and placing it before the experts and musical public. The very best styles of these gold medal Newcombe pianos have been imported by Willis & Co., regardless of cost, and the musical and general public are hereby invited to visit Willis & Co.'s warerooms, at present at the old stand, 1824 Notre Dame Street, where a full line of the gold medal Newcombe pianos can be seen and heard at any time by intending purchasers.—Adv.

BANQUET PTE. M'MILLAN.

The Northern Electric Company Entertained Their Returned Soldiers Last Evening.

The employes of the Northern Electric Company tendered a banquet last evening in the Prince of Wales' Fusiliers' quarters to Pte. McMillan, who has just returned from South African battlefields. This is the second man from the Northern Electric Company who has returned safe and sound, and both have got a splendid reception from their comrades of the Northern Electric. The other was Lance-Corporal McTaggart.

A large number were present, and besides Pte. McMillan, who was the guest of the evening, there were four other of the boys in khaki—Corpl. McTaggart, Ptes. Sword and Hines and Daly, and Messrs. Dawes and Dacon, foremen in the Electric Company.

After the supper a good programme was given, and a thoroughly enjoyable evening was spent until the electric lights went out, and candles had to be substituted. This cancelled a very interesting part of the programme, which was a series of South African war views.

Those who took part in the evening's entertainment were:—Messrs. Gibson and Luther, recitations; Anderson and Evans, songs. Mr. Knuff presided at the piano.

The committee in charge of the entertainment were Messrs. J. Irvine (chairman), J. Burns, W. Miller, W. R. Scott, C. P. Valiquette, W. J. Pendleton, jr. (sec.-treas.).

Pte. Byford, another Northern Electric man, returned from South Africa, was not able to be present, as he was called to England.

An Interview With Carreno

In an interview in the Musical Age, of New York, with Teresa Carreno, a great artist, the latter said to the reporter: "You know I am at heart an American, although born in Venezuela. I have lived in the United States so many years that I look upon myself as a quasi-American; then, too, I am going to play the Steinway again; that in itself is worth coming to America for, after several years of denial." It is always thus with the great artists and the Steinway piano—they have, perhaps for years, through monetary considerations, played other pianos, but their hearts are always with the Steinway. The Steinway, of all pianos manufactured, fills the artist's ideals. It alone gives voice to the inspiration of genius. Several of the latest Steinway Grands, in Upright and Horizontal forms, have just been received by the Lindsay-Nordheimer Co., and are now on sale in their special warerooms.

Woman's Aim

Women aim to be handsome, graceful, winsome. They succeed according as nature endows them with physical charms and happy dispositions. Even if these are lacking, a woman of taste and tact may, by study and practice, accomplish very much. First she must avoid annoyances that mar her natural sweetness of manner. She must wear raiment that is becoming. She must wear shoes that fit well. Such shoes are to be had at

HEARTSEASE.

BY E. B. WEEKS.

(Copyright, 1900, Wm. R. Miller.)

The Rev. Arthur Payne tramped through the snowy streets with a tread that betokened a troubled spirit.

Yes, in the voice of the Psalmist, his heart was heavy within him, and as he walked his thoughts came tripping over one another faster than his feet moved.

"If her soul were but as fair as her face," he murmured. "But," contritely, "what right have I to question its fairness?"

Then the passion of his woe breaks out again in more mental soliloquies.

Why shouldn't he question it! Proof? Her very life was proof, her every action.

Every Sunday saw her in the family pew, it is true; but had she ever visited the poor of the parish or the sick? At the mere thought his heart filled with scorn. Was it scorn? I think if he would have examined himself he would have found only a tender, half-angry sorrow for her worldliness.

How often had he applied that epithet to her. His thoughts flew back to the house he had just left. A dinner party at the Bishop's, where men of culture, men of science, and women known for their good works, were wont to gather.

As the young man entered the drawing-room, what was his amazement to see in conversation with the Bishop himself the object of his present thoughts—Muriel Fair. Fair she was, in form, in face; a very daughter of the god's divinely fair, "lacking," says the clergyman to himself, "fairness of soul."

And then—oh! the irony of Fate! His heart was hot with jealousy as she, unconscious apparently of his presence, shed the radiance of her being on the Bishop.

Now, if anyone had told the Rev. Arthur Payne that he should ever be jealous of his Bishop, above all this Bishop with grandchildren innumerable, he would have laughed him to scorn; but, alas! it was even so.

All the long, long dinner hour he was in a dream, conscious only of the beautiful girl opposite; of the gleam of her satin gown, the purple pansies in her hair, and dress matching the glorious depths of her eyes. He reasoned he called her in his dreams. Yes, but not from him.

It seemed an eternity before his hostess gave the signal, and on reaching the drawing-room he in a short while moved near her to make his adieux.

A clear voice struck his ear:

"So sorry, but I must leave; I have another engagement this evening."

"Another engagement," repeated Arthur to himself. "Yes, to spend the rest of the night flirting and dancing with some inane follower of fashion, till the small hours of the morning."

The winter air of the streets cooled him but slightly, but a long tramp through the snow proved an outlet for his perturbed spirit. This walk brought him to the object in view—the City Hospital. Early in the afternoon a note had been brought him asking him to call at the hospital at his earliest convenience, as a woman was in need of a clergyman of his faith.

He had called at once, but the patient was undergoing an operation, and he was asked to call later.

The City Hall clock was striking eight as he walked up the steps.

He turned down the corridor to the free ward. At the door he met one of the nurses and asked for the patient.

"She is dying, I am afraid," was the answer.

"I should like to see her, if you will show the way."

"Come this way, then," said the nurse, and Arthur followed her to the part of the building devoted, as he knew, to private rooms.

"Have you not made a mistake?" he asked. "The person I wish to see is in the free ward; Mrs. Carlett her name is, I think."

"Yes, she was in that ward, but after the operation, when it was known she could not live, one of the lady patrons who was interested in her had her removed to a private room," and even as she spoke, stopped at a door and said: "She is in here," then with the soft tread peculiar to nurses walked down the corridor, leaving Arthur alone at the door.

Before he could enter the resident physician came quickly out of the room.

"Ah, good evening Mr. Payne," he said, briskly. "Wish to see the patient, I suppose?"

"Yes"—

"There is some one with her at present; will you go in now or wait a few minutes till the visitor leaves?"

"I will wait," and the doctor hurried away, leaving the door slightly ajar.

The clergyman paced softly up and down the hall and his thoughts were tender, pitying thoughts for the dying woman.

Suddenly on his ears fell the words of that beautiful hymn, "Nearer, My God, to Thee." Why did that glorious voice make his pulses throb? Was a quick step he moved to the open door and caught a view of

Fire First Shot in the Provincial Campaign

Hon. Horace Archambeault and Hon. Lomer Gouin Address East End Liberal Club On the Situation in the Province.

The first shot in what promises to be a very quiet political campaign, was fired last night at the quarters of the East End Liberal club, when a large gathering of members of that organization, presided over by Mr. D. A. Lafortune, heard the provincial situation outlined by the Hon. Horace Archambault, Attorney General; the Hon. Lomer Gouin, Commissioner of Public Works, and other gentlemen.

Mr. Archambault commenced his remarks by replying to Mr. Flynn's "manifesto," and defending the action of the Government in dissolving the Legislature at the present juncture. He pointed out how the convenience of the electorate had been consulted. It was better to have the general elections now, while political interest was keen, and citizens had not yet returned to the groove which they had left on the occasion of the federal general elections, rather than that business should now be allowed to resume its ordinary course, only to be disturbed again a year hence at the latest. It was in the public interest that federal and provincial general elections should be held at about the same time, as each parliament had five years to run, and the tranquility of the country should be as little disturbed as possible. Furthermore, and what was more important, the present dissolution was in accordance with true constitutional principles. The summoning of Mr. Parent to the head of the Quebec Government had been received with a storm of protest from the opposition press, and the pretention had been advanced that the new Prime Minister would not be acceptable to the electors, who in 1897 had voted for Mr. Marchand as Prime Minister. Mr. Parent had accepted the implied challenge, and that was one of his strongest reasons for bringing on the present elections.

NO WORD OF CRITICISM.

Proceeding to discuss the political situation, the hon. gentleman said that this was really not necessary. The leader of the opposition, in his new "manifesto," had not offered a single word of criticism of the Quebec administration during the past three years. There was consequently nothing to reply to. Yet, he believed it his duty, out of deference to the electorate, to at least briefly refer to the acts of the administration and to show cause why the present government deserved the support of the people upon its own merits, and not merely on account of the weakness of the opposition. Mr. Archambault then reviewed the splendid financial record of the administration, and showed how the promise to restore equilibrium without creating new revenue by means of taxes and without any addition to the public debt had been literally fulfilled. They had now a surplus at Quebec and the public debt had been reduced, and all this had been effected by careful, economical administration, every necessary public service receiving full attention, but no money being squandered as had been the rule in the past.

The only taunt the opponents of the Government seemed to have to make was that the government did not spend enough. The same gentlemen complained that the federal government, with its eight millions of surplus, spent too much. It was hardly necessary to reply to their arguments.

But the provincial government had done more than establish equilibrium in the finances. It had given due attention to agriculture and colonization, and, above all, to the promotion of progress in the matter of public instruction. Good seed had been sown, and the harvest would be good.

UNIFORMITY OF TEXT BOOKS.

The Government had undertaken the task of establishing uniformity of text books in the schools throughout the Province. In order to secure uniformity, distribution of books should be free, and upon that, involving heavy expense as it did, the Government had decided. A first step had been the free distribution to every teacher of a work on the art of teaching; the next had been the free distribution to the schools of the Province of a handsome map of the Province of Quebec, so prepared as to be suited to the needs and capacities of the juvenile pupil; and, thirdly, as a further step in the free and uniform distribution of text books, a work had been prepared, containing a complete course in the subjects of primary education, and this, which had received the approval of the Council of Public Instruction, was being distributed to all the schools in the Province, under the control of the Council, which chose to apply for copies. There was no compulsion. The Government had not the right to compel the use of its books in certain schools; but heads of schools desirous of using the Government text book could have as many as were required sent them free of all cost, and, more than that, the same privilege would be extended to all schools in the Province, even those not under the control of the Council of Public Instruction. The elementary class was now provided for; a text book for the secondary class would follow, and so on, until provision was made for every class of scholar.

These references to the educational question greatly interested the audience, essentially a workingmen's gathering.

