The Quebec Chronicle

QUEBEC, JULY 11, 1905.

THE GOVERNMENT AND THE CRIMINAL

The letter of a prisoner lately discharged from the Quebec jail which we publish to-day in a rebuke both to the Government, and to the press of this city which has not sufficiently protested against the practice of which he very truly says it is not fair to either the citizens of Quebec, or to the men who have been forced to throw themselves on their charity. The men are brought away from the district in which they were convicted, and where, presumably, they would be able to find some assistance for their immediate wants on coming out of jail, and are turned loose here on the expiration of their sentence, strangers without means in a strange place, and handicapped in any attempt they might make to obtain employment by their residence in jail. Men, however good may have been their previous record might be driven into desperation under such conditions, much more so men who had already fallen under the clutches of the law, and it is only natural that the citizens of Quebec should feel uncomfortable at having them in their midst. That the Quebec gaol should be made a sort of succursal to the Montreal gaol is all right enough, (though we do not see why Montreal should not be made to provide sufficient accommodation for her prisoners, or, failing that, should make no more prisoners than she can conveniently house,) but it is another thing to make Quebec a dumping ground for Montreal criminals, and to have them let loose on her without the possibility of their getting away, greatly against her will and theirs. If the Government persists in bringing criminals here from an outside district for its own convenience, the least that it can do is to take them back again when it gets through with them. Our correspondent, even if he has been in gaol, has clearer views on the subject of common honesty than the Government, when he says "It is not fair to the citizens of Quebec or to the men at all."

FAST TRAINS.

The wreck of the Twentieth Century Limited Express at Mentor a short while ago recalled in the public mind an Italian proverb fast becoming obsolete in these days of rapid movement, "qui va piano va lontano," which is equivalent to saying that a man stands a much better chance of getting to his journey's end if he does not try to rush matters, and sufficient impression was made to induce the president of the New York Central, and the Lake Shore Railroads to announce that the 18 hours run between New York and Chicago would be abandoned, and the Twentieth Century Limited would return to its old time of 20 hours. At the time that that train was wrecked at Mentor it was running at the rate of 70 miles, but it is officially declared that the wreck was not due to the speed at which the train was running, but that the misplaced switch would have caused the same disaster to any other express train on the road. President Newman was satisfied with this fact, and that there is no physical reason why the 18 hour schedule should not be maintained, but at the same time he is of the opinion, "with all railroad men, that all trains go a little too fast," a conclusion with which, in the main, many prudent people will agree. There is a great craze for fast trains and quick travelling among all

Uncle Sam Knows A Good Thing

2 in 1 was the first shoe polish of the kind ever made. It is the best shoe polish in the world. It has no equal for a quick and lasting shine. It preserves the life of the new leather and gives new life to the old leather.

2 in 1 SHOE POLISH

has the largest sale, and has more imitations, than any other polish in the world. The demand for it in the United States has been so great that the F. F. Dalley Co., Limited, of Hamilton, has started a factory in Jersey City, N.J., and a place in New York, to meet the growing demands for their popular shoe polish.

At all dealers. Black and Tan in 10s and 25s boxes and 15c collapsible tubes.

who travel by land or by water, but this is not due to consideration of the time saved by the trip, save in exceptional circumstances, but to the love of rapid motion, which is the secret of the pleasure taken in tobogganing, ice-yachting, skating, etc. The short time saved in the trip is not really a consideration with the majority of travelers.

One railroad expert is quoted as saying that the very fastest train on a road is the safest because it has the right of way over all other traffic, every employe on the road is on the lookout for it; it is made up of the best equipment and run by the most skillful trainmen. This may be entirely true and probably is. But when an accident does overtake one of these "flyers" it is usually far more disastrous than a similar accident to a slower train. If, for example, the Western Maryland train which was in a collision the other day had been running on a schedule of 70 minutes between Baltimore and Hagerstown it is possible that the freight crew would have been more careful to keep the track clear. But if they had not and the collision had occurred while the passenger train was going as fast as the Lake Shore train was there would not have been many of the hundred passengers left to tell the story. As it was, not a passenger was hurt.

But is it not possible to apply the conditions which make the fastest trains exceptionally safe to all other trains? That it is possible to improve conditions in this regard is shown by statistics which were read at the recent railway congress by Sir George Armytage, chairman of the Lancashire and Yorkshire Railway. These statistics show that in four years, beginning with 1900, more persons were killed or injured on the railroads of the United States than in the whole of Europe for the same time. In the year 1903 there were killed by the railroads of the United States 10,000 persons and 76,000 were wounded, a casualty greater than that of the most bloody battle of the Civil War. The same year is spoken of in railroad publications in Great Britain as the "lamentable year," because the slaughter by the railroads was exceptionally great—that is to say, in the United Kingdom of Great Britain and Ireland 34 persons were killed and 919 injured. And it is likely that the railroads of that country carry each year almost as many passengers as those of the United States. It goes without saying that the British roads are in a more favorable position for maintaining safety. The traffic is more concentrated and more profitable, and it is possible to maintain better roadbeds and more tracks. There are no grade crossings and the roads are under stricter Government supervision. A great many accidents are due to "spread rails"—that is an unsafe and dangerous track—and a good many to faulty equipment. If all the passenger cars were as well built as the Pullman cars it is likely that at least 5,000 lives would be saved and 50,000 accidents to persons averted annually.

In the mad rush of modern life safety is sacrificed to speed in every walk of life. If we made haste more slowly there would be fewer cases of "nerves" among women, fewer cases of insomnia among men, fewer patients in the insane asylums, fewer divorces growing out of ill temper. In short, if we lived slower we might live longer and more happily.

AJAX. FIELDING DEFIES THE LIGHTNING.

Mr. Fielding's budget speech indicates that revenues reached high water mark last year and that the downward tendency will again claim its inevitable cycle in Canadian history. Ordinarily this turn in the country's fortunes would cause slight uneasiness. Every nation has its periods of prosperity and its eras of adversity. Lean years have followed fat years through the centuries and they will recur as regularly in the years to come.

It is not surprising therefore that after eight years of buoyant revenues a tone of depression should be detected in the budget speech. It is surprising though that Mr. Fielding should show no inclination to curb expenditures which, if justifiable on any grounds in years of bounding revenues, are assuredly unwise when receipts show such dangerous symptoms of diminution. The Dominion Government's policy up to the present has been one of lavish, if not profligate expenditure. The country's revenues were booming and the strain on the national treasury was not felt.

But it is folly now that the pinch is being felt to persist in a policy which was suited to the fattest years in the country's history. No national business concern would embark on expenditures as freely in hard times as in good times, and a nation cannot afford to defy the turn of the tide any more than individuals.

There has appeared in some of Mr. Fielding's budget speeches a strong note of caution. Now when there is more need for caution and retrenchment than there ever was, Mr. Fielding is defiant. The trouble seems to be that a Government cannot adapt itself to changing conditions as readily as an individual. This is particularly

ly true of the Laurier Government. It has gone wild in its estimate of the value of money, and it has imparted its recklessness to the people. And so it is that Mr. Fielding says the Government will go on spending freely because the Government cannot without inconvenience and perhaps danger refrain from spending freely. But sooner or later there must come an awakening. For the Government in the face of decreasing receipts and tremendous fixed obligations to persist in giving full swing to its spending proclivities is to discredit if not to endanger the financial stability of the country.—Toronto World.

THE "SILENT STEED."

Reports are persistent that the bicycle is coming steadily up in favor again.

It is stated that in England and France particularly, bicycle factories are working overtime to meet the demand.

It is a good change. The bicycle is too useful and too admirable a contrivance to be advantageously neglected by civilization. It owed its sudden boom in English-speaking countries largely, we believe, to the fact that it seemed to offer to women and girls an opening whereby they could chum in the open air more with their husbands, brothers, lovers and each other. Every girl wanted one; and partly on account of that no boy was the right kind of boy unless he could ride one. This was a great point, and surely there is reason for a kindly regard that the conditions did not meet anticipation. But it was found that bicycle riding by girls required short skirts, meaning frequent troublesome change of dress; that the use of the wheel was nearly always dusty and was sometimes muddy, sometimes even pitilessly hopeless in a rain-storm far from home. First the girls dropped the riding, and soon the boom collapsed.

It was a pity—the extent of the drop that is. The bicycle can be a valuable thing to the work-a-day world, and a wonderful thing for the man or boy—or girl—who wants to get out into the country occasionally, cheaply and pleasantly in fine weather. Where roads are good, or even half-way decent, the wheel opens the way to a little world of pleasures not otherwise so reasonably obtainable; one must feel that a misfortune for civilization and humanity would be involved if the bicycle fell so into disuse that its manufacture was stopped or made unduly expensive.—Ottawa Journal.

CAR COLLIDES WITH WAGON.
Detroit, Mich., July 9.—Nine people were injured, one of them fatally to-night at the corner of Fort and Hastings streets, when a Trumble Avenue car crashed into a wagon load of people returning from a drive about Belle Isle Park. Three temporary seats had been rigged up in the wagon for the afternoon's pleasure and it was crowded. Jos. Schwartz, of Toledo, who was fatally injured in the collision, was driving and did not hear the car.

TIME SAVED and Success Guaranteed When Women Use DIAMOND DYES.

