AMERICANS WILL NOT SEIZE THE INTERNATIONAL BRIDGES

Secretary Garrison Tells General Who Wished To Take Them That The U. S. Is Not Prepared To Invade Mexico Under Present Conditions

Washington April 24.—"We are not prepared to invade Mexico under present conditions," was Secretary Garrison's explanation of the War Department refusal to authorize General Bliss to seize the international bridges at Laredo, El Paso and other points on the Rio Grande.

In the Secretary's opinion such an invasion of Mexico would be an act of war, though this view was strictly limited by the phrase "under present conditions."

An old decision of the law officers of the War Department holds that such exchanges of shots as those at Laredo today are not acts of war. There have been a number of such exchanges across the Rio Grande beginning as far back as the Madero revolution, which did not disturb the theoretically peaceful relations of the two countries.

TRAIN ARTILLERY ON MEN.

For the present the American troops will make no effort to seize the international bridges even though, as is commonly understood, several of them are of American ownership. The troops probably will content themselves with training artillery upon the Mexican ends of the bridge to prevent their destruction by anyone on that side.

DISPOSITION OF FORCES.

....The disposition of the United States forces en route from Galveston, on arrival at Vera Cruz has not yet been determined, but it is practically certain a movement will be begun on their arrival to take possession of 27 miles of the railroad to the big bridge which is the keystone of the railroad system between Vera Cruz and Mexico City. In all about 4,000 troops will reinforce the 5,000 and upwards of marines and bluejackets. ..

The occupation of Vera Cruz by the navy forces was today reported complete. The total of Americans killed thus far is 17 and 75 wounded; Mexicans, 126 dead and 195 wounded.

WASHINGTON STATUE PULLED DOWN.

The statue of George Washington in Mexico City was pulled down by a mob led by Jorge Huerta, son of President Huerta, who attached ropes to it. Two Americans are reported to have been rescued by Huerta's aides from the wrath of the mob.

A NEW DISMEMBERMENT.

Public opinion in the Latin Republics is bitter against the United States as a result of the Mexican crisis. In an editorial today the Valparaiso Union asks if there is any international morality, and continues:

"The war in Mexico is the result of a want of common sense and of the revolutions in Mexico. The proceedings of the United States are not justified. That country cannot be the judge of foreign civil wars and ought to have limited its protection to its nationals and its frontiers. The war against Huerta offends the Mexican nation. The conflict will end, as on other occasions, in a new dismemberment of Mexico. The punishment is out of proportion to the offence—the incident at Tampico—and is a threat against the rest of America."

THE MONROE DOCTRINE.

The Mercurio says it is astonished at the excessive importance attached to the Monroe Doctrine in Europe. It adds that the Latin American republics are in the same condition of perfect equality as other nations and are not subject to and never will accept foreign interference.

ORGANIZING VERA CRUZ.

Five Divisions of Civil Administration Are Put Into Shape.

Vera Cruz, Mex., April 24—Five divisions of the civil admiinstration were organized today—police, sanitary, harbor, finance and customs. An effort was made to secure Mexicans as the heads of all the departments This was found to be impossible at least in two departments and American officers were assigned to the posts. They were Lieut-Commander McNeely, of the battleship Louisiana, who was appointed chief of police, and the Fleet Paymaster who was made Collector of Customs.

An effort is still being made to secure Mexicans as the heads of the other departments, but if this is found to be impossible Americans will be placed in charge of all of them. An American will be made inspector over each department headed by a Mexican.

Under the civil administration, an inspector will act as judge advocate in murder cases in which Americans are involved and also in cases of crimes which have to do with the attitude of residents of Vera Cruz toward the United States. The police provisions call for a continuance of the patrol of Americans, although the Mexicans have been invited to cooperate in the organization of a native force. The customs receipts, it is said, may be placed to the credit of the United States.

Close scrutiny will be maintained over all newspapers and other publications and no editorial comment concerning the American occupation or news regarding the movement of the troops will be permitted.

The commandant of the San Juan De Uloa fortress in the inner harbor, dressed in full uniform, called on Rear Admiral Fletcher today and was granted permission to take supplies to the women and children refugees in the fortress.

The battleship Louisiana sailed for Galveston today to convoy the army transports to Vera Cruz.

MARCIL CONDEMNS ALLEGED LOTTERY

CALLS ATTENTION TO COMPANIES WHICH ARE WORKING IN QUEBEC.

(Special to The Chronicle.)

Ottawa, April 24—Hon. Charles Marcil, in the House today, complained of the character of a company known as the Provident Financial Association, Limited, incorporated in Canada in 1905. It was issuing circulars in Quebec which contained statments that its bonds were recognized by the French Government. Mr. Marcil complained that the company was running a species of lottery. He had already written to the superintendent of insurance, who had informed him that if his suspicions were correct the company could be prosecuted.

He also drew attention to another company called the Chesahn Gold Mine Promters, Limited, which had conducted a species of guessing contest, the prizes being $10,000 in gold, and every one who paid five cents for a guess, receiving one hundred shares of stock. The company was said to be drawing in much money, and Mr. Marcil thought it was all a sham, though done under Dominion Legislation.

Mr. White Replies.

Mr. White in reply stated that the Provident Financial Association, Limited, had been given no such powers as it was exercising, and the Attorney General of Quebec should prosecute. He said he would draw the attention of the Secretary of State to the Gold Mine company.

Mr Marcil promised to draw the attention of the Postmaster to this and other enterprises of a similar character which had used the mails.

RIO JANEIRO COMMENT.

Fear That the United States Will Find Itself in Ambiguous Position.

Rio Janeiro, April 24—The general attitude of the press of Rio Janeiro on the situation between the United States and Mexico, is one of reserve. Editorial comment is meagre, but several of the newspapers express the hope that a peaceful solution of the difficulty may yet be found.

"If the United States does not actually intend conquest, as we wish to believe," says Gazeta De Noticias, "the occupation of Vera Cruz will have a salutary effect in making Mexico united again. If President Wilson knows how to wait watchfully it will be possible to open negotiations and the Mexican question then will enter its final phase."

The A Noticia considers the situation a most grave one. It fears that the United States will be overtaken by events and find itself in an ambiguous position toward the nations of the world.

The Correio Da Manha makes an appeal to the good offiecs of dipiomacy for the setilement of the trouble. "There is still time to stop the peril," it says. "The chancelleries of Central and South America have no right to remain inactive toward the disaster which threatens. They ought to attempt to avert this uneven struggle."

TROOPS FOR BORDER.

Washington, April 24—Governor Colquitt telegraphed Secretary Garrison tonight that he had ordered ten companies of Texas infantry, a detachment of cavalry and a battery of artillery to Brownsville to aid in protecting the stage border.

Full instructions in the "Royal Baker and Pastry Cook" book for making all kinds of bread, biscuit and cake with Royal Baking Powder. Gratis to any address.

ROYAL BAKING POWDER CO., NEW YORK

DYNAMITE AND FIRE USED BY FEDERALS ON BORDER TOWN

Nuevo Laredo Is Devastated and Then Deserted After an Orgy of Destruction.

TWO MEXICANS KILLED

Brisk Skirmishes Are Fought With American Troops as the Greasers Clear Off.

Laredo, Tex., April 24—Nuevo Laredo, the thriving Mexican border town opposite here, was in ruins tonight, devastated by dynamite and fire by Mexican Federal soldiers, who late today began an orgy of destruction which did not end until they were forced to flee southward before the guns of the American border patrol.

Two Mexicans are known to have been killed by the United States soldiers and several were seen to fall when a machine gun platoon from Fort McIntosh got into action. Several brisk skirmishes between the Americans and Mexicans were fought in quick succession as the Mexicans, their troop trains ready to pull out of the burning city, began an indiscriminate fire across the international boundary, but tonight there was no evidence that their shooting had been effective.

Property damaged in Nuevo Laredo will reach $500,000. Among the buildings destroyed were the United States consulate, municipal building, post office, theatre, the flour mill, one of the largest in this section of the southwest; the railroad shops of the Mexican National Railway, and other smaller structures.

"LEVITY OF WILSON IS UNWORTHY OF CIVILIZED RULER"

"Nation" Accuses Him of Sacrificing Lives Because of Ceremonial Detail.

LAPSE INTO BARBARISM

It Would Be More Natural in Prussian Colonel at an Alsatian Garrison.

London, April 24—While acknowledging that on broad grounds the action of the American government toward Mexico is justified, the Nation today severly criticizes President Wilson for what it terms his giving as a pretext for such action the refusal by President Huerta to apologize, in act and form as prescribed, for the brief detention of American bluejackets in Tampico.

"By singling out this incident," says the Nation, "as an excuse for an action which amounts to war * * * Dr. Wilson has done more to lower the standard of international morality than all his fine utterances in the past have done to raise it. A statesman who interferes to restore order may argne that at some cost in lives and treasure he is putting an end to intolerable violence and cruelty, but the statesman who sacrifices lives because some ceremonial detail is lacking in the ritual of an apology is behaving with levity unworthy of a civilized ruler. This deliberate and needless raising of a point of honor is a lapse into barbaric morals which would be more natural in some Prussian colonel in an Alsatian garrison than in a humanitarian President of a civilized Republic."

The Saturday Review says:

"We trust Congress will find means to express the general view that now that American troops have been landed in Mexico they cannot return until a stable and satisfactory government is established in Mexico City. If that intention is avowed the United States can feel certain that their action will be watched with sympathy and approval by the other great Powers."

MEXICANS INDIGNANT.

London, April 24—The Times correspondent in Mexico City in a despatch published today, says:

"The indignation of the Mexicans at the aggressive action of the United States is increasing, and I observe a grim determination on their part to fight for their flag and liberty. Demonstrations in support of the government are being held day and night."

FEDERAL OVERTURES ARE REJECTED.

Nogales, Ariz., April 24—Formal overtures from Huerta forces to the Constitutionalists to make common cause against the United States, have been rejected by the Constitutionalists. The communications were exchanged today between General Joaquin Tellez, one of Huerta's intimate friends and prominent generals and Gen. Obregon, a Constitutionalist, in the State of Sonora.

126 ARE DEAD;
195 WOUNDED.

Washington, April 24—The first official estimate of Mexican casualties at Vera Cruz, was cabled to the Navy Department tonight, by Rear Admiral Fletcher. It placed the dead at 126 and the wounded at 195.

RAISING SALARIES OF QUEBEC JUDGES

HON. C. J. DOHERTY INTRODUCES RESOLUTION TO PROVIDE FOR THIS

(Special to The Chronicle)

Ottawa, April 24—Notice is given by Hon. C. J. Doherty, of a resolution he will move providing for increases of salary for a number of Quebec Judges. The proposal provides for the increase of salaries of two jpdges of the Superior Court of Quebec from five thousand to seven thousand and for the salary of an additional judge of the same court at seven thousand. It is also proposed to increase the salary of the senior judge of the Circuit Court of the district of Montreal from $3,660 to $5,000 per annum and for the increase of the salary of the three other judges of this same court from $3,000 to $4,500.

WOMEN OF MEXICO WOULD SERVE IN DEFENCE OF CITY

THREE YEARS OF FRATRICIDAL WAR ARE FORGOTTEN IN A SINGLE DAY.

London, April 25.—Telegraphing from Mexico City Thursday the correspondent of the Daily Telegraph says:

"Three years of fratricidal war was forgotten in a day, the Mexican revolution ceased and the nation was blended into a unity which seems formidable. The utmost enthusiasm and devotion for President Huerta was displayed by all classes today and President Wilson's name was greeted with howls of 'Death to the Americans.'

"Patriotic demonstrations are unceasing. The Indian masses whom the revolution was driving into anarchy now are offering themselves as volunteers. Thousands of women have offered their services for active defence.

"The concentration of troops toward Vera Cruz is beginning. All railway services have been suspended and trains are being employed for the transport of troops. The stations along the line to Vera Cruz are tumultous encampments.

"The Japanese residents here are making great demonstrations with flags and lanterns. They cheered before the Foreign Office today and the Foreign Minister appeared on a balcony and addressed them upon the close union between Mexico and Japan.

A Painful Impression.

"A painful impression was caused by the daring appearance of Mrs. Nelson O'Shaughnessy, wife of the American Charge, at the wedding today of President Huerta's son. During the ceremony Mrs. O'Shaughnessy sat immediately beside Senora Huerta and in the procession had the arm of the commander of the Rural Guards.

"This morning when Mexico City awoke it was surprised to find the statue of George Washington not on its pedestal, but at the foot of the statue of Benito Juarez, a national hero."

INTERNATIONAL CHESS.

St. Petersburg, April 24—The game between Tarrasch and Janowski adjourned from the second round of the International Chess Masters' Tourney was played today and resulted in a victory for Tarrasch.

A Few Ideas Apropos of House Furnishings

Thousands of people are now facing the problem of setting their house in order for another year. It is so simple a thing in theory, yet so difficult to put into practice that most people are ready to welcome suggestions from those who by training and experience can offer ideas that will lead to a happy solution of the home furnishing problem.

Whatever your needs are in the way of rugs and curtains, in fact wall coverings and floor coverings of any kind—you will find them splendidly provided for here.

For the Living Room

An Oriental Wilton or Brussels Rug, surrounded by oilcloth or linoleum in hardwood pattern. Portieres of tapestry, and window curtains of Bungalow net.

For the Parlor

A nice Wilton or Axminster Rug, or a pretty carpet made up to the full size of the floor.

For the windows, brass curtain poles, Point Venice curtains, also Holland Shades.

For the arch, rich portieres of plush or brocade, with Point Venice drapery if desired.

For the Hall

A nice Staines linoleum with an Axminster hall runner.

Brass poles on sockets and heavy plush portieres.

For the Stairs

We suggest a 27-inch Oriental Carpet, and brass rods.

For the Bedroom

A Brussels, Mascot, or Kandahar Rug in a light shade. These are not expensive rugs to buy in bedroom size.

Curtain poles of brass or white enamel, with novelty curtains, or curtains of Colonial fabrics, which can be used for either curtains or coverings.

For the Bathroom

Linoleum in tile pattern of blue, green, or white, and a washable bath rug.

For the Kitchen

Cork Inlaid Linoleum, with rubber or cork doormat.

Curtains of Madras or scrim.

We carry all the best qualities of English Oilcloths and Linoleums up to 8 yards wide, also the large sized oilcloth squares.

For the Summer Home

Floor coverings of Corticine Fibre Matting or Japanese fibre squares, which are very inexpensive and give very fair wear.

For the windows fancy open Scrim or muslins and cretonnes.

We make all sizes of window shades to order, also make up curtains, carpets and rugs. A telephone call will bring out one of our expert men to measure your floors and windows so that we can give you estimates.

Telephone 2623.

Boys' Clothing

Boys' Norfolk Suits with straight pants .. $3.00 to $6.00

Boys' Norfolk Suits with knickerbocker pants .....$4.00 to $8.00

Boys' 3-pce. Suits.$5.00 to $12.00

The Home of Wall Papers

By way of demonstrating the enormous and extraordinary variety of Wall Papers which we carry regularly in stock we want to mention that we have Wall Papers priced as low as 4c a single roll.

We also have them at $2.25 a single roll, at which price or thereabouts, we can show some of the most magnificent papers that are made in any country and sold in any store.

Between these two prices there is a vast range of patterns, which affords an unrivalled choice to anyone, no matter what price they want to pay for Wall Papers.

U.S. WILL WITHDRAW AS SOON AS HUERTA HAS MADE APOLOGY

Wilson Does Not Want to Antagonize Carranza and Advises Him Not to Jeopardize the Rebels' Cause

Washington, April 24—While the attention of the American Government, for the most part today, was concentrated on restoring order at Vera Cruz and expediting the departure of Americans from all parts of Mexico, a watchful eye was trained on the transcontinental boundary between Mexico and the United States for any signs of hostility from the Mexican Constitutionalists.

President Wilson and his cabinet had a long meeting, after which optimism was conspicuously apparent both in their demeanor and informal discussion of the situation.

Villa's Statement Reassures

There was no particular development to which the feeling of hopefulness that the real war would be averted could be traced, but General Villa's friendly pronouncement, it was admitted, had impressed many officials here with the possibility that the Constitutionalists after all would remain neutral while the American Government sought reparation from Huerta.

Other officials were not so sanguine and the army moved with precision and swiftness to protect the American boundary and reinforce the expeditionary force of marines and bluejackets at Vera Cruz.

Telegram To Carranza

Conferences at the State Department between Secretary Bryan and representatives of the Mexican Constitutionalists resulted in the despatch to General Carranza of a telegram by the latter, strongly advising him to remain neutral and assuring him that the American Government intended to withdraw its forces from Mexico just as soon as satisfactory reparation had been made for offences committed by Huerta. The advice given Carranza here was that by assuming a hostile attitude he would draw all Mexico into a war; Huerta would be perpetuated, and the Constitutionalist cause lost in the melee.

Uneasiness Abroad

Signs of uneasiness abroad because the United States, though not having declared a blockade or a state of war, is exercising jurisdiction at Vera Cruz between measures "short of war" and actual war, began to be apparent today. Cabinet officials said no attempt would be made to interfere with the regular channels of commerce anywhere, cargoes being allowed to land at all points. Munitions of war alone will be held at Vera Cruz if landed, provisions and other commercial supplies not being detained.

Americans Not Aggressors

The sporadic outlook at Nuevo Laredo, Mex., where the evacuating Federals burned the town and fired across the American border, was not unexpected, but it was significantly pointed out by officials here that the American troops returned the fire merely in defence of the international line and did not become the aggressors. Both the military and naval forces are operating under this principle, defending themselves from attack but making no offensive move without instructions from Washington.

Congress Still Talking

Congress still talked about Mexico. Senator Lodge read a long telegram from many prominent persons, urging an inquiry into the Mexican situation before war was declared. Representative Fitzgerald, chairman of the House Committee on Appropriations, asked the President if he wanted "any war appropriations," and Mr. Wilson said "not as yet."

War Funds Lacking

Secretary Garrison is practically without funds for the particular movements of the army now being made, but he is drawing on the future. It is a violation of the law for the War Department to incur any obligation without authorization by Congress, but Mr. Garrison smilingly said he had "faced jail" several times in the last few days on this account. Leaders in Congress have assured him they would back him up in the present emergency. The President has hesitated to approve any request for an emergency appropriation by the War Department for fear it might be interpreted as a forerunner of war.

Volunteer Army Bill

Mr. Wilson will affix his signature probably tomorrow to the volunteer army bill, providing the machinery for raising a volunteer army force in any time of emergency. The possibility that the militia might be needed at this time led to an appeal to the Supreme Court of the United States for decision of a pending case to remove legal obstacles in the use of the militia for volunteer service. Estimates by army officers as to the number of men the President might call for in case of war range from fifty to one hundred thousand, but not a syllable has come from the White House as to this point.

Mr. Bryan Is Busy

At the State Department Secretary Bryan talked to a procession of callers. The German Ambassador, it was understood inquired about the statutes of commercial vessels and their cargoes and told Mr. Bryan about the uncertainty abroad whether a blockade had been declared or a state of war existed. No information was forthcoming from the German Ambassador or Mr. Bryan as to the conference. The American Government holds that its seizure of the Customs House is in accord with International precedent as an act of reprisal. No blockade has been declared and no interference with commerce would be attempted.

German Boat's Cargo

The German vessel which carried the big shipment of arms which it was feared might reach Huerta has landed its commercial cargo, but the captain of the vessel, for reasons of his own, has not put the ammunition ashore. There has been no effort on the part of the United States forces at Vera Cruz to prevent its landing. The accepted theory here is that the ammunition was not landed because of the uncertainty that it would not reach the consignee if deposited in the Vera Cruz Customs House. American naval officers will not interfere with the interior shipment of the cargoes, but will collect the customs and hold them until reparation has been made for all offences.

Sonsul-General Shankland is still in Mexico City, according to the latest word at the State Department, and has been instructed to use his discretion about leaving. It is believed he will stay until the last American is cared for, taking refuge finally, if necessary, in some other foreign consulate or legation. Charge O'Shaughnessy was expected to reach Vera Cruz tonight. State Department officials said they know nothing of a report that he would go to Manzanillo.

