British seek elimination of fresh friction causes

JAKARTA, Indonesia — British officials cleared out vital documents from the vault of their ruined embassy today, wiping out a possible source of new friction between Britain and Indonesia.

The embassy was sacked and set on fire and British homes were pillaged by mobs Wednesday in the backlash of the Indonesian hostility to the British sponsored Federation of Malaysia.

Red dispatch cases, canvas pouches and wooden crates, some containing top-secret papers, were carried by two trucks to the United States Embassy, a Canadian, American, Australian and other Western embassy officers helped to load the trucks.

Informed Monday that some Indonesians were trying to open the vault, British Ambassador Andrew Gilchrist hurried to the embassy and stood watch over the vault until Jakarta officials agreed to a joint British-Indonesian guard.

The British government ordered evacuation today of the five women still attached to the British embassy as word was received that the Indonesian government would prohibit international airlines from picking up passengers and cargo in Jakarta for Singapore after Thursday. The evacuees included the wife of Ambassador Gilchrist.

Presses for British entry in NATO force

LONDON (CP) — A strange vision haunts British government ministers just when they're being most logical about the proposed mixed-manned NATO force.

They see a bus—a missed bus—pulling away. It's the same bus they saw when Britain tried belatedly to join the European Common Market, only to be foiled by President de Gaulle.

British service chiefs see the United States plan for a multilateral NATO fleet, equipped with Polaris missiles, as virtual nonsense from the military standpoint. Political considerations are another matter.

Liberals active on Prairies

MOOSE JAW (CP)—Two Liberal cabinet ministers entered the heart of the Progressive Conservative stronghold to tell farmers about the huge \$500,000,000 wheat sale to Russia.

Trade Minister Mitchell Sharp said the agreement, arranged by the Canadian Wheat Board and included in a trade pact signed with the U.S.S.R. last week in Ottawa by the Liberal government, would mean about \$2,000 more to the average wheat grower.

Leader at home

By THE CANADIAN PRESS
Ontario's three party leaders, after making a big bid for Metropolitan Toronto's 29 seats, headed for their home ridings today to do some last-minute pitching to retain their seats in Wednesday's provincial election.

New Democratic Party chief Donald MacDonald got a bit of a head start, appearing in a three-way debate in his metro riding of York South Monday night.

Premier John Robarts headed for London, Ont., where he will stand for re-election as Progressive Conservative candidate in one of the two city ridings, and Liberal party head John Wintermeyer headed home to Kitchener.

Fatalities drop

OTTAWA (CP) — Motor vehicle traffic accidents on Canada's streets and highways, excluding Manitoba, took 389 lives in July, down six per cent from 414 a year earlier, the Dominion Bureau of Statistics said today.

The all-Canada death toll in July, 1962, was 422 including Manitoba.

Deaths by provinces with the July, 1962, figure in brackets: Newfoundland 5 (7), Prince Edward Island 6 (3), Nova Scotia 13 (14), New Brunswick 16 (16), Quebec 142 (150), Ontario 127 (139), Manitoba, not available (8), Saskatchewan 22 (19), Alberta 26 (21), British Columbia 29 (43) and the Yukon and Northwest Territories 3 (2).

Sees closer ties

LONDON (Reuters) — Archbishop John Heenan was enthroned today as new leader of Britain's 4,000,000 Roman Catholics and predicted closer ties between his church and other denominations.

His enthronement as archbishop of Westminster was before a congregation of 4,000 which packed Westminster Cathedral here. Hundreds watched it on closed circuit television at a theatre next door.

Mayor promises solution to city's water problem

By MALCOLM REID
(Record staff reporter)

The City of Sherbrooke will have final reports on the merits of two schemes to improve its drinking water in 15 days, and will then see to "a rapid solution," Mayor Armand Nadeau said last night.

The mayor was replying to the Sherbrooke League of Women, who favor a pipeline from Lake Memphremagog and presented a petition claiming 3,500 signatures to council's Monday night meeting.

Read to council by Mrs. Dieudonne Fournier of the League, the petition said improvement of the quality of the drinking water which comes out of Sherbrooke taps was "pressing and present, the question of the day. Public health requires it, the common good calls for it."

As wives and mothers, women knew this, the petition said. The League reported having taken a survey in which 90 per cent of those questioned favored first improving the water, and second doing it by a pipeline from Lake Memphremagog, where the water supply has been reported relatively pure.

The other proposal for improving the city's water is a filtration plant.

"These are two major projects," Mayor Nadeau told the women gathered in the chamber. "You ladies will understand that we must take costs into consideration."

The water purification project had been given second priority to the construction of traffic bridges over the St. Francis and Magog rivers because taxpayers had "not understood" and voted down water proposals in the past, and studies of the two remaining schemes were still underway, he declared.

"A curious fact" noted by the women's petition was that drinking water sellers had sprung up around Sherbrooke. "We are with you 100 per cent," said the mayor, speaking for the council.

Council would have estimates of the costs of the two projects in hand in two weeks, and would ask voters for a decision in a month and a half.

"We want Sherbrooke to be not only a clean city, but one which looks after the most natural means of keeping clean water," the mayor said.

The League of Women petitioners were introduced to council by Ald. J. M. Jeanson, chairman of the council's water-works committee.

NDP seeks change in House seating

OTTAWA (CP)—Speaker Alan MacNaughton has been formally requested to shift the figures on the Parliamentary totem pole, moving the splinters of the Social Credit groups downwards and pushing the New Democrats upwards.

In this case, the totem pole is the seating arrangement of the House of Commons. The request for the change came from Stanley Knowles, whip of the New Democratic Party.

Before Parliament took its summer holiday early last month, the Liberals were unchallenged high man on the totem pole, sitting in a solid block to Speaker MacNaughton's right in the Commons chamber.

Unchallenged in the number two position were the Progressive Conservatives, occupying as solid a block in the chamber to Speaker MacNaughton's left.

Although there were rumblings of a split among the Social Credit MPs, the pre-holiday picture had 23 of them sitting in a group next to the Conservatives. One, Dr. Guy Marceau, MP for Quebec-Montmorency, who used to be Social Credit whip, sat in lonely splendor on the Liberal side of the chamber but separated from the government supporters by a vacant desk.

NDP BUNCHED
The 17 New Democrats were bunched together on the left side of the speaker's throne but as far from it and as close to the chamber door as possible.

But the holiday period produced a radical change in the face of Social Credit. National leader Robert Thompson emerged with a total of 11 MPs—seven from Quebec and two each from Alberta and British Columbia.

His erstwhile deputy leader, Pierre Marois, president of the students' association, said the group will go ahead with plans to boycott the university-run cafeteria because the price of meals there had increased by 10 cents.

Msgr. Lussier said in a letter to be distributed to all students today that the association will be held directly responsible for the boycott, scheduled to start at noon, is carried out.

He said the university has noted "the chronic absence of any expression of satisfaction among students, almost an orientation towards anarchy" in their relations with the administration.

Driver demerit system receives general support across Canada

and we endorse it. . . . We think it has the greatest deterrent value."

"Any driver who has points against him and is in danger of losing his licence is bound to be cautious, if he has any brains," says Lawrence Delbridge, manager of the Nova Scotia Highway Safety Council.

But in New Brunswick, where the system has been in operation since 1956, officials are a little more reserved.

"We feel it is working satisfactorily and is of some advantage to us," says G. F. Wallace, deputy director of the Saint John police department.

His reservations are shared in British Columbia and Alberta where officials feel their systems of driver rehabilitation are fairer and more likely to prevent road recklessness.

