

MYSTERIOUS DISAPPEARANCE OF W. F. POPE; BLOOD STAINED HAT AND COAT ARE FOUND.

Review of Circumstances up to Date—Search for Clues—Detectives
Now at Work—Record Representative on Scene
of Supposed Tragedy.

FACTS.
Left home, Bromptonville 7.50 p.m.
Horse found, Sherbrooke 9.30 p.m.
Horse bleeding from cut in leg.
Blood-stained hat, coat and stick
of wood found.

Indications of struggle in snow
miles from Bromptonville.

Had taken active part in election
contest, but apparently had no en-
emies.

Not known how much money he had
in evening.

Did not reach Rioux's Camp, the
destination he gave when leaving
Bromptonville.

Circumstances as known to date
permit of the following theories relative
to the disappearance of Mr. W. F.
Pope, of Bromptonville.

1. Murder. Attacked by person
or persons unknown. Object robbery
or revenge, for some bitterness en-
gendered during the election contest.
Body hidden somewhere along the
road. If this theory is correct, the
assailant must have known of Mr.
Pope's intended trip and been await-
ing him just outside the village, as
highway men would not be lingering
on the road for a chance victim
with the temperature 20 below zero.

2. Assault for robbery or revenge
and the carrying off of the injured
man in order to delay discovery.

3. Disappearance planned by Mr.
Pope himself. In order to accept this
theory, it would be necessary to as-
sume that the blood on clothes found
were from the horse which had been
purposely wounded for this purpose.
This of course can be easily deter-
mined by analysis.

Efforts are being made to discover
facts in support of these theories.

**DETECTIVE MCKASKILL ON THE
SCENE.**

Bromptonville, Jan. 18.—(Special)—
Detective McKaskill arrived in
Bromptonville on the 11 o'clock
train and will investigate the dis-
appearance of Mr. W. F. Pope.

There were few material develop-
ments this morning. Search along
the road and on the side road, where
tracks were reported last night to
have been discovered, have thus far
resulted in nothing. Further search
parties have been organized and the
roadside will be carefully examined
in all directions.

**MANY BELIEVE HIM STILL
ALIVE.**

The opinion is gaining ground that
Mr. Pope is still alive and that the
explanation of his disappearance will
have to be found elsewhere than in
the murder theory.

The authorities will carefully sift
all the circumstances surrounding the
affair, and more definite conclusions
will very likely be forthcoming before
very long.

As previously mentioned, a clue was
thought to be had when Mr. A. Auger
brought in word that his son had
seen blood on the blind road leading
off the main road. A party went
out late last evening and made a
thorough search, but nothing result-
ed.

This morning some four or five
different parties started out to make
a thorough examination of the road
between where the tragedy is sup-
posed to have taken place and Sher-
brooke. Every track leading from
the road into the fields or woods is
followed. When this is completed
the friends will be satisfied that the
body is not between these two points.
For the purpose of making doubly
sure search parties have also gone
into the woods in the opposite direc-
tion.

The missing man weighed about
190 pounds, and that it would have
been impossible for one or even two
men to carry him any distance. If
he was carried from the scene of the
supposed tragedy he must have been
carried in a sleigh.

It is said that he was only wearing
his ordinary suit underneath the fur
coat.

The whole thing is, so far, wrapped
in mystery. It is said by those who
knew him that he was all right, fi-
nancially and that there was no rea-

son for him to have gone away. He
did a large business among the far-
mers in buying hay, which he shipped
from different stations to Boston,
Mass.

Late last evening it was thought
well, owing to various stories that
were going around, to investigate the
proposed journey to Rioux's camp.

There were rumors that certain
threats had been made. To settle
the question a party went out to the
camp. They interviewed the various
employees and were satisfied that
there was nothing to the reports as
to threats.

Now that the first excitement has
somewhat subsided, the more level
headed are getting down to hard
facts.

Monday night it was clear moon-
light. Could it have been possible
that a strong man, such as W. F.
Pope was, could have been taken by
surprise. It would take more than
one man to overpower him.

Then again, was it possible that
such a tragedy would not have been
witnessed. If not at the actual as-
sault, but later when the body was
being disposed of. Had it been any
ordinary night it is possible that
this could have been done. As pre-
viously stated there was an election
going on in the village that evening.

Great interest was centered in the
contest, not only by the villagers but
also by those in the surrounding
district. There were many teams
coming and going that evening over
this road to hear the result of the
vote. Had there been anything out
of the ordinary it surely would have
been noticed.

If the murder theory is not estab-
lished Mr. W. F. Pope took a sensa-
tional way of getting away.

Chief Detective McKaskill arrived
on the noon train and in conjunction
with High Constable Moe, of Sher-
brooke started in to make a thorough
investigation as to the mystery.

That W. F. Pope intended going to
Boston is borne out by the fact that
his brother, Mr. H. Pope, of Rich-
mond, arrived in Bromptonville to
take care of the business, while the
former went for a few days to Bos-
ton.

A portion of the blood taken from
the coat was sent to Montreal this
morning, where it will be examined
to find out whether the blood is hu-
man or not.

REVIEW OF CIRCUMSTANCES.
(Staff Correspondence)

Bromptonville, Jan. 18.—Is W. F.
Pope, merchant, of this village, dead?
Did he meet his end at the hands of
at present an unknown assassin or
assassins? The majority of the peo-
ple of the village say yes, and point
to the fact that his blood-stained hat
and coat were found at a spot where
the indications in the snow about
half a mile from the village gave evi-
dence of a struggle.

