BRITISH REPULSE SEVERAL GERMAN COUNTER ATTACKS

SIX TIMES THE ENEMY INFANTRY ADVANCES BUT IS
DRIVEN BACK AFTER SUFFERING VERY HEAVY LOSSES
BY THE ENEMY.

London, Aug. 17, 11:26 p.m.—Six determined German counter attacks on the British trenches northwest of Pozieres were repulsed with heavy losses to the attacker, according to the official statement issued by the War Office tonight. North-west of Bazentin the British captured about one hundred yards of German trenches.

The text of the statement follows: "On our right there was considerable activity all day. Last night and early this morning the enemy delivered a series of determined counter attacks on our trenches north west of Pozieres on board front and with considerable forces. Six times his infantry advanced to the attack but ran back suffering very heavy losses. Our gun and machine guns did great execution. In no case did he succeed in entering our lines."

"North west of Bazentin we captured about one hundred yards of trenches. A counter attack made by the enemy today from Martinpuich was repulsed and some prisoners were captured by us. A German aeroplane was brought down behind our lines near Pozieres."

SUBMARINE WAR IN FULL SWING

NEW CAMPAIGN FOLLOWS
THE GERMAN NOTE TO THE
UNITED STATES.

Paris, Aug. 17—Germany's submarine warfare against merchant ships is again in full swing, according to the naval expert of the Temps. The Temps declares that this new submarine campaign follows the German note to the United States of Feb. 10th, in which it was said: "Merchant ships carrying guns cannot be considered as peaceful ships."

According to the Temps, the Germans are now acting under this notice, and it says that three days ago the Italian ship Plata repulsed with gunfire, attacks of an enemy submarine. The article concludes with an emphatic declaration that a similar course will be followed by other commanders of Allied merchant ships, undismayed by "the murder of Capt. Fryatt."

Effort To Bend Back Our Lines Fails Of Object—No Change Of Importance Took Place On Any Front — Something Of A Mystery Exists In Eastern Theatre

For the first time in weeks no change of importance was reported in any theatre of the war Thursday. The most violent fighting took place on the western end of the British salient on the Somme. Six times the Germans advanced in force in a desperate effort to bend back the British lines north-west of Pozieres. London reports that all of these assaults were repulsed with heavy losses and that the British in turn captured about one hundred yards of trenches north-west of Bazentin.

An interesting feature of the situation on the western front is that the Germans, contrary to their usual practice, have so far made no attempt to deliver a counter-attack in the region where the French and British claim to have captured nearly three miles of trenches on Wednesday. The French are busily consolidating their gains and report no action of importance on any section of their front including the Verdun region.

Something of a mystery exists as to the situation on the eastern front. For two consecutive days the Russians have confined themselves to brief statements that nothing of importance had occurred. The Austrian and German War Office have been equally uncommunicative. The only fighting mentioned by Vienna was the repulse of Russian attacks on the lines of General Von Boehm-Ermolli, who is in command of the Teutonic forces retiring from the Tarnopol front. Berlin reports the repulse of Russian attacks south of Brody.

The lull in the Italian operations against Trieste is unofficially explained from Rome as due to General Cadorna's desire to straighten his lines before proceeding with a general offensive against the great Austrian seaport. Austrian seaplanes have again raided Venice but Rome says that they caused only slight damage.

FRENCH LOSSES REDUCED TO MINIMUM.

Paris, Aug. 17—"The operations on the Somme yesterday were merely explained today to the Associated Press, "but significance is derived from a detail of the offensive and of only local bearing," a high military officer explained today to the Associated Press, "but significance is derived from the fact that the Germans did not counter-attack as usual. Never before have they failed to react when successfully attacked and their failure to do so in this case is either a sign of weakness or, more likely, because of confusion of orders."

"The precision with which the French offensive has been carried out is shown by the fact that every objective designated, in advance of an action has been reached. At Maurepas certain number of houses were selected and every one of them was captured it never was intended to attempt the occupation of the entire village."

"One consequence of this precision in the French operations is the reduction of losses to a minimum. The operations in Artois and in Champagne cost five times more than all the ground gained on the Somme. The purpose is to destroy the German forces and the Franco-British defensive also has accomplished the feat of holding on the western front the greater possible portion of the German forces."

It is fallacious to figure out the probable duration of hostilities on French soil by computing the average surface of ground gained per day. Every time an action takes place, even though the gain may be no more than a hundred yards or so, the opposition is beaten. He loses heavily and the weakening moral effect cannot be measured in yards. It is a cumulative effect which sooner or later will wear the enemy down so that he will be unable to hold the French gains to a few hundred yards."

THINK BREMEN IS CAPTURED.

New York, Aug. 17—The passengers who arrived today from London on the Cunarder Alania were confident that they had seen the new German commercial submarine Bremen in tow of two British warships off Deal on Sunday night, Aug. 6th, when their vessel was at anchor in the Downs. The officers and crew of the Alania admitted they had seen what they believed to be a captured submarine passing through the Downs but could not say that it was the Bremen.

The Alania was due to leave Tilbury docks, London, on August 3, but on account of a shortage in her crew she had to wait two days in the river Thames, and arrived in the Downs on Sunday about noon, where she was ordered to anchor. The Cunarder had no guns to protect her from the German submarines, and she had to wait there forty-eight hours while several armed merchantmen went to sea.

Just after dark on Sunday night two cruisers approached the Alania coming from the channel and towing a long covered boat resembling a submarine that was swung on chains made fast on board the two warships. There were three destroyers astern and two ahead, and all seven vessels were steaming about ten knots through the Downs toward Sheerness where there is a naval dock yard.

BRITISH PARLIAMENTARY TERM EXTENDED.

London, Aug. 17—In the House of Commons today the government accepted an amendment whereby the life of the present parliament will be prolonged until the end of April instead of May as proposed in the original bill. The bill thus amended passed its third reading.

MANITOBA WHEAT CROP ESTIMATE

THE YIELD WILL BE VERY
LOW AND GRADE OF POOR
QUALITY.

Winnipeg, Aug. 17—An official crop report for the province was issued from the Manitoba Department of Agriculture today.

The yield of wheat will be very low, it says, and the grade will be from No. 3 Northern downwards. Oats and barley will be a fair crop. Roots and hay are excellent.

An official summary of the report reads:

"Wheat cutting began first in the Red River valley, where in some places the crop is more than half cut. In the northern areas of the province wheat harvesting is just starting. Oats and barley are generally a few days later than wheat."

"Wheat is badly rusted, except in the northern areas, which are reported more promising. In the worst districts some fields will not be cut. Wheat will grade from No. 3 Northern downward. The yield will be very low."

"Much less damage appears to have been done by rust to oats and barley. A few places have had very slight frosts, but no damage has resulted; most places escaped."

"Smut has been about as prevalent as usual."

"Summer fallows on heavier lands where rain was abundant have not been very well freed of weeds, but in most other districts they are reported as being in good condition; some extra good. A considerable increase in acreage devoted to fall and winter rye will occur in some places; other districts have practically no rye."

"Potatoes are rather a variable crop, better in some places than in others, but generally good. Roots are excellent everywhere."

"Forage corn shows less acreage than one year ago, but is everywhere in splendid condition, and if untouched by frost for the next three weeks will provide a wonderful crop of forage."

"Hay yields have never been better, and the crop has been well saved. Live stock generally is in excellent condition, with abundance of pastureage."

"Some fly annoyance occurred earlier in the season, but fall seed will be very abundant."

"Harvest wages will be high, from \$2.00 to \$3.00 per day, or from \$40 to \$50 per month."

The Weather

Toronto, Aug. 17—Local showings have occurred in Saskatchewan, Alberta, and British Columbia, while from Manitoba eastward the weather has been fine and warm.

Free gasoline for thirty- three hundred miles-- the Ford owner's saving in one year.

The light, economical Ford with its smooth running engine averages about twenty-five miles on a gallon of gasoline.

Compare this with the gasoline consumption of the Sixteen-Miles-to-the-Gallon car.

Then figure the difference, having an eye on the present price of gasoline.

Six thousand miles is a fair season's travel. The Sixteen-Miles-to-the-Gallon car, going six thousand miles, burns up one hundred and thirty-five more gallons of gasoline than does the Ford going the same distance.

This means that the Ford owner saves enough during a single season to pay for his gasoline for an additional thirty-three hundred and seventy-five miles.

You can travel a year and half in a Ford for what it costs you to travel one year in the Sixteen-Miles-to-the-Gallon car.

QUEBEC DOCTOR DIES OF WOUNDS

**DEATH OF DR. J. P. WALSH,
PROMINENT PHYSICIAN,
DEEPLY MOURNED.**

It was with feelings of genuine and deep regret that the news was received yesterday in the city of the death from wounds received at the front of one of Quebec's most popular citizens, Capt. James Parnell Walsh, C.A.M.C.

The late Captain Walsh was severely wounded in the thigh early in the present month and during the same engagement as Lt.-Col. Swift received his wounds as soon as possible he was removed to England and was admitted to Chelsea Hospital on the 13th instant. On Wednesday, 16th instant, a despatch was received stating he was progressing well, but condition bad, and further particulars would be cabled. A relapse, caused by a secondary hemorrhage, however, set in and as stated, the late Captain Walsh passed away yesterday.

The deceased officer was a graduate of McGill University, immediately afterwards he was appointed anesthetist to the Jeffery Hale's Hospital of this City, and subsequently opened practice. The quality of his work was such as to quickly earn for him a large practice and his patients found him thorough, painstaking and conscientious in the discharge of his professional duties.

At the outbreak of the war the late Dr. Walsh was attached to the local Military Hospital, and in February 1915 he left for the front.

In May last the deceased was mentioned in despatches as having gallantly rescued several wounded soldiers under heavy fire, and it was reported that he had been awarded the Military Cross. General Currie congratulated him personally for the splendid work he had accomplished under very difficult circumstances.

The late officer was a member of the Curling, Tennis and Garrison Clubs. Flags were flown at half-mast yesterday at the Garrison Club and the Jeffery Hale's Hospital in memory of the deceased.

The late Captain Walsh was to have been married at the end of this month to Miss Jeanne Bruyere, of Paris, France.

The deceased was the son of the late Mr. and Mrs. Thaddeus Walsh, and leaves, besides his fiancée, two sisters, Mrs. Jules Garneau, of this city and Mrs. James Murphy, of Montreal, to mourn his loss.

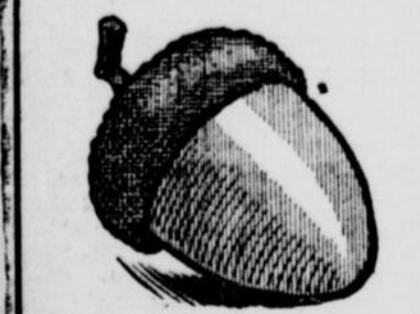

CANADIAN HUNS CLING TO NAME OF BERLIN.

Ottawa, Aug. 17.—A delegation from Berlin, Ont., who came to Ottawa today registered at the hotels as from Kitchener and waited upon the Postmaster-General demanding that the post office be changed to the latter name and be advised that the department can do nothing yet. There has been a vote of the electors declaring in favor of Kitchener as a new name for the town but the department has not been notified legally.

When the Ontario government concurs in the change and proclaims it in the official Gazette the post office will be changed. Official Ottawa is flooded with circulars headed "the other side" and protesting that only a part of the population really want to call the town Kitchener and that for business reasons.

BECOMES PARALYZED WHILE BATHING.

St. Thomas, Ont., Aug. 17.—William A. Smith, 17 year old son of James W. Smith, of this city, is lying at his home here in a partially paralyzed state, being absolutely helpless below the waist. It was in this condition that he was taken from the water at Port Stanley Wednesday evening where he was overcome while bathing and rescued by companions.

As the acorn grows to be the mighty oak, so children, when rightly nourished, grow to be sturdy men and women.

Good flavor and the essential nourishing elements for mental and physical development of children are found in the famous food—

Grape-Nuts

Made of whole wheat and malted barley, this pure food supplies all the nutriment of the grains in a most easily digested form.

It does the heart good to see little folks enjoy GRAPE-NUTS and cream.

LARGEST IN THE WORLD.

Canada's Buffalo Herd Has Steadily Grown.

The Canadian Government is meeting with signal success in its efforts to preserve the buffalo from the swift extinction which threatened it a few years ago. This is shown in a report on the growth of the herd at Wainwright Buffalo Park, Alberta, just issued by J. B. Harkin, Dominion Parks Commissioner.

The report shows that in April, 1909, the herd numbered 402. Since then it has gradually increased at the rate of about 200 a year, until today it numbers 2,077.

The history of this herd, now the largest in the world, dates back to 1873, when a Pend O'Reille Indian captured four little bison calves—two bulls and two heifers—by cutting them out of a stampeded herd on the Flathead Reservation in Montana. In accordance with a peculiar characteristic, often noticed by old plainsmen, these young creatures obediently followed the horses of the hunters who had slain or driven off their mothers.

The Indian in question gave them to the Mission of St. Ignatius, where they were kept as pets and become as domesticated as ordinary cattle. When the heifers were four years old each had a calf. From that time on they gradually increased in number, until, in 1884, there were thirteen head, and finding the care of them too great a tax the mission decided to sell them. Ten head were bought to \$250 apiece by C. C. A. Allard and Michel Pablo, who were ranching on the reservation, and were shrewd enough to see that specimens of what was even then almost an extinct animal would eventually become very valuable.

