

Should Sacrifice the City For Interests of the Party

Ultima Served on the Conservatives of Centre Ward.

PARTY REASONS GIVEN FOR ALDERMAN LAPORTE'S DEFEAT

Because of His Work in the Old, He Must be Left Out of the New Council.

It is astonishingly significant that the first open mention of this opposition to Ald. Laporte, himself a Conservative and one of the shareholders of Le Journal, was made at a meeting which had been called for the purpose of selecting a Conservative standard-bearer to oppose Mr. Brunet in St. James Division at the recent by-election. The first meeting was held in the office of Mr. F. D. Monk during the last days of December. The second meeting was held in the office of Mr. S. Beaudin, 1088 Notre Dame Street, on January 6. It was at this meeting, which was attended by some forty or more representative Conservatives, that Mr. Bergeron was chosen to oppose Mr. Brunet, and it was at this meeting that Mr. Monk announced that as Mr. Brunet's wish that Mr. Laporte should be returned as representative of Centre Ward, the statement roused a certain indignation. Mr. Monk's words were received by everyone present, and it was by more accident that an open result was not at once declared.

Conservative organ, was dependent upon the result of the elections in Centre Ward. Ald. Laporte was to be defeated. If he were not, the party would be in a very awkward position. To this meeting, principally shareholders of Le Journal were invited. But not all the shareholders. Those known to favor Ald. Laporte were not invited.

Ald. Laporte's Conservative friends very soon heard of Mr. Forget's doings and of the meetings in Le Journal office. The shareholders of Le Journal who were friendly to Mr. Laporte—and who consequently did not attend Le Journal's meetings—held a counter-reunion. They decided to adopt drastic measures. For a time an open decision was threatened. It was finally decided to lay the matter before the leader, Mr. Monk. A delegation called upon Mr. Monk at his office, exposed the situation and declared that his influence was necessary at once to prevent a split in the party. They objected to Mr. Forget using a political paper for his own ends in the municipal campaign. Mr. Monk took a firm stand at once, as leader of the party and declared to his chief supporters that any canvass in a political sense during the municipal campaign, against Ald. Laporte, would not meet with his approval. Such is the history of the bitter opposition raised against Ald. Laporte, and at the same time explains the candidacy of Mr. J. Z. Resther and the ardent support he is receiving.

It was a clear insight into the true situation. The meeting of January 6 was held in the office of Mr. Monk, who intended to make a fight in St. James Division, and that Mr. Bergeron had been chosen to represent the Conservative party. The choice was accepted unanimously. It seemed as though the business of the meeting was finished, and the meeting was preparing to leave. Mr. Monk said he wished to send a communication from Hon. Sen. Forget in reference to the municipal elections in Centre Ward. Every word was a stab. Mr. Monk remarked that Mr. Forget sustained Le Journal, the French Conservative organ in Montreal. The main name of Le Journal was necessary. The wishes of Mr. Forget were to be respected. The Messrs. Forget, Mr. Monk said, were bankers who handled the investments of important English capitalists. These investments were made in companies whose interests and good will of the City Council. Now, remarked Mr. Monk, Ald. Laporte had always worked against Mr. Forget. "I therefore," Mr. Monk concluded Mr. Monk, "the work for the re-election of Ald. Laporte."

"We believe we are showing evidence of sincere friendship for Ald. Laporte," Le Journal, "in fighting with all our might his candidature in Centre Ward. Deceased, he will return to his business and to his family. Unfortunately he has become the instrument of the attitude of Ald. Ames, who has divided that with immense, obsequious flattery and exaggerated praise he could lead at will, the citizens of the Centre Ward." "We ardently hope that tomorrow night Montreal will see the end of the Ames-Laporte and Company combine. It is the only one that will be composed only of independent, honest, and capable aldermen, who will be devoted to give the city what it has been clamoring for in vain for a long time."

WILL NOT GRANT AN ELECTION

Having Mayor Raby is not willing to allow the shareholders of the City Council to have any more votes than can be presented at his command when the question of appointing committees is broached after elections. He has refused to grant the City Clerk David that it would be impossible for him to longer represent West Ward, and his associates in the Council, and Ald. Raby has not hesitated to support many of the most objectionable features of the reactionary programme refused to grant an election. He prefers to wait until the next Council convenes. In this way the electorate of West Ward are precluded from the enjoyment of the right of electing their own representatives. Ald. Raby, who probably is defeated in his own ward, sees an opportunity to handicap the reform element in the reorganization of the new Council.

ALD. RABY'S RECORD

His Advocacy of Music-Salons Will Ensure His Defeat in St. Antoine South.

Mr. N. Laporte, who is seeking election to seat No. 1 in St. Antoine South in opposition to Ald. Raby, spoke to a full meeting of his electors in West End Hall last evening. For twenty-five years he had been in business in the ward, and he could assure them that if elected he would not have any more to do with the interests. The meeting was to have been a joint one, but Ald. Raby and his supporters failed to put in an appearance. But Mr. Laporte failed to tell just what he thought of Ald. Raby. This was the man, he averred, who had championed the cause of the famous "Confé chorale," which was the cause of more crime than anything else in the city, and had been condemned by every respectable citizen. It was not Ald. Raby's fault if he did not have any singing salons in the city to-day. His vote also to give the lighting contract to the highest tenderer should not be forgotten by the electors, who went to the polls Saturday morning.

ALD. TURNER'S APPEAL

Points to a Quarter Century's Service as Justification for His Return.

Ald. Turner again last evening made a manly and convincing appeal to the electors of St. Gabriel's ward for their support at the polls. It was, he said, at considerable personal inconvenience that he had again consented to represent them, but the splendid reputation presented to him was so flattering that he could not resist the request of his friends to stand for re-election. Ald. Turner reminded his hearers of his invariable support of all measures which were calculated to benefit the city as a whole and his ward in particular. His public work had commenced with his appointment as clerk of the municipality prior to its annexation to the city, and had been vigorously continued since his advent to the City Council. During the years when he had represented St. Gabriel in the larger body, he had secured re-election for scores of his electors in the different civic departments and had used his influence to secure them positions outside of the corporation, regardless of race or religion.

