

## ALD. SIMONEAU MAKES COUNTER CHARGES OF IRREGULARITY

### Stormy Scenes and Unparliamentary Language Follow Questioning Relative to Methods Followed in Electric Department. Investigation Demanded. Council Refuses on Mayor's Casting Vote to Accept Ald. Simoneau's Resignation from Road Department.

"Mighty exciting, but decidedly disgraceful," was the way one prominent citizen described the closing moments of last night's meeting of the Council. Not since the walls of the old Council Chamber re-echoed the torments of abuse hurled by one alderman on another, in connection with the formation of the first Board of Control, has the dignity of the Council been reduced to the level of last night's harangue.

Ald. Simoneau played the part of the match and Ald. Thompson that of the explosive. When the business of the evening was nearing completion and the aldermen were preparing to adjourn, Ald. Simoneau rose in his seat and asked permission of the Council to ask certain questions of the secretary. The privilege being granted, he proceeded as follows:

Ald. Simoneau: "Were you asked by the Electric Department to call for any tenders for pipes?"

Mr. Griffith: "No, sir."

Ald. Simoneau: "Were any tenders called for?"

Mr. Griffith: "No, not that I know of."

Ald. Simoneau: "Do you know if any pipes were bought?"

Mr. Griffith: "I am not sure."

Ald. Simoneau: "Perhaps Ald. Thompson can answer."

Ald. Thompson: "Yes, pipes were bought."

Ald. Simoneau: "How many?"

Ald. Thompson: "Why do you ask? You already know."

Ald. Simoneau: "Yes, you are right, I do know."

He then proceeded to enumerate the quantities of pipes he alleged that Ald. Thompson had bought without calling for tenders.

"The law on this point is quite plain. If I am guilty of acting irregularly in purchasing the asphalt, Ald. Thompson is equally guilty. He is always ready to throw stones at other departments. A man who does this, however, should be without fault in the management of his own department. Ald. Thompson is not the man who wants controllers or commissioners appointed to supervise the work in all departments except the one over which he is chairman, and the Water Department. If I have a second I am going to move that an investigation be held in Ald. Thompson's department. I had a lesson taught me by Ald. McManamy and Ald. Thompson when I was on the Parks and Real Estate Committee. The Sherbrooke Ice Company was then furnishing ice for the fountain at fifty dollars per year. Another ice company then began business and offered the ice to us at forty-five dollars. I immediately bought from them, as they quoted the lowest price. Ald. McManamy and Ald. Thompson both criticized my action, claiming that I should not have bought until I had called for tenders. I suppose they complained because they were both shareholders in the Sherbrooke Ice Co."

Ald. McManamy: "That is a lie. I never said anything to you about the ice. You have been lying here right along. I only wish I could get you on some of your statements and I would make you sweat."

After expressing the pleasure it would give him to knock him out of Ald. Simoneau, Ald. McManamy resumed his seat.

Ald. Thompson: "Mr. Mayor, I am going to second Ald. Simoneau's motion. I am going to move that a committee be appointed to make a thorough examination in my department. On this committee I will name Ald. Jenckes, Ald. Ewing, Ald. Ledoux and Ald. L. H. Olivier. I want this committee to have the right to examine witnesses under oath. I also want them to examine my record in every department with which I have been connected. I want the committee to examine Ald. Simoneau's record in all the departments with which he has been connected. I want the committee to examine his connection with the building of the sawmill bridge. Ald. Simoneau does not stand up like a man and accuse me of anything, but keeps on insinuating. He would give people an idea that I am a boodler. Why is he not man enough to come out straight? Why did he single out my department rather than others? He has told about the city that he intended making the statements against me that he has made to-night."

Ald. Ledoux: "All that Ald. Simoneau wants to know is whether or not Ald. Thompson has acted irregularly in purchasing pipes. He, Ald. Thompson, admits himself that he did not call for tenders. This is all Ald. Simoneau wants."

Ald. McManamy, pointing to Ald. Simoneau: "That animal accuses me of trying to get the city to buy fifty dollars' worth of ice from the Sherbrooke Ice Company."

Ald. Simoneau: "If Ald. Thompson is prepared to admit that he bought the pipes without calling for tenders I will be satisfied."

Ald. McManamy: "Take no apolo-

gies, Thompson. Insist on an investigation."

Ald. Thompson: "Mr. Mayor, I want this investigation held. I—"

Mayor Hebert: "Just one moment, gentlemen. The question was simply asked whether or not the pipes were bought without tenders having been asked for. Ald. Simoneau has been censured for buying asphalt without calling for tenders, and he is trying to show, in the words of the old song, 'Everybody's Doing It.' For the sake of the dignity of this Council I would ask you to withdraw the motion."

Ald. McManamy: "I contradict you, sir, Ald. Simoneau has lied about Ald. Thompson and myself in connection with the ice. I insist on having the investigation."

Ald. Jenckes: "I move we adjourn."

Ald. Brault: "I second Ald. Jenckes' motion."

Ald. McManamy: "That is not fair. We should have this investigation."

Ald. Thompson: "No adjournment. We want this matter settled."

Mayor Hebert: "A motion to adjourn is always in order."

Ald. McManamy: "This is no way to do. Charges have been made and we wait the matter looked into."

Ald. Simoneau: "I want it clearly understood that I made no charges of hoodlery or bad intentions. All I said was that the pipes were bought irregularly."

Ald. Thompson: "Have the investigation."

Ald. Brault: "Let us adjourn until we cool down."

Ald. Thompson: "I am cool now."

Ald. Ewing: "It is time to go home."

Ald. McManamy: "Give us fair play. Let us have a full investigation."

An Alderman: "Question."

Mayor Hebert: "All those in favor of Ald. Jenckes' motion to adjourn please signify."

Ald. Thompson: "No."

Ald. McManamy: "This is not fair."

The secretary was asked to record the vote on the adjournment, which he did as follows:

For—Ald. Ledoux, L. H. Olivier, Simoneau, Ewing, Jenckes, Brault and Rousseau.

Against—Ald. McManamy, C. F. Olivier and Thompson.

The meeting then broke up in disorder. In the dressing room Ald. Thompson denounced Ald. Simoneau in a most scathing manner, and stated that he would insist on an investigation and put witnesses in the box to give testimony under oath.

ALD. SIMONEAU'S RESIGNATION.

An important question before the meeting was the resignation of Ald. Simoneau. It was read by the Mayor. Ald. Ledoux immediately moved that it be accepted, seconded by Ald. White.

In moving that the resignation be accepted, Ald. Ledoux said in part: "It would be strange if I moved this resolution without making some explanation. I was not here when the famous report of the investigating committee was submitted. When I read it in the paper I said to myself that the people outside might think that Ald. Simoneau had done something irregular, or even worse. A man who is head of a committee and does not share the same views as his colleagues has the right to resign. If such a chairman does something wrong he may be asked to resign. To prevent the impression going abroad that Ald. Simoneau has been asked to resign, I take this opportunity to explain. I was present at all the meetings of the committee and Council when the question of paving was discussed, and I also remember that a delegation was sent to Montreal to look over different kinds of paving and report, so as to expedite matters. I also remember that the chairman made a report which was passed by this Council, naming Pioneer Asphalt as the material to be used. I am not here to justify the manner in which Ald. Simoneau placed the order. The charter makes clearly that tenders must be called for. With the possible exception of Ald. McManamy, I think every other member of this Council was asked about the matter. I did much the same thing as Ald. Simoneau when I seconded Ald. McManamy's motion to have the City Engineer go to Quebec and examine sewer pipes and buy them if he thought they were all right. What right did we have to do this, according to our charter? We had none. Now, why should Ald. Simoneau be blamed when he had the Council behind him, as well as the people. When this famous report of the investigating committee was brought up not one single alderman spoke in support of Ald. Simoneau. The impression went out from that meeting that he had been boodling. It affords me great pleasure, Ald. Simoneau, to exonerate you, and I

## DOMINION PARLIAMENT OPENED BY ROYAL GOVERNOR-GENERAL

### Occasion was Marked With the Usual Ceremonial. There was an Unusually Large Attendance of Visitors at the Opening. Everything Points to a Session of Much Contentment. Much Discussed Naval Policy will be one of First Matters Brought up. An Immediate "Emergency" Contribution to British Navy will be Proposed.

Ottawa, Ont., Nov. 21.—(Special)—The Dominion Parliament was opened to-day by His Royal Highness the Duke of Connaught. The occasion was marked with the usual ceremonial, which included the firing of a royal salute from Nepean Point and a cavalry escort for the Governor-General from Rideau Hall to the Parliament Building and return. The general expectation that the speech from the Throne would deal with subjects of far more than ordinary interest and importance to the public led to an unusually large attendance of visitors at the opening.

Unless all signs go astray the Parliament respecting the control of Western lands, and several questions of party policy, including that of the tariff.

The redistribution of Parliamentary constituencies, made necessary by the last census, which will deprive Conservative Ontario of four seats and will give the Liberal West some twenty-odd seats, may be allowed to go over to the next session. A postponement will, of course, precipitate opposition from the Liberals.

From present indications there will not be a particularly heavy list of private bills at the present session. An exception, however, is the divorce cases, which number more than 100 and thus exceed all records.

BRILLIANT SCENE.

The scene in the Senate has seldom if ever been exceeded in splendor. From all parts of the Dominion came people prominent in social and official life to grace the occasion in return of Vice-Regal coast to coast visit of last summer. There was also an impressive assemblage of State dignitaries and civil and military officers all in full uniform. Her Royal Highness the Duchess of Connaught and Princess Patricia were present and subsequently attended re-opening of Senate and Commons.

SPEECH FROM THRONE.

The members of the House of Commons having assembled in the Chamber of the Upper House with Speaker Sprague at their head, His Royal Highness formally opened the second session of the twelfth parliament of Canada with following speech from the Throne:

"In speech from far more important legislation was forecasted. Before mentioning this in his speech His Royal Highness the Governor-General touched upon his trip through Canada from coast to coast and expressed the deepest satisfaction with the prosperity which was universal throughout the Dominion.

