MONTREAL, FRIDAY, OCTOBER 3, 1902.

PRICE ONE CENT.

PRESIDENT ASKS THAT DIFFERENCES BE BURIED AND WORK RESUMED.

He Tells Operators and Coal Strike Leaders That the Situation Has Become Intolerable to the Public.

The President Disclaims Any Right to Act in His Official Capacity, But Appeals to the Patriotism of the Interested Parties—Conference Has Adjourned Till This Afternoon.

(See also page ten.)

WASHINGTON, October 3.—The second step in the President's efforts to affect a settlement between the anthracite coal magnates and the miners was taken today. At 11.10 o'clock every person who had been invited to participate, except President Olyphant, of the Delaware and Hudson Road, who sent as his personal representative David Wilcox, vice-president and general counsel of the road, and president Cassatt, of the Pennsylvania Road, was present in the room of the temporary executive mansion, where President Roosevelt, since his return from Indianapolis, has transacted such necessary public business as could not be postponed.

The President, during the conference, was attired in a dressing gown and seated in a large invalid chair, his left leg resting upon a cushion. The President most cordially greeted each of his guests as he appeared. When all were assembled he stated to them in a brief preliminary way his object in calling them together.

THE PRESIDENT INDULGES IN SOME PLAIN TALK.

Fully realising the importance of the communication that he was to make, the President had prepared a carefully worded paper setting forth in detail his position on the controversy. The President said:

"I wish to call your attention to the fact that there are three parties affected by the situation in the anthracite trade: The operators, the miners and the general public. I speak for neither the operators nor the miners, but for the general public. The questions at issue which led to the situation affect immediately the parties concerned—the operators and the miners; but the situation itself vitally affects the public. As long as there seemed to be a reasonable hope that these matters could be adjusted between the parties it did not seem proper to me to intervene in any way. I disclaim any right or duty to intervene in this way upon the legal grounds or upon any official relation that I bear to the situation; but the urgency and the terrible nature of the catastrophe impending over a large portion of our people in the shape of a winter fuel famine impels me, after much anxious thought, to believe that my duty requires me to use whatever influence I personally can to bring to an end a situation which has become literally intolerable.

A HEAVY RESPONSIBILITY.

I wish to emphasize the character of the situation and to say that its gravity is such that I am constrained urgently to insist that each one of you realize the heavy burden of responsibility upon him. We are upon the threshold of winter with an already existing coal famine, the future terrors of which we can hardly yet appreciate. The evil possibilities are so far-reaching, so appalling, that it seems to me that you are not only justified in sinking, but required to sink for the time being any tenacity as to your respective claims in the matter of issue between you. In my judgment the situation imperatively requires that you meet upon the common plane of the necessities of the public.

ASKED THAT WORK BE RESUMED.

With all the earnestness there is in me, I ask that there be immediate resumption of operations in the coal mines, in some such way as will without a day's unnecessary delay meet the crying needs of the people.

"I do not invite a discussion of your respective claims and position. I appeal to your patriotism, to the spirit that sinks personal considerations and makes individual sacrifices for the general good."

THOSE WHO WERE PRESENT.

Long before the hour fixed for the conference a large crowd had assembled outside the temporary White House. The first official caller was Hon. Carroll D. Wright, Commissioner of Labour. He has made an investigation of the strike situation, and the President desired to obtain from him what he considered important features of the controversy between the operators and the miners.

President Mitchell and his party were the first of the principals in the controversy to arrive at the White House.

Just after 11 o'clock Presidents George F. Baer, of the Reading; E. B. Thomas, of the Erie, and W. H. Truesdale, of the Lackawanna, arrived in a carriage. They were soon followed by President E. B. Fowler, of the Ontario & Western; John Markle, of the firm of G. B. Markle & Co., independent coal operators, and David Wilcox, vice-president of the Delaware & Hudson, representing President Oliphant, of that road.

President A. J. Cassatt, of the Pennsylvania, who had been invited, did not come. He sent a telegram to President Roosevelt explaining his inability to be present.

The two delegations were escorted upstairs about 11 o'clock. Attorney-General Knox and Commissioner Wright remained with the President.

TIME TO THINK IT OVER.

When the President had concluded the reading of his statement, he said that he did not expect that either party would be ready to submit propositions at the time, but he asked them to take into consideration what he had said, and to return at 3 o'clock. He said that he hoped that some proposition might be presented at that time which would furnish the basis of an adjustment. The first conference then broke up.

THE CONFERENCE LASTED LESS THAN FIFTEEN MINUTES.

It had lasted less than 15 minutes. The representatives of the railroads went to their carriages. They refused to say anything, except that they would meet again at three o'clock. They would not even say where they were going to. When asked where they could be seen, President Baer remarked to the newspaper men:

"Gentlemen, what we want is to get some place where you can't find us, and where we will not be interrupted." They then drove away.

WHAT IS EXPECTED.

President Mitchell and his party followed soon after, refusing to say anything.

A little later Attorney-General Knox left the White House. It was understood that each party to the conference would formulate some proposition during the interim, based on what the President had said, or that each would be prepared with a reply to present to the President when the conference was resumed at three o'clock.

President Mitchell and his party left the White House soon after the railway presidents.

SECRETARY ROOT IN OPTIMISTIC MOOD.

WASHINGTON, October 3. — At 12.30 o'clock Secretary Root terminated nearly an hour's private conference with the President. The Secretary was in an optimistic mood when he left the White House. He said he could not communicate anything further than that already given to the press, but he did not hesitate to express his individual opinion that the prospects were bright for some satisfactory outcome to the negotiations instituted to-day.

Coal Situation Is Brighter; Strike May End To-day; Soft Coal in Abundance

Anticipated End of Strike in Anthracite Region Caused Feeling of Relief To-day--Dealers Predict an Early and Fair Distribution of Coal in About Two Weeks From Close of Strike--Dominion Coal Company Is Able to Supply Sufficient Soft Coal to Meet Every Requirement.

The coal situation is considerably relieved.

The dealers are hopeful of a settlement of the strike to-day; the public seems much less apprehensive of suffering from a coal famine than during any time during the past week.

With the big conference on between President Roosevelt, the Railroad Presidents and Mr. Mitchell, hope of an early solution has returned.

Coal, it is predicted will be selling at $7 a ton, three weeks from to-day, in Montreal.

Moreover, the Dominion Coal Company alone can supply the city with a sufficient supply of soft coal.

It is believed that the Coal Barons will not favour Americans in preference to Canadians when the mines again start to work.

Montreal dealers say they will endeavour to make the coal go round and there will be no partiality shown.

25,000 tons a week can be brought into the city by water.

Hartt and Adair Company, says: "Look for Normal Prices."

J. Meldrum, of Meldrum Bros., says:

"I feel confident that the strike will be settled to-day and three weeks from to-morrow we will be handling anthracite coal in Montreal."

Mr. Farquhar Robertson: "I feel sure that the coal barons will treat us as the retailers have been treating their customers, spread it out and try and make it go around."

Mr. Abner Kingman: "I feel confident that the strike will be settled to-day."

The secretary of the Cumberland Railway and Coal Company, Springhill, N. S., Mr. H. R. Drummond, says that this company, which has an output of 500,000 tons a year, can easily increase this amount if additional soft coal is required.

To-day's quotations:
Soft coal—$6.50 per ton.
Welsh coal—$10.00 to $12.00 per ton.

The coal situation to-day is apparently more comforting.

On one hand, Mr. Abner Kinghman, of Kinghman & Co., selling agents for the Dominion Coal company, says they can supply whatever quantity of soft coal the market requires, while the anthracite dealers believe the strike will be settled to-day; that hard coal will be delivered in the city within ten or fifteen days, and that they will be able to protect their customers by dividing the supply all round.

There is further satisfaction to be derived from the statement of several of the most influential dealers that they believe the consumer will get his full winter's supply, and that prices will revert to those quoted before the strike commenced. The coal operators, they say, are working in this direction, and every reputable merchant in Montreal is pursuing a similar policy.

PROTECTION OF CUSTOMERS.

"How do you propose protecting your customers," the Pennsylvania Coal Company was asked to-day, "in the event of the strike being settled?"

"By continuing the policy we have been following with what we had on hand, and with the Hocking Valley coal when it arrives serving out a little all round. If the strike is off to-day, coal should be delivered in Montreal in ten days. Our barges make the round trip to Oswego in four or five days."

"Where does your coal come from?"

"Direct from the mines at Farhaven, Pennsylvania."

"Is there not a probability of the coal operators serving the American market first and of ignoring Montreal and Canada until United States centres are satisfied?"

CANADA TOO GOOD A MARKET.

"We do not think so. Canada is too good a market to treat in that manner. They have always treated us fairly, and we have no reason to think differently at present."

The Hartt & Adair Company say the embargo should be raised at once if the strike is declared off to-day, and that coal should be delivered in the city within a week after the mines are worked. As to protecting their customers, they would commence distributing the coal fairly so soon as it arrives. From what they were given to understand, the coal would be sold at fair prices. They had no fear of the Western operators ignoring Canada. Their firm were agents for the Delaware & Hudson Canal Company, and they were convinced one of the first shipments from the mines would be consigned to Montreal.

THE USE OF FOREIGN COAL.

"We have been keeping our customers going with foreign coal in small quantities," is the report of Evans Brothers, "and we will continue to do so when the Western coal arrives, and we thing prices will soon revert to the normal."

"As to when the embargo will be raised here, that is a difficult question to answer. We ship both by rail and by water, and if the coal is delivered to us immediately we can deliver it here under a week. It all depends when we get the coal. The transportation question is easily solved."

"Do you not think there is a probability of the coal operators serving their Western customers first, then the rest of the United States, and of ignoring Canada entirely?"

"I do not," replied Mr. Evans emphatically, "I think we will get our fair share and that they will treat their customers as business men; that is to say they will endeavour to distribute proportionately. As far as we are concerned our head office is in New York. We purchase there so that to all intents and purposes our orders stand as American ones, but aside from that I feel we will be honourably treated and get our share the same as any other centre."

MR. FARQUHAR ROBERTSON.

"We will simply keep our people going the best we can giving them a load at a time, and increase it as our delivery is increased," replied Mr. Farquhar Robertson, when asked how he would look after the interests of his clients when the coal began to come in. "Moreover, he said, "people are not going to freeze if it never comes in from Pennsylvania; we are going to have all the soft coal we need."

WHEN RELIEF WILL COME.

"When do you think the situation will be relieved, provided to-day's conference proves successful?"

"That is a very problematical question, depending upon when they give us the coal. If they give it to us right away the situation will be relieved at once. There is no difficulty about transportation. We can handle the coal and bring in thousands of tons a day quite easily. Our barges should deliver it here within a week or ten days after they give us the coal at the mines. For my part, I feel sure the strike will end to-day."

"And supposing the coal barons commence satisfying their American customers first, when will Canada come in?"

"I buy direct from the coal operators at the mines, and I have no fear of them doing anything of the kind. It's not business. They will treat us as the retailers have been endeavouring to treat their customers, spread out what they have and endeavour to make it go round."

BOTH RAIL AND WATER USED.

"How do you transport your coal?"

"Both by rail and water. If the strike is settled to-day and they were to give me coal at Scranton, Pennsylvania, to-morrow, I could run it into Montreal within a week."

RELIEF IS IN SIGHT.

"I feel confident that the strike will be settled to-day, and that three weeks from to-morrow we will be handling anthracite coal in Montreal."

This is the opinion of Mr. J. Meldrum, of Meldrum Brothers. "And naturally," he continued, "so soon as it commences to come in we will send it out and endeavour to make everyone feel happy. We will, of course, distribute in small quantities at first."

"Have you no fears of the Americans looking after their own interests first, and letting Canada wait?"

"Not at all, they have too heavy interests in Canada to think of that. Besides, even throughout the strike, they have not been neglecting Canada entirely, and I know one firm which has received shipments of hard coal. There is no danger of such a thing occurring."

THE QUESTION OF PRICES.

"How will prices be?"

"I don't look for any famine prices, and expect to sell coal at from $7 to $7.50 per ton."

"How much coal could the Montreal contingent bring into the city in a week?"

"From 25,000 to 30,000 tons a week. Just let the people keep their minds at rest and they will have all the anthracite they want."

"The strike, I feel confident, will be settled to-day," said Mr. Abner Kingman, who returned last evening from the mines of the Dominion Coal Company, at Sydney.

"But if it is not, we are prepared to bring whatever quantity of soft coal the market requires, and to continue the supply during the winter."

"How many tons have you contracted for now in the city?"

"Over a million?"

"And how many can you spare for house consumption?"

300,000 TONS USED A YEAR.

"All that is required. There are only 300,000 tons used a year, and we deliver over three times that quantity. We can ship to Portland, from which place it can be carried to Montreal by rail.

"But I do not look for any likelihood of this necessity arising. There is six or seven weeks of water navigation, and a large quantity of coal may yet be brought in by canal."

The Cumberland Railway & Coal Company, of Springhill, N. S., are mining 500,000 tons a year of soft coal, and Mr. H. R. Drummond, the secretary, says this output could be increased if the case became desperate. He, however, took the same view of the situation as Mr. Kingman, and expected to see the strike settled to-day.

Soft coal was quoted at $6.50 to-day, Welsh all the way from $10 to $12. The Gas Company are still selling coke at $5.50 a ton, and say they have plenty on hand. The rush has somewhat subsided.

TRADES AND LABOUR COUNCIL WANTS SOME IMMEDIATE ACTION.

At last night's meeting of the Montreal Trades and Labour Council the big strike and the coal problem was discussed for a time. Delegate Rodier pointed out that the situation was becoming more alarming day by day, and he thought it was time the city was taking some steps in order to see that the working classes, whom the Council represented, would not suffer for coal and wood during the coming winter months.

He was of the opinion that if something was not immediately done coal merchants might take advantage of the situation to raise prices and bleed the poor, who were unable to buy in large quantities.

After some further discussion a deputation consisting of five members was appointed to wait on Mayor Cochrane at the earliest possible moment to discuss the situation and map out a plan that will guarantee all classes of citizens protection in the event of the situation becoming more serious.

COAL CRISIS IS ACUTE IN OTTAWA.

(Special to the Montreal Star.)

OTTAWA, October 3.—The coal crisis still appears to be acute in Ottawa, judging from the amount of complaint there is heard on every side. It was expected that the City Hall meeting would have quieted the popular feeling, but the expectation was vain. Yesterday numerous cases were reported in which householders had tried to obtain coal from the dealers and had failed to be accommodated. The coal merchants themselves seem to be at sea as to the exact condition of their supplies, and whilst one deputation went to the City Hall to repeat the statement that there was enough coal to last the city till the middle of January, another section of the dealers state that the statement is unwarranted. Then again it is stated that there is a great deal of misunderstanding as to the nature of the coal available, many people ordering and insisting on having hard coal whilst almost all the coal in the city is bituminous. Ald. Ellis, chairman of the Finance Committee of the City Council, states for publication that if any person is refused coal the committee want to know of it at once. He has faith that the citizens will protect themselves and not see any one in the city stuck for coal this winter.

The Minister of Customs was asked yesterday if it would not be possible to relieve the fuel stringency by foregoing for a few months the duty of 53 cents per ton on bituminous coal imported from England or the United States. Hon. Mr. Paterson replied that the Government had no power to put coal on the free list. That could only be effected by legislation, but he was of the opinion that in case of emergency the provisions of the Audit Act might be enforced to the extent of remitting the duty on importations the same as duty is remitted on coal which is used in manufactures for export.

Orders for British Coal.

LONDON, October 3.—Enquiries made at Liverpool show that large orders for Lancashire and North Wales Coal continue to be received from America, but the exporters have great difficulty in getting freights, the rates for which have been increased $1 during the present week.

The president of the Miners' National Union, Mr. Burt, M.P., in his monthly circular to the Northumberland miners, refers to the coal strike in the United States. He says:

"Apparently the strike of 150,000 Pennsylvania miners is coming to an unsatisfactory end, because the men are returning to work in small batches, probably starved into acceptance of the employers' terms. They were the poorest and lowest paid labourers in the United States."

Municipal Wood Yard.

LONDON, Ont., October 3. — Mayor Beck has proposed to the City Board of Works the establishment of a municipal wood yard. The idea is likely to be acted upon. Tenders for wood for the city poor were as much as $12.50 cord and were all refused.

WITNESSES AGAINST MOLINEUX MISSING.

Mary Melando and Others Disappear as the Trial Approaches.

NEW YORK, October 3.—With the second trial of Roland B. Molineux for the murder of Mrs. Katherine J. Adams only a few days distant, the announcement is made at the Criminal Courts Building that several witnesses against the accused man—one of them at least of vital importance to the prosecution—are missing.

That particularly important witness who is missing is Mary Melando. She had been in the employ of Molineux for eleven years, and on the former trial was considered of such importance to the prosecution that Assistant District Attorney Osborne, who had charge of the case for the people, upon finding her a reluctant witness, virtually kidnapped her from New Jersey to bring her within the jurisdiction of the courts of this State.

Labour Meeting Was Lively

Many Vexed Questions Came Up Last Evening Before the Trades and Labour Council—Organization Dissatisfied With Work of a Delegate to Berlin Convention.

At last night's meeting of the Montreal Trades and Labour Council many vexed questions were discussed and it proved to be one of the most exciting meetings in the history of the Council. The admission of four delegates representing the newly organized Longshoremen's Association, was a feature. Resolutions sympathizing with the anthracite coal miners were unanimously passed, and steps were taken with a view of protecting the working classes in regard to the procuring of coal and wood at a reasonable price during the winter months.

The report of the delegates to the Berlin convention of the Trades and Labour Congress of Canada was read and adopted, which was a resume of what has already been published regarding the work of the Congress.

Delegate Griffiths, who represented the brass workers at the convention, was severely criticized for his actions, he having opposed the majority of the Congress on all questions and made himself otherwise objectionable by joining a new movement antagonistic to the present Congress.

A motion was made to expel Delegate Griffiths from the Montreal Council of Labour, but after further consideration it was decided to request his union to immediately withdraw him from the council, and that he be replaced by another delegate. When the motion was unanimously declared adopted, the delegate picked up his hat and coat and left the hall.

CREDENTIALS RECEIVED.

Credentials were received from Messrs. Joseph Gibeau and E. Frechette, representing the United Brotherhood of Carpenters and Joiners; J. Steben, International Boot and Shoe Workers' Local No. 249; P. Turgeon and M. Lariviere, Shoe Workers' Local No. 2666; J. Prendegrast, G. Martel, E. Cherron and [illegible] Canavan presented credentials from the Montreal Longshoremen's Association, which were received with great applause. It was pointed out that the decision of the Longshoremen's Union of Montreal to join the International Union was a tremendous victory for international trades unionism in Canada. It was claimed that this great organization, now the largest union in Canada, had, until recently, maintained an independent union. It was also stated that the Quebec Longshoremen's Union will follow their Montreal brothers and join the International Union in the near future.

EMPLOYMENT OF CITY LABOUR.

The question of city labour being employed on the new polytechnic school, which is to be constructed in connection with Laval University, was introduced by Delegate Latreille, who claimed that every effort should be made to have the work performed, as far as possible, by Montreal taxpayers.

Mr. Hugh Stevenson, of Toronto, who was the chairman of the Constitution Committee at the Berlin Convention of the Trades and Labour Congress of Canada, was introduced by the acting president, and explained the amendments to the constitution. He said the object of the new labour laws was to do away entirely with dual organisations. Where no international union exists, federal unions may be formed, chartered by the Trades and Labour Congress of Canada.

MEETINGS AND SOCIETIES

In the Labour World.

THE PAINTERS.—A public meeting of the Brotherhood of Painters, Decorators and Paperhangers will be held next Tuesday evening at 505 Craig street, when prominent speakers will address the assembly on the coal problem.

THE BUILDERS' LABOURERS.—There will be a public meeting of the Builders' Labourers' Union this evening in St. Joseph's Hall, corner of St. Catherine and St. Elizabeth street. The following gentlemen have consented to address the gathering: A. Arcand, president of Carpenters' and Joiners; E. J. Hilton, president of Electrical Workers' Union; G. Audet, of the Carpenters and Joiners, and James Easton, of the Builders' Labourers' Union. Although but one month in existence, this organization has already a paid-up membership of 250.

WANT A LIBRARY. — The Juvenile Clothing Workers held an interesting meeting at 1796 St. Catherine street last evening. Upon the conclusion of routine business, the library question was brought up for discussion, which lasted for some time. The president, Mr. Davis, said that he had nothing but contempt for the City Council who had not yet decided "what they were going to do about it." It was to be sincerely regretted that a most important commercial centre like Montreal could not boast of having a public library. He wanted to know where a respectable young person, who is not inclined to frequent places of amusement, could spend his leisure time with profit to himself and the community.

Fraternal Orders.

LADY MACCABEES.—Mrs. Helen T. Birt, of Detroit, Mich., arrived in the city yesterday and is stopping at 671 Wellington street. Miss Birt came to Montreal in the interest of the Supreme Hive, L.O.T.M. Regal Hive, No. 1, of Montreal, will hold special meetings while Miss Birt remains in Montreal for the purpose of instruction. The Lady Maccabees is a fraternal and insurance society wholly controlled by women. Miss Birt will be happy to call upon any lady wishing information concerning the working of the order.

THE SHOE DEALERS.—A public meeting of boot and shoe dealers was held last night in the Monument National, for the purpose of completing the organization and adopting a constitution and by-laws. After several minor matters had been disposed of, the election of officers was proceeded with, and resulted, as follows: President, J. G. Watson; first vice-president, E. G. Lavalle; second vice-president, F. X. Lasalle; secretary, J. Chournand; assistant secretary, A. Brunet; treasurer, G. Gales; assistant treasurer, L. Julien; corresponding secretary, M. Welland; committee, J. E. Desmarais, E. P. Ronayne and M. Rodrigue.