COST A FACTORY

One reason Quebec has hesitated in introducing the demerit system is the estimated cost—\$1,000,000. Others are the difficulty of enforcement, particularly when the provincial police is understaffed by more than 200 men, and the lack of uniform traffic laws.

Newfoundland legislation permits the demerit system, however, also has its advocates.

Welfare group needs professional worker

COLUMNIST SPEAKS ON WELFARE WORK — Miss Doris Clark of Hamilton, Ontario, centre, chats with senior volunteer social worker Mrs. Harold Munkittrick and Doug Armitage, president of the Sherbrooke Welfare Agency. Miss Clark, who writes a column on successful living and is a social worker was guest speaker at the

The Sherbrooke Welfare Agency was advised Monday night to go ahead and engage a long-needed paid full-time professional social worker for the Agency while awaiting word from Quebec, Miss Clark replied.

"Engage your social worker now without waiting for the government. Take this leap of faith forward. . . . get going. . . . start demonstrating. . . . there is a job here that would be a challenge to any social worker," Miss Clark said.

President of the Sherbrooke Welfare Agency Doug Armitage told members of the medical board, clergy, church women, Community Chest chairmen and representatives of such organizations as the CNIB and IODE that the paid full-time professional social worker was the greatest need of the Agency.

"The Agency is gradually growing up," said Mr. Armitage. "We have begun to recognize the need for a full-time professional social worker. The increase in population and our limited number of case workers has made us realize that we need more help."

The executive of the Agency has already approached the department of Welfare through Edgar Guay, Deputy Minister of Family and Social Welfare for the Province of Quebec. A second move was made recently when the Agency familiarized Sherbrooke's MPP, Labor Minister Carrier Fortin with its needs.

As recent as this past Saturday Mr. Fortin told the agency president that the need had been brought to the attention of Emilien Lafrance, Quebec Minister of Social Welfare.

"We have not heard anything," he said Mr. Armitage, "but our needs have reached sympathetic ears and somehow something will be done," he said.

Miss Clark warned the Agency that it must be prepared to offer a good salary to a social worker. "Your biggest expense ought to be for the salary of a professional social worker," she said. Members said they would prefer a social worker who was bilingual with some experience.

The Sherbrooke Welfare Agency receives funds from money raised during the annual Community Chest drive which was launched in Sher-

brooke and Lennoxville yesterday. The campaign continues to October 8 with a \$24,000 objective.

Miss Clark also urged the Agency to set up a public relations committee.

United Nations (CP)—External Affairs Minister Paul Martin flies back to Ottawa today, winding up a busy week of diplomatic activity in Washington and at the United Nations.

He is to return to the UN later this week following cabinet-level talks with a Japanese trade delegation.

Martin was scheduled to meet this morning—for the second time in two days—with Mrs. Vijaya Lakshmi Pandit, India's chief delegate and a sister of Prime Minister Nehru.

The Canadian minister also met for more than an hour late Monday with Russia's Foreign Minister Andrei Gromyko at the Soviet UN mission.

He said afterward that the talk had gone well but gave no details. He declined to say whether Prime Minister Pearson's proposal to enlarge and reform the Security Council had come up for discussion.

Earlier in the day Martin had lunched with Mrs. Pandit and conferred later with Tunisia's Foreign Minister Mongi Slim.

DECLINES COMMENT
Martin declined to say whether his visits with Mrs. Pandit had any connection with India's long-standing dispute with Pakistan over Kashmir. But he said he planned to meet for a second time on Oct. 1 with Pakistan's Foreign Minister Z. A. Bhutto, whom he saw here last week.

Martin's round of discussions was one of many taking place on the periphery of the UN General Assembly as it entered the second week of its fall session.

TALK AT LEAST

Already planning to participate are the U.S., West Germany, Italy, Greece and Turkey. Home and his officials see no reason why Britain could not at least join the talks without committing itself.

The whole unpopular question has burst open Britain anew after being almost dormant here since Macmillan entertained President Kennedy at Birch Grove in June.

Macmillan, it was thought, had managed to delay decision and—ever more important—had lost some of his ardor for the project.

This was a welcome relief for Macmillan and for Defence Minister Peter Thorneycroft, staggered by the cost of the proposed 20-ship surface fleet. Britain's share was estimated at £130,000,000 for 10 years.

About Television

By CYNTHIA LOWRY

NEW YORK (AP)—Four new television programs and three specials bid for public attention during the weekend.

Most imposing was Friday night's taped CBS adaptation of Ibsen's Hedda Gabler starring Ingrid Bergman.

After a week dedicated to several dreary concoctions, a theatre classic in the competent hands of Miss Bergman, Sir Ralph Richardson, Michael Redgrave and Trevor Howard was as appetizing as a steak after a diet of appalesauce.

Hedda, as penned by Ibsen, was a creature of compulsive malevolence, destroying all with whom she came in contact—and finally herself.

In Miss Bergman's interpretation she emerged as a suffering creature more to be pitied than hated. The acting, however, was on a high level, and the play, despite its age and occasionally creaky dialogue, was thought-provoking drama.

Earlier Friday, ABC pre-

sented its completely changed 77 Sunset Strip in which Efram Zimbalist Jr., has been remodelled into a spade-type private eye. The series started with the first of a five-part episode and had Zimbalist wandering among a large number of unrelated characters. It was pedestrian.

Burke's Law, another ABC series, has Gene Barry playing a millionaire policeman who drives around in a chauffeur-driven limousine and spends almost as much time with the ladies as chasing wrongdoers. Despite the gimmicks, the show never got out of a well-worn Jerry Lewis.

Nervously over the premiere of the two-hour live ABC show Saturday night. He complained he has been repeatedly asked how he planned to fill two hours every week.

After the first ragged show, in which comedy was notable by its absence, the question has still to be answered.

Show Business

By BOB THOMAS

HOLLYWOOD (AP)—Is folk music due for a decline? The Kingston Trio, the fellows who started the craze, have this to say:

"Nothing can kill folk music; it's too basic in the American consciousness. It won't be like calypso, who went out of style because of overplaying. But the profusion of folk acts is bound to cut in on the business."

The Kingstons' spokesman most often is stubby Nick Reynolds. John Stewart, the handsome chap who replaced founder Dave Guard, also lends a comment or two. The silent member is Bob Shane.

The Kingstons, who actually started out as a calypso combo (hence the name), switched to folk and found the mother lode with Tom Dooley. Many more followed.

"Too many," remarked Nick. "The business can take just so many attractions. Supposing Peter, Paul and Mary are booked into a town for a concert. Then comes a 'hootenanny' troupe. Then we come along soon after. Somebody is bound to suffer."

So far the trio hasn't. They were here for a sell-out smash at the Greek Theatre, and that has been pretty much the usual

The new Comet features all-new exterior sheet metal, improved ride and handling characteristics, to which the increased rear-tread contributes importantly. The 1964 Comet will be available in a complete range of models in-

cluding two and four-door sedans, two door hardtop and convertible and four-door station wagons, in three series the Comet 202, Comet 404 and the plush Comet Caliente.

Prize-winning essays read

Tales of by-gone days recounted at meeting of Compton Historical Society

EATON — The Compton County Historical Museum Society held its annual meeting on Sept. 14, in the museum here. It was interesting to note that a number of younger people are attending these meetings.

The president, L. Hurd, had offered a prize for a composition written on the history of the county by students at Sawyerville High School. Mr. Grapes, and Miss Forgrave, students, read their prize-winning essays, which were much enjoyed. Mr. Grapes stated that he was indebted to Mrs. Cora Austin, the oldest member of the society, for his information. Unfortunately, Mrs. Austin was not able to be present.

