JAPAN-CHINA SITUATION CYNOSURE OF ALL EYES

JAPAN WILL PRESENT ULTIMATUM BEFORE
THREE O'CLOCK THIS AFTERNOON UNLESS
CHINA YIELDS TO TERMS.

Peking May 7.—The Japanese legation has informed the Chinese Foreign Office that Japan would be unable to accept the further concessions offered Thursday by China, and would present an ultimatum before three o'clock this (Friday) afternoon unless the 24 demands were accepted by China without qualification.

The Japanese legation continued yesterday its efforts to persuade the Chinese government to concede Japan's demands without the necessity of serving upon China the ultimatum of the Japanese government, which was received early yesterday morning.

The Secretary of the legation visited the Foreign Office and informed Vice-Minister Tsao Yulin that the legation had received the ultimatum and that it would be presented unless China agreed to Japan's 24 demands before 7 o'clock in the evening. Tsao Yulin immediately visited the winter palace, the residence of Yuan Shi-Kai, and, after a conference with the executive and other members of the government, conveyed to the Japanese legation the following further concessions:

"China reiterated, regarding Shantung province, that she would grant Japan everything that already had been granted to Germany there by treaty.

"China agreed to grant Japan the right to work mines in south Manchuria, and eastern Mongolia; that all disputes between the Japanese in Manchuria, of whatever nature, shall be under Japanese jurisdiction; that schools and hospitals may lease land from the Chinese, thereby reserving land ownership; to grant a concession to Japan to build the Nan Chang-Chao-chow-Fu railway, if Great Britain consents to the release of China from the negotiations begun concerning this railroad two years ago. The Japanese claim they requested the concessions for this railroad in 1907.

"The three stipulations China made to the demands in the nature of counter proposals last Sunday were not withdrawn by China. These were that China asked the right to participate in an international conference for a rearrangement of the altered status of Shantung; indemnity for the losses incurred in consequence of the Tsing-Tau campaign, and the restoration of the status of Shantung as before the war.

It is said that the Chinese government has resolved to communicate with the United States, Great Britain, Russia and France on receipt of the ultimatum, and that the nature of this communication will depend upon the tone of the ultimatum.

U. S. PRONOUNCEMENT.

Washington, May 6.—The silence which has been consistently maintained by the United States with reference to the Japanese-Chinese negotiations was broken tonight by the issuance of a statement by Secretary Bryan explaining the position of the American government.

The statement was prepared earlier in the day after consultation with President Wilson, though nothing official has been received from the Far East.

The American government in its pronouncement, in effect, reiterated (Continued on Page Seven)

GERMANS REPORT PROGRESS DESPITE COMPLETE CHECKS

French Officials State Enemy
Continues to Fabricate Details of Fighting.

OFFENSIVE A FAILURE.

During Past Fifteen Days the
Germans Have Gained Nothing and Suffered Severely.

Paris, May 6.—An official note issued tonight says:

"The German general staff persists in giving false details concerning their offensive engagement. During the last fifteen days the enemy has suffered complete checks and severe losses.

"The German attack on April 22 by two armies corps using asphyxiating gas bombs had as its object the piercing of the Ypres front. The greater portion of the prisoners captured from us were overcome by fumes. We suffered no check. The rapidity of our counter attacks prevented the enemy from attaining the left bank of the Yser canal and from establishing a strong position on the right bank.

"In these combats we inflicted heavy losses on the enemy. Our actual front was established only two kilometers (about a mile and a quarter), behind the original front. Our men are now provided with means to protect them against similar attacks with asphyxiating bombs.

"Being unable to pierce our lines and compel us to give up possession of Ypres, the Germans used a marine gun, firing a distance of 38 kilometers (about 23 1/2 miles) on Dunkirk. This gun, which ceased firing after two days, did damage of no military importance.

"On April 23 the Germans endeavored to retake Les Eparges with three divisions. Heavy fighting occurred in the neighborhood of St. Remi and Calonne and on Les Eparges heights, but the Germans were repulsed by counter attacks. The number of losses was shown by great heaps of bodies. It may be said that the three divisions were completely decimated.

"Important progress has been made by the Allies in the Bois Le Petre, the Bois D'Ailly and the Bois De Montmore. On April 26, the Germans attacked and captured the summit of Hartmans-Werkkopf, but their success was brief. We retook the summit the following day,

GERMANS STRAIN EVERY EFFORT TO TAKE OFFENSIVE AND ARE NOW ENGAGED AT MANY POINTS

They Are In Contact With The Russians On The Whole Eastern Front While Forcing The Issue At Many Points In The West—Advance Is Attempted Towards Liban And Riga—Austro-German Blow Is Reported Successful In Western Carpathians But Russians Deny Claims Of Berlin

London, May 6.—The Germans, in consort with their Austrian allies, are putting forth an effort, the extent of which has never been approached in the history of war. Throughout virtually the whole length of the eastern front they are engaged with the Russians, while in the west, in addition to their attacks around Ypres, they are on the offensive at many points. At other points they are being attacked by the French, British and Belgians.

Far up in the Russian Baltic provinces, heretofore untouched by the war, the Germans are attempting to advance toward Libau and Riga; on the East Prussian frontier they are engaged in a series of battles, and with a big gun are bombarding at long range, as they did Dunkirk, the Russian fortress of Grodno; in central Poland they have had to defend themselves against a Russian attack; in western Galicia they are attempting with all their strength to smash the Russian flank and compel the Russians to abandon the Carpathian passes, which they gained at such cost during the winter.

In this western Galician battle the Germans claim to have made a still greater advance and to have crossed the Wisloka river, which is well to the east of the Dunajec river, which until a few days ago formed part of the Russian front, and to have put their hands firmly on Dukla Pass.

In conjunction with this attack from the west the Austrians are attempting to drive the Russians from Lupkow Pass, further to the east, and with success according to the German account. In all, the Germans claim to have taken 40,000 Russian prisoners since the offensive was undertaken last Saturday night. The Austrians put the number at over 50,000 and express the belief that the whole Russian third army will be destroyed.

These reports show that the Austro-German blow is meeting with the greatest success on the northern slopes of the western Carpathians; towards the upper Vistula the Russians appear to be in their old positions.

Despite the claims of the Austrians and Germans, the Russian representatives in the European capitals reiterate that the victory has been greatly exaggerated, and the public is waiting to hear what Grand Duke Nicholas, commander-in-chief of the Russian forces, has to say about it.

The Germans also claim a series of successes in the west. They report that they are continuing to make progress south-east of Ypres, which, however, is hardly borne out by Field Marshal French, who says that the British have re-captured more of the trenches which they had lost on Hill 60, and that fighting is still progressing in that neighborhood, while elsewhere the Germans have shown no disposition to attack.

There are reports that the Germans are about to make another determined effort to take Ypres, which is considered the key to the French coast ports. The Pall Mall Gazette says this evening: "It is folly to say that Ypres has more of political than of military importance," and adds:

"The Germans would be more encouraged by success at Ypres than by anything since the fall of Antwerp. If such an event occurs we must instantly recognize it and admit it to be a defeat, and a grave one. In place of a party cabinet, a national ministry ought then to be formed, and a new military levy made. Happily, there is yet no need to anticipate a retreat from Ypres, much less a German march to Dunkirk and Calais."

Other German claims relate to successes in the Woevre, where the Germans say, in an attack along the northern side of the St. Mihiel wedge, they took upwards of 2,000 prisoners, and that they repulsed French attacks on the southern section of the wedge near Flirey. This, as usual during the last few weeks, entirely disagrees with the French account of the actions.

Of the operations in the Dardanelles up to Sunday Premier Asquith gave the House of Commons some news this afternoon, although the number of troops landed was withheld. As 29,000 were landed the first day and the disembarkation continued for a week, while the French have also joined the British and Australasians on the Gallipoli peninsula, it is apparent that the force is a formidable one.

The Premier, while issuing a warning that the casualties were heavy, paid a glowing tribute to the troops, through whose exertions considerable progress towards the Narrows has been made.

An Athens despatch says that the Turks have again been defeated. Petrograd despatches report that further defeats have been inflicted on the Turks on the Turco-Persian frontier, near Dilman, and near Olti, on the Caucasian border.

forcing the enemy a distance of 200 metres beyond the crest. We also made progress in the region of Schepfen-Rietkopf, where guns of the enemy were captured.

"To sum up: During the last 15 days the enemy has attempted a heavy offensive which we speedily broke down. The total of the German losses in the heights of the Meuse, in the Woevre and the Voeges has been more than 35,000. At no part have they broken through our lines. They have taken no important position from us. They have allowed half a dozen of their finest regiments to be decimated."

FRENCH HOUSE WILL

CONTINUE TO SIT

Paris, May 6.—As the result of a discussion whether parliament should continue in session throughout the period of the war, the group on the Left in the Senate, presided over by Emile Combes, and the Union Republic group decided today to take action toward this end. They came to the conclusion that a permanent session was necessary to assure uninterrupted collaboration with the government, and will request Premier Viviani to present their views tomorrow.

REQUEST \$3,000 FOR MILK DEPOTS

QUEBEC LADIES BEHIND
PRAISEWORTHY MOVEMENT
ASK CITY FOR GRANT.

Asking that the city give material aid to establish pure milk depots in Quebec as in other cities to combat the tide of infant mortality, a deputation of the ladies representing the organizers of the movement waited on the Civic Finance Committee last night accompanied by Senator Jules Tessier.

The ladies were Mde. Jules Tessier, Mde. Dr. Lessard, Mde. Onesime Pouliot and Miss Prince.

