JAPANESE WIN A LAND BATTLE

Russians Lost 800 Men Killed, Wounded and Prisoners and Fourteen Guns

RUSSIA'S VLADIVOSTOCK SHIPS.

Sinking of Two Japanese Transports is Confirmed—Extent of Casualties Not Known—Jap Warships in Pursuit

JAPANESE VICTORY ON LAND.

Tokio, June 16.—(Special.)—In the fight which is reported to have taken place at Tiesan, on the railway, about eighty miles north of Port Arthur, the Russians lost 500 men, killed, 300 taken prisoners and 14 guns. The casualties on the Japanese side has been estimated at 1,000 men killed and wounded.

JAPS TRANSPORTS WERE SUNK.

Tokio, June 16.—(Special.)—All doubt as to the sinking of the transports Hitachi and Sado by the Russians has been removed.

Three hundred and ninety-seven survivors of the Hitachi have arrived at Moji, and 153 survivors of the Sado have arrived at Kokura.

Details of the destruction of the transports and the full extent of the casualties are not obtainable.

ST. PETERSBURG HEARS OF DISASTROUS DEFEAT.

St. Petersburg, June 16.—(Special.)—It is rumored throughout the city that General Stalkerberg has sustained a disastrous defeat at Vafangou and that his retreat is being cut off.

THE VLADIVOSTOCK SQUADRON.

Tokio, June 16.—In the absence of any official or authoritative account of the sortie of the Vladivostock squadron it is only possible to send what appears to be the most reliable of the numerous reports. The squadron, reported to consist of the cruisers Kurik, Rossa and Gromoboi, and according to some accounts, of a flotilla of torpedo boats, arrived Tuesday in the Straits of Corea, whence sounds of cannonading were heard on the Japanese and Korean coasts. It is stated that the Russians bombarded the Islands of Ikin, which lies half way between the Island of Tsushima and the Japanese mainland. It is reported that the Japanese warships at Sasobo and elsewhere hastened in the direction of the firing and the cruiser Nittaka encountered the Russians off Tsushima island. The Nittaka was severely damaged, but at last reports was still trying to keep in touch with the enemy. The Japanese transports Ugo Maru and Fugo Maru, homeward bound, had previously been sighted by the Russians, who pursued them, firing sixteen shots, but the transports reached Katsumoto safely.

TRANSPORTS ATTACKED.

Another account says that the Russians intercepted three laden Japanese transports, two of which are missing. The steamship Buri Maru, which left Moji for Bakan, at 10 p.m., June 14, returned at midday to-day, flying the signal: "The enemy's vessels are on the sea."

The Buri Maru subsequently reported seeing the merchant steamer Mitani Maru fired upon at 6 o'clock in the morning. She also saw another steamer surrounded by the Russians. Another report states that the Russians met some Japanese steamers north of Kishima Island, some of them outward bound from Moji, while others were from the west. The warships fired on them, causing a great damage.

CAUSES ALARM.

The lack of definite news is attributed to fog and rough weather. The arrival of the enemy's cruisers close to the Japanese coast is causing excitement, although it is declared that no city is exposed to attack, there is considerable anxiety regarding shipping, it being known that there are a number of unescorted vessels at sea.

The Jiji Shimpu prints the following: "We are of the opinion that the three Russian ships arrived at Kishima Islands on June 14. The firing heard was not directed against the warships. The steamers fired upon by the Russians were not injured and escaped to port. A dense fog prevailed around Kishima Island on the morning of June 15. Since they were last seen one of the Russian vessels has parted company with the others. We have carefully guarded the Straits of Corea and a scout immediately reported the enemy's ships to the squadron. The scout kept them well in touch throughout the day. At times she was barely a mile away from them. There was a

clear horizon, but a tremendous sea was running. We hoped after darkness had set in to locate and fight the enemy, but it was difficult to find and engage them, even though their speed was restricted to fifteen knots, owing to one of the older ships not being able to keep up with the rest."

SUNK TRANSPORTS.

It is learned that the Russian Vladivostock squadron surrounded the transport Sitachi Maru, which, when last seen, was enveloped in smoke. It is feared that she was sunk. The Ugo Maru received sixteen shots, but managed to escape, and reach Katsumoto. The Hado Maru left Moji yesterday and it is feared that the Russians sank her. A Japanese fleet is pursuing the Russians, who escaped to the eastward in a fog. It is certain that the Russian squadron will soon be destroyed by the vastly superior Japanese fleet, which is preventing its return to Vladivostock.

HEARD IN LONDON.

London, June 16.—Beyond the facts that the Vladivostock squadron reached the Straits of Corea, that much cannonading was heard and that shipping operations have been suspended, nothing can yet be said with certainty regarding the raid which Admiral Skrydloff organized with the evident intention to disarrange the Japanese plans, and draw part of Admiral Togo's fleet away from Port Arthur. There is no certainty that any fighting happened, although two correspondents assert that a battle was in progress Wednesday morning. Admiral Skrydloff personally commanded the Russian squadron and Admiral Kamimura a fleet of fast Japanese cruisers. This report is evidently generally current in Tokio but conservative correspondents treat it as conjectural and declare that the admiralty is without any information. So far as can be judged from the most reliable reports, the firing was confined to shelling Japanese transports, and merchantmen along the coasts of the islets, with probably an exchange of shots with the Japanese cruiser Nittaka, which was apparently detailed to watch the Russian movements.