The Hon. Lomer Gouin, member for St. James' Division, followed Mr. Archambault, and delivered a speech on somewhat liberal lines. His reception was most cordial, presaging the re-election by acclamation, which he smilingly asked them to give him. He quoted figures to show that the Government, though working primarily to restore the finances, had not, as its opponents had pretended, neglected the needs of the country. As a matter of fact the Government had spent more in the encouragement of the development of agriculture and colonization than its predecessors had done. Mr. Gouin paid a tribute to the Hon. Mr. Duffy's (his predecessor) administration of the Department of Public Works, and promised that he, if he could not do better than Mr. Duffy, would try and do at least as well.

Speeches were also delivered by Messrs. J. A. Drouin, Ernest Desrosiers and others, and a highly successful meeting terminated at about eleven o'clock.

Point St. Charles.

Mr. Roderick Bailley, of Conway Street, has typhoid fever.

From six o'clock last evening the Point was in total darkness.

A new letter box has been placed in front of Mr. Skeith's drug store on Richmond Street.

The residents of Victoriatown are complaining of the street car service on St. Etienne Street.

Before leaving for England Lord Strathcona donated $100 towards the redecoration of the Victoria Presbyterian Church.

The Ladies' Aid Society of Victoria Church will hold a grand sale of fancy work on December 12. Contributions may be sent to the secretary.

Miss Baker-Edwards is conducing a ladies' choral society at the Point this fall. Practices are being held in Unity Hall once a week and are well attended. A concert will likely be given later on.

Mr. T. Sylvester, organist of Victoria Church, who for a number of years past has been in the employ of the Peck, Benny Co., as head foreman, has taken a position with the Grand Trunk.

A new drug store has been opened at the corner of Congregation and Favard Streets. It is known as Victoria Medical Hall, and is under the personal charge of Mr. A. C. Paquette.

Mr. Alex. Walsh, of 62 Congregation Street, while on his way home from work last night, ran against a live electric wire. Besides receiving a severe shock, he had both hands badly burned.

A meeting of the P.A.A.A. Association football team was held last evening. Matters relative to the closing up of the season were discussed, and everything properly arranged. Financially as well as socially the recent dance was a great success.

Last evening the mid-week prayer meeting at Centenary Methodist Church was devoted to subjects appropriate to special prayer day for schools and colleges. Notwithstanding the bad weather, there was a large attendance and the different addresses much appreciated. Miss Richardson spoke on the cigarette evil, Mrs. Currie on responsibilities of fathers and Mrs. Radford on the proper observance of the Sabbath.

Mrs. James P. Ellis, of Bourgeois Street, died yesterday. She was a sister of Miss O'Byrne, the late organist of St. Gabriel Church, who died some ten days ago. The two sisters had been greatly devoted to one another, and the doctors say that Mrs. Ellis' illness was due to over-exertion in attending to her sister during her sickness. The deceased was very popular. The funeral will take place to-morrow morning to St. Gabriel Church, where a solemn requiem mass will be sung.

The Point division of the Fire Department had to answer two alarms before ten o'clock last evening. The first one was to Mr. D. Picard's house at 766 Charlevoix Street, where the chimney had caught fire. One stream was all that was needed. The second, however, was far more serious, and the firemen had hard work trying to prevent the fire from spreading. It was at 575 Grand Trunk Street, in a house occupied by Damase Leroux. The fire, which started in the chimney, soon spread to the rest of the house, and for a while it looked as though the house would be a wreck. As it was, eit was badly gutted with water. There is no insurance.

MRS. W. IRELAND,

Wife of the Well-known Boot and Shoe Man, Toronto, Ont.

Cured of Constipation and Dyspepsia after Fifteen Years' Suffering.

Mr. William Ireland, whose place of business is 170 Queen Street East, is one of Toronto's most enterprising shoemakers.

Since he located in his present premises a few years ago he has worked up a splendid business and is well and favorably known in the East End.

His wife, who suffered a great number of years from Constipation and Dyspepsia in a most aggravated form, has recently regained her wonted health and vigor, and when spoken to as to the means she employed, made the following statement:—

"I suffered from severe Constipation and Indigestion for about fifteen years and have tried all sorts of remedies, but got little benefit from anything until I tried Laxa-Liver Pills.

"Before using them I endured torture, could eat very little and what I did eat seemed to be heavy on my stomach.

"I got very much run down, became weak and lost flesh.

"Since taking the Laxa-Liver Pills, however, my appetite has improved, the Constipation has been relieved and my food digests so well that I have gained in weight and strength and have been able to ride a wheel all summer.

"You cannot imagine how delighted I am with the results Laxa-Liver Pills have produced in my case, as I had given up all hope of ever being cured."

BOTH CHIEFS EXPECT FULLEST EXCULPATION

Both Chief Benoit and Chief Hughes are inclined to view as inexplicable the action of the Salaries Committee in asking the Council to pass upon their retention. They are alike united in the assertion that never before were their departments in so efficient a state. The committee had assured all the other heads of departments in their positions, with but a single exception, and neither of the gentlemen mentioned see why he should be singled out for particular mention. "There has been no complaint against me," remarked Chief Benoit; "no charges of maladministration. Such being the case, why has the committee determined to subject me to an exceptional humiliation—one I am sure I in no wise deserve." Chief Hughes was equally emphatic. "Since the appointment of the new Police Committee," said he, "there has been no accusation laid at my door, and I have done my duty by the city faithfully. I am confident that when the City Council is asked to vote on the question of whether I shall be retained or not it will do me full justice."

DESCHENE SENTENCED

For Robbing a Jewellery Store in St. Hyacinthe—Secret Service's Good Work.

Messrs. Carpenter and Crowe, of the Canadian Secret Service, have been most successful in clearing up a case of larceny in St. Hyacinthe. Two weeks ago a jewellery store was broken into and some $500 worth of valuables was stolen. No trace of the burglar could be found. The case was given to the Canadian Secret Service. After a lot of searching and travelling back and forth a clue was found that Joseph Deschene was implicated. Further evidence was gathered, and Deschene was arrested by Detective Williams. He was found guilty before Judge Sicotte, who sentenced him yesterday to three years in the penitentiary. The Judge said he reduced the sentence because Deschene had returned part of the goods.

TOO MANY PEOPLE DAILY WITH CATARRH.—It strikes one like a thunderclap, develops with a rapidity that no other disease does. Dr. Agnew's Catarrhal Powder is the radical, quick, safe and pleasant cure that the disease demands. Use the means, prevent its deep-seating and years of distress. Don't dally with Catarrh. Agnew's gives relief in ten minutes. 50 cents.—97

TORONTO'S NEW HOTEL.

Toronto, Nov. 22.—(Special.)—Work began yesterday on the tearing down of the old Walker building, which will make way for the new Hotel Toronto, to cost $1,500,000. A staff of men started to remove all the old shelving and interior furnishings.

FRANCAIS THEATRE WALL COMES DOWN

One Man Killed and Three People Injured.

WOMAN AND TWO CHILDREN.

The Wall Fell Because the Mortar Had Not Had Time to Dry—An Inquest to Be Held.

The most serious accident caused by yesterday's gale was the falling of a portion of the rear wall of the new Theatre Francais, which resulted in the death of Angelo Costello and serious injuries to several other persons. The injured are:—Louis Costello, 10 years old; Mrs. Tambourini, 40 years old, right leg broken; Frank Tambourini, 6 years old, head cut. At first it was believed that several fatalities had occurred. The violence of the wind and the height from which the forty feet of brick wall, sixteen inches thick, went crashing upon the row of wooden tenement houses in the rear of 238 Cadieux Street, brought many to the conclusion that several inmates of these houses were killed. Two Italian families named Tambourim and Danboin lived there. Angelo Costello resided with the former family. The falling brick crushed through the roof of the Tambourini house and struck Costello, causing fatal injuries. The stove in the kitchen was upset by the turmoil, and from this resulted a small fire, which, but for the prompt action of the firemen, might have developed into a serious conflagration. It had the effect of intensifying the general excitement. Willing hands were soon at work to rescue those in the ruins. Among these helpers were David Hebert, Alban Germain, Eugene Desnoyers, who secured ladders and brought the inmates down to safety. Angelo Costello, however, could not be assisted until the arrival of the firemen. Then he was taken out in a dying condition, and expired while being conveyed to the General Hospital. The fire did not prove serious and was soon extinguished.

Mr. Joseph Beland, contractor, who had charge of the brick work, said every precaution had been taken to make the wall secure. The four walls were ready to receive the roof. Because of the rain, however, work had to be suspended. The mortar had not had sufficient time to dry, and the wall could not resist the terrific winds. Mr. Beland said he was extremely sorry to learn that any serious injuries had resulted from the accident. He estimates the damage at $1,000.

Mr. Robert Goold and Mr. Ford, who are interested in the new theatre, said the remaining portion of the wall would be taken down and the whole rebuilt.

Dr. Gadbois, proprietor of the tenements damaged by the collapse, said he estimated his loss at about $1,500.

An inquest will be held to-day.

NOTES FROM M'GILL.

Undergraduate Society Discuss Report of Theatre Night Committee.

The meeting of the Arts Undergraduate Society, which was adjourned on Monday, took place yesterday. Representatives to the Alma Mater Society from the second and third years were elected as follows:—Third year, Messrs. G. Irving, J. Macdonald, S. D. Harris; second year, Messrs. T. Memorran, A. D. Harris, E. R. Parkins.

A lively discussion took place as to whether the report of the theatre night committee showing a balance of $49, should be accepted or not. As there seemed to be no prospect of a decision being reached a motion was put that the matter be referred to the Alma Mater Society. The motion was carried almost unanimously.

There will be a meeting of the McGill Hockey Club to-night for the purpose of organizing for the winter. The meeting will take place in the Arts building.

A meeting of the McGill Undergraduates Society was held yesterday afternoon. A statement of the expenses of theatre night was read, and there was found to be a balance of $49 over the amount appropriated for that purpose. The business of electing delegates to represent Arts in the new Alma Mater Society just formed was taken up, with the result that the vice-presidents of the several years were chosen to represent the faculty. The gentlemen selected were as follows:—Mr. W. G. Macnaughton, fourth year; Mr. H. A. Carson, third year; Mr. W. S. Johnson, second year, and Mr. J. Archibald, first year. The meeting then, till adjournment, discussed the advisability of holding their annual conversazione in connection with the students of the Royal Victoria College, and also proceeded to form a committee to make the preparations required. Messrs. F. A. Scrimger, A. W. Lochead, J. McDonald, G. O. McMurtry were appointed to the committee from the fourth year, and Messrs. T. Papineau, A. B. Chandler, G. Campbell from the first year. It was found necessary to have a vote taken in regard to the selection of the second and third years' representatives, and before the result was announced a motion was put and carried that the meeting adjourn until this afternoon.

ONTARIO LEGISLATURE.

The Session Will Open in January—Finances of the Province Are Flourishing.

