PUBLIC BUILDINGS EXPENDITURE APPROVED ON A PARTY DIVISION

By Vote of Forty to Ten, Quebec Legislature Declares Constitutional of Entering into Contracts Before Voting of Estimates—Expenditures on New Quebec City Jail—Amendments to Unemployment Act Passed.

QUEBEC, Jan. 14.—The Government was victorious yesterday when the House divided on the constitutional issue in connection with expenditure of money for public buildings. The vote was forty to ten on a straight party basis, with William Tremblay, Labor, Maisonneuve, voting with the Opposition.

The vote rose out of a discussion on the construction of a women's jail in Quebec City, the Opposition claiming that it was unconstitutional for the Government to give out contracts for \$345,000 before the full amount had been voted by the House. The House two years ago voted \$200,000 for the purpose, of which \$60,000 had been spent and the Department of Public Works and Labor asked a further \$200,000. This was granted yesterday.

The vote killed an Opposition amendment to the grant bill, in which Alderic Blain, Conservative, Dorion, Montreal, asked the Assembly to deplore "the improvidence of the Government, its lack of method in this case, its lack of care to assure the payment of reasonable wages to workmen and the violation of the right of the members of the House to vote subsidies before the Government engages the public funds."

Camille Houde, Aime Guertin, of Hull, Armand Crepeau, of Sherbrooke, Maurice Duplessis, of Three Rivers, and William Tremblay, Maisonneuve, took part in the discussion from the Opposition benches, with Premier Taschereau replying for the Government.

The House then passed a bill sponsored by Hon. J. N. Francoeur, Minister of Public Works and Labor, in regard to unemployment, supplementing the measure passed during December.

BODY OF YOUNG SOCIETY WOMAN TAKEN FROM WATER
Believed that Death of Miss Lillian Fritz, New Bedford, Was "Probable Suicide," as She Had Been Under Physician's Care for Nervous Breakdown.

ATTAPISOSETT, Mass., Jan. 14.—Drowning was for her probably the most difficult of deaths, because of her ability as a swimmer, so Miss Lillian Fritz, socially prominent New Bedford girl, tied her hands and feet before leaping into Buzzard's Bay. Her body was recovered yesterday, about fifty feet from the pier on which some silk garments were found. One silk stocking bound her feet and the other her hands.

Miss Fritz had been under the care of physicians for a nervous breakdown. The medical examiner declared her death "probable suicide."

LAUNCH HOOVER CAMPAIGN FOR RE-ELECTION
Director of Republican National Committee Sends Letter Outlining Policies to Precinct Leaders.

NEW YORK, Jan. 14.—A letter from Robert H. Lucas, executive director of the Republican National Committee, to Republican precinct leaders of the nation, launching President Hoover's campaign for re-election in 1932, was published by the New York World today.

In the letter, dated December 24, Mr. Lucas appeals to party aides to "defend the President" and join the National Committee in conducting "an aggressive, active, determined campaign from this day until the polls close in 1932."

The past year, however, has disclosed a well laid plan by the Democrats to embarrass the Republican administration and to discredit the President of the United States. And there has been no let up in Raskob's "Smear Hoover" campaign. To win in 1932 the Democrats must destroy the Republican leader. By subtle innuendo and insidious propaganda, which is being carried on by Raskob's

MINERS MADE AN ATTEMPT TO STAGE PARADE

Marching to Light of Pit Lanterns, Welsh Miners, Nearly Thousand Strong, Interspersed Their Songs With Shouts "If You Want Bread Join Us."

MAESTEG, Wales, Jan. 14.—Nearly 1,000 striking miners carrying banners with inflammatory slogans last night attempted to march to Caern to demand food at the Bridgend workhouse.

Marching to the light of pit lanterns they interspersed their songs with shouts: "If you want bread join us." The police, who had been notified of their approach, sent out an escort and intercepted, just outside the town and ordered them to disperse.

At one time it looked as if a riot might develop, but the counsel of older men prevailed and the men finally went home quietly. "We did not intend to do anything disorderly at Bridgend, but we should not have left the workhouse until we were fed. Our wives and children can obtain relief, but we cannot take food from their mouths and single men get nothing. If the owners think they can conquer us by starvation they are mistaken. We shall not give up because we have to tighten our belts. Pathetic stories of near starvation were heard from among the miners, whose money reserves have been used up by the two weeks away from work. No credit is obtainable anywhere in the district for them."

LONG-MISSING ENGLISHMAN IS BEING SOUGHT
British Radio Today Tried to Clear Up Mystery Surrounding Disappearance of Sir Francis Barrow.

LONDON, Jan. 14.—British radio systems today paged Sir Francis Barrow, baronet, who mysteriously disappeared eighteen years ago and has not since made his whereabouts known.

A broadcast carried the urgent appeal of friends to come home immediately since his eldest son, Wilfred John Wilson Croker Barrow, heir to his title, is seriously ill. The broadcast was the first revelation to the general public that the baronet, who is the fourth of his line, was missing. Lady Barrow, his wife, and other members of the family declined to discuss the disappearance or other circumstances of the case.

If still alive Sir Francis would be sixty-eight years old. He was married in 1890 to Winifred Sarah Steward, of Cartgate, Whitehaven, who bore him a son and daughter. There are seven grandchildren. One of two sisters is a Franciscan nun.

CHANGING NAME OF HIGHWAY IN VERMONT URGED
Some Members of Vermont Legislature Feel that King's Highway Is Not Appropriate Name for Route Number Five.

MONTEPELIER, Vermont, Jan. 14.—It's King's Highway now but it may be Indian Joe Trail, if some of the members of the Vermont Legislature have their way.

The question of which name shall be borne by United States Route Number 5 through Vermont from the Massachusetts border to the Canadian line is agitating a group of the legislators in the northern part of the state.

When a portion of the highway between Bellows Falls and Putney was completed and dedicated it was officially designated as King's Highway, the name by which this portion of the Connecticut Valley route was originally known. But some thought a name more in keeping with the traditions of the valley should be chosen.

So some one suggested Indian Joe Trail in memory of Indian Joe of the St. Francis tribe whose exploits as a scout during the revolutionary war brought comment from George Washington, to the end that he was pensioned by the state.

GOVERNMENT IS STUDYING EFFECT OF RUSSIAN ASBESTOS POLICIES

Hon. J. E. Perrault and Representatives of Asbestos Producers of Province Held All-Day Session at Quebec Parliament Buildings—Canadian Industry Suffers as a Result of World-Wide Dumping Policy of Soviets.

QUEBEC, Jan. 14.—In an endeavor to arrive at some solution for the problems of the asbestos industry of the Province of Quebec, representatives of the leading producers held an all day session with Hon. J. E. Perrault, Minister of Mines, at his office here yesterday.

With nearly ninety per cent of the world's supply of raw asbestos, the Quebec industry finds itself facing Russian competition in the United States, its principal market, of a nature that has seriously harmed the industry and caused misgivings for the future.

Hon. Mr. Perrault spoke at the conference of the necessity of the companies in Quebec co-operating rather than indulging in ruinous competition. His plea was given an excellent reception. Another matter brought up was the fact that a bill has been introduced at Washington to put an embargo on the importation of Russian asbestos into the United States. The situation there is that within the last six months Russia has dumped 4,700 tons of raw asbestos into the United States, which is 50 per cent of the United States consumption per year. The prices at which the Russian material has been landed at New York follows along the same Russian policy as regards wheat dumping.

The net result of the conference is that the asbestos producers in Quebec will work together more harmoniously. It is to be recalled that Hon. Mr. Perrault some six years ago removed the royalty duties upon asbestos to encourage the industry. The asbestos mines are located in the eastern townships, mostly at and around Thetford Mines and the town of Asbestos.

The Russian Government in the past few months has recruited Canadian technicians from Thetford Mines and vicinity.

FIRE HOSE USED TO QUASH POLISH PRISON OUTBREAK
Aid of Fire Department Called for by Prison Director When Four Hundred Prisoners Riot.

KORONOV, Poland, Jan. 14.—Streams of icy water from fire hoses were used by the authorities here today to quell a riot among prisoners of 400 criminal convicts over alleged bad food which was being served them.

The prisoners had been unruly for several days, the prison director finally withdrawing the privilege of walking in groups during their daily constitutional as a corrective measure. At 10 a.m. the prisoners in protest started yelling and demolishing the furniture of the prison, smashing windows and the like. The director telephoned nearby Bylgoszcz and a fire brigade was "used to the prison."