SAY JAP VICTORY.

London, June 16.—A despatch to the Daily Express from Tokio, dated June 15, says news has reached there, but has not yet been officially published of a great Japanese victory near Fot Chou, on the railway seventy miles north of Port Arthur. The Russians, it is added, were overwhelmed, lost a thousand men, left all their guns on the field, and retreated in disorder.

The Daily Chronicle's correspondent at Tokio cables the same news, adding that the Russians, to the number of 7,000 men, are now in full flight towards Tshi Chiaoou, and Kailo Chow.

HEAVY FIGHTING.

London, June 16.—The correspondent of the Central News at Liao Yang, telegraphs as follows: "The fighting at Vafang (about 55 miles north of Port Arthur) was renewed to-day and is still proceeding. No details are obtainable, but there are persistent rumors that the Russians were successful, destroying three squadrons of cavalry and making prisoners of sixty men. The Russian casualties in the fighting yesterday were 308 men killed or wounded. The Japanese casualties are not known."

Later a section of Russian cavalry marching in the direction of Tafan-Chow and Lun-Koo discovered on its right flank a great force of Japanese cavalry. An engagement ensued, and according to the latest despatches fighting is proceeding all along the line, the Japanese having received reinforcements from Vafangou, consisting of three infantry divisions with artillery and cavalry."

CLOSE TOGETHER.

General Kuroki's headquarters in the field, via Fu-San, June 16.—It was announced here yesterday that the enemy in front of the second Japanese army is increasing, and the forces are coming closer together. A battle is expected. There has been no fighting in front of the first Japanese army since June 12, when two companies of Russians were driven from Wu-Tai Ho with a loss of 20 men. The Russians have re-occupied Tong-Yeng-Pu, on the Liao-Yang road; Si-Ming-Tsu, on the Lien-Shang-Kwang road and Samehai-Tsu, on the Hai-Cheng road, with small forces.

LAW SUITS IN BEDFORD DISTRICT.

Two Judgments by Mr. Justice Lynch at Sweetsburg.

SEVERAL CASES HEARD — AN ELOPMENT CASE SETTLED, OUT OF COURT.

Sweetsburg, June 16.—(Special.)—The opening of the Superior Court for the month of June, took place Tuesday, Hon. Justice W. Lynch presiding. His Lordship rendered judgment in the following cases:

Frank B. Perkins vs. the Corporation of the Municipality of Stanbridge Station, condemning the defendant, Corporation, to pay \$23.00 damages to plaintiff, with costs.

Murphy et al vs. Dozois, condemning defendant, Dozois, to pay plaintiff the amount of \$5.50 and costs.

The case of the Cercle Agricole de St. Alphonse et al vs. Fostin, was fixed for enquete and merrits on Thursday, the 16th inst.

SEVERAL CASES HEARD.

The case of the Duncan Company vs. A. L. Bridge, of Eastman, was heard, yesterday. This enquete occupied the attention of the Court nearly all day. This is an action in ejectment. The plaintiff declared that he had no enquete to make at present. The witnesses heard on behalf of the defendant were: The Hon. E. F. DeVarennes, George L. Clemons, Alf. J. Cody, Louis Poulin, E. J. Esty, Fred B. Lamb, Benjamin Rivard, William H. Bridge and L. R. Bridge. Mr. Alf. J. Cody was examined in rebuttal by the plaintiff. The case was immediately argued and judgment will not be rendered until two or three weeks.

The case of John D. Cameron vs. Bruce Galbraith was heard yesterday. This is an action instituted against said defendant to recover a sum of \$100 for damages caused at plaintiff's house by not heating it last winter, defendant having rented it from the plaintiff, and then having left the premises without notice. There was considerable damage done to the waterworks in the house by frost, hence the action. Two witnesses were heard, Mr. John D. Cameron, plaintiff, and William Topp, plumber, who made the repairs. The defendant makes default. The case was pleaded and argued to-day, and judgment is expected in a day or two.

An elopement case which promised to cause some excitement was settled out of court. The defendant pays costs, and furnishes a \$1,000 bond as a guarantee that he will not cause injury to plaintiff, which he had threatened to do.

HUNTINGVILLE MAN KILLED TO-DAY.

Mr. S. A. Hyatt Struck by Falling Timber.

WAS ENGAGED IN TEARING DOWN AN OLD BUILDING.

Mr. S. A. Hyatt, of Huntingville, was instantly killed this morning. He was at a farm owned by Mr. S. Mallory, on the Lennoxville road, between Huntingville and Lennoxville, engaged in tearing down an old building. A timber fell, striking Mr. Hyatt, causing his almost immediate death.

The deceased was well and favorably known in the community, where he had lived for many years.

SEES DANGER IN DIVORCE WAR.

REV. PEARSE PINCH BELIEVES IT WILL RESULT IN FRESH DISASTER TO THE HOME.

