The changes in this district include the following: Rev. Geo. A. McIntosh, B. A., B.D., comes to Sherbrooke; Rev. T. P. Shaver goes to Thetford Mines; Rev. Malcolm S. Lehigh to Compton and Rev. Telephore Roy to Magog. Conference opened sharp at 9 this morning and concluded the business of the day at 1 o'clock. There was a good attendance, and a large amount of business was transacted. PROPER LEGISLATION.

At the Conference meeting held yesterday afternoon the following resolution was moved by Mr. J. H. Carson, seconded by C. W. Cate, K.C., and adopted:

"That this Conference recommends the General Conference Special Committee to take steps to secure the necessary proper legislation in the Province of Quebec to give effect to the Dominion Statute of 1912, respecting the Methodist Church."

This is necessary to render the amended model deed effective and has already been done in the Province of Ontario.

The Lay Association presented their report. The resolution passed by them on Saturday last relative to immigration, and which has already been published in the Record, was, upon the motion of Mr. Cate, referred to the special committee appointed under the action of Monday.

SUPPORT OF SUNDAY SCHOOLS.

The report contained another resolution of the Lay Association as follows:

"That the Lay Association earnestly recommends that in view of the importance of Sunday School work, all circuits be asked to make ample provision in their annual budgets for the support of the Sunday School, and thus allow, so far as is practicable, the contributions of the schools to be devoted to Missions."

After discussion, this was, on the motion of Mr. Eagleson, referred to the Permanent Sunday School Committee of the Conference.

TO PROHIBIT PRIZE BOUTS.

The report of the Temperance, Prohibition and Moral Reform Committee was submitted by Rev. W. Howitt. The report contained a request that a requisition be sent to the Minister of Justice at Ottawa to amend, if possible, at the next session, the definition of the word, "prize-fight," so as to include boxing bouts which have the characteristics usually attendant at prize fights, and which are already under the ban in the criminal code.

PROTEST RE LIQUOR STORES.

The report also contained a protest against the union of liquor and grocery businesses in the same place, a request that inefficient inspectors in "dry places" be removed, a demand for letting more strictly with moving picture shows where vaudeville turns are given, and referred to the necessity of making known more generally the fact that where thirty persons in

POWERS ARE ALARMED

Using Every Effort to Prevent War Breaking Out

SERBIA AND BULGARIA WARNED THAT NO CASH WILL BE FORTHCOMING.

London, June 11.—The great powers are exerting every effort to prevent the Balkan states from flying at each other's throats, and reports from Vienna indicate, with some success, Russia and Germany particularly are busy counselling peace and moderation, and the French Government is supporting them, and, as the principal creditor, is giving both Serbia and Bulgaria clear warning that in event of war no financial assistance will be forthcoming either before or after hostilities.

Since Serbia has definitely declared that she will avoid all provocation towards Bulgaria, even should the latter refuse revision of the treaty of alliance, and will wait before proclaiming annexation of the occupied territories, and since Bulgaria has also expressed readiness to do everything possible to maintain peace, it is still hoped that war may be averted.

The Neue Freie Presse learns that Dr. Daneff shortly will form a new Cabinet at Sofia, no military reasons for further delay existing, as the Bulgarian army is ready for action on the Serbian and Macedonian frontiers.

ONE KILLED; SEVERAL INJURED

Strike Riot at Ipswich, Mass., Cause of Great Disturbance

FIFTEEN ARRESTS MADE, INCLUDING I. W. W. LEADERS.

Ipswich, Mass., June 11.—One woman was shot and killed, seven others were wounded by bullets and many others, including several policemen, were hurt by flying missiles in a strike riot outside the Ipswich Hosley Mills last night. Fifteen persons, including leaders of the Industrial Workers of the World, were taken into custody.

The dead woman was Miss Nicoletta Pandelopoulos, aged 27, who was a spectator of the fight. Five of the wounded were hurried at once to the Salem Hospital, 14 miles distant, in an automobile.

An appeal for help was sent to Salem, and, after a riot call had been sounded in that city, eighteen officers were rushed over the road in automobiles. Order had been restored, however, before their arrival. The actual fighting did not last over five minutes.

WORK AT MILLS RESUMED.

Ipswich, Mass., June 11.—(Special)—The Ipswich Mill, near the gates of which one woman was killed and a number severely injured in a riot last night, was opened today without further disturbances. Under protection of a large force of police about 200 operatives resumed work. Nearly 600 remained on strike.

The disturbance started when 500 English-speaking employees left the mills at the end of their day's work. They were met by groups of pickets under the leadership of the Industrial Workers of the World, who have been conducting a strike at the plant for a 20 per cent. increase in wages.

AVIATOR ATWOOD HAS DISAPPEARED

Started For Flight Over Lake Erie to Sandusky

HIS FAILURE TO REACH THE CITY HAS CAUSED MUCH ANXIETY.

Sandusky, Ohio, June 11.—Up to a late hour last night, Harry Atwood, the aviator, who left Ecorse, Mich., in his hydro-aeroplane yesterday afternoon for a trip over Lake Erie to this city, has not reached here and no word had been received as to his whereabouts.

When Atwood left Ecorse, a short distance down the Detroit River from Detroit, the weather was clear and calm, and the aviator was confident he could make the trip over the western end of Lake Erie in record time. His failure to reach this city has caused alarm for his safety.

Had Atwood followed the course on returning to Sandusky that he took in flying towards Detroit last week, he should have passed over Put-in-Bay Island late yesterday afternoon. The lightkeeper on the island did not sight him. The course from Ecorse to Sandusky is approximately sixty miles in length.

TROLLEY RIDE FOR DELEGATES

Those Attending C. O. F. Convention Will be Entertained

EXPECTED THAT OFFICERS WILL BE ELECTED TO-NIGHT.

The delegates attending the Catholic Order of Foresters Convention, which is now being held in this city, are busily engaged in receiving the reports of the various committees. The reports show that the past year has been a most successful one in every department of work.

It is expected that the reception of the reports and the discussion thereon will be finished this afternoon. The question of a meeting place for the next convention will then be discussed.

There is a possibility that the election of officers for the ensuing term will take place this evening.

STREET CAR RIDE THIS AFTERNOON.

At two o'clock this afternoon the delegates, accompanied by a large number of Sherbrooke citizens, were taken for a trolley ride to Lennoxville and over the city. Sharp at two o'clock three cars started from the Magog House and three from the Albion Hotel, and the delegates were taken all over the company's lines. The cars were placed at the disposal of the visitors through the courtesy of the Sherbrooke Railway and Power Co.

SESSION THIS EVENING.