**HIGH CONSTABLE INVESTI-
GATES.**

High Constable Moe, of Sherbrooke,
was notified of the affair yesterday
and came down on the afternoon
train, and immediately proceeded to
investigate the situation. The Re-
cord representative accompanied the
High Constable.

**CIRCUMSTANCES LEADING UP
TO DISAPPEARANCE.**

There were many theories advanced.
Every person that was spoken to had
a theory. Probably the better way
to give the circumstances is to give
in detail what the Record representa-
tive learned on investigating the
case. Some particulars were given
in yesterday's Record of the finding
of a horse and cutter on Windsor
street, East Sherbrooke, on Monday
evening, and how that later on these
were identified as belonging to W. F.
Pope, of Bromptonville.

**TOOK ACTIVE PART IN ELEC-
TION.**

To start at the beginning it may
be stated that there was a hot time
in Bromptonville on Monday evening
the election of a mayor for this little
burg. The missing man took an
active part in the candidature of the
defeated candidate, Mr. F. J. Alger.
He was an enthusiastic worker. In
fact, he was the leading spirit on this
side of the fight. He was out and
in the houses of various electors and
when he met a worker on the other

side he greeted him with a jocular
remark as to the result.

REMARK A LETTER—WAS IT A
DECOY?

During the evening he received a
letter, and on referring to it he made
the remark that he had to go to
Rioux's mill, about five miles dis-
tant. At about half-past seven o'-
clock he told one of his employees
to hitch the horse to the sleigh, and
as near as can be learned he started
from the village about twenty min-
utes to eight o'clock. Before leaving
he told one of his assistants not to
close up until he returned, which
would be about ten o'clock.

MESSAGE ABOUT THE HORSE.

Nothing more was seen or heard of
him by his friends. About half-past
nine o'clock a telephone message was
received at the hotel in Brompton-
ville enquiring if anyone had lost a
horse, as one had been found in East
Sherbrooke, and it was supposed to
have come from that place. The an-
swer returned was that nothing was
known of any runaway from the vil-
lage.

BROTHER UNEASY ABOUT HIM.

In the meantime Mr. Pope's bro-
ther, who is a trader in Richmond,
and who had arrived in Bromptonville
on Monday to pass the day and
night, began to feel a little uneasy,
but thought that as it was a very
cold night he might have probably
stayed over for the night at the place
he called at.

When the horse and sleigh at Sher-
brooke was identified as belonging to
W. F. Pope yesterday morning it was
thought that probably he had gone
on some trip, and having given the
outfit to some friend to take home,
it had run away.

SEARCH BEGUN.

As the forenoon wore on and no
word was received from the missing
man, the brother and friends thought
it but right to make some enquiries.
Mr. Pope, of Richmond, Gilbert and
others from Bromptonville started
out over the road the missing man
would likely take.

HAD NOT BEEN AT MILL.

Different roads were taken and the
brother proceeded to Rioux's mill
and found that he had not been there.
Mr. Gilbert was driving along what
is known as the Stoke road, and used
by teams returning light, the main
road being a little lower down, when
he saw appearances on the snow
which attracted his attention.

INDICATIONS OF A STRUGGLE.

He stopped and investigated. About
fifteen feet from the road there was
every indication that a struggle of
some sort had taken place.

SPEEDY JUSTICE FOR COAT THIEF.

Stole Fur Lined Coat Valued at
\$40 at East Angus.

WAS GIVEN SIX MONTHS IN JAIL
BY JUDGE MULVANA THIS
MORNING.

Dame Lumina Vorville laid a com-
plaint for assault and battery against
her husband, Henri Lavoie. The case
was heard before Judge Mulvana. Sev-
eral complaints of a similar nature
had been made before but the matter
had always been patched up. The
Court condemned the defendant to
pay a fine of five dollars and costs
or to go to jail for thirty days and
in addition to give his personal bond
to keep the peace for the next twelve
months or in default to thirty days
additional in jail. The complainant
is the mother of six children all un-
der ten years of age. It being appar-
ent from the evidence that on ac-
count of the state of feeling now ex-
isting between the parties they could
not get along together for the pres-
ent, the defendant authorized his em-
ployer to pay over to his wife and
children the balance of his wages af-
ter paying him sufficient for his
maintenance, and the parties agreed
to live separately for the present.

STOLE PIECE OF HARNESS.

The preliminary trial of Auguste
Joly for stealing a pair of reins and
a pair of tugs from a harness in the
stable of Henry Joly, a trader in
East Sherbrooke, was held and the
accused was committed for trial.

The driving reins were recovered but
the tugs were not found.

**HAD BEEN PREVIOUSLY CON-
VICTED.**

The King vs. Auguste Joly, the ac-
cused asked for a speedy trial and
pleaded guilty. He also pleaded guilty
to a previous conviction about a year
ago of stealing certain articles from
the Sisters of the Sacred Heart Hos-
pital. As the value of the articles
stolen was small he was sentenced to
four months' hard labor in the com-
mon jail.

SPEEDY JUSTICE.

Joseph Desmarais of Quebec stole
yesterday afternoon from Willard's
Hotel in East Angus a fur lined over-
coat belonging to A. K. Johnson, val-
ued at \$40. He sold it at half past
two to Telegraphic Champany, of
East Angus, for \$5 and took a
freight train to Sherbrooke, where he
was arrested about four o'clock by
the police and brought before Judge
Mulvana at nine o'clock this morn-
ing. Proof being made of the fore-
going facts, he was committed for
trial. He subsequently asked for a
speedy trial and pleaded guilty and
was sentenced to six months at hard
labor in the common jail.