Mde. Tessier, who spoke for the delegates, explained that the object of the movement was to fight the ravages of infantile illness and consequently mortality, and she pointed out that before the movement had taken root in Montreal that city paid the heaviest infantile death roll of almost any city in the world. To illustrate this she quoted statistics showing that while Montreal's infantile death rate had been 242 per thousand, that of London, England, had only been 112, and that of Sydney, Australia, 71 per thousand. A great change had taken place in Montreal, she said, since the inauguration of the movement and there were now 26 pure milk depots in the metropolis, where milk was distributed free to the poor, where infants were cared for and treated, where mothers were taught how to care for their offspring in matters of bathing, feeding and dressing them. From these depots, also, nurses and the ladies interested in the work visited the homes of the poor to see that the instructions that the mothers received were carried out and that the milk which was given free was properly kept and properly served to the infants.

The immediate object of the Quebec organization was to find quarters for the establishment of a depot to carry out the same good work as was being done in Montreal, and it was pointed out by Mde. Tessier that Montreal voted \$12,000 annually for the purpose while Ottawa gave \$8,000 and the City of New York granted \$300,000 annually for the work of saving the child.

It was intimated by the delegation that if the City of Quebec were to vote a sum of three thousand dollars for the first year the organizers would be satisfied, and would thus be enabled to start the work on a sound basis.

The committee promised to give the question due study and to do all in their power to assist the work which all recognized to be an urgent need.

It was decided after consideration that the City had not the power under the present charter to make such a grant, but that the City Attorneys will be consulted to see if some means cannot be devised to legalize a subsidy for the purpose.

BAND ON TERRACE.

Bandmaster O'Neill Accepts Offer Made By City.

Lieutenant O'Neill, of the R. C. G. A. band, appeared before the Civic Finance Committee last night, and accepted the offer of the City to play on the Terrace every evening and to give one concert a week at Victoria Park during the summer months in consideration of a sum of \$1,500. He pointed out, however, that the difficulty was as to which night could be given to Victoria Park since he was bound by contract to the Chateau to play six nights a week on the Terrace. He pleaded that it was rather hard on his men to have them play on Sunday night at Victoria Park but that if the City insisted he would abide by their decision.

It was suggested that arrangements might be made with the management of the Chateau to accept Saturday or Sunday afternoons instead of an evening concert and the band could thus play at the park on a week night and the bandsmen would have the benefit of the Sunday as a day of rest.

Bandmaster O'Neill will consult the Chateau and let the City know at the next meeting of the Finance Committee.

AUSTRALIAN VOLUNTEERS ACCOMPLISH GOOD WORK

**MEN FROM ANTIPODES SHOW THEIR METTLE IN
EFFECTING LANDING AGAINST THE TURKISH
TROOPS IN THE DARDANELLES.**

London, May 7.—A British press representative with the forces in the Dardanelles sends a long and interesting account of the landing of the Australians and New Zealanders on the Gallipoli peninsula north of Gaba Tepe at daylight of April 25.

"The night before," the account says, "the entire fleet of warships and transports left their rendezvous, the crews of the warships cheering the soldiers on to victory while the bands played them out with an endless variety of popular airs.

"Early in the morning the men were aroused from their slumbers and served with a hot meal. They were all cool and collected. At 2:05 o'clock in the morning the order was given to disembark. The boats, which were manned by bluejackets and commanded by young midshipmen, slowly were towed to the beach by pinnaces.

"The first shot was fired as the boats were nearing the beach, and the firing gradually grew in volume as the colonials got a footing on land and let forth a hearty cheer.

"The first authentic news we received on board the battleship London, of the landing, came with the return of our boats. The steam pinnace came alongside with two recumbent forms on her deck and a small figure, pale but cheerful and waving his hand, astern. They were one of our midshipmen, just sixteen years of age, who was shot through the stomach but regarded his injury more as a fitting consummation to a glorious holiday ashore than a wound, and the chief stoker and a petty officer.

"All three were wounded by that first burst of musketry, which caused many casualties in the boats just as they reached the beach. From them we learned that all the tows had almost reached the beach when a party of Turks, entrenched almost on the shore, opened a terrible fusillade from their rifles and also from a Maxim.

"Fortunately most of the bullets went high, but nevertheless many men were hit as they sat huddled together forty or fifty in a boat.

"It was a trying moment, but the Australian volunteers rose as a man to the occasion. They waited neither for orders nor for boats to reach the beach; but, springing out into the sea, they waded ashore, and forming some sort of a rough line, rushed straight on toward the flashes of the enemy rifles.

Cold Steel Effective.
"Their magazines had not even been charged, but they just went in with cold steel. And I believe I am right in saying that the first Ottoman Turk since the last crusade, received an Anglo-Saxon bayonet in him at five minutes after five o'clock on the morning of April 25.

"It was over in a minute. The Turks in this first trench were bayoneted or ran away and their Maxim gun was captured.

Were Nothing Daunted.
"Then the Australians found themselves facing an almost perpendicular cliff of loose sandstone with thick shrubbery, and somewhere half way up the enemy had a second trench, strongly held, from which they poured a terrific fire on the troops below and the boats pulling back to the destroyers for a second landing party.

"Here was a tough proposition to tackle in the darkness; but the colonials went about it in a practical way. They stopped a few moments to pull themselves together and to get rid of their packs, and then charged with their magazines.

"Then this race of athletes proceeded to scale cliffs without responding to the enemy's fire. They lost some men, but it did not worry them. And in less than a quarter of an hour the Turks were out of their second position, either bayoneted or in full retreat.

"The boats landed rather farther north of Gaba Tepe than was intended, but this proved a blessing in disguise, for there was no glacial down which the Turkish infantry could fire and the broken ground afforded good cover.

"In the early part of the day very heavy casualties were suffered in the boats which conveyed the troops from the destroyers, tugs and transports to the beach. As soon as it became light the enemy's sharpshooters concentrated their fire on the boats when they got near in. The landing continued throughout the day under this fire, which could not be checked.

"The Australians finally established themselves on a ridge and advanced northward and throughout the day confused fighting took place, the ships assisting the troops with the fire from their guns. The Turks only had a

SUBMARINES DID LITTLE YESTERDAY

**ONLY ONE SCHOONER TWO
TRAWLERS AND A STEAMER
TORPEDOED.**

London, May 6.—Though it is evident that several German submarines are still operating around the British coast, a great diminution in the number of their victims is reported today as compared with the destruction wrought by them earlier in the week.

The list today comprises one schooner, two trawlers and a steamer for Lloyd's report definitely states that it was a submarine which sunk the Danish steamer Cathay, although earlier accounts indicated that it might have been a mine.

The trawler Merrie Islington was torpedoed by a submarine near Whitby, off the Yorkshire coast. A mine sweeper which picked up the crew after they had taken to the boats was subsequently chased by the same submarine. The skipper of the trawler Stratton was taken aboard the submarine after his boat had been sunk in the South Sea. The German commander said to him: "We don't want to hurt your crew, but you were taking food to England. We must stop that."

The British steamer Cayo Romano, which left Newport News on April 19, was attacked by a submarine, a torpedo missing her by only a few feet. She escaped, aided by the fog, under a full head of steam.

Notwithstanding the severe losses they have suffered by German submarine raids, the trawlers still continue fishing as usual.

RUSSIANS DENY REPORTED DEFEATS

**GERMANS AND AUSTRIAN RE-
PORTS OF VICTORY ARE
PREMATURE.**

Washington, May 6.—The Russian Embassy today received the following despatch from the Russian Minister of Foreign Affairs:

"Petrograd, May 5, 1915.
"The reports from Berlin and Vienna of a victory gained by the Germans and Austrians in western Galicia are absolutely unfounded. The battles that are proceeding now in that region give no foundation whatever to talk even of a partial success of our enemies. You are asked to contradict most emphatically the reports spread by the Germans."

MAN DROPS DEAD.

Sarnia, Ont., May 6.—John Goodison, founder and president of the Goodison Thresher Works, this city, dropped dead at his home tonight from heart failure. Born at Wyclow, Ireland, 65 years ago, he came to Canada with his parents when eight years of age, settling near Toronto. E. & T. H. Goodison, of Streetsville, and Richard and N. S. Goodison of Cookshire, are brothers.

comparatively weak force actually holding the beach. They seemed to have relied on the difficult nature of the ground and their scattered sniping to delay the advance until they had brought up reinforcements from the interior.

"Some of the Australians who pushed inland counter attacked and were almost outflanked by these oncoming reserves and had to fall back after suffering very heavy casualties.

Never Yielded Ground.
"It was then the turn of the Turks to counter attack, and this they continued to do throughout the afternoon but the Australians never yielded a foot of ground on the main ridge and reinforcements were continually poured up from the beach.

"So soon as the light became good the Turks enfiladed the beach with field guns. This shrapnel fire was incessant and deadly. The Turkish guns, however, finally were put out of action by the ships.

"The Turks brought up reinforcements and the pressure on the colonials became greater, but they held on in face of the difficulties, which included the landing of water, ammunition and supplies on the narrow beach and carrying them up the bluffs, several hundred feet high, to the firing line while the troops were exposed to an incessant shrapnel fire.

"Another problem was taking the wounded back to the ships, but the wounded men showed the greatest fortitude, cheering the ships as they passed in their boats."

THE LIGHTER SIDE.

Sir Gilbert Parker refers to the "almighty heart" of our American neighbors.

It used to be "dollar."

The report that a rhinoceros has killed four soldiers in East Africa may result in the enlistment of a few herds for offensive purposes.

Father—Well?
Son—Is a vessel a boat?
Father—Yes.

Son (after some thought)—I say, pa!

Son—What kind of a boat is a blood vessel?

Father (absently)—It's a lifeboat. Now run away to bed.

ABDUL SEES A CHANCE.
"Red Sultan" Is Looking Towards the Throne of Turkey.

