BIBLIOGRAPHIE DU HOMARID (Homarus americanus)
Milne-Edwards et H. de Lacaze (1845-1850)

Centre de Biologie
Québec

DECEMBRE 1962

INTRODUCTION

Au cours de nos travaux sur la biologie du Homard, nous avons pris connaissance d'une bonne partie de la littérature scientifique se rapportant à ce crustacé.

Il existe actuellement trois ouvrages de référence bibliographique pour cette espèce:

SCATTERGOOD, L.W. 1949a. A bibliography of lobster culture. Spec. scient. Rep. U.S. Fish Wildl Serv. 64: 1-26.

SCATTERGOOD, L.W. 1949b. Translations of foreign literature concerning lobster culture and the early life history of the lobster. Spec. scient. Rep. U.S. Fish Wildl Serv. Fisheries, 6: 1-173.

DAWSON, C.E. 1954. A bibliography of the Lobster and the Spiny Lobster. Families Homaridae and Palinuridae. Florida Sta. Bd Conserv., 86 p.

Nous avons réalisé que plusieurs ouvrages n'étaient pas cités dans ces publications et nous avons pensé que la présente bibliographie, sinon complète, tout au moins plus à date, serait d'une grande utilité aux biologistes et autres scientifiques qui s'intéressent à la biologie de cette espèce.

Les titres des périodiques et revues scientifiques ont été cités selon WORLD LIST OF SCIENTIFIC PERIODICALS, Vol. I-III (1963-1965). Butterworths, London.

ANONYME

- 1873 Culture du homard en Amérique. Bull. Soc. Acclim. Paris, 2e sér. 10: 957-960.
- 1873 The cultivation of lobsters. Practical Magazine, Lond., 2: 258-259.
- 1876 On the artificial propagation of the lobster. Rep. U.S. Fish Commnr 1873-1875: 267-270.
- 1877a Review of the reports by Buckland and Spencer on the lobster, crab and oyster fisheries of Great Britain. Quart. Rev. London, 144: 249-262.