Each year thousands of letters come in from all parts of this vast Dominion telling of victories and successes with Diamond Dyes in the home. The marvelous and immense sales of Diamond Dyes in Canada have induced adventurers and speculators (who know nothing about the chemistry of colors) to go into the putting up of package dyes. Such dyes are adulterated and crude; the colors are muddy and blotchy, bringing ruin to the materials you try to dye.

DIAMOND DYES, the choice of wise women, are the kind used when bright, full, fast and brilliant colors are wanted. No disappointments possible when you use Diamond Dyes.

DIAMOND DYES are sold by all leading druggists and dealers. Refuse to accept substitutes when you ask for Diamond Dyes.

Wurzburger Beer on draft, Mikado Cafe, 54 Palace Hill.

FAST TRAIN IN COLLISION.
Green Castle, Ind., July 9.—While running at the rate of 60 miles an hour this afternoon, the east bound New York fast mail train on the Big Four collided with a west bound freight train which was pulling into a siding at Oakall, five miles west of here. Fireman Tippy, of Indianapolis, was fatally injured. The engine, one mail car and a combination car left the track and plunged fifty feet into a corn field.

June 12/10

FOR SALE.

The Boarding School of Notre Dame du Bon Conseil (Formerly Du-Tresne's Boarding School) situated at St. Thomas de Monimagy.

This magnificent property has been completely repaired and enlarged with the object of installing therein of a branch of the convent of Notre Dame du Bon Conseil, of Chicoutimi. Adjoining the building is a chapel recently constructed and which is exceptionally handsome. The establishment is provided with all modern improvements, bath, hot and cold water in every room as well as electric lights, and is heated by hot water. A portion of the building containing a hall and parlor has been specially divided so as to lodge the director of the establishment and the other portion includes study halls, class rooms and dormitories and is able to contain 40 to 50 boarders. The property is situated about one mile from Montigny station, and a large tract of land, 2 acres by 6, adjoins, besides a magnificent grove. A unique occasion for boarding school or a religious community.

ARANMORE ASHORE

Struck About Two Miles East of Sheldrake, North Shore.

Messrs. Holliday Bros. received a telegram yesterday morning, from Captain Pickett, of the steamer Aranmore, stating that the vessel was ashore two miles east of Sheldrake, but giving no further particulars. On receipt of the message, the firm made arrangements with Messrs. G. T. Davis & Sons to send down the steamer Lord Strathcona and schooner G.T.D., to the assistance of the Aranmore. The schooner will take down pumps in case their services should be required.

The Aranmore was on her way from Natashquan to this port when she went ashore. The accident appears to have occurred on Sunday evening as the telegram received by the Messrs. Holliday was dated the 9th inst.

The Aranmore is new to the route, having only arrived here from Glasgow last spring. Her commander, Captain Pickett, has had considerable experience in the river and gulf of St. Lawrence, being formerly in charge of the steamer King Edward on the same route.

A later telegram received by the Messrs. Holliday states that the Aranmore was still in the same position adding that it was expected that she would be floated at high water this (Tuesday) morning, as she was being lightened.

The Lord Strathcona, with schr. G. T. D. in tow left for the scene of the accident last night. Mr. James Holliday went down on the Strathcona.

ALLAN LINE.

Steamer Ionian, Captain Nunan, having landed passengers and Quebec cargo, left for Montreal yesterday morning.

R.M.S. Tunisian, Captain Braes, from Quebec, arrived at Liverpool, on Sunday morning.

Steamer Hungarian, sailed from London for Quebec, on Saturday.

Steamer Corinthian, sailed from Glasgow on Saturday for Quebec, with 10 first, 125 second and 131 third class passengers.

DOMINION LINE.

Steamer Canada, Captain R. O. Jones, hence on the 1st inst., arrived at Liverpool yesterday morning.

Steamer Cornishman, sailed from Liverpool on the 8th instant for Portland.

C. P. R. LINE.

Steamer Montezuma, Captain Troop from Antwerp, with passenger and general cargo, arrived in port at 3.40 p.m. yesterday and moored at the Breakwater. After landing passengers and Quebec cargo she left for Montreal last night.

Steamer Milwaukee, Captain Moore, from Liverpool, with a general cargo, arrived in port last evening, and proceeded for Montreal.

MANCHESTER LINE.

Steamer Manchester Trader, sailed from Manchester, on Saturday morning for Quebec, with a general cargo.

QUEBEC STEAMSHIP COMPANY.

Steamer Manoa arrived at Barbados, W. I., from New York on the 9th instant.

A LECTURE AND DEMONSTRATION—Expert Marconi operators will exhibit and explain the working of the wonderful Marconi Wireless System, by means of a complete set of Marconi instruments such as are in daily commercial operation in the ship and shore stations of the Marconi Company throughout the World.

The Wireless

Way to Wealth.

Hundreds of millions of wealth have been added to the world by the wire telegraph and cables.

Billions of dollars have been added to the world's wealth by the Telephone.

Hundreds of billions of dollars are now invested for telegraph, telephone, cable, electric light and electric power systems in WIRES.

The Marconi System Does

Away with all Wires.

That means millions of dollars saved annually in the cost of operating those systems.

The Lecturer Tells

You how you may secure a portion of the profit from the wireless way of doing the world's electrical work.

COME AND HEAR HIS TALK

SPORTING EVENTS THE WORLD OVER

NOTE AND COMMENT

The New Lady Tennis Champion
---New Record in Diamond
Sculls.

Who is Miss Mary Sutton? Is a question which is being constantly asked about the young lady who has just won the tennis championship in England. Miss Sutton is a girl 18 years of age, one of four sisters, all of whom are clever players, but none as skilful as herself. By birth they are English, the daughters of a Capt. Sutton, who some years ago settled in California, but all their tennis has been learnt on this side of the Atlantic. In 1901, when 14 years of age, she won the ladies' singles championship of the Pacific Coast, a title she has retained without difficulty ever since. Last year she came east and won the American national championship at Philadelphia in 5 rounds by scores of 6-1, 6-2; 6-1, 6-0; 6-1, 6-0; 6-1, 7-1, 6-1.

Another new record has been made in the final for the Diamond Sculls at Henley, which event was won by Kelly, the winner of two years ago, who beat Blackstaffe in 8 minutes 10 seconds, the best time ever made in the event.

The Canadian Cricket Association has had a small bronze medal or badge struck for presentation to those representing Canada in the international match and inter-provincial match. These are to be presented to each participant, and not only to the men who give a good exhibition of cricket.

The Canadian tennis tournament, which was postponed indefinitely from July 4th because of the lack of American entries, will likely be put on in a week or two as a purely Canadian event without any catering to the experts across the line. A decision is likely to be reached in a few days.

The prize list of the bench show to be held in connection with Toronto Industrial exhibition has just been issued, and it is bigger and better than ever. There are eleven challenge trophies or cups, to the value of \$100 each and over, offered, 31 cups valued from \$25 to \$50 each, and medals without limit, in fact the total of special prizes exceed 250 in number. Altogether the list is one of the most attractive ever issued in connection with a Canadian dog show, and will compare favorably with any of the leading American ones.

Mr. F. E. Evans, of Mimico, gave another display of brilliant hitting last Wednesday, when Mimico met a mixed Toronto eleven. He made a hundred and fifty-five, this being his fourth century this year, and his second in succession. His batting was clean and brisk, and his drives hard along the ground.

Mr. Evans always forces the game, and is just the man to stop a rout and pull the game out of the fire. His score included three sixes and nineteen fours. His average so far this season is considerably over 70. He certainly ought to get his place on the International eleven. Indeed it is difficult to see how he can be omitted on present form.

THE CHESS TOURNAMENT.

Ostend, Belgium, July 10.—The chess masters engaged in the International Chess Tournament at the Kursaal, started the 20th round this morning. Five of the seven games had been decided when adjournment was taken for luncheon, all the leaders winning with the exception of Maroczy and Schlechter, who drew their games. Janowski won from Burn and tied Maroczy in points won to date. Tarrasch defeated Blackburne, Maroczy won from Alapin and Leonhardt from Taubenhaus. At the afternoon session Marshall won from Tschigorin and Wolf defeated Teichmann.

AUTOMOBILE RACES.

St. Paul, Minn., July 10.—The final heats in the automobile races, the preliminaries of which were run on Saturday, were completed on the Hastings track this afternoon. The weather and track conditions were ideal and there was a large attendance. In the final three-city championship, five miles, Earl Kiser won; Chevrolet, second. Time, 4:58. In the handicap race for touring cars, carrying three passengers, Louis Hill won; Barney Oldfield, second. Time, 7:08. A break-down spoiled the contest between Barney Oldfield and Louis Chevrolet in the special five-mile event. For two miles the race was exceedingly close, Oldfield appearing from the stand to lead by not more than a few yards. Chevrolet broke down on the third mile while rounding the home stretch, going at a tremendous clip, and Oldfield finished alone in 5:08 4-5.

DERBY STORIES.

Worthless Horse Have Run in the Great English Race.

Even after his death a Derby winner is by no means valueless. The skeleton of the famous Eclipse, sire of a long line of Derby winners, was sold for 100 guineas, and is now in the Veterinary College, while William IV. presented one of the great horse's hoofs mounted in gold to the Jockey Club. The head of Hermit, who won the snowstorm Derby of 1867, is in the Natural History Museum at South Kensington, and will soon be kept company by that of Donovan, the winner in 1899, who died early this year.

The betting which takes place on horse races to-day is very slight compared with that of years gone by. Gladstetter, the only French horse to win the Derby, was heavily backed by his compatriots forty years ago, and they won £100,000 from four bookmakers alone.

Notorious of them all was Cockney have run in the Derby, but the most certainly many worthless horses Boy, who was trained on the salubrious spot, Hackney Marshes. He belonged to a small publican, and the whole matter created endless amusement. Later the undaunted owner ran another candidate, Lady Miller, whose chances were as laughable as those of Cockney Boy. The day after the race he wrote in all sober earnest the following letter to the newspapers: "Respecting the Derby run on Wednesday, I dare say you will wonder at the poor figure Lady Miller made, but I find it is the fault of my trainer, who within an hour of running gave Lady Miller two pails of water and a feed of white peas. If that is not enough to stop a good horse from winning, I don't know what is."

NATIONAL GOLF COURSE.

Americans Want Links and Are Already on Work on Scheme.

New York July 10.—In the United States to have a national golf course, and is such a link to be located on Long Island adjacent to New York City? Charles Blair Macdonald, former national amateur champion, has for two months or more been quietly soliciting subscriptions for such a unique project. His idea is to get 100 wealthy men to subscribe \$1,000 each, and others to come in for lesser amounts any buy a fine tract of land on Long Island, where a splendid link and club house would be provided. His scheme is further to take a vote among the subscribers as to the features of famous courses that they prefer. Then these features, or favorite holes, would be reproduced so far as is practical on the comparatively level stretches of Long Island land.

Inasmuch as Macdonald has never held a very high opinion of the courses on this side of the water, it is safe to say that he would draw mostly upon the championship links of Great Britain for his models—St. Andrews, Prestwick, Sandwich, Muirfield and Hoylake. As has been suggested, he might descend on foreign shores some dark night with a force and carry away the holes and putting greens bodily. It is understood that Westbury is the locality most favored for the project. Macdonald is a member of the Garden City Club and formerly lived in Chicago. He was one of the earlier presidents of the United States Golf Association, and has actively opposed the plans for popularizing that body. Thus far only the wealthiest players have been approached, as the success of the plan depends upon the big subscriptions. It would not be surprising if the plan materialized ultimately.

KENILWORTH RACE MEETING.

Buffalo, N.Y., July 10.—Ora Viva, Quixote, President Tulane and Royal Window were the winning favorites at Kenilworth Park to-day. Follow On, in the steeplechase, easily defeated St. Jolly and Butter Ladle, who were the red hot favorites and coupled in the betting.

SALMON FISHING

Lovers of Sport and an excellent place to Camp Out, the best of meals and good accommodation for Ladies and Gentlemen beside one of the finest places for Salmon fishing, only 9 miles from Chicoutimi, at a place called Lake Gravel. Lake Gravel is filled with Trout, and Salmon is captured at a distance of five minutes from camp in Mars River. Call at the Chateau Saguenay, Chicoutimi, terminus of the Sag. & St. J. Ry., and ask for the proprietor of Lake Gravel. Or better still Telegraph the Eve of your departure to Proprietor Lake Gravel, Chicoutimi.

THE CORINTHIANS

Footballers Will Sail from England First Week in August for Quebec.

New York, July 10.—All doubt about the visit of the Corinthian association football team of England has been dispelled by the arrival in New York of G. A. Parker, manager of the famous eleven.

The team will sail from Liverpool to Quebec on August 3rd, and after a series of games in the chief Canadian cities, will play in Chicago, Detroit, St. Louis, Pittsburgh, Philadelphia, New York, and Boston.

Mr. Parker has also been in communication with the authorities at Harvard, and it has been proposed that an inter-collegiate team made up of the men from Harvard, Columbia and Haverford colleges should meet the visitors either in New York or Cambridge.

The Corinthian eleven is the strongest amateur team of association players that has ever been got together for a tour. Nearly all the players are varsity men, and the eleven includes G. O. Smith, one of the best and most popular players in England. The other men are Welford-Brown, Rowlandson, Norris, Timmis, Page, Vickers, Morgan, Owen, Lowe, Curwen, Corbett, Harriss, Vassall, Foster and Bryant.

The New York game has been arranged for September 16th.

LONDON'S GREAT DOCKS.

The Products of Many Lands Are Massed in the Dock Warehouses in

The London and India Docks Co. rule over an estate of 1,700 acres, with twenty miles of quay and 15,000,000 square feet of flooring for the handling and storage of 800,000 tons of goods. The largest ships of all the world, says The London Daily Mail, enter England through the gates of the Thames, and make their way to these London docks.

You look along the quays and behold steamships from China and the East Indies, from South America and Canada, from Egypt and New Zealand, rigid there and quiet now, after long buffeting with stiff seas. Hundreds of London dockers swarm over them like egg-laden ants, while enormous cranes rattle their swinging chains over them and the scrapers get to work on the cracked and faded paint of their sloping sides.

There is no idleness in the docks, the brown-faced men who have brought these steel monsters across the seas are smoking luxurious pipes at home, dancing children on their knees, taking their wives to music hall and theatre, and not a doubt of it, spinning yarns about the wonderful world down under; but here in the docks are shabby, pale-faced, thick-armed Londoners, running to and fro with packages on their bowed shoulders, sweating to empty the vessels that lie there; here, too, are engine drivers, steering their trains from dock to dock and carriers driving away with vanloads of merchandise—everywhere Londoners waiting on these huge ships. The sailors are like gentlemen who have driven their equipage to the stable and left their grooms of the docks to clean up ready for their next excursion.

You get some idea of London's trade by moving through the tall warehouses of the docks. Consider a few figures. Thirty-six thousand tons of tea are stored here in a single year. In the vaults, with their twenty-eight miles of gangway, can be stored 100,000 pipes of wine. Two hundred and fifty thousand tons of wool, worth £20,000,000, arrive annually at the port of London. Twenty thousand tons of tobacco are here in bond, valued at \$9,000,000.

There is accommodation in the cold-storage warehouses for 864,000 sheep. Sixty thousand pounds of ostrich feathers have been stored here at one time, and several millions of bird skins arrive annually, too numerous for computation. In addition, the London docks have accommodation for sugar, ivory, spices, bark, gums, metals, marble, drugs, dates, pepper, rice, coffee, cocoa, isinglass, coal, grain, furniture, wood, timber, carpets, butter, cheese, poultry, even for sea shells, sponges, musk, ambergris and beeswax. In a single room you may look at elephants' tusks worth nearly a hundred thousand pounds.

The gardens and the factories of the world empty themselves into this lap of London. There is hardly a little island set 'in the midst of the seas which does not grow something or make something with brown fingers to send into the cold, gray port of London. As you walk through the warehouses your nostrils are filled with the scents of the earth—cinnamon, nutmeg, musk, vanilla, coffee, tea, tobacco—everything that once lived and drank the air in green and beautiful gardens across the seas.

There at your feet lies the matted corn from ten packages on which some Chinaman set strange marks with brush and ink, and there are the red and green cases themselves, with the number and weight cut in their sides by a scribbling iron. You look at even the nails in some strange package of goods out of the east, and picture to yourself the dark hands gripping them while the hammer struck home. All the hands and all the feet of the east seem to be going up and down the earth to keep the larder of London full.

CANADIAN SEALERS ARRIVE

Halifax, N.S., July 10.—Four members of the crew of the Canadian sealing schooner Agnes Donohoe seized by the Uruguayan authorities for alleged poaching in their waters, arrived here to-day on the steamer Ulunda, having come via Liverpool, Eng. There now only remains at Montevideo the captain and two mates.

Education is more than a preparation for life; it is a life.

Some people are curious to hear the truth told just to know how it sounds.

HERE'S PROOF

That Ought to Convince You.

The following is from Dr. Stirling, who for 30 years made a study of the effects of the MAGI Caledonia Waters:—The Disease in which I have seen the most remarkable cures is rheumatism, in both the acute and chronic forms. No person who visits the springs fails to observe the rapid improvement in this class of sufferers. In gout, sciatica and lumbago the curative action has been nearly as efficient. In salt-rheum, I do not remember a single instance when the waters, properly used, internally and externally, failed in effecting a cure. For those who wish to abstain from strong potations and find it difficult, there can be no more efficient auxiliary to their efforts than these waters. In cases of neuralgia, the greatly number have been cured, and of the others, their suffering has been greatly alleviated. Those worn down by that Protean malady dyspepsia have been signally benefited. The water, properly used never brings on debility. Many females, affected with chlorosis, have been restored to health by the use of these waters. Few persons seemed to derive more benefit than those suffering under diseases of the urinary organs; that of Dr. Quenell, reported by himself, is a case in point. Besides the above mentioned are: Inflammation of the eyes, Auge, Hypochondria, Melancholy, St. Vitus' Dance, Hysteria, Spinal Irritation, Barrenness, Scrofula, Jaundice and the effects produced by the improper use of mercury.

Schlitz Beer is Good for You

The malt is a food; the hops a tonic. The alcohol—only 3 1/2 per cent—is an aid to digestion; a healthful stimulant.

Schlitz Beer is brewed with the extreme of cleanliness—cooled in filtered air—and every bottle is sterilized.

It is one of the best things in the world for you.