The herd increased under their careful supervision, and in a few years it became possible to sell specimens at high prices. Some idea of the average rate of increase may be reduced from the observed fact that half the cows give birth to calves every year, while twin calves are not uncommon. As a rule the bison calf is a very hardy creature. There are instances of the Pablo-Allard calves finding their feet in less than a minute after birth and showing fight within half an hour.

In 1906 the Hon. Frank Oliver, then Minister of the Interior, obtained for the Dominion Government an option on the 600 unsold head belonging to Pablo and Allard, and eventually they were all bought for \$200,000. The "round-up" lasted two months, and was carried out by 75 cowboys, horsemen picked for their ability from Alberta, and was accomplished with a loss of less than one per cent.

Since it became the property of the Canadian Government this great herd has fared well in the new National Park at Wainwright. The park is becoming a favorite resort of the traveller. It has an area of 150 square miles and is securely enclosed with a high fence of wire.

London, Aug. 14.—Lord Northcliffe, writing in the Times from the Italian front says:

"Of the ferocious fighting on the Italian front little is understood in England. If the figures of wounded carried by the British Red Cross ambulance alone could be published they would perhaps open the eyes of the public."

"The sturdy Piedmontese, Lombards, Sicilians and Neapolitans have all fought with equal valor. Owing to the preoccupation of the world with the rest of the war, and the absence of newspaper correspondents, the impression of the Italian forces received throughout the world has been that of a dilettante army."

"Italy is only now beginning to put forth something like her real strength. She has much strength in reserve. A most distinguished Italian officer remarked: 'What we have done now has been good and useful work, which we could have done a year ago had we had guns and ammunition.'"

"The Austrian defensive organization are now of the same nature as those of the Germans. For example, to make an impression on the rocky soil of the Carco, pneumatic drills and dynamite were essential. The Austrian front lines had been blasted and drilled out of limestone rock. The snipers' lookouts are armored with iron plates, an inch thick, cemented into the rock."

"I went out to see 13,000 stout fellows just captured. They reminded me exactly of the raw, lusty laborers who used to land from the immigrant ships at Quebec before the war. Many of them have spent some time in American railroad building and speak English."

"Their officers are very good imitations of the closely shorn, square-headed, heel-clicking Prussians. In long gray cloaks. Though not Prussians, they fight well."

"The Austrians have had unlimited munitions, tons of which have been left behind on the Carco. Food had been abundant. They look shabby—all prisoners look shabby."

Canada's FIRE LOSS.

In war time, and while many interests are urging thrift and economy the Canadian people are burning up their created resources at a much greater rate this year than last," is the statement which appears in a bulletin issued by the Conservative Commission recently.

"During the first five months of 1916 the fire loss in Canada has exceeded that of January to May, 1915, by approximately \$3,000,000 or \$600,000 per month," continues the bulletin. At this rate our fire loss will exceed that of 1915 by \$7,200,000.

"Canada has need of all her financial resources. She is borrowing money to carry on the war, and is paying 5 per cent. interest thereon. The additional fire loss of 1916 would therefore pay the interest charge on the recent war loan of \$100,000,000 and would pay \$2,200,000 of the principal. Canada's average fire loss, of over \$3,000,000, would pay 5 per cent. interest on approximately half a billion dollars. Our fire loss is, however, something for which we are receiving no value, either financial or patriotic; it is simply a tax, due in great part to carelessness, which Canadians appear willing to pay, and which they as a whole, are doing little to avert."

HAVE YOU HEARD

that eczema cases, which have defied all other treatment, yield to Zam-Buk? An illustration of this is found in the case of Mr. J. L. Frenette, of Nigadoo, N.B. He writes:—

"My head was entirely covered with eczema, and although I tried numerous remedies and received medical treatment, I got no benefit. Then I heard of Zam-Buk and tried it. The first few applications stopped the burning. Gradually the inflammation was drawn out, and before long the sores began to heal. Perseverance with Zam-Buk resulted in a complete and permanent cure."

Zam-Buk is just as good for ulcers, ringworm, running sores, blood-poisoning, piles, cuts, burns and all skin injuries. All druggists 50c. box, 3 for \$1.25, or from Zam-Buk Co., Toronto.

GERMAN GUNNERS CHAINED TO GUNS

**MACHINE GUN AND SHELL
CRATER WARFARE IN VOGUE
NOW.**

With the British Army in France, Aug. 17, via London, Aug. 18.—The torrential rain today and yesterday made it an inconceivably miserable night for the German gunners at their posts in shell craters filled with water up to their necks. The Germans seem to have definitely given up trying to dig any trenches along the front where the British hold the high ground and the old second German line. The British gunfire falls in every trench that is started and kills the diggers.

Machine gun and shell crater warfare has replaced trench warfare as a means of defense against the British attack. Not the Prussian Guards or the Brandenburgers, but machine gunners are now the crack corps of the Germans. Specially picked men take the oath never to surrender, and Englishmen report that they are chained to their guns by officers to prevent them from succumbing to any temptation to flee. This is confirmed by witnesses who have taken such men in the recent fighting.

Machine guns are dragged out to the shell craters under cover of darkness and during the day the gunners lie hugging the earth in most uncomfortable positions. They are baked by the sun by day and shiver in the wet at night. If the least movement disclose their location by day a hurricane of mortar and gunfire is turned on them. British snipers are always lying in wait for the first sign of anything to shoot at. Some of the Germans who have been captured had been days without food, isolated as they are by the continual sniping.

The British spent the day consolidating the gains made by their right flank toward Guillemin yesterday in conjunction with the French attack.

ITALIANS ARE ONLY JUST ABOUT TO BEGIN THE WAR.

Only Now Beginning to Put Forth Something Like Her Real Strength

London, Aug. 14.—Lord Northcliffe, writing in the Times from the Italian front says:

"Of the ferocious fighting on the Italian front little is understood in England. If the figures of wounded carried by the British Red Cross ambulance alone could be published they would perhaps open the eyes of the public."

"The sturdy Piedmontese, Lombards, Sicilians and Neapolitans have all fought with equal valor. Owing to the preoccupation of the world with the rest of the war, and the absence of newspaper correspondents, the impression of the Italian forces received throughout the world has been that of a dilettante army."

"Italy is only now beginning to put forth something like her real strength. She has much strength in reserve. A most distinguished Italian officer remarked: 'What we have done now has been good and useful work, which we could have done a year ago had we had guns and ammunition.'"

"The Austrian defensive organization are now of the same nature as those of the Germans. For example, to make an impression on the rocky soil of the Carco, pneumatic drills and dynamite were essential. The Austrian front lines had been blasted and drilled out of limestone rock. The snipers' lookouts are armored with iron plates, an inch thick, cemented into the rock."

"I went out to see 13,000 stout fellows just captured. They reminded me exactly of the raw, lusty laborers who used to land from the immigrant ships at Quebec before the war. Many of them have spent some time in American railroad building and speak English."

"Their officers are very good imitations of the closely shorn, square-headed, heel-clicking Prussians. In long gray cloaks. Though not Prussians, they fight well."

"The Austrians have had unlimited munitions, tons of which have been left behind on the Carco. Food had been abundant. They look shabby—all prisoners look shabby."

Canada's FIRE LOSS.

In war time, and while many interests are urging thrift and economy the Canadian people are burning up their created resources at a much greater rate this year than last," is the statement which appears in a bulletin issued by the Conservative Commission recently.

"During the first five months of 1916 the fire loss in Canada has exceeded that of January to May, 1915, by approximately \$3,000,000 or \$600,000 per month," continues the bulletin. At this rate our fire loss will exceed that of 1915 by \$7,200,000.

"Canada has need of all her financial resources. She is borrowing money to carry on the war, and is paying 5 per cent. interest thereon. The additional fire loss of 1916 would therefore pay the interest charge on the recent war loan of \$100,000,000 and would pay \$2,200,000 of the principal. Canada's average fire loss, of over \$3,000,000, would pay 5 per cent. interest on approximately half a billion dollars. Our fire loss is, however, something for which we are receiving no value, either financial or patriotic; it is simply a tax, due in great part to carelessness, which Canadians appear willing to pay, and which they as a whole, are doing little to avert."

ONE CENT.

GERMANS MAY ABANDON LINE
OPPOSED TO RUSSIAN CENTREMEN AND OFFICERS SHAER DETERMINATION TO RECAP-
TURE THE GROUND LOST IN POLAND—MUCH AMMUNITION
AND LITTLE DISEASE.

With the Russian Armies on the Central Russian Front, Tuesday, Aug. 15, via Petrograd to London, Aug. 17.—The continued success of General Brusiloff's two powerful movements, which gradually are enveloping Kovel and Lemberg, have begun to have a marked effect on the situation in the central portion of the front, which except for small Russian gains in the lake region south of Dvinsk, has remained virtually unaltered since the Russians fell back last autumn to the line from Dvinsk to the Pinsk marshes. The Austrian line now has receded so far before the repeated thrusts of the southwestern Russian forces in southern Poland and Galicia that the Germans are in danger of a flanking movement from the south and the automatic retirement of the forces opposed to the Russian centre.

Despite the desultory bursts of activity at various points Russian officers say there are many indications that the Germans are prepared to abandon their present line on this part of the front at any moment.

The correspondent of The Associated Press made a week's tour along the front commanded by General Alexei Evert from Lake Narocz to the region of Baranovich, and found the Russian soldiers most anxious for an opportunity to advance as soon as the command is given. The armies commanded by General Evert are the same which, crippled by a shortage of ammunition and supplies, were forced to surrender a large part of Poland a year ago. Commanders who brought back only broken remnants of their divisions to the present positions, now are in charge of splendidly equipped units. The men share with their officers the determination to recapture the ground lost in Poland.

A corps commander, who showed the correspondent of The Associated Press a huge supply of ammunition and material at the disposal of one part of the force engaged in this section of the front, said: "We have enough ammunition stored away to take us to Berlin."

The soldiers seem to be plentifully supplied with wholesome food and are living under the best sanitary conditions. They are surrounded by all the comforts and conveniences of a summer camp. The soil and fighting strength of the Russian soldiers appears to be very high and the troops confidently expect to occupy their original quarters in western Poland.

Compared with conditions prevailing a year ago the percentage of disease on this section of the front is declared to be appreciably lower. Not only had universal vaccination and personal cleanliness, which are now insisted upon, removed the danger of epidemics, but individual cases of a disease of any sort are said to be rare.

OFFICIAL

FRENCH STATEMENT.

Paris, via London, Aug. 17.—The French official communication issued this evening says: "On the Somme front our artillery was active today and carried out numerous destructive bombardments against enemy organizations. There has been no infantry action."

"The number of unwounded prisoners taken north of the Somme yesterday exceeds 200. We also captured five machine guns."

"There has been the usual cannonade on the remainder of the front."

RUSSIAN STATEMENT.

Petrograd, via London, Aug. 17.—The official communication issued this evening says: "The situation on the western and Caucasian fronts is unchanged."

WELL-KNOWN WESTERN

PHYSICIAN IS DEAD.

Calgary, Alb., Aug. 17.—Dr. Harry Goddard MacKie, of McKid and McLaren, Calgary, one of the best known physicians in the West, died suddenly this morning in Calgary. He formerly was President of the Dominion Medical Association, and has been coroner for Alberta, chief surgeon for the C. P. R., Alberta division, and has been connected with most of the principal medical associations in Canada. Mr. MacKie arrived with the Queen's Own Rifles in Toronto from 1876 to 1879.

NEW SYSTEM FOR
RECRUITING NOW
GIVEN IN DETAIL.BADGES WILL BE GIVEN TO
DESIGNATE THOSE WHO
CAN'T GO.

Ottawa, August 17.—What comparatively is a form of military registration in Canada, is involved in the new recruiting regulations outlined yesterday and now officially promulgated by the Government. Men who have been honorably discharged from the services of the expeditionary force, those who have offered themselves for services and have been rejected, and those who desire to or have offered to enlist but have been refused on the ground that their services are more valuable to the State in their occupations, are to be designated by badges.

This is practically a process of elimination by means of which all of military age, save those who have no apparent impediment from enlisting, are publicly designated. In other words, the men who can't go, are indicated by badges. Those without this decoration, inferentially at least, are fit and proper subjects for enrolment in the defense of the Empire.

The change, of which the need has been increasingly apparent, is embodied in a schedule of regulations concurred in by Order-in-Council after a careful consideration. It has been induced by these conditions, which were reviewed a few days ago. Canada has raised 360,000 men, but it needs 140,000 more to come up to the promised requirement of half a million.

As things have been going of late, there is little prospect of securing this number within the time required. The Order-in-Council provides for the appointment in each military district of a director of recruiting who under the district commander, will have supervision of recruiting within that district and will co-ordinate the work of all agencies, civil and military, including regimental institutions connected with recruiting.

He will make himself acquainted with the nature and importance of the various industries such as agriculture, manufacture, mining, lumbering, fishing, etc., carried on in the locality. He will take into consideration the character and importance of the employment in which any persons proposed to be recruited may be engaged and notify the commanding officer of any unit which is being recruited in any such locality whether the services of such persons would be of more value to the state in the employment in which they are engaged than on active service.

Power is also given for the appointment at Militia Headquarters of a director-general of recruiting who, under the Adjutant-General, will be charged with the only duty of supervising the work of the various directors of recruiting. These recruiting officers will be ranked as members of the Canadian Expeditionary Force.

As regards the issue of badges the Order-in-Council states that they are to be issued to the following classes: Men honorably discharged from the expeditionary force.