The coat was returned to the own-
er, and the balance of the money in
his possession was returned to Cham-
pigny.

**PETITIONS FOR
NEW RAILWAYS.**

The Houle Brothers Will Be Given
New and Third Trial.

REVENUE FROM MONTREAL LIQ-
UOR LICENSES AMOUNTED
TO \$256,459 LAST YEAR.

Quebec, Jan. 18.—(Special)—Peti-
tions were presented to the House
yesterday afternoon for the construc-
tion of two railways affecting Mon-
treal. One is entitled the Montreal
and Northern Colonization Railway,
and is to run from a point from
Montreal northwest as far as the
Government shall see fit, or as may
be determined upon by engineers. The
capital is declared to be \$10,000,000.
Among the extensive powers asked
for by the company, such as the
building of bridges, and the develop-
ment of water power is to construct
and maintain an underground rail-
way in the city of Montreal.

Messrs. Aime Geoffrion and Victor
Cusson also petition to be authorized
to construct a railway passing
through the parishes of Laprairie,
Beauharnois, Huntingdon and Chat-
eauvau, from a point in the parish
of Chateaufort, on the C.P.R. line,
and going southeast along the line
Lawrence along the boundary line be-
tween Canada and the United States,
to Lake St. Francis.

This company also asks for exten-
sive powers to carry out its project.
The sitting lasted less than an hour
the adjournment being agreed upon
to permit the members to attend the
meeting of the Conservation Com-
mission, which assembled in the Legisla-
tive Council chambers.

QUESTIONS ANSWERED.

Reply to many questions were
laid before the House, Premier Gou-
ard said the Houle brothers would have
their third trial, and as regards the
Michael case, the detectives were
still working on it.

The cost of the survey party sent
to the Chibougamou region was
declared by Hon. Mr. Devlin to be \$18,
661.

The amount the Government col-
lected during the past fiscal year
from licenses or otherwise from the
sale of intoxicating liquors in Mon-
treal amounted to \$526,459, accord-
ing to the information laid before
the House by the provincial treas-
urer. The House was further informed
that the cost of the Montreal jail to
date was \$1,586,398, and that it was
impossible to say at present what
the exact total cost would be, as re-
gards furnishings, etc.

ACTIVE SUPPORT FOR MR. DELORME.

Enthusiastic Demand For Labor
Representative in Council.

SPEAKERS AT LABOR MEETING
ALSO CALL FOR RETURN OF
ALDERMAN McMANAMY.

Another large meeting was held last
night at the corner of Aberdeen and
Alexander streets, in the interests of
Mr. Delorme, the Labor candidate.
Mr. T. T. Delisle presided. Among
those who took part were Messrs. A.
S. Dunsmore, J. O. Gauthier, C. B.
Baehand, M. Echenberg, Fred Blais,
Jack Williams, Pierre Fortin, Mc-
Gregor, L. Forest and Dery.

The first speaker, Mr. A. S. Duns-
more, stated that there was no reason
why the Labor party should not
have a representative in the City
Council from every ward. Last year
they had a chance to do this but let
it pass. Eighty per cent. of the vot-
ers being laboring men he saw no
reason why they should not have re-
presentation. Speaking of the bene-
fits they would derive from such re-
presentation, the speaker stated that
the contract for the Drop Off Power
would not have gone to an outside
firm if the Labor party was properly
represented. He saw no reason why
an outside firm should be given the
opportunity of making a lot of money
out of a job like the one above men-
tioned.

Mr. Dunsmore strongly urged those
present to vote for Mr. Delorme so
that they would have a say in the
spending of the money. Judging from
his remarks he evidently did not en-
dorse the action of the Council in
voting \$2000 to the Greater Sher-
brooke movement without consulting
the people. He referred to the Saw
Mill Bridge and stated that money
had been burned in this work, owing
to the absence of Labor or practical
men. By electing Mr. Delorme the
Labor party was getting in the thick
edge of the wedge, and later on they
would return other members. He
urged all the laborers to vote for De-
lorme and Ald. McManamy. Mr.
Dunsmore concluded by reciting the
well known patriotic poem:

"Breathes there a man with soul
so dead," etc.

Mr. J. O. Gauthier followed Mr.
Dunsmore, speaking in French. He
emphatically denied the rumor that
the Labor party opposed Ald. Mc-
Manamy. He stated it was absolute-
ly false and asked every laboring man
to contradict it when they heard such
a statement. If the law permitted,
Ald. McManamy would be returned
unanimously.

Mr. McGregor referred to the ab-
sence of Labor representatives in the
City Council as a standing disgrace.
He contended that there was too
much secret work going on in the
Council and it was necessary to have
a man there to stir matters up. He
also hinted at crooked work in con-
nection with the Saw Mill Bridge and
in closing made a strong appeal for
the election of Mr. Delorme and the
return of Ald. McManamy.

Messrs. Fred Blais, J. Williams and
P. Fortin spoke in favor of the can-
didate and also urged the re-election
of Ald. McManamy, whom they said
was as good as a Labor representa-
tive. Mr. Williams suggested that
when Mr. Delorme got into the Coun-
cil he would have stipulated in every
large contract that Sherbrooke men
only could be employed on the job
and that at least \$1.75 per day
should be paid the laborers.

