MIXED RECEPTION GIVEN HITLER'S DECLARATION ON FOREIGN POLICY

Vienna Press Condemns Statement Concerning Reich Policy Towards Armaments—In Renouncing "Wars of Conquest" Hitler Pledges Germany to Adherence to Locarno Treaty, Promises Respect for Territorial Clauses of Peace Treaties and Condemns Mutual Assistance Pacts.

Chancellor Adolf Hitler's statement of foreign policy met with a mixed reception in European capitals today, although it was still too early for official reaction. While the London press considered opportunity should be seized for a new European security and disarmament conference, Parisian newspapers remained skeptical of German aims. The Viennese press without exception condemned Hitler's declarations concerning Austrian policy, and in Rome there was disappointment at Germany's apparent refusal to participate in the Danubian conference.

League of Nations circles at Geneva generally regarded the address as moderate in tone.

The Communist press in Paris was bitter at Hitler's remarks concerning Russia.

LEAGUE CONDEMNATION OF REICH ARMAMENT REJECTED

Berlin, May 22.—The Third Reich today threw its army plans into high gear as the chancelleries of Europe weighed Chancellor Adolf Hitler's new historic thirteen-point programme of foreign policy stressing his Government's will to peace while defending Germany's rearmament and forecasting treaty revision.

While the country re-echoed the applause with which the Nazi Reichstag deputies received their leader's address, the Government promulgated the laws re-establishing compulsory military service in the Reich and providing for an army of at least 2,500,000 men. A navy thirty-five per cent. of the British fleet in size or fifteen per cent. below the French fleet will be constructed.

Hitler announced the Nazi Government's willingness to join in European peace efforts with definite conditions regarding any concessions Germany might make and defence of her rearmament.

He vehemently rejected the League of Nations' condemnation of Germany's rearmament and justified the Reich's military move by charging that other countries refused to follow her lead after the war in scrapping arms.

Renouncing all "war of conquest," he pledged German adherence to the Locarno Treaty and his Government's willingness to sign non-aggression pacts with all its neighbors, with the exception of Lithuania.

This exception was made, he said, because of the treatment accorded to Germans in the former Memel territory.

The Reich was placed on record once more as "diametrically opposed" to Bolshevism because national Socialism lays stress on the German people while the Soviet mission is "international."

He said Germany is ready to sign an international non-interference pact, "if non-interference is defined," and that Germany would not annex Austria.

Germany, he said, welcomed collective security, but considered the revision necessary by peaceful means. She would sign an "Air Locarno," but demanded parity with Europe's strongest air force.

All territorial clauses of the peace treaties would be respected by Germany, he went on, promising her participation in all efforts for practical arms limitation, but said that the figure for Germany's new army will not be reconsidered.

His assurance, as chief and spokesman for the German nation, that following liquidation of the Saar question Germany would make no further demands on France, "constituted a contribution to peace more important than many signatures to as many pacts" and just as valid, he said. The Reich's opposition to mutual assistance clauses in treaties was because for the governments to maintain peace, he concluded, "whoever brandishes in Europe the incendiary torch of war can only want chaos. For our part, we firmly believe our time will not see the death of the west, but its resurrection. May Germany make its imperishable contribution to that work. That is our proud hope and our steadfast faith!"

CONSIDERS GERMANS HERE SUBJECT TO CONSCRIPTION

New York, May 22.—Pending official word as to the effect of the German conscription order issued in Berlin yesterday, it was explained here, natives of Germany in Canada and the United States, whether naturalized or not, would be considered German citizens by the government at Berlin.

Submission to the conscription order in the cases of residents of Canada or the United States would presumably be voluntary.

DEGREE OUTLINES LATEST GERMAN ENLISTMENT PLAN

Berlin, May 22.—The Government issued a law last night compelling all Germans between the ages of eighteen and forty-five to serve one year in the army. It is effective at once.

Persons over forty-five will form reserves and "during war every German man and woman will be obliged to serve the Fatherland," the decree said.

While the Government did not divulge the exact size of Germany's army under the recent conscription law, it was said it would consist of thirty-six divisions. The strength of a division was not stated.

This new law, the Propaganda Ministry asserted, "does not mean Continued on Page 2."

CHURCH ASSEMBLY OPENING MARKED BY ODD INCIDENT

Instead of Reading Customary Message from King, Clerk by Mistake Read King's Private Instructions to Duke of Kent.

Edinburgh, May 22.—An odd little contretemps marked the opening of the general assembly of the Church of Scotland by the Duke of Kent here. The Duke this year is Lord High Commissioner.

One of the clerks, instead of reading the customary message from the King, read by mistake the King's private instructions to the Duke. He began: "Private instructions to our most dear and entirely beloved son."

Half way through the clerk apparently realized his mistake. He read the remainder in a voice scarcely audible.

BUSH FIRE HAZARD REDUCED

Sault Ste. Marie, May 22.—Cold weather today reduced the bush fire hazard in the Soo area as two fires, at mile 122 on the Algoma Central and Kerwin Lake near Batchawana, were reported confined to grass and not spreading.

CLAIMS STATE TO BLAME FOR HEAVY LOSSES

Bursting of \$21,000,000 Securities Bubble Apparently Left Thousands Who Invested with Less than \$100,000 Today—New Englanders Suffer.

Boston, May 22.—The bursting of a \$21,000,000 securities bubble apparently left thousands who invested with less than \$100,000 today.

Attorney General Paul A. Davis said a rough survey of assets indicated that scarcely \$82,000 now is available of the \$10,000,000 invested in Seaboard Utilities Securities, while only about \$5,000 of \$5,000,000 invested in Railroad Shares Securities remained.

The securities were purchased by thousands of New Englanders through the bankrupt C. D. Parker and Company, Inc., one of several firms now under investigation by the Attorney General's office for alleged stock market practices.

Proportions of apparent collapse became known after Davis conferred with Arthur F. Bickford and Thomas H. Mahoney, receivers for Railroad Shares and Seaboard Utilities respectively.

The investigation of the Parker firm and its affiliates reached a climax more than a month ago with the suicide of Bowen Tufts, one of its officers. Davis said a Parker inspection indicated State officials failed for more than a year to detect evidence that the company was insolvent to the extent of approximately \$2,000,000.

CHOLERA CLAIMS HEAVY TOLL. Calcutta, India, May 22.—A virulent cholera epidemic today swept the northeastern province of Assam. The death toll already was reported at 1,359 out of the 2,147 cases on record.

A mere handful of physicians waged a day and night battle to prevent the plague from spreading.

JANE ADDAMS, FAMOUS SOCIAL LEADER, PASSES

Internationally Known Social Worker and Champion of World Peace Succumbed to Major Operation in Chicago at Age of Seventy-Four Years.

Chicago, May 22.—With the death of Jane Addams, the world today mourned the passing of an internationally known social worker and champion of world peace. The founder of the famous Chicago social settlement, Hull-House, and the winner of a Nobel prize for her peace efforts succumbed late yesterday in Passavant Hospital after undergoing a major operation. Miss Addams would have been seventy-five years old on September 6th.

Until she lapsed into a coma, Miss Addams had been calm, smiling and able to read some of the scores of cablegrams and telegrams wishing her a speedy recovery.

Jane Addams erected two fortresses of fame: her ideals of humanity, and her tangible strength of the spirit, and Hull-House, the tangible expression of that ideal.

The twin were a desire of a heart filled with a belief in the complete mobilization of the human spirit, by bettering the life of the world, a desire which swept aside all barriers of race and religion.

In her search for practical means of forwarding this ambition, Hull-House was her laboratory; and like that building in Menlo Park from which the genius of Edison sent out devices to conquer darkness by physical light, so Hull-House became the source of social discoveries which sent rays of spiritual light Continued on Page 2.

FAVOR NEW DISARMAMENT PARLEY AS LOGICAL ANSWER TO GERMANY

British Press Urges Swift, Decisive Action on Heels of Germany's Offer to Participate in "Air Locarno," Agree to Naval Limitation and Bind Reich Against Aggression—Skeptical Predominant Note in France's Reaction to Der Fuehrer's Foreign Policy Declaration.

London, May 22.—The convocation of a new European security and disarmament conference was regarded in political circles today as the most logical answer to the conciliatory gestures contained in Reichsfuehrer Hitler's foreign policy address.

The press generally marshalled opinion in favor of such a move and swift, decisive peace measures. It was urged that Der Fuehrer's offer to participate in an "Air Locarno," Germany against aggression be immediately snapped up.

While Hitler presented no specific plan, his reiteration of previous disarmament and security statements and the enunciation of new policies, especially his willingness to accept a naval strength inferior to that of France, were praised in some political quarters and newspapers.

DISAPPOINTMENT NOTED IN FRENCH NEWSPAPERS

Paris, May 22.—Judged by the tone of leading French newspapers, Chancellor Adolf Hitler's address was a disappointment to this nation and the chief editorial reaction is skepticism. No official comment was forthcoming.

Characteristic headlines were "Sixteen Pages of Criticism Against 'Other Nations'" in Le Journal, and "Many Words But No New News" in the Petit Parisien. Le Journal emphasized "The address is particularly aggressive as regards the treaty between France and the Soviet Union."

CLAIM NOTHING TANGIBLE OFFERED BY NAZI LEADER

Berlin, May 22.—While enthusiastic Nazis acclaimed the declaration of foreign policy contained in Reichsfuehrer Hitler's Reichstag address, some skeptical foreign envoys today saw in it the promise of "an unprecedented rearmament race."

In diplomatic circles the opinion was heard that "Hitler has offered nothing tangible toward the international peace cause," except an attempt to justify his course.

The purpose of trying to allay foreign apprehension to gain sufficient time for retooling his armaments was viewed by some observers as one of the motives Hitler had in view.

Charges Bennett's Statement in House of Commons Reveals Dominion Premier in True Light

Toronto, May 22.—"The best thing that ever happened to us politically," declared Premier Mitchell F. Hepburn, in commenting on the statement made by Rt. Hon. R. B. Bennett in the House of Commons yesterday that Ontario's action in passing legislation to declare Quebec hydro contracts void had "completely destroyed" Canada's credit in the United Kingdom.

"It shows Bennett in his true light—born a Tory, die a Tory," said Mr. Hepburn.

"If Mr. Bennett is correctly reported we again find him fighting in the corner with special private interests," said Mr. Hepburn.

"The statement is of such grave importance that I am in doubt as to the exact nature of this disability. I suggest that instead of having his heart examined he have his head examined because Canada's credit never stood higher."

The Premier referred to success of the recent \$60,000,000 Dominion loan and said Ontario's determination to balance the budget was meeting with whole-hearted approval of the investing public.