It does not ferment on the stomach, because it is aged—aged for months in refrigerating rooms before it is marketed.

It gives you beer without biliousness. Ask your doctor what he thinks about drinking Schlitz beer. Ask for the Brewery Bottling.

LATE MR. ED. GIROUX

Funeral Yesterday Morning Was Very Largely Attended By Prominent Citizens.

The funeral of the late Mr. Edmond Giroux, one of Quebec's most prominent and respected citizens, took place yesterday morning from his residence, D'Auteuil street, to the Basilica, and was attended by a very large number of mourners, including representatives of all walks in life. The principal mourners were his three sons, Messrs. Edmond, Joseph and Gustave Giroux, his brother, Mr. Victor Giroux, his son-in-law, Mr. G. Bellet, his brother-in-law, Mr. C. Vallee, of Montreal, and his nephews, Dr. Vallee, Mr. Victor Giroux, J. B. Giroux, Georges Giroux, Alp. Giroux, and Jules Giroux, C. A. Vallee, and Emile Vallee.

Among others present were Judge Bosse, Pelletier, LaRue and Carroll, Hon. B. Turner, Hon. V. W. LeRue, Hon. E. J. Flynn, Hon. T. Chapais, Lt.-Col. Forsythe, C. A. Pentland, Hon. J. Sharples, Andrew Thomson, J. Shaw, G. G. Gaudet, A. H. Verreil, Ald. Leonard, Ald. Duquet, Major Hethington, T. Norris, J. H. Holt, S. Lesage, F. Carbray, Rev. Mr. Audette, L. J. Cannon, F. Gaudreau, W. Brunet, Lawrence Stafford, P. Malouin, R. J. Davidson, H. A. Turcotte, Jos. Gingras, Dr. Ed. Morin, Dr. Harper, W. C. Languedoc, C. Routhier, P. J. Jobin, Ald. Donop, Wm. Shaw, E. J. Hale, J. G. Billet, T. H. Oliver, Fred. Smith, J. B. Cloutier, T. Carbray, L. Noel, J. N. Beaudette, L. O. Beaudin, Alex. Gaudreau, J. Vermette, Jas. Wood, Dr. Ahern, Jules Cote, Lt.-Col. Boulanger, and a large number of others. Rev. Mr. Mathieu officiated when the body was brought into the Basilica and a requiem mass was chanted by Rev. Mr. Faguy, assisted by Rev. Messrs. Lafamme and Lemay as deacon and sub-deacon. A number of clergymen, including the Rev. Messrs. C. A. Collet, Maguire, and A. Dion were present in the sanctuary.

The music of the mass was rendered by a very efficient choir. The remains of the deceased were subsequently interred in St. Charles Cemetery, to which place it was followed by a large number of mourners.

QUEEN'S WESTMINSTER VOLUNTEERS

London, July 10.—A banquet given to-night by the Queen's Westminster Volunteers in honor of the 20th year of service as their Colonel Commandant of Sir Howard Vincent, was made the occasion of a farewell to the Seventh Regiment of the National Guard of the State of New York. The other guests included Field Marshal Lord Roberts and Major-General Baden-Powell. General Baden-Powell proposed a toast to the health of Lord Roberts, which was drunk amid enthusiasm. Lord Vincent proposed "the land and sea forces of America and England." Lord Roberts in responding said that he could not speak for the American forces until he had paid his promised visit to the United States, which he hoped to do ere long. He said he believed West Point to be the finest military college in the world. He added that he could not imagine anything nicer than the bringing of these teams together in their friendly contests at Bisle and in entertaining the New York representatives in this way. Major John H. Beacom, military attaché of the American Embassy, responded for American. Lord Roberts presented to the Queen's Westminster Volunteers the Sir Howard Vincent shield recently won by them at Bisle and badges to the members of both teams. The volunteers presented to Sir Howard Vincent a diamond tiara.

Cook's Cotton Root Compound.
The only safe effectual monthly medicine on which women can depend. Sold in two degrees of strength—No. 1 for ordinary cases, \$1 per box; No. 2, 10 degrees stronger for Special Cases, \$3 per box. Sold by all druggists. Ask for Cook's Cotton Root Compound, take no substitute.

SATISFACTORY END

To Negotiations Between France and Germany Regarding Morocco.

Paris, July 10.—Premier Rouvier submitted to the Chamber of Deputies to-day the notes exchanged between him and Prince Von Radolin, constituting the Franco-German agreement relative to Morocco. M. Rouvier followed the reading of the note with a detailed explanation of the negotiations. He declared that the understanding now reached between Germany and France was formal upon the essential principles fully recognizing the special interests of France. He added: "The accord thus realized leaving intact the arrangements France had previously concluded with other powers. At no moment did the discussion turn upon the Anglo-French agreement or the Franco-Spanish agreement. The declarations made in the notes and the formal assurances from the representatives of the German Government permit me to affirm that Germany does not question our accords with Great Britain and Spain. The Chamber can felicitate itself on the happy result of the negotiations between France and Germany, thanks to the sincere efforts of both Governments."

M. Rouvier's statement was rapturously applauded on both sides of the Chamber. The agreement brings a deep sense of relief to the entire country after many weeks of tension. Germany's contention for a conference receives the final adherence of France, but Premier Rouvier has secured the safeguards which he insisted at the preliminary conference with Prince Von Radolin were indispensable. The most important of these safeguards is that the conference shall not convey any prejudice to the Anglo-French or Franco-Spanish ententes. While Germany does not specifically assent to these agreements she formally withholds dissent.

Both countries agree as to the sovereignty of Morocco, the independence of Morocco and the open door without inequality. This appears to put at an end the prospective subdivision of the Sultan's monarchy among European powers. On the other hand the agreement recognizes France's special interest in the country due to the geographical proximity of Algeria, and its right thereby to police the frontier and maintain peace and order. It still remains for the Sultan to arrange the programme of the conference. It is pointed out that the Sultan of Morocco's position is weakened by the negotiations as the entire question regarding Morocco is now practically taken out of his hands for determination elsewhere.

THE MAN ABOUT TOWN

If Japan doesn't lick Russia pretty soon the Russians will do the job themselves.

There is a liar in this city, who lies like a liar, and when he tells the truth he tells it like a liar also.

Reliability is the real stepping stone to success.

No, I don't write for magazines.

No, we don't accept advertisements for this column.

The ticket-seller on the Quebec end of the Montmorency line was heard to remark, on Sunday last, "Honestly I didn't think there was so much money in the world."

Pay your debts promptly.

She intended to say "Oh! George, this is so sudden," but she got excited and cried "At last!"

The Niagara peach crop is reported to be a wonder this year, but the young women at the summer resorts have still to be heard from.

To miss seeing Marvoleon Bovais, the one-armed acrobat, this week at the Rustie Theatre, is to regret it.

There is no greater pleasure than work, and no harder work than pleasure. Think it over.

It's very hot in Kansas.

A visitor to Quebec during the excessively hot spell last week was heard to remark, "Is this a summer resort, or a resort for summer?"

Montmorency Falls cures that tired feeling.

At each performance at the Rustie Theatre this week Miss Lillie Lawton, the champion trick rifle shot of America, extends an invitation to any young man in the audience to step upon the stage and allow her to shoot the ashes from a cigar held between his teeth. It speaks well for the nerve of Quebec's young gallants to be able to say that her invitation thus far has been accepted with alacrity. Of course, Miss Lawton is a very charming young lady, and possibly this accounts for it.

Some of the tourists who come to Quebec dress the part as though they had happened into a country where the people eat none other.

A breathless young visitor accosted "the man about town" the other day on the iron steps just below the Post Office and wanted to know where the elevator was. He was given the desired information, but was also told that he was almost at the top. He halted long enough to loudly complain of the hills, and said, "Why, you can't even enjoy a smoke or a drink." The "man about town" was properly shocked, and remarked that "although Quebecers occasionally smoked, they never, never drank." Just then the fish-bowl bell and the "blast" drowned further conversation.

A Mistaken Idea.

To think that warts can't be removed. Why, Putnam's Wart & Corn Extractor will remove any wart with out pain in a few days. Try "Putnam's" yourself and see if this isn't so.

Mr. Rudolph Dorkin, returned to town yesterday from a trip to the Saguenay.

Mrs. F. H. Schriber, of St. Paul, Minn., is registered at the Victoria Hotel.

Albert Cote, representing The Canada Metal Co., Toronto, is at the St. Louis Hotel.

Mr. and Mrs. W. T. Sissons, of New York, are the guests of Mr. and Mrs. John Jacques, 22 Mountain Hill, for a few days.

A letter received from Hon. Chas. Langelier yesterday announced that he will sail for Quebec on the 20th instant.

Mrs. A. W. McConchy, of London, Ont., and the Misses Mooney, of Vankleek Hill, Ont., are visiting the Misses Hossack, Little River Road.

The marriage of Mr. R. A. Drapeau, K.C., Rimouski, to Miss Ledroit, of this city, will take place at 6 o'clock at the Basilica this morning.

Mr. and Mrs. Ernest Ross, accompanied by their little son Willie, left per I.C.R. yesterday for Shediac, N.B., where they will be the guests of H. A. Russell, Esq.

At the Victoria—A. Dupuis, H. Dupuis, J. H. Maloney, A. G. Comdis, Mad. G. A. Jarjour, Tom Daub, Alf. Thompson, J. L. Renaud, G. Prudhomme, R. Valiquette, Montreal; Agnes E. Boland, Emma J. Booth, Albert T. Lane, W. H. Jones, Ashland, Mass.; A. G. Carter, Toronto; Miss Barbeau, Mrs. Patenaude, E. Patenaude, Valleyfield.

The Rev. Ed. J. Stobo, Secretary of the Quebec Bible Society has arranged to leave the city on the 13th inst., on his summer district work, and will be absent from the city during July and August, but hopes to return to welcome to our shores the Rev. H. E. Welch, M.A., the newly appointed Canadian Secretary of the British and Foreign Bible Society, who will arrive by the Victoria on August 24th to take up his Canadian work.

HEAT IN NEW YORK.

New York, July 10.—Ten deaths and more than two score cases of prostration resulted from the continuance to-day of the wave of intense heat which reached the city Saturday. At 1 o'clock the thermometer registered 89 degrees, two degrees higher than yesterday and remained at this point until 3 o'clock when a heavy thunderstorm with a deluge of rain descended on lower Manhattan. The storm brought a startling fall in the mercury which dropped 13 degrees within half an hour. This evening a cool breeze blew with every prospect that it would hold during the night. The rain storm lasting half an hour, almost attained the proportions of a cloudburst in the lower section of Manhattan, and within ten minutes many of the down town streets were flooded to the level of the sidewalks. Broad street, in the vicinity of the Stock Exchange, was rendered impassable, and the brokers on the "floor" were compelled to flee before the rising flood. During the height of the storm the administration building on Ellis Island, where there were two thousand immigrants, was struck twice by lightning but sustained only trifling damage. In Jersey City lightning ground the current on the main electrical power house and all street car traffic was halted for two hours.

Boston, July 10.—The crest of the most intense heat wave of the season passed over New England to-day. Exhausted humanity was revived toward evening by a clear, cool northwester. Up to 9 o'clock seven deaths from the heat had been reported from New England points, while there were probably ten times as many prostrations, some of which may result fatally. Those who died in the heat were: Chester B. Rider, police officer, Lowell; Jno. J. Fogarty, Boston; Mrs. Marie Barking, Stoneham, Mass.; Levi A. Bondy, Nashua, N.H.; John Talley, Worcester, Mass.; Jos. A. Guishmann, Hartford, Conn.; Austin J. Beader, Bridgeport, Conn. Thunder showers were frequent, but except at Marlborough, Mass., and one or two other points, none of them were of great severity. As on yesterday Boston was the hottest place in New England, the thermometer reaching 92 at 3 o'clock this afternoon. From that time the mercury gradually descended until at 6 o'clock a change in wind and a slight shower sent it down quite rapidly, a drop of nearly twenty degrees being recorded within two hours.

There's more religion in a whistle than in a wine.

Malta-Vita

"The Perfect Food"

Now 10 cts.

Same Big Package Same High Quality

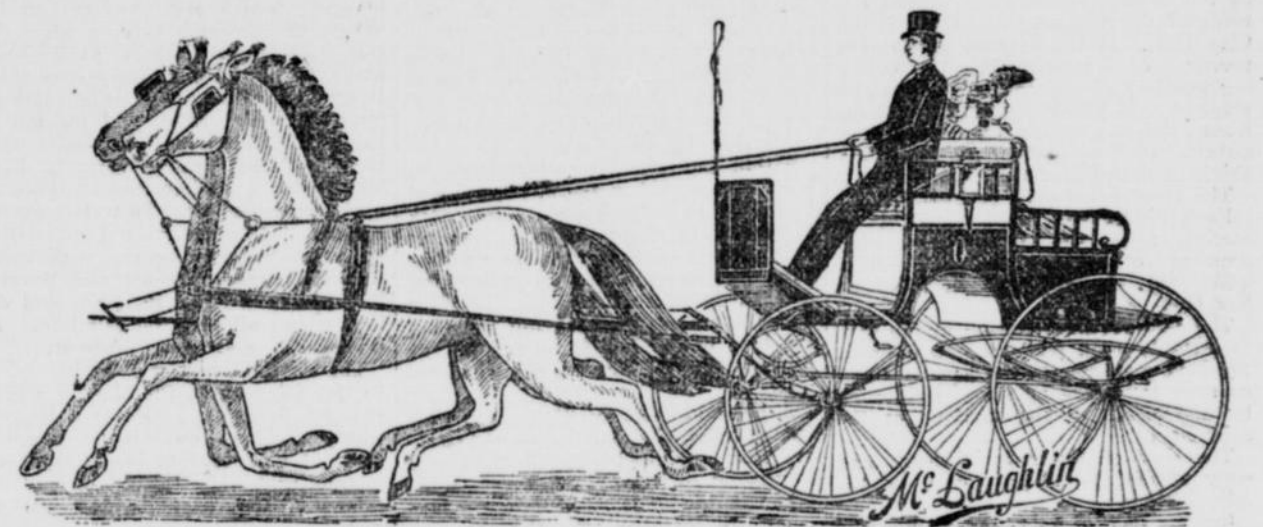

Malta-Vita "The Perfect Food," malt life, as its name implies, stands for that intense vitality that results from the daily use of a food skillfully prepared from the whole of the wheat, of which, after being cooked, each kernel has been subjected to the searching digestive action of the diastase and other enzymes of barley malt. This makes it a "predigested" food of highest nourishment value, which explains the remarkable results obtained in cases of nervous debility, deranged stomachs and constipation. Besides, it is the best food to eat.

"We have used several boxes of Malta-Vita and think it the finest food we have tried yet. Having used different kinds, we find Malta-Vita has a flavor which exceeds all others. We had almost despaired to find something our baby could eat without being distressed. He had, since birth, been a constant sufferer from constipation and a general derangement of the stomach and bowels. Since we began feeding him Malta-Vita he has improved wonderfully in health and is entirely cured of constipation. In fact, myself and husband realize a great benefit since using the food, as we have suffered from general debility. We find it gives life and tone to the entire system." Please give us request by Malta-Vita Pure Food Co.

MALTA-VITA is a food with a "taste." It does not belong to the tasteless variety of "flaked foods" and too great credit cannot be claimed for Malta-Vita on account of the fact that it contains its own sweetening agent—maltose always being present in a proportion exceeding eight per cent and sometimes ten per cent. This is a healthy, digestible sugar, formed by the action of the malt diastase upon starch and it causes the stomach inconvenience. This is not the case with flaked foods that are sweetened by cane sugar, beet sugar, maple sugar, boiled elder, glucose or grape sugar, as all these cause acidity in the stomach and are seriously injurious.

The Celebrated "McLaughlin" Vehicles

A COMPLETE ASSORTMENT OF VEHICLES FROM THE LARGEST FACTORY UNDER THE BRITISH FLAG

Mr. Thiboutot has just received 25 family 4 wheeled vehicles and in first class order, light buggies for 2 persons, double buggies, very pretty models, Mikado, Concord and other styles, a car of very handsome phaetons, dogcarts, stanhops, grocers express, first class express for promenades, sulkeys, rubber tire buggies, etc. The finest assortment of vehicles in Canada. All knowing ones recommend these Vehicles as they are made of the best material, are the best finished and most fashionable.

As I have a large number of these vehicles stored outside of the town, and have no travelling solicitors, my expense are much lower than those of city dealers, and consequently can afford to sell my goods on better conditions.

All purchasers will certainly be satisfied with my conditions.
A visit to my store will convince you of the superiority of my goods.

CITY OF QUEBEC.

CITY CLERK'S OFFICE
CITY HALL.SALE OF THE REVENUES OF
MONTREAL MARKET AND THE
WEIGHING SCALES.

Quebec, July 8th, 1905.

PUBLIC NOTICE is hereby given that, on THURSDAY, THE THIRTEENTH DAY OF JULY INSTANT, at TEN O'CLOCK in the FORENOON, in the room where are held the sittings of the Finance Committee, in the City Hall, of the City of Quebec, the revenues of Montreal Market, including revenues of the market public scales shall be sold jointly by public auction, from the day of the signature of a notarial deed of the said sale until the thirtieth of April of next year (1906).

The upset price shall be \$1000.00. Each bidder will have to exhibit a receipt from the treasurer to the amount of three hundred dollars (\$300.00), showing that such deposit has been made.

The said revenues consist of the taxes leviable upon persons who frequent the said markets, in the same manner as such taxes are or may be collected by the clerks of the markets of the said city.

The cost of the notarial deed and copy thereof to be paid cash by the adjudicators.

On the day of sale, the adjudicator shall pay in the hands of the City Treasurer the price of his adjudication. The said sale shall be made subject, moreover, to all the conditions which shall be read and made known at the moment of the sale, and which shall be contained in the deed of sale.

By Order,
AUGUSTE MALOIN,
Asst. City Clerk.City of Quebec,
District of Quebec.By-Law No. 397.
Concerning the Prolongation of Dauphine Street.

At a meeting of the City Council, of the City of Quebec, held at the City Hall, in the City of Quebec, on the 7th day of July One Thousand Nine Hundred and Five (1905), the following By-Law was read a first time:

1st. That part of St. Patrick street between Dautin and St. Enastache streets, shall henceforth be the continuation and prolongation of Dauphine street; and the section 2 of By-Law No. 324 passed by this Council, on the 23rd of February, 1891, is amended in consequence.

PUBLIC NOTICE is hereby given that in virtue of the 30th Section of the Act 29 Viet., Ch. 57, as amended by Section 11 of the Act 31 Viet., Ch. 33 and of the Section 8 of the Act 39 Viet., Ch. 51, the above By-Law shall be read a second time and passed on Friday the 18th day of August next (1905).

AUGUSTE MALOIN,
Asst. City Clerk.

CITY HALL,

CITY TREASURER'S OFFICE,
Quebec, 1st May, 1905.

NOTICE

In a few days the Assessors will begin to prepare their Valuation Roll. As it often happens that many persons willingly deceive the Assessors by giving them erroneous and false information as to the real amount of their rents, etc., I draw, in a particular manner, the attention of the taxpayers to the following clause of Act 33 Viet., chap. 46.

"Any person who shall refuse to reply to the questions which are put to him by any assessor in the discharge of the duties imposed upon him by law, or who shall give information to the said assessor which he knows to be false, or who shall verbally insult or slander or strike such assessor, or who shall refuse to allow any such assessor, in the discharge of his said duties, to enter in and upon his property or the localities occupied by him, shall incur for each offence a penalty not exceeding FORTY DOLLARS, which shall be recovered according to law, before the Recorder's Court of the said City."

The most energetic measures will be taken to discover the persons guilty of such offences, as injurious to the Corporation, as unjust to the citizens who pay according to the real amount of their rent. All such persons will be prosecuted to the full extent of the law.

C. J. L. LAFRANCE,
City Treasurer.

LAKE BEAUPORT, BEAUTEOUS
AND PLACID HAVEN OF RESTLike a Diamond in Emerald Setting, It Stands
Pre-eminent as an Object Lesson in
Grandeur and Rustic Beauty.

RELIES ON NATURE FOR ITS PERFECTIONS

In "the good old days" when England's red-coated warriors enlivened the winding streets of our historic city, before the Confederation of the Provinces; in the days when Quebec was the seat of our Government, Lake Beauport was well known as a summer resort, in fact the locality known as the Brule, a couple of miles distant, was used by the troops as a summer camping ground, and the officers residing with their families at the Lake, at Pepin's Hotel, amused themselves fishing and shooting in the vicinity, and held high revel with their friends, and many a happy party picked up its shores, or visited those whose love of Nature, and taste for the beautiful, had induced them to reside there; but as time rolled on, a new order of things set in, a change came over the spirit of its dream, and, until a few years ago, save in the knowledge of a few, it sank back into slumber, its name but recalling the recollection of things that had been.

Some of our older citizens will remember that some seventy odd years ago, before Pepin's time, whose hotel was burnt and rebuilt, being now owned and conducted by Mr. Jos. Bignouette, it was used as a boarding school, kept by a Mr. Shadgett, who, according to all accounts was a second edition of "Squeers" of "Do-the-boys' Hall" fame, and whose curriculum included several hours work on the farm each day. Rumor has it also that the boys never suffered from overindulgence in eating.

All this, by the way. Within the past decade, however, Lake Beauport has re-awakened, and to-day it modestly holds its own with other resorts of greater fame, greater than others in that it relies on Nature, not on man, for its perfection, and so is content to hide its light under a bushel, knowing full well that the love of the few is more to be desired than the careless regard of the many.

A pleasant drive of little more than twelve miles, the last few over a country road winding among the hills, ever increasing in beauty, with occasional glimpses of the Riviere Jaune pursuing its tortuous way through a deep gully to the westward, farther on to empty itself into the St. Charles River, and the lover of Nature is greeted with a view that is at once grand and pastoral.

Surrounded by lofty hills, clothed with varying shades of verdure, picturesquely broken up into valleys and gullies that descend gently to shores dotted with cottages and sloping fields—Lake Beauport, like a diamond in an emerald setting, stands pre-eminent as an object lesson in grandeur, rustic beauty and placid grace, the personification of Peace and Content, a haven of Rest.

The vandal railroad has not invaded its sanctity, its comparative inaccessibility but tends to preserve its charms, the Sunday reveller rarely taints its purity, the profane seek haunts more congenial to their taste. Its elevation above the St. Lawrence, over 800 feet, secures for it a salubrity not to be found in lower lying sections, and which renders it particularly desirable as a summer resort, it being an indisputable fact that an epidemic has never been known to visit the neighborhood.

Although a little more than a mile in length, and barely exceeding a quarter in width, this lake can boast of no less than eighteen dwellings, thirteen of which are owned and occupied by our fellow townsmen with their families, nine of the thirteen being of recent construction, each enjoying that Sylvan seclusion so essential to an ideal country residence, all in close proximity to the water, and presenting to the view that variety of architecture found only in long inhabited districts, ranging from the neat old fashioned country house owned by Mr. George Smith, which many years ago was the residence of Hon. Mr. Primeau, uncle of Lord Rosebery, to the artistic, modern, American cottage recently built by Messrs. Geo. E. Amyot, V. W. Larue, S. K. Shaw, and Alderman A. E. Pfeiffer.

The march of improvement has not stopped here, as contractors have been secured by Mr. S. Gillespie, our local expert, for several acetylene gas equipments, also the musical chug-chug of the automobile is heard in the land, and the merry flip-flop of the gasoline launch causes the scornful loon to laugh in derision at Messrs. Walter Sharpe and A. E. Pfeiffer, who, in the van of progress, stand as sponsors for the new arrivals.

To those who appreciate the serious side of life, and who among us does not, in a greater or less degree, it may be of interest to learn that the spiritual needs of the inhabitants are

Heart Disease

Most Sudden and Dangerous of
Ailments.
Dr. Agnew's Heart Cure relieves in
30 Minutes.

Stealthily as a thief in the night, heart disease heralds its coming only by the deadly grip it lays upon its victims. If you have palpitation, short breath, smothering spells, or vertigo, do not delay the use of Dr. Agnew's Heart Cure. It will relieve every case in 30 minutes and will radically cure ninety-five per cent. of those affected. It is a perfect remedy for nerves and stomach.

Dr. Agnew's Ointment Cures all skin eruptions, 35c.
Sold by L. E. Martel.

not neglected, the substantial neat-looking Catholic Church at the southwesterly end of the lake bearing ample testimony to the contrary, while further down the valley to the westward stands the handsome little Protestant chapel, erected at considerable sacrifice by the residents and summer boarders, the success of the enterprise being largely due to the untiring zeal and efforts of Mrs. John Y. Welch, whose name, in this connection, will long be held in grateful remembrance, as also will that of the late Dr. W. Marsden, who, several years ago, generously donated the block of land on which the chapel was subsequently built.

Besides Mr. Bignouette's hotel already mentioned we have another first class inn, that of Mr. A. Simons, seigneur of this good parish of St. Dunstan, both of which are well patronized by summer boarders and transients, numerous disciples of Isaac Walton, who come to enjoy their hopes inspiring art, and take perchance a well earned rest.

From these mountain heights we all look down and pity those who come not, for this is the home of breezes, the wind bloweth where it listeth; and here it bloweth all day long, tempering the sultry air, and bringing health and comfort on its wings, and towards evening when the sun, blushing with shame at its cruel attempts of the day, sinks from sight it gradually dies away to be replaced by a heavenly calm, and the mountains, like Narcissus, charmed with their reflected beauty, seem to have met with a similar fate in the cool dark depths below. Then the glassy surface of this mountain gem is dotted with numerous craft, each laden with its argosy of Youth and Beauty, its hopes and fears, its pains and delights, and all that we call Life, as we have it, and as we make it.

The daylight bids a lingering adieu to this fairy scene, the filmy, witching twilight descends, gentle as a languid smile, soft as an infant's slumber, until at last, it too, like a shy reluctant bride, is absorbed into a new existence, and, as twilight, reigns no more.

And all have quailed deeply of—they know not what, and jangled nerves are stilled, they know not how, but to some will come the understanding that 'Tis not only Nature's skill
'That makes the heart strings quiver
'Tis something more seductive still
'Than forest, field or river.
'Tis freedom from all care and strife,
'With health and friends a-plenty,
'Tis all that goes to round up life
'Tis "Dolce far Niente."

AT THE
AUDITORIUM

(By Dr. Geo. Stewart, F.R.S.C.)

La Chasse au Mari, Labiche's famous comedy, was the attraction at the Auditorium last night, and it drew a fashionable audience, to whom its production gave great delight, for the artists engaged in its representation were drawn from the leading members of the Nouveautés and National theatres of Montreal. From the first act till the last,—there are four acts in the piece,—the fun was fast and furious, and the applause greeted every hit made by the company. Several of the artists have appeared in Quebec during the last few years. Mr. Fernel made much of the very amusing role of Duplan, and kept every one in roars of laughter. Mr. Darcy, who is a popular favorite here, was capital as Carbone. Mr. Soulier was strong in the character of Perugin, and often divided the honors with Messrs. Fernel and Darcy. The part of Maurice Duplan was successfully rendered by Mr. Grenier, while Messrs. Hyacinthe as Edgar and Leopold as Jules, respectively, scored a success. The ladies, who wore handsome and appropriate costumes were all thoroughly at home. Madame Dartigny, who is a Quebec favorite, was warmly greeted, as Madame Carbone, and Madame Soulier was charming, as Madame Perugin. Madame Fernel was excellent as Madame Cesena. Madame Marsol was graceful and naive in the role of Berthe Carbone, and Madame Dupre looked and acted the part of Lucie Perugin in a manner which frequently brought down the house. The play was well staged. Between the second and third acts, Mr. and Mrs. Soulier sang a comic duet so well that they had to respond with another selection from their repertoire. Mr. A. Fernel sang two comic songs so well that he had to appear twice. Madame Fernel sang very pleasingly a pretty ballad. Prof. Zimmerman and his orchestra performed a fine programme of popular and classical music. La Chasse au Mari will be repeated to-night.

NED HANLAN AS COACH.

Toronto, July 10.—Ned Hanlan was to-day engaged by President Ed. Mack to coach the crews of the Don Rowing Club and will commence his duties to-morrow. The Dons have a junior double, four and eight for the Canadian Henley regatta at St. Catharines and the ex-champion hopes to get a winner out of the material in the Don Club.

The man who thinks he knows it all is well thought of—by himself.
A woman always retains a large corner in her heart for her first love.

GOSSIP OF CAPITAL

Live Stock Records—Autonomy Bills in Senate—Ottawa Waterworks Extension.

Ottawa, July 10.—The National Stock Records office, in charge of Mr. W. A. Clemons, is being kept fairly busy with new records and certificates, applications for which are coming in at the rate of about a hundred per day. The shorthorn records are the most numerous and involve a great deal of labor. Owing to the fact that the Live Stock Records Act has not yet been assented to by the Governor-General-in-Council the department has been obliged to issue the certificates unsealed to prevent a standstill in the record business. As soon as the act is assented to the certificates will be returned to be duly signed and sealed.

An effort is being made by the railway men to induce Mr. J. E. Duval, inspector of accidents for the Railway Commission, to retain his position. Mr. Duval having been offered a larger salary than he is receiving from the Government has been considering taking a position with a railway company. The railway men would regret to see any change in the Government inspectorship as Mr. Duval has given satisfaction in the 18 months since his appointment. It is understood that the Government will be asked to raise Mr. Duval to a higher status as well as giving him a higher salary.

The Provincial Government has refused the request of the city of Ottawa for confirmation of the by-law authorizing the expenditure of \$60,000 for water works extensions. This means that a considerable amount of such work for which plans had been made will necessarily be tied up and there is considerable disappointment as a result. The situation which has now arisen is due to the action of the Private Bills Committee of the Legislature in holding that the matter was one to be dealt with by the Governor-in-Council rather than being made a

Correspondence

To the Editor of the Quebec Chronicle
Sir,—On my being discharged from the Quebec goal, I was told that the Government had no right to pay the passage for the prisoners arrested in Montreal and sent here on account of the goal in Montreal being in a congested condition. So on my release I went to the Chief of Police and got my passage paid up again to Montreal. And I would like to know if the same could not be done with the rest of them. Some who have already been discharged are begging on the streets; and it is not fair to the citizens of Quebec and the men at all. But I consider I did the right thing.
B. HANSON.

July 10th, 1905.

subject of legislation. The Whitney Government has decided that legislation is necessary, Ottawa not coming within the scope of the act regulating such power by order-in-council.

One of the best informed Senators said to-day that there would be no prolonged discussion in the Upper House on the autonomy bills, such as took place in the Commons. Most of the Conservative Senators are in sympathy with the Borden amendment to the education clause and they will, no doubt, place themselves on record to this effect. It is said that all the other opposition amendments will also be moved but will not be discussed.

THE NEW INHALATION TREATMENT.

For weakness of the lungs, bronchitis and catarrh, it has no equal. "Catarrhozone" is its name and every doctor pronounces it a marvelous success. Catarrhozone is scientific and certain to cure; try it.

As we slide down the banister of life, we find they're full of spinsters. The torch of truth wanes dim when the winds of opposition die.

THANKS THE MAYOR

For His Honor's Recent Hos-
pitable Reception of the
Ontario Journalists.

The following graceful letter has
been received by His Honor Mayor
Parent in connection with the recent
visit of the Canadian Press Associa-
tion to this city:—

Toronto, July 5th, 1905.
Hon. S. N. Parent,
Mayor, Quebec.

Sir—Permit me to thank you per-
sonally and on behalf of the Cana-
dian Press Association for your very
great kindness in receiving us during
our stay in Quebec and for the very
kind words of welcome you addressed
to us on that occasion. I am sure
your welcome will long be remembered
by every member of the party and
I have no doubt it will do much to
create a more cordial feeling between
the peoples of our two great provin-
ces. I only regret that we were un-
able to take advantage of your gen-
erous proposition to pay a visit to
the new bridge. Personally, I would
have liked nothing better but cir-
cumstances over which I had no control
prevented our acceptance.

Thanking you again most heartily,

I am, yours truly,
J. R. BONE,
Secretary.

DROWNING ACCIDENT.

Charles Baillargeon, a farmer, 59
years of age, was found drowned on
Saturday not far from his residence
at Montmagny.

BROKE HIS BACK.

Alfred Leclerc, while working on the
roof of a house in Bridge street, lost
his balance and fell to the ground
breaking his back. He is now in a
critical condition.

THE VICTORIAVILLE ACCIDENT.

The woman killed by the cars at
Victoriaville on Saturday morning was
named Genest. She was crossing
from her own home to that of her
sister's, when the fatal occurrence
took place.

Beer on draft at the St. Louis Hotel
only.

DEAD MAN'S SISTER FOUND.

The sister of Charles McLaughlin,
who was recently killed at Loch
Haven, Pa., and about whom enquiry
had been received in this city, has
been located at Sherbrooke, where
she now resides with Mrs. Walsh, wife
of Mr. J. H. Walsh, of the C.P.R.

SHOT A SEAL.

A seal was shot in the St. Charles
on Sunday by Mr. Jules Depierre.
The animal sank when shot but was
subsequently discovered floating in the
vicinity of Victoria Park by some
boys. The animal measured about
four feet in length.

PROPERTY SOLD.

The property on St. Foye road
known as Hazelhurst, belonging to
Major Ashmead, has been sold to Mr.
Robitaille for the nuns of the Bon
Pasteur, who intend enlarging the
building and converting it into a
home for orphan children.

BEAR AT LAVAL.

A gentleman returning from a fish-
ing excursion on the upper Montmo-
ncy river reports that he saw a
large bear, which has been bothering
the farmers of Laval. While the pre-
sence of a bear in this vicinity is not
rare, the undue familiarity of this one
is likely to prove fatal to its exist-
ence, as the young men of the place
have armed themselves and set out on
its trail.

QUEBEC AND SAGUENAY R.R.

Directors Elected at a meeting of the
Company Yesterday.

At a meeting of the shareholders of the
Quebec and Saguenay Railway
Company held yesterday, the follow-
ing gentlemen were elected directors
for the current year:—Mr. R. For-
get, Hon. P. A. Choquette, Hon. E.
B. Garneau, Mr. Wm. Price, Mr. Mc-
Lea Walbank, Mr. N. Rioux. At a
subsequent meeting of the directors,
Messrs. R. Forget and Senator Cho-
quette were elected respectively, Pre-
sident and Vice-President. With such
a strong board of directors there is
no doubt that the enterprise will be
pushed through to a successful ter-
mination, and everything points to the
residents of the north shore possessing
before long rail communication, which
will join them advantageously with
Quebec. Mr. J. McCarthy, engineer,
and several other assistants will im-
mediately begin the work of explora-
tion of the region to be traversed by
the railway. Mr. James McCarthy has
been named consulting engineer and
Mr. L. A. Taschereau, K.C., advocate
of the company.

TABLET REMOVED

Montgomery Sign Taken Down
from Citadel Cliff Yester-
day Afternoon.

A considerable amount of excite-
ment was created along Champlain
street last evening over the removal
of the old wooden Montgomery tab-
let on the face of the cliff just under
the Citadel, and which has so long
been one of the points of interest for
American visitors to this city. Why
the tablet has been removed has not
yet been clearly established, although
the authority for doing so is stated
to have been Mr. Mathieu, superin-
tendent of military works for this dis-
trict. As that gentleman was absent
from town last evening no light on
the subject could be secured from that
quarter, and all that is definitely
known so far is that the tablet has
been removed and that it at present
calmly reposes in No. 6 Police Station
in Champlain street.

The first known about the intended
removal of the tablet was about four
o'clock last evening, when a couple of
men were observed at work upon the
cliff taking it down. From one of
these, Jacques Benoit, it was learned
that he had made a contract with a
certain city contractor to remove the
sign for the sum of \$1, and that the
work was to have been done this
morning, but advantage was taken of
the cool of the afternoon to perform
the work yesterday. That was all
that the sub-contractor knew. The
name of the contractor, who arrived
on the scene later, was said to be
Dugal and he declared that his orders
for the removal of the tablet came
from Mr. Mathieu, but why the tablet
was to be removed or anything fur-
ther concerning the affair he professed
ignorance. The Chief of Police was
communicated with and he gave orders
to have the tablet placed in the Police
Station until further orders. Mr. Wm.
Power, M.P., for the division, was
also telephoned to and he in turn
telegraphed to Ottawa asking who
had given the authority for the tab-
let's removal. One report current was
that the tablet was being removed in
order that it might be renewed and
replaced, but this could not be con-
firmed. Offers to purchase letters
from the inscription on the sign were
immediately made by hunters after
historical relics, who saw the work in
progress, and one letter was sold for
\$1, but in sending it down the cliff it
was shattered to pieces and no further
offers for letters were entertained.

AUDITORIUM RESTAURANT.

Mr. Edgar Cloutier announces that
beginning this evening the Auditorium
Restaurant will be kept open all night,
from 6 p.m. until 7 a.m.

Drink Beauport Lager it is
the best.

FIRST CAR ON THE BRIDGE

The Grand Trunk completed connec-
tion between their line and the Quebec
Bridge on Saturday last and im-
mediately a Grand Trunk car, con-
taining considerable iron for the
bridge was moved out to the edge.

VICEREGAL PARTY AT MONT- MAGNY.

Their Excellencies, the Governor-
General of Canada and Lady Grey,
family and suite left by special I.C.R.
train yesterday for Montmagny, where
they were the guests of Senator Cho-
quette, who invited most of the promi-
nent people of the place to meet
Their Excellencies.

The distinguished party visited all
the mills, churches, and convent of
the place and declared themselves
highly pleased with all they had seen
in such a short space.

The viceregal party returned to
town last evening about eleven
o'clock.

SENSATIONAL SALE.

Of our stock of ladies' lingerie con-
sisting of drawers, corset covers, chem-
ises, nightgowns, lawn matinees, in
silk, in veiling, and alpaca, at ridicu-
lously low prices, can be seen in our
windows.

FAGUY, LEPINAY & FRERE.

POLICEMEN'S PIC-NIC.

The second detachment of the local
police force will have their picnic to-
day at Cap Tourmente to-morrow, and the
prospects are that it will be just as
successful and enjoyable as that of
the first detachment last week. Every-
body is looking forward to it with
keen anticipations of the pleasure in
store. Seven hundred invitations have
already been issued and but fifty more
will be given, the limit being placed
at 750. With a large crowd, fine weath-
er, good sports, elegant prices
and splendid management, the mem-
bers of Quebec's "finest," their fami-
lies and friends are certainly in for a
day of unalloyed delight in the coun-
try.

RUSSIAN PEACE NEGOTIATORS.

St. Petersburg, July 10.—The Asso-
ciated Press has high warrant for the
statement that M. Witte, President of
the Committee of Ministers, was
strongly urged upon the Emperor for
head of the peace mission. The Em-
peror, however, flatly declined and
personally chose M. Muraviev, the
Ambassador at Rome. Two of the
five counsellors to the plenipotentiaries,
though M. Pokotiloff, Minister to
China, and M. Shipoff, director of the
imperial Treasury and former president
of the Zemstvos, are distinctly Witte
men. M. Muraviev saw the Emperor
to-day for the purpose of discussing
the question of peace and of learning
His Majesty's views. He will leave for
the United States next week. Accord-
ing to the gossip of the imperial en-
tourage the Emperor is opposing the
conclusion of peace.

A Man Ate Nothing

For Lunch for 10 days but

Grape-Nuts

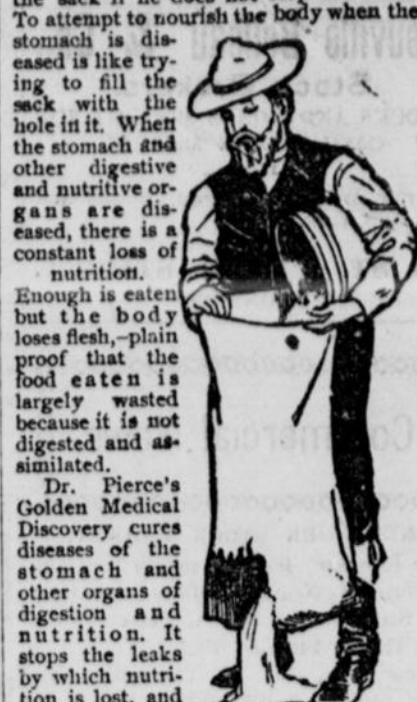

AND CREAM

A test to see if the food really
furnished the nourishment claimed

He gained 4 pounds in 10 days.

"There's a Reason."

How long will it take the man to fill
the sack if he does not stop the leak?
To attempt to nourish the body when the
stomach is diseased is like trying
to fill the sack with the hole in it. When
the stomach and other digestive
organs are dis-
eased, there is a
constant loss of
nutrition.
Enough is eaten
but the body
loses flesh, plain
proof that the
food eaten is
largely wasted
because it is not
digested and as-
similated.

Dr. Pierce's
Golden Medical
Discovery cures
diseases of the
stomach and
other organs of
digestion and
nutrition. It
stops the leaks
by which nutri-
tion is lost, and
enables the
building up of the body by the nutri-
tion derived from food. The gain in
weight proves the cure.

"Three years ago I was taken sick with what
the doctor called nervousness and indigestion,"
writes Mrs. Warren E. Parker, of Orange Street,
Nantucket, Mass. "He gave me medicine for
the trouble, but I could not eat even a little toast
or oatmeal without suffering severely. In a few
months I began to have distressing pains right
in the pit of my stomach. I called the doctor
again and he said I had catarrh of stomach;
gave me medicine but it did not do any good.
I lost 25 pounds in three months. I then com-
menced taking Dr. Pierce's medicine and soon
began to feel better. I have taken six bottles of
Golden Medical Discovery, two of 'Favorite
Prescription' and six vials of Dr. Pierce's Pel-
lets. I have gained ten pounds. Can eat every-
thing."

Dr. Pierce's Pleasant Pellets cure con-
stipation.

MAGNIFICENT HOTEL

The New Hostelry at Lake St.
Joseph a Delightful
Spot.

The Lake St. Joseph Hotel was of-
ficially opened on Saturday last and
on this occasion, and on the following
day, a very large number of guests
were present and one and all expressed
themselves as being highly delight-
ed with the Hotel and the accommo-
dation and comforts offered by the
management. As a matter of fact
the new hotel is one of the finest and
most convenient of access to be found
anywhere in this Province. The
Q. & L. St. John R.R. Co. run
several of their trains daily to the
main entrance of the hotel, where Mr.
T. Shallow, the general manager,
meets the visitors on arrival and im-
mediately starts in to make their
sojourn a pleasant one. In this he is
ably assisted by his staff, Messrs. W.
Thompson, formerly of the St. Law-
rence Hall, Montreal, and Mr. M.
Quinn, of this city.

The Lake St. Joseph Hotel com-
mands a most perfect view of the
Lake and surrounding country and the
guests have a daily opportunity of
being conveyed around the Lake on
board the Hotel launch, which steamer
runs fifteen knots an hour. Besides
this launch, there are at least six
other launches on the Lake, and it is
needless to say that a large number
of smaller boats are continually to
be seen. At the present moment there
are about eighty permanent boarders,
and a very large number of American
and Canadian visitors are expected
there during the present week. The
Hotel itself, as stated before, one
of the finest in this Province, and will
no doubt draw hundreds of guests
during the present season. On Sunday
last a large number of Quebecers vi-
sited the Hotel and were highly pleas-
ed with the meals offered and the
general service of the Hotel. Mr. Shal-
low, the manager, is always to be
seen welcoming his guests. He ex-
pects a very large influx of visitors
during the present week. Every even-
ing a number of the guests enjoy a
trip around the Lake on board the
Hotel steam launch and this is fol-
lowed by dancing to the strains of a
powerful orchestra which also plays
at all dinners. At present over 100
rooms are completed and most of
them are occupied or have been re-
tained for this and next month. No
doubt no money has been spared by
the company to make this resort the
most popular in this Province and in
this they succeeded beyond expecta-
tions. The rotunda, dining rooms,
bedrooms and general offices are of
the best material and citizens visit-
ing the Lake may rest assured that
they will have all the necessary com-
forts.

DOUBLE DROWNING ACCIDENT.

Two young men were drowned at
Marsois, situated between Martin
River and Mont Louis, Gaspé Co., on
Sunday afternoon last. Their names
are Auguste Levesque, joiner, of Mar-
sois, and Henri Pronovost, black-
smith, of St. Tite, Co. Champlain.
The victims with two other compan-
ions, were returning from a ship on
board a small boat when the latter
upset. The bodies had not been re-
covered yesterday.

The Rev. R. E. Walsh, M.A., whose
picture graces the front page of this
bulletin, and from whose book, "In Relief of Doubt," we
have taken a chapter in abridged form
for our June issue, is a gentleman in
whom Canadian Bible Society men
have a very special interest just now.
Since he is the gentleman selected by
the Home Council of the British and
Foreign Bible Society as their repre-
sentative in the Dominion of Canada,
and as such he will be a member of
the Board of the Canadian Bible So-
ciety, and in their councils represent
the Parent Society, by whom he is
appointed with the concurrence of the
Canadian Board. His appointment was
confirmed at a recent meeting of the Executive
Committee of the Canadian Bible So-
ciety—Bible Society Bulletin.

If you had taken two of Carter's
Little Liver Pills before retiring you
would not have had that coated
tongue or bad taste in the mouth
this morning. Keep a vial with you

LAKE ST. JOSEPH HOTEL, LAKE ST. JOSEPH
