POLES ARE FORCED TO WITHDRAW THEIR LINES Admiral Fisher Is Dead--Great Military Activity In Ireland

RUSSIAN FORCES WITHDRAWING TO NEW LINE AS RESULT OF GREAT POLISH BOLSHIEVICK OFFENSIVE

Evacuation of Brest-Litovsk, Vilna and Pinsk by the Poles is Reported This Morning--Report Would Seem to Indicate a General Withdrawal of the Polish Line to the Frontiers of that New Republic--Another Invasion of Persia by the Bolshevick Troops Is Reported--Soviet Officials Claim Further Advances Against the Poles.

(Associated Press Despatch)
PARIS, July 10.—Polish forces are withdrawing from Brest-Litovsk, Vilna and Pinsk as the result of the great Russian Bolshevick offensive, according to a despatch received by the newspaper L'Information this morning.

Evacuation of Brest-Litovsk, Vilna and Pinsk would indicate a general withdrawal of the Polish line to the frontiers of that new republic. Latest despatches from the Poles have shown the Poles to be struggling against the Soviet Armies a considerable distance east of Brest-Litovsk, although Pinsk would seem to be threatened by the advance of General Budenny, further south. Brest-Litovsk is approximately 120 miles east of Warsaw, and is a fortified town. It is located on the navigable river Bug, about ninety-five miles east of Brest-Litovsk, the principal city of Lithuania and is about 100 miles east of Warsaw.

(Associated Press Despatch)
DUBLIN, July 10.—In the Sinn Fein publication, the Irish Bulletin, issued last night, is a story of insurrection among the Irish Constabulary and the reported impending importation of English police, whose advent is to be accompanied by martial law, and other extreme measures.

According to the statements, confirmation of which cannot be obtained, the Royal Irish Constabulary at Listowel, County Kerry, were ordered on June 17, to hand over their barracks to the soldiers. Admiral John Fisher Died Early Today After Undergoing Serious Operation--Earned Title Of "Kitchener Of Navy"

He Emerged from His Retirement in October 1914 to Resume His Post as First Sea Lord of the Admiralty and Direct the Naval Warfare Against Germany--Credit Has Been Claimed for Him in the Bottling Up of the German Navy During the War.

(Associated Press Despatch)
LONDON, July 10.—Admiral John A. Fisher, first baron of Kilmorland and former First Lord of the Admiralty, died this morning. Lord Fisher underwent a serious operation yesterday and failed to rally.

Lord Fisher began his naval career in 1864, and while on active service took part in the Crimean, Chinese and Egyptian wars. He became Lord of the Admiralty in 1892, and First Sea Lord of the Admiralty in 1904, which post he held for six years.

He emerged from retirement in October, 1914, to resume his post as First Sea Lord of the Admiralty and direct the naval warfare against Germany. His vigorous policy caused him to be termed "the Kitchener of the Navy," and chief credit has been claimed for him in the bottling up of the German navy. Cabinet disputes led to his resignation in May, 1915, but he continued to serve the British Government in various capacities throughout the war, and was a prominent naval critic. He is survived by one son and three daughters.

FEARED WORSE THINGS MIGHT BEFALL THEM

Germans Realized It Was Useless to Trifle Any Longer with the Allies.

(Associated Press Despatch)
LONDON, July 10.—News that the German delegation at Spa had signed the agreement to accept the Allied demands relative to disarmament was received quietly in Berlin yesterday afternoon, says a despatch to the Times, filed at the German capital late yesterday. "The impression is general here," says the despatch, "that it was useless to trifle any longer with the Entente and that it was best for the Germans to make terms with their adversaries quickly lest worse things befall them."

"Thus the public has shown no sign that it was particularly interested in the session at Spa."

The Greek Troops Continue Advance Against Turks--Brussa, An Important Asia Minor City, Has Been Captured

TURKS STARTING TO WORRY.

(Associated Press Despatch)
CONSTANTINOPLE, July 10.—The Turks are beginning to fully realize the critical situation created by the triumphant Greek advance into Anatolia and what they regard as a complete rupture of peace negotiations. There is much speculation among the Turks as to how the Entente powers will deal with them after the Greeks dominate the Bagdad Railway, which now seems inevitable to the people here, although those in the interior of the country still hope that Mustafa Kemal may check the Greek advance.

