ARE DOMINION SECURITIES O K?

Palpably Incorrect Statements by New York Brokers.

THE CLAIMS AND DENIALS

Interesting Sidelights on the Now Famous Prospectus and the Criticism Hurled at it.

The statement of Messrs. Blair and Fielding in the Canadian House at Ottawa, Thursday, disavowing the truth of statements in the prospectus of the Dominion Securities Company will not cause much surprise; for these statements have already been examined and well riddled by those who know the real facts of the case. This prospectus was published in the Star of April 10. The broad statement of fact in the prospectus is that the company has charters and privileges in connection with five or six hundred miles of railway in Nova Scotia; and that the net profit in this connection without regard to the operation of the railways, would be over five millions of dollars. The names attached to the circular of prospectus are those of Dr. Seward Webb, S. R. Calloway, John Jacob Astor, etc., etc.

The statements of the circular Mr. Blair declared "false in the main;" and Mr. Fielding said that the issue of the circular was "a disreputable transaction."

Arthur L. Meyer, who has figured largely in the negotiations for the purchase of the Canada Atlantic, is another of the signatories to this now famous prospectus.

Mr. Meyer is understood to be a brother of Theodore S. Meyer and of D. L. Meyer, who are members of the New York brokerage house of Theodore S. Meyer and Co. One of this firm's circulars recently contained the following interesting references to the Dominion Securities Company:

"The Dominion Securities has a subsidy from the Canadian Government equal to five per cent. in perpetuity in its capital stock" (of $1,500,000.)

Mr. Blair stated yesterday, however, that "These people have never received any encouragement from this Government, nor financial promise."

The Meyer circular also says: "The Dominion Securities Company was organized to build a railroad connecting the New York Central with the valuable coal and iron properties at Cape Breton."

As a matter of fact the Company have under construction, as was pointed out by Mr. Fielding, a line from Hawkesbury to St. Peters—35 miles—and a charter from St. Peters to Sydney. Mr. Fielding might have added that not a railway man in the Maritime Provinces can see anything for this line except local traffic and very little of that.

The next statement of this circular is interesting, showing that the shares of the company had jumped up forty per cent. and that they are rated "a prime investment."

The firm cites its operations in the St. Lawrence and Adirondack Railway stocks as a proof that it knows a good thing when it sees it. This circular also reveals that from January, 1901, to December, 1901, the Dominion Securities Company paid two dividends of 2 1-2 per cent. each, or five per cent. for the year. At the present time the Dominion Securities Company certificates are selling in New York, at $1.20 per share, or thereabouts.

It will be interesting to note the effect of the speeches of Messrs. Fielding and Blair upon the value of this "security."

Drop in Prices.

News was received in Montreal to-day from New York stating that Dominion Securities had had a bad slump. As the stock is not listed on the Exchange, and is only dealt in on "The Curb," there is very little information obtainable about it. However, so extensively has the stock been dealt in in New York of late that the financial papers have devoted considerable attention to it. Its ups and downs and the number of shares sold were chronicled with almost the regularity of listed shares. The interest in New York in the news sent from Ottawa last night was evidenced by a large number of enquiries sent to this city and to Ottawa by telegraph from people who were investors.

This paragraph of Dr. Webb's interview, given out at Ottawa on Sunday shows how he regards the Dominion Securities Company:

"At the request of some friends, a year ago, I undertook, on behalf of the Dominion Securities Company, the construction of the Cape Breton Railway, in Nova Scotia. I did it because I am a strong believer in the future and the proposition interested me. The property is owned by the Dominion Securities Company."

A Legislator's View.

A prominent member of the Nova Scotia Legislature who studied the prospectus referred to has written the following to the Montreal Star:

"I had a copy of this prospectus in Halifax, but no one there appeared to know anything about it.

"There is no contract with the Nova Scotia Government, as far as we could discover, in the terms referred to.

"As you are aware, the contract for the South Shore road, with McKenzie & Mann, is different. They get a loan of $13,500 per mile, of which they contract to return $10,300 in 40 years with interest. The balance they keep.

"The North American Trust Co., of New York, were corresponding with the Nova Scotia Government; but they did not appear to be able to work with McKenzie & Mann.

"Meyer is interested in the road under construction from the Strait of Canso to Louisburg; and I believe he and his friends (possibly the D. S. Co.), expected to get the South Shore contract. Indeed they said that they were promised it, and proposed to raise a row over the contract with McKenzie & Mann. But they were quieted, as we think, by a promise of a contract later on for a proposed road through Guysborough via Pictou to Halifax."

Sharp Decline in Price.

A special despatch from New York to the Star states that there was a heavy decline in Rutland Railroad stock, and that it was attributed to reports of difference of opinion between the members of the Webb and Meyer syndicate. This syndicate is the one credited with the control of the Dominion Securities Company and also negotiating the Canada Atlantic deal.

FIFTY INJURED IN RAILWAY ACCIDENT

A Disaster on the Great Eastern Railway in England—Caused by Broken Axle.

LONDON, April 25. — Fifty persons were injured this morning in an accident on the Great Eastern Railway, near the Hackney Downs station.

As a train from Walthamstow, called the "Three-penny train," was crossing the bridge, an axle of the car nearest the locomotive broke and the coach jumped the rails, crashed into the side of the bridge and lodged across both tracks.

The train was filled with persons on their way to work.

The two coaches following the stranded car crushed into it, completing the wreck and dealing awful havoc among the passengers caught therein.

The second car also was wrecked and a number of its inmates were badly hurt. The injured were taken to the Dalston Hospital.

Mr. Andrew Carnegie has offered $10,000 to Three Rivers to establish a public library, providing the municipal authorities will provide $1,000 per annum for its maintenance.

CAR ACCIDENT RESULTS FATALLY

Ovila Cote Injured in Yesterday's Collision Died To-day.

GOYER'S CONDITION SERIOUS

Men Were Driving Home to Dinner at the Time the Accident Happened.

Yesterday's street railway accident has already had a fatal termination in the death of Ovila Cote, the coachman injured in the collision. He passed away at 3.50 a.m. today at the Notre Dame Hospital.

The other victim, Mr. Alfred Goyer, is in a precarious condition, and not expected to live, his skull being fractured in two places. Mr. Goyer is about 45 years of age, and resides at 1202 St. Denis street. He has a wife and a family of seven children. His business is that of a wholesale hide and leather merchant.

The men were on their way home to dinner, when, at 11.40 o'clock yesterday morning, at the corner of Mount Royal avenue and Papineau road, the rig was struck by electric car No. 573 of the Montreal Street Railway Company. The horse, it is said, is a very quiet one and not easily frightened. The coachman was a very slow driver, according to statements made by members of the family.

According to the officials of the Montreal Street Railway, the horse was going at a rapid pace. The rig was struck sideways by the car, knocked off the track and overturned on the two men. The whiffle-tree broke and the horse, with part of the harness on, ran to the family house at 1202 St. Denis street, its appearance there being the first indication the family had of the accident. An eye-witness states that the car did not stop until about one hundred feet from the place of the accident.

It is a curious fact that Mr. Benjamin Goyer, father of one of the victims, was killed by an electric car at the corner of Mount Royal and Park avenue in July, 1896. The affair was purely an accident, Mr. Goyer, sr., having got out of one car, and being about to take another for Cote des Neiges, where he lived, was struck by the car he had just vacated. He was 72 years of age. The condition of Mr. Goyer was reported to be unchanged to-day. His injuries consist of two fractures of the skull—one being at the base and his face and head are badly cut and bruised. The physicians have little hopes of his recovery. Mr. Goyer is a brother-in-law of Mr. Fred. Vincent, of the firm of Halpin & Vincent. An inquest was opened at 2 o'clock at the Notre Dame Hospital in the case of Ovila Cote, Coroner McMahon presiding.

Alleged Murderer Caught.

(Special to the Montreal Star.)

WINNIPEG, Man., April 25. — Nashir Khan, alleged to have murdered an Afghan dry goods pedlar in Seattle, is under arrest at Fort William. He was travelling through to Montreal when apprehended.

The wife of George Smith, of Ottawa, has made a demand on the Militia Department that he be forbidden to go to South Africa. He is now in Halifax. He enlisted as a single man, and was married the next day.

Waterbury Managed to Shut Them Out in a Sensational Game.

THE SCORE WAS FIVE TO FOUR

Pittsburg at the Head of the National League—St. Louis Tops the American League List.

(Special to the Montreal Star.)

WATERBURY, Conn., April 25.—In a sensational game, replete with unusual features, Waterbury made the winning run in the eleventh inning in the game with Montreal yesterday afternoon, and the players captured their 4th straight contest. Montreal played a wonderfully sharp and progressive game. Excitement ran high and from the bleachers arose the din of many voices. Every clever play by Montreal was given the warm hand. The contest was of the kind seldom equalled. Local fans cannot recall a more sensational game than that of yesterday. A team able to blank Montreal's all star aggregation for seven innings, is certainly entitled to credit. A more surprised lot of men than the Canadian baseballists would be hard to find. Clancy's sailor knots and twists puzzled the Canadians. The Montreal nine played in machinery fashion. The article of ball put up by them was of the snappiest kind, and they made a great hit with the local fans. The score and summary.

HOW TO GET SEASON TICKET.

Since the beginning of the contest, the position of favourites for first place has been pretty well divided among the hundreds of tickets that have come in daily, but during this week Montreal has fallen back in that respect, being replaced by some of the others at the head of the ticket.

The person who first sends in the coupon upon which has been figured out, from data at hand, and from knowledge of the game, the standing of the Eastern League Baseball teams upon the evening of the day (May 22), when the League Season opens, in Montreal, will receive a season ticket to the Montreal Baseball Grounds. This ticket is really a book of coupons containing one for every game to be played, and these coupons can be used one by one, or as many at one time, as is most convenient. If no one figures out the exact standing, the ticket goes to the person who first comes nearest to it.

NATIONAL EXECUTIVE MEET.

NEW YORK, N. Y., April 25.—A meeting of the Executive Committee of the National League, the new administrative body created at the recent harmony session of the owners was held at the Fifth Avenue Hotel last night.

The presence of Col. John I. Rogers, of Philadelphia, at the meeting made it apparent that the subject of war between the National and American Leagues would be gone over at length, and a definite plan of action would be adopted. Col. Rogers is not a member of the committee.

It was only a few days ago that the Philadelphia Supreme Court handed down a decision in the La Joie case, favourable to Col. Rogers. Then came a restraining order prohibiting La Joie from playing further with the Philadelphia American League team. It was practically decided before the last league meeting adjourned that a fund of $100,000 should be raised to carry on a war against the American League. What effect the Pennsylvania decision will have on any contemplated action of the league was one of the subjects scheduled for last night's session.

Soon after the committee was in session Andrew Freedman, of New York, and Edward Hanlon and Chas. Ebbetts, of Brooklyn, entered the meeting rom. Thus six of the eight clubs were represented.

Late last night, a communication, addressed to League Umpires, was issued. It called attention to the necessity of the officials maintaining discipline. Chairman Brush said that the question of players who left the National for the American League had been gone over carefully. He added:

It will take time to thoroughly sift the matter and to decide on a definite line of policy. No decided action was or will be taken at the present. The committee adjourned to this morning.

No Sunday Ball Games.

BUFFALO, April 25. — Sunday baseball playing, whether professional or amateur, will not have the sanction of Sheriff Coppins, of Erie County.

"The law does not make any distinction between professional and amateur baseball playing," the Sheriff is quoted as saying. "It simply declares that all baseball playing is prohibited and of course it is not within my power to construe the law to mean anything different."

The suggestion that baseball on Sunday's when played by boys in lots where they would not molest any one would prove good recreation for them was made by the Rev. O. P. Gifford, of Buffalo.

Toronto's Local Pitcher.

TORONTO, April 25. — Pitcher Frank Scott, of the Toronto Crescents, has signed a contract offered him by Manager Barrow, and he will join the Toronto team on Saturday. Scott has been the mainstay of the Crescents, champions of the senior league, for the past two years.

Diamond Dust.

Catcher Charlie Zimmer, of the Pittsburg Club, boasts of a record we do not remember ever to have been equsled by a major league catcher. Says he: "Though I have been playing ball for a good many years, I have never suffered with a sore arm in the spring of the year. I can throw the first ball in the spring just as hard as I can at any time during the season. Furthermore, I have never had a finger hurt since I have been in the league. I was with the Cleveland team 13 years, and in 12 of the 13 years I caught over 1000 games each year, yet I never had a finger hurt nor even a nail bruised. I have but two broken fingers on my hands, and I broke them before I was playing professionally."

DECEPTION.

When the conjurer shows an empty hat, and at once begins to extract from it rabbits or cabbages, we know that we have been adroitly deceived, because we know we can't get out anything that isn't in it.

If people would only reason in that way about medicines they would be a great deal better off in health and pocket. A number of so called "blood making" and "flesh forming" "tonic" medicines are only stimulants in disguise. You can't get strength out of a stimulant because strength is not in it. All physical strength is derived from food digested and assimilated and in the form of blood nourishing the entire body. Doctor Pierce's Golden Medical Discovery does not make blood or make strength, no medicine can do that. But it does cure diseases of the stomach and its allied organs, and so causing the perfect digestion and assimilation of food, it enables the building of the body in sound and vigorous health.

"I can say to you one bottle of your 'Golden Medical Discovery' has cured me sound and well, after suffering two long years with stomach disease," writes W. H. Braswell, of Meadville, Pike Co., Miss. "My health is worth all the world to me. I will praise you as long as I live."

The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 21 one-cent stamps the expense of customs and mailing only, for the book in paper covers, or 50 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

ATHLETICS

THE NEW M.A.A.A. CLUBHOUSE PLAN

The Special Committee Has Been Hard at Work on It.

REPORT TO BE SOON DRAWN UP

Great Progress is to be Reported at the Annual Meeting of the Association on May 19th.

The members of the committee who have charge of the plans for a new Montreal Amateur Athletic Association club-house have been hard at work since the last meeting at which the matter was discussed to obtain some feasible plan that would meet with the approval of the majority of the members of the association.

No final report has as yet been drawn up, but it is expected that one will soon be arranged, by which the members will be able to show considerable progress in the matter.

This report will be presented at the annual meeting of the Montreal Amateur Athletic Association, which will take place on the 19th of May next.

POINTS IN TROUBLE

Would Like to Get Rid of Their Grounds, But Might Not be Able to—Queen's Park Owners Have Voice.

There is trouble in store for the Point St. Charles Amateur Athletic Association.

Last year, as was told at the time exclusively in the Star, the association obtained control of Queen's Park track and grounds under certain private conditions of sale arranged with the Queen's Park Company.

This year Mr. George Tait, president of the Point St. Charles Amateur Athletic Association, who engineered the deal, has come to the conclusion that the park is somewhat of a white elephant on their hands, and that it would be better to let it go, even if it were necessary to sacrifice the interests of the football and other clubs, who belong to the association and are affiliated with it.

In an interview, he thus explains the arrangement which the association has with the owners of the Queen's Park property:

"We did not buy the grounds outright. We only had a sort of an option on it, and were paying the rent. As we are compelled to give the Queen's Park people a definite answer as to whether we will keep the grounds or not, I think it is better to give them up."

In connection with this, Mr. U. H. Dandurand, who represents the owners of Queen's Park, says significantly:

"There has been nothing decided about Queen's Park being abandoned by the Point St. Charles Amateur Athletic Association. We will have something to say about that, and there will be a meeting at which the original owners of the property and the directors of the Point St. Charles Amateur Athletic Association will be represented some time next week."

In connection with this, it may be remembered that some of the original owners of the Queen's Park property were made directors of the P. A. A. A., when the transaction regarding the use of the property was completed.

AQUATICS

OPINION OF ARGONAUTS.

What is Thought in London of the Toronto Eight.

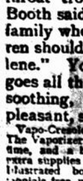
The Argonaut Rowing Club, of Toronto, is the only Transatlantic eight which has entered for the Grand and no better representatives of the Empire's Colonies could be selected to receive a welcome here in the summer of the Coronation, at which Sir Wilfrid Laurier and Lord Strathcona will be prominent figures among the distinguished representatives of every country in the world. Last year, at the National Championship Regatta, on the Schuylkill River, Philadelphia, the Argonauts won the Senior Eight-oared Race in 7 minutes, 49 seconds, in a contest against several fast crews, and as the eight which comes to Henley will contain the best of that selection, it is sure to give Third Trinity (which looks like our best English combination at present) that good fight for the trophy which they will both desire and deserve. Entries from Belgium, Holland, France, and Germany do not close till June 1, and it may be noted that at its meeting on March 25, the committee of the A. R. A. decided "That in view of the situation created by breaches of amateurism in the past by the Federation Francaise, the A. R. A. committee do not feel able to resume their arrangement with that body until at least a year shall have passed." This is only natural, in view of the fact that even the rules passed by the Federation Francaise on March 9, do not entirely bring them into line with the Federation Belge, which had passed rules that commended themselves to the A. R. A. at its meeting of February 20 last in Parliament street. Daily Telegraph.

VETERANS IN THE FIELD OF CANADIAN SPORTS

MR. A. S. MACDONELL.

Angus Stuart Macdonell, Deputy Postmaster, of Cornwall, is one of the most widely known and popular youthful veterans in Canada. Mr. Macdonell was born at Cornwall, graduated at St. Mary's College, Montreal in 1883, and returned to Cornwall, going into business with his father, Mr. Geo. Macdonell, postmaster of that place, who conducted a general store in that place for thirty years. Mr. Macdonell always took an active part in athletics of all kinds and was one of the best all round athletes in Ontario. Going west in 1889, he settled in New Westminster, B.C., and took an active part in lacrosse circles in that city, acting as captain of the New Westminster team in 1891-92 and did much for the national game in the far west. Mr. Macdonell returned to Cornwall in 1894 to take the position of Deputy Postmaster and was elected captain of the Cornwall lacrosse team in 1898. Mr. Macdonell is looked upon as one of the best authorities on lacrosse in the Dominion.

Prominent members of the Rosedale, Spadina, Hyde Park and Highlands Golf clubs are forming a joint stock company to purchase 150 acres of suitable land near Lambton Station for a new course. The property has been thoroughly inspected by the most experienced men in the four clubs. It is proposed to make the new links the St. Andrews of Canada, and a duplication of the holes of old St. Andrews is suggested.



Not New.

Don't think our Vapo-Cresolene is something new, for it isn't. For more than twenty years it has been extensively used for all forms of bronchial and throat trouble. Mrs. Ballington Booth said of it, years ago, that "No family where there are young children should be without Vapo-Cresolene." You breathe in the vapor, it goes all though the bronchial tubes, soothing, healing, curing. It's pleasant, safe, economical. 18

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresolene complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. VAPO-CRESOLENE Co., 180 Fulton St., New York, U.S.A. 97 1

HENDRIE'S HORSE WON A DERBY

The Cumberland Derby at Nashville Captured by Red Robe.

EIGHT THOUSAND PRESENT

It Was a Sensational Finish — The Second Favourite Won the Big Race at Aqueduct Yesterday.

NASHVILLE, Tenn., April 25.—Eight thousand people saw George Hendrie's chestnut colt, Red Robe, win the Cumberland Derby yesterday at Cumberland Park. The price of his chance was 20 to 1. The finish was of the sensational order. Circus and Buccleuch were close up, and the three fought it out in the latter part of the stretch.

George Bennett scratched his ten Derby winner, Abe Frank, but started Aladdin, while T. P. Hayes sent Buccleuch and Crimean to the post. Circus and Red Robe were the outsiders, with the Hayes entry a favourite at 10 to 9. They went away at the first break well together, Red Robe being the first to show. Around into the back stretch there was a shifting of positions, with Buccleuch leading and Crimean working up toward him. In the stretch O'Neil seemed to be waiting to come on, and while he hesitated Red Robe joined in with the leaders, and a battle royal began. The Hendrie horse landed the prize in a drive from Circus, who came from no four and beat Buccleuch by a head. In the last eighth Circus was badly jostled.

LORD MINTO CHANGES

Will Open Horse Show Thursday Afternoon Instead of Wednesday Evening as Was First Decided.

There will be an innovation in horse show matters this year. The show will be officially opened in the afternoon, instead of in the evening as in the past.

His Excellency the Governor-General so desires it, and his wishes are law.

He was to have opened the exhibition on Wednesday evening according to the first arrangement, but he has expressed the wish to be allowed to do so, on the occasion when the classes are exhibited for which he himself has presented prizes, and as this happens on Thursday afternoon, Thursday afternoon will be a gala occasion. Scores upon scores of people visit the Arena every evening and, free of charge, watch the horses, that are going to be exhibited, go through their paces.

O'Connor and Examiner Won.

NEW YORK, April 25.—The Examiner, with O'Connor up, won the Ozone Stakes at Aqueduct yesterday. He was second in the betting, at 4 to 1. Jockey Shaw has been set down for the remainder of the meeting for breaking through the barrier in the fourth race. Jockey J. Daly was set down for two days for misbehaviour at the post.

First race, 7 furlongs—Morokanta, 109, J. Martin, 12 to 1 and 3 to 1, won; The Puritan, 112, Miller, 7 to 5 and 2 to 5, 2; Sature, 107, T. Burns, 6 to 5 and 2 to 5, 3. Time, 1.28. Tom Like, Marotheus, Rough Rider, Handicapper, Arbitrator also ran.

Second race, handicap, one mile and 70 yards—Sir Florian, 110, Odom, 13 to 5 and 3 to 5, won; Stibles, 122, H. Cochran, 9 to 1 and 2 to 5, 2; Lone Fisherman, 114, O'Connor, 5 to 1 and even, 3. Time, 1.48. Adelaide Prince also ran.

Third race, 7 furlongs, selling—The Referee, 106, Brennan, 4 to 5 and 2 to 5, won; Meistersinger, 111, Odom, 7 to 2 and even, 2; Fried Krupp, 103, H. Cochran, 4 to 1 and 10 to 1, 3. Time, 1.28 3-5. Shandonfield, Woden, Locket, Belle of Milford, Woodchuck also ran.

Fourth race, the Ozone Stakes, 4 1-2 furlongs—Examiner, 108, O'Connor, 4 to 1 and 7 to 5, won; Blue and Orange, 107, T. Burns, 12 to 5 and even, 2; Discus, 102, H. Cochran, 8 to 1 and 3 to 1, 3. Time, 56 2-5. Zeadock, Ponies, Mystic Belle, Squanto, Blue Jay also ran.

Fifth race, 6 furlongs, selling—Carroll D., 110, T. Burns, 5 to 1 and 2 to 1, won; Snark, 109, O'Connor, 8 to 1 and 3 to 1, 2; Shepherd, 92, Redfern, 8 to 1 and 3 to 1, 3. Time, 1.15 2-5. Princess Otillie, Worry, Odds and Ends, Broadstreet, Jack McGinn, Gertrude Elliott, Tenagra also ran.

Sixth race, 2 year olds, 4 1-2 furlongs—Anna Daly, 108, Miles, 8 to 1 and 3 to 1, won; Sparkle Shere, 108, O'Connor, 10 to 1 and 4 to 1, 2; Impetuous, 108, T. uBrns, 9 to 5 and 7 to 5, 3. Time, 56 2-5. Bootheayer, Kilmorie, Jane Kay, Boundary, Baby M., Mamie North also ran.

Hoofbeats.

W. K. Vanderbilt's Bright (Buchanan up) won the Prix Dauphin, the chief event of the Maison Laffitte race, at Paris, yesterday.

ODDS AND ENDS.

