**You shake down the ashes — not the coal — in the "Hecla" Furnace**

There are four grate bars in the "Hecla" Each one can be shaken separately.

You don't have to shake the whole fire to get out the ashes around the edges of the firepot. You don't shake down a lot of good coal with the ashes. You don't have to use a poker at all.

The "Hecla" Triangular Bar Grate allows you to shake just the part of the fire where the ashes are, without disturbing the rest of the coals.

Naturally, one grate is easier to shake, than four all geared together. That is why people find the HECLA "no trouble to look after."

Fuse! Joints—a patented "Hecla" feature—keep the house free of gas, smoke and dust.

Write for free copy of our new catalogue which describes these and other special features.

**CREAM OF THE WEST FLOUR**

You are always safe in buying "Cream of the West" flour. Never varying in quality, the contents of one bag are exactly like the contents of every other bag—always up to the standard.

"Cream of the West" flour is made from only the hardest of hard Manitoba wheat, by the full Hungarian process. It fairly exhales the essence of prairie strength and purity.

"Cream of the West" is a home flour—nourishing, toothsome, and the standard for the housewife who prides herself on her baking. That's the reason why grocers recommend it.

**"Fruit-a-tives" Can be Had in 25c. Trial Size**  
AS WELL AS IN REGULAR 50c. BOXES.  
Everybody Can Afford To Give These Wonderful Tablets a Trial at Least and Prove Their Value.

"Fruit-a-tives" or "Fruit Liver Tablets," the wonderful medicine made from the juices of ripe fruits, have scored a remarkable success. The demand for them has grown in four years till it now extends from the Atlantic to the Pacific. Druggists at first bought them in lots of one dozen boxes—to retail for \$6.00. Now it is no uncommon thing to receive orders from wholesalers for 100 gross lots (14,400 boxes)—to retail for \$2.00.

There is only one reason for this great success—they cure sick people.

But still there are homes where "Fruit-a-tives" have not been tried—homes where they still suffer from Constipation, Biliousness, Kidney Trouble, Skin Diseases, Neuralgia, Rheumatism and kindred painful and weakening ailments—often because they have not cared to risk 50c. to try "Fruit-a-tives" when other medicines—supposed to cure—could be had for 25c.

This last objection to trying "Fruit-a-tives" has now been overcome. We have put out a new trial size to retail at 25c. The price no longer stands in the way. Get a trial box and see for yourself that "Fruit-a-tives" will help you.

If your dealer has not the 25c. trial size, let us know. Give us your name and address and we will send you a booklet—free—containing valuable results and stories of what "Fruit-a-tives" have done. Fruit-a-tives Limited, Ottawa, Ont.

**EXAMINATION RESULTS OF DANVILLE ACADEMY.**

**Ninety Per Cent of Pupils Have Been Successful.**  
RETURNS, REFLECT GREAT CREDIT ON MANAGEMENT OF INSTITUTION.  
Danville, June 22.—(Special.)—The results of the June examination have been received from the Department of Public Instruction, and shows that out of the 60 pupils presented at the examination 54 or 90 per cent. are successful. In 1905 32 pupils were presented, of whom 17 passed; in 1906, 38 out of 47, and last year 27 out of 46 were successful. The average percentage taken by the pupils this year is also much higher than that of former years.

The following pupils arranged in alphabetical order, have passed their respective grades:

Grade III, Academy (A.A.)—Ronald F. Brown, 641, Alberta R. Elliott 615, Florence E. Wilson 636.  
Grade II, Academy—Eva Baker 669, Harry Barnard 406, Mary Carson 797, Muriel Goff 516, Kenneth Ingal 701, Merrick McCracken 702, Stewart Riddle 735.  
Grade I, Academy—The following names are preceded by a cross did not take the full course.  
Grade I, A.—Irma Duncan 869, Raymond Dunlop 635, Gordon Kidd 938, Myrtle Lay 1022, May Marston 887, Hazel Silver 950, Egerton Smith 1069, Harold Thorpe 797.  
Grade II, Model—Oral Barnard 806, Mary Boyd 875, Mildred Burbank 872, George Cross 942, Marguerite Cottingham 888, Bertha Goodenough 977, Laura Hebert 878, Charles Horan 1007, Curtis Leet 957, Winifred Leith 729, Kenneth Murray 1022, Willie Murray 1029, Annie O'Leary 1008, Mabel Brotherton 839, Ruby Philbrick 1056, Dale Philbrick 826, Isabel Riddle 854, Kathleen Riddle 1019, Alice Wilson 1068.  
Grade II, Model—Grace Brown 824, Willie Carson 974, George Carson 888, George Gelling 642, Fred, Gifford 874, Nellie Gifford 821, Irene Moore 775, Alice McKeane 1009, Stewart Messenger 821, Winnifred Pope 988, Margaret Richey 657, Theodore Smith 932, Robert Smith 797, Howard Stockwell 847, James Stockwell 922, Katie Soutar 975, Grace Shaw 994.  
In Grade III, A, there were no failures; in Grade II, A, no failures; in Grade I, A, 4 failures; in Grade III, M, 1 failure, and in Grade II, M, 1 failure.