At the end of the unequal battle between prisoners and fire hose every window in the institution was broken.

HON. HOWARD FERGUSON MEMBER OF CANADIAN PRIVY COUNCIL

HEAD OF ROYAL BANK SUPPORTS WAR DEBT MOVE
Sir Herbert Holt Declares British Debt Principal Actually Greater Than Amount Borrowed from United States.

MONTREAL, Jan. 14.—Interviewed regarding the statement of A. H. Wiggin, chairman of the Chase National Bank, New York, in connection with the annual report of that bank, Sir Herbert Holt, president of the Royal Bank of Canada, made the following comment: "I consider Mr. Wiggin's statement worthy of the high position which he occupies in banking on this side of the water. In my speech at the annual meeting of the Royal Bank of Canada I refrained from referring to reparations and war debts, as a discussion of this subject is liable to result in misstatements and bad feeling."

"The drastic fall in the price level has greatly increased the burden of international debts and has accentuated a condition which was already acute, namely, the position of reparations and war debts. Thus the Young Plan signed within the year imposes a greater burden of debt on Germany than did the Dawes plan, providing that total payments should be reduced to the extent of an improvement in the purchasing power of gold."

"It is customary to state that the payment of the British war debt was a reduction in principle. The calculations are usually made on the basis of a 4-1-2 per cent interest rate. Since the average yield on consols in 1910 years had been scarcely 3 1/2 per cent, it is evident that if this rate were used the principal debt is actually greater than the amount borrowed. Actually what was borrowed was commodities and looked at from this common sense basis Great Britain has at current price levels underwritten more than double the amount she borrowed. The sooner this whole question is taken out of the realm of politics, and international recrimination and discussed on its merits the better it will be for the world."

"I would, however, like to point out that I thoroughly agree with Mr. Wiggin that the most important factor in re-establishing satisfactory conditions is a normal flow of loans from the United States to foreign countries; otherwise they must adjust their economy to a non-export basis."

Mr. Wiggin, chairman of the Chase National Bank, suggested recently that for good business reasons the United States government should initiate a movement looking to a reduction of inter-Ally debts.

LORD AND LADY WILLINGDON SAID FAREWELL TO FRIENDS AT OTTAWA

Left Capital, Which Has Been Their Home for Past Four Years, at Noon Today on Way to Quebec City—Will Proceed to Saint John, N.B., Where They Will Embark for England and Then India

OTTAWA, Ont., Jan. 14.—Rideau Hall is today without a tenant. Viscount Willingdon, Governor-General for the last four years, and Viscountess Willingdon leave Ottawa today for England and as yet the new Governor-General has not been appointed.

Lord and Lady Willingdon leave at noon for Quebec, where a reception will be held. They will then go on to Saint John, N.B., where they will embark for England. After a short stay in London they will go to India, where Lord Willingdon will take up his new duties as Viceroy of that country.

Elaborate military arrangements were made for the departure of the Vice-Regal party from Ottawa. A detachment of cavalry escorted them from Rideau Hall to the station and guards of honor from local infantry units were drawn up in the depot and on the station platform.

Culminating a series of social events arranged in their honor, Lord and Lady Willingdon last night attended a dinner given by Premier R. B. Bennett and his sister, Miss Mildred Bennett. The night before they were guests of honor at a dinner arranged by Rt. Hon. W. L. Mackenzie King, leader of the Opposition.

THEIR EXCELLENCIES SAY GOOD-BYE TO CANADIANS
OTTAWA, Jan. 14.—"I leave you with the profound conviction that the basic condition of Canada is absolutely sound," declared His Excellency Lord Willingdon in his farewell message to the Canadian people. The parting word from the personal representative in Canada of His Majesty the King is a simple direct expression of gratitude on behalf of Viscountess Willingdon and himself for the "constant kindness, courtesy and friendship which has always been shown us by all with whom we have been privileged to come in contact, from the highest to the lowest in the land."

"To the Canadian people His Excellency leaves a message of co-operation. He says that he adopted the word 'co-operation' as his motto when he first came to the Dominion. He has endeavored to keep that word before him during his tenure of office. Now he expresses the hope that co-operation between the two great races of Canada and co-operation between the provinces and the Dominion may be the main impulse in the lives of the Canadian people."

"It is always sorrowful to say 'Good-bye,'" His Excellency says, but he adds that distance does not impair the sincerity of friendships and he knows his friends in Canada will sometimes turn their thoughts to Lady Willingdon and himself in India. Both his wife and himself will always keep an abiding interest in the welfare of Canada."

ROBINSON'S OUTLINE OF SITUATION
President of National Dairy Council of Canada, Who Is Well-Known Dairyman of the Eastern Townships, Speaker at Meeting of Canadian Produce Association.

MONTREAL, Jan. 14.—F. E. Robinson, of Richelieu, Que., president of the National Dairy Council of Canada, discussed the present butter situation at a meeting here yesterday of the Canadian Produce Association.

The butter outlook is for rapid increase in production, pointed out Mr. Robinson. Alberta advances were of a 60 per cent increase in output as compared with the same time last year. Low feed prices were encouraging the increased quantities. Moreover, the Canadian price had been practically pegged at 32c per lb. owing to the recent arrangement with Australia that imports from that country would not be brought into Canada at less than the 32c level. With high tariffs put up against other butter, Mr. Robinson foresaw a swing from cheese production to butter making owing to necessity of selling cheese in the world markets constantly becoming more difficult.

Mr. Robinson emphasized that the National Dairy Council held the view that a duty of 4c per lb. on butter is considered adequate in normal times. The dairy industry appreciated the Government's action in putting the New Zealand export duty at 8c, and the Australian duty also above the 4c line, but, for the long time view, under normal conditions a 4c duty was believed the best, offering less opposition to the cheese industry here.

Mr. Robinson pointed out that utter production in Canada is increasing to such an extent that the dairy authorities, notably the dairy commissioner of Canada, Dr. J. A. Ruddick, predicts Canada will in two years time require no butter imports, and will in fact have to export for export. The problem then will be a world one. Canada's butter level of 32c at the present time for instance, is several cents below the world level, and consideration should be given even now to the situation, which might be described as nearing the edge of a precipice, and which may yet involve a speedy descent from peak to trough, and which may yet involve a speedy descent from peak to trough, and which may yet involve a speedy descent from peak to trough.

Mr. Robinson admitted they may do so before the export time comes. He (Continued on Page 9.)

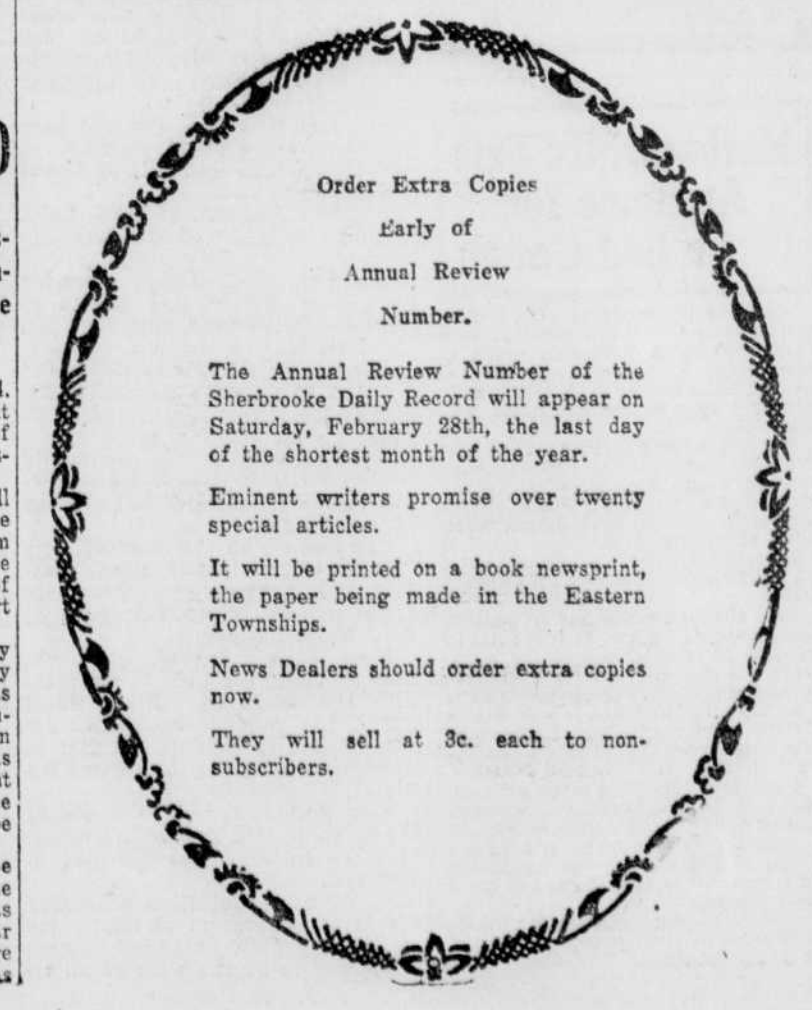

NOTED AIRMAN TO ACCOMPANY CAPT. CAMPBELL
H. L. Leech, Chief Engineer of Ill-Fated Dirigible R-101, Is Granted Leave of Absence by Air Ministry—Will Be Mechanic to Racing King.

