HON. P. E. LEBLANC
IS APPOINTED
LIEUT.-GOVERNOR

NOMINATION IS RECEIVED
WITH GENERAL APPROVAL
BY THE PUBLIC.

Hon. Pierre Evariste Leblanc, K.C., of Montreal, former leader of the Conservative party in Quebec and an ex-speaker of the Legislative Assembly, has been appointed Lieutenant-Governor of Quebec in succession to the late Sir Francois Langelier.

The substance of the above official announcement was received by Mr. J. M. Tellier, Leader of the Opposition, in the Legislative Assembly yesterday afternoon in private telegrams received by him from Hon. T. Chase Casgrain and Hon. F. Coderre.

The nomination of Hon. M. Leblanc was received with unanimous satisfaction by the Provincial Opposition who consider with the general public that Hon. Mr. Leblanc is eminently fitted for the position by his manifold qualifications as well as his long years of service to the public.

Hon. Mr. Leblanc will be in Quebec today in order to be present at the funeral of Sir Francois Langelier on Thursday. While here he will be the guest of Hon. A. Turgeon, Speaker of the Legislative Council.

The career of Hon. Mr. Leblanc has been a remarkable one. Born at St. Martin, Laval County on August 20th, 1854, he was the son of Joseph Leblanc and Alele Belanger. Mr. Leblanc was educated at St. Martin Academy and at the Jacques Cartier Normal School, Montreal. For many years he followed the teaching profession but later studied law and was called to the Bar of Quebec in 1879.

He married Miss Hermine Beaudry, daughter of the late T. Beaudry, and was elected to the Legislative Assembly for Laval county in 1882, but was unseated. He was re-elected in 1884, 1886, 1888, 1890, 1892, 1900, 1904 and in 1908 he was defeated by four votes. Mr. Joseph Wenceslas Levesque having been elected. Hon. Mr. Leblanc was Speaker of the Legislative Assembly under the de Boucherville, Taillon and Flynn Governments.

The following telegram of congratulation was addressed to Hon. Mr. Leblanc yesterday by Mr. J. W. Levesque, M.L.A., for Laval County yesterday afternoon:

Quebec, Feb. 9th., 1915.
Hon. Mr. P. E. Leblanc,
Lieutenant Governor of Quebec,
Montreal

"On behalf of the citizens of the County of Laval and more especially of the Island of Jesus, whom your nomination particularly honors, I offer you their most sincere congratulations as well as their most respectful homage in which I am happy to join them.
(Signed) J. W. LEVESQUE, M.L.A.

BRITISH ATTACHE
FOR LEMBERG.

London, Feb. 9.—4 p. m.—Sir Edward Grey today informed the House of Commons that he was considering the appointment of a British commercial attaché to reside at Lemberg in view of the large British interests there.

Lemberg is the capital of Galicia, the Austro-Hungarian crown land lying between Russian Poland and the Carpathians, which has been invaded in great part by the armies of Russia. The city itself was occupied by the Russians on Sept. 4, 1914.

MANY TELEGRAMS
FOR SPENCER WOOD

MESSAGES OF SYMPATHY
COME FROM ALL PARTS OF
THE DOMINION.

The arrangements for the funeral of Sir Francois Langelier, Lieutenant-Governor of the Province of Quebec, are almost complete now.

Floral tributes of the richest and most beautiful design, and messages of condolence have been received from all parts of Canada, and yesterday more than three hundred citizens of Quebec called at Spencer Wood to extend their sympathy to the bereaved family.

Among the telegrams of sympathy received yesterday was one from Myr Bruchesi, Archbishop of Montreal, who will be present at the funeral, and others from the Papal Delegate, from Sir Charles and Lady Fitzpatrick, from Hon. W. H. Hearst, Prime Minister of Ontario; Hon. Joshua Wood, Mr. U. H. Dandurand and many others.

His Royal Highness the Duke of Connaught, will be represented at the funeral by Col. Landry, of Quebec his Honorary A.D.C., while the Hon. T. Chase Casgrain, Postmaster-General, will represent the Federal Government.

U.S. ENVOY IS NOT
SEEKER OF PEACE

PRESIDENT DENIES RUMORS
CONCERNING THE MISSION
OF COLONEL HOUSE.

Washington, Feb. 9.—President Wilson emphasized today that Col. E. M. House, his close personal friend, had not gone to Europe to seek to bring about peace as his personal representative. The President explained that Col. House frequently visited Europe and that upon his present trip he was entrusted with seeking information regarding various questions, including that of American relief work.

Reports that there had been exchanges between Russia, Austria-Hungary and the United States on the question of peace was flatly denied by the President.

KING OF BELGIUM
HONORS JOFFRE

GRAND CROSS OF ORDER OF
LEOPOLD IS CONFERRED ON
GREAT FRENCHMAN.

Paris, Feb. 9.—A semi-official statement issued this afternoon says:

"During the course of a recent meeting, His Majesty, King Albert of Belgium, bestowed upon Gen. Joffre the insignia of the Grand Cross of the Order of Leopold.

"In expressing to the King of Belgium his warm appreciation of this high distinction, Gen. Joffre thanked His Majesty for this new evidence of esteem which he thus desired to show to the French army in the person of its chief and which would strengthen still further the bonds uniting the two allied armies."

RUSSIAN OFFENSIVE APPEARS REAL MENACE TO THE GERMANS; "WILHELMINA" ARRIVES IN ENGLAND

Threatened Submarine Blockade Continues To Occupy Attention—Operations In West Lapse Into Period Of Calm—Germans Transfer Many Troops To East Prussia

London, Feb. 9.—Germany's threatened submarine blockade of the waters around the British Isles and France and the question of the use of neutral flags by merchant ships belonging to belligerents continue to occupy the public mind in England and in the neutral countries of Europe.

Greece has already replied to the German memorandum to the effect that she expects Greek ships to be protected by the regulations governing navigation on the high seas and coasts not effectively blockaded, while Holland and the Scandinavian countries are taking steps for joint action.

The American steamer *Wilhelmina*, with grain aboard, for Hamburg, has arrived at Falmouth. It was thought possible that she had been ordered there by one of the British patrol ships, as the British government had announced its intention of preventing her from proceeding to Germany and of submitting the question of her cargo to a prize court.

A despatch from Falmouth, however, says that the captain of the *Wilhelmina* declared he had proceeded to that port of his own free will.

Outside of these questions of international law, the chief interest lies in the fighting in the eastern zone, the operations in the west having lapsed into a period of calm, with only a few small engagements on narrow fronts, which can have little effect on the campaign as a whole.

In the east, on the other hand, the Germans having been checked in their efforts to break the Russian lines before Warsaw have transferred many of their troops to East Prussia to meet the Russian offensive in that region. This offensive has commenced to be a real danger to the Germans, as it threatened to drive a wedge between Tilsit and Insterberg, and so to turn the fortified position in the extreme difficult country of the Mazurian Lakes. If this movement succeeded, the Russians would overrun a considerable part of East Prussia and would again be on their way to Koenigsberg and Danzig.

The campaign in the Carpathians and in Galicia is not so easily followed, as the official reports are exceedingly sparing in information. It is evident, however, that while the Russian offensive in the western passes of the mountains is being pushed with strength and has proved partially successful it has been met by strong opposition in the eastern passes, with the result that the Russians have been compelled to fall back in Bukowina. They have repeatedly done this, only to give the Austrians battle when they debouched from the Russian end of the passes, and it is presumed that this is their intention now.

The operations are on such a large and complicated scale that it may be weeks before any definite decision is reached.

RAISED EMBARGO ON WOOL TO U.S.

**SAID THAT AUSTRALIAN GOV-
ERNMENT HAVE ALTERED
MEASURE.**

Washington, Feb. 9.—The State Department today received a delayed despatch from Ambassador Page in London containing notice of the reimposition by Australian authorities of the embargo on wool, but so far has not been advised of the more recent action against raising this embargo.

It is understood that the Australian authorities, while never entirely lifting the embargo, did consent to wool trials. After a month's working under separate license or permits in each case, the object being to make sure, by curbing the personal guarantee of the American importer that the wool should not be re-exported from the United States to Germany or Australia. After a month's working under this arrangement it was discovered that certain shipments of wool and woolen goods were being made from Boston for the Continent, under alleged suspicious circumstances, whereupon last Friday the Australians promptly prohibited further exports to the United States. Apparently, they have now satisfied themselves that their suspicions were groundless and decided to continue the exportations under the license system.

Safe Home Treatment for Objectionable Hairs

(Boudoir Secrets)
The electric needle is not required for the removal of hair or fuzz, for with the use of plain delatone the most stubborn growth can be quickly banished. A paste is made with water and a little of the powder, then spread over the hairy surface. In about 2 minutes it is rubbed off and the skin washed. This simple treatment not only removes the hair, but leaves the skin free from blemish. Be sure you get genuine delatone.

DANISH STEAMER HELD IN ERROR

**BRITISH MARINES, HOWEVER,
PERMITTED HER TO PRO-
CEED UNSEARCHED.**

New York, Feb. 9.—The Danish steamship *Hellig Olav* arriving here today from Copenhagen and Christiania reports that on the outward voyage from this port, which she left Dec. 3, the ship was boarded at Kirkwall by armed marines and detained for eight days pending investigation as to the character of her cargo. Captain L. Holst, master of the *Hellig Olav*, which is a Scandinavian-American line steamer, said that the reason of the detention was ultimately traced to a slip of the British censor handling cable despatches.

"It was first intended that the ship should take with her from New York 50 tons of copper consigned to an American firm in Copenhagen," the captain said. "The British authorities had been informed of the proposed shipment. Later it was decided not to take it and another cablegram was forwarded so stating. The first telegram was delivered but the second was not.

"I voluntarily went into Kirkwall and there two officers and eight armed men came aboard from a British cruiser. No explanation of why we were seized was given and after four days the ship was taken to Leith, two of the armed marines being constantly on guard before my cabin door.

"London representatives of the Scandinavian-American line and the Danish consul called on Sir Edward Grey, and asked an immediate investigation which disclosed the fact that the second cablegram, saying that the copper was not on board, had not been officially received. We were then released and allowed to proceed to our destination. During the time the ship was in charge of the British officers the cargo was not searched."

OFFICIAL

FRENCH STATEMENT.

Paris, Feb. 9.—10:40 p.m.—The following official communication was issued tonight:

"There is nothing of material importance to report.

"During the afternoon of Monday, Feb. 8, we blew up in front of Fay, southeast of Peronne, a mine gallery in which the enemy's soldiers were at work."

AUSTRIAN STATEMENT.

Vienna, via London, Feb. 9.—11:15 p. m.—The following official statement regarding the campaign was issued today:

"There has been no change in Poland and West Galicia, where artillery engagements have been in progress.

"The Austro-Hungarian allies yesterday, after a battle of several days, took a village north of Volovec, which the Russians had stubbornly defended. Numerous prisoners and much ammunition and war material were captured.

"On the other Carpathian fronts severe battles occurred. In the western section the Russian attacks were unsuccessful, and 340 prisoners and three machine guns fell into our hands.

"We continue to advance in Bukowina and have occupied Wama."

PERSONAL

The Misses Tache and Obalska, of Montreal, are in the city, visiting Mrs. Adelard Turgeon.

Mrs. Edmund Flynn has returned home after spending a few weeks in Montreal, the guest of Mrs. Dumond Lavolette.

Messrs. L. P. Turgeon, C. Eug. Dubord and C. Goulet, of this city, were at Montreal hotels during the past few days.

Mrs. F. W. Fisher and her daughters, who were in the city for a few days visiting Colonel Fisher, of the 23rd Battalion, have returned to Montreal.

Mr. Jos. Laurin, the Misses Eva and Juliette Laurin and Miss Eudora Kirouac leave today on a visit to New York, St. Louis, Mo., and New Orleans.

Hon. P. E. Leblanc, who is nominated to succeed the late Lieutenant-Governor, is due in the city this evening from Montreal, to attend the funeral of the late Sir Francois Langelier. He will be the guest of the Hon. Adelard Turgeon, Speaker of the Legislative Council.

QUEBEC CARTAGE CO. ELECT DIRECTORS

The Quebec Cartage and Transfer Company held its annual meeting yesterday. The reports presented showed the past year's business to have been satisfactory.

The election of the Board of Directors resulted as follows:
President—Hon. R. Turner.
Vice-President—Mr. C. J. Bailargeon.

Directors—Hon. A. Turgeon, Messrs. H. D. Barry, Jules Hone, J. T. Ross and Neville Belleau.
Mr. R. L. Jess is the Company's manager.

RUSSIA IS NOT

ANXIOUS FOR PEACE.

Washington, Feb. 9.—It having been persistently and repeatedly stated that there have been exchanges of representations between Russia and Austria-Hungary on the one hand and the American government on the other, looking to the possibility of peace negotiations, the Russian Ambassador, in the most emphatic and categorical manner, has issued a denial saying that no such inquiries or exchanges have ever been made from the Russian side, either tentatively or conditionally.

QUEBEC BOARD OF TRADE

ANNUAL MEETING HELD YESTERDAY

Address of The President--- Election of Officers for Ensuing Year---Resolutions Passed---New Members

JOSEPH PICARD, Esq. President of Board of Trade.

The annual general meeting of the Quebec Board of Trade was held at the Board rooms, St. Paul street, at 2.30 p.m. yesterday. There was a large attendance of members. The President, Mr. Joseph Picard, presided.