The ride will be over at 5 o'clock, when the guests will land at Victoria Park. From 5 until 6 they will be free to do as they please. At 8 o'clock the regular business of the convention will be proceeded with.

OBJECT TO CANADA GIVING ADVICE

Unionists Say Home Rule Not Understood in Canada

MOTION TO REJECT THE MEASURE DEFEATED BY MAJORITY OF 98.

London, June 11.—After one of the most remarkable debates in recent years, the House of Commons yesterday voted down the motion to reject the Home Rule Bill by a majority of 98, after which the measure passed second reading without division.

Dissenting from Mr. Redmond, who declared the overseas dominions were overwhelming in favor of Irish Home Rule, Major Morrison Bell said the issue had never been clearly put before the Canadian people. He challenged the Nationalists to get a resolution in favor of it being passed through the Commons at Ottawa.

Hamar Greenwood said there was not a single public man in Canada who was not in favor of Home Rule for Ireland, because the principle had worked well in Canada. It was regarded there as a long stride toward the federation of the Empire.

Bonar Law said—"Any one who has the smallest acquaintance with Canada knows that the statement made by the last speaker is absolutely wide of the mark. If he had said that a majority of Canadians were in favor of Home Rule I should not have contradicted it, but to say the whole of Canada is in favor of Home Rule is utterly at variance with the fact. The hon. member said further that no member of Mr. Borden's Cabinet had taken part in any anti-Home Rule demonstrations."

DUCHESS OF CONNAUGHT DRIVES OUT.

London, June 11.—(Special)—The Duchess of Connaught was able to drive out yesterday, and will leave for Bagshot at the end of the week.

HON. GEORGE PERLEY MARRIED IN OTTAWA

Ceremony Was Quietly Observed in St. John's Church This Forenoon

Ottawa, June 11.—(Special)—Hon. George H. Perley, Minister without portfolio in the Borden Administration, was very quietly married at St. John's Church at 9.30 a.m. to-day to Miss Milly White, one of the capital's social leaders, and daughter of the late Hon. Thomas White, Minister of the Interior under the late Sir John Macdonald.

Rev. J. F. Gorman performed the ceremony, which, owing to a recent bereavement in the bride's family, was witnessed only by immediate relatives.

Mr. and Mrs. Perley left by private car for Toronto and Detroit.

MAHMOUD PASHA ASSASSINATED

Head of Turkish War Office Killed in Constantinople

HAD MUCH TO DO IN BRINGING ABOUT MILITARY REVOLUTION IN TURKEY.

London, June 11.—(Special)—A report reached London from Constantinople that Mahmoud Scheffet Pasha, a Turkish Grand Vizier and Minister of War had been assassinated in Constantinople.

Mahmoud Scheffet Pasha was a close intimacy with Abdul Hamid, the Sultan, and was the moving spirit in fostering military revolution which brought about the Sultan's fall, in which he was assisted by Enver Bey after he had put an end to Cabal, which surrounded Abdul Hamid. The old Sultan attempted to recover his autocracy and Mahmoud Scheffet Pasha then caused his deposition and had his brother, Mehmed V, placed on the throne.

Soon after the outbreak of the Balkan war, Mahmoud Scheffet Pasha was appointed chief of commissariat department of the Turkish War Office, and he was one of those present at the grand council of the empire which decided in January of this year to accept the proposal of the European powers to bring the war to an end.

EX-LIBERAL WHIP HELD MARCONI SHARES

Lord Murray Purchased Stock With Liberal Party Funds

DID NOT HAND THEM OVER BECAUSE HE TOOK THE WHOLE RESPONSIBILITY.

London, June 11.—Captain Arthur Cecil Murray, brother of Lord Murray, explained yesterday the latter's purchase of American Marconi shares by making a statement before the Marconi Investigating Committee. He said: "Just before Lord Murray went away in January, he handed me 3,000 American Marconi shares. He said that he purchased them on behalf of the party, and said he proposed to keep them until the Marconi business was cleared up, so that nobody could be involved but himself."

He also said that he had told no one of his colleagues, but at the time when he was handing matters over to his successor (Mr. Illingworth), in August, he had consulted Sir Frank Crisp, his legal adviser, about the Marconi shares. He did not hand them over to the latter because he wished to take the whole responsibility upon himself.

THROUGH TRAFFIC ON G. T. PACIFIC

SERVICE FROM WINNIPEG TO MONTON EXPECTED NEXT YEAR.

Ottawa, June 11.—Indications here point to the commencement of through traffic on the Grand Trunk Pacific from the prairies to the Maritime Province ports in 1914. The question turns on the completion of the car ferry at Lévis, as the gap on the main line between Cochrane and Quebec, now only some 30 miles wide, will be filled early this autumn. The contract time for the provision of the ferry is May, 1914, and if this limit is observed, the service from Winnipeg to Monton will be in operation a year from now.

Later they proceeded towards Brome, but the four miles was only made in a little less than four hours, owing to a break down. They were taken in tow by another auto and on arriving here decided to pass the night. On the following morning bidding their friends adieu they headed for Uncle Sam's territory but the pesky car had to be abandoned by the road side. A friend motorman was again called to their assistance. They had a good visit, however, and left town by rail on Tuesday morning.

REED'S CROSSING.

In the death of Mrs. Wilder Reed, Saturday evening, May 24th, Reed's Crossing lost one of its oldest and most honored citizens. While her death was not unexpected, as she had been in failing health for more than a year, yet to many who were not aware of her feeble condition, it came as a painful surprise. Alice Elmire Bean, oldest daughter of Verlan Bean, and wife of Wilder Reed, was born Jan. 19th, 1836. She spent her early days on the farm of her father near Minton. She was married to Mr. Wilder Reed at Huntingville, on the 6th day of October, 1857. Had she lived until October of the present year her married life would have covered a period of more than half a century. Mr. and Mrs. Reed had resided during the latter part of their married life at or near Reed's Crossing, the village which bears Mr. Reed's name. For more than half a century Mr. Reed was engaged in the lumber and milling business. Eight children were the offspring of this marriage, most of whom live in Reed's Crossing or at N. Hatley. Mr. Wesley W. Reed, Thos. V. Reed, Jas. B. and C. M., all of Reed's Crossing; Mrs. Jay H. Turner, of Beebe, the only surviving daughter; Mr. Geo. H. Reed, of Cabano. A daughter was accidentally drowned in early womanhood a number of years ago, and a son, Ashley, who died in youth. Mrs. Reed was of quiet, unassuming, modest disposition and greatly beloved by all who knew her. Her daughter, Mrs. Turner, and other members of the family were constantly at her bedside during the long period of her illness and did all that could be done to make her last months comfortable. Prayers were said at the home on the afternoon of Tuesday, May 27th, and the remains were taken to the Reed's Crossing Church opposite the village cemetery where obituary services were held at 3 o'clock. Relatives and friends completely filled the chapel and the choir of the Universalist Church sang the office for the dead.