An interesting phase of the war news has been the talk of rehabilitation of Abdul Hamid, the deposed Sultan of Turkey. Before news came that Abdul was prepared to take advantage of a revolution to regain his throne the western public had almost forgotten the Red Sultan, and only wondered casually what had become of him. Abdul, with all his faults, knew his business well enough to keep on good terms with Great Britain. Time and again the British officials helped him out of a bad fix, either political or financial, but the German influence working through the Young Turk party finally took advantage of the Sultan's misdeeds to bring about his downfall. Mohammed V., Abdul's brother, who had been virtually a prisoner most of his life, was set up as a puppet on the throne and the Young Turks worked the new nonentity to their own profit—or, as it has turned out, to Germany's profit. Abdul was dethroned in 1909, and if a revolution should occur might easily be made Sultan again.

SHOULD LET HER FATHER GO.
Gallant Dublin is telling this little story about the departure of the Marquis and Machioneis of Aberdeen.

Just before they left they paid an informal farewell visit to a female National school in one of the slum districts of the city. In the infants' room, while his excellency was talking to the teachers, Lady Aberdeen had gathered all the little ones around her.

Here she gave them some motherly advice about their folk dances, which she hoped they wouldn't neglect when she had gone away. Then a tiny little mite of four began to finger her bib uneasily, and sidling up to Lady Aberdeen, piped, "Please ma'am, why can't you stay in Dublin and let your father go alone?"

How I Made My Hair Grow Long and Beautiful

I was greatly troubled with dandruff and falling hair. I tried many advertised hair preparations and various prescriptions, but they all signally failed; many of them made my hair greasy so it was impossible to comb it or do it up properly. I think that many of the things I tried were positively injurious and from my own experience I cannot too strongly caution you against using preparations containing wood alcohol and other poisonous substances. I believe they injure the roots of the hair. After my long list of failures, I finally found a simple prescription which I can unhesitatingly state is beyond doubt the most wonderful thing for the hair I have ever seen. Many of my friends have also used it, and obtained wonderful effects therefrom. It not only is a powerful stimulant to the growth of the hair and for restoring gray hair to its natural color, but it is equally good for removing dandruff, giving the hair life and brilliancy, etc., and for the purpose of keeping the scalp in first-class condition. It also makes the hair easier to comb and arrange in nice form. I have a friend who used it two months and during that time it has not only stopped the falling of his hair and wonderfully increased its growth, but it practically restored all of his hair to its natural color. You can obtain the ingredients for making this wonderful preparation from almost any druggist. The prescription is as follows:

Bay Rum, 6 oz.; Menthol Crystals, 1/4 drachm; Lavona de Compose, 2 oz. If you like it perfumed add 1 drachm of your favorite perfume. This, however, is not necessary. Apply night and morning; rub thoroughly into the scalp.

INDIANS ARE ANGRY.

Brantford, Ont., May 6.—There is general resentment among the Indians of the Six Nations Reserve near here, over the appointment by the Department of Indian Affairs, of Geo. Elliot as secretary of the council of the reserve in succession to the late Chief Hill. A. S. Hill, a nephew of the late secretary, is the Indians' choice for the position, and the cancellation of the appointment of Elliot has been demanded.

MONTHLY MEETING OF THE
QUEBEC BOARD OF TRADE

IMPORTANT LETTERS REGARDING TRANSCONTINENTAL RAILWAY—THE LEVIS FERRY CONTRACT—INSURANCE RATES IN QUEBEC.

The general monthly meeting of the Quebec Board of Trade, was held in the Board rooms, St. Paul street, yesterday, the President, Mr. Joseph Picard, presided.

After the minutes of the last meeting had been read and confirmed, the President read a report of the proceedings of the Council, since last meeting of the Board. These have already been published in the columns of The Chronicle.

Insurance Rates.

In answer to a letter from the Board to the Superintendent of Insurance, Ottawa, regarding rates in Quebec, the latter asked to be furnished with the amount of premiums received and losses paid by the Fire Underwriters in Quebec for without that data, nothing could be done. He added that he had received Mr. Monaghan's memorial on the subject. The President said that the Council had asked the Fire Underwriters for the figures in question, but that they had refused to furnish them. Their reply was sent to the Superintendent.

Levis Ferry.

Mr. Montfione Joseph, asked what was being done with regard to the Levis Ferry service?

In reply the President said that the Council had asked the Corporations of Quebec and Levis, to be allowed to send representatives of the Board to the meetings of the joint committee, that the towns had appointed. It was then found that neither the Councils of Quebec or Levis had any right to make any modification in the contract with the Ferry Company, without the authority of the Legislature.

Mr. Joseph said that so far so good. The ferry service was worse now than ever it was. On the Levis side, for the sake of economy, in the evening, the Company takes off one of the men who receives tickets from those going to the boat, leaving one to do the work. Sometimes when a train arrives at night 200 people want to get to the boat. To do so they have to pass through a narrow passage, and as each one has to stop to give his tickets or pay his fare, it takes a considerable time, and the people coming behind may lose their passage. The contract calls for the boats to leave both sides of the river every fifteen minutes, but they very seldom do that. They should be made to start to the minute. The Corporation should insist on the Company carrying out its contract.

Transcontinental Railway.

The following communications between the Council and the President of the Grand Trunk Pacific Railway was read:

Quebec, April 14th, 1915.

E. J. Chamberlin, Esq.,
President Grand Trunk Pacific
Railway, Montreal.

Dear Sir—I beg to enclose, for your information, copy of a letter, dated the 27th of March, of the Quebec Board of Trade to the Hon. T. Chase Casgrain, representing this City in the Dominion Cabinet, respectfully suggesting that it would be advisable for the Government to hand over the operation of the Transcontinental Railway from Winnipeg to Quebec and Moncton, to your Company, rather than operate it as a Government road, as has been spoken of in Parliament.

You will note that we have further (Continued on Page Ten)

Eczema Was Cured
Twelve Years Ago

Dr. Chase's Ointment Proved to be a Permanent Cure.

The old idea of eczema being a disease of the blood has been pretty well exploded by the record of cures made by Dr. Chase's Ointment.

Some doctors still advise internal treatment, but the results are slow and uncertain, and too often a lamentable failure. With Dr. Chase's Ointment it is different. You apply the ointment to the sore parts. It cleanses the sores and soon sets up the healing process. In a few days you can see with your own eyes the wonderful change that is taking place and are encouraged to keep up the treatment until the cure is complete and the sores replaced by smooth, natural skin.

It is wise to look after your general health, keep the bowels regular and the blood rich, but you can depend on Dr. Chase's Ointment to cure the eczema if you will do your part and apply it regularly.

Mr. W. H. Roberts, Charlottetown, P.E.I., writes: "I can recommend Dr. Chase's Ointment to anyone suffering from itching skin disease. I had

CITY VOTES \$1,500
FOR "LA CRECHE"

GRANT IS GIVEN TO AID EXTENSION, BESIDES \$600 ANNUAL SUBSIDY.

The Civic Finance Committee last night unanimously decided on motion of Ald. Lavigne, to vote the sum of \$1,500 to "La Creche," the home for foundlings, on St. Foy road, to assist in enlarging the building.

A forcible plea for "La Creche" was made by Ald. Walling, of Belvedere Ward, who gave some interesting facts concerning the requirements of the home and the good work which is done by the institution. He informed the Committee that there were 174 children under two years of age in the home, and that each child should have at least 200 cubic feet of breathing space while under the present conditions, due to lack of accommodation, each child had scarcely 50 feet. He emphasized the great good that resulted in the care given to the children and urged that if necessary, the City should make a sacrifice to vote the sum requested for the improvement. It was impossible, he said, for anyone to judge the value of the home unless a visit were paid there, and he urged that the members of the Committee should look through the institution and see for themselves.

Ald. Collier also spoke in favor of the grant and the committee finally decided on motion of Ald. Lavigne that a sum of \$1,500 be voted and that the annual grant of \$600, which is over and above the special subsidy, be paid immediately.

SUDDEN DEATH OF

MR. J. H. MULLIN

Sad News Caused a Severe Shock to His Many Friends.

The news that Mr. J. H. Mullin, the well-known Fabrique street herdsman, had died suddenly at his home was a severe shock to his many friends who had seen him about as usual on Wednesday evening.

Mr. Mullin had not complained of feeling ill but had retired as usual on Wednesday night. Yesterday morning, however, when his sister, Mrs. J. Myler, went to call him she received no response, and when a doctor and priest were called it was found that Mr. Mullin had passed away during the night.

The deceased is survived by his sister Mrs. J. Myler, of this city, and by his brother, Mr. J. B. Mullin, of Montreal.

His relatives have the sympathy of a large circle of friends.

Canada's Latest Roll of Honor

Ottawa, May 7.—That the heaviest and saddest part of Canada's toll in the great battle around Ypres is yet to be told in the casualty lists being issued from the Militia Department is officially stated. Since the names of the Canadians who suffered in the engagements have been coming through from the record office in London the main casualties announced, aside of course from those of the officers, have been wounded, although a few names of the men killed in action and missing have been issued. It is expected here that the record office will complete the lists of wounded shortly and that the killed and missing will begin to come through in greater numbers. Great care is being taken in compiling the lists of killed in action and missing and no names will be sent out until absolute certainty exists of the accuracy of the information received from France. In fighting such as is going on in France it is sometimes difficult to speedily secure the names of the killed owing to the treaches of the belligerents being so close together and the danger of attempting sorties to bring in bodies.

The list comprises close on to two hundred names.

This morning's list follows:—

AN ERA OF ACTIVITY

That everything will now be pushed to completion for the assuring to Quebec of the advantages which should accrue to this city and district from the building of the Transcontinental Railway was the statement made yesterday by Hon. Thos. Chase Casgrain, Postmaster-General and representative of the Province of Quebec in the Borden Cabinet.