Men who have offered themselves for active service in the present War and have been rejected.

Men who desire or who have offered to enlist and who have been refused upon the ground that their services are of more value to the state in the employment in which they are engaged than if they should enlist for active service or in the naval or military forces.

Such badges are to be numbered and be accompanied by cards signed by the military officers issuing the same containing reasons for issue.

A number of safeguards are provided against the wearing of badges by those not entitled to them and a penalty of one hundred dollars maximum fine or imprisonment not exceeding thirty days is fixed for the unlawful wearing or issuing of these badges or counterfeit ones.

Badges will in no case be issued to persons rejected on account of a temporary disability or obviously unfit for service with and who have not served in the expeditionary force, as for instance, those who are totally blind, crippled, paralytic, etc.

INSPIRATION.

"Now, son, take this message quickly, will you?"

"Sure, boss," said the messenger boy.

"Just imagine you are a dauntless hero on the villain's trail."

QUEBEC'S FAREWELL
TO GOV.-GENERALH. R. H. THE DUKE OF CON-
NAUGHT PRESENTED WITH
ADDRESS BY THE MAYOR.

The farewell reception tendered to H.R.H. the Duke of Connaught, retiring Governor-General of Canada, yesterday by the City of Quebec was a brilliant function, and was attended by many prominent citizens.

At noon His Royal Highness accompanied by Lt.-Col. Stanton, his military secretary, and Major Dufl, A.D.C., arrived at the City Hall and was given a salute by a detachment of Boy Scouts who formed the guard of Honor. At the entrance to the building the Duke was received by His Worship Mayor Lavigne and the City Clerk, Mr. H. J. B. Chouinard.

Amongst those who attended, to pay their respects to His Royal Highness were Sir Evariste LeBlanc, Lieutenant-Governor of the Province of Quebec, accompanied by Major Victor Pelletier, A.D.C.; the Hon. L. A. and Madame Taschereau; Sir Louis Jetté, the Hon. Judge McCorkell, Brigadier-General Fages, Lieut.-Col. W. Wood, Captain Elliott, Capt. Murray, Canons Laffamme, Leberge and Lindsay, Messrs. Cyr, Tessier, Lt.-Col. W. Macpherson and many others.

The reception took place in the Council Chamber, and on arriving there His Worship the Mayor read an address to His Royal Highness in behalf of the citizens of Quebec, as follows:

To Field Marshall, His Royal Highness the Duke of Connaught, Governor-General of Canada:—The Mayor, the Municipal Council, and the citizens of Quebec beg to be allowed to present your Royal Highness their respectful homage.

They wish to convey to your Royal Highness their sentiment, that whilst they feel happy to meet you, they are sorry to think that you intend to take leave of them.

For more than one century, Quebec has often been honored by the visit and sometimes by the sojourn in our midst of members of the most illustrious royal family of England. But, we are indebted to the extraordinary circumstances of the present times for the advantage of having enjoyed for several years the beneficent rule of Your Royal Highness as administrator of the Government representing the authority of our beloved sovereign in Canada.

In the trying times through which the Empire has passed for the last two years, the presence in our midst of the highest military chief of the British realm has stimulated our loyalty to the Crown and inspired in us such confidence in the ultimate success of the armies of the allied powers and the result has been a more generous participation on our part in helping the noble cause which they are fighting for on the battlefields of Europe.

Your long experience as a statesman and administrator has enabled you to guide Canada safely through the trying crisis which war has developed in our country and your wisdom so highly reputed in the Councils of the Empire have determined our beloved King to call your Royal Highness to his side in order to benefit of your long and wide experience in the solution of the most intricate problems which will certainly arise at the end of the present war.

Your Royal Highness has won the deep respect and if we are permitted to say so, the cordial esteem of all Canadians; they will never forget the kindness which yourself and Her Royal Highness the Duchess have condescended to live in our midst in the most noble simplicity and have taken willingly your share in the daily solicitudes of our national life. They will ever keep a grateful remembrance of the illustrious Princess who from the very first conquered by her exquisite tact the admiration of all and more particularly the warm sympathy of all Canadian women by shedding so much luster on our social life.

We beg your Royal Highness to renew to His Majesty the King the expression of our sentiments of loyalty and attachment to his person and to his throne and to assure him that we are all united in the determination to support the sacred cause of the Empire and of the friendly and allied powers until a complete and absolute victory shall have crowned our common efforts.

To Your Royal Highness as well as to Her Royal Highness the Duchess of Connaught, we offer our ardent wishes for your personal welfare and may the Almighty God grant you many many years in the brilliant and fruitful career which you both pursue for the good of the Empire.

In reply, His Royal Highness thanked His Worship the Mayor for his loyal sentiments, expressed on behalf of the citizens of Quebec. Referring to the war, he remarked that he sincerely hoped the strife in which the Empire was at present engaged would soon be over. He expressed great admiration for the 22nd French-Canadian Battalion which had covered itself with glory in France, and remarked that he would like to see more French Canadians join their confederates at the front.

At the conclusion of His Royal

GERMAN PUBLIC
DEMANDS PEACE
AT ANY PRICECIRCULATION OF PAMPHLETS
COMPLETELY BAFFLES THE
GERMAN AUTHORITIES.

Rotterdam, August 17.—(By Leonard Spray)—Throughout Germany the authorities have their hands full confiscating and trying to trace the source of pamphlets advocating peace at any price.

The symptom of revolt among a large section of the people recently assuming alarming proportions. A few days ago there was a house-to-house search in Berlin, resulting in the arrest of an editor and printer associated with the Socialist organization. Strongest measures, however, failed to suppress this form of agitation against war, which is so widespread as to baffle the efforts of the military and police. It is proof of the existence of a great undercurrent of discontent which approaches rebellion among the working classes of Germany.

The well-informed Cologne correspondent of the Tyd, writes: "Complete removal of the censorship may be expected shortly, as the authorities can no longer oppose the increasing stream of protests and the bitter agitation among the people. The only result of the government's measure of suppression is the appearance in success of secretly produced pamphlets distributed from hand to hand, which are increasing the prevailing unrest and the general feeling of collapse. Removing the censorship would be a safety valve, for the feeling is now increased in bitterness among the laboring classes."

BRITISH COLUMBIA
PRODUCING COPPER
Vancouver, B.C., Aug. 17.—"British Columbia is this year producing copper at the rate of \$20,000,000 per annum," stated E. A. Haggen, editor of The Mining and Engineering Record, today.

"The total copper production of the province is now at the rate of ninety million pounds a year, and when the new mines, now being developed, are in a producing condition, as they will be in from six months to a year, the annual output will reach 110,000,000 pounds. This great total will be further increased by close to 20,000,000 pounds when the new mill at Britannia is completed. At average copper prices, the yield of 130,000,000 pounds will be about \$20,000,000 nearly double the production of 1915."

OFFICERS OF 245TH.
Montreal, Aug. 17.—Lieut.-Col. C. C. Ballantyne, commanding officer of the 245th Battalion Canadian Grenadier Guards, one of the latest units authorized for this division, has appointed the following officers:

Major C. S. Stairs, second in command; Captain Rose Clarkson, adjutant; Captain J. Reid, paymaster; Captain A. H. Allan, quartermaster; Captain W. L. Bond, Captain H. M. Marler, Lieut. D. J. Barker, Lieut. K. G. Rea.

WESTERN WHEAT CROP.

Toronto, Aug. 17.—Mr. D. B. Hanna third vice-president of the Canadian Northern Railway System received today from Mr. Andrew Kelly, President of the Western Canada Flour Mills, and well known western crop expert, the following estimate of the average yield of wheat per acre throughout the prairie provinces.

With favorable weather believe Manitoba will harvest 15; Saskatchewan, 22; Alberta, 22 to 25 bushels to the acre."

OLD PRESBYTERIAN
MINISTER DIES.

Halifax, N.S., Aug. 17.—Rev. Alexander MacLean, D.D., died today at his home in Eureka, Pictou county, at the age of ninety-five years.

Dr. MacLean was probably the oldest Presbyterian minister in Nova Scotia, if not in the whole of Canada. He presided almost to the end his full mental and intellectual qualities. A week ago he was stricken with paralysis.

BRITISH BOAT TORPEDOED.

London, Aug. 17.—"The British steamer Whitgift, previously reported missing, is now understood to have been torpedoed and sunk April 26," says Lloyds. "The sole survivor was a Japanese."

The Whitgift sailed from Almeria, Spain, April 12 for the Tyne, and was last reported as leaving Gibraltar April 21. She was a vessel of 4,507 tons and was owned in London.

Highness' reply, the citizens passed in front of the Duke in respectful and loyal homage.

During the day in honor of His Royal Highness' visit flags were flown from all public buildings and also from the residences of private citizens.

WILSON'S PLAN
TO AVERT STRIKEEMPLOYEES WOULD LIKE TO
EXCEPT TERMS BUT PRESI-
DENTS BALK.

Washington, Aug. 17.—President Wilson today laid his plan for averting the threatened railway strike before the employees committee of the 640 and, having found the managers' committee adamant to his proposal that they accept the eight hour day, he applied to the railroad presidents and asked them to come to the White House for a conference.

There is every indication that if the railroad presidents sustain their managers President Wilson will appeal finally to the financial powers which control the roads, for it is his purpose to deal with the ultimate authority before he gives up his effort.

The President's plan, which is expected to be formally accepted by the employees' committee at a meeting at 9 o'clock tomorrow morning, proposed:

An eight hour day as the basis for computing wages.

Regular pay at the eight hour day rate for overtime.

To refer all other collateral issues to a small commission to be created by Congress on which the employees, the railroads and the public would be represented.

Acceptance of the proposal by the employees was forecasted by expressions of their leaders after they left the President's conference. One of them declared: "The men would be fools not to accept it."

The action of the railroads' presidents is not so clear. They began arriving tonight, and all are expected to be here tomorrow. No one can say what will be the effect of an appeal such as a President of the United States, speaking in the name of the welfare of a nation, can make. But from such information as can be gathered, it appears that the railroad presidents, if the managers' committee understands them, are unalterably opposed to conceding the eight hour day or anything else out of hand, but are quite ready to arbitrate anything and everything in almost any form of arbitration upon which the employees and the committee may agree.

The railroad presidents, it is understood, justify their stand upon the broad ground of maintaining the principle of arbitration, which if sacrificed in this instance, they intend to tell the President, will be destroyed as a factor in the settlement of industrial disputes.

If the railroad presidents persist in that view and are supported by the financial powers, only the future can tell the outcome.

With the growing seriousness of the situation, Congress began paying more real attention to the crisis today and there were many indications of intervention to prevent a nationwide tie up.

The general expectation is that the railway officials, after seeing the President tomorrow, will ask that they be given several days, perhaps a week or more, to consider their course. A score who came from New York on a special train went into session soon after their arrival with the managers committee, and it was said that one of the possibilities under consideration was the preparation of a statement to be given out before their visit to the President, putting their position before the country.

While the railroad presidents would not make any predictions until they familiarized themselves with the situation here, there was more than one indication that it would take a strong appeal to induce them to reverse the attitude that has been taken by their representatives on the managers' committee. Asked whether the managers would be backed up in their decision, President Daniel E. Willard, of the Baltimore and Ohio, said:

"I assume they will be."

HUN AMBASSADOR'S
WIFE SAILS FOR U. S.

Copenhagen, via London, Aug. 17.—The Countess Von Bernstorff, wife of the German Ambassador to the United States, arrived here from Germany today and sailed on board the Scandinavian-American liner Frederick VIII, for the United States. Representatives of the American and German legations were present at the dock.

The Countess Von Bernstorff has been in Germany since August, 1912.

SAFETY FIRST IN
EXPLOSIVE FACTORIES.

Ottawa, Aug. 17.—A recent order-in-council under the War Measures Act, 1914, in order to make greater provision for safety in explosive factories, provides that every person who takes or attempts to take or assists in taking any matches into any building, enclosure or place wherein the manufacture of explosives is being carried on, or has matches in his possession, while in any such factory, building, enclosure or place is liable to a fine not exceeding \$100 or to imprisonment for any term not exceeding six months or to both fine and imprisonment.

FLOATING CENTRAL SPAN
OF THE QUEBEC BRIDGEOPERATION WILL TAKE PLACE SECOND WEEK OF SEP-
TEMBER—TIDE AND WEATHER CONDITIONS WILL FIGURE
IN FIXING ACTUAL DAY.

From information now at hand, it is expected that the operation of floating in the central span of the new Quebec Bridge will take place during the second week of September.

All the main members of the structure have been completely erected and work is now being rushed on the installation of the mechanical equipment required for floating in this span.

The central, or suspended arm, is a structure 640 feet long, 110 feet high at the centre, 88 feet wide, and weighs over 3,000 tons lifting weight. It has been erected at Sillery Cove, some three miles below site of the bridge, and will be floated in place on six large pontoons specially constructed three pontoons at each end. When directly under the bridge, it will be connected by means of pins to long steel links suspended from the four corners of the cantilever arms. This operation will be performed at extreme flood tide, when the current will be at its minimum. As the tide recedes the pontoons will fall away from the superstructure, leaving it suspended. A 1,000-ton jack are then brought into play and the span is slowly lifted to its proper elevation and coupled up. The whole operation, if everything works smoothly, should not take over twenty-four hours.