The following members were present: Messrs. J. T. Ross, G. E. Tanguay, Martin Maloney, Ign. Bilodeau, J. T. Delany, E. St. Pierre, W. J. Thompson, S. E. Morrisette, J. M. Tardivel, F. Gingras, P. Brunet, J. H. Fortier, P. W. Dugas, E. Z. Turgeon, J. G. H. Meunier, J. Pettigrew, L. J. A. Demers, J. Cloutier, C. W. Paradis, Ed. Turcotte, J. M. Ladue, A. J. Paillet, Ed. Tanguay, M. Joseph, W. J. Peters, J. J. Bayce, J. O. Chaffour, C. Smith, J. E. Pfeiffer, J. A. Lesage, W. H. Wiggs, G. A. Carrette, B. Whitehead, J. S. Thom, M. Monaghan, E. Picher, A. E. Doucet, C. Moreau, J. Allyn, Ed. Coulombe, W. Ismay, and Ant. Fiset, J. A. Scott, H. E. Lavigneur and G. J. E. Cote.

Before proceeding to business, the president presented to Mr. Fortier, representing the P. T. Legare Co., Limited, with the gold medal won by the company at the last Provincial Exhibition held in this city, for the best display of agricultural machinery, etc.

Mr. Fortier acknowledged the presentation in appropriate terms.

The reading of the minutes were dispensed with.

The annual report was adopted without being read, as members had been supplied with copies of it.

President's Address.

The President, Mr. Joseph Picard, delivered the following address on the work of the Board during the past year:

Gentlemen,—You have before you in the printed report, which we publish annually in pamphlet form, the details of the transactions of the Quebec Board of Trade for the year ended 31st December, 1914. You will see from this that many important questions have engaged the attention of your Board during the past year, and I earnestly request that the members will take the trouble to read the correspondence which is published in our report having reference to the most important questions which have come before us.

Transcontinental Freight Terminals.

As you were told by my predecessor in office, the most important of all these questions has been that of the freight terminals of the Transcontinental Railway, which, if properly carried out on the scale originally contemplated, should make Quebec one of the greatest shipping ports in America and a new distributing point for the import and export of trade of Canada's vast northwestern country.

This railway is now completed from Montreal to Quebec and from Quebec to Prince Rupert, a total distance of 1500 miles. The distance from Quebec to Prince Rupert will be no greater than that from Quebec to Vancouver by the Canadian Pacific. But from Prince Rupert to Japan the distance is nearly 500 miles shorter than from Vancouver to Japan, and 1,000 miles or more shorter than from San Francisco to Japan.

Consider for a moment the enormous advantage that this shortening in distance and in time will offer to the trade of Britain and Canada with the Orient.

This railway has been a very costly one. It is no exaggeration to say that it is one of the best constructed railways in America. Its level grades of four-tenths of one per cent, according to Major Leonard, the late chairman of the Transcontinental Railway, permit of hauling 1780 tons on a freight train, as compared with 240 tons on existing railways. And this, combined with a saving in distance of 214 miles between Quebec and Winnipeg, should make it possible to profitably carry a wheat for export to Quebec, at a saving of from three to six cents per bushel, as compared with the rates from Winnipeg to Montreal by rail and lakes. Could any situation be more promising for the future of a great seaport, and is it to be wondered at that your Board, in conjunction with the Boards of Trade of Halifax and St. John, have not ceased to urge upon the Government the necessity of equipping our ports with ample docks and elevators, so as to enable Canadian ports to handle all the business of the Northwest? We have represented to the Government that a mistake has been made in building elevators at the head of the great lakes to store 58 million bushels of grain, whilst the capacity of the elevators at our seaports is only 12 millions. The result has been that, during the season of navigation, the elevators at Montreal have frequently become congested, so that nearly half

of our wheat—42,000,000 bushels of it, last year—has gone to Buffalo and New York. This is now being remedied, so far as the winter traffic is concerned, by the building of new steamship docks at Halifax to accommodate thirty steamers, at an expense of \$12,000,000, and similar facilities are being built at St. John at about the same expense. But, so far, I am sorry to say, no docks and elevators are being built for the Transcontinental Railway at Quebec, and the new berths at the Louise Dock will only accommodate three or four vessels, and that dock, as well as the new elevator, cannot be reached by the Transcontinental except over the tracks of a rival road. The Government has purchased all the great bay between Dia-

J. G. SCOTT, ESQ. Vice-President Board of Trade.

mond Harbor and Sillery for railway purposes, and we have asked that docks and elevators should be built there for the Transcontinental on the same scale as at Halifax and St. John, and, as in those ports, at the public expense, as it would not be fair to charge the cost to our Harbor Commission and thus put a tax upon our shipping which would not be levied at other seaports. The agreement between the Government and the Grand Trunk authorities provided for an expenditure of about four millions upon docks, piers and filling in, between the Champlain market and Sillery. In addition to which, the city gave to the Transcontinental Railway at a nominal figure, the Champlain market property, worth at least a million dollars, on the express condition that a large station, freight sheds and other terminals should be created thereon to cost "at least two millions of dollars." The Government escapes this expenditure by the change of plans under which the Canadian Pacific Railway is to build a Union Station at the Palais. And under this new arrangement the city gives the Government 133,000 feet of ground, at Victoria Park, which is worth from \$400,000 to \$500,000, and exemption from taxes and water rates for the workshops. These four items, substantiated by written contracts, total up the substantial sum of \$7,400,000, towards the expenditure for terminal works, to which we should be entitled, because the subsequent agreements between the Government and the city do not in any way waive these rights. I mention these facts to show that Quebec has done its share, and that we are not unreasonable in asking the Government to equip the eastern terminus of this railway with ocean freight terminals at least as considerable as those which they are building for the same purpose at Halifax or St. John, and it is only right that what properly belongs to the railway should be expended on these works by the railway, before any part of this expenditure becomes a charge against our shipping. The commencement of these works has been frequently promised us by those in authority, but so far without result. This is much to be regretted, because without these ocean freight terminals for its summer traffic, the Transcontinental will be of little use to Quebec, and will surely prove a disappointment to the farmers of the Northwest and to the people of Canada who have made such vast pecuniary sacrifices in building this costly railway, with the view of reducing the cost of transporting the grain of the interior to the seaboard. Of what possible use can it be to spend twenty millions or more upon docks and terminals at Halifax and St. John, to handle the traffic of this railway during five months in the year, if practically no provision is made for handling it at Quebec during the other seven months? I dwell at some length upon this question because the Council are of opinion that this is the most important question in the history

of this city, far exceeding in importance any of the great public works which are now being carried on here. We commend this question to the earnest attention of the new Council.

The Louise Docks.

These works have been pushed on by the Harbor Commission, under Sir William Price, with the greatest possible energy and at large expense. A modern steel and concrete elevator has been built, with a capacity of one million bushels, and capable of further extension, and new berths are nearly completed to accommodate three or possibly four of the largest ocean steamers. These facilities should serve to meet the immediate wants of the Canadian Northern, whose transcontinental railway from Quebec to Vancouver will be completed during the present year, and also the increased business which we hope the Canadian Pacific will bring to Quebec. The Harbor Commissioners have also built new railway freight sheds at Quebec, and an extensive system of car ferry tracks, by means of which all goods to and from the railways on the south shore of the St. Lawrence are now handled in carloads, instead of being ferried across in broken lots, as in former years. These excellent improvements are a source of great satisfaction and economy to our merchants.

The New Graving Dock.

The new graving dock at Lévis, which the Quebec Board of Trade have been demanding for years, has at last been commenced, and is being pushed on with the greatest energy by the contractors, Messrs. M. P. and J. T. Davis. This dock will be the largest in the world, 1150 feet in length, and capable of docking the largest steamer afloat. It will remove the danger which now menaces more than twenty of the largest steamers using the St. Lawrence, of having no dock large enough for them to go into in case of accident, and this alone should suffice to reduce considerably the rates of marine insurance which are now the incubus of all Canadian ports. In this connection shippers should not forget that Quebec already enjoys a discount of ten per cent. on marine insurance rates, as compared with Montreal.

We have drawn the attention of the Government to the fact that in order to have the necessary staff of shipwrights and riveters at this dock, it will be necessary to find these men reasonably constant employment, and that it would therefore be wise to establish a shipbuilding plant or navy yard alongside of this dock.

Iron Ship-Building.

During the last five years, Messrs. G. T. Davie & Sons, of Lévis, have made a very creditable beginning in the construction of steel steamers and ferry boats at their shipyard, which is situated between the old and the new graving docks at Lévis, at a point where a vessel can be launched or docked in any month of the year. The vessels built in this yard have been of excellent workmanship, experts having declared the work to be equal to anything done on the Clyde. With some encouragement in the building of vessels for the Government, a tonnage bonus, or the establishment of a navy-yard at this point, we might look for a revival of the shipbuilding industry, which was once so prosperous in Quebec.

The New North Channel.

The dredging of the new north channel, from the east end of the Island of Orleans in the direction of Baie St. Paul, is being carried on by the Government. This channel will be 35 feet in depth at low water, or five feet deeper than the channel now used on the south side, and it will make the approach from the sea to Quebec so safe that it will greatly reduce the distance of pilotage, and should have a marked effect in reducing the cost of marine insurance. We have urged that the Government should hasten the termination of this work as much as possible.

The Quebec Bridge.

The rebuilding of the gigantic bridge across the St. Lawrence, opposite the mouth of the Chaudiere Curve, near Quebec, is progressing well. The piers have all been rebuilt in their new positions by the contractors, Messrs. M. P. and J. T. Davis, and are of massive masonry, being built of the celebrated Riviere a Pierre granite. The steel superstructure is now being placed in position, and is of a much heavier class than that of the former bridge. The central cantilever span will be 1800 feet in length, as compared with 1710 feet, which is the span of the cantilever bridge over the Firth of Forth near Edinburgh, up to now the longest span in existence. The Quebec bridge will, therefore, be one of the engineering wonders of the world. Its usefulness to the city of

Quebec will be hard to overestimate. It will bring five railways from the south shore into the city, and will give four railways on the north side access to the south. Unless we are mistaken, it should prove as beneficial to Quebec as the Victoria and Lachine bridges have been to Montreal, whose prosperity they have done so much to build up. We do not as yet know if it is the intention to bring the trains of the south shore roads into the Union Station at the Palais, to the small station at the Champlain market. If to the former, it would seem essential to have a shorter route than that via Cap Rouge and the St. Charles valley, by which the distance from the north end of the bridge to the Union Station will be 11 1/4 miles, whereas it is only 6 1/2 miles from the same point to the Champlain Station. The proposed tunnel from Wolfe's Cove to the St. Malo workshops would get over this difficulty, and would make the distance about the same. Our Council have urged upon the Government that this tunnel should be no longer delayed, as it would provide work for the unemployed, who need it very badly this winter, and the material to be excavated is needed for the Transcontinental docks and yard filling in Sillery Bay.

St. Malo Workshops and Union Station.

Thanks to the energetic efforts of the Hon. L. P. Pelletier and His Worship Mayor Drouin, the workshops of the Transcontinental Railway at St. Malo are now being vigorously pushed on by the contractor, Mr. Jos. Gosselin, and should be ready for use during the present year, giving employment to many hundreds of men. When the change of site for these workshops, from Cap Rouge to St. Malo, was decided upon, the people of Quebec were promised that the works would be the same as those originally proposed. But it now appears that the car-building shops, the most important of these works, and the most necessary for the operation of the railway, have not been built. We have drawn the attention of the Government to this, and hope that the omission will be rectified. The Union Station at the Palais, provided for in the contract between the city of Quebec, the Transcontinental Railway and the Canadian Pacific Railway, dated 22nd December, 1913, has not yet been commenced; but right of way for a double track through the city has been secured and two very commodious freight sheds have been erected, which will make it possible to demolish the old freight shed and the old station, and proceed with the work on the Union Station. To make both workshops, and Union Station complete, it will be necessary to make the tunnel between St. Malo and Wolfe's Cove, as the use of the line between the Cap Rouge bridge and St. Malo, recently acquired from the Canadian Northern, will involve a detour lengthening the distance into the city by 3 1/2 miles.

St. Charles River Improvements.

The improvements at the mouth of the River St. Charles are being well pushed on by the contractors, Messrs. Quinlan & Robertson. These improvements consist of a dam at the Canadian Northern Railway bridge, together with two locks to give access to the river. This dam will keep the water of the river at a uniform level and will enable colliers, river steamers and other craft, drawing not over 18 feet, to go into the heart of the manufacturing district of the city, thus giving an inner basin and wharves for smaller craft, similar to that of the Lachine canal, at Montreal.

Railway Car and Train Service.

The ferry service inaugurated by the Quebec and Lévis Ferry Co., for the purpose of transporting cars across the Quebec bridge, has worked so satisfactorily that the company has added another steamer to the service, and cars are now crossed, summer and winter, without any interruption whatever, and this traffic has been successfully carried on in winter in spite of the additional obstacles created by floating ice detached by the senseless work of the Government ice-breakers above Cap Rouge, against which your Board has constantly protested. To give an idea of the magnitude of the interchange of traffic between the railways on both sides of the river, even at the present time, I may say that the number of cars crossed by these steamers during last year was in excess of the large number of cars crossed in the previous year. In addition to this, the Transcontinental authorities have had built in England a large and very powerful train ferry steamer for the purpose of handling the winter traffic of that railway destined for Halifax and St. John. This steamer is now here ready for work.