NEW YORK, Jan. 14.—One of Great Britain's air heroes, H. L. Leech, chief engineer of the ill-fated dirigible R-101, sails from England with Captain Malcolm Campbell today as an ordinary mechanic to the British automobile racing king.

Leech was one of the few survivors of the crash of the R-101 that cost forty-eight lives on a hillside in France last October. He was decorated with the Albert Medal for bravery in rescuing others of the few survivors of the crew from the flaming wreckage.

Because of his friendship for Campbell, Leech received leave from the British Air Ministry to make the trip. He accompanied Campbell in 1928, when the speed king set a mark of 206 miles an hour at Daytona Beach, Fla. where the new trials will be staged in February.

MAKES ARREST
NEAR BEDFORD

Four Residents of Vermont Fined for Hunting in Canadian Territory Without License.

BEDFORD, Que., Jan. 14.—For the past two or more years it has generally been known by local game wardens that hunting parties from south of the international border have been making practice of taking hunting trips into Canada over the week-ends. Attempts have been made by local game wardens at different times to apprehend some of these parties, but without success, until Sunday afternoon, January 4th, when Special Fish and Game Officer Martin was successful in rounding up four residents from the adjoining state of Vermont, who were all well-equipped with hunting paraphernalia and who had in their possession several rabbits which they had shot in one of the St. Armand Parish rabbit warrens.

This Sunday outing was an expensive one, as each was fined fifty dollars and five dollars cost, which is the minimum fine for non-residents hunting in Quebec without a license.

We believe that the creed of the Homemakers' Club in Maryland is worth passing on: "To place our vocation as homemakers and mothers above all else; to believe that with Divine guidance our home and our community can be the best; to work more diligently for strong bodied, self-reliant, broader and higher principled children; to maintain the high standards of honest dealing and the broad-minded tolerance observed by the founders of our historic state; to lend to the less fortunate a helping hand; to preserve a high courage through discouragements and to keep awake the fact that we must ever march onward."

Health Slipping? Noted Physician Explains Danger in Clogged Intestines

Tired all over. A sign his body is being poisoned—from within!

DR. GEORGES ROSENTHAL, celebrated authority of the Pasteur Institute, in Paris, explains how poisons form when intestines are stagnant and unclean. These poisons undermine vitality and health.

THIS IS WHERE the trouble starts! "Keep intestines clean with fresh yeast," Dr. Rosenthal urges.

dangerous Poisons spread from Here!

Do you tire easily? Is your appetite poor, your pep all gone? Are you subject to indigestion, to headaches, to frequent colds?

And do you really want to find out what is wrong? : : what is keeping you from perfect health, from greater success, from more abundant living?

Then read what follows—carefully. It is a message from one of the foremost medical authorities in Europe today : : Dr. Georges Rosenthal, Laureate of the Academy of Medicine of France.

Doctor Rosenthal says—

"When an unclean condition arises in the intestinal tract, poisons form. These poisons penetrate into the blood stream and seriously affect the whole system."

"To keep the digestive and intestinal tract clean, medical science recognizes the surprising value of fresh yeast."

"Fresh yeast is a food—not a drug. It corrects indigestion . . . tones up the system . . . increases resistance to colds. Coated tongues, bad breath . . . headaches, pimples, etc., clear up."

There is opinion based on a lifetime of medical experience! And how sensible—how very simple to act upon.

For fresh yeast—Fleischmann's Yeast—acts in Nature's own way to correct intestinal fatigue and thus to clear away the poison-breeding wastes that contaminate your system.

It mixes with the contents of your digestive tract . . . softens them . . . stimulates the muscles that help your body clear them away naturally.

Thus yeast gradually restores normal intestinal action, stimulates internal secretions, tones up and cleanses the whole digestive mechanism. Appetite picks up. Headaches and skin troubles are corrected. Energy revives!

And all without a single dose of medicine, a simple bitter cathartic or pill!

You can eat Fleischmann's Yeast any way you like—preferably just plain, or in a third of a glass of water (hot or cold). Eat three cakes every day—one before each meal, or between meals and at bedtime. Each cake is rich in three health-giving vitamins—B, G and D. At grocers, restaurants, soda fountains, and drug stores.

Fleischmann's Yeast is fresh yeast...the only kind that benefits you fully.

Remember, it's important to ask your grocer for Fleischmann's fresh Yeast (with the yellow label) : : the only yeast that contains the Sunshine Vitamin D! Every cake is "irradiated" to give it this added element so important for sun-starved indoor workers. It is rich in vitamins B and G, too.

SNEAK THIEF IS SENTENCED BY JUDGE LEMAY

Walter Utterly, of Lancashire, England, Will Spend Six Months in Jail for Theft of Watch After He and Companion Had Been Hospitably Treated to a Dinner in Local Home.

Walter Utterly, giving his place of residence as Lancashire, England, was this morning sentenced to six months in jail and ordered to be reported by Judge J. H. Lemay in the Magistrate's Court for the theft of a wrist watch, the property of Miss Mary Rider, maid in the employ of Mr. and Mrs. Fred Webster. The accused and a confederate, Robert Weir, hailing from the same place, had been on the hospitality of Mr. and Mrs. Webster, and after having obtained a free meal on Monday afternoon, they "bit the hand that fed them" and made off with the wrist watch. As soon as the theft was discovered, the local police authorities were advised, and the culprits were arrested at the Canadian National Railway station. The watch was found on the person of Utterly, who was charged with the robbery, while yesterday Weir was found guilty of vagrancy and sentenced to a fine of twenty dollars and costs or thirty days in jail.

Such a case as confronted the court this morning was deserving of the sentence imposed. In view of the economic depression so rampant today and the large number of deserving cases which daily are brought to the attention of the public, the sentence is richly deserved. Cases such as this put housekeepers suspicious to such an extent that meritorious cases of persons honestly in need of food are turned away in fear of a similar occurrence.

Preliminary enquire into the case of theft of \$4,000, facing Adelard Labrie, of Johnville, was set for next Wednesday, when the accused appeared this morning. Pardon for bail was entered and set at four thousand dollars. Labrie stands accused of theft of the amount from one Pomerleau, formerly of Beauce and now residing

ROTARY CLUB HELD DEBATE LAST EVENING

A twist of novelty was given the regular meeting of the Rotary Club at the New Sherbrooke House last evening, when two Rotarians, Art Arnold and Walter Allatt, debated the comparative importance of bread or clothes.

Arguing for the importance of clothes, Rotarian Arnold brought in many witty and interesting arguments, while Walter Allatt, who upheld the baking end of the verbal skirmish, stressed the necessity of bread in the world, remarking that it was one of the cheapest and nearest article to complete food. Bread is so plentiful, he said, that many think it unimportant, although, in truth, good bread is one of the most important things there is.

After weighing both sides of the argument, the judges decided that while they certainly would not discard their overcoats or other dressing apparel, they would not by any means eliminate bread from their menu. As a result, it was established to the satisfaction of all that bread and clothing are on a par as two of the most important things.

RELIEF CLOTHING ISSUE NOT RECEIVED

While information has been received by the local Red Cross Society that an amount of clothing from the military stores is being released for distribution to the needy unemployed of the city, these articles have not been received as yet.

Although no definite plans have yet been made for the issuing of the clothing, the conditions of the gift require that all applicants receive a certificate of need from one of the local relief societies, as the supplies are not unlimited and only the most needy men can be provided for out of this grant.

Officials of the society will announce the plans for the distribution immediately the clothing is received.