FALLING HAIR

Dandruff and Itching Scalp are Caused by Microbes

There is no doubt about it. Doctor Sangerborn proved it when he infected a guinea pig with dandruff germs and all its hair disappeared in a short time. The entire medical world has accepted Dr. Sangerborn's discovery as final. Ask any worthy physician.

Paris leads the world in knowledge of diseases of the hair and remedies for the same.

Parisian Sage which can now be obtained at leading druggists all over Canada is the one great remedy that kills the dandruff germs.

That is why F. T. Ansell says to every reader of the Record if Parisian Sage does not banish dandruff, stop falling hair or itching scalp in two weeks he will refund the purchase price.

Dandruff is the forerunner of baldness. Take care of your hair while you have hair to take care of. Kill the dandruff germs now before the dandruff germs kill your hair.

Use Parisian Sage, the guaranteed dandruff cure and delightful hair dressing.

It is used extensively by ladies of refinement because it keeps the scalp absolutely clean and gives a bewitching lustre to the hair. Comes in large 50-cent bottle at F. T. Ansell's and leading druggists everywhere.

GENERAL ASSEMBLY FOR CHURCH UNION

Minority Report on Sub-
ject Voted Down by
Large Majority

UNION COMMITTEES TO BE CONTINUED AND NEGOTIATIONS

WITH OTHER BODIES.

Toronto, June 11.—The General Assembly spoke with no uncertain voice on the subject of Church union yesterday when it voted by a large majority to accept the report of the minority of the union committee and uphold by a vote of 181 to 65 an amendment to the majority report adopting the report in its entirety with the exception of an alteration in its clause continuing the negotiations with other churches, the alteration suggesting that the negotiations be continued "in view to consummating the union without delay. Not content with this pronouncement, an amendment was introduced by Rev. Charles Gordon, D.D. (Ralph Connor), to be added to the report, stating that the suggestion of a federation of any other form of co-operation as an alternative be abandoned. The question of organic union has become a definite issue before the Church. With the introduction of this amendment the debate was adjourned to give way for the subject of social service, which was taken up at the evening session.

The resolutions, as contained in the report, were in substance as follows:—"That the large majority of the Presbyterians voting in favor of organic union and the practically unanimous vote in the two other bodies, the committee recommends:—

"1.—That the Presbyterian Church assures the other churches it fully realizes its share of responsibility and earnestly desires the deepening of the spirit of union and the continuation of the negotiations.

"2.—That the union committees be continued and further amendments be invited from the presbyteries in order that it may confer with the committees of the other bodies with a view to obtaining a final judgment from the people."

A GREAT PICTURE.
 Manager Teel, of His Majesty's, has been fortunate enough to secure Fantomas, one of the greatest detective dramas ever produced. The reel consists of about 3,650 feet. It is reported as being even better than Tigris, the great film only recently shown here.

The pictures show what is known as the Beltham Mystery, and the wonderful skill of Fantomas, whose evil deeds are not brightened by a single redeeming feature.

The film will be shown to-night and to-morrow night.

INQUIRY AFTER SON.
Writing from Rockwood, New South Wales, to the Record, Mr. Wm. Smith would like to get some information as to his son, William Samuel Smith. The letter states that the latter worked at the Capelton Mines several years ago, that he played a cornet in a band, and was a member of a lodge of the Sons of England. He wrote a letter to an uncle in London, England, but the address was lost. About eighteen years ago he wrote from Capelton to his father. Any information sent to Wm. Smith, the Post Office, Rockwood, will be appreciated by an anxious father.

FINANCIAL AND MARKET NEWS

COUNTRY PRODUCE

EGG MARKET MAINTAINED.
Montreal, June 11.—Receipts of eggs were 1,680 cases, as compared with 1,611 for the corresponding date last year. There were no new developments in the market, prices being firmly maintained under a continued good demand for local consumption and cold storage account, and an active business is doing, with sales of selected stock in a jobbing way at 25c, straight receipts at 23c and the latter in round lots at 22c per dozen.

MAPLE PRODUCTS IN DEMAND.
Montreal, June 11.—The demand for maple products is fair, of which supplies are ample to fill all requirements and the tone of the market is steady, with sales of maple syrup in three-quarter tins at 85 to 90c per tin, and in wood at 7 to 8c per lb. Maple sugar is firm at 11 to 12c per lb.

HONEY PRICES STEADY.
Montreal, June 11.—There is no change in the condition of the market for honey, prices being steady and business rather quiet.
We quote prices as follows:
Clover, white honey, 16 to 17c; dark grades, 14 to 15c; white extracted, 11 to 12c; buckwheat honey, 9 to 10c.

GOOD POTATO TRADE.
Montreal, June 11.—A good trade is passing in potatoes, and the undertone to the market is strong on account of the small offerings and light stocks held on spot. We quote: Green Mountains, in car lots, at 90 to 95c, and Quebec grades at 75 to 85c, and in a jobbing way at \$1.10 to \$1.15 per bag.

BEAN MARKET FIRM.
Montreal, June 11.—The tone of the market for beans is firm, but the volume of business doing is not large, and three-pound pickers are quoted at \$1.65 to \$1.75 per bushel in car lots ex track.

DAIRY PRODUCE

DECLINE IN PRICE OF BUTTER.
Montreal, June 11.—Receipts of butter were 1,421 packages, as compared with 1,307 for the corresponding date last year. In sympathy with the further decline in prices in the country and the continued limited demand from outside sources for supplies a weaker feeling has developed in the local market and prices have declined 1c to 1c per lb. At the public sale held at the Board of Trade prices for finest and pasteurized creamery were 1c per lb. lower than the previous sale but the other grades were unchanged.

We quote prices as follows:
Finest creamery, 25c to 25c; fine creamery, 24c to 25c; second grades, 24c to 24c; dairy butter, 23c to 23c.

CHEESE MARKET QUIET.
Montreal, June 11.—Receipts of cheese were 7,525 boxes, as against 15,748 for the same date a year ago. The Liverpool Public for old Canadian cheese came strong at a further advance of 2s with 65s being quoted.

ENGLISH POLO TEAM DEFEDATE

Americans Outrode and Out Played Their Opponents

VISITING TEAM DID NOT SHOW TEAM PLAY, WITH WHICH THEY WERE CREDITED.