ELECTION OF OFFICERS.—The principal business transacted last night at the annual meeting of the Montreal Grocers' Association was the election of officers for the ensuing year, and the result was as follows: President, Ald. R. Turner; first vice-president, Mr. N. Chartrand; second vice-president, Mr. J. E. Manning; treasurer, Mr. X. Bigaouette; hon. secretary; Mr. M. Lapointe; recording secretary, Mr. J. P. Dixon. Committee—Messrs. A. O. Galarneau, H. Masse, J. O. Levesque, J. B. Deschamps, M. de Repentigny, P. O'Brien, A. D. Fraser, O. Champagne, H. O. Laniel, P. Daoust, J. Poirier and E. W. Farrell. The report of the treasurer was read and showed the receipts for the year to have been $1,317.13, and there remains a balance on the right side of the ledger of $514.94.

Mr. Willard in "The Cardinal."

Mr. Willard's presentation of "The Cardinal," at the Academy, last night, attracted and deserved a large audience. The play is one of great power and gives plenty of opportunity for the display of character. The plot is laid at Rome in the 16th century. Cardinal Giovani De Medici, a man of sweet, noble nature, with great intellectual gifts, but not without ambition, is moving along the road that leads to the Papal throne, when suddenly his hopes are blasted and the family name held up to scorn through an accusation of murder being brought against his brother. The brother is innocent and the Cardinal knows who is the real murderer, but as he learned this in the confessional, he can say nothing. The villain utilizes the situation to attempt to make a bargain with the girl who loves the man, wrongly accused, demanding her hand as the price of her lover's freedom. The Cardinal eventually straightens things out, though not without some difficulty. The scene in which the real murderer is led to tell the story of his crime, in the presence of a magistrate, is one of the most dramatic that can be imagined, and is handled so as to bring out all its beauty. Mr. Willard as the Cardinal was at his best. Miss Maude Fealy as the leading woman justified the choice of her for that important role. Mr. Bassett Roe made an acceptable villain. All the other parts, also, were well taken. The play will be repeated to-night.

Sergeant-Major Prince has arrived at Kingston from England and assumed the duties of his position at the Royal Military College.

EUREKA HARNESS OIL

Rain and sweat have no effect on harness treated with Eureka Harness Oil. It resists the damp, keeps the leather soft and pliable. Stitches do not break. No rough surface to chafe and cut. The harness not only keeps looking like new, but wears twice as long by the use of Eureka Harness Oil.

Sold everywhere in cans—all sizes. Made by Imperial Oil Company.

LACROSSE

SHAMROCKS ARE THEMSELVES AGAIN

Defeated New Westminster By Eight to Four.

KAVANAGH WAS IN THE GOALS

There Were Thousands to See the Match Yesterday and They Will Play Again Saturday.

(Special to the Montreal Star.)

NEW WESTMINSTER, B. C., October 3.—In Vancouver and New Westminster cheering for the victory of the Shamrocks over the Westminster lacrosse team at Westminster lasted far into the night. Irishmen are Irishmen wherever you find them, and from the noise of the rooting put up for the Shamrocks during the match it would appear that half the vast crowd of thousands were from the Green Little Isle. They shouted wildly for the boys from Montreal and waved green and white ribbons, hundreds of ladies being decked out with Shamrocks' colours. It was a magnificent game and a bright summer day. The crowds were keyed up to intense excitement, as the games were scored in see-saw fashion, until at half time they stood three all. Rooters for the opposite sides stood up and yelled themselves hoarse as the teams fought for the winning games. The Shamrocks were in fine fettle. Currie, in centre, made Turnbull, the Westminster centre look as if he was not trying very hard a great part of time. The green boys outfooted the home team, passed better and played with more judgment. In the face-off, when the teams lined up, Shamrocks got the ball and kept it for ten minutes, firing shot after shot at Cheyne. They could not shoot it past him, but, it was finally kicked in. In the next game Shamrocks again hammered away at Cheyne for three minutes, when the home team secured the rubber, made one shot, their only one for 15 minutes on the Shamrocks' flags and scored in 2½, although the Westmintsers had the ball only long enough to make one essay for the net they got it in. The next score was made by the Shamrocks in 5 minutes. Cheyne batted the ball from right to left and centre at long and short range and still kept it free from the goals until H. Hoobin charged down on him like a flash of green lightning and smashed it into the net. But Cheyne was only human, no goal-keeper could keep out a volley of shots poured incessantly into him for eighty minutes, and although he stopped fully 50 accurate shots on goal the inevitable happened and even the great Cheyne acknowledged himself beaten.

Brennan, who scored the first three games came in for enormous applause. In the second half, Hoobin did a large share of the scoring and was wildly applauded. In the second half, the Shamrocks, by a magnificent piece of combination, forced the ball to the Westminster net, when a wild rush by three green shirts passed on the run made it impossible for Cheyne to keep tabs on the movements of the rubber and it was flipped through. The next game was scored by the Shamrocks in 15 minutes. The next by Westminsters in 40 seconds, and, the next three by the visitors in 5, 8 and 1¼ minutes. The game was a very gentlemanly one. Referee Cullen was very strict and there was practically no roughness.

Another Story.

Shamrocks took the field in better condition than Westminsters. Harry Latham has blood poisoning in his hand and Turnbull's hand was badly cut after Tuesday's game. However, both put up a good game, but the damage was felt in passing.

Westminster's defence did not put up their usual game, and Shamrocks home got inside them. Barlow and Galbraith put up a good steady game, and got good support from Rennie, but at times Tom Gifford did not play up to his usual standard. Cheyne made many fine stops, and Bob got his share of cheers. Gray did not play as well as on Tuesday, and Sandy Cowan was not as quick in passing and dodging, and made several poor passes. Westminster's field would take the rubber into their home, and the latter generally lost to the defence. Harry Latham fielded well, although working far out. His hand bothered him in passing. Biscuits, Peele and Charley Latham played well, and Stan Peele played very well, his leg bothering him but very little. No deliberate rough play was indulged in by either team, with the exception of a couple of times, when honours were about even. Both Brennans did much to mix up Westminster's defence. Robinson played up well, but was closely checked by Peele. Finlayson, Howard and O'Rielly worked hard on the defence, and many times repulsed the rushing red shirts. McIlwaine is a good point man, and clever stick handler, and often when the ball passed the defence he passed on to the fielders.

The attendance was about fifteen thousand, the largest crowd ever witnessed at any sport in British Columbia, and every point of vantage to see the game was taken long before the hour to line up. About seven thousand came over from Vancouver, and a great many of these were Shamrock supporters and saw that the green shirts had plenty of cheering.

Much money changed hands. After the Shamrock defeat on Tuesday New Westminster became the favourites and many who had bet on Shamrocks on Tuesday backed Westminster yesterday, and lost for the second time.

Charley Cullen, of Victoria, refereed again yesterday, but did not give as much satisfaction, it being freely stated here that in one or two cases in doubt, he decided against Westminster.

Barney Dunphy furnished lots of amusement for small kids, and sat on the edge of the oval and encouraged the boys to go at it again. Every time they scored Barney would do an Irish step and dance and he would look solemn as a minister when Westminster scored. When the game was over Barney was one of the first on the field and embraced almost every one of the players. "We'll do it again Saturday," says Barney.

As the series now stands each team has won a game, and it will be necessary to play a deciding game Saturday. The Shamrocks are confident of success. Some of them are feeling pretty stiff to-night, but are in high spirits. Green is in sight everywhere and the lobbies of the Guichon, where the team are stopping, are crammed.

The teams lined up as follows at 3.15:

Shamrocks — Kavanagh, McIlwaine, O'Reilly, Howard, Finlayson, Smith, Currie, Robinson, Hoobin, McKeown, J. Brennan, P. Brennan.

Westminster—Cheyne, Gray, Galbraith, Rennie, T. Gifford, C. D. Peele, Turnbull, H. Latham, W. Gifford, Cowan, C. Latham, S. Peele.

When the teams came on the field, both were received with loud cheers, and Turnbull, who came on alone a few minutes later, received quite an ovation from his admirers.

The Shamrocks got the ball from the face, and carried it down the field, but did not pass the defence. Westminster carried it down field with a rush, but the Shamrock defence sent it back. Hoobin made a quick shot, but Cheyne made a better stop. The ball was then close in on net when McKeown slipped it in amid thunderous cheering. Time, 10 minutes.

The second game did not last long. It was a rush this way, and that way when Billy Gifford got an opening and scored for Westminster, and the local supporters took a turn at the cheering. Time, 2 min. 23 secs.

Turnbull scored Westminster's second goal 2 1-2 minutes later on a long shot which fooled both point and goal man.

McKeown evened the score by making the fourth goal in six minutes.

Finlayson had been awarded a free throw for a foul, passed to Brennan, and then to McKeown, who got in a quick shot, the fifth game going to Shamrock, in two minutes. There was quick combination from start to finish, and the Shamrocks did some magnificent work, Paddy Brennan scoring.

The sixth game lasted eight minutes and seventeen seconds. The ball was up and down the field, both defences working hard, and keeping the ball out in the field. Howard went to the fence for tripping Cowan. Gifford and Turnbull carried the ball close to the flags, and by well-known combination Gifford passed to Latham, who made a throw over the heads of point and cover into the top of the net. This made the score at half-time stand three all, and the excitement was very high.

> **CAPT. SLATTERY'S OPINION.**
>
> This is Capt. Slattery's opinion of the game, given to the Star correspondent, "We are well satisfied with results. We had a new man, McIlwaine, on the defence, and he played equally as good as any old defence player we had. Our field played splendid lacrosse and were much better than Westminster field. The Shamrocks played a fine unselfish combination game and none should get special praise. The home shot accurately and often and if it had not been for the great work of Cheyne the score would have been different. Putting Kavanagh in goal was an expensive experiment, but it paid us to do it. Westminster have a good home, they are strong there. Their defence outside of Cheyne is outplayed by our home. We are in good shape and none of us have a scratch, and if all goes well we will repeat the dose Saturday."
>
> On Capt. Slattery being asked to put Westminster in its proper classification, he expressed his opinion as believing that Westminster would be well to the front in the East, but they would be beaten by the Cornwalls and Capitals. They play a hard aggressive game.

The Shamrocks started off again with a rush and Robinson scored. Time, 2 1-2 minutes.

The Shamrocks took the eighth game on a long shot by Hoobin, in 15 1-2 minutes. H. Latham was on the fence for giving the knee to his check.

The ninth game was the shortest of all, actual play being only forty seconds. Official time, 1.40. Turnbull took the ball from the draw and it was quickly rushed and all was over. S. Peel scored.

The Shamrocks took the tenth, eleventh and twelfth games in quick succession. The rubber was close on the Shamrock net, when Currie got it and, like a shot, the little centrefielder was going down the field, and passed to Hoobin, who landed in the net. Time, 5 minutes.

The next game was a little longer. Howard was off again for cross-checking H. Latham. Latham's head was cut, but he still played. Biscuits Peele was off for tripping, Gray for cross-checking, and, later on, T. Gifford, for the second time, for cross-checking. Hoobin scored the eleventh game in seven minutes, and J. Brennan the twelfth and last in 2 minutes, both on long bounding shots.

The distance between the flags was lengthened 25 feet to-day, and this helped the Shamrocks.

"Are we satisfied?—well, rather," said Barney Dunphy. The team are all in good spirits and being entertained by private parties. Westminsters are in no way disheartened, and both teams will take the field on Saturday with the intention of winning.

Mayor Keary issued the following statement: "I am authorized by the manager of the Shamrock Lacrosse Club to state that the third game will be played on Saturday, October 4, and that the team will leave for Montreal on Sunday, and positively no other games will be played in British Columbia."

TOO GREAT EXPENSE

Not the Reason.

It is not because Pyramid Pile Cure is so expensive that many people decline to give it a trial, but because they find it too great a tax on their credulity to believe that the published letters bearing testimony to the merit of this remedy are genuine and bona fide; especially to those who have realized the suffering incident to piles is it incredible that any one who has been afflicted twenty-five and thirty years with the worst forms of protruding and bleeding piles should be cured by the application of a simple remedy, when their physician has assured them that the only relief is in a surgical operation. This is rightfully viewed with dread by all those afflicted, as it means at the least a great shock to the nervous system, with more than a possibility of utter collapse and death; in the majority of cases, too, there is a return of the complaint, owing to the fact that the cause is not removed.

The proprietors of Pyramid Pile Cure agree to forfeit one thousand dollars to any one who will show a single published testimonial to be not genuine and unsolicited; this latter feature is most gratifying, inasmuch as these letters are written solely out of gratitude, and with the hope that those who are afflicted as the writers have been may learn that relief is at hand, at a comparatively trifling expense. Pyramid Pile Cure is for sale by druggists at fifty cents a package, or will be mailed by the makers to any address upon receipt of price.

Mr. Wm. Lichtenwalter, head of the largest printing house in Canton, Ohio, says: "It is with the utmost pleasure and satisfaction that I can say I believe I am cured of protruding and bleeding piles, after suffering more than twenty-five years. I have been in bed for two weeks at a time. I have not suffered in the least for over a year, and I used only three fifty-cents boxes of Pyramid Pile Cure. I advise every person suffering with this distressing and painful complaint to give this remedy a trial. I have every confidence in it." Write the Pyramid Drug Co., Marshall, Mich., for their book on the causes and cure of piles.

FAMOUS COLUMBIA TO BE FITTED OUT

E. D. Morgan Again in Charge "Lem" Miller Sailing Master.

AN EXPERIENCED SKIPPER

Old Defender One of the Trial Boats for New Herreshoff Yacht.

NEW YORK, October 3. — It has been ascertained beyond the possibility of a doubt that the cup defender Columbia, owned by former Commodore J. Pierpont Morgan, N. Y. Y. C., will again be placed in commission in the early spring to become one of the trial boats for the new yacht that will be built by the Herreshoffs, if the races for the trophy take place, as announced, next season.

Not only will the old favourite be again under sail, but she will once more be in charge of Mr. E. D. Morgan. Under the direction of this yachtsman, as all know, the famous boat was placed in such splendid shape and handled so perfectly last season that she was chosen as the club's champion to meet the Shamrock II., which she defeated.

As Captain "Charley" Barr, the skipper of the Columbia, in her sensational performances, is being reserved for the new Herreshoff boat, Mr. Morgan was compelled to look after another sailing master, and his choice has fallen upon Captain "Lem" Miller, the skipper of the yawl Navahoe, since her purchase by Mr. George W. Watjen, of Bremen, and he has been regularly engaged for the coming year.

The selection is an excellent one. Miller has had much experience in international racing. He was with Barr in the Columbia when she met the Shamrock I., and was the first officer of that yacht last year. He held a like berth in the Defender under Capain Rhodes, when she was the trial boat for the Columbia, in 1899.

"Lem" first shipped on a yacht in 1891, the Volunteer being the boat. Seven years before that he passed his examination for mate, and meanwhile had been on all kinds of deep water craft. Following his Volunteer experience he was on the Harpoon, the Jubilee, the Colonia, the Intrepid and the Jessica. He crossed and recrossed the ocean in the Vigilant, and was in all her races abroad. On steam yachts his record is also long and favourable. He was the skipper of the sloop Altair the year of her appearance, and his success with the Navahoe in German waters has already been told.

Miller recently returned to New York, but is booked to sail with his family to-day for Southampton, that he may superintend the repairs which are to be made on the Navahoe before she goes into winter quarters. He will return in two months to look after the preliminary work which may be needed on the Columbia.

Miller's Christian name is Leonard, but his countless friends know him as "Lem." He was born in 1864 and went to sea when fourteen years old. His record is thirteen years in merchant vessels trading to all parts of the world, and eleven years in yachts, the majority of which have been racing craft of international fame.

NO STARTLING BOAT FOR LIPTON'S RACER.

Herreshoff Will Go on Old Lines and Thinks He Can Beat the Baronet.

NEW YORK, October 3.—The New York Yacht Club expects to get Sir Thomas Lipton's challenge by the mail steamer Germanic.

If the challenge from the English Baronet doesn't come soon the members of the club will be keenly disappointed.

A member of the club who has had much to do, financially and otherwise, with the defence of the America's Cup said yesterday that Nat Herreshoff in his new boat would make no startling innovations. The craft will have all the salient features that made the Columbia and the Constitution marvellously fast.

The new boat may have a little less freeboard than the old ones, so as to save weight, and her lines may be slightly finer, but the principal characteristics of the Columbia and Constitution, which are the result of study and practical experiments spreading over more than a quarter of a century, will not be departed from.

"In a word," summed up the yachtsman, "the new defender will be an improved Constitution, and if Mr. Fife can beat her Sir Thomas Lipton deserves to 'lift' the cup."

GOLF

THE OUTREMONT CLUB

Officers Were Elected at a Meeting of Charter Members Held in the Windsor Hotel Last Night.

The new Outremont Golf Club, the formation of which was announced exclusively in the Star some two weeks ago, met to elect officers last evening. The property which was fully described at the time has been finally acquired, and the officers are as follows:

Hon. president—Hon. Senator Drummond.
President—J. Try Davies.
Vice-president—Mr. Recorder Weir.
Committee—Henry Brophy, Dr. F. C. L. Lockhart, J. T. McCall, D. A. Dunlop, W. B. Blackader, Cecil T. Gordon, A. F. Dunlop.
Hon. secretary—H. J. Elliott.
Hon. treasurer—Henry Fry.

THE LADIES' TOURNAMENT.

Favourites Have Been Put Out of the Race.

BROOKLINE, Mass., October 3.—Eight hard fought matches, five of which went to the last green and one for two extra holes, were played at the country club yesterday in the second round of the Woman's Golf Championship, and the results leave Mrs. Walter M. Gorham, of the Huntingdon Valley Country Club, Phila.; Miss Genieve Hecker, of the Apawamis Golf Club, Rye, N. Y.; Miss Louisa A. Wells, of the Country Club, and Mrs. Caleb E. Fox, of the Morris Country Club, Morristown, in the semi-finals which will be played to-morrow. Mrs. Gorham, will meet Miss Hecker and Miss Wells, will play Mrs. Fox.

The features of the day were: Miss Hecker's victory over the Western Champion, Miss Bessie Anthony, of the Glenview Club, Chicago, and the defeat of Miss Margaret Curtis, of the Essex Country Club, Manchester, Mass., one of the local favourites, by Mrs. Gorham, who on Wednesday put out another favourite, Mrs. F. A. Manice.

ODDS AND ENDS.

Loyola College athletes are to hold their fifth annual field day on Tuesday, October 7. This event has always been a success, and this year will, if possible, surpass all former efforts. The number of entries for the different events is unusually large and the rivalry is very keen.

There is an open 2.20 for all schools and colleges, which is always a very interesting race.

All the friends of the college are invited to attend. Tickets may be had from any of the students.

W. J. Clothier, of Harvard, and Pennsylvania tennis champion, won the inter-collegiate tennis championship on the grounds of the Merion Cricket Club, at Haverford, Pa. Clothier and his college mate, E. W. Leonard, defeated I. J. Wright and E. P. Larned, of Princeton, for the inter-collegiate championship in doubles. In the semi-finals of the doubles, Wright and Larned beat R. King and H. J. Rendall, of Princeton, and in the semi-finals of the singles Clothier beat W. S. Warland, of Harvard, and Leonard beat R. Bishop, of Harvard. In the final doubles Clothier fell and slightly sprained his ankle, and was unable to do himself justice. He at first hesitated to play Leonard in the single championship match on account of his injury, but after a brief rest he pluckily contested and won the tennis premiership of the college world in three straight sets, after losing the first set. The summaries:

Individual championship, semi-finals—W. J. Clothier, Harvard, beat W. S. Warland, Harvard, 6—2, 7—5. E. W. Leonard, Harvard, beat R. Bishop, Harvard, 9—7, 3—6 6—1.

Final—W. J. Clothier, Harvard, beat E. W. Leonard, Harvard, 5—7, 6—2, 6—2.

Doubles, semi-final—I. J. Wright and E. P. Larned, Princeton, beat R. King and H. J. Randall, Princeton, 6—2, 7—5.

Final—W. J. Clothier and E. W. Leonard, Harvard, beat I. J. Wright and E. P. Larned Princeton, 6—0, 6—3, 3—6, 7—5.

THE HUNT.

HUNT STEEPLECHASES.

Time Will be Left for Luncheon.

Everything looks promising for the Montreal Hunt Steeplechases, which will be held at Petite Cote, about a mile and a half from the Street Railway terminus, and, like last year, will take the shape of a regular Old Country Hunt Race Meeting.

The programme has been so arranged that there will be time between the first race at half past twelve, and the second race, for luncheon.

People who wish to walk out, can take an Amherst street car, which connects at Lafontaine Park with the Papineau Avenue line. At the terminus of that line it is necessary to cross the C. P. R. Railway tracks and take the first road to the right. The farm wher the races are held is about a mile and a half from this turn, and there is a good sidewalk.

SARGENT IN WASHINGTON.

Thinks His Visit to Canada Will Result in Good.

(Special to the Montreal Star.)

WASHINGTON, October 3.—Commissioner General of Immigration, Frank P. Sargent has returned from Canada where he was conferring with Dominion officials regarding the immigration questions in which both United States and Canada are vitally interested. Mr. Sargent expressed the belief that, as a result of recent Dominion Legislation many of evils connected with illegal Chinese immigration over the Canadian border into the United States will be done away with. Mr. Sargent says the Canadian officials do not attach much importance to trachoma and favour two diseases declared by United States medical officers to be dangerously contagious, and the officer in charge of the Canadian Immigration Office at Montreal, has been invited to visit the Ellis Island Hospital to view a number of cases of this disease.

Newfoundland's Prosperity.