It is feared generally among the better educated Turks that the Greeks will be given the Mosque of Saint Sofia, or even Constantinople, as a further reward for their military successes.

Among the recent activities of the Sinn Feiners has been the attendance of volunteers to keep order at the racing meetings. Here they have cornered the disorderly element and captured persons who refused to pay bets.

The volunteers turned up to perform these offices at Bellestown, but the military appeared there to check them. The military officers commanded the volunteers to disperse and surrender their armlets on which were inscribed "Irish Republican Army."

GERMANS WANT REDUCTION IN CRIME LIST

Commission Is Considering the Latest Claim of Germany.

SPA, July 10.—German claims that the list of the Germans accused of violations of the laws of war must be reduced if the collapse of the Berlin Government was to be avoided, were discussed by a commission which met here yesterday afternoon, according to an official announcement.

Jules Cambon, of France, was chairman of the Commission, the members of which included representatives of Great Britain, Belgium, France, Italy and Germany. One of the German delegates was Dr. Karl Heinze, Minister of Justice. Baron Birkenhead, Lord Chancellor of Great Britain, opened the discussion. He declared the Commission decided the trial at Leipzig should be accepted by the Allies as an experiment, and that the Commission would confine itself to producing evidence from countries other than Germany.

Dr. Heinze speaking in the name of the German Government, expressed the opinion that all communications should be between law officers of the different countries, the names of whom were given him.

(Associated Press Despatch)
BELFAST, July 10.—It is announced that delegates from Canada are to take part in the big parade of Orangemen which is to be the feature of the celebration of the anniversary of the battle of the Boyne on Monday.

Elaborate preparations are being made for the celebration. Demonstrations have been forbidden in the city itself, but arrangements have been made for a great mass meeting at a park four miles distant, to which all processions will lead. It is expected that twenty thousand persons will march in the principal parade. In addition to the Canadian delegates, there will be representatives of Orange societies in Australia, New Zealand, South Africa and the United States. Sir Edward Carson, the Unionist leader of Ulster, will be the chief speaker, and will propose a resolution appealing to the Government to "deal resolutely with the cruel and treacherous warfare being carried on in Ireland and pledging Ulster men to 'even their duty as loyal British citizens if called upon.'"

Lord's motor ambulance was called by Dr. Geo. Hume to remove Miss M. McIntyre, from 35 Portland Avenue, to the Sherbrooke Hospital; also called by Dr. Cabana, to remove Mrs. Sam Bourgeois, from 199 McManamy St., to the St. Vincent de Paul Hospital.

The fine property of the late Dr. A. N. Worthington, M.P., so long vacant, or used for military purposes has passed into the possession of Mr. Forrester Lord, who has there established his undertaking parlors, ambulance service and everything belonging to his extensive business, in which he has hitherto been greatly handicapped by lack of space. The place, which is reached by a short private road from Dufferin Avenue, has naturally for a number of years been neglected, but is now being put in good order, and beautified. The grass is restored to its former velvet condition, trees and shrubs pruned, flowers planted and the new vivid white of the picturesque house accords well with the surrounding foliage while a pretty pergola is in course of erection in the centre of the lawn, when covered with vines will give the finishing touch of harmony. Within the house, the entrance hall has been arranged with comfortable seats, as an ante room for the friends of the silent occupants of the little chapel. There is none of the gloom or horror usually associated with death; but a certain air of solemnity and respect is lent by the soft lights, the stained glass windows and the tapestried walls, and the church like effect is completed by the organ, to be used when music is desired for services.

MANY WET FEET AND BONNETS
The rain storm of last evening, which some optimistic weather prophets call "the clearing-up storm" caught a good many people out of doors, without wraps or umbrellas, and those driving in the country found the roads, in some places, flooded with water. Quite an amount of hay has been lying on the ground this week, the unsettled weather making it impossible for the hay-makers to finish their work. The optimist's view of last evening's storm will be gladly accepted by some, at least. A noticeable feature of the weather disturbances, so far this season, is the absence of electrical storms, of which there have been few.