Meadowbrook Club, Westbury, L.I., June 11.—Outriding and outplaying the English polo challengers, the American cup defending team yesterday won the opening game of the sixth international match by a score of 5-1 goals to 3. A better idea of the actual difference in the playing ability of the two teams is shown by the gross score, which was 7 to 3 in favor of the defending four.
Much to the surprise of the spectators and polo experts, the English players did not show the team play which had been credited to them before the game. Neither did their ponies outclass the American mounts. In fact, the reverse was quite the case, and in almost every run downfield the American players either held their own or outrode their competitors in the race for the ball.

ed for finest white and colored while new cheese was unchanged at 58s. There was no great activity in the local market, the demand from over the cable being principally for small lots, but the feeling is about steady. The exports last week were 28,704 boxes, showing a decrease of 9,822 boxes as compared with the previous week and a decrease of 218 with the corresponding week last year, while the total quantity shipped since the first of May to date is 9,466 boxes short of a year ago for the same period.

We quote prices as follows:
Finest western, white, 12c to 12c; Finest western, colored, 11c to 12c; Finest eastern, white, 10c to 11c; Finest eastern, colored, 9c to 11c.

PROVISION MARKET

GOOD DEMAND FOR LIVE HOGS.
Montreal, June 11.—The tone of the market for live hogs remains firm under a good demand from packers, and sales of selected lots were made at \$10.65 to \$10.75 per 100 lbs., weighed off cars. A good trade is also passing in dressed hogs, and the market is fairly active, with sales of abattoir fresh killed in a jobbing way at \$14.50 to \$14.75 per 100 lbs.

DAILY STOCK LETTER.

New York Noon Letter.
The market opened in sympathy with higher London prices and somewhat irregular fluctuating up and down. The combined influence of the Minnesota rate decision, the increase in Steel Corporation tonnage, the strained position in London market together with extravagant pessimism in Wall Street forced the situation is apparently discounted for the time being. Prices have recovered and the forced liquidation is temporarily stemmed. It is worthy of note that commission house loans have been greatly reduced in the last six weeks. There is no improvement in the Bond market except possibly a little less drastic selling. At noon the market is dull and steady. Time money rates over the year 5 1/2 to 6 per cent, with larger amounts in sight.
Sales to noon, 244,000.
Bonds, \$1,050,500.
Wheat, 1 cent up. Corn, 3-4 up.
Cotton, 8 lower.

Arrangements have been made with the Street Railway to run extra cars on the Park Line on Saturday afternoon and patrons who attend the game will be sure of having a first class car service to and from the Lacrosse Grounds.

When Summer Stops the Swing

Most of us can remember the school lesson in the law of accumulated motion—momentum.

If you exert a pound of pressure against a man in a swing, you'll start him moving slowly "to and fro." If you continue to exert a pound of pressure against him every time the swing makes a trip, you'll soon have him going so high that he almost turns the whole circle. If you stop pushing, the momentum will die out and the swing come to rest at "dead centre."

Winning trade follows the same natural laws.

Advertisements are the force behind the swing of public favor. Each new advertisement increases the momentum. Finally, the accumulated force of these numerous impulses swings indifference to the buying point.

If you stop Advertising, you lose momentum.

The moral of which is:

Don't stop the business swing in Summer.

Keep adding the pounds of Advertising pressure.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

CRIMINAL COURT AT THETFORD MINES

Young Lad Sent to Reform School For Theft of Brother's Money

CORPORATION TAKES ACTION FOR THE ILLEGAL SALE OF INTOXICATING LIQUOR.

Thetford Mines, June 11.—(Special)—Judge Mulvena presided at a term of court here yesterday and disposed of several cases on the docket.
Napoleon Carrier, a juvenile aged thirteen years, was charged at the instance of his brother, Joseph Carrier, with having obtained the sum of \$30 from the Rev. Father Houle, parish priest of St. Maurice de Thetford, which money had been deposited by his older brother with the Fabrique. The charge was fully proven. The evidence showed that he had stolen his brother's deposit book, and represented to the parish priest that his brother wanted the money at once and had sent him to get it. After securing the money he purchased a bicycle with the proceeds. It was also shown that in January last he had stolen \$5 from the pocket of another brother. Since May last he had refused to go to school, and previous to that had been continually playing "hooky" and using the money given him to pay his school fees for other purposes.
He was sent to reform school at Montreal for three years.

"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors, but derived no benefit whatever. Finally, I read an advertisement for "Fruit-a-tives". I decided to give "Fruit-a-tives" a trial and they did exactly what was claimed for them. I have now taken them for some time and find they are the only remedy that does me good. I have recommended "Fruit-a-tives" to a great many of my friends, and I cannot praise these fruit tablets too highly."

MARRIAGES

BELANGER—DERY.

Bedford, June 11. (Special)—A quiet wedding was solemnized at eight o'clock at St. Damien's church when Miss Florina, daughter of Mr. and Mrs. Narcisse Dery, Church Street, and Mr. Joseph R. Belanger, of Worcester, Mass., were united in marriage. Rev. Father Lamoureux officiating. The happy couple will leave on Thursday for Worcester, where they intend making their home, and will carry with them the best wishes of many friends.

GREGOIRE—CHARLAND.

A very pretty wedding was solemnized at Bromptonville, last week, when Miss Laura Charland, daughter of Mr. S. Charland was united to Mr. Alphonse Gregoire, both of that village. The ceremony was performed by the Rev. Joseph Larocque, Parish Priest of St. Praxede, and the music of the mass was rendered by a choir composed of the Children of Mary of which Society the bride was a member, assisted by Mr. Alphonse Ponton, several solos being sung. The bride, who was gowned in white champagne, with veil and flowers, and carried a bouquet of roses, was given away by her father, and Mr. T. Gregoire accompanied his son. A bountiful wedding breakfast was served at the home of the bride's parents, a number of friends and relatives being present. The Abbé Larocque, added to the pleasure of the occasion by his presence, and Miss Y. Charland and Mr. Donat Charland of Montreal assisted at their sister's marriage. The bride and groom with a number of their friends motored to Sherbrooke, and took the Boston and Maine train for Boston, Lowell and other points to spend the honeymoon. They were the recipients of a number of handsome gifts.

BERTHIAUME—OUMETTE.

Pigeon Hill, June 11. (Special)—The marriage of Miss Georgianna Oumette, second daughter of Mr. and Mrs. Joseph Oumette, to Mr. Arthur Berthiaume, of Springfield, Mass., took place at 3.30 o'clock on June 2nd, in St. Joseph Church at St. Armand Station, which was decorated for the occasion with potted plants and cut flowers. Rev. Father Gangras performed the ceremony. The bride, who was given away by her father, wore a gown of grey silk with large white hat, and simply carried a prayer book. Miss Bessie Gendron, who was bridesmaid, wore a dress of blue and white, with blue trimmings, and a large picture hat. She also carried a prayer book. Mr. Charles Kengon, of Springfield, Mass., was best man. Miss Corinne Dalpe, organist, played the wedding march. At the conclusion of the ceremony a wedding breakfast was served at the residence of the bridegroom's parents, and in the evening a reception was held at the home of the bride, where about 150 invited guests were hospitably entertained. The presents were numerous and useful, consisting of silver, china and linen. Mr. and Mrs. Berthiaume left later for Springfield, Mass., their future home.