ST. JOHN'S, Nfld., October 3.—The revenue of the colony for the quarter ended September 30, reaches a total of $550,000, which is $20,000 more than the revenue for the corresponding quarter of last year. The revenue for this quarter of 1901 was the largest ever collected during any three months in the colony's fiscal history. The prosperity of Newfoundland is now greater than ever, and all branches of business are booming.

THE TURF

FAST CRESCEUS TRIED IN VAIN

Could Not Break the Record at Cincinnati Ohio.

RACING AT GRAVESEND TRACK

Tremar Equalled the Track Record on the Woodbine Track at Toronto Yesterday Afternoon.

CINCINNATI, Ohio, October 3.—Cresceus, George B. Ketcham's champion trotter, made an attempt to lower the world's record at the opening of the Grand Circuit meeting in this city, but failed on account of a bad track. He covered the mile in 2.08, which is the fastest ever hung out on the Oakley track, where the races were held.

The condition of the track prevented fast time from being made, but the sport was exciting and the betting good. The best contest of the day was the 2.10 trot, which was won by Charley Mac. In each one of the five heats the field crossed the wire in a bunch, and the winner had nothing to spare.

Before Cresceus was sent his exhibition mile he was brought on the track alongside of Dan Patch, the king of pacers, and the two went a half mile together amid wild cheering from the spectators. This is the first time that the champion pacer and champion trotter have ever appeared together on a race track in an exhibition, and the crowd appreciated the treat.

In his exhibition yesterday Cresceus was driven by his owner, George H. Ketcham, of Toledo.

The first quarter was made in .32¼, the half in 1.04½, the three-quarters in 1.38¼, and the mile in 2.08. The summaries:

2.30 class, trot; purse, $3,000—Chase, b.g., by Keeler, won in three straight heats; Maxine, b.m., second; Patchen Maid, blk. m., third. Alfred Star and Roan Wilkes also started. Best time, 2.14¼.

2.30 class, pace; purse, $3,000—Direct Hal, blk. m., by Direct, won in three straight heats; Miss Williamont, blk. m., second; Elderone, b.g., third. Cubanola and Mary Anna also started. Best time, 2.10.

2.12 pacing; purse, $3,000—Twinkle, b.m., by Mercury, won in three straight heats; Daphne Dallas, b.m., second; Prime Direct, blk.h., third. Pinchem Wilkes, Pauline G., Cousin Madge, Donna McGregor, Schley Pointer and Little Sphinx also started. Best time, 2.09 3-4.

Fourth race; 2.10 trotting; purse, $1,200—Charley Mac, blk.g., by McKinney, won third, fourth and fifth heats, and race; Wentworth, blk.h., took first heat and second money; Fereno, br.m., took second heat, and third money. Prince of Orange, Hesperus, Palm Leaf, Wilque and Lily Young also started. Best time, 2.12 in fifth heat.

Three-year-old; trotting; purse, $2,000 — The Rajah, b.g., by Prince of India, won in two straight heats; Roma, b.f., second; Hattie Smith, b.f., third. Confienza also started. Best time, 2.21 1-2.

Sixth race; 2.19; trotting; purse, $3,000—Dulce Cor, b.m., by Baron Wilkes, won in three straight heats; Baron Bell, ch.h., second; Horace W. Wilson, ch.h., third. Best tmie, 2.14 3-4.

2.09 pacing; purse, $1,000—New Richmond, gr.h., by Brown Hal, won in two straight heats; Cannot, blk.h., second; Rosebud, ch.m., third. Albert, Sufreet, Carthage Girl, Lou Vaughn and Cambria Maid also started. Best time, 2.09 3-4.

TREMAR EQUALLED THE TRACK RECORD.

The Track Was Very Fast and the Races Were Good.

TORONTO, Ont., October 3.—The Woodbine track was faster than at any time during the meeting, and that it is in pretty good shape was evidenced by the time made by Tremar in the fourth, when she ran the six furlongs in 1.15, and finished two lengths to the good, after leading all the way. This equals the track record. The sixth race was split, making seven on the card. Results:

First race, for 3-year-olds; selling; 7 furlongs—Pride of Surrey, 106, J. Daly, 3 to 5, won; Blue Ridge, 98, Feitch, 12 to 1, second; Floret, 98, Dart, 8 to 1, third. Time, 1.31. Santa Ttresa Insolence, John Hughes, Golden Cottage, Roddick, Bessemer and Anticosti also ran.

Sixth race, for 3-year-olds and up; selling; 1 1-16 miles—Resource, 106, Dart, 12 to 1, won; Chapparal, 106, J. Daly, 8 to 5, second; Loughderg, 103, Irvin, 9 to 5, third. Time, 1.54 3-4. Rathlin, Post Haste, Dogan, Laudeman, Brown Dale and Allegiance also ran.

Seventh race, for 3-year-olds and up; selling; 1 1-16 miles—Huzzah, 103, R. Steele, 2 to 1, won; Lou Rey, 110, Alley, 4 1-2 to 1, second; Heroics, 107, Ellis, 20 to 1, third. Time, 1.51. Tchula, Jack McGinn, Pay the Fiddler, and Great Star also ran.

The Racing at Gravesend.

NEW YORK, October 3. — L. V. Bell's Hermis captured the Ocean View Handicap at 1 1-16 miles, at Gravesend yesterday. Hermis picked up 126 pounds, and giving away weight from 10 to 28 pounds, to his field, won by three lengths. There was always a good price against the winner. Andy Williams closed favourite, while Igniter, on his previous good races, was heavily played. J. E. Madden sold the 2-year-old filly Judith Campbell to W. C. Whitney, for $18,000. Summaries:

First race, for all ages; handicap; about 6 furlongs — Dublin, 126, Shaw, 11 to 5 and 3 to 5 won; The Musketeer, 124, J. Martin, 7 to 10 and 1 to 3, second; Rappanecker, 97, Daly, 15 to 1 and 30 to 1, third. Time, 1.11 1-5. Young Henry and Himself also ran.

Get Rid of it.

If you have catarrh, why don't you try to get rid of it? The first thing you know it will go down into your lungs or stomach and cause serious trouble. You should use Vapo-Cresolene at once. The cure is so easy and so pleasant. You put some Cresolene in the vaporizer, light the lamp beneath and breathe-in the vapor while sleeping, that's all. The healing, soothing vapor, goes all up through the nose, quieting inflammation and restoring the parts to a healthy condition. Doctors prescribe it.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

TENDER FEET

Renders Them Capable of Bearing the Burden of the Body Without Playing Out Quickly.

There are quite a few people whose feet are tender, get sore, ache and tire easily. Feet like that are a great source of discomfort, and even suffering.

To get the feet in condition so that they can carry their owner with comfort, all that is needed is the persistent use of "Foot Elm" for a short time. It prevents the excessive sweating, eases the aching and tiredness, tones up and strengthens the muscles of the feet, and puts them in such condition that they do not tire or play out easily.

Always ask for "Foot Elm," and refuse imitations and substitutes, which may do injury to the feet. Price 25 cents a box of 18 powders, at all druggists, or by mail. Stott & Jury, Bowmanville, Ont. 234

Montreal Catholic Schools

Synopsis of the Work of Past Scholastic Year—Enrollment, Average Attendance and Cost of Maintenance of the Various Institutions.

The Commissioners for the Montreal Catholic Schools has just issued the complete report for the scholastic year 1901-2. It is in part as follows:

Since the last report, the Commission of Catholic schools has had the misfortune to lose by death two of its most esteemed members, Rev. John Quinlivan, parish priest of St. Patrick's, and Mr. Frank J. Hart, one of Montreal's most successful business men.

The vacancies created in the commission by the death of these gentlemen have been happily filled by the appointment of two new members, whose devotion to the cause of public instruction has been well known for a long time: the Rev. Martin Callaghan, S. S., the new parish priest of St. Patrick's, replaces the Rev. John Quinlivan, and Mr. John Henry Semple, who formerly formed part of the school commission, replaces Mr. Hart.

During the last year, a new school has been taken under control, that directed by Miss M. Stephens.

The commission has also acquired St. Bridget's school, taught by the friars of the Christian schools, at a cost of $57,161.17, payable in forty-seven instalments of $3,036.13 per year.

One remarks in the average daily attendance of certain schools a falling off as compared with last year. This is due in part to the epidemic of smallpox or varioloid which prevailed among children last winter. But looking at the large number of children admitted into the other schools, the total attendance this year is greater than that of past years.

SCHOOLS HAVE CHANGED NAMES.

St. Mary's and St. Eusebius school have changed names. The former is now known under the name of the Edward Murphy school, in honour of the late Senator Edward Murphy, who for so many years devoted himself to the cause of public instruction in Montreal. The second is known under that of Meilleur school, in recognition of the important works of the first superintendent of the public instruction in this province, the founder and organizer of our system of public schools.

The ordinary expenses during last year have been $241,693.30, while the ordinary receipts have attained but the amount of $238,794.42, leaving a deficit of $2,898.97, which has been filled by the accumulated balances of past years, and leaving to the credit of the commission, on the 30th of June, a sum of $12,458.45 to meet any unexpected demands next year. The balance of $31,454.59 remaining in the permanent fund last year on the sale of debentures of the eighth issue has been absorbed by the construction and completion of new schools and by the payment of part of the sum due on the ground for Montcalm school, leaving a difference of $8,232.12, due to revenue by capital.

The Paving of McGill Street

Trouble Over the Asphalt Work to be Done on This Thoroughfare—Work May Now Go to Some Local Firm.

There was trouble at the meeting of the Road Committee yesterday afternoon over the proposed paving of McGill street, opposite the Grand Trunk offices. The chairman of the committee, Ald. Vallieres, explained that some time ago a report had been sent to Council favouring the street being paved with asphalt blocks. He was of the opinion that the report should now be withdrawn. In further explanations given by the chairman it seems that last July a letter was sent to a firm in New York, asking for prices for the asphalt blocks delivered in Montreal. An answer was received, saying the same would be delivered here for $1.85 a yard. This was considered satisfactory, and arrangements were made for the order. A few days ago, greatly to the surprise of the committee, another letter was received from New York, withdrawing the offer made and referring the city to a Montreal firm, which acts apparently as agents. The prices are $2.10 for the same asphalt.

"So far as I am concerned," went on Ald. Vallieres, "I do not propose to submit to treatment such as this. There is no reason whatever why we should not be given the asphalt blocks at the original figure."

He asked his committee to notify the New York company that the committee would have nothing to do with the blocks if a change like the above was proposed. The company should also be notified that the committee would not now negotiate with the Montreal agent in regard to the matter.

It now transpired that the cost of laying these blocks, with the additional cost of the concrete, would be about $3.10 a yard. This was thought pretty high, considering that asphalt, of a good quality, could be put down for three dollars or less.

Ald. Gallery asked that a local paving company be given the contract for laying the asphalt. He could see no reason for not dealing with local firms. Outside concerns were evidently not treating the corporation very well.

The chairman was afraid that it was a little late to go ahead with the paving now. If the frost came before the asphalt was laid the roadway might be damaged.

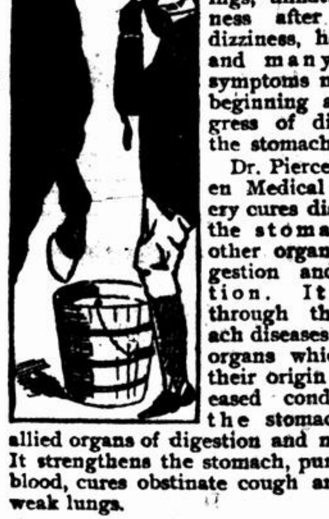
It was decided to leave the matter over for a few days. It was practically decided, however, that the committee would not consent to pay the extra price demanded for the blocks.

Maximum of Insurance Raised.

The Brotherhood of Locomotive Firemen have decided to make $3,000 the maximum amount of life insurance that can be taken by a member, in the Brotherhood Insurance Society. Hitherto the maximum has been $1,500.

Horse Sense.

"Any fool can take a horse to water, but it takes a wise man to make him drink," says the proverb. The horse eats when hungry and drinks when thirsty. A man eats and drinks by the clock, without regard to the needs of nature. Because of careless eating and drinking "stomach trouble" is one of commonest of diseases. Sour and bitter risings, belchings, unnatural fulness after eating, dizziness, headache, and many other symptoms mark the beginning and progress of disease of the stomach.



Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures through the stomach diseases of other organs which have their origin in a diseased condition of the stomach, and allied organs of digestion and nutrition. It strengthens the stomach, purifies the blood, cures obstinate cough and heals weak lungs.

"I was taken with Grippe, which resulted in heart and stomach trouble," writes Mr. T. R. Caudill, Montland, Alleghaney Co., N. C. "I was unable to do anything a good part of the time. I wrote to Dr. Pierce about my condition, having full confidence in his medicine. He advised me to take his 'Golden Medical Discovery,' which I did. Before I had finished the second bottle I began to feel better. I have used nearly six bottles. I feel thankful to God for the benefit I have received from Dr. Pierce's Golden Medical Discovery. I can highly recommend it to all persons as a good and safe medicine."

Dr. Pierce's Pleasant Pellets keep the bowels healthy.

DERRICK ARM BROKE—SHOWER OF BRICKS CRUSHED TO STREET.

Shortly after 8 o'clock this morning a shower of bricks and mortar crashed down from the top of the London & Lancashire Life building, St. James street, landing in the middle of St. James street. Fortunately this particular section of the busy thoroughfare was empty at the time, though a west-bound street car had just passed the spot where the hundred or so bricks fell, and at the time of the crash was not over forty feet away.

The bricks and mortar formed a portion of one of the chimneys on the London and Lancashire building, and the fall was caused by a derrick in use on the construction of the new Guardian building. The arm of the derrick broke from its fastenings, and, crashing to the roof of the London & Lancashire building, brought down the chimney.

Gabrilowitch, the Pianist.

Daniel Frohman's new musical star, Gabrilowitch, the pianist, sailed from Antwerp on the steamer Friesland, last week, and has arrived in New York. He left immediately for Worcester, Mas., where he appeared at the Festival, October 2nd, playing the Rubinstein D. Minor Concerto, with the Boston Symphony players, Franz Kneisel, conductor, and will be heard in New York with orchestra, and in recital, the last week in October, and the first week in November. His date in Montreal, which has been arranged for by Mr. and Mrs. Frank Murphy, is Thanksgiving Day, October 16th, in the Windsor Hall. He will be the first instrumentalist of the season, and a musical treat can be looked forward to for the holiday.

He Was Not Married.

Morris Sodorofsky denies that he was married in New York, on April 2nd last, to May Corbet, as was set forth in a marriage notice published in June last. It is eight years since he has been in New York, and neither then nor at any other time has he taken to himself a wife. It is regrettable that Mr. Sodorofsky should have been the victim of such a practical joke.

Wheat Now Steadily Moving.

Up to the end of September, the C. P. R. had brought from the North-west, slightly over 5,000,000 bushels of wheat, as against 3,500,000 at the same time last year. At present the wheat is coming out at the rate of about 475,000 bushels a day.

WATCH FOR IT!

THREE CHINAMEN CAPTURED.

They Had Crossed Over to Watertown, N.Y., from Kingston, Ont.

(Special to the Montreal Star.)

OGDENSBURG, N.Y., October 3.—Three Chinamen were arrested yesterday in Watertown, on a charge of illegally being in the United States. Officer Gaffney noticed a closed carriage driving up the street at a rapid gait. It stopped in front of the Crowner House. Three men alighted, but instead of going into the Crowner House they started down the street, followed by the officer, and entered the laundry of Charley Yen. The officer was right behind them, and found, in spite of the American dress, that they were the genuine article. None of them could produce a certificate of residence, and he locked them up. The rig and driver, Levi Calhoun, were also secured and are held pending an investigation. The Chinamen crossed over from Kingston.

Gustav Kaufman Dead.

PARIS, October 3.—Councillor Gustav Kaufman is dead. He was twice elected second burgomaster of Berlin by the Liberal municipality. On each occasion the Kaiser refused to sanction the election.

Piles To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EDMANSON, BATES & CO., Toronto.

TO STRIKE FINLAND OFF ROLL OF NATIONS.

ST. PETERSBURG, October 3.—The new Finnish ordinances have been promulgated at Helsingfors, Finland. The ordinance referred to set forth that officials are placed beyond judicial prosecution without the consent of their superiors, and that officials and judges are removable by the Senate of the Government of Finland nominated by the Crown. The Governor-General or his assistant is to appoint a court of chancery. Senate officials are to preside at the open sessions of the economical department, which will henceforth appoint the judges and the censorship is widened.

The London Times, September 23, commenting on the new ordinances, said they would "completely destroy all the Finnish liberties and will strike Finland off the roll of the European nations."

Bribery Case at Kingston.

KINGSTON, Ont., October 3.—An episode of the Frontenac Legislative election was heard at the Assize Court yesterday. George Smith, of Harrowsmith, was sued for the penalties of bribery. The amount of the suit was $1,000. W. D. Carey, accused of voting twice in the election, was the plaintiff. Eli Peters, Muirvale, aged 78, by affidavit (as he was unable to attend court) said Smith told him to vote right and he would see he got as much as he did in every election. After Smith gave him $1, he sent his son for the balance due. Sidney W. Davey overheard Smith make offers to Peters. The defendant swore he made no promises to Peters. He did give Peters $1 for food, to save him from hunger. He had also given him $3 after the Avery election. Judgment was reserved.

"ASTHMA"

Climates wear out. Smokes and sprays do not cure. They relieve symptoms instead of removing causes; whereas, we take Asthma so thoroughly out of the system that nothing remains which can produce an attack; sufferers are soon able to work, eat, sleep and stand exposure without the slightest return of Asthma. Being right in principle our treatment does what "reliefs" cannot do. We cure to stay cured severe, long-standing and pronounced "incurable" cases. If you are skeptical, it is because you are ignorant of our great work. Since 1883 we have treated 52,000 Asthma and Hay Fever sufferers. If you desire complete relief, health restored, and no return of Asthma, write for our Book Free.

ADMINISTRATION OF JUSTICE IN RURAL DISTRICTS.

Following close on the very sombre account given by an officer of the Children's Aid Society of Ontario of the conditions existing in the rural districts of Ontario comes a statement which we find in the Ottawa Citizen of unpunished crimes in the county of Carleton, Ontario. Two shooting cases are cited, one of which was fatal, in which no satisfactory action has been taken by the authorities. Two cases of mysterious disappearance are also mentioned in which nothing has been done. The first was that of an elderly woman, who left her home, near Stittsville, one cold bleak day, and has never been heard of since. The second was that of an old man living in Marlborough township, who disappeared in very much the same way. These, the Citizen says, are only a few of the more important cases; the less important ones in which wrongs have been committed with entire impunity, so far as the action of the law is concerned, have been very numerous. What is needed is a thoroughly efficient system of provincial and county police. Surely the first thing to do in any country is to render life, property and all the rights of the individual citizen secure. There should be no less respect for the law in the remotest hamlet than there is in the crowded city. Were this condition realized, one of the causes for the drift of population from the country to the cities would be removed; for it is impossible to doubt that amongst the attractions of city life must be the better administration of justice. There is no price too high to pay for the supremacy of law through the length and breadth of the land; and the money required to secure it might well be spared from less important objects.

THE MINISTER AND THE MENIALS.

There is a wide difference between the position of a Minister with initiative and that of the subsidized party journals in the face of such changed conditions as to-day confront the industrial life of this country.

The Minister is a member of a body which must re-shape its policy to meet the new conditions.

The subsidized press are bound by the many shillings they have taken to blindly support the policy of the party as it was last officially declared.

The menacing growth of the American trust which has become at a bound the first question in the politics of the Republic, and has even made its appearance in the international field, challenging British supremacy at sea and putting every nation in Europe on the defensive, is a new danger at our borders, of which it is the duty of the Minister to take note. He is sworn to give the shrewdest advice he can to his Government as to how best to protect the country and safeguard our industrial interests. If he thinks that the past tariff policy of the party should be changed, he would be false to his oath and guilty of constructive treason to the country if he did not say so.

But the subsidized party press have long ago sunk far below any such position. Their politics are bought and paid for. They are not supposed to know that the American trusts have grown to be a new and serious peril to the industries of Canada, both directly through their organized and fabulously-financed competition, and indirectly by arousing the antagonism of Europe, and thus filling their warehouses with goods to be slaughtered here. When the Government formally recognizes this condition of affairs, then they will; but, in the meantime, their politics have advanced no farther than have those of that excellent publication, the Hansard reports of Ministerial speeches last session.

So it is not at all surprising to find Mr. Tarte preaching a new gospel; and the Ministerial press denouncing him for it.

It is his duty to lead; it is their's—according to the debased standard they have accepted for themselves—to follow, but only to follow when his views have been endorsed formally by Order-in-Council. They are well trained; and they will not fall into the new line without the word of command.

Meanwhile, Mr. Tarte is not very much disturbed. He knows that if he can convince his colleagues and the country, he will have no trouble with the official megaphones of the party. It is easy enough to get out suitable campaign literature, after the line of campaign is decided upon. The subsidy eaters will never quarrel seriously with their "pap."

The last place one should look for signs of new political movements is to the subsidized press. They arise first in the country, and must be far advanced before they can win a Minister of the Crown. Then a whole Government is to be convinced; and finally official news of the event will be sent to the mercenaries.

PRIZES FOR GENIUS.