DR. READ TALKS OF SCHOOL SITUATION HERE

Teacher Problem a Serious One for the Board—Points Out Need of Manual Training for Boys and Domestic Training for Girls.

Dr. G. Ellery Read, who was returned at the head of the polls in the recent election of the School Commissioners, was called upon yesterday by the Record and invited to make a statement regarding the school situation in Sherbrooke. In reply Dr. Read said:

"I would first thank my friends who during my absence from the city undertook to look after my interests at the recent election of school commissioners. I went into the contest in response to a numerous signed requisition that I would stand as a candidate. The result of the election is an expression of confidence which I value very highly. I can assure the electors, and all who are interested in the schools of our city, that I shall continue to serve the cause of education to the very best of my ability during the term of office for which I have been elected.

"I am sure that the Board of Commissioners will continue to follow a progressive policy. During the last year one of the most pressing matters we had to deal with was the schedule of salaries for the teachers and principals of our schools. The increased cost of living made this a necessity. We endeavored to establish a scale of remuneration more adequate to present economic conditions and more expressive of the honor to which the high office of instructor of the boys and girls who are to be our future citizens, is entitled. It may be that changing conditions may compel modifications of the adopted schedule, but the public may rest assured that it is the desire of the Board to offer such salaries as will enable it to secure the best available teachers.

"While speaking of the teachers, I would like to say that sometimes we fail to value their work as we ought to. This omission not infrequently passes over into a general criticism of our whole school system. We often hear that our schools are so much inferior to, say, the schools of Ontario or some other province west of Quebec. A few weeks ago I received a letter from a friend who had been living here for some time with his family and is now back in Vancouver referring to his children, who had been in our schools, he said that they were well up to the standards of that progressive western city, and one was a year in advance of what he should have been had he continued in the Vancouver schools, uninterrupted by the period he spent in Sherbrooke. I mention this for the purpose of emphasizing the need of fairly estimating the value of the work done in our schools. We are fortunate in having teachers who are actuated by a high sense of duty and fine ideals in their service to the public, and we may count on them doing their best to keep our standards on a high level.

"There are some modern features of education we need to add to our curriculum in order that we may make school more interesting to the scholars. I refer particularly to manual training for the boys and domestic training for the girls. The value of these things in the life of the scholars has been demonstrated beyond question. I have seen these departments in operation and observed their evident benefits to the boys and girls who were being instructed. The time has come for us here to make this a feature of our school curriculum. The addition of these will call for a large expenditure of funds, but we would be amply repaid by the results obtained.

"Another matter that should engage the attention of the Board, is the desirability of opening an auxiliary class for backward children. In every community of any size there is always a proportion of backward or defective children who by circumstances of heredity or environment have been retarded in their education. These children need special consideration. Under the ordinary method of instruction they are a drag upon the progress of the other scholars and a constant trial to the patience and resourcefulness of their teachers. In a special class, their progress is often remarkable. This, too, would cost more money, but experience has proved its great value.

"To return to the teachers. Some time ago the Hon. Sidney Fisher drew attention to the fact that our teachers were often lacking in one essential qualification—their characters were immature. The greatest task of the teacher is to form the character of the pupils committed to his or her care. Under our system of training teachers, and because of the great shortage of those entering the teaching profession, many began their work too soon after leaving school. In fact, the teachers were little more than girls themselves.

"This statement of the case by Mr. Fisher is, unfortunately true. But what are we doing to remedy it? Very little. Something of practical value could be done by insisting that teachers take supplementary courses during the long vacation. As an inducement, if this insistence might be considered too drastic, school boards might offer to pay part of the expenses involved. It would be good policy for us, under proper conditions, to do this.

"Just a word about our school buildings. I feel sure that the 'Sherbrooke Record' will support every movement towards the improvement of our buildings. With the growth of our city we shall have to increase the accommodation. Any obligations we may incur in this way will be one of the most valuable assets we can have. We must be ready to vote all necessary money for the enlargement and improvement of our schools.