REVENUES OF DOMINION.

The trade reports for the fiscal year were very gratifying, the revenue of the Dominion having increased so rapidly and immigration from British Isles is greater than ever before.

BILLS TO BE PRESENTED.

Among the most important bills to be presented this session were the following: Construction of Hudson Bay Railway from Lepas to Port Nelson. Improvement of Highways of Canada, and bill will be introduced

liamentary session now begun will be one of the most contentious and bitter in many years. There is every reason to believe that the much-discussed naval policy will be one of the first matters brought up. The Government programme involves the voting of an immediate "emergency" contribution of large amount to the British navy, leaving to be negotiated later the terms and conditions of a permanent policy. The Government fully expects to get its naval programme through Parliament, but only after a determined opposition.

Other important subjects on the agenda include important amendments to the Bank Act, alterations in the law of naturalization, the West Indian trade agreement, legislation

respecting the control of Western lands, and several questions of party policy, including that of the tariff.

## AUSTRIA IS PREPARING TROOPS BEING EMBARKED FOR PENINSULA ON ADRIATIC SEA

### TROOPS INURED TO WINTER CAMPAIGNS HAVE BEEN WARNED TO BE READY.

Geneva, Nov. 21.—(Special)—A despatch from the Fiume to the Gazette Lausanne says that for the last few days Austrian troops have been embarking at that point every night. Their destination is Spalato in Dalmatia, on the peninsula projecting into the Adriatic.

General Salis von Seewis has arrived at Fiume from Vienna.

The Gazette hears from Innsbruck that Alpine troops are being gradually mobilized on Tyrolean frontier.

Regiments that have completed their service are being retained while Tyrolean reserves have been warned to be ready for service.

The fact that troops inured to winter campaigns have been warned to be in readiness is regarded as significant.

RESIGNATION OF MR. C. E. BRADFORD

### Will Not Continue as Board of Trade Secretary Another Year.

LACK OF MEANS TO CARRY ON VIGOROUS PUBLICITY WORK REASON GIVEN.

Mr. C. E. Bradford, Secretary of the Sherbrooke Board of Trade, has tendered his resignation in a letter which was read at a meeting of the Council of the Board, last night, as follows:

Sherbrooke November 11, 1912. Mr. E. W. Farwell, President Board of Trade, Sherbrooke.

Dear Mr. Farwell,—Will you be kind enough to present to the Council as soon as possible my resignation as

Secretary of this organization, to take place on Dec. 15th next. In taking this step I trust you understand that I am considering what seems to me the very best interests of this organization. As is generally understood, my engagement was for publicity work principally, and no work of this nature has been done during the past year. I believe that the members of the Council understood that I could not, in fairness to either them or myself, remain another year under the same conditions. Inasmuch as the recent action of the City Council would seem to indicate that our publicity campaign cannot be continued, I do not feel justified in remaining longer.

Permit me to express at this time my appreciation of the many courtesies which have been shown me during the past two years, both by yourself and the other officials of this organization, and to wish for you every success in your future work looking to the upbuilding of the city.

Sincerely yours, (Signed) C. E. BRADFORD, Sec. Treas.

The Council of the Board accepted Mr. Bradford's resignation with regret. With energy and enthusiasm he has performed his duties of industrial secretary and in spite of the handicap of lack of funds for publicity work, Sherbrooke has been widely advertised. Without the co-operation of the civic authorities the best results, however, could not be obtained, and with certain influences working against the Board the outlook for next year was not such as to encourage Mr. Bradford to undertake another year's engagement.

The Council of the Board discussed plans for the future and the work of the organization will be carried on vigorously.

The programme for the coming year they reason to believe, will be as active in the interests of a progressive city as has been that of the past two years.

## BALKAN ALLIES WANT THE CESSION OF TURKEY IN EUROPE

### The City of Constantinople Would Remain Turkish, But Friendly Entry of Allied Armies to Occupy City Until Peace is Arranged. Belligerents Will Meet To-day to Discuss Peace Terms. Peace Believed to be at Hand.

New York, Nov. 21.—(Special)—A special cable from Constantinople via Guir Gevo, Roumania, says: "The terms of peace offered to Turkey by the Balkan allies are cession of the whole of Turkey in Europe as far as and including Chatalja line, the city of Constantinople to remain Turkish, but friendly entry of portion of allied armies to occupy city until definite treaty has been arranged."

"It is stated that the Ottoman Cabinet favors acceptance of all conditions except cession of coast line of Sea of Marmora and Dardanelles, and entry of allied forces into Constantinople."

"It asks guarantees regarding the future of Albania. By an indirect route a deputation of influential Albanians has arrived here to urge resistance to Serbia's claims upon Albania in which the last deputation is seeking Austrian support. Diplomats here are unanimous in thinking the settlement of the future status of Albania in the most serious factor against Europe and peace."

TURKISH OFFICERS 'CAUSE OF DEBACLE.

London, Nov. 21.—(Special)—The Saloniki correspondent of the Post attributes the Turkish debacle, above all things, to inferior company and regimental officers. He says that the rank and file were fine fighting material, but instead of their officers being the old head men of the villages, in whom the men had implicit confidence, the present-day officer is a

town-bred mannikin educated in military schools.

"These officers," he declared, "funked openly and unashamedly. They were soft, and while working their men beyond human endurance, never attempted to spare them hardships and privations. They had no initiative, and to their incompetence was due the failure of the commissariat service and general lack of organization."

BULGARIANS RECEIVE CHECK.

London, Nov. 21.—(Special)—The correspondent of the Daily Mail telegraphs from Constantinople, under date of November 20, as follows:

"The balance in the fighting at the Tebatjala lines to-day was distinctly in favor of the Turks. The Bulgarians did not suffer defeat, but received a check. Their first attempt to carry the lines not having succeeded, they have drawn back at Hiyuk Chekmelye to Papas Burgas and further north."

"The Turks have advanced their entrenchments. There is, however, a great difference between successful defence and Turkish advance."

ORDERED TO CONSTANTINOPLE.

Berlin, Nov. 21.—(Special)—Osman Nizami Pasha, Turkish Ambassador to Germany, was ordered to Constantinople to-day to assist in the peace negotiations.

TRUCE EXPECTED SOON.

Mr. Unsworth, who attended the laying of the corner stone of the new Congregational Church, of which Rev. H. A. Carson is pastor, writes: "Never was this congregation more united, more generous or more active than today. The confidence and affection shown for their pastor, Rev. H. A. Carson, who has faithfully served them and the city over eight years, was one of the delightful features of the evening. The new church will be large and adapted for social service. I predict that within three years this cause will rank among the first ten of our Congregational fellowship."  
Rev. H. A. Carson himself writes: "During the past years the people have been seeking to serve Christ in this community and also their fellow-men. In the year 1896, on November 28, this Church was organized, since which there has been faithful service on the part of the organizers. To show interest and confidence in the future of our city and the future usefulness of our church, the congregation decided to invest \$16,000 to the sum (\$12,000) which they already had from the sale of their former little church. This shows the confidence and assurance of members of the church and of those associated as adherents, who are grateful for the opportunity to serve Christ and mankind in the beautiful city, Victoria."

The annual Christmas tree and entertainment in connection with the Congregational Church will be held on Thursday evening, Dec. 26th. A very good programme of dialogues and recitations is being prepared.  
A skating rink for Melbourne has been decided upon and already everything is in readiness awaiting cold weather. The rink which is in Lewis' Eddy, will be an open air one and will be much larger than the former one. Mr. J. C. Martin is the manager and with him as promoter the public may be sure of some good, clean sport. Now all that remains to be done is for the hockey boys to form a team as there are some very fast players and with a little practice would make a good team.  
The Presbyterian Workers met at the home of Mrs. F. Verrill on Wednesday afternoon at 3 o'clock. A very profitable afternoon was spent.  
Mrs. J. B. Fregeau and sister, Miss Manseau, of Asbestos, in town for a few days recently calling on friends, Dr. E. Valle, of Montreal, spent the week end the guest of his mother Mrs. P. Valle.  
Mr. Alf. Dunn has moved into one of the Dickson cottages on Belmont street.  
Mr. and Mrs. H. Alymer who have spent the past months away, returned home recently where they intend spending the winter months.  
Mr. Thos. Atkinson recently sold his property on Main street to Mr. E. Doxtrader. Mr. Atkinson is leaving for the States.

## TO CROSS ATLANTIC BY AEROPLANE

### Grahame White Has Completed Plans For Machine to be Used

#### EXPECTS TO DO THE JOURNEY FROM LAND TO LAND WITHIN THIRTY HOURS.

London, Nov. 21.—At the close of a flight which Claude Grahame-White took with Otto Kahn as a passenger, the aviator gave out particulars as to his plans to fly across the Atlantic.  
"It has been my pet scheme for a long time past," he said, "but now I have completed plans for the machine and commenced to build it. It will be of 1,000-horse-power, with four engines and six propellers. Each engine will be of 250-horse-power, and they will be so arranged as to be independent each of the others; that is to say, if two engines break down, the other two will be quite sufficient to drive the machine. We expect to do the journey from land to land in something between twenty and thirty hours, the machine being built so as to remain in the air thirty hours. All depends on the weather and the course we take. At present we are undecided whether to go by way of the Azores or across to Newfoundland but I expect the latter route will be chosen.  
"The trip is arranged to take place in the summer, although it is just on the cards that we may not make it until the autumn. The weather then will probably be more favorable, but, whenever we start, I am reasonably sure of success."