The two guest speakers, Mrs. Findlay Bennett, of Canterbury, and Mrs. George Parsons, of Bury, gave interesting and interesting wherever they go. Their records continue selling at a rapid clip.

JUST ENTERTAINERS
Their success may be partly the cause for so-called purists to look down their noses at the trio. The boys just aren't ethnic—a word that is carried like a flag by the dead-serious devotees of the folk art.

"Every time I go to a coffee house to catch some folk singers, the same things happen," said Shane. "They spot me in the audience and make some crack about how commercial we are."

"We're entertainers," stressed Reynolds. "We just played the Dunes in Las Vegas and it was a real pleasure to be accepted for what we are. The audiences weren't interested in our ethnic qualities. They wanted to be entertained."

"The same was true in England, where we went earlier this year. Except for Tom Dooley and Where Have all the Flowers Gone, they weren't familiar with our work. They accepted us as entertainers and the response was great."

formative addresses. Mrs. Bennett dwelt on the hardships of the pioneers around Canterbury especially the early settlers from England, who came unprepared to cope with the conditions in the new world, but, who through courage and perseverance, blazed a trail for the succeeding generations.

The first year their main crops were potatoes and buckwheat, the latter had to be taken to Eaton or Lennoxville to be milled, as there were no local mills. Romance played its part also, and Mrs. Bennett told of the different families who married, and of the friendly, neighbourly spirit which existed. Mrs. Bennett also told of the amusing antics of adults, children and horses when the first automobile went through. She maintained that if we were told more of what our forefathers did, and if we tried to truly follow in their footsteps, we would make better citizens.

DAYS THAT ARE GONE
Mrs. Parsons' address was based on The Days That Are Gone. She dwelt with the area of land between Bury and Scottstown on the Victoria Road, called Bown's Mills. The farm homes from this district provided the social, cultural and economic needs of that community and was composed of English speaking people. That district is now rapidly becoming a French speaking community.

Some of these young pioneers formed an orchestra of their own, which consisted of organ, violin, harmonica and "bones". They were of invaluable help in the social life of the district, an inspiration of their contemporaries and faithful to their church.

Bad luck attended one church, which was blown down, but was rebuilt. The first organist was Edith Bown.

Several little red school houses provided for the education of the young people, but finally

other means of education were provided, more in line with the consolidation of schools. Many from this district have gone out into the world and become renowned, useful citizens, Canon Bown who lived at Windors Mills was descended from a family at Bown's Mills.

Mr. Hurd introduced the guest speakers and they were thanked by Mr. Leslie MacLeod. Mr. Hurd welcomed the members and friends, about 60 in number. He spoke of the co-operation and comradeship which existed among the executive. He has been in touch with Mr. Gouin, who has recommended that the government give the society a grant towards helping to defray the expenses of repairs and redecorations of the museum.

Mrs. S. Bishop gave the financial report; receipts were \$520.21, expenditures \$334.51, the balance \$185.70. There are 72 family memberships and 22 life memberships.

ACTIVITIES
The chronicler, Mrs. E. S. Heatherington, gave her report, which showed activity in the up-keep of cemeteries, the dedication of cemetery gates at Lingwick, the celebration of the 100th anniversary of Trinity United Church at Cookshire.

New industries have been started in the county, at Bury, the Concord Woodworking Co. purchased the property of Canada Reels, and employs 10 manufacturing patio, garden and lawn fences, etc.

Some have sold their farms, built new houses and moved into the town; an extension was made to the Legion hut; a new casket factory was built at Cookshire.

Members of the executive have attended and participated in the Eastern Townships Historical Society meetings at Sherbrooke. They also attended the trip around Lake Memphrémagog, which was sponsored by the Stanstead Historical Society. They have taken an interest in the covered bridges, and have enjoyed the pictures of those bridges published by Sherbrooke Daily Record.

Many individuals, church societies and Women's Institutes have given donations of all kinds to the Mapplemont Home for Youth, in Cookshire; one of the museum's unused benches was sent for their use.

The society sold a number of copies of A Pictorial Review of the Eastern Townships, written by Charles de Volpi and P. H. Scowen. There are still some on hand for sale. One of the projects for the ensuing year is to provide family record forms for the members and friends to fill out, which will be kept on file.

Mrs. George Parsons was thanked for her efficiency in acting as secretary for the society since its inception.

OFFICERS NAMED
The slate of officers for the ensuing year, were presented, of officers for the ensuing year, and the directors were appointed from the floor. The results are as follows: President, Lionel Hurd; 1st vice-president, Thomas Burns; 2nd vice-president, Ronald Stokes; secretary, Miss Doris Lake; treasurer, Mrs. S. Bishop; chronicler, Mrs. E. S. Heatherington.

Directors: Duncan McLeod, William Ladd, Lee Pomeroy, Leslie MacLeod, Charles Picard and B. N. Holtzham, Q.C.

It was interesting to note that from a letter received from Canon W. C. Dunn he is now assisting at the cathedral in Quebec City.

Members of the Sawyerville Women's Institute served doughnuts and coffee at the close of the evening.

Miss Mary E. O'Donnell is spending her vacation with relatives at St. Lambert and Montreal.

BROMPTON —
The community regretted to learn of Mrs. Richard Dole's sudden death, which occurred in the St. Louis Hospital, Windsor, Sept. 10.

Friends of Mrs. Albert Robinson, will be sorry to learn that she is a patient in the Sherbrooke Hospital, but will be pleased to know that she underwent successful surgery on Sept. 16.

Miss Mary Mastine spent two days in Ulverton, with her brother-in-law and sister, Mr. and Mrs. Donald Smith and family.

JACOBY ON BRIDGE

CINCH BEATS GOOD CHANCE

North's four heart bid was the transfer bid to spades at the four level because the two level transfer is not used after second hand doubles the opening no-trump or bids over it.

This time it worked to perfection. South went to four spades and West opened the eight of hearts. The nine was played from dummy and East's queen lost to South's ace. A spade lead put West in with the ace and he led a second heart. South won in dummy and entered his hand with the queen of trumps. Then he led the queen of clubs.

West thought awhile. Or at least stopped to count points. He held 15 high card points himself. Dummy had started with seven and East had shown the queen of hearts. This left

promptly cashed his ace of diamonds to hold South to his contract.

North might well have made four spades had he been declarer. East would have to find the diamond lead to beat him, but a sure thing is better than a good chance. With South declarer four spades was a sure thing.

CARD SENSE
Q—The bidding has been:

3 N.T. Pass 4 Drms. Pass

You, South, hold:
Spades A-K-5-4, Hearts J-2,
Diamonds Q-J-8, Clubs A-Q-3.

What do you do now?
A—The advanced bid is four spades. This bid clearly shows the ace of spades and interest in a diamond or no-trump slam. You can't be interested in a heart slam because you merely bid three no-trump over three hearts.

Ontario goes to polls, too

Varied elections in city scheduled

Provincial general elections, provincial by-elections, municipal elections and school commission elections all combine to offer a variety of fare for the politically-minded during the next few days.

Tomorrow is really the highlight day. Ontario voters go to the polls to select a new provincial legislature; residents of Notre Dame de Grace constituency in Montreal will select their representative in the Legislative Assembly and Sherbrooke citizens will nominate candidates for three seats on the City Council.

To round out the situation locally there is also an election due October 8 for a North Ward representative on the Roman Catholic School Board and on Oct 1 nominations will be received to fill a Protestant board vacancy.

Last night, the retiring Commissioner, Pierre Bachand, C.A., told a delegation that waited on him at his residence on White Street that he was prepared to seek another term. Spokesman for the group which requested Mr. Bachand to stand for re-election was Jean-Prospere Gautier.

Best information available is that there will be no opposition forthcoming to the retiring Commissioner and that he will be returned by acclamation at the official nominations Tuesday, Oct. 1.

Sherbrooke electors are expected to dispose of their aldermanic problems in a similar fashion at the official nominations tomorrow morning. There is no sign of opposition for the three retiring aldermen, Everett Nicol, Antonio Pinard and Marcel Savard, who are seeking renewal of their mandates.

In the Notre Dame de Grace by-election, Provincial Revenue Minister Eric Kierans is seeking election to the Legislative Assembly for the riding long held by Paul Earl, Revenue Minister at the time of his death last May.

Mr. Kierans is opposed by three other candidates, two Independent Liberals and one straight Independent. However the riding has a long Liberal tradition and it is believed he will have an easy victory.

In Ontario the Progressive Conservative Government of Premier John Robarts is seeking re-election. Despite a bitter campaign being waged by the Liberals and New Democrats, it is expected Premier Robarts will be returned to power although his party's top heavy majority in the Legislature may be whittled down somewhat.

The Ontario vote is the first in a series of provincial elections scheduled for the next few days, with voters in British Columbia, Nova Scotia and Manitoba going to the polls before the month ends.

First sale of feeder cattle in province is scheduled for Sawyerville on Oct. 17

Plans are being completed to hold the first feeder sale of cattle in Quebec, at Sawyerville on October 17.

Anyone having calves over six months of age, steers under three years of age or heifers, should let me know as soon as possible how many they have for this sale. The weighing will start at 10 a.m. on October 16 and all entries must be there and weighed before 3 p.m. The cattle will be sold according to lots. The sale will commence at 12:30 p.m.

WINTER FAIR — Plans have now been completed for the Sherbrooke Winter Fair. The livestock entries will arrive on the grounds Monday morning, October 7 with weighing taking place of market cattle at 12:30 p.m. The judging competitions for boys and girls will start at 1 p.m. The Calf Club Banquet will be held that evening and this will be followed by the showmanship contest in the arena commencing at 8 p.m. This is open to the public.

On Tuesday, October 8, judging will take place of the purebred classes and all classes in the calf clubs. Tuesday evening, there will be a parade of livestock, a square dance competition and the calf scramble.

Any contestant for the calf scramble between the ages of 12 and 17 on May 1st, 1963, should send their names immediately to J. E. Lamontagne, Secretary of the Sherbrooke Winter Fair, Sherbrooke, Que. The contest is limited to 18 contestants. In the case of there being more contestants than this, the date of making entry will be considered. There are three prizes of \$70; three prizes of \$60 and three prizes of \$50 being offered.

PLOWING MATCHES — The Provincial Plowing Match will be held this year at La Prairie on October 2 and 3. The Sherbrooke County Plowing Match will be held at Eddie Goodfellow's farm on the Brompton Road on October 5, with the banquet and distribution of prizes on Thursday evening, October 10 in St. George's Hall, Lennoxville.

The Stanstead County Plowing Match will be held on Saturday, October 12, on the Curtis Farm on the Stanstead highway. Anyone participating in these plowing matches can help the committee in charge by sending in their entries early.

SAFETY ASSOCIATION AFFILIATE — An affiliate of the province-wide employer association aiming to improve safety conditions in industry was formed in Sherbrooke Monday night.

Elected to the newly created Sherbrooke District Industrial Accident Prevention Association were: John Daly, chairman; Ivan Dugre, vice-chairman; and Gerry Bernard, secretary.

The Sherbrooke group is now a member of the Quebec Industrial Accident Prevention Association set up with its own charter in 1931 to reduce accident costs in manufacturing, construction, transportation, and hospitals.

To do this, the Provincial Association maintains a 20-member firm for unsafe conditions and work practices. This survey team also holds meetings with employees and shows films on safety.

An Educational Section, consults with management, especially in plants which have a high accident rate, and makes them familiar with the cost of the unsafe conditions.

This group also revises future safety plans of the employer and will at times provide a six-month training course for foremen.

Meetings of employees and association members to enlighten the former on safety conditions are also supported by the organization.

While the group may make recommendations for the correction of unsafe conditions or unsafe practices, they cannot enforce them. However if an employer does not respond to the Association suggestions, the body will report the matter to either the Quebec Workmen's Compensation Commission, Department of Labour, or the Department of Health.

This process usually leads the employer concerned into a costly settlement, since the Workmen's Compensation Board can impose much higher fines than the courts.

The expenses of the safety associations are paid out of the Common Accident Fund administered by the board.

Exact amount still uncertain

Bridge funds bylaw to be introduced next Monday

Alderman Marcel Savard, chairman of Sherbrooke city council's general administration committee, gave notice at last night's public council meeting that he will introduce a bylaw providing funds for the construction of the Montreal-Terrill and Big Forks bridges next Monday.

The amount of the bylaw was not determined, but at a special meeting last Thursday, councillors calculated the likely cost of construction of the two bridges and their approaches at \$1,532,696.31.

Council has not let any of the contracts for bridge work, though it has tenders in hand for both bridges and the approaches.

Ald. Savard said later in committee that no tenders could be let until the city had checked with the Quebec government on what grants were available.

Estimates brought down by Premier Lesage early this year mention \$250,000 for the Montreal-Terrill Street bridge across the St. Francis River, and Mayor Nadeau says he thinks

the roads department might provide something for the approaches to it and the Big Forks one across the Magog. The mayor, who has expressed the hope of beginning construction by October, instructed city treasurer Olivier Routhier last night to get in touch with Labor Minister Fortin, Sherbrooke member of the

legislature, about the grants. Services director Charles Langlois said he could prepare the bridge-financing bylaw for next Monday if the amount were set last night. Though council didn't set a definite amount for the bylaw, Ald. Savard's notice of motion had already been made for next week's meeting.

But on top of the school tax bill will be printed "School Board Property Assessment."

"In large print," added an alderman. The idea was Mayor Nadeau's. "Too many people are under the impression that we charge the heaviest taxes," the mayor complained. "In fact we haven't changed our mill rate in five years."

The present joint school-city tax bills were responsible, he said, and separate billing would be a way of "informing the citizen what he's paying to whom."

Council did accept treasurer Olivier Routhier's suggestion that a footnote on the school tax bill remind the taxpayer he still paid the assessment at city hall. "Otherwise they might send their money to the school board building."

And the city could never disentangle itself entirely from the school board's tax-collecting, because "we support the arrears of the school taxes," Mr. Routhier said.

Legally, the city was responsible for school tax collecting. But the city could bill school boards for extra clerical costs in the double billing, as it bills them for such services as pre-

paring voters' lists, the treasurer said. The treasurer said the idea had been raised too late for application in last year's tax bills. "Can you do it this year?" asked Ald. Everett Nicol.

"Yes sir," said Mr. Routhier. "If it's physically possible, do it," concluded Ald. Gerard Berard.

City's 'pocket theatre' available to L'Atelier

L'Atelier will have its workshop. The Sherbrooke drama troupe, winner of top awards at the Dominion Drama Festival in Kitchener, Ont., last spring, has been granted a room in the municipal "Pocket Theatre" by Sherbrooke city council.

The theatre is upstairs in the Dufferin Street public library building, and already houses L'Union Theatre, an older city drama troupe, and the Sherbrooke Jeunesses Musicales.

There will still be a room unoccupied, assistant city clerk Robert Belisle told council at Monday's meeting. "Mr. Gobeil (Pierre Gobeil, a leading actor with L'Atelier) told me they could use the stage Mondays and Fridays, which would be convenient with the other troupe," he said.

Mayor Armand Nadeau said he favored opening the city

premises to L'Atelier, but didn't think it should have exclusive access. Alderman Marcel Savard said various troupes should be able to agree on a schedule.

L'Atelier has occasionally performed in the 50-seat municipal theatre, but its only home to now has been Sherbrooke Seminary, where its director, Rev. Roger Thibault, taught.

The hardest sell of all

TV push-button sales for instant impulses

NEW YORK (NEA) — You think you've seen commercials? Buddy, you don't know what commercials are yet. Today's television pitches, compared to what lies in wait for you around the calendar, are as soft as a duck's down just after a shampoo. Coming up, if you can believe Vance Packard, are commercials that really are commercials.

Now, isn't that an idea to ice your heart and loosen your cheek book? It's like inviting a robber in to tea. Such a system, if universally adopted, could throw our existing merchandising arrangement into turmoil. And, from manufacturer to consumer, they're all thinking about what this device would mean to them.

Tyrus Kuhn, manufacturer: "Sir, this is American enterprise at work. It will bring a new fulfillment to the American people, raise our collective standard of living, create a market where none existed before. I'm for it, 100 per cent-a-roony."

Scandal boosts Clivedon attendance

Clivedon, a famous British estate now held and administered by the National Trust, is considered one of the most beautiful properties in the Old Country. Supposedly it is an attraction for people wishing to learn some of Britain's history and see for themselves some of the advantages of planned development of these old properties.

Water bombing helped

Rain and cool weather, with an occasional assist from water-bombing planes, put a decided damper on the forest fire hazard in all parts of Canada this summer. As a result, 1963 forest fire losses may be even lower than in 1962 when the value of timber destroyed was \$1,446,000 — the lowest figure since statistics were first compiled in 1919.

Rain dampens forest fire risk

By THE CANADIAN PRESS In Saskatchewan, 219 fires had been reported up to Aug. 25 compared with 272 in the same period of 1962 and 488 in 1961. Of the 33,000 acres in which fires have burned, only 3,000 acres are merchantable timber. And much of the 4,000,000 board feet of spruce in the fire areas will be salvaged, says W. R. Parks, director of forests.

Ontario view of Quebec education

(Toronto Globe and Mail) The Province appointed a Royal Commission on Education headed by Rt. Rev. Alphonse-Marie Parent, vice-rector of Laval University. Last year it set about studying academic structures and programs at all levels. At the last session of the Quebec Legislature, the need of change was recognized and was embodied in Bill 60 which proposed the establishment of a Department of Education headed by a Cabinet Minister, Youth Minister Paul Gerin-Lajoie, who would be responsible for curriculum, teaching standards and examinations in addition to the Minister's present duties dealing with school financing.

Other papers say:

1916—The Krupp works at Essen, Germany, were bombed by the French. 1947—Twelve men died when the steamer Milverton and the tanker Translake collided in the St. Lawrence River.

Gerald Waring REPORTING

INUUVIK, NWT — The price tag that Northern Affairs Minister Laing puts on this model town of 1,300 people 100 miles inside the Arctic Circle is \$24 millions, plus another \$8 millions for the airport. I've heard unofficial estimates of twice that amount and more, but the minister should know - it was the government that paid the bill. And it still is paying. A half dozen three to six family residences are under construction, and additional school facilities are being planned.

INUUVIK, the "Place of Man", exists because government planners in Ottawa decided that neither Aklavik nor Tuktoyaktuk, the old communities of the Mackenzie River delta, was a satisfactory site for an Arctic metropolis. But both the old towns have economic bases — the former muskrat trapping and the latter its seaport. It was visualized that the people of Aklavik would move en masse of Inuvik. Some have. And some have moved back again Aklavik, pop. 637, refuses to die.

And with all the amenities, officials here draw northern allowances of up to \$1800 a year. Somewhat ridiculously, a local Eskimos hired by the government gets a \$1 a day northern allowance too. The Delta people, as they call themselves, are basically Eskimos of Alaska as well as local origin, but with blood infusions from Indians, white trappers and traders, and the multiracial crews of the whaling ships that frequented the western Arctic in the last century.

National emblem is safe

Maple deaths are not a plague

OTTAWA (CP)—You can rest easy — our national emblem isn't headed for extinction. Dying and dead maple trees along some roadsides and on front lawns in eastern Canada have prompted a rash of worried reports about the fate of acer saccharum, the sugar maple. But in the woods, out of sight of most Canadians, the maple is flourishing as it always has, says a federal forestry department scientist. No mysterious blight is threatening the tree, says Dr. V. J. Nordin, associate director of forest pathology.

The PRAYER FOR TODAY FROM The Upper Room. When Jesus therefore had received the vinegar, he said, It is finished; and he bowed his head, and gave up the ghost. (John 19:30.) PRAYER: O Lord, we feel our inability to thank for Thy love expressed to us in Thy Son and in His sacrifice for us. In the silence, help us to ponder the meaning for us of His words "It is finished." In His name we ask. Amen.

Highlights of last year's Rotary Fair

The 18th annual Boundary Rotary Fair, which took place in the Rock Island arena, was officially opened last year by Georges Vaillancourt, MPP for Stanstead.

The Rotary Club president, Andy Joyal, said, "We Rotarians have all worked hard to make this fair a success and give all who attend a good time."

Lee Audet, fair general chairman, said, "The fair is put on by us to help crippled and other children and to support worthy causes."

Greetings and best wishes were extended by Rock Island Mayor Carroll Smith, Stanstead Mayor Ed Struthers, Beebe Mayor Hugo Lapenna, Roland Dionne of Magog, representing Rene Letourneau, M.P., who is in Ottawa, and by Denis Gerin of Coaticook, a former MPP for Stanstead.

There were numerous industrial and business booths of interest as well as booths sponsored by business but occupied by local organizations, Sunny-side School's display of students art and science work was in the Sherbrooke Record booth.

Boy Scout Troop 80 had an interesting display of badges and neckerchiefs from many countries. The Derby Line Girl Scouts' booth had on display, items "swapped" at the 1962 Girl Scout Roundup at Buttons Bay, Lake Champlain.

The Stanstead County Fish and Game Club had an interesting wildlife display. The Royal Canadian Legion had a memorial booth.

The 1963 model Chevrolets, Fords and Austins on display received interesting attention.

Dow Brewery had a free bowling game with prizes for all winners. Andy Joyal, Rotary president, threw the first ball, scoring the first strike.

The officials were busy throughout the fair as everyone present tried his bowling skill.

There were many happy prize-winners at the corny game of bingo, many a youngster being pleased to receive a stuffed animal or pyjamas bag he won, or was won for him by an elder.

There were winners at all games. Chance-it winners were Paul Stratton, Derby Line, and Georges Joyal, a two-time winner.

Rotary serves society in many ways

To a great many people the Rotary Club is merely a weekly get-together for a group of professional and business men who sing, eat, hear a speaker, and then go home until the following week. Actually, there is far more to Rotary than these weekly meetings though they are of a very real benefit to those who attend them. Just getting together and talking with the other members and building up a fellowship is of value and would of itself make the club worthwhile. There are, however, four important objects that take the club and members far beyond a weekly get-together.

The four objects of Rotary are to encourage and foster the ideal of service as a basis of worthy enterprise, in particular to encourage and foster:

1. The development of acquaintances as an opportunity for service.
2. High ethical standards in business and professions, the recognition of the worthiness of all useful occupations and the dignifying by each Rotarian of his occupation as an opportunity to serve society.
3. The application of ideal of service by every Rotarian to his personal, business, and community life.
4. The advancement of international understanding, goodwill, and peace through a world fellowship of business and professional men united in the ideal of service.

Yes, there is a good deal more to Rotary than the weekly meetings, but no good Rotarian misses a meeting if he can help it, as he realizes that out of these meetings come opportunities to serve his community and the world.

Briefly the four main spokes that stem from the hub of the Rotary Wheel, emblem of the club, indicate the principal objectives: Friendship, the good fellowship of Rotary; Business Ideals, the importance and worthwhileness of Service above Self; Community Service, the good that Rotary does in the communities; and World Service, the importance of the Rotary Spirit throughout the world stressing the absolute necessity for the ideals of Rotary as a foundation for lasting peace.

Rotary is a world fellowship of business and professional executives who accept the "Ideal of Service" as the basis for success and happiness in business and community life. In Rotary, thoughtfulness of others is regarded as the basis of service, and helpfulness to others as its expression. Together they constitute the Rotary "Ideal of Service."

Rotary's universal appeal is that it offers a practical means of enlarging one's friendships, participating in community betterment undertakings, promoting high standards in business and professional life, and advancing international understanding, goodwill and peace.

To attain its "Ideal of Service" to humanity, Rotary seeks all that which brings people together and it avoids all which separate them. In their broad program of service work, Rotarians believe in the value of action based on unselfish motives.

Rotary is not a secret organization. Rotary does not seek to supplant or to interfere with any religious or political organizations. It assumes that its program of service is in accord with all religions, and it does not concern itself with a Rotarian's politics. Rotary expects him to be faithful to his religion and loyal in his citizenship.

St. Pat's and Stanstead Juniors battle to scoreless tie, while Drummondville blanks SHS 1-0

Sherbrooke High School Seniors were blanked 1-0 in Drummondville Monday afternoon while St. Pat's and Stanstead Juniors battled to a scoreless tie in St. Francis Inter-scholastic Soccer Leagues.

Sherbrooke - Drummondville tilt was a rough and tough one as the teams battled it out on even terms in the first half. Drummondville came close a couple of times to scoring.

Drummondville in their drive in the Sherbrooke end hit the cross bar twice when they had Sherbrooke goalie H. Taub beaten. Sherbrooke defence was not playing their usual steady game.

On the resumption of play Drummondville keeping up their attack hemmed the Sherbrooke boys in their own half of the field for most of the opening minutes. Drummondville Seniors took the lead at the

thirty-three minute mark with B. Messier, the centerforward scoring from close in.

This was all the scoring though the Sherbrooke boys tried hard to get back on even terms. H. Taub, in the Sherbrooke nets, stood out pulling off many good saves. Messier, Rojatte on the home defence stood out for the winners.

Today the Sherbrooke High Juniors take on the Lennoxville Juniors. Sherbrooke High Seniors meet St. Pats tomorrow afternoon and on Thursday Sherbrooke Juniors meet St. Pats.

Sherbrooke: Taub, Cadman, Timmins, Robson, Leckie, Wilson, Haffenden, Stewart, Warren and Murphy.
Drummondville: J. Peacock, D. Haggerty, R. Rojatte, B. Conway, R. Hibbert, T. Gribben, R. Bergeron, N. MacDonald, B. Messier, T. Griffen and J. Bil-ling.

George Fleming paces Blue Bombers to 24-15 win over Esks, move within one point of third place in WFC

WINNIPEG (CP) — Toronto Argonauts must blush every time they scan the Western Football Conference scoring race.

A Winnipeg Blue Bomber half-back named George Fleming is the leader with 78 points. Fleming, a talented place kicker, Argos look bad again Monday night.

His 18-point effort paced the Bombers to a 24-15 win over Edmonton Eskimos and closed to third place in the WFC standings.

Argos, doormats in the Eastern Conference, cut the same guy early this season.

But you won't hear any groans from Winnipeg — nor from Fleming. He has six touchdowns, 15 converts, seven field goals and six singles in eight games. The entire Toronto team has scored only 82 points in the same number of outings.

MOVE CLOSER
Winnipeg coach Bud Grant, who felt there "wasn't much satisfaction" in Monday's win, now feels his club can make a stab at the WFC title.

The Bombers, defending Grey Cup champions, moved to within one point of the third place Saskatchewan Roughriders. Winnipeg, however, is only three points behind the leading British Columbia Lions who have 13. Calgary Stampeders are second with 12. Eskimos have four points.

The most effective player in the game was Fleming, who scored two first-quarter touchdowns, two converts, a field goal and a single.

Winnipeg also got a touchdown when defensive halfback Dick Thornton intercepted a second-quarter pass from Edmonton quarterback Lynn Amedeo at the Winnipeg 45-yard line and ran 65 yards to score.

Edmonton did most of its scoring in the third quarter, after a second-quarter field goal attempt from the 45-yard line by Bill Mitchell went wide for a single.

GET FAST START
Eskimos came out to start the second half under rookie quarterback Ron Miller and immediately drove for a converted touchdown off an eight-yard pass to end Bruce Claridge.

Edmonton's second touchdown was set up by Miller with a series of passes, but completed by Amedeo on a 16-yard toss into the end zone to halfback

Joe Hernandez. Mitchell converted. Of Edmonton's 49 yards rushing, Hernandez picked up 34. Edmonton gained 130 yards in the air as Amedeo and Miller completed 15 of 35 passes. Winnipeg's Ken Ploen completed seven of 13 for 125 yards.

Bombers picked up 153 yards rushing, with halfback Leo Lewis gaining 56. Fleming 46 and fullback Roger Hagberg 39. Winnipeg end Ernie Pitts suffered a bruise on the tip of his shoulder and was expected to be out of action for the next week or 10 days.

Fleming still top man in WFC scoring battle
Winnipeg Blue Bomber half-back George Fleming outscored British Columbia Lions' end Peter Kempf Monday to regain possession of first place in the Western Football Conference scoring race.

Fleming scored 18 points on two touchdowns, a field goal, two converts and a single as the Bombers defeated cellar-dwelling Edmonton Eskimos 24-15 at Winnipeg. Fleming now has 78 points—a 12 point lead in the race.

Kempf scored a field goal and two converts as Ottawa Rough Riders defeated the Western League leading B.C. Lions 23-17 in a Canadian Football League interlocking game at Ottawa. Kempf now has 66 points.

Guy Robichaud draws 60-day suspension

Set down following investigation, Farnham Express suspended also, F. St. Denis still top reinsman

Driver Guy Robichaud, one of the top reinsmen at the Sherbrooke Race Track, has been handed a 60-day suspension following a special investigation, stated Roger Roberge, presiding judge at the local track, Sunday.

Robichaud's suspension commenced Sept 15th and will run until Nov. 16th, inclusive. A test was taken on Farnham Express when he finished first Aug. 28th, and Sept. 15th, the report returned but the judges proceeded with further investigations before handing down a decision.

Farnham Express, owned by Gerard Hebert, was suspended indefinitely. It was pointed out a vitamin had been given prior to the race and within 48 hours of the class. This is contrary to Canadian Trotting Association rules and the test proved that a stimulant had been given.

Robichaud stated that he had been giving vitamins to all his horses but it seems that something else had been given prior to the race Aug. 28. There is something else missing and until it is discovered Robichaud is suspended as well as Farnham Express.

F. St. Denis Extends Lead
Florent St. Denis, who was setting the pace for individual driving honors at the local track extended his lead to 76 points over the weekend. Guy Robichaud is still in the runner-up spot but Rene Claing is next with 182 compared to 260 for St. Denis.

St. Denis has been leading the pack for the past three weeks and with the end of the season approaching it seems that he will be hard to catch. Only an accident or a long suspension would knock him out of the race.