At Sherbrooke at the regular Gun Club shoot, Dr. Stockwell won the Robin Hood 15 target shoot, with 13 at 16 yards. Mr. N. G. Bray, won the Club Trophy shoot, 15 targets, with a score of 15 at 22 yards.

In the presence of about seven hundred spectators, Routhier, formerly of Ottawa, but now of Quebec, defeated Daoust, of Montreal, last night, in a boxing exhibition at Savard Park, in the first round, which just lasted two minutes 40 seconds.

"Jimmie" Michael, the former cyclist, has won his first race as a jockey at Maisons Laffittee, says a Paris despatch to the New York Herald. He rode Charron's Promesse in the selling race, distance 1 3-4 miles. The betting was 14 to 1, and there were fifteen starters. Michael won by a head.

The schedule having now been arranged it is most important and earnestly requested that all members and persons wishing to become members of the Strathcona Football Club attend practices regularly. Monday and Wednesday evenings at 6.30 p.m. and Saturday afternoons at 3 p.m. The season will open May 10, when the intermediate Strathconas will meet the Mount Royals. The first game in the senior series is Strathconas vs. Montreal, May 17, on the Strathcona's grounds.

The match at West End Club, St. Louis, between Benny Yanger, of Chicago, the "Tipton Slasher," and Abe Attell, of San Francisco, was stopped by the police in the 19th round, the officers of the law believing that Attell was on the point of being knocked out. Referee Geo. Siler awarded Yanger the decision, although Attell was still full of fight. The match was probably the most scientific, the fastest and the fiercest ever seen in St. Louis. Yanger's aggressiveness and terrific hitting powerful. Attell exhibited remarkable courage and fought with desperation to the very last.

FOOTBALL

THE BRITANNIA SMOKER.

A Most Enjoyable Time Spent.

The Britannia Football Club held their annual smoker at Drummond Hall last night, and the time spent was most enjoyable in every respect. Whatever there was was good, and those who came to listen enjoyed themselves thoroughly, wrapped up, and half hidden though they were in tobacco smoke.

Mr. Herbert Spencer played the accompaniments admirably as a matter of course. The spirited dispositions of our City Champions and their many admirers were soothed under the influence of Havanas, five-centers and clays, and while dreamy music dispelled visions of broken bones and lost opportunities, the heroes of the pig-skin quaffed copiously their goblets of ginger ale and thought not of the morrow. Captain Mackenzie made his appearance about "half time" and was enthusiastically received by those whose sights were keen enough to distinguish his countenance through the atmosphere,—which was not very clear. He made a neat speech, dwelling upon the bright prospects of the club and their future chances of success. Among those who contributed were Messrs. Bethune, Rees, Hickey, Evans, Hunt, McLaughlin, Mowat, Alloway, Stewart, Hicks, Jackson and many others who are anxious not to gain notoriety as entertainers through the press. There were about one hundred and fifty gentlemen present, and there is no doubt that everyone thoroughly enjoyed the entertainment. Those on the committee were: Messrs. Cowan, E. J. Christmas, Mackenzie, Ayer, Carter and Dr. Kerr.

CHESS

Another Cable Chess Match.

BOSTON, April 25.—The fourth annual cable chess match between the American College Chess League, consisting of the clubs of Columbia, Harvard, Yale and Princeton Universities, and the chess clubs of Oxford and Cambridge, began to-day. The gymnasium of the Boston Athletic Club has been handsomely decorated for the event. Six large boards with movable pieces have been arranged behind the tables of the players, so that the spectators may follow the progress of the games, as the moves actually made at this end at the British Chess Club, Whitehall Court, London, where the British end of the contest is conducted, are repeated. These contests are for possession of the costly and handsome trophy presented by Professor Isaac L. Rice, of New York, four years ago.

Manager "Wheels" Clymer of Louisville is having his troubles. He had a big bunch of Eastern League stars on his list, and was pumping prosperity stories into Louisville newspapers for several weeks. Now Bill is wailing. Raub, of Montreal, Wagner, Cassidy, Corridon and Sutor Sullivan, of Providence, and Jake Gettman, at Buffalo, have declined Clymer's inducements and have reported to Eastern League teams. Without this strong bunch Clymer has Pitchers Dunkle, Dan Kerwin and Flaherty, and Outfielder Flournoy and Third baseman Schaub from the Eastern League. Many a game is won around the stove in winter and many a mighty team that is made up on paper never takes the field.

McGraw, of Baltimore, has not forgotten how to kick. In the opening game at Boston he was fined by Umpire Connolly early in the contest.

Malt Breakfast Food

Is Their Favorite Dish.

One of the strongest and most striking proofs of the great popularity of Malt Breakfast Food is the fact that the Ralston Health Club members, numbering over ten millions in Canada and the United States, have made it their favourite breakfast dish.

This king of breakfast cereals possesses all the important virtues for the building of health and bodily strength.

It is partially cooked and predigested, therefore requires no digestive effort; it is readily assimilated, and always retained on the most delicate stomach.

Malt Breakfast Food is generally recommended by our ablest physicians as the best diet for the strong and weak, for invalids and convalescents. One package makes from twenty-five to thirty meals. All Grocers sell it. 97 1

LAXA LIVER PILLS

Those who have used Laxa-Liver Pills say they have no equal for relieving and curing Constipation, Sick Headache, Biliousness, Dyspepsia, Coated Tongue, Foul Breath, Heart Burn, Water Brash or any disease or disorder of the stomach, liver or bowels.

Mrs. George Williams, Fairfield Plains, Ont., writes as follows: "As there are so many other medicines offered for sale in substitution for Laxa-Liver Pills I am particular to get the genuine, as they far surpass anything else for regulating the bowels and correcting stomach disorders."

Laxa-Liver Pills are purely vegetable; neither gripe, weaken nor sicken, are easy to take and prompt to act. 97 1

MONUMENT REMOVED CAUSED DISCUSSION

Some Aldermen Disturbed at Moving Stone to Ship Fever Victims

INTO ST. PATRICK'S PARK

Ald. Nelson in Council Defends Selection of Spot as Being Eminently Proper Site

Mayor Cochrane is calling quite a number of meetings of Council these days, two having already been held this week. The Mayor, in explanation, says that the custom of allowing about fifty orders to be on the "order of the day" is a bad one, and that he wants to change such a state of affairs.

At yesterday's meeting the greater part of the time was taken up with the discussion of routine matters.

Ald. Walsh rose to a question of privilege. He desired to know who had given the Grand Trunk permission to remove the Irish immigrant monument into the centre of St. Patrick's park.

In reply, Ald. Couture said that he and Ald. Nelson had been appointed a committee to settle the question of the removal of the monument. Certainly a better place than St. Patrick's park could not be chosen. This had been the site preferred by Ald. Nelson and the speaker.

Ald. Gallery—"It is strange that this monument should have been removed and placed in St. Patrick's park without consulting the representatives of St. Ann's Ward—Ald. Walsh and myself!"

Ald. Nelson said he was one of the committee to decide where the stone was to rest temporarily. It had remained for a year on the sidewalk near the park, and one thing was certain it could not remain there any longer. Personally, he did not think any harm had been done to place the stone in the centre of the park.

It was Ald. Gallery's opinion that St. Patrick's park should not have been turned into a species of burying ground.

THE MACDONALD MONUMENT.

Ald. Nelson—"When the Sir John Macdonald monument was erected in Dominion square no one pretended the square was being turned into a burying ground. I am sorry if the Irish societies are displeased at the monument being put up in St. Patrick's park. I thought it would give satisfaction to have the monument there. The arrangement, however, may only be a temporary one.

Discussion on the matter then dropped.

Attention was given to a couple of proposed new by-laws. One dealt with the parks and squares, and Ald. Couture took occasion to propose that the care of all the shade trees in the city be transferred to the care of the Parks and Ferries Committee. If this were done the shade trees in the streets could be taken better care of.

Certain members pointed out that as many of the shade trees belonged to citizens, the city could not assume complete control over them. Some time ago the city had been fined $100 for removing a tree. It was decided to allow the City Surveyor to use his judgment as to removing trees, etc.

NEW C. P. R. ELEVATOR AT FORT WILLIAM IS NOW UNDER WAY

Mr. F. J. Weber Who Will Build Structure Has Gone There to Superintend Operations.

Mr. F. J. Weber, of the Steel Storage and Elevator Construction Company, of Buffalo, who has been awarded the contract for the first of the two new Canadian Pacific elevators at Fort William, left to-day for that place to superintend the work, which has already commenced. The second one, with a capacity of 3,000,000 bushels, it is understood, will be erected by Mr. C. H. Haglin, of Minneapolis. A new departure, in so far as Canada is concerned, will be introduced in the composition of the cylindrical bins, which will be constructed of concrete, which is more economical than steel, and also produces a lower temperature in the wheat. Concrete is now being extensively used in the construction of elevators, and other railway structures, in the United States and Europe, and, according to expert opinion here, is also destined to be largely used in the near future in Canada. Upwards of a thousand men will be employed on the work, and when completed it is estimated they will give permanent employment to five hundred men. The company anticipates that if the wheat harvest this year is as large as that of last year that the capacity of the elevators will have to be again increased by three million bushels. These two elevators will involve an outlay of over two millions and a half.

"Colonel" Lynch and His Tenants.

"Colonel" Arthur Lynch, M.P. for Galway, has made the "amende honourable" with reference to the dispute between himself and his tenants in county Clare. In a letter to the Nationalist Press he explains that he only took action against one of his tenants because that person not only refused to acknowledge "Colonel" Lynch's letter, but actually collected rent from the other tenants. There is a headrent on the property, and it was in order to meet this that "Colonel" Lynch required that any rental at all should be paid, and he declares that he never received for his own personal profit one penny of rent. "Colonel" Lynch adds:

I believe that the solution to the land trouble in Ireland will not be found until the tenants are themselves the sole possessors of their holdings, and I think that the system of absentee landlords is especially prejudicial to the interests of the country. Nevertheless, it is possible that a landlord might be of direct benefit to his tenants if he would use his knowledge of affairs, local and exterior, in the way of helping the tenants to develop their resources, and of finding the best markets for their produce. That is the position that I desired, and I hoped that eventually the tenants might become the owners of the property. These Court cases have, however, precipitated my intentions. So far from wishing to have the poor tenants harried for the rent, I am prepared to make the property over to them as far as my interest is concerned as a gift.

CHAPTER XIX.—Continued.

But still the game was Rouleau's, who grew more and more excited with every win. The lieutenant played coolly, and with seeming indifference, in which he was imitated by Mr. Sims, the loss of a few dollars being a matter of small moment to either.

"It would make it more interesting if we made it a dollar to play," at length said Mr. Sims. The suggestion was accepted, and the game went on. At once the luck began to turn, and in a half hour's play Rouleau's winnings disappeared and passed over to the lieutenant's hand. In spite of his bad luck, however, Rouleau continued to bet eagerly and recklessly until Ranald, who hated to see the young lumberman losing his season's wages, suggested that the game come to an end.

"The night is early," said the lieutenant but if you have had enough," he said, bowing to LeNoir and Rouleau—

"Non!" exclaimed Bouleau, "the fortune will to me encore. We mak it de two-dollar to play. Dat will brak de luck."

"I think you ought to stop it," said Harry.

But the demon of play had taken full possession of both Rouleau and the lieutenant and they were not to be denied. Rouleau took from his pocket a roll of bills and counted them.

"Fifty dollars," he cried. "Bon! I play him, me!"

The others deposited a like sum before them, and the game proceeded. The deal was De Lacy's. After a few moments' consideration, Mr. Sims and LeNoir each drew three cards. In a tone of triumph which he could not altogether suppress, Rouleau exclaimed "Dees are good enough for me." The lieutenant drew one card, and the betting began.

Twice Rouleau, when it came to his turn, bet the limit, the others contenting themselves by "raising" one dollar. On the third round LeNoir, remarking, "Das leetle too queek for me," dropped out.

Once more Rouleau raised the bet to the limit, when Mr. Sims refused, and left the game to him and the lieutenant. There was no mistaking the eager triumph in the Frenchman's pale face. He began to bet more cautiously, his only fear being that his opponent would "call" too soon. Dollar by dollar the bet was raised till at last Rouleau joyously gathered his last chips, raised the bet once more by the limit, exclaiming, as he did so, "Alas! dere ees no more!"

He had played his season's wages that night, but now he would recover all.

De Lacy, whose coolness was undisturbed, though his face showed signs of his many brandy-and-sodas, covered the bet.

"Hola!" exclaimed Rouleau in triumph. "Let ees to see!" He threw down his cards and reached for the pile.

"Excuse me," said the lieutenant, quietly looking at Rouleau's cards. "Ah, a straight flush, queen high." Coolly he laid his cards on the table. "Thought you might have had the ace," he said, languidly, leaning back in his chair. He, too, held a straight flush, but with the king.

Rouleau gazed thunderstruck.

"Mort Dieu!" he exclaimed, excitedly. "The deal was from you."

"Mine," said De Lacy, quietly, looking up at the excited Frenchman.

"Ah," cried Rouleau, beside himself. "It is—what you call? One cheat! cheat!"

The lieutenant sat up straight in his chair. "Do you mean that I cheated you?" he said, with slow emphasis. "Beware what you say."

"Oui!" cried the Frenchman; "sacr-r-re—so I mean!"

Before the words had well left his lips, and before any one could interfere De Lacy shot out his arm, lifted the Frenchman clear off his feet, and hurled him to the floor.

"Stop! you coward!" Ranald stood before the lieutenant with eyes blazing and breath coming quick.

"Coward!" said De Lacy, slowly.

"You hit a man unprepared."

"You are prepared, I suppose," replied De Lacy, deliberately.

"Yes! Yes!" cried Ranald, eagerly, the glad light of battle coming into his eyes.

"Good," said De Lacy, slowly putting back his chair, and proceeding to remove his coat.

"Glengarry!" cried LeNoir, raising the battle cry he had cause to remember so well; and flinging off his coat upon the floor, he patted Ranald on the back yelling, "Go in, bully boy!"

"Shut the door, LeNoir," said Ranald, quickly, "and keep it shut."

"De Lacy," cried Harry, "this must not go on! Ranald, think what you are doing!"

"You didn't notice his remarks, apparently, St. Clair," said the lieutenant, calmly.

"Never mind," cried Harry, "he was excited, and anyway the thing must end here."

"There is only one way. Does he retract?" said De Lacy, quietly.

"Ranald," Harry cried, beseechingly, "you know he is no coward; you did not mean that."

By this time Ranald had himself in hand. "No," he said, regretfully, forcing himself to speak the truth. "I know he is no coward; I have seen him where no coward would be, but," he added, "he struck a man unguarded, and that was a coward's blow."

"Macdonald," said De Lacy deliberately, "you are right. True, he called me a cheat, but I should have given him time, still," he added, rolling up his sleeves, "I hope you will not deprive yourself or me of the privilege of settling this little business."

"I will be glad," said Ranald, his eyes once more lighting up. "Very glad indeed if you wish."

"Nonsense," cried Harry, passionately. "I tell you I will not have it. He has given you ample apology, De Lacy; and you, Ranald, I thought a Macdonald never fought except for sufficient cause!" Harry remembered the fighting rule of the Macdonald gang.

"That is true," said Ranald, gravely, "but it was a cruel blow," pointing to Rouleau, who, supported by LeNoir, was sitting on a chair, his face badly cut and bleeding, "and that, too, after taking from him the wages of six months in the bush!"

"I suppose you admit the game was fair," said the lieutenant, moving nearer to Ranald, the threat in his tone evident to all.

"The game was fair," said Ranald, facing De Lacy, "but I will say the lad was no fair match for you!"

"He chose to risk his money, which you were not willing to do." De Lacy felt that he was being put in an unpleasant light and was determined to anger Ranald beyond control. Ranald caught the sneer.

"If I did not play," he cried, hotly, "it was for no fear of you or any of you. It was no man's game whatever," he continued, contemptuously.

"Now, De Lacy," cried Harry, again, "let this stop. The man who fights will first fight me!"

"Perhaps Mr. Macdonald would show us how the game should be played," said Mr. Sims, coming as near to a sneer as he dared.

"It would not be hard to show you this game," said Ranald, ignoring Mr. Sims, and looking the lieutenant in the eyes, "or perhaps the other!"

"Good!" cried Harry, gladly seizing the opportunity of averting a fight. "The game! Take your places, gentlemen!"

The lieutenant hesitated for a moment, as if uncertain what to do. Then, with a slight laugh, he said, "Very well, one thing at a time, the other can wait."

"Come on!" cried Harry, "who goes in? LeNoir, you?"

LeNoir looked at Ranald.

"What you say?"

"No," said Ranald, shortly, "this is my game!" With that he turned aside from the table and spoke a few words in a low tone to LeNoir, who assisted Rouleau from the room, and after some minutes' absence returned with a little linen bag. Ranald took the bag and began to count out some money upon the table before him.

"I will play to one hundred dollars," he said.

The lieutenant and Mr. Sims each laid the same amount before them upon the table.

"I have not so much on me," said Harry, "but perhaps my I. O. U. will do."

"What shall we say," said Mr. Sims, "a dollar to play and five dollars limit?"

"Say five and twenty-five," said De Lacy, who was commanding himself with a great effort.

"Is that too high?" said Harry, looking toward Ranald.

"No," said Ranald, "the higher the better."

It was soon evident that Ranald knew the game. He had learned it during the long winter nights in the shanty from Yankee, who was a master at it, and he played it warily and with iron nerve. He seemed to know as by instinct when to retreat and when to pursue; and he played with the single purpose of bleeding the lieutenant dry. Often did he refuse to take toll of Harry or Mr. Sims when opportunity offered, but never once did he allow the lieutenant to escape.

"You flatter me," said the lieutenant, sarcastically, as Ranald's purpose became increasingly clear.

"I will have from you all you have won," replied Ranald, in a tone of such settled resolve that it seemed as if nothing could prevent the accomplishment of his purpose. In vain the lieutenant sought to brace his nerves with his brandy and sodas. He played now recklessly and again with over-caution, while Ranald, taking advantage of every slip and every sign of weakness, followed him with relentless determination.

With such stakes the game was soon over. It was not long before the lieutenant was stripped of his hundred, while Harry and Mr. Sims had each lost smaller amounts.

"You will try another hundred?" said the lieutenant, burning to get revenge.

Without a word Ranald laid down his hundred; the others did likewise, and once more the game proceeded. There was no change in Ranald's play. Thorough knowledge of the game, absolute self-command, an instinctive reading of his opponent's mind, and unswerving purpose, soon brought about the only result possible. The lieutenant's second hundred, with a part of Harry's and Mr. Sims's, passed into Ranald's possession.

Again De Lacy challenged to play.

"No," said Ranald, "I have done." He put back into his linen bag his one hundred dollars, counted out two hundred, and gave it to LeNoir, saying: "That is Rouleau's," and threw the rest upon the table. "I want no man's money," he said, "that I do not earn."

The lieutenant sprang to his feet. "Hold," he cried, "you forget, there is something else."

"No," said Ranald, as Harry and Mr. Sims put themselves in De Lacy's way, "there is nothing else to-night; another day, and any day you wish, you can have the other game," and with that he passed out of the room.

CHAPTER XX.

HER CLINGING ARMS.

The ancient capital of Canada—the old gray queen of the mighty St. Lawrence—is a city of many charms and of much stately beauty. Its narrow, climbing streets, with their quaint shops and curious gables, its old market, with chaffering habitant farmers and their wives, are full of living interest. Its noble roads crowned with the ancient citadel, and its sweeping tidal river, lend it a dignity and majestic beauty that no other city knows; and everywhere about its citadel, and its walls, and venerable, sacred buildings, there still linger the romance and chivalry of heroic days long gone. But there are times when neither the interests of the living present nor the charms of the romantic past can avail, and so a shadow lay upon Maimie's beautiful face, as she sat in the parlour of the Hotel de Cheval Blanc, looking out upon the mighty streets and huddled roofs of the lower town. She held in her hand an open note.

"It is just awfully stupid," she grumbled, "and I think pretty mean of him!"

"Of whom, may I ask?" said Kate, pausing in her singing, "or is there any need? What says the gallant lieutenant?"

Maimie tossed her the note.

"The picnic is postponed. Well, of course the rain told us that; and he is unavoidably prevented from calling, and entreats your sympathy and commiseration. Well, that's a very nice note, I am sure."

"Where has he been these three days! He might have known it would be stupid, and Harry gives one no satisfaction." Maimie was undeniably cross. "And Ranald, too," she went on, "where has he been? Not even your music could bring him!" with a little spice of spite. "I think men are just horrid, anyway."

"Especially when they will keep away." said Kate.

"Well, what are they good for if not to entertain us? I wish we could do without them! But I do think Ranald might have come."

"Well," said Kate, emphatically, "I can't see why you should expect him."

"Why not?"

"I think you ought to know."

"I, how should I know?" Maimie's innocent blue eyes were wide open with surprise.

"Nonsense," cried Kate, with impatience rare in her, "don't be absurd, Maimie; I'm not a child."

"What do you mean?"

THE DOMINION SECURITIES COMPANY.

The Dominion Securities Company recently issued a prospectus to which were attached the signatures of Dr. Seward Webb, Mr. S. R. Callaway, Mr. Arthur L. Meyer and other gentlemen well known in the financial world. In this prospectus mention was made of liberal subsidies promised by the Dominion and Nova Scotian Governments to a number of projected railway schemes.

The Hon. A. G. Blair, Minister of Railways and Canals, declares from his seat in the House of Commons that "the statements in the prospectus are absolutely false in the main," and that "these people have never received any encouragement nor any financial promises from the Government."

It is possible, of course, that the prospectus was issued without the knowledge of the gentlemen whose signature it bears, but it is about time for them either to repudiate the prospectus or to maintain its accuracy.

ALIEN IMMIGRATION.

The King has issued a Royal Commission to enquire into and report upon (1) the character and extent of the evils which are attributed to the unrestricted immigration of aliens into the United Kingdom; (2), the measures which have been adopted for the restriction and control of alien immigration in foreign countries and in British colonies. The Commission, which is strong in personal composition, includes Baron de Rothschild, and the Clerk of the Poor Law Guardians in Whitechapel, said to be the poorest district of the great metropolis. Pressure is being brought upon the British Government from many quarters—many seemingly antagonistic to each other—to deal with that question of "alien immigration," which is proving such a thorny one to the statesmen of Greater Britain, and particularly in British Columbia and Australasia. It is undoubtedly the fact that in Canada, as in the United States, the disposition is to make regulations more severe, rather than to relax those we have been working under. It is, probably, only by a visit to the parts of the country where a certain alien immigrant is non persona grata, that the Commissioners could be brought to realize the depth of the feeling and the conditions which cause it.

A CENSUS COMMISSION?

Since the census has been stupidly permitted to get into politics, would it not be a good idea to appoint an independent commission to manage the national counting of noses when next it becomes necessary?

It is not that the Government may not mean to be fair enough, or that the officials at the head of the census bureau are to be suspected of manipulation of the returns. But when it is allowed to become a party question whether our population has increased at a certain rate during the decade, the partizans of the Government of the day throughout the country can hardly escape displaying too much zeal in looking for "noses" and nosing up "industries." They score for their party every time they count a man temporarily absent for a dozen years in the United States; and they make a bull's-eye for each umbrella-mending establishment they mark down as an "industry."

This temptation should be removed from the path of the party worker, termed census enumerator. An independent commission, which had nothing to gain but a reputation for conducting the cleanest count in the history of the country, would hire men caring little for politics, to travel along the side lines in search of information, and we could feel fairly certain that our population was all in the country, and that each "industry" could be found by a decently industrious man who was inclined to call at its address.

