OF THE
PROVINCE OF LOWER-CANADA

. It may be necessary to observe that the Quebec Almanack is not strictly an official publication; The Civil, Ecclesiastical and Military Lists are however obtained directly from the Departments at Quebec, and generally revised there before being sent to Press. The Printers will be always ready to make any alteration in the arrangement, which may be suggested upon good authority.

Les Imprimeurs se feront toujours un plaisir de faire tout changement qui paroitra devoir être fait sur de bonnes autorités.

FLOATING LIGHT VESSEL in the Traverse.

Commander, - - - N. Marchand.

[As it has not been ascertained whether the vessel will hold in her present position, no bearings have been published.]

LIGHT HOUSE ON POINTE DES MONTS.

Keeper, - - - Jas. Wallace,

Will shew a light every evening from sunset to sunrise, between the first of April and the thirty-first of Decr. inclusive.

The following Notice was published by the Trinity House, relating to this Light House :—

NOTICE TO MARINERS.

That a Light House has been erected on **POINTE DES MONTS**, (or Cape Monts Pelés) on the north side of the River St. Lawrence, nearly opposite to Cap Chat, the Lantern standing one hundred feet above the water.

The Light House lays with the outermost part of **CARIBOU POINT**, N. 52° . East and S. 52° . West, by compass, and it can be seen over that point and to the Eastward of it.

Ships approaching the light from the Eastward, as they draw towards Caribou Point must bring it to bear W. by S.; they will then be in a good fair way, and if necessary they can near the land by their Lead.

After passing Caribou Point, and as they draw towards the Light House, they must come no nearer than 12 fathoms water to avoid two ledges of rocky one of which lays E.S.E. from the Light, with only 12 feet water on it; the other lays S. W. from the Light, and E. S. E. from the Western extremity of

LIGHT-HOUSES.

Pointe des Monts, with 16 feet water on it ; but these rocks do not lay farther from the shore than half a mile at low water.

The Light House lays with the western extremity of Pointe des Monts N. 64° . East and S. 64° . West, and distant about one mile ; and when ships are to the Westward of the Point; the Light House is in one with the outermost Rocks off the Point ; and in the day time it forms a bold distinct Land Mark ; and on this line of bearing ships are in the best possible fair way for the general purposes of Navigation, whether bound up or down.

For any particular purposes of Navigation, Ships may safely stand to the Northward, until the Light bears E. by N. ; they will then be drawing near the North Land ; and when it bears E. $\frac{1}{2}$ N. it is time to tack ; for when it bears East it will shut in with the High Land and cannot be seen to the *Southward of East*, and then they will be only one mile from the Land, and if they are off *Godbut* river, Pointe des Monts will bear from them E. by S. two leagues distant.

When ships are off Saint Nicolas Harbor, and the light bearing E. by N. they are in a good fair way from the North Land The S. E. spit of *Manicouagan* great Shoal, the Ship and the Light House are then all in one line of bearing.

LIGHT HOUSE ON S. W. Point of ANTICOSTI.

Keeper—Lt. Harvey, h. p. Royal Navy.

A Light-House having been erected on the South West point of the Island of Anticosti, Notice is hereby given that a Grand Revolving Light, on the Argand principle, was shewn thereon for the first time, on the 25th of August 1831—and that the said

LIGHT-HOUSES.

Light will continue to be shewn every night from Sun-set to Sun-rise, from the 25th day of March to the last day of December in each year.

When Ships are to the eastward of the Light-House, they may safely stand towards the Island until it bears N. N. W. by Compass—they will then be in a good fair way—and if they wish to make more free with the land they can do so by their lead. The land trends from the Light-House S. E. by S. or nearly so.

When Ships are to the Westward of the Light-House, they may safely stand towards the Island until the Light bears S. S. E. $\frac{1}{2}$ E., they will then be in a good fair way from the Land, and as before mentioned they can make more free by their lead.

Nearly East and West with the Light-House, and about three-fourths of a mile from it, is the outermost part of a *Reef of Rocks*, which joins the S. W. point. These are dry at low water and are the only dangers near the Light-House; therefore a berth of a mile from the point is a good fair way.

Sixteen leagues to the eastward of the Light-House, at Shallop Creek, and sixteen leagues to the westward of the Light-House, at Grand Bay, and at the Light-House itself are Depôts of provisions for the use of Mariners in distress or other ship-wrecked persons.

A Light-House is now building on Heath Point at the east end of the Island of Anticosti, and will be completed about the middle of next summer.
