LOVELL'S

POCKET STREET GUIDE

TO

MONTREAL,

The City of Westmount, and the Towns of Maisonneuve, Verdun and Outremont

Montreal, with the above suburban towns, has a population of at least six hundred and fifty thousand.

Together they contain over twelve hundred streets, several of which are three, four or even five miles and more in length.

In this Guide all these Streets are given; nor is it merely stated where they begin and end, but the actual intersecting points, numbering over five thousand three hundred, are accurately stated.

In addition to this are given the location of all Banks, Churches, Hospitals, Asylums, Post Offices, Public Offices, Prominent Buildings, etc.

This feature of the work, equally with the Street Guide, has been most carefully supervised, and greatly adds to the interest and value of the compilation.

The Guide makes a book of over three hundred pages, and is for sale at thirty-five cents a copy at all book stores and news agencies, at the various hotels, on all Railway trains and Steamboats. A limited number of advertisements will be inserted at the low rate of twelve dollars a page, or seven dollars for half a page.

The fourth and revised edition will be published in August, 1914,