A VERSATILE ARTIST

Herkomer is Also a Lecturer, Composer, Architect and Actor

Sir Hubert von Herkomer, who painted the portrait of Lord Morley for presentation to the Manchester University, is one of the most remarkable, as well as the most popular, men in the world of art. As a teacher he is almost unrivalled; as an etcher—an art self-taught in his case—he has won high praise; as a lecturer he has been extremely successful; as a composer of music he is, in the opinion of Herr Richter, "never commonplace, and nearly always original." The professor is also an architect, an actor, and a designer of new and remarkable stage effects. His picturesque house at Bushey was entirely designed by him. Professor Herkomer sold his first important picture, "After the Toll of the Day," for \$2,500. His next big picture, "The Last Muster"—Chelsea pensioners at church—was sold for \$6,150, and gained for the painter a French decoration.

"I Sleep Soundly, Feel Like New"

ALL WHO LACK VIGOR, THOSE WHO ARE DISPIRITED AND WORN OUT, SHOULD READ THIS CAPEFULLY.

Proof That Health and Renewed Vitality Quickly Return When Right Remedy is Used.

"I am only thirty years old, yet for almost two years I have felt more like seventy-five. I have found it difficult to sleep at night, and in the morning felt so depressed and heavy that effort was difficult. My hands were always clammy and perspiration on slight effort would break out all over me. It was not unusual that I should begin to brood over the chance that I should be unfit to do my work, and this dread made my sleepless nights perfect misery. After repeated trials of medicines and mixtures, Dr. Hamilton's Pills gave me the first gleam of hope. From the very first I could see they were different in action from other pills. They didn't gripe and acted as naturally as if nature and not the pills were cleansing my clogged-up system. My spirits rose, I felt much better. The sluggish action of the system gave way to normal activity. Dizziness and headaches ceased, appetite, good color and ambition returned, and I have remained. I am like a new man, and I thank Dr. Hamilton's Pills for it all."

This was the experience of J. E. Parkhurst, a well-known grocery dealer in Jefferson. Follow his advice, use Dr. Hamilton's Pills for your stomach, kidneys and liver, and you'll enjoy long life and robust good health. All druggists and storekeepers sell Dr. Hamilton's Pills, 25c. per box, 5 boxes for \$1.00, for postpaid from the Cataract-Hozone Co., Buffalo, N.Y., and Kingston, Canada.

CAT'S PEREGRINATIONS

Remarkable Return of a Feline to its Former Home

A story of the remarkable return of a cat to its old home comes from Kirkcaldy. A miner visiting near Dunfermline was presented with a cat. With his gift in a basket he walked four miles to Heathcote Station and travelled by train to Kirkcaldy, a distance of about sixteen miles. On the evening following its advent in Kirkcaldy the cat could not be found. Nothing was heard of it for some time, when a letter was received from the previous owners saying the cat had returned, and that they would not now part with it on any consideration. The cat, which had been missing for over twelve weeks, was quite plump when it returned.

RECTOR AND HIS SERVANT

She Denied Saying He Had a Face Like a Hearse

There was some amusement at Newry Sessions on the hearing of a case brought by Charlotte Vance, domestic servant, against the Rev. H. McKnight, Rector of Kilkeel, to recover \$36, one month's wages. The defendant, it was alleged, reproved her for buying oil. She stated that after some words he told her to leave the house, or he would kick her out. He said she should be in gaol and she was a miserable-looking creature. She denied having said he had a face like a hearse or that it was like a funeral. The defendant said the girl was ill-tempered and quarrelled with his butler. She called him names. He had no experience of suffragettes, but this lady looked very like one. His Honor dismissed the case.

Playing With Live Cartridges

Reuben Rawlins, a boy living at Heath End, near Farnham, was seriously wounded by the explosion of a live cartridge. He and another lad were playing on Caesar's Camp, the training ground for Aldershot, when they found two live cartridges. Taking them home, they lighted a fire in a bucket and laid the cartridges on the top. As the fire did not burn very well one of the lads stooped down to blow it. Suddenly the cartridges exploded. Rawlins was so seriously injured about the head and face that he was taken to Trimmer's Cottage Hospital at Farnham in a precarious condition. The second lad escaped with slight injuries.

Not According to Fact

In his annual report to the Newport Education Committee Dr. H. R. Burpitt says that false information was attempted in many cases, notably as the child approached the leaving age, and was useful for household duties. Close co-ordination between the medical and attendance departments, however, invariably detected such cases. Still, there was often an apparent desire that speedy recovery should not take place in the cases of such children. "An illness such as ringworm is a stroke of fortune to their parents, because there is so much more time for work." One lad suffering in this way was too busy to attend the clinic for treatment, because he was delivering bread to the public. A couple of brothers, having contagious skin diseases, were purveying pastries.

Mason in the Pulpit

How a man passed as a curate and preached from the pulpit was described at Cardiganshire, when William Emlyn Jonts, aged about thirty, from Carmarthenshire, a mason, was charged with having obtained lodging from Thomas Thomas, and with stealing various articles of clothing from John Davies. In each case he represented himself to be a curate at Annanford, and gave the name of Harries. On a Sunday afternoon he conducted the service at Dihewyd Church. The sermon was based on the text, "The wages of sin." He was committed for trial.

Russian Proverbs

Characteristic Russian proverbs quoted in the "Petite République" are reproduced in the "Mail" as follows: Choose a woman with your ears, not your eyes. Heaven sends us walnuts, but does not crack them. The man capable of making a fortune in a year deserves to be hung twelve months earlier. You should not sow seeds if you are afraid of snarrows.

LOSS OF MEMORY

Glasgow Man Found Wandering in Chelsea

The Glasgow police were asked by the London authorities to trace the friends of a man who was found in King's Road, Chelsea, suffering from loss of memory. It was stated that he had just returned from the coast of Africa, and was on the way to his mother, who resided in the vicinity of Glasgow University. The man, about thirty-six years, was unable to give the address, and was detained at Chelsea Infirmary. He was well dressed and of gentlemanly appearance.

BIG STORES PLUNDERED

A Million Dollars Worth of Goods Taken From Counters in London

Shoplifting is fast becoming a serious problem to the retail merchants of London. It is considered a conservative estimate that the combined operations of professional and amateur shoplifters cost the big stores of the West-end alone an average of \$1,000,000 a year.