The actual day on which the floating will take place is a question that cannot be decided until the day itself. At this point of the river there is a six to eight mile current and a twelve to sixteen foot tide. These features in themselves materially increase the difficulties of floating and it will be absolutely necessary that it be a quiet day with practically a complete absence of wind.

Observations of weather have been carried on with considerable elaboration during the past couple of years, and records have been prepared showing probabilities in this respect. A wireless storm detector has been installed at the bridge site and record of this have been taken for the past year. This indicator will show the approach of an electrical storm some six hours before it arrives. Communication will also be kept up with the meteorological observatories in Toronto and Quebec, and all possible data will be available as soon as it can be obtained. If probabilities show that the day fixed upon for the floating of the span will be windy or stormy, the operation will be postponed until indications show favorable weather conditions.

The high tides about the period of proposed floating are between four and five o'clock in the morning. This early hour is chosen in order to give a long day for the operation.

Excursion boats and all traffic in the river will be stopped from approaching within a certain distance of the work, in order that the operations of moving this span may not be hampered in any way.

More definite information as regards date and facilities for viewing this work will be published at a later date.

LARGE SUBMARINE
OFF GRAND BANKS

Boston, Aug. 17.—The sighting of a large submarine believed to be the German merchantman Deutschland off the Grand Banks last Saturday morning was reported by members of the crew of the Warren Liner Sachem which arrived tonight from La Pallice, France, and Liverpool. The submarine was travelling in a north-easterly direction at moderate speed.

Wallace Potter of Lynn, electrician of the Sachem, said that those aboard the liner saw the underwater craft plainly at a distance of from 3 to 4 miles.

Soon after the submarine was sighted she submerged and was not seen again.

The quartermaster, John Mahon, said that on her second day out from France, the Sachem was pursued for eight hours by two submarines, believed to be German. The submarines were several miles ahead when first sighted and full speed ahead was ordered to elude pursuit. The pursuit was ended, according to the quartermaster, when 14 British patrol boats came to the rescue and fired several shots at the submarine, with what result is not known.

CREW OF WARREN LINER
THOUGHT THEY SAW THE
DEUTSCHLAND.

Boston, Aug. 17.—The sighting of a large submarine believed to be the German merchantman Deutschland off the Grand Banks last Saturday morning was reported by members of the crew of the Warren Liner Sachem which arrived tonight from La Pallice, France, and Liverpool. The submarine was travelling in a north-easterly direction at moderate speed.

Soon after the submarine was sighted she submerged and was not seen again.

The quartermaster, John Mahon, said that on her second day out from France, the Sachem was pursued for eight hours by two submarines, believed to be German. The submarines were several miles ahead when first sighted and full speed ahead was ordered to elude pursuit. The pursuit was ended, according to the quartermaster, when 14 British patrol boats came to the rescue and fired several shots at the submarine, with what result is not known.

SALE OF DANISH
WEST INDIES
CREATES CRISISPOLITICAL SITUATION RE-
SULTING FROM IT IS TAN-
GLED AFFAIR.

Copenhagen, Aug. 17, via London, Aug. 18.—1.11 a.m.—The political situation which has come into existence as a result of the Danish West Indies question is so tangled that not even the best informed politicians venture to predict what development may be expected.

The question of the sale of the islands to the United States, which was almost lost sight of early in the debate in the Folketing, now has been shoved completely into the background. The various parties in the Rigsdag will hold their first caucuses Saturday to consider the Government's proposal for the formation of a coalition cabinet. Naturally, no party leader will commit himself in advance of these caucuses, but indications appear to foreshadow the rejection of the Government's proposal. Such rejection would carry with it the proposal for a plebiscite on the sale of the islands, and defer a decision on this matter until the general elections which would then probably be unavoidable despite the Government's reluctance to have a campaign—and especially a heated campaign—such as this would likely to be conducted before the close of the war.

The party of the Left in the Landsting is opposed to the sale of the islands although a considerable number of the members are personally in favor of it. Joergen Pedersen, president of the Left, explained the position of the party in an interview with a representative of The Associated Press.

"A plebiscite would have to be held under the new constitution," he said, "that is to say there would be 500,000 to 600,000 new voters who are utterly ignorant of political questions and unused to the exercise of the franchise. These voters ought not to be asked to vote on any subject without a previous opportunity for the parties to conduct an educational campaign. Such a campaign would naturally precede a general election but not a plebiscite."

Asked what would be the issue on which the Opposition would go before the people in the case of a general election, Pedersen said:

"The present Rigsdag was elected some years ago under the old constitution and is no longer fairly representative of the people. There is no valid objection to holding elections even in war time. Other than this there is no definite issue on which the campaign would be conducted."

The leader of the Left said that he had no doubt that a majority of the Danish people favored the sale of the West Indies and a similar opinion has been expressed by most men of importance here, although some are personally opposed to the sale. The party caucuses may cause an eleventh hour shift in the situation, making it possible to conclude the sale of the islands within the next few days. Political leaders, however, regard this chance as slender.

PRIEST DEAD IN BED

Montreal, Aug. 17.—Rev. Father Zotique P. Cardin, of Repentigny, was found dead in bed at the Grand Seminary, 857 West Sherbrooke St. Montreal, this morning, by an attendant who went to arouse him. He was born in 1858 at Sorel, Que. Owing to ill-health he had tendered his resignation as parish priest of Repentigny two weeks ago.

A FINANCIAL MARVEL

There are many wonders in the Great War, and not the least of these is the manner in which Britain is shouldering the tremendous financial burden imposed. The national expenditure for the current year is estimated at \$9,125,000,000, which is nine times the highest annual expenditure in normal times before the war. Of this amount no less than two and a half billions will be met by increased taxation. To secure this result the government has increased taxes on tobacco, tea, sugar and other articles besides imposing new taxes and adding greatly to the income taxes, which now range from slightly under 1 per cent. when the incomes are very small, to 41 1-2 per cent. when the incomes are very large. This compares with rates ranging from two-fifths of one per cent. on small incomes to 13 per cent. on the largest, before the war. Sixty per cent. of increased profits due to the war must also be surrendered to the State. Britain's position after two years of expenditure unexampled in the history of the world is so sound that the Chancellor of the Exchequer is able to state that "if we were to end the war at the end of the current fiscal year, that is to say on March 31, 1917, our present scale of taxation would provide not only for the whole of our peace expenditure and the interest on the whole national debt, but also for a sinking fund calculated to redeem that debt in less than forty years, and there would still remain a surplus sufficient to allow me to abolish the excess profits tax and to reduce other taxes considerably."

Britain is not only able to finance her own part in the war, including the maintenance of a navy that keeps open and free the seas of the world, and the maintenance of an army of five million men, but she has been able to assist her Allies with loans, and she was also ready if need be to carry the war expenditures of her overseas Dominions. Fortunately, so far as Canada is concerned, our Government, after the first shock of the war, has been able to carry its own expenditures, thus showing that the financial greatness of the Empire is not confined to the mother land. Canada has done more than this and has been able to place many millions at the disposal of the Imperial Government. This action of Canada has been greatly appreciated by the Imperial Government. It was not necessary, of course, that this action should be taken by Canada because of any inability of the Imperial Government to obtain money; it was merely for the regulation of exchange in view of the enormous purchases of Great Britain for herself and her Allies. Similar action to that of Canada has been taken by Japan, which, it is stated in New York has been accumulating funds there and has just placed thirty millions of dollars to the credit of the British Government, taking therefor a similar amount of British treasury notes. The New York Tribune's financial writer says "the transfer of the \$30,000,000 just announced has saved the British a great deal of trouble and expense, in that it has made unnecessary the shipment here of that amount of gold, which otherwise might have had to come forward. Bankers here," continues the New York writer, "view the operation as one more evidence of the splendid manner in which the British financial authorities are employing their resources." British credit stands so high in New York that J. S. Bache & Co., the well-known bankers, in their last weekly circular say the time will be favorable for bringing out a large loan, which they think would be rapidly absorbed in the United States. Such a loan, is now being arranged.

Need a Laxative?

Don't take a violent purgative. Right the sluggish condition with the safe, vegetable remedy which has held public confidence for over sixty years.

BEECHAM'S PILLS

Largest Sale of Any Medicine in the World. Sold everywhere. In boxes, 25 cents.

THE PRESIDENTIAL ELECTION

Canadians will have only languid interest in the Presidential contest over the line. The war is their supreme concern, and it is not even remotely an issue in the United States. It would have been in American politics if Roosevelt had entered the field, but neither Wilson nor Hughes will touch it. The many genuine Americans who think their country should champion Belgium, and call Germany to account for the unexpected Lusitania crime, find no reason to prefer one candidate to another. Democratic newspapers complain that the German-American alliance is behind Hughes, but attacks on the hyphenates are carefully balanced by denunciations of the British blockade, with an eye on the Irish-American electors. The United States Senate calls on Britain to be clement toward the Sinn Rein prisoners, but has nothing to say about the living death of Belgium, or the murder of American citizens on the high seas. Even Roosevelt, when he takes the stump for Hughes, is expected to put the soft pedal on the German theme and lay the emphasis on Mexico. The sympathies of pure-blooded Americans are with the Allies, or are at least strongly anti-German, but the politicians fear the organized German vote, and will walk warily till election day.

Probably Canada has most to gain commercially by the return of Wilson. A Republican victory would be followed by a general increase in the tariff. But the fiscal policy of the United States is not so important to Canada as it was believed to be years ago. Canadians look for new opportunities in the economic readjustments between the Dominions and the mother country, and between the British Empire and the Allied nations, which are almost certain to follow the war.

FLEA-BITES.

The true story of the Jutland fight is too big to have even yet got itself a hearing.

Recently Edward Price Bell announced in a despatch to the Evening Province "newspapermen from all over the world" were invited to inspect a considerable part of the fleet which fought on that famous day. Naturally their chief interest centred in the "Warspite," the fast battleship which the Germans got into a hot corner, but did not sink and did not even disable.

True, her funnels were reduced to junk, and her quick run home of 380 miles at an average of over 20 knots must have been a dirty voyage under a rather draughty "forced draught" and smoky at that.

Also an eleven-inch projectile had "entered her stern" dangerously near the waterline, and her stern compartments were consequently awash with a quite dangerous amount of water which impaired the trim of the giant vessel. But on Saturday last, in spite of these and other flea-bites, the gallant "Warspite," which had been exposed to a tremendous and accurate fire at the shortest range of any battleship which was hit at all, was as fresh as paint, and ready to put to sea at a moment's notice.

Of the whole scene in that nameless, lathering place "on the North Sea" the same correspondent writes that "the considerable holes shot in the British battle cruiser fleet by the accuracy and weight of the German fire have been more than filled up. In other words from this har or at this moment could issue at half an hour's notice a still mightier armada than that which steamed out for that fateful sweep of the North Sea."

Many and superb were the great cruisers, three of the dreadnought and super-dreadnought class, which Admiral Beatty's fearless execution of his desperately brave instructions met unexpectedly had to sacrifice in that battle of the giants. But the grand result is a most reassuring testimony to the splendor of the material and the high quality of our naval constructive and repair work.

"On a single river in England is concentrated a navy constructing and navy manning power competently estimated to be at least twice as great as the whole capacity of Germany in the same direction."

The next gallant aviator who looks in on Berlin should distribute to its credulous or mendacious newspaper offices a few thousand picture post-cards of the "sunk and shoe-battered" Warspite as she appeared on July 23 in the year of grace, 1916.

ST. ROCH'S

PRESS COMMENT.

"The prevailing fashions in women's clothing," remarked a Massachusetts paper, "are a blot on the fair name of women. New York alone is responsible. New York, whence comes all manner of frivolity, all incontinent human madness, all forms of dress depravity—New York is the country's pacemaker, and New York has directed that women's skirts shall be short—yes, short to the point of brazen immodesty. Snarl along any New York thoroughfare and ascertain the truthfulness of this statement."

Whereupon a New York newspaper sent out a bunch of reporters to stroll along the thoroughfares, as recommended, and see what they could see. One reporter carefully observed 476 women, ranging in age from about seventeen to forty. Ninety-nine of them wore long skirts that gathered up all the dust and dirt in sight. Short skirts were worn by 375, and the shortness seemed to vary from eight to fifteen inches above the ground.

Three other reporters took note of 1,794 women of all ages and found that 1,233 of them wore skirts that could not be characterized as other than short. Women pay seventy, they testified, seemed to have an aversion to the new style; but the women in the fifties and sixties, looked, from a little distance, as girlish as shop girls and fashion models around twenty.

This proves whatever it proves, according to one's point of view. The reporters made one significant comment. Admitting that, if short skirts made for all the bad things the Massachusetts editor says they do, the metropolis is pretty wicked, they remarked that they failed to notice any unusual scenes of disorder.

Apparently the women were wearing their short skirts unconsciously, and the men were not paying any more attention to the women so attired than they paid to those same women before short skirts "came in." Which is just about what any sensible person would expect.

It's strangely difficult for moralists to grasp the idea that morals are not a matter of the size or cut of garments. If anything, the facts belie their favorite assumption. There's much justification for the statement that the most immoral eras of modern times have been the hoop-skirt eras. Ogdensburg News.

Synopsis of Canadian Northwest Land Regulations.

The sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$2.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

CITY OF QUEBEC, DISTRICT OF QUEBEC.

City Hall.

BY-LAW NO. 10A.

By-law Concerning the Assessment on Immoveable Property in the City of Quebec, and to Amend By-law No. 2B, and By-law No. 10, Concerning the School Tax.

(Drawn up in the French language.)