"At the beginning of the summer a representative gathering consisting of delegates from the Home and School Co-operative League, the School Board, the Teachers' Association and the Rotary Club met for conference about school matters. There was much earnest debate over a wide range of subjects and a

DEATHS REPORTED
MR. A. F. BEATTIE, ST. CATHARINES, ONT.
WINDSOR MILLS, July 10.—Mr. and Mrs. A. W. Sykes and Mr. and Mrs. Wm. Greenlay were summoned to St. Catharines, Ont., by the sudden death of Mrs. Greenlay's and Mrs. Sykes' brother, Mr. Arthur F. Beattie. Mr. Beattie, who, with his family moved to Ontario only a few years ago, was born in Brompton, and always made his home here.
He met his death at Thorold, Ont., where he was foreman in the Finishing Department of the Ontario Paper Mills, and was on duty when the accident took place. It seems he fell from a freight car which was backed into the shipping room and suffered a fracture of the skull. He sustained his injuries on Wednesday last and survived until Saturday at one-thirty p. m., when he died in the General and Marine Hospital.
Mr. Beattie leaves to mourn his loss a widow and six children, his father, three sisters and one brother.
The funeral took place in St. Catharines on Tuesday afternoon at two p. m.

List of these was drawn up for further consideration at subsequent meetings, to which the public will be invited. It is hoped that the interest taken in the recent election is an indication of a vital interest in school affairs. These meetings ought to be largely attended and productive of much good. The schools belong to the public and they will be what the public may demand. These meetings will help to give publicity to the activities of the School Board.

It is not an uncommon thing for one to fail to catch the name of a lady one has to take in to dance and how this may result in embarrassment is shown by the following incident. An Englishman in a situation said to his partner reference to a dance that was given at Sir Lindsay Lind's country house, "Are you the Piggies tomorrow?"
"Oh, yes," brightly replied Lindsay-Hogg. "You are of the litter."

PROGRESS OF PAVING WORK IN THE CITY

Tarvia Section of King Street Not Being Disturbed, Says Mr. Martel—Asphalt for Wellington to Lennoxville Line.

Mr. Martel superintendent of the City Road Department, speaking to the Record today regarding the work on King street, states that a section between Gillespie and Aberdeen on which tarvia was laid is not being paved this year. Mr. Martel states that the upper end of King street, which is being torn up was only gravel or macadam and that more of the tarvia section is being removed.

Asked with regard to further pavements this year, he said it looked at present as though the work would be held up after the King street section was finished except that Wellington street to the Lennoxville line would be given an asphalt top.

Alexander, Aberdeen, Dufferin etc., were in bad condition but could not well be paved till the permanent sidewalks were made and these were not provided for in the original paving by-law.

COUNCIL HELD BUSY SESSION AT ST. JOHNS

Extensive Road Work and General Repairing Going on—
Other News Items.

COWANSVILLE MEMBERS WENT TO BOSTON

Delegates from Congregational
Council Returned—General
News.

ST. JOHNS, July 10.—Several business matters were disposed of at the regular session of the City Council, the Mayor presiding, and notifying the Council, through a letter received from the Roads Department of Quebec, that things were going fine with the plans and specifications for work of paving St. James and Richelieu streets; and that contracts would be called for shortly. This news was cheerfully received by the Council. The joint councils of St. Johns and Ibberville will soon be called upon to provide a fender on the concrete pier on the Ibberville side of the river, for the place apparently attracts motor boats and other crafts, which are often bumped to their advantage.

It was reported that fifty feet of hose, used to carry water to the mixer on the sidewalk work, had been "pinched," and it was suggested that in future the hose and mixer both be better locked up for the night.

Mr. H. Boucher presented a claim for two hundred dollars recompense for injuries received by Mrs. Boucher by falling on the sidewalk, on St. Peter's street, through bad condition of said street. The city's experts were instructed to examine the place and report. The secretary-treasurer reported that in response to a letter directed to the Kenworthy Company, the latter had informed him that they were now employing twenty-five hands, and with the completion of the new extension these would be increased to one hundred. The Council, in view of this, agreed to the carrying out of by-laws which granted certain exemptions.

Whether the high cost of living has had the effect of making the good wives of citizens scrutinize more carefully the odds and ends they finally throw into the discard, or not, he did not claim, but the man who has the care of the civic dump did complain to the council that he could not make a living out of the picking now, and the council granted him the sum of \$50 for the balance of the year to help make both ends meet.