## WATERVILLE.

**Makes the Hair Grow and Scalp Itch Vanish**  
Every Woman can have Charming Hair, Full of Life and Lustre, by Using Parisian Sage Hair Tonic—50 Cents  
Look out for imitations. PARISIAN Sage does not contain any poisonous lead and is not a dye. The girl with Auburn hair is on every bottle. Hair must have nourishment or die. If it does not have proper nourishment it will lose its vitality, grow weak, and become an easy prey to the ravages of the vicious germs of dandruff.  
PARISIAN Sage is a hair nourisher. It is the result of sincere study and experiment by one of the world's leading scientists.  
It should be used regularly as a hair dressing by everyone with healthy hair, because it never fails to prevent dandruff, falling hair, or any scalp disease.  
But PARISIAN Sage is not only a preventive, it is a certain cure for dandruff. It stops itching of the scalp instantly. It makes hair grow thick and luxuriant. It is especially in demand by ladies, because it makes the hair beautiful, soft and fluffy. It is offered by druggists and department stores everywhere, under a positive guarantee to do all that is claimed for it, or money back.  
Canadian distributors, the R. T. Booth Co., Ltd., Fort Erie, Ont. The girl with Auburn hair is on every package. F. T. Ansell guarantees it.

**BISHOP'S CROSSING.**  
Arrivals and departures: Mr. and Mrs. G. A. Harrison from the summer in Edmonton, Alta.; Miss Maud McLeod, of Ives, guest of Miss E. P. Matheson; Miss Lucy Bishop home from Jackman, Me.; Mrs. H. Maine from the Sherbrooke Protestant Hospital, where she has been for treatment; Dr. R. J. McHarg, of Coaticook, in town Tuesday; Miss Evelyn Gilbert and Miss Edna McLeod, of Cookshire, guests of Mr. and Mrs. F. W. Gilbert; Mr. I. L. Batley, of Edmonton, Alta., and Mr. W. R. Batley of Bury, guests of their grandmother, Mrs. Wm. Hooker.  
Partridges appear to be very plentiful and tame here this winter. One was seen in this village sitting on Mr. J. B. Hooker's barn, and was shot by Master Sidney Bishop. One was also seen in Mr. O. S. Joyce's yard, and one in a pine tree near Mr. P. C. Matheson's house.

**DANVILLE.**  
Mr. Poitras, chief clerk at the station, has rented the house recently vacated by Mr. R. Becker and owned by Mr. Brassard. He is moving in.  
Dr. and Mrs. R. H. Cleveland left on Wednesday for a week's trip to New York.  
Mrs. Kenneth Ingalls gave a thimble party at the residence of Mrs. O. M. J. Ingalls Wednesday afternoon. It was a very pleasant affair. Refreshments were served.  
The Misses Dorothy and E. Gibson who have been the guests of Mrs. R. H. Gibson, have returned to their home in Montreal; Mrs. Fred Stockwell and Mrs. F. F. Cleveland to Montreal; Mrs. Roach the guest of Mrs. (Dr.) Stevenson, and Mrs. Herman Stockwell also the guest of Mrs. Stevenson on her way to Washington.  
Quite a number went to Richmond, Wednesday evening to take part in the Leap Year Ball gotten up by the ladies there.  
Mr. Chas. Boutelle, who has been confined to the house for some time, was down at the store yesterday feeling much better.

**COOKSHIRE.**  
Mr. and Mrs. E. J. Planché "Tinsacre," Cookshire, Que., announce the engagement of their eldest daughter, Miriam Evangeline, to Mr. John Harding Paul Ekberg, C.E., formerly of Vetad, Sweden. The marriage will take place early in the New Year.  
The members of Friendship Lodge No. 66 A.P. and A.M., and Friendship Chapter R.A.M., held their annual Church Parade on Sunday last.  
Arrivals and departures: Mr. and Mrs. Thornton of Toronto, guests at the Osogood; Mrs. J. F. Learned and Miss George Learned, in Sherbrooke; Mrs. R. Cole and Mrs. S. Hodje with Dr. and Mrs. McCurdy, Coaticook; Dr. A. Johnston, Messrs. A. H. Goff, Hy. Osogood, E. L. Cook, J. L. French, Cyrus French, from a hunting trip in Ditton woods; Hon. R. H. Pope and Mrs. Pope and Mrs. W. B. Ives, for Montreal, where the latter will spend the winter; Mr. and Mrs. Pope will go to Ottawa for the winter months.  
The friends of Mr. W. F. Given will regret to learn that he is once more confined to his bed.  
Mr. Irwin Smith is improving from his recent shooting accident.

**SOUTH DURHAM.**  
Inspector Parker, of Superior Schools, made his annual visit at the South Durham Model School recently and surprised the teachers, Misses M. Fee and W. Millar, but found a large attendance, 43 out of 45 pupils being present. He was much pleased with the good work being done, also with the repairs and improvements made in the school rooms during the summer holidays. Inspector Rothney, who was making his official visit at the Elementary schools, also visited the Model School on the same day as Inspector Parker.  
Rev. Walter P. Booth, B.A., Montreal, will preach at the South Durham Method St. Church at 11 a.m. on Sunday, the 24th inst., in connection with the Educational Society. On Monday at 7:30 p.m. in the Town Hall he will give an educational treat

**ISLAND OF JAMAICA WAS DEVASTATED**  
Hurricane Lasted Five Days Followed by Tidal Wave  
FORTY-TWO PERSONS KILLED AT MONTEGO BAY.  
Kingston, Jamaica, November 21.—The western end of the Island of Jamaica has been devastated by a hurricane lasting five days. A great tidal wave has swept over both the north and the south coast, practically wiping out the town of Savanna la Mar and Lucea, both towns of considerable importance.  
According to a report brought in by steamer, 42 persons were killed at Montego Bay.  
The Governor of Jamaica has left on a special train accompanied by a detachment of artillerymen, who have taken with them 300 tents and food-stuffs as in certain sections the people are homeless and destitute. The gale began on November 15 and continued in increasing fury for several days.  
Vessels arriving in port reported that the wind was blowing over 100 miles an hour.  
entitled "Tommy's Wife" will be given by local talent.  
Quite a few from this vicinity are taking advantage of the hunting season, and many deer have fallen by the hands of the hunters.

**SCOTS IN LUNNON.**  
Mr. Graham Moffat, until lately a society entertainer closely associated with the west of Scotland, has again pulled the strings on the London public. This time he has done it without the aid of "Bunty," in fact has achieved another triumph simply by "A Scrape of the Pen."  
Since the days when J. M. Barrie presented his "Little Minister," Harry Lauder first sang at Gatti's, and our townsman, Neil Kenyon, appeared at Drury Lane, a remarkable evolution has been witnessed in stage-land. These were the pioneer "Scotch" (not, of course, in its liquid form) in the metropolis. Mr. Graham Moffat scatters his seed now upon a soil which has been richly cultivated. To most of us this wonderful popularity of Scottish plays and kilted comedians in the Hub of the Universe remains a puzzle. It has been said by the Englishman that the Scotoman has no humor; that only a hammer could drive a joke in his pachydermatous skull. Yet has not Barrie, Lauder, Kenyon, and now Mr. Graham Moffat, taught London to laugh? These artists have introduced the bloom of the heather, and its very freshness whets the appetite for more. The success which has come to Mr. Moffat in his present tribute to London of Scottish humor and Scottish character is an indirect tribute to the race, and a smashing reply to that coterie of critics who despite kailyard enterprise, and attempt to throw cold water upon its genius.—Glasgow News.

OLD TIME SALARIES. (London Standard). What public authorities in the early part of the nineteenth century thought to be an adequate payment for a doctor's services is illustrated in an article in the Lancet. A surgeon living at Tirrel, near Penrith, according to the Morning Herald of November 21, 1835, had a practice assigned to him comprising the following villages and hamlets, chiefly to the north and west of Ullswater: These were Askham (four miles from his place of residence), Barton (a large district), Frougham (five miles), Chibburn (seven miles), Lower Winder (three miles), Patterdale, that lonely corner of the world, (nine miles), Martindale (seven miles), Lower Winder (three miles), Stockbridge, Yarmouth and Eamont Bridge (three miles), and the attendance of the union warehouse at Eamont.

The salary attached to this practice was £30, and for this the unworldly surgeon was expected to supply all medicines free of charge. Moreover, he had doubtless to keep a horse or horses, just as his successors in the Patterdale district today keep motor cycles, and often he must have been compelled to climb the boggy and trackless fells on the lakeside of Ullswater. "It has usually been said," commented the Cumberland Packet of that day, "that 114 out of 100 is the doctor's profit; we should be sorry to give a penny out of this shilling for his profits out of this magnificent salary if he but half perform the duty he has undertaken."

The weight of your body is carried by the arch of the foot. When the arch of the foot is not properly supported—and the modern shoe does not give this required support—the feet tire and ache, become feverish and cause a strain on the limbs often making the whole body tired and most shoes do not give the necessary support.

The arch of the foot where the body's weight is carried, needs a rest. The Scholl "Foot-Eazer"

The Quickest, Simplest Cough Cure

Easily and Cheaply Made at Home. Saves You \$2.

This recipe makes 16 ounces of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50.

Simple as it is, it gives almost instant relief and usually stops the most obstinate cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, croup, sore lungs, asthma, throat trouble, etc.

Mix two cups of granulated sugar with one cup of warm water and stir for two minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a 16-ounce bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pinex is one of the oldest and best-known remedial agents for the throat membranes. Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in quinic acid and all the other natural healing elements. Other preparations will not work in this formula.

The prompt results from this recipe have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

FOR DANDRUFF, FALLING HAIR OR ITCHY SCALP--25 CENT "DANDERINE"

Save your hair! Danderine destroys dandruff and stops falling hair at once. Grows hair, we prove it.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous you must use Danderine, because nothing else accomplishes so much for the hair.

Just one application of Knowlton's Danderine will double the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair

roots fash, loosen and die; then the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, don't hesitate, but get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now? A 25-cent bottle will truly amaze you.

Advertisement for NA-DRU-CO Syrup of Linseed, Licorice and Chlorodyne. Quick Action on a Cold. One of the most important points in treating a cold is to act quickly, at the first sign of trouble, before the cold has a chance to get "set in" anywhere. The other point of vital importance is to take NA-DRU-CO Syrup of Linseed, Licorice and Chlorodyne. This safe and reliable household remedy acts very quickly. It relieves the irritation and "stuffed up" feeling in the air passages, loosens the phlegm, promotes expectoration, soothes the tickling which makes you cough, and drives out the cold before it gets troublesome. But even if the cough or cold has become deep-seated and persistent, NA-DRU-CO Syrup of Linseed, Licorice and Chlorodyne will break it up. In 25c and 50c bottles, at your druggist's. **CITY NEWS**

Mr. R. N. Robins was in Montreal yesterday on business.