St. Maurice Storage Dam.

The Provincial Government is about to give contracts for a storage dam on the upper St. Maurice, about 300 miles west of Quebec, at an estimated cost of \$1,500,000, which promises to be of very great importance for our section of the Province. Its object is to regulate the water supply of that river in the interest of the industries worked by its water powers, and also to facilitate the driving of logs on the river. In doing this it will at the same time create an additional water-power of 500,000 horse-power, equal in motive force to all the water-powers on the lower part of the river, which have created the vast system of industries of the St. Maurice valley.

WHO KEEPS YOUR MOTOR-CAR IN GOOD RUNNING ORDER?

A MOTOR-CAR is a machine. All machinery needs attention from time to time. Lacking it, trouble and dissatisfaction are certain.

Who takes care of your car?

Are you forced to do it yourself, or do you run around to any garage and mechanic you happen to be near?

Would you like to know the reason Hudson cars are becoming so numerous on our streets?

Would you like to know why Hudson owners are always so perfectly sure they have the "greatest car on earth?"

Would you like to have a car that would give you the satisfaction your neighbor gets from his Hudson?

Then come and investigate our Perpetual Service System that goes with every Hudson car.

It will give you an entirely new idea of motor-car satisfaction.

It will explain to you just why Hudsons are so tremendously popular.

SIR WILFRID LAURIER CANNOT RESPECT TRUCE

LEADER OF OPPOSITION MAKES UNPROVOKED ATTACK ON MR. SEVIGNY—QUESTION DAY IN FEDERAL HOUSE.

(Special to The Chronicle.) Ottawa, Feb. 9.—It took the House less than an hour this afternoon to clean up the order paper and to wind up all business.

The only jarring note was over the appointment of Mr. Albert Sevigny, member for Dorchester, as Deputy Speaker.

A retort, courteous but pointed, was forthcoming from Sir Robert Borden. He remarked that Mr. Sevigny had at least made as much progress in the direction of securing the repeal of the naval act as Sir Wilfrid had accomplished in his efforts to destroy protection after 1896.

Capital Punishment. Mr. Robert Bickerdike introduced his bill for the abolition of capital punishment. He described hanging as a murder and a moral crime against civilization.

Amending Railway Act. J. E. Armstrong, of East Lambton, introduced a bill to amend the Railway Act. Its chief object is to compel steamship companies to file their tariffs with the Railway Board.

The War Vote. Sir Robert Borden gave notice that tomorrow consideration will be given to the resolution providing for a war vote of \$100,000,000.

Replying to a question by Mr. Michaud, the Prime Minister stated that the Department of Justice is taking the necessary steps to secure the extradition of Werner Van Horn, the German who destroyed the C. P. R. railway bridge at Vaseboro, Me.

Sir Wilfrid Laurier inquired when the Government would lay before Parliament a statement as to the expenditure of the money voted for war purposes at the August session.

The Premier answered that the statement was all ready to be brought down yesterday, but it had been decided to excise certain confidential information contained in it.

Hon. Frank Cochrane informed Mr. J. H. Sinclair, that the total expenditure in connection with the N. T. R. investigating commission was \$65,668. Of this amount, \$25,870 was paid to Mr. F. P. Gutelius for his services and \$1,595 for travel and outlay.

Mr. Gutelius was employed thirty-eight days on the work of the commission. He was not paid for that period by the I. C. R., but between May 1st, 1913, and December 31, 1914, he has received \$33,303 as general manager of the I. C. R.

Niobe and Rainbow. Mr. Sinclair also inquired in regard to the decision reported in the last report of the naval service department to retire the Niobe and Rainbow from full commission and man them with nucleus crews.

NOT MUCH BUSINESS LEFT FOR ASSEMBLY

QUEBEC BILL IS PASSED—MAISONNEUVE BILL WITHDRAWN—LEGISLATIVE COUNCIL.

The general feeling about the Legislature is that when the both Houses resume business next Monday after the adjournment for the funeral of Sir Francois Langelier it will not require much time to put through the legislation which remains.

The Private Bills Committee of the Legislative Assembly yesterday morning passed the Montreal Bill, and yesterday afternoon the Quebec Bill was passed by the same body while the Maisonneuve Bill was withdrawn last night.

Ordinarily the the Montreal Bill is the biggest private measure of the session, and the Quebec Bill this year was more contentious than ever.

There are still a few Government measures which may occasion some discussion, but the impression seems to be that about two weeks will suffice to complete the work of legislation.

Legislative Council.

In the Legislative Council last night after a brief routine sitting Hon. Mr. Peroteau, Leader of the Council, seconded by Hon. Thos. Chapias, moved the adjournment of the House out of respect to the memory of the late Sir Francois Langelier.

Twenty-six private bills were read a first and a second time and the Taschereau Bill abolishing toll gates on the Lachine Road was read a first time.

to the decision reported in the last report of the naval service department to retire the Niobe and Rainbow from full commission and man them with nucleus crews.

Hon. J. D. Hazen replied that no formal action or decision of this sort was taken and no Order-in-Council in reference thereto was passed, but owing to the gradually decreasing number of men on these vessels it was found necessary to take the ships out of full commission and place them on a nucleus basis.

Lobster Fisheries. Mr. Hazen also told Mr. Sinclair that it had been decided to refuse the request of the lobster packers of the Maritime Provinces for a close season in the lobster fisheries during 1915. Mr. Hazen said, that this decision had been reached because it would be necessary to have a practically unanimous request from both fishermen and packers before a close season could be declared.

BRITISH CRUISERS

IN CUBAN WATERS Havana, Feb. 9.—A full-rigged cruiser, apparently the Conde, arrived off the Port of Havana today. There she joined the British cruiser Bristol which for some weeks has been alternating with the British cruiser Berwick in watching the port and cruising outside Cuban territorial waters.

BIG DEMAND FOR HISTORY OF WAR

NUMBER OF LONDON TIMES' BOOKS STILL ON SALE AT THIS OFFICE.

The initiative of The Chronicle in making arrangements to give its readers the opportunity of purchasing the London Times' History of the War has been much appreciated as is evident by the sale of the book which is likely to be recognized in future as the most authoritative and standard summary of the events which are engrossing public interest at the present day.

The first lot of books secured by the Chronicle was sold out quickly and it was soon found necessary to order a second instalment. Of those a fairly considerable quantity is still on hand and may be procured at this office.

We have received several letters of a most complimentary nature regarding this history from some of our most prominent citizens, all of which express warmest praise of the articles and illustrations.

Of these letters we take pleasure in reproducing those of Colonel Turnbull and Lt.-Colonel E. F. Wurtele.

9th February, 1915. 14 St. Denis Av. Cape-Quebec.

Dear Sir.—I have much pleasure in replying to your note and to say that I have partly read and looked over the "London Times History of the War" with great interest and profit, for not since the special correspondent of the Times, Russell, published his private diary of the Crimean War, have we had so complete and engrossing an account of any war both on land and sea, accompanied as it is with illustrations and maps, it forms an educator for the public of modern methods as compared with the past.

The cost of this volume is insignificant, and the purchaser is also entitled to receive a very handsome map of Europe in full colors for the nominal price of twelve cents in stamps, so that no one should be without it to enable him to follow the daily course of events in the daily newspapers.

Yours truly, J. F. TURNBULL, Colonel. Lt.-Col. Wurtele says:—

9th February, 1915.

Dear Sir.—In reply to your favour of the 8th inst., respecting "The Times History of the War" I would state that I have not as yet had an opportunity to fully look into this work, but from a general look through the first issue, I believe it will be found not only to be most interesting, but an authentic record, well illustrated and an addition to the library of all persons interested in the present European War.

Yours very truly, ERNEST F. WURTELE.

Lieut.-Col. Erskine G. Scott, head of the hardware firm of H. S. Scott & Co., expired at his home, Grande Allee, yesterday, after a short illness.

The late Mr. Scott was born in 1841, and throughout his lifetime took an active interest in military matters until recent years. He joined the 8th Royal Rifles on its formation in 1862 as a private and worked his way up in the ranks until he subsequently attained command of the regiment. He was with the regiment in the Fenian raid campaigns of 1866 and 1870. Deceased was a member of the Quebec Board of Trade and a director of the Quebec-Boys' High School. Deceased is survived by three sons and two daughters, his wife having predeceased him about a year ago. The sons are Messrs. Arthur D. Herbert E. and Harry Scott, and the daughters Miss Scott and Mrs. A. E. Swift, who will have the sympathy of many in their bereavement.

The Hague, via London, Feb. 9.—11.02 p.m.—A cotton exchange is being organized at Rotterdam under the auspices of the large transportation companies, banks and dealers. It is declared that the movement of cotton is easier from America to Rotterdam than from Bremen.

STADACONA CHAPTER ELECTS OFFICERS

INTERESTING REPORTS PRESENTED AT ANNUAL MEETING YESTERDAY.

The annual meeting of the Stadacona Chapter, Daughters of the Empire was held in Morrin College yesterday afternoon and the following officers were elected.

Hon. Regent.—Mrs. R. R. Dohell. Hon. Vice-Regent.—Lady Gouin. Regent.—Mrs. J. C. McLimont. Vice-Regent.—Mrs. M. Joseph. Vice-Regent.—Mrs. George Tessier. Secretary.—Mrs. A. de L. Panet. Treasurer.—Mrs. R. E. W. Turner. Standard Bearer.—Mrs. Arthur Price.

Executive Committee.—Lady Price, Mrs. B. A. Scott, Mrs. E. L. Sewell, Mrs. G. B. L. Young, Miss Carter, Mrs. Huestis, Mrs. Joly de Lotbiniere, Mrs. E. G. Meredith, Mrs. Evans.

Prior to the election of officers the Secretary and Treasurer read their respective reports. The Treasurer mentioned in her statement that the Chapter had received during the year, \$7,908.77 and that there was still a balance on hand of \$677.77. Mrs. McLimont then gave a most interesting address relative to the work of the Daughters of the Empire. In part Mrs. McLimont said: "It is needless for me to go over the detail of what our Chapter has accomplished since that momentous week in August, the Secretary's report has dealt with everything, I think. There are, however, some explanations I should like to make. On and after "Flag Day" we collected a good deal more than the \$5,000 we sent to Toronto for the "Hospital Ship". The reason we did not send the total amount collected was that the sum required by the National Chapter \$200,000 was subscribed very quickly and over subscribed and the list in consequence was advertised as being closed.

The address of the Regent went on and gave in detail the donation received among them, Mrs. F. Ross, of \$1,000.

These donations helped the chapter greatly in their work. The \$250 sent to the Duchess of Connaught for the sailors, the \$100 given to the Red Cross and the \$100 paid over to the Baden Powell Chapter, etc., were drawn from this source.

Secretary's Report.

Annual Report of the Stadacona Chapter D. O. E. for 1914-1915.

I have much pleasure in presenting the annual report of the Stadacona Chapter, D. O. E. for 1914-1915. This has been a most successful year and the chapter which now consists of 111 members, (61 having joined during the past year) has reason to be proud of the excellent work done by each and every member.

To fill a long felt want a drinking fountain placed in the new Battlefields Park was presented to the City on Empire Day. In August when war was declared the Chapter immediately organized a Flag Day and in one day \$5,000 was collected this money went towards buying motor ambulances for the wounded. When the first Contingent was formed a silk handkerchief and a housewife were presented to every soldier going to the front from Quebec. The next work taken up was looking after the families of the soldiers doing duty at home and abroad, there was great need of help at his time and \$500 was spent in this work \$250 of which was given by the Patriotic Fund in Oct. A pound Day was held for the Belgians and as a result \$3,000 worth of foodstuffs and cereals and \$200 in money were sent over to Belgium. At Xmas 350 pairs of socks filled with tobacco, sweets etc. were sent to Salisbury Plain for the Quebec soldiers and 60 more pairs to Bermuda and 7 pairs to Halifax. At this time about 90 wooden caps were supplied to the men doing guard duty around the city. Shortly before Xmas an exhibition of home made toys was held and was very successful a number of money prizes were given, the first being presented by his H. R. H. the Duke of Connaught who is especially interested in this work. \$250 was sent to H. R. H. the Duchess of Connaught to buy oil-skins and rubber boots for the navy. \$100 was also given to the Baden Powell Chapter to buy materials for a sewing class they had formed to work for poor Belgian babies. Several families of English reservists were given money to help them return to their homes in England. On New Year's Eve a concert was given to the men of the 23rd Battalion who are in Quebec on their way to the front. 250 body belts were sent to England for our soldiers and 150 pairs of socks were given to the men around Quebec. \$100 is to be sent to England to Mrs. H. Burstall to buy anything she thought might add to the comfort of the men in the trenches.

Referee, David Allan; Judges, W. S. Parke, W. L. Ferguson, Lt. Reid and Q. M. S. Evans.

The proceeds from the very successful Tournament will go in aid of the Military Department of the Y. M. C. A.

Among the large attendance was Col. Fisher and other officers of the 23rd Battalion. The commander of the Battalion is to donate prizes to the winners shortly.

The 23rd Battalion members, 115 in all, were escorted to the Y. M. C. A. and back to their quarters by their bugle band.