"That is the price the merchants of London have to pay for displaying their wares so attractively," said the manager of one large establishment. "But if they didn't display them, how much would they sell? It is a most serious problem, made additionally difficult because every arrest entails publicity, and no reputable establishment likes to have it become known that it is a frequent prey of the shoplifters. It might keep good customers away. We prefer, if possible, to keep the thieves away. This is comparatively easy with the amateur—usually a woman—who is caught committing her first offence. She readily promises never to enter the store again if she can escape the shame of arrest and trial. The great trouble is that these first offenders are always cropping up. I don't know how to account for this fact, unless it is that the swift advance of material civilization has resulted in warping the moral sense of right and wrong in populous centres.

"The plunder of the amateur is nearly always confined to the little luxuries and fineries of dress, such as dainty blouses, laces, ribbons, gloves, handkerchiefs, and silk stockings. It is only the professional who carries away whole bales of silk, jewellery, clocks, ornaments, books, and similar articles. The man or woman who can present to us a system that will effectually check shoplifting can earn a small fortune. So far we have tried every known means of safeguarding our wares, but without success. Every big store employs a large staff of competent and vigilant detectives, but there is something defective in the system—just what, we don't know. Meanwhile it is costing us a lot of money, between the salaries of the detectives and the plunder of the shoplifter."

STRIKE RIOT

A Lively Time at a Boot Factory in England

Owing to the introduction of outside labor during a strike at the boot factory of Messrs. Loake Brothers at Melbourne, England, a riot took place. The firm, who do not employ unionists, dismissed one man who joined the union and endeavored to persuade others to do so. Forty men handed in notices and Messrs. Loake imported five men. The others resented the introduction of such labor, and a crowd of 600 demonstrated outside the factory. Police reinforcements were hurried on to the scene, but were assailed with stones. The rioters, after smashing the factory windows, attacked the manager's house, wrecking the windows. The police made baton charges, dispersing the strikers.

CONFERENCE TEMPERANCE ANNIVERSARY

In the evening the Conference Temperance Anniversary was held. Mr. B. C. Howard presided and addresses were delivered by Dr. W. D. Lamblay, St. Henri, Montreal, and Mr. J. H. Roberts.

Dr. Lamblay referred to the note of optimism which had sounded throughout the Conference and which sounded none the less clearly on the question of temperance and moral reform. The signs of the times met with the approval of the people and numerous forces were coming to the aid on these questions, and on the question of abolition of child labor and other much needed reforms. If the scientist had found a food value in alcohol, why had not found it in other articles used for consumption? It was impossible to separate the food properties in alcohol from the evil properties. One eminent scientist had emphatically declared that alcohol taken internally struck at the highest organism of the human nature—the moral side—and robbed a man of self respect and self-control.

One argument used was that of personal liberty. The picture had been drawn of the dreadful outrage committed by prying into a man's private life and interfering with his conduct in the home. The indulgence

MOVING PICTURES IN CHURCH.

Amusement was a necessity and not a luxury. There was nothing inherently wrong in dramatic representation, but the commercialism of the theatre made vice profitable; he believed civic authorities must ultimately organize the people's amusements. If he were a Minister he would have moving picture shows in his church and make the Church the centre of the people's social life. They could make their devotional life like the Methodist Missions in London, Manchester, Liverpool and Edinburgh.

The industrial life of the people should be on the basis of co-operation and not competition. The one thing needed was organization and things socially needed should be socially owned. A Socialist should not be branded as an Atheist without inquiring into his teaching. Laymen should permit their ministers to hurl their thunderbolts at existing inequalities. In every church there ought to be a mobilization of the vote. Systemization was wanted at home similar to that followed in the foreign mission field. Several churches tried to cover the same ground in one department of social reform. Let each denomination have

IN FAVOUR OF LOCAL OPTION

PLEDGE MADE TO AID MOVEMENT TO CLOSE OPEN BARS.

Toronto, June 11.—Amid a scene of great enthusiasm in which over 500 men and women joined, with prolonged cheering and the waving of handkerchiefs, the Congregationalist body of Ontario, formally pledged itself to lend all possible aid to the movement for the abolition of the open bar.

It was Young People's night, and the final session of the Congregational, all of Ontario. Rev. E. D. Silcox, as convener of the temperance committee, presented his report. The report, adopted unanimously, was as follows:

"We desire to place on record our heartfelt appreciation of the work being carried out by the Dominion Alliance, which is the fighting force of the denominations; and we pledge ourselves to assist the Alliance in their noble endeavors to bring about local option and to banish the bar, thus to hasten the day when the white flag of prohibition shall wave in glorious triumph from end to end, from sea to sea, over our fair Dominion."

PENSION FOR TELEPHONE OPERATOR.

Regina, Sask., June 11.—A monthly pension of \$50 and an immediate donation of \$500 will be made by the city to Miss Robertson, telephone operator, who was so seriously injured in the cyclone in July, 1912, if it is doubtful if she will ever be able to sit up again. She has been to several specialists in the United States, and there is only a very slight chance of ultimate recovery.

CURIOSITY CAUSE OF DEATH.

Chatham, June 11.—Curiosity prompted Charles McAuley, the thirteen-year-old son of Peter McAuley of this city, to see what powder in a bottle would do when a firecracker was exploded in the neck of the bottle. Broken glass severed blood-vessels in his neck, and despite the best medical attention he died after a week of suffering.

BRITISH TRADE BOOMING.

London, June 11.—The May statement of the Board of Trade shows an increase of \$31,056,000 in imports and \$25,128,000 in exports. The principal increase in imports was in raw material and in exports in manufactured goods, of which cotton textiles gained \$5,000,000.

A ROMAN FARM

Remarkable Discovery by Excavating on the Dorset Border

Mr. Sumner, F.S.A., who has been excavating with the sanction of Lord Shaftesbury, the landlord, has discovered a Roman farm at Cranborne Chase, on the Dorset border. The farm, which was ninety-six acres in extent, was surrounded by a low earthen enclosure, while the buildings, consisting of a dwelling house, bake house, and granary, were in a quadrangle 150 feet by 80 feet, enclosed with a ditch. Among the remains were a quantity of corn, bones of horses and oxen, large number of fragments of New Forest, Samian, and other ware, including a perfect jug, pots, Purbeck marble vessels, spindle wheels, knife blades, and coins, from Gallienus to Constantine. Inside the ditch is a barrow belonging to the bronze age, and an urn with cyst and arrow-head.