Improvement of Bank Premises.
Extensive repairs are being made on the Bank National premises, which when completed will make them one of the best bank houses in the province, outside of Montreal. Mr. Pierre Trahan has the contract and is working in conjunction with Mr. Chas. Mailhot, the cost amounting to about fifty thousand dollars. The outside walls will be replaced by dressed limestone and the entrance will be at the corner, instead of on Richelieu street. The interior will be marble, and the old vault will be taken out, and the present floor space extended thirty feet toward the canal, the new vault and manager's office being situated in this part. In installing the steel beams, which will replace the steel posts, it will be necessary to tear out the first story, which will be done by jacking up the upper part of the building, and which will provide interesting observations.

Saved Young Man From Drowning.
Last Wednesday evening, Mr. Henri D'Orsonnes made a plucky rescue of a young man from drowning in the bath house on the Ibberville side of the river. Messrs. LaVallee and Mitchell were bathing, and the former decided to try a swim outside, and dived into the river. He did not appear, and Mr. Mitchell became alarmed and called

who smoke cigarettes are like wormy apples," they drop long before harvest time, they rarely make failures in after life, because they have no after life. The boy who begins smoking before his fifteenth year, never enters the life of the world, when other boys are taking hold of the world's work, he is concerned with the sexton and undertaker. Why then, should our Province waste so much land in tobacco culture, which might be beneficially sown with grain and hay to feed both man and beast and make us richer in every way, building up our manhood morally and physically instead of causing insanity and death?
S. C.

Sawyer, July 9.

COWANSVILLE, July 10.—Rev. J. Lambert Alexander and Mr. Geo. E. Ford have just returned from Boston, where they have been attending the meetings of the International Congregational Council, which meets once in ten years, and this year celebrated the three hundredth anniversary of the landing of the Pilgrim Fathers. The meetings were held in Mechanics' Hall, and the Old South Congregational Church, Boston. Delegates were present from every country in the world.

Among the speakers were: Morgan Gibbon and R. F. Horton, from England; President King, of Oberlin, and Sir Robert Falconer, of Toronto; Frank C. Lambach, of the Philippines; W. C. Willoughby, of Africa.

In addition to the meetings, old historic places, such as Concord, Salem and Plymouth were visited, and on the spot, the story of the landing of the Pilgrims was told. Upwards of a thousand people journeyed to Plymouth, and there, like Pilgrims visiting a shrine, gathered around Plymouth Rock and recalled the landing in 1620. Then they returned to Jordan Hall, Boston.

to Mr. D'Orsonnes, who jumped into the water with his clothes on, and brought the young man to shore. Mr. D'Orsonnes pluck probably averted another drowning accident, of which a rather long list is already evident, in this vicinity.

Abused His Horse and Got Into Trouble.

After sampling several kinds of liquid refreshment, a man named Cyr proceeded to give citizens on Richelieu street an example of how to ill-treat animals, and during his exhibition nearly ran down several pedestrians. Mr. H. D'Orsonnes, of the local branch of the S. P. C. A., appealed to the chief of police, and had the man locked up. Next morning the man appeared before the justice of peace, and received a good admonition, with a ten dollar fine, as a reminder of this exhibition.

LETTERS TO THE EDITOR

TOBACCO IN QUEBEC.

Editor of Record,
Sir,—We are informed that in our Province 22,404 acres are devoted to tobacco culture, last year this crop yielded 10,000,000 lbs. This all goes up in smoke leaving no beneficial results to our Province, but rather the opposite, men and boys with weaker heart action, poorer digestion, failing eyesight, and since the cigarette has come to us we find its harmful effects on our boys. Edison says it often makes boys insane. Dr. Kress, after careful years of study and observation, says that tobacco is doing more to lower the efficiency of young men than alcohol. Boys who smoke cigarettes have their moral sensibilities blunted so that they are easily led into other vices. 96 per cent. of the boys in Whittier Reform School, California, are cigarette fiends. In Chicago a large association of business men pledged themselves not to employ cigarette smoking lads, and this course is being pursued in many other places. The cigarette is responsible, too, for the fact that boys are less accurate and make more errors in their school work than girls, and why the number of errors increases with the age of the pupils. David Farr Jordan, President of Leland Stanford University says: "Boys

Marriage to Mr. L. C. Roy, B.S.A., Took Place in St. Paul's Church.