Toronto, Nov. 22.—(Special.)—The indications point to a session of the Legislature early in January. The provincial revenues for the ten months ending October 31st make a very satisfactory showing. The total receipts were almost $3,600,000, including the following items:—Crown lands, $1,051,369; licenses, $281,558; succession duties, $184,089.

INLAND REVENUE SHOWS CONTINUED INCREASE

Ottawa, Nov. 22.—(Special.)—Inland revenue receipts for the month of October have been $996,635.84, an increase over October, 1899, of $55,186.36. The greater part, about $35,000, is in the revenue from spirits and malt. The revenue from tobacco is about the same as a year ago.

CEDAR A.A.A. RECEPTION TO SOLDIER MEMBERS.

The Cedars held a reception at their club rooms, No. 729 Sherbrooke Street, last evening in honor of their three members returned from South Africa—Tom Nash, Allan Shaw and Norman Shaw. The attendance was very good, and if enthusiasm counted for anything, the boys could have no doubt that they were welcome home and that the Cedars were proud of them. The room was very handsomely decorated for the occasion. Among other things on the programme, Mr. Werry's new song, "Khaki Heroes, Welcome Home,"—was very creditably sung in a chorus by the boys. Speeches were made by the boys in whose honor the reception was given, and they were loudly cheered. They were each presented with a silver match case as a souvenir of the occasion. The entertainment broke up at an early hour this morning with the singing of "Auld Lang Syne" and "God Save the Queen." Members are reminded that the next fortnightly euchre will be held on Monday evening next.

TAMMANY'S HEAVY DEMANDS ON VICE

In October it Raked in a Fund of $395,000.

GAMBLING HOUSES PAID

Money to a Police Captain, Who Swears that He "Passed it on Up."

New York, Nov. 22.—While no well-intentioned attempt has been made as yet to close the gambling houses, poolrooms and policy-shops that have flourished under Tammany protection for more than two years, the opinion prevails that an order to go out of business will be given in the near future. They are frightened, and in their panic charge Tammany with bad faith. They assert that the heaviest assessment ever made upon them was levied for "campaign" expenses early in October. A great corruption fund was then collected, and in return the promise was given that they should have immunity until March. During October this corruption fund was collected from the lawbreakers in the name of Tammany Hall:—

Fifty gambling houses, $1,500 each.	$ 75,000
Fifty gambling houses, $900 each...	45,000
One hundred gambling houses, $300 each	30,000
One hundred poolrooms, $900 each.	90,000
One hundred poolrooms, $300 each.	30,000
Disorderly houses, from $150 to $300 each	50,000
Policy-shops, from $30 to $150 each.	75,000
Total	$395,000

And yet Mr. Croker, before the Tammany executive on November 15, said:—"The imputation has gone abroad, and it has been charged to me, right to my face, that we collect money from lawbreakers. I challenge any gentleman in this room—and you have known me a long time—to say that a dishonest dollar ever came into my hands."

Police Captain Schmittberger was the most interesting witness yesterday in the trial of William Weissenberger, a Sixth Avenue pawnbroker, who was charged with receiving the proceeds of forty burglaries.

When asked whether he had known of gambling houses before he had testified he said that he had, and had not given testimony until he had been indicted.

"Did you get money from the gambling rooms?" he was asked.

"No, but others did."

"Please explain."

Captain Schmittberger then replied:—"Well, the money was given to me and I passed it on up."

Judge Newburger at this point broke in and said there must be a limit to such questioning.

ST. GEORGE'S LODGE, NO. 10, A.F. & A.M.

R.W. Bro. H. R. Brophy, D.D.G.M. for the District of Montreal, accompanied by R.W. Bro. James Fyfe, P.D.D.G.M., R.W. Bro. H. Dunne, P.G.R., R.W. Bro. George C. Nicholson, P.G.R., V.W. Bro. H. R. Tale and W. Rigs, H. Hurst, R. J. Burge and William McLean, paid an official visit to St. George's Lodge, No. 10, A.F. & A.M., Q.R., at the Masonic Temple on Tuesday evening, and received a cordial welcome from the brethren. At the conclusion of the regular work, the visiting brethren were most hospitably entertained socially. W. Bro. R. C. Anderson, W.M., presiding. Speaking for the Grand Lodge, R.W. Bro. Brophy took occasion to congratulate the officers and members of St. George's for the high standing which they maintained in the fraternity, and R.W. Bro. Fyfe spoke at length on the scheme of benevolence which was being urged upon the brethren by the Grand Master, and trusted that before long the Temple building would be the property of the Grand Lodge of Quebec. A toast to the visiting brethren was also honored, and Bro. Dr. Lauterman and Bro. Baylis and others contributed some capital songs.

ODDFELLOWS' EUCHRE LEAGUE.

The third match of the series under the auspices of the Oddfellows' Euchre League took place at Unity Hall, Wellington Street, last evening between Loyal Victoria Lodge, No. 5896, and Loyal Excelsior Lodge, No. 6237, I.O.O.F., M.U., but the brethren had only played half an hour when the lights went out, and the game had to be postponed to a future date.

TERREBONNE LODGE, A.O.U.W.

Grand Recorder A. T. Patterson and Grand Receiver Gaspard Lefebvre paid an official visit to Terrebonne Lodge, No. 54, A.O.U.W., at Terrebonne, on Tuesday, and were cordially welcomed by the brethren, seventy-five per cent. of the members of the lodge being present. The Grand Lodge officers were met at the railway station by P.M.W. Rene Masson. Both addressed the brethren in the lodge room, and the meeting was a most enthusiastic one throughout. Mr. William Moody, the well-known manufacturer of agricultural implements, was elected an honorary member. Mr. Adolphus Moody presented five applications for membership and M.W. Bernardin also presented the names of other candidates. After the meeting the visitors were entertained at a banquet at Leclerc's Hotel, with M. W. Bernardin in the chair, when a most enjoyable evening was spent. The selections on the gramophone were much appreciated. The theme of the several speeches was the ladies' auxiliary degree of honor, and it is likely that a lodge of this degree will be instituted in Terrebonne in the near future.

RUSHBROOK LODGE, A.O.U.W.

Rushbrook Lodge, No. 3, A.O.U.W., was favored with a visit from D.D.G.M.W. Wm. J. Pendleton at its regular meeting in Fraternity Hall, Wellington Street, on Monday evening. Two candidates were initiated and several more promised for the next meeting.

THE LABOR GAZETTE.

The Third Number Is Just Out, and Is Full of Valuable Information for Workers.

Ottawa, Nov. 22.—(Special.)—The third number of the Labor Gazette appears today. It contains instructive articles on the coal mining industry in Canada and on legislation in Canada for the protection of persons employed in factories. Reports from correspondents in all parts of Canada dealing with the labor market are published and also schedules showing the cost of living in the various cities of the Dominion, giving the prices of articles of domeste consumption, house rent, and the cost of board and lodging. Considerable information is given as to the position of labor in England, recent legal decisions affecting labor are noted, and the story of the strikes during the month is told impartially.

IT'S MIRACULOUS.

Catarrh, Colds, and Headache Can be Relieved in 10 Minutes and Cured. Dr. Agnew's Catarrhal Powder is a Wonder Worker.

"I had Catarrh for 1 year." "I had Catarrh for 2 years." "I had Catarrh for 5 years." "I had Catarh for 20 years." "I had Catarrh for fifty years," and Dr. Agnew's Catarrhal Powder cured me. These are sentences from the volumes and volumes of testimony for this great catarrh cure, not mythical patients, but words from men and women all over the continent who have been cured. It relieves Colds and Headache, due to Catarrh, in 10 minutes.—13

It was decided to leave the election of the captain to the executive and the team.

Toronto Ball Officials.

Toronto, November 22.—(Special.)—At a meeting of the directors of the Toronto Baseball Club, at the Arcade Hotel last night, the by-laws were drawn up and organization completed by the election of the following officers:—President, Ed. Mack; vice-president, Jess Applegath; secretary, H. C. Cooch; treasurer, Thomas Soole. E. G. Barlow was formally engaged as manager, and a committee was appointed to look into the matter of securing grounds for next season.

Shareholders Meeting.

Toronto, Nov. 21.—(Special.)—The most enthusiastic baseball meeting and the most important at that, ever held in this city, was the inaugural gathering of the new shareholders of the Toronto Baseball Club last night at the Rossin House. It was an open conclave, and all matters appertaining to the welfare of the club were fairly discussed. A capable board of five directors was elected, but the matter of grounds was left for the subsequent meeting when the executive will report after interviewing the Ferry Company and the Street Railway. It was decided that the shareholders will choose between the two. But at the present writing the Island is several laps ahead. The Ferry Company gave a written offer of $500 cash per year for advertising, 10 per cent. of the baseball ferriage, boat passes to all the shareholders, and their beautiful grounds and stands free of charge. The Toronto Railway Company's offer is a verbal one. Manager Banks refusing to make a definite offer until the club decided to play ball on the mainland. In a letter to the Baseball Club he emphasized the fact that the street cars would not enter into competition with Mr. Hammond's ships for the baseball business, but this much was promised the shareholders, viz., that grounds and stands would be given the club free of charge for five years within twelve minutes of the office should the diamond artists desire to desert the island. On motion of Mr. Ed. Mack and Geo. A. Bingham, it was decided to buy the franchise from the Toronto Ferry Company for the sum of $6,000. The election of directors resulted

The Indoor Baseball Game.

The championship indoor baseball match between the Montreal and Mascotte teams in Sohmer Park on Saturday evening next is creating a lot of interest amongst the baseball fans. The Mascotte team will be composed principally of the players who won the Provincial Baseball League championship. The Montreal team will also be a strong one, and will include such players as Al. Johnson, Duffty, Tomkins and others.

That Baseball Squabble.

Washington, Nov. 21. — Nick Young, president of the National League, evidently thinks the American League people are in earnest in their proposed invasion of the National's territory. Yesterday Young said:—

"To all intents and purposes the American League has withdrawn from the national agreement. The provisions of the agreement stipulate that in order to secure protection for the following year, minor leagues must deposit annual dues on or before October 1. The American League has not only failed to remit, but its president has sent a declaration to league headquarters absolutely refusing to rejoin the present national agreement."

He further intimated that the American League denied the drawing up of a new instrument, in which it would practically be rated as a party of the first part.

Dope at a Horse Show.

New York, Nov. 22.—Charges of "doping" similar to those recently made in England against Americans racing there came to the surface at the Horse Show yesterday. Though the matter was not made public, it leaked out in the gossip of the day that the Horse Show Association had officially investigated the composition of the liniment, or leg wash, in use in the stable of Howard Willets, a wealthy horse fancier, of White Plains, N.Y., who is one of the most prominent exhibitors at the show.