Mr. Casgrain, who is accompanied by Madame Casgrain and Mr. Robert Fowler, private secretary, arrived here yesterday. The most notable announcement which he made was to the effect that the matter of the Union Station has now been definitely arranged once and for all, all difficulties having been removed and the plans having been accepted by the city and the different parties concerned. Tenders will be asked for at once and will in all likelihood be opened before the end of the month.

Mr. Casgrain is determined that Quebec shall reap the full benefit of the Transcontinental Railway and is bending every effort to this end. The wharves for the N. T. R. between Lampson's Cove and the Champlain Market will be constructed as soon as possible, a grant of half a million for this purpose having been voted in the last estimates. This, however, is only an initial vote and it appears that the total expenditure on these wharves and on the Champlain Market Station will ultimately reach three or four times this amount.

According to Mr. Casgrain there will be more activity than ever this year in the matter of public works in this district. In short, every single promise made by Premier Borden and his Ministers at the banquet offered to him in this city will soon be in the way of realization and Mr. Casgrain hopes that the day is not far distant when this port, which was neglected by both parties before the advent of Mr. Borden to power, will attain the importance on this continent to which its magnificent and unsurpassed natural gifts so fully entitle it.

The Postmaster-General informed a Chronicle representative yesterday that he would have preferred to have come down to Quebec directly after the session but he wanted to have the details of these works settled before coming. While here he will visit the dry dock, St. Charles River works, Battlefields Park, Drill Hall, etc., so as to acquaint himself personally with the progress being made on them.

It is fortunate for the district of Quebec at this time to have a man of the high standing and strong character of Mr. Casgrain at the helm of affairs, as this is without doubt the critical opportunity in the history of the Ancient Capital, the tide which, if taken at the flood, will surely lead on to fortune. No man is better fitted to the needs of this city and district. No man is better fitted to champion the city's cause and insist that those needs be fulfilled. It is safe to say that in his work for Quebec the present Postmaster-General will have the support not only of those of his own political faith but also of the business section of the community and, in fact, of all public-spirited citizens.

TURKISH PENINSULA

OF GALLIOLI.

A point of striking interest at this time in the news of the war's progress is Gallipoli.

Gallipoli peninsula, the Chersonesus Thracica of classical geography, where one of the most powerful battle fleets of all times is attacking, is the spur defense of Turkey in Europe, the best guarantee in the present of the Ottoman Empire's places among the Great Powers. It is a fruitful land, whose conditions at one time gave promise of a world-important commercial future. The Turkish occupation of 1357, however, cut off this promise, and the land has remained as much an obscure land to the twentieth century as it was to the Greeks of Pericles' Athens. The wonderful water avenue which stretches behind it toward the heart of Central Asia has remained stagnant of all development.

Gallipoli peninsula forms the European bank of the Dardanelles. To the north, it is enclosed by the deeply indented Gulf of Saros. The soils of this district are exceedingly fertile and well-adapted to agriculture. The peninsula is a hilly rib of land, fifty-five miles in extent, and varying between three and thirteen miles in breadth. It supports about 100,000 people. It was the first section of European land to come under the domination of the crescent.

Wheat and maize are grown in considerable quantities here, and are exported to the Aegean Islands and to Turkish ports. Barley, oats and linseed were raised largely for Great Britain, and canary seed was exported to Australia. Turkish rule, however, has been a continual dead weight upon its development. For example, a wine was formerly produced from Gallipoli's grapes which was held in admiration wherever connoisseurs of alcoholic beverages came together. It was exported in great quantities to France and here blended with other wines. The Turk put a tax of 55 per cent. upon it, which drove the vintners to uproot their vines and sacrifice their industry.

No important industrial establishments have been developed here. There are some steam flour mills, a sardine factory, and there is, further, a limited manufacture of leather and silk in the chief town, Gallipoli, which lies upon Marmora Sea at its junction with the Dardanelles. Besides the grains, cheese, skin of goats and sheep, and meat products make up the bulk of the peninsula's export. It imports woolen and cotton fabrics and hardware.

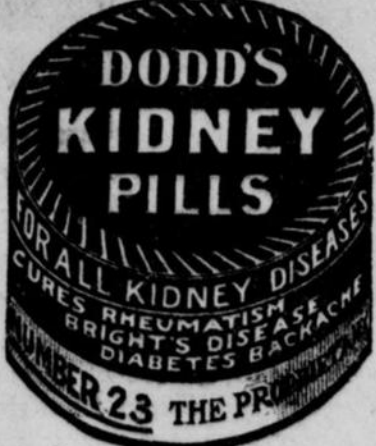

GERMAN BARBARIANS.

Prof. Joseph Bedier published some time ago extracts from the diaries of German soldiers recounting savage acts committed during the war. He now replies in the Revue de Paris to some of his German critics, and adduces new examples of cruelties recorded by the war-diaries. He admits that, in his original brochure, he may have misinterpreted a word now and then of the German text, but maintains, indeed, it cannot be denied that the substance of his proofs is untouched. He was then professing to give only samples of the atrocities committed; he now adds several others. Upon these we do not care to dwell; but German soldiers themselves were horrified at what went on. Thus one of them, whom Professor Bedier identifies by corps and regiment, after writing of the terrible scenes which he had witnessed, added the comment: "After all, there is an element of truth in what they say of German barbarians." And it was a German officer who wrote in his diary: "This way of making war is purely barbarous. I am astonished that we can complain of what the Russians have done, for we are conducting ourselves in France much worse."

THE RESOURCES OF BRITAIN.

Some idea of the enormous resources of Great Britain can be gleaned from a perusal of the report of the speech of the Chancellor of the Exchequer, Mr. Lloyd George, when he brought down his budget in Parliament. The conduct of operations in the war has so far cost \$1,535,000,000, and this figure is being added to at the rate of \$10,500,000 a day. Apart from this enormous expenditure on her own war preparations and equipment, Britain is also helping her Allies to the extent of \$1,000,000,000.

With all this expenditure it speaks highly for the financial standing of the country that no new sources of taxation need to be sought, or additional duties imposed. While the revenue derived from the income tax has been greater than was anticipated, and other sources of revenue have fully

maintained their level, thus showing that, war or no war, business as usual is a fact and not merely a slogan, in Britain.

Added to all her other obligations, is the necessity for Britain to finance her adverse balance of trade, which must be paid for in cash. Ordinarily, as Mr. Lloyd-George pointed out, imports exceed exports by about \$650,000,000, this year the excess will be about \$2,440,000,000, and this exclusive of government purchase. It will thus be seen that the task of financing Great Britain at the present time is no light one; but large as are her outgoings, her resources seem well able to withstand this drain on them. Great Britain seems to lack nothing that is needed in time of stress, and the resourcefulness of her people enables her to face any contingency with absolute equanimity.

BRITISH WOMEN.

It is said that a million women have answered the British government's call for volunteers to do men's work if their services are needed. The government's purpose, of course, was to prepare women for a possible necessity of the future, so that if the demands of war too greatly deplete the male population the industrial activities of the United Kingdom will not be crippled.

This is a new idea of woman's work in war. Hitherto the women have stayed at home and grieved for husbands, brothers, sons and fathers. They have been nurses or have assisted in making hospital supplies. But they have never been called upon by their governments to do men's work in order that more men might be available for the battlefield.

It is distinctly a twentieth century interpretation of woman's usefulness. In the past it has been deemed improper, or even impossible, for women to do the ordinary work of men. Even now it is not considered desirable for women to enter many occupations. The question, however, is one of desirability, wholly. There is no longer any doubt as to women's ability.

The women who have volunteered are to be called upon only in case of absolute necessity. That such a necessity can come in Great Britain or in any other country now at war is almost unthinkable. Only a general slaughter such as has never been contemplated even by the most rabid militaristic zealot, could bring about conditions such as forecasted in the British call for women volunteers.

"HATE" OF BRITAIN.

The "Vorwarts" devotes a long article to a eulogistic review of a pamphlet published in Vienna by Dr. George Landauer, entitled "England: An Investigation." After alluding to the reaction against senseless sermons of hate, the Socialist organ writes:—

The calm elucidation of the motives of the belligerents is especially serviceable as regards England, though it is not easy or free from danger, as against her certain quarters are engaged in arousing an incomprehensible rage. Dr. Landauer's attitude towards England is all the more worthy of attention as he approves of the Austro-German standpoint in the present war. His essay makes it clear that England's democratic conditions can very well bear comparison with the political conditions in Continental States, and that in any case it is stupid to regard English civilization with indiscriminate contempt.

Dr. Landauer also justly complains that the majority of England's bitterest enemies silently disregard the material which was published on and since the outbreak of war, and that the daily press, perhaps not always from free choice, restricts itself to semi-official comments on this material.

Against the unproved allegations that English diplomacy desired a world war and had systematically worked for it, Dr. Landauer recalls that a whole series of crises threatening war which arose under the last three Ministries terminated peacefully owing to English efforts. Even Herr von Bethmann Hollweg, as we know, in the last negotiations with Sir Edward Grey, referred to the friendly co-operation of the diplomats of both countries.

The "Vorwarts" then quotes Dr.

Landauer textually:—

"Everyone moderately acquainted with England," he says, "must admit that a hostile feeling among the English people towards the German right up to the last days before the outbreak of war cannot be said to have existed. The English people, indeed, at times feared an Anglo-German war, but never desired it, least of all at the moment when it broke out, just when the fear of a German attack had diminished."

Dr. Landauer also protests against the application of epithets such as "A nation of shopkeepers and criminals," because "such vilification results in welding together the entire English people in their own defence." He continues:—

"Whoever has made the acquaintance of this people in the intimacy of its homes, and observed how in work and in pleasure it knows how to preserve order as its own policeman, whoever is convinced of the dignity which this people displays in bearing national adversity, such a one can never possibly believe that this people has become criminal against itself and the human race."

PRESS COMMENT.