"Our action with regard to power is simply that we took sides with 300 municipalities who were obliged to take huge supplies of unbalanced power," the Premier continued.

"Even Mr. Henry admitted it was a waste of money to spend \$20,000,000 for a second power line to bring Quebec power here," said the Premier, referring to the Opposition Leader in the Legislature. "He suggested that if he were in office he Continued on Page 2."

ACTION PROMPTED BY SPITE DISMISSED BY MAGISTRATE

Judge Criticized Prosecution for Bringing and Supporting Charge Against Nova Scotia Man.

Guysboro, N.S., May 22.—Declaring the action prompted to have been prompted by spite, Magistrate Desbarres acquitted E. D. Rudderham, owner of the building which had been the government liquor store until May 1st—of a charge of unlawfully possessing liquor.

The Nova Scotia Liquor Commission's lease on the building had expired on the night of April 30th and when it was not renewed Mr. Rudderham placed a padlock on the store early on the morning of May 1st.

On May 2nd the Commission staff demanded admittance, but he refused to let them in unless they turned over the original keys. The charge was then placed against Mr. Rudderham. Royal Canadian Mounted Police opened the building and the liquor was removed.

The Magistrate criticized the prosecution for bringing and supporting the charge.

MORE SERIOUS CRISIS FACING WHEAT GROWERS

International Wheat Conference Told that World Carryover on August 1 Will Be 800,000,000 Compared with Average of 625,000,000.

London, May 22.—A new crisis in wheat production more serious than that of 1933, unless an "act of God" intervenes or a new export restriction agreement is adopted, was forecast in a report presented at the opening of the International Wheat Conference today.

The report was submitted by Andrew Cairns, Canadian secretary of the Wheat Commission. Delegates of Canada and fourteen other countries, meeting under the chairmanship of United States Ambassador Robert W. Bingham, were assembled to receive it.

Salient features of Cairns' summary of present conditions and prospects were:

The world glut of stocks on August 1st, despite the 1934 drought, will be about 800,000,000 bushels compared with the 1922-23 average of 625,000,000 bushels.

European countries have slightly increased their acreage. Their crop prospects are above normal and their tendency to self-sufficiency has greatly restricted the markets for the big exporters—Canada, the United States, Australia and Argentina.

Canada, which reduced acreage nearly ten per cent. last year, is expected to reduce another three per cent. this year, and her carryover is estimated at 163,000,000 bushels on August 1st.

Russia may have a slight increase in acreage, but is not expected to take a leading position as an exporter again for many years.

Rumor changes in cabinet of Great Britain

Peers Forecast for Home Secretary, Minister of Health and Secretary for Scotland—Foreign Secretary Post May Go to Eden.

London, May 22.—Frequent visits recently by ministers of the British Cabinet to Buckingham Palace in the midst of reconstruction speculation over cabinet changes gave rise for a time to the rumor that His Majesty had personally intervened to urge continuance of the National Government. Lacking confirmation, the rumor slipped again into the background today.

Stories of probable cabinet changes reappeared, however. It appeared certain that cabinet reconstruction is imminent. The birthday honors list which creates new peerages will be the first official indication. On that political prophets are agreed. But who will replace who in the reconstructed cabinet is a different matter. The indicated line-ups all differ.

The latest, now running the rounds, implies an invitation to both Sir Austen Chamberlain, former Foreign Secretary, and David Lloyd George to come back to office. Other leading figures in the new cabinet according to this line-up would be:

Prime Minister—Stanley Baldwin, now Lord President of the Council.

Foreign Secretary—Anthony Eden, now Lord Privy Seal.

Secretary for Air—W. G. Ormsby-Gore, First Commissioner of

CLAIMS ONTARIO ACTION HAS COST DOMINION GOVERNMENT HUGE SUM

Premier Bennett Tells House of Commons that Repudiation of Hydro-Electric Contracts Prevented Refunding of Canadian Loan in London at Interest Saving of \$700,000 Annually—Harbor Works Latest Objective of Opposition Blockade—Improvements for Lennoxville Experimental Farm.

Ottawa, May 22.—A challenge to an immediate general election was before the Government today as Liberal members of the House of Commons continued their opposition to the public works bill. The measure calls for expenditure of some \$33,000,000 on government works and railway equipment with a view to giving employment.

No sooner had a long battle over a vote of \$1,000,000 for a tunnel under the entrance to Toronto harbor ended yesterday than the Oppositionists concentrated their fire on a vote of \$2,500,000 for "harbors and rivers generally." They demanded precise information from Hon. H. A. Stewart, Minister of Public Works, as to how the money would be spent.

Mr. Stewart's answer was he could not give the information wanted. He said the vote was a customary one. It was proposed to make improvements where they were most needed and where men were in need of work. He could not specify works in advance. Furthermore, this had never been done in the past.

The challenge was hurled across the floor by William Duff, Liberal member for Antigonish-Guysborough, after Hon. R. J. Manion, Minister of Railways, had accused the Liberals of blocking a bill which would give work to unemployed. Mr. Duff said Dr. Manion should go to Prime Minister R. B. Bennett at once and get him to dissolve Parliament and bring on the election in June on the issue of the public works bill.

"The only reason we voted against that tunnel is because it is Tory Toronto," said Mr. Duff in a parting shot before the House adjourned.

Prime Minister R. B. Bennett was confronted with a number of questions when the House met in the afternoon.

A question about the Vancouver relief camp strikers drew from him the declaration the Dominion Government had always been and was now ready to discuss with the British Columbia Government any matter connected with the strike and to provide any assistance the province needed to maintain order. If conditions developed into order, if disorder, it would be because the province had not requested assistance.

Under the law, he said, the Dominion could do nothing without a request from British Columbia. It could neither enforce the criminal law nor take steps to preserve order. Additional police had been asked by the province and had been provided.

Communications had come from Mayor G. G. McGeer, of Vancouver, but the Dominion had no right to deal with a municipality except through the provincial government.

The relief suggestion emanating from Mr. McGeer and Premier T. D. Pattullo had been an intimation the Dominion Government should provide work and wages by means of an inflation of the currency.

Five new bills will be introduced in the House this week, Mr. Bennett said. Some of them arise out of the price spreads and housing inquiry and there is another one to enable the Government to deal in exchanges of countries with depreciated currency exporting goods to Canada. It is understood the measure is a one at adjustments of trading conditions between Canada and Japan.

Answering another question, Mr. Bennett said the Government would proceed with the bill to establish a grain board when other pressing business had been attended to.

Action in annulling the Quebec power contracts had all but destroyed Canada's credit in London, said Mr. Bennett. Had it not been for that the Dominion could have refunded a loan of \$28,000,000 maturing in England at an annual interest in interest charges of \$700,000.

The recent \$60,000,000 loan had been largely taken up by private investors and not by banks and insurance companies as had been reported, said Mr. Bennett. A small proportion than in any previous loan went to large buyers, only 16.1 per cent.

Today the House continues with the public works bill with prospect of slow progress.

"If by any accident the bill should go through before six o'clock we will take up the rate of housing," said Dr. Manion as the House adjourned last night.

Following final passage of the tunnel item the committee turned to another proposal in the Public Employment Relief Bill which called for the outlay of \$500,000 on buildings and improvements under the Department of Agriculture. The Minister, Hon. Robert Weir, was subjected to close questioning about the proposed outlays in various localities, and in answer, a query of Charles B. Howard, Liberal member for Sherbrooke, Mr. Weir said that \$5,000 was to be spent on a new horse barn at the Lennoxville Experimental Farm. The Minister then explained some of the items in the list for Western Canada, but this brought from the former Minister of Agriculture, Hon. W. R. Motherwell, a protest as to the form of the general expenditure and the delay in making these provisions.

"There is a significance about the spending of this money," said Mr. Motherwell. "Apparently my good friend, Mr. Weir, has been saving up his money for the last four years in order to make a final splurge this year. I hope I am not doing him any injustice; it may be only a coincidence. I hope he will not suffer any disappointment. I think the people will appreciate the expenditure."

CLAIMS OTTAWA HOLDS REMEDY FOR PROBLEMS

British Columbia Premier Urges that Dominion Government Exercise Control Over Banking and Currency to Provide "Work and Wages" for Unemployed and Remove Danger of Trouble.

Vancouver, May 22.—"With regard to the maintenance of law and order, we are of course quite apprised of our responsibility and we propose to meet it," Premier T. D. Pattullo, of British Columbia, said in a statement here last night. He was referring to statements in the House of Commons by Prime Minister R. B. Bennett in which the latter was reported as saying primary responsibility for maintenance of law and order rested with the province, but that in event of need the province might call upon the Dominion.

"What our government is trying to do," said Mr. Pattullo, "is to create a condition which will remove ground for complaint in the minds of reasonable people."

"The breaking of heads and the destruction of property will not solve the problem."

Dealing with the further reported statement of the Prime Minister that the only assistance asked by British Columbia was provision of work and wages involving inflation, the Premier said:

"The course which I have many times recommended to the Prime Minister of Canada and his government does not involve unwise inflation, but it does provide for the carrying out of necessary and essential public works and enterprise, and assistance to the private endeavor, for two very special reasons:

"1.—That present capital expenditure in relation to past expenditure on railways, concurrent private endeavor, and that international trade has

would have asked for a stay of delivery and revision of the terms of the contract.
"I appreciate the support received from my colleagues and members of the House in taking the course of action which we believe and still believe to be in the public interest," "We find Bennett back where he started—in the Tory camp—and realize the insincerity of his recent speeches," he continued.
"It is the best thing that ever happened to us politically. It shows Bennett in his true light—born a Tory, die a Tory."

Hepburn believed the Prime Minister's statement would be "embarrassing" to those desiring a "Stevens-Bennett coalition."

"I judge Stevens is fighting the very grant of special privileges that we are fighting," he declared.

DOMINION POLICIES BLAMED FOR VANCOUVER ACTION
Vancouver, May 22.—Policies of the Dominion Government were blamed by Mayor G. G. McGeer for actions taken in Vancouver in seeking reduction of bond interests.

The mayor commented yesterday on Prime Minister R. B. Bennett's statement in the House of Commons that this action and that of Ontario in voiding over contracts had destroyed Canada's credit in the United Kingdom.

"I have no hesitation in saying that whatever actions were necessary were due to deplorable conditions now existing throughout the Dominion which are due to the misguided and unsound policies which Mr. Bennett has put into operation."