PLOT AGAINST MONKS.
Milan, June 11.—Four Town Councilors of Somma Vesuviana, near Naples, were sent to prison for ten months and fined £20 each for entering into a conspiracy against the community of Franciscans. By means of forged and faked photographs they brought grave charges against the monks. Three women who were concerned in the plot were also fined and imprisoned.

HENRI BOURASSA ON ELECTIONS

Says That Cabinet Fears an Appeal to the Country

BELIEVES THAT GOVERNMENT WOULD BE DEFEATED ON THE NAVAL ISSUE.

Edmonton, June 11.—That in his opinion no general election would take place as the result of the Senate rejecting the naval bill was the statement made yesterday by Mr. Henri Bourassa, the Montreal Nationalist leader, who arrived in the city to take part in the French Language Society Convention, which opened last evening. Mr. Bourassa also stated he will make two public addresses.

Mr. Bourassa stated yesterday that the Borden Government were in a very awkward position. The majority of the Cabinet, he said, were convinced that if an appeal were made to the country on the naval bill they would be defeated. It was on that assumption that Mr. Bourassa passed his supposition that no general election would take place. He declined, however, to give any forecast of the probable political outcome, stating that that was a matter which it seemed to him futile to prophesy concerning. "I really cannot see how Mr. Borden is going to get out of the difficulty," said Mr. Bourassa. "His Cabinet will not allow an appeal to the country, and yet Mr. Borden has pledged himself to a general election, and, if he does not fulfil that pledge, only two deductions are possible, either that no emergency exists or that there is an emergency, Canada is not bound to come to the assistance of England."

WORLD'S Y. M. C. A. CONFERENCE

Representatives From all Countries in Session At Edinburgh

NEARLY 9,000 BRANCHES ESTABLISHED THROUGHOUT THE WORLD.

Edinburgh, Scotland, June 11.—(Special)—The opening in Edinburgh to-day of the quadrennial conference of the World's Alliance of Young Men's Christian Associations afforded a sight that would have gladdened the eyes of the late Sir George Williams were that staunch Christian worker alive to-day to view the striking evidence of the marvelous growth of the organization of which he was the founder.

At the opening of the Conference the call of the roll was answered by delegates representing all parts of the civilized world. Not only were Great Britain, the United States, Canada and Australia well represented, but virtually all of the countries of Europe, together with South Africa, the South American Republic of Brazil, and the Asiatic countries of Japan, China, India, Korea and Ceylon had delegates on hand.

The Conference will continue its sessions through the remainder of this week. The reports will show that the organization now numbers nearly 9,000 branches throughout the world of which nearly one-fourth are in the United States and Canada.

PRINCE ALBERT IS SICK.

Quebec, June 11.—H.R.H. Prince Albert is sick on board H.M.S. Cumberland, and has cancelled all engagements in this city for to-day. A notable gathering of Quebec society was to have met the Prince for the first time at a garden party at Spencerwood yesterday afternoon.

Yesterday Captain Smith sent one of his adjutants to the Marine Department Office to phone to the Lieutenant-Governor's aide-de-camp, Captain Pelletier, to advise him of the inability of the Prince to attend the afternoon function.

The Prince is on the sick list, and though it is said that he is only suffering from influenza, he will not be allowed to attend the tea dance organized at the Chateau Frontenac for to-day.

CATERPILLARS HOLD UP FREIGHT TRAIN

Rails Had to be Swept Clean Before Train Could Proceed

FARMERS REPORT THAT MUCH DAMAGE HAS BEEN DONE TO THE MAPLE TREES.

Sutton, June 11.—(Special)—The mixed train between Sutton and Drummondville was again stalled by caterpillars on Saturday night. The rails for many rods were literally covered by these crawling pests and the train was held up for half an hour while a force of trainmen went ahead and swept the rails.

Farmers coming into town on Tuesday report the continued ravages to the maple trees. They say early frosts killed the first leaves of the maples and after a while a new crop of leaves came and on these at the very top branches the worms are now feeding. It is hard to know what the final effect on the trees will be.

LINER IMPERATOR SAILS FOR NEW YORK

Enormous Crowd Watched Vessel When it Left Hamburg

TONNAGE IS 50,000 AND PROMENADE DECK IS QUARTER OF A MILE LONG.

Hamburg, June 11.—(Special)—The Hamburg-American Company's new liner Emperor sailed to-day on her maiden voyage to New York. An enormous crowd congregated at the dock and along the waterfront, and with loud cheers gave an enthusiastic "bon voyage" to the new vessel, which is a triumph of marine architecture, steamed gracefully out of the harbor, carrying a complement of more than 4,000 passengers, among whom were many well-known Americans. It is expected that under ordinary circumstances New York will be reached next Tuesday evening or Wednesday morning.

She has a gross tonnage of nearly 50,000 (or nearly 5,000 tons greater than the Olympic). There are eleven decks on the liner. The promenade deck is a quarter of a mile long, so long in fact that a person standing at one end could not recognize a person at the other end. River steamboats of average size could sail lengthwise through one of the giant funnels of the Emperor.

One of the novel features of the big vessel is a roomy swimming pool in a beautiful Pompeian hall. Among other luxuries with which the vessel has been fitted are a great entertainment hall two stories high, three electric elevators, a completely equipped gymnasium, a "cottage" cafe, a winter garden and a Ritz-Carlton restaurant. The main dining saloon is 300 feet long.

KING GEORGE DROPPED \$100,000

HEAVY LOSS DUE TO THE SLUMP IN CANADIAN PACIFIC STOCK.

New York, June 11.—A cable to the Tribune from London says: Heavy losses suffered by King George in the recent big slump of the stock market were the occasion for a prolonged audience which Sir George White, the King's private solicitor, had with the King the morning after Derby Day.

The consultation was to arrange for the realization of certain securities held in trust for the King by Lord Stamfordham and another member of the Household, and the Queen took part in the conference.

The King's losses are understood to have resulted from extensive operations undertaken on his behalf in Canadian Pacific. Last week that stock declined 14 points in the London market, and the King's loss is stated to be \$100,000.

Lord Revelstoke is the King's private financial adviser, but the operations in Canadian Pacific were undertaken contrary to that banker's advice.

M. C. JAMIESON SWEPT OVER RAPIDS

Further Particulars of Drowning of Young Bedford Man

FAILED TO GRASP STEEL CABLE WHEN CROSSING RIVER AND BOAT UPSET.

Further particulars have been received as to the drowning fatality at Cedar Rapids, when M. C. Jamieson of Bedford was one of the victims, mention of which was made in yesterday's Record. The despatch from Montreal says:

"Failing to grasp the steel cable which is stretched across the river at Cedar Rapids to enable boats to negotiate safely the swift current, two engineers working at the plant of the Cedar Rapids Power Company were swept to a terrible death in the surging waters, after a terrific fight for life, and, up to the present, their bodies have not been found."