RIGHTS OF CITIZENS SUBJECT OF A BARGAIN

The current number of The Shareholder contains an editorial which well reflects the opinion of a large proportion of the class whose interests are more closely associated with a tangible material interest than any other. The editorial was not in accordance with the requirements of the charter. It was not made by the candidate. The trickery resorted to, however, accomplished its purpose, and has for the same being at least, removed the name of Dr. Lachapelle from the list of candidates. Had his name remained upon the list there is little doubt that he would have received a plurality of the votes. The city, therefore, loses by the transaction the services of one who would have proved himself to be a highly respectable but a truly honorable magistrate, one who would have been a credit to the city of Montreal. The voting which will take place tomorrow will not represent the opinions of the citizens upon the merits or qualifications of the two candidates in the field. What it will reflect, however, will be the appreciation by the electorate of the manner in which their rights have been usurped by a clique which arrogated to itself the right to dispose of the business of the taxpayers of the city. We hold, and the citizens as a body hold, that the selection of those who are to represent them in office should be made by the citizens at large and not by a consequent group of citizens. The manner in which the present campaign has been carried on, the ridicule which it has given rise to, the legal complications which it has created, and the necking and necking which it suggests, should arouse the citizens to the necessity that exists that a more determined stand should be taken to prevent a repetition of such a thing. The subject of any bargain, no matter who the contracting parties may be. The office of Mayor of the city of Montreal is one which calls for the exercise of dignity and sound judgment, and should be conferred only on those who regard election to it as an honor, rather than the conferring of an honor upon the city by its acceptance. The man who stipulates that he will not consent to enter into a contest, but should like to be elected, should be looked upon with disdain, even though the latter should be in the field of the citizens' regard. The first qualifications which the incumbent of that office should possess, and should be taught that presumption and conceit are not the things which should be the foundation of them before the citizens will not be tolerated. We say, therefore, that the election tomorrow will not turn upon the merits of the candidates, but will determine once for all whether the voters are mere puppets or vested with rights, the interference with which constitutes an act of usurpation.

LAST OF CAMPAIGN IN ST. GABRIEL'S WARD

The contest in St. Gabriel's Ward is proceeding to a triumphant conclusion. Ald. Turner is assured of re-election by a handsome majority, and Dr. Dagenais' prospects were never brighter than they are at the present moment. Ald. Jacques is, of course, the opposition candidate, who is making the most vigorous effort, and Dr. Dagenais has consequently been forced to do more than any other candidate to ensure a satisfactory result. With the popular plan of the day, Dr. Dagenais is handicapped by having to reckon with two opponents. Mr. Parker will naturally alienate some of the English vote from Dr. Dagenais, but this confidence is expected will be more than compensated by the dislike in which Ald. Jacques is held by a large section of his compatriots. The enthusiasm with which Dr. Dagenais was received last evening at his home meeting with Messrs. Monahan and Jacques, shows that he is not lacking in popularity. Dr. Dagenais, however, is not so appreciative of his estimable qualities; he recognizes that he will be able to do excellent service during the question of a new city hall during the next two years.

THE CLIQUE:—There—I have set them up—bowl them out if you can.

BUSY PUTTING THE FINISHING TOUCHES ON THE CAMPAIGN

This is the last day of the civic campaign, and the busiest for the politicians. Frequently in elections the canvassing and the making of arrangements are carried on so vigorously that on the day before the last there is a comparative lull in the excitement. But this campaign, which has already been a record-breaker in many respects, has no regard for precedents or conventions, and the excitement is going to the limit. In the committee rooms this morning there were busy crowds of workers, messengers hurrying in and out, and no one was known who could repeat them.

There were vehicles to be secured, important solutions to be plucked, plans of the order which had been discovered to be frustrated, vehicles to be hired, and scrutineers to be instructed for the hundreds of candidates. The committee rooms of the aldermanic candidates were bad enough, but the majority committee rooms were worse. The majority campaign has only been on for a week, and there has been no time to organize satisfactorily. This morning in some of them the workers were still writing cards of instruction of being conducted, which had been out for a week ago. Scrutineers could not be found with a search warrant, and every man on every committee had a printing card in his pocket, which all concluded, and to none of which anyone paid any attention.

The majority workers, among the other things they had to do, were having a feeling of uncertainty as to whether there would be any election at all. Everyone had heard Mr. E. A. D. Morgan's threat that if there was no election held, it was believed he was applying for an injunction, and the workers had to contemplate the prospect of doing all their work over again a few weeks hence. There have been so many unexpected things occurring in this contest that men were this morning prepared to believe anything.

Through The Herald's Sieve.

MR. JAMES CRATHERN ought to form a Deity Trust with Mr. E. A. D. Morgan and give the elections a 24 hour delay.

GOOD THING the elections are to-morrow, otherwise Mr. Morgan would get carried away with enthusiasm.

SOMEBODY HAS SAID that Mr. Wilson-Smith is a good looker.

IN FUTURE, when Montreal people want to hold an election, they should have the foresight to ask Mr. E. A. D. Morgan as to what day agrees with him best.

MR. WILSON-SMITH is making a great fuss about sanitary conditions. If he is in earnest about the city's welfare, however, why did he force Dr. Lachapelle out? The Dr. has forgotten more about sanitary matters than Mr. Smith could learn in a 1,000 years.

EGGS. "The price of eggs still maintains its high level."—Market report.

WHERE are the hens, the faithful hens, that daily used to lay the food we like? Was neatly stowed away? What have we done to give offence? To those long patient fowls, that they should go on strike and cause Among us groans and growls?

IF we've offended any hen That ever laid an egg, Drop on our knees we promptly drop, And pardon humbly beg. And if they're striking for more feed We'll furnish it by keg: Indeed, we'll give them anything For more and cheaper eggs.

IF WILSON-SMITH is beaten to-morrow, a couple of dull thuds will signify the fact that he has done nothing for the city, and that he has done nothing for the city, and that he has done nothing for the city.

HON. JIM COCHRANE having annexed himself to his landlady, the elections will proceed.

THE NEXT TIME Mr. James Crathern contemplates breaking into a state election some kind friends should take him aside and request him to think about it for a few days longer.

GAZOOT YESTERDAY published a special cable dispatch to itself giving news that was 12 years old. Always suspected that the Gazoot was an able pup.

IF MR. WILSON-SMITH is such a hot proposition on sanitary matters, why didn't he do something for the city when he was mayor before? Mr. James Crathern might hitch himself to a 24 hour delay and give the answer.

PADREWSKI has brought his wife with him, no doubt with the idea of brushing away the enthusiastic females who want a kiss from Pad. every time he plays.

EXACTLY 236 PEOPLE at Mr. Wilson-Smith's meeting last night. However, that is sufficient to justify the star in throwing a few fits over its greatness.

"SMITH'S LAST WORDS"—Gazoot. But this is not Wilson-Smith. The candidate has a few million to unload yet.

ANYONE DESIRING to encounter a good healthy frost, should attend the Wilson-Smith meetings. Last night's would have frozen the pipes from a red-hot furnace.

One Reason. A Methodist Sunday school teacher in Montreal is going to vote for Mr. Wilson-Smith. He tells the Witness.

"ENQUIRING READER"—No, Mr. E. A. D. Morgan is no relation to Mr. J. Pierp Morgan. Pierp never makes an exhibition of himself.