It is of real importance to have a census which every one trusts; and it saddles us with the appearance of a "boom town" trying to trap the tenderfoot, to see each of the parties picking flaws in the genuineness of their rivals' census.

RUSSIA AND JAPAN.

With the rumours of impending war between Japan and Russia in the cable despatches from day to day, and evident fact that such a contingency is being prepared for, it is interesting to read the Japan papers. The quiet dignity of tone they show in dealing with delicate questions; the calmness with which they speak of matters which differently handled might readily cause a panic and precipitate trouble, would well be followed with advantage by the press of other countries. A little incident editorially touched upon by the Japan Times of recent date illustrates something of how Russia is steadily endeavouring to push her control and extend her sphere of influence, and how with equal determination Japan is foiling her. We are told that M. Pavlof, the Russian representative in Korea, "it is rumoured," has ceased to be in the good graces of his Government. The Times expresses sorrow at the rumour, "as he is apparently a man of considerable energy, and has undoubtedly been most indefatigable in concocting schemes which ought, in his opinion, to increase his country's influence on the peninsula."

Then there comes this delicate piece of irony: "For all that, we should not at all be surprised at the birth of the rumour, supposing there is any ground for it, for we cannot imagine that the Government of any civilized power would tolerate any of its diplomatic agents setting at defiance the protest of a friendly nation and deliberately putting up telegraph wires in the latter's territory, as has been done by M. Pavlof in Korea. M. Pavlof went further, if the reports so far received are to be relied upon. When the Korean authorities caused these wires to be pulled down, he had the boldness to characterize the act as a breach of international courtesy and demanded damages, as if his own action in having the lines constructed in Korean territory without the consent of the Korean authorities and even in disregard of a protest from them, had in the first place been a very courteous one!"

Yet in this gentle manner the Times conveys to its readers the information that the mighty power of Russia has been set at defiance; that Japan will not permit the influence of the Bear to prevail in Korea, and that the attempt to "rush" things by putting up telegraph wires and argue the point afterwards was promptly met by tearing the telegraph wires down as a preliminary to any possible conference. That the full seriousness of the situation is appreciated, and the continuity of Russian purpose is not underestimated are shown by the warning lines: "We may add, however, that whatever may be the relations existing between M. Pavlof and his Government at present, the matter is of no concern to us. We have long since learned what the support of the Court (of Korea) and of the weathercock politicians counts for, and how such support may be secured in Korea. All we need point out is that our countrymen should hasten the completion of their undertakings, and make our established interests indisputable and irremovable there." Between the lines we may read the threatening nature of the situation.

The trouble seems to be that spring has got here this year before the aldermanic almanac calls for our annual spring cleaning. But the aldermen should not follow their almanac too slavishly. They should look about them occasionally, and notice what is really going on. As it is, they invite the fate of the lamp-lighter who always has his lights going on clear moonlight nights, but left the village in darkness when it was moonless. When remonstrated with, he said that he was following the almanac, and that he lit his lights when that valuable work said that there would be no moon. This led to an investigation, when it was found that he was quite right, except that he was using last year's almanac.

The chief chemist of the Department of Agriculture, at Washington, has handed the Secretary of the Interior a full report on the medical properties of the water at Hot Springs, Arkansas. He made careful analysis and found the waters had no more curative properties than the waters of the Potomac. It is "the regular bathing habit, the care as to diet and the change of air, added to faith, which effect the cures. This report reminds one of the frank health resort hotel man, who, in response to the stranger's query as what made the place so healthy, said: "The advertisin', principally, I reckon."

General French seems to have but one word for our young men; and that is to learn to shoot, and to shoot well. The rifle is the great arm of to-day. General French is an artillery commander, but he urges preparation for work with the rifle. What all Lord Roberts's splendid park of artillery could not accomplish at Paardeberg, the rifles of the Canadians did. Cronje and his command stood a storm of lyddite and shell; but they surrendered to our entrenched riflemen.

The Federation of Women's Clubs in session at Fort Smith, Ark., last week passed a resolution opposing any compromise measure which should make it possible for coloured ladies to be introduced into the Federation. The ladies have emphatically decided that the black woman "don't belong." The negro may be a man and a brother, but not a sister—at least in Arkansas.

Only three recently vaccinated people out of 361 cases of smallpox is a knock-down argument for the value of vaccination. It should be called to the attention of those Englishmen who are taking advantage of the "conscience clause" to hamper the fight of the London authorities against smallpox in the Metropolis.

The President has ordered General Funston to cease further discussion of public questions and particularly not to speak at a banquet at Boston. Government in the United States, it will be seen, is not entirely destitute of the advantages of a monarchical system.

It was resolved to take legal proceedings to restrain the council, said proceedings to be in the name of Messrs. Henry Lyman and R. H. Stephens, having as counsel Messrs. AT THE BREAKFAST TABLE.

Not love you as I did before
We married? (This beefsteak, my dear,
Is badly scorched.) I love you more.
(Your biscuits did not bake, I fear.)

You cannot cook as mother did?
I know it, sweet, and wish you could.
But talents, very oft, are hid—
(This coffee has a taste of wood.)

When you have passed away from earth—
Oh, do not speak of that, I beg!
Will I then praise your modest worth?
(Why can't I sometimes have an egg?)

You try to please me all you can?
I'm very sure you do, my sweet,
I am a reasonable man.
(Pray, was this omelet made to eat?)

My love will last until I die,
(My, this oatmeal!) No matter, Leah,
But then I wish that you would try
To have it boiled a little, dear.

Think more of eating than of you?
Now that, indeed, you cannot prove;
But this, instead, is strictly true,
A man must eat to live and love.

People in the smart set believe that all's well that ends swell.

CHAUNCEY DEPEW AND THE TRAMP

Here is a story concerning Chauncey Depew. It is too good to be original, but the Senator must be in it, just as Lincoln was in all the stories of a past period. A tramp met the Senator and asked him in that easy, velvet-tongued way:

"Would you kindly assist a—" etc.

Chauncey, of course, is an easy mark, and as he fanned himself after extracting the quarter, the tramp inquired:

"And who may I say was so kind hearted?"

"Oh never mind. That's all right."

"But in after years, when I recall those whose tender hearts—"

"Never mind, my good fellow!"

"Then I cannot accept it, sir. I must let my friends know—"

"Well, tell 'em it was Grover Cleveland and let it go at that."

The tramp put the quarter back in his pocket leisurely and shook his head.

"Now, my good fellow," said the Senator, "may I ask your name?"

"A gentleman in distress is loth to confess."

"Yes, but if I have your name I may be able to help you."

"No, my pride will not permit."

"But allow me to know whom I have had the pleasure of meeting in this happy way."

"Oh, well, tell 'em it was Chauncey Depew and let it go at that."

Chauncey fanned himself and let it go.

It is one thing to count the cost, and quite another thing to pay it.

"Do you think women dress to please the men?" asked the bachelor. "No; to bankrupt them," growled the married man.

A VICTIM OF THE BEEF TRUST.

I have banished the meat from my table,
The flesh of the sheep and the cow,
For a poor man is wholly unable
To purchase such luxuries now.
And the chops that I took from the hands of the cook,
And the bacon and things of that ilk,
Are replaced by some stuff that is tasteless and tough,
Like hay that's been simmered in milk.

I sit me to-night at my dinner,
And I think how a porterhouse fine
Would fill up the vacuum inner
Of this physical framework of mine.
But I'm sorry to state that they give me a plate
Of a mixture like sawdust and glue,
And I'm told that it's good, that it's Dash's Health Food,
And it's cheaper than roast or ragout.

I am not a carnivorous person
In the actual sense of the term,
But I cannot keep writing my verse on
A diet like this, I affirm;
For breakfast whole wheat (though it's simple to eat);
For luncheon, more wheat that is cracked;
And for dinner a deal of some mushy corn meal—
That's a little too much, for a fact.

I retire to my bed, and in slumber
I dream of a happier land,
Where turkeys are wondrous in number
And there's mutton on every hand.
There, in spirit elate, I am filling my plate
And the fork's going upward * * * Just then
I'm awakened to hear, from a voice at my ear,
"The price of beef's risen again!"

MR. CARR MISSED A CAR

In a neighbouring city lives a young man whose name is Carr. Carr is deeply smitten with the charms of a young woman who resides with her mother in a pretty villa near Sandlake on the line of the Troy and New England Railroad. He asked permission of his inamorata to call upon her at her home, and the young woman accorded him the privilege. Now, the cars on the Troy and New England road are not yet running on the summer schedule, and often villagers at Averill Park and the simple farmer folk of Rensselaer who patronize the road are compelled to wait many minutes for a vehicle. Mr. Carr reached the villa, where his Juliet resided, and pressed the electric button at the door. The ring was answered by the mother of the young woman. The latter had never seen the young man. "I'm Mr. Carr," he said, bowing profoundly.

"Um-er-well," was the reply which staggered him, "you may sit on the stoop until one comes along."

Five minutes later the daughter told her mother she expected a caller, and asked who had rung the bell. She was informed that there was a young man sitting on the stoop who had missed the car. The daughter rubbered through the blinds and saw her lover perched disconsolately on the steps. He was quickly within the portals and mutual explanations followed. —Albany Press and Knickerbocker.

THE AGGRAVATION OF IT.

"Whenever I'm inclined to lose my temper," said the philosophic man, "I just think to myself: 'Oh, there's no use getting mad.'"

"So do I," replied the excitable person, "and that makes me all the madder."

Perpetual motion long he sought,
And spent his years among
The dust of time, nor ever thought
To test a woman's tongue.

TIME TO STOP.

PUBLIC OPINION

As Represented by the Political Papers.

THE MILITIA.

(Ottawa Citizen—Cons.)

The Minister of Militia is to be congratulated on the prompt adoption of the important measures for the improvement of the force outlined in his speech on the estimates, and he has shown also wise discrimination in rejecting the proposal to increase the period of the annual drill to 28 days. While this recommendation was based on sound military principles it was an instance where the local conditions in Canada make the adoption of the British system impracticable. The time of the class of men such as compose Canada's military force is too valuable to be trenched upon to the extent of one month in the year. If such a scheme were adopted the personnel of the force would seriously deteriorate in quality, if indeed, the strength of the corps could be maintained at all.

CANADA AND DEFENCE.

(Halifax Chronicle—Lib.)

The present Government has been in power five years. During that time it has said not a word about the "old flag," but it has struck 33 1-3 per cent. off the tariff on British imports imposed by its administrative predecessors. It sent two contingents at a cost of over two millions to South Africa. It has enrolled and for over two years maintained, at heavy cost, a Canadian regiment at Halifax, thus setting free a regular regiment. It has contributed men for two other Canadian contingents to South Africa. It is getting ready a fifth Canadian contingent of over 2,000 men. And now it makes the announcement that it will for the future maintain an army of 100,000 trained and equipped men in the Dominion for "Imperial Defence." Such has been the present Government's contribution to the Imperial defence problem.

"FLIMSY CHAFF."

(Huntingdon Gleaner.—Lib.)

The Government side of the debate on the budget was closed by Mr. Paterson. The Minister of Customs made as good a defence of the increased expenditure as we think, is practicable, yet it was an extremely shallow defence. It was true, he said, that in five years the controllable expenditure had been increased nearly nine million dollars, but the Opposition never challenged it when authority for the increased expenditure was asked. They talked in a vague way, but they did not vote. The argument of Mr. Paterson is this, the Conservative members in the House of Commons not having voted against the increased expenditure, that expenditure is all right. Could there be more flimsy chaff thrown to blind eyes? It does not signify what the Conservatives did. The Ministers have to answer to the country. They entered office under a pledge to the country that they would reduce expenditure. Have they done so? Mr. Paterson admits they have added nine millions to the yearly expenditure. That is the condemnation of himself and his colleagues. Not only has the yearly expenditure been increased, but ten millions have been added to the debt, with a large increase in prospect. Mr. Paterson may bellow as long as he pleases, but need not think to deceive the people of Canada into believing that the Laurier administration has fulfilled the promises of financial reform under which they were given office.

"THE END OF IMPERIALISM."

(La Presse.)

Those who, for criminal party interests, would have wished to have seen Sir Wilfrid Laurier sacrifice Canada to Imperialism, must be profoundly afflicted by the courageous speech which the Prime Minister has just pronounced in the House of Commons. No more illusions, no more room for prejudice, impossible to make of him a bete noire, and to persist in representing him as a man ready to betray. What some would not understand in his letter to Mr. Chamberlain three weeks ago, he has placed this time in a form so sonorous that the ears of the people can no longer be opened to the false representations of others. "I say," he cried out, "that it would be for Canada a real suicide to allow herself to be swallowed up in a plan for the defence of the Empire. It would be throwing Canada into an abyss of expenditure. It would be a crime to divert the money necessary for our great navigation and railway works to buy rifles and cannon. I do not hesitate to say, like Sir Charles Tupper, that Canada has done more than her share for the defence of the Empire by constructing at her expense the Canadian Pacific Railway. We are ready, it is true, to improve our militia, but there is all the difference in the world between those plans of local defence and Imperial projects. We are going to London to discuss commercial questions. What Canada wants is to improve her commercial situation. It is certain that the better the arrangement concluded by us, the more sorrowful will be the gentlemen of the Opposition." Nothing in that declaration is equivocal. Everything is clear, firm and impregnated with a manly pride which recalls the finest pages of our history. We know that assaults will not be wanting on Sir Wilfrid Laurier when he will be on the other side of the ocean. He is going towards a gigantic struggle, for Mr. Chamberlain has so well disposed all things that the entire weight of the Empire will weigh down on the persistent refusal of a modest colonial. If there are some who have the courage to disarm his will and his efficiency before he leaves, we pity them very much, but the people at large will feel that they must fortify their representative, their champion, with all the enthusiasm and their warmest wishes. Imperialism is not a ball game in a tournament, but a very imminent danger. Woe to them who see in it but a ball game. For us, the so vigorous programme of Sir Wilfrid Laurier is the end of Imperialism. We know that for others this grand result will be a subject of deception.

The theory of the germ origin of Cancer, which we have long upheld, is now being amply demonstrated by English and German scientists. Many scoffed at us at first, and were inclined to be incredulous. Now, with hundreds of cures to our credit, there are very few indeed who will doubt the efficacy of our New Constitutional Remedy, which cures Cancer by getting at the root of the trouble—destroying the cancer germs and poisons in the blood. More Tug Firemen Strike.

SAULT STE. MARIE, Mich., April 25.—Not a tug of the Great Lakes Towing Company's fleet on the Great Lakes is in commission, as the result of the strike of the firemen in sympathy with their Duluth brethren. The firemen claim that they are not demanding an increase in wages, but simply a return to last season's wages of $60 per month; $52.50 is now paid. The strike is a serious thing at this point, as navigating the river and canal to the locks with tows is dangerous business without assistance.

AN ACCUSATION AGAINST BLAIR

Hon. Mr. Haggart States In House He Is Trying to Sell Intercolonial.

ONE OF DR. WEBB'S SCHEMES

Dominion Securities Company Claims Concessions From Dominion and Nova Scotia Governments.

(Staff Correspondence of the Montreal Star.)

PRESS GALLERY, HOUSE OF COMMONS, OTTAWA, April 25. — Yesterday the Intercolonial Railway occupied the attention of the House during almost the entire sitting. Long speeches were the rule; and the subject is a heavy one which does not lend itself to the play of humour or flights of eloquence. Hon. Mr. Blair was somewhat oratorical at times; but he did not display that fiery spirit which was in evidence the last time the Intercolonial was under discussion. Hon. Mr. Haggart was good humoured and jeering. Mr. Barker was precise and business like. The nearest approach to a scene was a somewhat sharp passage at arms between Hon. Mr. Fielding and Mr. Osler, with reference to the latter gentleman's views on railway bonusing. There was a great deal of repressed feeling in their remarks. Perhaps the most remarkable statment in the debate was Mr. Haggart's charge that Mr. Blair had been to New York to negotiate the sale of the Intercolonial, and still had an agent there trying to bring about a deal for a portion of the line. The discussion that arose incidental to this, in connection with the prospectuses of the Dominion Securities Company, was also of a somewhat sensational character. The matter looks like a very interesting chapter in the story of company-promoting.

** ** **

The formal business of the House was quickly disposed of.

The Premier informed Mr. Uriah Wilson (Lennox) that the Government had had no correspondence with the Colonial Office with reference to securing some of the Boer prisoners as settlers in western Canada.

Mr. Clarke (West Toronto) was informed by the Premier that when the Plains of Abraham were handed over to the city of Quebec the right was reserved to use them for drill, review or inspection purposes. The Government has no information that they have been refused for this purpose.

The bill respecting pensions to officers of the North-West Mounted Police was given its third reading.

** ** **

The Opposition had intended that Mr. Boyd, on the House going into Committee of Supply, should raise the question of Canada being excluded from supplying meat under Imperial army contracts; but the Minister of Finance, who was leading the House, asked that he defer moving his proposed amendment in order to allow the Minister of Railways to make his long promised statement respecting the management of the Intercolonial Railway, which was agreed to.

** ** **

The first item taken up in Supply was that $5,500,000 chargeable to Intercolonial Railway revenue, an increase of $1,000,000 over last year. Upon this, Hon. Mr. Blair made his statement, which occupied some two and a half hours in delivery. The Minister said that, besides this amount, he was asking various sums on capital expenditure, viz., $1,975,000 for the Intercolonial Railway; $510,650 on the Prince Edward Island Railway, and $1,375,950 on Canals. But these items on capital account were a reduction of $4,270,000 on the amounts asked last year. The total expenditure upon the Intercolonial Railway with which the present Government in chargeable, including the Drummond County purchase and this year's estimates, is $12,486,961. Of this $6,973,000 had been spent during the last five years in adding to the rolling stock, improving the bridges, purchasing new rails, and otherwise bettering the condition of the road. During the last five years, the business of the road had been increasing by leaps and bounds. This alone, he contended, justified a liberal increase of expenditure. Under Hon. Mr. Haggart's administration, the best year of gross earnings showed $2,957,000. During the past five years, the gross earnings had steadily increased, until in 1901 they amounted to $4,972,000. During the current year, the earnings have been increasing at the rate of $40,000 a month. For this year they will show an increase of over 75 per cent. over the previous year. With the earnings thus increasing, the capital expenditure must be proportionately increased.

** ** **

The Minister read a report made in 1897-8 by Mr. Joughins, late Mechanical Superintendent, pointing out that great improvements in the way of heavier locomotives and larger cars were necessary to equip the line as a modern road and place it on the same standard as the leading commercial roads of the continent. Mr. Blair asked why the Government road should be a played-out, antiquated institution. It should be as good as any railway in Canada. It was with this object that the large expenditures the Opposition criticised had been made; and in attempting to make the people believe these expenditures meant extravagance, the Opposition was misleading the country in a way unworthy of any political party. The Minister recited in detail what had been done in the way of providing heavier rails and bridges, and increased siding accommodation and station buildings, made necessary by the heavier equipment and increasing traffic. He declared that in his expenditures he had been behind rather than ahead of the requirements of the road. He claimed that the expenditures charged to capital account had been properly charged. The system of bookkeeping was the same now as in the past, and he quoted from the last estimates of the Conservative administration to show that, under Mr. Haggart's management, the same class of expenditures had been charged to capital account. As for his buying locomotives in the United States, he had done so because he could not get them in Canada. The Conservatives had bought locomotives in the United States also; and without this excuse. Dealing with last year's expenditure, he had been compelled to pay 15 per cent. more for coal, owing to the price rising as much as $1.00 and $1.10 per ton. He had also had to pay more for labour, owing to the general rise in wages. In these and other similar respects he had had to provide altogether $700,000, more than last year. And yet his deficit was only $480,000. He was not ashamed of his administration; he was proud of it, and hoped to do even better next year. He looked forward to a great future for the Intercolonial Railway. He looked to see it extended beyond Montreal to the Georgian Bay, and to become a national road in every sense. It should control the traffic of the country. It should be raised above the level of a political machine. This had been his policy. He had administered it entirely apart from party considerations, and had given the utmost liberty to its employes in the exercise of their franchise.

** ** **

After recess, Hon. John Haggart (South Lanark), entered upon a criticism of the Hon. Mr. Blair's administration of railway matters. He quoted from the promises made by the Minister at the time of the acquisition of the Drummond County Railway; and claimed they had lamentably failed of fulfilment. There was to have been no increase of the public debt through that deal; but there was an increase. Where, too, was the traffic to St. John which was to result? Where was the grain which the Government road was to have carried to the elevator there? Where was the competition with the C.P.R., which was to have ensued? The Minister had had to back down on every threat he ever made to the C.P.R. Where was the through traffic and the ocean traffic we were to have seen? The Minister had referred to the necessity of purchasing heavier locomotives. Why did he buy his new locomotives before he had put the road in a condition for them to travel over? As to the Minister's claim that he was running the road free from politics, he would remind the House of the deal with the Kingston locomotive works before the elections; of the large purchases of unnecessary ties before the elections; of the purchase of unnecessary rails before the elections, and of paying more for rails than the contractor was willing to supply them for. In regard to the Government's capital expenditure on the road, instead of its being as stated by Mr. Blair, it was $21,400,000. Mr. Blair had stated that he had great hopes of the future of the Intercolonial, and talked of extending it. Yet Mr. Blair had gone to New York for the purpose of trying to sell the Intercolonial. He now had an agent in New York, Mr. Pugsley, trying to sell the line, with whom was he negotiating? Mr. Haggart had, he said, information from New York in that regard. Would the Minister say whether it was with the Dominion Securities Company? He would read for the information of the House the prospectuses issued by that Company, that it might be seen what concessions they already claimed to have from this Government and the Nova Scotia Government. The name that appeared as president of this company was Dr. Seward Webb. The name of one of the Astors appeared among its directors. These men had not repudiated the prospectuses issued in their names; and such men would scarcely be likely to issue false prospectuses. This company, incorporated under the laws of New Jersey, claimed that they were receiving subsidies and land grants from the Dominion and Nova Scotian Governments in relation to some 600 miles of railway which would give them a profit of $8,000,000 above the cost of construction.

Mr. Blair declared the statements made in the prospectuses of this company were absolutely false so far as Dominion subsidies were concerned. They had not been definitely promised any subsidy.

Mr. Haggart stated that his information was, that though Mr. Pugsley had hitherto failed in negotiating the sale of the whole Intercolonial, owing to the Minister having concluded that the Opposition from both sides of politics would be too strong, there was yet a possibility of a sale being negotiated for a portion of the line. In further reference to the Dominion Securities Company, he reminded Mr. Blair that these are the same interests that have acquired the Canada Atlantic Railway, and if they did not acquire the Intercolonial they would be building up a strong competitor to it. He commended this possible competition to the particular attention of the Minister in connection with his large ideas for the extension of the Intercolonial system to Georgian Bay. He feared the Minister was a little too late. In regard to Mr. Blair's claim that heavier equipment of the railway had been necessary, Mr. Haggart said this was not so, in view of the class of traffic of the Intercolonial. It was not as though it had heavy loads of grain to haul like the prairie roads, nor was there any heavy mineral traffic for it to handle. It was strange that the necessity for this extra expenditure occurred just before the elections. In regard to the Minister's professions of political virtue in connection with the road, he could only say: "Whenever you hear him on the side of virtue, begin to suspect him."