"After five years of Mr. Bennett's leadership, our railways are bankrupt, our international trade has fallen to inconsequential levels, our provinces and our municipalities are hopelessly in doubt, our taxpayers are unable to meet their obligations, confiscation by taxation and mortgage is the order of the day, destitution is the lot of the masses and armed force is necessary to maintain constituted authority."

The Illinois hamlet of Cedarville alone knew of her birth on September 6, 1860. Before her life span was much more than half completed the world was heeding the voice of an humanitarian whose passion for peace and justice became known from the tenements of Halsted street to the tribunals of nations at Geneva.

Miss Addams was militant against what she called "the stupid atrocities of contemporary life, its arid waste, its meaningless labor, its needless suffering and its political corruption." Particularly was her influence felt in the fight for abolition of the scourge of war.

been more than cut in two by tariff restrictions.

"The question is, how are we to employ our people, in the light of conditions. Private endeavor is going as far as it can. It is obvious, therefore, that something must be done governmentally. Extension of external trade takes time. Meantime there are many things which can and should be done internally which would profitably employ our people, remove ground for discontent and strengthen morale."

"The Dominion is in control of currency and banking. Instead of encroaching upon provincial authority in various directions, without consultation, the Dominion would do well to exercise the authority which has and by reason of this authority fulfill the responsibility which indubitably rests upon it."

WARM WEATHER AIDS PARIS DRESSMAKERS IN WALK-OUT

Thousands Screaming and Shouting Midnettes Clashed with Police in Attempt to Picket Fashionable Dress Establishment.

Paris, May 22.—One thousand screaming and shouting midnettes, on strike in protest against wage reductions, jammed the street beside the Ministry of Marine yesterday in an attempt to picket a fashionable dress house.

Police were given a busy half-hour handling the feminine demonstrators, but they finally were dispersed.

The host of pickets found little difficulty in persuading others to join their ranks since yesterday was the first clear warm morning in many days and the dressmakers' assistants were quite willing to remain away from their tasks.

The few who went to work asked flying squadrons of police to conduct them through the jeering and kicking strikers. At one time the midnettes threatened to direct a powder puff barrage against the gendarmes, but desisted upon the arrival of reinforcements.

TRADITIONALLY TORY SEAT RETAINED BY GOVERNMENT

Sir James Thomson, National Government Candidate, Elected to South Aberdeen Vacancy.

Aberdeen, May 22.—The National Government retained the traditionally Conservative seat of South Aberdeen in today's bye-election with a reduced majority. Sir James Thomson, National Government, received 20,925 votes and Joseph F. Dundan, Labor, 10,760, a Government majority of 10,165.

In the last elections Sir Frederick Thomson, father of the new member, had a majority of 27,301 in a straight fight with Labor. The bye-election was necessitated by Sir Frederick's death.

MANY BRILLIANT SPEAKERS AT ROYAL SOCIETY ANNUAL

Ten Valuable Fellowships Were Awarded by Royal Society of Canada to Canadian University Graduates.

Hamilton, Ont., May 22.—The annual meeting of the Royal Society of Canada entered its second day here with an assemblage of the Dominion's foremost minds in science, education, the professions and the arts prepared to contribute papers and addresses.

Among those to be heard today and tomorrow are Sir Frederick Banting and Dr. C. H. Best, co-discoverers of insulin; Meldrum Stewart of Ottawa, head of the Astronomical Service of Canada; Charles G. D. Roberts, writer and naturalist; A. H. Reginald Buller of Winnipeg, authority on fungi.

Last night ten fellowships valued at \$1,500 each were awarded to outstanding Canadian university graduates. Hon. Vincent Massey, former Canadian Minister to Washington, was made an honorary fellow of the Society.

LABOR CONGRESS PLANS IMPORTANT DISCUSSIONS

Unemployment Among Young Persons, Holidays with Pay and Reduction in Working Hours on Agenda of International Labor Conference.

Montreal, May 22.—Unemployment among young persons, holidays with pay and reduction of hours or work are three of several items on the agenda paper of the nineteenth session of the International Labor Conference which opens at Geneva June 4 next of especial interest to Canadian workers.

P. M. Draper, secretary of the Trades and Labor Congress of Canada, stated here today. Mr. Draper sails for Geneva tomorrow.

The International Labor Office has estimated that there are about 25,000,000 persons unemployed throughout the world. Mr. Draper remarked. About one fourth of this number, or between 6,000,000 and 7,000,000 are young people. A feeling of reaction was setting in, Mr. Draper declared, against the sufficiency of relief without work.

As an additional remedy for unemployment, Draper revealed the forty-hour week will be discussed at the conference. The idea is, he added, to propose its immediate application to public works undertaken or subsidized by government and also in the iron and steel industry, building and contracting, coal mining and glass bottle manufacture.

PROOF OF ADVANTAGES OF HEREDITARY ENVIRONMENT

Young Student Follows in Footsteps of His Brother and Sister by Winning Highest Award at Halifax Academy.

Halifax, N.S., May 22.—The advantages of hereditary environment which Professor H. L. Stewart expounds each year as professor of philosophy at Dalhousie University were given proof by his son, Leslie, at the closing exercises of Halifax Academy.

In winning the Jack Cornell prize, highest award given to students at the Academy, he followed the footsteps of his brother and sister in the two previous years. In 1933 Edward Stewart won the same prize and in 1934 Sheila, their sister, won the Edith Cavell award, presented annually to the outstanding girl student at the school.

Jews apparently will be barred from military service except in special cases. One year of labor service is a prerequisite for military service but young Germans are not called to arms before the age of twenty.

Catholic clergy with the rank of sub-deacon and higher, and persons declared physically unfit after an examination, will not be drafted. Aryan descent, the law asserts, "is a prerequisite for active military service."

Exceptions to this rule will be made by a special board. Aryan members of the army and reserves were forbidden to marry non-Aryans and obligations of Jews during war will be subject to special regulations. Germans with foreign citizenship in addition to their German citizenship must serve in Germany, even if they have had military training in a foreign army.

Germans living abroad must serve their terms in the Reich. The beginning of their period can be postponed for two years and only in very important cases will exceptions be made.

Persons sentenced for political reasons and prisoners of other persons who have lost their citizenship will not be drafted.

CONCLUDE NOTED CAREERS
The following deaths were recorded in today's press despatches to the Record:

Chicago: Jane Adams, 74, social worker and Nobel Peace Prize winner in 1931.

Colborne, Ont.: Adolphus A. Murphy, 83, father of Hon. Thomas G. Murphy, Dominion Minister of the Interior.

Montreal: Father Anatole Mirault, 65, Jesuit priest widely known for missionary work in Northern Ontario.

Valleyfield, Que.: Hugh A. Wilson, 61, secretary-treasurer of Montreal Cottons, Limited.

Amsterdam: Professor Hugo de Vries, 87, botanist and winner of the Darwin Medal in 1906.

TO CONDUCT SECOND PROBE INTO MINE DISASTER

Stellarton, N.S., May 22.—A second inquiry into the explosion at Acadia Coal Company's No. 4 shaft on April 16th in which seven miners lost their lives, will open here today.

The investigation, to be conducted under the Nova Scotia Department of Mines at the request of Allan Shaft Company, will be headed by Deputy Minister of Mines Norman MacKenzie. Special Examiner Rod Mackay conducted the first inquiry shortly after the blast, reporting that he found the misfiring of a shot of explosive responsible.

MONTREAL LIVE STOCK MARKET

Montreal, May 22.—Offerings on the two Montreal livestock markets today totalled 268 head. Receipts were composed of 288 cattle, 58 calves and 12 hogs, including 230 cattle held over from previous market.

Cattle were not moving. Calves were all of common quality and were sold at \$3 to \$3.50. There were not enough hogs to make a market.

The butter market ranged from 20½¢ to 21¢ per lb., and mostly at 20½¢ for No. 1 in carlots or l.c.l. lots. Small lots to the retail trade were quoted by jobbers at 22¢ for solids and 23¢ for prints.

The cheese market was unchanged at 9½¢ to 9¾¢ for No. 1 Ontario, current arrivals.

The egg market was unchanged, with graded shipments arriving in carlots or l.c.l. lots quoted mostly at 19¢ for A-large, 17¢ for A-medium, 15½¢ for B, and 14¢ for C. Some A-large in used cases were available as low as 18½¢. Western prices were mostly 19½¢ for A-large, 18½¢ for A-medium, 17½¢ for B, and 16½¢ for C. Small lots to the retail trade were quoted by jobbers at 23¢ for A-large, 21¢ for A-medium, 20¢ for B and 19¢ for C, in carlots, and 1¢ less when brought loose. Dealers say there are not enough A-1 eggs coming in to form a market.

The market was lower on new potatoes, being as follows: Bermuda, No. 1, \$1.75 to \$1.90; and No. 2 at \$1.50 to \$1.65; South Carolina No. 1, per bbl., \$5.25 to \$5.50; South Carolina No. 2, per 100 lbs., \$2.50 to \$2.75; Florida No. 1, per 100 lbs., \$2.50. Old potatoes were 35-40¢ for Quebec, 42-45¢ for New Brunswick, and 45¢ for Prince Edward Islands, per 80-lb. bags.

The poultry market was steady. Quotations to the retail trade on small lots dressed poultry were as follows on A grade stock. B grade being two cents per lb. less:

ELECTRIC EEL OFFERING THREE DISPLAYS DAILY

Thousands of Persons Daily Witness Performance of New York Aquarium Inmate in Emitting Current Enough to Light Neon Bulb.

New York, May 22.—The aquarium's electric eel—which supplies electric current to light a neon lamp—went on a three-a-day schedule today.

Aquarium officials said they did not want to weaken their "ethological" power plant.

For the last week the eel has discharged electric current for gapping onlookers to light the bulb with a device fashioned by the aquarium experts.

Once the shock was strong enough to fell C. W. Coates, one of the experts, when he touched a short-circuited wire, a his supercharged friend turned loose a charge.

PUBLIC NOTICE.

PUBLIC NOTICE is hereby given to the municipal electors of the Centre Ward of the city of Sherbrooke that the nomination of candidates to the office of alderman to seat number two, Centre Ward, to replace Mr. Orlus Mailhot who has resigned, shall take place at the City Hall on Wednesday, the 29th day of May instant (1935), between the hours of ten and eleven in the forenoon.

That, if there is more than one candidate to that office, the polling will be held on the following Wednesday, on the 5th day of June, 1935, between the hours of nine in the forenoon and nine in the afternoon, in each of the polling subdivisions of the ward.

That I have appointed Mr. Leon Darche, residing at 99 Council St., Sherbrooke, Que., my Polling Clerk.

GIVEN AT Sherbrooke, Que., this twenty-first day of May, 1935.