Chicago, Ill., June 16. — In a sermon on divorce, Rev. Pearse Pinch has declared, in Forestville Congregational Church, that the attempts on the part of the stronger ecclesiastical bodies to whip preachers into line will only result in fresh disaster to the home. "Instead of settling the divorce question," said the minister, "Jesus left the whole subject open. Ministers are not compelled to say that all persons divorced for anything but the 'one cause' shall not marry again. They are free to teach what obvious justice and humanity require, and not a harsh law that Jesus never gave. If, for example, a woman refuses to live with a man who makes himself a drunken brute, and gets a divorce from him and later marries a decent man, no preacher is bound to denounce such marriage. Divorce is too light a punishment for offenders against the marriage tie. The most serious offences ought to meet imprisonment for life. It is not laxity for which I plead, but the right to teach not some outrageous rule that Jesus never gave, but that which the situation justifies."

In the Academy of 62 pupils, 44 have written in the examination. The results in the examinations are not yet to hand, but it is anticipated that the returns will give the college a big surprise. In III. Academy the work was harder than usual, but at the same time it has been a more successful year than before. The III. Academy students were called up and the local reports read to them. The class was as follows: Misses Gale, Smith, Crane, Wilson, Libby and Terrill; Messrs. Vessil, Kennedy, William, Clark Stevens, Millet, Hodge, Baldwin and Smith. In 1st Academy, which was a large class, the following received prizes, the presentation being made by Dr. C. R. Flanders: 1st prize, Willie Deacon; 2nd prize, Wallace Campbell. The Eastern Townships Bank offered a silver medal for the student obtaining the highest number of marks in Grade II., Academy. Miss Ruth Libby was the winner in this, and will receive her medal within a short time.

THE MUSICAL DEPARTMENT.

Prof. Charles W. Holmes then gave a brief account of the work done in the Musical Department. The work has proven so extensive that it was necessary to employ another teacher for piano. Total registration, 53; rudiments, 14; history, 17; harmony, 15; vocal, 22; sight reading, 23; making total number of students, 83, compared with 62 last year.

The examinations were under Mr. Torrance, of Toronto University, who sent the results * by telegram. Nearly all passed. The following pupils are those taking honors, Clara Wilkinson, Edna Caswell, Eugene Fox, A. McGovern, Bessie Brooks, Bertha Harkness, M. Carter, Blanche Martin, Miss Teeter, Murray Brooks, Gordon Diming, A. Flanders, H. Hebert, Ruth Flanders, Jessie Johnson, Mary Gale, Clara Lanctot, Vera Webster, Marjorie Flanders, Will Dawson, Miss E. Fee, Miss Welch, Robert McIntosh, and Miss Allison McMain.

DEATH LIST NOW OVER SIX HUNDRED.

Pitiful Scenes Followed the New York Sunday School Disaster.

THE CAPTAIN IS UNDER ARREST.

Cannot Tell How Fire Started — Eye Witnesses and Survivors Tell of the Disaster—Many More Might Have Been Saved but for Panic.

A DISASTER WITHOUT A PARALLEL IN AMERICA.

New York, June 16.—(Special.)—When dread tale of steamer General Slocum disaster is fully told, when the last blackened body has been taken from the burned hulk and the swift waters at Hellgate give up their dead, the catastrophe will take its place as the most appalling that ever occurred in the inland waters of America.

Definite figures on the loss of life cannot be given. That more than 500 persons perished is a horrible certainty, but how much in excess of that number the total will run will only be known when the missing column is finished.

All during the night and through the early dawn of the day the sad work of exploring the Slocum's hull went on, and from the dock to the morgue the sad procession of ambulances, each with its pitiful load, wound its way from the river front to the morgue at the foot of 26th street, until at 10 o'clock 463 bodies lay on slabs.

Most of these came from the wreck, but all night long the patrol of the waters of the East river added its ghastly quota.

There are many bodies still in the hold of the burned vessel according to divers and wreckers, but the river is locked to complete the list.

How many preferring death by drowning to the agony of death by fire and went over the rail never to rise again during the mad race of the vessel for the beach will probably never be known, for the treacherous waters of Hellgate do not willingly give up their victims.

LOSS MAY REACH 1,000.

New York, June 16.—(Special.)—At noon, according to the best obtainable information, about 450 persons are reported as missing, at the coroner's office.

The Chief of the fire department and the police agree in the estimate that the total loss of life will closely approximate 1,000.

AT THE MORGUE.

New York, June 16. — The latest statement regarding the East River disaster is that the dead number over six hundred.

Last night a surging crowd was held back by the police lines formed about the city morgue, at the foot of East 26th street. The crowd began to gather as soon as it became rumored about the city that the dead would be brought to Manhattan from North Brother Island and other places, where at first the dead had been taken. When the Massasoit came to dock with 85 dead, the work of removing the bodies from the steamer proceeded slowly until no more room was found inside the morgue, and the autopsy room was cleared and the blackened and distorted bodies were placed on the floor there.

When finally the morgue authorities allowed the crowd to enter the morgue a scene ensued which was harrowing in the extreme. In some cases first identifications would be found to have been erroneous, men laying claim to bodies they afterwards discovered were not those of their relatives.

At the entrance to the Charities pier at the foot of East 26th street, the crowd last night tried to push past the police and a riot resulted. At the height of the trouble a man who had learned that his wife was among the charred dead, tried to stab himself.

