

GREAT VOLUNTEER REVIEW.

28,000 Men Inspected by the Queen at Windsor Park—Enthusiastic Reception of the Royal Family.

London, July 10.

The great Volunteer Review at Windsor Park yesterday came off successfully. There were more men under arms—58,000 all told—than ever mustered at one time on British soil since King Edward marched to the invasion of Scotland. The volunteers were drawn from 119 regiments in England represented by twenty-eight counties, and Wales by two, Glamorgan and Pembroke.

There were no volunteers from the north of the Tweed, but Scotland was represented by Lord Elcho's old corps, the London Scottish, under Colonel Ramsden, and Ireland by the London Irish, under Colonel Ward. The War Office maintained its prestige for glandering, space set apart for the field being altogether too small for handling so large a body of men. The transport service, too, broke down as usual, and 1,000 men who had neither bite nor sup during the day swore like an Army in Flanders. There was no sham fight, but the troops were put through a number of field exercises, displaying great steadiness and intelligence.

The Queen, escorted by a squadron of the Royal Horse Guards (Blue), drove to the ground at 5 p. m. Her Majesty was accompanied by Prince Leopold, the Princess Beatrice, attended by a large Staff, including Sir Garnet Wolseley and Sir Frederick Roberts. In the next carriage came the Princess Louise attended by Lady Sophia MacNamara and Captain Collins. Then came the Crown Prince and Princess of Germany, the Duchess of Edinburgh and suite, the Duchess of Connaught, Princess Christian, Duke and Duchess Teck, Count Gleichen, Prince of Leiningen, and the Foreign Ambassadors: King Ruzskiana of the Sandwich Islands, occupied one of the Royal carriages. The Princess of Wales attended by Lord Colville, Hon. Mrs. Francis Stonor, Lady Suffolk, Hon. Mrs. Arthur Hardinge, and Lady Emily Kingscote, drove up shortly afterwards, and was received with enthusiastic cheering—the multitude having in mind the report which an exchange *canard* circulated a few days ago that her eldest son, Prince Albert Victor, had been drowned at Melbourne.

As the outriders to the Queen's carriage, which was drawn by four grays, were trotting up from the Castle into Great Park, the Royal standard was run up on the flagstaff. At saluting point the bands, forty-five in number, played the National Anthem, and the Volunteers, drawn up in long lines, presented arms. While the Artillery Batteries fired a salute, heard distinctly at Primrose Hill.

The Canadian riflemen, practicing at Wimbledon, were on the ground not far from the royal flagstaff, their shako decorated with maple leaves. Col. Gibson, their commander, who won the Prince of Wales Prize at Wimbledon last year, was cordially received. Among the foreign officers present were Generals Crawford and Schofield, of the United States. The Prince of Wales, who rode at the head of the Artillery Company, of which he is honorary Colonel, received a perfect ovation from the boys from Eton, who occupied a tented square of their own not far from the Queen, giving him "nine cheers and a tiger." The sun shone out brilliantly as the infantry regiments headed by the Prince of Wales's corps began to file past, the officers saluting Her Majesty as they passed and the bands playing "God Save the Queen."

When the last man passed the saluting points the regiments formed into two vast semi-circular lines and the Queen and Royal family drove through them, the troops presenting arms, bands playing and artillery firing a salute. At 8 o'clock the Queen drove off the ground. The Duke of Cambridge, on her behalf, thanked the commanders. The Queen looked her best and seems to have grown younger during her voluntary retirement from public life. The Duke of Cornwall, looking the beau ideal of a soldier, was at the head of the first brigade of the second division and was the lion of the day.

NOVEL MARINE PUMP.

How a Steamer Five Years Under Water was Raised.

Garden Island, Kingston, July 8.

The steamer Wellington, which has lain sunk in the bay here during the past five or six years, was pumped out and placed in the Marine Railway yesterday to be rebuilt. The pumping was done by rather a novel contrivance. A large box seemingly about fifteen feet long and four or five feet square was placed in the hold of the steamer. Inside this huge box was fitted a cast iron plunger with the necessary valve and a ponderous iron connecting-rod. Leading from the top of the pump to the deck of the propeller William Johnston was an immense chute. A chain running over suitable sheaves in this chute connected the pump with an iron barrel, and steel wire ropes worked by a set of engines which are on the deck of the Johnston. The apparatus had a stroke of from six to seven feet, and the rush of water each time the ponderous plunger came up was a regular Niagara Falls in miniature. It was asserted by the bystanders that a dozen ordinary steam pumps could not throw the water that this apparatus did. At one time, by request, the machinery was stopped for ten minutes, during which time the water rose two inches in the hold of the Wellington thus proving that an ordinary steam pump would have had no effect on her. This novel method of raising a sunken craft was contrived by D. D. Calvin, M.P.P., of Frontenac. Possibly it may solve the problem of pumping out dry docks, which hitherto has proved so formidable.