EIGHTH RIFLES HAS STRONGEST MUSTER IN YEARS

COMMANDING OFFICERS' INSPECTION A GREAT SUCCESS IN EVERY WAY

The Eight Regiment Royal Rifles had one of the strongest musters it has had in years at the Drill Hall last evening for the inspection by Colonel Watson, Commanding Officer, assisted by Major Swift and Q. M. Sergt. Jacques.

After the earlier part of the evening had been spent in company exercises, the regiment, following a brief intermission, was called to company sections when Col. Watson made a close inspection afterwards calling the battalion to attention.

The regiment showed the good effect of the efforts of the officers commanding the different companies in their marching and the only apparent handicap in this respect was due to the Drill Hall not being sufficiently large to allow the men enough freedom when marching in two columns.

Both the brass and bugle bands were in attendance, being in charge of Bandmaster Trudel and Bugle Major, Jordan respectively, and during the general salute the march past was played.

Col. Watson warmly congratulated the officers and men on their splendid appearance, and particularly on the steadiness shown in the different exercises.

First Church Parade

It was announced after the inspection by Acting Adjt. Wilson that the invitation from Rev. Dr. Love had been accepted and the regiment would parade to St. Andrew's Church on Sunday week, May 3. The second invitation from Rev. Father Woods, C.SS.R., of St. Patrick's Church has also been accepted for Sunday, May 10th. It is not definitely decided yet when the Brigade Church Parade would be held, but it will probably take place the third Sunday in May.

AMMUNITION FOR VILLA IS TURNED BACK AT CUSTOMS

Rebel Chieftain Wishes He Had Ten Million Cartridges at His Disposal.

THE CARRANZA LETTER

Constitutionalist General Desires to Avoid War—Traffic to Juarez Closed.

El Paso, Tex., April 24.—The international political situation cleared greatly today as affecting the status of the rebel government and that of the United States. This city and Juarez were perfectly quiet. A long note from Secretary Bryan to Carranza was transmitted through Juarez to Chihuahua tonight.

General Francisco Villa, who arrived at Juarez yesterday, repeated his declaration that he would not be drawn into a war with the United States, particularly as that would serve to draw the Huerta chestnuts out of the fire. He repeated these assertions to George C. Carothers, special agent of the State Department, and to newspapermen and many other visitors. To J. T. McClammy, his cattle agent on this side of the river, he said:

"It's that little drunkard Huerta's fight; let him fight it. I wish I had ten million cartridges right now. I'd march into Mexico City without a stop."

Carranza's Note Explained.

Villa said Carranza's note had been misunderstood and that the first chief was as friendly as he (Villa) was to the United States. Roberto V. Peisqueria and other Carranza representatives here said an idiomatic expression in common use in Mexico was literally interpreted in the translation of Carranza's note to Secretary Bryan last Wednesday.

The translation made Carranza say that he had desired to avoid war with the United States "until" today.

"As a matter of fact, the expression meant that although his friend, the United States, had done a wrongful act and had thereby injured a friend (Carranza). He desired to avoid war and always would desire to avoid it, explained Peisqueria.

Embargo Only Temporary.

Villa frankly took the position that he would like to avail himself of what is in effect aid from the United States forces to prosecute his aim. His wish for ten million cartridges, however, could not be gratified today, as the embargo was on again officially this time, and five rapid-firers which were brought to the customs house were turned back. Villa was given to understand that the embargo was temporary, and he said that he acquiesced in any measures taken to relieve the strain of present relations.

Traffic to Juarez was again closed tonight.

In El Paso the troops remained in the city, reinforced by the arrival of Battery B, of the Third Field Artillery from San Antanio, but there was a visible reduction in the temperature of the political atmosphere.

Federal Overtures Rebuffed.

Peisquieria is authority for the statement that the Federal Commander at Guaymas, General Tellez, who offered to join with the rebels in that district against the United States, is not the only Federal who has made similar overtures and been rebuffed. He said a similar proposition was made by the Huerta commander at Monterey and by a committee representing Huertistas in El Paso.

FRENCH LINER IS NOT COMING HERE

LA LORRAINE WILL CALL AT HALIFAX BECAUSE OF ICE CONDITIONS.

Halifax, N. S., April 23.—The Cunard Company received a wireless from the French Lines La Lorraine, bound from Havre to Quebec, that she would call at Halifax owing to uncertain ice conditions in the St. Lawrence.

IN A DISGRACEFUL STATE

It is about time the Corporation gave some attention to Prince of Wales street, which is in a disgraceful state at present. Since the Grand Trunk and Intercolonial Railway freight sheds and offices have been erected on the street it is daily crowded with vehicles, and the horses and drivers have a hard time of it. The vehicles sink up to the axles in the mud, and the drivers find it no easy task to get them out, while the horses are overworked tugging at their loads. It would appear as if the Corporation did not know such a street existed in the city, although it is one of the busiest.

IS UNANIMOUS IN DISAPPROVAL OF THE U.S. ATTITUDE

Buenos Ayres Considers Action of Wilson Aimed at Mexico, Not Huerta.

PROTECTORATE FEARED

President's Policy Will Revive Distrust of Latin America, Says La Prensa.

Buenos Ayres, April 24—The press of Buenos Ayres is unanimous in its expressions of disapproval of the attitude of the United States toward Mexico. La Nacion in an editorial today, says:

"President Wilson tried to make Huerta resign and the revolutionists were counting for the sympathy of the White House. This would explain the conduct of Huerta in the Tampico affair. The quick action of the United States shows that they had intended to intervene. We are conscious of the fact that the incident springs from a state of affairs in which the integrity and independence of Mexico are at stake. The memory of this conflict will live in the history of the relations between the United States and Latin America."

Message of State.

"President Wilson's message to Congress does not seem to us to be a message of State," declares La Prensa. "The plan to overthrow Huerta in order to install a revolutionary general in his place would signify official partiality on the part of the United States without bringing about the pacification of the country. The military action by the United States aims at Mexico and not at Huerta.

"We fear a repetition in Mexico of the protectorate system the United States created in Cuba. Mediation by the European Powers would now be opportune. The policy of the United States will revive the distrust of Latin-America. International law and the Monroe Doctrine do not authorize intervention or the establishment of a protectorate the tearing down or setting up of governments."

CANADIAN SHIPPING AND PANAMA CANAL

HON. GEORGE FOSTER SPEAKS REGARDING APPLICATION FOR SUBSIDIES

(Special to The Chronicle)

Otaawa, April 24.—Six Canadian Shipping interests are already figuring on the changes that will take place in trade routes following the opening of the Panama Canal. In discussion of estimates of the trade and commerce department this afternoon Hon. Geo. E. Foster stated that he had already received applications for subsidies for vessels plying between Atlantic and Pacific ports via the Panama route.

The minister pointed out that it was impossible to know just what would be the effect of the opening of the canal but one certain result would be the increase in the number of vessels plying between European ports and the Pacific Coast. He thought it was very likely that arrangements could be made with these lines to make calls at the Canadian ports on the Atlantic and thus assist in the trade between the two coasts of the Dominion.

"We are allowing the matter to develop and see how it is going to work out before we undertake to subsidize any vessels plying between these ports," said Mr. Foster.

Mr. E. N. MacDonald of Pictou, drew attention to the fact that the loss of life in the Newfoundland sealing fleet was greater than when the news first arrived and when the government decided to appropriate $10,000 for relief. There were now 1,000 families left without a bread-winner and he thought this grant should be increased.

DUFFERIN TERRACE CAFE.

Much Progress Has Been Made During Past Few Days.

Work has been under way during the past few days on the new cafe on the Dufferin Terrace side of the Chateau Frontenac.

A big staff of men, numbering about thirty, have already demolished most of the supports of the former canvas covering over the cafe, and the stone and other matreial for the new addition is on hand.

Judging by the activity about the spot during the past few days the "Palm Garden" as it will be styled, should be ready for the tourist season. The steel to be used is all in readiness to be joined together just as soon as the foundations make this possible.

AMERICANS SAID TO BE THREATENED WITH EXECUTION

Four of Them Are Taken From Train and Are Transferred to Orizaba.

NAVY CONGRATULATED

Naval Lieutenant Is Lenient in Sentences on Mexicans Accused of Fighting.

Vera Cruz, Mex., April 24.—Seven Americans, prisoners of Mexican soldiers, are being held at Cordoba or Orizaba, on the line of the Mexican railway between her and the capital, four of whom at least are threatened with execution, according to authentic information received here tonight.

Four of the Americans were taken from a train on the Vera Cruz-Isthmus line at Tierra Blanca and further along at Motzolongo station, three other Americans and an Englishman were seized. Those captured at Tierra Blanca are W. A. Mangan, superintendent of the railroad, Engineer Elliott and Conductors Riley and Hart. At Motzolongo Edward Weunch, his son Sydney, A. M. Thomas and Mr. Boyd, a Britisher, were arrested by the Federals.

The belief that the Federals intended to execute at least four of the prisoners was gained from the conversation of the soldiers who captured them, which was overheard by passengers on the train. The prisoners were taken to Cordoba and, it is believed, later were transferred to Orizaba, a point nearer the capital.

Eighteen Americans are still in Tierra Blanca, among them J. O. Cook, chief engineer of the Isthmus Railway; J. O. Schneider, J. D. Longston, C. D. Harison and wife and children, and Mr. and Mrs. George McComber.

An indirect report received here today from Mexico City said that a mob attempted to burn the terminal of the Mexican railway, but was prevented by President Huerta's troops.

The Mexicans are confiscating all the locomotives and rolling stock of the Mexican railway and concentrating them at Apizaco, an hour's run south of the capital. All the engineers of that line have been held and sent to Orizaba. The train despatcher at Orizaba was arrested but released later and told to leave.

Lenient Sentences.

Police Court affairs in Vera Cruz were administered today by a naval lieutenant, who was kept busy hearing the cases of Mexicans who had been picked up by the patrols or arrested during the recent fighting. He proved to be a lenient magistrate, much to the surprise of the Mexicans, many of whom believed the terrible "gringoes" would order their execution.

Thomas B. Hohler, the British Charge D'Affaires, who had charge of the train which brought the refugees from the capital here last night, intended to return to the capital tonight.

The British cruiser Hermione, which although a neutral vessel, has been engaged in the removal of Americans from Tampico, reports that only a few are now there.

Rear-Admiral Fletcher today received the congratulations of Secretary Daniels of the navy. The admiral conveyed to the officers and men his own appreciation of their "splendid conduct which gained for them the highest approbation of the Secretary of the Navy."

Much of the work of re-organizing the affairs in the city has been forced on the naval officers, and Consul Canada and his staff, including C. E. MacEachran, former secretary of John Lind, are keeping long hours at business.

The cable office here is being taxed to its fullest capacity with official, commercial and press dispatches. C. Mitchell, manager of the operating force, is working day and night to move the business. In some cases his men have had no sleep for more than 36 hours.

O'SHAUGHNESSY NOW AT VERA CRUZ.

Vera Cruz, April 24—Nelson O'Shaughnessy, the United States Charge d'Affairs, at Mexico City, arrived here tonight.

Mr. O'Shaughnessy was accompanied by General Corona and Col. Braniff, who were appointed as his escort by President Huerta, as a special courtesy to the retiring Charge d'Affairs.

The train on which Mr. O'Shaughnessy came from the capital, was met at a break in the railroad near here by a train bearing Captain Huse, chief of staff and two lieutenants, who were accompanied by a guard of unarmed bluejackets.

MUDSLINGING STILL FEATURE OF CITY COUNCIL SQUABBLE

Cannon and Lockwell Factions Keep on Abusing Each Other---More Charges---Cote's Word of Honor

From about nine o'clock until midnight, with the galleries and available floor space crowded, the City Council Chamber last night was the scene of a tirade of denunciation and abuse, which alternated between the Cannon and the Lockwell factions and made the meeting a most tiresome and disgusting one for those present.

There is powder in the air, and its presence becomes more apparent at each successive committee and council meeting. The term of office which has just opened promises to be one of the most stormy one in the annals of the city, and if such mud-slinging is to go on it would indeed be a great benefit if some definite charges are made and a Royal Commission is instituted to investigate the administration of the entire city, and once for all put an end to insinuations and harangues of abuse such as were in evidence last night.

The council passed the report of the Finance Committee recommending the appropriations for the fiscal year 1914-15, the total amount of which is $1,300,000, after two unsuccessful attempts had been made: one to increase the salaries of the police by $1 a week, which was proposed by Ald. Verret, and the other to increase the salaries of the firemen by 50c. a week, which was proposed by Ald. Cote.

Committee Resignations

After this came the formal resignations of Aldermen Fiset, Dussault and Lockwell as members of the Fire Committee, which were made at the meeting of that committee on Wednesday night as a protest against the action of Ald. Cote, who, they said, had broken his word of honor in not resigning in Ald. Lockwell's favor.

Ald. Emond, would also, no doubt, have tendered a formal resignation as member of the Fire Committee, but the Council adjourned at midnight before he had a chance to do so.

Makes Another Charge

Both Ald. Lockwell and Ald. Cannon made speeches which were marked with bitterness and Ald. Cannon in his closing remarks made a serious charge and called upon Ald. Trudel to witness what he said, but he did not specify at whom he was aiming directly.

Ald. Cannon affirmed that before the last meeting of the Fire Committee Ald. Trudel had been approached and threatened that his election would be contested unless he voted in favor of Ald. Lockwell. Ald. Cannon did not say by whom Ald. Trudel had been approached, and the Council adjourned before Ald. Trudel had time to speak, although he intimated to The Chronicle after the meeting that what Ald. Cannon had said was true.

At the opening of the meeting Ald. Cote rose on a question of privilege and protested against an article in L'Evenement which accused him of being a party to an intrigue. He denied this and said that he had always done according to his conscience and his convictions. He said that he refused to be intimidated by anyone and again affirmed that his agreement was that he would resign from the chairmanship of the Fire Committee if the affidavits of Messrs. Fortin and Bosse were proved to be false.

Ald. Fiset: "Never!"

Ald. Cote: "You will not intimidate me."

Ald. Fiset: "Word of honor."

Ald. Cote said that he knew of no name bad enough by which to qualify L'Evenement.

Appropriations Taken Up

The appropriations were then taken up and both Ald. Lavigueur and Cannon drew attention to the fact that the civic employees had been generously remembered, even, they said, beyond the means of the city. Ald. Cannon said that it was in the interests of the city to have a contented staff, and he expressed the hope that it would be some time before there would be more demands for increases and bonuses. He also warned the committees to keep their expenditures within the limit of their appropriations.

Ald. Lockwell expressed regret that those of the employees receiving large salaries had been given increases while the poorer class of employees had been ignored. He referred to the firemen and policemen and expressed the hope, since it was too late to make a change for next year, that the city at the next appropriations set aside the larger salaries and increase those of the police and firemen.

Salaries of Police

Ald. Verret said that it was never too late to do something good and he moved, seconded by Ald. Emond that the salaries of the members of the police force be increased $1.00 a week part of the sum necessary to be taken from the general police appropriation and part from the appropriation for municipal buildings.

Object To Increase

The Mayor, Ald. Cannon and Ald. Fiset objected to the increase on the grounds that the city could not afford it, and that the expenditures this year had been cut down to the lowest possible limit. Ald. Cannon sounded a warning when he said that if the expenditures did not cease the taxes would have to be increased within 12 months. He affirmed that even though he was the only to vote against the increase he would do so.

Mayor Drouin said that if the Council was not satisfied with the increases which had been granted they might cancel them and give an increase to the police and firemen.

Ald. Cote then moved, seconded by Ald. Trudel that the salaries of the firemen be increased by 50c. a week.

The Pro Tem Chairman

Ald. Morin then joined in the discussion. "Mr. Mayor," he said, "I congratulate the chairman pro tem of the Fire Committee." He got no further, for Ald. Cote, feeling peeved at such a reflection, was on his feet in an instant.

"I raise a point of order, Mr. Mayor," he shouted, "I object to the words 'pro tem,' and I ask that Ald. Morin be called upon to withdraw that expression." (Laughter.)

Ald. Morin: "There is nothing insulting in that, Mr. Mayor."

The Mayor: "I know there is nothing insulting, but after all he is a chairman." (More laughter.)

Ald. Morin then asked if order had been given by the chairman of the Fire Committee that the pay of sick firemen be discontinued.

The Mayor asked Ald. Morin to wait until the proper time to ask the question.

Ald. Lockwell then made a strong plea for an increase for the police and firemen and asked that the Council vote $8,000 and even $10,000 if necessary, so that these employees might be properly paid. He affirmed that these poor men needed help, as everyone had not had the advantage of receiving a classical course or of being the son of a great lord or a judge.

Mayor Decides Against

The vote was then taken on Ald. Verret's motion and it resulted in an even break of eleven to eleven, the Mayor casting the deciding vote against the increase.

The division was:

For:—Aldermen Lockwell, Cote, Martin, Bois, Verret, Dinan, Collier, Madden, Emond, Paquet, (St Sauveur) Plamondon—11.

Against:—Aldermen Gauvin, Gibsone, Trudel, Lavigueur, Cannon, Dussault, Lantier, Fiset, Paquet, (Belvedere.) Walling, Beaumont—11.

The Mayor cast the deciding vote, and Ald. Morin, who had been absent from the chamber, came in and asked to be permitted to vote, but the Mayor told him it was too late.

Ald. Cote then submitted his motion in writing, but changed the increase for the firemen from 50c. a week, which he originally proposed, to $1 a week.

Ald. Trudel, the seconder, objected to seconding the motion for $1 a week and Ald. Cote wanted to withdraw the motion and make another. There was some discussion as to his right to do this and while the discussion was going Ald. Fiset was heard above the din: "He withdrew his word of honor; he can withdraw anything."

Ald. Cote: "I ask Ald. Fiset to withdraw his words."

Ald. Fiset: "No, I will not. You can ask what you like."

(Continued on Page Ten)

GOVERNMENT WILL RECOUP DEPOSITORS OF FARMER'S BANK

LIBERAL GOVERNMENT, RESPONSIBLE FOR CRASH, WILL OPPOSE THE MOTION

(Special to The Chronicle)

Ottawa, April 24—The government has decided to recoup the depositors in the defunct Farmers' Bank in full. Hon. W. T. White gave notice tonight of a resolution which he will move providing for the appropriation of a sum not exceeding one million two hundred thousand dollars "to pay to persons who were creditors for money on deposit in the Farmers' Bank of Canada, the respective amounts standing at their credit in the books of the bank when the bank suspended payment."

It is expected that the Liberal Opposition will oppose the proposal and it is rumored that they may force the government to use closure to pass the legislation.

The Quebec Chronicle

Printed and published by The Chronicle Printing Company, D. Watson, General Manager, at the building of the Company, 9 Brade Street, Quebec.

QUEBEC, APRIL 25, 1914.

JUVENILE COURT NEEDED.

Judge Langelier has often and ably presented the case for a juvenile court before the people of Quebec and we are glad to see that the campaign which he has waged seems likely to obtain results at last and that he has enlisted the support of a large number of our most influential citizens.

That there is need of such a court has been fully demonstrated not only by Judge Langelier, who has been the chief mover in the matter and has clearly shown the disadvantages consequent on our continuing without one, but also by Mr. Bradford in the lecture which he delivered at the Y. M. C. A. the other night. It is the contention of Mr. Bradford that no normal boy becomes a criminal. When boys first go wrong, it is usually the spirit of adventure which is to blame. If they are punished for their first offence by imprisonment and association with hardened criminals, they are apt to be ruined in character very quickly. Jailing in many cases proves an incentive to crime rather than a cure for it, and before sentence is passed on these young offenders, it is only right to review all the circumstances leading up to their delinquency, to ascertain their previous mode of life, their home and other influences. With a juvenile court many a brand, so to speak, might be plucked from the burning, while our city might be saved much expense and our jails gradually brought near to emptiness. As it is, the city is paying a good figure to send a large numebr of boys to reform schools, but if a juvenile court were established the cost would be largely borne by the Government. From reasons, therefore, both of humanitarianism and of ecnomy, we hope that it will not be long before this need is satisfied.

POSITION OF DISHONOR.