** ** **

Hon. Mr. Fielding, upon the conclusion of Mr. Haggart's speech, rose with considerable warmth to make a few references to the Dominion Security Company's prospectus. He denounced the circular as a disreputable transaction, and said that if Dr. Seward Webb's name was used in connection with it with his authority, he was a kind of a man that the less one had to do with the better. He said there was absolutely no foundation for the statements in it so far as the Dominion Government was concerned; and he believed he could say it was false so far as the Nova Scotia Government is concerned. The only line of those mentioned to which the Dominion was giving assistance was a line of thirty-five miles from Canso to St. Peter's, C.B.

Mr. E. B. Osler (West Toronto) said he had, in the ordinary course of business, had the Dominion Securities Company recommended to him by reputable New York brokers. The fact was that New York brokers have seen the reckless manner in which bonuses are granted here, and think Canada is a profitable mine to work. The inference he drew was that we should be careful about granting bonuses to railways that are simply speculative, or whose only object is to give their contractors a pull.

Mr. Fielding deolared that Mr. Osler was opposed to bonuses to every road except the C.P.R.

** **

Mr. Osler said he was opposed to all bonuses, even to the C.P.R., except in cases where the road was opening up a new country.

Mr. Fielding said that it was in new country that the C.P.R. was wanting to build its branch lines.

** **

Mr. Barker (Hamilton) brought the discussion back to the Intercolonial Railway. He delivered a practical, business-like speech, going exhaustively into the administration of the road. He stated the ordinary rule recognized by all commercial railways as to what should be charged to capital expenditure, and proceeded to test by that rule expenditures that had been charged up to capital expenditure on the Intercolonial under Mr. Blair's administration. He claimed that Mr. Blair had been concealing the real magnitude of his deficits by charging up to capital what should have been charged up to working expenses. He showed that the late Government, when renewing rails, charged the expense to revenue; as also did the present Government at first. But just before the last election, Mr. Blair began charging up new rails to capital. He figured out that if the books had been properly kept, Mr. Blair last year would have had to show a deficit of $1,046,009, instead of $480,000. Though Mr. Blair claims increased traffic on the road, his expenses have increased to a still greater degree than the traffic. His expenses are 110 per cent. of his revenue, notwithstanding all he has charged to capital expenditure. And the increased traffic was due not to Mr. Blair's management of the road, but to the general increase of business both in Canada and the United States, during the past few years. Mr. Barker compared the cost of operating the commercial roads with the cost of operating the Intercolonial greatly to the disadvantage of the Intercolonial. He also referred to the coal scandal, and Mr. Emmerson's action in relation to the letter so mysteriously produced before the Public Accounts Committee the other day.

After a few remarks by Mr. Ingram (East Elgin), the committee rose; and the House adjourned at midnight.

COMPANIES ACT IN SENATE.

Several Amendments Considered and Adopted—Bills Passed.

(Special to the Montreal Star.)

OTTAWA, April 25.—The Senate yesterday passed the following bills: respecting the Western Alberta Railway Co.; and to incorporate the Strait of Canso Bridge Co.

The Timagami Railway bill; the bill respecting La Compagnie du Chemin de fer de Colonization du Nord; and respecting the Niagara, St. Catharines and Toronto Railway were read a second time.

The Senate then resumed committee of the whole on the "Companies Act." On clause 48 which provides that any transfer of shares shall be valid only after registration in the company's books, Hon. R. Dandurand moved to add "the present clause shall not apply to shares in companies who are listed and whose shares are dealt in on the Stock Exchange by means of scrip."

The scrip he explained was to be the valid transfer of the stock, but the holder should not be allowed to vote till after registration.

Hon. Mr. Lougheed held that the whole principle of the bill was that if certain steps were taken then there should be disclosure. Under the amendment as proposed a shareholder might sell his shares without his creditors being aware.

Hon. Mr. Forget could not see how any creditor of the company could be a sufferer by the amendment as scrip was only issued in regard to paid up shares. If the creditor were a private creditor and not creditor of the company he had no business to know who were shareholders. Thousands of dollars' worth of scrip changed hands every day and it would be impossible to register them. Shares in many companies stood in his name and had done so for years but he did not know who the real holders were. Claims for dividends on scrip for shares of certain numbers turned up every now and then from banks and others.

Hon. R. W. Scott thought that there was a great deal of nervous excitement about this bill. The clause had stood as it was for thirty years. The amendment was adopted.

Clause 56 providing that trustees and others should not be personally responsible or liable was amended on the motion of the speaker so as to conform to the similar clause in the Bank Act by adding the words, "for any person named in the books of the company as being represented by him." This was to prevent any persons endeavouring to avoid liability by passing themselves off as trustees, etc.

Clause 69 providing that "existing companies may apply for charters under this act," was adopted: It was explained that the clause was intended to enable English and American companies doing business in Canada to become Canadian companies. At present such companies could obtain a license and several were operating in Canada.

The committee went back to Clause 3 and added companies constructing and operating telegraph and telephone lines to the list of those to whom this act does not apply.

The committee then reported and will take up the clauses held for amendment and further consideration to-day.

Presentation to Quebec Whip.

(Special to the Montreal Star.)

OTTAWA, April 25.—Last evening the Liberal members from Quebec gathered in Mr. Louis Lavergne's room, when Mr. Prefontaine presented him with an address and a handsome gold-headed cane. The Quebec whip fittingly acknowledged the gift and entertained his friends till some time after the House adjourned.

A PRAGUE SENSATION

Prince Rejects a Princess at the Altar Because Her People Declined to Pay Up His Debts.

(Special to the Montreal Star.)

PRAGUE, April 25. — A great sensation was caused here to-day when Prince Stanislaus Radziwill rejected Princess Henrietta Chotek, a sister-in-law of the heir presumptive to the Austrian throne, at the alter.

The bride's relatives refused to pay the prince's debts, amounting to half a million dollars; hence the action of the prince.

THE RUSSIAN ARMY.

Serious Symptoms of a Revolutionary Agitation Have Appeared.

(Special to the Montreal Star.)

LONDON, April 25. — A St. Petersburg despatch printed in a Slav news sheet, published in Vienna, is quoted by the correspondent of the Times in Austrian Capital. The despatch says serious symptoms of revolutionary agitation have appeared both in the ranks and among the officers of the Russian Army. The students, especially women, are actively promoting a revolutionary propaganda among the troops. It is said that a secret organization among some officers has been discovered. A letter from Count Tolstoi to a sergeant, declaring the soldiers must not betray their duty to God and man, is being widely circulated.

Brave Boy Fatally Burned.

NEW YORK, April 25. — Joseph Altolio, a seven-year-old boy, received burns from which he will die in saving his father, Jas. Altolio, from a similar fate, early to-day. Father and son were sleeping in a stable in order to be near a sick horse, which they were caring for, and their bed was set on fire by the upsetting of a lamp. The lad was awakened first, and, seeing his father wrapped in a burning blanket, sprang to his rescue. He stripped the burning cloth from his father, but in doing so his own clothing caught fire, and he was terribly burned about the body.

Mrs. W. Taylor-Bailey entertained at euchre Wednesday afternoon, in honour of Mrs. Duggan, of Toronto, who is her guest. Nine tables were called into requisition for the players. Mrs. Rodgers received the first prize, Mrs. Coats the second, Mrs. Moore the lone hand, and Mrs. Liddell the consolation, all prizes being hand-painted articles. The invited guests included Mrs. Lewis, Mrs. Busby, Mrs. Eaton, Mrs. R. Adair, Mrs. Robinson, Mrs. Mumford, Mrs. Hadrill, Mrs. Whitham, Mrs. Pyke, Miss Browne, Miss Carter, Mrs. Liddell, Mrs. Jones, Mrs. Gardner, and many others.

Great preparations are being made in Aberdeenshire to celebrate the silver wedding of Lord and Lady Aberdeen. They are both very popular, and are untiring in their efforts to benefit the poorer classes, not only in the immediate neighbourhood of Haddo House, but on all Lord Aberdeen's estates. When Lord Aberdeen was Viceroy of Ireland and Governor-General of Canada, Lady Aberdeen interested herself greatly in many philanthropic schemes and she is now one of the chief supporters of the Irish industries and the Canadian Emigration Society. Lady Aberdeen is of a tall and commanding presence, but not perhaps so attractive as her elder and only sister, the late Lady Ridley, whose husband since her death has been created a peer. They were the only two daughters of the first Lord Tweedmouth.—London World.

Mr. and Mrs. George Hague held a largely attended reception yesterday afternoon at "Rotherwood," Redpath street. Mrs. Hague, who was assisted in receiving by Mr. Hague and Miss Hague, was handsomely gowned in gray satin trimmed with lace. Miss Hague was in tan satin with trimming of white chiffon. The house was effectively decorated with red and white carnations, the same flowers being used in the arrangement of the tea table. Mrs. Robert Lindsay and Mrs. Dyson Hague presided in the tea room, assisted by Miss Ada Lindsay, Miss Bagg, Miss A. Cook and Miss Murray Smith. Among the many guests present were the Bishop of Niagara and Mrs. Dumoulin, the Bishop of Ontario and Mrs. Mills, the Bishop of Huron, Lady Van Horne, Lady Shaughnessy, Miss Dow, the Misses Cook, Mrs. R. A. Lindsay, Miss Lindsay, Mrs. Stanley Bagg, Mrs. Mulholland, the Misses Murray Smith, Dr. and Mrs. Wilkins, Mr. and Mrs. Oliver Smith, Mrs. Henshaw (Vancouver), Mrs. H. Henshaw, Mrs. F. W. BISHOP CARMICHAEL WAS SOLEMNLY CONSECRATED TO-DAY

Elaborate Ceremony Took Place in St. George's Church —Eloquent Sermon Was Preached by the Right Rev. the Lord Bishop of Niagara.

The Very Reverend James Carmichael, D.D., D.C.L., was to-day consecrated Coadjutor Bishop of the Diocese of Montreal, with the right of succession thereto. The ceremony was performed at St. George's Church, of which the new dignitary has for years been pastor. His Grace the Archbishop of Montreal officiated, assisted by Their Lordships the Bishops of Huron and Niagara.

The church was filled with a reverend congregation, which followed the conferring of the dignity with rapt attention. The altar had been decorated for the occasion, being draped in white, and covered with tulips, lilies and roses. At the foot of the altar were pots of ferns, while the sanctuary was decorated with palms. The church was brightly lighted.

COMMUNION SERVICE CELEBRATED.

At 9.30 a.m. the Communion service was celebrated. This occupied almost an hour. Fully half an hour before the consecration ceremony began, the church was filled with people. The wardens and vestrymen of the church acted as ushers.

The order of the consecration service is somewhat different from that of the celebration of the Holy Communion. Before the hour for the opening of the service, Rev. Dyson Hague came forward and announced that owing to the length of time that would be occupied with the consecration, the Bishop had deemed it advisable that the people should take the communion next Sunday, instead of at the communion service to-day. The Bishops and the clergy would take communion to-day. The Bishop-elect had requested that his beloved people should communicate with him on Sunday next.

THE PROCESSIONAL HYMN.

The organ pealed forth and the choir and congregation took up the processional hymn, "The Church's One Foundation," while the procession filed into the church. First came the surpliced choir, the members of which filed into the stalls, then came the wardens and vestrymen of St. George's and of other churches and lay delegates to the Synod. These lined up on either side of the aisle, and were followed by the clergy who also lined up to make way for the Archbishop, the bishops and their chaplains.

The dignitaries present were: Very Rev. W. B. Bond, D.D., Archbishop of Montreal, and Metropolitan of Canada; Right Rev. A. C. A. Hall, D.D., Bishop of Vermont; Right Rev. W. P. Sweatman, D.D. Lord Bishop of Toronto; Right Rev. Maurice S. Baldwin, D.D., Lord Bishop of Huron; Right Rev. F. Courtney, D.D., Lord Bishop of Nova Scotia; Right Rev. A. Hunter Dunne, D.D. Lord Bishop of Quebec; Right Rev. Charles Hamilton, D.D., Lord Bishop of Ottawa; Rev. Dr. Thornloe, Lord Bishop of Algoma; Right Rev. J. Philip DuMoulin, D.D., Lord Bishop of Niagara. Right Rev. W. Lennox Mills, D.D. Lord Bishop of Ontario; Right Rev. Dr. Pritham, Lord Bishop of Saskatchewan and Calgary, each attended by his chaplain. The Dean followed, bringing up the rear of the procession. The Bishops entered the sanctuary, while the chaplains took seats on the east side of the chancel, and the other members of the clergy, the wardens and delegates took seats at the front of the church.

COMMENCED COMMUNION SERVICE

Right Rev. Dr. Sweatman, Bishop of Toronto, began the communion service. His Lordship Bishop Courtney read the Epistle, which was Acts xx., 17, while the Right Rev. Dr. Hall, Bishop of Vermont, read the Gospel, St. John, xxi., 15.

The Epistle used was the story of St. Paul's farewell to the Ephesians at Miletus, at the close of his third missionary journey, and his charge to them to be faithful and steadfast. The Gospel was the record of Christ's charge to St. Peter to feed his flock.

After the Nicene Creed had been sung, Rev. Dyson Hague gave out the hymn: "The Harvest Truly is Plenteous, but the Labourers are Few."

BISHOP OF NIAGARA PREACHED SERMON

His Lordship Dr. Dumoulin Delivered Eloquent Discourse From St. John XX., 21.

His Lordship Dr. Dumoulin, Bishop of Niagara, preached the sermon from the text: "Then said Jesus to them again, Peace be unto you, as My Father hath sent Me, even so I send you. And when He had said this He breathed upon them, and saith unto them, Receive ye the Holy Ghost. Whosoever sins ye remit, they are remitted unto them, and whosoever sins ye retain, they are retained." St. John, xx. 21.

These words, he said, were addressed to the Apostles late on the day of the resurrection, on the eventide of greatest day in the world's history. In that sacred house the risen Lord had imparted to His Apostles a great commission, which has continued, and will continue to the end of time. It was given in language so clear and strong, that it is well nigh impossible to overrate it. As the Son was the Apostle of the Father, so He appointed these men the Apostles of the Son. Notwithstanding the controversies that have arisen in recent years as to the extent of the authority vested in the Bishops, that great commission was given to them, by Christ Himself. The College of Apostles were the first bishops. They went forth under the direction of St. Paul the Apostle of the Gentiles, and did great work. They established churches and ordained priests and their great office has continued to this day. They were appointed to teach, to preach, to absolve, to rule, to ordain and appoint presbyters and deacons, to drive out heresies, to perpetuate their own office. So the Apostles and their successors went on doing.

COUNCIL AT NICEA.

Then, they met in the first great council at Nicea, at which were present 318 bishops, and at Calceda there were just double that number, 736. Of those who attended there were some who showed in their persons that they had been ready to give up their lives to follow the Master.

In later days the men in the exalted office of bishops had held the highest positions, some as soldiers, others as Chancellors, like Wolsey and Richelieu. In our own day, at Lambeth, may be seen primates from all parts of the world. The swarthy African, the dark skinned native of India, the American, the Canadian, all have left their homes, their pastoral ties which are dear to follow the call of the Great Master. This divinely constituted office still bears the cross placed in its hands by the Divine Master. The roll to which they were making a worthy addition to-day showed the names of men who had laid aside ties to follow the work of the Master. This great office, which is older than any secular throne cannot fail, for it is the mainstay of an institution divinely founded, divinely sustained. Modern spirit in civil and canon law tends to the restriction of the powers of the bishops. They did not seek greater authority, because it brought greater responsibilities. The consistency of modern orders is to detract from the power to bring about things and to expect the same results as if the power were as originally given. The bishops must not be held responsible for that which can be repressed only by the authority of the bishops, but which the civil law takes out of their hands. Every man vested with authority should have powers vested in him to enforce that authority, for where authority ends accountability must also stop. The Head of the Church knew these things, and that is why he gave such extended powers to the bishops.

BISHOP IS FIRST OF ALL.

There is one potentiality, however, that cannot be taken away. The bishop is first of all, and above all, the father of his people—their father is God. This name expresses the idea that a Bishop should be kind and considerate and loving to his people. Its correlative is sonship. The clergy must be sons to their bishop, loving him and obey. They must not let youthful exuberance, must not let a benefice, a freehold, a legal point remove them from the admonitions of their father in God. The vow, the oath that they have taken at the most solemn moment of their lives must not be thrown aside at the first difficulty that arises. Above the civil law, and the canon law was the fatherhood of the bishop. It is impossible to suppose that the power or greatness of the Church is to be less to-day than in the past. The word of Christ was: "I will be with you all days, even unto the consummation of the world." This power is as necessary now as when he gave it, and it was given to last until the end.

HIS LORDSHIP BISHOP CARMICHAEL.

ADDRESSED THE CANDIDATE.

Turning to the candidate for consecration, the preacher said the self-same words would be pronounced over him to-day by the representatives of Christ, as had been spoken by Christ Himself to the Apostles. God had trained the new dignitary up to his work, and was not entering it as a novice. Nothing in all this world is so good as true loving friendship between man and man, brother and brother in God; the preacher, therefore, offered to his brother his heart with all his affection. The Church in all the Dominion, the Church which for the last ten years chose the dean as the head of its synod in this province, and in the Dominion synod since its inception, rejoiced in his elevation to the well deserved dignity. As St. Mark, whose feast was being celebrated had been a son to St. Paul, so the new bishop would be a son to the venerable Metropolitan, and he prayed that their love might melt away into that one love which is Christ Jesus one and forever.

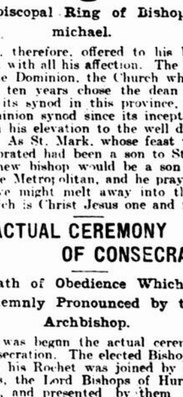
The Episcopal Ring of Bishop Carmichael.

THE ACTUAL CEREMONY OF CONSECRATION

The Oath of Obedience Which Was Solemnly Pronounced by the Archbishop.

Then was begun the actual ceremony of the consecration. The elected Bishop, vested with his Rochet was joined by his two sponsors, the Lord Bishops of Huron and Niagara, and presented by them to the Lord Archbishop of Montreal, in the following words: "Most Reverend Father in God, we present unto you this godly and well-learned man to be Ordained and Consecrated Bishop." Proof of election was then asked for and read by the clerical secretary of the Synod, Rev. Canon Baylis, D. D. The elected Bishop then pronounced the oath of obedience to the Archbishop as follows:

In the Name of God, Amen. I, James Carmichael, chosen Bishop of the Church and Coadjutor of the See of Montreal, do profess and promise all due reverence and obedience to the Archbishop of Montreal and Metropolitan of the Ecclesiastical Province of Canada, and to his Successors, and Metropolitans of said Province: So help me God, through Jesus Christ.



The Seal of the Episcopal Ring of Bishop Carmichael.

PRAYER OFFERED UP.

The Archbishop thereupon moved the congregation to offer up prayer on behalf of the Bishop-elect quoting the example of our Lord in the following prayer:

Brethren, it is written in the Gospel of Saint Luke, that our Saviour Christ continued the whole night in prayer, before he did choose and send forth his twelve Apostles. It is written also in the Acts of the Apostles, that the Disciples who were at Antioch did fast and pray, before they laid hands on Paul and Barnabas, and sent them forth. Let us, therefore, following the example of our Saviour Christ, and his Apostles, first fall to prayer, before we admit, and send forth this person presented unto us, to the work whereunto we trust the Holy Ghost hath called him.

LITANY SAID BY CONGREGATION.

The Litany was then said by the congregation, being concluded by the prayer, "Almighty God, giver of all good things, who by thy Holy Spirit hast appointed divers Orders of Ministers in thy Church; mercifully behold this thy servant now called to the work and ministry of a Bishop; and replenish him so with the truth of thy doctrine, and adorn him with innocency of life, that, both by word and deed, he may faithfully serve thee in this office, to the glory of thy Name, and the edifying and well-governing of thy Church; through the merits of our Saviour Jesus Christ, who liveth and reigneth with thee and the Holy Ghost, world without end. Amen.

The examination of the elected Bishop was then made by the Archbishop, who referred to Holy Scripture and the Ancient Canons as the authorities for his action. From his throne he spoke as follows:

Brother, forasmuch as the holy Scripture and the ancient Canons command, that we should not be hasty in laying on hands, and admitting any person to Government in the Church of Christ, which he hath purchased with no less price than the effusion of his own blood: before I admit you to this Administration, I will examine you in certain Articles, to the end that the congregation present may have a trial, and bear witness, how you be minded to behave yourself in the Church of God.

Are you persuaded that you be truly called to this Ministration, according to the will of our Lord Jesus Christ, and the order of this Realm?

And the Bishop-elect answered, I am so persuaded.

The Archbishop: Are you persuaded that the holy Scriptures contain sufficiently all Doctrine required of necessity for eternal salvation through faith in Jesus Christ? And are you determined out of the same holy Scriptures to instruct the people committed to your charge; and to teach or maintain nothing as required of necessity to eternal salvation, but that which you shall be persuaded may be concluded and proved by the same?

Answer. I am so persuaded, and determined, by God's grace.

The Archbishop: Will you then faithfully exercise yourself in the same Holy Scriptures, and call upon God by prayer for the true understanding of the same; so as you may be able by them to teach and exhort wholesome doctrine, and to withstand and convince the gainsayers?

Answer: I will so do, by the help of God.

The Archbishop: Are you ready, with all faithful diligence, to banish and drive away all erroneous and strange doctrine contrary to God's Word; and both privately and openly to call upon and encourage others to the same?

Answer: I am ready, the Lord being my helper.

The Archbishop: Will you deny all ungodliness and worldly lusts, and live soberly, righteously, and godly, in this present world: that you may show yourself in all things an example of good works unto others, that the adversary may be ashamed, having nothing to say against you?

Answer: I will so do, the Lord being my helper.

The Archbishop: Will you maintain and set forward, as much as shall lie in you, quietness, love, and peace among all men: and such as be unquiet, disobedient, and criminous, within your diocese, correct and punish, according to such authority as you have by God's Word, and as to you shall be committed by the Ordinance of this realm?

Answer: I will so do, by the help of God.

The Archbishop: Will you be faithful in ordaining, sending, or laying hands upon others?

Answer: I will so be, by the help of God.

The Archbishop: Will you show yourself gentle, and be merciful for Christ's sake to poor and needy people, and to all strangers destitute of help?

Answer: I will so show myself, by God's help.

CLOSED HIS EXAMINATION.

The Archbishop closed his examination by offering up a prayer that God would accomplish the good work, which he had begun in His servant, so that he might be found perfect and blameless at the last:

Almighty God, our heavenly Father, who hath given you a good will to do all these things, grant also unto you strength and power to perform the same; that, he accomplishing in you the good work which he hath begun, you may be found perfect and irreprehensible at the latter day, through Jesus Christ our Lord. Amen.

After the singing of the hymn "As my Father hath sent Me, even so send I you," the Bishop elect put on the remainder of the Episcopal habit and kneeling down, the hymn, to the Holy Ghost, Veni, Creator Spiritus was sung over him by the Archbishop and the Bishops. A last prayer before the solemn act of consecration was then offered by the Archbishop."

Almighty God, and most merciful Father, who of thine infinite goodness hast given thine only and dearly beloved Son Jesus Christ, to be our Redeemer, and the Author of everlasting life: who, after that he had made perfect our Redemption by his death, and was ascended into heaven, poured down his gifts abundantly upon men, making some Apostles, some Prophets, some Evangelists, some Pastors and Doctors, to the edifying and making perfect his Church, Grant, we beseech thee, to this thy servant such grace, that he may evermore be ready to spread abroad thy Gospel, the glad tidings of reconciliation with thee; and use the authority given him, not to destruction, but to salvation; not to hurt, but to help; so that as a wise and faithful servant, giving to thy family their portion in due season, he may at last be received into everlasting joy; through Jesus Christ our Lord, who, with thee and the Holy Ghost liveth and reigneth, one God, world without end.