Inside the pier the bodies are ranged in three rows, extending the entire length of the pier, or 150 feet.

MIGHT HAVE BEEN.

Charles L. Storms, who owns the lumber yard at 134th street and the East River, says that the loss of life on the General Slocum could have been avoided had the captain steered for shore when he first discovered the fire.

Slocum had turned in then not a life would have been lost. "Later, when I saw how badly off the Slocum was and saw the people running around on her decks and people jumping overboard, I saw a big steam yacht, a black craft, with yellow funnels, go right past her and make no effort to assist those on board."

PATHTIC INCIDENTS.

A little girl about seven years old, walked sobbing along the line of dead on the pier. She said she had lost her mother and grandmother. By a peculiar coincidence the bodies were found side by side and identified by the little girl. The mother was Mrs. Annie E. Burchard, and the grandmother, Mrs. Louisa Schwartz.

A sight that brought tears to the eyes of all beholders was the body of Mrs. Lillian Grandin, of No. 998 Avenue "A." Clasped to her breast was the body of her nine months old baby. Both had been burned to death, the mother vainly endeavoring to protect her child.

THE MATE'S STORY.

Edward Flanagan, mate of the wrecked steamer, told the police it was impossible to calm the excursionists after the first appearance of the flames. He said: "It was unfortunate that there were not more men aboard and that all of the excursionists did not understand the English language. Women and children pushed to the sides of the vessel and before any one could restrain them they were leaping overboard by the hundreds. It will be found that many lost were drowned by jumping overboard, who, had they kept their presence of mind, would now be among the saved. Many of the poor people were so frantic that they actually ran into the flames and were consumed. I saw several instances of this kind."

AT THE HOSPITALS.

Many pathetic scenes were witnessed at the various hospitals where the relatives sought their loved ones. Wild-eyed men, tremulous women and frightened children begged to know if any of their families were at the hospitals.

"Have you seen my wife? My children? I have lost all." "I have five children," said a distracted woman at the Lincoln Hospital. "The oldest 19, and the youngest five years of age. They were all on this excursion. Let me pass."

The men on guard stepped back, and she ran panting up the stairs. The nurses helped here, and presently she came upon a girl in a bed in one of the wards so bandaged that none but a mother would have recognized her. The girl was burned about the head and limbs, but she leaped from the bed at the sight of her mother, and the two descended to the lower hall, where they sat side by side in a tearful embrace. "My name is Mrs. Iden, and I had five children this morning; now I have only this one, my dear one," said the woman, holding the girl as if she feared yet she might be taken from her.

In the same hospital were many little boys.

"My mother gave me a life preserver—that's how I got saved," said one whose name was Muller. "I guess she did not have none herself, 'cause she can't find her."

Up and down the wards and corridors tramped a little lad two years old. He had yellow hair and was neatly dressed in white. He could talk little, and that little was German so he and the nurses took each other on faith. He spoke of his mother and it was understood that he had been with her on the excursion. After he had been in the hospital for several hours, his father, a came, sad of face, and kissed the little boy and took him away.

"I cannot find her," said he, when asked about the boy's mother, but the little chap smiled, waved his hands in farewell, and went away hugging a toy.

CAPTAIN UNDER ARREST.

Charles E. Hill, a director of the Knickerbocker Steamboat Company visited the Lebanon Hospital late yesterday to see Captain Van Schaick, the commander of the General Slocum, who had been taken earlier in the day under arrest. After a talk with him Mr. Hill said that the captain did not

ALLEGED FORGERIES.

Elgin, Ill., June 16.—Miss Martha E. Linn, sixty-one years old, and for many years prominent in Elgin church, social and woman's club circles, has been arrested here on the charge of forgery and is now in jail. An Elgin attorney, it is stated, holds notes for collection against Miss Linn, amounting to more than twelve thousand dollars. Most of these notes are signed with the names of B. E. Linn and W. W. Teal. Mr. Teal declares his name has been forged in every instance. It is alleged that Miss Linn has borrowed money on these notes from many persons in Elgin and nearby. It is asserted that many of her alleged victims were widows who had collected life insurance upon the death of their husbands.

MOROCCAN AFFAIR.

HITCH IN NEGOTIATIONS FOR RELEASE OF THE CAPTIVES.

Tangier, June 15.—A courier from Raisuli, the bandit chief, who kidnapped Messrs. Perdicaris and Varley, arrived here during the night. U. S. Consul-General Cummere, and the British minister, subsequently visited Mohammp El Torres, the representative of the Sultan of Morocco, to discuss the contents of Raisuli's message. The distance of Raisuli's headquarters makes the negotiations drag. It is now thought possible that the captives will not be released this week. The British minister says there is a hitch in the negotiations which will probably delay the release of the prisoners, but he refused to state the nature of the difficulty.

The Elementary school, supervised by Miss Hopkins, closes next Friday. A general invitation is extended to the parents and friends of the scholars to attend the closing.

Mrs. Round, of Chester, Vt., is the guest of her uncle, Mr. A. A. Dutton.

MORE REFORM IN MISSOURI.

(From the Kansas City Journal.) The most novel social institution of Charleston County is a rat-catching club. The members meet at each other's homes at stated intervals and kill rats to work up an appetite for the fine country dinner that follows.

At the home of Tom Berry they killed 200 rats the other day, and a little before they killed 100 at George Polson's. The club is growing fast.

THE LHASSA TERRIER

A BREED OF DOG SAID TO BE OF VERY ANCIENT LINEAGE.

(From C. B. Fry's Magazine.) The little toy dog of Tibet, which kennel club editors have declared shall properly be known as the "Lhasa Terrier," is no novelty in our midst, although his numbers in an unkind climate possibly do not reach a round dozen. He has been shown and exploited by fashionable ladies for some five or six years past, and was by way of taking a lead with other Asiatic breeds that were all the go—the "looted" spaniels of the dowager empress, the edible and hairless dogs of China, and the pet dogs of the Japanese mousme, when the fact of a too restricted board of agriculture fell, spelling one word—quarantine! That influence, therefore, which might have opened the gates of Lhasa, and, perhaps, too, the hospitable heart of the grand lama himself, and which might even have rendered expeditions unnecessary, received a check. Woman's curiosity in regards to "points" of the Pope of Asia's own particular dogs had to be satisfied with second-hand information obtained for them by "mere male friends," who lived in India on the northern frontier, and who saw on arrival those dogs which occasionally come down from the mysterious tablelands, together with spices, and bales of woven stuff and the long-haired cats, the petted companions of Thibetan monks. A great antiquity is claimed for the breed, a point which may perhaps be ceded where four thousand years is advanced as the possible age of the treasured toy breed of Peking's palace. The little Lhasa terrier is covered with a heavy coat of long silky hair, which, falling all over the face of the dog, partly obscures the eyes. He is sometimes gray, black and white, or darkish brown with white markings. He bears considerable resemblance to the Maltese terrier in outline, and it has been supposed that this is the breed which Cleopatra obtained through her emissaries from the East and introduced into Egypt and the Greek Isles, and for which Greek and Roman ladies paid so lavishly.

At present the dust in our streets is very annoying, and on every hand we hear complaints of it. Why cannot we have a street sprinkler?

Our "good roads" friends may well feel, if they have occasion to drive over certain portions of newly repaired roads within a few miles of our village, that all their efforts have been useless, for in some parts it is almost an impossibility to meet and pass a loaded team without upsetting and in certain parts of what is known as "Jack Ware Hill," it is absolutely dangerous for either man or woman driving a spirited horse to encounter an automobile, as the road is very high and narrow with deep ditches on either side, which makes it unsafe to meet even an ordinary carriage. He was educated at the University of Toronto, where he graduated B.A. in 1886. During his four years of student life he lived in the second house at the Residence, and, though of a somewhat reserved disposition, was highly appreciated by those who had the privilege of his acquaintance. Even in those days he devoted a great deal of time to drawing, and he was also a clever performer on the flute. Shortly after graduating he left for Europe to study art and has lived in Paris most of the time since.

Why He Became a Cook.

Sir Horace Plunkett tells a story of his ranching days in the West. Riding into camp one evening, he turned his horse loose and got some supper, which was a vilely cooked meal, even for a cow camp. Recognizing in the cook a cowboy he had formerly employed, Sir Horace said to him: "You were a way-up cow hand, but as a cook you are no account. Why did you give up riding and take to cooking? What are your qualifications, anyway?" "Qualifications!" he replied, "why, don't you know I've got varicose veins!"

The offer of Mrs. Keene to lend her garden for a lawn social was gratefully accepted, due notice of which will be given as soon as arrangements are completed. Several parcels of bedding, etc., and articles of furniture have been donated in answer to the appeal and will be duly acknowledged. It was proposed that a circular be issued to all the clergy of the district informing them of the existence of the Association and asking them to advise young women coming as strangers to Sherbrooke to make the rooms their home. Messrs. H. C. Wilson & Sons have kindly offered to lend a piano free of charge. Gifts of chairs and carpeting are earnestly solicited, also, window curtains and a bed room mirror. It is hoped that the rooms will be ready for occupation in a few days.

TORONTO METHODISTS.

RESOLUTION FAVORING CHURCH UNION UNANIMOUSLY EN DORSED.

Toronto, June 16.—Several important recommendations from the me-

morial committee were endorsed by the Toronto Methodist Conference, The Conference lined up with other representative sections of the church and adopted unanimously and with enthusiasm, a resolution favoring the organic union of the Presbyterian Methodist and Congregational churches. It was also urged that steps be taken to co-operate with the General Conference Committee, with a view to bringing about the desired union. Another important step was taken in authorizing the appointment of a committee on evangelism, with power to appoint one or more Conference evangelists and to raise funds to defray salaries and expenses. Other recommendations adopted were as follows:

- (1) That the Conference approve the steps being taken by means of arbitrators and the Hague tribunal to establish peace among the nations, and especially urge that a treaty of arbitration be entered into between Canada and the United States.
- (2) That a college for Methodist young ladies be established in Toronto.
- (3) That each pastor preach an educational sermon at least once a year.
- (4) That the Conference accept the \$100,000 donation for a Methodist hospital, granted by Hart A. Massey, and take steps to establish such an institution.

WEDDING BELLS.

LEITH — THOMAS.