FIRE IN WHITING BLOCK LAST NIGHT

Thought to have originated from a carelessly thrown cigarette butt upon the awning outside, a fire gained considerable headway and worked some damage on the Whiting Block, Wellington street north at about twelve o'clock last night. The blaze was soon quelled by the firemen and little damage was done to the building.

AUTHORITIES TO PROTECT BORDER CITIES MUSICIANS

Action of American Authorities in Barring Canadian Orchestras Leads to Reprisals from Windsor Officials.

WINDSOR, Ont., Jan. 14.—Detroit musicians have lost one of their good sources of revenue—employment for dances and parties in the border cities.

For some years there has been an informal agreement that musicians would be permitted to cross the line for short trips or tours or for single engagements. This has been recognized until just recently when immigration officers in Detroit started to prevent Border Cities musicians from participating in events in Detroit, despite the fact that a greater number of Detroit musicians were coming to this side of the line.

Just as a measure of defence for Canadian musicians, the Canadian immigration officers were instructed that the spirit of the agreement has been broken and that Detroit musicians would not be allowed to come here for engagements.

Y.W.C.A. NOTES

Y.W.C.A. Board of Directors Held Monthly Meeting

There was a very good attendance, with Mrs. F. S. Rugg presiding, at the regular monthly meeting of the Y.W.C.A. board of directors, when the many reports presented were approved and plans drawn up for the future.

Mrs. J. F. S. McCaw drew attention to the fact that repairs in connection with the electric wiring would have to be carried out very soon.

The physical department reported an increased attendance and a class in fencing being started, with Mr. P. Mathias as instructor. The junior party proved a great success. It is hoped to show moving pictures weekly from now on to all school girls, this being made possible through the co-operation of the Y.M.C.A. A regular "children's hour" on Saturday afternoon is also planned.

The educational committee asked that a class in some of the more important school subjects be started for the benefit of girls who have to leave school before attaining high school certificates. This will be done if eight or ten girls signify their desire for such a class, and promise a regular attendance.

Many organizations used the MacKinnon Memorial for meetings during the month, and two donations of books for children were received.

Regret was expressed at the resignation of Mrs. Walter Kinkad, and sympathy was extended to Miss Bulmer and Miss Emily Le Baron, the former having suffered a broken wrist through slipping on the sidewalk and the latter having undergone an operation in the Sherbrooke Hospital.

It was thought advisable to postpone the unveiling of the bronze memorial tablet, recently placed in the vestibule until the next meeting.

MEXICAN TRIO HAVE SUDDENLY SLIPPED AWAY

Provincial and Municipal Police, as well as Royal Canadian Mounted Police, Are Keeping Sharp Watch for Former Mexican Rebel Leader.

MONTREAL, Que., Jan. 14.—The whereabouts today of General Jose Gonzales Escobar, former Mexican rebel leader, his wife, Concepcion Goeldner and Franz Goeldner, Senora Escobar's twenty-one year old brother, was puzzling police.

The General, who learnt the advantage of quick movements during his troublous days in the Mexican Republic, met his wife and her brother on the train from Toronto to Montreal Sunday night. Upon arrival here the three disappeared and police discovered their baggage had been transferred to an Ottawa train which left almost immediately. Senora Escobar had come to Canada to press a suit entered in Superior Court here for annulment of her marriage to the General on the grounds, according to her claim, that it was illegal as his first marriage was still binding when he went through a wedding with her.

Appeals to police to solve the mystery of the party's whereabouts were made by the lawyers connected with the case, all of whom confessed themselves puzzled. Provincial, municipal police, the R. C. M. P., and immigration officers have all been instructed to seek the three missing persons.

C. E. Vowell, an El Paso attorney, who accompanied Senora Escobar and her brother here, said the General had boarded the train en route from Toronto and had conversed lengthily with his wife, assuring her of his affection and declaring that he has been misjudged. The brother, Vowell said, had objected to the husband and wife conversing.

John A. Sullivan, K. C., attorney in Montreal for the General, was phoned last night by an associate of his client, who stated that the differences between the husband and wife had been settled out of court. The Senora's lawyer, Gilles Gadbois, who is acting in Canada for her, said that no settlement could be carried out without his knowledge.

MOTORSHIP IS REPORTED TO BE IN TROUBLE

Vessel Carrying Thirty-One Passengers Grounded on Beach Off Salmon River—Not Determined Whether Passengers Are in Danger.

VICTORIA, B.C., Jan. 14.—With a hole in her starboard bow, where she crashed on a reef off Halmcken Island, the motorship Northland, carrying thirty-one passengers to Ketchikan, Alaska, today grounded on the beach off Salmon River. The steamer Salvage King left Victoria to go to her assistance and will arrive alongside at noon.

Captain Leonard Williams, as soon as his vessel had shaken clear of the reef, turned and raced for the sloping beach off the mouth of Salmon River, two miles distant, on the Vancouver Island side of the channel, and drove her aground. The motorship is owned and operated by the Northland Navigation Company of Seattle.

Reports of the accident said there was no panic on board. It was not determined whether passengers were in any immediate danger.

HOOVER CALLS ON AMERICAN PEOPLE TO AID RELIEF FUND

Asks for Minimum Contribution of \$10,000,000 for Relief of Drought Sufferers.

WASHINGTON, D.C., Jan. 14.—President Hoover yesterday called on the people to contribute a "minimum of \$10,000,000" for the relief of drought sufferers. It was in a formal proclamation.

"I am sure that the American people will respond to the Red Cross appeal both promptly and generously," he said.

The additional \$10,000,000 asked, combined with what is left of the \$5,000,000 set aside by the Red Cross some time ago appears to President Hoover to be sufficient to meet the demands.

Unless the \$10,000,000 is raised, Mr. Hoover said, many persons in the country will lack necessities of life.

REPORTER GETS ACQUITTAL FOR BRIDGE FIEND

Novel Arguments Used in Assault Case Following Trumping of Partner's Ace.

MENOMINEE, Mich., Jan. 14.—George Bolin's hostess-bridge partner "sent a boy to do a man's work"—and thus did John Acker, newspaper reporter, break into the news. It all started when Mrs. John Ashley trumped Bolin's ace of spades. Something bordering on a riot ensued. The specific police charge was that Bolin knocked down Mrs. Ashley, kicked out the windows, broke four mirrors, slugged the host and then punched Police Captain Joseph Jossart on the nose.

Yesterday, in Police Court, the law presented its evidence.

"Up rose reporter Acker.

"You can't convict this man, Your Honor," said he.

"Maybe not," answered Judge George Barstow. "I'll appoint you his attorney."

Acker conferred with Bolin. "My client," he continued, "declares he led the ace of spades after that suit had been played twice. His partner trumped it—but with the deuce, mind you, the trick was taken by the next player with the five of trump. Anyone knows my client's partner should have played at least the ten spot. Such bridge, would justify almost anything.

"And furthermore, my client said the Ashley's served drinks. And the drinks were potent, if the court will glance at the police captain, who weighs 300 pounds and who is six feet seven inches tall, while my

SOLDIER HELD FOR MURDER OF BRITISH WOMAN

Wife of British Captain in India Brutally Attacked by Former Sikh Soldier, Who Also Wounded Her Two Young Daughters.

LAHORE, India, Jan. 14.—A former Sikh soldier, who yesterday killed Mrs. A. G. Curtis, wife of a British captain, and wounded her two small children, was held here today and will be charged with murder.

"I am a Congressite (member of the Nationalist organization) and I am going to kill the General," the Sikh, named Sajjan Singh, shouted as he rushed onto the verandah of the bungalow, where Mrs. Curtis was seated.

After slashing her fatally with a sword he attacked her two daughters, seven and six years old. Both were wounded in the head, all three being taken to a hospital, where Mrs. Curtis died.

The Sikh was arrested. Police believe that he mistook the bungalow for that of Lieutenant General Sir Walter Leslie, commander of the Lahore division. He had recently concluded a six months' prison sentence in conviction of Congress activities.

client weighs but 140 pounds.

"We rest," lawyer reporter Acker concluded, "on contributory causes of inferior liquor served and rotten bridge played by the hostess."

"Case dismissed," said the judge, "insufficient evidence."

PREDICT HOOP SKIRTS TO BE STYLE AGAIN

Claimed that Miss 1931 Will Go Back to Days of Queen Victoria, Empress Eugenie and Even Greek Goddesses for Spring Fashion Suggestions.