A special fund was set aside for tubercular work and out of this several families were helped at Xmas and two cases were given one \$75 and the other \$60, to pay for treatment at a Sanatorium. Apart from this organized work a great many friends and relatives at the front, many others have worked for the Red Cross, and one may safely say that they have fully done their share in helping the Empire in the great struggle we are going through. The thanks of the Chapter are due to many kind friends for donations of money and work, to the Morrin College for allowing their rooms to be used for the meetings, and to the Press for many favors in advertising the various events and special thanks to our Regent Mrs. McLimont who has placed her house at the disposal of the committee for the packing of the numerous cases and parcels mentioned above.

MONICA PANET, Secretary.

23RD BATTALION ARE ATHLETES

CARRY OFF HONORS IN FINE MILITARY SPORTS AT Y. M. C. A.

There is little doubt that the men of the 23rd Battalion will prove valuable assets to the British army in France when they are sent over to fight with the allies, for last night a number of them showed their mettle in the Military Tournament at the Y. M. C. A. by carrying off premier honors in all the events excepting one.

Members of the 8th R. R. opposed the 23rd Battalion men in the gymnasium sports and they succeeded in securing the verdict only in the game of dodge-ball.

The dumb bell exercise and march by the machine gun squad and signallers of the 23rd Battalion which was the opening exhibition of the evening, was very cleverly executed and brought applause from the very large attendance.

Dodge-ball game 8th R. R. vs. B. Company of the 23rd Battalion was won by the 8th R. R. Time 13 minutes, B. Coy. time 4:45.

Pte. Wigman and Pte. Anderson gave a splendid boxing exhibition of three two-minute rounds. Naturally no decision was given but some of the spectators were inclined to declare that Pte. Anderson had a shade on his rival.

Among the most keenly contested events was the medicine ball relay race. Each team won one and final and deciding issue went to the team of the 23rd.

In the Bayonet Fight Sgt. Harding by a one point lead out of a total of seven was awarded the decision over Sgt. Fletcher.

Tug-of-war. This event was carried off by the team of the 23rd Battalion who defeated the 8th. R. K. men two straight pulls.

The most interesting tournament was brought to a close with a basket ball match which equalled a ripping N. H. A. fixture as far as excitement was concerned. After five minutes overtime Col. Fisher's boys came through with the big end of a 6 to 5 score over the 8th. R. R. five. The half time score was 4 all.

Following were the officials for the evening's sports.

Referee, David Allan; Judges, W. S. Parke, W. L. Ferguson, Lt. Reid and Q. M. S. Evans.

GERMANY SCARED ABOUT SUBMARINE BLOCKADE

VON JAGOW IS THE LATEST TO EXPLAIN THAT SHE DIDN'T MEAN WHAT SHE THOUGHT SHE MEANT.

Berlin, via The Hague to London, Feb. 9.—Gottlieb Von Jagow, the German Foreign Secretary, who is paying a short visit to Berlin during the absence of Emperor William on the eastern front, today received the correspondent of The Associated Press and explained to him the nature of the recently announced German naval measures to be taken against hostile commercial shipping, over which, he said, there seemed to be some misapprehension abroad owing to the delay in the transmission of the memorandum accompanying the proclamation. The phrase "submarine blockade," as used in the press discussion of the proclamation abroad, the Foreign Secretary said, perhaps also was responsible for this misapprehension.

"The announcement of Feb. 4 of Admiral Von Pohl, Chief of the Admiralty staff, was not a declaration of a blockade," said Herr Von Jagow, confirming an earlier statement by the Admiralty to The Associated Press. "All questions as to its validity precluded on this theory therefore are excluded. The Admiralty proclamation by a designation of waters around Great Britain and Ireland as a war area announces Germany's intention to conduct war operations in this region, and particularly to destroy commercial ships of the enemy."

"England months ago declared in similar fashion the whole of the North Sea a war area. German warships heretofore have destroyed merchant ships belonging to the enemy only when there was every certainty that their passengers and crew could get away safely. But in future this forbearance must be subordinated to military considerations, now that England, by measures inadmissible under international law, has paralyzed neutral commerce with Germany in an attempt to force upon the German civilian population death by starvation."

"Anyhow," continued Herr Von Jagow, "hostile merchantmen have no claim to consideration if, as in part already has been the case, they are armed or offer resistance to the German naval forces. Since the British Admiralty on Jan. 31 instructed British merchantmen to use neutral flags, neutral ships, even without taking into consideration the unavoidable accidents of war, run the risk of being mistaken for hostile merchant ships and of falling victims to attacks intended for these ships."

"It was to this danger that the announcement particularly called attention. "The German naval forces have, of course, received orders to use no violence against neutral ships, so far as these are recognizable as such, but this confidential instruction by the British Admiralty as to the use of neutral flags makes such identification a matter of extreme difficulty. "Neutral ships can, therefore, only be urgently warned again, as in the earlier announcements, to avoid the indicated war zone until further notice."

No protests, according to Herr Von Jagow, have been received from neutral states concerning the Admiralty measure, although several of them, he said, had applied for information as to its scope.

BILL TO REORGANIZE B. & M. R. R. TABLED

Montpelier, Vt., Feb. 9.—A bill providing for the reorganization of the Boston and Maine Railroad by the amalgamation of the parent company and the subsidiary lines operating in the state was laid on the table by the Senate today pending an investigation of the possibility that a transportation monopoly might be created by its passage.

NEWFOUNDLAND AND U.S. DISCUSS FISH

CONSULTATION BETWEEN ISLAND'S PREMIER AND WASHINGTON.

Washington, Feb. 9.—American claims which are to form the subject of consultation between Sir Edward Morris, the New Foundland Premier, and officials of the Washington government, generally relate to the alleged illegal arrest by the New Foundland authorities of American fishing smacks charged with infringement of the island laws touching the taking of bait within restricted areas and the employment of islanders in the fisheries.

The Canadian claims are believed to be based upon denial of the right of free entry of Canadian fish into American ports and other questions connected therewith.

It is understood also that the Premier will endeavor to effect some arrangement for the admission into the United States of canned and preserved fish, which would result in a great enlargement of the existing New Foundland canning trade.

WHAT DYSPEPTICS SHOULD EAT

A Physician's Advice

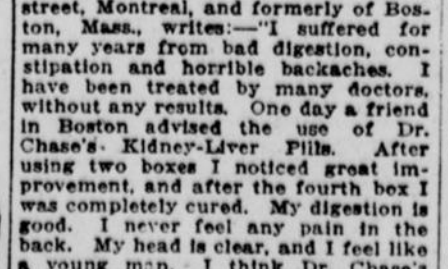

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore, stomach sufferers should whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is, doubtless, the best food corrective, and antacid known; it has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisurated magnesia from your druggist, eat what you want at your next meal, take some of the bisurated magnesia as directed above, and see if I'm not right."

Constipation, Indigestion and Horrible Backaches

Searched for a Cure for Years—Advised to Try Dr. Chase's Kidney-Liver Pills and Was Cured.

Where there is poison there is pain. This is a provision of Nature to warn you against conditions that are likely to prove serious. Constipation of the bowels is undoubtedly the greatest source of disease and suffering. By using one of Dr. Chase's Kidney-Liver Pills at bed-time as often as is necessary to keep the bowels regular you can cure constipation and the consequent indigestion, and remove the cause of backache, rheumatism and other painful diseases. "Daily movement of the bowels" is the greatest law of health. Dr. Chase's

Kidney-Liver Pills will help you to form this habit, add to your years, and bring comfort in old age. Professor A. T. Smith, 1 Mt. Charles street, Montreal, and formerly of Boston, Mass., writes—"I suffered for many years from bad digestion, constipation and horrible backaches. I have been treated by many doctors, without any results. One day a friend in Boston advised the use of Dr. Chase's Kidney-Liver Pills. After using two boxes I noticed great improvement, and after the fourth box I was completely cured. My digestion is good. I never feel any pain in the back. My head is clear, and I feel like a young man. I think Dr. Chase's Kidney-Liver Pills are one of the best medicines on earth." Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers or Edmanson, Bates & Co., Limited, Toronto.

QUEBEC, FEBRUARY 10, 1915.

FRENCH-CANADIAN LOYALTY.

Montreal papers give extended accounts of the election proceedings in the constituency of Jacques Cartier, Quebec, where a supporter of the Borden administration was the other day returned by acclamation to the House of Commons, in succession to the late Honorable F. D. Monk.

Ms. J. A. Descarries, K.C., the Conservative member-elect, was greeted with ringing applause from a large concourse of electors who had assembled to witness the proceedings. Mr. Descarries declared that there is only one course of action open to the people of Canada in the present crisis, and that is to render all possible aid to Great Britain in her splendid fight for liberty and against barbarism and oppression.

Eloquent addresses were also delivered by the Honorable C. J. Doherty, Minister of Justice, and the Honorable Thomas Chase Casgrain, Postmaster General, both of whom complimented the electors of Jacques Cartier on their choice of a member, and proclaimed their unswerving loyalty and devotion to the mother country in the present war.

GERMANY DOOMED.

If the present war has been remarkable for any one feature aside from the recurring victories of the Allies, that feature has been supplied by the many failures of Germany. From the time diplomatic relations with other European powers were broken off up to the present her plans have miscarried. Faced by foes on all sides, the position in which she found herself when the war opened, it was the obvious policy to inflict a decisive defeat on one before turning to the other.

By the failure of her first stroke Germany was robbed of much of her force. Compelled to divide her forces to meet first one foe and then another, the German Empire has fought a losing battle, and there is not the slightest doubt as to the nature of its ending. While her armies were sorely beset by Britain, France and Russia, the activity of the greatest navy in the world effectually isolated her and prevented the importation of many articles of which she stood in dire necessity.

And the coming year offers no prospect of relief. The German harvest fields cannot be tilled while the men who ordinarily cultivated them are at the front. With untilled fields there must come a crop shortage. Especially is this the case in the great eastern provinces of the German Empire, the lands, which for grain, bear the same relation to the German people that the western wheat fields do to Can-

ada. Farmers in Posen, East and West Prussia and Silesia will hardly pursue their accustomed industry while Russian armies stand all about ready for invasion.

The industrial centres of Germany are commencing to feel a food shortage and the agricultural districts can afford no relief. When facts such as these are considered there can be no doubt of the eventual result of this war. Germany failed in her original war plan. She failed in her revised plans and she seems destined to fail throughout. Never since the outbreak of war has there been doubt of the ability of the Allies to win their way to victory, but today the indications are that the end of the mighty struggle is much nearer than the ferocity of the fighting would indicate.

WAYS AND MEANS.

Our import trade assumed a rather notable upward movement in January, which is reflected in the customs receipts for the first month of the present year, says the Sydney Post. The revenue for December 1914 was \$4,065,165 and for January 1915, \$5,029,208, as compared with \$7,065,165 for January 1914.

This is part of the toll which the Dominion of Canada is called upon to contribute to the great European war. What makes the financial situation difficult to cope with is the fact that the very causes which have sent down our revenues have swollen our national expenditures. It is therefore certain that the budget this winter will record a deficit of expenditures over consolidated revenue, amounting to a considerable figure.

Coffee, sugar, tobacco and spirits came in for special customs and excise taxation in the August session of parliament. Those claiming to have expert knowledge of such matters declare that nothing further in the way of revenue can be expected from the imposition of heavier taxes on tobacco and spirits. Such for instance is the opinion of the Journal of Commerce, which is edited by the Hon. W. S. Fielding, who was Minister of Finance in the Laurier Cabinet.

Since the emergent re-arrangement of tariff schedules relating to tobacco and liquors last August, there has been a falling off in the revenue derived from these sources. Whether this diminution merely reflects the restriction of business consequent on the war, or denotes a reaction against the heavier taxation imposed, it is of course practically impossible to determine. There seems little doubt, however, that the country is now deriving pretty nearly—if not quite all—the revenue that can be obtained from this source.

OBITUARY.

In the death of Erskine Guthrie Scott, which took place yesterday, Quebec loses a representative of another of its oldest families and the leading member of the well known mercantile firm of H. S. Scott & Co., which has been in business in this city for three quarters of a century. In addition to being a very successful business man, Mr. Scott was an enthusiastic volunteer, having joined the 8th Royal Rifles upon its formation in 1862, shortly after the Trent affair. He served with his regiment during the Fenian invasions of 1866 and 1870, and for many years afterwards, only retiring after several

years' service as its commanding officer, with the rank of Lieut.-Colonel. He was an excellent rifle shot, taking part in all the rifle matches between his corps and the different regiments of the Imperial army which were in garrison in Quebec for forty years ago, and in this connection was the hero of a very humorous controversy which took place with General Luard, at Ottawa, when that officer was in command of the Canadian militia. Mr. Scott was a director of the Quebec High School, where he was educated, a member of the Quebec Board of Trade, and a life long member of the Anglican Cathedral.

His removal from their midst will be deeply regretted by a very large family connection and by his fellow citizens generally.

PRESS COMMENT.

It is the duty of the United States Government to issue a formal protest against the German "war-zone" proclamation. Although it is highly improbable that any neutral ship will be attacked by a German submarine in this "war zone" that the German Government undertakes to draw around the British Isles, the theory upon which the German Government acts is so fantastic that the United States cannot afford to recognize it even to the extent of ignoring such a negation of international law. International law provides for blockades of ports and coasts, and the rules governing them are clear and specific. One of these rules is that the blockade "must be maintained by a force really sufficient to prevent access to the enemy coast-line." A casual submarine does not in law constitute a blockading force for Great Britain and Ireland and the coast of France, and cannot be regarded as such by any neutral Government.