The electors of a certain district in Indiana lately returned Mr. Booth Tarkington, a successful novelist, to the State Legislature. At once Mr. Tarkington thought he would do something for the cause of letters, so he gave notice of a bill providing for an annual literary contest, with five prizes of one hundred dollars each, to be awarded by a committee selected by the Legislature. It is not at all likely that Mr. Tarkington's bill will become law, and it is much to be desired that it may not. The only effect would be to draw forth a prodigious amount of amateur writing, for which there is no other demand. Of the making of books, already, there is no end. What would it be if governments generally took to offering hundred dollar prizes for essays, tales, poems, etc.? It was early in the last century that Carlyle, reviewing Walter Scott, said that literature was being "swum away" in the flood of facile and futile writing that marked that age. What would he say to-day? Too much literary productivity of an inferior kind stands absolutely in the way of literary production of a superior kind. The greatest writers require a public; and there is next to no public for them when nearly every one is taking a hand in, and when the taste of the few who do not write is being perverted by the meaningless attempts at literature of the multitude, who do. If Mr. Tarkington's idea is to rescue genius from the sad fate of "blushing unseen," we think he is wasting his anxiety. Genius can generally take care of itself, at least to the extent of uttering what it has to say; moreover, it is not at all likely that genius would be attracted by hundred dollar prizes. Not that it might not need the hundred dollars, but because, being genius, it would find extreme difficulty in writing to order. If it did compete with the mob of ladies and [illegible]tlemen who write with ease, it would in[illegible]probability be turned down. Imagi[illegible] William Blake entering his "Tiger, tig[illegible]urning bright," or Emerson "The Proble[illegible] against the elegant productions of a loc[illegible]agazine poet; or Carlyle his "Sartor [illegible]artus," against a smart essay on "The [illegible] of the Republic." What chance [illegible]ither have? If there is anything in [illegible] world a committee appointed by the [illegible]ature is incapable of, it is the disce[illegible] of genius. The decisions in any [illegible] would have to be in line with popular opinion and taste, or the whole thing would soon be brought to an end.

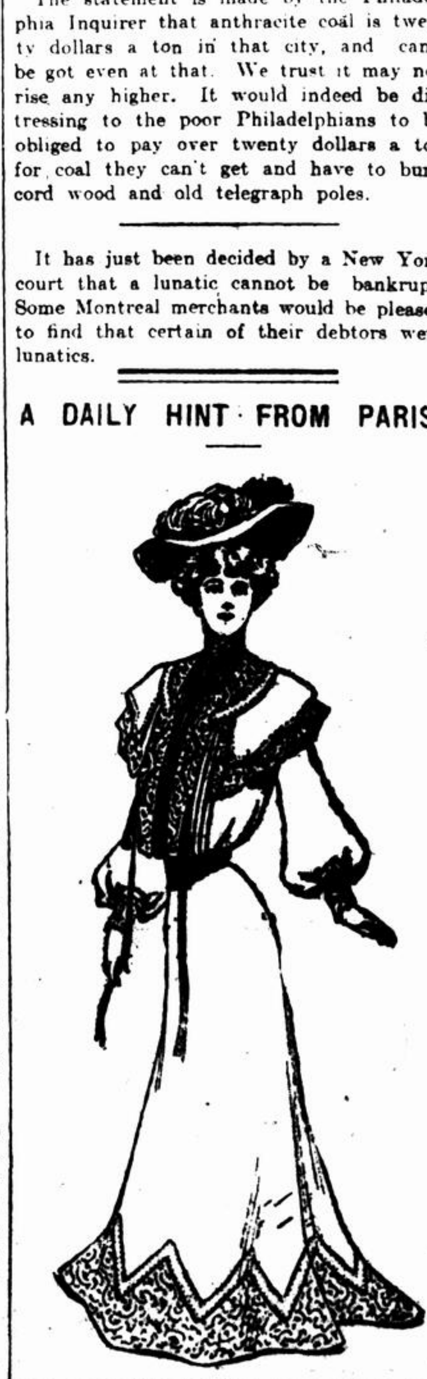
There is just one form of literary excellence which every one may reasonably aspire to; and that is the correct, and, as far as possible, elegant use of one's native tongue. To be able to write a good letter is an accomplishment worth possessing. To be able to describe accurately and graphically what one has seen, implies an awakened intellect. We do not believe in the offering of prizes by the government to develop these gifts; to possess such a power ought in itself to be prize enough. Our educational institutions might, however, lay more stress than they do upon the correct and competent use, of language, and try to create the feeling that no education can pretend for a moment to be complete that does not include at least this faculty. It would hardly be too much to say: "Give us samples of a man's written and spoken language, and we will tell you on what intellectual plane he lives." As Buffon long ago said: "The style is the man."

A Montrealer is apt to smile at the notion of a street car conductor being fined for permitting his car to be over-crowded. It is impossible to overcrowd a car here, unless some one is riding astride the trolley pole which is likely to pull it off the wire. But in Europe, cars are permitted to carry no more passengers than can be comfortably seated, with the right, perhaps, to let two or four stand on the rear platform. The number who can be seated, as well as the number who may stand outside, is fixed by law; and under no circumstances is any one allowed to stand in the aisles. People do more waiting at the corners there than here, but the companies run more cars, too; and the result is that every one gets carried home within a reasonable time, and makes the journey in comfort. In Paris, a system of numbered tickets prevents the rush for seats resembling a football scrimmage. It is first come, first in; and the giant has no advantage over the cripple. There are some things in the way of comfort that we might learn from the cosy "old world."

The statement is made by the Philadelphia Inquirer that anthracite coal is twenty dollars a ton in that city, and can't be got even at that. We trust it may not rise any higher. It would indeed be distressing to the poor Philadelphians to be obliged to pay over twenty dollars a ton for coal they can't get and have to burn cord wood and old telegraph poles.

It has just been decided by a New York court that a lunatic cannot be bankrupt. Some Montreal merchants would be pleased to find that certain of their debtors were lunatics.

A DAILY HINT FROM PARIS.



Pale gray chiffon veiling gown; blouse trimmed with cream lace and green louisine; skirt with flounce of cream lace.

THE PASSING HOUR.

Mr. Tarte has not made his campaign in vain. He has entertained Mr. Goldwin Smith. The world may not look so gray and hopeless to the Professor for a while now.

It is said that at the Tarte banquet in Goderich there was "not a vacant chair." It is plain from this that Mr. Sifton was not expected.

We would all feel that there was something irregular and even unconstitutional about the adoption of the annual report of any large financial institution if it were not accompanied by "a few remarks from Mr. John Morrison."

The Ottawa coal dealers beg of the Ottawa Council not to worry about the coal situation enough to go into the fuel business themselves. But it is to be feared that they are not wholly moved by a desire to save the City Fathers from worry.

The British people save a billion and a half every year. They raise their own Dukes and mine their own coal over there.

Hon. G. W. Ross and Mr. Sifton are booked to appear on the same platform to-morrow. There will be considerable curiosity to see if Mr. Ross will pronounce Mr. Sifton's speech one that should be made everywhere over and over again.

The trouble is just now that "the maid in Canada" is being carried off by the American bachelor.

They have bought a bull for the Toronto Zoo. As such an animal can hardly be rare enough for a curiosity, it is to be feared that, having found a Midway to be a paying concern, Toronto-the-Better-than-Thou must be going in for a bull fight.

MR. TARTE IS NOT IN IT.

Anxious Subscriber.—No, Mr. Tarte will not take the principal role at the Theatre National Francais next week in the play, "L'Hotel de Libre Exchange."

How sad to see our Brother Pick,

Jabbing the bishops in his ire,
Yet to a bishopric aspire!
Sad as it is, 'tis sadder still
To see the eagle's claws and bill
In "Western Churchman's" wild attack
On Brother Pick's defenceless back!

On receipt of an official telegram from the War Office to the effect that the Queen's Royal West Surrey Regiment were expected to arrive from South Africa, the people of Guildford prepared to give them a rousing reception. Nothing was forgotten. The mayor went to meet the train; luncheon was prepared; sherry flowed like water. They waited long, but no regiment appeared. Then there arrived another telegram from the War Office. "When I said West Surrey Regiment, I meant West Kent. My mistake." "Oh, don't mention it," said the people of Guildford.—London Globe.

A duel was fought in Texas recently by Alexander Shott and John S. Nott. Nott was shot, and Shott was not. In this case it is better to be Shott than Nott. There was a rumour that Nott was not shot, and Shott avows that he shot Nott, which proves either that the shot shot at Nott was not shot, or that Nott was shot notwithstanding. Circumstantial evidence is not always good. It may be made to appear on trial that the shot Shott shot shot not, or, as accidents with firearms are frequent, it may be possible that the shot Shott shot shot Shott, when the whole affair would resolve itself into its original elements, and Shott would be shot and Nott would be not. We think, however, that the shot Shott shot shot not Shott but Nott; anyway, it is hard to tell who was shot and who was not.

Yankees in Ohio have been spreading themselves at what all called Bills Picnics—festivities where guests are invited only if their Christian name happens to be William. There is a syndicate, it appears, which is negotiating for the French submarine "Goubet." They wish to convert it into a pleasure boat on a lake in Switzerland, so that tourists may go to the bottom at a guinea a head. It is the business of a submarine, of course, to sink, but that the "Goubet" should sink as low as this! How relieved perfide Albion will be.

And got "jugged" till three months had slawbridgeworth.

BALDWIN BACK IN NEW YORK

Tells of Trouble Between Sailing Master and the Ice Pilot

A NORWEGIAN AND SWEDE

A Great Deal That Will be of Interest to Science Was Discovered.

NEW YORK, October 3. — Evelyn B. Baldwin, the Arctic explorer, arrived yesterday on the steamship Germanic, of the White Star line.

Mr. Baldwin at first refused to talk about the alleged controversies which had taken place between him and Captain Johannsen, of the America, but after hearing that it had been reported that the expedition had been short of food and supplies, he made the following statement: "There is not a word of truth in the report of our not having sufficient supplies. It is easy to explain the trouble between myself and Captain Johannsen. He wanted to be the whole thing. That's all. The trouble first started between the captain, or to give him his proper title, sailing master, and the ice pilot, whose name is Arensen. The ice pilot took up his place in the crow's nest on the ship, when we were in the ice fields and should have had, and eventually did have, complete charge of the directing of the ship. The sailing master objected to the ice pilot's holding absolute sway over the movements of the ship at any time, and that is how the row began. I, of course, took the side of the pilot, and saw that he was kept in command while we were in the ice. This pilot had had twenty-nine years' experience in the ice fields, while the sailing master had had practically none.

"IN A NUTSHELL."

"The expedition went away with forty-two persons on board and we brought back the same number. The Fram drifted around in the ice for four years, while in one year we did almost as much. Why, we ought to be congratulated, instead of, as you say in America, 'jumped on.' I have learned one good lesson, though, never to take a Swede and a Norwegian together along if you want to avoid trouble. The ice pilot was a Norwegian and the sailing master a Swede. There's the whole thing in a nutshell."

In response to Mr. Baldwin's request for information regarding any charges made against him, he was shown in a published interview with J. Knowles Mare, an artist on the expedition, who recently arrived here. The interview stated that there had been a disgraceful row between the captain of the America and Baldwin, and that there had been an insufficient food supply. Mr. Baldwin was also informed that F. S. Vineyard, of Durango, Col., the first member of the expedition to arrive in America, had said that he never would go north again with Mr. Baldwin.

DOESN'T BELIEVE IT.

"I don't believe it," said the explorer. "Why neither of these men has any cause to say anything against me. Everyone was treated fairly and no one can say truthfully that he was not. If I go again next year, no matter who I take with me, whether they be Zulus, Hottentots, or white men, there are sure to be some kickers in the crowd. The members of this expedition were mostly young men, and very few of them had ever undertaken such a trip before. This might explain some of the things said about me, but I am being done a great injustice.

"We had quite a pleasant time of it taken altogether. Some of the men brought musical instruments along with them, and they cheered us up a bit. Another feature was the cinematograph pictures that we took of various ice scenes. We also took hundreds of photographs. Our most exciting adventure was when we were coming back and were caught in the pack ice. This was really very serious and the ship's propeller frame was broken, and the rudder and screw bent. Two members of the party were set on by white bears one day and had a narrow escape.

OF VALUE TO SCIENCE.

"We were sending balloons and buoys adrift, containing messages, continually. The meteorological observations taken, and the dredging will be of great interest to science. We manufactured our own hydrogen gas for the balloons without accident, which is another thing we deserve credit for. The knowledge gained of air and ocean currents will also be of great value to science.

"I still believe that when the Pole is reached it will be found to be surrounded by ice."

"The fate of Andre?" "Why I think he went down into the sea."

The explorer said he had come directly from Tromsoe, Norway, at the direction of Mr. Zeigler, who despatched the expedition.

Accompanying Mr. Baldwin was Dr. Geo. Shorkley and his wife, who were with the relief expedition that went to Tromsoe, after the America.

WHO'S WHO AND WHAT'S WHAT

DECORATED BY SIAM.—Mr. Alphonse Leduc, of the Board of Trade, of Chicago, a Montrealer by birth, has just received the decoration of the most honorable order of the Crown of Siam for services rendered that country which he represented at the Paris exposition of 1900. Mr. Leduc was born at Cote St. Antoine (now Westmount), on the farm where the Murray residence now is. He received his education partly at the Jesuit College of Montreal and partly at the Toronto College. He first went to Chicago in 1860 to join his brother, Janvier Leduc and his wife and, James Clinton Spencer, now of Milwaukee, to entertain the Prince of Wales (now King Edward) and his party with a shooting excursion at their shooting box at Dwight, Ills. Returning to Canada to college, he went back to the States after graduating and joined the United States army, serving as a volunteer A.D.C., on Major-General N. P. Banks's staff in the Department of the Gulf. Since the war he has been engaged in the grain business between Chicago, New Orleans and Europe. He was special commissioner of the New Orleans Cotton Exposition of 1884, and Alternate National Commissioner for Louisiana to the Chicago Fair of 1893. President Cleveland appointed him United States Commissioner to the Universal Exposition of Antwerp, Belgium, in 1894, and he represented Siam at the Paris Exposition of 1900. Mr. Leduc was knighted Commander of the Order of Christ of Portugal in 1893, received the medal of Leopold, King of Belgium in 1894, and was made Chevalier du Merite Agricole of France in 1901.

Padcrewski,

The distinguished Pianist who uses exclusively, both at home and in recital, the famous STEINWAY PIANO, and who also has purchased a PIANOLA, with which he derives such pleasure, says.

"Every one who wishes to hear absolutely faultless, free of any kind of nervousness, piano-playing, should buy a Pianola. It is perfection."

The Pianola is the "Steinway" of Piano Players

In fact the Steinway Piano and the Pianola go hand in hand. Most of the big Steinway dealers throughout the world handle it, because people whose artistic taste and musical appreciation are satisfied with nothing but the Steinway Piano, almost invariably choose the Pianola in preference to any player.

THE COST of the Pianola is $275 and $250.

Does it bring enough pleasure in return to warrant the investment?

The Pianola will enable every owner of a piano to play upon his piano whenever he desires. Not only this, but every member of the family can also play upon it—not one or two pieces, but practically every composition ever written for the piano.

You control the expression and really play the instrument yourself.

A Poor Year for Seals.

(Special to the Montreal Star.)

OTTAWA, October 3.—The present season has been a disastrous one for the Canadian sealing industry on the Pacific coast. The catch has been very small. The vessels are not yet all returned to port, but those which have come in report that the conditions are unfavourable, and the industry a total failure wherever tried. One of the schooners gathered only 79 seals altogether in a hunt that lasted from January.

Bleeding Piles

Two Letters From Mr. Walker Explaining the Severity of His Case and the Permanency of His Cure by Using

Dr. Chase's Ointment.

Some people seem to think that it is too much to claim that Dr. Chase's Ointment will cure every form of piles, but facts go to prove the truth of this claim. These are interesting letters from one who has suffered much and been cured.

In November, 1901, Mr. Sherwood Walker, a fireman on the Canada Atlantic Railway, living at Madawaska, Ont., writes: "I am a great sufferer from bleeding piles. Sometimes the protruding piles come down, causing much misery and uneasiness, and at other times I am subject to bleeding piles, and they bleed to such an extent as to make me quite weak. If Dr. Chase's Ointment will cure this awful ailment you will have my everlasting gratitude."

On March 1, 1902, we received the following letter from Mr. Walker, which speaks volumes for Dr. Chase's Ointment as a cure for piles of the most distressing form. He writes: "According to my promise, I now take pleasure in writing to you. If you remember, you sent me a box of Dr. Chase's Ointment for bleeding piles some three months ago. I used it faithfully, and can say that it proved a godsend, for it has entirely cured me of bleeding piles.

"I would have written sooner, but I wanted to be able to tell you that it was a permanent cure. This you can use for the benefit of other suffering people. There are several people here who have been cured of very severe cases of protruding piles by using this great ointment."

So far as we know there is no other preparation extant which is so successful in curing piles of the most aggravated kind as Dr. Chase's Ointment. Its soothing, healing powers are marvellous, and its cures thorough and permanent. Sixty cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. 234 1

PETER POWER SUIT HAS BEEN DISMISSED.

ST. PAUL, Minn., October 3.—The text of the decision of Judge Amidon of the United States Circuit Court rendered in the case of Peter Power and Camille Weidenfeld against the Northern Pacific Railway Company, was made public Wednesday. Peter Power was the original plaintiff in the action, and by it sought to enjoin the Northern Pacific Railway Company from transferring its stock to the Northern Securities Company. The case came before Judge Amidon on the application of Camille Weidenfeld to intervene as a plaintiff, he alleging that he, and not Peter Power, was the owner of the shares of stock upon which the suit was based. Judge Amidon, after hearing arguments, granted the application for intervention, and then dismissed the entire suit.

Death of Dr. Byrne.

NEW YORK, October 3. — Word was received here yesterday that Dr. John Byrne, of Brooklyn, a noted gynaecologist, died at Montreaux, Switzerland, yesterday. He was 77 years old.

A few years ago Dr. Byrne was elected president of the American Gynaecological Society, at a congress held in Washington, at which specialists from all over America and Europe were present. At the meeting of the International Obstetrical Congress, at Rome, Italy, on the 15th of last month, Dr. Byrne read a paper on cancer, and the best methods of dealing with the disease.

TWELVE MEN KILLED IN MINE DISASTER.

BLACK DIAMOND, Wash., October 3.—An explosion of fire damp occurred Wednesday night in the south end of the fourth level in the Lawson mine, badly wrecking the mine and killing twelve miners.

Fortunately, no fire was started. Three bodies have been taken out; nine other bodies are in the mine. Three men were injured, one severely.

The Pacific Coast Company is the owner of the mine. Everything possible is being done to recover the bodies.

The fourth level is 1,600 feet below the surface. The fans are now working in the mine, and the deadly air is being cleared out.

The Uprising in Bulgaria.

SOPHIA, Bulgaria, October 3.—The revolutionists hold all the passes besides Monastir, a suburb of which town they have burned. The Bulgarian force have withdrawn and thrown up baricades. The Turkish troops have mounted sixty guns outside the town, and threaten to bombard it. It is reported that Albanians in Ocrida have massacred the Christian inhabitants. Strong revolutionary bands have marched south of Monastir, and sacked three villages inhabited by Turks. The railway from Solonica has been destroyed near the village of Krominitza.

NEW YORK, October 3.—The correspondent of the Tribune in London cables:

The Balkan fermen continues at an alarming rate, and despatches from Vienna and Sofia agree in describing the situation in the Vilayet of Monaster as very serious. The Albanians in Ochrida, a town northwest of Bitolia, have massacred the Christian inhabitants.

JAPANESE REFUSED NATURALIZATION PAPERS

CHICAGO, October 3. – After vainly searching for some legal precedent that would justify a different decision, Judge Carter has refused to grant naturalization papers to Lee Guy Dean, a Japanese, who made application with a view to becoming a citizen of the United States. The statute on naturalization, said Judge Carter, "reads that any free whiteman, or any native of Africa, or any alien of African descent, may be naturalized, but that does not apply to Mongolians, and a Japanese is surely a mongolian."

A Lucky Ottawa Church.

OTTAWA, Ont., October 3.—St. Matthew's Anglican Church has fallen heir to $1,200, left by the late R. F. Harvey, of Frankville, for church extension work in Ottawa. The money will be utilized for building purposes.

Mr. Tarte Will Speak Here

He Has Accepted An Invitation to Address the Board of Trade on October 14th.

The Hon. J. Israel Tarte, Minister of Public Works, will speak before the members of the Montreal Board of Trade, on October 14th, the day being that upon which the quarterly meeting will be held.

This is a sudden change of plan on the part of Mr. Tarte, as it was very generally understood that the active Minister of Public Works would go into the west almost immediately.

For some months, indeed long before the present tariff questions became prominent and vital, the members of the Council of the Montreal Board of Trade expressed the wish to hear the Hon. Mr. Tarte express his views on transportation and kindred topics.

Some time ago the Minister was communicated with through some prominent members of the Board, and he was finally asked to address the members at the quarterly meeting which would fall, in the natural order of things, on the seventh of October. Mr. Tarte was not able to meet the members of the Board on that day, and it was decided to postpone the date for a week, in order that the Minister might address them.

It is expected that the meeting will be very largely attended as Mr. Tarte's views on both tariff and transportation are eagerly looked for.

NO RECEPTION AT WINNIPEG.

(Special to the Montreal Star.)

WINNIPEG, Man., October 3.—The Liberals of Winnipeg are making no preparations for a reception to Hon. Mr. Tarte who will visit the west this month. It was stated by prominent Liberals to-day that the Minister was to receive a very chilly welcome. The young Liberals who gave Fitzpatrick such a warm welcome say they will make no special preparations for Mr. Tarte's visit. Hon. A. G. Blair, who passed through Winnipeg last night en route to British Columbia, refused to discuss any statement made by Mr. Tarte recently. He said to talk would weaken the confidence of the people.

LABOURING MEN FEAR A COMBINE IN THE COAL TRADE.

A deputation from the Montreal Trades and Labour Council waited upon Mayor Cochrane at 12 o'clock to-day for the purpose of discussing the strike situation, and if possible to arrive at some understanding whereby the citizens of Montreal may receive a supply of wood and coal without having to pay fancy prices.