In one of the classes for carriage pairs on Monday Mr. Willets exhibited the bay horses Caligraph and Lookout. Through some cause Caligraph fell or threw himself to the ground while the exhibition was in progress. Some of the officials in the ring at the time thought he acted like a horse that had taken a dose of "high stepping medicine," or that had been in some way artificially stimulated for the occasion.

After the horses had been sent out of the ring F. K. Sturgis, one of the directors of the association, happened to be below stairs where the horses of Mr. Willets' Gedney Farm string were kept. Mr. Sturgis saw the grooms using a liniment, or wash, on the legs of the horse, and at his suggestion the veterinary inspectors of the show, Drs. William Sheppard, Thomas G. Sherwood and John M. Heard were sent down to examine the Gedney Farm mixture.

After examining the mixture the veterinarians reported that if made up according to Mr. Willets' prescription it would not produce the symptoms exhibited by Caligraph in the show ring. But they added that the odor of the mixture indicated a larger proportion of ammonia than that acknowledged by Mr. Willets.

On this report the matter was dropped by the officials. But Mr. Willets was by no means willing to let the case rest. He felt that the officials owed an apology to him, after having made the charges of unsportsmanlike conduct and failed to substantiate them. And he intimated that unless some retraction was made he would withdraw all his horses from the Garden.

SEAGRAM'S HORSE SALE.

Bidding Was Slow and Good Horses Went for Little Money—Quebec Man Takes One.

Toronto, November 21.—Bidding at the sale of Seagram's horses to-day was, with one or two exceptions, slow, and prices realized, especially for stallions, were very low. Highest price paid was by T. C. Patterson for Piratic, dark brown gelding, by Marauder. Piratic is a powerful big three-year-old, and is eligible for the Queen's Plate.

Wm. Hendrie, jr., of Hamilton, was after brood mares, and secured the only two offered. Elizabeth is in foal to Golden Badge, and a chestnut mare to Morpheus.

Great Saragosa, once the pride of the Canadian race goers, sold for only $150. Last year one of his get, Sardonyx, sold for $3,500, as a saddle horse.

Ferdinand, as a three-year-old, won the Queen's Plate in 1897 in the fastest time ever made in this race, brought only $100. Ferdinand is suffering from a bowed tendon, and, in addition, injured one of his legs getting off the car.

Egmont, sire of Famous Tragedian, went to Quebec at teh ridiculously low price of $50. Despite the fact that he is 17 years of age, the old fellow was equally as live as Mecklenburg, the youngest stallion in the bunch. Mecklenburg, by the way, was the prettiest animal in the offering. The prices were:—

Montmorency, yearling, by Egmont, to Amyot, Quebec—$60.

Two-year-olds—Salacilic, by Saragossa, George, Amyot, Quebec, $75; Free Play, by Faraday, B. Gormon, Toronto, $110; Mount Stephen, by Egmont, John Dixon, Goderich, $50.

Brood mares—Elizabeth, by Imp. Glengarrie, William Hendrie, $50; chestnut mare, by Rambler, William Hendrie, $55.

Stallions—Saragossa, by Duke of Montrose, Ginary, of Waterloo, $150; Egmont, by Enquirer, George Amyot, Quebec, $60; Ferdinand, by Ferdinandez, Thos. Meagher, Toronto, $100.

Sherbrooke Snowshoers.

Sherbrooke, Nov. 22.—(Special.) — Last night the Sherbrooke Snowshoe Club held its annual meeting. There was a good attendance of members, and the club business for last year was very satisfactory, the reports showing the club to be in a flourishing condition. It is believed there will be considerable going on this winter in the way of entertaining. The club house will be improved in various ways and the membership strengthened.

The officers elected were :—Hon. president, J. H. Walsh, Esq. ; president, J. J. Penhale ; first vice-president, A. H. Anderson ; second vice-president, W. E. Loomas ; chorister, Dr. Bloomfield ; captain, C. Foss ; secretary, A. P. Loomas ; committee, Messrs. T. J. McGuire, G. G. Grundy, H. Bray, J. G. Walton, W. B. Neil.

A MIRACLE OF CHEAPNESS.

Have you a dollar in your pocket? Send it along with the coupin in the Encyclopaedic Dictionary advertisement to The Herald Educational Department. You will get the seven volumes in return for that dollar. If at the end of ten days you are not satisfied with the Encyclopaedic Dictionary, send it back. You will get your $1 back. If you are satisfied, you pay a dollar a month for nine months. If you want to learn all about military matters, the Encyclopaedia will tell you all that the best military authorities have to say of them. You can learn about Chinese mythology and customs. You should have the Encyclopaedic Dictionary. It tells everything about everything—exploration, history, mathematics, the arts, chemistry, law, geography, orthography, etymology, etc. You need never ask your friends a question about any branch of human knowledge if you have this work. It cost $750,000 and many years' labor to the greatest specialists. Yet it is yours for $10—at a dollar a month. Cheap—why it's a miracle of cheapness. And it was compiled for those reliable publishers, Cassell & Co., Ltd., of London, England. Have you that dollar handy?

CHAMPIONSHIPS ON SATURDAY NEXT

Senior, Intermediate and Junio Honors Will be Decided.

LONDON & M'GILL PLAY HERE.

Both Teams Are Very Strong for Intermediates, and it Should Make a Good Match.

The football season all over Canada will close on Saturday, when three games for Canadian championships will be played.

Brockville and Ottawa College will play for the senior championship at Toronto.

McGill II. and London meet at the M. A. A. A. grounds for intermediate honors.

McGill III. and Toronto II. will do battle at Toronto for the highest award in junior ranks.

The game here should be a good one. McGill II. is a strong team, almost up to senior shape, but they are up against a strong combination. Several old senior players are on the London team, among them Jack Gilmour, 'Varsity's former crackerjack half. The game is called for 2.30.

McGill is hoping also to win the junior championship.

For some time it looked as if between the weather and the cost of travel no game would be played, but London's prominent citizens have put their hands in their pockets and have put up some $400 to cover the boys' expenses, and the weather has cleared off just a bit, so, after all, the game will be played.

This is the fourth time McGill Intermediates have contested for the Canadian championship. They once won by default, and one year they played a draw with Brockville, which was followed by a win. This year's team is very heavy, works well together, and although not much of a tall scorer, has won out over every other intermediate fifteen in the Q.R.F.U. It is to be hoped that they have not neglected to keep in practice, for London has been at it for weeks back.

The game is scheduled for the M.A.A.A. grounds, and Mr. A. G. B. Claxton, vice-president of Canadian Rugby Union, has deputed Mr. E. Herbert Brown to look after all the details necessary for the welfare of clubs and spectators, so one can rest assured that everything will be in apple-pie order.

Skating Association.

The Canadian Amateur Skating Association met last evening for its 13th annual conclave.. It was decided to hold a championship meet first Saturday in February at the M.A.A.A. rink.

A feature of the meeting was the donation of $100 to the W. B. Curtis monument fund.

The election of officers resulted as follows :—

Hon. president—Lieut.-Col. Henshaw.
President—W. G. Ross.
First vice-president—Major Freeman.
Second vice-president—Jas. A. Taylor.
Hon. secretary-treasurer—Louis Rubenstein.

Council—H. M. Allan, A. Haig Sims, W. C. Finley, T. L. Paton, David J. Watson, W. O. H. Dodds, F. W. Barlow.

Louis Rubenstein presented the annual report, showing a very satisfactory year.

M.A.A.A. Smoking Concert.

The M.A.A.A. members have decided to hold a smoking concert for the entertainment of the lacrosse teams. A good programme is already being arranged, and as usual the nicotine habit will be encouraged with the aid of free pipes and tobacco.

Agitation in the world of homeopathic medicine has been the very soul of progress, as in politics and religion — the difficulties of opinion and the individualities of men have been parent to the disagreements by which the standard of these bodies have been elevated. So with most of our famous preparations—foremost in illustration of which truth stands the world-famous remedy to general debility and languor, "Quinine Wine," and which, when obtainable in its genuine strength, is a miraculous creator of appetite, vitality and stimulant, to the general fertility of the system. Quinine Wine, and its improvement, has, from the first discovery of the great virtues of Quinine as a medical agent, been one of the most thoroughly discussed remedies ever offered to the public. It is one of the great tonics and natural life-giving stimulants which the medical profession have been compelled to recognize and prescribe. Messrs. Northrop & Lyman, of Toronto, have given to the preparation of their pure Quinine Wine the great care due to their importance, and the standard excellence of the article which they offer to the public comes into the market purged of all the defects which skilful observation and scientific opinion has pointed out in the less perfect preparations of the past. All druggists sell it.

The Rideau Curling Club.

Ottawa, Nov. 21.—The adjourned meeting of the Rideau Curling Club was held to-night. Mr. H. H. Brennan resigned the presidency owing to ill-health, and Mr. E. D. Sutherland was appointed to succeed him. Mr. F. X. Bennett was appointed secretary, and Mr. J. F. Shaw first vice-president.

They Wake the Torpid Energies.—Machinery not properly supervised and left to run itself, very soon shows fault in its working. It is the same with the digestive organs. Unregulated from time to time they are likely to become torpid and throw the whole system out of gear. Parmelee's Vegetable Pills were made to meet such cases. They restore to the full the flagging faculties, and bring into order all parts of the mechanism.

St. Hubert's Are "Cocky."

The members of St. Hubert's Gun Club expect to start to work on the Rideau traps shortly. No challenges have been received for the Montreal cup, and some of the members are of the opinion that in the interest of the sport it would be better for the club to lose this trophy.

To-night Is M.A.A.A. Night.

Not more than 200 M.A.A.A. members can be accommodated in the gallery of the Windsor Hall to-night, and these 200 will assemble at the gym. at 7.30 and march to the hall, headed by the 1st P. W.F. band. The occasion is a lecture on the Transvaal war by Frederick Hamilton, the Globe's war correspondent. During several intermissions patriotic songs will be sung by the M.A.A.A. members.

U. S. Bowling Tourney.

Chicago, Nov. 21.—Chicago's great bowling tournament to determine the team and individual champions of the United States, to be held January 7 to 12, is already an assured success, according to the report of the committees having the matter in hand. The management of this tournament, which is the first national contest ever held by bowlers, is under the control of the Illinois Bowling Association, which has so successfully managed the Illinois State tournaments for the past three years.

Being held under the control of the American Bowling Congress, the winners of the different contests will be fully entitled to call themselves national champions, and fully 500 men are expected to enter.

MR. M'KENZIE NOMINATED.

Richmond, Nov. 22.—The Liberal representatives of Richmond County met in convention in the town of Richmond today, and nominated P. S. G. McKenzie, B.C.L., as their standard-bearer in the coming Provincial elections for the Province of Quebec.

CHAPLAIN LANE TO LECTURE.