The many friends of the Hon. J. Douglas Hazen, while deeply regretting that he should have been called upon to undergo a slight operation for throat trouble, will be more than pleased to learn that the operation has been entirely successful and that the honorable gentleman is progressing very satisfactorily. As one of the leaders in the national life, Mr. Hazen has by his kindly courtesy endeared himself to a very large circle of friends, who will heartily accord him their best wishes for a speedy restoration to his usual robust state of health.—Frederick Gleaner.

The Dean of Canterbury refuses to become prohibitionist, even for the sake of setting an example to the people of England. The reverend gentleman says that he tried it once and that it was a failure, his health suffering. He promises to be quite temperate, however, and in this stand he is backed up by the clergy of the lower house of convocation of Canterbury. All of which goes to show how difficult a matter it is to force men, whose minds are so constituted that they are unable to be extremists in anything, into endorsement of a reform which to them does not appear reasonable. The clergy of Canterbury are as intelligent a company of gentlemen as is likely to be found anywhere. No doubt they have seen quite as much of the evil effects of over-indulgence in strong drink as most people, and certainly they will stand quite as high in reform work as others whose views on the drink question are diametrically opposed. It will not do for other gentlemen of the cloth or for ardent prohibitionists to declare wholesale condemnation of the clergy of Canterbury. If they do they will merely prove themselves to be narrow-minded and less tolerant than really big men should be. The best thing they can do is to admit cheerfully what is the fact—that there is still much difference of opinion among the authorities as to the best way to deal with the drink traffic and drink evils.—Calgary Herald.

IN AND ABOUT TOWN

"FACING THE MUSIC" DRAWS BIG CROWD

CHARACTERS WERE ADMIRABLY ACTED AND PLAY WAS GREAT SUCCESS.

St. Matthew's Parish Room was packed to capacity last night with an audience which enjoyed and appreciated the Three act farce "Facing the Music," admirably staged and acted with rare talent by the members of St. Matthew's Branch of the Church of England Society.

The farce is brimful of funny situations and the manner in which Professor John Smith, impersonated in a limelight manner by Mr. W. C. Teakle, John Smith, in the hands of Mr. G. H. Harvey whose splendid acting earned for him thunderous applause, Col. Duncan Smith, whose part was taken by Mr. R. Brown most capably, became mixed up with one another and the ludicrous mistaking of the others' wives was laughable in no small degree.

R. Symonds as Sergeant Duffell, from Vine Street, filled the role of the pompous detective, and his mysteriousness and feigned shrewdness, his plans; and his claim to victory in defeat convulsed the audience.

The female characters, all acted by males, were very well carried out and were not overdone. Messrs. W. Carson, C. Scott, R. Stevens and H. Lawson, have every reason to be proud of their success in maintaining the difficult parts allotted them.

Mr. C. St. G. Griffin in the role of Dick Desmond, who was always in the right place when his friend John Smith wished to place the blame for anything, left nothing to be desired.

On the whole, the evenings' entertainment made a decided hit and reflects the greatest credit on the young men themselves as well as the organizers, foremost amongst them being the Rev. V. E. Robart, whose efficient stage directorship was an important factor in the success of the being the Rev. V. E. Robart, whose encouragement and hearty co-operation helped to make the affair the success it proved to be.

FIRST MOUNTED BRIGADE

HAS LEFT SALISBURY.

Son of Hon. P. E. Leblanc, Lieutenant-Governor, is With the Canadian Dragoons.

News reached here yesterday that the First Mounted Brigade had left Salisbury Plain for the front.

The son of His Honor the Lieutenant-Governor, Hon. P. E. Leblanc, is a lieutenant in the Canadian Dragoons, who form part of this brigade.

ART EXHIBITION.

The Art Loan exhibition of the paintings and decorative china, the work of local artists, in favor of the founding hospital, known as La Creche, will open at the Parliament House on Saturday 8 inst. at 3 p.m.

His Honor the Lieutenant Governor and Madame LeBlanc have kindly consented to open the exhibition, which promises to be one of rare merit.

The Ladies of Quebec are taking a most active interest in this deserving charity. Lady Gouin is President of the Committee, which is composed of well known Ladies, who will divide the duty of looking after the work on each of the six days of the exhibition. The ladies in charge on the opening day will be Mesdames Lorenzo Evans, B. A. Scott, Geo. Tessier and P. C. Scott.

Tea will be served every afternoon, the tea table being in charge of Madame Turgeon and Madame Delage. The band of the Royal Canadian Artillery will be present on Saturday.

LOCAL HOME GUARD HAS FINE TURN-OUT

HON. P. E. LEBLANC, LIEUTENANT-GOVERNOR, MAKES INSPECTION—STREET PARADE.

The Quebec Home Guard presented a splendid appearance last night at the review by His Honor the Lieutenant-Governor, Hon. P. E. Leblanc, and subsequently in the first general out-door parade since the guard was formed.

Lieutenant-Governor Leblanc, accompanied by Mde. Leblanc and Major Victor Pelletier, A. D. C. arrived at the armouries at 9 o'clock and on their arrival the R. C. G. A. Band in charge of Lt. O'Neil played the March Past while the Home Guard was brought to attention by Lt. Col. Wood, the commanding officer, the Lieutenant-Governor proceeded to inspect the corps, accompanied by Col. Wood and Major Pelletier. Besides reviewing each company, His Honor also inspected the section of the Hall where the ammunition for the use of the Home Guard is kept.

Here 100 rounds per man is in readiness and may be distributed in very short order.

Besides the Home Guard detachments of the Quebec Boy Scouts, including signallers, cyclists and orderlies, in charge of Scoutmaster Stratton, lined up for the review and also took part in the parade. It was the same detachment of scouts who under orders from the Militia Department served in a special manner at the embarkation of the First Canadian Contingent at Quebec. There are thirty of the local Boy Scouts attached to the Home Guard.

At the conclusion of the inspection the Lieutenant-Governor complimented Col. Wood on the splendid appearance of his men. The galleries of the Drill Hall were crowded with spectators during the inspection.

Immediately after the departure of the Lieutenant-Governor and party from the armouries the corps headed by the R. C. G. A. Band started out on the street parade keeping time to the strains of the English Tommys' famous marching song "Tipperary," played splendidly by Quebec's crack State Band.

Following was the route of march: Grande Allee, Parliament Square, St. Eustache Street, Cote d'Abraham, Crown Street, St. Joseph Street, west to Boulevard Langelier, St. Valier East to Cote d'Abraham, D'Youville, Grande Allee, Drill Hall square.

This line of march was chosen out of special compliment to its many friends in St. Roch's and St. Sauveur who have naturally been the least able to follow its progress at the Drill Hall on account of the distance.

In their march out the Home Guard all shouldering a rifle and wearing the Tam-o-shanter and ammunition belt gave a good account of the time that has been taken up in drill exercises and at many points along the route of parade they were cheered by spectators.

O'HARA—MADDEN.

On Wednesday, May 5th, St. Patrick's Church was the scene of a very pretty but quiet wedding when Miss Tillie Madden, daughter of the late Mr. and Mrs. Hugh Madden, was married to Mr. Herbert O'Hara, second son of Mr. Charles Lawrence O'Hara, the Rev. Father Healey officiating. The bride was given away by her cousin, Mr. Charles Rusk, and the groom by his brother, Mr. Arthur George O'Hara. The bride wore a travelling costume of Alice blue with picture hat to match, and carried a bouquet of carnations and maiden hair fern.

After the ceremony the happy couple left on a short honeymoon to Montreal, Ottawa and Toronto.

LECTURE TONIGHT.

Col. Meville Harston will deliver an illustrated lecture at the Y. M. C. A. Hall this evening in aid of the Red Cross Society. Col. Harston's subject, "Journey of a Queen's Messenger Through Roumania, Montenegro, Serbia and Bulgaria," should prove a most interesting one in view of the position of the Balkan States in the present great European struggle.

There is little doubt that a record number will attend and at the same time contribute to a very worthy cause.

A Simple Way To

Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

TERCENTENARY OF INTRODUCTION OF CHRISTIAN FAITH

MONUMENT IN COMMEMORATION IS PLANNED FOR THE PLACE D'ARMES.

Although nothing has been heard recently of the erection of the proposed monument on Place d'Armes Square to commemorate the Third Centenary of the first establishment of The Christian Faith in this country, the committee in charge is active and hopes to have the monument unveiled in September.

Hon. Thos. Chapais, President of the sub-committee appointed to arrange details and raise the amount of money necessary, when spoken to yesterday said that the war had affected the preliminary work to a great extent, but he and the other committee members were well satisfied with the progress being made considering the stirring events which have come to pass since the project was first launched in June last.

Plans have already been drafted for the monument which will be erected in Paris. The base of the memorial will be of granite statue representing Christianity will be a composition of durable material bronzed over. Surrounding the four-sided memorial there will be a colonnade at each corner. It is not the intention of those behind the project to do away with the fountain. The belief prevailed in some sections of the city that when the erection of a monument was first discussed the fountain would disappear, but such will not be the case. A more elaborate fountain will replace the present one and it will be placed in a conspicuous place.

The monument will cost in the vicinity of \$12,000. Three thousand dollars have already been subscribed by the city. The Provincial Government has been requested to donate among others. The committee does not expect to experience any difficulty in raising the required amount.

The fetes to be held in connection with the unveiling will be under the distinguished patronage of His Eminence Cardinal Beugin.

The officers are:—

Sir Adolphe Routhier, President of the general committee.

Mr. C. J. Magnon, General Secretary Monument Committee.

President, Hon. Thos. Chapais.

Vice-Presidents, Messrs. Ernest Gagnon and H. J. B. Chouinard.

Secretary, Abbe A. Garneau.

Treasurer, Mr. J. T. Lachance.