The delegation was composed of Messrs. A. Verville, president of the Journeymen Plumbers and Steamfitters; J. A. Rodier, president of Jacques-Cartier Typographical Union; E. Berthiaume, business agent of the United Brotherhood of Carpenters and Joiners; L. Dupont, of the United Garment Workers of America, and J. B. Mack, vice-president of the Trades and Labour Congress of Canada.

Mr. A. Verville acted as spokesman and explained to His Worship the object of the visit. He said it was now generally believed by working people that a gigantic trust or syndicate of coal dealers was being formed in Montreal for the purpose of controlling prices of fuel even in the event of the strike ending immediately, and he thought it was time the City Council was taking some steps to prevent the consummation of such a trust under the circumstances.

In reply, the Mayor stated that he had no knowledge whatever of such a scheme being projected, but on the other hand he had assurances from the principal coal dealers of the city that fuel would be supplied at the lowest possible price. He had been in communication with the various railways and transportation companies and they had promised their assistance. His Worship read a letter from a large firm offering to furnish immediately 500,000 tons of Welsh coal at a reasonable rate.

POSSIBILITY OF A CORNER.

The Mayor was asked if it would be possible to buy the coal in large quantities, thus freezing out the poor people.

"No," was the reply, "we will see to it that coal will only be sold in small quantities, thus giving every person a chance."

The Mayor expressed the opinion that the strike would be settled to-day, but, of course, he had no guarantee that such would be the case.

Mr. Mack wanted to know, in the event of their being no settlement arrived at immediately, the guarantee the citizens would have of being supplied with fuel without paying dealers enormous prices or even their chance of getting coal at any price?

The Mayor said that the dealers were willing to help out the situation and he did not anticipate any great amount of suffering. He was in a position to say that if the strike ended to-day, as he expected, plenty of coal would be landed in Montreal in less than two weeks' time.

The deputation then shook hands with the Mayor and withdrew.

Reception to Students.

The Methodist students of McGill University, will be tendered a reception, this evening, in the parlours of the St. James Methodist Church, by the Epworth League of Christian Endeavour. An enjoyable programme of music has been prepared for the occasion.

Mother Ryan's Departure.

Mother Ryan, for many years connected with the Sacred Heart Convent, St. Alexander street, left on Monday last for the convent of the community at Halifax. Her departure from this city will be very much regretted by a large circle of friends, and all her former pupils.

Still in Critical Condition.

Alfred Milleur, the painter, who fell a distance of three stories yesterday, is reported by the officials of Notre Dame Hospital as being in a critical condition.

Special Notice.

To-day President Roosevelt

Hopes to join hand in hand the operators and miners and settle the coal strike, in the interests of humanity.

In the interests of art, he has already settled the Piano question, in Presidential circles. During the year, four Art Knabe Pianos were chosen for the White House, Red Parlor, Miss Alice Roosevelt's apartments, and the President's own cruiser, U.S.S. Dolphin.

Willis & Co., 2470-2472 St. Catherine St., are now showing duplicates of these art creations.

No final decision has as yet been made in regard to the ladies who will represent Montreal at Toronto.

WILL BUY BLOCKS

(See also page three.)

At the meeting of the Road Committee yesterday afternoon there was some discussion as to the city refusing to accept asphalt blocks that had been ordered from an American firm on account of the price of the blocks having been higher than what was anticipated by the committee.

The chairman of the Road Committee had a confab about the matter to-day with the City Surveyor, and a decision was reached that the blocks should be ordered. It was thought a test of the blocks would be a good venture. They are to be used for the paving of McGill street in front of the G.T.R. offices on this street.

The work of paving the street will be immediately commenced.

JUDGE'S FONTAINE'S SUCCESSOR DISCUSSED IN POLITICAL CIRCLES.

The appointment of a successor to the late Mr. Justice Fontaine is causing considerable discussion among the politicians. The friends of the several candidates are doing everything possible to forward the interests of their friends. From Ottawa comes the intelligence among well informed people there it is expected that Mr. Eugene Lafontaine, K.C., will be the lucky man. In Liberal circles in this city, however, especially among the members of the Bar, Mr. Napoleon Charbonneau seems to be the favourite. One of the prominent men among the younger Liberals, discussing the matter to-day, said: "If a member of Parliament is not appointed, then Mr. Charbonneau should certainly get the position. He is entirely fitted for it by his legal attainments and character."

The same speaker remarked, however, that Mr. J. A. C. Madore, M.P. for Hochelaga, had well defined claims to the appointment. He added, however, that Sir Wilfrid Laurier did not care about appointing members to positions within the gift of the Government. The matter may not be settled at all until after Sir Wilfrid's arrival towards the end of October. Mr. L. A. Globensky, K.C., general secretary of the Bar of the Province, is another man whose name is mentioned quite freely.

MR. E. S. WILLARD BEAT THE RECORD.

Something unprecedented in the history of the house occurred at the Academy on Thursday, on the occasion of the first presentation of the "Cardinal" this season. By six o'clock every seat and every box was sold and paid for, and the rack in the box-office was swept clean of every ticket. The gallery, too, was one of the largest on record.

Well Known Hair-Dresser Dead.

Mr. J. B. Deganne, hair dresser, who is very well known in business Montreal, died at his residence, No. 72 Parc Lafontaine, last night. Mr. Deganne has for years been a great sufferer from rheumatism, to which his death is directly attributable. A quarter of a century ago Mr. Deganne was employed by Mr. Palmer in the hair dressing business. He then started out for himself, and became extremely popular among the English brokers, merchants and manufacturers in the central portion of the financial district. In the hope of permanent cure, Mr. Deganne visited Mount Clements and Hot Springs, Ark., and quite recently he was planning another trip in search of health.

Sacred Music Recital.

A pleasant hour may be spent to-morrow afternoon, at the Recital to be given by the choir of St. James Methodist Church, at 4 o'clock, in the auditorium of the church. Some of the best known selections from the standard works of Mendelssohn will be given by the choir of 24 voices, solo and quartet numbers to be in the hands of Miss Barker, Miss Galbraith, Mrs. Landry, Professor Landry, and Mr. Ouellette. Mrs. Alice Nunns Keough will preside at the organ. The recital is under the direction of Mr. Waterhouse, the musical director of the church. There will be no stated price of admission, a collection being taken at the door.

The Pretorian Inward.

The Allan line's R. M. S. Pretorian passed Fame Point inwards at 8.30 this morning. She will arrive at Quebec about 8 o'clock Saturday morning, and Montreal noon Sunday.

The Allan line steamer Pretorian, from Liverpool for Montreal, passed Fame Point at 3.30 a.m. on Friday.

The Dominion line steamship Commonwealth, from Liverpool, arrived at Boston this morning at seven o'clock.

Fell From a Street Car.

Mrs. Barrette, of 197 Ropery street, fell from a street car at 11 o'clock to-day at the crossing of McCord and Notre Dame streets, and injured her arm. She was taken in the ambulance to the Notre Dame Hospital.

SIR WILFRID WILL REST IN LONDON

Takes Advice of Friends and Won't Go to Scotland.

HIS HEALTH IS NOT GOOD

Ministers Say That Negotiations in France are Complete—Will Announce Results in Cabinet.

(Special by Cable from the Special Correspondent of the Montreal Star in London.)

LONDON, October 3.—Sir Wilfrid Laurier and Lady Laurier arrived in London last night. They had planned to proceed to Haddo House, Scotland to-night to pay a visit to Lord and Lady Aberdeen, but friends strongly urged Sir Wilfrid to take a rest which he still needs.

Sir Wilfrid yielded to the wishes of friends and decided to rest quietly till he sails.

The French hospitality has made heavy demands upon his strength. Sir Wilfrid and Hon. Mr. Fielding will sail for Canada on Tuesday on the steamer Lake Erie.

The ministers themselves say they have succeeded in completing their negotiations with the French ministers.

They inform me that the negotiations were formal and that their completed report will be made to the Council at Ottawa.

Sir Wilfrid Laurier and Hon. Mr. Fielding visited the Colonial Office this afternoon in order to report what has been done.

Of course, what is of the most importance is the desire of the Canadian ministers that the French capitalists come forward and co-operate in the Liverpool scheme to establish a joint Franco-Canadian direct steamship line, of four vessels, two flying French and two British flags. The French capitalists seem shy.

WINDERMERE.

BOER FARM DELEGATES ARRIVE AT QUEBEC.

They Will Study Canadian Methods of Agriculture and Return to South Africa.

QUEBEC, October 3. — The steamship Lake Champlain, which arrived in port about five o'clock yesterday afternoon, had on board the Boer delegates sent by the Imperial Government on the advice of Lord Milner, High Commissioner in South Africa, to make a trip of Canada and Australia to study modern ways of farming, stock raising, fruit growing, fruit packing, etc. The party is composed of the following: Mr. and Mrs. W. D. Jooste, Mr. and Mrs. D. Lan, of Klerksdorp, Transvaal, and of Mr. Rood, of the Ermelo district, same state. Messrs. Jooste and Lan were taken prisoners in the Cronje laager at Paardeburg, and sent to St. Helena. Rood was a fighter from the beginning to the end.

Rood and Jooste belong to the Boer race and Lan is an Irishman, living in South Africa for more than thirty years. They are well educated and speak English. They have for their mission the making of observations on Canadian ways of cultivating or farming to give lectures or conferences before their own people all around the new British colonies of South Africa after their return. They are in charge of Captain Kirkpatrick, of the South African Constabulary, who is accompanied by his wife. The Boer delegates were met at the arrival of the steamer here by Mr. G. F. O'Halloran, deputy minister of agriculture, at Ottawa, who left with them for Montreal on board the Lake Champlain, which sailed at 11 o'clock last night. At Montreal Mr. O'Halloran will put the party in charge of Mr. Moore, of the same department, who will accompany them around the country. In response to the request for advice from the different provincial departments of agriculture as to the districts through which they want the Boers shown, the department at Ottawa has been assured of the heartiest co-operation. The departments in Ontario, Prince Edward Island, Nova Scotia and New Brunswick have all volunteered to send guides to conduct the visitors through those provinces.

ALLEGED INSURANCE SWINDLE.

It Has Developed a More Serious Charge Against Brown.

TORONTO, Ont., October 3. — A Collingwood special says that the accusation against W. H. Brown, of conspiracy to murder his aged mother for the sake of her life insurance, promises to develop a most extraordinary criminal affair. The authorities, the despatch declares, have secured much evidence, which they believe will warrant the more serious charge of murder being laid against Brown, the alleged victim being none other than his father, John Brown, and the motive being the same as that alleged in the present case, to secure the old man's life insurance. According to the despatch, the chief link in the chain of circumstances indicating that Brown poisoned his father has been supplied by the prisoner's mother. The poor woman declares that she has entertained the awful suspicion before, but that she was never fully satisfied that her son could have committed such a deed until she discovered that he was plotting to have her murdered.

CHARGE AGAINST CANADA.

Government Accused of a Desire to Destroy American Trade.

(Special to the Montreal Star.)

BOSTON, October 3.—The Advertiser says that Canada and certain European nations have entered into a tariff league to destroy American trade with the Canadian Government as chief supporters. The Advertiser says it is pledged to support a protective tariff bill chiefly directed against New England. The leading Cabinet Ministers have admitted they would probably support such a measure and they expected Sir Wilfrid Laurier to support it. Mr. Tarte admits publicly he has made up such a measure to lay before the next session of the Canadian Parliament.

Brockville Stock Buyer Killed.

SMITH'S FALLS, Ont., October 3.—Robert Stewart, live stock buyer for the Geo. Matthews Co., of Ottawa, lost his life on the C. P. R. track, about three miles south of here, last evening. He was on his way to Smith's Falls, and got off the train at Asper, presumably thinking it was Smith's Falls, and when he found his mistake he started to walk up the track the intervening five miles. The express going to Brockville ran him down about half way between the two places, his body being fearfully mangled. Stewart was married, about 64 years of age, and lived at Brockville.

Miss Marion Miles is visiting Mrs. Andrew Steele at Sherbrooke.

Miss Eileen Raphael Gibb, of Galgorm, Ireland, is the guest of Mrs. H. W. Raphael.

Wall Street Again in a Panicky State

Unexpected Complications Over the Release of $30,000,000 by the Secretary of the Treasury the Cause of a Fresh Slump.

In the closing hour of to-day's stock markets, there was a sudden drop in prices, arising out of the situation created in Wall Street by the refusal of the United States Comptroller of the Currency to be governed by the ruling of the Secretary of the Treasury, by which some $30,000,000 would be released by the government which would it was expected, go a long way towards relieving the monetary stringency in Wall Street. Mr. Shaw admitted that there was no precedent for his action, but said he was going to create a new policy in dealing with government deposits and securities therefor.

When Wall Street received the news about the trouble over the release of the $30,000,000 the market became almost panic-stricken and commenced throwing stocks on the market, causing a general recession in prices. The bears also being encouraged by the unexpected complication in the monetary situation accentuated the position of the market by selling heavily. Every speculative feature on the list took a tumble and Canadian Pacific, which sold at 138 1-2 earlier in the day, had dropped two points shortly before 3 o'clock. As the market drew to a close for the day prices were falling fast in every direction.

The only stock in the local market which became seriously affected by the drop in Wall Street was Canadian Pacific, although Dominion Steel and some other stocks were weak and sold down fractions. The feeling of strength which dominated the dealings of the forenoon gave way to the reverse position. Canadian Pacific which sold at 138 3-4 in the morning declined two points to 136 3-4 towards the close of the afternoon board, and subsequently recovered to 137 1-2.

The Canadian Fast Line

Sir Thomas Shaughnessy Says He Knows Nothing of Montreal, Liverpool, Bristol and London Service.

In Montreal there is no confirmation of the story, originating in Manchester, Eng., that a British syndicate had arranged for a fast service of steamships between Montreal and Liverpool, Bristol and London.

Mr. Hugh A. Allan, who but recently returned from Europe, and who is probably the only person on this side of the Atlantic who can speak authoritatively on the subject, is at present in Philadelphia.

The story that a syndicate has the matter in hand and will receive a subsidy from the British and Canadian Governments is rather in line with the interview which Mr. Allan gave the Star on his return from England, on September 19th.

At that time Mr. Allan said that they had been discussing matters over in Great Britain and negotiations had been entered into between several companies with a view to forming a shipping combination strong enough to supply all the wants of the Canadian trade. The plan, as expressed by Mr. Allan, embraced a scheme for from 40 to 60 freight vessels to run to Quebec and Montreal in summer and to St. John and Portland in winter; in addition, a sufficient number of passenger steamers should be operated at a speed of not less than twenty knots. Whether the present British advices have reference to these negotiations it is at present impossible to say.

At the office of the Elder, Dempster Company nothing had been heard regarding any arrangement, and no other shipping men in the city had received advices on the subject.

Sir Thomas Shaughnessy, when shown the despatch in the morning papers said: "We know nothing about it."

CITY INSPECTORS VISIT SCHOOLS

The Pupils are Being Called on to Show Vaccination Marks.

A SUPERIORESS REFUSED

However, a Compromise Was Arranged and the Marks Were Shown—The Schools Visited.

For some days past, officers from the Health Department have been going the rounds of the schools in the city examining scholars' arms, in order to find out whether or not they have been successfully vaccinated. In quite a number of schools very many scholars were found not to have been vaccinated; while others had been vaccinated, but the vaccine had failed to take.

In some cases the scholars were sent home, but others were allowed to remain at school on the promise of the principal that he would see the unvaccinated promptly obeyed the law.

Dr. Laberge, with other doctors of the department, is having some trouble as to young ladies, in seminaries, etc., baring their arms for the purpose of showing the marks of vaccination.

In one seminary the superioress flatly refused to have the arms of the young ladies examined. The refusal was made to the Medical Health officer, Dr. Laberge. This official was very patient, but at the same time very firm about the matter. He showed that the health of the city demanded that scholars in all the schools should bare their arms to show vaccination marks. No exceptions could be made in the favour of any school. "But the young ladies," pleaded the superioress, "do not like to roll up their sleeves in the presence of a gentleman."

The Medical Health officer hit upon a happy way out of the difficulty. He said that the young ladies should roll up their sleeves when alone, and they should also cover up every speck of their arms except the little spot to be examined. When all these precautions had been taken the doctor of the health department should be admitted, and the arms of the young ladies could be examined.

This scheme met with the approval of the superioress and of the young ladies. The plan will be pursued in other seminaries where there are young lady students.

From reports, prepared at the Health Department, it is shown that the following schools have been visited by the doctors of the Health Department:

Pensionnat du St. Nom de Marie, Notre Dame street, 182 scholars; 9 found not to have been vaccinated.

St. Joseph's School, Hudon and Desery streets, 548 scholars; 46 not vaccinated.

Hochelaga School, Prefontaine street, 97 scholars; 4 not vaccinated.

St. Joseph Academy, Desery street, 550 scholars; 9 not vaccinated.

St. George's School, Poupart street, 31 scholars, all vaccinated.

Lacroix School, Poupart street, 25 scholars, all vaccinated but one.

Meilleur School, Fullum street, 462 scholars; 33 not vaccinated.

St. Eusebe School, Fullum street, 339 scholars; 28 not vaccinated.

Champlain School, Fullum street, 550 scholars; 57 not vaccinated.

Ed Murphy School, Craig street, 353 scholars; 23 not vaccinated.

Pensionnat School, St. Catherine street, 847 scholars; 38 not vaccinated.

Jardin de l'Enfance du Sacre Coeur, St. Catherine street, 307 scholars; 61 not vaccinated.

Lansdowne School, St. Catherine street, 719 scholars; 38 not vaccinated.

As stated, in some cases the unvaccinated scholars were sent home; while in others they were allowed to remain at school on the promise of the masters that they should either be vaccinated immediately or forbidden to attend school.

FRACTURED ARM.—Lazare Ellie, an express driver, sustained a fracture of the right arm yesterday while unloading a box from his waggon at the Canadian Pacific Railway freight sheds at Hochelaga. He was taken to the Notre Dame Hospital.

Special Notice.

Knabe Art Pianos.

The Art Series of Knabe Pianos consisting of Von Bulow, Tschaikowsky and Roosevelt, uprights, being duplicates of the pianos used and preferred by the above celebrities, have arrived in Montreal. These pianos were selected and ordered last April by Mr. A. P. Willis and Mr. F. G. Sharpe, his expert at the factories at New York and Baltimore. The series consist also of several small parlour grands, parlour grands, and concert grand pianos.

As these goods are now arriving daily at the Empire Building, Willis & Co., 2470 St. Catherine st., the company invite the public and the musical profession to inspect them.

A Piano Player of Note.

The Angelus is keeping well ahead of all competitors. Do not fail to see it at Layton Bros., Piano and Organ Warerooms, 174 Peel street, Dominion Square.

FREE TRADERS FEW IN GOLDEN WEST

So Says Mr. Rufus Pope, M. P., on His Return From Pacific.

MR. BORDEN HAD FINE TRIP

Mr. Fowler Interviewed—Enthusiastic Receptions Everywhere to the Conservative Leader.

Mr. George W. Fowler, M.P., and Mr. Rufus Pope, M.P., who accompanied Mr. R. L. Borden, the leader of the Conservative party, on his trip to the west, reached Montreal to-day on their way home, having left the other members of the expedition at Grenfell, Assa. Mr. Fowler reports that Mr. Borden made everywhere an excellent impression and that Conservative prospects have been greatly improved by the trip.

"In British Columbia," says Mr. Fowler, "the Conservatives were split into factions with little prospect of reaching an agreement. We attended their convention at Revelstoke, and were there two days, at the end of which we had the satisfaction of seeing harmony established, and Mr. Chas. Wilson acknowledged by everybody as provincial leader. The next British Columbia election cannot be far off. It will be conducted on party lines and the Conservatives will undoubtedly win.

"Two questions were chiefly discussed by Mr. Borden in British Columbia. On the Chinese question he took the decided stand that he would consult the wishes of the people of the province. The difficulty with the Chinese is confined to the coast. In the mining towns the miner attends to the situation himself and the Celestial has no show. The action of the Dominion Government in disallowing the Natal Act, as adapted by the British Columbia legislature, is strongly disapproved. That act excluded all immigrants who cannot speak and write a European language. This would solve the whole problem and would not be disagreeable to the Imperial authorities. The tax of $100 per head now levied on Chinamen entering this country does not put any perceptible check on their coming.

THE LEAD MINING INDUSTRY.

"The other question was that of protection to the lead mining industry. The present system of giving a bonus of $5.00 per ton is not found adequate, and the industry cannot live unless the home market is secured to it, especially for such things as paint and other by-products.

"In the Territories the enthusiasm we encountered was wonderful, everybody wanted to see and hear Mr. Borden and people came 50 or 60 miles to attend the meetings which he addressed. From Calgary to Edmonton we had a regular triumphal procession, with Mr. Borden speaking from the car platform to crowds at every stopping place.

"The free trade sentiment of the west is not nearly as strong as has been supposed. At the places where we held meetings we were surprised to see the protectionist sentiments on the banners around the hall. The explanations given of the Conservative stand on the trade question were perfectly clear and were received with approval. A live question with them up there is that of provincial autonomy for the territories. They are all in favour of it, and there is no reason why they should not get it as soon as the details have been worked out."

"Free traders in the west," says Mr. Rufus Pope." There aren't many of them now and there won't be any at all when Tarte gets through with them."

The Conservative leader and those with him have addressed in all about 25 meetings and have several more yet to cover, consequently Mr. Borden has done five weeks of hard work, he being the man that was chiefly in demand. The other members of the party, who numbered about a dozen, divided their share of the labour and so got off comparatively easy.

PULITZER MURDER CASE.

A Theory That Young May Have Killed His Wife.