Country and Dairy Products Prices

Montreal, May 22.—Prices were generally steady on the Montreal produce markets yesterday. Trading was generally quiet. Poultry demand, however, has been very good for the past week, some good local sales of chickens being reported. The first local auction of butter this season will be held today at the Board of Trade at 12:30 noon. Between 700 and 800 boxes of butter will be offered to the highest bidder. No cheese will be offered this week.

The butter market ranged from 20½¢ to 21¢ per lb., and mostly at 20½¢ for No. 1 in carlots or l.c.l. lots. Small lots to the retail trade were quoted by jobbers at 22¢ for solids and 23¢ for prints.

The cheese market was unchanged at 9½¢ to 9¾¢ for No. 1 Ontario, current arrivals.

The egg market was unchanged, with graded shipments arriving in carlots or l.c.l. lots quoted mostly at 19¢ for A-large, 17¢ for A-medium, 15½¢ for B, and 14¢ for C. Some A-large in used cases were available as low as 18½¢. Western prices were mostly 19½¢ for A-large, 18½¢ for A-medium, 17½¢ for B, and 16½¢ for C. Small lots to the retail trade were quoted by jobbers at 23¢ for A-large, 21¢ for A-medium, 20¢ for B and 19¢ for C, in carlots, and 1¢ less when brought loose. Dealers say there are not enough A-1 eggs coming in to form a market.

The market was lower on new potatoes, being as follows: Bermuda, No. 1, \$1.75 to \$1.90; and No. 2 at \$1.50 to \$1.65; South Carolina No. 1, per bbl., \$5.25 to \$5.50; South Carolina No. 2, per 100 lbs., \$2.50 to \$2.75; Florida No. 1, per 100 lbs., \$2.50. WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL
And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sick, and the world looks pink, don't think that a large cleaning out of the bowels will make you suddenly sweet and buoyant and full of sunshine. It can't! It can't! You know it can't give you any lasting relief. For a reason for your down-and-out feeling is your liver. It should pour out two pints of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes these good, old CARTER'S LITTLE LIVER PILLS to get these two pints of bile flowing freely. It should pour out two pints of bile into your bowels daily. It can't! It can't! Why DOCTORS warn you against the Cathartic Habit!

Compare these TWO WAYS of fighting constipation

OLD

YOU TAKE any one of the laxatives or cathartics on the market. In one average drug store alone, there were 312 such items on sale.

WHAT HAPPENS: If the cathartic or laxative you take is potent enough, it irritates the delicate lining of your intestines, draws water from your tissues—or otherwise promotes an "unnatural" bowel evacuation.

RESULT: You may get a partial or complete "cleaning out"—perhaps accompanied by griping. Such results are purely temporary... and may ultimately weaken your entire digestive system—lead in time to the "cathartic habit."

NEW

YOU EAT 2 or 3 cakes of Fleischmann's Yeast daily, half an hour before meals or at bedtime—plain or in water. You get it at grocery stores, drug stores, or at restaurants or soda fountains.

HOW IT WORKS: It starts your digestive juices flowing and strengthens your entire intestinal tract... promoting a healthier, more active condition all through you.

RESULTS: You feel better. Your appetite and digestion improve. Food does you more "good." And as you continue with the yeast, your evacuations become entirely regular and natural... you don't need to take harsh cathartics.

THE OPINION of doctors on the "cathartic problem" is expressed by Dr. Erwin Pulay (left of Vienna): "These remedies (cathartics) have a purely artificial action," he says. "—harsh and harmful to delicate tissues... Their use cannot be too emphatically condemned... I recommend fresh yeast."

Dr. Pulay is a member of the Austrian Society of Physicians.

Read about this remarkable "digestive activator" method which corrected 93% of constipation cases in one hospital

NO longer need you be satisfied with violent methods of fighting constipation. For a remarkable new way to treat it is now in use... a way that is giving truly phenomenal results in correcting it.

It is called the "digestive activator" method because it supplies to your stomach and intestines a vital tonic substance these organs themselves produce, when healthy.

This substance almost immediately "tunes" your digestive system, strengthens it. Food inside you is softened. Bowels have an easier time in disposing of their waste.

In one great Eastern hospital, 93% of cases of chronic constipation were corrected by this method... in others, 83% of cases of indigestion and 89% of skin cases of digestive origin got relief!

To get these results which Fleischmann's Yeast is giving, just eat two or three cakes (or more) of it daily—cutting down gradually on cathartics as the yeast strengthens your bowels.

But—don't look on Fleischmann's Yeast as a medicine. It's a food, and should be eaten right along.

START eating it today!

Meditations on a Mountain Top.

Betty L. Cole.

I climbed a snow-capped mountain, step by step,
And sat down panting at the top.
I saw below me in the green and sheltered vale,
The simple farmer folk at work on crops.
Those buxom dairy maids, swinging shiny-milking pails,
Approaching lowing cows, where tall grasses grow,
While I, atop the mountain, like a king upon his throne,
Gazed enchanted, on the peaceful scene below,
And like a king, I longed for such a home,
Where honest toil and simple pleasures rule.

There Is Stern Warning in This Viewpoint.

Speaking for the agriculturists, C. W. Peterson, of the Farm and Ranch Review, has given the farmers' viewpoint on the Canadian National Railway problem, which is taking each year from the taxpayers of Canada over \$90,000,000 in deficits, and is at all times calling for more to make the necessary reparations from wear and tear. In a recent review of the awesome situation, the Editor concludes:

"Of course, there would be many objections to amalgamation of management. Well-paid employees fear losing their jobs. Their sole idea of railway operation is, that the enterprise exists merely to create employment at the taxpayer's expense. Sound economy is a secondary consideration. Prospective rate decreases are of no interest to them at all. But they probably would not be badly hurt under amalgamation. The normal turn-over in railway services is considerable and would gradually absorb them all. In the meanwhile, arrangements could doubtless be made to employ many on short time, so as to carry them over the waiting period without the sort of hardship most of us are labouring under just now.

"The whole abominable railway mess demonstrates clearly the danger of democracies entering into active business undertakings on the grand scale. Once they are in, they seldom get out again, no matter how disastrous has been the experience. Public opinion glorifies these reckless enterprises for a time, and the glamour wears off slowly. "Governments are there to control business. They are not organized to conduct business. A lamentably long record of failures the world over proves that conclusively, even if we did not have sufficient proof in Canada.

"I am not unwilling to believe that there is not a man in public life to-day who is so lost to common business sense that he would not admit, privately, that complete unification of railway management is the only feasible way out, that the very idea of peaceful and effective co-operation in the interest of general economy between the two highly competitive systems is ridiculous and impossible. Yet, he would not dare to say so in public.

"This 'pussyfooting' attitude towards a problem which involves the gravest national issue of our times, is a serious reflection on the whole scheme of democracy.

"Complete unification of railway management is bound to come, because there is no feasible alternative. We will probably delay taking this drastic, but necessary, step until we have lost some few additional hundreds of millions of dollars of the taxpayers' money, simply to pander a little longer to prejudiced public opinion.

"The singular fact confronting us is, however, that we are obviously facing a major financial crisis in Canada, and that a business-like solution of the railway deficit problem is our only chance to escape otherwise inevitable chaos. We should all do some straight thinking on this issue."

This same view is that which is held by all farmers, and unless something is done, and that right quickly, to rid Canada of this octopus with the omnivorous appetite for our tax money, they will be again the government to a man. To be sure, the other party may be no better, but one only spunks the child who does the better. Even though the silly onlookers may just laugh and play the same game.

More Team Work Wanted.

What is required at the present time more than anything else in order to overcome the depression is an intelligent co-operation between the different groups of our industrial and commercial executives. There is no doubt that unless these executives exercise, without further delay, their influence in bringing about an adjustment in our economic derangements, the depression will be protracted indefinitely and may even become worse.

These industrial and commercial executives must surely take notice of the writing on the wall that no system of mere relief, which does nothing more than support the helpless population in a dependent position—either through doles or public works, that compensate neither the government coffers nor the taxpayers for such unproductive and untimely expenditures upon them—can possibly take the place of the free and natural system of self-supporting industry.

The capitalist system, as it has existed since

primitive ages, has been essentially co-operative, consisting of an exchange of goods.

The farmers in the fields produce food for everybody. The workers in silk factories and textile mills make goods and cloth for the clothing industries which in turn are exchanged for the products of the farm and the wages of the workers.

All these goods are distributed throughout the country by the workers upon the railroads which convey them to and fro in the exchanges between one group and another.

The great bulk of all these products is distributed into the homes of the workers who operate the industries, and who, together with the farmers and all our other producers, receive and create roughly eighty-five per cent. of our national income.

The capitalistic system cannot function without co-operation between all its parts, and as every group receives benefits from it, everybody owes loyalty to it and to each other in the same spirit that every part of the British Empire owes loyalty and love to our King, as well as between every component part of His Majesty's Realm beyond the Seas.

There must be "team work" throughout the whole of our system or there will inevitably be more confusion and unemployment.

There will be no recovery until our business executives get together and formulate "team work" policies that will re-establish throughout the system normal exchange relations and that will determine the effectiveness of all public works and relief expenditures as influences upon National recovery.

The unemployed and all the people of our country must rely upon the knowledge, experience and honesty of purpose of our business executives to save our country and its people from the ravages of further depression.

Some Wild Statements.

One politician says that thirteen men in Canada control the financial affairs of the whole Dominion. He is like the average gossip who never can tell you what he did not name the thirteen, nor attempt to do so, but just made the demagogic guess in the hope that he would not be called upon for proof.

Every bank head in the country represents his shareholders' and not his own personal views.

The coming election campaign promises to produce a more than average crop of boomerang talkers who think it clever to create a roarback. This is the name given to an untrue report published for the purpose of influencing the voters at an election. It is usually reserved for last moment consumption, when the voters will have no opportunity to refute it. Only the gossips are gullible victims.

Editor's Note Book.

With fifteen vacancies in the Senate, all caused by deaths during the past two years, the Prime Minister can deal out some "rich" rewards to partizan workers. These are situations for life, with good behaviour can be so held. Unless appointments are made within a short time there is a likelihood of the Governor-General disallowing them, should the present administration not be sustained at the poll in the coming general election.

The Wheat Pool produced so many weak sisters in commerce that they had to seek the stolidity of a government dictator. Yet the wheat producers were taught to think that all their ills came from a few spavined highlanders on the Chicago or Winnipeg Wheat Markets. Makers of money in gladiolus lumps fear to give any money away or to do one good deed each day lest they be called malefactors of great wealth.

