FIRST PRIZE AT THE
Provincial Exhibition
OF 1875, OTTAWA.

First Prize, Bronze Medal & Diploma, Provincial Exhibition, Quebec, 1877.

The Safes I manufacture, justly considered at present as the best ever offered to the public combine all the qualities required as to strength and safety. In order to avoid moisture in the interior of the Safe, and offer the greatest possible resistance in case of fire, an airspace has been secured between the iron sheets which form the envelope or frame of the Safe.

The hinges are not of Cast, but Wrought Iron, resting on a solid base of Steel, with aperture in order to remove the doors in case they should in time require any repairs. This improvement gives an undoubted superiority over all other Safes.

These Safes are all they are represented to be, and a visit to my Factory will convince every thinking man of the truth of what I affirm.

I ALSO MANUFACTURE TO ORDER,

Iron Vault Linings, Burglar-Proof Vault Doors, Fire-Proof Doors.

Iron Shutters. Iron Doors for Public Buildings, Messengers' Chests and Deed Boxes. Cell Doors and Gratings, Jail, Safe, Bank and Store-Door Locks, Iron Girders and Iron Bridges, &c.

A large number of Second-hand Safes of different makes always on hand, which will be sold cheap.

Also Manufacturer of

STONECUTTERS' TOOLS,

ALSO AGENT FOR

H. B. WARREN & CO., SCALE MANUFACTURERS,

No. 763 Craig Street, West of Victoria Square.

Manufacturers of the following Scales :

HAY, COAL, RAILROAD DEPOT, PORTABLE PLATFORM, UNION,
GROCERS, BEAM AND STAND, EVEN BALANCE, AND
BUTCHERS. Also MANUFACTURERS OF
WARREN'S PATENT ICE CUT-
TER OR PICK.

There is not an article of Manufacture that should be purchased with more care than a scale. Many persons are not aware of the delicate construction of a scale, and think to save money by purchasing where they can get the cheapest article. The idea is a delusion. You save in first cost and lose continually, through inaccurate weighing, more than the price of a first-class article. There is another class of persons who appreciate a good article, but are under the erroneous impression that all Canadian-made scales are of the cheap and worthless class. We are aware that there are a great many worthless scales being sold, but this is no reason for condemning all Canadian makes. There are exceptions, and we wish it distinctly understood that we make no pretence of making cheap scales, nor do we solicit the trade of those wanting cheap work. It has always been our aim to make the best work and sell at prices that will authorize our employing the most skilled labor, use the best material and use the most approved machinery in their construction. We have, at great expense, constructed tools and machinery especially adapted to the work, and can supply the Public with an article equal to the best American makes, at from 20 to 25 per cent less in price. We are enabled to do so, not through any cheapening of work, but through the duty which they have to pay to enter their scales. We guarantee our work as represented or no sale. Price lists supplied on application.

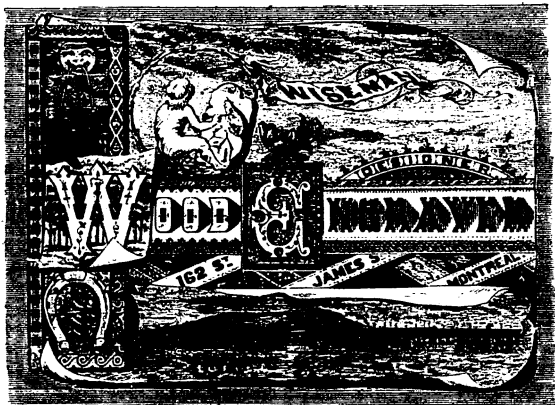

WARREN'S PATENT ICE CUTTER

Is an article which no family can afford to be without. It has been said by many who have used them that they would not be without one for five dollars. With it you can cut just what you want without the waste usual in other ice picks. The trade supplied.

THE PUBLISHERS have much pleasure in presenting the **MONTREAL DIRECTORY** for 1881-82, and to acknowledge the hearty and liberal support which has been accorded to them in the publication of this work. It has been their earnest endeavor to make it as complete and reliable as possible in all departments. Forty men have been employed in taking the names of the citizens, and their work was subsequently checked from door to door. To some this repetition may have proved annoying, but in no other way could correctness be secured.

The Street Directory will be found very full and reliable.

The Miscellaneous information has been carefully revised to date, and will be found valuable and interesting.

Next year it is the intention of the Publishers to print the **DIRECTORY** from new type, and in a new and improved form.
