

Health Problems?

If you are concerned about your health or the health of a loved one
Call the Info-Santé health hotline.

8 1 1

1

A nurse is there to answer your call, 24 hours a day, 7 days a week.

If the Info-Santé nurse recommends seeing a doctor

Contact your family doctor or a “walk-in” medical clinic.

2

Montreal's network-clinics provide emergency radiology and lab tests. Most of these clinics are accessible on a walk-in basis 7 days a week, including holidays. The list of network clinics appears on pages 3 to 5.

If the Info-Santé nurse recommends going to emergency

Go to a hospital emergency department.

3

The emergency nurse will assess your health condition.

The waiting time to see a doctor will depend on the number of people in emergency, and on the severity of each case.

**2008
2009 Quick Reference Guide**

Worried about your health or the health of a loved one? Looking to improve your quality of life?

This “Access to Health Care in Your Neighbourhood” booklet provides an overview of the main health and social services near you. **Keep this booklet:** it will help guide you and keep you out of hospital emergency rooms to the extent possible.

There are many community organizations in your neighbourhood that work with health network institutions. Some are featured in this booklet. For more information on these organizations, or to learn about the health and social resources available in your community, contact Info-Santé by dialling

Access to Health Care in Your Neighbourhood is published jointly by the CSSS de Dorval-Lachine-LaSalle and the Agence de la santé et des services sociaux de Montréal.

CLSC de LaSalle: 514 364-2572

Network Clinics

Network clinics have been set up to improve access to medical services in Montreal and reduce the number of visits to hospital emergency rooms. Most of these clinics are accessible without an appointment, 7 days a week, including holidays. They offer radiology and lab tests for urgent cases.

*Please call ahead to save yourself
a trip if the clinic is closed.*

The Network Clinics in the Montreal Region Are:

the clinic's opening hours
before you go!**

Family Medicine Groups

A family medicine group (referred to by the French acronym GMF) is a clinic where patients register with their doctor in writing. This allows doctors and patients to develop a relationship of trust and work more effectively to prevent and treat health problems.

GMFs are a central element of Quebec's new strategy to facilitate access to family doctors. There are still relatively few GMFs in Montreal, but they will continue to develop in all neighbourhoods in the next few years.

The GMFs in your neighbourhood are:

Groupe de médecine de famille Dorval

Centre médical et professionnel Dorval: **514 633-1510**

Clinique médicale les jardins Dorval: **514 631-8861**

If You Are Looking for a Family Doctor

There is a shortage of doctors in Quebec. Various measures have been taken and new doctors are being trained, but it will be a few years yet before the situation rights itself. Right now, not all Montreal residents have access to a family doctor.

If you need to see a doctor but do not have a family doctor, go to your usual clinic or a network clinic (see the list of network clinics on pages 3, 4 and 5).

Try to always go to the same clinic. The medical team will have access to your file and will be better able to help you over the long term. Remember to call ahead so that you don't waste a trip.

Your CSSS Can Help You Find a Family Doctor if:

- you are 70 or older;
- you have a chronic illness: diabetes, high blood pressure, cancer, etc.;
- you are pregnant;
- you have just been discharged from hospital and require medical follow-up.

For information:

CLSC de Dorval-Lachine: 514 639-0650

CLSC de LaSalle: 514 364-2572

Be Well Prepared for Your Appointment

Here are several recommendations to help you prepare for your appointment with a doctor or other health professional.

1. Write down the following information:
 - your symptoms, their frequency, when and in what circumstances they appear;
 - your personal history, such as illnesses, injuries, hospitalizations and operations, along with their dates;
 - vaccinations that you have received and the dates;
 - any specific conditions (allergies, disabilities, pregnancy, breastfeeding, etc.);
 - the results of your latest tests (bloods tests, urine analyses) and recent x-rays, if you have them.
2. Take a complete, up-to-date list of your medications. Your pharmacist can provide a list of your prescribed medications. You should add any non-prescription medications, vitamins, food supplements and natural products that you are taking. If this is not possible, take all your medications with you.
3. Prepare a list of questions that you would like to ask.
4. On the day of your appointment:
 - arrive on time with a pen and paper so that you can take notes;
 - if you are unable to arrive at the scheduled time, notify the clinic as early as possible so that your appointment can be given to another patient;
 - do not hesitate to ask questions and write down the answers;
 - if necessary, ask a relative or friend to accompany you.

Seeing a Specialist

Usually, specialists only see patients who have been referred by a general practitioner. If you feel that you need a consultation with a specialist, you must first speak with your family doctor or a doctor at a walk-in clinic.

If your doctor requests an EMERGENCY consultation, he or she will direct you appropriately. If the consultation request is not urgent according to your doctor, he or she or the clinic staff will provide you with the coordinates of hospitals or clinics that you may contact to make an appointment. You must then handle the process yourself.