IMPOSING CEREMONY FOR ARBOR DAY

HON. P. E. LEBLANC, LIEUTENANT-GOVERNOR, PRESIDES OVER OFFICIAL CELEBRATION.

The observance of Arbor Day this year was marked by an imposing ceremony which took place at the Exhibition Grounds yesterday afternoon, when a number of beautiful shade trees were planted and a tree nursery was inaugurated in which some ten thousand saplings will be placed and cared for so that they may be used later on to embellish civic property in various parts of the city.

His Honor the Lieutenant-Governor, Hon. P. E. Leblanc presided at the ceremony and planted the first tree. He was accompanied by Major Victor Pelletier, A. D. C., and in the course of the celebration he inspected the Cadet Corps of the Commercial Academy who paraded the grounds and were the object of much flattering comment so well did they march and so trim and soldierly was their appearance.

Trees were also planted by Hon. J. E. Caron, Provincial Minister of Agriculture, Ald. T. Verret, representing Mayor Drouin, Hon. Cyr. F. Delage, President of the Quebec Exhibition Commission, Mr. Justice Choquette, Mr. Wm. Fowler, M.P., Mr. J. A. Langlois, M. L. A., Mr. J. B. Carboneau, M. L. A., Mr. Cyr. Duquet, Mr. Ant. Grenier, Mr. Art. Paquet, Chevalier Martineau, Mr. Jos. Tanquay and others.

Among the other guests who were present at the ceremony were Col. Fages, Lt.-Col. Paquet, Chief of Police Trudel, Fire Chief Hamel, Mr. Nap. Lavoie, Mr. Jos. Morin, Mr. A. L. Gareau, Dr. A. Morisset, Mr. Eug. Rouillard, Mr. Elz. Turcotte, Mr. J. H. Fortier, Mr. J. H. Gignac, Mr. George Morissette, Secretary and Manager of the Quebec Exhibition Commission and many others.

City Park Superintendent Morency had an efficient staff of men on hand to look after the planting of the trees which were North Carolina poplars, an excellent species of shade trees and well adapted to the rigors of Quebec climate.

After the ceremony the Exhibition Commission entertained the Cadets in one of the spacious buildings where refreshments were served.

Hon. Mr. Delage, Mr. George Morisset and the other members of the Exhibition Commission did all in their power to make their guests enjoy their visit to the Exhibition Grounds and the afternoon proved a very pleasant one for all who attended.

Correspondence

THE LIQUOR QUESTION.

To The Editor of The Chronicle.

Dear Sir,—In your today's issue there is a letter on the liquor question signed by W. H. Wiggs,—whilst I have no desire to criticise or to express any opinion on the subject. I should like to point out to Mr. Wiggs that one of his statements is absolutely incorrect, viz. "Lloyd George in one of his recent speeches said, "After several weeks investigation into the evils of drink he was prepared to take the pledge and never touch liquor again." Mr. Lloyd George never said any such thing, what he said was, after his war tax on spirits etc., had been received unfavorably by both friends and opponents "After what he had gone through with regard to this question he could promise never to touch drink again Politically," which is very different to the statement Mr. Wiggs attributed to Mr. Lloyd George.

I am,

Yours Sincerely,

S. CALAM TURNER,

Manchester, England.

French Set to Music.

British soldiers are learning French rapidly. In training camps as well as at the front they are given regular lessons in asking in French for what they are most likely to need. One of the favorite ways of teaching them is to have them repeat words set to catchy music.

Sporting Notes

Baseball will open next Sunday here with Laval vs. Emmets and St. Patricks vs. C.B. Both games will be well worth seeing as the boys have had much more practice this week due to the fine weather.

New York Americans under Wild Bill Donovan are leading the American League and the fans in Gotham are now deriding McGraw and following the fortunes of the Yankees. If Donovan can do what all others failed to do, make the New Yorkers a championship outfit, Stallings will have company in the "Miracle man" class.

A baseball umpire who carries an automatic shotgun is a reality in Kansas City. The official umpire of the North Side pool hall teams made his debut with his armament in the grounds just south of the courthouse. The novel spectacle of a man standing in the centre of the diamond pointing a shotgun at a runner whom he was attempting to halt and send back to second base because of a ground rule providing that a runner take only one base on a passed ball, attracted Prosecuting Attorney Jacobs as he looked out of his office window.

Inquiry showed that the umpire had agreed to be official umpire only on the consideration that he be allowed to carry something with him to defend himself.

The Montmorency Football team which will play 8th R.R. at the Falls, tomorrow afternoon, will be selected from the following:—Martin, Mills, G. Lovett, R. Barnes, Kenworthy, Graham, J. Lovett, Read, Warner, Slater, Campbell, Renzud, Mr. Chas. M. Pike will likely referee the contest.

The "Tipperary" Baseball Club will play against the Latin Class of Levis College next Sunday.

Johnny Corbett, who managed Young Corbett when he won the lightweight title, manager of a Denver fight club, has offered Jess Willard \$30,000 to fight Gunboat Smith there July 4. Willard and Smith are both due in Denver this week.

Montreal beat Richmond again yesterday 14-9. Sounds like an "Esplanade" score.

Larry Lejeune, holder of the world's long distance throwing record, was released by the Pittsburgh National League baseball club to the Sioux City club of the Western League. It was the third time Lejeune had been released by a major league club. His place in centerfield on the Pirate team will be taken by Dan Costello.

Rodolphe Caron the well-known St. Pat's Ball player, who also was prominent in hockey circles has been appointed manager of the B. B. N. A. at Varennes, Que., for which place he left yesterday.

The fifteen-mile mark set by Hanne Kolehmainen in the Monument games Sunday last will not be credited to the Finn, who beat the time made by Jim Crowley some years ago. The International Federation rules, which have been adopted by the Amateur Athletic Union, make Celtic Park a short track.

"Vince" Fusk says, "Duck-pins must have been originated by a pawnbroker because Three Balls are allowed instead of two. Ten balls wouldn't be enough for some bowlers."

TENDERS FOR PUBLISHING DOCUMENTS AND FOR ADVERTISING.

Quebec, 20th April, 1915.

PUBLIC NOTICE is hereby given that sealed tenders will be received from this date until Friday, the fourteenth day of May next (1915), at 4 o'clock P.M., for the publishing of advertisements, Public Works, proposed or adopted, By-laws, Orders of the Day, Minutes of Council Meetings, Committee Meetings, Resolutions or Reports of Council, or Committees, and all documents which the law prescribes to be published, or which the Council may order to be published or whenever required by His Worship the Mayor or the heads of the several Municipal Departments of the City of Quebec, etc., to be advertised in one French and one English newspaper, of the city, from the 1st of June next to the 31st of May, 1915. The prices to be specified for one year and calculated "en bloc" or per line of 24 ems Brevier.

The contractors to whom the contract is awarded shall furnish without extra charge to His Worship the Mayor and the City Clerk to each two copies of their newspaper, two in French and two in English, i.e., four French and four English copies gratis of each newspaper exclusive of the copies for which the city pays the ordinary annual subscription. They shall publish in their papers the proceedings of the Council and of the Committees, the Resolutions and Reports of the Council and of the Committees and Advertisements and Public Notices which shall be sent to them by His Worship the Mayor or by the heads of the several departments of the Municipal service, and all documents which shall be sent to them in execution of the contract, the day after they have received them, and publish them daily until the expiration of the delays mentioned in said notices or advertisements, and if they fail to do so, they shall suffer a penalty of ten dollars, which may be claimed from them by the city for each day of delay.

The contractors shall also deliver to the City Clerk one hundred French copies and fifty English copies in foolscap pages, printed on one side only, of the minutes of all the meetings of the Council, and also of all By-laws published in their columns, without extra charge, and if such minutes or By-laws are published a second time they shall also supply one hundred French and fifty English copies of such second publication when they shall be required to do so.

They shall also (whenever requested to do so) supply the same number of French and English copies of all the Minutes of Committee Meetings, Reports and Resolutions of Council or Committees. Advertisements or Public Notices published in their newspapers. Besides the sum asked for the total amount of the contract, those who shall tender must specify a special and separate price for the publishing of the list of complaints against the lists of parliamentary electors, in case the City should decide to publish them in the newspapers obtaining the contract for advertising.

The tenders to be endorsed "Tenders for Advertising," addressed to and deposited in the office of the City Clerk, from whom all information may be obtained from 10 A.M. to 4 P.M. daily.

The City Seal shall be put at the head of all the notices without extra charge.

The fees for the drawing up of the contract and two copies for the city to be paid by the contractor.

The city does not bind itself to accept the lowest or any of the tenders.

City Clerk.

WHEAT PRICES MAY REMAIN THE SAME

EXPORTABLE MARGIN FROM
INDIA IS LIKELY TO BE
LARGE.

London, May 6.—The British government hoped, said the Marquis of Crewe in the House of Lords this afternoon, that the exportable margin of wheat from India would be sufficient to prevent anything like a panic or a rise in the price of wheat for the current year in this country.

Government interference with the export of wheat from India, the speaker said, was due to the belief that unless some strong action were to be taken a serious position would be created in India owing to the high prices to which the wheat was advancing.

The government was prepared, the Marquis concluded, to take as much wheat from India as it could get in view of what the price of wheat likely was to be in this country.

JAPAN-CHINA SITUATION CYNOSURE OF ALL EYES

(Continued from Page One)

its adherence of the open door policy, and the maintenance of the territorial integrity of China, and points out that there has been "no abatement of its interest in the welfare and progress of China." The "sole interest" of the United States is declared to be that the negotiations between Japan and China "may be concluded in a manner satisfactory to both nations," and thus contribute to "the peace of the world."

The statement was interpreted in some quarters as meaning that while no tender of good offices would be made by the Washington government, the services of the United States were at the disposal of both countries, should they desire the assistance of any third power to bring about a diplomatic settlement of the question at issue.