THE CONDITION OF THE PRESIDENT.

Washington, July 9—11.45 p.m.

Although the pulse and temperature of the President were rather higher yesterday than the previous day on account of the process of suppuration which is now going on in the wound, he passed a very comfortable day. The suppuration will probably continue, Dr. Reyburn says, several days, with the slightly increased fever which it causes. It is, however, a perfectly natural process, and one which was anticipated at the present stage of recovery. The increased pulse and temperature, therefore, shown by the official bulletin need cause no alarm. There is a certain amount of injured tissue along the track of the ball near the external opening of the wound which must come away in the shape of a discharge. The wound has been twice antiseptically dressed to day, and the patient repeatedly sponged all over with a weak solution of carbolic acid in water applied by means of a hand atomizer. These spray sponges have been a source of great refreshment, and add very materially to the President's comfort. The weather to-day was much cooler than yesterday, so that the comparative failure of the different methods of artificial refrigeration was not so unfortunate as it might otherwise have been. A force of fifteen or twenty men from the navy yard is now at work in the basement putting in a steam fan or blower by which pure, artificially cooled air can be forced into the President's room in such quantities as may be necessary. Two city fire engines are also at work under the direction of an officer of the navy who is experimenting upon the production of cold by the liberation of compressed air. One or the other of these methods of supplying the President's room with cool air will be put into effective operation to-morrow.

When the bed was changed on Wednesday he was carried in a linen sheet to the new couch. The work was done very carefully, but the motion and excitement increased the pulsation. Dr. Bliss will not risk moving him again until he is better. The head of the bed upon which he is resting is above the window sill of his room, so that he can see the trees in the grounds of the White House, the printing bureau, and the Washington monument while the Potomac forms the background to the picture.

London, July 8

A Paris correspondent says that only one corps of the French army will be mobilized at present.

THE GOVERNOR-GENERAL AT HALIFAX.

A Regatta on the Harbour, etc.

Halifax, July 9.

Yesterday was partially observed as a holiday, the Mayor having requested the citizens to observe it as such, owing to the regatta coming off in the harbour in honor of the visit of the Governor-General. The water was in capital condition, but the weather was unpleasantly warm for spectators, notwithstanding which the dock yard, which was thrown open to the public, was occupied by an immense crowd of people during the day to witness the contests. Schooners, sailing vessels, and boats of all descriptions on the harbour were crowded.

There were twenty-four races in all, occupying from ten o'clock in the morning till six in the evening. The prizes in most cases were small, and the contestants principally amateurs. The best contested matches were those for man-of-war boats, which attracted much attention. In one race for man-of-war boats, all comers, ten boats started, six of them from the English war ships and four from the French. After a desperate struggle, the first prize was won by a boat from the flag ship Northampton, the four following boats being French.

The yacht race for the Governor-General's Cup, sailed by members of the Nova Scotia yacht squadron, was undecided owing to a number of protests. Twelve boats took part in the race.

The Governor-General was on the harbour for a time in the Admiral's steam yacht, and afterwards went on board the flag ship, where a brilliant party were assembled in the afternoon. There was also a large party on board H. M. S. Tenados. In the evening the Governor-General attended an open air concert in the public gardens. Three bands of music were present, and a large concourse of people. The gardens were illuminated. After the concert His Excellency went to the Academy of Music, and witnessed the play "The World," by the Fifth-avenue Theatre Company.

SHARP PRACTICE OF AN ENGLISH TURFMAN.

LONDON, July 9.—The Jockey Club have decided that Mr. George Low, owner of the bay colt "Barcardini," be warned off all places where the rules for racing are in force. This action is in consequence of the scratching of the colt in the race for the Northumberland plate which took place on June 29, in which "Barcardini," was favorite in the betting, and on account of Mr. Low's despatch to Sir John Astley, in which he asked the latter if he could manage to send him 1,000 not to start, or get for him 12,000 to 1000 to win, adding "reply to mutual advantage."

Ayer's Cathartic Pills.

For all the Purposes of a Family Physic.

CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Headache, Erysipelas, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other pills. They are safe and pleasant to take, but powerful to cure. They purge out the real humors of the blood; they stimulate the sluggish or disordered organs into action; and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most skillful physicians and eminent clergymen, and our best citizens, send certificates of cures performed, and of great benefit derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar-coated, they are easy to take; and being purely vegetable, they are entirely harmless.