Sir Wilfrid Laurier has forced Canada into a position of dishonor in the Empire, which is emphasized by events in Mexico, and he has also caused a certain degree of danger for neither of which he probably cares a brass farthing. It is humiliating to Canadians everywhere to think of their great and prosperous country doing absolutely nothing to assist in naval defence, but looking to the British taxpayers to provide all the money for the naval defence of the Empire, including Canada, and also looking to the British capitalists to provide the money for the development of Canada's natural resources. For how long the British taxpayer will be prepared to go on paying for Canada's defence, and whether the Old Country will be able to continue its services unaided, remains to be seen; but to quote the London Telegraph's opinion: "If the Empire's whole requirements are to be supplied in time to divert disaster, some form of co-operation is necessary, or we, kith and kin, may be facing a future containing the germs of Imperial dissolution."

In this sentence lies the whole root and substance of Sir Wilfrid Laurier's tactics: Imperial dissolution, Canadian autonomy, Canada an independent nation, and adrift from the British Empire altogether.

THE ULSTER CRISIS.

Some danger that the Ulster crisis would be renewed has existed in the last few days, and the belligerents in the House of Commons have not yet disposed of the matter.

The difficulty revolves about the question whether the Government meant business in Ulster, or whether their only idea was to protect a few stands of arms and minor stores of cartridges from hypothetical raids by Ulster extremists.

Upon the Government side it is urged that it would have been an act of political insanity to have provoked an outbreak in Ulster. Colonel Seeley positively affirms that this was not in his mind. No act of his, he maintains, could have been construed into an attempt to provoke the Ulsterme nor yet to coerce them by brute force.

The reply to this is that facts speak loudly and that admissions have been made which confirm the ugliest side of the matter. These facts in the main are the resignations of officers of the highest repute consequent upon the Government's proposed course toward Ulster.

It is strongly contended, moreover, that the movements which the Government is alleged to have planned for the army and navy and countermanded were exactly those which any strategist who knew his business would have planned for dealing with Ulster.

These plans would have caught the Ulster army between the troops moving from the south and the marching filled with troops and bluejackets waiting for them in the north channel. The covenanters would have had to fight against forces crowding them upon either side.

The situation remains keenly on edge in view of the Government's continued failure to dispose of the belief that the reason an appeal to the country is refused rests in an agreement entered into with the Nationalists, in return for their support of the Lloyd-George budget, that no appeal would be taken.

PREVENTION BETTER THAN CURE.

In a few days the fly which has been hibernating in cracks and crannise in the house will be emerging from its winter seclusion, and will commence its operations, as usual, by visiting the windows to ascertain what the weather looks like outside. Now is the time to combat the first winged visitors of the season by liberally sprinkling window sills with poisoned insect powder, for by destroying the advance guard of the pestiferous flying army it will rid the house of a dangerous species of insect, and by putting up screens to windows and fixing the screen doors to entrances, much will have been effected to start the season with a clean internal sweep of this insect.

Externally, the removal of all rubbish that may have been allowed to accumulate during the winter will assist in mitigating the fly plague by depriving flies of suitable breeding spots contiguous to the house.

By adopting early preventive measures the fly nuisance will be materially minimized throughout the whole season, but when several broods are allowed to apper before taking these precautions the struggle becomes keener and extermination more difficult.

HOUSECLEANING IN MEXICO

It is called war in Mexico and it is war, but it is also a case of housecleaning quite as much as it is of anything else. Mexico has never been well governed since the conquest by the Spaniards hundreds of years ago. On attaining her independence, she indulged in an almost endless series of civil wars.

Out of it came finally the elder Diaz and though he kept order by the rule of the iron hand, that hand ultimately was broken, because it became intolerable even to Mexicans. Since he was expelled from the country the old state of perpetual strife between leaders desiring to gain what is virtually a despotic position has gone on.

The world, because of the Monroe Doctrine, has waited on the United States to step in and end such a situation and there seems to be no escape from that duty. The apparent aim of the man in power in Mexico City is to get his country embroiled with the United States and in that way have the powerful foreigner put Villa and Carranza out of business as well as himself and perhaps leave him to be flung out of power with the glamor of the popular hero about him, though it seems odd enough to make that suggestion with reference to the hard drinking Indian who is now called the provisional President.

He cannot be so deluded as to think he has any chance with the United States and he may feel that he has hardly any better chance with the rebels coming down from the north, unless he can bring in the despotism to take control of the whole country and so compel Villa and Carranza to stop their system of outrages.

PRESS COMMENT.

Why the Aztecs left their northern home is not known, even in legend, but they were instigated to their wanderings, tradition says, by their fabled war god Huitzilopochtli, or "Mexitli, from whom came the name "Mexica," or "Azteca," by which these people called themselves. From the beginning of the tenth to the beginning of the thirteenth century Anno Domino, this tribe journeyed and sojourned on its southward way, from valley to valley, from lake to lake, from Chapala to Patzcuaro, and thence to Tula, the old Toltec capital. Once more dispersed, they wandered on, and, guided by their oracle, reacher their final place of Tenochtitlan. In company with Teotihuacan at Texcoco, and Papantla, in the State of Vera Cruz, Cholula is ascribed to the Tiltecs. The Toltecs were a prehistoric people of Mexico and Central America. To them the Aztecs and the Mayas ascribed their arts and all those ancient monuments whose origin they did not know. According to some writers, the Toltecs are fabulous. The Aztecs are so called from Astlan, the mythical northern land of the Seven Caves, from which they migrated to the south to set up a powerful empire in the valley of Mexico. Here, for the first time, the Spanish explorers in their wanderings had come across an organized nation with an advanced civilization and policy of its own. Here in the land of the Aztec federation three potent states, with vast dependencies from which countless hordes of warriors might be drawn, were ready to stand shoulder to shoulder and resist the claims of the white demi-gods, mounted on strange beasts, who came down upon giant seabirds from the unknown, beyond the waste of waters. But the fatal prophecy of the coming of the avenging white god, Quetzalcoatl, to destroy the Aztec power, paralyzed the arm and brain of Monetzuma and rendered him a prey to the diplomacy, the daring and valor of Cortes.—From "Mexico," by C. Reginald Enock.

The United States is fighting because General Huerta has refused to fire 21 guns in honor of the Stars and Stripes. At first glance the pretext is trivial, even absurd. But if such circumstances compel a pacifist Cabinet to fight, what would waken a militarist Government to action? "Force rules the world still," as the god Thor says in the Sagas, "has ruled it, will rule it." If that be so the debt of Canada to the British navy is great and marvelous. We are about to celebrate the hundred years of peace between the two great branches of the English-speaking world. Without the force of the Royal navy at our back the Champ Clarks of the United States would have absorbed this country fifty years ago. We preferred to be British and the British taxpayer has paid to humor our preference. Three thousand miles of territory without a fort! "Non Nobis, Domine!" The credit is not to Canada. Three thousand miles of strong sea floating forts with trailing white ensigns have guarded the 49th parallel of latitude for us and for our children. When will Canada recognize the debt and ease the burdens on the shoulders of the Mother Land?—Toronto News.

The long-expected visit of the Kaiser to the French President was nearly marred by an accident and a slight piece of tactlessness on the part of the President's valet. On the first evening it appears that the Kaiser's brushes had failed through some misunderstanding to arrive in time. Brushes which had been presented to the President himself by the Service League of France were sent to His Majesty. To the horror of everyone within 40 yards of the room, no sooner had the Kaiser lifted them out of the box than the epic notes of the "Marsellaise" thundered forth from the backs of the brushes, which contained small music boxes. The valet who had taken them in had forgotten to turn on the silencer! The Kaiser, it is said, immediately dropped the brushes and went pale blue, his moustache wagging furiously. It was only after a long explanation in several languages that he was induced to believe that the incident was not a specially-designed and manoeuvred affront.—London Opinion.

In reply to a question in the House of Commons yesterday, Premier Borden announced that in the event of war in Mexico, Canadian life and interests in that country would be protected by the British Government. Once more British warships, built by British artisans, paid for by British taxpayers, and manned by British sailors, are going to do our fighting, if there is fighting to be done. As usual we find shelter under the protecting wing of the old Motherland. But we don't owe anything to England. We are a "Nation," and when the danger is over, we will still have our precious "autonomy."—Ottawa Journal.

It must be Bovril

Even were it double the price, Bovril would still be an economical and *indispensable* article in every home, for Bovril has been proved to possess a Body-building power of from 10 to 20 times the amount taken.

Of all Stores, etc., at
1 oz. 25c.; 2 oz. 40c.; 4 oz. 70c.; 8 oz. $1.30; 16 oz. $2.25
Bovril Cordial, Large, $1.25; 5 oz. 40c.
16 oz. Johnston's Fluid Beef (Vimbos) $1.20.

MOTOR TRUCKS

Capacities—1, 1½, 2, 3, 5 and 7½ tons.
"What kind of service may I expect from the manufacturer after I have purchased a motor truck?" An important question to consider.
Mack service begins with an analysis of your delivery problems, the furnishing of accurate and interesting data regarding the experiences of business men whose transportation problems are similar to yours.
And Mack service ends when the truck wears out—how long this will be we do not know, for the first Mack Truck built, 14 years ago, is still doing reliable work at Tucson, Arizona.
The strength of the company behind the truck should be as carefully investigated as the strength of the truck itself. Address Dept. 38.

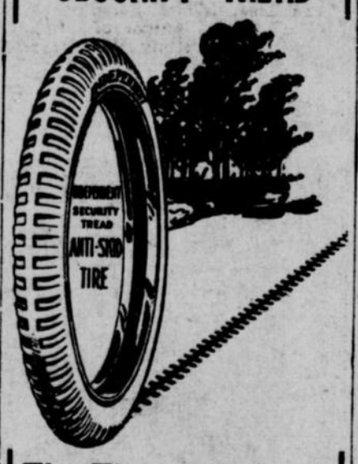
INDEPENDENT SECURITY TREAD



The Tire that Gives The Mileage

Considerable time has been devoted to perfect a non-skid tread that will prevent skidding by not allowing the tire to start to skid.

After working out a great many distinct tread ideas, INDEPENDENT SECURITY tread was adopted.

It is sure grip to the road surface, the high set angles grip in every direction. They won't let go. They can't.

They are very thick and heavy, and last for thousands of miles.

IN AND ABOUT TOWN

FAREWELL DINNER TO MR. C. SWORD

POPULAR INSURANCE MAN IS HONORED BY FRIENDS AT GARRISON CLUB.

Mr. Colin E. Sword, up to recently manager of the Quebec Fire Insurance Company in Quebec, and since promoted to the management of the London and Lancashire Insurance Co. Montreal, with which is incorporated the Quebec Fire Insurance Co., was tendered a dinner by some of his friends of the Garrison Club, at the club last night.

Capt. Whitehead occupied the chair and on his right was the guest of honor, Mr. Sword, and on the left Mr. J. R. Ambrose.

The chairman in a neat speech, proposed the health of the guest, expressing the genuine regret his friends in Quebec felt at the loss of Mr. Sword, but rejoiced with all in his well-merited promotion. The guest in his reply stated sincerely that he was sorry at leaving such true friends as he had in Quebec, and, although he was going to a wider sphere, he did not expect to have so many friends as he was leaving behind him in the Ancient Capital.

During the farewell dinner songs were sung by Mr. F. O. Judge, Mr. Sterling, and Mr. H. E. Huestis.

Among those who attended were: Col. F. Gaudet, Messrs. H. Bosse, B. J. Acland, C. A. Foy, D. Gilmour, A. Robertson, F. S. Stocking, W. J. Stevenson, H. Thompson, V. Taylor, J. Welch, Major G. Wright, G. Dean, Mr. Sterling, Mr.. Symons, Major W. Petry, E. Huestis, F. O. Judge, Col. A. Lavergne, R. Peacock, A. C. Dobell, G. Henderson, H. Stavely and J. R. Ambrose.

Mr. Gilbert Henderson replaces Mr. Sword as manager of the Quebec Fire Insurance Company

LADIES.

TONIGHT AT AUDITORIUM.

There will be no wrestling match tonight at the Auditorium, but the usual performance will take place. The magnificent film "Atlantis," will be shown at both performances, the first one starts at 7.30 p.m., and the second at 9.00.

ANONYMOUS GIFT

The Rector of St. Peter's Church, Rev. Ernest A. W. King, desires to acknowledge with most grateful appreciation the generous and very encouraging gift, anonymously conveyed, of $300 toward church rebuilding and parish extension northward in Limoilou.

"WHEN GHOST MEETS GHOST"

The above is the title of William de Morgan's new book. Those who read "Alice for Short" and "Joseph Vance" will be pleased to hear that Mr. de Morgan's latest work has been received from the press. The author says he considers it the best book he has written and the English reviews have noticed it very favorably. The book will be on sale at the Cambridge Corporation, Buade street, this morning.

QUEBEC BAPTIST CHURCH.

It is a matter for regret that the health of the Rev. W. Willis Wilks has been such as to compel him to resign the office of pastor. He closes his Ministry in Quebec on the 28th inst. The Church has passed a suitable resolution, and regretfully takes leave of Mr. Wilks, praying for his renewed health and great Christian usefulness, wherever his lot may be cast.

On Sabbath the 3rd of May, the Rev. Mr. Hughes, lately from Wales, and highly recommended by leading brethren, will serve as Pulpit Supply, and during May or a more lengthy period.

POLICE COURT YESTERDAY

Two Prisoners Were Sentenced to Penitentiary

Judge Langelier presided over the Police Court yesterday when Arthur Camire, accused of breaking into a house and stealing therefrom $35, was arraigned and pleaded guilty. It being the second time the prisoner was before the court for the same offence, and, his record not being very favorable, he was condemned to serve three years in the St. Vincent de Paul Penitentiary.

Edouard Tanguay, arrested last week for stealing two wrenches from a C.P.R. locomotive and subsequently charged with stealing a part of machinery belonging to a locomotive, the property of the same company, pleaded guilty, and was condemned to serve two years for each charge or four years in the same penitentiary. The prisoner, who is a splendid specimen of young manhood, was greatly agitated when he heard his sentence, and cried bitterly.

Judge Angers presided over the hearing of two revenue cases; Joseph Pageau of Donnacona, accused of selling liquor without a license, which was taken en delibere, judgment to be rendered on Monday next, and a storekeeper from St. Casimier, County of Portneuf, accused of the same offence, found guilty and condemned to pay a fine of $50 and costs.

WHAT BOARD OF HEALTH WILL DO

EXTENSIVE PROGRAMME HAS BEEN DECIDED UPON BY DR. PAQUIN.

The importance and extent of the programme decided upon by Dr. Paquin, of the Board of Health, can be realized from the following titles of the campaign which it has mapped out:—

1. **Sanitary Control**—The sanitary inspection of houses, industrial establishments, factories, public buildings, hotels, hair-dressing parlors, streets, lanes, yards, etc.

2. **Inspection of Food**—The inspection of milk, milk-cans, utensils, cows and cow-stables, (in the city and country), inoculation of cows with tuberculine, the inspection of commercial establishments ,such as groceries, confectioneries, bakeries, restaurants, cafes; private market stalls, slaughter houses, ice and ice houses, cold storage warehouses, fruit and fish stores, etc, etc.

3. **Inspection of Schools**—From the viewpoint of general cleanliness, ventilation, lighting, contagious diseases, isolation, control of the attendance, to limit contagion and to know the causes for absente.

4. **Contagious Diseases—Their declaration**, supervision, policing, the numerous inspections for control necessary, controlled disinfecting, reorganization, disinfecting stations, steam vat, supervision, control of vaccination.

The transportation of people suffering from contagious diseases and of infected objects.

5. **Civic Hospital**—Service, supervision, care given to the sick poor, control, assistance to quarantined families.

6. **The Laboratory**—Bacteriological analysis of milk and water. Pathological analysis of blood, urine, sputum. Chemical analysis of milk, its elemtnts, its adulteration. Chemical analysis of water, organic substances, and of alimentary substances, with regard to purity and their adulteration.

7. **Sanitary Engineering** — Public baths, water closets, construction of brand new public or private buildings, dumps for filth, disposal of garbage, means to be found.

8. **Municipal Assistance**—Struggle against tuberculosis, against infant mortality; popular education, night refugees, supervision, hospital; help to quarantine families.

The things that demand immediate action are:—

1. The reorganization of the milk supply.
2. The supervision of the food supply.
3 The inspection of houses and the organization of a sanitary register.
4. The service for disinfecting.
5. The inspection of eatables and of the places where they are sold.
6. Popular education in hygienic matters.
7. A systematic struggle against filth in general.

REAL ESTATE TRANSACTION.

Belanger Property Sold to N. T. R. For $61,000.

The Transcontinental Railway Commission yesterday closed an important property purchase in connection with the right of way for the Quebec terminals along the river frontage parallel with Champlain street, part of the Allan Steamship docks. The Commission closed with the heirs of the late L. J. Belanger for the land and wharf extension of two properties, one heretofore known as Dumlin's wharf and the other at Giblin's wharf, with two houses, and the price paid for both was $61,000.

SUCCESSFUL MEETING

Jacques-Cartier Council of Royal Arcanum Gather at Their Rooms

Jacques-Cartier Council No. 2102 of the Royal Arcanum held a very successful meeting at their rooms, Martineau Hall.

After the meeting the grand officers and visiting brothers of sister councils were entertained to a smoking concert at which refreshments were served and a very enjoyable time spent by all. The features of the entertainment were recitations by Mr. H. Price, a song by Mr. P. D. Woods, piano solo by Messrs. Crepaul and Petit, which were all rendered in a capable and efficient manner.

Speeches were delivered in both languages by grand and subordinate officers. Mr. Trumble, Regent of the Council, in a very fitting speech, welcomed the grand officers and officers of subordinate councils. Grand officers being Messrs. Morison, Nutter, Leclerc and Jacques. Mr. Meunier delivered an address in French which was appreciated by all, particularly by the French speaking members. Mr. Flynn, past Regent, of Citadel City Council, made a speech in English, which was very much in keeping with the good of the order.

The Council Chamber for the occasion were very tastefully decorated and much credit is due Messrs. Cote and Gaucher for their efforts in this respect.

A very pleasant evening was brought to a close by the singing of "O Canada" and "God Save the King."

QUEBEC SYMPHONY SOCIETY CONCERT

WAS MUCH APPRECIATED LAST NIGHT—SELECTIONS WELL RENDERED

The Quebec Symphony Society gave its third concert at the Auditorium last night to a fair sized, selected audience. The concert, which was held under the patronage of T.H.R. the Duke and Duchess of Connaught, His Honor the Lieutenant-Governor of the Province and the Mayor of Quebec, was an orchestral treat that was greatly appreciated by all present. The orchestra, under the direction of Mr. Joseph Vezina, numbered over sixty well known Quebec amateurs who played their respective instruments in a manner that demonstrated careful training and artistic taste, only found in cultured lovers of music. The individual and collective execution of the orchestra was faultless for expression and harmony, with every regard for well balanced precision in melodious volume. The conductor, Mr. Vezina, who ranks among the foremost artists of Canada and familiar with one and all of his proficient orchestra, encountered very little care for anxiety made evident by the easy grace in which he wielded his baton. The responses to his will were given with exactitude and effect that left no room for adverse criticism.

The concert opened with Wagner's "Huldigungs March," followed by a vocal solo "Air du Sonneur," by Mr. Paul G. Ouimet, who is no stranger to a Quebec audience, and sung with usual effect and expression and obliged to respond to an encore. Later during the second half of the programme he gave "Les Deux Grenadiers" which was received by well merited applause. One of the gems of the evening was the violin solo with orchestral accompaniment by Mme. G. Commettant, who gave Lalo's "Symphonie Espagnole" (first movement,) with most pleasing effect. She not only played with sweet expression and brought out the poetic conception of the composer's inspiration but showed by her excellent execution that she is a true lover of music and as such, deserved the enthusiastic applause and demand for an encore accorded by the audience.

The execution by the Symphony Orchestra of the various selections rendered throughout the evening were all worthy of praise. "Les Voix des Cloches," by Luigini, was particularly fine; likewise, Schubert's "Symphonie en si Mineur" and Lefebvre's "Cortege Nuptial," all of which were executed with excellence of score, perfect harmony and exquisite taste that earned the enthusiastic applause and calls for encore from the appreciative audience.

RECORDER'S COURT.

Two prisoners charged with drunkenness, were before the Recorder yesterday. One, an old offender, went to jail for two months in default of paying a fine of $10 and costs. The second paid $5 and costs and was discharged.

A number of tax cases were taken up during the day.