HON. JIM COCHRANE, we are told, is coming strong on the last lap of the race.

SOMEBODY OUGHT to serve an injunction on the East End voters to stop them from taking a slide down a side street where there are lots of telegraph poles.

LAST DAY of the January bargains. All the women strong enough to stand will be in the streets.

MR. SCHWAB NOW says he didn't do any gambling. Gambling is playing a game of chance, and the visitor has no chance at Monte Carlo.

A HORSE NAMED DEATH is winning all the race down at New Orleans. Death always has that way of getting in at the home stretch.

EVEN IF GEN. VILJOEN is killed, as long as Steyn, De Wet and Botha are unengaged the Boer war may be said to be at large.

IT IS SAID that a clever mind-reader once read a woman's mind—but was unable to understand it.

A NEW YORK MAN who drove his automobile upon the sidewalk in order to take his girl companion as close to her door as possible, because rain was falling, has been fined \$5. For this sum he could have bought an umbrella good enough to be left anywhere.

THE AUTHOR OF "To Have and To Hold" is all tired out. Evidently she is not blessed with such powers of endurance as are possessed by some of her readers.

EMPEROR WILLIAM has kissed the Prince of Wales, but Chamberlain and Von Buelow have not trusted themselves to get near enough to each other for any such exercise.

WHAT IS GOING ON TO-DAY. Antiety—"San Toy," 8 p.m. French—"Fidèle De-Dee," 8:15 p.m. "Smother's"—"What Happened to Jones," 8 and 8.

Royal—"The Count's Daughter," 2 and 5.

WHERE FRENCH ELECTORS MET LAST NIGHT

Mayor Meeting Held by Mr. R. Wilson-Smith and Mr. James Cochrane.

236 PEOPLE AT ONE AND 1,500 AT THE OTHER

A Big Crowd and Lots of Enthusiasm at Meeting in Sohmer Park.

The French electors of Montreal had two invitations to oratorical feasts last night. Mr. Wilson-Smith announced that he would be happy to see his friends at the Monument National. Mr. James Cochrane, M.L.A., invited his French supporters to Sohmer Park. The good judgment of the two majority candidates was proven by their choice of meeting places, for had Mr. Wilson-Smith engaged Sohmer Park and Mr. Cochrane the Monument National, the park would have been a distressingly jonesome place, while the theatre would have been uncomfortably crowded. By actual count, 236 people were seated in the Monument National. Mr. Wilson-Smith began his address in Sohmer Park over fifteen hundred electors cheered Mr. Cochrane when he was introduced by the chairman of the meeting.

It has been frequently stated during the majority campaign that of the two English candidates the member for St. Lawrence is far more popular among the electors of the east side than his opponent. But until last night there was no proof of this contention. The attendance at the two meetings is taken by experts in public pulse-taking to indicate what the approval of the French vote will be to-morrow, and Mr. Cochrane's election is looked upon as an absolute certainty. In cheering and applause the two audiences showed the distinction in their regard for the two candidates. Two hundred and thirty-six people cannot make a great deal of noise, and those at Mr. Wilson-Smith's meeting were a thousand. Mr. Wilson-Smith began his address in Sohmer Park over fifteen hundred electors cheered Mr. Cochrane when he was introduced by the chairman of the meeting.

START WITH A PROCESSION.

Mr. Cochrane's meeting started with a swing. A procession of his followers, carrying torches and transparencies, and headed by a band, marched through the streets from seven till eight. The procession grew as it progressed, and when it arrived at Sohmer Park at the hour announced for the meeting to open, a thousand people followed the band through the gates and into the hall.

SENATOR CASGRAIN.

Senator Casgrain opened the meeting with a stirring speech fully and heartily endorsing the candidature of Mr. Cochrane. Of the two English candidates the English-speaking electors had placed in nomination for the majority this year, Mr. Cochrane was certainly the most worthy of support, and he was supported thoroughly understood the people of Montreal and the sentiments of this city. He was a successful business man and had a good deal of experience and to obtain reforms in administration required by the city.

AT THE MONUMENT NATIONAL.

Mr. James Crathern presided at the Wilson-Smith meeting. On the platform were Hon. Dr. Borden, Lieut.-Col. Borden, Lieut.-Col. Hilliard, Messrs. M. J. F. Quinn, K.C., ex-M.P.; David Burke, C. P. Lehoucq, G. A. Marsan, Walter Paul, G. Bernier, L. A. Wilson, Samuel Finlay and Hon. P. E. Leblanc. The first speaker was Mr. Walter Paul, who called Mr. Wilson-Smith should be elected on his civic record and on the strength of the complimentary banquet tendered him.

OTHER MEETINGS.

A meeting in the interest of Mr. James Cochrane was held in Presbytery Hall, Point St. Charles, Mr. C. J. Williams acted as chairman. Addresses were made by Geo. W. Stephens, Jr., John Ross, B. J. Lockery, J. W. Hughes, Wm. Keyes and Mr. James Cochrane. Mr. Cochrane also spoke at a meeting held in the interests of Messrs. Bumbay and Girouard, in Rochelle ward, at a meeting held in the interests of Ald. Brunet, in St. James ward. After the meeting last night in the Monument National, Mr. Wilson-Smith visited committee rooms in St. James and St. Mary's wards.

STORY OF THE SHOOTING TOLD BY MRS. SMITH

There was a packed crowd on the benches of the Magistrate's Court Room and overflowing into the enclosure when the adjourned enquete in the case of Eddie Laurin was resumed this morning before Judge Desnoyers.

The full story of the dead man Smith, as alleged to have been given before several witnesses at the Hotel Dieu was made public for the first time, and there was no lack of sensation.

After Dr. Gravel and Dr. Wyatt Johnston had given medical evidence, substantially as at the inquest, Mrs. Smith, widow of the dead man, was called. She gave her evidence sitting, was quiet, calm, and took great care what she said, though her repetition of Smith's alleged description of the struggle was rapid and clear.

Examined by Crown Prosecutor Cooke, she said that Smith told her that Eddie Laurin walked away after the first altercation, and when he came back Smith was in the harness room starting to shave.

She did not know how the row started again, but her husband told her that Laurin then said "I want you to do this piece; you're nothing but a low-bred nigger anyway."

"What do you mean, calling me a low-bred nigger?" replied Smith.

Laurin said, "Well, that's what you are," and Smith replied, "If you don't leave me alone I'll get off this place."

"That's what I want you to do," said Laurin, and Smith then started attending to a horse. Laurin went on caressing him, such as "low-bred son of a b—," which irritated his feelings and went to another stall.