"Yankee" is an epithet, and is, therefore, disliked; "American" is a misnomer when it refers to our Yankee neighbours, but we adopt "United Stateser" because it is efficient, and cannot be construed as other than an effective description of our neighbours, who are cousins always, but never quite sensible when it comes to trading or playing marbles.

It is quite unfair and unsportsmanlike the way the sports writers are riding Babe Ruth, who is awaiting the warm weather to limber up his aging legs, but who can still take every chance in the field and can keep pace with many others in base hits. Some writers are evidently trying to get his goat, whilst the younger sports editors fail to diagnose their ghastly purpose towards the idol of the small boys. They are still loyal to the old King of Swat.

Experience is one teacher that cannot be bribed with a red apple.

THIRTY YEARS AGO TODAY

From the Files of the Sherbrooke Record.

May 22nd, 1905.

In a desperate attempt for freedom, a prisoner set fire to the Sherbrooke jail, but the blaze was discovered before his plan had a chance to catch.

Col. E. S. Bernard was named president of the Richmond Agricultural Association to succeed E. N. Evans.

William Wharram, of Compton, was seriously injured in a bicycle accident, lock-jaw developing from his injuries.

Considerable damage was caused to vegetable crops by a belated spring frost.

The Barnston Woolen Mills started operations with F. H. Nunn in charge. Gone!

Harry Smith, of New York, was visiting his old home in Waterloo.

Marriage reported: At Compton, Miss Nettie Benoit to Mr. F. Meunier.

Birth reported: At Scottstown, a daughter to Mr. and Mrs. Robert Scott.

Mr. and Mrs. E. Berwick, of Sherbrooke, left to spend several weeks in Gorham, Maine.

Another Indictment Against The Government

J. G. de Lorimier, K.C.

The politicians at Ottawa have resumed, after a spell of yawning at home for a few weeks, their silly and futile activities in promoting further expensive, untimely and insane legislation that will prove to be, in the long run, mere Utopia and will of wisps. We can only hope they have kept their ears to the ground, and have gotten an earful.

Our repeated warnings to business executives and people to "get together" and to tell the comedians at Ottawa where they must go and what they must do, have only begun to be translated into the form of indictment and drastic action by them.

The Gullivers are real mad and disgusted with the childish pranks of the Lilliputians in control at Ottawa and have finally awakened to the fact that the strings which have kept them tied down must be cut, and the bits buried in the back-yard garbage heap.

The retiring President of the Quebec Canadian Manufacturers' Association, Louis Armstrong, who is one of Canada's most successful and outstanding business executives, did not mince his words in telling the business men that the orgy of taxation in this country must be halted if the capitalist system were to be saved and the people rescued from the demoralizing consequences of unemployment, which was caused by the uneconomic and wrecking policies pursued by the governments.

If we were to republish today all the statistical data and information which the Record has divulged for the benefit and knowledge of the people, and the explanations of the dreadful financial plight in which our country finds itself now, the indictment of charges made by Mr. Armstrong against the wasteful policies of our governments would appear to be very mild in form and substance.

However, the wise actors at Ottawa should begin to understand the meaning of Mr. Armstrong's "Notice to quit and get out," and leave the management of our national business affairs in the hands of men who have experience in the formation and execution of sound, practical and honest business administration.

I have much pleasure in drawing to the attention of the people, for their most serious consideration, the irrefutable statements of fact made by Mr. Armstrong, who said:

"Industry today stands before the bar of public opinion accused of the high crime of capitalism. With many of us, the tremendous capital which we are supposed to control consists largely of debts, which must be paid, and a new form of punishment is now proposed by which these debts will be taxed. This high crime is a very old one. It consists of men and women investing the savings from their earnings in a business adventure hoping to secure from the profits of that investment a reasonable return on their money, taking into consideration the risks of the adventure.

"What is a fair return on invested capital, considering the risks of the investment, is something which can be and often has been measured and determined. I wish to make what to many may be a very surprising statement, which is nevertheless true. Except in cases of exceptional industries, and in times of exceptional conditions, the large majority of manufacturing concerns not only now are not receiving, but never have received, that measured fair return on their investment, which they have had reason to expect.

"That individuals have profited unduly at the expense of investors of capital through misconduct of a business concern's affairs, and through means which cannot be justified, must not be permitted to prejudice the methods of industry as a whole any more than we should consider the abolition of governments because there may have been at times misconduct or incompetency in the conduct of governmental affairs.

"Let us get and keep one thing firmly in mind. When restrictions and burdens are placed upon industry the cost of production is increased and the margin of profit reduced. Correspondingly the return to investors is and must be lessened to the point where there is a withdrawal of capital from industry. To maintain a proper margin of profit, or any profit at all, the manufacturer must increase the price of his product which increased price must be borne by the whole people. Or he must reduce his cost of production, most generally by reducing labor costs, thus adding numbers to the unemployed, the burden of which directly or indirectly must be borne by the whole people.

"Industry is working hard today to meet problems of first importance. It is most unfortunate that it should be called upon at such a time to defend itself constantly from the attack of burdensome and restrictive legislation. Industry is attempting to increase its business by economy, research and the effort of its best thought. Increased business means increased employment and helping to solve, by National means the great problem of unemployment.

"It means the preservation of plants from depreciation and obsolescence and the building of necessary extensions of existing plants to

provide for new or greater production.

"It means the preservation of communities and trade built up around industrial establishments.

"It means the preservation of credit and prevents the loss of capital and adds, through trade, to the wealth of the whole country.

"Far be it from us to condemn individuals or political parties, to question their motives or to subject them to unbridled criticism. But governmental tendencies in city, province, Dominion are such as to cause industry grave concern.

"Those who may be responsible for such tendencies we call to that same bar of public opinion and charge:

"The basis of social relations is the contract. The observance of the laws for which you are responsible and which you make yourselves is an implied contract we make with each other. When you fail to respect the sanctity of a contract, how can you expect the people to respect and observe your laws?

"We have helped to elect you as our representative, in the conduct of our public business. Our investors and our employees constitute a large part of your people. We charge that you have failed to represent and protect the interests of a very considerable part of your people by imposing upon them unnecessary restrictions and burdensome taxation.

"We charge that in dealing with matters of taxation, highly intricate problems requiring study and consideration, you have acted without any attempt to find facts and have dealt hastily with measures resulting in loosely drawn and ill-considered legislation.

"We charge that you have failed to seek help from industry in dealing with matters affecting industry, and that you have not co-operated with us in matters where the interest of private business and public business should have been the same.

"We charge that you have failed to follow the example of industry in economy of expenditures.

"We charge that in the departmental interpretation of laws and in creating regulations under powers given you by law you have been guilty of interpretations and regulations beyond any authority ever intended to be given you and have been guilty of exceeding your powers and usurpation.

"Lastly, let us call ourselves as individuals to the bar and charge that what governmental tendencies are, we have ourselves been responsible for them, because we have been responsible for the governments.

"What are we going to do about it?

"To accuse anyone of you of a lack of interest in governmental affairs would, undoubtedly, be kind of interest is our interest? Is it the interest of the critical, of the fault finding, an indefinite, and an inactive interest?

"That is not enough. Interest to

be real interest should have the enthusiasm behind it which inspires to action. It should be the kind of interest which amounts almost to a religious fervor.

"May I suggest to you that you spend some little part of the summer holiday unselfishly in asking yourself: What am I personally going to do about it? And may I suggest too, that you start by measuring the quality and degree of your own enthusiastic interest."

We have inscribed and added "summa cum laude" to the name of Louis Armstrong on our list of Business "Privy Councillors," whose names we published in our urgent appeal of December 21st, 1934, requesting that a National Business Government be formed without delay.

MOISTURE CONDITIONS ARE MOST FAVORABLE IN YEARS

Winnipeg, May 22.—A ten per cent. reduction in wheat acreage, the best moisture conditions in years and a sowing season ten to thirty days later than usual was shown in the first Winnipeg Free Press crop report of 1935.

Not for four or five years have moisture conditions been as satisfactory in the "dry" areas of the three Prairie Provinces as this spring, says the report. Moisture penetrates to a depth of eighteen to twenty-four inches, enough for immediate needs.

An acreage reduction of ten per cent. was estimated, chiefly in the dried-out areas of southwestern Manitoba, southern and central Saskatchewan, Northern Saskatchewan and north central and northern Alberta. It was estimated the acreage seeded to wheat would be reduced 329,600 acres, from 23,296,000 to 20,966,400 acres.

WEDDING GIFTS POUR IN FOR SWEDISH PRINCESS

Stockholm, Sweden, May 22.—Wedding gifts for Princess Ingrid flooded the Stockholm Palace today as the time approached for her marriage to Crown Prince Frederick, of Denmark, next Friday.

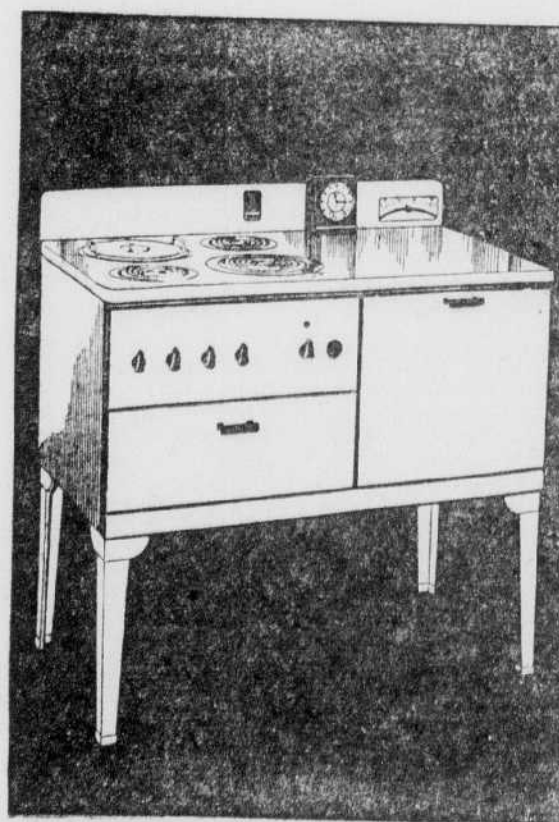

From her grandfather, the Princess received a seventeenth century brooch of diamonds and pearls originally owned by the father of Frederick the Great. It was later worn, according to history, by all the queens of Prussia.

Ingrid's father, the Crown Prince of Sweden, gave his daughter a modern platinum brooch set with 238 brilliants and 444 rose diamonds.

Boston, May 22.—Attorney General Paul A. Dever has announced that, of \$21,000,000 invested in securities of two corporations dominated by Rowen C. Tuf's before the millionaire banker committed suicide, less than \$100,000 now was available to be turned back to the investors.