PREPARED BY DR. J. C. AYER & CO., Lowell, Mass. Practical and Analytical Chemists. Sold by all Druggists and Dealers in Medicines. July 12, 1881.

Unfurnished Room Wanted.

Low Prices Invariably Signify Poor Quality.

Families using beverages such as ALES, PORTER and LAGER BEER, should see that the article is actually made from

HOPS AND MALT.

From letters in the Quebec press lately, chemists say Cheap Ales are made from Glucose, which, they claim, is injurious to the system and productive of Bright's disease, diabetes, &c.

PURE MALT AND FINEST HOPS

are used in the manufacture of

MOLSON'S XXX PORTER and INDIA PALE ALE.

But I cannot afford to sell these beverages of First Quality for less than

XXX Porter, quarts, \$1.20; pints, 75c. India Pale Ale " \$1.10; " 70c. 30 cents per gallon in wood.

The difference in price from an inferior article is made up in quality.

Carling's London Ales,

Equal if not Superior to others.

REINHARDT'S LAGER BEER,

The only Genuine LAGER from the first Brewers of that beverage in Canada.

You can't say depend on Purity and Quality.

McCarthy's Prescott Ales, &c

In addition to the above, I can supply the ordinary Ales and Porter from 75 to 90 cents per dozen. None genuine unless labelled

WATSON PACKING CO'Y.,

Home and Export Bottlers Ales, Porter and Lager Beer.

2 BATH STREET, AND 30 ST. CHARLES STREET, QUEBEC.

GRAND TRUNK RAILWAY.

CHANGE OF TIME.

On and after Monday, the 27th June, GOING WEST.

Mixed Train leaves Point Levis at 12.30 P.M. Express leaves at 8.40 P.M. Arriving at Montreal at 6.30 A.M.

GOING EAST.

Mixed Train leaves Montreal at 7.00 A.M. Arriving at Point Levis at 2.45 P.M. Express Train leaves Montreal at 10.00 P.M. Arriving at Point Levis at 6.45 A.M.

Train leaving Point Levis 8.40 P.M. for Montreal and Port-au-Fort, runs through to Montreal Sunday A.M., and remains overnight at Island Pond, leaving there at 6.46 A.M. every Monday for Port-au-Fort.

A Passenger Car will be run on the Freight Train, leaving Richmond 12.15 P.M., arriving at Point Levis 8.15 P.M.

All the Trains run daily, except Sunday. JOSEPH HICKSON, General Manager.

June 24 1881.

THE FIRST PRIZE FOR PIANOS.

—AT THE—

MELBOURNE, (AUSTRALIA)

EXHIBITION

The various parties here who are puffing up their particularly interested Pianos at the above Show all claim they received 1st Prize. It's a good job for these exhibitors that the principal American manufacturers decided not to be represented there, or I'm thinking the Schiedmayer, Horst, &c. Pianos would have been entitled to Leather Medals. If there are any sceptical on this point, let them call at

Mr. R. Morgan's,

the Agent in this City for the

ALBERT WEBER N.Y. Pianos,

and see and hear the astounding difference of their relative merits alongside of one another.

May 10, 1881.

The Quebec Mercury.

TUESDAY EVENING, JULY 12, 1881.

Mr. Gladstone introduces a bill for the redistribution of seats next session.

The Prince of Wales has subscribed 300 guineas toward the national memorial to the Earl of Beaconsfield.

The Princess of Wales has consented to distribute the prizes at the forthcoming Wimbledon meeting, on July 23rd.

Complications are thickening about the Tunis question, and France will have to maintain an army of occupation.

It is understood that Messrs. Smith Angus, Stephens, and McIntyre intend next month inspecting the route of the Canada Pacific Railway between Lake Nipissing and Thunder Bay, and will go over the route principally on foot in order that they may become intimately acquainted by personal observation with all the features of the country through which the road is to pass.

It is said that the Railway Syndicate have decided to abandon the Yellow Head Pass, and are now prospecting for a more available route through the Rocky Mountains near the American border. Howse's Pass will be adopted if a better one cannot be had.

That France will permanently annex Tunis appears now to be pretty certain. The soil of that regency (as it is called) is fertile, the climate good and resembling that of Algeria. It made a creditable display at the International Exhibition at Paris, and there is no doubt that it is well worth acquiring. Ancient Carthage was the capital of the territory now occupied by French arms, and the fertile tract occurring in Northern Africa between the range of the Atlas and the Mediterranean Ocean, terminates on the eastern portion of Tunis. Next to Tunis on the east is Tripoli, a sandy tract capable of cultivation only in scattered and isolated spots. We cannot see why Europe should object to the eastward progress of France, seeing that Egypt (thanks to Beaconsfield) is safe, and the piratical inhabitants of Barbary have no claim on the sympathies of Christendom.

