Statement of Services for the Public

Message from the President

Our sincere commitment to you is to serve you courteously and expeditiously, while achieving high standards of quality and confidentiality.

Our new statement of services is an integral part of this commitment. Ever since the Régie was established, we have given top priority to serving the public and, in keeping with our mission, have made every effort to facilitate equitable access to health services and health care.

Times change, and ways of providing services evolve, but we remain steadfast in our desire to serve you well. We are attentive to your needs and are constantly striving to offer you services that meet your expectations. Rest assured that we will maintain these high standards in the future.

PIERRE ROY
President – Director General

Our mission

Since its creation in 1969, the Régie de l'assurance maladie du Québec has played a vital role, not only in the lives of all Quebecers, but also in the health and social services network.

Motivated by its desire to serve the people of Québec well, the Régie administers the Health Insurance Plan, the Public Prescription Drug Insurance Plan and many other complementary programs. In this regard, the Régie informs the public about the services it offers, verifies eligibility for the plans and programs it administers, and pays health professionals for the services they render to insured persons. In addition, the Régie makes its expertise and information available to the Minister, researchers, and various parties in the health and social services network.

Our services

The Régie ensures that eligible persons are able to benefit from services offered under the plans and programs it administers.

To this end, the Régie issues Health Insurance Cards to insured persons and registers eligible persons for the Public Prescription Drug Insurance Plan. It pays the cost of health care received by insured persons, reimburses the cost of services rendered under its assistive devices programs (for persons with physical deficiencies) and pays the cost of certain services received by insured persons outside Québec.

As well, within the scope of the programs it administers for accommodated adults and for persons under the care of intermediate resources, the Régie determines the financial contribution, the personal expense allowance and the financial assistance granted.

The Régie's 1 600 employees are constantly striving to improve the services they offer, in addition to providing assistance and information to make these services more accessible.

Help us to serve you better

To help us provide you with high-quality service, it is important to:

- ♦ give us complete and accurate information when making your request;
- ♦ provide, within the allotted time, all the information and documents we need for processing your request;
- ♦ notify us, without delay, of any change in your request or concerning information in your file.

If your file is incomplete or if we need to conduct further verifications, it may be difficult for us to fulfill our commitments.

If you are dissatisfied

If, despite our efforts, you are dissatisfied with the services you receive, you can ask to speak to the immediate supervisor of the employee who served you. If you disagree with a decision rendered, you have six months to apply for a review.

If you are still dissatisfied, you can file a complaint with the Complaints Commissioner, who will reply within 10 days:
