ALL THE TIME

Weak and Unstrung, Madame Archambault Took Tanlac and Now Feels Fine.

"I was so weak I could not even sweep the floor but since I have taken Tanlac I can do all my household work without the least trouble," said Madame Camille Archambault who lives at 1338 Erables St., Montreal.

"For the past four years," Madame Archambault continued, "I have suffered so much from indigestion, nervousness, insomnia and constipation that I became almost a nervous wreck. After every meal I had such a heavy, distressing feeling that I could hardly breathe and at times I thought I would simply choke. Even soup disagreed with me and for months at a time I had to live on porridge. I suffered from heartburn so badly that I had to go to bed and have plasters and poultices put over me before I could get relief. This happened not once in a week but every day and I just lived in dread and misery all the time. My nerves were so upset that the ringing of the door bell would make me jump, and at night I was so restless that I could hardly sleep at all and I would spend the greater part of the night rocking in a chair. I had such dreadful headaches they nearly ran me wild."

"My husband advised me to try Tanlac as he had been reading where so many people were taking it with fine results. And it was certainly a happy day for me when I began taking it for I began to improve right away, and now since I have taken five bottles I don't feel like the same person at all. I have a wonderful appetite and can eat anything I please without suffering any bad after effects. I am never troubled with heartburn any more and my breathing is free and easy. My nerves are as steady as they can be and I sleep sound all night long. My constipated condition has been entirely relieved and I am no longer bothered with headaches. I feel stronger and better in every way and can do all my household work without tiring. I am in better general health than I have been in years and I owe it all to Tanlac."

Tanlac is sold in Sherbrooke by Griffith's Drug Store. E. D. Berger under the personal direction of a special Tanlac representative. (Adv.)

BISHOP'S CROSSING

LEAP YEAR BALL IS HELD.

On Friday evening, January 16th, the ladies of Bishop's Crossing, entertained at a Leap Year Ball, which proved an interesting and most enjoyable affair. The hall was beautifully decorated with red and white streamers and green foliage, while two large flags were draped at the rear of the stage, where Turcotte's orchestra, of North Hatley, furnished excellent music for the entire program, which called for twenty-two dances and four extras, all of which were heartily enjoyed.

The guests numbering 125 were received by the patrons, Messrs. F. E. Bishop, H. H. Moe and R. M. Bishop. At 11:30 all repaired to the lower hall, where delicious refreshments were served, after which dancing was continued until the small hours of the morning.

Miracles Due to Mothers.

Medicine can to some extent prevent disease from attacking the child; medicine cannot perform miracles. It is a miracle if children brought up in foul and evil surroundings grow up healthy and wholesome men and women. The miracle, incidentally, is usually accomplished not by doctors but by the self-sacrifice and heroism of the mother of the children, who too often loses her own health in the process.—London Times.

Language and Thought.

Language is properly the servant of thought, but not infrequently becomes its master. The conceptions of a feeble writer are greatly modified by his style; a man of vigorous powers makes his style bend to his conceptions—a fact compatible enough with the acknowledgment of Dryden that a rhyme had often helped him to an idea.—Culow.

A CONTEST FOR COUNCIL SEAT HELD AT BEEBE

Mr. Jenkins Defeated Mr. Haselton in the Election Contest.

BEEBE, Que., Jan. 21.—A rather interesting election contest was staged here on Monday. On nomination day M. L. P. House was elected by acclamation to the seat which has been held by his father, Mr. George E. House, for some twenty-five years, while Mr. J. A. Boulaix, who has already served on the council for two years, was re-elected by acclamation.

However, the seat which has been held by Mr. H. C. Jenkins, a commercial traveller, for about seventeen years, with the exception of a short interval in 1909, when he was defeated in a contest by Mr. William Haselton, a granite dealer, was again contested by Mr. Haselton. In the voting, which was quite spirited, Mr. Jenkins won the decision by a small majority.

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

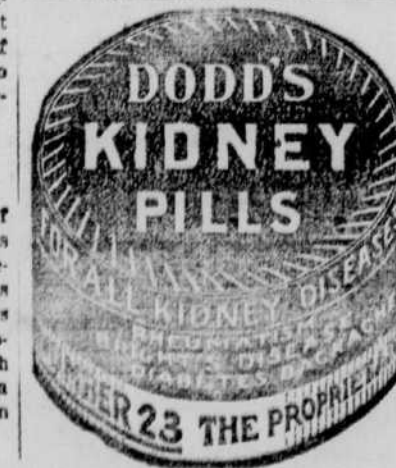

Miss Eva P. Yateman, Krugersdorf, Ont., writes:—"I feel that I must write and tell you of the great benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls wherever I was that it was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several different kinds, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells. I sincerely feel that your medicine has proved a blessing to me, and I advise anyone troubled with their heart to try them, as I am confident they will find relief."

TWO CONTESTS ARE PROMISED IN COATICOOK

Majority of Candidates for Seats on Council Were Returned by Acclamation Yesterday.

(Special to The Record.)

COATICOOK, Que., January 21.—Indications point to a most interesting election contest here this year for the vacant seats in the council. The nominations for mayor and councillors closed yesterday afternoon, and although the majority of the candidates were unanimously elected, there will be a contest for seat No. 3, in the east ward, while there are two candidates for the post of honor of mayor. Messrs. A. L. Dupuis and Joseph Lallier were nominated for mayor, and they promise to furnish a merry contest on February 2, when the voting takes place.

Red Cross Society Meeting.

The meeting of the Canadian Red Cross Society was held in the Guild hall on Saturday afternoon at 4 o'clock. Owing to the storm the attendance was not as good as was hoped for. The president, Mrs. E. L. Sleeper, occupied the chair. The minutes of the last meeting were first read by the secretary, Miss Edith Tomkins, and adopted as read. The correspondence was then read, which consisted of a notice of the annual Canadian Red Cross meeting to be held in Toronto on February 5, acknowledgment of articles received at St. Agathe, also an appeal from Red Cross headquarters for caps and scarves.

The principal object of this meeting was to form a finance committee, giving them the right or power to vote a small sum of money, not exceeding one hundred dollars, to any cause which they might approve. It was moved by Mrs. Fray and seconded by Mrs. A. F. Andrews that the executive committee act as a finance committee. This was unanimously carried. It was then proposed that a sum of money be given to the local Great War Veterans' Association. A grant of one hundred dollars was voted by Mrs. Mary Allard, seventy-five dollars of which is to be used to purchase a Victoria for their rooms, and the remaining twenty-five dollars to be used towards purchasing records and an electric stove. The motion was seconded by Mrs. Wm. Thompson and carried.

It was proposed by Mrs. Robt. Akhurst and seconded by Mrs. A. F. Andrews that the sum of fifty dollars be voted to the Coaticook Troop of Boy Scouts to be used towards the purchase of musical instruments or flag. It was then proposed by Mrs. Alfred Avery and seconded by Mrs. A. F. Andrews that the president, Mrs. E. L. Sleeper, and vice-president, Mrs. Mary Allard, attend the annual Canadian Red Cross meeting to be held at the King Edward Hotel, Toronto, on February 5, representing the Coaticook branch, and finance their expenses out of funds on hand. This vote was unanimously carried. Other questions were brought forward for discussion, but nothing definitely decided. Finally the matters in question were allowed to remain until further notice, and the meeting adjourned.

The secretary, Miss Edith Tomkins, acknowledges, with thanks, the following membership fees of one dollar each, namely, Mrs. Elwin Akhurst and Mrs. E. L. Sleeper.

Enjoyable Social is Held.

An exceedingly enjoyable social evening was held on Friday evening last, when the Boy Scouts were entertained by the members of the Blue Bird Club, in the parlors of the Methodist Church. There were about forty young people present, and the first part of the evening was spent in playing games. The favorite "donkey game" was played, and prizes won by Cecil Akhurst and Marion Anderson. The most interesting feature of the evening was a peanut hunt, which caused a scramble with laughter, when excitement. The prize winners in this hunt were Freda Sawyer and Howard Mayhew. At 10 o'clock delicious coffee, sandwiches and cake were served by the ladies in charge of the club. This pleasant event was enjoyed by all. The Boy Scouts especially highly appreciated this social evening given in their behalf.

LENNOXVILLE

LENNOXVILLE W.C.T.U. MEETS.

A very successful business meeting of the local W.C.T.U. was held yesterday afternoon at the home of the President, Mrs. M. E. McCurdy. Although the thermometer registered one of the coldest days of the winter, the attendance was fully as large as usual.

Several reports of interest were given, work being done in every department. A letter of cordial thanks from the Superintendent of the Old Brewery Mission, Montreal, was read, a barrel of warm clothing having been sent there early in the winter.

A membership campaign, under the direction of the Provincial Union, was planned to be carried out at once.

A special programme was planned for the next meeting which falls on the day of Frances Willard's death; papers will be given on topics of past and present interest; proceeds will be in aid of the Missionary Department.

In a few brief words at the close of the meeting the President urged upon the members the necessity of watchfulness and of keeping themselves informed, stating that in all probability the next move would be a Dominion referendum on Prohibition, and on this women would expect to be the voters.

Tea and light refreshments were served by the hostess and her little daughters, after which the meeting dispersed.

quested to attend. Arrangements to serve supper to the people from out of town will be provided for by the ladies of the united churches, and it will be served in the parlors of the Methodist Church. There will also be an afternoon session at 2.30 o'clock. The evening meeting will be at 7.30 o'clock. There will be three prominent speakers from Montreal and Sherbrooke. Everyone is invited to hear these speakers on the subject of "Forward Movement."

The second of the series of entertainments under the auspices of the Methodist Church choir will be held in the Opera House on Wednesday, January 28. These entertainments are procured from the White Entertainment Bureau of Boston, and consist of four different entertainments, the first of which has been given and thoroughly enjoyed by everyone who attended. The coming entertainment is entitled "Swanee River Quartette," and is considered to be the best negro quartette in America. Among other instruments they have a piano-harp. No one who saw the first entertainment will wish to miss the second, and for those who did not buy their tickets in time for the first, it is not too late to purchase four tickets for the remaining three from Mr. S. C. Smith, Mr. L. G. Moulton, of Mr. J. B. Smythe, for \$1.50, or single admission will be 75c.

Mr. and Mrs. W. J. Perkins and family, who have resided in Coaticook for the past four years, moved to Boynton on Wednesday last, when Mr. Perkins will take up farming. Special attention of the members of the Coaticook Red Cross Society is called to the following letter received from provincial headquarters: "As there is an urgent call for caps and mufflers to supply the returned soldiers in the various hospitals of the Soldiers' Civil Re-establishment, we hope your branch will be able to help us to meet this demand by sending some in as quickly as possible. It would be advisable to send a few at a time, rather than wait to make up a large parcel. We feel sure your good sisters will respond as in the past for we need caps and mufflers, and we need them at once. If you have no wool on hand it will be sent free on application to Quebec provincial headquarters."

The Young Ladies' Circle of the Methodist Church will be entertained on Friday, January 23, at the home of Mrs. Claribel Buckland, assisted by her sister, Miss Mary Buckland, at the home of the former, on Baldwin street. BAKERS VIOLATE CRIMINAL CODE AT MONTREAL

Board of Commerce Finds Bakers Guilty of Infraction of the Combines Act.

(Canadian Press Despatch)
OTTAWA, Jan. 21.—French-Canadian bakers of Montreal, who recently banded together and put up the price of bread, have been found guilty by the Board of Commerce of an infraction of the Combines Act and ordered to dissolve.

The increase in the price of bread is found to be justified, but the agreement entered into, whereby the bakers undertook not to sell below a certain price, and put up promissory notes to be collected if anyone violated the arrangement, is decided to be a violation of the criminal code.

The case is being reported to the Attorney-General of Quebec for such action as he may think fit, but the Board finds that the bakers were misled by an agent of one of the milling companies, who primarily is to blame.

NO BIG PROFITS MADE BY SHOE MANUFACTURERS

Such is the Claim Made by Mr. J. D. Palmer, of Fredericton, in an Address.

(Associated Press Despatch)
QUEBEC, Jan. 21.—Addressing the annual convention of the shoe manufacturers of Canada here yesterday, J. D. Palmer, of Fredericton, affirmed that the farmers' platform had deliberately misrepresented the figures given in the census of the shoe industry and placed the profit of the manufacturers at thirty per cent. on the total output.

He said, in part: "Let us give you an example of a shoe manufacturing business that I am very familiar with, for the year 1918. The items of expense which were not taken into consideration in the census of industry of 1911, when added together, were equal in total to 37 per cent. of the value of the materials used. Now, 37 per cent. of the value of the materials used in this case, which was \$18,507,535, would amount to \$6,847,787.95, leaving a difference of \$933,593 for profit, or slightly less than three per cent. on the total turnover or volume of business done."

PROBLEMS OF COST OF LIVING

(Continued from page One)

cents a bushel, not once, during all those years, did the farmers go on strike.

"It is a difficult matter to settle, and I do not believe that it can be done through commission. If the commission fixes the price of milk at \$3.10 per hundred, and the farmer discovers he cannot make a profit, he will let his cows go dry. And where is this remedy to start. As an example, take the price of shoes. The commission may go to the manufacturers and say: 'You are charging too much. Cut down your prices.' The manufacturer immediately says he is paying more for leather. The leather man says he is paying more for hides, and the farmer must pay more for the feed for the animals that produce the hides. I do not think that the purchasing power of a dollar will ever go back to what it once was, and we must get used to spending two dollars where we formerly spent only one.

ABOLISH IDLENESS.

"We must abolish non-employment, whether it be among the idle rich or the idle poor. It is not too much to expect that every man should do a reasonable amount of work."

"The farmers in the country are, to a certain extent, up against it, for their boys are crowding into the cities. With present labor conditions and rates of wages, the reason is obvious. There is at present a scheme by which the eight-hour day is to be made lawful. The eight-hour day would be made use of on the farm, but if it was, you would pay one dollar a pound for your butter.

"Here let me say also, that 'labor' in the accepted sense is a misnomer. The man who sits in an office and directs a business labors just as hard as one who works with his hands, and find me a successful business man—a successful capitalist—who only works eight hours a day.

"In Ontario now, we have a Farmers' Government. This has been brought about by the realization that in the past, the farmer has not received a fair share of representation. He must be given a fair representation, and both farmer and city dweller must work together for this great country. There must be no division, no race, no creed. I wish that the time would come when every man in Canada would speak the French language, and I wish that every French-Canadian would learn to speak English. If not, you will fall behind in the race. You can't isolate community, or a race, or a nation.

"The flag which flies over us all has always stood for justice. Some 60,000 of our Canadian boys lie overseas—glorious sleepers in a glorious cause. The war—thank God—is over, and in the parliament of Man, the Federation of the World, we may be brothers all.

"No man may live for himself alone—no race, no creed, no nation. We must work together for a common cause in a common country, and thus will all prosper."

NEW MAYOR SPEAKS.

Mr. Payer then called upon Mayor-Elect D. O. E. Denault, appearing at a public function for the first time since his election, and who made a few remarks, among them one of some significance, in regard to the establishing of a cold storage plant in Sherbrooke.

Mr. Denault moved a vote of thanks to the speaker, which was seconded by Mr. E. W. Farwell, President of the E. T. A. A., who spoke briefly of Mr. Wilson's remarks in regard to a winter fair building, and said that he hoped the new mayor would help along the project for Sherbrooke.

The meeting closed with a standing vote of thanks.

NEWSPAPERMEN OF U.S. TO TOUR EASTERN CANADA

Arrangements Being Made for a Three Weeks Tour by a Party of Two Hundred.

(Associated Press Despatch)
MONTREAL, Jan. 21.—More than two hundred representatives of the National Editorial Association, an organization comprising more than ten thousand United States newspapers, the largest affiliation of its kind in the world, will tour Eastern Canada, including the Maritime Provinces, during June of this year, following its thirty-sixth annual convention to be held at Boston, beginning the week of May 31st.

This announcement was made today by Wil Wilke, Vice President of the Association and Chairman of the Transportation Commission, who is at present making a preliminary survey to draw up an itinerary for the editorial party to cover a three weeks tour. He was in Montreal today conferring with officials of the Canadian National and Grand Trunk Railways.

The members of the Association made a very extensive and successful tour in August last year through Western Canada, and with a completion of this year's tour they will have traversed the Dominion from coast to coast, acquainting themselves with its great agricultural and tourist regions, and its commercial centres.

Mr. Wilke, in an interview here today, referred to the cordial relations existing between Canada and the United States.

He was confident the tour through Western Canada last year had materially strengthened these friendly relations and he was equally confident that the tour of Eastern Canada proposed this year would tend to draw the two nations still closer together.

U.S. TAKING NO PART IN DEMAND FOR EX-EMPEROR

However, if Treaty is Ratified by Senate, United States May Have a Member on Court to Conduct Trial.

WASHINGTON, Jan. 21.—As the German peace treaty is not yet operative so far as America is concerned, the United States, it is stated officially, has not joined in the demand upon Holland for the extradition of the former kaiser, nor can it do so even if it desired.

As head of the commission on responsibilities of the Peace Conference, Secretary Lansing took the ground that there was no law under which the former emperor could be brought to trial and punished.

In its final session upon the treaty, however, the conference designated the kaiser's acts as in violation of international morality, and provided for indictment by his accusers.

Accepting the view that this proposes a political and not a criminal trial, the American commissioners signed the treaty. Therefore, the official view is that while the United States may not now participate in the effort to extradite and try the former kaiser because of non-action by the Senate upon the treaty, it is possible that if the document is finally ratified as it stands, the United States may have a member upon the court which will conduct the trial as required by the treaty.

ORGANIZED WOOL GROWERS.

The increased price procured by
sheep growers for their wool has oc-
casioned new interest in sheep raising
in the Eastern Townships. Previous
to the war, wool did not demand a price
sufficiently high to interest many
farmers in this branch of agricultural
industry, and no large number of farm-
ers kept flocks of sheep along with
their other live stock. The difficulty
experienced from the attacks of wan-
dering dogs on the sheep also dis-
courage the farmer, in several in-
stances. But the jump in wool prices
has reacted on the industry, and the
business of sheep raising during the
last few years has been most profit-
able.

The large governmental require-
ments in wool supplies for equipping
overseas army made wool clothing an
immediate luxury to the outside buy-
ing public, and prices of wool rose to
the advantage of the farmer and
manufacturer. Immediately with the
increase of the importance of the wool
industry has sprung up the need for
the organized and intelligent manage-
ment of wool marketing.

Two associations of wool growers
meet in the Counties of Stanstead and
Sherbrooke this week. Thirty-seven
thousand pounds of wool were handled
by these associations last year, and
higher prices were obtained for the
farmers than local jobbers would offer
them. Moreover, these associations
grade the wool, a distinct advantage
to the manufacturer.

Organization of the wool industry in
this section is very desirable. Sheep
grazing is a possibility in agricultural
expansion, of a profitable kind.
The intelligent interest of Macdon-
ald College is being extended to these
associations, and farmers interested in
sheep raising cannot but benefit from
suggestions from this source.

THE B. C. SALMON.

From the Commissioner of Fisheries
for British Columbia comes the warn-
ing that there is a rapid depletion
going on in salmon fisheries in British
Columbia. This is a surprise to Cana-
dians who have become accustomed to
the westerner who wears out wheat-
producing soil, and profiteers who de-
plete the forests, but have presumed
that British Columbia fisheries were
everlasting.

"To permit a further depletion of
the salmon fisheries of the province
would be a policy which could only be
characterized as criminal," states the
Commissioner, who also maintains
that many of the depleted fisheries
can only be returned to a high rate of
production by care and strict regula-
tion.

"By judicious handling the fisheries
may be maintained for all time," is
the warning keynote of the communi-
cation of Hon. Wm. Sloan. Once again
is the country reminded that our vast
wealth requires regulated handling.
Magazines and pictures have adver-
tised the fast supply of fish in British
Columbia, the salmon and halibut,
with a refreshing impression that
when all other food supplies failed
Canada could fall back on their vast
fisheries, relying on an endless sup-
ply. But the rule of preservation ap-
parently obtains here, as elsewhere.

RECOGNIZING THE SOVIET?

At a recent meeting of the Supreme
Council the premiers of England and
France prevailed on the French pre-
mier to agree to allow a certain re-
sumption of trade with Soviet Russia.
Clemenceau objected to the point of
weariness, and at last agreed only
with the understanding that a clause
was inserted stating that this did not
mean a recognition of the Soviet gov-
ernment.

The Italian premier contended that
pressure from a certain element in
his country actuated his demand.
Lloyd George, who was presumably
influenced by the British labor ele-
ment, has refused to acknowledge a
Bolshevik peril. Publicly he has re-
fused to favor intervention in Russia.
When the news of active Bolshevik
movements towards India aroused the
world a few days ago, upon Winston
Churchill was laid the responsibility of
raising unnecessary interest in a non-
existent danger. Undoubtedly, Galli-
poli and Antwerp have served to re-
move some public confidence in
Churchill, and once the onus of the
scare was laid on his shoulders, public
concern died down.

Resumption of trade with Russia
appears to carry with it a recognition
of its government. The commensability
of this move only the future can de-
cide, but it must be admitted that

PRESS COMMENT

O, WISE JUDGE.

(Los Angeles Times.)

This idea of a California judge in
sentencing the auto to be locked up
for thirty days as well as punishing
the speed maniac who drives it is a bit
of Solomon's horse sense that might
well be incorporated in the statutes.

SIR GEORGE PAISH.

(Hamilton Herald.)

Sir George Paish, the English fi-
nancier who has arrived in the United
States to propose an immense
American loan to Britain, represents
nobody but himself. "Who is Paish?"
asks the London Daily Mail. "The
self-imposed mission of this entirely
unimportant person would provoke
laughter if it were not so mischiev-
ous. Great Britain requires no money
from the United States. This country
is perfectly capable of financing it-
self."

GO TO THE PEOPLE.

(Regina Leader.)

It is almost inconceivable that the
question of naval policy should be de-
cided, or that Canada should be re-
presented in such an epoch-making
Imperial Conference, by a Govern-
ment that does not possess the con-
fidence of the Canadian people. These
great issues should be entrusted to a
Government and Parliament fresh
from the people, a Parliament pos-
sessing a new peace-time mandate, and
not a moribund Parliament elected on
a now dead war issue and possessing
no mandate of any kind from the peo-
ple.

An early session has been provided
for, which is good. It is announced
that a new Franchise Act will be in-
troduced, which is likewise good, and
which the whole country hopes will
mark an advance upon all former mea-
sures in the fairness and liberality of
its provisions. The next essential step
in restoring confidence in Parliament
and the political institutions of the
Dominion is a general election as early
as possible in the summer of 1920.
These three steps are called for in the
interest of the people. They are vital
to the welfare, the continued peace,
progress and prosperity of the Domi-
nion.

PRICES AT THE TOP.

(New York World.)

One day a gentleman in the shoe
business predicts that the present ex-
orbitant prices of footwear will
keep cheap six months hence, and the
next day a spokesman for the cloth-
ing industry warns consumers to ex-
pect a big mark-up next spring and
summer.

By such methods the unwise are
encouraged to buy beyond their needs
and the mass of purchasers are pre-
pared for possible gorges to come.
Profiteering has become largely specu-
lative and its prophets are well aware
that the gamble cannot long survive
the purchasing furor, due first to un-
examined extravagance and sustained
now by cleverly created fears of fu-
ture scarcity.

Hardly a week passes without con-
ferences of manufacturers of and
dealers in clothing, shoes and house-
hold supplies at which the keynote is
coming invariably, "Beware of the
coming slump." There are many dis-
ciples of Colonel Sellers who see mil-
lions in it for unnumbered years and
justly their predictions with refer-
ence to higher labor costs, not in every
case authentic, and to advanced prices
for raw materials, some of which
are actually declining; but conserva-
tives advise caution. "Don't be caught
with excessive stocks," they say, and
even the optimists are exceedingly
circumspect on that score.

The fact is, and many business men
recognize it, that prices of most
things are at the top, that they can-
not go higher and that there is no
reason short of robbery why they
should.

A PROTECTOR OF DEMOCRACY.

(Christian Science Monitor.)

The Turkish Government has seen
a great light. It has discovered that
any interference with the entity of
the Ottoman Empire will be the cause
of a condition of endless chaos in the
Near East. The plea is not without
humor of the very grimmest descrip-
tion. The Turkish Government has
been the Quip of European politics
for several centuries; and now that,
in the cryptic phraseology of Sally
Brass, Straits have been called
upon it, in the person of its late
representatives, has determined to
take the advice of Miss Brass, and
not to be found anywhere. In other words
that disruptive triumvirate, Enver,
Talaat, and Djemal, have disappeared,
leaving the rest of the nation to make
the best possible terms possible with
the rest of the world. The nation at-
tempts this in the most delicately
eastern way. Little things there have
been, such as Armenian massacres
and Greek murders, which are regret-
table, but they are all of the past.
Turkey has put on a white sheet of
repentance over her bloodstained na-
tional habits, and, ceasing to
think of herself, is thinking only of
the future of the Armenians and the
Greeks flung into a paroxysm of un-
rest by the withdrawal of her all-pro-
tecting scimitar.

Now everybody knows that the
Turk is not famous for his humor,
but probably nobody ever thought
that his lack of humor was as bad as
all this. He really seems to think that
a criminal record of centuries con-
stitutes an argument for an extension
of his rule. His apology, in short, re-
minds one of the famous and humorous
apology of Mill, was it not? when he
explained that as a tide-waiter he had
belonged to a body of worthy gentle-
men whose sole duty was to draw
a short year as a qualification for
ultimately drawing a larger in-
come. Mill made his apology on lay-
ing down his thousand a year in or-
der to lead a campaign against such
methods of financial corruption in the
future. But the Turk is apparently
serious in his contention. So serious
that it is only possible to compare
him with those Chinese altruists of
the fourth century B. C., of whom
the virtuous Chuang Tzu declared that
"They knew not shame, nor what it
is to blush."

Italy, feeding Soviet Russia, while
Japan fights desperately against So-
viet Russia in the south, an anomalous
situation arises.

He Won't Be Happy Till He Gets It—In the Neck

LETTERS TO THE EDITOR

THE JUVENILE COURT QUESTION

Chateaufort, Que.

To the Editor Sherbrooke Record:

Dear Sir—Having read in your col-
umns of the tentative campaign for
the establishing of a juvenile court
system in Sherbrooke, may I not be
permitted to humbly make a sugges-
tion for the consideration of those
interested in the movement.

In the first place, the sponsors of
the juvenile court in Sherbrooke are
to be congratulated for their fore-
sightedness in doing their utmost to
keep pace with the progress of modern
cities. That the movement shall re-
ceive the hearty co-operation of all
interested in child welfare is not to be
gained.

However, it behooves each and
every one of us to direct our efforts
in the best channels, the channels al-
ready navigated by successful human
welfare boards, the channels which
have been found to be the most di-
rect route to the ports of reform and
good citizenship.

In most of the large cities of to-
day we generally find as handmaid to
the juvenile court psychological exam-
ining as a necessary adjunct thereto.
In order that the remedy recommend-
ed for the juvenile delinquent may
prove most efficacious, it is of pri-
mordial importance that the true men-
tal age of the child be ascertained. To
deduct the mental age of the child
from his physical age, general ap-
pearance and make-up, is not always
accurate. If we wish our prognoses of
the juvenile delinquent to be valid
psychologically, and if we do not
want our "prescriptions" to disappoint
us, we must have recourse to psycho-
logical examining of each and every
child brought before the court. Not
haphazard psychological examining,
but examination by the standard
Stanford-Binet test, the Yerkes-
Bridges Point Scale, or again, the Per-
formance Scale, if the child be a for-
eigner or illiterate.

The juvenile court of our modern
cities is generally in conjunction with
a psychological clinic. There is no
reason why Sherbrooke cannot follow
the path of its sisters.

Sincerely yours,

J. ADEODAT BLANCHETTE.

UNUSUAL STATE OF AFFAIRS HAS BEEN CREATED

Very Interesting Arguments Ex-
pected When Will of Late Mr.
Burk is Presented for Probate.

(Associated Press Despatch)

TORONTO, Jan. 21.—Under a judg-
ment given by Mr. Justice Logie, at
Osgoode Hall yesterday, there will be
an unusual state of affairs, when the
will of the late D. F. Burk, of Port
Arthur, is presented for probate. The
application will be made by Mrs.
Evangeline Medora Anderson and by
Mrs. I. A. Burk. The latter is Mrs.
Burk's widow, from whom he thought
he had been separated by a divorce
obtained in the United States. The
former is the lady with whom he went
through a form of marriage when he
thought the divorce effective.

If the second form of marriage had
been valid, the will would have been
invalid, as it was made before the
ceremony. Mrs. Anderson would have
thereby lost the legacy of half the
estate, which is valued at some \$300-
000. But it is held that Mrs. A. I.
Burk is the widow, and therefore the
will is valid.

The document which gives half
Burk's estate to Mrs. Anderson is held
to be his will, duly executed by him.
It is also held that he was mentally
competent when he made it.

RECURRENCE OF INFLUENZA IS NOW POSSIBLE

Local Doctors Warn People to Take
Every Precaution—Numerous
Cases in Chicago.

With reports from various centres
in the United States that influenza
has reached the epidemic stage, the
possibility of a recurrence of this dis-
ease in the province of Quebec is a
serious consideration, and every pre-
caution should be taken, according to
local physicians consulted on the mat-
ter today.

In Gary, Ind., a despatch says that
ninety-two new cases of influenza
were reported last night, making a
total of five hundred. The city health
department in Chicago lists over 2,000
new cases of the disease, with fifty
deaths, in the past forty-eight hours.

Messages from Toronto state that the
medical health authorities in that city
predict a renewed epidemic, following
the Chicago outbreak.
Statements of leading physicians in
this city emphasize the need of every
precaution being taken to prevent a
recurrence of last October's condi-
tions.

Dr. W. W. Lynch, when asked about
this matter, stated emphatically that
there was just as much possibility
of the disease breaking out here as
elsewhere, and said that his letter of
last fall, which set forth the need of
improvement in sanitary conditions,
should be acted upon.

Dr. Noel said: "No new cases have
come to my notice yet, but every care
should be taken to prevent the disease
from getting a hold."

Dr. George Hume and Dr. Gordon
Hume also stated that no symptoms of
this disease had been observed, and
that the health record was good, with
the exception of colds, which are al-
ways prevalent during the season.

Their united opinions, however, bring
out the fact that this city, as a rail-
way centre, and with its rapidly grow-
ing population, should be wide awake
to the fact that these diseases can be
fought to better advantage at a dis-
tance.

THOUSAND NEW CASES PER DAY.

CHICAGO, Jan. 21.—Influenza in a
child form continues to spread to-
day at the rate of 1,000 new cases
every twenty-four hours. All avail-
able trained nurses are being mobil-
ized by the health department to help
combat the epidemic. The total num-
ber of influenza cases exceed four
thousand. The hospitals are filled.
During the last forty-eight hours
279 new cases were reported, and the
deaths numbered twenty-six. There
were 382 new cases of pneumonia and
sixty-six deaths.

EAST FARNHAM

Mrs. Baker, of Stanbridge East,
has been the guest of Mrs. Merritt
Stevens for a few days.

Mrs. Welch has been quite ill the
past two weeks.

A business meeting of the W.C.
T.U. was held with Mesdames J. J.
and W. J. Brimmer last Saturday af-
ternoon. Despite the storm, quite a
number were present, and Mr. Levi
Shuffelt kindly took a double sleigh
load down. The president, Mrs. J. J.
Brimmer, presided, and the usual rou-
tine business was transacted. This
was an exceptional meeting, as Mrs.
Rough, wife of the Rev. Mr. Rough,
Baptist minister of Sutton, and Mrs.
E. N. Ford, of Sutton, were present,
to the delight of everyone. Mrs.
Rough gave an interesting and in-
spiring address, which was very much en-
joyed. She is a very fluent speaker.
Mrs. Ford also made a few remarks in
her usual pleasing manner. A vote of
thanks was then given the two ladies,
after which the remainder of the af-

SMUGGLE LIQUOR ACROSS IN THEIR AUTO RADIATORS

"Bootleggers" are Trying All
Kinds of Tricks to Beat the Cust-
oms Officials.

(Associated Press Despatch)

WINDSOR, Ont., Jan. 21.—Frustrated by the close vigilance of cus-
toms and immigration officials at the
Woodward Avenue ferry docks in De-
troit, "rum runners" taking liquor
across the river from the Canadian
side in automobiles, have devised a
new method for "beating the game."

When strict inspection of all auto-
mobiles was instituted, the "boot-leg-
gers" for a time were successful in
smuggling considerable liquor to De-
troit and Michigan across the ice of
Detroit river and Lake St. Clair, but
the United States federal revenue of-
ficers stopped this method, and now
several men who devote most of their
time to the lucrative pastime are tak-
ing the illicit liquor across in the
radiators of huge touring cars, being
able to get from two to three gallons
across unsuspected at a trip.

With whiskey selling in Canada at
\$14.50 for three gallons, in bottles,
and worth from fifty dollars to eighty
dollars in Detroit, the profit has proven
too tempting to miss.

LIBEL ACTION IS NOT UPHELD BY CARLETON JURY

Word "Relieved" in Notice in Con-
nection with Cessation of a
Member of Firm's Activities
With It Is Not Libel.

(Associated Press Despatch)

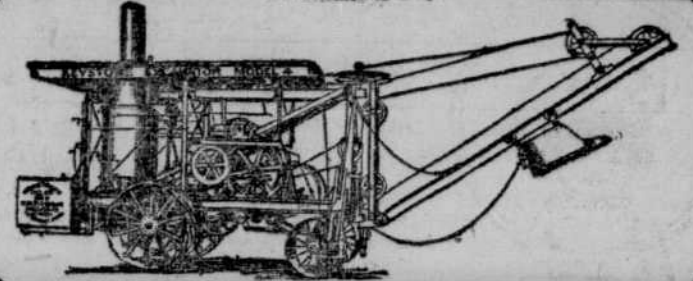

OTTAWA, Jan. 21.—The use of
the word "relieved" in the published
announcement of notice by a business
firm in connection with the cessation
of a member of the firm's activities
with it is not libel, according to a ver-
dict returned by a Carleton county
jury at the court house Monday,
when the ten-thousand-dollar libel
action brought by Mr. James Muir,
now a temporary employee of the
finance department and formerly a
partner and A. L. K. Shillington, do-
ing business under the firm name of
Harold C. Shipman Company, patent
attorneys, was heard and disposed of.

The action was heard in the Su-
preme Court of Ontario, with Mr.
Justice Lennox presiding. It was the
first jury action to be taken up. After
the jury had been out for about one
hour, its foreman, Mr. E. G. Steer,
who was formerly a member of the
famous jury which convicted Dr. Crip-
pen, in the Old Bailey Police Court,
London, England, about ten years
ago, returned a verdict in favor of the
defendants, Harold C. Shipman &
Company. Mr. Gorman appeared
as counsel for Mr. Muir. The decision
in itself is a most interesting one to
business firms, as practically the
whole issue of the case revolved
around the words "relieved from his
duties," which was published by the
Shipman firm.

Afternoon was spent in social inter-
course and dining. Delicacies re-
freshments were then served.
Mrs. (Rev.) Rough and Mrs. E. N.
Ford, of Sutton, were guests of the
Mesdames J. J. and W. J. Brimmer
last Saturday.

Insure Better Belt Traction

The adhesion of a belt on a Dodge Wood-
Split Pulley is greater than the adhesion
of a metal pulley at equal belt tension.
Reason is that there is less belt
slippage over the wooden surface than
over the metal surface.

Then there also is less weight friction be-
cause the Dodge Wood-Split Pulley is so
much lighter and so much better balanced.
It may be run at high speeds without
bumping.

The interchangeable bushing system
makes it adaptable to any standard
shafting.

It is a mighty good all-round standard
service pulley that will meet the demands
of all ordinary—and most extraordinary—
shop practice. In addition to which it
costs less to buy.

Try a few Dodge Wood-Split Pulleys in
your plant. They will justify your in-
vestment.

His Majesty's

Advance Announcement

It's only once in a great while that we can see a picture to show that stands right out from all others like a sore thumb. We've got one this time, and no mistake about it. Before you read this advertisement, be sure and keep in mind the young folks. Have them see it—and for goodness sake, don't miss it yourself. Talk about thrills—why Douglas Fairbanks is not in it.

This great picture is called "THE SUPERMAN" and by the title you would think that it was some great, big heavy drama—but it's nothing of the kind. It's a joke all the way through. A sensational melodrama of thrills, romance, comedy, hairbreadth adventures. It's an Italian picture. We imported it because we couldn't get anything quite so funny on this side of the world. The fellow that takes the leading part is called Samson, and he's the Fairbanks of the Italian Cinema—and Doug. would think a whole lot before he risks his life the way this bird does. Jumping out of windows, climbing smokestacks, beating up ten or twelve villains at a time counts nothing in our young life.

Heavens! You should see him save the show. He even chases down a smokestack and takes a lot of villains to their death to save the show. And then there is the big scene in the end. You can't take it seriously. It would be a shame to call it a comedy—it's more than that. It's the funniest laugh that you ever felt. You can call the day wasted if you don't see it. This picture was screened privately for us last week, and we know what we are talking about. Don't please don't let the kids away—and come yourself. This biggest of all laugh-makers for Friday and Saturday only. We won't charge you a cent extra—this is our treat. We'll miss our bet if you don't want to see it a couple of times.

P.S.—We almost forgot to say that Samson saves the little Princess, and they live happily for ever after.

LARGE QUANTITY OF BEER

IS SEIZED AT HULL

Inland Revenue Officers Captured Over Two Hundred Cases, it is Said.

(Associated Press Despatch)

The Inland Revenue Department at Hull has made one of the largest seizures of liquor which has taken place since the Hull district went on the "dry" list. Acting upon information received, Inland Revenue Collector Laflamme yesterday paid a visit to Gathineau Point, where he placed under seizure two hundred and twenty-one cases of Dow's Ale, which is considerably over the alcoholic content allowed by law. The seizure was made at the residence of E. Touthoff, who claimed he had ordered the beer for his personal use.

Great Britain, in their single match today in the Davis Cup Tennis tournament the score being 6-1, 6-4 and 8-6.

This contest was begun yesterday, but was postponed on account of rain after each player had won a game. This victory insures the retention of the Davis Cup by Australia.

In the other singles match today, Anderson, the young Australian, defeated A. H. Lowe, of Great Britain, 6-4, 7-5, 6-3, 6-4 and 12-10.

Sir George Paish Paid a Visit to White House to Inquire as to the President's Health.

(Associated Press Despatch)

WASHINGTON, Jan. 21.—Sir George Paish, British financial expert, called at the White House to inquire as to President Wilson's health yesterday, before leaving Washington for a tour of the West.

In discussing his visit to the United States, Sir George said he had not discussed a loan, large or small, with anyone in the United States since he arrived here several weeks ago. He came, he said, in addition to his European relief work, to find out "what the people are thinking" as to export trade and finance.

Discussion of the British financiers' mission developed in the House yesterday. Republican leader Wendell, of Wyoming, asserted that "suggestion for an international loan of \$35,000,000,000 probably will not materialize insofar as Americans are concerned."

No Sound From Giraffe.

It is said by animal trainers that the giraffe has never been known to emit a sound of any kind. No matter what the animal may suffer when ill or injured, he remains silent. And scientists have advanced the theory that, because of the extreme length of the neck, sound is difficult or impossible for the giraffe.

Wanted to Know.

A woman who was troubled with chronic nightmare and who frequently cried out in her sleep advertised for room and board "with a family who would not object to screaming in the night." Among the answers she received was one which asked: "How often would you require us to scream?"—Boston Transcript.

Americans and Yankees.

Although Canada is part of the continent of America, the name American is usually limited to citizens of the United States. A real Yankee is supposed to have been born and raised in one of the New England states, but outside of this country the name is applied indiscriminately to people of the United States.

Boring Glass.

The Scientific American says: Make a solution of 1 oz. camphor, 1 1/2 oz. spirits turpentine and 4 dr. of ether. Keep the end of the drilling tool wet with this fluid. The sharp corner of a freshly broken point of a file is one of the best drilling tools for this purpose.

SHERBROOKE IS TO GET BETTER PRODUCTIONS

Theatre Circuit is Formed, and This City Will Be on Trans-Canada Route.

An announcement of the greatest interest to Sherbrooke's theatre goers, regarding the placing of this city on a Canadian theatrical circuit, which means that more and better productions will be shown here the rest of this season, and particularly next season, is made by Mr. James R. Duncan, manager of His Majesty's Theatre, who has just returned from Montreal, where arrangements have been completed for the new Trans-Canada circuit.

The project is a new one, and has several Montreal theatrical men behind it. The syndicate has bought out a line of theatres, stretching across the continent, and the plan is that by cutting down on the distance of the jumps the companies will have to make, a complete circuit may be laid out, and even should a company fail to make expresses in some of the smaller cities on the circuit, the proceeds would help, and the showing would prevent them from being forced to "lay off" for a day.

Sherbrooke, according to Mr. Duncan, will get just as many first-class productions as it will support. The syndicate is bringing over a number of prominent English companies and will also control the entire Klaw and Erlanger and the Shubert output, coming into Canada. A few trial showings will take place in Sherbrooke to determine to how great an extent the circuit can depend on this city.

The first production to be seen under the new syndicate is Tyrone Power in "The Servant in the House," which comes here early next month. During the rest of this season and next fall and winter, "Martin Harvey," "Gerald Demarier," "Maid of the Mountains," "Lady Wyndham," "Chu Chin Chow," "Robert Lorraine," "San Toy," "Katinka," a revival of "The Geisha," and others.

Mother—Tommy, come right on into the house! This is the last time I'm going to tell you.

Tommy—Thank goodness! I can play now without being bothered.—Judge.

SOLDIERS IN THE AUSTRIAN ARMY MUST NOT MARRY

Must also Waive Their Political Rights Under Provisions of the Army Bill Before the National Assembly.

(Associated Press Despatch)

VIENNA, Jan. 21.—Soldiers and officers in the Austrian army are forbidden to marry and must waive their political rights under the provisions of the army bill now before the National Assembly. The personnel of the army would be limited to 1,500 officers, 2,000 non-commissioned and 30,000 men who would be permitted to elect councils to protect their interests. Opportunity would be given the soldiers to learn trades and to study agriculture while serving their time in the ranks which is fixed at six years in active service and six on the reserve list.

The army budget for 1920 places the cost of military activities at twenty-nine million kroner, which is one-sixth the average amount appropriated before the outbreak of the war.

When Virginia Seceded.

On April 17 in 1861 the state convention, composed of the members of the legislature of Virginia, passed the "ordinance of secession" by a vote of 88 to 55. Virginia, 11 days prior to this, had refused to join the states of America; but the decision of the Confederate leaders to fire upon Sumter and Lincoln's call for 75,000 volunteers on April 15 turned the scale and Virginia threw in her lot with the South.

Seeing the Earth Rotate.

If a long pendulum is set swinging with its point of suspension free to turn, the plane of swing will remain fixed while the rotating earth skews around under it. This is the finest demonstration of the earth's rotation, and recently at Wellington, New Zealand, a pendulum only ten feet long showed the rotation with 40 secs. after the swing began.

NEW YORK PRESS MARKET COMMENT
 (Compiled by McManamy & Walsh.)

Times—The market yesterday gave
 evidence of having run into a sold out
 condition, and with no incentive for
 new buying, the volume of trade
 dwindling to the smallest proportions
 seen in nearly a year.

Wall Street Journal—Many broker-
 age houses that have been persistently
 bearish during the last three or four
 helpful view of things, although of the
 weeks, are inclined to take a more
 opinion that any improvement must be
 gradual.

Wall Street Journal will say today:
 Japan will continue heavy buyer of
 steel.

Columbia gas goes on a 5 p.c. basis.
 Tennessee Copper and Chemical Co.
 may show small deficit. Low price of
 copper early in 1919 affected earn-
 ings.

Studebaker did big business in 1919.
 Net profits for 1919 after all charges
 and Federal taxes will probably ex-
 ceed \$10,000,000.

MONTREAL STOCK MARKET COMMENT.
 A special general meeting of Car-
 riage Factories has been called for the
 30th of January. Head office to be re-
 moved from Toronto to Orillia. There
 are negotiations proceeding for plac-
 ing of some large contracts for the
 manufacture of high class automobile
 bodies.

There was some disappointment
 shown on account of St. Lawrence
 Flour declaration of usual dividends of
 1 1/2 p.c. on preferred, and 1 1/2 regular
 and 1 p.c. bonus on common payable
 1st February. Some people expected
 as much as 2 1/2 p.c. regular and even
 2 1/2 and 1 p.c. bonus. Greater earnings
 second week January, \$1,228,846, an
 increase of \$199,068, or 19.4 p.c.

Toronto Stock Exchange adds to its
 unlisted department stocks of King
 Edward Hotel, Producers and Refiners
 a subsidiary of the Imperial Oil Co.,
 Dominion Power and Transmission and
 Canadian Machinery.

Some further calling of loans on the
 part of one or two of the banks yes-
 terday, although of comparatively in-
 significant volume, and the demand
 was readily met. Money locally is un-
 questionably tight on the action of the
 market recently would seem to indi-
 cate some liquidation.

Big DROP IN EXCHANGE RATE IN NEW YORK
 (Associated Press Despatch)
NEW YORK, Jan. 21.—(Wall St. No-
 noon)—The market became more ap-
 athetic and price changes increasingly
 irregular during the forenoon. Any
 disposition on the part of traders to
 extend yesterday's recoveries was
 checked by the further collapse of
 foreign exchange. The British rate fell
 to the greatest point of impairment
 ever reported at this centre, and
 French, Italian and several of the less
 active continental remittances also
 made new low records.

General Motors recovered most of
 its early decline and some of the steel
 issues improved after call loans open-
 ed at six per cent, the lowest renewal
 rate in several months.

PRICES IRREGULAR ON BOURSE.

PARIS, Jan. 21.—Prices move ir-
 regularly on the Bourse today. Three
 per cent rentes 58 francs 25 centimes.
 Exchange on London, 43 francs 47
 centimes. Five per cent. loan 88 francs,
 60 centimes. The dollar was quoted at
 11 francs 91 1/2 centimes.

SUGGEST LADY ASTOR REPLY TO KING'S ADDRESS.

LONDON, Jan. 21.—Suggestions
 have been made that Lady Astor, the
 only woman member of the House of
 Commons, be called upon to move or
 second the address replying to the
 King's speech from the throne on the
 occasion of the reopening of Parlia-
 ment on February 10.

The Mirror speculates whether Lady
 Astor, in case she is chosen for either
 place, will wear full court dress in ac-
 cordance with the tradition which pre-
 scribes that the member making the
 motion or seconding it shall wear a
 uniform or court costume.

LATEST LOCAL AND FOREIGN NEWS**ROBBED OF SEVEN LOW RECORDS ON THOUSAND BY A WOMAN BANDIT**

Bold Hold-up by Veiled Woman Armed with Revolver at Pittsburg.

(Associated Press Despatch)
PITTSBURGH, Pa., Jan. 21.—Cov-
 ered by a veiled woman bandit's nerve
 and gun, Adam Eidenmuller, secretary
 of a building and loan association, was
 held up and robbed of \$7,000 in cash
 and cheques and a gold watch late
 last night, almost within sight of his
 home.

"Oh, I beg your pardon," she said,
 as she bumped into Eidenmuller, the
 latter hastened to reply, but as he
 glanced down he saw a small ladies'
 pocket pistol menacing him.

Keeping the pistol in position, the
 woman drew from his pocketbook a
 large wallet containing the money and
 cheques he had taken in at a meeting
 of the town association. Then, with a
 smile, she started a conversation con-
 cerning the "funny weather Pitts-
 burgh has been having," keeping the
 tiny shining revolver pressed to his
 side.

Eidenmuller was forced to join in
 the conversation, he said, and after
 several pedestrians had passed the
 woman reached into his vest pocket
 and removed his gold watch.

"You just keep going," she warned
 Eidenmuller, after she had slipped
 the watch and wallet into a large
 muff.

The victim reported the robbery to
 the police immediately.

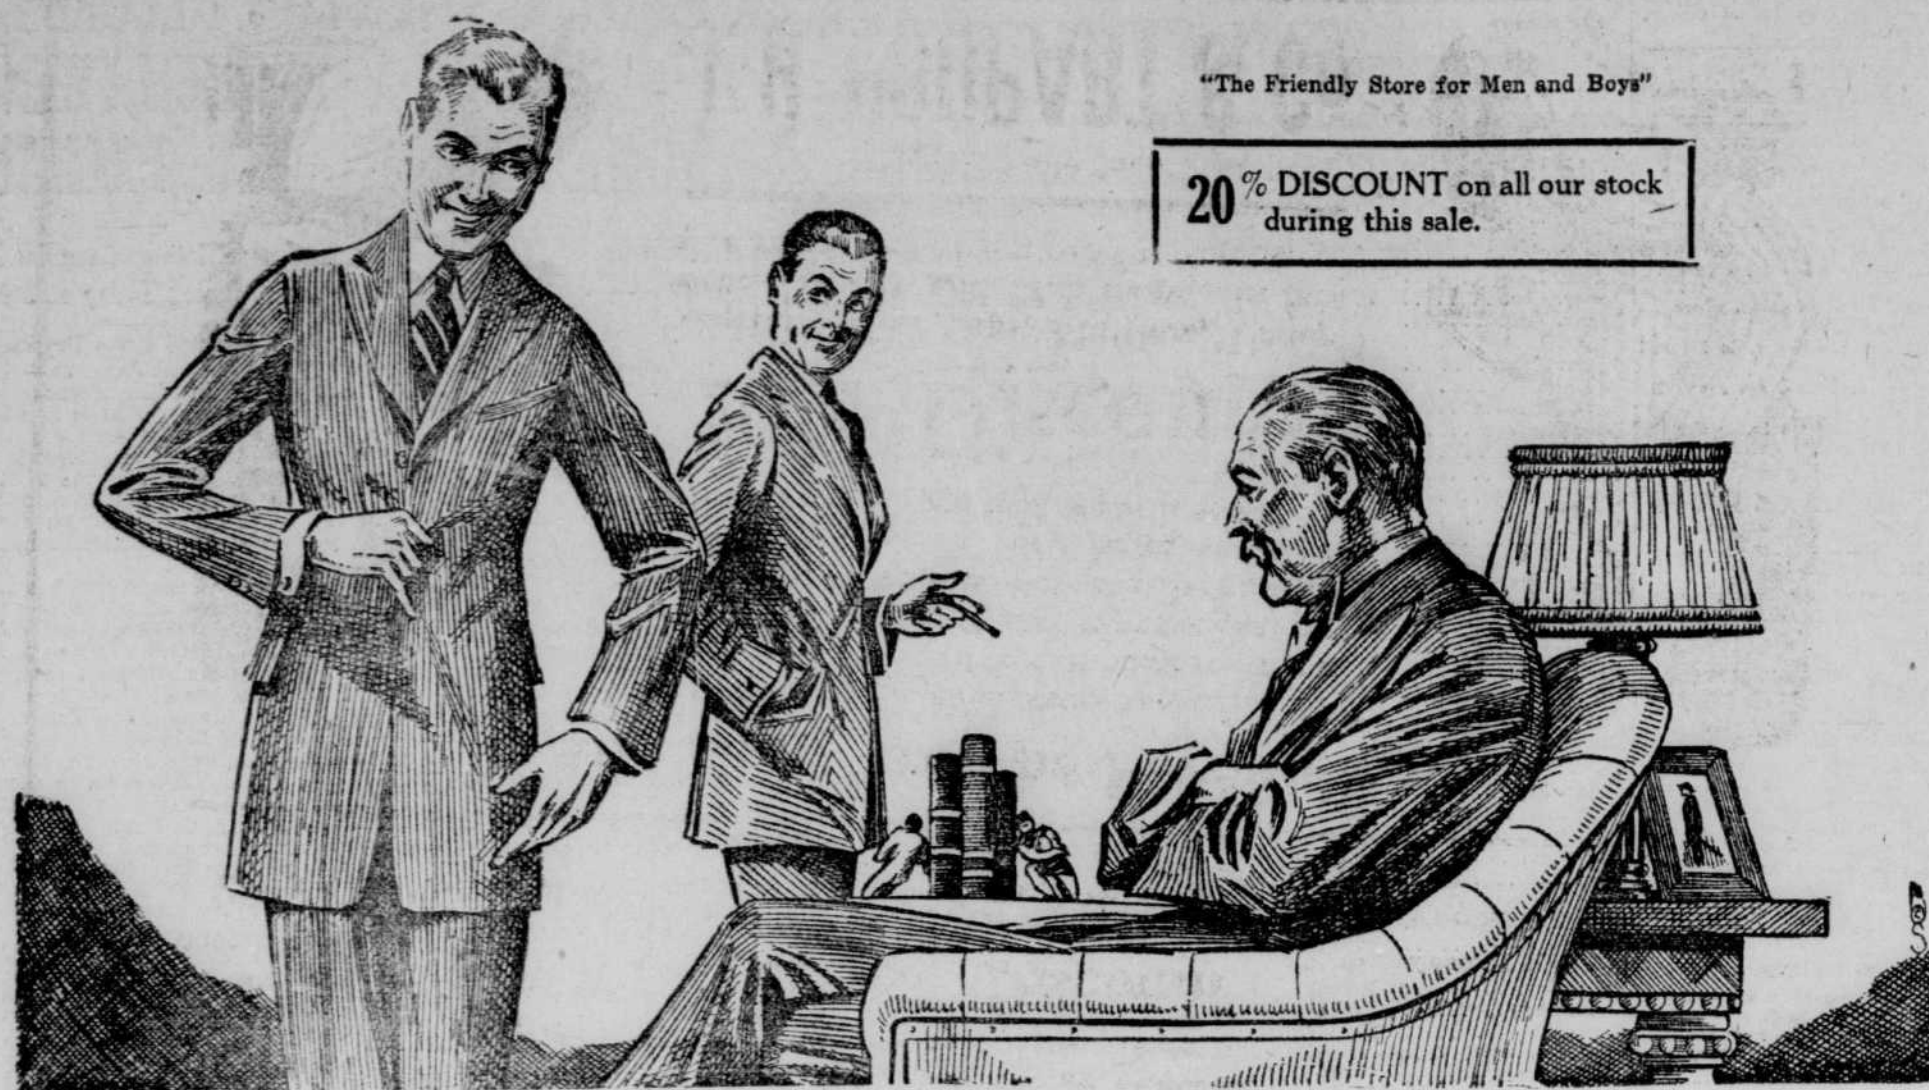

FRESH UPTURNS IN THE PRICES OF CORN NOTED
 (Associated Press Despatch)
CHICAGO, Jan. 21.—Unfavorable
 weather led to new upturns today in
 the price of corn. The outlook in other
 respects too appeared to be against a
 quick rebuilding of supplies here, and
 the strength of the hog market tend-
 ed likewise to give firmness to corn.
 Buying, however, was of only a scat-
 tered sort.

Opening prices which ranged from
 1 1/4 to 1 1/2 cents higher, with May at
 \$1.34 to \$1.35, and July \$1.35 to
 \$1.36, were followed by a moderate
 additional advance in some cases.

FIND LIQUOR IN STOCKING AT NEWPORT

Police Discover Latest Mode of Transporting John Barleycorn—Three Are Arrested.

NEWPORT, Vt., Jan. 21.—The police of Newport have uncovered the latest mode in transportation. The old-time methods of double-bottom trunks and French heels as aids to smuggling paid in comparison when compared to the wily system employed by the citizens of the great American desert.

Newport, Vt., of few thousand population, nestles close to the Canadian border, and Canada is the only oasis on this continent. But for the story.

Captain Stanton Hitchcock, the eagle-eyed immigration inspector, who keeps the arrivals who cross the boundary line, had his suspicions aroused yesterday when a bride and groom, accompanied by a crippled woman, arrived in Newport to seek admission to the United States. Captain Hitchcock wished to detain the visitors at the immigration station until he looked up their credentials. But the trio protested so vigorously to being detained in the pen that the inspector allowed them to go to the Newport House for the night.

Some hours later, while patrolling the streets of the town with Chief of Police Timothy Hinman, the inspector noticed that the crippled woman, instead of remaining at the hotel, was marching about the streets talking in the sights. They also noticed that her limp became pronounced on the main thoroughfares, and disappeared entirely on the side streets.

Interested in the interchanging quality of the woman's lameness, the inspectors awaited her arrival in Central square. She came, she saw the officials, staggered and was about to faint, when the gallants of the law rushed to aid her.

They came, she saw them, and to the surprise of all, a quart of brandy, good Canadian stock, dropped to the sidewalk, and the lady of the limp ran back to the hotel.

Now the bride, groom and crippled woman are in the custody of the police and the immigration agent has a new conundrum, which is: "If a man who carries a flask in his boot is a boot-legger, is a woman who smuggles a flask in her stocking, a stocking-legger?"