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the twelfth day of May, one thousand nine hundred and sixteen (1916), in conformity to law, and in virtue of a by-law passed by this Council, pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present the absolute majority of the members composing the Council of the City of Quebec, that is to say: His Worship the Mayor, Aldermen Bedard, Bertrand, Bois, Bouchard, Bourret, Collier, Dumas, Dussault (St. Louis), Dussault (Belvedere), Fiset, Gauvin, Glode, Lantier, Lockwell, Mercier, Paquet (Jacques Cartier) Pettigrew, Plamondon, Verret.

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council doth hereby ordain and enact as follows: "Article 5 of By-law No. 2B, passed on the 19th April, 1912, as amended by By-law No. 10, passed the 23rd April, 1915, is anew amended by replacing said article by the following:

"5. It is hereby imposed and there shall be levied on the immoveable property belonging to the Catholics in said city a tax of thirty-eight hundredths of one per cent on the assessed annual real value of said property, to collect every year the sum payable by the City of Quebec to the Board of Catholic School Commissioners of the city, according to law.

It is hereby imposed and there shall be levied on the immoveable property belonging to Protestants in this city, a tax of 4.10 of one per cent of annual real value assessed on said property, to collect the sums payable every year by the City of Quebec to the Board of Protestant School Commissioners, for the maintenance of Protestant schools in this city, according to law.

Attested.

L. S. H. E. LAVICUEUR, Mayor.

H. J. J. B. CHOUINARD, City Clerk.

ROYAL HIGHNESS LEAVES FOR OTTAWA

DUKE VISITS THE SITE OF
THE BRIDGE YESTERDAY
EVENING.

Apart from the public farewell reception at the City Hall at noon yesterday, which is described in another column, His Royal Highness, the Duke of Connaught had a busy day previous to his departure for Ottawa last night.

His Highness had breakfast at nine o'clock yesterday morning at Spencerwood with His Honor the Lt.-Governor and Majors Duff and Pelletier, A.D.C.'s. At eleven o'clock, he went to the Vice-Regal quarters at the Citadel, and bade farewell to Carleton Private Lewis and Mrs. Lewis.

Luncheon was served at 1.30 o'clock at Spencerwood, at which there was the following present:

His Royal Highness the Duke of Connaught, His Honor the Lieutenant-Governor, His Eminence Cardinal Beugin, Sir Francois Lemieux, Hon. Judge Malouin, Hon. J. Decarie, Hon. N. Perreault, His Worship Mayor Lavigne, Mr. J. M. McCarthy, Lt.-Col. Macpherson, Canon Laberge, Mr. C. E. L. Porteous, Mr. John Burdall, Mr. Wm. Dobell, Dr. Rousseau, Dr. N. A. Dussault, Dr. Vallee, Mr. L. St. Laurent, K.C., Mr. Neuville Belleau, Mr. Charles Lantot, K.C., Mr. Jos. Bernard, Mr. Frank Carrel, Lt.-Col. Stanton, Major Duff, A.D.C., and Major Pelletier, A.D.C.

During the afternoon His Highness visited the Ursuline Convent, the Discharge Depot, and the Khaki Club, and after tea at Spencerwood he visited the Quebec Bridge accompanied by Sir Evariste Leblanc, Lady Leblanc and Mrs. Perreault.

The Duke dined quietly with the Lieutenant-Governor and his family, and was later escorted to the C.P.R. depot where he left by special train at 10.30 o'clock to return to Ottawa.

GAS ASSOCIATION CONVENTION CLOSES

MANY PLACES OF INTEREST
VISITED YESTERDAY AT
CLOSE OF SESSION.

The Canadian Gas Association Convention which opened here on Wednesday morning was brought to a close yesterday.

The closing session was devoted to business matters and the discussion of technical papers, the proceedings being brought to a close at 1 p.m.

During the morning an automobile trip was provided for the ladies by the Q. R. L. & P. Co., which was much enjoyed.

In the afternoon the delegates boarded a special car at the Quebec Railway Station, at 2.30 p.m. for Ste. Anne de Beaupre, and on the return journey paid a visit to Montmorency Falls, afterwards dining at the Kent House.

Tomorrow the members of the Association and their friends will inspect the appliance exhibits, and otherwise entertained.

WAIT.

Wait until Monday, the 21st instant and come to the sale.

EARLY SESSION OF THE LEGISLATURE

OPENING IF UNOFFICIALLY
ANNOUNCED FOR OCTOBER
TWENTY-FOURTH NEXT.

That there will be an early session of the Quebec Legislature has been mooted for some time and it is now unofficially announced that the date will be either October 24th, or 31st.

It is not anticipated that the session will be a long or a stormy one as the opposition will not be sufficiently strong to carry on a serious battle against the overwhelming strength of the Government majority.

Disputing stories for the Government are rapidly gaining strength and it is not without the bounds of probability that there may be a serious split in the Liberal party before the close of the first session of the next Parliament.

As far as Sir Lomer Gouin is personally concerned it is no secret that he would have preferred a much larger Opposition.

PTE. "ARTY" O'CONNOR WOUNDED AT FRONT

QUEBEC BOY HAS BEEN IN
TRENCHES FOR EIGHTEEN
MONTHS.

The announcement that Private Arthur O'Connor, of this City, has been wounded at the Front was received yesterday in the following notification sent to his father:—

Ottawa, August 18, 1916.
Mr. Patrick O'Connor,
394 Champlain street.

Cable received today states Private 22830 Arthur Frank O'Connor, Infantry, officially reported wounded August 1st, remaining on duty."

Officer in Charge,
Record Office.

It will be a source of gratification to his relatives and his many friends in Quebec to know that his wounds are evidently not serious since he is still on duty.

Private O'Connor had been a member of the 8th Royal Rifles for some ten years previous to the outbreak of the war. When war was declared he enlisted for active service and joined the 12th Battalion at Valcartier. At Salisbury Plains he was transferred to the 2nd Battalion and went to the Front under Col. Watson and has been in the trenches ever since.

Although he went through all the fiercest engagements in which the Canadians took part he escaped unscathed until the 1st of August last as recorded above.

Talon the Intendant of Quebec 150 years ago realizing that the huge consumption of wine and brandy among the settlers was proving very harmful caused a brewery to be built. It is in the same vaults used by Talon to mature his beer that Boswell's Ale and Porter is today aged.

THIS WEEK'S SATURDAY EVENING POST

Contains a great number of very interesting stories accompanied by beautiful pictures corresponding. Price five cents.

AN AUTO RIDE.

We had been informed of the generous intention of the Members of the Automobile Club of this City, to organize an excursion for the pleasure of the orphans.

We had been eagerly looking forward to the day, on which, we could realize our long cherished dream; it dawned at last, and our enjoyment surpassed all anticipations.

While our hearts still measure their beatings to the emotions experienced in such an agreeable ride, we hasten to extend our heartfelt thanks to these charitable gentlemen who have designed to procure us such an agreeable pastime.

We shall love to recall this delightful trip through our beautiful country lanes, the amusing games so ingeniously organized for our entertainment, the luncheon eaten under the shade of the trees and so delicately served by many kind and charitable hands.

Tonight, while paying our homage to the Author of all gifts, we shall plead a special blessing for the benevolent Friends who have so kindly remembered His little ones.

The Orphans of the Sisters of Charity of Quebec.

Aug. 16, 1916.

POWER OF WIND.

Farm and Fireside says: "The power of wind is measured by the cube of its velocity. A wind blowing ten miles an hour gives a windmill eight times as much power as a five mile wind."

SOLDIER JOHN KANE WILL BE LIBERATED

SLAYER OF GREEK RESTAURANT KEEPER WILL GO TO FRONT.

It is announced that John Kane who is serving a term of 14 years in St. Vincent de Paul Penitentiary for having shot and killed George Pergantes, a St. Joseph street restaurant keeper on New Year's night last will leave prison in a short time.

Before sentence was pronounced upon him in the Criminal Court Kane expressed the wish to go to the Front and fight and it is now stated that he will be permitted to go across and do his share in the trenches.

Kane's mother and sister from St. Louis, Missouri, visited him at St. Vincent de Paul to bid him farewell before he leaves. They also came to Quebec to call upon Mr. J. A. Lane, K.C., who defended Kane during his trial.

MORE WOUNDED SOLDIERS ARRIVE

CAPT. HILL HOME TO RECAP-
ERATE — SGT. CHRISTIE
KILLED MANY HUNS.

Fifty officers and 220 N.C.O.'s and men in charge of Capt. Grover arrived in the city last night from Halifax, where they landed Wednesday from a transport. A large number of the party are wounded, while the others are either back on furlough or are due to receive their discharge.

Among the officers is Capt. Arthur Hill, brother of Lt.-Col. S. H. Hill and F. R. Hill, of this city. Capt. Hill, who is home to recuperate is attached to the C.A.S.C. and has been at the Front with this corps for some time.

Scout Sergt. Christie, a war scarred veteran, has been recommended for the D.C.M. One of the returning officers states that Sergt. Christie accounted for seventy Germans. Pte. Ekland, of the 42nd Battalion is one of the most severely wounded in the party. He was hit by shell in the head and his hearing has been seriously affected.

Captain R. O. Earl, embarkation officer and Captain W. J. Enright, Medical Officer at Bath, Eng., both of whom have seen service at the Front are amongst the returning Warriors. Col. Delaney, of this city, is A.D.M.S. at the Embarkation station at Bath.

Following are the officers in the party:—Capt. L. H. Grover, Officer in charge; Capt. Earl, Capt. Enright, C.A.M.C., Capt. Burgoyne, C.F.A., Lt. Reayme, 13th Bn., Lt. C. Brayan, 31st Bn., Lt.-Col. Hallick, Director of Stores; Capt. A. McCully, 21st Bn., Lt. Ryder, 12th Bn., Lt. H. Evel, 35th Bn., Lt. D. Tozier, 5th Bn., Maj. K. Perry, 13th Bn., Lt. A. Hill, 2nd Div., Capt. C. Jeakins, Chaplain; Lt. G. Cockshutt, 35th Bn., Major T. Wright, C.C.D., Major G. Wilkinson, 1st Bn., Capt. H. Pearson, Y.M.C.A., Maj. S. Crestine, 42nd Bn., Lt. H. Cook, 1st Bn., Lt. C. James, 4th Bde., Lt. B. Churchill, 52nd Bn., Lt. H. Beasley, C.F.A., Maj. R. Knox, C.A.S.A., Lt. W. C. Tyrell, 4th Bn., Capt. C. Knowlton, 26th Bn., Lt. G. Mowatt, 26th Bn., Lt. H. Ellis, 7th Bn., Lt. H. Thieme, 49th Bn., Lt. F. O'Grady, 34th Bn., Capt. H. Frost, Chaplain; Lt. W. Chadwick, 44th Bn., Lt. M. Gibson, Can. Pion., Lt. H. Rockhous, 13th Bn., Capt. A. Birchall, Res. QUEBEC'S SURPLUS IS \$211,294.69.

Revenue for the Year Ended June 30
Was Nearly Nine and Two-third
Millions.

The Hon. Walter G. Mitchell, Provincial Treasurer, announces that the ordinary receipts of the province for the fiscal year ended 30th June, 1916, amounted to \$9,647,982.77, and that the ordinary and extraordinary payments for the same period amounted to \$9,436,688.08, so that the surplus of ordinary revenue over ordinary and extraordinary expenditure for the fiscal year ended 30th June, 1916, is \$211,294.69.

This Leaves the Skin Free from Hairy Growths

(Toilet Talks)
A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish even stubborn growths. To remove hairs, make a thick paste with some powdered de'tone and water, spread on hairy surface and after about 2 minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disfigurement, be certain you get de'tone.

YANKEES DEFEAT

INDIANS AGAIN

RESULTS ON THE

GRAND CIRCUIT.

YANKEES TAKE ANOTHER WHITE HOSE BEST LEADERS GIANTS SHUT-OUT AGAIN

CLEVELAND BEATEN IN NEW YORK AGAIN — WHITE SOX TRIM RED HOSE 7-1 IN FINAL GAME—GIANTS AGAIN FAIL TO SCORE— MONTREAL BEATEN AT RICHMOND IN 8TH INNING.

National League.

Yesterday's Results:

Giants Again Shut-out.

Chicago, Aug. 17.—A pass to Zeider and Mollwitz's double scored the only run of a pitchers battle and Vaughn of Chicago won from Sallee of New York, today.

The Giants had men on bases in all innings, but Vaughn's good work in tight places and three pretty throws by Elliott saved runs.

The score: R. H. E.
New York . . . 000 000 000—0 7 3
Chicago . . . 100 000 00—1 6 0
Sallee and Kocher; Vaughn and Elliott.

Dodgers Won.

Pittsburg, Aug. 17.—Brooklyn defeated Pittsburg by a score of 3 to 1 here today. Mammaux started for the Pirates, but was hit hard in the fourth and was relieved by Evans at the end of that inning, but Pittsburg could not overcome the visitors lead.

The score: R. H. E.
Brooklyn . . . 100 000 010—3 9 1
Pittsburg . . . 000 000 100—1 6 3
Pfeiffer and Meyers; Mammaux, Evans, Kautlechner and Fisher.

Only two games scheduled.

American League

Yesterday's Results.

Yankees Coming Back.

New York, Aug. 17.—New York played an uphill game today, and made it two straight from Cleveland by a score of 5 to 4.

The Yanks tied the score in the 8th inning with two runs which were driven in by Mullin, a pinch hitter.