Everybody gets an art photo at the Casino to-night.

Mrs. E. C. Goodhue is visiting friends in Portland, Me., at present.

Messrs. E. Fred Dugan D. DePerrier and George A. Wendt, of Montreal, are in town on business.

Miss Dickinson from Coatcook, is visiting her sister, Mrs. Neil Dinning, Quebec Street, for a few days.

The friends of Mr. D. G. Loomis will regret to hear that he is still confined to his bed owing to illness which, however, is not serious.

Mrs. Antrobus, who has been ill with gripe at her rooms at the Magog House, is making good progress towards recovery.

Mr. W. G. Murray Robertson from Neepawa, Man., is the guest of his uncle and aunts, Mr. J. R. and the Misses Woodward, at the "Home-stead," Bowen Avenue.

Mrs. J. K. Piercy, who has been the guest of Mrs. Cecil Bowen at "Hallowell Cottage" for a few weeks, has joined Mr. Piercy at Fredericton, N.B., where they will make their future home.

Messrs. Walter Long and Ralph V. Halley, from New York, were in town this week, on their way from St. Combs, Kennebec, in which vicinity they have been hunting with good success.

The Methodist Ladies Aid spent a very pleasant afternoon on Tuesday at the home of Mrs. W. R. Bradley, Frontenac Street, when arrangements were made for a sale of useful and fancy articles to be held on December 6th.

Mr. Robert Bradley went to Ste. Anne de Bellevue this week and returned with his daughter, Miss P. Bradley, one of the students, whose health has not been satisfactory and who will remain at home for a few weeks.

Mgr. Paul LaRoque, Bishop of the Diocese of Sherbrooke, the Rev. P. J. A. Leblond, of St. Charles Seminary, and the Rev. Abbe Dufresne, of the Hospital St. Vincent de Paul, have returned from St. Hyacinthe where they assisted at the funeral of the late Rev. Sister Carpentier.

The celebrated cellist, Mr. J. Dubois, of Montreal, who was one of the attractions at the recent symphony concert, was the guest of Prof. A. S. Bourzault, and Mrs. Bourzault, Goodhue Street, during their stay in the city.

The Guild Tea at St. Peter's Church Hall yesterday was an unqualified success, many members and friends being present. The hostesses were Mrs. N. C. Pilcher, Mrs. Geo. Tomlinson Dodge and Mrs. A. R. Holmes, who were assisted in waiting on the guests by Miss Noeline Vernon. Mrs. Holmes presided at the tea table.

Notice—We would respectfully call your attention to your overdue water bills, and would ask you to kindly let us have a settlement of same by Nov. 30th, this being the last month of the financial year, and also the time limit set by the Waterworks by-law, or otherwise water shall be cut off. By order of the Water Committee.

The dance under the auspices of the St. Regis Club held in their hall, Metropole Bldg., Tuesday evening, was a decided success. Bourzault's Orchestra furnished an usual excellent music. The next event will be made a New Year's Ball on Monday evening, Jan. 6th, the arrangements of which are in the hands of a capable committee.

The Order of Owls recently organized in Sherbrooke, with a good and increasing membership, gave their first entertainment last evening in Odell's Hall, with a large attendance of members and their friends. The hall was tastefully decorated with bright flags and bunting, and at one end in the midst of a quantity of greenery was a nest, one symbol of the order, containing six solemn Owls, guarding the Chapter. The early part of the evening was spent in cards, twenty tables being required for the euchre players and the prizes were won by the following: Ladies, first, Miss Geraldine Daigle; second, Miss Poole; gentlemen, first, Mr. A. Fleck, second, Mr. Labaree. At the close of the games dancing began to the bright strains of Bourzault's Orchestra, and was kept up till midnight with great enjoyment.

Come to St. Andrew's Church on Friday evening to hear ye little olde folks sing.

Miss Dunlop of Montreal has arrived in town for a visit to her friend, Miss Katherine Edgell, Melbourne Street.

Week end Millinery Sale at Miss Lee's. Great bargains for Friday and Saturday.

The citizens of the little village of West Broughton with a spirit quite worthy of emulation are contemplating the erection of a monument to the early settlers of the place, who set up their homes in the midst of the virgin forest over a half a century ago. It is more than sixty years since the first tree was cut down, and fifty-four years since the parish was erected. It is hoped that with the co-operation of the citizens and especially of the descendants of the first colonists, a suitable monument may be put up and unveiled in 1918, the year of Broughton's diamond jubilee.

TOWNSHIP'S MUSICIAN IN NEW YORK.

Mr. Edmund Jaques, organist-choirmaster, of St. Paul's Chapel, Trinity Parish, Broadway, New York, son of Mr. John Jaques, Windsor Mills, has made a name for himself in his profession, in New York.

His plan of noon musical services has proven very popular. A New York paper referring to this says:

"When Edmund Jaques, coming to old St. Paul's Chapel, Trinity Parish, several years ago, broached to the Vicar, the Rev. W. Montague Geer, the idea of a series of noon musical services, and the plan was taken up enthusiastically by Dr. Geer, neither of them realized what a prominent place those services were to take in the life of the city. Still, the possibilities of the plan appealed largely to the Vicar, who entered in co-operation with Mr. Jaques with such good will and liberality that few church services are so widely known, and few can show such a well-sustained attendance, year after year. Each season more than ten thousand persons attend, the congregation in some single instances almost attaining the 2,000 mark."

BUTTER MARKET FIRM. Montreal, Nov. 21.—At Gould's Cold Storage the offerings of butter amounted to about 300 packages, for which the demand was good at 23 1/2c to 24c. The market remains very firm, with a fairly active business doing for local account.

We quote prices as follows: Finest creamery ..... 30 1/2 to 30 3/4 Fine creamery ..... 29 1/2 to 30 Seconds ..... 28 1/2 to 29 Dairy butter ..... 26 to 26 1/2

CHEESE MARKET QUIET.

Montreal, Nov. 21.—There was an improved inquiry from English buyers of cheese for October-November make, but as the prices bid did not meet with exporters' views little business resulted and the market in consequence remains very quiet, with prices more or less nominal. At

ACTIVE EGG TRADE. Montreal, Nov. 21.—The tone of the egg market remains firm under a good demand, and a fairly active business is doing. We quote prices as follows: Selected stock, in round lots ..... 30 to 30 1/2 Selected stock, in single cases ..... 30 1/2 to 31 No. 1 cold storage stock in round lots ..... 27 to 28 Straight receipts in round lots ..... 27 to 28 Straight receipts in single cases ..... 27 to 27 1/2 Second grades, in round lots ..... 26 to 26 1/2 Second grades, in single cases ..... 26 to 26 1/2

DRESSED POULTRY STEADY. Montreal, Nov. 21.—There is no change in the condition of the market for dressed poultry, prices being steady under a good demand, and although the supplies have increased some on account of the colder weather they are not sufficient yet to fill the requirements of the trade. We quote prices in wholesale lots as follows: Turkeys per lb. .... 18 to 19 Ducks, per lb. .... 15 to 16 Chickens, per lb. .... 14 to 16 Fowls, per lb. .... 12 to 14 Geese, per lb. .... 10 to 12

HONEY MARKET WITHOUT FEATURE. Montreal, Nov. 21.—The market for honey is without any new feature, prices being well maintained, with a moderate amount of business doing in small lots. We quote: Clover, white honey ..... 16 1/2 to 17 Dark grades ..... 14 to 14 1/2 White extracted ..... 12 to 12 1/2 White extracted ..... 10 1/2 to 10 3/4

POTATOES IN DEMAND. Montreal, Nov. 21.—There continues to be a good demand for potatoes, and the market is fairly active, with a firm undertone. We quote: Green Mountains in car lots at 80c to 85c, and Quebec grades at 70c to 80c per bag, and in a jobbing way Green Mountains are selling at \$1 per bag.

PROVISION MARKET. FIRM DEMAND FOR DRESSED HOGS. Montreal, Nov. 21.—There was no further change in the condition of the market for dressed hogs, but the feeling was firm at the recent advance in

prices noted, owing to the somewhat limited supply, for which there is an increased demand on account of the colder weather, and sales of abattoir fresh-killed were made in a jobbing way at \$12.25 to \$12.50 per 100 lbs. There continues to be a steady demand for hams and bacon for both local and outside accounts, and the trade in lard and barrelled pork is more active than it has been of late.

E. T. LIVE STOCK.

PRICE OF HOGS DROP. Stanbridge East, Nov. 21.—(Special)—Mr. John Harvey shipped from here this week one car of cattle and a small car of hogs which he purchased at \$1 per head. Mr. Harvey does not expect to be able to pay over \$7.50 per cwt. next week.

GOOD PRICE FOR COWS. Ascot Corner, Nov. 21.—(Special)—The auction sale of Mr. J. Paradis was well attended and good prices were realized. Cattle especially went high, cows selling at \$55 a head.

BUYING STOCK AROUND BROME. Brome, Nov. 21.—(Special)—Mr. Fred Rhicard recently purchased a few head of fine cattle in Sutton. Messrs. Lang and Hays of West Shefford are purchasing all kinds of cattle, sheep and swine in this vicinity. Mr. Fred Roberts of Granby expects to secure still another car load this week. These cattle are chiefly what is termed canners, old cows, that have outlived their usefulness as profitable milkers and bring from \$8 to \$15 each. There is very little young stock offered for sale.

DAILY STOCK LETTER. New York News Letter. The opening was quiet but firm and the market soon strengthened. It was influenced by the announcement that 750,000 gold arriving in London on Monday had been taken for America and the confident belief that the war in the Balkans was fast drawing to a close and that an amicable settlement would be arrived at by all the powers. For activity the specialties were the most conspicuous. U. S. Rubber and Petroleum stocks and others of that kind showing marked strength but in the second hour the movement spread to the entire list and the upward movement was very uniform. The transactions were especially strong headed by B. R. T. There was no change in the money rate or money situation but exchange hardened slowly in response to the gold engagements. Sales to noon, 221,000 shares. Bonds, \$1,076,000. Wheat eased off at the opening in line with Liverpool and has continued weak during the forenoon. The market for Corn and Oats were firmer up to 11 a.m. but now show losses of half a cent from the best.