The lecture to be given under the auspices of St. James Methodist Church on Monday, December 3, is being looked forward to with considerable interest. Comments of the press are very flattering to Chaplain Lane, and all who are proud of Canada's sons and the part they took in the war should not miss the opportunity of hearing how our boys behaved on board transports, at Cape Town, Bloemfontein, Paardeberg, Modder River, Kroonstadt, etc., etc. Chaplain Lane will appear in khaki uniform and has with him sword, rifle-belts, flags of truce and bandoliers from the fields of battle.

CANADIAN IRON MINES.

Kingston, Nov. 21.—(Special.)—For the past fifteen years iron ore has not been mined at the Robertsville mine, on the line of the K. & P. Railway. At last, however, active operations are under way and as quickly as possible 200 cars will be loaded and shipped to Bethlehem, Pa.

The Dominion Line steamship Cambroman, from Montreal, arrived at Liverpool this afternoon, Wednesday.

PEOPLE WHO WORK.

The working people are the bone and sinew of the community. But hard work makes "bad backs," and no man can work well if his back aches and pains.

The toilers are the great sufferers from backache and kidney ills.

Doan's Kidney Pills

are the great remedy for lame back and all kidney troubles.

They cure every kidney ill from backache to Bright's disease.

Mr. Wm. Anderson, the well-known carpenter, Parkhill, Ont., made the following statement:

"Seven years ago I was attacked by symptoms of kidney trouble which steadily grew worse. I had pain across my back and in both sides, sometimes also between my shoulders and across my eyes. I was much troubled with dizziness, drowsiness and tired, weary feeling. The urine was high-colored with a reddish, sticky sediment. I have taken Doan's Kidney Pills and must say that they have done me marked good. They have cured the urinary difficulty, removing the pain from my back and head, and I am glad to say that the dizziness, drowsiness and tired feeling have disappeared completely."

LOCAL "STREET" IS DEAD

Brokers Are Doing Little or Nothing Although Wall Street is Still Setting a Swift Pace.

The local market maintains its old attitude of remaining as dead as the proverbial doornail. There is still a marked absence of public interest in the market, and judging from appearances, the majority of the brokers are not doing much to liven things up. Some people look upon two or three houses on the Street to set the long delayed bull movement, yet as one of the leaders of the market said this morning, "We certainly can't do it all ourselves."

Undoubtedly the local market of late has presented a sorry appearance in comparison with Wall Street, which has been fairly booming, record transactions being recorded on several days. Not only this, but the fact there has had a rise, which puts it on the highest level in recent years, the present average price of 25 active stocks being 107.61 against 107.32, the high point in the boom of 1899.

Of course, taking it all in all, there is a good deal of bullish talk floating around the Street, concentrating on Royal Electric, for its future great possibilities; Toronto and Montreal rails, for continued big earnings; Twin City, for dividend prospects and one or two others; but the leaders of the market are looking for the following thing are not at the moment getting.

The Wall Street quotations came in fits and starts this morning, the storm of last night knocking the wires in seventeen different directions. The opening of the stock market was active and irregular; most of the internationals were lower in sympathy with London, but others advanced sharply, notable St. Paul and L. & O. Northern Pacific sold at 71¼ to 72 for 6,000 shares, the high price being a shade over last night. Manhattan rose 1¾, but immediately lost it. Tenn. Coal broke 2¾ and rallied a point. Some of the other specialties were heavy, including Sugar. The movement of prices became very mixed after the opening and business was on a very large scale.

$ $ $

L. J. Forget & Co.'s London cable quoted Grand Trunk first at 84½, second at 35¾, third at 26¾. Canadian Pacific at 90¾. Hudson Bay at 22½ and Anaconda at £10¾.

$ $ $

Montreal Street Railway earnings yesterday were $4,799, an increase compared with the same day last year of $158.50.

$ $ $

London, Nov. 22.—The weekly statement of the Bank of England shows the following changes:

Total reserve increased	£ 286,000
Circulation decreased	300,000
Bullion decreased	64,159
Other securities increased	204,000
Other deposits decreased	2,511,000
Public deposits increased	1,416,000
Notes reserve increased	178,000
Government securities decreased	1,500,000

The proportion of the Bank of England's reserve to liability is 45.31 per cent. Last week it was 43.75 per cent. Rate of dividend unchanged at 4 per cent.

It is a sound maxim that it is the pace which kills, and this is likely to find application to the stock market in due time. Whether recent advances have been justified by conditions may be questioned, but there can be no question that violent moves like those in Northern Pacific, Brooklyn Rapid Transit and other stocks have injured the market.

People who are bullish on the estimation, and who expect higher prices, are selling stocks through fear of a speculative collapse. Commission brokers are cautious about advising purchases for the same reason. They know that recent advances have been abnormal, and that when similar advances have occurred in the past, they have been followed by equally sensational declines. It may be that the market in some stocks has run away from the bull leaders, but this is not true as a whole. Certain interests have pushed a speculative advantage too far and too fast to receive the approval of conservative brokers and conservative traders.

The chances are that when this fact begins to be perceived by leaders there will be a halt in the programme and a decline which will enable buyers to regard some stocks as affording a fair speculative chance. The number of such stocks is much smaller than it was a month ago, but prices are always relative, and people would probably buy Union Pacific at 10 or Atchison preferred at 80 as readily as they would have taken the stock 10 points lower when the general level was lower.

Unless there comes some such decline the market will drift into the hands of two sets of people—extreme professional bulls and that class of outside traders who usually load up at high prices and liquidate on collapses. It may be that there are enough such people to keep the market going. Even if so, their sales will afford an opportunity for conservative people by and by to acquire some really cheap stocks. —Wall Street Journal.

MONTREAL MARKETS

OATS ARE IN FAIR DEMAND AND ARE HELD FIRMER.

A Firm Feeling in Cheese, with Butter Remaining About the Same.

Oats are in firm hands, and are quoted about 1c a bushel higher. The market for peas was also stronger, and sales of car lots, ex store, were made at 67 1-2c, which is an advance of 1-2c per bushel. Buckwheat was steady, and car lots changed hands ex store at 31c, Rye is quoted at 56c, and No. 2 barley at 45 1-2c to 46c ex-store.

The flour market was without any new feature. The demand is fully up to the average for the season, and prices rule steady. We quote:—Manitoba best spring patents, $4.70; second do., $4.40; winter wheat patents, $3.65 to $3.85; straight rollers, $3.15 to $3.40; in bags, $1.60 to $1.70; and Manitoba strong bakers', $4.10 to $4.30.

In rolled oats the feeling is firmer in sympathy with the advance in oats, but prices as yet show no actual change. The demand is fair for small lots at $3.25 to $3.30 per barrel, and at $1.57 1-2 to $1.60 per bag.

A good trade was done in feed, and the tone of the market is firm. We quote:—Manitoba bran, in bags, $15; shorts, $17; and moullie, $20 to $24; Ontario bran, in bulk, $14.50 to $15; and shorts, $16 to $17.

There continues to be a good demand for baled hay, and the market is fairly active at firm prices. We quote:—No. 1, $9.50 to $10.50; No. 2, $8.50 to $9; and clover, $7.75 to $8.25 per ton, in car lots, on track.

DAIRY PRODUCE.

There is a firm tone to cheese, with the large bulk of the spot trading in the late makes.

Finest west Septembers	11 1-4c to 11 1-2c
Finest west Octobers	10 1-2c to 10 5-8c
Finest late Eastern	10c to 10 3-8c

There are numerous enquiries for strictly finest butter, but little of it is to be had. The ruling price, therefore, is 20 1-2c. Wesetern dairy butter has been dealt in at 17c to 18c.

We quote:—

Finest creamery	20 1-2c to 21c
Seconds	19 1-2c to 20c
Western dairy	17c to 18c

COUNTRY PRODUCE.

A fair trade is being done in eggs, with no great change in prices. No. 1 candled stock, 19c to 20c; No. 2, 15c to 16c; culls, 12c to 14c per dozen.

Business in maple product was slow, and the market is dull. We quote:—Syrup at 70c to 75c per large tin, and 50c to 60c per small tin, and 6 1-2c to 7c per lb., in wood; sugar, 9c to 10c.

The demand for honey is only fair at steady prices. We quote:—White clover comb, 13c to 14 1-2c; white extracted, 8 1-2c to 10c; buckwheat, in comb, 10c to 12c; and extracted, 7c to 8c.

The market for beans is quiet and unchanged. We quote:—Canadian hand-picked, $1.35 to $1.45; and primes at $1.20 to $1.25.

DRESSED POULTRY.

The weather was a little more favorable to-day, but the market needs a sustained cold period to help it along. Turkeys sold at 9c to 10c; chickens at 7c to 8c; fowls at 5 1-2c to 6 1-2c; geese at 6c to 7c; and ducks at 8c to 9c per lb.

The market for partridge was unchanged, owing to the fact that the supply is just about equal to the demand, and sales of firsts were made at 65c to 70c, and seconds at 40c to 45c per brace.

A DRY GOODS FAILURE.

Mr. F. Joseph Pelletier, dry goods dealer, has assigned, at the instance of Messrs. Thibaudeau Bros. & Co., with liabilities to the amount of $15,000. The chief creditors are Gilbert Gagnon, $5,589; Thibaudeau Bros. & Co., $2,412; S. Greenshields, Son & Co., $2,000; W. R. Brock & Co., $1,518; Gault Bros. & Co., $1,000.

THE CHEESE BOARDS

Liverpool, Nov. 21.—Cheese, unchanged, 51s 6d for white, 53s for colored.

Woodstock, Ont., Nov. 21.—(Special.)—Sixteen factories offered 7,925 boxes cheese, 2,035 white and 5,800 colored. No sales; 10 1-2c highest bid. Eight buyers present.

New York, Nov. 21.—Butter, steady; creamery, 19c to 26c; factory, 12c to 16c; June creamery, 18c to 23 1-2c; imitation creamery, 16c to 19c; state dairy, 16c to 24c. Cheese, quiet; large September fancy, 19 3-4c; small September fancy, 11c; large October fancy, 10 1-4c; small October fancy, 10 1-2c.

THE GOLD MINES

The following notice has just been received by the secretary of the Sailor Consolidated Mining and Milling Company, of Camp McKinney, B.C., in Toronto:

"Dear Sir,—I have much pleasure, by order of the Canadian commission, to advise you that the international jury at the Paris Universal Exhibition has awarded the Dominion of Canada for a collective exhibit of minerals, of which your exhibit of gold ore formed an important part, a grand prix diploma, and you will be entitled to receive a copy of the award.

I beg to remain your truly,
"AUG. DUPUIS."

MACKENZIE & MANN MINES.