NEW YORK, Jan. 14.—The hoop skirt, with modifications, is due to come back.

This was disclosed by Amas Parsh, fashion expert, in discussing spring styles at his semi-annual fashion "clinic" yesterday.

Not only the hoop skirt idea, originated and worn by the Empress Eugenie, but several fashion ideas inspired by Queen Victoria are due to grace the 1931 Miss. Among these will be modern versions of the Victorian-fitted jacket to be worn as evening jackets—with evening costumes.

Other inspirations for spring have been derived from the ancient Greek goddesses, whose costumes Mr. Parsh explained consisted of a piece of cloth draped around them in a very artistic, yet very simple way.

"Long, straight flowing lines," he said, "peplums or short tunics or skirts, draped necklines, cowls and scarfs, draped girdles and sash ties are some of the important fashion details that are Greek in their inspiration." The question of dress length, he said, is no longer a question. "For general street and daytime wear" he said, skirts worn by a majority of women this spring will be middle calf length; for the more formal afternoon wear the lower calf length will be most popular, and for evening wear, ankle length.

THE ANNUAL REVIEW.

Next month the Sherbrooke Record celebrates its 34th birthday anniversary with the publication of the Annual Review Number.

For purposes of preservation among the family archives of an issue which will go down in the history of the Eastern Townships there is being manufactured by the Brompton Pulp and Paper Company a car-load of book newsprint which will give a better impression on the reproduction of photographs.

Many famous executives and authors have already promised to contribute special articles for this number, including E. W. Beatty, Col. Worthington, J. Henry Walsh, R. S. White, M.P., C. B. Howard, M.P., John T. Hackett, M.P., Hon. H. H. Stevens, Senator Rufus Pope, T. B. Macaulay, J. B. Woodruff, Rev. Dr. A. H. McGreer, C. F. Sise, Col. Harry Blue, W. Hubert Ames, Andrew Sangster, Earl Walley, and both Lord Atholstan and Lord Beaverbrook may each send us an article.

The Review will be both a literary and an historical review with contributors such as any magazine editor would be very proud of.

And each and every one of these distinguished men, we are proud to say, are our regular readers and subscribers.

Several others whom we have asked for articles on certain subjects, men of eminence well equipped to present their chosen subject in an interesting way, we have yet to hear from.

THE CALL TO THE PRINCE.

With Prince George gadding away to South America in company with the Prince of Wales, it would appear that he is flying away from the honour which the Record would confer upon him as the next Governor-General of Canada.

Lord Willington and his consort leave the Dominion this week for London, and no appointment has yet been made, though the nomination of Prince George has been given favorable consideration in court circles.

There are those who say that Canada has grown democratic in its tendencies and that the warm welcome which was predicated for Prince George should not eventuate. From this contention we take exception decisively. There could be no more popular selection than one of the princes of the House of Windsor.

Nor would there be any possible appointment which would so add to the dignity of Rideau Hall.

Prince George has not reached the age of adolescence can be refuted. Men of lesser years have been chosen as Prime Minister of England. When a man reaches the age of twenty-one years, the official age of maturity in the British Empire, he is a man. And since he has had the education and the travel experience which alone broadens the intellect, it would be a confession or rather a reflection upon the real age of manhood did we say he was too young for responsibility.

In the event of a political crisis, and there is none on the horizon of statecraft, the Governor-General could now telephone to Downing street and go into telephonic conference with the Secretary for the Dominions.

Just as could King George get Prince George by wireless to re-direct his course to Canada instead of to the Argentine, and have the Prince of Wales install him at Rideau Hall.

Exactly 100 per cent. of the women of Canada endorse the call to Prince George.

WHY WE LOVE PEACE.

"Land of the Free"—of thee I sing and never grow weary. Sherbrooke is our Home Town, and every day and in every way I think that we are fortunate in living in a city just "so big," a town just big enough for each and all of us to give a welcome and a smile to every man, and to be able to call most every citizen by his front Christian name.

Sherbrooke was carved out of the forest by men who loved peace and quietness and were ready to fight for it, by men whose courage was both mental and physical. The Eastern Townships were peopled in early days by families who sought in the wilderness the happiness of uninterrupted work, and their descendants have ever frowned on those who provoke disturbances and arouse the passions. Even we who are not a part of the traditions which go back for centuries can admire the sturdy men who stand fast with the faith that is in them.

We would submit to the League of Nations the eleventh point which Woodrow Wilson missed in his plan. That is, that should a war occur again, the statesmen who declare it shall be placed in the front trenches so long as the cannon roar.

AVOID THIS SOCIALISM AND CLASS LEGISLATION.

"Too much Government of business, and too little business in Government."

That was a slogan we originated many years ago, and it holds true today, just as we have too many obnoxious laws with too many judges to interpret their meaning.

In Quebec we have not been so greatly cursed by fancy and freak legislation, and our provincial administrations had gained a high reputation throughout the Dominion for their sane and conservative restriction of the wild-eyed theorist who was going to cure the grievances of everybody with some silly suggestion.

Selling balanced rations to the farmer does

not save the farmers any money, nor does the history of any co-operative buying show anything but ultimate disaster.

Compulsory state insurance on the lines laid down by Ontario may be a political gesture or a leaf out of the Book of Houde, but it is a direct interference with regular business channels, and will ultimately, lead to irregularities, even though it may be conceived with high ideals.

These are but two measures of recent origin which one might term as gestures to please people who will never be pleased, and who will only accept what they can get and then visit ingratitude upon those who thought to please.

The Government can erect and support co-operative buying societies which may, for a time, show good results, but the overhead of such organizations must be met out of the general fund from the taxpayers, and when these overhead charges are added to the cost, there is no saving to the province—none whatever.

Public utility corporations under public ownership have at times been able to show a slight profit because they evade all payment of their share of the taxes and in this doing cause a larger tax upon the individual.

EDITOR'S NOTE BOOK.

The death of J. M. Thompson, vice-president of the Dominion Oilcloth and Linoleum Company, in Florida, removes one of the prominent figures in an outstanding Canadian organization. Just at the middle age of his mature life, the loss to his comrades in the company will be much regretted, not alone for his ability, but for his companionable characteristics in the course of the day's work where his fellows spent one-half of each working day. To have with them a happy man, a scholarly gentleman, and a good fellow, makes the busy day in the offices one of smiles and joyousness.

There are two things the Canadian Press correspondents would do well to soft pedal. One is the endless chain of intrepid aviators who go forth to rescue the foolish and look for the lost who should never have wandered far from home. And we grow weary of the wasted columns given to the Akoodns of Swat, who are people of no importance.

One of my young friends in Dudley's Business College asked me, "What is a K. C.?" They are the letters attached to the name of a lawyer who has had a distinguished career at the bar. They mean "King's Counsel," a title which a man must have to appear before the highest courts of the Empire. It is the Knighthood of Counsel, as well as a mark of long and unblemished service in the legal profession.

FRONT WINDOW MUSINGS

You see, getting money from the Government without earning it would be humiliating—unless we were given desks at Ottawa.

The one-hour parking limit is about right. By that time you have a car full of advertising matter.

"We must eliminate the cause of crime." But you cannot kill parents just because they have no upbringing sense.

When a spoiled young loafer waits for something to turn up, the thing that usually turns up is the bottom of the car.

Don't sneer at the extravagance of the rich. The more carelessly the seed is scattered, the more there is for the birds of prey.

THIS DAY THIRTY YEARS AGO

From the Files of the Sherbrooke Record, January 14th, 1901.

After a month of electioneering for the English Mayor to succeed L. C. Belanger, the municipal nominations were held this morning.

Alfred Lanctot and the retiring Mayor Belanger are to contest the Centre Ward.

In the North Ward W. H. Wilson and Frank C. Thompson were elected; in the South Ward, Charles F. Olivier.

Councillor S. W. Jenckes presided and the meeting was harmonious. The Mayor-Elect Worthington thanked the electors and concluded: "For many years the city had practically stood still, but now there is a clear course ahead, and the city is now in a position to make great progress."

Beebe Plain elected D. L. House and Henry Thompson.

Richmond: Col. Bernard and J. Poulin.