Montreal Noon Letter. Still further improvement was in evidence on the local board both in activity and values. Richieu easily the leader, rose steadily to 114 1/2 as compared with 112 last night. Dom. Iron fairly active and gained nearly a point to 61 1/2. Brazil fractionally better at 92 1/2. Granby 75 to 75 1/2. Cement and Quebec Ry. steady.

ALD. SIMONEAU MAKES COUNTER CHARGES.

(Continued from page 1.)

want to say that not even Ald. McManamy will say that you have acted dishonestly." During his remarks Ald. Ledoux referred to the way Ald. McManamy had tried to obstruct the paving. Ald. McManamy immediately rose in his place and denied this. He was in favor of paving, and having it done by experts.

Ald. Ledoux again addressed the Council, and made the proposition that every alderman who had acted irregularly should resign, as did Ald. Simoneau.

Ald. McManamy: "I don't know what you said." Ald. Ledoux: "You only understand when it suits you." Ald. White followed Ald. Ledoux and stated that Ald. Simoneau had in no way lost his confidence. The whole Council decided that Pioneer Asphalt was what was needed, and no further action had been taken to change this opinion. He wanted the citizens to know that the Council had in no way lost confidence in Ald. Simoneau.

Ald. Ewing stated that the only question he could see was whether Ald. Simoneau had purchased the asphalt at the lowest price at which it could be held. He did not think it was wise to censure Ald. Simoneau when he had acted in good faith. He regretted to see Ald. Simoneau resign.

Ald. Brault did not think the resignation should be accepted, and felt that the Council should buy the asphalt as recommended.

Ald. Jenckes also regretted that Ald. Simoneau had sent in his resignation. He felt that there was not a competent man for the Road Department in the Council.

ALD. SIMONEAU.

The chairman of the Road Committee gave a little inside history as to the working of his committee. When the committees were struck at the beginning of the year, each chairman was given the right to choose the other members. This had been refused him, and the only man he got that he asked for was Ald. Jenckes. Ald. McManamy was forced on him, and he made the statement at the time that he did not think he could do anything with his committee. The Road Overseer was taking orders from other members of the Council, namely Ald. McManamy and Thompson. He had no control over his committee.

He admitted that he had acted irregularly in the purchase of the asphalt. It was now stored on City property, however, and the City would have to pay for it. The Council had refused to pass a resolution asking the company to remove it.

Referring to Ald. Thompson's change of opinion on the question of asphalt, Ald. Simoneau said that it was well known that Ald. Thompson danced to every tune Ald. McManamy played.

Ald. McManamy: "What about the work on Murray street?" Ald. Simoneau: "The Road Committee ordered it." Ald. McManamy: "No, sir, they did not." Ald. Simoneau: "Ask Ald. Jenckes." Ald. Jenckes: "I back Ald. Simoneau up on that. The whole committee authorized it."

Ald. Thompson replied that it was too bad Ald. Simoneau would not follow someone. It was too bad he did not follow Ald. Jenckes' advice about the work in front of the Ansell property, East Ward. Had he done so it would have saved the city a great deal of money. He stated that he followed Ald. McManamy when he was right. With reference to the paving, Ald. Thompson stated that he told the Mayor at the time that he had his doubts whether Pioneer asphalt was suitable for Wellington street.

MAYOR CAST DECIDING VOTE. The motion that the resignation be accepted was then put to a vote and resulted in a tie, as follows: For—Ald. McManamy, Ledoux, Rousseau, Thompson, Simoneau. Against—Ald. L. H. Olivier, Ewing, Brault, C. F. Olivier, Jenckes.

Ald. White had left the meeting before the vote was called. The Mayor cast his vote against the motion. Ald. Simoneau stated emphatically that he would not act again.

NOTES. The Council refused to sell electricity to the town of Bromptonville, stating that the policy of the department was not to sell power out of the city. The revision of the valuation roll was completed and the homologation moved by Ald. McManamy and seconded by Ald. Brault.

THE WELLINGTON STREET SEWER. Another question which occupied considerable time, last evening, was the question of sewers on Wellington street. Ald. McManamy asked for permission to speak on a question of privilege. He took exception to a statement made by a local paper to the effect that he had ordered the sewer pipes. He proved that this was not the case, and that the pipes had been purchased through the Secretary after he had obtained the approval of the majority of the Council. Tenders had also been called for.

Referring to Ald. Simoneau's statements at the last meeting that the old sewer on Wellington street was sufficient, that the city had wasted money in building the new one, Ald. McManamy quoted statements to show that even Ald. Simoneau himself condemned the old system. The City Engineer, in his report of Sept. 9th, stated that the old sewer had been in existence on Wellington street for thirty years, and that it was time to make a change. When the above mentioned report was submitted Ald. Simoneau roundly condemned the City Engineer for not informing the Council of this before he did.

Continuing, Ald. McManamy said: "I have been in the Council for over thirty years, and have never been ac-

cused of boodling. Now a young man who is in a hole himself insinuates certain things. You know misery likes company, and Ald. Simoneau would like to have me. I assure you I won't associate with him."

ALD. SIMONEAU'S EXPLANATION.

Ald. Simoneau stated that when the report of the City Engineer was brought in it was not read to the Council. Ald. Ledoux made certain remarks on it, and basing his opinion on Ald. Ledoux's explanations he had condemned the City Engineer. Later, he received a letter from the City Engineer explaining his position. The City Engineer had also told him he had never been consulted about the new sewers, simply being asked to prepare plans.

ALD. LEDOUX.

Ald. Ledoux followed Ald. Simoneau. He reviewed the circumstances leading up to the bringing in of Mr. Tremblay's report. In the first clause of the City Engineer's report the old sewer was all right, and immediately after condemned it. Before the meeting he had asked the City Engineer if the present system would meet the requirements for twenty years. The reply received was that the sewer was not satisfactory. Ald. Ledoux said he was the one who scored the City Engineer, and if he had misunderstood the report he should have been advised of this, and not Ald. Simoneau, who received the letter of explanation. The Engineer admitted having been asked to make the plans, but said he had not been consulted. It was his duty to advise the Council when he was asked to make the plans.

LETTERS TO THE EDITOR

INFORMATION WANTED.

Editor Record. Sir:—As there are quite a number of new settlers, both in Sherbrooke and all over the Townships, who are qualified to vote at elections for City Councils and M.P.'s, both Provincial and Dominion, who do not know what qualifications a person must have in order that he may be elected a member of such Council or Parliament, and probably there are many older residents in the same dilemma, please allow me to ask that you have the kindness to publish in the columns of your paper: (a) The qualifications of City

Councillors and Mayor. (b) For Member of Provincial Parliament. (c) For Member of Dominion Parliament or any other you may think of interest to the public, say Rural Councillors, School Commissioners, etc. In granting this request I am quite sure that you will be rendering a public service that will be much appreciated by your large constituency. ## Budget of News From Various Sections of Country.

**KENNEBEC ROAD.**  
Mrs. Wilson, of Sherbrooke, is visiting friends in St. George while on her way to Marlow. Miss Ray and her brother expect her to spend the winter with them.

Mr. John Owens has been visiting Miss Ray and her brother for a few days. He had with him a sample of mineral containing gold from a vein which he discovered some time ago. The vein is about twelve feet in thickness and is almost perpendicular, which it is said, makes it favorable for mining operations. It would seem to be very valuable if it should turn out to be all like the sample Mr. Owens sent to an analyst in Montreal, and the mine should prove valuable to him whether on his land or not.

Zinc roofing is now beginning to be the order of the day. Mr. L. Rainey's house has just been added to several on the "Road" with this roofing material.

Mrs. Rainey is on the sick list and has been under the doctor's care for about ten days.

A couple of serious accidents have just been reported. A Mr. Holden, of Jackman, has been shot. He was cooking for some hunters who, after their meal, went out hunting. Mr. Holden went out shortly after with his rifle and was seen moving by one of them who mistook him for a deer and shot him. The other case was the wounding of a horse. Mr. R. Owens had shot a deer and went for his horse and sleigh to get him home. He tied the horse to a tree while he went into the thick woods to get the deer. Another hunter spied the horse, took him for a deer and fired. While aiming a second time he noticed the sled attached to him and when he came to the horse he found that the bullet entered his breast. The veterinary was sent for and gave it as his opinion that the horse would recover all right after a time. Such accidents should surely teach a lesson to hunters not to fire at any object until they are absolutely sure what it is.

## CASCARETS CLEANSE LIVER AND BOWELS

No headache, bad taste, sour stomach or coated tongue by morning

It is more necessary that you keep your Bowels, Liver and Stomach clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets—or merely forcing a passage-way every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the intestines and bowels.

No odds how badly and upset you feel, a Cascaret to-night will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children.

## "HAIR THAT GIVES FATHER TIME THE LAUGH"

We are just about as old as we LOOK. People judge us, by the way we LOOK. The man or woman with grey hair is beginning to get in the "Old Timer's Class." This twentieth century does NOT want GREY hairs—it wants the energy of youth. The big things are being done by the YOUNGER generation.

There's a sort of "Has Been" look about those "Grey Hairs." There's always one to criticize and smile scornfully. Father Time is a stern disciplinarian. Get the best of him. Give him the laugh. Do not be a "Has Been." It's unnecessary. Use HAY'S HAIR HEALTH.

months for the purpose of instructing the Danville Academy Cadets twice a week. He also lectures to the officers and N. C. O.'s of "A" Squadron, 11th Hussars, every Tuesday and Friday evening in the Temple Room. This is a work that should be encouraged by the citizens of Danville as the instruction given by him will be beneficial to the young boys at the Academy and also do away with the necessity of the officers and Non-Coms. being away from their business while qualifying for the rank which they hold or wish to hold in the Danville Squadron. Sgt. Major Karcher will also deliver lectures in the Danville Academy. It is earnestly hoped that all officers and N. C. O.'s of "A" and "B" Squadrons will avail themselves of this splendid opportunity to properly fit themselves to command their respective units and thus bring the regiment up to a proper standard of proficiency. It is through the efforts of Major J. H. Bouteille that the services of Sgt. Major Karcher were secured.