How To Gain Weight A Pound a Day

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note the results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

TORTURE OF SCIATICA CURED QUICK! "NERVILINE" A SUCCESS EVERY TIME

Stops the Pain Quick—Acts Like Magic—Is Harmless and Pleasant.

Sciatica is the most severe pain man can suffer. The great sciatic nerve is deeply placed, and you can reach it only by a pain remedy, as penetrating and powerful as NERVILINE.

The glory of Nerviline is in its strength—in its marvelous power of penetrating deeply. In severe pains, such as sciatica and neuralgia, NERVILINE demonstrates its superiority over every other remedy.

Extraordinary pains, such as rheumatic or sciatica, can be overcome only by a remedy as extraordinary as Nerviline. In many lands it has

shown itself to be the best for little pains, best for big pains, and best for all pains.

When one has acute rheumatic pains, stiff joints or a stiff neck, don't experiment—seek a remedy that cures. Like lightning in rapidity, as sure as fate in its certainty of relief. Nerviline can never be surpassed for the removal of pain no matter what advance science may make. It is perfection in its line.

Do not trifle with ordinary or oily liniments, use Nerviline. Prove its efficacy—it is the one liniment that rubs right into the core of the pain. A large 50 cent bottle will cure the aches and pains of the whole family. Trial size, 25 cents. Sold by all dealers everywhere, or the Catarthozone Co., Kingston, Canada.

Business as Usual

Notwithstanding our misfortune of Saturday last we will be open as usual this morning to carry on business as heretofore.

Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. See blower free. Accept no substitutes. All dealers or Edmanoch, Bates & Co., Toronto.

THE ST. PATRICK'S LITERARY INSTITUTE.

Committee is Appointed—Society in Good Financial Condition.

At the annual general meeting of the St. Patrick's Literary Institute, held in the Institute rooms last evening, the Treasurer read his report, which showed that the Society is in a healthy condition, financially having a very satisfactory balance on hand.

The committee was appointed as follows: T. J. Murphy, W. J. Mulroney, John Kelly, Michael Arkinson, J. Timmons, Patrick Hanrahan, W. Jno. Breen and P. O. Ward. The officers will be selected from among the members of the committee at a future meeting.

Although it has been decided not to have a parade this coming St. Patrick's Day, on account of the war, the St. Patrick's Literary Institute is making heading all its efforts towards making the annual Soiree a bigger success than ever.

QUEBEC SOLDIERS GONE TO FRANCE

LT.-COLONEL WATSON AND HIS BATTALION LEFT ON SUNDAY.

A cablegram received from Lieut.-Colonel David Watson intimates that he and his battalion, the 2nd, left London for France on Sunday. From various reports it seems probable that a number of the Quebec boys were transferred from the 12th Battalion to that of Colonel Watson before his departure for the front. At one time it was said that eighty or so were anxious to be transferred.

EXEMPTION ASKED FOR THREE YEARS

SPECIAL COMMITTEE REPORTS RE BUILDING HOUSES FOR BELGIANS.

A meeting of the Special Committee appointed to study the question of building houses for the Belgian experts, whom Sir Charles Ross plans to have brought to Quebec, was held at the City Hall last night, proprietors and representatives of the various city newspapers being present by invitation.

Mr. J. B. Poirier, the secretary of the committee, read the report covering the findings of the committee and detailed the studies which it had carried out. He gave a list of builders who would contract to furnish houses to the number of 326 by the first of November, if the city was ready to make them certain concessions.

The committee recommends that houses for the accommodation of the Ross men which are begun between the first of March and the first of November, should be exempt from all taxes, save those now being paid on the land and water and school taxes. Mr. C. E. Morissette, who was in the chair, and Mr. J. H. Fortier, ably explained the reasons which had led the committee to come to these conclusions and argued that the amount of exemption granted would be a very trifling matter in view of the new revenue that would be created by the building of the houses and the circulation of money consequent on the extension of the Ross Rifle factory.

THE LIGHTER SIDE.

Wonder if the Kaiser is the man who put dach in dachshund. Jones—What's the Oh Joy silver mine stock selling for now? Broker—We just sold the last ten rolls of it for wall paper.

While referring to headings, it is to be hoped that the French Conservative paper will have the good taste to announce the nomination of Hon. P. E. Leblanc as Lieut.-Governor in blue.

Talking about skiing. Oh yes. You will find the usual number of arm-chair critics. They can't come back, of course.

Ottawa House won't allow any close season for lobsters in this country. Pittsburgh papers, please copy.

Laborers object to grant for Home Guard. They may have reason to be thankful to the Home Guard yet.

When you are only a beginner at skating, don't invite a veteran to accompany you to the rink with your lady friend.

Colored headings are becoming quite the style in Quebec newspapers. At the last minute one color is sometimes mistaken for the other, and then —!!

FIRE ON NICHOLAS STREET.

A fire which did between \$800 and \$1,000 damage broke out in the store of Messrs. M. J. Arnault & Co., St. Nicholas street, yesterday morning. The fire was caused by over-heated stove-pipes which became disjunct and fell to the floor, igniting the stock. The damage is covered by insurance.

STRENGTH FOR MOTHERHOOD. The importance of reserve strength and pure blood at this period cannot be over-estimated and Nature's pure nourishment in Scott's Emulsion imparts that strength that enriches the blood, strengthens the bones and invigorates the whole system. Physicians everywhere prescribe it. It is free from harmful drugs.

"LA FEMME X" WILL BE FIRST PRESENTED

THE FRENCH COMPANY WILL OPEN WITH BISSON'S STRONG COMEDY-DRAMA AT THE AUDITORIUM MONDAY NEXT.

It was certainly good news to those who like to see really artistic plays presented in our theatre to hear that the "Troupe de Comedie Francaise" will be at the Auditorium for two more weeks at least, commencing Monday, February 15th. And the announcement that the troupe will open this return engagement with "La Femme X..." by Alexander Bisson was also welcomed as all theatre lovers have requested the company to present that play on the occasion of their last visit in Quebec.

"La Femme X..." is a very strong drama that calls for rich and expensive scenery and the manager of the house has seen that everything is ready for the opening night so he can promise us a first class presentation of the play which will be repeated Tuesday, and Wednesday night, Tuesday and Thursday matinee.

For the three last nights of the week and Saturday matinee the troupe will present "Le Maitre De Forges" by George Ohnet, one of the best known and most popular writers the French stage has had in recent years.

The seats are now on sale for the whole week at 35, 50 and 75c, for the evening performances and 25 and 50c, for the matinees.

Tickets reserved by telephone will be sold after 2 o'clock for the matinees and 8 o'clock for the evening performances.

Fine large bunch of Violets for 25 cents. MRS. LEMIEUX & CO., 99 St. John Street.

WEDDING BELLS

A very pretty wedding took place in Jacques-Cartier Chapel on Monday Morning, when Miss Corine Guay, daughter of the late Mr. Abraham Guay, became the bride of James F. Coughlin, son of the late Mr. and Mrs. John Coughlin. The bride looked charming in a blue travelling suit trimmed with fur with hat to match, carrying a bouquet of white and pink carnations and maiden hair ferns. The bride was given away by her brother, S. Guay, and the groom was attended by his brother, P. J. Coughlin. After the ceremony the bridal party returned to the home of the bride's mother where a recherche breakfast was served. The bride and groom were the recipients of many handsome and valuable presents including a purse of gold from the grooms fellow employees of the Q. R. L. H. & P. Co. The happy couple left by the C. P. R. on their honeymoon.

No Cure Guaranteed More Corns. Never known to fail; acts without pain in 24 hours. Is soothing like a linc; takes the sting right out. No remedy so quick, safe and sure as "Putnam's" Painless Corn Extractor. Sold everywhere—25c per bottle.

Violets are the craze of the present day. Buy a bunch. MRS. LEMIEUX & CO., 99 St. John Street.

QUEBEC PLAYS TORONTO TONIGHT

A BIG STRUGGLE LIKELY AS IT MEANS MUCH TO EACH.

Toronto will make their last appearance of the season in Quebec this evening when they play the locals in the third game of the N. H. A. series between these clubs, each having a victory over the other to their credit.

Quebec must win this game to have a fighting chance for the honors while Toronto is practically in the same position. Jack Marshall has a fine bunch of players and they have always been popular with a Quebec crowd, never failing to put up a fast clean game.

Manager Quinn stated last night, that the players realize their shortcomings and all are determined to correct their faults tonight.

"All the men are fit and ready to go the distance at top speed," said Mr. Quinn "and though we realize that Toronto will prove a tough proposition, we feel that victory will be ours."

The line-up of the locals is a matter of uncertainty, as the Quebec manager is not quite decided as to what shift he will make. There is no doubt however that substitutions will be made throughout the game and any player who is playing below form will not remain on the ice long enough to hurt the team's chances. Then, of course, changes require to be made as a part of the team's strategy, as it very often happens that the player is very effective against a certain team whereas opposed to another, he is at a loss to find his bearings.

A good scoring team should be Crawford, Smith and McDonald on the forward line and if the locals started out with that line up and succeeded in accumulating a lead, Marks could then be used to hold down the efforts of the Toronto forwards. There is none better in the league than Jack Marks, when it comes to defensive play and Marks back-checks untiringly all night. But the Crawford Smith and Marks combine are not so effective so far as scoring goals are concerned since Smith is the only scorer of the trio and if Tommy is held down too close it is all off. On the other hand McDougald cannot chase his man like Marks, but he is a good goalgetter and works well in combination with Smith and Crawford. Whether McDonald can make up, in goals scored either directly or through passes to the other two, what the other side may do in the way of scoring by not being held down as closely as they are when Marks is on is a question of opinion but basing judgment on past performances, it would not seem to be a bad idea to commence with Smith, Crawford and McDonald on the line and bring Marks to the relief later.

Ritchie and Malone are also available but as neither is strong enough yet they are not used for more than a period at the very most. Then it must not be forgotten that Walter Mummery and Westwick are pretty reliable too.

However, the game promises to be a "hammer" and if Toronto wins they will have to travel at a fast clip.

BIG CITY LEAGUE GAME TOMORROW

EMMETS OUT TO BEAT LAURENTIDES IN QUEBEC RINK.

Few City League games in the past have attracted such universal interest among local hockey enthusiasts as the coming game between Emmets and Laurentides and which will take place in the Quebec rink Thursday night.

The Emmets won the City League championship last year when least expected and they won it through an exhibition of grit and ability to stay with their opponents. Laurentides, on the other hand, played Inter-provincial hockey last year and on form this year they are the favorites. They have not lost a game in the City League series while Emmets have been defeated once but as that game was the first of the season their defeat may have some justification.

The Irishmen have the advantage of playing in the rink where they are accustomed to practice and there is no doubt that it will be of some benefit to them as Laurentides have never played on a small ice surface.

Emmets will likely line-up with Sullivan in goal, Redmond and Joe Paul on the defence and Dempsey, Power and Doyle on the forward line. Laurentides will start out with Santerre, Simard, Walsh, Marois, Roy and Turgeon.

A trip to the Quebec rink to-morrow night should be well worth while.

Sporting Notes

Quebec and Toronto tonight at the Arena.

Benedict was ruled off in Montreal for lying down in the goal. He got away with this stunt in Quebec, saving a goal this way, when Tommy Smith got inside the defence.

Ottawa claim to be badly crippled for tonight's game. Jack Darragh is the next victim for the hospital.

Walter Mummery must be out to beat the world's bowling record. He bowled 14 strings on the Quebec alleys yesterday.

The Montreal "Mail" has an article relating to American hockey and American opinion of it which is well worth reading. Here is part of it:—

A sporting expert, writing in the New York Tribune, describes a game between two local teams in which "Hobey" Baker, the former Princeton rugby star, took part. Blinded by tears of rage, we read as follows:—

In the opinion of over a thousand hockey enthusiasts at the St. Nicholas rink last night, "Hobey" Baker, the brilliant rover of the St. Nicholas club, proved himself amongst all living players.

Now, that is going quite a bit too far. We are willing to concede Uncle Sam the outstanding merits of Jim Thorpe, the Indian, Jack Johnson, the negro, and not a few of his other sporting champions. We admit the merit in these cases. We have no kick. But when it comes to claiming the King of hockey players, we unhesitatingly violate their neutrality and make a vicious attack on the United States.

This "Hobey" is quite a nice hockey player. One of his performances that enthused the crowd was particularly daring, and affords some idea of the kind of hockey they play in Gotham. He lifted the puck from the centre of the rink and landed it in the cage, while the crowd rose to acclaim in long, rousing cheers the greatest player in the game.

"Nuf sai". If "Hobey" ever tried a trick like that in a real hockey game he would be assisted off the ice and fanned until he came to himself.

Uncle Sam had better watch himself, and "keep off the ice." It's our ice. We have the greatest hockey players in the game, bar none, and if you don't believe it, go out to Westmount and say something mean about the Cleghorn boys.

We refuse to let "Hobey" play hob with our reputation like this.—Montreal Mail.

The Victoria Hockey Club would like to arrange a game with the Newville team at Newville on Sunday next. A prompt answer will be appreciated. C. Angers, Capt., 125 St. Andrew St.

Popular Pastime No. 27—Setting a date for the end of the war.

KANSAS CITY CLUB OUT OF FEDERAL

Chicago, Feb. 9.—There is no chance for Kansas City to retain its place in the Federal League, the franchise having been sold to P. T. Powers, and the deal closed, according to President Gilmore.