THE SHOOTING. Presently Laurin followed and said, "I want you to come out and pray on your knees. They kill niggers like you out in South Africa every day."

Laurin kicked him as he came out, threw the chair, and grabbed Laurin's foot and Laurin fell. As he fell he shot at Smith. Just as Eddie shot him the second time the elder Laurin was coming in the door, else, Smith told the witness, Eddie would have shot him again.

This story was told while there was a great many people standing around, and there were nurses at the bedside when he said it, but he spoke in a very weak voice. He repeated the same statement to Judge Lafontaine. There were then two detectives present, and Mr. Laurin senior came in during the recital. This second statement was between seven and eight o'clock on Sunday afternoon.

DECIDE ABOUT INJUNCTION THIS AFTERNOON

Before Mr. Justice Wurtels, of the Court of King's Bench, this morning, a petition was presented by Mr. E. A. D. Morgan to appeal from the decision of Mr. Justice Langelier, of the Superior Court, regarding the writ of mandamus or preferably, the writ of summons issued a few days ago against Mr. L. O. David, the City Clerk, for the purpose of having the name of Mr. Raymond Proulx placed on the election ballots.

The right to appeal was the point contested by Hours and Brodeur, K.C., Mr. F. L. Beique, K.C., and Mr. Eugene Lafleur, K.C., who represented Mr. James Cochrane.

Mr. Morgan claimed the right of appeal on three grounds; first, because the decision of Mr. Justice Langelier was of the nature of an interlocutory order which ordered something which by the nature of the case, could not be remedied by an appeal from a final judgment.

Secondly, because the judgment had been rendered before the delays of the intervention taken by Mr. Cochrane had expired, and lastly, because the decision of the judge given in chambers was of the same effect as a decision of the court, and because the judgment was not in a case susceptible of appeal.

There could be no doubt as to the first point. The law provided that in a municipal election case, an appeal could be made from a final judgment. Much less, therefore, was an appeal to be granted on an interlocutory judgment.

Mr. Morgan had contended that there was no remedy if Mr. Proulx's name was not on the ballots at the election. The court, Mr. Brodeur said, had sufficient evidence to show that the election was not a legal one, and that the election could easily be protested if it were found that a name legally put in nomination had been illegally withdrawn from the ballot papers.

Mr. Lafleur made an able argument, saying it was inadvisable and would be impossible to deal with the case on appeal. He said that the court could deal with an interlocutory proceeding leading up to a final judgment when it had not the right to deal with a final judgment.

Mr. Justice Wurtels said that he had issued the writ of mandamus, and that he had been a clerical error on the judge's part. He would not qualify the action of those who had signed the writ, but the judgment from which an appeal was now taken was merely a correction, and this was allowed by article six, when he was requested to do so by one of the parties.

Mr. Morgan claimed that the order was clearly in the interest of justice, and had been issued on the understanding that the parties would be heard the next day, when they would have an opportunity of opposing it. Any delay would have been an injustice to Mr. Proulx and to those who wanted to vote for him.

Mr. Justice Wurtels said he would give his decision at 2:30. He remarked, however, that notwithstanding that the judgment of the Superior Court had declared that his signature had been attested to the interlocutory writ, the judge had nevertheless it seemed that an appeal was taken to establish a condition which the judge had refused to construe. The correction of Mr. Justice Langelier was not an adjudication, but rather a declaratory act.

LICENSE COMMISSIONERS. The Liquor License Commissioners held a short session yesterday afternoon, and called before them five cases. Two of them were reported to have served liquor to women of doubtful reputation, and will have denied their licenses. The others promised to do better in future, and their cases were taken up on delivery.

COADJUTOR NOT YET NAMED

The decision regarding the appointment of a coadjutor bishop to assist Archbishop Hand in the performance of his Episcopal duties, has been postponed until the first Tuesday in February, when a special meeting of the Synod of the Diocese will be held to receive the report of the special committee appointed to look into the question and report upon the ways and means to be provided for meeting the stipend, and to examine into all questions connected with the carrying into effect of the request of the Bishop.

When the Synod met this morning, the Archbishop proceeded to put Mr. Hand's amendment postponing action until the date mentioned above, and providing for the appointment of a committee to arrange for a special meeting for the purpose.

At this point the attempt of one of the members to amend the amendment caused a lengthy discussion as to whether or not such an amendment was in order. The Dean declared that once the question was put to the house, all debate was shut off; that yesterday the amendment and the amendment to postpone action in the matter until March was put and carried, the clerical vote being 53 yeas and 15 nays, and the lay vote 22 yeas and 24 nays.

The following were those named by the Archbishop as the special committee: Very Rev. Dean Carmichael (convenor), Ven. Archdeacon Evans, Norton, Davidson, Naylor, Rev. Canon Edmond, Longhurst and Ker, Rev. R. Hewitt, Arthur French, R. D. Chambers, B. P. Lewis, Given, Messrs. Richard White, Dr. A. J. Johnson, Dr. G. B. Claxton, Dr. L. H. Davidson, C. Garth, A. P. Gault, Enoch Buzzell, Judge Foster, Luke Heeneey, S. J. Rey, W. W. Robinson, Geo. Durand and Dr. Butler.

It was then pointed out that some ambiguity as to the duties of the special committee existed, and Rev. H. Gomery moved, seconded by Mr. Richard White, and it was carried unanimously that the special committee now appointed, be instructed to look into the question and report upon the ways and means to be provided for meeting the stipend of the assistant Bishop, to examine into all questions connected with the carrying into effect of the request of the Bishop at the special session referred to, and what the powers of the House of Bishops as to the consecration of such an one as may be chosen by His Grace.

It may be said, quite unofficially, of course, that it is generally expected that Dean Carmichael will be one chosen as coadjutor bishop, if such action is decided upon. The Clerical Delegates to the General Synod—Very Rev. Dean Carmichael, Rev. G. J. Bedford, Ven. Archdeacon Evans, Davidson, Naylor, Rural Dean Smith, Rev. G. O. Troop, Rev. H. Ker, Rev. When the Perth man arrived in the city he met another Perth man who lives here. Together they went to see a third man, afterwards called on a prominent player of the senior Victorias. One of them, the man who had just arrived from Perth, had a conversation with the Vic man, and he said got no satisfaction and was refused the address of other players.

CALLS ON MONTREAL MEN. Then the delegation went to a member of the Montreal team. The latter says the spokesman of his side of the situation between Perth and Smith's Falls, and that they were in no league and that both teams played ringers. They wanted to beat Smith's Falls and frequently they had to play with the Vic man, who had gone to play west and was immediately suspended from the amateur ranks. The same thing would happen to any man who went to Perth. He refused to give the addresses of the Montreal team.