BURY, July 10.—A very pretty wedding was solemnized in St. Paul's Church, Bury, at 11 o'clock on Thursday morning last, July 8, when Miss Gladys Hunt, eldest daughter of Mr. A. Byron Hunt, M.P., and Mrs. Hunt, was united in marriage to Mr. L. C. Roy, B.S.A., District Agronomist, of Cookshire. The Rev. C. T. Lewis officiated. The altar was profusely decorated with roses and honeysuckle. At the chancel steps was an arch of roses banded with maple leaves, under which the bride couple were married. The bride entered the church on her father's arm, attended by her sister as bridesmaid, and gracefully proceeded up the spacious aisle during the singing of the hymn, "O, Perfect Love," most effectively rendered by the choir.

The bride, who was given away by her father, wore a dress of white duchess satin, with overdress of georgette, and silver and pearl trimmings, with veil and wreath of orange blossoms. She carried a shower bouquet of white roses with streamers finished with tiny rosebuds.

Miss Fern Hunt, who attended her sister, wore a beaded flesh colored georgette frock over orchid silk, with ribbon hat to match, and carried a shower bouquet of pink sweet peas. The best man was Mr. Elliott, and the ushers Mr. Walter Hunt and Mr. McLauren.

At the conclusion of the service, the newly married couple left the altar railing and passed along the chancel, roses being thrown in front of the bride by her fellow-members of the choir. The wedding party left the church to the strains of Mendelssohn's wedding march, played by Mrs. Lewis, and the ringing of the church bell.

After the ceremony, a reception was held at the residence of the bride's parents in their spacious dining room. The house was filled with a profusion of flowers. Among the guests, outside of the immediate relatives were the Rev. and Mrs. C. T. Lewis, Miss Marjorie Burton, Miss Villa Roe and Miss Bernice Weyland. Later the newly married couple left by auto for Montreal and other points, the bride traveling in navy blue costume with hat to match, and wearing an ermine scarf. The presents were both numerous and costly.

The bridegroom's gift to the bride was a gold pendant; to the bridesmaid, a pearl sunburst; to the groomsmen, gold cuff links; and to the organist, a gold and amethyst brooch. Upon their return Mr. and Mrs. L. C. Roy will reside in Cookshire.

General Notes

Amongst the out-of-town guests for the Roy-Hunt wedding were: Rev. J. J. Roy, Scotstown; Mr. S. J. Roy and Mr. Fitch, of Sabrevois; Miss Wilson, Ottawa; Mr. and Mrs. H. Hunt and family, Sawyerville; Miss M. Burton, Cookshire; Miss B. Weyland, Lennoxville; Mr. McLauren and Mr. Elliot.

A meeting of St. Paul's Guild was held on Wednesday last at the residence of Mrs. Walter Locke, with a good attendance. Important business was transacted. Tea was served by the hostess, assisted by her daughter Orma.

The altar of St. Paul's Church on Sunday last was decorated with white and pink carnations in loving memory of Beatrice Bradley, given by her mother.

Vote Carried for Adoption of New Work Schedule for All Seamen.

(Associated Press Despatch)
GENOA, July 10.—The international seamen's conference has adopted, by a vote of forty-eight to thirty, an amendment to article one of the seamen's convention providing for a strict enforcement of the forty-eight hour week for seamen.

The vote came after a heated discussion in which the British delegates to the conference declined to vote for Article One and submitted a proposal providing for a forty-eight-hour week for engineers and stokers, and a fifty-six-hour week for deckmen.

TALK OF BIG TOBACCO DEAL WITH FRANCE

Said Attempt Will Be Made to Buy Control of French Government Tobacco Monopoly.

(Associated Press Despatch)
NEW YORK, July 10.—Thomas Fortune Ryan sailed aboard the Olympic, refusing to be interviewed on reports that he was bound abroad in the interests of a "Ryan-Duke-Whelan syndicate" attempt to buy control of the French government \$400,000,000 tobacco monopoly. Officials of the American Tobacco Company here have denied that the corporation was interested in any such enterprise or that any of its big shareholders were involved in a private venture of this nature.