Cicco-Count Chind, the Japanese Ambassador, and Kai Fu Shah, the Chinese minister, sought separate interviews with Mr. Bryan late today but declined to discuss the object of their visits.

The text of the statement follows: "In order that there may be no misunderstanding of the position of the United States in reference to the negotiations pending between Japan and China the following announcement is made:

"At the beginning of negotiations the Japanese government confidentially informed this government of the matters which were under discussion and accompanied the information by the assurance that Japan had no intention

tion of interfering with either the political independence or territorial integrity of China, and that nothing that she proposed would discriminate against other Powers having treaties with China, or interfere with the 'open door' policy to which all the leading nations are committed.

"This government has not only had no thought of surrendering any of its treaty rights with China, but it has never been asked by either China or Japan to make any surrender of these rights. There is no abatement of its interest in the welfare and progress of China and its sole interest in the present negotiations is that they may be concluded in a manner satisfactory to both nations, and that the terms of the agreement will not only contribute to the prosperity of both of those great Oriental Empires, but maintain that cordial relationship so essential to the future of both, and to the peace of the world."

No remark accompanied the statement nor was there any further explanation of the purpose of its issuance at this time.

UNCONDITIONAL ULTIMATUM

Tokio, May 6.—4.30 p.m.—Official announcement was made here this afternoon that Japan had sent an ultimatum to China.

The Kokumin Shimbun states in its ultimatum Japan stipulates that China must accept unconditionally the Japanese demands.

The newspaper says in an extra edition that this was decided upon by the Imperial Council.

It is understood that the Japanese ultimatum demands acceptance by China of the Japanese demands within a time limit which expires at 6.00 p.m. on Sunday, May 9th.

COPPER COMPANY WILL DISSOLVE

AMALGAMATED COPPER CO.
WILL DISTRIBUTE ITS ASSETS.

New York, May 6.—Stockholders of the Amalgamated Copper Company have received a circular from the president, John D. Ryan, stating that inasmuch as the Amalgamated Company has become merely the holding company of the Anaconda Copper Mining Company, it is proposed to dissolve the Amalgamated Company and distribute its assets.

To effect this dissolution to the best advantage, the Amalgamated has decided to sell an amount of Anaconda stock which will reduce the holding of the company, so that distribution on the present issue of shares of the Anaconda Company may be made at the rate of two shares of Anaconda for one of Amalgamated. To carry out this plan, directors of the Amalgamated have concluded to offer stockholders of record on May 17 next, the privilege of buying one share of Anaconda, at \$2 per share for each six shares of Amalgamated held by them.

Proceeds of the sale of these will provide a sufficient sum of money to ensure the discharge of all outstanding obligations of the Amalgamated Company, and to leave approximately \$3 per share in cash for distribution among the stockholders upon completion of the company's liquidation.

Shareholders of the Anaconda Company will act at the annual meeting on May 19 on the proposal to change the par value of the shares from \$25 to \$50, without change of capitalization, thereby making the authorized capital 3,000,000 shares, par value \$50 each. Requisite amount of stock to effect this change has been pledged in its favor.

When the change has been made and dissolution of the Amalgamated Company is declared operative, distribution of Anaconda stock, of new par value, will be made at the rate of one share for each share of Amalgamated, instead of two of Anaconda for one of Amalgamated, as would have resulted if the present number of Anaconda shares had remained unchanged.

The Amalgamated Copper Company was organized in 1899 and took over the controlling interest in the Anaconda Copper Company, Washoe Copper, Parrot Silver and Copper, Boston and Montana Butte and Boston and other copper mining companies in Montana. In 1910 these were consolidated with the Anaconda Company which increased its capital stock from \$30,000,000 to \$150,000,000 (par \$25) for the purpose.

HEIRESS TO MILLIONS WINS HER SUIT.

St. Louis, Mo., May 6.—A unanimous verdict in favor of the defendant in the Campbell will case was returned by the jury here tonight. The

verdict declares that Lois Campbell, now Mrs. Elzey Burkham, to be the daughter of the late James Campbell, and therefore entitled to half of his \$16,000,000 estate willed her by Campbell.

James Campbell, traction magnate and capitalist willed his \$16,000,000 estate to his wife and daughter, each to get one half. Suit was brought by a sister and niece of Mr. Campbell to set aside the will on the ground that Lois Campbell Burkham was not the daughter of Mr. Campbell but an adopted child.

The Pas, Man., May 6.—An increase of wages to men on the Hudson Bay Railway is announced. The engineers get an increase of from thirty to forty cents an hour, and trainmen from twenty eight to forty two cents an hour, effective from May 1.

AN AMAZING CURE FOR NEURALGIA MAGICAL RELIEF FOR HEADACHE

The Most Effective Remedy
Known is "Nerviline."

The reason Nerviline is infallibly a remedy for neuralgia resides in two very remarkable properties Nerviline possesses.

The first is its wonderful power of penetrating deeply into the tissue, which enables it to reach the very source of congestion.

Nerviline possesses another and not less important action—it equalizes the circulation in the painful parts, and thus affords a sure barrier to the re-establishment of congestion.

You see the relief you get from Nerviline is permanent.

It doesn't matter whether the cause is spasm or congestion, external or internal; if it is pain—equally with its curative action upon neuralgia—Nerviline will relieve and quickly cure rheumatism, sciatica, lumbago, strains, swellings or enlarged joints, and all other muscular aches.

Nerviline is a guaranteed remedy. Get the large 50 cent family size bottle; it is far more economical than the 25 cent trial size. Sold by dealers everywhere, or direct from the Catarrhzone Co., Kingston, Canada.

Application of the Eyes causes
Eye-Strain.

Close application of the eyes to any kind of work is a strain on the eyes and headaches are very often due to that or caused by faulty eye glasses.

When your eyes grow tired after working or reading, be careful and see if your glasses are correct and if you have what you want. In nearly all cases of eye strain or headaches we can give you glasses—fitted properly which will render work quite easy and we charge you nothing for fitting your sight.

All prescriptions of Oculists filled up at once. All compound glasses cut at home at an hour's notice.

TIMBER REGULATIONS.
GOVERNING Timber on Dominion Lands in Manitoba, Saskatchewan, Alberta, and the North West Territories, the Railway Belt in the Province of British Columbia, and the Three and a Half Million Acres Located by the Government of the Dominion in the Peace River District in British Columbia.

Licenses.

A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only at public auction. A rental of \$5 per square mile, per annum, is charged on all timber berths excepting those situated west of Yale, in the Province of British Columbia, on which the rental is at the rate of 5 cents per acre. In addition to rental, dues are charged on the timber cut at the rates set out in section 20 of the regulations.

Timber Permits and Dues.

Permits may be gained in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw-mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of dues at the rate of 30 cents per thousand feet, B.M., and subject to payment of rental at the rate of \$100 per square mile per annum.

Timber for Homesteaders.

Any occupant of a homestead quarter-section having no timber of his own suitable for the purpose may, provided he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of building and fencing timber set out in Section 51 of the Regulations.

W. W. CORY.

Dept. of the Minister of the Interior,
Ottawa, 29th July, 1914.
—65187. Mc.18x6m.

**SYNOPSIS OF CANADIAN
NORTH-WEST LAND
REGULATIONS.**

The sole head of a family, or any male over 18 years of age, may homestead a quarter-section of available Dominion land, in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Land Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties.—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead, on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts, a homesteader in good standing, may pre-empt a quarter-section alongside his homestead. Price, \$3.00 per acre.

Duties.—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price, \$3.00 per acre. Duties: Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

COMMERCIAL NEWS**NEW YORK MARKET.**

(Canadian Press)

New York, May 6.—The foreign

situation was less of a depressing

factor in today's stock market, but

trading was subject to some restraint

and irregular price changes. In the

course of the early decline, leading

stocks went as low or lower than at

yesterday's close, but general im-

provement was shown in the final

dealings, the movement being con-

current with semi-official advices

which suggested some reduction of

the strain between Austria and Italy.

In the main the day's operations

were professional, the trading element

veering from the long to the short ac-

count and back again with such rap-

idity as to make for frequent con-

fusion of prices. Reading and several

other speculative favorites reflected

intermittent pressure, and the move-

ment elsewhere showed a mixture of

gains and losses. Among the war

specialties Bethlehem Steel partly re-

asserted its recent leadership, rising

almost ten points and retaining the

great part of its gain.

Pressed Steel Car, the Locomotive

issues, some of the Motors and Petro-

leums scored advances of 2 to 4

points, but Westinghouse failed to hold

its recent prominence, the company's

proposed financing acting as deterrent

to speculative activity.

United States Steel, Canadian Pa-

cific and other shares in the interna-

tional list were offered in moderate

amounts for London and the contin-

ent. Foreign interests bought lightly

of the coppers, which led the late re-

covery. There were rumors that the

Amalgamated Copper Company is to

dissolve, with resultant benefits to its

shareholders, as well as to Anaconda,

which now controls the operations of

the Amalgamated Company.

News bearing upon the general fi-

nancial situation included the virtual

completion of negotiations for a

\$30,000,000 loan to Argentina, half to

be taken by British bankers, pro-

nounced strength in foreign exchange,

which was attributed to further sell-

ing of our stocks for the foreigners

and improvement in railroad and

labor conditions.

Tial sales of stocks amounted to

616,000 shares.

The bond market was easier, with

some recurrent selling of low priced

issues. Total sales, par value, aggre-

gated \$3,755,000.

GLIMPSES OF OLD QUEBEC

From the Files of THE CHRONICLE, April, 1885 and 1915.