Dever made his statement last night after a conference with the receivers for the firms, both affiliated with C. D. Parker and Co., of which Tuf's was a controlling factor.

it's FINE either way!

It's so handy to have a package of Kellogg's ALL-BRAN in the kitchen. Serve it as a cereal. Use it also as a wholesome ingredient in your muffins, breads, omelets, waffles, etc.

Kellogg's ALL-BRAN supplies "bulk" to aid regular habits. ALL-BRAN is also rich in vitamin B, as well as iron, an element of the blood.

"Two tablespoons daily will correct common constipation, due to insufficient bulk in the diet. In severe cases, with each meal. If not relieved this way, see your doctor."

The "bulk" of ALL-BRAN does not break down during digestion as does that of leafy vegetables, and is therefore more effective for furnishing the needed "bulk." It is a delicious laxative food... far better than patent medicines.

LOCAL SCOUTS EAGER TO MEET BADEN-POWELL

Approximately One Hundred and Seventy Scouts, Cubs and Rovers from Sherbrooke and Lennoxville Journeying to Montreal to Take Part in Monster Rally at Forum.

Approximately one hundred and seventy Boy Scouts, Cubs and Rovers from Sherbrooke and Lennoxville will journey to Montreal on Friday to take part in the monster rally at the Montreal Forum, which will be graced by the distinguished presence of Lord Baden-Powell, Chief Scout of the World.

The happy throng will leave Sherbrooke at nine-thirty Friday morning and will return during the evening. The Forum rally is being held from three to five o'clock in the afternoon.

The mass gathering will be attended by Scouts from all over the province, every district making a contribution. The Sherbrooke Scouts will give a demonstration of rope spinning as their portion of the afternoon activities.

Lee Audet, president of the local Association, Lewis Rosenbloom, the vice-president, and Harry Grundy, secretary, as well as twelve local leaders, attended the Scout banquet at the Windsor Hotel, Montreal, last evening.

MEMBERSHIP CAMPAIGN HIGHLY SUCCESSFUL

The membership campaign launched this year in response to the challenge of the Chief Scout of Canada, His Excellency the Governor-General, in connection with the visit to Canada of Lord Baden-Powell, has now come to a successful conclusion so far as this district is concerned.

When the campaign was launched a committee was named comprising District Scout Master C. G. Price, chairman, Lyn Trussler and George Lake, together with the two assistant commissioners, Rev. C. E. S. Brown, of East Angus, and C. D. Porter, of Granby. Later C. G. Blake replaced George Lake as secretary.

After reviewing the census for the district, which showed a total membership of less than a thousand, the committee drafted a list of suggested increases for each community in which Scouting existed. This was based on the boy population of each district, and although handicapped by winter roads and other difficulties, very gratifying results have been achieved.

The secretary corresponded with the communities concerned, visits were arranged and literature furnished to enlighten parents and assist prospective leaders. The result was an increase of ninety-three in each of the Scout and Cub sections, as well as an increase of nine Rovers and seven officers.

This brought the present grand total of boys and leaders in the district to 1,215, the highest active membership ever recorded in the Eastern Townships.

To the public it might appear that a greater increase could have been achieved, but the committee, although desiring greater numbers, believe that the standard of Scouting within this district should not be impaired by the addition of too large a number of recruits.

The present census revealed a total of twenty-five Scout troops, nineteen Cub packs and twelve Rover crews in the Eastern Townships. Included in these are ten complete or ideal Scouting groups, each of which consists of a Cub pack of boys from eight to twelve years, a Scout troop of boys from twelve to seventeen years and a Rover crew of boys seventeen years and upward.

In their final message to the leaders the campaign committee have pointed out the possibilities for further expansion in the district and have requested that effort be continued to encourage more boys to join and receive the benefits of Scout training, at the same time reminding them to maintain the high standards taught in the movement that the boys of today might be better citizens of tomorrow for Canada.

He pleaded not guilty, selected trial by jury and was remanded to next Wednesday for preliminary hearing.

JUNIOR C. W. L. ADJOURNED UNTIL AUTUMN

Members of the Junior Catholic Women's League met last evening in St. Patrick's Church hall under the presidency of Miss Helen Wolfe to clear up all unfinished business prior to the summer holidays.

The treasurer gave a very satisfactory report of the Jubilee tea and musicale sponsored by the League, and after the disposition of several items of business adjournment was made until the autumn.

COOKSHIRE'S NEW INDUSTRY

Cecil A. Lefebvre, of the Cookshire Machine Works, was in the city this week, with samples of penholders made in their own factory in that town. This is a new industry, established by two young men of Cookshire who have spent years in technical study, and are now home again with the idea that their home town is as good as any place for a specialty business. The Record has six samples for the first six school boys who will come in and claim one, each one promising to write to Mr. Lefebvre and thank him.

SUING TOWN OF MAGOG

Arthur Halle, of Magog, is suing the Town of Magog on behalf of his minor daughter, Therese Halle, for \$480 damages before Mr. Justice Hector Vernet in the local Superior Court today.

The young girl, according to Halle, was walking along Main street on the evening of March 23rd, 1934, when she slipped on the icy pavement and fractured her left leg. The accident occurred, the plaintiff declares, through the negligence of the defendant corporation in not spreading sand upon the icy sidewalk.

EASTERN TOWNSHIPS DOG ADOPTS YOUNG PIGS

The mother instinct in an animal never becomes more apparent than when their very young offspring are removed. From Waterford, Ont., comes the story of a cat who lost her kittens adopting a young groundhog. Other places tell of hens mothering ducks and of cats looking after the needs of baby rabbits. Eastern Townships animals are evidently determined not to be outdone in their display of domesticity, and on the farm of Herbert Gillespie, on the highway between Asbestos and East Angus, is a large mother dog who has taken charge of two young pigs after losing a litter of pups.

I. O. D. E. WILL CELEBRATE WITH JUBILEE BANQUET

Mrs. W. E. Loomis, Municipal Regent of the Imperial Order of the Daughters of the Empire in Sherbrooke, presided at yesterday's meeting of her chapter in the MacKinnon Memorial. After routine business had been disposed of, the Regent gave a brief resume of proceedings at the National annual convention in Ottawa. Later Mrs. Florence MacLennan, field secretary of the Upper Canada Tract Society, addressed the meeting, appealing to the I. O. D. E. on behalf of the Society's work for the sailors on inland waters.

Immediately following the municipal meeting a special session of the executive of the King George Fifth Chapter was held. After some discussion it was decided to accept the proposition tentatively arranged in Ottawa, that the Chapter sponsor a Jubilee banquet, at which Mrs. George Black will be the guest

HOSPITAL ALUMNAE CONCLUDES ACTIVITIES UNTIL AUTUMN

Disposing of all unfinished business at last night's meeting, members of the Sherbrooke Hospital Alumnae Association adjourned their activities until next autumn.

The meeting was held at the Nurses' Home and was presided over by Mrs. David O'Keefe in the absence of the president, Mrs. Gordon MacKay, who is ill in the Sherbrooke Hospital.

A pleasant social hour was enjoyed at the close of the business session, during which refreshments were served by the hostesses, Miss Ella Morissette and Miss Evelyn Warren.

SHERBROOKE BOY AMONG ACADEMY GRADUATES

Charles "Bud" Mutchler, son of Mr. and Mrs. Walter Mutchler, Montreal street, is among the one hundred and two students of Mercersburg, Pa., Academy who will receive their diplomas during the commencement exercises on June 3.

Mutchler, a member of the Irving Literary Society and president of the U. M. Class this year, has been a member of the Academy since 1933. He is the sprint champion of the Academy team and his influence has been an inspiring example of athletic ability on the track. Mutchler has been directly responsible for many of Mercersburg's track victories.

"RED" MORIN TOOK ANOTHER AUTO RIDE THIS MORNING

His weekly arraignment before the local Magistrate gives Lucien "Red" Morin an opportunity of getting a breath of fresh air.

Morin, twenty-six years old, of Barnston, is co-accused with Kenneth Brown, of Milton, Vt., of the murder of Willis Keith Baldwin, seventy-two years old, of Baldwin's Mills. Baldwin, an ex-member of Parliament for Stanstead County, was slain on April 18th last.

Brown is being detained in St. Albans, Vt., pending the completion of extradition proceedings. Until he is brought to Canada to stand trial for murder, Morin's preliminary hearing will be deferred.

Morin went for another automobile ride this morning when he was taken from the local jail to the Court House to be arraigned before Judge J. H. Lemay. The law requires that he appear in Court every week. The arraignment is nothing more than a formality. It is quickly done and the prisoner is then returned to his cell.

COUNCIL MEETING AS COMMITTEE TO STUDY BY-LAW

The City Council will meet as a committee of the whole late this afternoon, when the proposed by-law calling for a loan of \$85,000 to cover the expenses of a permanent relief during 1935 will be discussed. This by-law encountered strong opposition from Alderman Thibault when Finance Committee Chairman Armitage introduced it at the regular meeting on Monday evening last.

Alderman Thibault could not see any reason for such a by-law. Alderman Armitage could see no other course of action. These actually on city relief must be cared for, Alderman Armitage said, and the only way the necessary money could be secured was through a by-law.

Last year the city borrowed \$100,000 for this same purpose. At that time the by-law, which does not have to be submitted to the rate-payers, was approved without opposition. This year the amount has been reduced by \$15,000.

Indications are that the by-law will be adopted as Alderman Thibault was the only member of the Council to voice any serious objection. City Treasurer Prefontaine will be on hand at the meeting this afternoon to explain the situation and answer any questions.

A short time ago the rate-payers sanctioned a by-law to borrow \$80,000 for street and sidewalk work. This amount was intended chiefly to aid the hard-pressed small rate-payer who, because he owns property, cannot receive money voted for direct relief.

The by-law now under consideration is to cover the general cost of unemployment relief in connection with those who do not own property and are totally dependent upon the assistance given them by the city.

ELEPHANT TURNED ON VETERAN TRAINER

Los Angeles, May 22.—Attacked and gored by an enraged elephant during rehearsal of an act for a motion picture, Joe Reed, veteran circus trainer, died in a hospital early yesterday.

Reed was putting a herd of eight elephants and twelve tigers through the act at the Barnes winter quarters when the elephants stampeded and "Prince," leader of the herd, charged the trainer. He tried to climb to safety on a light pole in the centre of the lot, but the animal breaking loose its heavy chains, gored him three times with its tusks.

Attendants subdued the elephant.