Win tonight against Mets would end race and give Dodgers pennant, Yanks to field full team tonight

LOS ANGELES (AP) — For the Los Angeles Dodgers the long, hot summer seems over. The champagne is cold. The magic number is one.

One win by the Dodgers, which would happen tonight at the New York Mets' expense, or one loss by the St. Louis Cardinals, which could be today to the Chicago Cubs, was all that the Dodgers needed for the National League pennant.

The champagne is one ice in the Stadium Club at Dodger Stadium, and it's mighty cold. Some say it has been there since last year about this time, when an end-of-season plunge brought disaster to Dodger pennant hopes in a playoff loss to San Francisco.

On July 2, it was Dodgers pitcher Don Drysdale who defeated Curt Simmons and the Cardinals, 1-0, in the same stadium, to put the Dodgers in first place. They've been there ever since.

He opposes Tracy Stallard tonight. Drysdale is 18-17, Stallard 6-16. In 15 games against the Mets this season the Dod-

Minor hockey meeting called for Thursday
The third meeting of the 1963-1964 hockey season, of the Quebec Minor Hockey Association, Eastern Townships Section, will be held at the New Wellington Hotel, Wellington Street South, Sherbrooke, on Thursday evening, September 26th, at 8:00 p.m.

This meeting is called in order to make plans for the coming season and delegates from Granby, Waterloo, Magog, Richmond, Drummondville, Asbestos, Victoriaville, Lake Megantic, Magog, Richmond, Rock Island-Stanstead, Lennoxville and Sherbrooke will be present.

Any association, leagues or teams wishing to affiliate with the Association are requested to send delegates to this meeting.

The Quebec Minor Hockey Association was formed some 35 years ago with the aim of developing young players and last year there were 209 clubs and 2,680 players affiliated in the Eastern Townships. This was by far a record and by reports, this year should be even better. Anyone wishing to affiliate will be welcome.

Riders pull off old tricks to nip Lions
OTTAWA (CP) — Ottawa Rough Riders dipped into their bag of tricks Monday night and came up with a 23-17 victory over British Columbia Lions in a Canadian Football League interlocking game at Lansdowne Park.

The victory, watched by 20,141 fans, moved Riders back into a first-place tie in the Eastern Conference with Hamilton Tiger-Cats. Each team has four wins.

Lions retained first place in the Western Conference. They have 14 points, one better than Calgary Stampeders.

Fleet Whit Tucker and rookie Rick Black provided the main surprises for Lions.

Tucker, a University of Western Ontario graduate, lined up outside with Black on a third-down kick in the second quarter and then raced 26 yards to the B.C. 19-yard line to catch the ball. Two plays later Riders went over for a touchdown.

Black, a graduate of Mount Allison University, caught Lions napping in the fourth quarter when he raced downfield to recover his own third-down kick on the B.C. 47. Seven plays later Riders scored the winning touchdown.

Fullback Dave Thelen, playing his best game of the season, scored all three Ottawa touchdowns. Showing the form that made him a second leading rusher in 1961, the 210-pound import reeled off touchdown runs of 14 yards, 13 yards and one yard.

Moe Racine scored the other five Ottawa points on a 24-yard field goal, a 40-yard single and a convert.

Passing plays accounted for both B.C. touchdowns. Quarterback Joe Kapp threw a 32-yard end zone pass to Jerry James and later combined with Willie Fleming for a 38-yard pass-and-run touchdown.

Peter Kempf kicked a 17-yard field goal and two converts to complete the B.C. scoring. Lions had 21 first downs, eight by rushing, eight by passing and five by penalties. Riders made 20 first downs, 13 on the ground, six on passing and one on a penalty.

Announce New Healing Substance: Shrinks Piles

Exclusive healing substance proven to shrink hemorrhoids and repair damaged tissue.

A renowned research institute has found a unique healing substance with the ability to shrink hemorrhoids painlessly. It relieves itching and discomfort in minutes and speeds up healing of the injured, inflamed tissue.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most important of all—results were so thorough that this improvement was maintained over a period of many months.

This was accomplished with a new healing substance (Bio-Dyne) which quickly helps heal injured cells and stimulates growth of new tissue.

Now Bio-Dyne is offered in ointment and suppository form called Preparation H. Ask for it at all drug stores—money back guarantee.

DRIVER DEMERIT

Continued from Page 1
mits introduction of the scheme but although it has been under consideration for some time there has been no official indication that it is favored.

Ontario drivers are initially suspended for 30 days — the shortest demerit suspension in Canada — after they compile 15 demerit points. At the end of the suspension, the driver has to undergo another licence test and has his record reduced to seven points. If his record again reaches 15 points in two years, his licence is suspended for six months. Points are removed from the record two years after they are assessed.

In Nova Scotia, a driver is sent a warning letter after four points, is interviewed and warned again at six points and has his licence suspended for six months at 10 points. When the suspension is up he is given a probationary licence for 12 months. After a year, his regular licence is restored and he is given a clean sheet.

USES SIMILAR SYSTEM

The 10-point system also operates in New Brunswick, but the compulsory suspension is three months, followed by the same probationary clauses. The driver is warned after three points and interviewed after seven.

Prince Edward Island drivers are allowed 12 points before being handed a three-month suspension, with warnings coming between six and nine points.

Manitoba has a system whereby a driver is placed on probation for not less than 12 months after he accumulates six points. Additional points bring a warning which, if ignored, leads to suspension, although there is no set points limit. Term of suspension is decided by the registrar of motor vehicles.

Saskatchewan operates a

three-licence system. A driver starts with a white licence, is handed a blue one when he accumulates five demerit points and a red one at six or seven points. The next step is suspension. Every 12 months, a driver who has amassed less than seven points gets two removed, allowing him to descend the licence scale.

Cop jailed for aiding refugees

JOHANNESBURG, South Africa (Reuters) — Policeman Johannes Arnoldus Greef, 18, was sentenced today to six years in prison for helping political refugees escape from a police cells here and accepting a bribe.

Greef first pleaded not guilty, but changed his plea to guilty today and received consecutive sentences of three years on each of the two charges.

He was arrested last month after artist Arthur Goldreich and lawyer Harold Wolpe and two Indian political prisoners escaped while being detained under South Africa's 90-day "no trial" anti-subversion law.

Goldreich and Wolpe arrived in London Monday with permission to stay two months. The Indians, Moosa Moolla and Abdulhay Jassay were reported to be in Dar es Salaam, Tanganyika.

South African officials describe Goldreich and Wolpe as two of the biggest fishes in the underground movement against the government.

Transvaal Deputy Attorney General Percy Yutar told the court that Greef—who was on duty duty as well warmer—was paid £50 (\$150) by Goldreich's relatives and promised a further £2,000 if he permitted the escape.

British press cynical over coinage shift

LONDON (CP)—An air of weary cynicism marks news paper reaction to the latest episode in Britain's long flirtation with a decimal coinage system.

"Once again a common-sense reform looks like being impeded by the weight of tradition that hangs over British life," comments The Manchester Guardian.

The Daily Mail, wry to the point of bitterness, says that Sir Christopher Wren suggested the decimal system as far back as 1696, and "it's a pity he wasn't listened to."

The Times says editorially, "it's about time the government made up its mind one way or the other—the earlier the decision the better."

But The Daily Express wants none of this decimal nonsense. "To make the change would take five years and cost £100,000,000," it says. "Britain has far worthier objects to which to spend her time and her money."

The comments followed publication Monday of an official committee report recommending that Britain adopt a decimal system based on the pound sterling divided into 100 cents or pennies.

Sangster Memorial U.C.W.