"About two o'clock Monday afternoon, Milo Angel and Mr. M. C. Jamieson took a small boat with the intention of crossing from the mainland to one of the islands and they were warned by the man who had charge of the boats that they must grasp the steel cable crossing the river. They got too far down stream, missed the cable, and were swept into the rapids, their boat being capsized almost immediately. Thinking to catch the men, who at first struggled desperately, and to save them if they happened to negotiate the rapids, the authorities of the plant telephoned to Cascades Point and to Beauharnois for tugs and launches to set up steam to search. From Beauharnois a launch went out, and succeeded in recovering the men's boat in a badly battered condition, but long search all over the lower reaches of the river failed to discover the bodies. Autos belonging to some of the officials of the plant also raced along the river bank hoping to beat the boat which was being forced through the foaming rapids, but of the men they could find no trace nor could they see them as they proceeded down stream."

"Coroner McMahon was notified of the tragedy, and an inquest will be held when the bodies are recovered."

BOSTON & MAINE DIVIDEND PASSED

Action Taken by Board of Directors at an Adjourned Meeting

COMPANY HAS PAID DIVIDENDS FOR 73 SUCCESSIVE YEARS.

Boston, June 11.—(Special)—The directors of the Boston & Maine Railroad Company held a postponed meeting at the South Station yesterday afternoon, and passed the quarterly dividend on the common stock. Fourteen directors were present. Their action was expected, in view of the financial condition of the road, it being admitted that dividends were not earned.

For seventy-three successive years the company has paid dividends on its common stock, amounting to as high as 15 per cent one year, and 10 per cent for seven years. Two years ago it came down to four per cent, but could be held there no longer. From the date of its organization in 1835, the company has paid 183 cash dividends, amounting to about \$51,290,000, on its common stock.

In May the directors held their quarterly meeting when, under ordinary conditions, they should have acted on the dividend question, but they postponed action for a month and this was accepted generally as equivalent to passing the dividend, though not so stated definitely at the time.

For seventy-three successive years the company has paid dividends on its common stock, amounting to as high as 15 per cent one year, and 10 per cent for seven years. Two years ago it came down to four per cent, but could be held there no longer. SOCIETY ATTENDS NOAH'S ARK FAIR

Proceeds Will be Given to Aid a London Hospital

QUEEN ALEXANDRA IS PATRON OF THE FAIR AND MEMBERS OF THE NOBILITY ATTEND

London, June 11.—(Special)—There was a great outpouring of London society to-day for the opening of the Noah's Ark Fair in Albert Hall. The fair, which will continue two days, is given in aid of the London Hospital. Queen Alexandra is the patron of the fair and the Duchess of Marlborough, the Countess of Lonsdale and a number of other women in the highest ranks of the nobility are among the members of the committee.

The delighted throngs that wandered through the aisles of the big hall at the opening this afternoon afforded evidence that the efforts of the promoters to make the fair one of the "biggest and best" ever given in the metropolis had met with success. Novel and attractive features were to be encountered at every turn. Not the least attractive was the "American bar," where so-called American mixed drinks were dispensed to the thirsty. Lord Lonsdale presided as chief barkeeper and was assisted in making up the beverages by Prince Paul of Servia, Count Elsen and Prince Obolenski.

FLOATS OVER TITANIC.

Baltimore, Md., June 11.—Almost on the exact spot where the ill-fated Titanic foundered a little more than a year ago, the lookout of the North German Lloyd steamship Eisenach, which docked here yesterday with 1502 immigrants, sighted a barnacle-covered lifeboat. The derelict was sighted on the morning of June 4th, floating keel upward, and the officers of the Eisenach said that from its appearance it must have been at the mercy of the waves for at least 12 months.

Madrid, Spain, June 11.—The commercial treaty replacing the recently expired treaty between Spain and Japan, was ratified by the Senate yesterday. It expressly stipulates that Japanese may acquire land in Spain. The treaty already has been ratified by the Chamber of Deputies.

DWELLING AND BARN BURNED TO GROUND

Mr. E. Aldrich, Stanstead, Sustains Heavy Loss by Fire

FIRE IS SUPPOSED TO HAVE STARTED FROM DEFECTIVE CHIMNEY IN ATTIC.

Stanstead, June 11.—(Special)—The house and barn belonging to Mr. E. Aldrich were destroyed by fire yesterday. They were situated on the farm property which was lately occupied by Mr. Fred Worth, and purchased from Mr. C. H. Kathan.

The fire was first discovered in the attic and is supposed to have caught from a defective chimney. The buildings could not be saved, but the greater portion of the contents were saved out.

The loss will be quite heavy. Mr. and Mrs. Aldrich only moved into the place a few days ago, having been married a week ago Tuesday.

PRINCIPAL SMYTH HAD CLOSE CALL

Big Rock Missed His Head by Just a Few Inches

CRASHED INTO HIS ROOM FROM FOUNDATION OF NEW THEOLOGICAL COLLEGE.

Montreal, June 11.—Rev. James Smyth, LL.D., Principal of the Wesleyan Theological College, had a narrow escape from death yesterday, on the site of the new Theological College at the corner of University and Milton streets, where the old building is in course of demolition.

Just before noon the workmen were warned that the electric current was about to be applied to almost two pounds of dynamite embedded in the blast hole in the hard limestone, and they hastily rushed behind what shelter is afforded by the neighboring buildings, but the Principal, ignorant of the proximity of the charge, calmly stood by a window of his study, and continued a telephone conversation. For thirty seconds the men waited expectantly and were then alarmed to see a huge mass of rock being thrown through the window, showering glass on Principal Smyth, but luckily flying past him into the centre of the room.

Seen after the accident, Principal Smyth expressed his intention of leaving his residence immediately unless the blasting operations are delayed until he leaves for Ireland on Monday next. The window frame and sash were completely wrecked.

SOLVE FARM HELP PROBLEM

HALDIMAND BUREAU ORGANIZERS HAVE PLACED FORTY MEN.

Jarvis, June 11.—The Haldimand Farm Labor Bureau, with the assistance of the Ontario Immigration Department, has through its representative in the Old Country, Mr. L. Goodliff, personally selected and placed in this vicinity forty experienced farm hands, proving beyond a doubt the contention of the organizers of the scheme that the only way to solve the farm labor problem is to make a personal selection of the men required, and to conduct them to their new homes. With this end in view Messrs. G. L. Miller and Goodliff, both of Jarvis, canvassed the farmers, taking individual applications for help, and Mr. Goodliff was despatched to the Old Country on April 1, arriving back at Quebec last week, where he was met upon arrival by Mr. Miller, who looked after every want of the newcomers.