It is announced that the Brooklyn Stemwinder and other properties of Mackenzie & Mann, known as the Dominion Copper Company, at Phoenix, B.C., will resume active operations at once, followed by shipments to the Trail smelter.

A RECORD RUN.

The Granby smelter at Grand Forks, B.C., made the record of its existence the other day, when it finished a run of 763 tons for the day, with a normal capacity of 900 tons. The ore handled was from the Knob Hill and Old Ironsides mines, and the plant worked as smoothly as though nothing unusual was being done. Later, the smelter made another run of 656 tons of ore in one day. The last month's pay roll at the Phoenix Mines, viz., Knob Hill, Old Ironsides and Grey Eagle, ending November 10th reached $26,933.62, the number of hands paid being 270.

GRAIN UP WEST

Toronto, Nov. 22.—Wheat—The market is quiet; red and white are quoted at 63c to 63½c middle freights; goose wheat is nominal at 62c west; spring wheat is steady at 65c to 66c east; Manitoba wheat is steady at 91c for No. hard and 87½c for No. 2 hard Toronto west, 93c for No. 1 hard and 89c for No. 2 hard grinding in transit, 83c for No. 1 hard afloat Fort William, and 87c Goderich. Flour—Market quiet; cars of 90 per cent. patents are quoted at $2.90 in barrels west and choice brands are held 15c to 20c higher; Manitoba flour is steady at $4.90 for cars of Hungarian patents and $4.30 for strong bakers in car lots, bags included, Toronto. Millfeed is steady at $12 for shorts and $11 for bran west. Barley is steady; No. 1 is nominal at 43c east, No. 2 is quoted at 39c middle freights and No. 3 extra at 36½c west; feed sold east at 37c. Buckwheat is quiet at 47½c middle freights. Rye market steady at 47½c middle freights. Corn is steady at 32c for new Canada yellow west; American old No. 3 yellow is quoted at 46c and new at 44c Toronto. Oats are firm at 29c for No. 1 white east, No. 2 white are quoted at 24½c middle freights and 24c high freights quoted by local dealers. Oatmeal—Market is quiet; cars of carrels are quoted at $3.20 and bags at $3.20 at Toronto, and 20c more for smaller lots. Peas are firm at 60½c, 59½c to 60c middle freights, and 58½c high freights west.

A CORNER NOW IN CORN

Practically An Unknown Man Gets the Best of the Wise Ones in the Chicago Corn Market.

That November corn has been cornered has dawned upon the shorts in the Chicago Board of Trade. A dispatch says:—"The figurehead of the corner is George H. Phillips, a broker, who, a month ago, was scarcely known among heavy operators. It is now said, however, that for himself and a few others he has a line of 3,000,000 bushels of corn bought for November delivery—three times as much contract corn as there is on hand in this market, possibly twice as much as will be here on November 2.

"A successful corner in corn this month on such a hue when the country had raised a crop of over two billion bushels is possible because of certain conditions. Only corn of a grade known as No. 2 is deliverable on contracts. It must be dry, and wet weather has retarded the drying of the new crop. Stocks of old corn have been exhausted, because of an increased demand for every purpose during the last year and because of the bull operations in this market of the Pattens.

"Phillips, who had been a bear from 40 cents down, saw the opening and took the place of the Pattens as bull leader. He bought more than 3,000,000 bushels of November corn at a price considerably under 37 cents. The operations began on October 26 and for several days Phillips' control of the situation has been growing steadily stronger.

"He has been taking the cash corn as it was tendered and shipping East, reducing supplies, but by scalping operations in the pit has maintained his line intact.

SELLS PART OF HOLDINGS.

"Phillips sold out a good portion of his long holdings to-day, after shorts had bid the price up to a point where such sales netted handsome profits. It was estimated after the close that he sold about 500,000 bushels at prices ranging from 42 1-4c, the high point of the day, to 41c. The close was at 41 1-2c, against 40 5-8c, the close yesterday.

"Continued wet weather and small country offerings caused shorts to display considerable nervousness early, and they bid up sharply. Phillips started to administer to the wants of the shorts after the price became a tractive.

"There has been no evidence that Phillips is anxious to force a high price at present.

"Phillips is an unknown quantity on the board. Scores of operators do not know him even now, although they know he has corn and lots of it. Secretary Stone, who knows most of the prominent members, said to-night:—'I never heard of him until a few days ago and I'm sure I shouldn't know him if I saw him.'

"He branched in business for himself a year ago under the firm name of Phillips & Hoge. This firm was soon succeeded by the George H. Phillips Company, of which he is treasurer and manager. He came to Chicago from Morris in 1886 and went to work in one of George A. Seavern's elevators as a weighman."

$ $ $

Elevator men are reported to be buying corn in Chicago, which is another way of saying they are covering the farmers' corn they sold for him a month ago without first consulting him about it. This is wholesome punishment at 5c to 6c per bushel loss, and may teach the elevator ring that there are times they cannot "fix the price" of the farmers' grain for him.

$ $ $

The Government will issue a December report on the 10th prox., giving the total crop for this year.

$ $ $

Private elevator stocks of wheat at Chicago, 6,839,000; corn, 1,188,000; oats, 2,873,000. Total public and private, 19,453,000, 2,218,000 and 6,366,000 respectively.

KEENE TURNS BULL

BIG WALL STREET OPERATOR PREDICTS STRONG MARKETS.

Made $500,000 Since McKinley's Election and Is Now Carrying 150,000 Shares.

Mr. James R. Keene, who for some time before the election posed as a bear on the stock market, yesterday issued a statement for publication, predicting a generally higher market. Many who are acquainted with Mr. Keene accept his statement as an indication that he is about to take profits, as it would be contrary to his usual custom to tell his own plans. In his statement Mr. Keene says:

"I certainly expect to see the market higher. It has gone up since the election, and there may be reactions, but the great forces under the market are lifting prices up instead of crushing them down. A year ago I was a bear. Why? Because there had been an unparalleled creation of industrial securities; thousands of millions lay undigested in the market, and there were $800,000,000 of securities in which underwriting syndicates were tied up. Enormous loans had been made on unmarketable collateral. It was certain that this would make trouble, and it did.

"Now the situation is reversed. The holdings of these stocks by syndicates and by commission houses have been liquidated. That great amount of stock has been assimilated and is no longer a menace to the financial situation. That is a great change for the better.

"When prices were at a high level in 1899 the whole Street was loaded. Now commission houses are carrying much less than their full lines of stock. This is proof that securities have been taken up; have gone into boxes everywhere. The small increase in loans lately proves that people had protected themselves against the possibility of Bryan's election and have been able to buy a great many securities outright. The absorbing power of this country has become wonderful. People do not realize the effects of the annual increase in national wealth.

"The balance of trade in favor of this country for ten months has been $500,000,000, and that on top of $500,000,000 more last year, and as much more in 1898. The money in circulation is now above $2,000,000,000, all made secure beyond question by this election. The crops and the products of the mines add thousands of millions more annually.

"Just in the matter of railroad earnings, where we can get down to the figures closely, it appears that in seven months of this year the net earnings of about one hundred roads increased over $23,000,000. The increase in exports, the great increase in railroad earnings and the maintenance of industrial profits, have gone beyond the calculations of everybody. I don't say that everything is a purchase, or that people should buy with their eyes shut, but I do say that instead of a dangerous financial situation, such as existed a year and a half ago, we have a sound commercial and speculative position. The election has given everybody confidence to go ahead. We are going to have enlarging prosperity, and in that prosperity I believe the stock market will have a full share."

Mr. Keene was one of the first to take an active part in the market following the election. His profits since then are estimated at half a million dollars. He is said to be now carrying 150,000 shares of stock.

STRUCK BY A CAR.

Henri Caron, of Maisonneuve Street, a Victim of Last Night's Storm.

Henri Caron, barber, 44, of 115a Maisonneuve Street, was seriously injured last night by being struck by a car on St. Catherine Street. He was crossing the tracks at Maisonneuve Street, and was practically blinded by the storm. A car going east struck him. He was taken to the hospital in the ambulance. His injuries consisted of a bruised head and a fractured leg.

MR. MONET INJURED.

Charles Monet, of 1745 St Lawrence Street, Mile End, suffered a broken arm through the falling upon him of a piece of wood, this morning. He was taken to the General Hospital.

LARGE STEEL SALES

The demand for steel rails is on a liberal scale and the opposition to the price of $28 per ton, which, it may be noted, was by no means so important as represented in some quarters, has practically disappeared. Orders for over 200,000 tons have been taken recently, including the following:

	Tons.
Illinois Central	53,000
Erie	35,000
Chicago, Burlington & Quincy	70,000
Southern	10,000
Louisville & Nashville	10,000
Cleveland Street Railways	30,000
Total	208,000

A despatch from Boston yesterday stated that the Federal Steel Company had closed twice as many orders for steel rails this season as it had up to this time a year ago. Judge Gary, when questioned, said that he thought that this was an overstatement, but said that orders were coming in very satisfactorily.

FURIOUS GALE SWEEPS THE CITY

Destruction of Property and Danger to Life.

THOUSANDS OF DOLLARS LOSS

Was Caused by the Hurricane Along the Wharves—Many Accidents Occurred.

The gale which raged with terrific fury over the greater part of the continent yesterday caused much damage to property in the city and district of Montreal. The weather prognostications foretold a tempest, and it came with a violence entirely unexpected, after a forenoon of conspicuous mildness. Quite early in the afternoon the hurricane rose and carried with it pelting showers of rain, which soon became sheets of falling water.

For hours the deluge continued and the streets were literally running streams of half-melted snow. Those who ventured to cross the thoroughfares in the lower parts of the town had to plunge ankle-deep through the slush and ice-cold water. Shutters and chimney-tops were swept off the houses in the more exposed parts and the windows were lashed as if with whipcords. The branches of the trees in the squares were wrenched from their trunks and the telegraph and telephone wires were torn from their fixings.

The most serious disaster caused by the gale was the destruction of a large part of the eastern wall of the new Theatre Francais, which, as reported in a special edition of The Herald yesterday afternoon, went crashing into the tenement building adjacent to it and reduced it to a ruin and caused the death of one person and the serious injury of several others. This was in the afternoon, when the gale had only attained a force of something like forty miles an hour. At the time the majority of the citizens were returning to their homes the pace of the hurricane had increased to fifty miles an hour, and as the evening advanced the velocity of seventy miles was reached. Swifter than the fastest express train it tore along, twisting the wires, blowing down the boardings, and fanning the flames where fires broke out.

THE CHAPTER OF ACCIDENTS.