Mrs. J. Paige awarded Life Membership Pin

Friends and members of Sangster Memorial United Church Women met in the church hall recently for the opening fall meeting. Mrs. R. Larrabee presided and opened the meeting with prayer. A moment's silence was observed in memory of Mrs. W. Burton. Minutes of previous meetings were read and Mrs. J. Hosking, treasurer, gave the financial report.

Arrangements were made for a rummage sale in the church basement on September 26th.

Mrs. E. Morel reported shipment of 10 pounds of used nylon hosiery to Korea during the summer.

The president read a letter from the principal, Mr. Bernard Lee of Norway House Indian Residential School, expressing thanks for the children's Christmas gifts.

At this point, one of the members, Mrs. J. Paige, was presented with a Life Membership Pin and Certificate by Mrs. C. M. Currie, honorary president, of Sangster Memorial United Church Women.

Mrs. Larrabee gave a short resume of Mrs. Paige's life, in the work of the church. She was very active in the W.M.S. at St. Andrew's and W.A. work at Trinity. Later she occupied several offices in Trinity W.M.S. which she fulfilled with dignity and hard work.

She held various offices in Quebec - Sherbrooke Presbyterian W.A. being vice president, literary secretary, also chairman of the nominating committee.

Church work was not her only interest. The Red Cross Social Welfare and Retarded Children all benefited from her generosity and talents.

Mrs. Paige expressed her thanks and appreciation to the members, recalling how

she first started in W.M.S. work.

Friends present for the occasion were, Mrs. F. Ross, president of Quebec - Sherbrooke Presbyterian W.A., Mrs. G. Hall and Mrs. M. Fuller, the latter bringing greetings to Mrs. Paige from Trinity Church.

A social hour brought the meeting to a close, hostesses being Mrs. S. MacLeod, Mrs. J. Hillman and Mrs. D. Wheeler.

Polly's pointers

by Polly Cramer

DEAR POLLY — If your baby is unhappy being left alone while you go from room to room cleaning house, put her in a plastic laundry basket with a few toys and take her along. An oblong basket is roomy enough for a very young baby but as she learns to sit up, a round basket will give support to her back. This is practical until she can stand. After that the basket may tip over.—**MARY**

DEAR POLLY — For a small family it is much easier to use the French fryer to boil potatoes. When they are done, just lift the basket out of the pan to drain. No fear of scalding yourself while pouring off hot water. I prevent broken fingernails

by wearing a soft work glove when cleaning my washer. Use it as you would a cleaning cloth and you can easily get into the cracks where dirt collects. Then just rinse the glove out, hang up to dry and it is ready for the next washday.—**MRS. M.C.**

DEAR POLLY—The following suggestion has been a boon to our family when we go to the beach. We saved a number of half-gallon white plastic bleach bottles. We filled them half full of sand, recapped them, looped a long piece of rope through the round handles, spacing the bottles about four feet apart. They were then placed bottoms up, cap down several feet out in the shallow water to form a paddling area for the young non-swimmers. We anchored the four corners with poles driven into the sandy bottom. This eases the anxiety for the parents and cuts down the need for verbal warnings of "You are out too far." You must still watch the children carefully but you'll find they enjoy staying in their own "pool." A single bottle is an excellent buoy to mark a boat landing or an anchor hitch and looks neat, attractive and professional bobbing in the water.—**S.H.G.**

DEAR POLLY — I keep a drawing bag hanging on a hook in my coat closet. This is the family "lost and found" department. When one glove or one sock or a part of a game turns up, the finder puts it in the bag. When the other half appears on the scene, its mate is easily located.—**MRS. J. K.**

The clothes poll

by Helen Hennessy

The sound of the wolf whistle girl is destined to disappear from the American scene. It's being muffled by designers. The new sporty look will cause many a leg-watcher to find a new way to spend leisure hours.

You can't blame a chap for indulging in the harmless pastime of admiring a slim leg, sheathed in gossamer hose and perched on a frivolous heel. But soon he may have to turn to old movies to glimpse a long-stemmed beauty.

High heels have taken a back seat to stacked heels, brogues and boots. And the neat turn of an ankle will be barely discernible in the heavy sportive hosiery for fall.

On the first day of the changeover, he may attribute to a rany publicity stunt the strange sight of a pretty girl in fake fur-printed stockings. But when the parade continues with turtle-neck socks, all-in-one stocking shoes, heavy ribbed knee socks and patterned textured hose, he'll reluctantly turn to a different spectator sport.

The evening hours won't bring much better pickings. Every girl (including his own) may be wearing a floor-length gown, but with it there's a strong possibility that she'll be right in sportive fashion with the new heavy silk jersey evening hose in shocking pink or turquoise. These little gems were introduced as a gag by Norman Norell, but are expected to be taken seriously by the girls.

If women react as expected to the fall sportive look, the legwatcher will become a vanishing breed. And when this comes to pass, it will take some of the fun out of just being a

Q: I'd love to buy a fur hat for winter. They seem to be what everyone's wearing. But my face is small and I'm short. All the fur hats I've seen seem so big and bulky that I know I'll look lost and "all hat." Have you any advice you can give me? — J. W. N.

Dear J. W. N.: — You're making your first fashion mistake when you choose to wear "what everyone's wearing" whether or not it's suitable for you. But as for fur hats, you probably just haven't yet seen the complete fall line.

You can find hats made of a flat fur that hug the head and show your face to good advantage. There are fur boas, too, that can be twisted or wound turban fashion around the head. These also should add height. There are small fur hats that just perch on top of the back of the head and these, too, should suit you. But if after a long search, you can't find a fur hat that doesn't "take over," stick to fabric.

Food Tips

Here's a flavor fillip for broiled fish fillets. Place fillets on aluminum foil on preheated, greased broiler pan. Sprinkle the fish with salt and a little lemon juice, then spread with chili sauce. Broil two to three inches from the source of heat without turning, allowing about five to ten minutes. Fish will be done when it flakes easily when tested with a fork. Allow about ten minutes broiling time per inch thickness of fresh or thawed, frozen fillets.

PROVINCE OF

QUÉBEC TOURIST COUNCIL

PUBLIC HEARINGS DEALING WITH THE HOSTELRY INDUSTRY

The Tourist Council of the Province of Québec, which had been created April 1, 1961, and whose existence has been maintained under the "Tourism, Fish and Game Department Act" which came into effect April 1, 1963, will hold a third series of public hearings on October 31 next.

The first series of hearings, held during the autumn of 1961, dealt mainly with tourist aspects and a large number of the recommendations made as a result of them have been incorporated in bills which were submitted to the Legislative Assembly during the present year. The second series of hearings featured hunting and fishing for sport and the Council is presently studying the briefs submitted at that time.

The new "Hotels Act", sanctioned some weeks ago, foresees the adoption of regulations by the Lieutenant Governor in Council regarding different problems of this industry.

In consequence, the Tourist Council will hold hearings at Montreal, in the Queen Elizabeth Hotel, October 31, 1963, from 10 a.m. to 12:30 p.m. and from 3 to 5:30 p.m. If the number of briefs warrants it, the Council will sit in the evening, beginning at 9 p.m.

All briefs to be submitted at this hearing must be addressed, in twelve (12) copies, before October 15 next, as follows:

Mr. J. B. Renaud, Secretary
Province of Québec Tourist Council
Parliament Buildings
Québec, P.Q.

The briefs must be devoted exclusively to the hostelry industry in accordance with regulations to be adopted in conformance with the new "Hotels Act" (11-12 Elizabeth II, Chap. 40). Their authors are urged to present them in as concise a form as possible in order to facilitate their study.