FAGUY, LEPINAY & FRERE,

254 to 264 St. John Street

CITY OF QUEBEC

CITY HALL

QUEBEC, APRIL 1st, 1914.

Leases of Shops, Stalls, Sheds on Montcalm, Berthelot, St. Peter's Markets of the City and of Stalls on Champlain Wharf.

PUBLIC NOTICE.

Is hereby given that the shops, stalls and sheds on the divers markets of the city shall be put up at auction and leased from the first day of May next, 1914, to the 30th of April, 1915, at the City Hall, in the rooms of the Finance Department, beginning at ten o'clock in the morning of the days hereinafter named, viz.:

Montcalm and Berthelot Markets, Wednesday, the 22nd OF APRIL INSTANT.

St. Peter's Market and Stalls on Champlain Warf on Thursday, the 23rd OF APRIL.

In the event of the present lessees not paying before the sale by auction all arrears of rent due by them, the said shops, sheds and stalls shall be put up by auction and shall be leased to any other applicant who will then and there comply with the said conditions.

Instructions have been given by the Market Committee to lock up on the last day of April instant at five o'clock p.m., the stalls that shall not be leased on the days above mentioned.

A notarial lease containing the conditions will then and there be signed by the lessees and paid by them, with a copy for the corporation.

One month's rent in advance, and the price of the license shall be paid by each of the lessees for each stall prior to the passing of the deed of lease to the notary then and there in attendance in the rooms of the Finance Department.

Possession of premises shall not be given by the city to any person who shall not have previously signed his lease and paid his dues as such, and as long as he shall fulfil his obligations.

Each lessee shall furnish before the execution of the said deed of lease, and to the satisfaction of His Worship the Mayor, two good and sufficient securities.

The lease of any shop signed by the lessees and their sureties after the adjudication, leases shall be absolutely null and void, and the market committee shall proceed forthwith to grant them to other parties.

The terms of payment and other conditions of the leases will be made known publicly on the spot before proceeding to the sale.

For more ample information, apply to Mr. George Trudel, City Hall.

By order:

H. J. J. B. CHOUINARD,
City Clerk.

CITY OF QUEBEC

CITY HALL

QUEBEC, APRIL 1st, 1914.

Sale of the Revenues of Montcalm, Jacques Cartier, St. Peter's, Berthelot and Finlay Markets, and that portion remaining of the Late Champlain Market.

PUBLIC NOTICE.

Is hereby given that MONDAY, THE TWENTIETH OF APRIL, 1914, AT ELEVEN O'CLOCK in the forenoon, in the rooms of the Finance Department in the City Hall, of the City of Quebec, the revenues of Montcalm, Berthelot, St. Peter's Jacques Cartier and Finlay Markets, along with the remaining portion of the old Champlain market, shall be sold, seperately by public auction, for the term and space of one year, from the day of the signature of a notarial deed of the said sale until the 30th of April of next year, 1915.

The upset price shall be ($250.00) two hundred and fifty dollars for the revenues of Montcalm market, fifteen hundred dollars ($1,500) for the revenues of Jacques Cartier market, on the space between St. Francis, Crown and King streets; St. Peter's Market, upset price, $1,000; Finlay Market and Berthelot Market, $20.

The remaining portion of the old Champlain Market, upset price, for $1,200.00, for the revenues of the two markets, and for the revenues of the St. Paul Market weigh house, upset price $700.00.

Each bidder will have to exhibit a receipt from the treasurer to the amount of two hundred and fifty dollars for Montcalm Market, fifteen hundred dollars for Jacques Cartier Market—one thousand dollars for St. Peter's Market and the weigh house, $1,200.00—twenty dollars for Berthelot Market, and one thousand and two hundred dollars for the remaining portion of the late Champlain Market and Finlay Market, and seven hundred dollars ($700) for St. Paul Market weigh-house, showing that such deposit has been made.

The City reserves the right to establish other public weigh houses besides those mentioned in the said report, which additional weight houses shall be sold by public auction, unless the City decides to keep said additional weigh houses under its control.

The said revenues consist of the taxes leviable upon persons who frequent the said markets, in the same manner as such taxes are or may be collected by the clerks of the markets, the revenues of the cattle stand of the Champlain Market being, however, excluded therefrom.

The cost of the notarial deeds and copy thereof to be paid by the adjudicataires.

Immediately after the said adjudication, the said adjudicataire shall sign the said notarial deed of sale, and upon his default of so doing, the said price of his adjudication shall remain confiscated for the benefit of the city, which may then proceed to resell the said revenues, after public notice of four days, published to that effect in the official newspapers of the city.

The said sale shall be made subject, moreover, to all the conditions which shall be read and made known at the moment of the sale, and which shall be entered in the deed of sale.

For more information, apply to Mr. George Trudel, City Hall.

By order:

H. J. J. B. CHOUINARD,
City Clerk.

apl1to23.

PUBLIC NOTICE is hereby given that on Monday the twentieth April, 1914, at eleven o'clock in the forenoon, in the rooms of the Finance Department, in the City Hall, of the City of Quebec, the rent for that strip of land, being part of number 7 of the cadastral number for St. Roch's Ward and situated between Victoria Bridge and Mr. J. H. Gignac's grounds will be put up for sale by public auction for the term and space of one year from the 1st day of May, 1914 to the 30th April, 1915.

The upset price shall be $800.

Conditions of payment are for Cash.

By order,

C. J. LAFRANCE,
City Treasurer.

Brownsville, Tex., April 23—Gen. Zaragoza, the Federal commander at Tampico, has been given 24 hours to surrender by General Luis Gaballero, commanding the Constitutionalist forces which were besieging the city, according to a message given out at Constitutionalist headquarters at Matamoras tonight. This was considered here as disposing of the report that Federals and Constitutionalists at Tampico had united to oppose the Americans.

MONTREAL GAINS ANOTHER VICTORY

FINAL SCORE WAS 2 TO 0—TIMELY HITS AND GOOD BASE RUNNING

Jersey City, April 24—Montreal concluded its Jersey City visit with another victory over the Skeeters this afternoon, making it an even break in the series. The final score was 2 to 0. Timely hits and good base running were the winning factors for the Royals, backed up by the good pitching by Couchman, who reduced the Jersey City batting averages by holding them to five hits. Montreal got to Verbaut for seven. Whiteman's triple and Keller's single in the first round landed the victory. Score:

THE DUBLIN GIANT KNOCKS OUT FLYNN

New York, April 24—Jim Coffey, the "Dublin Giant" knocked out Jim Flynn the Pueblo fireman, in the fourth round of a ten round match here tonight. A straight right to the point of the jaw ended the contest after two minutes and forty seconds fighting in the fourth round. Flynn was knocked down several times in earlier rounds and took the count twice before receiving the knockout blow in the fourth.

DE ROUEN WINS AGAIN

Ottawa, April 24—Raoul De Rouen again defeated Raymond Cazeaux in their wrestling bout at the Arena tonight. He won the first fall in 24 minutes with a body hold and the second in 14 minutes with a scissors and body grip. The bout was one of the fastest witnessed here this season.

WINNIPEG'S BUILDING PERMITS ARE HIGH.

Winnipeg, April 24—Winnipeg's building permits passed the five million dollar mark yesterday, not stopping for the day until it had passed that amount by over $100,000. The total for the year to date is $5,114,200.

Vancouver, B.C., April 24—E. T. Shaw, son of H. S. Shaw, 85 James street, Ottawa, surveyor on the Canadian Northern construction works, and H. Burniston and R. M. Horton, were drowned yesterday in the Fraser River while crossing in a small boat near Lytton.

TORONTO LOSE THE SECOND GAME

GROVER WAS HIT HARD AND WAS VERY WILD—SCORE IS 9 TO 5.

Providence, April 24—Toronto won the final game of the series today by a score of 9 to 5. Grover was hit hard during the two innings he officiated and was very wild, passing two in the second session and hitting one which with a muff by McIntyre netted the Leafs five runs. Score:

N. Y. MAYOR KNOWN AS A DEAD-SHOT.

"Handles a Rifle With More Ease Than a Cane"—Comes of Irish Fighting Stock.

"Extraordinary courage—both physical and mental courage—this young Mayor has," wrote James Creelman, of John Purroy Mitchel. "He does not appear to be afraid of anything. In politics he plunged ahead with a defiant daring that the old guard class as recklessness of youth.

"There are stories told of Mitchel's physical courage, of encounters with big game in the Far North and in the Tropics. He handles a rifle with more ease than a cane. He prides himself on the steadiness of his aim and the straightness of his shots.

"He has only one enemy that he fears. That is the jungle fever contracted in the swamps of British Guiana, down near the Equator. He killed jaguars and a great variety of game on a trip to the tropics, but the worst of all products of the forests and swamps tinged him with its poisonous miasma. Once in a while it catches him even here in a northern climate. A terrible headache, a faintness and a nausea overcomes him, and he struggles with it mightily for a day. Then he throws it off.

"The predominating anatomical composition of Mitchel is nerves. He has such a superabundance of them that they seem to run double to every part of his body. Perhaps the nerves are so thick that there is no opportunity for flesh to accumulate. He is nearly six feet tall—put if at 5 feet 11 inches—and he weighs close onto 150 pounds. Life insurance examiners class that as 20 pounds under normal weight. Mitchel goes so fast that tissue cannot get a hold on him. As a boy he ran rather than walked. As a man he puts on nerve pressure up to the safety limit and keeps it there every waking hour.

"He is tall and he appears exceptionally thin. His hands are narrow and his fingers are long and tapering, with a lot of sinew in them. His nose, too, is long. It is very thin and sharply pointed. It is the kind of a nose that betokens the man who cuts straight into things and asks questions that have double edges to them.

"He throws his head up and slightly to one side and looks straight ahead. That was the way Roscoe Conkling held his head. They called it pride in that statesman's day, but in reality it betokened fearlessness, daring and temperament."

Comes of Fine Old Fighting Stock.

Mitchel comes of good old fighting stock. His grandfather, John Mitchel, was one of the fiery leaders of the Young Ireland movement, edited the United Irishman; in 1848 was convicted of treason for utterances against the British government, and was banished to Australia, under a 14-year sentence. He escaped in 1854 from Van Dieman's Land, and with his three sons, John, William and James, came to this country and settled in Virginia. When the Civil War broke out the Irish patriot and his three sons, joined the Confederate army. Two sons lost their lives. Willam was at one time in command of Fort Sumter, a writer in the New York Herald states. James served under Stonewall Jackson. After the war, the elder Mitchel returned to Ireland and in 1875 was elected to parliament from Tipperary, but was declared ineligible and was not allowed to take his seat. Soon afterward he began to write his book "The Last Conquest of Ireland."

James Mitchel, father of the mayor, settled in New York, went into politics and became fire marshal.

"Like President Wilson, the mayor comes from Irish-Scotch stock, and like the President's ancestors, Mr. Mitchel's forebear, were Presbyterian ministers," the Herald recalls. "The grandfathers of the President and Mayor were friends and kindred spirits in politics more than threescore years ago. John Mitchel, the patriot, and James Wilson, the President's grandfather, were fellow-editors in county Down."

WOMAN IN ANCIENT TIMES WAS "FREE"

Cairo, April 24.—Sir Gaston Maspero, the famous French director of the Egyptian Museum, lectured this week at the Continental on "Women of Ancient Times."

He said that according to the mural paintings at Sakhara one was led to assume that woman enjoyed equality with her husband. She was the mistress of the house, and all, including her husband, who entered there became her guests.

This state of things still existed among the semi-barbarous races of Brazil, declared Sir Gaston. These semi-civilized races treated women with marked respect because on her depended not only the perpetuation of the race, but the purity of the breed.

Man had many wives, but the first one was the nearest allied to him in blood. In the East, kings and nobles often married three sisters, which was supposed to be the purest marriage.

A man in history was the son of a certain woman, not the son of a certain man. Rameses the Great was the son of the woman Taya.

Women up to the time Herodotus visited Egypt, were perfectly free politically, economically and civilly. The essential part of marriage contracts to this day runs as follows:

"Thou takest me to be thy wife, and thou givest unto me a dowry. If it so happens that I tire of thee or that I cast my eyes on another than thee, then I will return unto thee a part of thy dowry and shall go where good speech seemeth unto me."

Listowell, Ont., April 24—Adam Reidt, a widower, aged 44 years, was killed yesterday while operating a gasoline grain chopper in his barn, near here. His mangled body was found by a neighbor. It is supposed that in attempting to throw off the belt, his arm was caught in the pulley.

You Are Entitled to This Marvelous Motor in Your New Car

If you pay over $2,500 for your new car, you are entitled to the World's Champion Motor.

You are entitled to a motor that has PROVEN its absolute reliability by running continuously under full load for 13 days and nights without a stop.

You are entitled to a four-cylinder motor that has PROVEN its power-ability by developing MORE THAN DOUBLE its rated horse-power—as much power as any "six" of equal cylinder dimensions.

YOU CAN GET SUCH A MOTOR ONLY IN THE

RUSSELL-KNIGHT

$2,975

Because—the RUSSELL-KNIGHT sliding sleeve motor is the only motor that has proven its ability by successfully accomplishing these drastic tests. No poppet valve motor could possibly survive them. No manufacturer or owner of a poppet motor dare even submit his engine to similar tests.

The RUSSELL-KNIGHT "28" motor has all the power—all the smoothness—all the flexibility of a "six" or 50 per cent greater size and bulk. Yet it has only half as many parts—only half as many chances to wear, require replacement, or need adjustment.

And no "six" of any size can match it for economy of oil and gasoline.

Isn't this the type of engine YOU want in YOUR new car? Don't you think you're entitled to IT—when you pay $2,500 or more for a car?

The wonderful World's Champion Motor is only one of the many reasons why your next car should be the Russell-Knight.

ABBE CASGRAIN BACK IN QUEBEC

RETURNS FROM IMPORTANT MISSION CONCERNING CATHOLIC IMMIGRATION.

Rev. Abbe Casgrain, President of the European Society of Catholic Emigrants to Canada, and Chaplain of Catholic Immigration for the Port of Quebec, who left New York on the 3rd of January last for Rome on business connected with the European Society and subsequently travelled over continental Europe, arrived back in Quebec yesterday, looking the picture of health, and ready for his duties among the immigrants to arrive here during the season of navigation.

Rev. Abbe Casgrain was seen last evening at the Archbishop's Palace by a Chronicle representative, whom he greeted with cordiality, and consented to be interviewed in regard to his visit abroad and the results of his business travels, and said: "I proceeded by steamer up the Mediterranean on my way to Rome, and submitted my report to His Eminence Cardinal De Lai, in charge of the Consistorial Congregation appointed two years ago by His Holiness the Pope. This congregation is a special department set afoot to guide the spiritual welfare and settle all questions arising out of the great movements of peoples. His Eminence is a man of good character and great ability, who received me in a most gracious manner, and conversed on the subject of emigration from Europe and settlement in foreign countries with remarkable knowledge. Like all great men of expansive minds, he is humble and anxious for all possible knowledge to guide him in the work he is in charge of, and particularly desired that I should write him often on the subject of my duties and observations, for he said the man on the spot is best qualified to speak."

"I had an audience with His Holiness the Pope, and after remaining two weeks in Rome I left for Trieste, Austria, to take observations at that port of the arrangements made for the exit of emigrants to foreign countries. This port is a great outlet for emigrants who congregate there to embark on steamers for new countries, and the number of emigrants who go out of the country is tremendous. The Government arrangements for their housing and means of embarkation are thorough in every point of excellence, nothing omitted for their comfort and convenience, and when I was there an immense new buliding for the housing of immigrants was in course of erection. The great bulk of the Austrian emigrants proceed to Brazil, and those are all of the agricultural who congregate at this port from the south and east of Continental Europe, and go to settle on the land.

"The real purpose of my visit to Europe was to impress upon the emigrants coming to Canada, who sought success, was to settle on the land, that Canada held out great possibilities for agriculture, and was essentially an agricultural country, and the emigrant should at once seek to settle on the land, and not stay in the cities and towns. The whole of the Continental European emigration that come out to Canada were farmers, who, during their lives, tilled the soil for a living, and should be assisted to settle on the vast agricultural areas that Canada possesses, that would lead to their success and comfortable independence, and at the same time develop Canada as a rich and prosperous country. True, the great bulk of these agricultural emigrants came out to Canada without much money, in the majority of cases only the amount in their possession that the law provides they should have to allow them to land. Those men are engaged on construction work, and if they only saved their earnings they would have enough at the end of two years to enable them to obtain land and settle on it, but unfortunately they are not encouraged to do so, and accustomed as they have been in their own country to possess ready money, they were inclined to crowd into the cities and towns, and, out of work, get rid of their savings, and of little use to themselves and the country. They also get a taste of city or town life, became irreligious and drift towards socialism.

"If they were educated and trained by their clergy, this would be otherwise, but how can we train and educate them if we cannot reach them? It is to meet these conditions that His Holiness the Pope is taking such a great interest in the movement of Catholic emigration from Europe. Created the Consistorial Congregation in charge of Cardinal De Lai, and having Italian priests trained to follow and protect emigrants by looking after their spiritual welfare. The agricultural emigrant must be taught that he shall not give up the land and everything should be done by the government and people of Canada to that end.

As I have already pointed out the clergy must be placed in a position to reach the emigrant and see to his spiritual welfare that will safeguard his good citizenship, and keep him from drifting towards socialism. The Government has a tremendous responsibility in this regard, and one of the things which should be particularly observed, is respect for the Sabbath. No work should be allowed to proceed on the Sabbath, it is a day of rest and religious exercise, and capitalistic avarice should be made to cease employing labor on that day. It spoils the honest agricultural emigrant and leads to a serious course that one day will end in socialism and great harm to the country. The capitalist in his greed for profits make all kinds of urgency pleas and give extra wages to have the men labor on the Sabbath, regardless of the character-ization of the laborer, and his ending in socialism, by preventing the clergy from reaching him on that sacred day of the week, to guide his spiritual welfare and education as to his duties to himself and his family. I mention this with emphasis, because it is a short-sighted policy on the part of the employer of labor, and is provocative of strikes and socialism.

The same thing is practised in the mills and every other inddustry. The capitalist is always calculating his interest on debentures and his profits, and to improve his condition in this respect, pays no heed to the condition and spiritual welfare of his workmen. He offers an extra wage for them to work on Sunday, with the knowledge by running his plant day in and day out to increase his output, and his profits, by an extra output of one-sixth by his men working on the Sabbath. They gain in wealth, and the thousands of human beings lose their religion, their morals, become drunkards and socialists and a danger to society.

Abbe Casgrain in his travels also visited Poland, making the ancient capital Cracow his headquarters. Here he discussed emigration with the priests and impressed upon them the necessity of educating their people coming to Canada to go on the land. While in Poland he received a letter from the Cardinal Secretary of State, which was published in the "Acta Apostolicae Sedis." In it His Eminence says: "The Holy Father applauds this noble and salutary initiative, the scope of which is to offer to Catholic immigrants, without distinction of nationality, who intend to settle in Canada, to those ever-growing numbers whom the wants and necessities of life oblige to leave their families and their native land, to seek abroad a better lot and on consideration of this material condition, to offer them, I say, and to procure for them not only temporal assistance and protection, but the inestimable and still more benefits of moral and religious assistance and protection."

Rev. Abbe Casgrain arrived back in Halifax from Europe last Saturday, and spent several days there and at Sydney, C.B., observing the conditions of European immigration in the latter place. He says there is a very large number of foreign immigrants settled in Cape Breton working in the mines and the steel industries, who are not receiving the proper care, training and spiritual education they should have. They also work on Sundays as well as week days, and is leading to their demoralization, that shall be ended by the Government.

He contends that the province of Quebec should be opened up to foreign immigration. There are miles of acres of land that should be settled by agriculturists, that would enrich the province. The erstwhile European agriculturist is accustomed to cut down trees and clear land, and the province of Quebec government should hold out inducements and encouragement to such immigration, especially Austrian immigration, a superior class of people, who would with good educational surroundings grow to be a very important portion of the province's population.

The Car of The Canadian Family

Get This Thought!

Hupmobile owners—and there are tens of thousands of them—will have no other car, because the Hupmobile *gives them complete satisfaction at a lesser cost!*

That's the Hupmobile story summed up and boiled down—a car that's never *out* of commission, and a car that costs less when it's *in* commission.