SWP has GREATER HIDING CAPACITY

SHERWIN-WILLIAMS paint covers more surface and covers it better. It contains, in good measure, the high-grade white lead and other valuable ingredients necessary to produce a tough protective film—tough enough to stand up to the extreme rigours of the Canadian climate. Over fifty years' service on property all over the Dominion has proved it.

SWP won't crack, chip or peel. Its colours stay fresh and clear for the life of the paint. It costs less per job because of its exceptional covering capacity. Its long life cuts out the expense of frequent repainting, thus making it by far the most economical paint to use.

When you need paint, look for the famous "Cover-the-Earth" trademark. It is your guarantee of first quality paint products at a reasonable price.

"THERE IS NO SUBSTITUTE FOR QUALITY!"

SWP

For buildings, outside and inside. Leads all others in quality. Saves your property and spares your pocket. Covers more surface; saves labour in applying; lasts for the longest time. 32 popular shades.

MAR-NOT FLOOR VARNISH

Beautifies and protects hardwood floors or linoleum. Easily applied. Dries flint-hard overnight with a brilliant, transparent lustre that enhances the natural beauty of the flooring. Waterproof; and practically scratch proof.

ENAMELOID

The only guaranteed enamel for inside and outside use. Sets sensational new standards of easy application and long-lasting toughness. Flows on easily and levels out into a smooth, even film of amazing durability.

THEIR JOB CALLS FOR FOOTWORK

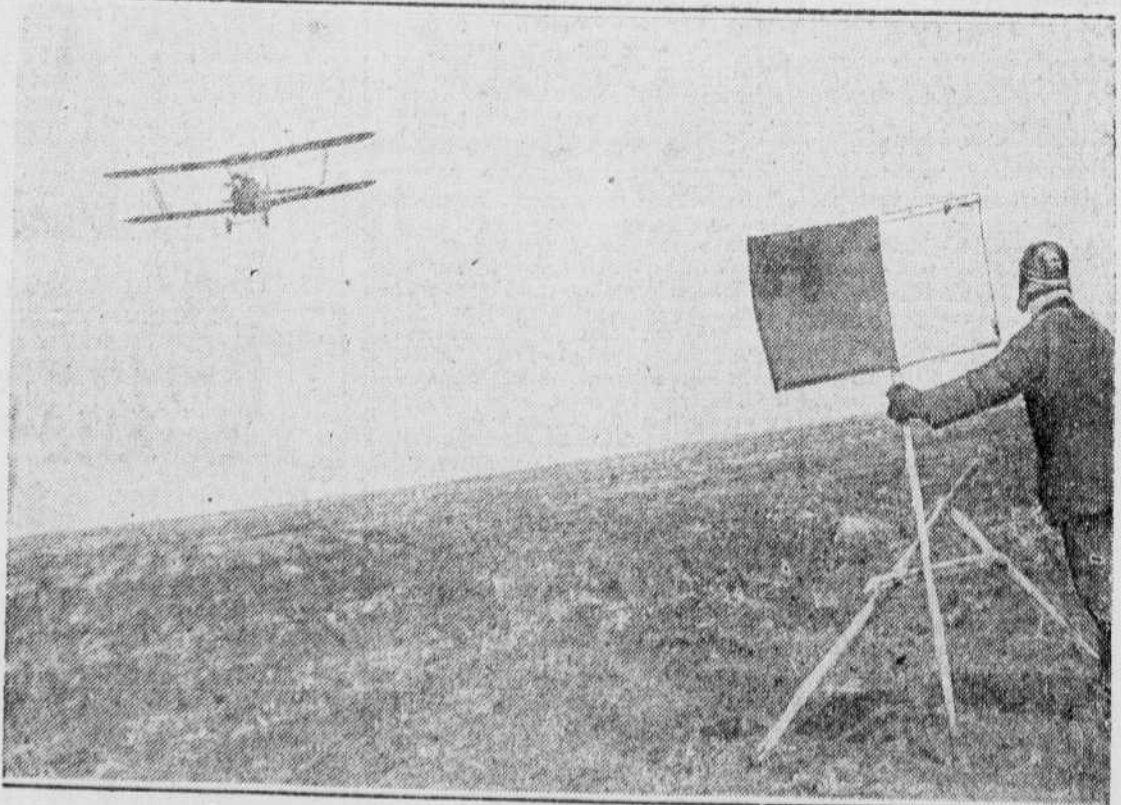

Miss Peggy Robertshaw and Miss C. Davies, of Liverpool, England, claim that their job is the oddest in the world. All they have to do is to walk twelve miles every day in a new pair of shoes. Each attaches a pedometer to her leg. After their day's walk the pedometers are checked and the girls go home. They are testers of new shoes and it is estimated that they walk 3,000 miles during the course of a year. They are shown here having their pedometers checked at the end of their day of walking.

FIRE THAT LEFT NEW YORKERS GASPING

It was not entirely amazement that caused New Yorkers to gasp at this billowing cloud of acrid smoke rising from a seven-alarm fire in a Brooklyn warehouse. The heavy pall of smoke settled over the nearby subway ventilating station and fumes were forced into the tunnels through which thousands were riding. Passengers were overcome miles from the fire, hundreds fleeing from their trains at the Wall Street station. Nearly 200 cough-wracked victims sought first aid at scores of points in the city.

MONTREAL PAIR ELIMINATED IN PARIS TOURNEY

Marcel Rainville and Roland Longtin Defeated by Australian-Spanish Team Yesterday in Second Round of French Hard Court Doubles Championship Tourney.

Paris, May 22.—Marcel Rainville, Canadian singles champion, and Roland Longtin, both of Montreal, were eliminated from the doubles of the French hard court tennis championships yesterday. The Montreal pair dropped a 6-1, 6-3, 6-1 decision to Harry Hopman, of Australia, and Enrique Maier, Spanish champion.

The defeat of the two Montrealers was in a large measure due to their being unfamiliar with the hard surface of the courts at the Roland Garros Stadium.

The German and Japanese Davis Cup doubles teams were victorious. Heiner Henkel and Hans Denker took the measure of France's young stars, Yvon Petra and Pierre Pellissier, by 6-3, 6-2, 6-3, 7-5, while J. Yonagishi and H. Nishimura scored a straight set 7-5, 6-3, 6-4 victory over Benny Berthet and Raymond Rodet, of France, in second-round matches.

Two veteran doubles combinations—Vivian McGrath and D. P. Turnbull, of Australia, and Roderick Menzel and Ladislav Hecht, of Czechoslovakia—had tough battles to advance to the third round. The Australians squeezed through to a 7-9, 6-3, 8-10, 7-5 decision over the Austrians, Adon Bavarowski and George Van Metaxa, while the Czech stars required five sets to down Antoine George and Guy Troncin, of France, by scores of 12-10, 5-7, 4-6, 6-4, 6-0.

KENT SUFFERED FIRST SETBACK AT NOTTINGHAM

Despite Good Attempt in Second Innings, Kent Lost First County Cricket Championship Match to Nottinghamshire by 189 Runs Yesterday.

London, May 22.—Kent lost its first match of the season yesterday in the county cricket championship race, being defeated by Nottinghamshire by 189 runs at Nottingham.

The home team obtained 422 and 224 for seven wickets, declared, Kent replying with 189 and 268. The losers made a good attempt in their second innings, Ames scoring 128 and Ashdown fifty-eight. Freeman took five Nottingham wickets for forty-eight, while A. Staples gathered four Kent wickets for thirty-two. Yorkshire defeated Gloucestershire by eight wickets at Gloucester. In a low-scoring game the northern county compiled 166 and seventy-nine for two wickets, while Gloucestershire made 128 and 116. For Yorkshire Verity secured six wickets for forty-five and Robinson four for forty-three.

Somerset gained its first victory of the season over Essex by an innings and forty-nine runs at Frome. The home players ran up 337 on the first day's play. No play was possible on Monday on account of rain, and yesterday the Easterners were skittled out for 141 and 147. In the Essex first innings Wellard took five wickets at a cost of thirteen runs each. J. Lee in the two innings took nine wickets for 123.

Hampshire won a first-innings victory over Northamptonshire. The scores were: Northamptonshire, 265 and 105 for one; Hampshire, 401 for six wickets, declared. Mead was top scorer for Hampshire with 151, not out, while Boyes had fifty-eight and Potchecary fifty-three. The match was played at Northampton.

A tight struggle between Warwickshire and Sussex at Hove ended in a ten runs victory for the former county. Warwickshire made 272 and 183 and Sussex 183 and 202. Tate bowled well for Sussex, taking seven wickets for fifty-nine runs, while on the batting side J. Langridge hit up seventy runs and Melville fifty-one.

Cambridge University won from the Minor Counties by four wickets; Minor Counties, 195 and 141; Cambridge University, 163 and 174 for six wickets. The match was played on the university grounds.

THREE CANADIAN SWIMMING RECORDS SHATTERED

Winnipeg, May 21.—Three new records went into the Canadian Amateur Swimming Association books here last night as the Dominion's finest water performers swept through opening events in the three-day meet here.

Phyllis Dewar, of Vancouver, smashed the Canadian 440 yards women's free style twice in winning her heat and the final, the second time coming within a second of the world's record in setting a new time of five minutes and thirty-two seconds for the distance.

Alongside Miss Dewar's fine performance ranks the new Canadian record of 56 2-5 seconds for the 100 yards junior boys' free style set by Harold Whitlock. The Ontario champion set the mark in his heat, and was one second slower in winning the title in the final.

Archie Byers, of Vancouver, added a new record in the 100 yards junior boys' breast stroke of 1:25, two seconds better than the old time.

LOCAL STUDENT AWARD ANNEXED BY LEN GILLAM

Winner of Senior Individual Aggregate in Eastern Townships Interscholastic Track and Field Meet Won Tate Shield Competition Yesterday.

Leonard Gilliam, the Sherbrooke High School student who won the senior individual aggregate at the eleventh annual Eastern Townships interscholastic track and field meet at Stanstead last Saturday afternoon, is the 1935 holder of the Tate Shield. The annual competition for this coveted trophy was staged in the Y.M.C.A. gymnasium yesterday afternoon and attracted seven entries.

Gilliam captured three events and placed second once to accumulate a total of eighteen points. Fred Sinclair and Ken Jackson were deadlocked in second place in the aggregate column with nine points each, while Gerry Cathart finished third with six points. Behind these four were Creighton Nutbrown with five points, Doug Wiggett with four and Harry Gray with three.