The marriage of Miss Hilda Thomas, second daughter of the late Daniel Thomas, of Sherbrooke, to Mr. Walter Smith Leith, of Kingsley Falls, took place yesterday at Richmond. The bridesmaid was Miss Isa Fales, of Sherbrooke.

GOUGH — KEES.

A very pretty wedding took place on Wednesday evening, June 15th, at "Lakewood" the home of the bride's parents, Mr. and Mrs. Jas. Kees, of Stoke, Que. The contracting parties were Mr. A. E. Gough, of Farnham, and Miss Carolyn L. Kees, of Stoke. A number of friends and relatives gathered for the occasion. At 7 p.m., the organ pealed forth the Wedding March, rendered by Miss Amy E. Armstrong, assisted by Mr. A. H. Bartlett with the cornet. The parlor, where the ceremony took place, was lit with candles and prettily decorated with ferns and white flowers. The bridegroom was accompanied by Mr. L. E. Browne, of Granby. The bride entered the parlor on the arm of her father, while her sister, Miss Konnie Kees, and Miss Raymond, of Waterloo, acted as bridesmaids, and Joyce Raymond, Edith, Beatrice and Muriel Kees as flower girls. The bride was becomingly attired in white organdie, with Battenburg yoke and trimmings, and silk tulle veil, and wore a beautiful gold necklace set with pearls, which was the gift of the groom. The Rev. E. J. Roy, of East Angus, officiated. After the usual congratulations were over the party gathered in groups on the lawn and did justice to the many good things provided for the occasion. The gifts were numerous and very useful. The groom presented the bridesmaids and flower girls with gold brooches set in pearls. Mr. and Mrs. Gough drove to Sherbrooke, and took the 10.33 train for Port Stanley, Ont., where they will spend their honeymoon, and on their return will reside in Farnham, Que.

FRASER — RICHMOND.

The marriage of Miss Mary Orilia Richmond, daughter of Mr. and Mrs. Azariah Richmond, of Ely, to Mr. William Fraser, of Richmond, took place in the Methodist Church, Bethel Ave., on June 8th, at 2.30 p.m. The ceremony was performed by the Rev. T. Roy, of Lawrenceville, and Miss Bilton, of Danville, played the Wedding March. The bride's brother, Gordon, and Mr. Bert Cassidy, of Durham, acted as ushers. The Church was decorated with ferns and flowers for the occasion.

The bride was given away by her father. She wore white organdie trimmed with lace insertion and ribbons, with white tulle veil and flowers. She also carried a beautiful bouquet of maiden-hair ferns and white carnations. Miss Phillips, of South Durham, was bridesmaid, and wore pale blue voile. Mr. Armstrong was best man. After the ceremony, about eighty guests accompanied the happy couple to the home of the bride's father, where a reception was held. The presents were numerous and costly, testifying to the high esteem in which the couple were held. The groom's gift to the bride was a gold watch; to the bridesmaid, a gold brooch, set with pearls, to the best man a scarf pin, and to the ushers, tie pins.

In the evening a large number gathered at the South Durham station to see the newly-married couple off on their honeymoon, which was spent in Cornwall, Ont., and other western towns. A reception was held at Mr. Fraser's home on their return, when a number of friends gathered in to welcome them home. Miss Richmond was one of our most highly-esteemed young ladies and an active Church worker. We all join in wishing them happiness and prosperity in their new home, and a large sphere of Christian usefulness in their new life.

BURGE — LONG.

The marriage of Miss Maybelle Violet Long, second daughter of Mr. Ed ward Long, of this city, to Mr. William Robert Burge, was solemnized yesterday afternoon at the Methodist church in the presence of a crowd of spectators, who, in addition to the

Portland, Me., June 16.—The sessions of the National Conference of Charities and Corrections, which began to-day — and continue until June 22nd, were preceded by the first national conference on the education of backward, truant, and delinquent children.

SHE SEES BEFORE HER "FORMER CONVICTS," BUT SHE DOES NOT GIVE DETAILS.

New York, June 15.—In an address in the Madison Avenue Reformed Church, Mrs. Ballington Booth has caused much consternation among the members of the fashionable congregation. She was speaking of work in the State prisons of the country and success in the reformation of so-called "habitual" criminals. "I see before me many examples of what the love of Jesus Christ can do for habitual criminals," she said. "I see here former convicts, with their wives, and some even with children." Many of the listeners looked at one another as if each felt that a neighbor might be one of those to whom Mrs. Booth was referring. Suspicious glances were cast and many looked askance to see a tell-tale blush, but none was observable, and Mrs. Booth continued her remarks, assuring the congregation that she did not intend going into details.

THE DUNDONALD-FISHER MATTER.

Premier Lays Correspondence and Papers Before the House.

SIR FREDERICK BORDEN INTERVIEWED—UNDER NEW SYSTEM THERE WILL BE NO G.O.C.

Ottawa, June 16.—Sir Wilfrid Laurier announced at the opening of the session of the Commons yesterday afternoon that the Governor-General had approved of an order relieving Lord Dundonald of the command of the militia.

After the division on the budget Sir Wilfrid Laurier laid on the table the correspondence and papers relating to the dismissal of Lord Dundonald, and moved that they be at once printed, for the use of the members.