CANT GET PLAYERS. But the Perth man got addresses of some players of repute in Montreal and saw a couple of them and telephoned several others. But he was unsuccessful in his quest for players.

FOR STEALING A RIDE. There were two new cases in the Police Court this morning. Joseph Maudet, aged 22, was charged with riding a bicycle on an elderly man, and enquete was set for February 5. Lewis, charged with stealing a ride on the C.P.R., goes over till February 3. This was the fifth case of the kind brought by the C.P.R. authorities since the new year, which shows they have been active all day.

CLOSING QUOTATIONS ATTEMPT TO USE THE NAME OF ALD. HART

A clumsy, but none the less contemptible, effort is being made to-day by opponents of Mr. Cochrane, by means of a very palpable attempt to lead people to suppose that Ald. Hart is calling upon the Irish electors of the city to support Mr. Wilson-Smith for the mayoralty.

This circular, which is badly printed on cheap paper, is so worded as to appear to be signed by Ald. Hart, but even a casual reading of the wording reveals the fact that it is a clear "fake." The first part reads as follows:

"The Irish people of Montreal helped to elect Mr. Wilson-Smith in 1898. The Irish people will recall that Mr. Wilson-Smith saved the people well, and will recall the fact that he gave fair play to all classes and to all creeds. There never was an appeal to him by an Irishman to which he turned a deaf ear."

Then follows an extract from Archbishop Brodeur's speech at the much-talked-of banquet, and the feeble sheet concludes with these words:

"Mr. Wilson-Smith, when asked by a large body of leading citizens to come out as a candidate, said that he did not want to run, and stated publicly that he would prefer to see another Irishman, Mr. Frank J. Hart, nominated. Mr. Hart would not entertain the idea of running. If anyone wishes to verify the statement that Mr. Smith declared publicly that he preferred Ald. Hart, he is permitted to refer to FRANK J. HART, McGill Library."

This brilliant specimen of campaign literature was distributed through the mails this morning, and a reader of The Herald very kindly supplied this office with a copy. It is, of course, contains no clue as to its origin; and it is scarcely necessary to add that Ald. Hart, when questioned, stated readily that he had nothing to do with it; in fact, he had not even seen it.

WANTED TO BUY HOCKEY PLAYERS

There was a raid on the hockey fold yesterday, but fortunately it was unsuccessful. A man from Perth was in the city yesterday trying to secure a couple of forwards for the Perth team to play against Smith's Falls to-night, and he wasn't better than a small fry either.

He had the names of the fastest forwards in the senior league in this city, and wanted a couple of them as well as a star goalkeeper. Which is more, one of the men on whom he called relates that he was told that Perth had to win against Smith's Falls, and if Montreal players helped them out they could rely on getting the amount of their check themselves, and it would be paid without a murmur.

APRIL THE VICES. When the Perth man arrived in the city he met another Perth man who lives here. Together they went to see a third man, afterwards called on a prominent player of the senior Victorias. One of them, the man who had just arrived from Perth, had a conversation with the Vic man, and he said got no satisfaction and was refused the address of other players.

THE MAYORALTY.

The campaign leading up to the Mayorality election of to-morrow has been productive of unusual incidents to a degree unexampled in municipal history.

Remember your Friends.

There will be an election, all right. Mr. Morgan is not absolute dictator at the Court House.

ONE WHO WAS THERE.

Editor Herald: Somewhere, by somebody, the statement has been made that Mr. R. Wilson-Smith, the present mayoralty candidate, was the man who made the three million dollar loan to the city.

THE CORONER AND HIS JURY.

Aroused by the extraordinary incident which occurred in New York on Monday, when the impetuous district attorney, Mr. Jerome, exasperated by a coroner and his assistants, left impressions of his fists upon the countenance of the coroner's clerk, the press of New York has unanimously decided that the coroner's office has outlived its usefulness and must be abolished.

feelings needlessly wounded by the trying busbybodies who serve on the juries. The rules of evidence are usually violated, a case in point being that of a freeman of a jury in a Scott Act town who attempted to get evidence for a liquor prosecution out of a witness called to testify in a case of suicide.

The derivation of the word "coroner" illustrates the downward trend of the office. The coroner was once the crown-er, the representative and instrument of the judicial power of the crown.

THE WRONG WAS IN CONFINING THE TENDERING FOR THE LOAN TO FOUR.

Mr. Wilson-Smith was not Mayor when the three million dollar loan went through. But he was Mayor the term before, he had been on the Finance Committee with Mr. Rainville before that, he had helped Prefontaine to an election by acclamation, as Prefontaine had helped him.

COASTING PARTY RUNS INTO POLE

Steerer Was Killed Instantly and Others Were Frightfully Injured.

Plattsburg, Jan. 31.—A frightful coasting accident occurred at Keeseville yesterday in which one young man was killed, two young women fatally injured, and several seriously hurt.

A large party was coasting on Academy Hill using a boiler from 10 to 20. The boiler became unmanageable, and ran into a telegraph pole while going at great speed. Wilfrid Graves, aged 23, was almost instantly killed, and a sister, Miss Rachel Graves, and Miss Edith Bulley, were crushed so that it is feared they cannot recover. Among the others hurt were Harry Miles, broken leg; John King, arm broken; George, leg broken and dislocated. The young people are of the best families in Keeseville.

LINEMAN ELECTROCUTED

Employee of Ottawa Electric Company Fell on Live Wire.

Ottawa, Jan. 31.—(Special.)—James Osman, a lineman employed by the Ottawa Electric Company, was electrocuted yesterday afternoon while at work on a pole thirty feet above the ground. The accident happened about four o'clock on Sparks Street, and hundreds saw the man hanging on the pole. Osman wore leather-covered mitts and rubbed a dry wire with both hands. Two fingers of each hand were burned off, and Osman fell limply over a cross beam and hung above the street. Firemen lowered him to the ground, but he died a few minutes later. Osman was a prominent member of the Salvation Army, and leaves a widow, but no children. He was 37 years old. While Osman's body was in the Y.M.C.A. building his wife came along and asked what the trouble was. She was told that the man had been electrocuted. The poor woman was completely overcome, and her grief was heart-rending.

SPECIAL NOTICE.

A Healthy Liqueur That Tackles Every Palate and Agrees With Every Stomach.

What shall I drink? is a question we hear every day. People find that brandy makes them nervous, and Scotch whiskey being so often adulterated, disagrees with their stomachs.

According to a most prominent physician Melcher's Red Cross Canadian Gin is one of the few liquors really beneficial to health. It is scrupulously pure and perfectly matured; as before being offered to the trade, it is kept for years in bonded warehouses controlled by the Government, till all the impurities of the distillation process are removed. Melcher's Red Cross Canadian Gin is the only gin that goes through such a long maturing process, and the only gin having this age and quality guaranteed on every bottle by a Government stamp. It is a pleasant drink that has not the burning effect and disagreeable after-taste known to nearly all imported gins. Its soft and mellow to the palate, agreeable to the taste, soothing to the stomach, beneficial for kidney trouble and invaluable for diseases of the urinary organs.