Messrs. C. E. Baehand, L. Forest,
and Dery also spoke in favor of Mr.
Delorme, asking that he be sent to
the Council with a large majority.

By a resolution passed on Monday
night it was decided that the re-elec-
tion of Ald. McManamy would be
supported by the Labor party. The
candidate, Mr. Delorme, stated that
he would vote for him.

Mr. Delorme was present at the
meeting, and again expressed his in-
tention to work faithfully in the
Council for the interests of his electors.

us to the company.

LIVELY RUNAWAY AT HATLEY.

Hatley, Jan. 18.—(Special)—Hat-
ley was the scene of a lively runaway
in which Mr. Arthur Whitcomb and
his "Black Beauty" figured promi-
nently. As Mr. Whitcomb was driv-
ing home from Massawippi the horse
showed unmistakable signs of speed,
but quieted down somewhat upon as-
cending the corner at Main street the ani-
mal suddenly bolted, throwing Mr.
Whitcomb out of the sleigh, and
taking the turn at Meadow street,
continued on its mad career until it
reached the Carr schoolhouse in
Compton, where it fell and was se-
cured. Efforts were made along the
road to stop the runaway, but with-
out avail. Mr. Harden, who was
returning to his home in the Bowen
neighborhood, was struck by the fly-
ing animal and thrown from his rig,
and the back of his head somewhat
damaged. Mr. Whitcomb was in-
jured, but the horse received a few
cuts and scratches, and one shaft of
the sleigh was broken.

CONSIDERING WESTERN OFFER.
Richmond, Jan. 18.—(Special)—
Major R. J. Hewton, Inspector of
Schools, who has lately resigned from
that position, has during the past
few months been the recipient of sev-
eral advantageous offers in the field
of literature and in that of finance.
He has not quite made up his mind
which of these he will eventually ac-
cept; but as soon as relieved from
his duties here he will probably pay
a visit to Regina, Sask., to see how
a proposal made to him from that
city looks, when closely viewed.

a better view of the track while pass-
ing under the first overhead bridge
west of Charlemont, Mass. His head
came in contact with a bridge girder,
inflicting a serious scalp wound,
and probably fracturing the back of
the skull. He was conveyed to the
North Adams Hospital, where he

READ this OPINION Of the Largest Jack Manufacturer in the Whole World About Zutoo Tablets

"I have been a sufferer from headache since childhood and have used all, or nearly all, of the so-called 'cures' on the market. Some months since my attention was called to your Zutoo Tablets and I have been using them ever since with the most gratifying results. I find they cure a 'sick' or 'nervous' headache in a few minutes and leave no bad effect. My family use them whenever needed with equally good results. I have frequently given them to friends who were suffering from headache and they never failed to give quick relief. I find them a good remedy for 'sour' stomach as well as headache. I always carry them in my grip on the road and would not be without them at any cost." A. O. NORTON, 286 Congress, St. Boston.

Family Cured of Eczema

By Cuticura Remedies

"The Cuticura treatment has absolutely cured me and family of eczema which I, my wife and two-year-old child had for eight months. It started with small pimples on the head of my child which gradually broke out in sores, and it was not long before I and my wife got the same. Our heads were one mass of sores, we could not sleep and the itching was terrible. We suffered for eight months. We tried different kinds of ointments and medicine but it did us no good and soon it began to break out on our bodies until a friend who had the same trouble told me about Cuticura Soap, Cuticura Ointment and Cuticura Resolvent, and I was surprised. After the first few days our heads began to heal and in two months we were absolutely cured of this terrible eczema."

(Signed) EUGENE POTTHOFF,

SHEFFORD COUNTY AGRICULTURAL SOCIETY.

Annual Meeting is Being Held at Waterloo To-Day.

BEST FINANCIAL YEAR SOCIETY HAS HAD IN MANY YEARS.

Waterloo, Jan. 18.—(Special)—The annual meeting of the Shefford County Agricultural Association is being held here to-day. There is a good attendance of directors and members.

The following is the Financial Report of the Secretary—Treasurer of the Shefford County Agricultural Society, for the past year of 1910:

RECEIPTS.

Membership fees \$ 706.50
Entry fees (Farm competition) 15.25
Other receipts 274.07
Gate receipts 739.87
Government grant 640.70

\$2376.39

Bal. due Sec-Treas 9.78
Total \$2386.17

EXPENDITURES.

Premiums on farms and crops \$ 690.50
Premiums at Fall Exhibition 856.90
Expenses of judging 87.00
Repairs on buildings, printing and advertising 491.23
Incidental expenses 160.54
Secretary's salary 100.00

\$2386.17

Many improvements were made for the Fall Exhibition of 1910; aside from repairs to the sheds and stables, the grand stand was extended 25 feet, and a capacious band stand was erected. This supplies a long felt need as the grand stand was from year to year becoming less proficient to seat the crowds that mass there.

The Secretary-Treasurer states that it was the best year, financially, that the Society has had for several seasons; the entries in all departments were large, and the live stock exhibit eclipsed by far that of former years.

The plan of three days' fair, instead of two, as formerly, proved a success, and will in all probability be tried again this year. The gate receipts were small on the first day, which was to be expected, as there were few visitors, if any, on that day, it being mostly confined to the judging and preparation for the next days.

On the last two days, however, the gate receipts were away ahead of the previous year and the results were, indeed, encouraging.

BROME FAIR DIRECTORS.

ANNUAL MEETING OF DIRECTORS IS BEING HELD TODAY.

Brome, Jan. 18.—The annual meeting of the directors of the Brome County Agricultural Society is being held here today. The early part of the session was taken up with the revision of the year's business, after which the statement will be submitted to the public. The meeting will then be open to the election of directors for the coming year.

Bury, Jan. 18.—(Special)—Miss Mildred Locke, eldest daughter of Mr. and Mrs. Charles Locke, died at her home here Monday evening, after a brief illness of pneumonia.

MR. AND MRS. CALEB TICEHURST, STANSTEAD TOWNSHIP.

In the death of Mr. and Mrs. Ticehurst, Stanstead Township has lost two of its most respected citizens.

Mrs. Ticehurst, who was a devoted wife and mother, a noble Christian woman, capable of giving valuable advice to her family, died on the 1st of January 1911. She was born in April 1833. She was a great sufferer for a long time, but was willing to abide the Lord's will and patiently endured the pain to the end.

Caleb Ticehurst was born in England in 1830, and died April 10, 1910. He came to Stanstead with his parents when a lad of about ten years of age, locating at what is now known as Ticehurst Corner. In 1856 he married Rosamond, daughter of Deacon Israel Brainerd and they began their married life without any capital, save good staunch moral characters. They reared a family of six children, and by industry, frugality and good management they accumulated a good property and left a competence to their children. They both were the best of neighbors, kind and generous, and set a good example to the rising generation of what young people can do starting without means in building up a good home and living upright Christian lives. They took Christ at his word when he said: "Because I live ye shall live also," and "In my father's house are many mansions."

Mr. J. S. Tetraault, N.P., Vice-President of the Union St. Joseph of Canada, returned last week from Ottawa, where he attended the regular monthly meeting of the Union, and gave some interesting details of an enterprise recently founded by the Society. Last year, at a special meeting, it was decided to raise a yearly sum, to be called the "Cent Educational Fund," to which each member of this large mutual benefit society should pay a cent a month, the same to be used for the education of the children of deceased members. It is administered and indexed by a committee composed of the officers of the Union St. Joseph of Canada, and has now attained such proportions that it is sufficient for the education of four orphan children. The first one to benefit by the educational fund is a lad named Jehoshaphat Alclair, a full orphan, whose father died a year ago, leaving four children with no resources, except the insurance policy of the union. The boy, who is fourteen years of age, and has already had one year of the classical course, has entered the College of the Sacred Heart at Ottawa, and will remain there 'till he graduates, when he will be equipped for his life work.

THE TIME, THE PLACE, AND THE GIRL.

The above play will be presented at Clement Theatre this evening. A local citizen who has seen the play speaks very highly of it.

SHERBROOKE W. C. T. U.

The regular monthly meeting of the Sherbrooke W.C.T.U. was held on Friday last at the Y.W.C.A. rooms. The attendance was very satisfactory. The meeting was opened by Mrs. Jones, who presided, with an appropriate Scripture reading and prayer, after which the routine business was disposed of. It was decided to request the Dominion W.C.T.U. Executive to engage Mrs. Livingston, of Rhode Island, as speaker at the Dominion Convention which is to be held this fall in Sherbrooke, an important event in the history of the Union in the Townships. A feature of the afternoon was a paper read by one of the members, entitled, "The Parents' Responsibility," dealing with the duty of the father and mother to the child and touching upon the great questions of heredity, environment and atmosphere. "Heredity," the writer said, "strongly influences the children's unfolding as they emerge from the earlier and dependent stage to the plane of responsibility and self-management, but environment and atmosphere have even more influence in the making of a man or woman. Given a house where love is the fulfilling of the law, and children are encompassed with affection from the outset, and there will be little danger of subsequent disappointment in the children of that home."

The paper was heard with deep attention and interest, and at its close a vote of thanks was accorded to the writer.

The flower collection was taken up and the meeting closed.

Portion of Toronto Bound Train
Rolled Down Embankment

FOUR PERSONS ON WAY TO JAIL
RENDERED VALUABLE ASSISTANCE.

Toronto, Jan. 18.—A score of persons were hurt, none seriously, in a wreck yesterday afternoon on the Canadian Pacific Railway's Owen Sound branch, between Mono Road and Bolton. The baggage car and two passenger coaches of the south-bound express, due in Toronto at 3.30 left the rails, ran down a low embankment and turned over on the sides. The train was running about thirty miles an hour and the accident happened on a curve. The cause is believed to be a loose fish plate, which allowed the rails to spread. A feature of the accident was the brave conduct of four prisoners who were being brought from Owen Sound to the Central Prison at Toronto. When the derailment occurred, the constable in charge released the prisoners from their manacles, and they worked nobly in rescuing the imprisoned passengers. One of them crawled into a coach and with snow carried by his comrades extinguished the fire in the stove, which threatened to ignite the wreck. When all the passengers were safe, the prisoners submitted themselves to the custody of the constable, who allowed them to travel the remainder of the journey without shackling them. All the passengers signed a petition to the attorney-general of Ontario, asking him to take cognizance of the brave conduct of the prisoners. The passengers were brought to Toronto on the express from Sudbury, reaching here at 10.30 p.m.

DETECTIVES STILL SEARCHING
FOR DR. BEATTIE NESBITT.