At the various police stations a number of accidents were reported. The constables at the Central Station reported many streets without lights and numerous instances of sign fences and wires being swept away. A constable reported that two horses belonging to Messrs. Donnelly got entangled in a telephone wire, which fell from a pole on Commissioners Street. A relief party was sent down from the telephone company's office, and the animals were extricated after being down for over half an hour. Police stations 2 and 3 were without their usual lights for a part of the evening, and complete communication by telephone was impossible with them until after nine o'clock. The book at No. 4 Station showed that a number of fences, trees and wires had been carried away by the wind; among others a portion of the large fence enclosing Mount St. Louis College grounds on Ontario Street.

In No. 5 district the lights on the street were out for some time, and two large fences, one at the corner of Bleury and Dorchester Streets, and the other at Craig and Cote Streets, fell beneath the onslaught of the wind. Police Stations 11, 12, 13 and 14 had also like reports of fences that could not stand the forces of the wind. They also had their periods of darkness when electric wires got crossed or came down altogether.

STRUCK BY A FENCE.

At No. 13 Police Station it was reported that Edward Harnois, aged 19 years, was passing the female gaol on Fullum Street, at 11.10 o'clock last evening, when a large fence on the street was carried away and struck the unfortunate man. The weight of the fence fell upon his body and he sustained a broken left shoulder. He was also severely bruised on the head and back. A call was sent to the Notre Dame Hospital and in a few minutes an ambulance from there brought the injured man to the hospital. He was given the necessary medical treatment and will probably be all right again in a few weeks. Harnois resides at 99a St. Phillip Street, St. Henri.

Among other things damaged by the storm were several trees on the Champ de Mars. Two of these had their huge branches torn away by the force of the wind, and they were stretched across the embankment of the square near Craig Street.

At No. 15 police district the men reported that the harbor front was without light for a part of the evening, caused by several of the wires, which had fallen. One live wire ignited a pole at the corner of Commissioners and St. Sulpice Streets, and a constable was placed there to prevent traffic until the electric company had made the requisite repairs.

SOME OF THE FIRES.

The wind carried the sparks from the chimney of the Grand Trunk rolling mills over into the company's lumber yards. A couple of piles took fire, and the men were kept busy keeping it from spreading. In the end it was decided to shut down the fires in the mills.

A number of other fires, none fortunately of great magnitude, occurred during the evening. There was a call to box 316, at the corner of Dorchester and Shaw Streets, where a telegraph pole had caught on fire, and threatened to spread the conflagration. This same spot had to be visited twice by the fire brigade. Fences were blown down everywhere. On Craig Street, nearly opposite the Street Railway offices, where building operations are going on, the high fence, which temporarily encloses the place, fell flat out across the street car tracks, and traffic had to be suspended until the obstructed way could be cleared. The same thing happened on McGill Street, where the fence round the Grand Trunk building gave way and fell into the street. The electric lights were extinguished in many of the houses and on the thoroughfares. Beaver Hall Hill was in total darkness.

One of the huge chimneys of the Grand Trunk engine house was thrown right across the tracks in the yards. A gang of men were soon at work, and after an hour's work succeeded in removing the debris.

Between 6.30 and 8.45 o'clock more umbrellas were wrecked in St. Denis Street than a score of repairers could untangle in a week. A peculiar thing occurred shortly after eight o'clock at the corner of St. Denis and Ontario Streets, where a number of men and women were waiting for a car to Craig Street. Just as the car came along the wind increased so quickly in volume and velocity that five of the nine umbrellas were carried off by it, two were turned inside out, the remaining two being ripped from rim to centre.

ON ST. JAMES STREET.

Damage to property on St. Catherine, St. James, Notre Dame and intersecting thoroughfares between St. Francois Xavier and Windsor Streets was quite heavy, principally through broken windows, ripped cornices and damages to tin roofs. In numerous places signboards were wrenched from their fastenings and hurled into the streets. Tin coverings were pulled from several roofs on St. James Street, between the post-office and McGill Street, and in one instance the roll of battered material was carried along to an adjoining building. Everything that was not securely fastened or anchored was forced to give way before the westerner.

Several of the copper cornices on the St. James Street side of the post-office building were twisted off and carried down the street by the wind. At the St. Lawrence Hall building a couple of frames of glass were broken out in the upper stories.

WRECKAGE ON RIVER FRONT.

Shortly after one o'clock this morning a terrific gust wrought havoc amongst the telegraph and telephone poles by the Catholic Sailors' Club and Harbor Commissioners' office. Six or seven of them fell with an appalling crash; one fell against the harbor office, the others lay in four or five pieces about the street, while the wires formed an impromptu entanglement to trip up the unwary passers-by.

The post office had spells of darkness during the evening. About 12.30 the lights went out apparently for good, and the night staff finished up as far as they could with a solitary gas jet.

The electric lighting companies had a difficult task last evening keeping their lines working. In many instances buildings were left in total darkness. At the theatres the lights were extinguished several times during the performance, gas being kept in readiness.

The telephone service suffered some. The value of the underground conduits and cables was amply demonstrated. Under the old conditions of single wires the service would have been demoralized for days.

The telegraph lines suffered severely. Wires were reported down in all directions. Where they were not down they worked very slowly. Inquiries at the Bell Telephone office this forenoon elicited the statement that the company expect to have their service fully restored by this evening.

It was feared that the wind might cause some accident through the falling of the walls of the building now being demolished in the rear of the Bank of Montreal. As a precaution several policemen were stationed on Craig Street to warn pedestrians.

AT WESTMOUNT.

Westmount was dark. From one end to the other the town presented the appearance of having been daubed with a tarred stick. Electric light and telephone poles were torn from their mooring by the terrific wind, and the wires were crossed and recrossed in tangled, inseparable masses, making it dangerous to life and limb for pedestrians as well as horses. However, no fatalities were reported up to 1.30 o'clock this morning, though there were numerous narrow escapes from falling glass, poles and branches of trees.

Candles were used as illuminants in the Town Hall, where the Finance Committee of the board, started to hold a meeting, but finally adjourned when the windstorm increased. The streets were deserted except here and there where the electric light company had small gangs at work clearing away the debris.

GREAT DAMAGE AT THE DOCKS.

The wind last night played havoc along the river front. Sheds were laid flat, telephone and electric light poles went down, broken off clean as if they were matches. The damage done along the river will total up to a good many thousands.

The storm struck at odd places, and did not sweep straight along the docks. All the poles on Common Street from Commissioner Street to past the harbor office are down, and the network of wires opposite the harbor office impedes all traffic. The poles are snapped off clean, and most of them were thrown over the dyke by the force of the wind, obstructing all the ramps.

Down opposite the Molson brewery on Notre Dame Street east are the Leyland line freight sheds and the Manchester liners' sheds. Both are laid flat on the dock, and the timber and the freight which was being loaded for Europe are all mixed up in one confused heap.

The roof of the Lord line shed is gone, and a corner of Allan's Glasgow shed is missing.

None of the boats at the docks were damaged.

ADD NOTES

John Crowe's hay shed in Hochelaga, near the C.P.R. works there, was blown down by the gale last night.

A tree at the corner of St. Catherine and Bleury Streets was uprooted during the night.

A hay shed near the canal west of Black's Bridge was destroyed last night. It belonged to Mr. Ker.

MR. WILLETTS' MILL RUNNING.

Chambly Canton, Nov. 22.—The damage to Mr. S. T. Willett's Richelieu Woollen Mills, caused by the break in the dam of the Chambly Power Co, has been repaired and the mills are in full operation again.

LORD ROBERTS WAS SERIOUSLY HURT

By Being Thrown from His Horse on Sunday.

HE WAS BADLY SHAKEN UP,

But No Bones Were Broken, and He Has Not Reported the Accident to the War Office.

London, November 21.—The Evening Standard in a special edition this evening says:—

"Just as we are going to press the news has reached London that Lord Roberts was thrown from his horse and received severe injuries.

"The officials of the War Office say they are "not in a position to report anything in connection with the rumored accident to Lord Roberts." This utterance is interpreted here as giving indirect support to the Evening Standard's statement.

NO BONES WERE BROKEN.

London, November 22.—Lord Roberts' accident occurred on Sunday last while he was riding. His horse fell with him and he was shaken and bruised, but no limbs were broken.

As he has since sent despatches to the War Office, it is believed that he is performing his usual duties, especially as he has not mentioned the accident.

A despatch to the Standard says:—Lord Roberts' bodyguard removed him to Government House, Johannesburg. He was badly shaken and bruised, but it is expected he will be able to take the field in the course of a few days.

The Daily Telegraph learns that Lord Roberts has telegraphed privately to the Secretary of State for War, Mr. William St. John Brodrick, that he felt no ill effects whatever.

Cape Town, November 21.—The transport Canada is being fitted up preparatory to taking Lord Roberts home. The commander-in-chief's departure has been delayed owing to the illness of his daughter.

Lord Roberts yesterday telegraphed the Cape Town municipality that he was still unable to name the date on which he would partake of their hospitality. The Council has arranged to tender a reception and banquet to the field marshal before he leaves for England.

SURPRISED THE "BUFFS."

London, November 21.—Lord Roberts states that the Boers are very active in the southern part of the Orange River Colony, and have repeatedly broken the railway and telegraph lines near Edenburg.

He says the occupation of Klerks-dorp by General Barton is important, as it greatly hampers the burghers in their operations.

The commander-in-chief also reports that the Boers have ambushed a waggon load of supplies and thirteen men at Utrecht, Natal. They afterwards released the men, four of whom were slightly wounded.

IRISHMEN'S GOOD WISHES.

London, November 21.—The Irishmen resident in Bloemfontein recently forwarded to Lord Roberts an address to himself and Lady Roberts, tendering their good wishes and incidentally stating:—

"Your clemency and invariable kindness to the Dutch people have endeared you to the hearts of all South Africans. To your correct and most Christian leniency some cynics and adverse critics have taken exception. Angels in heaven and honest hearts all the world over will, however, praise you and bless you for this same love- inspiring mercy. If harsher measures—which God forbid—should be deemed necessary in this sorely oppressed country, it is meet and fit that they should be executed by other hands than yours, thou most worthy and illustrious son of St. Patrick's Isle. . . . Great Britain is rightly proud of you; the army simply love you; and we Irishmen humbly and gratefully thank God for the honor of claiming you as our fellow-countryman."

Lord Roberts replied from the army headquarters, Pretoria, on October 6, as follows:—

"Dear Gentlemen,—It is with feelings of peculiar gratification that I have received from you, my countrymen, at Bloemfontein, such a hearty 'God speed' for Lady Roberts, my daughters, and myself, and I thank you from the bottom of my heart for this expression of your good will. Truly Irish as your letter is in its affectionate kindness, it will always be preserved in my family as a treasured possession and as a proof that Irishmen lose none of their national generous and warm-hearted characteristics by being transplanted to a foreign soil, and as a proof also that Irishmen in South Africa are animated by the same devotion to Ireland as their countrymen at home, and by the same loyalty which has been lately so conspicuously displayed in our dear little Emerald Isle on the occasion of our beloved Sovereign's visit. I value especially the appreciative manner in which you have alluded to my services in South Africa during the war, and it will always be a source of pride and pleasure to me that I have earned the approval of my countrymen in Bloemfontein.