These results are not the best in the Province, neither will Danville Academy stand any higher in the list than it did last year. It may be even lower, but there is not another academy in the province located in a village the size of Danville, where only four teachers are employed in the whole school, and where there are only two teachers to do all the work of all the grades whose papers are corrected. Quebec can show much better results.

The Academy will reopen on Tuesday, Sept. 1st, and pupils who desire to attend during the coming season are earnestly advised to commence at the beginning of the session and to take the full course.

**COATCOOK LIGHT QUESTION SETTLED.**

**Council Have Come to Agreement With Penman Company AND HAVE DECIDED TO SECURE ADDITIONAL POWER AT COST OF \$2,000.**  
Coaticook, July 22.—(Special.)—The matter of additional power for electric light purposes which has been so long under discussion in Coaticook, has been settled by the Council. A few days ago a delegation from the Council met the directors of the Penman Company in Montreal and discussed with them the purchase of power. The Council was rather undecided to buy some 27 feet of head which is owned by the Penman Company. The Company had already signified its willingness to sell what power it felt it could spare at \$125 per foot of head. The Council, through its committee, offered to give \$2000 for some 18 feet of head which it obtained in some 430 feet long the stream, or the sum of \$3000 for 23 feet of head, which could be acquired by going further down. The company decided not to sell more than 23 feet and accepted the offer of the Council of \$2000 for this quantity and agreed to lease them for a long term of years at a nominal rental, ground for an electric light station further down the stream so that power could be utilized to better advantage. At a special session of the Council just held it was agreed to make a purchase at the \$2000 figure and this will likely be done. How soon this power will be utilized by the Council is not now decided. The Council has had Mr. R. Arley, of Sherbrooke and a civil engineer from Montreal looking over the property with a view of finding the best place to put the station to deliver the power. Having secured an available supply for the future they may continue as they are now doing until there is a more pressing need of further power to run their plant.

**OF INTEREST TO THE PUBLIC.**  
The General Baggage Department of the Grand Trunk Railway System has issued a summary of the rules and regulations governing baggage car traffic for the guidance of baggage masters, station and train baggagemasters on the entire System, and this pocket manual pertaining to their duties is designed to provide not alone for the usual conduct of the business, but action desired in case of all kinds of contingencies, and perplexities which may assail the employees of the Baggage Department.

The Manual consists of 68 pages, and an examination of the book indicates the very important part the Baggage Department of a great Railway system plays in the conduct of the passenger traffic, the assurance that passengers may feel that their belongings which accompany them in the baggage car are being carefully watched, and that the liability for the loss either temporary or permanent is arriving at the disappearing point by the foresight and care exercised in directing the operation of this important branch of the service.

There is a distinct effort made in this book to have ever present in the mind of the employee of the Baggage Department that his first duty is to the public, and to illustrate this, on the first page of the book appears such clauses as the following:

The relations and responsibilities of common carriers to the travelling public are such as require from the carrier the most constant and watchful care of the property of the traveller.

"As Station and Train Baggagemasters you are entrusted with the safekeeping and proper transportation of effects which are valuable to the owners. Nothing can be more annoying to travellers than the loss of, or abuse of or delay to their baggage.

"You must try to give satisfaction to the public and establish a reputation for courtesy and civility to everyone. You are expected to be polite at all times, to answer civilly all questions addressed to you, and if unable to give any necessary information, endeavor when practicable to obtain it, if pertaining to baggage car traffic, if not, the passenger should be directed to the proper office. Endeavor to make the Grand Trunk Railway System popular: its business is dependent upon the good-will of the people.