MR. MOORE, OF NEWPORT, SUFFERED A STROKE

Prominent in Industrial Life of Newport—Started Overall Business.

NEWPORT, July 10.—B. Frank Moore, one of Newport's prominent business men suffered a shock at his home on Green Place late Sunday afternoon. The family had motored to Lyndonville during the day where they took supper. Mr. Moore complained of not feeling well soon after and desired to return home. Upon his arrival he retired to his room and the shock soon followed.

Mr. Moore is an Orleans county man, born in Morgan in 1855, where he engaged in the mercantile business for ten years previous to 1887, when he came to Newport and became the Soluble Pacific Guano company's general agent for Vermont, which position he held for two years.

Mr. Moore entered the manufacturing business in 1890, manufacturing overalls, pants and shirts. The venture proved so successful that in the following January he formed a co-partnership with Mr. W. E. Tuck of Newport. The firm name then was Tuck & Moore.

As an individual Mr. Moore was running only a few machines but under the new management the company put in 25 machines and the business developed rapidly. In 1896 they bought the large building 40x70 with four floors formerly occupied by H. H. Caswell as a sash and door factory where the business has since continued to prosper.

Rather oddly, the man who has "nothing to say" is the one we are most eager to hear from.

BELSHAZZAR HAS BEEN PROVED TO BE A PROFITEER

Ancient Letters Unearthed Show
that Belshazzar Was an Exor-
bitant Landlord.

(Christian Science Monitor)
It seems that with all the faults
and attributes with which that
ancient character, Belshazzar of Baby-
lon, has been endowed in history and
legend, one has yet remained to be
added to a list once believed to be
complete: a descriptive noun hereto-
fore considered the exclusive prop-
erty of our age—the appellation "pro-
fiteer." According to the New York
Times, Prof. Albert T. Clay of Yale
has unearthed a series of letters dic-
tated to Belshazzar's private secre-
tary, which stamp him as a "profiteer"
in the landlord business.
"Stamp" is peculiarly appropriate in
this case, for the incriminating let-
ters are stamped or carved on clay
tablets, and according to the profes-
sor, reveal Belshazzar as a "landed
gentleman whose rents and taxes
might offer suggestions to landlords
in A.D. 1920—and shame them for
their modesty of demands." Among
other things a carefully drawn up
lease is mentioned, using land for a
temple at an annual rental of 5,000
measures of barley and 3,000 bundles
of straw. Interest on mortgages, etc.,
was usually at the rate of 25 and
often as high as 33-1/3 per cent. No
record is available how call money
went to the Sumerian and Baby-
lonian stock exchanges incorporated
in the temple but it undoubtedly
reached a scandalous figure. And
private correspondence inscribing
complaints concerning the high cost
of living would probably in the
words of modern statisticians, "fill
a block of freight cars"—however,
considering the thickness of the
"stationary" or brick tablets, that
would not be as stupendous a
number of letters as might be at
first imagined.

PRICES AND DETAILS OF SHERBROOKE MARKET

The busy appearance of Lansdowne market yesterday contrasted quite vividly with those of the past few weeks, when business has been rather sluggish. But the impetus that was given trade was certainly not due to any attraction offered by lower prices, as all quotations were firm and showed very little change since last week.

Eggs and butter varied from fifty to sixty for the former, while a few even asked sixty-five, and from fifty-five to sixty for dairy with creamery hovering between fifty-eight and sixty-two.

New potatoes were offered for one dollar and a half, while old potatoes demanded one dollar a peck. New cabbage, beets and carrots were in evidence, the first-named selling for from fifteen to twenty-five cents, while the last varieties sold for eight cents a bunch.

Strawberries dropped only slightly from last week, being offered for twenty-five to twenty-eight cents a box. Gooseberries demanded twenty cents a quart.

Both in quantity and quality, the meat markets were up to standard, and prices were steady.

DAIRY PRODUCE MARKET.

Butter, best creamery, per lb. 59c. to 62c.

Butter, best dairy, per lb. 55c. to 60c.

Cheese, per lb. .