B. N. A. GAZETTEER.—Lovell & Son's Gazetteer of British North America, edited by P. A. Crossby, contains the latest and most authentic description of over 7500 cities, towns, villages and places, in the Provinces of Ontario, Quebec, Nova Scotia, New Brunswick, Prince Edward Island, Manitoba, British Columbia, the Northwest Territories, and Newfoundland; and general information from official sources, as to the names, locality, extent, &c., of over 2,300 lakes and rivers; with a table of routes, showing the proximity of the railroad stations and sea, lake and river ports, to the cities, towns and villages in the several Provinces of Canada and Newfoundland. This very necessary and welcome addition to the library and the counting house, of every reading and business man in the whole Dominion, shows at a glance the rapid strides made throughout this fast growing country within the past ten years. It embraces every place known, and contains over 1,500 more places and 800 more lakes and rivers than the first issue of ten years ago, and is embellished with that great desideratum a handy, reliable and well-colored map of Canada and Newfoundland, showing most distinctly all the Provinces and the chief towns and places of resort of travellers or business men.

MISSING STEAMERS.—The Vandalia has arrived at Greenock, where she will repair. Her passengers desire to remain on board, and will sail for New York when she is repaired. The Arizona, from Liverpool, reached New York yesterday, and the passengers safely landed. The captain stated that none of the ship's papers or letters were missing. The voyage was pleasant and he could not account for the false report circulated about the loss of the vessel.

BY TELEGRAPH

Arrival of the King of the Sandwich Islands.

London, July 11. The London season having thus far been unusually quiet, the arrival of Kalakaua, King of the Sandwich Islands, has been a godsend to the givers of garden parties, kettledrums, etc. He is the fashionable lion and goes everywhere. He admires English ladies, and is greatly taken with their style of evening dress. It puts him in mind of home. He behaves himself very well, except at dinner, when he drinks more than is good for him. He wanted very much to kiss the Lord Mayor at the banquet the other evening, and was very much excited at the Italian opera last evening. He is to dine with Mr. Gladstone next week.

DESTRUCTIVE FIRE AT JOLIETTE.

Nineteen Buildings in the Business Portion of the Town Destroyed.

A fire broke out at Joliette on Sunday at 1:30 a.m., in rear of a hardware store kept by J. H. Renaud, and owing to the inflammable nature of the surrounding buildings, in a few hours had laid in ashes a great part of the business portion of the town. The buildings burned, nineteen in number, comprise some of the most valuable of the town. The names of the sufferers are:—The Hochelaga Bank; P. Paquette, dry dock; Mercier & Co, dry goods; J. F. Renaud, groceries; J. H. Renaud, hardware; G. Desaulniers, restaurant; Lavallee & Co, groceries; A. Charland, tailor; S. Marsill, boots and shoes; Ducondu & Co, hardware; C. Lebreck, dry goods; E. Fisk, grocer; P. Valier, Joliette Hotel; Picard, barber; G. Cornellier's dwelling; Piquette, blacksmith; L. W. Godin, groceries; J. Feerscheke, furs; J. Dabon, tinsmith. Edward Guilbault's boot and shoe factory was saved with great difficulty, and it was feared for some time that the church, college and the greater portion of the town would become a prey to the flames. A rough estimate of losses places the amount at \$75,000, on which there is \$40,000 insurance, mostly in the North British and Mercantile, Queen's and other English companies. There is comparatively a small amount of goods and furniture burnt, as people had time to save most of their effects.

THE WHISKEY POISONING CASE.

The result of the Coroner's inquest on the young child mentioned in our issue yesterday, was that death resulted from congestion of the lungs, brought on by an overdose of whiskey. The name of the child is Guilbault; it was the adopted daughter of Mrs. Guilbault now wife of one Mercier, a carter. It seems ten cents worth of whiskey had been bought on Saturday and the greater portion of it carefully placed away in the cupboard, where the child about 9 a.m. procured it during the momentary absence of the foster parents. Shortly after partaking of the poisonous stuff, she commenced vomiting and then remained in a comatose state until death ensued on Sunday morning. Medical aid was summoned about three p.m. but too late, and the child died next morning.

BUSH FIRES.—Fire is this year creating great destruction in this vicinity. Bush fires are seemingly burning at almost all points of the compass. Margaret Island, some miles below here on the south shore, was last night reported all on fire. St. Jean Chrysostome is also burning, and Breakey's fine mills are reported to have become a prey to the flames. The city last evening and again from about 3 a.m. was filled with a dense smoke, and shipping are almost unable to move about on the river.