Melcher's Red Cross Canadian Gin is so pure and so well matured that there is not a single headache in a barrel of it.—Adv.

LABOR NEWS (Continued.)

JEWELS SAY THEY MAY NOT VOTE

Civic Elections Fall on Their Sabbath—Protest From Tailors.

The last meeting of the Independent Tailors' Union was well attended, and several important questions were discussed. An attempt was made to have the candidature of Mr. James Cochrane endorsed, but the members declined to do this formally. A resolution was passed condemning the candidature of R. Forsyth-Smith on the grounds that he has already been twice elected to the Mayor's chair, and represented about the same policy as Prefontaine.

A number of the Jewish members declared that owing to the fact that the elections took place on the Sabbath, they would not vote at all. They thought the civic authorities had shown a great want of consideration, or even contempt, for the religious convictions of the large Jewish population of the city in fixing the elections for Saturday. By holding the elections on Saturday, the civic authorities practically disfranchised a large and useful body of citizens, and this amounted to a violation of the fundamental principles of the British constitution. Some of the officers, however, advised the Jewish elements to cast their votes, notwithstanding the fact that the elections took place on the Sabbath.

FAIR WAGES.

In their last report, the executive committee of the Trades and Labor Council refer with evident satisfaction to the enforcement of the fair wage resolution adopted by the Dominion Government some time ago. From May 26, 1900, when the fair wage schedules were incorporated in Government contracts, until the close of the fiscal year 1900-1901, 60 contracts held under the Public Works Department contained the fair wage conditions, and the total amount of said contracts being two and a half million dollars. In eleven cases after the incorporation of the fair wage conditions, the contract which had been performed at a less rate than that named in the schedule, the Government withheld payment until the contractor had settled satisfactorily with his employees. In five cases where the contractor refused to fulfil the conditions of his contract, the Government paid his employees directly, deducting this amount from payments due the contractor.

The work of D. J. O'Donoghue, fair wage officer, has probably been more uniformly satisfactory to the Government than that of any other official in the Labor Department.

UNION SHOES.

The International Shoe Workers' Union held a large meeting Wednesday evening, when Mr. Mathieu, who has recently been elected to general secretary, gave a short address. It was the intention of the International union, he said, to establish relations with the various unions of the workmanship of union stamp shoes will be something better than non-union work, in order to preserve and promote the reputation of their business trade mark.

TERREBONNE STRIKE.

At last night's meeting of the Iron Molders' Union, the business agent stated that the strike of the Terrebonne millers would be favorable to the union, and that it looked favorable to the men arrested for conspiracy and possession would be discharged without a trial.

BOUGHT ORDNANCE LANDS

Mr. Robert J. Campbell, of New York, vice-president of the Cape Breton railroad, yesterday bought the ordinance lands, known as the Longueuil Farm, consisting of about 108 acres on the south shore of the river, adjoining the town of Longueuil. The price paid was \$31,000. The attendance included Messrs. Robt. J. Campbell, New York; W. F. Ferguson, New York; A. Pearson, Ottawa; W. Ferguson, Department of Interior, Ottawa; Geo. G. SAVED FROM THE RUINS.

The removal of the waterlogged furniture and desks from the burnt Guardian building went on merrily all day yesterday. Some satisfactory finds were made in the front and lower offices, but in the back part nothing survived. Mr. G. G. Foster, of Foster, Martin & Archibald, found some of his most valued possessions safe in his desk, among them a medal

presented to Li Hung Chang by Emperor William of Germany, and in turn bestowed by the Chinese statesman, together with his photograph, on Mr. Foster.

The Burglary Guarantee Company carried insurance of \$5,000 in the Western and Actna Companies.

The Craddock Simpson vault, where it is hoped the most valuable of that firm's papers are preserved, has not yet been reached.

ALLEGED CABINET DIVISIONS

Toronto, Jan. 31.—Rev. S. D. Chown, speaking at a prohibition rally last night said it was rumored that Premier Ross was being opposed in his attitude on the prohibition question by two of his Ministers, and might not be able to carry his views in the Legislature. Dr. Chown said it might be a question yet as to whether Mr. Ross should call on these Ministers to resign their portfolios. A resolution was adopted strongly urging the Government to bring in a direct prohibition bill and against a referendum, but providing that if one were required a majority vote should be sufficient to secure enforcement of prohibition.

WENT UP A LITTLE

Steel Common Also Firmer. Interesting Article on the Wall St. Outlook.

Trading was light and scattered on the Stock Exchange this morning, with no material change in prices.

Toronto Rails took on a firmer tone, selling up to 107-1/4, while Dominion Steel common was also stiffer in sympathy with the news from Sydney regarding the satisfactory work being accomplished by the steel plant.

Dominion Cotton, which has been holding quiet a little strength, lately sold up to 48 1/2 this morning, which is something of a recovery from the low level of a few days ago.

Toronto Rails and Twins, which are being picked out for an interesting movement, did not come in for much attention, and held just about steady.

The former selling on the basis of 117 1/2, and the latter at 110-3/4. For a wonder there were no sales of Dominion Coal. Power was steady, selling at 91 ex-dividend and 92-1/2 cash.

The local money market holds just about the same. Call loans steady at 6 per cent., with plenty of money offering.

Street Railway shares continue to show big earnings. Twin City, for the first three weeks of the year, has shown a record of \$1,280 a day, as compared with corresponding period of last year.

Toronto Railway earnings, for the first three weeks of the year, were \$1,280 a day, as compared with corresponding period of last year.

Messrs. Parkes & Co., stock brokers, of Toronto, received a cable today from the London and Paris Exchange, Limited, of Bradford House, Moorgate Street, Bank, London, England, containing the following information regarding the Dominion of Canada to represent them in South Africa, West African and Australian mining shares.

The Montreal Clearing House statement for the week shows: Clearings, Balance.

Total for week ending January 30, 1902, \$15,216,442, \$2,027,900.

Corresponding week, 1901, \$12,812,220, \$1,635,498.

Corresponding week, 1900, \$12,007,712, \$1,647,422.

Corresponding week, 1899, \$10,944,542, \$1,889,181.

Montreal Street Railway earnings yesterday were \$1,075.00, an increase compared with the same day last year of \$487.16.

L. J. Forrest & Co.'s London cable quoted Grand Trunk Pacific at 110 1/2 and Canadian Pacific at 110 1/4 and Amicauda at 47 1/2.