Two Mills Per Mile

When we speak of lesser cost we mean all-around lesser cost—upkeep, repairs, tire mileage, gasoline and oil mileage *and depreciation when you come to sell the car at second hand.*

But let us drive home just one point today—the repair cost indicated by a canvass of all the repair parts ever sold by this company.

Assuming an average of even 5,000 miles per car per year—which, of course, is ridiculously low—the average cost comes to the absurd figure of 2.7 mills per mile.

As a matter of fact, Hupmobile repair cost unquestionably averages 'way below 2 mills per mile—and any owner you talk to will tell you that his total cost is one of the least of his troubles and the service he gets, one of the greatest of his joys.

Go to the Hup dealer and let him tell you the delightful details of a story we can only outline here!

DOES YOUR STOMACH CONTAIN A GLASSFUL OF ACID?

98 OUT OF 100 DYSPEPTICS HAVE DANGEROUS ACID IN THEIR STOMACHS, WHICH MUST BE NEUTRALIZED IF GOOD HEALTH IS TO BE MAINTAINED.

If you held a teaspoonful of hydrochloric acid in your mouth for only a second you would not be surprised at its burning and inflaming all the tissues; yet an eminent specialist states that 96 out of 100 dyspeptics go about with a glassful or more of this powerful acid in their stomachs, and then wonder what causes the burning, and aching and why they suffer the discomfort after meals. To put whole-some food into an acid stomach only increases the discomfort, because the acid mixes with the fresh food and turns it sour, making a lot more acid. The acid condition causes food fermentation, which irritates, distends and inflames the tender stomach lining, and it is not surprising that specialists say acid stomachs are dangerous. This decidedly dangerous and uncomfortable condition can be overcome either by following a strict diet or, and this is far easier and more quickly effective, by taking a teaspoonful of bisurated magnesia in a quarter glassful of water after meals to neutralize the acidity. The latter course is much more satisfactory because it corrects the acidity and banishes discomfort without any need for diet.

"EASTER NOVELTIES"

Ladies' Boots, Shoes and Pumps.

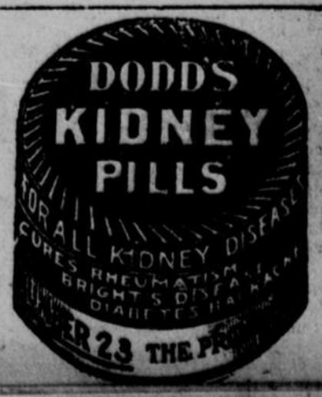
LITTLE CHANGE IN EMPEROR'S CONDITION.

Vienna, April 24—There was no appreciable change in the condition of Emperor Francis Joseph during the day, according to the bulletin of the physicians issued tonight. The bulletin says:

"The condition of the Emperor shows no appreciable change. His strength, heart action and appetite are quite satisfactory."



ENORMOUS DEMAND FOR "FRUIT-A-TIVES"

1,152,000 Boxes Sold Last Year

Six of These Fruit Liver Tablets for Every Man, Woman and Child in the Dominion.

In seven short years, "Fruit-a-tives" has become the most famous and the most widely used medicine in Canada that has ever been introduced to the people of the Dominion. Even those who take Fruit-a-tives rguiarly and recommend these famous fruit juice tablets to their friends, probably have no idea of the enormous number of "Fruit -a-tives" that are being used by those wishing to regain their health.

Last year, over eight thousand gross boxes of "Fruit-a-tives" were sold. As there are one hundred, forty-four boxes in a gross, this means that over one million one hundred thousand boxes were sold n 1912. And this year, this number will be further increaaed.

This means a box of "Fruit-a-tives" for every six persons in Canada, or six tablets for every man, woman and child in the country.

"Fruit-a-tives" are sold in every section of the Dominion. On the rugged Atlantic Coast, throughout the Maritime Provinces, among the French in Quebec and the English in Ontario, all over the great Prairie Provinces and on the shores of the Pacific, "Fruit-a-tives" is the best selling medicine in stock.

This is true because "Fruit-a-tives" gives results. For chronic Constipation, Indigestion and Stomach Trouble—for bad Blood, Skin Eruptions and Eczema—for Rheumatism, Sciatica and Lumbago—for Kidney, Bladder and Urinary Trouble—"Fruit-a-tives" cures when nothing else will.

In the head office in Ottawa, are hundreds of letters and photographs from grateful men and women who have been cured of sickness and suffering by "Fruit-a-tives." Many of these letters and photographs have been published by permission and have induced other sufferers to try "Fruit-a-tives," which is now sold in every city, town, hamlet and cross roads store.

50c. a box, 6 for $2.50 trial size, 25c., at all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

LEO BOUCHARD, Manager.

ENGLISH BARMAIDS' TALE IS PITIFUL

22,000 ENGAGED IN CALLING, WHERE HOURS ARE LONG, WAGES MISERABLE.

London, April 21—Not every visitor to England makes the acquaintance of th British barmaids, but it is fairly safe to say that a fairly high percentage of tourists does so to a more or less limited extent.

Th British barmaid is not one of the oldest features of this country. Goldsmith speaks of the "unblushing barmaid of the country inn." and other writers of the eighteenth century mention the barmaid, but the employment of women in "public houses" was not general here until about the middle of the nineteenth century.

Today there are about 22,000 barmaids in Great Britain and Ireland, still spoken of as the "United Kingdom."

These figures are taken from the current quarterly number of the Women's Industrial News, in which appears a report of an investigation into the business made by that organ.

Even now, it seems, the barmaid is not common in Scotland or Ireland, where men are generally employed in Public houses and women only in hotels and places which cater to the tourist and visitor rather than to local clients.

The report suggests that this may be attributed to one or other of two reasons. Either the Scotstsman and the Irishman have a greater respect for women than the Englishman, or else their "more inveterate habit of drink" makes "other attractions superfluous and diversion impertinent."

Barmaids More Industrious.

At the same time it is suggested that perhaps the Englishman is no more than indifferent, and that the barmaid with him displaces the barman "because she is more cheaper, more industrious, more sober, more amenable to the wishes of her employer, less rebellious against the hard conditions of public house life."

Of the 22,000 women now employed in Britain as barmaids about one-half are between 18 and 25 years of age.

The following extracts from this report, which is the result of careful investigation, personal interviews and informations from various association and clubs dealing with this particular branch of work, may be of interest to the countless thousands who have been served with some form of liquid refreshment by the British barmaid:

"The barmaid belongs to every grade of the working and lower middle class. She is the daughter of the small tradesman, the skilled artisan, the general laborer. She is sometimes the daughter of the publican, and from her youth upward has had experience of the public house. The bar is in this case her natural career and she remains, often until she marries in her father's house.

To a young girl, who has high spirits and a keen sense of enjoyment and who has just entered into industrial employment—a factory hand, a domestic servant, a shop assistant, an apprentice, a clerk—the monotony of the daily round is at times intolerable. Life she is sure has something better to offer, something which is fuller, richer, newer. In the public house are gayety, excitement new faces—the unknown. She, to, is attracted to the bar.

"Many barmaids are again straight from home. The case is not uncommon in which a young girl, in direct defiance of her parent' wishes, runs away to join a friend in the bar. And many barmaids are orphans. The girl who has always lived at home, being thrown out at the death of a parent on her own resources, sees sometimes in the high wave of a 'learner' in the bar and the living in system a way which seems very easy and safe and is more to her taste than domestic service.

"There is yet one other girl, often of good education, the daughter of a tradesmen, or of a small professional man, a typist, a nurse, the girl who has once made a false step and to whom the bar is the only career which is open. But she is the exception. For the barmiads belongs to the type of normal and average working girl, industrious, sober and honest."

An what is this "high wage of a learner?" The report says: There are two ways by which a barmaid enters her trade, and to some extent the distinction runs right through her career and separates one type of barmaid from another. The old fashioned barmaid, the daughter of the general laborer, the factory hand, the general servant, starts work as a rule as a housemaid in a small working class public house, being occupied in domestic duties in the morning and serving in the bar in the afternoon and evening, generally from 12 to 2 o'clock. Her first wage is five or six shillings ($1.25 or $1.50) a week and her keep, and she commences her trade at 17 or 18 years of age.

BABY'S OWN TABLETS KEEP LITTLE ONES WELL

Mothers, if you wish your little ones to be well, if you wish them to be bright, active and happy, free from colds, worms, constipation, and the many other childhood ailments, give them Baby's Own Tablets. These Tablets never fail to make the sickly child well. Concerning them Mrs. Alphonse Landry, Upper Caraquet, N.B., writes: "Baby's Own Tablets have been of great help to me in keeping my little ones well and I can recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THIRTY YEARS AGO TODAY

Racquets

It was mentioned a few days ago in this column, that Harry Boakes of this city, had gone to England and defeated Stevens ,(Judy) on his own court. It may be of interest to those gentlemen who composed the racquet players of Quebec in Harry Boakes' time, to recall the score by which Boakes won his match with Stevens, it was as follows:

Boakes . ...15-12-15-15-15—72
Stevens ... . 9-15- 3-12- 6—45

As Stevens is the second best player in England (professional) nobody but Gray being equal to the task of beating him in his own court, this most certainly must be considered a brilliant victory for Boakes.

Presentation to Mr. Wheeler

At this time 30 years ago, the tidewaiters and boatmen of the Quebec Custom House met to present a complimentary address accompanied by the presentation of a silver waiter to Mr. Alfred Wheeler, the tide surveyor. The inscription on the silver salver is as follows: "Presented to Mr. Alfred Wheeler, tide surveyor, by the tide-waiters and boatmen of H. M. Customs as a token of their regard and respect, Quebec, 23rd April, 1884." Mr. Wheeler made a feeling and most suitable reply, and thanked one and all for their token of regard and respect. After cordial hand-shakings and congratulations the party broke up.

A HUNDRED YEARS AGO TODAY

Bonaparte Not a Great Man

A perusal of the last mail to Quebec, adds to our conviction that Bonaparte is anything but a great man; his whining addresses, in adversity, are as little compatible with an heroic soul as were his arrogance and cruelty in prosperity. His spirit is, at present, as abject as, a year or two past, it was overbearing and insatisable. He would submit to any conditions to save his life, and his seat on the throne of France; but his hour is come. What his fate will precisely be, we pretend not to foretell; but we do not perceive the shadow of an anchor on which he can rest a hope, as to himself, something, perhaps, may be done to please the Emperor of Germany, in behalf of the child, grandson to the latter. But if the throne is to be secured to the young Bonaparte it will cross the hopes of the Bourbons and must necessarily produce a clashing. It is thought that orders are sent to Lord Wellington to support the standard of the Bourbons, the event will, in all probability, depend upon the part the French may themselves take. Should they evince any obstinacy in favor of Napoleon, Paris may be the sacrifice. Should Napoleon think of flying, the earth has no resting place for the sole of his foot. Blood will from all its pores, rise in judgment against him.

CANADIAN FRATERNAL ASSOCIATION OFFICERS.

Toronto, April 24—At the concluding session of the Canadian Fraternal Association held today the following officers were elected:

President: Dr. John Ferguson, M.A. of Toronto; Vice-President: W. S. Harrison, Toronto; Secretary-Treasurer: Mr. W. F. Mottague, Hamilton; Cousellors: Mr. Lyman Lee, of Hamilton; Chairman Medical Section: Dr. Milman.

Weary Sufferers Welcome

Dr. Stohr's Kephaldol

Pronounced Keph-al-dole

THE GREAT UNFAILING PAIN RELIEVER

In all cases of NEURALGIA, NEURITIS, SCIATICA, GOUT, RHEUMATISM, etc., especially in acute form where maddening pain makes life almost unbearable, KEPHALDOL offers that which will evoke heartfelt gratitude—relief, prompt and certain, with speedy cure ahead.

KEPHALDOL is no injurious drug, no charlatan nostrum—thousands of medical men all over the world, including all representing the clinical opinion of Vienna (to which City belongs Dr. Stohr, KEPHALDOL'S famous discoverer) have pronounced this remedy to be a means not merely of alleviating, but of *stopping* pain without risk of injury to the heart or other organ of the body.

MRS. A. E. TURNER, 52a, Willoughby Street, New Lenton, Nottingham, writes:—

"I must say Kephaldol seems to charm away the pain like nothing else does. I have tried a great many things for Rheumatism, but Kephaldol eases the pain quicker than anything I have ever had."

MR. LAWRENCE WINDLEY, Cranleigh, Dane Road, Luton, Eng., sends the following letter;—

"I had rheumatism in my leg, and had to go about with the aid of a stick. I took two Kephaldol tablets at 10 a.m., and by eleven all trace of pain had disappeared and I have not had it from that day to this. All you say of Kephaldol is true. It is a pain killer. The remaining tablets I gave to a friend suffering with acute Neuralgia, and they have positively cured him."

A letter from MRS. BEATRICE COSSEY, Brookfield, Eng., is worth repeating:—

"My experience of Kephaldol as a pain killer is absolutely marvellous. I had a fearfully acute attack last year of Neuritis, Sciatica, and Lumbago, and it did wonders for me. I shall always feel most grateful for what it has done, and I am most happy to let others know of its wonderful effects as a pain destroyer."

KEPHALDOL IS SOLD IN TUBES BY DRUGGISTS EVERYWHERE AT FIFTY CENTS A TUBE

If you find any difficulty in procuring locally, a large tube will be sent direct by the Manufacturers upon receipt of 50c. Address: KEPHALDOL LIMITED, 31 Latour Street, Montreal.

14

GENERAL ENTERS BERLIN; UNIFORM—NIGHT SHIRT

Von Podbielski, The Dignified, Loses His Valet And Clothes.

Berlin, April 24—General von Podbielski, who can dispute with the Kaiser, the Crown Prince, Prince Henry of Prussia, and Admiral von Tirpitz the distinction of being the most popular man in Germany, is the hero of an amusing sleeping-car episode.

The General, who is President of the German Olympic Games Council and is popularly known as "Pod," was journeying by night from Danzig to Berlin to attend the meeting of the council. He always travels with a faithful man servant, Heinrich. When the General uses a sleeping car it is Heinrich's business to put his septuagenarian master to bed, pack his clothes in a suitcase, and take the latter to his own compartment, in order that "Pod," whose waist line measures 52 inches, may not be unnecessarily crowded in his compartment.

When the General awoke on the morning in question, three-quarters of an hour from Berlin, no Heinrich was ready to dress him. He discovered that the carriage in which the valet was traveling had been detached in the course of the night, and with Heinrich was well on its way to the Russian frontier, 200 miles away.

A sleeping-car attendant attempted to relieve "Pod's" predicament by searching for a passenger of the General's dimensions who might be able to accommodate him with a "landing outfit," as he had lost everything except his nightshirt; but nobody with a waist line approximating 52 inches could be found.

The General himself saved the situation by telegraphing to the Frederich-Strasse Station in Berlin to have a Red Cross ambulance await him. Into this he clambered on his arrival, wrapped in a blanket. From an adjacent hotel to which the "invalid" repaired he promptly telephoned to tailor, haberdasher, bootmaker, and hatter, and within an hour was equipped with a faultless outfit. In this he appeared punctually at the meeting of the Olympic Council, to which he related his experience with great gusto.

WEATHER DETAINING INWARD STEAMERS

SNOW STORM AT CAPE RACE—LA TOURAINE ORDERED TO HALIFAX — LAKE ICE MOVING.

It now appears as if the White Star steamer Teutonic would not arrive here before Monday. Up to last evening no word was received here of her passing Cape Race. A report received at the Signal Service Office states that there was a hurricane and blinding snowstorm at Cape Race on Thursday night. Therefore, it is probable that the Teutonic changed her course and went further south.

There were other inward vessels reported in communication with Cape Race during the day on Thursday, viz.: Dominion steamer Englishman was 250 miles east at 5 p.m.; the Allan liner Corsican 390 miles north-east at 12.30 p.m.

ALLAN LINE.

An interesting and unique incident will characterize the maiden trip of the Calgarian. The steamer is called after the Western City of Calgary and, to commemorate her first voyage, Mayor Synnott, of Calgary, will make the trip from England to Quebec on her, and, in addition, will present the ship with a suitably engraved plate. The Calgary City Council has already voted the money for the plate, and the trip of their chief magistrate, Mayor Synnott is expected to leave for England shortly.

R.M.S. Alsatian sails from Halifax this afternoon about 5 o'clock for Liverpool with 130 first class and a small list of second and third class passengers. It is stated by steamship men that most passengers are now hanging back for the opening of St. Lawrence navigation, so that they may sail from either Quebec or Montreal, so that eastward bound vessels are running light.

Steamer Scandinavian from Portland arrived at Glasgow at noon Thursday.

Steamer Sicilian, from London and Plymouth for Quebec and Montreal, sailed from London noon Thursday.

R. M. S. Victorian, from St. John N.B., for Liverpool, arrived Liverpool Bar 5 p.m. on Thursday.

CUNARD LINE.

Steamer Mauretania arrived at New York yesterday.

Steamer Pannonia, arrived at New York noon yesterday.

Steamer Carmania docked at Boston on Thursday.

Steamer Ausonia sailed from Southampton on Thursday.

DOMINION LINE.

Steamer Englishman was reported 250 miles east Cape Race 5 p.m. 23rd inst. and is due in port Monday.

Steamer Dominion was reported 260 miles west Fastnet 9:15 p.m. Wednesday and was due in Liverpool yesterday.

QUEBEC STEAMSHIP CO.

Steamer Bermudian from New York at 10 a.m. last Wednesday, arrived at Bermuda at 8 a.m. yesterday.

Steamer Parima sailed from St. Thomas, W.I., for New York at 9 a.m. yesterday.

Steamer Guiana sailed from New York for the West Indies at 2 p.m. yesterday.

STEAMER NATASHQUAN SOLD

Steamer Natashquan, belonging to La Cie Navigation Nationale, Ltee., in liquidation, was sold by auction at the office of Messrs. LaRue and Trudel yesterday morning and was purchased by Mr. Wm. Q. Stobo, for the Canadian Import Co. The price paid was $1,400, but there are outstanding claims to the extent of between $440 and $500 against the vessel, which the new owners will have to settle. It is understood that the Import Company will convert her into a coal barge.

STEAMERS FROM ANTWERP

Evidencing a good trade with Antwerp and Montreal this season, four steamers have already sailed for the St. Lawrence. They are the Montfort, Montcalm and Monmouth, of the C. P.R. service, and the Boldwell, of the new line of steamers established this spring by Mr. Thos. Harling. All are bringing cargoes the Boldwell carrying five thousand tons of silver sand and general cargo. She will unload at Montreal and will then proceed to Chicoutimi to load pulp, a return cargo of pulp being guaranteed for the boats on a monthly service for a number of years.

FREIGHTS AND CHARTERS.

New York, April 24—Trading was light and freights were scarce in both the steamer and sail tonnage markets. Rates held fairly steady and tonnage offerings were limited. Quotations to Liverpool and London, 1 1-4d; Glasgow, 1 1-2; Rotterdam, 3 1-2c; Hamburg and Bremen, 30 pfennigs; Hull and Bristol, 1 3-4d; Antwerp, 1 1-3d; Cork for orders, 2s 3d, nominal; picked ports, large tonnage, 1s 9d; cotton to Liverpool, per 100 lbs., 20c asked.

Charters: Norwegian steamer 2266 tons, trans-Atlantic trade, one trip on time charter, basis, 3s 9d, delivery, Florida, prompt; British steamer 1480 tons, timber Gulf to Holland and east coast United Kingdom, 80s, May; British steamer, 2702 tons, sugar, Cuba to Liverpool or Greenock, 11s 6d, prompt; schooner, 607 tons, coal, Newport News to Port Inglis, $1.25.

Steam barge, about 2,500 tons, now at Quebec, open to charter; pulp, lumber or other freight; westbound. Apply Mitchell & Whitehead, 92 St. Peter street. Tel. 260.

offer to take over the vessels without government subsidy.

C. G. S. Druid arrived from below yesterday afternoon, after placing the White and Red Island lightships on their stations.

LIGHTSHIP FOR HALIFAX

London April 24—The steam lightship Halifax 19, built by Bow, McLachlan & Company, of Paisley, for the Canadian Government, has completed her trials and will sail for Halifax in a few days. The trials, which were of a varied and exacting character, were successfully carried through.