NEW RAILWAY AGENT AT LEVIS.

—Mr. John Higginbottom, formerly travelling auditor for the Grand Trunk Railway, has been appointed agent of the Grand Trunk and the Intercolonial Railway at Point Levis and Quebec, in place of Mr. Gregory, transferred to Richmond.

THE NEW CABLE COMPANY.

—The Canadian, European, American, and Asiatic Cable Company, to which a charter was granted at the last session of Parliament, has completed its organization. On the directorate are two directors of the Bank of England, the president of a well known German bank, and a leading Australian banker. The Canadian end of the Atlantic cable will land on Sable Island. They will also establish telegraph communication with the West Indies by laying cables to the Bermudas and the Bahamas.

LONDON "LANCET'S" DIAGNOSIS OF GARFIELD'S CASE.

London, July 8. The Lancet, the leading medical journal in Great Britain, says the accounts of the condition of Garfield are on the whole satisfactory. They give reasonable ground for hope. There are, of course, many perils still to be encountered. Secondary internal hemorrhage may occur when the bullet is surgically or accidentally displaced. Extensive inflammation of blood poisoning is possible, but looking at the case as a whole and recalling the history of similar cases, it is impossible not to feel that fairly good hope is permissible. It may be assumed that the course taken by the bullet must have been such as to avoid injury to the most important structures. It is scarcely possible that any large vessels can have been injured, and an hypothesis of the complete severance or even of severe injury of the great nerves is not necessary to account for the pains in the lower extremities. The liver, if wounded, can hardly have been extensively lacerated. If Garfield survives the perils of the next few days and the bullet can be extracted, there can be no medical reason at least arising out of the general character of his injuries why he should not do well.

WEATHER PROBABILITIES FOR THE LOWER ST. LAWRENCE DISTRICT

Meteorological Office. Toronto, July 12. Light to moderate winds; fire, warm weather.

C. CARPMAEL, Supt. The above notice is displayed as such as received at noon daily in the window of Mr. Frechette's News Room, Mercury Building.

ANOTHER PILGRIMAGE.—The parishioners of St. Colombo of Sillery go on a pilgrimage to St. Ann tomorrow.

THE well-known family medicines of Dr. J. C. Ayer & Co. have been before the public forty years, and time strengthens the favorable impression with which they were at first received. We have been in the habit of using them ourselves, and recommending them to our acquaintances. Ayer's Pills are a perfect regulator of the system; Ayer's Extract of Sarsaparilla is the best known purifier of the blood; Ayer's Cherry Pectoral is a safe and sure remedy in complaints of the throat and lungs; and Ayer's Eye Cure is an effectual cure in cases of Fever and Ague and other malarial fevers. These medicines are compounded with skill and accurate medical knowledge, and they are in no sense to be classed with the cheap nostrums of the day. The formulas from which they are prepared are not secret, but are furnished to all physicians, and are published for the benefit of all interested.—St. Johns, P. Q., News.

Why Incur Torture?

By disregarding cleanliness of the teeth, and thus encouraging their decay, when SOZODONT, which is delightful to use, prevents the possibility of toothache, by keeping the teeth in health. No one who has not yet used this popular article, can form an adequate idea of how much improvement defective teeth are susceptible. SOZODONT is infinitely to be preferred to abrading tooth powders. It preserves, not scratches the enamel.

REFRESHING!

Table with columns: STOCKS, Asked, Offered, Last dividend per ann. Rows include Quebec Bank, Union Bank, Nationale Bank, Eastern Townships Bank, Montreal Bank, etc.

A COUGH, COLD or SORE THROAT should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. BROWN'S BRONCHIAL TROCHES do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, relieving the asthma, BRONCHITIS, CATARRH, GONORRHOEA, and the THROAT TROCHES which SINGS and SINGS are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always gives complete satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well merited rank among the few staple remedies of the age. Sold at 25c. a box everywhere.

MOTHERS! MOTHERS! MOTHERS!!! Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it: there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and a healthy health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. Feb 25/11

SIX O'CLOCK EDITION

The Quebec Mercury.

TUESDAY EVENING, JULY 12, 1881

Mr. Attorney-General Loranger and Mr. Fred Brance, of the Public Works Department, Ottawa, arrived in town this morning.

The Secretary of the Canadian Pacific Railway Company gives notice that the fifty cents on the dollar will be paid for shares of the late Canada Central Railway Company on their surrender and cancellation.