Morton then relieved Coveleskie and then New York scored the winning run on the latter in the 9th inning on a pass to Peckinpaugh and singles by Baumann and Boone.

The score: R. H. E.
Cleveland . . . 110 001 100—4 8 1
New York . . . 001 000 121—5 15 1
Coveleskie, Morton and O'Neill; Fisher, Shawkey and Walters.

Browns Split with Mackmen.

Philadelphia, Aug. 17.—Philadelphia broke even with St. Louis in two pitching duels here today, the home team winning the first game in the tenth inning, 4 to 3, and the visitors the second, 3 to 2. In the 10th inning of the opening game, Philadelphia filled the bases with no one out, on Bush's single and errors by Austin and Sisler on bunts. Strunk forced forced Bush at the plate and Davenport took Plank's place. Davenport forced in the winning run by giving Schang a base on balls. A home run drive by Pratt in the 6th inning decided the battle between Myers and Davenport in the second game.

The score:

First game:— R. H. E.
St. Louis . . . 000 001 020—3 8 5
Philadelphia . . . 002 000 010—4 7 1
Plank, Davenport and Severoid; Bush and Haley.

Second game:— R. H. E.
St. Louis . . . 101 001 000—3 5 1
Philadelphia . . . 100 100 000—2 8 1
Davenport and Severoid; Myers and Haley.

Boston Champions Shut-out.

Boston, Aug. 17.—Chicago turned on the champions today, shutting them out 7 to 0. All the runs were scored off Mays in the four and one-third innings he was on the mound. Chicago obtaining five doubles, triple and two singles off his delivery.

The score: R. H. E.
Chicago . . . 300 400 000—7 12 0
Boston . . . 000 000 000—0 5 0
Russell and Schalk; Mays, Jones and Agnew, Cady.

Detroit Took Two.

Washington, Aug. 17.—Detroit won two poorly played games from Washington today, 11 to 6 and 8 to 4. In the first, which went ten innings, 32 players were used. Three errors, two passes and two singles gave Detroit five runs in the tenth inning. In the second game Detroit hit both Gallia and Shaw freely. Cunningham came to the rescue of Daus in the 7th, after three runs had been scored and with three on bases and held the locals safe. The game was called at the end of the 8th inning on account of darkness. Cobb got six hits in ten trips to the plate.

The score: R. H. E.
First game:— R. H. E.
Detroit . . . 001 120 110—11 19 1
Washington . . . 003 000 012—6 10 3
Daus, Dubuc, James, Coveleskie and Spencer, Baker; H. Harper, Ayres, Shaw, Bentley, Boehling and Henry, Ainsmith.

Second game:— R. H. E.
Detroit . . . 000 231 20—8 21 1
Washington . . . 000 001 30—4 10 4
(Called; darkness).

Daus, Cunningham and McKee; Gallia, Shaw and Ainsmith.

JUNIOR BASEBALL.

The St. Charles Club, of Limoilou, would like to play a game with any club in the Junior "A" League, on the Cove Fields, Sunday morning.

The Tipperary Club, junior champions, will play in Plessisville, Sunday afternoon.

The big game in the Junior "A" League series will be played Sunday morning—Standards and Young Vics hooking up.

The Standards will practice this evening at six o'clock, on the Cove Fields.

Celtics and Belvedere meet in a Junior "A" League game Sunday.

The manager of the Celtics announces a practice for his team this evening at six o'clock, on the Cove Fields.

International League.

Yesterday's Result:

Royals Lost.
Richmond, Va., Aug. 17.—Montreal and Richmond played off a postponed game here today, and Richmond won, 7 to 4, by batting Goodbred all over the lot in the eighth inning.

The score: R. H. E.
Montreal . . . 000 010 030—4 9 2
Richmond . . . 000 100 15—7 10 2
Goodbred and Madden; Keating and Reynolds.

No other games scheduled today.

FAT AND THIN.

The two women encountered each other at a dance. They had not met for several years.

"How thin you have grown!" exclaimed one.

"How fat you've got to be!" the other cried, and they stood gazing at each other in some dismay.

"Before you come to blows," remarked a mutual friend who stood by, "let's take a vote as to which is worse, to get too fat or to get too thin."—Exchange.

MABLE TRASK WINS FROM ST. FRISCO

PETER THE GREAT MARE SETS A RECORD FOR FIVE HEATS TODAY.

Columbus, O., Aug. 17.—Mabel Trask, beaten by St. Frisco last week at Pittsburg, won from him this afternoon in a five heat battle for the Athletic Club of Columbus \$3,500 stake. The race brought a new world's record for a five heat trot, the best previous time for such an event having been made in Columbus in 1911, in a contest that Brace Girdle won.

The summary:
Athletic Club of Columbus Stake;
2.08 Trotters; Three in Five Heats;
Purse of \$5,000; Five Heats:
Mable Trask, ch.m., by Peter the Great, (Cox) . . . 2 2 1 1 1
St. Frisco, b.m., (Geers) . . . 1 1 2 2 2

To Beat 2:16 1/4 Trotting:
Vanko, b.h., by Moko, (Van Atta) . . . won
Time: 2:12 1/4.

SOCCER SHOTS.

The R.C.E. and Montmorency teams will meet at the Falls tomorrow afternoon.

Mr. Charles Pike will referee the game.

The Engineers will do their best to take a fall out of the champions. Hormon's boys would be immensely tickled if the Soldier Boys could do the trick.

There being now only three teams in the league, the 8th R. R. naturally remain idle.

RING GOSSIP.

The coming bout between "Red" Allen, of Brooklyn, and "Chic" West, of Holyoke, Mass., promises to be one of the best of the present season. West has a big reputation in Massachusetts. There is already a big demand for seats for the bout, which will be staged at the Grande Allée Rink next Friday, the 25th instant.

Soldier Legare and Pte. Patry will be in the semi-windup attraction. Patry, of the 8th R. R. expects to turn the tables this time.

Pte. James H. Groves, of the 8th R. R., accepts the challenge of Lance Corporal Emmet Heard, to a six-round bout, date to be arranged later.

Sporting Editor, Chronicle:
We see in the Chronicle that Frank Smith would like to meet Plamondon. If he means business, let him call to see Plamondon's manager, J. Turcotte, at No. 1 Fire Station. (Signed) J. TURCOTTE.

KILTS ORDER MODIFIED.

The order with regard to the Canadian soldiers wearing kilts, as announced by the Militia Department a few days ago, has been somewhat modified. The change is that while the department will not put the country to the extra expense of providing kilts instead of trousers for the Highland battalions, if the units or private people are willing to make up the difference in cost, then the battalions may have kilts. However, in no case will the department provide kilts at the country's expense in the future. They cost considerably more than trousers. While a few units may make up the difference in cost to keep the kilts, it is expected that in the majority of Highland battalions the historic dress will be superseded.

Sporting Notes

There will be only one game in the local league this Sunday. St. Romuald will meet the Napoleons in Levis.

Manager Giguere of the Naps, is worrying over the injury to Marcotte, which deprives him of the services of the only pitcher on his list. But the Levis manager will probably put through some deal before Sunday in order to strengthen up this important position on the team.

The St. Patrick's Baseball Club are willing to play a game with any of the teams at Valscartier Camp, Sunday. Address: S. G. Newton, manager, or phone him at 4326.

The Emmets will practice this evening on the Cove Fields.

The race between Manitoba and Sackman failed to come off. Sackman could not get down to the practice of St. Pat's last night, and Manitoba claims the honors by default.

The Yankees took another from Cleveland yesterday. The Indians are dropping while Donovan's crew is beginning to come back. The Red Sox were handed a bad beating by the White Hose, but even a good team has to take a beating now and again.

Washington is about the most inconsistent team in the league. But one thing can be said about them, they are certainly consistently inconsistent.

The Indians, with Desjardins working in form, will be a hard proposition for the Levisites. The Naps usually hit the ball on their own field. In fact, the field seems suited to hitting, there is such a wide range in the outfield.

Messrs. Sylvio Drouin and Joseph Pouliot will umpire the game in Levis.

A typographical error crept into our reply to Red Sox yesterday. The National League closes on October 5th, while yesterday's paper made the date read October 4th.

The Giants received another shut-out. McGraw's team can't expect to win many games if they keep up that "high scoring."

Looks bad for St. Louis Browns, the Mackmen won a game from them.

A local bowler seems to have taken a great fancy to watches. The other night, the gent in question had a wrist and another tucker in his trousers watch-pocket. Evidently he has lots of time on his hands.

Amede Talbot, the local trundler, is now interested in the Emmet ball club. Talbot's presence must have been of some good to the team, for they played a great game last Sunday.

Montreal looks to be in for its usual end-of-season drop.

Brooklyn will win the pennant easily, so long as the Braves keep away. The Dodgers seem to encounter their only snag when they buck against Stallings' tribe.

Popular Pastime, No. 521: Listening to an argument—tennis vs. baseball, as an exercise.

ENGLISH WORDS.

They Are, Asserts a Critic, Both Ugly and Unmusical.

"On the whole, owing partly to the enormous proportion of monosyllables, partly to the prevalence of sibilant and dental sounds, the words of the English language are overwhelmingly ugly and unmusical." As proof of this assertion, Charles Leonard Moore adduces in "Incense and Iconoclasm" a long list of commonly used names of things that in our language are rather bad than good.

"Ocean" is grandly mouth filling and pictorial, but "sea" is ignoble, "air" at least questionable, "sky" weak and thin. The clipped dissyllable "heaven" is decidedly poor. "Firmament," however, is magnificent and "paradise" fine. "Earth," "sun" "stars" are three low, plebeian symbols for the total splendors of the visible world.

Turn to the words describing man's own person. "Face," "eyes," "nose," "mouth," "legs," Mr. Moore thinks a simple commodity of vile names. As for man's possessions, it is to be hoped that Adam had better taste than to call his cave a "house," "Mansion" or "palace" might do. "Garden," "valley," "forest" are good. "Metropolitan" is fine and gave Keats an excellent line—"Upon the gold clouds metropolitan"—but "city" is affected and "town" intolerable.

For the sound of most of our verbs Mr. Moore has a criticism as harsh, and it is only our adjectives that he praises, and then cautiously. "August," "splendid," "noble," "gorgeous," "magnificent," "graceful," "indomitable"—these he thinks really patrician among the vulgar rabble of our other words.

HARD LUCK.

First Chauffeur—Bill got fined \$500 for taking his boss' car without permission. Second Chauffeur—But how did the boss know he took it? First Chauffeur—Why, Bill ran over him.

WELSH GETTING READY FOR WHITE

THE CHAMPION CONFIDENT THAT CHICAGO BOY WILL NOT HAVE CHANCE.

Denver, August 16.—Freddie Welsh started his second day of the training grind for his scheduled twenty round championship bout with Charley White, at Colorado Springs, on Labor Day, with another twelve mile road jaunt to City Park and return.

After a rubdown, the champion rested until this afternoon, when he planned a long hike. Freddie declares he does not need much indoor work, but wants to make sure of his wind in this altitude. He plans to continue his road work daily.

"White will have to be much stronger, hit harder and move faster than he has ever done, if he intends to keep up the pace I intend to make," Welsh declared today.

White has not yet started his training. He is now at Colorado Springs, arranging for training quarters. When this is settled, White plans to buckle down to real work.

An army of carpenters is working on the huge outdoor arena where the contest will be staged. The structure will be second only to that built at Reno, for the Johnson-Jeffries fight.

ALLIES' MOVE TO MAKE AUSTRIA QUIT.

When it is said that the iron ring is tightening around Germany, the figure is as accurate as it is picturesque. The ring is by no means an exact circle and the battle-fronts are lines rather than parts of an arc, nevertheless looked at from a distance near the Bohemian capital of Prague, and taking a radius of a little more than 475 miles, it will be found that a compass will pass through Brody, which has been captured by the Russians, and to the west will pass near Neuve Chapelle, where the British are fighting.

On the north it passes through Memel, on the Baltic, and near the scene of the Battle of Jutland. On the south it touches the scene of the Italian successes, passes through Belgrade, and completes the circle near Czernowitz. It measures something like 8,000 miles, but, of course, the battle does not rage over such a front. Allowance must be made for the boundaries of the Central Empires that are shared by neutral nations.

The Real Battle-Fronts.
For example, the frontier between Austria and Roumania extends for 500 miles, and Denmark, Holland and Switzerland represent some 700 miles. There are also many hundreds of miles of actual frontier which are not on the battle-front, for Germany has 1,200 miles of coast on the Baltic and North Seas, and Austria 1,000 miles on the Adriatic where attack is not feasible. The actual battle-fronts along the 3,000 miles which the Central Powers are obliged to defend consist of some 400 miles from Nieuport to the Swiss border; the Austro-Italian frontier of nearly 500 miles, although on only a part of this front has there been any considerable fighting, 700 miles which is being attacked by Russia, and 200 miles along the Austro-Bulgarian frontier where Gen. Sarraill's army is preparing for a stroke. Britain and France and Russia have already launched their offensives, and now comes Italy. In each case the ring has been somewhat contracted. Yet no move of importance has been made on the Austro-Bulgarian front, and much is expected from this quarter, for it is known that there the Allies greatly outnumber the Bulgarian and Austria forces that face them.