It is expected that in this manner the employees of the Baggage Department will appreciate that in serving the public intelligently and well, they are serving their employers equally, as without this spirit to co-operate, neither the public nor those in charge of the different Departments of a great Railway System are reasonably satisfied.

A NEGRO BANDIT LEADER.

(From the Seattle Post-Intelligencer.) A war of extermination against the bandits in the Island of Negros, in the Philippines, with the killing of several hundred natives, is the prediction of Rev. Harry Maxfield, missionary of the Tabernacle Baptist Church to this island, who is now at home on a furlough.

"The bandits of the island gave the Spaniards trouble for eight years, and it was only a year ago that our troops wiped out the leader and broke up the band," said Rev. Mr. Maxfield.

"The leader of the band was an ox driver named Dionis, who was opposed by the Spaniards in 1890 and fled to the hills, where he quickly gathered a band around him. The band he later increased to several hundred men. In 1900 he could muster 2000 men."

"After that the bandits, who were superstitious, obeyed every command. Every time they began to forget their obligations to the Spaniards, the Spaniards would appear and frighten them again. Finally they were stirred up to such a fanatical frenzy that they would do anything for the pope. In a battle with the Spanish troops in 1896 200 soldiers were killed. When the Americans took the islands Papa Ysio was his height, but the troops drove him into the mountains. Later the troops were recalled from the islands and the native outfits left in charge."

#### DANVILLE.

Mr. George Connelly has sold his large farm situated about four miles west of Danville to Ferdinand Martel, of St. Alplage. Price, \$10,000. Mr. Connelly has since purchased from Col. O. E. W. Hunter his house and lot on Depot street for the sum of \$2,500, and is to take possession on the 1st of October next.

#### WILSON'S MILLS.

Mr. S. Anderson has sold the vacant lot adjoining Mr. R. Anderson's to Mr. Gould for the sum of \$1100.

#### HOW LONDONERS GET ABOUT.

A survival of what might be called class travel—the first, second and third class cars of Europe's steam roads generally and our own day and Pullman coaches—still persists in the London subway to the extent of first and third class coaches. Formerly, there were also a second class, but the different class cars are steadily being abolished, and it is only a matter of time when they will be done away with altogether, and all the lines of the system run on what is known as the tramway method—that is, at one price for all cars. Special tickets are issued on all the railways to workmen at about twopenny—4 cents—for the round trip to and from work, and

thus the London underground railway give to the laboring classes in London some of the cheapest transit facilities known.

It is interesting in passing to note some points in the report of the companies operating this system. The underground railways carried in 1863 17,000,000 passengers; last year, over 300,000,000. The total London omnibuses carried in 1863 80,000,000; last year, over 500,000,000. The surface cars carried 46,000,000 in 1875, and about 500,000,000 last year. The cabs had 50,000,000 fares in 1879; last year the number was 60,000,000. In other words this populous city supplied almost 7,500,000,000 fares.

It will be seen that the enormous increase in the passengers carried by the subways, tram cars and omnibuses has not cut down the cab business, which is such a distinctive feature of London life. As it is, the cab patronage has increased.—Philadelphia Record.

### WRITERS OF HER TRAVELS IN EUROPE.

Miss Mary Bacon, who has been travelling in Europe with a party of friends, writes home most interestingly of the various interesting places she has visited. One of her recent letters was from Nice in the south of France, and the following extracts serve to give an idea of that land of flowers.

"Your letter finds us in a foreign country, but one where the entente cordiale is supposed to be strong and growing. I shall have to confess that I think it is not at all developed among the lower orders of the south of France, whatever it may be in the north. We have been here nearly five weeks, and like Nice very much. Three weeks of delightful weather were followed by one week of heat so outrageous, prostrating heat, which upset us all. Fortunately, it rained yesterday, so the weather has cleared and become delightful again, even cool, which is grateful to our weary brains and bodies dazed by the sudden heat.

We had a very pleasant winter in Grasse. Made some agreeable acquaintances and had many delightful excursions and drives when all were well enough. Grasse is a frontier post, and there are always plenty of young officers at the balls and dances, who enjoy dancing with our young people. The latter took part in a battle of flowers at the carnival at Cannes. They had a large laudat with seven young people in it, all dressed in white frocks and red ribbons. The carriage was all red and white flowers. The girls made Hawaiian wreaths (or "lees") of red carnations for each one to wear on her simple white hat, and the ensemble was very pretty and effective. Mrs. W. Miss C., and I had another carriage and went out to look for had to fall into the procession and found it great fun also. Last Sunday, two of our party went back to Grasse to stay with some English friends and visited a "perfumerie" to see the roses.