The labors of the Pacific Railway Commission, so far as the taking of evidence is concerned, are about over, the only witness of importance remaining to be examined being Mr. Mackenzie, who will return from England next month. The Commissioners are now engaged in preparing their report. As they find matters that require further explanation they may call upon any available witness to give further testimony.

BY CABLE THIS EVENING.

London, July 12. The decline in American and Canadian railway securities yesterday tended to disorganize other markets. The tendency is to lower prices all around.

Vienna, July 12. The police has seized nearly all the leading Vienna journals for publishing the resolutions passed by constitutionalists belonging to a German club. The resolutions were not attacks on Taufe's Ministry but only the expression of the general feeling with regard to the arrogance of the Czechs and their menaces against the Germans.

THIS EVENING'S TELEGRAMS.

Washington, July 12 - 1 p.m. The President is passing a comfortable day. Pulse 100; temperature, 180 8; respiration, 24.

THE CUSTOM HOUSE VACANCY.—Mr. Alfred Langevin has been promoted to be head landing waiter in the Custom House, vacant by the decease of the late Mr. Lee; Captain Carter steps into Mr. Langevin's place, as second in command, and Mr. McHugh will, it is said, be promoted to Capt Carter's position. As there are two hundred and fifty applicants for the position, of course there remains two hundred and forty nine disgusted office seekers, all of whom we would strongly recommend to go into farming and cattle raising. We may mention, by way of illustrating, with what a fatherly care the immortal Sir Hector looks after his relations, that Mr. Alfred Langevin is his brother, as is the Registrar at Ottawa.

A STRANGE STATEMENT.—A gentleman who accompanied the Marquis of Lorne on a portion of his recent Maritime Provinces trip says that extraordinary precautions were taken by the Intercolonial Railway authorities to guard against any accident happening to him. It is said that the authorities had received a hint that His Excellency was threatened with some danger while he was in the Maritime Provinces. [We incline more to the opinion that the dissatisfaction of the railway hands about the line may have couched these hints.]

MORE FRENCH CAPITAL.—The Minerva is out with the story that a new company is to be formed by leading Parisian bankers with the object of developing the mineral resources and industrial pursuits of the Dominion, especially the Province of Quebec. It is denied that Mr. Chapleau's visit has anything to do with this new company, whose capital is to be \$10,000,000. Of course Mr. Chapleau would have nothing to do with a ten million affair.

EIGHT-FIVE WAIFS.—Amongst the immigrants arrived Sunday by the steamer were 63 orphans for the Niagara House under the direction of Miss Rye, and 22 Catholic children sent by Cardinal Manning to Lindsay, Ontario.

DOMINICAN.—Rev. Father Mother, of the Dominican Order, well-known in this city for his sermons at the Basilica, will establish a mission of the Order at Lewiston, Maine.

VOLUNTEER SHOT DEAD AT RIFLE PRACTICE.—A private belonging to the Victoria Rifles of Montreal was instantly killed by a rifle ball at the Point St. Charles ranges on Saturday. The circumstances seem to warrant an investigation, which is more than likely to be held.

From Montreal this Evening.

A Lunatic Woman Dreadfully Murdered by Another Patient!

Montreal, July 12. A terrible murder took place at Longue Point Lunatic Asylum yesterday, the circumstances connected with which are as follows:—On Sunday night the inmates of the institution heard some singing coming from a cell occupied by two women named Delia Poirier and Gertrude Robert. This was continued for some time and consisted of hymn and psalm tunes. But as one of the occupants of the cell, Delia Poirier, was known to be a kind of religious monomaniac and in the habit of passing her time this way, not much attention was paid to it. About four o'clock on Monday morning, Rosanna Lauren, a female attendant of the Asylum, visited the cell, and was horrified to find Gertrude Robert stretched upon the floor cold and dead and her body fearfully torn and lacerated. The murderess was sitting quietly in a corner of the cell, and gave evidence of no astonishment at the expressions of horror uttered by the attendant. The murderess, with horrible clearness, stated that during the night she had seen a frightful dragon, and for the safety of herself and all the other inmates, thought it better to kill it. This she proceeded to do, taking a piece of board about 3 feet long, one inch in thickness and twelve inches wide, which had been left at the cell for the purpose of repairing the roof. She, of course, fancied that her companion was the dragon, and no idea can be formed as to how long it took her to commit the murder, as no noise whatever had been heard by any of the watchmen. The murdered woman was forty years of age and was admitted into the institution on the 1st July, 1881. Delia Poirier is 25 years of age and came to the Asylum on the 7th June last. She is a native of St. Pie, Province of Quebec, and is unmarried. The piece of board which was used is broken in several places, showing the amount of force used to inflict the wounds. Delia Poirier was not considered a lunatic dangerous enough to be confined in a cell by herself. The Coroner opened an inquest to-day, and the above particulars were elicited. The inquest will be continued this evening.