## GOVERNMENT CREAMERY AT BROME.

Brome, Nov. 21.—(Special)—Messrs Green and McClay have completed their contract in the erection of the new government creamery. The structure is a good one. The roof of the main building is 60 by 25 feet, while the annex to be used as ice house and refrigerator is 34 by 25. The building is of wood covered with galvanized iron shingles. The tall smoke stack is of brick and situated at the east end outside. The entire flooring is of concrete. The bottom of the house is laid with a very thick application of cinders. The milk receiving room is partitioned off with glass so no cold may enter the creamery while the receiving is taking place. A new 15-horse power boiler has been installed. An up to date pasteurizer has arrived and is expected that within the next three weeks the whistle of the new creamery may be heard. The Government creamery building is situated near Brome Exhibition grounds adjoining the west corner.

## ANNIVERSARY OF WATERLOO METHODIST CHURCH.

Waterloo, Nov. 21.—(Special)—The arrangements have been completed for the anniversary services of the Methodist Church, which will be held on Sunday and Monday, the 24th and 25th of November, and more than usual interest is being taken in the event. The different committees have been named and are working hard to make it a success. On Sunday morning and evening the Rev. W. S. Lennon of Granby, will occupy the pulpit; on Monday evening from 6 to 8 o'clock a chicken pie supper will be served by the ladies of the congregation in the lecture room of the Church, after which the Rev. W. S. Lennon will lecture in the Auditorium on the subject "The Drawing Church." Addresses will be delivered by the Rev. E. A. Pates of Knowlton; Rev. Martin Gibb of South Stukely and Rev. Mr. McLaren of West Sheford. The Choir will be present and enliven the evening with several selections. A large attendance and an enjoyable time is looked for, as the Methodist church anniversary is one of the Church events of the season.

## THE LATE ALFRED SISCO, COAT-MAKER.

Coaticook, Nov. 21.—(Special)—The funeral service in connection with the late Alfred Sisco took place at the Methodist Church yesterday afternoon, the Rev. A. H. Visser officiating, assisted by Rev. D. W. Terry of the Baptist Church. Mr. Sisco died suddenly at the Protestant Hospital, Sherbrooke, last Monday morning, as previously announced. He was taken suddenly ill while in his usual health and underwent an operation in the hospital. He had recovered sufficiently so that it was the intention to allow him to go home by the noon train Monday. While making preparations for leaving the hospital heart failure ensued and he expired. Mr. Sisco was born in Jay, Vt., seventy-one years ago and had lived in Coaticook forty years. He married his present wife, nee Maria Moyle, twenty-three years ago and leaves her and four children, three sons and one daughter.

Mr. Sisco was a builder by trade, and being thorough and well up in the art his services were sought at different points throughout the Townships where he constructed many buildings. He also built a number of buildings in the town of Coaticook. These he generally disposed of soon after construction. Although well advanced in years he always enjoyed good health and it would hardly be thought that he had reached the appointed three score years and ten. His demise has caused general regret on the part of his fellow citizens of the place where he spent so many years, realizing as they do that in his death Coaticook has lost an enterprising and worthy citizen.

The funeral was in charge of undertaker Knapp, the bearers being Messrs. F. H. Nungs, A. A. Woodman, A. F. Andrews, D. P. Baldwin, A. L. Dupuis, and J. N. White. He was interred in Mount Forest Cemetery. Among the relatives from a distance who attended the funeral were the three brothers of deceased, Messrs John Sisco, William Sisco and Gladden Sisco. Other relatives attending were Messrs. Earl Sisco, Allen Sisco, Allan Moyle (Lancaster) and Mrs. H. Corliss.

## ELECTRIC LIGHT AT HATLEY.

Hatley, Nov. 21.—(Special)—The electric lights were turned on for the first time on the streets yesterday.

## EXTENDING SIDING AT AYER'S CLIFF.

Ayer's Cliff, Nov. 21.—(Special)—The Boston & Maine are extending their present siding as far south as Bang's property. This was found necessary to cope with the increase of traffic and crossing of long trains here which is a meeting place.

## BALKAN ALLIES WANT THE CESSION

(Continued from page 1.)  
terms offered Turkey by the Balkan nations are neither in form nor substance uncompromising, according to information received from an authoritative source in Sofia. They leave the door open to eventual modifications by negotiations, so that it may be assumed that Turkey will accept them and that a truce will be brought about.

## FROM WAR TO DIPLOMACY.

London, November 21.—The war has shifted for a time from the field of arms to that of diplomacy. It may be that the war is near to an end. Plenipotentiaries for the belligerent powers will meet to-day at the village of Hademken, a few miles outside of the capital, for a preliminary discussion of the terms of an armistice.

The sweeping terms which the allies were said to have demanded yesterday as a basis for the armistice appear not to have been advanced, but the plenipotentiaries may not know the level of the platform until they meet for the discussion, and it is almost certain that it will be on the basis of the Balkan States holding all the conquered country until a permanent treaty of peace is signed.

## BATTLE OF TCHATALJA.

London, November 21.—Ashmead Bartlett, the war correspondent of the Daily Telegraph, in a despatch dated November 18, and sent from the front by way of Constanza, claims that the battle before Tchatalja on Sunday and Monday resulted in a great Bulgarian success.

## HORRORS OF CHOLERA.

London, November 21.—Ellis Ashmead Bartlett, in a despatch to the Daily Telegraph from Constantinople, describing the terrible ravages of Asiatic cholera among the Turks, says: "Every village through which I passed has its victims; every road over which the troops move to the front is marked by a trail of corpses or of men lying by the roadside. As there are no medical arrangements of any sort, it is impossible to succor and save any of these wretched victims of the war."

## SYNAGOGUES DESTROYED.

London, November 21.—A Sofia despatch to the Standard says that the delegates appointed by the Balkan league to discuss the armistice include Bulgarian, Greek and Servian officers.

A Constantinople despatch to the Jewish Chronicle asserts that the Greek soldiers at Saloniki sacked the Jewish quarter, ransacking and destroying the synagogues and attacking the women. Terror and desolation prevail, and, according to the despatch, the chief rabbis of Saloniki and Constantinople are invoking the protection of the French and British ambassadors.

## GIRL ARRESTED FOR ARSON.

Fraserville, Que., Nov. 21.—Fraserville has its sensation. On Wednesday in the midst of the joyous party which was celebrating the wedding of her own sister, Auxilia Michaud, a girl of 19, was put under arrest by Bailiff Martin, charged with arson, following a double attempt against St. Patrick's Church here.

## GUNMEN TO BE SENTENCED TUESDAY.

New York, Nov. 21.—Sentence of death on the four gunmen convicted Tuesday of murdering Herman Rosenthal will be pronounced by Justice Goff on Tuesday, Nov. 26. He so announced when the prisoners were arraigned before him in the criminal branch of the Supreme Court yesterday. In the meantime they will be held in the Tombs. After sentence is passed they will be taken to Sing Sing and placed in cells adjoining that of Charles Becker.

## LORD KITCHENER A CANADIAN COLONEL.

London, Nov. 21.—Lord Kitchener has been appointed an honorary Colonel in the Royal Canadian Engineers.

## MARRIAGES.

DREW — STANBRIDGE. West Bolton, Nov. 21.—(Special)—The marriage is announced of Frances Elizabeth, only daughter of Mr. and Mrs. Leighton Stanbridge, of Harry Hawley Drew, eldest son of Mr. and Mrs. Henry Drew, on Tuesday, Nov. 12th, in Greenfield, Mass. Both bride and groom were former residents of this place.

## A DESPERATE MONARCHY

AUSTRIA TRYING TO PROTECT HER OWN INTERESTS AT EXPENSE OF SERBIA.

The issues of peace or war in Europe, apart from the present conflict, are in the hands of Austria and Serbia. That has seemed probable from the beginning. Now it is unmistakable. Serbia wants some of the fruits of her labors, sacrifices and victories in the form of a territorial outlet to the Adriatic, which will give her the commercial independence which is essential for her welfare, and she sees it on land which she has now reconquered. Austria declares that she shall not have it, and prepares to employ vasty superior military power to prevent her from getting it, or to compel her to relinquish it if she precipitately seizes it.

There need be little wonder as to Austria's motives. It is not that commercial relations with Serbia are of paramount importance to her, or that Austria is inspired with unselfish desires to see Albania kept intact and made autonomous. Rather it is that she wants to repress, dwarf and cripple Serbia, lest the development of that kingdom into a greater and really independent power, with a frontage on the high seas, should incite the five or six million Serbs now in the Dual Realm to seek union with their compatriots. Croatia and Slavonia have long been the most discontented and mutinous of all the Hungarian provinces, and they, with Dalmatia and the southern part of Coastland, and with Bosnia and Herzegovina, are almost purely Serbian.

Their secession would be a heavy loss to the Dual Realm, while their incorporation with Serbia would raise that power to formidable proportions. It is against such a catastrophe to herself that Austria-Hungary is now working, with all the resources of her masterful diplomacy, and with, if need be, all the ruthlessness of her absolutism, such as she so long applied to various Italian provinces. On the other hand, Serbia, with perhaps no design against any territory now actually in Austrian possession, is insistent on improving this one supreme opportunity of securing what she regards as her right and her necessity. If she loses, practically all her fighting and expenditure of blood and treasure will have been in vain, and she will be doomed to remain an inland country and a commercial appendage of her neighbor. She is not likely to yield lightly to what she regards as the oppressive demands of Austria, and if she should resolve to resist with arms, and her allies should stand with her, a serious struggle might ensue. In that case the course of Rumania, which during the present war has been somewhat modifying, might be of paramount importance. She has no great love for the Balkan League, but her hatred of Austria-Hungary is intense and her relations with Russia are intimate.