NEW YORK, October 3.—A theory that the murder of another woman, his wife, may have been committed by William Hooper Young, accused of slaying Mrs. Lillian Kingston-Pulitzer, was taken under investigation to-day by Assistant District Attorney Garvan and Captain Titus. Despatches from the West say that Young was married at Browning, Mont., December 3, 1901, his bride being Miss Thirza Holmes. The ceremony was performed by the Rev. F. A. Riggin, of the Methodist Church, at that place. The bride was a member of the Mormon colony at Cardston, Alberta, Canada. Her father objected to the marriage on the ground that Young, who had been betrothed to the girl from boyhood, had forsaken the Mormon faith. At Great Falls, Mont., where Young made enlarged photographs last spring, he introduced a young woman as his wife. People there, according to the despatches, are wondering what has become of her.

THE GRAND TRUNK RAILWAY REPORT

An Optimistic Document Was Issued in London To-day.

RECEIPTS SHOW AN INCREASE

The Additions to Capital Have Been Maintained and the Dividends are Larger.

(Special by Cable from the Special Correspondent of the Star in London.)

LONDON, October 3.—The Grand Trunk Railway report, issued to-day, is a cheerful document. The directors congratulate the shareholders on the steady progress continued to be made in the improvement of the property in every direction. The cost of operation is reduced, and increased dividends are available.

Additions to the capital have been maintained within the most reasonable limits. The detailed statements show that the gross receipts for the half year increased 3.90 per cent.; the working expenses increased 3.81. The train mileage decreased 7.96 per cent.

THE "BIG SIX" CONFER

Presidents of the Six Coal Carrying Railways Discussed Matters All Night Before Meeting President.

(Special to the Montreal Star.)

WASHINGTON, D. C., October 3.—Until long after three o'clock this morning the "Big Six" Presidents of the coal carrying roads were in conference in the private car of President Baer, of the Reading, preparing for to-day's conference with President Roosevelt and the representatives of the striking miners. Their train, consisting of President Baer's private car, the car Atlas, used by the officials of the Jersey Central Railway. The combination dining and supply car was switched off at Elkington. Special railway watchmen guarded the train and prevented correspondents from interrupting the coal operators during the night conference.

President Mitchell and District Presidents Fahey and Duff, arrived here at midnight. They refused to discuss the conference or their probable attitude in advance. Mr. Mitchell said his two assistants would be with him at the conference. Although President Roosevelt believes to-day's meeting will end the matter, Mr. Mitchell said to-day that another conference either to-night or to-morrow, between himself and the operators will be necessary before any settlement is reached.

INTERCOLONIAL HAS A NEW CASHIER

Mr. A. E. Wall Appointed in Succession to Mr. C. D. Thompson.

(Special to the Montreal Star.)

MONCTON, N. B., October 3.—Ex-Ald. A. E. Wall, has resigned his position in the Record Foundry and Machine Company's employ to accept the position of cashier of the Intercolonial Railway in succession to C. D. Thompson, who has been seriously ill for some time past.

Mr. Wall was born in St. John county, September 29, 1862, and is consequently 40 years old. His early life was spent in that county when he attended the superior school taught by his father. Subsequently he spent three years in the province of Ontario, returning to his native province he resided in the parish of Sackville teaching school part of this time at Harper's Brook. He came to Moncton in May, 1886, when he became business manager of the Transcript, a position he filled for four years, leaving this position to accept one on the Record Foundry and Machine Co. staff where he has been employed for thirteen years.

LORD FRANCIS HOPE'S SECOND MARRIAGE.

It is Being Opposed by Father Black, a Cousin of His Espoused.

(Special to the Montreal Star.)

LONDON, October 3.—An Anglican monk named Father Black is opposing the marriage of Lord Francis Hope and his cousin, Miss Beatrice Ricketts, on the ground that it will be a breach of God's law. The marriage is set for next week at the Parish Church of Hove. Father Black is entreating the Brighton Churchmen to interfere and prevent it. Friends of Lord Francis say his remarriage does not constitute any offence against Canons of church, because his marriage to Miss Yohe was ecclesiastically invalid. Father Black, however, is not satisfied with this excuse and threatens to carry his protest into the church.

THE CAPITAL'S WELCOME TO SIR WILFRID.

OTTAWA, October 3.—The Laurier reception committee met yesterday and arranged for a welcome to the Premier upon his return to the capital. It was decided to extend a public welcome at the Central Station, where he will be met by the mayor, aldermen and prominent citizens and a brass band and escorted to the City Hall, where he will be presented with an address and welcome home.

Ald. Ross has been entrusted with the preparation of the address of welcome. The date of Sir Wilfrid's arrival in Ottawa is yet somewhat uncertain.

A GREAT FIRE IN WHITECHAPEL DISTRICT

(Special to the Montreal Star.)

LONDON, October 3.—A great fire broke out this morning in Whitechapel. The Jewish residents of the district are in a panic and furniture is being thrown into the street. Many fire engines are working to quench the fire.

JUDGE BOURGEOIS IS NEARING END.

(Special to the Montreal Star.)

THREE RIVERS, Que., October 3.—Judge Bourgeois is in a semi-coma state, and has not taken any nourishment to-day. The end is expected very soon.

Wheat Went Higher.

(From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

CHICAGO, October 3.—Wheat was higher to-day. December opened at 69¾c and gradually sold up to 70¼c to 70 3-8c. The market was helped chiefly by the bullish enthusiasm in coarse grains. Commission houses were good buyers, and there was a good deal of covering by shorts. Wet weather in the south-west was a helping influence, as it was calculated to interfere with the movement in that section. The Modern Miller says rains have delayed the fall ploughing over a large area, but have put the soil in fine shape to be seeded. The news from the North-West was rather bullish, receipts in that section showing a tendency to fall off some, and Minneapolis advices talking light stocks and strong cash premiums.

Wall Street's Waiting Attitude.

NEW YORK, October 3.—Wall Street—There were irregular small price changes at the opening on light dealings. Some support was accorded the coalers, and a number of specialties showed small gains, but the majority of standard railway stocks showed declines. Spirited buying of Colorado Fuel, based on the judicial decision to hold an election, lifted it 4 points and caused a sympathetic rise in other metal stocks. Tennessee Coal and the Pressed Steel Car stocks extended their advance substantially, and there was some improvement to railway stocks. Reading advanced about a point, and the coalers generally firmed up, particularly Ontario and Western, which touched 36. The advance followed the announcement that the conference at the temporary White House had been adjourned until 3 o'clock.

STREET GOSSIP AND STOCK EXCHANGE ECHOES.

Star Office, Friday, October 3.

The probable trend of values in the local stock market is being generally canvassed at the present time and the majority of operators seem to be agreed that it will be some time before anything like a general bullish sentiment will influence the market. The monetary situation must first be cleared up. Then it requires some time to work up a bullish feeling on the part of the public, which is naturally timid after such an experience as the past couple of weeks. Time is the great healer for financial wounds, as well as for physical injuries and in a few weeks the losses of late will be largely forgotten and fresh courage acquired for further attempts at money making in the whirl of the speculative market.

Toronto Railway earnings for September were very heavy, aggregating $196,010, an increase of $35,578, as compared with the corresponding month of last year. The monthly earnings this year, with comparisons, are as follows:

	Earnings.	Increase.
January	$137,135.21	$15,478.07
February	127,981.01	18,468.50

The following paragraph about the recent break in Dominion Steel comes from Boston: "The break in Dominion Iron & Steel from 66 to 60 looked like a drive to reach stop orders. Much of the selling was by Canadian interests, but local traders sold a considerable amount, chiefly for short account. Canadian houses were asked for increased margins, and responded by ordering the stock to be shipped to them, and they would pay the loans in full. This served to make the local bears rather timid. They had not expected such an indication of confidence. Report had told of bearish sentiment in Montreal."

The Montreal clearing house statement for the week shows:

	Clearings.
Total for week ending Oct. 2, 1902	$23,749,164
Corresponding week 1901	17,457,209
Corresponding week 1900	14,510,953
Corresponding week, 1899	17,308,396

Net earnings of Dominion Coal for six months ended August 21 were $1,690,000. Dividend requirements under lease of Coal Co. and Dominion Steel Co. are $800,000, leaving a surplus of $269,000.

The Ottawa clearing house statement is as follows:

Total for week ending October 2, 1902, $2,079,494.03; corresponding week for last year, $1,782,600.70.

A London cable to the Star says: The advance in the Bank of England rate yesterday was a concession to nervousness rather than a necessary precaution. There has been a slow outflow of gold for export, but it has not been a serious drain upon the resources of the bank. Much apprehension has been caused by the pessimistic and superficial views of the situation in New York, and the directors of the bank have taken an effective measure for quieting the alarm. They have been waiting until the stress of the American situation has passed and the disturbing effect of advance in rate is minimized at home and abroad.

National Trust Company, Limited, managers of the Toronto Stock Exchange Clearing House, Limited, report that the clearings for September amounted to 89,462 shares, having a value of $6,652,860. Cash clearings amounted to $4,692,356.68.

Some days ago a New York financial paper made some remarks on the faith which Canadians now have in the intrinsic value of C.P.R. as an investment, and stated that the small lots of the common were held in nearly every city and town and village in the Dominion. A lady walking down Spadina avenue, Toronto, a day or two ago passed a house where two carpenters were building a verandah. Looking from the roof one carpenter said to his companion, who was below, "Well, I'd advise you not to sell your C.P.R. anyhow."

SOME RECOVERIES IN STOCK PRICES

Richelieu and Dominion Coal Were the Most Notable Instances

GENERAL MARKET VERY DULL

The Public is Playing a Waiting Game in the Present Unsettled State of the Markets.

The correspondents of the Montreal Star in Wall Street and on the Chicago Board of Trade report that stocks were steady, while wheat was steady. In the local market stocks were stronger. Sales on the New York Stock Exchange yesterday were 482,290 shares.

Values in some instances continued to recover from the low level in the stock market, but the general tendency was to mark time pending the settlement of the coal strike and the release of the market from the grip of tight money. There seems to be a general let up to liquidation and it is generally felt that the worst in that connection is over.

The most striking instances of recoveries from the recent low level were in Richelieu and Dominion Coal. The former opened at 103 3-4, the same as yesterday's closing, and on fair buying the price rose to 105. Dominion Coal recovered two points to 135. Canadian Pacific was dull, but 3-4 better at 138 3-4. Dominion Steel attracted little attention, and was unchanged at 65. Montreal Street rose one to 280, and Toronto Rails were up to 119 1-4. Power was steady at 99.

The Montreal clearing house returns of bank clearings to-day were $4,375,670.

Messrs. L. J. Forget & Co.'s London cable to-day quoted: Grand Trunk first, 109 3-4; second, 97 5-8; third, 43 5-8; Canadian Pacific, xd., 142 1-8; Hudson Bay, 33 1-8.

Grand Trunk Railway system, earnings 22nd to 30th September:

1902	$901,490
1901	794,947
Increase	$106,543

Montreal exchange quotations: New York funds, bet. banks, 3-64 dis. to 1-64 dis.; counter, 1-4 prem.; sterling, 60 days, bet. banks, 8 9-16 to 8 19-32; counter, 9; sterling, demand, 9 9-32 to 9 5-16 bet. banks; counter, 9 5-8; sterling, cables, bet. banks, 9 7-16; counter, 9 3-4; Paris francs, long, bet. banks, 5.20; do. short, bet. banks, 5.17 1-2 to 5.17 1-16; counter, 5.16 7-8.

In New York at noon to-day money on call at 7 to 8 per cent. Prime mercantile paper, 6 per cent. Sterling exchange, steady, with actual business in bankers' bills at 4.86 and 4.86.125 for demand, and at 4.82.75 to 4.82.875 for sixty days. Posted rates, 4.83 1-2 and 4.87; commercial bills, 4.82 to 4.82 1-2; bar silver, 50 7-8; Mexican dollars, 40 1-2.

Messrs. J. S. Bache & Co., New York, send the following Wall street advices through their local manager, Mr. C. D. Monk:

Americans in London weak at ¼ to 1 per cent. below parity. 91 per cent. of Eastern Illinois deposited with St. Louis and San Francisco for conversion. Seaboard will insist upon full consideration in L. and N. deal. Wabash concentrating its efforts on completion of Pittsburg entry. Merger rumours in connection with car companies are authoritatively denied. Fifty-two roads for the third week of September show earnings increased 14.16 per cent. It is generally understood Norfolk will go on a 3 per cent. basis this fall. Dear money in Canada is checking pool operations in Canadian Pacific. Anthracite production is increasing again. Appeal of Osgood in C. F. and I against Judge Caldwell's decision is denied. It is said the Reading annual report is ready, and will probably be considered at the directors' meeting next week. Southern Pacific Railway sued by the Government to recover excess over purchase price received from sale of land.

J. B. Picken & Co., stock and exchange brokers, received the following New York advices over their private wire:

The market this morning was extremely dull, with interest confined to specialties where trading was for professional account. Such issues as Green Bay bonds and Ontario and Western and Missouri Pacific scored the greatest gains. The coalers were firm, but the general disposition was to await the definite outcome of the coal conference. In consequence the list presented a neglected appearance. London was a seller on balance to extent of 12,000 shares. Money continues to rule at 8 per cent.

Messrs. Burnett & Co., stock brokers, have received the following advices over their New York wires:

Sterling rose sharply on advance in the Bank of England rate, but reacted on the withdrawal of Saturday's steamer. Banks expected to lose about $1,000,000 on yesterday's operation. The Government cotton report is expected to be very bad, perhaps the worst in eight years. This being the case, it will adversely affect the Southern Railway stocks. The sub-treasury statement shows banks lost $927,000 since Friday.

McAnally, Penfold & Co., New York wire says:

The gossip of the street is now chiefly observed in discussing the interpretation which Secretary Shaw has placed on the banking laws regarding his ability to deposit Government funds on other than Government securities. He admits that there is not only no law to permit this, but says there is none which will prevent it, and that he himself is the authority, and he will create the precedent for this action. The highest authorities on the National Bank Act of the United States declare that he has no authority to accept other than Government securities for Government deposits or to suspend the reserve requirements with respect to Government's deposits. There will undoubtedly be considerable discussion as to the rights of the secretary to accept other than Government bonds as collateral. In the meantime the situation has improved considerably by extensive liquidation of the past few days.

Ladenburg, Thalman & Co., New York, wire Marler & Hodgson as follows:

London prices came from 1-4 to 1-2 lower. Washington despatches predict a speedy termination of the coal strike as a result of to-day's conference. Should this be the case, however, we think that the opportunity will be taken by some of the large interests to unload as much as possible the burden of stocks that they carry. The August earnings of the Coal Companies show large losses on the top of those shown for May, June and July. They have been added to further in September. There is clearly no real basis for bull movements in Anthracites. The money situation does not improve much. Gold imports have been put out of the question by the advance in the London discount rate and the strength of foreign exchange market. Treasury measures have afforded some relief, but banking interests are opposed to a revival of speculation, and will resist any attempt of this character.

WHEAT IS STRONGER.

The Market Was Up Both in Liverpool and Chicago—Americans Want Duty Off Canadian Grain.

PEORIA, Ill., October 3.—The second day of the National Grain Dealers' Convention was more liberally attended than the preceding day. But little business was attempted in convention, and the day was devoted principally to speech making. Among the papers read was one by J. F. McCall, of Minneapolis, on the "Repeal of Duty on Canadian Grain," and strongly advocated the measure.

Consideration of amendments to the constitution will come to-morrow, as will the selection of next year's meeting place. Milwaukee and St. Louis are prominent candidates.

The Liverpool wheat market was stronger to-day, Dec. closing 1-4d up at 5s 10 1-2d, March closing 3-8d up at 5s 10 1-2d. Antwerp was easier, No. 2 red winter closing 1-8 down at 15.0 1-4. Paris closed 5 up on Oct. at 21.15, and steady on Jan. and Apr. at 20.95. London reported No. 1 standard Cala., psge., 30s sellers; Walla Walla, psge., 29s 3d sellers, Nov. and Dec., 28s 3d sellers.

English weather was cold and damp; French was cloudy.

Chicago reported grain, at noon, as follows: Wheat, Dec., 3-8c up at 69 7-8c; May, 1-8c up at 70 1-2c; Dec. corn, 1-4c up at 48 3-4c; May, 1-8c up at 43c; Dec. oats, 3-8c up at 31 7-8c May, 3-8c up at 32 7-8c.

Argentine shipments to the U. K. were no wheat and 189,000 qrs. maize, against 3,000 qrs. wheat and 148,000 maize. To the continent they were 88,000 maize, against 35,000 qrs. the previous week. Argentine shipments to Australia, 100 qrs.

Argentine reports from the interior are less encouraging. There is frost in some sections, and rain is needed in many districts.

LOCAL MARKET—The market is lower and not very active. Oats are in fair demand and selling around the following figures: No. 1 white, 34c; No. 2 white, new, 32¾c spot, afloat at Montreal; 32½c prompt shipment, and 32c October shipment; old crop, in car lots, for local account, is quoted at 34c in store; new, 33c in store; peas are in fair demand and steady at 76½c afloat; rye, nominally, 54½c afloat; barley, No. 3, 46c, and No. 3x, 47½c afloat.

New Manitoba wheat, first half October, is quoted at 69c for No. 1 hard, and 67 1-2c for No. 1 northern.

FEED.—Quotations in car lots on track: Manitoba bran, in bags, $16; shorts, in bags, $22; Ontario bran, in bulk, $15.50 to $16; shorts are scarcer at $22 to $23 in bulk; middlings, $22 to $23; moullie, $23 to $30, according to quality.

ROLLED OATS.—The market is easy, and prices range from $4.40 to $4.50 in wood, and $2.15 to $2.20 in bags, for broken lots.

FLOUR.—Quotations in Montreal on track are $3.60 to $3.65 for straight rollers, in barrels; in bags, $1.70 to $1.75; extra bags, $1.60 to $1.65; winter patents are $3.75 to $4; Manitoba finest strong bakers, $3.65 to $3.70; patents, $3.90 to $4.

HAY.—The market is fair. New hay is quoted as follows: No. 1, $7.50 to $8; No. 2, $7 to $7.50; clover, $6.50.

CHEESE IS HIGHER

Country Boards Advanced Yesterday and Market is Strong—A Little Trading in Butter—Eggs Steady.

CHEESE.—The market was very strong to-day, after the advance to 11c on country boards yesterday. Many dealers are now demanding 11¼c for finest Townships, and 11c for finest Quebecs, and we quote from 11 to 11¼c for westerns and 10¾ to 11c for Quebecs. Everyone in the trade talks of a higher market, but the Liverpool public still lags away behind at 49s to 50s.

Receipts reported on the Board of Trade this morning amounted to 10,877 boxes.

BUTTER.—Some speculation is going on just now at 20c for finest Quebecs but otherwise there does not appear to be much trading. Prices are irregular, finest Quebecs being quoted from 20 to 20½c, and Townships around 20½c to a shade more. The failure of the English market to respond to the latest advance is having a bearish effect on prices here.

Receipts reported on the Board of Trade this morning amounted to 7342 packages.

EGGS.—The market is pretty well supplied, and prices continue fairly steady. The difference in opinion regarding the tone still exists, one marchant stating this morning that he was not paying more than 15c f.o.b. west, and 15½c east, while others said they had to pay as high as 16c. The latter is certainly an excessive figure, so far as can be learned.

A sale of 10-pound stock was made to Glasgow this morning at 8c 3d c.i.f., but the seller was of the opinion that he had accepted too low a price, although he preferred to take it rather than allow the stock to accumulate on his hands.

Straight receipts are selling at 16 to 16¼c, and straight candled at 16¾ to 17c, though higher figures are frequently obtained.

Receipts reported on the Board of Trade this morning amounted to 2254 cases.

HONEY—The supply is light and demand is not active. White strained sells around 7 to 7 1-2c a pound, and white comb at 10 to 11 1-2c. Little or no buckwheat honey is offering as yet.

BEANS.—The market was steady to-day, prices being quoted at $1.25 to $1.30 a bushel in lots of two or three dozen bags.

POTASH—Very little demand for potash, and prices for first pots are $4.35 to $4.40, and seconds at $3.60 to $3.70. Pearl ash is wanted at $6 to $6.50.

POTATOES—Some purchases have recently been made at 60c on track, though 65c is a more general figure. In a jobbing way they are selling at 75 to 80c a bag of 90 pounds.

(b) A lot of land in the said town of Victoriaville, known and designated on the above plan and book of reference under No. 280, 281, 284 and 285, containing about an acre in superficies, with the two water tanks thereon erected; also the water tank near the Grand Trunk Railway station built on No. 444 of above plan and book of reference, and belonging, said lot, to the said G. T. R. Company.

(c) A lot of land containing one-half acre in superficies, known and designated on the above named plan and book of reference as part of lot No. 414, situated on River Nicolet, and on the south side of the Grand Trunk Co.'s track, with booms, piers, dams thereon erected.

(d) One lot of land known as No. 19 of the 11th range of the Township of Ham, with the dam thereon erected.

(e) The dam erected on lot No. 3 of the cadastral plan for range A, Ham South.

(f) The dam at Canard Lake constructed on lot No. 17, range "A," Ham South.

(g) The rights of the estate in all the improvements of any kinds made on the River Nicolet and its tributaries, the purchaser assuming all responsibilities deriving from same.

(h) The rights of the estate in the many contracts existing between the said Achille Gagnon & Co. and the Corporation of Victoriaville for the operation of the water works and the electric light, with all the privileges attached; with the Corporation of Arthabaskaville, the Grand Trunk Railway Company, and other corporations and individuals for the supply of water and electric light.

(2) One lot of ground situated in the said Town of Victoriaville, on the north side of Mill street, known and designated on the said official plan and book of reference under number 29, containing 50 feet front by 200 feet in depth, and more or less, with buildings thereon erected.

3. One lot of ground situated in the above named Town of Victoriaville, on the east side of Mill street, skirting the west side of the River Nicolet, known and designated on the above mentioned plan and book of reference under No. 33, containing about 2 acres in superficies, with buildings thereon erected.