Mr. Borden asked if the papers included all the letters bearing on the question, and was told by Sir Wilfrid Laurier that there were some more which would be laid on the table at the next sitting. This did not satisfy Mr. Borden and in reply to further questions the Premier said all would be brought down that were on file.

Again Mr. Borden rose to say that he wanted not only letters on file in the Department of Militia but letters which had been written by Mr. Fisher and which constituted an interference with the militia. Without these he intimated the record would be imperfect. Mr. Borden said that he would, if necessary, take means to supplement the Government's return. This little passage ended, the House adjourned at 12.45.

AS TO A SUCCESSOR.

Ottawa, June 16.—In an interview yesterday Sir Frederick Borden was asked: "Have any steps been taken towards securing a successor to Lord Dundonald?"

"Well, no," said Sir Frederick. "We will cross that bridge when we come to it."

"Will it be a Canadian?"

"Well," responded the minister, "you know that according to the new system there will be no G.O.C., but an inspector-general. As I have already stated in the House, I would favor his being an imperial officer."

"Will the dismissal of Lord Dundonald interfere with the carrying out of the new system of the infantry and cavalry drill that he has introduced?"

"I don't think so," replies Sir Frederick. "I understand that Lord Dundonald has written some books, and if they are in good English and can be followed, the details will be carried out along the lines upon which they are written. This will be possible without the presence of Lord Dundonald, as drill systems are studied from the books written by men who are now dead. The removal of the G.O.C. will not interfere with the camp arrangements. General Cascoigne left us at about this time of the year, and we managed to struggle along."

know the cause of the fire. "The cause of the fire is not known," said he. "I say that because no investigation has begun. The Government will undoubtedly begin an investigation. The captain is under arrest and it would be inadvisable for him to make any statement at present, but he told me that he and the first and the second pilots, Edward Van Wart and E. M. Weaver, were in the pilot house until the Slocum was beached. Then they jumped direct from the pilot house into the water. The captain burnt his leg and may require an operation. The two pilots were practically uninjured, and assisted in saving life. They were all in the wheel house until the last." "Was the boat under steam all the time?" Mr. Hill was asked. "It has been said that the pilot house was deserted, and that the boat drifted with the tide until she ran aground.

"The steam was on until the boat struck. The engineer, Frank Conlin, told me that he was in the engine room until the boat struck. The current was on the flood, and could not have carried the boat to the beach. It would not have been possible to have beached the boat earlier, for there is no shallow water nearer than North Brother Island. If the boat had been run alongside the piers or pushed on the rocks in the main land she might have sunk as the water is deep along there, and more lives would have been lost. The captain said that the first he knew of the fire was when he was told of it through the tube by someone below. The Slocum was then off the Sunken Meadows. He took the boat to the nearest place where she could be beached.

"Was anything done towards fighting the fire?" "The mate had charge of the fire fighting, and we don't know where he is. The pumps were going, and there was fire fighting."

"Was there a panic among the crew?" "I have heard of no panic. There were in the neighborhood of 3,000 life-preservers on board."

THE CAPTAIN'S STORY.

Captain Wm. H. Van Schaick, captain of the Slocum, who is at a station, said: "The Slocum left the foot of East Twenty-third street at half-past nine o'clock this morning. There had been collected from those on board nine hundred and eighty-two tickets. The boat passed slowly up the river, through Hell Gate, and over towards Sunken Meadows, where the Cawana was burned in '78. When close to the Meadows an alarm of fire was given. At that time I was in the pilot house. I jumped down to the deck and gave immediate orders for fighting the fire. The fire drill was sounded, and the crew of the boat, numbering 23 men, worked like niggers to get water on to that part of the boat which was burning."

"The fire was under the forward boilers on the port side, as I made it out in the excitement. My men were exerting their efforts towards keeping the passengers from jumping. The fire was gaining every instant, and the cries of people burning to death could be heard above every other sound.

"I got the boat under way direct for North Brother Island, which was the safest place to attempt to land. The boat was driven on under full speed, and pulled up sideways to the shore of the island. Many had jumped prior to this. Many were jumping every instant. My pilots, Edward Vanwart and Edward M. Weaver, were doing everything to get safely towards the shore, and Engineer B. F. Conklin, stuck in the hold. Mate Edward Flannigan had charge of the fire brigade, but when the fire spread over all, we had to get off the boat. My hat was burning when I jumped, and I was pulled out of the water and hauled up on shore under a tree before I remembered what had happened."

PRESBYTERY ROBBED OF EIGHTY DOLLARS.

TWO MEN BURGLARIZE THE RESIDENCE OF CURE ROY AT ST. ISIDORE.

Quebec, June 16.—Two robbers entered the Presbytery of St. Isidore, County of Dorchester, last Saturday night and carried off \$80 in cash. Cure Roy was awakened by the noise of the robbers in the house. He rose and left his room, but both men made their escape.

The thieves entered the Presbytery by breaking the glass in a window in the basement. They ransacked the whole house, but only got \$80. They carried off nothing else but the money.

It is said that the surrounding country districts are overrun with tramps, and it is supposed that this robbery was committed by two of them. The people of the district are being put on their guard to look out for the men.

INJURED WHILE TRYING TO BOARD A TRAIN.