The solemn moment of the consecration was at hand. The grandest ceremony in the ritual of the church, by which the greatest of all favours is conferred upon a minister of God, that of being able to consecrate other ministers, and to send them to do God's work throughout His earthly kingdom. The Bishop elect is kneeling close to the Holy Table, and all the Bishops present move forward in turn, and lay their hands upon his head. Lastly, it is the turn of the Archbishop, and, as he places his hands upon the head of the Bishop elect, he consecrates him forever, in the following prayer:

"Receive the Holy Ghost, for the Office and Work of a Bishop in the Church of God, now committed unto thee by the Imposition of our hands; In the Name of Father, and of the Son, and of the Holy Ghost. Amen. And remember that thou stir up the grace of God which is given thee by this Imposition of our hands; for God hath not given us the spirit of fear, but of power, and love, and soberness.

DELIVERED HIM THE BIBLE.

And as the new Bishop arose, the Archbishop delivered him the Bible, saying.

"Give heed unto reading, exhortation, and doctrine. Think upon the things contained in this Book. Be diligent in them, that the increase coming thereby may be manifest unto all men. Take heed unto thyself, and to doctrine, and be diligent in doing them; for by so doing thou shalt both save thyself and them that hear thee. Be to the flock of Christ a shepherd, not wolf; feed them, devour them not. Hold up the weak, heal the sick, bind up the broken, bring again the out-casts, seek the lost. Be so merciful, that you be not too remiss; so minister discipline, that you forget not mercy; that when the chief Shepherd shall appear you may receive the never-fading crown of glory: through Jesus Christ our Lord.

The consecration being concluded, the Archbishop proceeded in the Communion service, the newly consecrated and other Bishops communicating with him. After the Offertorium, the hymn, "I am not worthy, Holy Lord, that Thou shouldst come to me," was sung. At the conclusion the Benediction was given by the Lord Archbishop of Montreal in the following words: "The peace of God, which passeth all understanding, keep your hearts and minds in the knowledge and love of God, and of His Son Jesus Christ our Lord; and the blessing of God Almighty, the Father, the Son, and the Holy Ghost be amongst you and remain with you always. Amen.

As the Bishops retired in procession from the church, the choir and congregation sang the hymn, "Compassed about with so great a cloud of witnesses."

The musical service was conducted by Mr. Percival J. Illsley, Ba. Mus., and was specially good. The Communion service was Dykes in F., throughout, while the offertory was Gounod's "Send Out Thy Light." The musical portion was closed with the Hallelujah Chorus, from Handel. Mr. E. A. Burke rendered a solo with remarkable power.

LUNCHEON TENDERED BISHOP CARMICHAEL

Mr. A. F. Gault and Wardens of St. George's Gave a Function at Windsor.

In the Ladies' Ordinary of the Windsor Hotel, this afternoon, a luncheon was tendered to His Lordship Bishop Carmichael by Mr. A. F. Gault, and the wardens of St. George's Church. The luncheon was very largely attended, all the visiting bishops, the ministers of the various English churches and the members of the vestry being present.

The Lord Archbishop of Montreal presided.

THE EPISCOPAL RING OF THE COADJUTOR BISHOP

It is a Beautiful Specimen Bearing His Lordship's Arms Engraved on Amethyst.

The episcopal ring which the clergy of the archdiocese presented to-day to the new coadjutor bishop is considered the finest that has ever been used at the consecration of any bishop of the Anglican Church in this country.

The origin of the episcopal ring dates to the time when it became necessary for the bishops to go from place to place on their episcopal missions. The seal of the bishop was a weighty affair, and not easily carried around. It was, therefore, decided to place the seal upon a ring, which, for convenience, is worn on the first finger of the right hand.

The ring to-day presented to the coadjutor bishop was designed and made by Mr. R. Hemsley, the well-known jeweller of this city. The ring itself is of solid gold. The seal is engraved upon a splendid lozenge-shaped amethyst, bearing the arms of the new dignitary, which consist of the bishop's mitre, under which are given the arms of the Carmichael family, a broken spear, held by a mailed hand, and arm, with the motto, "Toujours Prets." ("Always Ready.") The stone is held by claws of gold, the shank of which is in the shape of fleur-de-lys. This shape is symbolical of the Trinity.

SAVED YOUNG CHILD FROM DEATH IN STREET CAR ACCIDENT

Albert Carle Kept Little Rebecca Goldeen From Being Ground to Death Yesterday.

A rather sensational rescue occurred yesterday evening, at 5.30 o'clock, when Rebecca Goldeen, the little four-year-old daughter of Marcus Goldeen, of 1877 St. Catherine street, was grasped from the jaws of death by the heroism of Mr. Albert Carle, of 377 Amherst street. The child was attempting to make the crossing when a rig came along and was about to run her down, when she slipped and fell on the street, just in front of an approaching electric car going at a fairly good rate of speed. She was struck by the car and rolled along the track for some distance, but finally got under the fender. Mr. Carle, seeing the child's perilous position, gave a quick jump for her life, and managed to get hold of her little dress and drag her along under the fender until the car was finally stopped. Had the dress given away she would, no doubt, have been ground to death beneath the wheels of the car. Her hip was dislocated and bruised. This is the third Montreal child that Mr. Carle has saved from a similar fate.

LORD TOWNSHEND

Entertained Last Evening by Mrs. Misell, of Dorchester Street.

Lord Townshend and his secretary, Mr. Robina, were the guests of Mr. and Mrs. Misell, at their residence, 4025 Dorchester street, last evening. Among those present were Mr. Horace A. Hutchins, Mr. and Mrs. Maxwell Goldstein, Mr. W. A. Jackson and others.

LONG MURDER TRIAL

(Special to the Montreal Star.)

BEAUHARNOIS, April 25. — William Long, accused of the murder of Denis Labre, gave evidence in his own behalf to-day. He said that on October 3 last at 11.30 in the morning, on going to the stable to feed his horse he saw a hen hawk around the stable. He continued: "I went back to my room to get my rifle, and in coming out the bird was gone. I took my rifle into the stable and put it in a stall leaning against the wall. Then Daniel Labre came to put his horses in. When tieing one of his horses I accused him of stealing my stuff. He told me I was a liar and called me foul names and said if I said he stole my stuff he would kill me. Then I reached for my rifle and he was coming for me with his arms over his head. I told him to keep back. He paid no attention. I then stepped back two or three steps towards the corner of the door. I was about seven feet from him when I raised my rifle to shoot. When he saw me aim at him he made a half turn going to the left to go towards the door leading under the shed, so I fired quicker than you could say Boston. He was on the move when I fired; that shows that on taking the half turn to go out of the door the ball struck him on the side and went toward the other side of the body. When the ball struck him the blood flew from his mouth, and this explains why blood was seen on the inside of the door. Being in such close quarters, about seven feet from him, the force of the powder and bullet sent him out of the door about the length of himself. I went directly out of the stable and went into the shed. I stood about 18 feet from the body. He only lived about thirty seconds. I stayed there, looking at the body, and saw him breath his last."

RECRUITING IN MONTREAL IS NOW FINISHED

Recruiting for the fourth contingent as far as Montreal is concerned is finished. One hundred and seventeen in all have been sworn in here. The last batch will leave for Halifax at noon on Sunday. The following were sworn in to-day:

Wm. H. Graumann, 22, next of kin, Mrs. G. H. Graumann, mother, Montreal.

Walter Cavil Fyfe, 35, next of kin, Andrew Fyfe, brother, Montreal West.

Charles Carter, 20, next of kin, George C. Carter, Montreal.

A. A. R. Darling, 21, next of kin, Thomas Darling, father, Westmount.

Richard Walsh, 21, next of kin, Michael Walsh, Montreal.

W. G. Wills, 26, next of kin, Wm. Wills, father, Northampton, Eng.

Joseph Gibb, 20, next of kin, Wm. Gibb, father, Abbotsford.

G. J. Wilson, 21, next of kin, George Wilson, father, Montreal.

What Josef Hofmann Says of the Angelus Piano Player.

"It has always been my ideal to hear the short notes in connection with the long ones, and it is the ambition of all intelligent pianists to sustain the tone in some manner or other. This is all embodied in the Angelus Orchestral, and, therefore, listening to this instrument affords exquisite pleasure, and is a boon to all lovers of music."

THE SCIENCE EXAM RESULTS

The Graduating Classes in the Various Divisions.

CORLESS WON EXHIBITION

And Also British Association Medal and Prize—The Other Prize Winners.

The following is the result of the sessional and final examinations of the Faculty of Applied Science, McGill University, issued to-day by Professor Bovey, Dean of the Faculty:

FOURTH YEAR GRADUATING CLASS. HONOURS.

(In alphabetical order.)

Campbell, Charles McKinnon—Prize for summer thesis.

Corless, Charles Vandyke—British Association Exhibition; British Association Medal and prize; first Carlyle prize; honours in geology, mineralogy, mining machinery, electro-metallurgy and in metallurgy of iron and steel.

DePencier, Henry Percy—Prize for summer thesis; Allis-Chalmers scholarship.

Franklin, Emerson Loran (B.A.)—Honors in electrical engineering laboratory work.

Heaman, John Andrew—British Association medal and prize; prize for summer thesis; honours in designing and municipal engineering.

Scott, Harry Evart—British Association medal and prize; prize for summer thesis; honours in A. C. machinery, electrical engineering laboratory work and electrical designing.

Shaw, Herbert Harold—Prize for summer thesis.

Smith, Gerald Meredith—Prize for summer thesis; honours in dynamics of machinery and thermodynamic laboratory work.

Smith, James Macdonald — Honours in electrical designing and electrical laboratory work.

Sterns, Frank Ernest—British Association prize; British Association medal and prize; honours in designing, dynamics of machinery, hydraulics and hydraulic machinery, machine design, metallurgy, thermodynamics and thermodynamic laboratory work.

Passed for the Degree of Bachelor of Science.

(In order of merit. Students of equal standing are bracketed together.)

Civil Engineering.—Heaman, John Andrew, London, Ont.; Shaw, Herbert Harold, Brackley Point, P. E. I.; Bigger, Bowell, Ottawa, Ont.; Borden, Henry Percy, Kentville, N. S.; Cameron, Kenneth MacKenzie, London, Ont.

CANADA AND THE SHIPPING TRUST

The London Daily Express Prints a Sensational Article.

SAY MORGAN WILL OWN US

Colonel Denison Advocates An Anglo-Canadian Line Run Under Favourable Conditions.

(Special by Cable from the Special Correspondent of the Montreal Star in London.)

LONDON, April 25. — The Daily Express publishes two flaring columns under the heading "Splitting the Empire—Morgan Trust to Control Canada."

The article alleges that Canada will be coerced to accept the terms of the new shipping trust.

Its rates for emigrants will be fixed by the trust, its emigrants compelled to travel on the steamers of the trust, and, failing this, a commercial war will be declared.

The Express anticipates that the trust will control the Canadian Pacific Railway and secure absolute command of Canadian ports and railways.

Other alarmist points are elaborately dealt with.

Colonel Denison, who is here, urges that the British and Canadian Governments run a competing line, tax everything the trust vessels bring to Great Britain, letting everything that the Anglo-Canadian line brings enter free.

DR. DRUMMOND LECTURES.

Montreal Author Addresses a Large Audience in Massey Hall, Toronto.

(Special to the Montreal Star.)

TORONTO, April 25.—Dr. W. H. Drummond, of Montreal, author of many poems in the Homespun dialect of the rural sections of Quebec province, gave a recital from his works in Massey Hall last night, before an audience of probably 2,000 representing the culture of Toronto. The audience followed Dr. Drummond with the closest interest and keenest appreciation.

Mr. J. S. Willison introduced the lecturer.

SHIP COMBINE EXCITEMENT

Announcement May Be Made Arrangement Is for Convenience.

COLONEL DENISON'S WARNING

Combine May Buy Canadian Railways to Shut Off Avenues of Trade for Outside Lines.

(Special to the Montreal Star.)

LONDON, April 25.—The Daily Mail publishes a statement this morning to the effect that the promoters of the shipping combination will announce in a few days that the arrangement is one for mutual commercial convenience, and has no special national significance. At the same time the Daily Mail professes to know that the vessels of British lines which have been taken over will pass under the American flag after three or four years. It talks of a new shipping bill, which will be promoted in the United States Congress, with the object of permitting vessels built abroad, but owned in America to be brought under the American flag, and quotes one of the promoters as saying that, apart from sailing vessels, private yachts and the navy, the British flag will at the end of a few years, have disappeared from the Atlantic.

MAY BUY CANADIAN ROADS.

Colonel Denison, of Toronto, fears that the trust will buy up the Canadian Pacific Railway and thereby control all lines that could possibly feed the shipping. He says the British policy should be to run a competing line, tax everything the combine vessels bring into this country, and let the things that other lines bring in come in free.

The Daily Express declares that the shipping combine is trying to coerce Canada into accepting its terms and conditions as to emigration rates and traffic and that, if resistance is made, the combine will buy up the Canadian railways and declare a commercial war. It is the intention of the combine, says the Daily Express, to demand that the Canadian Emigration Department in London should cease to give facilities to the Elder-Dempster & Co.

FEW SHARES OFFERED.

Cunard shares took an upward leap of another pound yesterday, but few were offered for sale on the Exchange. Whether Mr. Morgan's agents have been buying them, or, as is more probable, English capitalists are seeking to obtain control of the stock and form a rival combination, it is evident that the shareholders expect a sharp conflict of some kind and are holding back the stock for higher prices.

The excitement caused by Mr. Morgan's alleged raids upon British commerce is steadily rising, and is stimulated by sensational and alarmist articles in the half-penny press. Among the most abusive for him "Pirate Kidd Scuttling the British Fleet," and among the most grotesque vagaries is the theory that when he succeeds in obtaining complete mastery of the Trans-Atlantic shipping, he will work up a corner in food supplies of all kinds and starve out England.

Shipping men consider that undue excitement has been caused by the newspapers, and that the flag will remain over all British ships now in the Trans-Atlantic trade. They also contend that one combination will be met by another, for British capitalists, with the Admiralty behind them, will not allow the control of the merchant marine to pass into foreign hands. Without doubt there is a strong patriotic feeling in favour of a vigorous defence of British maritime interests against the grip of a money power.

MORE REASONABLE VIEWS.

More reasonable views were expressed in Parliament, where several incisive questions were asked respecting the shipping combination and its bearings on the subventions for reserving eight Cunarders and as many White Star vessels. The replies indicated that the Admiralty was in communication with the lines, and was taking precautions for preventing the loss of registry or transfer of flag in an emergency contemplated, when the subventions were made.

In the House of Commons yesterday afternoon Mr. Balfour, the Government leader, stated that he did not think that the time was ripe in Great Britain for a discussion of the question of trusts or the application for the appointment of a commission to investigate them. The statement referred to the talk of an enquiry in regard to the steamship combination.

ATTITUDE OF ADMIRALTY.

The Secretary of the Admiralty, Hugh O. Arnold-Forster, replying to a question, said the Admiralty was considering the whole matter of ship subsidies with a view of defining the rights of the Admiralty in the event of contingencies arising, such as the suggested shipping combine. When the present form of agreement was settled upon, no trade combinations under foreign control were contemplated, but the Admiralty had appointed a committee to consider and report on the purpose and form of future subsidy agreements. The Admiralty, in the meanwhile, had made arrangements with the White Star Line, which preclude the possibility of any of their armed cruisers or merchant steamers being transferred to a foreign flag without the consent of the Admiralty during the unexpired portion of the Admiralty agreements. Important legal points were involved, including the questions, whether, in the event of war, there was anything to prevent these companies from substituting a foreign for the British flag at short notice, and whether the Admiralty has the means of enforcing its right of pre-emption, or hire, in such case; or if, by abandoning the subvention, the companies could claim that the right of pre-emption ceased. All such points would be carefully considered, and the Admiralty's rights would be ascertained.

MEMBERS HELD MEETING.

Some forty members of the House of Commons, representing both political parties, held a meeting last night to consider the advisability of establishing a Ministry of Commerce. The meeting resolved to form a committee to promote this object. It is understood that many of the members present at the meeting announced themselves as actuated in this matter by the feeling that the developments of American enterprise, particularly as illustrated by the shipping combine, need greater attention at the hands of the Government than they now receive.

CANADIAN TEACHERS FOR SOUTH AFRICA.

MISS GRACE DUTCHER, Of Charlottetown, P.E.I.

AMERICAN BEEF TRUST.

An Injunction Ordered by the U. S. Attorney-General.

WASHINGTON, D.C., April 25.—Attorney-General Knox made the following statement yesterday regarding the so-called beef trust: "On April 4 this department directed W. A. Day, of Washington, in his capacity as special assistant to the Attorney-General to examine into, as far as practicable, the public charges to the effect that a combination of large meat dealers in the United States had been affected, contrary to the provisions of the laws of the United States. This preliminary examination resulted in instructions to Mr. Day and Mr. Bethea, at Chicago, on April 7, to prosecute simultaneously in Chicago and the east a more particular examination into the allegations and proofs alleged to exist in support thereof. From their reports I am satisfied that sufficient evidence is in his hands on which bills in equity for an injunction can be framed to restrain the combination mentione from further proceeding under their agreement, which clearly appear to be in restraint of interstate trade. I have, therefore, in compliance with the law, which provides: 'It shall be the duty of the several district attorneys of the United States in their respective districts, under the direction of the Attorney-General, to institute proceedings in equity to prevent and restrain violations of this act,' directed the district attorney at Chicago to prepare a bill for an injunction against the corporations and persons who are parties to the combination mentioned to be filed in the United States Circuit Court for the northern district of Illinois."

IT WAS JUST A MISTAKE.

Why the Former Portuguese Minister at Washington Lost His Position.

WASHINGTON, D.C., April 25.—Viscon de Alta, the newly appointed Portuguese Minister, who replaces Senor Santo-Thyrso, has arrived in Washington. Private correspondence makes it clear that the former Minister was a victim of a misunderstanding, which cost him his position. It was always an official mystery as to why he left Washington so suddenly, without word of his purpose. It was rumoured that his disappearance was connected in some manner with the death of the late President McKinley. It is now learned that the Minister was told at the White House, when the late President was nearing his end, that his death had actually occurred as a result of a mis-read telegram. The Minister hastened to inform his Government by cable. Mr. McKinley did not die until a day or two later, and the Portuguese Minister for Foreign Affairs had meanwhile unwittingly circulated a premature report, for which Santos Thyrso paid the penalty in losing his position.

Question of Imperial Defence.

HAMILTON, April 25.—Speaking at the St. George's Day dinner, Wednesday, Dr. Parkin urged that all possible influence should be brought to bear between now and the closing of Parliament to induce Sir Wilfrid Laurier to have the question of Imperial defence discussed at the conference, and held that part of Canada's contribution should be the care and maintenance of defences at Halifax and elsewhere, and more thorough training and equipment of volunteer forces.

Fire Causes Heavy Loss.

LOWVILLE, N. Y., April 25. — A fire, which started on Thursday in the village of Croghan, ten miles north of Lowville, caused losses estimated at from $250,000 to $300,000. Twenty-one buildings were destroyed, among them being the property of the St. Stephen's Catholic Society, including the church, the monastery, the convent, the school building and college attached to the monastery.

Cape to Cairo Railway.

ROME, April 25.—An important concession was signed by the King of the Belgians April 14, by which an Anglo-Belgian Company secured the right to build the Cape Town to Cairo railroad, planned by the late Cecil Rhodes, through the Belgian Congo. The line north of Rhodesia will thus be diverted from German East Africa.

Was This Man An Assassin?

MADRID, April 25.—Considerable excitement has been caused here by the arrest of a Frenchman who attempted to enter the Royal Palace. The prisoner gave his name as Saury. Nothing but a prayer book was found in his pockets. Saury was handed over to the French Embassy.

AN ACRID DEBATE IN BRITISH HOUSE

Treatment of Editor Cartwright Who Made Charges Against Kitchener

WAS THE BONE OF CONTENTION

Liberals Received Some Support From Conservative Side—A Motion to Adjourn Defeated.

(Special to the Montreal Star.)

LONDON, April 25.—There was an acrid discussion in the Commons by Mr. Morley and Sir Wm. Harcourt, on the arrest and imprisonment of Editor Cartwright in South Africa, with the only possible retort by Mr. Brodrick that they were challenging the administration of martial law. The affair was not well managed in South Africa, and the ministers were embarrassed in defending an unpleasant episode. The Government easily defeated Mr. Morley's motion to adjourn the House in order to call attention to the matter, but it is significant that the Liberals were supported by such Unionists as Mr. Gibson Bowles, Mr. Winston Churchill and Mr. T. W. Russell, while many others declined to vote.

It will be remembered that Cartwright, while editor of the South African News, charged Lord Kitchener, prior to the engagement with General De Wet with ordering his officers to shoot all prisoners.

Mr. Morley (Liberal), moved the adjournment of the House, which practically amounted to a vote of censure on the Government in general, and on Lord Kitchener and Lord Milner in particular. Mr. Morley pointed out that Mr. Cartwright, who had served a year's imprisonment for libel, now desired to come to England, and that his detention was illegal, unconstitutional, and tyranical. He added that the explanation of Lord Stanley, the financial secretary of the War Office (who served in the South African war as chief press censor, and afterwards acted as private secretary to Lord Roberts), that the Government did not think it desirable to increase the number of anti-British propagandists in this country, was the most outrageous heard in the House since Simon de Montfort invented Parliament.

THE GOVERNMENT SIDE.

The secretary of state for war, Mr. Brodrick, in the course of a reply, raised a storm by saying that although Mr. Cartwright had served his legal sentence, the question of his liberation was sub-judice. This brought forth a vehement protest from Sir Wm. Vernon-Harcourt (Liberal), who declared that such a proposition was scandalous and contrary to the elementary principles of freedom.

Winston Spencer Churchill (Conservative), also delivered a few caustic sentences, saying he hoped the House would force the Government to withdraw within the limits of the law and observe the constitution.

Mr. Balfour, the Government leader, came to the support of the War Secretary, and contended that the Government was justified in detaining even a British subject if it thought his wanderings were calculated to injure the interests of South Africa. Those voting for the adjournment would be condemning Lord Kitchener and Lord Milner, in whose keeping, at this moment, rested their hopes of peace.

James Bryce (Liberal) and Sir Robert Reid (Liberal), twitted the ministers for again interposing Lord Kitchener as a buffer between the Government and the House. They both scathingly denounced the present action of the Government as a gross abuse of power.

RESULTED IN A DIVISION.

Ian Malcom (Conservative), who is said to have been heretofore an unswerving supporter of the Government, warmly repudiated Mr. Balfour's argument that those voting for the adjournment would be showing themselves careless of British honour. After such an incident he no longer felt sure the members of the Government would say they had clean hands in this regard. War or peace would not be facilitated by such violations of the liberty of the subject.

Other supporters of the Government followed in the same strain. Ivor Churchill Guest (eldest son of Lord Wimborne, a Conservative, and a cousin of the Duke of Marlborough) urged the Government to realize that its position was untenable and to make some concession.

The House then divided and the motion for adjournment was defeated by 239 to 182 votes. Nine Unionists voted against the Government.