4. An irregular lot of ground situated in said Town of Victoriaville, on City Hall street, skirting the east side of the River Nicolet and crossed by the G.T.R. at the south end, known and designated on the above mentioned plan and book of reference under No. 414, containing 13 acres in superficies and more or less, with building thereon erected; less that part of said lot designated in paragraph C of lot No. 1, situated on the south side of the G.T.R. track.

5. FOURTEEN HOUSES, rented to the mill help and built on the following lots, viz.: North-west part of Nos. 114 and 121 and Nos. 115, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137 and 138 of the said official plan and book of reference.

6. ONE TANNERY AND APPURTENANCES in said town of Victoriaville, with improved machinery and plant, known and designated on the above named official plan and book of reference under Nos. 156, 157, 158, 159, 160 and 161, containing two acres of land in superficies and more or less.

7. Three lots of ground at the back of the tannery, known and designated on the said official plan and book of reference for the town of Victoriaville under Nos. 182, 183 and 184, with dependences thereon erected.

8. Five vacant lots used as bark yard, known and designated under Nos. 164, 165, 166, 167 and 168, of said official plan and book of reference.

9. The interest and rights of said insolvents in the following property, viz.:

An irregular lot of ground fronting Tannery street, containing 145 feet in front by 125 feet in depth, known and designated on the above official plan and book of reference as part of No. 223 with a blacksmith shop thereon erected.

10. RESIDENCE IN ARTHABASKAVILLE—One lot of land situated in said village, on the east side of Main street, known and designated on the official plan and book of reference for that part of the Township of Arthabaska included in the said Village of Arthabaskaville under Nos. 79 and 84, containing two acres in superficies with a brick house and dependences thereon erected.

11. One farm known and designated on the cadastral plan and book of reference for the Fifth range of the Township of Ham, County of Wolfe, under No. 11, containing 204 acres, circumstances and dependences.

Church Should Recognize Legitimacy of Drama

This the Plea of Rev. J. H. Bell in His Paper Read Before Diocesan College Alumni Association--An Interesting Discussion.

"It would have been a great blessing for the world if the church had retained her control of the drama after the Reformation period."

"The stage is a moral educator."

"It is true that the church recognized the most important functions of the theatre, and by so doing encourage men and women who appear upon the stage to recognize the high ideals of their vocation and so help to bring about the purification and uplifting of dramatic art."

"What the church needs to do is to come out honestly and recognize the legitimacy of the drama."

"Just because the stage does not teach morality, it may be all the more powerful as a teacher of morality, as a man, seeing what he is through the medium of a play, may endeavour to become what he ought to be."

Such were a few of the pithy sentences contained in a paper read before the Diocesan College Alumni Association yesterday afternoon by the Rev. J. H. Bell,

Mr. Bell was speaking of "The attitude of the church to the theatre," a subject, he said, that had attracted his attention some time ago while driving with a hrother clergyman of this city. On that occasion this clergyman was reprimanding the driver of the vehicle because he had attended the theatre the night before. Mr. Bell said he was constrained to come to the defence of the driver.

When asked later to read a paper before the Alumni Association, this incident flashed through his mind and suggested the subject of the paper.

ANTIQUITY OF DRAMATIC ART.

In his opening remarks the speaker referred to the antiquity of dramatic art. He spoke of the innate love of the unreal on the part of each individual. People, he said, liked to act and liked to play at something. This showed itself in the games of children, for a child was never happier than when trying to imitate the actions of others. It would play at house-keeping and horse-riding, and such little diversions, and be happy in them. And, as with the child, so with the man and woman. They liked to witness a portrayal of some particular historic event or of some important incident in human life. The tableaux, carnivals, fancy dress balls, etc., etc., which were given from time to time, were merely opportunities for giving expression to the desire which was in every heart to represent some one and play at some thing. The Puritan abhored theatres and frowned upon all sorts of games and healthful diversions. And yet at the same time he was gratifying his passion for assuming the role of another by playing the part of a saint. So with the Pharisee of old. He was playing the part of another when reproved by Christ. He would have liked the world to believe that he was what he represented himself to be, but in reality he was anything but the righteous man he pretended to be.

IN THE MIDDLE AGES.

Continuing, Mr. Bell, referred to the condition of dramatic art in the Middle Ages and spoke of the religious plays which were presented then under the auspices of the church. "There was no condemnation of the drama," said he, "until the Reformation, and it is doubtful if even then the Reformers objected to the drama itself. Rather did they object to the character of the plays. It would have been a great blessing for the world if the church had retained its control of the drama. In that case the stage would have been purified and emptied of that which was objectionable at the time, and would have come down to us a powerful medium for good.

> "What the Church should do at the present is to come out honestly and recognize the legitimacy of the drama. She should try and bridge over the gulf which separates the stage and church and thus enable the former to once more become a power for good."

"The stage has a distinct educational function. What a mighty stimulus has Shakespeare been to the minds of men? What lessons can be learned by witnessing a presentation of his plays? What great moral truths they contain?"

STAGE A MORAL EDUCATOR.

"The stage is a moral educator. Not by direct moral exhortation, I grant you. The stage teaches by the indirect method. Instead of exhorting, it suggests. It holds the mirror up to nature and allows man to see himself as he would not possibly do through the medium of an exhortation. Just because the stage does not teach morality by exhortation it may be all the more powerful as a teacher of morality, as a man, seeing what he is through the medium of a play, might endeavour to become what he ought to be."

The speaker had nothing to say in defence of the low theatre, but he held that it would be unjust to condemn all because of the delinquincies of some. The members of the dramatic profession would now-a-days be found to come up to the standard of those in other walks of life, and they all felt that their calling was as honourable as any other.

"It is time," added the speaker, "that the old prejudices against them were gone. It is time that the church recognized the important functions of the theatre, and by so doing encourage the men and women who appear upon the stage, to recognize the high ideals of their vocation, and so help to bring about the purification and unlifting of dramatic art."

After Mr. Bell had concluded his paper a discussion took place thereon.

THOROUGHLY AGREED WITH THIS.

Rev. Frank Charters thoroughly agreed with the views expressed by Rev. Mr. Bell, and spoke of "The Sign of the Cross" and "Ben Hur" as having been educators. Of course, there were theatres and plays which could not be approved of, but the action of the Church was that it absolutely condemned the stage, without making any discrimination in favour of certain wholesome plays. If it absolutely condemned the stage, it was an impertinence on the part of the Church to say what ought or ought not to be represented. Unquestionably the theatre was here to stay, and it was having an ever increasing influence all the time. The Church might direct that influence to a certain extent.

NOT THE WISEST ATTITUDE.

Rev. F. A. Pratt referred to the fact that some clergymen of the Church of England in England were advocating the establishment of a theatre in connection with the church, and expressed the belief that the present attitude of the Church toward the theatre was not the wisest one. She stood on one side, and had no influence over the stage. It was very injudicious, very unsafe and very wrong to condemn all actors and all theatres.

Ven. Archdeacon Ker said he agreed in the main with what Mr. Bell had stated in his paper. If the Church was to have any influence, in future, over the theatre, she must very quickly assume a different attitude towards the stage, and the men and women on it. He regretted the divorce between church and stage, as it tended to alienate the sympathies of the members of the theatrical profession from the church. While in London, some years ago, he had witnessed Wilson Barrett's production of "The Sign of the Cross," and he had found it such a factor for good that on his return to Montreal, he had advised his congregation from the pulpit of Grace Church, as well as in private intercourse, to attend the play and learn its lesson for themselves. He had found the play a great educator, inasmuch as it gave one a splendid idea of what the early Christians had suffered for the Chur

SOME OF THE VIEWS OF THOSE PRESENT.

Rev. J. H. Bell: The church should recognize the legitimacy of the drama. The stage is a moral educator.

Rev. Frank Charters: The theatre is here to stay. Its influence is gradually increasing. The church should place herself in a position to exercise an influence upon the stage.

Ven Archdeacon Ker: If the church is to have any influence over the stage she must assume a totally different attitude. Certain plays were educators and he had recommended one of such from his pulpit.

Rev. H. T. S. Boyle: Montreal clergymen should stay away from the theatre. Others, not so discriminating, would imitate their example in attending the theatre, but might also attend bad plays.

Very Rev. Dean Evans: The theatre to-day is a money making institution. Anything that would draw was put upon the boards. As long as plays having an evil influence were put upon the stage so long must the clergy set themselves steadily against the theatre.

THE EDUCATION BILL.

Premier Balfour Denies That it Will be Withdrawn.

(Special to the Montreal Star.)

LONDON, October 3.—Premier Balfour and Mr. Chamberlain have lost no time in contradicting the rumours that the Government intended to withdraw the Education bill.

Premier Balfour has authorized the statement that "there is no foundation whatever for this rumour."

A similar denial was made by Colonial Secretary Chamberlain, who added with reference to the attitude of the Birmingham Liberal-Unionists, that "only two hundred persons attended the meeting of the opponents of the bill."

The general body of the Presbyterian and Baptist independent ministers, at a special meeting last evening, adopted a resolution calling upon the Government to withdraw the Education bill and declaring: "We will do everything in our power to defeat the reactionary, tyrannical proposals of the measure, which vast numbers of loyal subjects will be conscientiously compelled to resist to the utmost, even to refusing the payment of rates."

IMMIGRATION FIGURES.

Greatest Grain Last Year Was From United States.

(Special to the Montreal Star.)

OTTAWA, October 3.—The revised returns of immigration to Canada for the fiscal year ending June 30, last, show that the total number of emigrant arrivals was 67,230, an increase of 18,081 over the previous year. The greatest gain was in the arrivals from the United States, the total being 26,312, as against 17,987 for the previous year, a gain of 8,325. British arrivals came next, with a gain of 5,449, although the total for the year of 17,259 is less than from other countries. From Europe, excluding the British Isles, Canada received 23,659 immigrants, or 4,307 more than in 1901. The figures for the first two months of the present fiscal year afford equally good cause for jubilation, the total immigrant arrivals amounting to 15,365, as against 8,223 for the same two months of the previous year, showing a gain for the former period of 7,142.

Judging by the steady gain from all directions, the officials feel confident that within two years the immigrant arrivals in Canada will reach a total of 100,000 a year.

This word is used four times by Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, in reporting the result of his analyses of Sunlight Soap.

"No unsaponified fat"; that means no waste.

"No free alkali"; that means no damage to clothes or hands.

"No loading mixture"; that means every atom is pure soap.

"No adulteration whatever"; that means pure ingredients.

M'GILL'S ALMA MATER SOCIETY HELD ITS FIRST ANNUAL MEETING.

The Alma Mater Society of McGill University held its first meeting in the Arts Building last night and made the preliminary arrangements for the annual theatre night, which takes place a week from tonight. The Academy of Music was chosen without any discussion, the comic opera attraction being favoured. The different committee's entrusted with the arrangement of details were then elected and the following were chosen.

Theatre—Messrs. MacMorran, MacPherson, Bergeron, Kent and Waugh.

Music — McKinnon, MacPherson, Wickwark, Dey and Lyons.

Procession— Dey, Davidson, McLean.

The meeting then adjourned to meet on Saturday when the various committees will present their reports.

Immediately at the close of the meeting of the Alma Mater Society, the third year met for organization. McGill '04 last year played a very prominent part in college athletics, winning both the inter-class hockey trophy and also the championship at the annual sports. This year their track team looks stronger than ever, and it is thought that they may hold the athletic championship for another year. Matters concerning the class pin and theatre night were settled and the following officers elected: President, Rex. Taylor, science; vice-president, Geo. MacDonald, arts; secretary, Mr. Cook, medicine; treasurer, Mr. Wilson, science; track captain, Mr. Gibson, medicine; football captain, Dick Shillington, medicine; hockey captain, Walter Molson, Arts.

STRANGER THAN FICTION.

Remedy Which Has Revolutionized the Treatment of Stomach Troubles.

he remedy is not heralded as a wonder- discovery nor yet a secret patent medi- e, neither is it claimed to cure anything ept dyspepsia, indigestion and stomach ubles with which nine out of ten suffer. he remedy is in the form of pleasant ting tablets or lozenges, containing vege- le and fruit essences, pure aseptic pepsin overnment test), golden seal and diastase. e tablets are sold by druggists under the ne of Stuart's Dyspepsia Tablets. Many eresting experiments to test the digestive wer of Stuart's tablets show that one in of the active principle contained in m is sufficient to thoroughly digest 3,000 ins of raw meat, eggs and other whole- me food.

Stuart's Tablets do not act upon the wels like after-dinner pills and cheap thartics, which simply irritate and inflame e intestines without having any effect atever in digesting food or curing indi- stion.

If the stomach can be rested and assisted the work of digestion it will very soon ecover its normal vigour, as no organ is so uch abused and overworked as the stom- ch.

This is the secret, if there is any secret, f the remarkable success of Stuart's Dyspepsia Tablets, a remedy practically unknown a few years ago, and now the most widely known of any treatment for stomach weakness.

This success has been secured entirely upon its merits as a digestive pure and simple because there can be no stomach trouble if the food is promptly digested.

Stuart's Dyspepsia Tablets act entirely on the food eaten, digesting it completely, so that it can be assimilated into blood, nerve and tissue. They cure dyspepsia, water brash, sour stomach, gas and bloating after meals, because they furnish the digestive power which weak stomachs lack and unless that lack is supplied it is useless to attempt to cure by the use of "tonics," "pills" and cathartics which have absolutely no digestive power.

Stuart's Dyspepsia Tablets can be found at all drug stores and the regular use of one or two of them after meals, will demonstrate their merit better than any other argument. 220 3 Saw

ST. JAMES LITERARY SOCIETY BEGINS WINTER'S WORK.

The gatherings of the St. James Literary Society were resumed last evening in the society rooms, Mansfield street, and was very largely attended. Mr. W. C. Wonham, president, who presided, read his annual address and gave a brief resume of the club's progress. The features offered to active members were: Confidence in speaking, the literary aspect, and the educational effect.

Mr. Wonham said that there was a lack of good speakers in spite of the fact that there was a constant demand for them. Deep thinkers and oftentimes excellent writers, were not good speakers, owing to lack of confidence.

John Bright, according to Mr. Wonham, was a nervous man; Cowper was spoken of as "a sorry bungler in his own affairs," and Thackeray broke down on his first public appearance. Lawyers are usually logical, cool and have perspicacity developed to a high degree. Sir John Thompson was pointed out as an example of a deliberate speaker, eloquent, resourceful and a master in debate.

Reading was touched upon and it was suggested that those who wished to shine as speakers should be good readers, Mr. Wonham concluding his address by outlining the work to be done by the club during the season.

Death of Mr. L. W. Sicotte.

Mr. L. W. Sicotte, advocate, son of Mr. L. W. Sicotte, Clerk of the Crown and Peace, died yesterday, after a prolonged illness. The deceased was born in Montreal, on November 4th, 1864, and after following his classical course at St. Hyacinthe College, studied law in the office of Messrs. Abbott, Tait and Abbott. He was admitted to the Bar of this province, in July, 1886. For a time he practised alone, and afterwards entered into partnership with Mr. D. R. Murphy, and later with Mr. James Doherty. For the last few years he has been in partnership with Mr. Charles A. Barnard. At the annual elections of the Bar, in May last, he was elected unanimously a member of the Council of the Bar. The deceased was also a member of several of the Conservative organizations in the city, and was always ready to assist his party by voice and presence in the meetings held throughout the province. He stood high in the esteem of his confreres at the Bar, as well as a large circle of friends among the public generally.

In 1899 the late Mr. Sicotte married Miss Aurelia Masson, daughter of Mr. Alfred Masson, of the firm of D. Masson & Co.

The funeral will take place on Saturday, at 8.30 a. m., from his late residence, 2743 St. Catherine street, to St. James's Cathedral, Dorchester street, thence to Cote des Neiges Cemetery.

The Anchor flour mills, at Orangeville Ont., have been almost totally destroyed by fire. The loss will reach several thousand dollars, with insurance of about $4,000.

Amherst Park Mission.

The Ladies' Aid and Church Committee of the Anglican Mission, Amherst Park, entertained the students of the Missionary Society of the Montreal Diocesan Theological College to an at-home yesterday evening, in the mission building. Rev. Principal Hackett acted as chairman, and Rev. Canon Evans, the founder of the mission, also occupied a seat on the platform. The room had been tastefully decorated for the occasion in the colours of the college—purple—with the college motto, "Pro Christo et Ecclesia," running from wall to wall. After the reading of an address of welcome by the rector's warden, Mr. Manning, on behalf of the ladies and church committee, able replies were delivered by the chairman and Rev. Canon Evans, Messrs. Parker, Blacgrave, and Fee, of the college, and Mr. Seaman, the student in charge. Several songs were rendered in the course of the evening, and refreshments served by the ladies concluded the programme.

A DENIAL.—Mrs. Marion Young, late of Montreal, is not the Mrs. Mary Young whom a Chicago despatch stated had been married in that city.

MR. BORDEN GOES AFTER PRAIRIE CHICKEN

(Special to the Montreal Star.)

VIRDEN, Man., October 3. — After a very pleasant day during which most of the members of Mr. Borden's party went hunting, and secured several large bags of game, and during which Mr. and Mrs. Borden received a large number of friends, a largely attended meeting was held in the Virden Town Hall last evening. The hall was filled to overflowing by an audience that showed the liveliest interest in the speeches, especially that of the leader, whose address was frequently punctuated by applause. Mr. Roblin, the Provincial Premier, was present on the platform and spoke.

Dunkards for the West.

WINNIPEG, Man., October 3. — A party of thirty-three Dunkards arrived in the city yesterday on their way to Indian Head, where they are settling, about 3 miles south of the town, along the proposed route of the new railway running through that region. They are buying and homesteading land for about one hundred families.

CANADA IN NEED OF MORE RIFLES.

(Special to the Montreal Star.)

OTTAWA, October 3. — Major-General Dundonald, it is expected, will return to Ottawa to-day. He has had an exceptionally busy time during the past five or six weeks, and the experience he has gained doubtless will lead to important recommendations. It is expected that Parliament next session will be asked to vote a substantial sum for the purchase of more rifles. There are only 40,000 stand of Lee-Enfields in the country, and with rifle shooting a pastime all over Canada, more rifles certainly will be necessary.

Archbishop Kaine Very Ill.

ST. LOUIS, Mo., October 3.—Archbishop John J. Kaine, who has been in poor health for the past six months, has experienced a marked change for the worse in the past two days. The Archbishop's ailment is closely akin to paralysis, and while his physicians do not think there is immediate danger, it is known from the nature of his disease that the end is likely to come at any time.

MR. TARTE WON'T TAKE A WORD BACK

Tells Oshawa He Decided on Present Policy Long Ago.

IT IS THE BEST FOR CANADA

He Would Like to See $25,000,000 Spent in Improving Transportation Facilities.

(Special to the Montreal Star.)

OSHAWA, Ont., October 3.—Hon. Mr. Tarte visited Oshawa yesterday on the invitation of the Mayor and Council of the town. Mr. Tarte, who was accompanied by Charles Marcil, M.P., Mr. Lafleur, chief engineer of the public works, and his private secretary, was met on his arrival by a deputation of representative citizens, who included Hon. John Dryden, M.L.A., and William Ross, M.P., South Ontario.

The visitors were first taken in a private electric car through the principal portion of the town and thence to the wharf, where considerable work has been accomplished of late by the Government. They then visited several of the leading manufacturing establishments, including the large carriage works of McLaughlin & Son, where Hon. Mr. Tarte laid the corner-stone to a large addition.

In an address on the occasion, Hon. Mr. Tarte said he had the honour of having visited many of the large manufacturers in Montreal, but from what he had seen Oshawa had the great metropolis beaten hands down, in not a few important industries.

The Opera House was well crowded with ladies and gentlemen in the evening, when a complimentary address to the visiting Ministers was read by Mayor T. L. Fowke on behalf of the Town Council. The address expressed appreciation of Mr. Tarte's visit, and stated that such visits by our statesmen tended to destroy provincialism and to make us one great united people.

NEW SUBJECT OF THE KING.

"While the train to which my car is attached was steaming into Oshawa today," said Mr. Tarte, at the outset of his reply, "I received a message informing me of a presentation to me of a little stranger in the world. (Applause.) May God bless the new subject of His Majesty the King. (Renewed applause.) And I will take care to have him called by a good Canadian name."

Mr. Tarte thanked the audience for the hearty reception tendered him, and spoke in the highest terms of the industrial resources of Oshawa and of the vast resources of Canada.

Mr. Marcil and Hon. Mr. Dryden also spoke. The latter expressed himself in favour of some sort of state transportation, so that the farmers and manufacturers would be sure of having their products shipped to their market.

BANQUET TO THE MINISTER.

A banquet was afterwards tendered Hon. Mr. Tarte at the Oshawa House, at which several hundred of the citizens were present. Mayor Fowke presided, and, in proposing the toast of the guest of the evning, referred to Mr. Tarte as the most active man in the country in promoting its interests. A warm ovation was given the guest of the evening on his rising to reply. Mr. Tarte, in opening, said he made up his mind to follow the course which he was following to-day immediately after going into office. He felt that our industries should be protected and our country developed. Our American friends were truly big, but he was of the opinion that they had the swollen head at times. Mr. Tarte then said that letters had been sent him by certain men to the effect that he (Tarte) was wrecking the Government. He had no desire to do that. There were private interests in Montreal which were perfectly satisfied with their business and they did not bother about the interests of the country at large.

Continuing, Mr. Tarte said he had been accused of saying things he should not have said, but he would not take back a word he had uttered.

"I'll be hanged if I will," he remarked, with emphasis. He had even been accused of violating the constitution by his utterances, but he was ready to stand by his arguments. By a strong tariff he meant one that would give protection to the farming as well as the other industries.