Sherbrooke extended a civic welcome to Surgeon-Major Morris Worthington, Private William H. Thomas, of Cookshire, Private Todd and Gunner Martin Lougee, who returned from South Africa on the Roslyn Castle. Mayor Belanger read the address of welcome. Private Todd said the Canadian Mounted Rifles fought forty battles on the veldt, thirty of them lasting a full day, and that Col. Lessard, in dismissing them, had said: "Boys, I'm damned proud of you. You proved yourself all right." Major Worthington said that all the Sherbrooke boys, with one exception, had arrived home safe and sound.

Rev. J. A. Almond, a pupil of Richmond Academy, has promised to come to Richmond and tell of his duties as chaplain for the Royal Canadian Regiment in South Africa.

DWELLING WAS DESTROYED AT SOUTH DURHAM

House and Contents, Property of Mr. and Mrs. Royal Walker, Prey to Flames—South Durham Notes.

SOUTH DURHAM, Que., Jan. 14.—Mr. and Mrs. Royal Walker, of Gore, had the misfortune to lose their house and all the contents by fire.

The fire originated from the double stove in the kitchen at about eleven o'clock in the morning, and when noticed by Mrs. Walker was rapidly eating its way into a partition of the upper floor. The house was only recently built, and the partitions were not plastered, therefore the flames had a better opportunity of gaining headway.

When the husband and children arrived from the nearby barn, the blaze was so fierce that none were able to remain in the burning structure but for a few short seconds.

Neighbors soon arrived upon the scene, but all were powerless to save the building or any of the contents within. It is understood that the loss is partly covered by insurance.

THE FAMILY FOOD QUOTA

Question: What part of the money expended for the family budget goes for gas and electricity?

Answer: According to a letter of the Industrial Conference Board of April 30, 1930, various items of a household budget were apportioned as follows: Food, 43.1 per cent.; housing, 17.7 per cent.; clothing, 13.2 per cent.; coal, 3.7 per cent.; gas and electricity, 1.9 per cent.; sundries, 20.4 per cent. Owing to greater increases in other items, in March, 1930, the per cent. of the budget chargeable to gas and electricity dropped to 1.46 per cent. On the basis of an average weekly wage of \$27.59 this would equal 40.3 cents per week, or \$1.74 per month. On the basis of 1.9 per cent. gas and electricity would amount to \$2.20 per month. That is to say, the combined service of the average would run between 6 and 7 cents per day.

Tell it to the public briefly, pointedly, state what price the Record Want ads will find buyer or seller. That above sentence would cost 40 cents.

Letters To The Editor

A FARMER'S VIEW OF DEPRESSION

To The Editor:

Sir: After reading the Ayer's Cliff farmers letter and also the Editor's answer I became interested in the discussion and wish to air my views as to the cause of unrest and dissatisfaction prevailing among nearly all classes who are trying to do business in Canada today. Many writers have prophesied we would soon be on the up grade, but in my opinion they have looked in the wrong direction for the real cause of most of the depression. Never will business get back to normal conditions again until the Labour unions

come off their perch and are happy and contented with working 10 hours at least per day at a more reasonable wage in keeping with the times, as both the Editor and the farmers have been doing.

If this state of affairs had existed in 1930 among the Railroad Unions the farmers in the West would have no doubt been able to have marketed their wheat and barley long ago when prices were higher and farmers in the East would have been able to feed it at a profit and in so doing benefit the whole country while now they have sustained heavy losses, on account of the high freight rates. The Western farmer could not compete in the world's markets with his wheat, which he once supplied, and has been driven out by other countries who have been able to secure cheap labour to handle their crops as well as manufactured goods. The Railway companies are held tight by the throat by their employees who are ruining their own business every day, as well as

other industries dependent upon them.

The Railroad Companies cannot accuse the feed dealers of profiteering when we are selling No. 4 barley at \$1.00 per hundred, and the best flour at \$2.90 per bag. Compare these retail prices with the present wholesale prices in car lots and anyone can see where the bulk of the farmers money goes before his produce reaches the consumer. The freight on grain from Saskatoon to Montreal is 40 cents a bushel. Years ago it was about half that.

Have courage, farmers, and keep struggling on, peacefully pursuing your own calling, even if you do not get double pay for extra time. We cannot all belong to the Labour Unions and therefore must live in hopes that the other fellow may yet come across and help out. I am a farmer who sells most of my product direct to the consumer.

Yours truly,

J. B. REED.

ISLAND OWNER
CANNOT ISSUE
OWN COINAGE

Court Decides Against Martin
Coles Harman, Owner of Lundy Island, in Bristol Channel, Who Appealed Previous Verdict.

LONDON, Jan. 14.—“A vest-pocket size self-governing Dominion” was the description applied to Lundy Island, in the mouth of the Bristol Channel, by Martin Coles Harman, owner of the island, when he appealed to the Court of King's Bench, unsuccessfully, against a former decision that it was illegal for him to issue his own coinage for the island.

Harman had asserted he possessed virtually sovereign rights over the forty-five inhabitants of the island, and he had issued coins bearing the likeness of a bird, the put-fish, which might be called Lundy's “national bird.” A Devonshire magistrate, however, fined him 25 for a breach of the Coinage Act.

Whenever there had been a murder of the entire population of the island, Harman told the judges yesterday, the British Government had disclaimed any responsibility. “Does murder of the entire population occur often?” he was asked. “Yes, pirates often used to do it,” the appellant replied. Lundy Island received no privileges whatever from the mainland, he argued.

He had offered to refer the matter to His Majesty and to loyally accept his decision, Harman stated. “Who is the sovereign of Lundy?” asked Mr. Justice Atkinson. “I am,” Harman replied.

“Does it ever happen that anyone assaults anyone else on Lundy Island?” was another question. “Yes, and it is put down with a heavy hand. My agent is six feet four and weighs 252 pounds,” the appellant replied.

“Lundy seems to be a utopia and the one spot the income tax collector has overlooked,” said Hon. William Jowett, Attorney-General. “This might be soon put right,” he added.

“The case is very interesting, but I think the magistrates were right,” commented Mr. Harman were right,” commented the Lord Chief Justice.

Lundy Island is often visited by tourists. The appellant, who is regarded as a very wealthy man, was hardly right when he mentioned the murders, for no murder has taken place there within living memory nor has any other serious crime. Lundy became famous many years back when the warship *Don* was captured on the surrounding rocks.

SHORT SESSION
OF COURT HELD
AT SWEETSBURG

Judge J. H. Lemay, of Sher-
brooke, Presided at First 1931 Session of Magistrate's Court—Three Cases Disposed of, One of Accused Being Bound Over to Stand Trial.

SWEETSBURG, Jan. 14.—Judge J. H. Lemay, of Sherbrooke, presided at the first 1931 session of the Magistrate's Court in the district of Bedford here yesterday and disposed of three cases. One of the accused was ordered to stand his trial at the next session of the Court of King's Bench, while fines were handed down in the other two cases, with the option of jail sentences.

Adolphe Beauvais, of Stanbridge, was bound over to stand his trial on a charge laid by his son for an assault allegedly committed on the person of the complainant's mother. A lantern, it was claimed, was the weapon used in the assault, and the implement was used to such effect that the elderly lady was seriously cut on the head and rendered unconscious, according to the complaint.

A fine of two hundred and fifty dollars and costs or six months in jail was the sentence Jean Loiseleur, of Brigham, heard when he pleaded guilty to having in his possession a still for the manufacture of liquor. The complaint was laid by J. D. Keller, preventive officer at St. Armand.

Pleading guilty to a charge of common assault, Eugene Robitaille, of Granby, was given the option of paying a fine of twenty-five dollars and costs or spending the next eight days in the common prison.

SUGGEST THAT
ENTIRE WHEAT
CROP BE TAKEN

Farmers' Proposal Advises that
Federal Government Take Over Whole Wheat Crop and Issue Legal Tender in Payment.

EDMONTON, Jan. 14.—Taking over of Canada's entire wheat crop by the Dominion Government, with a legal tender issued in payment, would be redeemable only in the Dominion, is the proposal to be placed before the United Farmers of Alberta convention in Calgary January 20 to 23.

The suggestion is embodied in a resolution passed by a mass meeting of 150 farmers in the Winterburn district, the text of which reads:

“Whereas, owing to our inability to market our Canadian wheat crop, a situation has arisen which threatens to cripple or destroy the whole business structure of Canada;

“Therefore, be it resolved that we request the Federal Government to issue wheat certificates or dollars redeemable in wheat and receivable in taxes.

“And be it further resolved that we request the Federal Government to take over the 1930 wheat crop at a price approximating the cost of production, and pay the producers for same in wheat certificates.”