"They walked knee deep in roses, enjoying the sensation immensely, of course. It being a good rose year, there will be 200 women working knee-deep in roses in that one 'perfumerie.' It was a poor violet year, and the violets were not even ankle deep, on the floors, but even so, it was well worth visiting for the wealth of color, and perfume. There are covered walks and to all the houses in this block, in Nice long walks, too, and over all the trellis work are climbing roses, red, white and pink.

"One lemon tree is covered with long trails of pink roses among the lemons which are still there together with the fresh buds. Orange trees are everywhere, and it is all very lovely, and very like Hawaii—the same tropical foliage, palm trees, etc. The backs of these houses are all as neat as the fronts, and there is another row facing our backs, so we rejoice in front yards and gardens both back and front, with rose covered trellises in delightful profusion. The private residences are, of course, very beautiful.

"We intended going to Milan en route to Geneva and then to Bern before settling down in Zurich, leaving Italy for the autumn, but a sudden change of plans takes us to London for the summer, and we hope to re-

turn and go to Switzerland in August."

### FUNERAL OF THE LATE MRS. J. CAMPBELL.

There was a sad gathering of friends and neighbors yesterday afternoon at the home of Mr. J. W. Campbell, Island street, to pay the last tribute of respect to the late Mrs. Campbell, whose death occurred on Saturday after a short but severe illness. The Rev. William Millar officiated and conducted the simple service most impressively, and the familiar hymn, "Nearer My God to Thee," was rendered by an improvised choir.

The mortal remains were laid to rest in St. Peter's cemetery, on Prospect street. The mourners were Mr. J. W. Campbell, husband of deceased, Messrs. George Mahon, brother, E. J. King, T. H. Edney, John Campbell, brothers-in-law, Edward King, Thomas Edney, William and John Campbell, nephews.

The pall-bearers were Messrs. James Sanger, Andrew Sanger, J. F. Reid, of Victoria Lodge, A.F. & A.M., J. W. Bean, Jas. Lowe and C. A. Cummings, of Unity Lodge, I.O.O.F. The following were bearers: Messrs. Jas. Wiggitt, John Dempster, E. S. Stevens, of the Masonic fraternity and M. Lothrop, F. P. Houlihan and Jas. Johnston, I.O.O.F.

Among the lovely flowers which lay upon the casket, was a beautiful tribute from Unity Lodge, I.O.O.F. The late Mrs. Campbell was born Maria Mahon, in Glendalock, Dublin, Ireland, and came to Canada some twenty years ago, and had been married thirteen years. When her illness was seen to be of a serious nature, she was taken by advice of her physician to the Sacred Heart Hospital, where she received every care and attention that love could suggest, or medical skill furnish, but the malady had taken too deep a hold and she sank quietly away.

Her sudden and untimely demise has plunged a happy household into the deepest sorrow and she will be sorely missed by the friends to whom she had endeared herself by her kind, cheerful disposition, and personal worth. She is survived by her husband and three little daughters, the oldest twelve years of age, her mother Mrs. Mahon, of Richmond, two brothers, George and Roger Mahon, the latter in the United States, and three sisters, Mrs. E. J. King, Mrs. T. H. Edney and Mrs. W. J. Graham, Richmond.

### SASKATCHEWAN ELECTIONS.

#### POLLING WILL TAKE PLACE ON AUGUST 14.

Regina, Sask., July 22.—The first Legislative Assembly of the province of Saskatchewan dissolved yesterday and writs were issued for a new election. Nomination day has been fixed for Friday, August 7, and polling a week later, August 14.

The reason for the dissolution at this time, as based on the Government, is to give the earliest possible effect to the new redistribution, increasing the membership in the Legislature from 25 to 41. The intention is to hold a fall session, and if the present under-represented portions of the province are to be given their proper representation therein, an election must be held immediately, so as not to have it conflict with an impending early harvest.

At the fall session it is proposed to pass a new municipal act for the rural communities, and it is considered of the utmost importance that all sections of the province should be adequately represented and pass upon this new measure, which will be of moment to all the people.