## WHERE THEY HAVE A SIX DAY WEEK.

As a result of an attempt to have theatres and music halls opened on Sundays there has been a great revival of the Lord's Day observance movement in the old country. In this connection it is curious to think that there is a tiny island in the South Pacific where there is no seventh day, six days being the allotted span of every week. All travellers know that time is lost or gained in travelling east to west, and Chatham Island is just on the line of demarcation between times and dates. To keep in line with the almanac, therefore, the plan has been adopted of jumping the afternoon of one day and the morning of the next in every week, so that the islanders commence Wednesday, but at twelve o'clock switch on to Thursday afternoon.

## ASSISTANCE TO AGRICULTURE.

SUBSIDIES WILL BE GRANTED TO PROVINCES BY DOMINION GOVERNMENT.

Ottawa, Nov. 21.—It is understood C. C. James, formerly deputy minister of agriculture, who has been working on a plan for carrying out the Government's policy of assisting agriculture, has submitted his report to the minister.

Mr. James made a tour of the Dominion and visited all of the provinces, conferring with the various governments. Last session appropriations in the shape of subsidies to the provinces, the money to be spent under an agreement with the Dominion, were voted. This plan has worked satisfactorily, and it is understood Mr. James will recommend subsidies to be granted in the future on a larger scale to be spent by the provinces under arrangement with the Dominion, and subject to general supervision by the federal department of agriculture.

## FACTS ABOUT THE SEA.

Not only is the sea the reservoir into which all rivers run, but it is the cistern that finally catches all the rain that falls, not merely upon its own surface, but upon the surface of the land and upon the roofs of our houses. It has been calculated that each year a layer of the entire sea fourteen feet thick is taken up into the clouds. The vapor is fresh, and, if all the water could be removed in the same way, none of it being returned, there would, it is figured, be left a layer of pure salt 230 feet high on the bed of the Atlantic.

## SONG THAT SERBIAN SOLDIERS SING.

The Servians, writes Mr. Bennet Burleigh, the veteran war correspondent, have their war song, which is sung to a lively air, not unlike the "British Grenadiers." It is usually sung by the conscripts as they march to quarters for enrolment or proceed to the railway station to go to the front. The following is a rough translation: Gaily the Servians goeth to war; He scents the battle from afar; He careth not to pick new quarrels, But joyleth much to pluck green laurels. The cannon's smoke does not affright, To crush the cruel foe in his delight.

ured, be left a layer of pure salt 230 feet high on the bed of the Atlantic. These figures are based upon the assumption that three feet of water contain one inch of salt, and that the average depth of the ocean is three miles.

At a depth of about 3500 feet the temperature is uniform, varying but little between the poles and the equator. The cold water is below. In many deep bays the water begins to freeze at the bottom before it does at the surface.

The pressure of water increases with the depth. One mile down this pressure is reckoned at more than a ton to the square inch—in other words, more than 133 times the pressure of the atmosphere. The death of the sea presents some interesting considerations. If, it is claimed by one authority, the Atlantic ocean were lowered 6564 feet, it would be reduced to half its present width. If it were lowered a little more than three miles the result would be dry land all the way between Newfoundland and Ireland. If the Mediterranean were lowered 660 feet, Africa would be joined to Italy, and three separate seas would remain. Harper's Weekly.

**COMIC SONG AT CHURCH.** (From a London Letter.) An amusing story of a gramophone in a church is told at the expense of a devout congregation not far from London.

It has been the custom to employ the graphophone for preaching purposes in the small parish, where there is no regular minister. A Sunday or two ago the congregation was assembled for the service and when the time came for the sermon the machine was brought in and set reverently on the table set aside for it.

All was solemn attention. The rizz-z-z-z of the machine could be heard distinctly and then the machine announced: "Josephine's Pig!

A comic song!"

The service came to an abrupt end amid considerable confusion.

**Leader of Opposition Says** Expenditure Too Much On Special Warrants

**FIRST DIVISION IN THE NEW** HOUSE RESULTED IN MAJORITY OF 50.

Quebec, Nov. 21.—An attack was made on the Government yesterday afternoon at the session of the Legislature by the leader of the Opposition in the debate on the budget speech for the large amount of money spent since last session on special warrants, and consequently without the authorization of the members, who were elected to control such expenditures. As the total was \$670,000, Mr. Tellier characterized the matter as an abuse and a scandal. The leader of the Opposition inquired why were members elected to the Legislature when so much money was disbursed without their consent, and without their control.

The first vote of the session was taken arising out of the debate, and it resulted in a party division of 49 to 15. Mr. Godfroi Langlois supported the Government. Mr. Lavergne, who was present earlier, had left and did not vote.

**MONTREAL CITIZENS DEMAND** THAT CONTROLLERS BE MADE REAL ADMINISTRATORS (Montreal Witness)

A reduction of the powers of the City Council and an increase in the powers of the Board of Control by making the Controllers the real administrators of the city, were the demands of representatives of various important organizations of the city at a meeting with the city members of the Legislature in the board room of the Chambre de Commerce on Saturday morning.

The Hon. Jeremie Decarie expressed sympathy with this movement, and said that the Provincial Government would seriously consider their representations.

Representatives of organized labor said that they were tired of hearing men in the City Council trying to bribe the workmen with half a cent or more an hour increase, and delay the work that would give them employment five or six months.

Various speakers made it plain that the foregoing propositions were only view as temporary expedients until a more business like method of conducting the affairs of the city might be put into effect.

**CASES HEARD BEFORE JUDGE CORRIVEAU**

**Horse Thief Gets Off With Sentence of Six Months In Jail.**

ERNEST LAMARCHE FOUND GUILTY OF DESTROYING THE PROPERTY OF THE E. T. A. A.

Judge Corriveau presided at the weekly term of the Magistrate's Court yesterday and dealt with several cases.

In the case of H. Ross vs. George Cabana on a charge of horse stealing, the defendant, who had been remanded to jail for preliminary hearing, appeared before the Court. The evidence showed that the accused, who had been working for Mr. Ross, hitched up a horse and buggy and drove to Richmond where he attempted to sell the harness and a couple of blankets to Mr. J. H. Lane, claiming that the horse had been raised at Darcy Hey Stock Farm but that it belonged to him. He was committed to take his trial at the next term of the Court of King's Bench, and subsequently asked for a speedy trial and pleaded guilty to the charge. Considering that this was his first offence, and that he was under the influence of liquor at the time and the fact that Mr. Ross claimed him to be an honest and reliable man up to the time of the theft, the Court sentenced him to six months at hard labor in the common jail at Sherbrooke.

**HAD NO CHAUFFEUR'S LICENSE.**

The case of Jas. F. Morkill vs. G. A. LeBaron for violation of Quebec Motor Vehicle Laws by allowing his automobile to be driven by a person not holding an operator's or Chauffeur's license which had been adjourned until to-day was the next case called. The defendant pleaded guilty to the charge and was condemned to pay a fine of twenty dollars and costs or thirty days in jail.

**OPERATOR DRUNK WHILE ON DUTY.**

Joseph C. Paradis of Magog, a telegraph operator in the employ of the C. P. R. appeared before the Court on the charge of having been under the influence of liquor while on duty in an employment having to do with the movement of trains on the said C. P. R. He pleaded guilty to the charge and was let off with a fine of twenty-five dollars and costs or thirty days.

**DOUBLE HEADED SENTENCE.**

Ernest Lamarche, who had been arrested at the instance of the E. T. A. A. on a charge of having broken into the building on the Exhibition grounds and stolen various small articles, and having caused damage to the building and contents, appeared before the Court for preliminary hearing. The evidence showed that the accused, who was sixteen years of age in October last, accompanied by another youth of nine had visited the exhibition grounds on the eleventh of November. They broke into the automobile building and there obtained some tools from the automobiles and proceeded to the Secretary's office where they removed the shutters from window, broke the glass and entered. There they took possession of a number of rubber stamps, a box of keys for the different buildings as well as the keys for the turnstiles and various other office appliances. They then entered another building by breaking open the lock and there took possession of a large basket of electric light globes and amused themselves breaking them by throwing them on the fence. They afterwards sold several of the articles to one Paradis to obtain money to buy cigarettes, claiming that they found them in a rubbish dump.

The defendant also admitted that he had broken into the St. Francis Golf Club as well as into the Rifle Ranges on the Brompton Road and had stolen various small articles which they had sold. A quantity of the goods stolen were found in the possession of Lamarche and his companion, and in the possession of Paradis.

The defendant was committed to take trial at the next term of the Court of King's Bench and subsequently asked for a speedy trial and pleaded guilty to the charge.

The Court in passing sentence remarked that the right place for the defendant was the reformatory school but as he was over sixteen years of age it would be difficult to obtain his admissions to that institution, but that an attempt would be made to have him admitted and that the sentence of the court was that he be imprisoned in the common jail at Sherbrooke for the space of two months, to be kept as much as possible away from the other prisoners, and that at the expiration of this sentence to be sent to Montreal Reformatory School if possible, for the space of two years.

**HON. G. E. FOSTER SAILS FOR CANADA**

London, Nov. 21.—Hon. G. E. Foster sailed for home Tuesday on the St. Louis, in order to be present during the discussion of the naval policy. He expressed great satisfaction at the election of Hon. Louis Calder.

"This gives a striking indication of the sentiments of the Province of Quebec in reference to the Government's new policy. The electors," said Mr. Foster, "have evidently approved of the idea that something should be done in the naval defence of the Empire. Although they are not in possession of the details, they have voted overwhelmingly in favor of the principle."

**NEW INDUSTRY TO BE ESTABLISHED IN THE TOWN WITH LOCAL CAPITAL.**

Magog, Nov. 21.—(Special)—There will be no shortage of water or power here this year, as the level of the lake is now within a very few inches of the spring's high water mark.

**PREDICTION COMES TRUE.**

Six weeks from the time snow is first seen on Mount Orford there will be snow on the ground in the prediction always made in this vicinity, and, as always, was true this season, as the 15th of November saw the ground white with snow. Lumbermen say there is six inches in the woods.