Gilliam, who succeeded Don Johnston as Tate Shield champion, set a new mark in the 440-yard dash, negotiating the distance in sixty-two seconds. His other victories were in the potato race and the shot put. Jackson won the high jump, was runner-up in the shot put and annexed third place in the potato race, while Sinclair captured the broad jump, was second to Jackson in the high jump and gathered his ninth point in the 440-yard dash. Nutbrown was the winner of the four-length swimming race.

The detailed results of the indoor meet follow:

Potato race: L. Gilliam won; 2 G. Cathart, 3 K. Jackson. Time 43 1-5 seconds.

Shot put: L. Gilliam won; 2 K. Jackson, 3 D. Wiggett. Distance 36' 11".

440-yard dash: L. Gilliam won; 2 G. Cathart, 3 F. Sinclair. Time 62 seconds. New record.

High jump: K. Jackson won; 2 F. Sinclair, 3 H. Gray. Height 5' 3-4".

Broad jump: F. Sinclair won; 2 L. Gilliam, 3 H. Gray. Distance 15' 1-2".

Four-length swimming races: C. Nutbrown won; 2 D. Wiggett, 3 H. Gray. Time 90 1-5 seconds.

LOCAL SNIPERS WON DOMINION CHAMPIONSHIP

Regiment Rifle Association Registered 1,487 Points in D.C.R.A. Small Bore Championship Competition—Rand Runners-Up in Industrial Division.

To their already long list of honors, the members of the Sherbrooke Regiment Rifle Association today added the small-bore rifle championship of the Dominion of Canada. In the series of shoots held throughout the winter, the first team entered by the local organization amassed a total of 1,487 points to lead the runners-up, Kingston Garrison Rifle Association, by six points, according to information received today from D.C.R.A. officials. The local unit's second team turned in targets totaling 1,469 to take sixth position. In addition to the D.C.R.A. championship, the first team annexed the Canadian Industries Cup.

Proving that it was largely teamwork and not individual brilliance that brought the trophy to Sherbrooke is the fact that in the individual championship, Sherbrooke men did not hold any very high ranks, the first Sherbrooke marksman, George Mulvagh, standing fourteenth, with Jack Stein nineteenth. In the club pairs, Captain J. W. Houlden and Major H. E. Saunders were placed twelfth, and in the club fours, H. A. Delcollier, J. Taylor, J. W. Houlden and H. E. Saunders ranked ninth.

In the Dominion Industrial Small Bore Championship, the Rand Drill snipers were the runners-up, registering a total of 986 compared with 993 turned in by the Toronto Transportation Commission squad, the champions.

INJURIES COST GOALIE A CHANCE TO GRADUATE

WINNIPEG BOY LONE CANADIAN IN TITLE HUNT

Twenty-Year-Old Bud Donovan Alone Survived Disastrous Day for Dominion Shot-makers in British Amateur Golf Championship Play.

St. Anne's-on-the-Sea, England, May 22.—One lone Canadian—twenty-year-old Bud Donovan, of Winnipeg—remained in the quest for the British amateur golf championship tonight at the end of a disastrous day for the Dominion shot-makers seven of whom had started the day's warfare.

Phil Farley, of Toronto, and Dick Moore, of Vancouver, carried the fight to extra holes before they met elimination in the third round. Captain A. Bullock-Webster, of Monterey, Cal., ousted Farley at the nineteenth hole, and J. L. Holden, of Bowdon, beat Moore only after three extra holes.

Edward Innes, of Montreal, and Ken Black, of Vancouver, succumbed to worthy opponents in the third round. Dr. William Tweddell, of Stourbridge, former champion, beating Innes by three and two, while Tony Torrance eliminated Black by five and four.

The Winnipeg youth crashed through with his third successive victory this afternoon, this time beating J. B. Beddard, of Staffordshire, by four and three.

Lawson Little, of San Francisco, marched through the third round in defence of his title, scoring four and three win over towering J. P. Zacharias, a home player.

Canada's group of doughty challengers in the third round was reduced to five today when Jack Nash, of London, Ont., and Gordie Taylor, of Montreal, were eliminated in delayed second-round matches.

Nash bowed to E. P. Kyle, of Mosley, by three and two, while Taylor succumbed to none other than Cyril Tolley, twice former champion, by a similar margin.

The weather today was fine, in contrast to the two preceding days, as the second round was cleaned up and the third round started. By tonight the field will be reduced to thirty-two in the same procedure—eighteen holes of match play.

Following Innes and Black into the third round yesterday were Donovan, Moore and Farley. Moore eliminated A. S. Anderson, of Hindhead, by three and one, winning four of the first six holes and then seeing his lead dwindle to one up at the turn without a tremor. He was down two and took the 411-yard seventeenth in three, one under par.

Young Donovan, the "baby" of the Canadian touring team, disposed of Ernest Chambers, of Beaconsfield, by three and two in a ding-dong struggle that saw Donovan one up at the ninth and the match squared at the eleventh. Farley secured a five and four margin over S. L. McKinlay, of Western Dales, a Scottish internationalist.

Meanwhile Lawson Little, the defending champion, managed to shake off the blight which beset him on Monday when he had a narrow escape from immediate elimination. Little recovered his driving to blast Martin Smith out of the cunning and re-establish himself favorite at shorter odds of three to one, with Tolley taking the second choice position.

A gallery of nearly two thousand watched the husky San Franciscan shoot even pars at Smith for the fifteen holes their match lasted. Little played about the same dazzling

DEAN INVOLVED IN DONNYBROOK WITH PHILLIES

Last of Three Flare-Ups in St. Louis-Philadelphia Game Resulted in "Dizzy" Dean Being Escorted from Premises by Police—Ruth Poled Homer in Boston Victory.

The firebrands who sit close to the fireplace and mutter about the "good old days" had better start reading the sports pages.

Here the major league season is only five weeks old and already two near-riots have enlivened—or marred, depending upon the point of view—proceedings in the National League where young Ford "Trick" is serving his first term as president.

The Pittsburgh Pirates and the Chicago Cubs were the combatants the first time; now it's the Phillies and the St. Louis Cardinals with Jerome "Dizzy" Dean occupying the spotlight as usual.

The Phillies won a seven to six victory over the Cardinals yesterday

game that marked his fourteen and thirteen victory over Jim Wallace in last year's final after Wallace, an unknown, had amazed the golfing world by reaching the final.

The curly-headed Californian bombardier made several mistakes, even missing a two-foot putt, but they were more than made up for by a long string of holes where he was putting for birdies after pin-splitting approaches long and short. Had his putting been as good as would have shaved his medal score by five strokes and perhaps threatened the course record of sixty-eight.

The results of second-round matches follow:

Lawson Little, Jr., San Francisco, defeated E. M. Smith, England, 5 and 3.

Capt. A. Bullock-Webster, Monterey, Calif., defeated Bruce Thompson, England, 3 and 2.

Leslie Halliwell, England, defeated Robert Harris, England, 4 and 3.

Dr. A. B. MacCallum, England, defeated Guy Hayes, North Australia, Mass., 2 and 1.

T. S. Tallier, Piping Rock, R.I., defeated Andrew Jamison, Scotland, 4 and 3.

E. Fraser Lee, England, defeated J. H. Bryant, England, one up, nineteen holes.

L. Lyle, England, defeated John Forsman, New York, 5 and 4.

Cyril Tolley, England, defeated Gordon Taylor, Montreal 3 and 2.

E. P. Kyle, England, defeated Jack Nash, London, Ont., 3 and 2.

Leslie Garnett, England, defeated R. P. Ridgeway, England, 3 and 1.

C. L. Henriques, England, defeated Leonard Crawley, England, 3 and 2.

Dan R. Topping, Greenwich, Conn., defeated Ernest Millard, England, one up, eighteen holes.

Harvey W. Shaffer, New York, defeated Earl Watson, England, one up, eighteen holes.

YOUNG MONTREAL PLAYER SCORED A HOLE-IN-ONE

Montreal, May 22.—Richard A. Ellis, a youthful member of the Kanawha Golf Club, pounded out the first hole-in-one in the Montreal district when his trusty mashie landed the ball in the cup of the 120-yard, third hole of his home course. The hole lies across a gulley from the tee.

Playing with Ellis, a junior member of the club, were two other juniors, Jack Cowie and Donald Elliott.

but only after two hours and forty-four minutes of furious scrapping that finally subsided when the last man was retired.

The disturbance began in the first inning when Bill Delancey, Card catcher, was chased off the bench for making "unpleasant remarks," and flared out again in the fourth frame when Hans Lobert, the Phillies' coach, charged Paul "Daffy" Dean with throwing a bean ball at Lou Chiozza.

Ill-feeling cropped out again in the fifth stanza when Al Todd, Philadelphia catcher, was hit by a pitched ball. Todd dropped his bat and started for the pitcher's box. "Dizzy," perhaps remembering his encounter with Todd in the Texas League when the catcher floored him, leaped out of the dugout. A few punches were exchanged but order was restored when "Dizzy" was escorted from the premises by police.

Otherwise the National League programme saw the New York Giants, the Brooklyn Dodgers and the Boston Braves make a clean sweep against the west.

After being held scoreless for five innings by Waite Hoyt, the league-leading Giants opened up with a slashing attack that netted seven runs in the sixth stanza and went on to whip the Pittsburgh Pirates by nine to four. The New Yorkers unleashed an eight-hit attack, including a homer by Hank Lieber, to drive both Hoyt and Ralph Birkhofer from the mound. Guy Bush was finally called in to stop the rally. Clyde Castleton got credit for the victory, his fourth of the season.

The second-place Dodgers registered seven of their runs in the first inning and the other two tallies in the second stanza to down the Cincinnati Reds by nine to one behind the five-hit pitching of Van Mungo and Dutch Leonard. Mungo received credit for his sixth victory of the year, but was forced to retire after hurling six innings.

Babe Ruth hit his first home run in more than a month and contributed a couple of nice running catches as the Braves broke Tex Carleton's two-year spell over them and beat the Chicago Cubs by four to one. Ruth's homer, his third circuit blow and the eighth hit of his National League career, came in the sixth chapter just before Randy Moore followed with the Braves' second four-bagger. A double by Mallon and two passes finished Carleton who had boasted a string of seven consecutive victories over the Braves.

Ray Radcliff, rookie outfielder who has been burning up the American League, rifled one of Johnny Murphy's offerings into the left field bleachers and the Chicago White Sox nosed out the New York Yankees by three to two and strengthened their hold on first place. Ted Lyons, veteran southpaw, turned in his fourth victory of the campaign, outpitching both Vito Tamulis and Murphy.

In the only other American League game the Boston Red Sox got good pitching from Fritz Ostermueller and downed the second-place Cleveland Indians by seven to two. Joe Cronin's triple set the stage for Boston's three second-inning runs.