STEEVENS SCHOLARSHIP OF JOURNALISM OFFERED

In Honour of the War Correspondent Who Died of Fever While Locked Up at Ladysmith.

LONDON, April 25.—An anonymous offer has been made to the London Court of Common Council in connection with the city of London school, where George Warrington Steevens, the war correspondent who died of fever at Ladysmith, S. A., while that town was beleaguered during the early days of the war, was educated, providing a travelling scholarship valued at £400 annually, to be called the Steevens scholarship, and also to pay three-fourths of the cost, not to exceed £1,000 annually for the necessary classes with which to foster the spirit of investigation and educate men as journalists.

King Alfonso at Cabinet Meeting.

MADRID, April 25.—The press gives an interesting account of the first Cabinet meeting at which King Alfonso was present. The Prime Minister, Sagasta, gave a lengthy review of the regency and said he trusted His Majesty was secure in the adhesion of all parties and the love and respect of the nation. Senor Segasta spoke with suppressed emotion, earnestness and dignity. His colleagues and the King and Queen Regent were deeply moved.

WOODSTOCK CHEESE CURING STATION.

It Will be Erected as Quickly as Material Can be Procured.

(Special to the Montreal Star.)

WOODSTOCK, Ont., April 25.—J. A. Ruddick, chief of the Bureau of Dairying in the Agricultural Department is in this city, engaged with Superintendent Burgess, inspecting the site of the proposed experimental curing station. Mr. Ruddick said: "I am here for the purpose of putting the building under way at once. We propose commencing the work just as soon as we can get the material, and let the contracts. This means that the building will be in operation this summer."

Portugal Adopts Slaby-Arco System.

(Special to the Montreal Star.)

LONDON, April 25.—A despatch to the Standard from Lisbon says that Portugal had adopted the Slaby-Arco system of wireless telegraphy, and is erecting a station at the mouth of the river Tagus, and another at Lisbon.

"PAINE'S"

THE GREAT DELIVERER FROM DISEASE AND SUFFERING.

Paine's Celery Compound

Full of Life-Giving Power and Virtue Is The Prescription of A Great Physician.

It Has No Equal As A Spring Medicine.

It should be well understood by the ailing, physically broken down and diseased that the ordinary advertised nervines, sarsaparillas, tonics and pills have never accomplished the glorious life-saving work in spring-time that has marked the history of that health-giver, Paine's Celery Compound, which has cured such desperate cases of kidney disease, liver complaint, rheumatism, neuralgia, dyspepsia and blood diseases.

Paine's Celery Compound is the discovery of one of the ablest physicians that ever lived, and one of the strongest proofs of its worth and value, is the fact that able practitioners prescribe and recommend it daily.

It is this Paine's Celery Compound dear sufferer, the great nerve feeder, the marvellous system cleanser and digestive regulator, that we now strongly urge you to make use of at this season if you lack the strength of true manhood or womanhood. The young and old, the rich and poor, extol its wondrous effects. Try its curative virtues without delay if you would be free from your ailments and enjoy life. A bottle or two used just now will cause you to bless Heaven that such a life-giver was placed before suffering humanity. 97 1

The House Railway Committee.

(Special to the Montreal Star.)

OTTAWA, April 25.—The Railway Committee on Thursday took up Messrs. Mackenzie and Mann's application for the incorporation of the Canadian Northern Telegraph Company with a capital of $5,000,000.

Mayor Lighthall, of Westmount, and Mr. Fullerton, of Toronto, appeared for the Union of Canadian Municipalities and contended that the rights of municipalities should be considered. They were invited to draft their provisions and the bill stood over till Tuesday.

The Detroit and Lake Erie Railway bill was taken up and was under consideration when the committee rose.

Russian Troops in Finland's Capital.

(Special to the Montreal Star.)

HELSINGFORS, Finland, April 25.—Two battalions of troops have arrived here from Vilmanstrand and Viborg. The town is quiet, but the new conscription law has produced bitter feeling. A full complement of recruits has appeared in none of the communes save one, and none at all in many. In the one commune where the full complement appeared the recruits only lodged a protest and then departed.

An Autumn Session.

LONDON, April 25.—The Government leader, A. J. Balfour, announced in the House of Commons yesterday that an autumn session of the House will be necessary to deal with arrears of legislation.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other soap powders, as it also acts as a disinfectant.

CANADIAN PACIFIC A STOCK FEATURE

Notable Advances in London, New York and the Local Market.

POWER STRONG AND ACTIVE

The Rest of the Local List Was Dull, But There Was a Firm Undertone.

The correspondents of the Montreal Star in Wall street and on the Chicago Board of Trade report that stocks were strong, while wheat was easier. In the local market stocks were strong. Sales on the New York Stock Exchange were 1,261,655 shares.

Prices in the stock market to-day were strong, but outside of Canadian Pacific and Montreal Power the volume of trading was insignificant. Pacific took another upward spurt, and rose to within ⅛ of the highest last Monday at 124½. London opened up stronger to-day at 151¾, a rise of 2⅜ points, which stimulated Wall street, where the price rose in the forenoon to 125⅜. The highest in the local market was 129 3-8.

All the subscriptions for the new issue of $19,000,000 must be in to-morrow by noon, trading in the Rights closing to-day, the only transaction being at $6. There was some trading in the new stock at 122.

The opening dealings in Pacific in this market were at 125, an advance of 1⅜ over yesterday's closing. After rising to 129¾, the price went off to 125¾, but recovered to 129 3-8, and closed the forenoon at 128¾.

Montreal Power was a strong feature and rose to 103¾ on trading in about 1700 shares. The prospects of a termination of the electrical workers' strike has had a beneficial effect, and it is announced to-day that the trouble has been practically adjusted. The traction issues were strong, but dull.

The Dominion Steel issues continued dull, and but little changed in prices, the common ranging from 67⅛ to 68¾. The preferred was steady at 98, and the bonds were the same at 83. Dominion Coal was also firm at 129.

The head of a Toronto brokerage firm, which does a large business, states that the profits arising from the advance in C.P.R. shares alone in his office within the past two weeks totalled nearly $300,000.

Messrs. L. J. Forget & Co.'s London cable to-day quoted: Grand Trunk, first, 100⅝; second, 84¼; third, 35⅞; Canadian Pacific, 131¼, Anaconda, 25⅝.

The Montreal Clearing House returns of bank clearings for to-day are $4,181,812.

Montreal Street Railway earnings yesterday were $5,106.75, an increase of $147.08.

Ottawa bank clearings for the week ending April 24th were $1,583,487, balances $556,-624.

The Canadian General Electric Company has decided to issue $425,000 new common stock at $150 to shareholders of record of May 15th in the proportion of 1 in 4. The total stock of this company is $2,000,000, of which $300,000 is preferred and $1,700,000 common. When the additional stock referred to above has been issued there will still remain the sum of $575,000 authorized capital, which may be issued as required by the growing business of the company.

In New York at noon money on call was steady at 4 per cent. Prime mercantile paper, 4 to 5 per cent. Sterling exchange steady at $4.88 for demand, and at 4 83 3-8 to 4.83 1-2 for sixty days. Posted rates, 4.86 and 4.88 1-2. Commercial bills, 4 84 3-4 to 4.85 3-4. Bar silver, 51 3-4. Mexican dollars, 41.

The special correspondent of the Montreal Star in Wall street wires as follows: Reports are again current that a scheme is under consideration for the formation of a Vanderbilt Securities Company, which will hold the stocks of the Vanderbilt railroads, issuing its own securities therefor. The theory prevails that the Seward Webb system of roads and properties, the exploitation of which has been a notable feature of "curb" operations during the past year, will be made the occasion of a Vanderbilt Holding Company, or at least a portion of it. The element in Wall street which occasionally obtains Vanderbilt information, and has frequently been a source of large speculative operations in Vanderbilt securities, is authority for the reports.

Messrs. J. S. Bache & Co., New York, through their local manager, Mr. C. D. Monk, send the following Wall street advices:

Americans in London strong, 1-4 to 1 per cent. higher, the latter Union Pacific. Steels also strong. Amer. Ice Co. passes dividend on common, and proposes issuing $5,000,000 new collateral bonds. More rain in Kansas. Gen. Electric annual report shows net profits of $5,588,209. Bull talk is current on United States Steel on the forthcoming circular. Vanderbilt Securities Co. rumour again current. Vanderbilt and Gould interests both reported buying Reading. Revived rumours of re-arrangement of Consolidated Gas capital. Moderate demand for stocks in loan crowd. Believed western operators taken quick profits in grain. Washington opinion more bullish on trade. Look for third week of April show average net increase of 16.08 per cent. It is believed satisfactory arrangement will be reached regarding the anthracite labour situation. Fuller syndicate cable says Lewis Maryland by increasing its bid to $10,000,000.

Messrs. Burnett & Co., stock brokers, St. Sacrament street, received the following telegraphic advices to-day:

Consolidated Gas has declared the regular quarterly dividend. The principal movements of currency this week shows banks gained thereby $4,136,700.

Earnings of Chesapeake and Ohio third week of April increased $42,206. Missouri Pacific third week of April, increase $85,000. Sub-treasury statement shows banks gained $937,000 since Friday. Omaha Shows in almost every county in state last night, continuing to-day in many places. Earnings Mex. Central third week of April increased $46,000. St Paul—Drenching rain for eight hours this morning. The recent strength in N. Y. Central and other Vanderbilt stocks was, in a measure, due to the very fine showing made by the Lake Shore annual report, but revived rumours of a pending deal, involving all these stocks, also exerted an influence. The most tangible rumour bearing on the matter of a merger is to the effect that a new company may be incorporated in Canada which shall own some property in that country and lease or in some other manner acquire the several Vanderbilt railroad interests in the United States. A very broad charter, it is claimed, could be obtained in the Dominion, and matters could be so arranged that there could be no conflict with the laws of the United States, and in case of any conflict with the Dominion authorities appeal could be taken to the British House of Lords, the most conservative court in the world.

Robert Meredith and Co. received the following over their private wire from Zimmermann and Forshay, New York:

London mid-day prices for American stocks were strong and generally ¼ per cent. higher, which influenced New York's opening, which was strong and active, the only exception being New York Air Brake, opening off conspicuously about three per cent. The international list opened almost on a parity with London. United States Steel issues were very active and strong, the dealings in the first quarter of an hour being over 30,000 shares. It is reported the Morgan party is very bullish on the Steels, and higher prices are predicted for both the common and preferred. The various reports concerning the crops do not accord, but there is no doubt that some slight improvement has taken place in the affected district. The American Ice Company besides passing the dividend on the common stock will issue five million bonds. The Copper situation is very unsatisfactory at the present. The president of the Calumet and Hecla Company, who has just returned after a prolonged absence, is being interviewed with the intention of inducing him to combine the Calumet and Hecla interest with the Amalgamated Copper interests. The Rio Tinto people are also anxious to come into the combine, but no basis of settlement can be reached as yet. Copper is being produced at a very low figure, and the production is sure to increase as soon as raw copper is advanced, therefore, the situation is in the hands of the Calumet and Hecla Company. It is said that Boston bought Amalgamated Copper this morning at highest figures. At noon the prices were slightly below the highest, due to profit-taking sales. However, the general list held well, and the only changes of note occurred in the low-priced issues which have long been dormant, and in whose movements represent the fancies of the insiders. London trades were in smaller volume than recently, but were mainly purchases.

London, closing—Consols for money, 94 11-16; do for account, 94 11-16; Anaconda, 5⅞; Atchison ex-div., 82⅝; do pfd., 101¼; B. and O., 111⅜; Canadian Pacific, 132; Chesapeake and Ohio, 49⅝; Chicago, Great Western, 28¼; Chicago, Milwaukee and St. Paul, 174½; Denver and Rio Grande, 45¾; Denver and Rio Grande pfd., 95; Erie, 29⅝; do 1st pfd., 57⅜; do 2nd pfd., 57⅜; Illinois Central, 151; Louisville and Nashville, 120¾; Mo., Kas. and Texas, 36⅛; do pfd., 65¾; New York Central ex-div., 163⅛; Norfolk and Western, 60¾; do pfd., 82; Ont. and Western, 38⅝; Penna., 77; Reading, 34⅝; do 1st pfd., 44⅜; Reading 2nd pfd., 37¾; Southern Ry., 38; do pfd., 98¼; Southern Pacific, 68⅝; Union Pacific, 108¼; U. MONEY—INVESTMENTS—BUSINESS

Approximate traffic earnings of the Canadian Pacific Railway for the year to date amount to $10,000,000 in round figures, an increase of $1,700,000 compared with the same period a year ago. Yesterday's weekly increase of $182,000 was the largest in three months. For the first three weeks of January the increases were the largest of the current calendar year, the most notable being for the second week, the increase for that period being $168,000.

In connection with the present strength in Canadian Pacific a gentleman who has just returned from a trip through Manitoba and the North-West, states that the crop prospects in that section of the country were never brighter, and that the farmers are all hopeful, and are looking forward to an unusually good year. "The acreage," he continued, "will be much larger than last year, and the ground is in excellent shape to receive the seed. Crop reports should not adversely affect C.P.R. just yet, for the territory through which it runs is essentially a spring wheat country. They have plenty of moisture, and the ground is watered well. Some time ago a blizzard, accompanied by a heavy fall of snow, swept over the country. The snow melted quickly, and parts of the prairie are covered with water, so the reports of a deficiency of moisture may be left out of consideration. On the road back over the Soo line, we passed train-load after train-load of settlers rushing into the country, particularly into the Alberta region. Thousands are going in, and the country is in for the biggest crop in the history of the country."

The capital of the Canadian General Electric Company will be increased by $2,000,000 in a short time. The information is that the present shareholders will have the privilege of subscribing for one new share to every four of present holdings at $1.50. Within the past two years the Canadian General Electric has increased the number of its factories from one to three, and its number of employes from four hundred to twelve hundred. It has doubled the size of its factory at Peterborough; it has acquired the manufacturing business of the Montreal Royal Electric, and it has also taken over the Canada Foundry Company, which is at present employing at its old location three hundred employes, but when the new factory is finished at Toronto junction about August 31st, this number will be doubled. Its producing power and the earning capacity has thus been trebled, with an increase of its capital stock from $1,200,000 to $2,000,000.

Winnipeg Clearing House returns for week ending April 24, 1902, were: Clearings, $3,125,370; balance, $531,137. Corresponding week, 1901: Clearings, $1,681,989; balance $275,269. For same period, 1900: Clearings, $1,660,776; balance, $282,178.

The directors of the National City Bank of New York have recommended an increase of the bank's capital stock from $10,000,000 to $25,000,000. The new stock, in 150,000 shares, will be offered to shareholders at 150. This will provide an additional surplus of $7,500,000, and will increase the bank's surplus to $15,000,000.

Representatives of such institutions as the National Trust Company, the Canadian Bank of Commerce and the Canada Life Insurance Company have been in Cape Breton examining into the condition of the Dominion Iron and Steel industry, and are reported to have made a report to the underwriters of the prospective issue of $5,000,000 new stock of a very favourable nature. It is added that by August nothing should prevent the Steel Company from earning at the rate of $2,000,000 a year. The directors of the company are said to be so optimistic of the future of that concern that they are not particular whether the new issue is sought by the public, and would be just as pleased if they could acquire the new issue for themselves. However that may be, the present shareholders will be given the opportunity of subscribing pro rata for the new issue after the meeting of ratification called for the 1st of May.

Sao Paulo shareholders will meet in Toronto on Wednesday, April 30, at 12 o'clock, noon, to consider an increase in capital of $1,000,000, by the issue of 10,000 shares of stock of the par value of $100 each. The new issue will go at par or under.

The London correspondent of the New York Post cables that the strength of exchange in the New York market is ascribed in London to German selling of American and Canadian securities, payment having apparently been effected through the exchanges. This probably refers to Canadian Pacific so far as Canadians are concerned, as the Germans have for years been heavy traders in that stock, and have doubtless felt like taking profits on the recent buoyancy. That probably accounts in some measure for the depression in Pacific after the recent high level at 129.

On the New York Stock Exchange and in various brokers' offices there was much talk yesterday, says the Post, in regard to the heavy sales of Canadian Pacific Railway stock by Germans and Englishmen. Private advices were received from Toronto and Montreal to the effect that the foreigners are largely short of the stock, and, as evidence of this, that Canadian brokers assert that considerable amounts of the stock are being borrowed there. Brokers familiar with the situation declared, however, that there is no ground for the assumption that the Germans or Englishmen have gone short, although they have undoubtedly sold large blocks of Canadian Pacific, which they bought at much lower prices. One estimate was that the foreigners had sold 30,000 shares. Some of the foreigners are known to have sold options on their stock, good for delivery in two weeks or so. Many of these options call for delivery on May 1. They have, however, the stock with them to deliver against the calls, and there would be no difficulty in borrowing here all the stock they need temporarily, in case of delay in the arrival of the shares from the other side.

London and Paris Exchange, Limited (Parker & Co., Toronto), cable yesterday quotes South African stocks as follows:

WHEAT MARKET BREAKS

Liverpool Slumped and Chicago Was Weak — Curious Situation in Manitoba Flour—Oats Were Firm.

The Liverpool market for wheat slumped to-day, May closing 2¾d down, at 8s 1½d; July closing 1¾d down, at 8s 3d. Antwerp closed at 17¾ for No. 2 red winter. Paris closed 5 down, at 21.90 for April, and 20.30 for Sept. and Dec. London quoted No. 1 stand. Cala., arrived, 30s 6d pd.; Walla Walla, pgct., 29s 6d; 29s buyers.

English weather was splendid and French fine.

Chicago was weak this forenoon, May options being quoted at one o'clock as follows: Wheat, ⅝c down, at 74¾c; corn, ⅝c down, at 62¾c; oats, ⅛c down, at 42¾c.

Argentine shipments to the U. K. were 146,000 qrs. wheat and 71,000 maize, as against 68,000 and 47,000 respectively the previous week. Argentine shipments to the Continent were 24,000 qrs. wheat and 12,000 qrs. maize last week, as against 6,700 wheat and 1,000 maize the previous week.

LOCAL MARKET.—Demand for oats was good both for export and local account. Prices were quite firm, though practically unchanged. Buckwheat was stronger, 1½c more being paid. Manitoba No. 1 northern also firm. Manitoba No. 1 northern, store, Fort William, May, is quoted at 75c; No. 2, 72c; No. 2 oats, 45½c afloat, May, and 45¼ to 46c, store, Toronto. Ontario wheat was steady. No. 2 spring being quoted at 75 1-2c afloat, May, and No. 1 being 76 1-2c afloat, May. Peas are quoted at 85c afloat, May. Buckwheat was 67½c basis, afloat, May; No. 2 rye, at 1-2c afloat; No. 2 barley, 56c afloat, May.

FEED—Quotations in car loads on track: Manitoba bran, in bags, $19; shorts, in bags, $20; Ontario bran, in bulk, $18.50 to $19; shorts as scarce as bran at $20; in bulk; middlings, $22 to $23; moullie, $23 to $30, according to quality.

ROLLED OATS.—The market was quoted higher to-day. Quotations to-day were $4.55 to $4.60 in wood, and $2.22½ to $2.25 in bags, in car lots.

BALED HAY.—Business is being done at about $9 for No. 1 timothy, and $8 to $8.50 for No. 2; clover, $7 to $7.50, on track.

FLOUR—The wide range in quotations on Manitoba flour still exists between the two leading Manitoba milling firms, one quoting $3.80 for strong bakers', and $4.15 for patents, the other quoting $3.60 for strong bakers', and $3.90 for patents. In the past these firms quoted the same prices, so that it is difficult to understand how both can do their customary business at such widely divergent prices. A somewhat remarkable feature of the situation is that the Toronto market quotes strong bakers' at $3.55, which is 5c under the lowest quotation here, although freight rates from Port William are the same to both places. Ontario winter wheat patents are quoted at $3.65 to $3.85 a barrel, and straight rollers at $3.35 to $3.45; in bags, $1.65.

TORONTO.—Wheat—Rather easier. Red and white sold 74c, middle freights. Geese quoted 66c east. Spring, 73c bid, east for export, and 74c asked. Manitoba wheat steady. No. 1 hard, 80c. No. 1 northern, 80c, and No. 2 northern, 83c, grinding in transit.

Flour—Steady. $2.80 bid cars 90 per cent. patents, buyers' bags, and $2.85 asked. Choice brands held 15 to 20c higher. Manitoba flour steady. Cars of Hungarian patents, $3.80, and strong bakers, $3.65, bags included, on track, Toronto.

Millfeed—Steady. Shorts, $18.50 to $19.50, and bran $18.50 in bulk, middle freights. Manitoba millfeed steady. Cars of shorts, $22, and bran $19, sacks included, Toronto freights.

Barley—Dull. No. 1, 53c; No. 2, 52c; No. 3 extra, 50c, and No. 3, 49c east and middle freights, and 10c more lake ports.

Rye—Dull, 58½c, middle freights.

Corn—Steady. Canada No. 2 mixed, 57c, and No. 2 yellow, 58c east.

Oats—Firm. No. 2 white sold 41c G.T.R. high freights, and quoted 42c east, and 41½c middle freights.

Oatmeal—Steady. Cars of bags, $4.50, and barrels $4.65 on track, Toronto, and 25c more for broken lots.

Peas—Steady. No. 2, 79 to 80c west.

Manitoba Wheat.

(Special to the Montreal Star.)

WINNIPEG, April 25.—No. 1 hard, Fort William freight rates, was lower to-day in sympathy with the drop in the American markets, and was quoted at 77⅛ cents.

FIRM CHEESE MARKET

High Prices are Being Paid—Butter Market Continues Easy — The Egg Situation Undecided.

CHEESE.—It was explained this morning that the sale of finest cheese reported in yesterday's Star at 11¾c was contracted for last week, and that the other sale referred to, at 11⅝c, was of a few hundred of a similar quality, closed yesterday. Holders of finest Eastern are asking 12c over the cable, while 11¾c is their figure for French makes. Sales at 12c have not yet been reported, but actual transactions indicate an advance this week of ¼c to ⅜c. It is believed that there are no fine western makes here now for sale, and certainly the entire stock remaining unsold does not reach 10,000 boxes; some put it at around 7000. It was reported on good authority that a special line of choice Iroquois brought 11¾c in the west, but this was the highest yet heard of.

BUTTER.—This market is on the easy side and 20½c appears to be a fair quotation to-day for finest makes. For extras 21c may occasionally be made, but fine makes may be had at 20½c in a wholesale way, while 20c will buy nice goods. Receipts to-day were 1153 packages, and the make is constantly increasing.

EGGS.—Receipts were a little larger to-day, those reported on the Board of Trade being 1,515 cases. The wholesale price showed little change, 12½c being the general idea, though some were also bid 12¾c. All sorts of prices have been paid in the country, but the Toronto and Montreal buyers will likely agree upon a working basis in a few days' time. Meantime some pickling is going on, and No. 2 eggs are being sold all the way from 11 to 12c.

MAPLE PRODUCTS.—In bulk syrup sells at 5 to 5½c, and in tins it brings 55 to 65c for wine gallons, and 70 to 80c for imperials, according to quality; sugar is 8 to 8½c.

POTATOES.—The market is steady. Finest western stock is quoted at 70c on track, eastern and northern 75 to 80c. Dealers are re-selling, delivered, in 25-bag lots and upwards, at 90c to 95c.

BEANS—Twenty-bag lots of finest primes are quoted at $1.10 to $1.15 a bushel. We quote $1.25 to $1.30 for small lots.