Toronto, January 18.—Two important meetings were held yesterday in connection with the Farmers' Bank failure. In the morning the creditors assembled and after hearing Curator Clarkson's statement of the bank's affairs nominated Mr. Clarkson as permanent liquidator. A petition was forwarded to the Dominion Government praying for a royal commission to investigate the bank's collapse, and a resolution was passed approving of Government inspection of all banks. Burge Gundy, a Halton county farmer, who is one of the directors, declared that the Keeley Mine deal was put through by Travers without his knowledge.

In the course of his statement Mr. Clarkson expressed his opinion that the directors had been unfit to serve because of their inexperience.

There were about 75 creditors present, but many of them represented whole neighborhoods.

In addition to the warrant for Dr. Beattie Nesbitt, warrants are also out for John Lindsay, who was associated with Travers in securing subscriptions for the bank stock, and for Wishart, the New York man who undertook to raise American and English capital in the Keeley Mine, but who failed to do so, thus tempting Travers to use the bank's funds for the purpose of getting control of the mine. Wishart holds \$200,000 of the mine's stock, although it is said he put up little or no money into the scheme.

Dr. Nesbitt's whereabouts are yet unknown. It is reported that the detectives' trip to Muskoka was a "wild goose chase," and that the fugitive was not there at all last week. He is reported to have been seen in Toronto on Saturday and later at Buffalo.

special feature of the occasion was the presentation to Mr. V. West, of the set of brushes and a gold ring. These gifts were presented by the Incumbent, on behalf of St. John's congregation, as a token of their appreciation of much faithful work done by Mr. West during the past two or three years for the Church. Mr. West has been treasurer of the Church for about two years and has also always been ready to help in every good work. We regret to say that the reason for the presentation at this time, is because Mr. West is about to leave the parish for other fields. He will be much missed, not only in connection with the Church, but in social circles also. His many friends wish him success.

Peking, Jan. 18.—The deaths from bubonic plague at Chin Wang Tao and other places inside the Great Wall are causing the officials to prepare against the further approach of the epidemic. The doctors state that the wall would have been an effective barrier had it been quarantined in time.

The legations are gathering supplies for a siege and endeavoring to sever communications with all plague spots. The Chinese are earnestly co-operating with others in the affected districts and retaining only a nominal control of the situation. They requested the Russian authorities to stop the trains out at Harbin, but the Russians refused to do so.

It is planned to close the gates of the legation quarter should the disease reach Peking. The European residents, with the exception of the missionaries, are arranging to come inside the legation limits. The missionaries will remain within their own compounds.

LADIES NIGHT AT EAST SHERBROOKE CLUB.

"Ladies Night" of the East Sherbrooke Snowshoe Club, was an event much looked forward to by the members, and their anticipations were not disappointed, for the outing was a complete success.

As the party, some fifty in number, assembled in their gay costumes and tuxedos, at Murray's Corner, all remarked the beauty of the night, for although extremely cold, the sky was cloudless, and a brilliant full moon was shining.

Mr. Reggie Price, the Captain, led the trampers over the hills on the east side of the river, and through the park, and after an hour and a half of active exercise the gay party arrived at the club house, where all was in readiness. Music, cards, dancing.

ing and the serving of substantial and acceptable refreshments were the pleasures of the evening, and at a late hour the homeward way was taken regretfully.

Y. W. C. A. SHOWSHEE TRAMP.

The Young Women's Christian Association Snowshoe tramp last evening, proved a very social and enjoyable affair. The weather was by no means mild, but the bracing atmosphere seemed to cheer the spirits of the party, who made the woods echo with laughter and merriment.

Dr. S. J. Bloomfield, their captain, led them on and on, over some of Sherbrooke's most picturesque hills, and dales, and about half past nine the trampers wended their way back to the Y. W. C. A. parlors, where the fragrant odor of baked beans and coffee floating in the air still further added to their delight.

Shortly after arriving the party adjourned to the dining room, where the tables were arranged with delicious cakes, doughnuts, etc., and hot baked beans and coffee were served by some of the young ladies.

The party dispersed at an early hour, for their several homes, having spent a pleasant evening. The superintendent and ladies, wish to thank all who helped make the evening a success, especially Dr. Bloomfield, the leader, and Mr. and Mrs. Ernest Jones for chaperoning, and hope before the winter season passes away to have the pleasure of their company again.

CONSERVATION WAS DISCUSSED.

Hon. Clifford Sifton Reviewed Work Done Last Year.

ONE OF MOST IMPORTANT QUESTIONS WAS THAT OF DAMMING OF ST. LAWRENCE RIVER.

Quebec, Jan. 18.—Hon. Clifford Sifton presided over the morning session of the Conservation Commission at the Chateau Frontenac, a large number of delegates being in attendance.

The opening address was made by Hon. Clifford Sifton, who gave a brief review of the work of the Commission of Conservation during the past year. Mr. Sifton said in part:

One of the most important propositions which the commission has had to deal with was the proposition to dam the St. Lawrence River. The project on a variety of grounds set forth in a memorial presented to the International Waterways Commission. It is satisfactory to know that the result of the opposition manifested by other public bodies as well as our commission, has been to prevent the project from being authorized, and from present appearances, it seems unlikely that the persons seeking the authority will be empowered by the United States Congress to carry out their plans without the consent of the Canadian Government. If this be correct, it is quite clear that nothing will be done until full opportunity is given for a thorough discussion of the project.