COMMUNITY CHAUTAUQUA OPENS TODAY

Directors Have Arrived and the
Juniors Are Having a Happy
Day with the Play Leader.

The five days festivities of the
Community Chautauqua opens today
with an afternoon and evening per-
formance while this morning was de-
voted to a general "good time and
get together" of the children at the
Parade Ground.

It is needless to say that the chil-
dren were disappointed at the un-
friendly attitude of the weather man
last evening, who sent along one of
his erratic storms, at the appointed
time for the get together and ticket
hunt. But the "kiddies" are ever
ready to adapt themselves to exist-
ing conditions and patiently waited
for this morning's fun. A diligent
search for the four hidden free
tickets occupied quite a space of
time, and there was much excitement
over the plans for the new games of
which the play-leader has a bound-
less.

Many consultations, whispered,
and otherwise, took place about the
wonderful "get-togethers" for the Toy-
shop Pageant which will form the
basis of the wholesome training for
the children during the five days
and which will be presented to an
admirable audience on Tuesday.

The Chautauqua directors arrived in
town yesterday, and are well
pleased with the advance sale of
tickets, position of the big brown
tent, and cordial reception extended
them.

Mrs. Bertha Teal Darling comes
as Superintendent, the other direc-
tors being Mr. Fred W. Morton, of
the University of Pennsylvania, As-
sistant Superintendent, Mr. Clifford
Parker, of Bodo College and Miss
Dorothy Lyons, play-leader. In a per-
sonal interview with Mrs. Darling,
this morning, the pleasures and ad-
vantages of the Community Chautau-
qua were referred to by the super-
intendent saying that in all her
former work, which had included much
experience in newspaper work, she
had found nothing so satisfactory
as Chautauqua work. "The instinct
of service," remarked Mrs. Darling,
"makes this work, in which are many
hardships, attractive, and the educa-
tional value is always an incentive
to give of our best." She said the
Chautauqua players and lecturers
all had the work heart whole, with the
weather and travelling conditions care-
fully tucked away into the back-
ground of their minds.

Reference was made by the Superin-
tendent to the love of music dis-
played by foreigners who, she stated
"flocked to the Chautauqua tent to
listen to the musical performances,
and their enjoyment was very evi-
dent."

and the many problems with
which they had to deal.

The delegates were pleasantly and
hospitably entertained, appreciated
the splendid lectures and addresses
on the three days' programme and

S. Inter-State Commerce Com-
mission.

(Associated Press Despatch)
WASHINGTON, July 10.—Alarm
over the present coal situation in
the United States, because of its pos-
sible effect on Canada, was expressed
in a letter sent to United States
Inter-State Commerce Commission
yesterday by M. M. Mahoney, secre-
tary of the Canadian War Mission.
Declaring that central Canada nor-
mally was dependent on the United
States for 17,000,000 tons of coal
annually, Mr. Mahoney wrote:

"Your government officials are
beginning to fear that we may not
get sufficient coal to tide over the
winter."

Reduced shipments to Canada this
year, the letter added, "seems to in-
dicate that American producers have
neglected the long established Cana-
dian market to take advantage of
European demand."

THE ST. JOHN HARBOR PLAN IS DISCUSSED

City Council Wrestled Again Yes-
terday with Problem.

(Associated Press Despatch)
ST. JOHN, N.B., July 10.—The
city council wrestled with the St.
John Harbor Commission matter
again yesterday afternoon, but made
little progress and will take it again
next Wednesday. At that time an
opinion from the city recorder is ex-
pected on the commission act as
it affects an agreement made by the
city, with the Canadian Pacific Rail-
way and the Federal Government
in 1911 relative to the west St. John
terminals.

Speaking of the agreement, Com-
missioner Bullock, who is head of
the Harbor Department, said that
the question of carrying out the con-
tract by the Government was a mat-
ter which should be taken up by the
Board of Railway Commissioners of
Canada. He said this was provided
for in a section of the agreement.
If this failed to be brought about
arrangements were provided for the
appointment of a board of arbitration
by those interested or by the
Chief Justice of the Supreme Court
in case of any of them fail to ap-
point.

The Commissioner said that he
was looking into the matter with a
view to seeing what could be done
to prevail upon the Government to
carry out its agreement.