The Game at Salonica.
It has been suggested that there is a hesitancy to strike here due to the belief that Bulgaria already realizes the hopelessness of the alliance into which she was inveigled, and is ready either to quit or, if proper terms can be arranged, to throw in her lot with the Allies. Military commanders would probably risk precious time on the chance that they might draw Bulgaria away. That would mean the almost certain support of Roumania, and that, again, would mean the equally certain collapse of Austria. This, in the opinion of a writer in the Springfield Republican, is chief aim of the Allies at the present time. All news in past few weeks points to the weakening of Austria. The tremendous Russian drives in Galicia, resulting in the capture of hundreds of thousands of Austrians, and the death and disablement of hundreds of thousands more, followed by the recent Italian successes, indicate that the time is not far distant when Austria will be unequal, even if willing, to the task of defending her own frontiers.

A drive from Salonica would hasten that hour, and then we might see Austria determined to quit, and leave the battle to her more determined partner.

Playing for Austria.

In the first year of the war Allied strategy seems to have been based upon the necessity of maintaining Germany. It was argued that it would be useless to destroy Austria while Germany remained strong, for Germany has always been the mainspring of Teuton aggression. Therefore, Russia's earlier efforts were a threat against East Prussia. Later on, when German strength had been manifested, and when it was seen that she had not

Go Where The Ocean Breezes Blow

SEASIDE EXCURSIONS TO THE MARITIME PROVINCES.

From Montreal to where cool ocean breezes are blowing is an easy journey, and one made on the best equipped trains on the continent. The "Ocean Limited" and the "Maritime Express," the through trains on the Canadian Government Railways, furnish a fast and luxurious service for those who desire to reach the watering-places of the Lower St. Lawrence, or points on La Baie de Chaleur, the Straits of Northumberland, the Bay of Fundy, or the sea-girt shores of Nova Scotia.

These annual excursions over the Canadian Government lines afford the right kind of an opportunity, as for a generous vacation period the special low fares prevail. The going dates are from August 18th to August 21st, with a return limit to September 6th.

Particulars regarding fares to the various points will be furnished at the City Ticket Offices of the Canadian Government Railways, 7 Du Fort street and 22 Dalhousie street, Quebec.

Sleeping car reservations may be secured through this source.

AT THE THEATRES

AT THE OLYMPIA TODAY.

"FROM THE VALLEY OF THE MISSING" A WILLIAM FOX HUNDRED THOUSAND DOLLAR PHOTOPLAY PRODUCTION.

Employing the Services of One Thousand People in Addition to a Stupendous all-star Cast—500 Thrilling Scenes.

An all-star cast headed by Jane Miller, daughter of the State Treasurer of Missouri and formerly leading woman with the mammoth production of "Life" at the Manhattan Opera House, New York City, is seen in "From the Valley of the Missing" a picture version of Grace Miller White's world-famous novel, made for the Fox Film Corporation, William Fox, president. The picture, which is produced by Frank Powell, calls for artists of unusual ability. Ordinary "motion-picture" actors would have been utterly unable to cope with "From the Valley of the Missing." People of exceptional ability therefore had to be engaged, for the picture deals with almost every conceivable type from rough men and women of the river barges to the governor of the state and the most fashionable society of New York and Washington.

"The Valley of the Missing" will be seen at the Olympia theatre today and tomorrow. It is a \$100,000 production, and has 500 great scenes, including a yacht collision, country fair, haunts of river pirates, battle on the barge, and the Capitol of Washington.

ANOTHER BIG FEATURE AT THE VICTORIA THEATRE

Today and Tomorrow Myrtle Stedman in "The American Beauty."

Unbelievably perfect is the best description of the photographic work in the Pallas-Paramount photoplay. "The American Beauty" will be offered at the Victoria Theatre today and tomorrow. The triple exposures perfectly manipulated by the cine matograph experts are marvelous accomplishments. The remarkable work is carried not in one or two short scenes, but through a series of scenes of long duration.

Photography of the finest has always been the reputation of Pallas Pictures. The scenes, where Myrtle Stedman, the star plays two characters at the same time are so startling that they surpass all description. Panicky thoughts of eyesight gone wrong are liable to flit across the consciousness of the beholder.

AT THE EMPIRE TODAY.

Francis X. Bushman in "A Brother's Loyalty."

ALL-STAR PROGRAMME AT THE EMPIRE TODAY.

Francis X. Bushman, Henry Walthall and Edna Mayo in Feature Films—Army and Navy Pictures.

Even the most critical moving picture lover could not wish for a better week-end programme than that which the Empire presents today and tomorrow.

Francis X. Bushman, one of the most popular screen artists will be seen in a magnificent Essayay production, "A Brother's Loyalty." Mr. Bushman's fine work in this film earned him unstinted praise from even his hardest critics.

Besides this Bushman feature, Henry Walthall and Edna Mayo continue their adventures in "The Strange Case of Mary Page" the third episode of which will be shown today. The big trail scene last week made a tremendous hit and those

who are following the picture will be anxious for this week's chapter.

To wind-up this attractive card the Empire management have secured a splendid series of pictures depicting the gigantic army and navy of Britain in action. There are three thousand feet of film full of interest to all loyal subjects of the Empire and these views will clearly impress upon all the work which England is doing in endeavouring to achieve a glorious ending to the present war.

MORE APPROPRIATE.

A great deal of interest has been aroused by the announcement that Sir Herbert Tree is shortly to publish another book. Rumor has it that it is to be about Shakespeare's plays—concerning which few living men are better authorities than the famous actor-manager.

Sir Herbert's wit is well known among his friends, and he can make a funny remark on almost anything. Some time ago he paid a visit with Lady Tree to the Tate picture gallery.

St. Laurent, at 8.00 p.m.
Saturday, at 2.00 p.m.

On Saturdays the same steamer will make a trip to Berthier, giving citizens an opportunity to breathe the invigorating air on the river. Leaving Quebec at 2.00 p.m., and returning at 9.30 p.m.

Shipping News

CANADIAN WHISKY GOING OVERSEAS

CANADA STEAMSHIP LINES
SS. GLENELAH TAKING
2,500 TONS TO ENGLAND.

Montreal, Aug. 17.—China clay, brought out by the Canada Steamship Lines, Limited, steamship Glenelah from England to Montreal, will be replaced on the homeward voyage by 2,500 tons of Canadian Club whisky from Walkerville. This tremendous quantity represents two hundred car loads. As late as yesterday, a train of 45 cars filled with casks of whisky drew in to the Harbor Commission wharf where it was unloaded ready to be replaced on board the boat. Although the whisky is all in casks, making calculation difficult, it is estimated that there is enough whisky in this consignment to fill 2,500,000 bottles, "enough," as one of the workers stated yesterday, "to put all of Great Britain's five million new army on the blink for half a day." However such is not to be the case to which the whisky will be put in a land where prohibition is a more popular idea than ever before in Great Britain's history, but what its exact use will be is not known. Since the British Government has taken over the great distilleries in England there has been not enough whisky for the various uses it can be put in addition to its use as a beverage. It is used at the front as an addition to rations at times and under conditions where its use is held to be medicinal.

A shipload of whisky from Canada to the Mother Country is a reversal of the usual order of procedure. In the first year and a half of the war, great cargoes of liquor were sent to Canada from the Old Country. The tide has turned, and the Canadian-made article will go eastward. The Glenelah is now being looked after by Furness, Withy & Company.

FREIGHTS AND CHARTERS.

New York, Aug. 17.—Freights offered moderately, but tonnage was difficult to secure at the rates bid. Chartering was light in all trades. Quotations to Liverpool, 18d London and Glasgow, 17d, September; Leith, 12s; cotton to Liverpool, per 100 lbs \$12.5.

Charters: British steamer, 2,208 tons, coal Virginia to Brazil, private terms, September, steamer, 1,675 tons, lined, Buenos Ayres to New York, private terms; schooner 787 tons, lined, Buenos Ayres to New York, private terms; schooner, 23,000 cases petroleum, New York to Casa Blanca, private terms, prompt; schooner, 4,500 bbls refined petroleum, Philadelphia to Genoa, private terms, August.

SHIPPING NOTES.

The steam barge Samuel Marshall arrived down yesterday with a cargo of coal which is being discharged at the Canadian Government Wharf, Levis.

SS. Batiscan passed out yesterday.

Thin Folks Who Would Be Fat

Increase in Weight Ten Pounds or More.

"I'd certainly give most anything to be able to 'fat up' a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Most thin people are victims of malnutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are, when the powers of nutrition are normal. Instead of getting into the blood, much of the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal amount of fat, the nutritive processes must be artificially supplied with the power which nature has denied them. This can probably best be accomplished by eating a Sargol tablet with every meal. Sargol is a careful combination of six splendid assimilative agents. Taken with meals they mix with the food to turn the sugars and starches of what you have eaten into rich, ripe nourishment for the tissues and blood and its rapid effect has been in many cases reported remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by all druggists everywhere and every package contains a guarantee of weight increase or money back.

If you find a druggist who is unable to supply you with Sargol send \$1.00 money order or registered letter to the National Laboratories, 74 St. Antoine St., Montreal, and a complete ten days treatment will be sent you postpaid in plain wrapper.

NOTE—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported care should be taken about using it unless a gain of weight is desired.

Steam barge Follette with pulp passed this port yesterday bound for the Lakes.

SS. Percussion left early last evening for Montreal.

The Felicia and tow and Florence and tow and steam barge Algonquin passed up yesterday.

A despatch from Baltimore, Md., says—On account of accumulation, an embargo effective Aug. 16 has been placed by the B. and O. R.P. on all grain shipments for export from here. The notice says that shipments billed up to and including Aug. 15 will be accepted.

At the offices of the company it was said that there are 3,100 carloads of grain at the Locust Point terminals and in transit and 1,500,000 bushels stored in the elevators.

Don't Let Soap Spoil Your Hair

When you wash your hair, be careful what you use. Must soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain multifid coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at all drug stores, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

CITY OF QUEBEC.

DISTRICT OF QUEBEC.

City Hall.

BY-LAW NO. 3F.

To Amend By-Law No. 3, Concerning Markets and Private Stalls.

(Drawn up in the French language)

At a meeting of the Municipal Council of the City of Quebec, held on the 11th day of August, one thousand nine hundred and sixteen (1916) the following by-law was read for the first time.

Be it ordained and enacted by the Municipal Council of the City of Quebec, and the said Council doth hereby ordain and enact as follows:

1.—Article 1 of by-law No. 3, adopted by this Council the 18th of April 1911 is repealed and replaced by the following:

1.—The markets actually existing in the City of Quebec are St. Peter's market, Berthelot market, Montcalm market, Jacques-Cartier market, Palais market, Finlay market and the cattle market.

2.—Article 6 of the same by-law is repealed and replaced by the following:

6.—Palais market comprises that portion of lot of ground number one thousand nine hundred and fifty (1950) of the cadastral plan of St. Peter's ward, situated north west of Vallieres street, used as hay market or other things and also for the public weigh house office for loaded or empty vehicles.

3.—The following article is added after article 7 of the same by-law:

7.—The cattle market comprises a piece of land of rectangular form, situated in Limoilou ward, being a subdivision of cadastral number five hundred and nine (509) of St. Roch's north, said piece of land bordering the 24th street on a length of 44 feet and "A" Avenue on a length of 633 feet, forming a total superficies of 91,152 square feet.

4.—Article 47 of the same by-law is repealed and replaced by the following:

"47." Every live hog, calf, sheep or all cattle offered for sale for butchery or otherwise, must be taken to the cattle market established on the Quebec Abattoir Company's grounds in Limoilou ward, to be sold and offered for sale, and it is forbidden to sell them or offer them for sale at any other place in the City.

5.—Article 48 of said by-law is repealed and replaced by the following:

"48." There shall be paid to the Quebec Abattoir Company, in charge of said cattle market, for the entry of each said animal, the following fees:—For each head of cattle, twelve cents; For each hog, five cents; For each calf, lamb, sheep or goat, three cents. If horses are brought there to be exposed for sale, a charge of twenty-five cents shall be levied on every horse.

6.—The cattle market situated at the Palais market is abolished by the present by-law.

7.—By-laws Nos. 294 and 294A, passed by this Council on the 5th of December 1890 and the 21st of May 1915 respectively are repealed.

Public Notice.

IS HEREBY GIVEN that, in conformity to the dispositions of law, the following by-law will be read a second time, for adoption, on Friday, the 8th day of September next (1916).

By order,
H. J. J. B. CHOUINARD
City Clerk.

CITY OF QUEBEC.
DISTRICT OF QUEBEC.

City Hall.
BY-LAW NO. 9.

Prolongation of Lockwell Street.

(Drawn up in the French language.)

At a meeting of the Municipal Council of the City of Quebec, held on the 11th day of August, one thousand nine hundred and sixteen (1916) the following by-law was read for the first time.

Be it ordained and enacted by the Municipal Council of the City of Quebec, and the said Council doth hereby ordain and enact as follows: 1.—To prolong Lockwell Street as far as Salaberry Street, it is necessary to purchase the following pieces of ground, to wit:

(a). Eleven thousand and ninety-three (11,993) square feet in superficies on lot No. 3763 of the cadastral plan of Montcalm ward.

(b). Four thousand and seventy-seven (4,777) square feet in superficies on lot No. 3764 of same ward.

Such as is specified on a plan deposited in the City Engineer's Office, dated 4th June 1916 and prepared by Hugh O'Donnell, provincial land surveyor.

2.—For the above cited purposes, the City shall acquire amicably, or by way of expropriation, said strips of land.

3.—The price to be paid for said strips of land shall be taken from the monies the City is authorized to borrow in virtue of the Act 6 George the Fifth, Ch. 43, art. 1, paragraph d.