Opposition was further given to a bill to incorporate the International Waterways Canal and Transportation Company. This bill had reference to a proposed canal from Lake Superior to the head waters of the Saskatchewan River, and was regarded as being objectionable on many grounds. The bill was finally defeated, together with a similar bill which originated in the Senate.

MENIL'S CROSSING.

Mrs. Hattie Houghton has returned to her home in Worcester, Mass.

Mrs. H. O. Travers and Master Harold, have returned to their home in Hartford, Conn.

Messrs. G. Willard and son are getting in their winter supply of logs. They have 10 teams hauling and 12 men at work.

MYSTERIOUS DISAPPEARANCE OF W. F. POPE.

(Continued from Page 1.)

where the struggle is believed to have taken place there was a large quantity of blood. Taking this as a starting point, Mr. Gilbert proceeded along the road, and found traces of blood all the way into Sherbrooke.

This blood is supposed by some to have come from the horse. Others hold to the belief that after the victim was struck he was put in the sleigh and that a portion of that blood was his. Close watch was kept along the road for any marks that would indicate that the body had been carried off the main road. None were found.

HIGH CONSTABLE VISITS THE SCENE.

When High Constable Moe arrived on the afternoon express he immediately proceeded to the spot where the hat was found. After examining the surroundings the party with the High Constable broke up into two sections, and every footmark leading into the woods was investigated for several miles.

It was thought that probably the body might have been carried to the river, but on investigation no open water was found, and that clue was given up.

After several hours search the party returned to the village as far from solving the mystery as when they started out.

MR. POPE'S COAT DISCOVERED.

The fact of the hat being discovered seemed to intensify the feeling of the populace. This was the more so when about seven o'clock Albert Bergeron, who lives in Stoke, about six miles from Bromptonville, arrived with a fur coat. He went to the store of the missing man, where the latter's two brothers and Mr. Gilbert were discussing the situation. Immediately the coat was presented it

was recognized. The brothers were shocked on examining it to find that the inside was covered with blood. One of the lapels was saturated and matted, as if the head of the victim had lain on it after he was struck.

The return of the coat further strengthened the theory that W. F. Pope had met with foul play. Dr. Allard was again consulted, and he gave it as his opinion that the stains were human blood. The inside was smeared while there was but little on the outside except as mentioned on the collar.

The supposition put forth was that the victim had been divested of his coat and then put into it so that he could be the more easily carried.

THE INJURED HORSE.

Dr. Janelle was called to attend Mr. Pope's horse after its discovery in Sherbrooke. He states to the Record that the cut was such as could have been caused by the cork of the shoe, though a little high up. The horse might have caused the wound by stepping off the road. A peculiar thing, however, is a severe bruise just above the hoof on the other front leg. The horse has been unable to stand on this foot, and he injected morphine to relieve the animal of the pain from this bruise. He cannot explain how this could have occurred. The doctor says the horse did not have the appearance of having run away.

Gordon Moy, who was the first of the snowshoe party to reach the horse, states to the Record that the animal was standing still. The reins were thrown over one corner of the dashboard. The road was found in the road a hundred yards or so back. There were, also, marks of blood at intervals for some distance back, indicating that the horse had stood still at these points. They walked back nearly to the Armitage farm, thinking they might find the owner of the rig. The horse was white with frost, but was not breathing heavily as though it had been running. There were blankets in the sleigh. The sleigh was sort of piano-box style, with opening at the back.

The horse was found just at the entrance to the city.

A Sherbrooke man who is intimately acquainted with Mr. Pope's business scouts the idea that the whole is a disappearance planned by Mr. Pope. He says Mr. Pope's business was in good shape. He adds that to his knowledge Mr. Pope had numerous enemies, due to aggressive business methods and success in his business ventures.

HOW THE COAT WAS FOUND.

As previously mentioned, on the right hand side of the road opposite to where the first act of the tragedy is believed to have occurred, there were indications that a coat had been trailed on top of the snow. There is no doubt but that such a thing happened, for it was here the coat was found.

It may be thought strange that the coat was not seen by passing teams before being picked up by Bergeron. But it was some twenty-five feet from the roadway and not easily seen from the road.

Albert Bergeron told High Constable Moe how he found the coat. He said that he left his home about eight o'clock in the morning and proceeded to Bromptonville with a load of wood. When he arrived there he had another cord to pile. He went to the village by the road lower down than that by which he returned. When he started for home it was about twelve o'clock, as he heard the factory whistle blow as he crossed the bridge. When he got to the spot mentioned he was walking behind his team, and glancing to the left into the bush he saw the coat. Without stopping his team he ran in to investigate, saw the coat, picked it up, and catching up to his sled, threw it on to the hind end. The coat was folded so that he did not see any blood stains.

On arriving home he examined the coat and seeing the blood stains, and having heard of the disappearance of W. F. Pope, he decided to return with the coat to the village. That was all he knew about the matter.

ANOTHER DISCOVERY.

Scarcely had Mr. Bergeron told his

story of finding the coat when more excitement was caused. Mr. A. Auger, who lives about two miles and a half from Bromptonville, and on the road which Mr. Gilbert had traced the blood stains to Sherbrooke, came into and reported what he had learned. He stated that while his son was returning from school he noticed blood stains on a blind roadway which leads off the highway. The boy followed this for some distance and then returned home and told his father of what he had noticed. The only buildings on this roadway are two barns. Whether this clue will lead to any result remains to be seen after it has been investigated.

MR. POPE WAS POPULAR.