THIRTY YEARS AGO TODAY

NOTES FROM SWIFT CURRENT

Through the kindness of Mr. T. Chase Casgrain, of this city, we are enabled to place the following interesting letter, from his brother, before our readers: Dear Tom, Swift current will be the most important point in the campaign. All the supplies for the troops are sent from here: 170 teams left here this morning for the Saskatchewan loaded down with food for men and fodder for horses. The river is thirty miles distant. The provisions are taken up the river in boats and then transported to Battleford, Prince Albert and other points in wagons. A week ago before the troops arrived here, the Indians, 60 in number swooped down on the place, ransacked the three stores, helped themselves and made off. We have not seen any of them since; the red coats keep them very much in awe. Swift Current is a miserable hole. It is situated in a valley and near a little creek with a very swift current, hence the name. There is a depot, a telegraph office, three general stores, and a round house; you may imagine how quiet it is. The scenery you may think, compensates for the dullness of the locality; on either side of us are immense hills, from the summits of which we gaze on oceans of prairie, as far as the eye can see. All there is to break the monotony of the view are a few Indian tents not a tree nor shrub is to be seen, prairie to the right, prairie to the left, prairie all around.

It is devilish cold at night here though, the water is so warm in the creek that we go bathing every day, but when night comes we are obliged to wear our overcoats and sleep under five or six blankets. I do not find all the comforts here that I did at home under the paternal roof, but I like roughing it for a while, there is a certain charm in this way of living, free and easy, come and go when you please, do what you please, and wear whatever your fancy suggests. Gen. Laurie of Halifax, is in command of this post. Dr. Roddick of Montreal is the Surgeon-General. I am second in Command to him. I have three Canadians from Quebec on my staff. Pelletier of your City, Cloutier of St. Anne, and Murry, brother of Denis Murry of Quebec. They are all jolly fellows and take life easy.

A HUNDRED YEARS AGO TODAY

NON OBEDIENCE OF CORVEE.

It may not be to the knowledge of our 20th century readers that Corvee was in vogue in the Province of Quebec 100 years ago. From these columns of that time there appears the following:—"Headquarters, Quebec. His Majesty's Service having suffered much delay in the transport, during the last year by either non-obedience of the Militia men ordered on Corvee, or by want of due attention in the Captains of subordinate officers of Militia, in issuing their orders in conformity to the law of the Province, in consequence of which a greater proportion of the necessary duty, in the transport service was unjustly sustained by the willing inhabitants. To prevent which, in future, each Captain of Militia is hereby strictly enjoined to pay strict attention to conform to the law in issuing his orders on receiving the requisition of the Commissary of Transport, or other officer authorized thereto, and to take care that each and every of his subordinate officers do the same. Every Militia man reported, to have been ordered on Corvee for the Kings Service, not appearing according to the report, will be prosecuted according to law, and every officer of Militia failing in his duty, will suffer the penalty which the law inflicts for the offence. By order of His Excellency, F. VASAL DE MORVIEL, Adj. Gen. M. F.

To the Captains and Officers
Commanding Companies.

MONTHLY MEETING OF THE QUEBEC BOARD OF TRADE

(Continued from Page Three)

suggested that, if there are terminal works in Quebec, such as deep water docks, elevators, etc., essential to the proper working of this railway still to be done, some of which we understand were agreed upon between the late Government, or its Commission, and your Company, they should be done by the Government, without delay.

If it is your intention to direct the summer traffic of this railway to Quebec and its winter traffic to Halifax and St. John, I am to say that the Quebec Board of Trade will be glad to do everything in its power to help to bring about a satisfactory solution of the present difficulty, and will be pleased to learn what terminal works you still require here.

The favour of a reply will oblige, Yours truly,
T. LEVASSEUR,
Secretary.

Quebec, April 26th, 1915.

E. J. Chamberlin, Esq.,
President Grand Trunk Pacific
Railway, Montreal.

Dear Sir,—A delegation from the Boards of Trade of Quebec, Halifax, St. John, Moncton, and Winnipeg will, in a few days, interview the Government at Ottawa, respecting the operation of the Transcontinental Railway. The delegates will urge upon the Government the importance of the early operation of the Grand Trunk Pacific Railway of the transcontinental line of railway from Winnipeg to Moncton.

If there is something which you would like that we would point out, or representations which you would think proper to be made by the delegates to the Government on behalf of your Company, please be kind enough to let us know.

A reply to the letter which I have addressed to you lately, including copy of a memorial sent by the Quebec Board of Trade to the Hon. T. Chase Casgrain, on March 27th, respecting the Transcontinental Railway, would very much oblige.

Your most obedient servant,
T. LEVASSEUR,
Secretary.

Grand Trunk Pacific Railway,
Montreal, Canada.
E. J. Chamberlin,
President.

(Copy.)
T. Levasseur, Esq.,
Secretary, Quebec Board of Trade,
Quebec, Que.

Dear Sir,—I have your communication of the 26th, relative to Transcontinental Railway.

The Transcontinental Railway is not yet completed in accordance with the contract between the Government and the Grand Trunk Pacific Railway, and probably will not be during the year 1915; thereto, we are not in a position to discuss matters such as referred to in your letter.

I understand, however, indirectly, that the Government contemplate shortly putting on at least a limited service between Moncton and Winnipeg.

Yours very truly,
(Signed) E. J. CHAMBERLIN,
President.

Delegation to Ottawa.

The Quebec Board of Trade having suggested a delegation of the Boards of Trade of Quebec, Halifax, St. John, Moncton and Winnipeg to interview the Government at Ottawa, respecting the operation of the Transcontinental Railway, a telegram was received from the Halifax Board of Trade, to the effect that as the Transcontinental Railway would shortly be running a delegation would be inopportune at present.

Wharf at St. Pierre des Beccquets.
Mr. A. Plamondon in a short address asked the Board to urge on the Dominion Government the construction of a wharf at St. Pierre des Beccquets, county of Nicolet. He said that if a wharf was built there the steamers of the Canada Steamship Lines would stop there, and farmers would be able to bring their produce to Quebec, dispose of it and return home the same day. At present, they have to take a small steamer and they lost two days in making the trip.

The President said the Board had already taken action in the matter. It had written Mr. Henry, of the Canada Steamship Lines, asking him if a wharf was built at St. Pierre des Beccquets, would the steamers of the Company call there. Mr. Henry replied that the question would have to be referred to the Board in Toronto, and so soon as he received a reply he would send it to the Board of Trade in Quebec.

If, the President added, the Company replied in the affirmative, the Board of Trade would strongly support the building of the wharf.

New Members.
The following were elected members of the Board:

Messrs. Charles J. Dube, contractor, Sillery; W. J. B. Fraser, lumber merchant; Philippe Furois, broker; J. J. Leonard, manager of the Eastern Canada Steel Co.; Ian Breakey, lumber merchant; A. G. Campbell, manager of the Canadian Bank of Commerce (Quebec branch); Sir Chas Ross, proprietor of the Ross Rifle Factory; Gaspard Huot, dry goods merchant; Reginald Beckett, of Dobell, Beckett & Co.; R. E. Lefavre, of Lefavre & Gagnon, curators.

The meeting then adjourned.
Following members were present: Messrs. Joseph Picard, president; J. G. Scott, first vice-president; Apollinaire Plamondon, C. A. Paradis, N. Gilbert, J. O. Chalfour, M. Joseph, J. H. Fortier, C. Tessier, A. Eventurel, N. Kirouac, John J. Boyce, G. J. P. Moore, Goe. O'Dowd, M. Monaghan, A. Lesage, and T. Levasseur, secretary.

ITALY'S POSITION.

Statement Is Prepared In Case She Joins The Allies.

Rome, May 6, via Paris, 1.40 p.m.—In addition to military preparations, the Italian government government is taking all measures possible in a diplomatic way in anticipation of a possible outbreak of war.

Foreign Minister Sonnino has prepared a long statement for publication the moment Italy joins the Allies, in case she decides upon this action. This statement is designed to justify Italy's action before the world. It sets forth the historical, racial, economic and strategic reasons influencing the nation, and dwells upon the "intolerable position" of Italy in the Adriatic and on her eastern frontier.

Riccardo Bollati, Italian Ambassador at Berlin and an intimate friend of Herr Von Jagow, the German Foreign Minister since the time they were both in Rome, has been bending every effort to preserve the neutrality of Italy. Duke D'Avarna, Italian Ambassador at Vienna, has been working in the same direction. He has been accused by Italians of having become Austrian in his sympathies, so consistently as he endeavored to bring about an Austro-Italian agreement.

IRISH NATIONALISTS

OPPOSE NEW TAXES

London, May 6.—The determined opposition of the Irish Nationalists and the Independent Irish National, who joined the forces today to oppose the new liquor taxes of David Lloyd-George, Chancellor of the Exchequer, forced the government to postpone until next week the second reading of the bill embodying the Chancellor's plan.

Both Premier Asquith and Mr. Lloyd George pleaded the necessity of expenditures action, but the Irish members insisted that the bill should not be carried further until they were assured that the government had decided to abandon the super-taxes.

Mr. Lloyd-George announced that his negotiations with the liquor interests were making good progress and that he hoped an arrangement satisfactory to all parties would be reached within 24 hours.

NO FURTHER SHELLING

OF DUNKIRK.

Paris, May 6.—General Eydoux, military governor of Dunkirk, issued a statement today to re-assure people of the city that there was no longer danger of a renewal of the bombardment such as was directed against Dunkirk on two days recently by the Germans. The statement says:

"The continued exodus of inhabitants as a result of the recent bombardment might cast doubts on the calm self-possession shown thus far. The positions of the Allies are intact and the situation on the Belgian front is excellent.

"Measures have been taken to prevent a further bombardment by heavy guns. The result of these measures can be seen and the inhabitants of Dunkirk need only to remain quietly at home. Nearly all the victims of previous bombardments were killed in the streets and all that is needed is to seek shelter if the bombardment is renewed."