Public Notice.
Is HEREBY GIVEN that, pursuant to law, the above by-law will be read a second time, for adoption, on Friday, the 8th day of September next, (1916).

By order,
H. J. J. B. CHOUINARD,
City Clerk.

Commercial**NEW YORK MARKET**

(Canadian Press)

New York, Aug. 17.—The crisis in the railway labor situation, as disclosed by President Wilson's action in summoning the railway executives to Washington, was the only restraining influence in today's active, and for the most part strong market. Shares of the leading transportation companies were variably but not seriously affected, while other issues, with few unimportant exceptions, were lifted to highest levels of the current movement.

Shipping shares were again dominant features. Mercantile Marine Common making a new record on its rise of 4 1-2 to 38 3-4, with a gain of four for the pfd. and 1 to 2 1-2 points for Pacific Mail, United Fruit and Atlantic, Gulf and West Indies.

United States Steel kept pace with Marines, advancing 1 1-4 to 94 1-2, or within 2 3-8 of its memorable maximum of 1909. Shares of the independent industrial companies, notably Lackawanna and Republic steels, were strong. Republic pfd. attaining a new record at 113 3-4.

Munitions and equipments fluctuated 1 to 2 points above or under the previous days closing prices, but motors, Mexicans and less conspicuous specialties of various classes were firm to strong. Coppers infused fresh activity in their trend of the final hour, their rise concurring with a reported advance in the metal on further large domestic demand.

There was also a better inquiry for prominent utilities, including American Telephone and Telegraph and kindred issues. Dealings were a trifle more restricted as to the number of issues traded in. Marines and Steel contributing fully 25 per cent of the total turnover of \$65,000 shares.

Bonds were irregular, total sales, par value, \$4,050,000.

CLOSING MARKET LETTERS.

By Private Wire to Breen & Gourdeau, Stock Brokers, Telephone No. 155.

Chicago, August 17.—Wheat—Well directed efforts on the part of Canadian authorities to depress wheat prices had only a temporary effect on our market which by mid-day recovered an early loss and was selling a little above last night's close. Breaks are likely to be only temporary and very much higher prices are indicated.

Corn—An improved demand for cash corn and buying of futures by leading bull interests caused a complete recovery from an early break. Very low prices for corn may hardly be expected.

Oats—Were helped early by purchases of cash interests. Hedging pressure and a better feeling of bearishness on the part of brokers held the market in check. On breaks from

COTTON MARKETS.

New York, Aug. 17.—Cotton futures closed steady. Closing bids: August, 14.24c; October, 14.28c; December, 14.48c; January, 14.57c; March, 14.70c. Spot closed steady. Middling upland, 14.45c.

Liverpool—Cotton, spot in improved demand. Prices easier. American middling, fair, 9.47d; good middling, 8.92d; middling, 8.75d; low middling, 8.59d; good ordinary, 8.39d; ordinary, 7.93d. The sales of the day were 8,000 bales, of which 1,500 were for speculation and export, and included 6,200 American. Receipts were 3,000 bales, including 2,900 American. Futures opened quiet.

CLOSING MARKET LETTERS.

By Private Wire to Breen & Gourdeau, Stock Brokers, Telephone No. 155.

Chicago, August 17.—Wheat—Well directed efforts on the part of Canadian authorities to depress wheat prices had only a temporary effect on our market which by mid-day recovered an early loss and was selling a little above last night's close. Breaks are likely to be only temporary and very much higher prices are indicated.

Corn—An improved demand for cash corn and buying of futures by leading bull interests caused a complete recovery from an early break. Very low prices for corn may hardly be expected.

Oats—Were helped early by purchases of cash interests. Hedging pressure and a better feeling of bearishness on the part of brokers held the market in check. On breaks from

present levels, Oats have much merit as an investment.

New York—The breadth and activity which have characterized trading in the stock market the past few days were again in evidence today. Price movements presented a more irregular appearance, however, than shown on the preceding days of the week, although the majority moved forward and the undertone to the market generally was good. The strength of United States Steel and the International Mercantile Marine issues, as well as the heavy volume of dealings in those issues stood out as special features of the day. The coppers pursued a rather irregular course, while the railroads displayed some heaviness, due to the uncertainty in the labor situation. We expect to see prices continue within trading limits for the present and favor the long side on setbacks.

Sales, stocks, 867,775; Bonds, \$3,908,000.

CLOSING LETTER.

Bruneau & Dupuis, stock brokers, Members Montreal stock exchange 11-13-15, Sault au Matelot, Quebec. A. A. GINGRAS, Manager. Phone 1596. Night 5570.

New York, August 17.—The market has been constantly firm today, though some of the top prices were shaded at the close. The continued strength in steel has benefitted the whole list, while announcements in the past month of renewed buying orders from abroad in steel and copper have encouraged the belief that our leading industries had at least another year of exceptional prosperity ahead of them. This is increasing the confidence that the present range of prices is having under the circumstances.

The only news of importance today has been the call of the railway presidents to Washington, showing that the general managers have not been able to accept the terms so far proposed. This threatened strike is certainly a wide spread conspiracy in the restraint of trade and if attempted by any other than a labor union would be promptly squelched by the authorities or the courts. It looks as if a good deal of politics were creeping into the situation. Everyone however expects this matter to be adjusted and the general outlook certainly indicates higher prices.

Total sales, stocks 867,775; Bonds \$3,908,000.

THE TORONTO PRODUCE MARKET.

Toronto—Quotations are as follows:

Correspondence

THANKS FOR TOBACCO.

Belgium, July 30th, 1916.

Dear Sir,—I wish to thank you very much for the lovely gift of cigarettes and tobacco which were sent through you by General Watson of the 8th Royal Rifles who is at present in Belgium. I have lost the card that was enclosed in same. So will you please convey my thanks to the Quebec Daily Chronicle, of which Gen. Watson is at the head.

Thanking you once again,

I remain,

Yours sincerely,

A. H. CLINT.

MANITOBA GRAFT.

Evidence of William Salt is Con-
cluded.

Winnipeg, Aug. 17.—The evidence of William Salt in the ex-Minister's trial was concluded just at the adjournment of court this afternoon, after he had been on the stand for one day and a half.

Salt, in cross-examination, produced a letter dated December 17, 1915, from S. C. Oxtou, Deputy Minister of Public Works, refusing him permission to inspect the caissons under the parliament buildings dome, then being uncovered. Mr. Oxtou stated that F. W. Simon, the architect, objected to Salt being allowed "access to the caissons." Salt declared that he knew no reason for this refusal and said he had not since been allowed to inspect the caissons.

She witness said it would be very easy to pick out samples of concrete which would not bear a true relation to the whole work. Salt was asked by the Crown counsel to tell the circumstances under which he was being paid \$4 per day by the government for witness fees. He said that after the preliminary hearing he proposed to go to England or the United States. He could not obtain employment with the government, and it was arranged that he should be paid. "We either had to lock him up or pay him," commented Crown counsel. Salt said he had given evidence at length on several occasions since.

Salt was asked about the construction of the caissons. He said concrete was poured into the caissons through a spout only eight feet long, and he agreed that this might mean weak spots, since the heavier parts of the mixture would reach the bottom first. The witness said that Lawrence Kelly told him at one time that a tender for the caissons had been sent in, and later Charles Kelly expressed his anxiety to know if the tender had been accepted. After the work was completed Charles Kelly told him the tender had been accepted.

READY FOR THE WORST.

"A woman in a parish where I lived," said an English clergyman, "used each day to prepare herself for the worst. I was complimenting her one day on the extreme tidiness of the house even early in the morning.

"Yes," she said; "I always like to have my bedrooms done heavily, for, as I allus sez, you never knows what may 'appen, 'ow soon one of the children may be brought 'ome in a fit or with a broken leg, and, as I allus sez, it don't matter what 'appens, so long as you've got a bedroom to put 'em into."

A SICKLY WIFE NO FIT MATE FOR ANY MAN

GIRLS AND WOMEN SHOULD
LOOK WELL TO THEIR
HEALTH AND
STRENGTH.

Never before was physical health and vigor so highly esteemed and so eagerly sought for as today.

No man finds happiness in a sickly wife, and the woman who wishes to enjoy the pleasures of life should spare no effort to maintain perfect health.

Is your daughter growing up strong and ruddy? Has she strength to drink in greedily all the pleasures that youth so zealously seeks—or is she compelled to use the street car instead of enjoying the delightful exercise of walking—does she after the ball arise refreshed and vigorous, or is she exhausted, indifferent, and perhaps irritable?

When strength and vigor can be so easily maintained by Ferrozone, when the glow of health is so quickly brought to the cheeks and elasticity to the step, it is plainly a mother's duty to see that Ferrozone is on hand to assist her daughter back to health.

Upon the wake of Ferrozone quickly follows a stream of rich, nourishing blood which imparts that power and surplus energy so earnestly desired by those in ill-health.

Stop and think what this means for your daughter—certainly a great deal, and it can be accomplished by Ferrozone.

Every growing girl and young woman derives enormous benefit in many ways from this nutritive, vitalizing tonic.

It is specially suited for young women and is a guarantee of health and regularity as long as it is used.

Ferrozone is free from alcohol and perfectly safe to use. Prepared in the form of a chocolate-coated tablet and sold in 50c boxes or six for \$2.50, at all dealers, or direct from The Caltarhazone Co., Kingston, Ont.

A RABELAIS HOAX.

Rabelais, being out of money, once tricked the police into taking him from Marseilles to Paris on a charge of treason. He made up some packages of brick dust and labelled them "Poison for the royal family." The officers took Rabelais 700 miles, only to be told at the end of their journey that it was a hoax. Rabelais was the privilege of the royal family he was forgiven.

CHEWING GUM CROP OF 1917 TO BREAK ALL RECORDS.

There are many Mexicans who are still quite friendly to the United States. In the State of Yucatan and in Southwestern Mexico, for example, where the American Chicle Company, which is composed of ten of the oldest chewing gum manufacturers in the world, holds large government, land concessions, the gathering of chicle for the Adams chewing gums is a most important industry.

The natives supposed that on account of the strained relations between the two countries the American Chicle Company would not gather as much gum as usual this year, but they were agreeably surprised a few days ago when M. D. Bromberg, Secretary of the company, showed up unexpectedly in Yucatan and announced that he had instructions from Darwin R. James, Jr., the new president of the Company, to launch the greatest gum gathering campaign in the history of the chewing gum industry.

Immediately the head "chicleros" or "captains," as they are called, sent messengers throughout the province to call in every available chiclero and to tell each man to bring with him a recruit, in order that the army of gum gatherers might be doubled for the 1917 "cutting."

Secretary Bromberg began organizing camps, engaging ships, buying provisions, mules, teams, tools, tents and everything that is necessary for a gum gathering expedition into the dangerous forests, where the finest gum is found. All of the trained chicleros and hundreds of new ones are now either in the jungles or preparing to start and each camp is determined to out do all the others in the amount and quality of gum returned to the seaports by January.

The present stock of chicle gum in the United States is very low and prices are high. President James determined to not only put an end to the shortage of gum and high prices but to provide for his ten factories in the United States and Canada an abundant supply of the finest fresh chicle for the chewing gum production of 1917. This new gum will go into the Adams and Beaman gums and, in fact, all of the one hundred brands produced by the American Chicle Company.

EXTRA TRAIN SERVICE SUNDAYS

Quebec—Valcartier

HOTEL LAKE ST. JOSEPH.

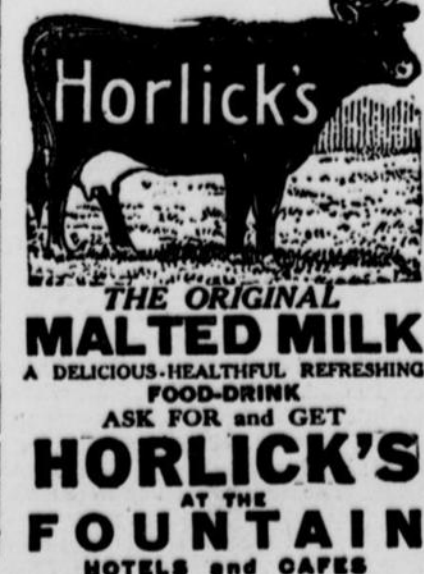

Commencing Sunday, August 20th, extra train will leave Quebec 9.30 p.m. Sundays only arriving Valcartier 10.20 p.m. Hotel Lake St. Joseph 10.40 p.m. Retaining this train will leave Hotel Lake St. Joseph, at 10.45 p.m. Sundays only arriving Valcartier 11.00 p.m. Quebec 11.45 p.m. This service should be very popular with the men at the Camp returning from Quebec and also for returning visitors from the Camp to Lake St. Joseph Hotel. For further particulars etc., apply to nearest Canadian Northern Agent.

KING CONFESION IS NOW REPUDIATED

Erwin King Declares Had No Part in Crime.

Albion, N. Y., August, 14.—The District Attorney of Orleans county announced to-day that Erwin King had repudiated completely the confession he made at Little Valley, N. Y., on August 10 that he was guilty of the murder of Charles Phelps and his housekeeper, Mary Wolcott, at West Shelby, on March 22, 1915. Charles Stielow, now in Sing Sing prison under sentence of death for these murders, but was relieved recently on the day set for his execution. Stielow's friends believed King's confession would save the life of the condemned man.

The District Attorney said to-day that King late last night swore that he had nothing to do with the West Shelby murders.