The above are the facts learned up to a late hour last evening. Now as to theories.

Wilfred F. Pope was a popular young man. Whatever he went into he entered with enthusiasm. He may have had differences of opinion as to municipal and other matters, but it kept him not from being a neighbor and a good one just the same. He had no enemies so far as is known, and in such a community if there were such they would be known.

Was his life taken by an outsider, who had learned that he often carried considerable sums of money on his person? There is considerable doubt as to whether he had any sum of money on his person on Monday night. Some say he had considerable, as he usually did, on a Monday to make his deposit. Others say that he paid a small bill on Monday evening just before he disappeared by a cheque which he had received from another party. Had he had money on his person he would not have done so, his intimate friends say, for he liked to send such cheques to the bank. If he had money on his person Monday no one saw it, at least not those in close touch with him, so far as can be learned.

If he fell by the hand of a robber, where is the body?

If he met death by a blow from some unknown hand the only presumption is that the body has been hidden in the bush not yet searched, or that the murderer or murderers put the body in the sleigh, drove to Bromptonville, put it out at some particular spot, hastened on and left the horse and sleigh. The horse must have gone at a rapid gait, for it will be remembered that he did not leave Bromptonville until at least twenty minutes to eight, and the animal was found about twenty minutes after nine o'clock.

Then again, could a horse travel some nine miles without a driver? The way the animal came, as shown by the blood stains, was fully the distance mentioned. What would have been more natural for a horse that had travelled the lower Brompton road to have turned homewards when it reached the river road at Galbraith's. Is it possible to suppose that on such a night a driverless horse would not be encountered by some one on the road. When the fact of the horse reaching Sherbrooke is solved, so also to a large extent will the mystery as to the disappearance of W. F. Pope be solved.

Those who have examined the horse say the cut on the leg could not have caused so much blood stains. It was a high-spirited animal. It had an awkward gait so that one of its legs was practically set open all the time. It was known that Mr. Pope, before starting out, would often tie a piece of rag around the spot where he interfered.

There is a good deal of speculation as to how Mr. Pope said he had to go to Rioux's mill. It is known that he received a letter from one of his brothers on Monday and there is also the statement that he received a letter delivered by messenger to go to Rioux's camp. In any event whether he did receive such a communication or not, he was on the road to that camp when the first indications pointed to the fact that he had met with trouble. Again, he did not reach the camp mentioned, although there is an uncertainty as to whether he was expected there or not.

From all the circumstances of the case the fact is borne out that if he met with foul play his remains will be found some distance from where

the attack took place.

WAS GOING TO BOSTON SHORTLY.

It was known that Mr. Pope had intended paying a visit to Boston shortly, and it was this fact that led his friends to believe at first that he had suddenly made up his mind to go and had entrusted his horse with some friend.

There were many, even after finding the blood-stained hat, who thought Mr. Pope would still be heard from, but after the finding of the coat they were just as positive he had been murdered.

THE MISSING MAN.

The missing man has many friends and relatives throughout the Townships and elsewhere. Among his relatives are Mrs. George Pope, Richmond, mother; G. F. Pope, Melbourne; E. F. Pope, Richmond; Dr. Sherman Pope, Bromptonville, and Dr. C. Pope, Minneapolis, brothers.

INTENDED LEAVING FOR BOSTON TODAY.

Mr. Pope intended leaving for Boston today, to open a branch office for the carrying on of a general export business in hay, grain, etc. Dr. Sherman Pope, his brother, who is in poor health, was to look after his business at Bromptonville.

Mrs. Francis Mather, of Sherbrooke, aunt of his late wife, has been looking after his household affairs for a time.

FURTHER DETAILS AS TO FINDING OF THE HORSE.

The Record learned more particulars from Rev. J. C. Nicholson this morning as to the finding of the horse. The animal was standing on Windsor street in front of a house. It was at first thought that the owner was inside. The horse was all covered with frost and it was decided to cover him. While doing so a dark spot was seen on the snow, and on lighting a match it was found to be blood. An investigation showed an ugly gash on the right front leg, from which three streams of blood were issuing. A handkerchief was secured and an effort made to stop the flow of blood.

A further examination revealed several blood stains and about ten rods from where the horse was found, they discovered another pool of blood, where the horse had evidently stood for some time.

The robe was also found about three rods from where the horse was found.

The handkerchief which the authorities found tied around the wound, was put on by those who discovered the animal.

SURELY REGULATES YOUR KIDNEYS AND ENDS ALL BLADDER TROUBLE

A few doses of Pape's Diuretic end the most severe

Backache

In all the world there is no man or woman who can afford to neglect the slightest kidney disorder for one single day.

Kidney diseases are the most dangerous, because the first signs are seen in other parts of the body, before anything wrong is noticed with the kidneys themselves.

Some of the symptoms, though, cannot be mistaken; for instance, a constant aching or misery in the back, sides or loins, or headaches and dizzy spells, nervous twitchings, dis-

turbed sleep, inflamed or puffy eyelids, heart palpitations, rheumatic pains, weakness, bilious stomach, or a feeling of languor and fatigue.

The time to cure kidney trouble is before it settles into Diabetes, Dropsy, Gravel, or Bright's Disease. The moment you suspect the slightest kidney, bladder or urinary disorder, begin taking Pape's Diuretic as directed, with the knowledge that there is no other medicine at any price, made anywhere in the world, which will effect so prompt a cure.

Your physician, pharmacist, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio, who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.