Toronto Live Stock Market.

TORONTO, Ont., April 25. — Fifty-six loads in to-day, including 1,350 hogs, 261 sheep and lambs, and 87 calves. Export cattle, choice, $5.80 to $6.30; export cattle, light, $5.25 to $5.75; export bulls, choice, $4.50 to $5.25; export cows, $4 to $5; butchers' cattle, picked lots, $5.40 to $5.80; butchers' cattle, medium mixed, $4.50 to $5.25; butchers' cattle, common, $3.50 to $4.50; feeders, heavy, $4.80 to $5.40; feeders, light, $4.25 to $4.80; feeding bulls, $3.25 to $4; stockers, $3.50 to $4.25; stock bulls, $2.75 to $3.50; milch cows, each, $30 to $52; export ewes, $4 to $4.50; export rams, $3.50 to $4; yearling lambs, $5.50 to $6; spring lambs, $3 to $5; calves, per head, $2 to $10. Hogs, singers, $6.50. Fats and lights, $6.25, off cars.

Trade fairly good for everything.

Looks Like Dear Eggs.

CHICAGO, April 25.—The struggle for the control of the eggs of the country has become the fiercest in the whole range of farm products, says the Record-Herald. Every corner of the Western States is being searched for eggs by agents for Swift and Company, Armour and Company, and a few smaller dealers who have capital enough to enable them to compete with these leaders of the provision world. As a result of this competition, prices paid to farmers are rapidly advancing, and every indication points to unprecedented high prices for cold storage eggs next winter.

Ocean Grain Rates.

The present quotations for ocean grain space from Montreal are as follows: Liverpool, 1s 3d, May; London, 1s 6d to 1s 7½d, May; Glasgow, 1s 3d, May; Avonmouth, 2s 3d, June; Manchester, 1s 6d, June; Hamburg, 1s 9d, June; Antwerp, 1s 3d, May; Belfast, 1s 9d, May; Dublin, 1s 10½d, May; Leith, 2s 3d, June; Cardiff, 1s 9d, May; Rotterdam, 1s 10½d, May; Aberdeen, 2s 3d, May, and Hull, 1s 10½d, May.

Copper and Lead Markets.

(Special to the Montreal Star.)

NEW YORK, April 25.—Copper weaker; lake, spot to June, 11 7-8 to 12 1-8; electrolytic and casting, 11 1-2 to 12. Lead steady and unchanged.

London—Copper steady, £52 5s; lead, lower, £13 8s.

Montreal Mining Exchange

Following were the sales at this morning's session of the Mining Exchange:

North Star—2,000 at 22¾.

Dom. Cons.—2,000 at 6, 1,000 at 6⅛, 500 at 6¾.

FIGHTING IN CHINA.

Imperial Troops Have a Hard Time of it With the Rebels.

HONG KONG, April 25. — Advices received here to-day from Wu-Chou, under date of Tuesday, April 22, announce that a bloody battle was then proceeding between a force of Imperial troops on their way to Nan Ning and a large force of rebels. The Imperial army attacked the rebels' encampment in the Wu Chang Hills, brought up two maxims and two 12-pounders, and finally scattered the rebels and captured their leader, Hung-Yung-Seng, who was wounded.

Subsequently the rebels captured two villages on the outskirts of Nan Ning and established their headquarters in these villages.

THE CREMAZIE CONTROVERSY.

Dr. Louis Frechette Gives Some Information About His Case.

A controversy has been going on for some time about the poet, Octave Cremazie, and the proposal to bring his body back to Canada from France, where it is buried.

Mr. Louis Frechette, when interviewed gave some interesting information respecting Mr. O. Cremazie. When asked his opinion of Mr. Sulte in connection with Cremazie, Mr. Frechette said: "I think a great deal of him. He has had the honor of attaching his name to a grand, patriotic event, to a work of national reparation, to a rehabilitation which became necessary. Mr. Frechette expressed the opinion that Cremazie was innocent of the charges laid against him, and that he would not have been condemned if he had had a trial. "And this," said the speaker, "was the unanimous opinion of the people of Quebec at the time." When asked why Cremazie fled from justice, Mr. Frechette replied: "He (Cremazie) did not. He went to leave. Dr. Hubert Larue, who was the last person to say goodbye to him, has often repeated Cremazie's last words to him, viz: 'I have never committed any wrong. I had such full permission from the gentlemen whose names I used that I did not even imitate their signatures.'"

"This unfortunate man," said Mr. Frechette, "decided to leave this country only after being convinced that he was free. The parties whose names Cremazie was accused of having forged admitted that they knew their friend used their names habitually."

New York Cotton Market.

NEW YORK, April 25.—Cotton, futures opened firm. April, 9.47 bid; May, 9.38; June, 9.33; July, 9.33; August, 9.09; September, 8.50; October, 8.25; November —; December, 8.16.

A WOMAN'S NERVE.

Nine-tenths of her bodily Ailments Can be Traced to Nerve Disorders and Indigestion. South American Nervine Aids Digestion and Strengthens the Nerves.

Miss Annie Patterson, of Sackville, N. B., writes: "Indigestion and weak nerves were the bugbears of my life for years. I tried doctors and proprietary medicines till I completely lost heart. Being induced by a friend to try South American Nervine, after taking one bottle I was greatly relieved. Three bottles effected a complete cure. I can recommend it as a valuable remedy and believe it to be the best nerve and stomach tonic in the world."

MANY BILLS ARE HUSTLED THROUGH

Senate Railway Committee Disposed of Much Business This Morning.

THE MONTREAL BRIDGE BILL

After a Change in the Title Had Been Made it Was Reported—Telephone Bill Through.

(Special to the Montreal Star.)

OTTAWA, April 25.—The Railway Committee of the Senate this morning received the report of their sub-committee on the Bell Telephone Company of Canada and reported the bill as amended in the sub-committee almost without discussion.

The bill to incorporate the Knapp Tubular Steamship Company was explained by Mr. Knapp as not being the roller boat, but an adaptation thereof intended to promote the grain transportation of Canada.

Hon. Mr. Kirchoffer remarked that after this very lucid explanation everybody must be satisfied. The bill was reported without amendment.

Hon. Dr. Landerkin withdrew the St. Joseph and Lake Huron Ship Canal bill.

The St. Lawrence and Adirondack Railway bill, to allow that company to buy the stock and bonds of the Canada Atlantic Railway, was reported. The company was represented by Mr. Foster, K. C., of Montreal.

A WESTERN RAILWAY BILL.

An application was made to postpone the Manitoba and North-Western Railway of Canada, which was urged by Hon. R. Watson, on the ground of the length of time which had passed from the granting of the charter and the fact that settlers have been driven out. He did not want to be unreasonable, and if the bill were laid over for a week, some arrangement might be made. The application for postponement was negatived by 13 yeas to 17 nays.

On clause 1, Hon. R. Watson renewed his application for postponement. Failing in this he moved to amend the clause by reducing the time for the commencement of construction to one year, and completion in three years and providing that 35 miles be built this year.

Sir Mackenzie Bowell moved to reduce the time for commencement to one year and adopt the clause as so amended. The debate lasted nearly two hours, then Hon. Mr. Kirchoffer raised a storm by saying that the committee had an exhibition of what obstructive tactics would do. If this were going to be followed in the House they might as well throw up the bill.

Hon. Mr. Gibson rose and insisted on a withdrawal of the accusation of obstruction and after some minutes' discussion it was withdrawn.

Sir Mackenzie Bowell's amendment to the amendment was then lost by 14 yeas to 15 nays.

The amendment was lost by 10 yeas to 18 nays, and the bill amended.

The Klondike Mines Railway bill was taken up. Mr. Walter Barwick explained the bill as extending the powers of construction of the company. He asked for a special clause. The bonds for the whole line had been sold in New York. They had been authorized by the company and they desired to be able to certify that these bonds were really valid bonds, and he asked the committee to validate these bonds in this special clause. This bill was reported.

The Pacific Northern and Omoneca Railway was slightly amended and reported.

The James Bay Railway bill was reported.

MONTREAL BRIDGE BILL.

When the Montreal Bridge bill came up, Hon. Mr. Kerr moved to alter the title to the Montreal Bridge and Terminal Company, and this being acceded to the bill was reported.

The Vancouver, Victoria and Eastern Railway and Navigation bill; the Medicine Hat and Northern, Alberta Railway bill; the Central Counties Railway bill and the Medicine Hat Railway and Coal Company's bill were all reported and the committee rose.

THE ONTARIO CAMPAIGN

Hon. G. W. Ross Addresses Ottawa Liberals—The Dominion Alliance and the Candidates.

(Special to the Montreal Star.)

OTTAWA, April 25.—Hon. G. W. Ross, Premier of Ontario, arrived in the city last evening and held a conference with the local party leaders with a view to straightening out the difficulties caused by numerous aspirants to the honour of being nominated for candidates. He afterwards held a consultation with the members of the Federal Government.

In the evening Mr. Ross addressed a meeting of Liberals. Hon. Mr. Latchford and a number of the supporters of the Liberal administration in the Dominion House were on the platform.

Hon. Mr. Ross, in a speech of short duration, did not make any important announcements. He said that the Conservatives had nothing to offer to the people but promises. It was understood that the premier came to the city to quiet dissension in the Liberal camp, and to tell the faithful whether they should choose Mr. Lumsden or Mr. L. Crannell for their Protestant candidate, and Mr. Scott or Mr. Bingham as the Irish Catholic candidate. He did tell them out and out that he wanted Mr. Lumsden and that he hoped to see that gentleman one of those who would sit in the next House at Toronto. He bestowed great praise on Mr. Lumsden and said he should not be afraid to come back in their company. They were all, with few exceptions, prohibitionists, and if the referendum carried they would all be obliged to be prohibitionists. As for the Irish Catholic choice, the Premier did not openly make a selection, but he said that in picking candidates all over the province the choice was unanimous. There has been a rumour that the Premier has a leaning toward Mr. Bingham in this connection, and in a figurative way he gave the meeting further to understand that this was his selection.

Speeches were also made by Hon. Mr. Latchford, Davis, M. P., Wright, M. P., McCool, M. P., and others.

TORONTO, April 25.—Three candidates are now in the field for the Ontario Legislature in North Toronto. Dr. E. Herbert Adams, president of the Ross Liberal Club, has consented to enter the contest against Dr. Beattie Nesbitt, and G. F. Marter.

Ald. Spence, secretary of the Dominion Alliance, states that he does not think the Alliance will take any official action in support of candidates at the provincial election. The Alliance has been instrumental in drawing together great bodies of prohibitionists throughout the province, and over fifty ridings had been thoroughly organized. They intended to leave the question of voting in the hands of the prohibitionists themselves, as they were the best judges of the merits of the respective candidates so far as prohibition was concerned. Ald. Spence said that over twenty candidates, who, he thought, could be regarded as out-and-out prohibitionists, were now in the field and they would likely receive the support of the great majority of active prohibitionists.

STRATFORD, Ont., April 25.—The political ball in North Perth was opened here last evening, when a meeting in the Conservative interests was held in the opera house. Mayor Stamp occupied the chair. The speechifying was preceded by a short musical programme. John C. Monteith, the Conservative candidate for the Legislature, was the first speaker, and was followed by Mr. Whitney, the Conservative leader, who delivered the speech of the evening.

Retains Its Flavor

It is known to commerce that Indian Tea retains its strength and flavor while China, Japan and Ceylon "go off." Ram Lal's is a pure Indian Blend, and being put up in air tight packages, retains all its freshness. This accounts for its great strength and delicious flavor.

It goes one-third further than other teas, selling at the same price.

Another Case of Smallpox.

A case of smallpox, that has caused the civic authorities some concern, was discovered yesterday. A woman servant, who had been living in Westmount, was taken ill and sent to the Royal Victoria Hospital. Yesterday it was thought the disease was smallpox. Dr. Coyle, of the civic health department, examined the patient and declared the disease to be smallpox. She was at once removed in the civic hospital ambulance to the smallpox hospital at Westmount.

The Winnipeg Shops.

Plans for the extension of the Canadian Pacific shops at Winnipeg are being discussed by the executive, as they are overcrowded with work. More men would be taken on, but the staff is larger than it ever has been before, and there is no more room for additional help. If the plans, as proposed by General Superintendent Oborne, when he was in charge there, are carried out, the expenditure will run into $50,000.

The Late Mrs. Macphail.

The funeral of the late Mrs. Andrew Macphail took place this afternoon from the family residence, 216 Peel street. The service was conducted by Rev. J. Edgar Hill, and, being private, was only attended by relatives and intimate friends. The chief mourners were her husband, Dr. Andrew McPhail, her little son, Jeffery; her father, Mr. G. R. Burland, and her brother, Lieut.-Col. Jeffrey H. Burland.

BIG FRUIT SALES OPENED HERE TO-DAY

The Fremona's Big Cargo of Lemons and Oranges.

MANY BUYERS IN THE CITY

They Come From All Parts of Canada and the United States.

At half past one o'clock to-day began the auction sale of the Mediterranean fruit cargo, ex-steamship Fremona of the Thomson Line.

The cargo, which consists of 62,000 boxes of lemons and 800 boxes and 550 half boxes of oranges is one of the most important ever brought to Montreal, and the sale has been looked forward to by fruit men from all over the Eastern portion of the United States as well as from Canada. There are at the present time no less than thirty buyers in the city representing various clients, while the New York fruit importing houses have some eight or ten men on the ground looking after their interests.

Add to this number some fifteen railway men, representing as many railways and some idea of the importance of the event from a trade standpoint can be gained.

For the past few days the buyers have been gathering in Montreal, coming in town in ample time to look the cargo over thoroughly before the day of sale. The Lord Line wharf, which the Robert Reford Company reserved for the cargo has therefore been a busy scene, irrespective of the necessary handling of the cargo. The shed, which is 50 feet wide by 300 feet long has had the appearance of a country fair of immense dimensions. Here each of the 380 different lots of oranges and lemons are piled separately, and anywhere from one to a dozen boxes of each lot opened for inspection. Men representing the various importers are sent on here from New York in order that the display may be made to the best possible advantage.

The prospective buyers then make the rounds of the various lots, going over the samples carefully, and then, if they feel so disposed, open boxes for themselves. The buyer then makes a memorandum of the lots which strike his fancy in the illustrated catalogue, which is prepared for the occasion and when the hour arrives he repairs to the rooms of the Montreal Fruit Auction Company on Mountain street, there to face the auctioneer, Mr. Walter Kearns, and make his bids.

The Italian fruit grower is evidently alive to the demands of the English-speaking trade, for his brands are almost invariably English, in spite of the fact that the package comes direct from Sunny Italy. In a prominent place is to be seen the brand "Warlike Boy;" in another, "Open For Engagements," another "Baby Wants;" again, "Tambourine Girl." Again, there are brands which evidently refer to the New York trade, such as "Fifth Avenue," and "Central Park." For the most part these brands are accompanied by gaudy pictures, more or less badly executed, while the fruit itself is packed sometimes in gilt, sometimes in silver, and again in ordinary paper.

As large as the Lord Line shed is, there is not room within it for over half the fruit ex the steamship Fremona, and the consequence is that the oranges and lemons are piled on the wharf under tarpaulins. The shed itself is excellently suited for the business of showing goods, being large, airy, and, more important still, very light. The facilities for handling are very good indeed, and it is expected that the fruit will be taken away at the rate of 20,000 to 25,000 packages a day. The cargo is in beautiful condition, there not being a bit of fruit with even a suspicion of unsoundness, and this fact, combined with the good state of the market, will, no doubt, contribute to excellent prices.

The buyers in the city, with their headquarters, are as follows:

Messrs. Wm. Dixon, Hamilton; M. P. Clemes, Toronto; Frank Everist, Toronto; J. Dawson, Toronto; White & Co., Toronto; H. Bowker, Hamilton; J. P. Wood, Sarnia; E. Andrews, New York; R. A. Tucker, New York; J. W. Lumsden, New York; P. Van Valen, Chicago; A. McPherson, Winnipeg; G. C. Sherman, Minneapolis; A. Mountjoy, London; H. Walker, Guelph; A. Ryerson, Brantford; H. Brouse, Ottawa; Dawson, Toronto; F. R. Franke, New York; E. Zucca, New York; Charles Parsons, New York; S. Sartta, New York; G. W. Hunt, Ottawa; G. Di Cola, Boston; Isaac Tuck, proprietor Tuck's Produce and Distributor (fruit journal; J. B. Oke, Port Hope; George McWilliam, Toronto; C. Husband, Toronto, and Emery, Boston.

Among the New York importers present at the sale were: T. Brucato and P. Brucato, of Brucato Bros.; G. Villari, Villari, Mitchell & Co.; Frank Feltmann, Hirgel, Feltmann & Co.; C. Cavallaro, Cavallaro Bros.; F. Gatto, E. Southwell, of W. H. Westervelt & Co., and Felix Minaldi, A. Minaldi & Co.

Among the railway men who have gathered to take care of the trade are:

Messrs. E. R. Hines, Chicago, Rock Island and Pacific; E. A. Mumford, G. T. R. and Central Vermont; H. B. Mussen, Canada Atlantic; Geo. H. Colby, Illinois Central; Robt. C. Manson, G. T. R.; T. B. Montgomery, Wisconsin Central; E. M. Newbagin, Chicago Great Western; S. W. Manning Atchison, Topeka and Santa Fe; B. H. Bennett, Chicago and Northwestern; S. Geo. Tate, Michigan Central; Wm. Garty, Burlington Route; J. E. Hawkens, D. & H.; H. P. Swinton, C. P. R.; A. P. Massey, Boston and Maine; H. E. Tudor, Great Northern.

DENIED THAT MILK TRUST WILL AFFECT MONTREAL

Story That Threatened Operations of Toronto Combination Will Put Price of Milk Up Here.

Families in the northern portion of the city were much interested to-day in a story that the same milk trust which has operated in Toronto was about to swallow up the business in Montreal, and put the price of milk considerably higher than it is at present. Several dealers were seen to-day, including Mr. Charles Burnett, and they said that as far as they knew there is no truth in the story. Mr. Burnett said that the matter was talked of some time ago, but at present he has heard nothing that would suggest any change from the present condition of things.

STRIKE IS NOW PRACTICALLY OVER

Companies, However, Have Yet to Make a Definite Statement.

MAYOR ON THE SITUATION

Difficulty Regarding the Two Men Has Been Conceded by the Strikers.

The strike situation reviewed to-day by Mayor Cochrane is briefly this: All that remains to put the finishing touch to the work of pacification is the lack of a definite statement from the companies. The difficulty regarding the two men has been conceded by the strikers and everything is working smoothly towards a settlement. The men are willing to return to work. This corroborates the view set forth in the Star yesterday that the strike is practically over.

Mr. P. G. Gossler, general superintendent of the Montreal Light, Heat and Power Company, when seen by the Star said: "The company will take the men back, with several exceptions, as employes, but will not treat with them as members of the union. We have not had any communication with Mayor Cochrane to-day on the subject. All we have to say is that we will take back the men at the same rate of wages as when they went on strike."

MEETING OF THE STRIKERS.

A public meeting of the strikers was held last night at 1242a Notre Dame street. Messrs. Greene and Hurd delivered hopeful and stirring addresses and thanked Mayor Cochrane for the disinterested and painstaking manner in which he had attempted arbitration. The Mayor sent a letter of regret. It had been announced that Ald. Ouimet, who has always posed as a friend of the workingman and Ald. Lamarche as well as Dr. G. A. Lacombe, M.L.A., would be present, but these gentlemen failed to put in an appearance. Several other speakers encouraged the strikers to continue the struggle, predicting a settlement.

LITTLE GIRL DISAPPEARS.

Her Grandmother, Who is Mentally Irresponsible, Took Her Away.

The police authorities have been notified of a peculiar case of the disappearance of a woman and child. Dora Kellnor, the three year old child of Adolphe Kellnor, of 156 City Hall avenue, was sitting on the

doorstep Thursday, about 10 o'clock, with her grandmother, a woman about 65 years old, named Madame Albert. The old woman is mentally deranged, and taking advantage of the opportunity, when no person was looking, went away with the child, and has not been seen since. The old woman wore a blue wrapper and no hat. The infant has red hair. She speaks only a few words of English.

CANADIAN NORTHERN.

Opposing Invasion of British Columbia by Another Company.

Mr. J. N. Greenshields, K.C., has gone to British Columbia, in connection with the subsidy promised by the Government of that province for the extension of the Canadian Northern from Yellow Head Pass, Manitoba, to Bute Inlet on the Pacific. It is also stated Messrs. Mackenzie and Mann are opposing the attempted invasion of the province by a firm of New York capitalists who have agreed to build the Kootenay coast railway for $4,000 a mile provided a subsidy of $6,000 a mile is granted by the Government.

TO DETECT POISONS.

The Body Tries to Sweat Them Out.

At a convention of medical men in St. Louis the effects of coffee drinking were carefully considered. It was unanimously agreed that while coffee does not seem to injure some persons, to others it is a rank poison. The effect on different persons is, of course, very different. In some the heart is affected, in others the kidneys, again the stomach or bowels, or the eyes, and in nervous cases the prostration is spread over the whole body.

As an illustration, a man in Hinton, W. Va., experienced well defined symptoms of poisoning from coffee. He says: "I used coffee a great many years with no apparent ill effects, but about nine years ago I began being sick. I became dull, lost my ambition, had dizziness, my eyesight was very bad, and kept getting worse, and at times I could hardly navigate at all, I felt I was going to fall every minute, and finally became so bad I would have to sit down and rest three or four times in a distance of twice that many blocks.

"I went from one physician to another, and faithfully took their prescriptions, but the case was so complex that they could not successfully diagnose it. I finally went to N. Y. City to the Vanderbilt Clinic for treatment. There my case was diagnosed as neurasthenia. Every morning about nine I would have a kind of spasm. The perspiration would break out all over the palms of my hands, and my hair would be wringing wet, every nerve in the body would be affected, and my heart would jump and beat at a fearful rate. This condition would generally last for about two hours. What I suffered no one can understand.

"It finally came to me that these terrible sweats and spasms were just the same as in cases where people are poisoned and Nature tries to throw off the poison through the pores. So I concluded that something I was taking must act like a poison and I decided it was coffee. I left it off one morning and had a fearful headache all day, a sure sign that I was being held up by a drug, so that evening I bought some Postum, and the next morning had it for breakfast in place of coffee. I was surprised, for I could hardly tell it from coffee. That day I was only a little sick about the usual time, and from the next day until now, something over 13 months, I have never felt even the remotest return of the spasms.

"I steadily got strong, my weight has increased from 130 pounds to 147 pounds, and I am a well man. The seven years of suffering from coffee poison will always remain with me as a horrible nightmare." Name given by Postum Co., Battle Creek, Mich. 97 1

GAVE PRACTICAL EXPERIMENTS AS TO TRANSFORMERS

Electrical Engineer's Expert Evidence in the Bernier and West Fire Case.

Evidence for the defence was given today in the jury trial of the suit for $182,000, taken by Bernier and West against the Lachine Hydraulic and Land Company, which amount the plaintiff's claim was lost through fire caused by defectiveness of the wiring of the defendants.

Mr. Fred Thompson, electrical engineer, was the most important witness examined. He gave to the judge and jury practical experiments of the working of transformers. These showed that no actual current originally generated enters a building; it is the induced current from the primary coils and this fact Mr. Thompson explained upsets the evidence of the man who swore that he saw fire running along the wires and into the Bernier and West building. He also declared that it was impossible for the lineman to have felt electricity, as he stated, when he was climbing the pole.