Seeing a Nurse

Nurses can offer advice and provide the required care following an injury, a chronic illness or surgery: removal of stitches, wound care and dressings, catheter and colostomy care, intravenous medication, etc. You can also see a nurse for questions about your health, or to obtain emergency oral contraception (morning-after pill).

To consult a nurse with or without an appointment contact your CSSS:

CLSC de Dorval-Lachine: 514 639-0650

1900 Notre-Dame Street
Lachine

CLSC de LaSalle: 514 364-2572

Blood Tests and Other Tests

For blood tests or any other tests, go to one of the following locations:

Centre hospitalier de LaSalle: 514 362-8000

No appointment necessary:
Monday to Friday, from 6:00 a.m. to 10:00 a.m.

Don't forget:

- the analysis prescription provided by your doctor;
- your health insurance card.

Ask your doctor if you have to fast or stop taking your medication prior to the test.

**Remember to verify
the office hours
prior to your visit!**

Women's Health

Need information on breast cancer screening, osteoporosis or menopause? Your CSSS promotes a comprehensive approach to women's health.

Breast Cancer

You need a requisition from your doctor to get a mammogram (breast x-ray).

FOR INFORMATION

CLSC de Dorval-Lachine: 514 639-0650

CLSC de LaSalle: 514 364-2572

or contact your doctor.

Quebec Breast Cancer Screening Program

If you are between the ages of 50 and 69, you will automatically receive a letter from the Director of Public Health inviting you to have a mammogram at a designated screening centre. The letter serves as a medical prescription.

On the day of your appointment you will be asked to fill out a consent form. You will then be registered in the Quebec breast cancer screening program and you will be invited to have a mammogram every two years.

For more information:

- consult your doctor;
- visit www.santemontreal.qc.ca, go to *Santé publique, Espace Grand public, Cancer du sein* (in French); or visit www.msss.gouv.qc.ca/PQDCS (in French and English);
- or call the Centre de coordination des services régionaux at 514 528-2424.

Services for Seniors and People with Decreasing Independence

The CSSS de Dorval-Lachine-LaSalle offers many services to seniors, people with decreasing independence and their family and caregivers. For example:

- evaluation of their overall health;
- advice on nutrition, exercise, healthy lifestyle habits and fall prevention;
- evaluation of home adaptation needs;
- respite for caregivers;
- assistance with personal care;
- foot care;
- nursing care;
- psychological support;
- end-of-life care.

These services may be offered at the CLSC, at home, in a day centre or day hospital, in a rehabilitation unit, or in a temporary or long-term residence. Some services are also provided in conjunction with community organizations.

When home care services can no longer meet the needs of a person with a significant loss of autonomy, social workers at the hospital or CLSC can help make a request for residential placement.

Day Centre

The day centre works jointly with the CLSC's home care services. Activities enable seniors to live at home while avoiding social isolation, help them to maintain their physical capacities and social skills, and provide respite to their caregivers.

If you feel that you need one of these services for yourself or a loved one, contact your CSSS. A professional will evaluate your situation to best meet your needs.

FOR INFORMATION

CLSC de LaSalle: 514 364-2572

Domestic Help

Through the Quebec Financial Assistance Program, housekeeping or spring cleaning services are available to people 65 and over at a reduced rate that is based on family income.

With a referral from the CLSC, people under 65 who require domestic help following surgery or as a result of an illness or any other incapacity may also benefit from a reduced rate. This makes it possible to obtain affordable domestic help while supporting a local business.

In your neighbourhood, these services are offered by:

9-1-1

Vaccination

Vaccination is the best protection against many serious illnesses. Do not hesitate to request vaccinations for yourself, your children and your loved ones. Basic vaccines for children and the tetanus vaccine for adults are offered free of charge* at the following facilities:

CLSC de Dorval-Lachine: 514 639-0650

CLSC de LaSalle: 514 364-2572

* Conditions apply for receiving certain vaccinations free of charge.

Flu Vaccine

A flu vaccine campaign is held every year. The vaccine is free for people at a high risk for complications, such as people aged 60 years and over, very young children, people with chronic illnesses, and the people around them. The pneumococcal vaccine is also offered to people aged 65 years and over and to people with a chronic illness.

CLSC de Dorval-Lachine: 514 639-0650

Improving Services

All efforts are made to ensure quality services at the CSSS de Dorval-Lachine-LaSalle. However, it may happen that you are not satisfied with the services you receive. If this is the case, share your dissatisfaction with the person responsible for the service concerned.

If you are still not satisfied, you may file a complaint with the Local Service Quality and Complaints Commissioner. If you need help filing your complaint, the Local Service Quality and Complaints Commissioner can assist you or refer you to an organization that has been mandated by the Minister of Health and Social Services to do so.

Local Service Quality and Complaints Commissioner of the CSSS de Dorval-Lachine-LaSalle

514 364-6700, extension 219