Mr. Arthur Lefebvre, son of Mr. C. A. E. Lefebvre, was quite seriously injured in attempting to board a train of gravel cars in motion last week. Young Lefebvre, who is about sixteen years of age and is noted for his daring, was thrown over the car against a wire fence and dislocated his shoulder, had two teeth knocked out, and was severely bruised. The only wonder is that he was not instantly killed.

EXPLORER BERNIER NOW HAS SHIP

Canada to Annex Isles and Perhaps North Pole.

GALLANT CAPTAIN WILL SOON START ON HIS NORTHERN TRIP.

Quebec, June 16.—The steam barque Gauss, formerly the Antarctic exploring vessel of the German Government, which was purchased by Canada, has arrived from Bremerhaven. In her Captain Bernier will go to the Arctic for the purpose of annexing islands for the British Crown and of attempting to reach the north pole.

Captain J. Elzear Bernier, whose home is in Quebec, comes of a seafaring family, and his polar trip has been on his mind since at least 1878. A few years ago while in London he secured for his plans the approval of Sir Clement Markham, himself an old Arctic explorer, and president of the Royal Geographical Society. After that Bernier began to be hailed as the coming man in polar exploration. Last year he won the endorsement of Lord Minto, the Canadian Governor-General, who subscribed \$500 to the Bernier Arctic fund. The captain himself, it is said, has spent more than \$12,000 of his own hard-earned money. He estimates that the expedition will last four years and will cost \$130,000. Out of this sum already has been taken the price of the Gauss, the ship just arrived at Quebec. Imagine how Captain Bernier felt when after years of dreaming and scheming he saw this ship coming up the St. Lawrence to the shores of his native town. The captain places much confidence in his theory of drifting to the pole with the ice—a theory strengthened by the 100-mile drift of Nansen's Fram. He also believes in the existence of a frozen polar basin, across which it might be easy to travel on sledges. And—last, but not least—he believes that the north pole is, or should be, in Canada, and he will do his best there to hoist the flag of the Dominion. He expects to keep in touch with his bases of supplies by means of wireless telegraphy. Captain Bernier is endowed, not only with enthusiasm, but also with great physical strength, a courage born of many years battling with Atlantic storms (he never failed to make port) and a long experience as a St. Lawrence ice pilot.

MARK TWAIN WANTED A PRIZE.

INTENDED TO EXHIBIT HIMSELF AT ST. LOUIS.

St. Louis, June 16.—A letter from Samuel L. Clemens (Mark Twain), written prior to his wife's death, has been received by President Francis, of the World's Fair. In part it follows: Villa di Quarto, Firenze, May 26th, 1904.

Dear Governor Francis: It has been a dear wish of mine to exhibit myself at the great Fair and get a prize, but circumstances beyond my control have interfered and I must remain in Florence. Although I have never taken prizes anywhere else, I used to take them in school in Missouri half a century ago, and I ought to be able to repeat it now, if I could have a chance. I used to get the medal for good spelling every week, and I could have had the medal for good conduct if there had not been so much corruption in Missouri in those days; but I got it several times by trading medals and giving boot. I am willing to give boot now, if— However, those days are forever gone by in Missouri, and perhaps it is better so. Nothing ever stays the way it was in this changeable world.

Although I cannot be at the Fair, I am going to be represented there, anyway, by a portrait of Professor Gelli. You will find it excellent. Good judges say it is better than the original. They say it has all the merits of the original and keeps still, besides. It sounds like flattery, but it is just true. I suppose you will get a prize because you have created the most prodigious and, in all ways, the most wonderful Fair the planet has ever seen. Very well, you have, indeed, earned it; and with it the gratitude of State and nation. Sincerely yours, Mark Twain.

A BIG FAMILY.

New names have to be designed every year to accommodate the Disease Family, but they all revolve around one cause—The Stomach.

The receptacle of all you eat or drink cannot help but get cramped—very few escape. How can they? Just think of what lands in the stomach during a few hours—All sorts of things—sour, sweet, acid, starchy, light, heavy, vegetable and animal; all this raw material is tumbled into the stomach without much thought as to the order of its going, every particle of which has to be worked over, digested, and converted into food for nerves, blood, brain, kidneys, liver and bowels—for every tissue, cell and fibre of the body. Sometimes the stomach is overloaded, shocked and deranged and cannot do its work properly, and right here begins the starting point of disease, as no organ now receives proper nutriment, and usually the weakest cry out their warnings. That's why a well stomach means a well body, and that's why ANTI-PILL has such a marked effect. It soothes the irritated linings of the stomach, and so acts on the mucous membrane that the necessary supply of gastric juice to secure digestion is assured—ANTI-PILL, the Great System Treatment makes a well stomach.

LEVIS ALDERMAN PUNCHED INSENSIBLE.

TWO OF THE CITY FATHERS IN A DISPUTE IN COUNCIL CHAMBER.

Levis, June 15.—A rather sensational incident occurred Monday night in the Town Hall at Levis, when one or two councillors who had just engaged in a particularly heated and somewhat personal argument struck the other a heavy blow, felling him to the ground and rendering him insensible.

The injured man remained unconscious for about ten minutes during which time medical aid had been summoned to assist in reviving him. The trouble it is said was caused by one of the councillors introducing some family troubles into the business of the meeting and this was resented by the other.