ICE IN THE GULF.

The following reports from steamers in the Gulf regarding the state of ice were received by the Signal Service office yesterday:—

C. G. S. Minto reports George Bay packed with ice.

C. G. S. Earl Grey reports northwest gale for past 24 hours. Northumberland Strait now clear of ice.

Steamer Bruce reports loose ice from fifteen miles off Chahnel Head to within ten miles of Cape Smoke. Open water from there to Flat Point.

ICE UP THE RIVER.

Reports from Sorel state that the river is clear opposite there, but ice is jammed in the islands below.

Batiscan reports that the batture at St. Pierre les Becquats broke away at 1.15 p.m. yesterday, and that the ferry steamer Pilot passed up at 1 p.m.

Captain Mercier, of the C. G. S. Lady Grey, reported at 10.30 a.m. that the lake ice was moving down part of last night. Then jammed at Nicolet Traverse. Broke up jam this morning. Now working Yamachichi buoy. Lake ice still moving down slowly. He also reported at 1 p.m. that about half of the lake ice had passed St. Francis. The other half was moving down slowly.

If the lake ice continues on the move it ought to pass here tomorrow.

C. P. R. LINE.

R. M. S. Empress of Ireland, from Liverpool, with passengers, mails and general cargo arrived at Halifax at 3.30 a.m. yesterday.

Steamer Montreal, arrived at St. John, N.B., at 5.30 p.m. on the 23rd instant.

GENERAL NOTES.

The winter ferry steamer Pilot, belonging to the Quebec and Levis Ferry Co., left yesterday morning for Three Rivers, where she will be used by the Corporation of that city as a ferry-boat between the South Shore and Three Rivers.

C.G.S. Montcalm and Cartier were placed in the Graving Dock yesterday afternoon the former to get a new rudder, and the latter to have her bottom scraped and painted.

The quarantine tender Alice, came off Davie's slip yesterday and coaled before leaving for Grosse Isle for the season.

Several tenders to purchase the Brazilian Lloyd fleet have been received. A syndicate offers twenty thousand contos, (about $6,000,000.) Farquhar interests offer thirty thousand, (about $9,000,000,) while Antonio Botelpo and Italian shipping concerns

LIGHTSHIP FOR HALIFAX

London April 24—The steam lightship Halifax 19, built by Bow, McLachlan & Company, of Paisley, for the Canadian Government, has completed her trials and will sail for Halifax in a few days. The trials, which were of a varied and exacting character, were successfully carried through.

SIGNAL SERVICE REPORT.

Quebec, 24th April, 1914.

PORT ARTHUR ELEVATOR HOLDS LOT OF GRAIN.

Port Arthur, Ont., April 24—The Port Arthur elevator now holds 8,300,000 bushels of grain, which is more than it or any other elevator in the world ever held before. In the Canadian Northern Railway yards are even hundreds of cars for which there is not room in the elevator. Since September 1st last, the Canadian Northern terminals have handled 8,000,000 bushels more han in the same period of last year.

INSURE YOUR HEALTH

The practical, far-seeing person covers all obvious risks by insurance. You insure against fire, against accident, against death, against labor risks, against burglary, etc.

BUT an insurance you neglect very often, and that is to insure your health against disease and sickness which can be done by using the best and purest aerated waters, such as soda water, ginger ale, ginger beer, etc.

When you require a pair of boots, you don't go to a blacksmith for them, naturally you go to a shoe store for them. When a lady wants a hat she won't go to a grocers for it, she will go to a millinery store for it, as she knows that is their specialty and they keep the proper style and quality.

AERATED WATERS is our specialty and our sole business, our thoughts by day and our dreams by night. We have made them for 45 years and pretend to know how to make them right.

All our aerated waters are made with our celebrated CLAIRE FONTAINE spring water which forms the base of good and pure drinks, all our drinks are made from extracts made by ourselves from the raw materials. We use the best Jamaica ginger root, crush it and make our extract of ginger from it. Our cream of Tartar is 99% pure, and our Vanilla extract is made with Mexican vanilla bean.

All grocers keep them, but Beware of the fakir offering the just as good kind. There is no just as good.

Be sure to get real Resinol

If you want to get rid of eczema, pimples, or other distressing skin eruption, you will accept no "substitute" for Resinol. Preparations similar in name or appearance are *not* "just the same as Resinol." Although a *few* unscrupulous dealers may offer them *as* or *for* Resinol, they are often crudely made, of little healing power, and some may even be dangerous to use. Buy in the original *blue* package.

Resinol is never sold in bulk

Resinol has been prescribed by doctors for more than 18 years. All druggists sell Resinol Ointment in opal jars and Resinol Soap. For trial size of each free, write to Dept. 19-S, Resinol Baltimore, Md.

MUDSLINGING STILL FEATURE OF CITY COUNCIL SQUABBLE

(Continued from Page Three)

It was then decided that since there was no seconder for the motion it ceased, by the fact, to exist, and Ald. Cote moved, seconded by Ald. Trudel that, the increase be 50c. a week.

This was voted down on a division of 15 to 8 as follows:

For:—Aldermen Trudel, Bois, Cote, Verret, Dinan, Collier, Plamondon, Madden—8.

Against:—Aldermen Lockwell, Gibsone, Morin, Gauvin, Martin, Lavigueur, Cannon, Dussault, Lantier, Fiset, Paquet, (Belvedere, Walling, Paquet, (St. Sauveur,) Emond, Beaumont—15.

Ald. Fiset then rose and affirmed in no mincing terms that he did not wish to sit on a committee with a "person" who had broken his word of honor, and he, therefore, formally tendered his resignation as member of the Fire Committee from which he had resigned on Wednesday evening.

Ald. Dussault also resigned saying that he would leave to Ald. Cote the responsibility of his own acts.

Ald. Lockwell also extended his resignation and in doing so he said that he had been authorized by Mr. Eug. Leclerc to deny that he, (Mr. Leclerc,) had ever told Ald. Cannon that Ald. Lockwell's return to the City Council meant $20,000 a year to their firm.

Ald. Lockwell then called upon his adversaries to come and meet him face to face, and in his resignation he said that if Ald. Cote went before his electors and had his chairmanship approved by them, he, (Ald. Lockwell,) would abide by their decision. He defield Ald. Cote to do so and said that if he were brave he would accept.

Challenge to Cannon

Here Ald. Cannon interrupted and Ald. Lockwell in turn challenged him to resign and come and contest Montcalm Ward. (Applause in the galleries)

Ald. Cannon raised a point of order on the wording of Ald. Lockwell's resignation, saying that he had no right to embody adverse criticism of a colleague in his resignation, and as already mentioned he said that Ald. Trudel had been threatened. He reaffirmed, despite Ald. Lockwell's denial, that Mr. Eugene Leclerc had told him that Lockwell's presence in the Council meant $20,000 a year to the firm.

Ald. Lockwell again denied the truth of the assertion on behalf of Mr. Leclerc.

At the opening of the meeting Mayor Drouin deposited the two contracts for the Union Station on the table.

The Dominion Securities Corporation, Ltd., wrote and asked to be permitted to bid for the issuing of the bonds for the loan of $1,250,000.

The Council adjourned at midnight until Thursday, the 30th instant.

EXPECTS NO ATTACK.

Washington, April 24 — Rear-Admiral Badger at Vera Cruz reported to the Navy Department tonight that his forces at Veraa Cruz were so strongly posted that no attack from the Mexicans was expected at present. He said that there had been no further casualties, and that the wounded were doing well.

GOVERNOR GLYNN VETOES CHRISTIAN SCIENCE BILL

Albany, N.Y. April 24.—The McClelland Bill, which would have permitted Christian Science and other practitioners who do not use drugs to practice without submitting to a medical examination, was vetoed today by Governor Glynn.

PRESENTATION TO MR. J. McANEENY

BY HIS FRIENDS OF C. P. R. TELEGRAPH CO.—HIS MARRIAGE TODAY.

Mr. John D. McAneeny, who is to be united in wedlock to Miss Alice Crepeault, this morning, was the object of a flattering little event at the main office of the C. P. R. Telegraph Company, yesterday afternoon, when the management and his fellow-employes came together for the purpose of wishing the groom-elect and his bride-to-be all the joys and prosperity that long life, could bring, and also to present a cabinet of cutlery to Mr. McAneeny.

The presentation address was read by Mr. John Murphy, chief clerk, who paid some warm tributes to their friend of the telegraph department. Mr. McAneeny in acknowledging the gift and the kind words spoken in his favor, expressed the wish that he would have many years after the happy event to continue in the pleasant companionship of such fellow-employes.

The marriage will be celebrated in the private Chapel of Our Lady of the Wayside, at 7 o'clock this morning. The bride and groom will be given away by their respective fathers. Miss Crepeault will go to the altar in a tailor-made suit of brown with hat to match, and will carry a shower bouquet. The newly married couple will leave on the morning train on a honeymoon trip to Montreal, Toronto and Detroit.

EXPORTS GROWING; IMPORTS ARE LESS

THE TRADE FIGURES FOR PAST YEAR CONSTITUTE CANADIAN RECORD

Ottawa, April 24—Official trade figures for the twelve months of the fiscal year ending March 31 last, were issued by the Customs Department today and show a grand total for the year of $1,112,562,107, a record in Canadian history.

The total trade of the preceding year, which was up to then the high-water mark, was $1,068,660,225.

The feature of the year recently closed is the enormous increase in exports of Canadian produce, the total being $431,589,658 an increase of eighty millions over the preceding year. The imports on the other hand which amounted to $618,228,874, showed a decrease from the previous year of a little over fifty millions.

Agricultural Products

The biggest increase in exports was in agricultural products which rose 487,000,000 over the previous year. Manufactures jumped 14,000,000 and fisheries showed an increase of four millions.

Imports of coin and bullion amounted to over $15,000,000 and exports of coin and bullion were over $23,000,000.

The trade for the month of March showed a decline from the previous year the total being $92,887,452 as against $106,148,252.

The Weather

Toronto, April 24—The disturbance which was over Nebraska last night is now centred over Minnesota and the pronounced high area covers the Maritime Provinces. Local showers have occurred in the eastern provinces while from Ontario eastward, the weather has been fair with a little higher temperature in all districts.

Temperatures:

	Min.	Max.
Victoria	44	56
Vancouver	42	54
Kamloops	40	64
Calgary	40	58
Edmonton	30	56
Battleford	38	70
Prince Albert	36	72
Medicine Hat	40	60
Moose Jaw	40	69
Winnipeg	42	52
Port Arthur	34	40

ONESIME POULIOT, Proprietor.

CANAL ZONE NOW ON WAR FOOTING

ANTI-AMERICAN SENTIMENT OF FLY-SHEETS THOUGHT TO BE THE CAUSE.

Panama, April 25.—Col. George W. Goethals, governor of the Panama canal zone, today issued orders placing the canal zone on a strictly war footing. He instructed Major Gerhardt, commanding the 10th Infantry, to send two companies of infantry to patrol the Gatun locks and one each for duty at the Miraflores and Pedro Miguel locks. The soldiers were given one hundred rounds of ammunition each and will camp near the locks.

The operating machinery of all the locks will be securely locked and the keys placed in the possession of Col. Goethals.

It is understood that coast artillery companies will be distributed among the fortifications on Flamencol and Culebra islands at the Pacific end of the canal and also at Toro Point and other forts at the Atlantic end.

The action of Col. Goethals is believed to have been the result of anti-American sentiment contained in the fly-sheets which were making their appearance in the streets of Panama and also expresed editorially in El Diario, which is strongly pro-Mexican.

There are 250 Mexican employes on the canal and their presence probably also had something to do with the action of Col. Goethals.

Garcia Rodriguez, a Mexican resident of this city, was arrested today by the Panama authorities at the request of the canal zone police. He is charged with making inflammatory anti-American speeches and probably will be deported.

U. S. CONSULAR BUSINESS.

Washington, April 24—Secretary Bryan announced late today that the British Consuls would take charge of the American consulate at Frontera, Lapaz, Ensensda and Manzanilo, and that the Chilean consul would take over the business of the American consulate at Acapulco. There are no French consuls at these posts.

Secretary Bryan later announced that all American consuls in Mexico, whether Federal or Constitutionalist territory, had been authorized by the State Department to leave the country. Whether they will withdraw, however, was left in each consuls discretion.

BRITISH ARE CORDIAL.

Vera Cruz, Mex., April 24 — The most cordial relations exist between Rear-Admiral Charles J. Badger, the American naval commander-in-chief, and Rear-Admiral Sir Christopher Craddock, commander of the British cruiser squadron here. They have agreed to divide the time for the use of wireless telegraphy as follows:

Six hours for the American fleet, six for the British and the remainder for the other nations.

The French cruiser Conde and the British cruiser Lancaster, arrived here today.

TRAINS FOR REFUGEES.

Washington, April 24—Under date of 6.30 p.m. today Rear-Admiral Fletcher, at Vera Cruz, reported to the Navy Department the arrival at Vera Cruz of Charge O'Shaughnessy, and party.

Rear-Admiral Fletcher's report also says:

"The rumor has reached Mexico City that no Mexicans were allowed to leave Vera Cruz, and it was reported that in consequence Huerta would not allow any more Americans to leave Mexico City. Mexicans in Vera Cruz have been allowed to leave at will and every facility and transportation available has been given, but none have been able to go out on trains. Captain Huse was directed to lay emphasis on this fact and to express a strong desire to send daily trains to convey Mexicans from Vera Cruz to meet trains bringing foreigners from Mexico City. Gen. Corona promised to bring it to the attention of Huerta."

Before a young woman gets a chance to wear her new gown with its three little overskirts more than once here comes another girl with five or eight

ARRIVALS

St. John, N.B., April 24—Virginian, Liverpool.

Halifax, N.S., April 24—Empress of Ireland, Liverpool.

SAFETY OF AMERICANS.

Washington, April 24—Safety of Americans reported to be menaced by Mexicans at Enzenada, on the west coast of Mexico, was reported to the Navy Department tonight in a relayed wireless despatch from Lieut. Jensen, commanding the monitor Cheyenne, reporting his arrival off Enzenada.

The Mexican garrison and populace were greatly excited by the appearance of the American man-of-war. A Navy Department statement tonight, said:

"Troops (Mexicans), were hurriedly stationed to resist an expected landing and four field guns were brought to bear. Lieut. Jensen says the commanding general has guaranteed the safety of Americans and that as an additional precaution the American consul yesterday sent all Americans to plantations five and ten miles down the coast. He reports that fifty Americans desire transportation north. Telegraphic communication was interrupted and additional troops are being enlisted by the commanding general."

Making One Dollar Do the Work of Two

YOUR dollars vary in value according as they vary in purchasing power.

The man or woman who studies advertising is able frequently, to make one dollar do the usual work of two.

The experienced reader of advertisements will *always* make a dollar command a premium, that is, make it buy more than the dollar of a non-reader of advertisements.

How much "above par" are the dollars in your pocket worth?

It will depend on how closely you study the buying opportunities out-lined in the store ads.

Sir Hugh Graham, proprietor of the Montreal Star; Mrs. Graham and Miss Graham, are guests at the Chateau Frontenac, for a few days.

Registering at the Hotel McAlpine from Quebec during the past week, have been: Miss Eva Flood, Mr. J. Boisvert, Mr. and Mrs. D. W. Beaupre.

The marriage of Miss Lucienne Couture, daughter of Mr. Alfred Couture, of St. Augustin, to Mr. Leondre Roy, son of Mr. Arthur Roy, of this city, is announced.

Mr. J. C. Warmington, St. Cyrille street, who was suffering from a severe attack of diphtheria, is now convalescent and hopes are entertained that in the course of a week or two he will be fully recovered.

Registered at the Chateau: A. C. Grant, A. D. Evans, Montreal; G. Williams, Grand'Mere; Miss F. L. Moster, Manoir Richelieu, Murray Bay; Mr. and Mrs. S. W. Spain, Sydney, N. S. Wales; W. J. Wentherly, New York; Lady Caron, Miss Caron, Adolphe Caron, Ottawa; A. R. Clarke, A. M. Marshall, R. McLaughlin, E. Althen, Toronto.

Arrivals at the Clarendon: E. J. Hatten, T. A. Ward, A. C. Read, Montreal; J. I. Jacob, E. Rinfret, A. Bourdeleau, St. Stanislas; J. A. P. Jean and wife, St. Pamphile; Geo. I. Delisle, Yamachiche; C. W. Brown, St. John; G. Michaud, St. Alexandre; J. H. Ralph, Ottawa; Miss Y. Beaudry, W. W. Aylen, M.D., Grosse Isle; Emrey Massicotte, Danville; H. Milburne, St. John, N.B.; E. Labelle, Montreal.

Mrs. Frank Oliver entertained the other day in Ottawa, at a delightful luncheon party of eighteen covers, in honor of Mrs. John King of Toronto. The guests included Lady Laurier, Mrs. Rodolphe Lemieux, Mrs. John S. Ewart Mrs. N. S. Parent, Mrs. F. Anglin, Mrs. J. F. Lemieux of Montreal; Mrs. Malouin of Quebec, Mrs. F. Grierson, Mrs. John F. Stairs, Mrs. Frank Barnard, Mrs. Charles Morse, Mrs. Allan Keefer, Miss May Loucks, Miss F. Tupper of Winnipeg, Miss Flossie Fielding, Miss J. Ross, of Moose Jaw.

Invitations have been issued for the marriage of Miss Mildred McLachlin, younger daughter of the late Claude McLachlin, Arnprior, to Mr. Charles Read, elder son of Mr. and Mrs. Chas. E. Read, which will take place in All Saints Church, Ottawa, Thursday, May 7th, at 2.45 p.m. The bride will be attended by her sister Mrs. Syndenham Hall, and her sister-in-law Mrs. E. McLachlin, as matrons of honor and by two bridesmaids, Miss Kathleen Stain, of Quebec, and Miss Maud Audette. Masters Hugh and Donald McLachlin will act as pages and the best man will be Mr. Donald White. The ushers will include Mr. J. Armour, of Montreal; Mr. Austin Reiffenstein, Capt. Willis O'Connor, Mr. Kenneth Fellowes, Mr Allan Ross and Mr. J. McLachlin. After the ceremony a reception will be held at 312 Laurier avenue east.

ELECTRIC "MULES" FOR THE PANAMA CANAL

The first electric towing locomotives for hauling vessels through the locks of the Panama Canal are now being received at the Isthmus. In all forty "electric mules" will be built. Four of them, two on each side will ordinarily propel steamships through the looks. Sometimes six engines will be needed to handle extra large vessels; in every case two astern, acting as a brake on the ship's movements, will give direction to her course. No vessel will be allowed to enter the locks and go through on her own power. The locomotive is propelled by means of a rack rail while towing and while going up or down the steep grades from one level to another at a speed of two miles per hour. While running idle or on return tracks, the speed is changed to five miles per hour, and the machine is propelled by the regular traction method, the rack pinion being entirely released.—Electric Railway Journal.

Watch Jos. Cote's advertisement on sporting page.

THE "RED WIDOW"

SCENE FROM THE INTERNATIONAL MUSICAL COMEDY SUCCESS, "THE RED WIDOW," AUDITORIUM.

No matter how well the authors of a play may have done their work the piece must be properly acted or it cannot succeed. Channing Pollock and Rennold Wolf took the precaution of having inserted in all of their contracts "The cast must meet with the aproval of the authors." For this reason whenever a Pollock-Wolf piece is announced the public is sure of seeing a capable company of players and a performance every detail of which has been given the most careful thought and consideration.

In the case of "The Red Widow," the musical play which comes to the Auditorium Monday, for three days, the casting was left entirely to Messrs Wolf and Pollock who also directed the staging of the piece. The result is one of the best and most evenly balanced companies that has ever been sent on tour.

HORSE WILL MEET OLD WHITE EAGLE

TRIBAL CUSTOM FOLLOWED AND ANIMAL PLACED ON GRAVE OF CHIEF.

Ponca City, April 24—The finding of a white horse lying dead on the grave of White Eagle, for more than half a century head chief of the Ponca Indians, showed that the old men of the tribe still adhere to their ancient customs. In common with most of the Plains Indians the Poncas believe that the dead warrior's horse should accompany him to the world beyond.