The night school that has been held at the Boys' French School for the past several winters has again started up for this season, and a goodly number are taking advantage of this opportunity to better themselves, as this is what the reverend brothers are wishing to do.

**FISH HATCHERY OPERATIONS.**

Messrs. Deseve and J. R. Merry are having great success in their spawning operations for the Government Fisheries Department as far as the fish are concerned, they having in captivity nearly 250 fish, each weighing about 10 lbs or more. So far not much spawn has been secured, but they expect conditions to improve soon.

**NEW INDUSTRY EXPECTED.**

Magog has hopes of seeing a new industry started here in the near future, under the name of the Magog Foundry Co., Ltd. It is, in fact, well under way, as it has become incorporated and the prospectus shows that the promoters are chiefly Magog men. The capital stock is put at \$49,500. The names of the directors are as follows: President, Dr. G. A. Bowen; vice-president, M. C. Gendron; secretary-treasurer, Alf. Tourigny; directors, J. L. Tetreault, A. C. Gendron, Jos. Ouellette, Geo. H. Patno, A. G. Dolloff. The object of the company is to carry on a metal casting business. The company's corporate powers include the manufacture, sale, lease and purchase of machinery, tools, pipes, hydrants, rails, boilers, stoves, furnaces, locomotives, gas, gasoline, steam and electric motors and any other class of goods in which metal enters.

**SUFFERING FROM PTOMAINE POISONING.**

**SHERBROOKE'S INDUSTRIAL FUTURE**

**New England Business Man's Valuable Suggestions**

**BRANCHES OF N. E. CONCERNS SHOULD MAKE SHERBROOKE CITY OF 100,000 POPULATION.**

Mr. W. E. Perkins, a native of the Townships, but who has wide experience and extensive business associations in New England, was present at the meeting of the Council of the Board of Trade last night, and gave a very interesting and practical talk.

He argued that the New England States was the one territory from which Sherbrooke could expect to draw new industries and that this city's claim to Canadian branches of New England concerns exceeded that of any other city in Canada. A New England manufacturer could reach his Sherbrooke branch in a night's run. Cheap power and good labor were, also, features of great importance.

Mr. Perkins was of the opinion that if gone after vigorously and judiciously enough industries, branches of New England concerns, could be secured to make this a city of 100,000 population.

Mr. Perkins was instrumental a few years ago in securing the establishment in Sherbrooke of the Sherbrooke Machinery Company. He was closely in touch with many business men in New England.

"Concentrate your efforts right in this territory to the South" was his advice. "Don't go simply after those concerns which have decided to come to Canada but after those concerns which ought to come to Canada but have not given consideration to the matter. Show them how much they are paying in duties every year and how much they will save by manufacturing in Canada."

Mr. Perkins related his experience in getting a shoe factory for Berlin, N.H., which was the real beginning of the industrial boom in that city. A factory was actually built for the concern, individuals subscribing material or labor and erecting the building.

He regarded Sherbrooke as a town possessing very special advantages and saw no reason why it should not grow rapidly to a large city through the incoming of new industries. The New England States was the territory to look to for these.

**CANADA FILES AN OBJECTION.**

Washington, Nov. 21.—Through its Minister of Justice, Hon. C. J. Doherty, the Canadian Government filed objections before the International Joint Commission to the proposed construction of an international dam at Kettle Falls, the outlet of Rainy Lake, on the Minnesota-Manitoba boundary. The Canadian Government protested that the dam would affect the levels of the Lake of the Woods, which are now a matter of arbitration between the two governments.

three miles from Magog. The price paid was \$4,000. Mr. Peasley is moving into town and will reside on the property recently purchased by him.

**NOTES.**

Miss Bernice Abbott is ill with an attack of appendicitis, and it is thought an operation will be necessary. Her father, Mr. W. F. Abbott, is a so confined to his bed with quite a severe illness.

**PROTECTION OF SHEEP**

**Special Tax Will be Imposed By Municipalities On Dogs.**

**BILL TO EMPOWER THEM TO DO SO INTRODUCED.**

Quebec, November 21.—A special Government bill is to be created for the encouragement of the raising of sheep by protecting these animals from the attacks of vicious dogs, especially in the Eastern Townships. Hon. Mr. Caron, Minister of Agriculture, has given notice of a bill with that object in view which will be submitted to the Lower House without delay. Discussing the matter yesterday the Hon. Minister Caron explained that many complaints had been received about the loss of sheep and the Government had resolved to meet the losses of the farmers by giving them a protection such as existed in Ontario. The bill will require rural municipalities, when requested by twenty-five proprietors, to impose a tax of one dollar on male and four dollars on female dogs. The proceeds of the tax will be used for the creation of the sheep indemnity fund to cover the losses of farmers due to the dogs in their neighborhoods. In the event of no damage being suffered after the tax is imposed, the amounts collected will be remitted, and if more is collected than is wanted to defray the damages the balance will be paid back.

So great has been the losses from dogs that many farmers have given up sheep raising altogether, said Hon. Mr. Caron. In one instance forty sheep in one flock had been destroyed by these animals. In addition to protecting sheep herds from such attacks, the Government desired to encourage the raising of sheep, which should, according to the Minister of Agriculture, be an important rural industry in the province of Quebec. The notice of the bill is entitled "A law amending the status of 1909 regarding the creation of an indemnity fund destined to protect proprietors or owners who have suffered loss to sheep."

As will be remarked, the bill will be imperative wherever a group of twenty-five rural owners of property call upon a rural municipality to enforce the collection of the tax. One effect will probably be fewer dogs and certainly more sheep, and consequently more profit to the farmers.

Mr. Walker, member for Huntingdon wants the town councillors to receive remuneration when the same is approved by the electors and he has given a notice of a bill which he will submit. The bill was presented last year but was not acted upon.

**MILITANT LADIES SENT TO JAIL.**

**SMASHED SHOP WINDOWS IN BOND STREET, LONDON, DURING RAID.**

London, November 21.—Two suffragettes were sentenced to terms of imprisonment for window smashing by the judge of the London Court sessions yesterday.

Isabella Irving was sent up for six months, and Ethel Glade for four months, on the charge of damaging shop windows in Bond and Oxford streets, on November 6th, when they participated in a raid against the women as a protest against the rejection by the House of Commons of an amendment providing for woman suffrage in the Home Rule Bill for Ireland.

**SUSPENDS IMMIGRATION RULE.**

Ottawa, November 21.—The Immigration Department has suspended until December 1 the application to British immigrants of the requirement that they shall have \$50 in cash. The purpose is to encourage immigration from the Old Country which in recent years has shown a tendency to fall off.

**Local Government Bureau Expects to Receive Goodyly Number.**

**MR. F. MILLETTE URGES IMMEDIATE APPLICATIONS. HOW E. T. IS BEING ADVERTISED.**

Mr. F. Millette, superintendent of the Provincial Employment Bureau, Sherbrooke, is already making his plans relative to the placing of the Old Countrymen who are expected to come into this section next spring. Mr. Millette's office will be a clearing house for the new arrivals in the Townships.

Mr. Millette stated to the Record yesterday that his office had secured employment for a very considerable number of people since it was opened a few months ago.

He hopes, through the immigration movement, to fill the needs of the Eastern Townships farmers in the way of farm help, and, also, of many households for domestic help.

Mr. Millette asks that all applications be sent in to him at once. He is having blank applications forms prepared, which will be sent out to applicants.

Those who wish to secure farm help, domestic servants, etc., in the spring should write Mr. Millette at once, so that the lists may be in the hands of the E. T. agents when they leave for the Old Country shortly.

**EASTERN TOWNSHIPS ADVERTISING.**

In the meantime the Eastern Townships is getting a good deal of advertising in the Old Country. There is scarcely an issue of any of the Old Country publications devoted to Canadian interests which does not contain an article or illustrations relative to the Townships. The matter for these articles is supplied in some cases by the Eastern Townships Associated Boards of Trade, in others by Hon. Dr. Pelletier, and in some cases by representatives of the publications who have visited the Townships.

A copy of "The Field," a London publication known as "The Country Gentleman's Magazine," has just come to hand. It contains a three-column article with illustrations relative to the Eastern Townships.

The views shown include scenes from Sherbrooke Exhibition, farm and dairy scenes, and a residential street scene in Sherbrooke.

**ACCIDENTAL DEATH WAS THE VERDICT**

**Inquest Held over Body of Ubric Coutu, Gore Station.**

**THEORY COULD NOT BE ADVANCED AS TO WHAT STARTED FIRE IN BUILDING.**

Gore Station, Nov. 21.—(Special) Coroner Bachand of Sherbrooke presided at an inquest here yesterday afternoon into the cause of the death of Ubric Coutu.

As stated in a despatch yesterday the deceased met his death in a boarding house that was burned to the ground yesterday morning.

The evidence adduced at the inquest was substantially the same as that which has already been reported. No reason could be advanced as to how the fire started. The parties who first saw the fire and those who recovered the body from the ashes of the burned building were examined. The jury after hearing all the facts that could be advanced returned a verdict of accidental death.

**During Past Year Speciality Company Shipped 80,000 Chairs.**

**DECIDED AT THE ANNUAL MEETING TO MAKE ADDITIONS TO THE PLANT AT ONCE.**

Danville, Nov. 21.—(Special)—The annual meeting of the Danville Chair & Specialty Company, Ltd., was held in the office of the company yesterday.

The financial statement of the Secretary, Mr. J. E. Guilmette was submitted and unanimously adopted. The same board of directors was elected, namely, Messrs. Aime Chagnon, W. N. Paul, J. A. Boivin, Felix Leclere, J. H. Villandre, H. Girard and J. E. Guilmette.

The year has been the most successful one since the company was organized. The profits were over ten per cent. of the paid-up capital stock which were added to the reserve fund. The company propose to build a dry kiln 60 x 16, which will be fitted with the latest improvements.

During the year 80,000 chairs were shipped and \$20,844.81 were paid out in wages.

The prospects for the ensuing year are bright and with the added conveniences the company will be able to take care of all prospective orders.