"We gave the people of Kansas City the opportunity to save the team for their town but they failed to give us sufficient guarantee in time, as the season's opening was drawing near," said Gilmore today. "As for the report that D. J. Hoff will take up the matter in New York, there is no one in that City with authority to treat concerning the matter. The Kansas City franchise has been sold to P. T. Powers of New York."

TONIGHT'S OFFICIALS.

Montreal, Feb. 9.—Officials for the hockey games Wednesday night: Toronto, Cooper Smeaton and Dr. Wood; Quebec, Vic Russell and Dave Powers; Montreal, Johnny Brennan and Reg Perival.

DAILY TELEGRAPH BOWLERS WON.

The Daily Telegraph bowlers surprised the strong Marsh team by taking all three strings from them in Industrial League game on Frontenac alleys. The scores:—

F. S. STOCKING WON CURLING TROPHY

CARNIVAL CUP 1891 COMPETED FOR BY QUEBEC CLUB YESTERDAY.

The Carnival Cup 1891, was won by Mr. F. S. Stocking at a Quebec Curling Club medal shot competition yesterday. The ice was very good and some high scores were made, the winner having 38 points. The scores follow:—F. S. Stocking 38, S. J. Grogan, 36, T. J. Delaney 34, J. G. Brunau, 34, N. E. Fletcher 34, A. Veasey 34, W. Lambton 33, P. Dale 31.

NEWARK MAY NOT ENTER FEDERALS

NEW PROPOSITION MAY ENTIRELY CHANGE THE PRESENT SITUATION.

New York, Feb. 9.—Newark is not at all positive of getting a Federal League franchise next season, it developed tonight. Until late today that city believed itself assured of gaining admission to the Federal League, but a proposition was made to the local Federal League office this afternoon by a Bronx real estate firm, which may entirely change the present situation.

The name of the company has not yet been made public, but it is known to own valuable lands in the borough of the Bronx, and it is willing to give a \$100,000 plot of land, and agree to build concrete stands, it is said, if the Federal League will award it a franchise and supply it with good players.

The plot of land indicated is centrally located. The real estate men's proposition has been sent to President Gilmore, and R. R. Ward, President of the Brooklyn Federals, who is now in Pinehurst, N. C., and will be given serious consideration, it is declared. Gilmore, Federal League men say, has been strongly in favor of a New York Federal team, and recently was quoted as saying that even if the club should lose money in New York, it would pay the league because of the value of New York on the road as an attraction in such cities as Baltimore, Buffalo and Indianapolis.

RIVERSIDES CLOSE SEASON WITH WIN.

Toronto, Feb. 9.—Riversides closed their O. H. A. season tonight at Riverdale Rink with a victory over University of Toronto. The final score was 16 to 3. Neither team was at full strength, particularly the collegians, who placed a makeshift aggregation on the ice.

Levesque and Wilson were the only regulars on the U. of T. line-up and were best for the losers. Levesque was given his usual bombardment, and was the busiest man on the ice. The winners found little trouble in penetrating the losers' defence.

LABORMEN OBJECT TO HOME GUARD

Workmen's Representative Says He Would Be Patriotic Enough to Buy Own Rifle.

BUT GRANT CARRIES.

Mr. Lortie Would Prefer to Have Eight Policemen Guarding Quebec.

The bill to amend the charter of the City of Quebec was passed by the Private Bills Committee of the Legislative Assembly yesterday afternoon, or to be more precise, the twelve clauses which had remained to be studied were put through.

It required only a half an hour of the Committee's time to complete the study of the measure and the little discussion which took place was centered on the clauses to authorize the city to grant a sum of \$5,000 to the Quebec Home Guard which was finally adopted.

The chief objection to this clause was raised by the representatives of Central National Council of Labor of the District of Quebec, Messrs. A. Shields and A. E. Lortie.

Mr. Lortie in opposing the grant asked that the clause be struck out. He could not see the necessity of paying \$5,000 to the Home Guard, and argued that this sum would suffice to employ 7 or 8 policemen for one year, who would prove more useful than the Home Guard.

Ald. Cannon explained that the Home Guard had purchased rifles on the assurance of the Finance Committee that the sum would be granted and that the clause had been approved by the City Council.

Mr. Lortie insisted, however, that the clause be struck out.

Mr. Eugene Leclerc, M.L.A., for Quebec Centre, a member of the Committee, asked for information as to the Home Guard. He wanted to know among other things if the Guard was under the jurisdiction of the Federal authorities.

Hon. L. A. Taschereau, who, by the way, is a member of the Home Guard, began to explain, and Mr. Leclerc forthwith assured the Minister that he intended to vote for the clause, but he simply wanted information.

Mr. A. Shields remarked that if he were a member of the Home Guard and wanted to defend Quebec, he would be patriotic enough to buy his own rifle.

Mr. Lortie insisted that eight policemen would be more practical than the Home Guard, who were not willing to assume any obligations. If they undertook to do the garrison duty which the 8th and 9th Regiments were doing now, it would be acceptable, but he could not favor it as it was.

After a few more remarks the clause was carried.

Insuring Soldiers.
Without any discussion the following clauses were carried:

Providing for payment of \$10,000 for insurance premiums on the lives of the soldiers who have gone to the front; the payment of \$5,000 to the Franco-American Committee; authorizing the city to pay an annual sum of \$250,000 to St. Bridget's Home, and a similar sum to the Finlay Asylum and the Ladies' Protestant Home, respectively; sanctioning the payment of \$750 for five beds in the Quebec Hospital in Paris, and authorizing the payment of \$3,000 to commemorate the three hundredth anniversary of the establishment of the Faith in Canada.

Grants to Institutes.
To the clause authorizing the city to make an annual grant of \$500 each to the Orphelinat du Sacre Coeur, in St. Sauveur, and the Institution du Patronage Laval, an amendment was added on motion of Mr. J. A. Langlois, M.L.A., for St. Sauveur, to make a similar annual grant to the St. Francois d'Assise Hospital at Domaine Lairet.

Clause Replaced.
An agreement having been reached between the Citizens' Committee and the representatives of the City Council clause 6 of the bill was replaced by the following:

"The City is authorized to effect from time to time one or more special loans to constitute a working capital to provide for current expenses in anticipation of the ordinary revenue of the current fiscal year and which will be reimbursable to it.

"The total amount thus borrowed in any year shall not exceed 50 per cent. of the ordinary revenue of the preceding year. The City is authorized to effect from time to time one or more special loans for sums not exceeding the amount of the debentures which the City have been authorized by the Legislature to issue in anticipation of the product of the sale of its debentures. The loan or loans thus effected shall be used exclusively for the purpose for which the issue of such debentures may have been authorized and shall be reimbursed from the product of those of the debentures which may have been sold.

The loan or loans provided for by this section must be made by means of treasury bonds carrying a number in order and signed by the Mayor and Treasurer. There will be deposited from date of emission of all such treasury bonds in a special register kept under the supervision of the Treasurer a certificate of emission signed by the latter and stating the number, date, term and amount of all

such bonds and the fund to which they must be reimbursed."

Laverne vs. Home Guard.

Mr. Armand Laverne who came into the Committee room when the bill was all but passed, asked, after the clause had been declared carried, that the clause concerning the grant to the Home Guard be reconsidered, but the Committee refused to recall the clause and proceeded to the consideration of other business.

City Auditor Question.

Mr. P. B. Dumoulin, of the Citizens' Committee, submitted an amendment to have the City Auditor appointed by the Lieutenant-Governor-in-Council on recommendation of the City Council. He argued that this would leave the official more independent than at present.

Ald. Cannon objected, pointing out that the provision was not covered by the notices, and it was accordingly dropped.

Technical School.

At the request of Ald. Cannon, a clause was inserted, increasing the annual grant which the City makes to the Quebec Technical School from \$10,000 to \$20,000.

LEGAL INTELLIGENCE.

Judgments Rendered—Writs Issued.

Insolvent Case.

Judgments by Hon. Justice Malouin:

Turgeon et al vs. English et al—Judgment against defendant Mayer for \$179.00 with interest and costs.

Mongrain vs. O'Brien et al—Plaintiff claims from defendant \$10,000 for

damages arising from the death of his son, aged twenty-four years, which took place on the 16th day of February last, on the Transcontinental Railway line, between La Tuque and Hervey Junction; that plaintiff's son had bought a ticket from defendants at St. Severin de Proulxville, to go from that place to Lac Chat; that the train arriving at this last mentioned place made a stop and his son left the car; that without any previous notice on the part of the conductor, the car set in motion, and his son jumped and went under wheels, and had his legs crushed; that his death took place on the same evening, and that his death was due to the fault and gross negligence of the defendants and their employees. Defendants pleaded that they are ignorant of the accident and deny the liability alleging that the deceased is responsible of said accident. The Court dismissed the plaintiff's action with costs.

Gagnon, Massicotte & Cie. vs. The American Road Co., of Canada.—Action dismissed with costs.

By Hon. Justice McCorkill.

Croteau vs. Brindamour—Plaintiff's action dismissed with costs.

Drouin et al vs. Venet et al—Action dismissed with costs.

By the Prothonotary.

Morand vs. Pelletier et al—Judgment against defendants, jointly and severally, for \$510, interest and costs.

Chinic Hardware Co. vs. Dagneau—Judgment in plaintiff's favor for \$250.69, interest and costs.

Vallee vs. Heirs A. Donville, and La Caisse d'Economie, T.E.—Delibere discharged.

P. T. Legare, Limited vs. Gagnon—Delibere discharged.

such bonds and the fund to which they must be reimbursed."

As a mark of respect for the memory of the late lamented Sir Francois Langlois, Lieutenant-Governor, of the Province of Quebec, the Courts will not sit on Thursday, the 11th of February, date of the funeral.

On Friday, as the sitting is resumed in Superior Court, the Bench and Bar will voice their condolence.

Appeal Inscrubed.

In the case of The Dominion Textile Co. vs. Harvey, the defendant has inscribed before the Court of Review of the judgment of the Superior Court rendered on the 23rd day of January last. The necessary deposit has been made by the inscribing party.

Writs Issued.

Writs of summonses issued from the Prothonotary's Office.

WHY AN 8 CYLINDER CADILLAC?

Why An 8 Cylinder Cadillac?

- BECAUSE** the eight cylinder Cadillac travels over bad roads more easily than other cars, with less attention on the part of the driver and more comfort for the passengers.
- BECAUSE** with the eight cylinder Cadillac the tourist undergoes less fatigue in long trips.
- BECAUSE** with the eight cylinder Cadillac all the enjoyment of automobiling is enhanced.
- BECAUSE** the principle of eight cylinders, V type, with absence of vibration and constant application of power, coupled with the ideal methods along which the Cadillac works, assures a long existence and length of service.
- BECAUSE** as we said at the outset, the eight cylinder Cadillac accomplishes the greatest possible number of mechanical movements that an automobilist may demand of his car, it accomplishes them better, with more facility and in a manner to permit the proprietor to enjoy in a supreme degree everything that contributes to the pleasure of automobiling.
- FINALLY** your first outing will of itself dispel from your mind the question "WHY AN EIGHT CYLINDER CADILLAC?"

Before placing your order come and see the superb 1915 Model which we are showing in our rooms.

J. EDM. POULIN, REPRESENTATIVE.
319 St. Joseph Street - - - QUEBEC

City of Quebec, District of Quebec. To wit: CITY OF QUEBEC City Hall. BY-LAW NO. 2 D.

Concerning the Issuing of Permits for Representations by Circus Companies, etc.

(Drawn up in the French language)

At a meeting of the Municipal Council of the City of Quebec, held at the City Hall, in the City of Quebec, on the 5th day of February, 1915, in conformity to law, and in virtue of a by-law passed by the Council pursuant thereto, and after the due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present two-thirds of the members composing the Council of the City of Quebec, that is to say: His Worship the Mayor, Aldermen Bois, Bouchard, Cote, Dinan, Dussault, Emond, Galibois, Gauvin, Gibsons, Lantier, Lavigneur, Lockwell, Martin, Paquet, Roy, Verret, St. G. Roy, Verret, Walling.

The Municipal Council of the City of Quebec hereby orders and enacts as follows, to wit:

1. Article No. 18 of by-law No. 2 of the City of Quebec, passed on the 24th of March, 1911, is replaced by the following:

No person shall open any circus or equestrian representation in the City or in any suburb thereof, or any wild animal shows (menagerie) or any mechanical amusements without previously obtaining from the Mayor of the City a permit for such and paying to the City Treasurer the sum of two hundred dollars for the said permit, (if granted), and also without paying to the City Treasurer an additional sum of twenty dollars for each and every additional day during which such representations shall be opened to the public.

The said permit (if granted) shall be issued subject to the express condition that such representation shall take place on the grounds under the administration of the Commission appointed by this City for the holding of exhibitions in Quebec, and with which it shall be necessary to come to an understanding as to the leasing, the allotment of space and other circumstantial reservations.

NAP. DROUIN, Mayor.

Attested: L. S. H. J. B. CHOUINARD, City Clerk.

City of Quebec, District of Quebec.

CITY OF QUEBEC City Clerk's Office. BY-LAW NO. 1-B.

By-Law Concerning the Internal Government of the City Council.

(Drawn up in the French language).