"Begging that you will accept from Lady Roberts, my daughters, and myself, our heartfelt thanks.

"I am, dear gentlemen,
"Yours, sincerely and gratefully,
"ROBERTS."

NEWS OF CANADIANS.

Ottawa, Nov. 21.—(Special.)—The following cablegram, dated Cape Town, 20th, and signed by Sir Alfred Milner, was received to-day by His Excellency the Governor-General :—

"135, Stewart, slightly wounded, Pochefstroom, November 14th; 398, Valentine, died of enteric, Carmiston, November 13th; both Strathcona's Horse. Hare, D Battery, slightly wounded, Lelufontein, November 6th."

The above is not very clear. No. 135 on roll is A. W. Stuart, of A Squadron, whose next-of-kin is A Stuart, Sandy Point, Ont. There is no "Valentine" on the roll. No. 398 is E V. Chancellor, whose next-of-kin is H. Chancellor, Atlin, B.C. It is possible that the name may be E. Valentine Chancellor, and the man may have been called generally by his middle name. There are two "Hare's" in D Battery : W. A., whose next-of-kin is Wm. Hare, and W. R., whose next-of-kin is Mrs. T. Hare. The address of the next-of-kin in each case is given as "Elgin County."

A JAPANESE BOODLER.

London, Nov. 22.—"The overthrow of Marquis Ito's Cabinet," says the Yokohama correspondent of the Daily Mail, "is threatened. Already Viscount Katsouna, Minister for War, has resigned, owing to a scandal affecting Hoshi Toru, Minister of Communications, who is accused of accepting large bribes, and will probably be arrested. The political opponents of the accused Minister denounce him as a 'tammanist,' probably because he was formerly Minister to the United States."

SURPRISING RESULTS.

A Simple Internal Remedy Makes Remarkable Cures of Catarrh.

People who have used sprays, inhalers, salves and washes for catarrh and have found how useless and inconvenient they are, will be agreeably surprised at results following the use of a pleasant, internal remedy in tablet form; druggists everywhere admit that Stuart's Catarrh Tablets, which they sell at 50 cents for full sized treatment is the safest, most effective and popular of all catarrh remedies.

Nearly all cheap cough mixtures and throat lozenges contain opiates; these cheap medicines give a temporary relief, especially with little children, by destroying nerve sensation; the irritation in throat, which causes coughing is temporarily removed, not by removing the cause but by deadening the nerves of feeling the irritation is not felt, although it is still there and will promptly return.

Stuart's Catarrh Tablets is the best remedy to remove catarrhal secretion, whether in the nose, throat or stomach because they are composed of wholesome antiseptics like Eucolyptol, Guaiacol, Sanguinaria and Hydrastin; when you use these tablets you know what you are putting into your system and not taking chances with cocaine, opiates or similar poisons found in so many catarrh cures and cough medicines.

Dr. Ramsdell in commenting on catarrh cures says:—"I can heartily recommend Stuart's Catarrh Tablets, because they contain no cocaine nor other dangerous drug found in so many advertised catarrh cures. I have known of many cases of long standing catarrh of the head and throat completely cured by the daily use of these tablets for several weeks. One case in particular, which I could not reach with an inhaler or spray, and where the catarrh caused daily headaches and a noticeable loss of hearing, was entirely cured by this harmless but effective remedy."

Dr. Wainwright says:—"I never hesitate to prescribe Stuart's Catarrh Tablets for catarrhal headaches and catarrhal deafness because I know them to be perfectly safe for child or adult and have seen many remarkable cures resulting from their regular daily use; because they are advertised and sold in drug stores is no reason why any good physician should not use them, because we should seize upon the means of cure wherever found."

Stuart's Catarrh Tablets are especially valuable for catarrhal colds in children because they are pleasant to the taste and may be freely used to break up severe colds and croup at the very beginning.

All druggists sell the remedy for fifty cents for full sized package.

KRUGER'S WELCOME LOST BY WAITING

His Non-arrival and the Rain Dampened Enthusiasm.

MANY FOOLISH STORIES

Told to Account for the Gelderland's Delay, One Being Her Capture by a British Fleet.

Marseilles, Nov. 21.—A blunder in the calculations of the time the Gelderland would require between Port Said and Marseilles resulted in the fizzling out to-day of the intended demonstration, and imperilled the success of the reception, to-morrow. The French reception committee did not take into account the gale that is sweeping the Mediterranean, and the slow speed of the Gelderland, but allowed all their arrangements to stand.

The Boer delegates, victims of the organizing committee, waited expectantly at their hotel from early morning until the afternoon, the arrival of the cruiser. For several hours the carriage intended for Mr. Kruger remained at the entrance of the hotel, the horses, which were decorated with rosettes of Boer colors, pawing the ground impatiently until the equipage was dismissed. Various delegations and societies that had assembled at the landing stage remained through heavy showers until they realized, in the non-signalling of the Gelderland, that their presence was futile.

CROWDS LOST MONEY.

Then they disbanded. The fiasco was unfortunate, because thousands among to-day's concourse will shrink from the possibility of losing another morning to-morrow. To-day's crowds were for the greater part made up of working men and shopkeepers, who lost money by attending the gathering, and who are not likely to repeat the experiment.

Bad weather and the element of uncertainty as to the time of Mr. Kruger's landing kept many thousands even to-day from the route. Thirty thousand would be a generous estimate of the crowd which was massed thickly at several points, while only sparse assemblies were to be seen elsewhere.

The French and the Boer delegates were all intensely disappointed, especially as up to a late hour no news had been received of the Gelderland's entry into the harbor, although it is fully expected that she will anchor there before daybreak to-morrow. No importance is attached to the report of an injury to her machinery, the theory being that she is merely going slowly in consequence of heavy sea, which is consequently responsible for the delay.

RUMORED CAUSES OF DELAY.

An amusing statement appeared in a local paper this afternoon in which an alleged rumor was published to the effect that the delay was due to the capture of the Gelderland on the high seas by a British squadron, or to deliberate damage to her machinery by a mercenary. Naturally these statements only provoked the laughter of those who read them.

The Boer committee has issued an announcement that the programme intended for to-day will be carried out to-morrow.

The attitude of to-day's concourse, while unanimously favorable to Mr. Kruger and the Boers, was nevertheless quite free from anything offensive to the British, which tended to enhance the absurdity of a noisy promenade along the principal boulevards this evening by a score of anti-British youths whose efforts led to no disorder whatever.

BARMAN SHOT A BOY,

And Drank Carbolic Acid After His Attempt at Murder—The Boy Will Recover.

New York, Nov. 21.—John Daly, 15 years old, a telegraph messenger at 16 Broadway Street, was shot in the head at that place to-day by Joseph E. Neaman, a bartender. Neaman took carbolic acid and died within a few minutes.

Neaman had entered the telegraph office and called to Daly, who was back of a counter. The boy went at once. A moment later the operators and others in the building were startled by three shots in rapid succession. Daly fell shot through the left side of the face. A number of men rushed towards Neaman, but he was too quick for them. He took a small bottle of carbolic from his pocket and drained it. A policeman saw the rush, and was one of the first to reach Neaman. The dyign man handed him a letter. He was dead within a few minutes. Daly was taken to the Hudson Street Hospital, where it was found that one bullet had hit him in the side of the head and that a second lodged in his hip. The surgeons said there was no reason why Daly should die.

THE PHILIPPINE WAR.

Manila, Nov. 21.—General MacArthur was asked to-day whether the result of the Presidential election in the United States was in any way responsible for the orders to push operations against the Filipinos. He replied that the result of the election was merely coincident with other features of the situation. He added that the return of the soldiers and marines from China with the recruits who had arrived recently, would increase the number of troops to 70,000. The enlargement of the forces, the ending of the rainy season, better roads, improved transportation, and the desire to make the most efficient use of the volunteers before their term of service expired in June are all contributory to the most active campaign.

Concerning the replacing of 35,000 volunteers, General MacArthur said he favors the establishment of a standing army of 75,000 men, and the authorization of the President to increase it to 100,000 men. The general also said he was enlarging the force in General Young's district to nearly 7,000 men, that heavy reinforcements were being sent to General Hughes in the Island of Panay, that more troops had been ordered to Southern Luzon, and that various column movements had been planned.

SUCCESSION DUTIES.

Ontario Government Can Collect Them on Property Transferred Before Death.

Toronto, Nov. 22.—By the settlement of litigation in progress for several months between the heirs of the late James Austin, president of the Dominion Bank, and the Provincial Government, the principle is conceded that the Government can collect succession duties on property transferred before death. Mr. Austin left only $72,000, but the Government has evidence to show that he handed over $648,000 five years before his death to various members of his family to avoid the duties. The family now agrees to pay $15,000 in duties, instead of $1,800, at first offered. The case will be taken as a precedent. Several others are pending, among them that against the heirs of the late Wm. Duffield, London, who, it is claimed, transferred $500,000 shortly before his death, and John Breden, Kingston, who transferred $30,000 before his death to bring his estate below $200,000.

MAY BE A MONTREALER.

Ottawa, Nov. 22.—(Special.)—A young man who gave his name as John Murphy, of Chicago, was arrested yesterday, after an exciting chase, for picking the pocket of Mrs. Mary Marston, of Hull. The police are of the opinion that the man's real name is James Fenton, a well-known Montreal crook, who has served several terms in prison. The Montreal police have been communicated with.

A BROKEN-DOWN SYSTEM. — This is a condition (or disease) to which Doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same, the more prominent being sleeplessness, langour, lassitude, sense of prostration or weariness, depression of spirits, and incapacity or want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vitality—vigour—strength and energy to throw off these morbid feelings, and to secure this there is nothing to equal that wonderful restorative

THE NEW FRENCH REMEDY, THERAPION NO. 3.

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rotan, Jobert, Velpeau, and others, surpasses everything hitherto employed, and so surely as it is taken in accordance with the printed directions accompanying it, will the shattered health be restored, the expiring lamp of life lighted up afresh, and a new existence imparted in place of what had so lately seemed worn-out, "used up," and valueless.

THERAPION is sold by all the principal Chemists and Stores throughout the world Price in England 2s 9d and 4s 6d. Purchasers should see that the word "Therapion" appears on the Government Stamp (in white letters on a red ground) affixed to every package by order of Her Majesty's Hon. Commissioners, and without which it is a forgery.