White Eagle died recently at the age of 111. He was a man of powerful physique, striking featuers, a kingly manner. But he never learned to speak or understand English. He was the highest authority in matters relating to the forms and meaning of his tribal religion. To the sorrow of the old men of the Poncas he was buried according to the custom of white men. His body was placed in a casket and drawn to the grave in a hearse. There were flowers and hymns and Christian prayers. The handful of Poncas who attended seemed ill at ease and glad to go away. The old men said that maybe White Eagle would understand why they remained at home in their tepees. When he crossed the ford to the other side and found no horse awaiting him he would know the reason, for he had told his people always to obey the authorities in Washington.

Heard Strange Sounds.

The Poncas tried to forget their failure of duty to their dead chief, but they heard strange sounds in the winds and whispering in the trees. They spoke together of White Eagle, how he of all the Ponca chiefs would be without a horse to meet him on the other side.

Finally, in their perplexity, they turned to an old friend, Joseph C. Miller, owner of 101 Ranch. When Miller was a boy he lived at Baxter Springs, Kan., where the Poncas were settled when the Government first brought them from the north. Homesickness and change in climate caused the death of many of them. Miller's father, the late George W. Miller, had come from Kentucky to deal in Texas cattle. He met White Eagle at that time and the two became fast friends. In looking for a place for a ranch for himself in the Cherokee strip, Miller passed through the country which the Federal Government wished to reserve for the Poncas and became convinced that they would like to live there.

White Eagle was at the point of starting for Washington to demand that the Poncas be sent back to their old home in the north. Joe Miller, then ten years old, had learned to speak the Ponca language and was well known to White Eagle. Miller's father sent him as a messenger to the land before rejecting it.

White Boy at Council.

The night young Miller reached the tribe there was an all-night council, and for the first time in the history of the tribe a white boy sat in the council circle and to all questions made answers in the Ponca tongue. He told the Poncas of the rolling prairies, of the great patches of thick buffalo grass, of the pony-high bluestem in the valleys, of the lasting water of the Salt Fork of the Arkansas, of the plums which grew in the thickets, of the tall pecan trees and the heavy hanging vines of the wild grape. He told how the quail whistled in the creek bottoms and the deer and turkeys ranged the grassy glades and the timbered bends of the streams.

The Poncas, impressed by his words, sent back a party with Miller, looked the land over and accepted it.

The Poncas thus became strong friends of the Miller family, and 101 Ranch today stands on land bought or leased from them. When Little Standing Buffalo died several years ago Joe Miller was made a chief of second rank in the tribe. When White Eagle died all work on the ranch was stopped for a day.

Six old Ponca men rode to the ranch a week or so ago and seated themselves on the ground close beside a fine horse that stood saddled at a hitchrack. As they smoked they scrutinized the horse. Then Joe Miller swung into the saddle and started off toward the Cowskin and the old men mounted their ponies and followed him. Miller returned alone.

Next day, shortly after sunset, a cowboy rod toward the burial hill of the Ponacs leading a white horse—the horse that Miller had ridden. The cowboy was back at the bunk house by the time the moon had risen, but the white horse was missing. It was found dead on White Eagle's grave.

BOY "LIFER" PARDONED AFTER SERVING YEARS

Denver, April 24.—Eugene Mendicelli, an Italian who was sentenced when seventeen years old to life imprisonment for the murder of his employer. A Capone, a Pueblo grocer, and who has spent seven years in the State Penitentiary, was paroled and ordered released immediately by the State Board of Pardons at a special meeting.

Capone was charged at the trial with selling liquor illegally and it was during a quarrel brought on by the drunkenness of the boy that he was killed.

Mendicelli's release was recommended by Justice White, who was the prosecuting attorney in the case, and by J. E. Rizer, the trial judge.

Warden Tynan also indorsed the young man as a model prisoner. During his seven years imprisonment, Tynan declared, Mendicelli has mastered the English language and become an expert electrician, having constructed a motor which is perfect in every detail.

Chipriana Nuara, sentenced from Trinidad to life imprisonment for the murder of Dominicio Madrica, April 21, 1910, was also paroled and will be given his freedom at once.

The killing of Madrica, Nuara maintained, was in self-defense.

DOCTOR IS DEAD FROM SCRATCH OF A BABY'S TOOTH

BLOOD POISONING CAUSED BY EFFORTS TO SAVE DIPTHERIC CHILD.

New York, April 24.— Dr. Julius Caesar Lauer, a prominent German physician, died yesterday at his home in Astoria, a martyr to his profession in a queer and remarkable way.

He was called upon, about three months ago, to treat a baby in Maspeth, L. I., who was suffering from a virulent form of d.ptheria. When he arrived at the home of the little patient's parents, the child was in the throes of a convulsion, and Dr. Lauer set to work quickly to clear its throat and relieve the spasm.

While he was engaged in this task one of his fingers was scratched by the infant's teeth. He paid no attention to it at the time, but went on with his work until he was able to leave the household with the realization that his tiny patient was out of danger for the time. He continued his visits and restored the baby to health.

A couple of weeks after his first treatment of the child Dr. Lauer became ill himself, and his ailment was diagnosed by specialists as blood poisoning. He went to the German Hospital, at Seventy-seventh street and Park avenue, and became a private patient.

For more than a month he was in a serious condition. Several sorts of treatment were given to him. He received injections of serum, and also was strengthened by transfusions of blood from healthy persons. He seemed to recover almost entirely, and about three weeks ago was sent from the hospital to his home.

For a long time after he became affected Dr. Lauer could not account for the source of his trouble. Then he remembered the incident of the Maspeth baby with diptheria, of whom he had spoken to members of his family. He spoke, after returning to his home, of his happiness that the child lived.

But instead of regaining his health after returning home Dr. Lauer became steadily worse till the end.

Dr. Lauer was fifty-six years old and a native of Berlin. He was educated in that city at the Royal Friedrich Wilhelm University, and also took a post-graduate course at Columbia University here. He received his diploma twenty-five years ago.

Cut This Out

Famous Specialist's Recipe for Catarrhal Deafness and Head Noises.

If you know someone who is troubled with head noises, or catarrhal deafness, cut out this formula and hand to them, and you will have been the means of saving some poor sufferers perhaps from total deafness. Recent experiments have proved conclusively that catarrhal deafness, head noises, etc., were the direct cause of constitutional disease, and that salves, sprays, inhalers, etc., merely temporize. with the complaint, and seldom if ever, effect a permanent cure. This being so, much time and money has been spent of late by a noted specialist in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of the catarrhal poison from the system. The effective prescription which was eventually formulated, and which has aroused the belief that deafness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home at little expense.

Secure from your druggist 1 oz. Parmint (double strength,) about 75c worth. Take this home, and add to it 1-4 pint of hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, headache, dullness, cloudy thinking etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are qnickly overcome by this efficacious treatment. Nearly ninety per cent. of all ear troubles are directly caused by catarrh, therefore, there are but few people whose hearing cannot be restored by this simple treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form, should give this prescription a trial. There is nothing better.

Important:—In ordering Parmint always specify that you want Double Strength; your druggist has it or he can get it for you; if not, sent 75c to the International Laboratories, 74 St. Antoine street, Montreal, P.Q., who make a specialty of it.

LONDON ARRIVALS

The new Spring Batswing Ties from the house of J. H. Buckingham, London, Eng., have been received by the local agent J. H. Mullin and are now displayed in one of his windows.

BIG AGRICULTURAL LAND OPENING

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective settlers in throwing open **Twenty Thousand Acres of Rich, Southern Georgia Land,** which is admirably adapted to the growing of celery, sweet and Irish potatoes, canteloupes, water melons, corn, oats, cotton, hay—in fact, all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the famous immensely profitable paper-shell pecans.

Providing you are eligible under the classifications prescribed by us, you are now offered an excellent opportunity to break away from the drudgery and toil of a small wage, or working for the benefit of landlords, and go back to a land of plenty, to which, if granted, you will hold a warranty deed and abstract

The best security on earth is the earth itself, and land is the basis of all wealth. Owners of productive lands are benefiting by the increasing high cost of living, while others are suffering from it.

An Opportunity to Secure Rich Production Land Without Capital.

You will not be required to leave your present surroundings now. All we ask of those to whom we grant tracts is that they plant, or arrange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of 25 per cent. of the net profits derived from the sale of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to $1,268.45, and that one acre of well-cared-for paper-shell pecans, in full bearing, should net its owner as high as $500.00 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further urging, and waste no time in locating in this land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one who will occupy it; otherwise it reverts back to the grantor.

The land included in this opening is located directly on and adjoining the Atlanta, Birmingham and Atlantic Railroad, about twenty-five miles west of Brunswick, a thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, from April to October, is 77 degrees; the climate is most healthful, delightful, and invigorating, and there is an ample rainfall of 51 inches per year.

OUR AIM IS FOR MUTUALLY BENEFICIAL RESULTS.

As we are extremely desirous of having settlers locate on this property, and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlantic Railroad, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have "money-making afterward" considerations in this liberal-minded opening, similar to those of the Northern Pacific and other railroads when they granted their lands, and we expect to benefit thereby, as well as the ones who will receive the tracts.

We have also planned to develop what is designed to be the best equipped, most up-to-date, scientific, commercial farm and orchard in existence. It will consist of six thousand acres, and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration, we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted, an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our town sites.

Examination of the land will cheerfully be permitted, and the opening will be held at Browntown, Wayne County, Georgia, one of the stations of the A. B. & A. Railroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.

The presence of those registered will not be necessary at Browntown on the opening day, unless they wish to attend, for there will be no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted, as soon as possible.

With the ever-increasing population of this country there is no corresponding increase in the area of land, and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will cotinue to be harder to secure.

The prosperous and contented class in Europe today are the descendants of those who secured land there when it was plentiful, while the descendants of those who obtained no land and now the peasants and slaves. **You must realize that this may be your last chance to secure land in this country without a large outlay of capital,** so it should not be necessary to urge you to act at once by forwarding us the application for registration attached to this announcement.

SOUTHERN GEORGIA RAILROAD-LAND DEVELOPMENT BUREAU,
COLORADO BUILDING, WASHINGTON, D. C.

Southern eGorgia Railroad-Land Development Bureau.
Washington, D. C.

Registration Department:

I hereby make application to register for your Fruit and Agricultural Railroad-Land Opening, and furnish you with the correct answers to the following questions:

Name .. .. City ....

State .....Street or R. F. D. No. ....

Age.....Married or Single.....Widow, Widower, or Orphan.....Occupation .....

Nationality.....Do you now own over ten acres of land in the United States?.....

If my application for registration is now accepted, please send me, without obligation, further and complete information and particulars, including maps of the land, showing its exact location on the Atlanta, Birmingham and Atlantic Railroad, its transportation facilities, agricultural, fruit and nut-growing possibilities, etc.

Very truly yours

SYNOPSIS OF REGULATIONS.

GOVERNING Timber on Dominion Lands in Manitoba, Saskatchewan, Alberta, the Northwest Territories, the Railway Belt in the Province of British Columbia, and the tract of Three and a Half Millions Acres, Located by the Government of the Dominion in the Peace River District in the Province of British Columbia.

LICENSES.

A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only at public auction. A rental of $5.00 per square mile, per annum is charged on all timber berths excepting those situated west of Yale in the Province of British Columbia on which the rental is at the rate of 5 cents per acre. In addition to rental, dues are charged on the timber cut at the rates set out in section 20 of the regulations.

TIMBER PERMITS AND DUES.

Permits may be granted in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of dues at the rate of 50c. per thousand feet, B.M., and of a fee at the rate of $100.00 per square mile for each permit.

TIMBER FOR HOMESTEADERS.

Any occupant of a homestead quarter-section having no timber of his own suitable for the purpose may, provided he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of building and fencing timber set out in section 50 of the Regulations.

W. W. CORY,
Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan, or Alberta. The applicant must appear in person at the Dominion Lands Agency or Subagency for the district. Entry by proxy may be made to any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry including the time required to earn homestead patent and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchase homestead in certain districts. Price $3.00 per acre.

Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth $300.00.

W. W. CORY,
Deputy of the Minister of the Interior.

You will be amazed.—WILLIAMS LLOYD, Watches, Jewellers (Dept. 84), 88, Cornwallis Road, London, N., England.

FOUNDER OF MATIN AN ECCENTRIC ROUE

A very remarkable man was buried in Paris a few days ago. The elaborately decorated hearse denoted a funeral of the fourth class, which we should consider a very first-class funeral. The appearance of the hearse was sufficient to induce the average passer-by to doff his cap, and to attract the respectful attention of the gens d'armes. Many of them hastily clapped their chapeaux upon their heads again when they saw that no imposing cortege was followed the hearse through the streets. There were but two mourners, both of them on foot. One was the undertaker, the other was the valet of the dead man, and they marched solemnly behind the hearse, which was piled high with flowers. Thus Alfred Edwards went to his last home. In his time he had made many enemies. Naturally they did not attend his funeral. Most of his friends had been turned into enemies when they read his extraordinary will. They, too, abstained. His relatives publicly requested that no one should attend the ceremonies out of respect for them. His beneficiary was at first insulted by the unfavorable prominence, his bequest had secured for her. So it happened that Edwards went to his grave unattended.

Founder of Le Matin.

He was the founder of the newspaper which most of us would say is the best newspaper in France, Le Matin. He was famed in theatrical circles, not so much as a dramatist as a patron of the theatre and a backer of theatrical enterprises. He was the brother-in-law of Waldeck Rousseau, once Premier of France. He had spent probably a million dollars in the capital. He had fought a duel, been divorced from numerous wives, and had, in fact, done nearly everything that entitles a man to fame, except to start a new religion. Edwards, as the name indicates, was the son of an English father, who was a physician in Constantinople, attached to the Sultan's court. His mother was Turkish. His education was half Oriental, half Occidental. His father left him about a million dollars, and with this fortune he went to Paris nearly a generation ago. Apparently he chose Paris because he thought that the display of his Oriental instincts would attract less attention there than in other capitals. No sooner had he settled there than he began the business of divorcing his first wife.

Husband of Five Wives.

She was a young English girl whom he had married as a minor, and there was considerable difficulty in getting the decree. Probably Edwards did not then know the procedure as well as later on, when he had a second, a third and a fourth wife to divorce. However, he succeeded in the end and became a French citizen. His second wife was a French girl, who was divorced speedily, and he made a third guess. A divorce followed this also, and then he became the husband of Mme. Missia Godebska, a beautiful Polish woman, whose husband, apart from all other qualifications, was destined to become a person of prominence. Her also he discarded, but he had to pay her $8,000 a year as long as she lived, and she retains the right to call herself Mme. Edwards. His ultimate wife was Ginette Lantelme, a noted actress, whose tragic death in the Summer of 1911 attracted undesirable attention to Edwards. She died while upon a yachting excursion with her husband and some friends, fell overboard while intoxicated, some say. One newspaper hinted that she had been murdered, and had to pay handsome damages to the bereaved husband in consequence.

Founded a Great Paper.

It was to Mme. Colonna Romano, a friend of the wife who perished overboard, that Edwards left what remained of his fortune. So unsavory was the name of the man that this distinguished actress at first refused to have anything to do with the legacy. When she consented finally it was with the announcement that whatever was left of the estate when the debts had been paid was to go to a foundling hospital. The Bluebeard adventures of Edwards have interested Paris at intervals for years, but if he is remembered by another generation it will be because of his part in the establishment of the Matin. He had dabbled in journalism as an amateur on the Figaro and on the old Gaulois, of which paper he became in time the editor's secretary.

Fought His Brother-in-law.

About that time an American reporter started a paper called the Morning News which was printed in English, and which introduced to the French people an up-to-date American paper. Few of them, however, could read it, and Edwards conceived the highly original idea of giving the French people a paper in their own language that would be modeled upon American and British lines. He had the money, and the result was the Matin. Soon the News was forgotten, but the Matin succeeded immediately, and is today the most up-to-date newspaper published in the French newspaper published in the French language. Edwards' interest in the paper was not a permanent one, and when he had surrounded himself with a competent staff, he was willing enough to retire. He returned once to journalism, and that was when Waldeck Rousseau, his brother-in-law, was Premier. Edwards attacked him in a Socialist paper with a ferocity that no one unconnected with the Minister could approach. The remaining years of this remarkable character were spent in the neighborhood of the theatres. He wrote a few sketches that were more or less successful, and had the honor of appearing in Capus' play "Qui Perde Gagne," where his character is sketched with remorseless accuracy. If he had not had the luck of stumbling upon the truth that in France a newspaper will succeed that opens its columns to the expression of all kinds of opinion, his name would never have been heard outside the cafes.

PARALYTIC CAN WALK AFTER 7 DAYS' PRAYER.

Richland Centre, Wis., April 24. — Mrs. S. H. Morgan, for twenty-six years a paralytic, stepped from her roller chair and walked around the room at the close of a seven days' continuous prayer meeting in her room.

She is now able to go about her housework without aid and has appeared in public carrying a child on her arm.

She tells thus of her recovery:

"My neighbors and friends gathered in any room for that special prayer meeting. Our minister began the services then they all knelt about me as I sat suffering in my wheel chair. That chair had been a prison of torture to me for over a quarter of a century!

"All through the night, and all through the following week the watchers stayed with me, relieving each other in turn. Finally one night the pastor tiptoed silently into the room. He said that seven days of worship had passed.

"Then the pastor turned to me and anointed me with oil. The room was very dark. There was the perfume of flowers in the air, and the sound of half-breathed prayers. A sort of musical throbbing beat dully on my ears.

"Suddenly I knew that not my friends' prayers, but only my own perfect faith in God would bring me His mercy. Then everything around me fell into blackness and I saw Jesus himself, in a glow of gold.

"'Will you walk,' came His voice, 'leaning on none other arm but Mine?'

"Right with His words, a great strength flowed into my spirit. 'I will!' I cried, and I rose to my feet. I walked about the room, and I seemed to feel the guidance of His arm."

Mrs. Moran's sudden cure is regarded as miraculous.

NERVOUS DISEASES IN THE SPRING

Cured by Toning the Blood and Strengthening the Nerves.

It is the opinion of the best medical authorities, after long observation, that nervous diseases are more common and more serious in the spring that at any other time of the year. Vital changes in the system, after long winter months, may cause much more trouble than the familiar spring weakness and weariness from which most people suffer as the result of indoor life, in poorly ventilated and often overheated buildings. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and other forms of nerve troubles are at their worst, and that then, more than any other time, a blood-making, nerve-restoring tonic is needed.

The antiquated custom of taking purgatives in the spring is useless, for the system really needs strengthening, while purgatives only gallop through the bowels, leaving you weaker. Dr. Williams' Pink Pills are the best medicine, for they actually make the new, rich, red blood that feeds the starved nerves, and thus cure the many forms of nervous disorders. They cure also such other forms of spring troubles as headaches, poor appetite, weakness in the limbs, as well as remove unsightly pimples and eruptions. In fact they unfailingly bring new health and strength to weak, tired and depressed men, women and children.

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Dr. J. Collis Browne's
Chlorodyne

THE ORIGINAL AND ONLY GENUINE.

The Most Valuable Medicine ever discovered.
The best known Remedy for
COUGHS, COLDS,
ASTHMA, BRONCHITIS.
acts like a charm in
DIARRHŒA, DYSENTERY & CHOLERA.
Effectually cuts short all attacks of SPASMS. Checks and arrests those too often fatal diseases—FEVER, CROUP and AGUE.
The only palliative in NEURALGIA, GOUT, RHEUMATISM.

Chlorodyne is a liquid taken in drops, graduated according to the malady. It invariably relieves pain of whatever kind, creates a calm refreshing sleep; allays irritation of the nervous system when all other remedies fail; leaves no bad effects and can be taken when no other medicine can be tolerated.

INSIST ON HAVING Dr. J. COLLIS BROWNE'S CHLORODYNE.

The immense success of this Remedy has given rise to many imitations.

N.B.—Every bottle of Genuine Chlorodyne bears on the stamp the name of the inventor, Dr. J. Collis Browne.

CONVINCING MEDICAL TESTIMONY WITH EACH BOTTLE.

Sold by all Chemists.

Prices in England: 1/1½, 2/9, 4/6.

Sole Manufacturers:

LONDON, S.E.

FINANCIAL

CLOSING MARKET LETTER.