At a meeting of the Municipal Council of the City of Quebec, held on the 5th day of February, 1915, the following By-law was read for the first time:

The Municipal Council of the City of Quebec by present By-law enacts and ordains as follows, to wit: 1. The By-law No. 1 of the 24th March, 1911, replacing By-law No. 407, of the 5th April, 1907, as amended, by By-law No. 1-A, of the 23rd February, 1912, is again amended by replacing paragraph 71 of chapter 7, by the following: "71. The offices of the City Officials shall be opened every judicial day, except on Saturdays, from nine o'clock in the morning (9 a.m.) until five o'clock in the afternoon (5 o'clock p.m.), and on Saturdays from nine o'clock in the morning (9 o'clock a.m.) until one o'clock in the afternoon (1 o'clock p.m.). One and one-half hours (1 1/2 hours) shall be allowed to the officers for dinner."

Public Notice: Is hereby given, that pursuant to law, the above By-law will be read a second time, for adoption, on Friday, the 19th of February instant (1915).

By order: H. J. B. CHOUINARD, City Clerk.

TENDERS REQUIRED Police and By-Law Committee

Quebec, 5th January, 1915. Sealed tenders will be received by the undersigned until Tuesday the twenty third day of February inst. at four o'clock in the afternoon for the supplying of 100 Tunics or more in blue serge.

100 Pairs of Pants or more in blue serge. 100 pairs of summer boots (gaiters) or more, in chrome, calf 'Good year' solid leather. 100 Frock Coats, double breasted in blue cloth. All the tunics, pants, coats and boots shall be according to models, to be seen in the office of the Chief of Police in the City Hall.

Tenders for summer boots shall accompany their tenders with a sample boot, and tenders for tunics, pants and cloth coats shall accompany their tenders with samples of serge, and cloth similar to those to be seen at the office of the Chief of Police, in the City Hall.

The contractor supplying boots,

Develop your home market buy Windsor Table Salt

pants and tunics shall be obliged to give a guarantee as to durability and wear for one year, and cloth coats two years.

All the tunics, pants, coats and boots shall be delivered by the 1st of June next, and if the contractors have not fulfilled that condition, there shall be retained five dollars a day for each day's delay after said date, until the last tunic, pair of pants, cloth coat and pair of boots shall have been delivered.

Should additional tunics, pants, cloth coats and boots be required, the contractors should be obliged to supply the same at the price and on the conditions required by the contractors.

The Police Committee does not bind itself to accept the lowest or any of the tenders.

The contractors before signing of the contracts, shall be obliged to furnish to the satisfaction of his Worship the Mayor two good and sufficient sureties.

The contractor shall pay the cost of drawing up the notarial contract and supplying a certified copy thereof to the Police and By-Law Committee.

EDWARD FOLEY, Secretary Police and By-Law Committee.

City of Quebec, District of Quebec.

CITY OF QUEBEC City Clerk's Office. BY-LAW NO. 6A.

By-law Concerning the Bridge Called "Allies' Bridge."

(Drawn up in the French language).

At a meeting of the Municipal Council of the City of Quebec, held on the 5th day of February, 1915, the following By-law was read for the first time:

The Municipal Council of the City of Quebec by present By-law enacts and ordains as follows, to wit:

1. The Bridge actually built on the River St. Charles, connecting the northern extremity of Bridge street, in St. Roch Ward, shall be known and designated under the name of "The Allies' Bridge."

2. Said Bridge and its approaches shall henceforth form part of the municipal road system and public places of the City of Quebec, and shall be regulated by the municipal by-laws concerning streets and public places of the City.

PUBLIC NOTICE

Is hereby given, that pursuant to law, the above By-law will be read a second time, for adoption, on Friday, the 19th of February instant (1915).

MEETING OF THE CITY COUNCIL

Friday, February 5th, 1915.

Present:—His Worship the Mayor, Aldermen Bois, Bouchard, Cote, Dinan, Dussault, Emond, Garant, Galibois, Gauvin, Gibsons, Lantier, Lavigneur, Lockwell, Martin, Paquet, Paquet, Roy, Verret, Walling.—(19). The minutes of the last meeting are read and confirmed.

Read a letter from Mr. Ivan Vallee, Secretary-Treasurer of the Canadian Society of Civil Engineers, Quebec Branch, thanking the Mayor and Council for the kind hospitality given them by the City, in the City Hall, and expressing the wish that they be allowed to continue to enjoy the use of their rooms.

Read applications from Messrs. Ludger Savard and Alphonse Pichette, mechanics, praying to be appointed guardian of the new Dorchester bridge. Referred to the Road Committee.

Read a letter from Mr. J. A. Giguere, Secretary of the Retail Merchants Association of Canada, Quebec Branch, Grocers' Guild, protesting against the \$5.00 tax or license imposed upon grocers who sell milk. Referred to the Finance Committee.

Read a letter from the Quebec & Levis Federated Trades and Labor Council, protesting against the proposed increase of the personal tax from \$2.00 to \$3.00. Referred to the Finance Committee.

Read a letter from Mr. E. H. Scammell, Secretary of the Canadian Peace Centenary Association, praying the Council to forward, to the Mayors of the American cities of Providence, R.I., Baton Rouge, La., Richmond, Virg., Frankfort, Kent., and Columbia, South Carolina, telegrams of congratulations, on the 17th of February instant, in grateful recommendation of the signing at Ghent, of the treaty of peace between United States and England. Ordered that the said letter lay on the table.

Read a letter from Mr. Thomas Craig, Secretary of the Ross Rifle Co., praying the Council to grant to the Ross Rifle Factory an exemption of taxation for twenty years, to help the aggrandisement of their factory, in which they intend to carry the daily output of rifles from 1,000 to 5,000. Referred to the Finance Committee.

Read the following letters and petitions in connection with the proposed Bylaw for early closing of stores at 7 p.m.

From Mr. Gaullin and others, praying that the said By-law do not include merchant tailors and such tailors who make clothes in their establishment.

From the Central National Board of Labor, Quebec, in support of the petition of the Merchants' Clerks, asking for early closing of stores at 7 p.m.

From Mr. William Darlington, protesting against the proposed By-law of closing stores at 7 p.m.

From the citizens of St. Peter's Ward, Celestin Turcotte, and others protesting against the by-law of closing stores at 7 p.m.

From the Retail Merchants Association of Canada, Quebec Branch, in support of the proposed By-law for early closing of stores at 7 p.m.

Ordered that the above letters and petitions lay on the table until the second reading of By-law No. 21, called as the 3rd order of the day.

Present the following reports of Committees:

Markets:

714th. To grant continuation of lease of revenues of J. Cartier market to Mr. Napoleon Guimond, and of the cattle market to Mr. Louis Gignac.

715th. Extension of time for completion of works of "La Compagnie des Abattoirs."

Moved by Alderman Martin, seconded by Alderman Garant, and resolved: That the said reports be taken up as the 4th and 5th orders of the day.

Health:

202nd. Recommending the use of vitrolite instead of ordinary paint in the new Civic Hospital.

Moved by Alderman Dussault, seconded by Alderman Lantier, and resolved: That the said report be taken up as the 6th order of the day.

Alderman Verret lays on the table the drafts of two By-laws. No. 6-A, to name the Allies' Bridge instead of Dorchester bridge. No. 1-B, concerning the internal government of the Council, to extend office hours to 5 p.m.

Moved by Alderman Verret, seconded by Alderman Emond, and resolved: That By-law No. 6-A be taken up this evening to be read for the first time as the 7th order of the day.

Moved by Alderman Cote, seconded by Alderman Verret, and resolved: That By-law No. 1-B be taken up this evening to be read for the first time as the 8th order of the day.

Order of the Day:

1st order of the day:—The Council proceeds to the second reading for adoption, of By-law No. 5 A, concerning the control and the sale of milk and cream for which second reading, and adoption, the presence of two-thirds of the members of the Council (18) is required, the following members being present:—His Worship the Mayor, Aldermen Bois, Bouchard, Cote, Dinan, Dussault, Emond, Galibois, Garant, Gauvin, Gibsons, Lantier, Lavigneur, Lockwell, Martin, Paquet, Paquet, Roy, Verret, Walling.—(19).

The preamble being read is adopted.

Section 1, articles 1, 2 and 3 are adopted.

Section 2, articles 1, 2, 3 and 4 are adopted.

Section 3, articles 1 and 2 are adopted.

Section 4, articles 1, 2, 3, 4, 5, 6 and 7 are adopted.

Section 5, articles 1 being read. Alderman Paquet (Belvedere) moves, seconded by Alderman Walling, and it is resolved: That the said article be amended by adding, at the end thereof, the words: "and ventilated."

Articles 2, 3, 4, 5, 6, 7, being read are adopted.

Section 6, articles 1, 2, 3 and 4 are adopted.

Section 7, article 1, being read is, on division, adopted.

Articles 2 and 3 are adopted.

Section 8, articles 1, 2, 3 and 4 are adopted.

Section 9, articles 1 and 2 are adopted.

Section 10, article 1 is adopted.

Section 11, article 1 is adopted.

Section 12, articles 1 and 2, section 13, articles 1, 2, 3, 4, 5 and 6, section 14, article 1, section 15, articles 1 and 2, section 16, articles 1 and 2 are adopted.

And the said By-law, thus amended, being submitted in toto for adoption, is adopted, and His Worship the Mayor declares the said By-law No. 5A read a second time, passed and put in force.

2nd order of the day:—Second reading, for adoption, of By-law No. 2D, concerning the rates for circus companies, for which second reading, and adoption, the presence of two-thirds of the members of the Council is required, the following members being present, to wit: His Worship the Mayor, Aldermen Bois, Bouchard, Cote, Dinan, Dussault, Emond, Galibois, Garant, Gauvin, Gibsons, Lantier, Lavigneur, Lockwell, Martin, Paquet, Paquet, Roy, Verret, Walling.—(19).

The preamble and clause 1, being read are adopted.

And His Worship the Mayor declares the said By-law No. 2D, read for a second time, passed and put in force.

3rd Order of the Day:—The Council then proceeds to the second reading, for adoption, of By-law No. 21, and also takes up the letters and petitions for and against certain dispositions of the said By-law, which have been submitted to the Council this evening, the said By-law concerning the closing of certain stores in the evening, for which second reading, and adoption, the presence of two-thirds of the members of the Council is required, the following members being present, to wit: His Worship the Mayor, Aldermen Bois, Bouchard, Cote, Dinan, Dussault, Emond, Galibois, Garant, Gauvin, Gibsons, Lantier, Lavigneur, Lockwell, Martin, Paquet, Paquet, Roy, Verret, Walling.—(19).

The preamble being read. It is moved by Alderman Gignac, seconded by Alderman Bois: That the said By-law be referred back to the Police and By-law Committee for reconsideration.

And the said motion being put to the vote is lost on division.

The preamble of the said By-law being again read is adopted.

Clause 1 being read. It is moved by Alderman Lavigneur, seconded by Alderman Verret: That the said clause 1 be amended by adding therein, after the words "House furnishings" the words: "a store where in are sold pianos, instruments of music or music."

And the said motion being put to the vote is lost on the following division of 2 for and 16 against, as follows, to wit: For—Aldermen Lavigneur and Verret.

Against—Aldermen Bois, Bouchard, Cote, Dussault, Emond, Galibois, Garant, Gauvin, Gibsons, Lantier, Lockwell, Martin, Paquet, Paquet, Roy, Walling.—(16).

Clause 1 being again read. It is moved in amendment thereto by Alderman Verret, seconded by Alderman Emond: That the said clause be amended by adding, at the end thereof, the words: "Nevertheless the present By-law shall not be applicable to tailors work shops."

And the said amendment being put to the vote is declared lost on division.

Moved by Alderman Lavigneur, seconded by Alderman Verret, and resolved: That when the Council shall adjourn, it stand adjourned until Friday, the 19th of February instant.

And midnight being near, at the request of His Worship the Mayor, the Council consents that the debate on By-law No. 21 be postponed until the following orders of the day shall have been considered.

4th order of the day:—Read the 714th report of the Market Committee, which being put to the vote, is adopted, and it is resolved: That this Council grants to Mr. Napoleon Guimond a continuation of lease of the revenues of Jacques-Cartier market for the year 1915-16, at the same price and conditions already stipulated in the lease granted to him by the City on the 29th of April, 1915.

The said continuation of lease is granted to Mr. Napoleon Guimond of the revenues of Jacques-Cartier market, said revenues to be collected on the price contained on Place Jacques-Cartier, between St. Francois, Crown and King streets, the price to be \$1,500, and it is agreed that if the City transfers the site of the said market from its present situation to the site of the new market, near Drouin Bridge, the said lessee, Nap. Guimond, shall continue to enjoy his rights on the said new market under the same price and conditions as stipulated in the lease of last year.

And it is agreed that the said lessee shall have no right to claim from the City any sum of money for damages to him caused by the transfer of the said Jacques-Cartier market from its present site to the site of the new market, near Drouin bridge.

And the continuation of the lease of the cattle market, at the Palais, St. Peter's ward, to Mr. Louis Gignac is hereby granted to him under the same price and conditions as those stipulated in the lease granted

to him by the City on the 5th of February, 1914, the price to be \$1,200. And it is agreed that if the City transfer the site of the said cattle market from the Palais, in St. Peter's ward, to the ground chosen as the site of the new market, on the property belonging to "La Compagnie des Abattoirs," in Limoulu ward, the said lessee, Louis Gignac, shall continue to exercise his rights on the new cattle market under the same price and conditions as those stipulated in the lease of last year, and he shall have no right to claim from the City any sum of money for damages caused to him by the transfer of the cattle stand from its present site, at the Palais, to the new site chosen for the cattle stand on the property of "La Compagnie des Abattoirs."