In case the “domestic dollars” issued in payment for grain find their way out of Canada, sponsors of the resolution suggested these be made redeemable only in wheat.

Creation of a national bank also received favor as a permanent solution of farmers' problems, it being urged that some sort of credit must be provided at approximately the cost of service.

BURGESS BEDTIME STORIES

The Disappearing Fish

A mystery you'll find, my dear, Is merely something not yet clear.—Old Mother Nature.

Farmer Brown's Boy stood by a hole cut in the ice in a cove of the Big River. First he stared at the ice around the hole. Then he stared at the hole itself. He pulled off his cap and then scratched his head. On his face was such a look of wonder and puzzlement as made it funny to see. He looked this way. He looked that way. He even looked up at the sky.

“Now what do you know about that?” he exclaimed. “Where under the sun has that fish gone? He must have flopped back into the water while I was after this ‘ther one. I wouldn't have believed it possible. No, sir, I wouldn't. I was sure I threw him far enough from that hole.”

Blacky the Crow, watching from the top of a tree a short distance away, was quite as much puzzled. He had seen Farmer Brown's Boy pull that fish out of the hole in the ice and toss it down some distance away. Then he had watched Farm-

er Brown's Boy run to another hole and pull out a second fish. When he looked back the first one had disappeared, and Blacky had no more idea what had become of it than had Farmer Brown's Boy. He, too, thought the fish must have flopped back into the water.

“Well, that fish was smarter than I thought a fish could be,” said Farmer Brown's Boy as he returned to the fire on the bank. He laid the fish, a fine pickerel, on the snow a little distance from the fire. Then, having once more warmed his hands, he sat down on a log facing the river, so as to watch the tin-ups, or type, as they are also called, which are the things to which the lines are fastened when fishing through the ice. For a long time nothing happened. Then a tiny signal flag fluttered on one of the tin-ups, and away raced Farmer Brown's Boy.

By the time he reached the hole the fish had escaped from the hook. He rebaited the hook and then returned to his log by the fire. Pretty soon two little flags signaled at almost the same time. Farmer Brown's Boy ran so fast that he slipped and down he went with a thump. It was a wonder it didn't crack the ice. Anyway that is the way he felt about it. In a jiffy he was up and a moment later pulled a small pickerel out of the ice. It was too small to keep and he hurried to put it back in the water. This was a disappointment, but it was made up for when he pulled what he called a “whopper” out of the other hole.

He rebaited both hooks and returned with his prize to lay it beside his face when he discovered that there was no fish there. Blacky the Crow saw his face and almost chuckled aloud. But even to Blacky the disappearance of that fish was as much as a mystery as it was to Farmer Brown's Boy.

That fish couldn't have walked off for it had no legs. It couldn't have flown off for it had no wings. It couldn't have swum off for there was no water excepting under the ice, and no hole near. Besides, that fish had been dead when he put it there. The snow where he had put that fish down was frozen to an icy crust, so there were no footprints, not even his own. There was nothing at all to show what had become of that fish.

Farmer Brown's Boy was provoked as well as puzzled, but at the same time he chuckled. You see, he is the right kind of a boy, the kind that can see and appreciate a joke on himself.

“Well,” said he, “I've had three good fishes and now I have only one. I really would like to know

UNITED STATES STUDYING CANADIAN BANKING SYSTEM

Stability of Canadian System Causes Comment When Eight Hundred United States Failures Are Reviewed.

WASHINGTON, D.C., Jan. 14.—The comparatively happy position enjoyed by Canadians as a result of the Dominion's banking system during the present time of economic stress is causing forth comment in the United States.

Summed up the situation is this: There have been in the United States during 1930 about 800 bank failures. In Canada there have been none.

In Canada there are eleven banks and in the United States there are several thousand. Canada has a branch banking system and the United States has a unit bank system.

For some time Comptroller of Currency John W. Pole has advocated a change in the Federal laws which would enable the United States to take advantage of the stability found in a branch banking system.

RETURN OF MEIGHEN AND DUNNING TO HOUSE URGED

Miss Agnes MacPhail, M.P., Declares Men With Courage of Former Ministers Needed in House of Commons.

BRANTFORD, Ont., Jan. 14.—"You can take your conscience into the House of Commons, but to keep it there—Oh, Boy!" commented Miss Agnes MacPhail, M.P., in an address to a service club at luncheon here yesterday, after reviewing the attitude of the members toward a woman colleague.

Miss MacPhail declared that there was great need today in Parliament for members to follow their own consciences, and courage to stand for what was right, irrespective of party or of the interests. The house, she said, badly needed the Hon. Arthur Meighen and Hon. Charles Dunning, two men of courage.

She declared that prosperity could not be secured by injecting life into one or another industry as with a hypodermic needle but was dependent on the prosperity of all.

tural organization in the United States and having 800,000 members, the farmer wants to be able to deal with his banker personally. "He wants," said Mr. Breckman, "to be able to go in and say 'John, I'm feeding two hundred hogs, and I want some money to feed them.'"

GEORGE MURPHY COUNTRY CLUB'S NEW PRESIDENT

Elected by Board of Directors at Annual Meeting Last Evening—Col. M. W. McNulty Vice-President—Secretary-Treasurership to Be Filled Later.

George Murphy will guide the destinies of the Sherbrooke Country Club during the coming season, succeeding Phil H. Skelton, retiring president, as a result of the meeting of the new directorate held after the annual meeting last evening in the Canadian Bank of Commerce, Wellington street, offices. Mr. Murphy, who retired as a director, was re-nominated to the Board, while Col. M. W. McNulty will assist the president as vice-president of this popular club. Other members of the directorate are: Gideon Nadeau, Fred Briggs, Fred Baldwin, A. Pelletier and George Ewing. The selection of a secretary-treasurer will occupy the attention of the new board of directors, and in the meantime, Mr. Briggs will continue his duties.

President Skelton occupied the chair, which he has graced during the past two years, for the last time. When the meeting was called to order Mr. Fred Briggs, retiring secretary-treasurer, read the minutes of the last meeting, which were approved. After considerable parley it was decided that the age of admittance for juniors would be established at eleven years. This change, it was explained to the members, affected but one present junior member, the club and one prospective candidate, and was passed as a safeguard to future situations.

President Skelton then gave an account of his stewardship during the past year, explaining the work accomplished. He told the meeting that the club's operating deficit shown on the balance sheet this year came from the tennis activities, which, in his opinion, had not justified the large amount paid out. The avenues of revenue showed increased contributions during the past year and served to place the club in a sound financial position. The ladies' committee received their share of thanks from the retiring officer, Mr. Skelton pointing out the improvements they carried out at the club house.

The financial report of the year was adopted as submitted. The income for the year amounted to \$18,563.00, which included green fees, membership fees and other incidentals. Expenses totalled \$18,585.00, and consisted of maintenance of the course, tennis courts and club house and interest on loans and bonds. Thus an operating deficit of \$22.01 summed up the activities of the year ending November 15th, 1930. The balance sheet of the ladies' branch of the club recorded a credit balance of twenty-eight cents.

The reports of the different committees then occupied the attention of the meeting. Phosne McManamy, chairman of the Greens Committee, gave an interesting and complete report of the work and his conference with Messrs. Gordon Armitage and S. G. Newton, had performed. Substantial progress was made throughout the year, although the labor budget had been exceeded by twenty per cent. This report was adopted to relieve the employment situation and had proved to be beneficial both to the club and the workmen. Attention had been given to each hole and satisfaction expressed in the results. Mr. McManamy thanked the members of the committee, who had rendered his committee, which showed the interest everyone was taking in the welfare and future of the club. Several suggestions as to the observance of Arbor Day and the establishment of a bowling green between the club house and tennis courts concluded Mr. McManamy's report.

Bart Holtham read the activities of the house committee, relative to the improvement on the headquarters and the holding of a social dance during the summer. He also submitted the activities of the ladies' branch, of which Mrs. Briggs was convener, and offered suggestions for the enlargement of the club.

During the past season nine matches were played with outside clubs, stated Jack Hammond, chairman of the match committee, and of these competitions the local club won victories in seven. This record contrasted with the previous season, in which the club had won only one victory. A verbal report of the activities of the entertainment committee was submitted by Gerald Wiggott in the absence of the chairman of the committee, Dave Diplock, while the report of the tennis committee was read by Fred Briggs in the unavoidable absence of Louis Rouleau. The principal suggestion contained in Mr. Rouleau's report was the reduction of the tennis fees to increase the membership. After considerable discussion the matter was left in the hands of the incoming officers.