WILL FINISH TAKING EVIDENCE IN THE LUSSIER CASE

Judge Choquet Leaves for Sorel To-morrow to Get Further Testimony.

Judge Choquet, Crown Prosecutor Lemieux and other officials will leave on the morning train for Sorel, and it is intended by His Honour to finish up the taking of evidence in the Lussier case with the exception of that of Mr. Lussier, the victim. There are eleven witnesses in all to be examined, and when they are disposed of an adjournment will be made for two weeks, by which time it is expected that Mr. Lussier will have sufficiently recovered to be taken to Sorel from Varennes. The accused would be taken to Varennes and into the presence of his father, so that the latter's testimony could be taken at once, but the feeling both for and against the young prisoner is so high that it is thought best to keep him away from the scene of the crime.

Suit Over Dictionary Dispute.

Mr. Justice Curran rendered another judgment Wednesday in the dictionary dispute between C. O. Beauchemin and Cie., and Cadieux and Derome, now in the insolvency courts. The Beauchemin firm some years ago published a dictionary entitled "Nouveau Dictionnaire," illustre, Historique, Geographique, Bibliographique et Mythologique, Nouvelle Edition, par P. Theberge. This was duly registered and the firm had exclusive rights for fourteen years, with the privilege of registering for a further term of fourteen years. Later, in 1894, Cadieux and Derome published a dictionary, with a supplement which proved to be a counterfeit of the Beauchemin and Cie., dictionary. Suit was taken for damages and for an injunction to restrain the defendants from selling any more of the books. The suit was carried from court to court, and resulted in a victory for the plaintiffs. In February, 1902, Beauchemin and Cie. took another action to recover the amount of damages caused them by the sale of the Cadieux and Derome dictionary up to the date of the Supreme Court judgment in May, 1901, and the cost of $400 for expert witnesses. The Court ordered the defendants to account for the sales they had made. This was done, but the defendants objected to paying the costs of expert evidence. The Court found that they had made $3,788.41 and allowed damages to that extent, rejecting the plea of prescription filed by defendants, and gave plaintiffs the costs of both courts.

A CANADIAN "AT BAY."

Charles Evans' Heroic Deed Commemorated in Plaster.

(Special to the Montreal Star.)

OTTAWA, April 25.—A model in plaster, which has been on exhibition this week in the Liberal Whip's room of the Parliament Buildings, has attracted considerable attention. It is entitled "At Bay," and bears underneath the words "Charles Napier Evans, Hero of Hart's River." The study has been worked out by Mr. John Sharpe, of Ottawa. It commemorates one of the most gallant deeds of the later South African campaign, with which is associated the name of a Canadian whose name should live in his nation's history. The conception is a worthy one and the treatment of merit. It is to be reproduced for sale throughout all the provinces of Canada.

An Interesting Case Closed.

(Special to the Montreal Star.)

OTTAWA, April 25.—The case of De Zouche vs. Fraser is now finally settled. It will be remembered that Mr. Alex. Fraser had to pay $90,000 and costs to the De Zouche estate, and then the question arose as to the division of this money. The family discussed the matter, and as a result documents have been signed by which the $90,000 is divided among the five children in equal shares, Mrs. De Zouche, their mother, withdrawing her claim to any portion of the amount. This ends a most interesting case which has been fought for some years in the courts. The defendant, Mr. Alex. Fraser, acted on the advice of an eminent lawyer, some years ago, and the litigation just closed resulted.

Major-General Books His Passage.

(Special to the Montreal Star.)

OTTAWA, April 25. — Major-General O'Grady-Haly has booked passages for England for himself and wife by the Ionian, leaving on May 31. By that date the four Canadian regiments for South Africa will be well on their way there. The Minister of Militia and Mrs. Borden will probably leave for England about the same date.

President-elect Estra Palma of Cuba, who has been visiting the United States, was enthusiastically received on Thursday when he arrived in Havana.

TALCOTT CHAMBERS DEAD.

Son of a Missionary Perishes in a Swiss Pass.

(Special to the Montreal Star.)

WOODSTOCK, Ont., April 25.—Last Saturday's papers published this cable:

"CHAMPERY, Switzerland, April 18.—M. Inner, of Lausane, with a young unknown American, left Evionnax, a short time ago, for this place, travelling by way of Balvan. Their bodies have been found in the Incel pass."

The American youth referred to was Talcott William Chambers, aged 16, the only son of Rev. William Nesbitt Chambers, a missionary stationed at Adana, Anatolia, Asia Minor. Both victims were pupils at the Normal school, of Pesux Canton, of Neuchatel. Rev. Mr. Chambers has, for 24 years been a missionary of the American Board in Turkey, at Erogroon and Adana. His son was spending a year in Switzerland at study, prior to coming to America to complete his education. He is nephew of J. N. Chambers, of East Oxford.

Met a Terrible Death.

(Special to the Montreal Star.)

ARTHABASKAVILLE, April 25.—Tuesday evening young Arthur Rousseau, aged 17, employed at the Boulin mills, Sommerset, met his death under most frightful circumstances. The young man had charge of the rolling up of the logs into the mill. Towards evening, Tuesday, he went down below to put resin on the belts. When applying the resin, Rousseau was caught by the shaft and whirled around several times. Both legs were broken and one arm pulled off. He survived five hours after the accident, having his senses almost till the last moment. Coroner Trigganne held an inquest Wednesday and rendered a verdict of "accidental death."

Mussolino Deserted by Lawyers.

(Special to the Montreal Star.)

MILAN, April 25.—The trial of the bandit Mussolino has been adjourned, owing to the withdrawal of his lawyers, which was caused by the press attacks upon them for their willingness to defend the murderer, while only one defends the parents of one of his victims.

ARCHBISHOP CORRIGAN HAS PNEUMONIA

He Passed a Comfortable Night and His Physicians Says There are No Unusual Symptoms.

NEW YORK, April 25.—The following bulletin, signed by Drs. Edward L. Keyes and Francis Delafield, was issued at 9.30 o'clock this morning:

"Archbishop Corrigan has an attack of pneumonia. He passed a comfortable night and is resting easily. There are no unusual symptoms."

The Archbishop's secretary announced that two bulletins a day will be given out concerning the Archbishop's illness—one at 9.30 a.m. and another at 9.30 p.m.

This afternoon Drs. Delafield and Keyes will have a consultation with Dr. Theodore C. Janeway.

FRATERNAL SOCIETIES.

Benefits Have Been Paid Out Amounting to Over $16,000,000.

TORONTO, April 25.—The Canadian Fraternal Association met in annual session in the Confederation Life Building, yesterday, with about sixty delegates in attendance. Mr. W. F. Montague, secretary-treasurer, reported that the income of the Association for the year was $1,154, and the expenditure was $333. The statement of assets and liabilities showed a surplus of $812. In the eleven societies from which returns for last year had been obtained the total membership was 786,745, a gain of 81,227, and 131,545 new members were enrolled, but there were 44,221 lapses, and 6,044 deaths. The total insurance carried by the eleven societies on December 31, 1901, amounted to $1,299,607,450, showing a gain of $85,774,600 over the previous year. So far these societies have paid in benefits $16,139,330.

THE OLD WAY

Years ago the task of polishing a stove was the dread of every housewife. She either used the dry polish with its dust and dirt or the liquid polish, made of benzine, with its dirty smelly rag, its hand stains and its danger of explosion.

THE "SULTANA" WAY

Clean the stove, take a dry cloth and rub on some paste. It brings out a beautiful silver lustre like a flash. Sultana polish wont stain the hands. In 5 and 10 cts. packages. Our dainty little illustrated booklet "One Way and Another" sent free on request.

THE DUTCH AND PEACE PROPOSALS

They Think That Britain Does Not Appreciate the Situation.

THE AMNESTY DIFFICULTIES

The Canadian Hospital Corps is Highly Thought of in South Africa.

LONDON, April 25. — The Pall Mall Gazette publishes the following statement from a well-informed and trustworthy correspondent at The Hague, who claims that he represents the views of the Dutch Government in the matter of the peace negotiations between the British Government and the Boers.

"The Netherland Government claims to be in full possession of the views of the Boer delegates, inasmuch as the peace conferences were the direct outcome of the visit to England of Dr. Kuyper, the Dutch Premier. In regard to Mr. Kruger, the Netherlands Government holds that no attention should be paid to his opinions.

KRUGER THROWN ASIDE.

"If peace is made it should be made on terms settled by the Boer leaders in South Africa. The terms may possibly be communicated to Mr. Kruger as a matter of courtesy, but for all purposes of good or evil his fighting countrymen have thrown him aside.

The difficulty in regard to the amnesty of the rebels is not appreciated from the proper standpoint in England. So far as the Boers personally, that is, the Boers from the Transvaal and Orange River Colony, are concerned, they are perfectly willing to sacrifice their brothers, and they realize that as they themselves have to sacrifice something, the rebels in the Cape Colony ought to be in the same plight. The difficulty, however, is this, the rebels having nothing, or at any rate very little, to gain by coming in, will no doubt endeavour to continue the guerilla warfare. The Boers' leaders' fears is, therefore, that if after they have arranged terms these desperadoes should descend on English territory, the damage they will do may be visited by the English Government on the Boers themselves.

That is, that the British Government, in short, may either seize the opportunity of abrogating some of the concessions they may have found it advisable to make to the late republics, or at least insist that the latter shall pay for any damage the rebels may have inflicted, either to life or property.

REBELS ARE NUMEROUS.

Moreover, the number of rebels is much greater than has commonly been supposed. The banishment proclamation of September 15, the Netherlands Government considers, should be wtihdrawn. It may be advisable to banish a few persons, but to all intents and purposes the British representatives themselves fully realize that the terms of the proclamation must be abrogated. It is quite possible, however, that no such arrangement may be asserted in whatever treaty or agreement is drawn up, as the Boers would probably accept a private intimation from one of the English representatives that at a suitable opportunity, say, the coronation, His Majesty would, as an act of grace, withdraw the proclamation, the provisions of which would not in the meantime be acted upon.

THE GREATEST DIFFICULTY.

The great difficulty in the way of peace lies in the form of words that the republics must forfeit their independence, and unless this difficulty can be get over by the use of a different phrase or phrases, the Netherlands Government are not very hopeful of the termination of the war at present.

While some of the Boer leaders are highly educated and intelligent, and realize that their independence must be forfeited, many of their followers are rough and ignorant, and these latter have had the word 'independence so dinned into their ears since the Majuba fiasco, when many of them were children, that they would never consent to forfeit it. There should, however, be no great difficulty in arranging this matter if the British would agree to leave out the objectionable words altogether and attain what would practically be the same end, by, for example, entering into a treaty for the incorporation of the two republics with the British Empire, or some similar phrase which would give the lower class Boers an idea that they were not being 'swallowed up.'"

LETTER FROM WORTHINGTON.

(Special to the Montreal Star.)

OTTAWA, April 25.—A letter dated Volksarust Transvaal, March 17th, from Lt.-Col. Worthington, commanding the 10th Field Hospital Corps in the Transvaal, was received at the Militia Department yesterday. Col. Worthington says that at Newcastle, where they were stationed, Surgeon-General Clery, P. M. O., of the Natal Army and Col. Ford, P. M. O., of the Transvaal district, showed them much kindness. They were inspected by General Clery, who was very much taken up with the equipment generally and specially with the waggons. So much was he struck with the latter that he had measurements taken and several made of the Canadian pattern at Johannesburg. The English Medical Officers were so pleased with the efficiency of the Canadian Hospital Corps that they urged Lord Kitchener to send them to the front, and he acceding they were at Kleinshardt fight.

MAJOR MERRITT'S ACCIDENT.

OTTAWA, April 25.—A letter from Lieut. Bruce Carruthers from Kitchener's Kop, on March 9th, states that the injury which Major Merritt sustained was very slight. The major collided with a mule team and fractured some of the small bones of his foot. Lieut. Carruthers thought he would be all right a few days after writing.

ALFRED PLAYER KILLED.

SHERBROOKE, April 25. — Word was received in the city yesterday that Alfred Player, who went out with the Canadian contingent of the South African Constabulary, was killed while on outpost duty on March 25 last. Before he enlisted he was in the employ of the Canadian Rand Drill Company.

OTTAWA'S CONTRIBUTION.

(Special to the Montreal Star.)

OTTAWA, April 25.—A fresh batch of 63 men left the Central Station for Halifax yesterday and were given a good send off by a large number of friends. So far 185 have been recruited in Ottawa.

A RUSH TO ENLIST.

WINNIPEG, Man., April 25.—Recruiting stations through the West began work yesterday. There are many more applicants at Winnipeg than can be accepted. The same is the case at Portage la Prairie. All of the men are of a good class and of sturdy build.

VANCOUVER, B.C., April 25.—Recruiting for the fourth contingent commenced here yesterday afternoon. Over fifty volunteers presented themselves, but only about a dozen were examined before the office closed for the day.

SHERBROOKE'S CONTRIBUTION.

SHERBROOKE, April 25.—So far seventeen men have been sworn in as members of the fourth contingent by Lieut.-Col. Roy. They have all left for Quebec, where they will join the Quebec men before proceeding to Halifax.

Argentina and Chili.

BUENOS AYRES, April 25.—The Argentine Government has received information the Chilian military engineers are continuing the construction of strategic roads in the territory in litigation between Argentina and Chili, in the Argentine province of Chubut. The newspapers here are protesting energetically against the doings of the Chilian engineers, which they declare to be a violation of the protocol. The Tribuna is especially vehement in this respect.

Big Steamers Collide

LONDON, April 25.—The Wilson Line steamship Murillo has put into Malaga with 118 passengers and 29 of the crew of the Austrian steamship Buda. A despatch to Lloyds from Malaga says the Buda collided with the Dutch ship Ariadno, off Cape Gatto. The Buda sank in a few minutes. The Ariadno was badly damaged.

THE INTERCOLONIAL ACCOUNTS.

If the Government is wise it will withdraw its objections to an investigation of the Intercolonial accounts.

An investigation cannot make the affair look much worse than it does now, and who knows but that it might put a better complexion upon affairs?

Mr. Haggart roundly declares that the total loss on the Intercolonial under Mr. Blair's administration has been twenty-one millions four hundred thousand dollars, and in connection with this loss makes numerous charges of mal-administration, of expenditure for political purposes, and of systematic account-cooking.

It is no answer to charges of this kind for the honourable Minister to say that he never heard of anything so ridiculous as for anybody to want to investigate his accounts.

What lends significance to these charges is the refusal to allow an important witness to be examined before the Public Accounts Committee and the refusal to allow a special investigation.

It is a tactical blunder not to court the fullest enquiry.

THE LIBERTY OF THE SUBJECT.

The defection of some of the Imperial Government's supporters on the vote of censure moved by Mr. Morley is not a bad lesson for governments and not a bad example for Government supporters. The vote does not imply any admiration for Mr. Cartwright nor even any palliation of his offence. The man is a disloyal maligner of loyal and honourable British officers and deserves no particle of sympathy. But in taking the extreme step of preventing him from going to England after serving his term of twelve months' imprisonment, the Government was violating a principle held very dear in the British Empire, the principle of individual liberty. The exigencies of war sometimes necessitate interference with the liberty of the subject, but England is not the scene of the war, and most people will fail to recognize any military necessity for refusing Cartwright his liberty in the Old Country. The Government's action was not only a political crime, it was a blunder. Had it allowed Cartwright to visit England with all the odium upon his head that he had so justly incurred by his slanders upon Lord Kitchener, he would speedily have wished himself back in South Africa or even in gaol. They might have safely trusted the people of England to deal with Mr. Cartwright's case.

MODERN ASPECT OF PHYSICAL TRAINING.

Topic Discussed by Dr. R. Tait McKenzie at Annual Supper in Y.M.C.A. Gymnasium.

Dr. R. Tait McKenzie was the principal speaker at the first annual supper of the physical department of the Y. M. C. A. in the gymnasium last evening. He discoursed on the modern aspect of physical training, and congratulated the association on the work accomplished. The old system was fitted for the professional acrobat or prize fighter, but to-day the apparatus was designed to give self reliance and skill.

Training in physical judgment, grace in movement and action, and physical courage were the three great points to be cultivated in physical training.

Mr. C. T. Williams, president of the association, was in the chair, and the whole floor of the gymnasium was covered with members. After the toast of the King, that of the department and Mr. J. C. Merritt, the physical director, was given. In his reply, that gentleman spoke of the great work of the association, with its 5,000 gymnasiums and 100,000 members enrolled in the physical classes.

Messrs. F. Clocomb, H. Patch, C. Greenwood, Edgar Howell, C. Roberts and George E. Winter then spoke of the work in the gymnasium by the various classes during the winter. Mr. Winter represented the Gymnasium Bible Study Club.

Messrs. A. E. Smaill, H. H. Field, N. Martin, D. M. McGavin and F. L. Benedict spoke for the summer sports. Mr. D. A. Budge replied for the association; Dr. F. Gilday gave the Ladies, and Mr. C. C. Holland the chair. Mr. C. Shepherd recited and the association orchestra played selections during the evening.

Delivery of Goods Not Proved.

Mr. Justice Mathieu yesterday dismissed the action of L. Girard, et al., against J. Seguin, for goods sold, on the ground that the delivery of the goods had not been proved, and that their sale could therefore not be proved by parole evidence.

About Fashions for Men.

West End London sets the fashion for men, Paris for ladies. The chief of The S. Carsley Co.'s Men's Furnishings studies fashions around Pall Mall, Regent Street and Oxford Street, London. This accounts for the taste, neatness and distinguished appearance of the style in Neckwear, Collars, Shirts, etc. Prices are lower than anywhere else.

Mr. H. B. Cohn has completed the purchase of that old and well known cigar business known as "The Lodge," situated on Place d'Armes Hill, from Mr. S. Cochenthaler.

SOLDIERS' MONUMENT!

The Strathcona and South African Memorial.

Patriotic Subscriptions by Employes Grand Trunk Railway.

A Generous Response From Staff of the Great Railway Corporation.

Bravo, Grand Trunk! The Star acknowledges to-day still another subscription list from the Grand Trunk Railway men. To-day's list embraces the subscriptions of seven hundred and fourteen men and four hundred and twelve dollars, making a total from the Grand Trunk employes of five hundred and twenty-five dollars.

Some inspiriting verses on our soldiers' work and the way we intend perpetuating the memory of their achievements appear in these columns from the pen of M. J. Wells, and the work goes on.

On a Proposed Monument to the Canadian Dead in the South African War.

Yield, Mother Earth!
From out thy cold, dark breast,
To a most glorious birth,
The favoured stone that long unsunned hath lain,
Gnome-guarded, in thy hold,
While ages rolled.

Hail, chosen Stone!
That from Creation's dawn did wait
The ultimate glory of thy fate,
Piercing the ambient air.
Now raise thyself and bear
In golden gravure on each stately side
The story of a people's love and pride.

In after years,
Thy way shall strangers tread,
And with uncovered head
Our country's tribute scan to heroes dead.
In Fame's effulgent ray,
Their names shall blaze each day—
The young, the loved, the brave,
For Britain's might who gave
Their lives away.

Saxon, or Gaul,
Or Celt, why reck the strain
Of racial blood that warmed each willing breast?
What mother's milk that fed the vein;
What father's spirit that informed the brain?
We honour all
Who gathered at imperial behest,
For the war-clouded South, where, hand in hand,
Glory and death waited each gallant band.

There bearded men,
The well-tried veterans of many a field,
Did them precedence yield.
The deadly trench its horrors soon revealed,
And Afric's sand drank up the blood that sealed
Their record then,
And Britain's sword-girt chivalry did wait,
Well pleased; it knew
The prescience true,
That opened Victory's gate.

And not in vain
The youthful heroes fell,
Brave hearts remain;
Their dear bought triumph shall be guarded well.
Henceforth the white man shall uplift his head,
While his dark brother shall unfettered tread,
And both shall tell:
"If 'neath Imperial Britain's aegis-law
We happy dwell;
If freedom's breath we draw,
'Tis that the dreary veldt and darkling flood
Were once ensanguined by a brother's blood."

As olden Rome
Welcomed her victors home
With showered laurel wreaths and loud acclaim;
So ours, death spared, we'll tender sweets of fame,
But those who pulseless lie and may not know
Their triumph o'er the foe—
The work achieved to which their hands were set
Shall we forget?

No, glorious Stone!
A monarch 'mid thy fellows thou shalt rise,
Embodiment of pride we all have known,
A finger to the skies.
The hand of genius thee
With stern and lasting beauty, shall invest,
That in the years to be
Breasts yet unborn shall glow
With thoughts of those young Warriors of the West,
We honoured so.

PRIVILEGE RESTRICTED FOR THREE MONTHS

Temporary Diphtheria Hospital on Fletcher's Field Discussed by Parks and Ferries Committee.

At a short meeting of the Parks and Ferries Committee yesterday afternoon the City Attorney explained how the City Council had the right to allow a house on Fletcher's Field to be used as a temporary hospital for the care of diphtheria patients. This right had been given council by a provincial statute.

Ald. Ouimet did not like the idea of having people suffering from contagious diseases on any part of the park. The City Attorney said the privilege was only temporary, and Ald. Ouimet moved to restrict it to three months. This was adopted.

Sham Battle on the Mountain.

There was a sham battle on the Mountain last night, when companies of the Fifth Royal Scots fought each other until all the ammunition was gone. Just whether the attacking force or those who were acting on the defensive had the better of the battle has not been decided, but the work was so well done that the manoeuvres may be repeated at an early date.

Mrs. McLeod Wins the Case.

(Special to the Montreal Star.)

OTTAWA, April 25.—The case of Cheney, acting on behalf of the creditors of the late Rev. John McLeod, of Vankleek Hill, has been concluded in Chambers. The action was dismissed and Mrs. McLeod wins.

Turkey and Italy.

CONSTANTINOPLE, April 25. — On account of the uneasiness caused here by Italy's attitude with reference to Tripoli, the Porte has decided to garrison the Island of Bomba, off the coast of Tripoli, and the port of Tobruk, Tripoli, and a military commission is drawing up plans for the general defence of the Tripolitan coast.

YES,

We Keep Boys' Clothing.

We are Making a Specialty of it.

Parents in Montreal have long been wanting some person to carry a stock of fine high class neat and tastily got up suits for little boys, and we have learned since we opened our St. Catherine Street Store, that it was our opportunity, we have seized it and to-day we proudly and justly state that there is no store on the continent of America who can show you a finer range of

Boys' High-Class Clothing.

We have heard many expressions of surprise and pleasure from Ladies who have seen our Boys' Suits, and they have been good enough to favour us with their patronage. Price is only a secondary consideration when they can get the goods they want.

We would like to be able to give you an idea of the stock and variety we carry, and the different prices, but we could fill a page and then only give you a poor conception of the various styles and qualities.

We have Washing Suits at $1.00 per suit and upwards to $5.00; in kilt and blouse style or with knickers.

We have Tweed and Serge Suits from $1.25 per suit up to the very fine suits with silk vest and silk sailor collars at $12.00 per suit and in all sizes from 3 years upwards.

Our store is centrally located on St. Catherine street, No. 2299, between McGill College Ave. and Mansfield st., and as our window space is limited, we invite you to come inside and inspect our stock.

Also, a full assortment of Boys' Hats, Caps and Headwear in latest styles.

Allan's 2299 ST. CATHERINE STREET, and 661 to 665 CRAIG STREET, MONTREAL.

P.S.—We are receiving orders and shipping Boys' Suits to all parts of Canada. 97 zx1