5th order of the day:—Read the 715th report of the Market Committee, which being put to the vote, is adopted, and it is resolved: That "La Compagnie des Abattoirs de Quebec" having notified the City that, on account of the extraordinary situation brought up by the war and the state of the financial market, they have been delayed in their organization and that it will be difficult for them to build for the 1st of May next on their ground the buildings necessary for the establishment of the cattle market, and that they will be delayed in the completion of their industry, that they are now ready to sign the definitive contract with the City and to erect on that part of their land already chosen by the City Engineer the buildings necessary for the establishment of the cattle stand, but that they ask that the date appointed already be extended to the 1st of July next.

That the said Company have asked that the date of the first of May, 1916, be substituted to the date 1st May, 1915, in paragraphs 3 and 4 of the resolution of the Council bearing date 30th October, 1913, for the full operation of the industry, said Company, and that the date of 1st May, 1916, be substituted to the date of the 1st May, 1914, in the paragraphs 2 and 11 of the said resolution as regards the computation of the privileges granted to the said Company.

And the said Company have represented that they hope to be able to have their establishment in full operation in August or September, 1915, but that to be more sure they ask that the delay be extended to the 1st of May, 1916.

And the Council therefore grants to the said Company the delay prayed for. And the resolutions bearing date the 30th of October, 1913, and 18th June, 1914, are hereby modified in consequence. And His Worship the Mayor is authorized to sign with the said Company a contract ratifying the change of date above mentioned.

6th order of the day:—The Council then proceeds to the first reading of By-law No. 2D, concerning the internal government of the Council.

And His Worship the Mayor reads the said By-law for the first time.

Alderman Verret moves, seconded by Alderman Cote, and it is resolved: That the said By-law be translated in English, that it be published in the official newspapers of the City, with a notice to the public that it shall be read a second time and submitted for adoption at the next meeting of this Council, on the 19th of February instant.

7th order of the day:—The Council proceeds to the first reading of By-law No. 6A, concerning the bridge heretofore called Dorchester bridge, to be called The Allies' Bridge.

And His Worship the Mayor reads the said By-law for the first time.

It is moved by Alderman Verret, seconded by Alderman Emond, and resolved: hat the said By-law be translated in English, that it be published in the official newspapers of the City, with a notice of its second reading, for adoption, at the next meeting of this Council, on the 19th of February instant.

8th order of the day:—Read the 202nd report of the Health Committee, which being put to the vote, is adopted, and it is resolved: That this Council accepts the recommendation of the Health Committee, who have found convenient to recommend the use of the substance called Vitralite, instead of paint, for the painting of the four wards for patients in the Civic Hospital. And this Council hereby orders that the said substance, vitralite, be substituted to paint as aforesaid and approves the additional expenditure of \$1,070, viz. twenty cents per yard, and this Council hereby orders that funds be provided to pay that extra expenditure.

And it being midnight, the Council adjourns.

Adjourned.

New Way to Curl Hair Without Heated Irons

Hair tortured with the curling iron is bound to become dry, harsh and brittle, as so many know from sad experience. It's far more sensible to use plain liquid silmerine, which can do no harm and which produces the loveliest wavy effect imaginable. It takes so little time to apply the silmerine and the hair can be made to curl in any form, to any extent, to conform with any style of hair-dressing. A few ounces from the druggist will last a long time, so it is not at all expensive. Liquid silmerine is not greasy or sticky and it doesn't stain or streak the hair or the scalp.

A convenient way to use it is to pour about two tablespoonfuls into a saucer and then with a clean tooth brush apply evenly to the hair from root to tip. If this is done before retiring the added glory to one's "crowning glory" will be quite in evidence in the morning.

Holt, Renfrew & Co. Limited

SYNOPSIS OF REGULATIONS GOVERNING

Timber on Dominion Lands in Manitoba, Saskatchewan, Alberta, the Northwest Territories, the Railway Belt in the Province of British Columbia, and the tract of Three and a Half Millions Acres, located by the Government of the Dominion in the Peace River District in the Province of British Columbia.

LICENSES. A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only at public auction.

TIMBER PERMITS AND DUES. Permits may be granted in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of a fee of \$500 per acre.

TIMBER FOR HOMESTEADERS. Any occupant of a homestead quarter-section having no timber of his own suitable for the purpose may, provided he has not previously obtained a license to cut timber, obtain a license to cut timber on a quarter-section of the Regulations.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

The sole head of a family, or any male over 18 years of age, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

USUAL PRICES. We have a large supply of CIGARS and CIGARETTES to suit all tastes, which we are offering at the usual price—no advance having been made by the war.

CIGARS: Havana, Manila, and Domestic; **CIGARETTES:** Egyptian, Turkish and Virginia. **GEORGE PATRY**, Importer, 22 Fabrique Street, Phone 6400.

GLIMPSES OF OLD QUEBEC

From the Files of THE CHRONICLE, E. February, 1855 and 1815.

A HUNDRED YEARS AGO TODAY

The United States Bankrupt. We have been favored with a New York paper. It contains an interesting report from Mr. Dallas, American Secretary of the Treasury, on the Bankruptcy of the United States, which we reprint for the information of our Quebec readers. Mr. Dallas, says:

The actual receipts of the Treasury in 1814, were \$40,007,663.58. The charges on the Treasury for that year amounted to \$57,696,590.67. The following is the concluding part of the report: "In making the present communication, I feel, sir, that I have performed my duty to the Legislature of the country; but when I perceive that more than forty million of dollars must be raised, for the service of the year 1815, by an appeal to the public credit, through the medium of Treasury notes and loans, I am not without sensations of extreme solicitude. The unpromising state of the public credit, and the obstructed state of the circulating medium. A liberal imposition of taxes ought to raise the public credit, but it can have no effect in restoring a national circulating medium. It remains, therefore, with the wisdom of Congress to decide whether any other means can be applied to restore the public credit."

HIS LITTLE ACCOUNT. "Tell me the worst doctor." "I'll mail it to you before the first of the month."

HOW TO OBTAIN GOOD DIGESTION. The Stomach Must Be Toned and Strengthened Through the Blood. The victim of indigestion who wants to eat a good meal, and he will suffer if he eats one, finds poor consolation in picking and choosing a diet. As a matter of fact you cannot get relief by cutting down your diet to a starvation diet. The stomach must be strengthened until you can eat good nourishing food. The only way to strengthen the stomach is to enrich the blood and thus tone up the nerves that control it.

QUEBEC BOARD OF TRADE

(Continued from Page Two) in which many millions of capital are invested.

Transcontinental Train Service.

At the request of your Board, and thanks to the good offices of the Hon. T. Chase Casgrain, the new Minister representing this district at Ottawa, the Minister of Railways has just inaugurated a train service on the Transcontinental Railway between Levis, Edmundston and Moncton, and we understand that the freight traffic already offering is surprisingly great. We have also requested that a train service should be put on from Quebec westward to Cochrane Junction, a distance of about 550 miles, so as to serve the needs of the intermediate country, and to give communication to the new settlers on the upper St. Maurice and in Abitibi, who are already said to number 2,000, and who look to Quebec merchants for their supplies. This service has not yet been granted, and as there seems to exist at Ottawa a strange misapprehension as to the value of the St. Maurice territory, we have written a letter to the Postmaster-General, showing that in the industries of the St. Maurice valley, which Quebec merchants and bankers and railway men have done so much to create, there are already about fifty millions of capital invested and these industries give employment in the mills and in the woods, to over 10,000 men, half of whom work at points reached by the Transcontinental Railway. You will find this letter and details of these industries in the printed report of the Board's proceedings.

The Trade of Quebec.

Notwithstanding the depression caused by the war, the general trade of our city, during the past year, has not been too bad. The shoe factories, our principal industry, have been fairly busy, and merchants generally have done a good business. We have, perhaps, been more fortunate than other cities in Canada, and this is due to some extent to the large military expenditure at the Valcartier Camp, where 33,000 men were in training for some months. The bank clearings at Quebec, a pretty index of the state of trade, were for the last three years:—

In 1912.....	\$158,760,185
1913.....	165,674,745
1914.....	165,873,241

But this was not the only evidence that, notwithstanding the war, the trade of Quebec is holding its own. Through the courtesy of the highly esteemed Consul of the United States at Quebec, we find that the exports of the city and district of Quebec to the neighboring republic, for the last five years, show the following wonderful progress:

Exports in	
1910.....	\$ 4,893,550
1911.....	4,430,329
1912.....	6,209,423
1913.....	7,471,113
1914.....	10,302,932

These gratifying figures include, of

on our side, and this is the place where the largest modern steamship, which cannot go any higher up the river, must meet the shortest and best railway, which runs in an absolutely straight line from Quebec to Winnipeg and to the boundless wheatfields of the North-west.

The address was received with loud applause.

Treasurer's Report.

The Treasurer, Mr. W. J. Banks, read his report of the financial position of the Board, which was found to be satisfactory. It was received and adopted.

Election of Officers.

The election of officers was then proceeded with and resulted in the following being re-elected: President: Mr. Joseph Picard. First Vice-President: Mr. J. G. Scott. Second Vice-President: Mr. O. W. Bedard.

Treasurer: Mr. W. J. Banks. Secretary: Mr. T. LeVasseur. Auditors: Mr. Joseph Cote and Lt. Col. E. F. Wurtelle.

Board of Arbitration: Sir George Garneau, Hon. Geo. E. Amyot, M.L.C. Sir William Price, Messrs. John T. Ross, William Lemoine, W. M. Macpherson, J. T. Martineau, Jos. Winfield, M. Joseph, and G. A. Vandry.

Members of Council: The Scrutinizers, Messrs. E. E. B. Rattray and E. Taiguay, reported the following elected members of the Council: J. H. Fortier, J. H. Gignac, Nap. Kirouac, Henri E. Lavigneur, Nap. Lavoie, Gaspard Lemoine, E. T. Nesbitt, Chas. Noreau, John T. Ross, Jos. Savard, A. E. Scott, Lt.-Col. J. A. Scott.

The Late Lieutenant-Governor. Mr. John T. Ross moved, seconded by Mr. P. Brunet: That the Quebec Board of Trade have learned with the deepest regret, the death of Sir Francois Langelier, K.C.M.G., Lieutenant-Governor of the Province of Quebec; that the members of this Board do not hesitate to state that the death of that great citizen may be considered as a true national loss; that his career has been a very remarkable one and an example for the young generation. That Sir F. Langelier had been endowed by nature with the brightest intellectual dispositions which he has always used in the interest of causes worthy of support; that he had nothing more at heart than the progress and the development of our old city; that during his long and bright career he has never ceased to work in the public interest.

Resolved: That the Secretary be instructed to transmit to the bereaved family of the late and lamented deceased, with these resolutions, the expression of the deepest sympathy of this Board. The motion was carried by a standing vote.

Condolence. Moved by Mr. G. E. Tanguay, seconded by Mr. B. Whitehead, and resolved: That the Quebec Board of Trade have learned with the deepest regret the death of two of our most esteemed members, the late and lamented Erskine Guthrie Scott, and A. Leofred, and that the Secretary be instructed to transmit to the bereaved families our most sincere condolences.

Congratulations. Moved by Mr. Jacques, seconded by Mr. Pettigrew: That the Quebec Board of Trade has learned with pleasure that Sir William Price, ex-President of the Board, has received the title and privileges of Knight Bachelor in His Majesty, King George V., in recognition of his great public services; that the members of the Quebec Board of Trade are pleased to state that Sir William Price deserved such a reward and is worthy of view that the members of the Board take advantage of this annual meeting to tender Sir William Price their most cordial and sincere congratulations.

Street Cars in Champlain Street. Mr. M. Maloney rose and said: We should have a closer working agreement between the City Council and the Board of Trade, so as to avoid duplication of efforts and secure more uniformity of action on matters affecting the City's welfare, besides other matters of almost equal importance. It is gratifying to know that Quebec is standing up well under the stress of war, and that the future outlook is most encouraging. As the Government has promised to remove the debris of the unfortunate landslide in Champlain Ward early this Spring and on account of the promise of the government, a tremendous boom in that vicinity regarding the building of elevators, tunnels, and other improvements, and as the Harbor Commissioners have improved the water front and harbor in that locality, and also there is two large American shoe manufacturers, who have looked over the property in this ward; I make the following resolution, seconded by Mr. Jos. Cloutier: That the City of Quebec have the Quebec Railway, Light, Heat & Power Company carry out their charter with the city, and have their line built and run up Champlain Ward to city limits as their charter calls for.

The motion was passed and referred to the Council of the Board.

New Members. The following new members were elected: Messrs. L. J. A. Noel, merchant; David Racine, watchmaker and jeweller; G. A. Lepine, undertaker; F. W. Marsh and David Marsh, of W. A. Marsh Co. Limited; J. R. Bissailon, Lake of the Woods Milling Co.; Alderman Francis Dinan; Alderman J. A. Collier; V. Ismay, manager of the Bank of British North America; W. Bancroft, manager of Bank of Montreal; and Moses Gardner, of the Gardiner Clothing Company.

The meeting then terminated.

LESS MEAT IF BACK AND KIDNEYS HURT

TAKE A GLASS OF SALTS TO FLUSH KIDNEYS IF BLADDER BOTHERS YOU.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly back-ache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys are not acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the combined of grapes and lemon juice, combined with Ethia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney troubles.