Received over the private wire of Neuville Belleau & Co., brokers, 93 St. Peter St., Quebec.

New York, April 24.—Europe dominated the stock market today, there being heavy selling for foreign account which carried down prices one to three points in the early trading, with Can. Pac. under especial pressure. The continent was said to be liquidating because of the poor health of the Austrian Emperor and the mysterious accumulation of gold by Russia, supposedly to strengthen its position against Germany. The Mexican situation also was not liked, as London feels that we are in for a long period of occupation with all that this implies. The support came largely from the bear contingent, who covered moderately, but there was no aggressive outside buying and sentiment remained pessimistic. Naturally, stocks of concerns likely to be affected by the Mexican difficulties, like Southern Pacific and Smelters were weak.

Money was firmer in tone, although banks, according to known movements of currency, promise to show a moderate gain in cash for the week. Prospects of further gold exports naturally have a stiffening effect, Europe adding to its supply at our expense. Sales of stock for foreign account naturally tend to help such engagements.

There was no sensational information from the seat of war, but nevertheless the market continued depressed and in the later trading resumed its decline under the leadership of Canadian Pacific, which made another new low for the movement.

In view of the continued liquidation and the lack of aggressive support, we would suggest pursuing a waiting policy, pending some sharp breaks, which will clarify the speculative situation. If the reported agreement with Carranza is confirmed, a rally tomorrow should result.

CLOSING MARKET LETTERS.

Received by Breen & Gourdeau, stock brokers, 63 St. Peter St. and 6 Sault au Matelot.

New York, April 24.—Canadian Pacific was again today the weak feature in the stock market, and its influence exerted a depressing effect upon the general list to the extent that some of the standard issues, such as Reading, Union Pacific, Southern Pacific and Steel suffered marked declines on the day. New Haven was also particularly weak, the decline in that issue being accompanied by expressions of doubt as to the soundness of that company's financial position indicated by the sale of notes on a basis to yield six per cent. The Mexican situation was less pronounced as a factor, the over-night news from that source being somewhat complicated, but if anything, slightly improved, although far removed as a factor. The rank and file of traders are seizing upon existing conditions to carry out their bearishness, and with the buying power at low ebb they are meeting with a fair degree of success. With the exception of a few stocks, like Canadian Pacific, we look for on extended movement, but rather believe trading opportunities for quick turns will continue to present themselves for the present.

Sales to 3 p. m., stocks, 516,216; bonds, $2,184,500.

Boston, April 24.—Forced liquidation and selling by holders frightened over the Mexican situation was on a large scale today and barring a small covering movement, the market continued weak all day, closing at about the lowest price on this movement. While we believe stocks are very cheap as investments we can not expect much immediate improvement in same until some of the uncertainty is removed.

Chicago, April 24.—Wheat ruled lower early with unchanged cables and rains northwest and southwest. There was no special news after that and the market drifted around within a narrow range without much tendency. Modern Miller spoke of the deficiency in moisture in parts of the southwest and there is plenty of time yet to get some scares on the crop, however it may look today. We would buy wheat on any sharp decline from here or sell it on any bulge for moderate results just now.

Corn—A little lower market, but a good deal of trade. Weather generally good for preparing ground for planting. Cash corn lower in all markets and slow sale, except Omaha, where prices were up ¼ to ⅜ and sales good. Iowa and Illinois producers and dealers have sold a little more corn today to terminal markets. Would sell July and September on any good bulges.

Oats have been easier with corn. The rains over a much wider territory overnight have materially improved the seedings already in the ground and that part of the crop is already up as well as the seed bed for delayed seedings. Advise sales on hard spots.

COTTON.

New York, April 24.—Cotton futures closed barely steady. Closing bids:

Apl	12.60	Sept	11.78
May	12.60	Oct	11.65
June	12.65	Dec	11.64
July	12.51	Jan	11.59
Aug	12.32	Mar	11.65

Spot closed quiet. Middling uplands 13.25; do. Gulf, 13.50.

Sales, none.

Liverpool, April 24.—Cotton, spot, good business. Prices easier.

Am. mid., fair	8.20	Low mid	6.96
Good mid	7.88	Good ordy	6.10
Middling	7.36	Ordinary	6.60

The sales of the day were 12,000 bales, of which 1,000 were for speculation and export, and included 11,000 American.

Futures opened and closed steady.

HIS ONLY OBJECTION

He was a fine type, a benevolent, white-whiskered, conservative old gentleman, and this was his first experience with cars.

He followed with keen interest the salesman's talk on the many good features of the Russell-Knight.

"How long did you say that engine ran without stopping?" he queried.

"Thirteen days and nights," was the salesman's impressive answer. "That's equivalent to 10,000 miles—from Halifax to Vancouver and back again—without a single stop."

The old gentleman hastily drew on his gloves.

"That's no car for me to drive. I live only ten miles from the city, and I'd have to drive all over Canada to reach my home."

"That's the only objection I've heard to a Russell record," commented the salesman.

Notice of Application To Parliament

NOTICE is hereby given that application will be made to the Parliament of Canada at its present session by The North Shore Power Railway and Navigation Company for an act changing the name of the said company to "Gulff Pulp and Paper Company," and to authorize the said company to carry on its business and undertakings without the limits of the Dominion of Canada.

Dated at Ottawa this 9th day of April, A.D., 1914.

CHRISTIE, GREENE & HILL,
110 Wellington street, Ottawa.
Solicitors for the said The North Shore Power Railway and Navigation Company.

COMMERCIAL NEWS

NEW YORK STOCK MARKET.

McDonald & Lesperance, stock brokers, private wire to New York and Montreal, Hochelaga Bank Building. Telephone 1227.

(Canadian Press Service.)

New York, April 24.—European selling was largely responsible for a general decline in stocks today. Foreign markets were nervous over the Mexican crisis, and the depression due to this influence was increased by the illness of Emperor Francis Joseph. Europe unloaded stocks here steadily until long after the close of the London market. Selling for foreign account was variously estimated at 30,000 to 50,000 shares.

The market at the opening followed the lead of London, where prices of American stocks were marked down. Trading during the forenoon was unusually active, and the market was more unsettled than at any other time since the beginning of hostilities with Mexico. There appeared to be a more general fear in the financial district of a long war, and liquidation was more widespread. Professional selling also was heavy, and during the forenoon quotations were forced down 1 to 2 points. A new low average for the downward swing was reached.

The lower level attracted investment buying and led to short covering. This increased demand for both accounts, checked the decline, and after noon there was a rally. Toward the close, however, prices eased off again.

Canadian Pacific was again thrown over in large amounts by European holders, and also was sold here by Montreal. It was forced down more than 5 points and reached the lowest price at which it has sold since it became a 10 per cent stock. Its present price is nearly 100 points under the high record made in 1912. New Haven also developed pronounced weakness, as did a number of stocks, such as Mexican Petroleum, Smelting and Southern Pacific, which are particularly affected by the Mexican trouble.

Bonds were lower with active selling of some high grade issues. Total sales, par value, $2,290,000. Government bonds were again depressed with most pronounced heaviness in Panama 3's. This issue, which lost a point, was especially sensitive owing to the expectation that, if the government should float a war loan it would be in the form of an offering of these bonds. United States 2's coupon declined ¼ and the 4's ½ on call. Panama 2's fell ¼. United States 3's registered declined ¼ on actual sales, and 3's coupon 1⅞.

NEW YORK CLOSING LETTER

By private wire to M. L. Dohan, broker, Dominion building, St. Peter St., Phone 4748. Branch, Quebec Ry. Bldg., St. Joseph St., Phone 582.

New York, April 24.—London still seems to take a gloomy view of the situation here and prices sent over here today reflected a further tendency to sell off. Selling was undoubtedly continued here and again Can. Pac was the leader in the bear movement. This further liquidation in C. P. R. was in spite of encouraging information from the officials of the company and was largely responsible for the decline in the rest of the market. The Mexican situation does not improve as time progresses and is having a very depressing effect on prices which show no rallying power. It does seem as if the decline has discounted more bad news than has come out but in such times as these it is always the fear of new complications that hangs over us. The market closed at about the lowest prices of the day.

Total sales, 492,400.

NEW YORK CLOSING LETTER

Received over the private wire of McDougall & Cowan, Stock Brokers, 81 St. Peter St., Quebec. Tel. 246.

New York, April 24.—The English markets were depressed before our opening and lower quotations were sent over from London. Heavy selling in first hour estimated at from 30,000 to 50,000 shares depressed prices of our entire market. Pressure centered on C. P. R. in the early dealings, which stock opened down 2½ points from last night's close. The pressure continued against the stock practically all day and in the final dealings it showed a decline of over four points. Stocks of companies having interests in Mexico were submitted to special pressure early in session. These included American Smelters, Southern Pacific, Mexican Petroleum, while a reassuring statement from Mr. Guggenheim brought a sharp rally in Smelters on which it regained all its early loss; this gain was not held and the stock weakened in the afternoon with the rest of the list, which sold off once more to the lowest prices of the day. Declines of one to two points were the rule throughout the active list. In the late dealings New Haven became especially weak, selling off nearly three points. In the final dealings stocks sold at about the lowest prices of the day and the tone at the close was distinctly weak. At the close Canadian Pacific broke badly, recording a loss of over 5 points on the day.

Total sales, 517,000; bonds, $2,184,000.

SAYS WAR WOULD LAST FIVE YEARS

MEXICAN CONSUL DECLARES U. S. WOULD NEED BETWEEN 300,000 AND 500,000 MEN.

New York, April 23.—That a war with Mexico would cost the United States $500,000,000 would call for an army of from 300,000 to 500,000 men and would last five years, is the declaration made by Col. De Estava, the new Mexican consul general, who arrived here last week.

Senor De Estava declared these impressive figures resulted from the official report of a United States Army officer who had investigated conditions in Mexico from the standpoint of military strategies at the time of the Madero disruptions.

Asked how Mexicans generally would regard intervention, Col. De Estava said: "I am certain that all classes will join against a common enemy. It does not matter what country is the invader, Mexico will fight for her freedom. Mexico has one of the best artilleries in the world. We have a French and an English artillery that can not be surpassed. There is a type of fighting man in Mexico, the Mexican Indian, who fights just for the love of it. He is a natural-born fighter. He is a type that never gives in."

Would Require Five Years.

Senor Estava answered the question as to how long he thought Mexico could hold out against the United States by quoting from a report which he said was made by a major of the United States Army sent into Mexico for a report in Madero's time. Senor Estava said he was in San Antonio at the time and heard of the report through army sources.

"The major said," he declared, "that the conquering of Mexico would take five years and from 300,000 to 500,000 troops. You must remember that if the country is really invaded by the United States or any other foreign power, Mexico will in time become united—a reunited country is inevitable; count on nothing else.

"The Mexican Indian is to be reckoned with as a fighter. He loves fighting and he does not fear death. With a few months of discipline he will become a soldier who will give stubborn resistance. Finally, the greatest resource of Mexico in a modern war is the geographical contour of the country. Nature has fashioned it as a fortress to be defended by very few against a great many."

Blames Crisis on Lind.

Senor Estava said a Mexican friend from Washington told him today that the return of John Lind to Washington and his report had changed the whole attitude of the Wilson administration and semed to observers in Washington to account for the present demand for an unconditional salute.

"It is our feeling that the occasion for the demand was slight and the mistake of a single man, who should apologize for an action which was not authorized by his superiors and who should be punished. But, if it is to be followed by a national apology and salute there is no end to the demands on trifling grounds which may lead to our being obliged to salute every day."

VOTED PASTOR GUILTY; TRIES DEATH IN BONFIRE

Whitley, Trustee Who Said Byles Insulted Sunday School Girl, Is Found Dying.

Chicago, April 24.—Tragedy followed a week of sensational disclosures in Lockport, Ill., today, when Robert Whitley, unconscious and badly charred, was found lying on the embers of a bonfire in the cemetery. Popular opinion is that Whitley built a fire and threw himself on it while ill. He was rushed to the Silver Cross Hospital at Joliet, but physicians say he will die.

Whitley was one of two trustees of a church who voted Charles H. Byles, its pastor, guilty of an indiscretion toward a girl. The rest of the trustees exonerated Byles.

Miss Lucille Clark, a pretty seventeen-year-old member of the Sunday school, charged that Byles took hold of her garter and unbuckled it in the course of playing a game that involved the passing of a piece of money under a table. An affidavit, signed by the girl, was made public yesterday in which she declared her belief that the minister did not intend to act in an ungentlemanly manner toward her.

This was promptly followed by an announcement by Mrs. Whitley that she believed Miss Clark to have been coerced into signing the document, a stand which Whitley also took.

Whitley disappeared from home last night, and when he did not return friends and relatives started a search. He was not discovered until dawn today. A bit of smoking brush in the cemetery attracted the attention of one of the searchers, and Whitley was found on the fire.

When told today that the affidavit exonerated the minister, Miss Clark said she had not meant to sign anything that denied the incident had occurred.

HUNDREDS OF CASES of Diabetes Cured

This startling statement can be readily corroborated by hundreds upon hundreds of letters received at this office telling of complete cures effected by.

SANOL ANTIDIABETES

One of these letters states:—

"During the month of March, I was informed that I had a well developed case of Diabetes. I began taking Sanol Antidiabetes with the result that within a short time the urinalysis disclosed no sugar whatever, and I have every reason to believe that I am cured."

"There is no question in my mind regarding the virtues of Sanol Antidiabetes, and I feel that a great blessing has been conferred upon suffering humanity by the discovery and use of this medicine."

Sanol Antidiabetes is a positive cure, and is now being used by numbers of the leading physicians, and is also used in many of the hospitals and schools of Canada.

Write for literature on Diabetes.

PROPOSED LABOR TEMPLE.

To Editor of The Chronicle.

Dear Sir,—Our attention was drawn to an article apearing in your edition of the 21st instant, in which it is left to be understood that we are favorizing the erection of a Labor Temple in our city.

We must inform you that this question was never brought up to our notice, and consequently we never charged nobody to circularize that we were patronizing such a movement.

We hope that you will print this declaration, so that everyone concerned, learn how the Local 604, of the International Association of Machinists stands in regard with said publication.

Yours very truly,
P. T. JULIEN,
President.
W. PERKINS,
Rec. Secy.

Quebec, April 24, 1914.

To Editor of The Chronicle.

Dear Sir,—Mr. Dermot Carew's letter is a long drawn out statement of, maybe, a few Quebec people's opinion, but Britisher's views are not reflected therein by any means. He has taken a column to sum up the matter, but can be replied to in less.

It is a misstatement every time it is printed to say that Uister is in revolt with the Crown. A more loyal people never breathed; their patriotism, their loyalty, and their contentment, coupled with their religious fervor has enabled them to build up industries which supply the world, industries which are not aproached by any other part of Ireland, and placed them as far ahead of the rest of the country as Western Canada is of the East. They refuse to accept Home Rule, to forsake as it were the substance for the shadow of—they know what. To forsake the religious tolerance of the Union Jack for dictation by another power ultimately, who will promise them nothing but,—what always falls to the minority—coercion.

And Mr. Carew speaks of them as rebels! Has he ever seen the respect shown to the Crown when visiting Ulster, and the marked disrespect at Dublin. Maybe he has! "A straw will show which way the wind blows."

Now, regarding the poor British army officers. They seem to worry some of your newspapers on the American Continent lately. It is part of the Army Regulations that no officer or soldier in the British army is allowed to write to the newspapers, otherwise the wailings of some of the little Englanders would possibly dry up. Perhaps they take shelter behind the fact. The desire of the British officer to retire, or suffer imprisonment rather than lead a body of men to fire on their brothers because practically they desire to retain their loyalty to their God, and to their King, is to a real Briton—laudable. The fundamental duty of the British soldier, is obedience, as Mr. Carew says, but he is answerable only to his King and country. The oath as I remember it, was applied for the defence of our Empire against all enemies and oppressors whatsoever, and officers and men as history shows, have at all times kept their trust, and at all times will. Hence the Ulster Volunteers, another asset to the Crown, if they are allowed to be, are ready to do their share, and to take the same oath, and there are those who would have brother turn against brother, because they are happy in the protection of the flag that spells freedom, and are contented to leave St. Patrick's Cross in that grand old flag.

DUKE OF ABRUZZI IN LOVE AGAIN

LATEST ROMANCE CENTERS ABOUT ENGLAND'S MOST BEAUTIFUL WOMAN.

New York, April 24.—The most persistent wooer in the world has cast his royal eye upon the most beautiful woman in England.

All of London is wondering whether Lady Diana Manners, pet of society, archer and athlete, will accept the position in the royal family of Italy that the Duke of the Abruzzi tried so hard to thrust upon Mrs. "Billy" Hitt, then Katherine Elkins.

Will the proud Duke and Duchess of Aosta renew the objections that prevented the Elkins match, or will the blue blood of the third daughter of the Duke of Rutland be sufficient to satisfy their demands?

A lover loving world has so many reasons for watching the new romance of the dashing young Italian explorer who went to the very tops of the Himalayas to forget his wrecked romance in America that the duke again is embarrassed. He still believes that the keen interest of the American people prevented him from winning the hand of Miss Elkins. He now has good grounds for fearing that the even greater interest of the English people in their little Lady Diana may have the same result—providing, of course, that he is so seriously inclined.

The lot of a royal wifeseeker is not such a happy one, after all. Making love under a spotlight is not as desirable as it may seem to one who is enjoying the comforts of comparative seclusion. Being compelled to answer to the general public for all of your actions is hardly a state of affairs that a lover would choose if he had the choosing.

However, the Duke of Abruzzi has grown so accustomed to dodging cameras and interviewers who insist on prodding his tender sensibilities by asking questions of the most intimate sort that it is presumed he will find the situation no more trying in England than in America and Italy.

On the occasion of his last visit to America he traveled under assumed names, donned slouch hats and chauffeur's coats and in every other manner that might be suggested by an ingenious mind sought to evade his tormentors. But all his efforts were in vain. He was caught just as he was about to board the Lusitania and, being a good loser, he bowed and smiled broadly.

"Can you see me in half an hour?" he asked.

"But that is the time set or the ship's departure," exclaimed the reporters.

"And that is just the time I wish to see you," smiled the duke.

An Old Settler Finds Quick Relief

CHAS. MARSHALL CURED BY DODD'S KIDNEY PILLS.

Mrs. Marshall Tells How Her Husband Suffered, and of His Speedy Recovery When He Used the Great anadian Kidney Remedy.

Parkinson, Algoma, Ont., April 24.—(Special)—Living for from towns and with doctors not within easy reach, many of the settlers have found Dodd's Kidney Pills an inestimable blessing. One of those is Mr. Charles Marshall, Sr., whose recovery from a severe case of kidney disease has recently been the cause of much satisfaction to his family and friends.

"My husband was suffering very much with his back and legs." Mrs. Marshall says, speaking of her husband's cure. "He went to see the doctor, and he told him he had urinary trouble, but he did not seem to get any better.

Then I sent for some Dodd's Kidney Pills. Since taking them he has no more pain in his back and legs, and his other troubles are all gone.

"I am indeed thankful for what Dodd's Kidney Pills did for my husband, and I hope other sufferers from kidney disease will benefit by his experience, and use Dodd's Kidney Pills."

Urinary troubles are caused by diseased kidneys. So are backache, rheumatism, lumbago and heart disease. The natural remedy is to cure the kidneys by using Dodd's Kidney Pills.

THE FLORAL DEPARTMENT OF THE C. P. R.

A quarter of a century ago saw the birth of the floral department of the C.P.R. Commencing on a small scale, it has rapidly developed until now hundreds of thousands of packages of flower seeds and millions of bulbs are distributed amongst the agents, roadmasters, section men and other employees who interest themselves in beautifying their own and the Company's property. The seeds this year were sent out in February and the bulbs are distributed in the fall. Plants, shrubs and perennials are also sent out in immense quantities.

Not only do the employees of the Company display great interest in floral culture, but the idea of beautifying one's surroundings has spread amongst the people living in their neighborhood, with the result that many an unkempt, dreary spot has been transformed into a bower of beauty. This is not only a delight to the employees and their neighbors, but a source of pleasure to the army of travellers who appreciate the many lovely gardens that embellish the line.

It is an old saying that corporations have no soul, but the C.P.R. has shown that it is an exception to the rule, and has made itself a name for what is has accomplished in beautifying its lines.