Ned Page reported on behalf of the membership committee, which had been successful in securing thirty-one new members for a present total of 482, surpassing the allotted number of twenty-five that the club had asked his committee to secure.

Letters of resignation were read from the president and secretary-treasurer, and with the retirement of George Murphy, Gideon Nadeau and J. A. Lemay four vacancies were left on the directorate. Messrs. Murphy and Nadeau were re-nominated to the board, and Messrs. Briggs and A. Pelletier were the remaining two members elected.

After the conclusion of the business of the meeting, Mr. Skelton made a eulogy on the efficient manner in which Mr. Briggs, the retiring secretary-treasurer, had fulfilled the arduous duties attached to this im-

SEMI-FINAL JUBILEE PLAY THIS EVENING

Rinks Skipped by Arthur Foss and Allan Blue Will Compete for Right to Oppose Thorford Mines' Representatives.

The rinks skipped by Arthur Foss and Allan Blue will meet tonight in the semi-final round of the first stage of the Royal Victoria Jubilee trophy competition at the Sherbrooke Curling Club. The winners of tonight's encounter will play a Thorford Mines quartette tomorrow at the Sherbrooke Club to decide the representative from the Eastern Townships in the playdowns at Montreal over the week-end.

Arthur Foss' curlers won out over Jim Watson's squad by a count of thirteen to seven on the fourteen ends. In the second game Allan Blue rink took a pine to nothing lead over that of J. W. McKee in the early part of the play, only to see the veterans' followers gather in a couple of big "strikes" to lead by twelve to ten at the close of the tenth end. However, the Blue boys from then on were in the hands of the rinks and scores were as follows:

GIANTS WILL HAVE EIGHTEEN PITCHERS IN SPRING TRAINING CAMP

NEW YORK, Jan. 14.—The New York Giants will have eighteen pitchers in their spring training camp this year and none of the rookies will be watched more closely than James Irving Money, from Charlotte, of the South Atlantic League.

Money, a southpaw weighing only about 168 pounds, pitched in twenty-eight games and 197 innings last season, granted 188 hits, but struck out 185 men.

portant office. The matter of his successor was an important question, said Mr. Skelton, who suggested two alternatives, that one of the members accept the position or that an outside man be engaged to act as manager and secretary-treasurer and remain in constant daily attendance at the club house. On motion the matter was left to the board of directors to act according to the best interests of the club.

John Simms, on behalf of the members, in a few words presented the popular secretary with a beautiful oil painting as a slight tangible token of the appreciation of the members for his services. Mr. Briggs expressed his heartfelt thanks for the gift, and gave as reason of his retirement the death of his beloved father. He had no complaints and willingness to aid in whatever manner he could. After votes of thanks had been passed to the ladies and the retiring board of directors, an interesting session dispersed.

GOLFERS COMPETING FOR RICH PRIZES

AGUA CALIENTE, Mexico, Jan. 14.—Richest of all the money stakes and the goal of competitive players, the Agua Caliente \$25,000 open golf tournament today became a reality for ninety-seven professionals and seventeen amateurs.

This is a select list, made up of the leaders in the National Open, the National Professional Golfers' Association championship, and the survivors of a qualifying round which attracted approximately one hundred.

A more severe test will face the starters than in the inaugural last year, won by Gene Sarazen. New York professional, with a 295 total for seventy-two holes. Par has been boosted from 71 to 72, with the course 6,902 yards long from the back tees.

The chief hazard of the layout is the prevailing wind which blows full in the faces of the players on the opening tee and barrens from all sides on the rest of the holes. Top notch contenders admitted that the one fortunate enough to win the \$10,000 first money probably would do no better than four 74's.

BOTH MONTREAL TEAMS CHALKED UP VICTORIES

Canadiens Just Managed to Beat Out Philadelphia, While Maroons Went on a Scoring Spree Against Detroit.

TORONTO, Ont., Jan. 14.—Once again Montreal representatives, Canadiens and Maroons, dominated the Canadian group of the National Hockey League. Clashing with teams in the American section, both the Flying Frenchmen and their intracity rivals registered victories to improve their standing. Canadiens trounced the last place Philadelphia Quakers by two, one, while the Maroons crushed the Detroit Falcons by six to one.

While they did not play, Toronto Maple Leafs dropped to third place in the Canadian group, being displaced from second position by the Maroons. The Canadiens, who had been the Habitués, the Americans failed to threaten the Leafs, however, as they went down to defeat before the Chicago Black Hawks by one to nothing, and are in fourth place two games away.

After the last place Philadelphia Quakers made a mighty effort to shake the Boston jinx which has been trailing them for three years, and they forced the group leaders to split the points, the hotly contested game ending in a two all tie.

Their surprising victory over Maroons last Saturday night and almost provided another startling upset. True, they were outplayed by the Red Shirts, but they threw a large sized scare into Howie Morenz and his cohorts by notching a terrific shot into the Philadelphia cage in the first period. Allan Shields got the marker unassisted and, due to "Jumping Jackie" Forbes' fine netminding the Quakers clung to their slim lead until late in the middle frame when Morenz boomed a terrific shot into the Philadelphia cage. The same player engineered the play which enabled Nick Wasnie to register the winning tally after seven minutes in the last period.

Manager Cooper Smeaton was forced to secure the loan of Forbes from New York to replace Canadian-American League as both the Quaker goal guardians, Joe Miller and Cude, are on the hospital list. After losing three straight, Maroons showed a reversal of form against the Falcons, who seldom managed to get into the picture. Like their fellow townsmen, Canadiens, Maroons needed a victory badly in view of their hard schedule the balance of the week. On Thursday these old rivals clash in the eastern metropolis and Coach Duce Munro was hopeful his charges would come out of the contest with second place while the opportunity offered. They came to life with a vengeance, as the Falcons will sorrowfully testify.

Two cleverly executed counters in the opening frame from the Canadiens, one by Howie Morenz and Stewart gave the Montrealers a lead which enabled them to lie back and wear down the speedy Detroiters in the middle frame.

Then the Maroons stalwarts renewed their offensive in the final session, and the tired Falcons were utterly unable to cope with their hard hitting rivals. Four goals were the net result of that last Montreal onslaught. Bill Phillips, Stewart, Johnny Gallagher and Jimmy Ward were the successful marksmen.

The Falcons did manage to stagger down the ice for one count. Eddie Goodfellow, league leading sniper, got credit for it on a pass from Reg Noble.

As Rangers split the points at Boston, the Falcons dropped two full games behind the New Yorkers in the battle for third place in the junior division.

A brilliant goal by "Mush" March, youthful Chicago winger, enabled the Black Hawks to keep their record on New York ice unblemished. The teams fought at a hot clip off fifty minutes with honors going to the surprise of everyone, an heavier America commenced tiring before their lighter opponents, and when they dropped back for a breather, Teddy Graham and March dashed goalward with the puck and the former Regina junior made no mistake in net. Graham landed him a perfect pass.

The victory enabled the Hawks to climb a point nearer the leading Bruins and draw further away from the Rangers.

Boston's loyal hockey fans were given a rude jolt by the Rangers, who distinguished the last game by a balanced Bruin squad during the last half of the game. "Dutch" Gainor put the Bostonians in front shortly after the game commenced, and the fans sat back wondering how many points their favorites would win by. The first surprise came when the Bruins failed to increase their lead and the second came when the dashing Bill Cook knotted the count early in the middle frame.

From then on it was a bitter but spectacular feud. Boston took the lead again by outplaying the Hawks, had been passed when Harry Oliver scored on a pass from Eddie Shore. But once again the Rangers evened matters. Butch Keeling registering a pretty goal on Paul Thompson's pass. The balance of the period and during the overtime session saw the Rangers' handiwork the Bruin cage with a great variety of shots, but Tiny Thompson's great goaltending frustrated their best efforts.

TORONTO, Ont., Jan. 14.—Recovery of Canada from economic depression is certain, but the time required to bring it about will be determined largely by the resourcefulness and ingenuity of her people, declared Sir John Aird, in his presidential address at the annual meeting of the shareholders of the Canadian Bank of Commerce.

Appealing to Canadians to throw off their fears and turn their minds resolutely to clearing the way to prosperity "in a country that is one of the most fertile in opportunity for progress," Sir John said: "It is necessary that we