A youth named Michael Rowan was drowned at Mill Point yesterday while bathing. The stock market was steady to-day, except for Montreal Telegraph, which was easier.

From Ottawa this Evening.

Ottawa, July 12. There is no open air Orange demonstration here to-day. Picnics are being held throughout the Ottawa Valley this evening. The city brethren dine to night in the Orange hall. The Hon. Mackenzie Bowell and his deputy, Mr. Johnston, leave tomorrow for the Maritime Provinces on a tour of inspection. The nomination for the Mayoralty takes place to-morrow. So far the only opposition to Mr Mackintosh's reelection is ex-Alderman Clancy, who has little chance.

Sidney Huntin, of Ottawa, has carried off the Rothschild's scholarship in the London University. Mr. Pope, Minister of Marine, is no better. The rumor that he would shortly return to the capital is untrue.

The Department of the Interior have information that Sitting Bull is still located at Fort Quappelle. Most of his young braves have deserted him and his band consists now principally of old men and squaws.

The Custom's returns at this port for 1880 81 show an increase over the previous year as follows:—1881—imports, \$1,359,422; entered for consumption, \$1,044,814; duty, \$263,214. Increase for the year in imports, \$408,717, for consumption, \$379,248; duty, \$9,494,335.

The jury have returned a verdict of guilty with manslaughter against Riendeau charged at the Aylmer assizes with the murder of Roy on the Gatineau.

The Chaudiere Horse Reel Co., the champion of Canada, will make a tour of the Northern States in September and participate in several races there. Lumber shipping is duller this week than usual, and some of the boats are waiting for cargoes. The demand for lumbermen is good, but the men are holding for better prices.

The Canada and Atlantic steaming party have taken up their headquarters at Ottawa. The work is progressing favorably.

RECORDER'S COURT TO-DAY.—A farmer was fined 40 cents and costs and a laborer was fined \$2 and costs for drunkenness. Mary Ranger, drunk, and creating a noise in St. Louis street, was sent to jail for three months. James Maguire, for vagrancy, got two months. Several carters, for leaving their horses alone, were fined.

From Toronto this Evening.

Toronto, June 12. The celebration of the Twelfth will exceed in magnitude and brilliancy anything of the kind ever seen in this city. 17,000 strangers were reported in town at noon.

This morning Mrs. Hopkins was driving up Victoria street with her two children, when the horses, startled by a banner, became unmanageable, broke both shafts and threw Mrs. Hopkins out on her head. She was seriously injured.

The steamer Dagmar was tied up yesterday because she had not the necessary life boat.

A lad named Lembers was drowned last evening in a well in his father's house.

From New Brunswick To-day.

St. John, N. B. July 12. The Hon. E. Blake and Mrs. Blake arrived this morning from Quebec. Huntington is expected on Thursday.

From Halifax this Evening.

Halifax, N.S., July 12. Steamer Canina arrived from St. John, Nfld. The French warships Magicienne and Dumont Duvivie sailed for Quebec.

BAR.—The law examinations commenced to-day.

CUSTOM HOUSE RECEIPTS.—Duties collected at the Custom House to-day amounted to \$3206.07.

ERIC CANAL.—A canal steamer arrived at New York yesterday, nine days from Buffalo, bringing 7,500 bushels of corn and towing a consort laden with 9,000 bushels of corn. This is, in time and tonnage, said to be unprecedented.

CABLE SPLICED.—Halifax, N.S., July 9.—The ss. Faraday arrived in mid-ocean yesterday afternoon with the English end of Jay Gould's new cable, and there spliced that portion to the Canadian end, which was laid about a month ago and buoyed eight hundred miles from this shore. The cable was spliced and found to be in perfect condition, and is now working between Causo and Land's End, England.

TEMPERATURE.—The following is the state of the temperature during each day, by Negretti and Zambra thermometer, in the shade, at the "Manochar" Buildings, Buede street, 150 feet above spring tide level:—

Table with columns: 1881, Min., Max., Wind, Aspect. Rows show temperature data for July 1st through 12th.

In all the shipbuilding yards of England there is great activity. It is stated on good authority that the orders for ships on the Clyde alone amount at present to about £13,000,000. At Leith and Edinburgh the engineers have received an increase of a half-penny per hour, and this is expected to be general.

SHIPPING INTELLIGENCE.