Mr. C. D. Monk's messages said: Dealings in South African shares slackened somewhat, and there was a general decline in activity in American rails.

Pacific and Union Pacific are main features. Power shares steady, and such as Amalgamated and Amicauda will sell at approximately higher prices.

Washington and lower Wall Street continue to sell Sugar on the general advance in Cuban free trade legislation.

The market remains dull but firm, the principal feature this morning being the rise of five points in Rock Island on the future policy of the incoming management, which will be one of expansion, and the capital stock will be eventually enlarged.

Amalgamated affairs say, it is expected that F. W. Filding, representative of Rock Island Company, will meet H. H. Rodgers today. About one million pounds of casting copper was sold yesterday at 43c.

Robert Meredith & Co. received the following order from their private firm from Zimmerman & Forsyth, New York: The stock market this morning was without any striking feature and presented the familiar professional aspect of a business of moderate character.

The changes in the railway list were generally confined to fractions, with Howland and Canadian Pacific showing a moderate advance. Southern Pacific continued strong. Sales to noon, 238,469 shares. London market was firm in Americans, and Coppers are booming. Rio Tinco being 40 1/2. American railroads were active and higher. Canadian Pacific closed at 110 1/4.

Zimmermann & Forsyth quote foreign exchange in New York as follows: Demand sterling, 48 1/2; francs, 51 1/2; relichmarks, 55 1/2-1/4.

OUTLOOK FOR STOCKS IN WALL STREET.

Mr. J. Pierpont Morgan's statement that the market will do well enough as long as money is easy and railroad earnings keep up is undoubtedly sound. The increase in railroad earnings during the past year has exceeded all expectations, and the decreases which were expected to come with the opening of the new year have not put in an appearance. This is probably the best reason that can be given in favor of general rise in railroad stocks.

During the first half of 1900, railway stocks declined materially, while earnings declined only slightly. Now, however, the half of 1900 and the first half of 1901, railway stocks were adjusted to the increased value growing out of increased earnings. The result was a rise in the price of railway stocks to a level which was well above the level of the previous year. For six months past the level of prices has been steady, while railroad earnings have gone on increasing. The level has been high enough for leading railway stocks to make a recovery in the market. Now, however, for instance, St. Paul is paying only 3 1/2 per cent., Louisville 4 1/2 per cent., Manhattan 2 1/2 per cent., Metropolitan 4 1/2 per cent., New York Central 3 1/2 per cent., Pennsylvania 4 1/2 per cent., Southern Railway 4 1/2 per cent., and Union Pacific 4 per cent. These are the yields on investments, rather than the yields on speculative stocks.

Prices, too, have had a substantial rise in the past twelve months. Take the leading railway stocks:

Table with columns: Stock Name, 1901, 1900, Adv. Atchafalaya, 75, 40, 20. Montreal Power, 92, 80, 12. St. Paul, 100, 150, 5. Erie 1st prfd., 70, 64, 6. Louis. & Nash., 102, 89, 14. Manhattan, 110, 110, 0. N. Y. Central, 101, 86, 15. Pennsylvania, 148, 145, 3. Reading, 110, 81, 29. Southern Ry. prfd., 93, 71, 22. Union Pacific, 100, 84, 16.

These advances come after the great decline in the price of stocks. They represent the highest prices, and, in some cases, materially below the highest prices, but on the whole, a high advance. The market is not in a complete state of recovery, but it is certainly in a position to sustain this advance and to justify expectations of further advance. We give the increase in net earnings for the past five years, 1 to Nov. 30, in each of the past five years.

STOCKS OF CORN FARMERS' HANDS. Estimated at 300 Millions Against Over 825 Millions This Time Year Ago.

Statisticians now estimate that, with the same rate of shipping up to March 1, as to date, the amount of corn in farmers' hands March 1, will be 300,000,000 bushels, compared with 325,000,000 bushels March 1, 1901. The estimate shows a feeding of wheat at only 6 per cent. of last year's crop, or not over 45,000,000 bushels. He says: "Feeding of wheat has been practiced only in the south-west, local prices in all other states making corn the cheaper food and leaving it profitable so far to sell wheat and buy corn. The total thus disposed of will not exceed 45,000,000 bushels, unless there shall be a radical readjustment of the price relations of the two grains."

SUGAR MARKET. Local Prices Firm - Raw Beet Firm in Foreign Market.

The feature of the sugar situation during the past week has been the continued strength in the foreign market for raw beet, which to some extent has been a surprise. The price for the face of Mr. Licht's third increase in the estimates of beet crop, which he now places at 6,800,000 tons, has not been sufficient to cause a reduction. The recent advance in prices for raw beet sugar can only be accounted for as the result of a shortage on the part of the United Kingdom, with the expectation of some tariff changes. On the 24th inst. the annual report showed a 7 1/2, from which point it steadily advanced to 8 1/2, but since has receded to 8 1/4.

TO-DAY'S CATTLE. DRESSED HOGS.

There was no important change in the condition of the market. There was an improved demand for butchers for sheep and a fairly active trade in this respect at \$5.75 to \$5.80, and frozen hogs at \$5.25 to \$5.50 per 100 lbs.

CATTLE IN TORONTO. Toronto, Jan. 31.—Fifty-three loads in today, including 1,001 hogs, 455 sheep and 147 calves. Export cattle, light, \$4.50 to \$4.90. Export bulls, choice, 4 to 4 1/4. ENORMOUS PROFITS OF STEEL TRUST. A Surplus of Over \$174,000,000 on November 30. The Outlook is Splendid.

The United States Steel Corporation yesterday issued to its stockholders the promised report on the operations of the company since its organization. It is worth mentioning that the company has placed this information in the hands of its stockholders considerably in advance of the annual meeting, which does not occur until February 17. The report is a complete one, going into detail of the cost of the company's holdings as well as into the operations and will be commended for its frankness.

Table with columns: Description, Amount. Current liabilities: Pay-rolls and accounts payable, \$22,228,343. Sinking funds and reserves for interest on bonds, \$1,252,398. Surplus of U. S. Steel Corporation, \$174,000,000. Total, \$1,647,443,021.

Commenting on the outlook, the report says: "The outlook for the year 1902 is very bright. Everything indicates that all of the facilities of each subsidiary company will be taxed to their utmost to supply the demand that is being made. The actual output of the company is expected to be larger than that of the corresponding period in 1901, which, it should be remembered, was an enveloping year for the industry as a whole. BREAK JAIL TO ESCAPE NOGGE

Desperate Murderers Get Out by Aid of Warden's Wife.