WOULD LIKE TO SPEND MILLIONS.

He would like to see $25,000,000 spent in improving our transportation equipment. United States railway and steamship trusts were endeavouring to swallow our railways, but he would fight to prevent such a thing. Mr. Tarte expressed the belief that the time was not far off when England and her colonies would know each other better, and then we would not only be able to command the situation on the sea, but on the land as well.

The Americans would not be threatening us on every possible occasion, and we would be able to hold our own. If we did not fail to be true to ourselves, our destiny was assured.

Speeches were made by several of the other prominent gentlemen present, and the gathering dispersed with cheers for Mr. Tarte and the King.

SPEECH BY ARCHIE CAMPBELL.

TORONTO, October 3.—Archibald Campbell, M.P. for West York, was present at the first open meeting of the North Toronto Liberal Club in Cumberland Hall, held last night, and delivered an address, in which he dealt with the questions of transportation and the tariff. Mr. Campbell said that the Liberal Government had been the first to grapple with the situation and to provide a practicable all-Canadian route for the transportation of the products of the west to the sea. Regarding the tariff, he said that this had been revised in a businesslike way. It had been a wise revision, which had brought prosperity to the country, but no tariff was a finality in a progressive country. He believed that the time had come to revise the tariff, which revision did not mean an increase unless it was necessary not only in the best interests of Canada, but also of those in the Empire. He had the utmost confidence in the Premier of the country and his colleagues in the action that they would take in the revision of the tariff.

THE ATLANTIC SHIPPING COMBINE.

English People are Surprised That Mr. Morgan is Not Included in the List of Directors.

NEW YORK, October 3.—The correspondent of the Tribune in London cables:

The publication of the details of the Atlantic Shipping combine has caused no little surprise here. It had been generally expected that Mr. Morgan would have been included in the list of directors, and the absence of his name provokes much comment. It is also noticed that America has a majority on the supreme directorate, and that Englishmen are rigidly excluded from the Executive and Finance Committees. Moreover, Sir Clinton Dawkins, who is chairman of the British committee is a partner in the London house of J. P. Morgan and Company.

Many people of influence in shipping circles are veering round to the opinion that the Cunard deal will not seriously affect Mr. Morgan's plans. If the two new Cunard ships cost £1,000,000 each, the Cunard Co., will have to pay to the British Government at 2 3-4 per cent., an annual interest of £55,000, so that the subsidy will really amount to only £95,000 per annum.

This amount is not considered excessive, and yesterday the Cunard Co., shares fell back to the price at which they stood before the announcement of the new agreement with the Government. Mr. Morgan's reported attempt to arrange a deal with the Great Western railway, which is the biggest although not the wealthiest line in England is being keenly discussed. Many traders are expressing the hope that there may be a substantial foundation for the rumour. They do not desire to see Mr. Morgan in possession of the railway of this country, but would welcome almost any development that would lead to the smashing of the railway ring of the United Kingdom.

CHRISTIAN ENDEAVOURERS.

The Election of Officers Took Place Yesterday—Closing Meeting.

QUEBEC, October 3.—The delegates attending the Christian Endeavour meeting elected their officers for the ensuing year yesterday, the result being as follows: President, John Thompson, Quebec; first vice-president, Rev. J. L. Gilmour, Montreal; second vice-president, C. E. Bland, Montreal; third vice-president, W. S. Pritchard, Granby; fourth vice-president, Miss Boa, Point Fortune; secretary, David Allen, Montreal; treasurer, W. A. Cunningham, Montreal; junior superintendent, Peter Doig, Montreal; executive committee, J. H. Cayford and Jas. Wilson, Montreal; W. L. Shirtliff, Coaticook; and W. F. Stephens, Trout River.

Resolutions on Sabbath observance, temperance and French evangelization were passed. A deputation from the French Protestant conference, now in session here, addressed the convention. At the afternoon session addresses were delivered by Rev. Chas. Sykes, Rev. W. Patterson and Mr. Lock, of Montreal. The closing meeting of the convention was held last night when Rev. Mr. Patterson delivered a powerful evangelistic address.

THE ARCHBISHOPS.

Conference at Ottawa Over—Religious Communities for Canada.

OTTAWA, October 3.—The archbishops are dispersing. Archbishop O'Connor and Bishop Decelles left yesterday. Archbishop Gauthier has gone to visit a sick relative at Alexandria. Archbishop Begin, of Quebec, paid a visit to the convent of the Grey Nuns yesterday, and celebrated the Mass of the day. Archbishop Langevin, of St. Boniface, officiated at the ceremony of the closing of the annual retreat of the students of the University of Ottawa. He was assisted by a large number of clergy, and the ceremony, enhanced by pleasing music and illuminations of the chapel, was of a brilliant character. During his stay in Ottawa Archbishop O'Brien, of Halifax, is the guest of his brother-in-law, Mr. J. W. Hughes, Concession street. Two of the religious communities expelled from France, by the Law of Associations, have applied to Archbishop Langevin for permission to settle in Manitoba. The Archbishop has granted his consent.

Want Rose Arrested.

TORONTO, October 3. — John Birnie, K.C., counsel for W. H. Brown, of Collingwood, charged with conspiracy to murder his mother, came to Toronto last night. He states that the defence desires the arrest of John Rose, the insurance agent in the case, and that Brown's case will go to show that Rose is actually the guilty party. Brown's contention will be that he approached Rose to have the insurance policy cashed and that the latter planned the murder, by which a much larger sum of money would have been obtained.

Brown was arraigned before Magistrate Nettleton, at Collingwood, Ont., yesterday afternoon. He pleaded not guilty and was remanded until Monday. No evidence was taken. John Birnie, K.C., and W. T. Allen apeared for the prisoner, and Inspector Greer, of the Provincial Detective Department, for the Crown. The magistrate refused bail.

Contract for Railway Let.

TORONTO, October 3. — The Temiskaming Railway Commissioners yesterday awarded the contract for building the railway to A. R. MacDonell, the lowest tenderer. The price will not be made known until the contract is signed. Mr. MacDonell has had many years' experience; has built railways under Mackenzie and Mann, and has been identified with Mr. Hogan, of Ottawa, in contracts on the Canadian Pacific and in a contract for a dock and pier at Port Colborne for the Dominion Government. The present contract covers 110 miles. The commission will furnish rails, fast rings and superstructures for the Montreal river bridge. The first sixty miles are to be constructed by December 31, 1903.

Binder Twine is Out.

KINGSTON, Ont., October 3.—The Dominion Government has come to the conclusion that the binder twine industry at the Kingston Penitentiary is not a paying investment, and as a result, it has been abolished. Mr. T. P. Connors, who was in charge of that position, has already left for the eastern states.

Western Homestead Entries.

(Special to the Montreal Star.)

OTTAWA, October 3.—The Homestead entries in the west afford an excellent indication of the rate at which the west is being settled. In the fiscal year 1901, they numbered 8,167, while for last year they aggregated 14,633, an increase of 6,466.

CINDERELLA ON STRIKE.

The strenuous life appears to agree with the Rough Rider of the administration. As everybody knows, public life in Canada is made up largely of eating and talking in public, and at the present moment Mr. Tarte holds the record for both. While Mr. Sifton must be glad to get an occasional invitation to a free lunch counter, Mr. Tarte counts that day lost in which he is not tendered a public banquet. No wonder the other ministers knit their brows and ask each other

Upon what meat doth this our Caesar feed
That he is grown so great?

But the secret of Mr. Tarte's greatness is not to be found in the menu cards which "Ontayreeo, Ontayreeo" has got up so elaborately in his honour, it lies rather in the strenuosity of the honourable gentleman's life, and in his prompt recognition of his opportunities. When the leading members of the Cabinet went off to a round of festivities in London and Paris, they made a great mistake if they thought that Joseph Israel was going to stay at home and play the part of Cinderella and that they would find him still sitting by the hearthstone or washing up the plates and dishes when they reurned. Why, they had hardly gone before he evidently made up his mind to have some fun on his own account. Sir Wilfrid and Mr. Fielding may have enjoyed hearing the Life Guards' band playing in honour of all the King's guests, but Mr. Tarte has heard the brass bands of Gananoque, Strathroy and Oshawa playing

See the-e conquering he-e-e-e-ro comes,
So-o-o-o-ound the trumpets, be-e-eat the drums.

And he knew that they were playing in honour of one man only, and that man his own father's son. And for every little boutonniere obtained by the ministers in London, Mr. Tarte has received bouquets as big as the white hat of a blameless life which so admirably becomes his style of beauty. His colleagues are returning decorated with coronation medals; he will meet them wearing the myrtle wreaths and roses with which the fairest of Ontario's fair have entwined his manly brow. Has Mr. Tarte's fairy godmother presented him with a little glass slipper? We do not know, but he was always a slippery kind of chap, and by the time the other ministers get home he will probably have arranged to put up the duties on all kinds of footwear with a view to cornering all the glass slippers in the country.

DOES ADVERTISING PAY?

A most interesting letter on this important question will be found on page 5 of this issue of The Star.

DEVERY HAS BROKEN THROUGH THE ICE.

Attended Convention in Eleventh District Which Nominated W. R. Hearst.

NEW YORK, October 3.— Conventions were held last night in the Congressional districts within the boundaries of the boroughs of Manhattan, the Bronx and Richmond. Interest in the nominations centred in that to be held in the 11th district by the Democrats, because the Tammany leaders had announced earlier in the day that William S. Devery and his delegates would not be allowed seats in the convention. Devery, on hearing this, sent an emissary to the hall. He threatened mandamus proceedings. Before the convention Secretary Smith, of Tammany, announced that the leaders recognized the legality of the election of the Devery delegates, and that they would be given seats.

The nomination went by acclamation to William Randolph Hearst, editor and proprietor of the New York American. He was placed in nomination by former State Senator T. C. O'Sullivan, and William S. Devery made a speech, seconding the nomination.

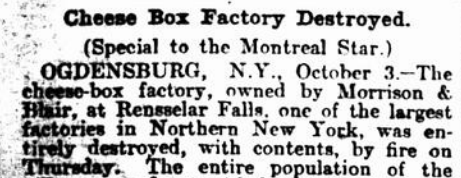
CROKER IS OUT.

LONDON, October 3.—"I do not suppose that I have said more than a hundred times that I am out of politics," replied Richard Croker at Wantage last night when questioned for his opinion concerning the New York Democratic state convention at Saratoga. "May be if I do not say anything now people will begin to believe it." "Yes," continued Mr. Croker. "I have read all the reports of the convention; they are very interesting, but I am done. I have seen nobody and said nothing, and do not intend to. They can get along without me."

Cheese Box Factory Destroyed.

(Special to the Montreal Star.)

OGDENSBURG, N.Y., October 3.—The cheese-box factory, owned by Morrison & Blair, at Rensselar Falls, one of the largest factories in Northern New York, was entirely destroyed, with contents, by fire on Thursday. The entire population of the village turned out with buckets, and fought the flames and by very hard work succeeded in saving adjoining property.



Probabilities for the next twenty-four hours, specially predicted for the Montreal Star at 11 a.m. to-day:

Moderate, variable winds; fair to-day and Saturday.

Maximum and minimum temperatures during the past twenty-four hours: Victoria, 66, 54; Kamloops, 60, 40; Calgary, 68, 38; Edmonton, 68, 42; Qu'Appelle, 60, 36; Minnedosa, 58, 30; Port Arthur, 50, 30; Parry Sound, 60, 44; Toronto, 62, 50; Ottawa, 58, 42; Montreal, 56, 46; Quebec, 56, 42; Halifax, 72, 52.

MONTREAL, October 3.

Readings by the Optical and Engineers' Supply Company's standard barometer at noon yesterday, 30.13; at 8 a.m. to-day, 30.18; 11 a.m. to-day, 30.15; temperature to-day, maximum, 62; minimum, 45; yesterday, maximum, 57; minimum, 49.

Sun rose this morning at 6.16 o'clock. Will set this evening at 5.37 o'clock.

MITCHELL'S CHARGE AGAINST OPERATORS

He Declares That They Are Endeavouring to Cause Disorder.

OPERATORS STILL CONFIDENT

Miners in the Wilkesbarre Region are Still in An Ugly Mood—Hopeful About Conference.

(Continued from page one.)

WILKESBARRE, Pa., October 3.—President Mitchell, of the United Mine Workers, accompanied by District Presidents Nicholls, Duffy and Fahey, left here last evening for Washington via Philadelphia. Mr. Mitchell conferred with the district presidents during the day. It is not known what policy the executive board of the miners' union will pursue at the conference. Mr. Mitchell declined to express any opinion. All he would say was that he hoped for the best. General feeling is however, that President Roosevelt will succeed in bringing both parties together.

The following telegram was sent by President Mitchell to the three anthracite district secretaries yesterday:

"There has been placed in my hands indisputable evidence of an attempt on the part of the operators to create discord among our non-English speaking members, through the circulation of pamphlets containing malicious and dastardly attacks upon the officers of the organization, and by an effort to arouse race prejudices. These circulars will be printed in all the foreign languages and will be signed by a person designating himself "A friend." I will notify all district and local officers to be on their guard. It is especially important that our non-English speaking brothers be informed of this conspiracy. "JOHN MITCHELL."

VIEWS OF OPERATORS.

SCRANTON, Pa., October 3.—Sentiment among the representatives of the coal operators here has undergone a change regarding the action of President Roosevelt, in assuming the role of an intermediary to settle the strike. At first they said the only effect of the President's action would be to put off the surrender of the miners as many days as there were in the interim between the first announcement of his intention to intermediate and the announcement of the result, or the lack of result of the conference. Now these same men say the White House conference will hasten the end of the strike, that it will show the miners that no third party, not even the President of the United States, can budge the operators from their position, and that once this is realized, the strikers will weaken.

A prominent individual coal operator said he stood ready to guarantee that the operators would agree to a sliding scale basis of pay comprehending a 2 per cent. raise for every ten cents advance on coal above $4.50 f. o. b., if the miners' union would agree to put up the bonds to indemnify the operators for damages resulting from strikes caused by the discharge of men for causes other than connection with the union.

There was no disorder reported yesterday and no claims from either side as to gains or losses to the working forces at the collieries. All interest is centred in to-day's conference.

It is now almost certain that John Mullen a non-union man, who was run over by a trolley car at Smithville, was stunned or killed, and then placed on the track. His own razor, with blood on the blade, was found near the spot, and no cuts that a razor could have made was to be found on the body. It is supposed he was attacked, and drew the razor to defend himself. Coroner Berge says it was a care of murder.

THE WILKESBARRE TROUBLES.

WILKESBARRE, October 3.—The mining town of Plymouth, which has been free from any disturbance since the strike began, was the scene of much disorder yesterday. Mobs surrounded the Sterling and North American washeries, and Sheriff Jacobs being unable to disperse them, summoned the militia. Col. Dougherty sent three companies of the Ninth Regiment to the scene, and they arrested eleven men charged with rioting. They were brought before Magistrate Pollock, of this city, who held them in $1,000 bail each for trial at court.

A strong guard was placed over the washeries last night. The washery at the Hollenback mine started up work yesterday afternoon. This was a surprise to the strikers. Despite the conference called to meet at Washington, the operators in the Wyoming Valley are very aggressive.

OPERATORS SUMMONED.

ALBANY, N.Y., October 3. — Attorney-General Davies announced yesterday that he had granted the application of the New York American and Journal, that the operators be summoned to appear before him and show cause why proceedings should not be instituted against them under the Donnelly anti-trust law. A hearing will be given in this city Wednesday, October 8, at 2 p.m.

STRIKE IN TENNESSEE.

BIRMINGHAM, Ala., October 3. — Twenty-five hundred miners in the employ of the Tennessee Coal, Iron & Railway Company stopped work yesterday on orders from the executive board of United Mine Workers of America, district of Alabama. The suspension is due to the refusal of the operators to collect for the union the one dollar a week assessment made on all union miners for the benefit of the anthracite strikers in Pennsylvania. It is probable that the Blue Creek and Blockton mines of the Tennessee Company also will be involved if an adjustment is not soon reached.

About two weeks ago the Tennessee Company declined to withhold the assessment money from certain miners at West Pratt, who objected to its payment, and 500 men at that mine were ordered out. To-day's suspension brings the total number now out up to 3,000. The miners of the Schloss-Sheffield Steel and Iron Company are holding a mass meeting at Cardiff to-day to determine what course they will pursue.

LONDON, October 3. — According to the St. James's Gazette, a Cardiff firm yesterday booked a single American order for 15,000 tons of coal.

SITUATION IN TORONTO IS WORSE.

TORONTO, Ont., October 3.—A big American coal firm wired a Toronto dealer as follows: "Our advice to you is to get in as much soft coal as you can. The situation is extremely serious. This is no bluff."

Reports received from various centres indicate that the situation is gradually becoming worse, so far as power to fill orders is concerned. Prices in Toronto are practically prohibitory, so far as the masses of the people are concerned. There is no uniformity in quotations, the range being from $7 to $9. Hardwood continues to sell at $9 to $10 per cord in limited quantities. Softwood from $5 to $7 per cord, according to quality.

Quebec Burns Soft Coal.

(Special to the Montreal Star.)

QUEBEC, October 3.—The city of Quebec is using soft coal for heating all the municipal buildings, which it is obtaining from the Wolvin Syndicate at $4.75 per ton on the wharf.

The scarcity of coal in this city will, it is said, oblige several large establishments to close down for the winter. Quebec consumes annually about 30,000 tons of anthracite coal, and it is calculated that not one-third of that quantity has so far reached here this season; the small lot on hand is selling at $15 per ton.

One Strike is Ended.

CHICAGO, October 3.—The strike of coal teamsters that for a time threatened to deprive the public schools of their fuel supply has been settled. The anthracite and bituminous coal companies which supplies the schools on the northwest side, conceded all the demands of the teamsters.

STEP BY STEP.

Coffee Gets in Its Fine Work.

Watch coffee drinkers and observe that practically every one of them has some form of incipient or fixed disease.

Mrs. F. N. Wright, of San Francisco, Cal. tells her experience: "I was 20 years old before I ever knew the taste of coffee, and before I commenced drinking it, I never was troubled in the least with constipation, but after drinking coffee for one year, I became constipated to such a degree that I had to resort to drugs to overcome it.

After three years drinking coffee, I had cultivated a chronic state of constipation and other annoying symptoms became manifest. The first thing in the morning, I had a headache come on, a feeling of nausea, and these symptoms would persist until I had drunk a quantity of coffee. At first, I did not associate these symptoms with the habit of coffee drinking. I thought my system must be run down, and I felt glad that coffee, instead of prescribed drugs would relieve my weakness. Like many people, I did not reason from cause to effect.

About this time I had an elderly nurse in my employ, who complained every morning of similar symptoms, and when I suggested mineral water, etc., to her for her biliousness, she said, "Nothing in the world but my coffee will relieve me, when I feel so badly." My husband began to complain, if he did not get his coffee at a certain time, of queer sensations in the stomach and head. I became alarmed at these coincidences, and came to the conclusion that coffee had as strong a hold on us as whiskey has with the veriest drunkard. About this time, I was taken ill with inflammatory rheumatism, and the two doctors who attended me told me I would have to stop drinking coffee or remain a cripple, as they could not treat me if I persisted in using a drug stronger than the drug I needed.

My husband and I agreed to try an experiment and commenced the use of Postum Food Coffee. The effect was marvellous and taught us some valuable truths, and now we would not touch a cup of coffee for anything. His business demands the utmost concentration of brain force continuously. He now looks like a new man; he has had no headaches or bilious attacks for some months, and digests all his food without any distress. I feel sure that he would have been a wreck if he had kept on with coffee.

After I began using Postum, I soon recovered from my attack of rheumatism, and in a few weeks, I could walk about again. I am no longer troubled with constipation, headaches, nausea or rheumatism. I firmly believe that the continued use of coffee becomes in time as hurtful to the human system as alcoholic stimulants. I know my case and my husband's both demonstrate this cle[illegible]"

Canada as a Holiday Resort.

The October number of the Four-Track News, the monthly magazine published by the Passenger Department of the New York Central & Hudson River Railway, will contain, among other interesting articles, an account of a trip through the Thousand Islands and the Rapids of St. Lawrence and up the Saguenay River, written by Mr. George H. Daniels, General Passenger Agent. This article will prove of especial interest to Canadians, as showing the manner this trip through Canadian territory appeals to the residents of the United States.

Excursion to Boston.

The Canadian Pacific Railway is offering Montrealers an excellent chance to visit "The Hub." They announce a cheap excursion, tickets being good going from October 8th to the 12th and returning on the 13th. Mr. W. F. Egg is the city ticket agent at 129 St. James street.

Special Notice.

Second-hand Pianos and Organs sold at Layton Bros. are worth on the average 25 per cent. more than what would generally be asked for similar goods elsewhere. Many firms only clean and tune up their old stock, but with Layton Bros. every instrument is thoroughly overhauled in their up-to-date workshops by skilful mechanics, guaranteed for five years, and full value allowed for same as part payment for a new instrument should the exchange not exceed three years. Warerooms, 144 Peel street, Dominion square.

Stylish Garments.

You won't find in Montreal half so many novelties in Ladies' Stylish Coats and Capes and so moderately priced, as at The S. Carsley Co. If you want a Coat or Cape and come with the intention of buying, you will buy, for the assortment is irresistible.

Aeolian and Pianola Recitals.

The Saturday Aeolian and Pianola recitals will be resumed next Saturday, at 4 p.m., to be continued weekly until next spring. A new feature this year will be the addition, of Song, Violin and Flute solos, accompanied by the Pianola and the Aeolian. Those recitals are given in order to give the opportunity to the public to become acquainted with the wonderful Aeolian family. Admission free on presentation of visiting card, at PRATTE, NORDHEIMER & GLENDON, 2461 St. Catherine street, past Drummond.