Port of Quebec. ARRIVED. July 11. Bark Niord, Beck, Bristol, John Sharples, Sons & Co. bal. Minerva, Hjalvorsen, Dieppe, K. H. Duval, chalk, &c. Australia, Anderson, Sydney, CB, DeWolf & Powell, coal.

DR. J. COLLIS BROWNE'S CHLORODYNE

THE ORIGINAL AND ONLY GENUINE

ADVICE TO INVALIDS.

If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary aching of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body you will provide yourself with that marvellous remedy discovered by Dr. J. COLLIS BROWNE, Member of the College of Physicians, London, to which he gave the name of CHLORODYNE.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma, Cholera, Diarrhoea, and other fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

CAUTION.—Beware of Piracy and Imitations.

CAUTION.—Vice-Chancellor Sir W. PAGE WOOD stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the Dr. L. DANIEL, FREEMAN, was deliberately untrue, which, he regretted to say, had been sworn to.—See Times, 10th July, 1864.

Sold in Bottles at 1s. 1/4d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the Words "DR. J. COLLIS BROWNE'S CHLORODYNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Harper's Young People, 1881.

AN ILLUSTRATED WEEKLY—16 PAGES.

Suited to Boys and Girls of from six to sixteen years of age.

Volume 11 commences Nov. 2, 1880.

Now is the Time to Subscribe.

Within a year of its first appearance, HARPER'S YOUNG PEOPLE has secured a leading place among the periodicals designed for juvenile readers. The object of those who have the paper in charge is to provide for boys and girls from the age of six to sixteen a weekly treat in the way of entertaining stories, poems, historical sketches, and other attractive reading matter, with profuse and beautiful illustrations, and at the same time to make its spirit and influence harmonize with the moral atmosphere which pervades every cultivated Christian household.

This important design they endeavor to carry out by combining the best literary and artistic talent so that fiction shall appear in bright and innocent colors, sober facts assume such a holiday dress as to be no longer dry or dull, and mental exercise, in the solutions of puzzles, problems, and other devices, become a delight.

TERMS.

HARPER'S YOUNG PEOPLE per Year, } \$1.50. Postage Prepaid.

Sept. 2 1880.

PEPPER'S QUININE AND IRON TONIC strengthens the nervous and muscular system, improves digestion, anti-acid the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE AND IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs, is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrupulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic. The mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London, This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain between the shoulders, heads, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, dizziness, disturbance of the stomach, and feeling of general depression. It acts the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. Pepper Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by chemists. A most valuable and essential medicine for the Colonies generally.

LOCKYER'S SULPHUR HAIR RESTORER will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior to that produced by an instantaneous dye, and does not injure the skin.

LOCKYER'S SULPHUR HAIR RESTORER is the best for restoring grey hair to its former colour. It produces a perfectly natural shade, and is absolutely harmless. Been used for destroying scurf and encouraging growth of new hair.

LOCKYER'S SULPHUR HAIR RESTORER.—Sulphur being highly prized for its stimulant, cleansing, healthful action on the hair glands, Lockyer's Restorer is strongly recommended. It is most agreeable in use. Large bottles 1s. 6d. Sold by Chemists, Hairdressers, and Perfumers in London, and throughout the world. Lockyer's is equal to any of the high-priced preparations.

LIVER COMPLAINTS.

DR. KING'S DANDELION AND QUININE LIVER PILLS (Without Mercury.)

The best remedy for Biliousness, Stomach Derangement, Flatulence Pains between the shoulders, Bad Appetite, Indigestion, Acidity, Headache, Heartburn, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1/4d., 2s. 9d. and 4s. 6d. Sold by Chemists and Medicine Vendors throughout the world.

Prepared by James Berke, London. Specially valuable Pills for residents abroad and travellers.

"SULPHOLINE LOTION"—AN EXTENSIVE MEANS OF CURING SKIN DISEASES

There is scarcely any eruption but will yield to "sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by a magic; whilst old, enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcules which cause these unsightly, irritable, painful affections, and always produces a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 1s. 9d. Made by J. PEPPER & CO, London, England. June 17, 1881. F6780-3y

Harper's Magazine, 1881

ILLUSTRATED.

"Studying the subject objectively and from the educational point of view—seeking to provide that which, taken altogether, will be of the most service to the largest number—I long ago concluded that, if I could have but one work for a public library, I would select a complete set of Harper's Monthly."—CHARLES FRANCIS ADAMS. Its contents are contributed by the most eminent authors and artists of Europe and America, while the long experience of its publishers has made them thoroughly conversant with the desires of the public, which they will spare no effort to gratify.