Pittsburg, Pa., Jan. 31.—Edward and John Biddle, awaiting execution in the county goal for the murder of grocer Thomas D. Kahney, of Mount Washington, overpowered the guards at four o'clock a.m. yesterday and escaped. Both prisoners had been provided with saws, with which they had cut the bars in their adjoining cells on the second range, and both had revolvers. Shortly before four o'clock one of the Biddles called to James McGeary, who had charge of the outside gates, and asked for some cramp medicine in a hurry, saying his brother was dangerously sick.

WARDEN'S FAITHLESS WIFE.
The escape was subsequently explained.

FOR THE CHILDREN

To Keep Their Digestion Perfect Nothing is so Safe and Pleasant as Stuart's Dyspepsia Tablets.

Thousands of men and women have found Stuart's Dyspepsia Tablets the safest and most reliable preparation for any form of indigestion or stomach trouble. Thousands of people who are not sick, but are well and wish to keep well, take

Stuart's Tablets after every meal to insure perfect digestion and avoid trouble. But it is not generally known that the Tablets are just as good and wholesome for little folks as for their elders.

Little children who are pale, thin and have no appetite or do not grow or thrive, should use the tablets after eating and will derive great benefit from them.

Mrs. G. H. Crotsley, 538 Washington Street, Hoboken, New Jersey, writes: "Stuart's Dyspepsia Tablets just fill the bill for children as well as for older folk. I've had the best of luck with them. My three-year-old girl takes them as readily as candy. I have only to say 'tablets' and she drops everything else and runs for them."

BRITAIN REPLIES TO DUTCH NOTE

It is Doubtful Whether Anything Will Come of Peace Proposals.

London, Jan. 31.—In the House of Commons yesterday, Mr. Hon. A. J. Balfour said that as the reply of the British Government to the communication of the Government of the Netherlands on the subject of the South African war would not be made until today, it was impossible for His Majesty's Government to give the House the papers this week.

CANADIAN WAR SUPPLIES

Large Shipment of Flour—Method of War Office Purchase.

Ottawa, Jan. 31.—(Special.)—Within the next few days the Department of Agriculture will ship to South Africa five hundred tons of flour. This is the last of an order placed some weeks ago, but further orders will be received in a day or two. As far as can be learned there has not been any complaint made to the War Office concerning the quality of the flour. Since the supply market was opened some months ago, the system of ordering from the War Office has changed. At first the Department of Agriculture solicited supplies, but now a request usually comes from the War Office, in the form of a query as to the amount which can be supplied. The Department sends a reply and the order is placed.

Sir Thomas Shaughnessy Says, as to Who Owns Canada Atlantic.

Toronto, January 31.—(Special.)—Sir Thomas Shaughnessy, president of the C.P.R., stated yesterday that he was particularly interested in the sale of the Canada Atlantic. "I don't think it makes any difference as to who owns it," he said. In reply to the observation that Dr. Webb had mentioned the new line as an ally of the C.P.R., he said: "I suppose the fact that it is owned by a company that is not a part of the line is concerned." In connection with Mr. Booth's denial of a sale, Sir Thomas observed that in the past there were many negotiations and details to be completed.

ST. JOHN WIDE AWAKE

It Will Try to Get the C.P.R. Locomotive Works.

St. John, N.B., Jan. 31.—(Special.)—St. John is making an effort to get the big locomotive works to be established by the C.P.R. Mayor Daniel has sent a telegram to President Shaughnessy asking him to let the Canadian Pacific be open to receive a communication from the city on the subject. This city is believed to possess advantages for such an industry not the least important being its proximity to the Sydney iron and steel works and to the southern lumber fields, giving cheap transportation by water of all the raw material. This, it is thought, can offset the disadvantage of being at one end of the company's system.

A GERMAN SNEER AT TRUSTS.

Bremen, Jan. 31.—An article in the Weser Zeitung, seemingly based upon the authority of the North German Lloyd Steamship Company, affirms that Herr Wiegand, of the North German Lloyd Steamship Company, and Herr Hall, of the Hamburg American line, have not yet called for New York, and will not do so until early in February. The article says that the two companies are in agreement affecting the independence of the German steamship lines. The article sniffs at the so-called "limitation of rates" and says that the amalgamation of transatlantic steamship lines, and says that the United States Steel Corporation could not have survived without the aid of the trusts, and that American enterprises are still large debtors to Europe. The paper dwells upon the importance of the transfer of the control of this line to foreign hands would bring disaster to that city's commerce.

HARD ON AMERICAN MORALS.

London, Jan. 31.—The Archbishop of Canterbury, speaking in support of a resolution protesting against the legalization of marriage with a deceased wife's sister, drew a comparison between English and American morals. He denied that the moral law is as much observed in America as it is in England; divorce is far easier there than here, and he regarded the prevalence of divorce as a certain sign that the moral line in life had been lowered. Americans, he argued, were distinctly beneath Englishmen in that respect.

COMMONS RULES TO PREVENT DISORDER

London, January 31.—Mr. Hon. A. J. Balfour, in the House of Commons yesterday unveiled the Government scheme for the reform of the House procedure. ST. JOHN WIDE AWAKE

It Will Try to Get the C.P.R. Locomotive Works.

St. John, N.B., Jan. 31.—(Special.)—St. John is making an effort to get the big locomotive works to be established by the C.P.R. Mayor Daniel has sent a telegram to President Shaughnessy asking him to let the Canadian Pacific be open to receive a communication from the city on the subject. This city is believed to possess advantages for such an industry not the least important being its proximity to the Sydney iron and steel works and to the southern lumber fields, giving cheap transportation by water of all the raw material. This, it is thought, can offset the disadvantage of being at one end of the company's system.

A GERMAN SNEER AT TRUSTS.

Bremen, Jan. 31.—An article in the Weser Zeitung, seemingly based upon the authority of the North German Lloyd Steamship Company, affirms that Herr Wiegand, of the North German Lloyd Steamship Company, and Herr Hall, of the Hamburg American line, have not yet called for New York, and will not do so until early in February. The article says that the two companies are in agreement affecting the independence of the German steamship lines. The article sniffs at the so-called "limitation of rates" and says that the amalgamation of transatlantic steamship lines, and says that the United States Steel Corporation could not have survived without the aid of the trusts, and that American enterprises are still large debtors to Europe. The paper dwells upon the importance of the transfer of the control of this line to foreign hands would bring disaster to that city's commerce.

HARD ON AMERICAN MORALS.

London, Jan. 31.—The Archbishop of Canterbury, speaking in support of a resolution protesting against the legalization of marriage with a deceased wife's sister, drew a comparison between English and American morals. He denied that the moral law is as much observed in America as it is in England; divorce is far easier there than here, and he regarded the prevalence of divorce as a certain sign that the moral line in life had been lowered. Americans, he argued, were distinctly beneath Englishmen in that respect.
